IN THE SENATE OF THE UNITED STATES

SEPTEMBER 14, 1999

Received and referred to the Committee on Commerce, Science, and
Transportation

CONCURRENT RESOLUTION

Expressing the sense of Congress regarding the importance
of “family friendly” programming on television.

Whereas American children and adolescents spend between
22 and 28 hours per week viewing television;

Whereas American homes have an average of 2.75 television
sets, and 87 percent of homes with children have more
than one television set;

Whereas there is a need to increase the availability programs suitable for the entire family during prime time viewing hours;

Whereas surveys of television content demonstrate that many programs contain substantial sexual or violent content;

Whereas although parents are ultimately responsible for appropriately supervising their children's television viewing, it is also important to provide positive, "family friendly" programming that is suitable for parents and children to watch together;

Whereas efforts should be made by television networks, studios, and the production community to produce more quality family friendly programs and to air them during times when parents and children are likely to be viewing together;

Whereas members of the Family Friendly Programming Forum are concerned about the availability of family friendly television programs during prime time viewing hours; and

Whereas Congress encourages activities by the Forum and other entities designed to promote family friendly programming, including—

(1) participating in meetings with leadership of major television networks, studios, and production companies to express concerns;

(2) expressing the importance of family friendly programming at industry conferences, meetings, and forums;

(3) honoring outstanding family friendly television programs with a new tribute, the Family Program Awards, to be held annually in Los Angeles, California;

(4) establishing a development fund to finance family friendly scripts; and

(5) underwriting scholarships at television studies departments at institutions of higher education to encourage student interest in family friendly programming; Now, therefore, be it
