

**SEC. 202. PROHIBITION OF CERTAIN ANTARCTIC RESOURCE ACTIVITIES.**

(a) AGREEMENT OR LEGISLATION REQUIRED.—Section 4 of the Antarctic Protection Act of 1990 (16 U.S.C. 2463) is amended by striking "Pending a new agreement among the Antarctic Treaty Consultative Parties in force for the United States, to which the Senate has given advice and consent or which is authorized by further legislation by the Congress, which provides an indefinite ban on Antarctic mineral resource activities, it" and inserting in lieu thereof "It".

(b) REPEALS.—Sections 5 and 7 of such Act (16 U.S.C. 2464 and 2466) are repealed.

(c) REDESIGNATION.—Section 6 of such Act (16 U.S.C. 2465) is redesignated as section 5. ●

● Mr. HOLLINGS. Mr. President, today I join with Senator KERRY in introducing the Antarctic Science, Tourism, and Conservation Act of 1996, which will implement the Protocol on Environmental Protection to the Antarctic Treaty. The protocol was signed by the United States 5 years ago and approved by the Senate in the 102d Congress; yet implementing legislation remains to be completed. In the 103d Congress, the Senate Commerce Committee reported implementing legislation, but differences among key agencies and interests prevented further action. Now that those differences have been reconciled, it is timely to complete the implementation effort.

I had the opportunity to visit Antarctica in 1988, and can attest both to its pristine beauty and to the unique scientific activities being conducted there. As many of my colleagues know, the activities of U.S. citizens and interests in Antarctica are almost exclusively those of federally sponsored scientific expeditions, together with their Federal logistics support. These activities are concentrated at the edge of the ice shelf and are based at the three U.S. research stations: McMurdo, South Pole, and Palmer. The peak of activity occurs at the height of the Antarctic summer, when there are about 1,200 personnel at McMurdo, 140 at South Pole, and 40 at Palmer. Occasional U.S. tourists visit as well, under the overall responsibility of the National Science Foundation [NSF]. NSF and the National Oceanic and Atmospheric Administration [NOAA] are the main scientific agencies, and the logistics and icebreaking support is provided by the Navy and Coast Guard.

The Antarctic provides scientists with a truly unique laboratory to conduct research that cannot be carried out anywhere else. During my visit I was impressed by a number of dedicated scientists operating under difficult circumstances to help us to understand better our global environment. I witnessed NOAA's ozone hole research at the South Pole, the sampling of ice cores at the Newell Glacier along the coast, and marine biology investigations at McMurdo. Much of this research has implications for the long term survival of human beings.

We must recognize, however, that such scientific endeavors need to be carried out with great care in an environment as fragile as Antarctica's.

This is essential if Antarctica is to remain a natural reserve that is of great scientific value for generations to come. While much has been done in recent years to improve the environmental soundness of U.S. operations there, the Antarctic Science, Tourism, and Conservation Act of 1996 will help to ensure that present and future U.S. activities comply with the highest environmental standards. Implementation of the protocol is long overdue, and I am hopeful that we can enact this bill very soon. ●

#### CONGRATULATING THE AMERICAN LEGION POST NO. 88 IN LOUDON, NH ON THEIR 50TH ANNIVERSARY

Mr. SMITH. Mr. President, I rise today to pay tribute to the American Legion Post No. 88 in Loudon, NH on their 50th anniversary.

On January 18, 1946, the American Legion Post No. 88 applied for their first charter. Exactly a month later, the members of Post No. 88 held their first meeting and began planning activities for the community. The original Post No. 88 application had 15 names including H.L. Annis, C.H. Derby, C.B. Hall, S.B. Hall, W.G. Harrison, Laura A. Hayward, R.C. Lovering, W.L. Manchester, G.P. Marcotte, H. McCoy, P.E. Morrill, P.W. Ordway, L.C. Palmer, D.P. Reardon and D.B. Stuart. W.L. Manchester was first the Commander of Post No. 88. This milestone of 50 years is a significant accomplishment for all the post members.

The members of Post No. 88 have become an integral part of the Loudon community and donate hundreds of hours of service to their community each year. So many veterans, children and needy families have been touched by the assistance these legionnaires provide through their volunteer work. They visit fellow veterans in local hospitals, coordinate youth programs and are involved with numerous Boy Scout and 4-H groups who use the post headquarters for meetings. Post No. 88 also participates in the nationwide legion efforts which include: sponsoring students for both Boys and Girls State,

sponsoring poster contests that focus on patriotism in local schools, writing and mailing letters to American troops in Bosnia, recycling, collecting eyeglasses for the needy, helping the elderly with housing, and making quilts for at-risk children. All the members of Post No. 88 deserve a special word of appreciation for serving the Loudon and Concord communities so diligently. Many people have greatly benefited from their goodwill and charity.

Fifty years ago, Post No. 88 opened its doors to the town of Loudon. Just last month, exactly 50 years later, a special anniversary program for Post No. 88 was held in the original building on South Village Road. In fact, one of charter members of the auxiliary unit, Marion Stuart, attended the ceremony.

We are truly fortunate to have such a caring group of individuals at the American Legion Post No. 88. For half a century, these members have exemplified goodwill and concern for their needy neighbors and their efforts will no doubt continue for the next 50 years. As a veteran, I congratulate Post No. 88 on their steadfast service to Loudon and Concord. New Hampshire is truly indebted to the Loudon American Legion Post No. 88.

#### NATIONAL DOMESTIC VIOLENCE HOTLINE

● Mr. WELLSTONE. Mr. President, 2 weeks ago, I came to the floor to announce the realization of another component of our initiative to prevent violence against women—the national domestic violence hotline. At that time, I indicated that I would come to the floor every day for 2 weeks, whenever my colleagues would be kind enough to give me about 30 seconds of time, to read off the 800 number of the hotline.

The toll-free number, 1-800-799-SAFE, will provide immediate crisis counseling, and local shelter referrals to women across the country, 24 hours a day. There is also a TDD number for the hearing impaired, 1-800-787-3224.

Mr. President, roughly 1 million women are victims of domestic violence each year and battering may be the single most common cause of injury to women—more common than auto accidents, muggings, or rapes by a stranger. According to the FBI, one of every two women in America will be beaten at least once in the course of an intimate relationship. The FBI also speculates that battering is the most under-reported crime in the country. It is estimated that the new hotline will receive close to 10,000 calls a day.

I hope that the new national domestic violence hotline will help women and families find the support, assistance, and services they need to get out of homes where there is violence and abuse.

Mr. President, once again, the toll-free number is 1-800-787-3224, for the hearing impaired.●
