(II) the processing of orders through the out-of-State computer server of a provider of Internet access service or online services.●

RECOGNITION OF BRUNO NOWICKI

● Mr. LEVIN. Mr. President, I rise today to pay tribute to a good friend of mine and a great leader in my home state of Michigan, Bruno Nowicki. On October 11, 1998, Bruno's friends and family will help him celebrate his 90th birthday at a celebration at the Polish Century Club.

Bruno Nowicki is well known in Michigan and in his native Poland for his efforts to commemorate and celebrate the contributions of Polish people to the United States and to the world. He has designed monuments to Polish-American heroes of World War II and Vietnam and to Revolutionary War Generals Pulaski and Kosciuszko. Bruno Nowicki has also been a strong supporter of public libraries, and served on the Board of Governors of the Detroit Public Library from 1971 until 1994. He melded his interests in promoting Polish culture and supporting public libraries by arranging for statues, mosaics and busts of prominent figures in Poland's history to be displayed in the Detroit Main Library and the Hamtramck Public Library. Bruno worked with artist Zygmunt Dousa of the University of Krakow to design the Polish Room of the Ethnic Conference and Study Center at the Wayne State University in Detroit. He is a co-founder of the Polish Riverfront Festival, which provides assistance to children's hospitals in Poland.

I was proud to work with Bruno Nowicki in 1993-1994 on an issue especially close to his heart, promoting chess to students in schools. An avid chess player who participates in (and has won) tournaments in the U.S., Bermuda and Cuba, he believes that the skills children develop by learning to play chess can be applied to everyday life. A four-year study of school chess players confirmed Bruno Nowicki's belief. The study found that chess helps children build self-confidence and self-worth, dramatically improves children's ability to think rationally, and results in higher grades, especially in English and Math. Bruno provided me with important information which I used in drafting an amendment to the 1994 Goals 2000: Educate America Act, which allows State educational agencies to use certain Title III funds to promote instruction in chess as a tool for teachers to use to motivate students to develop critical thinking

skills, self-discipline and creative resolution methods.

Mr. President, Bruno Nowicki has demonstrated time and again his commitment to his community. He is truly a person who has touched the lives of thousands of people. I know my colleagues join me in wishing Bruno a happy 90th birthday and in commending him for his remarkable dedication to community service.●

ONE GUN A MONTH FORUM

● Mr. LAUTENBERG. Mr. President, last month I convened a forum to investigate the problem of gun-trafficking. At the forum, we heard from a number of compelling witnesses and I have been submitting their testimony into the RECORD so that my colleagues and the public can benefit from their insights. Taken together, this testimony makes a compelling case for the Anti-Gun Trafficking Act, S. 466, which I introduced earlier this Congress.

Today, I would like to submit the final testimony from this forum, that of Captain Thomas Bowers, Director of the Office of Crime Gun Enforcement for the Maryland State Police. Two years ago, the Maryland Legislature passed the Gun Violence Act of 1996, which restricted the purchase of handguns to one in a thirty day period. The results have already been dramatic. In fact, Maryland saw a 78 percent decrease in the number of handguns sold as a result of multiple purchases in the first year after the enactment of this law. This means fewer lethal weapons supplied to criminals in cities nationwide.

I hope that my colleagues will work with me to pass this important piece of legislation. Keeping handguns out of the hands of criminals, and reducing the gun violence across our nation should be of paramount importance to all.

Mr. President, I ask that the testimony of Captain Thomas Bowers be printed in the RECORD.

The testimony follows:

TESTIMONY OF CAPT. THOMAS BOWERS

Senator LAUTENBERG, I am Captain Thomas Bowers, Director of the Office of Crime Gun Enforcement for the Maryland State Police.

On behalf of Colonel David B. Mitchell, our superintendent, thank you for the opportunity to address you today.

The troopers seated behind me represent the subject matter experts in the area of firearms enforcement.

The Maryland State Police is the point of contact for regulatory and criminal oversight of all regulated firearm purchases in Maryland. In 1966, Maryland initiated an application process to purchase handguns. This process included a 7-day waiting period and a background check.

In 1995, Governor Parris N. Glendening, Lieutenant Governor Kathleen Kennedy Townsend, and Colonel Mitchell initiated a comprehensive program entitled Operation Cease-Fire, one element of the cease-fire initiative was the Maryland State Police Firearms Investigation Unit. This unit provides the "front line" response to the problem of

firearms related violence throughout the State of Maryland.

The Firearms Investigation Unit was initially tasked with the responsibility of enforcing Maryland's existing firearms laws and, more importantly, identifying the source or sources of firearms used in the commission of violent crimes.

Through the work of the Firearms Investigation Unit and information provided by the Bureau of Alcohol, Tobacco and Firearms the straw purchase was identified as the major source of crime guns in Maryland, even more significant, based upon crime gun trace data from the city of Baltimore. The straw purchase of firearms through multiple sales was determined to be the source of the majority of regulated firearms used in the commission of violent crime. Let me repeat that the straw purchase of firearms through multiple sales was determined to be the source of the majority of regulated firearms used in the commission of violent crime.

Each multiple straw purchase tells a dramatic story. I'd like to give you two examples.

1. The first is that of a 32-year old male who was recruited by a drug organization to purchase 9 9mm semi-automatic handguns from a Maryland regulated firearms dealer. Upon receipt of the handguns from the dealer, the young man immediately provided them to a member of the hierarchy of the drug organization who then distributed the handguns to drug traffickers whom he controlled. Within a few weeks, two of the 9mm handguns were used in two separate homicides.

2. A second example is that of a young man who purchased 11 9mm and 45 caliber semi-automatic handguns from a Maryland regulated firearms dealer. A short time later, the same resident returned to the same regulated firearms dealer and purchased 30 more semi-automatic handguns. An investigation was initiated which revealed that all 41 semi-automatic handguns were smuggled out of the United States and into the country of Nigeria in violation of both United States and Nigerian law.

In 1996, through the efforts of Governor Glendening, the Maryland legislature passed a comprehensive violence reduction initiative entitled, The Gun Violence Act of 1996. This act limited the purchase of a regulated firearm to one in a 30-day period and also required a background check and 7-day waiting period for secondary sales of regulated firearms between individuals. (Three charts; regulated firearm definition, secondary sale definition, and secondary sale regs.)

Maryland's one gun a month law limits the number of handguns an individual can purchase to only one during a 30-day period not per calendar month. There are codified provisions for specific exceptions to the law. They are enumerated on the chart displayed before you. (Two charts; exceptions to one/month and Maryland State Police From 77M (multiple purchase).

(1) Residents may apply to the Maryland State Police to be designated as private collectors.

(2) Residents may purchase two handguns during a single visit to a licensed gun dealer if the dealer has offered a second handgun at a discount when purchased with the first. Under this exception the resident cannot purchase another handgun for 60 days.

(3) Law enforcement agencies and licensed private security organizations are exempt from the multiple purchase law when purchasing handguns for use by their employees.

(4) Residents may purchase more than one handgun if they are part of a set or sequential serial numbers as in an accepted collector series.

(5) To facilitate the replacement of a firearm that was lost or stolen with documentation from a law enforcement agency.

(6) To facilitate the replacement of a defective firearm by the same regulated firearms dealer with 30 days of purchase.

(7) Lastly the one gun in 30 days provision does not apply to estate sales.

As a result of this legislation, the number of firearms acquired through multiple purchases have reduced significantly.

In addition, and perhaps most telling effect, is the drastic decrease in the number of guns initially purchased in Maryland that have been recovered as a result of crimes in other States.

By comparing the one year period prior to the enactment of Maryland's multiple purchase legislation, which became effective on October 1, 1996, with the year following its enactment, you can clearly see the dramatic results (two charts; multiple sales bar chart comparison, and multiple sales graph)

From October, 1, 1995, to September 30, 1996, 7,569 handguns were sold in Maryland, as a result of multiple purchases.

From October 1, 1996, to September 30, 1997, that number was reduced to 1,618 handguns which were sold as a result of multiple purchases, a seventy eight percent (78%) (59% difference) reduction in firearms acquired through multiple purchases.

In 1991 Maryland was nationally ranked second in terms of suppliers of crime guns to the city of New York. By 1997, one year after the passage of Maryland's one gun a month law, Maryland moved out of the top ten suppliers of crime guns to New York City.

Maryland is proud of its proactive firearms legislation. Our efforts to limit the supply of guns to the illegal market without adversely impacting upon law abiding citizens are strong and sincere. The multiple purchase allows for the quick acquisition of large numbers of regulated firearms by proscribed individuals. The one gun a month law in Maryland has shown that it is an effective means of disrupting the illegal diversion of firearms which are acquired through multiple purchases and will ultimately reduce the supply of firearms readily available to criminals.

Thank you again for the opportunity to appear before you today.●

TRIBUTE TO MICHAEL S. DALEY

●Mr. JEFFORDS. Mr. President, I rise today to pay tribute to Michael S. Daley who is retiring from over 30 years as an orderly at Fletcher Allen Hospital in Burlington, Vermont. Michael joined the hospital in the late 1960's and began his career as a health care worker. After a few years, he thought he would try his luck in California. He soon realized that Vermont was where he wanted to be. He rejoined the workers at the hospital in October 1970 and continued to be a care giver in every sense of the word. Michael is my wife, Liz's, bother. I can not count the number of times Vermonters' have come up to me to tell me how kind Michael had been to them when they were ill or injured.

Being an orderly was more than a job to Michael. It was a vocation. He was ever mindful of the importance of medical care, however, he never neglected the soul. Every one of his co-workers would tell you that Michael brought a sense of humor to everything he did. He would often bring his lunch to a patient's room and visit during this lunch break. Doctors, new to the O.R. or

leaving for other assignments, were regularly treated to lunches prepared by Michael in their honor. "Michael knows everyone", a co-worker stated. I think that Michael made it his business to get to know everyone. He would note when someone from our hometown of Shrewsbury, Vermont was hospitalized and he would pay them a visit. If a person wanted to talk, Michael would be there.

Michael is a religious man who lives his faith. His work in the Episcopal church in Milton, Vermont kept that small community alive for years. Along with his wife, Alice, and their three children, Michael is and has been very active in Saint Andrews Church in Colchester, Vermont. His faith has helped Michael go the extra mile in the care and comfort of his fellow Vermonters. His sense of humor has added sunshine to the lives of those he meets. Michael represents the millions of unsung heroes who care for and comfort our neighbors, family and friends. I wish to honor him and his life's work.●

COMMENDING THE WORK OF THE NATIONAL COMMEMORATIVE COMMITTEE FOR THE CENTENNIAL OF THE SUBMARINE FORCE

●Mr. WARNER. Mr. President, I rise today to pay tribute to the U.S. Navy Submarine Force as it approaches its 100 year anniversary and to commend to the work of the National Commemorative Committee for the Centennial of the Submarine Force.

The submarine force traces its beginnings to the spring morning of April 11, 1900. Following demonstration trials off Mount Vernon on the Potomac River, the Navy agreed to purchase the submarine boat USS *Holland* (SS-1). The USS *Holland* was named for its inventor John Holland. Inventors such as John Holland and Simon Lake had been experimenting in submarine design during the last decades of the nineteenth century. However, Mr. Holland was the first to give the submarine true mobility by using a gasoline engine on the surface and a battery supplying electric motors when submerged. It was due to the success of the USS *Holland* that the Navy pursued the submarine program. For this reason, the Submarine Force traditionally recognized April 11th as the anniversary of its establishment.

Dramatic improvements to the submarine have been made since the USS *Holland*. The diesel engine replaced the gasoline engine in 1912. All welded hulls, allowing submarines to submerge to much greater depths, were introduced in the 1930s. Radar and sonar were incorporated during World War II. It is with the introduction of nuclear power, however, that the submarine became a true submersible—limited in endurance only by the needs of its human crew.

Earlier this year the Naval Nuclear Propulsion Program celebrated its 50th anniversary. It was in 1948 that the leg-

endary Admiral Hyman Rickover, then a Captain, assigned himself the task of building a nuclear submarine. At that time, the technology that enabled the release of nuclear power was in its infancy. Just seven years later, the USS *Nautilus* put to sea under nuclear power. Today the Navy's nuclear submarine force is a crown jewel of our Nation's Defense arsenal.

In the year 2000, the Navy's Submarine Force will celebrate its 100th anniversary. The Secretary of the Navy has designated the period from January 2000 through December 2000 for the commemoration of the Centennial of the U.S. Submarine Force. The Director of Submarine Warfare, Rear Admiral Malcolm Fages, and the Submarine Warfare Division have the responsibility for overall coordination of commemorative activities with assistance of the National Commemorative Committee for the Centennial of the Submarine Force.

Mr. President, it is the work of the National Commemorative Committee and its chairman, Admiral Hank Chiles, that I wish to recognize today. Plans are already underway to observe the anniversary at appropriate occasions throughout the calendar year 2000. The National Commemorative Committee is planning events and ceremonies that will provide the opportunity for people to observe and experience the special world of the U.S. Navy Submarine Force and to become more acquainted with its rich and colorful history. Proposed events for 2000 include the opening of a Smithsonian exhibit, a birthday ball and the unveiling of a submarine stamp in Washington, DC, and participation in fleet week celebrations throughout the year.

I commend the dedicated effort of the National Commemorative Committee for the Centennial of the Submarine Force and urge my colleagues to support the Committee as they continue their work planning the centennial events.●

CELEBRATION OF THE REPUBLIC OF CHINA'S 87TH ANNIVERSARY NATIONAL DAY

●Mr. CLELAND. Mr. President, I rise today to celebrate the Republic of China's 87th Anniversary National Day on October 10, 1998. Taiwan has prospered beyond most people's wildest dreams despite its limited resources and vast population. The people of the United States have a special bond with the people of Taiwan, who have unflatteringly demonstrated to the world their commitment to democracy and democratic ideals. Taiwan is a vibrant, thriving country for the present and a model for the future—a model characterized by strong economic growth and respect for basic human rights and democratic freedoms.

Taiwan has been and will continue to be an important partner of the United States, economically, culturally, strategically, and politically. May God
