JOINT EXPLANATORY STATEMENT

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4104), making appropriations for the Treasury Department, the United States Postal Service, the Executive Office of the President, and certain Independent Agencies, for the fiscal year ending September 30, 1999, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Treasury and General Government Appropriations Act, 1999, incorporates some of the language and allocations set forth in House Report 105-592 and Senate Report 105-251. The language in these reports should be complied with unless specifically addressed in the accompanying statement of managers.

Senate Amendment: The Senate deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

Throughout the accompanying explanatory statement, the managers refer to the Committee and the Committees on Appropriations. Unless otherwise noted, in both instances the managers are referring to the House Subcommittee on Treasury, Postal Service, and General Government and the Senate Subcommittee on Treasury and General Government.

REPROGRAMMING AND TRANSFER OF FUNDS GUIDELINES

Due to continuing issues associated with agency requests for reprogramming and transfer of funds and use of unobligated balances, the conferees have agreed to reprogramming guidelines included in House

Report 105-592. Those guidelines shall be complied with by all agencies funded by the Treasury and General Government Appropriations Act, 1999:

1. Except under extraordinary and emergency situations, the Committees on Appropriations will not consider requests for a reprogramming or a transfer of funds, or use of unobligated balances, which are submitted after the close of the third quarter of the fiscal year, June 30;

2. Clearly stated and detailed documentation presenting justification for the reprogramming, transfer, or use of unobligated balances shall accompany each request;

3. For agencies, departments, or offices receiving appropriations in excess of \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$500,000 or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

4. For agencies, departments, or offices receiving appropriations less than \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$50,000, or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

5. For any action where the cumulative effect of below threshold reprogramming actions, or past reprogramming and/or transfer actions added to the request, would exceed the dollar threshold mentioned above, a reprogramming shall be submitted;

6. For any action which would result in a major change to the program or item which is different than that presented to and approved by either of the Committees, or the Congress, a reprogramming shall be submitted;

7. For any action where funds earmarked by either of the Committees for a specific activity are proposed to be used for a different activity, a reprogramming shall be submitted; and,

8. For any action where funds earmarked by either of the Committees for a specific activity are in excess of the project or activity requirement, and are proposed to be used for a different activity, a reprogramming shall be submitted.

Additionally, each request shall include a declaration that, as of the date of the request, none of the funds included in the request have been obligated, and none will be obligated, until the Committees on Appropriations have approved the request.

TITLE I—DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES SALARIES AND EXPENSES

The conference agreement appropriates \$123,151,000 for Departmental Offices instead of \$122,889,000 as proposed by the House and \$120,671,000 as proposed by the Senate. The amount appropriated includes: \$3,704,000 for mandatory cost increases; an additional \$470,000 for the Office of Tax Policy; an additional \$255,000 for the Office of Economic Policy; an additional \$499,000 for International Affairs Policies and Programs; an additional \$801,000 for Enforcement Policies and Programs; an additional \$866,000 for the Office of Foreign Assets Control; an additional \$239,000 for Fiscal and Financial Policies and Programs; and an additional \$300,000 for Treasury-wide management policies and practices. The conferees are aware that additional funds in the amount of \$1,238,000 are required in fiscal year 1999 for Year 2000 compliance. The conference agreement also includes funding to allow the Department to

provide no more than \$500,000 in contract awards to the National Law Center for Inter-American Free Trade as proposed by the House.

The conferees have agreed to provide an additional \$1,200,000 within this account for the Under Secretary of Enforcement to continue the operations of the Office of Professional Responsibility, should he so desire, as proposed by the Senate.

The conference agreement includes language which provides that the Office of Foreign Assets Control shall be funded at no less than \$6,560,800 as proposed by the Senate instead of \$5,517,000 as proposed by the House. The conferees have included language authorizing the Department to charge both direct and indirect costs to the Office of Foreign Assets Control in the implementation of this floor.

The Senate bill included language in this and a number of other accounts which provides that funds appropriated in this Act may be used for Year 2000 computer conversion costs pending the availability of funding for that purpose in a separate appropriation. The conferees have deleted that language in each instance in which it occurs and have instead included a new general provision (Section 513) to permit the use of funds provided in this Act to initiate or continue projects or activities to the extent necessary to achieve Year 2000 computer conversion until such time as supplemental appropriations are provided for those activities.

The conference agreement deletes language proposed by the House which provides compensation for losses incurred due to the denial of entry into the United States of certain firearms. The conferees have included language in Title VI (Section 646) of the bill to provide for this relief through the use of the Judgement Fund, as proposed by the Senate.

TREASURY LAW ENFORCEMENT VEHICLES

No later than 90 days after enactment of this Act, the Department shall submit to the Committees on Appropriations directives to implement the management of law enforcement vehicle usage in the Department. These directives shall include: development of a Department-wide vehicle management system to ensure adequate oversight of vehicle usage; standards and procedures for full compliance with home-to-work regulations on vehicle use; verifiable determination that vehicle use throughout the Department is in support of law enforcement purposes only; and implementation of a log tracking system by activity and specific use of law enforcement vehicles.

UNDER SECRETARY FOR ENFORCEMENT

The conferees direct the Department of the Treasury to submit, with its fiscal year 2000 budget request, detailed budget justification materials for the Office of the Under Secretary for Enforcement.

OFFICE OF PROFESSIONAL RESPONSIBILITY

SALARIES AND EXPENSES

The conferees agree to provide no separate funding for the Office of Professional Responsibility (OPR) in fiscal year 1999 as proposed by the Senate, but instead have provided adequate funding within the Departmental Offices appropriations for the Under Secretary for Enforcement to continue the work of this office should he so desire. The conferees expect that the Department also will use approximately \$350,000 in reprogramming authority, the anticipated share of the unobligated balance of funds at the end of fiscal year 1998, to augment this appropriation.

In fiscal year 1998, the Under Secretary for Enforcement was charged with tasking OPR to conduct a comprehensive review of integ-

rity issues and other matters related to the potential vulnerability of the United States Customs Service to corruption, to include examination of charges of professional misconduct and corruption as well as analysis of the efficacy of departmental and bureau internal affairs systems. The conferees expect that this work will continue, and that it will be in conjunction with related efforts funded through the Customs Integrity Awareness Program.

AUTOMATION ENHANCEMENT

The conferees agree to provide \$28,690,000 for Automation Enhancement instead of \$31,190,000 as proposed by the House and \$28,990,000 as proposed by the Senate. The amount provided shall be transferred as follows:

Customs Service.—\$8,000,000 for the Automated Commercial Environment.

Bureau of Alcohol, Tobacco, and Firearms.—\$3,700,000 for a human resources system re-engineering pilot program.

Departmental Offices.—\$16,990,000, of which \$5,400,000 is for the International Trade Data System, of which \$6,577,000 is for Department-wide human resources re-engineering program management and implementation, of which \$3,813,000 is for Departmental Offices productivity enhancement, of which \$1,000,000 is for the Treasury Vehicle Management System, and of which \$200,000 is for Department-wide implementation of the Treasury Information System Architecture Framework.

The conferees agree that the funds provided shall remain available until September 30, 2000, as proposed by the House rather than remain available until expended as proposed by the Senate.

The conferees are aware that additional funds in the amount of \$2,762,000 are required in fiscal year 1999 for Year 2000 compliance.

AUTOMATED COMMERCIAL ENVIRONMENT

The conferees agree to provide \$8,000,000 for the Customs Service ACE project, with the proviso that \$6,000,000 shall not be available for obligation until the Treasury's Chief Information Officer, through the Treasury Investment Review Board, concurs on the plan and milestone schedule for the deployment of the system. Furthermore, \$6,000,000 shall not be obligated until the Commissioner of Customs provides to the Committees on Appropriations an Enterprise Information Systems Architecture (EISA) for Customs that covers all Customs' areas of business—not just trade compliance. For the EISA to be acceptable, it must comply with the Treasury Information Systems Architecture Framework, include measures to enforce compliance, and be approved by the Treasury Investment Review Board.

The conferees are pleased with the efforts made by the Treasury Department to exercise some management responsibility for the ACE project, which represents an enormous information technology investment for the Department and Customs. Clear benefits are already being seen in the quality of analysis applied to investment decisions, and coordination with other information technology projects such as the International Trade Data System (ITDS). The conferees support the continued exercise of strong oversight by the Treasury Department over this project.

FINANCIAL CRIMES ENFORCEMENT NETWORK

The conferees agree to provide \$24,000,000 as proposed by the House instead of \$23,670,000 as proposed by the Senate. In addition, the conferees agree that the funds shall be available with no earmark for the GATEWAY program, as had been proposed by the Senate.

TREASURY FORFEITURE FUND

The conferees expect that the super surplus for the Treasury Forfeiture Fund will

continue to be large in fiscal year 1999, and direct the Department to provide the Committees its plan for intended use of these resources in a timely fashion, as well as in its presentation of the fiscal year 2000 budget request.

The conferees support the use of the super surplus to further advance Treasury Department law enforcement programs, and acknowledge the Department's plan to use its surplus for a variety of activities. The conferees direct the Department to use \$11,012,000 as follows: \$5,512,000 for the construction of a P-3 hangar in Corpus Christi, Texas, for the United States Customs Service; \$4,000,000 for the CEASEFIRE/IBIS program, and \$1,500,000 for the Global Transpark Customs Information Project. The conferees also agree that super surplus funds may be used for replacement of law enforcement vehicles, instead of the prohibition proposed by the Senate.

VIOLENT CRIME REDUCTION PROGRAMS

The conferees agree to provide \$132,000,000 as proposed by the House and Senate. This amount is to be used as follows:

| Bureau of Alcohol, Tobacco and Firearms: GREAT administration/ training | \$3,000,000 |

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

The conferees agree to provide \$3,000,000 to ATF for the management of the GREAT program as proposed by the House rather than in the ATF Salaries and Expenses appropria-

tion as proposed by the Senate. The funding proposed by the Senate for laboratory and investigative support is funded under ATF's Salaries and Expenses appropriation.

GANG RESISTANCE EDUCATION AND TRAINING

The conferees agree to provide \$13,000,000 to ATF, instead of \$10,000,000 as proposed by the House and \$13,239,000 as proposed by the Senate for grants to local law enforcement organizations for the Gang Resistance Education and Training (GREAT) program. The GREAT program has been enthusiastically endorsed by communities in Colorado, North Carolina and Wisconsin. The conferees direct that qualified law enforcement and prevention organizations from these areas be funded under GREAT.

The conferees are aware of concerns about the lack of a long-term evaluation of the impact of this program. Therefore, the conferees urge ATF to contract with the National Academy of Sciences, Committee on Law and Justice, to conduct an independent evaluation of the GREAT program.

CUSTOMS SERVICE

The conferees agree to provide \$65,472,000, instead of \$66,472,000 as proposed by the House and \$54,000,000 as proposed by the Senate. Within these funds, the conferees include \$54,000,000 for narcotics detection technology, \$9,500,000 for passenger processing, \$972,000 for canopy construction, and \$1,000,000 for additional technologies associated with the child pornography cyber-smuggling initiative. The conferees agree that \$2,400,000 of the Customs Salaries and Expenses account should be used for the cyber-smuggling initiative, as proposed by the Senate.

SECRET SERVICE

The conferees agree to provide \$22,628,000, instead of \$14,528,000 as proposed by the House and \$15,403,000 as proposed by the Senate. Within these funds, the conferees include \$5,000,000 for counterfeiting investigations, \$7,732,000 for campaign protection activities, \$6,700,000 for vehicle replacement, and \$3,196,000 for forensic and related support of investigations of missing and exploited children. Of the amounts provided for missing and exploited children, the conferees agree to provide \$1,196,000 for the continued operations of the Child Exploitation Unit at the National Center for Missing and Exploited Children.

FINANCIAL CRIMES ENFORCEMENT NETWORK

The conferees agree to provide \$1,400,000 for FinCEN as proposed by the Senate, instead of no funding as proposed by the House. Within these funds, the conferees include \$800,000 for cyberpayment studies; \$300,000 for Suspicious Activity Report analysis; \$200,000 for training and support for State and local GATEWAY participation; and \$100,000 for money laundering regulations.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

The conferees agree to provide no VCRTF funding for FLETC as proposed by the House, instead of \$1,158,000 as proposed by the Senate. The affected programs—rural law enforcement training and equipment replacement—are funded in FLETC's Salaries and Expenses appropriation.

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The conferees agree to provide \$24,000,000 for ICDE as proposed by the House, instead of \$45,000,000 as proposed by the Senate. An additional \$51,900,000 is provided in the Interagency Law Enforcement account. The total of \$75,900,000 fully funds the President's request.

OFFICE OF NATIONAL DRUG CONTROL POLICY

The conferees agree to provide \$2,500,000 for ONDCP, instead of \$14,000,000 as proposed by

the House and no funding as proposed by the Senate. \$1,000,000 of this funding would cover the costs of continuing support for Model State Drug Law Conferences, as proposed by the House. \$13,000,000 proposed by the House for continued funding for the technology transfer program run by the Counterdrug Technology Assessment Center will instead be funded in the ONDCP Salaries and Expenses account, as proposed by the Senate.

HIGH INTENSITY DRUG TRAFFICKING AREAS

The conferees agree to provide \$1,500,000 in additional funding for the Milwaukee, Wisconsin HIDTA.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

The conferees agree to provide \$71,923,000 as proposed by the House instead of \$66,251,000 as proposed by the Senate, including up to \$13,843,000 to be used for materials and support costs. The conferees agree to language proposed by the Senate to permit funding for travel expenses of non-Federal personnel to attend course development meetings and training sponsored by the Center. The conferees also agree to maintain existing statutory language affecting the authority to provide funding for student athletics and student interns, as proposed by the Senate.

GREAT TRAINING

The conferees agree to include new language, as proposed by the Senate, to authorize the Center to provide training for the Gang Resistance Education and Training program to Federal and non-Federal personnel at any facility in partnership with ATF.

FIREARMS TRAINING SYSTEMS

The conferees direct the Federal Law Enforcement Training Center, in consultation with their interested client law enforcement agencies, to examine and evaluate all available firearms training technologies for systems providing the greatest cost effective multi-application benefit for firearms training of law enforcement personnel. The conferees are aware of current technologies, such as the BEAMHIT targeting system and plastic cased ammunition, which appear to offer cost benefits and systems flexibility for multiple training activities and greater sensitivity for environmental protection.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

The conferees agree to provide \$34,760,000, instead of \$28,360,000 as proposed by the House and \$15,360,000 as proposed by the Senate. This amount includes \$6,400,000 for construction of new facilities at Artesia, New Mexico, required to meet the Center's basic training requirements.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The conferees agree to provide \$51,900,000 for ICDE as proposed by the House. An additional \$24,000,000 is provided in the Violent Crime Reduction Programs account. The total of \$75,900,000 fully funds the President's request.

FINANCIAL MANAGEMENT SERVICE SALARIES AND EXPENSES

The conference agreement appropriates \$196,490,000 for the Financial Management Service (FMS) as proposed by the Senate instead of \$198,510,000 as proposed by the House.

The conferees have agreed with the proposal of the Senate on the funding level for the FMS, which reflects a reduction of \$6,000,000 for Year 2000 conversion costs which will be available for FMS from a separate appropriation. The conferees received

conflicting information from the Department of the Treasury about what the FMS's needs are for this purpose. Therefore, the conferees have assumed the higher number. The conferees understand and fully appreciate the need for FMS equipment to be Year 2000 compliant and note that the Department does have authority to transfer funding to FMS from other accounts within the Department under Section 114 of this Act should that become necessary.

The conference agreement deletes language proposed by the Senate delaying the availability of \$4,500,000 for postage costs until September 30, 1999, and language proposed by the Senate stating that funds shall continue to be provided to the United States Postal Service for postage due.

DEBT COLLECTION IMPROVEMENT ACCOUNT

The conferees have agreed to delete funding for the Debt Collection Improvement Account proposed by the Senate. The House bill contained no similar provision.

FEDERAL FINANCING BANK

The conference agreement provides \$3,317,960,000 for the liquidation of debts by the Federal Financing Bank instead of \$3,317,690,000 as proposed by the Senate. The House bill contained no similar provision.

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS SALARIES AND EXPENSES

The conferees agree to provide \$541,574,000, instead of \$530,624,000 as proposed by the House and \$529,489,000 as proposed by the Senate. This includes \$2,000,000 for the Violent Crime Coordinators program and \$4,500,000 for expansion of the National Tracing Center, as proposed by the Senate. The conferees agree that \$2,206,000 of this funding will not be available for obligation until September 30, 1999, as proposed by the House.

The conferees are aware that additional funds in the amount of \$5,000,000 are required in fiscal year 1999 for Year 2000 compliance.

The conferees agree to increase the limit for purchase of police-type vehicles to 812, as proposed by the House. The conferees direct the Under Secretary for Enforcement to exercise strong oversight with regard to any additional purchases in keeping with Department-wide efforts (addressed under Departmental Offices, above) to manage the use, allocation and acquisition of law enforcement vehicles. While neither the House nor Senate provided funding for this purpose, the conferees agree to provide \$3,700,000 for vehicle replacement as the Administration had requested.

The conferees agree to authorize up to \$15,000 for official reception and representation expenses, instead of \$20,000 as proposed by the House and \$12,500 proposed by the Senate.

The conferees agree to retain the limitation of \$1,000,000 in authority to fund the equipping of vessels, vehicles or aircraft available for official use by a State or local law enforcement agency for use in joint law enforcement operations with ATF and for the payment of overtime salaries, travel, fuel and other costs for State and local law enforcement personnel, including sworn officers and support personnel, as proposed by the House. The conferees note that, while this maintains a limitation, unlike the Senate proposal, it allows such funding to be used for law enforcement operations other than drug-related ones, and clarifies that it encompasses support personnel as well as sworn law enforcement officers.

The conferees agree that per diem and/or subsistence allowances may be paid to employees for extensive overtime required when an employee is assigned to a National Response Team during the investigation of a bombing or arson incident, as proposed by

the Senate, rather than simply for a major investigative assignment, as proposed by the House.

YOUTH CRIME GUN INTERDICTION INITIATIVE

The conferees strongly support ATF's efforts to stop illegal trafficking of crime weapons to young people and its statistical analysis in "The Crime Gun Trace Analysis Reports: The Illegal Youth Firearms Markets in 17 Communities", published in July 1997. However, the conferees believe that the proposed increase in funding must be supported by evidence of a significant reduction in youth crime, gun trafficking and availability. The conferees would like to see additional evidence linking the Youth Crime Gun Interdiction Initiative (YCGII) to a corresponding decrease in gun trafficking among youths and minors. Therefore, the conferees direct ATF to report no later than February 1, 1999, on the performance of YCGII.

The conferees further believe that an investment in experienced trafficking agents to conduct investigations arising out of leads obtained through this regional initiative is likely to have a significant impact on the number of prosecutions for illegal firearms trafficking. As a result, the conferees direct that, of the \$27,000,000 to be provided for YCGII efforts, \$16,000,000 be used to hire 81 experienced trafficking agents to expand the YCGII efforts in the 27 pilot cities. As part of the expansion, the conferees recommend that not less than \$2,400,000 be used for the addition of 12 experienced trafficking agents, including 3 in Milwaukee, Wisconsin, to implement a multifaceted regional enforcement strategy within the Midwest region. The conferees request that ATF give strong consideration to Aurora, CO, Denver, CO, and Omaha, NE, as it determines new locations for YCGII.

CEASEFIRE

The conferees agree to provide \$2,000,000 for continued expansion of the CEASEFIRE/IBIS program, and expect that this will be used to meet requests for new equipment and related installation costs. The conferees also direct the Secretary of the Treasury to provide \$4,000,000 to ATF from the Treasury Forfeiture Fund to allow ATF to provide CEASEFIRE technology to eligible State and local law enforcement organizations who have requested this equipment.

COLLECTION AND MAINTENANCE OF FEDERAL FIREARMS LICENSEE RECORDS

The conferees agree that there does not appear to be a written policy regarding the collection and maintenance of records on the acquisition and disposition of firearms by Federal firearms licensees for use in criminal or civil enforcement or firearms trace systems, in particular with regard to the length of time such records are kept. Therefore, the conferees direct ATF to develop such a written policy and provide a copy of that written policy to the Committees on Appropriations no later than March 31, 1999. This is in lieu of the direction by the House to provide the House Committee with a report on efforts to improve its practices within 90 days after enactment of this bill.

CONTRABAND CIGARETTES

The conferees direct ATF to continue to fully fund its investigations of diversion and trafficking of contraband cigarettes, particularly on Indian lands. The conferees are pleased to see that recent investigations have borne fruit in a number of arrests in Oklahoma and Kansas. The conferees understand that the current investigation in Oklahoma and Kansas is estimated to cost up to \$2,000,000 and that nationwide investigation will cost approximately \$8,000,000.

UNITED STATES CUSTOMS SERVICE

SALARIES AND EXPENSES

The conferees agree to provide \$1,642,565,000 instead of \$1,638,065,000 as proposed by the House and \$1,630,273,000 as proposed by the Senate. \$9,500,000 is delayed for obligation, instead of the delays proposed by the House and the Senate.

The conferees agree to restrict purchase of vehicles to 550 for replacement only, as proposed by the House, rather than 985, as proposed by the Senate. The conferees direct the Under Secretary for Enforcement to exercise strong oversight over any purchases of new vehicles in keeping with Department-wide efforts (addressed under Departmental Offices, above) to manage the use, allocation and acquisition of law enforcement vehicles. The conferees also agree that \$500,000 of the appropriation should be used to fund expansion of services at the Vermont World Trade Office, as proposed by the Senate. The conferees also agree to increase the limitation on representation funding to \$40,000, instead of \$30,000 as proposed by the House and Senate.

The conferees agree to provide \$2,500,000 to remain available until expended for the costs of relocation of the New Orleans Air Branch from Belle Chase, Louisiana, to Hammond, Louisiana.

CUSTOMS INTEGRITY AWARENESS PROGRAM

The conferees agree to provide \$6,000,000 to the Customs Service, fully funding the new Customs Integrity Awareness Program (CIAP), as proposed by the House, instead of \$4,200,000 as proposed by the Senate. The conferees direct the Secretary of the Treasury to be fully engaged in CIAP, providing necessary oversight and assistance to the Customs Service Office of Internal Affairs in order to achieve program goals.

CHILD PORNOGRAPHY

The conferees strongly support Customs leadership in stopping the vile traffic in child pornography and are pleased with its recent successful takedown of a major international pornography organization. To continue this success, the conferees agree to set aside \$2,400,000 of the Customs appropriation to double the staffing and resources for the child pornography cyber-smuggling initiative, as proposed by the Senate, instead of \$2,000,000 proposed by the House to be funded through the Violent Crime Reduction Trust Fund. In addition, the conferees agree to include \$1,000,000 in the Violent Crime Reduction Trust Fund for technology support for this initiative.

CUSTOMS INSPECTION SERVICES FOR INTERNATIONAL AIR CARGO

The conferees are concerned about the availability of Customs Service personnel to provide inspection services for airports that are seeing increased traffic or project such increases as part of regional development patterns. In many locations Customs has been asked to initiate or expand the level and availability of such services. The conferees understand that decisions to allocate inspection personnel must be based on availability of staff and funding, and should also be a function of the level of current or expected traffic, as well as concerns about enforcing trade laws and countering smuggling threats. At the same time, the conferees recognize that some airports, such as Dulles International Airport, Miami International Airport, and Fort Lauderdale International Airport, are experiencing growth and may have good cases for initiating or increasing cargo traffic operations, which are dependent on the availability of specific Customs inspection services. The conferees therefore urge the Customs Service, as it undertakes to establish a comprehensive model for assessing and allocating its inspection and investigative staff, to work closely with the

airport authorities and the trade community to ensure that it will meet requirements for new and expanded service. The aim of such a process should be allocation of staff and resources that is in the best interest of regional economic interests, trade, and the mission of the Customs Service.

OPERATIONS, MAINTENANCE AND PROCUREMENT, AIR AND MARINE INTERDICTION PROGRAMS

The conferees agree to provide \$113,688,000, instead of \$100,688,000 as proposed by the House and \$113,488,000 as proposed by the Senate. No funding for this account would be delayed, as had been proposed by the Senate, and there is no earmark for activities in South Florida and the Caribbean, as had been proposed by the Senate. This number includes an additional \$1,000,000 for increased support for operations and upgrades for equipment for the marine enforcement program and \$14,200,000 for Black Hawk helicopter program support.

BLACK HAWK HELICOPTERS

The conferees have included \$14,200,000 to restore three off line Black Hawk helicopters to an operational readiness condition and provide for increased operation and maintenance requirements for Customs' helicopter component. The conferees understand that this funding will permit Customs to increase Black Hawk flying hours from 18 to 30 hours per month. The conferees direct the Customs Service to maximize the mission operability of all sixteen Black Hawk helicopters assigned to the Air Interdiction Program.

CUSTOMS MARINE PROGRAM

The conferees include an additional \$1,000,000 to augment the \$5,200,000 requested for the marine program.

CUSTOMS AIR AND MARINE INTERDICTION PROGRAMS

The conferees continue to be impressed with the successes associated with the Customs Air and Marine Interdiction programs and are aware of the growing operational commitments associated with this success. The conferees encourage the Customs Service to examine the benefits of a consolidated air maintenance system and take actions to improve operational coordination of its air assets to meet our national drug enforcement priorities. The conferees, in the interest of maintaining viable and effective air and marine interdiction programs, direct the Customs Service to develop two comprehensive modernization plans for the air interdiction and marine enforcement programs, respectively. These plans shall be submitted with the President's fiscal year 2000 budget and should include the projected lifespans and project a replacement schedule, as well as the current status, of each aircraft or vessel; associated operations and maintenance activities for these craft; and any costs for fleet extension or modernization. These modernization plans should be living documents that the Customs Service continually reevaluates and utilizes in its effort to maximize its operational effectiveness.

SPECIAL OPERATIONS

The conferees agree that the special operations requirements of the Customs Service Air and Marine Interdiction Programs demand special tactical and logistical operations considerations due to the high threat nature of these activities. The conferees direct the Customs Service to review its utilization of these special operations assets with the goal of improving management, coordination, training and utilization of equipment and personnel. The Customs Service should consider all options to achieve the greatest efficiency and productivity for our coastal and border interdiction efforts.

BUREAU OF ENGRAVING AND PRINTING

DOLLAR BILL REDESIGN

To combat international counterfeiting threats to the United States, the Department of the Treasury is continuing to redesign Federal Reserve Notes. By the end of 1999, newly designed \$100, \$50, and \$20 Federal Reserve Notes will be in circulation.

The conferees remain concerned about the cost associated with producing special anti-counterfeiting properties for the estimated 6 billion circulating \$1 Federal Reserve Notes. As a result, the conferees do not believe the Bureau of Engraving and Printing should undertake cost prohibitive anti-counterfeiting changes to the \$1 note. However, the conferees do believe it is important to update the currency, such as making minor modifications to assist the visually impaired.

Therefore, the conferees direct the Department of the Treasury and the Bureau of Engraving and Printing not to pursue redesign of the \$1 Federal Reserve Note to combat international counterfeiting threats, but to only make minor design enhancements to the \$1 note for the visually impaired and elderly population, provided it has no effect on the use of \$1 Federal Reserve Notes with existing bill accepting machinery.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

The conference agreement appropriates \$172,100,000 for the Bureau of the Public Debt as proposed by the House and the Senate.

The conference agreement also provides that \$2,000,000 of the funds provided shall be available until September 30, 2001, for information systems modernization initiatives as proposed by the House instead of \$1,000,000 as proposed by the Senate.

The conferees are aware that additional funds in the amount of \$1,000,000 are required in fiscal year 1999 for Year 2000 compliance.

INTERNAL REVENUE SERVICE

PROCESSING, ASSISTANCE, AND MANAGEMENT

The conference agreement appropriates \$3,086,208,000 for Processing, Assistance, and Management instead of \$3,025,013,000 as proposed by the House and \$3,077,353,000 as proposed by the Senate. The amount provided includes \$90,650,000 for mandatory cost increases and \$70,279,000 for base realignments from the Tax Law Enforcement account. The conferees have agreed not to transfer funding for the TIMIS personnel/payroll system from the Information Systems appropriation to this account as proposed by the Senate.

The budget request for Processing, Assistance, and Management included \$58,325,000 for customer service initiatives. Funding for these initiatives has been included in the Information Systems account as proposed by the House. The Senate had proposed to provide \$18,145,000 for customer service initiatives in this account.

The conferees want to express strong support for the Commissioner's proposal for organizational modernization. The recently enacted Internal Revenue Service Restructuring and Reform Act of 1998 will allow the Commissioner to make significant operational improvements through organizational modernization and reorganization. Therefore, the conference agreement also includes \$25,000,000 for organizational modernization and restructuring of the Internal Revenue Service, the total amount requested by the Administration for that purpose. However, because the restructuring legislation has only recently been enacted and the Commissioner has not yet been able to provide a detailed plan and cost estimate for the restructuring effort, the conferees have included language in the bill which delays these funds for obligation until September 30, 1999.

The conferees have also provided \$2,000,000 for low income taxpayer clinics. These funds will be used to award matching grants to develop, expand, or continue qualifying low income taxpayer clinics as authorized in Section 3601 of the Internal Revenue Service Restructuring and Reform Act of 1998.

The conference agreement includes language proposed by the Senate delaying the availability of \$105,000,000 for postage costs until September 30, 1999, and language proposed by the Senate stating that funds shall continue to be provided to the United States Postal Service for postage due.

TAXPAYER EDUCATION

The conferees agree that the Internal Revenue Service needs to be more proactive in educating our citizens. Therefore, the conferees believe that the IRS should consider the feasibility of a taxpayer education initiative which encourages IRS employees to visit schools to talk about the history of our tax system as well as taxpayer rights and responsibilities. Further, the conferees believe that the IRS should provide no less than \$750,000 to create an educational program, such as the project currently under development at the University of Florida, covering matters of current interest to those involved in administering, advising, teaching, and studying the technical aspects of Federal taxation. Therefore, the conferees request that the IRS provide an analysis of these proposals, and steps they would take to implement these proposals, to the Committees on Appropriations by March 1, 1999.

TAX LAW ENFORCEMENT

The conference agreement appropriates \$3,164,189,000 for Tax Law Enforcement as proposed by the House instead of \$3,164,399,000 as proposed by the Senate. The conference agreement does not delay the availability of \$175,000,000 of the funds appropriated until September 30, 1999, proposed by the Senate.

The budget request included \$2,645,000 for customer service initiatives. Funding for these initiatives has been included in the Information Systems account as proposed by the House. The Senate had proposed to fund \$210,000 for customer service initiatives in this account.

TAX STANDARDS FOR TAX-EXEMPT HEALTH CLUBS

The conferees are aware that there has been significant growth in health club and fitness services. Intensified competition has developed a market for for-profit and tax-exempt health clubs. With certain tax-exempt organizations moving away from their core purpose, questions arise as to whether they are engaging in commercial competition with the for-profit sector. The conferees understand that the IRS has developed appropriate standards based on broad community accessibility for determining whether fitness activities are substantially related to the charitable mission of community organizations, such as YMCAs, YWCAs, and JCCs, organizations with a variety of programs based on community needs, including health and fitness for people of all ages, incomes, and abilities. Accordingly, changes in the standards that apply to such organizations are not the conferees' concern. Rather, the conferees direct that the IRS review the standards it applies to fitness activities operated by educational and health-care organizations. The conferees further request that the Department of the Treasury report to Congress by April 1, 1999, on the statutory and regulatory changes that may be needed to assure that the health and fitness activities of these organizations substantially further the purposes for which the organization was granted tax exemption and do not constitute unfair

competition with private sector, taxable organizations.

TRANSFER PRICING

The conferees are concerned about the Nation's loss of revenue as a result of foreign corporations employing transfer pricing. Transfer pricing, utilized by State Trading Enterprises, reallocates items of income and deduction among entities under common control. Reallocation of the income and deduction results in minimizing the U.S. tax of foreign corporations' U.S. affiliates. Since the foreign parent corporations do not normally do business in the United States, their income is completely free from U.S. tax.

To ensure the Internal Revenue Service is vigorously administering section 482 of the Internal Revenue Code, which empowers the Secretary of the Treasury to distribute, apportion, and allocate items of gross income and deduction between the parent corporations and their U.S. affiliates, the conferees direct the Internal Revenue Service to review and report to Congress, no later than six months after enactment of this Act, on the following issues: IRS's loss of revenue as a result of transfer pricing; detailed information on IRS's administration of section 482 to distribute, apportion, and allocate items of gross income and deduction; and recommendations on how to improve the collection of revenue from trading enterprises.

INFORMATION SYSTEMS

The conference agreement appropriates \$1,265,456,000 for Information Systems instead of \$1,224,032,000 as proposed by the House and \$1,329,486,000 as proposed by the Senate. The amount provided includes \$43,939,000 for mandatory cost increases; however, the conferees have agreed not to transfer funding for the TIMIS personnel payroll system from this appropriation to the Processing, Assistance, and Management account. In addition, the conference agreement includes an increase of \$32,900,000 for operational information systems as proposed by the House and the Senate and \$68,700,000 for the modernization program infrastructure as proposed by the Senate instead of \$34,350,000 as proposed by the House.

The conferees have agreed to include language in the bill which provides that \$103,000,000 of the funds appropriated in this account shall only be available for improvements to customer service. This is the full amount requested by the Administration for customer service initiatives within the Internal Revenue Service.

The conferees are aware that additional funds in the amount of \$359,000,000 are required in fiscal year 1999 for Year 2000 compliance. Included in that total is: \$8,700,000 for the submissions processing investment program, \$4,000,000 for compliance research information systems, \$33,300,000 for examination laptop computers, \$60,700,000 to complete the rollout of the Integrated Collection System, \$4,300,000 for the Inventory Delivery System, and \$14,000,000 for the Integrated Personnel System.

The conference agreement deletes language proposed by the Senate which delayed the availability of \$68,700,000 of the funds appropriated until September 30, 1999.

INFORMATION TECHNOLOGY INVESTMENTS

The conference agreement appropriates \$211,000,000 for Information Technology Investments instead of \$210,000,000 as proposed by the House and \$137,569,000 as proposed by the Senate. These funds are not available for obligation until September 30, 1999. The conference agreement also provides that the funds shall remain available until September 30, 2002, as proposed by the Senate instead of remaining available until expended as proposed by the House.

The conference agreement includes language proposed by the House which specifies the contents of an expenditure plan that the Internal Revenue Service and the Department of the Treasury are required to submit before the funds appropriated may be obligated.

The conferees are concerned that the IRS' efforts to modernize its information systems could divert its attention from the more pressing matter of assuring that all of its existing systems will be Year 2000 compliant. The conferees expect that IRS will continue to view Year 2000 compliance as its highest priority and direct that the IRS not divert any resources from its Year 2000 efforts to the information systems modernization program.

ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

Section 101. The conference agreement includes a provision proposed by the House and the Senate which allows the transfer of 5 percent of any appropriation made available to the IRS to any other IRS appropriation subject to Congressional approval.

Section 102. The conference agreement includes a provision proposed by the House and the Senate which requires the IRS to maintain a training program in taxpayer's rights, dealing courteously with taxpayers, and cross cultural relations.

Section 103. The conference agreement includes a provision proposed by the House and the Senate which requires the IRS to maintain taxpayer services at not less than fiscal year 1995 levels.

Section 104. The conference agreement includes a provision proposed by the House and the Senate which prohibits the expenditure of funds for the collection of taxes unless the conduct of officers and employees of the IRS complies with the Fair Debt Collection Practices Act.

Section 105. The conference agreement includes a provision proposed by the House and the Senate which requires the IRS to institute policies and practices which will safeguard the confidentiality of taxpayer information.

Section 106. The conference agreement includes a provision proposed by the House and the Senate which directs that funds shall be available for improved facilities and increased manpower to provide sufficient and effective 1-800 help line telephone assistance.

Section 107. The conference agreement includes a provision proposed by the Senate which provides that no reorganization of the field office structure of the Internal Revenue Service Criminal Investigation Division will result in a reduction in the number of criminal investigators in Wisconsin and South Dakota from the 1996 level.

The conference agreement deletes a Sense of the Senate provision regarding the use of random selection of returns for examination by the Internal Revenue Service.

UNITED STATES SECRET SERVICE

SALARIES AND EXPENSES

The conferees agree to provide \$600,302,000 instead of \$594,657,000 as proposed by the House and \$584,902,000 as proposed by the Senate. This includes an additional \$18,000,000 for the costs of protective travel. The conferees agree that \$1,623,000 required for fixed site security will be included in the Acquisition, Construction, Improvement, and Related Expenses account, as proposed by the Senate. The conferees also agree that the limitation for new vehicle purchases shall be 739, as proposed by the House, rather than 705, as proposed by the Senate. The conferees direct the Under Secretary for Enforcement to exercise strong oversight over any purchases of new vehicles in keeping

with Department-wide efforts (addressed under Departmental Offices, above) to manage the use, allocation and acquisition of law enforcement vehicles. The conferees agree that \$5,000,000 shall not be available for obligation until September 30, 1999.

The conferees are aware that additional funds in the amount of \$3,000,000 are required in fiscal year 1999 for Year 2000 compliance.

PROTECTIVE TRAVEL

The conferees continue to be concerned about shortfalls in the United States Secret Service protective travel activity. Therefore the conferees direct the Service to develop an accurate financial plan for predicting protective travel needs, and report regularly to the Committees on Appropriations on their progress. As part of the financial plan the conferees expect the funds for this activity will be apportioned separately. The Service should consult with the Office of Management and Budget about the level of detail required in the financial plan. The conferees agree to provide additional funding of \$18,000,000 for protective travel, which is made available for two fiscal years.

ARMORED PRIMARY LIMOUSINES

The conferees understand the need to provide the President of the United States safe and secure ground transportation both locally and around the world. The conferees are, however, concerned with the Secret Service's projected cost to acquire primary limousines for this purpose. As a result, the conferees direct the Secret Service to report to the Committees on Appropriations on the major differences and costs between the proposed project and armored vehicles previously acquired by the Service prior to the obligation of funds for this project.

ACQUISITION, CONSTRUCTION, IMPROVEMENT, AND RELATED EXPENSES

The conferees agree to provide \$8,068,000 as proposed by the Senate, instead of \$6,445,000 as proposed by the House, which includes \$1,623,000 for fixed site security.

GENERAL PROVISIONS—DEPARTMENT OF THE TREASURY

Section 110. The conference agreement includes a provision which requires the Secretary of the Treasury to comply with certain reprogramming guidelines when obligating or expending funds for law enforcement activities from unobligated balances available on September 30, 1999, as proposed by the Senate instead of September 30, 1998, as proposed by the House.

Section 111. The conference agreement includes a provision proposed by the House and the Senate which allows the Department of the Treasury to purchase uniforms, insurance, and motor vehicles without regard to the general purchase price limitation, and enter into contracts with the State Department for health and medical services for Treasury employees in overseas locations.

Section 112. The conference agreement includes a provision proposed by the House and the Senate which requires the expenditure of funds so as not to diminish efforts under section 105 of the Federal Alcohol Administration Act.

Section 113. The conference agreement includes a provision proposed by the House and the Senate which authorizes transfers, up to 2 percent, between law enforcement appropriations under certain circumstances.

Section 114. The conference agreement includes a provision proposed by the House and the Senate which authorizes transfers, up to 2 percent, between the Departmental Offices, Office of Inspector General, Financial Management Service, and Bureau of the Public Debt appropriations under certain circumstances.

Section 115. The conference agreement includes a provision proposed by the Senate

which amends 18 U.S.C. 921(a) by broadening the definition of explosives and redefining the term "antique firearm."

Section 116. The conference agreement includes a provision regarding the purchase of law enforcement vehicles.

Section 117. The conferees have agreed to the provision contained in Section 117 of the Senate bill regarding the execution of property upon judgements against foreign state violators of international law. The conferees have included additional language giving the President the authority to waive the requirements of this provision in the interest of national security.

ELECTRONIC FILING

The conferees have agreed to delete language requested by the Administration and contained in Section 115 of the House and Senate bills regarding the electronic filing of tax returns since this matter has been addressed in a comprehensive fashion in the Internal Revenue Service Restructuring and Reform Act of 1998. In undertaking any electronic tax administration programs, the conferees expect the Internal Revenue Service to assure the security of all electronic transmissions and provide for the full protection of the privacy of taxpayer data.

CURRENCY PAPER

The House and Senate passed bills each contained a provision (Section 116 of both bills) regarding the acquisition of currency paper by the Bureau of Engraving and Printing. The conferees have agreed to include no language in the bill regarding this issue. The conferees are aware of attempts made by the Bureau of Engraving and Printing (BEP) to address concerns regarding the need to make it easier for all United States paper companies to compete for currency paper contracts. However, the conferees expect the BEP to continue to enhance the process for procuring currency paper to the extent permitted under Federal law. In carrying out its currency paper procurement responsibilities, the conferees expect BEP to secure the best overall value for the government, giving equal consideration to all cost factors. Based on the General Accounting Office's (GAO) inability to reach any concrete conclusions with respect to competition and pricing, the conferees understand this issue is very complicated and, therefore, direct the Department of the Treasury and the Bureau of Engraving and Printing to report to the Committees on Appropriations how they plan to address GAO's recommendations to the Secretary of the Treasury. Further, it is the conferees' understanding that the authorizing committees in both the House and Senate will closely examine the GAO report, hold hearings on this matter, and develop legislation, if necessary, to ensure that the Federal government will have adequate competition and fair pricing.

TITLE II—POSTAL SERVICE

PAYMENTS TO THE POSTAL SERVICE FUND

The conferees agree to provide \$71,195,000 as proposed by the House and the Senate. The conferees defer the obligation of these funds until October 1, 1999, as proposed by the Senate.

NON-POSTAL COMMERCIAL ACTIVITIES

The conferees are aware that the Postal Service is initiating a wide range of new commercial activities. These activities include, but are not limited to, volume retail photocopying, packaging services, bankwire services, the sale of office supplies and novelty items, and new e-commerce or Internet related technologies.

The conferees recognize the Postal Service's need to generate new sources of revenue to offset its operating costs. However, many

of the Postal Service's new commercial activities may result in unfair competition with a number of private sector enterprises, thus raising significant policy issues about the Postal Service's present and future commercial role.

Therefore, the conferees request the Postal Service submit, within 6 months of enactment of this Act, a report on its ongoing and planned commercial services, including policy justifications, the costs of development and implementation, revenues earned, and revenues lost. As part of the report, the conferees are interested in packaging services ("Pack and Send") and specifically direct the Postal Service to describe how packaging services will meet "customer demand" in all geographic regions, especially rural areas, before such service is initiated. The conferees believe these issues deserve consideration by the authorizing committees.

AVONDALE-GOODYEAR, ARIZONA

The conferees urge the Postal Service, before awarding any contract to purchase or lease property for the Main Post Office in Avondale-Goodyear, Arizona, to do an analysis of the population presently in this area to be used in assisting the Postal Service in making a selection which will be most accessible for the current and future population of the area. The Postal Service shall report to the Committees prior to awarding any contract for sale or lease, but in no event later than October 14, 1998.

GILPIN COUNTY, COLORADO

The conferees urge the Postal Service to seriously consider providing a separate ZIP Code for Gilpin County, Colorado.

TITLE III—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

WHITE HOUSE OFFICE

SALARIES AND EXPENSES

The conferees agree to provide \$52,344,000 for White House Office Salaries and Expenses, as proposed by the House and the Senate. The conferees provide \$10,100,000 for reimbursements to the White House Communications Agency as a specific line item, as proposed by the House.

EXECUTIVE RESIDENCE AT THE WHITE HOUSE

OPERATING EXPENSES

The conferees provide \$8,061,000, as proposed by the House instead of \$8,691,000, as proposed by the Senate and prohibit the use of these funds for domestic staff overtime. As a separate provision, the conferees include \$630,000 for domestic staff overtime and make these funds available upon the Comptroller General notifying the Committees that the Executive Office of the President (EOP) has received, reviewed and commented on the draft report of the General Accounting Office (GAO) with respect to Executive Residence operations and that the GAO is in receipt of the EOP's comments.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The conferees agree to provide \$28,350,000 for the Office of Administration as proposed by the House instead of \$29,140,000 as proposed by the Senate.

The conferees are aware that additional funds of \$12,200,000 for Year 2000 compliance within the Executive Office of the President are required for fiscal year 1999.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The conferees agree to provide \$60,617,000 for the Office of Management and Budget as proposed by the Senate instead of \$59,017,000 as proposed by the House. The conferees agree to delete the earmark and the fence on

the use of funds for the Office of Information and Regulatory Affairs, as proposed by the Senate, and include two provisos regarding the review of transcripts of the Committees on Veterans' Affairs and agricultural marketing orders, as proposed by the House. The conferees have included new language to amend Section ____36 of OMB Circular A-110 to ensure that all data produced under an award will be made available to the public through the procedures established under the Freedom of Information Act.

Including technical modifications, the conferees agree to include bill language requiring OMB to report on government wide paperwork reduction and the implementation of the Congressional Review Act, as proposed by the Senate.

PERFORMANCE OF STATUTORY RESPONSIBILITIES

The conferees have agreed to delete the earmark of \$5,229,000 for the Office of Information and Regulatory Affairs (OIRA) and a fence of \$1,200,000 for OIRA. The conferees have been assured that OMB will strictly adhere to the statutory requirements included in the bill on Paperwork Reduction and the Congressional Review Act. The conferees will monitor OMB's compliance with these requirements carefully.

FEDERAL EMPLOYEES' PAY COMPARABILITY ACT

The conferees question the validity of the Administration's use of the "serious economic conditions" exception in the Federal Employees' Pay Comparability Act (FEPCA) to put forth an alternative pay plan for 1999. Press reports have indicated that members of the Administration may have concerns regarding the pay setting methodology established by FEPCA. In an effort to see that FEPCA is either fully implemented or perfected, the conferees direct the President's Pay Agent to provide the Committees with any pay setting methodology concerns it has with regard to FEPCA by May 1, 1999.

CENTURY DATE CONVERSION

The conferees remain concerned that with little more than a year to go before the new millennium, many critical government information systems are still in jeopardy of not meeting the January 1, 2000, deadline for date conversion. The conferees further believe that the Administration has failed to adequately champion the Y2K issue, not only to its own departments, but has also not provided the critical national leadership and coordination to our local, state and international partners in both the public and private sectors. Information systems experts have reported that the Y2K fix is rooted in management and oversight, not in the lack of technology available to address the problem. Unfortunately, valuable time has been lost waiting for management to embrace the magnitude and consequences of this issue. Only recently, has organizational management finally recognized the potential for shut down of critical information systems associated with entitlement payments, revenue collection, air traffic control, defense systems, telecommunications, mass transit, supply inventories, elevator function, medical equipment, to mention a few. Many agencies at all levels of government still do not have a complete grasp of the problem and are now at the greatest risk for systems failure.

The conferees direct the Administration to focus all of its attention and resources on the management and oversight of the most critical date sensitive information and infrastructure systems, prioritizing systems renovations, repair and replacement to those that can meet the January 1, 2000, deadline. The conferees further direct the Administration to accelerate the development of contingency plans for those critical systems that

cannot meet the Y2K deadline, in order to maintain functional systems operations, until patent date conversion repairs can be completed.

The conferees strongly encourage the new Y2K Czar to take a high profile national leadership position, to aggressively promote century date change awareness for both information technology systems and sensitive infrastructure applications. The Y2K Czar should monitor, coordinate and provide oversight over the progress of all government-wide century date change conversion initiatives, with the primary goal of maintaining critical systems operations into the new millennium. Finally, the Y2K Czar should have Administration standing to directly access and take control of any critical agency system that is in jeopardy of not meeting the January 1, 2000, deadline because of ineffective management action.

OMB is directed to include in its quarterly Y2K report submissions an assessment of those critical information systems that will not meet the Y2K deadline and the problems that can be anticipated. In addition, the report should include the status of operational contingency plans for those systems identified as being in jeopardy.

VIOLENT CRIME REDUCTION PROGRAMS

The conferees expect the President's budget submissions for the Department of the Treasury's funding from the Violent Crime Reduction Trust Fund be reflected for the Department as a whole and not separately within each bureau's request.

OFFICE OF NATIONAL DRUG CONTROL POLICY SALARIES AND EXPENSES

The conferees agree to provide \$48,042,000 for the Office of National Drug Control Policy (ONDCP) as proposed by the Senate, instead of \$36,442,000 as proposed by the House. This includes \$13,000,000 to continue the technology transfer pilot program managed by the Counterdrug Technology Assessment Center (CTAC). It also includes \$17,942,000 for ONDCP operations, as proposed by the Senate, \$16,000,000 for the basic CTAC program, and \$1,100,000 for policy research of which \$100,000 is to be used for evaluating the Drug-Free Communities Act, as proposed by the Senate. The conferees agree to modify language governing the authority of ONDCP to accept and use gifts.

The conference agreement separately funds \$1,000,000 for Model State Drug Law Conferences through the Violent Crime Reduction Trust Fund.

ONDCP STAFFING

The conferees are concerned about requests by ONDCP to reprogram monies from the Salaries and Expenses account to fund other initiatives. The conferees in the past have fully supported and funded the full time equivalent staffing level requested by ONDCP and are concerned that ONDCP is not filling those vacancies but is instead requesting to use those funds for other purposes. The conferees believe that ONDCP needs to maintain its staffing at the authorized level in order to maximize the agency's effectiveness. The conferees therefore direct ONDCP to review its staffing requirements and report back to the Committees on Appropriations by December 15, 1998, on the steps it is taking to fill the vacancies or, if not, what changes it is making in its staffing plan.

PERFORMANCE MEASURES OF EFFECTIVENESS

The conferees strongly urge ONDCP to work within the Administration to ensure that the Performance Measures of Effectiveness (PMEs) it developed are embraced and employed by all federal agencies for future budgetary and planning work. The conferees

direct ONDCP to apply the same standard to its own internal management and organization, and to include such measures with each new budget submission.

RESEARCH AND ANALYSIS INITIATIVES

The conferees recognize that ONDCP has proposed some initiatives for research that, owing to lack of resources, cannot be funded in this appropriation. Nonetheless, the conferees strongly urge ONDCP to continue to press through its interagency leadership to coordinate research in such areas as improving R&D coordination, developing a government-wide intelligence architecture, and mapping out drug trafficking flows.

PROTECTIVE SECURITY ASSESSMENT

The conferees have included a new general provision, Section 643, as proposed by the Senate which directs the U.S. Marshals Service to conduct a threat assessment on the Director of the Office of National Drug Control Policy on a quarterly basis. The level of security is to be provided to ONDCP on a reimbursable basis by the U.S. Marshals Service and will be based on this quarterly threat assessment.

RURAL DRUG CONFERENCES

The conferees are concerned about the spread of drugs and drug-related crimes to rural areas and whether or not rural law enforcement can sufficiently address these new trends. Therefore, the conferees encourage the Director to consider convening a national conference on rural drug crime, to include regional conferences in rural areas, such as Luna County, NM, and similar counties in Colorado, in order to assess the needs of rural law enforcement and the impact that drug-related crimes have on rural communities as they cope with these issues.

The conferees believe that ONDCP can combine its knowledge and experience working with larger communities in this area and translate effective drug fighting practices to rural law enforcement, while taking into consideration their unique needs. Should ONDCP convene this event, the conference is requested to report to the Committees on Appropriations and the Director of ONDCP on its findings.

SHOUT

The conferees have provided \$50,000 to continue the work of SHOUT, an outreach organization that works with minors, as defined by 21 CFR 897.14. This early intervention program focuses on shaping the attitudes of minors in order to discourage the use of illegal substances.

COUNTERDRUG TECHNOLOGY ASSESSMENT CENTER

The conferees expect the multiagency research and development programs to be coordinated by the Counterdrug Technology Assessment Center (CTAC) in order to prevent duplication of effort and to assure that, whenever possible, those efforts provide capabilities that transcend the need of any single Federal agency. Prior to obligation of these funds, the conferees expect to be notified by the chief scientist on how these funds will be spent. The conferees also expect to receive periodic reports from the chief scientist on the priority counterdrug enforcement research and development requirements identified by the Center and on the status of projects funded by CTAC.

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

The conferees provide \$182,477,000, instead of \$162,007,000 as proposed by the House and \$183,977,000 as proposed by the Senate. The conferees agree to fund all existing High Intensity Drug Trafficking Areas (HIDTAs) at

the fiscal year 1998 level. This funding level shall be based on direct fiscal year 1998 appropriations for HIDTAs contained in the HIDTA and Violent Crime Reduction Trust Fund accounts. The conferees also agree that not less than fifty-one percent of this amount shall be transferred to State and local entities for drug control activities.

Within the amount appropriated, the conferees include \$20,477,000 to supplement or expand existing HIDTAs, or provide for the creation of new HIDTAs. The conferees have been informed that unmet needs for funding exist in: the Arizona HIDTA for completion of an intelligence center and unmet programmatic needs for methamphetamine and border initiatives; the New Mexico HIDTA for unmet programmatic needs; the Southwest HIDTA for its wiretapping initiative; the Cascade HIDTA for unmet programmatic needs; the expansion of the Midwest HIDTA to include the State of North Dakota; the Rocky Mountain HIDTA for expansion of its methamphetamine initiative; the Chicago HIDTA for unmet programmatic needs; and the Central Florida HIDTA for unmet programmatic needs. Additionally, the conferees are aware of interest in the designation of new HIDTAs in the New England states, East Texas, Ohio, and Hawaii.

While the conferees are obviously supportive of the HIDTA program, it is critical to the continued support and the health of all HIDTAs and the program in general that decisions about funding be founded on clear, concrete measures of performance. The conferees also believe that ONDCP must have the flexibility to allocate resources to those HIDTAs that will have the greatest impact on our drug problems. In making these decisions, ONDCP must focus on the performance of HIDTAs, existing or proposed, and their significant impact on drug trafficking, use, and associated crime. This means that ONDCP must assess which HIDTAs are the top performers and document the factors it uses to make this determination. At the same time, ONDCP must determine where the impact will be greatest based on the combined effect of HIDTA performance and the nature and severity of drug problems that exist in the areas where HIDTAs currently operate or are proposed—whether measured by use, associated crime, or volume of trafficking in drugs or money. The conferees therefore direct ONDCP to submit its fiscal year 2000 budget for HIDTAs based on applying both ONDCP's own performance measures of effectiveness and the priorities dictated by changing threats.

SPECIAL FORFEITURE FUND

The conferees agree to provide \$214,500,000, instead of \$215,000,000 as proposed by the House and \$200,000,000 as proposed by the Senate. This includes \$185,000,000 for the youth media campaign, \$20,000,000 for implementation of the Drug-Free Community Act, \$5,000,000 for the chronic users study, and \$4,500,000 for a transfer to the Agricultural Research Service for anti-drug research and related matters.

YOUTH MEDIA CAMPAIGN

The conferees recommend a funding level of \$185,000,000 for the National Media Campaign. In fiscal year 1998, ONDCP proposed a 5-year media campaign at a total cost to the Federal government of \$875,000,000. The initial request was based on a \$175,000,000 annual funding level for five years of the program. The conferees continue to be fully supportive of this program and believe that this national media campaign, if properly executed, has the potential to produce concrete results. The conferees look forward to working with ONDCP on this effort to produce demonstrable results as the campaign matures.

The conferees have included new language calling for ONDCP to report on its efforts to

achieve corporate sponsorship beyond the matching requirement for participation in the media campaign; clarifies the pro bono requirement; and limits the possible use of funding for creative development efforts. The conferees agree that 75% of the funds will become available when ONDCP submits to the Committees the results of Phase I of the campaign and the remainder will become available when ONDCP submits the results of Phase II.

The Committees will closely track this national media campaign, and its contribution to achieving a drug-free America. Therefore, the conferees direct ONDCP to submit quarterly reports on the obligation of funds as well as the specific parameters of the pilot campaign. The conferees anticipate that future funding will be based upon results. ONDCP is directed to report to the Committees on Appropriations by January 15, 1999 on the effectiveness of the national media campaign. In addition, ONDCP is to report to the Committees within 6 months of enactment of this Act on State and local prevention and treatment facilities infrastructure and their capacity to handle the increased demands of communities as a result of the national media campaign. ONDCP is to continue to report on the effectiveness and implementation status of the guidelines set out in the fiscal year 1998 appropriations bill.

The conferees direct the General Accounting Office to conduct a financial audit and review of the financial transactions relating to the media campaign. The conferees request that the scope of the review include how monies have been obligated and the effectiveness of the campaign and report to the Committees on Appropriations. As part of this review, GAO shall determine the definition, acquisition, and utilization of matching contributions sought by ONDCP relating to the media campaign. In addition, the conferees direct GAO to review Phase I, the 12 city test pilot, and report its findings to the Committees. This review is to examine the development of the test market plan for Phase I, determine the viability of extrapolating Phase I results to the national level, and determine the success of Phase I in the 12 city pilot.

CHRONIC USERS STUDY

The Administration's budget estimate includes a request of \$10,000,000 to expand a preliminary user study conducted in Cook County, IL. The Cook County study developed a methodology for estimating the number of hardcore drug users in the United States. Accurately identifying this population is important since they consume a massive amount of the drugs available in the United States, create a large proportion of the demand for illegal drug markets, and are responsible for a great deal of criminal activity. The accurate identification of this population will provide communities a base for estimating the type and number of drug treatment and prevention programs required.

The conferees congratulate ONDCP on conducting this study and continue to support this effort. The conferees provide \$5,000,000 to expand the study to regional areas. Although this is less than the request, the conferees understand that ONDCP may be able to use this level of funding to complete a study that can serve as an accurate basis for a national estimate of the size and location of chronic user populations. The conferees encourage ONDCP to work with the Department of Health and Human Services to identify additional funding sources, if necessary and available, and encourage ONDCP to promote utilization of the Cook County study that contributes to reductions in the population of hardcore drug users.

UNANTICIPATED NEEDS

The conferees agree to provide \$1,000,000 as requested by the Administration for unanticipated needs.

INFORMATION TECHNOLOGY SYSTEMS AND RELATED EXPENSES

The conferees have not included language contained in the Senate bill to provide \$3,250,000,000 in contingent emergency funding for Year 2000 computer conversion costs. On September 2, 1998, the President transmitted to Congress a request for this level of funding in fiscal year 1998. The conferees expect that this issue will be resolved as part of a supplemental appropriation.

TITLE IV—INDEPENDENT AGENCIES

FEDERAL ELECTION COMMISSION

SALARIES AND EXPENSES

The conferees agree to provide \$36,500,000 as proposed by the House and the Senate. This level of funding will support a base appropriation of \$32,580,000, an additional \$2,800,000 for enhanced enforcement efforts, as proposed by the House and Senate, and an additional \$1,120,000 for other initiatives, as proposed by the House. The conferees fence \$1,120,000, pending the submission of a plan for the obligation of these funds and provide that not less than \$4,402,500 shall be available for internal automated data processing systems. The conferees strongly recommend that the FEC target the additional \$1,120,000 in fenced appropriations to the improvement of enforcement procedures and preventing the unnecessary dismissal of appropriate enforcement actions; the conferees specifically recommend that FEC expedite automated data processing improvements as they relate to enforcement. The conferees assume that full time employment will not exceed 347 FTE in fiscal year 1999.

GENERAL SERVICES ADMINISTRATION

FEDERAL BUILDINGS FUND

LIMITATIONS ON AVAILABILITY OF REVENUE

The conference agreement provides \$5,605,018,000 in new obligational authority for the General Services Administration's Federal Buildings Fund instead of \$5,624,128,000 as proposed by the House and \$5,648,680,000 as proposed by the Senate. In order to provide the resources necessary to carry out that program, the conferees have recommended an appropriation of \$450,018,000 into the Fund instead of \$479,300,000 as proposed by the House and \$508,752,000 as proposed by the Senate.

The conferees have provided \$492,190,000 for the construction and acquisition of new projects instead of \$527,100,000 as proposed by the House and \$538,652,000 as proposed by the Senate. The conferees have included funding for the following projects:

| | |
|--|------------|
| Arkansas: Little Rock, U.S. Courthouse | 53,436,000 |
| California: San Diego, U.S. Courthouse | 15,400,000 |
| San Jose, U.S. Courthouse | 10,800,000 |
| Colorado: Denver, U.S. Courthouse | 83,959,000 |
| District of Columbia: Southeast Federal Center Remediation | 10,000,000 |
| Florida: Jacksonville, U.S. Courthouse | 86,010,000 |
| Orlando, U.S. Courthouse | 1,930,000 |
| Massachusetts: Springfield, U.S. Courthouse | 5,563,000 |
| Michigan: Sault Sainte Marie, Border Station | 572,000 |
| Mississippi: Biloxi—Gulfport, U.S. Courthouse | 7,543,000 |

| | |
|--|-------------|
| Missouri: Cape Girardeau, U.S. Courthouse | 2,196,000 |
| Montana: Babb, Piegan Border Station | 6,165,000 |
| New York: Brooklyn, U.S. Courthouse | 152,626,000 |
| New York, U.S. Mission to the United Nations .. | 3,163,000 |
| Oregon: Eugene, U.S. Courthouse | 7,190,000 |
| Tennessee: Greenville, U.S. Courthouse | 28,229,000 |
| Texas: Laredo, U.S. Courthouse | 28,105,000 |
| West Virginia: Wheeling, U.S. Courthouse | 29,303,000 |
| Nationwide: Non-prospectus construction projects | 10,000,000 |

The conferees have not provided funds for the Savannah, Georgia, U.S. Courthouse Annex project. The conferees are aware that at a recent meeting to consider the authorization of new courthouse construction projects, the Public Buildings and Economic Development Subcommittee of the House Committee on Transportation and Infrastructure deferred action on this project pending further review. The conferees further understand that that action was taken primarily because of the significant increase in estimated project cost that has occurred since the approval of funds for site acquisition and design, even though the size of the building has been reduced. The conferees share those concerns and, have, therefore, elected to defer funding for the project pending resolution of the issues that have been raised by the authorizing committee.

The conferees recognize the efforts of the General Services Administration and the Judiciary to reduce the cost of courthouse construction and encourage the continuation of these efforts. The conferees are pleased that the Administrative Office of the U.S. Courts' recent draft utilization study answers some questions about the utilization rates of existing and proposed courthouses. The conferees are aware of the Judiciary's needs to have court space available to conduct business and understand their position that a courtroom's existence may result in moving a case to settlement. However, the conferees continue to be concerned that the courts are not fully examining information that is key to the development of a utilization planning model. As a result, the conferees request the Administrative Office of the U.S. Courts to revise the utilization study to include the assumptions used to develop the planning model. Additionally, the conferees direct the General Services Administration to provide the utilization rates of existing and proposed courtrooms with any request for new construction, replacement, or expansion of court space.

The conference agreement includes language proposed by the Senate authorizing the General Services Administration to reacquire the parcel of land on Block 111, East Denver, Denver, Colorado, which was sold at public auction by the Federal government to the present owner of the property.

The conference agreement includes language proposed by the Senate which provides that funds provided in fiscal year 1993 for the Hilo, Hawaii, federal building shall be expended for the planning and design of the Mauna Kea Astronomy Educational Center.

The conference agreement deletes language proposed by the Senate regarding funding for the design of the Department of Transportation headquarters building and landing rights at Denver International Airport.

The conference agreement includes language included in the House reported bill

which provides that of the funds provided for non-prospectus construction projects, \$2,100,000 shall be available for acquisition, lease, construction, and equipping of flexplace telecommuting centers.

The conferees have also agreed to include language in the bill permitting the General Services Administration to purchase, at the appropriate price, real estate essential to meet security interests related to the successful completion of the new courthouse in Scranton, Pennsylvania.

The conferees have provided \$668,031,000 for repairs and alterations as proposed by the Senate instead of \$655,031,000 as proposed by the House. The conference agreement provides that \$161,500,000 of the funds shall not be available for obligation until September 30, 1999, instead of \$19,000,000 as proposed by the House and \$323,800,000 as proposed by the Senate.

The amount provided includes \$25,000,000 for the chlorofluorocarbons program and \$25,000,000 for the energy program as proposed by the Senate instead of \$18,500,000 for each program as proposed by the House.

The conferees have agreed to list in the bill the amounts provided for each of the projects and activities to be undertaken under Repairs and Alterations as proposed by the Senate. Accordingly, there is no need for GSA to submit the plan for program execution called for in the House report.

The conference agreement includes the language contained in the Senate bill regarding the use of funds for security improvements.

The conference agreement includes language proposed by the House which provides that funds provided in Public Law 103-329 for the IRS Service Center in Holtsville, New York, shall remain available until September 30, 1999.

The conference agreement includes language proposed by the Senate which provides that \$100,000 shall be used to address lighting issues at the Byrne-Green Federal Courthouse in Philadelphia, Pennsylvania; provides that \$1,600,000 shall be used to complete alterations at the Milwaukee, Wisconsin, Courthouse; and provides that \$1,100,000 may be used to provide a new fence for the Suitland Federal Complex in Suitland, Maryland.

The conferees have provided \$215,764,000 for installment acquisition payments as proposed by the House and the Senate.

The conferees have provided \$2,583,261,000 for rental of space as proposed by the Senate instead of \$2,580,461,000 as proposed by the House. The conference agreement provides that \$15,000,000 of the funds provided shall not be available for obligation until September 30, 1999, instead of \$51,667,000 as proposed by the Senate.

The conferees have provided \$1,554,772,000 for building operations as proposed by the House and the Senate. The conference agreement provides that \$68,000,000 of the funds provided shall not be available for obligation until September 30, 1999, instead of \$223,000,000 as proposed by the House and \$31,095,000 as proposed by the Senate.

The conference agreement provides that \$475,000 shall be available for the 1999 Women's World Cup soccer event and that \$600,000 shall be available for the 1999 World Alpine Ski Championships.

PUBLIC SERVICE RECOGNITION WEEK

The conferees recognize that Public Service Recognition Week, a program of the Public Employees Roundtable, has educated America about the value of the career workforce which carries out the daily operations of government. This program, which has existed for over ten years, plays an important role in educating our nation's youth and pro-

viding them with timely information about their government. The conferees urge the General Services Administration to support the mission of the Public Employees Roundtable and provide administrative and logistical assistance equaling \$100,000 for carrying out its Public Service Recognition Week activities.

LOS ANGELES, CALIFORNIA, CIVIC CENTER TRUST

The conferees are aware that the U.S. Courthouse in Los Angeles, California, will be serving as the cornerstone for an economic revitalization of the Civic Center neighborhood, where currently more than 50 public and private projects are in various stages of development. The Los Angeles City Civic Center Trust, established by Project Restore, a nonprofit organization, will facilitate and coordinate this revitalization. The conferees urge the General Services Administration to continue its current work and support the mission of the Los Angeles Civic Center Trust by providing planning, administrative, and logistical support for its activities.

RONALD REAGAN COURTHOUSE—SANTA ANA, CALIFORNIA

The conferees understand that none of the artwork acquired for the Ronald Reagan Courthouse in Santa Ana, California, recognizes President Reagan. The conferees urge the General Services Administration to acquire and display artwork that appropriately commemorates President Reagan. Further, the conferees urge the General Services Administration to work with the Ronald Reagan Presidential Library and Museum to determine the feasibility of maintaining a rotating exhibit at the Ronald Reagan Courthouse.

PRESIDENT HARRY S TRUMAN

The conferees note that there is no major recognition of President Harry S Truman in the Nation's Capital. The conferees request that the General Services Administration review such proposals as may exist and report to the Committees on Appropriations no later than June 1, 1999.

POLICY AND OPERATIONS

The conference agreement appropriates \$109,594,000 for Policy and Operations instead of \$108,494,000 as proposed by the House and \$106,494,000 as proposed by the Senate. The conferees direct that \$2,000,000 be provided for the pilot project in digital learning technologies as described in the House report and that \$1,000,000 be used to initiate a digital education project.

The conferees have also included language in the bill that provides that \$100,000 of the funds appropriated shall be provided to the Property Disposal activity of this account. This amount represents the estimated fair market value of the property to be conveyed to the City of Racine, Wisconsin, as described in section 409 of the bill.

The conferees have modified language proposed by the Senate regarding the Old Post Office at 1100 Pennsylvania Avenue in Washington, D.C., to make the language applicable only for fiscal year 1999 and to require that the comprehensive plan for use of the property also be approved by the Senate Committee on Environment and Public Works and the House Committee on Transportation and Infrastructure.

SURPLUS EQUIPMENT TO SCHOOLS AND EDUCATIONAL INSTITUTIONS

The conferees urge the General Services Administration, in line with its responsibilities for the disposal of excess and surplus Federal personal property, to promote and foster the transfer of excess and surplus computer equipment directly to schools and to appropriate nonprofit, community-based

educational organizations. The GSA should communicate with other Federal agencies to heighten their ongoing awareness of the existing opportunities at both the national and local levels to meet the needs of the schools for such equipment.

All Federal agencies are required, to the extent permitted by law and after determining that the equipment is excess to their needs, to give highest preference to schools and nonprofit organizations in the transfer of educationally useful Federal computer equipment. Agencies are required to inventory all computer equipment and identify in their inventories their excess and surplus equipment. Federal agencies are also required to report to GSA the transfer of any personal property, including computer equipment, made to nongovernmental entities such as schools.

The conferees commend GSA and the Office of Science and Technology Policy (OSTP) for the progress that has been made simplifying and improving the Federal Surplus Computer Donation Program. One remaining hurdle for schools interested in participating in the program is the lack of operating systems on many donated computers. The conferees urge GSA and OSTP to work together with operating system providers to develop a partnership with those providers similar to the partnership that has already been formed with van lines to assist in transporting donated computers. The goal of this partnership would be to provide operating systems to schools which receive computers through the donation program.

FEDERAL OFFICE BUILDING IN COLORADO SPRINGS, COLORADO

The Federal building located at 1520 Wilamette Ave. in Colorado Springs, Colorado, is owned by GSA and is currently leased to the U.S. Air Force Space Command. It is the conferees' understanding that Space Command is moving ahead with options to vacate the facility. In the event that Space Command does not renew its lease and the facility becomes vacant and is deemed surplus, the conferees urge GSA to strongly consider the U.S. Olympic Committee's (USOC) need for additional space and to give priority to the USOC's request to gain title or acquire the property.

GENERAL PROVISIONS—GENERAL SERVICES ADMINISTRATION

Section 401. The conference agreement includes a provision proposed by the Senate which provides that accounts available to GSA shall be credited with certain funds received from government corporations. The provision was also included in the House reported bill.

Section 402. The conference agreement includes a provision proposed by the Senate which provides that funds available to GSA shall be available for the hire of passenger motor vehicles. The provision was also included in the House reported bill.

Section 403. The conference agreement includes a provision proposed by the Senate which authorizes GSA to transfer funds within the Federal Buildings Fund to meet program requirements. A similar provision was included in the House reported bill.

Section 404. The conference agreement includes a provision proposed by the Senate which prohibits the use of funds to submit a fiscal year 2000 budget request for courthouse construction projects that do not meet design guide criteria, do not reflect the priorities of the Judicial Conference of the United States, and are not accompanied by a standardized courtroom utilization study. A similar provision was included in the House reported bill.

Section 405. The conference agreement includes a provision proposed by the Senate

which provides that no funds may be used to increase the amount of occupiable square feet or provide cleaning services, security enhancements, or any other service usually provided, to any agency which does not pay the requested rental rates. The provision was also included in the House reported bill.

Section 406. The conference agreement includes a provision proposed by the Senate which provides that funds provided by the Information Technology Fund for pilot information technology projects may be repaid to the Fund. The provision was also included in the House reported bill.

Section 407. The conference agreement includes a provision proposed by the Senate which permits GSA to pay claims of up to \$250,000 arising from construction projects and the acquisition of buildings. The provision was also included in the House reported bill.

Section 408. The conference agreement includes a provision proposed by the Senate providing \$5,000,000 for the demolition, clean-up, and conveyance of the property at block 35, and lot 2 of block 36 in Anchorage, Alaska. The House bill contained no similar provision.

Section 409. The conference agreement includes a provision proposed by the Senate authorizing GSA to convey the property which contains the U.S. Army Reserve Center in Racine, Wisconsin, to the City of Racine. The Senate language has been amended by deleting the phrase "without consideration." The House reported bill contained a similar provision.

Section 410. The conference agreement includes language proposed by the Senate directing the General Services Administration to enter into an operating lease to acquire space for the Department of Transportation headquarters. The House bill contained no similar provision.

Section 411. The conference agreement includes a provision proposed by the House regarding the fees charged by GSA for the use of telecommuting centers by Federal agencies. The Senate bill contained no similar provision.

Section 412. The conference agreement includes a provision proposed by the Senate authorizing GSA to transfer property in Dade County, Florida, to the University of Miami. The Senate language has been amended to allow a land exchange. The House reported bill contained a similar provision.

Section 413. The conference agreement includes a provision directing GSA to incorporate the elements of the original proposed design for the facade of the United States Courthouse project in London, Kentucky, into the revised design of the building. This will ensure that the construction of the new courthouse is compatible with the architectural character of the historic existing U.S. courthouse. The construction of the project should in no way be diminished in order to achieve this goal. This provision was included in the House reported bill.

The conference agreement deletes language contained in section 411 of the Senate bill which appropriates \$14,105,000 for costs associated with the security of the Capitol complex. The conferees recognize the importance of Capitol security and have consulted with and deferred to the jurisdiction of the Legislative Branch Appropriations Subcommittee to coordinate those requirements.

ENVIRONMENTAL DISPUTE RESOLUTION FUND

The conference agreement appropriates \$4,250,000 for capitalization of the Environmental Dispute Resolution Fund and operation of the United States Institute for Environmental Conflict Resolution as proposed

by the House. The Senate did not include funds for this activity.

MERIT SYSTEMS PROTECTION BOARD

The conferees understand that an agreement has been reached between MSPB and its administrative judges regarding the establishment of a special pay classification for the administrative judges. The conferees are encouraged by this progress and urge MSPB to work with the proper House and Senate authorizing committees and the Office of Management and Budget so this agreement can be addressed in the fiscal year 2000 budget submission and through appropriate legislative action.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION OPERATING EXPENSES

The conference agreement appropriates \$224,614,000 for operating expenses of the National Archives and Records Administration instead of \$216,753,000 as proposed by the House and \$221,030,000 as proposed by the Senate. The conferees have included language delaying the availability of \$7,861,000 of the funds appropriated until September 30, 1999, instead of \$4,277,000 as proposed by the Senate.

The conferees are aware that additional funds in the amount of \$5,411,000 are required in fiscal year 1999 for Year 2000 compliance.

NATIONAL PERSONNEL RECORDS CENTER

The conferees are aware that in many instances veterans are experiencing significant delays, often as long as six months, when attempting to gain access to records they need to obtain medical assistance or other benefits from the National Personnel Records Center in St. Louis, Missouri. The conferees believe that this is unacceptable. The conferees are also aware that the National Archives and Records Administration (NARA) has initiated a business process re-engineering project at the center to address concerns about the timeliness of responses to veterans' requests. The implementation of this project will take about five years at a total cost of approximately \$6,000,000. The goal of the program is to achieve case cycle time of 10 days or less. For fiscal year 1999, the NARA will be conducting a pilot test of the business process re-engineering program to validate the processes and methods that have been recommended. The conferees have been informed by NARA that this pilot test can be funded from within existing resources. The conferees further understand that the Archives plans to begin implementation of this program in fiscal year 2000. The conferees are very supportive of this extremely important effort and expect NARA to request the funds it needs to begin implementation of the program in the fiscal year 2000 budget.

REPAIRS AND RESTORATION

The conference agreement appropriates \$11,325,000 for repairs and restoration of Archives facilities as proposed by the Senate instead of \$10,450,000 as proposed by the House. The conferees have not included language proposed by the Senate delaying the availability of \$2,000,000 of the funds until September 30, 1999.

The conference agreement includes language proposed by the Senate providing \$875,000 for a requirements study and design of a facility in Anchorage, Alaska.

NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION GRANTS PROGRAM

The conference agreement appropriates \$10,000,000 for the Grants Program of the National Historical Publications and Records Commission instead of \$6,000,000 as proposed by the House and \$11,000,000 as proposed by the Senate.

The conferees have included language delaying the availability of \$4,000,000 of the funds until September 30, 1999, instead of \$5,500,000 as proposed by the Senate.

The conferees have agreed to provide \$4,000,000 for a grant to the Center for Jewish History instead of \$5,000,000 as proposed by the Senate. The conferees note, however, that a single grant of this size is far beyond the scope of activities normally undertaken by the National Historical Publications and Records Commission. For example, the Commission expects to fund, in whole or in part, 103 proposals with the \$5,500,000 provided in fiscal year 1998. Therefore, the conferees agree that the funds provided for the Center for Jewish History represent the total to be provided from this account.

UNITED STATES TAX COURT SALARIES AND EXPENSES

The conference agreement appropriates \$32,765,000 for the United States Tax Court as proposed by the Senate instead of \$34,490,000 as proposed by the House.

ANTIMICROBIAL REGULATION TECHNICAL CORRECTIONS ACT OF 1998

Mr. BLILEY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4679) to amend the Federal Food, Drug, and Cosmetic Act to clarify the circumstances in which a substance is considered to be a pesticide chemical for purposes of such Act, and for other purposes.

The Clerk read as follows:

H.R. 4679

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Antimicrobial Regulation Technical Corrections Act of 1998".

SEC. 2. DEFINITION OF PESTICIDE CHEMICAL UNDER FEDERAL FOOD, DRUG, AND COSMETIC ACT.

(a) IN GENERAL.—Section 201(q) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(q)) is amended by striking "(q)(1)" and all that follows through the end of subparagraph (1) and inserting the following:

"(q)(1)(A) Except as provided in clause (B), the term 'pesticide chemical' means any substance that is a pesticide within the meaning of the Federal Insecticide, Fungicide, and Rodenticide Act, including all active and inert ingredients of such pesticide. Notwithstanding any other provision of law, the term 'pesticide' within such meaning includes ethylene oxide and propylene oxide when such substances are applied on food.

"(B) In the case of the use, with respect to food, of a substance described in clause (A) to prevent, destroy, repel, or mitigate microorganisms (including bacteria, viruses, fungi, protozoa, algae, and slime), the following applies for purposes of clause (A):

"(i) The definition in such clause for the term 'pesticide chemical' does not include the substance if the substance is applied for such use on food, or the substance is included for such use in water that comes into contact with the food, in the preparing, packing, or holding of the food for commercial purposes. The substance is not excluded under this subclause from such definition if the substance is ethylene oxide or propylene oxide, and is applied for such use on food. The substance is not so excluded if the substance is applied for such use on a raw agricultural commodity, or the substance is included for such use in water that comes into contact with the commodity, as follows:
