107TH CONGRESS 1ST SESSION

H. R. 2573

To ensure that proper planning is undertaken to secure the preservation and recovery of the salmon and steelhead of the Columbia River basin and the maintenance of reasonably priced, reliable power, to direct the Secretary of Commerce to seek peer review of, and to conduct studies regarding, the National Marine Fisheries Service biological opinion, under the Endangered Species Act of 1973, pertaining to the impacts of Columbia River basin Federal dams on salmon and steelhead listed under the Endangered Species Act of 1973, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

July 19, 2001

Mr. McDermott (for himself, Mr. Bonior, Mr. Petri, Ms. McKinney, Mrs. Napolitano, Mr. Sherman, Mr. Borski, Mr. Neal of Massachusetts, Mr. Pallone, Mr. Sawyer, Mr. George Miller of California, Mr. Gutierrez, Mr. Blagojevich, Mr. Evans, Mr. Leach, Mr. Payne, Mr. Andrews, Mr. Udall of New Mexico, Mr. Costello, Mrs. Mink of Hawaii, and Ms. Solis) introduced the following bill; which was referred to the Committee on Resources, and in addition to the Committee on Transportation and Infrastructure, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To ensure that proper planning is undertaken to secure the preservation and recovery of the salmon and steelhead of the Columbia River basin and the maintenance of reasonably priced, reliable power, to direct the Secretary of Commerce to seek peer review of, and to conduct studies regarding, the National Marine Fisheries Service biological opinion, under the Endangered Species Act of 1973, pertaining to the impacts of Columbia River basin Federal dams on salmon and steelhead listed under the Endangered Species Act of 1973, and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-2 tives of the United States of America in Congress assembled, 3 SECTION 1. SHORT TITLE. This Act may be cited as the "Salmon Planning Act". 4 5 SEC. 2. FINDINGS AND PURPOSES. (a) FINDINGS.—Congress finds and declares that— 6 7 (1) certain species of salmon and steelhead in 8 the Columbia and Snake River basin are on the 9 brink of extinction as a consequence of various fac-10 tors, including hydroelectric projects, harvest man-11 agement practices, habitat degradation, altered in-12 stream flow, and unsound hatchery practices; 13 (2) these salmon and steelhead have major eco-14 ecological, educational, recreational, scinomic, 15 entific, cultural, and spiritual significance to the Na-16 tion and its people; 17 (3) salmon and steelhead are a symbol of the 18 Northwest, support thousands of jobs in coastal and 19 inland communities, and serve as an indicator of the
 - (4) the United States Government has signed treaties with Indian tribes of Oregon, Washington,

health of Northwest river ecosystems;

20

21

22

- and Idaho and with the Government of Canada creating a legally enforceable trust responsibility to restore salmon populations to sustainable, harvestable levels;
 - (5) since the construction of 4 Federal dams on the lower Snake River in Washington, salmon and steelhead populations in the Snake River have plummeted, and all salmon and steelhead in the Snake River are extinct or listed under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);
 - (6) recent studies indicate that the time to protect remaining Snake River salmon and steelhead is short, with scientists estimating that, if changes do not occur, remaining Snake River salmon will be extinct in our lifetime;
 - (7) salmon and steelhead extinction could cost taxpayers billions of dollars;
 - (8) a federally funded group of State, tribal, Federal, and independent scientists found that partially removing the 4 lower Snake River dams in Washington is the surest way to protect and recover Snake River salmon and steelhead;
 - (9) several communities that rely on the 4 lower Snake River dams would be affected by partial dam removal;

- 5 (11) energy production in the Northwest is 6 heavily dependent upon hydropower and thus, the 7 prospects for salmon recovery and Northwest energy 8 production are inextricably linked.
 - (b) Purposes.—The purposes of this Act are—
 - (1) to ensure the protection of Columbia and Snake River salmon and steelhead while providing for reliable, reasonably priced energy in the Northwest, an economically sustainable salmon recovery program, and effective mitigation of potential economic impacts to communities from potential dam removal; and
 - (2) to ensure that the Northwest and the Nation have completed the necessary planning and evaluation to respond rapidly if major new actions are necessary to protect and recover salmon and steelhead in the Columbia and Snake River basin.

22 SEC. 3. PEER REVIEW OF NMFS BIOLOGICAL OPINION.

23 (a) IN GENERAL.—Not later than 6 months after the 24 date of enactment of this Act, the Secretary of Commerce 25 shall enter into an arrangement with the National Acad-

- 1 emy of Sciences providing for peer review of the NMFS
- 2 biological opinion and submission of a report on the re-
- 3 sults of the peer review in accordance with subsection (c).
- 4 (b) Contents.—For purposes of this section, peer
- 5 review shall include, at a minimum, the following:
- 6 (1) Review of performance standards in the
- 7 NMFS biological opinion.
- 8 (2) Review of any recovery standards estab-
- 9 lished by the National Marine Fisheries Service pur-
- suant to the NMFS biological opinion for each listed
- salmon and steelhead population.
- 12 (3) Review of the effectiveness of the implemen-
- tation plans required by the NMFS biological opin-
- ion and the appropriateness of the timelines for im-
- plementing such plans.
- 16 (4) Review of the NMFS biological opinion and
- its analyses and conclusions and review of any fu-
- ture analyses required by the NMFS biological opin-
- 19 ion.
- 20 (c) Report.—Not later than 12 months after the
- 21 date of enactment of this Act, the National Academy of
- 22 Sciences shall submit to the Secretary of Commerce, the
- 23 Secretary of the Army, the Secretary of the Interior, and
- 24 the Administrator of the Environmental Protection Agen-

- 1 cy a report on the results of the peer review conducted
- 2 under this section.
- 3 (d) Determination of Sufficiency.—Not later
- 4 than December 31, 2003, the Secretary of Commerce shall
- 5 publish—
- 6 (1) a determination of whether implementation
- 7 of the salmon recovery measures in the NMFS bio-
- 8 logical opinion are sufficient to achieve recovery, as
- 9 defined under the Endangered Species Act of 1973
- 10 (16 U.S.C. 1531 et seq.), of the salmon and
- steelhead populations that are the subject of the bio-
- logical opinion; and
- 13 (2) if the determination under paragraph (1) is
- that such measures are not sufficient to achieve such
- recovery, a determination of whether partially re-
- moving the 4 lower Snake River dams is necessary
- 17 to restore Snake River salmon and steelhead popu-
- lations to meet obligations under such Act.
- 19 (e) Determination of Necessity To Meet Trea-
- 20 TY OBLIGATIONS.—Not later than December 31, 2003,
- 21 the Secretary of the Interior shall publish a determination
- 22 of whether partially removing the 4 lower Snake River
- 23 dams is necessary to meet treaty obligations to Indian
- 24 tribes or other sovereign nations.

1	(f) Determination of Necessity To Meet
2	CLEAN WATER REQUIREMENTS.—Not later than Decem-
3	ber 31, 2003, the Administrator of the Environmental
4	Protection Agency shall publish a determination of wheth-
5	er partially removing the 4 lower Snake River dams is nec-
6	essary to meet the requirements of the Federal Water Pol-
7	lution Control Act (33 U.S.C. 1251 et seq.).
8	SEC. 4. GAO STUDY OF PARTIAL REMOVAL OF LOWER
9	SNAKE RIVER DAMS.
10	(a) IN GENERAL.—The Comptroller General of the
11	United States shall conduct a study of the potential effects
12	of partially removing the 4 lower Snake River dams.
13	(b) Contents.—The study shall include examination
14	of and recommendation for addressing, at a minimum, the
15	following:
16	(1) The economic effects of partial dam removal
17	for local communities and for downstream and coast-
18	al communities, including downstream and coastal
19	communities located within the boundaries of Alaska
20	and Canada, including employment gains or losses
21	that would result from dam removal.
22	(2) The effects of partial dam removal on trans-
23	portation by water, including—

	<u> </u>
1	(A) the feasibility, costs, and sufficiency of
2	alternative transportation by railroad, highway,
3	and other means;
4	(B) the economic benefits and costs of
5	such alternatives;
6	(C) the environmental impact of shifting to
7	such alternatives;
8	(D) the means for mitigating any environ-
9	mental harm that might be caused by the use
10	of such alternatives; and
11	(E) any development or expansion of such
12	alternatives that would be required to continue
13	moving the same amount of cargo that is cur-
14	rently transported by water.
15	(3) The effects of partial dam removal on irri-
16	gation, including the availability of or need for alter-
17	natives to replace irrigation water or to extend irri-
18	gation pumps.
19	(4) The effects of partial dam removal on en-
20	ergy production, including the regional effects of any
21	changes in energy production, identification of alter-
22	native energy sources that could replace any loss in
23	energy production, and the benefits and costs of

such alternatives.

24

1

(5) The effects, including economic effects, of

2	the extinction of salmon and steelhead populations
3	in the Snake River.
4	(c) Report.—Not later than 18 months after the
5	date of enactment of this Act, the Comptroller Genera
6	shall submit to each of the Secretary of the Army, the
7	Secretary of Commerce, and the Administrator of the En-
8	vironmental Protection Agency a report on the results of
9	the study conducted under this section.
10	SEC. 5. AUTHORIZATION AND PLANNING OF SALMON RE
11	COVERY.
12	(a) Partial Dam Removal Authorization.—The
13	Secretary of the Army, acting through the Corps of Engi-
14	neers, is authorized to partially remove the 4 lower Snake
15	River dams if—
16	(1) the Secretary of Commerce finds that such
17	action is necessary to restore Snake River salmor
18	and steelhead populations to meet obligations under
19	the Endangered Species Act of 1973 (33 U.S.C
20	1531 et seq.);
21	(2) the Secretary of the Interior finds that such
22	action is necessary to meet treaty obligations to In-
23	dian tribes or other sovereign nations; or
24	
	(3) the Administrator of the Environmenta
25	(3) the Administrator of the Environmenta Protection Agency finds that such action is nec

1	essary to meet requirements of the Federal Water
2	Pollution Control Act (33 U.S.C. 1251 et seq.).
3	(b) Preliminary Planning Work.—The Secretary
4	of the Army shall undertake such preliminary engineering,
5	design, construction, and other activities as may be nec-
6	essary to remove the 4 lower Snake River dams pursuant
7	to subsection (a). This work shall be completed by Decem-
8	ber 31, 2003.
9	(c) Funding.—There is authorized to be appro-
10	priated to the Secretary of the Army \$4,000,000 for fiscal
11	year beginning after September 30, 2001, to carry out this
12	section. Such sums shall remain available until expended.
13	SEC. 6. DEFINITIONS.
14	In this Act, the following definitions apply:
15	(1) Lower snake river dams.—The term "4
16	lower Snake River dams" means the following dams
17	on the Snake River, Washington:
18	(A) The Ice Harbor dam.
19	(B) The Lower Monumental dam.
20	(C) The Little Goose dam.
21	(D) The Lower Granite dam.
22	(2) NMFS BIOLOGICAL OPINION.—The term
23	"NMFS biological opinion" means the biological
24	opinion of the National Marine Fisheries Service re-
25	garding the Operation of the Federal Columbia

- River power system, issued on December 21, 2000, and any subsequent modification of, or substitute for, that biological opinion.
- 4 (3) POPULATIONS.—The term "populations"
 5 means the 12 evolutionarily significant units of
 6 salmon and steelhead listed in the Columbia and
 7 Snake River basin that are the subject of the NMFS
 8 biological opinion.
