Referred to the Committee on Resources

## AN ACT

To authorize the acquisition of the Valles Caldera, to provide for an effective land and wildlife management program for this resource within the Department of Agriculture, and for other purposes.

1        *Be it enacted by the Senate and House of Representa-*  
2        *tives of the United States of America in Congress assembled,*

1 **TITLE I—VALLES CALDERA NA-**  
2 **TIONAL PRESERVE AND**  
3 **TRUST**

4 **SEC. 101. SHORT TITLE.**

5 This title may be cited as the “Valles Caldera Preser-  
6 vation Act”.

7 **SEC. 102. FINDINGS AND PURPOSES.**

8 (a) FINDINGS.—Congress finds that—

9 (1) the Baca ranch comprises most of the  
10 Valles Caldera in central New Mexico, and con-  
11 stitutes a unique land mass, with significant sci-  
12 entific, cultural, historic, recreational, ecological,  
13 wildlife, fisheries, and productive values;

14 (2) the Valles Caldera is a large resurgent lava  
15 dome with potential geothermal activity;

16 (3) the land comprising the Baca ranch was  
17 originally granted to the heirs of Don Luis Maria  
18 Cabeza de Vaca in 1860;

19 (4) historical evidence, in the form of old log-  
20 ging camps and other artifacts, and the history of  
21 territorial New Mexico indicate the importance of  
22 this land over many generations for domesticated  
23 livestock production and timber supply;

24 (5) the careful husbandry of the Baca ranch by  
25 the current owners, including selective timbering,

1 limited grazing and hunting, and the use of pre-  
2 scribed fire, have preserved a mix of healthy range  
3 and timber land with significant species diversity,  
4 thereby serving as a model for sustainable land de-  
5 velopment and use;

6 (6) the Baca ranch's natural beauty and abun-  
7 dant resources, and its proximity to large municipal  
8 populations, could provide numerous recreational op-  
9 portunities for hiking, fishing, camping, cross-coun-  
10 try skiing, and hunting;

11 (7) the Forest Service documented the scenic  
12 and natural values of the Baca ranch in its 1993  
13 study entitled "Report on the Study of the Baca Lo-  
14 cation No. 1, Santa Fe National Forest, New Mex-  
15 ico", as directed by Public Law 101-556;

16 (8) the Baca ranch can be protected for current  
17 and future generations by continued operation as a  
18 working ranch under a unique management regime  
19 which would protect the land and resource values of  
20 the property and surrounding ecosystem while allow-  
21 ing and providing for the ranch to eventually become  
22 financially self-sustaining;

23 (9) the current owners have indicated that they  
24 wish to sell the Baca ranch, creating an opportunity

1 for Federal acquisition and public access and enjoy-  
2 ment of these lands;

3 (10) certain features on the Baca ranch have  
4 historical and religious significance to Native Ameri-  
5 cans which can be preserved and protected through  
6 Federal acquisition of the property;

7 (11) the unique nature of the Valles Caldera  
8 and the potential uses of its resources with different  
9 resulting impacts warrants a management regime  
10 uniquely capable of developing an operational pro-  
11 gram for appropriate preservation and development  
12 of the land and resources of the Baca ranch in the  
13 interest of the public;

14 (12) an experimental management regime  
15 should be provided by the establishment of a Trust  
16 capable of using new methods of public land man-  
17 agement that may prove to be cost-effective and en-  
18 vironmentally sensitive; and

19 (13) the Secretary may promote more efficient  
20 management of the Valles Caldera and the water-  
21 shed of the Santa Clara Creek through the assign-  
22 ment of purchase rights of such watershed to the  
23 Pueblo of Santa Clara.

24 (b) PURPOSES.—The purposes of this title are—

1           (1) to authorize Federal acquisition of the Baca  
2 ranch;

3           (2) to protect and preserve for future genera-  
4 tions the scientific, scenic, historic, and natural val-  
5 ues of the Baca ranch, including rivers and eco-  
6 systems and archaeological, geological, and cultural  
7 resources;

8           (3) to provide opportunities for public recre-  
9 ation;

10           (4) to establish a demonstration area for an ex-  
11 perimental management regime adapted to this  
12 unique property which incorporates elements of pub-  
13 lic and private administration in order to promote  
14 long term financial sustainability consistent with the  
15 other purposes enumerated in this subsection; and

16           (5) to provide for sustained yield management  
17 of Baca ranch for timber production and domes-  
18 ticated livestock grazing insofar as is consistent with  
19 the other purposes stated herein.

9 **TITLE II—FEDERAL LAND**  
10 **TRANSACTION FACILITATION**

11 **SEC. 201. SHORT TITLE.**

12 This title may be cited as the “Federal Land Trans-  
13 action Facilitation Act”.

14 **SEC. 202. FINDINGS.**

15 Congress finds that—

16 (1) the Bureau of Land Management has au-  
17 thority under the Federal Land Policy and Manage-  
18 ment Act of 1976 (43 U.S.C. 1701 et seq.) to sell  
19 land identified for disposal under its land use plan-  
20 ning;

21 (2) the Bureau of Land Management has au-  
22 thority under that Act to exchange Federal land for  
23 non-Federal land if the exchange would be in the  
24 public interest;

1           (3) through land use planning under that Act,  
2           the Bureau of Land Management has identified cer-  
3           tain tracts of public land for disposal;

4           (4) the Federal land management agencies of  
5           the Departments of the Interior and Agriculture  
6           have authority under existing law to acquire land  
7           consistent with the mission of each agency;

8           (5) the sale or exchange of land identified for  
9           disposal and the acquisition of certain non-Federal  
10          land from willing landowners would—

11           (A) allow for the reconfiguration of land  
12           ownership patterns to better facilitate resource  
13           management;

14           (B) contribute to administrative efficiency  
15           within Federal land management units; and

16           (C) allow for increased effectiveness of the  
17           allocation of fiscal and human resources within  
18           the Federal land management agencies;

19          (6) a more expeditious process for disposal and  
20          acquisition of land, established to facilitate a more  
21          effective configuration of land ownership patterns,  
22          would benefit the public interest;

23          (7) many private individuals own land within  
24          the boundaries of Federal land management units

1 and desire to sell the land to the Federal Govern-  
2 ment;

3 (8) such land lies within national parks, na-  
4 tional monuments, national wildlife refuges, national  
5 forests, and other areas designated for special man-  
6 agement;

7 (9) Federal land management agencies are fac-  
8 ing increased workloads from rapidly growing public  
9 demand for the use of public land, making it dif-  
10 ficult for Federal managers to address problems cre-  
11 ated by the existence of inholdings in many areas;

12 (10) in many cases, inholders and the Federal  
13 Government would mutually benefit from Federal  
14 acquisition of the land on a priority basis;

15 (11) proceeds generated from the disposal of  
16 public land may be properly dedicated to the acquisi-  
17 tion of inholdings and other land that will improve  
18 the resource management ability of the Federal land  
19 management agencies and adjoining landowners;

20 (12) using proceeds generated from the disposal  
21 of public land to purchase inholdings and other such  
22 land from willing sellers would enhance the ability of  
23 the Federal land management agencies to—

24 (A) work cooperatively with private land-  
25 owners and State and local governments; and

1 (B) promote consolidation of the ownership  
2 of public and private land in a manner that  
3 would allow for better overall resource manage-  
4 ment;

5 (13) in certain locations, the sale of public land  
6 that has been identified for disposal is the best way  
7 for the public to receive fair market value for the  
8 land; and

9 (14) to allow for the least disruption of existing  
10 land and resource management programs, the Bu-  
11 reau of Land Management may use non-Federal en-  
12 tities to prepare appraisal documents for agency re-  
13 view and approval consistent with applicable provi-  
14 sions of the Uniform Standards for Federal Land  
15 Acquisition.
