Amend the title so as to read:

A bill to amend the Older Americans Act of 1965 to authorize appropriations for fiscal years 2000, 2001, 2002, 2003, and 2004 and for other purposes.

PURPOSE

The purpose of the Older Americans Act is to encourage and assist State agencies, area agencies on aging, and tribal organizations to concentrate resources in order to develop greater capacity and foster the development and implementation of comprehensive and coordinated systems to serve older individuals. This includes entering into cooperative arrangements in each State for the planning and provision of supportive services, nutrition services, multipurpose senior centers, community services employment, and volunteer services.

SUMMARY

The bill amends the Older Americans Act by including the following:

TITLE I. GENERAL PROVISIONS

Title I clarifies and simplifies the General Provisions relating to the Older Americans Act. It establishes a new clarified purpose for the Act and consolidates all definitions for the Act that previously had been scattered through various titles. In addition, this title establishes the Administration on Aging (AoA) within the Department of Health and Human Services. The Assistant Secretary is authorized to make grants in order to conduct research and training programs. Title I also includes a section on the misuse of funds by providers.

TITLE II. GRANTS TO NATIVE AMERICAN PROGRAMS ON AGING

Title II provides for the delivery of nutrition and supportive services to American Indians, Alaska Natives and Native Hawaiians that are comparable to title III nutrition and supportive services. Title II contains a separate authorization for grants to native Americans.

TITLE III. GRANTS FOR STATE AND COMMUNITY PROGRAMS ON AGING

Title III authorizes grants to State and area agencies on aging to provide and coordinate programs for the elderly. It sets up the organizational structure of the “Aging Network” linking AoA, State and area agencies on aging, and other public and private agencies to improve and expand services for older persons. Specifically, it supports 57 State agencies on aging, 660 area agencies on aging, and 229 tribal organizations. The title is divided into 4 major sections, Supportive Services and Multipurpose Senior Centers, Nutrition Services (Congregate and Home Delivered Nutrition pro-

grams), Disease Prevention and Health Promotion Services Program, and the Family Caregiver Program.

In addition, title III lays out the eligibility requirements for States and area agencies to receive federal funds and includes a .05% set-aside for disaster relief. There is also a 20% transfer authority between nutrition and supportive services, and a 50% transfer authority between congregate nutrition and home delivered nutrition services.

The funding formula for title III is based on a 1987 hold harmless (no State receives less than what they received in 1987). After the 1987 hold harmless has been met, the remaining share of the total appropriation is distributed to the States based on their share of the total population of persons aged 60 and over. Within States, funds are targeted to older individuals who have the greatest social and economic need with particular attention to low-income minority individuals.

Funding for the new Family Caregiver Program is distributed on the basis of a State's relative share of the population age 70 and older. Within States, funds are targeted to older individuals who have the greatest social and economic need with particular attention to low-income older individuals.

Under title III, States are only allowed to permit cost-sharing for the Family Caregiver Program. Voluntary contributions are continued throughout the title and consideration for meeting the unique needs of rural areas is strengthened. There is also a combined 15% cap on title III funding for State Long-Term Care Ombudsman Programs; Services for the Prevention and Remediation of Elder Abuse, Neglect, and Exploitation; and legal assistance. States are allowed to request a waiver if necessary.

TITLE IV. STATE LONG-TERM CARE OMBUDSMAN PROGRAMS; SERVICES FOR THE PREVENTION AND REMEDIATION OF ELDER ABUSE, NEGLECT, AND EXPLOITATION

Title IV authorizes grants to States to carry out a State long-term care ombudsman program and to provide, through the State agency and in consultation with area agencies on aging, services for the prevention and remediation of elder abuse, neglect, and exploitation.

TITLE V. COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

Title V authorizes funding the Senior Community Service Employment Program (SCSEP). Over the course of five years, the Secretary of Labor is directed to shift a certain percentage of the funding from the national organizations to the States, resulting in a 55% (national organizations)/45% (States) funding ratio. The Secretary is also directed to contract with an independent organization to monitor the five-year transition period, judge the performance of both the national organizations and the States based on a set of newly instituted performance standards, and report its findings to Congress prior to the next authorization. In addition, the bill ensures that no senior will lose his or her job as a result of the five-year transition period. Funding for this program is based on a State's relative share of the population age 55 and older, State per capita income formula, and a FY 1999 hold harmless provision.

COMMITTEE STATEMENT AND VIEWS

The Older Americans Act of 1965 created a series of federal programs specifically designed to meet the service needs of older persons. Although older persons may receive services under other federal programs, this Act is the major vehicle for the organization and delivery of supportive and nutrition services to senior citizens. It authorizes a wide array of programs through a network of 57 state agencies on aging, 660 area agencies on aging, 229 tribal organizations—representing 300 tribes, and 27,000 service providers.

The Act was first enacted in the 89th Congress and has been reauthorized or amended 13 times. The original Act established the Administration on Aging (AoA) as the federal agency responsible

for the administration of programs under the Act and authorized State and community social service programs, and research, demonstration and training projects. The 1969 amendments strengthened the community service programs and charged State agencies on aging with statewide responsibilities for planning, coordination, and evaluation of programs for older persons.

Major amendments to the Act occurred in the early 1970s. The major service component of the Act, the national nutrition program, was enacted in 1972 and evolved from nutrition demonstration projects first funded in 1968. The 1972 amendments authorized grants to public and nonprofit sponsors for the development of congregate meals services to meet the nutrition and social services needs of older persons. In addition to providing meals, Congress envisioned the program to serve as an important vehicle for fostering social interaction among participants and to facilitate social service delivery.

The 1973 amendments significantly restructured the Act with the aim of improving the planning and organization of services for older persons at the state and local levels. State agencies were required to divide the State into geographic areas, or planning and service areas, and to establish area agencies on aging at the community level for the purpose of developing area-wide social service delivery systems for older persons. Area agencies were given responsibility for planning and coordinating of programs for older persons within defined planning and service areas designated by the State agencies on aging. In addition, area agencies were responsible for advocating on behalf of older persons.

The 1978 amendments represented a major change in the structure of the program when the separately authorized supportive, nutrition and multipurpose senior center programs were folded into the title III administrative structure. Another major change made by these amendments was the addition of a separate authorization of appropriations for home-delivered nutrition services that were previously an allowable service under the congregate nutrition program. These amendments also established the state long-term care ombudsman program, whose purpose is to investigate and resolve complaints of nursing home and board and care home residents, and a new title VI authorizing grants to Indian tribal organizations for supportive and nutrition services to older Indians. The amendments also incorporated the community service employment program as title V of the Act.

Amendments in 1981 and 1984 gave states more flexibility in the administration of the nutrition and supportive services programs. The 1987 amendments created new separately authorized service components under the state and area agency on aging program, including in-home services for the frail elderly, and health promotion and disease prevention programs. These amendments also incorporated a grant program for older Native Hawaiians under title VI. The amendments in 1992 again restructured some of the Act's programs by shifting some of the title III service responsibilities to title VII for elder rights protection activities.

In 1995, authorization for the Act expired. However, most of the key Older Americans Act programs continue to receive funding through the appropriations process. For FY 1999, \$1.456 billion is

appropriated for these programs which are administered through the Departments of Health and Human Services, Labor, and Agriculture. Bills to reauthorize the Act were introduced in the 104th and 105th Congresses, but they failed to pass either the House or Senate.

Since its creation in 1965, the Older Americans Act (OAA) has grown to be one of the most visible service programs for older persons. In FY 1999, the largest component of the Act, the title III nutrition program, provided 240 million meals to over 3 million older persons. About 50% of the meals were provided in congregate settings, such as senior centers and community centers, and 50% were delivered to frail older persons in their homes.

The supportive services and multipurpose senior centers program provides funds to states for a host of social services and activities. The most frequently used services are transportation, information and referral, senior centers, outreach services, home care, and recreation. In FY 1996, the program funded approximately 6,400 senior centers, 40 million rides, 13 million responses to request for information and assistance, and 15 million home care services.

The senior community service employment program accounted for about 30% of the Older Americans Act funds in FY 1999. The program supports about 61,500 employment positions for approximately 100,000 low-income individuals age 55 and older. Funds are awarded to 10 national organizations and to State agencies. Enrollees work in a variety of community service activities including social services, education, nutrition services, senior centers, home care services, and parks and recreation.

The Older Americans Act Amendments of 1999 is specifically designed to ensure flexibility, streamline services, target resources to rural areas, improve nutritional services, support family caregivers, and enhance the performance of senior employment programs, so that seniors can live healthier, productive, and longer lives independently in their communities.

ENSURING FLEXIBILITY AND STREAMLINING SERVICES

After 30 years of additional federal requirements being added to this hallmark legislation by Congress, the Older Americans Act Amendments of 1999 makes several long awaited reforms to the original 1965 Act. The bill improves services to seniors by providing better quality services; by driving more funds directly to local communities and the seniors themselves; and by giving local providers the flexibility to design programs most needed by the elderly population in their own communities.

Over the years, with each reauthorization, new programs have been added, some of which have never been funded, and all of which have added to the complexity of the Act. The Committee focused on streamlining and consolidating programs under the Act with the intent to strengthen the Act overall. Specifically, the Committee bill consolidates 20 funding streams into 11 (including a new Family Caregiver Program), while allowing all current activities to be continued. By reducing the number of multiple small funding streams currently spread over seven titles, the bill aims to strengthen the funding base for title III services.

In addition, the Committee has attempted to respond to state and area agency expressed desires for more program flexibility in a number of other areas. The bill eliminates a number of unnecessary legislative requirements. In recent years, State and area agencies have noted the increasing array of legislative requirements imposed on them without corresponding increases in funding.

While the bill consolidates a number of programs, the Committee retains the basic structure and purpose of the state and area agency program under title III of the Act. The bill retains certain functions that have been the hallmark of the title III state and area agency program since its inception—planning and coordinating of service programs for older persons. In addition, the bill retains the requirement that state and area agencies serve as effective and visible advocates for older persons by reviewing and commenting on all plans, budgets and policies that affect older persons.

Moreover, the bill retains the key title III service components—Supportive Services and Multipurpose Senior Centers, Nutrition Services (Congregate and Home Delivered nutrition programs), Disease Prevention and Health Promotion Services—and consolidates the In-Home for Frail Elderly and Assistance for Caretakers programs into a single Family Caregiver Program.

The Committee emphasizes its commitment to the State Long-Term Care Ombudsman Programs and Services for the Prevention and Remediation of Elder Abuse, Neglect, and Exploitation programs by retaining their authorization of appropriations in a separate title and moving them from title VII to title IV. Since these programs also receive funding under the title IV authority, the Committee has added a 15% cap on title III funding for State Long-Term Care Ombudsman Programs and Services for the Prevention and Remediation of Elder Abuse, Neglect, and Exploitation in order to protect funding for the many other services that fall under the title III umbrella. In addition, the cap applies to legal assistance services. States are allowed to request a waiver to exceed the cap if necessary.

According to the testimony of Betty F. Malks, Director for the Department of Aging and Adult Services in Santa Clara County, CA, before the Subcommittee on Postsecondary Education, Training and Life-Long Learning, it is estimated that in Santa Clara County alone, over 21,400 older persons are victims of physical, emotional and/or fiduciary abuse, and the County's Public Guardian's office, has recently seen a 60% increase in fiduciary abuse cases.

In addition to protecting seniors, the bill also provides state and area agencies with more flexibility in the design of their programs. For example, it eliminates requirements for funding certain federally prescribed priority service areas that are mandated under the current law. Instead it allows states and area agencies to fund services which they determine to be most essential based on their own determination of needs in the state and within planning and service areas. In addition, the bill liberalizes current law restrictions on the transferability of funds from congregate and home-delivered nutrition services allotments. Instead of a 30% transfer under current law, the bill allows states to transfer up to 50% of their allotments between these two nutrition programs.

The bill also permits the Assistant Secretary and the Secretary of Labor, after due process, to bar providers who do not comply with this act for up to 5 years. During this period, providers who are barred by the Assistant Secretary or the Secretary of Labor may not receive grants, enter into contracts, provide goods or services, or employ individuals with funds available under this Act.

In response to concerns expressed by state and area agencies in a number of recent reauthorizations of the Act, the Committee bill clarifies current provisions regarding voluntary contributions for services. In addition, in keeping with the Committee's intent that consumers be given more choice of providers, the bill allows states to use a limited voucher system for supportive and nutrition services in circumstances where traditional services are not available. The bill also ensures that case managers act as agents for the individuals receiving services and not as promoters for the agency providing such services.

With respect to federal level operations, the Committee bill streamlines functions of AoA by eliminating many unnecessary or duplicative requirements, while retaining essential requirements that keep its responsibilities as the federal focal point on aging services and programs. It retains requirements that AoA have persons in the agency who are responsible for the long-term care ombudsman program, the nutrition programs, and programs and services for older Native Americans, while at the same time giving the Assistant Secretary for Aging the flexibility to design the federal administrative structure for these programs. The bill also eliminates the Federal Council on Aging which has not been funded since 1995.

TARGETING RESOURCES TO RURAL AREAS

In an attempt to focus attention on the often-overlooked needs of seniors living in rural areas, the Committee has strengthened several provisions in title III. For instance, the bill retains the current law requirement that States target title III services (except for the new Family Caregiver Program) to older persons who have the greatest economic and social need with particular attention to low-income minority older individuals, but includes older individuals living in rural areas as well.

The bill insists that the State plan must not only describe any methods and difficulties used to provide services to older individuals who reside in rural areas, but also consider those findings when allocating funds to area agencies on aging. In title I of the Act, a demonstration project is added which addresses the long-term care needs of people living in isolated rural areas, and in title V, a performance standard is included which measures in part the ability of States and national organizations to serve hard-to-serve areas, including rural areas.

IMPROVING NUTRITION PROGRAMS

The Committee believes the nutrition services under the Older Americans Act play a vital role in helping seniors to continue to lead active, independent and healthy lives and to avoid unnecessary institutionalization. Currently, 66% of funding under Title III

of the Older Americans Act is used for nutrition services for senior citizens.

During consideration of changes to the Older Americans Act, the Committee met with providers of nutrition services, the U.S. Department of Agriculture, senior citizens and others in order to develop a proposal to improve nutrition services. As a result of these meetings and testimony provided at hearings on the Older Americans Act, the Committee felt the program had to be modified to allow greater State and local flexibility if it was to continue to effectively serve the nutritional needs of seniors. The Committee believes the changes outlined below will go a long way toward improving nutrition services under the Older Americans Act and allowing seniors to lead long, healthy lives.

Current law allows States to transfer up to 30% of their allotted funds between congregate and home-delivered nutrition services. They can also receive a waiver to transfer additional amounts. However, the demand for services can change from month to month and States and local providers need the flexibility to fund services when and where they are needed. As such, the Committee increased the amount that can be transferred between congregate and home-delivered nutrition services, without a waiver, to 50%. This change should allow local providers greater flexibility in funding the types of nutritional services actually needed by senior citizens residing in their community. Another modification to current law adds specific language that, for the first time, makes it clear that funds may be used to provide meals to eligible individuals in adult day care facilities.

The Committee has also included provisions in the bill to encourage providers to insure that meals served reflect the special needs of senior citizens. For example, if an individual is lactose intolerant, the Committee would expect that individual to be provided with an appropriate alternative in order to insure he or she receives the nutrients required to remain in good health. This change was based on reports that in some instances seniors continue to be given foods they cannot eat in order only to insure that dietary standards are met rather than to meet individual needs. The Committee believes that serving meals that meet the Dietary Guidelines is important. However, it is concerned that if meal components are not consumed, the nutritional health of senior participants could be jeopardized. The Committee would, therefore, encourage providers to take necessary steps to provide alternatives.

In addition to changes to nutrition programs operated by the Administration on Aging, the Committee has modified the nutrition program currently operated through the U.S. Department of Agriculture. This change adjusts the formula for allocating appropriations. Under the current formula, funds are allocated to States on the basis of the number of meals served in the current year on a per meal reimbursement rate. This Act necessitates adjustments of the per meal rate at various points within the year depending upon how many meals States served. Therefore, States often do not know what their total amount of assistance will be until the end of the year. In some instances, local providers have to pay back funds for services they have already provided during these adjust-

ment periods. This makes planning extremely difficult and has produced hardships in some communities.

New provisions provide that States and tribal organizations will receive, in each fiscal year, a cash grant for use in its nutrition program that bears the same ratio to appropriations under this section as meals served in the State or tribal program in the preceding year bore to the total number of meals served in all such programs. This change in the formula will eliminate current problems and should allow States and local providers to determine in the beginning of each year how many individuals they can serve each year with assistance provided through the Department of Agriculture.

Finally, the Committee would like to point out the importance of changes to language regarding voluntary participant contributions. The Committee believes it is extremely important that those seniors who can afford to contribute to the cost of their meals do so. While nutrition programs receive the bulk of the funding under the Older Americans Act, funding is not available to cover all eligible individuals. In many communities there are other programs which provide meals to senior citizens. However, the major source of additional funding for these programs comes from seniors themselves in the form of voluntary contributions. Until this time, the law has permitted limited efforts to solicit voluntary contributions from program participants.

However, as witnesses pointed out, local providers are not certain about the extent to which they can solicit voluntary contributions. The Committee has included language which outlines some of the activities that it believes will help clarify current law. Mr. Richard H. Lipner, President, Meals on Wheels Association of America, in his testimony before the Subcommittee on Postsecondary Education, Training and Life-Long Learning, encouraged the inclusion of language that specifically permits providers to send individualized client benefit summaries to program participants in order to increase voluntary contributions. Such language has been included in the bill. Mr. Lipner and others have pointed out that many individuals would contribute more, and would want to contribute more if they knew the actual cost of their meals. In a survey of 34,000 meal program participants several years ago, Mr. Lipner found that the majority of both home-delivered and congregate meal recipients would be willing to pay more for their meals than they currently contribute.

The Committee does not support any method of soliciting voluntary contributions or cost-sharing that would deny meals to individuals due to their inability to pay. However, the Committee has found that most individuals want to contribute to the cost of their meals and will do so willingly, even if it is just a few cents. Witnesses before the Committee have encouraged that the law permit mandatory "cost-sharing" for nutrition programs to assist in raising funds to serve additional participants. At this time, the Committee has chosen not to include mandatory cost-sharing provisions, although it believes this is a worthy goal.

SUPPORTING FAMILY CAREGIVERS

In his testimony before the Subcommittee on Postsecondary Education, Training and Life-Long Learning, Brad Berens, Executive

Director of the Santa Clarita Valley Committee on Aging in California, summed up the importance of the Older Americans Act when he noted that “The savings to Medicare from service delivery of Older Americans Act programs lie in the prevention and/or deceleration of needs exhibited by the elderly that require skilled nursing services.”

There is no better example of such a program than the new Family Caregiver Program. The Committee strongly believes that the Family Caregiver Program will enhance the quality of life for frail individuals and those who care for them, not to mention, save taxpayer money by preventing or delaying institutionalization. Mr. Nate Golter of Newhall, California, testified before the Subcommittee on Postsecondary Education, Training and Life-Long Learning, that the caregiver sessions he participated in at the Santa Clarita Senior Center, during his late wife’s illness, saved his life and his sanity.

Approximately 4.4 million persons age 65 and older living in the community are estimated to need long-term care assistance due to a functional disability. Functional disability is defined as the inability to perform, without assistance, the following activities of daily living (ADLs): dressing, eating, bathing, transferring from a bed to a chair, and toileting; and/or, the inability to perform certain instrumental activities of daily living (IADLs): light housekeeping, meal preparation, shopping, taking medications, and managing money.

Despite substantial public spending for long-term care (primarily for nursing home care), families provide the bulk of long-term care services to family members with physical and cognitive disabilities. Over 7 million caregivers provide informal, or unpaid, care to elderly family members each week. Typically, adult children provide this care to elderly parents. About two-thirds of the functionally impaired elderly rely exclusively on informal assistance. Research has documented the enormous responsibilities that families face in caring for relatives who have significant impairments. For example, caregivers of the elderly with certain functional limitations provide an average of 20 hours of unpaid help each week. Unpaid work, if replaced by paid home care, would cost an estimated \$45 billion to \$94 billion annually.

In general, the Family Caregiver program consolidates two existing programs (In-home for Frail Elderly and Assistance for Caretakers) and provides grants to States for services such as counseling, training, support groups, respite-care, informational assistance, and supplemental services. Funding for the program is distributed on the basis of a State’s relative share of individuals age 70 and older in order to target resources to the most frail, however, individuals age 60 and older in need of caregiver services will be eligible to receive the services. Within States, funding is distributed to those seniors who have the greatest social and economic need with particular attention to low-income older individuals.

In the year 2000, the Congressional Budget Office (CBO) estimates that total national spending for the long-term care of elderly will exceed \$123 billion of which Medicare and Medicaid combined will be expected to pay about \$73 billion. By the year 2020, CBO

projects that total public and private expenditures will reach well over \$207 billion.

In September 1998, the Alzheimer's Association commissioned a report which found that Alzheimer's alone costs U.S. businesses \$33 billion per year due to caregiver absenteeism, productivity loss, and the business share of medical care costs. According to the Association, "increased use of respite care at mild and moderate stages of Alzheimer's has shown to delay nursing home placement significantly, a net savings of as much as \$600 to \$1,000 per week. Similarly, delaying nursing home admissions for people with Alzheimer's disease by just one month could save at least \$1.12 billion a year." The Family Caregiver Program will begin to meet that goal.

ENHANCING THE PERFORMANCE OF THE SENIOR EMPLOYMENT PROGRAM

The Committee views the Senior Community Service Employment Program (SCSEP) as a community oriented subsidized employment program for hard to employ seniors that can provide training opportunities to those seniors with the capacity and interest to transition into private sector employment.

However, in the past several years concerns have arisen regarding the unequal distribution of senior enrollee positions within States, and the Department of Labor's use of a non-competitive process to award SCSEP grants. The bill enhances the performance of the program by including several provisions that address both of these concerns.

For instance, the bill gradually shifts a certain percentage of SCSEP funding from national organizations to States over a five-year period and updates the SCSEP funding formula "hold harmless" to FY 1999. This shift of funds will eventually result in a 55% (national organizations)/45% (States) ratio instead of the currently appropriated 78% (national organizations)/22% (States) ratio—giving States more authority to correct the unequal distribution of senior enrollee positions within its borders. Specifically, States may choose to use this additional funding to administer their own programs, compete it out to local or national organizations, or subcontract it out to current national organizations.

In addition, the bill includes language insisting that States are required, to the maximum extent possible, to ensure that no senior will lose his or her job as a result of the transition. The Committee believes very strongly that with the acquisition of additional funding or so-called "job slots" under this provision, States should make every effort to retain the current senior enrollee in his or her current position until such individual no longer wishes or is able to continue their employment.

The bill also calls for an independent organization to monitor the performance of both the national organizations and the States based on a set of specific new standards, and issue a report to Congress on its findings prior to the next authorization. These new standards measure performance on the basis of such things as the number of participants served, unsubsidized placements, customer satisfaction, and how well grantees reach both hard-to-serve areas and under-served areas. The Committee is confident that if grant-

ees, whether they are national organizations, state agencies, or local organizations, are doing a good job, their work will be reflected in the independent organization's findings.

In testimony before the Postsecondary Education, Training and Life-Long Learning Subcommittee, Dr. Marnie S. Shaul, the Associate Director of Education, Workforce, and Income Security Issues, Health, Education, and Human Services Division of the United States General Accounting Office, reported that "an equitable distribution among States has not be fully achieved" and "a more equitable distribution of funds might occur if States received a larger share of the program funds."

Moreover, Dr. Shaul testified that "the 1978 amendments to the Act provided that states would receive 55% of funds greater than the 1978 appropriation. Under this provision, if the appropriations increased, the states' share of SCSEP resources would gradually increase, and the states would eventually achieve parity with the national sponsors. However, this provision—the 55/45 provision—has never taken effect. Instead, every year since 1978, appropriations acts have overridden the 55/45 provision and required that at least 78 percent of the annual appropriation be allocated to the national sponsors." In other words, only the remainder, a mere 22%, has been allocated to the States.

Of the 1998 program year appropriation, the Labor Department allocated the national organizations \$350.7 million (78%) and the States and territories \$87.1 million (22%). The ten national organizations that received grant awards were:

	<i>In millions</i>
American Association of Retired Persons Foundation	\$52.8
Asociacion Nacional Pro Personas Mayores	13.3
Green Thumb	109.1
National Asian Pacific Center on Aging	6.0
National Center on Black Aged, Inc.	13.0
National Council on Aging	40.0
National Indian Council on Aging	6.0
National Senior Citizens Education and Research Center (affiliated with the National Council of Senior Citizens)	66.7
National Urban League	15.3
U.S. Forest Service	28.5

Ms. Mary Ellen Saunders, Management Analyst, State of Delaware Division of Services for Aging and Adults with Physical Disabilities, provided testimony before the Subcommittee on Postsecondary Education, Training and Life-Long Learning on Delaware's SCSEP program. Delaware (along with Alaska and Hawaii) is unique because none of the 10 national organizations operate within its borders. Instead, Delaware contracts out its SCSEP funds to local community groups. Ms. Saunders described in great detail how, utilizing an open bid process, these groups submit bids and follow an approval process that ensures geographic diversity within Delaware's three counties. The Committee believes that the Delaware program demonstrates the potential for States to fully achieve a more equitable distribution of SCSEP funds.

Finally, the Committee believes that a higher percentage of funds should go directly toward wages and benefits for seniors participating in this program. Therefore, a requirement that 85% of each grant awarded by the Secretary of Labor must be used to pay wages and benefits has been included. The remaining 15% is to be

used for grantee administrative costs as well as any other enrollee costs.

In sum, the bill enhances the performance of the SCSEP program by leveling the monetary playing field between the national sponsors and States; protecting senior's jobs to ensure a more equitable distribution of SCSEP funding; instituting performance standards; incorporating a sense of accountability and competition; and tapping an independent organization to assess the performance of all grantees.

H.R. 782—Older Americans Act of 1999

Summary: H.R. 782 would authorize spending for fiscal years 2000–2004 on programs designed to serve the needs of older Americans, including the funding of senior centers, supportive services, congregate and home-delivered meals, community service employment, and research on aging through grants to states and other organizations. Assuming appropriation of the authorized amounts, including adjustments for inflation after 2000, CBO estimates that additional outlays would total \$7.6 billion over the 2000–2004 period. If funding is maintained throughout the period at the \$1.6 billion authorized for 2000, outlays would total \$7.3 billion over the five years. In 1999, appropriations for older Americans programs totaled \$1.5 billion. Because H.R. 782 would not affect direct spending or receipts, pay-as-you-go procedures would not apply to the bill.

H.R. 782 contains no intergovernmental or private sector mandates as defined in the Unfunded Mandates Reform Act (UMRA). Any costs to state, local, or tribal governments as a result of enactment of this bill would be incurred voluntarily.

Estimated cost to the Federal Government: The estimated budgetary impact of H.R. 782 is shown in the following table.

The costs of this legislation fall within budget functions 500 (education, training, employment, and social services).

Basis of estimate: H.R. 782 would amend the Older Americans Act of 1965 by substituting new authorizations for programs that are broadly similar to those previously authorized. It would authorize appropriations of \$1.6 billion for fiscal year 2000 and “such sums as may be necessary” for 2001–2004 for programs designed to assist older Americans. Assuming that funding for 2001–2004 would be the same as the authorized level for 2000, adjusted for inflation, appropriations would reach \$1.8 billion by 2004 and would total \$8.4 billion over the 2000–2004 period. If adjustments for inflation are not made, appropriations would total \$8.0 billion over the same five-year period. Outlay estimates assume spending according to the historical patterns of the programs. The amounts authorized for these programs, assuming inflation adjustments after 2000, are shown in Table 2, and the programs are discussed below.

The bill reauthorize the Administration on Aging in the Department of Health and Human Services to administer programs for the elderly. In addition, it would reestablish grant-making authority for special projects and programs, including career preparation in the field of aging, pension rights demonstration projects, and health care service demonstration projects in rural areas. Together, administrative expenses and special projects would be authorized at \$33 million for fiscal year 2000.

Grants for Native American Programs on Aging would be authorized at \$19 million for fiscal year 2000. Native American organizations that represent at least 50 older individuals would be eligible to receive grants for the delivery of supportive and nutrition services.

H.R. 782 also would authorize grants for state and community programs on aging. As under current law, funding would be provided for supportive services and multipurpose senior centers (\$306 million in 2000), nutrition services (including congregate and home-delivered meals, for a total of \$496 million in 2000), supplemental nutrition services through the Department of Agriculture (\$150 million in 2000), and disease prevention and health promotion (\$16 million in 2000). The bill also would establish a new program designed to provide information and support to individuals who care for elderly family members. Grants to states for family caregiver programs would be authorized at \$125 million in 2000. Grants for senior centers and nutrition programs would be allotted to states

according to the populations of individuals 60 years of age and older, and would cover no more than 85 percent of program costs. For the family caregiver programs, funds would be allotted based on the population of individuals aged 70 and older, and federal funds could be used for no more than 75 percent of program costs.

State programs to provide ombudsmen for long-term care and grants aimed at the prevention of elder abuse, neglect, and exploitation would be authorized at \$12 million for fiscal year 2000. Those grants would assist states in identifying, investigating, and resolving complaints made by or on behalf of residents of long-term care facilities.

Finally, the Senior Community Service Employment Program, which is operated by the Department of Labor and provides subsidized employment opportunities for individuals aged 55 and older, would be authorized at \$449 million for fiscal year 2000. Funding would be split between the states and national organizations, with states receiving an increasing share over the five-year period.

Intergovernmental and private-sector impact: H.R. 782 contains no intergovernmental or private sector mandates as defined in UMRA. CBO estimates that state, local, and tribal governments could receive grants totaling \$7 billion over the next five years under the programs authorized by this bill. Any costs associated with receipt of these funds would be incurred voluntarily.

[SEC. 304. (a)(1) Subject to paragraphs (2) and (3) from the sums appropriated under section 303 for each fiscal year, each State shall be allotted an amount which bears the same ratio to such sums as the population of older individuals in such State bears to the population of older individuals in all States, except that (A) no State shall be allotted less than one-half of 1 percent of the sum appropriated for the fiscal year for which the determination is made; (B) Guam, the United States Virgin Islands, and the Trust Territory of the Pacific Islands, shall each be allotted not less than one-fourth of 1 percent of the sum appropriated for the fiscal year for which the determination is made; and (C) American Samoa and the Commonwealth of the Northern Mariana Islands shall each be

For the purposes of paragraph (3) and the exception contained in subparagraph (A) only, the term "State" does not include Guam, American Samoa, the United States Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

[(2) No State shall be allotted less than the total amount allotted to the State under paragraph (1) of this subsection and section 308 for fiscal year 1987.

[(3) No State shall be allotted, from the amount appropriated under section 303(g), less than \$50,000 for any fiscal year.

[(4) The number of individuals aged 60 or older in any State and in all States shall be determined by the Assistant Secretary on the basis of the most recent data available from the Bureau of the Census, and other reliable demographic data satisfactory to the Assistant Secretary.

[(b) Whenever the Assistant Secretary determines that any amount allotted to a State under part B or C for a fiscal year under this section will not be used by such State for carrying out the purpose for which the allotment was made, the Assistant Secretary shall make such allotment available for carrying out such purpose to one or more other States to the extent the Assistant Secretary determines that such other State will be able to use such additional amount for carrying out such purpose. Any amount made available to a State from an appropriation for a fiscal year in accordance with the preceding sentence shall, for purposes of this title, be regarded as part of such State's allotment (as determined under subsection (a)) for such year, but shall remain available until the end of the succeeding fiscal year.

[(c) If the Assistant Secretary finds that any State has failed to qualify under the State plan requirements of section 307 or the Assistant Secretary does not approve the funding formula required under section 305(a)(2)(C), the Assistant Secretary shall withhold the allotment of funds to such State referred to in subsection (a). The Assistant Secretary shall disburse the funds so withheld directly to any public or private nonprofit institution or organization, agency, or political subdivision of such State submitting an approved plan under section 307, which includes an agreement that any such payment shall be matched in the proportion determined under subsection (d)(1)(D) for such State, by funds or in-kind resources from non-Federal sources.

[(d)(1) From any State's allotment, after the application of section 308(b), under this section for any fiscal year—

[(C) not less than \$150,000 and not more than 4 percent of the amount allotted to the State for carrying out part B, shall be available for conducting outreach demonstration projects under section 706; and

[(D) the remainder of such allotment shall be available to such State only for paying such percentage as the State agency determines, but not more than 85 percent of the cost of supportive services, senior centers, and nutrition services under this title provided in the State as part of a comprehensive and coordinated system in planning and service areas for which there is an area plan approved by the State agency.

【ORGANIZATION

【SEC. 305. (a) In order for a State to be eligible to participate in programs of grants to States from allotments under this title—

[(1) the State shall, in accordance with regulations of the Assistant Secretary, designate a State agency as the sole State agency to—

[(A) develop a State plan to be submitted to the Assistant Secretary for approval under section 307;

[(B) administer the State plan within such State;

[(C) be primarily responsible for the planning, policy development, administration, coordination, priority setting, and evaluation of all State activities related to the objectives of this Act;

[(D) serve as an effective and visible advocate for older individuals by reviewing and commenting upon all State plans, budgets, and policies which affect older individuals and providing technical assistance to any agency, organization, association, or individual representing the needs of older individuals; and

[(E) divide the State into distinct planning and service areas (or in the case of a State specified in subsection (b)(5)(A), designate the entire State as a single planning and service area), in accordance with guidelines issued by the Assistant Secretary, after considering the geographical distribution of older individuals in the State, the incidence of the need for supportive services, nutrition services, multipurpose senior centers, and legal assistance, the distribution of older individuals who have greatest economic need (with particular attention to low-income minority individuals) residing in such areas, the distribution of older individuals who have greatest social need (with particular attention to low-income minority individuals) residing in such areas, the distribution of older individuals who are Indians residing in such areas, the distribution of re-

sources available to provide such services or centers, the boundaries of existing areas within the State which were drawn for the planning or administration of supportive services programs, the location of units of general purpose local government within the State, and any other relevant factors; and

[(2) the State agency shall—

[(A) except as provided in subsection (b)(5), designate for each such area after consideration of the views offered by the unit or units of general purpose local government in such area, a public or private nonprofit agency or organization as the area agency on aging for such area;

[(B) provide assurances, satisfactory to the Assistant Secretary, that the State agency will take into account, in connection with matters of general policy arising in the development and administration of the State plan for any fiscal year, the views of recipients of supportive services or nutrition services, or individuals using multipurpose senior centers provided under such plan;

[(C) in consultation with area agencies, in accordance with guidelines issued by the Assistant Secretary, and using the best available data, develop and publish for review and comment a formula for distribution within the State of funds received under this title that takes into account—

[(i) the geographical distribution of older individuals in the State; and

[(ii) the distribution among planning and service areas of older individuals with greatest economic need and older individuals with greatest social need, with particular attention to low-income minority older individuals;

[(D) submit its formula developed under subparagraph (C) to the Assistant Secretary for approval;

[(E) provide assurance that preference will be given to providing services to older individuals with greatest economic need and older individuals with greatest social need, with particular attention to low-income minority individuals, and include proposed methods of carrying out the preference in the State plan;

[(F) provide assurances that the State agency will require use of outreach efforts described in section 307(a)(24); and

[(G)(i) set specific objectives, in consultation with area agencies on aging, for each planning and service area for providing services funded under this title to low-income minority older individuals;

[(ii) provide an assurance that the State agency will undertake specific program development, advocacy, and outreach efforts focused on the needs of low-income minority older individuals; and

[(iii) provide a description of the efforts described in clause (ii) that will be undertaken by the State agency.

[(b)(1) In carrying out the requirement of subsection (a)(1), the State may designate as a planning and service area any unit of general purpose local government which has a population of 100,000 or more. In any case in which a unit of general purpose local government makes application to the State agency under the preceding sentence to be designated as a planning and service area, the State agency shall, upon request, provide an opportunity for a hearing to such unit of general purpose local government. A State may designate as a planning and service area under subsection (a)(1) any region within the State recognized for purposes of areawide planning which includes one or more such units of general purpose local government when the State determines that the designation of such a regional planning and service area is necessary for, and will enhance, the effective administration of the programs authorized by this title. The State may include in any planning and service area designated under subsection (a)(1) such additional areas adjacent to the unit of general purpose local government or regions so designated as the State determines to be necessary for, and will enhance the effective administration of the programs authorized by this title.

[(2) The State is encouraged in carrying out the requirement of subsection (a)(1) to include the area covered by the appropriate economic development district involved in any planning and service area designated under subsection (a)(1), and to include all portions of an Indian reservation within a single planning and service area, if feasible.

[(3) The chief executive officer of each State in which a planning and service area crosses State boundaries, or in which an interstate Indian reservation is located, may apply to the Assistant Secretary to request redesignation as an interstate planning and service area comprising the entire metropolitan area or Indian reservation. If the Assistant Secretary approves such an application, the Assistant Secretary shall adjust the State allotments of the areas within the planning and service area in which the interstate planning and service area is established to reflect the number of older individuals within the area who will be served by an interstate planning and service area not within the State.

[(4) Whenever a unit of general purpose local government, a region, a metropolitan area or an Indian reservation is denied designation under the provisions of subsection (a)(1), such unit of general purpose local government, region, metropolitan area, or Indian reservation may appeal the decision of the State agency to the Assistant Secretary. The Assistant Secretary shall afford such unit, region, metropolitan area, or Indian reservation an opportunity for a hearing. In carrying out the provisions of this paragraph, the Assistant Secretary may approve the decision of the State agency, disapprove the decision of the State agency and require the State agency to designate the unit, region, area, or Indian reservation appealing the decision as a planning and service area, or take such other action as the Assistant Secretary deems appropriate.

[(5)(A) A State which on or before October 1, 1980, had designated, with the approval of the Assistant Secretary, a single planning and service area covering all of the older individuals in the State, in which the State agency was administering the area

plan, may after that date designate one or more additional planning and service areas within the State to be administered by public or private nonprofit agencies or organizations as area agencies on aging, after considering the factors specified in subsection (a)(1)(E). The State agency shall continue to perform the functions of an area agency on aging for any area of the State not included in a planning and service area for which an area agency on aging has been designated.

[(B) Whenever a State agency designates a new area agency on aging after the date of enactment of the Older Americans Act Amendments of 1984, the State agency shall give the right to first refusal to a unit of general purpose local government if (i) such unit can meet the requirements of subsection (c), and (ii) the boundaries of such a unit and the boundaries of the area are reasonably contiguous.

[(C)(i) A State agency shall establish and follow appropriate procedures to provide due process to affected parties, if the State agency initiates an action or proceeding to—

[(I) revoke the designation of the area agency on aging under subsection (a);

[(II) designate an additional planning and service area in a State;

[(III) divide the State into different planning and services areas; or

[(IV) otherwise affect the boundaries of the planning and service areas in the State.

[(ii) The procedures described in clause (i) shall include procedures for—

[(I) providing notice of an action or proceeding described in clause (i);

[(II) documenting the need for the action or proceeding;

[(III) conducting a public hearing for the action or proceeding;

[(IV) involving area agencies on aging, service providers, and older individuals in the action or proceeding; and

[(V) allowing an appeal of the decision of the State agency in the action or proceeding to the Assistant Secretary.

[(iii) An adversely affected party involved in an action or proceeding described in clause (i) may bring an appeal described in clause (ii)(V) on the basis of—

[(I) the facts and merits of the matter that is the subject of the action or proceeding; or

[(II) procedural grounds.

[(iv) In deciding an appeal described in clause (ii)(V), the Assistant Secretary may affirm or set aside the decision of the State agency. If the Assistant Secretary sets aside the decision, and the State agency has taken an action described in subclauses (I) through (III) of clause (i), the State agency shall nullify the action.

[(c) An area agency on aging designated under subsection (a) shall be—

[(1) an established office of aging which is operating within a planning and service area designated under subsection (a);

[(2) any office or agency of a unit of general purpose local government, which is designated to function only for the pur-

pose of serving as an area agency on aging by the chief elected official of such unit;

[(3) any office or agency designated by the appropriate chief elected officials of any combination of units of general purpose local government to act only on behalf of such combination for such purpose;

[(4) any public or nonprofit private agency in a planning and service area, or any separate organizational unit within such agency, which is under the supervision or direction for this purpose of the designated State agency and which can and will engage only in the planning or provision of a broad range of supportive services, or nutrition services within such planning and service area; or

[(5) in the case of a State specified in subsection (b)(5), the State agency;

and shall provide assurance, determined adequate by the State agency, that the area agency on aging will have the ability to develop an area plan and to carry out, directly or through contractual or other arrangements, a program in accordance with the plan within the planning and service area. In designating an area agency on aging within the planning and service area or within any unit of general purpose local government designated as a planning and service area the State shall give preference to an established office on aging, unless the State agency finds that no such office within the planning and service area will have the capacity to carry out the area plan.

[(d) The publication for review and comment required by paragraph (2)(C) of subsection (a) shall include—

[(1) a descriptive statement of the formula's assumptions and goals, and the application of the definitions of greatest economic or social need,

[(2) a numerical statement of the actual funding formula to be used,

[(3) a listing of the population, economic, and social data to be used for each planning and service area in the State, and

[(4) a demonstration of the allocation of funds, pursuant to the funding formula, to each planning and service area in the State.

[(32) The plan shall provide assurances that special efforts will be made to provide technical assistance to minority providers of services.

[(33) The plan—

[(A) shall include the statement and the demonstration required by paragraphs (2) and (4) of section 305(d); and

[(B) may not be approved unless the Assistant Secretary approves such statement and such demonstration.

[(34) The plan shall provide an assurance that the State agency will coordinate programs under this title and title VI, if applicable.

[(35) The plan shall—

[(A) provide an assurance that the State agency will pursue activities to increase access by older individuals who are Native Americans to all aging programs and benefits provided by the agency, including programs and benefits under this title, if applicable; and

[(36) If case management services are offered to provide access to supportive services, the plan shall provide that the State agency shall ensure compliance with the requirements specified in section 306(a)(20).

[(37) The plan shall identify for each fiscal year, the actual and projected additional costs of providing services under this title, including the cost of providing access to such services, to older individuals residing in rural areas in the State (in accordance with a standard definition of rural areas specified by the Assistant Secretary).

[(38) The plan shall provide assurances that funds received under this title will not be used to pay any part of a cost (including an administrative cost) incurred by the State or an area agency on aging to carry out a contract or commercial relationship that is not carried out to implement this title.

[(39) The plan shall provide assurances that preference in receiving services under this title will not be given by the area agency on aging to particular older individuals as a result of a contract or commercial relationship that is not carried out to implement this title.

[(44) The plan shall include assurances that the State has in effect a mechanism to provide for quality in the provision of in-home services under this title.

[(b)(1) The Assistant Secretary shall approve any State plan which the Assistant Secretary finds fulfills the requirements of subsection (a), except the Assistant Secretary may not approve such plan unless the Assistant Secretary determines that the formula submitted under section 305(a)(2)(D) complies with the guidelines in effect under section 305(a)(2)(C).

[(2) The Assistant Secretary, in approving any State plan under this section, may waive the requirement described in paragraph (3)(B) of subsection (a) if the State agency demonstrates to the Assistant Secretary that the service needs of older individuals residing in rural areas in the State are being met, or that the number of older individuals residing in such rural areas is not sufficient to require the State agency to comply with such requirement.

[(c)(1) The Assistant Secretary shall not make a final determination disapproving any State plan, or any modification thereof, or make a final determination that a State is ineligible under section 305, without first affording the State reasonable notice and opportunity for a hearing.

[(2) Not later than 30 days after such final determination, a State dissatisfied with such final determination may appeal such final determination to the Secretary for review. If the State timely appeals such final determination in accordance with subsection (e)(1), the Secretary shall dismiss the appeal filed under this paragraph.

[(3) If the State is dissatisfied with the decision of the Secretary after review under paragraph (2), the State may appeal such decision not later than 30 days after such decision and in the manner described in subsection (e). For purposes of appellate review under the preceding sentence, a reference in subsection (e) to the Assistant Secretary shall be deemed to be a reference to the Secretary.

[(d) Whenever the Assistant Secretary, after reasonable notice and opportunity for a hearing to the State agency, finds that—

[(1) the State is not eligible under section 305,

[(2) the State plan has been so changed that it no longer complies substantially with the provisions of subsection (a), or

[(3) in the administration of the plan there is a failure to comply substantially with any such provision of subsection (a),

the Assistant Secretary shall notify such State agency that no further payments from its allotments under section 304 and section 308 will be made to the State (or, in the Assistant Secretary's discretion, that further payments to the State will be limited to projects under or portions of the State plan not affected by such failure), until the Assistant Secretary is satisfied that there will no longer be any failure to comply. Until the Assistant Secretary is so satisfied, no further payments shall be made to such State from its

allotments under section 304 and section 308 (or payments shall be limited to projects under or portions of the State plan not affected by such failure). The Assistant Secretary shall, in accordance with regulations the Assistant Secretary shall prescribe, disburse the funds so withheld directly to any public or nonprofit private organization or agency or political subdivision of such State submitting an approved plan in accordance with the provisions of this section. Any such payment shall be matched in the proportions specified in section 304.

[(e)(1) A State which is dissatisfied with a final action of the Assistant Secretary under subsection (b), (c), or (d) may appeal to the United States court of appeals for the circuit in which the State is located, by filing a petition with such court within 30 days after such final action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Assistant Secretary, or any officer designated by the Assistant Secretary for such purpose. The Assistant Secretary thereupon shall file in the court the record of the proceedings on which the Assistant Secretary's action is based, as provided in section 2112 of title 28, United States Code.

[(2) Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Assistant Secretary or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record, the Assistant Secretary may modify or set aside the Assistant Secretary's order. The findings of the Assistant Secretary as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown may remand the case to the Assistant Secretary to take further evidence, and the Assistant Secretary shall, within 30 days, file in the court the record of those further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Assistant Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

[(3) The commencement of proceedings under this subsection shall not, unless so specifically ordered by the court, operate as a stay of the Assistant Secretary's action.

[(f)(1) Neither a State, nor a State agency, may require any provider of legal assistance under this title to reveal any information that is protected by the attorney-client privilege.

[(2) Information disclosed under section 306(a)(14)(B)(i) or subsection (a)(7)(C)(ii)(I) may be disclosed to the public by the State agency or the State only if such information could be disclosed under section 552 of title 5, United States Code, by an agency of the United States.

PLANNING, COORDINATION, EVALUATION, AND ADMINISTRATION OF STATE PLANS

[SEC. 308. (a)(1) Amounts available to States under subsection (b)(1) may be used to make grants to States for paying such percentages as each State agency determines, but not more than 75 percent, of the cost of the administration of its State plan, including the preparation of the State plan, the evaluation of activities

carried out under such plan, the collection of data and the carrying out of analyses related to the need for supportive services, nutrition services, and multipurpose senior centers within the State, and dissemination of information so obtained, the provision of short-term training to personnel of public or nonprofit private agencies and organizations engaged in the operation of programs authorized by this Act, and the carrying out of demonstration projects of statewide significance relating to the initiation, expansion, or improvement of services assisted under this title.

[(2) Any sums available to a State under subsection (b)(1) for part of the cost of the administration of its State plan which the State determines is not needed for such purposes may be used by the State to supplement the amount available under section 304(d)(1)(A) to cover part of the cost of the administration of area plans.

[(3) Any State which has been designated a single planning and service area under section 305(a)(1)(E) covering all, or substantially all, of the older individuals in such State, as determined by the Assistant Secretary, may elect to pay part of the costs of the administration of State and area plans either out of sums received under this section or out of sums made available for the administration of area plans under section 304(d)(1)(A), but shall not pay such costs out of sums received or allotted under both such sections.

[(b)(1) If for any fiscal year the aggregate amount appropriated under section 303 does not exceed \$800,000,000, then—

[(A) except as provided in clause (ii), the greater of 5 percent of the allotment to a State under section 304(a)(1) or \$300,000; and

[(B) in the case of Guam, American Samoa, the United States Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, the greater of 5 percent of such allotment or \$75,000; shall be available to such State to carry out the purposes of this section.

[(2) If for any fiscal year the aggregate amount appropriated under section 303 exceeds \$800,000,000, then—

[(A) except as provided in clause (ii), the greater of 5 percent of the allotment to a State under section 304(a)(1) or \$500,000; and

[(B) in the case of Guam, American Samoa, the United States Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, the greater of 5 percent of such allotment or \$100,000; shall be available to such State to carry out the purposes of this section.

[(3)(A) If the aggregate amount appropriated under section 303 for a fiscal year does not exceed \$800,000,000, then any State which desires to receive amounts, in addition to amounts allotted to such State under paragraph (1), to be used in the administration of its State plan in accordance with subsection (a) may transmit an application to the Assistant Secretary in accordance with this paragraph. Any such application shall be transmitted in such form, and according to such procedures, as the Assistant Secretary may re-

quire, except that such application may not be made as part of, or as an amendment to, the State plan.

[(B) The Assistant Secretary may approve any application transmitted by a State under subparagraph (A) if the Assistant Secretary determines, based upon a particularized showing of need that—

[(i) the State will be unable to fully and effectively administer its State plan and to carry out programs and projects authorized by this title unless such additional amounts are made available by the Assistant Secretary;

[(ii) the State is making full and effective use of its allotment under paragraph (1) and of the personnel of the State agency and area agencies designated under section 305(a)(2)(A) in the administration of its State plan in accordance with subsection (a); and

[(iii) the State agency and area agencies on aging of such State are carrying out, on a full-time basis, programs and activities which are in furtherance of the objectives of this Act.

[(C) The Assistant Secretary may approve that portion of the amount requested by a State in its application under subparagraph (A) which the Assistant Secretary determines has been justified in such application.

[(D) Amounts which any State may receive in any fiscal year under this paragraph may not exceed three-fourths of 1 percent of the sum of the amounts allotted under section 304(a) to such State to carry out the State plan for such fiscal year.

[(E) No application by a State under subparagraph (A) shall be approved unless it contains assurances that no amounts received by the State under this paragraph will be used to hire any individual to fill a job opening created by the action of the State in laying off or terminating the employment of any regular employee not supported under this Act in anticipation of filling the vacancy so created by hiring an employee to be supported through use of amounts received under this paragraph.

[(4)(A) Notwithstanding any other provision of this title and except as provided in subparagraph (B), with respect to funds received by a State and attributable to funds appropriated under paragraph (1) or (2) of section 303(b), the State may elect in its plan under section 307(a)(13) regarding part C of this title, to transfer not more than 30 percent of the funds so received between subpart 1 and subpart 2 of part C, for use as the State considers appropriate to meet the needs of the area served. The Assistant Secretary shall approve any such transfer unless the Assistant Secretary determines that such transfer is not consistent with the objectives of this Act.

[(B) If a State demonstrates, to the satisfaction of the Assistant Secretary, that funds received by the State and attributable to funds appropriated under paragraph (1) or (2) of section 303(b), including funds transferred under subparagraph (A) without regard to this subparagraph, for fiscal year 1993, 1994, 1995, or 1996 are insufficient to satisfy the need for services under subpart 1 or subpart 2 of part C, then the Assistant Secretary may grant a waiver that permits the State to transfer under subparagraph (A) to satisfy such need—

[(i) an additional 18 percent of the funds so received for fiscal year 1993;

[(ii) an additional 15 percent of the funds so received for each of the fiscal years 1994 and 1995; and

[(iii) an additional 10 percent of the funds so received for fiscal year 1996.

[(5)(A) Notwithstanding any other provision of this title and except as provided in subparagraph (B), of the funds received by a State attributable to funds appropriated under subsection (a)(1), and paragraphs (1) and (2) of subsection (b), of section 303, the State may elect to transfer not more than 30 percent for fiscal year 1993, not more than 25 percent for fiscal year 1994, not more than 25 percent for fiscal year 1995, and not more than 20 percent for fiscal year 1996, between programs under part B and part C, for use as the State considers appropriate. The State shall notify the Assistant Secretary of any such election.

[(B)(i) If a State demonstrates, to the satisfaction of the Assistant Secretary, that funds received by the State and attributable to funds appropriated under part B or part C (including funds transferred under subparagraph (A) without regard to this subparagraph) for fiscal year 1994 or 1995 are insufficient to satisfy the need for services under such part, then the Assistant Secretary may grant a waiver that permits the State to transfer under subparagraph (A) to satisfy such need an additional 5 percent of the funds so received for such fiscal year.

[(ii) If a State demonstrates, to the satisfaction of the Assistant Secretary, that funds received by the State and attributable to funds appropriated under part B or part C (including funds transferred under subparagraph (A) without regard to this subparagraph) for fiscal year 1996 are insufficient to satisfy the need for services under such part, then the Assistant Secretary may grant a waiver that permits the State to transfer under subparagraph (A) to satisfy such need an additional 8 percent of the funds so received for such fiscal year.

[(C) At a minimum, the application described in subparagraph (A) shall include a description of the amount to be transferred, the purposes of the transfer, the need for the transfer, and the impact of the transfer on the provision of services from which the funding will be transferred. The Assistant Secretary shall approve or deny the application in writing.

[(6) A State agency may not delegate to an area agency on aging or any other entity the authority to make a transfer under paragraph (4)(A) or (5)(A).

[(7) The Assistant Secretary shall annually collect, and include in the report required by section 207(a), data regarding the transfers described in paragraphs (4)(A) and (5)(A), including—

[(A) the amount of funds involved in the transfers, analyzed by State;

[(B) the rationales for the transfers;

[(C) in the case of transfers described in paragraphs (4)(A) and (5)(A), the effect of the transfers of the provision of services, including the effect on the number of meals served, under—

[(i) subpart 1 of part C; and

- [(ii) subpart 2 of part C; and
- [(D) in the case of transfers described in paragraph (5)(A)—
 - [(i) in the case of transfers to part B, information on the supportive services, or services provided through senior centers, for which the transfers were used; and
 - [(ii) the effect of the transfers on the provision of services provided under—
 - [(I) part B; and
 - [(II) part C, including the effect on the number of meals served.

[(c) The amounts of any State's allotment under subsection (b) for any fiscal year which the Assistant Secretary determines will not be required for that year for the purposes described in subsection (a)(1) shall be available to provide services under part B or part C, or both, in the State.

[PAYMENTS

[SEC. 309. (a) Payments of grants or contracts under this title may be made (after necessary adjustments resulting from previously made overpayments or underpayments) in advance or by way of reimbursement, and in such installments, as the Assistant Secretary may determine. From a State's allotment for a fiscal year which is available under section 308 the Assistant Secretary may pay to a State which does not have a State plan approved under section 307 such amounts as the Assistant Secretary deems appropriate for the purpose of assisting such State in developing a State plan.

[(b)(1) For each fiscal year, not less than 25 percent of the non-Federal share of the total expenditures under the State plan which is required by section 304(d) shall be met from funds from State or local public sources.

[(2) Funds required to meet the non-Federal share required by section 304(d)(1)(D), in amounts exceeding the non-Federal share required prior to fiscal year 1981, shall be from State sources.

[(c) A State's allotment under section 304 for a fiscal year shall be reduced by the percentage (if any) by which its expenditures for such year from State sources under its State plan approved under section 307 are less than its average annual expenditures from such sources for the period of 3 fiscal years preceding such year.

[DISASTER RELIEF REIMBURSEMENTS

[SEC. 310. (a)(1) The Assistant Secretary may provide reimbursements to any State, upon application for such reimbursement, for funds such State makes available to area agencies on aging in such State for the delivery of supportive services (and related supplies) during any major disaster declared by the President in accordance with the Robert T. Stafford Relief and Emergency Assistance Act.

[(2) Total payments to all States under paragraph (1) in any fiscal year shall not exceed 2 percent of the total amount appropriated and available to carry out title IV.

[(3) If the Assistant Secretary decides, in the 5-day period beginning on the date such disaster is declared by the President, to provide an amount of reimbursement under paragraph (1) to a State,

then the Assistant Secretary shall provide not less than 75 percent of such amount to such State not later than 5 days after the date of such decision.

[(b)(1) At the beginning of each fiscal year the Assistant Secretary shall set aside, for payment to States under subsection (a), an amount equal to 2 percent of the total amount appropriated and available to carry out title IV.

[(2) Amounts set aside under paragraph (1) which are not obligated by the end of the third quarter of any fiscal year shall be made available to carry out title IV.

[(c) Nothing in this section shall be construed to prohibit expenditures by States for disaster relief for older individuals in excess of amounts reimbursable under this section, by using funds made available to them under other sections of this Act or under other provisions of Federal or State law, or from private sources.

[AVAILABILITY OF SURPLUS COMMODITIES

(a)(1) Agricultural commodities and products purchased by the Secretary of Agriculture under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c), shall be donated to a recipient of a grant or contract to be used for providing nutrition services in accordance with the provisions of this title.

[(2) The Commodities Credit Corporation shall dispose of food commodities under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431) by donating them to a recipient of a grant or contract to be used for providing nutrition services in accordance with the provisions of this title.

[(II) 61 cents per meal; and

[(ii) for fiscal year 1993 and each subsequent fiscal year, an annually programmed level of assistance equal to the greater of—

[(I) a per meal rate equal to the amount appropriated under subsection (c) for the fiscal year, divided by the number of meals served in the preceding fiscal year; or

In any case in which a State makes such an election, the Secretary of Agriculture shall make cash payments to such State in an amount equivalent in value to the donated foods which the State otherwise would have received if such State had retained its commodity distribution.

[(2) When such payments are made, the State agency shall promptly and equitably disburse any cash it receives in lieu of commodities to recipients of grants or contracts. Such disbursements shall only be used by such recipients of grants or contracts to purchase United States agricultural commodities and other foods for their nutrition projects.

[(3) Nothing in this subsection shall be construed to authorize the Secretary of Agriculture to require any State to elect to receive cash payments under this subsection.

[(c)(1)(A) There are authorized to be appropriated \$250,000,000 for fiscal year 1992, \$310,000,000 for fiscal year 1993, \$380,000,000 for fiscal year 1994, and \$460,000,000 for fiscal year 1995, to carry out the provisions of this section (other than subsection (a)(1)).

[(B) Effective on the first day of the first month beginning after the date of enactment of the Older Americans Act Amendments of 1984, no State may receive reimbursement under the provisions of this section unless the State submits final reimbursement claims for meals within 90 days after the last day of the quarter for which the reimbursement is claimed.

[(2)(A) Except as provided in subparagraph (B), in any fiscal year in which compliance with subsection (a)(4) of this section costs more than the amounts authorized under paragraph (1) of this subsection for that fiscal year the Secretary of Agriculture shall reduce the cents per meal level determined pursuant to subsection (a)(4) for that fiscal year as necessary to meet the authorization of appropriations for that fiscal year.

[(B) In each fiscal year, the final reimbursement claims shall be adjusted to use the full amount appropriated under this subsection for the fiscal year.

[(d) In each fiscal year, the Secretary of Agriculture and the Secretary of Health and Human Services shall jointly disseminate to State agencies, area agencies on aging, and providers of nutrition services assisted under this title, information concerning—

[(2) the facility ceases to be used for the purposes for which it was acquired (unless the Assistant Secretary determines, in accordance with regulations, that there is good cause for releasing the applicant or other owner from the obligation to do so);

the United States shall be entitled to recover from the applicant or other owner of the facility an amount which bears to the then value of the facility (or so much thereof as constituted an approved project or projects) the same ratio as the amount of such Federal funds bore to the cost of the facility financed with the aid of such funds. Such value shall be determined by agreement of the parties or by action brought in the United States district court for the district in which such facility is situated.

[AUDIT]

[SEC. 313. [(3) The Secretary shall allot to the State agency on aging of each State the remainder of the sums appropriated for any fiscal year under section 508 so that each State will receive an amount which bears the same ratio to such remainder as the product of the number of persons aged fifty-five or over in the State and the allotment percentage of such State bears to the sum of the corresponding product for all States, except that (A) no State shall be allotted less than one-half of 1 percent of the remainder of the sums appropriated for the fiscal year for which the determination is made, or \$100,000, whichever is greater, and (B) Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the United States Virgin Islands, and the Trust Territory of the Pacific Islands shall each be allotted an amount which is not less than one-fourth of 1 percent of the remainder of the sums appropriated for the fiscal year for which the determination is made, or \$50,000, whichever is greater. [(b) The amount allotted for projects within any State under subsection (a) for any fiscal year which the Secretary determines will not be required for such year shall be reallocated, from time to time and on such dates during such year as the Secretary may fix, to projects within other States in proportion to the original allotments to projects within such States under subsection (a) for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates that projects within such State need and will be able to use for such year; and the total of such reductions shall be similarly reallocated among the States whose proportionate amounts were not so reduced. Any amount reallocated to a State under this subsection during a year shall be deemed part of its allotment under subsection (a) for such year.

ADDITIONAL VIEWS

We are pleased that after two unsuccessful attempts by the 104th and 105th Congresses, the Committee has marked up a largely bipartisan bill to reauthorize the Older Americans Act, which has helped older persons to live longer with dignity and independence in their communities since its passage in 1965.

We are further pleased that the Republican majority, in H.R. 782, dropped their proposal to means-test the program and require seniors to pay for services, and has maintained our priority to target funding to low-income minority seniors—an historically underserved population.

However, while we commend the Republicans for their concessions on these two critical issues, and recognize the importance of reauthorizing the Older Americans Act this Congress, we do have two areas of concern with the bill.

TITLE V—SENIOR COMMUNITY SERVICE EMPLOYMENT PROGRAM

The Senior Community Service Employment Program (SCSEP) was established in the early 1970's by the national aging organizations to provide employment opportunities for older workers, particularly for those with poor employment prospects. At that time, there was little interest by the state or organizations in the employment and training field in serving older individuals. In fact, in the early 1970s persons 55 and older accounted for only 2 percent of all enrollees in employment and training programs.

As SCSEP grew in funding and enrollment, the states expressed a desire to become more involved in the administration of the program and in 1978 Congress enacted "hold harmless" language which guaranteed the national sponsors sufficient funding to maintain their current level of activity. The language also provided that the national sponsors could receive up to 45 percent of any new money. However, since the early 1980s, the House and Senate Appropriations Committees have overridden the authorizing legislation and provided 78 percent of program funds to the national sponsors and 22 percent to the states. However, H.R. 782 would shift SCSEP funding from the national sponsors to the states by 4.6 percent a year for five years, effectively bringing the funding allocation to 55 percent/45 percent for the national sponsors and states respectively.

We believe that this adjustment is ill-advised as the national sponsors have a long and exemplary record of providing training and employment opportunities to low-income seniors and historically outperformed the states by a wide margin. For example, while the national sponsors have exceeded the 20 percent unsubsidized placement goal established by the Department of Labor nine of the past ten years, the states exceed the goal only four of those years. In fact, last year, the national sponsors achieved a placement rate

of about 32 percent compared to 23 percent by the states. In addition, the national sponsors have consistently served a more needy population—their participants are more economically disadvantaged, older, less educated, and include more minority older individuals. We also believe that this shift in funding has the potential to negatively effect the program and its participants by disrupting services to low-income seniors, the host agencies they serve, and the communities that benefit from their services.

Moreover, the current 78 percent/22 percent funding split obviously has bipartisan support because Republicans included in the FY 2000 Labor HHS Appropriations bill as passed by the subcommittee in a party-line vote.

PENSION COUNSELING

The Committee has worked bipartisanship to continue the Pension Counseling and Information Demonstration Program. The counseling projects have worked very successfully over the past six years and we believe they provide important assistance to older individuals who have questions or problems in receiving their retirement benefits. The counseling projects have assisted tens of thousands of older Americans and recovered over \$10 million in pension benefits.

We have one unresolved concern with the pension counseling program reauthorization as currently drafted. The bill requires the Administration on Aging to give priority to new projects in its funding determination. We believe all proposed projects, current ones included, should compete equally to receive AoA funding. Currently, there are some projects which were only recently started and there is no reason they should be denied the opportunity to receive additional funding when they are just starting to establish themselves. Given that AoA funding is extremely modest, it is not easy to establish new projects. We believe that all projects should have the possibility to receive funding provided they demonstrate to AoA their ability to provide meaningful pension counseling to older Americans.

ADDITIONAL VIEWS OF JOHN F. TIERNEY

The Older Americans Act of 1965 has not been reauthorized since its expiration in 1995, in part because some members opposed reauthorization unless accompanied by substantial revision (and, in many cases, weakening) of the long-standing protections granted by the Act. I am glad to see that this year, reauthorization is finally proceeding in a manner that would be generally beneficial to our nation's aging population.

With some improvements, this bill is worthy of strong support. Clearly, as outlined in the previous set of views, my colleagues and I in the minority believe that the importance of reauthorization provides substantial incentive to move this measure forward. Below I have added additional comments on positive aspects of the bill included during the mark-up as well as a few of my concerns with provisions that deserve improvement lest they lead to diminished protections and benefits for aging individuals.

TITLE I, SUBTITLE B—PROGRAM TO PROTECT OLDER INDIVIDUALS FROM TELEMARKETING FRAUD

Because fraudulent telemarketers disproportionately target older individuals, I have proposed a new Older Americans Act demonstration project to help educate older Americans about the dangers of telemarketing fraud and how they can protect themselves. The amendment draws from a bill filed earlier in the House by our colleague Mr. Robert Weygand. I am pleased that my Committee colleagues have expressed interest in working with me to include this project in the final version of the bill.

Many of us have heard heart-wrenching stories from constituents who have lost their hard earned savings to telemarketing fraud. In fact, it has been estimated that Americans lose approximately \$40 billion annually to telemarketing scams, with a disproportionate share being 55 and older. By educating our aging population about the dangers of telemarketing fraud, we can stop these financial crimes before they happen and protect this vulnerable population from scams.

TITLE III, SUBTITLE C—FAMILY CAREGIVER PROGRAMS

Title III, Subtitle C gives long-deserved funding and support for an under-recognized service. By providing supplemental services, respite care, counseling, assistance, and other support to family and other informal caregivers, this program acknowledges that the home is a vitally important setting for the provision of long-term care. I proposed an amendment to increase the authorization for this program from the \$100 million up to \$125 million, the full level requested by the Administration. My amendment reflects my strong support for this important new benefit. This program deserves to be fully funded, and I am pleased that the Committee, in

accepting my amendment, clearly signaled their agreement on this issue.

TITLE IV—STATE LONG-TERM CARE OMBUDSMAN PROGRAMS; SERVICES FOR THE PREVENTION AND REMEDIATION OF ELDER ABUSE, NEGLECT, AND EXPLOITATION

By contrast, Title IV, which would replace Title VII of the Older Americans Act of 1965, represents a reduction, rather than an improvement in services for the aging. It would remove the dedicated funding for legal assistance and benefits counseling, while collapsing authority for the ombudsman and elder abuse prevention programs. I am concerned that state and area agencies will consider these measures a sign of the diminished priority that Congress places on these protections for the most vulnerable elderly. I submit these additional views to emphasize that while this issue should be addressed prior to final approval of any measure, absent that action, each of these programs remains essential, and state and area agencies should maintain and enhance their efforts in these areas, even under a new funding structure.

Unfortunately, simply giving states the option of transferring Title III funds to these four critical programs constitutes an inadequate federal contribution. Other Title III projects, themselves pressed for financing, already compete for these limited dollars. The possibility of freeing money for these four former Title VII programs is extraordinarily slim.

The continued importance of each of these programs cannot be overstated, particularly since the assurance of any other rights, protections, and entitlements for the elderly depends significantly upon the strength of these four service areas. Without the ombudsman program, older persons might not be able to investigate and resolve their legitimate complaints. When elder abuse, neglect and exploitation are not prevented, aging individuals might be subject to retaliation and mistreatment for claiming their rights. Legal assistance is necessary to guarantee older persons any meaningful rights at all. Finally, outreach, counseling, and assistance to inform older persons of their rights is a crucial prerequisite to the assurance of any benefits and protections.

I strongly urge continued attention and support for these foundational programs despite the unfavorable funding structure.

With these improvements as well as the provisions outlined above, the Congress can proudly reauthorize an Act that successfully delivers much-needed protections and benefits to our nation's older Americans.

JOHN F. TIERNEY.
