### SUMMARY OF BILL

The bill, as recommended by the Committee, provides appropriations for fiscal year 2000 legislative branch operations, which totals \$1,916,967,000. Of that amount, \$1,178,027,000 is for congressional operations and \$738,940,000 is for other agencies.

A summary of the recommendations follows:

<i>Fiscal year 2000</i>	<i>Amount</i>
Congressional operations .....	<sup>1</sup> \$1,178,027,000
Other agencies .....	738,940,000
Total .....	1,916,967,000

<sup>1</sup>Excludes Senate items, including those Senate items under the Architect of the Capitol.

Conforming with long practice under which each body of Congress determines its own housekeeping requirements and the other concurs without intervention, funds for the Senate are not included in the bill as reported to the House. Current appropriations estimates for the Senate for fiscal year 2000, including those under the Architect of the Capitol, total \$574,852,000.

## HIGHLIGHTS OF BILL

## SUMMARY OF ESTIMATES AND RECOMMENDATIONS

*Budget estimates.*—The budget estimates considered by the Committee total \$2,033,129,000. By law, budget requests for the legislative branch are transmitted to the Congress by the Office of Management and Budget (OMB) and the President without change in the amounts submitted by the originating agency. The 2000 proposals appear on pages 391 through 396 of the “Analytical Perspectives” volume, and pages 17 through 45 of the “Appendix” volume of the 2000 Federal Budget (H. Doc. 106–3)

*Committee recommendations.*—A total of \$1,916,967,000 in new budget (obligational) authority is recommended for fiscal year 2000. The recommendation is \$116,162,000 less than was transmitted to the Congress, a decrease of 5.7 percent under the budget request. The bill, as reported, is \$575,000,000 below the 302(b) allocation established by the Committee on Appropriations. The bill does not include Senate items. If the Senate items were included at the level specified in the Committee’s 302(b) limits, the bill would be equal to the amount allocated to the Subcommittee on Legislative.

The recommendations in this bill continue an effort begun in the 104th Congress to insure the Legislative Branch is a full participant as the Federal budget is brought into balance. With the enactment of this bill, the five-year savings under the spending level adopted in the 103rd Congress (Senate items excluded) will total \$1.2 billion in 1999 dollars. (See chart on page 6.) That is the amount of accumulated savings that has resulted from downsizing and reducing legislative branch expenditures compared to the Legislative budget if it had grown at the trend established by the annual appropriations enacted during the 1990–1995 time period.

*Staffing.*—For the past several years, the Committee has eliminated legislative branch jobs through the annual funding process, has generally denied funding for net staffing increases, or provided only those positions with very high priority. In this bill, funding for 98 full time equivalent positions (FTE’s) are being eliminated from legislative agency rolls. Since 1994, the agencies of the legislative branch have eliminated 4,412 FTE jobs. (See chart on page 7.) That is about 16% of this branch of government that has been downsized through efficiencies or program eliminations.

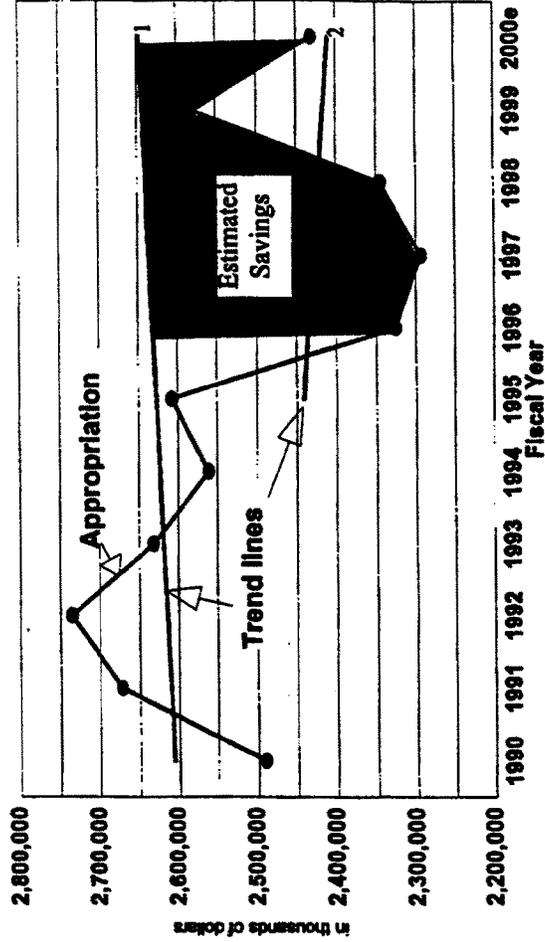

*Comparison with fiscal year 1999 appropriations.*—Compared with the appropriations enacted for fiscal year 1999, \$2,052,111,000, the recommendation of \$1,916,967,000 in new budget (obligational) authority for fiscal year 2000 is a decrease of \$135,150,100 or 6.6%.

*Areas of major change.*—The recommended amount for fiscal year 2000 is a net decrease of \$135,150,100 below the level appropriated for fiscal year 1999. This decrease has several components. The sum of \$51,860,600 has been added over fiscal year 1999, in order to pay for mandatory pay and related costs. To meet the costs of inflation necessary to maintain the current level of services requires \$6,896,000. These costs primarily reflect year-to-year price changes for the same amount of services consumed. There will be a decrease of \$193,906,700 for programs, including a decrease of \$711,700 due to legislation, an increase of \$25,623,000 in workload,

and a decrease of \$218,818,000 for equipment, alterations and repairs.

A summary of the areas of major changes recommended by general category follows:

## STRUCTURE OF THE BILL

The bill is divided into three titles:

### TITLE I—CONGRESSIONAL OPERATIONS

Title I—Congressional Operations contains the appropriations for the actual operation of the Congress. Traditionally, Congressional operations has included the House of Representatives (Senate items will be added by that body), joint items, the Office of Compliance, the Congressional Budget Office, the Architect of the Capitol (except Senate office buildings and Library of Congress buildings and grounds), the Congressional Research Service, and the Congressional printing and binding portion of the Government Printing Office.

### TITLE II—OTHER AGENCIES

Title II—Other Agencies contains the budget for several activities that do not provide primary support to the Congress. For instance, the activities of the Library of Congress, except the Congressional Research Service, are carried in this title. This includes such Library activities as the program to provide books for the blind and physically handicapped, the operation of the Copyright Office (including copyright royalty regulation) and Library services to the public and to the government of the United States. The non-Congressional operations of the Government Printing Office are contained in title II, such as the depository library program, which acquires or prints federal publications for distribution to the libraries, and sales of government publications to the general public. Also, although much of the workload of the General Accounting Office is in direct support of the Congress, including work mandated by statute or requested by committees and Members of Congress, the balance of that agency's workload involves its more general legislative requirements. The nature of that work is directed toward the improvement of the operation of the Federal government through review and evaluation of programs and the prevention of fraud and waste, as well as accounting and financial management improvements. The GAO budget, therefore, is carried in title II of the bill. The Botanic Garden rounds out the items included in title II.

### TITLE III—GENERAL PROVISIONS

Title III contains general provisions.

### LEGISLATIVE BRANCH WIDE MATTERS

The agencies, offices, and joint items included within the bill are reminded that budget justifications are due to the Committee by mid-December.

### TITLE I—CONGRESSIONAL OPERATIONS

The Committee bill recommends a total of \$1,178,027,000 for fiscal year 2000 for those activities in direct support of the operations of the Congress (exclusive of the Senate), which is a decrease of

\$172,318,100 below the fiscal year 1999 level, a reduction of 12.8%. Budget estimates considered by the Committee total \$1,263,585,000, which have been reduced by \$85,558,000.

## MEMBERS' REPRESENTATIONAL ALLOWANCES

1999 appropriation .....	\$385,279,000
2000 budget estimate .....	421,403,000
Committee recommendation .....	413,576,000

A total of \$413,576,000 is recommended for the representational allowances of the Members of the House. In recommending this amount, the Committee was provided with estimates of \$283,549,000 for clerk hire salaries, \$100,593,000 for official expenses, and \$29,434,000 for official mail. It should be pointed out that these components are fungible under regulations prescribed by the Committee on House Administration. Each Member has an overall consolidated allowance established by the Committee on House Administration from which staff salaries, office expenses, and mail costs are drawn.

Many Members do not expend their full allowance. That is why the Committee bill does not fully fund this account. The frugality of those Members is already projected in the bill presented by the Committee. Since these prospective savings are already taken in the bill, they reduce the need for appropriated funds and, therefore, contribute directly to the reduction in federal spending and consequently increase the projected surplus. If the Committee bill were to fully fund the Members' Representational Allowance, the amount appropriated would have to be increased by \$5.6 million.

## COMMITTEE EMPLOYEES

1999 appropriation .....	\$109,116,000
2000 budget estimate .....	118,825,000
Committee recommendation .....	115,186,000

Funding for the salaries and expenses of the 19 standing committees and one permanent select committee of the House is provided, as follows:

SALARIES, OFFICERS AND EMPLOYEES

1999 appropriation .....	\$96,364,000
2000 budget estimate .....	94,633,000
Committee recommendation .....	90,633,000

The Committee recommendation for the salaries and expenses of House officers and employees of the various activities funded through this consolidated item is \$90,633,000. This amount represents an overall decrease of \$4,000,000 below the budget request and \$5,731,000 below the amount enacted in fiscal year 1999. Staff cost-of-living increases are provided as are projected overtime costs.

The office of the Clerk is funded at 240 FTE's, an amount higher than current usage, but 25 lower than the number authorized. If additional funds are needed, the Committee will consider re-programming from savings.

The Sergeant at Arms has been funded at \$3,746,000.

The Chief Administrative Officer's (CAO) budget has been set at \$57,289,000 including \$24,641,000 for the net operating costs of House Information Resources (HIR). For the net expenses of telecommunications for the House, \$6,260,000 has been designated within the direct appropriation to HIR. For HIR personnel, funds for 221 FTE's are provided. If additional savings can be located, other deferred computer application and telecommunication upgrades will be funded as well other high priority needs that cannot be funded in the FY2000 bill. The CAO is commended for his consultations with the Legislative Branch Financial Managers Council (LBFMC) regarding plans to replace existing payroll and financial management systems in accord with the overall objective of standardization of Legislative Branch financial management systems.

For the Office of the Inspector General, funds for the annual House financial audit are included in the amount provided. Funds for the General Counsel, Chaplain, Parliamentarian, Law Revision Counsel, Legislative Counsel, Former Speakers, and Technical Assistants in the Office of the Attending Physician are provided as requested. Funding for the Corrections Calendar Office has been adjusted to reflect the Speaker's pay order.

The administrative staff officers of the House (the Clerk of the House, Sergeant at Arms, Chief Administrative Officer, and the Inspector General) are reminded that funding levels are provided on the basis of a certain number of full time equivalent positions which have been justified and approved in the appropriations provided. If additional FTE's are authorized during the fiscal year, or if reallocations of FTE's are contemplated, the officers should determine the source of the additional personnel funding, including the need for a reprogramming of funds, and advise the Committee accordingly. This is the current procedure and is designed to inform the Committee on Appropriations of the potential impact on future year funding needs.

Funds are not provided for reimbursement to the Senate for computer and telecommunications support. The Capitol Police are reminded of the planning, staffing, and justification recommended in the Booz-Allen management audit and the direction to seek other cross servicing support. These steps should be taken before seeking funding to develop internal systems. ARCHITECT OF THE CAPITOL

(CONGRESSIONAL SUPPORT ITEMS ONLY)

1999 appropriation .....	<sup>1</sup> \$235,602,000
2000 budget estimate .....	192,038,000
Committee recommendation .....	133,007,000

<sup>1</sup>Pending enactment of H.R. 1141.

The Committee recommends a total of \$133,007,000 for fiscal year 2000 for the various operational and maintenance activities under the jurisdiction of the Architect of the Capitol (AOC) that are directly related to the operation of the Congress. Excluded are Senate housekeeping items which are traditionally left for consideration by that body, as well as the appropriations for the Botanic Garden and the structural and mechanical care of the Library of Congress buildings and grounds that are contained in title II of the

bill. This amount is \$59,031,000 below the amount requested, and \$102,595,000 below the fiscal year 1999 appropriation.

The Architect of the Capitol is reminded of the policy to request construction funds only for projects that have been 100% designed. That policy will preclude what is emerging as a pattern of underestimates of a variety of projects, such as the Botanic Garden, the Dome rehabilitation, the Cannon garage repairs, and others. It has become common practice to request construction funds based on preliminary estimates that have been significantly increased in subsequent budgets. The design and budgeting processes require more discipline. Clients of the Architect of the Capitol also have to be advised of the need to implement this policy so that they can adjust their schedule of needs and requests accordingly. Although this is agreed upon policy, the Committee recognizes in the FY2000 budget that the AOC needs time to implement the requisite processes and, therefore, has “fenced” the funds for several projects that do not meet the “design before construction funding” criteria. Those projects are identified in the accompanying schedules and are nearly ready for final design approval. The Committee directs the Architect to secure its approval of the final design for these projects prior to obligating construction funds. In future budgets, however, the AOC is directed to follow a more fiscally prudent and disciplined process.

Mindful of the need to provide the necessary resources for project design, the bill contains design funds for the FY2000 and FY2001 capital budget program.

With respect to the analysis necessary to document the energy savings required by the FY1999 appropriation bill, the Architect is directed to obtain assistance from Lawrence Berkeley Laboratory or another suitable resource that is able to provide advice on a “pro-bono” basis.

*Administrators provision.*—Section 107 is designed to improve the House office-waste recycling program, which does not yield optimal results in its present configuration. Under the provision, all Members and employing authorities shall participate. The provision requires the Architect to establish a convenient, clearly marked, user-friendly system for the collection of recyclable materials in each building, which may vary by building or even by floor within buildings to facilitate participation and maximize results. The Architect shall report semiannually to the Appropriations and House Administration Committees on the program's status, and shall report within sixty days of enactment on his recommended changes to the program. Finally, the provision creates an incentive for all Members and employees to recycle by making any proceeds available to the House of Representatives Child Care Center, to the extent provided in appropriations acts.

### LIBRARY OF CONGRESS

(EXCEPT CONGRESSIONAL RESEARCH SERVICE)

The Committee recommends appropriations totaling \$314,953,000 for the operations of the Library of Congress (except the Congressional Research Service, which is carried in title I of the bill) for fiscal year 2000. The following table summarizes the allocation of funds by appropriation account:

*Library of Congress*

<i>Item</i>	<i>Amount</i>
Fiscal year 2000:	
Salaries and expenses .....	\$250,120,000
Copyright Office .....	11,385,000
Books for the blind and physically handicapped .....	48,033,000
Furniture and furnishings .....	5,415,000
Total .....	314,953,000

### TOTAL RESOURCES

The Library also receives funds from other appropriations and sources estimated to total \$252,842,000 for fiscal year 2000 includ-

ing \$71,255,000 for the Congressional Research Service in title I of the bill, and \$17,782,000 appropriated to the Architect of the Capitol for the structural and mechanical care of the Library buildings. The remainder consists of receipts from copyright fees and the sale of catalog records and publications, income from gift and trust funds, and reimbursements for services performed for other Government agencies. Thus, a total of \$567,795,000 from all sources will be available to the Library during the next fiscal year. Of that amount, \$151,098,000 (26.6%) is for support of Congress. The balance is general government or public service in nature, such as the Copyright Office, the National Library Service, the Federal Library and Information Network (FEDLINK), and the many services conducted for the Nation's libraries.

The appropriations in the bill for all Library programs will finance the level of full time equivalent positions currently projected for fiscal year 2000, now estimated by the Library of Congress at 4,076. In addition, there are several hundred other positions financed through reimbursable and gift and trust fund programs. The bill provides an increase of \$13,809,918 in mandatory costs for the current FTE base including \$1,569,068 to fill vacant positions for the succession plan.

The Library is authorized to expend funds out of current resources to conduct a transit-fare program, as authorized by the Federal Employees Clean Air Incentives Act of 1993, comparable to the program implemented for employees of the House of Representatives. The Library should conduct appropriate surveys to determine the relative success of the program.

The Committee urges the Library of Congress to assist the Washington Historical Society in the planning, development, procurement, and use of displays, exhibits, and programs of significance in the history of the City of Washington at the City Museum of Washington.

### GOVERNMENT PRINTING OFFICE

(EXCEPT CONGRESSIONAL PRINTING AND BINDING)

#### OFFICE OF SUPERINTENDENT OF DOCUMENTS

1999 appropriation .....	\$29,264,000
2000 budget estimate .....	31,245,000
Committee recommendation .....	29,986,000

The Committee recommends the appropriation of \$29,986,000, an increase of \$722,000, for the salaries and expenses of the Superintendent of Documents, a part of the Government Printing Office. All mandatory items and at least 1.7% in price level increases are provided. The principal component of this activity is the Federal Depository Library Program (FDLP), which is responsible for supplying about 1,400 designated libraries throughout the country with federal documents.

#### GOVERNMENT PRINTING OFFICE REVOLVING FUND

*Revolving fund.*—The bill includes the usual language authorizing the operation of the revolving fund, authority to hire or purchase automobiles, advisory councils, consultants, and flextime. The limit on full-time equivalent employment has been set at 3,313. No funds are provided for building maintenance. These are normal costs of doing business and should be financed through receipts. Y2K funds have been approved by the Committee to be de-

rived from funds made available in a FY1999 supplemental appropriation bill.

The Committee is aware of rapidly changing technology for purposes of research and general information gathering by the public. Government Printing Office Public Document Distribution Centers should continue to be a resource for information desired by the public. The Committee directs GPO to undertake an analysis of the future role of the Public Documents Distribution Center at Pueblo, Colorado, and other distribution activities. This analysis should include possible equipment and capital needs to transition from printed documents to information generated through computer technology; the potential for improved marketing of centers' services to federal agencies; opportunities for improved coordination and partnerships with the private sector; and other requirements to support the transition. The study and its recommendations should be provided to the committees of legislative jurisdiction and oversight no later than February 1, 2000.

ADMINISTRATIVE PROVISION

Authority has been provided for increasing the threshold for advertised bids from \$25,000 to \$100,000, thereby matching a threshold that is standard throughout the executive branch.

GENERAL ACCOUNTING OFFICE

SALARIES AND EXPENSES

1999 appropriation .....	\$359,268,000

Committee recommendation .....	372,681,000

Total available .....	374,081,000

The Committee has provided \$372,681,000 in direct appropriations for the General Accounting Office, plus \$1,400,000 in offsetting collections derived from reimbursements for conducting financial audits of government corporations. This level of funding will support 3,245 FTE's, a small decrease below the number currently expected to be utilized in fiscal 1999. The Committee has provided \$2.8 million in increased contracting funds that should be derived through attrition. Performance awards and other human capital project increases can be funded within the base, although the Committee believes contracting out for studies of operating efficiencies is unnecessary. GAO has an inventory of contracted studies that provide many recommendations on these matters and has an internal workforce uniquely qualified to assist the Comptroller General to develop organizational improvements. A general reduction of \$5,044,000 has been taken.

TITLE III—GENERAL PROVISIONS

The customary language regarding emergency assistance for vehicles, positions and allowances, consulting services, buy American and the Legislative Branch Financial Managers Council is included.

### CONSTITUTIONAL AUTHORITY

Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives states that:

The Committee on Appropriations bases its authority to report this legislation on Clause 7 of Section 9 of Article I of the Constitution of the United States of America, which states:

## RESCISSIONS

Pursuant to clause 3(f)(2) of rule XIII of the House of Representatives, the following table is submitted describing the rescissions recommended in the accompanying bill:

There are no rescissions recommended in the bill.

## CHANGES IN THE APPLICATION OF EXISTING LAW

Pursuant to clause 3(f)(1), of rule XIII of the House of Representatives, the following statements are submitted describing the effect of provisions in the accompanying bill which directly or indirectly change the application of existing law:

1. The bill provides that certain appropriation items remain available for more than one year where programs or projects are continuing in nature under the provisions of authorizing legislation but for which that legislation does not specifically authorize such extended availability. Most of these items have been carried in previous appropriation bills. This authority tends to result in savings by removing the incentive to commit funds at the end of the fiscal year.

2. The bill includes a number of provisions which place limitations on, or which authorize or reauthorize, the use of funds in the bill, or change or extend existing limitations, appropriations, or authorizations, and which under some circumstances might be construed as changing the application of existing law.

3. There is language that allows reimbursement for service to be used by the servicing entity.

4. The bill continues the practice of providing official reception and representation allowances for officers and offices of the legislative branch.

5. The bill authorizes expenses for employee awards, such as certificates or plaques and related ceremonial presentations, by certain agencies.

6. There is language providing authority for the House general counsel to appear before certain courts and to receive timely notification.

7. There is language making technical corrections to certain statutes, and repealing or modifying obsolete statutes.

8. There is language under "Capitol Police Board, General Expenses" authorizing advance payments for travel by Capitol Police personnel for training or other purposes, expenses associated with the relocation of liaison or instructor personnel from the Capitol

Police force to and from the Federal Law Enforcement Training Center in Glynco, Georgia, and for the costs of basic training of police personnel.

9. The bill authorizes the transfer of funds within "Capitol Police, Salaries", and between "Capitol Police, Salaries," and "General Expenses," subject to approval.

10. New compensation levels are established for the CBO Director and Deputy Director, and authority is provided for employee recruitment expenses and performance awards.

11. There is language under "Capitol Power Plant", Architect of the Capitol, allowing reimbursements for chilled water and steam provided to the Government Printing Office, the Washington City Post Office, the Supreme Court, the Thurgood Marshall Federal Judiciary Building, Union Station Complex and the Folger Shakespeare Library to be credited to this appropriation and made available for obligation. Section 107 establishes rules for the operation of the House recycling program.

12. There is language under "Congressional Research Service" which prohibits the publication of material unless approved by the appropriate committees.

13. There is language under "Congressional printing and binding" restricting the use of funds appropriated to the Government Printing Office for the permanent edition of the Congressional Record for individual Representatives, Resident Commissioners, or Delegates, and language providing that appropriations recommended shall be available for the payment of obligations incurred under appropriations for similar purposes for preceding fiscal years, primarily due to the unpredictability of the volume of work generated by the Congress.

14. There is language under "Library of Congress" which amends the salary of the Librarian, the Deputy Librarian and the Director, Congressional Research Service. 15. There is authority to enter into multi-year contracts and to appoint limited term employees.

15. There is authority to expend funds collected under the authority of 2 U.S.C. 150, the balance to remain available until expended.

16. There is a limitation on funding for attendance at meetings for the Library of Congress and a limitation on top-level management participation in compressed work schedules.

17. There is authority to transfer funds to an educational consortium.

18. There is a limitation on the number of indirect employees that are paid from appropriated funds received by the Library of Congress from other agencies. These funds are generated by performing reimbursable work for these other agencies and are used to cover general and administrative overhead work generated by these reimbursable programs.

19. There is language under "Salaries and Expenses", Office of Superintendent of Documents, which limits travel expenses and which authorizes the use of current appropriations for printing certain publications for the depository library program.

20. There is language authorizing the operation of the GPO revolving fund, and which authorizes travel expenses for advisory councils.

21. Under the GPO revolving fund, there is language that provides expenses not to exceed \$75,000 for attendance at meetings.

22. The bill includes a limitation on GPO employment of not more than 3,313 full-time equivalent work years, subject to adjustment.

23. There is a limitation on the participation of top-level GPO management in flexible or compressed work schedules.

24. Section 311 of Title 44, U.S. Code, is amended with respect to limitations on purchases and contracts.

25. There is language relating to the General Accounting Office authorizing the direct procurement of expert and consultant services under 5 U.S.C. 3109, at certain rates; authorizing the hire of one passenger motor vehicle, as required by 31 U.S.C. 1343; authorizing the General Accounting Office to make advance payments in foreign countries in accordance with 31 U.S.C. 3324; and to provide certain benefits, including rental of living quarters in foreign countries; appropriations are authorized for administrative expenses of any other member department or agency to finance an appropriate share of the costs of the Joint Financial Management Improvement Program (JFMIP); the American Consortium on International Public Administration (ACIPA), and the National Intergovernmental Audit Forum or a Regional Intergovernmental Audit Forum. The ACIPA language satisfies the requirements of P.L. 100-202.

26. In Section 301, there is language prohibiting the use of funds in the Act for the maintenance or care of private vehicles except for emergency assistance and cleaning as may be provided under regulations relating to parking facilities for the House issued by the Committee on House Oversight and for the Senate by the Committee on Rules and Administration.

27. Section 303 provides that whenever any office or position not specifically established by the Legislative Pay Act of 1929 is appropriated for herein or whenever the rate of compensation or designation of any position appropriated for herein is different from that specifically established for such position by such Act, the rate of compensation and the designation of the position, or either, appropriated for or provided herein, shall be the permanent law with respect thereto: Provided that the provisions herein for the various items of official expenses of Members, officers, and committees of the Senate and House, and clerk hire for Senators and Members shall be the permanent law with respect thereto.

28. Section 304 requires that certain information regarding consulting services shall be a matter of public record.

29. Section 305 is a sense of Congress provision regarding American-made products.

30. There is a provision which authorizes legislative branch entities to share the costs of the Legislative Branch Financial Managers Council.
