22 several countries.

23 (2) The United States Customs Service has  
24 made limited attempts to prohibit the import of  
25 products made with forced labor, resulting in only a

1 few seizures, detention orders, fines, and criminal  
2 prosecutions.

3 (3) The United States Customs Service has  
4 taken 21 formal administrative actions in the form  
5 of detention orders against different products des-  
6 tined for the United States market, found to have  
7 been made with forced labor, including products  
8 from the People's Republic of China.

9 (4) However, the United States Customs Serv-  
10 ice has never formally investigated or pursued en-  
11 forcement with respect to attempts to import prod-  
12 ucts made with forced or indentured child labor.

13 (5) The United States Customs Service can use  
14 additional resources and tools to obtain the timely  
15 and in-depth verification necessary to identify and  
16 interdict products made with forced labor or inden-  
17 tured labor, including forced or indentured child  
18 labor, that are destined for the United States mar-  
19 ket.

20 (6) The International Labor Organization esti-  
21 mates that approximately 250,000,000 children be-  
22 tween the ages of 5 and 14 are working in develop-  
23 ing countries, including millions of children in bond-  
24 age or otherwise forced to work for little or no pay.

1           (7) Congress has clearly indicated in Public  
2           Law 105–61, Treasury-Postal Service Appropria-  
3           tions, 1998, that forced or indentured child labor  
4           constitutes forced labor under section 307 of the  
5           Tariff Act of 1930 (19 U.S.C. 1307).

10          There are authorized to be appropriated \$2,000,000  
11          for fiscal year 1999 to the United States Customs Service  
12          to monitor the importation of products made with forced  
13          labor or indentured labor, including forced or indentured  
14          child labor, the importation of which violates section 307  
15          of the Tariff Act of 1930 or section 1761 of title 18,  
16          United States Code.

18                           **OR INDENTURED LABOR PRODUCTS DES-**

20          (a) REPORT TO CONGRESS.—Not later than 1 year  
21          after the date of enactment of this Act, the Commissioner  
22          of Customs shall prepare and transmit to Congress a re-  
23          port on products made with forced labor or indentured  
24          labor, including forced or indentured child labor that are  
25          destined for the United States market.

1 (b) CONTENTS OF REPORT.—The report under sub-  
2 section (a) shall include information concerning the follow-  
3 ing:

4 (1) The extent of the use of forced labor or in-  
5 dentured labor, including forced or indentured child  
6 labor in manufacturing or mining products destined  
7 for the United States market.

8 (2) The volume of products made or mined with  
9 forced labor or indentured labor, including forced or  
10 indentured child labor that is—

11 (A) destined for the United States market,

12 (B) in violation of section 307 of the Tariff  
13 Act of 1930 or section 1761 of title 18, United  
14 States Code, and

15 (C) seized by the United States Customs  
16 Service.

17 (3) The progress of the United States Customs  
18 Service in identifying and interdicting products  
19 made with forced labor or indentured labor, includ-  
20 ing forced or indentured child labor that are des-  
21 tined for the United States market.

22 **SEC. 3704. RENEGOTIATING MEMORANDA OF UNDER-**  
23 **STANDING ON FORCED LABOR.**

24 It is the sense of Congress that the President should  
25 determine whether any country with which the United

1 States has a memorandum of understanding with respect  
2 to reciprocal trade that involves goods made with forced  
3 labor or indentured labor, including forced or indentured  
4 child labor is frustrating implementation of the memoran-  
5 dum. If an affirmative determination be made, the Presi-  
6 dent should immediately commence negotiations to replace  
7 the current memorandum of understanding with one pro-  
8 viding for effective procedures for the monitoring of forced  
9 labor or indentured labor, including forced or indentured  
10 child labor. The memorandum of understanding should in-  
11 clude improved procedures for requesting investigations of  
12 suspected work sites by international monitors.

14 The Congress makes the following findings:

15 (1) The Government of the People’s Republic of  
16 China systematically controls the flow of information  
17 to the Chinese people.

18 (2) The Government of the People’s Republic of  
19 China demonstrated that maintaining its monopoly  
20 on political power is a higher priority than economic  
21 development by announcing in January 1996 that its  
22 official news agency, Xinhua, will supervise wire  
23 services selling economic information, including Dow  
24 Jones-Telerate, Bloomberg, and Reuters Business,  
25 and in announcing in February 1996 the “Interim

1 Internet Management Rules”, which have the effect  
2 of censoring computer networks.

3 (3) Under the May 30, 1997, order of Premier  
4 Li Peng, all organizations that engage in business  
5 activities related to international computer net-  
6 working must now apply for a license, increasing  
7 still further government control over access to the  
8 Internet.

9 (4) Both Radio Free Asia and the Voice of  
10 America, as a surrogate for a free press in the Peo-  
11 ple’s Republic of China, provide an invaluable source  
12 of uncensored information to the Chinese people, in-  
13 cluding objective and authoritative news of in-coun-  
14 try and regional events, as well as accurate news  
15 about the United States and its policies.

16 (5) Enhanced broadcasting service to China and  
17 Tibet can efficiently be established through a com-  
18 bination of Radio Free Asia and Voice of America  
19 programming.

21 working toward continuously broadcasting to the  
22 People’s Republic of China in multiple languages,  
23 have the capability to establish 24-hour-a-day Man-  
24 darin broadcasting to that nation by staggering the  
25 hours of Radio Free Asia and Voice of America.
