REPORT ON ACTIVITIES OF THE COMMITTEE ON APPROPRIATIONS DURING THE 105TH CONGRESS

DECEMBER 30, 1998.—Committed to the Committee of the Whole House on the State
of the Union and ordered to be printed

Mr. LIVINGSTON, from the Committee on Appropriations,
submitted the following

REPORT

The Committee on Appropriations is the principal arm through which the House of Representatives exercises its constitutional responsibility to provide funds for the operations of the various activities of the Federal Government. Clause 1(b) of Rule X of the House provides that the Committee shall have jurisdiction over the "Appropriation of the revenue for the support of the Government." This responsibility has basically been vested in the Committee since 1865.

The Committee has been established by the House with a membership of 60 during the 105th Congress. With relatively few exceptions, the responsibilities of the Committee are carried out through its 13 Subcommittees which in turn report to the full Committee. The Subcommittees are organized essentially on a functional basis with recognition of the existing structure of the Departments and agencies within the Executive Branch. (The jurisdictional assignments of Subcommittees during the 105th Congress are displayed in Appendix C.)

SUMMARY OF APPROPRIATIONS ACTIONS

At the close of the 105th Congress, discretionary spending fell \$125 billion below the President's projections for fiscal year 1999, that were included in his fiscal year 1994 budget. The cumulative number of program terminations made in the Committee developed bills over a 4-year period was 307. While holding the line on spending, important priorities were preserved and even increased. Some of these priorities included: Medical research at the National Institutes of Health (increased 15 percent in fiscal year 1999, increased 11 percent in fiscal year 1998); a \$75 million increase for the Food Safety Initiative in fiscal year 1999 (the initiative was increased \$34 million in fiscal year 1998); \$210 million for a new safe schools initiative; a \$100 million increase for the operation of the national parks for both fiscal year 1998 and fiscal year 1999; and a \$1.2 billion initiative for placing 100,000 teachers in the classroom.

Essential emergency funds were also provided in the fiscal year 1999 Omnibus Consolidated and Emergency Supplemental Appropriations Act. The funding included: \$7 billion in emergency supplemental aid for National Security and Military Readiness; a new \$690 million initiative to combat the spread of illegal drug use; \$6 billion in emergency aid to help farmers recover losses from weather and other disasters, and \$2.4 billion for antiterrorism efforts in the wake of embassy bombings in Nairobi and Dar-es-Salaam.

During both sessions of the 105th Congress, the Committee on Appropriations developed bills that restored the President's termination of the Education Block Grant (\$375 million), the Local Law Enforcement Block Grant (\$523 million), and the Juvenile Crime Block Grant (\$250 million). Also restored was the proposed termination of the \$650 million Child Survival and Disease Programs Fund in fiscal year 1998 and a \$47 million cut to the programs in fiscal year 1999.

An important emphasis was placed on channeling funding into block grant proposals, which send money directly to state and local governments, rather than programs that build new bureaucracies in Washington, D.C.

During the 105th Congress, the 13 Subcommittees conducted 315 days of hearings, receiving testimony from 5,928 witnesses. In the process, 172 volumes of hearings were generated, comprising 184,608 printed pages. The Committee also initiated or completed 72 reports from its Surveys and Investigations Staff and had underway or completed an additional 274 reports from the General Accounting Office during the 105th Congress.

The following is a tabular display of the appropriations actions of the Committee during the 105th Congress indicating the various bill numbers, dates, report numbers, amounts, and public law numbers:

H.R. 4328—The Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999. Provides full year funding for the programs that were originally in the following regular individual bills, in addition to Department of Transportation appropriations which this bill initially only contained; H.R. 4101, H.R. 4276, H.R. 4380, H.R. 4569, H.R. 4193, H.R. 4274, H.R. 4104. Approved October 21, 1998 (P.L. 105-277). It also provides emergency supplemental appropriations.

OVERSIGHT PLAN

Pursuant to clause 2(d)(1) of Rule X the Committee submitted the following Oversight Plan on February 10, 1997.

“For the 105th Congress the Committee intends to proceed in the following manner:

1. *Budget Overview Hearings.* Immediately upon receipt of the President’s budget the Committee will conduct its annual budget overview hearings on the recommendations of the President. These hearings will take testimony from the Secretary of the Treasury, the Chairman of the President’s Council of Economic Advisers, and the Director of the Office of Management and Budget.

2. *Subcommittee Hearings.* The Appropriations Committee has a long tradition of in-depth analysis of the President’s pending budget as well as the effective use of previously appropriated resources. For example, during the 104th Congress the Committee on Appropriations held 457 days of hearings, took testimony from 6,999 witnesses, and published 170 volumes of hearings totaling 174,576 pages. This level of oversight and investigation will continue during this Congress.

3. *Investigations.* In addition to formal oversight, the Committee utilizes various investigative agencies to conduct in-depth analysis of specific problem areas. These investigations are conducted by the Committee’s own Surveys and Investigations Staff, the General Accounting Office, the Congressional Research Service, and the Office of Technology Assessment. In the previous Congress, the Committee received 63 Surveys and Investigations studies and 191 investigative reports from the GAO.

4. *Appropriations Bills.* The ultimate exercise of oversight is the ‘power of the purse’ which the Committee takes as its highest responsibility. This allocation of scarce Federal dollars demands strict compliance with all budgetary concepts and strictures. The Committee intends to follow the requirements of the Congressional Budget and Control Act with regard to the subdivision of budget authority and outlays to the 13 subcommittees. Appropriations bills will be developed in accordance with the results of all the oversight activities in paragraphs 1, 2, and 3, above and brought to the floor for consideration within all relevant budgetary constraints.”

OVERSIGHT ACTIONS

For the 105th Congress, the Committee accomplished its oversight plan. As stated earlier, the Committee conducted extensive hearings. In the matter following this section, the details of investigations conducted by and for the Committee are provided. As a result of these hearings and investigations, the Committee was able to produce appropriations bills that were within all relevant budgetary constraints for the 105th Congress.

INVESTIGATIONS CONDUCTED BY THE COMMITTEE

In addition to and in support of the regular hearing process, the Committee conducted numerous studies of Federal projects and activities designed to assist in reaching decisions on specific funding levels covering a wide range of subjects. These studies were conducted by the Committee's Surveys and Investigations Staff, which has been in continuous existence since 1943.

The Committee has, over a number of years, delegated the authority to originate requests for investigations to its Subcommittees, with the concurrence of the Chairman and Ranking Minority Member of the Full Committee required to implement such requests.

When an investigation is ordered, expert investigators are assembled to conduct it and render a report thereon for the use of the Committee. The Committee delegates to this Staff the responsibility for selection of individual investigators, the criteria being competence and objectivity.

During the 105th Congress, the Surveys and Investigations Staff was tasked to conduct 72 investigations of operations and programs of various departments and agencies of the Federal Government and, in addition, completed and reported to the Committee on 11 investigations that had been directed during previous Congresses. Some of these efforts were of long duration, resulted in the preparation of multiple investigative products, and involved a sizable number of investigators. Examples of this type of investigation include an examination of the Readiness of Department of Defense Forces; Executive Branch Year 2000 Programming Deficiencies, Countermeasures Programs and Activities; U.S. Forest Service, Department of Agriculture (1) Controls and Funding Allocation Mechanisms (2) Project 615 and (3) Equal Opportunity Activities; and FBI International Operations.

Other investigations of shorter duration and with fewer investigators assigned, provided a quick response to the Committee. An example of such an inquiry was the one dealing with the Department of Energy Use of Funds For the Soviet-Designed Reactor Safety Program. This effort was highly focused and the period from the receipt of the request to its completion was approximately 10 weeks.

Most investigations undertaken by the Surveys and Investigations Staff fell somewhere in between the above extremes in terms of duration and the number of investigators committed. Notable examples of investigations conducted during the 105th Congress include:

- Special Supplemental Nutrition Program for Women, Infants, and Children
- NOAA Advanced Weather Interactive Processing System
- Certain Programs and Activities of the Tennessee Valley Authority
- Department of Energy Contracting Activities and Operations
- Relocation of U.S. Southern Command and U.S. Army South From Panama
- Administration, Management, and FY 1998 Budget Request of the Pentagon Renovation Project

- The U.S. Air Force F-22 Program
- National Railroad Passenger Corporation's Accounting For Appropriated Funds

During the 105th Congress, a total of 109 professionals, variously consisting of a small number of permanent staff, personnel on loan from 8 agencies of the Federal Government, as well as contractors were utilized to conduct these investigations and prepare the reports. A summary of the investigations requested by the various Subcommittees and completed or started during the 105th Congress follows. Twelve investigations dealt with classified intelligence matters and consequently are not otherwise identified below.

With respect to the above listing, it should be noted that since that studies originate with the Subcommittees, any information developed during the course of an investigation is reported to the Subcommittee which requested such study or examination as well as the Chairman and Ranking Minority Member of the Full Committee. This information may be released for publication only when the Subcommittee so determines as provided by Section 8 of the Committee's rules.

SUPPORT PROVIDED BY THE GAO

In addition to the information made available to the Committee through its Surveys and Investigation Staff, the Committee also utilizes the resources of the General Accounting Office. The Committee receives a copy of every GAO report addressed to the Congress. In recent years the scope of the GAO auditing and review capability has been enlarged to include management surveys. For over 20 years the GAO has extracted from those reports and compiled in separate volumes a list of so-called "significant audit findings" for special use by the Committee staff in the annual appropriations hearings. These findings relate to matters which are felt to require corrective action by the Committee's efforts, through legislation, or through administrative efforts. This compilation is designed to identify problem areas in an individual agency which might have applicability to other organizations.

Additionally, the Committee frequently calls upon GAO to make special studies and investigations.

A listing of some reports and staff studies by the Committee which were underway during the 105th Congress follows:

APPENDIX A

BACKGROUND OF THE COMMITTEE ON APPROPRIATIONS

On March 2, 1865, the House of Representatives separated the appropriating and banking and currency duties from the Committee on Ways and Means, which was first established in 1789, and assigned them to two new committees—the Committee on Appropriations and the Committee on Banking and Currency.

Until 1865, all “general” appropriations bills had been controlled in the House by the Committee on Ways and Means—also in charge of revenue measures and some other classes of substantive legislation.

MEMBERSHIP OF THE COMMITTEE

The new Committee on Appropriations—six Republicans and three Democrats—was appointed on December 11, 1865, in the 1st session of the 39th Congress, and first reported the general appropriations bills for the fiscal year 1867. By 1920, the number of members had grown to 21. It was changed that year to 35 and gradually increased to 50 by 1951, and now numbers 60 members with 34 Republicans and 26 Democrats.

COMMITTEE CHAIRMEN

Twenty-eight men, including the present incumbent, the Honorable Bob Livingston of Louisiana, have served as chairman of the Committee on Appropriations. The Honorable Clarence Cannon of Missouri, served as chairman nearly 19 years, although his term as chairman was of broken continuity. The Honorable George Mahon of Texas, served as chairman continuously longer than any other person, from May 18, 1964 to January 3, 1979. Several chairmen went on to higher or other important offices. One, James Garfield of Ohio, became President. Three, Samuel Randall of Pennsylvania, Joseph Cannon of Illinois, and Joseph Byrns of Tennessee, became Speaker of the House. Three later served in the U.S. Senate. One became Governor of his State. The list of distinctions is long. Interesting biographical sketches of 21 of the men are contained in House Document No. 299 of the 77th Congress.

THE GROWTH OF EXPENDITURES

In the early years of the Congress, a single general appropriation bill from the Ways and Means Committee met the needs of the country. The first bill, in 1789, appropriated \$639,000 and covered 13 lines of the printed statutes. Five years later, in 1794, the Army was supplied in a separate bill, then the Navy in 1799. This trend continued until in 1865, there were 10 bills passed over to the new Committee on Appropriations, not including deficiency bills. For fiscal year 1999, appropriations within the 13 subcommittees have provided a total of \$840.7 billion.

Until recent years, large sustained spending increases of the Federal Government usually occurred only in connection with wars. For several years prior to the Civil War, Federal expenditures averaged \$60,000,000 annually. By the peak of the war, in fiscal year

1865, expenditures amounted to \$1,297,555,224. The year following the war—fiscal year 1866—spending was reduced to \$520,809,417.

In the first year for which the new Committee on Appropriations reported the general bills, fiscal year 1867, total expenditures of the Government were \$357,542,675. In the ensuing 100 years the lowest expenditure level was \$236,964,327—in fiscal year 1878. The Spanish-American War period marked the high point for the remainder of the century; in fiscal year 1899 expenditures reached \$605,072,179, but by 1902 had dropped back to \$485,234,249. With the onset of World War I expenditures again crossed the billion-dollar mark in fiscal year 1917, reached a war peak of \$18,514,879,955 in fiscal year 1919, and receded by fiscal year 1927 to \$2,974,029,674, the lowest subsequent level.

By 1940, spending in appropriations bills had climbed to \$14.6 billion as a result mainly of various New Deal legislation—when we began meeting local problems with national programs. Since 1934, our national wealth has increased 41 times.

By 1943, the fiscal high point of World War II—some \$143.8 billion was being spent. After World War II spending declined to the \$30 billion range and then increased to \$91.1 billion in 1951 in connection with the Korean War.

After the Korean War, Federal spending in appropriations bills decreased to \$47.6 billion in 1954. This is the last period in the Federal budget in which spending has decreased. Every year after 1954 spending has steadily increased in order to help meet the needs facing the country.

THE BUDGET PROCESS

By the early 1970's new forces were at work calling for changes in the way in which Congress handled the budget and appropriations process.

One of the most compelling of these forces, although it was largely a temporary problem, was due to the "impoundment" of funds in fiscal year 1974 by the President. This was, in effect, a line item veto of funds for programs that were initiated or increased by the Congress. Many Members of Congress and certain special interest groups were outraged and extremely frustrated by the impoundments. Numerous court suits on various impoundments had been filed and were in the process of being heard.

A more serious reason for budget reform was due to the widely held belief that the budget was out of control. Deficits were mounting; so-called "uncontrollable" spending was climbing; and "back door" spending, i.e. spending provided other than through the Appropriations Committee, was increasing. It was also becoming clear that there was little, if any coordination between raising and spending revenues.

Additionally, there was a feeling among some Members of Congress that there needed to be other or additional ways to change the priorities of Federal spending. Because of these and other concerns, formal work was begun on improving the congressional budget process through the establishment of the Joint Study Committee on Budget Control.

The work of this Committee, the House Rules Committee, the Senate Committee on Government Operations, and the Senate Rules Committee eventually resulted in the adoption of the Congressional Budget and Impoundment Control Act of 1974.

APPENDIX B

PROVISIONS OF THE RULES OF THE HOUSE OF REPRESENTATIVES APPLICABLE TO THE JURISDICTION OF THE HOUSE COMMITTEE ON APPROPRIATIONS

Rule X

ESTABLISHMENT AND JURISDICTION OF STANDING COMMITTEES

The Committees and Their Jurisdiction

1. There shall be in the House the following standing committees, each of which shall have the jurisdiction and related functions assigned to it by this clause and clauses 2, 3, and 4; and all bills, resolutions, and other matters relating to subjects within the jurisdiction of any standing committee as listed in this clause shall (in accordance with and subject to clause 5) be referred to such committees, as follows:

* * * * *

(b) Committee on Appropriations

(1) Appropriation of the revenue for the support of the Government.

(2) Rescissions of appropriations contained in appropriation Acts.

(3) Transfers of unexpended balances.

(4) The amount of new spending authority (as described in the Congressional Budget Act of 1974) which is to be effective for a fiscal year, including bills and resolutions (reported by other committees) which provide new spending authority and are referred to the committee under clause 4 (a).

The committee shall include separate headings for "Rescissions" and "Transfers of Unexpended Balances" in any bill or resolution as reported from the committee under its jurisdiction specified in subparagraph (2) or (3), with all proposed rescissions and proposed transfers listed therein; and shall include a separate section with respect to such rescissions or transfers in the accompanying committee report. In addition to its jurisdiction under the preceding provisions of this paragraph, the committee shall have the fiscal oversight function provided for in clause 2 (b)(3) and the budget hearing function provided for in clause 4 (a).

* * * * *

General Oversight Responsibilities

2. (a) In order to assist the House in—

(1) its analysis, appraisal, and evaluation of (A) the application, administration, execution, and effectiveness of the laws enacted by the Congress, or (B) conditions and circumstances which may indicate the necessity or desirability of enacting new or additional legislation, and

(2) its formulation, consideration, and enactment of such modifications of or changes in those laws, and of such additional legislation, as may be necessary or appropriate,

the various standing committees shall have oversight responsibilities as provided in paragraph (b).

(b)(1) Each standing committee (other than the Committee on Appropriations and the Committee on the Budget) shall review and study, on a continuing basis, the application, administration, execution, and effectiveness of those laws, or parts of laws, the subject matter of which is within the jurisdiction of that committee and the organization and operation of the Federal agencies and entities having responsibilities in or for the administration and execution thereof, in order to determine whether such laws and the programs thereunder are being implemented and carried out in accordance with the intent of the Congress and whether such programs should be continued, curtailed, or eliminated. * * *

(3) The Committee on Appropriations shall conduct such studies and examinations of the organization and operation of executive departments and other executive agencies (including any agency the majority of the stock of which is owned by the Government of the United States) as it may deem necessary to assist it in the determination of matters within its jurisdiction.

* * * * *

Additional Functions of Committees

4. (a)(1)(A) The Committee on Appropriations shall, within thirty days after the transmittal of the Budget to the Congress each year, hold hearings on the Budget as a whole with particular reference to—

(i) the basic recommendations and budgetary policies of the President in the presentation of the Budget; and

(ii) the fiscal, financial, and economic assumptions used as bases in arriving at total estimated expenditures and receipts.

(B) In holding hearings pursuant to subdivision (A), the committee shall receive testimony from the Secretary of the Treasury, the Director of the Office of Management and Budget, the Chairman of the Council of Economic Advisers, and such other persons as the committee may desire.

(C) Hearings pursuant to subdivision (A), or any part thereof, shall be held in open session, except when the committee, in open session and with a quorum present, determines by roll call vote that the testimony to be taken at that hearing on that day may be related to a matter of national security: *Provided, however,* That the committee may by the same procedure close one subsequent day of hearing. A transcript of all such hearings shall be printed and a copy thereof furnished to each Member, Delegate, and the Resident Commissioner from Puerto Rico.

(D) Hearings pursuant to subdivision (A), or any part thereof, may be held before joint meetings of the committee and the Committee on Appropriations of the Senate in accordance with such procedures as the two committees jointly may determine.

(2) Whenever any bill or resolution which provides new spending authority described in Section 401 (c)(2)(C) of the Congressional Budget Act of 1974 is reported by a committee of the House and the amount of new budget authority which will be required for the fiscal year involved if such bill or resolution is enacted as so re-

ported exceeds the appropriate allocation of new budget authority reported as described in clause 4 (h) in connection with the most recently agreed to concurrent resolution on the budget for such fiscal year, such bill or resolution shall then be referred to the Committee on Appropriations with instructions to report it, with the committee's recommendations and (if the committee deems it desirable) with an amendment limiting the total amount of new spending authority provided in the bill or resolution, within 15 calendar days (not counting any day on which the House is not in session) beginning with the day following the day on which it is so referred. If the Committee on Appropriations fails to report the bill or resolution within such 15-day period, the committee shall be automatically discharged from further consideration of the bill or resolution and the bill or resolution shall be placed on the appropriate calendar.

(3) In addition, the Committee on Appropriations shall study on a continuing basis those provisions of law which (on the first day of the first fiscal year for which the congressional budget process is effective) provide spending authority of permanent budget authority, and shall report to the House from time to time its recommendations for terminating or modifying such provisions.

APPENDIX D

Committee on Appropriations**COMMITTEE RULES**

(Adopted for the 105th Congress on February 5, 1997)

(Revised for the 105th Congress on February 12, 1997)

RESOLVED, That the rules and practices of the Committee on Appropriations, House of Representatives, in the One Hundred Fourth Congress, except as otherwise provided hereinafter, shall be and are hereby adopted as the rules and practices of the Committee on Appropriations in the One Hundred Fifth Congress.

The foregoing resolution adopts the following rules:

Sec. 1: Power to Sit and Act

For the purpose of carrying out any of its functions and duties under Rules X and XI of the Rules of the House of Representatives, the Committee or any of its subcommittees is authorized:

(a) To sit and act at such times and places within the United States whether the House is in session, has recessed, or has adjourned, and to hold such hearings; and

(b) To require, by subpoena or otherwise, the attendance and testimony of such witnesses and the production of such books, reports, correspondence, memorandums, papers, and documents as it deems necessary. The Chairman, or any Member designated by the Chairman, may administer oaths to any witness.

(c) A subpoena may be authorized and issued by the Committee or its subcommittees under subsection 1 (b) in the conduct of any investigation or activity or series of investigations or activities, only when authorized by a majority of the Members of the Committee voting, a majority being present. The power to authorize and issue subpoenas under subsection 1 (b) may be delegated to the Chairman pursuant to such rules and under such limitations as the Committee may prescribe. Authorized subpoenas shall be signed by the Chairman or by any Member designated by the Committee.

(d) Compliance with any subpoena issued by the Committee or its subcommittees may be enforced only as authorized or directed by the House.

Sec. 2: Subcommittees

(a) The Majority Caucus of the Committee shall establish the number of subcommittees and shall determine the jurisdiction of each subcommittee.

(b) Each subcommittee is authorized to meet, hold hearings, receive evidence, and report to the Committee all matters referred to it.

(c) All legislation and other matters referred to the Committee shall be referred to the subcommittee of appropriate jurisdiction

within two weeks unless, by majority vote of the Majority Members of the full Committee, consideration is to be by the full Committee.

(d) The Majority Caucus of the Committee shall determine an appropriate ratio of Majority to Minority Members for each subcommittee. The Chairman is authorized to negotiate that ratio with the Minority; *Provided, however,* That party representation in each subcommittee, including ex-officio members, shall be no less favorable to the Majority than the ratio for the full Committee.

(e) The Chairman and Ranking Minority Member of the full Committee are authorized to sit as a member of all subcommittees and to participate, including voting, in all its work.

Sec. 3: Staffing

(a) **Committee Staff**—The Chairman is authorized to appoint the staff of the Committee, and make adjustments in the job titles and compensation thereof subject to the maximum rates and conditions established in Clause 6 (c) of Rule XI of the Rules of the House of Representatives. In addition, he is authorized, in his discretion, to arrange for their specialized training. The Chairman is also authorized to employ additional personnel as necessary.

(b) **Assistants to Members**—Each of the top twenty-one senior majority and minority Members of the full Committee may select and designate one staff member who shall serve at the pleasure of that Member. Such staff members shall be compensated at a rate, determined by the Member, not to exceed 75 per centum of the maximum established in Clause 6 (c) of Rule XI of the Rules of the House of Representatives; *Provided,* That Members designating staff members under this subsection must specifically certify by letter to the Chairman that the employees are needed and will be utilized for Committee work.

Sec. 4: Committee Meetings

(a) **Regular Meeting Day**—The regular meeting day of the Committee shall be the first Wednesday of each month while the House is in session, unless the Committee has met within the past 30 days or the Chairman considers a specific meeting unnecessary in the light of the requirements of the Committee business schedule.

(b) Additional and Special Meetings:

(1) The Chairman may call and convene, as he considers necessary, additional meetings of the Committee for the consideration of any bill or resolution pending before the Committee or for the conduct of other Committee business. The Committee shall meet for such purpose pursuant to that call of the Chairman.

(2) If at least three Committee Members desire that a special meeting of the Committee be called by the Chairman, those Members may file in the Committee Offices a written request to the Chairman for that special meeting. Such request shall specify the measure or matter to be considered. Upon the filing of the request, the Committee Clerk shall notify the Chairman.

(3) If within three calendar days after the filing of the request, the Chairman does not call the requested special meet-

ing to be held within seven calendar days after the filing of the request, a majority of the Committee Members may file in the Committee Offices their written notice that a special meeting will be held, specifying the date and hour of such meeting, and the measure or matter to be considered. The Committee shall meet on that date and hour.

(4) Immediately upon the filing of the notice, the Committee Clerk shall notify all Committee Members that such special meeting will be held and inform them of its date and hour and the measure or matter to be considered. Only the measure or matter specified in that notice may be considered at the special meeting.

(c) **Vice Chairman To Preside in Absence of Chairman**—A member of the majority party on the Committee or subcommittee thereof designated by the Chairman of the full Committee shall be vice chairman of the Committee or subcommittee, as the case may be, and shall preside at any meeting during the temporary absence of the chairman. If the chairman and vice chairman of the Committee or subcommittee are not present at any meeting of the Committee or subcommittee, the ranking member of the majority party who is present shall preside at that meeting.

(d) **Business Meetings:**

(1) Each meeting for the transaction of business, including the markup of legislation, of the Committee and its subcommittees shall be open to the public except when the Committee or its subcommittees, in open session and with a majority present, determines by roll call vote that all or part of the remainder of the meeting on that day shall be closed.

(2) No person other than Committee Members and such congressional staff and departmental representatives as they may authorize shall be present at any business or markup session which has been closed.

(e) **Committee Records:**

(1) The Committee shall keep a complete record of all Committee action, including a record of the votes on any question on which a roll call is demanded. The result of each roll call vote shall be available for inspection by the public during regular business hours in the Committee Offices. The information made available for public inspection shall include a description of the amendment, motion, or other proposition, and the name of each Member voting for and each Member voting against, and the names of those Members present but not voting.

(2) All hearings, records, data, charts, and files of the Committee shall be kept separate and distinct from the congressional office records of the Chairman of the Committee. Such records shall be the property of the House, and all Members of the House shall have access thereto.

(3) The records of the Committee at the National Archives and Records Administration shall be made available in accordance with Rule XXXVI of the Rules of the House, except that the Committee authorizes use of any record to which Clause 3 (b)(4) of Rule XXXVI of the Rules of the House would otherwise apply after such record has been in existence for 20 years. The

Chairman shall notify the Ranking Minority Member of any decision, pursuant to Clause 3 (b)(3) or Clause 4 (b) of Rule XXXVI of the Rules of the House, to withhold a record otherwise available, and the matter shall be presented to the Committee for a determination upon the written request of any Member of the Committee.

Sec. 5: Committee and Subcommittee Hearings

(a) **Overall Budget Hearings**—Overall budget hearings by the Committee, including the hearing required by Section 242 (c) of the Legislative Reorganization Act of 1970 and Clause 4 (a)(1) of Rule X of the Rules of the House of Representatives shall be conducted in open session except when the Committee in open session and with a majority present, determines by roll call vote that the testimony to be taken at that hearing on that day may be related to a matter of national security; except that the Committee may by the same procedure close one subsequent day of hearing. A transcript of all such hearings shall be printed and a copy furnished to each Member, Delegate, and the Resident Commissioner from Puerto Rico.

(b) Other Hearings:

(1) All other hearings conducted by the Committee or its subcommittees shall be open to the public except when the Committee or subcommittee in open session and with a majority present determines by roll call vote that all or part of the remainder of that hearing on that day shall be closed to the public because disclosure of testimony, evidence, or other matters to be considered would endanger the national security or would violate any law or Rule of the House of Representatives. Notwithstanding the requirements of the preceding sentence, a majority of those present at a hearing conducted by the Committee or any of its subcommittees, there being in attendance the number required under Section 5 (c) of these Rules to be present for the purpose of taking testimony, (1) may vote to close the hearing for the sole purpose of discussing whether testimony or evidence to be received would endanger the national security or violate Clause 2 (k)(5) of Rule XI of the Rules of the House of Representatives or (2) may vote to close the hearing, as provided in Clause 2 (k)(5) of such Rule. No Member of the House of Representatives may be excluded from nonparticipatory attendance at any hearing of the Committee or its subcommittees unless the House of Representatives shall by majority vote authorize the Committee or any of its subcommittees, for purposes of a particular series of hearings on a particular article of legislation or on a particular subject of investigation, to close its hearings to Members by the same procedures designated in this subsection for closing hearings to the public; *Provided, however,* That the Committee or its subcommittees may by the same procedure vote to close five subsequent days of hearings.

(2) Subcommittee chairmen shall coordinate the development of schedules for meetings or hearings after consultation with the Chairman and other subcommittee chairmen with a

view toward avoiding simultaneous scheduling of Committee and subcommittee meetings or hearings.

(3) Each witness who is to appear before the Committee or any of its subcommittees as the case may be, insofar as is practicable, shall file in advance of such appearance, a written statement of the proposed testimony and shall limit the oral presentation at such appearance to a brief summary, except that this provision shall not apply to any witness appearing before the Committee in the overall budget hearings.

(4) Each witness appearing in a nongovernmental capacity before the Committee, or any of its subcommittees as the case may be, shall to the greatest extent practicable, submit a written statement including a curriculum vitae and a disclosure of the amount and source (by agency and program) of any Federal grant (or subgrant thereof) or contract (or subcontract thereof) received during the current fiscal year or either of the two previous fiscal years by the witness or by an entity represented by the witness.

(c) **Quorum for Taking Testimony**—The number of Members of the Committee which shall constitute a quorum for taking testimony and receiving evidence in any hearing of the Committee shall be two.

(d) **Calling and Interrogation of Witnesses:**

(1) The Minority Members of the Committee or its subcommittees shall be entitled, upon request to the Chairman or subcommittee chairman, by a majority of them before completion of any hearing, to call witnesses selected by the Minority to testify with respect to the matter under consideration during at least one day of hearings thereon.

(2) The Committee and its subcommittees shall observe the five-minute rule during the interrogation of witnesses until such time as each Member of the Committee or subcommittee who so desires has had an opportunity to question the witness.

(e) **Broadcasting and Photographing of Committee Meetings and Hearings**—Whenever a hearing or meeting conducted by the full Committee or any of its subcommittees is open to the public, those proceedings shall be open to coverage by television, radio, and still photography, except as provided in paragraph (f)(2) of the Rules of the House of Representatives. Neither the full Committee Chairman or Subcommittee Chairman shall limit the number of television or still cameras to fewer than two representatives from each medium.

(f) **Subcommittee Meetings**—No subcommittee shall sit while the House is reading an appropriation measure for amendment under the five-minute rule or while the Committee is in session.

(g) **Public Notice of Committee Hearings**—The Chairman of the Committee shall make public announcement of the date, place, and subject matter of any Committee or subcommittee hearing at least one week before the commencement of the hearing. If the Chairman of the Committee or subcommittee, with the concurrence of the ranking minority member of the Committee or respective subcommittee, determines there is good cause to begin the hearing sooner, or if the Committee or subcommittee so determines by majority vote, a quorum being present for the transaction of business,

the Chairman or subcommittee chairman shall make the announcement at the earliest possible date. Any announcement made under this subparagraph shall be promptly published in the Daily Digest and promptly entered into the Committee scheduling service of the House Information Systems.

Sec. 6: Procedures for Reporting Bills and Resolutions

(a) Prompt Reporting Requirement:

(1) It shall be the duty of the Chairman to report, or cause to be reported promptly to the House any bill or resolution approved by the Committee and to take or cause to be taken necessary steps to bring the matter to a vote.

(2) In any event, a report on a bill or resolution which the Committee has approved shall be filed within seven calendar days (exclusive of days in which the House is not in session) after the day on which there has been filed with the Committee Clerk a written request, signed by a majority of Committee Members, for the reporting of such bill or resolution. Upon the filing of any such request, the Committee Clerk shall notify the Chairman immediately of the filing of the request. This subsection does not apply to the reporting of a regular appropriation bill or to the reporting of a resolution of inquiry addressed to the head of an executive department.

(b) **Presence of Committee Majority**—No measure or recommendation shall be reported from the Committee unless a majority of the Committee was actually present.

(c) **Roll Call Votes**—With respect to each roll call vote on a motion to report any measure or matter of a public character, and on any amendment offered to the measure or matter, the total number of votes cast for and against, and the names of those Members voting for and against, shall be included in the Committee report on the measure or matter.

(d) **Compliance With Congressional Budget Act**—A Committee report on a bill or resolution which has been approved by the Committee shall include the statement required by Section 308(a) of the Congressional Budget Act of 1974, separately set out and clearly identified, if the bill or resolution provides new budget authority.

(e) **Constitutional Authority Statement**—Each report of the committee on a bill or joint resolution of a public character shall include a statement citing the specific powers granted to the Congress in the Constitution to enact the law proposed by the bill or joint resolution.

(f) **Changes in Existing Law**—Each Committee report on a general appropriation bill shall contain a concise statement describing fully the effect of any provision of the bill which directly or indirectly changes the application of existing law.

(g) **Rescissions and Transfers**—Each bill or resolution reported by the Committee shall include separate headings for rescissions and transfers of unexpended balances with all proposed rescissions and transfers listed therein. The report of the Committee accompanying such a bill or resolution shall include a separate section with respect to such rescissions or transfers.

(h) **Listing of Unauthorized Appropriations**—Each Committee report on a general appropriations bill shall contain a list of all appropriations contained in the bill for any expenditure not previously authorized by law (except for classified intelligence or national security programs, projects, or activities).

(i) **Supplemental or Minority Views:**

(1) If, at the time the Committee approves any measure or matter, any Committee Member gives notice of intention to file supplemental, minority, or additional views, the Member shall be entitled to not less than two additional calendar days after the day of such notice (excluding Saturdays, Sundays, and legal holidays) in which to file such views in writing and signed by the Member, with the Clerk of the Committee. All such views so filed shall be included in and shall be a part of the report filed by the Committee with respect to that measure or matter.

(2) The Committee report on that measure or matter shall be printed in a single volume which—

(i) shall include all supplemental, minority, or additional views which have been submitted by the time of the filing of the report, and

(ii) shall have on its cover a recital that any such supplemental, minority, or additional views are included as part of the report.

(3) Subsection (h)(1) of this section, above, does not preclude—

(i) the immediate filing or printing of a Committee report unless timely request for the opportunity to file supplemental, minority, or additional views has been made as provided by such subsection; or

(ii) the filing by the Committee of a supplemental report on a measure or matter which may be required for correction of any technical error in a previous report made by the Committee on that measure or matter.

(4) If, at the time a subcommittee approves any measure or matter for recommendation to the full Committee, any Member of that subcommittee who gives notice of intention to offer supplemental, minority, or additional views shall be entitled, insofar as is practicable and in accordance with the printing requirements as determined by the subcommittee, to include such views in the Committee Print with respect to that measure or matter.

(j) **Availability of Reports**—A copy of each bill, resolution, or report shall be made available to each Member of the Committee at least three calendar days (excluding Saturdays, Sundays, and legal holidays) in advance of the date on which the Committee is to consider each bill, resolution, or report; *Provided*, That this subsection may be waived by agreement between the Chairman and the Ranking Minority Member of the full Committee.

Sec. 7: Voting

(a) No vote by any Member of the Committee or any of its subcommittees with respect to any measure or matter may be cast by proxy.

(b) The vote on any question before the Committee shall be taken by the yeas and nays on the demand of one-fifth of the Members present.

Sec. 8: Studies and Examinations

The following procedure shall be applicable with respect to the conduct of studies and examinations of the organization and operation of Executive Agencies under authority contained in Section 202 (b) of the Legislative Reorganization Act of 1946 and in Clause 2 (b)(3) of Rule X, of the Rules of the House of Representatives:

(a) The Chairman is authorized to appoint such staff and, in his discretion, arrange for the procurement of temporary services of consultants, as from time to time may be required.

(b) Studies and examinations will be initiated upon the written request of a subcommittee which shall be reasonably specific and definite in character, and shall be initiated only by a majority vote of the subcommittee, with the chairman of the subcommittee and the ranking minority member thereof participating as part of such majority vote. When so initiated such request shall be filed with the Clerk of the Committee for submission to the Chairman and the Ranking Minority Member and their approval shall be required to make the same effective. Notwithstanding any action taken on such request by the chairman and ranking minority member of the subcommittee, a request may be approved by a majority of the Committee.

(c) Any request approved as provided under subsection (b) shall be immediately turned over to the staff appointed for action.

(d) Any information obtained by such staff shall be reported to the chairman of the subcommittee requesting such study and examination and to the Chairman and Ranking Minority Member, shall be made available to the members of the subcommittee concerned, and shall not be released for publication until the subcommittee so determines.

(e) Any hearings or investigations which may be desired, aside from the regular hearings on appropriation items, when approved by the Committee, shall be conducted by the subcommittee having jurisdiction over the matter.

Sec. 9: Official Travel

(a) The chairman of a subcommittee shall approve requests for travel by subcommittee members and staff for official business within the jurisdiction of that subcommittee. The ranking minority member of a subcommittee shall concur in such travel requests by minority members of that subcommittee and the Ranking Minority Member shall concur in such travel requests for Minority Members of the Committee. Requests in writing covering the purpose, itinerary, and dates of proposed travel shall be submitted for final approval to the Chairman. Specific approval shall be required for each and every trip.

(b) The Chairman is authorized during the recess of the Congress to approve travel authorizations for Committee Members and staff, including travel outside the United States.

(c) As soon as practicable, the Chairman shall direct the head of each Government agency concerned not to honor requests of subcommittees, individual Members, or staff for travel, the direct or indirect expenses of which are to be defrayed from an executive appropriation, except upon request from the Chairman.

(d) In accordance with Clause 2 (n) of Rule XI of the Rules of the House of Representatives and Section 502 (b) of the Mutual Security Act of 1954, as amended, local currencies owned by the United States shall be available to Committee Members and staff engaged in carrying out their official duties outside the United States, its territories, or possessions. No Committee Member or staff member shall receive or expend local currencies for subsistence in any country at a rate in excess of the maximum per diem rate set forth in applicable Federal law.

(e) **Travel Reports:**

(1) Members or staff shall make a report to the Chairman on their travel, covering the purpose, results, itinerary, expenses, and other pertinent comments.

(2) With respect to travel outside the United States or its territories or possessions, the report shall include: (1) an itemized list showing the dates each country was visited, the amount of per diem furnished, the cost of transportation furnished, and any funds expended for any other official purpose; and (2) a summary in these categories of the total foreign currencies and/or appropriated funds expended. All such individual reports on foreign travel shall be filed with the Chairman no later than sixty days following completion of the travel for use in complying with reporting requirements in applicable Federal law, and shall be open for public inspection.

(3) Each Member or employee performing such travel shall be solely responsible for supporting the amounts reported by the Member or employee.

(4) No report or statement as to any trip shall be publicized making any recommendations in behalf of the Committee without the authorization of a majority of the Committee.

(f) Members and staff of the Committee performing authorized travel on official business pertaining to the jurisdiction of the Committee shall be governed by applicable laws or regulations of the House and of the Committee on House Oversight pertaining to such travel, and as promulgated from time to time by the Chairman.
