*SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.*

*SEC. 8002. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense; Provided, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increased authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: Provided further, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: Provided further, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.*

*SEC. 8003. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.*

*SEC. 8004. No more than 20 per centum of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year: Provided, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.*

*(TRANSFER OF FUNDS)*

*SEC. 8005. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$2,400,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied*

by Congress: Provided further, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: Provided further, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress.

(TRANSFER OF FUNDS)

SEC. 8006. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: Provided, That transfers may be made between such funds and the "Foreign Currency Fluctuations, Defense" and "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8007. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: Provided, That in the City of Kaiserslautern such agreements will include the use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: Provided further, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may be obtained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy source: Provided further, That none of the funds available to the Department of Defense in this Act shall be used by the Secretary of a military department to purchase coal or coke from foreign nations for use at United States defense facilities in Europe when coal from the United States is available.

SEC. 8008. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in session in advance to the congressional defense committees.

SEC. 8009. None of the funds contained in this Act available for the Civilian Health and Medical Program of the Uniformed Services shall be available for payments to physicians and other non-institutional health care providers in excess of the amounts allowed in fiscal year 1995 for similar services, except that: (a) for services for which the Secretary of Defense determines an increase is justified by

*economic circumstances, the allowable amounts may be increased in accordance with appropriate economic index data similar to that used pursuant to title XVIII of the Social Security Act; and (b) for services the Secretary determines are overpriced based on allowable payments under title XVIII of the Social Security Act, the allowable amounts shall be reduced by not more than 15 percent (except that the reduction may be waived if the Secretary determines that it would impair adequate access to health care services for beneficiaries). The Secretary shall solicit public comment prior to promulgating regulations to implement this section. Such regulations shall include a limitation, similar to that used under title XVIII of the Social Security Act, on the extent to which a provider may bill a beneficiary an actual charge in excess of the allowable amount.*

*SEC. 8010. None of the funds provided in this Act shall be available to initiate (1) a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000, or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year, unless the congressional defense committees have been notified at least thirty days in advance of the proposed contract award: Provided, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: Provided further, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: Provided further, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: Provided further, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement.*

*Funds appropriated in title III of this Act may be used for multiyear procurement contracts as follows:*

*UH-60 Blackhawk helicopter;  
Apache Longbow helicopter; and  
M1A2 tank upgrade.*

*SEC. 8011. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported to Congress on September 30 of each year: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: Provided further, That upon*

a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

*SEC. 8012. (a) During fiscal year 1996, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.*

*(b) The fiscal year 1997 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 1997 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 1997.*

*(c) Nothing in this section shall be construed to apply to military (civilian) technicians.*

*SEC. 8013. None of the funds provided in this Act shall be available either to return any IOWA Class Battleships to the Naval Register, or to retain the logistical support necessary for support of any IOWA Class Battleships in active service.*

*SEC. 8014. Notwithstanding any other provision of law, none of the funds made available by this Act shall be used by the Department of Defense to exceed, outside the fifty United States, its territories, and the District of Columbia, 125,000 civilian workyears: Provided, That workyears shall be applied as defined in the Federal Personnel Manual: Provided further, That workyears expended in dependent student hiring programs for disadvantaged youths shall not be included in this workyear limitation.*

*SEC. 8015. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.*

*SEC. 8016. None of the funds appropriated for the Department of Defense during the current fiscal year and hereafter shall be obligated for the pay of any individual who is initially employed after the date of enactment of this Act as a technician in the administration and training of the Army Reserve and the maintenance and repair of supplies issued to the Army Reserve unless such individual is also a military member of the Army Reserve troop program unit that he or she is employed to support. Those technicians employed by the Army Reserve in areas other than Army Reserve troop program units need only be members of the Selected Reserve.*

*SEC. 8017. Notwithstanding any other provision of law, during the current fiscal year and hereafter, the Secretaries of the Army and Air Force may authorize the retention in an active status until age sixty of any person who would otherwise be removed from an active status and who is employed as a National Guard or Reserve technician in a position in which active status in a reserve compo-*

ment of the Army or Air Force is required as a condition of that employment.

*SEC. 8018. (a) None of the funds appropriated by this Act shall be used to make contributions to the Department of Defense Education Benefits Fund pursuant to section 2006(g) of title 10, United States Code, representing the normal cost for future benefits under section 1415(c) of title 38, United States Code, for any member of the armed services who, on or after the date of enactment of this Act—*

*(1) enlists in the armed services for a period of active duty of less than three years; or*

*(2) receives an enlistment bonus under section 308a or 308f of title 37, United States Code,*

*nor shall any amounts representing the normal cost of such future benefits be transferred from the Fund by the Secretary of the Treasury to the Secretary of Veterans Affairs pursuant to section 2006(d) of title 10, United States Code; nor shall the Secretary of Veterans Affairs pay such benefits to any such member: Provided, That, in the case of a member covered by clause (1), these limitations shall not apply to members in combat arms skills or to members who enlist in the armed services on or after July 1, 1989, under a program continued or established by the Secretary of Defense in fiscal year 1991 to test the cost-effective use of special recruiting incentives involving not more than nineteen noncombat arms skills approved in advance by the Secretary of Defense: Provided further, That this subsection applies only to active components of the Army.*

*(b) None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: Provided, That this subsection shall not apply to those members who have reenlisted with this option prior to October 1, 1987: Provided further, That this subsection applies only to active components of the Army.*

*SEC. 8019. Funds appropriated for the Department of Defense during the current fiscal year and hereafter shall be available for the payment of not more than 75 percent of the charges of a post-secondary educational institution for the tuition or expenses of an officer in the Ready Reserve of the Army National Guard or Army Reserve for education or training during his off-duty periods, except that no part of the charges may be paid unless the officer agrees to remain a member of the Ready Reserve for at least four years after completion of such training or education.*

*SEC. 8020. None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of enactment of this Act, is performed by more than ten Department of Defense civilian employees until a most efficient and cost-effective organization analysis is completed on such activity or function and certification of the analysis is made to the Committees on Appropriations of the House of Representatives and the Senate: Provided, That this section shall not apply to a commercial or industrial type function of the Department of Defense that: (1) is included on the*

*procurement list established pursuant to section 2 of the Act of June 25, 1938 (41 U.S.C. 47), popularly referred to as the Javits-Wagner-O'Day Act; (2) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or (3) is planned to be converted to performance by a qualified firm under 51 percent Native American ownership.*

*(TRANSFER OF FUNDS)*

*SEC. 8021. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2301 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.*

*SEC. 8022. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: Provided, That for the purpose of this section manufactured will include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): Provided further, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured in the United States exceeds the aggregate cost of the components produced or manufactured outside the United States: Provided further, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes.*

*(TRANSFER OF FUNDS)*

*SEC. 8023. None of the funds appropriated by this Act available for the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) shall be available for the reimbursement of any health care provider for inpatient mental health service for care received when a patient is referred to a provider of inpatient mental health care or residential treatment care by a medical or health care professional having an economic interest in the facility to which the patient is referred: Provided, That this limitation does not apply in the case of inpatient mental health services provided under the program for the handicapped under subsection (d) of section 1079 of title 10, United States Code, provided as partial hospital care, or provided pursuant to a waiver authorized by the Secretary of Defense because of medical or psychological circumstances of the pa-*

*tient that are confirmed by a health professional who is not a Federal employee after a review, pursuant to rules prescribed by the Secretary, which takes into account the appropriate level of care for the patient, the intensity of services required by the patient, and the availability of that care.*

Of the funds made available by this Act in title III, Procurement, \$8,000,000, drawn pro rata from each appropriations account in title III, shall be available for incentive payments authorized by section 504 of the Indian Financing Act of 1974, 25 U.S.C. 1544. These payments shall be available only to contractors which have submitted subcontracting plans pursuant to 15 U.S.C. 637(d), and according to regulations which shall be promulgated by the Secretary of Defense within 90 days of the passage of this Act.*

*SEC. 8025. Funds available in this Act may be used to provide transportation for the next-of-kin of individuals who have been prisoners of war or missing in action from the Vietnam era to an annual meeting in the United States, under such regulations as the Secretary of Defense may prescribe.*

*SEC. 8026. During the current fiscal year, none of the funds available to the Department of Defense may be used to procure or acquire (1) defensive handguns unless such handguns are the M9 or M11 9mm Department of Defense standard handguns, or (2) offensive handguns except for the Special Operations Forces: Provided, That the foregoing shall not apply to handguns and ammunition for marksmanship competitions.*

*SEC. 8027. Notwithstanding any other provision of law, during the current fiscal year, the Secretary of Defense may, by Executive Agreement, establish with host nation governments in NATO member states a separate account into which such residual value amounts negotiated in the return of United States military installations in NATO member states may be deposited, in the currency of the host nation, in lieu of direct monetary transfers to the United States Treasury: Provided, That such credits may be utilized only for the construction of facilities to support United States military forces in that host nation, or such real property maintenance and base operating costs that are currently executed through monetary transfers to such host nations: Provided further, That the Department of Defense's budget submission for fiscal year 1997 shall identify such sums anticipated in residual value settlements, and identify such construction, real property maintenance or base operating costs that shall be funded by the host nation through such credits: Provided further, That all military construction projects to be executed from such accounts must be previously approved in a prior Act of Congress: Provided further, That each such Executive Agreement with a NATO member host nation shall be reported to the congressional defense committees, and the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate thirty days prior to the conclusion and endorsement of any such agreement established under this provision.*

*SEC. 8028. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, or M-1911 pistols.*

*SEC. 8029. None of the funds available to the Department of the Navy may be used to enter into any contract for the overhaul, repair, or maintenance of any naval vessel homeported on the West Coast of the United States which includes charges for interport differential as an evaluation factor for award.*

*SEC. 8030. Notwithstanding any other provision of law, none of the funds appropriated by this Act shall be available to pay more than 50 percent of an amount paid to any person under section 308 of title 37, United States Code, in a lump sum.*

*SEC. 8031. None of the funds appropriated during the current fiscal year and hereafter, may be used by the Department of Defense to assign a supervisor's title or grade when the number of people he or she supervises is considered as a basis for this determination: Provided, That savings that result from this provision are represented as such in future budget proposals.*

*SEC. 8032. None of the funds appropriated by this Act shall be available for payments under the Department of Defense contract with the Louisiana State University Medical Center involving the use of cats for Brain Missile Wound Research, and the Department of Defense shall not make payments under such contract from funds obligated prior to the date of the enactment of this Act, except as necessary for costs incurred by the contractor prior to the enactment of this Act: Provided, That funds necessary for the care of animals covered by this contract are allowed.*

*SEC. 8033. Notwithstanding any other provision of law, funds available to the Department of Defense shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to American Samoa: Provided, That notwithstanding any other provision of law, funds available to the Department of Defense shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to the Indian Health Service when it is in conjunction with a civil-military project.*

*SEC. 8034. None of the funds provided in this Act or any other Act shall be available to conduct bone trauma research at any Army Research Laboratory until the Secretary of the Army certifies that the synthetic compound to be used in the experiments is of such a type that its use will result in a significant medical finding, the research has military application, the research will be conducted in accordance with the standards set by an animal care and use committee, and the research does not duplicate research already conducted by a manufacturer or any other research organization.*

*SEC. 8035. No more than \$50,000 of the funds appropriated or made available in this Act shall be used for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and Senate that such a relocation is required in the best interest of the Government.*

*SEC. 8036. During the current fiscal year, funds appropriated or otherwise available for any Federal agency, the Congress, the judicial branch, or the District of Columbia may be used for the pay, allowances, and benefits of an employee as defined by section 2105*

of title 5 or an individual employed by the government of the District of Columbia, permanent or temporary indefinite, who—

(1) is a member of a Reserve component of the Armed Forces, as described in section 261 of title 10, or the National Guard, as described in section 101 of title 32;

(2) performs for the purpose of providing military aid to enforce the law or providing assistance to civil authorities in the protection or saving of life or property or prevention of injury—

(A) Federal service under section 331, 332, 333, 3500, or 8500 of title 10, or other provision of law, as applicable, or

(A) leave under the authority of this section; or

(B) annual leave, which may be granted without regard to the provisions of sections 5519 and 6323(b) of title 5, if such employee is otherwise entitled to such annual leave:

Provided, That any employee who requests leave under subsection (3)(A) for service described in subsection (2) of this section is entitled to such leave, subject to the provisions of this section and of the last sentence of section 6323(b) of title 5, and such leave shall be considered leave under section 6323(b) of title 5.

SEC. 8037. None of the funds appropriated by this Act shall be available to perform any cost study pursuant to the provisions of OMB Circular A-76 if the study being performed exceeds a period of twenty-four months after initiation of such study with respect to a single function activity or forty-eight months after initiation of such study for a multi-function activity.

SEC. 8038. Funds appropriated by this Act for the American Forces Information Service shall not be used for any national or international political or psychological activities.

SEC. 8039. Notwithstanding any other provision of law, each contract awarded by the Department of Defense in fiscal year 1996 for construction or service performed in whole or in part in a State which is not contiguous with another State and has an unemployment rate in excess of the national average rate of unemployment as determined by the Secretary of Labor shall include a provision requiring the contractor to employ, for the purpose of performing that portion of the contract in such State that is not contiguous with another State, individuals who are residents of such State and who, in the case of any craft or trade, possess or would be able to acquire promptly the necessary skills: Provided, That the Secretary of Defense may waive the requirements of this section in the interest of national security.

SEC. 8040. Notwithstanding any other provision of law or regulation, the Secretary of Defense may adjust wage rates for civilian employees hired for certain health care occupations as authorized for the Secretary of Veterans Affairs by section 7455 of title 38, United States Code.

SEC. 8041. None of the funds appropriated or made available in this Act shall be used to reduce or disestablish the operation of

the 53rd Weather Reconnaissance Squadron of the Air Force Reserve, if such action would reduce the WC-130 Weather Reconnaissance mission below the levels funded in this Act.

*SEC. 8042. (a) Of the funds for the procurement of supplies or services appropriated by this Act, qualified nonprofit agencies for the blind or other severely handicapped shall be afforded the maximum practicable opportunity to participate as subcontractors and suppliers in the performance of contracts let by the Department of Defense.*

*(b) During the current fiscal year, a business concern which has negotiated with a military service or defense agency a subcontracting plan for the participation by small business concerns pursuant to section 8(d) of the Small Business Act (15 U.S.C. 637(d)) shall be given credit toward meeting that subcontracting goal for any purchases made from qualified nonprofit agencies for the blind or other severely handicapped.*

*(c) For the purpose of this section, the phrase "qualified nonprofit agency for the blind or other severely handicapped" means a nonprofit agency for the blind or other severely handicapped that has been approved by the Committee for the Purchase from the Blind and Other Severely Handicapped under the Javits-Wagner-O'Day Act (41 U.S.C. 46-48).*

*SEC. 8043. During the current fiscal year, net receipts pursuant to collections from third party payers pursuant to section 1095 of title 10, United States Code, shall be made available to the local facility of the uniformed services responsible for the collections and shall be over and above the facility's direct budget amount.*

*SEC. 8044. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: Provided, That, upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriation or fund which incurred such obligations.*

*SEC. 8045. Of the funds made available in this Act, not less than \$25,144,000 shall be available for the Civil Air Patrol, of which \$16,704,000 shall be available for Operations and Maintenance.*

*SEC. 8046. (a) None of the funds appropriated in this Act are available to establish a new FFRDC, either as a new entity, or as a separate entity administered by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other nonprofit entities.*

*(b) LIMITATION ON COMPENSATION.—No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, may be compensated for his or her services as a member of such entity, or as a paid consultant, except under the same conditions, and to the same extent, as members of the Defense Science Board: Provided, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized*

under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the Department of Defense from any source during fiscal year 1996 may be used by a defense FFRDC, through a fee or other payment mechanism, for charitable contributions, for construction of new buildings, for payment of cost sharing for projects funded by government grants, or for absorption of contract overruns.

(d) Notwithstanding any other provision of law, of the amounts available to the Department of Defense during fiscal year 1996, not more than \$1,162,650,000 may be obligated for financing activities of defense FFRDCs: Provided, That the total amounts appropriated in titles II, III, and IV of this Act are hereby reduced by \$90,000,000 to reflect the funding ceiling contained in this subsection.

SEC. 8047. None of the funds appropriated or made available on this Act shall be used to procure carbon, alloy or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: Provided, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: Provided further, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That these restrictions shall not apply to contracts which are in being as of the date of enactment of this Act.

SEC. 8048. None of the unobligated balances available in the National Defense Stockpile Transition Fund during the current fiscal year may be obligated or expended to finance any grant or contract to conduct research, development, test and evaluation activities for the development or production of advanced materials, unless amounts for such purposes are specifically appropriated in a subsequent appropriations Act.

SEC. 8049. For the purposes of this Act, the term "congressional defense committees" means the National Security Committee of the House of Representatives, the Armed Services Committee of the Senate, the subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on National Security of the Committee on Appropriations of the House of Representatives.

SEC. 8050. Notwithstanding any other provision of law, during the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities and private firms: Provided, That the Senior Acquisition Executive of the military department or defense agency concerned, with power of delegation, shall certify that suc-

cessful bids include comparable estimates of all direct and indirect costs for both public and private bids: Provided further, That Office of Management and Budget Circular A-76 shall not apply to competitions conducted under this section.

*SEC. 8051. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.*

*(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.*

*(b) The Secretary of Defense shall submit to Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year 1996. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1970 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.*

*(C) For purposes of this section, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).*

*SEC. 8052. Notwithstanding any other provision of law, the Secretary of Defense may, when he considers it in the best interest of the United States, cancel any part of an indebtedness, up to \$2,500, that is or was owed to the United States by a member or former member of a uniformed service if such indebtedness, as determined by the Secretary, was incurred in connection with Operation Desert Shield/Storm: Provided, That the amount of an indebtedness previously paid by a member or former member and canceled under this section shall be refunded to the member.*

*SEC. 8053. Appropriations contained in this Act that remain available at the end of the current fiscal year as a result of energy cost savings realized by the Department of Defense shall remain available for obligation for the next fiscal year to the extent, and for the purposes, provided in section 2865 of title 10, United States Code.*

*SEC. 8054. During the current fiscal year, voluntary separation incentives payable under 10 U.S.C. 1175 may be paid in such amounts as are necessary from the assets of the Voluntary Separation Incentive Fund established by section 1175(h)(1).*

*SEC. 8055. None of the funds appropriated by this Act shall be used for the support of any nonappropriated funds activity of the Department of Defense that procures malt beverages and wine with nonappropriated funds for resale (including such alcoholic beverages sold by the drink) on a military installation located in the United States unless such malt beverages and wine are procured*

*within that State, or in the case of the District of Columbia, within the District of Columbia, in which the military installation is located: Provided, That in a case in which the military installation is located in more than one State, purchases may be made in any State in which the installation is located: Provided further, That such local procurement requirements for malt beverages and wine shall apply to all alcoholic beverages only for military installations in States which are not contiguous with another State: Provided further, That alcoholic beverages other than wine and malt beverages, in contiguous States and the District of Columbia shall be procured from the most competitive source, price and other factors considered.*

*(INCLUDING TRANSFER OF FUNDS)*

*SEC. 8056. Amounts deposited during the current fiscal year to the special account established under 40 U.S.C. 485(h)(2) and to the special account established under 10 U.S.C. 2667(d)(1) are appropriated and shall be available until transferred by the Secretary of Defense to current applicable appropriations or funds of the Department of Defense under the terms and conditions specified by 40 U.S.C. 485(h)(2) (A) and (B) and 10 U.S.C. 2667(d)(1)(B), to be merged with and to be available for the same time period and the same purposes as the appropriation to which transferred.*

*SEC. 8057. During the current fiscal year, appropriations available to the Department of Defense may be used to reimburse a member of a reserve component of the Armed Forces who is not otherwise entitled to travel and transportation allowances and who occupies transient government housing while performing active duty for training or inactive duty training: Provided, That such members may be provided lodging in kind if transient government quarters are unavailable as if the member was entitled to such allowances under subsection (a) of section 404 of title 37, United States Code: Provided further, That if lodging in kind is provided, any authorized service charge or cost of such lodging may be paid directly from funds appropriated for operation and maintenance of the reserve component of the member concerned.*

*SEC. 8058. The President shall include with each budget for a fiscal year submitted to the Congress under section 1105 of title 31, United States Code, materials that shall identify clearly and separately the amounts requested in the budget for appropriation for that fiscal year for salaries and expenses related to administrative activities of the Department of Defense, the military departments, and the Defense Agencies.*

*SEC. 8093.* The Department shall include, in the operation of TRICARE Regions 7/8, a region-wide wraparound care package that requires providers of residential treatment services to share financial risk through case rate reimbursement, to include planning and individualized wraparound services to prevent recidivism.

*SEC. 8094.* All refunds or other amounts collected in the administration of the Civilian Health and Medical Program of the Uniformed Service (CHAMPUS) shall be credited to current year appropriations.

## (INCLUDING TRANSFER OF FUNDS)

*SEC. 8095.* None of the funds appropriated in the Act may be transferred to or obligated from the Pentagon Reservation Maintenance Revolving Fund, unless the Secretary of Defense certifies that the total cost for the planning design, construction and installation of equipment for the renovation of the Pentagon Reservation will not exceed \$1,218,000,000.

*SEC. 8096. (a)* None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

*(b)* None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction and counter-drug activi-

ties may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(TRANSFER OF FUNDS)

*SEC. 8097. Appropriations available in this Act under the heading "Operation and Maintenance, Defense-Wide" for increasing energy and water efficiency in Federal buildings may, during their period of availability, be transferred to other appropriations or funds of the Department of Defense for projects related to increasing energy and water efficiency, to be merged with and to be available for the same general purposes, and for the same time period, as the appropriation or fund to which transferred.*

*SEC. 8098. Funds in the amount of \$61,300,000 received during fiscal year 1996 by the Department of the Air Force pursuant to the "Memorandum of Agreement between the National Aeronautics and Space Administration and the United States Air Force on Titan IV/Centaur Launch Support for the Cassini Mission," signed September 8, 1994, and September 23, 1994, and Attachments, A, B and C to the Memorandum, shall be merged with appropriations available for research, development, test and evaluation and procurement for fiscal year 1996, and shall be available for the same time period as the appropriation with which merged, and shall be available for obligation only for those Titan IV vehicles and Titan IV-related activities under contract as of the date of enactment of this Act, as well as on the follow-on launch services and program sustaining support contract to be awarded in fiscal year 1996.*

*SEC. 8099. None of the funds appropriated by this Act may be used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin: Provided, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committee on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.*

*SEC. 8100. Not less than 30 percent of the total inventory, or 60,000 pounds, of the pentaborane currently stored in non-defective containers at Edwards Air Force Base, California, will be retained until the Secretary of Energy certified to the House and Senate Committees on Appropriations that the Secretary does not intend to use the pentaborane at the Idaho National Engineering Laboratory for: (a) a source of raw material for environmental remediation of high level, liquid radioactive waste, or (b) as a source of raw material for boron drug for the Boron Neutron Capture Therapy or other medical or industrial applications: Provided, That the Secretary of the Air Force is authorized to dispose of any materials that pose a significant health or safety hazard.*

*SEC. 8101. The total amount appropriated in title II, III, and IV of this Act is hereby reduced by \$30,000,000 for savings through improved management of contractor automatic data processing costs charged through indirect rates on Department of Defense acquisition contracts.*

*SEC. 8102. (a) Not later than October 1, 1995, the Secretary of Defense shall require that each disbursement by the Department of Defense in an amount in excess of \$5,000,000 be matched to a particular obligation before the disbursement is made.*

*(b) The Secretary shall ensure that a disbursement in excess of the threshold amount applicable under subsection (a) is not divided into multiple disbursements of less than that amount for the purpose of avoiding the applicability of such subsection to that disbursement.*

*(c) The Secretary of Defense may waive a requirement for advance matching of a disbursement of the Department of Defense with a particular obligation in the case of (1) a disbursement involving deployed forces, (2) a disbursement for an operation in a war declared by Congress or a national emergency declared by the President or Congress, or (3) a disbursement under any other circumstances for which the waiver is necessary in the national security interests of the United States, as determined by the Secretary and certified by the Secretary to the congressional defense committees.*

*(d) This section shall not be construed to limit the authority of the Secretary of Defense to require that a disbursement not in excess of the amount applicable under subsection (a) be matched to a particular obligation before the disbursement is made.*

*SEC. 8103. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.*

*SEC. 8104. None of the funds appropriated in this Act to the Department of the Army may be obligated for procurement of 120mm mortars or 120mm mortar ammunition manufactured outside of the United States: Provided, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.*

*SEC. 8105. The Department of Defense shall release all funds appropriated and available for the HAVE GAZE program to the Department of the Air Force for obligation under existing contractual arrangements.*

*SEC. 8106. None of the funds available to the Department of Defense during fiscal year 1996 may be obligated or expended to support or finance the activities of the Defense Policy Advisory Committee on Trade.*

*SEC. 8107. Notwithstanding any other provision of law, (a) funds available to the Navy in the Operation and Maintenance appropriation for refueling overhauls and defueling inactivations of nuclear-powered warships are available to transport the shipments of naval spent nuclear fuel to the Idaho National Engineering Laboratory needed for examination and storage to avoid threats to the*

*national security; and (b) the Secretary of the Navy is hereby authorized to immediately commence and accomplish such transportation: Provided, That the Secretary of Defense shall make the determination as to what shipments are required for that purpose and shall ensure that the shipments are made in accordance with the practices and requirements applied to previous container shipments of naval spent fuel to the Idaho National Engineering Laboratory: Provided further, That the authority in this section shall expire on September 30, 1996 or upon the vacation or stay of the current or any subsequent injunction issued by the United States District Court for the District of Idaho which enjoins such shipments, whichever occurs first: Provided further, That the authority in this section may not be used unless the Secretary of Defense certifies in writing to the congressional defense committees that a good-faith agreement between the State of Idaho and the United States Government was attempted but could not be reached concerning interim shipments of spent nuclear fuel enjoined by any such injunction based on national security reasons.*

*SEC. 8108. None of the funds appropriated by this Act shall be available to lease or charter a vessel in excess of seventeen months (inclusive of any option periods) to transport fuel or oil for the Department of Defense if the vessel was constructed after October 1, 1995 unless the Secretary of Defense requires that the vessel be constructed in the United States with a double hull under the long-term lease or charter authority provided in section 2401 note of title 10 United States Code: Provided, That this limitation shall not apply to contracts in force on the date of enactment of this Act: Provided further, That by 1997 at least 20 percent of new annual leases and charters must be for ships of double hull design constructed after October 1, 1995 if available in numbers sufficient to satisfy this requirement: Provided further, That the Military Sealift Command shall plan to achieve the goal of eliminating single hull ship leases by the year 2015.*

*SEC. 8109. None of the funds appropriated or made available in this Act to the Department of the Navy shall be used to develop or procure main propulsion engines for the LPD-17 class of ships unless such equipment is powered by a diesel engine manufactured in the United States by a domestically operated entity: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes or there exists a significant cost or quality difference.*

*SEC. 8110. None of the funds appropriated or made available in this Act to the Department of the Navy shall be used to develop or procure an emergency generator set for the New Attack Submarine unless such equipment is powered by a diesel engine manufactured in the United States by a domestically operated entity: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of*

*Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes or there exists a significant cost or quality difference.*

*SEC. 8111. None of the funds in this Act may be used to transport military personnel into Edwards Air Force Base for training rotations at the National Training Center after April 15, 1996: Provided, That the Department of Defense shall comply with the recommendations of the fiscal year 1996 Military Construction bill as it pertains to the interim and permanent National Training Center Airhead.*

*SEC. 8112. The Secretary of Defense and the Secretary of the Army shall reconsider the decision not to include the infantry military occupational specialty among the military skills and specialties for which special pays are provided under the Selected Reserve Incentive Program.*

*SEC. 8113. (a) The Secretary of Defense shall submit, on a quarterly basis, a report to the congressional defense committees, the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate setting forth all costs (including incremental costs) incurred by the Department of Defense during the preceding quarter in implementing or supporting resolutions of the United Nations Security Council, including any such resolution calling for international sanctions, international peacekeeping operations, and humanitarian missions undertaken by the Department of Defense. The quarterly report shall include an aggregate of all such Department of Defense costs by operation or mission.*

*(b) The Secretary of Defense shall detail in the quarterly reports all efforts made to seek credit against past United Nations expenditures and all efforts made to seek compensation from the United Nations for costs incurred by the Department of Defense in implementing and supporting United Nations activities.*

*SEC. 8114. (a) LIMITATION.—Of the funds available under title II under the heading “FORMER SOVIET UNION THREAT REDUCTION” for dismantlement and destruction of chemical weapons, not more than \$52,000,000 may be obligated or expended for that purpose until the President certifies to Congress the following:*

*(1) That the United States and Russia have completed a joint laboratory study evaluating the proposal of Russia to neutralize its chemical weapons and the United States agrees with the proposal.*

*(2) That Russia is in the process of preparing, with the assistance of the United States as necessary, a comprehensive plan to manage the dismantlement and destruction of the Russia chemical weapons stockpile.*

*(3) That the United States and Russia are committed to resolving outstanding issues under the 1989 Wyoming Memorandum of Understanding and the 1990 Bilateral Destruction Agreement.*

*(b) DEFINITIONS.—In this section:*

*(1) The term “1989 Wyoming Memorandum of Understanding” means the Memorandum of Understanding between the Government of the United States of America and the Government of the Union of Soviet Socialist Republics Regarding a Bi-*

*lateral Verification Experiment and Data Exchange Related to Prohibition on Chemical Weapons, signed at Jackson Hole, Wyoming, on September 23, 1989.*

*(2) The term "1990 Bilateral Destruction Agreement" means the Agreement between the United States of America and the Union of Soviet Socialist Republics on destruction and non-production of chemical weapons and on measures to facilitate the multilateral convention on banning chemical weapons signed on June 1, 1990.*

*SEC. 8115. (a) INTERNATIONAL PEACEKEEPING, PEACE ENFORCEMENT, AND HUMANITARIAN ASSISTANCE OPERATIONS.—It is the sense of Congress that in the event of a deployment or participation of United States Armed Forces units in any international peacekeeping, peace enforcement, and humanitarian assistance operation, the President must engage in consultations with the bipartisan leadership of Congress and the congressional committees named in subsection (e) regarding such operation in accordance with subsection (c)(1).*

*(b) COVERED OPERATIONS.—(1) This section applies to the following:*

*(A) Any international peacekeeping or peace-enforcement operation that is not underway as of the date of the enactment of this Act and that is authorized by the Security Council of the United Nations under chapter VI or VII of the Charter of the United Nations.*

*(B) Any other international peacekeeping or peace-enforcement operation that is not underway as of the date of the enactment of this Act.*

*(C) Any deployment after the date of the enactment of this Act of United States ground forces in the territory of the former Yugoslavia above the level of such forces so deployed as of such date of enactment, other than a deployment involving fewer than 100 personnel.*

*(D) Except as provided in paragraph (2), any international humanitarian assistance operation.*

*(2) This section does not apply with respect to—*

*(A) an international humanitarian assistance operation carried out in response to a disaster; or*

*(B) any other international humanitarian assistance operation if the President reports to Congress that the estimated cost of such operation is less than \$50,000,000.*

*(c) CONSULTATION WITH CONGRESS.—(1) Consultations under subsection (a) in the case of any operation shall be initiated before the initial deployment of United States Armed Forces units to participate in the operation and, whenever possible, at least 15 days before such deployment. However, if the President determines that the national security so requires, the President may delay the initiation of such consultations until after such initial deployment, but in no case may such consultations be initiated later than 48 hours after such deployment.*

*(2) Such consultations shall include discussion of all of the following:*

*(A) The goals of the operation and the mission of any United States Armed Forces units involved in the operation.*

(B) *The United States interests that will be served by the operation.*

(C) *The estimated cost of the operation.*

(D) *The strategy by which the President proposes to fund the operation, including possible supplemental appropriations or payments from international organizations, foreign countries, or other donors.*

(E) *The extent of involvement of armed forces and other contributions of personnel from other nations.*

(F) *The anticipated duration and scope of the operation.*

(3) *Such consultations shall continue on a periodic basis throughout the period of the deployment.*

(d) *REQUESTS FOR EMERGENCY SUPPLEMENTAL APPROPRIATIONS.—Whenever there is a deployment of United States Armed Forces to perform an international humanitarian, peacekeeping, or peace-enforcement operation, the President should seek emergency supplemental appropriations to meet the incremental costs to the Department of Defense of that deployment not later than 90 days after the date on which such deployment commences.*

(e) *COMMITTEES TO BE INCLUDED IN CONSULTATIONS.—The committees referred to in subsection (a) are the following:*

(1) *The congressional defense committees.*

(2) *The Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives.*

(3) *The Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives.*

*SEC. 8116. (a) FINDINGS.—The Senate makes the following findings:*

(1) *The President of France stated on June 13, 1995, that the Republic of France plans to conduct eight nuclear test explosions over the next several months.*

(2) *The People's Republic of China continues to conduct underground nuclear weapons tests.*

(3) *The United States, France, Russia, and Great Britain have observed a moratorium on nuclear testing since 1992.*

(4) *A resumption of testing by the Republic of France could result in the disintegration of the current testing moratorium and a renewal of underground testing by other nuclear weapon states.*

(5) *A resumption of nuclear testing by the Republic of France raises serious environmental and health concerns.*

(6) *The United Nations Conference on Disarmament presently is meeting in Geneva, Switzerland, for the purpose of negotiating a Comprehensive Nuclear Test Ban Treaty (CTBT), which would halt permanently the practice of conducting nuclear test explosions.*

(7) *Continued underground weapons testing by the Republic of France and the People's Republic of China undermines the efforts of the international community to conclude a CTBT by 1996, a goal endorsed by 175 nations, at the recently completed NPT Extension and Review Conference (the conference*

for the extension and review of the Nuclear Non-Proliferation Treaty).

(b) *SENSE OF THE SENATE.*—It is the sense of the Senate that the Republic of France and the People's Republic of China should abide by the current international moratorium on nuclear test explosions and refrain from conducting underground nuclear tests in advance of a Comprehensive Test Ban Treaty.

*SEC. 8117. (a) LIMITATION ON TRANSFER OF DEFENSE ARTICLES AND SERVICES.*—Notwithstanding any other provision of law, none of the funds available to the Department of Defense for the current fiscal year may be obligated or expended to transfer to another nation or an international organization any defense articles or services (other than intelligence services) for use in the activities described in subsection (b) unless the congressional defense committees, and the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate are notified 15 days in advance of such transfer.

(b) *COVERED ACTIVITIES.*—(1) This section applies to—

(A) any international peacekeeping or peace-enforcement operation under the authority of chapter VI or chapter VII of the United Nations Charter under the authority of a United Nations Security Council resolution; and

(B) any other international peacekeeping peace-enforcement, humanitarian, or disaster relief operation.

(c) *REQUIRED NOTICE.*—A notice under subsection (a) shall include the following:

(1) A description of the equipment, supplies, or services to be transferred.

(2) A statement of the value of the equipment, supplies, or services to be transferred.

(3) In the case of a proposed transfer of equipment or supplies—

(A) a statement of whether the inventory requirements of all elements of the Armed Forces (including the reserve components) for the type of equipment or supplies to be transferred have been met; and

(B) a statement of whether the items proposed to be transferred will have to be replaced and, if so, how the President proposes to provide funds for such replacement.

*SEC. 8118.* None of the funds available to the Department of Defense shall be obligated or expended to make a financial contribution to the United Nations for the cost of any United Nations peacekeeping activity (whether pursuant to assessment or a voluntary contribution) or for payment of any United States arrearage to the United Nations.

*SEC. 8119.* None of the funds made available in this Act may be used to administer any policy that permits the performance of abortions at medical treatment or other facilities of the Department of Defense, except when it is made known to the Federal official having authority to obligate or expend such funds that the life of the mother would be endangered if the fetus were carried to term: Provided, That the provisions of this section shall enter into force if specifically authorized in the National Defense Authorization Act for Fiscal Year 1996.

*SEC. 8120. None of the funds made available in this Act under the heading "Procurement of Ammunition, Army" may be obligated or expended for the procurement of munitions unless such acquisition fully complies with the Competition in Contracting Act.*

*SEC. 8121. None of the funds in this Act may be used to implement any change to the computation of military retired pay as required by law in fiscal year 1995 for military personnel who entered the Service before September 8, 1980.*

*SEC. 8122. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when it is made known to the Federal official having authority to obligate or expend such funds that—*

*(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and*

*(2) such bonus is part of restructuring costs associated with a business combination.*

*SEC. 8123. None of the funds provided in title II of this Act for "FORMER SOVIET UNION THREAT REDUCTION" may be obligated or expended to finance housing for any individual when it is made known to the Federal official having authority to obligate or expend such funds that such individual was a member of the military forces of the Soviet Union or that such individual is or was a member of the military forces of the Russian Federation.*

*SEC. 8124. It is the sense of Congress that none of the funds available to the Department of Defense shall be obligated or expended for the deployment or participation of United States Armed Forces in any peacekeeping operation in Bosnia-Herzegovina, unless such deployment or participation is specifically authorized by a law enacted after the date of enactment of this Act: Provided, That this section shall not apply to operations of the nature and extent conducted by United States Armed Forces in Bosnia-Herzegovina during fiscal year 1995, emergency air rescue operations, the airborne delivery of humanitarian supplies, or the planning and execution of OPLAN 40104 or similar operations to extract UNPROFOR personnel.*

*SEC. 8125. Notwithstanding any other provision in this Act, the total amount appropriated in this Act is hereby reduced by \$832,000,000 to reflect savings from revised economic assumptions, to be distributed as follows:*

*Operation and Maintenance, Army, \$54,000,000;*  
*Operation and Maintenance, Navy, \$80,000,000;*  
*Operation and Maintenance, Marine Corps, \$9,000,000;*  
*Operation and Maintenance, Air Force, \$51,000,000;*  
*Operation and Maintenance, Defense-Wide, \$36,000,000;*  
*Operation and Maintenance, Army Reserve, \$4,000,000;*  
*Operation and Maintenance, Navy Reserve, \$4,000,000;*  
*Operation and Maintenance, Marine Corps Reserve, \$1,000,000;*  
*Operation and Maintenance, Air Force Reserve, \$3,000,000;*  
*Operation and Maintenance, Army National Guard,*  
*\$7,000,000;*  
*Operation and Maintenance, Air National Guard, \$7,000,000;*

*Drug Interdiction and Counter-Drug Activities, Defense, \$5,000,000;*

*Environmental Restoration, Defense, \$11,000,000;*

*Overseas Humanitarian, Disaster, and Civic Aid, \$1,000,000;*

*Former Soviet Union Threat Reduction, \$2,000,000;*

*Defense Health Program, \$51,000,000;*

*Aircraft Procurement, Army, \$9,000,000;*

*Missile Procurement, Army, \$5,000,000;*

*Procurement of Weapons and Tracked Combat Vehicles, Army, \$10,000,000;*

*Procurement of Ammunition, Army, \$6,000,000;*

*Other Procurement, Army, \$17,000,000;*

*Aircraft Procurement, Navy, \$29,000,000;*

*Weapons Procurement, Navy, \$13,000,000;*

*Shipbuilding and Conversion, Navy, \$42,000,000;*

*Other Procurement, Navy, \$18,000,000;*

*Procurement, Marine Corps, \$4,000,000;*

*Aircraft Procurement, Air Force, \$50,000,000;*

*Missile Procurement, Air Force, \$29,000,000;*

*Other Procurement, Air Force, \$45,000,000;*

*Procurement, Defense-Wide, \$16,000,000;*

*Chemical Agents and Munitions Destruction, Defense, \$5,000,000;*

*Research, Development, Test and Evaluation, Army, \$20,000,000;*

*Research, Development, Test and Evaluation, Navy, \$50,000,000;*

*Research, Development, Test and Evaluation, Air Force, \$79,000,000;*

*Research, Development, Test and Evaluation, Defense-Wide, \$57,000,000; and*

*Developmental Test and Evaluation, Defense, \$2,000,000: Provided, That these reductions shall be applied proportionally to each budget activity, activity group and subactivity group and each program, project, and activity within each appropriation account.*

*SEC. 8126. Notwithstanding any other provision of law, of the revenue collected by the Defense Business Operations Fund, \$117,000,000 shall be made available for obligation and expenditure for termination liability, lease and operational costs for aircraft to accomplish the VC-137 aircraft mission; Provided, That the funds made available pursuant to this section shall remain available until expended.*

*SEC. 8127. Funds appropriated by this and future Acts under the heading "Missile Procurement, Air Force" may be obligated for payment of satellite on-orbit incentives in the fiscal year in which an incentive payment is earned: Provided, That any obligation made pursuant to this section may not be entered into until 30 calendar days in session after the congressional defense committees have been notified that an on-orbit incentive payment has been earned.*

*SEC. 8128. (a) Not more than a total of \$11,000,000 of the funds appropriated under the heading "Research, Development, Test and Evaluation, Army", in title IV of Public Law 103-335, and in title IV of this Act, may be made available for support of a NATO*

*Alliance Ground Surveillance (AGS) program based on the Joint Surveillance/Target Attack Radar System (JSTARS).*

*(b) Not more than a total of \$6,450,000 of the funds appropriated under the heading "Research, Development, Test and Evaluation, Air Force", in title IV of Public Law 103-335, and in title IV of this Act, may be made available for support of a NATO Alliance Ground Surveillance (AGS) program based on JSTARS.*

*SEC. 8129. (a) In addition to any other reductions required by this Act, the following funds are hereby reduced from the following accounts in title IV of this Act in the specified amounts:*

*"Research, Development, Test and Evaluation, Army", \$47,852,000;*

*"Research, Development, Test and Evaluation, Navy", \$85,947,000;*

*"Research, Development, Test and Evaluation, Air Force", \$128,958,000; and*

*"Research, Development, Test and Evaluation, Defense-Wide", \$62,243,000.*

*(b) The reductions taken pursuant to subsection (a) shall be applied on a pro-rata basis by subproject within each R-1 program element as modified by this Act, except that no reduction may be taken against the funds made available to the Department of Defense for Ballistic Missile Defense.*

*This Act may be cited as the "Department of Defense Appropriations Act, 1996".*

*And the Senate agree to the same.*

## JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2126), making appropriations for the Department of Defense for the fiscal year ending September 30, 1996, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Department of Defense Appropriations Act, 1996, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 104-208 and Senate Report 104-124 should be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary.

Senate Amendment: The Senate deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

### DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The conferees agree that for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 1996, the accompanying House and Senate Committee reports, the conference report and accompanying joint explanatory statement of the managers of the Committee of Conference, the related classified annexes and reports, and the P-1 and R-1 budget justification documents as subsequently modified by Congressional action. The following exception to the above definition shall apply:

For the Military Personnel and the Operation and Maintenance accounts, the term "program, project, and activity" is defined as the appropriations accounts contained in the Department of Defense Appropriations Act. At the time the President submits his budget for fiscal year 1997, the conferees direct the Department of Defense to transmit to the congressional defense committees a budget justification document to be known as the "0-1" which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for operation and maintenance in any budget request, or amended budget request, for fiscal year 1997.

## TITLE I—MILITARY PERSONNEL

The conferees agree to the following amounts and end strength totals for the Military Personnel accounts as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Active personnel:				
Army .....	19,721,408	19,884,608	19,776,587	19,809,187

Total, Military Personnel .....	68,696,663	69,231,892	68,881,029	69,054,008

## OPERATIONS PROVIDE COMFORT/ENHANCED SOUTHERN WATCH

The conference agreement includes \$647,100,000, as proposed by the House, for unbudgeted costs associated with Operations Provide Comfort and Enhanced Southern Watch. Of this amount, \$77,500,000 is appropriated in Title I, Military Personnel, and \$569,600,000 is appropriated in Title II, Operation and Maintenance. The conferees designate these funds as an item of Congressional interest, meaning they can only be used for additional incremental costs of Operations Provide Comfort and Enhanced Southern Watch unless prior approval is granted by the House and Senate Committees on Appropriations through normal reprogramming procedures. In addition, the conferees direct that none of these funds may be obligated or expended unless the costs of these operations are fully submitted in the President's fiscal year 1997 budget request. The conferees direct that funds shall be available for obligation only after submission of the fiscal year 1997 budget request, and only if the request fully funds and details the estimated costs of these operations. The conferees direct the Secretary of Defense to provide a report to the House and Senate Committees on Appropriations by January 30, 1996, on planned obligations and expenditures of these funds.

## FORCE STRUCTURE CHANGES

The conferees recommend an increase of \$38,500,000 to maintain fiscal year 1995 Primary Authorized Aircraft (PAA) levels in Air National Guard general purpose fighter forces during fiscal year 1996.

The conferees recommend an increase of \$34,200,000 to sustain the maritime patrol aircraft force structure at 13 active and 9 reserve squadrons in fiscal year 1996.

The conferees also recommend an increase of \$9,600,000 for additional Marine Corps Reserve full-time support, in order to facilitate the Marine Corps Reserve's contingency role and operations.

## MILITARY TECHNICIAN AND MEDICAL PERSONNEL REPROGRAMMING

The conferees direct that the Department of Defense, in the event of sequestration during fiscal year 1996, protect military (civilian) technicians and medical personnel necessary to maintain the current level of medical and Reserve Component operations, from any associated reduction of personnel pay and medical programs (to include CHAMPUS).

## BASIC ALLOWANCE FOR QUARTERS

The conferees agree to provide \$72,366,000, as proposed by the Senate, for an increase in the Basic Allowance for Quarters, to be effective January 1, 1996.

MILITARY (CIVILIAN) TECHNICIANS

The conferees recommend an increase of \$40,500,000 in the Operation and Maintenance accounts of the Army Reserve, Air Force Reserve, Army National Guard, and Air National Guard for additional military (civilian) technicians. The conferees remain concerned about the significant reduction to military technicians contained in the President's budget request and expect these funds to not be used for any other purpose without a prior approval reprogramming being submitted through normal channels. Additionally, the conferees direct the Department to provide the required number of workyears needed to sustain the levels of military (civilian) technicians as provided in this Act. The conferees also include a general provision (Section 8087) which prohibits reducing the full-time support levels for technicians unless such technicians are a result of a reduction in military force structure. The conferees expect the Department to follow the intent of this provision.

## SUPPORT OF THE U.S. ANTARCTIC PROGRAM

The conferees agree to continue the Department of Defense support to the U.S. Antarctic Program. However, in light of the Congressional requirement for the National Science and Technology Council to undertake a Government-wide policy review of DoD's role in the Antarctic program no later than March 31, 1996, future Defense involvement in this mission will be reassessed after receipt of that report. The conferees believe that Air National Guard participation in this project is predicated only on full reimbursement by the National Science Foundation and shall not conflict with any other Air National Guard mission.

## BUDGET JUSTIFICATION AND EXECUTION MATERIALS

The conferees are encouraged by the steps the Department has taken to improve the Operation and maintenance program justification materials submitted to the Congress. In order to further these efforts, the conferees direct the Department to:

provide the Committees on Appropriations quarterly budget execution reports for all Operation and maintenance accounts for fiscal year 1996. These reports should reflect the O-1 categories used in the budget justification materials. Reports should be submitted within 60 days of the end of the quarter to which they apply, concurrently to the Office of Management and Budget;

provide the Committees on Appropriations quarterly reports describing the execution of real property maintenance programs. These reports should describe those activities specifically and/or generally described by the Congress and should separately identify activity related to barracks renovation. Real Property Maintenance is designated an item of congressional interest; transfers from real property maintenance programs to other activities are subject to prior-notification reprogramming procedures.

The conferees agree that proposed transfers of funds between O-1 budget activity funding categories in excess of \$20,000,000 are subject to normal reprogramming procedures. In addition, due to continuing concerns about force readiness and the possible diversion of Operation and maintenance funds, the conferees agree that the Department should provide written notification to the congressional defense committees prior to transfers in excess of \$20,000,000 from the following subactivity group categories:

*O&M, Army*

Operating forces: Combat units; Tactical support; Force related training/special activities; Depot maintenance.

*O&M, Navy*

Operating forces: Mission and other flight operations; Aircraft depot maintenance; Mission and other ship operations; Ship depot maintenance.

*O&M, Marine Corps*

Operating forces: Operational forces

*O&M, Air Force*

Operating forces: Primary combat forces; Primary combat weapons; Air operations training. Mobilization: Airlift operations.

## FINANCIAL MANAGEMENT

The conferees are concerned about the state of financial management in the Department of Defense and the measures that may be taken to improve upon past performance. Both the House and Senate reports on the fiscal year 1996 Department of Defense Appropriations Bill recommended several items for the Department's consideration. These items should be merged into a single report

due to the Committees on Appropriations not later than May 31, 1996. The DoD report should address the following issues:

the state of Defense Finance and Accounting Service (DFAS) consolidation and future reorganization plans. Of specific interest are DoD plans concerning establishment of 20 DFAS operating locations;

opportunities for utilizing private sector financial services to meet non-unique departmental requirements such as travel processing, payroll and contract disbursements;

procedural changes designed to improve DoD performance in the areas of unmatched disbursements and negative unliquidated obligations;

the estimated resource requirements to achieve long term improvements of DoD financial management procedures and systems.

#### REAL PROPERTY MAINTENANCE

The conferees agree with the Senate in providing an additional \$322,000,000 for barracks renovation. The conferees have provided a total increase of \$700,000,000 to the Real Property Maintenance account.

[In thousands of dollars]

	Barracks renovation	Other RPM	Total additional RPM
Army .....	100,000	67,000	167,000
Navy .....	100,000	55,000	155,000
Air Force .....	100,000	51,000	151,000

Air Force Reserve .....		13,500	13,500
Total .....	322,000	378,000	700,000

#### SECURITY PROGRAMS

The conferees agree to reduce the military department's security program accounts and the On-Site Inspection Agency. In order to meet emergent requirements stemming from valid treaty obligations, the conferees expect the Department of Defense to submit a reprogramming request subject to normal, prior approval reprogramming procedures.

#### TRANSPORTATION IMPROVEMENTS

The conferees agree that the Department of Defense should be able to improve the efficiency of the transportation organizations and infrastructure under the control of the U.S. Transportation Command (USTRANSCOM). The conferees direct that the Department of Defense report to the congressional defense committees not later than March 31, 1996, on measure that will be taken to achieve improvements in this area.

INTERNATIONAL MILITARY TRAINING AND EDUCATION

The conferees express their continued support for the International Military Education and Training Program. The conferees note however that this program is funded within international affairs programs and is properly within the jurisdiction of the Subcommittees on Foreign Operations. Therefore, the conferees direct that no funds appropriated in this act be used for foreign operations costs associated with the International Military Education and Training program.

DEFENSE COMMISSARY ACCESS POLICY

The conferees direct a report be made by the General Accounting Office to the Committee on Appropriations of the Senate and the House of Representatives on any changes in DoD commissary access policy, including providing reservists new or additional privileges, and addressing any resulting financial impact on the commissaries.

MILITARY TRAFFIC MANAGEMENT COMMAND REENGINEERING PROGRAM

The conferees direct the Department of Defense to provide a report on its pilot program to implement commercial business practices and standards of service for its movement of military household goods, to the congressional defense committees by March 1, 1997. This report should fully assess how the pilot program impacts the government's transportation costs as compared to the current program. The conferees expect the Department to fairly evaluate the present program as modified by the removal of government unique terms, conditions and regulations and using simplified procedures. This analysis shall determine whether the proposed reengineering of the current program is economically justified, can achieve a higher level of service and lower claims frequency.

In addition, the conferees direct the Department to report by January 1, 1996, prior to the implementation of any element of the pilot program, on its impact on small businesses resulting from, but not limited to, the application of the Federal Acquisition Regulations, and the requirement of any program elements that are not standard commercial business practices.

CONVENTIONAL AMMUNITION MAINTENANCE

The conferees direct that of the funds provided for conventional ammunition care and maintenance, the Army shall expend not less than \$300,853,000 for this purpose.

NATIONAL PRESTO

The conferees direct that not less than \$15,000,000 be made available in the "Operation and Maintenance, Army" account only for the remediation of environmental contamination at the National Presto Industries, Inc. site in Eau Claire, Wisconsin. These funds are to be made available only for the implementation and execution of the 1988 agreement between the Department of the Army and National Presto Industries, Inc., within sixty days of the enactment of this Act and without being made subject to any studies, reports or other pre-conditions that would in any way delay or obstruct the obligation and disbursement of the funds. The conferees are satisfied that sufficient studies of this matter already have been done.

LIFE SCIENCES EQUIPMENT LABORATORY

The conferees direct that the Army shall make available \$500,000 to the Life Sciences Equipment Laboratory at Kelly AFB, Texas, for work in support of the Joint Task Force—Full Accounting.

FORT WAINWRIGHT EMERGENCY REPAIRS

The conferees agree to provide \$8,000,000 of available funds, for emergency repairs for the Fort Wainwright Central Heat and Power Plant.

CONTRACTOR-OPERATED PARTS STORES (COPARS)

The conferees are concerned by the issues raised in a recent GAO study of the COPARS program questioning the methodology used by certain military commanders to justify the use of alternative approaches. The conferees direct the services to suspend all efforts directed toward the elimination of COPARS unless and until economic analyses are approved that clearly show other alternatives to be more cost-effective. Such economic analyses must compare like items of cost (including labor and overhead costs of any COPARS alternative) and must fully address the concerns about earlier analyses cited in the GAO report. To ensure the fairness and objectivity of any such analysis, the conferees direct the Secretary to designate a single point of contact within the Office of the Secretary of Defense for approval of study methodology and any final recommendations.

## REVERSE OSMOSIS DESALINATORS

The conferees agree to provide \$3,500,000 under this heading for the purchase and repair and maintenance of reverse osmosis desalinators. Of this amount, \$500,000 is directed to the repair and maintenance of existing Navy desalinators, \$1,000,000 is directed for the procurement of new desalinators for the Navy, and the remaining \$2,000,000 is directed to Navy procurement of desalinators in support of the Air Force.

## ASIA-PACIFIC CENTER FOR SECURITY STUDIES

In their respective bills, the House and Senate have each approved the budget request for the Asia-Pacific Center for Security Studies. The conferees note that the Center was dedicated by the Secretary of Defense in August of this year and it continues to receive strong support from the civilian and military leadership of the Defense Department and other nations. The conferees want to express their support for fully funding the requirements of the Center in 1996 and the future.

## CSS HUNLEY

The House recedes from its report language regarding the CSS Hunley.

## COUNTERDRUG OPERATIONS

The conferees direct that no more than \$8,000,000 of available funds are to be used to relocate USSOUTHCOM radars. These funds are intended to augment counterdrug O&M funding and are

not to be counted against the fiscal year 1996 appropriated level for counterdrug O&M activities.

ALTERNATIVE POWER DEMONSTRATION

The conferees agree that the report on the demonstration of alternative power sources for Burnt Mountain should be provided to the Committees on Appropriations by September 30, 1997.

JOINT ANALYSIS MODEL IMPROVEMENT PROGRAM

The conferees agree that, of the funds provided, \$11,200,000 shall be made available for the Joint Analysis Model Improvement Program.

PENTAGON RENOVATION

The conferees direct that the Pentagon renovation funding be consolidated in the Operation and Maintenance, Defense-wide account. The conferees have provided a total of \$108,020,000 for the Pentagon renovation.

TROOPS TO COPS AND TEACHERS

The Senate included language providing \$52,000,000 to continue the Troops to Cops and Troops to Teachers programs. The conferees have deleted this language. The conferees expect the Defense Department to consider using existing resources within this appropriation, if available, to continue these programs.

TRANSITION ASSISTANCE PROGRAM AND RELOCATION ASSISTANCE PROGRAM

The conferees agree to provide \$49,300,000 for the Transition Assistance Program and \$18,504,000 for the Relocation Assistance Program for fiscal year 1996. However, the conferees are concerned that these programs have become permanent entities, even though they were initiated to provide service members and their families with separation and relocation assistance resulting from the drawdown. At the end of fiscal year 1996, the Department of Defense will have largely completed its downsizing effort. Accordingly, the conferees direct the Department to report to the Defense Committees no later than March 1, 1996, on phasing out these programs, and what, if any residual level of continued resourcing is required.

<b>Total Adjustments .....</b>		<b>+63,900</b>

#### ENVIRONMENTAL RESTORATION, DEFENSE

The conferees agree to provide \$1,422,200,000 for Environmental Restoration, Defense.

#### ENVIRONMENTAL REMEDIATION

The conferees support the "relative risk" approach to environmental remediation and expect the Department to make sure the most hazardous sites receive primary attention. While the conferees believe that all bases—those closing and those remaining

open—must meet environmental standards the Department must not let ongoing environmental clean-up efforts preclude reuse opportunities at closing military installations. In these cases, the Department should work aggressively and innovatively with State and local officials to lower clean-up costs and to be sure environmental issues do not make it harder for affected communities to recover from losing a military installation.

#### SUMMER OLYMPICS

The conference agreement recommends an appropriation of \$15,000,000 as proposed by the House and Senate for support of the 1996 Games of the XXVI Olympiad.

#### OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

The conferees agree to provide \$50,000,000 for these functions of which \$20,000,000 is specifically earmarked for training and activities related to the clearing of landmines for humanitarian purposes.

The conferees also agree to the House recommendation to consolidate all funds for humanitarian, disaster, and civil aid into a single account.

#### FORMER SOVIET UNION THREAT REDUCTION

The conferees agree to provide \$300,000,000 for the Former Soviet Union Threat Reduction program, a reduction of \$71,000,000 from the budget request. Funding provided at the subprogram level appears in the following table:

[In millions of dollars]

Program	Budget	House	Senate	Conference
Nuclear Arms Reduction .....	\$167.5	\$167.5	\$167.5	\$167.5
Defense Enterprise Fund .....	40	0	0	0
Chemical Weapons Destruction .....	104	0	104	79
Fissile Material .....	29	6	29	29
Other .....	30.5	26.5	24.5	24.5
Total .....	371	200	325	300

Although no new funds are provided for the Defense Enterprise Fund, the conferees agree that up to \$200,000,000 of previously appropriated funds may be expended to administer the continued operation of the Defense Enterprise Fund program currently underway. The conferees have included two general provisions regarding the Former Soviet Union Threat Reduction program involving the limitation on expenditures of funds for the Chemical Weapons Destruction program and a prohibition on providing funds for housing for current or former Soviet military officers.

#### JOINT FORCES COMMAND, CONTROL AND COMMUNICATIONS

The conferees understand the importance of interoperability for joint forces in war and peacetime and have provided an additional \$103,300,000 to correct critical deficiencies. However, through testimony from the Vice Chairman, Joint Chiefs of Staff, Service Chiefs and Commanders in Chief of the various Unified and Specified Commands, the conferees believe that deficiencies in command, control and communications still exist. The conferees encourage the Secretary of Defense to provide adequate resources for joint interoperability initiatives and will entertain reprogramming action that provides additional funds for this purpose.

#### AMMUNITION AND MISSILE QUANTITIES

The conferees agree the quantities of missiles and ammunition noted in the following tables are to be considered a floor and direct the Department to buy as many units as appropriated funds will allow. In no case shall the Department buy less than the quantities noted in the table unless the congressional defense committees are informed as to why these levels are unachievable.

#### AIRCRAFT PROCUREMENT, ARMY

The conference agreement is as follows:

[In thousands of dollars]

	Budget	House	Senate	Quantity	Conference
AIRCRAFT PROCUREMENT, ARMY					
C-XX (MEDIUM RANGE) AIRCRAFT	334,880	334,880	23,000	4	23,000

## AH-64 MODIFICATIONS

The conferees agree to provide the budget request of \$53,596,000 for AH-64 modifications. Of this amount, \$3,000,000 shall be used to procure additional embedded global positioning/inertial navigation systems for Apache helicopters.

## UH-60

The conferees agree with the Senate language regarding enhanced protection systems. However, in view of the conference agreement to fund a multi-year procurement program for the UH-60, the conferees believe that the House-recommended report on helicopter production strategies is not required.

## HIGH CAPACITY AIR AMBULANCE

The conferees are deeply concerned by the failure of the Army to address the need for a High Capacity Air Ambulance (HCAA). The Army Surgeon General has stated that this is one of his highest priorities. The conferees direct the Army to seek an appropriate solution and report the results of the planned joint exercise with the Air Force and National Guard by February 15, 1996. The report should include the feasibility of utilizing C-130s for the HCAA fixed wing requirement, the role of the Army and Air National Guard in this mission, and requirements for the UH-60L and or UH-60Q helicopters for the National Guard in order to accomplish the rotary wing portion of this mission. The conferees direct that, of the funds appropriated for UH-60Ls, the first 9 aircraft to be procured within the Aircraft Procurement, Army appropriation will be assigned to the National Guard.

## MISSILE PROCUREMENT, ARMY

## TOW 2 MISSILES

The conferees agree to provide \$12,378,000 for TOW 2 missiles, an increase of \$5,000,000 to modify the capstan block of existing TOW 2 missiles.

## MULTIPLE LAUNCH ROCKET SYSTEM LAUNCHERS

The conferees agree to provide \$98,588,000 for multiple launch rocket system launchers, an increase of \$50,400,000 only for the refurbishment of existing launchers which are to be transferred to the National Guard.

The conferees agree to provide \$32,502,000 for the Navstar Global Positioning System, an increase of \$17,500,000 to complete the installation of global positioning systems on all Army active and reserve aircraft. The conferees direct that priority installation be given to the 1/207th Aviation Regiment because of their unique search and rescue mission in remote areas.

## JSTARS GROUND STATIONS

The conferees do not agree on the transfer language for JSTARS ground stations from the Army to the Marine Corps. The conferees have provided funds in the Procurement, Marine Corps appropriation for JSTARS ground stations.

## F/A-18C/D HORNET

The conferees agree to provide \$822,669,000 for the acquisition of eighteen F/A-18C/D aircraft. The conferees do not agree with the House reduction of funds for procurement of ALR-67(V)3 radar warning receivers.

## T-39N

The conferees agree to provide \$45,000,000 to purchase 17 T-39N aircraft. The conferees also agree with the House's direction for the Navy to transition to a competitive purchase of services contract for logistical support for the T-39N fleet after aircraft acquisition. However, the conferees direct that this transition should occur at the conclusion of the current T-39N contract, which is due to expire at the end of fiscal year 1998.

## EA-6B

The conferees agree to provide \$165,000,000 for modifications and improvements to the EA-6B electronic warfare aircraft. The funds are approved for the following purposes: \$100,000,000 to modify 20 more aircraft to enable the Navy to support Air Force requirements; \$40,000,000 to buy 60 shipsets of Band 9/10 jammer transmitters; and \$25,000,000 to buy 30 USQ-113 radio countermeasures sets. The conferees further agree to modify the Senate's direction to use prior year funds for the acquisition of Band 9/10 jammers, which is now not necessary because they have provided sufficient fiscal year 1996 funds to procure these systems. The conferees urge the Navy to buy these systems expeditiously.

## P-3 MODIFICATIONS

The conferees agree with the Senate's direction regarding acquisition of the AN/AAQ-22 thermal imaging system and incorporation of that system into the P-3 Antisurface Warfare Improvement Program (AIP).

## COMMON ECM EQUIPMENT

The conferees support the use of the LAU-138/A launch rail chaff dispenser system on Navy tactical aircraft as a cost effective means for improving aircrew/aircraft survivability. The conferees direct that these systems be managed as fleet armament equipment pool assets to afford maximum flexibility and cost savings, and that all remaining prior year funds appropriated for these systems be expeditiously applied toward this purpose.

## AVIATION MULTIYEAR FUND

The conferees do not agree to provide funds for an Aviation Multiyear Fund as proposed by the House. The Navy is therefore

not required to solicit multiyear bids from E-2C, AV-8B, and T-45 manufacturers, although it may do so if circumstances warrant.

## 5 INCH/54 GUN AMMUNITION

The conferees agree to provide \$36,000,000, an increase of \$14,499,000 only for 5 inch/54 gun ammunition. Despite Congressional direction to correct the requirements process and provide adequate funding for fleet training ammunition, the Navy has chosen once again to provide insufficient funding. The conferees direct the Secretary of Navy to ensure that adequate funding is provided in subsequent budget requests for fleet training ammunition.

## DDG-51

The conferees agree with the House recommendation of \$2,162,457,000 for the DDG-51 program, which will procure two

destroyers. The conferees further provide legislative authority for the Secretary of the Navy to negotiate contracts for two additional DDG-51 class destroyers, and to award the contracts for those vessels on October 1, 1996. The conferees believe this acquisition strategy will generate increased economies of scale and stability for the Navy and the shipbuilding industrial base.

LPD-17 RCS ENGINEERING SUPPORT

The conferees note that as a result of the Base Realignment and Closure decisions, the Navy has reorganized and consolidated its Radio Communications Systems (RCS) engineering, production, testing, integration and training support activities. In assigning RCS engineering support workload for the LPD-17 class of ships, the conferees expect that the Navy will assign such workload to the most appropriate facility.

T-AGS-64

The conferees agree to provide \$16,000,000 for advance procurement for a T-AGS-64 multi-purpose oceanographic survey ship.

LSD-52

The conferees agree to provide \$20,000,000 as recommended by the House for one additional SSDS MK-1 unit which the conferees direct be installed on LSD-52 during its construction prior to delivery of this vessel to the fleet.

SHIP COST ADJUSTMENT

The conferees do not agree to the House proposal to modify the ship cost adjustment process by eliminating specific designations in the bill, providing new transfer authority, and providing reprogramming limitations. The conferees also do not agree to the House requirement to include ship cost adjustments in the annual omnibus reprogramming process.

Within the ship cost adjustment implemented in section 8091 of the Act, the conferees have allocated funds for potential settlement of claims on the AOE class of ships. This action is taken solely to facilitate the Navy's ability to implement a settlement, should one be reached.

### HM&E ITEMS UNDER \$2,000,000

The conferees agree to provide \$33,389,000 for "HM&E Items Under \$2,000,000", a reduction of \$10,000,000. This decrease, which is applied against the Surface Ship Support Equipment portion, includes a reduction of \$3,760,000 against the Gaseous Nitrogen Generator subproject.

### FLEET MODERNIZATION

The conferees agree to provide \$3,000,000 for procurement of propeller shaft composite fairwaters to be backfit on CG 47 class cruisers during overhaul.

### RADAR SUPPORT

The conferees agree to provide \$14,466,000 for the Radar Support program, an increase of \$14,000,000. The increase includes \$9,000,000 for the AN/BPS-16 submarine radar and \$5,000,000 for the AN/SPA-25G Radar Display program.

SURFACE SONAR WINDOWS AND DOMES

The conferees agree to provide \$6,000,000 for procurement of replacement sonar rubber domes and windows, provision of safety-related field service repair and change-out of this equipment, and product improvements to increase durability and service life.

WEAPONS RANGE SUPPORT EQUIPMENT

The conferees agree to provide \$48,830,000, an increase of \$8,550,000, for Weapons Range Support Equipment program. The net increase includes a decrease of \$1,200,000 for the Electronic Warfare Response Monitor subprogram and an increase of \$9,750,000 as proposed by the Senate.

SURFACE TOMAHAWK SUPPORT EQUIPMENT

The conferees agree to provide \$61,293,000 for the Surface Tomahawk Support Equipment program, a reduction of \$10,000,000. The reduction is against the Afloat Planning System (APS) subprogram. The conferees are concerned that the Navy does not currently have an operational doctrine for the tactical use of Tomahawk cruise missiles by ship commanders. Furthermore, the conferees question the need to deploy APS on all carriers in light of the Challenge Athena satellite communications project.

AN/SPS-48E RADAR

The conferees direct that the funds previously appropriated for Pulse Doppler Mod Kits for AN/SPS-48E radars be released to the Navy. The modification of the radar will significantly improve its operational effectiveness when operating in littoral waters and therefore will improve the entire surface fleet's tactical situation awareness when it is incorporated into the Cooperative Engagement Capability. Given the vital link between these two programs, the conferees further direct that management and execution of the upgrade to the AN/SPS-48E radar program be conducted by the Program Executive Officer for Theater Air Defense.

## INTELLIGENCE SUPPORT EQUIPMENT

The conferees agree to provide \$35,283,000 for intelligence support equipment, an increase of \$29,000,000. Of the increase, \$16,500,000 is only for two JSTARS ground stations and \$12,500,000 is only for Commander's Tactical Terminals.

## RIGHT HAND DRIVE VEHICLES

The conferees have reviewed the implementation of Public Law 100-370, which amended title 10 U.S.C. (2253) to limit the amount available for purchase of right hand drive vehicles to \$12,000. The conferees agree that this limitation should only apply to the purchase of passenger sedans manufactured outside of the United States. Further, this limitation does not affect the use of any right hand drive vehicle provided as part of the local contribution towards the basing of U.S. forces in the Host Nation.

## STRATEGIC AIRLIFT

The conferees agree to provide \$183,757,000 for strategic airlift, the amount of the budget request. It is the conferees' belief that the Defense Acquisition Board's upcoming decision on the optimal composition of the airlift fleet will require the continued production of C-17 aircraft. The conferees therefore direct that from the amount of funding provided for strategic airlift the Department of Defense must give first priority to fully funding advance procurement for continued production of C-17 aircraft in fiscal year 1997.

## B-1B MODIFICATIONS

The conferees agree to provide \$68,483,000 for B-1B modifications, a decrease of \$6,900,000 to the budget request. The amount provided by the conferees includes a decrease of \$14,100,000 from cost savings for miscellaneous modifications and an increase of \$7,200,000 for reliability and maintainability improvements identified during the B-1B operational readiness assessment. The conferees also agree with the Senate's reporting requirement about expanding the B-1B conventional mission upgrade program.

## A-10

The conferees agree to provide \$41,024,000, a decrease of \$38,400,000 to the budget request for A-10 modifications. The deleted funds are excess to program requirements for fiscal year 1996.

## F-15 MODIFICATIONS

The conferees agree to provide \$78,288,000, a decrease of \$1,200,000 to the budget request for F-15 modifications. The conferees agree with the House reduction of funds for installation of landing gear wiring switch kits. The conferees do not agree with the Senate reduction of funds for a fighter data link modification. In restoring the \$15,800,000 deleted by the Senate, the conferees direct that \$9,000,000 may only be used to acquire Joint Tactical Information Distribution System (JTIDS) class II terminals for one squadron of F-15 aircraft. The remaining \$6,800,000 is available only for the Multifunctional Information Distribution System (MIDS) variant project.

The Under Secretary of Defense (Acquisition and Technology) has informed the conferees of the Defense Department's recent decision to meet the F-15 fighter data link (FDL) requirements through the MIDS program. The conferees understand that the De-

partment intends full and open competition for FDL production. The conferees direct the Under Secretary to assure the congressional defense committees in writing that the use of MIDS architecture and software will not place U.S. companies at a competitive disadvantage. This assurance is required before release of the formal Request for Proposal for the F-15 fighter data link.

#### F-16 MODIFICATIONS

The conferees agree to provide \$120,606,000 for F-16 modifications, an increase of \$2,000,000 to the budget request. The additional funding provided is only for initial acquisition of 600 gallon fuel tanks for destructive testing, evaluation and limited operational use.

#### C-130 MODIFICATIONS

The conferees agree to provide \$94,399,000 for C-130 modifications, an increase of \$10,000,000 to the budget request. Of the additional funding provided by the conferees, \$6,000,000 is only for threat defensive systems, and \$4,000,000 is only for acquisition of AN/AAQ-22 thermal imaging systems for 10 Air Force Reserve HC-130 aircraft, as recommended by the Senate.

#### C-135 MODIFICATIONS

The conferees agree to provide \$238,764,000, for C-135 modifications, an increase of \$96,000,000 to the budget request. The additional funding provided by the conferees is only for continued reengining of the Air Guard and Reserve KC-135 tanker fleet. The conferees have provided sufficient funding for four reengining kits.

#### DARP MODIFICATIONS

The conferees agree to provide \$53,000,000 for Defense Airborne Reconnaissance Program (DARP) modifications, an increase of \$53,000,000 to the budget request. Of the additional funding provided by the conferees, \$48,000,000 is only for the acquisition of two RC-135 reengining kits and \$5,000,000 is only for costs associated with the refurbishment of the SR-71 aircraft.

#### AIRCRAFT SPARE AND REPAIR PARTS

The conferees agree to provide \$586,281,000 for aircraft spare and repair parts, a decrease of \$17,338,000 to the budget request. The amount of funding provided by the conferees includes a decrease of \$21,900,000 for C-17 spares, a decrease of \$8,938,000 for T-1 spares and an increase of \$13,500,000 for F100-229 engine spares.

#### ELECTRONIC WARFARE FORCE STRUCTURE

The conferees strongly agree with Senate report language with respect to retaining at least 12 EF-111A Raven jammer aircraft in the primary aircraft inventory through fiscal year 1999, and with the Senate directed reporting requirements.

The recommendation makes the following reductions: \$20,000,000 for no longer needed relocation costs; \$6,100,000 for unadjudicated claims; \$5,000,000 from contractor consolidation savings.

## DEFENSE AIRBORNE RECONNAISSANCE PROGRAM

The conferees agree to provide \$161,575,000 for procurement for the Defense Airborne Reconnaissance Program (DARP), a decrease of \$17,732,000 to the budget request. The conferees support the Army's identified need for a short range unmanned air vehicle (UAV), but remain concerned with the continuing problems associated with the Hunter program. As a result, the conferees have denied funding for marinization of the Hunter UAV and direct that the remaining fiscal year 1996 funds provided for Hunter not be obligated until the Appropriations Committees receive the results of the Defense Acquisition Board's review of the program. This review should include all options for fulfilling the Army's UAV requirement. The conferees further direct that use of these funds for any other purpose is to be handled through normal reprogramming procedures.

## PATROL CRAFT—CYCLONE CLASS

The conferees agree to provide \$20,000,000 for the procurement of one additional PC-Cyclone class operations patrol craft/vessel to continue to meet force requirements.

## NATURAL GAS VEHICLES

The conferees recommend the Department develop an implementation plan and a demonstration effort based on the 1993 Navy study which specified natural gas vehicles as the vehicle of choice for achieving significant emission reductions on military bases.

## NATIONAL GUARD AND RESERVE EQUIPMENT

The conferees agree to provide \$777,000,000 for National Guard and Reserve Equipment as proposed by the Senate instead of \$980,125,000 as proposed by the House.

The conferees agree to the Senate provision which requires the Chiefs of the Reserve and National Guard components to prepare and submit a modernization priority assessment for their respective Reserve and National Guard components and have established November 1, 1995 as the deadline for this submission.

MISCELLANEOUS EQUIPMENT

The conferees concur with the Senate position that the Reserves and National Guard should exercise control of funds provided for their modernization in this account with priority consideration for miscellaneous equipment appropriations given to the following items:

Avenger, heavy truck modernization, radar warning receivers, laser leveling systems, AH-64 combat mission simulators, automatic building machines, HMMWVs, UH-60 Upgrades, F-18 upgrades, 2½ ton truck ESP, UH-1 Huey SLEP, AH-1 (C-NITE), M-9 ACE, night vision equipment, IFTE, external fuel tanks, AN/AQS-14 airborne mine countermeasures, MIUW vans, modular airborne fire fighting systems, AH-1 borsighting devices, FADEC for UH-1 and CH-47, C-9 upgrades, small arms simulators, HC-130N conversions, M-915/916 heavy dump trucks, 5-ton flatbed trailers, SQQ-T1 trainer, KC-135 re-engining, UH-60Q helicopter upgrades, driver's night viewers, unmanned aerial vehicles, heavy equipment transport system, C-12 and C-20 aircraft, CT-39 Navy/Marine Corps replacement aircraft, SINCGARS radios, and Medium Truck SLEP.

The conferees also agree that while they have established a separate aircraft account, other aircraft may be purchased from the miscellaneous equipment account at the discretion of the Reserve and National Guard component chiefs.

NATIONAL GUARD AND RESERVE AIRCRAFT

The conferees agree to provide \$400,000,000 for the acquisition of aircraft to support Reserve and National Guard missions and agree that the following aircraft shall be purchased:

C-130 H for the Air Force Reserve and Air National Guard (10) .....	\$339,000,000

## JOINT LOGISTICS SYSTEMS CENTER

The conferees do not agree to the House proposal to provide an additional \$100,000,000 in the Operation and Maintenance, Defense-wide appropriation for the Joint Logistics Systems Center (JLSC). The conferees recognize that there is the potential for significant cost savings from effective logistics systems modernization, and believe that JLSC and its programs should remain a top priority. A September, 1995 report to the House Appropriations Committee by the Committee's Surveys and Investigations Staff, however, indicates that the JLSC is not properly organized to accomplish the redesign of the Department of Defense's logistics systems. The conferees direct that not more than half of the funds requested in the budget and appropriated for JLSC may be obligated until the Secretary of Defense has taken appropriate action to correct JLSC's organizational deficiencies and has designated the Air Force as the executive agency for the JLSC, which will remain the

responsibility of the Deputy Undersecretary of Defense (Logistics) and will remain located at Wright-Patterson Air Force Base. The conferees further direct that the Secretary of Defense provide a report to the congressional defense committees by February 1, 1996 which explains his plan for improving the management of the Joint Logistics Systems Center, including improved levels of management, technical, contracting, and acquisition support.

#### NAVY STANDARD INTEGRATED PERSONNEL SYSTEM

The conferees have provided \$18,000,000 as recommended by the House for the Navy Standard Integrated Personnel System (NSIPS). The additional funding is only for NSIPS as directed in House Report 104-208, page 134, except that \$13,000,000 is appropriated in Other Procurement, Navy; \$2,500,000 in Operation and Maintenance, Navy Reserve; and \$2,500,000 in Operation and Maintenance, Navy. The conferees concur with the Department's plan to use a joint working group to define the functional and technical requirements for a standard military personnel management system. The conferees believe that parallel development of NSIPS is critical and direct the Navy, the Under Secretary of Defense for Personnel and Readiness, and the Assistant Secretary of Defense for C31 to continue NSIPS development and implementation as a joint Naval Reserve and active team project which will include the core capabilities required to support joint requirements for the objective DOD field level data collection personnel system. The conferees concur with the Department's decision to designate the Navy as executive agent for prototyping and testing these field level applications or core capabilities and the Air Force as the executive agent for the database.

The conferees are aware of Navy needs to also continue to consolidate and integrate its headquarters personnel systems. The House previously directed that the Navy Military Personnel Distribution System (NMPD) central design authority (CDA) be assigned to the Enlisted Personnel Management Center (EPMAC) to assure the most efficient and cost effective development and maintenance of this system. The conferees understand that the Military Assignment, Selection, and Transfer System (MAST) has been conceived to modernize Naval personnel management by combining legacy systems and allowing these systems to operate in a more cost effective and client friendly environment. EPMAC has been identified as the technical expert possessing the expertise required to meet the development demands of MAST and NMPD systems. The conferees direct the Navy to assign CDA responsibilities, implementation, and funding functions to EPMAC for the MAST and NMPD systems by January, 1996, and that the transfer of the NMPD system to EPMAC be completed by September, 1996. The conferees direct the Navy to allocate the required funding to EPMAC in support of the MAST and NMPD system development to include hardware, software, and personnel requirements.

The conferees concur with the House direction that the Department of the Navy place the collocated Naval Telecommunications and Communications Station (NTCS) functions and operations under the operational control and command of the Naval Reserve Information Systems Office, except that this direction shall only

apply to the Central Design Agency functions and its related support functions and civilian personnel. The conferees direct that these functions continue to be supported through the Defense Business Operations Fund.

#### OTHER DEFENSE AGENCIES

The conferees concur with the House direction provided in House Report 104-208, pages 136-137 regarding DISA megacenter outsourcing. The conferees are adamant that the reporting requirements and directions provided in the House report be followed by the Department of Defense. While the conferees may be able to support outsourcing some non-essential military functions and services prior to the completion of recommended base closing and realignment consolidations, the conferees expect the reporting requirements contained in the House report to occur first along with proper Congressional committee oversight.

The conferees concur with the House National Security Committee efforts urging the Department of Defense to privatize or outsource non-essential military services such functions as civilian payroll and payroll-and-accounting for nonappropriated instrumentality functions. However, the conferees recommend the Department also look to franchising for these and other similar services from other Federal agencies that already provide similar, cost effective services. In this regard, the conferees urge the Department to proceed with the recommendation made in the statement of the managers accompanying the fiscal year 1995 Defense Appropriations Act to initiate a prototype for using the National Finance Center cross servicing functions, in conjunction with existing DFAS and private operations in the area, for some financial management and personnel services at DOD as recommended by Military Department Comptrollers in January, 1994.

#### RESERVE COMPONENT AUTOMATION SYSTEM

The Army has spent eighteen years and close to a billion dollars without successfully providing modern computer technology to its Reserve Component. For the first time in the RCAS program's history, there now appears to be general consensus between the active Army, the National Guard, the Army Reserve, the Office of the Secretary of Defense, and the Congress on its future direction based on the restructure proposed by the Chief of the National Guard Bureau. Given this apparent consensus, there is no longer the need for legislation to accomplish the goals set out by the Congress for this program. The conferees therefore do not agree to retain bill language as proposed by the House. This action should not be construed as a diminution of Congressional support for RCAS, a Congressional authorization to change the program responsibilities of the Chief of the National Guard Bureau, or an invitation to the Army to change the program architecture to parallel or merge with active Army computer modernization programs. The funding provided in this Act is available solely to implement the restructured RCAS program as proposed by the Chief of the National Guard Bureau, endorsed by the Office of the Secretary of Defense in a formal Major Automated Information Systems Review Council, and recently presented to the Congress. All RCAS funds are hereby

designated to be of special Congressional interest, any other use of which would require approval by the Congress through the formal reprogramming process; this would include the use of RCAS funds to modernize active Army systems or to finance codevelopment of new systems. The conferees agree to the certification requirements by the Assistant Secretary of Defense for Reserve Affairs in the House report.

For many years, the Congress has denied the use of government furnished equipment and software in the RCAS system primarily because the Army would not identify it in advance to the Congress. The Chief of the National Guard Bureau has proposed the limited use of government furnished software in the restructured program. The Army has touted for many years the large amount of government furnished software that potentially could be used in RCAS. However, of the 16 existing Army information systems that will be examined for reuse in RCAS during fiscal year 1996, the Guard Bureau indicates that not even one is likely to have more than 14 percent of the software available for reuse. Many of these are also very old systems. The conferees wish to assure that software reuse is not done simply for its own sake or solely to satisfy the technical community. The conferees impose no restrictions on the use of government furnished software in the restructured program, but direct that the Program Executive Office for RCAS certify each time it tasks the RCAS contractor to use a significant amount of government furnished software that such action is the most cost-effective approach.

Finally, for many years the Congress had a very tight restriction in law prohibiting the purchase of interim equipment outside of the RCAS program. The Reserve Components have recently disclosed that there are 12,000 modern computers which are available for the restructured program. The conferees direct the Inspector General of the Defense Department to conduct an investigation on how the Reserve Component was able to obtain such a large number of computers, whether any of these acquisitions violated law, and/or if anti-deficiency violations occurred.

## UNIVERSITY AND INDUSTRY RESEARCH CENTERS

The conferees have provided \$49,779,000. Included in this amount is \$22,847,000 for the Army's new federated labs program. The conferees direct that these funds may only be used to initiate the three federated lab programs which the Army determines are most important to its needs.

The conferees are concerned that the Army's plan to enter into long term agreements could limit its ability to respond to new ideas and changes in the defense industry. Therefore, the conferees direct that the Army shall not enter into any federated lab agreement or contract which provides for the non-competitive continuation of a federated lab for more than five years. The conferees further direct that the Assistant Secretary of the Army for Research, Development and Acquisition provide a report identifying the three fiscal year 1996 federated labs, the participants, the allocation of funds, the management structure, and the planned research program by March 1, 1996 to the congressional defense committees.

## EW DEVELOPMENT

The conferees understand that funds are included in the budget request for the development of an electronic protection system

and encourage the Army to obligate up to \$10,300,000 in fiscal year 1996 for the SHORTSTOP project.

MEDICAL ADVANCED TECHNOLOGY

The conferees agree to provide \$75,000,000 for the Army's peer reviewed breast cancer research program. The conferees expect the Army to provide special emphasis to research that addresses the specific needs of military beneficiaries.

AIR DEFENSE COMMAND, CONTROL AND INTELLIGENCE

The conferees provided \$2,000,000 in fiscal year 1995 for the evaluation of the Air Defense Alerting Device (ADAD). The conferees direct the Department of Defense to release the fiscal year 1995 funds appropriated for ADAD and proceed with testing.

TASK FORCE XXI SOLDIER

The conferees agree to provide \$30,000,000 for a new project, Task Force XXI Soldier, to accelerate the development of integrated, modular equipment designed for the individual soldier. The Army's strategy to develop and field the interim Land Warrior system and then immediately begin production of the objective GEN II Soldier system appears to be an inefficient allocation of resources. The conferees believe that accelerating the GEN II soldier program will eliminate the need for an interim system allowing the Army to field a more capable system at an earlier date. Therefore, the conferees have consolidated funds from the existing programs to accelerate the GEN II Soldier program and provided additional funds to continue only the Land Warrior efforts necessary to support the objective program. The conferees direct the Assistant Secretary of the Army for Research, Development and Acquisition to provide a report defining a revised acquisition strategy to the congressional defense committees by March 1, 1996.

AIRBORNE RECONNAISSANCE LOW

The conferees understand that upgrading the Airborne Reconnaissance Low (ARL) aircraft with the RAH-66 Comanche engine will significantly enhance operational capabilities and reduce support costs. Although no funds were requested in the fiscal year 1996 budget, the conferees encourage the Army to pursue upgrading the ARL engine in fiscal year 1997.

## SHIP SELF-DEFENSE

The conferees do not agree to the House bill language on ship self-defense programs, as there is now agreement between the Congress and the Defense Department on the direction of the affected programs. This action should not be construed as a diminution of Congressional support for achieving robust self-defense capabilities on Navy ships, particularly on the LPD-17 class, as soon as possible.

## SURFACE SHIP TECHNOLOGY

The conferees believe recent efforts to develop state-of-the-art curved plate technology for constructing large double hull tankers hold promise to significantly reduce construction costs and provide an improved level of safety and performance for navy tanker ves-

sels. The conference agreement includes \$15,000,000 only to complete the development, design, construction and testing of full scale prototype equipment essential to evaluating and deploying this technology. Funds are to be used for detailed design and construction of full scale prototype equipment for curved plate panel forming, coating, subassembly and final welding.

#### OCEANOGRAPHIC AND ATMOSPHERIC TECHNOLOGY

The conferees agree to provide \$10,000,000 for oceanographic research as recommended by the House. These funds are available only for collaborative research for the continued development, integration and application of cost-effective underwater multisensing systems (physical, chemical, optical, and acoustic) and unmanned underwater vehicles for continental shelf oceanographic measurements for mine countermeasures and other oceanographic applications, both fundamental and applied. These funds are to continue the project explained in House report 103-254, whose focus is on in-situ oceanographic sensors, fusion of multiple sensors, reconfigurability, interoperability to achieve low cost, reduced size and flexible payload/platform systems, adaptive capabilities for extended deployments, and navigation by self-convergent approaches using onboard sensors and intelligent control.

#### JOINT ADVANCED STRIKE TECHNOLOGY

Due to a recent restructure of the JAST program, there is now \$131,000,000 in the fiscal year 1996 budget that is for work to be accomplished in fiscal year 1997. Such work should be budgeted in that year. The conferees agree to this reduction in the Navy and Air Force accounts, and direct that the Office of the Secretary of Defense ensure that the fiscal year 1997 budget to Congress includes a restoration of these funds.

#### F/A-18 SQUADRONS

The conferees agree to provide an additional \$4,500,000 only for BOL chaff as recommended by the House. These funds are only to complete certification of the BOL chaff system on the F/A-18C/D series aircraft.

#### E-2 SQUADRONS

The conferees have provided an increase of \$10,000,000 only to support evaluation of technologies for an E-2 radar modernization program (RMP). The conferees support an expansion of current development and test efforts at a site which permits elevated testing of an ADS-18S antenna and is involved with evaluation of space time adaptive processing (STAP) algorithms. Based on analysis and testing completed to date, the Navy has concluded that upgrades to the E-2 can provide substantial warfighting improvements in a littoral environment. The conferees direct that the additional funds shall only be available for radar development work, antenna testing and site enhancements in conjunction with ongoing efforts.

## LCAC SERVICE LIFE EXTENSION PROGRAM

The conferees agree to provide \$37,000,000 as recommended by the House for advanced planning and engineering of a Landing Craft Air Cushion (LCAC) service life extension program. The program will include component improvements and structural modifications to reduce maintenance costs, meet increased lift requirements, and restore growth margins. Modifications will be incorporated into the last craft during production and into existing fleet craft beginning in fiscal year 1996 as an expansion of the current corrosion control effort.

## INTERCOOLED RECUPERATIVE GAS TURBINE ENGINE

The conferees agree to provide \$41,008,000 for the continued development of the Intercooled Recuperative (ICR) gas turbine engine. This includes the amount requested in the budget and additional funds for the recuperator recovery plan and the U.S. test site.

## NAVY RANGE SUPPORT SHIP

In the process of restructuring its fleet of oceanographic research vessels, the Navy recently decided that the Kaimalino would not be part of the future Navy oceanographic fleet. The conferees are aware of a plan for the Pacific Missile Range Facility (PMRF) to acquire the Kaimalino to support operational training needs as well as research and development programs, such as Navy Upper and Lower Tier Patriot, and THAAD. The conferees believe this would be an effective use of the Kaimalino. The conferees direct the Navy to review PMRF's request and to report to the Committees on Appropriations prior to taking any other action on the ship. The conferees further direct that the reuse of the Kaimalino shall have no effect on other ships in the Navy's oceanographic fleet.

## SPACE BASED INFRARED ARCHITECTURE—DEM/VAL

The conferees agree to provide \$265,744,000 for the demonstration/validation stage of the space based infrared architecture program, an increase of \$135,000,000 to the budget request. The conferees have agreed to provide the additional \$135,000,000 to accelerate development of the space missile tracking system (SMTS),

formerly known as Brilliant Eyes. The additional funds provided for the program shall be used only for efforts identified jointly by both the Ballistic Missile Defense Organization and the Air Force to accelerate the deployment of SMTS.

## B-1B

The conferees agree to provide \$202,438,000 for the B-1B upgrade program, an increase of \$28,600,000 to the budget request. The additional funding includes an increase of \$7,000,000 for B-1B JDAM integration, an increase of \$6,600,000 for ECM risk reduction activities, and \$15,000,000 for efforts to equip the bomber with precision guided munitions, including the B-1B virtual umbilical demonstration (BVUD). The conferees agree that none of the funding used for BVUD may be obligated until the Commander of the Air Combat Command and the Air Force Director of Operational Requirements certify to the appropriations committees that (a) a documented requirement for BVUD exists; and (b) that BVUD will be incorporated as part of the B-1B conventional upgrade program.

The conferees also direct that the Commander of the Air Force Operational Test and Evaluation Center provide a report no later than March 15, 1996 on the test and evaluation plan for BVUD and other precision guided munitions demonstrations. Finally the conferees direct the Department of the Air Force to consider other available alternatives to providing precision guided capability for the Mk-82 munition with the additional funding provided.

## C-17

The conferees agree to provide \$73,803,000 for continued development of the C-17 advanced transport aircraft, a decrease of \$11,950,000 to the budget request. The conferees direct that these funds be allocated as follows: flight test support, \$17,850,000; T-1 refurbishment, \$11,700,000; aircraft structural integrity, \$11,000,000; mission support, \$10,900,000; aircraft armor, \$5,000,000; flight test hours, \$4,000,000; automatic communications processor; \$4,000,000; station-keeping equipment, \$1,300,000; passenger oxygen mask improvements, \$1,000,000; enhanced aeromedical litters, \$1,000,000; cargo compartment heating, \$600,000; troop seats, \$553,000; GPS integrity monitoring, \$500,000; airlift defensive system survivability study, \$400,000; signature reduction study, \$400,000.

The conferees agree with Senate's direction regarding crew armor.

## SENSOR FUZED WEAPON PRODUCT IMPROVEMENT

The House and Senate both included \$10,000,000 in their respective bills to begin a product improvement program for the Sensor Fuzed Weapon (SFW). The conferees direct the Air Force to program those funds required in the outyears to complete development of these improvements. Currently programmed SFW production funds shall not be used as a source for the required development funds. The conferees strongly urge the Air Force to begin this development as soon as possible and to examine ways to streamline and shorten the effort.

The conferees also agree with the Senate requirement for a re-evaluation, to be submitted no later than May 1, 1996, of total inventory needs for smart munitions.

#### JOINT SURVEILLANCE/TARGET ATTACK RADAR SYSTEM

The conferees agree with the Senate position regarding funds for both the Air Force and the Army to continue development and procurement of the Joint Surveillance/Target Attack Radar system, with the exception of restoring \$6,100,000 of the Senate recommended reduction to the Air Forces procurement request. The conferees direct that the restored funds are available only to pay over and above expenses for repair actions during aircraft refurbishment. The reduction recommended by the conferees shall only be assessed against the funds originally identified in budget justification materials as allocated for engineering change orders.

In addition, the conferees direct that \$12,000,000 in fiscal year 1995 research, development, test and evaluation funds allocated to an unadjudicated Request for Equitable Adjustment is only available to support fiscal year 1996 development requirements.

The conferees further agree with the Senate requirements regarding the NATO Alliance Ground Surveillance (AGS) program.

#### B-52 SQUADRONS

The conferees agree to provide \$21,005,000 for B-52 development, an increase of \$4,500,000 to the budget request. The additional funding is only for integration of the AGM-130 munition onto B-52 bombers. The conferees direct that not more than \$1,000,000 may be obligated until the Secretary of the Air Force certifies that there is a validated operational requirement for the weapon and reports to the Committees on Appropriations about the annual and total costs, schedule, technical risks, and operational considerations of such integration.

#### JOINT-AIR-TO-SURFACE STANDOFF MISSILE

The conferees agree to provide \$25,000,000 to initiate the Joint-Air-to-Surface Standoff Missile (JASSM) program. The conferees agree to the Senate requirements regarding a report and a cost and operational effectiveness analysis. However, the Senate proposed obligation restrictions are not required. The required report is due no later than June 1, 1996.

#### THREAT SIMULATOR DEVELOPMENT

The conferees direct that none of the funds available for the Real-Time Electromagnetic Digitally Controlled Analyzer and Processor (REDCAP) may be used to fund any activities which would produce permanent improvements which could not be relocated in accordance with the Base Realignment and Closure (BRAC) decision to move this facility.

## HISTORICALLY BLACK COLLEGES AND OTHER MINORITY INSTITUTIONS

The Department is encouraged to continue its support of minority institutions, including Hispanic serving institutions, through academic collaborations for research and education related to science and technology, relevant to the Department's mission.

## COMPUTING SYSTEMS AND COMMUNICATIONS TECHNOLOGY

The conferees agree to provide \$8,000,000 for a Global Broadcast Service (GBS) as recommended by the House. The conferees also agree to the House language directing that the GBS initiative is to be managed by the Under Secretary of Defense for Acquisition and Technology (USD (A&T)). The conferees do not agree to the House language directing that the \$8,000,000 is to be released to the Navy for a near-term GBS pilot program. Instead, the conferees believe that the GBS program must address the needs of all of the services and direct the USD (A&T) to compete the acquisition of both the near-term and objective GBS. After the competition is completed, the Under Secretary of Defense (Comptroller) is to certify to the defense committees that \$8,000,000 has been released to the service chosen as executive agent to conduct the near-term GBS pilot program. The conferees do agree to the House language directing the USD (A&T) to provide to the defense committees a long-term master architecture. Additionally, the conferees direct that the USD (A&T) provide a comparison of cost, schedule, technical risk and operational considerations for several potential GBS host spacecraft including UFO follow-on, Milstar, DSCS, classified, and commercial satellites with the master architecture.

## ADVANCED ELECTRONIC TECHNOLOGY

The conferees agree with the House report concerning the ECRC program and also direct the Department to enter into a five-year contract with each of the two system integrators, the National ECRC and CAMP, who will continue to manage their respective sites.

The conferees commend ARPA for recent advancements in low-cost dense plasma focus x-ray source technology and 0.18 micron synchrotron-based x-ray technology. The conferees urge ARPA to continue efforts in the point source area and direct the Agency to allocate \$11,000,000 to fund an integrated point source x-ray lithography system based on these latest x-ray source and stepper developments. This research should target defense related applications such as the production of Microwave Monolithic Integrated Circuit (MMIC) chips for military uses, including missile seekers, digital battlefield systems and F-22 radar modules.

## ELECTRONIC COMBAT MASTER PLAN

The conferees direct the Secretary of Defense to develop and provide to the congressional defense committees, no later than March 31, 1996, an Electronic Combat Master Plan to establish an optimum infrastructure for electronic combat assets.

## STRATEGIC TARGET SYSTEM (STARS)

The conferees agree to provide \$10,000,000, the budget amount, only to continue planning, preparation and actual conduct of STARS flight tests. The conferees direct that BMDO take no actions to terminate or place the STARS program in a caretaker status.

## NAVAL THEATER BALLISTIC MISSILE DEFENSE

The conferees believe that the Navy's area wide (Lower Tier) and theater wide (Upper Tier) programs should be deployed as rapidly as possible. The Navy's current plan to build on existing ship platforms, the Aegis system, proven launch systems, and the operational Standard missile family has resulted in a cost effective, technically capable and manageable program that is planned to produce a user operational capability (UOES) Upper Tier system not later than FY 1999 with an initial operational capability (IOC) by 2001. The conferees are committed to a rapid and actual deployment of an effective sea-based missile defense system. The conferees direct the Department to place highest priority on proceeding with a development program that achieves deployment of the Navy Upper Tier system by the planned 2001 IOC. The conferees endorse the Navy Theater Wide system as a core TMD program and endorse fully funding the core program in the 5-year defense plan. The conferees direct that not less than \$200,442,000 shall be spent on Navy Upper Tier and not less than \$282,473,000 on Navy Lower Tier for research and development activities. Funding allocations through BMDO to the Navy for these programs should proceed expeditiously.

## TIER II UNMANNED AIR VEHICLE

The conferees agree to provide \$45,250,000 for the Tier II (Predator) unmanned air vehicle program, an increase of \$25,300,000 to the budget request. The conferees also agree that the additional funding provided shall only be used for attrition replacement air vehicles and shall not be used to marinize the Predator air vehicle.

## RIVET JOINT RE-ENGINEING

The conferees have provided \$79,000,000 solely for the purpose of initiation of re-engining the Rivet Joint fleet. The conferees direct that future funding for this project be included in budget submissions for fiscal year 1997 and beyond, thus ensuring completion of this project in an expeditious and cost effective manner.

## USH-42 MISSION RECORDER

The conferees agree that from funding provided in fiscal year 1996 for the Defense AirBorne Reconnaissance Program, \$10,000,000 may be used for the planned product improvement that will result in a low cost, lightweight, high capacity, digital version of the Navy's USH-42 recorder/reproducer suitable for a wide range of applications in reconnaissance and surveillance platforms.

## BREAST CANCER

The conferees have provided an increase of \$100,000,000 only for breast cancer. The conferees have provided \$75,000,000 to continue the Army's peer-reviewed research program. In addition, the conferees have provided \$25,000,000 to the Department for: increased recruitment, training and education for military cancer specialists; diagnostic equipment and improved detection technologies, such as digital mammography; and prevention and education efforts for the military community.

## TRICARE IMPLEMENTATION

The conferees commend the significant progress of the Department of Defense in moving toward a nation-wide managed health care system for the military, known as TRICARE. Existing law mandates that the TRICARE system be implemented by September 30, 1996, and the Department has attempted to meet this deadline. Unfortunately, complications with the issuance and implementation of these large, complex, competitively bid contracts, have caused significant problems and associated delays. The conferees are concerned that the Department has accelerated the process in order to meet this statutory deadline. The conferees understand the Department is fully committed to the full implementation of TRICARE, as well as a standard health benefit for all military beneficiaries, but believe that the Department, the offerors, and the beneficiaries would greatly benefit from additional time in meeting the complex requirements of TRICARE. Therefore, the conferees agree to extend the deadline for implementation of the TRICARE managed care system by one year.

## UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES

The conferees remain committed to the continuation of the Uniformed Services University of the Health Sciences (USUHS) at its current level and direct that, within funds made available to the Defense Health program, the amount provided for USUHS shall

fully fund the programs and functions of the University at existing levels.

The conferees agree to provide \$4,000,000 above the budget to the Gulf States Counterdrug Initiative, and direct that \$2,000,000 be provided for the Command, Control, Communications and Computer Network and \$2,000,000 for the Regional Counterdrug Training Academy.

The conferees have deleted bill language which provided \$5,000,000 for the conversion of surplus Department of Defense helicopters by State and local governments for use in counterdrug activities and agree that funding may be requested in annual plans submitted by individual states.

The conferees agree that, if authorized, up to \$3,000,000 in available funds may be used to continue the Community Outreach pilot program.

The conferees agree that, in accordance with normal reprogramming procedures, up to \$25,000,000 in available funds may be used to procure low-energy/backscatter x-ray equipment.

OFFICE OF THE INSPECTOR GENERAL

The conferees agree to provide \$178,226,000 for the Office of the Inspector General. Of this amount, \$177,226,000 shall be for operation and maintenance activities and \$1,000,000 for procurement.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

ENVIRONMENTAL TASK FORCE

The conferees have provided \$15,000,000 to support the activities of the task force. Of this amount, \$5,000,000 is to be used to continue joint United States/Russian efforts in this area.

NATIONAL SECURITY EDUCATION TRUST FUND

The conferees direct the Director of Central Intelligence, in coordination with the NSETF Board, to establish criteria and procedures to ensure that all individuals accepting fellowships or scholarships from this fund meet qualifications for employment by the Department of Defense or Intelligence Community. The conferees further direct that any recipient must be engaged in a course of study that is an identified critical shortage within the Department of Defense or the Intelligence Community. Upon meeting these requirements, the recipient must agree to serve at least two years with the Department of Defense or the Intelligence Community or reimburse the U.S. Treasury for the total costs of the scholarship or fellowship.

TITLE VIII—GENERAL PROVISIONS

The conference agreement incorporates general provisions of the House and Senate versions of the bill which were not amended. Those general provisions that were amended in conference follow:

The conferees included a general provision (Section 8005) which amends House language on transfer authority to \$2.4 billion.

The conferees included a general provision (Section 8010) which amends Senate language that defines the congressional defense committees.

The conferees included a general provision (Section 8028) which amends House language to prohibit the demilitarization of certain types of surplus firearms.

The conferees included a general provision (Section 8045) which amends Senate language which earmarks funds for the Civil Air Patrol.

The conferees retained a Senate provision (Section 8046) concerning Federally Funded Research and Development Centers

(FFRDCs). The conferees direct that the restrictions on consultants only shall apply to the use of consulting services for specific projects undertaken by an FFRDC as part of its core mission responsibilities to meet sponsor requirements. The restrictions do not apply to administration and management functions necessary to operate an FFRDC as an organizational entity.

The conferees included a general provision (Section 8062) which amends Senate language that limits payment to Uniformed Services Treatment Facilities to \$315,000,000.

The conferees included a general provision (Section 8063) which amends House language concerning limitations on U.S. support for NATO headquarters operations.

The conferees included a general provision (Section 8065) which amends House language that maintains an expense/investment threshold of \$100,000.

The conferees included a general provision (Section 8073) which amends House language concerning the supercomputing capability at various Department of Defense sites.

The conferees included a general provision (Section 8082) which amends House language concerning the establishment of field operating agencies.

The conferees included a general provision (Section 8083) which amends Senate language concerning rescission of funds from various Procurement and Research and Development programs.

The conferees included a general provision (Section 8086) which amends House language that limits executive compensation to \$200,000 per year.

The conferees included a general provision (Section 8088) which amends Senate language prohibiting the obligation or expenditure of any funds provided in this Act for aid to the Government of North Korea.

The conferees included a general provision (Section 8092) which amends Senate language that reallocates funds to cover unanticipated shipbuilding cost increases.

The conferees included a general provision (Section 8099) which amends Senate language concerning ball and roller bearings manufactured in the United States.

The conferees included a general provision (Section 8100) which amends Senate language to allow for storage and disposal of pentaborane.

The conferees included a general provision (Section 8102) which amends Senate language that directs the Department of Defense to match disbursement to obligations before the disbursement is made.

The conferees included a general provision (Section 8104) which amends House language that prohibits procurement of 120mm mortars or mortar ammunition manufactured outside the United States.

The conferees included a general provision (Section 8108) which amends House language concerning the lease or charter of double hull ships by the Military Sealift Command.

The conferees included a general provision (Section 8111) which amends House language pertaining to the National Training Center, and the interim and permanent rotational airhead.

The conferees included a general provision (Section 8115) which amends House language concerning international peacekeeping, peace enforcement, and humanitarian assistance operations.

The conferees included a general provision (Section 8119) which amends House language concerning performing abortions in Department of Defense medical facilities.

The conferees included a new general provision (Section 8124) concerning the participation of U.S. forces in any operation in Bosnia-Herzegovina.

The conferees included a general provision (Section 8125) which reduces the appropriation accounts in the Act by \$832,000,000 to reflect savings from revised economic assumptions.

The Executive Branch Mid Session Review of the budget revised the inflation estimate on which the fiscal year 1996 budget

was based downward from its original assumptions. This downward revision results in overall savings to the Department of Defense and the reduction in this provision reflects those savings.

The conferees included a new general provision (Section 8126) which makes funds available from the Defense Business Operations Fund for termination liability for the VC-137 replacement aircraft.

The conferees included a new general provision (Section 8127) which allows funds to be obligated for payment of satellite on-orbit incentives.

The conferees included a new general provision (Section 8128) which makes funds available for support of a NATO Alliance Ground Surveillance program based on the Joint Surveillance/Target Attack Radar System.

The conferees included a new general provision (Section 8129) which reduces the funding provided in Title IV, Research, Development, Test and Evaluation, by \$325,000,000, in order to achieve savings in overhead and improve management efficiencies. This reduction is to be applied on a pro-rata basis by subproject within each R-1 program element as modified by this Act, except no reduction may be taken against funds made available to the Department of Defense for Ballistic Missile Defense.
