2 **vascular Diseases Research and**
3 **Prevention Act**

4 **SEC. 1201. SHORT TITLE.**

5 This subtitle may be cited as the “Women’s Cardio-
6 vascular Diseases Research and Prevention Act”.

7 **SEC. 1202. FINDINGS.**

8 The Congress finds as follows with respect to women
9 in the United States:

10 (1) Heart attack, stroke, and other cardio-
11 vascular diseases are the leading causes of death in
12 women.

13 (2) Heart attacks and strokes are leading
14 causes of disability in women.

15 (3) Cardiovascular diseases claim the lives of
16 more women each year than does cancer. Each year
17 more than 479,000 females die of cardiovascular dis-
18 eases, while approximately 246,000 females die of
19 cancer. Heart attack kills more than 5 times as
20 many females as breast cancer. Stroke kills twice as
21 many females as breast cancer.

22 (4) One in 5 females has some form of cardio-
23 vascular disease. Of females under age 65, each year
24 more than 20,000 die of heart attacks. In the case
25 of African-American women, from ages 35 to 74 the

1 death rate from heart attacks is approximately twice
2 that of white women and 3 times that of women of
3 other races.

4 (5) Each year since 1984, cardiovascular dis-
5 eases have claimed the lives of more females than
6 males. In 1992, of the number of individuals who
7 died of such diseases, 52 percent were females and
8 48 percent were males.

9 (6) The clinical course of cardiovascular dis-
10 eases is different in women than in men, and cur-
11 rent diagnostic capabilities are less accurate in
12 women than in men. Once a woman develops a car-
13 diovascular disease, she is more likely than a man to
14 have continuing health problems, and she is more
15 likely to die.

16 (7) Of women who have had a heart attack, ap-
17 proximately 44 percent die within 1 year of the at-
18 tack. Of men who have had such an attack, 27 per-
19 cent die within 1 year. At older ages, women who
20 have had a heart attack are twice as likely as men
21 to die from the attack within a few weeks. Women
22 are more likely than men to have a stroke during the
23 first 6 years following a heart attack. More than 60
24 percent of women who suffer a stroke die within 8
25 years. Long-term survivorship of stroke is better in

1 women than in men. Of individuals who die from a
2 stroke, each year approximately 61 percent are fe-
3 males. In 1992, 87,124 females died from strokes.
4 Women have unrecognized heart attacks more fre-
5 quently than men. Of women who died suddenly
6 from heart attack, 63 percent had no previous evi-
7 dence of disease.

8 (8) More than half of the annual health care
9 costs that are related to cardiovascular diseases are
10 attributable to the occurrence of the diseases in
11 women, each year costing this nation hundreds of
12 billions of dollars in health care costs and lost pro-
13 ductivity.

14 **SEC. 1203. EXPANSION AND INTENSIFICATION OF ACTIVI-**
15 **TIES REGARDING HEART ATTACK, STROKE**
16 **AND OTHER CARDIOVASCULAR DISEASES IN**
17 **WOMEN.**

18 Subpart 2 of part C of title IV of the Public Health
19 Service Act (42 U.S.C. 285b et seq.) is amended by insert-
20 ing after section 424 the following section:

21 “HEART ATTACK, STROKE, AND OTHER CARDIOVASCULAR
22 DISEASES IN WOMEN

23 “SEC. 424A. (a) IN GENERAL.—The Director of the
24 Institute shall expand, intensify, and coordinate research
25 and related activities of the Institute with respect to heart

1 attack, stroke, and other cardiovascular diseases in
2 women.

3 “(b) COORDINATION WITH OTHER INSTITUTES.—

4 The Director of the Institute shall coordinate activities
5 under subsection (a) with similar activities conducted by
6 the other national research institutes and agencies of the
7 National Institutes of Health to the extent that such Insti-
8 tutes and agencies have responsibilities that are related
9 to heart attack, stroke, and other cardiovascular diseases
10 in women.

11 “(c) CERTAIN PROGRAMS.—In carrying out sub-
12 section (a), the Director of the Institute shall conduct or
13 support research to expand the understanding of the
14 causes of, and to develop methods for preventing, cardio-
15 vascular diseases in women. Activities under such sub-
16 section shall include conducting and supporting the follow-
17 ing:

18 “(1) Research to determine the reasons under-
19 lying the prevalence of heart attack, stroke, and
20 other cardiovascular diseases in women, including
21 African-American women and other women who are
22 members of racial or ethnic minority groups.

23 “(2) Basic research concerning the etiology and
24 causes of cardiovascular diseases in women.

1 “(3) Epidemiological studies to address the fre-
2 quency and natural history of such diseases and the
3 differences among men and women, and among ra-
4 cial and ethnic groups, with respect to such diseases.

5 “(4) The development of safe, efficient, and
6 cost-effective diagnostic approaches to evaluating
7 women with suspected ischemic heart disease.

8 “(5) Clinical research for the development and
9 evaluation of new treatments for women, including
10 rehabilitation.

11 “(6) Studies to gain a better understanding of
12 methods of preventing cardiovascular diseases in
13 women, including applications of effective methods
14 for the control of blood pressure, lipids, and obesity.

15 “(7) Information and education programs for
16 patients and health care providers on risk factors as-
17 sociated with heart attack, stroke, and other cardio-
18 vascular diseases in women, and on the importance
19 of the prevention or control of such risk factors and
20 timely referral with appropriate diagnosis and treat-
21 ment. Such programs shall include information and
22 education on health-related behaviors that can im-
23 prove such important risk factors as smoking, obe-
24 sity, high blood cholesterol, and lack of exercise.

1 “(d) AUTHORIZATION OF APPROPRIATIONS.—For the
2 purpose of carrying out this section, there are authorized
3 to be appropriated \$140,000,000 for fiscal year 1997, and
4 such sums as may be necessary for each of the fiscal years
5 1998 and 1999. The authorization of appropriations es-
6 tablished in the preceding sentence is in addition to any
7 other authorization of appropriation that is available for
8 such purpose.”.

11 **Act of 1996**

12 **SEC. 1251. SHORT TITLE.**

13 This subtitle may be cited as the “Osteoporosis and
14 Related Bone Diseases Research Act of 1996”.

15 **SEC. 1252. FINDINGS.**

16 The Congress finds that—

17 (1) osteoporosis, or porous bone, is a condition
18 characterized by an excessive loss of bone tissue and
19 an increased susceptibility to fractures of the hip,
20 spine, and wrist;

21 (2) osteoporosis is a threat to an estimated
22 25,000,000 Americans, 80 percent of whom are
23 women, many of whose cases go undiagnosed be-
24 cause the condition develops without symptoms until
25 a strain, bump, or fall causes a fracture;

1 (3) between 3 and 4 million Americans have
2 Paget's disease, osteogenesis imperfecta,
3 hyperparathyroidism, and other related metabolic
4 bone diseases;

5 (4) osteoporosis is responsible for 1,500,000
6 bone fractures annually, including more than
7 250,000 hip fractures, 500,000 vertebral fractures,
8 200,000 fractures of the wrist, and the remaining
9 fractures at other limb sites;

10 (5) 1 of every 2 women and 1 of every 8 men
11 over age 50 will develop fractures associated with
12 osteoporosis;

13 (6) direct medical costs of osteoporosis are esti-
14 mated to be \$10,000,000,000 annually for the Unit-
15 ed States, not including the costs of family care and
16 lost work for caregivers;

17 (7) direct medical costs of osteoporosis are ex-
18 pected to increase precipitously because the propor-
19 tion of the population comprised of older persons is
20 expanding and each generation of older persons
21 tends to have a higher incidence of osteoporosis than
22 preceding generations;

23 (8) technology now exists, and new technology
24 is developing, that will permit early diagnosis and

1 prevention of osteoporosis as well as management of
2 the condition once it has developed;

3 (9) funding for research on osteoporosis and re-
4 lated bone diseases is severely constrained at key re-
5 search institutes, including the National Institute of
6 Arthritis and Musculoskeletal and Skin Diseases, the
7 National Institute on Aging, the National Institute
8 of Diabetes and Digestive and Kidney Diseases, the
9 National Institute of Dental Research, and the Na-
10 tional Institute of Child Health and Human Devel-
11 opment;

12 (10) further research is needed to improve med-
13 ical knowledge concerning—

14 (A) cellular mechanisms related to the
15 processes of bone resorption and bone forma-
16 tion, and the effect of different agents on bone
17 remodeling;

18 (B) risk factors for osteoporosis, including
19 newly discovered risk factors, risk factors relat-
20 ed to groups not ordinarily studied (such as
21 men and minorities), risk factors related to
22 genes that help to control skeletal metabolism,
23 and risk factors relating to the relationship of
24 aging processes to the development of
25 osteoporosis;

1 (C) bone mass measurement technology,
2 including more widespread and cost-effective
3 techniques for making more precise measure-
4 ments and for interpreting measurements;

5 (D) calcium (including bioavailability, in-
6 take requirements, and the role of calcium in
7 building heavier and denser skeletons), and vi-
8 tamin D and its role as an essential vitamin in
9 adults;

10 (E) prevention and treatment, including
11 the efficacy of current therapies, alternative
12 drug therapies for prevention and treatment,
13 and the role of exercise; and

14 (F) rehabilitation; and

15 (11) further educational efforts are needed to
16 increase public and professional knowledge of the
17 causes of, methods for avoiding, and treatment of
18 osteoporosis.

19 **SEC. 1253. OSTEOPOROSIS RESEARCH.**

20 Subpart 4 of part C of title IV of the Public Health
21 Service Act (42 U.S.C. 285d et seq.) is amended by adding
22 at the end the following new section:

1 **“SEC. 442A. RESEARCH ON OSTEOPOROSIS AND RELATED**
2 **DISEASES.**

3 “(a) EXPANSION OF RESEARCH.—The Director of
4 the Institute, the Director of the National Institute on
5 Aging, the Director of the National Institute of Diabetes
6 and Digestive and Kidney Diseases, the Director of the
7 National Institute of Dental Research, and the Director
8 of the National Institute of Child Health and Human De-
9 velopment shall expand and intensify research on
10 osteoporosis and related bone diseases. The research shall
11 be in addition to research that is authorized under any
12 other provision of law.

13 “(b) MECHANISMS FOR EXPANSION OF RESEARCH.—
14 Each of the Directors specified in subsection (a) shall, in
15 carrying out such subsection, provide for one or more of
16 the following:

17 “(1) Investigator-initiated research.

18 “(2) Funding for investigators beginning their
19 research careers.

20 “(3) Mentorship research grants.

21 “(4) Specialized centers.

22 “(c) AUTHORIZATION OF APPROPRIATIONS.—There
23 are authorized to be appropriated to carry out this section
24 \$30,000,000 for the National Institute of Arthritis and
25 Musculoskeletal and Skin Diseases, \$6,500,000 for the
26 National Institute on Aging, \$6,500,000 for the National

1 Institute of Diabetes and Digestive and Kidney Diseases,
2 \$4,000,000 for the National Institute of Dental Research,
3 and \$3,000,000 for the National Institute of Child Health
4 and Human Development for each of the fiscal years 1997
5 through 1999, and such sums as may be necessary for
6 subsequent fiscal years. These funds are in addition to
7 amounts authorized to be appropriated for biomedical re-
8 search relating to osteoporosis and related bone diseases
9 under any other provision of law.

10 “(d) RELATED BONE DISEASES DEFINED.—As used
11 in this section, the term ‘related bone diseases’ includes—

12 “(1) Paget’s disease, a bone disease character-
13 ized by enlargement and loss of density with bowing
14 and deformity of the bones;

15 “(2) osteogenesis imperfecta, a familial disease
16 marked by extreme brittleness of the long bones;

17 “(3) hyperparathyroidism, a condition charac-
18 terized by the presence of excess parathormone in
19 the body resulting in disturbance of calcium metabo-
20 lism with loss of calcium from bone and renal dam-
21 age;

22 “(4) hypoparathyroidism, a condition character-
23 ized by the absence of parathormone resulting in
24 disturbances of calcium metabolism;

1 “(5) renal bone disease, a disease characterized
2 by metabolic disturbances from dialysis, renal trans-
3 plants, or other renal disturbances;

4 “(6) primary or postmenopausal osteoporosis
5 and secondary osteoporosis, such as that induced by
6 corticosteroids; and

7 “(7) other general diseases of bone and mineral
8 metabolism including abnormalities of vitamin D.”.

11 **SEC. 1291. SHORT TITLE.**

12 This subtitle may be cited as the “Lupus Research
13 Amendments of 1996”.

14 **SEC. 1292. FINDINGS.**

15 The Congress finds that—

16 (1) lupus is a serious, complex, inflammatory,
17 autoimmune disease of particular concern to women;

18 (2) lupus affects women 9 times more often
19 than men;

20 (3) there are 3 main types of lupus: systemic
21 lupus, a serious form of the disease that affects
22 many parts of the body; discoid lupus, a form of the
23 disease that affects mainly the skin; and drug-in-
24 duced lupus caused by certain medications;

1 (4) lupus can be fatal if not detected and treat-
2 ed early;

3 (5) the disease can simultaneously affect var-
4 ious areas of the body, such as the skin, joints, kid-
5 neys, and brain, and can be difficult to diagnose be-
6 cause the symptoms of lupus are similar to those of
7 many other diseases;

8 (6) lupus disproportionately affects African-
9 American women, as the prevalence of the disease
10 among such women is 3 times the prevalence among
11 white women, and an estimated 1 in 250 African-
12 American women between the ages of 15 and 65 de-
13 velops the disease;

14 (7) it has been estimated that over 500,000
15 Americans have been diagnosed with the disease,
16 and that many more have undiagnosed cases;

17 (8) current treatments for the disease can be
18 effective, but may lead to damaging side effects; and

19 (9) many victims of the disease suffer debilitat-
20 ing pain and fatigue, making it difficult to maintain
21 employment and lead normal lives.

3 **ON BREAST CANCER.**

4 Section 417(c) of the Public Health Service Act (42
5 U.S.C. 285a–6(c)) is amended by adding at the end the
6 following paragraph:

7 “(3) INVOLVEMENT OF ADVOCATES IN DECI-

13 garding research on breast cancer.

14 “(B) For purposes of this paragraph, the

17 organizations that represent those affected by
18 breast cancer.

19 “(C) The Director of the Institute shall

2 **Research Equity Act of 1996**

3 **SEC. 1501. SHORT TITLE.**

4 This subtitle may be cited as the “Women and Alco-
5 hol Research Equity Act of 1996”.

6 **SEC. 1502. FINDINGS.**

7 The Congress finds as follows with respect to the
8 United States:

9 (1) One of every 4 alcoholics receiving treat-
10 ment is a woman.

11 (2) In fiscal year 1995, the National Institute
12 on Alcohol Abuse and Alcoholism had a total re-
13 search budget of \$191,186,000, and \$43,997,080 of
14 the budget (approximately 23 percent) was available
15 for research on alcohol abuse and alcoholism among
16 women. There are selected areas where alcohol con-
17 tributes to a more rapid and severe development of
18 disease in women than in men, and research on
19 women exclusively in these areas is important.

20 (3) According to data collected during the years
21 1980 through 1993 (in the survey known as the Na-
22 tional Drug and Alcoholism Treatment Unit Sur-
23 vey), women represent approximately 30 percent of
24 the clients presenting for alcohol problems in tradi-
25 tional public treatment facilities. A recent study has

1 shown that women are more likely than men to use
2 nontraditional health care systems for alcohol-related
3 problems. No data exists to count women in non-
4 traditional treatment settings; therefore, it is not
5 possible to know whether women are overrepresented
6 or underrepresented in all treatment settings in pro-
7 portion to their numbers (30 percent).

8 (4) Alcohol use by pregnant women is the lead-
9 ing known cause of mental retardation in newborns.
10 Fetal alcohol syndrome (FAS), which is marked by
11 dysfunction of the central nervous system and by
12 prenatal and postnatal growth deficiency and facial
13 malformations, strikes 1 to 3 out of every 1,000
14 newborns, or 3,600 to 10,000 babies a year, depend-
15 ing upon the national birth-rate. The incidence of
16 less severe fetal alcohol effects (FAE) is at least 3
17 times that of fetal alcohol syndrome. For Black
18 Americans, the risk of FAS remains about sevenfold
19 higher than for whites, even after adjustment for the
20 frequency of maternal alcohol intake, occurrence of
21 chronic alcohol problems, and parity. Among Native
22 Americans, the incidence of FAS varies among dif-
23 ferent cultures; some are similar to the overall U.S.
24 population, while a much higher prevalence is re-
25 ported for others. Research is also needed on the

1 male contribution to birth abnormalities related to
2 alcohol.

3 (5) Most treatment programs do not provide
4 child care or adequate alternatives for women enter-
5 ing treatment.

6 (6) The death rate of female alcoholics is 50 to
7 100 percent higher than for male alcoholics. Propor-
8 tionately more alcoholic women die of cirrhosis of
9 the liver than do alcoholic men. Additionally, the
10 combined effects of estrogen and alcohol may impact
11 not only liver damage but osteoporosis as well.

12 (7) The interval between onset of drinking-re-
13 lated problems and entry into treatment appears to
14 be shorter for women than for men. Further, studies
15 of women alcoholics in treatment suggest that they
16 often experience greater physiological impairment
17 earlier in their drinking careers, despite having
18 consumed less alcohol than men. These findings sug-
19 gest that the development of consequences associated
20 with heavy drinking may be accelerated or “tele-
21 scoped” in women.

22 (8) Women become intoxicated faster than men.
23 This may be due to a different enzyme and hor-
24 monal activity in women than in men.

1 (9) Chronic, heavy drinking contributes to men-
2 strual disorders, fertility problems, and premature
3 menopause.

4 (10) Alcohol use may be associated with an in-
5 creased risk of breast cancer. Research indicates
6 that the incidence of breast cancer increases when a
7 woman consumes 1 ounce or more of absolute alco-
8 hol daily.

9 (11) The National Institute on Alcohol Abuse
10 and Alcoholism has identified areas for future re-
11 search on alcohol abuse and alcoholism among
12 women. As a result of stimulating research applica-
13 tions during the years 1993 through 1995, such In-
14 stitute's portfolio on women and children has in-
15 creased by \$17,997,000, or more than 69 percent,
16 over the fiscal year 1992 base of \$26,000,000.

17 **SEC. 1503. PROVISIONS REGARDING INCREASE IN AMOUNT**
18 **OF FUNDS EXPENDED FOR RESEARCH ON AL-**
19 **COHOL ABUSE AND ALCOHOLISM AMONG**
20 **WOMEN.**

21 Section 464H(d) of the Public Health Service Act (42
22 U.S.C. 285n(d)) is amended by adding at the end the fol-
23 lowing paragraph:

24 “(3) WOMEN’S HEALTH.—

1 “(A) For fiscal year 1997, of the first
2 \$191,186,000 appropriated under paragraph
3 (1), the Director of the Institute shall obligate
4 not less than \$43,997,080 for the purpose of
5 carrying out under this subpart projects of re-
6 search on alcohol abuse and alcoholism among
7 women.

8 “(B) In addition to the authorization of
9 appropriations established in paragraph (1),
10 there are authorized to be appropriated for car-
11 rying out the purpose specified in subparagraph
12 (A) \$25,000,000 for fiscal year 1997, and such
13 sums as may be necessary for each of the fiscal
14 years 1998 and 1999.”.

22 **1996**

23 **SEC. 2191. SHORT TITLE.**

24 This subtitle may be cited as the “Improved Patient
25 Access to Clinical Studies Act of 1996”.

1 **SEC. 2192. COVERAGE FOR INDIVIDUALS PARTICIPATING**
2 **IN APPROVED CLINICAL STUDIES.**

3 (a) PERMITTING PARTICIPATION IN APPROVED CLIN-
4 ICAL STUDIES.—A health plan may not deny (or limit or
5 impose additional conditions on) coverage of items and
6 services furnished to an enrollee if—

7 (1) the enrollee is participating in an approved

16 A health plan may not discriminate against an enrollee

14 **Subtitle D—Equitable Health Care**
15 **for Neurobiological Disorders**
16 **Act of 1996**

17 **SEC. 2201. SHORT TITLE.**

18 This subtitle may be cited as the “Equitable Health
19 Care for Neurobiological Disorders Act of 1996”.

20 **SEC. 2202. FINDINGS.**

21 Congress finds that—

22 (1) there are sufficient neuroscientific data to
23 document that many severe “mental” illnesses are
24 actually physical illnesses known as neurobiological

1 disorders that are characterized by significant
2 neuroanatomical and neurochemical abnormalities;

3 (2) American families should have adequate
4 health insurance protection for the costs of treating
5 neurobiological disorders that is commensurate with
6 the protections provided for other illnesses;

7 (3) currently, many public and private health
8 insurance programs discriminate against persons
9 with neurobiological disorders by providing more re-
10 strictive coverage for treatments of those illnesses in
11 comparison to coverage provided for treatments of
12 other medical problems;

13 (4) unequal health insurance coverage contrib-
14 utes to the destructive and unfair stigmatization of
15 persons with neurobiological disorders that are as
16 beyond the control of the individuals as are cancer,
17 diabetes, and other serious physical health problems;

18 (5) about 95 percent of what is known about
19 both normal and abnormal structure and function of
20 the brain has been learned in the last 10 years, but
21 millions of severely mentally ill people have yet to
22 benefit from these startling research advances in
23 clinical and basic neuroscience; and

24 (6) according to the National Institutes of Men-
25 tal Health, equitable insurance coverage for severe

1 mental disorders will yield \$2.2 billion annually in
2 net savings through decreased use of general medical
3 services and a substantial decrease in social costs.

4 **SEC. 2203. STANDARDS FOR NONDISCRIMINATORY TREAT-**
5 **MENT OF NEUROBIOLOGICAL DISORDERS**
6 **FOR EMPLOYER HEALTH BENEFIT PLANS.**

7 (a) IN GENERAL.—The standards for the nondiscrim-
8 inatory and equitable treatment by employer health bene-
9 fit plans of individuals with neurobiological disorders are
10 requirements that such plans (and carriers offering such
11 plans) provide for coverage of services that are essential
12 to the effective treatment of neurobiological disorders in
13 a manner that—

14 (1) is not more restrictive than coverage pro-
15 vided for other major physical illnesses;

16 (2) provides adequate financial protection to the
17 person requiring the medical treatment for a
18 neurobiological disorder; and

19 (3) is consistent with effective and common
20 methods of controlling health care costs for other
21 major physical illnesses.

22 (b) PLAN DEEMED TO MEET STANDARDS.—An em-
23 ployer health benefit plan shall be deemed to meet the
24 standards described in subsection (a) if the plan provides
25 for the following:

1 (1) Stop-loss protection for catastrophic ex-
2 penses.

3 (2) Coverage of facility-based care.

4 (3) Coverage of outpatient medical management
5 on a par with other medical procedures to encourage
6 the use of cost-effective ambulatory treatment, in-
7 cluding treatment in non-traditional settings.

8 (4) Coverage of visits for psychological support-
9 ive, therapeutic, and rehabilitative services, with co-
10 insurance and fees set to ensure effective cost con-
11 trol of high demand services.

12 (5) Coverage of prescription drugs essential to
13 the cost effective treatment of neurobiological dis-
14 orders.

15 (6) Coverage of medically necessary services for
16 comorbidity of other disorders.

17 **SEC. 2204. ENFORCEMENT THROUGH EXCISE TAX.**

18 (a) IN GENERAL.—Chapter 43 of the Internal Reve-
19 nue Code of 1986 (relating to qualified pension, etc.,
20 plans) is amended by adding at the end thereof the follow-
21 ing new section:

1 **“SEC. 4980C. FAILURE TO COMPLY WITH EMPLOYER**
2 **HEALTH BENEFIT PLAN STANDARDS FOR**
3 **NONDISCRIMINATORY TREATMENT FOR**
4 **NEUROBIOLOGICAL DISORDERS.**

5 “(a) IMPOSITION OF TAX.—There is hereby imposed
6 a tax on the failure of a carrier or an employer health
7 benefit plan to comply with the standards relating to the
8 nondiscriminatory treatment of neurobiological disorders
9 under section 3 of the Equitable Health Care for
10 Neurobiological Disorders Act of 1996.

11 “(b) AMOUNT OF TAX.—

12 “(1) IN GENERAL.—Subject to paragraph (2),
13 the tax imposed by subsection (a) shall be an
14 amount not to exceed 25 percent of the amounts re-
15 ceived by the carrier or under the plan for coverage
16 during the period such failure persists.

17 “(2) LIMITATION IN CASE OF INDIVIDUAL FAIL-
18 URES.—In the case of a failure that only relates to
19 specified individuals or employers (and not to the
20 plan generally), the amount of the tax imposed by
21 subsection (a) shall not exceed the aggregate of
22 \$100 for each day during which such failure persists
23 for each individual to which such failure relates. A
24 rule similar to the rule of section 4980B(b)(3) shall
25 apply for purposes of this section.

1 “(c) LIABILITY FOR TAX.—The tax imposed by this
2 section shall be paid by the carrier.

3 “(d) EXCEPTIONS.—

4 “(1) CORRECTIONS WITHIN 30 DAYS.—No tax
5 shall be imposed by subsection (a) by reason of any
6 failure if—

7 “(A) such failure was due to reasonable
8 cause and not to willful neglect, and

9 “(B) such failure is corrected within the
10 30-day period beginning on earliest date the
11 carrier knew, or exercising reasonable diligence
12 would have known, that such failure existed.

13 “(2) WAIVER BY SECRETARY.—In the case of a
14 failure which is due to reasonable cause and not to
15 willful neglect, the Secretary may waive part or all
16 of the tax imposed by subsection (a) to the extent
17 that payment of such tax would be excessive relative
18 to the failure involved.

19 “(e) DEFINITIONS.—For purposes of this section, the
20 terms ‘carrier’ and ‘employer health benefit plan’ have the
21 respective meanings given such terms in section 5 of the
22 Equitable Health Care for Neurobiological Disorders Act
23 of 1996.”

1 (b) CLERICAL AMENDMENT.—The table of sections
2 for chapter 43 of such Code is amended by adding at the
3 end thereof the following new item:

 “Sec. 4980C. Failure to comply with employer health benefit plan
 standards for nondiscriminatory treatment for

2 (a) FEDERAL TRADE COMMISSION.—The Federal
3 Trade Commission shall have the power to examine and

23 permanent injunctive relief and compensatory and puni-
24 tive damages, as well as the costs of suit and reasonable
25 fees for the aggrieved individual's attorneys and expert

22 mented, (5) furnish such reports and data as the Sec-
23 retary may require, including, at a minimum, the number
24 and characteristics of individuals served, the services pro-
25 vided, and the results achieved, and (6) establish a com-
26 munity advisory committee to oversee the establishment

1 and implementation of such project. Such community ad-
2 visory committee shall include students, parents, school
3 personnel, physicians, religious and business leaders, and
4 other community representatives and shall establish poli-
5 cies for the project with respect to the services to be pro-
6 vided under the project, the populations to be served, the
7 personnel who will provide services, fees to be charged, and
8 other policy issues.

9 **SEC. 2394. AREAS TO BE SERVED.**

10 In making grants under section 2392, the Secretary
11 shall give priority to applications for projects which will
12 serve areas with low-income residents or minority popu-
13 lations.

14 **SEC. 2395. ABORTION RESTRICTION.**

15 None of the funds provided under a grant under sec-
16 tion 2392 may be used to perform or pay for abortions.

17 **SEC. 2396. REPORT.**

18 The Secretary shall, in each fiscal year, set aside not
19 more than 5 percent of the amount appropriated for
20 grants under section 2392 to evaluate the operations of
21 the projects for which grants were made under such sec-
22 tion. Not later than December 1, 2002, the Secretary shall
23 report to the Congress the result of such evaluation to-
24 gether with such recommendations as the Secretary may
25 have respecting the extension of the grant authority under

1 section 2392 or the establishment of a continuing service
2 program.

5 **1996**

6 **SEC. 2401. SHORT TITLE.**

7 This subtitle may be cited as the “Eating Disorders
8 Information and Education Act of 1996”.

9 **SEC. 2402. FINDINGS.**

10 The Congress finds the following:

11 (1) Eating disorders include anorexia nervosa,
12 bulimia nervosa, and binge eating disorder, as well
13 as eating disorders not otherwise defined.

14 (2) Anorexia nervosa and bulimia each can re-
15 sult in death, cardiac impairments, depression, sub-
16 stance abuse, osteoporosis, infertility, amenorrhea,
17 anemia, and other medical conditions.

18 (3) Medical authorities are uncertain to what
19 extent eating disorders are caused by physiological
20 factors, by psychosocial factors, or by both.

21 (4) Such disorders primarily affect women. As
22 many as 7 percent of women may be experiencing
23 eating disorders, and the rate of new cases is in-
24 creasing. As many as 80 percent of women may dur-

1 ing their lifetimes display symptoms of eating dis-
2 orders.

3 (5) There are effective treatments for some eat-
4 ing disorders.

5 **SEC. 2403. PUBLIC INFORMATION AND EDUCATION ON EAT-**
6 **ING DISORDERS.**

7 Subpart 3 of part B of title V of the Public Health
8 Service Act (42 U.S.C. 290bb–31 et seq.) is amended by
9 adding at the end the following section:

10 “EATING DISORDERS

11 “SEC. 520C. (a) INFORMATION AND EDUCATION.—
12 The Secretary, acting through the Director of the Center
13 for Mental Health Services, shall carry out a program to
14 provide information and education to the public on the
15 prevention and treatment of eating disorders.

16 “(b) TOLL-FREE TELEPHONE COMMUNICATIONS.—
17 In carrying out subsection (a), the Secretary shall provide
18 for the operation of toll-free telephone communications to
19 provide information to the public on eating disorders, in-
20 cluding referrals for services for the prevention and treat-
21 ment of such disorders. Such communications shall be
22 available on a 24-hour, 7-day basis.

23 “(c) AUTHORIZATION OF APPROPRIATIONS.—For the
24 purpose of carrying out this section, there are authorized
25 to be appropriated \$2,000,000 for fiscal year 1997, and

1 such sums as may be necessary for each of the fiscal years
2 1998 and 1999.”.

3 **Subtitle K—Women’s Choice and**
4 **Reproductive Health Protection**
5 **Act of 1996**

6 **SEC. 2451. SHORT TITLE.**

7 This subtitle may be cited as the “Women’s Choice
8 and Reproductive Health Protection Act of 1996”.

9 **SEC. 2452. FINDINGS.**

10 The Congress finds that—

11 (1) reproductive rights are central to women’s
12 ability to exercise full enjoyment of rights secured to
13 them by Federal and State law;

14 (2) abortion has been a legal and constitu-
15 tionally protected medical procedure throughout the
16 United States since 1973 and has become part of
17 mainstream medical practice as is evidenced by the
18 positions of medical institutions including the Amer-
19 ican Medical Association, the American College of
20 Obstetricians and Gynecologists, and the American
21 Medical Women’s Association;

22 (3) the availability of abortion services is dimin-
23 ishing throughout the United States: 84 percent of
24 counties have no abortion provider and between

1 1982 and 1992 the number of providers decreased
2 in 45 States; and

3 (4) at a minimum, Congress must retain the
4 following policies, which currently preserve women's
5 choice and reproductive health:

6 (A) Funding for abortion services for vic-
7 tims of rape and incest.

8 (B) Protection from clinic violence.

9 (C) The implementation of breast cancer,
10 cervical cancer and chlamydia screening pro-
11 grams in all 50 States.

12 (D) Full implementation of legislation to
13 establish contraceptive and infertility research
14 programs.

15 (E) Authorization of family planning pro-
16 grams.

17 (F) The prohibition of a "gag" rule on in-
18 formation pertaining to reproductive medical
19 services.

20 (G) The evaluation of RU-486.

21 (H) The fundamental right to choose, as
22 stated by the Supreme Court in *Roe v. Wade*.

23 (I) Fairness in insurance.

1 (J) The ability of military personnel over-
2 seas to purchase abortion services at military
3 facilities with private funds.

4 **SEC. 2453. SENSE OF CONGRESS WITH RESPECT TO CER-**
5 **TAIN REPRODUCTIVE HEALTH ISSUES.**

6 (a) RAPE AND INCEST VICTIM PROTECTION.—It is
7 the sense of Congress that the current provisions requiring
8 funding of abortion services in cases of life endangerment,
9 rape or incest for women eligible for medical assistance
10 are essential to their health and well-being and therefore
11 Federal and State governments must provide funding in
12 these cases.

13 (b) CLINIC VIOLENCE.—It is the sense of Congress
14 that—

15 (1) Federal resources are necessary to ensure
16 that women have safe access to reproductive health
17 facilities and that health professionals can deliver
18 services in a secure environment free from violence
19 and threats of force; and

20 (2) it is necessary and appropriate to use Fed-
21 eral resources to combat the nationwide campaign of
22 violence and harassment against reproductive health
23 centers.

24 (c) PREVENTIVE HEALTH MEASURES REGARDING
25 BREAST AND CERVICAL CANCER.—It is the sense of the

1 Congress that the program of grants under title XV of
2 the Public Health Service Act should receive a level of
3 funding that is adequate for all States to receive grants
4 under such title.

5 (d) PROGRAMS REGARDING CONTRACEPTION AND
6 INFERTILITY.—

7 (1) RESEARCH CENTERS.—It is the sense of the
8 Congress that the program of research centers under
9 section 452A of the Public Health Service Act
10 should receive a level of funding that is adequate for
11 a reasonable number of research centers to be oper-
12 ated under the program.

13 (2) LOAN REPAYMENT PROGRAM REGARDING
14 CONDUCT OF RESEARCH.—It is the sense of the
15 Congress that the program of loan-repayment con-
16 tracts under section 487B of the Public Health
17 Service Act should receive a level of funding that is
18 adequate for a reasonable number of individuals to
19 conduct research under the program.

20 (3) SCREENINGS FOR INFERTILITY-RELATED
21 SEXUALLY TRANSMITTED DISEASES.—It is the sense
22 of the Congress that the program of grants under
23 section 318A of the Public Health Service Act
24 should receive a level of funding that is adequate for

1 screenings under such section to be available in all
2 States.

3 **SEC. 2454. FAMILY PLANNING AMENDMENTS.**

4 Section 1001(d) of the Public Health Service Act (42
5 U.S.C. 300(d)) is amended to read as follows:

6 “(d) For the purpose of grants and contracts under
7 this section, there are authorized to be appropriated
8 \$220,000,000 for fiscal year 1997, \$250,000,000 for fis-
9 cal year 1998, and such sums as may be necessary for
10 each of the fiscal years 1999 through 2001.”.

11 **SEC. 2455. FREEDOM OF FULL DISCLOSURE.**

12 Title XI of the Civil Rights Act of 1964 is amended
13 by adding at the end the following:

14 “SEC. 1107. (a) Notwithstanding any other provision
15 of law, no governmental authority shall, in or through any
16 program or activity that provides health care services or
17 information, administered or assisted by such authority,
18 limit the right of any person to provide, or the right of
19 any person to receive, nonfraudulent information about
20 the availability of reproductive health care services, includ-
21 ing family planning, prenatal care, adoption, and abortion
22 services.

23 “(b) As used in this section the term ‘governmental
24 authority’ means any authority of the United States.”.

1 **SEC. 2456. FAIRNESS IN EVALUATION OF RU-486.**

2 The Secretary of Health and Human Services shall—

3 (1) assure that the Food and Drug Administra-
4 tion evaluates the drug called Mifepristone or RU-
5 486 only on the basis provided by law; and

6 (2) assess initiatives by which the Department
7 of Health and Human Services can promote the
8 testing, licensing, and manufacturing in the United
9 States of this drug or other antiprogestins.

10 **SEC. 2457. FREEDOM OF CHOICE.**

11 (a) FINDINGS.—Congress finds the following:

12 (1) The 1973 Supreme Court decision in *Roe v.*
13 *Wade* established constitutionally based limits on the
14 power of States to restrict the right of a woman to
15 choose to terminate a pregnancy. Under the strict
16 scrutiny standard enunciated in *Roe v. Wade*, States
17 were required to demonstrate that laws restricting
18 the right of a woman to choose to terminate a preg-
19 nancy were the least restrictive means available to
20 achieve a compelling State interest. Since 1989, the
21 Supreme Court has no longer applied the strict scru-
22 tiny standard in reviewing challenges to the constitu-
23 tionality of State laws restricting such rights.

24 (2) As a result of the Supreme Court's recent
25 modification of the strict scrutiny standard enun-
26 ciated in *Roe v. Wade*, certain States have restricted

1 the right of women to choose to terminate a preg-
2 nancy or to utilize some forms of contraception, and
3 these restrictions operate cumulatively to—

4 (A)(i) increase the number of illegal or
5 medically less safe abortions, often resulting in
6 physical impairment, loss of reproductive capac-
7 ity or death to the women involved;

8 (ii) burden interstate commerce by forcing
9 women to travel from States in which legal bar-
10 riers render contraception or abortion unavail-
11 able or unsafe to other States or foreign na-
12 tions;

13 (iii) interfere with freedom of travel be-
14 tween and among the various States;

15 (iv) burden the medical and economic re-
16 sources of States that continue to provide
17 women with access to safe and legal abortion;
18 and

19 (v) interfere with the ability of medical
20 professionals to provide health services;

21 (B) obstruct access to and use of contra-
22 ceptive and other medical techniques that are
23 part of interstate and international commerce;

24 (C) discriminate between women who are
25 able to afford interstate and international travel

1 and women who are not, a disproportionate
2 number of whom belong to racial or ethnic mi-
3 norities; and

4 (D) infringe upon women's ability to exer-
5 cise full enjoyment of rights secured to them by
6 Federal and State law, both statutory and con-
7 stitutional.

8 (3) Although Congress may not by legislation
9 create constitutional rights, it may, where authorized
10 by its enumerated powers and not prohibited by a
11 constitutional provision, enact legislation to create
12 and secure statutory rights in areas of legitimate na-
13 tional concern.

14 (4) Congress has the affirmative power both
15 under section 8 of article I of the Constitution of the
16 United States and under section 5 of the Fourteenth
17 Amendment of the Constitution to enact legislation
18 to prohibit State interference with interstate com-
19 merce, liberty or equal protection of the laws.

20 (b) PURPOSE.—It is the purpose of this section to
21 establish, as a statutory matter, limitations upon the
22 power of States to restrict the freedom of a woman to ter-
23 minate a pregnancy in order to achieve the same limita-
24 tions as provided, as a constitutional matter, under the

1 strict scrutiny standard of review enunciated in *Roe v.*
2 *Wade* and applied in subsequent cases from 1973 to 1988.

3 (c) IN GENERAL.—A State—

4 (1) may not restrict the freedom of a woman to
5 choose whether or not to terminate a pregnancy be-
6 fore fetal viability;

7 (2) may restrict the freedom of a woman to
8 choose whether or not to terminate a pregnancy
9 after fetal viability unless such a termination is nec-
10 essary to preserve the life or health of the woman;
11 and

12 (3) may impose requirements on the perform-
13 ance of abortion procedures if such requirements are
14 medically necessary to protect the health of women
15 undergoing such procedures.

16 (d) DEFINITION.—As used in this section, the term
17 “State” includes the District of Columbia, the Common-
18 wealth of Puerto Rico, and each other territory or posses-
19 sion of the United States.

20 **SEC. 2458. FAIRNESS IN INSURANCE.**

21 Notwithstanding any other provision of law no Fed-
22 eral law shall be construed to prohibit a provider of health
23 insurance from offering coverage for the full range of re-
24 productive health care, including abortion services.

1 **SEC. 2459. ABORTIONS IN FACILITIES OF THE UNIFORMED**
2 **SERVICES NOT PROHIBITED IF NOT FEDER-**
3 **ALLY FUNDED.**

4 Section 1093 of title 10, United States Code, is
5 amended—

6 (1) by inserting “(a) LIMITATION.—” before
7 “Funds”; and

8 (2) by adding at the end the following:

9 “(b) ABORTIONS IN FACILITIES OVERSEAS.—Sub-
10 section (a) does not limit the performing of an abortion
11 in a facility of the uniformed services located outside the
12 48 contiguous States of the United States if—

13 “(1) the cost of performing the abortion is fully
14 paid from a source or sources other than funds
15 available to the Department of Defense;

16 “(2) abortions are not prohibited by the laws of
17 the jurisdiction where the facility is located; and

18 “(3) the abortion would otherwise be permitted
19 under the laws applicable to the provision of health
20 care to members and former members of the uni-
21 formed services and their dependents in such facil-
22 ity.”.

6 **SEC. 2492. FIRST AMENDMENT RIGHTS.**

7 Title XI of the Civil Rights Act of 1964 is amended
8 by adding at the end the following:

9 “SEC. 1107. (a) Notwithstanding any other provision
10 of law, no governmental authority shall in or through any
11 program or activity, administered or assisted by such au-
12 thority, that provides health care services or information,
13 limit the right of any person to provide, or the right of
14 any person to receive, nonfraudulent information about
15 the availability of reproductive health care services, includ-
16 ing family planning, prenatal care, adoption, and abortion
17 services.

18 “(b) As used in this section—

19 “(1) the term ‘governmental authority’ means
20 any authority of any State or of the United States;
21 and

22 “(2) the term ‘State’ includes the District of
23 Columbia, Puerto Rico, and any other territory or

8 **POPULATION ASSISTANCE.**

9 Part I of the Foreign Assistance Act of 1961 is
10 amended—

11 (1) in section 104(b), by striking “on such
12 terms and conditions as he may determine” and in-
13 sserting “in accordance with the provisions of chapter
14 12”; and

15 (2) by adding at the end the following new
16 chapter:

17 **“CHAPTER 12—UNITED STATES**
18 **POPULATION ASSISTANCE**

19 “SEC. 499. DEFINITION.—For purposes of this chap-
20 ter, the term ‘United States population assistance’ means
21 assistance provided under section 104(b) of this Act.

22 “SEC. 499A. CONGRESSIONAL FINDINGS.—The Con-
23 gress makes the following findings:

24 “(1) Throughout much of the developing world,
25 the inability of women and couples to exercise choice

1 over childbearing undermines the role of women in
2 economic development, contributes to death and suf-
3 fering among women and their children, puts pres-
4 sure on the environment and the natural resources
5 on which many poor families depend for their sur-
6 vival, and in other ways vitiates the efforts of fami-
7 lies to lift themselves out of the poverty in which
8 more than one billion of the world's 5.6 billion peo-
9 ple live.

10 “(2) Through 2015, the world's population will
11 continue to grow, with annual population increments
12 predicted to be above 86 million. This will lead to a
13 tripling of the world's population before stabilization
14 can occur.

15 “(3) As the population within individual coun-
16 tries grows, cities grow rapidly, movement in and be-
17 tween countries increases, and regional distributions
18 of population become unbalanced.

19 “(4) After more than a quarter century of expe-
20 rience and research, a global consensus is emerging
21 on the need for increased international cooperation
22 in regard to population in the context of sustainable
23 development.

24 “(5) To act effectively on this consensus, the
25 ability to exercise reproductive choice should be ex-

1 panded through broader dissemination of fertility
2 regulation services that involve women, couples, and
3 the community and which are competent in meeting
4 individual, family, and community needs and values.

5 “(6) Although a number of barriers to family
6 planning remain, in many countries a large and
7 growing unmet desire exists for fertility regulation
8 among women and men who are too poor to pay the
9 full cost of services or for whom services are other-
10 wise inaccessible. Worldwide, estimates are that
11 more than 350 million couples want to space or pre-
12 vent another pregnancy, but lack access to family
13 planning methods.

14 “(7) Millions of women, most of them mothers,
15 are killed or injured each year as a result of unsafe
16 abortions. The availability of safe and effective fer-
17 tility regulation methods and services and increased
18 access to quality reproductive health care can help
19 prevent many of these tragedies.

20 “(8) In addition to the personal toll on families,
21 the impact of human population growth and wide-
22 spread poverty is evident in mounting signs of stress
23 on the world’s environment, particularly in tropical
24 deforestation, erosion of arable land and watersheds,
25 extinction of plant and animal species, global climate

1 change, waste management, and air and water pollu-
2 tion.

3 “(9) Traditionally, United States population as-
4 sistance has not focused on achieving specific goals
5 with respect to international population stabilization
6 or the expansion of reproductive choice. The absence
7 of clear goals in those areas has led to a lack of cri-
8 teria for allocating funds and evaluating program
9 success.

10 “DECLARATION OF POLICY

11 “SEC. 499B. (a) IN GENERAL.—Congress declares
12 that to reduce population growth and stabilize world popu-
13 lation at the lowest level feasible and thereby improve the
14 health and well-being of the world’s families, to ensure the
15 role of women in the development process, and to protect
16 the global environment, an important objective of the for-
17 eign policy of the United States shall be to assist the inter-
18 national community to achieve universal availability of
19 quality fertility regulation services through a wide choice
20 of safe and effective means of family planning, including
21 programs of public education and other health and devel-
22 opment efforts in support of smaller families.

23 “(b) FINANCIAL TARGETS.—The Congress endorses
24 a target for global expenditures in developing countries of
25 at least \$17,000,000,000 by the year 2000 for population
26 programs described in section 499C, and establishes a goal

1 for United States population assistance by the year 2000
2 of \$1,850,000,000 in constant 1993 dollars.

3 “SEC. 499C. AUTHORIZED ACTIVITIES.—United
4 States population assistance is authorized to provide—

5 “(1) support for the expansion of quality, af-
6 fordable, voluntary family planning services, which
7 emphasize informed choice among a variety of safe
8 and effective fertility regulation methods and closely
9 related reproductive health care services, including
10 the prevention and control of HIV–AIDS, sexually
11 transmitted diseases, and reproductive tract infec-
12 tions;

13 “(2) support for adequate and regular supplies
14 of quality contraceptives, quality family planning
15 counseling, information, education, communication,
16 and services emphasizing the use of the mass media
17 to improve public knowledge of fertility regulation
18 and related disease prevention methods and where
19 they may be obtained and to promote the benefits of
20 family planning and reproductive health to individ-
21 uals, families, and communities;

22 “(3) support to United States and foreign re-
23 search institutions and other appropriate entities for
24 biomedical research to develop and evaluate im-
25 proved methods of safe fertility regulation and relat-

1 ed disease control, with particular emphasis on
2 methods which—

3 “(A) are likely to be safer, easier to use,
4 easier to make available in developing country
5 settings, and less expensive than current meth-
6 ods;

7 “(B) are controlled by women, including
8 barrier methods and vaginal microbicides;

9 “(C) are likely to prevent the spread of
10 sexually transmitted diseases; and

11 “(D) encourage and allow men to take
12 greater responsibility for their own fertility;

13 “(4) support for field research on the character-
14 istics of programs most likely to result in sustained
15 use of effective family planning in meeting each indi-
16 vidual’s lifetime reproductive goals, with particular
17 emphasis on the perspectives of family planning
18 users, including support for relevant social and be-
19 havioral research focusing on such factors as the
20 use, nonuse, and unsafe or ineffective use of various
21 fertility regulation and related-disease control meth-
22 ods;

23 “(5) support for the development of new evalua-
24 tion techniques and performance criteria for family

1 planning programs, emphasizing the family planning
2 user's perspective and reproductive goals;

3 “(6) support for research and research dissemi-
4 nation related to population policy development, in-
5 cluding demographic and health surveys to assess
6 population trends, measure unmet needs, and evalu-
7 ate program impact, and support for policy-relevant
8 research on the relationships between population
9 trends, poverty, and environmental management, in-
10 cluding implications for sustainable agriculture,
11 agroforestry, biodiversity, water resources, energy
12 use, and local and global climate change;

13 “(7) support for prevention of unsafe abortions
14 and management of complications of unsafe abor-
15 tions, including research and public information dis-
16 semination on the health and welfare consequences;

17 “(8) support for special programs to reach ado-
18 lescents and young adults before they begin child-
19 bearing, including health education programs which
20 stress responsible parenthood and the health risks of
21 unprotected sexual intercourse, as well as service
22 programs designed to meet the information and con-
23 traception needs of adolescents;

1 “(9) support for a broad array of governmental
2 and nongovernmental communication strategies de-
3 signed—

4 “(A) to create public awareness worldwide;

5 “(B) to generate a consensus on the need
6 to address reproductive health issues and the
7 problems associated with continued world popu-
8 lation growth;

9 “(C) to emphasize the need to educate men
10 as well as women and mobilize their support for
11 reproductive rights and responsibilities; and

12 “(D) to remove all major remaining bar-
13 riers to family planning use, including unneces-
14 sary legal, medical, clinical, and regulatory bar-
15 riers to information and methods, and to make
16 family planning an established community
17 norm;

18 “(10) support for programs and strategies that
19 actively discourage harmful practices such as female
20 genital mutilation; and

21 “(11) support for prenatal, safe delivery pro-
22 grams and postnatal care programs that include
23 breastfeeding as a child survival strategy and means
24 for enhancing birth spacing.

1 “SEC. 499D. TERMS AND CONDITIONS.—United
2 States population assistance is authorized to be provided
3 subject to the following conditions:

4 “(1) Such assistance may only support, directly
5 or through referral, those activities which provide a
6 broad range of fertility regulation methods permitted
7 by individual country policy and a broad choice of
8 public and private family planning services, includ-
9 ing networks for community-based and subsidized
10 commercial distribution of high quality contracep-
11 tives.

12 “(2) No program supported by United States
13 population assistance may deny an individual family
14 planning services because of such individual’s inabil-
15 ity to pay all or part of the cost of such services.

16 “(3) In each recipient country, programs sup-
17 ported by United States population assistance shall,
18 to the extent possible, support an integrated ap-
19 proach, consistent with respect for the rights of
20 women as decisionmakers in matters of reproduction
21 and sexuality, for the provision of public and private
22 reproductive health services.

23 “(4) Family planning services and related re-
24 productive health care services supported by United
25 States population assistance shall ensure—

1 “(A) privacy and confidentiality and main-
2 tain the highest medical standards possible
3 under local conditions; and

4 “(B) regular oversight of the quality of
5 medical care and other services offered, includ-
6 ing followup care such as care for the side ef-
7 fects of contraceptive use.

8 “(5) United States population assistance pro-
9 grams shall furnish only those contraceptive drugs
10 and devices which have received approval for mar-
11 keting in the United States by the Food and Drug
12 Administration or which have been tested and deter-
13 mined to be safe and effective under research proto-
14 cols comparable to those required by the Food and
15 Drug Administration or have been determined to be
16 safe by an appropriate international organization or
17 the relevant health authority in the country to which
18 they are provided.

19 “(6) Family planning services supported by
20 United States population assistance shall be de-
21 signed to take into account the needs of the family
22 planning user, including the constraints on women’s
23 time, by involving members of the community, in-
24 cluding both men and women, in the design, man-
25 agement, and ongoing evaluation of the services

1 through appropriate training and recruitment ef-
2 forts. The design of services shall stress easy acces-
3 sibility, by locating services as close as possible to
4 potential users, by keeping hours of service conven-
5 ient, and by improving communications between
6 users and providers through community outreach
7 and involvement. Related services shall be included,
8 either on site or through referral.

9 “(7) United States population assistance to ad-
10 olescent fertility programs shall be provided in the
11 context of prevailing norms and customs in the re-
12 cipient country.

13 “(8)(A) Programs supported by United States
14 population assistance shall—

15 “(i) support the prevention of the spread
16 of HIV–AIDS infection;

17 “(ii) raise awareness regarding HIV–AIDS
18 prevention and consequences; and

19 “(iii) provide quality counselling, medical
20 care and support services to HIV–AIDS in-

2 and information programs.

3 “(9) None of the funds made available by the
4 United States Government to foreign governments,
5 international organizations, or nongovernmental or-
6 ganizations may be used to coerce any person to un-
7 dergo contraceptive sterilization or involuntary abor-
8 tion or to accept any other method of fertility regu-
9 lation.

10 “ELIGIBILITY FOR POPULATION ASSISTANCE

11 “SEC. 499E. (a) ELIGIBLE COUNTRIES.—Notwith-
12 standing any other provision of law, United States popu-
13 lation assistance shall be available, directly or through
14 intermediary organizations, to any country which the
15 President determines has met one or more of the following
16 criteria:

17 “(1) The country accounts for a significant pro-
18 portion of the world’s annual population increment.

19 “(2) The country has significant unmet needs
20 for fertility regulation and requires foreign assist-
21 ance to implement, expand, or sustain quality family
22 planning services for all its people.

23 “(3) The country demonstrates a strong policy
24 commitment to population stabilization through the
25 expansion of reproductive choice.

1 “(b) ELIGIBILITY OF NONGOVERNMENTAL AND MUL-
2 TILATERAL ORGANIZATIONS.—In determining eligibility
3 for United States population assistance, the President
4 shall not subject nongovernmental and multilateral organi-
5 zations to requirements which are more restrictive than
6 requirements applicable to foreign governments for such
7 assistance.

8 “PARTICIPATION IN MULTILATERAL ORGANIZATIONS
9 “SEC. 499F. (a) FINDING.—The Congress recognizes
10 that the recent attention, in government policies toward
11 population stabilization owes much to the efforts of the
12 United Nations and its specialized agencies and organiza-
13 tions, particularly the United Nations Population Fund.

14 “(b) AVAILABILITY OF FUNDS.—United States popu-
15 lation assistance shall be available for contributions to the
16 United Nations Population Fund in such amounts as the
17 President determines would be commensurate with United
18 States contributions to other multilateral organizations
19 and with the contributions of other donor countries.

20 “(c) PROHIBITIONS.—(1) The prohibitions contained
21 in section 104(f) of this Act shall apply to the funds made
22 available for the United Nations Population Fund.

24 available to the United Nations Population Fund unless
25 such assistance is held in a separate account and not com-

1 “(3) No funds may be available for the United Na-

6 “(d) ALLOCATION OF FUNDS.—Of the funds made
7 available for United States population assistance, the
8 President shall make available for the Special Programme
9 of Research, Development and Research Training in
10 Human Reproduction for each of the fiscal years 1996 and
11 1997 an amount commensurate with the contributions of
12 the other donor countries for the purpose of furthering
13 international cooperation in the development and evalua-
14 tion of fertility regulation technology.

15 “SUPPORT FOR NONGOVERNMENTAL ORGANIZATIONS

16 “SEC. 499G. (a) FINDING.—Congress finds that in
17 many developing countries, nongovernmental entities, in-
18 cluding private and voluntary organizations and private
19 sector entities, such as the International Planned Parent-
20 hood Federation and the Planned Parenthood Federation
21 of America, are the most appropriate and effective provid-
22 ers of United States assistance to population and family
23 planning activities.

24 “(b) PROCEDURES.—The President shall establish
25 simplified procedures for the development and approval of

1 programs to be carried out by nongovernmental organiza-
2 tions that have demonstrated—

3 “(1) a capacity to undertake effective popu-
4 lation and family planning activities which encourage
5 significant involvement by private health practition-
6 ers, employer-based health services, unions, and co-
7 operative health organizations; and

8 “(2) a commitment to quality reproductive
9 health care for women.

10 “(c) PRIORITY FOR NONGOVERNMENTAL ORGANIZA-
11 TIONS.—The largest share of United States population as-
12 sistance made available for any fiscal year shall be made
13 available through United States and foreign nongovern-
14 mental organizations.

15 “SEC. 499H. REPORTS TO CONGRESS.—The Presi-
16 dent shall prepare and submit to the Congress, as part
17 of the annual presentation materials on foreign assistance,
18 a report on world progress toward population stabilization
19 and universal reproductive choice. The report shall in-
20 clude—

21 “(1) estimates of expenditures on the popu-
22 lation activities described in section 499C by na-
23 tional governments, donor agencies, and private sec-
24 tor entities;

1 “(2) an assessment by country, of the availabil-
2 ity and use of all methods of fertility regulation and
3 abortion, whether lawful or unlawful in that country;

4 “(3) an analysis by country and region of the
5 impact of population trends on a set of key social,
6 economic, political, and environment indicators,
7 which shall be identified by the President in the first
8 report submitted pursuant to this section and ana-
9 lyzed in that report and each subsequent report; and

10 “(4) a detailed statement of prior year and pro-
11 posed direct and indirect allocations of population
12 assistance, by country, which describes how each
13 country allocation meets the criteria set forth in this
14 section.”.

15 **SEC. 2503. AUTHORIZATIONS OF APPROPRIATIONS.**

16 Section 104(g)(1) of the Foreign Assistance Act of
17 1961 (22 U.S.C. 2151b(g)(1) is amended by amending
18 subparagraph (A) to read as follows:

19 “(A) \$635,000,000 for fiscal year 1997 and
20 \$695,000,000 for fiscal year 1998 to carry out sub-
21 section (b) of this section; and”.

22 **SEC. 2504. OVERSIGHT OF MULTILATERAL DEVELOPMENT**
23 **BANKS.**

24 (a) FINDINGS.—The Congress finds that—

1 (1) multilateral development banks have an im-
2 portant role to play in global population efforts;

3 (2) although the increased commitment by mul-
4 tilateral development banks to population-related ac-
5 tivities is encouraging, together the banks provided
6 less than \$200,000,000 in 1994 in assistance for
7 core population programs, and their overall lending
8 for population, health, and nutrition decreased by
9 more than one-half between 1993 and 1994; and

10 (3) the banks themselves have recognized a
11 need to improve oversight of programs, strengthen
12 the technical skills of their personnel, and improve
13 their capacity to work with borrowers, other donors,
14 and nongovernmental organizations in formulating
15 creative population projects to meet diverse borrower
16 needs.

17 (b) SENSE OF CONGRESS.—It is the sense of the
18 Congress that the multilateral development banks should
19 increase their annual support for the population activities
20 described in section 499C of the Foreign Assistance Act
21 of 1961, as added by this Act, to not less than a total
22 of \$1,000,000,000 by December 31, 2001.

23 (c) REPORT REQUIRED.—Not later than July 31 of
24 each year, the Secretary of the Treasury shall prepare and

1 transmit to Congress a report which includes, with respect
2 to the preceding calendar year—

3 (1) information on the resources made available
4 by each multilateral development bank for the popu-
5 lation activities described in section 499C of the
6 Foreign Assistance Act of 1961, as added by this
7 Act;

8 (2) if such resources total less than
9 \$1,000,000,000, any specific actions taken by the
10 United States executive directors to the banks to en-
11 courage increases in such resources and in policy-
12 level discussions with donor and developing country
13 governments; and

14 (3) an analysis of the progress made by the
15 banks towards—

16 (A) meeting the objectives of the popu-
17 lation activities which are supported by the
18 banks;

19 (B) increasing their in-country manage-
20 ment staff;

21 (C) improving the technical skills of their
22 personnel; and

23 (D) assuring their responsiveness to bor-
24 rower needs.

1 (d) DEFINITION.—As used in this section, the term
2 “multilateral development banks” means the International
3 Bank for Reconstruction and Development, the Inter-
4 national Development Association, the African Develop-
5 ment Bank, the Asian Development Bank, the Inter-
6 American Development Bank, and the European Bank for
7 Reconstruction and Development.

8 **SEC. 2505. ECONOMIC AND SOCIAL DEVELOPMENT INITIA-**
9 **TIVES TO STABILIZE WORLD POPULATION.**

10 (a) CONGRESSIONAL FINDINGS.—The Congress
11 makes the following findings:

12 (1) Women represent 50 percent of the world’s
13 human resource potential. Therefore, improving the
14 health, social, and economic status of women and in-
15 creasing their productivity are essential for economic
16 progress in all countries. Improving the status of
17 women also enhances their decisionmaking capacity
18 at all levels in all spheres of life, including in the
19 area of reproductive health.

20 (2) Throughout the world, women who partici-
21 pate in the social, economic, and political affairs of
22 their communities are more likely to exercise their
23 choice about childbearing than women who do not
24 participate in such activities.

1 (3) Effective economic development strategies
2 address issues such as infant and child survival
3 rates, educational opportunities for girls and women,
4 and gender equality in development.

5 (4) Comprehensive population stabilization ef-
6 forts which include both family planning services
7 and economic development activities achieve lower
8 birth rates and stimulate more development than
9 those which pursue these objectives independently.

10 (5) The most powerful, long-term influence on
11 birthrates is education, especially educational attain-
12 ment among women. Education is one of the most
13 important means of empowering women with the
14 knowledge, skills and self confidence necessary to
15 participate in their communities.

16 (6) In most societies, men traditionally have ex-
17 ercised preponderant power in nearly all spheres of
18 life. Therefore, improving communication between
19 men and women on reproductive health issues and
20 increasing their understanding of joint responsibil-
21 ities are essential to ensuring that men and women
22 are equal partners in public and private life.

23 (7) In addition to enabling women to partici-
24 pate in the development of their societies, edu-
25 cational attainment has a strong influence on all

1 other aspects of family welfare, including child sur-
2 vival. However, of the world's 130 million children
3 who are not enrolled in primary school, 70 percent
4 are girls.

5 (8) In a number of countries, lower rates of
6 school enrollment among girls, the practice of pre-
7 natal sex selection, and higher rates of mortality
8 among very young girls suggest that "son pref-
9 erence" is curtailing the access of girl children to
10 food, health care, and education.

11 (9) Each year, nearly 15 million children under
12 the age of 5 die, most from preventable causes.
13 Wider availability of vaccines, simple treatments for
14 diarrheal disease and respiratory infections, and im-
15 proved nutrition could prevent many of these deaths.

16 (10) Each year, 500,000 or more women world-
17 wide die from complications related to pregnancy,
18 childbirth, illegal abortion, or inadequate or inacces-
19 sible reproductive health care services. Another 10
20 million women annually suffer long-term illness or
21 permanent physical impairment from such causes.

22 (11) Malnutrition and anemia are widespread
23 among poor women in their childbearing years, yet
24 the worldwide campaign to encourage breastfeeding

1 has devoted little attention to the nutritional needs
2 of nursing mothers.

3 (12) By mid-1993, the cumulative number of
4 AIDS cases since the pandemic began was estimated
5 at 2.5 million, and an estimated 14 million people
6 had been infected with HIV. By year 2000, esti-
7 mates are that 40 million people will be HIV in-
8 fected.

9 (13) As of mid-1993, four-fifths of all persons
10 ever infected with HIV lived in developing countries.
11 Women are the fastest growing group of new cases.

12 (b) DECLARATION OF POLICY.—Congress declares
13 that, to further the United States foreign policy objective
14 of assisting the international community in achieving uni-
15 versal availability of quality fertility regulation services
16 and stabilizing world population, additional objectives of
17 the foreign policy of the United States shall be—

18 (1) to help achieve universal access to basic
19 education for women and men, with particular prior-
20 ity being given to primary and technical education
21 and job training;

22 (2) to increase understanding of the con-
23 sequences of population growth through effective
24 education strategies that begin in primary school
25 and continue through all levels of formal and

1 nonformal education and which take into account
2 the rights and responsibilities of parents and the
3 needs of children and adolescents;

4 (3) to reduce the gap between male and female
5 levels of literacy and between male and female levels
6 of primary and secondary school enrollment;

7 (4) to help ensure that women worldwide have
8 the opportunity to become equal partners with men
9 in the development of their societies;

10 (5) to help eliminate all forms of discrimination
11 against girl children and the root causes of son pref-
12 erence, which result in harmful and unethical prac-
13 tice such as female infanticide and prenatal sex se-
14 lection;

15 (6) to increase public awareness of the value of
16 girl children through public education that promotes
17 equal treatment of girls and boys in health, nutri-
18 tion, education, socioeconomic and political activity,
19 and equitable inheritance rights;

20 (7) to promote gender equality in all spheres of
21 life, including family and community life, and to en-
22 courage and enable men to take responsibility for
23 their sexual and reproductive behavior and their so-
24 cial and family roles;

1 (8) to help ensure that women and men have
2 the information and means needed to achieve good
3 reproductive health and to exercise their reproduc-
4 tive rights through responsible sexual behavior and
5 equity in gender relations;

6 (9) to reduce global maternal and infant mor-
7 tality rates; and

8 (10) to improve worldwide maternal and child
9 health status and quality of life.

10 (c) AUTHORIZED ACTIVITIES.—United States devel-
11 opment assistance shall be available, on a priority basis,

12 grams which, with respect to a targeted country, are

17 (B) by 2005, to reduce by one-third the
18 country's mortality rates for infants and chil-

12 rheal disease and acute respiratory infections;

13 (3) governmental and nongovernmental pro-
14 grams which are intended to increase women's pro-

17 ess and public life in each community and society
18 through—

19 (A) improved access to appropriate labor-
20 saving technology, vocational training, and ex-
21 tension services and access to credit and child
22 care;
