SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the

SEC. 8002. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: Provided, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: Provided further, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: Provided further, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.

SEC. 8003. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless

expressly so provided herein. SEC. 8004. No more than 20 percent of the ap propriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last 2 months of the fiscal year: Provided, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.

(TRANSFER OF FUNDS)

SEC. 8005. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$3,500,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress: Provided further, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: Provided further, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress. Provided further, That a request for multiple reprogrammings of funds using authority provided in this section must be made prior to June 30, 2005: Provided further, That transfers among military personnel appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under this section.

(TRANSFER OF FUNDS)

SEC. 8006. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be

maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: Provided, That transfers may be made between such funds: Provided further, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8007. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in session in advance to the congressional

defense committees.

SEC. 8008. None of the funds provided in this Act shall be available to initiate: (1) a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any 1 year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000; or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any 1 year, unless the congressional defense committees have been notified at least 30 days in advance of the proposed contract award: Provided. That no part of any appropriation contained in this Act shall be available to initiate a multivear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: Provided further, That no part of any appropriation contained in this Act shall be available to initiate multivear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: Provided further, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: Provided further, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement: Provided further, That none of the funds provided in this Act may be used for a multiyear contract executed after the date of the enactment of this Act unless in the case of any such contract-

(1) the Secretary of Defense has submitted to Congress a budget request for full funding of units to be procured through the contract;

(2) cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract;

(3) the contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units;

(4) the contract does not provide for a price adjustment based on a failure to award a follow-on contract.

Funds appropriated in title III of this Act may be used for a multiyear procurement contract as follows:

Lightweight 155mm Howitzer.

SEC. 8009. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported as required by section 401(d) of title 10, United States Code: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: Provided further, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 8010. (a) During fiscal year 2005, the civilian personnel of the Department of Defense may not be managed on the basis of any endstrength, and the management of such personnel during that fiscal year shall not be subiect to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(b) The fiscal year 2006 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2006 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 2006

(c) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8011. None of the funds appropriated in this or any other Act may be used to initiate a new installation overseas without 30-day advance notification to the Committees on Appropriations.

SEC. 8012. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8013. None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: Provided, That this subsection shall not apply to those members who have reenlisted with this option prior to October 1, 1987: Provided further. That this subsection applies only to active components of the Army.

ŠEC. 8014. (a) LIMITATION ON CONVERSION TO CONTRACTOR PERFORMANCE.—None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of the enactment of this Act, is performed by more than 10 Department of Defense civilian employees unless

(1) the conversion is based on the result of a public-private competition that includes a most efficient and cost effective organization plan de-

veloped by such activity or function;

(2) the Competitive Sourcing Official determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of-

(A) 10 percent of the most efficient organization's personnel-related costs for performance of that activity or function by Federal employees;

- (B) \$10,000,000; and
- (3) the contractor does not receive an advantage for a proposal that would reduce costs for the Department of Defense by—
- (A) not making an employer-sponsored health insurance plan available to the workers who are to be employed in the performance of that activity or function under the contract; or
- (B) offering to such workers an employersponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than the amount that is paid by the Department of Defense for health benefits for civilian employees under chapter 89 of title 5, United States Code.
 - (b) EXCEPTIONS.—
- (1) The Department of Defense, without regard to subsection (a) of this section or subsections (a), (b), or (c) of section 2461 of title 10, United States Code, and notwithstanding any administrative regulation, requirement, or policy to the contrary shall have full authority to enter into a contract for the performance of any commercial or industrial type function of the Department of Defense that—
- (A) is included on the procurement list established pursuant to section 2 of the Javits-Wagner-O'Day Act (41 U.S.C. 47);
- (B) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or
- (C) is planned to be converted to performance by a qualified firm under at least 51 percent ownership by an Indian tribe, as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)), or a Native Hawaiian Organization, as defined in section 8(a)(15) of the Small Business Act (15 U.S.C. 637(a)(15)).
- (2) This section shall not apply to depot contracts or contracts for depot maintenance as provided in sections 2469 and 2474 of title 10, United States Code.
- (c) TREATMENT OF CONVERSION.—The conversion of any activity or function of the Department of Defense under the authority provided by this section shall be credited toward any competitive or outsourcing goal, target, or measurement that may be established by statute, regulation, or policy and is deemed to be awarded under the authority of, and in compliance with, subsection (h) of section 2304 of title 10, United States Code, for the competition or outsourcing of commercial activities.

(TRANSFER OF FUNDS)

SEC. 8015. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2302 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

SEC. 8016. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: Provided, That for the purpose of this section manufactured will include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): Provided further, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured in the United States exceeds the aggregate cost of the components produced or manufactured outside the United States: Provided further, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes.

SEC. 8017. None of the funds appropriated by this Act available for the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) or TRICARE shall be available for the reimbursement of any health care provider for inpatient mental health service for care received when a patient is referred to a provider of inpatient mental health care or residential treatment care by a medical or health care professional having an economic interest in the facility to which the patient is referred: Provided, That this limitation does not apply in the case of inpatient mental health services provided under the program for persons with disabilities under subsection (d) of section 1079 of title 10, United States Code, provided as partial hospital care, or provided pursuant to a waiver authorized by the Secretary of Defense because of medical or psychological circumstances of the patient that are confirmed by a health professional who is not a Federal employee after a review, pursuant to rules prescribed by the Secretary, which takes into account the appropriate level of care for the patient, the intensity of services required by the patient, and the availability of that care.

SEC. 8018. Notwithstanding any other provision of law, during the current fiscal year and hereafter, the Secretary of Defense may, by executive agreement, establish with host nation governments in NATO member states a separate account into which such residual value amounts negotiated in the return of United States military installations in NATO member states may be deposited, in the currency of the host nation, in lieu of direct monetary transfers to the United States Treasury: Provided. That such credits may be utilized only for the construction of facilities to support United States military forces in that host nation, or such real property maintenance and base operating costs that are currently executed through monetary transfers to such host nations: Provided further, That the Department of Defense's budget submission for subsequent fiscal years shall identify such sums anticipated in residual value settlements, and identify such construction, real property maintenance or base operating costs that shall be funded by the host nation through such credits: Provided further, That all military construction projects to be executed from such accounts must be previously approved in a prior Act of Congress: Provided further, That each such executive agreement with a NATO member host nation shall be reported to the congressional defense committees, the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate 30 days prior to the conclusion and endorsement of any such agreement established under this provision.

SEC. 8019. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, .30 caliber rifles, or M-1911 pistols.

SEC. 8020. No more than \$500,000 of the funds appropriated or made available in this Act shall be used during a single fiscal year for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the congressional defense commit-

tees that such a relocation is required in the best interest of the Government.

SEC. 8021. In addition to the funds provided elsewhere in this Act, \$8,000,000 is appropriated only for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544): Provided, That a prime contractor or a subcontractor at any tier that makes a subcontract award to any subcontractor or supplier as defined in 25 U.S.C. 1544 or a small business owned and controlled by an individual or individuals defined under 25 U.S.C. 4221(9) shall be considered a contractor for the purposes of being allowed additional compensation under section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544) whenever the prime contract or subcontract amount is over \$500,000 and involves the expenditure of funds appropriated by an Act making Appropriations for the Department of Defense with respect to any fiscal year: Provided further, That notwithstanding 41 U.S.C. 430, this section shall be applicable to any Department of Defense acquisition of supplies or services, including any contract and any subcontract at any tier for acquisition of commercial items produced or manufactured, in whole or in part by any subcontractor or sup-plier defined in 25 U.S.C. 1544 or a small business owned and controlled by an individual or individuals defined under 25 U.S.C. 4221(9): Provided further, That businesses certified as 8(a) by the Small Business Administration pursuant to section 8(a)(15) of Public Law 85-536, as amended, shall have the same status as other program participants under section 602 of Public Law 100-656, 102 Stat. 3825 (Business Opportunity Development Reform Act of 1988) for purposes of contracting with agencies of the Department of Defense.

SEC. 8039. (a) IN GENERAL.—Notwithstanding any other provision of law, the Secretary of the Air Force may convey at no cost to the Air Force, without consideration, to Indian tribes located in the States of North Dakota, South Dakota, Montana, and Minnesota relocatable military housing units located at Grand Forks Air Force Base and Minot Air Force Base that are excess to the needs of the Air Force.

(b) PROCESSING OF REQUESTS.—The Secretary of the Air Force shall convey, at no cost to the Air Force, military housing units under subsection (a) in accordance with the request for such units that are submitted to the Secretary by the Operation Walking Shield Program on behalf of Indian tribes located in the States of North Dakota, South Dakota, Montana, and Minnesota

(c) RESOLUTION OF HOUSING UNIT CON-FLICTS.—The Operation Walking Shield Program shall resolve any conflicts among requests of Indian tribes for housing units under subsection (a) before submitting requests to the Sec-

retary of the Air Force under subsection (b)

(d) Indian Tribe Defined.—In this section, the term "Indian tribe" means any recognized Indian tribe included on the current list published by the Secretary of the Interior under section 104 of the Federally Recognized Indian Tribe Act of 1994 (Public Law 103–454; 108 Stat. 4792; 25 U.S.C. 479a–1).

SEC. 8040. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance

may be used to purchase items having an investment item unit cost of not more than \$250,000.

SEC. 8041. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Business Operations Fund during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 2006 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2006 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 2006 procurement appropriation and not in the supply management business area or any other area or category of the Department of

Defense Working Capital Funds.

SEC. 8042. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 2006: Provided, That funds appropriated, transferred, or otherwise credited to the Central Intelligence Agency Central Services Working Capital Fund during this or any prior or subsequent fiscal year shall remain available until expended: Provided further, That any funds appropriated or transferred to the Central Intelligence Agency for advanced research and development acquisition, for agent operations, and for covert action programs authorized by the President under section 503 of the National Security Act of 1947, as amended, shall remain available until September 30, 2006.

SEC. 8043. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component com-

mands.

SEC. 8044. Of the funds appropriated to the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not eration and Maintenance, Defense-Wide less than \$10,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related administrative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.

SEC. 8045. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41

10a et seg.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code,

whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products ourchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only Americanmade equipment and products, provided that American-made equipment and products are cost-competitive, quality-competitive, and available in a timely fashion.

SEC. 8046. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines-

(1) as a result of thorough technical evaluation, only one source is found fully qualified to

perform the proposed work;

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support: Provided, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8047. (a) Except as provided in subsection (b) and (c), none of the funds made available by this Act may be used-

(1) to establish a field operating agency; or

(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and Senate that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to field operating agencies funded within the National Foreign Intelligence Program.

SEC. 8050. None of the funds available in this Act may be used to reduce the authorized positions for military (civilian) technicians of the Army National Ğuard, the Air National Guard, Army Reserve and Air Force Reserve for the purpose of applying any administratively imposed civilian personnel ceiling, freeze, or reduction on military (civilian) technicians, unless such reductions are a direct result of a reduction in military force structure.

SEC. 8051. None of the funds appropriated or otherwise made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of North Korea unless specifically appropriated for that purpose.

SEC. 8052. During the current fiscal year and hereafter, funds appropriated in this Act are available to compensate members of the National Guard for duty performed pursuant to a plan submitted by a Governor of a State and approved by the Secretary of Defense under section 112 of title 32, United States Code: Provided, That during the performance of such duty, the members of the National Guard shall be under State command and control: Provided further. That such duty shall be treated as fulltime National Guard duty for purposes of sections 12602(a)(2) and (b)(2) of title 10, United States Code

SEC. 8053. Funds appropriated in this Act for operation and maintenance of the Military Departments, Combatant Commands and Defense Agencies shall be available for reimbursement of pay, allowances and other expenses which would otherwise be incurred against appropriations for the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities, including the activities and programs included within the National Foreign Intelligence Program (NFIP), the Joint Military Intelligence Program (JMIP), and the Tactical Intelligence and Related Activities (TIARA) aggregate: Provided, That nothing in this section authorizes deviation from established Reserve and National Guard personnel and training procedures.

SEC. 8054. During the current fiscal year, none of the funds appropriated in this Act may be used to reduce the civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003 level: Provided, That the Service Surgeons General may waive this section by certifying to the congressional defense committees that the beneficiary population is declining in some catchment areas and civilian strength reductions may be consistent with responsible resource stewardship and capitation-based budgeting.

SEC. 8055. (a) LIMITATION ON PENTAGON REN-OVATION COSTS.—Not later than the date each year on which the President submits to Congress the budget under section 1105 of title 31, United States Code, the Secretary of Defense shall submit to Congress a certification that the total cost for the planning, design, construction, and installation of equipment for the renovation of wedges 2 through 5 of the Pentagon Reservation, cumulatively, will not exceed four times the total cost for the planning, design, construction, and installation of equipment for the renovation of wedge 1.

(b) ANNUAL ADJUSTMENT.—For purposes of applying the limitation in subsection (a), the Secretary shall adjust the cost for the renovation of wedge 1 by any increase or decrease in costs attributable to economic inflation, based on the most recent economic assumptions issued by the Office of Management and Budget for use in preparation of the budget of the United States under section 1104 of title 31, United States Code.

(c) EXCLUSION OF CERTAIN COSTS.—For purposes of calculating the limitation in subsection (a), the total cost for wedges 2 through 5 shall not include—

(1) any repair or reconstruction cost incurred as a result of the terrorist attack on the Pentagon that occurred on September 11, 2001;

(2) any increase in costs for wedges 2 through 5 attributable to compliance with new requirements of Federal, State, or local laws; and

(3) any increase in costs attributable to additional security requirements that the Secretary of Defense considers essential to provide a safe and secure working environment.

(d) Certification Cost Reports.—As part of the annual certification under subsection (a), the Secretary shall report the projected cost (as of the time of the certification) for—

(1) the renovation of each wedge, including the amount adjusted or otherwise excluded for such wedge under the authority of paragraphs (2) and (3) of subsection (c) for the period covered by the certification; and

(2) the repair and reconstruction of wedges 1 and 2 in response to the terrorist attack on the Pentagon that occurred on September 11, 2001.

(e) DURATION OF CERTIFICATION REQUIRE-MENT.—The requirement to make an annual certification under subsection (a) shall apply until the Secretary certifies to Congress that the renovation of the Pentagon Reservation is completed.

SEC. 8056. Notwithstanding any other provision of law, that not more than 35 percent of funds provided in this Act for environmental remediation may be obligated under indefinite delivery/indefinite quantity contracts with a total contract value of \$130.000.000 or higher.

SEC. 8057. (a) None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(b) None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction and counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(TRANSFER OF FUNDS)

SEC. 8058. Appropriations available under the heading "Operation and Maintenance, Defense-Wide" for the current fiscal year and hereafter for increasing energy and water efficiency in Federal buildings may, during their period of availability, be transferred to other appropriations or funds of the Department of Defense for projects related to increasing energy and water efficiency, to be merged with and to be available for the same general purposes, and for the same time period, as the appropriation or fund to which transferred.

SEC. 8059. None of the funds appropriated by this Act may be used for the procurement of ball

and roller bearings other than those produced by a domestic source and of domestic origin: Provided, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That this restriction shall not apply to the purchase of "commercial items", as defined by section 4(12) of the Office of Federal Procurement Policy Act, except that the restriction shall apply to ball or roller bearings purchased as end items.

SEC. 8060. Notwithstanding any other provision of law, funds available to the Department of Defense shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to American Samoa, and funds available to the Department of Defense shall be made available to provide transportation of medical supplies and equipment, on a nonreimbursable basis, to the Indian Health Service when it is in conjunction with a civil-military project.

SEC. 8061. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.

SEC. 8062. Notwithstanding any other provision of law, each contract awarded by the Department of Defense during the current fiscal vear for construction or service performed in whole or in part in a State (as defined in section 381(d) of title 10 United States Code) which is not contiguous with another State and has an unemployment rate in excess of the national average rate of unemployment as determined by the Secretary of Labor, shall include a provision requiring the contractor to employ, for the purpose of performing that portion of the contract in such State that is not contiguous with another State, individuals who are residents of such State and who, in the case of any craft or possess or would be able to acquire promptly the necessary skills: Provided, That the Secretary of Defense may waive the requirements of this section, on a case-by-case basis, in the interest of national security.

SEC. 8063. None of the funds made available in this or any other Act may be used to pay the salary of any officer or employee of the Department of Defense who approves or implements the transfer of administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress: Provided, That this limitation shall not apply to transfers of funds expressly provided for in Defense Appropriations Acts, or provisions of Acts providing supplemental appropriations for the Department of Defense.

SEC. 8064. (a) LIMITATION ON TRANSFER OF DEFENSE ARTICLES AND SERVICES.—Notwithstanding any other provision of law, none of the funds available to the Department of Defense for the current fiscal year may be obligated or expended to transfer to another nation or an international organization any defense articles or services (other than intelligence services) for use in the activities described in subsection (b) unless the congressional defense committees, the Committee on International Relations of the House of Representatives, and the Committee on Foreign Relations of the Senate are notified 15 days in advance of such transfer.

(b) COVERED ACTIVITIES.—This section applies to—

(1) any international peacekeeping or peaceenforcement operation under the authority of chapter VI or chapter VII of the United Nations Charter under the authority of a United Nations Security Council resolution; and

(2) any other international peacekeeping, peace-enforcement, or humanitarian assistance

operation.

(c) REQUIRED NOTICE.—A notice under subsection (a) shall include the following:

(1) A description of the equipment, supplies, or services to be transferred.
(2) A statement of the value of the equipment,

supplies, or services to be transferred.

(3) In the case of a proposed transfer of equipment or supplies—

(A) a statement of whether the inventory requirements of all elements of the Armed Forces (including the reserve components) for the type of equipment or supplies to be transferred have been met; and

(B) a statement of whether the items proposed to be transferred will have to be replaced and, if so, how the President proposes to provide

funds for such replacement.

SEC. 8065. To the extent authorized by subchapter VI of chapter 148 of title 10, United States Code, for the current fiscal year and hereafter the Secretary of Defense may issue loan guarantees in support of United States defense exports not otherwise provided for: Provided, That the total contingent liability of the United States for guarantees issued under the authority of this section may not exceed \$15,000,000,000: Provided further, That the exposure fees charged and collected by the Secretary for each guarantee shall be paid by the country involved and shall not be financed as part of a loan guaranteed by the United States: Provided further, That the Secretary shall provide quarterly reports to the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate and the Committees on Appropriations. Armed Services, and International Relations in the House of Representatives on the implementation of this program: Provided further, That amounts charged for administrative fees and deposited to the special account provided for under section 2540c(d) of title 10, shall be available for paying the costs of administrative expenses of the Department of Defense that are attributable to the loan guarantee program under subchapter VI of chapter 148 of title 10, United States Code.

SEC. 8066. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when—

(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and

(2) such bonus is part of restructuring costs associated with a business combination.

SEC. 8067. Funds appropriated for the Department of Defense and for intelligence activities in this Act are available for transfer to the Department of State as remittance for a fee charged by the Department of State for fiscal year 2005 for the maintenance, upgrade, or construction of United States diplomatic facilities only to the extent that the amount of the fee so charged (when added to other amounts of such fees previously charged for that fiscal year) exceeds the total amount of the unreimbursed costs incurred by the departments and agencies funded by this Act during that fiscal year in providing goods and services to the Department of State.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8068. During the current fiscal year, no more than \$30,000,000 of appropriations made in this Act under the heading "Operation and Maintenance, Defense-Wide" may be transferred to appropriations available for the pay of military personnel, to be merged with, and to be available for the same time period as the appropriations to which transferred, to be used in

support of such personnel in connection with support and services for eligible organizations and activities outside the Department of Defense pursuant to section 2012 of title 10, United States Code.

SEC. 8069. During the current fiscal year, in the case of an appropriation account of the Department of Defense for which the period of availability for obligation has expired or which has closed under the provisions of section 1552 of title 31, United States Code, and which has a negative unliquidated or unexpended balance, an obligation or an adjustment of an obligation may be charged to any current appropriation account for the same purpose as the expired or closed account if—

(1) the obligation would have been properly chargeable (except as to amount) to the expired or closed account before the end of the period of availability or closing of that account;

(2) the obligation is not otherwise properly chargeable to any current appropriation account of the Department of Defense; and

(3) in the case of an expired account, the obligation is not chargeable to a current appropriation of the Department of Defense under the provisions of section 1405(b)(8) of the National Defense Authorization Act for Fiscal Year 1991, Public Law 101-510, as amended (31 U.S.C. 1551 note): Provided, That in the case of an expired account, if subsequent review or investigation discloses that there was not in fact a negative unliquidated or unexpended balance in the account, any charge to a current account under the authority of this section shall be reversed and recorded against the expired account: Provided further. That the total amount charged to a current appropriation under this section may not exceed an amount equal to 1 percent of the total appropriation for that account.

SEC. 8070. Hereafter, funds appropriated for Operation and maintenance and for the Defense Health Program in this Act, and in future appropriations acts for the Department of Defense, for supervision and administration costs for facilities maintenance and repair, minor construction, or design projects, or any planning studies, environmental assessments, or similar activities related to installation support functions, may be obligated at the time the reimbursable order is accepted by the performing activity: Provided, That for the purpose of this section, supervision and administration costs includes all in-house

Government cost.

SEC. 8071. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

SEC. 8072. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: Provided, That in the City of Kaiserslautern such agreements will include the use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: Provided further, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may be obtained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy

source.

SEC. 8073. None of the funds appropriated in title IV of this Act may be used to procure end-

items for delivery to military forces for operational training, operational use or inventory requirements: Provided, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: Provided further, That this restriction does not apply to programs funded within the National Foreign Intelligence Program: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8074. None of the funds made available in this Act may be used to approve or license the sale of the F-22 advanced tactical fighter to any

foreign government.

SEC. 8075. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

(1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section 11 (chapters 50-65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. 8076. (a) PROHIBITION.—None of the funds made available by this Act may be used to support any training program involving a unit of the security forces of a foreign country if the Secretary of Defense has received credible information from the Department of State that the unit has committed a gross violation of human rights, unless all necessary corrective steps have been taken.

(b) MONITORING.—The Secretary of Defense, in consultation with the Secretary of State, shall ensure that prior to a decision to conduct any training program referred to in subsection (a), full consideration is given to all credible information available to the Department of State relating to human rights violations by foreign security forces.

(c) WAIVER.—The Secretary of Defense, after consultation with the Secretary of State, may waive the prohibition in subsection (a) if he determines that such waiver is required by extraordinary circumstances.

(d) REPORT.—Not more than 15 days after the exercise of any waiver under subsection (c), the Secretary of Defense shall submit a report to the congressional defense committees describing the extraordinary circumstances, the purpose and duration of the training program, the United States forces and the foreign security forces involved in the training program, and the information relating to human rights violations that necessitates the waiver.

SEC. 8077. (a) The Secretary of Defense, in coordination with the Secretary of Health and Human Services, may carry out a program to distribute surplus dental and medical equipment of the Department of Defense, at no cost to the Department of Defense, to Indian Health Service facilities and to federally-qualified health centers (within the meaning of section 1905(1)(2)(B) of the Social Security Act (42 U.S.C. 1396d(1)(2)(B))).

(b) In carrying out this provision, the Secretary of Defense shall give the Indian Health Service a property disposal priority equal to the priority given to the Department of Defense and its twelve special screening programs in distribution of surplus dental and medical supplies and

equipment.

SEC. 8078. None of the funds appropriated or made available in this Act to the Department of the Navy shall be used to develop, lease or procure the T-AKE class of ships unless the main propulsion diesel engines and propulsors are manufactured in the United States by a domestically operated entity: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes or there exists a significant cost or quality difference.

SEC. 8079. None of the funds appropriated or otherwise made available by this or other Department of Defense Appropriations Acts may be obligated or expended for the purpose of performing repairs or maintenance to military family housing units of the Department of Defense, including areas in such military family housing units that may be used for the purpose of conducting official Department of Defense business.

SEC. 8080. Notwithstanding any other provision of law, funds appropriated in this Act under the heading "Research, Development, Test and Evaluation, Defense-Wide" for any advanced concept technology demonstration project may only be obligated 30 days after a report, including a description of the project, the planned acquisition and transition strategy and its estimated annual and total cost, has been provided in writing to the congressional defense committees: Provided, That the Secretary of Defense may waive this restriction on a case-bycase basis by certifying to the congressional defense committees that it is in the national interest to do so.

CHAPTER 4

GENERAL PROVISIONS, THIS TITLE

SEC. 14001. Appropriations provided in this title are available for obligation until September 30, 2005, unless otherwise so provided in this SEC. 14002. Funds in this title are available for obligation and authorities in this title shall apply upon enactment of this Act.

Sec. 14003. (a) Public Law 108-199 is amended in division F, title I, section 110(g) by striking "Of the" and inserting "Prior to distributing"; striking "each" every time it appears and inserting "the"; striking "project" every time it appears and inserting "projects".

(b) The limitation under the heading "Federal-aid Highways (Limitation on Obligations) (Highway Trust Fund)" in Public Law 108-199 is increased by such sums as may be necessary to ensure that each State receives an amount of obligation authority equal to what each State would have received under division F, title I, section 110(a)(6) of Public Law 108-199 but for the amendment made to division F, title I, section 110(g) of Public Law 108-199 by subsection (a) of this section: Provided, That such additional authority shall remain available during fiscal years 2004 and 2005: Provided further, That for each State receiving an amount of obligation authority greater than what each State would have received under division F, title I, section 110(a)(6) of Public Law 108-199 but for the amendment made to division F, title I, section 110(g) of Public Law 108-199 by subsection (a) of this section, such additional obligation authority shall remain available during fiscal years 2004 and 2005.

SEC. 14004. (a) RESCISSION.—Upon enactment of this Act, there is rescinded an amount equal to \$795,280 from the amount appropriated to carry out part B of title VII of the Higher Education Act of 1965, in title III of division E of the Consolidated Appropriations Act, 2004 (Public Law 108–199; 118 Stat. 3). This amount shall reduce the funds available for the projects specified in the statement of the managers on the Conference Report 108–401 accompanying the Consolidated Appropriations Act, 2004 (Public Law 108–199; 118 Stat. 3).

(b) Diskegard Amount.—In the statement of the managers on the Conference Report 108-401 accompanying the Consolidated Appropriations Act, 2004 (Public Law 108-199; 118 Stat. 3), in the matter in title III of division E, relating to the Fund for the Improvement of Postsecondary Education under the heading "Higher Education", the provision specifying \$800,000 for Wahpeton State School of Science and North Dakota State University to recruit, retain and train pharmacy technicians shall be dis-

regarded.

(c) APPROPRIATION.—There is appropriated an amount equal to \$795,280 to the Department of Labor, Employment and Training Administration for "Training and Employment Services", available for obligation for the period from July 1, 2004, through June 30, 2005, of which—
(1) \$200,000 shall be made available to the

(2) \$297,640 shall be made available to Bismarck State College for training and education related to its electric power plant technologies curriculum; and

(3) \$297,640 shall be made available for Minot State University for the Job Corps Fellowship

Training Program.

(d) The matter under the heading "Institute of Museum and Library Services" in title IV of the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2004, (Public Law 108–199, division E) is amended by striking "Michigan Space and Science Center, Jackson, Michigan, for development of the strategic plan, operational costs and personnel" and inserting "Jackson Intermediate School District, Jackson, Michigan, for equipment and materials for the Math and Science Resource Library".

SEC. 14005. Of the unobligated amounts available for the District of Columbia Public Schools under this heading, \$10,600,000 are rescinded immediately upon enactment of this Act. For a Federal payment to the District of Columbia

under this heading, \$10,600,000, available immediately upon enactment of this Act, to improve public school education in the District of Columbia, to remain available until September 30, 2005.

SEC. 14006. The numerical limitation contained in section 214(g)(1)(B) of the Immigration and Nationality Act (8 U.S.C. 1184(g)(1)(B)) shall not apply to any nonimmigrant alien issued a visa or otherwise provided status under section 101(a)(15)(H)(ii)(b) of such Act (8 U.S.C. 1101(a)(15)(H)(ii)(b)) who is employed (or has received an offer of employment) as a fish roe processor, a fish roe technician, or a supervisor of fish roe processing.

SEC. 14007. 2005 DISCRETIONARY LIMITS. (a) IN GENERAL.—For the purposes of section 302(a) of the Congressional Budget Act of 1974, the allocation of the appropriate levels of budget totals for the Senate Committee on Appropriations for fiscal year 2005 shall be—

(1) for total discretionary spending—

(A) \$821,419,000,000 in total new budget authority; and

(B) \$905,328,000,000 in total budget outlays; and

(2) for mandatory—

(A) \$460,008,000,000 in total new budget authority; and

(B) \$445,525,000,000 in total budget outlays; until a concurrent resolution on the budget for fiscal year 2005 is agreed to by the Senate and the House of Representatives pursuant to section 301 of the Congressional Budget Act of 1974.

(b) Adjustments and Limits.—The following limits and adjustments provided in S. Con. Res. 95 (108th Congress) shall apply to subsection (a): (1) Sections 311 and 403 for fiscal year 2005.

(2) Sections 312 and 402 which shall apply to both fiscal years 2004 and 2005.

(c) DEFINITION.—In this section, the term "total discretionary spending" includes the discretionary category, the mass transit category, and the highway category.

(d) REPEAL.—Section 504 of H. Con. Res. 95 (108th Congress) is repealed.

(e) EFFECTIVE DATE.—This section shall take effect on the date of enactment of this Act.

SEC. 14008. Amounts appropriated or otherwise made available in chapters 1 and 2 of this title are each designated as an emergency requirement pursuant to section 402 of S. Con. Res. 95 (108th Congress), as made applicable to the House of Representatives by H. Res. 649 (108th Congress) and applicable to the Senate by section 14007 of this Act.

This Act may be cited as the "Department of Defense Appropriations Act, 2005".

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4613), making appropriations for the Department of Defense for the fiscal year ending September 30, 2005, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Department of Defense Appropriations Act, 2005, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 108-553 and Senate Report 108-284 should be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary.

statement of the managers to the contrary.

Senate Amendment: The Senate deleted
the entire House bill after the enacting
clause and inserted the Senate bill. The conference agreement includes a revised bill.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The conferees agree that for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2005, the accompanying House and Senate Committee reports, the conference report and accompanying joint explanatory statement of the managers of the Committee of Conference, the related classified annexes and reports, and the P-1 and R-1 budget justification documents as subsequently modified by Congressional action. The following exception to the above definition shall apply: for the Military Personnel and the Operation and Maintenance accounts, the term "program, project, and activity" is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.
At the time the President submits his

At the time the President submits his budget for fiscal year 2006, the conferees direct the Department of Defense to transmit to the congressional defense committees budget justification documents to be known as the "M-1" and "O-1" which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2006.

REPROGRAMMING, WITHHOLDING, AND "TAXING" APPROPRIATED FUNDS

The conferees agree to continue the existing below-threshold reprogramming guidelines which are as follows: \$20 million for procurement accounts and \$10 million for research, development, test and evaluation (RDT&E) accounts. The conferees further agree that these thresholds are to be applied to the specific dollar threshold or 20 percent of each P-1 or R-1 line, whichever is the lesser level. Furthermore, the dollar or 20 percent threshold is to be considered in a cumulative fashion. Therefore if the combined values of transfers into or out of a procurement (P-1) or research and development (R-1) line exceed the identified threshold, the Department of Defense must submit a prior approval reprogramming request.

The conferees agree with the Senate position that the Department of Defense is to abide by legal requirements for congressional notification of new starts. Section 8106 of this conference agreement establishes a requirement for written notification for initiating a new start program. The conference agree with both the Senate and the House position on the inappropriate nature of "taxing" an appropriation to generate funds to support a new start project not previously disclosed to Congress. This practice violates these requirements and is therefore prohibited.

The conferees agree to a prohibition on the practice of setting aside funds—the taxing of appropriations made for particular programs—to fund shortfalls in other programs, or initiate new programs. This includes the practice of "taxing" funds appropriated for congressional interest items to pay for laboratory overhead or management costs. The conferees direct that funds shall not be included in a budget request for any program, project and activity to accommodate the application of non-statutory withholds and taxes, or to reimburse other programs as "repayment" for funds transferred to a program in a previous year. Statutory withholds such as Small Business Innovative Research, shall be applied uniformly to each program element, project and activity within an account.

The conferees direct the Secretary of Defense to provide data by January 31, 2005 on the adequacy and use of the Department's current reprogramming and withholding practices. Furthermore, the conferees direct the Department to work with the congressional defense committees on a method of providing timely and accurate data on reprogramming activity (above threshold and below threshold), and the application of statutory and administrative withholds. The conferees further direct that reprogramming data should be available on at least a monthly basis, potentially in conjunction with DoD 1002 reports and that the Department should transmit the data electronically, if feasible, to the congressional defense committees.

NEW START PROGRAMS

The conferees agree to amend Section 8106 to ensure that written notification is provided prior to initiation of new start pro-

grams. The conferees direct that such notification be provided to the congressional defense committees no less than 30 calendar days prior to obligation of funds for the new start program.

BUSINESS MANAGEMENT MODERNIZATION PROGRAM

The conferees are concerned about the pace of the reforms for improving financial management at the Department of Defense. Although the Department announced its intention to achieve a fully functional accounting system by fiscal year 2007, a significant amount of funding provided in prior years for the Business Management Modernization Program (BMMP) remains unexpended. Furthermore, the Department has not developed an execution plan for \$30,248,000 requested for procurement for the BMMP. The conferees note that these and other problems are examined in the GAO report dated May 17, 2004, entitled "DOD Business Systems Modernization: Limited Progress in Development of Business Enterprise Architecture and Oversight of Information Technology Investments." Although the conferees have reduced the budget request for the BMMP by \$97,248,000 for unjustified program growth and low obligations and expenditures, the conferees are committed to financial management reform, and urge the Department to redouble its efforts in this area.

CORROSION CONTROL

In a recent General Accounting Office (GAO) report entitled "Opportunities Exist to Improve Implementation of Department of Defense's Long-Term Corrosion Strategy," the GAO identified a number of shortcomings with the Defense Department's corrosion control strategy and provided several recommendations to enhance its effectiveness. The conferees concur with GAO's overall assessment and direct the Department to comply with the recommendations provided in the report. Specifically, the conferees direct the Department to establish a specific separate program element or budget line to ensure that sustained and adequate funding

is available for the corrosion control projects that have the best potential to provide maximum benefit across the Department.

In addition, the conferees are concerned about the potential for corrosion damage to pre-positioned stocks, which are frequently located in highly corrosive environments. Such corrosion could degrade readiness to respond to contingencies and be very costly to fix. The conferees agree that GAO is best suited to conduct a review of this concern. The conferees, therefore, encourage GAO, instead of the Department of Defense Inspector General as proposed by the Senate, to conduct a review of the impact of corrosion on pre-position assets, and recommend policy,

management or funding changes to mitigate that corrosion.

Finally, the conferees commend the Department of Defense in its establishment of an Office of Corrosion Policy and Oversight (CPO) for focused management attention on corrosion control. The conferees reiterate the importance of continuing to maintain within a central office, as directed by section 2228 of title 10, United States Code, the integration of oversight for both equipment and infrastructure. The conferees believe such integration is essential to ensuring that anti-corrosion benefits are fully realized across the installation and equipment communities.

#### CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional interest items for the purpose of the Base for Reprogramming (DD 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, or a revised amount if changed during conference or if otherwise specifically addressed in the conference report. These items remain special interest items whether or not they are repeated in a subsequent conference report.

#### GROUND FORCES RECAPITALIZATION

The conference agreement provides a total of \$1,528,400,000 for ground forces recapitalization as described in the House-passed fiscal year 2005 Department of Defense Appropriations bill. The table below provides a summary of the funding included in the conference agreement.

#### FULL FUNDING OF STRYKER BRIGADES

The conferees understand that the equipment deployed with the 3rd Brigade, 2nd Infantry Division Stryker Brigade Combat Team, now in Iraq, allows Stryker vehicle commanders to seamlessly review situational awareness and vehicle sensor data in a heads-up mode while the vehicle is on the move, greatly enhancing force protection. The conferees direct that any Stryker vehicle procured, modified or upgraded shall be equipped to provide all Stryker vehicle commanders the same level of access to the data provided by the equipment currently deployed with the 3rd Brigade, 2nd Infantry Division.

JOINT TACTICAL RADIO SYSTEM (JTRS)

The conferees share the view expressed in the report accompanying the Senate version of the fiscal year 2005 DoD Appropriations Bill noting that the JTRS waiver policy has created a bottleneck in meeting the needs of operational commanders. Therefore, the conferees direct that the Assistant Secretary of Defense for Networks Information Integration (ASD NII), and the Joint Staff report back to the congressional defense committees no later than January 3, 2005 on a new

plan which establishes and describes a process which allows the rapid resourcing and fielding of radios, terminals, or other communications systems which are not JTRS compliant to meet the needs of units deploying in support of Operation Iraqi Freedom (OIF), Operation Enduring Freedom (OEF), and the Global War on Terrorism. Further, this report should address the option of suspending the JTRS waiver process until JTRS solutions are available for fielding. In addition, the conferees direct the Secretary of the Army to provide a report to the congres-

sional defense committees no later than November 1, 2004 on the disposition and shortages of radios, terminals, or other communication systems which are not JTRS compliant yet needed to support units deploying in support of OIF and OEF. This report should provide a rapid resourcing and fielding plan for radios, terminals, or other communication systems that does not place the resourcing burden on the individual unit commanders, yet meets their operational needs.

### EA-6B Program

Improved Capabilities (ICAP III)

The conferees agree to provide \$116,277,000 for the EA-6B Program instead of \$91,402,000 as proposed by the House and \$175,402,000 as proposed by the Senate. The conferees agree to reduce the Improved Capabilities (ICAP III) program by \$55,725,000. Should the Navy determine that the ICAP III program has stabilized, the Navy could submit a reprogramming request to cover program costs as necessary.

NEXT GENERATION DESTROYER (DD(X))

The conferees agree to provide a total of \$305,516,000 for advance procurement for the DD(X) class of ships instead of \$320,516,000 as proposed by the Senate and no appropriation as proposed by the House. The conferees direct the Navy to include future funding requests for the DD(X) in the Shipbuilding and Conversion. Navy appropriation.

Conversion, Navy appropriation. Within the funds provided, \$221,116,000 is only for design and advance procurement requirements associated with the first ship of the DD(X) class and \$84,400,000 is only for design and advance procurement requirements associated with construction of the second ship at an alternative second source shipyard. The conferees direct that no funds shall be available for the procurement of

long lead time material for items that are dependent upon delivery of a DD(X) key technology unless that technology has undergone testing, thereby reducing risk to overall program costs.

The conferees direct that full funding of the remaining financial requirement for these ships, not including traditional advance procurement requirements, shall be included in a future budget request.

DDG-51 MODERNIZATION PROGRAM

The conferees agree to provide \$50,000,000 to accelerate a DDG-51 Modernization program, instead of \$100,000,000 as proposed by the House and no appropriation as proposed by the Senate.

The conferees direct that these funds may not be obligated or expended until the Navy submits to the congressional defense committees a detailed plan on its execution of a DDG-51 Modernization program that focuses first on modernizing the new construction, near-term delivery ships and then on the inservice Fleet ships. The plan should address each element of the modernization plan, the cost-benefit of the element, and the implementation of the plan by hull number.

The conferees agree that the Navy's DDG-51 modernization plan should emphasize proven technology and modularity applications that will help increase warfighting capabilities, reduce total ownership costs and manning requirements, and expand the use of open architecture.

#### CRUISER MODERNIZATION

The conferees agree to provide no appropriation for Cruiser Modernization as proposed by the Senate instead of the budget request as proposed by the House.

The conferees take this action reluctantly based on the need to modernize these assets. However, the Navy's plan was simply inadequate in its presentation and planned execution. Furthermore, content of the modernization program changed significantly from the proposal presented with the fiscal year 2004 budget, while program cost re-

mained the same, calling into question the soundness of the Navy's efforts.

The conferees remain interested in ensuring a modern Naval Fleet and would encourage the Navy to continue to refine its requirements with respect to modernization of the Cruiser inventory and request funds as appropriate in a future budget request.

#### PHYSICAL SECURITY EQUIPMENT

The conferees agree to provide \$179,114,000 for Physical Security Equipment instead of \$197,214,000 as proposed by the House and

\$157,714,000 as proposed by the Senate. The conferees agree that of this amount, \$17,900,000 may not be obligated or expended until the Secretary of the Navy submits a report to the House and Senate Committees on Appropriations that addresses how the Navy intends to execute the expenditure of the appropriated funds.

The conferees further agree with the House position which requests the Navy centralize decision-making authority for all anti-terrorism and force protection requirements.

#### C-17 MULTIYEAR PROCUREMENT

The conferees have provided an additional \$158,600,000 in funding for the procurement of 15 C-17s in fiscal year 2005. Language has also been included in "Aircraft Procurement, Air Force" requiring the Air Force to procure 15 aircraft in fiscal year 2005; provide advance procurement for 15 aircraft in 2006; and to fully fund 15 aircraft in fiscal year 2006. The conferees agree with the House language regarding the Air Force interpretation of multiyear procurement regulations in this and the C-130J program. The conference report includes a general provision amending multiyear procurement contract requirements proposed in the House bill to prevent this approach in the future.

A general reduction in funding for Aircraft Procurement, Air Force, has been included accordingly with a requirement that the reduction be applied equitably across all elements of this appropriation.

#### TANKER REPLACEMENT TRANSFER FUND

The conference report includes a general provision, section 8132, which provides \$100,000,000 to establish the "Tanker Replacement Transfer Fund". The establishment of this fund reflects the conferees' intent that the Air Force proceed apace with replacing its fleet of aging aerial refueling aircraft. In particular, the Department of Defense should endeavor to complete as quickly as possible the ongoing analysis of tanker replacement program alternatives.

The funds provided under section 8132 may be used to implement the current tanker replacement program of record. The conferees note, however, that the fluid nature of the situation surrounding this program prohibits a definitive allocation of funds for specific activities. Thus, the conference report provides the Secretary of the Air Force with the

authority to allocate these funds to Air Force operation and maintenance, procurement, or research and development accounts, allowing the Air Force to quickly implement tanker acquisition plans once a final plan is approved. In any case, the conferees strongly urge the Department of Defense to thoroughly consider the effects on the U.S. aircraft industrial base of any and all tanker replacement program alternatives.

#### F/A-22 INDEPENDENT COST ESTIMATE

The conferees note that several significant decision points regarding continued production of the F/A-22 lay in the not-so-distant future. The program recently entered into Initial Operational Test and Evaluation, which is scheduled to conclude in the fall. Following completion of IOT&E, the Department will consider whether to grant authority for the program to enter full rate production, whether and when to request multiyear procurement authority, and as a subtext to all of this, whether there is a need to increase the production cost cap established under authorization law.

The conferees believe this is the appropriate point in the program to recalibrate F/ A-22 cost models using the latest information on current and projected costs. Accordingly, the conferees direct the Under Secretary of Defense for Acquisition Technology and Logistics to sponsor a new comprehensive F/A-22 independent cost estimate (ICE), to be conducted by a federally funded research and development center (FFRDC) with demonstrated competence in this area in coordination with the Defense Contract Audit Agency (DCAA). This analysis should: (1) determine appropriate estimates of unit costs and validate unit cost models and related assumptions to include all pertinent pricing cost data based on the latest projections of production efficiencies; (2) identify

optimal yearly production profiles that can be financed under the budgetary framework contained in the 2005 Future Years Defense Plan: and. (3) determine appropriate estimates of remaining non-recurring development, test, and acquisition program oversight costs. The conferees expect that the FFRDC will be allowed to both contract the services of a private sector audit entity experienced in industry costing techniques, and coordinate the execution and review of this ICE with the DCAA. The conferees expect the F/A-22 prime contractor to provide full access and cooperation with this analytical effort to the FFRDC, DCAA, and any private sector audit agency involved under rules and procedures that adequately protect the confidentiality of proprietary financial data and manufacturing techniques. This ICE is to be transmitted to the congressional defense committees not later than August 15, 2005.

#### HEAVY OUTSIZED AIRLIFT CAPACITY

The conferees are aware of the on-going Mobility Capabilities Study and the probability that the current 54.5 MTM/day requirement will increase. The conferees, similar to the Air Force, recognize the value of filling whatever heavy, outsized lift requirement is validated with the most cost effective fleet structure to include better use of the Civilian Reserve Air Fleet (CRAF). The conferees direct the Secretary of the Air Force to provide the congressional defense committees no later than March 31, 2005, an assessment of options to introduce a U.S. owned, heavy, outsized airlift capability into the CRAF based on potential commercial uses of commercialized versions of U.S. heavy outsized cargo aircraft without the need for government investment or substantial involvement.

JOINT AIR-TO-SURFACE STANDOFF MISSILE (JASSM)

The conferees question the assessment of the Air Force with regard to the presumed sound and proven design of JASSM. Operational Test and Evaluation results ending in April found mission reliability to be 53 percent, a figure the Air Force has identified as meeting its benchmark for effectiveness. JASSM mission reliability of 53 percent is poor in comparison to similar weapons; Javelin reliability was 100 percent, JDAM was 85

percent, JSOW-A was 95 percent, and Hellfire was 95 percent at the end of operational testing.

The conferees note that this troublesome mission success rate only continues to be validated by recent testing. As recently as June 29, 2004, a JASSM launched from an F-16 failed to transition power from batteries to engine causing the missile to crash well short of the target. In a June 8, 2004 test from a B-2, problems with the mission planning system resulted in a mission failure.

The two successful launches from B-1 aircraft required mission planning time even slower than that noted in the Operational Test and Evaluation report.

The conferees restate the concerns identified in the House report and expect that improvements will be made to increase the reliability of the baseline missile program. Failure to do so will cause the conferees to reconsider their support for this program and the extended range version.

C-130 DIRECTIONAL INFRARED COUNTERMEASURES (DIRCM)

The conferees agree to provide \$14,400,000 for the Special Operations Command C-130 DIRCM program. The conferees are aware of the mean time between failure issues associated with this equipment and are sensitive to the Command's operational requirements and as such direct that the funds provided

may be only used for costs associated with refurbishment.  $\,$ 

SPECIAL OPERATIONS COMMAND PUBLICATION COSTS

The conferees are concerned about the costs charged to Special Operations Command (SOCOM) for publications. The conferees find the publication costs associated with the MH-60 Service Life Extension Pro-

gram (SLEP) particularly excessive and recommend a reduction of \$5,000,000 to the budget request. The conferees direct the Command to initiate a review of the publication costs associated with its major acquisition programs and provide a report to the congressional defense committees by February 1, 2005 on actions taken to address this problem.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional interest items for the purpose of the Base for Reprogramming (DD 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, or a revised amount if changed during conference or if otherwise specifically addressed in the conference report. These items remain special interest items whether or not they are repeated in a subsequent conference report.

#### F-35 PROGRAM MANAGEMENT

In lieu of the direction provided by the House or the Senate, the conferees direct the

Secretary of Defense to review current management oversight of the Joint Strike Fighter, and to report findings and recommendations to the congressional defense committees not later than December 15, 2004.

# AIR FORCE AND DARPA FALCON/COMMON AERO VEHICLE PROGRAM

The conferees agree to provide \$29,110,000 for the Air Force and DARPA FALCON/Common Aero Vehicle (CAV) programs. The conferees are concerned that safeguards are not in place to guarantee that nations possessing nuclear weapons capabilities would not misinterpret the intent or use of the FALCON/CAV programs. Therefore, the funds provided herein are for the development of hypersonic technologies for non-weapons related re-

search, such as micro-satellite or other satellite launch requirements and other purposes as listed under the conferees recommendations. The conferees direct that none of the funds provided in this Act may be used to develop, integrate, or test a CAV variant that includes any nuclear or conventional weapon. The conferees further direct that none of the funds provided in this Act may be used to develop, integrate, or test a CAV for launch on any Intercontinental Ballistic Missile or Submarine Launched Ballistic Missile. The Committees on Appropriations will consider expanding the scope of this program in subsequent years if safeguards negotiated among our international partners have been put in place.

#### FUTURE COMBAT SYSTEM

Cannon (NLOS-C)	497,643,00
	107,040,000
Total	2 929 853 00

The projects identified within program element 0604645A, Armored Systems Modernization, are congressional special interest items for the purpose of prior approval reprogrammings as discussed elsewhere in this report. Funds provided in a new program element for the Non Line of Sight Launch System (NLOS-LS) are subject to normal prior approval reprogramming procedures as described elsewhere in this report.

The conferees direct that the Secretary of the Army provide a report to the congressional defense committees not later than November 1, 2004, that outlines the program definition including missile configurations for NLOS-LS.

#### NON LINE OF SIGHT CANNON

The conferees agree with the guidance provided in the House report accompanying the fiscal year 2005 DoD Appropriations bill concerning the Non Line of Sight Cannon and Resupply Vehicle (NLOS-C). Accordingly, the conference agreement includes a general provision (Sec. 8109) that directs the Army to program and budget for NLOS-C for fielding

in 2010. The conferees direct that fielding shall be conducted as defined by Army Regulation 700–142.

As noted elsewhere in the report, the budget request includes \$497,643,000 for NLOS-C. The conferees recognize that \$93,686,000 of this amount was requested explicitly for the purpose of developing mission equipment unique to NLOS-C. Accordingly, the conferees direct that this amount is a congressional special interest item for the purpose of prior approval reprogrammings.

#### LAND WARRIOR AND FUTURE FORCE WARRIOR

The conferees direct the Secretary of the Army to submit to the congressional defense committees a plan, not later than January 31, 2005, to consolidate the Land Warrior and Future Force Warrior programs into a single program, benefiting from the efficiencies of each. The conferees also recommend a reduction to the Future Force Warrior program of \$5,000,000 and a reduction to the Land Warrior program of \$15,000,000, as a result of anticipated efficiencies gained through consolidation of these two programs. The consolidated program should take on the focus of the Army's Future Combat System (FCS) and provide the Army with a FCS dismounted capability for the individual soldier. Further, the conferees understand that it is possible to field a dismounted capability immediately to the Stryker Brigades currently deployed in combat. Therefore, the conferees recommend that the combined program re-focus its procurement strategy to incorporate these emerging capabilities, such as the Commanders Digital Assistant (CDA) and hand-held EPLRS capabilities, into the Stryker brigades immediately.

#### AERIAL COMMON SENSOR

The Aerial Common Sensor (ACS) program, when fielded, will be the Army's premier multi-intelligence, precision targeting airborne intelligence, surveillance and reconnaissance (ISR) capability. This state of the art platform will replace the Army's Guardrail Common Sensor and Airborne Reconnaissance Low systems. The conferees note that the fiscal year 2005 budget request included \$149,000,000 to initiate this critical intelligence modernization program based on an anticipated award date of January, 2004. Unfortunately, the Army has yet to make any contract award. The revised estimate of the award date is at least 8 months beyond the date briefed to Congress. For this reason, the Senate bill reduced the program by \$50,000,000. The conferees remain concerned with the pace of this program and in particular, note that it is a critical program whose delay only sets back the Army's ISR mission. The conference agreement provides \$129,000,000 for the Aerial Common Sensor program, a reduction of \$20,000,000.

#### PATRIOT PAC-3/MEDIUM EXTENDED AIR DEFENSE SYSTEM (MEADS)

The conferees support the view expressed in the report accompanying the House version of the fiscal year 2005 Department of Defense Appropriations bill that DoD should continue its plans to merge the PAC-3 and MEADS programs under Army cognizance. The conferees are also concerned about the delays in implementing this management structure, and their potential effect. Accordingly, the conferees direct the Secretary of the Army to develop a plan to merge these programs as directed by the April 2003 Acquisition Decision Memorandum, and provide a report to the congressional defense committees on this plan not later than February 15, 2005.

# GUIDED MULTIPLE LAUNCH ROCKET SYSTEM (GMLRS)-UNITARY

The conferees provide an additional \$12,750,000 above the budget request of \$97,422,000 for the Multiple Launch Rocket System (MLRS) Product Improvement program, for a total of \$112,422,000 to accelerate development and fielding of the GMLRS-Unitary munition to US forces in high-risk locations by fiscal year 2006. The conferees direct that this total amount is a congressional special interest item for the purpose of prior approval reprogrammings.

#### LAND MINE ALTERNATIVES

The conferees direct the Secretary of the Army to submit a report on land mine alternatives as directed by the Senate to the congressional defense committees by no later than January 3, 2005.

#### BROADBAND LANGUAGE TRAINING PROGRAMS

The conferees support the development of Broadband Language Training programs and, accordingly, provide \$3,000,000 to advance Broadband Language Training Systems at the Defense Language Institute (DLI) within the newly established DLI program element as described elsewhere in this report. The conferees understand that issues have arisen delaying the execution of the fiscal year 2004 funding for this program. Accordingly, the conferees recommend a rescission of \$4,000,000 from Research, Development, Test and Evaluation, Army funds made available in fiscal year 2004.

JOINT STRIKE FIGHTER STOVL LIFT FAN

The conferees direct that in addition to funds currently budgeted for STOVL Lift Fan technologies, no less than \$8,000,000 of the funds provided for the Joint Strike Fighter program shall be for STOVL Lift Fan thrust increase studies.

### AMPHIBIOUS ASSAULT SHIP—LHA REPLACEMENT

The conferees agree to provide \$44,180,000 for the Amphibious Assault Ship—LHA Replacement, LHA(R), program as requested and as proposed by the Senate instead of no appropriation as proposed by the House.

The conferees agree that the Secretary of the Navy shall submit to the Committees on Appropriations of the House and Senate, a report within 90 days of enactment of this Act that addresses a thorough review of the LHA(R) requirement, the impact of the proposed ship on executing the Marine Corps amphibious assault mission, the overall cost and acquisition objective of LHA(R), and the acquisition strategy.

## NEXT GENERATION DESTROYER—DD(X)

The conferees agree to provide \$1,176,469,000 for the DD(X) program instead of \$1,182,785,000 as proposed by the House and \$1,210,469,000 as proposed by the Senate.

The conferees agree that prior to the completion of the Critical Design Review (CDR), the Navy should complete land-based testing of the Advanced Gun System (AGS) and the

Integrated Power System (IPS). The conferees believe it is not advisable to complete CDR prior to ensuring that at least two of the 12 key technologies have completed testing due to historical trends of ship cost growth based on re-design to accommodate changes in technological requirements.

The conferees direct the Navy to submit a report to the congressional defense committees that addresses the Navy's plan to transition DD(X) key technologies through development, testing, acquisition, and installation. This report should also address "back up" technologies that could be inserted into the DD(X) program should the maturity of the planned technology not materialize within a timeline necessary to meet the stated DD(X) schedule.

#### LITTORAL COMBAT SHIP

The conferees agree to provide \$457,089,000 for the Littoral Combat Ship (LCS) program instead of \$409,089,000 as proposed by the House and \$352,089,000 as requested and proposed by the Senate.

The conferees agree with the Senate that all follow-on ships, beyond one of each prototype design, should be fully funded in the Shipbuilding and Conversion, Navy appropriation. The conferees also agree that substantial testing of the LCS and associated mission modules is required to evaluate each ship design and validate operational requirements. Therefore, the conferees direct that no funds shall be obligated to prepare a fiscal

year 2006 budget request for construction of a third vessel, as reflected in the conference agreement including Section 8092 as originally proposed by the Senate. This directive is intended to provide for a "gap" year between construction of the prototype ships and the follow-on construction of a second ship of each design, thereby ensuring that design problems discovered during the prototype phase of each ship design are identified and corrected before construction of followon ships. The conferees also agree with the Senate that beginning in the fiscal year 2006 budget request, the Navy should identify LCS mission module funding separately within the Research, Development, Test and Evaluation, Navy and Other Procurement, Navy appropriations.

# CORROSION RESISTANT MARINE PAINT

The Navy spends approximately 25 percent of its fleet maintenance budget on corrosion protection. The conferees are aware of and support research performed by the Center for Photochemical Sciences that develops corrosion resistant marine paint using photo-cure technology. These new photo-cure technologies can increase corrosion protection while reducing environmentally harmful emissions. The conferees believe this technology provides unique advantages over current materials and directs the Office of Naval Research to continue current year funding for this important research project.

SPACE BASED RADAR

The conferees agree with the House position.

#### AIRBORNE ELECTRONIC ATTACK

The conference report provides \$113,693,000 for Electronic Warfare Development. Noting the prevalence of significant industry efforts and capability in the field, the House report denied funding for transmitter and receiver technology development for a new stand-off jamming pod capability for the B-52. The conferees believe that the Air Force objective can be achieved quicker and at far less cost than the budget proposed through greater coordination with industries of expertise in this area. The Air Force has acknowledged this opportunity and expressed an interest to pursue such an objective. Accordingly, the conference report removes the restrictions on technology development for this purpose with the expectation that the Air Force will take advantage of the current state of technology and short-term developments potentially available to meet this requirement. The conferees further expect that the Air

Force will take into account the cost savings associated with this opportunity in the fiscal year 2006 budget submission for this program.

#### INSTRUMENTATION, LOADING, INTEGRATION, ANALYSIS AND DOCUMENTATION

The conferees recognize the critical role of digital technology in flight testing and commends the leadership of Edwards AFB, Eglin AFB, Barksdale AFB, White Sands Missile Range, and Fort Rucker for recent investments in modern instrumentation, data capture, data analysis and data archiving technology. The conferees support the continued deployment of ILIAD, an electronic test data management system, to provide cost-effective and efficient collection, protection, validation, and sharing of critical test and evaluation data. The use of this technology to manage test and evaluation data throughout its lifecycle eliminates costly and redundant testing. Further, based upon its success supporting numerous weapons platforms in multiple geographic locations, the conferees urge the Department of the Air Force to consider leveraging the Air Force's ILIAD solution for the Joint Strike Fighter and other weapons programs.

### C-17 FLIGHT TEST DATA ARCHIVE

The conferees support the migration of C-17 flight test data from magnetic tapes to fixed-content disk drive technology that has no end of life concerns; places test data in an "on-line" format with clear indexing; and allows timely retrieval regardless of data volume. Given the importance of flight test data, the ability to retrieve specific data at a future date, as well as the cost-effectiveness of fixed-content technology, the conferees encourage all System Program Offices to consider the benefits of archiving test data in this manner.

AIR FORCE "MINORITY LEADERS" PROGRAM

The conferees expect that funds available for the Air Force "MINORITY LEADERS" program shall be available for research in the areas of both materials and aerospace sensors.

#### 999A DARPA - Undistributed Reduction

(Note: This reduction may not be applied to any DARPA projects that have received an increase in this table.)

JOINT UNMANNED COMBAT AERIAL SYSTEM (JUCAS)

The conferees agree to provide a total of \$586,490,000 for the Joint Unmanned Combat Aerial System (JUCAS) program instead of \$710,401,000 as proposed by the House and \$510,401,000 as proposed by the Senate.

The conferees agree with the Senate position that the JUCAS program has not been properly coordinated with the Services and that the focus of the program should be on meeting the requirements of the Air Force and Navy. To this end, the conferees direct that \$363,617,000 of the funds provided for the JUCAS shall be used to complete and demonstrate the unmanned combat aerial vehicle technology demonstrators in support of Air Force and Navy requirements for such systems.

The conferees agree to provide \$222,873,000 for JUCAS Advanced Component and Prototype Development, as proposed by the Senate instead of \$260,784,000 as proposed by the House.

#### FOCUS CENTER RESEARCH PROGRAM

The conferees intend that the \$10,000,000 allocated for DARPA Defense Research Sciences, Electronic Sciences, Semiconductor Technology Focus Center, as requested by the Administration, be used for basic university research to supplement the \$7,000,000 appropriated for the Focus Center Research Program through the Defense Research and Engineering account. This would provide a total of \$17,000,000 for basic university research by continuing the successful industry, university, and federal agency Focus Center Research partnership. The Focus Center program is designed to develop the next generation of semiconductor microelectronics technologies, increase the United States' global advantage in semiconductor technology, and train the next generation of electronics engineers.

#### MISSILE DEFENSE PROGRAMS

The conference agreement provides \$9,050,031,000 for the Missile Defense programs included in Research, Development, Test and Evaluation, Defense-Wide. Of this amount, \$4,620,825,000 is for the Ballistic Mis-

sile Defense (BMD) Midcourse Segment program. The conferees direct that the entire amount provided for the BMD Midcourse Segment is a congressional special interest item for the purpose of prior approval reprogramming, as described elsewhere in this report. The conferees also direct that adjustments made to the various Missile Defense Agency (MDA) program elements, as reflected on the project level tables, are congressional special interest items.

The conferees direct that transfers of funds between the MDA program elements are subject to the same reprogramming guidance applicable to all other research, development, test and evaluation funded activities. Specifically, the conferees direct that the Missile Defense Agency observe the cumulative \$10,000,000 threshold for the reprogramming of research, development, test and evaluation funds. If the combined value of transfers into or out of a research and development (R-1) line exceeds this threshold, the Department of Defense must submit a prior approval reprogramming request to the congressional defense committees. The Department shall also observe the limitation that prior approval reprogrammings are set at either the specific dollar threshold or 20 percent of the procurement or research and development line, whichever is less. The conferees further direct that any taxes, withholds or undistributed reductions to the MDA programs be made in accordance with applicable guidance described elsewhere in this report.

#### BMDS OPERATIONS

The conferees strongly support the Ground-Based Midcourse (GMD) program. The conferees further understand that this program has experienced significant funding challenges associated with the decision to begin fielding missile defense for the United States in late 2004. Accordingly, the conferees have provided an additional \$200,000,000, specifically to address these requirements. Furthermore, the conferees direct the Missile Defense Agency to fully fund this critical program in the fiscal year 2006 budget submission to include manning, operation and maintenance, contractor logistical

support, and physical security and force protection costs. The conferees expect the fiscal year 2006 budget request to provide this level of detail regarding BMDS operations and costs. In addition, the conferees direct that the Secretary of Defense submit to the congressional defense committees not later than February 7, 2005, a report that outlines the DoD plan to provide adequate resources necessary for the operation and maintenance (including logistical support and physical security) and manning of the Ballistic Missile Defense System.

#### INTEGRATED FLIGHT TEST-13C (IFT-13C)

The conferees are aware that the Missile Defense Agency (MDA) is finalizing preparations for Integrated Flight Test-13C scheduled for August 2004. The conferees share the view expressed in the report accompanying the House version of the fiscal year 2005 DoD Appropriations bill that this test represents an important milestone. The conferees are also aware that logistical details may potentially change the date of this test. Accordingly, the conferees direct the Director of the Missile Defense Agency to provide a report to the congressional defense committees within 30 days of the conclusion of IFT-13C, in both classified and unclassified form, including a detailed assessment of the results of IFT-13C.

#### SCORPIUS

The conference agreement includes an additional \$3,000,000 to continue work on the Scorpius family of rockets. In past years, the Congress has provided additional funding above the budget request and is concerned by DoD's lack of effort to follow through on this program. Accordingly, the conferees direct the Secretary of the Air Force and the Director of the Missile Defense Agency to jointly provide a report to the congressional defense committees on the Department's proposed course of action for this program within  $30\,$ days of enactment of this Act. The conferees further direct that the report identify the resources required to complete the program, and whether such resources are included in the Future Year's Defense Program.

## TITLE V—REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

The conferees recommend an appropriation of \$1,174,210,000 for the Defense Working Capital Funds as proposed by the House instead of \$1,685,886,000 as proposed by the Senate.

NATIONAL DEFENSE SEALIFT FUND

The conferees agree to provide a total of \$1,204,626,000 for the National Defense Sealift

Fund instead of \$1,186,990,000 as proposed by the House and \$441,936,000 as proposed by the Senate.

Within the funds provided, the conferees agree that \$768,400,000 is for construction of two T-AKE vessels as proposed in the fiscal year 2005 budget request and \$28,000,000 is for the Maritime Pre-positioning Fleet (Future), MPF(F).

The conferees agree that none of the funds provided for the MPF(F) may be obligated or expended until the Secretary of the Navy submits to the congressional defense committees, a detailed report on the MPF(F) mission, operational requirements, analysis of alternatives, expenditure plans, and overall program congruence with ongoing forcible entry studies.

DEFENSE HEALTH PROGRAM REPROGRAMMING PROCEDURES

The conferees remain concerned regarding the transfer of funds from Direct (or Inhouse) Care to pay for contractor-provided medical care. To limit such transfers and continue oversight within the Defense Health Program operation and maintenance account, the conferees have included bill language which limits the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. In addition, the conferees also designate the funding for the Direct Care System as a special interest item, as defined elsewhere in this report. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Department of Defense to follow prior approval reprogramming procedures. The bill language and accompanying report language included by the conferees should not be interpreted by the Department as limiting the amount of funds that may be transferred to the direct care system from other budget activities within the Defense Health Program.

In addition, the conferees direct the Department of Defense to provide budget execution data for all of the Defense Health Program accounts. Such budget execution data shall be provided quarterly to the congressional defense committees through the DD-COMP(M) 1002 accounting form.

PEER REVIEWED MEDICAL RESEARCH PROGRAM

The Senate recommended \$50,000,000 for a Peer Reviewed Medical Research program. The conferees agree to provide \$50,000,000 for this program, and recommend the following projects as candidates for study: acellular human tissue matrix research; amyotrophic lateral sclerosis; alcoholism research; antiradiation drug development; autism; bloodrelated cancer research. Interstitial Cystitis. childhood asthma; chronic pain research; conjugate vaccines to prevent shigellosis; diabetes research; Duchenne's disease research; epilepsy research; Lupus and LupusBiomarker Research; orthopaedic exand tremity trauma research; osteoporosis and bone-related diseases; Padget's disease; post traumatic stress disorders; social work research; Volume Angio CAT (VAC) research; diseases autoimmune such scleroderma and Sjogren's syndrome.

The conferees direct the Department to provide a report by March 1, 2005, on the status of this Peer Reviewed Medical Research Program.

#### WALTER REED ARMY MEDICAL CENTER— AMPUTEE PATIENT CARE PROGRAM

Ongoing combat operations have produced a surge from 3 to 6 percent in complex combat injuries involving amputations of major limbs. The Military Amputee Patient Care Program headquartered at Walter Reed Army Medical Center provides a center of ex-

pertise for state-of-the-art treatment, the rehabilitation of military amputee patients to the highest level of physical function, and a return to active duty if possible. The conferees commend the Army and those associated with this vital effort.

The conferees recommend an additional \$19,200,000 over the budget request for this program. This includes \$7,800,000 for operating costs associated with the center, including but not limited to personnel, equipment, patient travel, and prosthetic device costs; and \$10,000,000 for prosthetic limb development and increased clinical and applied collaborative research in prosthetic care. Finally, the conferees provide an additional \$1,400,000 for procurement of support equipment to enhance the new facility at Walter Reed Army Medical Center.

#### ARMY FISHER HOUSES

The conferees include a General Provision as proposed by the House, which provides \$2,000,000 for construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

The conferees also provide \$9,500,000 in the Defense Health Program for the Army's nonappropriated fund instrumentalities (NAFI). as opposed to \$11,000,000 proposed by the House. The conferees are aware that the NAFI, which was established by law to help defray the operating costs of Fisher Houses, have decreased in value due to poor financial market performance. The conferees are also aware that the costs to manage many Fisher Houses are much higher than planned due to an influx of patients at military treatment facilities as a result of casualties suffered during Operations Iraqi and Enduring Freedom. The funds provided to the NAFI will help to mitigate any deficit which may occur in fiscal year 2005 and prevent this deficit in future years. The conferees direct the Secretary of Defense to analyze the financial condition of the Fisher House operating accounts and submit a report to the congressional defense committees by March 1, 2005.

#### MENTAL HEALTH SERVICES

The conferees believe that hardships resulting from U.S. troop deployments to Iraq and Afghanistan make it imperative for the Department of Defense to offer adequate mental health services for active duty and reserve members deployed to combat theaters. The conferees also are concerned that sufficient mental health services be made readily available to dependents of active duty and reserve members. As such, the conferees direct the Secretary of Defense to conduct a comprehensive review of mental health services available to our military members deployed in combat theaters, as well as a review of services that may be available to their dependents during and after a military member's deployment. The report should be submitted to the congressional defense committees no later than 180 days after enactment of this bill. The review should include, but not be limited to, the following subjects:

—Data on the average number of service days lost due to mental health reasons;

—The types of measures taken by the military services to reduce the stigma often associated with mental health counseling;

—An analysis of mental health services available—and barriers to access—to active duty and reserve members and their dependents (including dependents of activated members of the National Guard and Reserve Components):

—An analysis of the extent to which the U.S. Army has implemented the recommendations of the Army's Mental Health Advisory Team; and

—A plan for actions that the Secretary of Defense determines appropriate for improving the delivery of mental health services to members of the Armed Forces and their dependents.

The conferees further direct the Secretary of Defense to submit a report to the congressional defense committees not later than 360 days after enactment of this bill describing the actions taken to implement the aforementioned plan and the reason why actions in the plan have not been completed, if any.

#### THIRD PARTY COLLECTIONS

The House and Senate both expressed concern with the lack of third-party collections as outlined in General Accounting Office (GAO) report 04322R. According to the GAO report, DoD's Third-Party Collections Program generates on average about \$122 million annually. However, total collections for fiscal year 2003 were down \$30 million from the previous year, and the GAO has further documented that DoD fails to collect \$44 million a year from third party insurers. It is clear that DoD's failure to effectively bill and collect from third-party insurers pursuant to law precludes the military treatment facilities from maximizing the resources available to them. The conferees also have concerns that DoD reduced its Information Technology budget for third-party outpatient collection systems from fiscal year 2004 to fiscal year 2005.

The conferees direct the Department to report to the congressional defense committees by April 1, 2005, regarding the status of the transition to outpatient itemized billing and how third-party collections have progressed since the implementation of this system began in fiscal year 2003. Finally, the conferees direct the Assistant Secretary of Defense (Health Affairs) to make the necessary business process improvements to ensure that Military Treatment Facilities are collecting all appropriate third party payments, and to submit quarterly reports to the congressional defense committees on the status of collections during the current fiscal year.

OFFICE OF THE INSPECTOR GENERAL

The conferees have agreed to provide a total amount of \$204,562,000 for the Office of the Inspector General. Of this amount \$202,362,000 shall be for operation and maintenance, \$2,100,000 shall be for procurement, and \$100,000 shall be for research, development, test and evaluation. The conferees have provided funds to ensure that aggressive implementation of all efforts to achieve the Department of Defense's high priority goal of gaining clean and auditable financial statements is supported including necessary growth in audit capability.

#### ENERGY CONTRACT REVIEW

The conferees are aware that the Department of Defense issued a \$36,000,000 contract to Reliant Energy Solutions East to provide electricity to military installations on May 19, 2004. The Federal Acquisition Regulation authorizes the suspension of a contractor on the basis of adequate evidence of any offense "indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of the contractor." The conferees direct the Department of Defense Inspector General to review the contract and to take any necessary action against Reliant Energy, Inc. and its sub-sidiaries, if appropriate. The Department is directed to report to the Committees on Appropriations within 180 days of enactment of this Act on the findings of its review and any subsequent actions taken on this contract.

#### TITLE VII-RELATED AGENCIES

## CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

The conference agreement appropriates \$239,400,000 for payment to the Central Intelligence Agency Retirement and Disability System Fund, as proposed by both the House and the Senate.

### INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

#### (INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$310,466,000 instead of \$309,644,000 as proposed by the House and \$319,355,000 as proposed by the Senate.

The conference agreement provides for a transfer of \$39,422,000 to the Department of Justice for the National Drug Intelligence Center to support the Department of Defense's counter-drug intelligence responsibilities, instead of \$46,100,000 as proposed by the House and \$34,911,000 as proposed by the Senate.

#### NATIONAL SECURITY EDUCATION TRUST FUND

The conference agreement appropriates \$8,000,000 for the purposes of title VIII of Public Law 102-183, to be derived from the National Security Education Trust Fund, as proposed by both the House and the Senate.

#### TITLE VIII—GENERAL PROVISIONS

The conference agreement incorporated general provisions of the House and Senate versions of the bill which were not amended. Those general provisions that were amended in conference follow:

The conferees included a general provision (Section 8005) which amends language, as proposed by the House and the Senate, that increases the level of general transfer authority for the Department of Defense, and provides that transfers between military personnel appropriations shall not be taken into account for purposes of the limitation of funds which may be transferred under this rection.

The conferees included a general provision (Section 8014) which amends language, as proposed by the House, setting limitations on conversion of Defense Department activities to contractor performance.

The conferees included a general provision (Section 8025) which amends language, as proposed by the Senate, earmarking up to \$25,500,000 of "Operation and Maintenance, Air Force", for the acquisition of Native Allotment F-14589.

The conferees included a general provision (Section 8028) which amends language, proposed by the House and Senate, with respect to Federally Funded Research and Development Centers.

The conferees included a general provision (Section 8049) which amends language, as proposed by the House and Senate, recommending rescissions. The rescissions agreed to are:

The conferees included a general provision (Section 8067) which amends language, as proposed by the Senate, to conform to current authorization law regarding fees that the Department of State charges to the Department of Defense for the maintenance, upgrade, or construction of U.S. diplomatic facilities. The conferees also provide an exemption to the Central Intelligence Agency with regard to the calculation of these fees.

The conferees included a general provision (Section 8082) which amends language, as proposed by the House, to provide for crediting refunds from government purchase cards, travel cards, and travel arrangements to current accounts in operation and maintenance, and research, development, test and evaluation. The conferees did not make the provision permanent.

The conferees included a general provision (Section 8090) which amends language, as proposed by the House and Senate, to change the dollar amount available for transfer.

The conferees included a general provision (Section 8092) which amends language, as proposed by the Senate, on the Littoral Combat Ship by adjusting the citation for the total amount appropriated.

The conferees included a general provision (Section 8096) which amends language, as proposed by the House and Senate concerning the Arrow missile defense program. The conference agreement provides a total of \$155,290,000 for the Arrow program of which \$68,000,000 is earmarked for missile component coproduction.

The conferees included a general provision (Section 8097) which amends language, as proposed by the House, on providing a grant to the California Central Coast Research Partnership.

The conferees included a general provision (Section 8098) which amends language, as proposed by the Senate, that transfers funds to the Coast Guard for mission essential equipment, and includes language which transfers funds to the Department of the Interior.

The conferees included a general provision (Section 8099) which amends language, as proposed by the House and Senate to provide for transfer of funds for the cost of prior year shipbuilding programs and to repeal Sec. 126 of Public Law 108–136.

The conferees included a general provision (Section 8105) which amends language, as proposed by the House, which reduces \$197,500,000 from other procurement and research, development, test and evaluation accounts for cost growth in information technology development and modernization.

The conferees included a general provision (Section 8106) which amends language, as proposed by the House and Senate, to ensure that written notification is provided prior to initiation of new start programs.

The conferees included a general provision (Section 8109) which amends language, as proposed by the House and Senate, concerning the Non Line of Sight Cannon and Resupply Vehicle (NLOS-C), and Stryker Brigade Combat Teams. Language revises the fielding date for additional Stryker Brigade Combat Teams.

The conferees included a general provision (Section 8113) which amends language, as proposed by the House and Senate, which provides for grants to various organizations to include \$5.000.000 to the Intrepid Sea-Air-Space Foundation; \$1,875,000 to the Presidio Trust only for renovations of the parade field; \$1,000,000 to the Fort Ticonderoga Association; \$8,500,000 for the Military Aviation Museum of the Pacific; \$10,000,000 to the Wings of Liberty Military Museum at Fort Campbell; \$2,550,000 to the United Services Organization; \$5,000,000 to the Galena IDEA Distance Learning Program; \$1,500,000 to the Wing Luke Asian Museum; \$8,000,000 to the Center for Applied Science and Engineering (Jordan Valley Innovation Park, Springfield, Missouri); \$1,000,000 to the Women in Military Service for America Memorial Foundation; \$2,000,000 to the American Red Cross Greater Alleghenies Blood Services Center; \$4,000,000 to the Clarksville-Montgomery County School System, Tennessee; and \$1,000,000 to the National Museum of Cavalry and Armor at Fort Knox.

The conferees included a general provision (Section 8118) which amends language, as proposed by the Senate, by making permanent language pertaining to section 2533a(f) of title 10 for procurement of any fish, shell-fish, or seafood product.

The conferees included a general provision (Section 8122) which amends language as proposed by the House and Senate, reducing amounts available in titles II, III, and IV by \$711,000,000 for savings from assumed management improvements.

The conferees included a general provision (Section 8123) which amends language as pro-

posed by the House and Senate, reducing the amount available in "Operation and Maintenance, Air Force", by \$967,200,000 for excess Transportation Working Capital Fund cash and directing that not later than 270 days after enactment of this Act, the same amount be transferred from the Transportation Working Capital Fund to "Operation and Maintenance, Air Force".

The conferees included a general provision (Section 8125) which amends language as proposed by the House, to provide \$3,900,000 from funds available in "Operation and Maintenance, Marine Corps", for widening, and construction of a pedestrian path, for Adobe Road.

The conferees included a general provision (Section 8126) which amends language, as proposed by the House, making \$2,500,000 available for the MCAGCC Health Demonstration Program.

The conferees included a general provision (Section 8130) which amends language, as proposed by the House, which reduces amounts available in title II of this Act by \$50,000,000 for offsetting of payments to contractors for the collection of unpaid taxes.

The conferees included a general provision (Section 8131) which amends language, as proposed by the House, which reduces funds available in title IV of this Act by revising the amount of the reduction.

The conferees included a general provision (Section 8132) which amends language, as proposed by the House, to establish the "Tanker Replacement Transfer Fund", and appropriates \$100,000,000 to said fund.

The conferees included a general provision (Section 8133) which amends language, as proposed by the House, which prohibits the amending or cancellation of current Department of Defense policy for "Personal Commercial Solicitation on DoD Installations", until 90 days after completion of a report on insurance premium allotment processing.

The conferees included a general provision (Section 8134) which amends language, as

proposed by the House with respect to the due date of a report on the dud rate of cluster munitions

The conferees included a general provision (Section 8135) which amends language, as proposed by the Senate, which provides from within funds available in "Operation and Maintenance, Navy", \$2,600,000 for drainage and flood control systems in the vicinity of the Naval Magazine of Lualualei.

The conferees included a general provision (Section 8136) which amends language, as proposed by the Senate, to provide \$2,100,000 from within funds available in "Operation and Maintenance, Navy", for a grant to the Chicago Public Schools for establishment of a Naval Military Academy High School.

The conferees included a general provision (Section 8140) which amends language, as proposed by the Senate, which reduces funds available in operation and maintenance accounts by \$768,100,000 for excessive unobligated balances.

The conferees included a general provision (Section 8141) which amends language, as proposed by the Senate, to reduce the amount of funds available in title 11 by \$100,000,000 for excessive cost growth in the travel and transportation of persons.

The conferees included a new general provision (Section 142) concerning a rescission of funds for unobligated balances. The rescissions agreed to are: 2002 Appropriations:

CONTRACTS FOR SECURITY, TRANSLATION, AND INTERROGATION SERVICES

The conferees direct the Secretary of Defense to provide to the congressional defense committees, not later than four months after the date of enactment of this Act, a list of all contracts entered into by the Department of Defense for the provision of security, translation and interrogation services in Iraq, Afghanistan, or Guantanamo Bay, and the amount of each such contract.

#### TRAIN AND EQUIP

The conferees have provided an additional \$500,000,000 to train, equip, and provide related assistance to the New Iraqi Army and the Afghan National Army. The conferees have provided this funding level with the understanding it will be sufficient to carry the program through all of fiscal year 2005.

#### COMMANDER'S EMERGENCY RESPONSE PROGRAM

The conferees have provided an additional \$300,000,000 to continue the Commander's Emergency Response Program (CERP) for Iraq and Afghanistan. The conferees believe CERP has been one of the most successful humanitarian assistance programs in Iraq and Afghanistan. The conferees want to ensure that these funds are directed to such efforts and that funding for administrative functions are minimized. In addition, the conferees have received only two reports from the Department on the use of the CERP. The conferees concur with the Senate Report 108–284 regarding the timeliness and detail of reporting requirements.

#### NAVY AIRCRAFT DEPOT MAINTENANCE

The conferees agree to provide \$66,000,000 for Navy aircraft depot maintenance. From the funds made available for this purpose, the conferees urge the Navy to give priority consideration for critical and emergent P-3C

and EP-3 sustainment including phase depot maintenance, Enhanced Special Structural Inspections (ESSI), and inventory sustainment initiatives, as identified in the Chief of Naval Operations' fiscal year 2005 unfunded priority list submission to the congressional defense committees.

#### IRAQ FREEDOM FUND

The conference agreement includes \$3,800,000,000 for the Iraq Freedom Fund. Of this amount, \$1,800,000,000 is only for classified activities, and is described further in a classified annex to this report. Additionally, the conferees direct that up to \$100,000,000 shall be available for the Department of Homeland Security, "United States Coast Guard, Operating Expenses".

## RAPID RESPONSE FORCE PROTECTION INITIATIVE

The conferees agree with the direction expressed in the Senate-passed version of the fiscal year 2005 DoD Appropriations bill on the need to provide improved force protection for deployed forces. Further, the conferees agree with the Senate that the Army must be given the greatest flexibility possible with regard to force protection responses. As stated in the Senate report, these options may include armor bolt-on kits for M113A2/3 armored personnel carriers, other bolt-on armor kits, applied uparmoring system, armored cabs, or armored security vehicles (ASV). Accordingly, the conferees provide \$100,000,000 for this effort. The Secretary of the Army shall provide a report to the congressional defense committees detailing all expenditures made using these funds not later than January 5, 2005.

#### REVOLVING AND MANAGEMENT FUNDS DEFENSE WORKING CAPITAL FUNDS

The conferees recommend an appropriation of \$1,478,000,000 for the Defense Working Capital Funds instead of \$1,250,000,000 as proposed by the House and \$740,000,000 as earmarked in the Iraq Freedom Fund by the Senate.

## OTHER DEPARTMENT OF DEFENSE PROGRAMS DEFENSE HEALTH PROGRAM

The conferees provide \$683,000,000 for the Defense Health Program. These funds will cover additional costs incurred by the military medical system, including costs associated with improving medical readiness for Ready Reserve members, and enhanced TRICARE benefits for members of the Reserve Component and their families. The conferees believe this will be sufficient to cover increased Defense Health Program costs for at least four months.

#### GENERAL PROVISIONS—THIS TITLE

The conferees agree to retain section 9001 as proposed by the House, which provides that funds in this title are available for obligation upon enactment of this Act. The Senate proposed similar language.

The conferees agree to retain section 9002 as proposed by the House which provides that funds made available in this title are in addition to amounts provided elsewhere in this Act.

The conferees agree to retain and amend section 9003 as proposed by the House, which provides for transfer between appropriations of up to \$1,500,000,000 of funds made available in this title, and which amends Section 8005 of the Department of Defense Appropriations Act, 2004 by striking \$2,100,000,000 and inserting \$2,800,000,000, and providing that transfers among military personnel appropriations shall not be taken into account for purposes of the limitation under this section. Additionally, the provision repeals, upon enactment of this Act, Section 168(a) of division H of the Consolidated Appropriations Act, 2004 (Public Law 108-199). The Senate did not address this matter.

The conferees agree to retain section 9004 as proposed by the House, which provides that funds appropriated in title IX of this Act for intelligence activities are deemed to be authorized for purposes of section 504 of the National Security Act of 1947. The Senate addressed this in title VIII of the Senate-passed bill.

The conferees agree to retain and amend section 9005 as proposed by the House and the Senate, which prohibits the use of funds provided in title IX to finance programs or activities denied by Congress for fiscal years 2004 or 2005 and requires written notification prior to initiating new start programs.

The conferees agree to delete language as proposed by the House, which would have

continued authorization for certain travel and clothing allowances during fiscal year 2005. The Senate did not address this matter.

The conferees agree to delete language as proposed by the House, which would have continued through September 30, 2005, authorization for certain military pay and allowances. The Senate did not address this matter.

The conferees agree to retain and amend section 9006 as proposed by the House, which provides for support to military and security forces in Iraq and Afghanistan and provides \$500,000,000 from funds available for operation and maintenance in this title to train and equip the New Iraqi Army and the Afghan National Army, and directs certain reports. The Senate included a similar provision.

The conferees agree to retain and amend section 9007 as proposed by the House and the Senate, which provides that from funds made available in this title, \$300,000,000 may be used to fund the Commander's Emergency Response Program.

The conferees agree to retain section 9008 as proposed by the Senate which provides for an increase in drawdown authority provided under the Afghan Freedom Support Act of 2002. The House included a similar provision.

The conferees agree to retain section 9009 as proposed by the Senate which provides that funds available for operation and maintenance for the current fiscal year may be used for support to coalition forces in Iraq and Afghanistan, and directs quarterly reports. The House included similar language.

The conferees agree to retain section 9010 as proposed by the House which requires periodic reports on military operations in Iraq and Afghanistan; amounts expended; military readiness, recruitment and retention; and other subjects. The Senate did not address this matter.

The conferees agree to retain section 9011 as proposed by the House which reaffirms that torture of prisoners of war and detainees is illegal and does not reflect the policies of the United States. The Senate did not address this matter.

The conferees agree to retain and amend section 9012 as proposed by the House which directs the President to provide a report on estimated costs, from fiscal year 2006 to 2011, of operations in and around Iraq and Afghanistan. The Senate did not address this matter.

The conferees agree to delete language as proposed by the House pertaining to the debt ceiling. The Senate did not address this matter

The conferees agree to delete language as proposed by the House which would have directed the Secretary of Defense to provide a list of contracts entered into by the Department of Defense for security, translation, and interrogation services in Iraq, Afghanistan, or Guantanamo Bay, and the amount of each contract. The Senate did not address this matter.

The conferees agree to retain section 9013 as proposed by the House which provides that none of the funds made available in this title may be used to fund any contract in contravention of section 8(d)(6) of the Small Business Act. The Senate did not address this matter.

The conferees agree to include a new provision, section 9014, which provides for the presentation of promotional materials to members of the active and reserve component who participate in Operation Enduring Freedom or Operation Iraqi Freedom.

The conferees agree to include a new provision, section 9015, which provides that for the purposes of Section 402(a)(2) of S. Con. Res. 95 (108th Congress), as made applicable to the House of Representatives by H. Res.

649 (108th Congress), all funds provided in this title, and those made available by transfer or pursuant to authority in section 9003 of the conference report, are directly in support of national security and U.S. forces in the field, are sudden, meet an urgent and compelling need, are unpredictable, and are not permanent in nature.

# TITLE X OTHER MATTERS CHAPTER 1 Department of State

ADMINISTRATION OF FOREIGN AFFAIRS DIPLOMATIC AND CONSULAR PROGRAMS

includes The conference agreement \$665,300,000 for necessary expenses for the operations of the United States Mission in Iraq as proposed in the House bill, including \$240,000,000 for logistical support, \$18,800,000 for the costs of worldwide OpenNet and classified connectivity infrastructure, \$70,000,000 for the State Department operations in Iraq, and \$336,500,000 for the security-related costs, including equipment, armored vehicles, protective details and contract support. conferees direct the Department, not later than 60 days after the date of enactment of this Act, to provide a report to the Committees on Appropriations describing how, within these categories, the Department allocated the funds provided under this heading.
