

open space and industrial use and downstream water supplies are protected. Moreover, billions of taxpayer dollars that have been used in the operations, security and cleanup of Rocky Flats can be reallocated to similar sites throughout the country.

Imagine, after more than 50 years as a top-secret nuclear weapons facility that contributed to winning the Cold War, the Rocky Flats acreage will once again be available to the people of Colorado. Please join me in congratulating the DOE, the State of Colorado, and the companies involved for this extraordinary effort.

IN RECOGNITION OF THE
REEDSBURG AREA HIGH SCHOOL
EARTH DAY CELEBRATION

HON. TAMMY BALDWIN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Ms. BALDWIN. Mr. Speaker, this afternoon, I pay tribute to the Reedsburg Area High School students and staff for their fantastic contributions in order to improve their environment, enrich their community, and celebrate Earth Day.

This year's Earth Day will be the ninth that the Reedsburg Area High School students and staff celebrate by volunteering their time. In previous years they have worked to maintain trails, clean and restore wilderness areas, and plant thousands of trees. With this tireless volunteer work they are making Wisconsin a better place for every citizen.

The students and staff at Reedsburg Area High School are also very special because of the amazing manner in which they celebrate Earth Day each year. As the Reedsburg students recently said to me in a letter, they are not "just another high school planting a tree." The entire high school, including over 900 students and staff work together on this day. They also branch out to other communities. This year they will send an astounding 26 work crews to different locations surrounding the Reedsburg area!

Americans are increasingly learning the benefits of youth service and focusing that work in the preservation of our environment. The students and staff of Reedsburg Area High School are pioneers in an effort that engages and empowers young people while connecting them with adults that provide education and guidance. It is an effort that views young people as assets and resources to their community. They are setting an impressive example for all people, young and old, across Wisconsin and the nation.

ARMENIAN GENOCIDE

SPEECH OF

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 12, 2000

Ms. PELOSI. Mr. Speaker, I rise today in memory of the victims of one of history's most terrible tragedies, the Armenian Genocide that took place in Turkey between 1915 and 1923. This antecedent for all subsequent 20th-cen-

tury genocides began on April 24, 1915, when the rulers of the Ottoman Empire began the systematic and ruthless extermination of the Armenian minority in Turkey. By the end of the Terror, more than a million Armenian men, women, and children had been massacred and more than half a million others had been expelled from the homeland that their forebearers had inhabited for three millennia.

April 24, 1915 is remembered and commemorated each year by the Armenian community and people of conscience throughout the world. The Armenian Genocide is a historical fact. The Republic of Turkey has adamantly refused to acknowledge that the Genocide happened on its soil but the evidence is irrefutable.

As we enter the Third Millennium of the Christian Era, it behooves us to remember. If we ignore the lessons of the Armenian Genocide, then we are destined to continue our stumbles through the long, dark tunnel of endless ethnic-cleansings, genocides, and holocausts. Let us, then, remember to remember.

SUPPORTING THE BREAST AND
CERVICAL CANCER TREATMENT
ACT

HON. PAUL RYAN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. RYAN of Wisconsin. Mr. Speaker, I am here today to speak in support of H.R. 1070, the Breast and Cervical Cancer Treatment Act. I believe this bill, which provides coverage for low-income women who have been diagnosed with breast or cervical cancer, provides a logical expansion of early detection efforts throughout the nation.

The federal government, through the Center for Disease Control and Prevention, currently provides screening for early detection of breast and cervical cancer. This bill would provide the next step by giving states the option of receiving an enhanced match through Medicaid if they choose to offer treatment services for women who have been diagnosed with breast or cervical cancer during the screening process.

As a member of the House Budget Committee, I offered an amendment, which was accepted, to provide funding for these services in the Medicaid program. Now that this funding has been set aside, it is time to bring H.R. 1070 to the floor. The principles of this bill have been agreed to in the budget, and it is now time to bring the actual bill to the floor for a vote.

I urge the House to consider this bill before Mother's Day as a statement of our sincere commitment to the millions of women in this country who suffer from these diseases.

IN HONOR OF DR. NESTOR
CARBONELL-CORTINA FOR HIS
LIFE-LONG COMMITMENT TO
FREEDOM AND DEMOCRACY

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Mr. MENENDEZ. Mr. Speaker, I honor Dr. Nestor Carbonell-Cortina for his life-long commitment to freedom and democracy.

Born in Havana, Cuba, Dr. Carbonell-Cortina understood early in his life that the price for freedom is high; that the fight for freedom is long; and that the cost for freedom is often paid for with the lives of those who never knew it.

In 1960, shortly after Castro seized control of Cuba, Dr. Carbonell-Cortina was forced to leave his native land, fleeing the oppressive communist rule imposed by the Castro regime. However, he returned and courageously fought in the Bay of Pigs Invasion, hoping to restore freedom to his homeland. In 1962, Dr. Carbonell-Cortina was responsible for the diplomatic strategy that removed the Castro regime from the Organization of the American States.

With the publication of numerous articles, essays and speeches, Dr. Carbonell-Cortina has continued his fight for freedom and his opposition to the Castro regime. Among his many publications are: *El Espiritu de la Constitucion de 1940*; *Perfil Historico del IV Presidente de Cuba*; *Cortina: Tribuno de la Republica*; *And the Russians Stayed*; *y Por La Libertad de Cuba: Una Historia Inconclusa*.

Dr. Carbonell-Cortina graduated from the University of Villanueva in the city of Havana with a law degree, and received his MA from Harvard. Currently, he is Vice President of International Relations for PepsiCo., Inc.

I ask my colleagues to join me in congratulating Dr. Nestor Carbonell-Cortina for his courageous commitment to the pursuit of freedom in the face of extraordinary opposition.

A TRIBUTE TO ROSE KEMP

HON. KAREN MCCARTHY

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 13, 2000

Ms. MCCARTHY of Missouri. Mr. Speaker, today I pay tribute to an outstanding individual from the State of Missouri. On April 27th, the Missouri Women's Council will honor Rose Kemp, Regional Administrator of the Women's Bureau, U.S. Department of Labor, with an award named on her behalf, the "Rose Kemp Public Service Award."

Ms. Rose Kemp was appointed as Regional Administrator of the Women's Bureau in 1983. She is responsible for policy development and implementation of workplace issues affecting women. In this role, Ms. Kemp has produced outstanding results by her commitment to promote the welfare of wage earning women, improve their working conditions, and advance their opportunities for profitable employment.

Ms. Kemp serves on numerous boards such as the Greater Kansas City Urban League, Francis Child Development Institute, and the Women's Council at the University of Missouri—Kansas City. All have profited from Ms.
