RESOLUTION

Expressing the sense of the Senate that the President should designate the week of October 12, 2003, through October 18, 2003, as “National Cystic Fibrosis Awareness Week”.

Whereas cystic fibrosis, characterized by digestive disorders and chronic lung infections, is a fatal lung disease;

Whereas cystic fibrosis is one of the most common fatal genetic diseases in the United States and one for which there is no known cure;

Whereas more than 10,000,000 Americans are unknowing carriers of the cystic fibrosis gene;

Whereas 1 out of every 3,500 babies born in the United States is born with cystic fibrosis;

Whereas approximately 30,000 people in the United States, many of whom are children, have cystic fibrosis;

Whereas the average life expectancy of an individual with cystic fibrosis is 33 years;

Whereas prompt, aggressive treatment of the symptoms of cystic fibrosis can extend the lives of those who have this disease;

Whereas recent advances in cystic fibrosis research have produced promising leads in gene, protein, and drug therapies beneficial to persons afflicted with the disease;

Whereas this innovative research is progressing faster and is being conducted more aggressively than ever before, due in part to the establishment of a model clinical trials network by the Cystic Fibrosis Foundation; and

Whereas education of the public on cystic fibrosis, including the symptoms of the disease, increases knowledge and understanding of cystic fibrosis and promotes early diagnoses: Now, therefore, be it

1 *Resolved,*

2 **SECTION 1. NATIONAL CYSTIC FIBROSIS AWARENESS.**
