

Calendar No. 649

106TH CONGRESS  
2D SESSION**H. R. 4249**

IN THE SENATE OF THE UNITED STATES

MAY 16, 2000

Received; read twice and referred to the Committee on Foreign Relations

JUNE 28, 2000

Reported by Mr. HELMS, without amendment

**AN ACT**

To foster cross-border cooperation and environmental cleanup  
in Northern Europe.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Cross-Border Coopera-  
5 tion and Environmental Safety in Northern Europe Act  
6 of 2000”.

7 **SEC. 2. FINDINGS AND PURPOSE.**

8 (a) FINDINGS.—The Congress finds the following:

1           (1) Northern Europe is an increasingly vital  
2           part of Europe and one that offers great opportuni-  
3           ties for United States investment.

4           (2) Northern Europe offers an excellent oppor-  
5           tunity to make progress toward the United States vi-  
6           sion of a secure, prosperous, and stable Europe, in  
7           part because of—

8                   (A) historical tradition of regional coopera-  
9                   tion;

10                   (B) the opportunity to engage Russia in  
11                   positive, cooperative activities with its neighbors  
12                   to the west;

13                   (C) commitment by the Baltic states to re-  
14                   gional cooperation and integration into western  
15                   institutions; and

16                   (D) longstanding, strong ties with the  
17                   United States.

18           (3) The United States Northern Europe Initia-  
19           tive (NEI) provides the conceptual and operational  
20           framework for United States policy in the region, fo-  
21           cused on developing a regional network of coopera-  
22           tion in the important areas of business and trade  
23           promotion, law enforcement, the environment, en-  
24           ergy, civil society, and public health.

1           (4) A central objective of the United States  
2 Northern Europe Initiative is to promote cross-bor-  
3 der cooperation among the countries in the region.

4           (5) A wide variety of regional and cross-border  
5 projects have been initiated under the United States  
6 Northern Europe Initiative since the Initiative was  
7 established in 1997, including the following:

8           (A) A United States-Lithuanian training  
9 program for entrepreneurs from Belarus and  
10 Kaliningrad.

11           (B) The Great Lakes-Baltic Sea Partner-  
12 ship program that is being implemented by the  
13 Environmental Protection Agency.

14           (C) A Center of Excellence for Treatment  
15 of Multidrug-Resistant Tuberculosis in Riga,  
16 Latvia.

17           (D) A regional HIV/AIDS strategy being  
18 developed under United States and Finnish  
19 leadership.

20           (E) Multiple efforts to combat organized  
21 crime, including regional seminars for police of-  
22 ficers and prosecutors.

23           (F) Programs to encourage reform of the  
24 Baltic electricity market and encourage United  
25 States investment in such market.

1 (G) Language and job training programs  
2 for Russian-speaking minorities in Latvia and  
3 Estonia to promote social integration in those  
4 countries.

5 (H) A mentoring partnership program for  
6 woman entrepreneurs in the northwest region of  
7 Russia and the Baltic states, as part of broader  
8 efforts to promote women's participation in po-  
9 litical and economic life.

10 (6) Norway, Sweden, and Finland have made  
11 considerable efforts to provide assistance to the  
12 newly independent Baltic states and to the North-  
13 west region of Russia. In particular, the United  
14 States notes the request placed before the European  
15 Union by Finland in 1999 for the creation and ex-  
16 tensive funding by the European Union of a "North-  
17 ern Dimension" Initiative to substantially address  
18 the problems that now exist in Northern Europe  
19 with regard to economic development, protection of  
20 the environment, the safety and containment of nu-  
21 clear materials, and other issues.

22 (7) The United States commends the endorse-  
23 ment of the "Northern Dimension" Initiative by the  
24 European Council at its meeting in Helsinki, Fin-  
25 land in December 1999 and calls on the European

1 Union to act on that endorsement through the provi-  
2 sion of substantial funding for the Initiative.

3 (8) While the European Union, its member  
4 states, and other European countries should clearly  
5 take the lead in addressing the challenges posed in  
6 Northern Europe, in particular through appropriate  
7 yet substantial assistance provided by the European  
8 Union, the United States-Northern Europe Initia-  
9 tive, and this Act are intended to supplement such  
10 efforts and build on the considerable assistance that  
11 the United States has already provided to the Baltic  
12 states and the Russian Federation. Partnership with  
13 other countries in the region means modest United  
14 States investment can have significant impact.

15 (9) The United States Northern Europe Initia-  
16 tive's focus on regional environmental challenges is  
17 particularly important. Northern Europe is home to  
18 significant environmental problems, particularly the  
19 threat posed by nuclear waste from Russian sub-  
20 marines, icebreakers, and nuclear reactors.

21 (10) In particular, 21,000 spent fuel assemblies  
22 from Russian submarines are lying exposed near  
23 Andreeyeva Bay, nearly 60 dangerously decrepit nu-  
24 clear submarines, many in danger of sinking, are  
25 languishing in the Murmansk area of Northwest

1 Russia, whole reactors and radioactive liquid waste  
2 are stored on unsafe floating barges, and there are  
3 significant risks of marine and atmospheric contami-  
4 nation from accidents arising from loss of electricity  
5 or fire on deteriorating, poorly monitored nuclear  
6 submarines.

7 (11) This waste poses a threat to the safety  
8 and stability of Northern Europe and to countries of  
9 the Eurasian continent.

10 (12)(A) In addition, the Environmental Protec-  
11 tion Agency has facilitated the expansion and up-  
12 grading of a facility for the treatment of low-level  
13 liquid radioactive waste from the decommissioning of  
14 nuclear submarines docked at naval facilities in the  
15 Arctic region of Russia.

16 (B) The Environmental Protection Agency has  
17 also initiated a project to construct an 80-ton proto-  
18 type cask for the storage and transport of civilian-  
19 controlled spent nuclear fuel, much of it damaged  
20 and currently stored onboard an aging vessel an-  
21 chored in Murmansk Harbor. Currently in the de-  
22 sign phase, this project is scheduled for completion  
23 in 2000.

24 (13) Working with the countries in the region  
25 to address these environmental problems remains

1 vital to the long-term national interest of the United  
2 States.

3 (14) The United States and other countries are  
4 currently negotiating a number of agreements with  
5 Russia which will provide internationally accepted  
6 legal protections for the United States and other  
7 countries that provide nuclear waste management  
8 assistance to Russia. Regrettably, it has not yet been  
9 possible to resolve remaining differences over liabil-  
10 ity, taxation of assistance, privileges and immunities  
11 for foreign contractors, and audit rights.

12 (15) Concluding these agreements is vital to the  
13 continued provision of such assistance and to the  
14 possible development of new programs.

15 (16) With the election of Russian President  
16 Vladimir Putin, the opportunity presents itself to  
17 surmount these problems, to conclude these out-  
18 standing agreements, and to allow assistance pro-  
19 grams to move forward to alleviate this problem.

20 (17) The United States Government is cur-  
21 rently studying whether dismantlement of multi-pur-  
22 pose submarines is in the national interest.

23 (b) PURPOSE.—The purpose of this Act is to dem-  
24 onstrate concrete support for continued cross-border co-

1 operation in Northern Europe and immediate efforts to  
2 assist in the clean up of nuclear waste in that region.

3 **SEC. 3. SENSE OF THE CONGRESS.**

4 It is the sense of the Congress that—

5 (1) the United States Northern Europe Initia-  
6 tive is a sound framework for future United States  
7 involvement in Northern Europe;

8 (2) the European Union should move expedi-  
9 tiously to authorize and fund the proposed “North-  
10 ern Dimension” Initiative at appropriate yet sub-  
11 stantial levels of assistance;

12 (3) the United States should continue to sup-  
13 port a wide-ranging strengthening of democratic and  
14 civic institutions on a regional basis to provide a  
15 foundation for political stability and investment op-  
16 portunities, including cross-border exchanges, in  
17 Northern Europe;

18 (4) the United States should demonstrate con-  
19 tinued commitment to address environmental secu-  
20 rity challenges in Northwest Russia, in cooperation  
21 with partners in the region;

22 (5) recently-elected Russian President Vladamir  
23 Putin should rapidly conclude pending nuclear waste  
24 management agreements to enable assistance pro-  
25 grams to go forward; and

1           (6) assistance to Russia on nuclear waste man-  
2           agement should only be provided after issues related  
3           to liability, taxation of assistance, privileges and im-  
4           munities for foreign contractors, and audit rights  
5           have been resolved.

6   **SEC. 4. SUPPORT FOR UNITED STATES NORTHERN EUROPE**  
7                           **INITIATIVE PROJECTS.**

8           (a) AVAILABILITY OF AMOUNTS FROM EAST EURO-  
9   PEAN AND THE BALTIC STATES ASSISTANCE.—Of the  
10   amounts available for fiscal year 2001 to carry out the  
11   provisions of the Foreign Assistance Act of 1961 and the  
12   Support for Eastern European Democracy (SEED) Act  
13   of 1989 for assistance and for related programs for East-  
14   ern Europe and the Baltic States, not less than  
15   \$2,000,000 shall be used for projects described in sub-  
16   section (c).

17          (b) AVAILABILITY OF AMOUNTS FROM INDE-  
18   PENDENT STATES OF THE FORMER SOVIET UNION AS-  
19   SISTANCE.—Of the amounts available for fiscal year 2001  
20   to carry out the provisions of chapter 11 of part I of the  
21   Foreign Assistance Act of 1961 and the Freedom for Rus-  
22   sia and Emerging Eurasian Democracies and Open Mar-  
23   kets Support Act of 1992 for assistance for the inde-  
24   pendent states of the former Soviet Union and related pro-

1 grams, not less than \$2,000,000 shall be used for the  
2 projects described in subsection (c).

3 (c) PROJECTS DESCRIBED.—The projects described  
4 in this subsection are United States Northern Europe Ini-  
5 tiative projects relating to environmental cleanup, law en-  
6 forcement, public health, energy, business and trade pro-  
7 motion, and civil society.

8 **SEC. 5. REPORT ON ENVIRONMENTAL SECURITY.**

9 Not later than 180 days after the date of the enact-  
10 ment of this Act, the Secretary of State, in consultation  
11 with the heads of other appropriate Federal departments  
12 and agencies, shall prepare and submit to the Congress  
13 a report on—

14 (1) the threat to the environmental security of  
15 the countries of Northern Europe and other coun-  
16 tries of Europe and Asia presented by Russian ma-  
17 rine nuclear reactors, waste, and contamination; and

18 (2) identifying the possibilities for new and ex-  
19 panded United States and multilateral assistance  
20 programs for environmental clean-up in Northwest  
21 Russia, including technical exchanges and private-  
22 public partnerships.

23 **SEC. 6. DEFINITIONS.**

24 In this Act:

(2) UNITED STATES NORTHERN EUROPE INITIATIVE.—The term “United States Northern Europe Initiative” means the framework agreement established in 1997 between the United States and the countries of Northern Europe to promote stability in the Baltic Sea region and to strengthen key institutions and security structures of the United States and the countries of Northern Europe.
