## RESOLUTION

Conveying the sympathy of the Senate to the families of the young women murdered in the State of Chihuahua, Mexico, and encouraging increased United States involvement in bringing an end to these crimes.

Whereas the Mexican border city of Ciudad Juarez has been plagued with the abduction, sexual assault, and brutal murders of more than 370 young women since 1993;

Whereas these abductions and murders have begun to spread south to the city of Chihuahua;

Whereas more than 90 of these murders show signs of being connected to 1 or more serial killers;

Whereas some of the victims are as young as 13 years old, and many were abducted in broad daylight in well-populated areas;

Whereas these murders have brought pain as the families and friends of the victims on both sides of the border struggle to cope with the loss of their loved ones;

Whereas many of the victims have yet to be positively identified;

Whereas the perpetrators of most of these heinous acts remain unknown;

Whereas the Mexican Federal Government has taken steps to prevent these abductions and murders, including setting up a commission to coordinate Federal and State efforts in Mexico, establishing a 40-point plan, appointing a special commissioner, and appointing a special prosecutor;

Whereas in 2003 the El Paso Field Office of the Federal Bureau of Investigation and the El Paso Police Department began providing Mexican authorities with training in investigation techniques and methods;

Whereas the government of the State of Chihuahua has jurisdiction over these crimes;

Whereas Mexico is a party to the following international treaties that relate to abductions and murders: the Charter of the Organization of American States, the American Convention on Human Rights, the Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights, the International Covenant on Economic, Social and Cultural Rights, the Convention on the Elimination of all Forms of Discrimination Against Women, the United Nations Declaration on Violence Against Women, the Convention on the Rights of the

Child, the Convention of Belem do Para, the Inter-American Convention to Prevent and Punish Torture, the Inter-American Convention on Forced Disappearance, and the United Nations Declaration on the Protection of All Persons From Enforced Disappearance; and

Whereas impunity for these crimes is a threat to the ability of Mexico to consolidate its growing democracy: Now, therefore, be it
