To amend the Public Health Service Act to provide for the establishment
of a pediatric research initiative.

IN THE HOUSE OF REPRESENTATIVES

JUNE 12, 1997

Mr. GREENWOOD (for himself and Mrs. JOHNSON of Connecticut) introduced
the following bill; which was referred to the Committee on Commerce

A BILL

To amend the Public Health Service Act to provide for
the establishment of a pediatric research initiative.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. FINDINGS.**

4 Congress finds that—

5 (1) innovations in health care, deriving from
6 scientific investigation of the highest quality, offer
7 substantial benefits to the well-being of children and
8 savings in health care costs;

9 (2) findings in pediatric research not only pro-
10 mote and maintain health throughout a child's life-

1 span, but also contribute significantly to new in-
2 sights and discoveries that will benefit the preven-
3 tion and treatment of illnesses and conditions among
4 adults;

5 (3) the knowledge base in biology and medicine
6 is expanding beyond even recent predictions offering
7 the opportunity for basic scientists and pediatricians
8 trained in research to harness this knowledge to the
9 benefit of children and society;

10 (4) children are our most valuable resource and
11 yet research funding for this population is the most
12 limited; and

13 (5) the search for prevention, cures, and better
14 treatment of children’s illnesses calls for a new com-
15 mitment to invest in children’s research today to
16 make a real difference for children tomorrow.
