H. R. 1420

IN THE SENATE OF THE UNITED STATES

JUNE 4, 1997

Received

AN ACT

To amend the National Wildlife Refuge System Administration Act of 1966 to improve the management of the National Wildlife Refuge System, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE; REFERENCES.**

2 (a) **SHORT TITLE.**—This Act may be cited as the
3 “National Wildlife Refuge System Improvement Act of
4 1997”.

5 (b) **REFERENCES.**—Whenever in this Act an amend-
6 ment or repeal is expressed in terms of an amendment
7 to, or repeal of, a section or other provision, the reference
8 shall be considered to be made to a section or provision
9 of the National Wildlife Refuge System Administration
10 Act of 1966 (16 U.S.C. 668dd et seq.).

11 **SEC. 2. FINDINGS.**

12 The Congress finds the following:

13 (1) The National Wildlife Refuge System is
14 comprised of over 92,000,000 acres of Federal lands
15 that have been incorporated within 509 individual
16 units located in all 50 States and the territories of
17 the United States.

18 (2) The System was created to conserve fish,
19 wildlife, and plants and their habitats and this con-
20 servation mission has been facilitated by providing
21 Americans opportunities to participate in compatible
22 wildlife-dependent recreation, including fishing and
23 hunting, on System lands and to better appreciate
24 the value of and need for fish and wildlife conserva-
25 tion.

1 (3) The System serves a pivotal role in the con-
2 servation of migratory birds, anadromous and inter-
3 jurisdictional fish, marine mammals, endangered and
4 threatened species, and the habitats on which these
5 species depend.

6 (4) The System assists in the fulfillment of im-
7 portant international treaty obligations of the Unit-
8 ed States with regard to fish, wildlife, and plants
9 and their habitats.

10 (5) The System includes lands purchased not
11 only through the use of tax dollars but also through
12 the proceeds from sales of Duck Stamps and na-
13 tional wildlife refuge entrance fees. It is a System
14 that is financially supported by those benefiting
15 from and utilizing it.

16 (6) When managed in accordance with prin-
17 ciples of sound fish and wildlife management and
18 administration, fishing, hunting, wildlife observation,
19 and environmental education in national wildlife ref-
20 uges have been and are expected to continue to be
21 generally compatible uses.

22 (7) On March 25, 1996, the President issued
23 Executive Order 12996, which recognized “compat-
24 ible wildlife-dependent recreational uses involving
25 hunting, fishing, wildlife observation and photog-

1 raphy, and environmental education and interpreta-
2 tion as priority public uses of the Refuge System”.

3 (8) Executive Order 12996 is a positive step
4 and serves as the foundation for the permanent stat-
5 utory changes made by this Act.

12 and, to the extent practicable, that also achieves the
13 mission of the System;

15 and cooperation with owners of land adjoining ref-
16 uges and the fish and wildlife agency of the States

3 or expand, renew, or extend an existing use of a refuge,
4 unless the Secretary has determined that the use is a com-
5 patible use and that the use is not inconsistent with public
6 safety. The Secretary may make the determinations re-
7 ferred to in this paragraph for a refuge concurrently with
8 development of a conservation plan under subsection (e).

9 “(ii) On lands added to the System after March 25,
10 1996, the Secretary shall identify, prior to acquisition,
11 withdrawal, transfer, reclassification, or donation of any

15 of the comprehensive conservation plan for the refuge.

16 “(iii) Wildlife-dependent recreational uses may be au-

3 “(B) Not later than 24 months after the date of the
4 enactment of the National Wildlife Refuge System Im-

14 resources and purposes of each refuge;

15 “(iv) require that compatibility determinations
16 be made in writing;

17 “(v) provide for the expedited consideration of
18 uses that will likely have no detrimental effect on
19 the fulfillment of the purposes of a refuge or the
20 mission of the System;

21 “(vi) provide for the elimination or modification
22 of any use as expeditiously as practicable after a de-
23 termination is made that the use is not a compatible
24 use;

1 “(vii) require, after an opportunity for public
2 comment, reevaluation of each existing use, other
3 than those uses specified in clause (viii), if condi-
4 tions under which the use is permitted change sig-

6 regarding the effects of the use, but not less fre-
7 quently than once every 10 years, to ensure that the
8 use remains a compatible use;

9 “(viii) require, after an opportunity for public
10 comment, reevaluation of each compatible wildlife-
11 dependent recreational use when conditions under
12 which the use is permitted change significantly or if
13 there is significant new information regarding the
14 effects of the use, but not less frequently than in
15 conjunction with each preparation or revision of a
16 conservation plan under subsection (e) or at least
17 every 15 years, whichever is earlier; and

18 “(ix) provide an opportunity for public review
19 and comment on each evaluation of a use, unless an
20 opportunity for public review and comment on the
21 evaluation of the use has already been provided dur-
22 ing the development or revision of a conservation
23 plan for the refuge under subsection (e) or has oth-
24 erwise been provided during routine, periodic deter-

1 minations of compatibility for wildlife-dependent rec-

8 Fish and Wildlife Service) which has primary juris-
9 diction over a refuge or a portion of a refuge, if the
10 management of those activities is in accordance with

5 summary of the comments made by States, owners of ad-
