

106TH CONGRESS  
1ST SESSION

# H. R. 1794

Concerning the participation of Taiwan in the World Health Organization  
(WHO).

---

## IN THE HOUSE OF REPRESENTATIVES

MAY 13, 1999

Mr. BROWN of Ohio (for himself and Mr. CHABOT) introduced the following  
bill; which was referred to the Committee on International Relations

---

## A BILL

Concerning the participation of Taiwan in the World Health  
Organization (WHO).

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. CONCERNING THE PARTICIPATION OF TAIWAN**

4                       **IN THE WORLD HEALTH ORGANIZATION**

5                       **(WHO).**

6       (a) FINDINGS.—The Congress makes the following  
7       findings:

8               (1) Good health is a basic right for every citizen  
9       of the world and access to the highest standards of

1 health information and services is necessary to help  
2 guarantee this right.

3 (2) Direct and unobstructed participation in  
4 international health cooperation forums and pro-  
5 grams is therefore crucial, especially with today's  
6 greater potential for the cross-border spread of var-  
7 ious infectious diseases such as AIDS.

8 (3) The World Health Organization (WHO) set  
9 forth in the first chapter of its charter the objective  
10 of attaining the highest possible level of health for  
11 all people.

12 (4) In 1977, the World Health Organization es-  
13 tablished "Health For All By The Year 2000" as its  
14 overriding priority and reaffirmed that central vision  
15 with the initiation of its "Health For All" renewal  
16 process in 1995.

17 (5) Taiwan's population of 21,000,000 people is  
18 larger than that of 3/4 of the member states already  
19 in the World Health Organization.

20 (6) Taiwan's achievements in the field of health  
21 are substantial, including one of the highest life ex-  
22 pectancy levels in Asia, maternal and infant mor-  
23 tality rates comparable to those of western countries,  
24 the eradication of such infectious diseases as chol-  
25 era, smallpox, and the plague, and the first to be rid

1 of polio and provide children with free hepatitis B  
2 vaccinations.

3 (7) The World Health Organization was unable  
4 to assist Taiwan with an outbreak of enterovirus 71  
5 which killed 70 Taiwanese children and infected  
6 more than 1,100 Taiwanese children in 1998.

7 (8) In recent years Taiwan has expressed a will-  
8 ingness to assist financially or technically in WHO-  
9 supported international aid and health activities, but  
10 has ultimately been unable to render such assist-  
11 ance.

12 (9) The World Health Organization allows ob-  
13 servers to participate in the activities of the organi-  
14 zation.

15 (10) The United States, in the 1994 Taiwan  
16 Policy Review, declared its intention to support Tai-  
17 wan's participation in appropriate international or-  
18 ganizations.

19 (11) In light of all of the benefits that Taiwan's  
20 participation in the World Health Organization  
21 could bring to the state of health not only in Tai-  
22 wan, but also regionally and globally, Taiwan and its  
23 21,000,000 people should have appropriate and  
24 meaningful participation in the World Health Orga-  
25 nization.

1       (b) REPORT.—Not later than September 21, 1999,  
2 the Secretary of State shall submit a report to the Con-  
3 gress on the efforts of the Secretary to fulfill the commit-  
4 ment made in the 1994 Taiwan Policy Review to more  
5 actively support Taiwan’s participation in international or-  
6 ganizations, in particular the World Health Organization  
7 (WHO).
