1 **“SEC. 2. CONGRESSIONAL FINDINGS AND STATEMENT OF**  
 2 **PURPOSE.**

3       “(a) FINDINGS.—The Congress finds that the main-  
 4 tenance of the national economy at a high level is vital  
 5 to the best interests of the United States, but that some  
 6 of our regions, counties, and communities are suffering  
 7 substantial and persistent unemployment and  
 8 underemployment; that such unemployment and  
 9 underemployment cause hardship to many individuals and  
 10 their families, and waste invaluable human resources; that  
 11 to overcome this problem the Federal Government, in co-  
 12 operation with the States, should help areas and regions  
 13 of substantial and persistent unemployment and  
 14 underemployment to take effective steps in planning and  
 15 financing their public works, business development, indus-  
 16 trial retention, and economic development; that Federal  
 17 financial assistance, including grants for public works and  
 18 development facilities to communities, industries, enter-  
 19 prises, and individuals in areas needing development

1 should enable such areas to help themselves achieve last-  
2 ing improvement and enhance the domestic prosperity by  
3 the establishment of stable and diversified local economies  
4 and improved local conditions, provided that such assist-  
5 ance is preceded by and consistent with sound, long-range  
6 economic planning; and that under the provisions of this  
7 Act new employment opportunities should be created by  
8 developing and expanding new and existing public works  
9 and other facilities and resources, financing business de-  
10 velopment, and promoting industrial retention.

11 “(b) DECLARATION.—The Congress declares that, in  
12 furtherance of maintaining the national economy at a high  
13 level—

14 “(1) the assistance authorized by this Act  
15 should be made available to both rural and urban  
16 areas;

17 “(2) such assistance be available for planning  
18 for economic development prior to the actual occur-  
19 rences of economic distress in order to avoid such  
20 condition; and

21 “(3) that such assistance be used for long-term  
22 economic rehabilitation in areas where long-term  
23 economic deterioration has occurred or is taking  
24 place.

1 **“TITLE I—GRANTS FOR PUBLIC**  
2 **WORKS AND DEVELOPMENT**  
3 **FACILITIES**

4 **“SEC. 101. DIRECT AND SUPPLEMENTARY GRANTS.**

5 “(a) IN GENERAL.—Upon the application of any  
6 State, or political subdivision thereof, Indian tribe, or pri-  
7 vate or public nonprofit organization or association, the  
8 Secretary of Commerce (hereafter in this Act referred to  
9 as the ‘Secretary’) may—

10 “(1) make direct grants for the acquisition or  
11 development of land and improvements for public  
12 works, public service, or development facility usage,  
13 and the acquisition, design and engineering, con-  
14 struction, rehabilitation, alteration, expansion, or im-  
15 provement of such facilities, including related ma-  
16 chinery and equipment if the Secretary finds that—

17 “(A) the project for which financial assist-  
18 ance is sought will directly or indirectly—

19 “(i) tend to improve the opportunities,  
20 in the area where such project is or will be  
21 located, for the successful establishment or  
22 expansion of industrial or commercial  
23 plants or facilities,

1           “(ii) otherwise assist in the creation  
2           of additional long-term employment oppor-  
3           tunities for such area, or

4           “(iii) primarily benefit the long-term  
5           unemployed and members of low-income  
6           families or otherwise substantially further  
7           the objectives of the Economic Opportunity  
8           Act of 1964;

9           “(B) the project for which a grant is re-  
10          quested will fulfill a pressing need of the area,  
11          or part thereof, in which it is, or will be,  
12          located;

13          “(C) the area for which a project is to be  
14          undertaken has an approved investment strat-  
15          egy and such project is consistent with such  
16          strategy; and

17          “(D) in the case of an area described in  
18          section 401(a)(4), the project to be undertaken  
19          will provide immediate useful work to unem-  
20          ployed and underemployed persons in that area;  
21          and

22          “(2) make supplementary grants in order to en-  
23          able the States and other entities to take maximum  
24          advantage of designated Federal grant-in-aid pro-  
25          grams (as hereinafter defined), direct grants-in-aid

1 authorized under this section, and Federal grant-in-  
2 aid programs authorized by the Watershed Protec-  
3 tion and Flood Prevention Act and the 11 water-  
4 sheds authorized by the Flood Control Act of De-  
5 cember 22, 1944, for which they are eligible but for  
6 which, because of their economic situation, they can-  
7 not supply the required matching share.

8 “(b) MAXIMUM PROPORTION OF DIRECT GRANT  
9 FUNDS TO TOTAL PROJECT COST.—Subject to subsection  
10 (c), the amount of any direct grant under this section for  
11 any project shall not exceed 50 percent of the cost of such  
12 project.

13 “(c) PROPORTION OF SUPPLEMENTARY GRANT  
14 FUNDS TO TOTAL PROJECT COST; RULES AND REGULA-  
15 TIONS; MAXIMUM GRANTS; REQUIRED NON-FEDERAL  
16 SHARE.—The amount of any supplementary grant under  
17 this section for any project shall not exceed the applicable  
18 percentage established by regulations promulgated by the  
19 Secretary, but in no event shall the non-Federal share of  
20 the aggregate cost of any such project (including assump-  
21 tions of debt) be less than 20 percent of such cost, except  
22 that in the case of a grant to an Indian tribe, the Sec-  
23 retary may reduce the non-Federal share below such per-  
24 centage or may waive the non-Federal share. In the case  
25 of any State or political subdivision thereof which the Sec-

1 retary determines has exhausted its effective taxing and  
2 borrowing capacity, the Secretary shall reduce the non-  
3 Federal share below such percentage or shall waive the  
4 non-Federal share in the case of such a grant for a project  
5 in an area described in section 401(a)(4). In the case of  
6 any community development corporation which the Sec-  
7 retary determines has exhausted its effective borrowing ca-  
8 pacity, the Secretary may reduce the non-Federal share  
9 below such percentage or waive the non-Federal share in  
10 the case of such a grant for a project in an area described  
11 in section 401(a)(4). Supplementary grants shall be made  
12 by the Secretary, in accordance with such regulations as  
13 the Secretary shall prescribe, by increasing the amounts  
14 of direct grants authorized under this section or by the  
15 payment of funds appropriated under this Act to the heads  
16 of the departments, agencies, and instrumentalities of the  
17 Federal Government responsible for the administration of  
18 the applicable Federal programs. Notwithstanding any re-  
19 quirement as to the amount or sources of non-Federal  
20 funds that may otherwise be applicable to the Federal pro-  
21 gram involved, funds provided under this subsection shall  
22 be used for the sole purpose of increasing the Federal con-  
23 tribution to specific projects under such programs above  
24 the fixed maximum portion of the cost of such project oth-  
25 erwise authorized by the applicable law. The term 'des-

1   ignated Federal grant-in-aid programs,’ as used in this  
2   subsection, means such existing or future Federal grant-  
3   in-aid programs assisting in the construction or equipping  
4   of facilities as the Secretary may, in furtherance of the  
5   purposes of this Act, designate as eligible for allocation  
6   of funds under this section. In determining the amount  
7   of any supplementary grant available to any project under  
8   this section, the Secretary shall take into consideration the  
9   relative needs of the area and the nature of the project  
10  to be assisted.

11       “(d) REGULATIONS; FACTORS TO BE CONSIDERED  
12  IN PRESCRIBING REGULATIONS.—The Secretary shall  
13  prescribe regulations and procedures to carry out this sec-  
14  tion which will assure that adequate consideration is given  
15  to the relative needs of eligible areas. In prescribing such  
16  rules, regulations, and procedures the Secretary shall con-  
17  sider among other relevant factors—

18               “(1) the severity of the rates of unemployment  
19       in the eligible areas and the duration of such unem-  
20       ployment, and

21               “(2) the income levels of families and the extent  
22       of underemployment in eligible areas.

23       “(e) REVIEW AND COMMENT UPON PROJECTS BY  
24  LOCAL GOVERNMENTAL AUTHORITIES.—The Secretary  
25  shall prescribe regulations which will assure that appro-

1 priate local governmental authorities have been given a  
2 reasonable opportunity to review and comment upon pro-  
3 posed projects under this section.

4 **“SEC. 102. LIMITATION OF FUNDS EXPENDED IN ANY 1**  
5 **STATE.**

6 “Not more than 15 percent of the appropriations  
7 made pursuant to this title may be expended in any 1  
8 State unless the Secretary determines that expenditures  
9 in excess of such limitation are necessary by reason of the  
10 occurrence of a major natural disaster in such State.

11 **“SEC. 103. AUTHORIZATION OF APPROPRIATIONS.**

12 “There is authorized to be appropriated to carry out  
13 this title \$195,000,000 for fiscal year 1995 and  
14 \$130,924,000 for fiscal year 1996. Such sums shall re-  
15 main available until expended.

16 **“SEC. 104. FINANCIAL ASSISTANCE FOR SEWER FACILITIES.**

17 “No financial assistance shall be extended under this  
18 Act for sewer or other waste disposal facilities unless the  
19 appropriate agency of the State in which the project is  
20 located certifies that such facilities meet applicable Fed-  
21 eral, State, interstate, or local water quality standards.

22 **“SEC. 105. CONSTRUCTION COST INCREASES.**

23 “In any case where a grant (including a supplemental  
24 grant) has been made under this title for a project and  
25 after such grant has been made but before completion of

1 the project, the cost of such project based upon the de-  
2 signs and specifications which were the basis of the grant  
3 has been increased because of increases in costs, the  
4 amount of such grant may be increased by an amount  
5 equal to the percentage increase, as determined by the  
6 Secretary, in such costs.

7 **“SEC. 106. USE OF FUNDS IN PROJECTS CONSTRUCTED**  
8 **UNDER PROJECTED COST.**

9 “In any case where a grant (including a supplemental  
10 grant) has been made under this title for a project and  
11 after such grant has been made but before completion of  
12 the project, the cost of such project based upon the de-  
13 signs and specifications which were the basis of the grant  
14 has decreased because of decreases in costs, such  
15 underrun funds may be used to improve the project either  
16 directly or indirectly as determined by the Secretary.

17 **“SEC. 107. CHANGED PROJECT CIRCUMSTANCES.**

18 “In any case where a grant (including a supplemental  
19 grant) has been made under this title for a project and  
20 after such grant has been made but before completion of  
21 the project, the purpose or scope of such project based  
22 upon the designs and specifications which were the basis  
23 of the grant has changed, the Secretary may approve the  
24 use of grant funds on such changed project if the Sec-

1   retary determines such changes are necessary to enhance  
2   economic development in the area.

12          such loan.

13          “(2) INTEREST SUBSIDY.—

14                 “(A) AUTHORIZATION.—In addition to any

22       **“SEC. 721. FINDINGS, PURPOSES, AND DEFINITIONS.**

23              “(a) FINDINGS.—The Congress hereby finds the  
24 following:

1           “(1) Through its support and funding of re-  
2       search and development in this Nation’s Federal  
3       agencies, laboratories, and educational institutions,  
4       the Federal Government has fostered the creation of  
5       thousands of patents, licenses, technologies, and  
6       processes owned, or held in whole or part, by the  
7       Federal Government.

8           “(2) If commercialized, these patents, licenses,  
9       technologies, and processes owned, or held in whole  
10      or part, by the Federal Government hold the poten-  
11      tial to be a significant tool to foster economic devel-  
12      opment and to create significant numbers of new  
13      jobs at good wages for American workers.

14          “(3) The Federal Government has not been suf-  
15      ficiently effective in encouraging the commercializa-  
16      tion of these patents, licenses, technologies, and  
17      processes owned, or held in whole or part, by the  
18      Federal Government.

19          “(4) The Federal Government does not have an  
20      effective mechanism to encourage the commercializa-  
21      tion of these patents, licenses, technologies, and  
22      processes by businesses located in parts of the Na-  
23      tion in need of economic development.

24          “(5) Throughout the Federal Government,  
25      there is no single inventory or source of information

1 on patents, licenses, technologies, and processes  
2 owned, or held in whole or part, by the Federal  
3 Government.

4 “(6) Information on patents, licenses, tech-  
5 nologies, and processes owned, or held in whole or  
6 part, by the Federal Government is not standardized  
7 in form or content, is separately maintained by nu-  
8 merous Federal agencies and departments, and is  
9 not easily accessible by the public.

10 “(7) Businesses and entrepreneurs in areas in  
11 need of economic development are largely unaware of  
12 the existence of these patents, licenses, technologies,  
13 and processes, and largely unaware of the possibili-  
14 ties for obtaining the rights to these patents, li-  
15 censes, technologies, and processes for the purpose  
16 of commercialization.

17 “(8) It is in the economic interest of the United  
18 States to facilitate the private sector commercializa-  
19 tion of patents, licenses, technologies, and processes  
20 by United States businesses located in areas in need  
21 of economic development.

22 “(9) Greater effectiveness will be achieved  
23 through the utilization of the private sector cor-  
24 porate structure and profit incentives in facilitating  
25 the commercialization of patents, licenses, tech-

1       nologies, and processes than can reasonably be ex-  
2       pected by the Federal Government performing this  
3       function.

4       “(b) PURPOSES.—The purposes of this subtitle are  
5 as follows:

6           “(1) To provide assistance to private-sector  
7       United States businesses, located in areas in need of  
8       economic development, to commercialize patents, li-  
9       censes, technologies, and processes owned, or held in  
10      whole or part, by the Federal Government.

11          “(2) To create new employment opportunities  
12      by facilitating the commercialization of patents, li-  
13      censes, technologies, and processes by United States  
14      businesses and entrepreneurs in areas in need of  
15      economic development.

16          “(3) To develop a single, comprehensive data  
17      base of information on patents, licenses, tech-  
18      nologies, and processes owned, or held in whole or  
19      part, by the Federal Government, which is standard-  
20      ized and easily accessible.

21          “(4) To heighten the awareness of United  
22      States businesses and entrepreneurs of the availabil-  
23      ity for commercialization of patents, licenses, tech-  
24      nologies, and processes owned, or held in whole or  
25      part, by the Federal Government.

4 “(3) RESTRICTIONS.—If, in consultation with  
5 the heads of other executive agencies, the Secretary  
6 determines that access by the Corporation or any  
7 other person to information contained in the data  
8 base established under this section would—

9 “(A) threaten national security;

10 “(B) violate the proprietary rights of any  
11 private interest; or

12 “(C) be otherwise inappropriate,

13 the Secretary shall take such steps as the Secretary  
14 may determine to be appropriate to limit access to  
15 the information in the data base described in sub-
