

108TH CONGRESS
1ST SESSION

H. R. 1299

To amend the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

MARCH 17, 2003

Mr. BOEHLERT introduced the following bill; which was referred to the Committee on Science

A BILL

To amend the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Hydrogen Fuel Act
5 of 2003” or “Hydrogen Act”.

6 **SEC. 2. AMENDMENT TO THE MATSUNAGA ACT.**

7 The Spark M. Matsunaga Hydrogen Research, Devel-
8 opment, and Demonstration Act of 1990 (42 U.S.C.
9 12401 et seq.) is amended by striking sections 102
10 through 109 and inserting the following:

1 **“SEC. 102. FINDINGS, PURPOSES, AND DEFINITIONS.**

2 “(a) FINDINGS.—Congress finds that—

3 “(1) the United States is currently dependent
4 on foreign sources for a majority of its petroleum
5 supply;

6 “(2) the Nation’s dependence on foreign petro-
7 leum is expected to increase in the decades ahead;

8 “(3) the national interest is to reduce depend-
9 ence on imported petroleum by accelerating Federal
10 efforts to partner with the private sector in devel-
11 oping hydrogen and fuel cell technologies;

12 “(4) the national interest is to support indus-
13 try’s efforts to develop a light duty vehicle fleet that
14 is free or near free of pollutant emissions and green-
15 house gas emissions, and that helps to reduce the
16 Nation’s dependence on petroleum in a manner that
17 maintains the freedom of consumers to purchase the
18 kinds of vehicles they wish to drive and the freedom
19 to refuel those vehicles safely and affordably;

20 “(5) the development of hydrogen fuel cell vehi-
21 cles and supporting infrastructure will accelerate the
22 parallel advancement of fuel cells for stationary
23 power that will enhance the resiliency, reliability,
24 and environmental performance of the Nation’s elec-
25 tricity infrastructure;

1 “(6) ancillary benefits for the Nation, including
2 the acceleration of fuel cell technology for consumer
3 electronics and portable power, are likely to result
4 from the advancement of hydrogen fuel cell vehicles
5 and supporting infrastructure; and

6 “(7) vehicle technology development work
7 should be performed in a manner that is cognizant
8 of consumer acceptance and marketplace success.

9 “(b) PURPOSE.—The purpose of this Act is to reduce
10 significantly the Nation’s dependence on imported petro-
11 leum through support of the following Department of En-
12 ergy programs and activities:

13 “(1) Research, development, demonstration,
14 and technology transfer programs for hydrogen and
15 fuel cells, leading to—

16 “(A) a decision by automakers no later
17 than 2015 to offer affordable and technically
18 viable hydrogen fuel cell vehicles in the mass
19 consumer market; and

20 “(B) the mass market availability of af-
21 fordable and technically viable hydrogen fuel
22 cell vehicles and adequate refueling infrastruc-
23 ture no later than 2020.

1 “(2) An activity to establish international codes,
2 standards, and safety protocols for the use and man-
3 ufacture of domestic and foreign products.

4 “(3) Interagency, intergovernmental, and inter-
5 national programs and activities for education, infor-
6 mation exchange, and cooperation.

7 “(4) A survey of private sector hydrogen energy
8 research and development activities worldwide to en-
9 sure that Federal research and development activi-
10 ties do not—

11 “(A) unnecessarily duplicate any available
12 research and development; or

13 “(B) displace or compete with the privately
14 funded hydrogen energy research and develop-
15 ment activities of United States industry.

16 “(c) DEFINITIONS.—In this Act:

17 “(1) The term ‘Advisory Committee’ means the
18 Hydrogen Technical and Fuel Cell Advisory Com-
19 mittee established under section 108 of this Act.

20 “(2) The term ‘Department’ means the Depart-
21 ment of Energy.

22 “(3) The term ‘fuel cell’ means a device that di-
23 rectly converts the chemical energy of a fuel and an
24 oxidant into electricity by an electrochemical process
25 taking place at separate electrodes in the device.

1 “(4) The term ‘infrastructure’ means the equip-
2 ment, systems, or facilities used to produce, dis-
3 tribute, deliver, or store hydrogen and other ad-
4 vanced clean fuels.

5 “(5) The term ‘light duty vehicle’ means a car
6 or truck classified by the Department of Transpor-
7 tation as a Class I or IIA vehicle.

8 “(6) The term ‘Secretary’ means the Secretary
9 of Energy.

10 **“SEC. 103. PLAN; REPORT.**

11 “(a) PLAN.—The Secretary, in coordination with
12 other appropriate Federal agencies, may prepare a com-
13 prehensive interagency coordination plan for research, de-
14 velopment, and demonstration programs and activities
15 under this Act. This plan may be submitted at the time
16 of the President’s annual budget submission to Congress.

17 “(b) REPORT.—Not later than one year after the
18 date of enactment of the Hydrogen Fuel Act of 2003, and
19 biennially thereafter, the Secretary may transmit to Con-
20 gress a report on the status of programs and activities
21 under this Act. This report may be submitted at the time
22 of the President’s annual budget submission to Congress.
23 This report may include, in addition to any views and rec-
24 ommendations of the Secretary—

1 “(1) an assessment of the effectiveness of the
2 programs and activities under this Act and the ex-
3 tent to which the purpose in section 102(b) has been
4 met;

5 “(2) an analysis of the potential for inter-
6 agency, intergovernmental, international, or private
7 sector collaboration opportunities in research, devel-
8 opment, demonstration, and other programs and ac-
9 tivities under this Act; and

10 “(3) a discussion of how the Department has
11 addressed recommendations of the Advisory Com-
12 mittee.

13 **“SEC. 104. RESEARCH AND DEVELOPMENT.**

14 “(a) PROGRAM.—In partnership with the private sec-
15 tor, the Secretary shall conduct a research and develop-
16 ment program for—

17 “(1) hydrogen infrastructure;

18 “(2) fuel cells; and

19 “(3) hydrogen codes, standards, and safety pro-
20 tocols.

21 “(b) PROGRAM GOALS.—The goals of the research
22 and development program under this section are—

23 “(1) to enable a decision by automakers not
24 later than 2015 to offer affordable and technically

1 viable hydrogen fuel cell vehicles in the mass con-
2 sumer market; and

3 “(2) to enable production and delivery to con-
4 sumers of model year 2020 hydrogen fuel cell vehi-
5 cles that will have—

6 “(A) a range of at least three hundred
7 miles;

8 “(B) safety and performance comparable
9 to vehicle technologies in the market; and

10 “(C) when compared to light duty vehicles
11 in model year 2003—

12 “(i) a fuel economy that is two and
13 one half times the equivalent fuel economy
14 of comparable light duty vehicles in model
15 year 2003; and

16 “(ii) zero or near zero emissions of
17 pollutants; and

18 “(D) vehicle fuel system crash integrity
19 and occupant protection.

20 “(c) HYDROGEN INFRASTRUCTURE.—The research
21 and development program for hydrogen infrastructure
22 may include—

23 “(1) safe and convenient refueling;

24 “(2) activities leading to widespread availability
25 of hydrogen from domestic energy sources through—

1 “(A) production, including emphasis on
2 cost-effective production from domestic energy
3 sources;

4 “(B) delivery, including transmission by
5 pipeline and other distribution methods for hy-
6 drogen; and

7 “(C) storage, including storage in surface
8 transportation vehicles; and

9 “(3) hydrogen for fuel cells, and other energy
10 conversion devices for portable, stationary, and
11 transportation applications.

12 “(d) FUEL CELLS.—The research and development
13 program for fuel cells and their portable, stationary, and
14 transportation applications may include—

15 “(1) a safe, economical, and environmentally
16 sound hydrogen fuel cell; and

17 “(2) a fuel cell for light duty vehicles and other
18 vehicles.

19 “(e) HYDROGEN CODES, STANDARDS, AND SAFETY
20 PROTOCOLS.—

21 “(1) IN GENERAL.—The Department’s research
22 and development program for hydrogen codes, stand-
23 ards, and safety protocols includes as a goal the es-
24 tablishment of international codes, standards, and
25 safety protocols for the performance and manufac-

1 ture of domestic and foreign products, including
2 motor vehicles and equipment. The Department shall
3 coordinate these activities with other Federal agen-
4 cies.

5 “(2) REPRESENTATION.—The Department may
6 represent the United States interests with respect to
7 activities and programs under this Act, in coordina-
8 tion with the Department of Transportation, before
9 governments and nongovernmental organizations in-
10 cluding—

11 “(A) other Federal, State, regional, and
12 local governments and their representatives;

13 “(B) industry and its representatives, in-
14 cluding members of the energy and transpor-
15 tation industries; and

16 “(C) in consultation with the Department
17 of State, foreign governments and their rep-
18 resentatives including international organiza-
19 tions.

20 “(f) FEDERAL FUNDING.—

21 “(1) PROCEDURES.—The Secretary shall carry
22 out the research and development programs and ac-
23 tivities under this Act using a competitive, merit-re-
24 view process and consistent with the generally appli-
25 cable Federal laws and regulations governing awards

1 of financial assistance, contracts, or other agree-
2 ments.

3 “(2) DUPLICATION.—The Department shall—

4 “(A) survey private sector hydrogen energy
5 research and development activities worldwide;
6 and

7 “(B) endeavor to avoid duplication or dis-
8 placement of other research and development
9 programs and activities.

10 “(g) COST SHARING.—

11 “(1) IN GENERAL.—The Secretary shall require
12 a commitment from non-Federal sources of at least
13 20 percent of the cost of proposed research and de-
14 velopment.

15 “(2) RANKING FACTOR.—The Department shall
16 make the percentage of cost-sharing a ranking factor
17 in making competitive awards.

18 “(3) REDUCTION.—The Secretary may reduce
19 the cost sharing requirement under paragraph (1)—

20 “(A) if the Secretary determines that the
21 research and development is of a basic or fun-
22 damental nature; or

23 “(B) for technical analyses, outreach pro-
24 grams, or other activities including educational
25 programs under section 107 that the Secretary

1 does not expect to result in a marketable prod-
2 uct.

3 **“SEC. 105. DEMONSTRATIONS.**

4 “(a) DEMONSTRATION PROGRAM.—The purpose of
5 demonstrations is to evaluate commercial applicability of
6 technologies or to identify additional research or develop-
7 ment needs that cannot be identified through other means.
8 In partnership with the private sector, and in coordination
9 with the Department of Transportation, the Secretary
10 may conduct a demonstration program for—

11 “(1) hydrogen infrastructure;

12 “(2) fuel cells and fuel cell technologies includ-
13 ing hydrogen-powered fuel cell vehicles; and

14 “(3) hydrogen codes, standards, and safety pro-
15 tocols.

16 “(b) FEDERAL FUNDING.—The Secretary shall carry
17 out demonstrations under this section using a competitive,
18 merit-review process and consistent with the generally ap-
19 plicable Federal laws and regulations governing awards of
20 financial assistance, contracts, or other agreements. The
21 Department shall endeavor to avoid duplication or dis-
22 placement of other demonstrations.

23 “(c) COST SHARING.—

24 “(1) IN GENERAL.—The Secretary shall require
25 a commitment from non-Federal sources of at least

1 50 percent of the costs directly relating to a dem-
2 onstration under this Act.

3 “(2) RANKING FACTOR.—The Secretary shall
4 make the percentage of cost-sharing a ranking factor
5 in making competitive awards.

6 “(3) REDUCTION.—The Secretary may reduce
7 the non-Federal cost sharing requirement under
8 paragraph (1) if the Secretary determines that the
9 reduction is appropriate considering the techno-
10 logical risks involved.

11 “(4) COOPERATIVE AGREEMENTS WITH GOV-
12 ERNMENTS.—The Secretary may enter into cost-
13 sharing agreements with Federal, State, or local
14 governments to demonstrate applications using hy-
15 drogen and fuel cells.

16 **“SEC. 106. TECHNOLOGY ASSESSMENT AND TRANSFER.**

17 “(a) PROGRAM.—The Secretary may conduct a pro-
18 gram to transfer technology to the private sector under
19 this Act. The purpose of the technology transfer program
20 is to foster the exchange of generic, nonproprietary infor-
21 mation and technology, developed under this Act, among
22 industry, academia, and the Federal Government, to help
23 the United States economy attain the economic benefits
24 of this information and technology, among other purposes.

1 “(b) **ADVICE AND ASSISTANCE.**—The Secretary shall
2 direct the program authorized by this section with the ad-
3 vice and assistance of the Advisory Committee.

4 **“SEC. 107. INTERAGENCY TASK FORCE.**

5 “(a) **ESTABLISHMENT.**—Not later than 120 days
6 after the date of enactment of the Hydrogen Fuel Act of
7 2003, the President shall establish an interagency task
8 force, chaired by the Director of the Office of Science and
9 Technology Policy or his designee, with representatives
10 from each of the following:

11 “(1) The Department of Energy.

12 “(2) The Department of Transportation.

13 “(3) The Department of State.

14 “(4) The Department of Defense.

15 “(5) The Department of Commerce (including
16 the National Institute of Standards and Tech-
17 nology).

18 “(6) The Environmental Protection Agency.

19 “(7) The National Aeronautics and Space Ad-
20 ministration.

21 “(8) Other Federal agencies as the Director de-
22 termines appropriate.

23 “(b) **DUTIES OF THE INTERAGENCY TASK FORCE.**—

24 “(1) **PLANNING.**—The interagency task force
25 shall coordinate the implementation of the inter-

1 agency coordination plan prepared under section
2 103(a), and shall work toward development of—

3 “(A) a safe, economical, and environ-
4 mentally sound hydrogen infrastructure;

5 “(B) uniform hydrogen codes, standards,
6 and safety protocols;

7 “(C) fuel cells in government applications,
8 including portable, stationary, and transpor-
9 tation applications; and

10 “(D) vehicle hydrogen fuel system integrity
11 safety performance.

12 “(2) INFORMATION EXCHANGE.—(A) The inter-
13 agency task force shall coordinate interagency pro-
14 grams and activities including the exchange of infor-
15 mation.

16 “(B) The heads of all agencies, including those
17 whose agencies are not represented on the inter-
18 agency task force, shall cooperate with and furnish
19 information to the interagency task force and the
20 Department.

21 “(C) The information exchange may consist of
22 workshops, publications, conferences, and a database
23 for use by the public and private sectors. The inter-
24 agency task force shall—

1 “(i) foster the exchange of generic, non-
2 proprietary information and technology among
3 industry, academia, and government;

4 “(ii) update the inventory and assessment
5 of hydrogen, fuel cells, and other advanced
6 technologies, including the commercial capa-
7 bility of each technology for the economic and
8 environmentally safe production, distribution,
9 delivery, storage, and use of hydrogen;

10 “(iii) integrate technical and other infor-
11 mation made available as a result of the pro-
12 grams and activities under this Act;

13 “(iv) promote the marketplace introduction
14 of infrastructure for hydrogen-powered fuel cell
15 vehicles; and

16 “(v) conduct an education program to pro-
17 vide hydrogen and fuel cell information to po-
18 tential end-users.

19 **“SEC. 108. ADVISORY COMMITTEE.**

20 “(a) ESTABLISHMENT.—The Hydrogen Technical
21 and Fuel Cell Advisory Committee shall be established to
22 advise the Secretary on the programs and activities under
23 this Act.

24 “(b) MEMBERSHIP.—

1 “(1) MEMBERS.—The Advisory Committee is
2 comprised of not fewer than 12 nor more than 25
3 members. The Secretary shall appoint members to
4 represent domestic industry, academia, professional
5 societies, government agencies, and financial, envi-
6 ronmental, and other appropriate organizations
7 based on the Secretary’s assessment of the technical
8 and other qualifications of committee members and
9 the needs of the Advisory Committee.

10 “(2) TERMS.—The term of a member of the
11 Advisory Committee shall be not more than three
12 years. The Secretary may appoint members of the
13 Advisory Committee in a manner that allows the
14 terms of the members serving at any time to expire
15 at spaced intervals so as to ensure continuity in the
16 functioning of the Advisory Committee. A member of
17 the Advisory Committee whose term is expiring may
18 be reappointed.

19 “(3) CHAIRPERSON.—The Chair of the Advi-
20 sory Committee shall be a member of the Advisory
21 Committee, elected by the members from among
22 their number.

23 “(c) REVIEW.—The Advisory Committee shall review
24 and make recommendations to the Secretary in a biennial
25 report on—

1 “(1) the implementation of programs and ac-
2 tivities under this Act;

3 “(2) the safety, economical, environmental, and
4 other consequences of technologies for the produc-
5 tion, distribution, delivery, storage, or use of hydro-
6 gen and fuel cells; and

7 “(3) the interagency coordination plan prepared
8 under section 103(a).

9 “(d) RESPONSE TO RECOMMENDATIONS.—The Sec-
10 retary shall consider, but need not adopt, any rec-
11 ommendations of the Advisory Committee under sub-
12 section (c). The Secretary shall either describe the imple-
13 mentation of each recommendation made, or provide an
14 explanation of the reasons that a recommendation will not
15 be implemented, in the report transmitted under section
16 103(b).

17 “(e) ADVISORY COMMITTEE SUPPORT.—The Sec-
18 retary shall provide resources necessary in the judgment
19 of the Secretary for the Advisory Committee to carry out
20 its responsibilities under this Act.

21 **“SEC. 109. NATIONAL ACADEMY OF SCIENCES REVIEW.**

22 “Beginning two years after the date of enactment of
23 the Hydrogen Fuel Act of 2003, and every four years
24 thereafter, the National Academy of Sciences shall review
25 the progress made through the programs and activities au-

1 thORIZED under this Act and shall report to the Congress
2 on the results of this review.”.

3 **SEC. 3. TECHNICAL AND CONFORMING AMENDMENTS TO**
4 **THE HYDROGEN FUTURE ACT OF 1996.**

5 The Hydrogen Future Act of 1996 is repealed.

6 **SEC. 4. AUTHORIZATION OF APPROPRIATIONS.**

7 There are authorized to be appropriated to carry out
8 the purposes of this Act for fiscal years 2003 through
9 2008, \$1,223,000,000.

○
