JOINT RESOLUTION

Expressing the sense of the Congress in recognition of the contributions of the seven Columbia astronauts by supporting establishment of a Columbia Memorial Space Science Learning Center.

Whereas the crew of the space shuttle Columbia was dedicated to scientific research and stimulating the interest of American children in space flight and science;

Whereas the Columbia crew carried out science projects of American schoolchildren;

Whereas the members of that crew gave their lives trying to benefit the education of American children;

Whereas a fitting tribute to that effort and to the sacrifice of the Columbia crew and their families is needed;

Whereas an appropriate form for such tribute would be to expand educational opportunities in science by the creation of a center and museum to offer children and teachers activities and information derived from American space research;

Whereas the former manufacturing site of the space shuttles (including the Columbia and the Challenger) in the city of Downey, California, is a fitting site for such a tribute;

Whereas residents of Downey are proud of their role in building the space shuttle fleet and in furthering the Nation's space program;

Whereas the Congress has appropriated funds for establishment of a space science learning center and museum at the former shuttle manufacturing site in Downey; and

Whereas city officials have been working with NASA representatives to develop the center in Downey: Now, therefore, be it

2 *of the United States of America in Congress assembled,*

3 That it is the sense of the Congress that—

1 (1) the space science learning center in Dow-
2 ney, California, should be designated as the Colum-
3 bia Memorial Space Science Learning Center as a
4 living memorial to the seven Columbia astronauts
5 who died serving their country in the name of
6 science and research; and

7 (2) the Federal Government, along with public
8 and private organizations and persons, should con-
9 tinue to cooperate in the establishment of such a
10 center.
