SEC. 8146. (a) It is the sense of Congress that none of the funds appropriated or otherwise made available by this Act should be available for the purposes of deploying United States Armed Forces to participate in the implementation of a peace settlement in Bosnia-Herzegovina, unless previously authorized by the Congress.

(b) It is the sense of Congress that the limitation set forth in subsection (a) should not preclude missions and operations initiated on or before October 20, 1993, including the provision of any humanitarian assistance by the Department of Defense.

SEC. 8147. SENSE OF CONGRESS ON THE USE OF FUNDS FOR UNITED STATES MILITARY OPERATIONS IN HAITI.—(a) STATEMENT OF POLICY.—It is the sense of the Congress that—

(1) all parties should honor their obligations under the Governors Island Accord of July 3, 1993 and the New York Pact of July 16, 1993;

(2) the United States has a national interest in preventing uncontrolled emigration from Haiti; and

(3) the United States should remain engaged in Haiti to support national reconciliation and further its interest in preventing uncontrolled emigration.

(b) LIMITATION.—It is the sense of Congress that funds appropriated by this Act should not be obligated or expended for United States military operations in Haiti unless—

(1) authorized in advance by the Congress; or

(2) the temporary deployment of United States Armed Forces into Haiti is necessary in order to protect or evacuate United States citizens from a situation of imminent danger and the President reports as soon as practicable to Congress after the initiation of the temporary deployment, but in no case later than forty-eight hours after the initiation of the temporary deployment; or

(3) the deployment of United States Armed Forces into Haiti is vital to the national security interests of the United States, including but not limited to the protection of American citizens in Haiti, there is not sufficient time to seek and receive Congressional authorization, and the President reports as soon as practicable to Congress after the initiation of the deployment,

but in no case later than forty-eight hours after the initiation of the deployment; or

(4) the President transmits to the Congress a written report pursuant to subsection (c).

(c) REPORT.—It is the sense of Congress that the limitation in subsection (b) should not apply if the President reports in advance to Congress that the intended deployment of United States Armed Forces into Haiti—

(1) is justified by United States national security interests;

(2) will be undertaken only after necessary steps have been taken to ensure the safety and security of United States Armed Forces, including steps to ensure that United States Armed Forces will not become targets due to the nature of their rules of engagement;

(3) will be undertaken only after an assessment that—

(A) the proposed mission and objectives are most appropriate for the United States Armed Forces rather than civilian personnel or armed forces from other nations, and

(B) that the United States Armed Forces proposed for deployment are necessary and sufficient to accomplish the objectives of the proposed mission;

(4) will be undertaken only after clear objectives for the deployment are established;

(5) will be undertaken only after an exit strategy for ending the deployment has been identified; and

(6) will be undertaken only after the financial costs of the deployment are estimated.

(d) DEFINITION.—As used in this section, the term “United States military operations in Haiti” means the continued deployment, introduction or reintroduction of United States Armed Forces into the land territory of Haiti, irrespective of whether those Armed Forces are under United States or United Nations command, but does not include activities for the collection of foreign intelligence, activities directly related to the operations of United States diplomatic or other United States Government facilities, or operations to counter emigration from Haiti.

SEC. 8151. (a) The Congress finds that—

(1) the United States entered into Operation Restore Hope in December of 1992 for the purpose of relieving mass starvation in Somalia;

(2) the original mission in Somalia, to secure the environment for humanitarian relief, had the unanimous support of the Senate, expressed in Senate Joint Resolution 45, passed on February 4, 1993, and was endorsed by the House when it amended S.J. Res. 45 on May 25, 1993;

(3) Operation Restore Hope was being successfully accomplished by United States forces, working with forces of other nations, when it was replaced by the UNOSOM II mission, assumed by the United Nations on May 4, 1993, pursuant to United Nations Resolution 814 of March 26, 1993;

(4) neither the expanded United Nations mission of national reconciliation, nor the broad mission of disarming the clans, nor any other mission not essential to the performance of the humanitarian mission has been endorsed or approved by the Senate;

(5) the expanded mission of the United Nations was, subsequent to an attack upon United Nations forces, diverted into a mission aimed primarily at capturing certain persons, pursuant to United Nations Security Council Resolution 837, of June 6, 1993;

(6) the actions of hostile elements in Mogadishu, and the United Nations mission to subdue those elements, have resulted in open conflict in the city of Mogadishu and the deaths of 29 Americans, at least 159 wounded, and the capture of American personnel; and

(7) during fiscal years 1992 and 1993, the United States incurred expenses in excess of \$1,100,000,000 to support operations in Somalia.

(b) The Congress approves the use of United States Armed Forces in Somalia for the following purposes:

(1) The protection of United States personnel and bases; and

(2) The provision of assistance in securing open lines of communication for the free flow of supplies and relief operations through the provision of—

(A) United States military logistical support services to United Nations forces; and

(B) United States combat forces in a security role and as an interim force protection supplement to United Nations units: *Provided*, That funds appropriated, or otherwise made available, in this or any other Act to the Department of Defense may be obligated for expenses incurred only through March 31, 1994, for the operations of United States Armed Forces in Somalia: *Provided further*, That such date may be extended if so requested by the President and authorized by the Congress: *Provided further*, That funds may be obligated beyond March 31, 1994 to support a limited number of United States military personnel sufficient only to protect American diplomatic facilities and American citizens, and noncombat personnel to advise the United Nations commander in Somalia: *Provided further*, That United States combat forces in Somalia shall be under the command and control of United States commanders under the ultimate direction of the President of the United

States: *Provided further*, That the President should intensify efforts to have United Nations member countries immediately deploy additional troops to Somalia to fulfill previous force commitments made to the United Nations and to deploy additional forces to assume the security missions of United States Armed Forces: *Provided further*, That—

(i) captured United States personnel in Somalia should be treated humanely and fairly; and

(ii) the United States and the United Nations should make all appropriate efforts to ensure the immediate and safe return of any future captured United States personnel: *Provided further*, That the President should ensure that, at all times, United States military personnel in Somalia have the capacity to defend themselves, and American citizens: *Provided further*, That the United States Armed Forces should remain deployed in or around Somalia until such time as all American service personnel missing in action in Somalia are accounted for, and all American service personnel held prisoner in Somalia are released: *Provided further*, That nothing herein shall be deemed to restrict in any way the authority of the President under the Constitution to protect the lives of Americans.

SEC. 8152. Funds appropriated by this Act for intelligence or intelligence-related activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 1994 until the enactment of the Intelligence Authorization Act for fiscal year 1994.

SEC. 8153. (1) Except as provided in subsection (c) below, it is the sense of the Congress that none of the funds appropriated by this Act should be obligated or expended for costs incurred by the United States Armed Forces units serving in any international peacekeeping or peace-enforcement operations under the authority of Chapter VI or Chapter VII of the United Nations Charter and under the authority of a United Nations Security Council Resolution, or for costs incurred by United States Armed Forces serving in any significant international humanitarian, peacekeeping or peace-enforcement operations, unless—

(a) the President initiates consultations with the bipartisan leadership of Congress, including the leadership of the relevant committees, regarding such operations; these consultations should be initiated at least fifteen days prior to the initial deployment of United States Armed Forces units to participate in such an operation, whenever possible, but in no case later than forty-eight hours after such a deployment; and these consultations should continue on a periodic basis throughout the period of the deployment;

(b) such consultation should include discussion of—

(2) Further, it is the sense of the Congress—

(a) that the President should seek a supplemental appropriation to defray the costs of United States military operations in Somalia in order to restore needed operation and maintenance funds for United States Armed Forces;

(b) that the President should seek supplemental appropriations for any significant future deployment of United States Armed Forces when such forces are to perform or have been performing international humanitarian, peacekeeping or peace-enforcement operations.

TITLE IX

SEC. 9001. Congress makes the following findings:

(1) The Armed Forces of the United States have conducted combat operations under the operational control of foreign commanders on numerous occasions, including during two World Wars.

(2) Regional security organizations, such as the North Atlantic Treaty Organization, are premised on military operations by the forces of a number of nations under an integrated chain of command consisting of officers from member nations.

(3) The end of the Cold War has seen a substantial increase in the conduct of international "peacekeeping" and "peace enforcement" operations pursuant to decisions of the United Nations Security Council under Chapters VI and VII of the United Nations Charter.

(4) The United Nations has conducted traditional “peace-keeping” operations successfully over the years, but the number and size of such operations has stretched the Organization’s management and oversight capabilities thin.

(5) The United Nations has not yet acquired the expertise or infrastructure to enable it to effectively manage “peace enforcement” operations.

(6) Any special agreement negotiated by the President with the United Nations Security Council to make units of the United States Armed Forces available on call to the United Nations must be approved by the Congress pursuant to the United Nations Participation Act, enacted into law in 1945.

(7) Any decision by the President to place combat forces of the Armed Forces of the United States under the operational control of foreign commanders, other than pursuant to the North Atlantic Treaty and other arrangements in effect at the time of the enactment of this Act, has significant consequences for such forces, the Congress, and the American people.

SEC. 9002. It is the sense of the Congress that—

(1) the Armed Forces of the United States must be under the operational control of qualified commanders; and must have clear and effective command and control arrangements; appropriate rules of engagement; and clear and unambiguous mission statements;

(2) the President should consult with Congress before placing combat forces of the Armed Forces of the United States under the operational control of foreign commanders, other than pursuant to the North Atlantic Treaty and other arrangements in effect at the time of the enactment of this Act; and

(3) the President should submit a report to Congress within 48 hours after placing combat forces of the Armed Forces of the United States under the operational control of foreign commanders, other than pursuant to the North Atlantic Treaty and other arrangements in effect at the time of the enactment of this Act, setting forth—

(A) the mission of such forces and a clear explanation of the difference, if any, between the mission of such forces and the mission of the forces of other nations participating in the same military operations;

(B) in a case in which the operation is conducted under the auspices of the United Nations, an assessment of the United Nations capability to effectively manage the operation;

(C) an explanation of the United States interest that would be served by and the justification for placing such forces under the operational control of a foreign commander in this instance;

(D) the command and control arrangements for the operation of which the forces of the Armed Forces of the United States are a part;

(E) the number, type and general description of equipment of such forces;

(F) the estimated cost to the United States of the participation of such forces;

(G) the anticipated duration of the participation of such forces;

H. R. 3116—63

- (H) a general description of the rules of engagement for such forces; and
- (I) the foreign commander or commanders involved.

TITLE X

CONVEYANCE OF KAHO'OLAWE ISLAND, HAWAII, TO THE STATE OF HAWAII

SEC. 10001. (a) PURPOSE.—It is timely and in the interest of the United States to recognize and fulfill the commitments made on behalf of the United States to the people of Hawaii and to return to the State of Hawaii the Island of Kaho'olawe. Kaho'olawe Island is among Hawaii's historic lands and has a long, documented history of cultural and natural significance to the people of Hawaii reflected, in part, in the Island's inclusion on the National Register of Historic Places and in the longstanding interest in the return of the Island to State sovereignty, public access and use. Congress finds that control, disposition, use and management of Kaho'olawe is affected with a Federal interest. It also is in the national interest and an obligation undertaken by Congress and the United States under this and other Acts, and in furtherance of the purposes of Executive Order 10436 (1953), to recognize the cultural and humanitarian value of assuring meaningful, safe use of the Island for appropriate cultural, historical, archaeological and educational purposes as determined by the State of Hawaii and to provide for the clearance or removal of unexploded ordnance and for the environmental restoration of the Island for such purposes. Congress also finds it is in the national interest and an essential element in the Federal Government's relationship with the State of Hawaii to ensure that the conveyance, clearance or removal of unexploded ordnance, environmental restoration, control of access to the Island and future use of the Island be undertaken in a manner consistent with the enhancement of that relationship, the Department of Defense's military mission, the Federal interest and applicable provisions of law.

(b) CONVEYANCE.—Subject to section 10001(e) of this Act, the United States, through the Secretary of the Navy (also, hereinafter, "the Secretary"), shall, notwithstanding section 120(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620 (h)) convey and return, without consideration and without conditions other than those set forth in or required by this Act, to the State of Hawaii all right, title and interest of the United States, except that interest set forth in section 10001(d)(2) and section 10001(e) of this Act, in and to that parcel of property consisting of approximately 28,776 acres of land known as Kaho'olawe Island, Hawaii and its surrounding waters. Such conveyance of title shall occur no later than one hundred eighty days from the date of enactment of this Act and the appropriation of funds for such purposes described in this Act.

(c) DESCRIPTION OF PROPERTY.—The exact acreage and legal description of the parcel of property to be conveyed under section 10001(b) shall be determined by a survey that is deemed satisfactory by the State of Hawaii in consultation with the Secretary. The cost of the survey shall be borne by the Secretary, making use of funds provided pursuant to this Act.

(d) IMPLEMENTATION.—(1) The Secretary shall carry out the requirements of this Act following consultation with the State of Hawaii as required by section 10002 of this Act and with the technical and logistical support, as needed, of the United States Army Corps of Engineers and other Federal agencies.

(2) Notwithstanding any other provision of this Act, the Secretary shall retain the control of access to the Island, in consultation with the State of Hawaii and prior to and following the entering into force of the Memorandum of Understanding contained in section 10002 of this Act, until either clearance and restoration are completed or within no more than ten years after the date of enactment of this Act, whichever comes first, and control of access is transferred to the State of Hawaii, pursuant to such conditions.

(e) INDEMNIFICATION AND THE CONTROL OF ACCESS.—(1) The Navy shall retain control of the access to the Island during the time period set forth in section 10001(d)(2) of this Act that it is undertaking unexploded ordnance removal and hazardous materials removal activities required in this Act.

(2) During the time period the United States retains control of access to the Island, the United States shall hold harmless, defend and indemnify the State of Hawaii or its political subdivisions from and against all claims, demands, losses, damages, liens, liabilities, injuries, deaths, penalties, fines, lawsuits and other proceedings, judgments, awards and reasonable costs and expenses arising out of, or in any manner predicated upon, the presence, release or threatened release or any munitions, exploded or unexploded ordnance, solid waste associated with such ordnance or hazardous substance, pollutant or contaminant resulting from the activities of the Department of Defense, including the activities of the Department of the Navy and the Department of the Army and any agent, employee, lessee, licensee, independent contractor or other person on the property during such time that the property was and remains under the control of the Department of Defense, Navy, Army or other agencies of the United States Government. Notwithstanding this subsection or any other provision of law, response action contractors shall not be held harmless, defended or indemnified for activities under this title and activities of response action contractors are not included as activities of the Department of Defense under this subsection.

The term “response action contractor” has the meaning given such term in section 119(e)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9619(e)(2)), except that such term includes a person who enters into, and is carrying out, a contract to provide at a facility (including a facility not listed on the National Priorities List) a response action with respect to any release or threatened release from the facility of a hazardous substance or pollutant or contaminant, or a similar action with respect to petroleum or its derivatives.

(3) Nothing in this Act is intended to alter or affect the Federal or State requirements of law governing liability following the transfer of control of access to the State of Hawaii, except that the United States shall remain liable for and retain responsibility for any environmental restoration, remediation, or corrective action required at the property conveyed in paragraph (b).

COOPERATION OF FEDERAL DEPARTMENTS AND THE STATE OF HAWAII
AND TRANSFER OF CONTROL OF ACCESS

SEC. 10002. (a)(1) Upon the request of the Secretary or the State of Hawaii, and in accordance with existing laws and requirements, any department or agency of the Federal Government may provide assistance to the Secretary or the State of Hawaii, as the case may be, in carrying out their respective duties under this Act.

(2) Within one hundred eighty days following passage of this Act, and notwithstanding any other provision of law, the Secretary shall consult with and enter into a Memorandum of Understanding with the State of Hawaii governing the terms and conditions of (i) access to the Island for those purposes set forth in sections 10001 and 10002 of this Act and any other cultural, archeological, educational and planning purposes provided for in this title, giving due regard to the risk of harm to public health and the environment and safety involved in providing such access and the need to avoid interference with or disruption of the Navy's clearance, removal and remediation activities; (ii) the timing, planning, methodology and implementation of ordnance clearance or removal and hazardous substance clearance and other waste removal and the protection of historical, cultural and religious sites and artifacts: *Provided*, That all reasonable effort should be made to avoid harm to such sites and artifacts from the detonation of unexploded ordnance, clearance or removal of ordnance, and hazardous substance clearance; (iii) the establishment of a two-tiered standard of restoration and ordnance clearance, removal, restoration and safety, taking into account the purpose for which any geographic area will be used and the nature and purpose of human access to such area, but assuring the protection of human health and the environment; (iv) the means for protecting historical, cultural and religious sites and artifacts from intentional destruction, harm and vandalism; (v) public participation, as appropriate, including the opportunity for public comment and hearing; and (vi) the means for regular interval clean-ups and removal of newly discovered previously undetected ordnance by the Navy. Under any such terms and conditions, the Secretary shall be assured full and necessary access to carry out the obligations of the Secretary arising out of the responsibilities and liabilities of this title. Such terms and conditions shall remain in existence until the completion of the restoration and remediation activities required by section 10002 of this Act and be revised periodically by mutual consent and giving due regard to the importance of access to the Island as the level of clean-up, restoration and remediation moves toward attainment. Nothing in this title is intended to diminish or alter the rights and responsibilities of the Navy to allow access to the Island that existed prior to the enactment of this title.

(3) The United States, through the Secretary of the Navy, shall transfer the control of access to the State of Hawaii within no more than ten years from the date of enactment of this Act or when the activities required by this Act, including ordnance clearance or removal activities and environmental remediation activities are completed, whichever comes first.

(4) Notwithstanding the duties and obligations set forth in this title and notwithstanding the conveyance required under section 10001, the State of Hawaii shall not be liable or responsible

H. R. 3116—66

for the conduct of any clean-up and response actions arising from and relating to the use, environmental clean-up and ordnance removal and remediation of Kaho'olawe Island and its adjacent waters.

SEC. 10003. The Fund shall be administered by the Secretary of the Treasury. The Fund shall be used for the accumulation of funds in order to pay the obligations incurred by the Secretary of the Navy or the Department of Defense in carrying out the purposes of this Act and for properly allocable costs of the Federal Government in the administration of the Fund.

(b) There shall be deposited into the Fund the following, which shall constitute the assets of the Fund:

In any judicial review under this Act, the United States or the State, or both, if not a party may intervene as a matter of right. The United States, its departments, agencies and instrumentalities shall be subject to only such injunctive relief as may be imposed by the court to enforce compliance with the terms of this Act and the Memorandum of Understanding.
