Committee discharged

JOINT RESOLUTION

To designate October 19, 1994, as “National Mammography Day”.

Whereas, according to the American Cancer Society, 182,000 women will be diagnosed with breast cancer in 1994, and 46,000 women will die from this disease;

Whereas, in the decade of the 1990's, it is estimated that about two million women will be diagnosed with breast cancer, resulting in nearly 500,000 deaths;

Whereas the risk of breast cancer increases with age, with 50 percent of the breast cancer cases occurring in women over age 65;

Whereas 80 percent of women who get breast cancer have no family history of the disease;

Whereas mammograms, when operated professionally at an accredited facility, can provide a safe and quick diagnosis;

Whereas experts agree that mammography is the best method of early detection of breast cancer, and early detection is the key to saving lives; and

Whereas mammograms can reveal the presence of small cancers up to two years before regular clinical breast examinations or breast self-examinations (BSE), saving as many as a third more lives; Now, therefore, be it

1 *Resolved by the Senate and House of Representatives*
 2 *of the United States of America in Congress assembled,*
 3 That October 19, 1994, be designated as "National Mam-
 4 mography Day," and the President is authorized and re-
 5 quested to issue a proclamation calling upon the people
 6 of the United States to observe such day with appropriate
 7 programs and activities.
