CONCURRENT RESOLUTION

Supporting the goals and ideals of “National Epilepsy Awareness Month” and urging funding for epilepsy research and service programs.

Whereas epilepsy is a neurological condition that causes seizures and affects 2,300,000 people in the United States;

Whereas a seizure is a disturbance in the electrical activity of the brain, and one in every twelve Americans will suffer at least one seizure;

Whereas 180,000 new cases of seizures and epilepsy are diagnosed each year, and three percent of Americans will develop epilepsy by the time they are 75;

Whereas 41 percent of people who currently have epilepsy experience persistent seizures despite the treatment they are receiving;

Whereas a survey conducted by the Centers for Disease Control and Prevention demonstrated that the hardships imposed by epilepsy are comparable to those imposed by cancer, diabetes, and arthritis;

Whereas epilepsy in older children and adults remains a formidable barrier to leading a normal life by affecting education, employment, marriage, childbearing, and personal fulfillment;

Whereas uncontrollable seizures in children can create multiple problems affecting the child's development, education, socialization, and daily life activities;

Whereas the social stigma surrounding epilepsy continues to fuel discrimination, and isolates people who suffer from seizure disorders from mainstream life;

Whereas in spite of these formidable obstacles, people with epilepsy can live healthy and productive lives and make significant contributions to society;

Whereas November is an appropriate month to designate as "National Epilepsy Awareness Month";

Whereas the designation of a "National Epilepsy Awareness Month" would help to focus attention on, and increase understanding of, epilepsy and those people who suffer from it: Now, therefore, be it
