107TH CONGRESS 1ST SESSION H.R. 2426

To encourage the development and integrated use by the public and private sectors of remote sensing and other geospatial information, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JUNE 28, 2001

Mr. UDALL of Colorado (for himself and Mr. GREENWOOD) introduced the following bill; which was referred to the Committee on Science

A BILL

- To encourage the development and integrated use by the public and private sectors of remote sensing and other geospatial information, and for other purposes.
 - 1 Be it enacted by the Senate and House of Representa-
 - 2 tives of the United States of America in Congress assembled,

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the "Remote Sensing Appli-

5 cations Act of 2001".

6 SEC. 2. FINDINGS.

- 7 The Congress finds that—
- 8 (1) although urban land use planning, growth9 management, and other functions of State, local, re-

gional, and tribal agencies are rightfully within their
jurisdiction, the Federal Government can and should
play an important role in the development and demonstration of innovative techniques to improve comprehensive land use planning and growth management;

7 (2) the United States is making a major invest8 ment in acquiring remote sensing and other
9 geospatial information from both governmental and
10 commercial sources;

(3) while much of the data is being acquired for
scientific and national security purposes, it also can
have important applications to help meet societal
goals;

(4) it has already been demonstrated that
Landsat data and other earth observation data can
be of enormous assistance to Federal, State, local,
regional, and tribal agencies for urban land use
planning, coastal zone management, natural and cultural resource management, and disaster monitoring;

(5) remote sensing, coupled with the emergence
of geographic information systems and satellitebased positioning information, offers the capability
of developing important new applications of inte-

grated sets of geospatial information to address soci etal needs;

3 (6) the full range of applications of remote
4 sensing and other forms of geospatial information to
5 meeting public sector requirements has not been
6 adequately explored or exploited;

7 (7) the Land Remote Sensing Policy Act of
8 1992, Presidential Decision Directive 23 of 1994,
9 and the Commercial Space Act of 1998 all support
10 and promote the development of United States com11 mercial remote sensing capabilities;

(8) many State, local, regional, tribal, and Federal agencies are unaware of the utility of remote
sensing and other geospatial information for meeting
their needs, even when research has demonstrated
the potential applications of that information;

(9) remote sensing and other geospatial information can be particularly useful to State, local, regional, and tribal agencies in the area of urban planning, especially in their efforts to plan for and manage the impacts of growth, development, and sprawl,
as well as in environmental impact and disaster relief planning and management;

24 (10) the National Aeronautics and Space Ad-25 ministration, in coordination with other agencies,

can play a unique role in demonstrating how data
acquired for scientific purposes, when combined with
other data sources and processing capabilities, can
be applied to assist State, local, regional, and tribal
agencies and the private sector in decisionmaking in
such areas as agriculture, weather forecasting, and
forest management; and

8 (11) in addition, the National Aeronautics and 9 Space Administration, in conjunction with other 10 agencies, can play a unique role in stimulating the 11 development of the remote sensing and other 12 geospatial information sector through pilot projects 13 to demonstrate the value of integrating govern-14 mental and commercial remote sensing data with ge-15 ographic information systems and satellite-based po-16 sitioning data to provide useful applications prod-17 ucts.

- 18 SEC. 3. DEFINITIONS.
- 19 In this Act—

20 (1) the term "Administrator" means the Ad21 ministrator of the National Aeronautics and Space
22 Administration;

(2) the term "geospatial information" means
knowledge of the nature and distribution of physical
and cultural features on the landscape based on

has the meaning given that term in section 101(a)
of the Higher Education Act of 1965 (20 U.S.C.
1001(a)).

7 SEC. 4. PILOT PROJECTS TO ENCOURAGE PUBLIC SECTOR 8 APPLICATIONS.

9 (a) IN GENERAL.—The Administrator shall establish 10 a program of grants for competitively awarded pilot 11 projects to explore the integrated use of sources of remote 12 sensing and other geospatial information to address State, 13 local, regional, and tribal agency needs.

(b) PREFERRED PROJECTS.—In awarding grants
under this section, the Administrator shall give preference
to projects that—

17 (1) make use of existing public or commercial18 data sets;

(2) integrate multiple sources of geospatial information, such as geographic information system
data, satellite-provided positioning data, and remotely sensed data, in innovative ways;

23 (3) include funds or in-kind contributions from
24 non-Federal sources;

1

2

3

1	(4) involve the participation of commercial enti-
2	ties that process raw or lightly processed data, often
3	merging that data with other geospatial information,
4	to create data products that have significant value
5	added to the original data; and
6	(5) taken together demonstrate as diverse a set
7	of public sector applications as possible.
8	(c) Opportunities.—In carrying out this section,
9	the Administrator shall seek opportunities to assist—
10	(1) in the development of commercial applica-
11	tions potentially available from the remote sensing
12	industry; and
13	(2) State, local, regional, and tribal agencies in
14	applying remote sensing and other geospatial infor-
15	mation technologies for growth management.
16	(d) DURATION.—Assistance for a pilot project under
17	subsection (a) shall be provided for a period not to exceed
18	3 years.
19	(e) REPORT.—Each recipient of a grant under sub-
20	section (a) shall transmit a report to the Administrator
21	on the results of the pilot project within 180 days of the
22	completion of that project.
23	(f) WORKSHOP.—Each recipient of a grant under
24	subsection (a) shall, not later than 180 days after the com-
25	pletion of the pilot project, conduct at least one workshop

for potential users to disseminate the lessons learned from
 the pilot project as widely as feasible.

3 (g) REGULATIONS.—The Administrator shall issue
4 regulations establishing application, selection, and imple5 mentation procedures for pilot projects, and guidelines for
6 reports and workshops required by this section.

7 SEC. 5. PROGRAM EVALUATION.

8 (a) ADVISORY COMMITTEE.—The Administrator 9 shall establish an advisory committee, consisting of indi-10 viduals with appropriate expertise in State, local, regional, 11 and tribal agencies, the university research community, 12 and the remote sensing and other geospatial information 13 industry, to monitor the program established under section 4. The advisory committee shall consult with the Fed-14 15 eral Geographic Data Committee and other appropriate industry representatives and organizations. Notwith-16 17 standing section 14 of the Federal Advisory Committee Act, the advisory committee established under this sub-18 19 section shall remain in effect until the termination of the 20 program under section 4.

(b) EFFECTIVENESS EVALUATION.—Not later than
December 31, 2005, the Administrator shall transmit to
the Congress an evaluation of the effectiveness of the program established under section 4 in exploring and promoting the integrated use of sources of remote sensing

7

and other geospatial information to address State, local,
 regional, and tribal agency needs. Such evaluation shall
 have been conducted by an independent entity.

4 SEC. 6. DATA AVAILABILITY.

5 The Administrator shall ensure that the results of 6 each of the pilot projects completed under section 4 shall 7 be retrievable through an electronic, Internet-accessible 8 database.

9 SEC. 7. EDUCATION.

10 The Administrator shall establish an educational out-11 reach program to increase awareness at institutions of 12 higher education and State, local, regional, and tribal 13 agencies of the potential applications of remote sensing 14 and other geospatial information.

15 SEC. 8. COST SENSITIVITY STUDY.

16 The Administrator shall conduct a study of the effect of remote sensing imagery costs on potential State, local, 17 regional, and tribal agency applications. The study shall 18 identify applications that are likely to be most affected by 19 20 reductions in the cost of remote sensing imagery. Not later 21 than 2 years after the date of the enactment of this Act, 22 the Administrator shall transmit to the Congress the re-23 sults of the study conducted under this section.

1 SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

2 There are authorized to be appropriated to the Ad-3 ministrator \$15,000,000 for each of the fiscal years 2002

4 through 2006 to carry out this Act.

 \bigcirc
