AN ACT

To authorize appropriations for fiscal year 1999 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

1 Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,
SECTION 1. SHORT TITLE.

(a) FINDINGS.—Congress makes the following findings:

(1) Senator Strom Thurmond of South Carolina first became a member of the Committee on Armed Services of the United States Senate on January 19, 1959. His continuous service on that committee covers more than 75 percent of the period of the existence of the committee, which was established immediately after World War II, and more than 20 percent of the period of the existence of military and naval affairs committees of Congress, the original bodies of which were formed in 1816.

(2) Senator Thurmond came to Congress and the committee as a distinguished veteran of service, including combat service, in the Armed Forces of the United States.

(3) Senator Thurmond was commissioned as a reserve second lieutenant of infantry in 1924. He served with great distinction with the First Army in the European Theater of Operations during World War II, landing in Normandy in a glider with the 82nd Airborne Division on D-Day. He was transferred to the Pacific Theater of Operations at the end of the war in Europe and was serving in the Philippines when Japan surrendered.
(4) Having reverted to Reserve status at the end of World War II, Senator Thurmond was promoted to brigadier general in the United States Army Reserve in 1954. He served as President of the Reserve Officers Association beginning that same year and ending in 1955. Senator Thurmond was promoted to major general in the United States Army Reserve in 1959. He transferred to the Retired Reserve on January 1, 1965, after 36 years of commissioned service.

(5) The distinguished character of Senator Thurmond’s military service has been recognized by awards of numerous decorations that include the Legion of Merit, the Bronze Star medal with “V” device, the Army Commendation Medal, the Belgian Cross of the Order of the Crown, and the French Croix de Guerre.

(6) Senator Thurmond has served as Chairman of the Committee on Armed Services of the Senate since 1995 and as the ranking minority member of the committee from 1993 to 1995. Senator Thurmond concludes his service as Chairman at the end of the One Hundred Fifth Congress, but is to continue to serve the committee as a member in successive Congresses.
(7) This Act is the fortieth annual authorization bill for the Department of Defense for which Senator Thurmond has taken a major responsibility as a member of the Committee on Armed Services of the Senate.

(8) Senator Thurmond, as officer and legislator, has made matchless contributions to the national security of the United States that, in duration and in quality, are unique.

(9) It is altogether fitting and proper that this Act, the last annual authorization Act for the national defense that Senator Thurmond manages in and for the United States Senate as Chairman of the Committee on Armed Services of the Senate, be named in his honor.

(b) SHORT TITLE.—This Act shall be cited as the “Strom Thurmond National Defense Authorization Act for Fiscal Year 1999”.

etary’s determination is consistent with each deci-
sion made by the Defense Acquisition Board since
January 1997 in the case of a major aircraft acqui-
sition program that the amount of flight testing
completed for the program was sufficient or not suf-
ficient to justify a decision to proceed into low-rate
initial production.

(D) A determination by the Secretary that it is
more financially advantageous for the Department to
proceed into production of Lot II F–22 aircraft than
to delay production until completion of 433 hours of
flight testing, together with the reasons for that de-
termination.

(a) LIMITATION.—Of the amount authorized to be appropriated for the Army pursuant to section 201(1), not more than $223,000,000 may be obligated for the Crusader self-propelled artillery system program until 30 days after the date on which the Secretary of the Army submits the report required under subsection (b).

(b) REQUIREMENT FOR REPORT.—The Secretary of the Army shall submit to the congressional defense committees a report on the Crusader self-propelled artillery system. The report shall include the following:

(1) An assessment of the risks associated with the current Crusader program technology.

(2) The total requirements for the Crusader system, taking into consideration revisions in force structure resulting from the redesign of heavy and light divisions to achieve a force structure known as the Army After Next.

(5) An analysis of the costs and benefits of delaying procurement of Crusader to avoid affordability issues associated with the current schedule and to allow for maturation of weight and propellant technologies.

(c) Submission of Report.—The Secretary of the Army shall submit the report not later than March 1, 1999.

SEC. 212. CVN–77 NUCLEAR AIRCRAFT CARRIER PROGRAM.

(a) Amount for New Technologies.—Of the amounts authorized to be appropriated under section 201(2) for aircraft carrier system development, $50,000,000 shall be available only for research, development, test, and evaluation, and for acquisition, of technologies described in subsection (b) for use in the CVN–77 nuclear aircraft carrier program.

(b) Technologies.—The technologies for which amounts are available under subsection (a) are technologies that are designed—
(1) for a transition from the CVN–77 aircraft carrier program to the CV(X) aircraft carrier program; and

SEC. 214. AIRBORNE LASER PROGRAM.

(a) FINDINGS.—Congress makes the following findings:

(1) The development plan of the Department of Defense for the Airborne Laser Program does not include the basic validation of certain key technologies until 2002, which is shortly before the program is scheduled to enter the engineering and manufacturing development phase of development.

(2) It is possible that the technical risk of the Airborne Laser Program could be substantially reduced by restructuring the program to include a technology demonstration using a low power laser device to collect optical data in an operationally representative environment.

(3) Department of Defense officials are currently planning to have expended approximately $1,300,000,000 on the Airborne Laser Program by the end of fiscal year 2002, and a total of $6,300,000,000 by the end of fiscal year 2008 for the development of the system and the procurement of seven airborne laser aircraft.

(4) Due to the likely vulnerability of an airborne laser system to air defense threats, the limited lethal range of the laser device, and other operational limitations of the system, the utility of the
airborne laser system will be severely restricted under a wide range of operational scenarios.

(b) Assessment of Technical and Operational Limitations.—The Secretary of Defense shall conduct an assessment of the technical obstacles and operational shortcomings expected for the Airborne Laser Program. In conducting the assessment, the Secretary shall—

(1) require the Panel on Reducing Risk in Ballistic Missile Defense Test Programs to evaluate the adequacy of the test program for the Airborne Laser Program; and

(2) establish an independent team of persons from outside the Department of Defense who are experts in relevant fields to review the operational limitations and issues associated with the Airborne Laser Program.

SEC. 215. ENHANCED GLOBAL POSITIONING SYSTEM PROGRAM.

(a) FINDINGS.—Congress makes the following findings:

(1) Section 152(b) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1578) prohibits the obligation of funds, after September 30, 2000, to modify or procure any Department of Defense aircraft, ship, armored vehicle, or indirect-fire weapon system that is not equipped with a Global Positioning System receiver.

(2) Section 279(b) of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106; 110 Stat. 243) requires the Secretary of Defense to prepare a plan for enhancing the Global Positioning System and to provide in that plan for—

(A) the development of capabilities to deny hostile military forces the ability to use the Global Positioning System without hindering the ability of United States military forces and
civil users to have access to and use of the sys-

tem; and

(B) the development and acquisition of re-
ceivers for the Global Positioning System and
other techniques for weapons and weapon sys-
tems that provide substantially improved resist-
ance to jamming and other forms of electronic
interference or disruption.

(3) Section 2281 of title 10, United States
Code, requires the Secretary of Defense—

(A) to develop appropriate measures for
preventing hostile use of the Global Positioning
System so as to make it unnecessary for the
Secretary to use the selective availability fea-
ture of the system continuously while not hin-
dering the use of the Global Positioning System
by the United States and its allies for military
purposes;

(B) to ensure that the Armed Forces of
the United States have the capability to use the
Global Positioning System effectively despite
hostile attempts to prevent the use of the sys-
tem by such forces; and

(C) to develop measures for preventing
hostile use of the Global Positioning System in
a particular area without hindering peaceful
civil use of the system elsewhere.

(b) Policy on Priority for Development of Enhanced GPS System.—The development of an enhanced
Global Positioning System is an urgent national security
priority.

c) Development Required.—To fulfill the re-
quirements described in subsection (a), the Secretary of
Defense shall develop an enhanced Global Positioning Sys-
tem in accordance with the priority declared in subsection
(b). The enhanced Global Positioning System shall consist
of the following elements:

(1) An evolved satellite system that includes dy-
amic frequency reconfiguration and regional-level
directional signal enhancements.

(2) Enhanced receivers and user equipment
that are capable of providing military users with di-
rect access to encrypted Global Positioning System
signals.

(3) To the extent funded by the Secretary of
Transportation, additional civil frequencies and
other enhancements for civil users.

(d) Sense of Congress Regarding Funding.—
It is the sense of Congress that—
(1) the Secretary of Defense should ensure that the future-years defense program provides for sufficient funding to develop and deploy an enhanced Global Positioning System system in accordance with the priority declared in subsection (b); and

(2) the Secretary of Transportation should provide sufficient funding to support additional civil frequencies for the Global Positioning System and other enhancements of the system for civil users.

(e) Plan for Development of Enhanced Global Positioning System.—Not later than April 15, 1999, the Secretary of Defense shall submit to Congress a plan for carrying out the requirements of subsection (e).

(f) Delayed Effective Date for Limitation on Procurement of Systems Not GPS-Equipped.—Section 152(b) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1578) is amended by striking out “2000” and inserting in lieu thereof “2005”.

“(2) Except as provided in paragraph (3), the costs of a project carried out under the program shall be shared by the Department of Defense and the other parties to the grant, contract, cooperative agreement, or other transaction involved if any results of the project are likely to have an immediate and direct commercial application. The cost share—

“(A) in the case of a grant, contract, cooperative agreement, or other transaction that is awarded using a competitive selection process, shall be the cost share proposed in the application or offer selected for the award; or

“(B) in a case in which there is only one applicant or offeror, shall be the cost share negotiated with the applicant or offeror that provides the best value for the Government.

“(3) (A) Cost-sharing is not required of the non-Federal Government parties to a grant, contract, cooperative agreement, or other transaction under paragraph (2) if the project is determined as being sufficiently high risk
to discourage cost-sharing by non-Federal Government sources.

“(B) A determination under subparagraph (A) that cost-sharing is not required in the case of a particular grant, contract, cooperative agreement or other transaction shall be made by—

“(i) the Secretary of the military department awarding the grant or entering into the contract, cooperative agreement, or other transaction; or

“(ii) the Secretary of Defense for any other grant, contract, cooperative agreement, or transaction.

“(C) The transaction file for a case in which cost-sharing is determined as not being required shall include written documentation of the reasons for the determination.”.

(a) FINDINGS.—Congress makes the following findings with respect to the authorization of payment of settlement with Canada in subsection (b) regarding environmental cleanup at formerly used defense sites in Canada:

(1) A unique and longstanding national security alliance exists between the United States and Canada.

(2) The sites covered by the settlement were formerly used by the United States and Canada for their mutual defense.

(3) There is no formal treaty or international agreement between the United States and Canada regarding the environmental cleanup of the sites.

(4) Environmental contamination at some of the sites could pose a substantial risk to the health and safety of the United States citizens residing in States near the border between the United States and Canada.

(5) The United States and Canada reached a negotiated agreement for an ex-gratia reimbursement of Canada in full satisfaction of claims of Canada relating to environmental contamination which agreement was embodied in an exchange of Notes.
between the Government of the United States and
the Government of Canada.

(6) There is a unique factual basis for authoriz-
ing a reimbursement of Canada for environmental
cleanup at sites in Canada after the United States
departure from such sites.

(7) The basis for and authorization of such re-
imbursement does not extend to similar claims by
other nations.

(8) The Government of Canada is committed to
spending the entire $100,000,000 of the reimburse-
ment authorized in subsection (b) in the United
States, which will benefit United States industry and
United States workers.

to paragraph (3), the Secretary of Defense may, using
funds specified under subsection (c), make a payment de-

through 2008 for purposes of the ex-gratia reimbursement
of Canada in full satisfaction of any and all claims as-
serted against the United States by Canada for environ-
mental cleanup of sites in Canada that were formerly used
for the mutual defense of the United States and Canada.

(2) A payment referred to in paragraph (1) is a pay-
ment of $10,000,000, in constant fiscal year 1996 dollars,
into the Foreign Military Sales Trust Account for purposes of Canada.

(3) A payment may be made under paragraph (1) in any fiscal year after fiscal year 1999 only if the Secretary of Defense submits to Congress with the budget for such fiscal year under section 1105 of title 31, United States Code, evidence that the cumulative amount expended by the Government of Canada for environmental cleanup activities in Canada during any fiscal years before such fiscal year in which a payment under that paragraph was authorized was an amount equal to or greater than the aggregate amount of the payments under that paragraph during such fiscal years.

(e) Source of Funds.—A payment may be made under subsection (b) in a fiscal year from amounts appropriated pursuant to the authorization of appropriations for the Department of Defense for such fiscal year for Operation and Maintenance, Defense-Wide.

another country against the United States for environ-

for Payment of Settlement.—Notwithstanding any
other provision of law, no funds may be utilized for any

SEC. 328. SENSE OF SENATE REGARDING OIL SPILL PREVENTION TRAINING FOR PERSONNEL ON BOARD NAVY VESSELS.

(a) FINDINGS.—The Senate makes the following findings:
(1) There have been six significant oil spills in Puget Sound, Washington, in 1998, five at Puget Sound Naval Shipyard (including three from the U.S.S. Kitty Hawk, one from the U.S.S. Carl Vinson, and one from the U.S.S. Sacramento) and one at Naval Station Everett from the U.S.S. Paul F. Foster.

(2) Navy personnel on board vessels, and not shipyard employees, were primarily responsible for a majority of these oil spills at Puget Sound Naval Shipyard.

(3) Oil spills have the potential to damage the local environment, killing microscopic organisms, contributing to air pollution, harming plants and marine animals, and increasing overall pollution levels in Puget Sound.

(b) SENSE OF SENATE.—It is the sense of the Senate that the Secretary of the Navy should take immediate action to significantly reduce the risk of vessel oil spills, including the minimization of fuel oil transfers, the assurance of proper training and qualifications of all Naval personnel in occupations that may contribute to or minimize the risk of shipboard oil spills, and the improvement of liaison with local authorities concerning oil spill prevention and response activities.

under the policy and to the same priority as is given
to peacekeeping operations under the policy; and

SEC. 706. JOINT DEPARTMENT OF DEFENSE AND DEPARTMENT OF VETERANS AFFAIRS REVIEWS RELATING TO INTERDEPARTMENTAL COOPERATION IN THE DELIVERY OF MEDICAL CARE.

(a) FINDINGS.—Congress makes the following findings:

(1) The military health care system of the Department of Defense and the Veterans Health Administration of the Department of Veterans Affairs are national institutions that collectively manage more than 1,500 hospitals, clinics, and health care facilities worldwide to provide services to more than 11,000,000 beneficiaries.

(2) In the post-Cold War era, these institutions are in a profound transition that involves challenging opportunities.
(3) During the period from 1988 to 1998, the number of military medical personnel has declined by 15 percent and the number of military hospitals has been reduced by one-third.

(4) During the two years since 1996, the Department of Veterans Affairs has revitalized its structure by decentralizing authority into 22 Veterans Integrated Service Networks.

(5) In the face of increasing costs of medical care, increased demands for health care services, and increasing budgetary constraints, the Department of Defense and the Department of Veterans Affairs have embarked on a variety of dynamic and innovative cooperative programs ranging from shared services to joint venture operations of medical facilities.

(6) In 1984, there was a combined total of 102 Department of Veterans Affairs and Department of Defense facilities with sharing agreements. By 1997, that number had grown to 420. During the six years from fiscal year 1992 through fiscal year 1997, shared services increased from slightly over 3,000 services to more than 6,000 services ranging from major medical and surgical services, laundry, blood, and laboratory services to unusual specialty care services.
(7) The Department of Defense and the Department of Veterans Affairs are conducting four health care joint ventures in New Mexico, Nevada, Texas, Oklahoma, and are planning to conduct four more such ventures in Alaska, Florida, Hawaii, and California.

(b) Sense of Congress.—It is the sense of Congress that—

(1) the Department of Defense and the Department of Veterans Affairs are to be commended for the cooperation between the two departments in the delivery of medical care, of which the cooperation involved in the establishment and operation of the Department of Defense and the Department of Veterans Affairs Executive Council is a praiseworthy example;

(2) the two departments are encouraged to continue to explore new opportunities to enhance the availability and delivery of medical care to beneficiaries by further enhancing the cooperative efforts of the departments; and

(3) enhanced cooperation is encouraged for—

SEC. 910. MILITARY AVIATION ACCIDENT INVESTIGATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) In February 1996, the Government Accounting Office released a report highlighting a 75 percent reduction in aviation Class A mishaps, a 70 percent reduction in aviation mishap fatalities and a 65 percent reduction in Class A mishap rates from 1975–1995 (Military Aircraft Safety—Significant Improvements since 1975).

(2) In February 1998, the Government Accounting Office completed a follow-up review of military aircraft safety, noting that the military experienced fewer serious aviation mishaps in fiscal years 1996 and 1997 than in previous fiscal years (Military Aircraft Safety: Serious Accidents Remain at Historically Low Levels).

(3) The report required by section 1046 of the National Defense Authorization Act for fiscal year 1998 (Public Law 105–85; 111 Stat. 1888) concluded, “DoD found no evidence that changing exist-
ing investigation processes to more closely resemble those of the NTSB would help DoD to find more answers more quickly, or accurately”.

(4) The Department of Defense must further improve its aviation safety by fully examining all options for improving or replacing its current aviation accident investigation processes.

(5) The inter-service working group formed as a result of that report has contributed to progress in military aviation accident investigations by identifying ways to improve family assistance, as has the formal policy direction coordinated by the Office of the Secretary of Defense.

(6) Such progress includes the issuance of Air Force Instruction 90–701 entitled “Assistance to Families of Persons Involved in Air Force Aviation Mishaps”, that attempts to meet the need for a more timely flow of relevant information to families, a family liaison officer, and the establishment of the Air Force Office of Family Assistance. However, formal policy directions and Air Force instructions have not adequately addressed the failure to provide primary next of kin of members of the Armed Forces involved in military aviation accidents with interim reports regarding the course of investigations into
such accidents, and the Department of Defense must improve its procedures for informing the families of the persons involved in military aviation mishaps.

(7) The report referred to in paragraph (3) concluded that the Department would “benefit from the disappearance of the misperception that the privileged portion of the safety investigation exists to hide unfavorable information”.

(8) That report further specified that “[e]ach Military Department has procedures in place to place to provide redacted copies of the final [privileged] safety report to the families. However, families must formally request a copy of the final safety investigation report”.

(9) Current efforts to improve family notification would be enhanced by the issuance by the Secretary of Defense of uniform regulations to improve the timeliness and reliability of information provided to the primary next of kin of persons involved in military aviation accidents during and following both the legal investigation and safety investigation phases of such investigations.

(b) EVALUATION OF DEPARTMENT OF DEFENSE AVIATION ACCIDENT INVESTIGATION PROCEDURES.—(1) The Secretary of Defense shall establish a task force to—
(A) review the procedures employed by the Department of Defense to conduct military aviation accident investigations; and

(B) identify mechanisms for improving such investigations and the military aviation accident investigation process.

(2) The Secretary shall appoint to the task force the following:

(A) An appropriate number of members of the Armed Forces, including both members of the regular components and the reserve components, who have experience relating to military aviation or investigations into military aviation accidents.

(B) An appropriate number of former members of the Armed Forces who have such experience.

(C) With the concurrence of the member concerned, a member of the National Transportation Safety Board.

(3)(A) The task force shall submit to Congress an interim report and a final report on its activities under this subsection. The interim report shall be submitted on December 1, 1998, and the final report shall be submitted on March 31, 1999.

(B) Each report under subparagraph (A) shall include the following:
(i) An assessment of the advisability of conducting all military aviation accident investigations through an entity that is independent of the military departments.

(ii) An assessment of the effectiveness of the current military aviation accident investigation process in identifying the cause of military aviation accidents and correcting problems so identified in a timely manner.

(iii) An assessment whether or not the procedures for sharing the results of military aviation accident investigations among the military departments should be improved.

(iv) An assessment of the advisability of centralized training and instruction for military aircraft investigators.

(v) An assessment of any costs or cost avoidances that would result from the elimination of any overlap in military aviation accident investigation activities conducted under the current so-called “two-track” investigation process.

(vi) Any improvements or modifications in the current military aviation accident investigation process that the task force considers appropriate to re-
duce the potential for aviation accidents and in-
crease public confidence in the process.

(c) Uniform Regulations for Release of In-
terim Safety Investigation Reports.—(1)(A) Not
later than May 1, 1999, the Secretary of Defense shall
prescribe regulations that provide for the release to the
family members of persons involved in military aviation
accidents, and to members of the public, of reports re-
ferred to in paragraph (2).

(B) The regulations shall apply uniformly to each
military department.

(2) A report under paragraph (1) is a report on the
findings of any ongoing privileged safety investigation into
an accident referred to in that paragraph. Such report
shall be in a redacted form or other form appropriate to
preserve witness confidentiality and to minimize the ef-
facts of the release of information in such report on na-
tional security.

(3) Reports under paragraph (1) shall be made
available—

(A) in the case of family members, at least once
every 30 days or upon the development of a new or
significantly changed finding during the course of
the investigation concerned; and
(B) in the case of members of the public, on re-
quest.

(d) Coordination With Other Amendments.—For purposes of applying amendments made by provisions of this Act other than provisions of this section, this section shall be treated as having been enacted immediately before the other provisions of this Act.

SEC. 1064. EXTENSION AND REAUTHORIZATION OF DEFENSE PRODUCTION ACT OF 1950.

(a) Extension of Termination Date.—Section 717(a) of the Defense Production Act of 1950 (50 U.S.C. App. 2166(a)) is amended by striking “September 30, 1998” and inserting “September 30, 1999”.

(b) Extension of Authorization.—Section 711(b) of the Defense Production Act of 1950 (50 U.S.C.
App. 2161(b)) is amended by striking “and 1998” and inserting “1998, and 1999”.

SEC. 1065. BUDGETING FOR CONTINUED PARTICIPATION OF UNITED STATES FORCES IN NATO OPERATIONS IN BOSNIA AND HERZEGOVINA.

(a) FINDINGS.—Congress makes the following findings:

(1) Funding levels in the Department of Defense budget have not been sufficient to pay for the deployment of United States ground combat forces in Bosnia and Herzegovina that began in fiscal year 1996.

(2) The Department of Defense has used funds from the operation and maintenance accounts of the Armed Forces to pay for the operations because the funding levels included in the defense budgets for fiscal years 1996 and 1997 have not been adequate to maintain operations in Bosnia and Herzegovina.

(3) Funds necessary to continue United States participation in the NATO operations in Bosnia and Herzegovina, and to replace operation and maintenance funds used for the operations, have been requested by the President as supplemental appropriations in fiscal years 1996 and 1997. The Department of Defense has also proposed to reprogram
previously appropriated funds to make up the short-fall for continued United States operations in Bosnia and Herzegovina.

(4) In February 1998, the President certified to Congress that the continued presence of United States forces in Bosnia and Herzegovina after June 30, 1998, was necessary in order to meet national security interests of the United States.

(5) The discretionary spending limit established for the defense category for fiscal year 1998 in the Balanced Budget and Emergency Deficit Control Act of 1985 does not take into account the continued deployment of United States forces in Bosnia and Herzegovina after June 30, 1998. Therefore, the President requested emergency supplemental appropriations for the Bosnia and Herzegovina mission through September 30, 1998.

(6) Amounts for operations in Bosnia and Herzegovina were not included in the original budget proposed by the President for the Department of Defense for fiscal year 1999.

(7) The President requested $1,858,600,000 in emergency appropriations in his March 4, 1998 amendment to the fiscal year 1999 budget to cover
the shortfall in funding in the fiscal year 1999 for
the costs of extending the mission in Bosnia.

(b) SENSE OF CONGRESS.—It is the sense of Con-
gress that—

(1) the President should include in the budget
for the Department of Defense that the President
submits to Congress under section 1105(a) of title
31, United States Code, for each fiscal year suffi-
cient amounts to pay for any proposed continuation
of the participation of United States forces in
NATO operations in Bosnia and Herzegovina for
that fiscal year; and

(2) amounts included in the budget for that
purpose should not be transferred from amounts
that would otherwise be proposed in the budget of
any of the Armed Forces in accordance with the fu-
ture-years defense program related to that budget,
or any other agency of the Executive Branch, but,
instead, should be an overall increase in the budget
for the Department of Defense.

SEC. 1066. NATO PARTICIPATION IN THE PERFORMANCE OF
PUBLIC SECURITY FUNCTIONS OF CIVILIAN
AUTHORITIES IN BOSNIA AND HERZEGOVINA.

(a) FINDINGS.—Congress makes the following find-
ings:
(1) The North Atlantic Treaty Organization (NATO) has approved the creation of a multi-national specialized unit of gendarmes- or para-military police composed of European security forces to help promote public security in Bosnia and Herzegovina as a part of the post-June 1998 mission for the Stabilization Force (SFOR) authorized under the United Nations Security Council Resolution 1088 (December 12, 1996).

(2) On at least four occasions, beginning in July 1997, the Stabilization Force (SFOR) has been involved, pursuant to military annex 1(A) of the Dayton Agreement, in carrying out missions for the specific purpose of detaining war criminals, and on at least one of those occasions United States forces were directly involved in carrying out the mission.

(b) Sense of Congress.—It is the sense of Congress that United States forces should not serve as civil police in Bosnia and Herzegovina.

(c) Requirement for Report.—The President shall submit to Congress, not later than October 1, 1998, a report on the status of the NATO force of gendarmes or paramilitary police referred to in subsection (a)(1), including the mission of the force, the composition of the force, and the extent, if any, to which members of the
Armed Forces of the United States are participating (or are to participate) in the force.

SEC. 1067. PILOT PROGRAM FOR REVITALIZING THE LABORATORIES AND TEST AND EVALUATION CENTERS OF THE DEPARTMENT OF DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) Officials of the Department of Defense are critically dependent on the science and technology laboratories and test and evaluation centers, of the department—

(A) to exploit commercial technology for unique military purposes;

(B) to develop advanced technology in precise areas;

(C) to provide the officials with objective advice and counsel on science and technology matters; and

(D) to lead the decisionmaking that identifies the most cost-effective procurements of military equipment and services.

(2) The laboratories and test and evaluation centers are facing a number of challenges that, if not overcome, could limit the productivity and self-
sustainability of the laboratories and centers, including—

(A) the declining funding provided for science and technology in the technology base program of the Department of Defense;

(B) difficulties experienced in recruiting, retaining, and motivating high-quality personnel; and

(C) the complex web of policies and regulatory constraints that restrict authority of managers to operate the laboratories and centers in a businesslike fashion.

(3) Congress has provided tools to deal with the changing nature of technological development in the defense sector by encouraging closer cooperation with industry and university research and by authorizing demonstrations of alternative personnel systems.

(4) A number of laboratories and test and evaluation centers have addressed the challenges and are employing a variety of innovative methods, such as the so-called “Federated Lab Concept” undertaken at the Army Research Laboratory, to maintain the high quality of the technical program, to provide a challenging work environment for researchers, and
to meet the high cost demands of maintaining facili-
ties that are equal or superior in quality to com-
parable facilities anywhere in the world.

(b) COMMENDATION.—Congress commends the Sec-
retary of Defense for the progress made by the science
and technology laboratories and test and evaluation cen-
ters to achieve the results described in subsection (a)(4)
and encourages the Secretary to take the actions necessary
to ensure continued progress for the laboratories and test
and evaluation centers in developing cooperative relation-
ships with universities and other private sector entities for
the performance of research and development functions.

(c) PILOT PROGRAM.—(1) In conjunction with the
plan for restructuring and revitalizing the science and
technology laboratories and test and evaluation centers of
the Department of Defense that is required by section 906
of this Act, the Secretary of Defense may carry out a pilot
program to demonstrate improved cooperative relation-
ships with universities and other private sector entities for
the performance of research and development functions.

(2) Under the pilot program, the Secretary of De-
fense shall provide the director of one science and tech-
nology laboratory, and the director of one test and evalua-
tion center, of each military department with authority for
the following:
(A) To explore innovative methods for quickly, efficiently, and fairly entering into cooperative relationships with universities and other private sector entities with respect to the performance of research and development functions.

(B) To waive any restrictions on the demonstration and implementation of such methods that are not required by law.

(C) To develop or expand innovative methods of operation that provide more defense research for each dollar of cost, including to carry out such initiatives as focusing on the performance of core functions and adopting more business-like practices.

(3) In selecting the laboratories and centers for participation in the pilot program, the Secretary shall consider laboratories and centers where innovative management techniques have been demonstrated, particularly as documented under sections 1115 through 1119 of title 31, United States Code, relating to Government agency performance and results.

(4) The Secretary may carry out the pilot program at each selected laboratory and center for a period of three years beginning not later than March 1, 1999.

(d) REPORTS.—(1) Not later than March 1, 1999, the Secretary of Defense shall submit a report on the im-
plementation of the pilot program to Congress. The report shall include the following:

(A) Each laboratory and center selected for the pilot program.

(B) To the extent possible, a description of the innovative concepts that are to be tested at each laboratory or center.

(C) The criteria to be used for measuring the success of each concept to be tested.

(2) Promptly after the expiration of the period for participation of a laboratory or center in the pilot program, the Secretary of Defense shall submit to Congress a final report on the participation of the laboratory or center in the pilot program. The report shall contain the following:

(A) A description of the concepts tested.

(B) The results of the testing.

(C) The lessons learned.

(D) Any proposal for legislation that the Secretary recommends on the basis of the experience at the laboratory or center under the pilot program.
SEC. 1068. SENSE OF CONGRESS REGARDING THE HEROISM, SACRIFICE, AND SERVICE OF FORMER SOUTH VIETNAMESE COMMANDOS IN CONNECTION WITH UNITED STATES ARMED FORCES DURING THE VIETNAM CONFLICT.

(a) FINDINGS.—Congress makes the following findings:

(1) South Vietnamese commandos were recruited by the United States as part of OPLAN 34A or its predecessor or OPLAN 35 from 1961 to 1970.

(2) The commandos conducted covert operations in North Vietnam during the Vietnam conflict.

(3) Many of the commandos were captured and imprisoned by North Vietnamese forces, some for as long as 20 years.

(4) The commandos served and fought proudly during the Vietnam conflict.

(5) Many of the commandos lost their lives serving in operations conducted by the United States during the Vietnam conflict.

(6) Many of the Vietnamese commandos now reside in the United States.

(b) SENSE OF CONGRESS.—Congress recognizes and honors the former South Vietnamese commandos for their
heroism, sacrifice, and service in connection with United
States armed forces during the Vietnam conflict.

SEC. 1069. SENSE OF THE SENATE REGARDING DECLAS-
SIFICATION OF CLASSIFIED INFORMATION
OF THE DEPARTMENT OF DEFENSE AND THE
DEPARTMENT OF ENERGY.

It is the sense of the Senate that the Secretary of
Defense and the Secretary of Energy should submit to
Congress a request for funds in fiscal year 2000 for activi-
ties relating to the declassification of information under
the jurisdiction of such Secretaries in order to fulfill the
obligations and commitments of such Secretaries under
Executive Order No. 12958 and the Atomic Energy Act
of 1954 (42 U.S.C. 2011 et seq.) and to the stakeholders.

SEC. 1070. RUSSIAN NONSTRATEGIC NUCLEAR WEAPONS.

(a) SENSE OF THE SENATE.—It is the sense of the
Senate that—

(1) the 7,000 to 12,000 or more nonstrategic
(or “tactical”) nuclear weapons estimated by the
United States Strategic Command to be in the Rus-
sian arsenal may present the greatest threat of sale
or theft of a nuclear warhead in the world today;

(2) as the number of deployed strategic war-
heads in the Russian and United States arsenals de-
clines to just a few thousand under the START ac-
cords, Russia’s vast superiority in tactical nuclear warheads—many of which have yields equivalent to strategic nuclear weapons—could become strategically destabilizing;

(3) while the United States has unilaterally reduced its inventory of tactical nuclear weapons by nearly 90 percent since the end of the Cold War, Russia is behind schedule in implementing the steep tactical nuclear arms reductions pledged by former Soviet President Gorbachev in 1991 and Russian President Yeltsin in 1992, perpetuating the dangers from Russia’s tactical nuclear stockpile; and

(4) the President of the United States should call on the Russian Federation to expedite reduction of its tactical nuclear arsenal in accordance with the promises made in 1991 and 1992.

(b) REPORT.—Not later than March 15, 1999, the Secretary of Defense shall submit to the Congress a report on Russia’s nonstrategic nuclear weapons, including—

(1) estimates regarding the current numbers, types, yields, viability, and locations of such warheads;

(2) an assessment of the strategic implications of the Russian Federation’s nonstrategic arsenal, including the potential use of such warheads in a stra-
tegic role or the use of their components in strategic nuclear systems;

(3) an assessment of the extent of the current threat of theft, sale, or unauthorized use of such warheads, including an analysis of Russian command and control as it concerns the use of tactical nuclear warheads; and

(4) a summary of past, current, and planned efforts to work cooperatively with the Russian Federation to account for, secure, and reduce Russia’s stockpile of tactical nuclear warheads and associated fissile material.

(c) VIEWS.—This report shall include the views of the Director of Central Intelligence and the Commander in Chief of the United States Strategic Command.

SEC. 1071. SENSE OF SENATE ON NUCLEAR TESTS IN SOUTH ASIA.

(a) FINDINGS.—The Senate finds that—

(1) on May 11 and 13, 1998, the Government of India conducted a series of underground nuclear tests;

(2) on May 28 and 30, 1998, the Government of Pakistan conducted a series of underground nuclear tests;
(3) although not recognized or accepted as such by the United Nations Security Council, India and Pakistan have declared themselves nuclear weapon states;

(4) India and Pakistan have conducted extensive nuclear weapons research over several decades, resulting in the development of nuclear capabilities and the potential for the attainment of nuclear arsenals and the dangerous proliferation of nuclear weaponry;

(5) India and Pakistan have refused to enter into internationally recognized nuclear non-proliferation agreements, including the Comprehensive Test Ban Treaty, the Treaty on the Non-Proliferation of Nuclear Weapons, and full-scope safeguards agreements with the International Atomic Energy Agency;

(6) India and Pakistan, which have been at war with each other 3 times in the past 50 years, have urgent bilateral conflicts, most notably over the disputed territory of Kashmir;

(7) the testing of nuclear weapons by India and Pakistan has created grave and serious tensions on the Indian subcontinent; and

(8) the United States response to India and Pakistan’s nuclear tests has included the imposition
of wide-ranging sanctions as called for under the Arms Export Control Act and the Nuclear Proliferation Prevention Act of 1994.

(b) Sense of Senate.—The Senate—

(1) strongly condemns the decisions by the governments of India and Pakistan to conduct nuclear tests in May 1998;

(2) supports the President’s decision to carry out the provisions of the Nuclear Proliferation Prevention Act of 1994 with respect to India and Pakistan and invoke all sanctions in that Act;

(3) calls upon members of the international community to impose similar sanctions against India and Pakistan to those imposed by the United States;

(4) calls for the governments of India and Pakistan to commit not to conduct any additional nuclear tests;

(5) urges the governments of India and Pakistan to take immediate steps, bilaterally and under the auspices of the United Nations, to reduce tensions between them;

(6) urges India and Pakistan to engage in high-level dialogue aimed at reducing the likelihood of armed conflict, enacting confidence and security building measures, and resolving areas of dispute;
(7) commends all nations to take steps which
will reduce tensions in South Asia, including appro-
priate measures to prevent the transfer of tech-
tology that could further exacerbate the arms race
in South Asia, and thus avoid further deterioration
of security there;

(8) calls upon the President to seek a diplo-
matic solution between the governments of India and
Pakistan to promote peace and stability in South
Asia and resolve the current impasse;

(9) encourages United States leadership in as-
sisting the governments of India and Pakistan to re-
solve their 50-year conflict over the disputed terri-
tory in Kashmir;

(10) urges India and Pakistan to take imme-
diate, binding, and verifiable steps to roll back their
nuclear programs and come into compliance with
internationally accepted norms regarding the pro-
iferation of weapons of mass destruction; and

(11) urges the United States to reevaluate its
bilateral relationship with India and Pakistan, in
light of the new regional security realities in South
Asia, with the goal of preventing further nuclear and
ballistic missile proliferation, diffusing long-standing
regional rivalries between India and Pakistan, and
securing commitments from them which, if carried out, could result in a calibrated lifting of United States sanctions imposed under the Arms Export Control Act and the Nuclear Proliferation Prevention Act of 1994.

SEC. 1072. SENSE OF CONGRESS REGARDING CONTINUED PARTICIPATION OF UNITED STATES FORCES IN OPERATIONS IN BOSNIA AND HERZEGOVINA.

(a) FINDINGS.—Congress makes the following findings:

(1) The contributions of the people of the United States and other nations have, in large measure, resulted in the suspension of fighting and alleviated the suffering of the people of Bosnia and Herzegovina since December 1995.

(2) the people of the United States have expended approximately $9,500,000,000 in tax dollars between 1992 and mid-1998 just in support of the United States military operations in Bosnia to achieve those results.

(3) Efforts to restore the economy and political structure in Bosnia and Herzegovina have achieved some success in accordance with the Dayton Agreement.
(4) In February 1998, the President certified to Congress that the continued presence of United States forces in Bosnia and Herzegovina after June 30, 1998, was necessary in order to meet national security interests of the United States.

(5) There is, however, no accurate estimate of the time needed to accomplish the civilian implementation tasks outlined in the Dayton Agreement.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) United States ground combat forces should not remain in Bosnia and Herzegovina indefinitely in view of the world-wide commitments of the Armed Forces of the United States;

(2) the President should work with NATO allies and the other nations whose military forces are participating in the NATO-led Stabilization Force to withdraw United States ground combat forces from Bosnia and Herzegovina within a reasonable period of time, consistent with the safety of those forces and the accomplishment of the Stabilization Force’s military tasks;

(3) a NATO-led force without the participation of United States ground combat forces in Bosnia and Herzegovina might be suitable for a follow-on
force for Bosnia and Herzegovina if the European Security and Defense Identity is not sufficiently de-
veloped or is otherwise considered inappropriate for such a mission;

(4) the United States may decide to provide ap-
propriate support to a Western European Union-led or NATO-led follow-on force for Bosnia and Herzegovina, including command and control, intel-
ligence, logistics, and, if necessary, a ready reserve force in the region;

(5) the President should inform the European NATO allies of this expression of the sense of Con-
gress and should strongly urge them to undertake preparations for establishing a Western European Union-led or a NATO-led force as a follow-on force to the NATO-led Stabilization Force if needed to maintain peace and stability in Bosnia and Herzegovina; and

(6) the President should consult closely with the congressional leadership and the congressional de-
fense committees with respect to the progress being made toward achieving a sustainable peace in Bosnia and Herzegovina and the progress being made to-
ward a reduction and ultimate withdrawal of United
States ground combat forces from Bosnia and Herzegovina.

(c) One-Time Reports.—The President shall submit to Congress the following reports:

(1) Not later than September 30, 1998, a report containing a discussion of the likely impact on the security situation in Bosnia and Herzegovina and on the prospects for establishing self-sustaining peace and stable local government there that would result from a phased reduction in the number of United States military personnel stationed in Bosnia and Herzegovina under the following alternatives:

   (B) A phased reduction by February 2, 2000, to the number of personnel that is approximately equal to the mean average of—

      (i) the number of military personnel of the United Kingdom that are stationed in Bosnia and Herzegovina on that date;

      (ii) the number of military personnel of Germany that are stationed there on that date;
(iii) the number of military personnel
of France that are stationed there on that
date; and

(iv) the number of military personnel
of Italy that are stationed there on that
date.

(2) Not later than October 1, 1998, a report on
the status of the NATO force of gendarmes or para-
military police referred to in subsection (a)(1), in-
cluding the mission of the force, the composition of
the force, and the extent, if any, to which members
of the Armed Forces of the United States are par-
ticipating (or are to participate) in the force.

(d) Report To Accompany Each Request For
Funding.—(1) Each time that the President submits to
Congress a proposal for funding continued operations of
United States forces in Bosnia and Herzegovina, the
President shall submit to Congress a report on the mis-
sions of United States forces there. The first report shall
be submitted at the same time that the President submits
the budget for fiscal year 2000 to Congress under section
1105(a) of title 31, United States Code.

(2) Each report under paragraph (1) shall include the
following:
(A) The performance objectives and schedule for the implementation of the Dayton Agreement, including—

(i) the specific objectives for the reestablishment of a self-sustaining peace and a stable local government in Bosnia and Herzegovina, taking into account (I) each of the areas of implementation required by the Dayton Agreement, as well as other areas that are not covered specifically in the Dayton Agreement but are essential for reestablishing such a peace and local government and to permitting an orderly withdrawal of the international peace implementation force from Bosnia and Herzegovina, and (II) the benchmarks reported in the latest semi-annual report submitted under section 7(b)(2) of the 1998 Supplemental Appropriations and Rescissions Act (revised as necessary to be current as of the date of the report submitted under this subsection); and

(ii) the schedule, specified by fiscal year, for achieving the objectives.

(B) The military and non-military missions that the President has directed for United States forces in Bosnia and Herzegovina in support of the objec-
atives identified pursuant to paragraph (1), including
a specific discussion of—

(i) the mission of the United States forces,
if any, in connection with the pursuit and ap-
prehension of war criminals;

(ii) the mission of the United States forces,
if any, in connection with civilian police func-
tions;

(iii) the mission of the United States
forces, if any, in connection with the resettle-
ment of refugees; and

(iv) the missions undertaken by the United
States forces, if any, in support of international
and local civilian authorities.

(C) An assessment of the risk for the United
States forces in Bosnia and Herzegovina, including,
for each mission identified pursuant to subpara-
graph (B), the assessment of the Chairman of the
Joint Chiefs of Staff regarding the nature and level
of risk of the mission for the safety and well-being
of United States military personnel.

(D) An assessment of the cost to the United
States, by fiscal year, of carrying out the missions
identified pursuant to subparagraph (B) for the pe-
period indicated in the schedule provided pursuant to
subparagraph (A).

(E) A joint assessment by the Secretary of De-
fense and the Secretary of State of the status of
planning for—

(i) the assumption of all remaining mili-
tary missions inside Bosnia and Herzegovina by
European military and paramilitary forces; and

(ii) the establishment and support of for-
ward-based United States rapid response force
outside of Bosnia and Herzegovina that would
be capable of deploying rapidly to defeat mili-
tary threats to a European follow-on force in-
side Bosnia and Herzegovina, and of providing
whatever logistical, intelligence, and air support
is needed to ensure that a European follow-on
force is fully capable of accomplishing its mis-
sions under the Dayton Agreement.

(c) DAYTON AGREEMENT DEFINED.—In this section,
the term “Dayton Agreement” means the General Frame-
work Agreement for Peace in Bosnia and Herzegovina, to-
gether with annexes relating thereto, done at Dayton, No-

dember 10 through 16, 1995.

**TITLE XII—JOINT WARFIGHTING EXPERIMENTATION**

**SEC. 1201. FINDINGS.**

Congress makes the following findings:

(1) The collapse of the Soviet Union in 1991 and the unprecedented explosion of technological advances that could fundamentally redefine military threats and military capabilities in the future have generated a need to assess the defense policy, strategy, and force structure necessary to meet future defense requirements of the United States.

(2) The assessment conducted by the administration of President Bush (known as the “Base Force” assessment) and the assessment conducted by the administration of President Clinton (known as the “Bottom-Up Review”) were important attempts to redefine the defense strategy of the United States and the force structure of the Armed Forces necessary to execute that strategy.
(3) Those assessments have become inadequate as a result of the pace of global geopolitical change and the speed of technological change, which have been greater than expected.

(4) The Chairman of the Joint Chiefs of Staff reacted to the changing environment by developing and publishing in May 1996 a vision statement, known as “Joint Vision 2010”, to be a basis for the transformation of United States military capabilities. The vision statement embodies the improved intelligence and command and control that is available in the information age and sets forth the operational concepts of dominant maneuver, precision engagement, full-dimensional protection, and focused logistics to achieve the objective of full spectrum dominance.

(5) In 1996 Congress, concerned about the shortcomings in defense policies and programs derived from the Base-Force Review and the Bottom-Up Review, determined that there was a need for a new, comprehensive assessment of the defense strategy of the United States and the force structure of the Armed Forces necessary for meeting the threats to the United States in the 21st century.
(6) As a result of that determination, Congress passed the Military Force Structure Review Act of 1996 (subtitle B of title IX of the National Defense Authorization Act for Fiscal Year 1997), which required the Secretary of Defense to complete in 1997 a quadrennial defense review of the defense program of the United States. The review was required to include a comprehensive examination of the defense strategy, force structure, force modernization plans, infrastructure, and other elements of the defense program and policies with a view toward determining and expressing the defense strategy of the United States and establishing a revised defense program through 2005. The Act also established a National Defense Panel to assess the Quadrennial Defense Review and to conduct an independent, nonpartisan review of the strategy, force structure, and funding required to meet anticipated threats to the national security of the United States through 2010 and beyond.

(7) The Quadrennial Defense Review, completed by the Secretary of Defense in May 1997, defined the defense strategy in terms of “Shape, Respond, and Prepare Now”. The Quadrennial Defense Review placed greater emphasis on the need to pre-
pare now for an uncertain future by exploiting the revolution in technology and transforming the force toward Joint Vision 2010. It concluded that our future force will be different in character than our current force.

(8) The National Defense Panel Report, published in December 1997, concluded that “the Department of Defense should accord the highest priority to executing a transformation strategy for the United States military, starting now.” The panel recommended the establishment of a Joint Forces Command with the responsibility to be the joint force integrator and provider and the responsibility for driving the process for transforming United States forces, including the conduct of joint experimentation, and to have the budget for carrying out those responsibilities.

(9) The assessments of both the Quadrennial Defense Review and the National Defense Panel provide Congress with a compelling argument that the future security environment and the military challenges to be faced by the United States in the future will be fundamentally different than the current environment and challenges. The assessments also reinforce the foundational premise of the Gold-
water-Nichols Department of Defense Reorganization Act of 1986 that warfare, in all of its varieties, will be joint warfare requiring the execution of developed joint operational concepts.

(10) A process of joint experimentation is necessary for—

(A) integrating advances in technology with changes in the organizational structure of the Armed Forces and the development of joint operational concepts that will be effective against national security threats anticipated for the future; and

(B) identifying and assessing the interdependent aspects of joint warfare that are key for transforming the conduct of military operations by the United States to meet those anticipated threats successfully.

(11) It is critical for future readiness that the Armed Forces of the United States innovatively investigate and test technologies, forces, and joint operational concepts in simulations, wargames, and virtual settings, as well as in field environments under realistic conditions against the full range of future challenges. It is essential that an energetic and innovative organization be established and em-
powered to design and implement a process of joint experimentation to develop and validate new joint warfighting concepts, along with experimentation by the Armed Forces, that is directed at transforming the Armed Forces to meet the threats to the national security that are anticipated for the early 21st century. That process will drive changes in doctrine, organization, training and education, materiel, leadership, and personnel.

(12) The Department of Defense is committed to conducting aggressive experimentation as a key component of its transformation strategy.

(13) The competition of ideas is critical for achieving effective transformation. Experimentation by each of the Armed Forces has been, and will continue to be, a vital aspect of the pursuit of effective transformation. Joint experimentation leverages the effectiveness of each of the Armed Forces and the Defense Agencies.

SEC. 1202. SENSE OF CONGRESS.

(a) DESIGNATION OF COMMANDER TO HAVE JOINT WARFIGHTING EXPERIMENTATION MISSION.—It is the sense of Congress that Congress supports the initiative of the Secretary of Defense and the Chairman of the Joint Chiefs of Staff to designate a commander of a combatant
command to have the mission for joint warfighting experimentation, consistent with the understanding of Congress that the Chairman of the Joint Chiefs of Staff will assign the designated commander the tasks to develop and validate new joint warfighting concepts and capabilities, and to determine the implications, for doctrine, organization, training and education, materiel, leadership, and personnel, of the Department of Defense strategy for transforming the Armed Forces to meet the national security threats of the future.

(b) Resources of Commander.—It is, further, the sense of Congress that the commander designated to have the joint warfighting experimentation mission should—

(1) have sufficient freedom of action and authority over the necessary forces to successfully establish and conduct the process of joint warfighting experimentation;

(2) be provided resources adequate for the joint warfighting experimentation process; and

(3) have authority over the use of the resources for the planning, preparation, conduct, and assessment of joint warfighting experimentation.

(e) Authority and Responsibilities of Commander.—It is, further, the sense of Congress that, for the conduct of joint warfighting experimentation to be ef-
fective, it is necessary that the commander designated to have the joint warfighting experimentation mission also have the authority and responsibility for the following:

(1) Developing and implementing a process of joint experimentation to formulate and validate concepts critical for joint warfighting in the future, including (in such process) analyses, simulations, wargames, information superiority and other experiments, advanced concept technology demonstrations, and joint exercises conducted in virtual and actual field environments.

(2) Planning, preparing, and conducting the program of joint warfighting experimentation.

(3) Assessing the effectiveness of organizational structures, operational concepts, and technologies employed in joint experimentation, investigating opportunities for coordinating the evolution of the organizational structure of the Armed Forces compatibly with the concurrent evolution of advanced technologies, and investigating new concepts for transforming joint warfighting capabilities to meet the operational challenges expected to be encountered by the Armed Forces in the early 21st century.

(4) Coordinating with each of the Armed Forces and the Defense Agencies regarding the de-
development of the equipment (including surrogate or real technologies, platforms, and systems) necessary for the conduct of joint experimentation, or, if necessary, developing such equipment directly.

(5) Coordinating with each of the Armed Forces and the Defense Agencies regarding the acquisition of the materiel, supplies, services, and surrogate or real technology resources necessary for the conduct of joint experimentation, or, if necessary, acquiring such items and services directly.

(6) Developing scenarios and measures of effectiveness for joint experimentation.

(7) Conducting so-called “red team” vulnerability assessments as part of joint experimentation.

(8) Assessing the interoperability of equipment and forces.

(9) Providing the Secretary of Defense and the Chairman of the Joint Chiefs of Staff with the commander’s recommendations (developed on the basis of joint experimentation) for reducing unnecessary redundancy of equipment and forces.

(10) Providing the Secretary of Defense and the Chairman of the Joint Chiefs of Staff with the commander’s recommendations (developed on the basis of joint experimentation) regarding synchroni-
zation of the fielding of advanced technologies among the Armed Forces to enable the development and execution of joint operational concepts.

(11) Submitting, reviewing, and making recommendations (in conjunction with the joint experimentation and evaluation process) to the Chairman of the Joint Chiefs of Staff on mission needs statements and operational requirements documents.

(12) Exploring new operational concepts (including those developed within the Office of the Secretary of Defense and Defense Agencies, other unified commands, the Armed Forces, and the Joint Staff), and integrating and testing in joint experimentation the systems and concepts that result from warfighting experimentation by the Armed Forces and the Defense Agencies.

(13) Developing, planning, refining, assessing, and recommending to the Secretary of Defense and the Chairman of the Joint Chiefs of Staff the most promising joint concepts and capabilities for experimentation and assessment.

(14) Assisting the Secretary of Defense and the Chairman of the Joint Chiefs of Staff to prioritize joint requirements and acquisition programs on the basis of joint warfighting experimentation.
(d) CONTINUED EXPERIMENTATION BY OTHER DEFENSE ORGANIZATIONS.—It is, further, the sense of Congress that—

(1) the Armed Forces are expected to continue to develop concepts and conduct intraservice and multiservice warfighting experimentation within their core competencies; and

(2) the commander of United States Special Operations Command is expected to continue to develop concepts and conduct joint experimentation associated with special operations forces.

(e) CONGRESSIONAL REVIEW.—It is, further, the sense of Congress that—

(1) Congress will carefully review the initial report and annual reports on joint warfighting experimentation required under section 1203 to determine the adequacy of the scope and pace of the transformation of the Armed Forces to meet future challenges to the national security; and

(2) if the progress is inadequate, Congress will consider legislation to establish a unified combatant command with the mission, forces, budget, responsibilities, and authority described in the preceding provisions of this section.
SEC. 1203. REPORTS ON JOINT WARFIGHTING EXPERIMENTATION.

(a) INITIAL REPORT.—(1) On such schedule as the Secretary of Defense shall direct, the commander of the combatant command assigned the mission for joint warfighting experimentation shall submit to the Secretary an initial report on the implementation of joint experimentation. The report shall include proposed legislation for carrying out the measures recommended therein.

SEC. 2836. REPORT ON LEASING AND OTHER ALTERNATIVE USES OF NON-EXCESS MILITARY PROPERTY.

(a) FINDINGS.—Congress makes the following findings:

(1) The Secretary of Defense, with the support of the chiefs of staff of the Armed Forces, is calling for the closure of additional military installations in the United States as a means of eliminating excess capacity in such installations.

(2) Excess capacity in Department of Defense installations is a valuable asset, and the utilization of such capacity presents a potential economic benefit for the Department and the Nation.
(3) The experiences of the Department have demonstrated that the military departments and private businesses can carry out activities at the same military installation simultaneously.

(4) Section 2667 of title 10, United States Code, authorizes the Secretaries of the military departments to lease, upon terms that promote the national defense or are in the public interest, real property that is—

(A) under the control of such departments;

(B) not for the time needed for public use; and

(C) not excess to the requirements of the United States.

(b) REPORT.—Not later than February 1, 1999, the Secretary shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report setting forth the following:

(7) An estimate of the amount of income that could accrue to the Department as a result of the enhanced authority proposed under paragraph (6) during the five-year period beginning on the effective date of such enhanced authority.

(8) A discussion of the extent to which any such income should be reserved for the use of the in-
installations exercising such authority and of the extent to which installations are likely to enter into such leases if they cannot retain such income.

“(1) the closure of any military installation at
which at least 225 civilian personnel are authorized
to be employed;

“(2) any realignment with respect to a military
installation referred to in paragraph (1) if such re-
alignment will result in an aggregate reduction in
the number of civilian personnel authorized to be
employed at such military installation during the fis-
cal year in which notice of such realignment is sub-
mitted to Congress under subsection (b) equal to or
greater than—

“(A) 750 such civilian personnel; or

“(B) the number equal to 40 percent of
the total number of civilian personnel author-
ized to be employed at such military installation
at the beginning of such fiscal year; or”.

(b) DEFINITIONS.—Subsection (e) of that section is
amended—

(1) in paragraph (3), by inserting “(including a
consolidation)” after “any action”; and

(2) by adding at the end the following:

“(5) The term ‘closure’ includes any action to
inactivate or abandon a military installation or to
transfer a military installation to caretaker status.”.
SEC. 2852. PROHIBITION ON CLOSURE OF A BASE WITHIN
FOUR YEARS AFTER A REALIGNMENT OF THE
BASE.

(a) Prohibition.—(1) Chapter 159 of title 10,
United States Code, is amended by inserting after section
2687 the following:

“§2688. Base closures and realignments: closure pro-
hibited within four years after realign-
ment in certain cases

“(a) Prohibition.—Notwithstanding any other pro-
vision of law, no action may be taken, and no funds appro-
priated or otherwise available to the Department of De-
fense may be obligated or expended, to effect or implement
the closure of a military installation within 4 years after
the completion of a realignment of the installation that,
alone or with other causes, reduced the number of civilian
personnel employed at that installation below 225.

“(b) Definitions.—In this section, the terms ‘mili-
tary installation’, ‘civilian personnel’, and ‘realignment’
have the meanings given such terms in section 2687(e)
of this title.”.

(2) The table of sections at the beginning of
such chapter is amended by inserting after the item
related to section 2687 the following:

“2688. Base closures and realignments: closure prohibited within four years
after realignment in certain cases.”.
(b) CONFORMING AMENDMENT.—Section 2687(a) of such title is amended by inserting “(other than section 2688 of this title)” after “Notwithstanding any other provision of law”.

SEC. 2853. SENSE OF THE SENATE ON FURTHER ROUNDS OF BASE CLOSURES.

(a) FINDINGS.—The Senate finds that:

(1) While the Department of Defense has proposed further rounds of base closures, there is no need to authorize in 1998 a new base closure commission that would not begin its work until three years from now, in 2001.

(2) While the Department of Defense has submitted a report to the Congress in response to section 2824 of the National Defense Authorization Act for Fiscal Year 1998, that report—

(A) based its estimates of the costs and savings of previous base closure rounds on data that the General Accounting Office has described as “inconsistent”, “unreliable” and “incomplete”; and

(B) failed to demonstrate that the Defense Department is working effectively to improve its ability to track base closure costs and savings
resulting from the 1993 and 1995 base closure rounds, which are ongoing;

(C) modeled the savings to be achieved as a result of further base closure rounds on the 1993 and 1995 rounds, which are as yet incomplete and on which the Department’s information is faulty; and

(D) projected that base closure rounds in 2001 and 2005 would not produce substantial savings until 2008, a decade after the Federal Government will have achieved unified budget balance, and 5 years beyond the planning period for the current congressional budget and Future Years Defense Plan.

(3) Section 2824 required that the Congressional Budget Office and the General Accounting Office review the Defense Department’s report, and—

(A) the General Accounting Office stated on May 1 that “we are now conducting our analysis to be able to report any limitations that may exist in the required level of detail.

. . . [W]e are awaiting some supporting documentation from the military services to help us finish assessing the report’s information.”;}
(B) the Congressional Budget Office stated on May 1 that its review is ongoing, and that “it is important that CBO take the time necessary to provide a thoughtful and accurate evaluation of DOD’s report, rather than issue a preliminary and potentially inaccurate assessment.”.

(4) The Congressional Budget Office recommended that “The Congress could consider authorizing an additional round of base closures if the Department of Defense believes that there is a surplus of military capacity after all rounds of BRAC have been carried out. That consideration, however, should follow an interval during which DOD and independent analysts examine the actual impact of the measures that have been taken thus far.”.

(b) Sense of the Congress.—It is the sense of the Congress that—

(1) Congress should not authorize further rounds of base closures and realignments until all actions authorized by the Defense Base Closure and Realignment Act of 1990 are completed; and

(2) the Department of Defense should submit forthwith to the Congress the report required by section 2815 of Public Law 103–337, analyzing the ef-
fects of base closures and realignments on the ability of the Armed Forces to remobilize, describing the military construction projects needed to facilitate such remobilization, and discussing the assets, such as air space, that would be difficult to reacquire in the event of such remobilization.

TITLE XXXVII—FORCED OR INDENTURED LABOR

SEC. 3701. FINDINGS.

Congress makes the following findings:

(1) The United States Customs Service has identified goods, wares, articles, and merchandise mined, produced, or manufactured under conditions of convict labor, forced labor, or indentured labor, in several countries.

(2) The United States Customs Service has made limited attempts to prohibit the import of products made with forced labor, resulting in only a
few seizures, detention orders, fines, and criminal
prosecutions.

(3) The United States Customs Service has
taken 21 formal administrative actions in the form
of detention orders against different products desti-
tined for the United States market, found to have
been made with forced labor, including products
from the People’s Republic of China.

(4) However, the United States Customs Serv-
ice has never formally investigated or pursued en-
forcement with respect to attempts to import prod-
ucts made with forced or indentured child labor.

(5) The United States Customs Service can use
additional resources and tools to obtain the timely
and in-depth verification necessary to identify and
interdict products made with forced labor or inden-
tured labor, including forced or indentured child
labor, that are destined for the United States mar-
ket.

(6) The International Labor Organization esti-
mates that approximately 250,000,000 children be-
tween the ages of 5 and 14 are working in develop-
ing countries, including millions of children in bond-
age or otherwise forced to work for little or no pay.

SEC. 3702. AUTHORIZATION FOR ADDITIONAL CUSTOMS PERSONNEL TO MONITOR THE IMPORTATION OF PRODUCTS MADE WITH FORCED OR INDENTURED LABOR.

There are authorized to be appropriated $2,000,000 for fiscal year 1999 to the United States Customs Service to monitor the importation of products made with forced labor or indentured labor, including forced or indentured child labor, the importation of which violates section 307 of the Tariff Act of 1930 or section 1761 of title 18, United States Code.

(A) destined for the United States market,

(B) in violation of section 307 of the Tariff Act of 1930 or section 1761 of title 18, United States Code, and

(C) seized by the United States Customs Service.

(3) The progress of the United States Customs Service in identifying and interdicting products made with forced labor or indentured labor, including forced or indentured child labor that are destined for the United States market.

SEC. 3704. RENEGOTIATING MEMORANDA OF UNDERSTANDING ON FORCED LABOR.

It is the sense of Congress that the President should determine whether any country with which the United
States has a memorandum of understanding with respect to reciprocal trade that involves goods made with forced labor or indentured labor, including forced or indentured child labor is frustrating implementation of the memorandum. If an affirmative determination be made, the President should immediately commence negotiations to replace the current memorandum of understanding with one providing for effective procedures for the monitoring of forced labor or indentured labor, including forced or indentured child labor. The memorandum of understanding should include improved procedures for requesting investigations of suspected work sites by international monitors.

(5) Enhanced broadcasting service to China and Tibet can efficiently be established through a combination of Radio Free Asia and Voice of America programming.

(6) Radio Free Asia and Voice of America, in working toward continuously broadcasting to the People’s Republic of China in multiple languages, have the capability to establish 24-hour-a-day Mandarin broadcasting to that nation by staggering the hours of Radio Free Asia and Voice of America.

This report shall include an analysis of Chinese government control of the media, the ability of independent journalists and news organizations to operate in China, and the results of any research conducted to quantify listenership.

(b) PURPOSES.—For purposes of this section, appropriate congressional committees are defined as the Senate Committees on Foreign Relations and Appropriations and the House Committees on International Relations and Appropriations.
