

107TH CONGRESS
2^D SESSION

H. R. 5671

To promote the secure sharing of information and communications within
the Department of Homeland Security.

IN THE HOUSE OF REPRESENTATIVES

OCTOBER 16, 2002

Mr. JOHN introduced the following bill; which was referred to the Committee
on Government Reform

A BILL

To promote the secure sharing of information and commu-
nications within the Department of Homeland Security.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Information Security
5 Act.”

6 **SEC. 2. FINDINGS AND PURPOSES.**

7 (a) FINDINGS.—Congress finds the following:

8 (1) The securing of information will play a vital
9 role in rapidly transforming the Department of
10 Homeland Security into a cohesive organization.

1 (2) Without the ability to share information se-
2 curely and to collaborate securely, the Department
3 of Homeland Security cannot carry out its mission
4 to strengthen homeland security.

5 (b) PURPOSE.—The purpose of this Act is to require
6 the Department of Homeland Security to fund, imple-
7 ment, and maintain the enhanced security infrastructure
8 necessary for sensitive information to be securely stored,
9 transmitted, and disseminated within the Department.

10 **SEC. 3. MANAGED DIGITAL CERTIFICATES.**

11 The Chief Information Officer and the Under Sec-
12 retary for Management of the Department of Homeland
13 Security shall work with the heads of key Department of
14 Homeland Security agencies, including the United States
15 Customs Office and the United States Office of Immigra-
16 tion and Naturalization Services, to implement managed
17 digital certificate-based security projects and to issue to
18 Department employees managed digital certificates,
19 that—

20 (1) provide standards-based e-mail encryption
21 and digital signature capabilities;

22 (2) permit interoperability with the Federal
23 Bridge and other Government public key infrastruc-
24 ture systems and applications;

25 (3) demonstrate proven scalability;

1 (4) support multiple platforms; and

2 (5) include automated, secure key, and certifi-
3 cate management.

4 **SEC. 4. DEFINITIONS.**

5 In this Act:

6 (1) **DIGITAL CERTIFICATE.**—The term “digital
7 certificate” means a digital identifier that authen-
8 ticates an individual or an appliance on a computer
9 network.

10 (2) **MANAGED DIGITAL CERTIFICATE.**—The
11 term “managed digital certificate” means a digital
12 certificate supported by a technology infrastructure
13 that manages the certificate’s life-cycle from cre-
14 ation, issuance, revision, and cancellation.

15 (3) **MANAGED DIGITAL CERTIFICATE-BASED SE-**
16 **CURITY.**—The term “managed digital certificate-
17 based security” means security services predicated
18 upon the use of managed digital certificates.

19 (4) **FEDERAL BRIDGE.**—The term “Federal
20 Bridge” means a clearinghouse that interprets and
21 manages digital certificates so different Government
22 departments and agencies can securely interoperate.
