TITLE II—DISCLOSURE OF SUBSIDIES BY FOREIGN ADVERSARIES

SEC. 201. FINDINGS AND PURPOSE.

(a) **FINDINGS.**—Congress finds the following:

(1) Foreign subsidies, which can take the form of direct subsidies, grants, loans (including below-market loans), loan guarantees, tax concessions, preferential government procurement policies, or government ownership or control, can distort the competitive process by enabling the subsidized firm to submit a bid higher than other firms in the market, or otherwise change the incentives of the firm in ways that undermine competition following an acquisition.

(2) Foreign subsidies are particularly problematic when granted by countries or entities that constitute a strategic or economic threat to United States interests.

(3) The Made in China 2025 plan, states that the Chinese Communist Party will “support enterprises to carry out mergers and acquisitions (M&A), equity investment, and venture capital overseas”.

(4) The 2020 report to Congress from the bipartisan U.S.-China Economic and Security Review Commission concluded that the Chinese Government subsidizes companies with a goal of their expanding into the United States and other countries, finding that “[t]his process assists Chinese national champions in surpassing and supplanting global market leaders”. The report warns that the risk is particularly acute when it comes to emerging technologies, where China seeks to “surpass and displace the United States altogether [and that] [f]ailure to appreciate the gravity of this challenge and defend U.S. competitiveness would be dire . . . [and] risks setting back U.S. economic and technological progress for decades”.

(5) In remarks before the Hudson Institute on December 8, 2020, FTC Commissioner Noah Phillips stated, “[O]ne area where antitrust needs to reckon with the strategic interests of other nations is when we scrutinize mergers or conduct involving state-owned entities . . . companies that are controlled, to varying degrees, by the state . . . [and] often are a government tool for implementing industrial policies or to protect national security”.

(b) **PURPOSE.**—The purpose of this section is to require parties providing pre-merger notifications to include in the notification required under section 7A of the Clayton Act (15 U.S.C. 18a) information concerning subsidies they receive from countries or entities that are strategic or economic threats to the United States.

SEC. 202. MERGERS INVOLVING FOREIGN GOVERNMENT SUBSIDIES.

(a) **DEFINITION.**—In this section, the term “foreign entity of concern” has the meaning given the term in section 40207 of the Infrastructure Investment and Jobs Act (42 U.S.C. 18741(a)).

(b) **ACCOUNTING FOR FOREIGN GOVERNMENT SUBSIDIES.**—A person required to file a notification under section 7A of the Clayton Act (15 U.S.C. 18a) that received a subsidy from a foreign entity of concern shall include in such notification content regarding such subsidy.

(c) **AUTHORITY OF ANTITRUST REGULATORS.**—The Federal Trade Commission, with the concurrence of the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice, and in consultation with the Chairperson of the Committee on Foreign Investment in the United States, the Secretary of Commerce, the Chair of the United States International Trade Commission, the United States Trade Representative, and the heads of other appropriate agencies, and by rule in accordance with section 553 of title 5, United States Code, shall require that the notification required under subsection (b) be in such form and contain such documentary material and information relevant to a proposed acquisition as is necessary and appropriate to enable the Federal Trade Commission and the Assistant Attorney

General in charge of the Antitrust Division of the Department of Justice to determine whether such acquisition may, if consummated, violate the antitrust laws.

(d) **EFFECTIVE DATE.**—Subsection (b) shall take effect on the date on which the rule described in subsection (c) takes effect.

TITLE III—VENUE FOR STATE ANTITRUST ENFORCEMENT

SEC. 301. VENUE FOR STATE ANTITRUST ENFORCEMENT.

Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(4) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for renegotiation should be resolved during the same extension.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or Federal holiday, will be extended to end on the next business day.

(2) All requests for new uses (food and/or nonfood) contained in any application for a new active ingredient or a first food use are covered by the base fee for that new active ingredient or first food use application and retain the same decision time review period as the new active ingredient or first food use application. The application must be received by the Agency in one package. The base fee for the category covers a maximum of five new products. Each application for an additional new product registration and new inert approval that is submitted in the new active ingredient application package or first food use application package is subject to the registration service fee for a new product or a new inert approval. All such associated applications that are submitted together will be subject to the new active ingredient or first food use decision review time. In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(4) Amendment applications to add the new use(s) to registered product labels are covered by the base fee for the new use(s). All items in the covered application must be submitted together in one package. Each application for an additional new product registration and new inert approval(s) that is submitted in the new use application package is subject to the registration service fee for a new product or a new inert approval. However, if a new use application only proposes to register the new use for a new product and there are no amendments in the application, then review of one new product application is covered by the new use fee. All such associated applications that are submitted together will be subject to the new use decision review time. Any application for a new product or an amendment to the proposed labeling (a) submitted subsequent to submission of the new use application and (b) prior to conclusion of its decision review time and (c) containing the same new uses, will be deemed a separate new-use application, subject to a separate registration service fee and new decision review time for a new use. If the new-use application includes non-food (indoor and/or outdoor), and food (outdoor and/or indoor) uses, the appropriate fee is due for each type of new use and the longest decision review time applies to all of the new uses requested in the application. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new use application.

(5) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for re-negotiation should be resolved during the same extension.

In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. (4) Amendment applications to add the revised use pattern(s) to registered product labels are covered by the base fee for the category. All items in the covered application must be submitted together in one package. Each application for an additional new product registration and new inert approval(s) that is submitted in the amendment application package is subject to the registration service fee for a new product or a new inert approval. However, if an amendment application only proposes to register the amendment for a new product and there are no amendments in the application, then review of one new product application is covered by the base fee. All such associated applications that are submitted together will be subject to the category decision review time.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or Federal holiday, will be extended to end on the next business day.

(2) An application for a new end-use product using a source of active ingredient that (a) is not yet registered but (b) has an application pending with the Agency for review, will be considered an application for a new product with an unregistered source of active ingredient.

(3) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(4) For the purposes of classifying proposed registration actions into PRIA categories, “pest(s) requiring efficacy” are both invertebrate and vertebrate pests. Invertebrate public health pests (e.g., ticks, mosquitoes, cockroaches, flies, etc.), structural pests (e.g., termites, carpenter ants, and wood-boring beetles) and certain invasive invertebrate species (e.g., Asian Longhorned beetle, Emerald Ashborer) are listed in the product performance rule, subpart R of part 158 of title 40, Code of Federal Regulations. This list may be updated/refined as invasive pest needs arise. All other pests (e.g., vertebrates) are listed in the Pesticide Registration Notice 2002-1. To determine the number of pests for the PRIA categories, pest groups, subgroups, and pest specific claims as listed in part 158 of title 40, Code of Federal Regulations, should be counted as follows. If seeking a label claim against a general pest group (e.g., cockroaches, mosquitoes, termites, etc.), each group will count as 1. If seeking a claim against a pest subgroup (e.g., small biting flies, filth flies, etc.) or specific pests (e.g., smokybrown cockroach, house fly, etc.) without a general claim, then each subgroup or specific pest will count as 1.

(5) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for re-negotiation should be resolved during the same extension.

The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(4) For the purposes of classifying proposed registration actions into PRIA categories, “pest(s) requiring efficacy” are both invertebrate and vertebrate pests. Invertebrate public health pests (e.g., ticks, mosquitoes, cockroaches, flies, etc.), structural pests (e.g., termites, carpenter ants, and wood-boring beetles) and certain invasive invertebrate species (e.g., Asian Longhorned beetle, Emerald Ashborer) are listed in the product performance rule, subpart R of part 158 of title 40, Code of Federal Regulations. This list may be updated/refined as invasive pest needs arise. All other pests (e.g., vertebrates) are listed in the Pesticide Registration Notice 2002-1. To determine the number of pests for the PRIA categories, pest groups, subgroups, and pest specific claims as listed in part 158 of title 40, Code of Federal Regulations, should be counted as follows. If seeking a label claim against a general pest group (e.g., cockroaches, mosquitoes, termites, etc.), each group will count as 1. If seeking a claim against a pest subgroup (e.g., small biting flies, filth flies, etc.) or specific pests (e.g., smokybrown cockroach, house fly, etc.) without a general claim, then each subgroup or specific pest will count as 1.

(5) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for renegotiation should be resolved during the same extension.

(2) All requests for new uses (food and/or nonfood) contained in any application for a new active ingredient or a first food use are covered by the base fee for that new active ingredient or first food use application and retain the same decision time review period as the new active ingredient or first food use application. The application must be received by the Agency in one package. The base fee for the category covers a maximum of five new products. Each application for an additional new product registration and new inert approval that is submitted in the new active ingredient application package or first food use application package is subject to the registration service fee for a new product or a new inert approval. All such associated applications that are submitted together will be subject to the new active ingredient or first food use decision review time. In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or Federal holiday, will be extended to end on the next business day.

(2) All requests for new uses (food and/or nonfood) contained in any application for a new active ingredient or a first food use are covered by the base fee for that new active ingredient or first food use application and retain the same decision time review period as the new active ingredient or first food use application. The application must be received by the Agency in one package. The base fee for the category covers a maximum of five new products. Each application for an additional new product registration and new inert approval that is submitted in the new active ingredient application package or first food use application package is subject to the registration service fee for a new product or a new inert approval. All such associated applications that are submitted together will be subject to the new active ingredient or first food use decision review time. In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) If EPA data rules are amended to newly require clearance under section 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a) for an ingredient of an antimicrobial product where such ingredient was not previously subject to such a clearance, then review of the data for such clearance of such product is not subject to a registration service fee for the tolerance action for two years from the effective date of the rule.

(4) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(5) Amendment applications to add the new use(s) to registered product labels are covered by the base fee for the new use(s). All items in the covered application must be submitted together in one package. Each application for an additional new product registration and new inert approval(s) that is submitted in the new use application package is subject to the registration service fee for a new product or a new inert approval. However, if a new use application only proposes to register the new use for a new product and there are no amendments in the application, then review of one new product application is covered by the new use fee. All such associated applications that are submitted together will be subject to the new use decision review time. Any application for a new product or an amendment to the proposed labeling (a) submitted subsequent to submission of the new use application and (b) prior to conclusion of its decision review time and (c) containing the same new uses, will be deemed a separate new-use application, subject to a separate registration service fee and new decision review time for a new use. If the new-use application includes non-food (indoor and/or outdoor), and food (outdoor and/or indoor) uses, the appropriate fee is due for each type of new use and the longest decision review time applies to all of the new uses requested in the application. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new use application.

(6) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for renegotiation should be resolved during the same extension.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or Federal holiday, will be extended to end on the next business day.

(2) An application for a new end-use product using a source of active ingredient that (a) is not yet registered but (b) has an application pending with the Agency for review, will be considered an application for a new product with an unregistered source of active ingredient.

(3) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(4) (a) EPA-initiated amendments shall not be charged registration service fees. (b) Registrant-initiated fast-track amendments are to be completed within the timelines specified in section 3(c)(3)(B) and are not subject to registration service fees. (c) Registrant-initiated fast-track amendments handled by the Antimicrobials Division are to be completed within the timelines specified in section 3(h) and are not subject to registration service fees. (d) Registrant initiated amendments submitted by notification under Pesticide Registration (PR) Notices, such as PR Notice 98–10, continue under PR Notice timelines and are not subject to registration service fees. (e) Submissions with data and requiring data review are subject to registration service fees.

(5) The applicant must identify the substantially similar product if opting to use cite-all or the selective method to support acute toxicity data requirements.

(6) Once an application for an amendment or a new product with public health organisms has been submitted and classified into any of categories A460 through A465 or A470 through A475, additional organisms submitted for the same product before the first application is granted will result in combination and reclassification of both the original and subsequent submissions into the appropriate new category based on the sum of the number of organisms in both submissions. Submission of additional organisms would result in a new PRIA start date and may require additional fees to meet the fee of a new category.

(7) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for renegotiation should be resolved during the same extension.

The application must be received by the Agency in one package. The base fee for the category covers a maximum of five new products. Each application for an additional new product registration and new inert approval that is submitted in the new active ingredient application package or first food use application package is subject to the registration service fee for a new product or a new inert approval. All such associated applications that are submitted together will be subject to the new active ingredient or first food use decision review time. In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) Amendment applications to add the new use(s) to registered product labels are covered by the base fee for the new use(s). All items in the covered application must be submitted together in one package. Each application for an additional new product registration and new inert approval(s) that is submitted in the new use application package is subject to the registration service fee for a new product or a new inert approval. However, if a new use application only proposes to register the new use for a new product and there are no amendments in the application, then review of one new product application is covered by the new use fee. All such associated applications that are submitted together will be subject to the new use decision review time. Any application for a new product or an amendment to the proposed labeling (a) submitted subsequent to submission of the new use application and (b) prior to conclusion of its decision review time and (c) containing the same new uses, will be deemed a separate new-use application, subject to a separate registration service fee and new decision review time for a new use. If the new-use application includes non-food (indoor and/or outdoor), and food (outdoor and/or indoor) uses, the appropriate fee is due for each type of new use and the longest decision review time applies to all of the new uses requested in the application. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the preliminary technical screen, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new use application.

(4) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(5) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for renegotiation should be resolved during the same extension.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or Federal holiday, will be extended to end on the next business day.

(2) ‘New PIP’ means a PIP with an active ingredient that has not been registered.

(3) ‘Registered PIP’ means a PIP with an active ingredient that is currently registered.

(4) Transfer registered PIP through conventional breeding for new food/feed use, such as from field corn to sweet corn.

(5) If, during review of the application, it is determined that review by the FIFRA Scientific Advisory Panel (SAP) is needed, the applicant will submit an application for category B905, which will be processed concurrently, and the decision review time for both applications will be the longer of the two associated applications. The scientific data involved in this category are complex. EPA often seeks technical advice from the SAP on risks that pesticides pose to wildlife, farm workers, pesticide applicators, non-target species, insect resistance, and novel scientific issues surrounding new technologies. The scientists of the SAP neither make nor recommend policy decisions. They provide advice on the science used to make these decisions. Their advice is invaluable to the EPA as it strives to protect humans and the environment from risks posed by pesticides. Due to the time it takes to schedule and prepare for meetings with the SAP, additional time and costs are needed.

(6) Registered PIPs stacked through conventional breeding.

(7) Deployment of a registered PIP with a different Insecticide Resistance Management (IRM) plan (e.g., seed blend).

(8) The negotiated acreage cap will depend upon EPA’s determination of the potential environmental exposure, risk(s) to non-target organisms, and the risk of targeted pest developing resistance to the pesticidal substance. The uncertainty of these risks may reduce the allowable acreage, based upon the quantity and type of non-target organism data submitted and the lack of insect resistance management data, which is usually not required for seed-increase registrations. Registrants are encouraged to consult with EPA prior to submission of a registration application in this category.

(9) Application can be submitted prior to or concurrently with an application for commercial registration.

(10) For example, IRM plan modifications that are applicant-initiated.

(11) (a) EPA-initiated amendments shall not be charged registration service fees. (b) Registrant-initiated fast-track amendments are to be completed within the timelines specified in section 3(c)(3)(B) and are not subject to registration service fees. (c) Registrant-initiated fast-track amendments handled by the Antimicrobials Division are to be completed within the timelines specified in section 3(h) and are not subject to registration service fees. (d) Registrant initiated amendments submitted by notification under Pesticide Registration (PR) Notices, such as PR Notice 98-10, continue under PR Notice timelines and are not subject to registration service fees. (e) Submissions with data and requiring data review are subject to registration service fees.

(12) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(13) This category does not include genetic modifications in animals not intended for use as a pesticide, e.g., genetic modifications in animals intended for food use or animals intended for use as companion animals.

(14) If the Administrator determines that endangered species analysis is required for this action, using guidance finalized according to section 33(c)(3)(B) for this specific type of action, the decision review time can be extended for endangered species assessment one time only for up to 50%, upon written notification to the applicant, prior to completion of the technical screening. To the extent practicable, any reason for re-negotiation should be resolved during the same extension.

MOTION TO CONCUR

Ms. DELAURO. Mr. Speaker, I have a motion at the desk.

The SPEAKER pro tempore. The Clerk will designate the motion.

The text of the motion is as follows: Ms. DELAURO of Connecticut moves that the House concur in the Senate amendment to the House amendment to the Senate amendment to H.R. 2617.

The SPEAKER pro tempore. Pursuant to House Resolution 1531, the motion shall be debatable for 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations.

The gentlewoman from Connecticut (Ms. DELAURO) and the gentlewoman from Texas (Ms. GRANGER) each will control 30 minutes.

The Chair recognizes the gentlewoman from Connecticut.

GENERAL LEAVE

Ms. DELAURO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the Senate amendment to H.R. 2617.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Connecticut?

There was no objection.

Ms. DELAURO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the fiscal year 2023 government funding legislation before us, which passed the Senate yesterday on a 68-29 vote, with the support of all Democrats and 18 Republicans. It is a package of 12 appropriations bills that makes critical investments in the programs that our communities need.

The bill also includes legislation to continue to support the Ukrainian people and their fight against Russia's ruthless aggression and to help areas of our Nation devastated by recent natural disasters.

For the second year in a row, we included community projects—over 7,200—to meet urgent needs in districts all over the Nation. These bills tackle our Nation's toughest crises, they help lower the cost of living for hard-working families in the middle class, create better-paying jobs, and protect our communities and our national security.

Mr. Speaker, I have spoken at length about this strong bill. I am proud of it. I urge my colleagues to support it, and I reserve the balance of my time.

Ms. GRANGER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in opposition to H.R. 2617, an omnibus appropriations package to fund the government through the end of the fiscal year.

First, I have concerns about the size and the scope of the package, it totals almost \$2 trillion, and it comes after nearly \$3 trillion of spending was pushed through this Congress. This \$3 trillion was enacted completely outside of the normal process and many programs received staggering increases.

This record-high spending has been a key driver of inflation. It has led to record-high prices for the American people and for everything from gas to groceries.

Instead of reflecting the economic realities we face, the package of bills before us represents continued spending in areas that have already received large increases.

Second, this omnibus package bails out the administration for many of their self-inflicted wounds on issues like the border crisis and the energy crisis.

In closing, I am disappointed that I am unable to support this bill that funds our Nation's military at the authorized level, but the excess spending on nondefense programs in this bill is just too much to gain my support.

Mr. Speaker, for these reasons, I urge my colleagues to vote "no," and I reserve the balance of my time.

Ms. DELAURO. Mr. Speaker, I reserve the balance of my time.

Ms. GRANGER. Mr. Speaker, the bill before us does not include and reflect the economic realities we face. I urge my colleagues to vote "no," and I yield back the balance of my time.

Ms. DELAURO. Mr. Speaker, before I conclude, I thank and congratulate Chairman LEAHY and Vice Chairman SHELBY for their partnership over the past 2 years. I wish them all the best in their retirement.

For the House, I extend my sincerest appreciation to the subcommittee chairs of the Appropriations Committee: MARCY KAPTUR, DAVID PRICE, LUCILLE ROYBAL-ALLARD, SANFORD BISHOP, BARBARA LEE, BETTY MCCOLLUM, TIM RYAN, DEBBIE WASSERMAN SCHULTZ, CHELLIE PINGREE, MIKE QUIGLEY, and MATT CARTWRIGHT. I especially acknowledge for their outstanding careers: David, Lucille, and Tim, who will not be here with us next Congress.

Mr. Speaker, I thank all of the subcommittee ranking members for your partnership and collaboration on these bills.

A special thank you to all of our staff, including Staff Director and Clerk Robin Juliano and Deputy Staff Director Matt Washington, who we will miss dearly upon his departure early next year.

I am grateful for the staff of all the subcommittees who are with us here on the floor today who have sacrificed sleep and time away from their families to help us complete the appropriations process, including our subcommittee clerks: Martha Foley, Bob Bonner, Chris Bigelow, Scott McKee, Matt Smith, Darek Newby—who we recognize and thank upon his upcoming retirement—Rita Culp, Faye Cobb, Stephen Steigleder, Nicole Cohen, Erin Kolodjeski, Jenny Neuscheler, and Christina Monroe.

Front office staff: Katelynn Thorpe, Danu Rojzman, Jason Gray, Adam Wilson, Raquel Spencer, Alex Swann, Tom Tucker, Ryann Kinney, Sebastian

Franco, Celine Wolff, and Robert Baransaka.

My personal office staff: Becky Salay, Jack Rayburn, Caitlin Peruccio, King Green, Harper White, Marie Gualtieri, John Neureuther, Jami LaRue, Daniel Robillard, Molly Opinsky, and Merone Kahassai. I would just say: You are the best and the brightest.

I thank the minority staff: Anne Marie Chotvacs, Johnnie Kaberle, Alec Davis, Sara Peters, and the rest of the minority clerks and staff. I look forward to working with the incoming chair, Congresswoman GRANGER, as we move into the 118th Congress, and I thank her for her cooperation.

Next year, we will be the first ever committee of the House of Representatives or the United States Senate—and it is not just the Appropriations Committee, any committee—will be led in all four corners by women.

Mr. Speaker, I urge a "yes" vote, and I yield back the balance of my time.

Ms. PELOSI. Mr. Speaker, today, as the final official act of the 117th Congress, the House will pass a strong, bipartisan omnibus government funding bill.

As a courtesy to my colleagues—who are eager to get home for the holidays—I will be brief.

But I would be remiss if I did not acknowledge our magnificent Appropriations Chairwoman ROSA DELAURO. Thank you for ensuring that so many of Democrats' key priorities were included in this package.

And I salute you on an extraordinarily successful 117th Congress—during which you have wielded the gavel masterfully: whether helping meet families' needs here at home or powering the fight for Democracy abroad.

Thanks also to our committed counterparts in the Senate—Chairman PAT LEAHY and Vice Chair RICHARD SHELBY—for crafting this package.

And I want to recognize the outstanding work of my staff, led by my brilliant Policy Director, Richard Meltzer: tirelessly working to infuse this legislation with Democrats' vision and values.

I also want to acknowledge Wendell Primus, Robert Edmondson, Alex Urry, and the many more policy professionals in the Speaker's Office whose work helped to strengthen this final package.

Thanks to Democrats' tenacious negotiating, we have secured in this bill a significant increase in non-defense discretionary funding. And with this boost, we steer more federal resources to key priorities that will improve the everyday lives of the American people. To name just a few:

This means fulfilling our patriotic duty to our veterans, securing a major increase in veterans' health care.

This means deeply needed relief to support victims of natural disaster, address the water crisis in Mississippi and deliver \$1 billion for Puerto Rico's electric grid.

This means increasing the maximum Pell Grant, making it easier for children to chase their dreams of higher education.

This means important investments in building more affordable housing and strengthening our energy infrastructure.

This means more funding for the National Labor Relations Board, strengthening workers' right to organize.

This means more resources under the Violence Against Women to prevent and prosecute gender-based violence.

And this means our Members will bring home critical Community Project Funding to help meet specific needs in our districts.

And with this package, we are also making impactful new investments for America's working families.

We are expanding the promise of quality, affordable health care:

- from preventing disruptions to Medicaid coverage,
- to strengthening critical lifelines for underserved communities,
- to improving access to mental health services,
- to taking commonsense steps to prepare for the next pandemic.

We are advancing our For The Children Agenda:

ensuring millions of kids have permanent, continuous health coverage while creating a new permanent Summer EBT program to ensure 29 million kids have access to nutritious food during the summer.

We are securing basic accommodations for pregnant workers—so that no one has to choose between a healthy pregnancy and a paycheck.

We are guaranteeing protections for breastfeeding in the workplace—so that parents cannot be punished for caring for their newborns.

And we are honoring our sacred duty to our 9/11 heroes:

securing catch-up payments to families that for too long have been wrongfully denied every cent they're due;

and bolstering funding for a health program that cares for courageous first responders and survivors.

Importantly, with this package we will deliver another consequential round of security, economic and humanitarian aid to Ukraine.

On Wednesday—here on this Floor—President Zelenskyy spoke powerfully about courage and commitment, heroism and hope.

And we applauded him—and his people—for their undaunted determination as they battle for their homeland and for their freedom.

The fight for Ukraine is the fight for Democracy itself—and we will stand with the valiant Ukrainian people until victory is won.

As we propel the fight for freedom abroad, we also take a strong step to shore up our Democracy here at home.

The omnibus includes a bipartisan bill to reform the Electoral Count Act of 1887—which will help thwart future attempts to disrupt the peaceful transfer of power, like we saw here in this very Chamber on January 6th.

Mr. Speaker. This is truly a package For The People.

And with immense gratitude to Chairs DELAURO and LEAHY—and Vice Chair SHELBY—I urge a strong, bipartisan “AYE” vote.

Ms. KAPTUR. Mr. Speaker, I thank Chair DELAURO. I'd also like to thank the staff who have dedicated superlative effort to this final product, including Scott McKee, Brian Smith, Daniela Todesco, Nick Montoni, and Steven Kappen on subcommittee and John Howes on my staff.

The Energy and Water funding of this bill captures America's spirit of ingenuity and independence, especially energy security in

perpetuity. It provides \$54.65 billion in critical investments in our nation's water infrastructure and to combat climate change.

The bill provides \$10.6 billion, \$347 million over FY22, for water infrastructure throughout the country through the Corps of Engineers and Bureau of Reclamation. There is \$2.374 billion in funding for Harbor Maintenance Trust Fund and Donor and Energy Transfer Ports.

The bill invests \$15.3 billion, \$1.2 billion over FY22, in clean energy innovation to respond to the climate crisis. Notably, the inclusion of \$471 million for State and Community Energy Programs allows DOE to more directly “meet the streets,” working with state, local, and community-level partners to transform the high science of our excellent national labs to communities where people live. Our goal is to lower energy costs of hardworking American families and senior.

In addition, the Disaster supplemental includes \$1.13 billion for the Corps of Engineers to make necessary repairs to projects impacted by hurricanes and other natural disasters and to construct projects that will increase resiliency from future flooding and storms, including in Puerto Rico. In addition, the Disaster Supplemental includes \$1 billion for the Department of Energy to strengthen Puerto Rico's electric grid and assist vulnerable and disadvantaged communities in purchasing and installing clean energy technologies.

The bill provides for a safe and secure nuclear deterrent while addressing the threat of nuclear proliferation. Importantly our bill protects our environment by funding legacy nuclear cleanup work. In addition, the Ukraine supplemental provides \$126 million to prepare for and respond to potential nuclear and radiological incidents in Ukraine. This funding is part of the omnibus' \$45 billion in additional American funding for Ukraine as she fights for Liberty.

Finally, the bill supports economic and community development, job training, and critical infrastructure with \$312 million directed to the regional commissions. These Commissions and Authorities are vital lifelines for places where economic and environmental revitalization must be advanced.

Further, in far too many towns and cities, energy and water innovation has languished and needs to be placed centerfold in regional strategic plans to reboot economies where deindustrialization and disinvestment are a major downdraft on economic growth. Innovation in regional energy and water systems must serve as foundational to economic growth.

Further, I am excited that our Great Lakes Authority legislation is included in this omnibus. This new federal instrumentality will unlock the Industrial and Freshwater Heartland's full potential for the century ahead.

In sum, our bill invests in initiatives that will yield future opportunities and new, good-paying jobs. Through innovative energy and water investments, I am fully confident our nation will meet our domestic challenges from coast to coast and propel our Nation into an energy, water, nuclear secure future.

Mr. PALLONE. Mr. Speaker, I rise in strong support of this final omnibus package.

This bill includes important health care and consumer protection provisions out of the Energy and Commerce Committee.

The bill invests in our children's health with two years of additional funding for the Chil-

dren's Health Insurance Program (CHIP) and, for the first time, guarantees 12 months of continuous coverage for kids on CHIP and Medicaid. This will safeguard access to health care for 40 million young people across the nation. It also permanently extends the option for states to provide new moms with Medicaid coverage for 12 months postpartum, a critical part of our effort to address the unacceptable maternal mortality crisis that disproportionately affects women of color.

I am also pleased that we reached bipartisan agreement to ensure Puerto Rico and the U.S. Territories have the Medicaid funding they need to ensure access to care for their residents.

The government funding agreement also provides additional resources to address the mental health and substance use disorder crises facing the nation, especially among our young people. It reauthorizes key programs that support Americans' mental health and substance use recovery needs, expands access to medication assisted treatment, bolsters workforce capacity and training, and establishes important new programs and services including a national maternal mental health hotline and task force.

The omnibus also strengthens our nation's public health agencies. It modernizes the Food and Drug Administration's (FDA) accelerated approval program to give the agency more oversight over drugs and biologics that receive approval through this pathway. It also provides the agency with new authority to improve the diversity of populations participating in clinical trials, and finally updates FDA's authority to oversee the safety of cosmetics and personal care products. This is something I've been working on for more than a decade and now it is a reality. This omnibus also applies the lessons learned from the COVID-19 pandemic to help the Centers for Disease Control and Prevention prepare to respond to future public health emergencies.

Finally, the omnibus includes a number of important consumer protection provisions that will guard consumers against counterfeit and dangerous products, bolster U.S. manufacturing, and continue to promote our economic competitiveness on the world stage.

I am proud that this final bill includes so many important health care and consumer protection provisions that came out of the Energy and Commerce Committee in a bipartisan fashion over this last Congress. I urge my colleagues to support this important bill that invests in the health and well-being of the American people. I am submitting additional supplemental materials on the intent of certain Medicaid provisions that I authored in the omnibus.

Mr. Speaker, the bill before us today is a tremendous step forward in expanding health care access for millions of low-income Americans. It will permanently strengthen access to Medicaid for children, new mothers, seniors, and individuals with disabilities. It will responsibly wind down the maintenance of effort requirement from the Families First Coronavirus Response Act (FFCRA), and gradually phase out the enhanced federal Medicaid matching funds. And finally, it will expand beneficiary protections, enhance transparency, and provide the Secretary of Health and Human Services (HHS) with additional tools to prevent improper coverage loss.

Under FFCRA, Congress provided states with a temporary increase in their federal Medicaid dollars in exchange for states adopting

certain policies. Collectively, these policies were known as the “maintenance of effort” requirements. One of these requirements is that for the duration of the public health emergency, states may not disenroll anyone from their Medicaid programs, sometimes referred to as the continuous coverage requirement.

Experts have raised concerns that when the continuous coverage requirement ends, millions of eligible Medicaid beneficiaries—most of whom would be children—could improperly lose access to health care. This is unacceptable. I’m pleased that this legislation includes several provisions to mitigate these coverage losses.

Specifically, it gives the Secretary additional enforcement authority to ensure that states follow all requirements that apply to Medicaid eligibility redeterminations. These are, of course, in addition to enforcement tools already available to the Secretary under current law. Under this legislation, states would only receive the enhanced federal funds if they follow these requirements. This will provide the Secretary with more targeted enforcement authority in addition to that which he already has under the Medicaid statute.

The bill before us also combines discretionary enforcement authorities with mandatory penalties for states that fail to comply with certain provisions. For example, if a state is out of compliance with the additional beneficiary protections, the Secretary may require a corrective action plan, assess civil monetary penalties against a state, or require a state to stop disenrolling individuals for procedural reasons. However, if a state fails to comply with the bill’s data reporting requirements, the bill would require the Secretary to reduce that state’s Medicaid matching rate.

States will face an unprecedented task when they begin the work of conducting eligibility redeterminations for more than 80 million low-income individuals, including children, seniors, and individuals with disabilities. That is why it is so critical for us to pass this bill to provide additional protections to these vulnerable populations. That said, I want to be clear that nothing in this bill in any way constrains the remedies available under current law to Medicaid beneficiaries and stakeholders who have been harmed by a state’s violations of the Medicaid statute. Specifically, the bill does not establish a comprehensive remedial regime of the type described by the United States Supreme Court in decisions regarding litigation involving section 1983. It is also not the intent of Congress to alter any federal right on the part of private individuals to use the remedies guaranteed by Section 1983, if they are injured by unlawful state actions involving Medicaid eligibility redeterminations.

The bill before us is a huge victory for Medicaid beneficiaries and states. It expands coverage while giving states the resources they need to responsibly transition from the continuous coverage requirement, while protecting low-income individuals from improper coverage loss. It will provide the Secretary of HHS with new tools to protect beneficiaries, while preserving the existing enforcement mechanisms and legal remedies that will help mitigate coverage loss. This bill is obviously not perfect, and there is still more that must be done to expand coverage to low-income individuals, but I’m proud of this bill and strongly believe it will improve access to health care for millions of our most vulnerable citizens. I

urge my colleagues to join me in supporting this important bill.

Mr. KILDEE. Mr. Speaker, the Great Lakes are essential to Michigan’s economy and our way of life. They foster billions of dollars in economic activity in our local economies and support millions of jobs in the fishing, boating and tourism industries. That’s why I am pleased the Great Lakes Authority was included in the FY2023 Omnibus. By investing in job training and workforce development, this new federal entity will empower our workers, lift up the Great Lakes region and build back our communities. The regional plan will help us combat climate and create more good-paying jobs here in Michigan. I look forward to developing the Great Lakes Authority further in the next Congress and working across the aisle to advance meaningful community engagement and economic growth for our region.

Ms. JACKSON LEE. Mr. Speaker, as a senior member of the Committees on the Budget, Judiciary, and Homeland Security, I proudly rise in support of the omnibus appropriations legislation that provides funding to continue the operations of the federal government through September 30, 2023, enhances supportive services to the American people, and avoids a wasteful and irresponsible shutdown.

I am relieved that an agreement has been reached between the bicameral, bipartisan leadership, and produced an omnibus spending package that has the highest levels of non-defense spending in our Nation’s history.

This legislation provides vitally needed and long overdue funding that will make our communities safer, improve health coverage for children and families, increase funding for veterans’ health care, help victims of hurricanes and wildfires, prevent violence against women, preserve our democracy, address the climate crisis, and deliver another round of essential security, economic and humanitarian assistance to Ukraine.

Democrats secured an astounding \$800 billion in non-defense spending—\$68 billion more than last year, a 9.3% increase—to raise living standards for Houston residents and millions of Americans.

Not only does this spending package include necessary increases in funding for ongoing programs and services; it also approves spending for the implementation of groundbreaking, historic legislation that was enacted into law, led by Democrats, in 2022.

Passage of this legislation will improve safety for Houstonians and all Americans. It addresses the epidemic of gun violence by funding provisions of the Bipartisan Safer Communities Act and the Gun Violence Reduction Grants, and it bolsters police and criminal justice reform by expanding gun violence prevention efforts.

The spending package allocates \$1.75 billion, an increase of \$215.9 million above the fiscal year 2022 enacted level, to bolster efforts to prevent and respond to gun violence.

It provides \$135 million for STOP School Violence Act Grants.

It will deliver \$50 million for community-based violence intervention and prevention initiatives.

Additionally, it allocates \$95 million to strengthen the National Instant Criminal Background Check System.

The bill improves healthcare for my constituents and millions of Americans by enhancing

Medicaid and Medicare coverage, adding to child, family, maternal, and minority health programs, and providing critical funding for veterans’ medical care. The omnibus:

- makes permanent the option for states to provide women with uninterrupted Medicaid coverage for 12 months postpartum, which will help address the maternal mortality crisis that has been especially devastating for communities of color;

- gives 40 million children in America permanent health care through Medicaid/Chips;

- ensures permanent, mandatory, and continuous healthcare coverage for over 40 million children enrolled in Medicaid and CHIP through the year 2029;

- allocates \$823 million for the Maternal and Child Health Block Grant, including \$55 million for State Maternal Health Innovation Grants, and \$7 million for the Maternal Mental Health Hotline;

- increases funding to the Office of Minority Health and the Minority HIV/ AIDS initiative; and

- helps expand affordable, quality care to more Americans by allocating record-level Medicaid funding to Puerto Rico and permanently enhanced Medicaid funding for other territories;

- provides, through the efforts of Democrats, a \$21 billion increase for veterans’ healthcare, including supporting the VA as it implements the landmark PACT Act.

Mr. Speaker, the package before us will lower the cost of living and ensure the continuation of SNAP benefits for millions of hard-working American families.

The omnibus will protect housing assistance for more than 4.8 million individuals and families.

It provides a combined \$45.2 billion for Section 8 Rental Assistance to continue serving more than 3.5 million households nationwide, including an expansion of housing assistance to more than 12,000 low-income families, survivors of domestic violence, and veterans.

The legislation invests \$3.6 billion in efforts to reduce homelessness through Homeless Assistance Grants.

The omnibus includes a \$500 increase in the maximum Pell Grant for the students who need them most.

It expands opportunity for underserved Americans through critical investments in education, especially for high-poverty schools by providing \$18.4 billion for Title I Grants, and for students with disabilities by providing \$15.5 billion for Special Education programs.

It supports students at Minority Serving Institutions (MSIs), Historically Black Colleges and Universities (HBCUs), Hispanic Serving Institutions, and Tribally Controlled Colleges and Universities through over \$1 billion in funding.

The legislation tackles hunger and nutrition insecurity by expanding access to fruits and vegetables to 6.2 million women, infants, and children through WIC and ensures that 43.5 million people in SNAP-eligible families get the necessary benefits to which they are entitled.

The Consolidated Appropriations Act, 2023 will also fund efforts to end violence against women.

I’ve championed the fight against domestic violence for many years, and as chairwoman of the Judiciary Subcommittee on Crime, Terrorism, and Homeland Security, I sponsored H.R. 1620, the Violence Against Women Act

Reauthorization of 2021. The reauthorization of VAWA was one of this year's great successes, and I am so pleased to see that the Consolidated Appropriations Act, 2023 will accelerate its implementation, as it:

- provides \$700 million for Violence Against Women Act prevention and prosecution programs;

- provides services and assistance to victims of domestic violence and assault; and

- supports victims with \$225 million to reduce the backlog in access to sexual assault kits and other DNA evidence tools.

This funding package also provides substantial funding to fight the climate crisis and ensure a better life for future generations to come.

By following the science, it enables the development of common-sense standards to curb pollution with \$10.1 billion for the EPA, including \$4.1 billion for core science and environmental program work.

The bill includes more than \$15.3 billion of transformative investments in clean energy and science, which will help the development and deployment of clean, affordable, and secure American energy while creating tens of thousands of "green jobs" in communities across the country.

The omnibus includes \$6.35 billion for the National Oceanic and Atmospheric Administration, including strong investments in support of climate research, weather forecasting, offshore wind energy, and STEM education.

Without these visionary, expansive provisions that address climate change, we risk exposing ourselves to harsher changes in climate and the wrath they inflict. Today, we are already experiencing the devastating effects of climate change. People in my Houston district, and indeed around the country, are living through cataclysmic natural disasters that are occurring with increasing frequency and severity.

This funding package addresses the needs of communities that have been severely impacted by hurricanes and wildfires, and it provides essential disaster response and recovery funding.

The omnibus provides \$4.6 billion to help Americans who suffer from wildfires, hurricanes, and other natural disasters during, and prior to, calendar year 2023.

It allocates \$20 billion for disaster response and recovery.

The omnibus also equips us to address challenges to our security and our national values. In our ever-evolving global society, every day we face new threats to democracy and to the wellbeing of those who seek to live in a free and just world.

Russia's launch of a premeditated war against Ukraine is an attack on democracy and a grave violation of international law, global peace, and security.

The fighting sparked massive displacement, forcing over 7.6 million Ukrainians to flee their homes to find refuge in neighboring states, and putting women and girls at heightened risk of violence.

As leader of the free world, the USA has the duty and responsibility to help Ukraine preserve its freedom and democracy. Therefore, I proudly support the spending provisions in this bill that respond to Ukraine's needs for humanitarian and security assistance.

The Consolidated Appropriations Act, 2023 continues critical security assistance to

Ukraine with an additional \$300 million for the Ukraine Security Assistance Initiative for training, equipment, weapons, supplies, and salaries.

It provides intelligence support to the Ukrainian military and national security forces.

It provides \$2.5 billion for humanitarian needs in Ukraine and in countries impacted by the situation in Ukraine, and for additional support for other vulnerable populations.

Just as threats against democracy are prevalent around the world, they are also afflicting us here in the United States.

In response to the despicable, appalling assault on the Capitol that attempted to disrupt our election proceedings on January 6, 2021, we must do everything in our power to ensure that democracy always prevails in the US.

Our democracy must never be jeopardized by threats from homegrown extremists, nor deterred by delusional obsessions harbored by a would-be autocrat and his sycophants.

The bill's inclusion of the Electoral Count Reform Act will codify the process by which Congress counts presidential electoral votes and ratifies the outcome of the presidential election.

It will clarify to Americans that the Vice President's role in ratifying states' electoral college votes is purely ministerial and ceremonial, despite what the person who used to sit in the Oval Office led millions to believe.

There are other ancillary but no less important features included in the Consolidated Appropriations Act:

- An increase in funding—to \$7.8 billion—for NASA's Science Mission Directorate will generate better scientific information about the Earth and its changing climate, and will advance our understanding of both our solar system and the universe.

- The \$220 million for the NATO Security Investment Program will improve the infrastructure that is necessary for wartime, crisis, peace support, and deterrence operations. The funds will support responses to the challenges posed by Russian aggression, as well as the risks and threats emanating from the Middle East and North Africa.

- Two amendments passed by the Senate will protect women's reproductive and childcare rights so their careers are not impaired by pregnancy and motherhood. By the Pregnant Workers Fairness Act being added to the omnibus, women will not face discrimination or adverse career impacts due to being pregnant, and, by having access to a place at work to breastfeed, women can balance work and family life when they have a new baby, without adverse impacts to their careers.

- The omnibus bolsters our ability to defend democracy and counter China through funding to protect a free and open Indo-Pacific region.

The legislation enables us to repair roads and highways, expand bicycle and pedestrian infrastructure, improve Federal auto safety programs, and upgrade public transit systems, implementing the historic investments that were enacted in the Infrastructure Investment and Jobs Act.

The bill includes \$900 million for global health security and \$2 billion for the replenishment of the Global Fund to Fight AIDS, Tuberculosis, and Malaria.

H.R. 2617 asserts our respect for the dignity of migrants by providing \$1.9 billion in new funding to improve processing, sheltering, and medical care provided to migrants by Customs

and Border Patrol and Immigration Control and Enforcement.

By providing \$6.8 billion in humanitarian assistance and \$2.5 billion in emergency humanitarian funding, the bill addresses the historic levels of global displacement and humanitarian assistance needs caused by natural disasters, economic strain from the pandemic, and the worldwide impact of Russia's horrific aggression against Ukraine.

The omnibus equips us to counter the rise of authoritarianism by investing \$2.9 billion for global democracy programs and \$315 million for the National Endowment for Democracy.

In addition to the extraordinary, extensive, and diligent work by appropriators in both chambers that will benefit the entire nation, this bill includes Community Project Funding which I requested for vital projects that will improve quality-of-life in Houston.

These projects, for which I advocated strongly, are of specific importance to my constituents and will have a direct, uplifting impact on the entire Houston area. They include:

- Department of Housing and Urban Development Community Development Fund for: Community Field at Jack Yates High School \$100,000.

- Department of Housing and Urban Development Community Development Fund for: The Buffalo Bayou Partnership \$750,000.

- Department of Housing and Urban Development Community Development Fund Riverside Planning for Restoration, Renovation and Additions for: Harris County \$750,000.

- Department of Housing and Urban Development Community Development Fund Transportation & Infrastructure Safety Improvement Project for: The OST/Alameda Corridors Redevelopment Authority \$4,000,000.

- Department of Housing and Urban Development Community Development Fund Park and Community Redevelopment for: City of Houston \$4,000,000.

- NASA Safety Security and Mission Services Houston Independent School District, Houston for: Houston-Rice Planetary Project \$1,983,320.

- Department of Labor Employment and Training Administration for: City of Houston, for job training in the home recovery and construction industries \$1,000,000.

- Department of Health and Human Services Health Resources and Services Administration for: City of Houston—Houston Health Department for a vision health program \$1,000,000.

- Department of Health and Human Services Health Resources and Services Administration for: University of Texas Health Science Center at Houston for facilities and equipment \$1,000,000.

- Department of Health and Human Services Substance Use and Mental Health Services Administration for: Baylor College of Medicine, Houston for substance use disorder services and treatment for people experiencing homelessness \$1,000,000.

- Department of Education Elementary and Secondary Education for: Best Buddies International, Houston for inclusion support for students with disabilities \$100,000.

Throughout the 117th Congress, House Democrats have worked to deliver results for the American people, passing legislation to lower health care costs, create jobs by rebuilding America, making our communities safer, and strengthening our Democracy.

Mr. Speaker, our country desperately needs the projects, programs, services, and improvements that are included in this historic spending package. Without passage of this omnibus spending bill, the quality-of-life of millions of Americans would suffer, livelihoods would be jeopardized, and the safety and security of the United States would be sharply diminished.

Therefore, I believe this is a critically necessary bill, I support it enthusiastically, and I urge all of my colleagues to join me in voting for passage of this bipartisan, essential legislation.

Ms. LEE of California. Mr. Speaker, I rise in support of this omnibus spending bill for fiscal year 2023. As Chair of the Subcommittee on State, Foreign Operations, and Related Programs, I thank Chair DELAUNO, my fellow Cardinals and the Speaker for their tireless work to get this bill to the floor.

I also want to thank my talented and hard-working subcommittee staff that put this bill together—Clelia Alvarado, Craig Higgins, Jean Kwon, Marin Stein, Jonathan Stivers, Jason Wheelock—and my Clerk, Erin Kolodjeski.

This bill strengthens global partnerships, bolsters public health, fights the climate crisis, supports displaced and vulnerable people, promotes democracy, and brings us closer to achieving the UN Sustainable Development Goals by 2030. These critical investments in the people and programs of our foreign affairs agencies deserve all of our support.

In total, the bill provides \$59.7 billion in funding for State Department, USAID, and related programs—an increase of \$3.6 billion above fiscal year 2022.

In addition, the legislation includes \$16.6 billion in emergency humanitarian, economic, and security assistance for Ukraine, countries affected by the situation in Ukraine, and other assistance to vulnerable populations and communities.

This bill also contains crucial investments to help the world confront the climate crisis. As a country responsible for a huge portion of global emissions, we have a moral obligation to support developing countries impacted by climate change and I will continue to fight for more resources for those feeling the greatest impacts.

This bill funds the President's Emergency Plan for AIDS Relief, PEPFAR, at its highest levels on record, including fulfilling the \$2 billion pledge for the Global Fund. As we approach the 20th anniversary of PEPFAR, this investment gets us closer to the goal of an AIDS free generation by 2030.

The funds included in this bill support the commitments made by the Biden-Harris Administration during June's Summit of the Americas and last week's Africa Leaders Summit, cementing these partnerships for the next decade. I am especially pleased that this bill provides unprecedented support to our closest neighbors in the Caribbean, including in the areas of security, economic growth, and climate resiliency.

At a time when reproductive rights have been stripped from millions, supporting gender equity could not be more important. This bill advances gender equity and equality by increasing funding for programs that support women and girls. However, I am deeply disappointed that this bill does not provide the resources women around the world need to make decisions about their bodies and families. This is unjust and affects women, their families, and communities negatively.

Overall, this bill represents a major step forward in diversity, equity, and justice across the globe. I thank my colleagues, and I urge us all to support this bill.

Mr. PALLONE. Mr. Speaker, I rise in strong support of this final omnibus package. This bill includes important health care and consumer protection provisions out of the Energy and Commerce Committee.

The bill invests in our children's health with 2 years of additional funding for the Children's Health Insurance Program (CHIP) and, for the first time, guarantees 12 months of continuous coverage for kids on CHIP and Medicaid. This will, safeguard access to health care for 40 million young people across the nation. It also permanently extends the option for states to provide new moms with Medicaid coverage for 12 months postpartum, a critical part of our effort to address the unacceptable maternal mortality crisis that disproportionately affects women of color.

I am also pleased that we reached bipartisan agreement to ensure Puerto Rico and the U.S. Territories have the Medicaid funding they need to ensure access to care for their residents.

The government funding agreement also provides additional resources to address the mental health and substance use disorder crises facing the Nation, especially among our young people. It reauthorizes key programs that support Americans' mental health and substance use recovery needs, expands access to medication assisted treatment, bolsters workforce capacity and training, and establishes important new programs and services including a national maternal mental health hotline and task force.

The omnibus also strengthens our nation's public health agencies. It modernizes the Food and Drug Administration's (FDA) accelerated approval program to give the agency more oversight over drugs and biologics that receive approval through this pathway. It also provides the agency with new authority to improve the diversity of populations participating in clinical trials, and finally updates FDA's authority to oversee the safety of cosmetics and personal care products. This is something I have been working on for more than a decade and now it is a reality. This omnibus also applies the lessons learned from the COVID-19 pandemic to help the Centers for Disease Control and Prevention prepare to respond to future public health emergencies.

Finally, the omnibus includes a number of important consumer protection provisions that will guard consumers against counterfeit and dangerous products, bolster U.S. manufacturing, and continue to promote our economic competitiveness on the world stage.

I am proud that this final bill includes so many important health care and consumer protection provisions that came out of the Energy and Commerce Committee in a bipartisan fashion over this last Congress. I urge my colleagues to support this important bill that invests in the health and well-being of the American people. I include in the RECORD additional supplemental materials on the intent of certain Medicaid provisions that I authored in the omnibus.

The bill before us today is a tremendous step forward in expanding health care access for millions of low-income Americans. It will permanently strengthen access to Medicaid for children, new mothers, seniors, and indi-

viduals with disabilities. It will responsibly wind down the maintenance of effort requirement from the Families First Coronavirus Response Act (FFCRA), and gradually phase out the enhanced federal Medicaid matching funds. And finally, it will expand beneficiary protections, enhance transparency, and provide the Secretary of Health and Human Services (HHS) with additional tools to prevent improper coverage loss.

This will provide the Secretary with more targeted enforcement authority in addition to that which he already has under the Medicaid statute.

The bill before us also combines discretionary enforcement authorities with mandatory penalties for states that fail to comply with certain provisions. For example, if a state is out of compliance with the additional beneficiary protections, the Secretary may require a corrective action plan, assess civil monetary penalties against a state, or require a state to stop disenrolling individuals for procedural reasons. However, if a state fails to comply with the bill's data reporting requirements, the bill would require the Secretary to reduce that state's Medicaid matching rate.

States will face an unprecedented task when they begin the work of conducting eligibility redeterminations for more than 80 million low-income individuals, including children, seniors, and individuals with disabilities. That is why it is so critical for us to pass this bill to provide additional protections to these vulnerable populations. That said, I want to be clear that nothing in this bill in any way constrains the remedies available under current law to Medicaid beneficiaries and stakeholders who have been harmed by a state's violations of the Medicaid statute. Specifically, the bill does not establish a comprehensive remedial regime of the type described by the United States Supreme Court in decisions regarding litigation involving section 1983. It is also not the intent of Congress to alter any federal right on the part of private individuals to use the remedies guaranteed by Section 1983, if they are injured by unlawful state actions involving Medicaid eligibility redeterminations.

The bill before us is a huge victory for Medicaid beneficiaries and states. It expands coverage while giving states the resources they need to responsibly transition from the continuous coverage requirement, while protecting low-income individuals from improper coverage loss. It will provide the Secretary of HHS with new tools to protect

beneficiaries, while preserving the existing enforcement mechanisms and legal remedies that will help mitigate coverage loss. This bill is obviously not perfect, and there is still more that must be done to expand coverage to low-income individuals, but I'm proud of this bill and strongly believe it will improve access to health care for millions of our most vulnerable citizens. I urge my colleagues to join me in supporting this important bill.

Ms. DELAURO. Mr. Speaker, I rise in support of the fiscal year 2023 government funding legislation before us, a package of 12 appropriations bills that makes critical investments to help our communities. The bill also includes legislation to continue the fight against Russian aggression and to help parts of our Nation devastated by natural disasters.

For far too long, our economy has been working for billionaires and big corporations that use their power to shape this budget. But over the past two years, we have worked to reverse this trend and reinvest in the programs that hardworking people, small businesses, and communities in need rely on. And they are finally paying taxes.

I came to Washington to do that, inspired by the work of leaders, who in times of despair, brokered life-changing victories whose impact we feel to this day. These are leaders like Hubert Humphrey, who served in these halls, and who held that the "moral test of government" is how we treat those "in the dawn of life, the twilight of life, and the shadows of life." And I have always held that as a guiding principle.

These bills before us pass this moral test of government—they touch every corner of our Nation and impact people at every stage of their lives. With \$1.7 trillion in discretionary resources, we are investing the highest level of funding ever in non-defense government programs while keeping our communities and our Nation safe.

This funding helps us tackle the biggest issues facing American families, including inflation and rising costs. We lower the cost of living for hardworking people and the middle class by investing in child care, early learning programs, high poverty schools and students with disabilities, by expanding access to higher education and increasing the maximum Pell Grant award by \$500, by strengthening high-quality job training and apprenticeship programs, and by making the dream of owning a home a more realistic one for many families.

We strengthen our economy by creating better-paying jobs, putting people to work rebuilding our infrastructure, keeping our Nation competitive, strengthening our supply chain, helping small businesses access the capital they need, investing in the economic development of distressed communities, and preserving our advanced manufacturing base. In addition, for the first time since 2010, we included an increase in funding for the National Labor Relations Board to \$299 million, a \$25 million increase, to protect workers' rights to collective bargaining. People haven't seen a pay raise in decades, and this change makes that more likely.

This package also provides a necessary lifeline to families and communities struggling to make ends meet by meeting their basic needs. We are strengthening nutrition assistance, increasing access to affordable housing by creating over 21,500 affordable housing units and expanding housing options for people experiencing homelessness, fighting health disparities and health crises, prioritizing the

health of our veterans with a record \$118.7 billion for VA medical care, providing \$800 million, a huge increase of \$650 million, for the migrant Shelter and Services Program, formerly the Emergency Food and Shelter Humanitarian Program, increasing funding by \$125 million for Violence Against Women Act prevention and prosecution programs, and investing in rural broadband.

These investments are strengthened with a recommitment to the funding we need to keep our Nation and our communities safe. With strong increases for the Department of Defense, we protect our national security and strengthen our ability to counter China and other near-peer adversaries. We defend global democracy from threats from Russia and China. We enhance our maritime, border, and cyber security, protect our military personnel and installations and prioritize a combination of defense, diplomacy, and global development efforts.

We support our police and state and local law enforcement at all levels with \$4.4 billion in grants, fight the gun violence epidemic on several fronts, and bolster our public health infrastructure and our biomedical research, including with \$47.5 billion for the National Institutes of Health.

We make investments to battle climate change with environmental enforcement and environmental justice efforts, launching a renewed focus on land and water conservation, and investing in clean energy and climate science.

Simultaneously, for the second year in a row after a decade without this funding, this bill includes community projects to meet the needs of districts all over the Nation. This package includes over 7,200 projects totaling over \$15 billion and requested by 407 Members and Senators—including 223 Democrats and 120 Republicans in the House. These projects respond directly to pressing needs locally by supporting underserved areas and making all our communities healthier, safer, and stronger.

And as communities rebuild from recent natural disasters and extreme weather events, this bill provides \$27 billion in urgently needed support to help families, small businesses, and entire towns and cities recover, repair damaged infrastructure, and prepare for future disasters, including \$1 billion for the electric grid in Puerto Rico.

Finally, as Ukraine continues to defend itself against Putin's ruthless attack, this bill provides \$45 billion in emergency funding to support the Ukrainian people and defend global democracy—investments that save lives, make our world safer, and help defend against Putin's continued war crimes. Congress heard from President Zelenskyy. His plea to us was clear—they desperately need our continued support. In his words, "This struggle will define what world our children and grandchildren will live in." Ukraine's struggle is democracy's struggle—it is a struggle for freedom and independence. We stood and we clapped when he told us last night that our "money is not charity. It's an investment in the global security and democracy that we handle in the most responsible way." Because it is. This funding will save lives and protect democracy. We have no other choice.

It has been an honor to serve as Chair of the Appropriations Committee for the past two years and to bring to the Floor yet another

strong bill. This package makes critical, bipartisan investments that lower the cost of living for hardworking families, create better-paying jobs, and help communities in need.

I wish more of our priorities had been included—including increased funding for Title X and other family planning programs in the wake of the Supreme Court's decision to overturn *Roe v. Wade*. Women are and will continue to suffer until we do more to help them access essential health care services, and I am deeply disappointed we were not able to increase this funding. I will continue to wage the battle for increased resources for women's health.

I want to make it very clear to everyone here and to all our constituents at home that I will never stop fighting for the programs that make the biggest impact as we look to continue passing the moral test of government.

Before I conclude, I would like to thank and congratulate Chairman LEAHY and Vice Chairman SHELBY for their partnership over the past two years. I wish them all the best in their retirements.

For the House, I extend my sincerest appreciation to the subcommittee Chairs of the Appropriations Committee: MARCY KAPTUR, DAVID PRICE, LUCILLE ROYBAL-ALLARD, SANFORD BISHOP, BARBARA LEE, BETTY MCCOLLUM, TIM RYAN, DEBBIE WASSERMAN SCHULTZ, CHELLIE PINGREE, MIKE QUIGLEY, and MATT CARTWRIGHT. I want to especially acknowledge DAVID, LUCILLE, and TIM who will not be here with us next Congress and acknowledge them for their outstanding careers. I also thank all of the subcommittee Ranking Members for your partnership and collaboration on these bills.

A special thank you to all of our staff, including Staff Director and Clerk, Robin Juliano, and Deputy Staff Director, Matt Washington—who we will miss dearly upon his departure early next year.

I am grateful for the staff of all the subcommittees—who are up in the gallery with us—who have sacrificed sleep and time away from their families to help us complete the appropriations process, including our subcommittee Clerks Martha Foley, Bob Bonner, Chris Bigelow, Scott McKee, Matt Smith, Darek Newby—who we recognize and thank upon his upcoming retirement—Rita Culp, Faye Cobb, Stephen Steigleder, Nicole Cohen, Erin Kolodjeski, Jenny Neuscheler, and Christina Monroe.

And the front office staff—Katelynn Thorpe, Danu Rojzman, Jason Gray, Adam Wilson, Raquel Spencer, Alex Swann, Tom Tucker, Ryann Kinney, Sebastian Franco, Celine Wolff, and Robert Baransaka.

And from my personal office—Becky Salay, Jack Rayburn, King Green, Caitlin Peruccio, Marie Gualtieri, Harper White, Molly Opinsky, Jami LaRue, John Neureuther, Merone Kahassai, and Daniel Robillard.

From the minority staff, thank you to Anne Marie Chotvacs, Johnnie Kaberle, Alec Davis, Sara Peters, and the rest of the minority clerks and staff. I look forward to working with the incoming Chair of the Appropriations Committee Kay Granger in the 118th Congress. With Senators PATTY MURRAY and SUSAN COLLINS leading the Senate Appropriations Committee, next year will be the first year that the Appropriations Committee will be led on all four corners by women. In fact, this is the first time ever, that any Congressional committee, will have all four comers led entirely by women. I

look forward to serving with this historic, highly skilled group of lawmakers.

Ms. MOORE of Wisconsin. Mr. Speaker, I rise today in support of the FY 2023 omnibus that will come before this chamber shortly having passed the Senate with bipartisan support. While this legislation—and the process that produced it—is far from perfect, there are a number of priorities that this legislation addresses that are critical to my constituents.

I want to take a moment to talk about one of those priorities including in this bill, a provision creating a Great Lakes Authority to help put the Great Lakes states and region on equal footing with other regions of our country that already have similar entities working to coordinate regional economic development and growth.

I want to thank my friend and colleague MARCY KAPTUR for her leadership in this effort.

I remind my colleagues of how critical the Great Lakes are to our country. While the Great Lakes—Superior, Michigan, Huron, Erie and Ontario—are an environmental treasure with their connecting channels forming the largest fresh surface water system on earth making up one-fifth of the world's fresh surface water supply, the region is an economic powerhouse as well.

According to the Great Lakes Chamber of Commerce, with one-third of the U.S. population, nearly 39 percent of all U.S./Canadian trade to the world, 19 of the world's best research universities and much of its inventive power, the bi-national Great Lakes Region is the world's most important economic engine—in GDP terms, the third largest economy in the world.

But while other regions of our country have some form of federally endowed regional entity or commission to support economic cooperation and infrastructure and other investments, no such entity existed for the Great Lakes until now.

This new commission should help sharpen, target, and increase coordination among numerous federal programs and agencies, including those already working in the Great Lakes, and bring in stakeholders from each state and tribes in the region with the goal of helping to keep moving the region forward on energy, environment, innovation, and job creation, among other critical priorities.

This work will be critical to supporting my vision of a Great Lakes region that continues to foster innovation, creates good paying jobs, that provides high quality education and job training that prepares individuals for better jobs, and that is equipped to address Great Lakes challenges that often span state, and even international, borders.

In this Congress, we have worked hard to invest in our nation's infrastructure and to help create good paying jobs in our country while working to bring manufacturing and more of the supply chain in critical industries, home. A new Great Lakes Authority will help better position the region to take advantage of those new opportunities.

This new Great Lakes Authority can help target transportation and other infrastructure needs in the region which is critically important to its economic competitiveness. It can help ensure our region's workforce is prepared to meet the challenges of today's economy while preparing for tomorrows through job skills training, skills development and employment-related education.

And let's not forget how it can help address severely economically distressed and underdeveloped areas of the region, whether urban, rural, or tribal.

The establishment of this authority is a critical first step and I urge the Administration to begin working with our governors to help get the Authority up and running as quickly as possible, including nominating a highly qualified and respected individual who knows the region well to serve as the federal lead.

At the end of the day, this new authority recognizes that the Great Lakes is better and stronger when we work together to address common goals and shared visions that go well beyond partisan or even state lines.

Mr. SOTO. Mr. Speaker, I commend the authors of the Fiscal Year 2023 Omnibus Appropriations Bill for including funding for Department of Defense programs to support critically needed, secure, leading-edge domestic semiconductor manufacturing technology. Specifically:

\$40 million in additional funding for Industrial Base Analysis and Sustainment Program's (IBAS) on-shore advanced packaging for strategic mission enablement within the Research, Development, Test and Evaluation, Defense-Wide account;

\$10 million in additional funding for Aerospace Sensors' zero-trust environment for semiconductor technology within the Research, Development, Test and Evaluation, Air Force account; and

\$5 million in additional funding for Aerospace Sensors' heterogeneous integration of microelectronics within the Research, Development, Test and Evaluation, Air Force account.

Microelectronics support nearly all DoD activities, enabling capabilities such as the global positioning system, radar, command and control, and communication. Ensuring secure access to leading-edge microelectronics, however, is a challenge. The pandemic has shined a light on the challenges associated with the global supply chain, the changing global semiconductor industry, and the sophistication of U.S. adversaries, who might target military electronic components.

IBAS is dedicated to ensuring that the DoD is positioned to effectively address industrial base issues and support the National Security Innovation Base. This includes strengthening and protecting the domestic semiconductor supply chain to provide access to leading-edge capabilities to accelerate innovation. One of the next generation semiconductor technologies that IBAS is focusing on is called Heterogeneous Integration and Advanced Packaging. These activities provide credible and reliable domestic advanced microelectronics manufacturing capability. Funding for machine tooling and advanced manufacturing capabilities will allow IBAS to support these next generation production lines.

Further, the Air Force Research Lab (AFRL) is working on a new modelling and simulation research program to advance next generation semiconductor design and manufacturing, called a secure digital twin. Funding for the zero-trust environment for semiconductor technology will help provide the capabilities to deliver solutions to protect against malicious function insertion, fraudulent products, theft of intellectual property, and reliability failures within DoD semiconductors.

I believe Congress should provide the resources necessary to update our domestic

microelectronics security framework. I am proud of the work being undertaken in my district to support domestic semiconductor manufacturing technology development as we work to address this critical supply chain. I look forward to continuing to work with my colleagues to support this goal.

Ms. MATSUI. Mr. Speaker, I strongly support the bill before us today which will keep our government operating and make transformative investments to tackle some of the Sacramento region's most pressing challenges.

Despite the progress we've made with this bill, I believe we missed an important opportunity to accomplish a bipartisan goal: securing American telecommunications networks by fully funding the Secure and Trusted Communications Networks Reimbursement Program.

As an original cosponsor of the Secure and Trusted Communications Networks Act which created the Reimbursement Program, I believe it is both an economic and national security imperative to implement it fully.

However, the significant funding shortfall in the Program has introduced severe uncertainty for small internet service providers and undercuts their ability to execute plans to rip and replace vulnerable network equipment. This poses a very significant national security threat and without additional resources, the program cannot fulfill its mandate.

That is why, in May, I led a bipartisan group of 20 Members urging our colleagues to fully fund this shortfall. As we continue to discuss a path forward on extending the Federal Communications Commission's auction authority and plans for the lower three gigahertz band, I believe it must include plans for addressing the shortfall in the Reimbursement Program.

I will be voting for this bill and look forward to working with my colleagues on a bipartisan basis to fully fund the Reimbursement Program.

Mr. NADLER. Mr. Speaker, I rise in strong support of the Senate Amendment to H.R. 2617—Consolidated Appropriations Act, 2023, which includes my bill, the Pregnant Workers Fairness Act. The Pregnant Workers Fairness Act will make a positive difference in the lives of hundreds of thousands of pregnant and postpartum workers every year by ensuring the availability of reasonable accommodations for those pregnant workers who need them.

Far too many workers are forced to choose between the health of their pregnancies and their jobs when they are denied a reasonable accommodation at work—like a stool to sit on or an extra bathroom break. When pregnant women are denied accommodations, they face health risks including miscarriage and premature births, according to the March of Dimes. Studies have shown an increased risk of miscarriage and preterm birth as a result of heavy lifting, extended hours, or prolonged periods of sitting or standing.

Courts have interpreted the Pregnancy Discrimination Act of 1978 narrowly and allowed employers to refuse to accommodate workers with medical needs arising out of pregnancy even when they routinely accommodate other physical limitations. By requiring pregnant employees to identify a nonpregnant employee who received the same accommodation they need, courts have placed pregnancy accommodations out of reach for most workers. In addition, while the Americans with Disabilities Act requires employers to make reasonable

accommodations for employees with disabilities, courts have consistently held that a normally progressing pregnancy is not a disability.

As a result, pregnant workers are still being routinely asked to choose between their paycheck and a healthy pregnancy. Those who continue to work without necessary accommodations, because they can't afford not to work, risk a range of health complications that can and do routinely endanger workers and their pregnancies.

After bipartisan negotiation in the Senate, the Cassidy-Casey Pregnant Workers Fairness Act Amendment (S. Amdt. 6558 to H.R. 2617) contains a narrow rule of construction that states, "This Act is subject to the applicability to religious employment set forth in Sec 702(a) of Title VII of the Civil Rights Act." It thus references Title VII's existing religious exemption. By affirming the continued applicability of 702(a), the rule of construction allows religious institutions to continue to prefer coreligionists in the pregnancy accommodation context. As a rule of construction, it differs from the Foxx amendment that was proposed and defeated by the House of Representatives, which changed the definition of those employers covered by the Act and thus removed certain employers from the reach of the Pregnant Workers Fairness Act entirely.

Section 702(a) of Title VII reads, "This subchapter shall not apply to an employer with respect to the employment of aliens outside any State, or to a religious corporation, association, educational institution, or society with respect to the employment of individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities."

Section 702

(a) of Title VII applies only to religious institutions—which has long been understood as meaning non-profit religious institutions and not all non-profits. The exemption provides an exception from Title VII's prohibition of employment discrimination on the basis of religion. As the 6th Circuit explained, the exemption allows religious employers to "choose to employ members of their own religion without fear of being charged with religious discrimination." *Boyd v. Harding Acad. of Memphis, Inc.*, 88 F.3d 410,413 (6th Cir. 1996). It is a narrow exemption from a religious antidiscrimination rule for a specific purpose.

Properly read, the rule of construction thus means that religious institutions can continue to prefer coreligionists in making pregnancy accommodations. For example, if a religious employer were choosing between making an available role related to "religious employment" available to a pregnant worker as a light duty assignment or hiring a co-religionist for that role, it could do the latter without running afoul of the PWFA.

Further, Section 7 of PWFA, which states, "Nothing in this Act shall be construed to invalidate or limit the powers, remedies, and procedures under any Federal law or law of any State or political subdivision of any State or jurisdiction that provides greater or equal protection for individuals affected by pregnancy, childbirth, or related medical conditions," makes clear that no reading of the rule of construction can be understood to undermine rights otherwise protected under law for pregnant workers.

The Pregnant Workers Fairness Act aligns with Title VII in providing protections and rea-

sonable accommodations for "pregnancy, childbirth, and related medical conditions", like lactation. The bill has overwhelming bipartisan support—it passed the House of Representatives in 2021 on a vote of 315–101 and has been endorsed by a broad and diverse set of stakeholders, including the U.S. Chamber of Commerce, leading businesses, the U.S. Conference of Catholic Bishops and other religious organizations, and over 200 women's rights, worker's rights, maternal health, and racial justice organizations. 73 Senators voted to add the Act to H.R. 2617 yesterday.

I urge my colleagues to vote Yay on Senate Amendment to H.R. 2617—Consolidated Appropriations Act, 2023.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 1531, the previous question is ordered.

The question is on the motion offered by the gentlewoman from Connecticut (Ms. DeLauro).

The question was taken; and the Speaker pro tempore announced that the ayes appear to have it.

Ms. GRANGER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 225, nays 201, answered "present" 1, not voting 4, as follows:

Mr. ROY. Mr. Speaker, reserving the right to object.

The SPEAKER pro tempore (Mr. BUTTERFIELD). The gentleman is recognized on his reservation.

Mr. ROY. Mr. Speaker, I would note that this \$1.7 trillion legislation is moving off the floor without a physical quorum present. There were 218 votes cast by proxy on the rule and 226 votes cast by proxy on the final passage of the bill.

PARLIAMENTARY INQUIRIES

Mr. ROY. Mr. Speaker, parliamentary inquiries.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. ROY. Can the Speaker advise whether there is a physical quorum present as required under the Constitution and whether there is any recourse for any Member under our rules to

challenge a ruling that there is a quorum?

The SPEAKER pro tempore. The Chair will just note that a quorum was, indeed, present.

Mr. ROY. Under what rule does the Speaker make the assertion that a quorum is present when there were 226 votes cast by proxy, i.e., not physically present in the Chamber?

The SPEAKER pro tempore. Pursuant to section 3(b) of H. Res. 965, the 116th Congress carried forward by section 3 of H. Res. 8, Members casting their vote or recording their presence by proxy are counted for the purpose of establishing a quorum under the rules of the House.

Mr. ROY. One last parliamentary inquiry. Does any Member of this body have recourse to ask the Speaker to count the Members physically present here in the body?

The SPEAKER pro tempore. The Chair would simply note again that under the rules of the House, a quorum was, indeed, present.

Mr. ROY. Mr. Speaker, withdrawn. No objection.

The SPEAKER pro tempore. The gentleman withdraws his reservation. Without objection, the motion to reconsider is now laid on the table.

There was no objection.

EXTENSIONS OF REMARKS

FINAL FAREWELL

HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. UPTON. Madam Speaker, as I reflect on more than four decades of service in the Federal Government—working for our former Southwest Michigan Congressman David Stockman, then President Ronald Reagan, and finally in the U.S. House of Representatives—I am so grateful for the countless folks who have helped along the way including my peers, staff, and wonderful family who have helped me do my best day after day.

“One cannot count on luck. It comes and goes. But one can count on hard work. ALSO, staying out of your OWN way . . . and, for most folks, that’s the hardest part.”—Amey Upton.

I was asked last week what I want to be remembered for, and without a second thought I pointed to a small, simple brass frame with a motto that I picked up from my grandfather’s desk when he passed away at 96 years of age. It read, “When in doubt, do the right thing!” I have kept it at the center of my desk and work at the Capitol all these years.

In this journey, I have been blessed by the sacrifice of many. First and foremost, my wife Amey, who as my best friend for some 40 years has watched me depart practically every week for a trip to Washington, D.C., making 99.9 percent of the nearly 22,000 votes cast. I often was at one of our district offices or community events most days of the week. I still vividly recall the Bangor town meeting on a Halloween Saturday morning in 1987 when the water came down that my wife’s water had broken, and I had better get to the hospital pretty quickly. Then there was my son reminding me not to talk to strangers as a 6-year-old in the Watervliet 4th of July parade or having to miss my daughter’s birthday to participate in a debate during one of my 25 contested elections. Obviously, the sacrifice of family time they all made was something they endured, especially last-minute schedule changes to long-planned family activities.

My staff—such a blessing. Janet Zielke and Joan Hillebrands were with me all 36 years and a number of others more than 20 years. Joan actually started as a legislative correspondent and worked her way to Chief of Staff where she has been steadily guiding our ship for the last 25 years. Corey Hanson, Mitzi Fitzpatrick, and Nivia Marquis are the best in the business at solving IRS, small business, immigration, and veterans’ issues among others. My communications folks handling press on local and national interests were always terrific, Caroline Banaszak and Jamal Ware helped finish up strong. Dale Shugars and Mike Ryan ran my two district offices, and I have known them both for many decades as leaders in their respective communities of Portage and St. Joseph. And before them, Al Pscholka, John Proos, Jeff Breneman, Clay

McCausland, and Jack Baker held those same titles. Kaitlyn Peterson was my front desk traffic cop directing many constituent inquiries. All in all, we handled more than 1 million constituent inquiries. All my staff carried the same passion to do the right thing from the start. Whether it be D.C. staff or here at home, they effectively and proudly served so many thousands of people in our communities.

Every Congressional office is different, but I established ours with my 2 Michigan offices handling my constituent services, and my D.C. staff preparing me on legislative issues. Almost everyone started as an intern, answering the phone, and hearing from constituents by answering the mail (remember, the internet didn’t become widely available until the late 90s). From there, they moved up and were recognized for the experience they gained and dedication they demonstrated. My former scheduler and Officer Manager Bits Thomas started as an intern and then was my “doorkeeper” for a decade before she moved back to Michigan with her family. Her stellar successor, Suzanne Scruggs, once worked for a Cabinet member and is married to one of my first volunteers from 1986, who later became my Legislative Director. He later went to law school at night and now helps run one of the most prestigious firms in Washington.

Alec Zender was with us several years helping our farmers and small businesses, then went to fellow Michigander Rep. JACK BERGMAN.

Last but not least, the point man and architect who shepherded 21st Century Cures, Mark Ratner. As resident comedian and my MSU sports rival, he served as my legislative right-hand man for nearly 20 years.

And the list goes on. I am so proud of our team. I’ve been involved with a long list of issues, so long that there has been little time to stop and “smell the roses.”

It was the late State Senator Harry Gast who convinced me to serve on the House Transportation Committee when I was first elected so I could help complete US-31 connecting three interstates in Berrien County. There were a lot of bumps, potholes, and butterflies along the way, but I am happy to say the project is now complete. Also, my amendment in that first 5-year highway bill increased Michigan’s share of each federal dollar from 72 cents to 90 cents, providing billions that would have otherwise gone to other states. Later helping to widen and improve I-94 with US-131 moving east towards I-69.

Moving from Transportation to the powerful Energy & Commerce Committee in 1991 I had a terrific mentor in Chairman John Dingell. I served as Chair of the Oversight, Telecommunications, & Energy Subcommittees which eventually led to me becoming Chair of the full committee from 2010 to 2016. Speaker Newt Gingrich changed the seniority rules making the chairs compete for the chairmanships with a 6-year term limit. Without that change, I would still be sitting as a senior member of the committee but still not having had a chance to lead it.

Yes, bipartisanship was always a guiding principle. I learned that at the Reagan White House where a GOP President worked with a Democrat-controlled Congress and got things done. Quite frankly, quite a few Americans probably voted with both hands to fill in ballot circles or punch the chad for him in 1980 yet we saw him win in a landslide 4 years later except for Mondale’s Minnesota. I always kept one of Reagan’s mottos in mind, “It doesn’t matter who gets the credit, as long as the job gets done.”

The Great Lakes has always been a top priority for me. I’ve worked to ban micro-beads, ensure water quality funds, establish an oil spill response team, pipeline safety and delivered on a plan with Governor Rick Snyder to replace Line 5 under the Mackinac Bridge at a \$500 million cost. I also spent time ensuring dredging our harbors, battling Asian carp, and authorizing a new lock for the Soo. If the 60-year-old lock went down, it would literally double the Nation’s unemployment as iron ore could not make it to the steel mills for autos, appliances, and our manufacturing industries.

As a vice-chair of the bipartisan Problem Solver’s Caucus (PSC), we met virtually every week and were instrumental in passing the CHIPS and Infrastructure bills to help America remain competitive. We also played a role in the Paycheck Protection Plan (PPP) that enabled so many of our small businesses to keep their employees paid during the COVID shutdown and provide a lifeline to maintain their presence.

On the morning of September 11, 2001, I drove through the Pentagon parking lot about an hour before the plane hit the building. General Van Antwerp, whom I had grown up with on my street in St. Joseph, was spared because he was at a meeting out of the building, but a number of his staff were killed. As the Telecommunications Subcommittee Chair, I led a number of colleagues to New York City a few days later, where the rescue mission was still taking place at Ground Zero. We later passed legislation that was the top priority noted by the 9/11 Commission’s report to allocate broadcast spectrum allowing law enforcement to have their own frequency to communicate. We did such by forcing the broadcasters to convert their analogue broadcast signal to digital and selling that newly created spectrum to the highest bidders in the telecommunications industry. This allowed them to produce devices with text and video, which created the 5G network, hundreds of thousands of jobs, and generated revenue to reduce the deficit.

Supporting our troops and our brave veterans was always the easiest vote I cast. Whether it be Agent Orange or Burn Pits benefits or visiting our troops in harm’s way in Iraq or Afghanistan, visiting our military hospitals here and overseas, count me as a grateful American. Allowing our vets to receive medical care in their home community if they prefer versus traveling across the state to a VA facility was also a choice I supported.

I have had the opportunity to have many classified briefings on China, Ukraine, Russia,

and protecting American interests. We are a free nation because of our brave. It always has been a favorite moment for me to nominate qualified young men and women to attend our military academies. General Emery Upton was in the West Point class with George Custer and later served as Commandant. His statue is on Little Round Top in Gettysburg. And my 98-year-old dad served in World War II, including the Battle of the Bulge.

Senate Majority Leader MITCH MCCONNELL called the enactment of 21st Century Cures the most important legislative achievement in that Congress when President Obama signed it into law in December 2016. I led a 3-year effort as chair of the Energy & Commerce Committee to pass this legislation, which expedites the FDA approvals of drugs and devices and was coupled with \$45 billion in additional health research funding. We literally held dozens of round table discussions, hearings, meetings with disease groups, the FDA, National Institutes of Health (NIH), pharmaceutical companies, and research institutions like the University of Michigan, MD Anderson, Mayo Clinic, Harvard, and the Milken Institute. Fast forward 4 years to COVID. Pfizer's CEO told his folks that they would spend "whatever it takes" to find a vaccine and thankfully were successful. Cures allowed them to produce the vaccine prior to the Emergency Use Authorization (EUA) and be able to deliver it across the country the very next day after receiving the EUA in December of 2020. This was probably 6–8 months earlier than would have happened without our legislation, saving hundreds of thousands American lives. Then-Vice President Joe Biden played a pivotal hands-on role, and we included the \$1 billion Beau Biden Cancer Moonshot initiative as part of this bill. One of our great sources was Nobel Prize winner immunologist Jim Allison whose breakthroughs have been the answer to thousands.

The terrible events of January 6 continue to dominate the news nearly two years later, including this week's release of the final committee report. That morning, I walked through the House floor back to my Rayburn office where I watched many of the protesters parading under my balcony to the White House grounds. I then watched the President's speech to the crowd on TV before they came back to the Capitol and certainly attempted to violently disrupt the counting of the electoral votes cast by each state. I saw the gallows on the Capitol lawn intended for Mike Pence, and thanked some of the SWAT team members laying exhausted in the Rotunda. Chilling. Michigan was one of the 4 states that was going to be challenged despite the 154,000-vote difference. To date, there is still no credible evidence that our vote was fraudulent. I voted absentee in that election, as I did this last November 8, and I am confident that our system works. Under the law established in the 1800s, it only takes 1 Member from the House and Senate to force the full House and Senate to reconsider. This week the House and Senate adopted a legislative change requiring a minimum of 20 percent of each body to challenge a states' certified count. In my estimation we avoided a massacre of my colleagues on the House floor by only 10–15 minutes. Trump's later statement that he did everything "totally appropriate" was a key factor for my impeachment vote a week later and my support for a bipartisan January 6 con-

gressional commission. In my view, the commission's unanimous support for their report issued this week prevented the facts from being swept under the rug and helped ensure preservation of the peaceful transfer of presidential power.

More than a 1,000 folks provided testimony to get the truth that otherwise never would have been told. Where were these same souls who knew the intimate story when we debated impeachment? Crickets.

One regret I will share was the failure of the Super Committee a dozen years ago to deal with the deficit. It had 6 members of the House and Senate: 6 Republicans and 6 Democrats. The rule was that we had to get 7 votes, and we could never get more than 6 as it turned out. We spent a couple months negotiating different alternatives but could never quite get there. I was one of the "aye" votes with fellow Michigan colleague and Chair of the House Ways & Means Committee Dave Camp, but we were 1 vote short. The looming budget deficit remains a threat that most certainly future leaders must address.

My last 2 days in Congress were action packed. On Wednesday evening, I attended a joint session of Congress in which we heard from the President of Ukraine Volodymyr Zelenskyy. Earlier this year, I had a chance to listen as Zelenskyy addressed the bipartisan Problem Solvers Caucus by Zoom. It was encouraging to now see him in person as he makes the compelling case for Ukraine directly to the American people and their representatives. I have had the opportunity during my career to watch presidential national addresses and world leaders speak to the Congress such as Nelson Mandela, Queen Elizabeth, the Pope, and others from around the globe. I was especially proud to listen to President Zelenskyy on one of my very last days serving in the U.S. Congress.

The House and Senate cleared a \$1.7 trillion omnibus spending bill to keep the government open and funded through the 2023 fiscal year. I voted for the package, funding a number of priorities, including a 10-percent increase in defense spending to \$858 billion. The bill also includes \$1.5 billion for the Advanced Research Projects Agency, that like its defense counterpart, will fund cutting-edge research that has the potential to save millions of lives. This is the next step for 21st Century Cures. The bill also includes \$45 billion to help Ukraine defend its freedom and citizens against Russia's brutal invasion, including barbaric attacks on civilians and civilian infrastructure.

I supported Congress acting this year because it avoids the risk of a government shut-down to start the New Year, given the narrow majorities in the House and Senate. A shut-down would threaten America's security and cause disruption to vital domestic programs, including those that help improve health outcomes in our nation. It clears the deck for the next Congress to start fresh on FY '24 rather than mop up unfinished business 4 months into FY '23.

On a closing note, I leave you with the words of a brave young woman:

"How wonderful is it that nobody need wait a single moment before starting to improve the world."—Anne Frank

RECOGNIZING NICOLE DAMASCO FOR HER DISTINGUISHED PUBLIC SERVICE

HON. JERRY MCNERNEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. MCNERNEY. Madam Speaker, I ask my colleagues to join me in recognizing my Chief of Staff, Nicole Damasco, for her outstanding commitment and dedication to serving California's 9th Congressional District, the former

11th Congressional District of California, the great state of California, and our country. Nicole is one of the most exceptional staff members, leaders, and public servants that I have had the pleasure of working with, and it has been an honor to have had her leading my staff for the past 16 years during my time in Congress.

Nicole was born in Las Vegas, Nevada, and grew up wanting to make positive change in her country and the world. Her father and stepmother, Jude and Julia Damasco, instilled in her a strong work ethic and the importance of serving the community and those in need, and she credits her grandmother, Maria Damasco, for being an inspiration in her life and always being there for her. Throughout high school, she spent time registering voters in San Francisco and the Bay Area and volunteering for the San Francisco Democratic Party. Although she is a talented artist and studied architecture in Italy during college, she felt the best way to make a difference in her community was to pursue a career in public service. She transferred to University of California, Santa Cruz to pursue a degree in Politics. While there, she interned for the Santa Cruz County Women's Commission for 2 years and participated in the University of California, Washington DC (UCDC) program, interning in Senator Barbara Boxer's Washington, DC office.

After graduating from University of California, Santa Cruz in 2002, Nicole was hired as a Constituent Representative in Senator Barbara Boxer's office in San Francisco. She proved to be a skilled and dedicated employee and was soon promoted to Assistant to the Director of Constituent Services. In 2004, she became a Legislative Correspondent in Senator Boxer's Los Angeles office and was part of a team that changed how legislative correspondence was handled by transitioning to a centralized, digitized, state-based constituent correspondence system. It was an innovative approach that allowed the Senator to quickly receive and send constituent responses. Nicole did not know it at the time, but her team helped lay the groundwork for how state and district-based constituent correspondence is now handled in many congressional offices.

In 2006, Nicole returned to the Bay Area and continued to work in Senator Boxer's San Francisco office. During that time, she volunteered for my Congressional campaign because she felt that I could truly help improve the lives of people in our community. Thanks to the hard work by many excellent staff and volunteers like Nicole, I was elected to Congress that same year, and I asked Nicole to join my team as my Director of Constituent Services and Field Representative. Nicole went to work right away, laying the foundation for and building my casework, field outreach, and constituent services programs from the ground up. She made it her mission to make sure that everyone who reached out to my office for assistance would receive the best service possible. She ensured that quality constituent service was engrained in the culture of my office. Thanks in large part to her tireless efforts, I am proud to say that my office has helped many thousands of individuals over the years.

It was clear that Nicole was a natural leader when I hired her, and I promoted her to District Director in less than a year of her being on my staff. She took over, leading my entire

District team at a time when people in the country and my district were hurting the most. During the subprime mortgage crisis in 2008, people were losing their jobs, homes, and lifesavings. Continuing to lead with a constituent-focused approach to her work, Nicole put together a team that would be laser focused on serving the people of California's 11th and 9th Congressional Districts throughout those difficult times. She immediately acted to help organize the first-of-its-kind housing and mortgage assistance events in the country with the purpose of keeping people in their homes. She also helped organize job fairs and events that connected thousands of people with jobs, and made sure struggling veterans and seniors were informed of and received the services available to them. I know without a doubt that because of Nicole's perseverance and tenacity, we made an impact on many people and were there for them during some of the darkest periods of their lives.

Nicole stood tall and helped lead my team, all while facing great adversity herself. At the beginning of her career with my office, she provided care for her half-sister, Jessica, who ended up tragically taking her life in 2009. Nicole's stepfather and grandfather had also taken their lives shortly before, all of which took a toll on her mother and made it clear that Nicole needed to step up and help care for her other half-sister, Alaina. Throughout all this tragedy, Nicole kept a brave face, continuing to work hard and lead my office while also becoming Alaina's legal guardian and providing a stable home for her sister. Unfortunately, Nicole's mother also ended up taking her life, but thanks in part to Nicole's support, her sister has thrived, graduating from high school and with highest honors from University of California, Berkeley, studying and traveling around the world, and starting a successful career of her own. Nicole is very proud of her sister's accomplishments and is grateful for the special bond they share.

After serving as my District Director during some of the greatest challenges in our nation's history and following some very hard-fought campaigns, I asked Nicole to move across the country and become my Chief of Staff. She didn't hesitate and since 2013, she has led my team as Chief of Staff with great dedication and conviction. Due largely to Nicole's efforts, my office has had one of the highest retention rates and one of the most diverse staffs in Congress. Throughout her time as Chief of Staff, she has greatly contributed to my success in Congress, helping move forward my legislative priorities and those of my district.

As a strong leader and with her creative, out-of-the-box thinking, Nicole empowered and motivated my staff to take every opportunity to serve my district and lead on important issues that make a difference in people's lives. This was especially evident during the COVID-19 pandemic, at which time Nicole immediately transitioned my staff to remote work and successfully kept my office operating at full capacity to continue serving our constituents and bring them the most up-to-date information without knowing what the days, weeks, and months ahead had in store.

Throughout my time in office, Nicole has helped pave the way for my major accomplishments, from the long-awaited construction of a veterans' clinic in French Camp, to helping improve our water, technology, energy, and envi-

ronmental policy. Nicole made sure that my constituents and my district always came first and that bringing services and resources to our community always remained the priority.

I would be remiss if I didn't mention that Nicole's dedication to serving others not only extends to humans but to animals, too. Over the years, she has opened her home to over 15 animals—including rabbits, cats, dogs, a hamster, and even an iguana. Nicole has also personally rescued over 25 stray and injured animals from the streets of my district. She took them in, rehabilitated, and rehomed them, and with the invaluable and generous help of Harvest Home Animal Sanctuary in Stockton, ensured that the animals that crossed her path found good, loving homes. Her heart knows no bounds, and she continuously demonstrates the true meaning of selflessness.

Nicole's colleagues describe her as compassionate, understanding, and always there for them when they need her, no matter how big or small the issue. She does everything possible to see that staff have the tools and support they need to see the job through. Beyond being a boss and supervisor, Nicole is a friend and mentor to many and is there for the team when they need advice and support.

Nicole Damasco is an outstanding employee, boss, colleague, friend, mentor, and leader. Her commitment, focus, kindness, and compassion are unrivaled. She has dedicated over 20 years of her life to public service and is the embodiment of what a public servant should be. Throughout my career in Congress, she has supported me and my team and has made a lasting impact on the lives of my constituents. With great appreciation and admiration for her, I ask my colleagues to join me in recognizing Nicole Damasco for her distinguished and invaluable service.

Billy earned his Bachelor of Arts in Political Science from NC State in 1986, and in recent years he has served on the NC State School of Public and International Affairs Advisory Board as well as the CHASS Dean's Board. These roles provide him with the opportunity to assist both students and alumni with educational and career-related opportunities in Washington, D.C.

As the chief lobbyist for the Institute of Scrap Recycling Industries (ISRI), Billy serves as a leading voice on Capitol Hill for both small and commercial businesses in the recycling field. Long a champion of the recycled

materials industry, Billy helped establish the bipartisan Congressional Recycling Caucus in 2004 to educate lawmakers regarding the economic and environmental benefits of recycling. From 2004 to 2008, Billy also served as a judge of the White House Federal Recycling Initiative "Closing-the-Loop" Awards Program.

Billy has a proven record of helping members understand the importance of the recycling industry through Washington and district fly-ins, one-on-one meetings with congressional offices, and more. In 2021, his achievements led to his recognition by the National Institute for Lobbying and Ethics as one of the top 100 lobbyists in America for his demonstrated commitment to give back to the community and profession while adhering to the highest ethical standards.

RECOGNIZING THE AFRICAN AMERICAN VETERANS MONUMENT IN BUFFALO, NEW YORK

HON. CHRIS JACOBS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. JACOBS of New York. Madam Speaker, I rise today to join the Western New York Community in commending the honorable service of African American veterans throughout the history of the United States military.

The recently unveiled African American Veterans Monument in Buffalo, New York, highlights the contributions made by African American service members to our country. These contributions cannot be understated.

I commend all who supported the development and construction of this project, including the Erie County Chapter of the Links for taking the steps necessary to honor these veterans. This unique monument now stands as a symbol and reminder on the Buffalo waterfront to all Western New Yorkers of the sacrifices that these brave individuals made to preserve our freedoms.

From the Revolutionary War onwards, 2.1 million African Americans served this country with unconditional valor. Over 90 African Americans have been awarded the Medal of Honor, our nation's preeminent military commendation. Out of admiration for these esteemed veterans, many of Western New York's community leaders banded together to demonstrate our thanks for their sacrifices—a gesture that many of us believe is long overdue.

The symbolism undergirding this monument uniquely pairs with the traits displayed by the generations of African American men and women who have served our country. Located at the Erie County Naval & Military Park, the monument consists of 12 pillars representing the 12 military conflicts in which these veterans demonstrated their strength, courage, and patriotism. The top of each pillar is illuminated by a beacon of light, referencing the practice that active-duty military families used to guide their loved ones home. These illuminations will glow eternally, along with our nation's everlasting appreciation to its African American servicemembers.

We must continue to recognize and commemorate those who sacrificed on behalf of our nation and fought on our country's many historic battlefields. Our selfless and courageous African American veterans of Western New York and the greater United States will forever be remembered within our local community. It is my honor to represent these veterans, along with the members of our community who crafted this historic monument.

RECOGNIZING THE CAREER OF LT. COL. DAN WAGNER

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. CONNOLLY. Madam Speaker, I rise today to recognize the remarkable career of Lieutenant Colonel Dan Wagner upon his retirement from the United States Army after 20 years of selfless service to our Nation. Lt. Col Dan Wagner has made immeasurable contributions in service to our great Nation.

Lt. Col Wagner was spurred to action by the tragic events of September 11, 2001 and joined the Army shortly thereafter. He has since had an exemplary military career. Over the course of his service, his assignments included three years of tours in Iraq, Afghanistan, Africa, and other areas with both conventional and special operations units.

Prior to his retirement this summer, he served as a legislative liaison for U.S. Special Operations Command (USSOCOM) in Washington, D.C. Lt. Col Wagner focused on developing and executing legislative strategies to secure support for a \$12 billion budget, including appropriations and authorizations for Joint Special Operations, Special Mission Units, and Intelligence.

On behalf of special operators for operational and programmatic issues of Congressional interest, Lt. Col Wagner coordinated with several offices in the Department of Defense, including the Offices of the Secretary of Defense, Under Secretary of Defense for Intelligence, Joint Chiefs of Staff, Department of Defense Special Access Programs Coordination Office, and Geographic Combat Commanders.

Using his extensive experience with the inner workings of the Pentagon, Geographic Combatant Commands, and the National Security Council, Lt. Col Wagner served as a senior representative for USSOCOM to the Central Intelligence Agency on national security and counterterrorism issues. He worked to revamp policies both global and internal, as well as to coordinate de-confliction and synchronization efforts.

Lt. Col Wagner served on the Army Staff in Legislative Affairs where he maintained the intelligence portfolio for the Secretary of the Army. He also served in the personal office of Rep. Mike Rogers, Chairman of the House Permanent Select Committee on Intelligence.

Prior to joining the Army, Lt. Col Wagner was a small business owner in Southeastern Ohio. He earned a Bachelor of Arts in Public Relations from DePaul University and a Masters in Legislative Affairs from George Washington University. Additionally, Lt. Col Wagner completed the Manage Mentor Program for Business, Management and Marketing at Harvard University.

Lt. Col Wagner is a passionate and selfless leader who has devoted his career to ensuring military operators receive the intelligence and support they need to keep our Nation safe. Madam Speaker, I ask that my fellow colleagues please join me in thanking Lt. Col Wagner and his family for their service as they enter the next chapter of their lives.

SUPPORTING FY23 OMNIBUS

HON. BETTY McCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Ms. McCOLLUM. Madam Speaker, I rise in strong support of the Consolidated Appropriations Act for Fiscal Year 2023.

I want to thank Chair DELAURO for her tireless work to finish this legislation—she deserves great credit.

As Chair of the Defense Appropriations Subcommittee, I marked up the House Defense bill to President Biden's original request of \$761.7 billion.

I felt his number was an appropriate level of funding for our national security.

While I agree that we must make adjustments based on inflation and other global events, I am disappointed in the Senate's insistence on increasing defense spending at the expense of domestic priorities.

We must realize that our national security is not defined by defense dollars alone—we damage our national security when we don't adequately address the needs of the American people: in education, health care, and other critical investments here at home.

Turning to the Defense bill—for Fiscal Year 2023 we provide \$797.7 billion, \$69.3 billion above the 2022 enacted level.

We know that all Americans are struggling with higher prices—and that includes our men and women in uniform—so we have prioritized investing in our most important national security asset, our service members and their families.

This Defense bill puts people first—by including:

A 4.6 percent pay raise for our service members;

And an increase of 11 percent to the Basic Allowance for Housing, and the Basic Allowance for Subsistence—which will help offset the cost of rising rent and food prices.

I am very proud that this bill also invests in:

Confronting the climate crisis—with more than \$2 billion in clean energy programs and funding to add resilience to DoD installations from the impacts of climate change.

Over \$39 billion for Defense Health and medical research, including over \$582 million for cancer research.

And \$1.6 billion in Environmental Restoration programs, including over \$250 million for PFOS remediation and disposal research.

This bill also continues our commitment to helping the Ukrainian people defend their democracy against Russian aggression by providing robust funding for the Ukraine Security Initiative and other NATO allies and partners in Europe.

The time has come for Congress to finish our work, pass this omnibus, and fund the entire federal government.

DECLARING ARCHIVED RECORDS OF THE SELECT COMMITTEE ON THE MODERNIZATION OF CONGRESS TO BE AVAILABLE FOR PUBLIC USE

HON. DEREK KILMER

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. KILMER. Madam Speaker, as Chair of the Select Committee on the Modernization of Congress, I wish to include in the RECORD a letter Vice Chair WILLIAM TIMMONS and I sent on December 22 to the Acting Archivist of the United States. The letter communicates our committee's designation of all records that the Archivist receives for archiving, as our committee draws to a close, as available for public use.

This letter takes an important step towards the kind of openness that the Modernization Committee has championed as part of our over 200 recommendations and over 40 hearings held since the beginning of the 116th Congress to make the institution more effective, efficient, and transparent on behalf of the American people. Having our records available for public use will also aid future reform committees, researchers, and the public alike to advance the cause of modernization going forward.

I ask my colleagues to join me in taking this important step towards recognizing the value of transparency and the legacy of the Modernization Committee.

CONGRESS OF THE UNITED STATES,
Washington, DC, December 22, 2022.

MS. DEBRA STEIDEL WALL,
Acting Archivist of the United States, The United States National Archives and Records Administration, Washington, DC.

DEAR MS. WALL: As Chair and Vice Chair of the Select Committee on the Modernization of Congress ("Modernization Committee"), we are writing to let you know that we consider any and all Modernization Committee records that you receive from the Office of the Clerk for purposes of archiving to be available for public use, in accordance with Clause 3 of House Rule VII.

Established in the 116th Congress and extended through the 117th Congress, the Modernization Committee has been tasked to investigate, study, make findings, hold public hearings, and develop recommendations to make Congress more effective, efficient, and transparent on behalf of the American people. To this end, we have issued over 200 recommendations and held over 40 hearings over the last four years to improve the day-to-day functioning of the House.

A pillar of the Modernization Committee's work has been to enhance the transparency of the House and of the legislative process. As such, we believe it is important to make our archived materials available for the public as soon as possible.

In addition, one of our final recommendations was that the House "should authorize a Modernization Select Committee at least every fourth Congress." If the House implements this recommendation, a future select committee would benefit tremendously from having our records and analyses at its immediate disposal, as these documents collectively constitute a wealth of information about our work and the issues that our members and staff discussed.

Absent a committee order, we understand our archived records would remain sealed for up to 30 years by default under Rule VII. For

the above reasons, though, we wish to make you aware that, should you receive requests from other committees or interested parties, we consider the records reserved from our committee for archiving to be available for public use. Thank you for your assistance in this matter.

Sincerely,

DEREK KILMER,
Member of Congress.

WILLIAM R. TIMMONS IV,
Member of Congress.

RECOGNIZING THE SERVICE OF
SEWA INTERNATIONAL USA

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. CONNOLLY. Madam Speaker, I rise today to recognize the service of the thousands of Sewa International USA employees to assist underserved communities around the world throughout the Coronavirus pandemic.

Sewa International USA was founded in 2003 as a 501(c)(3) non-profit charity organization. Comprised of 43 chapters with more than 5,000 volunteers across the country, Sewa workers take inspiration from the Hindu principles of Vasudhaiva Kutumbakam—meaning "the whole world is one family"—and Sarve Bhavantu Sukhinah—meaning "may all be happy." These complementary outlooks have driven volunteers to serve humanity in times of distress.

This service takes many forms. Sewa volunteers work with local communities to coordinate developmental projects and mobilize partners, donors, and on-the-ground volunteers to make meaningful changes in the face of disaster. Sewa has organized volunteer service in the wake of 30 disasters over the last two decades, including the recovery efforts after Hurricane Katrina in 2005, Hurricane Harvey in 2017, and the California wildfires in 2019 and 2020. Internationally, they have assisted after some of the world's greatest crises in recent memory, from Haiti's 2012 earthquake to Pakistan's 2013 flooding to the evacuation efforts from ongoing war in Ukraine.

As Russia's invasion of Ukraine rages on, Sewa International volunteers are conducting massive evacuation efforts to help thousands of students escape the violence. Their erroneous network has been invaluable in the last few years, providing \$15 million worth of food, PPE, and medical supplies to those in need. Regardless of the type of crisis, Sewa International always finds meaningful ways to help.

Without regard for race, religion, gender, sexual orientation, or nationality, Sewa International USA has done tremendous work to ameliorate the effects of some of the world's greatest disasters. Hundreds of thousands of people benefit from their work every year, and I am proud to represent some of these volunteers in Congress. These volunteers work tirelessly across the globe to aid those who are most vulnerable, and it is no surprise that they are one of the seven key trusted partners of the Federal Emergency Management Agency.

Madam Speaker, I ask that my colleagues join me in commending the extraordinary service of Sewa International USA and their thousands of volunteers. Their work over the last two decades has been invaluable in recovery

efforts around the globe, and reminds us all to take every opportunity we have to assist those around us. I wish them every continued success in their efforts to bring our one family closer together and promote happiness for all.

HONORING LINDA COHEN ON HER
RETIREMENT

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. SCHIFF. Madam Speaker, I rise today to honor Ms. Linda Cohen. Professional Staff Member for the House Permanent Select Committee on Intelligence on the occasion of her retirement after a long and distinguished career in government service. I am pleased to be joined in extending my congratulations by Rep. HIMES, Rep. CARSON, Rep. SPEIER, Rep. QUIGLEY, Rep. SWALWELL, Rep. CASTRO, Rep. WELCH, Rep. SEAN PATRICK MALONEY, Rep. DEMINGS, Rep. KRISHNAMOORTHY, Rep. COOPER, Rep. CROW, Rep. RUPPERSBERGER, Rep. MIKE THOMPSON, Rep. LANGEVIN and Rep. SCHAKOWSKY.

A native New Yorker, Linda joined the Intelligence Committee nearly 15 years ago after a career at the Central Intelligence Agency. The details of her career at the CIA cannot be recorded here but suffice to say she served in a number of sensitive positions at the Agency spanning from the days of the Cold War through the September 11 attacks and the War on Terror.

Upon joining the Committee in 2007 as CIA monitor, Linda brought with her a knowledge of the inner workings of the Agency and the business of intelligence rarely found outside the halls of Langley. Yet for all her experience at the Agency, she brought to her role as overseer a skeptical approach and a fierce determination to hold the IC to the highest standards in accomplishing its mission and staying true to our values.

As Members of the Intelligence Committee can all attest, the work of the committee is challenged by the uniquely secret and sensitive matters under the committee's jurisdiction. Unlike other committees that can rely on outside experts or the media, the Intelligence Committee must rely heavily on its expert staff to surface oversight issues and to pursue them with vigor and skill.

Linda possesses those traits in spades, and Members of the Intelligence Committee from both parties have benefited from Linda's expertise and her passion for the mission. I cannot detail here many of her contributions, but they are numerous, and the Nation is safer and better for her service.

Madam Speaker, Linda Cohen has dedicated her career in service of his country, and I ask that you join with me today to acknowledge her tremendous contributions to the security of the United States of America.

SUPPORTING THE CHEROKEE NATION'S 1835 TREATY OF NEW ECHOTA

HON. TOM COLE

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. COLE. Madam Speaker, as a member of the Chickasaw Nation and co-chair of the Congressional Native American Caucus, I have always voiced my support for the federal government to honor its treaty obligations.

For far too long in our Nation's history, the federal government accumulated a sorry record of making promises to tribes and then breaking those promises as soon as it was expedient to do so. Only in recent years has that record started to improve.

Last month the Rules Committee held a hearing on one of these treaty rights: a delegate to the House of Representatives as enumerated in the Cherokee Nation's 1835 Treaty of New Echota. This hearing marked an important step in examining this specific treaty and understanding the legal and procedural factors surrounding this issue.

I'm very proud that we held this hearing and want to thank Chairman MCGOVERN for his leadership and the committee's willingness to highlight tribal sovereignty.

The conversations that we had in the Rules Committee that day are a starting point for other committees of jurisdiction to study this matter further and address some of the lingering questions surrounding this. As this work continues, all such claims by tribes that possess them should be considered and examined as well.

RECOGNIZING THE 2022 EXCELLENCE IN SALES HONOREES PRESENTED BY THE INSTITUTE FOR EXCELLENCE IN SALES & BUSINESS DEVELOPMENT

The recipient of the 2022 Lifetime Achievement Award is Mr. Dave Rey, the President of

Sales for the Global Public Sector at Salesforce. Over his nine-year career with Salesforce, he has driven the company's continued growth and facilitated public sector business across the continent. He has decades of experience supporting the public sector, and his expertise has been invaluable in performing much of our nation's best work.

Ms. Jennifer Chronis, Senior Vice President of Public Sector at Verizon, is the recipient of this year's Woman in Sales Leadership Award. She has led a team of professionals to work with Verizon's federal, state, local, education, and public safety partners to deliver innovative technology solutions and services, including the Verizon Frontline platform for first responders.

The 2022 IES Member of the Year is sales consultant and author Mr. Vince Burruano. He has worked to recruit, coach, develop, and lead sales professionals across multiple industries, most recently as the Vice President of Sales for the Commercial Division of JK Moving Services. His experience in challenging paradigms has led to his trusted reputation, and his customer-centric approach sets a famously high bar.

Ms. Lauryn Scott is the recipient of the Jay Nussbaum Rising Sales Star Award due to her work as a dynamic sales leader at Cvent, providing software solutions at every stage of an event. Her growth mindset has contributed to the success of her account managers, with many exceeding annual quotas. Lauryn believes that anyone can sell if they are willing to learn, and I am proud of her accomplishments.

Lee Salz is the 2022 IES Sales Speaker of the Year. He has written two books, the most recent of which has become a bestseller. His inspirational story of finding a need in his community and meeting it perfectly embodies what it means to be an entrepreneur. He understands the value in what he sells, and shares that understanding with his community to ensure that everyone's needs are met. He teaches others how to differentiate themselves from those around them, celebrating individual identities and accommodating unmet needs.

Madam Speaker, I ask my colleagues to join me in recognizing Dave Rey, Jennifer Chronis, Vince Burruano, Lauryn Scott, and Lee Salz for their exceptional dedication and leadership within the business community. Their dedication to bettering themselves, their organizations, and their communities has made the 11th District of Virginia better.

RECOGNIZING THE WORK AND ACHIEVEMENTS OF DR. ROBERT EICHORN

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. CONNOLLY. Madam Speaker, I rise to recognize the work of Dr. Robert Eichorn who is retiring after two decades of work as an educator. While a Prince William County Principal, Dr. Eichorn's dedicated service has led Independence Nontraditional School to be named the first ever model school by the National Alternative Education Association. His work to meet the needs of an often underserved community has made education and achievement more accessible to Virginia's youth.

Dr. Eichorn has pushed to reimagine education for students, instructors, and the broader Prince William community. He is a fierce advocate for the socioeconomically disadvantaged children of Virginia and has implemented a learner-centric curriculum to meet the needs of the individual. Dr. Eichorn has been an advocate and practitioner for over thirty years, and his efforts have been crucial in the fight for educational equity.

For years, Dr. Eichorn has served as the principal at Independence Nontraditional School, which serves students from kindergarten through 12th grade. The school provides a full curriculum, including music, foreign language, Advanced Placement, and engineering courses. The school also offers internships within their career and technical education trades programs. The primary focus at Independence is to meet the individual needs of every student with tailored instruction. For those who may need a little extra assistance or a second chance, Independence Nontraditional School offers the resources that disadvantaged young people need to achieve their fullest potential.

Dr. Eichorn has been the recipient of multiple awards for his tireless efforts. He was named Prince William County Schools' 2017–18 Principal of the Year. In 2020, the National Association of Secondary School Principals named him a Digital Principal of the Year for his leadership through the COVID–19 pandemic. He shepherded navigated his school as they implemented new technologies to expand access to students and to maintain a semblance of normalcy throughout unprecedented hardship.

As the first model school highlighted by the National Alternative Education Association, Independence has illuminated the successes made possible when our educators strive to develop integrity, ingenuity, and intellect in every student. With the right resources, we must hope to recruit more educators who exemplify the dedication and talent that Dr. Eichorn has demonstrated.

Madam Speaker, I ask my colleagues to join me in recognizing Dr. Robert Eichorn for his unwavering dedication to the young people of Prince William County. He has made every effort to ensure that all children have access to the resources they need for a rich and prom-

ising education. His students and colleagues alike have expressed their sincere appreciation for his tremendous service. Dr. Eichner has truly lived up to the Prince William County Public Schools motto, "Providing a World-Class Education." I wish him the best in his retirement and thank him for the service he provided our community.

INTRODUCTION OF BLOCKED RAIL CROSSINGS SAFETY IMPROVEMENT ACT OF 2022

HON. ANDRÉ CARSON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. CARSON. Madam Speaker, I rise to introduce the Blocked Rail Crossings Safety Improvement Act of 2022. This language reflects policies developed in the Transportation and Infrastructure Committee, where I am proud to serve.

There is a serious and dangerous problem of blocked railroad crossings across the country, with freight trains blocking at-grade crossings in urban and suburban communities across the country. In my district, Indianapolis is experiencing an increasing frequency of blocked railroad crossings by freight trains. Trains are growing longer and longer. Downtown rail crossings have been blocked for unacceptably long periods, including one incident that lasted over 3 hours. This not only interrupts business operations and normal traffic, but it threatens public safety—especially when emergency vehicles must be re-routed.

This is why we must pass legislation to address this problem. The Blocked Rail Crossings Safety Improvement Act will help fix this problem. The language is based on provisions passed by the Transportation and Infrastructure Committee, and passed by the House in the INVEST Act. These provisions, which I recommended, place limits on how long crossings can be blocked, and impose penalties for blocking crossings. While I appreciated and supported the limited provisions included in the Bipartisan Infrastructure Law, I don't believe they went far enough. More must be done.

Madam Speaker, I urge my colleagues to join me in supporting the Blocked Rail Crossings Safety Improvement Act.

HONORING THE LIFE AND LEGACY OF FORMER MONROE COUNTY COMMISSIONER SYLVIA MURPHY

HON. CARLOS A. GIMENEZ

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. GIMENEZ. Madam Speaker, I rise today to honor the life and legacy of former Monroe County Commissioner and first responder Sylvia Murphy. From the age of 18, when she first moved to Monroe County, Commissioner Murphy spent her life serving the Florida Keys in many ways.

Sylvia Murphy was elected County Commissioner for District 5, which covers the Upper Keys from North Key Largo to Tavernier, in 2006, where she served for 14 years. Before

becoming commissioner, she served the public as an EMT with Monroe County Emergency Medical Services and with the Tavernier Volunteer Fire Department, where she spent 2 decades.

Commissioner Murphy was a tireless champion for the Florida Keys. Her proudest accomplishment was brokering the deal that purchased the land that became Key Largo's Rowell's Park, located at mile marker 104. She was remembered by friends and colleagues as a tenacious public servant who truly loved the Florida Keys.

Sylvia Murphy will be remembered for her lifelong service to the Florida Keys, and her life of service will remain a role model for so many in our community. It was an honor knowing commissioner Murphy. She will be missed.

Mr. BAIRD. Madam Speaker, unfortunately, due to travel constraints, I was unable to cast two votes on December 15, 2022. Had I been present, I would have voted NAY on Roll Call No. 529, and NAY on Roll Call No. 530.

INTRODUCTION OF JUSTICE FOR JOURNALISTS ACT OF 2022

HON. ANDRÉ CARSON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 23, 2022

Mr. CARSON. Madam Speaker, I rise to introduce the Justice For Journalists Act, mandating an investigation into all non-natural deaths of journalists and media workers in a foreign nation, who are U.S. citizens or working on behalf of a U.S.-based news media entity.

In the last year, we have witnessed many attacks on the rights and safety of journalists and media workers, particularly those who shine a light on violations of human rights and rule of law, war, and other atrocities around the world.

Even reporters covering sporting events may be subject to detainment as we saw in November, when Grant Wahl was detained and briefly refused entry to a World Cup match because he was wearing a rainbow t-shirt in support of LGBTQ rights.

There are several pending bills in Congress with provisions to protect threatened or at-risk journalists working in foreign nations. However, there is no legislation requiring the United States to investigate any non-natural deaths of journalists and media workers performing their duty in a foreign nation. Currently, an act of Congress is required to investigate every single non-natural death—and that cannot stand.

Journalists and media workers report on injustices, corruption, and human rights violations around the world, putting themselves on the frontlines where they risk life and limb.

This year, 65 journalists and media workers have been killed reporting on wars and humanitarian crises around the world. We know

that 17 of them were murdered and the perpetrator had complete impunity from the law. Sadly, there are an additional 64 journalists who are missing, and their families are still waiting on justice.

According to the United Nations, all people enjoy the right to freedom of opinion and expression, which includes the right to seek, receive, and impart information. The United Nations considers the silencing journalists by killing them to be the most egregious form of censorship, and the failure of any State to prosecute and punish serious crimes against journalists denies justice to the victims' families, emboldens perpetrators, and can deter other journalists from reporting high-risk stories.

If the U.S. is going to lead by example, we must do everything we can to defend and protect those who are committed to reporting the truth about the casualties of war, humanitarian crisis, human rights abuses, and corruption.

Thomas Jefferson wrote, "Where the press is free and every man able to read, all is safe." The First Amendment is the foundation of our country. Without free speech and a free press, we would not be the country we are. The citizens of the United States rely on our free press to understand the issues at home and around the world.

Along with diplomacy and military strength, a free press, or the Fourth Estate, is another avenue to challenge the status quo and be a voice for the protection of the rule of law, civil society, and human rights. In their fight for democracy and human dignity, the "weapons" of journalists and media workers are microphones, keypads, and cameras. When one is murdered doing their job, we must identify who is responsible and hold them accountable.

The Justice For Journalists Act, will: Require an investigation into the non-natural deaths of all journalists and media workers in a foreign nation who are U.S. citizens or working on behalf of a U.S.-based news media entity.

Leverage whole-of-government approaches to urge foreign governments to rapidly and transparently bring the perpetrators of attacks against journalists and media workers to justice.

Improve transparency of threats against our Fourth Estate by ensuring reports provided to Congress are also made available to the public on the Department of Justice website, as well as the appropriate Department of State country webpages.

In the words of Walter Cronkite, "Freedom of the press is not just important to democracy, it is democracy."

Madam Speaker, this legislation will protect our free press around the world—and our democracy—now and into the future. I strongly encourage my colleagues to join me in co-sponsoring the Justice for Journalists Act of 2022.

CHILDHOOD CANCER SURVIVORSHIP, TREATMENT, ACCESS, AND RESEARCH REAUTHORIZATION ACT OF 2022

SPEECH OF

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 22, 2022

Mr. ESHOO. Madam Speaker, I rise in support of S. 4120, the Childhood Cancer STAR

Reauthorization Act. As Chairwoman of the House Health Subcommittee, I'm proud to have advanced this bipartisan bill and I'm pleased to support it on the Floor today.

I thank Representatives SPEIER, BUTTERFIELD, and MCCAUL for their work on this important bill. I especially would like to recognize Representatives SPEIER and BUTTERFIELD for their longstanding dedication to helping children with cancer and to congratulate them on passing this vital bill on their last days of service in the Congress.

Every day families face the nightmare of a child diagnosed with cancer. Nearly 10,500 children in the U.S. under the age of 15 were diagnosed with cancer in 2022. Today we're delivering hope for those families.

The Childhood Cancer Survivorship, Treatment, Access, and Research (STAR) Act is the most comprehensive childhood cancer bill ever passed into law. Since it was signed into law in 2018, the STAR Act has helped deliver over \$120 million to fund childhood cancer research and assist patients and families battling cancer. It expands opportunities for childhood cancer research at the National Cancer Institute, improves efforts to track pediatric cancer incidences, and, importantly, enhances the quality of life for childhood cancer survivors.

Today's legislation is a simple reauthorization of these life-saving programs to ensure there is no lapse in funding or disruption in important research. Today, the Democratic House is delivering for the children and I urge my colleagues to support this important bill.
