The conferees direct BIS to conduct a comprehensive study on the health, competitiveness, and the contribution of the U.S. textile and apparel industry to the U.S. economy and in particular to the U.S. armed forces. The study should include a review of whether the United States is increasing its dependency on foreign sources for critical textile-related materials; potential threats to internal security from increased foreign sourcing and dependency; and whether the Berry amendment and other Buy-American restrictions are being effectively enforced by the Department of Defense. The conferees direct that the study be completed no later than July 1, 2003, and direct that \$750,000 be used for this purpose.

Management and Policy Coordination—\$6,879,000 is provided for Management and Policy Coordination, of which \$2,800,000 is from prior year unobligated balances. The recommendation includes \$500,000 for a new information technology initiative.

In addition to the amounts provided under management and policy coordination, \$7,928,000 is provided for critical infrastructure protection efforts. The conferees note that the primary responsibility for non-proliferation activities lies with the Department of Defense, the Department of Energy and the Department of State, and believes that BIS participation in such activities should be done using funds provided from those agencies. Language is included to rename the Bureau of Export Administration as the Bureau of Industry and Security.

ECONOMIC DEVELOPMENT ADMINISTRATION

The conference agreement includes \$320,765,000 for the programs and administrative expenses of the Economic Development Administration (EDA) for fiscal year 2003, as described below:

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

A total of \$290,000,000 is included for fiscal year 2003 for Economic Development Assistance Programs. The conferees continue the traditional programs of the Economic Development Administra-

tion to provide needed assistance to communities struggling with long-term economic dislocation, as well as sudden and severe economic dislocation. Of the amounts provided, \$205,000,000 is for Public Works and Economic Development, \$40,900,000 is for Economic Adjustment Assistance, \$24,000,000 is for planning, \$9,100,000 is for technical assistance, including university centers, \$10,500,000 is for trade adjustment assistance, and \$500,000 is for research.

The conferees expect EDA to continue to assist communities impacted by economic dislocations related to coal industry downswings and timber industry downturns due to environmental concerns at no less than the fiscal year 2002 level. In addition, the conferees expect EDA to focus on communities impacted by United States-Canadian trade-related issues, communities in New England, the mid-Atlantic, Hawaii, and Alaska impacted by fisheries regulations, and communities in the Southeast impacted by downturns due to NAFTA.

The conferees remind EDA that no funding is provided for a special headquarters reserve fund.

The conferees laud EDA for its continued efforts to strengthen private sector business activity and development on Indian lands, and urges that it act expeditiously to develop an implementation plan for the recently enacted Native American Business Development, Trade Promotion, and Tourism Act.

The conferees recently approved the Economic Development Administration's headquarters reorganization plan, based upon the agency's commitment not to involuntarily terminate employees and not to increase the current number of political appointees. The conferees direct EDA to report to the Committees on Appropriations within 120 days from the date of enactment of this Act, on the status of the reorganization, including relocations.

The conferees note that EDA was reauthorized in 1999 (Public Law 105-393) through fiscal year 2003. That authorization locks into place the work that the authorization and appropriations committees have done to reform EDA programs to ensure that funds provided under this account be targeted to the most severely distressed areas, which, absent the assistance provided by the EDA, would have little to no access to resources for critical infrastructure development and capacity building. This puts the program on firm ground to carry out its purpose to provide the "seed capital" to distressed areas to allow local communities to increase their ability to create new economic opportunities and jobs in accordance with local priorities.

The conferees direct EDA to discontinue the use of single purpose grant loans.

SALARIES AND EXPENSES

The conference agreement includes \$30,765,000 for the salaries and expenses of the Economic Development Administration. The conferees continue direction to the Administration to aggressively pursue all opportunities for reimbursement, deobligations and use of non-appropriated resources, including the care and protection of collateral account, to be able to maximize the operating level.

In addition, the conferees remind EDA of the requirements under section 605 of this Act regarding reorganization proposals.

The conference agreement retains language in the bill to provide the authority to use this appropriation to monitor projects approved under Title I of the Public Works Employment Act of 1976, Title II of the Trade Act of 1974, and the Community Emergency Drought Relief Act of 1977.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The conference agreement includes \$28,906,000 for the Minority Business Development Agency (MBDA) for fiscal year 2003. Of the amounts provided, \$16,794,000 is provided for business development, and \$12,112,000 is provided for advocacy, research, and information programs. The conference agreement assumes that the Entrepreneurial Technology Apprenticeship Program (ETAP) will continue to be supported at the fiscal year 2002 level.

ECONOMIC AND INFORMATION INFRASTRUCTURE

The conference agreement includes under this section, the Department of Commerce agencies responsible for the nation's basic economic and technical information infrastructure, as well as the administrative functions to oversee the development of telecommunications and information policy.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The conference agreement includes \$72,158,000 for the economic and statistical analysis programs of the Department of Commerce, including the Bureau of Economic Analysis (BEA), for fiscal year 2003. Due to the Nation's economic situation, the conferees support the request to ensure policy makers have access to better and timely economic data. Therefore, the recommendation includes \$4,776,000 to accelerate the release of major economic indicators; \$2,116,000 to improve the processing systems used for statistical processing; and \$2,751,000 to allow the United States to meet international agreements including the North American Free Trade Agreement.

The Economic and Statistics Administration (ESA) is responsible for the collection, tabulation and publication of a wide variety of economic, demographic and social statistics and provides support to the Secretary of Commerce and other Government officials in interpreting the state of the economy and developing economic policy. The Bureau of Economic Analysis and Under Secretary for Economic Affairs are funded in this account.

BUREAU OF THE CENSUS

The conference agreement includes a total operating level of \$596,299,000 for the Bureau of the Census, of which \$41,817,000 is from prior year unobligated balances from the 2000 Census.

SALARIES AND EXPENSES

The conference agreement includes \$183,000,000 for the salaries and expenses of the Bureau of the Census for fiscal year 2003. The agreement includes \$128,234,000 for current economic statistics, and \$54,766,000 for current demographic statistics. The conferees direct the Bureau to continue to streamline and prioritize programs to ensure the highest priority core activities are supported. The conferees expect the Bureau to be fully reimbursed for any non-core survey by any other Federal agency or private organization.

In addition, the conferees are concerned that key reports on manufacturing, general economic and foreign trade statistics are maintained and issued on a timely basis.

This recommendation provides for the current statistical programs of the Bureau of the Census, which includes measurement of the Nation's economy and the demographic characteristics of the population. These programs are intended to provide a broad base of economic, demographic, and social information used for decision-making by governments, private organizations, and individuals.

PERIODIC CENSUSES AND PROGRAMS

The conference agreement includes a total of \$413,299,000 for all periodic censuses and related programs funded under this heading in fiscal year 2003. Of the amounts provided, \$41,817,000 is to be derived from prior year unobligated balances.

2000 Decennial Census Program—The recommendation includes an operating level of \$83,710,000, of which \$41,817,000 is from prior year obligations for the final year of activities relating to the 2000 decennial census.

The recommendation includes the following:

(Dollars in thousands)

<i>Decennial Census 2000</i>	
Program Development & Mgmt	\$3,461
Data Content & Product	42,651
Field Data Collection ¹	4,630
ADP & Telecommunications	12,826
Testing and Evaluation	16,333
Puerto Rico, Virgin Islands & Islands	2,472
Marketing, Communications & Partner	1,337
Minus Deobligations/Unobligations	(41,817)
Total, Decennial Census (Direct)	\$41,893
<i>Decennial Census 2010</i>	
Operational Design Strategy	6,353
Data Collection Design	2,804
Questionnaire & Content Design	1,573
System Design & Software	7,220
Address List Updates	943
Test/Evaluation	22,982
Re-engineered Design Process	\$41,875
American Community Survey ²	\$57,131
Modern Processing Environment	11,562
Geographic Partnership Programs	5,447
Evaluation	3,050
Street Address Location Correction	20,741

<i>Decennial Census 2010</i>	
Community Address Updating System	6,500
MAF/TIGER	\$47,300
Grand Total, Decennial Census	\$146,306
Periodic Census	
Economic Censuses	87,392
Census of Governments	6,556
Subtotal, Economic Programs	\$93,948
Demographic Statistics Programs:	
Intercensal Demographic Estimates	9,079
Demographic Survey Sample Design	12,583
Electronic Information Collection	6,254
Geographic Support	37,624
Data Processing Systems	23,795
Subtotal, Demographic Programs	\$89,335

¹The fiscal year 2003 budget request included \$9,500,000 for an anticipated worker's compensation payment due to the Department of Labor. To date, no justification has been provided to substantiate this request. No funding is provided for this purpose.

²The budget request includes a total of \$123,866,000 for the American Community Survey. The Census Bureau has proposed to alter the current process of conducting the decennial census. The current proposal is to abolish the long-form survey, but continue the short form survey as part of the 2010 census and replace the long-form survey with an annual survey of 3,000,000 households. The current proposal would require the American Community Survey to be considered a mandatory requirement for those households being surveyed. The conferees acknowledge that sufficient information is not available to weight the benefits of a mandatory survey versus a voluntary survey. Therefore, the conferees include \$1,000,000 to test the response rates of both a voluntary and a mandatory survey. The conferees direct the Secretary of Commerce to report to the Committees on Appropriations as soon as the results of the study are available.

Subgroup Enumeration—The conferees understand the Census Bureau continues to face difficulty in accurately enumerating Hispanic subgroups and urges the Census Bureau to continue to work to address these concerns in preparation for the decennial census.

Hiring—The conferees recommend that the Census Bureau move decisively to improve the representation of minorities in senior management at the Census Bureau and to improve the representation of minorities in all areas of research. The conferees suggest that the Census Bureau take advantage of the Presidential Management Intern program and the Joint Program on Survey Methodology to achieve these goals.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

The conference agreement includes a total of \$73,759,000 for the National Telecommunications and Information Administration (NTIA) for fiscal year 2003.

The National Telecommunications and Information (NTIA) is responsible for developing domestic and international telecommunications and information policy for the Executive Branch, ensuring the efficient and effective use of the Federal radio spectrum, and administering Federal programs that supports telecommunications facilities for public broadcasting.

SALARIES AND EXPENSES

The conference agreement includes \$14,700,000 for the Salaries and Expenses appropriation of the National Telecommunications and Information Administration (NTIA).

The conference agreement includes \$625,000 and two full-time equivalents to improve NTIA's management of the Federal spec-

trum. Due to fiscal constraints, no additional funding is provided to upgrade existing facilities on the Table Mountain radio quiet zone. The conferees direct the Administration to aggressively pursue all opportunities for reimbursement, deobligations, and use of non-appropriated resources, to be able to maximize the operating level for this purpose.

The conference agreement assumes an additional \$26,270,000 will be available to the NTIA through reimbursements from other agencies for the costs of providing spectrum management, analysis and research services to those agencies, reflecting implementation of a policy of 80% reimbursement for such services that began in fiscal year 1999.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

The conference agreement includes \$43,556,000 for planning and construction grants for public television, radio, and non-broadcast facilities. This amount will allow the continuation of the existing equipment and facilities replacement program.

Challenges are particularly great for those broadcasters who are located in, or who serve, largely rural areas. As in past years, the conferees continue to urge NTIA to place emphasis on the needs of these stations, and to support focusing resources on distance learning initiatives targeting rural areas.

INFORMATION INFRASTRUCTURE GRANTS

The conference agreement recommends \$15,503,000 for the Information Infrastructure Grant program for demonstrations of new telecommunications technology applications. The recommendation is the same as the fiscal year 2002 funding level. The accompanying bill does not include language to terminate the program, as proposed.

The conferees note that there is some overlap between this program and technology programs under the Department of Justice, Community Oriented Policing Services and the Regional Information Sharing System with respect to grants for public safety. The conferees expect NTIA to give preference to applications relating to public safety only when there is no other source of funding available for such applications.

The conferees retain language making the funds provided under this heading available for program administration and related program support activities at the fiscal year 2002 level. The bill also includes language carried in previous appropriation acts which will allow up to five percent of this appropriation to be available for telecommunications research activities directly related to the development of a national information infrastructure (NII).

UNITED STATES PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

The conference agreement includes \$1,182,000,000 for the United States Patent and Trademark Office (USPTO) in fiscal year 2003. The recommendation does not include the Administration's proposed language establishing a new fee structure to significantly

increase fees for both trademark and patent applications resulting in additional fee collections of \$197,000,000. To date, the fee structure changes and many of the other changes outlined in the 21st Century Strategic Plan have not been authorized.

In fiscal year 2002, the Congress directed the PTO to develop a 5-Year Strategic Plan for the PTO with three core objectives: (1) prepare the agency to handle the workload associated with the 21st century economy, (2) improve patent quality, and (3) reduce patent and trademark pendency.

The 21st Century Strategic Plan calls for some of the most sweeping changes to the patent review process in 200 years.

The conferees support efforts to shift resources to high priority areas and a more gradual increase in staffing to ensure that examiners have the expertise, tools, and training necessary to produce quality patents on a timely basis. This approach is consistent with the outline of the 21st Century Strategic Plan released in June 2002.

Of the amount recommended in the bill, \$1,015,229,000 is to be derived from offsetting fees collected in fiscal year 2003 and \$166,771,000 is to be derived from carryover funds from prior years. Of the amounts provided, \$14,000,000 is for the completion of the trademark electronic processing system; and \$4,499,000 is for increased workload costs and continued implementation costs of electronic patent filing system.

Within the amounts available, the conferees expect that USPTO continue its relationship with the National Inventor's Hall of Fame and Inventure Place, and the International Intellectual Property Institute at least at the same level as in fiscal year 2002.

The conferees understand that funding for a global intellectual program provided in fiscal year 2002 was not obligated. Therefore, the conferees direct USPTO to use prior year funding to offset any additional costs necessary to maintain the above-mentioned partnerships. The conferees remind the USPTO that any changes from the funding distribution provided in the bill and report, including carryover balances, are subject to the standard reprogramming procedures set forth in section 605 of this Act.

In addition, USPTO is directed to submit to the Committee, not later than April 11, 2003, a spending plan, which incorporates any carryover balances from previous fiscal years and any increase to the patent or trademark fee structure.

The conferees commend USPTO for its successful trademark telework program in support of section 359 of Public Law 106-346. Yet, despite this successful program, the patent employees are not gaining the benefits of a similar program. The conferees understand that telework programs can significantly help to alleviate crowded highways in the greater Washington area. Further, the private sector has shown that these programs can increase the performance and morale of employees. Therefore, the conferees direct the USPTO to provide a report to the Committees on Appropriations, not later than April 11, 2003, containing a detailed plan to implement a telework program for patent employees, including examiners.

The USPTO is charged with administering the patent and trademark laws of the United States. USPTO examines patent ap-

plications, grants patent protection for qualified inventions; and disseminates technological information disclosed in patents. USPTO also examines trademark applications and provides Federal registration to owners of qualified trademarks.

SCIENCE AND TECHNOLOGY

The conference agreement includes under this section of Title II the Department of Commerce agencies responsible for scientific and technological research and programs.

TECHNOLOGY ADMINISTRATION

SALARIES AND EXPENSES

The conferees recommend \$9,886,000 for the Technology Administration's Office of the Under Secretary/Office of Technology Policy. Of the amounts provided, \$1,000,000 is for the Global Technology Summit, and \$1,000,000 is for the Networked Economy Summit.

The conferees did not support the proposed language making a portion of the funding under this account available until expended.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

The conference agreement includes \$712,134,000 for the appropriations accounts under the National Institute of Standards and Technology (NIST) for fiscal year 2003.

A description of each account and the Committee recommendation follows:

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The conference agreement includes \$359,411,000 for the Scientific and Technical Research and Services (core programs) appropriation of the National Institute of Standards and Technology.

The following is a breakdown of the amounts provided under this account by activity.

	<i>FY03 Recom.</i>
Electronics & Electrical	45,731
Manufacturing Engineering	21,128
Chemical	40,313
Physics	35,500
Building and Fire Research	21,542
Materials Science & Engineering	56,532
Computer Applied Mathematics	53,078
Technology Assistance	17,679
Baldrige Quality Awards	5,205
Research Support	62,703
Total, STRS	\$359,411

Under the Building and Fire Research heading, the recommendation includes \$2,500,000 for a wind research project, \$3,000,000 for research efforts related to the World Trade Center collapse investigation.

Under the Computer and Applied Math heading, the recommendation includes \$1,000,000 for expert review teams, \$2,100,000 for wireless technologies and computer security check-

lists and guidelines, and \$500,000 in support of voting machine standards.

Under the Chemical Science and Technology Program heading, the recommendation includes \$1,000,000 to restore reductions in environmental measurements at the Hollings Marine Laboratory.

Under the Electronics and Engineering heading, \$3,000,000 is for salaries associated with the Office of Law Enforcement Standards to ensure that NIST has the critical personnel with the expertise to implement law enforcement standards initiatives proposed by their partner federal agencies.

In addition, under the Research Support heading, the recommendation includes \$2,400,000 for a telework project, \$6,500,000 for a certain critical infrastructure program, and includes \$15,000,000 for the Advanced Measurement Laboratory in Gaithersburg, Maryland.

Further, the conferees have heard reports that U.S. companies may not be as competitive as non-U.S. companies in emerging markets because U.S. standards are not incorporated in many international agreements. The conferees request NIST with input from the ITA, to provide to the Committees on Appropriations, no later than April 11, 2003, a plan detailing efforts that ensure U.S. business interests are represented in new international standard negotiations.

Competitive sourcing. The conferees understand that there are efforts within the Department of Commerce and other Departments, to use the implementation of the President's Management Initiative for Competitive Outsourcing (the A-76 process) as a way to reduce staff by more than 50 percent. This initiative is designed to compete or directly convert 15 percent of those positions identified as commercially competitive. However, the conferees understand that efforts are underway to identify roughly 75 percent of NIST's positions as commercial for purposes of this initiative. While the conferees certainly agree that there are certain advantages to competitive outsourcing, there is a concern that blind implementation could severely inhibit the operations of the Institute in the future. The conferees direct NIST to provide a detailed plan to the Committees on Appropriations prior to any changes in support of "competitive outsourcing".

For more than a century, the scientists, engineers, and supporting organizations of the Institute have established standards that affect nearly every aspect of life and work in America, from the doses of radiation in medical X-rays to the level of protection in bullet-proof vests used by police officers. NIST's mission plays an ever more critical role today by supporting our homeland security efforts through the development of standards for mail irradiation, guidelines for cyber security for Federal IT systems, and by conducting the Federal investigation of the collapse of the World Trade Center buildings.

The recommendation does not include a requested increase to the allowable amount to be transferred to the working capital fund.

INDUSTRIAL TECHNOLOGY SERVICES

The conference agreement includes \$286,623,000 for the Industrial Technology Services appropriation of the National Institute of Standards and Technology.

Manufacturing Extension Partnership Program—Recent economic downturns have had a devastating effect on the manufacturing sector. Therefore, to ameliorate some of the effect on this sector, the conferees have included \$106,623,000 for the Manufacturing Extension Partnership Program to fund all existing centers.

Advanced Technology Program—The conference agreement includes \$180,000,000 for the program, of which \$60,700,000 is for new awards. This amount, when combined with approximately \$34,000,000 in prior year funds, provides ATP awards at the fiscal year 2002 level. Within the amounts made available, \$45,000,000 shall be used for administrative costs, internal laboratory support, and for Small Business Innovation Research Program requirements.

CONSTRUCTION OF RESEARCH FACILITIES

The conference agreement includes \$66,100,000 for construction, renovation, and maintenance of NIST facilities. Of the amounts provided, \$11,090,000 is for urgently needed construction and renovation projects at the Boulder, Colorado laboratory, including a new primary electrical service and the first phase of the central utility plant, these investments should help minimize the number of brownouts affecting the campus; \$4,000,000 is to offset fit-up costs related to the Advanced Measurement Laboratory in Gaithersburg, Maryland, to be completed by December 2003; and \$22,194,000 for the backlog of safety, capacity, maintenance, and major repair projects account for the two NIST campuses.

The conferees direct NIST to report to the Committees on Appropriations on the progress of these construction projects on a quarterly basis.

Up to \$282,000 is available to transfer to the working capital fund, as proposed.

This account supports all NIST activities by providing the state of the art facilities necessary to carry out the NIST mission.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The conference agreement includes a total of \$3,154,551,000 for necessary expenses for the seven appropriation items of the National Oceanic and Atmospheric Administration (NOAA), including transfers totaling \$65,000,000.

Of the amounts provided, \$479,201,000 is provided in support of the separate conservation category created in Title VIII of the Interior and Related Agencies Appropriations Act, 2001.

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$2,316,519,000 for the coastal, fisheries, marine, weather, satellite, and other NOAA programs funded in this account. The agreement includes a transfer

of \$65,000,000 from balances in the account entitled, "Promote and Develop Fishery Products and Research Pertaining to American Fisheries". The recommendation assumes deobligations of \$17,000,000, as proposed, and \$3,000,000 from prior year receipts relating to the coastal zone management program.

The bill continues language to allow NOAA to retain gifts and contributions made under the Marine Sanctuary Program. The conferees continue to direct NOAA to fully utilize the authorities provided for this program.

Language is also included in the bill specifying the total amount of direct obligations available for each of the NOAA line offices and other related activities funded through this account. The conferees continue to take this action to provide greater clarity and accountability in budgeting and management for the diverse activities funded in this account. In addition, the bill also retains language regarding the practice of assessing NOAA line organizations, programs, projects, and activities, to support NOAA and line office overhead and programs over and above the amounts specifically provided, and regarding the funding and personnel in Executive Direction and Administration. The conference agreement caps administrative expenses at \$243,000,000. NOAA is directed to submit a spend plan to the Committees on Appropriations for these expenses at a level of detail comparable to that of the House and Senate NOAA tables. The plan shall be delivered not later than March 15, 2003.

The conferees remind NOAA that administrative charges levied against certain activities assigned in the bill are limited to no more than five percent. In addition, language is also included regarding use of deobligations in excess of amounts estimated in the budget.

In addition to the direction given in this section of the report, the conferees direct NOAA to comply with sections addressing the reprogramming and transfer requirements under Section 204 of this Act.

The following identifies the activities, sub-activities, and projects funded in this appropriation.

GRAND TOTAL, NATIONAL OCEAN SERVICE - ORF	417,933

NATIONAL OCEAN SERVICE

The conference agreement includes a total of \$417,933,000 for activities of the National Ocean Service (NOS) for fiscal year 2003.

Mapping and Charting—The recommendation includes \$79,433,000 for mapping and charting activities. The conferees include \$20,450,000 to address the hydrographic survey backlog detailed in the National Survey Plan. The recommendation is consistent with the conferees decision that at least 50 percent of the hydrographic surveying should be contracted out to private companies. The conferees direct NOAA to report to the Committees on Appropriations within six months after the enactment of this Act on the progress being made to reduce the backlog.

Of the amounts provided for mapping and charting activities, the conferees include \$7,500,000 to allow NOAA to continue its efforts to lease or charter a U.S.-purpose-built U.S. flag hydrographic survey vessel, which is capable of performing the full scope of necessary hydrographic services. The conferees expect the vessel to be equipped with a suite of state-of-the-art survey equipment capable of providing quality data from inshore waters to full ocean depth. The conferees direct NOAA to examine lease and charter options of longer than one-year, which may reduce the annual cost. The conferees direct NOAA to award the time charter contract on its current schedule and report by no later than April 11, 2003, on options for increasing the length of a lease or charter and whether savings might result from such an increase. In addition, NOAA is expected to follow the requirements of Section 303(b)(3) of the Hydrographic Services Improvement Act and contract for hydrographers on any leased or chartered vessel in accordance with title IX of the Federal Property and Administrative Services Act of 1949. Finally, the conferees adopts NOAA's proposal to hire a vessel that is capable of work in both the Gulf of Mexico and the Alaska waters. The conferees understand that the leased or chartered vessel will begin its work in the Gulf of Mexico no later than April 2003, but would survey in Alaska from April 1, 2004, through November 1, 2004. After that, the conferees expect the total vessel time to be split between the Gulf of Mexico and Alaska.

Of the amounts provided, \$3,200,000 is for bathymetric surveys off the Northeast Coast of the United States and around the Aleutian Chain in accordance with the data needs identified by a Joint Hydrographic Center on the potential expansion of United States lands beyond the Exclusive Economic Zone. Within the funding recommendation for Shoreline Mapping, the conferees recommend that NOS focus on mapping the shoreline of the North Slope of Alaska.

Geodesy.—The conferees understand the State of Alabama has begun an effort to develop a comprehensive statewide Geographic Information System database and clearinghouse that will reduce duplication of resources among state agencies, improve quality, and reduce costs. The National Geodetic Survey has begun talks with representatives of the State of Alabama, including the Alabama Department of Revenue, on this effort and the conferees encourage the National Geodetic Survey to continue to support this effort as appropriate.

Tide and Current Data.—The conferees include \$19,750,000 for this activity. The recommendation will enable NOS to implement and maintain the necessary quality controls for real-time tide and current data systems. Funding is included to continue implementation of the Physical Oceanographic Real-Time System (PORTS) program and continues the National Water Level Operation Network (NWLON) in the Great Lakes.

Coral Reefs.—Prior to obligation of the funding provided for this program, the conferees direct NOAA to submit a spending plan to the House and Senate Committees on Appropriations. A total of \$14,000,000 is provided for this program, of which \$2,000,000 is from unobligated prior year balances.

Ocean and Coastal Observing Systems.—The conferees support the establishment of an integrated interagency ocean and coastal observing system that will provide critical information to a wide variety of users of ocean and coastal information and services. Better information on the current and future state of the ocean and its role in environmental change is needed for policy makers. Adequate predictive capability is a prerequisite to the development of sound policies at the national and regional level, policies ranging from maritime commerce to public health, from fisheries to safety of life and property, from climate change to national security.

Broad scale discussions have been underway for almost three decades on this topic, but coordinated attention at the Federal level has begun in earnest only in recent years. The Office of Science and Technology Policy was directed to develop an interagency plan for the research, technology demonstration, and ultimately, the implementation of an integrated ocean observing system. The conferees direct NOAA to work with its partners on the National Ocean Research Leadership Council to submit a plan by June 30, 2003, to the Committees on Appropriations. This plan will detail an implementation strategy for the establishment of an integrated ocean and coastal observing system. This plan shall, at a minimum: (1) include an interagency governance structure; (2) define the roles and responsibilities of each agency in implementing and operating the system; (3) provide multi-year funding estimates by agency; and (4) include a process for regional coordination and technical support to ensure development of integrated regional systems with a national observing initiative.

In addition, as development of an integrated long-term Federal plan proceeds, the conferees urge NOAA to coordinate existing or planned regional coastal observing systems, particularly those for which funding has been provided or those which use Federal platforms such as buoys. The conferees direct NOAA to utilize the data management and technical expertise of the Coastal Services Center to perform this function as well as provide education and outreach to participating Federal agencies, academic institutions, State agencies, and other interests.

Ocean Health Initiative.—One area where coastal observing systems would be useful is in exploring the relationship between the oceans and human health. In 1999, a National Research Council report, *From Monsoons to Microbes: Understanding the Ocean's Role in Human Health*, focused attention on the implications of ocean phenomena for human health. The phenomena include cli-

mate change, weather events, coastal hazards, infectious diseases, and harmful algal blooms. As the nation faces increasing coastal pressures and scientists identify changes in coastal systems, including sentinel species such as dolphins and fish, NOAA is uniquely positioned to play a strong role in identification, prediction, and prevention of such changes. In addition, genetic and other characteristics of marine organisms can be used for medical advances and NOAA can help build a bridge between marine scientists and human health experts.

The conferees direct the Under Secretary to establish an Ocean Health Initiative to coordinate and focus agency activities on critical areas of concern and identify critical gaps in coverage. Of the amounts provided, \$8,000,000 is for critical research and projects aimed at closing identified gaps. The conferees direct NOAA to: (1) work with the NSF and the National Institute of Environmental Health Sciences in developing a joint program that builds on and complements existing NOAA programs; (2) establish an external peer reviewed grant process; and (3) provide for the selection and funding of internationally recognized "distinguished" scholars to work in collaboration with NOAA researchers. NOAA will submit a spend plan for approval by the Committees on Appropriations before program funding is obligated.

Coastal Ocean Program.—The conferees direct the program to work with and continue its current levels of support for the Baruch Institute's research and monitoring of small, high-salinity estuaries and to continue its current levels of support for the LUCES program. Within the funds provided for the MERHL, the conferees direct NOAA to create a scientific and professional position to act as senior scientist for NCCOS.

Aquatic Resources Initiative.—Of the amounts available provided under this heading, up to \$750,000 is for Bluegrass Pride, Inc.

Coastal Zone Management.—A total of \$75,144,000 is provided to assist coastal states in implementing this program. The Committee continues its' direction to report on the measures of performance used to justify requesting funding for this program. Bill language, carried in prior years, has been modified.

Marine Sanctuary Program.—\$34,750,000 is provided for this program, of which \$1,000,000 is from unobligated balances. Under this heading, the recommendation includes \$750,000 for the activities of the Northwest Straits Citizens Advisory Commission. This Commission was established to provide an ecosystem focus on the marine resources in the area, mobilize science and support marine resource committees, and establish a forum for coordination and consensus building, in lieu of Federal designation of the area as a Marine Sanctuary. The conferees continue to believe that such a consensus-based approach is an innovative and novel approach to promote marine conservation, the goal of the Marine Sanctuary Program.

National Centers for Coastal Ocean Science (NCCOS).—The conferees are aware that the National Centers for Coastal Ocean Science (NCCOS) for several years have been cutting base funds without Congressional approval from certain labs that received specified program increases. The Conferees direct the NCCOS to

stop this practice immediately. Further the Conferees direct NCCOS to report to the Committees on Appropriations no later than April 15, 2003 on what purposes the funding from the reductions was used and on the steps being taken to restore the cuts to base that have been sustained by those labs.

NATIONAL MARINE FISHERIES SERVICE

The conference agreement includes \$580,066,000 in new funding for the operations of the National Marine Fisheries Service (NMFS). In addition to this amount, \$19,500,000 is available from prior year unobligated balances for a total operating level of \$599,566,000.

Expand Stock Assessments.—The conferees have provided \$17,000,000 for additional stock assessments. Of the amounts provided, \$1,000,000 for implementation of a West Coast in-season harvest data collection system.

Migratory Shark Fishery.—The conferees expect NMFS to continue the funding for collaborative multi-regional biological research on highly migratory species of sharks to provide NMFS with the information necessary for effective management of the highly migratory shark fishery and conservation of imminently threatened shark fishery resources.

Cooperative Research.—In addition to the amounts shown for the national cooperative research program, \$1,700,000 is available from unobligated prior year balances.

National Fisheries Information System.—Funding of \$2,600,000 is available from prior year unobligated balances.

Information Analysis and Dissemination.—The conferees include \$21,890,000 for this program, of which \$400,000 is from unobligated prior year balances.

California Sport fishing.—The conferees have been advised that the Republic of Mexico has closed U.S. sport fishing access to the Revillagigedo Islands. The sport fishing industry provides \$5.5 million in direct revenue to Southern California and employs hundreds of people. The United States and Mexico have maintained a cooperative working relationship with regard to fishing and environmental issues, and U.S. boats have had access to the Revillagigedo Islands under permits since 1994. The conferees direct the Secretary of Commerce to investigate the reason of the withdrawal of these permits, and to report to the Committee on Appropriations no later than April 2003.

Northern Right Whale Preservation.—The conferees include a total of \$10,000,000 for North Atlantic right whale research, management activities, and Atlantic coastal States' implementation of cooperative Federal-state right whale recovery plans, such as those concluded under section 6 of the Endangered Species Act. Funding is included to assist NMFS and its' partners to expedite right whale recovery in consultation with the Implementation Team and the Take Reduction Team.

Of the amounts provided, \$2,130,000 is for efforts to reduce ship strikes, the leading cause of death of these whales, including \$200,000 for whale detection technologies, \$560,000 is for passive acoustic technologies, \$295,000 is for active acoustic technologies, and \$200,000 is for measuring whale response to approaching vessels; \$2,060,000 is to reduce entanglement including, \$666,000 is for gear modification, \$200,000 is for Southeast disentanglement teams, \$400,000 is for the New England Aquarium efforts, and \$800,000 is for the Center for Coastal Studies. Of the funding pro-

vided for the Center, final funding allocation should be based upon recommendations of the right whale program coordinator.

Of the amounts provided for NMFS base programs, funding is expected to support priority management, enforcement, and ship strike prevention activities, including expedited development and deployment of innovative fishing gear and whale tracking technologies, improved stranding response and procedures, a whale-sighting advisory system, and a mandatory ship-reporting system. No more than 20 percent of funds provided to NMFS may be used for salaries of existing personnel.

Fisheries Research and Management.—The conferees include \$3,450,000 for the recreational fishing information network program, and expect that the Pacific, Atlantic, and Gulf States shall each receive one-third of these funds with funding for inshore recreational species assessment and tagging efforts in South Carolina.

In addition, the conferees expect that \$500,000 will be used to continue the effort to enhance the annual collection and analysis of economic data on marine recreational fishing.

As in prior fiscal years, the conferees expect the Oceanic Institute to administer funding for the Hawaii Fisheries Development and for the Hawaii Stock Management Plan.

The conferees direct that \$750,000 for the Interstate Fish Commissions be equally divided among the three commissions. The conferees also recommend that NMFS double its effort with regard to California Cooperative Fisheries Investigation cruises. Of the amounts recommended for the Stellar Sea Lion Recovery Plan, \$1,000,000 is for Alaska Fisheries Foundation to study innovative methods to deter whale predation of sea lions. In addition, the Committee expects NOAA to continue its research initiative on Pacific decadal oscillation, predator-prey relationships with particular emphasis on killer whale predation on sea lion pups, and to explore other factors in the marine environment that may be contributing to the decline of Stellar sea lions and other marine mammal populations.

Enforcement of International Dolphin Agreement.—Although the National Marine Fisheries Service recently submitted its completed science report required by the International Dolphin Conservation Program Act, the conference agreement includes \$2,700,000 for research on dolphin encirclement in the eastern tropical Pacific (ETP). Funding is provided for additional research on herd sizes on which sets are made, additional biological sampling, impacts of cow-calf separation, and the impacts on dolphin populations of vessels with a carrying capacity of less than 400 short tons that are reportedly setting on dolphins in the ETP.

The conferees are concerned that Mexico and other non-U.S. parties to the International Dolphin Conservation Program [IDCP], of which the United States is a member, are not fully complying with the requirements of the IDCP, particularly with respect to accurate reporting of dolphin interactions and mortality. The conferees direct the Department, and in consultation with key U.S. stakeholders, to evaluate and document any lack of compliance by the non-U.S. parties to the IDCP with its provisions, including through on-site visits and discussions with government officials, observers and others with first-hand knowledge of country practices,

and to submit a written report describing the findings to the Committees on Appropriations no later than May 1, 2003. The report is expected to include an evaluation of compliance with the on-board observer program, with a focus on national observers; reporting of dolphin interactions and mortality; international requirements for vessels; and actions by parties to follow-up on infractions identified by the international review panel.

Endangered Species—Columbia River.—The conferees include \$1,590,000 to purchase two mass marking trailers for the state of Idaho.

Protected Resources Research and Management.—Of the amounts provided for Native Marine Mammals, \$100,000 is to enable the Alaska Eskimo Whaling Commission to participate in International Whaling Commission meetings.

Chesapeake Bay.—Of the amounts provided under this heading, \$500,000 is for sea grass restoration. In addition, the conferees recommend that NOAA continue a micro-grant program allowing local governments and non-profit organizations to perform fisheries and shellfish restoration on the Chesapeake Bay. In addition, \$1,500,000 is for seven full-time equivalents for the Oxford Laboratory to support the NOAA Chesapeake Bay Office's fisheries, habitat restoration, and ecosystem research needs.

The conferees provide \$2,500,000 for a bay watersheds education and training program to be administered by the Chesapeake Bay Office. This initiative provides funding to establish an office in Virginia to better focus NOAA resources on Virginia issues in the Chesapeake Bay region. While cooperation between Virginia and NOAA programs is good, and significant NOAA funds are dispersed to Virginia programs, the physical distance between Norfolk and Annapolis limits the desired level of collaboration, not only with the NOAA Chesapeake Bay Office but also the Chesapeake Bay Program along with other signatories of the Chesapeake Bay agreement. This initiative guides NOAA to integrate existing staff resources across line offices and to appoint required staff to establish the program, working in concert with pertinent existing local, state, and federal offices or projects, academic institutions, NGOs, and the public. The program should integrate existing NOAA fisheries, habitat restoration, education, hazardous spill response, coastal zone, coastal oceanography, and other significant components. Of the amounts provided, \$350,000 is available for two full-time equivalents and administrative costs, including office space.

Enforcement and Surveillance.—The conferees continue at the fiscal year 2002 level funding for marine forensics and southeast fisheries' law enforcement, and the conferees expect cooperative laboratory activities to continue between NMFS and State and local governments and the academic community. The conferees recommend that three interstate marine fisheries commissions may be eligible to receive a portion of the Cooperative Enforcement Program funds for use in providing law enforcement coordination among the States and NMFS.

The conferees provide \$23,734,000 for the operations of the enforcement and surveillance program, of which \$14,800,000 is available from unobligated prior year balances. This is an increase of \$3,314,000 above the fiscal year 2002 level.

NMFS Facilities Maintenance.—Of the amounts provided, \$325,000 is for additional costs related to the Santa Cruz laboratory.

Pacific Salmon Funding.—The conferees note the lack of accountability and performance standards for resources distributed to restore endangered and threatened salmon through the Pacific Coastal Salmon Recovery Fund. The conferees have provided hundreds of millions of dollars through this fund to be distributed among certain States and tribes for habitat restoration to assist in salmon population recovery. The conferees understand that there are other habitat restoration grant programs that fund grant proposals for the same purpose. Given the austere operating climate the conferees are working within, the conferees expect NOAA to prioritize funding from other habitat restoration funds on non-salmon related proposals.

The conferees understand the Secretary of Commerce has substantial legal obligations under the Endangered Species Act because no less than twenty-six runs of Pacific salmon are listed as endangered. Failure to make progress toward recovery under the Endangered Species Act poses adverse legal consequences for the agency. The conferees have received no assurances from the Administration that these funds have actually contributed to the recovery of Pacific salmon populations. This is particularly important at a time when the Department is struggling to respond to a tremendous litigation caseload.

The conferees understand that some mechanism is necessary to assure legal and fiscal accountability for distribution of funds to States with listed salmon species. In addition, the conferees direct NOAA to provide an annual report to the Committee no later than April 11, of each year on the projects funded through the Pacific Salmon Recovery Fund and their projected and actual results, particularly focusing on progress toward recovery of endangered and threatened salmon species and projected ending date for funding needs based on recovery schedules. The conferees allow up to one percent of the amounts made available for the grants to the states under the Pacific Coastal Salmon Recovery Fund be made available to NOAA to accomplish this task.

Saltonstall-Kennedy.—The conference agreement includes \$11,325,000 for the Saltonstall-Kennedy grant program, including prior-year unobligated funds. The conferees understand that NOAA has refocused the S-K program to address the needs of fishing communities as defined by the Magnuson-Stevens Act. The conferees understand that there is duplication between this program and the priorities identified in the accompanying NMFS table. Given the austere budget constraints that conferees are operating within, the conferees expect NMFS to award grants based on priorities and geographic areas that are not specifically identified elsewhere in this agreement.

Therefore, the conferees expect NOAA to prioritize grant proposals relating to fishing communities in non-specified areas including, the Northern Mariana Islands, the Republic of the Marshall Islands, Republic of Palau, the Federated States of Micronesia, and other similar areas. Grants should focus on preventing

over fishing, rebuilding of fisheries, and ensuring conservation, while realizing the full potential of fishery resources.

In addition, the conferees direct NOAA to assign high priority to proposals for research and education efforts directed at the protection of high-risk consumers from naturally occurring bacteria associated with raw molluscan shellfish, specifically *Vibrio vulnificus*. The conferees strongly urge NOAA to provide no less than \$250,000 to the Gulf and Atlantic Foundation for their education efforts regarding *Vibrio vulnificus*.

Louisiana Oyster Assistance.—The conferees include \$2,000,000 for economic assistance to the oyster fishery affected by Hurricane Isidore, and Hurricane Lili. The conferees direct that funding may be used only for activities to rehabilitate oyster resources or oyster reefs damaged by the storms and for domestic product marketing and seafood promotion.

OCEANIC AND ATMOSPHERIC RESEARCH

The conference agreement includes \$374,740,000 for the Oceanic and Atmospheric Research line office. This amount combined with \$4,920,000 from prior year unobligated balances provides a total program level of \$379,660,000. The conference agreement includes the following amounts for basic laboratory research and support under Oceanic and Atmospheric Research:

Climate Change Research.—The conference agreement includes a total of \$166,315,000 for climate change research, including \$18,000,000 for the Climate Change Research Initiative (CCRI), as proposed. This initiative provides increases over the fiscal year 2002 level as follows: \$1,000,000 for the ocean observations/ocean systems; \$3,000,000 for ARGO-related costs; \$1,000,000 for regional assessments, education, and outreach; \$2,000,000 for research on the carbon cycle; \$5,000,000 for the climate modeling center; \$4,000,000 for the global climate atmospheric observing system; and \$2,000,000 to study the aerosols/climate interaction.

Of the amounts provided, \$67,608,000 is available for competitively awarded grants, including grants to joint institutes, as determined by the Secretary of Commerce. In addition, \$1,000,000 is provided to continue a certain program in Arizona for regional climate change research.

Of the funding provided for climate and global change activities, \$12,000,000 shall only be available after the Committees on Appropriation are provided with a plan for completion of the national assessment required in section 106 of the Global Change Research Act of 1990. The plan should include a completion date for the national assessment of no later than September 30, 2004.

National Sea Grant Program.—The conference agreement includes \$62,410,000 for the Sea Grant program, of which \$2,000,000 is from prior year unobligated balances. The conference agreement does not include a proposal to transfer the program to the National Science Foundation. Instead, the recommendation appropriates the same level of funding as in fiscal year 2002 for the Sea Grant program, in accordance with the National Sea Grant Act, Public Law 89-688, as amended. Within the amounts provided, \$3,000,000 is included for zebra mussel research in accordance with the Non-indigenous Aquatic Nuisance Prevention and Control Act; \$3,000,000 is for oyster disease research, including \$1,000,000 to continue the Gulf of Mexico initiative on oyster-related human health risks.

National Undersea Research Program (NURP).—A total of \$13,770,000 is included for the National Undersea Research Program, of which \$220,000 is from prior year unobligated balances. The conferees direct that funding is to be equally split between the east coast NURP centers and the west coast NURP centers, including the Hawaiian and Pacific Center and the West Coast and Polar Regions Center. The conferees expect level funding will be available for Aquarius, ALVIN, and program administration.

NISA Alaska.—The conferees include \$1,500,000 to address the proliferation of exotic species such as Atlantic salmon in the marine environment in the North Pacific. Of this amount, \$750,000 is for the Pacific States Marine Fisheries Commission to prevent the

escapement of Atlantic salmon into Alaska streams and to address other invasive species issues including mitten crab and green crab.

NISA/Ballast Water Demonstrations.—The conference agreement includes \$2,250,000 for this program, of which \$1,900,000 is from unobligated balances. The conferees expect special attention should be given to the concerns of the Chesapeake Bay and the Great Lakes.

NATIONAL WEATHER SERVICE

The conference agreement includes total of \$698,767,000 for the operations of the National Weather Service (NWS) for fiscal year 2003.

Local Warnings and Forecasts—The conferees provide \$555,178,000 for local warnings and forecasts. Within the amounts provided, \$2,500,000 is to begin a new seven-year initiative to improve the accuracy and timeliness of aviation warnings and forecasts.

Of the amounts provided, the conferees direct the NWS to continue the Susquehanna River Basin gauges project and expand this program to include the Delaware River Basin.

The conferees have provided sufficient funding to continue operations of the Huntsville, Alabama center.

Air Quality Initiative—The conference agreement includes \$3,000,000 to complete the analysis of the air quality pilot program, finalize a concept of operations, and begin procurement of the information technology infrastructure necessary to support operational air quality forecasts by the end of fiscal year 2004. In addition, \$3,000,000 is provided to complete the operational implementation of a temperature forecasting pilot in New England. Funding should provide for the modernization 200 meteorological observing stations and for the operational use of high-resolution forecasts models at 8 sites in fiscal year 2003.

Flash floods.—The conferees direct NOAA to commission the National Academy of Sciences to conduct a study to assess the availability, performance, and capability of the NWS NEXRAD located on Sulphur Mountain in Ventura County, California to detect heavy precipitation and aid forecasters at the Los Angeles Weather Forecast Office in providing flash flood warnings and forecasts, and on the basis of that study, to provide the Under Secretary of Commerce for Oceans and Atmosphere with a report on the performance of that mission by the NWS. The report also should include any recommendations for improving the accuracy and timeliness of flash flood warnings in and around western Los Angeles and Ventura Counties, California.

Systems Operations & Maintenance—The conference agreement includes \$87,146,000 for systems operations and maintenance.

In addition, the conferees continue direction from prior years regarding Erie, Pennsylvania and Williston, North Dakota.

NATIONAL ENVIRONMENTAL SATELLITE, DATA AND INFORMATION
SERVICE

The conference agreement includes \$150,616,000 for the operational and research and development programs of the National Environmental Satellite, Data, and Information Service (NESDIS).

Environmental Satellite Observing Systems—The Committee recommendation has provided a total of \$86,168,000 for this account, including \$23,771,000 for product processing and distribution. Within the recommendation, \$1,500,000 is included for the Joint Center, and \$4,000,000 is for a global wind demonstration.

Data Centers and Information Services—The conference agreement includes \$64,448,000 for NOAA's Data Centers and Information Services, including \$15,850,000 for the climate database modernization efforts in Kentucky and West Virginia. The conferees restore funding for the regional climate centers, which was proposed for elimination. The conferees recognize the value of NOAA climate data centers as the U.S. repository for historical environmental data.

The conferees direct NESDIS to continue fiscal year 2002 current staffing levels at the Gilmore Creek Tracking Station in fiscal year 2003. NESDIS will provide a report to the Committees on Appropriations by March 1, 2003 on how it plans to implement the new National Polar Orbiting Environmental Satellite System and its plans for the Gilmore Creek Tracking Station including staffing projections.

Within the amounts provided, \$300,000 is to conduct a study to assess the feasibility, costs, and timing issues of the Fairmont, West Virginia location as a third site for physical storage of data from the CLASS program.

P-3 Upgrade	1,000
Total, Aircraft Services	15,800
Total, Marine and Aviation Operations	91,349
GRAND TOTAL PROGRAM SUPPORT - ORF	173,397

PROGRAM SUPPORT

The conference agreement includes \$173,397,000 for the Program Support line office. The conference agreement continues a limitation of the administrative costs of the agency to \$243,000,000. This limitation is in response to NOAA's practice of assessing certain programs and activities for the costs of managing those programs, including grant programs.

The recommendation includes \$91,349,000 for maritime and aviation fleet maintenance and operations. The recommendation provides sufficient funding for routine maintenance of the existing NOAA fleet.

Program Review.—The conferees laud the results of the Program Review Task Force (PRT) review. In fact, a number of the task forces' recommendations address longstanding concerns regarding the management of NOAA. For example, the grant process has been of particular interest to the conferees. Many of the conferees have heard complaints from grant recipients regarding unnecessary delays. For fiscal year 2002 alone, these delays contributed to \$462,566,000 in prior year funding remaining unspent. In a number of areas, the conferees have taken into account these unobligated balances when determining the fiscal year 2003 levels for certain programs. The conferees support the efforts of NOAA management to alleviate many of these problems.

Office Relocations.—The conferees direct the Department to submit quarterly reports providing details of all office moves, openings, reductions and closings, which will be considered as a reprogramming under section 605 of the Act. The conferees expect to be notified of office relocations before final agreements are made.

Pribilof Island Cleanup.—The recommendation includes \$8,000,000 for Pribilof Island cleanup. In 2000, Congress passed the Pribilof Islands Transition Act which created the framework under which NOAA was to complete the environmental cleanup of the property that it currently or formerly owned on the islands, and complete the transfer of that property to the designated local entities. Concern has been raised regarding the lack of a comprehensive cleanup plan, and firm cost estimates. The conferees direct NOAA to provide timetable and cost estimates to complete a cleanup and land transfer no later than April 11, 2003.

Minority Serving Institutions.—The conferees direct that this program be extended to Native Hawaiian Serving Institutions and Alaskan Native Serving Institutions as defined in the Higher Education Act.

Facilities.—The conference agreement includes \$1,000,000 for necessary improvements to the National Aquarium. The conferees expect the Department of Commerce to prepare a 20-year plan to upgrade the facility. The conferees expect a plan to be provided to the Committees on Appropriations no later than July 1, 2003.

GRAND TOTAL PAC	762,230

PROCUREMENT, ACQUISITION AND CONSTRUCTION
(INCLUDING TRANSFERS OF FUNDS)

The recommendation includes a programmatic level of \$832,230,000 for fiscal year 2003, of which \$762,230,000 is from new appropriations and \$70,000,000 is from prior year unobligated balances. The recommendation assumes \$3,200,000 from prior year deobligations. This account funds capital assets acquisition activities, including system and land acquisition, marine sanctuary and estuarine reserve construction, aircraft and vessel systems, and equipment.

The conferees have amended section 204 regarding reprogramming requirements to include all increases and decreases affecting capital assets. The following distribution reflects the activities funded within this account:

Coastal and Estuarine Land Conservation Program (CELP)—The conferees include \$37,667,000 for the land acquisition program. The conferees understand that regulations for this program have not yet been finalized. For the priorities identified by the conferees, the interim regulations will apply as in fiscal year 2002, including funding and match requirements. This program is intended to protect those coastal and estuarine areas with significant conservation, recreation, ecological, historical, or aesthetic value.

Marine Sanctuaries Construction.—Of the amounts provided, \$5,000,000 is for the final Federal costs of the efforts relating to the National Monitor sanctuary center.

National Marine Fisheries Service.—The conferees continue the aquatic resource program at the level of \$7,000,000.

Construction.—The conferees remain concerned that there is no long-term facility plan, including maintenance schedule for NOAA. A five-year plan for such purposes was requested during the fiscal year 2003 budget hearing before the House. To date, no plan has been provided. Further, there have been two separate incidents where NOAA has changed the scope of a funded project, including the location, without prior notification to the Committees on Appropriations. The conferees expect a final plan no later than June 30, 2003.

Geostationary Systems.—Under this heading, the conferees include \$221,391,000, as requested, of which \$50,000,000 is to be derived from unobligated prior year balances. The conferees understand that the launch readiness date for N, O, and P, has slipped by one year. In addition, the conferees understand that the earliest available launch date for the GOES-R series has been revised from 2010 to 2012. The most recent data available to the conferees reflect a total \$55,400,000 available from unobligated prior year balances to be used in fiscal year 2003 therefore, \$5,400,000 continues to be available for any unforeseen purposes.

Polar Orbiting Systems.—Under this heading, the conferees include \$347,538,000, as requested, of which \$25,000,000 is to be derived from unobligated prior year balances. The conferees understand that NOAA expects a ten-month delay in launching NOAA-M as a result of the unavailability of a launch pad site.

The National Polar Orbiting Operational Environmental Satellite System (NPOESS) is a joint program equally funded by the

Department of Commerce and the Department of Defense based upon a 1994 decision to integrate civil and military polar-orbiting meteorological satellites systems into a single national system. This decision created a 50/50 cost-sharing partnership between the two departments. Due to the concern raised by NPOESS program managers, the conference agreement continues language formalizing this cost-sharing partnership as in the fiscal year 2002. The conferees are aware that NOAA did not obligate \$10,200,000 of the amounts provided in fiscal year 2002 for NPOESS as a result of Department of Defense obligation decisions in fiscal year 2002.

Fleet Replacement.—The conference agreement includes \$50,874,000 for the second fisheries vessel. This vessel would replace the 40-year-old ALBATROS IV, as proposed. In addition, \$9,000,000 is provided to continue construction of small waterplane area twin hull vessel to be homeported in New Castle, New Hampshire.

Hurricane Surveillance Aircraft.—The conference agreement includes \$8,400,000 for necessary instrumentation upgrades to the Gulfstream IV to improve storm-tracking forecasts, as proposed.

PACIFIC COASTAL SALMON RECOVERY

The conference agreement includes \$130,000,000 under this heading. A total of \$40,000,000 is provided to fulfill the obligation of the United States under the 1999 Pacific Salmon Treaty between the United States and Canada. Specifically, \$25,000,000 is included to complete the capitalization of the Northern Boundary Fund, and \$15,000,000 is included to complete the capitalization of the Southern Boundary Fund. In addition, \$90,000,000 is provided for grants to California, Oregon, Washington, Alaska, and coastal and river tribes for habitat restoration.

Of the amounts provided for the states, \$28,000,000 is for the State of Washington, \$22,000,000 is for the State of Alaska, \$14,000,000 is for the State of Oregon, \$14,000,000 is for the State of California, \$9,000,000 is for the Pacific Coastal tribes, and \$3,000,000 is for the Columbia River tribes.

Of the funds provided for the State of Alaska, \$5,000,000 is for the Arctic Yukon-Kushokwim Sustainable Salmon initiative, \$1,000,000 is for construction of salmon mitigation passes, \$1,000,000 is for the Cook Inlet Fishing Community Assistance Program, \$500,000 is for the Yukon River Drainage Association, \$500,000 is for Fort Richardson fisheries, \$500,000 is for Elmendorf AFB hatcheries, \$500,000 is for Fort Wainwright fisheries, \$450,000 is for universal quality standards, \$450,000 is for competitive analysis of global salmon, \$250,000 is to restore the king salmon runs in Coffman Cove, \$250,000 is to enable the State of Alaska to participate in discussions regarding Columbia River hydro system management, \$2,000,000 is to restore salmon runs at Chester Creek, Ship Creek, and Campbell Creek in Anchorage, \$1,000,000 is to restore salmon runs in Seward, Alaska, and \$100,000 is for the United Fishermen of Alaska's subsistence program.

Of the funds provided for the State of Washington, \$4,000,000 is for the Washington State Department of Natural Resources and other State and Federal agencies for purposes of implementing the

State of Washington's Forest and Fish Report. The funding shall be spent in accordance with the terms and conditions of the Forest and Fish Report and consistent with the requirements of the Endangered Species and Clean Water Acts. Further, \$1,590,000 is for the purchase of two new mass marking trailers.

Of the funds provided to the State of Oregon, \$1,100,000 is for conservation mass marking at the Columbia River Hatcheries; and \$2,185,000 is for the purchase of two new and one used mass marking trailers.

Bill language is included designating the entire amount under the conservation category.

FISHERMEN'S CONTINGENCY FUND

The conference agreement includes a total program level of \$2,376,000, of which \$2,375,000 is from unobligated prior year funds.

The Fishermen's Contingency Fund provides compensation to U.S. fishermen for damage or loss of fishing gear and any resulting loss because of natural or man-made obstructions related to oil and gas exploration, development, and production on the Outer Continental Shelf.

FOREIGN FISHING OBSERVER FUND

The conference agreement includes \$1,833,000 under this heading, of which \$1,832,000 is from unobligated prior year funds.

Fees paid into the Fund are collected from owners and operators of certain foreign fishing vessels that fish within the United States Fishery Conservation Zone and are intended to be used by the Secretary of Commerce to finance the cost of placing United States observers aboard such fishing vessels.

FISHERIES FINANCE PROGRAM ACCOUNT

The conferees note that an appropriation is not necessary for the fisheries finance program account. Of the loan authority provided through bill language, \$5,000,000 is for entry level and small vessel individual fishery quota [IFQ] obligation guarantees in the halibut and sablefish fisheries off Alaska pursuant to section 1104A(a)(7) of the Merchant Marine Act of 1936. These funds are provided for IFQ loans in accordance with section 303(d)(4) of the Magnuson-Stevens Act and section 108(g) of the Sustainable Fisheries Act.

In addition, \$59,000,000 is for Traditional direct loan authority, of which \$40,000,000 may be used for the direct loans to the United States distant water tuna fleet.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement includes \$44,954,000 for costs of managing the Department of Commerce. The recommendation includes \$4,776,000 for the recurring costs for guard contracts, security equipment upgrades and an emergency communication system for the Herbert Clark Hoover Building originally funded with fiscal

year 2002 emergency supplemental appropriations; \$1,590,000 is for IT security increases; and \$1,200,000 is for continuity of operation efforts.

Telework Programs.—The conference agreement includes language, under section 208 to allow the Department of Commerce to carryover unused funds into the next fiscal year, saved as a consequence of the Department's implementation of telecommuting programs. Telecommuting programs offer the opportunity for cost-savings as well as increased productivity and employee morale. By allowing the Department to keep the savings from telecommuting, there should be a strong incentive for the Department to increase its number of telecommuters, as required by section 359 of Public Law 106–346. Telecommuting also can help improve traffic congestion, provide energy savings and improve air quality.

This appropriation provides for the Office of the Secretary and for staff offices of the Department, which assist in the formulation of policy, management, and administration.

Office Relocations.—The conference agreement continues to direct the Department to submit quarterly reports providing details of all office moves, opening, reductions and closing, which will be considered as a reprogramming under section 605 of the Act.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$20,635,000 for the Commerce Department's Office of Inspector General for fiscal year 2003.

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

The conference agreement includes the following General Provisions for the Department of Commerce:

Section 201.—The conference agreement includes section 201, included in both the House and Senate, regarding certification of advanced payments.

Section 202.—The conference agreement includes section 202, included in both the House and Senate, allowing funds for hire of passenger motor vehicles, and for services, uniforms and allowances as authorized by law.

Section 203.—The conference agreement includes section 203, included in both the House and Senate, making permanent a provision prohibiting of funds to be used to support hurricane reconnaissance aircraft and activities that are under the control of the United States Air Force or the United States Air Force Reserve. The House section did not propose to make this section permanent.

Section 204.—The conference agreement includes section 204, included in both the House and Senate, regarding transfer authority among Commerce Department appropriation accounts. The language also makes the transfers subject to the Committee's standard reprogramming procedures, including the acquisition and disposal of capital assets. The Senate did not contain a provision on the matter of capital assets.

Section 205.—The conference agreement includes section 205, included in the House, requiring that any costs incurred by the Department in response to funding reductions shall be absorbed with-

in the total budgetary resources available to the Department and shall not be subject to the reprogramming limitations in this Act. The Senate did not contain a similar provision.

Section 206.—The conference agreement includes section 206, included in both the House and Senate, making permanent a provision to allow the Secretary to award contracts for certain mapping and charting activities in accordance with the Federal Property and Administrative Services Act. The House did not make the provision permanent.

Section 207.—The conference agreement includes section 207, included in both the House and Senate, allowing the Department of Commerce franchise fund to retain a percentage of earnings from services provided for capital investments.

Section 208.—The conference agreement includes section 208, modified from a provision in the Senate, to provide \$28,260,000 within the “National Institute of Standards and Technology, Construction of Research Facilities” account, for five projects. The House did not contain a similar provision.

Section 209.—The conference agreement includes section 209, included in the Senate, to provide \$10,000,000 for an Alaskan Seafood marketing program. The House did not contain a similar provision.

Section 210.—The conference agreement includes section 210, included in the Senate, to authorize and appropriate \$50,000,000 for travel and tourism grant program. The House did not include a similar provision.

Section 211.—The conference agreement includes section 211, included in the Senate, to exempt two foreign-built cruise ships to engage in service between and among the islands of Hawaii. The section is modified to prohibit vessels access.

Section 212.—The conference agreement includes section 212, included in the Senate, designating requirements for a certain fishing capacity reduction program for the West Coast groundfish fishery. The House did not contain a similar provision.

Section 213.—The conference agreement includes section 213, a new provision, allowing the National Weather Service to engage in a certain lease arrangement to be funded from base resources.

Section 214.—The conference agreement includes section 214, a new provision, designating certain programs under the conservation category.

TITLE III—THE JUDICIARY

The conferees do not agree with the practice of the Judiciary of displaying significant program increases as adjustments to base. The conferees direct the Judiciary to discontinue this practice.

The conferees expect the Judiciary to submit a financial plan, allocating all sources of available funds including appropriations, fee collections, and carryover balances. The Judiciary should consider this financial plan to be the baseline for reprogramming and expects the plan to be submitted within 30 days after enactment of this Act.

SUPREME COURT OF THE UNITED STATES

SALARIES AND EXPENSES

The conference agreement includes \$45,743,000 for the salaries and expenses of the Supreme Court, as provided by the House, instead of \$44,399,000 as provided by the Senate. The conference agreement provides increases for information technology and security related initiatives.

The conferees are aware of continued concerns about the number of minority law clerks at the Supreme Court. The Conferees are appreciative of the Court's responsiveness in providing information regarding its hiring practices and encourages the Court and the Judicial Conference of the United States to continue to make progress in this matter.

CARE OF THE BUILDING AND GROUNDS

The conference agreement includes \$41,626,000 for the Supreme Court "Care of the Building and Grounds" account, as provided by the House, instead of \$53,304,000 as provided by the Senate. The conference agreement is \$12,000,000 below the request for the Supreme Court building renovation project. The conferees understand that these additional obligations will occur in subsequent fiscal years and therefore may be budgeted in those fiscal years.

The conferees recognize there are security concerns related to the building modernization project and the Architect of the Capitol is directed to ensure that the Court's security concerns are addressed throughout the procurement and construction of the project. The conferees direct the Architect of the Capitol to submit the Committees on Appropriations, no later than 60 days after enactment of this Act, a financial plan and schedule for this project.

UNITED STATES COURT OF APPEALS FOR THE FEDERAL CIRCUIT

SALARIES AND EXPENSES

The conference agreement includes \$20,313,000 for the United States Court of Appeals for the Federal Circuit, instead of \$20,490,000 as provided by the House and \$20,136,000 as provided by the Senate.

The conferees recognize that the Court has additional information technology and facility renovation requirements. However, the conferees also understand that between March 1992 and March 2001, filings have decreased by 13 percent. The conferees recommend the Court examine its base operating budget to identify funding that could be used to meet the Court's remaining information technology and facilities requirements. No funding is provided to establish a deputy circuit executive position.

UNITED STATES COURT OF INTERNATIONAL TRADE

SALARIES AND EXPENSES

The conference agreement includes \$13,687,000 for the U.S. Court of International Trade, as provided by the House, instead of \$13,529,000 as provided by the Senate. The conferees are pleased with the Court's utilization of the Judiciary Information Tech-

nology Fund to upgrade and enhance the Court's use of information technology without requiring additional appropriations.

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

SALARIES AND EXPENSES

The conference agreement provides \$3,800,000,000 for the salaries and expenses of the Courts of Appeals, District Courts and Other Judicial Services. Within the funding provided, the Conferees direct not less than \$10,000,000 for facilities enhancements to meet requirements associated with high threat trials and to upgrade the Judiciary's mail handling operations.

VACCINE INJURY COMPENSATION TRUST FUND

The conference agreement provides \$2,784,000 from the Vaccine Injury Compensation Trust Fund as provided by both the House and the Senate.

DEFENDER SERVICES

The conference agreement includes \$538,461,000 for the Federal Judiciary's Defender Services account, instead of \$545,129,000 as provided by the House and \$531,792,000 as provided by the Senate.

The conference agreement includes an increase of \$30,066,000 to annualize the panel attorney rate increase provided in fiscal year 2002. This increase brought panel attorney hourly rates up to \$90 for in-court and out-of-court hours. This was the first significant increase in private panel attorney hourly rates since 1986 and represents a 20 percent increase in the in-court rate and a 64 percent increase in the out-of-court rate.

In fiscal year 2003, the Judicial Conference requested an increase in the panel attorney rate to \$113 per hour, which if approved would amount to a 25 percent increase over the rate approved in fiscal year 2002. Because it was recently implemented, the Judicial Conference is unable to document the impact of the significant increase provided in fiscal year 2002 to determine if that rate is sufficient to solve the problem of obtaining adequate counsel for CJA representations. In addition, from 1987 to 2001, the Congress and the Judicial Conference provided a higher hourly rate in 16 districts than the standard rate provided in the other 78 lower-cost districts. The conferees understand that there continues to be disparities throughout the country in the costs to provide legal representation, and yet the Judicial Conference's requested \$113 hourly rate would reimburse panel attorneys at the same rate nationally.

Because of these uncertainties between localities, the size of the increase approved in fiscal year 2002, and the level of funding required to annualize this increase in fiscal year 2003, the conference agreement does not include the requested additional increase in the hourly rate this fiscal year. The conferees expect the Judicial Conference, before requesting any future rate increases, to consider the concerns described above. The conferees also expect

any future rate increases requested above inflation to be justified as a program increase.

FEES OF JURORS AND COMMISSIONERS

The conference agreement includes \$54,636,000 for Fees of Jurors and Commissioners, as provided by the House and Senate.

COURT SECURITY

The conference agreement includes \$268,400,000 for the Federal Judiciary's Court Security Account, instead of \$286,200,000 as provided by the House and \$276,342,000 as provided by the Senate. In addition, the conference agreement includes \$15,800,000 in the U.S. Marshals Service, Salaries and Expenses account for supervisory deputy marshals previously funded in this account.

In order to address the courts' security requirements, funding for this program has increased by approximately 50 percent since fiscal year 2001. However, the conferees are concerned that as the program has grown, sufficient attention has not been provided to program and budget administration, especially oversight of court security officer funding, positions and full-time equivalents. The conferees expect that the funding provided in the conference agreement will significantly improve this deficiency.

The conferees understand that this is a unique account appropriated to the Judiciary but primarily managed by the Department of Justice. The Committee expects the Director of the U.S. Marshals Service to provide the same level of budgetary and program oversight to this program as programs appropriated directly to the U.S. Marshals Service.

Within the level of funding provided, the conferees direct U.S. Marshals Service to conduct a study with an independent consultant on the management of this program and the unique relationship between the Federal Judiciary, the U.S. Marshals Service, and the Federal Protective Service in administering this program and providing facilities security for the Judiciary.

The conferees expect future budget justifications to clearly display the level and types of court security equipment and systems requested compared to the current year.

Within the level of funding provided, \$1,000,000 shall be transferred to the U.S. Marshals Service for a courthouse security survey to be conducted by the Judicial Security Division/Judicial Security Systems personnel.

Following the September 11th and anthrax attacks, the Judiciary was directed in the Conference Report accompanying Public Law 107-117, to consider establishing a court operations support center located outside of Washington, D.C. The Judiciary's study, conducted by an independent expert and endorsed by the Judicial Conference, recommends establishing a small leased facility at least 20 miles outside of Washington, D.C. This facility would help ensure continuity of operations in the event that administrative and automation support functions are shut down as a result of the closure of the Thurgood Marshal Federal Judiciary Building (TMFJB). The Judiciary's study recommends transferring portions of the courts' payroll processing, financial disbursing, and information technology support to this new facility. The study also rec-

ommends that this facility be within a reasonable travel range of the TMFJB so that it can be utilized by essential Administrative Office and court staff in the event that certain facilities located in Washington D.C. are shut down. The conferees direct the Judiciary to establish a judiciary automation and communications operations facility consistent with its study at an economically feasible location. The conferees expect costs of this facility to be absorbed within existing available resources as proposed by the Judiciary. The conferees encourage the Judiciary to find alternative uses for the facility during non-emergency periods. However, the primary design goal of the facility should be continuity of operations. As recommended in the study, the conferees direct the Judiciary to provide telework opportunities at this facility.

As discussed in the beginning of Title III, a financial plan is required to be submitted for this program.

ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

SALARIES AND EXPENSES

The conference agreement includes \$63,500,000 for the Administrative Office of the United States Courts.

FEDERAL JUDICIAL CENTER

SALARIES AND EXPENSES

The conference agreement includes \$20,856,000 for salaries and expenses of the Federal Judicial Center as provided by the House, instead of \$20,156,000 as provided by the Senate.

JUDICIAL RETIREMENT FUNDS

PAYMENT TO JUDICARY TRUST FUNDS

The conference agreement includes \$35,300,000 for payment to various judicial retirement funds, as provided by both the House and Senate.

UNITED STATES SENTENCING COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$12,090,000 for the U.S. Sentencing Commission, instead of \$12,344,000 as provided by the House and \$11,835,000 as provided by the Senate. As part of the financial plan discussed at the beginning of this title, the Commission is directed to provide plan for the utilization of carryover balances.

GENERAL PROVISIONS—THE JUDICIARY

Section 301.—The conference agreement includes a provision included by both the House and Senate allowing appropriations to be used for services as authorized by 5 U.S.C. 3109.

Section 302.—The conference agreement includes a provision included in the House related to the transfer of funds. The Senate included a similar provision.

Section 303.—The conference agreement includes a provision included in by the House allowing up to \$11,000 of salaries and expenses provided in this title to be used for official representation expenses of the Judicial Conference of the United States. The Senate included a similar provision.

TITLE IV—DEPARTMENT OF STATE AND RELATED AGENCY

In total, the conference agreement includes \$7,900,660,000 for the Department of State and the Broadcasting Board of Governors. Of the total amount provided, \$7,762,460,000 is derived from general purpose discretionary funds and \$138,200,000 is scored as mandatory spending. This funding level includes significant program increases to improve diplomatic readiness and security. The conference agreement includes the full amount requested, \$1,308,000,000, to continue worldwide security activities, including the design and construction of replacement facilities for the most vulnerable overseas posts.

DEPARTMENT OF STATE

The conference agreement for the Department of State is intended to continue the Department's efforts to achieve diplomatic readiness, strengthen diplomatic and border security, and to institute sweeping management reforms. In fiscal year 2002, the Congress enacted an appropriations increase of 16.8 percent to the Department's operating budget, including funding to support the hiring and training of an additional 910 employees.

The conference agreement includes a total of \$7,394,026,000 for fiscal year 2003 for the Department of State. Of the total amount provided, \$7,255,826,000 is derived from general purpose discretionary funds and \$138,200,000 is scored as mandatory spending. The overall funding level for fiscal year 2003 represents an additional 8.6 percent increase to the operating budget, which will support up to 585 additional new positions. The conferees expect that this funding level will allow the Department to meet critical embassy security and staffing requirements, modernize its technology and equipment, and continue vigorous management reform initiatives to right-size America's overseas presence.

The conference agreement includes a total of \$5,587,293,000 for the discretionary appropriation accounts under Administration of Foreign Affairs; \$1,539,710,000 for International Organizations and Conferences; \$57,504,000 for International Commissions; and \$71,319,000 for Other activities. The conferees' priorities for the Department of State are delineated in the following paragraphs.

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

The conference agreement includes \$3,822,258,000 for the Diplomatic and Consular Programs account, including \$553,000,000 to continue funding for worldwide security upgrades and \$292,693,000 for public diplomacy programs. The conference agreement represents an increase of \$192,246,000 above the fiscal year 2002 appropriation. Within this total, the funding level for worldwide secu-

rity upgrades is \$65,265,000 above the fiscal year 2002 level and the same amount as requested.

This appropriation provides for the formulation and execution of United States foreign policy, including the conduct of diplomatic and consular relations with foreign countries, diplomatic relations with international organizations, and related activities. The account includes funding for all of the program and operations bureaus and offices of the Department of State and the Foreign Service.

The conference agreement includes funding for program activities described below:

Diplomatic Readiness Initiatives.—The conference agreement includes a program increase of \$70,000,000 for the diplomatic readiness initiative to support the hiring and training of approximately 399 new foreign service and civil service employees. Before obligation of these funds the Department shall provide the Committees, through the regular reprogramming process, a comprehensive spending and staffing plan accompanied by materials demonstrating any and all right-sizing analyses and actions taken worldwide since the issuance of the Overseas Presence Advisory Panel report in 1999. The Department may propose, through the reprogramming process, to reallocate funding under the diplomatic readiness initiative for critical foreign national hiring needs. The conferees expect that the highest priority will be placed on new positions in Near East and South Asia. The program increase described below for public diplomacy includes funding for additional foreign national public diplomacy staffing overseas.

Public Diplomacy Programs.—The conference agreement includes language specifying that \$292,693,000 is available only for Public Diplomacy programs. The integration of the United States Information Agency into the State Department in fiscal year 2000 resulted in public diplomacy resources being spread across several different bureaus. The conferees believe that separately identifying total resource levels will facilitate the Committees' ability to monitor funding levels and trends for these activities. The amount identified for public diplomacy programs includes the costs of personnel and programs throughout the Department. The conferees expect the Department to identify all organizational impediments to optimal performance of public diplomacy programs, and propose the necessary changes through the reprogramming process.

The conference agreement includes a program increase of \$10,300,000 for public diplomacy programs. This funding will support expansion of InfoUSA content, and other internet-based information programs, including the translation of content into Arabic and South Asian languages, as well as the continuation of programs in the Arab and Muslim world initiated with fiscal year 2002 supplemental funding. This funding will also support surveys and research to improve effectiveness of public diplomacy programs, and increased local staffing worldwide.

The conferees acknowledge the critical role that public diplomacy will play in the global war against terror. The Department will not be successful in its important public diplomacy mission unless it is guided by a comprehensive, sustained strategy for program execution. The Department is directed to submit a Public Di-

plomacy Strategy to the Committees on Appropriations no later than June 1, 2003. The conferees understand that the need for interagency coordination in international public information programs has resulted in the creation of the White House Office of Global Communications. The use of any funds provided to the Department of State under this Act or any prior Act for initiatives or programs of the Office of Global Communications must be approved in advance by the Committees on Appropriations.

Africa Policy Advisory Panel.—The conference agreement includes language authorizing the Secretary to create an Africa Policy Advisory Panel, and provides up to \$500,000 to fund related costs. The conferees expect that this panel will be appointed by the Secretary and will deliver its final report to the Secretary no later than one year from the enactment of this Act. The conferees believe that the U.S. Government too frequently fails to devote sufficient attention and resources to African affairs. African nations today face enormous obstacles to development and political stability. The United States has a vital national interest in helping African nations to develop workable solutions to provide people with freedom, economic opportunity, and functioning governments.

The conferees expect that the establishment of this panel will generate greater interest in the importance of Sub-Saharan Africa. In calling for this panel, the conferees recognize the complex issues facing Africa and the limited budgetary resources available to help policymakers address these problems.

The conferees acknowledge the Department's increased efforts in these areas, including the strengthening of the trading relationships spawned by the African Growth and Trade Act, substantially increasing two-way trade with Africa, launching a Sovereign Credit Rating Initiative, increased HIV/AIDS funding, programs to enhance African peacekeeping capabilities, support for UN and regional peacekeeping efforts, and assistance in ending conflicts continent-wide, including in the Sudan and in the Democratic Republic of the Congo.

Assertive engagement between Africa and the United States is vital to U.S. interest and necessary. Africa is a key player in our global war against international terrorism. Africa is also a key supplier of crucial resources, including oil. The most serious challenge facing Africa today is the AIDS pandemic: its social, economic, and political impact will be devastating for millions of Africans for years to come. In the past decade alone an estimated 17 million Africans died of AIDS. Of the 40 million people infected with HIV worldwide, an estimated 28 million are in sub-Saharan Africa. Civil war continues to plague the continent. The conflict in Sudan continues unabated with two million killed and four million displaced.

It is critically important to strengthen our relations with Africa and formulate a coherent, effective Africa policy. An Africa Policy Advisory Panel could help meet these objectives and explore related issues, including how the United States can most effectively assist in the fight against AIDS/HIV and other infectious deadly diseases in Africa; what role the United States should play in conflict prevention and resolution in Africa; how the United States can use its economic and development assistance more effectively; how the United States should approach recurring natural and man-made

humanitarian crisis; what specific measures the United States can take to promote democracy, human rights, religious tolerance, and a free press in Africa; how the United States can help strengthen Africa's institutional capacity to fight international terrorism effectively, and U.S.-Africa security relations; what specific measures the United States can take to increase trade and investment between Africa and the United States.

The conferees expect that this panel will take a fresh look at U.S. policy in the region, focus more attention to the importance of U.S.-African affairs, and make recommendations to the Secretary for specific action.

Trafficking in Persons.—The conferees continue to be concerned about the serious problem of international trafficking in persons. The conferees note the important role given to the Department to monitor and combat trafficking in persons in the Victims of Trafficking and Violence Protection Act of 2000 (Public Law 106–386), and the establishment of the Office to Monitor and Combat Trafficking in Persons (TIP Office) within the Department. The conference agreement includes the costs to continue the operations of this office.

The conferees believe that there must be increased coordination among executive branch agencies and even within the Department of State with respect to the implementation of the Trafficking Victims Prevention Act of 2000 (Public Law 106–386). While the Committee recognizes that efforts have been made by the Interagency Task Force to establish a lower level group of the Senior Policy Advisers' Group, chaired by the Undersecretary of State for Global Affairs, the Department needs to better coordinate day-to-day activities to implement the Act. Current efforts by the Office to Monitor and Combat Trafficking to fulfill a similar function are impeded by the inability to obtain full participation and cooperation from other agencies and offices involved in addressing this critical area. In particular, the Committee is concerned that at times there is unnecessary duplication among the agencies that implement the program and inconsistent or uncoordinated approaches to combating the heinous abuses inherent in trafficking in persons.

In order to improve accountability for government-wide anti-trafficking policies, the conference agreement includes language establishing a Senior Policy Operating Group, chaired by the Director of the Office to Monitor and Combat Trafficking, who will have enhanced responsibility to help coordinate these programs. It will also provide the Committees and others in Congress a central point to obtain information and affect anti-trafficking programs administered by the U.S. Government. The conferees also expect that such a group will ensure that scarce resources are wisely used. The conferees believe that U.S. Government anti-trafficking programs should deliver coordinated, effective assistance to address all three areas of prevention, protection and prosecution, and such programs should focus on both sex trafficking and trafficking involving labor slavery, just as the Act addresses all such trafficking abuses.

The conferees do not intend to transfer ultimate agency decision-making power to the Operating Group. Its establishment is intended, however, to ensure active interagency discussion and full interagency coordination before and after agency decisions are

made regarding significant actions to combat trafficking and to implement the Trafficking Victims Protection Act of 2000. Where grants are awarded by an agency's field offices abroad, the Operating Group will have to work out a mechanism to ensure that the making of such grants is not impeded while ensuring coordination between the agencies involved and the Operating Group.

Within the amount provided under this heading, the conferees expect the Department to provide sufficient staff positions from within Global Affairs to the TIP Office to assist in the production of the Department's annual report on trafficking in persons. In addition, the recommendation includes an increase of \$500,000 for grants to the participating organizations in the War Against Trafficking Alliance for activities and services related to preparation, execution and follow-up for an international conference on sex trafficking to be held in Washington, DC. This conference will bring additional international attention to the issues related to sex trafficking, and will be an opportunity to network, share best practices, and develop international plans of action on prevention, prosecution and protection.

Facilities.—The conference agreement includes \$30,448,000 for facilities-related initiatives. This includes \$14,000,000 for the relocation and housing of the staff of the United States Mission to the United Nations in temporary space in anticipation of the construction of a new headquarters building. The funding level also includes an increase of \$16,448,000, and a total funding level of \$31,305,000, to continue the renovation and expansion of the Charleston Financial Services Complex and to cover consolidation costs for functions moving from Washington and the Financial Services Center in Bangkok.

Availability of Reports.—The conferees recommend that each U.S. Embassy translate into the official language of the host country the report for the host country from the "Country Reports on Human Rights Practices", the "Annual Report on International Religious Freedom", and the "Trafficking in Persons Report" within 30 days of issuance, and post those documents on the embassy website along with the English version.

NATO Interparliamentary Assembly.—The conference agreement includes such funds as necessary for costs associated with fulfilling United States responsibilities with regard to hosting the NATO Interparliamentary Assembly in 2003.

Interagency Task Force.—The conference agreement includes such funds as necessary for costs associated with the establishment of a U.S. Government interagency task force to monitor the United Nations headquarters renovation project.

Worldwide Security Upgrades.—The conference agreement includes \$553,000,000, the full amount requested under Diplomatic and Consular Programs, for the costs of worldwide security upgrades. This funding includes \$418,501,000 to provide full year costs of maintaining base security activities at current levels. These activities include guard services, physical security equipment, armored vehicles, personnel, training and wireless communications.

In addition, the conference agreement includes \$74,000,000 to continue the perimeter/compound security initiative. Through fiscal year 2002, upgrades had been completed at 115 posts. With this

funding and additional funding under the Embassy Security, Construction and Maintenance account, upgrades will be completed at an additional 71 posts. The remaining 57 posts are scheduled for completion in fiscal year 2004.

The conference agreement also includes \$21,000,000 for domestic technical and physical security upgrades, \$17,302,000 to improve response to terrorist incidents and potential usage of chemical and biological weapons, and \$22,197,000 to support additional positions in the Bureau of Diplomatic Security, including security engineers, security technicians, and civil service support staff. This increase is on top of 389 new positions provided in fiscal year 2002, which included 277 special agents, 13 security engineers, 18 security technicians and 81 civil service support staff. This staffing increase will ensure that sufficient resources are allocated to address continuing high threat levels overseas, to improve the management of overseas security improvement programs, and also to maintain domestic protective and other responsibilities. The Department shall submit a detailed spending plan by March 1, 2002, for the entire amount provided for worldwide security upgrades, subject to the regular reprogramming requirements. This spending plan shall include a complete and thorough accounting of prior year security funds.

Right-Sizing the U.S. Government Presence Overseas.—The conferees expect the Department to continue efforts to develop interagency mechanisms to better coordinate, rationalize and manage the overall deployment of U.S. Government personnel overseas. The conferees continue to expect that right-sizing can result in significant overall budget savings. Right-sizing is also discussed under the Embassy Security, Construction and Maintenance account.

Border Security Program.—The Department's budget request includes funding of \$642,731,000 for the Department's Border Security program, to be entirely funded through collection of Machine Readable Visa fees. Since the submission of that budget request there has been a decline in fee revenue resulting from a reduction in the number of visa applications received. In addition, changes in programmatic emphasis have resulted from new laws as well as Departmental reviews of consular processes, procedures and policies.

These factors have led the Department to propose a new fiscal year 2003 budget for the Border Security Program totaling \$616,821,000, a reduction of \$25,910,000 from the original requested level. This adjusted level of operations includes a program increase of 52 new consular positions, reflecting projected workload increases in relation to visa applications, passport adjudications, citizen services and associated management. The new budget estimate includes \$70,100,000, an increase of \$15,000,000 over the original estimate, in the modernization and support area. This increase will fund software development to implement collection of a biometric in the visa and to support an expanded data share requirement with other agencies.

The conferees urge the Department to continue to work on an interagency basis to strengthen the visa process to make it an effective anti-terrorism tool, while avoiding the creation of unnecessary barriers or delays to legitimate travel to the United States. In

this regard, the conferees expect the Department to submit a report by March 31, 2003, detailing all the changes to the visa application review process since September 11, 2001, and establishing a program spending plan and timetable for any further improvements or enhancements.

Based on information from the Department, the conferees estimate there will be \$89,727,000 in carryover funds from fiscal year 2002 available to support the fiscal year 2003 program. The conferees continue to support Bureau of Consular Affairs efforts to implement the diversity visa program.

Saudi Arabia.—The conferees are gravely disappointed by reports that American citizens seeking refuge and assistance have been turned away at the U.S. Embassy in Riyadh, Saudi Arabia. The conferees expect the Department and the Embassy to follow the stated Department goal to support U.S. citizens abroad and those concerned about them in the United States, and to take every step possible within current law to ensure that any American citizens seeking refuge in similar cases are not treated in a similar fashion.

Minority Recruitment and Hiring.—The Department is directed to provide \$1,500,000 to continue its educational partnership begun in fiscal year 2001 with Hostos Community College and Columbia University in New York. This model program will support the Department's ongoing efforts to increase minority hiring and diversity by facilitating the preparation of non-traditional and minority students for careers in the Foreign Service and the State Department. The conferees also expect the Department to continue base funding for an ongoing partnership with Howard University. With regard to this partnership, the funding is provided to support the Department's efforts to enhance the diversity of the U.S. diplomatic corps by increasing the number of underrepresented minorities in foreign relations and international affairs careers. These resources are to continue and expand the successful collaborative partnership between the Department and Howard University to recruit and prepare students from various institutions with large minority populations for positions in the U.S. Foreign Service.

Overseas Schools.—The conferees commend the Consolidated Overseas Schools Assistance Program for its effective work in improving the quality of education for children of U.S. citizens living overseas. The program fulfills a dual purpose of providing a high quality, American-style education for children of U.S. citizens assigned overseas and introducing the best in American educational practices to children of and educators of other nations. In addition, the conferees commend the Overseas Schools Advisory Council, which helps bring educational excellence to American-sponsored overseas schools through the enhancement projects of the Council's annual Educational Assistance Program. Further, the Council successfully encourages financial support to these schools from U.S. corporations and foundations, as well as volunteer participation in activities of the schools by U.S. firms' overseas employees and their spouses.

Office of Defense Trade Controls (ODTC).—The conferees note the efforts of the ODTC to streamline licensing processes and to reduce response times without compromising national security. How-

ever, despite improvements, the conferees remain concerned that compliance with existing regulations is increasingly problematic for small businesses, and has contributed to a drop-off in foreign sales for the U.S. satellite industry. The conferees are aware of additional concerns that some small businesses active in the manufacture and export of defense articles are unaware of the existence of the ODTC and export regulations. To deal with these concerns, the conferees expect the ODTC, within the level of funding provided under this account, to provide a point of contact and start-up guidance to small businesses and other new registrants, and to ensure they receive appropriate consideration. In addition, ODTC should develop training tools accessible to such small businesses, and other outreach efforts, as appropriate.

Extradition.—The conferees expect the Department to work with the Department of Justice to bolster efforts to negotiate effective extradition treaties.

Security of Classified Material.—Consistent with the report submitted to the Committees on Appropriations in 2002 regarding the number of containers used for storage of classified material that are not in compliance with Federal specifications, the recommendation includes such sums as necessary to continue efforts to replace such locks.

Art in Embassies.—The conferees support efforts to conduct collaborative art projects for display on-site at U.S. Embassies. Such projects can create a low-cost medium for dialogue and interaction, and can increase understanding of common interests and the free exchange of ideas. Within available funds, up to \$1,000,000 may be used for this initiative.

New Post Openings.—The conferees are concerned that the Department is taking actions to establish new overseas posts before any request is transmitted to the appropriate Congressional committees, thereby undermining the purposes of Congressional review and Committee reprogramming requirements. The conferees remind the Department that the establishment of a new Department Office or post overseas is subject to section 605 reprogramming procedures. The conferees expect that any such proposals will, whenever possible, be included in the Department's annual budget submission, and will include a full accounting of the anticipated costs of such proposals. The Conferees remind the Department that decisions by the Committees on Appropriations to open new posts are based on overall U.S. foreign policy objectives, right-sizing considerations, and on the resource limitations of the Department. Such decisions are made irrespective of any unofficial or unauthorized presence the post might have established prior to the Department's submission of a formal request to the Committees on Appropriations.

Security Training and Enhancements.—Explosive growth in numbers of personnel in the Bureau of Diplomatic Security [DS] has created an imbalance between seasoned and unseasoned agents that can only be solved with time. The total number of DS agents now stands at 1,150, with just under half of these agents having been hired in fiscal years 2001 and 2002. The Committee therefore directs that DS utilize a portion of the funding provided under Frontline Security Readiness for the training of new agents.

Additionally, the conferees remain concerned about the Department's decisions relating to the placement of DS agents. This is a time of heightened threat to our overseas posts, as demonstrated by recent attacks against U.S. diplomatic and military installations around the world. Given this security environment, the conferees are concerned that too few agents are stationed overseas compared with the number on assignment in the United States. The conferees direct the Secretary of State to submit a staffing plan for the Bureau of Diplomatic Security to the Committees on Appropriations by June 1, 2003.

At this time of heightened threat to American posts abroad, the benefits of the security enhancement funds the Committees have provided to the Department since the Dar and Nairobi bombings in 1998 are being realized. The most recent indicator of improved physical security at U.S. posts overseas came on June 14, 2002, when a suicide bomber detonated a 500-pound fertilizer bomb outside the U.S. Consulate General in Karachi. The physical damage to the building was minimized due to recent security upgrades to the embassy compound. The Consulate's perimeter wall had recently been reinforced, and barriers installed between the wall and the street prevented the vehicle from reaching the building. Shatter resistant window film also significantly mitigated damage from the blast. An earlier reconfiguration of interior office space, undertaken to provide additional blast separation, also proved helpful. Continual security upgrades to existing properties are as important as the Department's Capital Security Construction program. Accordingly, the conference report includes full funding for worldwide security upgrades.

Host country relations.—The conference agreement includes up to \$2,000,000 out of available funds to continue the Ambassador's Fund for Cultural Preservation. U.S. Ambassadors serving in less developed countries may submit competitive proposals for awards for one-time or recurring projects. Awards will be based on the importance of the site, the country's need, and the potential of the award to make a meaningful contribution to the preservation of the site, object, or form of expression. The Department is directed to submit an annual report to the Committees on Appropriations on winning projects.

International Center for Muslim-Western Dialogue.—The conference agreement for the Embassy Security Construction and Maintenance account includes funding for the restoration of the original U.S. consular facility in Istanbul, Turkey. The conferees direct that the facility be used as an International Center for Muslim-Western Dialogue, the mission of which shall be to promote democracy. The conferees direct the Secretary to collaborate with existing non-profit organizations that focus on Western-Muslim relations such as the Asia Foundation, the National Endowment for Democracy, and other U.S.-based centers for Islamic studies in developing a plan for the creation and administration of the Center. The conferees encourage the non-profit organizations involved in the planning of the Center to play a continuing role both in the administration of the Center and in the execution of its programs. The Department is directed to submit this plan to the Committees on Appropriations no later than September 1, 2003.

Language training.—Several reports have identified a serious shortage within the Federal Government of personnel who possess the language skills required for their positions. This challenge appears particularly acute at the Department of State where language skills are directly linked to the execution of the Core Missions. Reliable aggregate data on the language capabilities of Foreign Service Officers [FSOs] is, however, not generally available or, when available, is seriously flawed. The Department has indicated that the primary factor contributing to its inability to meet its language staffing and proficiency goals is an overall staffing shortfall of more than 1,100 people, as identified in the Department's Diplomatic Hiring Report. This report led the Department to propose the Diplomatic Readiness Initiative, a program under which a projected 1,158 new Foreign Service Officers will be hired over a 3-year period. However, the Diplomatic Readiness Initiative does little to address the specific problem of language proficiency at the Department. Funds available for salaries should be leveraged to provide pay incentives to FSOs who gain expertise in hard-to-learn languages, to provide an attractive career path for linguists, to enhance the retention of FSOs with desired language skills, and to provide ample training opportunities to FSOs willing to learn a difficult language mid-career. Funds provided for workforce retention should also be utilized to recruit native speakers of difficult and hard to fill languages, drawing upon the vast human resources afforded by a demographically diverse United States. Language proficiency must be a criterion in the selection of FSOs. If our diplomats truly are our "first line of defense" against foreign threats, then their ability to converse fluently in the languages of the countries to which they are posted is critical to national security. The conferees direct the Department to develop a plan to address the problem of foreign language proficiency, particularly as it concerns difficult languages, and to submit the plan to the Committees on Appropriations no later than July 1, 2003. The conferees further direct the Department to collaborate with the Committees during the preparation of the fiscal year 2004 appropriations bill so that immediate funding requirements associated with improving foreign language proficiency can be met as soon as possible.

Continuing language education.—Language skills ensure that dependents of Department of State personnel are not overwhelmed by isolation and alienation, resulting in lowered post morale. The conference agreement includes up to \$10,000,000 for continuing language education programs for both employees and dependents at posts worldwide. Language classes should also be open to non-State Department (Federal) employees on a space-available, reimbursable basis.

Office of Foreign Missions.—The conferees are aware of concerns that the Office of Foreign Missions [OFM] may be more appropriately aligned organizationally with other management functions, rather than with the Bureau of Diplomatic Security. The conferees expect the Department to submit a report to the Committees by June 1, 2003, reassessing organizational issues with regard to OFM, and including any recommendations for changes.

International conservation of sea turtles.—The conferees remain concerned with the increasing threat to sea turtles, particu-

larly those listed under the Convention on International Trade on Endangered Species of Wild Fauna and Flora [CITES], from incidental capture by foreign fishing fleets, particularly in the longline fishery. The Department has ignored Committee direction for the past 2 years. Specifically, the Department ignored direction stating that the Secretary should, on an expedited basis, negotiate strong, enforceable management, reporting, and data collection measures (including economic measures) focused on reducing incidental capture of sea turtles in commercial fisheries under regional management agreements for living marine resources. These agreements include the Inter-American Sea Turtle Conservation Treaty, the Inter-American Tropical Tuna Convention, the International Convention for the Conservation of Atlantic Tunas, and the Convention on the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean (the Multilateral High Level Conference). The conferees are concerned that no international agreements specifically addressing turtle by-catch from longline fishing have been negotiated, and the Department has negotiated only voluntary initiatives rather than binding agreements to this end.

The conferees expect the Secretary, in cooperation with the Secretary of Commerce, to use all appropriate means available to broaden the participation of other nations in the Convention on the Conservation and Management of Highly Migratory Species in the Western and Central Pacific Ocean. Of the funding provided for the Bureau of Oceans and International Environmental and Scientific Affairs, not less than \$750,000 shall be for negotiating, in consultation with the Department of Commerce, a binding agreement providing for annual reductions in sea turtle mortality in the longline fisheries of the Western and Central Pacific, that shall, by 2008, result in at least a 30 percent reduction in takes, and thereafter result in such fisheries meeting sea turtle take levels comparable to those achieved by the U.S. longline fleet.

Conservation enhancements.—The conferees are concerned that non-U.S. parties to the International Dolphin Conservation Program (IDCP), of which the United States is a member, are not fully complying with the requirements of the IDCP, particularly with respect to accurate reporting of dolphin interactions and mortality. The conferees expect the Department, in conjunction with the Department of Commerce, and in consultation with key U.S. stakeholders, to evaluate and document any lack of compliance by the non-U.S. parties to the IDCP with its provisions, including through on-site visits and discussions with government officials, observers and others with first-hand knowledge of country practices, and to submit a written report describing the findings to the Committees no later than September 30, 2003. The report should include an evaluation of compliance with the on-board observer program, including a comparison of the reporting frequency of national observers as compared to IATTC observers; reporting of dolphin interactions and mortality; operational requirements for vessels; the extent to which vessels with a carrying capacity of 400 short tons or less are setting on dolphins, and actions by parties to report and follow-up on infractions identified by the international review panel. The conferees also expect the Department, in conjunction

with the Department of Commerce, to seek measures to strengthen the IDCP to reduce impacts from setting on dolphin populations in the ETP other than reported mortalities, including expanding the application of the IATTC observer program to include vessels with a carrying capacity of 400 short tons or less, requiring measures that will reduce cow-calf separation, limiting the number of sets on dolphins, and limiting the dolphin herd sizes on which sets are made. Of the funding provided for the Bureau of Oceans and International Environmental and Scientific Affairs, not less than \$750,000 is for these negotiations.

International trade.—In past years the Department has attempted to pursue enhancements for international trade activities that fall more appropriately under the jurisdiction of the Commerce Department's International Trade Administration, and in particular under the jurisdiction of the United States and Foreign Commercial Service. The conference agreement does not include funding for any new initiatives with regard to expansion of international trade activities. In addition, the conferees expect that the Department will not unnecessarily impede any legal and appropriate technical discussions between the United States Department of Agriculture and Cuba's Agriculture ministry regarding health standard certifications for agricultural products exported from the United States to Cuba.

Secure Card Technology.—The conferees are aware that the U.S. Embassy in Mexico City began issuing secure laser visa border crossing cards to Mexican visitors in May, 2002. The conferees direct the Department, in consultation with the Immigration and Naturalization Service, to report no later than May 5, 2003 on the success of this secure visa issuance program in Mexico City. The report should provide recommendations to the Committees regarding the expansion of this visa issuance process to all visa types and the potential for application of the secure card technology at U.S. foreign missions.

Fingerprint services.—The conferees expect U.S. embassies and consulates with fingerprinting capabilities to fingerprint aliens seeking first-time flight training in aircraft weighing 12,500 pounds or more and transmit those fingerprints to the Department of Justice and other relevant agencies for the purposes of checking fingerprints against appropriate terrorist watch-lists.

International Child Abductions.—The conferees remain concerned about the adequacy of the Department's efforts to counter the serious problem of international child abductions. Within 90 days of enactment of this Act, the Department is directed to submit a report to the Committees on Appropriations which includes the following information: the country, location, and number of all known U.S. citizens under the age of 18 who have been abducted by a parent or relative as the result of a custody dispute and who are being held abroad in contravention of U.S. laws or judicial orders; a summary of actions taken by the Department of State to secure the repatriation of abducted American children; and a list of diplomatic measures, including treaties and agreements, that can be used to facilitate the repatriation of abducted American children. The conferees expect the Department to complete and release the State Department's report on compliance with the Hague Con-

vention on the International Aspects of Child Abduction. The Hague Convention, which the United States and many of our Allies have signed, is in place to facilitate the return of internationally abducted children to their countries of "habitual residence" for custody determination. The conferees recognize the importance of compliance with the Hague Convention and request this report be sent to the Committee on Appropriations no later than March 31, 2003. The conference agreement includes such funds as necessary to be used for an international conference on best practices in adoption. The conference would promote cooperation among the U.S. and other countries in support of the Hague Convention.

Globalization.—Within available funding, up to \$1,000,000 may be available, if merited, to support the Globalization Research Network [GRN] research consortium. The consortium conducts interdisciplinary, international studies of pressing problems faced by humanity. Any funding allocated to this activity shall be proposed through the regular reprogramming process.

Financial Operations.—Over the past several years the Department of State has made significant improvements in its financial operations. For the past six years, the Department has had clean audited financial statements. Additionally, the Department has been streamlining and centralizing its overseas and domestic financial operations in Charleston, South Carolina. The conferees are aware that the Office of Management and Budget has undertaken an effort to consolidate payroll operations among the Federal agencies. From Charleston, the Department currently pays over 25,000 Americans both domestically and overseas and over 35,000 local national employees in 180 different countries, bi-weekly, in local currencies. Before the Department expends any resources to join a consolidated payroll effort, the Committees on Appropriations are to be notified through the reprogramming process of any such plans and how this will affect staffing, and represent a cost savings to the taxpayer.

Changes from the Budget Request.— As in previous years, the conferees expect that there will be additional savings available to the Department, including exchange rate gains and vacancies in funded positions. The Department will have the ability to propose that savings be used for needs not funded by the recommendation through the normal reprogramming process.

CAPITAL INVESTMENT FUND

The conference agreement includes \$183,311,000 for the Capital Investment Fund. In addition, the conferees expect that \$86,000,000 in expedited passport fees will be used to support the information technology modernization effort, for a total fiscal year 2003 spending availability of \$269,311,000.

The entire amount available under this heading, including fees, will support investments in new information technologies and infrastructure to improve the efficiency of Department operations. Costs associated with ongoing information technology operations and maintenance are included under the Diplomatic and Consular Programs account, as in fiscal year 2002.

The conference agreement provides the full requested amounts for two major technology initiatives:

\$94,235,000 for the Classified Connectivity Project (CCP). This amount will enable the Department to replace obsolete computer and communications equipment that posts use for classified operations. The Committee views this project as the Department's highest priority technology investment activity, and expects the Department to achieve installation of CCP connectivity in all eligible posts by October 1, 2003. The Committee is willing to consider a reprogramming of funding under this account if additional resources are required to achieve this timetable.

\$36,500,000 for the OpenNet Plus project. This amount will enable the Department to complete the expansion of desktop Internet access to all Department employees worldwide during fiscal year 2003. The Committee expects that, by April 30, 2003, 100 percent of bureaus and eligible posts overseas will have OpenNet Plus installed and operating, and 100 percent of Internet users Department-wide will have only one computer with Internet and Intranet access at their desktops.

The conference agreement includes a total of \$17,000,000 for the Integrated Messaging and Foreign Affairs Systems Integration (FASI) initiatives, and \$7,345,000 for public key infrastructure requirements. The Department shall report to the Committee no later than 30 days after the enactment of this Act on results of the FASI pilots in fiscal year 2002, and a program and financial plan for fiscal year 2003 to establish secure interagency communications using a public key infrastructure.

The Committee directs that the Chief Information Officer of the Department develop an annex to the existing IT Strategic Plan which outlines in detail the Department's 5-year strategy for maintaining and upgrading its existing IT infrastructure. This strategy will help ensure that the significant investments made in the last 2 years are not lost, and that the Department's current IT infrastructure is leveraged both to capitalize on these prior investments and to meet the needs of the Department. The Department is directed to submit this annex to the Committees on Appropriations no later than September 1, 2003.

The conferees direct the Department to submit, by April 30, 2003, an updated performance report for the Classified Connectivity and OpenNet Plus projects. This report should include a corresponding implementation timetable, a multi-year funding requirement table, and specific efficiencies and savings resulting from each project.

The conferees direct the Bureau of Human Resources, in consultation with the Chief Information Officer of the Department, to report to the Committees on Appropriations on how the Department plans to meet its short and long-term human capital needs in the area of information technology. The report should address such issues as pay incentives, specialized recruitment strategies, and preventing attrition to the private sector.

The conferees support the trend at the Department towards the central management of information. The conferees are aware that, at a time of increased threat to our overseas posts, the ability to store and manage information, particularly classified information, domestically can greatly enhance the security of that informa-

tion. One technology that appears particularly promising is the high-assurance virtual wide area network [WAN]. This technology would allow the Department to minimize the information stored at post and permit computer terminals to be "sanitized" of sensitive information when not in use. Within the funds made available under this account for Centrally Managed Infrastructure, the Department shall institute a pilot project to develop a high-assurance virtual WAN architecture and prototype in support of Department of State activities. Up to \$8,000,000 may be made available for this purpose, subject to reprogramming. The conferees expect the Bureau of Information Resource Management to collaborate closely with the Bureau of Diplomatic Security (DS) and with other relevant agencies on this pilot project. This will ensure that any technologies employed by the Department to centrally manage its information meet all of the security requirements set forth by DS and by other relevant agencies. The conferees direct the Department to present a preliminary plan for this project within 60 days of enactment of this Act.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$29,264,000 for the Office of Inspector General (OIG). The Inspector General conducts oversight at the State Department and the Broadcasting Board of Governors. The conference agreement includes funding for OIG oversight of the Department's efforts to implement worldwide security upgrades.

The conference agreement includes language, as in previous years, waiving the statutory requirement that every post be inspected every five years, in order to provide greater flexibility to the Inspector General to use resources in the most productive areas. The Department shall report to the Committees by July 4, 2003 on the OIG's post inspection regime, and the need for the continuation of waiver language in future fiscal years. The conferees believe that the OIG can achieve the statutory post inspection requirements within existing resource levels by re-engineering inspection processes and reprioritizing tasks.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The conference agreement includes a total of \$245,306,000 for the Educational and Cultural Exchange Programs of the Department of State. In addition to the amount provided under this heading, the Department expects to receive transfers from accounts in other appropriations acts for exchange programs, primarily with nations of east and central Europe, and of the former Soviet Union. The following chart displays the conference agreement on the distribution of funds by program or activity under this account, including an estimated \$5,754,000 in prior year recoveries:

	<i>Amount (in thousands)</i>
Academic Programs:	
Fulbright Students, Scholars, Teachers	123,000
Hubert H. Humphrey Fellowships	6,000
Foreign Study Grants for U.S. Undergraduates	1,575
Educational Advising and Student Services	3,600
English Language Programs	4,335

	<i>Amount (in thousands)</i>
American Overseas Research Centers	2,500
South Pacific Exchanges	500
Tibet Exchanges	500
East Timor Exchanges	500
Disability Exchange Clearinghouse	500
Subtotal, Academic Programs	143,010
Professional and Cultural Programs:	
International Visitor Program	50,365
Citizen Exchange Program	17,000
Congress Bundestag Youth Exchange	3,000
Mike Mansfield Fellowship Program	2,200
Youth Science Leadership Institute of the Americas	100
Special Olympics	150
Africa Workforce Development Exchanges	300
National Forensics League	250
George Mitchell Scholarship Program	500
PSC US-Pakistan Educator Development	250
Institute for Representative Government	500
Irish Institute	275
Rule of Law Forum—SMU	800
Winter Cities Conference	100
Girls International Forum	200
Atlantic Corridor	275
Interparliamentary Exchanges with Asia/Africa	400
Subtotal, Professional and Cultural Exchanges:	76,665
North/South Center	500
Exchanges Support	30,885
Prior Year Balances Applied:	(5,754)
Total Exchange Programs:	245,306

Deviations from this distribution of funds will be subject to the normal reprogramming procedures under section 605 of this Act.

The Committee recognizes that international education and exchange programs are critical components of U.S. national security and foreign policy. In light of the tragic events of September 11, 2001 this type of engagement with the world is more important than ever. International educational and exchange programs enable the United States to augment the foreign language and foreign area expertise of each successive generation of rising leaders, prepare U.S. students to function effectively in a global environment through study abroad, and promote international understanding through professional, scholarly, and citizen exchanges.

The Conference agreement includes funding for citizen exchange programs (including continued base funding for the American Council of Young Political Leaders exchanges and the Congress-Bundestag Program). With respect to the Congress-Bundestag Program, the conferees intend that the amount provided will support 380 exchanges in fiscal year 2003, the same level as in fiscal year 2002. The conference agreement also includes funding for African workforce development exchanges (including funding for the AFTECH virtual university initiative) and funding for the Disability Exchange Clearinghouse. The conferees continue to support the goal of increasing the number and quality of exchange opportunities for people with disabilities. The conferees expect the Department to submit a report to the Committees on Appropriations within 90 days of enactment of this Act detailing current efforts to

make exchange opportunities available for people with disabilities and a plan to increase such opportunities in the future.

The conference agreement includes funding for enhanced programs to engage Arab and Muslim audiences through educational and cultural exchanges. The conferees expect this funding to continue and expand the programs funded from fiscal year 2002 supplemental appropriations, including Fulbright Exchanges (including American Studies), English Language Programs (including English Language Fellows), US/Afghan Women's Council exchanges, Values/Religious Tolerance programs, Media Training Exchanges, and American Studies programs. The conferees expect the Department to allocate at least 15 percent of the fiscal year 2003 appropriations provided under this heading to the Near East region, and at least 10 percent of such funds to the South Asia region. Should additional recoveries become available under this heading, the conferees expect the Department to allocate such funds to programs to engage Arab and Muslim audiences on a priority basis.

Of the funds provided for the Council of American Overseas Research Centers, the conferees expect that necessary funds will be for a grant for research to develop a diamond fingerprinting technology that will facilitate the monitoring of the international trade in conflict diamonds.

The conferees expect the Department to submit a proposal for the programmatic and geographic distribution of available resources (including all unobligated balances and recoveries) through the normal reprogramming process within 60 days from the date of enactment of this Act. Within available funds under this account, the conferees encourage the Department to consider supporting the Israel/Arab Peace Partners, and African Career Internship Immersion Programs.

The conferees expect that the overall funding distribution will conform to the geographical guidance above. The conferees further expect that this distribution of available resources will separately identify any amounts allocated to subsidize the administrative expenses of programs that are not funded by amounts appropriated under this heading.

The conferees support the continuation of regional scholars and graduate exchange fellowship programs with the former Soviet Union, such as the Muskie Ph.D. program, and expect that these activities will be funded from within amounts transferred from other appropriations. In the event that these programs are not adequately funded from other appropriations, the conferees would entertain a proposal to fund such programs from this appropriation through the regular reprogramming process.

The conference agreement includes a limitation of not to exceed \$2,000,000 on the use of fees or other payments received from or in connection with English teaching, educational advising and counseling, and exchange visitor programs as authorized by law.

The conferees are aware of the economic and cultural exchange program, as well as the proposed "sister state" relationship being developed between the Tver Region of the Russian Federation and the State of Louisiana. The conferees support these efforts and en-

courage the Department to consider providing assistance to the Louisiana-Tver Region of Russia international exchange program.

REPRESENTATION ALLOWANCES

The conference agreement includes \$6,485,000 for representation allowances. These funds are used to reimburse Foreign Service Officers for expenditures incurred in their official capacities abroad in establishing and maintaining relations with officials of foreign governments and appropriate members of local communities.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

The conference agreement includes \$11,000,000 for the Protection of Foreign Missions and Officials account. The increase under this heading reflects the addition of protection requirements after September 11th, including additional fixed guard posts and increased motorcade, demonstration and protective detail costs.

This account reimburses local governments and communities for the extraordinary costs incurred in providing protection for international organizations, foreign missions and officials, and foreign dignitaries under certain circumstances. The Committee believes that local jurisdictions incurring such costs must submit a certified billing for such costs in accordance with program regulations. The Committee also believes that in those instances where a local jurisdiction will realize a financial benefit from a visit by a foreign dignitary through increased tax revenues, such circumstances should be taken into account by the Department in assessing the need for reimbursement under this program. The conferees expect the Department to treat such submissions diligently and provide reimbursement to local jurisdictions on a timely basis if claims are fully justified.

Of the total amount recommended, \$2,300,000 is available for protection of foreign diplomats and their families throughout the United States. The Foreign Missions Act of 1982 authorizes the provision of such services when necessary either at the request of a foreign mission or on the initiative of the Secretary of State. In these situations, where State and local authorities cannot provide the security required, the Act permits the Department of State to employ the services of private security firms.

Of the total amount recommended, \$8,700,000 is allocated to reimburse New York City for the protection of foreign missions and officials accredited to the United Nations and other international organizations. These funds provide for the costs of guard posts and security escort and motorcade services to foreign missions and personnel assigned to the United Nations.

The conference agreement includes language making these funds available until September 30, 2004.

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

The conference agreement includes a total appropriation of \$1,263,500,000 for Embassy Security, Construction, and Maintenance. The conference agreement designates \$755,000,000 as available only for priority worldwide security upgrades, acquisition, and construction, the full amount requested for such activities. The con-

ference agreement includes \$508,500,000 for non-security related costs. The conference agreement includes full requested wage and price increases for the Department's Office of Overseas Buildings Operations (OBO) totaling \$12,936,000, which will support 787 positions in fiscal year 2003.

This account provides funding to manage U.S. Government real property worth more than \$10,000,000,000 in over 200 countries, including maintaining 3,000 Government-owned and long-term leased properties at 250 posts and leasing approximately 1,100 office and functional facilities and 8,000 residential units, not only for the Department of State, but for all U.S. employees overseas. The Department's latest inspection survey identified in excess of 4,200 maintenance and repair needs, as well as major rehabilitation requirements.

Worldwide Security Upgrades.—The conference agreement includes \$755,000,000 for security projects, including \$608,550,000 to continue the capital security program of constructing new secure replacement facilities for the Department's most vulnerable embassies and consulates. Projects undertaken under this program will address the highest priority facilities from a security standpoint. The conferees are concerned that specific projects proposed in the budget request may not meet this criterion, and that in previous fiscal years the Department has proposed to reprogram funds under this activity for projects that do not address top priority security vulnerabilities and for projects that will not result, when complete, in a facility that meets existing security standards.

The conference agreement also includes \$146,450,000 to complete worldwide perimeter security projects and begin a new initiative to upgrade compound security, including installation of forced entry/ballistic resistant roof hatches, vault doors and power-assisted vehicle barriers.

A proposed spending plan for the entire amount of available resources provided for worldwide security upgrades will be submitted through the normal reprogramming process within 60 days from the date of enactment of this Act. The Department shall notify the Committees immediately if there are any facilities that the Department believes face serious security risks.

Non-Security Base Programs.—The Committee expects the Department to propose an allocation of any proposed funding for non-security capital projects through the normal reprogramming process.

The conference agreement includes up to \$53,500,000 for facility rehabilitation and up to \$90,000,000 for maintenance and repair of buildings. Within the amounts provided, the conferees expect the Department to allocate funds as necessary: to renovate the Istanbul consulate to serve as a center for mutual cultural understanding; to carry out upgrades at the U.S. Embassy in Luxembourg; and to conduct renovations at the U.S. Embassies in Dili and Belgrade necessary to establish and maintain classified activities at post. In addition, the conferees are aware of proposals to address facilities and security requirements with regard to the U.S. presence in Rome. The conferees expect the Department to assess these proposals and requirements and allocate funding as appropriate within the funding provided under this heading. The conference agree-

ment includes full funding for the leasehold program. Within available funds, the conferees expect the Department to allocate up to \$20,000,000 for the buyout of uneconomic leases.

The conference agreement funding level includes the full amount requested for Security Management. This amount will support additional site security measures and cleared American guards to supervise an increasing number of capital projects.

The conference agreement also assumes \$6,000,000 for headquarters operations, \$17,500,000 for information management and support, and \$23,000,000 for renovations of the Harry S Truman Building.

Right-Sizing the Overseas U.S. Government Presence.—The conferees continue to be disappointed at the failure to make discernable progress in the pursuit of an Administration-wide process of determining the right size and makeup of overseas posts, including the explosive staffing projections at posts scheduled for new office buildings. The conferees continue to define “right-sizing” as the reconfiguration of overseas U.S. Government staff to the minimum number necessary to meet critical U.S. foreign policy goals. The notion of right-sizing as a desirable means to improve security and gain efficiencies implies that the current number of overseas staff is greater than the minimum number necessary, and that the presence of a number greater than the minimum number presents an unnecessary financial and security burden. The conferees are not aware of any right-sizing analysis to date that has resulted in a proposed reduction to a country-wide staffing presence.

The conferees strongly encourage the Department to continue to work toward an interagency mechanism that can result in meaningful right-sizing. The conferees urge the Department to adapt, as appropriate, the basic right-sizing framework developed by the General Accounting Office to link embassy staffing levels to physical security considerations, mission priorities, and costs. In this regard, the conferees support the Department’s effort to initiate a consolidation, streamlining and regionalization of country and multi-regional staffing in Frankfurt, Germany. The success of this initiative will be measured largely by the staffing reductions made possible at less secure locations throughout Germany, Europe, Eurasia, Africa and the Near East.

It costs two to three times as much to maintain an employee outside of the United States as it does within the United States. The conferees agree with the recommendation of the Overseas Presence Advisory Panel, that rationalizing staffing and operations abroad has the potential for large budgetary savings. The justification for all facilities projects funded under this account must include a full explanation of regional efficiency and security planning, and related staffing assumptions, and such projects will not be approved for funding absent evidence of the application of a uniform right-sizing methodology.

Assets Management.—The budget request designates \$80,000,000 in assets management funds planned for expenditure in fiscal year 2003. The conferees expect that these funds will be used for opportunity purchases to replace uneconomical leases and for other priority capital acquisition purposes. In addition, as in previous years, the conferees expect that assets management funds

will continue to be allocated in part to security construction needs. Any use of these or additional assets management funds in fiscal year 2003 is subject to reprogramming. In addition, with respect to the requirement that a reprogramming for any major new start be submitted, the conferees understand that requirement to mean that rehabilitation or construction of projects involving ambassador's residences will be subject to the requirement.

The conference agreement continues language carried in the bill in previous years that prohibits funds from being used for acquisition of furniture and furnishings and generators for other departments and agencies.

Soft Targets.—Recent terrorist attacks have brought into focus a new kind of threat against our interests abroad, specifically, threats against so-called “soft targets.” The conferees direct the Department to formulate a strategy for addressing such threats to locales that are either frequented by Americans or are symbolic of the United States. The conferees are particularly concerned about the safety of American schools abroad, as well as international schools attended by American children. The conferees direct the Department to undertake a review of the security of all overseas schools attended by the children of non-military United States government employees. The report shall include information on each individual facility, including but not limited to the number of American children enrolled at the school; an accounting of all financial assistance provided to the school by the Department of State for the past 5 fiscal years; threat and risk assessments; an evaluation of the adequacy of the school's security in light of these threat and risk assessments; and recommendations for immediate steps the school can take, with the support of the Department, to enhance its security posture. The conferees expect the Department to propose a corresponding spending plan of up to \$15,000,000 to address such vulnerabilities from within the resources provided under this account.

Consular workspace improvement initiative.—The Department's consular mission is critical to our national security. Consular workspace must be adequately sized and outfitted in order to ensure that the processing of visas and visa applicants takes place in an organized and efficient manner. To ensure this, and to improve the overall working environment for Consular Affairs Officers, the conferees direct the Office of Overseas Buildings Operations [OBO] to undertake a 3-year Consular Workspace Improvement Initiative. The conferees are aware that, traditionally, OBO considers posts' facilities requirements in a holistic manner, and does not single out specific bureaus for workspace improvements. However, the conferees are also aware of the direct link between the quality of consular workspace and the efficiency and accuracy of consular work. There is a pressing need for additional consular windows and interview space, enlarged reception and waiting areas, office space, and document storage space. The Initiative should identify posts for consular workspace rehabilitation where errors in visa issuance present the greatest threat to our national security, as determined by OBO in consultation with the Bureau of Consular Affairs. The conferees expect construction to begin on priority projects no later than 60 days after the enactment of this Act.

The Committee expects that up to \$8,000,000 within the funds available under this account for facilities rehabilitation may be used for this initiative.

Marine Security Guard housing.—Marine Security Guards are essential to the Department's ability to carry out its mission overseas. In fiscal year 2002, the Department completed the final phase of a multi-year effort, undertaken at the insistence of the Committees, to address the long-neglected capital needs of many Marine Security Guard [MSG] housing facilities worldwide. The conferees support the Department's new policy of incorporating MSG housing costs into the initial cost estimates, and thus the budget requests, for overseas construction or rehabilitation projects. The conferees note that MSG housing costs for fiscal year 2003 are embedded within the capital projects account.

Reprogramming Requirements.—The conferees agree that the reprogramming requirements that have been applied in prior years regarding programs under this heading shall continue to apply during fiscal year 2003.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

The conference agreement includes \$6,500,000 to enable the Secretary of State to meet unforeseen emergencies arising in the Diplomatic and Consular Service. This funding level anticipates that carryover balances from fiscal year 2002 will be available for obligation in fiscal year 2003. Funding provided in this account is available until expended.

The conference agreement includes a provision in the bill that permits up to \$1,000,000 to be transferred from this account to the Repatriation Loans Program account. This provision will ensure an adequate level of resources for loans to American citizens through the Repatriation Loans Program account should that account require additional funds in fiscal year 2003 due to an unanticipated increase in the number of loans.

This appropriation provides resources for the Department of State to meet emergency requirements in the conduct of foreign affairs. The Committee recommendation provides funds for: (1) travel and subsistence expenses for relocation of American employees of the United States Government and their families from troubled areas to the United States and/or safe-haven posts; (2) allowances granted to State Department employees and their dependents evacuated to the United States for the convenience of the Government; and (3) payment of rewards for information concerning terrorist activities.

REPATRIATION LOANS PROGRAM ACCOUNT

The conference agreement includes \$612,000 for the subsidy cost of repatriation loans and \$607,000 for administrative costs of the program.

This account provides emergency loans to assist destitute Americans abroad who have no other source of funds to return to the United States.

In the past, less than 20 percent of repatriation loans have ever been repaid. The conferees endorse efforts by consular services to limit assistance only to victims of unforeseen circumstances or

travelers whose mental instability presents a risk to themselves or others.

PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

The conference agreement includes \$18,450,000 for the "Payment to the American Institute in Taiwan." The conference agreement provides for the Institute's pay and inflationary base adjustments. In addition, the Institute is authorized to collect Machine Readable Visa fees, which are expected to generate an additional \$14,000,000 in revenues in fiscal year 2003, as well as reimbursements from agencies and user fees from trade show exhibitors.

The conferees expect that the American Institute in Taiwan (AIT) will cover anticipated operating expenses in fiscal year 2003 through a combination of appropriations and visa fee revenues, and encourages the Institute to continue to pursue cost saving measures. The conferees expect the Department to submit by March 31, 2003, an AIT spending plan for fiscal year 2003, indicating the total amount of estimated fee collections, the amount of such fee collections allocated for operating expenses, and the total amount planned for operating expenses from all funding sources.

The Taiwan Relations Act requires that programs concerning Taiwan be carried out by the American Institute in Taiwan and authorizes funds to be appropriated to the Secretary of State to carry out the provisions of the Act. The Institute administers programs in the areas of economic and commercial services, cultural affairs, travel services, and logistics. The Department of State contracts with the American Institute in Taiwan to carry out these activities.

PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

The conference agreement includes \$138,200,000 for the appropriation entitled "Payment to the Foreign Service Retirement and Disability Fund". The amount provided in the Committee recommendation is required to amortize the unfunded liability in the system, as documented by the annual evaluation of Fund balances.

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

The conference agreement includes a total of \$866,000,000 for payment of the obligations of United States membership in international organizations as authorized by conventions, treaties, or specific Acts of Congress for fiscal year 2003.

The amount provided in the bill is intended to cover anticipated assessments for membership in international organizations, including the United Nations. In addition, the amount provides full funding for anticipated assessments for membership in the North Atlantic Treaty Organization and the related North Atlantic Assembly, International War Crimes Tribunals for Rwanda and the former Yugoslavia, the Organization of American States, and the Pan American Health Organization, among others.

The conference agreement is based on an upward adjustment of the fiscal year 2003 request based on exchange rate fluctuations, and also reflects the application of an estimated \$46,739,000 in

available balances from fiscal year 2002 that the Committee has directed the Department to apply to the fiscal year 2003 assessment for the United Nations regular budget.

Reassessment of U.S. Membership in International Organizations.—The conferees note, with approval, the Department's recent actions to formally withdraw from certain international organizations where continued U.S. participation was determined to be a low priority in the context of overall U.S. national interests. The conferees continue to support the comprehensive reassessment of U.S. membership in each of the 50 international organizations for which funding is requested under this account. The Department shall notify the Committees in advance of taking any action to join, or rejoin any international organization.

Reform and Budget Discipline.—The conferees continue to insist on reform and budget discipline as the highest priorities for all of the international organizations, including the development of processes to evaluate, prioritize and terminate programs. The conferees believe that the onus is on each international organization and the State Department representatives to those organizations to reduce overall budgets and eliminate duplicative activities, excessive administrative costs, and inefficient operations.

United Nations Regular Budget.—As indicated, the funding level assumes full payment of the U.S. assessment to the United Nations (UN) regular budget, as has been provided every year since fiscal year 1989. This assessment is estimated at \$279,327,000 for calendar year 2002. In order to assure that the UN achieves the fiscal discipline that the Congress has insisted upon, the Committee strongly urges the Department to ensure that the UN takes no action to increase funding for any program without identifying an offsetting decrease elsewhere in the regular budget. Toward this end, the Committee expects the Department to insist on the prioritization of ongoing UN programs and activities, so that in the event of unanticipated requirements, budget offsets may be taken from activities and programs that have already been determined to be lower-priority by the organization.

The Committee expects the Department to certify to the Committee by March 1, 2003 that the UN has taken no action to exceed the approved 2002–2003 budget of \$2.63 billion, which is an increase of \$90 million from the previous biennium. Any proposal to exceed this budget level should be communicated to the Committee far in advance of the formal consideration and adoption of such a proposal. The Department shall also report to the Committees by April 30, 2003, describing any and all programmatic or administrative reductions adopted in the current UN biennial budget.

For nine of the international organizations funded under this account, including the United Nations regular budget, the payment of the United States assessment for a given calendar year is deferred until the subsequent fiscal year. As a result, United States assessment payments for membership in such organizations are not made until the fourth quarter of the calendar year. The conferees expect the Department to report to the Committees by September 30, 2003, on the significance of this practice with regard to the achievement of United States multilateral diplomacy goals and the financial operations of such international organizations. The re-

port should include recommendations, as appropriate, for addressing any negative impacts. The report should also address any cost implications associated with such recommendations.

OECD.—The recommended funding level includes requested funding for future renovations to the Organization for Economic Cooperation and Development (OECD) headquarters building in Paris. The conferees remain concerned about the scope and cost of this project, and the need for the United States to assume the largest funding share for an undefined capital project in Paris with costs that could exceed \$200,000,000. The Committees expect to review detailed plans, cost estimates, and potential financing methods through the reprogramming process before these funds are obligated for this project. Should the Department experience further exchange rate losses during fiscal year 2003, the Committees would entertain a reprogramming of this funding toward other comparatively higher-priority activities.

IAEA.—The conference agreement includes full funding for the adjusted request level for anticipated assessments for the International Atomic Energy Agency (IAEA). The conferees recognize the importance of the role played by the IAEA in efforts to enact stronger global measures to protect nuclear material and facilities against potential acts of terrorism.

PAHO.—The conferees continue to support the work done by the Pan American Health Organization (PAHO). PAHO has continued to take the lead in health issues, including border health concerns, emerging diseases and bio-terrorism that have an impact on citizens of the United States and all citizens of the Americas. The conferees encourage the Department to continue to support PAHO's efforts.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

The conference agreement includes \$673,710,000 for United States payments for Contributions for International Peacekeeping Activities for fiscal year 2003. The conference agreement provides for the full payment of anticipated fiscal year 2003 assessments for United Nations peacekeeping missions. The conferees are aware that prior year balances of \$46,000,000, plus additional UN credits are available to offset the cost of fiscal year 2003 assessments.

The conferees are concerned about the continuing lack of demonstrable progress toward resolution of the Western Sahara dispute, despite an enormous investment of funds over the past decade in the UN's MINURSO peacekeeping mission. The conferees urge the Department to push for a negotiated settlement to the dispute, and to terminate the costly UN presence. MINURSO was established to oversee a referendum and settlement program that has failed to materialize over the past decade and which the Secretary General and his Personal Envoy have recognized as unworkable.

The establishment of several large, complex missions over the past few years has tested the capacity of the U.N. to plan and manage such operations successfully. The Brahimi report addressed many deficiencies in U.N. peacekeeping efforts, including problems in doctrine, strategy, decision-making, planning, deployment, support and information technology. The conferees support efforts to

improve the performance and efficiency of U.N. peacekeeping missions through structural and procedural reforms. The conferees also support efforts to better limit and focus the goals of such missions, and to set specific benchmarks for performance and mission termination.

The conferees are concerned that clear, realistic benchmarks be established and enforced for the performance of the UN peacekeeping mission in the Democratic Republic of the Congo (MONUC). The conference agreement includes funding to cover anticipated fiscal year 2003 assessments for MONUC totaling \$273,226,000. The conferees expect the department to consult with the Committees on Appropriations, and to submit the required notifications, prior to any increase or mandate change in this mission. Specifically, the conferees expect the Department to certify that the following conditions have been met with regard to this mission. First, firm benchmarks for what constitutes a successful mission must be determined, articulated, and followed. Second, the security of The Democratic Republic of the Congo's (DROC) neighbors must be factored in to all of MONUC's strategic and contingency planning, and must be heavily considered in the negotiation of a final political settlement. Third, the UN must construct an arrangement for the withdrawal of foreign forces from the DROC that, to the greatest degree possible, does not destabilize DROC's neighbors. Fourth, contingency plans must be developed and implemented for the safe withdrawal of peacekeepers in the event of a resumption of hostilities.

The conferees are encouraged by the significant progress made over the past year toward the establishment of peace in Sierra Leone. The conference agreement includes full funding for anticipated assessments for the UNAMSIL mission in Sierra Leone. In addition, the conferees strongly support the work of the Special Court for Sierra Leone to prosecute those who bear the greatest responsibility for serious violations of human rights and international law. The conferees expect the Department to consider ways it can support, and encourage international and private organizations to undertake new efforts to prevent, respond to, and document crimes, particularly crimes involving sexual violence, and violations in West Africa and the Congo.

The conferees continue to support the efforts of the UN's Office of Internal Oversight Services (OIOS) to identify waste, fraud and abuse with regard to peacekeeping operations, and to recommend specific reforms to ensure that such practices are brought to an end. The conferees expect the Department to provide the necessary support to ensure that the work of the OIOS is maintained and strengthened as it relates to oversight of peacekeeping operations.

The conference agreement also includes full funding for anticipated assessments for the UNMISSET mission in East Timor. As East Timor begins to establish a criminal justice system, basic social services, and professional police and defense forces, the conferees support the continued presence and gradual drawdown of the UN peacekeeping force.

The conferees direct the Department to resume transmission of UN Security Council reports on peacekeeping missions to the Committees on Appropriations.

The conference agreement includes language carried in previous years requiring 15-day advance notice of any new or expanded mission, together with a statement of cost, duration, exit strategy, vital national interest, and source of funds to pay the cost. The conference agreement also retains language requiring certification that American manufacturers and suppliers are provided equal procurement opportunities, and language prohibiting the use of funds under this account for the costs of court monitoring.

INTERNATIONAL COMMISSIONS

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

The conference agreement includes a total of \$30,932,000 for the International Boundary and Water Commission, United States and Mexico (IBWC). The total amount provided includes \$25,482,000 for Salaries and Expenses and \$5,450,000 for construction. The conference agreement includes language authorizing not to exceed \$6,000 for representation expenses.

SALARIES AND EXPENSES

The conference agreement for the Salaries and Expenses account includes \$25,482,000. The Committee notes that fluctuations in the Commission's operations and maintenance budgets can result in unanticipated cost savings. Should the Commission experience such savings, the Commission may propose, through the section 605 reprogramming process, the use of surplus funds for items not included in the Committee recommendation.

CONSTRUCTION

The conference agreement for IBWC construction provides \$5,450,000 for ongoing projects including: \$2,500,000 for Boundary-wide construction and \$2,950,000 for Rio Grande construction. The conferees note that the Rio Grande American Canal Extension project and the Colorado River project are both currently delayed by required, and extensive, environmental studies. No funding has been provided for those projects for fiscal year 2003. Reallocation of funding may be proposed to the Committees under the reprogramming procedures set forth in section 605 of this Act.

The conferees note that the IBWC has initiated formal negotiations with the Mexican Section of the IBWC concerning the provision of secondary treatment to Tijuana sewage in Mexico. The agreement that results from these negotiations will represent a significant long-term measure to address Tijuana sewage. The conferees are aware of concerns over the lack of progress in this regard, and strongly encourages the IBWC to forge a workable agreement to ensure secondary treatment of Tijuana sewage.

AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

The conference agreement includes a total of \$9,472,000 to fund the U.S. share of expenses of the International Boundary Commission, the International Joint Commission, United States and Canada, and the Border Environment Cooperation Commission

for fiscal year 2003. This amount includes \$1,143,000 for the International Boundary Commission, \$6,246,000 for the International Joint Commission and \$2,083,000 for the Border Environment Cooperation Commission. The funding level for the International Joint Commission includes \$2,294,000 for the third year costs of a five-year study of the water regulation plan governing Lake Ontario and the St. Lawrence River.

INTERNATIONAL FISHERIES COMMISSIONS

The conference agreement includes \$17,100,000 to fund the U.S. share of the expenses of international fisheries commissions or related organizations, as well as the travel expenses of the United States commissioners.

The conference agreement includes \$2,100,000 for the Inter-American Tropical Tuna Commission, \$12,248,000 for the Great Lakes Fishery Commission, \$2,100,000 for the International Pacific Halibut Commission, \$90,000 for the International Whaling Commission, \$121,000 for the International Commission for the Conservation of Atlantic Tunas, \$70,000 for the Commission for the Conservation of Antarctic Marine Living Resources, \$150,000 for the Inter-American Sea Turtle Convention Commission, and \$100,000 for Expenses of the U.S. Commissioners. The balance of funds in this account may be allocated, on a priority basis, to other international fisheries commissions.

OTHER

PAYMENT TO THE ASIA FOUNDATION

The conference agreement includes \$10,444,000 for payment to the Asia Foundation for fiscal year 2003. The conference agreement includes funding for enhanced Foundation programs on human rights, higher education, democratic governance, ethnic harmony, religious tolerance and legal/judicial reform in Nepal, Indonesia, Afghanistan, and Pakistan. The Committee expects the Foundation to provide a program and spending plan for these special initiatives to the Committee by June 30, 2003.

The conferees support the Foundation's efforts to reestablish its program and presence in Afghanistan. The conferees encourage the Foundation to use its expertise in developing programs to encourage women's political participation in Central Asia, and specifically Afghanistan.

EISENHOWER EXCHANGE FELLOWSHIP PROGRAM

The conference agreement includes an appropriation for fiscal year 2003 of interest and earnings from the Eisenhower Exchange Fellowship Program Trust Fund, expected to total \$500,000. The conferees recognize the important and unique role of the Eisenhower Exchange Fellowships in the U.S. Government's worldwide public diplomacy effort. The conferees therefore expect that Eisenhower Exchange Fellowships, Incorporated, (EEF) will fashion its exchange programs for fiscal year 2003 to reflect the priority within all public diplomacy programs of building mutual understanding with Arab and Muslim populations worldwide. In this regard, the conferees expect that the selection of foreign and United States fel-

lows will reflect this priority. In addition, the conferees support a nation-wide, merit-based recruitment and selection process for United States Fellows.

ISRAELI ARAB SCHOLARSHIP PROGRAM

The conference agreement includes language that will appropriate for fiscal year 2003 interest and earnings of the Israeli Arab Scholarship Endowment Fund, expected to total \$375,000.

EAST-WEST CENTER

The conference agreement includes \$18,000,000 for the costs of maintaining and operating the East-West Center. Of the amount provided, up to \$2,500,000 is intended for one-time costs associated with improvements to Center facilities.

NATIONAL ENDOWMENT FOR DEMOCRACY

The conference agreement includes \$42,000,000 for the National Endowment for Democracy (NED) for fiscal year 2003. The conferees expect that funding provided will allow NED to provide additional targeted grants to indigenous groups to build and strengthen democratic institutions in the Muslim world. The conference agreement also continues funding for grants to foster Africa's dynamic democracy movements, including groups in Sudan and the Democratic Republic of Congo. Within funds provided under this account the conferees expect the Endowment to increase democratization programs with Romania.

The conferees reaffirm the role that NED plays in strengthening democratic institutions around the world. Any perception that funds are used to directly support a particular party or candidate, or to support the removal of elected leaders through unconstitutional means, undermines the credibility and effectiveness of NED programs. The Committee expects NED to take all necessary measures to continue to ensure that all sponsored activities adhere to the core NED principles.

In order to be successful in its global fight against terrorism, the U.S. must develop a long-term response that addresses the root causes of terrorism. This response must include support to developing countries in the Middle East, Africa, South and Central Asia, and other regions where terrorism has flourished over the last decade. NED has an established network of organizations and professionals in these regions that work to promote democracy in ways that are consistent with Islamic tradition. These existing networks can be used to further the U.S.'s broader objectives in the war on terror. The conference agreement includes \$6,000,000 above the request for programs that encourage the development of ties with modernist Muslim groups, foster pro-democracy networks, support independent journalism, and assist women's business organizations. The distribution of these additional funds should be guided by the following four goals: (1) ending repression, permitting freedom of expression, and introducing genuine political parties; (2) modernizing economies and, as a consequence, reducing poverty and inequality; (3) controlling corruption and establishing a genuine rule of law; and (4) ending the political abuse of religion and

reconciling Islam with modern concepts of citizenship and individual rights. The Conferees expect that this funding increase will be distributed throughout NED's four core institutes in the same manner as NED's core budget.

The conference agreement includes up to \$1,000,000 above current funding levels to expand a women's rights and democracy training program for Lebanon's female Shiite educators, students, and mothers. The conference agreement also includes up to \$2,000,000 above current funding levels for NED to establish a program for women's rights in Afghanistan. Within available funds, the NED should increase its support for independent women's cultural and human rights organizations in the Democratic Republic of Congo, Sierra Leone, Sudan, and Nigeria and for enhanced programs in The People's Republic of China, including Tibet, Burma, and North Korea.

The conferees expect the NED to submit to the Committees on Appropriations a financial plan for the entire amount made available under this heading prior to obligation.

RELATED AGENCY

BROADCASTING BOARD OF GOVERNORS INTERNATIONAL BROADCASTING OPERATIONS

The conference agreement includes \$468,898,000 to carry out United States International Broadcasting Operations for fiscal year 2003. This account funds the operating and engineering costs of Voice of America [VOA], Radio Free Europe/Radio Liberty [RFE/RL], Radio Free Asia [RFA], Worldnet Television/VOA-TV, and the Broadcasting Board of Governors [BBG]. The conference agreement provides all requested adjustments to base for all entities funded under this account and full requested funding to continue the Middle East Radio Network (Radio Sawa) initiative.

Of the funds made available under this heading, \$965,000 is recommended for the Office of the General Counsel.

Arabic Television.—The United States continues to face an enormous challenge to provide the people of Arab and Muslim countries with accurate information about our policies and values. The conferees support the Board's efforts to expand its ability to reach audiences in the Middle East. The conference agreement includes up to \$2,500,000 for the development of an Arabic language television initiative in the Middle East. In addition, the conferees are aware of prior-year recoveries in the Broadcasting Capital Improvements account that may be used for the development of an Arabic television initiative. Developing quality and attractive news and entertainment Arabic language programs should to the maximum extent possible involve the creative talents of the private and not-for-profit sectors. The conferees urge the Board to integrate new approaches, such as using private and not-for-profit content providers of Arabic broadcast programming, to more effectively engage key audiences.

Reprogramming of Exchange Rate Gains/Other Savings.—As in past years, the conferees expect that there will be additional savings available to the Board, including exchange rate gains and vacancies in funded positions. The conferees note that the Board

will have the ability to propose that savings be used for additional requirements related to the Arabic broadcasting initiative, broadcasting to China and North Korea, and other emerging priority programs through the normal reprogramming process.

Language Service Review and Research.—The conferees continue to support the Board's efforts to objectively and systematically review and evaluate the performance, results, and importance of every U.S. Government-sponsored international broadcasting language service and to propose corresponding reallocations of funds. The conferees endorse this process as a means to improve broadcast quality and meet emerging program priorities within limited resources. The conferees commend the Board for taking steps to consolidate and strengthen the research function by establishing the Office of Performance Review. The conferees expect that the Board will be able to establish comprehensive performance measures and improve coordination of programming streams across component organizations, including the grantee organizations. The conferees support the continuation and expansion of this effort in fiscal year 2003. The conference agreement assumes total funding of at least \$5,000,000 for the Research function in fiscal year 2003. The conferees strongly urge the Board to ensure that foreign policy implications are given full consideration before adopting language service review recommendations. The conferees direct the Board to submit a comprehensive report on Language Service Review results and corresponding reallocations of funds. The conferees expect that the continuing language service review effort may result in the dedication of additional resources to emerging priority programs, through the normal reprogramming process.

Africa Broadcasting.—The problem of AIDS in Africa is ubiquitous. Radio broadcasting is an underutilized tool in the fight against the African AIDS epidemic. Its accessibility to even the most impoverished communities makes it an ideal way to transmit information about the disease. Radio broadcasts could be a major component of sustained prevention efforts undertaken by the governments of many African countries, humanitarian organizations, and U.S. assistance programs. The recommendation includes up to \$10,000,000 for Voice of America's Africa Division for broadcasting to Africa. The conferees direct VOA to incorporate AIDS education into its regular programming. VOA is directed to report to the Committees on Appropriations on its progress no later than 90 days after enactment of this Act.

Security of RFE/RL headquarters.—The conferees are aware that RFE/RL and the government of the Czech Republic have jointly developed a preliminary plan to relocate RFE/RL headquarters from St. Wenceslas Square in Prague, the Czech Republic, to a new and safer location. The BBG must consult with the Committees on Appropriations on all decisions concerning a future capital project as they relate to security. RFE/RL is directed to report to the Committees on Appropriations on all aspects of the relocation currently being considered. The report should explain whether it would be desirable, from both a security and from an economic perspective, to move RFE/RL headquarters to a location outside of the Czech Republic. The BBG is encouraged to consider Turkey as a possible host nation for the new RFE/RL headquarters.

Security of worldwide broadcasting facilities.—In the post-September 11 environment, the broadcasting services no longer have the luxury of ignoring the security of their personnel and facilities. The Broadcasting Board of Governors is therefore directed to develop, in consultation with the Department of State and other relevant U.S. agencies, a 5-year capital worldwide security plan. The plan shall be transmitted to the Committees on Appropriations no later than July 1, 2003.

The conferees remain concerned that adequate transmission capacity be available to support broadcasting to Iran and Iraq. The conferees understand the Board is in the process of identifying additional transmission capacity in the region to support Radio Free Iraq and its new Radio Farda initiative. The conferees direct the Board to consult with the Committees on Appropriations as new transmission opportunities are identified that will provide strong broadcast signals for all relevant language services to Iran and Iraq.

Anti-jamming efforts.—The conferees continue to support initiatives by the BBG to defeat jamming and reach a wider audience for Radio Free Asia and Voice of America broadcasts to China, Tibet, Vietnam, and North Korea. The conferees are aware that new technologies may allow the VOA and RFA to more effectively defeat jamming efforts. The conferees encourage the Board to evaluate the usefulness of these technologies and will entertain proposals to reprogram additional funds for anti-jamming technologies.

The conference agreement provides funding for the principal broadcasting entities as follows:

Voice of America.—The conference agreement provides \$154,307,000 for VOA. The conference agreement provides for adjustments to base and requested funding to continue surge broadcasting in Dari, Pashto, Urdu, Farsi, Arabic, Uzbek, and Turkish. The conferees expect the Board to complete the merger of Worldnet and VOA-TV resources. The conferees understand that the BBG is in the process of determining final organizational changes to complete this merger and direct the Board to submit these proposed changes to the Committees on Appropriations in accordance with Section 605 of this Act.

Radio Free Europe/Radio Liberty.—The conference agreement provides the full requested amount of \$73,086,000 for RFE/RL, including the requested amounts for broadcasting to Iran and Iraq. The conference agreements provides for adjustments to base, including \$2,423,000 to continue surge programming in Persian, Tajik, Uzbek, Turkmen, Arabic, Kazakh, Kyrgyz, and Azeri.

The conferees commend RFE/RL for developing programming in Avar, Chechen, and Circassian, and for expanding broadcasting to the Northern Caucasus. The conferees recognize the continuing importance of reaching the isolated minorities of the Northern Caucasus in their native languages. The Chechen crisis is ongoing and there is still a great need in this region for objective, uncensored information. Within the funding provided for RFE/RL, \$850,000 is for the North Caucasus Unit.

Radio Free Asia.—The conference agreement provides the full requested amount of \$27,084,000 for RFA. This amount includes

\$1,684,000 for adjustments to base, and will allow RFA to continue its expanded schedule of broadcasting to China, Tibet, Burma, Vietnam, North Korea, Laos, and Cambodia.

The conference agreement includes full funding for RFA to continue daily Uyghur broadcasts. Radio Free Asia's Uyghur broadcasts are proving successful in northwest China in spite of top-level officials' efforts to erect a steel wall against "hostile radio stations from abroad".

The conferees are supportive of efforts to increase the number of broadcast hours of both the VOA Korean and the RFA Korea services. Within the funding made available for RFA, up to \$1,500,000 is for the Korea Service.

The BBG is directed to submit to the Committees on Appropriations, no later than sixty days from the date of enactment of this Act, a financial plan including a distribution of the total resources available under this account.

BROADCASTING TO CUBA

The conference agreement includes \$24,996,000, to remain available until expended, for Broadcasting to Cuba under a separate account.

BROADCASTING CAPITAL IMPROVEMENTS

The conference agreement includes \$12,740,000 in new budget authority for broadcasting capital improvements. This amount will provide for the continuation of base costs for maintenance, improvements, replacements and repairs, digital production capability development, and security upgrades at transmitting stations overseas.

The Board shall continue to keep the Committees on Appropriations informed on the status of its efforts to acquire additional transmission capabilities in the Middle East. The Board shall also continue to keep the Committees on Appropriations informed regarding costs and results of the ongoing digital conversion project.

GENERAL PROVISIONS—DEPARTMENT OF STATE AND RELATED AGENCY

The conference agreement includes section 401, permitting the use of funds for allowances, differentials and transportation.

The conference agreement includes section 402 dealing with transfer authority.

The conference agreement includes section 403 prohibiting the use of funds by the Department of State or the Broadcasting Board of Governors to provide certain assistance to the Palestinian Broadcasting Corporation.

The conference agreement includes section 404 regarding the recording of place of birth on certain passport applications.

The conference agreement includes section 405 regarding a certain land transfer.

The conference agreement includes section 406 regarding coordination of programs to combat trafficking in persons. The conferees have included additional guidance regarding these programs

under the “Diplomatic and Consular Programs” heading in this Statement of Managers.

TITLE V—RELATED AGENCIES

DEPARTMENT OF TRANSPORTATION

MARITIME ADMINISTRATION

MARITIME SECURITY PROGRAM

The conference agreement includes \$98,700,000 for the Maritime Security Program as proposed in both the House and Senate.

OPERATIONS AND TRAINING

The conference agreement includes \$92,696,000 for the Maritime Administration Operations and Training account. Within the amounts provided, \$13,000,000 is for the U.S. Merchant Marine Academy construction and maintenance.

SHIP DISPOSAL

The conference agreement includes \$11,161,000 for the disposal of obsolete vessels the National Defense Reserve Fleet of the Maritime Administration. This program should ensure the expeditious implementation of a pilot program for export and disposal of obsolete vessels during fiscal year 2003. Priority should be given to the most hazardous vessels, including those in the James River. The conferees expect the MARAD to report back to the Committees on Appropriations on the vessels designated for disposal; the comparative condition of the vessels; the proposed method of disposal, including reefing; and the projected cost for disposal of each vessel. The conferees urge MARAD to work with the Environmental Protection Agency to design an environmentally sound disposal program.

MARITIME GUARANTEED LOAN (TITLE XI) PROGRAM ACCOUNT

The conferees include \$4,126,000 for the administrative expenses related to this program.

ADMINISTRATIVE PROVISIONS—MARITIME ADMINISTRATION

The conference agreement includes provisions involving Government property controlled by MARAD, the accounting for certain funds received by MARAD, and a prohibition on obligations from the MARAD construction account.

COMMISSION FOR THE PRESERVATION OF AMERICA’S HERITAGE ABROAD

SALARIES AND EXPENSES

The conference agreement includes \$499,000 for the expenses of the Commission for the Preservation of America’s Heritage Abroad. The conference agreement will allow the Commission to fund its administrative expenses through appropriated funds while relying on privately donated funds for the actual purchase and restoration of property and other project implementation purposes.

The conferees encourage current efforts to attract private funding to support the work of the Commission.

Revolutionary War heroes—The conferees support implementation of phase II of the foreign born revolutionary war heroes project to the extent that private funding is available for this purpose.

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The conference agreement includes \$9,096,000 for the salaries and expenses of the Commission on Civil Rights for fiscal year 2003. The Commission investigates charges of citizens being deprived of voting rights, and collects, studies and disseminates information on the impact of Federal laws and policies on civil rights. The Commission was established by the Civil Rights Act of 1957 and is directed by eight part-time commissioners. The Commission was created to protect the civil rights of people within the U.S. and was intended to be an independent, bipartisan, fact-finding agency. The conferees are concerned about the present state of affairs at the Commission, and the Commission's apparent inability to fulfill its mission. The conferees note that recent Commission meetings have been held without a quorum of 5 Commissioners. The conferees are surprised by the Commission's decision to incur additional expense to hold monthly meetings in cities other than Washington, D.C. The Commission has stated in its budget request and in briefings with Committees on Appropriations staff that it may be unable to meet basic operational requirements such as payroll processing and rent increases in fiscal year 2003 at the budget level in the President's request. The conferees expect the Commission to meet its requirements in fiscal year 2003 through savings realized in salary expenses and other operational costs, including travel and other costs related to Commission meetings. The conferees direct the Commission to submit, within 60 days after the enactment of this Act, a spending plan for the costs of conducting all Commission meetings in fiscal year 2003, making note of any meeting the Commission plans to hold in a city other than Washington, D.C. This spending plan shall be submitted to the Committees on Appropriations pursuant to section 605 of this Act.

The conference agreement includes language as included in previous years, which provides (1) \$50,000 to employ consultants; (2) a prohibition against reimbursing commissioners for more than 75 billable days, with the exception of the chairwoman, who is permitted 125 billable days; and (3) a limitation of four full-time positions under schedule C of the Excepted Service, exclusive of one special assistant for each commissioner.

COMMISSION ON INTERNATIONAL RELIGIOUS FREEDOM

SALARIES AND EXPENSES

The conference agreement includes \$2,884,000 for the Commission on International Religious Freedom, the amount identified by the Commission as necessary to carry out all requested activities for fiscal year 2003.

The conferees note that the Commission held only three public hearings in fiscal year 2002. As an authoritative and unique resource on religious freedom issues, the conferees expect the Commission to be more active in fiscal year 2003 in holding hearings, seminars, and other events involving public audiences. This may include holding Commission hearings and events in locations around the United States.

COMMISSION ON OCEAN POLICY

SALARIES AND EXPENSES

The conference agreement includes \$2,000,000 for necessary expenses of the Commission of Ocean Policy, to remain available until expended.

COMMISSION ON SECURITY AND COOPERATION IN EUROPE

SALARIES AND EXPENSES

The conference agreement includes \$1,582,000 for the Commission on Security and Cooperation in Europe, the amount identified by the Commission as necessary to carry out all requested Commission activities for fiscal year 2003.

CONGRESSIONAL—EXECUTIVE COMMISSION ON THE PEOPLE'S REPUBLIC OF CHINA

SALARIES AND EXPENSES

The conference agreement includes \$1,380,000 for the Congressional-Executive Commission on the People's Republic of China, an increase of \$380,000 above the amount provided in fiscal year 2002. Within this amount, the conference agreement includes \$3,000 to be available for the purposes of official representation, upon the joint certification of the Chairman and Co-Chairman.

Victims Lists Database—Of the total amounts available in fiscal year 2003, including fiscal year 2002 carryover of \$621,813, the conferees expect that \$500,000 will be used by the Commission to develop, populate, and operate a database of information on political and religious prisoners in China, pursuant to section 302(b) of Public Law 106–286. The conferees believe that a comprehensive and accessible database of prisoners of conscience in China can be a powerful tool for Members of Congress, the Administration, NGOs, scholars, and the public to monitor and call attention to human rights abuses in the People's Republic of China, including specific cases.

The conferees encourage the Commission to continue building a staff composed of personnel with comprehensive experience in the field of human rights, the core component of the Commission's work. Within the amounts appropriated under this heading, the conferees expect the Commission to strengthen staff expertise in this area to better serve as an authoritative voice on human rights and human rights-related rule of law issues in China. The conferees urge that the Commission model itself on the Helsinki Commission, which has served as a visible and effective advocate for

democratic and human rights development in OSCE member countries since 1976.

The Congressional-Executive Commission on the People's Republic of China was authorized as part of the United States-China Relations Act of 2000 that established permanent normal trade relations with China. The Commission monitors the acts of the People's Republic of China that reflect compliance with or violation of international human rights standards and monitors the development of the rule of law, including the development of democratic institutions, reform of legal procedures, transparency of the legal system, and the establishment of an independent judiciary.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$308,822,000 for the salaries and expenses of the Equal Employment Opportunity Commission (EEOC) for fiscal year 2003.

The conferees note with concern the apparent lack of sound managerial and fiscal practices that have resulted in the Commission's projected shortfall in fiscal year 2003. The conferees expect the Commission to meet its requirements in fiscal year 2003 through savings realized in salary expenses and other operational costs.

The EEOC is directed to submit to the Committees on Appropriations, no later than sixty days from the enactment of this Act, a financial plan, including steps the Commission intends to take to control costs and stay within its fiscal year 2003 appropriation level.

The conference agreement includes language similar to that included in previous Appropriations Acts allowing not to exceed \$33,000,000 for payments to State and local FEPAs. This level of funding will allow the Commission to ensure that State and local FEPAs receive a contract rate of \$500 per charge. The conferees again encourage the EEOC to use the experience the FEPAs have in mediation, as the Commission expands its ADR programs.

The conference agreement also includes language similar to that included in previous Appropriations Acts allowing non-monetary awards to private citizens, and up to \$2,500 for official reception and representation expenses.

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

The conference agreement includes a total budget authority of \$271,000,000 for the salaries and expenses of the Federal Communications Commission (FCC) for fiscal year 2003, of which \$269,000,000 is to be derived from offsetting collections, resulting in a direct appropriation of \$2,000,000.

The conferees note with concern the apparent lack of sound managerial and fiscal practices that have resulted in the FCC exceeding its authorized full-time equivalent (FTE) level and the consequent budget shortfall projected in fiscal year 2003. The conferees direct the FCC to consult with the Committees on Appro-

priations on the Commission's plan to control costs and remain within its fiscal year 2003 appropriation and FTE levels.

The conferees are concerned about the declining standards of broadcast television and the impact this decline is having on America's children. An analysis of all prime-time programming has found that overall sexual content, foul language and violence have tripled over the past decade. In December 1999, the FCC issued a notice of inquiry regarding the public interest obligations of broadcasters during and after the transition to digital transmission. The conferees direct the Commission to continue to report to Congress on the issues associated with resurrecting a broadcast industry code of conduct of programming, that if adhered to by the broadcast industry, would protect against the further erosion of broadcasting standards.

The conferees continue to emphasize the importance of the FCC's commitment to the availability of high quality communications. In addition to technical quality, the conferees hope the Commission will continue to take steps toward carrying out its responsibilities under Title 18 of the United States Code, Section 1464. The conferees commend recent FCC efforts to take a more aggressive stance in curbing an assault of obscene matter over the airwaves while remaining cognizant of the Constitutional rights of our citizens.

In addition, the conferees laud the recent FCC enforcement actions against telephone companies operating "fat finger" dialing scams. The conferees encourage the FCC to continue working to make consumers aware of these scams and to take appropriate actions against companies operating them.

FEDERAL MARITIME COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$16,700,000 for the salaries and expenses of the Federal Maritime Commission (FMC) for fiscal year 2003. The conferees expect that any pay and inflationary increases shall be absorbed through hiring below attrition and other cost-cutting measures.

The Federal Maritime Commission is directed to provide a report to the Committees on Appropriation no later than June 1, 2003, on the Far Eastern Shipping Company's (FESCO) participation in the Grand Alliance Agreement in providing service in the United States-Russian Far East trade. Specifically, the FMC should report to the Committees on Appropriation whether or not FESCO should be reclassified as a controlled carrier.

FEDERAL TRADE COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$176,608,000 for the Federal Trade Commission (FTC), instead of \$174,508,000 as proposed by the House and \$175,148,000 as proposed by the Senate.

The conference agreement provides a \$2,100,000 increase, as requested, to address the physical security needs of the Commission's headquarters building. The Conferees direct the Commission

to coordinate its physical security enhancements with GSA to ensure that these upgrades are consistent with other security upgrades being implemented throughout Washington, D.C.

The Conferees direct the Commission to study the impact on underage consumers of the significant expansion of new ads for liquor-branded "alcopops" and report the Commission's finding to the Committee within six months of enactment of this Act. The Conferees are also concerned that the alcoholic-beverage industry has not implemented all of the recommendations of the 1999 Commission report, "Self Regulation and the Alcohol Industry," and that only one industry member has taken action to provide for independent review of complaints about its advertising. The Conferees urge the Commission to encourage the industry to adopt stricter advertising placement standards as well as establish an independent third-party review mechanism to limit the appeal and exposure of alcohol advertising to underage consumers and report back to the Committees on Appropriations no later than six months from enactment of this bill on the status of the implementation of these recommendations and whether further rule-making by the Commission is required.

The Conferees are aware of steps the Commission is taking to address consumer issues of particular concern to Hispanic Americans, including the hiring of bilingual outreach and legal staff, as well as the increased monitoring of Spanish-language advertisements, enforcement actions and education initiatives. The Conferees commend the Commission for its efforts to respond to the concerns of Hispanic Americans and encourages the Commission to continue its efforts to render effective consumer assistance.

The recommendation retains requested bill language prohibiting the use of funds to implement section 151 of the Federal Deposit Insurance Corporation Improvements Act of 1991 (FDICIA). The Conferees are concerned that the consumer protection intent of this law may be going largely unenforced. Further, the Conferees recognize that the Commission, who is assigned enforcement responsibility under section 151, may not be the appropriate Federal agency to regulate non-federally insured depository institutions. The Conferees direct the General Accounting Office to study enforcement of this provision, evaluate the risk to consumers if this provision is not enforced, and make recommendations on which Federal agency could most effectively enforce this provision. The Conferees expect this report to be submitted 180 days after enactment of this Act.

The Conferees are concerned that consumers are not adequately protected against telephone companies operating "fat finger" scams. The Conferees direct the Commission to work with the Federal Communications Commission to make consumers aware of these scams and take appropriate actions against companies operating them.

The Commission released a report two years ago that was very critical of the entertainment industry and their persistent and calculated marketing of violent games, movies, and music to children. In response to this report the entertainment industry has promised to place tougher regulations on itself and voluntarily comply with the report's recommendations. The Conferees believe that the FTC

should continue and expand its efforts in this area and directs the Commission to continue to engage in consumer research and workshops, underage shopper-retail compliance surveys, and marketing data collection.

The Commission is charged with monitoring compliance with the Children's Online Privacy Protection Act. The conference agreement ensures the agency is adequately prepared to meet the challenges of increased fraud on the Internet and the agency's recognition that Internet fraud is an international phenomenon since the Internet has no borders.

The conference agreement includes additional funding and authority to collect offsetting fees for the Commission's Do-Not-Call initiative under its Telemarketing Sales Rule. The Do-Not-Call initiative will establish a national database of telephone numbers of consumers who choose not to receive telephone solicitations from telemarketers. The Conferees understand that the Commission has adopted, prior to enactment of this legislation, the Do-Not-Call initiative as an amendment to its Telemarketing Sales Rule. The Conferees further understand that the Commission has developed a spending plan for the Do-Not-Call initiative. The Conferees recognize that these additional funds and fee collection authority are needed to implement the Do-Not-Call initiative, which has received broad support from, and will provide significant benefits to, consumers throughout the United States.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The conference agreement includes \$338,848,000 for the payment to the Legal Services Corporation. The Legal Services Corporation will provide \$9,500,000 in one-time grants equitably distributed among those service areas that will receive less funding in FY 2003 than they did in FY 2002 because of census-based reallocations.

ADMINISTRATIVE PROVISION

The conference agreement includes language to continue the terms and conditions included under this section in previous Appropriations Acts, except that section 501(a)(1) of Public Law 104-134 shall not apply to the use of \$9,500,000.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$3,050,000 for the necessary expense of the Marine Mammal Commission. Of the amounts provided, up to \$1,000,000 is available to fund an international conference, or series of conferences, to share findings, survey acoustic "threats" to marine mammals and develop means of reducing those threats while maintaining the oceans as a global highway of international commerce.

NATIONAL VETERANS BUSINESS DEVELOPMENT CORPORATION

The conference agreement includes \$2,000,000 for the National Veterans Business Development Corporation. The conferees note that the Corporation's authorizing legislation mandates that it institute a plan to raise private funds and become a self-sustaining corporation. The conferees encourage efforts by the Corporation to meet this goal.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$716,350,000 for the Securities and Exchange Commission, instead of \$776,000,000 as provided by the House and \$656,700,000 as provided by the Senate. In addition, \$29,439,000 in unobligated prior year balances previously appropriated is available to the Commission for a fiscal year 2003 operating level of \$745,789,000.

The conference agreement supports the continuation of pay parity for the SEC's staff, adds additional staff, and provides the funds necessary to improve the agency's monitoring systems. The conferees expect the SEC to provide quarterly reports to the Committees on Appropriations on the status of the implementation of these funds and the measures it is taking to restore the public's confidence in the financial markets.

The conferees understand the Commission plans on receiving 700 new staff and that the majority of these new staff would be allocated to the Divisions of Enforcement and Corporation Finance and the agency's inspection and examination program. The conferees require a spending plan be provided and approved.

The inability of Commission staff to conduct data-intensive analyses and examinations has hampered the Commission's investigative and enforcement efforts. In particular, the Commission has continued to struggle with the massive inflows of paper documents received in the course of its investigations. For this reason, the Committee recommendation includes an increase of not less than \$47,200,000 for information technology. This funding increase will allow for the development of a pilot document management system and the deployment of substantially more robust analytical tools for SEC examination staff. This increase also will allow the Commission to undertake a requirements analysis to determine how best to improve its corporate disclosure review activities so that investors are provided with enhanced protections and assurances of the validity of corporate financial disclosures.

The recommendation funds the necessary costs of additional security measures now required at the Commission's new headquarters building as a result of the September 11 attack and continuing threats to Federal facilities.

Exercise of options—The Conferees continue to be concerned that corporate insiders are enriching themselves at the expense of the commercial enterprises and stockholders for whom they work by exercising stock options immediately prior to companies' financial collapse. In fact, exercising stock options at times may actually

contribute to the bankruptcy of teetering corporations. Therefore, the Conferees recommend that the SEC provide monthly updates regarding the exercise of stock options by corporate officers and directors both electronically to the Senate Appropriations Committee as well as publicly on the Commission's Electronic, Data Gathering, Analysis, and Retrieval system (EDGAR). Specifically, the information shall include every corporate officer or director whose exercise of options under section 12 of the Securities and Exchange Act exceeds \$100,000 during each 30 day reporting period. The Committee recognizes the SEC's effort to begin making these disclosures available electronically in fiscal 2003 and expects the Commission to keep the Committee apprized of its progress in this regard.

The conference agreement includes bill language, similar to that included in previous appropriations acts, which: (1) allows for the rental of space; (2) makes up to \$3,000 available for official reception and representation expenses; (3) makes up to \$10,000 available for a permanent secretariat for the International Organization of Securities Commissions; and (4) makes up to \$100,000 available for governmental and regulatory officials.

SMALL BUSINESS ADMINISTRATION

The conference agreement provides a total of \$736,459,000 for the four appropriations accounts of the Small Business Administration (SBA). Detailed guidance for the four SBA appropriation accounts is contained in the following paragraphs.

SALARIES AND EXPENSES

The conference agreement includes \$314,457,000 for the salaries and expenses account of the SBA. Of the amount provided under this heading, \$176,882,000 is for operating expenses of the SBA. In addition, a total of \$138,854,000 from other SBA accounts may be transferred to and merged with the salaries and expenses account for indirect operating costs. This amount consists of \$129,000,000 from the Business Loans Program account and \$9,854,000 from the Disaster Loans Program account for the administrative expenses related to those accounts. The conferees also anticipate that the SBA will have an additional \$3,000,000 in fee receipts available for operating expenses. This will result in a total availability of \$318,736,000 for the operating expenses of the SBA, an increase of \$15,400,000 above the comparable fiscal year 2002 amount.

In addition, the conference agreement includes language under the Disaster Loans Program account providing that \$108,000,000 of the amount provided for administrative expenses may be transferred to and merged with the salaries and expenses account for the direct administrative costs of disaster loan making and servicing.

The conference agreement includes requested language authorizing \$3,500 for official reception and representation expenses, as well as language authorizing the SBA to charge fees to cover the cost of publications and certain loan servicing activities. The language also permits revenues received from all such activities to be

credited to the salaries and expenses account to be available for carrying out these purposes without further appropriations. The conference agreement includes the full amount requested for Low Documentation Processing Centers.

The conferees support efforts by the SBA to examine and implement organizational changes, both in Washington, DC and in the field, that result in greater operational efficiencies, cost savings, and improved delivery of SBA services to small businesses nationwide and look forward to the submission of subsequent detailed workforce transformation plans.

The conference agreement does not include requested language allowing the SBA to retain up to \$3,000,000 of increased collections of delinquent debt for qualified expenses.

Systems Modernization—The conferees note that \$32,000,000 has been appropriated for systems modernization at the SBA over the past four years, including funding for the loan monitoring system (LMS) and the joint accounting and administrative management system project (JAAMS). The conferees remain concerned about the lack of progress by the SBA in delivering tangible and timely systems improvements. The conferees expect that the SBA will use remaining balances obligated to FEDSIM in prior fiscal years for priority systems projects, including core LMS acquisitions, implementation of phase II of JAAMS, or effective alternatives that bring about meaningful systems improvements. Systems modernization expenditures during fiscal year 2003 from funds provided in previous fiscal years shall be subject to the submission of project spending plans through the reprogramming process in accordance with section 605 of this Act.

Non-Credit Programs—The conference agreement includes the following for the non-credit programs of the SBA:

Regulatory Fairness Boards/National Ombudsman	500,000
Advocacy Research	1,100,000
Veterans Programs	750,000
BusinessLINC	2,000,000
7(j) Technical Assistance Programs	1,500,000
Small Business Development Centers	89,000,000
SCORE	5,000,000
Women's Business Centers	12,500,000
Women's Business Council	750,000
Native American Outreach	2,000,000
Drug-free Workplace Program	2,000,000
Business Information Centers	475,000
Microloan Technical Assistance	15,000,000
PRIME Technical Assistance	5,000,000
Total, non-credit initiatives	137,575,000

Funding for any non-credit program not listed above shall be subject to the availability of funds and will be considered by the Committee on Appropriations in accordance with the section 605 of this Act.

Of the amounts provided for the Small Business Development Center (SBDC) program, \$2,000,000 is to continue the SBDC defense transition program and \$1,000,000 is for a regulatory compliance simplification program to increase coordination of environmental, Occupational Health and Safety Administration and Internal Revenue Service compliance requirements and to avoid duplication among programs for compliance assistance to small businesses.

The conferees believe that the Small Business Development Centers provide useful services to small businesses nationwide. Federal funding constitutes the seed funding for this program, which is leveraged by State, local and private funds.

The conferees expect that within the overall amount provided under this account, full funding will be provided for the operations of the Office of Advocacy, to include \$1,100,000 for Advocacy Research. The conferees direct the Office of Advocacy to document and report to the Committees on Appropriations by September 30, 2003 the number of small businesses owned by people with disabilities served by SBA credit and non-credit programs.

The conference agreement includes \$2,000,000 to continue funding for a drug-free workplace demonstration program to provide technical assistance to small business concerns seeking to start a drug-free workplace program.

The conference agreement includes \$1,500,000 for SBA's 7(j) Technical Assistance programs. Within this amount, funding is provided to continue executive education programs and programs to help small businesses adapt to a paperless procurement environment. Funding is also provided to continue minority enterprise development week activities. The conferees expect that the remaining balance of 7(j) funds will be awarded through the grants solicitation process.

The conference agreement includes \$2,000,000 for a Native American initiative. The conferees expect that this initiative will assist small business and economic development only in the most disadvantaged tribal areas. The conferees realize that not all Native American tribes, particularly those in remote areas experiencing severe economic hardship, may be aware of this and other SBA programs. The conferees expect the SBA to develop a strong outreach capacity with this initiative to ensure that underserved Native American tribes have the opportunity to participate in this program and other SBA non-credit and loan programs. The conferees direct the SBA to submit a spending plan for this initiative by April 30, 2003, through the regular reprogramming process.

Finally, the conferees direct the SBA to submit a report to the Committees on Appropriations no later than March 31, 2003 listing all personnel reassignments and lateral personnel actions executed at the GS-15 and senior executive service career civil service levels, over the past three fiscal years.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$12,422,000 for the Office of Inspector General of the Small Business Administration. The conference agreement assumes that, as in fiscal year 2002, the appropriation under this heading will be supplemented by an additional \$500,000, which may be transferred to this account, from the administrative expenses of the Disaster Loans Program account for oversight costs related to that program. The conference agreement includes resources for continued oversight of SBA's business loan portfolio and SBA's administration of the 7(a) and disaster loan programs and non-credit programs. The conferees expect the office to report on its progress in reviewing and auditing the agency's financial management systems.

BUSINESS LOANS PROGRAM ACCOUNT

The conference agreement includes \$218,086,000 under this account, consisting of: \$85,360,000 for the Business Loans Program account for subsidies for guaranteed business loans; \$3,726,000 for subsidies for direct business loans; and \$129,000,000 for administrative expenses related to business loan programs. The amount provided for administrative expenses may be transferred to and merged with the appropriation for SBA salaries and expenses to cover the common overhead expenses associated with business loans. In addition, the conference agreement includes a provision, also carried in previous years, which allows up to \$45,000,000 to remain available for two fiscal years.

7(a) Business Loan Program—The SBA 7(a) Business Loan Program serves as an important source of capital for America's small businesses. Each year, 40,000 or more small business concerns, who cannot obtain comparable credit elsewhere, turn to the 7(a) program for critical financing. The conferees have been concerned throughout the fiscal year 2003 budget process that the requested amount of \$85,360,000 for 7(a) budget authority would not provide for a credible business loan program level for fiscal year 2003, absent a correction to the SBA's subsidy rate calculation. Further, the conferees note that schemes put forth by the SBA in the budget request to offset the shortfall in the 7(a) Business Loan program never materialized, including high carryover balance estimates. As a result, the SBA has depended on solutions predicated on the enactment of separate authorization and appropriation measures to achieve an adequate program level. In 2001, the GAO estimated that on a cumulative basis since 1992, the SBA overestimated the cost of the 7(a) program by approximately \$958 million using inflated subsidy rate calculations, similar to those used for fiscal year 2003. The conferees understand that during fiscal year 2002, the SBA and the Office of Management and Budget developed a new econometric model to address flaws in the subsidy rate methodology to more accurately estimate defaults for the 7(a) Loan Program. The conferees support a recalculation of the 7(a) subsidy rate using this new econometric method in fiscal year 2003. In addition, the conferees direct the SBA to develop similar, more accurate econometric models during this fiscal year for use in other SBA loan and financing programs, especially the 504 Loan Program. The conferees expect the SBA to put forward credible program proposals for the 7(a) Business Loan Program account in future fiscal years.

7(a) Business Loan Cap—Beginning October 1, 2002, the SBA imposed a \$500,000 cap on the maximum loan size of 7(a) business loans with the justification that funding under any fiscal year 2003 continuing resolution would limit the amount of available funds for 7(a) and require the SBA to limit the size of individual loans. The conference agreement includes the requested amount of new budget authority for the 7(a) Loan Program for fiscal year 2003. The conferees therefore expect that, upon enactment of this Act, the SBA will remove the 7(a) loan cap or submit a written justification to the Committees on Appropriations and the Small Business Committees as to the necessity of such a cap.

The conferees support the participation of credit unions as authorized lenders for the guaranteed loan programs of the SBA, in accordance with the Small Business Act, as amended, and State and Federal regulatory requirements.

DISASTER LOANS PROGRAM ACCOUNT

The conference agreement includes \$191,494,000 for the Disaster Loans Program Account for loan subsidies and associated administrative expenses. The conference agreement includes new budget authority of \$73,140,000 for the subsidy costs of disaster loans, which when combined with estimated recoveries and balances of \$38,806,000 will provide for a loan program level of over \$800,000,000, which represents an average annual disaster loan program level.

The conference agreement includes \$118,354,000 for administrative expenses of carrying out the program, which may be transferred to and merged with appropriations for salaries and expenses. The conference agreement includes language specifying that, of the amount provided for administrative expenses, \$108,000,000 is for the direct administrative expenses of loan making and loan servicing, and \$9,854,000 is for indirect administrative expenses. The conference agreement also includes language requiring that any amount in excess of \$9,854,000 transferred to the salaries and expenses account for indirect administrative expenses shall be subject to reprogramming requirements, as detailed under section 605. In addition, the conference agreement retains language transferring \$500,000 of the amount provided for administrative expenses to the Office of Inspector General for audits and reviews of the disaster loan portfolio.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The conference agreement provides \$3,000,000 for the State Justice Institute (SJI), as proposed by the House instead of \$3,100,000 as proposed by the Senate.

The SJI is a private, non-governmental organization, which awards grants to improve the administration of justice in State courts. In addition to grants provided by SJI, State courts are also eligible to receive funding from many Office of Justice Programs' accounts such as the Byrne Formula program, Drug Courts, Criminal Identification Technology Act programs, Southwest Border Prosecutor Initiative, the Gun Violence Reduction Program, Juvenile Accountability Incentive Block Grant Program, Criminal Records Upgrade programs, Child Abuse Training for Judicial Personnel and Practitioners, Closed-Circuit Televising of Testimony for Children, and Violence Against Women—STOP Grants.

The fiscal year 2002 Conference Report recommended discontinuing Federal funding for this program in fiscal year 2003 and encouraged SJI to solicit private donations and resources from State and local agencies. The Conferees understand that the Institute has not been successful in its efforts to obtain non-Federal funds and has therefore included \$3,000,000 to keep SJI operating. The Conferees encourage SJI to continue to solicit donations in

order to fund its programs including asking for support from State, local and national bar associations. The Committees on Appropriations have received many letters of support for SJI from these organizations and State court judges. The Conferees feel that the bar associations and the States, who are the beneficiaries of SJI's work, should contribute to funding its programs.

TITLE VI—GENERAL PROVISIONS

The conference agreement includes the following General Provisions:

Sec. 601.—The conference agreement includes section 601 regarding the use of appropriations for publicity and propaganda purposes.

Sec. 602.—The conference agreement includes section 602 regarding the availability of appropriations for obligation beyond the current fiscal year.

Sec. 603.—The conference agreement includes section 603 regarding the use of funds for consulting purposes.

Sec. 604.—The conference agreement includes section 604 providing that should any provision of the Act be held to be invalid, the remainder of the Act would not be affected.

Sec. 605.—The conference agreement includes section 605 regarding the policy by which funding available to the agencies funded under this Act may be reprogrammed for other purposes.

Sec. 606.—The conference agreement includes section 606 regarding the construction, repair, or modification of National Oceanic and Atmospheric Administration vessels in overseas shipyards.

Sec. 607.—The conference agreement includes section 607 regarding the purchase of American made products.

Sec. 608.—The conference agreement includes section 608 prohibiting funds in the bill from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission (EEOC) similar to proposed guidelines covering harassment based on religion published by the EEOC in October 1993.

Sec. 609.—The conference agreement includes section 609 prohibiting the use of funds for any United Nations peacekeeping mission that involves U.S. Armed Forces under the command or operational control of a foreign national unless the President certifies that the involvement is in the national security interest.

Sec. 610.—The conference agreement includes section 610 that prohibits use of funds to expand the U.S. diplomatic presence in Vietnam beyond the level in effect July 11, 1995, unless the President makes a certification that several conditions have been met regarding Vietnam's cooperation with the United States on POW/MIA issues.

Sec. 611.—The conference agreement includes section 611 prohibiting any use of funds to implement a certain Memorandum of Agreement between the Federal Trade Commission and the Antitrust Division of the Department of Justice.

Sec. 612.—The conference agreement includes section 612 requiring agencies and departments funded in this Act to absorb any necessary costs related to downsizing or consolidation within the amounts provided to the agency or department.

Sec. 613.—The conference agreement includes section 613 limiting funding under the Local Law Enforcement Block Grant to 90 percent to an entity that does not provide public safety officers injured in the line of duty, and as a result separated or retired from their jobs, with health insurance benefits equal to the insurance they received while on duty.

Sec. 614.—The conference agreement includes section 614 that permanently prohibits funds provided in this Act from being used to promote the sale or export of tobacco or tobacco products, or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, provided such restrictions are applied equally to all tobacco or tobacco products of the same type. This provision is not intended to impact routine international trade services provided to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Sec. 615.—The conference agreement includes section 615 extending the prohibition on the use of funds to issue a visa to any alien involved in extrajudicial and political killings in Haiti, including exemption and reporting requirements.

Sec. 616.—The conference agreement includes section 616 that prohibits a user fee from being charged for background checks conducted pursuant to the Brady Handgun Control Act of 1993, and prohibits implementation of a background check system which does not require or result in destruction of certain information.

Sec. 617.—The conference agreement includes section 617 regarding amounts available under the Crime Victims Fund.

Sec. 618.—The conference agreement includes section 618 prohibiting the use of Department of Justice funds for programs that discriminate against, denigrate, or otherwise undermine the religious beliefs of students participating in such programs.

Sec. 619.—The conference agreement includes section 619 prohibiting the use of funds appropriated or otherwise made available to the departments of State and Justice to process visas for citizens of countries that the Attorney General has determined deny or delay accepting the return of deported citizens.

Sec. 620.—The conference agreement includes section 620 prohibiting the use of Department of Justice funds to transport a maximum or high security prisoner to any facility other than a facility certified by the Bureau of Prisons as appropriately secure to house such a prisoner.

Sec. 621.—The conference agreement includes section 621 that prohibits the use of appropriated funds to purchase certain audiovisual materials to be used by Federal prisoners for primarily recreational purposes.

Sec. 622.—The conference agreement includes section 622 regarding transfers of funds.

Sec. 623.—The conference agreement includes section 623 regarding the implementation of telecommuting programs.

Sec. 624.—The conference agreement includes section 624 making funds appropriated for a certain loan program available for the general 7(a) Business Loan Program.

Sec. 625.—The conference agreement includes section 625 providing additional amounts for the Small Business Administration Salaries and Expenses account for certain initiatives.

Sec. 626.—The conference agreement includes section 626 regarding the transfer of funds for an intermodal marine facility for the Port of Anchorage to the Maritime Administration.

TITLE VII—RESCISSIONS
DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION
WORKING CAPITAL FUND
(RESCISSION)

The conference agreement includes a rescission of \$78,000,000 from unobligated balances under this heading.

LEGAL ACTIVITIES
ASSETS FORFEITURE FUND
(RESCISSION)

The conference agreement includes a rescission of \$50,874,000 from unobligated balances under this heading.

IMMIGRATION AND NATURALIZATION SERVICE
IMMIGRATION EMERGENCY FUND
(RESCISSION)

The conference agreement includes a rescission of \$580,000 from unobligated balances under this heading.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION
COASTAL IMPACT ASSISTANCE
(RESCISSION)

The conference agreement includes a rescission of \$7,000,000 from unobligated balances under this heading.

DEPARTMENTAL MANAGEMENT
EMERGENCY OIL AND GAS GUARANTEED LOAN PROGRAM ACCOUNT
(RESCISSION)

The conference agreement includes a rescission of \$920,000 from unobligated balances under this heading.

RELATED AGENCIES

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

(RESCISSION)

The conference agreement includes a rescission of \$5,700,000 from unobligated balances under this heading. The conferees agree that this rescission represents an amount available in prior year excess fee collections.

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

(RESCISSION)

The conference agreement includes a rescission of \$13,750,000 from unobligated balances under this heading. The conferees agree that this rescission represents unobligated balances remaining from appropriations for New Markets Technical Assistance.

BUSINESS LOANS PROGRAM ACCOUNT

(RESCISSION)

The conference agreement includes a rescission of \$10,500,000 from unobligated balances under this heading. The conferees agree that this rescission represents unobligated balances remaining from appropriations for the New Markets Venture Capital Program.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follow:

	[in thousands of dollars]	
New budget (obligational) authority, fiscal year 2002		\$44,601,829
Budget estimates of new (obligational) authority, fiscal year 2003		44,019,021
House bill, fiscal year 2003		44,352,872
Senate bill, fiscal year 2003		44,939,792
Conference agreement, fiscal year 2003		44,773,730
Conference agreement compared with:		
New budget (obligational) authority, fiscal year 2002		+171,901
Budget estimates of new (obligational) authority, fiscal year 2003		+754,709
House bill, fiscal year 2003		+420,858
Senate bill, fiscal year 2003		- 166,062

DIVISION C

DISTRICT OF COLUMBIA APPROPRIATIONS, 2003

In implementing this agreement, the Departments and agencies should comply with the language and instructions set forth in House Report 107-716 and the Senate explanatory statement as delineated in the Congressional Record of January 15, 2003, pages

S469 through S492, that are not changed by the conference are approved by the committee of conference.

In the case where the language and instructions specifically address the allocation of funds, the Departments and agencies are to follow the funding levels specified in the Congressional budget justifications accompanying the fiscal year 2003 budget or the underlying authorizing statute and should give full consideration to all items, including items allocating specific funding included in the House report and the Senate explanatory statement. With respect to the provisions in the House report and the Senate explanatory statement that specifically allocate funds, each has been reviewed and those which are jointly concurred in have been included in this joint statement.

A summary chart appears later in this statement showing the Federal appropriations by account, the fiscal year 2003 request, the House and Senate recommendations, and the conference allowance.

The District of Columbia Appropriations Act, 2003, put in place by this bill, incorporates the following agreements of the managers:

TITLE I—FEDERAL FUNDS

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

The conference agreement includes \$17,000,000 for a Federal payment for resident tuition support as proposed by both the House and Senate.

Language was included in the District of Columbia Appropriations Act, 2002 requiring the Resident Tuition Support Program Office and the Office of the Chief Financial Officer to provide quarterly reports to the Committees on Appropriations of the House of Representatives and Senate on the use of resident tuition support funds by object class. The conferees are concerned that these reports have not been forthcoming. The conferees have included this reporting requirement again in the fiscal year 2003 appropriations bill and expect the Chief Financial Officer to submit these reports in a timely manner. The conferees request that the Chief Financial Officer include with the quarterly report due March 31, 2003, a second report reviewing the program, by quarter and in summary, since its inception.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE DISTRICT OF COLUMBIA

The conference agreement includes \$15,000,000 for a Federal payment for emergency planning and security costs in the District of Columbia as proposed by both the House and Senate. These funds are to reimburse the District for overtime expenses related to providing security at events related to Federal government activities and for costs of providing support to respond to immediate and specific terrorist threats or attacks in the District of Columbia.

The agreement includes a provision as proposed by the House to provide that this funding is available only after notice of its proposed use has been transmitted by the President to the Congress and such amount has been apportioned pursuant to chapter 15 of title 31, U.S.C. The Senate bill included a provision to require the Chief Financial Officer to submit a report, within 15 days of an ex-

penditure, to the President and the Committees on Appropriations of the House of Representatives and Senate detailing the expenditure of funds for public safety purposes.

The agreement also includes a modified provision to require that the Office of Management and Budget, in consultation with the United States Park Police, National Park Service, Secret Service, Federal Bureau of Investigation, United States Protective Service, Department of State, and the General Services Administration, review the National Capital Planning Commission study on "Designing for Security in the Nation's Capital" and report on the steps each agency will take to improve aesthetic the appearance of security measures no later than April 11, 2003. The Senate bill included a similar provision, but required the report no later than February 5, 2003. The House had no similar provision.

FEDERAL PAYMENT FOR HOSPITAL BIOTERRORISM PREPAREDNESS IN
THE DISTRICT OF COLUMBIA

The conference agreement includes \$10,000,000 for a Federal payment for hospital bioterrorism preparedness in the District of Columbia as proposed by the Senate. The House had no similar provision. Of this amount, \$5,000,000 is for the expansion of quarantine facilities and the establishment of a decontamination facility at Children's National Medical Center and \$5,000,000 is for construction of containment facilities at the Washington Hospital Center.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA COURTS

The conference agreement includes \$161,943,000 for a Federal payment to the District of Columbia courts, instead of \$160,545,000 as proposed by the House, and \$166,193,000 as proposed by the Senate. Included in this amount is \$1,500,000 above the President's request for the Integrated Justice Information System as proposed by both the House and Senate.

The agreement includes a provision as proposed by the Senate to allow the District of Columbia courts to reallocate not more than \$1,000,000 of the funds provided under this heading among items and entities funded under this heading 30 days after providing written notification to the Committees on Appropriations of the House of Representatives and Senate. The House had no similar provision.

The agreement also includes a provision proposed by the Senate to exempt the District of Columbia courts from violating section 446 of the District of Columbia Home Rule Act or any provision of subchapter III of chapter 13 of title 31, United States Code, on the use of interest earned on the Federal payment provided in the 1998 appropriations Act during fiscal year 1998. The House had no similar provision.

The conference agreement does not include funding or contract authority for guardian ad litem representation as proposed by the Senate under this heading. The House had no similar provisions. These provisions are addressed under Defender Services.

DEFENDER SERVICES IN DISTRICT OF COLUMBIA COURTS

The conference agreement includes \$17,100,000 for Defender Services in District of Columbia courts. In addition, the conferees direct Defender Services to use \$16,400,000 of unobligated balances to provide a total program level of \$33,500,000, instead of \$32,000,000 as proposed by the House, and \$34,000,000 as proposed by the Senate. Defender Services is currently carrying an unobligated balance of \$20,673,000. The conferees understand that costs in this program have historically been difficult to predict and there is a need to carryover some unobligated balances from year to year to ensure adequate financing of representation for vulnerable children and families and indigent defendants. However, the conferees believe the courts need to develop a better way of tracking these costs and request a preliminary report on how to achieve this goal no later than April 30, 2003.

The conference agreement includes \$1,500,000 to provide guardians ad litem to abused and neglected children in the District of Columbia Family Court. The agreement also includes language to allow the courts to enter into contractual agreements to provide guardian ad litem representation, training, technical assistance, and/or other services to improve the quality of guardian ad litem representation, including infrastructure development, as necessary. The conferees urge the courts to enter into these agreements with entities that have expertise in representing abused and neglected children, child welfare, adoption, guardianship, special education, and domestic violence.

The agreement does not include a provision as proposed by the House to allow unobligated funds from previous years to be used toward the portion of the amount under this heading which is attributable to increases in the maximum amounts which may be paid for representation services in the District of Columbia courts. The Senate bill contained no similar provision.

The agreement does not include a provision as proposed by the Senate to provide an increase in the hourly rate of defender services attorneys from \$65 per hour to \$75 per hour in fiscal year 2003 and from \$75 per hour to \$90 per hour in fiscal year 2004. The House contained no similar provision.

FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER
SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

The conference agreement includes \$154,707,000 for a Federal payment to the court services and offender supervision agency for the District of Columbia as proposed by both the House and Senate.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA DEPARTMENT OF
TRANSPORTATION

The conference agreement includes \$1,000,000 for a Federal payment to the District of Columbia Department of Transportation as proposed by both the House and Senate.

FEDERAL PAYMENT TO THE CHIEF FINANCIAL OFFICER OF THE
DISTRICT OF COLUMBIA

The conference agreement includes \$40,300,000 for a Federal payment to the Chief Financial Officer of the District of Columbia, instead of \$23,450,000 as proposed by the House, and \$15,000,000 as proposed by the Senate. These funds are for programs and activities to support economic development and infrastructure in the District and the health, education, and job training needs of District residents and are to be allocated as follows: \$50,000 for the American University Women & Politics Institute to contribute to the annual National Education for Women Leadership D.C. Program; \$100,000 for Project Reality to implement the Game Plan abstinence education program in the District of Columbia public schools; \$100,000 to Friends of Fort Dupont to restore and upgrade unused Fort Dupont baseball fields; \$100,000 to the Association for the Preservation of Historic Congressional Cemetery for repairs and renovations, including the cemetery's fence and the Public Vault; \$150,000 to the Capital Children's Museum to conduct a feasibility study of the proposed southwest waterfront site for a relocated museum in Washington, D.C.; \$150,000 for KidBiz 3000 for a reading comprehension, fluency, and vocabulary program; \$200,000 to the National Maritime Heritage Foundation to establish the National Maritime Heritage Program to create maritime education focused on youth training and tourism promotion initiatives in Washington, D.C.; \$250,000 for Values First, Inc. to continue to implement a values infusion program in the District of Columbia public schools; \$250,000 to the Best Friends Foundation to provide a youth development program to District of Columbia youth; \$250,000 to the National Music Center and Museum Foundation for a program to use the performing and visual arts as teaching and learning tools in the District of Columbia Public Education System; \$250,000 to the National Council of Negro Women, Inc. for renovations at 633 Pennsylvania Avenue; \$250,000 for the Washington Opera Education and Community Program to enhance classroom learning in District of Columbia Public Schools through music education and with the D.C. Arts Humanities Education Collaborative; \$250,000 for the Washington Lab School to continue the development of methodologies for teaching individuals with learning disabilities; \$250,000 for the Congressional Glaucoma Caucus Foundation to provide glaucoma screenings in low-income District of Columbia neighborhoods; \$250,000 for the Perry School Community Services Center to expand its job and career training programs to poor individuals in the District; \$275,000 for the DC Safe Kids Coalition to provide a child occupant protection program and to operate a child safety seat fitting station; \$300,000 to the International Youth Service and Development Corps for the Washington, D.C. Mentoring Friends Program and the People's House Hotline; \$300,000 to the Public Access Corporation of the District of Columbia for the Future Producers Program; \$300,000 to the Criminal Justice Coordinating Council for the District of Columbia; \$300,000 for the Washington Jesuit Academy to provide hardware and software to equip the Technology Innovation and Learning Lab; \$350,000 to the National Center for Manufacturing Sciences

for a partnership with the Excel Institute to develop a job training program for District residents; \$400,000 to the Excel Institute Adult Education Program for construction; \$400,000 for the Close-Up Foundation Capital Connection Program to provide a multi-year civic education residential program for 10th grade students in District of Columbia Public Schools; \$400,000 for Teach for America, DC, to recruit and train qualified college graduates to teach in understaffed and low-performing schools; \$500,000 to the Historical Society of Washington for capital improvements to the City Museum; \$500,000 to the United Negro College Fund Special Programs for a study on how the District of Columbia Public School System could improve the educational performance and achievement of its students; \$500,000 to the American Cities Foundation to collect national data and disseminate information to District entities on innovative approaches to the delivery of K-12 education; \$500,000 to the Innovative Emergency Management, Inc. to assist the Emergency Management Office in developing an evacuation plan for the District of Columbia; \$500,000 to the University of New Orleans Center for Hazards Assessment and the George Washington University Institute for Crisis, Disaster and Risk Management to assist the District in city security and emergency preparedness; \$500,000 to the Capitol City Career Development and Training Partnership to provide job training and career development services to District residents; \$500,000 to the Washington Center on Best Practices for assistance to and promotion of early education awareness programs; \$500,000 to the Caribbean American Mission for Education Research and Action to support the Mission's efforts to build linkages between Caribbean educational entities and District of Columbia and other regional higher education institutions for the purposes of sharing of U.S. expertise in educational methodologies; \$500,000 for Community Youth Connection to expand its mentoring to disadvantaged students; \$500,000 to the Metropolitan Council of Governments' District of Columbia Area Housing Trust Fund for development, rehabilitation, and construction of affordable housing in the Washington region; \$500,000 to the Milton Eisenhower Foundation to expand the Carver Terrace initiative and add another safe-haven mini-station in the District; \$500,000 to the Good Samaritan Foundation to acquire and renovate a building to expand outreach and mentoring services to at-risk District of Columbia youths; \$500,000 to Reach for Tomorrow to support a program that takes a multi-dimensional approach to working with middle school students in the District of Columbia; \$500,000 to the District of Columbia Metropolitan Police Department for Secures demonstration project with the Washington, D.C. Metropolitan Police Department to evaluate the effectiveness and technical utility of an automated gunshot detection system; \$500,000 to the Institute for Responsible Fatherhood to expand capacity to provide home-based counseling, education, training, and related services to low-income fathers and their families; \$600,000 to Second Chance Employment Services to increase capacity to provide additional job training opportunities for at-risk and low-income women in the District of Columbia; \$1,000,000 to Real World Schools to further develop and implement advanced technology curriculum models and learning reforms for secondary education in

the District of Columbia Public Schools; \$1,000,000 to the Whitman-Walker Clinic for infrastructure improvements; \$1,000,000 to the Metropolitan Washington Council of Governments to support the Regional Incident Communication and Coordination System; \$1,000,000 to the Council of Court Excellence to continue ongoing independent oversight, which will include an annual report to Congress on implementation of the District of Columbia Family Court Act of 2000 and the Adoption and Safe Families Act of 1997; \$1,000,000 to Green Door to renovate its clinic and community center to provide additional services to District of Columbia residents with severe mental illnesses; \$1,000,000 to continue demonstration of the "Active Cap" river cleanup technology on the Anacostia River which immobilizes river sediment contaminants and treats them in place; \$1,225,000 to Covenant House for construction of a new Community Service Center at Covenant House in S.E. Washington, D.C.; \$1,250,000 to the Excel Institute for operations in equal quarterly installments within 15 days of the beginning of each quarter; \$2,000,000 to the National Center for Manufacturing Sciences for civil infrastructure vulnerability assessment and implementation of resulting protection profiles; \$2,000,000 for Voyager Expanded Learning to implement the Voyager Universal Literacy System throughout all District of Columbia Public School kindergarten and 1st grade classes; \$2,000,000 to the SEED Foundation Charter School, the only urban public boarding school in the nation, for construction of the Academic Center; \$2,000,000 to St. Coletta of Greater Washington, Inc. for property acquisition and construction of a facility to provide services for mentally retarded and multiple-handicapped adolescents and adults in the District of Columbia; \$2,350,000 to the National Trust for Historic Preservation to restore the Lincoln Cottage and to create interpretive programs and exhibits at the site; \$2,500,000 to the Canal Park Development Association for development of a park on 2nd Street between I Street and M Street in Southeast Washington; and \$5,000,000 to Children's National Medical Center in the District of Columbia for capital and equipment improvements.

The conference agreement includes a modified provision to require each entity that receives funding under this heading to submit to the Committees on Appropriations of the House of Representatives and Senate, a report on the activities carried out with such funds by April 30, 2003. The House had a similar provision, but required the report no later than February 15, 2003. The Senate bill contained no similar provision.

FEDERAL PAYMENT FOR WATERFRONT IMPROVEMENTS

The conference agreement includes \$2,800,000 to continue improvements on the historic Potomac Southwest Waterfront, including rebuilding the docks, instead of \$1,000,000 as proposed by the House. The Senate bill contained no similar provision.

The agreement also requires the District of Columbia Department of Housing and Community Development to report on the activities carried out with these funds by April 30, 2003. The House had a similar provision, but required the report no later than February 15, 2003. The Senate bill contained no similar provision.

FEDERAL PAYMENT FOR ASBESTOS REMEDIATION

The conference agreement includes \$1,000,000 to reimburse Fairfax County, Virginia for remediation of asbestos on the former site of the Lorton Correctional Complex as proposed by the House. The Senate bill contained no similar provision.

The agreement also requires the General Services Administration to report on the activities carried out with these funds by April 30, 2003. The House had a similar provision, but required the report no later than February 15, 2003. The Senate bill contained no similar provision.

FEDERAL PAYMENT TO THE FIRE AND EMERGENCY MEDICAL SERVICES DEPARTMENT

The conference agreement includes \$2,000,000 to repair, renovate, and rehabilitate fire stations in need of capital improvements as proposed by the House. The Senate bill contained no similar provision.

The agreement also requires the District of Columbia Fire and Emergency Medical Services Department to report on the activities carried out with these funds by April 30, 2003. The House had a similar provision, but required the report no later than February 15, 2003. The Senate bill contained no similar provision.

FEDERAL PAYMENT FOR SPECIAL EDUCATION

The conference agreement includes \$3,000,000 to establish special education satellite facilities in the District of Columbia. The House proposed \$14,000,000 for a Federal payment for special education, including \$5,000,000 for transportation services and \$9,000,000 for satellite facilities. The Senate bill contained no similar provision.

The conferees are concerned about the increasing costs of delivering services to special education students. Several factors are responsible for these increases, many of which are interrelated, such as the increase in the special education population and the number of non-public placements. The conferees commend the Mayor and the Board of Education for their efforts to begin to reform the special education system in the District. A Special Education Task Force that was recently established has adopted and presented to the Mayor a Special Education Cost Savings Plan that has been certified by the Chief Financial Officer. The conferees are supportive of these efforts and concur with the District's fiscal year 2003 budget submission to dedicate \$27,000,000 in local funds for special education reform. In addition, the conferees provide \$3,000,000 in Federal funds to create additional campuses that will provide all special education students who live in the District with the opportunity to receive a public education in their own city. The conferees will continue to monitor the efforts of the District to reform the special education system.

FEDERAL PAYMENT FOR THE FAMILY LITERACY PROGRAM

The conference agreement includes \$4,000,000 for the family literacy program as proposed by the Senate, instead of \$5,000,000 as proposed by the House.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA WATER AND
SEWER AUTHORITY

The conference agreement includes \$50,000,000 for a Federal payment to the District of Columbia Water and Sewer Authority for the Combined Sewer Overflow Long-Term Plan, as proposed by both the House and Senate. The agreement also includes a provision that the Water and Sewer Authority provide a 100 percent match for the fiscal year 2003 Federal contribution, as proposed by the Senate. The House had a similar provision, but required the match to be made in fiscal year 2003.

FEDERAL PAYMENT FOR THE ANACOSTIA WATERFRONT INITIATIVE IN
THE DISTRICT OF COLUMBIA

The conference agreement includes \$5,000,000 for implementation of the Anacostia Waterfront Initiative as proposed by the Senate. The House had no similar provision.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA FOR CAPITAL
DEVELOPMENT

The conference agreement includes \$10,150,000 for a Federal payment to the District of Columbia for capital development, instead of \$24,298,000 as proposed by the House, and \$13,100,000 as proposed by the Senate. Included in this amount is \$150,000 for renovations at Eastern Market as proposed by the House, instead of \$100,000 as proposed by the Senate. Also included in this amount is \$10,000,000 for the Unified Communications Center as proposed by the Senate, instead of \$19,148,000 as proposed by the House.

The agreement does not include funding for the forensic laboratory. The House had \$5,000,000 and the Senate bill contained \$3,000,000 for this project. The District estimates the total cost of construction to be \$75,000,000 over three years. The conferees note that the District's capital budget does not include local funding dedicated to this project. While the conferees are supportive of the project, there are not sufficient Federal funds available for it in fiscal year 2003.

The conference agreement includes a provision to make these funds available until expended as proposed by the House. The Senate bill contained no similar provision.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA FOR PUBLIC
CHARTER SCHOOL FACILITIES

The conference agreement includes \$17,000,000 for a Federal payment to the District of Columbia for development of public charter school facilities, instead of \$16,000,000 as proposed by the House, and \$20,000,000 as proposed by the Senate. Included in this amount is \$4,000,000 to supplement the per pupil facilities allocation, \$5,000,000 for the Direct Loan Fund for Charter School Improvement, and \$8,000,000 for the Credit Enhancement Revolving Fund. The House provided \$16,000,000 for the Credit Enhancement Revolving Fund while the Senate bill included \$1,000,000 for the Office of Charter School Financing and Support, \$4,000,000 for the Per Pupil Allocation, \$5,000,000 for the Credit Enhancement

Fund for Public Charter Schools, and \$10,000,000 for the Direct Loan Fund for Charter School Improvement. The per pupil facilities allocation will establish a minimum allocation of \$1,500 per charter school pupil.

TITLE II—DISTRICT OF COLUMBIA FUNDS OPERATING EXPENSES

DIVISION OF EXPENSES

The conference agreement provides that operating expenses for the District of Columbia for fiscal year 2003 shall not exceed \$6,294,522,000, of which \$1,712,498,000 is from Federal funds, instead of \$6,434,709,000, of which \$1,770,948,000 is from Federal funds as proposed by the House, and \$6,433,359,000, of which \$1,824,578,000 is from Federal funds, as proposed by the Senate. The changes in the amounts reflect the revised budget submitted pursuant to Sec. 138 of H.R. 5521 of the 107th Congress, as reported by the Committee on Appropriations of the House of Representatives and actions taken by the conferees in the funding levels under the various appropriation headings.

GOVERNMENTAL DIRECTION AND SUPPORT

The conference agreement includes \$307,173,000 for governmental direction and support, including \$207,971,000 from local funds, \$80,854,000 from Federal funds, and \$18,348,000 from other funds, instead of \$303,586,000, including \$225,234,000 from local funds, \$60,004,000 from Federal funds, and \$18,348,000 from other funds as proposed by the House, and \$295,136,000, including \$225,234,000 from local funds, \$51,554,000 from Federal funds, and \$18,348,000 from other funds as proposed by the Senate.

Office of the Mayor—The conference agreement includes \$4,000,000 from Federal funds appropriated earlier in this Act for the family literacy program.

Office of the Chief Financial Officer—The conference agreement includes \$40,300,000 from Federal funds appropriated earlier in this Act for programs and activities to support economic development and infrastructure in the District and the health, education, and job training needs of District residents.

ECONOMIC DEVELOPMENT AND REGULATION

The conference agreement includes \$244,358,000 for economic development and support, including \$56,872,000 from local funds, \$97,796,000 from Federal funds, and \$89,690,000 from other funds, instead of \$258,539,000, including \$64,553,000 from local funds, \$97,796,000 from Federal funds, and \$96,190,000 from other funds as proposed by both the House and Senate.

The conference agreement earmarks \$725,000 for the Development of Employment Services as proposed by the House, instead of \$725,400 as proposed by the Senate.

PUBLIC SAFETY AND JUSTICE

The conference agreement includes \$622,531,000 for public safety and justice, including \$602,678,000 from local funds,

\$11,329,000 from Federal funds, and \$8,524,000 from other funds, instead of \$639,892,000, including \$620,039,000 from local funds, \$11,329,000 from Federal funds, and \$8,524,000 from other funds as proposed by both the House and Senate.

PUBLIC EDUCATION SYSTEM

The conference agreement includes \$1,206,169,000 for the public education system, including \$939,174,000 from local funds, \$208,470,000 from Federal funds, \$31,525,000 from other funds, and \$27,000,000 from the Medicaid and Special Education Reform Fund, instead of \$1,257,201,000, including \$980,206,000 from local funds, \$218,470,000 from Federal funds, \$31,525,000 from other funds, and \$27,000,000 from the Medicaid and Special Education Reform Fund as proposed by the House, and \$1,220,201,000, including \$980,206,000 from local funds, \$208,870,000 from Federal funds, and \$31,525,000 from other funds as proposed by the Senate.

District of Columbia Public Schools—The allocation includes \$902,936,000 for District of Columbia public schools, including \$713,494,000 from local funds, \$150,800,000 from Federal funds, \$11,642,000 from other funds, and \$27,000,000 from the Medicaid and Special Education Reform Fund, instead of \$944,157,000, including \$743,715,000 from local funds, \$161,800,000 from Federal funds, \$11,642,000 from other funds, and \$27,000,000 from the Medicaid and Special Education Reform Fund as proposed by the House, and \$903,157,000, including \$743,715,000 from local funds, \$147,800,000 from Federal funds, and \$11,642,000 from other funds as proposed by the Senate.

The conference agreement includes \$3,000,000 from Federal funds appropriated earlier in this Act to establish special education satellite facilities in the District of Columbia.

State Education Office—The allocation includes \$49,687,000 for the State education office, including \$22,594,000 from local funds, \$26,917,000 from Federal funds, and \$176,000 from other funds as proposed by both the House and Senate.

District of Columbia Public Charter Schools—The allocation includes \$142,711,000 for District of Columbia public charter schools, including \$125,711,000 from local funds and \$17,000,000 from Federal funds, instead of \$148,865,000, including \$132,865,000 from local funds and \$16,000,000 from Federal funds as proposed by the House, and \$132,865,000 from local funds as proposed by the Senate.

The conference agreement includes \$17,000,000 from Federal funds appropriated earlier in this Act for public charter school facilities development.

University of the District of Columbia—The allocation includes \$81,180,000 for the University of the District of Columbia, including \$49,462,000 from local funds, \$12,668,000 from Federal funds, and \$19,050,000 from other funds, instead of \$83,990,000, including \$52,272,000 from local funds, \$12,668,000 from Federal funds, and \$19,050,000 from other funds as proposed by both the House and Senate.

District of Columbia Public Libraries—The allocation includes \$27,363,000 for District of Columbia public libraries, including

\$26,216,000 from local funds, \$610,000 from Federal funds, and \$537,000 from other funds, instead of \$28,150,000, including \$27,003,000 from local funds, \$610,000 from Federal funds, and \$537,000 from other funds as proposed by both the House and Senate.

Commission on the Arts and Humanities—The allocation includes \$2,292,000 for the commission on the arts and humanities, including \$1,697,000 from local funds, \$475,000 from Federal funds, and \$120,000 from other funds, instead of \$2,352,000, including \$1,757,000 from local funds, \$475,000 from Federal funds, and \$120,000 from other funds as proposed by both the House and Senate.

HUMAN SUPPORT SERVICES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$2,451,818,000 for human support services, including \$1,002,284,000 from local funds, \$1,373,680,000 from Federal funds, \$52,987,000 from other funds, and \$22,867,000 from the Medicaid and Special Education Reform Fund, instead of \$2,474,297,000, including \$1,019,763,000 from local funds, \$1,378,680,000 from Federal funds, \$52,987,000 from other funds, and \$22,867,000 from the Medicaid and Special Education Reform Fund as proposed by the House, and \$2,500,297,000, including \$1,069,630,000 from local funds, \$1,377,680,000 from Federal funds, and \$52,987,000 from other funds as proposed by the Senate.

PUBLIC WORKS

The conference agreement includes \$320,357,000 for public works, including \$304,363,000 from local funds, \$5,669,000 from Federal funds, and \$10,325,000 from other funds, instead of \$324,828,000, including \$309,824,000 from local funds, \$4,669,000 from Federal funds, and \$10,325,000 from other funds as proposed by both the House and Senate.

The conference agreement includes \$1,000,000 from Federal funds appropriated earlier in this Act to implement transportation systems management initiatives and strategies.

RESERVE

The conference agreement includes \$70,000,000 for the reserve from local funds as proposed by both the House and Senate.

REPAYMENT OF LOANS AND INTEREST

The conference agreement includes \$260,951,000 for repayment of loans and interest from local funds, instead of \$267,451,000 from local funds as proposed by both the House and Senate.

REPAYMENT OF GENERAL FUND RECOVERY DEBT

The conference agreement includes \$39,300,000 for repayment of general fund recovery debt from local funds as proposed by both the House and Senate.

PAYMENT OF INTEREST ON SHORT-TERM BORROWING

The conference agreement includes \$1,000,000 for payment of interest on short-term borrowing from local funds as proposed by both the House and Senate.

CERTIFICATES OF PARTICIPATION

The conference agreement includes \$7,950,000 for certificates of participation from local funds as proposed by both the House and Senate.

SETTLEMENTS AND JUDGMENTS

The conference agreement includes \$22,822,000 for settlements and judgments from local funds as proposed by both the House and Senate.

WILSON BUILDING

The conference agreement includes \$4,194,000 for the Wilson building from local funds as proposed by both the House and Senate.

WORKFORCE INVESTMENTS

The conference agreement includes \$48,186,000 for workforce investments from local funds, instead of \$54,186,000 from local funds as proposed by both the House and Senate.

TOBACCO SETTLEMENT TRUST FUND

In November 1998, the District, 46 state governments and other jurisdictions signed the agreement, ending a four-year legal battle over medical treatment costs incurred for smoking-related illnesses. Under the settlement, the tobacco companies are scheduled to pay \$253 billion over 25 or more years. The receiving governments may use the funds for any purpose including issuance of revenue bonds.

In fiscal year 2001, the District securitized its settlement payments in exchange for a lump-sum payment to repay existing long-term debt and thereby generating relief from that debt service. In fiscal year 2003, \$49,867,430 in savings will be achieved. Of this amount \$49,867,000 will be placed into the District's Medicaid and Special Education Reform fund established by D.C. Law 14-190. These funds shall remain available until expended. From this fund, \$27,000,000 will be made available to the District's Public Education System and \$22,867,000 will be made available to the District's Human Support Services to fund Medicaid and special education reform activities within the District. These funds will ensure that adequate resources are available to support District-wide Medicaid costs.

NON-DEPARTMENTAL AGENCY

The conference agreement includes \$5,799,000 for the non-Department agency from local funds as proposed by both the House and Senate.

EMERGENCY PLANNING AND SECURITY COSTS

The conference agreement includes \$15,000,000 for emergency planning and security costs from Federal funds appropriated earlier in this Act as proposed by both the House and Senate.

ENTERPRISE AND OTHER FUNDS

WATER AND SEWER AUTHORITY

The conference agreement includes \$253,743,000 for the water and sewer authority from other funds as proposed by both the House and Senate.

WASHINGTON AQUEDUCT

The conference agreement includes \$57,847,000 for the Washington aqueduct from other funds as proposed by both the House and Senate.

STORMWATER PERMIT COMPLIANCE ENTERPRISE FUND

The conference agreement includes \$3,100,000 for the stormwater permit compliance enterprise funds from other funds as proposed by both the House and Senate.

LOTTERY AND CHARITABLE GAMES ENTERPRISE FUND

The conference agreement includes \$232,881,000 for the lottery and charitable games enterprise fund from other funds as proposed by both the House and Senate.

SPORTS AND ENTERTAINMENT COMMISSION

The conference agreement includes \$20,510,000 for the sports and entertainment commission, including \$5,000,000 from Federal funds appropriated earlier in this Act for implementation of the Anacostia Waterfront Initiative and \$15,510,000 from other funds as proposed by the Senate, instead of \$15,510,000 from other funds as proposed by the House.

The conferees note that the District of Columbia has developed plans for the design and construction of a Regional Sports Complex at Kenilworth Park, NE., Washington, D.C., a portion of which is owned by the National Park Service. The site, an area of approximately 50 acres, was a District landfill until the late 1960's when the landfill was capped.

The National Park Service has conducted a Preliminary Assessment/Site Investigation and a Remedial Investigation/Feasibility Study at the site. The latter study is in draft and has been coordinated with the District and the Environmental Protection Agency (EPA) Region III. As a result of regulatory reviews, the District has requested a Human Health Risk Assessment from the Centers for Disease Control and Prevention and the EPA Region III has extensive comments that will result in further investigations and require at least a year or more to complete.

The conferees urge the District of Columbia, specifically the D.C. Department of Recreation and D.C. Sports and Entertainment Commission to work with the National Park Service to develop a land use plan for the development of Kenilworth Park that could

be implemented in conjunction with remediation and report the results of that effort to the Committees on Appropriations of the House of Representatives and Senate no later than six months after enactment. The conferees recognize that before any plan can be implemented for this site, the environmental investigations and subsequent remediation will have to be completed.

DISTRICT OF COLUMBIA RETIREMENT BOARD

The conference agreement includes \$13,388,000 for the District of Columbia retirement board from other funds as proposed by both the House and Senate.

WASHINGTON CONVENTION CENTER ENTERPRISE FUND

The conference agreement includes \$78,700,000 for the Washington convention center enterprise fund from other funds as proposed by both the House and Senate.

NATIONAL CAPITAL REVITALIZATION CORPORATION

The conference agreement includes \$6,745,000 for the National capital revitalization corporation from other funds as proposed by both the House and Senate.

CAPITAL OUTLAYS

(INCLUDING RESCISSIONS)

The conference agreement includes \$671,020,000 for capital outlays, including \$555,097,000 from local funds, \$48,132,000 from Highway Trust funds, \$321,782,000 from Federal funds, and a rescission of \$253,991,000 from local funds appropriated under this heading in prior years, instead of \$666,367,780, including \$538,096,996 from local funds, \$48,131,855 from Highway Trust funds, \$334,130,057 from Federal funds, and a rescission of \$253,991,128 from local funds appropriated under this heading in prior years as proposed by the House, and \$981,527,780, including a rescission of \$253,991,128 from local funds appropriated under this heading in prior years as proposed by the Senate.

The conference agreement includes \$2,000,000 from Federal funds appropriated earlier in this Act to repair, renovate, and rehabilitate fire stations in need of capital improvements; \$2,800,000 from Federal funds appropriated earlier in this Act to continue improvements on the historic Potomac Southwest Waterfront; and \$10,150,000 from Federal funds appropriated earlier in this Act for capital development, of which \$150,000 is for renovations at Eastern Market and \$10,000,000 is for the Unified Communications Center. The conferees request that a report on the activities carried out with these funds be submitted to the Committees on Appropriations of the House of Representatives and Senate by April 30, 2003.

TITLE III—GENERAL PROVISIONS

The conference agreement changes several section numbers for sequential purposes and makes technical revisions to several provisions.

The conference agreement retains Sec. 105 as proposed by the Senate. The House proposed to make this section permanent law.

The conference agreement makes Sec. 108 permanent law as proposed by the House. The Senate bill contained no similar provision.

The conference agreement amends Sec. 112 to require the Mayor report to the Committees on Appropriations of the House of Representatives and Senate, as well as the Council, the new fiscal year 2003 revenue estimates as proposed by the House. The Senate bill contained no similar provision.

The conference agreement retains Sec. 113 as proposed by the Senate. The House proposed to make this section permanent law.

The conference agreement amends Sec. 120(b) to require the Chief Financial Officer of the District of Columbia to submit, by March 1, 2003, an inventory of all vehicles owned, leased or operated by the D.C. government. The House had a similar provision, but required the inventory by November 15, 2002. The Senate bill also contained a similar provision, but required the inventory by February 5, 2003.

The conference agreement includes Sec. 124 as proposed by the House to prohibit the use of any funds contained in this act for needle exchange programs. The Senate bill included a provision to prohibit the use of Federal funds contained in this Act for needle exchange programs.

The conference agreement amends Sec. 129 to require the Mayor to address access to substance and alcohol abuse treatment and consult with District of Columbia Public Schools and District of Columbia public charter schools on education reporting as proposed by the House. The Senate bill contained a similar provision, but it addressed only drug abuse treatment and required consultation with District of Columbia Public Schools only.

The conference agreement includes Sec. 130 to require a revised appropriated funds operating budget no later than 30 calendar days after the date of enactment of this Act as proposed by the Senate. The House had a similar provision, but required the revised operating budget no later than 30 days after date of enactment of this Act.

The conference agreement includes Sec. 132 to prohibit any Federal funds in this Act from being transferred to any department, agency, or instrumentality of the United States Government, except pursuant to authority in an appropriations Act as proposed by the House. The Senate bill contained no similar provision.

The conference agreement includes Sec. 133 to allow the District government to pay the settlement or judgment of a claim or lawsuit in an amount less than \$10,000 as proposed by the Senate. The House had no similar provision.

The conference agreement includes Sec. 137 to allow local funds appropriated under this Act to be available for use by the Office of Labor Relations and Collective Bargaining to reimburse the cost of providing representation as proposed by the House. The Senate bill contained a similar provision, but allowed all funds appropriated under this Act to be used for this purpose.

The conference agreement includes Sec. 138 to amend the United States Code and the D.C. Code to allow District of Colum-

bia court employees to participate in the Federal long-term care insurance program as proposed by the Senate. The House had no similar provision.

The conference agreement includes Sec. 139 to transfer \$560,000 of funds made available to the District of Columbia courts in the fiscal year 2002 appropriations Act to the District of Columbia Child and Family Services Agency for child abuse services as proposed by the Senate. The House had no similar provision.

The conference agreement amends Sec. 140 to require a report from the Comptroller General no later than June 2, 2003 providing a detailed analysis of the national effort to establish adequate charter school facilities, including a comparison of the efforts in the District of Columbia. The Senate bill contained a similar provision, but required the report no later than April 1, 2003. The House had no similar provision.

The conference agreement includes Sec. 141 to require the Mayor and Council to conduct an assessment of all buildings currently held in surplus and those that might be made available within one year of the date of enactment of this Act as well as a plan for occupying at least 50 percent of the space available at the time the report is submitted, which is within 180 days of enactment as proposed by the Senate. The House had no similar provision.

The conference agreement includes Sec. 142 to require the Mayor to establish and fulfill specific performance measures in administering funds provided under the heading "Federal Payment for Incentives for Adoption of Children," in Public Law 106-113 as proposed by the Senate. The House had no similar provision. The conferees are concerned that funds provided in 1999 to the District of Columbia government to promote the adoption of children have yet to be expended. The conferees supported the extension of the availability of funds in 2000 and the expansion of the purpose for which the funds may be used in 2001. However, the funds have still not met their original intent, to increase adoption of children in the foster care system in the District of Columbia. The District of Columbia shall submit quarterly reports on the expenditure of these funds and the implementation of the performance measures to the Committees on Appropriations of the House of Representatives and Senate.

The conference agreement includes Sec. 143 to establish an Office of Public Charter School Financing and Support and a Direct Loan Fund for Charter School Improvement within the District of Columbia as proposed by the Senate. The House had no similar provision.

The conference agreement includes Sec. 146 to amend the District of Columbia School Reform Act of 1995 to establish a Charter School Fund and transfer \$5,000,000 from this fund into the credit enhancement revolving fund as proposed by the Senate. The House had no similar provision.

The conference agreement includes Sec. 144 as proposed by the Senate to prohibit the use of any funds in this Act to pay the fees of an attorney who represents a party in an action or any attorney who defends any action, including an administrative proceeding, brought against the District of Columbia Public Schools under the

Individuals with Disabilities in Education Act in excess of \$4,000 for that action or to pay the fees of an attorney or firm whom the Chief Financial Officer of the District of Columbia determines to have a pecuniary interest, either through an attorney, officer or employee of the firm, in any special education diagnostic services, schools, or other special education service providers. The House has no similar provision.

The conference agreement includes Sec. 145 as proposed by the Senate to require attorneys in special education cases brought under the Individuals with Disabilities in Education Act (IDEA) to: certify in writing that the attorney rendered any and all services for which they receive rewards; require all attorneys in IDEA cases to disclose any financial, corporate, legal, membership on boards of directors, or other relationships with any special education diagnostic services, schools, or other special education service providers to which attorneys have referred any clients; require the Chief Financial Officer of the District of Columbia to prepare and submit quarterly reports on the certification of and the amount paid by the District of Columbia government, including the District of Columbia Public Schools, to attorneys in cases brought under IDEA; and allow the Inspector General of the District of Columbia to conduct investigations to determine the accuracy of the certifications. The House had no similar provision.

The conference agreement does not include a provision as proposed by the Senate to require District of Columbia Public Schools to conduct the evaluation and, if necessary, place the student in an appropriate program of special education services 120 days from the time a student is referred for evaluation or assessment. The House had no similar provision.

The conference agreement does not include a provision to prohibit any person or entity that violates the Buy American Act from receiving funds appropriated in this Act as proposed by the Senate. The House had no similar provision.

The conference agreement does not include a provision to amend the District of Columbia Home Rule Act to conform deposit dates of the emergency and contingency reserve funds as proposed by the House. The Senate bill contained no similar provision.

The conference agreement does not include a provision to require the District of Columbia to submit a revised financial plan and budget for the District government for fiscal year 2003 not later than October 2, 2002 as proposed by the House. The Senate bill contained no similar provision.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follow:

New budget (obligational) authority, fiscal year 2002	\$607,415
Budget estimates of new (obligational) authority, fiscal year 2003	378,752
House bill, fiscal year 2003	517,000
Senate bill, fiscal year 2003	512,000
Conference agreement, fiscal year 2003	512,000
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	−95,415

Budget estimates of new (obligational) authority, fiscal year	
2003	+133,248
House bill, fiscal year 2003	-5,000
Senate bill, fiscal year 2003	—

DIVISION D

ENERGY AND WATER DEVELOPMENT APPROPRIATIONS, 2003

The language and allocations set forth in House Report 107-681 and the Senate explanatory statement as delineated in the Congressional Record of January 15, 2003, pages S492 through S546, should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Such language should be considered approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate explanatory statement address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined that the House report and Senate explanatory statement are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

TITLE I

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs, and activities of the Corps of Engineers. Additional items of the conference agreement are discussed below.

The conferees remain concerned about the huge and increasing backlog of infrastructure development, maintenance, and repair over which the Corps of Engineers has jurisdiction. The Administration's proposed fiscal year 2003 budget would have caused the backlog of unconstructed projects to increase from \$40,000,000,000 to \$44,000,000,000, and ignores an accelerating critical maintenance backlog which would increase from \$702,000,000 to \$884,000,000. This maintenance backlog will soon become entirely unmanageable under the weight of an aging and crumbling inventory. Proposing no new studies and only one new construction start, under funding ongoing projects, and providing minimal operation and maintenance funding for completed projects leads the conferees to believe that the budget request may have been influenced by very narrow interest groups rather than the needs of the country. In the face of such an irresponsible position, the Congress has no option but to step forward in support of these vital projects.

The conferees are concerned that Corps of Engineers technical and planning capabilities have diminished over the past decade.

This diminished capability has been evident in recent studies, such as the Upper Mississippi and Illinois Waterway Navigation Study and the Delaware River Deepening project. The conferees urge the Corps of Engineers to review ways in which it can improve its capability, including concentrating its technical and planning expertise in regional centers. The Corps should report back to the House and Senate Appropriations Committees within one year on its findings.

GENERAL INVESTIGATIONS

The conference agreement appropriates \$135,019,000 for General Investigations instead of \$143,680,000 as proposed by the House and \$148,304,000 as proposed by the Senate.

The conference agreement includes \$1,000,000 for the Napa River Salt Marsh Restoration project in California, \$900,000 to complete the feasibility study, and \$100,000 to initiate preconstruction engineering and design.

The conference agreement does not include funds for the Port of Stockton, California, study proposed by the House. Funds for this work are included in the amount provided for the San Francisco Bay to Stockton, California, project in the Construction, General, account.

The conference agreement includes \$3,073,000 for the Corps of Engineers to complete the feasibility study and initiate preconstruction engineering and design for the Sacramento and San Joaquin Comprehensive Basin study in California.

The conference agreement does not include funds in this account for the Treatment of Dredged Material from Long Island Sound, Connecticut, project. Funds for the project are included in the Operation and Maintenance, General, account.

The conference agreement includes \$500,000 for the Corps of Engineers to perform a General Reevaluation Report for the Federal navigation project at St. Petersburg Harbor, Florida.

The conferees have provided \$450,000 for the Chesapeake Bay Shoreline Erosion, Maryland, Virginia, and Pennsylvania, study, including \$100,000 to initiate the shoreline erosion portion of the feasibility study.

The conference agreement includes \$1,500,000 for the Great Lakes Navigation System study. The conferees have included language in the bill allowing the Secretary, in pursuing this study, to partner with, and accept contributions from, the St. Lawrence Seaway Development Corporation and agents of the government of Canada. The conferees understand the need for an evaluation of the existing physical structures of the St. Lawrence Seaway to ensure the future viability of the system. However, the conferees are concerned about the scope of the ongoing study, primarily with respect to the environmental impact on the Seaway system as a whole and the St. Lawrence River in particular. Any significant disruption of the delicate balance of the St. Lawrence/Great Lakes ecosystem could have a detrimental impact on critical habitats and adversely affect the region's critical recreation, commercial and tourism industries. The conferees direct the Corps of Engineers to take into consideration the recreational, commercial, environmental and tourism impacts of any changes to the Great Lakes Ecosystem,

including impacts to the St. Lawrence Seaway as the Corps conducts its Great Lakes Navigation System study.

The conference agreement includes \$150,000 for the Corps of Engineers to continue shoreline monitoring and undertake other preconstruction engineering and design activities for the Manteo (Shallowbag) Bay, North Carolina, project. The conferees are aware that there are significant issues that remain to be resolved before this project can proceed to construction.

The conference agreement includes \$800,000 for the Mahoning River Environmental Dredging, Ohio and Pennsylvania, study, including \$100,000 to study the need for environmental dredging of the Mahoning River within the State of Pennsylvania.

The conferees have provided \$200,000 for continuation of the riverfront project in Cincinnati, Ohio. The conferees understand that the City has accelerated the planning and design of the project using non-Federal funds. It is the sense of the conference that these funds should be counted toward any non-Federal cost-sharing requirement. Therefore, the funding provided is to be used for assistance with the development of design and environmental compliance documentation.

The conferees have provided \$650,000 for the Walla Walla River Watershed, Oregon and Washington, study, including \$100,000 for the Corps of Engineers to work with the Walla Walla Watershed Alliance to investigate restoration of riparian habitat and river flow improvements in the basin.

The conference agreement includes \$1,800,000 for the Upper Trinity River Basin, Texas, study, including \$300,000 for the Dallas Floodway portion of the project and funds to continue the Trinity Visions project.

The conference agreement includes \$4,500,000 for the Coastal Field Data Collection Program, including \$1,000,000 for the Southern California Beach Processes study, and \$1,000,000 for hurricane evaluation studies in the State of Hawaii and U.S. Territories.

The conferees have provided \$8,000,000 for the Flood Plain Management Services program. Within the funds provided, the conferees expect the Corps of Engineers to carry out the work described in the House Report and Senate Explanatory Statement, including \$1,000,000 to continue the foundational geographic information system for flood plain management in East Baton Rouge Parish in Louisiana.

The conference agreement includes \$5,250,000 for Other Coordination Programs. Within the amount provided, the conferees direct the Corps of Engineers to undertake the activities described in the Senate Explanatory Statement.

The conference agreement includes \$6,500,000 for the Planning Assistance to States program. Within the funds provided, the conferees expect the Corps of Engineers to undertake the activities described in the House Report and Senate Explanatory Statement except for the work described in the House Report for Gwinnett County, Georgia, and the work in Alaska described in the Senate Explanatory Statement, which has been funded under the Tribal Partnership Program authorized by section 203 of the Water Resources Development Act of 2000. In addition, the conference agree-

ment includes \$300,000 for the statewide watershed management assessment for the State of Alabama.

Within the amount provided for Research and Development, \$2,000,000 is provided for innovative technology demonstrations for urban flooding and channel restoration. The conferees encourage the Corps of Engineers to cooperate with the Urban Water Research Program of the Desert Research Institute of Nevada in carrying out these demonstrations. In addition, \$500,000 is provided for submerged aquatic vegetation research as described in the Senate Explanatory Statement.

The conferees have agreed to include language in the bill proposed by the House related to the Southwest Valley Flood Damage Reduction study in New Mexico.

The conference agreement deletes language proposed by the House regarding the water resources needs of the central Gulf Coast area.

CONSTRUCTION, GENERAL

The conference agreement appropriates \$1,756,012,000 for Construction, General instead of \$1,831,030,000 as proposed by the House and \$1,636,602,000 as proposed by the Senate.

In the process of arriving at the agreed-upon distribution of funding, the conferees were aware of, and took into consideration, the effects on the capability of the Corps of Engineers to execute its fiscal year 2003 program of having functioned for nearly half the year under a series of continuing resolutions. Recognition of the restrictions associated with this mode of operation, and their inevitable impact, compelled the conferees to make several changes from the program that would have been enacted earlier.

The conference agreement includes \$19,000,000 for the Corps of Engineers to continue construction of the Rio Salado project in Arizona.

The conference agreement includes \$2,000,000 for the Sacramento Area, California, project for the Corps of Engineers to carry out the activities described in the House Report.

The conference agreement includes \$1,800,000 for the San Francisco Bay to Stockton, California, project, including funds for continuation of the General Reevaluation Reports on the Avon Turning Basin and the minimal deepening of San Francisco Bay to the Port of Stockton.

The conference agreement includes \$2,000,000 for the Tule River, California, Success Reservoir enlargement project. The conferees direct the Corps of Engineers to include the additional rock protection required on the approaches to the State Route 190 bridge as a project cost.

The conferees have included \$2,000,000 for the Broward County, Florida, project, including \$300,000 for the Corps of Engineers to prepare a General Reevaluation Report for implementation of Segment I of the project.

The amount provided for the Jacksonville Harbor, Florida, project includes \$500,000 for the Corps of Engineers to complete plans and specifications for the proposed extension of the channel and initiate a General Reevaluation Report regarding further improvements.

The conference agreement includes \$2,500,000 for the Palm Beach County, Florida, project for activities described in the House Report.

The conferees have provided \$3,000,000 for a portion of the Federal share of the costs of the Estero and Gasparilla segments of the Lee County, Florida, shore protection project. The conferees are aware that section 312 of the Water Resources Development Act of 1999 directed the Secretary to carry out the Captiva Island segment of the Lee County project in accordance with section 206 of the Water Resources Development Act of 1992; and also that section 309 of the Water Resources Development Act of 2000 authorized the Secretary to carry out the Estero and Gasparilla segments of the same project in accordance with section 206 of the Water Resources Development Act of 1992. The conferees urge the Secretary of the Army to enter into the required project cooperation agreements for the Captiva, Estero, and Gasparilla segments of the Lee County, Florida, project within six months of enactment of this Act into law and to include funds for these segments in future annual budget requests to Congress.

None of the funds provided for the Olmsted Locks and Dam project are to be used to reimburse the Claims and Judgment Fund.

The conferees continue to recognize the vital importance of the Inner Harbor Navigation Canal Lock, Louisiana, project and direct the Corps of Engineers to take every practicable action to ensure that construction proceeds expeditiously and that project benefits are delivered with dispatch.

The conferees have provided \$750,000 for the Mississippi River Gulf Outlet, Louisiana, project for the Corps of Engineers to continue the reevaluation study for the project.

The conference agreement includes \$200,000 for the Genessee County Environmental Infrastructure project in Michigan for work on the rain gauge system and the Kearsley Creek interceptor.

The conferees reiterate their support for the wastewater infrastructure needs of the Mille Lacs Band of Ojibwe and the Garrison-Kathio-West Mille Lacs Lake Sanitary District through continued construction of the Mille Lacs Regional Wastewater System connected to the regional wastewater treatment plant on the Mille Lacs Indian Reservation, as established in the Treaty of 1855, 10 Stat. 1165.

The conference agreement includes \$8,000,000 for the Mississippi Environmental Infrastructure project. The conferees expect the Corps of Engineers to use the funds to address the most critical water resources needs within the State of Mississippi.

The conferees have provided \$1,000,000 for the Rural Montana project. Within the funds provided, the Corps of Engineers should give consideration to Grant Creek, Missoula County, the cities of Belgrade, Helena, and the City of Conrad as described in the House Report.

The conference agreement includes \$10,000,000 to continue the Rural Nevada project. Within the funds provided, the Corps of Engineers is directed to give consideration to projects at Boulder City, Lyon County (Carson River Regional Water System), Gerlach, In-

cline Village, Round Hill, Mesquite, Moapa, Spanish Springs, Battle Mountain, Virgin Valley, Lawton-Verdi, and Esmeralda County.

The conferees are aware that the Corps of Engineers has made significant progress during calendar year 2002 to reorganize the Acequias Irrigation System construction project in New Mexico. The conferees are concerned, however, that the State of New Mexico's Interstate Stream Commission is facing funding shortfalls and is having difficulty garnering the needed resources as the non-Federal sponsor of the project. In addition, the conferees are also aware that there are delays in both the community ditch in north-west New Mexico, as well as in the Cuchillo project. The conferees continue to support this project and are hopeful that the outstanding issues will soon be resolved.

The additional funds provided for the Fire Island Inlet to Montauk Point, New York, project are to be used to carry out the activities described in the House Report.

The conference agreement includes \$8,000,000 for the South Central Pennsylvania Environmental Improvement Program. The funds are to be divided equally for work within the Corps of Engineers Baltimore and Pittsburgh Districts.

The conferees have provided \$8,500,000 for the Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota, project. Within the funds provided, \$1,000,000 shall be provided for administrative expenses. The Corps of Engineers is to distribute the remaining funds as directed by Title VI of the Water Resources Development Act of 1999 to the State of South Dakota, the Cheyenne River Sioux Tribe, and the Lower Brule Sioux Tribe.

The conference agreement includes \$2,000,000 for the Norfolk Harbor and Channels, Virginia, project, including funds to initiate deepening of the outbound channel.

The conference agreement includes \$85,000,000 for the Columbia River Fish Mitigation program in Washington, Oregon, and Idaho. Within the funds provided, \$300,000 is for a reconnaissance level investigation of Columbia River flood control operations for the Corps of Engineers to determine what changes, if any, would benefit endangered species, particularly salmon. Evaluation beyond the reconnaissance phase is subject to agency review and congressional notification.

The conferees direct the Corps of Engineers to undertake the projects listed in the House report and Senate explanatory statement and any additional projects described below for the various continuing authorities programs. The recommended funding levels for these programs are as follows: Section 206—\$20,000,000; Section 204—\$1,500,000; Section 14—\$10,000,000; Section 205—\$45,000,000; Section 111—\$2,000,000; Section 107—\$11,000,000; Section 1135—\$23,000,000; Section 103—\$5,000,000; and Section 208—\$1,000,000. The conferees are aware that there are funding requirements for ongoing continuing authorities projects that may not be accommodated within the funds provided for each program. It is not the intent of the conferees that ongoing projects be terminated. If additional funds are needed during the year to keep ongoing work in any program on schedule, the conferees urge the Corps of Engineers to reprogram funds into the program.

Under the Section 205 program, the conference agreement includes \$750,000 to initiate detailed plans and specifications for the Jackson Brook Watershed, Morris County, New Jersey, project. The conference agreement does not include funds for the Wind Lake, Wisconsin, project described in the House Report. In addition, \$500,000 is provided for the Corps of Engineers to initiate work on the flood damage reduction project on the James River in Greene County, Missouri.

Under the Section 14 program, \$200,000 is provided for the Kenosha Harbor, Wisconsin, retaining wall project.

Under the Section 107 program, the conference agreement includes \$500,000 to complete plans and specifications, negotiate the project cooperation agreement, and initiate construction of the Russellville Slackwater Harbor project in Arkansas. In addition, the conferees urge the Corps of Engineers to take whatever steps necessary within the funds available under Section 107 to begin work on the small boat harbor at Tatitlik, Alaska.

Under the Section 206 program, the conference agreement includes \$250,000 for the Arroyo Mocho, California, project for preliminary restoration planning followed by planning, design, and implementation studies; \$700,000 to complete the ecosystem restoration report, initiate and complete plans and specifications, and initiate construction of the Efroymson Restoration Project, Newton County, Indiana; and \$180,000 for the Long Lake, Indiana, project.

The conference agreement includes \$4,000,000 for the Aquatic Plant Control Program. Within the funds provided, the conferees expect the Corps of Engineers to carry out the activities described in the House Report and Senate explanatory statement.

The conferees have included language in the bill earmarking funds for the following projects in the amounts specified: San Timoteo Creek (Santa Ana River Mainstem), California, \$7,000,000; Southern and Eastern Kentucky, \$3,000,000; Clover Fork, City of Cumberland, Town of Martin, Pike County (including Levisa and Tug Fork Tributaries), Bell County, Harlan County in accordance with the Draft Detailed Report dated January 2002, Floyd County, Martin County, and Johnson County, Kentucky elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, \$26,100,000; Grundy, Buchanan, and Dickenson County, Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, \$13,400,000; and Lower Mingo County, Upper Mingo County, Wayne County, McDowell County, West Virginia elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River, \$5,500,000. The conference agreement also includes language proposed by the Senate directing the Corps of Engineers to continue the Dickenson County, Virginia, Detailed Project Report as defined by Plan 4 of the Huntington District Engineer's Draft Supplement to the Section 202 General Plan for Flood Damage Reduction, dated April 1997.

For the Pike County, Kentucky, element of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River project, the conferees direct the Secretary of the Army to amend the Project Cooperation Agreement and implement the project described in the

Pike County, Kentucky, Tug Fork Tributaries Detailed Project Report Supplement, dated January 2002.

The conference agreement deletes language proposed by the Senate regarding dispersal barriers in the Chicago Ship and Sanitary Canal in Illinois. Funding for this work is included in the amount appropriated for Construction, General.

The conference agreement includes language proposed by the House regarding the Bois Brule Drainage and Levee District project in Missouri, the Dallas Floodway Extension project in Texas, the Bowie County Levee project in Texas, and the Los Angeles Harbor project in California.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue construction of the Hawaii Water Management Project. The conferees have provided \$1,000,000 for the project.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue construction of the Kaunalapau Harbor, Hawaii, project. The conferees have provided \$1,000,000 for the project.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue construction of the Waterbury Dam, Vermont, project. The conference agreement includes \$2,000,000 for the project within the Dam Safety and Seepage/Stability Correction Program.

The conference agreement includes language proposed by the Senate regarding the Seward Harbor, Alaska, project; the Wrangell Harbor, Alaska, project; the Galena Bank Stabilization, Alaska, project; and the Devils Lake, North Dakota, project.

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBUTARIES, ARKANSAS, ILLINOIS, KENTUCKY, LOUISIANA, MISSISSIPPI, MISSOURI, AND TENNESSEE

The conference agreement appropriates \$344,574,000 for Flood Control, Mississippi River and Tributaries, instead of \$342,071,000 as proposed by the House and \$346,437,000 as proposed by the Senate.

The conference agreement includes \$37,790,000 for the Channel Improvement program. The amount provided includes \$700,000 for the Caruthersville-Linwood, Missouri, dike; \$200,000 for the Donaldson Point, Missouri, dike; and \$200,000 for the Island 7 & 8, Missouri, dike.

The conferees have provided \$47,885,000 for continued construction of the Mississippi River levees feature of the Mississippi River and Tributaries project, including \$2,300,000 to construct the Nash Road, Missouri, relief wells; \$2,325,000 for the Birds Point-New Madrid, Missouri, levee closure and box culvert; \$400,000 for wave wash protection along a portion of the main line levee near Tiptonville, Tennessee; and \$500,000 to continue engineering and design of the Lower Mississippi River Museum and Interpretive Site.

The conference agreement includes \$3,100,000 for the Corps of Engineers to continue construction of the St. Francis Basin project in Arkansas and Missouri, including \$100,000 for constructing

channel stabilization measures in Stoddard and Dunklin Counties in Missouri.

The conferees have provided \$20,000,000 for the Yazoo Basin, Mississippi, Delta Headwaters Project. The conferees agree that the work performed to date on this program by the Corps of Engineers and the Natural Resources Conservation Service has shown positive results in reduction of flood damages, decreased erosion and sedimentation, and improvements to the environment. Therefore, the conferees have agreed to rename the program to reflect the fact that it has now gone beyond the demonstration phase. These positive results show that continued funding for this effort is important, and that the entire program should be completed. This may well be a case where the completed program gives results that are much greater than the sum of the individual items of work. The funds included in the bill are for the Corps of Engineers to continue design, real estate acquisition, monitoring of completed work, and initiation of continuing contracts. The conferees expect the Administration to request funds for this important program until it is completed.

The conference agreement includes \$9,000,000 for maintenance of Mississippi River levees. The funds provided above the budget request are to be used to provide gravel surfacing to selected locations on levee roads in Arkansas, Mississippi, and Louisiana.

The additional funds provided for maintenance of the Atchafalaya Basin, Louisiana, project are for dewatering and major lock repairs to Berwick Lock.

The conference agreement includes language proposed by the Senate directing the Corps of Engineers to continue design and real estate acquisition and initiate the pump supply contract using continuing contracts for the Yazoo Basin, Yazoo Backwater Pumping Plant, Mississippi, project. The conferees have agreed to include \$10,000,000 for this work.

OPERATION AND MAINTENANCE, GENERAL

The conference agreement appropriates \$1,940,167,000 for Operation and Maintenance, General instead of \$1,990,280,000 as proposed by the House and \$1,956,182,000 as proposed by the Senate.

The amounts provided for the Black Warrior and Tombigbee Rivers and Alabama-Coosa River projects include \$250,000 and \$50,000 respectively, for the Corps of Engineers to perform maintenance dredging of backwater areas.

The conference agreement includes \$3,174,000 for operation and maintenance of the Alabama-Coosa River project in Alabama. Of the total provided, \$200,000 is for implementation of a system-wide geographic information system for the project.

The conference agreement includes \$24,000,000 for operation and maintenance of the Tennessee-Tombigbee Waterway project in Alabama and Mississippi. The funds provided above the budget request should be used for additional dredging of the navigation channel.

The conferees have provided \$750,000 for the Cook Inlet, Alaska, project for the Corps of Engineers to initiate a modeling study of the Upper Cook Inlet navigation channel in conjunction with the ongoing modeling study for the Anchorage Harbor project.

The conference agreement includes \$1,000,000 for the Corps of Engineers to continue the San Francisco Bay Long Term Management Strategy, including \$200,000 for the Oakland Harbor operation and maintenance project.

The conference agreement includes an additional \$250,000 each for the Cherry Creek Lake, Chatfield Lake, and Trinidad Lake projects in Colorado. Frequent inundation of recreation areas is causing health and safety problems that require repair or replacement of facilities. It is not the conferees' intent to alter the Corps of Engineers lease and property accountability policies. It is the conferees' understanding that the State of Colorado has agreed to cost share these projects on a 50-50 basis. It is also the understanding of the conferees that the Secretary of the Army will not assume, nor share in, the future cost of the operation and maintenance of these recreation facilities.

The conference agreement includes \$750,000 for the Corps of Engineers to plan for and enter into a continuing contract to implement a demonstration project for innovative dredged material treatment technology for maintenance dredging of Bridgeport Harbor, Connecticut, under authority of section 345 of the Water Resources Development Act of 2000.

The conferees have provided \$4,709,000 for operation and maintenance of the Apalachicola, Chattahoochee, and Flint Rivers project in Georgia, Florida, and Alabama. The amount provided includes annual dredging of the channel, normal operation and maintenance of the George W. Andrews lock, spot dredging of shoals, continued slough mouth restorations, continued restoration efforts at Corley Slough, and other routine operation and maintenance of the project.

The conference agreement includes \$175,000 for the Corps of Engineers to initiate design for a replacement for the existing breakwater at the Grand Marais Harbor, Michigan, navigation project.

The conferees have provided an additional \$500,000 for the Missouri River, Rulo to the Mouth, project to continue implementation of actions related to the U.S. Fish and Wildlife Service biological opinion.

The conference agreement includes \$4,200,000 for operation and maintenance of the Calumet Harbor and River project in Illinois, including \$750,000 for design, engineering, and rehabilitation of the stone dock, and funds for additional maintenance dredging of the project.

The conference agreement includes \$5,400,000 for operation and maintenance of the Carlyle Lake, Illinois, project, including \$250,000 for rehabilitation of the Dam West Campground.

The conferees have provided \$8,862,000 for operation and maintenance of the Wolf Creek Dam, Lake Cumberland, Kentucky, project. The additional funds are for the purchase and use of a skimmer boat to remove trash and debris from the lake, and to make safety and other necessary improvements to the boat ramps at Old Fall Creek, Tate Access, Camp Attrahunt, and Ramsey Point.

The conference agreement includes \$11,000,000 for the J. Bennett Johnston Waterway project in Louisiana, including \$1,000,000

for bank stabilization repairs and \$400,000 for dredging entrances to oxbow lakes.

The conferees have provided \$3,360,000 for the Clearwater Lake, Missouri, project. The additional funds are to be used for the preparation of a new Water Control Plan, the continuation of design and construction of additional high water recreational facilities, and to reduce the maintenance backlog at the project.

Within the funds provided for the Morehead City Harbor, North Carolina, project, \$300,000 is for the Corps of Engineers to complete the Section 933 study concerning placement of maintenance dredging material on the beaches of Bogue Banks.

The conference agreement includes additional funds for mosquito control and continued improvements to low water lake accessibility at the Garrison Dam, Lake Sakakawea, North Dakota, project.

The conference agreement includes \$7,000,000 for the Muskingum River Lakes, Ohio, project. The additional funds are for the Corps of Engineers to conduct a system operations study, develop a flood warning system, and conduct a water quality study of selective withdrawal concepts at Tappan Lake.

The additional funds provided for the Bonneville Lock and Dam project in Oregon and Washington are for continued activities related to implementation of the Federal Columbia River Power System Biological Opinion.

The conference agreement includes \$9,200,000 for the Columbia River at the Mouth, Oregon and Washington, project. The funds are to be used for routine operation and maintenance of the project, additional dredging, jetty evaluation, studies of alternative dredged material disposal, and a dredged material disposal demonstration project at Benson Beach.

The additional funds provided for the Raystown Lake, Pennsylvania, project are for the Corps of Engineers to make improvements to the road leading to the Susquehanna Campground.

The additional funds provided for the Tionesta Lake, Pennsylvania, project are for the Corps of Engineers to upgrade the campground at the project.

The conference agreement includes \$6,890,000 for the Cooper River, Charleston Harbor, South Carolina, project. The additional funds are for the Corps of Engineers to make a lump sum payment to the South Carolina Department of Natural Resources to perform future operations of the fish lift.

The conference agreement includes \$6,732,000 for the Denison Dam, Lake Texoma, Texas, project. Pursuant to Sec. 838 of Public Law 99-662, the additional funds are for the Corps of Engineers to study the proposed reallocation of storage at the lake to water supply.

The Corps of Engineers is directed to update the Master Plans for the Ball Mountain, North Springfield, Townshend, and Union Village Reservoirs in Vermont, within the funds provided for each project.

The amount provided for the The Dalles Lock and Dam project in Washington and Oregon includes \$250,000 for work needed to meet Biological Opinion requirements.

The conference agreement includes \$11,500,000 for the Grays Harbor and Chehalis River, Washington, project, including funds for rehabilitation of the north jetty, the entrance channel study, and maintenance of the south jetty.

The conferees have provided additional funds for the Corps of Engineers to continue the drift and debris initiative being undertaken at Bluestone Lake, West Virginia.

The conference agreement includes \$5,000,000 for the Corps of Engineers to complete the transfer of the locks on the Fox River to the State of Wisconsin.

The conference agreement includes language proposed by the House directing the Corps of Engineers to undertake recreation improvements associated with the pool raise at Waco Lake, Texas.

The conference agreement does not include language proposed by the House regarding maintenance of the Tennessee-Tombigbee Waterway.

The conference agreement includes language proposed by the House regarding improvements to recreational facilities and environmental restoration at the Hansen Dam feature of the Los Angeles County Drainage Area project in California. The conferees have provided \$3,160,000 for this work. The amount provided for the Los Angeles County Drainage Area project also includes \$100,000 for additional maintenance on the Compton Creek segment of the project.

The conference agreement includes language proposed by the Senate regarding operation and maintenance costs incurred by the State of Delaware for the SR1 Bridge over the Chesapeake and Delaware Canal. The language has been amended to provide for reimbursement of those costs between October 1, 2002, and September 30, 2003.

The conference agreement includes language directing the Corps of Engineers to rehabilitate the disposal area for the Bodega Bay, California, project, perform maintenance dredging, and make dredged material available to the non-Federal sponsor.

The conferees are aware of the lead-time required to repair and rehabilitate recreational facilities for the upcoming Lewis and Clark Bicentennial Commemoration. Therefore, the Corps of Engineers may, within available funds, perform maintenance and repair of these facilities as is considered necessary to accommodate the anticipated visitor population.

FLOOD CONTROL AND COASTAL EMERGENCIES

The conference agreement appropriates \$15,000,000 for Flood Control and Coastal Emergencies instead of \$20,000,000 as proposed by the House and \$20,227,000 as proposed by the Senate.

The conferees believe that stackable, modular floodwall systems that have recently been developed could provide a significant advantage over traditional methods of fighting floods. One such system, which utilizes a series of inter-connecting plastic cells to form a flood protection barrier when filled with sand, has been successfully tested at the Waterways Experiment Station in Vicksburg, Mississippi. Accordingly, the conferees expect the Corps of Engineers to utilize funds available in the Flood Control and Coastal Emergencies account to invest in a stackable, modular floodwall

system so that, like sandbags, the material can be stockpiled and be available for deployment in areas of the country prone to flooding.

REGULATORY PROGRAM

The conference agreement appropriates \$139,000,000 for the Regulatory Program instead of \$134,000,000 as proposed by the House and \$144,252,000 as proposed by the Senate.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The conference agreement appropriates \$145,000,000 for the Formerly Utilized Sites Remedial Action Program instead of \$150,000,000 as proposed by the House and \$140,298,000 as proposed by the Senate.

The conferees provide the Corps of Engineers with reprogramming authority for FUSRAP projects of up to 15 percent of the base of the receiving project. Reprogrammed funds must be excess to the source project.

GENERAL EXPENSES

The conference agreement appropriates \$155,151,000 for General Expenses instead of \$154,651,000 as proposed by the House and \$155,651,000 as proposed by the Senate.

The conference agreement includes language proposed by the House and the Senate which prohibits the use of funds to support a congressional affairs office within the executive office of the Chief of Engineers. This language has been included in Energy and Water Development Appropriations Acts since fiscal year 2000. The conferees continue to believe that an office of congressional affairs is unnecessary for the effective management of the Civil Works program by the Corps' headquarters, and the efficient coordination of Civil Works issues with Members of Congress and committee staff. The conferees are concerned that, despite the language that has been carried in this Act, the Office of Congressional Affairs has been involved in the exchange of Civil Works information between the headquarters and the Congress, at times causing delays in scheduling meetings and providing answers to Congressional inquiries. The conferees believe that the technical knowledge and managerial expertise needed for the Corps' headquarters to effectively address Civil Works authorization, appropriations, and policy matters resides in the Civil Works organization. Therefore, the conferees direct that the Office of Congressional Affairs not be part of the process by which information on Civil Works projects, programs, and activities is provided to the Congress.

In 1998, the Chief of Engineers issued a Command Directive transferring the oversight and management of the General Expenses account, as well as the manpower associated with this function, from the Civil Works Directorate to the Resource Management Office. The oversight and management of the Civil Works program lies solely with the Directorate of Civil Works, and it is funded through the General Expenses account to perform those duties. Both the House and Senate Committees expressed concern that the lack of oversight by the Director of Civil Works over the

General Expenses account could be having a detrimental impact on the performance of the Civil Works mission. Information recently provided by the Corps of Engineers regarding management of the General Expenses account has done nothing to lessen that concern. Therefore, the Corps of Engineers is directed to adhere to the guidelines described in the Senate explanatory statement regarding the allocation of non-labor discretionary General Expenses funds.

GENERAL PROVISIONS

CORPS OF ENGINEERS—CIVIL

Section 101.—The conference agreement includes language proposed by the House and the Senate which places a limit on credits and reimbursements allowable per year and per project.

Section 102.—The conference agreement includes language proposed by the House prohibiting the use of funds to support activities related to the Chicago Harbor Visitors Center.

Section 103.—The conference agreement includes language proposed by the Senate relating to the use of funds for closure or removal of the St. Georges Bridge across the Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland.

Section 104.—The conference agreement includes language proposed by the Senate amending section 595 (h) (1) of Public Law 106–53.

Section 105.—The conference agreement includes language proposed by the Senate amending the authorization for the St. Paul Island Harbor, Alaska, project.

Section 106.—The conference agreement includes language proposed by the Senate amending the authorization for the Abiquiu Dam, New Mexico, emergency gate project.

Section 107.—The conference agreement includes language proposed by the Senate amending the authorization for the Las Vegas Wash and Tributaries (Flamingo and Tropicana Washes), Nevada, flood control project.

Section 108.—The conference agreement includes language proposed by the Senate amending the authorization for the Atlantic Intracoastal Waterway Bridge Replacement at Great Bridge, Chesapeake, Virginia, project.

Section 109.—The conference agreement includes language proposed by the Senate regarding the Civil Works mission of the Corps of Engineers. The language has been amended so that it only applies to funds provided for fiscal 2003 in this or any other Act.

Section 110.—The conference agreement includes language proposed by the Senate amending the authorization for the Terminus Dam, Kaweah River, California, project.

Section 111.—The conference agreement includes language amending the authorization of the Little Calumet River Basin (Cady Marsh Ditch) Lake County, Indiana, flood control project.

Section 112.—The conference agreement includes language providing credit for environmental dredging feasibility study work done by the non-Federal sponsor on the Indiana Harbor, Indiana, navigation project.

Section 113.—The conference agreement includes language providing credit to a local sponsor for wetlands restoration work on the Brownsville Navigation Channel, Texas, navigation project.

Section 114.—The conference agreement includes language authorizing replacement of the Chickamauga Lock in Tennessee.

Section 115.—The conference agreement includes language authorizing construction of a project under provisions of section 205 of the Flood Control Act of 1948 for the James River, Green County, Missouri.

Section 116.—The conference agreement includes language amending the authorization of the Amite River and Tributaries, Louisiana, flood control project.

Section 117.—The conference agreement includes language prohibiting expenditure of funds related to a proposed landfill in Tuscarawas County, Ohio.

Section 118.—The conference agreement includes language amending the authorization of the Brunswick Harbor, Georgia, navigation project.

Section 119.—The conference agreement includes language providing credit for work done subsequent to authorization by a non-Federal sponsor on the expansion of the Savannah Harbor, Georgia, navigation project.

Section 120.—The conference agreement includes language providing credit for work done by a non-Federal sponsor for a project being constructed under section 206 of the Water Resources Development Act of 1996 at Rose Bay, Volusia County, Florida.

Section 121.—The conference agreement includes language requiring amendment of the shoreline management plan of Lake Cumberland, Kentucky.

Section 122.—The conference agreement includes language providing credit for work done after October 1, 2002, by a non-Federal sponsor on the Des Moines Recreational River and Greenbelt, Iowa, environmental restoration project.

Section 123.—The conference agreement includes language amending the authorization of the Turkey Creek Basin, Kansas City, Missouri, and Kansas City, Kansas, flood damage reduction project.

Section 124.—The conference agreement includes language imposing certain specific requirements for the design and construction of the Long Lake Environmental Restoration, Indiana, project to be constructed under section 206 of the Water Resources Development Act of 1996.

Section 125.—The conference agreement includes language extending the authorization for the Missouri and Middle Mississippi Rivers Enhancement project.

Section 126.—The conference agreement includes language establishing an environmental assistance program in Idaho.

Section 127.—The conference agreement includes language amending provisions of section 531 of the Water Resources Development Act of 1996 affecting Southern and Eastern Kentucky.

Section 128.—The conference agreement includes language providing that credit be provided a non-Federal sponsor for work done after the execution of the environmental dredging design amendment on the Ashtabula, Ohio, navigation project.

Section 129.—The conference agreement includes language making revisions to the geographic provisions of section 313 of the Water Resources Development Act of 1992, as amended.

Section 130.—The conference agreement includes language proposed by the Senate providing for corrective maintenance at the Herring Creek—Tall Timbers, Maryland, project.

Provisions not included in the conference agreement.—The conference agreement does not include language proposed by the House to reduce employment at the Chicago District office of the Corps of Engineers, language proposed by the House and Senate regarding the dredge MCFARLAND, and language proposed by the Senate regarding the American River Watershed project.

The conference agreement does not include language proposed by the Senate concerning private sector contracting percentages by the Corps of Engineers. It is the sense of the conferees that the Corps is meeting requirements in this area and that the Corps should continue its emphasis on “contracting out” work whenever that represents the best use of its limited funds.

TITLE II

DEPARTMENT OF THE INTERIOR

CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

The conference agreement appropriates \$36,228,000 to carry out the provisions of the Central Utah Project Completion Act as proposed by the House and the Senate.

BUREAU OF RECLAMATION

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs, and activities of the Bureau of Reclamation. Additional items of conference agreement are discussed below.

WATER AND RELATED RESOURCES

The conference agreement appropriates \$813,491,000 for Water and Related Resources instead of \$807,518,000 as proposed by the House and \$816,147,000 as proposed by the Senate.

The conference agreement provides \$1,097,000 for the South/Central Arizona Investigations program, including \$300,000 for the West Salt River Valley Water Management study.

The amount provided for the American River Division of the Central Valley Project includes \$500,000 for work associated with the construction of a parallel pipeline to serve the City of Roseville and the San Juan Water District; and \$750,000 for the Bureau of Reclamation to initiate construction of a temperature control device on the El Dorado Irrigation District water intake.

The amount provided for the Delta Division of the Central Valley Project includes \$900,000 for the Bureau of Reclamation to continue design of an intertie between the Delta-Mendota Canal and the California Aqueduct.

The amount provided for the East Side Division of the Central Valley Project includes an additional \$1,000,000 for the Bureau of Reclamation to continue work to upgrade the water and sewer systems at New Melones Lake and perform a visitor capacity study at New Melones Lake.

The amount provided for Miscellaneous Project Programs of the Central Valley Project includes \$300,000 for post-construction activities at the Banta-Carbona Irrigation District fish screen project; \$300,000 for an investigation of resource problems and needs in the Mokelumne River watershed; and \$400,000 for phase II of the Kaweah River Delta Corridor Enhancement study.

The amount provided for the Sacramento River Division of the Central Valley Project includes \$2,000,000 for the continuing evaluation of water diversion and fishery protection options at the Red Bluff Diversion Dam; \$400,000 for implementation of the Colusa Basin Integrated Resources Management Plan for critical flood control, conjunctive use, and waterfowl habitat activities; \$1,500,000 for the Bureau of Reclamation to accelerate investigations associated with determining the feasibility of construction at the Sites Reservoir and other activities described in the House Report; and

\$500,000 for the Bureau of Reclamation to participate with Butte County, California, in development of an integrated resource management plan.

The conference agreement includes \$1,342,000 for the Southern California Investigations Program, including \$200,000 for the Bureau of Reclamation to work with the Antelope Valley-East Kern Water Agency as described in the House Report, and \$300,000 for the Bureau of Reclamation to participate with the Santa Ana Watershed Project Authority in the Chino Basin Conjunctive Use Program.

The report requested in the House Report related to the City of Needles, California, should be provided 30 days after enactment of this Act.

The conference agreement includes \$3,000,000 for the Lake Tahoe Regional Wetlands Development Program in California and Nevada as proposed by the House and the Senate. The conferees have also agreed to include language in the bill which authorizes the Bureau of Reclamation to negotiate and enter into financial assistance agreements with public and private organizations for activities under the Program and which provides that costs associated with such activities are non-reimbursable.

The conferees direct the Bureau of Reclamation, under the Santa Margarita feasibility authorization, to perform the studies needed to address current and future municipal, domestic, military, environmental, and other water uses from the Santa Margarita River, California.

The conference agreement includes \$15,000,000 for the Columbia and Snake Rivers Salmon Recovery project in Idaho, Oregon, and Washington. Within the funds provided, \$500,000 is for continued fishery habitat improvements in the John Day River Subbasin project in Oregon.

The conferees are aware of the pending biological opinion in effect on the Rio Grande. In New Mexico, municipalities, farmers, and the silvery minnow all compete for water, a scarce resource. Add the current drought conditions, and a delicate balance must be maintained. Accordingly, the conference agreement for the Middle Rio Grande project includes funding for the following activities: \$3,834,000 for habitat restoration; \$1,615,000 for silvery minnow population management; \$480,000 for fish passage activities; \$200,000 for non-native species management; \$3,415,000 for water management activities; and \$507,000 for activities to improve water quality. The conferees direct the Bureau of Reclamation to consult with the Fish and Wildlife Service on silvery minnow monitoring and habitat efforts.

The conferees have provided \$707,000 for the Oklahoma Investigations Program, including \$500,000 for a hydrology and water resources management study of the Arbuckle-Simpson Aquifer.

The conference agreement includes \$4,599,000 for the Drought Emergency Assistance Program. Of the total, \$400,000 is for drought emergency planning in Nebraska; \$500,000 is to rehabilitate and replace existing wells and construct new wells in the City and County of Santa Fe, New Mexico; \$800,000 is for assistance to the State of Montana; and \$2,000,000 is for a regional weather modification program in the states of Kansas, Nevada, New Mex-

ico, Oklahoma, and Texas. The conferees also urge the Bureau of Reclamation to provide full and fair consideration of the request for drought assistance from the State of Hawaii.

The conferees are in agreement that funds made available in Public Law 107-117 and in this Act for increased site security and other counter-terrorism activities shall be non-reimbursable.

Within the funds provided for the Water Management and Conservation Program, \$500,000 is for water conservation programs within the service area of the Metropolitan Water District of Southern California.

The conference agreement includes \$3,500,000 for the Title XVI Water Reclamation and Reuse Program, including \$2,000,000 to support the WaterReuse Foundation's research program, and \$125,000 for an appraisal level investigation of water recycling opportunities in the Desert Hot Springs area of California. In addition, the Bureau of Reclamation is directed to undertake feasibility studies of the potential for water reclamation and reuse in North Las Vegas, Nevada, in cooperation with the Southern Nevada Water Authority.

The conference agreement includes \$4,000,000 for the Desalination Research and Development Program. Within the amount provided, \$3,000,000 is for construction of a national desalination research facility to be located in the Tularosa Basin, New Mexico. With the funds provided, the Bureau of Reclamation shall develop and implement a coordinated research investment strategy based on the Tularosa Basin National Desalination Research Center feasibility study developed during fiscal year 2002.

The conference agreement includes bill language which provides that \$10,000,000 of the funds appropriated for Water and Related Resources shall be deposited in the San Gabriel Basin Restoration Fund, instead of \$12,000,000 as proposed by the House.

The conference agreement does not include language proposed by the Senate related to drought assistance.

CENTRAL VALLEY PROJECT RESTORATION FUND

The conference agreement appropriates \$48,904,000 for the Central Valley Project Restoration Fund as proposed by the House and the Senate.

The conferees are in agreement with the language in the House Report regarding the Glenn-Colusa Irrigation District Fish Screen Improvement Project and the Anadromous Fish Screen Program.

CALIFORNIA BAY-DELTA ECOSYSTEM RESTORATION

The conference agreement includes no funds in the California Bay-Delta Ecosystem Restoration account as proposed by the House and the Senate.

The conferees have provided an additional \$23,000,000 within the various units of the Central Valley Project under the Water and Related Resources account for activities that support the goals of the California Bay-Delta Ecosystem Restoration Program, instead of \$30,000,000 as proposed by the Senate. The conferees are aware that legislation to authorize this multi-year, multi-billion dollar program is under consideration by the Congress, but has yet

to be enacted. Absent such an authorization, it will be difficult for the Congress to continue its support for this program. Therefore, the conferees strongly urge the parties involved to work to enact an authorization for the program so additional funding can be considered in the fiscal year 2004 appropriations cycle. The additional funds provided in support of the program are to be used as follows:

Delta Division: \$2,500,000 for planning and management activities; \$250,000 to continue evaluations of the Delta Wetlands project and other in-delta storage proposals; \$2,000,000 for planning activities associated with enlarging the Los Vaqueros reservoir; and \$3,500,000 to construct the Tracy Fish Test Facility.

Friant Division: \$1,750,000 for storage investigations in the Upper San Joaquin Watershed.

Miscellaneous Project Programs: \$9,000,000 for the Environmental Water Account.

Sacramento River Division: \$1,500,000 to continue planning activities related to Sites Reservoir.

Shasta Division: \$2,500,000 to continue evaluating the potential impacts of the proposed Shasta Dam raise.

ADMINISTRATIVE PROVISION

The conference agreement provides that funds available for the Bureau of Reclamation shall be available for the purchase of not to exceed 16 passenger motor vehicles, of which 12 are for replacement only, as proposed by the House, instead of the purchase of four passenger motor vehicles for replacement only as proposed by the Senate.

POLICY AND ADMINISTRATION

The conference agreement appropriates \$54,870,000 for Policy and Administration as proposed by the House and the Senate.

GENERAL PROVISIONS

DEPARTMENT OF THE INTERIOR

Section 201.—The conference agreement includes language proposed by the House authorizing the Bureau of Reclamation to continue its program of providing grants to institutions of higher learning to support the training of Native Americans to manage natural resources. The conferees have agreed to make the language permanent as proposed in the Administration's fiscal year 2004 budget request.

Section 202.—The conference agreement includes language proposed by the House and the Senate regarding the San Luis Unit and the Kesterson Reservoir in California.

Section 203.—The conference agreement includes language proposed by the House which amends section 212 of the Energy and Water Development Appropriations Act, 2001, related to the Sly Park Unit in California.

Section 204.—The conference agreement includes language proposed by the House which clarifies that the San Gabriel Basin Restoration Fund may be used to reimburse the Central Basin Municipal Water District for certain expenditures.

Section 205.—The conference agreement includes language proposed by the Senate establishing requirements for the purchase or lease of water from the Middle Rio Grande or Carlsbad projects in New Mexico.

Section 206.—The conference agreement includes language proposed by the Senate concerning drought emergency assistance.

Section 207.—The conference agreement includes language proposed by the Senate regarding the restoration of fish, wildlife, and associated habitats in watersheds of certain lakes.

Section 208.—The conference agreement includes language proposed by the Senate regarding contracting percentages for the Bureau of Reclamation.

Section 209.—The conference agreement includes language proposed by the Senate directing the Bureau of Reclamation to undertake studies for the North Central Montana Rural Water Supply project.

Section 210.—The conference agreement includes language proposed by the Senate extending the authorization for the Water Desalination Act of 1996.

Section 211.—The conference agreement includes language proposed by the Senate authorizing the North Las Vegas Water Reuse project.

Section 212.—The conference agreement includes language which provides that none of the funds appropriated or otherwise made available in this Division or any prior Energy and Water Development Appropriations Act may be used for the settlement agreement of Sumner Peck Ranch, Inc. v. Bureau of Reclamation (Civ. No F-91-048 OWW (E.D. Cal)).

Section 213.—The conference agreement includes language which amends the Salton Sea Reclamation Act of 1998. The conferees have also agreed to provide \$2,000,000 for the Bureau of Reclamation to continue the program to perform research and construct water reclamation and wetlands projects to improve water quality in the Alamo River and New River, Imperial County, California.

Section 214.—The conference agreement includes language authorizing the Bureau of Reclamation to conduct a feasibility study of options for additional water storage in the Yakima River Basin with emphasis on the feasibility of storage of Columbia River water in the potential Black Rock Reservoir. The conferees have provided \$1,000,000 for this work.

Section 215.—The conference agreement includes language proposed by the Senate related to certain CALFED-related activities undertaken by the Secretary of the Interior. The language has been amended to remove the reference to the CALFED Bay-Delta Authority. The conferees agree that this language does not authorize the CALFED Record of Decision.

TITLE III

DEPARTMENT OF ENERGY

The summary tables at the end of this title set forth the conference agreement with respect to the individual appropriations, programs, and activities of the Department of Energy. Additional items of conference agreement are discussed below.

BUDGET JUSTIFICATION REQUIREMENTS

The conferees agree with the House language regarding prior approval of proposed budget structure changes. The conferees also agree that budget justifications submitted by the Department must include a section identifying the last year that authorizing legislation was provided by Congress for each program, funding within each construction project data sheet for elimination of excess facilities at least equal to the square footage of new replacement facilities being requested, and funding to eliminate excess facilities at least equal to the square footage of new replacement facilities being constructed as general plant projects.

SAFEGUARDS AND SECURITY FUNDING

The conferees direct the Department to continue to identify safeguards and security funding as a separate line item in the budget justifications. The conferees also direct the Department to review contractor cost allocation practices to ensure that contractor practices are in compliance with the Cost Accounting Standards and that safeguards and security costs are not being allocated a disproportionate share of indirect costs. The Committees on Appropriations should be informed of the results of this review upon completion.

MANAGEMENT OF NON-NNSA WORK AT NNSA FACILITIES

The conferees direct the Secretary to report promptly to the House and Senate Committees on Appropriations regarding the procedures established pursuant to Sections 3264 and 3213 of Public Law 106-65, as amended by Section 3157 of Public Law 106-398. The report should include written copies of the tasking agreements, delegations of authority, or other arrangements that demonstrate compliance with these statutory provisions.

PROJECT MANAGEMENT

The conferees support language included in the House report regarding the efforts of the Office of Engineering and Construction Management (OECM) to improve the Department's construction and project management.

FACILITIES AND INFRASTRUCTURE

The conferees agree with House language regarding efforts to strengthen and standardize management of the Department's facilities and infrastructure (F&I) program and to address management of all F&I assets. The conferees do not agree with the House proposal to provide direct funding of all maintenance in the fiscal

year 2004 budget. However, the Department is directed to ensure that adequate funds are budgeted for facility maintenance and disposition, and that the amounts reported in the Integrated Facilities and Infrastructure crosscut budget will be expended solely for these purposes. Use of these funds for any other purpose will require advance approval by the Director, Office of Management, Budget and Evaluation. The Department is also directed to provide an annual year-end report on maintenance expenditures to the Committees on Appropriations.

EXCESS FACILITIES

The conferees agree with House language pertaining to excess facilities and the requirement to procure decontamination and decommissioning services and disposal of excess facilities through an open competitive process.

AUGMENTING FEDERAL STAFF

The conferees agree that the number of management and operating contractor employees assigned to the Washington metropolitan area shall not exceed 220 in fiscal year 2003, the same as the fiscal year 2002 ceiling. The reporting requirements remain as proposed by the House.

REPROGRAMMING GUIDELINES

The conferees agree with the House language on reprogramming guidelines. The conference agreement does not provide the Department of Energy with any internal reprogramming flexibility in fiscal year 2003 unless specifically identified by the House, Senate, or conference agreement. Any reallocation of new or prior year budget authority or prior year deobligations must be submitted to the House and Senate Committees on Appropriations in advance, in writing, and may not be implemented prior to approval by the Committees.

REDUCTIONS NECESSARY TO ACCOMMODATE SPECIFIC PROGRAM DIRECTIONS

The Department is directed to provide a report to the House and Senate Committees on Appropriations by March 30, 2003, on the actual application of any general reductions of funding or applications of prior year balances contained in the conference agreement. Such reductions are to be applied proportionately against each program, project, or activity. If necessary, the Department must submit a reprogramming to reallocate funds if the proportional reduction unduly impacts a specific program, project, or activity.

ENERGY SUPPLY

The conference agreement provides \$701,477,000 for Energy Supply instead of \$633,909,000 as proposed by the House and \$815,306,000 as proposed by the Senate.

RENEWABLE ENERGY RESOURCES

The conference agreement provides \$422,300,000 instead of \$396,000,000 as proposed by the House and \$448,062,000 as proposed by the Senate for renewable energy resources. The conference agreement does not include language specifying funding allocations as contained in the House report and Senate explanatory statement.

Biomass/biofuels.—The conference agreement includes \$90,000,000 for biomass/biofuels. The conferees have combined the subprograms for power systems and transportation into a single program for biomass/biofuels and no longer provide separate allocations for power systems and transportation. The Department is directed to fund not less than the budget request for Integrated Biorefinery Process Development and for Cellulose to Ethanol Production Facilities. The conferees direct the Department to continue the Iowa switchgrass project at agreed-upon levels.

The conference agreement includes \$3,000,000 for the Regional Biomass Energy Program; \$3,000,000 for corn bioproduct research in cooperation with the National Corn Growers Association; \$2,000,000 for the Consortium for Plant Biotechnology Research; \$3,000,000 for the Iroquois Bioenergy Cooperative in Indiana; \$2,000,000 for the Green Institute in Minnesota for combined heat and power from biomass; \$500,000 to continue hybrid poplar research in Wisconsin; \$2,000,000 for the Biomass Gasification Research Facility in Birmingham, Alabama; \$3,000,000 for the Winona Biomass Project in Mississippi; \$500,000 for the Fibrowatt Mississippi biomass project; \$2,500,000 for a cost-shared agricultural mixed waste biorefinery in Colorado using thermo-polymerization; \$1,000,000 for the oxydiesel demonstration program in California and Nevada; \$2,000,000 for the Michigan Biotechnology Initiative; \$500,000 for the Biomass Energy Resource Center in Burlington, Vermont; \$500,000 for the gasification of switchgrass in Iowa; \$1,000,000 for the National Agricultural-Based Industrial Lubricants Center; and \$400,000 for the Center for Biomass Utilization at the University of North Dakota.

Geothermal.—The conference agreement includes \$30,000,000 for geothermal activities. The conference agreement provides an additional \$1,400,000 for university research on geothermal energy and an additional \$1,800,000 for Geopowering the West. The conference agreement also includes \$1,000,000 for the Lake County Basin geothermal project in California and \$1,000,000 for geothermal research at the University of Nevada-Reno.

Hydrogen.—The conference agreement includes \$40,000,000 for hydrogen activities. From within available funds, the Department is directed to spend not less than \$3,000,000 for the continued development and validation of advanced proton exchange membrane fuel cells and metal membrane fuel purification technologies. The conference agreement also includes \$4,000,000 for the Ohio University fuel cell pilot project; \$1,000,000 for fuel cell research and development at the University of South Alabama Energy Center; \$2,000,000 for the Next Energy fuel cell demonstration project in Michigan; \$2,000,000 for an engineering study and evaluation of solar-powered thermo-chemical production of hydrogen from water;

\$1,000,000 for the fuel cell project at Gallatin County, Montana; and \$1,000,000 for the University of Nevada, Las Vegas, hydrogen filling station.

Hydropower.—The conference agreement includes \$5,300,000 for hydropower.

Solar Energy.—The conference agreement includes \$95,000,000 for solar energy programs. As in fiscal year 2002, the conferees have combined the concentrating solar power, photovoltaic energy systems, and solar building technology subprograms into a single program for solar energy, with the control level at the solar energy program account level.

The conference agreement includes funding for continuation of the Million Solar Roofs program at the prior year level; \$2,500,000 for the Southeast and Southwest photovoltaic experiment stations; \$2,500,000 for the Navajo electrification project; \$1,500,000 to continue development of advanced integrated power modules for photovoltaic applications; \$1,500,000 for the Palo Alto photovoltaic demonstration project in California; and \$115,000 for a renewable energy demonstration at the Hard Bargain Farm Environmental Center in Maryland. The conference agreement also provides \$4,000,000 for the National Center for Energy Management and Building Technology. Within available funds, the conferees direct the Department to spend not less than \$5,500,000 for the continuation of work on concentrating solar power.

Wind.—The conference agreement includes \$44,000,000 for wind programs. The Wind Powering America initiative is to be continued at the fiscal year 2002 funding level. In addition, the conference agreement includes \$500,000 for wind generating facilities for the Vermont Department of Public Service; and \$1,000,000 for a wind generation facility to serve St. Paul and Unalaska, Alaska.

The conferees continue to recognize the need for a set-aside for small wind programs.

Electric energy systems and storage.—The conference agreement includes \$85,000,000 for electric energy systems and storage. The conference agreement includes the budget request of \$9,000,000 for the joint Oak Ridge and Los Alamos effort to develop high-performance, low-cost, second-generation, high-temperature superconducting wire. The control level is at the electric energy systems and storage program account level.

The conference agreement includes \$3,000,000 to continue field testing of advanced aluminum matrix composite conductors; \$2,000,000 for the PowerGrid project in New Jersey and Pennsylvania; \$3,000,000 for the automated energy distribution and reliability system in Indiana; \$750,000 to Co-Op Plus of Western Massachusetts for installing and servicing fuel cells and distributing green electricity; \$2,000,000 for the distributed energy systems integration, demonstration and technology transition program at the Fuel Cell Test and Evaluation Center in Pennsylvania; \$350,000 for the Microgrid distributed generation prototype in Vermont; \$400,000 for the Diné Power Authority in New Mexico to continue development of the Navajo Transmission Project; \$5,000,000 for the Upper Lynn Canal power supply project in Alaska; \$5,000,000 for the Swan Lake-Lake Tye segment of the Southeastern Alaska Intertie System; \$2,000,000 for the Tok-to-Chistochina trans-

mission project in Alaska; \$1,000,000 to continue development of the bipolar nickel metal hydride battery storage system; \$2,500,000 for research, development, and demonstration of advanced thermal energy storage technology integrated with renewable thermal energy technology; and \$500,000 for the Natural Energy Laboratory in Hawaii to continue development and deployment of distributed energy systems.

Renewable Support and Implementation.—The conference agreement includes \$21,500,000 for renewable support and implementation.

The conference agreement provides \$1,500,000 for departmental energy management; \$4,000,000 for the international renewable energy program, including \$1,250,000 for International Utility Efficiency Partnerships; \$5,000,000 for the renewable energy production incentive program; \$6,000,000 for renewable Indian energy resources, including \$1,000,000 for the Council of Renewable Energy Resource Tribes (CERT) within available funds to provide technical expertise and training of Native Americans in renewable energy resource development and electrical generation facilities management; and \$5,000,000 for renewable program support, of which \$1,000,000 is to support the National Alliance for Clean Energy Incubators and \$4,000,000 is to continue the efforts of the National Renewable Energy Laboratory, through a virtual site office in Nevada, to develop renewable energy resources in the Southwestern United States.

National Renewable Energy Laboratory.—The conference agreement provides \$5,500,000 for the National Renewable Energy Laboratory (NREL), including \$800,000 for construction and \$500,000 to reduce the maintenance backlog.

Program direction.—The conference agreement includes \$16,000,000 for program direction.

Use of prior year balances.—The conference agreement includes the use of \$10,000,000 of prior year funds to be carried over from fiscal year 2002 to offset fiscal year 2003 requirements.

NUCLEAR ENERGY

The conference agreement provides \$261,688,000 for nuclear energy activities instead of \$213,698,000 as proposed by the House and \$324,108,000 as proposed by the Senate. The conference agreement does not include language specifying funding allocations as contained in the House report and Senate explanatory statement. The conferees revised the fiscal year 2003 budget structure for Radiological Facilities Management and Idaho Facilities Management to conform to the structure proposed in the fiscal year 2004 budget request.

Radiological Facilities Management.—The Office of Nuclear Energy, Science and Technology operates a variety of facilities and equipment to support the needs of space, defense, and medical customers who obtain radiological materials from the Department of Energy on a reimbursable basis.

Space and defense power systems infrastructure.—The conference agreement includes \$28,950,000 to maintain the infrastructure necessary to support future national security needs and National Aeronautics and Space Administration missions. The Depart-

ment is directed to provide \$2,500,000 for Neptunium-237 storage and Plutonium-238 production facilities at Oak Ridge National Laboratory.

Medical isotopes infrastructure.—The conference agreement includes a total program level of \$27,218,000 for the isotope program. This amount is reduced by offsetting collections of \$6,400,000 to be received in fiscal year 2003, resulting in a net appropriation of \$20,818,000. The conference agreement includes the request of \$1,721,000 for the Isotope Production Facility at the Los Alamos National Laboratory. Within available funds, the Department is directed to provide \$600,000 in additional funding for the Cyclotron Isotope Research Center at Brookhaven National Laboratory. The conference agreement provides an additional \$7,000,000 for upgrades of the hot cells at the Bethel Valley Hot Cell Complex.

The conferees recognize the potential medical value of alpha-emitting isotopes and direct the Department to proceed expeditiously with the project to extract thorium-229 from excess uranium-233 stored at Oak Ridge. The Department shall keep the Appropriations Committees fully informed at the key decision points in the project development process to ensure the Department is making sound business decisions on this project.

University reactor fuel assistance and support.—The conference agreement includes \$18,500,000, an increase of \$1,000,000 over the budget request. The additional funds are provided for the Department to fund additional regional university reactor consortia, and the conferees strongly encourage the Department to request sufficient funding in future years to fund all meritorious proposals.

Research and development.—The conference agreement provides \$75,000,000 for nuclear energy research and development activities. The conference agreement includes \$5,000,000 for nuclear energy plant optimization (NEPO), \$25,000,000 for the nuclear energy research initiative (NERI), and \$45,000,000 for nuclear energy technologies.

Within the funds provided for nuclear energy technologies, the conferees recommend that \$1,000,000 be allocated from within the funds provided for nuclear energy technologies for the joint DOE and NRC development of a licensing process that would be risk-informed and technology-neutral to support the future certification and licensing of advanced reactor designs. The conference agreement also provides \$2,000,000 within nuclear energy technologies for the purpose of accelerating the engineering evaluation of an integrated sulfur/iodine thermo-chemical water-splitting cycle for coupling with a high temperature nuclear reactor power source. Of this \$2,000,000, the conferees direct that \$750,000 be provided to the Research Foundation of the University of Nevada, Las Vegas, for the purpose of establishing a public-private partnership to develop and evaluate innovative high temperature heat exchangers. The conference agreement also includes \$2,000,000 within nuclear energy technologies to begin design work for a plant to demonstrate the viability of small modular reactors.

Domestic Enrichment Capability.—The conferees note that two private firms, the United States Enrichment Corporation and Louisiana Energy Services, are moving forward with plans to deploy advanced uranium enrichment technologies in the United States.

The Department is encouraged to make its expertise available on a reimbursable basis to support these private sector efforts. However, the interest and capability of the private sector to address future U.S. enrichment requirements obviates the need for the Department to pursue its own efforts on advanced enrichment technologies. The Department should reserve its limited research resources for those areas that are not adequately addressed by the private sector.

Fast Flux Test Facility.—The conference agreement transfers the Fast Flux Test Facility (FFTF) and its associated funding to the Non-Defense Environmental Management account.

Idaho Facilities Management.—The Department recently reassigned the lead responsibility for the Idaho National Engineering and Environmental Laboratory (INEEL) from the Office of Environmental Management to the Office of Nuclear Energy, Science and Technology. The conference agreement provides funding for a number of infrastructure activities under a new Idaho Facilities Management program account to reflect the new responsibilities of the Office of Nuclear Energy, Science and Technology for this site. The conference agreement provides \$42,770,000 for Idaho Facilities Management, including \$31,615,000 for ANL-West operations and \$8,815,000 for Test Reactor Area Landlord costs. In future fiscal years, all Idaho Landlord activities should be included within this account.

Advanced Fuel Cycle Initiative.—The conference agreement includes \$58,221,000 for spent fuel processing and advanced fuel cycles. This amount includes \$15,450,000 for EBR-II spent fuel treatment and \$2,771,000 for research and development on pyroprocessing of sodium-bonded spent fuel, the same as the budget request. The Department has recently proposed an Advanced Fuel Cycle Initiative (AFCI) that defines the future research program for technologies to treat spent nuclear fuel (AFCI Series One) and for advanced fuel cycles (AFCI Series Two). The conference agreement provides \$40,000,000 to support AFCI applied research. The conferees encourage the Department to seek active university participation in this research.

In order to ensure that the Department's AFCI can lead to useful and practical technologies, the Office of Nuclear Energy, Science and Technology is directed to provide Congress with an annual AFCI Comparison Report. The report will provide qualitative and quantitative information to enable Congress to compare the various technology approaches to managing commercial spent fuel. The first such report is due by May 30, 2003, and should be updated by May 30 each year thereafter so long as the Department continues its AFCI research activity. This report should include comparison matrices that contrast the advantages and disadvantages of possible fuel treatment and advanced fuel cycle technologies. The technologies should be evaluated with respect to energy and chemical inputs, product and waste stream outputs, proliferation considerations, estimated R&D and facility life cycle costs (i.e., capital, operating, and D&D, plus disposal of wastes), and the estimated number and type of facilities required. If the Department cannot provide specific, quantitative information (such as for yet-to-be developed technologies), it should identify in the matrices the esti-

mated dates by which ongoing R&D will provide the answers. Today's commercial light water reactor fuel cycle and spent nuclear fuel disposition should be used as the basis for comparison and to bound and define performance objectives for the new technologies.

One matrix should compare spent fuel treatment technologies, comparing advanced fast reactor systems, accelerator systems, and other existing and proposed reprocessing and transmutation technologies (e.g., PUREX, UREX, UREX+) against the current once-through approach with spent fuel from light water reactors. The second matrix should include a similar contrast of the advantages and disadvantages and facility requirements for advanced fuel cycles, and should specifically address the six innovative reactor concepts that the member countries of the Generation IV International Forum have agreed to pursue. The second fuel cycle matrix should also include consideration of thorium-uranium and thorium-plutonium fuel cycles and the gas turbine modular helium reactor.

Within the funds made available for AFCI, the conference agreement provides funding for the Department to pursue the recommendations of the joint U.S.-Russia task force on advanced reactor and fuel cycle technologies. The conference agreement also includes \$1,500,000 for the Idaho Accelerator Center and \$4,500,000 for AFCI-related research by the University of Nevada at Las Vegas.

Program direction.—The conference agreement includes \$23,439,000 for program direction.

Use of prior year balances.—The conference agreement includes the use of \$6,000,000 of prior year funds to be carried over from fiscal year 2002 to offset fiscal year 2003 requirements.

ENVIRONMENT, SAFETY AND HEALTH

The conference agreement provides \$22,700,000 for non-defense environment, safety and health activities, which includes \$15,860,000 for program direction.

Under the Science portion of this report, the Office of Science is directed to submit to the House and Senate Energy and Water Development Appropriations Subcommittees a report providing a detailed estimate of the cost of bringing the ten DOE Office of Science laboratories (named in House Report 107-112) into compliance with Nuclear Regulatory Commission (NRC) and Occupational Safety and Health Administration (OSHA) standards for nuclear safety and worker safety, respectively. To support this task, the Department is directed to transfer \$2,500,000 to the NRC and \$1,300,000 to OSHA. In addition, the Department is directed to transfer \$1,000,000 to OSHA to cover the costs of OSHA regulation of worker health and safety at those sites transferred to non-Federal entities and the Department's non-nuclear facilities not covered under the Atomic Energy Act.

TECHNICAL INFORMATION MANAGEMENT PROGRAM

The conference agreement moves the Technical Information Management program from the Energy Supply account to the Science account.

ENERGY SUPPLY INFRASTRUCTURE

The conference agreement does not include this new program as proposed by the Senate.

FUNDING ADJUSTMENTS

The conference agreement includes a general reduction of \$5,211,000.

NON-DEFENSE ENVIRONMENTAL MANAGEMENT

The conference agreement provides \$215,100,000 for Non-Defense Environmental Management instead of \$213,259,000 as proposed by the House and \$176,000,000 as proposed by the Senate.

Site closure.—The conference agreement includes \$95,000,000 for the West Valley site as proposed by the Senate. Funding for the program was moved from the Post 2006 program to the site closure program as proposed by the House.

Site/project completion.—The conference agreement provides \$57,425,000. This includes an additional \$15,000,000 for the Brookhaven National Laboratory and the transfer of \$8,847,000 for long-term stewardship activities to a separate program.

Post 2006 completion.—The conference agreement includes \$22,688,000 for Post 2006 completion activities. This includes the budget request of \$1,848,000 for Los Alamos and \$16,740,000 to continue the cleanup activities at the Energy Technology Engineering Center in California.

Funding of \$4,100,000, an increase of \$3,134,000, is provided for the Atlas uranium mill tailings site at Moab, Utah, to prepare a scientifically sound remediation plan. The conferees expect the Department to undertake an objective evaluation of costs, benefits, and risks associated with remediation alternatives for the site, including removal and stabilization in place or variations on these two options.

Fast Flux Test Facility.—The conference agreement includes the budget request of \$36,100,000 for the Fast Flux Test Facility at Richland, Washington, as proposed by the Senate and transfers the funding from the Energy Supply appropriation account as proposed by the House.

Long-term Stewardship.—The conference agreement includes \$14,180,000 for long-term stewardship activities as proposed by the House. The conferees are aware that the Department will be consolidating long-term stewardship and legacy management activities in the fiscal year 2004 budget, and these activities will no longer be managed by the Office of Environmental Management. Thus, the requirement for a review of the long-term stewardship program will be addressed as part of the fiscal year 2004 appropriation.

Excess facilities.—The conference agreement provides the budget request of \$1,841,000 for excess facilities to begin decontamination and decommissioning of excess facilities in the environmental management program.

Funding adjustment.—The conference agreement includes an adjustment of \$12,134,000 for the use of prior year balances.

URANIUM FACILITIES MAINTENANCE AND REMEDIATION

The conference agreement provides \$456,539,000 for uranium activities instead of \$382,154,000 as proposed by the House and \$471,154,000 as proposed by the Senate.

Uranium Enrichment Decontamination and Decommissioning Fund.—The conference agreement provides \$340,329,000 for activities funded from the uranium enrichment decontamination and decommissioning (D&D) fund. This amount includes \$324,329,000 for decontamination and decommissioning activities and \$16,000,000 for uranium and thorium reimbursements.

The conference agreement provides an additional \$34,000,000 for cleanup at the Paducah Gaseous Diffusion Plant, an additional \$65,000,000 for the East Tennessee Technology Park (ETTP), and an additional \$15,000,000 for thorium cleanup reimbursement. The amount provided for decontamination and decommissioning has been reduced by \$9,194,000 to pay for increased safeguards and security costs that are funded under the Defense Environmental Restoration and Waste Management account.

The General Accounting Office (GAO) is directed to conduct a study of the cleanup progress at the Paducah Gaseous Diffusion Plant in Paducah, Kentucky. Not later than six months after the date of enactment of this Act, the GAO shall submit a report to the House and Senate Committees on Appropriations, the Senate Energy and Natural Resources Committee, and the House Energy and Commerce Committee on the results of this study. The conferees direct the GAO not to displace any other requests by the House and Senate Committees on Appropriations.

Other Uranium Activities.—The conference agreement provides \$141,210,000 for other uranium activities. The conference agreement provides the requested amounts for the East Tennessee Technology Park, the Paducah Gaseous Diffusion Plant, and the Portsmouth Gaseous Diffusion Plant. The amount provided has been reduced by \$5,421,000 to pay for increased safeguards and security costs that are funded under the Defense Environmental Restoration and Waste Management account.

Funding adjustment.—The conference agreement includes the use of \$25,000,000 of prior year balances.

SCIENCE

The conference agreement provides \$3,305,894,000 instead of \$3,271,233,000 as proposed by the House and \$3,329,456,000 as proposed by the Senate. The conference agreement does not include language specifying funding allocations as contained in the House report and Senate explanatory statement.

High energy physics.—The conference agreement provides \$726,990,000 for high energy physics. The conferees have provided an additional \$2,000,000 for operations and activities of the program.

Nuclear physics.—The conference agreement provides \$384,370,000 for nuclear physics. The conferees encourage the Department to use these additional funds to enhance operation of the Relativistic Heavy Ion Collider (RHIC) at the Brookhaven National Laboratory and the Continuous Electron Beam Accelerator Facility

at the Thomas Jefferson National Accelerator Facility, and to continue research and development and preconceptual design in support of the Rare Isotope Accelerator.

Biological and environmental research.—The conference agreement includes \$530,000,000 for biological and environmental research. The conference agreement provides \$7,000,000 for the Savannah River Ecology Laboratory, \$20,000,000 in total funding for the low dose effects program, continues the free air carbon dioxide experiments at the current year level, and provides \$2,000,000 in additional funding for the EMSL computer. The conference agreement also includes \$4,000,000 for research on arsenic removal.

The conference agreement includes \$3,800,000 for infrastructure and equipment for the Wittenberg University Science Center; \$3,000,000 for the University of South Alabama Cancer Center; \$2,000,000 for the Institute for Biomedical Science and Biotechnology at the University of Arizona; \$1,200,000 for the University of Southern Florida Center for Biological Defense; \$1,000,000 for the Barry University Minority Science Center in Florida; \$1,000,000 for the Riverside Hospital Regional Cancer Center in Illinois; \$500,000 for the Stanley Scott Cancer Center in Louisiana; \$500,000 for the Western Michigan University Nanoscience Research and Computational Institute; \$1,000,000 for the North Mississippi Health Services Positron Emission Tomography Cancer Center; \$500,000 to upgrade the Drew University Hall of Science in New Jersey; and \$500,000 for the Environmental Systems Center at Syracuse University in New York.

The conference agreement includes \$4,600,000 for a Purdue University technology incubator in northwest Indiana; \$1,000,000 for the University of Notre Dame College of Engineering Multidisciplinary Research Facility; \$500,000 for vocational education programs at the Los Angeles Trade Technical College; \$500,000 for the fuel cell advanced materials and demonstration project at Humboldt State University in California; \$650,000 for the National Center for Neurogenetic Research and Computational Genomics at the University of Southern California; \$500,000 for the bioengineering research program at the University of Illinois at Chicago; \$500,000 for the Pioneer Valley Life Sciences Initiative between the University of Massachusetts and the Baystate Medical Center; \$250,000 for the Hampshire College National Center for Science Education in Massachusetts; \$500,000 for the Audubon Biomedical Science and Technology Park at Columbia University in New York; \$500,000 for the Center for Sustainable Energy at the Bronx Community College in New York; and \$500,000 for the Green Chemistry Project at Carnegie Mellon University in Pennsylvania.

The conference agreement includes \$10,000,000 for operations and capital investments at the Mental Illness and Neuroscience Discovery Institute; \$2,000,000 for the University of Missouri-Columbia nuclear medicine and cancer research program; \$1,000,000 for the University of Southern Maine School of Applied Sciences, Engineering, and Technology; \$1,000,000 for the Center for Environmental Radiation Studies at Texas Tech University; \$500,000 for the Legume Genome Initiative at the University of Oklahoma;

and \$500,000 for the University of Northern Iowa Existing Business Enhancement Program.

The conference agreement includes \$1,000,000 for the University of Louisiana-LaFayette National Wetlands Research Center; \$1,000,000 for the Medical University of South Carolina; \$500,000 for a Magnetic Resonance Microscope at the Children's Hospital of Los Angeles; \$500,000 for a PET/CT scanner at Christiana Care Health System in Delaware; \$500,000 for the Natural Energy Laboratory in Hawaii; \$500,000 for a CT scanner at Edward Hospital in Illinois; \$500,000 for the University of Massachusetts at Boston Multidisciplinary Research Facility and Library; \$1,000,000 for the Nevada Cancer Institute; \$500,000 for the Inland Northwest Natural Resources Research Center at Gonzaga University; \$500,000 for the Morgan State University Center for Environmental Toxicology; \$450,000 for nanotechnology applications at Western Michigan University in partnership with Altair; \$250,000 for the International Water Institute; \$450,000 for the New York University Genomics Project; \$1,000,000 for the linear accelerator at the University Medical Center of Southern Nevada; \$500,000 for the Indiana Genomics Initiative at Indiana University; \$250,000 for the Boston University Photonics Center; \$100,000 for the Nevada Space Grant Consortium at the Desert Research Institute; and \$500,000 for the Public Health Research Institute Rapid Detection for Bioterrorism program in New Jersey.

Basic energy sciences.—The conference agreement includes \$1,030,000,000 for basic energy sciences. The conference agreement includes \$551,378,000 for materials sciences and engineering research, and \$221,551,000 for chemical sciences, geosciences, and energy biosciences. For purposes of reprogramming in fiscal year 2003, the Department may reallocate funding among all operating accounts within Basic Energy Sciences.

The conference agreement provides the requested amounts of \$210,571,000 for construction of the Spallation Neutron Source, \$6,000,000 for project engineering and design (PED) for the Linac Coherent Light Source at the Stanford Linear Accelerator Center, and \$24,000,000 for the design and construction of the Oak Ridge Center for Nanophase Materials Sciences. The conference agreement provides \$4,500,000 in additional funding to complete PED and initiate construction of the Center for Integrated Nanotechnologies, and an additional \$1,000,000 to initiate PED in fiscal year 2003 for the Brookhaven Center for Functional Nanomaterials.

The conference agreement also provides \$11,985,000 for the Experimental Program to Stimulate Competitive Research (EPSCoR).

Advanced scientific computing research.—The conference agreement includes \$172,625,000 for advanced scientific computing research (ASCR), an increase of \$3,000,000 over the budget request. The conferees provide these additional funds for the Department to pursue alternative approaches to advance the United States capability in advanced scientific computing. The recent developments by the Japanese on scientific supercomputing are cause for concern. The conferees strongly support DOE's role in Advanced Scientific Computing development missions, and will consider a request for

reprogramming of fiscal year 2003 funds in order for U.S. manufacturers and laboratories to address the recent developments by Japan relating to the Earth Simulator.

Energy research analyses.—This activity is transferred as a subprogram under Science Program Direction.

Science laboratories infrastructure.—The conference agreement provides \$45,680,000 for science laboratories infrastructure, including a total of \$8,000,000 for excess facilities disposition.

Fusion energy sciences.—The conference agreement includes \$250,000,000 for fusion energy sciences, an increase of \$1,505,000 over fiscal year 2002. The conferees note that the fiscal year 2002 funding level included \$19,604,000 for the completion of decontamination and decommissioning of the Tokamak Fusion Test Reactor (TFTR), leaving \$228,891,000 available for fusion research and facility operations in fiscal year 2002. By comparison, the conference agreement for fiscal year 2003 makes this \$19,604,000, plus an additional \$1,505,000, available for fusion research and facility operations, an increase of 9.2 percent over the comparable amount available in fiscal year 2002.

Within the funding available for fusion energy sciences, the Department should make additional funding of \$1,500,000 available to the Princeton Plasma Physics Laboratory to support the National Spherical Torus Experiment (NSTX) research, NSTX operations, and preliminary design for the National Compact Stellarator Experiment (NCSX). Within available funding, the Department should report back to the Appropriations Committees no later than August 1, 2003, with an evaluation of the “fast ignition” concept and with any recommendations regarding the schedule and milestones of the High Energy Density Physics Program.

Safeguards and security.—The conference agreement includes \$48,765,000 for safeguards and security activities at laboratories and facilities managed by the Office of Science. The additional \$638,000 over the budget request represents a transfer from Weapons Activities for the costs of safeguards and security at Building 3019 at Oak Ridge National Laboratory.

Science workforce development.—The conference agreement provides \$5,460,000 for science workforce development. This activity had previously been funded as the Science Education subprogram within Program Direction.

Science program direction.—The conference agreement includes \$136,387,000 for science program direction. This amount includes \$72,403,000 for field offices, \$55,984,000 for headquarters, \$7,000,000 for the Technical Information Management program (transferred from the Energy Supply account), and \$1,000,000 for Energy Research Analyses. The control level for fiscal year 2003 is at the program account level of Science Program Direction.

External regulation.—Funds are provided in the Environment, Safety and Health (non-defense) account within the Energy Supply appropriation for the Nuclear Regulatory Commission (NRC) and the Occupational Safety and Health Administration (OSHA) to conduct compliance audits of the ten DOE Science laboratories. The Office of Science should use this information to develop estimates of the costs needed to bring these ten laboratories into compliance with NRC and OSHA safety standards. The Office of Science, in co-

operation with NRC and OSHA, should complete the compliance audits and cost estimates for an initial set of four representative Science laboratories not later than September 30, 2003, and for all remaining Science laboratories by March 31, 2004. The Office of Science is directed to submit a report to the House and Senate Energy and Water Development Appropriations Subcommittees summarizing the audit results and cost estimates for all ten laboratories not later than April 30, 2004.

Funding adjustments.—A general reduction of \$20,000,000 has been applied to this account.

NUCLEAR WASTE DISPOSAL

The conference agreement provides \$145,000,000 for Nuclear Waste Disposal, instead of \$209,702,000 as proposed by the House and \$56,000,000 as proposed by the Senate. When combined with the \$315,000,000 appropriated from the Defense Nuclear Waste Disposal account, a total of \$460,000,000 will be available for program activities in fiscal year 2003. The conference agreement includes not to exceed \$2,500,000 for the State of Nevada and \$7,000,000 for affected units of local government. The conferees direct the Department to provide \$2,000,000 to Clark County, Nevada, to study and demonstrate the integration of emergency response planning systems and advanced transportation technologies. The conferees further direct that \$2,500,000 be provided to the Research Foundation of the University of Nevada, Las Vegas, for continuing and expanding its efforts in ground water characterization and research into the transport and fate of radionuclides in the vicinity of the Yucca Mountain repository.

DEPARTMENTAL ADMINISTRATION

The conference agreement provides \$309,872,000 for Departmental Administration expenses instead of \$249,259,000 as proposed by the House and \$295,587,000 as proposed by the Senate. Funding adjustments include the transfer of \$87,468,000 from Other Defense Activities and the use of \$15,000,000 of prior year balances. Revenues of \$120,000,000, a reduction of \$17,524,000 from the budget request, are estimated to be received in fiscal year 2003, resulting in a net appropriation of \$87,404,000.

Specific funding levels for each Departmental organization are provided in the accompanying table.

Engineering and construction management reviews.—The conference agreement provides \$5,000,000 for the Office of Engineering and Construction Management for external independent reviews of proposed projects and programs.

Cybersecurity and secure communications.—The conferees have provided \$30,000,000 for cybersecurity and secure communications.

Corporate management information program.—The conferees have provided \$15,000,000 for the Department's Corporate Management Information Program.

Cost of work for others.—Since initiating direct budgeting and funding of safeguards and security activities, the Department has used the cost of work for others program to fund reimbursable safeguards and security costs incurred for work performed for other

Federal agencies. This was originally planned to be a one-year transitional fix; however, the Department has continued to use this procedure beyond that time. The conferees expect the Department to submit to the Committees on Appropriations a proposal that would allow the direct funding of these costs within each program account in fiscal year 2004.

Reprogramming guidelines.—The conference agreement provides reprogramming authority of \$1,000,000 or 10 percent, whichever is less, within the Departmental Administration account without prior submission of a reprogramming to be approved by the House and Senate Committees on Appropriations. No individual program account may be increased or decreased by more than this amount during the fiscal year using this reprogramming authority. Congressional notification within 30 days of the use of this reprogramming authority is required. Transfers which would result in increases or decreases in excess of \$1,000,000 or 10 percent to an individual program account require prior notification and approval.

OFFICE OF THE INSPECTOR GENERAL

The conference agreement provides \$37,671,000 for the Inspector General as proposed by the House and the Senate.

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY ADMINISTRATION

The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the Department of Energy, manages the Nation's nuclear weapons, nuclear nonproliferation, and naval reactors activities.

Availability of funds.—The conference agreement makes funds appropriated to the NNSA available until expended as proposed by the Senate.

Other provisions.—The conference agreement includes language authorizing \$12,000,000 to be appropriated for Project 03–D–102, LANL administration building, at Los Alamos National Laboratory, and \$113,000,000 to be appropriated for Project 01–D–108, Microsystems and engineering science applications (MESA), at Sandia National Laboratories, in New Mexico.

The conference agreement does not include bill language proposed by the House limiting the obligation of funds until the Nuclear Weapons Council certifies the Selected Acquisition Reports, limiting the obligation of funds until the NNSA budgets by weapons system, or providing \$10,000,000 to upgrade financial systems to track costs by weapons system. Each of these issues is addressed further in the statement of the managers.

Future Years Nuclear Security Program.—The conferees agree with the House language pertaining to the inadequate multi-year programming and budgeting information and direct the NNSA to contract for an independent assessment of the NNSA's planning, programming, and budgeting system, including its comparability to that of the Department of Defense.

Strategic weapons modernization.—The conferees direct the Secretary of Energy in conjunction with the Secretary of Defense to provide a report to the Appropriations and Armed Services Committees of Congress providing a specific inventory objective for each nuclear weapon system by year and in total through 2012; an indication of the likely number of warheads that must be modernized and why; and an estimate of the cost in then-year dollars to perform such modernization. This report is due to the Congressional defense committees not later than March 15, 2003.

Selected Acquisition Reports.—The conferees direct NNSA to submit Selected Acquisition Reports to Congress in fiscal year 2004 and subsequent fiscal years in an identical manner to those submitted by the Department of Defense. NNSA shall use the title “Selected Acquisition Report”, use the Department of Defense standard format and classification methodology, and include identical types of information on program cost, schedule, and contractor performance.

Budget and accounting for nuclear weapons systems.—The conferees understand that the Department is implementing a pilot project to budget and account for costs by weapons system and expect to be kept informed by the Administrator of the NNSA and the Department’s Chief Financial Officer on the status of this project.

Cerro Grande Fire Funds.—The conferees direct that the Secretary not defer, deobligate, withdraw to headquarters, reserve for contemplated future rescissions, reprogram or otherwise adversely affect the planned and continuing expenditure of funds previously made available for Cerro Grande fire activities unless a reprogramming is submitted in advance and approval received from the House and Senate Committees on Appropriations.

WEAPONS ACTIVITIES

The conference agreement provides \$5,954,204,000 for Weapons Activities instead of \$5,772,068,000 as proposed by the House and \$6,108,959,000 as proposed by the Senate.

Reprogramming.—The conference agreement provides limited reprogramming authority within the Weapons Activities account without submission of a reprogramming to be approved in advance by the House and Senate Committees on Appropriations. The reprogramming thresholds will be as follows: directed stockpile work, science campaigns, engineering campaigns, inertial confinement fusion, advanced simulation and computing, pit manufacturing and certification, readiness campaigns, and operating expenses for readiness in technical base and facilities. This should provide the needed flexibility to manage these programs.

In addition, funding of not more than \$5,000,000 may be transferred between each of these categories and each construction project subject to the following limitations: only one transfer may be made to or from any program or project; the transfer must be necessary to address a risk to health, safety or the environment or to assure the most efficient use of weapons activities funds at a site; and funds may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

Congressional notification within 15 days of the use of this reprogramming authority is required. Transfers during the fiscal year which would result in increases or decreases in excess of \$5,000,000 or which would be subject to the limitations outlined in the previous paragraph require prior notification and approval from the House and Senate Committees on Appropriations. Failure to notify the Committees within the 15-day period will result in denial of the reprogramming.

Directed stockpile work.—The conference agreement includes the budget request of \$1,234,467,000 for directed stockpile work as proposed by the House and the Senate.

Campaigns.—Funding for individual campaigns is shown on the accompanying table. The conferees agree with the House language requesting detailed project baseline data for each campaign showing the total, annual, and five-year costs, schedule, scope, and deliverables for individual project activities as part of the annual budget request.

From within funds provided for the various campaigns, \$2,175,000 is provided for the University Research Program in Robotics. An additional \$2,175,000 is provided for the robotics program in the environmental management program.

For science campaigns, the conference agreement provides \$255,468,000, an increase of \$20,000,000 over the budget request. The conference agreement provides \$47,159,000 for primary certification as proposed by the Administration. In the dynamic materials properties program, the conferees have provided \$5,000,000 for materials properties studies using the capabilities of the Nevada Test Site and the budget request of \$13,110,000 for university partnerships. In the advanced radiography program, funding of \$20,000,000 is provided to continue research, development and conceptual design activities for an advanced hydrodynamics test facility and an additional \$5,000,000 to fund other experiments that might be conducted in the Contained Firing Facility.

For engineering campaigns, the conference agreement provides \$233,697,000, a reduction of \$5,713,000 from the budget request. Enhanced surety is funded at \$32,000,000, as proposed by the Senate.

For inertial confinement fusion, the conference agreement provides \$504,293,000, an increase of \$52,500,000 over the budget request, and includes several program funding adjustments. The conference agreement includes \$10,000,000 for the Naval Research Laboratory, the same as the budget request. Funding of \$22,000,000 has been provided to further development of high average power lasers.

The conference agreement includes \$36,400,000, the same as the budget request, for the on-going program at the Laboratory for Laser Energetics at the University of Rochester. An increase of \$13,000,000 over the budget request is provided for the University of Rochester for the Omega Extended Performance Facility to enhance the capabilities of the Omega facility in support of the nation's stockpile stewardship program by providing additional high-energy, high-intensity beams to be used with the existing Omega facility.

The conference agreement provides an additional \$8,000,000 for enhanced National Ignition Facility (NIF) diagnostics and/or cryogenic target activities, and \$214,045,000, the same as the budget request, for continued construction of the NIF.

For petawatt laser capabilities, funding of \$5,000,000 is provided to modify the beamlet laser at the Sandia National Laboratories and \$1,000,000 is provided for technical community activities in developing critical short-pulse, high power laser technology.

The conferees have provided an additional \$3,500,000 for university grants/other ICF support. This includes \$2,500,000 for installation, operation, and continued research and development on a petawatt laser at the University of Nevada-Reno, and \$1,000,000 for short pulse, high power laser development at the University of Texas.

For advanced simulation and computing, the conference agreement provides \$704,335,000, as proposed by the Senate. The NNSA is directed to commission two independent studies as proposed by the Senate. These reports are due to the Committees on Appropriations by August 1, 2003.

For pit manufacturing and certification, the conference agreement provides \$222,000,000, an increase of \$27,516,000 over the budget request of \$194,484,000. The increase will ensure that the NNSA maintains its commitment to produce a certifiable W88 pit by 2003 and a certified W88 pit by 2007. The NNSA has refused to request funds consistent with its own project plan submitted in September 2001. As directed by the Senate explanatory statement, the NNSA is to provide a revised pit production and certification plan to the relevant Congressional committees by March 31, 2003, and annually thereafter. To ensure that all sites under study for the modern pit facility receive full and equal consideration, the conferees recognize that future land withdrawal action by Congress may be required to proceed with construction of the facility.

For readiness campaigns, the conference agreement provides \$213,752,000, a reduction of \$8,065,000 from the budget request. Funding for the tritium readiness campaign includes \$42,734,000 for operating expenses as proposed by the Senate and an additional \$5,335,000 to complete dismantlement of the Accelerator Production of Tritium program.

Readiness in technical base and facilities.—For readiness in technical base and facilities, the conference agreement provides \$1,832,222,000, an increase of \$143,993,000 over the budget request, and includes several funding adjustments.

Within funds provided for operations of facilities, the conferees direct that, at a minimum, an additional \$25,000,000 be provided for the Pantex Plant in Texas and an additional \$20,000,000 be provided for the Y-12 Plant in Oak Ridge, Tennessee, as proposed by the House. The conference agreement includes an additional \$6,000,000 for the Z machine operations at Sandia and \$3,000,000 for technology transfer activities as proposed by the Senate. The conferees encourage the Department to utilize the UNLV Research Foundation and other academic institutions to facilitate such technology transfer activities at the Nevada Test Site.

The conference agreement provides \$56,725,000 for activities at the Nevada Test Site and an additional \$23,500,000 for the Na-

tional Center for Combating Terrorism for facility upgrades, refurbishments, equipment, and operation and maintenance.

Funding of \$638,000 has been transferred to the Office of Science safeguards and security program to support weapons-related activities at the Oak Ridge National Laboratory.

Within funds provided for program readiness, the conference agreement includes \$60,000,000 to maintain Nevada Test Site readiness and \$6,164,000 for activities related to the TA-18 relocation to Nevada. The conference agreement provides the budget request of \$15,000,000 for enhanced test readiness. The Department is directed to notify the House and Senate Committees on Appropriations before any of these funds are obligated in fiscal year 2003.

Within funds provided for special projects, the conference agreement includes \$600,000 for the Oral History of the Nevada Test Site; \$6,900,000 for the New Mexico Education Enrichment Foundation; \$2,500,000 for the National Museum of Nuclear Science and History relocation project; \$500,000 for the Atomic Testing History Institute; \$1,000,000 for the UNLV Research Foundation; \$3,000,000 to update aircraft navigational and other related avionics; and the budget request for the Los Alamos County Schools. Within available funds, the conferees urge NNSA to conduct a field installation of the truck stopping device developed by Lawrence Livermore National Laboratory and to continue research on bridges and new techniques for scanning shipping containers.

The conference agreement includes \$103,816,000 for materials recycling, an increase of \$5,000,000 over the budget request for activities at the Y-12 Plant in Tennessee as proposed by the House.

The conference agreement includes the budget request of \$17,721,000 for containers, \$14,593,000 for storage, and \$91,000,000 for nuclear weapons incident response.

Construction projects.—For construction projects, the conference agreement includes adjustments proposed by the Department to the budget request for several projects to reflect the latest program planning assumptions. In addition, the conference agreement provides \$12,000,000 for Project 03-D-102, LANL administration building replacement project, and \$113,000,000 for Project 01-D-108, Microsystems and Engineering Sciences Applications Complex at Sandia, in New Mexico.

Facilities and infrastructure recapitalization.—The conference agreement includes the budget request of \$242,512,000 for the facilities and infrastructure (F&I) recapitalization program. The conferees agree with the House language to procure decontamination, decommissioning and demolition services through an open competitive process. At least \$50,000,000 is to be used to dispose of excess facilities.

Secure Transportation Asset.—The conference agreement provides the budget request of \$152,989,000 for secure transportation asset.

Safeguards and security.—The conference agreement includes \$526,254,000, an increase of \$16,300,000 over the budget request, for safeguards and security activities at laboratories and facilities managed by the National Nuclear Security Administration.

Funding adjustments.—The conference agreement includes an adjustment of \$28,985,000 for a security charge for reimbursable work, as proposed in the budget, and a general reduction of \$138,800,000.

DEFENSE NUCLEAR NONPROLIFERATION

The conference agreement provides \$1,113,630,000 for Defense Nuclear Nonproliferation instead of \$1,167,630,000 as proposed by the House and \$1,115,630,000 as proposed by the Senate.

Availability of funds.—The conference agreement makes the funds available for obligation until expended as proposed by the Senate.

Nonproliferation and verification research and development.—The conference agreement provides the budget request of \$283,407,000 for nonproliferation and verification research and development. This includes \$20,160,000, the same as the budget request, for ground-based systems for treaty monitoring.

From within available funds for research and development activities, \$10,000,000 is provided to support ongoing activities at the Remote Sensing Test and Evaluation Center at the Nevada Test Site. The conferees encourage the Department to use a portion of the additional funds provided to the Remote Sensing Test and Evaluation Center to support applied research activities related to national security at UNLV and other universities that are participating in cooperative ventures at the Nevada Test Site.

The conference agreement provides \$3,000,000 for the Incorporated Research Institutions for Seismology PASSCAL Instrument Center. The conferees expect the NNSA to conduct a site-wide survey of the Iowa Army Ammunition Plant in Middletown, Iowa, for radiological contamination as proposed by the Senate. Within available funds, the NNSA is directed to provide \$10,000,000 for the sustained development of advanced technologies needed to counter nuclear terrorism threats and focus on improving capability through research and development.

The conferees continue to support more opportunity for open competition in appropriate areas of the nonproliferation and verification research and development program. The conferees expect the Department to continue to implement recommendations provided by the external review group in support of open competition and direct the Department to continue a free and open competitive process for at least 25 percent of its research and development activities during fiscal year 2003 for ground-based systems treaty monitoring. The competitive process should be open to all Federal and non-Federal entities.

The conferees direct the Department to identify ways to increase competition to ensure that the best possible researchers in the private sector and academia are provided the opportunity to compete for nonproliferation research and development funds and to contribute to these critical national security programs. In this time of increased threats to the nation, the Department should make every effort to seek out new and innovative ideas and concepts beyond those developed by the Department's own contractors.

The conferees request an annual report on the nonproliferation and verification research and development program that includes

each major research project with the total baseline cost, cost by year, scope, schedule, deliverables, entity performing the research, and proposed user. This report in an unclassified form with a classified appendix as necessary is due to the Committees on Appropriations on March 15, 2003, and annually thereafter. The Department should work with the Committees to ensure the appropriate level of detail.

Nonproliferation and international security.—The conference agreement provides the budget request of \$92,668,000 for non-proliferation and international security.

Nonproliferation programs with Russia.—The conferees continue to be concerned that too much of the money for Russian programs is being spent in the United States at the Department of Energy's own facilities rather than going to the facilities in Russia. The Department is directed to submit a plan to the Committees on Appropriations that shows how the ratio of the funding within each program that is spent in Russia versus the funding that remains the United States for the Department's contractors will be increased significantly in each subsequent fiscal year.

International materials protection, control and cooperation (MPC&A).—The conference agreement includes \$233,077,000, the same as the budget request, for the MPC&A program. From within available funds, the conference agreement provides at least \$15,000,000 for expanded activities within the Second Line of Defense program that is responsible for improving border and transportation security. The conferees support expanded program work in major transit/transportation hubs and ports in countries other than Russia and the Newly Independent States. The conference agreement also provides \$5,000,000 for the radiological dispersion devices (RDD) program to protect, control and account for RDD materials in countries other than Russia and the Newly Independent States.

Accelerated Highly Enriched Uranium (HEU) Disposition.—The conference agreement provides \$14,000,000 to develop and implement efforts with the Russian Federation for blending or otherwise securing highly enriched uranium. These efforts may include the purchase of highly enriched uranium from the Russian Federation and transporting it to the United States. This program is in addition to the U.S./Russian HEU Agreement to blend down 500 metric tons of highly enriched uranium over twenty years.

Russian Transition Initiatives.—The conference agreement provides \$39,334,000, the same as the budget request, for the Initiatives for Proliferation Prevention program and the Nuclear Cities Initiative.

HEU transparency implementation.—The conference agreement provides \$17,229,000, the same as the budget request.

International nuclear safety.—The conference agreement provides \$11,576,000, a reduction of \$3,000,000 from the budget request, for the international nuclear safety program, as proposed by the House.

Elimination of weapons-grade plutonium production.—The conference agreement includes the budget request of \$49,339,000 for the elimination of weapons-grade plutonium production program. The conferees strongly support the Department's efforts to provide

an open procurement competition to find the best-qualified contractor to implement this program and have not included language to limit repayment of program expenditures.

Fissile materials disposition.—The conference agreement provides \$48,000,000 for fissile materials disposition, the same as the budget request. At the request of the Department, funding of \$2,000,000 was transferred from operating expenses to Project 99–D–141, Pit disassembly and conversion facility, and \$6,372,000 was transferred from Project 01–D–407, highly enriched uranium blend down, to operating expenses.

Program direction.—The conference agreement does not provide any program direction funds in this account as proposed by the Senate. Program direction funding for the Defense Nuclear Nonproliferation office will be identified separately within the Office of the Administrator account.

Funding adjustments.—The conference agreement includes funding adjustments of \$75,000,000. This includes the use of \$68,000,000 of prior year balances and the additional \$7,000,000 remaining from completion of Project 00–D–192, Nonproliferation and international security center.

NAVAL REACTORS

The conference agreement provides \$706,790,000 for Naval Reactors, the same as the budget request. These funds are to remain available until expended as proposed by the Senate.

OFFICE OF THE ADMINISTRATOR

The conference agreement provides \$330,929,000 for the Office of the Administrator instead of \$261,929,000 as proposed by the House and \$335,929,000 as proposed by the Senate. These funds are available for obligation through September 30, 2003, as proposed by the House. Statutory language providing \$12,000 for official reception and representation expenses has also been included.

The conferees urge the Administrator of NNSA to provide at least \$5,000,000 for the NNSA Office of Project Management and Engineering Support to continue its project oversight work and to provide training and mentoring programs to improve the skills of NNSA program and project managers.

Defense Nuclear Nonproliferation.—The conference agreement provides \$57,000,000 for the Federal employees in the Office of Defense Nuclear Nonproliferation. None of these funds may be taxed by the NNSA for any purpose without prior notification and approval by the House and Senate Committees on Appropriations.

ENVIRONMENTAL AND OTHER DEFENSE RELATED ACTIVITIES

DEFENSE ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT

The conference agreement provides \$5,470,180,000 for Defense Environmental Restoration and Waste Management instead of \$4,543,661,000 as proposed by the House and \$5,370,532,000 as proposed by the Senate. Additional funding of \$1,138,314,000 is contained in the Defense Facilities Closure Projects account and \$158,399,000 in the Defense Environmental Management Privat-

ization account for a total of \$6,766,893,000 provided for all defense environmental management activities.

Accelerated cleanup funding.—The conference agreement has merged funds proposed for the Environmental Management Cleanup Reform account into the appropriate existing appropriation accounts rather than providing a lump sum in a separate appropriation account as proposed by the Administration.

Reprogramming authority.—The conferees support the need for flexibility to meet changing funding requirements and have provided internal reprogramming authority as proposed by the House.

Site/project completion.—Total funding of \$990,950,000 is provided for site/project completion. The conference agreement provides additional funding to accelerate cleanup at the following sites: \$40,000,000 for the Savannah River Site in South Carolina; \$5,000,000 for the Idaho site; \$141,000,000 for the Hanford site in Richland, Washington; \$8,000,000 for Sandia National Laboratories in New Mexico; \$5,000,000 for the Pantex plant in Texas; and \$4,000,000 to expedite the remediation and conveyance of up to 2,000 acres of land for the use of Pueblo of San Ildefonso and approximately 100 acres to the County of Los Alamos consistent with the direction of section 632 of Public Law 105–119.

Funding of \$7,000,000 for the Savannah River Ecology Laboratory is included in the Office of Science in fiscal year 2003.

Funding of \$8,800,000 is transferred from operating expenses at the Savannah River Site to a new construction project, Project 03–D–414, Preliminary Project Engineering and Design, to initiate design activities for the salt waste processing facility and an additional glass waste storage building.

Post 2006 completion.—The conference agreement provides total funding of \$3,322,367,000 for post 2006 completion. The conference agreement provides additional funding to accelerate cleanup at the following sites: \$176,000,000 for the Savannah River Site in South Carolina; \$54,000,000 to accelerate remediation, waste management, and nuclear materials stewardship activities at Los Alamos National Laboratory; \$40,000,000 to accelerate cleanup at the Oak Ridge Reservation in Tennessee; \$33,000,000 to accelerate cleanup at the Nevada Test Site; \$22,000,000 to accelerate cleanup activities at the Lawrence Livermore National Laboratory; and \$2,000,000 to accelerate cleanup activities in Alaska.

Additional funding of \$105,000,000 is provided for the Idaho site. From within these funds, \$2,000,000 is for the national spent nuclear fuel program; \$4,000,000 is for the Subsurface Science Research Institute operated by the Inland Northwest Research Alliance and the INEEL; and the Department is directed to pay its Title V air permitting fees at the INEEL consistent with prior year levels.

The conferees are aware that the district court has ordered the parties to enter into mediation to resolve the Pit 9 issue at Idaho. The conferees commend that initiative and encourage the pursuit of action to avert continued costly and protracted litigation. The conferees expect the Department to participate directly in that mediation, not through the contractor. If mediation is not successful, the conferees expect the Department to initiate and participate in arbitration to resolve this dispute.

Additional funding of \$63,000,000 is provided for the Hanford site in Richland, Washington, to accelerate cleanup of the River Corridor and tank waste management activities. From within available funds, \$600,000 is provided for State of Oregon oversight activities, and funding at the fiscal year 2002 level is provided for the Hazardous Materials Management and Emergency Response (HAMMER) training and education center. The conferees understand that the HAMMER facility will seek another source of funding and be moved from the environmental management program after fiscal year 2003. The Department is expected to continue making PILT payments at last year's level to counties that have the Hanford reservation within their boundaries.

Additional funding of \$20,000,000 is provided to the Carlsbad field office. This includes \$14,000,000 to accelerate shipping and disposing of transuranic waste throughout the complex; \$3,500,000 to be made available to the Carlsbad community for educational support, infrastructure improvements, and related initiatives to address the impacts of accelerated operations; and \$2,500,000 to continue the U.S.-Mexico Border Health Commission/Materials Corridor Partnership Initiative.

From within available funds, \$36,732,000 has been transferred to the safeguards and security program to offset increased security costs in fiscal year 2003.

Office of River Protection.—The conference agreement provides \$1,126,988,000, an increase of \$229,000,000 over the budget request, for the Office of River Protection at the Hanford site in Washington. Funding of \$619,000,000 has been provided for Project 01-D-416, the Hanford Waste Treatment Plant, to vitrify the high-level waste in underground tanks.

Uranium enrichment decontamination and decommissioning (UED&D) fund.—The conference agreement includes the budget request of \$442,000,000 for the Federal government's contribution to the UED&D fund.

Science and technology development.—The conference agreement provides \$118,175,000 for the science and technology development program. The conference agreement includes \$4,000,000 to continue the international agreement with AEA Technology; \$7,000,000 for the Department's current five-year cooperative agreement with the Florida International University's Hemispheric Center for Environmental Technology; \$750,000 for the Mid-Atlantic Recycling Center for End-of-Life Electronics project; \$5,000,000 for the Diagnostic Instrumentation and Analysis Laboratory; \$2,000,000 to continue micro-sensing technology development and prototype deployment of remote monitoring systems for the underground test area; \$2,175,000 for the university robotics research program; \$12,000,000 for research and development at Idaho on environmental technologies; and \$1,000,000 for basic science experiments at the Waste Isolation Pilot Plant. The Department is directed to continue its ongoing cooperative agreements with the University of Nevada-Las Vegas and the University of Nevada-Reno on terms consistent with recent years. The conferees urge the Department to consider continued evaluation, development and demonstration of the Advanced Vitrification System.

The Office of Environmental Management is directed to report to the House and Senate Committees on Appropriations as soon as information is available on the projects and activities which are to be performed with funding provided in fiscal year 2003 to the Florida International University, AEA Technology, the Mid-Atlantic Recycling Center for End-of-Life Electronics project, the Diagnostic Instrumentation and Analysis Laboratory, the micro-sensing technology development and prototype deployment of remote monitoring systems for the underground test area, the university robotics research program, the Western Environmental Technology Office, and the National Energy Technology Laboratory. The Department should work with the Committees on the detail and format for this report.

Excess facilities.—The conference agreement includes \$5,000,000, an increase of \$3,700,000 over the budget request, for excess facilities. These funds are to be used to initiate decontamination and decommissioning of excess facilities owned by the environmental management program.

Multi-site activities.—The conference agreement includes \$64,352,000, a decrease of \$415,519,000 from the budget request, for multi-site activities. Funding of \$442,000,000 for the uranium enrichment decontamination and decommissioning fund is transferred to a separate program; \$1,000,000 is provided for packaging and certification activities; and \$8,481,000 is provided for the hazardous waste worker training program. The conferees expect the Department to continue its support for a variety of small programs identified in the Senate explanatory statement.

Funding of \$17,000,000 is provided for the National Energy Technology Laboratory (NETL) in West Virginia, including \$5,000,000 for the Western Environmental Technology Office. The Department is establishing an Office of Legacy Management that will gain responsibility for the long-term stewardship program now managed by the Office of Environmental Management. The conferees expect the Department to use the NETL to begin preparatory actions to ensure a smooth and effective transition of people, records, and programs including the responsibility for long-term stewardship of records dealing with physical and human issues at current sites as well as from the closure of the Ohio and Rocky Flats cleanup sites. The enormous records management requirements at closure sites will require solicitation and management of contracts to assess both the current status of environmental management records as well as performing an evaluation of best practices. A critical examination of the numerous complex issues of annuitant benefit continuity for retirees/annuitants at closure sites will also be required. Preparatory work in fiscal year 2003 will ensure a smooth transition of these responsibilities to the Office of Legacy Management and provide the Department with an assessment of its needs to provide potential bidders with sufficient data to successfully compete on the forthcoming contracts to institute long-term stewardship of environmental management records and contractor continuity of benefits.

Safeguards and security.—The conference agreement includes \$268,607,000, an increase of \$40,347,000 over the budget request, for safeguards and security activities at laboratories and facilities

managed by the Office of Environmental Management. Safeguards and security costs at several cleanup facilities have increased significantly since the fiscal year 2003 budget request was submitted.

Program direction.—The conferees have provided \$344,000,000, the same as the budget request, for the program direction account.

Funding adjustments.—The conference agreement includes reduction of \$80,924,000 due to funding constraints. A security charge for reimbursable work of \$4,347,000, the same as the budget request, is included.

ENVIRONMENTAL MANAGEMENT CLEANUP REFORM

The conference agreement does not provide funding for accelerated cleanup activities in this separate appropriation account as proposed by the Administration. Funds for accelerated cleanup have been allocated among the existing appropriation accounts.

DEFENSE FACILITIES CLOSURE PROJECTS

The conference agreement provides \$1,138,314,000 instead of \$1,091,314,000 as proposed by the House and \$1,125,314,000 as proposed by the Senate. The budget request of \$664,000,000 is provided for the Rocky Flats site in Colorado. Additional funding to accelerate cleanup is provided for the following projects: \$25,000,000 for Fernald, Ohio; \$4,000,000 for the Mound site in Ohio; and \$5,000,000 for the Columbus environmental management project in Ohio. The conferees expect the Department to request adequate funds to keep each of these projects on schedule for closure by 2006 or earlier.

From within available funds, \$5,500,000 has been transferred to the safeguards and security program to offset increased security costs in fiscal year 2003.

Funding of \$55,651,000, an increase of \$18,500,000 over the budget request, is provided for safeguards and security. Any savings resulting from safeguards and security costs are to be retained and used for cleanup activities at the closure sites.

DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION

The conference agreement provides \$158,399,000, the same as the budget request, for the defense environmental management privatization program.

OTHER DEFENSE ACTIVITIES

The conference agreement provides \$546,554,000 for Other Defense Activities instead of \$485,076,000 as proposed by the House and \$537,664,000 as proposed by the Senate. Details of the conference agreement are provided below.

ENERGY SECURITY AND ASSURANCE

The conference agreement provides \$56,686,000 for the energy security and assurance program. Funding of \$27,500,000 is provided for the National Infrastructure Simulation and Analysis Center (NISAC) in New Mexico, and \$16,000,000 to the National Energy Technology Laboratory in West Virginia to assist the energy assurance office, as proposed by the Senate. The conference agree-

ment includes \$2,000,000 for a pilot project in Washington, DC, to be carried out in conjunction with the local power provider and administered by the Washington Metropolitan Council of Governments to protect and harden electricity infrastructure in the Nation's Capital, an area uniquely susceptible to terrorist attack. The conference agreement also includes \$3,000,000 to establish the Idaho Critical Infrastructure Testbed at the Idaho National Environmental and Engineering Laboratory.

OFFICE OF SECURITY

The conference agreement provides \$185,515,000, the same as the budget request, for the office of security.

The conference agreement provides total safeguards and security funding of \$1,267,791,000 for safeguards and security activities at the Department of Energy. In addition to the funding provided for the office of security, the conference agreement provides \$30,000,000 for security and safeguards activities performed by the Department's chief information officer and \$1,052,276,000 for safeguards and security activities at the Department's field offices and facilities.

INTELLIGENCE

The conference agreement includes \$41,246,000, the same as the budget request, for the Department's intelligence program.

COUNTERINTELLIGENCE

The conference agreement includes \$45,955,000, the same as the budget request, for the Department's counterintelligence program.

INDEPENDENT OVERSIGHT AND PERFORMANCE ASSURANCE

The conference agreement provides \$22,430,000, the same as the budget request, for the independent oversight and performance assurance program.

ENVIRONMENT, SAFETY AND HEALTH (DEFENSE)

The conference agreement provides \$103,850,000 for defense-related environment, safety and health activities including \$48,160,000 for health effects studies and \$13,500,000 for the Radiation Effects Research Foundation, the same as the budget request. The conferees have provided \$3,550,000 for medical monitoring at the gaseous diffusion plants and \$5,000,000 to continue a program at the University of Nevada-Las Vegas for Department-wide management of electronic records. From within available funds, the Department is directed to complete the health studies at the Iowa Army Ammunition Plant and initiate a beryllium screening and outreach program for workers employed at vendors in the Worcester, Massachusetts, area who supplied beryllium to the Atomic Energy Commission.

The General Accounting Office (GAO) is directed to conduct a study on the effectiveness of the benefit program under Subtitle D of the Energy Employees Occupational Illness Compensation Program Act of 2000 in assisting the Department of Energy contractor

employees in obtaining compensation for occupational illness. Not later than 120 days after the date of enactment of this Act, the GAO shall submit a report to the House and Senate Committees on Appropriations, the Senate Energy and Natural Resources Committee, and the House Energy and Commerce Committee on the results of this study. The conferees direct the GAO not to displace any other requests by the House and Senate Committees on Appropriations.

The conference agreement includes \$17,149,000 for program direction, the same as the budget request.

WORKER AND COMMUNITY TRANSITION

The conference agreement provides \$21,183,000 for the worker and community transition program instead of \$19,683,000 as proposed by the House and \$25,683,000 as proposed by the Senate. The conference agreement includes a total of \$3,500,000, an increase of \$1,500,000 over the budget request, for workforce restructuring at the Paducah, Kentucky, gaseous diffusion plant. Funding of \$2,000,000 has been provided for infrastructure improvements at the former Pinellas weapons plant as proposed by the House.

The conference agreement does not provide any guidance on the proposed final rule implementing Part D of the Energy Employees Occupational Illness Compensation Program.

No funds may be used to augment the \$21,183,000 made available for obligation for severance payments and other benefits and community assistance grants unless the Department of Energy submits a reprogramming request subject to approval by the appropriate Congressional committees.

NATIONAL SECURITY PROGRAMS ADMINISTRATIVE SUPPORT

The conference agreement provides \$87,468,000 for national security programs administrative support instead of \$30,587,000 as proposed by the House and \$50,587,000 as proposed by the Senate. Included within this amount is \$21,800,000 for the national security portion of the cybersecurity and communications initiative and the corporate management improvement program that are fully funded in the Departmental Administration account.

OFFICE OF HEARINGS AND APPEALS

The conference agreement provides \$2,933,000 for the Office of Hearings and Appeals, the same as the budget request.

FUNDING ADJUSTMENTS

Funding adjustments include a security charge for reimbursable work of \$712,000 and a reduction of \$20,000,000 to be applied to those programs that have balances carried over from prior fiscal years and lower priority program activities.

DEFENSE NUCLEAR WASTE DISPOSAL

The conference agreement provides \$315,000,000 for the defense contribution to the nuclear waste repository program as proposed by the House instead of \$280,000,000 as proposed by the Senate.

POWER MARKETING ADMINISTRATIONS

BONNEVILLE POWER ADMINISTRATION

The conference agreement provides \$700,000,000 of new borrowing authority to the Bonneville Power Administration as proposed by the Senate. The bill language is included in Division N of the conference report. The conferees direct the Bonneville Power Administration to submit a detailed budget justification, by project, for its total capital improvement program to the House and Senate Committees on Appropriations not later than March 30, 2003, and to be submitted thereafter as part of the annual budget request, for approval by the House and Senate Committees on Appropriations.

No new direct loan obligations may be made during fiscal year 2003.

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER
ADMINISTRATION

The conference agreement includes \$4,534,000, the same as the budget request, for the Southeastern Power Administration. The conference agreement provides for the same level of purchase power and wheeling as in fiscal year 2002.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER
ADMINISTRATION

The conference agreement includes \$27,378,000, the same as the budget request, for the Southwestern Power Administration. The conference agreement provides for the same level of purchase power and wheeling as in fiscal year 2002. The conference agreement also provides Southwestern with the authority to accept an additional \$8,043,000 of non-Federal reimbursable funding to fulfill its obligations under the Southwest Power Pool Open Access Transmission Tariff.

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE,
WESTERN AREA POWER ADMINISTRATION

The conference agreement provides \$168,858,000 as proposed by the Senate instead of \$162,758,000 as proposed by the House. The conference agreement includes \$6,100,000 for the Utah Mitigation and Conservation Account. The conference agreement also includes language as proposed by the Senate regarding the Belfield-Hettinger transmission line in North Dakota and includes \$4,000,000 to fund high priority portions of the South of Phoenix portion of the Parker-Davis Project transmission system as proposed by the House.

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

The conference agreement includes \$2,734,000, the same as the budget request, for the Falcon and Amistad Operating and Maintenance Fund.

FEDERAL ENERGY REGULATORY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$192,000,000 for the Federal Energy Regulatory Commission (FERC). Revenues for FERC are set at an amount equal to the budget authority, resulting in a net appropriation of \$0.

The conferees are aware that the California Public Utilities Commission (CPUC) has requested several FERC actions in regard to investigating electricity market manipulations. The conferees expect FERC to act diligently upon the CPUC's requests.

The conferees are very concerned about the possible impact on regional electricity prices of FERC's proposed rule for Standard Market Design (SMD). The Secretary of Energy is directed to submit to the House and Senate Committees on Appropriations, the House Energy and Commerce Committee, and the Senate Energy and Natural Resources Committee an independent analysis of the impact of the SMD rule that FERC proposes to finalize. This independent analysis must compare wholesale and retail electricity prices and the impact on the safety and reliability of generation and transmission facilities in the major regions of the country both under existing conditions and under the proposed SMD rule. This analysis must also address the proposed SMD rule's:

- (a) costs and benefits, including its impacts on energy infrastructure development and investor confidence;
- (b) impacts on state utility regulation;
- (c) financial impact on retail customers;
- (d) impact on the reasonableness of electricity prices; and
- (e) impact on the safe, reliable, and secure operation of the Nation's generation and transmission facilities.

The Secretary shall work in consultation with the FERC so that the Secretary's analysis will most accurately address the contents and conclusions of the most current version of the proposed rule. The Secretary shall submit the independent analysis no later than April 30, 2003.

GENERAL PROVISIONS

DEPARTMENT OF ENERGY

Sec. 301.—The conference agreement modifies a provision proposed by the House that none of the funds may be used to award a management and operating contract, or a contract for environmental remediation or waste management in excess of \$100,000,000 in annual funding, or award a significant extension or expansion to an existing management and operating contract, unless such contract is awarded using competitive procedures, or the Secretary of Energy grants a waiver to allow for such a deviation.

Within 30 days of formally notifying the incumbent contractor that the Secretary intends to grant such a waiver, the Secretary must submit a report setting forth, in specificity, the substantive reasons why the requirement for competition should be waived.

This language modifies a provision carried in previous Energy and Water Development Appropriations Acts.

Sec. 302.—The conference agreement includes a provision proposed by the House and Senate that none of the funds may be used to prepare or implement workforce restructuring plans or provide enhanced severance payments and other benefits and community assistance grants for Federal employees of the Department of Energy under section 3161 of the National Defense Authorization Act of Fiscal Year 1993, Public Law 102-484. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 303.—The conference agreement includes a provision proposed by the House and Senate that none of the funds may be used to augment the \$21,183,000 made available for obligation for severance payments and other benefits and community assistance grants unless the Department of Energy submits a reprogramming request subject to approval by the appropriate Congressional committees. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 304.—The conference agreement includes a provision proposed by the House and Senate that none of the funds may be used to prepare or initiate Requests for Proposals for a program if that program has not been funded by Congress in the current fiscal year. This provision also precludes the Department from initiating activities for new programs which have been proposed in the budget request, but which have not yet been funded by Congress. This provision has been carried in previous Energy and Water Development Appropriations Acts.

TRANSFERS OF UNEXPENDED BALANCES

Sec. 305.—The conference agreement includes a provision proposed by the House and Senate that permits the transfer and merger of unexpended balances of prior appropriations with appropriation accounts established in this bill. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 306.—The conference agreement includes a provision proposed by the House prohibiting the Bonneville Power Administration from performing energy efficiency services outside the legally defined Bonneville service territory unless the Administrator certifies in advance that such services are not available from private sector businesses. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 307.—The conference agreement includes a provision proposed by the House establishing certain notice and competition requirements for Department of Energy user facilities. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 308.—The conference agreement includes a provision proposed by the House and Senate allowing the Administrator of the National Nuclear Security Administration to authorize certain nuclear weapons production plants to use not more than 2 percent of available funds for research, development and demonstration activities. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 309.—The conference agreement includes a provision proposed by the House and Senate allowing the Administrator of the National Nuclear Security Administration to authorize the manager of the Nevada Operations Office to use not more than 2 percent of available funds for research, development and demonstration activities necessary for operations and readiness of the Nevada Test Site.

Sec. 310.—The conference agreement includes a provision proposed by the House that would repeal section 310 of Public Law 106–60, the Energy and Water Development Appropriations Act, 2000, which required submission of funding plans from Department of Energy laboratories.

Sec. 311.—The conference agreement includes a provision proposed by the House which would authorize intelligence activities of the Department of Energy for purposes of section 504 of the National Security Act of 1947 until enactment of the Intelligence Authorization Act for fiscal year 2003.

Sec. 312.—The conference agreement includes a provision proposed by the Senate limiting the types of waste that can be disposed of in the Waste Isolation Pilot Plant in New Mexico. None of the funds may be used to dispose of transuranic waste in excess of 20 percent plutonium by weight for the aggregate of any material category. At the Rocky Flats site, this provision includes ash residues; salt residues; wet residues; direct repackage residues; and scrub alloy as referenced in the “Final Environmental Impact Statement on Management of Certain Plutonium Residues and Scrub Alloy Stored at the Rocky Flats Environmental Technology Site”. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 313.—The conference agreement includes a provision proposed by the Senate providing that funds appropriated in Public Law 107–66 for the Kachemak Bay submarine cable project may be available to reimburse the local sponsor for the Federal share of the project costs assumed by the local sponsor prior to final passage of that Act.

Sec. 314.—The conference agreement includes a provision proposed by the Senate requiring that upon the request of the licensee for FERC License No. 11393, the Federal Energy Regulatory Commission shall issue an order staying the license.

Sec. 315.—The conference agreement modifies a provision proposed by the Senate providing that none of the funds for Department of Energy environmental management activities may be obligated at a Department of Energy site or laboratory in excess of the current-year level of funding or the fiscal year 2003 budget request, whichever is greater, unless the site or laboratory has entered into a site performance management plan consistent with the intent of the Department’s environmental management acceleration and reform initiative.

Sec. 316.—The conference agreement modifies a provision proposed by the Senate prohibiting the National Nuclear Security Administration (NNSA) from taking any actions adversely affecting employment at its Nevada Operations Office for a period of not less than 365 days. The conference agreement includes a provision allowing the Administrator of the NNSA to seek a waiver from this

requirement. Similar to a reprogramming action, written approval must be received from the Chairmen and Ranking Members of the House and Senate Energy and Water Development Appropriations Subcommittees.

Sec. 317.—The conference agreement includes a provision providing that notwithstanding any other provision of law, the Secretary of Energy shall proceed with planning and analyses for external regulation of the Department's laboratories under the Office of Science.

Provisions not adopted by the conference.—The conference agreement deletes language proposed by the Senate that: requires the General Accounting Office to conduct a study of the effectiveness of the benefit program under subtitle D of the Energy Employees Occupational Illness Compensation Program Act of 2000; requires the General Accounting Office to conduct a study of the cleanup progress at the Paducah Gaseous Diffusion Plant in Paducah, Kentucky; and prohibits the use of funds in this or any other Act to withdraw from availability or otherwise adversely affect the planned expenditure of funds previously made available for Cerro Grande Fire activities.—These requirements are addressed in the statement of the managers.

Language proposed by the Senate allowing the Secretary of Interior to participate in the CALFED Bay-Delta Authority has been modified and moved to Title II.

CONFERENCE RECOMMENDATIONS

The conference agreement's detailed funding recommendations for programs in title III are contained in the following table.

TITLE IV

INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The conference agreement includes \$71,290,000 for the Appalachian Regional Commission (ARC) as proposed by the House instead of \$74,400,000 as proposed by the Senate. The conferees support the Appalachian-Turkish Trade Project to promote trade and investment opportunities. From within available funds, \$5,000,000 has been provided for a child development research center at the University of Alabama and \$8,000,000 for the newly authorized telecommunications program within the ARC. The conferees are aware of the Intermodal Industrial Park project in Wellsville, Ohio, and urge the ARC to help the Columbiana County Port Authority complete the project.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

The conference agreement includes \$19,000,000 for the Defense Nuclear Facilities Safety Board as proposed by the House and Senate.

DELTA REGIONAL AUTHORITY

The conference agreement includes \$8,000,000 for the Delta Regional Authority instead of \$15,000,000 as proposed by the Senate and no funding as proposed by the House. The conferees expect the Authority to submit to the House and Senate Committees on Appropriations quarterly financial reports providing detailed accounting data on the expenditure of funds during fiscal year 2003 and thereafter. The conferees also expect to receive from the Authority a detailed budget justification in fiscal year 2004. The Authority failed to comply with this requirement in fiscal year 2003.

DENALI COMMISSION

The conference agreement includes \$48,000,000 for the Denali Commission instead of \$50,000,000 as proposed by the Senate and no funding as proposed by the House. The conferees expect the Denali Commission to submit to the House and Senate Committees on Appropriations quarterly financial reports providing detailed accounting data on the expenditure of funds during fiscal year 2003 and thereafter. The conferees also expect to receive from the Commission a detailed budget justification in fiscal year 2004.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$578,184,000 as proposed by the House and the Senate, to be offset by revenues of \$520,087,000, for a net appropriation of \$58,097,000. This reflects the statutory language adopted by the conference in fiscal year 2001 to reduce the fee recovery requirement to 94 percent in fiscal year 2003. The conference amount provides the same total amount as the budget request, including the \$29,300,000 requested for se-

curity expenses, but applies the fee recovery requirement to this increment of funding.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$6,800,000 as proposed by the House and Senate, to be offset by revenues of \$6,392,000, for a net appropriation of \$408,000. This reflects the statutory language adopted by the conference in fiscal year 2001 to reduce the fee recovery requirement to 94 percent in fiscal year 2003.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

The conference agreement provides \$3,200,000, the same as the budget request.

TITLE V

GENERAL PROVISIONS

Sec. 501.—The conference agreement includes language directing that none of the funds in this Act or any prior appropriations Act may be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in section 1913 of title 18, United States Code. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 502.—The conference agreement includes language regarding the purchase of American-made equipment and products, and prohibiting contracts with persons falsely labeling products as made in America. This provision has been carried in previous Energy and Water Development Appropriations Acts.

Sec. 503.—The conference agreement includes language proposed by the House providing that none of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to transfer made by, or transfer authority provided in, this Act or any other appropriation Act.

Sec. 504.—The conference agreement includes language proposed by the Senate that extends the existing authority for the Denali Commission until 2008.

Sec. 505.—The conference agreement includes language proposed by the Senate that amends section 503 of the Energy and Water Development Appropriations Act, 2002, by extending the prohibition of oil and gas drilling in the Great Lakes until 2005.

Sec. 506.—The conference agreement includes a provision clarifying that the Department of Energy's discretionary indemnification authority will protect communities, lenders, and subsequent owners of former Department of Energy property to the same extent that communities impacted by base closures are protected.

Sec. 507.—The conference agreement includes a provision directing the Director of the Office of Management and Budget to transmit to Congress by April 1, 2003, a cross-cut budget displaying, by fiscal year, all CALFED Bay-Delta Program related ex-

penditures by the Federal government for fiscal years 1996 through 2004.

Provisions not adopted.—The conference agreement deletes language proposed by the House prohibiting obligation of funds by the Federal Energy Regulatory Commission to grant any public utility the authority to use market-based rates until the Commission has issued a final order in all market-based rate cases that have been pending before the Commission for more than 18 months.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follow:

[In thousands of dollars]	
New budget (obligational) authority, fiscal year 2002	\$25,795,359
Budget estimates for new (obligational) authority, fiscal year 2003	26,163,457
House bill, fiscal year 2003	26,541,000
Senate bill, fiscal year 2003	26,649,991
Conference agreement, fiscal year 2003	26,678,000
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	+882,641
Budget estimates of new (obligational) authority, fiscal year 2003	+514,543
House bill, fiscal year 2003	+137,000
Senate bill, fiscal year 2003	+28,009

DIVISION E

FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS, 2003

In determining Congressional intent for the obligation and programming of funds for fiscal year 2003, the appropriate departments and agencies funded under this Act shall rely on House Report 107-663, the Senate report as printed in the Congressional Record of January 15, 2003, and the statement of the managers. Any ambiguity shall be resolved by consulting with the Committees on Appropriations.

TITLE I—EXPORT AND INVESTMENT ASSISTANCE

EXPORT-IMPORT BANK OF THE UNITED STATES

The conference agreement appropriates \$512,900,000 for the subsidy appropriation for the Export-Import Bank.

The managers are aware of an inter-agency agreement among the Departments of State and Defense, the Export-Import Bank, and USAID that establishes reporting procedures regarding compliance with section 512 of the Act, the so-called Brooke amendment, and section 620(q) of the Foreign Assistance Act. The procedures provide a mechanism to share information among those agencies regarding countries that are either in arrears on loan repayments owed the United States or which may soon become in arrears. Since the provision of foreign assistance to countries in arrears is

restricted by those sections, information required by these procedures is of great importance to the administration of foreign assistance funds. The managers are therefore concerned about reports that the Export-Import Bank has, in at least two instances this year, failed to provide information on arrearages in a timely fashion in accordance with its obligations under the inter-agency agreement. The managers direct the Export-Import Bank to follow the inter-agency agreement and not allow a similar lapse to occur again.

The managers endorse House report language regarding the Export-Import Bank with respect to the domestic steel market, reducing global excess steel making capacity, and subsequent reporting to the Committees on Appropriations.

OVERSEAS PRIVATE INVESTMENT CORPORATION

The managers direct the President of OPIC to continue current policy and consult with the Committees on Appropriations before any future financing for non-governmental organizations or private and voluntary organizations is approved.

The managers are concerned with a number of OPIC projects involving the shrimp industry in Southeast Asia. The managers expect OPIC to consult with the appropriate Congressional committees on this issue.

FUNDS APPROPRIATED TO THE PRESIDENT

TRADE AND DEVELOPMENT AGENCY

The conference agreement appropriates \$47,012,000 for the Trade and Development Agency (TDA) instead of \$49,512,000 as proposed by the House and \$44,696,000 as proposed by the Senate. The level of funding includes an additional \$2,500,000 for trade capacity building assistance instead of \$5,000,000 as proposed by the House. The Senate did not address the issue of trade capacity building assistance.

TITLE II—BILATERAL ECONOMIC ASSISTANCE

FREQUENCY OF EXECUTIVE BRANCH REPORTS ON COUNTRY ALLOCATIONS

The managers insist that the Department of State and the United States Agency for International Development comply with the provisions of section 653 of the Foreign Assistance Act of 1961, as amended, regarding the frequency of notifications regarding the allocation of foreign assistance. Enactment of any supplemental appropriations act for foreign assistance requires an additional notification under section 653. When feasible, the Department of State is expected to include amounts from the Migration and Refugee Assistance and Emergency Refugee and Migration Assistance accounts. USAID is expected to include International Disaster Assistance and Transition Initiatives amounts for each country.

In addition, the Department of State and USAID are requested to provide comparable information on regional and centrally-administered programs, and to consult in advance with the relevant com-

mittees of Congress regarding reductions in excess of \$20,000,000 or ten percent of previously reported amounts for a foreign country, international organization, or regional program.

COMPLIANCE WITH REPORT LANGUAGE

The managers note that at times in the past, the Department of State and USAID have failed to respond to recommendations in the House and Senate Appropriations Committee reports, choosing instead to recognize only language in the statement of the managers accompanying the conference report. The managers expect the Department of State and USAID to follow the recommendations in the House and Senate reports, unless those recommendations are modified in the statement of the managers. In the event that the House and Senate Appropriations Committee reports contain conflicting recommendations on the same subject, the managers expect the Department of State, USAID, and other appropriate agencies to consult with the House and Senate Appropriations Committees regarding those recommendations.

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

CHILD SURVIVAL AND HEALTH PROGRAMS FUND

The conference agreement appropriates \$1,836,500,000 for the Child Survival and Health Programs Fund instead of \$1,710,000,000 as proposed by the House and \$1,970,000,000 as proposed by the Senate.

The conference agreement includes language allocating \$1,836,500,000 among seven program categories in the Child Survival and Health Programs Fund: \$324,000,000 for child survival and maternal health, including vaccine-preventable diseases such as polio; \$27,000,000 for vulnerable children; \$591,500,000 for HIV/AIDS; \$155,500,000 for other infectious diseases; \$368,500,000 for reproductive health/family planning; \$120,000,000 for UNICEF; and \$250,000,000 for the Global Fund to Fight AIDS, Tuberculosis and Malaria (Global ATM Fund). The Committee expects that any change proposed subsequent to the allocation as directed in bill language will be subject to the requirements of section 515 of the Act. A definition of program categories and their components can be found on pages 9 through 11 of House Report 107-142 and under the heading "Family Planning/Reproductive Health" on page 12 of Senate Report 107-58.

The conference agreement provides not less than \$800,000,000 for assistance to prevent and treat HIV/AIDS. Of this amount, \$591,500,000 is funded through the Child Survival and Health Programs Fund. Another \$38,500,000 is provided through other USAID-managed or co-managed accounts, such as the Economic Support Fund, International Disaster Assistance, and regional accounts for Eastern Europe and the former Soviet Union. The remaining \$170,000,000 is a conservative estimate of the amount from the Foreign Operations division of this Act that will be allocated for HIV/AIDS by the Global ATM Fund and UN agencies. The estimate of \$800,000,000 for AIDS does not include the United States share of HIV/AIDS assistance through the World Bank Group.

The managers are concerned about the growing prevalence of HIV/AIDS in countries of Eastern Europe and the Independent States of the Former Soviet Union. The managers therefore direct that funds from the Child Survival and Health Programs Fund be available for HIV/AIDS programs in Eastern Europe and the Independent States of the Former Soviet Union. The managers also encourage USAID to make available funds from this account for HIV/AIDS programs in "ESF countries" other than those for whom funds are specifically mandated in this Act.

The conference agreement also provides a total of \$155,500,000 from the Child Survival and Health Programs Fund to combat infectious diseases other than HIV/AIDS, such as malaria and tuberculosis.

In addition, the conference agreement includes \$250,000,000 as a contribution to the Global Fund to Fight AIDS, Tuberculosis, and Malaria, bringing the total United States contribution to the fund to date to \$725,000,000. The managers note that the President's request for the Global ATM Fund from Division E of this Act is \$100,000,000. The timing of disbursement of the full \$725,000,000 is limited by language requiring that the United States contribution may not exceed the total resources provided by other donors and available for use by the Global Fund. The managers note also that, of the awards pledged thus far by the Global ATM Fund to recipient countries, approximately 65 percent are for AIDS interventions, 17 percent are for malaria interventions, and 16 percent are for tuberculosis or combined tuberculosis/AIDS interventions.

When funding through bilateral programs administered by USAID is considered together with the United States contribution to the Global ATM Fund, the conference agreement provides a total of \$120,000,000 for tuberculosis assistance. Of this amount, \$65,000,000 is funded through the Child Survival and Health Programs account, \$15,000,000 from other bilateral accounts, and \$40,000,000 through the contribution to the Global Fund. For malaria, the conference agreement provides a total of \$115,000,000. Of this amount, it is expected that \$42,500,000 of the contribution to the Global Fund will fund malaria programs, \$65,000,000 is funded through this account, and \$7,500,000 is provided from other bilateral accounts.

The conference agreement includes bill language, proposed by the Senate, regarding the development of microbicides as a means of combating HIV/AIDS.

In addition, the conference agreement includes up to \$100,000,000 for mother and child HIV prevention and up to \$10,500,000 for a United States contribution to the International AIDS Vaccine Initiative.

The managers are concerned that little progress has been made toward the implementation of the micronutrient programs mandated by Section 3013 of P.L. 107-171 and direct USAID to implement this provision as soon as possible this fiscal year.

The managers support \$27,500,000 for the multilateral effort to eradicate polio in fiscal year 2003, instead of \$30,000,000 as recommended in the Senate report and \$25,000,000 as recommended in the House report.

The managers endorse Senate report language regarding malaria, and recommend that USAID provide direct support to the Medicines for Malaria Venture and the Malaria Vaccine Initiative.

The conference agreement allocates \$368,500,000 for family planning/reproductive health within the Child Survival and Health Programs Fund, as proposed by the House, instead of \$385,000,000 as proposed by the Senate. Section 522 of the conference agreement mandates that an overall total of \$446,500,000 be made available for bilateral family planning/reproductive health from this account, the Economic Support Fund, and the regional accounts for Eastern Europe and the former Soviet Union, as in current law.

The managers endorse the language of the House report with respect to the Dikembe Mutombo Foundation Congolese Hospital, Lott Carey International, and the Caribbean Epidemiology Center.

The managers endorse Senate report language regarding programs for people with disabilities, including recommendations to provide funding for Special Olympics' overseas programs and for Olympic Aid.

The managers also direct USAID to continue to provide the Committees with a detailed annual report not later than March 31, 2003, on the programs, projects, and activities undertaken by the Child Survival and Health Programs Fund during fiscal year 2002.

Funds appropriated for the Child Survival and Health Programs Fund are appropriated for programs, projects and activities. Funds for administrative expenses to manage Fund activities are provided in a separate account, with two exceptions included in the conference agreement: authority for USAID's central and regional bureaus to use up to \$150,000 from program funds for Operating Expense-funded personnel to better monitor and provide oversight of the Fund; and, in section 522, authority to use up to \$13,500,000 to reimburse other government agencies and private institutions for professional services.

The managers are aware that significant USAID resources are directed toward support for the Global ATM Fund, both at its Geneva headquarters and in developing countries seeking or in receipt of Fund rewards. The managers have no objection to such support, but request a brief written report not later than March 15, 2003 on the extent and cost of such support, including the cost of non-USAID direct hire staff involved in such efforts. In addition, any proposed transfer of appropriations from the Child Survival and Health Programs Fund to the Department of Health and Human Services is limited to \$25,000,000 in fiscal year 2003, and such transfer, as well as any transfer to USAID Operating Expenses, under any authority other than this Act shall be subject to section 515 of this Act.

Any proposed obligations for Global Development Alliance programs, projects or activities shall be subject to the regular notification procedures of the Committees on Appropriations.

DEVELOPMENT ASSISTANCE

The conference agreement appropriates \$1,389,000,000 for "Development Assistance" instead of \$1,398,000,000 as proposed by the House and \$1,365,500,000 as proposed by the Senate.

The managers have agreed to provide \$218,000,000 for basic education, including adult literacy programs, under the development assistance account, as proposed by the House bill, instead of \$200,000,000 as proposed by the Senate amendment. In addition, \$32,000,000 should be derived from other accounts. The managers endorse the language of the House report with regard to Alfalit International.

The conference agreement includes a provision, similar to a Senate amendment, which provides that \$100,000,000 shall be made available for drinking water supply projects and related activities. The managers request that USAID report within 90 days of enactment of this Act on plans for the disbursement of these funds.

The conference agreement provides that, of the funds for agriculture and rural development programs, \$25,000,000 should be provided for plant biotechnology research and development.

The managers support programs that conserve energy and promote efficient energy production and distribution in developing countries. The conference agreement provides in section 555 that \$175,000,000 should be made available for these programs. The conference agreement does not include a Senate earmark of \$13,000,000 for USAID's Office of Energy and Information Technology. However, the managers are concerned that USAID is not devoting sufficient resources to promoting renewable, clean and efficient energy technologies, of which the United States is the leading manufacturer. The managers are also concerned that funding for USAID's Office of Energy and Information Technology has declined, and that it does not have the staff to adequately address the energy challenges and opportunities in developing countries with rapidly growing populations. The managers recommend additional funding and enhanced staffing for this office in fiscal year 2003.

The managers endorse both the House report and Senate report language on the Institute for Liberty and Democracy (ILD), and strongly recommend that not less than \$6,000,000 be made available for the ILD in fiscal year 2003. The managers also endorse the language of the House report with respect to the Education for Development and Democracy Initiative (EEDI), and women's inheritance rights in Africa.

The managers direct that not less than \$500,000 be made available for the United States Telecommunications Training Institute, a long-standing and successful program that provides communications and broadcasting training to professionals around the world. The Senate amendment included bill language mandating that such funds be made available for this purpose. The House bill did not address this matter.

The conference agreement provides that \$18,000,000 should be made available for the American Schools and Hospitals Abroad program. The Senate amendment included bill language stating that \$19,000,000 should be made available for this purpose.

The conference agreement in section 554 includes language directing that USAID should make available \$145,000,000 for programs and activities that directly protect biodiversity. The managers strongly support these efforts and expect these funds to be used to protect tropical forests, including support of projects to

deter illegal logging in Indonesia, Central Africa and elsewhere, and other threatened biologically diverse areas, both terrestrial and marine. Of this amount, up to \$40,000,000 may be available for the subsidy cost of modifying loans and loan guarantees, pursuant to the provisions of the Tropical Forest Conservation Act of 1998. The managers commend the Administration for its Congo Basin Forest Initiative and expect full funding to be made available for the Central African Regional Program for the Environment.

The managers note the Committees' history of commitment to USAID's Office of Women in Development. The managers conclude that the office is currently an underutilized resource at the Agency, and are disappointed with the lack of commitment the Agency has shown to it. The managers are also disappointed that USAID over many years has consistently failed to fully comply with Congressional direction to provide the WID office with adequate financial resources and skilled personnel.

The managers are aware of the ways in which development challenges affect men and women differently. For instance, in recent years, there has been widespread recognition of the importance of investments in educating girls and the unique obstacles to educating girls in developing societies. The managers expect that much of the work on these issues, as well as the funding for these types of interventions, should be derived from bureau and mission program funds. An example of bureau and mission funded activities would be women's leadership training programs, on behalf of which the managers endorse the language and report requirement included in the House report.

The managers urge USAID to increase the capacity of the Bureau for Policy and Program Coordination, in collaboration with the WID office, to provide agency-wide leadership to integrate concerns of women in development strategies, an especially important function as USAID devises new agriculture and trade strategies. The WID office should have the budget, appropriately skilled personnel, and flexibility to consult with overseas missions on country programs, determine the need for better women's integration strategies in each of the functional and regional bureaus and country and regional missions, provide technical assistance in strategic planning as necessary, and offer incentive funds to missions to undertake new gender integration initiatives. The managers remain concerned about the ability of the WID office to have agency-wide impact from its current location within the Bureau for Economic Growth, Agriculture and Trade, and urge the Agency to take all possible steps to alleviate these concerns. The managers direct the Administrator to report to the Committees on Appropriations no later than 120 days after the enactment of this Act on steps taken to address these concerns and recommendations.

The managers strongly support the fertilizer-related research and development being conducted by the International Fertilizer Development Center (IFDC) and urge USAID to make at least \$4,000,000 available to IFDC, including not less than \$2,300,000 for its core grant, as provided under the Senate amendment and in the House report.

The conference agreement does not include Senate language that USAID should fund programs to provide alternative liveli-

hoods for Vietnamese coffee growers. The managers are deeply concerned with the situation that confronts impoverished Vietnamese coffee farmers, and have been informed that USAID is already engaged in these types of activities. The managers urge USAID to expand these activities and other job-creation efforts in Vietnam. Additionally, the managers endorse the Senate report language on the coffee crisis. The managers also endorse Senate report language regarding Laos.

The managers endorse House report language directing the Secretary of State to initiate discussions with Mexico regarding the Revillagigedo Islands.

INTERNATIONAL DISASTER ASSISTANCE

The conference agreement appropriates \$290,000,000 for "International Disaster Assistance" as proposed by the Senate, instead of \$315,500,000 as proposed by the House. Of this amount, not less than \$60,000,000 above the request is appropriated only for Afghanistan, and an additional \$25,000,000 is expected to be made available for Afghanistan. The director of the Office of Foreign Disaster Assistance is to consult with the Committees not less than every three months, on the current status of commitments, obligations, and expenditures by the Office and on any proposals to augment "International Disaster Assistance" by transfers from other accounts.

TRANSITION INITIATIVES

The conference agreement appropriates \$50,000,000 for "Transition Initiatives" to support USAID's Office of Transition Initiatives (OTI). The House bill proposed \$40,000,000 and the Senate amendment \$55,000,000 for this account.

DEVELOPMENT CREDIT AUTHORITY

(INCLUDING TRANSFER OF FUNDS)

The conference agreement does not include a Senate earmark of \$4,000,000 to support urban programs. However, the managers note the rapid population growth and increasing poverty in cities in developing countries and urge USAID to expand its use of the Development Credit Authority to address these growing urban needs.

OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

The conference agreement provides \$572,000,000 for Operating Expenses of the U.S. Agency for International Development, instead of \$572,200,000 as proposed by the House and \$571,087,000 as proposed by the Senate.

The managers note that events since September 11, 2001 have imposed increasing administrative costs on the programs of the U.S. Agency for International Development. In particular, these costs have been felt in the Middle East and Asia. The managers are concerned that USAID have sufficient operating expenses resources to assure the safety of its employees and their families in

an increasingly dangerous environment. The managers, therefore, request that USAID submit within 90 days of enactment of this Act a report detailing these increased costs agency-wide, with particular emphasis on the Asia/Near East region. This report should include, but not be limited to, an analysis of how the Agency is using operating expenses and how operating expense costs have increased since fiscal year 2001.

The managers endorse the language of the House report with respect to the USAIDLINK program.

CAPITAL INVESTMENT FUND

The conference agreement appropriates \$43,000,000 as proposed by the House instead of \$65,000,000 as proposed by the Senate.

The conference agreement includes House language that authorizes the Administrator of USAID to assess fair and reasonable rental payments for the use of space by employees of other government agencies; provides that the rental payments shall be deposited into this account as offsetting collections; requires notification for the use of such offsetting collections, as well as for funds appropriated under this heading; and provides that the assignment of United States Government employees and contractors to space in buildings shall be subject to the concurrence of the Administrator of USAID.

The conference agreement assumes \$30,000,000 for a new USAID building in Nairobi, as requested by the President.

The conference agreement includes language similar to that of the Senate amendment that authorizes up to \$10,000,000 for the costs of temporary, secure facilities in Afghanistan. The managers endorse the Senate report language regarding this matter. The conference report does not contain Senate language that provided not less than \$13,000,000 for information technology and related capital investments. The House bill did not address these matters.

OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

OFFICE OF INSPECTOR GENERAL

The conference agreement appropriates \$33,300,000 for Operating Expenses of the United States Agency for International Development, Office of Inspector General, instead of \$33,046,000 as proposed by the Senate and \$33,700,000 as proposed by the House. The managers encourage the Inspector General to continue the policy of constructive and ongoing reviews of USAID's attempts to resolve its serious financial and human resource management and procurement challenges. The managers also request the Inspector General to inform the Committee promptly of any emerging deficiencies.

OTHER BILATERAL ECONOMIC ASSISTANCE

ECONOMIC SUPPORT FUND

The conference agreement appropriates \$2,270,000,000 for the Economic Support Fund instead of \$2,445,000,000 as proposed by the House and \$2,260,000,000 as proposed by the Senate.

The conference agreement includes Senate language providing for the early disbursement of funds for Israel within 30 days of enactment. The House bill included this language, along with language that provided for disbursement by October 31, 2002, which ever was later.

The conference agreement does not include House language providing for \$200,000,000 in anti-terrorism assistance for Israel. The Senate amendment did not address this matter.

The conference agreement includes language that provides not less than \$200,000,000 for the Commodity Import Program in Egypt as proposed by the Senate. The House bill did not address this matter.

The managers recognize that Egypt is a vital and strategic ally of the United States and plays an important role in the Middle East peace process. However, they remain concerned about the human rights situation in Egypt, especially restrictions on freedom of expression and the promotion of inflammatory speech by government-controlled media, as well as impediments to the development of democracy and the rule of law.

The conference agreement does not include language from the House bill that provided that not less than \$45,000,000 should be made available for Afghanistan for a variety of purposes. The Senate amendment did not address this matter under this heading. This matter is addressed under section 523 of the conference report.

The conference agreement does not include Senate language providing that \$5,000,000, in addition to funds previously allocated, should be made available for programs that bring together Arabs and Israelis, including three specified organizations. The House bill did not address this matter. However, the managers reiterate strong support for important conflict resolution programs in the Middle East as described in the House report and the Senate bill and report, including Seeds of Peace, the Arava Institute, Jerusalem International YMCA, Interns for Peace, and the CONTACT program, and expect the allocation of up to \$5,000,000 for these and similar programs.

The managers endorse the House report language regarding support for the International Arid Lands Consortium. In addition, the managers endorse the House report language regarding the Blaustein Institute for Desert Research. The managers also endorse the House and Senate report language on the International Crisis Group and the Foundation for Environmental Security and Sustainability.

The conference agreement also includes language that provides that not less than \$250,000,000 should be made available for assistance for Jordan. The Senate language would have mandated this level of support. The House bill did not address this matter.

The conference agreement does not contain Senate language providing that not less than \$75,000,000 should be provided for the West Bank and Gaza. However, it includes language similar to that in the Senate amendment authorizing up to \$1,000,000 for further legal reforms, including judicial training on commercial disputes and ethics. The managers request that USAID consult with the Committees on Appropriations on plans for the disbursement of funds.

The managers also endorse the House report language in support of a joint proposal of Al Quds University and the Kuvim Center for Infectious and Tropical Diseases of the Hebrew University in Jerusalem to establish a cooperative project in health and infectious diseases for the West Bank and Gaza.

The conference agreement includes language similar to that in the Senate that provides that not less than \$15,000,000 shall be available for assistance for Cyprus. The House bill had similar language, but it provided that \$15,000,000 should be made available rather than making this level mandatory.

The conference report includes language similar to that in the Senate amendment that provides not less than \$35,000,000 for assistance for Lebanon. The House bill included language that recommended this level of assistance for Lebanon, but did not include Senate language regarding child custody and international pickup orders. In addition, funding provided in this account for the Central Government of Lebanon is subject to Congressional notification. The Senate amendment would have prohibited assistance for the central government. The managers direct that funding for American educational institutions in Lebanon from the bilateral assistance program be provided in fiscal year 2003 at no less than the fiscal year 2002 level of \$3,500,000.

The managers remain concerned with the failure of the Government of Lebanon, despite repeated requests at the highest levels, to enforce the orders of Lebanese courts requiring the return of abducted American children in Lebanon. The conference agreement provides that the Government of Lebanon should enforce the custody and international pickup orders, issued during calendar year 2001, of Lebanon's civil courts regarding abducted American children in Lebanon.

The conference agreement provides not less than \$60,000,000 under this heading for USAID programs in Indonesia. The Senate amendment had included \$150,000,000 for Indonesia from all accounts in the Act, including \$10,000,000 for programs in Aceh and not less than \$5,000,000 for reconstruction and recovery efforts in Bali. The House did not address this matter. The managers recommend \$10,000,000 for reconciliation and development programs in Aceh, and \$5,000,000 for reconstruction and recovery efforts in Bali.

The managers are outraged by continued reports of the complicity of local Indonesian military units in the murders of Americans Ted Burgon and Rick Spier in Papua last year, and call upon President Megawati Sukarnoputri to use the full authority of her office to bring to justice the perpetrators of this crime.

The managers expect USAID to adequately fund programs and activities relating to parliamentary and presidential elections

scheduled in 2004. In addition, the managers recommend continued funding for activities targeted toward the professional development of provincial leaders and institutions. The conference agreement does not include Senate language prohibiting the use of funds made available for Aceh to construct roads or other infrastructure that threatens the habitat of orangutans or other endangered species. However, the managers are concerned that plans to construct a network of roads and other infrastructure in the remaining forest habitat of orangutans and other endangered species in Aceh could rapidly doom these animals to extinction. No U.S. assistance is to be used for such activities.

The conference agreement also includes Senate language that provides that not less than \$25,000,000 shall be made available for Timor-Leste, including up to \$1,000,000, which may be transferred to and merged with Operating Expenses of the United States Agency for International Development. The House bill did not address this matter.

The conference agreement includes language similar to that in the Senate amendment that recommends that \$2,000,000 should be made available for assistance for countries to implement and enforce the Kimberley Process Implementation Scheme (KPIS). The Senate amendment would have provided \$3,500,000 for this purpose. The House bill did not address this matter. The managers support the KPIS, an international regime aimed at stopping the trade in "conflict diamonds", and urge the diamond industry and non-governmental organizations to provide financial assistance and expertise to help implement KPIS. The managers endorse the Senate report language on this issue.

The conference agreement does not include Senate language regarding human rights programs in North Korea. This matter is addressed under section 526.

The conference agreement contains language similar to that in the Senate amendment that provides \$3,000,000 for international youth exchanges for secondary school students from countries with significant Muslim populations. The House bill did not address this matter. The managers note that the allocation of these funds will fulfill a one-year, one-time commitment to fund this program within the foreign operations budget, absent a formal budget request in the future.

The conference agreement does not contain Senate language regarding support for the provision of wheelchairs for needy persons in developing countries. This matter is addressed under "Child Survival and Health Programs Fund".

The conference agreement contains language similar to that of the Senate amendment that provides that not less than \$10,000,000 should be made available in fiscal year 2003 for a contribution to the Special Court for Sierra Leone. The Senate amendment would have mandated this level of assistance. The House bill did not address this matter. The managers strongly support the efforts of the Court and the Truth and Reconciliation Commission to hold accountable those involved in the atrocities committed during the conflict. The managers continue to be disappointed that the State Department, during fiscal year 2002, ignored the managers' recommendation to accelerate the disbursement of United States

funding for the Court to meet pressing transportation, security, and other needs. The managers expect \$10,000,000 to be disbursed in fiscal year 2003, and understand that these funds would fulfill a three-year U.S. pledge of assistance for the court.

The conference agreement includes Senate language authorizing the use of not to exceed \$200,000,000 for debt restructuring for Pakistan, and not to exceed \$15,000,000 of funds appropriated under this heading in Public Law 107-296 for debt restructuring for Jordan. The House bill did not address these matters.

INTERNATIONAL FUND FOR IRELAND

The conference agreement appropriates \$25,000,000 as proposed by the House. The Senate amendment contained no provision on this matter.

ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES

The conference agreement appropriates \$525,000,000, instead of \$520,000,000 as proposed by the House and \$530,000,000 as proposed by the Senate.

The conference agreement includes language similar to that from the House bill that provides that \$5,000,000 shall be made available for assistance for the Baltic States. The House bill did not mandate this level of assistance. The Senate amendment did not address this matter.

The conference agreement contains language that provides that up to \$1,000,000 should be made available for training programs for Kosovar women. The Senate amendment would have mandated \$2,000,000 for such programs. The House bill did not address this matter. The managers expect sufficient funding will be provided for reconstruction, reform, and reconciliation efforts in Kosovo. They also endorse the funding level for Serbia as recommended in the Senate report.

The conference agreement contains language that provides that \$2,000,000 should be made available to enhance safety at nuclear power plants. It is intended that this nuclear safety program will entail the provision of full scope simulators. The Senate amendment would have mandated \$5,000,000 for this purpose. The House bill did not address this matter.

The conference agreement does not include Senate language providing \$750,000 to support regional programs and activities to promote reconciliation among ethnic groups within the former Yugoslavia. However, the managers recommend that USAID consider funding for such programs that are conducted by local non-governmental organizations.

The conference agreement includes Senate language regarding the authority of the President to withhold certain assistance for Bosnia if it has not complied with certain requirements of the Dayton Accord on the withdrawal of foreign forces, and has not terminated intelligence cooperation with state sponsors of terrorism and terrorist organizations. The House bill had similar language, but included a reference to cooperation with Iranian officials rather than state sponsors of terrorism and terrorist organizations.

The managers strongly support the funding level for Montenegro as recommended in the House report.

The managers recommend up to a total of \$5,000,000 for the Russian, Eurasian, and East European Research and Training Program (Title VIII). The managers also endorse House report language in support of the East Central European Scholarship Program (ECESP).

ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION

The conference agreement appropriates \$760,000,000, instead of \$755,000,000 as proposed by the House and \$765,000,000 as proposed by the Senate.

The conference agreement includes not less than \$60,000,000 for child survival, environmental and other health activities, and programs to reduce the incidence of HIV/AIDS, tuberculosis, and other infectious diseases, including \$15,000,000 for reproductive health/family planning. The managers direct the Coordinator and USAID to utilize the higher level of health funding to expand primary and advanced health programs in Central Asia, with an emphasis on reducing the incidence of tuberculosis in the region, including consideration of proposals to establish telemedicine partnerships between United States medical institutions and counterparts in Central Asia. The manager also endorse House and Senate report language regarding the Primary Healthcare Initiative and strongly recommend that not less than \$2,500,000 be made available for this program to help it to become self-sustaining.

The managers strongly support regional cooperation efforts among the countries of Armenia, Azerbaijan, and Georgia. To further regional cooperation, the conference agreement continues the current six exemptions from the statutory restrictions on assistance to the Government of Azerbaijan. The managers include a provision that funds available for the Southern Caucasus may be used for confidence-building measures and other activities related to the resolution of regional conflicts, notwithstanding any other provision of law, as proposed by the Senate.

The conference agreement includes not less than \$90,000,000 as proposed by the Senate instead of \$83,433,000 as proposed by the House, for assistance for Armenia under the heading "Assistance for the Independent States of the Former Soviet Union".

The managers strongly encourage the State Department to continue discussions with the sponsors of the proposed CANDEL project and relevant Armenian authorities on the economic viability and sustainability of the project. The managers recommend that continued funding for the project's study be made available from assistance provided for Armenia in this Act.

The managers have not included a specific amount for Georgia in the conference agreement, as proposed by both the Senate and the House, but continue to support the sovereignty and territorial integrity of Georgia, and expect that the request for Georgia will be made available by the Administration. The managers encourage the Government of Georgia to take more effective measures to defend human rights and the rule of law by protecting religious minorities against mob violence. The incidence of such attacks with-

out intervention by police or other security forces is of great concern to the Committees on Appropriations.

The managers commend USAID for its thorough review and consideration of the establishment of an Absorptive Capacity Fund (ACF) for Georgia. Given shifting priorities in that country, the managers rescind their directives in the Conference Report accompanying H.R. 4811 relating to the ACF.

The managers continue to be concerned with the murder of John Alvis, a democracy worker with the International Republican Institute, in Azerbaijan. The managers request that within 30 days of enactment of this Act, the State Department provide an update on the status of the investigation. The managers expect the State Department and relevant Azeri authorities to continue to make this investigation a top priority.

The managers endorse both Senate and House language relating to Ukraine, and reiterate concerns about violence against members of the Rada and with the reports concerning Ukraine's covert transfer of the Kulchuga radar system to Iraq. The conference agreement provides that not less than \$20,000,000 should be made available for nuclear reactor safety initiatives in Ukraine, of which \$12,000,000 should be for simulator-related projects, and not less than \$1,500,000 for coal mine safety programs. This is similar to a Senate amendment. The House did not address this matter.

The managers endorse Senate report language regarding the study of the environmental causes of birth defects in Rivine and Volyn oblasts, and unexploded ordnance and excess weapons stockpiles in Ukraine.

The conference agreement includes conditions on assistance to the Government of the Russian Federation, with exceptions for specified humanitarian and security programs, with respect to its adherence in the Northern Caucasus to certain conventional arms and human rights conventions and agreements, as proposed by both the House and the Senate. The managers reiterate language in the Statement of the Managers from prior years with regard to other limitations on assistance, "that assistance to combat infectious diseases, . . . support for regional and municipal governments, and partnerships between United States hospitals, universities, judicial training institutions and environmental organizations and counterparts in Russia should not be affected by this section."

The conference agreement continues current restrictions on United States assistance to the Government of the Russian Federation, unless it provides full access to Chechnya for humanitarian relief organizations. The managers deplore the violations of human rights by both rebels and Russian security forces in Chechnya, as well as the forced resettlement to Chechnya of refugees who are living in appalling conditions. The managers urge the Administration to be more vigorous in pressing the Russian Government to seriously address these concerns.

The conference agreement includes language providing \$17,500,000 for the Russian Far East, as proposed by the Senate.

The conference agreement again directs the Coordinator of Assistance to the Independent States to obligate not less than \$1,500,000, primarily through locally-based and indigenous private

voluntary organizations, to reduce trafficking in women and children.

The managers note that request levels for several countries in the former Soviet Union are declining rapidly, and request that the Coordinator consult with the Committees as he works with USAID to develop new country strategies leading toward eventual graduation of these countries from the United States foreign assistance programs.

INDEPENDENT AGENCIES

INTER-AMERICAN FOUNDATION

The conference agreement appropriates \$16,200,000 instead of \$16,000,000 as proposed by the House and \$16,385,000 as proposed by the Senate.

AFRICAN DEVELOPMENT FOUNDATION

The conference agreement appropriates \$18,689,000 instead of \$19,689,000 as proposed by the House and \$17,689,000 as proposed by the Senate.

The conference agreement includes Senate language pertaining to earned interest.

PEACE CORPS

The conference agreement provides \$297,000,000 instead of \$317,000,000 as proposed by the House and \$285,000,000 as proposed by the Senate.

The managers have included House language waiving the so-called "five-year rule" of employment in the case of employees whose appointment involves the safety of Peace Corps volunteers, such as regional safety security officers and employees within the Office of Inspector General.

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

The conference agreement appropriates \$197,000,000 for International Narcotics Control and Law Enforcement as proposed by the House instead of \$196,713,000 as proposed by the Senate.

The conference agreement provides that \$10,000,000 should be made available for anti-trafficking in persons programs. The Senate amendment provided \$20,000,000 for this purpose, and the House did not address this matter.

The conference agreement also provides that \$10,000,000 should be made available for the demand reduction program, as proposed by the House. The Senate did not address this matter.

Additionally, the conference agreement includes language directing that from funds provided under this heading not less than \$5,000,000 shall be apportioned directly to the Department of the Treasury, International Affairs Technical Assistance, to be used for financial crimes and law enforcement technical assistance programs. The apportionment of these funds will allow the Department of Treasury to respond to host governments in a more expeditious manner than presently is occurring.

The managers endorse Senate and House report language regarding ILEA, and expect the administration to provide sufficient funding to complete construction on the Roswell Center.

The conference agreement makes available \$24,180,000 for administrative expenses instead of \$24,062,000 as proposed by the House and \$24,300,000 as proposed by the Senate.

ANDEAN COUNTERDRUG INITIATIVE

The conference agreement appropriates \$700,000,000 for the Andean Counterdrug Initiative instead of \$731,000,000 as proposed by the House and \$650,000,000 as proposed by the Senate.

Additionally, the conference agreement allows for the authority to provide up to \$31,000,000 through a permissive transfer from the International Narcotics Control and Law Enforcement funds. Such a transfer is subject to the regular notification procedures of the House and Senate Committees on Appropriations. The managers emphasize that there are other funds for Andean nations in this Act that may be made available for the Andean Regional Initiative (ARI).

The conference agreement provides that not less than \$250,000,000 shall be directly apportioned to U.S. Agency for International Development, instead of \$225,000,000 as provided in the Senate amendment. This provision was not included in the House bill.

The managers have extended the availability of funds provided for assistance for Colombia to support a unified campaign against narcotics trafficking, against activities by organizations designated as terrorist organizations, and to take actions to protect health and human welfare. This provision is identical to that in the House bill and similar to the provision included in the Senate amendment in section 563. The managers are supportive of the Colombian Government in its attempts to provide security for the Colombian people and have provided the expansion of authorities in recognition that the narcotics industry is linked to the terrorist groups, including the paramilitary organizations, in Colombia. However, the managers still conclude that coca provides the revenue and a motive for the violence committed by both the guerrilla and paramilitary groups. Therefore, the managers expect counternarcotics, alternative development, and judicial reform to remain the principal focus of United States policy in Colombia. The expanded authority is not a signal from the managers for the United States to become more deeply involved in assisting the Colombian Armed Forces in fighting the terrorist groups, especially not at the expense of the counternarcotics programs, but to provide the means for more effective intelligence gathering and fusion, and to provide the flexibility to the Department of State when the distinction between counternarcotics and counterterrorism is not clear cut. The managers direct the Secretary of State to report to the Committees on Appropriations not later than 90 days after enactment of the changes in United States policy, including new procedures and operations, as a result of implementing the expanded authorities.

The conference agreement includes House language that provides that the expanded authority shall cease to be effective if the Secretary of State has credible evidence that the Colombian Armed

Forces are not conducting vigorous operations to restore government authority and human rights in areas under the effective control of paramilitary and guerrilla organizations. This provision is not included in the Senate amendment.

The managers note the requirement in the Act that the Secretary of State, in consultation with the Administrator of U.S. Agency for International Development, shall provide to the Committees on Appropriations not later than 45 days after the date of the enactment of this Act and prior to the initial obligation of funds appropriated under this heading, a report on the proposed uses of all funds under this heading on a country-by-country basis for each proposed program, project, or activity. This report is similar to the report required in the fiscal year 2000 emergency supplemental appropriations act and is required again in fiscal year 2003 given the managers' disappointment in the level of pertinent information included in the Department of State's Congressional Budget Justification and congressional notifications.

Additionally, the conference agreement does not include Senate language making all funds under this heading subject to notification. The House bill did not include this language. The managers note that in section 520, all funds provided for Colombia are subject to notification.

The conference agreement continues current caps on the number of United States military personnel and United States civilian contractors in Colombia, as well as the current prohibition on participation by such persons in combat operations in connection with assistance made available by this Act.

The conference agreement again includes conditions on the aerial spraying of herbicide, similar to the Senate amendment, to ensure that any use of such chemicals is consistent with the Colombian Environmental Management Plan, with Environmental Protection Agency regulations, and to ensure that chemicals used in the aerial fumigation of coca do not pose unreasonable health or safety risks to humans or the environment. The managers intend and expect that every reasonable precaution will be taken in the aerial fumigation program to ensure that the exposure to humans and the environment in Colombia meets Environmental Protection Agency standards for comparable use in the United States.

Additionally, the managers direct the Secretary of State to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, describing (1) the steps the Department of State is taking to enhance environmental safeguards of the fumigation program, including implementing the recommendations of the Environmental Protection Agency in the fiscal year 2002 fumigation report; (2) the Department's plan to conduct an independent, long-term program to monitor the health and environmental effects of the fumigation program, including conducting soil and water tests in areas sprayed, toxicity tests on the spray formulation, and ground verification missions to evaluate overspray; and (3) steps taken to implement environmental training programs for fumigation pilots.

The conference agreement includes the House language prohibiting funds for the resumption of flights in support of a Peruvian

air interdiction program until a system of enhanced safeguards are in place. The Senate did not address this matter.

The conference agreement provides that not less than \$5,000,000 from funds under this heading or under the heading "Foreign Military Financing" should be made available to support a Colombian Armed Forces unit dedicated to apprehending the leaders of paramilitary organizations. The Senate amendment included similar language but made the provision of funds mandatory. The House did not address this matter. The managers believe that the capture of these individuals, for which there are numerous outstanding arrest warrants, could contribute significantly to reducing atrocities against civilians by these terrorist organizations as well as enhancing public confidence in the Colombian Government's ability to protect public safety.

The conference agreement provides that not less than \$1,500,000 should be made available for vehicles, equipment, and other assistance for the human rights unit of the Procurador General, instead of language proposed by the Senate that provides that not less than \$2,000,000 shall be made available for such assistance. The House did not address this matter.

Additionally, the conference agreement provides that not less than \$3,000,000 should be made available for software and training for the Colombian National Police. The Senate amendment included similar language but made the provision of funds mandatory. The House did not address this matter.

The conference agreement provides that not less than \$3,500,000 shall be made available for the Colombian National Park Service. This language is identical to the provision in the Senate amendment. The House did not address this matter. The managers endorse Senate report language regarding this issue.

The managers endorse the language in the House report directing that the Department of State immediately terminate its inter-agency agreement with the Department of Justice and transfer remaining funds to the U.S. Agency for International Development for development, rule of law, and humanitarian assistance programs.

The conference agreement makes available \$15,680,000 for administrative expenses of the Department of State as proposed by the House instead of \$14,800,000 as proposed by the Senate.

MIGRATION AND REFUGEE ASSISTANCE

The conference agreement appropriates \$787,000,000 for Migration and Refugee Assistance as proposed by the Senate, instead of \$800,000,000 as proposed by the House. The conference agreement makes available \$16,565,000, for administrative expenses as proposed by the Senate instead of \$16,000,000 as proposed in the House.

The conference agreement also includes language from the Senate amendment that provides not less than \$60,000,000 for refugees from the former Soviet Union and Eastern Europe and other refugees resettling in Israel. The House addressed this matter in the House report.

The conference agreement does not include Senate language providing that funds should be made available to international or-

ganizations for assistance for refugees from North Korea. However, the managers remain concerned with the plight of these refugees and expect that funding will be provided to safeguard the human rights and dignity of North Korean refugees and asylum seekers. The managers also expect that funds will be made available for assistance for those Burmese exiles who have fled to Thailand. The managers strongly encourage the State Department to consult on an ongoing basis with the appropriate Thai authorities, including through the establishment of a working group, to determine how best to assist these exiles.

UNITED STATES EMERGENCY MIGRATION AND REFUGEE ASSISTANCE
FUND

The conference agreement appropriates \$26,000,000 for the U.S. Emergency Migration and Refugee Assistance Fund (ERMA), instead of \$20,000,000 as proposed by the House and \$32,000,000 as proposed by the Senate.

The conference agreement does not include language included in the Senate amendment that provides the funds notwithstanding section 2(c)(2) of the Migration and Refugee Assistance Act of 1962. Section 2(c)(2) would limit appropriated funds to this Fund if, when added, would cause the balance of the fund to exceed \$100,000,000.

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED
PROGRAMS

The conference agreement appropriates \$306,400,000 as proposed by the Senate instead of \$347,400,000 as proposed by the House.

The managers intend that funds in this account be allocated as follows:

	<i>(\$ in thousands)</i>
Nonproliferation and Disarmament Fund	\$15,000
Export control and border security assistance	36,000
Science Centers/BW redirection	52,000
International Atomic Energy Agency	52,900
CTBT Monitoring System	17,300
Korean Peninsula Economic Development:	
Organization (KEDO) administrative expenses	5,000
Anti-terrorism assistance	64,200
Terrorist Interdiction Program	5,000
Demining	46,000
International Trust Fund for Demining	10,000
Small arms destruction	3,000
Total	306,400

The conference agreement includes a reduction of \$900,000 from the budget request for the Comprehensive Nuclear Test Ban Treaty (CTBT) Preparatory Commission monitoring system based on revised information from the Department of State. The managers have been informed that the amount of \$17,300,000 will fully fund the United States contribution to the CTBT Preparatory Commission for fiscal year 2003. The conference agreement does not contain House language requiring a report to the Committees on Appropriations 15 days prior to the obligation of funds for the Commission. Also, it does not contain Senate language mandating a specified level of funding for the Commission.

The conference agreement includes Senate language restricting the use of assistance for the Korean Peninsula Energy Development Organization (KEDO). The President is authorized to waive this restriction in section 562 to provide up to \$5,000,000 for assistance for administrative expenses only. To the extent these funds are not programmed for KEDO, they should be reprogrammed for support for the International Atomic Energy Agency.

The conference agreement includes Senate language authorizing not to exceed \$675,000 for administrative expenses associated with the demining program. The House bill did not address this matter. The conference agreement does not contain Senate language stating that \$57,000,000 should be used for demining and related activities; however, the managers support \$56,000,000 for these purposes, as identified above.

The conference agreement contains language similar to that of the Senate amendment that authorizes not to exceed \$250,000 for the support of public-private partnerships for mine action by grant, cooperative agreement, or contract. The managers direct that the State Department provide a financial plan for the use of these funds to the Committees on Appropriations prior to the use of this authority. The House bill did not address this matter.

The conference agreement does not contain Senate language providing that \$4,000,000 should be available to support the Small Arms Destruction Initiative; however, the managers support \$3,000,000 for this purpose, as identified above.

DEPARTMENT OF THE TREASURY

INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE

The conference agreement provides \$10,800,000 for the International Affairs Technical Assistance program of the Department of the Treasury, instead of \$11,000,000 as proposed by the House, and \$10,500,000 as proposed by the Senate.

The managers support the efforts of the Department of the Treasury, International Affairs Technical Assistance, to assist nations in their efforts to reduce financial crimes and corruption by strengthening those governmental systems. The Department of the Treasury has been providing technical assistance for over a decade to nations facing economic disruption due to systemic weaknesses, post conflict crises, terrorist influences, or criminal practices. The managers urge the Department of the Treasury to continue its current technical assistance program and to strengthen its law enforcement program with additional resident and intermittent advisors. The Committee further directs the Department of the Treasury to manage its technical assistance program in accordance with its own policies and to report to the Committees on Appropriations in the House and Senate on the status of its efforts.

The managers endorse the language of the House report with respect to the International Affairs Technical Assistance program.

TITLE III—MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL MILITARY EDUCATION AND TRAINING

The conference agreement does not include language proposed by the Senate that would have prohibited funds for travel or other purposes that do not directly expose the individual participants to government officials or institutions or to other individuals or organizations engaged in activities involving public policy. The House bill did not address this matter. The managers are aware that the Department of Defense is in the process of issuing revised guidance on the Information Program to address issues related to this provision. The managers request that the Department maintain its consultations with the Committees on this guidance.

The conference agreement provides that funding for Guatemala, Algeria and Nigeria shall be subject to the regular notification procedures of the Committees on Appropriations.

The managers expect that, consistent with the letter sent to the Congress by the Assistant Secretary of State for Legislative Affairs, the Committees on Appropriations will be consulted prior to the obligation of funds for an Indonesian IMET program.

The conference agreement does not include a Senate provision directing the Department of Defense to maintain a record of students that complete the IMET program for at least six years after graduation. The House bill did not address this matter. The managers note that the Office of Management and Budget has identified shortcomings in procedures to evaluate the performance of the IMET program. The managers have addressed this matter by including a general provision (section 581) requiring the Secretary of State to submit a report to the Committees on Appropriations which describes the progress being made in improving performance evaluation procedures for the IMET program and implementing section 548 of the Foreign Assistance Act.

FOREIGN MILITARY FINANCING PROGRAM

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$4,072,000,000 as proposed by the Senate instead of \$4,080,200,000 as proposed by the House.

The conference agreement includes Senate language providing for the early disbursement of funds for Israel (as well as certain funds for Egypt) within 30 days of enactment. The House bill included this language, along with language that provided for disbursement of funds for both countries by October 31, 2002, whichever was later.

The conference agreement does not include Senate language that would have provided not less than \$198,000,000 for assistance for Jordan. The House bill did not address this matter. The managers note that these funds have already been obligated for assistance for Jordan.

The conference agreement does not contain language from the Senate amendment that would have mandated not less than

\$3,000,000 for Armenia. The managers expect the full IMET and FMF funding requests for Armenia will be provided in fiscal year 2003, and that a portion of the FMF funds should be used to enhance communications capabilities. The House bill did not address this matter.

The conference agreement provides that up to \$93,000,000 of the funds appropriated under this heading may be transferred to “Andean Counterdrug Initiative” for helicopters, training and other assistance for the Columbian Armed Forces, rather than up to \$88,000,000 as proposed by the Senate. The House bill would have authorized the transfer of up to \$98,000,000 for this purpose to “International Narcotics Control and Law Enforcement”.

The managers endorse Senate report language regarding the contents of the Foreign Military Training Report, including information on training activities by civilian contractors.

The managers endorse Senate report language regarding projects in the southern Philippines and increased Foreign Military Financing assistance to the Philippines.

PEACEKEEPING OPERATIONS

The conference agreement appropriates \$115,000,000 instead of \$120,250,000 as proposed by the Senate and \$125,000,000 as proposed by the House.

The conference agreement does not include Senate language providing that \$7,000,000 should be made available for Afghanistan. The House bill did not address this matter.

The conference agreement does not include Senate language providing that not less than \$50,000,000 should be made available for Africa Regional Peacekeeping Operations and the Africa Crisis Response Initiative. The House bill did not address this matter. However, the managers are concerned that adequate funding be maintained for peacekeeping operations in Africa, and endorse the House and Senate report language on this issue. The managers recommend up to \$45,000,000 for such activities.

TITLE IV—MULTILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL FINANCIAL INSTITUTIONS

GLOBAL ENVIRONMENT FACILITY (GEF)

The conference agreement appropriates \$147,812,533 for the Global Environment Facility as proposed by the House instead of \$177,812,533 as proposed by the Senate. The managers intend for \$107,500,000 of this amount is for the scheduled United States contribution to the third replenishment of the GEF, and \$40,312,533 for past payments due.

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

The conference agreement appropriates \$850,000,000 for the International Development Association (IDA), the concessional lending facility of the World Bank, instead of \$874,338,333 as proposed by the House and \$837,338,333 as proposed by the Senate.

The managers intend that the appropriation be made available to fully provide for the first scheduled payment under the United States commitment to the thirteenth replenishment of IDA.

The managers have not included Senate language requiring the Secretary of the Treasury to accord a high priority in the next replenishment of IDA to provide new grant assistance to HIPC-eligible countries given that a grants agreement was included in the IDA-13 replenishment.

CONTRIBUTION TO THE MULTILATERAL INVESTMENT GUARANTEE
AGENCY

The conference agreement appropriates \$1,631,000 for paid-in capital for the Multilateral Investment Guarantee Agency (MIGA), the amount provided in the Senate amendment, instead of \$1,630,696 as proposed by the House bill. The managers intend for the appropriation to be provided for past payments due by the United States to MIGA. Approval for a subscription to the appropriate amount of callable capital is also included in the conference agreement.

CONTRIBUTION TO THE INTER-AMERICAN INVESTMENT CORPORATION

The conference agreement appropriates \$18,351,667 for a United States contribution to the Inter-American Investment Corporation as proposed by the Senate, instead of \$30,351,667 as proposed by the House.

CONTRIBUTION TO THE ENTERPRISE FOR THE AMERICAS
MULTILATERAL INVESTMENT FUND

The conference agreement appropriates \$24,590,667 for past due payments by the United States to the Multilateral Investment Fund as proposed by the House, instead of \$29,590,667 as proposed by the Senate.

CONTRIBUTION TO THE ASIAN DEVELOPMENT FUND

The conference agreement provides \$97,886,133 for the United States contribution to the Asian Development Fund as proposed by the House, instead of \$100,386,133 as proposed by the Senate.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT FUND

The conference agreement appropriates \$108,073,333 for the African Development Fund as proposed by the Senate, instead of \$113,073,333 as proposed by the House.

CONTRIBUTION TO THE EUROPEAN BANK FOR RECONSTRUCTION AND
DEVELOPMENT

The managers endorse Senate report language regarding the European Bank for Reconstruction and Development.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

The conference agreement provides \$195,150,000 for voluntary contributions to International Organizations and Programs instead of \$190,400,000 as proposed by the House and \$215,000,000 as proposed by Senate.

The managers have provided \$11,000,000 for the United Nations Environment Program (UNEP), an increase of \$250,000 over the fiscal year 2002 level. The managers recognize UNEP's role in addressing global environmental problems, and believe United States support for UNEP is necessary to achieve important U.S. environmental objectives. However, the managers are very concerned that UNEP's inefficient governing process impedes its effectiveness and must be reformed, if UNEP is to continue to receive significant U.S. support in meeting the world's increasingly complex environmental challenges.

The conference agreement retains Senate language which provides \$500,000 for a contribution to the International Coffee Organization (ICO) if the United States rejoins the ICO by June 1, 2003. The House bill did not address this matter. The conference agreement also provides that these funds should be made available for a contribution to the United Nations Center for Human Settlements (UNHABITAT), if the United States does not rejoin the ICO by this date. These funds are to be in addition to other funds made available for UNHABITAT under this heading. The Senate bill provided \$1,000,000 for UNHABITAT. The House did not address this matter.

The managers do not have a position on rejoining the ICO but urge the administration to consult with the Committees on Appropriations in the House and Senate concerning a decision on ICO membership.

The managers support the efforts of UNHABITAT to improve the lives of destitute slum dwellers in developing countries. The managers note that UNHABITAT has recently been revitalized through a successful restructuring that has met United States Government criteria for reform.

The managers intend that funds in this account be allocated as follows:

	<i>(\$ in thousands)</i>
UN Fund for Tech. Cooperation in Human Rights	1,500
UN Voluntary Fund for Victims of Torture	5,250
OAS Fund for Strengthening Democracy	3,500
UNDP	100,000
UNIFEM	1,000
OAS Development Assistance	5,500
WTO	2,000
ICAO Aviation Programs	300
UNEP	11,000
Montreal Protocol	23,000
International Conservation Programs (CITES/ITTO/IUCN/Ramsar/ CCD)	6,500
IPCC/UNFCCC	6,000
International Contributions for Scientific Educational & Cultural Activities	1,850
World Meteorological Organization	2,000
International Coffee Organization	500
UN Center for Human Settlements	250
Reserve to be allocated	25,000
Total	195,150

TITLE V—GENERAL PROVISIONS

(NOTE: If House and Senate language is identical except for a different section number or minor technical differences, the section is not discussed in the Statement of Managers.)

Sec. 503. Limitation on Residence Expenses

The conference agreement sets a limitation of \$100,500 for USAID official residence expenses as proposed by the Senate, instead of \$126,500 as proposed by the House.

Sec. 505. Limitation on Representational Allowances

The conference agreement sets a limitation of \$125,000 on representation allowances from funds appropriated for USAID as proposed by the Senate, instead of \$95,000 as proposed by the House.

Sec. 507. Prohibition Against Direct Funding for Certain Countries

The conference agreement includes language similar to that included in the Senate amendment regarding assistance for Iraq. The House bill did not include such a provision.

The conference agreement provides that assistance or other financing under this Act or under prior foreign operations, export financing, and related programs appropriations Acts may be provided for humanitarian and relief assistance for Iraq notwithstanding the provisions of this section or any other provision of law, including comparable provisions contained in prior foreign operations, export financing, and related programs appropriations Acts, if the President determines that the provision of assistance or other financing for Iraq is important to the national security interests of the United States. Such assistance or financing would be subject to the regular notification procedures of the Committees on Appropriations, except that notifications shall be transmitted at least 5 days in advance of obligations of funds. In addition, the conference report requires the President to report to the Committees on Appropriations on the status of the allocation, obligation and expenditure of funds made available for Iraq not later than every 60 days during fiscal year 2003, beginning on March 1, 2003. Each report shall include information on programs, projects, and activities that are being funded or will be funded with such assistance or financing, and the departments and agencies responsible for managing each such program, project, and activity. The authority to provide assistance for Iraq will expire on the date of enactment of the first subsequent supplemental appropriations Act for fiscal year 2003 that contains supplemental funding for appropriations accounts contained in this Act.

It is the intention of the managers that this authority not be used inside Iraq, except for assessments of humanitarian and relief needs by private or nongovernmental organizations, prior to any military action against Iraq or, in the absence of such action, prior to a change of regime in Iraq. The limitation of the waiver to humanitarian and relief assistance is not intended to preclude assistance for the promotion of democracy or governance if the goal of such assistance is the maintenance of social services and public order. The managers expect that funds drawn from accounts in this

Act under this waiver will be promptly reimbursed through supplemental funding.

Sec. 509. Transfers Between Accounts

The conference report includes House language on this matter. The new provisions of this section would prohibit transfers to any department, agency, or instrumentality of the United States unless specifically authorized in this Act, except for certain transfers authorized by provisions of the Foreign Assistance Act. The managers note that a limit on transfers from the Child Survival and Health Programs Fund is included under that heading. In addition, transfers under section 632(a) of the Foreign Assistance Act shall expressly provide that the Inspector General for the agency receiving the transfer shall perform periodic program and financial audits, and allows for the cost of such audits to be covered by the transfer.

Sec. 512. Countries in Default

The conference agreement includes House language that prohibits assistance to the government of any country in default on U.S. bilateral loans. The Senate amendment included less restrictive provisions. This matter is addressed in the Statement of the Managers under the heading "Export-Import Bank".

Sec. 515. Notification Requirements

The conference agreement reflects a technical change proposed by the House to include "Capital Investment Fund" in the list of accounts that are subject to notification pursuant to this section. The Senate did not address this matter.

Sec. 520. Special Notification Requirements

The conference agreement adds "Serbia" as proposed in the Senate amendment to the list of countries subject to the special notification procedures of this section, but does not include "Haiti" and "Nigeria" as recommended by the Senate. The managers note that IMET assistance for Nigeria is subject to notification under a provision in title III of this Act.

Sec. 521. Definition of Program, Project and Activity

The conference agreement restates current law regarding the definition of program, project and activity, instead of Senate language limiting the definition.

Sec. 522. Child Survival and Health Activities

The conference agreement authorizes USAID to use up to \$13,500,000 from the "Child Survival and Health Programs Fund" and up to \$3,500,000 from "Development Assistance" for technical experts from other government agencies, universities, and other institutions. The managers have decreased this authority in order to accelerate the shift to USAID direct hire personnel of responsibility for implementation and oversight of USAID's expanded infectious disease and basic education activities.

The conference agreement provides that not less than \$446,500,000, as in current law, shall be made available for reproductive health/family planning activities from funds appropriated

by this Act, including \$368,500,000 from the Child Survival and Health Programs Fund, \$15,000,000 from Assistance to the Independent States of the Former Soviet Union, and \$63,000,000 from other accounts such as the Economic Support Fund, International Disaster Assistance, Assistance to Eastern Europe and the Baltic States, and Migration and Refugee Assistance.

Sec. 523. Afghanistan

The conference agreement provides that not less than \$295,500,000 of the funds appropriated by title II shall be made available for humanitarian and reconstruction assistance for Afghanistan, as proposed by the House. The Senate amendment proposed not less than \$213,000,000 for Afghanistan from titles II and III. Of this amount, not less than \$5,000,000 is for activities supported by the Afghan Ministry of Women's Affairs including multi-service women's resource centers in Afghanistan.

The managers intend that funds provided under this section be allocated as follows:

(\$ in thousands)	
Child Survival and Health Programs Fund	50,000
Development Assistance	40,500
International Disaster Assistance	85,000
Transition Initiatives	10,000
Economic Support Fund	50,000
Nonproliferation, Anti-terrorism, etc (NADR)	5,000
USAID Operating Expenses	[9,350]
USAID IG Operating Expenses	[500]
Migration and Refugee Assistance	55,000
Total	295,500

The conference agreement does not include a Senate provision that not less than \$1,500,000 should be made available for the National Human Rights Commission of Afghanistan. However, the managers recognize the critical need for timely and credible investigations of the full range of human rights violations in Afghanistan and expect USAID to continue to support the Commission.

The conference agreement does not include Senate language requiring a report by the Secretary of State that details women's development programs in Afghanistan supported by the United States Government, and barriers that impede women's development in Afghanistan. However, the managers request the Secretary to submit such a report, not later than 90 days after enactment of this Act, including proposed United States assistance programs and activities to overcome such barriers.

Sec. 525. Authorization Requirement

The conference agreement includes language that provides that funds appropriated by this Act may be obligated and expended notwithstanding section 10 of Public Law 91-672 and section 15 of the State Department Basic Authorities Act of 1956, as provided in the House bill and the Senate amendment. It includes House language exempting the account "Peace Corps" and Senate language exempting the accounts "Trade and Development Agency," "Migration and Refugee Assistance", "Nonproliferation, Anti-Terrorism, Demining and Related Programs", "International Military Education and

Training” and “Foreign Military Financing Program” from these waivers.

Sec. 526. Democracy Programs

The conference agreement contains language in subsection (a) that provides not less than \$15,000,000 shall be made available for activities to support democracy, human rights, and the rule of law in the People’s Republic of China, Hong Kong, and Tibet. Of these funds, not less than \$9,000,000 shall be provided through the Human Rights and Democracy Fund of the Bureau of Democracy, Human Rights and Labor, Department of State and not less than \$3,000,000 shall be provided through the National Endowment for Democracy. In addition, subsection (a) authorizes funding of not to exceed \$3,000,000 for nongovernmental organizations to support activities that preserve cultural traditions and promote sustainable development and environmental conservation in Tibetan communities in the Tibetan Autonomous Region and in Tibetan communities in China. In addition, funds should be made available for Taiwan for the purposes of furthering political and legal reforms to the extent that they are matched from sources other than the United States Government. In addition, the conference report provides not less than \$15,000,000 for programs and activities to foster democracy, human rights, civic education, women’s development, press freedoms, and the rule of law in countries with a significant Muslim population, and where such programs and activities would be important to United States efforts to respond to, deter, or prevent acts of international terrorism. Not less than \$3,000,000 of these funds should be made available for programs and activities that provide professional training for journalists. Of the funds for Muslim countries, not less than \$7,000,000 shall be provided through the Human Rights and Democracy Fund of the Bureau of Democracy, Human Rights and Labor, Department of State and not less than \$5,000,000 shall be provided through the National Endowment for Democracy. In addition, funds are authorized for the advancement of democracy and human rights in Iran.

Funds provided in this section for the Human Rights and Democracy Fund are in addition to the \$12,000,000 budget request for said Fund in fiscal year 2003. In addition, the conference agreement includes language requiring a report from the Secretary of State with 120 days of enactment on the allocation, obligation, and expenditure of funds made available for the National Endowment for Democracy. The Senate amendment would have required the obligation and disbursement of such funds within 90 days of enactment of this Act.

Of the \$12,000,000 in base funds for the Human Rights and Democracy Fund, the managers direct that \$1,000,000 be provided (within 120 days of enactment) for the Reagan/Fascell Program, and \$250,000 be provided for the North Korean human rights and democracy program as identified in the Senate amendment under “Economic Support Fund”.

All funds provided under this section are subject to the regular notification procedures of the Committees on Appropriations.

Sec. 527. Prohibition on Bilateral Assistance to Terrorist Countries

The conference agreement includes House language on this matter, which prohibits funds to any country that the President determines is supporting terrorism. The Senate amendment would have prohibited funds to the government of any such country.

Sec. 528. Debt for Development

The conference agreement includes House language on this matter. The Senate amendment would have authorized the use of appropriated funds for endowments.

Sec. 533. Impact on Jobs in the United States

The conference agreement modifies the scope of this section with respect to internationally recognized worker rights as described in section 507 of the Trade Act of 1974, as contained in the Senate amendment. The House bill did not address this matter.

Sec. 534. Special Authorities

The conference agreement includes House language providing certain authority for assistance for Lebanon and Montenegro, and Senate language on authority for assistance for Afghanistan, assistance to victims of trafficking, and assistance to combat trafficking. The conference agreement does not include House language, not in the Senate amendment, that would have authorized assistance for Cambodia under section 541 of the Foreign Assistance Act notwithstanding certain other restrictions contained in this Act. In addition, it does not contain language from the Senate amendment, not in the House bill, that would subject assistance for Cambodia to the provisions of section 531(e) of the FAA and section 906 of the International Security and Development Cooperation Act of 1985. Those provisions have the effect of permanent law, and the Senate language is therefore unnecessary.

The managers have reduced current authority for certain bureaus and offices in USAID to hire personal service contractors, continued existing authority for USAID to provide support for administrative costs of a program to provide information regarding available donated space on commercial ships to organizations shipping humanitarian assistance, and provides for expanded authorities under section 660(b)(6) of the Foreign Assistance Act of 1961.

The conference agreement includes Senate language deleting a requirement that the Secretary of the Treasury provide certain annual reports. The House did not address this matter.

Sec. 535. Arab League Boycott of Israel

The conference report includes Senate language on this matter, except that the “Sense of the Congress” rather than the “Sense of the Senate” is invoked. Among other things, the language calls upon the Arab League states to normalize relations (including the reinstatement of ambassadors by the three Arab League nations with relations with Israel) with Israel. The House bill contained current law on this matter.

Sec. 537. Eligibility for Assistance

The conference agreement consolidates current language regarding assistance to non-governmental organizations in certain countries as proposed by the Senate. The House bill did not change current law.

Sec. 543. Prohibition on Assistance to Foreign Governments that Export Lethal Military Equipment to Countries Supporting International Terrorism

The conference agreement reflects the House language that includes a technical correction not included in the Senate amendment.

Sec. 544. Withholding of Assistance for Parking Fines Owed by Foreign Countries

The conference agreement allows 110 percent of the total amount of unpaid parking fines determined to be owed by foreign countries to the District of Columbia and New York City, New York, to be withheld from obligation for assistance to such country, as proposed by the Senate. The language is similar to that proposed by the House.

Sec. 546. War Crimes Tribunals Drawdown

The conference agreement includes House and Senate language authorizing up to \$30,000,000 in drawdowns of commodities or services for war crimes tribunals. The conference agreement includes House language that specifies that any drawdown made under this section shall not be construed as an endorsement or precedent for the establishment of any standing or permanent international criminal tribunal or court. The Senate amendment did not address this matter.

Sec. 549. Prohibition of Payment of Certain Expenses

The conference agreement includes Senate language, not in the House bill, that adds theatrical and musical productions to the list of activities prohibited under this section.

Sec. 550. Restrictions on Voluntary Contributions to United Nations Agencies

The conference agreement is similar to the House bill but deletes the certification requirement. The Senate did not address this matter.

Sec. 551. Caribbean Basin

The conference agreement makes certain purchases of defense articles and services available to the Haitian Coast Guard but does not include House language, not in the Senate amendment, requiring that such transfers be subject to notification.

The conference agreement provides that not less than \$52,500,000 should be allocated for assistance to Haiti from funds in title II of this Act and food assistance fund managed by USAID. This provision is identical to language in the House bill and was not included in the Senate amendment.

Additionally, the conference agreement includes identical language as included in the House bill that provides that out of funds in title II of this Act, \$37,680,000 should be allocated for Nicaragua and \$40,130,000 should be allocated for Honduras. The Senate did not address this matter.

Sec. 554. Protection of Biodiversity and Tropical Forests

The conference agreement includes language directing that USAID should make available \$145,000,000 for programs and activities that directly protect biodiversity. The managers strongly support these efforts and expect these funds to be used to protect tropical forests, including support of projects to deter illegal logging in Indonesia, Central Africa and elsewhere, and other threatened biologically diverse areas, both terrestrial and marine. Of this amount, up to \$40,000,000 may be available for the subsidy cost of modifying loans and loan guarantees, pursuant to the provisions of the Tropical Forest Conservation Act of 1998. The managers commend the Administration for its Congo Basin Forest Initiative and expect full funding to be made available for the Central African Regional Program for the Environment.

Sec. 555. Energy Conservation, Energy Efficiency and Clean Energy Programs

The managers support programs that conserve energy and promote clean and efficient energy production and distribution in developing countries. The conference agreement provides that \$175,000,000 should be made available for these programs.

This section also requires the Executive Office of the President to submit an updated and revised annual government-wide report on federal activities and costs relating to climate change and greenhouse gas emissions. The House bill did not address this matter.

Sec. 556. Zimbabwe

The conference agreement is the same as current law and is identical to the Senate amendment. The House did not address this matter.

Sec. 557. Nigeria

The conference agreement includes language similar to that of the Senate amendment that restricts the use of IMET and FMF for Nigeria until the President certifies to the Committee on Appropriations that certain specified Nigerian officials are suspending from the Armed Forces those members, of whatever rank, against whom there is credible evidence of gross violations of human rights in Benue State in October 2001, and the Government of Nigeria and the Nigerian Armed Forces are taking effective measures to bring such individuals to justice. The President may waive such prohibition if he determines that doing so is in the national security interest of the United States. Prior to exercising such waiver authority, the President is required to submit a report to the Committees on Appropriations describing the involvement of the Nigerian Armed Forces in the incident in Benue State, the measures that are being taken to bring such individuals to justice, and whether any Nigerian Armed Forces units involved with the inci-

dent in Benue State are receiving United States assistance. The managers expect the Department of State will consult with the Committees on Appropriations on the form the report will take.

Sec. 558. Burma

The conference agreement includes a modified version of the Senate's provision on the use of the Economic Support Fund in Burma and along the Burma-Thailand border, and, in addition, a House provision, similar to language in prior year Acts, regarding independent media activities promoting democracy inside Burma.

The managers deplore the failure of Burma's State Peace and Development Council (SPDC) to resume dialogue with Daw Aung San Suu Kyi and the National League for Democracy, and urge the immediate release of all prisoners of conscience in Burma. The managers continue to expect that United States Government programs and activities conducted inside Burma, including HIV/AIDS programs, will be carried out in consultation with the leadership of the National League for Democracy.

The managers note the systematic abuse of human rights by the SPDC, especially in campaigns of violence against Burmese minorities, including rape of girls and women and forced evacuations of villages. These campaigns have displaced an estimated one million persons inside of Burma and an equal number in neighboring countries.

In order to expand the provision of health services to displaced Burmese, including those who live in appalling conditions outside of refugee camps in Thailand, the managers expect that \$1,000,000 will be provided to continue to support efforts to combat HIV/AIDS inside of Burma, and that not less than \$1,000,000 will be provided to support efforts to limit malaria and infectious diseases among Burmese along the Burma-Thailand border. These funds are to be made available under the heading "Child Survival and Health Programs Fund" in this Act, and are in addition to the amounts provided under this section.

The managers request that within 120 days of enactment of the Act, the Administrator of USAID, in consultation with the Department of State, provide a report to the Committees on Appropriations that describes the estimated number and condition of displaced persons inside Burma and Burmese refugees, exiles, or migrant workers in Thailand and proposes steps that the United States Government could take, working with other donors and not providing direct support to the SPDC, to address the root causes of this crisis and to better provide for the humanitarian needs of displaced Burmese.

The managers recommend that up to \$500,000 be made available to support a new initiative inside Burma that utilizes the expertise of the leadership of the National League for Democracy (NLD) in determining and addressing the urgent needs of the people of Burma. The managers recommend that the State Department consult with the NLD on the development of this initiative, and request to be regularly updated on its progress.

Sec. 560. Cambodia

The conference agreement includes House language providing that the Secretary of the Treasury should instruct U.S. executive directors of international financial institutions to oppose loans to the Central Government of Cambodia, except loans to support basic human needs. The Senate amendment would have mandated such instructions. In subsection (b), the conference agreement contains language similar to that of the Senate amendment that prohibits assistance for the Central Government of Cambodia, except that this provision does not apply to assistance for basic education, reproductive and maternal and child health, cultural and historic preservation, and for the Ministry of Women and Veterans Affairs to combat human trafficking, and for certain assistance provided through nongovernmental organizations. The House bill restricted assistance except for basic education and assistance provided under "Child Survival and Health Programs Fund".

In subsection (c), the conference agreement provides that up to \$5,000,000 may be made available, notwithstanding the above restriction, for activities to support democracy, including democratic political parties in Cambodia. In subsection (d), the conference agreement provides that \$3,750,000 of the funds made available in this Act shall be made available, notwithstanding the above restriction, as a contribution for an endowment to sustain rehabilitation programs for Cambodians suffering from physical disabilities that are administered by an American nongovernmental organization that is directly supported by USAID. Such funds may be made available only if an amount at least equal to one-half the United States contribution is provided for the endowment from sources other than the United States Government. The managers endorse the Senate report language regarding this issue. The House bill did not address these matters.

The managers condemn the recent riots in Cambodia, and are concerned with the Cambodian Government's failure to protect foreign embassies and foreign-owned businesses in Phnom Penh. The managers note that in a statement issued on February 6, 2003, the State Department stated that the United States was "particularly concerned by indications that the government is using the situation to target the political opposition and independent media". The managers request that within 60 days of enactment of this Act, the Secretary of State report to the Committees on Appropriations on the complicity of the Cambodian Government in the riots (including an explanation of the failure of Cambodian authorities to respond to the riots in a timely and effective manner), and steps taken by the governments of Thailand and Cambodia to credibly investigate the riots. The managers encourage the administration to continue to forcefully and publicly condemn election-related violence and intimidation in the run up to the July parliamentary elections.

Sec. 562. Korean Peninsula Energy Development Organization

The conference agreement includes language similar to that of the Senate amendment that prohibits funding for the Korean Peninsula Energy Development Organization (KEDO), except for up to \$5,000,000 for administrative expenses if the President determines that it is vital to the national security interests of the

United States. Such funding is subject to notification. The House bill would have limited funding for KEDO to \$50,000,000 only for administrative expenses and heavy fuel oil costs associated with the Agreed Framework. In addition, the House bill required several certifications by the President prior to the obligation of funding for KEDO.

Section 563. Palestinian Statehood

The conference agreement includes House language that prohibits funding to support a Palestinian state unless the Secretary of State makes certain determinations, including: a new leadership of a Palestinian governing entity has been democratically elected through credible and competitive elections; the elected governing entity has demonstrated a firm commitment to peaceful co-existence with Israel; is taking appropriate measures to counter terrorism; and is establishing a new Palestinian security entity that is fully cooperative with appropriate Israeli and other appropriate security organizations; and the Palestinian Authority or its successor is working with other countries in the region to vigorously pursue efforts to establish a just, lasting, and comprehensive peace in the Middle East, including normal relations between Israel and an independent Palestinian state in a number of areas. It also expresses the sense of the Congress that the newly elected governing entity should enact a constitution assuring the rule of law, an independent judiciary, respect for human rights, and other laws and regulations assuring transparent and accountable governance. This section also includes a waiver of the restrictions herein based on national security interests of the United States, and exempts assistance to the Palestinian Authority and affiliated institutions, or a newly elected governing entity, in order to help meet the requirements of this section, consistent with the provisions of section 552 of this Act. The Senate amendment contained language similar to the House bill on this matter.

Section 564. Colombia

The conference agreement includes a modified version of the House and Senate provisions on conditioning funds for Colombian Armed Forces.

Sec. 567. Iraq

The conference agreement includes language similar to that in the House bill, which provides that funds from the Economic Support Fund may be made available for programs benefiting the Iraqi people and to support efforts to bring about political transition in Iraq. The conference agreement also includes language that provides that none of the funds made available pursuant to the authorities provided in this section may be made available to any organization to reimburse or pay for costs incurred by such organization in prior fiscal years. Funds would be subject to the regular notification procedures of the Committees on Appropriations.

Sec. 568. West Bank and Gaza Program

The conference report includes House language on this matter. It contains prior year language (also in the Senate amendment) re-

quiring the Comptroller General of the United States to certify that procedures have been established to assure access to appropriate financial information in order to review the uses of funds provided for the West Bank and Gaza Program of the Economic Support Fund. In addition, the language requires the Secretary of State to take all appropriate steps to ensure that assistance is not provided to entities or individuals that advocate, plan, sponsor, engage in, or have engaged in, terrorist activity. Finally, the language requires annual audits of all contractors and grantees, and significant subcontractors and subgrantees. Up to \$1,000,000 is authorized to be made available to the Inspector General of the United States Agency for International Development for audits, inspections, and other activities in furtherance of this provision.

Sec. 569. Indonesia

The conference agreement includes language similar to that of the Senate amendment on this matter. It would allow assistance for Indonesia appropriated under “Foreign Military Financing Program” and licenses for export of lethal defense articles for the Indonesian military only if the President certifies that the Government of Indonesia and the Indonesian Armed Forces are taking certain measures, including suspending from the Armed Forces those members, of whatever rank, who have been credibly alleged to have committed gross violations of human rights, or aided or abetted militia groups, as well as prosecuting those members and punishing them, if they have been found to have committed such acts. In addition, the language requires the President to certify that the Indonesian Armed Forces are cooperating with civilian prosecutors and judicial authorities in such cases, including providing access to witnesses, relevant military documents, and other requested information. Finally, the language requires the President to certify that the Minister of Defense is making publicly available audits of receipts and expenditures of the Indonesian Armed Forces. The House bill included similar language, but did not address the issue of export licenses for lethal defense articles.

Sec. 570. Restrictions on Assistance to Governments Destabilizing Sierra Leone

The conference agreement includes a provision identical to the House bill that prohibits assistance to any government for which the Secretary of State has credible evidence that such government has aided or abetted, within the previous six months, in the illicit distribution, transportation, or sale of diamonds mined in Sierra Leone. The language is similar to the Senate amendment.

Sec. 572. Contributions to the United Nations Population Fund

The managers note that \$34,000,000 appropriated for the United Nations Population Fund (UNFPA) in P.L. 107–115 has not been obligated due to a determination by the Secretary of State in July 2002 that UNFPA’s program in the People’s Republic of China was in violation of the Kemp-Kasten amendment. The conference agreement provides that these prior year funds, and an equivalent amount from this Act, shall be made available to UNFPA if the President determines that UNFPA is no longer in violation of the

Kemp-Kasten amendment. The conference agreement also contains a prohibition on the use of United States funds in China as well as all other restrictions in current law.

Sec. 573. Procurement and Financial Management Reform

The conference agreement includes House language withholding 10 percent of the funds made available for international financial institutions until the Secretary of the Treasury certifies that a number of procurement and financial management reforms are being implemented. The Senate did not address this matter.

Sec. 574. Central Asia

The conference agreement includes the identical provision included in the Senate amendment that conditions the assistance to the Government of Uzbekistan unless the Secretary of State determines and reports that the Government of Uzbekistan is making progress and meeting commitments of the Declaration of Strategic Partnership. The House addressed this matter in title II.

The conference agreement includes a provision similar to the Senate provision related to human rights and democracy in Central Asia, but adds a national security interest waiver for the Secretary of State with regard to assistance for Kazakhstan. The managers urge the Secretary to pursue an agreement with the Government of Kazakhstan similar to the Declaration on the Strategic Partnership and Cooperation Framework signed by the United States and the Government of Uzbekistan addressing democracy, human rights and other matters of mutual interest.

The conference agreement contains a provision similar to the Senate amendment requiring the Secretary of State to submit periodic reports on the provision of defense articles and financial assistance to the countries of Central Asia. The House did not address this matter.

Sec. 576. War Criminals

The conference agreement contains language similar to that in both the House bill and Senate amendment regarding war criminals in the Balkans.

Sec. 577. User Fees

The conference agreement includes the Senate language that expands the current law restriction requiring the Secretary of Treasury to instruct the U.S. Executive Directors to oppose any loan, grant strategy or policy that would require user fees on poor people for primary education or healthcare in connection with the institutions' financing programs. The House provision reflected current law.

Sec. 578. Funding for Serbia

The conference agreement contains current law on this matter, except that the provisions of this section affect assistance for Serbia after June 15 of this year, rather than after March 30 as in the fiscal year 2002 appropriations Act. In addition, technical modifications have been inserted to refer to a successor state to the Federal Republic of Yugoslavia (FRY).

The House bill would have applied the provisions of this section to assistance for the governments of Serbia and the FRY. The Senate bill would have imposed certain additional requirements on the FRY beyond those in current law.

Sec. 579. Prohibition on Taxation of United States Assistance

The conference agreement contains language similar to that of the House bill that provides that none of the funds appropriated in this Act may be made available to provide assistance for a foreign country under a new bilateral agreement governing the terms and conditions under which such assistance is to be provided unless such agreement includes a provision stating that commodities purchased with assistance provided by the United States shall be exempt from taxation, or reimbursed, by the foreign government, and the Secretary of State shall expeditiously seek to negotiate amendments to existing bilateral agreements, as necessary, to conform with this requirement. The language also requires that, of the funds appropriated by this Act that are allocated for assistance for a foreign country and for the West Bank and Gaza Program, an amount equivalent to 200 percent of the total taxes assessed during fiscal year 2003 against United States assistance programs by a foreign government or entity, either directly or through grantees, contractors and subcontractors, shall be withheld from assistance for such country or entity in fiscal year 2004 to the extent that the Secretary of State certifies and reports in writing to the Committees on Appropriations that such taxes have not been reimbursed to the Government of the United States. Foreign taxes of a de minimis nature are not subject to these reimbursement provisions. Of the funds withheld from obligation for each country or entity pursuant to this section, one-half may become available for reprogramming for other purposes (pursuant to section 515 of this Act and consistent with the purposes for which such funds were originally appropriated) and one-half shall be deposited in the General Fund of the Treasury on, or within 5 days after, September 1, 2004. The language also requires the Secretary of State to issue rules, regulations, or policy guidance, as appropriate, to implement the prohibition against the taxation of assistance contained in this section. The Senate amendment did not address this matter.

Sec. 580. GAO Report

The conference report contains language similar to that of the House bill that requires a report from the Comptroller General to the Committees on Appropriations no later than November 1, 2003, on the extent to which the Department of State is complying with section 301(c) of the Foreign Assistance Act and on the implementation of procedures that have been established to meet the standards of the Department of State regarding compliance with the requirements of said section. This audit shall review the implementation of procedures by the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) regarding this provision of law. The conference agreement does not include language from the House requiring a report from the Secretary of State on this matter, but the managers are agreed that the Sec-

retary shall comply with the requirements of the House bill in this regard.

Sec. 582. Community-Based Police Assistance

The conference agreement includes language similar to the Senate language authorizing use of certain USAID-administered funds in title II of this Act for support for civilian police in Jamaica and El Salvador, but not Indonesia as included in the Senate amendment, notwithstanding section 660 of the Foreign Assistance Act. The House did not address this matter.

Sec. 583. Overseas Private Investment Corporation and Export-Import Bank Restrictions

The conference agreement includes a provision identical to the Senate amendment and current law and prohibits the use of funds by OPIC and Export-Import Bank from financing investments in connection with a project involving the mining, polishing or other processing, or sale of diamonds in a country that fails to implement the recommendations, obligations and requirements developed by the Kimberley Process or taking measures that the Secretary of State determines to contribute effectively to preventing and eliminating the trade in conflict diamonds.

Sec. 584. Trade Capacity Building

The conference agreement includes a provision identical to the House bill that provides that not less than \$452,000,000 should be made available for trade capacity building assistance from the Trade and Development Agency, Development Assistance, Transition Initiatives, ESF, International Affairs Technical Assistance, and International Organizations and Programs accounts. The Senate did not address this matter.

Sec. 585. Transparency and Accountability

The conference agreement includes Senate language requiring the Secretary of State to submit a report concerning the public disclosure of revenues from extractive industries and other sources by governments of countries that receive United States assistance. The House did not address this matter. The managers endorse the Senate report language regarding this issue.

Sec. 586. American Churchwomen and Other Citizens in El Salvador and Guatemala

The conference agreement contains Senate language on this matter. The House bill contained similar language.

PROVISIONS NOT ADOPTED BY THE CONFEREES:

The conference agreement does not include section 549 of the Senate amendment regarding "Tibet" urging U.S. Executive Directors to International Financial Institutions to support certain types of projects in Tibet. The House bill did not address a similar provision. The managers are aware of concerns raised by the Department of the Treasury about this provision, however, the managers strongly support the intent of this provision and expect to be con-

sulted prior to votes in the International Financial Institutions on projects in Tibet.

The conference report does not include section 554 of the House bill regarding “Discrimination Against Minority Religious Faiths in the Russian Federation.” The Senate did not include this provision.

The conference report does not include section 555 of the House bill regarding “Assistance for the Middle East.” The Senate amendment did not address this matter.

The conference report does not include section 565 of the House bill regarding “Briefings on Potential Purchases of Defense Articles or Defense Services by Taiwan.” The Senate did not address this matter. This matter is addressed in permanent law.

The conference report does not include section 578 of the Senate bill regarding “Excess Defense Articles for Central and Southern European Countries and Certain Other Countries.” The House did not address this matter. These authorities already exist for fiscal year 2003.

The conference report does not include section 579 of the House bill “Tropical Forest Conservation.” The text of this provision is included in section 554 “Protection of Biodiversity and Tropical Forests.”

The conference report does not include section 580 of the House bill regarding “Authorizations”. The Senate amendment did not address this matter.

The conference report does not include section 581 of the House bill and section 580 of the Senate amendment regarding Cuba.

The conference agreement does not include section 583 of the Senate amendment regarding “Regional Democracy Programs for East Asia and the Pacific.” The House did not address this matter.

The conference agreement does not include section 585 of the Senate amendment extending the prohibition of oil and gas drilling in the Great Lakes of the United States. The House bill did not address this matter.

The conference agreement does not include section 586 of the Senate amendment regarding the “Sense of the Senate with Respect to North Korea”. The House did not address this matter.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follow:

New budget (obligational) authority, fiscal year 2002	\$16,586,780
Budget estimates of new (obligational) authority, fiscal year 2003	16,492,896
House bill, fiscal year 2003	16,594,574
Senate bill, fiscal year 2003	16,474,739
Conference agreement, fiscal year 2003	16,345,186
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	– 241,594
Budget estimates of new (obligational) authority, fiscal year 2003	– 147,710
House bill, fiscal year 2003	– 249,388
Senate bill, fiscal year 2003	– 129,553

DIVISION F

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES
APPROPRIATIONS

The conference agreement on the Interior and Related Agencies Appropriations Act, 2003, incorporates some of the provisions of H.R. 5093 as passed by the House of Representatives on July 18, 2002, and the Senate version of H.J. Res. 2 (Division F and Division N) as passed by the Senate on January 23, 2003. Report language and allocations set forth in either House Report 107-564 or the Senate report language published in the Congressional Record of January 15, 2003, that are not changed by the conference are approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not negate the language referenced above unless expressly provided herein.

No funds in this Act are derived from the Conservation Spending Category established in the Department of the Interior and Related Agencies Appropriations Act, 2001. However, the programs previously funded under this category are, for the most part, continued in fiscal year 2003.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The conference agreement provides \$825,712,000 for management of lands and resources instead of \$826,932,000 as proposed by the House and \$816,062,000 as proposed by the Senate.

Increases above the House for land resources include \$1,000,000 for noxious weeds for the Montana State University weed program, \$500,000 for Idaho weed control, and a decrease of \$500,000 for range monitoring.

There is a decrease below the House for wildlife and fisheries of \$500,000 for fisheries management.

There is a decrease below the House for threatened and endangered species of \$87,000 for travel.

Increases above the House for recreation management include \$1,000,000 for Missouri River undaunted stewardship, \$400,000 for Colorado Canyons, and decreases of \$250,000 for recreation access, and \$302,000 for conversion of certain lands to fee sites.

The managers do not concur with the House proposal concerning funding for the energy and minerals program. Funding for this program shall be at the level proposed for activities in the request but with the following modifications. An increase of \$750,000 for permitting of geothermal energy applications and wind energy rights-of-way in Nevada, \$1,000,000 for applications for permits to drill, principally in the Powder River Basin, and \$272,000 for the Alaska minerals program.

Increases above the House for realty and ownership management include \$2,000,000 for Alaska conveyance, \$1,100,000 for the cadastral survey program, of which \$750,000 is for continuation of the public lands database in AK, \$350,000 is for the State of Utah

Automated Geographic Reference Center, and \$750,000 is for additional Nevada personnel.

The managers have modified the Senate language concerning the Alaska conveyance program. The managers expect the Bureau to develop a plan to complete work on all allotment applications and all land selections under the Alaska Native Claims Settlement Act of 1971 and the Alaska Statehood Act of 1959 by 2009, 50 years after its enactment and nearly 40 years after the deadline for applying for Native allotments.

Increases above the House for resources protection and maintenance include \$500,000 for the Alaska resources library and decreases of \$200,000 for desert rangers, and \$300,000 for the restoration of lands in Arizona.

Increases above the House for transportation and facilities maintenance include \$250,000 for the Iditarod National Historic Trail, \$1,000,000 for capping oil wells in National Petroleum Reserve Alaska and decreases of \$200,000 for California Desert communications, and \$2,000,000 for fish passage improvements.

There is a decrease below the House for land and resources information of \$403,000.

There is a decrease below the House for challenge cost share of \$5,000,000. The conference agreement includes an increase of \$5,000,000 in the challenge cost share program for the Cooperative Conservation Initiative.

WILDLAND FIRE MANAGEMENT

The conference agreement provides \$654,406,000 for wildland fire management instead of \$855,332,000 as proposed by the House and \$654,254,000 as proposed by the Senate.

Decreases below the House for preparedness include \$826,000 for travel and \$600,000 for fire employment duration.

There is an increase above the House for other operations of \$500,000 for the University of Montana fire program.

There is a decrease below the House of \$200,000,000, which had been proposed as a fiscal year 2002 emergency supplemental appropriation. The managers note that in lieu of these funds the Department has been provided \$189,000,000 for fire reimbursement elsewhere in the bill.

The managers note that the Department of the Interior and the Department of Agriculture have begun full implementation of the 10-Year Comprehensive Strategy to reduce wildland fire risks. This strategy involves extensive collaboration with communities in the selection of hazardous fuels projects. In support of the strategy, the Departments have developed detailed criteria for the execution of such hazardous fuels reduction efforts. The managers feel that collaboration with communities and the use of criteria for project selection provide a suitable basis for planning the expenditure of funds, and accordingly do not concur with Senate report language requiring that seventy percent of hazardous fuels funds be used in the wildland urban interface.

Because of the managers continuing concern about fire suppression costs during major incidents, the Forest Service and the Department of the Interior are directed to contract with the National Academy of Public Administration for appropriate follow-up

work to their study of 2002. The Departments should equally share the cost of the review and the review should be conducted forthwith.

CENTRAL HAZARDOUS MATERIALS FUND

The conference agreement provides \$9,978,000 for the central hazardous materials fund as proposed by the House and Senate.

CONSTRUCTION

The conference agreement provides \$11,976,000 for construction instead of \$10,976,000 as proposed by the House and \$12,976,000 as proposed by the Senate.

There is an increase above the House for construction of \$1,000,000 for the California Trail Interpretive Center, NV.

PAYMENTS IN LIEU OF TAXES

The conference agreement provides \$220,000,000 for payments in lieu of taxes instead of \$230,000,000 as proposed by the House and \$210,000,000 as proposed by the Senate.

LAND ACQUISITION

The conference agreement provides \$33,450,000 for land acquisition instead of \$47,486,000 as proposed by the House and \$30,150,000 as proposed by the Senate. Funds should be distributed as follows:

<i>Area (State)</i>	<i>Amount</i>
Cosumnes River Watershed (easements only)(CA)	\$2,500,000
El Dorado Preserve (CA)	2,000,000
Golden Bair Ranch (CO)	1,500,000
Kasha-Katuwe Tent Rocks (NM)	1,500,000
King Range National Conservation Area (CA)	2,000,000
Lewis and Clark NHT (ID)	1,000,000
Lewis and Clark NHT (MT)	1,000,000
Moses Coulee (WA)	1,000,000
Otay Mountains (Kuchamaa) (CA)	1,250,000
Patterson Bend/Squaw Leap Management Area (CA)	900,000
Potrero Creek (CA)	2,000,000
Rio Grande National Wild and Scenic River (NM)	3,500,000
Sandy River (OR)	2,500,000
Santa Rosa and San Jacinto Mountains NM (CA)	1,000,000
Sears Point Area Critical Env'tal Concern/Juan Bautista De Anza NHT (AZ)	800,000
Snake River Birds of Prey Nat'l Conservation Area (ID)	1,000,000
Upper Snake/South Fork Snake River (ID)	2,000,000
Washington State Land Exchange (WA)	1,000,000
Use of carryover balances	- 1,000,000
<i>Subtotal</i>	<u>27,450,000</u>
Land Equalization Payment	500,000
Acquisition Management	4,000,000
Emergency/Inholdings/Relocation	1,500,000
<i>Total</i>	<u>\$33,450,000</u>

The Committee has consistently supported the West Eugene Wetlands acquisition program over the years, and is aware that the Federal portion of the acquisition program is nearing completion. In order to conclude the project properly, certain issues regarding the status of lands in the project area must be resolved. Should these issues be resolved in a manner that warrants additional Fed-

eral acquisition support, the managers will consider providing funding to complete the project in future budgets.

Funds for the Golden Bair Ranch are conditioned on BLM providing public access to this property. The money for Cosumnes River Watershed is restricted to conservation easements only. The managers have reprogrammed Spring Gulch funds to the Continental Divide NST and Devils Canyon Ranch as proposed by the Senate.

OREGON AND CALIFORNIA GRANT LANDS

The conference agreement provides \$105,633,000 for Oregon and California grant lands as proposed by the House and Senate.

RANGE IMPROVEMENTS

The conference agreement provides an indefinite appropriation for range improvements of not less than \$10,000,000 as proposed by the House and Senate.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The conference agreement provides an indefinite appropriation for service charges, deposits, and forfeitures, which is estimated to be \$7,900,000 as proposed by the House and Senate.

MISCELLANEOUS TRUST FUNDS

The conference agreement provides an indefinite appropriation of \$12,405,000 for miscellaneous trust funds as proposed by the House and Senate.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

The conference agreement provides \$917,429,000 for resource management instead of \$918,359,000 as proposed by the House and \$902,697,000 as proposed by the Senate. The numerical changes described below are to the House recommended level.

In endangered species programs, there are increases in candidate conservation of \$150,000 for the burbot population in the Kootenai River in Idaho, \$300,000 for the Idaho sage grouse management plan through the Idaho Office of Species Conservation, \$750,000 for sea otter research in Alaska, and \$50,000 for the Idaho Department of Agriculture to study the influence of herbivory on slickspot peppergrass. In ESA recovery, there are increases of \$1,000,000 for the Atlantic salmon program administered by the National Fish and Wildlife Foundation, \$100,000 for salmon recovery in Maine, \$1,000,000 for eider recovery at the Alaska SeaLife Center, \$50,000 for freshwater mussel recovery at the White Sulphur Springs NFH in West Virginia, \$500,000 for Lahonton cutthroat trout, \$150,000 for wolf monitoring by the Nez Perce Tribe in Idaho, \$75,000 for the Service's Snake River Basin office's wolf monitoring efforts, and \$250,000 for wolf monitoring efforts at the Idaho Office of Species Conservation. There are also decreases in ESA recovery of \$1,000,000 for the Washington State

salmon program administered by the National Fish and Wildlife Foundation and a \$1,000,000 general decrease.

In habitat conservation, increases in the partners for fish and wildlife program include \$1,400,000 for the Washington State regional salmon enhancement program, \$700,000 for invasive species control in Hawaii, \$100,000 for bald eagle restoration in cooperation with the Vermont Natural Heritage Partners program, \$400,000 for the Big Hole Watershed Committee in Montana, \$750,000 for the Hawaii ESA Community Conservation Plan, \$1,250,000 for the Nevada biodiversity research and conservation project, \$175,000 for the Thunder Basin grasslands initiative in Wyoming, and \$500,000 for the Montana Water Center wild fish habitat initiative. Decreases in the partners for fish and wildlife program include \$500,000 for nutria eradication at the Blackwater NWR, MD, \$550,000 for bull trout conservation in Washington State, \$1,400,000 for the Washington State ecosystems program, \$1,000,000 for invasive species control, and \$300,000 for spartina control at Willapa Bay, WA.

In project planning, there are increases of \$150,000 for the Middle Rio Grande/Bosque research program and \$474,000 for wildlife assessments at Yukon Flats, AK.

In coastal programs, there is an increase of \$750,000 for the Cook Inlet Aquaculture Association king salmon program in Alaska and a decrease of \$1,000,000 for cost shared projects, including invasive species control.

There is a decrease of \$500,000 for the environmental contaminants program.

In refuge operations and maintenance, there is an increase of \$300,000 for invasive species control at the Willapa NWR, WA and decreases of \$1,000,000 for invasive species control with friends groups and volunteers and \$5,000,000 for refuge maintenance.

In migratory bird management, there is an increase of \$575,000 to reduce seabird bycatch in Alaska, and decreases of \$1,000,000 for the Canada goose depredation program and \$1,000,000 for the joint ventures program. The funding level for each joint venture is identical to that shown in the Senate report.

In fisheries, there is a decrease of \$500,000 for the Washington State hatchery improvement project in hatchery operations and maintenance. In fish and wildlife management, increases include \$300,000 for fish passage along railroads in Alaska, \$118,000 for fish surveys at the White Sulphur Springs NFH, WV, \$850,000 for wildlife enhancement in Starkville, Mississippi, \$400,000 for the Wildlife Health Center in Montana, \$2,403,000 for Yukon River treaty implementation in Alaska, and \$1,200,000 for marine mammal protection in Alaska. Decreases in fish and wildlife management include \$100,000 for salmon reproductive biology research at Washington State University, \$1,000,000 for cooperative projects for fish passage, and \$1,000,000 for aquatic nuisance control.

In general administration, there are increases of \$200,000 for the Caddo Lake Ramsar Center in Texas and \$550,000 for maintenance at the National Conservation Training Center and a decrease of \$1,000,000 for a National Academy of Sciences review of the State Wildlife Grants program.

Within the increased funds above the fiscal year 2002 level provided for resource management, \$5,000,000 is in support of the Cooperative Conservation Initiative proposal. These funds are targeted for existing programs that have a proven record in leveraging funds and delivering valuable resource restoration results. The \$5,000,000 increase consists of \$3,000,000 for the refuge challenge cost share program, \$1,000,000 for invasive species control projects with refuge friends groups and volunteers, and \$1,000,000 for cooperative fish passage projects.

The managers are very concerned by the proposed increase in administrative costs charged to programs under the Service's cost allocation methodology (CAM) without any justification for these increases in the budget request. The managers expect that the Service will charge no increase in CAM to programs in fiscal year 2003 unless such increases are thoroughly justified through the reprogramming process. The managers suggest that any increase for CAM requested through the reprogramming process be extremely modest.

The Service needs to do a better job of explaining CAM and making it more transparent and readily understandable to a wide audience. Costs that are directly attributable to headquarters operations and regional office operations should be budgeted under general administration for those operations unless there is a clear and well-justified rationale for inclusion in CAM. No unbudgeted special projects, headquarters or regional initiatives, or departmental initiatives should be included in CAM. If there is uncontrollable cost growth associated with CAM it should be identified in the budget as a fixed, uncontrollable cost increase and not funded at the expense of programs.

The managers agree to the following:

1. The funds made available for Georgia stream bank restoration are for the Georgia Soil and Water Conservation Commission except that \$25,000 is for technical assistance by the Service.

2. The funds added for fish surveys at the White Sulphur Springs NFH in West Virginia should remain in the base for future budgets.

3. Funds have not been included for a National Academy of Sciences review of State wildlife grants as proposed by the House. This issue will be revisited in the fiscal year 2004 budget process.

4. The Service should continue to assist the Corps of Engineers in its comprehensive review of alternative approaches to preserving the Meadowlands wetlands area in northern New Jersey. The conference agreement provides an increase of \$180,000 as proposed by the House for this purpose.

5. The Service should continue to support the Carhart Wilderness Training Institute at the \$200,000 level, which is the same as in fiscal year 2002.

6. Within available funds, the Service should address the needs of the Pittsford NFH, VT and Ouray NFH, UT.

7. The funds provided to combat whirling disease and related fish health issues include \$700,000 for the National Partnership on the Management of Wild and Native Cold Water Fisheries, \$250,000 for resistant trout research coordinated through the Whirling Disease Foundation, and \$1,296,000 to continue the Na-

tional Wild Fish Health Survey, to expand whirling disease investigations, and to recruit and train health professionals.

8. The issue of continued operation of the airfield at Midway Atoll NWR needs to be addressed immediately. There are no funds in the Service’s budget to continue to operate the airfield for commercial aircraft purposes. If the parties who benefit from the current airport certification are unwilling to pay the additional expense associated with maintaining that certification, the Service should scale back its operations to include only those requirements necessary for refuge operations, including maintaining a reasonable level of visitor access.

9. The containment and cleanup of the recent spill of jet fuel at Midway Atoll NWR should be addressed as quickly as possible. The Service should keep the House and Senate Committees on Appropriations apprised of its efforts to address this problem. The Department should consider submitting a supplemental appropriations request to address this emergency situation.

10. The Secretary recently re-chartered the Hanford Reach National Monument Federal Planning Advisory Committee and increased the number of committee members from 13 to 19. In the interest of continuity and assuring timely completion of the committee’s work, the managers expect the Secretary to retain the current members when appointing members to the committee. The managers are concerned that replacement of the current 13 members would severely undermine the valuable work completed thus far.

Bill Language.—While the total funding for the endangered species-listing program is unchanged, the conference agreement earmarks \$6,000,000 for critical habitat designation activities within the listing program instead of \$5,000,000 as proposed by both the House and the Senate. The managers understand that the Department believes additional funding, beyond that requested in the budget, will be needed for the listing program in fiscal year 2003 and the managers will consider a supplemental request for additional funds if one is submitted later this year.

CONSTRUCTION

The conference agreement provides \$54,427,000 for construction instead of \$53,108,000 as proposed by the House and \$42,882,000 as proposed by the Senate. Funds are to be distributed as follows:

Project	Description	Amount
Bear River NWR, UT	Headquarters and Education Center [cc]	\$1,800,000
Bitter Lake NWR, NM	Visitor center/standard design—Phase I [d/ic]	1,100,000
Black-Footed Ferret Wildlife Research Ctr, CO	Endangered species facility—Phase IV [cc]	3,240,000
Bosque del Apache NWR, NM	Equipment for salt cedar control	400,000
Bozeman Fish Technology Center, MT	Seismic safety/3 building rehab—Phase I [p/d]	150,000
Bozeman Fish Technology Center, MT	Laboratory/administration building—Phase IV [c] ..	500,000
Bridge Safety Inspections (Servicewide)	560,000
Canaan Valley NWR, WV	Road Maintenance	650,000
Cape Romain NWR, SC	Restoration of Dominick House	150,000
Clark R. Bavin Forensics Laboratory, OR	Forensics laboratory expansion—Phase III [c]	6,235,000
Craig Brook NFW, ME	Wastewater treatment compliance—Phase I [p]	200,000
Dam Safety Program (Servicewide)	705,000
Garrison Dam NFW, ND	Heat pump water system maintenance [c]	200,000

Project	Description	Amount
Harris Neck NWR, GA	Office renovation	350,000
Iron River NFH, WI	Replace domes at Schacte Creek [cc]	2,000,000
Jackson NFH, WY	Seismic safety rehabilitation—Phase II [d]	80,000
Jordan River NFH, MI	M/V Togue/Great Lakes stocking vessel—Phase II [d].	800,000
Kealia Pond NWR, HI	Mitigation and restoration [c]	800,000
Klamath Basin NWR Complex, CA	Water supply and management—Phase IV	1,000,000
Kodiak NWR, AK	Visitor center construction	3,000,000
Mammoth Springs NFH, AR	Renovation of education center [d]	250,000
Missisquoi NWR, VT	Visitor center completion [c]	1,500,000
Northwest Power Planning Area	Fish screens, etc.	2,000,000
Ohio River Islands NWR, WV	Visitor center/standard design—Phase I [d/ic]	1,100,000
Orangeburg NFH, SC	Orangeburg substation dam Phase II [cc]	4,144,000
Ottawa NWR, OH	Visitor center/standard design [d/cc]	1,950,000
Quilcene NFH, WA	Seismic safety rehab of hatchery building—Phase I [d].	45,000
Savannah NWR, GA	Visitor center/standard design [d/cc]	1,950,000
Security upgrades (Servicewide)	1,000,000
Sevilleta NWR, NM	Laboratory design	600,000
Sonny Bono Salton Sea NWR, CA	Seismic safety rehab of shop building—Phase II [cc].	200,000
Tetlin NWR, AK	Multi-Agency Center	425,000
Visitor Facilities/Kiosks on NWRs	Several locations/standard design	1,000,000
Waccamaw NWR, SC	Visitor center construction	2,000,000
White Sulphur Springs NFH, WV	Maintenance	625,000
Wolf Creek NFH, KY	Visitor center	500,000
World Birding Center, TX	500,000
Subtotal, Line Item Construction	43,709,000
Nationwide Engineering Services:		
Cost Allocation Methodology	3,000,000
Environmental Compliance Management	1,400,000
Seismic Safety Program	200,000
Waste Prevention and Recycling	150,000
Other Engineering Services	5,968,000
Subtotal, Nationwide Engineering Services	10,718,000
Total	\$54,427,000

The managers continue to believe that the Service should focus on providing on-the-ground refuge experiences for visitors and modest visitor/education centers and visitor contact stations. The maximum cost for any visitor center should not exceed \$3 million unless there are extreme, extenuating circumstances, such as the high cost of materials transport and construction in Alaska. The managers expect the Service to treat the maximum amount as a true ceiling and not the amount that every visitor center will cost. Also, visitor contact stations should have a much lower maximum funding level.

The managers agree to the following:

1. The balance of funding needed to complete the Bitter Lake NWR visitor center in New Mexico and the Ohio River Islands visitor center in West Virginia should be included in the fiscal year 2004 budget.

2. This is the final year of funding for Kealia Pond mitigation and restoration work in Hawaii.

3. The funds provided for kiosks on refuges should provide for at least 20 of these structures, given that the Service reports that the cost of each structure generally is less than \$50,000. The managers encourage the Service to use standard designs and pursue

cost sharing with friends groups and others to leverage these funds to the extent possible.

LAND ACQUISITION

The conference agreement provides \$73,370,000 for land acquisition instead of \$82,250,000 as proposed by the House and \$81,555,000 as proposed by the Senate. Funds should be distributed as follows:

<i>Area (State)</i>	<i>Amount</i>
Alaska Peninsula NWR—TDX (AK)	\$1,500,000
Baca Ranch (CO)	5,000,000
Back Bay NWR (VA)	1,500,000
Balcones Canyonlands NWR (TX)	1,500,000
Bandon Marsh NWR (OR)	140,000
Big Muddy NWR (MO)	1,000,000
Buenos Aires NWR (AZ)	500,000
Cache River NWR (AR)	1,500,000
Cahaba River NWR (AL)	3,000,000
Cape May NWR (NJ)	500,000
Cat Island NWR (LA)	2,500,000
Centennial Valley NWR (MT)	500,000
Chickasaw NWR (TN)	500,000
Clarks River NWR (KY)	1,500,000
Cypress Creek NWR (IL)	250,000
Dakota Tallgrass Prairie WMA (ND/SD)	500,000
Detroit River IWR (MI)	3,500,000
Fairfield Marsh WPA (WI)	1,000,000
Great Bay NWR (NH)	300,000
Great Meadows NWR (MA)	1,600,000
Great River NWR (MO)	1,000,000
Great Swamp NWR (NJ)	750,000
James Campbell NWR (HI)	1,000,000
Laguna Atascosa NWR (TX)	750,000
Lower Hatchie NWR (TN)	300,000
National Key Deer NWR (FL)	750,000
Neal Smith NWR (IA)	250,000
Northern Tallgrass Prairie NWR (MN/IA)	500,000
Ottawa NWR (OH)	600,000
Parker NWR (MA)	500,000
Patoka River NWR (IN)	250,000
Pelican Island NWR (FL)	1,750,000
Prime Hook NWR (DE)	1,350,000
Quinault Indian Reservation (WA)	5,000,000
Rachel Carson NWR (ME)	1,500,000
Rappahannock River Valley NWR (VA)	180,000
Red River NWR (LA)	3,900,000
Rhode Island Refuge Complex (RI)	2,000,000
San Diego NWR (CA)	2,000,000
Savannah NWR—Mulberry Grove (GA)	2,000,000

Willapa NWR (WA)	750,000
Use of carryover balances	-7,000,000
Subtotal	55,870,000
Acquisition Management	10,000,000
Emergencies and Hardship	2,000,000
Exchanges	1,000,000
Inholdings	2,000,000

<i>Area (State)</i>	<i>Amount</i>
Cost Allocation Methodology (CAM)	2,500,000
Total	\$73,370,000

LANDOWNER INCENTIVE PROGRAM

(INCLUDING RESCISSION)

The conference agreement provides \$40,000,000 for the landowner incentive program as proposed by the House instead of \$600,000 as proposed by the Senate. The conference agreement also rescinds \$40,000,000 in funds appropriated in fiscal year 2002 for this program because there has been a delay in implementing this new program. The managers expect the Service to make grant awards using the existing program applications.

STEWARDSHIP GRANTS

(INCLUDING RESCISSION)

The conference agreement provides \$10,000,000 for stewardship grants as proposed by the House instead of \$200,000 as proposed by the Senate. The conference agreement also rescinds \$10,000,000 in funds appropriated in fiscal year 2002 for this program because there has been a delay in implementing this new program. The managers expect the Service to make grant awards using the existing program applications.

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The conference agreement provides \$81,000,000 for the cooperative endangered species conservation fund as proposed by the Senate instead of \$121,400,000 as proposed by the House. The funds for habitat conservation plan land acquisition are derived from the Land and Water Conservation Fund as proposed by the House.

The managers encourage the Service to consider the Potrero Creek project in California and the Black Capped Vireo project in Texas if the project proposals are submitted and rank within the range of high priority project proposals.

NATIONAL WILDLIFE REFUGE FUND

The conference agreement provides \$14,414,000 for the national wildlife refuge fund as proposed by the Senate instead of \$19,414,000 as proposed by the House.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The conference agreement provides \$38,560,000 for the North American wetlands conservation fund as proposed by the Senate instead of \$43,560,000 as proposed by the House.

Since the program is funded below the 2001 level, the managers have not agreed to bill language, proposed by the House, limiting increased grant funding above the fiscal year 2001 level to projects in the United States.

NEOTROPICAL MIGRATORY BIRD CONSERVATION

The conference agreement provides \$3,000,000 for the neotropical migratory bird conservation program instead of

\$5,000,000 as proposed by the House and \$2,000,000 as proposed by the Senate.

MULTINATIONAL SPECIES CONSERVATION FUND

The conference agreement provides \$4,800,000 for the multinational species conservation fund as proposed by the House instead of \$4,200,000 as proposed by the Senate.

STATE AND TRIBAL WILDLIFE GRANTS

The conference agreement provides \$65,000,000 for State and tribal wildlife grants instead of \$100,000,000 as proposed by the House and \$45,000,000 as proposed by the Senate. Within this amount, \$5,000,000 is for a competitive grant program for Indian tribes as proposed by the House instead of \$3,000,000 as proposed by the Senate.

The conference agreement changes the title of this account from "State Wildlife Grants" to "State and Tribal Wildlife Grants" as proposed by the Senate and includes statutory language permitting the merger of funds in the old account with funds in the new account.

The Committee has not included \$1,000,000 in the resource management account as proposed by the House for a National Academy of Sciences review of the State wildlife plans funded under this account. This issue will be revisited in the 2004 budget process.

ADMINISTRATIVE PROVISIONS

The conference agreement authorizes the use of \$500,000 in previously appropriated funds for land acquisition of the Great Salt Pond burial tract for the Narragansett Tribe as proposed by the Senate. The House had no similar provision.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The conference agreement provides \$1,565,565,000 for the operation of the national park system instead of \$1,605,593,000 as proposed by the House and \$1,571,065,000 as proposed by the Senate.

The conference agreement provides \$344,227,000 for resource stewardship. The change to the House level is a reduction of \$2,093,000 for uncontrollable costs. Within these totals, an increase of \$600,000 is provided for Vanishing Treasures.

The conference agreement provides \$319,128,000 for visitor services. The change to the House level is a reduction of \$3,536,000 for uncontrollable costs.

The conference agreement provides \$522,823,000 for maintenance. Changes to the House level include decreases of \$3,837,000 for uncontrollable costs, \$5,000,000 for cyclic maintenance, \$2,000,000 for condition assessments, \$3,000,000 for repair and rehabilitation, and \$1,000,000 for a strategic business advisor.

The conference agreement provides \$277,151,000 for park support. Changes to the House level include decreases of \$2,562,000

for uncontrollable costs and \$2,000,000 for the challenge cost share program. The conference agreement retains \$5,000,000 for the challenge cost share program in support of the Secretary's Cooperative Conservation Initiative. The managers intend that one-third of the monies provided in the base funding (before the increase for 2003) for the challenge cost share program continue to be earmarked for trails.

Although the conference agreement includes a \$6,000,000 undistributed reduction to park base operations, the managers have also provided a \$14,000,000 increase specifically for park-based programs above the amount provided in the President's budget.

Within the maintenance account, the managers earmark the following projects: \$233,000 for Bachlott House, \$45,000 for St. Mary's Museum at Cumberland Island NS, \$400,000 for historic structures at Great Smokey Mountains NP, \$200,000 for repairs at the Belle Haven Marina, \$500,000 for the Wright Brothers National Memorial in North Carolina, \$170,000 for Fort Piute at Mojave National Preserve and \$300,000 for Gettysburg NMP landscape restoration.

The managers concur with the concerns expressed by the Senate with regard to both the rehabilitation and the annual opening of the Going-to-the-Sun Road at Glacier National Park. The managers have retained a general provision allowing for the use of certain carryover funds for road rehabilitation, and strongly encourage the Administration to include in its TEA-21 reauthorization proposal the resources necessary for complete rehabilitation of the Road. The managers have also provided additional resources to enhance spring opening operations. While the managers understand that these additional resources may not be entirely in place prior to the 2003 opening, the Park should make every effort to implement the operational changes promptly, or put in place appropriate interim measures where necessary to expedite the opening of the road. In lieu of the report required by the Senate, the Park should incorporate into its annual road opening plan the operational changes supported by the additional funds provided in this Act. The plans for both 2003 and 2004 should be submitted to the House and Senate Committees on Appropriations upon completion. The managers further urge the Park to continue efforts to involve the local community in the development of the annual opening plan and the road opening process in general. The managers appreciate the heightened attention given to these issues by Park leadership.

The managers have not agreed to provide \$750,000 for an independent management, operational, performance and financial review of Yellowstone National Park, as proposed by the Senate. The Park is nearing completion of its business plan pursuant to the Service's business plan initiative. The managers intend to review carefully the information presented in that document, and subsequently reconsider the need for an additional, more comprehensive review. The managers are fully aware that there are unmet needs within the Park, but remain concerned that public comments by park staff do not reflect the substantial additional resources provided to the Park in recent years. The managers look forward to working with the Service to ensure that these resources are being properly managed for the benefit of the Park.

The managers direct that the superintendent of Yosemite National Park renew, in such form as he deems appropriate, permits or authorizations for stock use by recreational service providers who were previously authorized by an appropriate agreement or permit to provide such recreational activities and services within the Park during 2002. These permits or authorizations may be renewed for one year only and under the same or similar terms and conditions as the activities and services authorized for that entity in 2002. The Superintendent shall not issue any such permit or authorization to any entity, which he determines is not qualified to receive such authorization based on past performance or present ability.

Within the funds provided, the managers encourage the National Park Service to maximize and enhance the marketing of historic sites of the French and Indian War with those of the War for Independence campaign currently underway. The 250th anniversary of the French and Indian War, spanning 2004–2010, presents a significant opportunity to tell the story of America's early history leading up to the Revolutionary War. The character and capacity of leadership exhibited by men such as George Washington, Benjamin Franklin, Daniel Morgan, Daniel Boone, Adam Stephen, Charles Lee and Horatio Gates, was profoundly influenced, and in some cases directly shaped, by their experiences in the French and Indian War. By linking the narratives of the French and Indian War and the Revolutionary War, a unique opportunity is created to attract and engage citizens and international visitors in developing a fresh and meaningful understanding of how the values of liberty and equality came to shape our nation.

The managers note that the District of Columbia has developed plans for the design and construction of a Regional Sports Complex at Kenilworth Park in northeast Washington, a portion of which is owned by the National Park Service. The site, an area of approximately 50 acres, was a District landfill until the late 1960s when the landfill was capped.

The Service has conducted a preliminary assessment/site investigation and a remedial investigation/feasibility study at the site. The latter study is in draft and has been coordinated with the District and EPA Region III. As a result of regulatory review, the managers understand that the District has requested a Human Health Risk Assessment from the Centers for Disease Control and Prevention, and Region III of the Environmental Protection Agency has made extensive comments that will result in further investigations and require at least a year or more to complete.

The managers direct the Service to work with the Government of the District of Columbia, specifically the D.C. Department of Recreation and the D.C. Sports and Entertainment Commission, to develop a land use plan for the development of Kenilworth Park that could be implemented in conjunction with remediation, and to report the results of that effort to the House and Senate Committees on Appropriations no later than six months after enactment of this Act. The managers recognize that, before any plan can be implemented for this site, environmental investigations and subsequent remediation must be completed.

The Service is directed to provide level funding to the Carhart Wilderness Training Institute.

The managers are concerned about a recent GAO report on travel expenses, both domestic and international. The report states that while \$37–\$50 million has been expended for travel in each of the last four years, the Service could not give specific information on the actual costs of domestic travel, international travel or travel to conferences because it does not routinely record these data. The Federal Travel Regulations require that agency travel accounting systems capture certain data, including travel type and purpose. The Service is not in compliance with these regulations.

Over the last three years, travel has increased 29 percent, including a 60 percent increase in the Washington office and a 32 percent increase in foreign travel—from 355 annual trips to 470 trips in fiscal year 2002. While the managers understand that travel is a mission essential element, the GAO study demonstrates that the Service does not have sufficient controls in this area. With declining budgets, major efficiencies should be achieved in this area, which would free up needed resources for individual park units.

The managers expect the Service to comply with all the GAO recommendations no later than September 30, 2003, and to submit annually, by October 1 of each year, a report to the House and Senate Committees on Appropriations with detailed data on domestic travel, international travel, and travel to conferences. The data should be provided for the Washington office and for each region.

UNITED STATES PARK POLICE

The conference agreement provides \$78,431,000 for the United States Park Police, the same as the House and the Senate.

NATIONAL RECREATION AND PRESERVATION

The conference agreement provides \$61,667,000 for national recreation and preservation, instead of \$56,330,000 as proposed by the House and \$62,978,000 as proposed by the Senate.

The conference agreement provides \$552,000 for recreation programs. Within the amount provided for natural programs, the managers earmark \$250,000 for the Northern Forest Canoe Trail.

The conference agreement provides \$20,048,000 for cultural programs. Changes to the House level include decreases of \$1,000,000 for National Register programs and \$250,000 for the Heritage Education Model in Louisiana. The Service is directed to provide \$250,000 for the Heritage Education Model in Louisiana from within available funds. The agreement retains \$300,000 for Heritage Preservation, Inc.

The conference agreement provides \$14,374,000 for nationally designated Heritage Areas. Funds (excluding \$119,000 in administrative costs) are to be distributed as follows:

<i>Project</i>	<i>Amount</i>
America's Agricultural Heritage Partnership (Silos & Smokestacks)	\$750,000
Augusta Canal National Heritage Area	600,000
Automobile National Heritage Area	500,000
Blue Ridge Parkway National Heritage Area	250,000
Cache La Poudre River Corridor	50,000
Cane River National Heritage Area	995,000
Delaware and Lehigh National Heritage Corridor	850,000

<i>Project</i>	<i>Amount</i>
Erie Canalway National Corridor	400,000
Essex National Heritage Area	1,000,000
Hudson River Valley National Heritage Area	600,000
Illinois and Michigan Canal National Heritage Corridor	750,000
John H. Chafee Blackstone River Valley National Heritage Center	800,000
Lackawanna Valley National Heritage Area	650,000
National Coal Heritage Area	210,000
Ohio and Erie Canal National Heritage Corridor	1,000,000
Quinebaug and Shetucket Rivers Valley National Heritage Center	850,000
Rivers of Steel National Heritage Area	1,000,000
Schuykill River Valley National Heritage Area	500,000
Shenandoah Valley Battlefields National Historic District	500,000
South Carolina National Heritage Corridor	1,000,000
Tennessee Civil War Heritage Area	210,000
Wheeling National Heritage Area	580,000
Yuma Crossing National Heritage Area	210,000

Project total \$14,255,000

The conference agreement provides \$12,041,000 for statutory or contractual aid. The funds are to be distributed as follows:

<i>Project</i>	<i>Amount</i>
Aleutian World War II Historic Area	\$400,000
Brown Foundation	201,000
Chesapeake Bay Gateways	2,000,000
Dayton Aviation Heritage Commission	449,000
Flight 93 Memorial	300,000
Ice Age National Scientific Reserve	806,000
Jamestown 2007	200,000
Johnstown Area Heritage Association	49,000
Lake Roosevelt Forum	50,000
Lamprey River	600,000
Louisiana Purchase Comm of Arkansas	200,000
Martin Luther King, Jr. Center	528,000
National Constitution Center	500,000
Native Hawaiian Culture and Arts Program	740,000
New Orleans Jazz Commission	66,000
Office of Arctic Studies	1,500,000
Penn Center National Landmark	500,000
Roosevelt Campobello International Park Commission	802,000
Sewall-Belmont House	400,000
Sleeping Rainbow Ranch, Capitol Reef NP	500,000
St. Charles Interpretive Center	500,000
Vancouver National Historic Reserve	250,000
Virginia Key Trust Miami	500,000

Total \$12,041,000

The amount provided for the Dayton Aviation Heritage Commission includes \$150,000 for interpretive exhibits. Funding for Ft. Piute in Mojave National Preserve is addressed in the operation of the national park system account.

URBAN PARK AND RECREATION FUND

The conference agreement provides \$300,000 for the urban park and recreation fund instead of \$30,000,000 provided by the House and \$10,000,000 as provided by the Senate. The managers have provided \$300,000 for administrative expenses.

HISTORIC PRESERVATION FUND

The conference agreement provides \$69,000,000 for the historic preservation fund instead of \$76,500,000 as provided by the House and \$67,000,000 as provided by the Senate. The changes to the

House level include a reduction of \$6,000,000 for grants in aid to States and Territories, \$1,000,000 for grants in aid to Indian Tribes and a reduction of \$500,000 for the National Trust for Historic Preservation.

Included in the total is \$30,000,000 for Save America's Treasures. Half of the funds for the Save America's Treasures program are to be distributed as follows:

<i>Project / State</i>	<i>Amount</i>
AME Church, Madison, IN	\$100,000
Antigo Courthouse, Langlade County, WI	175,000
Battlefield Park Heritage Center, GA	300,000
Bealle Home, OH	200,000
Biltmore Hotel & Complex, FL	800,000
Brinton House, Perryville, KY	250,000
Bronx Zoo, Rockefeller Fountain, NY	300,000
Cass Historic District, WV	350,000
Charles I.D. Loeff Carousel, East Providence, RI	250,000
Charles W. Morgan, CT	345,000
Colony Theatre, Washington County, OH	300,000
Daly Mansion, MT	300,000
Deerfield Historic Acropolis, MA	300,000
Des Moines Library, IA	300,000
Dirigible Hangar B, Tillamook, OR	250,000
Duquesne Incline, PA	200,000
Ethan Allen Firehouse, VT	500,000
Eureka Springs Historic Auditorium, AR	250,000
Farnsley—Kauffman House, KY	200,000
Fort Mifflin, PA	250,000
Fox Theatre, CA	200,000
Gillioz Theatre, MO	250,000
Gordo Old Town Hall-Jail, AL	15,000
Grand Opera House, Dubuque, IA	250,000
Great Brick Chapel, St Mary's City, MD	300,000
Green County Courthouse Square, AL	300,000
Gretna Post Office, LA	200,000
Harden Gilmore House, WV	100,000
Historic Grafton Railroad Station, WV	300,000
Jefferson Barracks, MO	200,000
John Jackson Center for Piedmont Blues, Fall Church, VA	65,000
Judge Wickersham House, AK	300,000
Kingman Courthouse, KS	200,000
Livingston Depot, MT	300,000
Ma Rainey Museum of the Blues, GA	150,000
Majestic Theatre, OH	200,000
Martin Luther King Jr. Central Union Terminal, Toledo, OH	250,000
Metropolitan Museum of Art, NY	650,000
Minneapolis Park & Rec Board, Mill Ruins Park, MN	250,000
Montrose City Hall, CO	250,000
National Army Museum of the Southwest, Fort Sill, OK	500,000
Ogden Union Station, UT	200,000
Port Angeles Carnegie Library Renovation, WA	300,000
Roswell Museum, NM	340,000
Sappa Park House, KS	8,000
Silver Lake Bank Building, PA	50,000
Smyrna Opera House/Town Hall, DE	300,000
Spokane Masonic Temple, WA	300,000
Stone County Courthouse, MS	250,000
Strong Museum, NY	225,000
Teeple Barn, IL	150,000
Thomas Cole House, NY	200,000
Henderson Courthouse, NC	200,000
Touro University School of Nursing, Vallejo, CA	250,000
Vista del Rio, AZ	50,000
West Main Street, KY	242,000
Westerly Armory, RI	300,000
White Island Lighthouse, Portsmouth, NH	250,000

<i>Project / State</i>	<i>Amount</i>
Woodlawn Estate, Mt Vernon, VA	235,000
Total	\$15,000,000

CONSTRUCTION

The conference agreement provides \$327,843,000 for construction instead of \$325,186,000 as proposed by the House and \$322,826,000 as proposed by the Senate. The funds are to be distributed as follows:

<i>Project</i>	<i>Planning / Construction</i>
Acadia NP, ME (rehab bridges)	\$3,351,000
Acadia NP, ME (upgrade utilities/camp)	5,171,000
Adams NP, MA (p/d visitor center)	541,000
Alice Ferguson Foundation, MD (rehabilitation)	400,000
Apostle Islands NL, WI (lighthouse)	1,600,000
Apostle Islands NL, WI (upgrade utility system)	1,030,000
Arches NP, UT (replace visitor center)	5,600,000
Bent's Old Fort NHS, CO (new space/restrooms)	1,325,000
Big Bend NP, TX (Chisos Basin Campground)	464,000
Big Bend NP, TX (rehabilitation)	246,000
Big Bend NP, TX (sprinkler system)	673,000
Big Cypress NP, FL (rehab off-road trails)	1,000,000
Big South Fork National River & Rec Area, KY/TN (upgrade exhibits)	400,000
Blue Ridge Parkway, NC	1,624,000
Canaveral NS, FL	1,400,000
Cave & Karst, NM	2,000,000
Channel Islands NP, CA (animal protection devices)	2,116,000
Chickasaw NRA, OK (construct visitor center)	2,665,000
Colonial NP, VA (Jamestown collections)	4,221,000
Congaree Swamp NM, SC (new maint facility)	650,000
Cumberland Gap NHP, KY (rehab wilderness road)	5,583,000
Cumberland Island NS, GA (Plum Orchard)	442,000
Cumberland Island NS, GA (St. Mary's)	2,720,000
Cuyahoga NP, OH	2,500,000
Death Valley NP, CA (replace maint facility)	2,007,000
Denali NP&P, AK (complete visitor center)	3,171,000
Eleanor Roosevelt NHS, NY (restoration)	400,000
Everglades NP, FL (Pine Island waste water treatment)	4,594,000
Everglades NP, FL (water system)	10,000,000
Fort Larned NHS, KS (rehab quarters)	30,000
Fort McHenry, MD (p/d visitor center)	200,000
Fort Osage NHL, MO (education center)	500,000
Fort Stanwix NM, NY	3,239,000
Fredericksburg & Spotsylvania NMP, VA (stabilize ruins)	750,000
Gateway NRA, NY (Jamaica Bay)	3,299,000
General Grant NM, NY (rehab tomb)	175,000
George Washington Carver NM, MO (improvements)	300,000
George Washington Memorial Parkway, VA (Arlington Boathouse, EA)	600,000
George Washington Memorial Parkway, VA (Arlington House)	616,000
Gettysburg NMP, PA (conservation work)	2,500,000
Gettysburg NMP, PA (Wills house)	938,000
Glacier NP, MT (Many Glacier Hotel)	1,500,000
Golden Gate NRA, CA (Alcatraz barracks)	1,210,000
Golden Gate NRA, CA (Cliff House)	1,914,000
Grand Portage NM, MN (heritage center)	400,000
Great Basin NP, NV (complete visitor center)	2,700,000
Great Sand Dunes NM & Pres, CO (renovate visitor center)	4,424,000
Harpers Ferry NP, WV (renovate bldgs)	1,413,000
Hispanic Cultural Center, NM (complete)	1,000,000
Homestead NHS, NE	300,000
Independence NHP, PA (site rehab)	4,923,000

<i>Project</i>	<i>Planning/ Construction</i>
Indiana Dunes NHP, IN	2,389,000
Japanese American History (building 640)	600,000
Jean Lafitte NHP, LA (Chalmette failing drainage & Barataria exhibits)	500,000
John H. Chafee Blackstone River Valley NHC, RI (restoration)	1,000,000
Joshua Tree NP, CA (repair campgrounds)	70,000
Keweenaw NHP, MI (rehab bldg)	395,000
Lincoln Library & Museum, IL (construction)	7,500,000
Mammoth Cave NP, KY (mitigate water pollution)	555,000
Manassas NB, VA (stabilize structures)	1,493,000
Mississippi Nat'l River & Rec. Area, MN (Mill City Museum exhibits)	1,000,000
Mississippi National River & Recreation Area, MN (Twin Cities)	750,000
Morris Thompson Visitor & Native Cultural Center, AK	3,000,000
Morristown NHS, NJ	3,200,000
Mt. Rainier NP, WA (seasonal dorms)	4,400,000
Mt. Rainier NP, WA (Guide House)	244,000
Natchez Trace Parkway, TN (access road)	350,000
National Capital Parks-Central, DC (Lincoln Memorial preservation)	5,192,000
National Capital Parks-Central, DC (Lincoln Memorial security)	6,183,000
National Museum of the American Revolution, PA	500,000
National Underground Railroad Freedom Center, OH	6,088,000
New Bedford Whaling NHP, MA (rehab Corson bldg)	500,000
New River Gorge NSR, WV (infrastructure improvements)	868,000
Olympic NP, WA (Elwha)	21,781,000
Oregon Caves NP, OR	1,044,000
Organ Pipe NM, AZ (fencing)	7,000,000
Pea Ridge NMP, AR (rehab exhibits)	109,000
Pea Ridge NMP, AR (replace cannon carriages)	230,000
Rocky Mountain NP, CO	2,335,000
Saratoga NHP, NY (exhibits)	300,000
SF Maritime NHP, CA (C.A. Thayer)	1,000,000
Stones River NB, TN (trails)	250,000
SW Pennsylvania Heritage Commission, PA	2,500,000
Tallgrass Prairie National Preserve, KS	2,891,000
Thomas Stone NHS, MD (staff offices)	395,000
Tuskegee Airmen NHS, AL (oral histories)	500,000
Ulysses S. Grant NHS, MO	1,994,000
USS Arizona Memorial, HI	1,157,000
Vicksburg NMP, MS (security upgrades)	300,000
Virginia City NHL, MT (restoration)	1,800,000
Washita NB, OK (completes)	3,500,000
White House, DC	9,582,000
Wind Cave NP, SD	2,172,000
Yellowstone NP, WY (rehabilitation)	6,396,000
Yellowstone NP, WY (upgrade fire protection)	757,000
Subtotal	215,595,000
Emergency/Unscheduled Projects	3,500,000
Housing replacement	10,000,000
Dam safety	2,700,000
Equipment replacement	31,960,000
Construction planning	25,400,000
Construction program management	24,792,000
General management planning	13,896,000
Total Construction	\$327,843,000

The managers recommend \$1,600,000 for the Apostle Islands National Lakeshore for erosion control at the Outer Island light-house. These funds, combined with remaining balances in the planning account for this project, will complete the erosion control work.

The managers did not retain funding for the following projects, because the Service indicated that, for various reasons, the funds could not be obligated in fiscal year 2003: Badlands National Park, Cape Cod National Seashore, Craters of the Moon National Monument, Mount Rainier National Park (electrical system), Petrified Forest National Park and Yellowstone National Park's Old Faithful Inn project. The managers will consider funding when these projects are ready to move forward.

The monies provided for Arches National Park, Colonial National Historical Park, Great Basin National Park, the Hispanic Cultural Center, Japanese American History (building 640), Morristown National Historic Site, Cumberland Island National Seashore (St. Mary's) and the National Underground Railroad Freedom Center complete these projects.

The managers have included funding this year to construct a new collections storage facility at Jamestown for Colonial National Historical Park. The managers understand that the current estimate for the next phase of the project, the replacement visitor center, is approximately \$7,600,000, and strongly encourage the Service to include this component of the Jamestown 400th anniversary celebration in the fiscal year 2004 budget request. The Service should manage the planning and design for the visitor center project to remain within the current cost estimate.

The managers have deferred funding for repair and rehabilitation of Fort Washington, MD. The Service should develop a comprehensive solution to address the issues at Fort Washington, including identification of the priorities for stabilization work. The Service is encouraged to include funding for this project in the fiscal year 2004 budget, and include a summary of the aforementioned plan in the budget justification.

The managers have agreed to \$200,000 for Fort McHenry, MD for a development concept plan, not for construction design. It is estimated that the DCP process will take about a year to complete. The DCP will look at site alternatives, as well as concepts. The project will be submitted by the park for consideration within the NPS five-year planning process. There have not been any private partnership commitments yet, although a fundraising agreement is in place. Private fundraising efforts are not anticipated to begin until the DCP is completed. The managers strongly urge the park to downscale its expectation for a \$14 million visitor center. The park should work closely with the House and Senate Committees on Appropriations on the size and cost of the facility, as well as private funding commitments, before additional funds are provided for this project.

The managers have included funding to initiate planning on three proposed visitor center projects. Because of concerns about the projected scope of these projects, and the need to address increased funding to reduce the deferred maintenance backlog, the managers are providing specific direction to limit the size and gross cost of these facilities, as follows; \$3,500,000 for a new visitor facility at Washita National Battlefield, \$4,000,000 for Grand Portage National Monument, and \$4,500,000 for Homestead National Historic Site. Planning costs should be limited to 10% of the amounts listed above, consistent with the NAPA guidelines. The Service

should provide an update to the House and Senate Committees on Appropriations on its revised approach and its progress on these projects by May 1, 2003.

The managers have provided \$395,000 for Thomas Stone NHS—\$300,000 to stabilize the East Wing and \$95,000 to make a gravel parking lot ADA compliant. The managers have provided \$500,000 under the operation of the national park system account for upgrades at the Wright Brothers National Memorial in North Carolina. The \$400,000 for Eleanor Roosevelt NHS is for park restorations only as specified in the House report.

The managers have provided planning funds for a proposed educational center to be constructed at Fort Osage in Missouri. The managers want to ensure that the scope and cost of the project are appropriate, given the visitation at the site, and that the project includes a significant private cost share. The managers urge the project sponsors and the Service to provide the House and Senate Committees on Appropriations with a final plan for construction, which scales the project appropriately and which provides a significant non-Federal cost share before additional funds will be provided.

The Administration has requested funding for the construction of security structures at the Washington Monument, and Lincoln and Jefferson Memorials in Washington, D.C. The Congress has previously provided language that would expedite the contracting process for these facilities so that construction could begin in the late summer of 2002 in accordance with the schedule provided by the Service. The managers now understand that the planning, review and clearance processes have delayed the start of construction for the Washington Monument and Jefferson Memorial projects (by a full year). As a result of these delays, funds requested for these projects are no longer needed in fiscal year 2003. The managers direct the Administration to include funding for these projects in the fiscal year 2004 construction request.

The managers are aware of the partnership project between the National Park Service and the Valley Forge Historical Society to contract and operate a National Center for the American Revolution at Valley Forge National Historical Park. Congress authorized the Secretary of the Interior to enter into an agreement for this partnership in Public Law 106–86, but made no financial commitment to the construction of the project.

While the partnership may provide opportunities to improve the care of important Revolutionary War era collections and enhance the educational opportunities afforded to visitors at the park, the planning for this facility must proceed cautiously. The project sponsors need to recognize the budgetary constraints facing all levels of government, as well as recent decreases in philanthropic giving. With these concerns in mind, the managers expect the National Park Service to report to the House and Senate Committees on Appropriations on a reasonably scaled vision for the Center, with commitments for non-Federal cost share, no later than June 1, 2003. Future funding for this project is unlikely if the Service does not prioritize it as part of its five-year line-item construction program.

Within the funds provided for General Management Planning, the Service is directed to complete the EA for the Mt. Vernon Trail and a new area study for Great Falls National Park and to support the Harpers Ferry National Historic Park general management plan consistent with Senate guidance.

The managers have provided \$7,500,000 to enhance the capacity of the Service to execute the infrastructure program. The managers expect that not more than 50 percent of these funds be used to hire staff in the regional offices. The balance should be used for contractor support. A report on the use of these funds should be provided to the House and Senate Committees on Appropriations.

The managers are concerned with the number of partnership projects pursued by the National Park Service, but not prioritized by the agency nor considered in the establishment of the five-year line-item construction program. While partnerships are important in enhancing the public appreciation and understanding of the mission of all of the agencies funded in the Interior appropriations bill, the Federal commitment associated with such partnerships cannot be considered separate and apart from other demands for funding.

The managers are troubled by the growing number of partnership projects for which the non-Federal partner pursues funding through the appropriations process. Increasingly, if these partnership projects receive funding, it will be as a trade-off against priorities identified in the agency budget request. Thus, it is important that agencies evaluate the priority these partnerships receive vis-à-vis the program requirements prioritized in the budget request, as well as the vast needs that don't make it into the budget each year.

The President and the Congress have made a significant commitment to addressing the deferred maintenance backlog of the National Park Service, and every public dollar pursued for partnership projects involving new facilities means one less dollar dedicated to reducing the backlog. In addition, funding for the operational requirements of the National Park Service continues to be a significant concern, and pressure to provide increased funding for large construction investments will result in reduced capacity to address operational needs. If partnership projects are a priority for the Administration, then consideration should be given to adjusting the priority-setting process for line-item construction to allow for their competition along with deferred maintenance and other projects.

The funds provided for equipment replacement include funds to implement PMIS package #90252 regarding snow removal and related activities for Going-to-the-Sun Road at Glacier National Park. The managers expect that \$500,000 will be used for replacement boats at Isle Royale National Park.

LAND AND WATER CONSERVATION FUND

(RESCISSION)

The conference agreement rescinds the contract authority provided for fiscal year 2003 by 16 U.S.C. 4601-10a as proposed by both the House and the Senate.

LAND ACQUISITION AND STATE ASSISTANCE

The conference agreement provides \$172,468,000 for land acquisition and State assistance instead of \$253,099,000 as proposed by the House and \$204,005,000 as proposed by the Senate. Funds should be distributed as follows:

<i>Area (State)</i>	<i>Amount</i>
Big Thicket National Preserve (TX)	\$3,000,000
Black Canyon NP (CO)	300,000
Chickamauga/Chattanooga NMP (TN)	1,030,000
Chickamauga/Chattanooga NMP (Moccasin Bend/Sarodino) (TN)	1,300,000
Delaware Water Gap Nat'l Recreation Area (NJ/PA)	4,000,000
Gauley River NRA (WV)	1,750,000
Great Sand Dunes Nat'l Mon and Preserve (CO)	7,000,000
Gulf Islands National Seashore (MS)	6,000,000
Hawaii Volcanoes National Park (HI)	8,500,000
Ice Age NST (WI)	2,000,000
Indiana Dunes National Lakeshore (IN)	250,000
Keweenaw Nat'l Historic Park (MI)	600,000
Little Rock Central HS Nat'l Historic Site (AR)	130,000
Missouri National Recreational River (SD)	1,000,000
Mojave National Preserve (CA)	1,000,000
Point Reyes National Seashore (CA)	1,500,000
Richmond National Battlefield Park (VA)	2,000,000
Saguaro National Park (AZ)	2,320,000
Santa Monica Mountains NRA (CA)	1,000,000
Shenandoah Valley Battlefields Nat'l Historic District (VA)	2,000,000
Sleeping Bear Dunes National Lakeshore (MI)	1,000,000
South Florida Restoration (grant to state of FL)	15,000,000
Timucuan Ecological and Historic Preserve (FL)	2,000,000
Valley Forge National Historic Park (PA)	2,500,000
Western Arctic National Parklands (AK)	1,200,000
Wrangell-St. Elias Nat'l Park and Preserve (AK)	500,000
Use of carryover balances	-15,000,000
Subtotal	53,880,000
Acquisition Management	12,588,000
Emergencies/Hardships	4,000,000
Inholdings/Exchanges	4,000,000
Stateside Grants	95,000,000
Stateside Administration	3,000,000
Total	\$172,468,000

The managers have not provided funding for Ebey's Landing NHR and Piscataway Park because there are presently no options to purchase land. The managers will be pleased to consider future funding requests.

The Secretary should acquire the Bayliss property at Cedar Creek and Belle Grove NHP that is now owned by the Cedar Creek Battlefield Foundation for an amount equal to the balance due on the current deed of trust on the property but no more than \$368,000. The Secretary shall use funds from the National Park Service's hardship account to acquire the property.

Upon completion of a new appraisal of Cat Island, MS, the Service should complete the first phase of the purchase using funds provided for Gulf Islands National Seashore, together with other available funds if necessary.

The managers are aware of the concerns of the residents of the 8.5 Square Mile Area regarding the plan to implement section 104 of the Everglades National Park Protection and Expansion Act of 1989 (16 U.S.C. 410r-8), called "Alternative 6D." This plan re-

quires the acquisition of additional homes. To minimize disruption in the lives of these residents and to make them whole again, if the United States must take their property to proceed with implementation of Alternative 6D, the conference agreement allows the Corps to acquire additional residential property only if these residents are offered the opportunity to relocate to comparable land within the 8.5 Square Mile Area. This means that the residents of the 8.5 Square Mile Area who choose to relocate within that area must be offered land of equal or greater size, suitable under all applicable land use regulations for use that is the same as the actual use of the land on which they currently reside and eligible for all necessary permits required for such use. The managers also expect the financial assistance provided to such residents will allow them to build a replacement home of equal size, including costs of moving and temporary living arrangements during a reasonable period of time for design and construction. The managers understand that Federal funding in the amount of \$6,000,000 has previously been appropriated and provided to the South Florida Water Management District for the purpose of acquiring replacement residential property. The language in the conference agreement also clarifies that this directive is not intended to stop the Alternative 6D project from moving forward.

The language, specifically the text of subsection (b) (1), does not require the Corps of Engineers or the non-Federal sponsor to complete a relocation before completing a land acquisition, once the offer required by subsection (b) (1) is made. Such offers and land acquisitions may be made and completed in accordance with a schedule determined by the Corps of Engineers and the non-Federal sponsor and need not proceed sequentially.

ADMINISTRATIVE PROVISIONS

The managers have retained the House language regarding the United Nations Biodiversity Convention.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The conference agreement provides \$925,287,000 for surveys, investigations, and research instead of \$928,405,000 as proposed by the House and \$914,617,000 as proposed by the Senate.

There is a decrease below the House for the national mapping programs of \$1,000,000 for Internet access.

The managers recognize the need to implement The National Map for the Nation's urban areas. These urban areas are the home to more than 160 million citizens, located in areas subject to many natural hazards, such as coastal storms and wildland fires. The managers believe it is important to have up-to-date information available to Federal, State, and local governments, the private sector, and the public for emergency response. The managers recommend that the Survey continue its efforts to develop and implement The National Map, keeping the House and Senate Committees on Appropriations apprised of its progress and future plans through its budget submissions.

Changes to the House for geology programs include increases of \$1,000,000 for volcanic hazard equipment in Shemya, Alaska, \$1,500,000 for the minerals at risk program which completes this project, \$500,000 for the coastal erosion program, North Carolina, and decreases of \$500,000 for the coastal program, \$299,000 for Lake Mead/Hoover Dam, \$500,000 for the cooperative geological mapping program, \$1,200,000 for EPCA studies, and \$500,000 for the geothermal program.

Changes to the House for water resources include increases of \$200,000 for the Berkeley Pit study in Montana, \$299,000 for the Lake Champlain toxic materials studies, \$500,000 for Hawaiian water monitoring, \$220,000 for an algae bloom study in Hawaii, and \$195,000 for the Noyes Slough study in Alaska, and decreases of \$1,000,000 for the Mexico border initiative, \$580,000 for the Long-Term Estuary Group, \$400,000 for the Water Resources Research Institutes, \$500,000 for toxic substances, and \$105,000 for the Southern Maryland aquifer study.

Within the funds provided for water resources, \$1,000,000 is earmarked for the Long-Term Estuary Assessment program.

Funds have not been included for the Rathdrum Prairie/Spokane Valley aquifer study as proposed by the Senate. The managers are supportive of the project generally, but understand that the required State or local matching funds have not yet been secured nor has an agreement been reached among all interested parties, including the Survey, detailing the scope and collaborative nature of the work. The managers would be willing to reconsider the project at a future date provided these issues are resolved.

Increases above the House for biological research include \$750,000 for the continuation of the Mark Twain National Forest mining study, \$180,000 for the Yukon Flats salmon study, \$500,000 for the Pallid Sturgeon study, \$100,000 for the terrapin study in Maryland, \$1,000,000 for a DNA bear study in Montana, \$300,000 for a water study at the Leetown Science Center, \$500,000 for Lake Tahoe decision support and decreases of \$800,000 for the fire science program, \$500,000 for amphibian research, \$1,000,000 for NBII nodes, \$500,000 for the cooperative research units uncontrollable costs, and \$18,000 for travel and transportation.

The managers have supported the establishment of the NBII to improve access by Federal agencies, States, universities, and others to biological data and to promote information sharing. The managers have provided significant funding increases to NBII in recent years but are concerned about an apparent lack of direction and budget accountability. These concerns need to be resolved before additional funding increases can be considered.

Therefore, the managers direct the Survey to prepare a strategic plan outlining the prioritized vision for the network including details and a time line on all new nodes, expansions of existing nodes, the costs associated with each node, and all other projects that are part of the NBII program. The plan should explicitly address national and international objectives.

The plan should address how the existing and planned network relates to the Survey's overall strategic and programmatic goals for enhanced data sharing. The Survey should provide information on

the potential for cost sharing and how NBII relates to existing, non-Federal data networks such as NatureServe. As part of the strategic planning process, the managers would like to see peer-review comments from leading biologists and informatics specialists that are not associated with the current NBII partnership.

Finally, the report should show accomplishments to date for each node, listing national and international accomplishments, a list of partners involved, and how each accomplishment supports the biological goals for the Survey and the Department. The report should specifically address which NBII accomplishments support USGS science centers and Interior land management agencies. This information should be provided to the Committees by April 30, 2003.

There is a decrease below the House for science support of \$1,635,000 for accessible data transfer.

Changes to the House for facilities include an increase of \$375,000 for the Leetown Research Center expansion, and a decrease of \$200,000 for the Tunison laboratory.

The managers support strongly Survey partnerships with coalitions of institutions that maintain a strong emphasis on collaborative research, Federal-State partnerships, and public-private partnerships. Wherever possible, the managers encourage the Survey to co-locate at these institutions when this furthers the goals of the Survey, the Department, and the Administration.

The managers encourage the Survey and the General Services Administration (GSA) to continue to work towards completion of a satisfactory plan for relocating the Survey's Western programs to more adequate space. They are aware that one of the most promising options is a 30-year build-to-suit lease for facilities located on land at the University of California at Santa Cruz. The managers believe that GSA and the Survey should try to reach agreement on the lease if it is in the best interest of the Survey, the science programs, and is a cost effective option.

ADMINISTRATIVE PROVISIONS

The managers have made technical changes to the bill language proposed by the House to make it easier for the Survey to co-locate its facilities.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

The conference agreement provides \$165,321,000 for royalty and offshore minerals management instead of \$164,721,000 as proposed by the House and \$164,322,000 as proposed by the Senate.

Changes to the House for royalty and offshore minerals management include increases of \$800,000 for the Center for Marine Resources, and \$800,000 for the Marine Mineral Technology Center in Alaska, and a decrease of \$1,000,000 for the information management program.

The managers have again provided \$1,400,000 to the Offshore Technology Research Center to perform critical mission research for MMS through the cooperative agreement dated June 18, 1999.

Within the funds provided for royalty and offshore minerals management \$150,000 is earmarked for the Alaska Whaling Commission.

OIL SPILL RESEARCH

The conference agreement provides \$6,105,000 for oil spill research as proposed by both the House and the Senate.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The conference agreement provides \$105,367,000 for regulation and technology as proposed by the House and the Senate. Funding for the activities and budget instructions should follow the House recommendation. The managers understand that the administration's proposal to give a special allotment of grants to West Virginia is no longer needed. Instead, the allocation of grants to States should follow the normal methodology.

ABANDONED MINE RECLAMATION FUND

The conference agreement provides \$191,745,000 for the abandoned mine reclamation fund as proposed by the Senate instead of \$184,745,000 as proposed by the House. Funding for the activities and budget instructions should follow the Senate recommendations. The managers have also included the Senate proposed bill language included in previous years concerning certain aspects of the State of Maryland program.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

The conference agreement provides \$1,857,319,000 for the operation of Indian programs instead of \$1,859,064,000 as proposed by the House and \$1,855,635,000 as proposed by the Senate.

Decreases below the House for tribal priority allocations include \$1,120,000 for new tribes and \$2,000,000 for welfare assistance.

Increases above the House for other recurring programs include \$2,000,000 for tribally controlled community colleges, \$50,000 for Western Washington Bolt, \$15,000 for Great Lakes resource management, \$100,000 for the Alaska Sea Otter Commission, \$800,000 for the Bering Sea Fisherman's Association, \$146,000 for the bison program, \$350,000 for the Chugach Regional Resources Commission, and \$320,000 for the upper Columbia River tribes, and decreases of \$2,000,000 for ISEP formula funds, \$1,000,000 for student transportation, \$1,900,000 for facilities operation and maintenance, \$4,000,000 for administrative cost grants, and \$441,000 for the timber, fish and wildlife program.

The funding increase included for the Chippewa/Ottawa Resource Authority is to be allocated equally between the Little Traverse Bay Band of Odawa Indians and the Little River Band of Ottawa Indians.

Increases above the House for non-recurring programs include \$1,500,000 for the distance learning program in Montana, \$750,000 for the Rural Alaska fire program, \$50,000 for the North Dakota Department of Agriculture's fire assistance program in Sioux County, and \$350,000 for attorney fees, and decreases of \$200,000 for the Navajo/Hopi settlement program and \$314,000 for the endangered species program.

Increases above the House for special programs and pooled overhead include \$200,000 for the Law Institute for American Indians, \$100,000 for the United Sioux Tribes Development Corporation, \$500,000 for the Alaska native aviation training program, \$1,000,000 for the Yuut Elitnavuviat learning center, \$1,000,000 for the Western Heritage Center Distance-Learning and Training Program, and \$2,000,000 for detention center staffing.

The managers do not understand the disparate treatment of Crownpoint Institute of Technology and the United Sioux Tribes Technical College related to contract support. Unless there is an objection by the Navajo Nation to Crownpoint being treated as a tribal organization, the managers expect the Bureau to provide this funding under a P.L. 93-638 contract and include contract support.

The managers direct the Bureau to develop a study dealing with child abuse and child welfare. This study should detail the adverse effects of child abuse on American Indians and Alaska natives. As part of the study the Bureau should provide recommendations for reducing incidents of child abuse including the potential for developing cost-shared pilot projects with tribal organizations, States, and non-profit organizations. The Bureau should provide this study to the Committees by April 30, 2003.

The managers do not concur with the Senate report language directing the Bureau to establish a service area for the Samish Indian Nation. Currently this issue is being litigated, and the Department of the Interior is in settlement discussions with the tribe. The managers believe that this process is the appropriate avenue for resolving these issues.

Bill language has been included under operation of Indian programs to allow the use of ISEP contingency funds to cover the expenses of negotiated rulemaking required by the No Child Left Behind Act.

CONSTRUCTION

The conference agreement provides \$348,252,000 for construction as proposed by the Senate instead of \$345,252,000 as proposed by the House.

The managers have provided a \$3,000,000 increase above the House for the tribal school construction demonstration program.

Language has been included under Title I general provisions authorizing a tribal school construction demonstration program through fiscal year 2007.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The conference agreement provides \$60,949,000 for Indian land and water claim settlements and miscellaneous payments to Indi-

ans as proposed by the House instead of \$57,949,000 as proposed by the Senate.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The conference agreement provides \$5,493,000 for the Indian guaranteed loan program as proposed by the House and Senate.

DEPARTMENTAL OFFICES

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The conference agreement provides \$76,217,000 for assistance to territories instead of \$73,217,000 as proposed by the House and \$75,217,000 as proposed by the Senate. The managers have agreed to Compact impact assistance funding out of the technical assistance activity of \$3,000,000 for Hawaii and \$1,000,000 for Guam. The managers have also included the \$1,000,000 recommended by the House for U.S. Virgin Islands court mandated infrastructure needs and \$1,000,000 for the Prior Service Trust Fund. The managers agree with the House direction to the Interior Department concerning a new, long-term solution to the Prior Service Trust Fund financing problem and with Senate direction for a Federal-local financing plan for the U.S. Virgin Islands. This latter report should be submitted by April 30, 2003. The managers also direct that the CNMI local matching requirement for fiscal year 2003 capital improvement grants be waived due to the extensive damage caused by supertyphoon Pongsona.

COMPACT OF FREE ASSOCIATION

The conference agreement provides \$20,985,000 for the Compact of Free Association instead of \$21,045,000 as proposed by the House and \$20,925,000 as proposed by the Senate. This includes a total of \$1,631,000 for Enewetak support. The increase above the request is for repairs to the shipping vessel which provides food to Enewetak.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement provides \$72,427,000 for departmental management as proposed by the Senate instead of \$57,533,000 as proposed by the House. Changes to the House include increases of \$15,000,000 to restore funds cut on the House floor, \$400,000 for Departmental Direction and a decrease of \$506,000 for Central Services.

The managers encourage the Federal partners responsible for the Great Lakes Visitor Center, WI, to increase funding for the center in fiscal year 2003, especially for important initiatives such as its environmental education program.

The conference agreement includes bill language under "Department of the Interior, General Provisions", permitting the use of Departmental Management funds to pay for shortfalls at the Midway Atoll National Wildlife Refuge.

The managers direct the Secretary to release a plan for assisting States, Federal agencies, and tribes managing chronic wasting disease in wild and captive cervids within 90 days of enactment of this Act.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The conference agreement provides \$47,773,000 for the office of the solicitor as proposed by the Senate instead of \$47,473,000 as proposed by the House.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The conference agreement provides \$36,239,000 for office of inspector general, the same as the House and the Senate.

NATIONAL INDIAN GAMING COMMISSION

SALARIES AND EXPENSES

The conference agreement provides no funds for salaries and expenses of the National Indian Gaming Commission as proposed by the Senate instead of \$2,000,000 as proposed by the House.

Language has been included under Title I general provisions increasing the fees available to the National Indian Gaming Commission from \$8,000,000 to \$12,000,000 beginning in fiscal year 2004.

The Commission is directed to consult with tribal governments on both the development, pursuant to section 18 of the Indian Gaming Regulatory Act (25 U.S.C. 2717), of a new fee schedule resulting from increasing the fee cap from \$8,000,000 to \$12,000,000, and on the regulations published at 67 Federal Register 41166 (June 17, 2002). The managers concur that not more than \$120,000 of the funds available to the Commission be used for this consultation process.

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

The conference agreement provides \$141,277,000 for Federal trust programs as proposed by the House instead of \$151,027,000 as proposed by the Senate.

The managers once again express their reservations about funding for the historical accounting project. The managers have provided an increased level of funds over the fiscal year 2002 enacted level for historical accounting. However, the managers remain very concerned about appropriating hundreds of millions of dollars for this project at the expense of other high priority programs in this bill, including other Indian programs. The managers believe that it is more important to fix prospectively the trust systems thereby allowing the Secretary to continue to meet her trust and fiduciary responsibilities to Indian country.

The managers have modified the bill language for the Office of Special Trustee for American Indians noting that of the funds provided \$15,000,000 is for the historical accounting.

INDIAN LAND CONSOLIDATION

The conference agreement provides \$7,980,000 for Indian land consolidation programs as proposed by the House instead of \$10,980,000 as proposed by the Senate.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The conference agreement provides \$5,538,000 for the natural resource damage assessment fund as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS

The conference agreement retains language proposed by the Senate regarding the transfer of an aircraft to Kane County, UT.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

The conference agreement includes sections 101 through 111, which were identical in both the House and the Senate bills.

The conference agreement includes the text of the following sections in the House bill, which contained identical text in the Senate bill, but had different section numbers in the Senate bill. The House section numbers were 115, 116, 117, 118, 119, 121, 122, 123, and 124.

The conference agreement retains language proposed in section 112 of the House bill, which prohibits the National Park Service from reducing recreation fees for non-local travel through a park unit.

The conference agreement retains language proposed in section 113 of the House bill permitting the transfer of funds between the Bureau of Indian Affairs and the Office of Special Trustee for American Indians. The Senate had a similar provision.

The conference agreement modifies House section 114 regarding retention of proceeds from operations at Fort Baker.

The conference agreement retains language proposed in section 125 of the House bill authorizing funds for Shenandoah Valley Battlefield National Historical District and Ice Age National Scenic Trail to be transferred to a State, local, or other governmental land management entity for acquisition of lands.

The conference agreement retains language proposed in section 126 of the House bill prohibiting the closure of the lunchroom at Carlsbad Caverns National Park. The Senate addressed this issue in Title III.

The conference agreement retains language proposed in section 127 of the House bill preventing demolition of a bridge between Ellis Island and New Jersey.

The conference agreement retains language proposed in section 128 of the House bill prohibiting clothing optional usage at Canaveral National Seashore.

The conference agreement retains language proposed in section 129 of the House bill permitting the expenditure of funds for incidental expenses related to the National Wildlife Refuge System Centennial. The Senate had no similar provision.

The conference agreement retains language in section 130 of the House bill authorizing the Park Service to enter into a cooperative agreement with Capital Concerts.

The conference agreement retains language proposed in section 131 of the House bill requiring the Department of the Interior to provide a summary of the Ernst and Young report on the historical accounting of the named plaintiffs in *Cobell v. Norton*. The Senate had no similar provision.

The conference agreement modifies language proposed in section 132 of the House bill limiting compensation for the Special Master and Special Master-Monitor appointed by the court in *Cobell v. Norton* to not more than 200 percent of the highest Senior Executive Service rate of pay. The modification changes the name of Court Monitor to the Special Master-Monitor. The Senate had no similar provision.

The conference agreement retains language proposed in section 133 of the House bill requiring the Special Trustee for American Indians to appoint new Advisory Board members. The Senate had no similar provision.

The conference agreement retains language proposed in section 134 of the House bill allowing the Secretary of the Interior to pay private attorney fees for employees and former employees named in connection with *Cobell v. Norton*. The Senate had no similar provision.

The conference agreement retains language proposed in section 135 of the House bill allowing the Interior firefighting Bureaus to engage in firefighting activities on non-Federal lands. The Senate had no similar provision.

The conference agreement retains language in section 136 of the House bill extending the deadline for submission of the report and termination of the Commission to create a National Museum of African American History and Culture.

The conference agreement retains language proposed in section 137 of the House bill, which allows funds for the National Museum of African American History and Culture to remain available until expended.

The conference agreement modifies language proposed in section 138 of the House bill requiring the U.S. Fish and Wildlife Service to implement a system of mass marking of salmonid stocks released from Federally operated or Federally financed hatcheries. The modification requires that the fish have a visible mark that can be readily identified by commercial and recreational fishers. The Senate had no similar provision.

The conference agreement retains language proposed in section 139 of the House bill naming the visitor center at the Bitter Lake National Wildlife Refuge in New Mexico as the "Joseph R. Skeen Visitor Center". The Senate had no similar provision.

Section 122—The conference agreement retains language proposed in section 120 of the Senate bill continuing the tribal school construction demonstration program through fiscal year 2007. The House had no similar provision.

The conference agreement does not include the text of section 123 as proposed by the Senate, which prohibited the use of funds to approve the transfer of lands in South Fox Island, Michigan.

Section 140—The conference agreement retains language proposed in section 124 of the Senate bill making permanent the contract authority for transportation at Zion NP, UT and Rocky Mountain NP, CO. The House had a one-year extension for Zion NP, UT, in section 120.

Section 141—The conference agreement retains language proposed in section 125 of the Senate bill removing grant restrictions in a heritage education park in Fairbanks, Alaska.

The conference agreement does not retain language proposed in section 126 of the Senate bill relating to a right-of-way for a pipeline for the Cadiz groundwater project.

Section 142—The conference agreement retains language proposed in section 127 of the Senate bill authorizing the use of previously appropriated funds to plan the John Adams Presidential Memorial.

Section 143—The conference agreement retains language proposed in section 128 of the Senate bill providing that funds appropriated and remaining available in the Construction (Trust Fund) Account of the National Park Service at the completion of all authorized projects shall be available for the rehabilitation and improvement of Going-to-the-Sun Road in Glacier National Park.

The conference agreement does not include language proposed in section 129 of the Senate bill directing the Park Service to make interim payments as part of the Glacier Bay compensation program.

Section 144—The conference agreement retains language proposed in section 130 of the Senate bill dealing with grants under the Defense Conversion, Reinvestment, and Transition Act of 1992. The House had no similar provision.

Section 145—The conference agreement retains language proposed in section 131 of the Senate bill dealing with a modification to a previous Act with respect to taking certain lands into trust in Kansas.

Section 146—The conference agreement retains language proposed in section 132 of the Senate bill modifying a provision from a previous Act conveying land from the Bureau of Land Management to the city of Mesquite, Nevada.

Section 147—The conference agreement modifies language proposed in section 133 of the Senate bill permitting the transfer of previously appropriated construction funds for operations and maintenance at Midway Atoll National Wildlife Refuge. The modification permits the transfer of funds from Departmental Management, if necessary, to cover operational and maintenance shortfalls at the refuge. The House had no similar provision.

Section 148—The conference agreement retains language proposed in section 134 of the Senate bill changing the authority for a museum in Oklahoma from the Secretary of the Interior to the

Director of the Institute of Museum and Library Services. The House had no similar provision.

Section 149—The conference agreement retains language proposed in section 135 of the Senate bill allowing advance payments to the Department's franchise fund. The House had no similar provision.

Section 150—The conference agreement retains language proposed in section 136 of the Senate bill authorizing \$10,000,000 per year for six years, for restoration of historically black colleges and universities, and reducing cost share requirements.

Section 151—The conference agreement retains language proposed in section 137 of the Senate bill deeming the Record of Decision for the Trans-Alaska Pipeline right-of-way sufficient to meet NEPA requirements.

Section 152—The conference agreement retains language proposed in section 138 of the Senate bill expressing the Sense of the Congress with respect to flow rates in the Missouri River.

Section 153—The conference agreement modifies language proposed in section 139 of the Senate bill regarding treatment of monies in the abandoned mine reclamation fund. This provision allows the transfer of up to an additional \$34,000,000 if the United Mine Workers Combined Benefit Fund has a deficit, but this section shall cease to have any force and effect after September 30, 2004.

Section 154—The conference agreement retains language in section 140 as proposed by the Senate, which raises the development ceiling for New Bedford Whaling National Historical Park.

The language proposed in section 141 of the Senate bill, extending the Quincy Library Group project, CA, authorization is addressed in Title III, section 338.

Section 155—The conference agreement retains language proposed in section 142 of the Senate bill modifying a Coastal Barrier Resources Act map for land in Virginia. The House had no similar provision.

Section 156—The conference agreement modifies language proposed in section 143 of the Senate bill regarding certain OCS leases in California. The modification changes the provision from a Sense of the Senate to a Sense of the Congress. The House had a similar provision in Title III general provisions.

The conference agreement does not retain language proposed in section 144 of the Senate bill requiring a study on communications towers and avian mortality.

The conference agreement modifies language proposed in section 145 of the Senate bill extending the authorization for the Strategic Petroleum Reserve; requiring the filling of SPR to capacity as soon as practicable; and amending legislation dealing with the Northeast Home Heating Oil Reserve. The language in the conference agreement is limited to a five-year extension of the SPR authorization. The House had no similar provision. The modified language is included in Title III, section 339 of this conference agreement.

Section 157—The conference agreement modifies language in section 146 of the Senate bill to provide authority to the Army Corps of Engineers to assist homeowners, that are being relocated because of the Modified Water Deliveries project, to relocate to

comparable land within the 8.5 Square Mile Area. The language also clarifies that this provision is not intended in any way to stop the alternative 6D project from moving forward. This issue is addressed in greater detail under National Park Service land acquisition.

Section 158—The conference agreement includes language prohibiting the study or implementation of a plan to drain Lake Powell.

Section 159—The conference agreement includes language raising the ceiling for fees by the National Indian Gaming Commission from \$8,000,000 to \$12,000,000 in fiscal year 2004.

Section 160—The conference agreement includes language establishing, as a unit of Chickamauga and Chattanooga National Memorial Park, the Moccasin Bend National Archaeological District.

Section 161—The conference agreement includes language authorizing a transfer of 1.7 acres of excess lands to the Lower Elwha Klallam Tribe.

TITLE II—RELATED AGENCIES
DEPARTMENT OF AGRICULTURE
FOREST SERVICE
FOREST AND RANGELAND RESEARCH

The conference agreement provides \$251,685,000 for forest and rangeland research instead of \$252,000,000 as proposed by the House and \$247,804,000 as proposed by the Senate. Changes to project funding from the House bill include: an increase of \$2,000,000 for Forest Inventory and Analysis (FIA), a decrease of \$850,000 for the advanced housing research consortium, a reduction of \$500,000 for adelgid and insect research in the east, an increase of \$1,500,000 for sudden oak death research, an increase of \$500,000 for the global climate change program, a decrease of \$4,165,000 for fixed costs, an increase of \$500,000 for invasive species research, \$500,000 for the Joe Skeen Institute for Rangeland Restoration, and an increase of \$200,000 for Baltimore, MD, urban watershed research.

The managers agree to the following more specific direction for the above items:

1. The managers provide \$500,000 for the development of carbon sequestration rules and protocols as part of the Climate Change Initiative.

2. The managers direct \$500,000 for expanded research in the control and management of pests and pathogens, including hemlock woolly adelgid, to the forest science laboratory at Morgantown, West Virginia. The managers expect these funds to address high priority work throughout the northeast.

3. The managers provide \$200,000 to the Northeastern Research Station for high priority research associated with the Urban Watershed Forestry Research and Demonstration Cooperative in Baltimore, Maryland, as part of the program direction for Revitalizing Baltimore and the Baltimore Ecosystem Study.

4. The managers encourage the Forest Service to work with the Mississippi Institute for Forest Inventory in order to further the goals of the FIA program and the Institute.

5. The managers direct the Forest Service to prepare a strategic plan with a national focus that will demonstrate how the agency intends to address the spread of sudden oak death. This strategic plan should consider the proper balance between the allocation of research and eradication resources and how these resources can best be coordinated within the Forest Service as well as with other Federal, State, and local entities.

STATE AND PRIVATE FORESTRY

The conference agreement provides \$286,574,000 for State and private forestry instead of \$279,828,000 as proposed by the House and \$297,472,000 as proposed by the Senate.

The conference agreement provides, as proposed by the House, \$50,374,000 for Federal lands forest health management, \$31,038,000 for cooperative lands forest health management, and no funding for the proposed emerging pest and pathogens fund. The managers agree with the concept of withholding some forest health funding from immediate distribution to address new problems that may emerge during the year, but the managers feel that far greater management efficiency and flexibility will exist if a new account is not created. The agreement includes bill language proposed by the House which clarifies that funding in this account should be used for the treatment of invasive or noxious plants. The managers have moved the \$300,000 proposed by the Senate for leafy spurge control in the Dakota Prairie grasslands to the national forest system account. The cooperative lands forest health management activity includes the \$300,000 proposed by the Senate for Vermont forest monitoring and a total of \$1,700,000 for sudden oak death control. These funds should be allocated primarily to States with the most severe outbreaks of sudden oak death. Funding proposed by the Senate under this heading for sudden oak death research has been moved to the forest and rangeland research account.

The conference agreement includes \$25,653,000 for State fire assistance instead of \$25,353,000 as proposed by the House and \$25,853,000 as proposed by the Senate, the change from the House proposal being an increase of \$300,000 for Cook Inlet Tribal Council, AK, spruce bark beetle management. The agency shall follow Senate direction concerning distribution of these funds. The agreement also includes \$5,040,000 for volunteer fire assistance as proposed by both the House and the Senate. The conference agreement also includes additional funds for State fire and volunteer fire assistance as part of the national fire plan funding within the wildland fire management account.

The conference agreement includes \$32,221,000 for forest stewardship as proposed by the Senate instead of \$36,898,000 as proposed by the House. Changes from the House proposal are increases of \$250,000 for the Chesapeake Bay program and \$300,000 for Utah forestry education; there is a general decrease of \$5,227,000. The managers note that an additional \$20,000,000 is available for similar activities in the forest land enhancement pro-

gram (FLEP) from mandatory farm bill funds. The managers direct the Forest Service to show clearly in all future budget justifications within the text for State and private forestry how mandatory funding for FLEP, provided in the farm bill, will be allocated and how this funding relates to forest stewardship activities.

The conference agreement includes \$68,827,000 for the forest legacy program instead of \$60,000,000 as proposed by the House and \$74,000,000 as proposed by the Senate. The conference agreement retains bill language proposed by the House requiring notification to the Appropriations Committees when the Forest Service makes funds available for specific forest legacy projects. The conference agreement also includes bill language, modifying language proposed by the House, stipulating that forest legacy grants must be for specific projects or for specific tasks undertaken when a State joins the program. In addition, the conference agreement has modified the bill language proposed by the House concerning the need for a 25% cost share of the total value of each project. The managers concur that the Forest Service should require that a minimum 25% cost share must be secured over the life of each grant.

The conference agreement also includes bill language, which gives the State of Maine until January 31, 2004 to complete the West Branch project. If this project is not completed by this date, the entire amount previously appropriated for this project, \$20,013,145, shall be transferred to the Forest Service wildland fire management account and be made available for the highest national priority rehabilitation and restoration projects. The managers expect that the final West Branch project will include a substantial fee ownership for the State of about 47,000 acres and that there will also be completed a conservation easement to the Forest Society of Maine, or similar group, of about 282,000 acres.

The conference agreement directs the Forest Service to follow the House proposed direction for the forest legacy program, with the following exceptions:

1. The managers concur with the House language requiring the Forest Service to submit a five-year legacy program strategy but the strategy should articulate the forest legacy program's national goals, objectives, performance measures, and the issues and trends affecting forests in regions across the country. This strategy should also provide a national perspective for the forest legacy program and assist States in contributing to national and regional conservation needs. The managers further direct that the Forest Service revise and finalize its Forest Legacy Program Implementation Guidelines by June 30, 2003. The revised guidelines should include definitive guidance regarding project definition, cost shares, monitoring, appraisals, and other areas of concern noted in the Committee's report, dated June 14, 2002.

2. The managers are concerned with the manner in which the cost share is calculated for legacy projects. Rather than requiring a 25% cost share for each project before a grant may be awarded as proposed by the House, the managers concur that the Forest Service should require that a minimum of 25% of the total cost share of each project should come from non-Federal sources over the course of the grant period and that each project grant must document the total value of the project's non-federal cost share.

The Forest Service shall strictly comply with existing Office of Management and Budget Circulars concerning matching requirements for federal grants.

3. The managers recognize that given the often complex and lengthy nature of negotiations for the purchase of conservation easements, the agency may submit a request for project funding in its budget justification, which only specifies a geographical area rather than a specific tract. However, the managers will not appropriate funds for such projects until the agency has identified the specific tracts to be purchased.

4. The managers concur that, to the greatest extent possible, legacy easements should provide for public access but the managers also recognize that there may be reasons why such access is impractical because of natural resource or public safety concerns. The managers expect the agency to indicate to the Committees in advance when an easement will not provide for public access and the reasons why such access is inappropriate.

5. The managers are concerned that forest legacy program managers may not be able to use the Forest Service's official financial accounting system, the Foundation Financial Information System (FFIS), to manage forest legacy funds due to the system's limitations. The managers direct the Forest Service to ensure that FFIS contains accurate and complete expenditure information for forest legacy grants and that it supports program management information requirements. The managers concur with the House proposal concerning the need to track the status of individual projects, to require separate grants for each project, and to use a single grant authorization and payment system for the forest legacy program. However, the managers understand that the FFIS system may not be able to manage information in this fashion. If so, the managers expect the agency to develop and have fully operational, an independent system which is capable of performing these functions by the close of the fiscal year.

6. The conference agreement includes new State start-up funds only for Alaska and Idaho, although the House and Senate Committees on Appropriations will carefully consider other States for inclusion in the program in future years.

The conference agreement includes the following distribution of funds for the forest legacy program:

State	Project	Conference
AK	New State start-up	\$500,000
AL	Perdido River	2,000,000
CO	Spruce Mountain Ranch	1,875,000
CT	Stone House Brook Project	1,100,000
DE	Green Horizons, phase 2	1,000,000
GA	Pine Mountain	4,000,000
GA	Sheffield	100,000
HI	McCandless Ranch	1,300,000
ID	New State start-up	500,000
IA	Yellow River Forest Project	700,000
IL	Coon Creek Woods	95,000
IL	Kyte River	305,000
IN	Mt. Tea Ridge	1,600,000
MA	Karner Brook Ridge	305,000
MA	Camp Hi-rock	500,000
MA	Eagleville Pines	835,000

State	Project	Conference
MD	Pintail	150,000
MD	Deer Creek	150,000
ME	Leavitt Plantation	600,000
ME	West Branch, phase 2	2,500,000
MN	North Duluth, phase 1&2	410,000
MT	Schiemann	600,000
MT	Thompson Fisher, phase 4	4,000,000
NC	RPM project	1,500,000
NH	Connecticut Lakes Headwaters	8,000,000
NJ	Lake Gerard, New Jersey Highlands	3,000,000
NM	Legunas Bonitas	1,500,000
NY	East Branch Fish Creek, phase 2	1,500,000
OR	South Eugene Hills	1,062,000
PR	Rio Abajo North area, phase 2	500,000
RI	Weetamoe Woods, phase 2	250,000
RI	DuVal Trail Corridor	200,000
SC	Coastal Forest Ecosystem Restoration Initiative, phase 3	5,000,000
TN	Anderson—Tully	3,500,000
TN	McGlothlin tract	800,000
UT	Castle Rock, phase 2	2,000,000
UT	Chalk Creek (Blonquist)	1,600,000
VA	Sandy Point	575,000
VA	Romine project	600,000
VT	Bull & Sable	2,600,000
WA	Skykomish River Landscape, phase 2	920,000
WI	Bad River Headwaters	3,450,000
WI	Baraboo Hills	1,000,000
	Project Subtotal	64,682,000
	Forest Service program admin. & AON Planning	4,145,000
	Total, Forest Legacy	\$68,827,000

The conference agreement includes \$36,235,000 for the urban and community forestry program as proposed by the House instead of \$37,750,000 proposed by the Senate. Changes from the House proposal for this activity include decreases of \$100,000 from north-east PA community forestry and \$500,000 from the Chicago greenstreets program, and increases of \$350,000 for Cook County forest preserve, IL, \$200,000 for Milwaukee, WI, and \$250,000 for Baltimore, MD urban watershed activities and a \$200,000 general decrease. Senate proposed funding for Baltimore urban watershed research has been moved to the forest and rangeland research account.

The conference agreement includes the following distribution of funds for the economic action programs:

Program / Project	Conference
Economic Recovery Base Program	\$5,000,000
Rural Development Base Program	4,000,000
Forest Products Conservation & Recycling	1,300,000
Wood In Transportation	1,000,000
Special Projects:	
Allegheny NF Area Regional Tourism, PA	200,000
Arid Lands Research Consortium	300,000
Cradle Of Forestry Conservation Ed, NC	590,000
Cradle Of Forestry Sustainability Study, NC	150,000
Four Corners Sustainable Forestry	1,000,000
Gonzaga Un. Inland NW Natural Resources Research Center, WA	900,000
Hardwood Forestry Foundation	200,000
Institute Of Forest Biotechnology Risk Analysis, NC	150,000
KY Mine Waste Reforestation	1,000,000

<i>Program / Project</i>	<i>Conference</i>
Gonzaga Un. Inland NW Natural Resources Research Center, WA	900,000
Hardwood Forestry Foundation	200,000
Institute Of Forest Biotechnology Risk Analysis, NC	150,000
KY Mine Waste Reforestation	1,000,000
Lake Tahoe Erosion Control Grants, CA NV	2,500,000
Little Sandy River, OR	1,000,000
NY City Watershed Enhancement	750,000
Univ. WA Landscape Management	200,000
Univ. WA & WA St. U. Extension Forestry	600,000
Kake Land Exchange, AK	1,000,000
Mountain Studies Institute, Co	500,000
Envir. Science And Public Policy Research Center, ID	500,000
Fuels In Schools Biomass, MT	500,000
Valdez Avalanche Control, AK	400,000
Wood Education & Resource Center, WV	2,700,000
Subtotal, Special Projects	<u>15,140,000</u>
Total, Economic Action	\$26,440,000

The conference agreement includes \$5,000,000 for the economic recovery program as proposed by the House and \$4,000,000 for rural development through forestry, but does not establish specific regional allocations for the Pacific Northwest or the northeast-midwest as was proposed by the Senate. Rather, the Forest Service should carefully consider these regions when allocating grants in these activities. The conference agreement includes the bill language proposed by the Senate concerning a direct lump sum payment to the Kake Tribal Corporation, AK, but the funding total is \$1,000,000. The funds provided to the City of Valdez for avalanche control work shall be in the form of an advance, direct lump sum payment. The funds for Little Sandy River shall be provided to Clackamas County, OR, to perform the work.

The conference agreement includes \$4,996,000 for forest resource information and analysis as proposed by the Senate and \$5,750,000 for the international forestry program.

NATIONAL FOREST SYSTEM

The conference agreement provides \$1,362,299,000 for the national forest system instead of \$1,370,567,000 as proposed by the House and \$1,352,999,000 as proposed by the Senate. Funds should be distributed as follows:

Land management planning	\$72,195,000
Inventory and monitoring	175,356,000
Recreation, heritage & wilderness	254,194,000
Wildlife & fish habitat management	133,806,000
Grazing management	40,850,000
Forest products	265,353,000
Vegetation & watershed management	190,944,000
Minerals and geology management	52,635,000
Landownership management	93,016,000
Law enforcement operations	80,800,000
Valles Calderas National Preserve, NM	3,150,000
Total	<u>\$1,362,299,000</u>

The following discussion describes funding changes from the House passed bill.

1. The land management planning activity does not include a special allocation for the Black Hills National Forest, SD.

2. The inventory and monitoring activity includes an increase of \$50,000 for Lake Tahoe basin adaptive management. Inventory and monitoring funding includes \$6,200,000 for the Forest Inventory and Analysis program as directed by the House.

3. The recreation activity includes: \$350,000 for environmental analysis of helicopter flights on the Tongass National Forest, Juneau district; an increase of \$64,000 above the House proposal for the Carhart Wilderness Training Institute, bringing its total funding to \$300,000; and a reduction of \$664,000 for fixed costs. The managers direct the Forest Service to issue a contract for \$350,000 with the City of Juneau, AK to prepare an environmental impact statement to identify ways to mitigate the impacts of helicopter charter flights in the Tongass National Forest on the community of Juneau, AK. The managers encourage the federal partners responsible for the Great Lakes Visitor Center, WI, to increase funding for the center in fiscal year 2003, especially for important initiatives such as its environmental education program.

4. The wildlife and fish habitat management activity includes the Senate proposed increase of \$250,000 for the Batten Kill River, VT, and a reduction of \$392,000 for fixed costs.

5. The grazing management activity is provided \$40,850,000, an increase of \$6,075,000 above the enacted level. This increase should be used to provide range monitoring and updated allotment management plan analysis.

6. The forest products activity includes the Senate proposed earmark of \$4,000,000 for Tongass National Forest timber sales preparation out of base funds.

7. The vegetation and watershed management activity includes the general decrease proposed by the Senate of \$3,790,000 and increases of: \$1,450,000 for the Lake Tahoe basin; \$305,000 for Mark Twain National Forest pine restoration, MO; \$300,000 for Wasatch Canyon water quality initiative, UT; \$135,000 for Monongahela National Forest hydrology study, WV; and \$300,000 for leafy spurge control on the Dakota prairie, ND. The Forest Service is encouraged to work with the Canaan Valley Institute, WV, on watershed projects.

8. The minerals and geology activity is increased \$1,000,000 above the House proposal and the landownership management activity is reduced \$4,000,000 from the House proposal.

9. The law enforcement activity has a general decrease of \$592,000. The managers encourage the Forest Service to evaluate carefully the funding for law enforcement activities on national forests in Georgia, especially areas impacted by high use.

10. The Valles Caldera National Preserve, NM, is funded at the Senate proposed level. The managers have provided all funding for the Valles Caldera in this account. The conference agreement has modified bill language proposed by the Senate concerning senior executive service salary for the chairman of the board of the preserve. The agreement now allows SES salary to continue only for the chairman of the board.

The \$5,000,000 general reduction to this account passed on the House floor is not agreed to nor is the bill language (reducing and increasing funding) in order to make a change to grazing manage-

ment. The agreement does include bill language allowing fund transfers to the BLM for cadastral surveys.

The conference agreement includes a total of \$8,400,000 from all appropriation accounts for the Land Between the Lakes National Recreation Area, KY and TN.

The managers allow the Forest Service, upon notification to the House and Senate Committees on Appropriations, to reprogram national forest system funds within the Lake Tahoe basin.

The managers reiterate the House direction to the Forest Service to reestablish an active challenge cost share program. This program should be coordinated with the Department of the Interior's similar efforts.

WILDLAND FIRE MANAGEMENT

The conference agreement provides \$1,379,938,000 for wildland fire management instead of \$2,013,449,000 as proposed by the House and \$1,351,791,000 as proposed by the Senate. The managers note that the conference agreement also includes \$636,000,000 under a separate division as proposed by the Senate to reimburse a portion of wildfire suppression costs incurred during emergencies in fiscal year 2002 rather than a contingent emergency appropriation of \$500,000,000 as proposed by the House. The agreement also includes \$420,699,000 for suppression operations as proposed by both the House and the Senate and \$616,000,000 for preparedness, a reduction of \$24,000,000 from the House recommendation.

The managers are concerned that the allocation of funds between preparedness and suppression operations mentioned above and in summary tables may not maintain the levels of readiness needed for public safety that were established in fiscal years 2001 and 2002. The managers also feel that decisive action is necessary to manage escalating fire suppression costs. An important component of reducing such costs is maintaining initial attack capability so that more fires can be contained before they escape and cause serious loss of life and property as well as natural resource damage. Accordingly, the managers direct the Forest Service to analyze current readiness levels to determine whether maintaining preparedness resources in the field at a level not less than that established in fiscal year 2002, will, based on the best information available, result in lower overall firefighting costs. If the agency makes such a determination, the managers direct the Forest Service to adjust the levels for preparedness and suppression funding accordingly and these adjustments shall have the advance approval from the House and Senate Committees on Appropriations. The Forest Service should advise the House and Senate Committees on Appropriations in writing of their decision.

Because of the managers' continuing concern regarding fire suppression costs during major incidents, the Forest Service and the Department of the Interior are directed to contract with the National Academy of Public Administration for appropriate follow-up work to their study of 2002. The Departments should equally share the cost of the review and the review should be conducted forthwith.

OTHER WILDFIRE OPERATIONS

The conference agreement includes \$343,239,000 for other fire operation activities instead of \$452,750,000 as proposed by the House and \$330,389,000 as proposed by the Senate. The allocation of this funding is as follows:

	<i>Total</i>
Hazardous Fuels	\$228,109,000
Fire Facilities	1,850,000
Rehabilitation	7,124,000
Research & Development	21,427,000
Joint Fire Science	8,000,000
Forest Health Management federal	6,955,000
Forest Health Management cooperative	9,979,000
Economic Action	5,000,000
State and community fire assistance	46,555,000
Volunteer fire assistance	8,240,000
	<hr/>
Total other wildfire operations	\$343,239,000

The conference agreement includes \$228,109,000 for hazardous fuels treatments as proposed by both the House and the Senate. Changes from the House proposed funding in this activity are increases of \$550,000 for the Lake Tahoe basin, \$1,000,000 for the Santa Fe watershed, NM, and a general decrease of \$1,550,000. The conference agreement does not include specific bill language in this account as proposed by the House allowing transfer of funds to the Interior and Commerce departments for endangered species consultations. Rather, the agreement includes the similar Senate proposal under administrative provisions as discussed below.

The managers note that the Department of the Interior and the Department of Agriculture have begun full implementation of the 10-Year comprehensive strategy to reduce wildland fire risks. This strategy involves extensive collaboration with communities in the selection of hazardous fuels projects. In support of the strategy, the Departments have developed detailed criteria for the execution of such hazardous fuels reduction efforts. The managers feel that collaboration with communities and the use of criteria for project selection provide a suitable basis for planning the expenditure of funds, and accordingly do not concur with Senate report language requiring that seventy percent of hazardous fuels funds be used in the wildland urban interface.

Although the conference agreement does not include the bill language proposed by the Senate concerning the county partnership restoration program in AZ, NM and CO, the managers agree that this is an important program and that the Forest Service should continue to provide funding for it from the hazardous fuels allocation.

The conference agreement includes \$1,850,000 for wildfire management facilities instead of \$20,376,000 as proposed by the House and no funding proposed by the Senate. This allocation includes \$1,200,000 for the Medford, OR airtanker base and \$650,000 for the Pinhook, FL wildfire station. Specific House instructions on these two projects should be followed.

The conference agreement includes \$7,124,000 for rehabilitation and restoration activities instead of \$63,000,000 as proposed by the House and \$6,124,000 as proposed by the Senate. This fund-

ing includes \$2,500,000 for rehabilitation activities on the Apache-Sitgreaves National Forest, AZ, as recommended by the Senate.

The conference agreement includes \$21,427,000 for research and development activities as proposed by the Senate instead of \$27,265,000 as proposed by the House. Changes from the House proposal include an increase of \$1,000,000 for the University of Montana landscape analysis center and \$200,000 for the related University of Idaho project and a \$7,038,000 general program decrease.

The conference agreement includes \$6,955,000 for federal forest health activities and \$9,979,000 for cooperative forest health activities. The managers expect the Forest Service to increase its forest health capabilities at Asheville, NC as described in the House report. The managers have included \$46,555,000 for State and community fire assistance as proposed by the Senate instead of the \$58,000,000 House recommendation. Of the funds provided for State fire assistance, \$4,200,000 shall be provided to the Municipality of Anchorage and \$1,000,000 shall be provided to the Matanuska-Sustitna Borough to perform work in areas affected by the spruce bark beetle. The agency shall follow Senate direction with respect to the distribution of these two allocations.

The conference agreement includes \$5,000,000 for economic action activities associated with the national fire plan instead of \$12,500,000 as proposed by the House and no Senate funding. Volunteer fire assistance receives \$8,240,000 as proposed by the Senate instead of \$8,500,000 as proposed by the House.

CAPITAL IMPROVEMENT AND MAINTENANCE

The conference agreement provides \$552,039,000 for capital improvement and maintenance instead of \$572,731,000 as proposed by the House and \$543,656,000 as proposed by the Senate. The conference agreement provides for the following distribution of funds:

<i>Facilities Activity / Project</i>	<i>Conference</i>
Maintenance	\$93,926,000
Capital improvement	86,000,000
Projects:	
Allegheny NF, Buckaloons, PA	436,000
Allegheny NF, Webbs Ferry, PA	100,000
Angeles NF, Rubio Canyon, CA	1,000,000
Backcountry Hut repairs, AK	350,000
Black Kettle NG, collocation with NPS, OK	750,000
Cheoah RD office reconstruction, NC	1,250,000
Cherokee NF, Prince Gap, TN	300,000
Chugach NF, Cordova Visitor Center, AK	1,000,000
Cradle of Forestry, exhibits, NC	150,000
Dan. Boone NF, Cave Run lake planning, KY	400,000
Dan. Boone NF, Gladie Creek center, KY	250,000
Forestry Science Bldg repairs, Princeton, WV	315,000
Franklin County Lake, MS	2,400,000
Green Mountain NF, supervisor's office, VT	750,000
Grey Towers NHS, PA	500,000
Hardwood Technology Ct., Purdue Univ., IN	1,700,000
Institute of Pacific Islands Forestry, HI	1,000,000
Lee Ranger District Center, VA	500,000
Lewis & Clark Ctr., MT	284,000
Midewin Prairie NTP, rehab., IL	1,000,000
Monongahela NF facilities improvements, WV	1,340,000

<i>Facilities Activity / Project</i>		<i>Conference</i>
Mystic Ranger District Station, SD		1,500,000
Nantahala NF, Cheoah Point Campground, NC		855,000
Old Stoney feasibility study, WY		300,000
Ouachita NF, Camp Ouachita, AR		1,000,000
Pisgah NF, Lake Powhatan cmpgrd rehab., NC		250,000
San Bernardino NF, Big Bear center, CA		550,000
San Bernardino NF, dogwood cmpgrd rehab., CA		1,500,000
Stanislaus NF, Emigrant impound. rehab., CA		80,000
Tongass NF, Log transfer facilities, AK		1,000,000
Warren Lab Rebuild, PA		900,000
Subtotal, Projects		<u>23,710,000</u>
Total, Facilities		\$203,636,000
<i>Roads Activity / Project</i>		<i>Conference</i>
Maintenance		\$153,358,000
Capital improvement		71,000,000
Projects:		
Highland scenic highway, Williams river, WV		1,300,000
Lake Tahoe basin, NV CA		700,000
Tongass NF improvements, AK		4,000,000
Umatilla NF, Touchet road rehab, WA		2,500,000
Subtotal, Projects		<u>8,500,000</u>
Total, Roads		\$232,858,000
<i>Trails Activity or Project</i>		<i>Conference</i>
Maintenance		\$36,664,000
Capital improvement		30,165,000
Projects:		
Continental Divide trail		1,000,000
FL National scenic trail		500,000
Ocoee River-Thunder Rock trail, TN		200,000
Pinhoti trail, AL & GA		400,000
Pike S.I. NF, Corely Mtn tunnel #3, CO		250,000
San Sophia Station, CO		500,000
Subtotal, Projects		<u>2,850,000</u>
Total, Trails		\$69,679,000
Total, Capital Improvement & Maintenance		\$552,039,000

The managers agree with the overall program direction for this account provided by both the House and the Senate. The conference agreement includes bill language proposed by the House continuing the authority to use funds for road decommissioning and includes Senate proposed language concerning a previous appropriation for improvements at Purdue University, IN, for the hardwood science center. The agreement also allows further direct payments to Purdue University for that project and to Cordova, Alaska for a shared visitor center. Furthermore, the managers reiterate that funding for the Chugach visitor center in Cordova, AK, shall be the final amount provided by the Forest Service, and the Forest Service should be given a share of the space proportional to its funding of the construction cost. As proposed by the House, the conference agreement does not provide any funding for the Juneau-ANM, AK, building and associated roads. The managers have included \$400,000 for the Pinhoti trail in AL and GA; this funding should be approximately evenly split between the two States. The conference agreement includes a total of \$5,000,000 for the Forest Service to address fish passage barriers. The Forest Service should follow the House direction on this activity, but since the funding

has been reduced, this funding should focus on activities in regions 6 and 5, which would benefit salmonid fish.

LAND ACQUISITION

The conference agreement provides \$133,815,000 for land acquisition instead of \$146,336,000 as proposed by the House and \$145,763,000 as proposed by the Senate. Funds should be distributed as follows:

<i>Area (State)</i>	<i>Amount</i>
Arapaho NF: Beaver Brook Watershed (CO)	\$2,500,000
Beaverhead & Deerlodge NF's: Watershed, RY Timber (MT)	5,700,000
Black Hills NF (SD/WY)	3,000,000
Bridger-Teton NF (WY)	2,800,000
Chattahoochee NF: Georgia Mountains (GA)	3,200,000
Chequamegon & Nicolet NF's: W&S Waterways (WI)	2,000,000
Cherokee NF: Tennessee Mountains (TN)	4,400,000
Chippewa & Superior NF's: WildWater/WL (MN)	1,650,000
Cibola NF: La Madera (NM)	3,800,000
Columbia River Gorge NSA (OR/WA)	5,000,000
Daniel Boone NF: Assorted Inholdings (KY)	2,500,000
Flathead NF: Swan Valley (MT)	6,500,000
Florida National Scenic Trail (FL)	3,000,000
Francis Marion NF (SC)	2,000,000
Green Mountain NF: Recreation & Water (VT)	1,750,000
Hoosier NF: Unique Areas (IN)	1,500,000
Huron & Ottawa NF's: Great Lakes/Great Lands (MI)	2,500,000
Lake Tahoe Basin: Critically Sensitive Lands (CA/NV)	4,000,000
Lolo NF: Mt Sentinel (MT)	800,000
Los Padres NF: Big Sur Ecosystem (CA)	3,000,000
Mark Twain NF: Streams and Lake Frontages (MO)	1,750,000
Midewin Tallgrass Prairie (IL)	500,000
Monongahela NF (WV)	4,000,000
Multiple NFs: Chattooga W&SR/Chattooga River (SC/GA)	2,000,000
Multiple NFs: Greater Yellowstone Area (MT)	6,800,000
Multiple NFs: I-90 Corridor/Plum Creek & Cascade Conser. Part- ner. (WA)	4,000,000
Multiple NFs: Idaho Wilderness/W&S Rivers (ID/MT)	1,700,000
Multiple NFs: Lewis & Clark Nat'l Historic Trail (ID/MT)	500,000
Multiple NFs: Northwest W&S Rivers (OR/WA) (Illinois WSR & Skagit Rvr)	2,500,000
Multiple NFs: Pacific Crest Trail (CA/OR/WA)	3,000,000
Multiple NFs: Pacific Northwest Streams (OR/WA) (Siuslaw & Arrowleaf)	3,400,000
Ozark-St. Francis NF's: Ark Rivers & Streams (AR) (Stumpy Pt. & Lake Winona)	3,000,000
San Bernardino NF (CA)	2,000,000
Santa Fe NF: Gascon Point—Sawyer (NM)	5,500,000
Sawtooth NF: NRA Easement Program (ID)	1,000,000
Sumter NF: Broad River Corridor (SC)	4,600,000
Tahoe NF: North Fork American River—SPI (CA)	2,000,000
Talladega NF (AL)	700,000
Uinta & Wasatch-Cache NF's: Bonneville Shoreline Trail (UT)	2,265,000
Uncompahgre & San Juan NF's: Red Mountain (CO)	4,000,000
Wasatch-Cache NF: High Uintas (UT)	3,500,000
White Mountain NF (NH)	500,000
Willamette NF: Marion County/Detroit Lake (OR)	500,000
Use of carryover balances	-7,000,000
Subtotal	<u>114,315,000</u>
Acquisition Management	15,000,000
Critical Inholdings/Wilderness Protection	3,000,000
Land Exchange Equalization Payment	<u>1,500,000</u>
Total	<u>\$133,815,000</u>

The conference agreement includes bill language directing the use of \$350,000 in prior year funds for Tongass National Forest land acquisition for a direct payment to the City of Juneau, AK.

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The conference agreement provides \$1,069,000 for the acquisition of lands for national forests special acts as recommended by both the House and the Senate.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The conference agreement provides an indefinite appropriation estimated to be \$234,000 for the acquisition of lands to complete land exchanges as proposed by both the House and the Senate. The conference agreement also includes a minor change in bill language to clarify that the Forest Service has authority to use donated funds.

RANGE BETTERMENT FUND

The conference agreement provides an indefinite appropriation estimated to be \$3,402,000 for the range betterment fund as proposed by both the House and the Senate.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The conference agreement provides \$92,000 for gifts, donations and bequests for forest and rangeland research as proposed by both the House and the Senate.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The conference agreement provides \$5,542,000 for management of national forest system lands for subsistence uses in Alaska as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The managers have retained bill language proposed by the Senate, which continues to prohibit the use of funds to abolish or move regional offices without Appropriations Committee approval. The conference agreement retains the House proposed bill language which allows funds to be transferred to the wildland fire management appropriation only after funds in that account are obligated. The agreement allows the Forest Service to advance up to \$3,000,000 to the National Forest Foundation and the Foundation may use up to \$400,000 for administrative costs. The agreement also includes the House proposal to make the language concerning the Pinchot Institute for Conservation valid through fiscal year 2007. The conference agreement includes language, which allows employees of the senior community service employment program to be considered federal employees while on the job at the Forest Service. The conference agreement also includes the Senate proposals on: the use of funds for law enforcement emergencies; the sale of facilities on the Green Mountain National Forest, VT; and

the transfer of up to \$15,000,000 to reimburse the Departments of the Interior and Commerce for endangered species act activities.

DEPARTMENT OF ENERGY

The managers have not agreed to the budget amendment, which would fund a new National Climate Change Technology Initiative at the expense of important, ongoing research in other areas. The House and Senate Committees on Appropriations will consider a reprogramming request for this new program should one be submitted and contain acceptable offsets.

CLEAN COAL TECHNOLOGY

(DEFERRAL)

The conference agreement provides for the deferral of \$87,000,000 in previously appropriated funds for the clean coal technology program instead of \$50,000,000 as proposed by the House and \$70,000,000 as proposed by the Senate. These funds will become available on October 1, 2003, to complete the remaining projects in this program.

The managers agree that up to \$15 million in prior year funds may be used for administration of the clean coal technology program in fiscal year 2003.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

The conference agreement provides \$624,900,000 for fossil energy research and development instead of \$664,205,000 as proposed by the House and \$625,665,000 as proposed by the Senate. The numerical changes described below are to the House recommended level.

In central systems, there is a decrease of \$3,000,000 in innovations for existing plants for mercury research and, in advanced systems, there are decreases of \$4,500,000 for the integrated gasification combined cycle program and \$1,700,000 for pressurized fluidized bed systems.

In distributed generation systems/fuel cells, there is an increase of \$500,000 in advanced research for the electrochemical engineering program at Montana State University and decreases of \$6,500,000 in innovative concepts for the solid state energy conversion alliance and \$975,000 in novel generation for ramjet technology.

There is a decrease of \$1,800,000 for carbon sequestration research and development.

In solid fuels and feedstocks, there is a \$1,000,000 increase for the consortium for premium carbon products from coal and a \$1,000,000 decrease for the testing of byproducts from coal-derived jet fuels. In advanced fuels research, there are increases of \$500,000 for the C-1 chemistry program and \$1,300,000 for the carbon products program and a decrease of \$2,000,000 in advanced concepts for research on sulphur tolerant catalysts and cleanup technology for coal use in fuel cells.

In advanced research, there is an increase of \$1,000,000 in coal utilization science for the Arctic Energy Office and decreases of

\$1,000,000 for university coal research and \$500,000 for HBCU education and training.

In natural gas exploration and production, there is an increase of \$3,000,000 for the Arctic Energy Office of which \$2,000,000 is for Alaska gas pipeline research and \$1,000,000 is for other research. For advanced drilling, completion, and stimulation, there is an increase of \$1,500,000 for the Deep Trek program and a general reduction of \$2,200,000. There is also a reduction of \$1,000,000 for the National laboratory/industry partnership.

Other changes in natural gas technologies include an increase in emerging processing technology of \$80,000 to complete the coal mine methane program and decreases of \$1,300,000 for the gas hydrates program and \$950,000 for the natural gas infrastructure program.

In oil exploration and production, there is an increase of \$1,500,000 for the Arctic Energy Office of which \$500,000 is for oxygen transport membrane research and \$1,000,000 is for other research, and decreases of \$1,000,000 for the National laboratory/industry partnership, \$500,000 for fundamental research/PRIME, and a general reduction of \$7,000,000.

Other changes in oil technology research include decreases in reservoir life extension of \$4,000,000 for reservoir practices and technology transfer and \$1,000,000 for preferred upstream management practices, and a decrease of \$600,000 for effective environmental protection.

In cooperative research and development, there is an increase of \$240,000.

There is a decrease of \$920,000 for headquarters program direction and an increase of \$1,020,000 for energy technology center program direction. In general plant projects, there is a decrease of \$7,000,000 for renovations at the National Energy Technology Laboratory.

Finally, there is a decrease of \$500,000, for a National Academy of Sciences review of programs, which leaves \$500,000 in the budget for this purpose.

The managers agree to the following:

1. In the mercury research area, the Department should consider research on mercury emissions reductions from lignite-fired power plants if a competitive proposal is submitted and ranks among the high priority project proposals.

2. In the central systems, advanced systems program, the Department should continue the ITM oxygen project to the extent possible within available funds.

3. Within the funds provided for fuel cell systems, \$3,000,000 is for the molten carbonate fuel cell hybrid program.

4. The \$7,000,000 increase in transportation fuels and chemicals, provided by both the House and the Senate, is for the ultra clean fuels program.

5. In natural gas technologies, within the \$2,000,000 provided for Alaska gas pipeline research at the Arctic Energy Office, \$500,000 is to be used for a study of a pipeline spur from Anchorage to Fairbanks.

6. The increase above the budget request for energy technology center program direction should be applied as necessary to cover

the cost of in-house personnel and contract services at the National Energy Technology Laboratory.

The conference agreement includes bill language earmarking \$4,000,000 for infrastructure upgrades at the National Energy Technology Laboratory as proposed by the Senate instead of \$11,000,000 as proposed by the House.

NAVAL PETROLEUM AND OIL SHALE RESERVES

The conference agreement provides \$17,831,000 for the naval petroleum and oil shale reserves instead of \$20,831,000 as proposed by both the House and the Senate.

ELK HILLS SCHOOL LANDS FUND

The conference agreement provides \$36,000,000 to become available on October 1, 2003, for the Elk Hills school lands fund as proposed by both the House and the Senate.

ENERGY CONSERVATION

The conference agreement provides \$897,603,000 for energy conservation instead of \$984,653,000 as proposed by the House and \$884,293,000 as proposed by the Senate. The numerical changes described below are to the House recommended level.

In building research and standards there are decreases of \$1,000,000 for residential buildings integration and \$500,000 for commercial buildings integration. For equipment materials and tools, there are increases of \$3,000,000 for the next generation lighting initiative, \$500,000 for lighting and appliance standards, and \$500,000 for windows research and decreases of \$1,500,000 for electrochromics research in the windows program and \$500,000 for the National Fenestration Rating Council database.

In building technology assistance there are decreases of \$25,000,000 for the weatherization assistance program, \$5,000,000 for State energy conservation grants, \$1,000,000 for community partnerships and \$2,000,000 for Energy Star.

Funding for the cooperative programs with the States (\$2,000,000) and the energy efficiency science initiative (\$4,000,000) has been eliminated in each of the buildings, industry, and transportation areas and funded at lower amounts at the end of energy conservation account.

There are also decreases of \$700,000 for management and planning/program direction in the buildings and technology assistance program and \$1,000,000 for the Federal Energy Management Program.

In industries of the future/specific, there are decreases of \$3,000,000 for petroleum refining, \$2,000,000 for bio-based products consortia in the agriculture program, and \$500,000 for the mining program.

In industries of the future/crosscutting there is an increase of \$1,000,000 for bio-based products consortia and decreases of \$4,000,000 for industrial gasification in the combustion systems program, \$2,000,000 for robotics in the sensors and controls program, \$1,000,000 for best practices in the technical assistance program, \$1,000,000 for industrial assessment centers, \$500,000 for

inventions and innovations, and \$1,000,000 for technical and program management support.

Funding for the cooperative programs with the States (\$2,000,000) and the energy efficiency science initiative (\$4,000,000) has been eliminated in each of the buildings, industry, and transportation areas and funded at lower amounts at the end of the energy conservation account.

There is also a decrease of \$1,500,000 in management and planning for program direction in the industry sector programs.

In distributed generation technologies, there is an increase of \$500,000 for the turbines program and decreases of \$4,000,000 for microturbines, \$1,000,000 for reciprocating engines, \$2,000,000 for power electronics in the advanced materials and sensors program, \$250,000 for oil heat research in the fuel flexibility program, and \$2,000,000 for applications integration. There are also decreases in management and planning of \$200,000 for evaluation and planning and \$100,000 for program direction.

In vehicle technologies research, there is a decrease of \$4,000,000 for heavy vehicle propulsion in the hybrid program. In fuel cell programs decreases include \$1,400,000 for fuel cell systems, \$2,000,000 for stack subsystem components of which \$1,000,000 is for platinum substitutes and \$1,000,000 is a general decrease, and \$600,000 for fuel processor storage. In advanced combustion engine research, there are decreases of \$1,000,000 for light truck engines and \$500,000 for heavy truck engines. For off-highway engine research, there is a \$3,000,000 general increase and a decrease of \$4,500,000 for specific programs mentioned in the House report. There are also decreases of \$3,500,000 for heavy vehicle systems optimization and \$1,000,000 for advanced battery development.

Other changes in the transportation area are as follows. There is a decrease of \$2,000,000 for fuels utilization. In the materials program, there is an increase of \$500,000 for automotive propulsion materials and a decrease of \$2,000,000 for lightweight materials technologies. In technology deployment, there is a decrease of \$500,000 for the Clean Cities program.

Funding for the cooperative programs with the States (\$2,000,000) and the energy efficiency science initiative (\$4,000,000) has been eliminated in each of the buildings, industry, and transportation areas and funded at lower amounts at the end of the energy conservation account.

There is also a decrease of \$300,000 in management and planning for program direction in transportation programs.

In policy and management, there is a decrease of \$1,000,000 for the regional support offices.

There is a decrease of \$500,000 for a National Academy of Sciences review of programs, which leaves \$500,000 in the budget for this purpose.

The conference agreement also includes an increase of \$3,000,000 to restore a general reduction to program administration.

Finally, there are increases of \$3,000,000 for a consolidated cooperative program with the States and \$5,000,000 for the energy efficiency science initiative.

The managers agree to the following:

1. Within the funds provided for the windows program, the Department should consider increasing funds for the National Fenestration Rating Council database.

2. Within the funds provided for off-highway engine research, the Department should consider emissions reduction research, locomotive research, and fuel cell applications for off-road vehicles.

3. The Department recently established a five-year agreement with the National Association of State Energy Officials (NASEO) and the Association of State Energy Research and Technology Transfer Institutions (ASERTI) to implement a State Technologies Advancement Collaborative. The Department, through this collaborative, should use the resources of NASEO and ASERTI to implement the consolidated cooperative program with the States and the consolidated energy efficiency science initiative.

4. As mandated in the fiscal year 2002 Interior Appropriations Act, half of the funds for the energy efficiency science initiative are for fossil energy research.

5. Within available funds, the Department should continue the robotics/repetitive systems project in the Industries of the Future Program.

The conference agreement earmarks \$270,000,000 for energy conservation grant programs as proposed by the Senate instead of \$300,000,000 as proposed by the House. Within the funds provided, \$225,000,000 is further earmarked for weatherization assistance grants as proposed by the Senate instead of \$250,000,000 as proposed by the House and \$45,000,000 is earmarked for State energy conservation grants as proposed by the Senate instead of \$50,000,000 as proposed by the House.

ECONOMIC REGULATION

The conference agreement provides \$1,487,000 for economic regulation as proposed by both the House and the Senate.

STRATEGIC PETROLEUM RESERVE

The conference agreement provides \$172,856,000 for the strategic petroleum reserve as proposed by the Senate instead of \$175,856,000 as proposed by the House.

SPR PETROLEUM ACCOUNT

(INCLUDING RESCISSION)

The conference agreement provides \$7,000,000 for the SPR petroleum account as proposed by both the House and the Senate. The conference agreement also rescinds \$5,000,000 in funds available from previous appropriations.

NORTHEAST HOME HEATING OIL RESERVE

The conference agreement provides \$6,000,000 for the northeast home heating oil reserve as proposed by the Senate instead of \$8,000,000 as proposed by the House.

ENERGY INFORMATION ADMINISTRATION

The conference agreement provides \$80,611,000 for the energy information administration as proposed by the House instead of \$80,111,000 as proposed by the Senate.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

The conference agreement provides \$2,492,115,000 for Indian health services instead of \$2,508,756,000 as proposed by the House and \$2,455,881,000 as proposed by the Senate. The numerical changes described below are to the House recommended level.

For hospital and health clinic programs, there are increases of \$230,000 for the Ketchikan Native Corporation and \$4,435,000 to restore administrative reductions proposed in the budget request and decreases of \$6,788,000 for the Indian health care improvement fund, \$1,500,000 for the Lawton, OK hospital, \$500,000 for epidemiological centers, and \$500,000 for the Alaska telemedicine program.

For contract health services, there is a decrease of \$5,000,000. For Indian health professions there is an increase of \$95,000 for the recruitment and retention of American Indians into nursing (RAIN) program at the University of North Dakota and a decrease of \$4,150,000 for recruitment programs. For direct operations, there is an increase of \$4,436,000 to restore administrative reductions proposed in the budget request. For the self-governance program, there is an increase of \$4,500,000. Finally, there is a decrease of \$11,899,000 for annuitant health care payments for Public Health Service personnel.

The managers agree to the following:

1. The direction in the House report should be followed with respect to the distribution of the Indian Health Care Improvement Fund. The Service should report to the House and Senate Committees on Appropriations on the distribution on funds.

2. The increased funding proposed by the House for staffing and operations at the Lawton Hospital in Oklahoma will be phased in over two years. The \$1,500,000 increase provided in fiscal year 2003 should remain in the base budget for fiscal year 2004 and an additional \$1,500,000 should be added in 2004.

3. Unless specifically identified to the contrary, any increases above the fiscal year 2002 level for the direct operations activity shall be used by the Indian Health Service for inherently Federal functions.

4. Payments required as the Service's portion of Departmental initiatives should be included in the budget as uncontrollable funding increases and not applied as across-the-board health program reductions.

5. The Service should carefully review its use of funds under the self-governance activity.

6. Any Departmental efforts to consolidate functions or restructure or realign programs that affect the Indian Health Service must be approved through the reprogramming process by the

House and Senate Committees on Appropriations prior to implementation.

7. Within the fiscal year 2003 budget there is \$250,000 for the InPsych program at the University of Montana and \$250,000 for the InPsych program at the University of North Dakota, \$750,000 for the INMED program at the University of North Dakota, \$1,000,000 for the dental program run by First Nations Community Health Sources in cooperation with the Southwest Indian Polytechnic Institute in the Albuquerque, New Mexico area, and \$3,500,000 for the Telehealth Initiative in Alaska.

8. The direction in the Senate report with respect to the Mississippi Band of Choctaw Indians is no longer necessary.

The conference agreement provides a statutory earmark of \$18,000,000 for the catastrophic health emergency fund as proposed by the Senate instead of \$15,000,000 as proposed by the House. The statutory earmark for other contract health services is \$460,130,000 instead of \$468,130,000 as proposed by the House and \$450,130,000 as proposed by the Senate. The conference agreement also permits funds, provided to new tribes through the contract health services activity, to be used for direct medical services in addition to contract care. The Service began funding new tribes from the contract health services account several years ago and it was never the intent of the House and Senate Committees on Appropriations to limit new tribes funding to contract health care only.

The ceiling for the loan repayment program is \$25,000,000 instead of \$22,000,000 as proposed by both the House and the Senate. The managers expect that this increase will permit the service to increase the amount made available to recruit dentists, pharmacists, podiatrists, and other critical health professionals.

The conference agreement includes bill language that extends the availability of funds under the Special Diabetes Program for Indians so that these funds remain available until expended. The managers note that funding for this program was recently increased substantially and encourage the Service to use the additional funds to strengthen its national clinical data system so that data from programs may be tracked comprehensively and outcomes reported with confidence. While IHS has made strides over the past five years, there remains significant room for improvement. The Service should also use the additional diabetes funds for a competitive grant program that addresses the most compelling diabetes complications in American Indians and Alaska Natives and addresses primary prevention of diabetes in American Indians and Alaska Natives using the latest scientific findings on this subject. These competitively awarded projects should demonstrate new approaches to dealing with diabetes and related health complications. The managers also encourage the Service to expand participation in diabetes education and prevention for Native American youth through the Boys and Girls Clubs of America.

Finally, bill language is included that directs \$5,000,000, of the \$15,000,000 provided to the Alaska Federation of Natives for alcohol control, prevention, treatment, sobriety and wellness, be made available to the Alaska Native Tribal Health Consortium for sub-

stance abuse and behavioral health counselors through the Counselors in Every Village Program.

INDIAN HEALTH FACILITIES

The conference agreement provides \$376,190,000 for Indian health facilities instead of \$391,865,000 as proposed by the House and \$365,390,000 as proposed by the Senate. The changes to the House level include an increase of \$156,000 for facilities and environmental health support and decreases of \$2,500,000 for maintenance and improvement, \$156,000 for sanitation facilities, and \$1,000,000 for equipment. For hospital and clinic construction, there are increases of \$2,100,000 to complete the Pinon, AZ clinic and \$308,000 for the Metlakatla, AK clinic and decreases of \$4,000,000 for the Fort Defiance, AZ hospital, \$5,583,000 for the St. Paul, AK clinic, and \$5,000,000 for small ambulatory care facilities.

The managers agree to the following distribution of facilities construction funds (excluding sanitation facilities):

<i>Project</i>	<i>Conference agreement</i>
Fort Defiance, AZ (complete hospital)	\$16,400,000
Pinon, AZ (complete clinic)	16,000,000
Winnebago, NE (complete hospital)	8,241,000
Red Mesa, AZ (clinic construction)	7,653,000
Pawnee, OK (complete clinic)	12,633,000
Sisseton, SD (clinic construction)	3,000,000
St. Paul, AK (clinic construction)	5,584,000
Metlakatla, AK (clinic construction)	308,000
Clinton, OK (clinic design)	1,300,000
Bethel, AK quarters (complete)	5,000,000
Small ambulatory care facilities	5,000,000
Dental units	1,000,000
Total	<u>\$82,119,000</u>

The managers agree to the following:

1. The decrease to the House level for the Fort Defiance Hospital still provides sufficient funds to complete this project, which will be constructed for less than the previous estimate.

2. Any Departmental efforts to consolidate functions or restructure or realign programs that affect the Indian Health Service must be approved through the reprogramming process by the House and Senate Committees on Appropriations prior to implementation.

3. Fiscal year 2003 funding for the small ambulatory facilities program may be used to select projects from the rank order list generated from the fiscal year 2001 application process. A new request for proposals should be issued if funds are made available for this program in fiscal year 2004.

4. Savings from completed health care facilities construction projects may be used to continue high priority projects currently on the Service's health care facilities construction priority lists. In fiscal year 2003, \$5,000,000 should be made available for the Metlakatla, AK Clinic and \$3,000,000 should be made available for renovations at the Lawton, OK Hospital.

The conference agreement includes bill language proposed by the Senate prohibiting the use of funds for sanitation facilities construction associated with new homes funded through Department

of Housing and Urban Development grants. The House addressed this issue in report language. Bill language also is included permitting the Service to use up to \$1,000,000 to purchase ambulances as proposed by the Senate instead of up to \$500,000 as proposed by the House. The language has been modified to permit the use of either services funding or facilities funding for this purpose.

OTHER RELATED AGENCIES

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

The conference agreement provides \$14,491,000 for salaries and expenses of the Office of Navajo and Hopi Indian Relocation as proposed by both the House and the Senate.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

The conference agreement provides \$5,490,000 for payment to the institute instead of \$5,130,000 as proposed by both the House and the Senate.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

(INCLUDING RESCISSION)

The conference agreement provides \$449,105,000 for salaries and expenses at the Smithsonian Institution, instead of \$436,660,000 as proposed by the House and the Senate. This total includes a rescission of \$14,100,000 as proposed in the budget.

Changes to the House proposed funding level include increases of \$750,000 for the National Museum of American History's 9/11 initiative, \$11,000,000 for additional security improvements at the National Zoo and the Office of Protection Services, and \$945,000 to restore in full the general offsetting reduction of \$12,795,000 proposed in the budget request. The House had provided the bulk of these funds, \$11,850,000, in its initial recommendations. The Senate, in agreement with the Administration, had accepted the reduction in full. There is a decrease of \$250,000 for research activities at the Tropical Research Institute, which still provides an increase of \$500,000 above the budget request for those programs.

The managers are aware that there has been confusion in recent years regarding the Smithsonian Institution's eligibility to compete for grants at the National Science Foundation. This problem was recently identified as a significant issue in the National Academy of Public Administration's review of Smithsonian science programs released in October 2002. The Appropriations Committees are concerned that this confusion has persisted despite recent internal NSF policy directives clarifying that the Smithsonian is fully eligible to compete for National Science Foundation grants. The managers urge the Secretary of the Smithsonian to work with

the Director of the National Science Foundation to make sure that Smithsonian grant applications are welcomed by all programs at the Foundation and given fair consideration with all other applications based on the merits of the proposals.

REPAIR, RESTORATION AND ALTERATION OF FACILITIES

The conference agreement provides \$83,425,000 for repair, restoration and alteration of facilities instead of \$81,300,000 as proposed by the House and \$78,300,000 as proposed by the Senate. The changes are detailed below.

The managers have provided an additional \$2,125,000 for critical repairs at the National Zoological Park including \$500,000 to complete roof construction planning for the Elephant and Reptile Houses, \$625,000 for critical structural repairs at the Seal/Sea Lion area and \$1,000,000 for electrical repairs.

CONSTRUCTION

The conference agreement provides \$16,000,000 for construction as proposed by the Senate instead of \$10,000,000 as proposed by the House. This completes the Federal commitment to the National Museum of the American Indian.

ADMINISTRATIVE PROVISIONS, SMITHSONIAN INSTITUTION

The conference agreements includes language proposed by the Senate prohibiting the reprogramming of funds without prior approval of the Committees.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

The conference agreement provides \$77,219,000 for salaries and expenses of the National Gallery of Art as proposed by the Senate instead of \$78,219,000 as proposed by the House.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

The conference agreement provides \$16,230,000 for repair, restoration and renovation of buildings as proposed by both the House and the Senate.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

OPERATIONS AND MAINTENANCE

The conference agreement provides \$16,310,000 for operations and maintenance of the Kennedy Center as proposed by both the House and the Senate.

CONSTRUCTION

The conference agreement provides \$17,600,000 for construction as proposed by both the House and the Senate.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

The conference agreement provides \$8,488,000 for salaries and expenses of the Woodrow Wilson International Center for Scholars as proposed by both the House and the Senate. Funds should be distributed as follows:

Fellowship program	\$1,259,000
Scholar support	659,000
Public service	2,261,000
General administration	1,968,000
Smithsonian fee	208,000
Conference planning	1,968,000
Space	165,000
Total	<u>\$8,488,000</u>

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

The conference agreement includes \$116,489,000 for grants and administration of the National Endowment for the Arts as proposed by the Senate instead of \$99,489,000 as proposed by the House. The increase above the House level is due to merging the funding for the Challenge America Arts Fund into this account as proposed by the Senate. This merger will increase efficiency and management of this relatively new arts program. The managers agree to the House proposed funding levels for: direct grants, State partnerships, program support and administration. The conference agreement also includes, within the administrative provisions for the National Foundation, the bill language proposed by the House increasing efficiency for grants less than \$10,000.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

The conference agreement provides \$109,632,000 for grants and administration of the National Endowment of the Humanities as proposed by the Senate instead of \$114,932,000 as proposed by the House. In addition to funds provided in this account, further appropriations for the NEH are included in the matching grants category below.

MATCHING GRANTS

The conference agreement provides \$16,122,000 for matching grants as proposed by the House and the Senate.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

OFFICE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

The conference agreement moves the jurisdiction and funding for the Office of Museum Services to the Labor, Health and Human Services and Education and Related Agencies subcommittee as proposed by the Administration. This consolidates all funding for the Institute thereby increasing administrative efficiency.

CHALLENGE AMERICA ARTS FUND

CHALLENGE AMERICA GRANTS

The conference agreement has moved funding for Challenge America grants into the National Endowment for the Arts grants and administration account as proposed by the Senate. The funding level for this activity is \$17,000,000 as proposed by the Senate instead of \$27,000,000 proposed by the House.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

The conference agreement provides \$1,224,000 for salaries and expenses of the Commission of Fine Arts as proposed by the Senate instead of \$1,255,000 as proposed by the House.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

The conference agreement provides \$7,000,000 for national capital arts and cultural affairs as proposed by both the House and the Senate. The agreement also includes the bill language proposed by the House limiting funds for any studies or actions to alter or transfer this account to funding provided specifically to the Office of Management and Budget.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

The conference agreement provides \$3,667,000 for salaries and expenses of the Advisory Council on Historic Preservation as proposed by the House and the Senate.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$7,253,000 for salaries and expenses of the National Capital Planning Commission as proposed by the Senate instead of \$7,553,000 as proposed by the House.

UNITED STATES HOLOCAUST MEMORIAL MUSEUM

HOLOCAUST MEMORIAL MUSEUM

The conference agreement provides \$38,663,000 for the Holocaust Memorial Museum as proposed by the House and the Senate.

PRESIDIO TRUST

PRESIDIO TRUST FUND

The conference agreement provides \$21,327,000 for the Presidio Trust Fund as proposed by both the House and the Senate. The Senate receded to the House language directing the Presidio Trust to contract with the National Academy of Public Administration. The scope of work should focus on finance and business practices.

TITLE III—GENERAL PROVISIONS

The conference agreement includes sections 301 through 306, which were identical in both the House and the Senate bills.

The conference agreement includes the text of the following sections in the House bill, which contained identical text in the Senate bill, but had different section numbers in the Senate bill. The House section numbers were 307, 308, 309, 310, 311, 312, 313, 314, 317, 318, 320, and 328.

Section 314—The conference agreement includes language proposed in section 316 of the Senate bill prohibiting the use of funds for GSA telecommunications centers. This provision was carried last year.

Section 315—The conference agreement includes language proposed in section 310 of the Senate bill, allowing competition for watershed restoration projects through the “Jobs in the Woods” program.

Section 317—The conference agreement includes language proposed in section 315 of the House bill limiting the use of answering machines during core business hours. This provision was carried in previous years. The Senate had no similar provision.

Section 318—The conference agreement includes language proposed in section 319 of the Senate bill concerning the export of western redcedar from national forest system lands in Alaska rather than the similar House section 316.

Section 321—The conference agreement modifies language proposed in section 319 of the House bill, which clarifies how the Forest Service should conduct cooperative agreements.

Section 323—The conference agreement includes language modifying language proposed in House section 321 and language in Senate section 323 concerning stewardship contracting for the Forest Service. The bill language in the conference agreement is altered from the House version as follows: the Bureau of Land Management is now included in the program; the authority is extended a total of ten years; the program is no longer a demonstration effort with a cap on the number of projects; language clarifies that the program may include contracts where trees have commercial value; monitoring requirements are clarified at the programmatic level; and language clarifies that the Secretaries may designate one contracting officer to administer a contract or agreement.

Section 324—The conference agreement includes language proposed in section 322 of the House bill, which makes a technical correction to the Cabin User Fee Fairness Act of 2000.

Section 325—The conference agreement modifies language proposed in section 323 of the House bill, which extends the Forest Service conveyances pilot program and now also allows the Forest Service to include 3 conveyances where the receipts can be used to replace or modify facilities, upon Committee approval.

Section 326—The conference agreement includes language proposed in section 324 of the Senate bill providing for the use of GSA contract airfares by employees of foundations established by Acts of Congress to solicit funds on behalf of Federal land management agencies. The House had a similar provision in section 325 of the House bill.

Section 328—The conference agreement modifies language proposed in section 324 of the House bill regarding expiring grazing permits by the Bureau of Land Management and the Forest Service. The modification deals with permits expiring during 2003. The Senate had a similar provision.

Section 329—The conference agreement includes language proposed in section 326 of the House bill authorizing a demonstration program to recruit health professionals at the Eagle Butte service unit in South Dakota. The Senate had no similar provision.

Section 330—The conference agreement includes language proposed in section 327 of the House bill prohibiting the transfer of funds to other agencies other than provided in this Act. The Senate had no similar provision.

Section 331—The conference agreement includes language proposed in section 329 of the House bill, which continues a legislative provision prohibiting funds for oil or gas leasing or permitting within the Finger Lakes National Forest, NY.

The conference agreement does not retain language proposed in section 330 of the House bill regarding certain OCS leases in California. This issue is addressed in Title I, section 156.

Section 332—The conference agreement retains language proposed in section 331 of the House bill prohibiting funding to improve Pennsylvania Avenue in front of the White House without prior approval by the House and Senate Appropriations Committees.

Section 333—The conference agreement includes language proposed in section 327 of the Senate bill, which allows the Secretaries of the Interior and Agriculture to consider local contractors when awarding contracts for certain activities on public lands.

Section 334—The conference agreement includes language proposed in section 328 of the Senate bill increasing the cap on administrative expenses of the North Pacific Research Board. The House had no similar provision.

Section 335—The conference agreement retains language proposed in section 329 of the Senate bill limiting review of certain elements in the land management plan for the Tongass National Forest, AK.

Section 336—The conference agreement includes language proposed in section 330 of the Senate bill extending the authorization for assistance to the Four Corners Interpretive Center.

Section 337—The conference agreement retains language proposed in section 331 of the Senate bill amending the Alaska Native

Claims Settlement Act to allow native corporations to establish settlement trusts.

Section 338—The conference agreement includes language proposed in section 141 of the Senate bill, which extends the Quincy Library Group forestry project in California for five more years.

Section 339—The conference agreement modifies language proposed in section 145 (Title I) of the Senate bill extending the authorization for the Strategic Petroleum Reserve; requiring the filling of SPR to capacity as soon as practicable; and amending legislation dealing with the Northeast Home Heating Oil Reserve. The language in the conference agreement is limited to a five-year extension of the SPR authorization. The House had no similar provision.

Section 340—The conference agreement includes language requiring formal approval by the House and Senate Committees on Appropriations of all Declarations of Taking and Complaints in Condemnations with the exception of the South Florida Restoration Project.

Section 341—The conference agreement includes a new provision, which names the 6,294 acre Panthertown Valley Tract of the Nantahala National Forest, North Carolina, in honor of James and Elspeth McClure Clarke.

TITLE IV—T'UF SHUR BIEN PRESERVATION TRUST AREA

The conference agreement includes the T'uf Shur Bien Preservation Trust Area Act as proposed by the Senate.

The conference agreement does not include Title V—the Ottawa National Wildlife Refuge Complex Expansion and Detroit River International Wildlife Refuge Expansion Act as proposed by the Senate.

TITLE V—NATIONAL FOREST ORGANIZATIONAL CAMP FEE IMPROVEMENT ACT OF 2003

The conference agreement includes a new Title V—The National Forest Organizational Camp Fee Improvement Act of 2003.

The National Forest Organizational Camp Fee Improvement Act reforms and improves the fee schedules being paid to the Forest Service by non-profit recreational camps, which are operated by organizations such as the Girl Scouts and church groups. A new fee structure is needed so that these important uses of the public lands are encouraged and not excluded due to new appraisal methods. This new fee system allows camps to remain on national forest system lands while providing a fair and equitable return to the American taxpayer.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follow:

[In thousands of dollars]	
New budget (obligational) authority, fiscal year 2002	\$19,157,770
Budget estimates of new (obligational) authority, fiscal year 2003	18,938,078
House bill, fiscal year 2003	20,450,125
Senate bill, fiscal year 2003	18,973,625
Conference agreement, fiscal year 2003	19,078,125
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	- 79,645
Budget estimates of new (obligational) authority, fiscal year 2003	+140,047
House bill, fiscal year 2003	- 1,372,000
Senate bill, fiscal year 2003	+104,500

DIVISION G—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS 2003

In implementing this agreement, the Departments and agencies should follow the language and instructions set forth in the explanatory statement of the Managers in the Senate accompanying H.J. Res. 2 that appears in the Congressional Record of January 15, 2003. With respect to the provisions in the Senate explanatory statement that specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred have been endorsed in this joint statement.

In the cases where the Senate explanatory statement requests a report, the conferees are agreed that departments and agencies have up to 90 days beyond the due date specified in the Senate explanatory statement to submit the report.

The conferees are aware of several instances during the past year where the Departments funded in the Labor, Health and Human Services, Education and Related Agencies Appropriations Act have failed to consult with, or timely notify, the House and Senate Appropriations Committees about significant budgetary actions and the reorganization of departmental offices, programs, and activities. Moreover, some Departments have become too lax in responding to the requests for information or reports from the Committees. The conferees believe that timely, accurate and complete information is critical in order for the Appropriations Committees to meet their oversight responsibilities. The conferees fully expect that the Departments funded in this bill will be more responsive to the Committees in this regard.

Therefore, the conferees concur with language included in the explanatory statement of the Senate regarding reprogramming and the initiation of new programs. The conferees direct that the Departments and agencies funded through this Division make a written request to the chairmen of the Committees prior to the reprogramming of funds in excess of 10 percent, or \$500,000, whichever is less, between programs, activities, or elements unless an alternate amount for the agency in question is specified elsewhere in this Division of this statement. The conferees further agree that a

reprogramming request is required for actions involving less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if the action can be construed to be the initiation of a new program.

Second, the conferees reiterate that the Committees be notified regarding reorganization of offices, programs, or activities prior to the planned implementation of such reorganizations.

Third, the conferees request that each Department institute a tracking system for reports requested by the Committees in order to ensure their timely submission.

Finally, the conferees concur with language in the explanatory statement of the Senate that statements on the effect of this division of this appropriation Act be submitted to the Committees within 60 days of enactment of this Act.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2003, put in place by this resolution, incorporates the following agreements of the managers:

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

The conference agreement includes \$5,218,070,000 for training and employment services instead of \$5,138,513,000 as proposed by H.R. 246 and \$5,120,084,000 as proposed by the Senate. Of the amount appropriated, \$2,463,000,000 is an advance appropriation for fiscal year 2004, as proposed by H.R. 246 and the Senate.

The conference agreement includes \$1,000,965,000 for Youth Training, which is the Senate level. Funding for the Youth Opportunity Grants, \$44,500,000, provided within the total for this activity in H.R. 246, is provided separately in the conference agreement as proposed by the Senate. These grants are aimed at increasing the long-term employment of youth who live in empowerment zones, enterprise communities, and other high-poverty areas.

The conference agreement includes \$1,463,770,000 for the Dislocated Worker program instead of \$1,484,500,000 as proposed by H.R. 246 and \$1,383,040,000 as proposed by the Senate. The conferees override the formula that provides that 80 percent of the funds provided will be used for State formula grants and 20 percent for National Emergency Grants, providing \$1,157,162,000 for the States and \$306,608,000 for the National Reserve. Within the National Reserve, the conference agreement includes \$30,000,000 to fund National Emergency Grants authorized in the Trade Act of 2002 to support State administration of health insurance tax credits for eligible participants.

The conference agreement includes \$56,000,000 for Native Americans instead of \$55,000,000 as proposed by H.R. 246 and \$57,000,000 as proposed by the Senate.

The conference agreement includes \$77,836,000 for activities authorized under Section 167 of the Workforce Investment Act, reflected in two separate line items on the table accompanying the Conference Report: "Migrant and Seasonal Farmworkers" and "Na-

tional Activities/Other". Under the Migrant and Seasonal Farmworkers line item, the agreement provides \$77,326,000. The conference agreement includes bill language directing that \$4,640,000 of this amount be used for migrant and seasonal farmworker housing grants. This agreement also provides that the remaining amount be used for State service area grants, including funding grantees in those States impacted by formula reductions at no less than eighty-five percent of the comparable 1998 levels for such States. Within the National Activities/Other line item, the conference agreement includes \$510,000 to be used for Section 167 training, technical assistance and related activities, including continuing funding for migrant rest center activities at the current level.

The conference agreement includes \$1,518,550,000 for Job Corps. Within the total, \$1,391,000,000 is provided for continuing operations of the program and \$127,550,000 is for renovation and construction of Job Corps centers. The conferees are pleased with the prompt attention given by the Department to developing the selection process for new Job Corps centers. The conferees intend that the Department shall give priority to communities in major metropolitan areas that demonstrate strong linkages with local school systems, post-secondary education systems, employers, faith-based and community organizations and child care facilities. In an effort to maximize the U.S. taxpayer's investment in Federal programs, priority should also be given to sites that incorporate co-location models that may include Job Corps along with programs such as Head Start and State or local community colleges and vocational technical schools. Additionally, priority should be given to sites that have high numbers of at-risk youth and currently export the majority of their State's eligible students to Job Corps centers in other States and regions.

The conferees are aware of the controversy over the accuracy of financial reporting under the Workforce Investment Act, and intend to carefully monitor the spending situation, recognizing the vital role of the workforce system at a time of economic slowdown.

With respect to the projects listed below for pilots and demonstrations, the conferees encourage the Department to ensure that these projects are coordinated with local Workforce Investment Boards. The conferees also encourage the Department to ensure that project performance is adequately documented and evaluated. The conference agreement includes the following amounts for the following projects and activities:

ABCD Devorris Center for Business Development	\$250,000
Advanced Electronics Technology Education Project in Alabama to educate the workforce for the 21st century high tech economy	500,000
Alaska's People (Division of Cook Inlet Tribal Council) to train 245 Anchorage-area low-income Natives for construction, repair jobs, including gaining required certifications	100,000
Alcorn State University in Mississippi for training programs in support of the development of minority high-tech businesses	900,000
American Indian Science and Engineering Society for the Rural Computer Utilization Training Program	100,000
Automated Nursery Project in Mississippi	1,000,000
Bay Area Community Health Partnership in Green Bay, Wisconsin for nurse training programs	650,000
Bay Area Vidio Coalition, San Francisco, CA, to develop on-line, interactive training for low income individuals	300,000

Bethel Community Facility, Chicago Heights, IL, for development of job training initiative with at-risk, homeless population	125,000
Bishops Museum	400,000
Bismarck State College in Bismarck, North Dakota, to provide training and continuing education related to electric power plant technologies and operations	400,000
Center for Career and Employment Training, Bala Cynwyd, PA, to train urban, minority workers for entry-level management positions	200,000
Central Iowa Employment & Training Consortium for a resource center for disabled and disadvantaged individuals	800,000
Central PA Workforce Development Corporation	125,000
Chattanooga State Technical Community College, Tennessee, for Tennessee Valley Workforce Aging Management Program initiative	500,000
Chester County Department of Community Development/The Reinvestment Fund, PA	250,000
Chicago Southland Alliance, Chicago Heights, IL, to recruit and train health care professionals	250,000
City of Peoria, Illinois, for training to unemployed and underemployed individuals in biosciences workforce development	100,000
Clark County, NV for training programs designed to move youth into higher paying construction jobs	250,000
Clark State Community College, Springfield, Ohio, for Integrated Systems Technologists Maintenance Training Program	200,000
Cleveland State University, Cleveland, Ohio, for Ohio Center for the Advancement of Women in Public Service	100,000
Coastal Enterprises, Inc., Wiscasset, ME, for training low income rural populations	100,000
Collegiate Consortium for Workforce and Economic Development (formerly Shipyard College) Philadelphia, PA, for workforce development and training in the Philadelphia region	250,000
Community Economic Empowerment Corporation, Louisville, Kentucky for employment training programs	40,000
Community Empowerment Association, Inc., Pittsburgh, PA, for data bank development for jobs needed in the construction trade, health care, services and manufacturing industries	100,000
Community Loan Fund of Southwestern Pennsylvania, Pittsburgh, PA, to expand the "Family Wage Job Initiative," which will provide resources and create family wage jobs in nine Southwestern PA counties	200,000
Contra Costa Community College District, Walnut Creek, CA, for Regional Training Institute	275,000
Delta Center for Career and Workforce Education for workforce training for adults in the Mississippi Delta	1,000,000
Des Moines Area Community College to create a Career Technology Center	250,000
Essex County College, Newark, NJ, for the Technical Training Project	70,000
Everett Community College, Everett, WA, for the Radiology Technology Program	200,000
Family Service League of Suffolk County, Inc., Bay Shore, NY, for Work Plus	100,000
Federation of Southern Cooperatives, for education and training of low-income farmers and their families	500,000
First Alaskans Foundation in conjunction with Alaska Works program continuation to train Alaska Natives as petroleum industry workers	500,000
Flathead Valley Community College in Kalispell, Montana for the development of occupational and vocational programs	700,000
Goodwill Industries of Southeast Wisconsin for a job training program for disadvantaged adults in construction and other positions	100,000
Henderson Community College in Kentucky for adult educational and training programs	100,000
High Tech Training—Maui, Hawaii	300,000

Homies, Initiating New Communities, Los Angeles, CA, to replicate job training program for at-risk youth	100,000
Human Services Agency, County of Ventura, California, for a Skill Training Program for Welfare recipients	100,000
Institute for Advanced Learning and Research for curriculum development and equipment to help develop and innovative high tech workforce in Southside, Virginia	100,000
International Brotherhood of Electrical Workers L.U. 363 and Hudson Valley N.E.C.A. Regional Training Facility, Harriman, NY, for 21st Century training	100,000
Intertribal Bison Cooperative in Rapid City, SD to provide employment training	100,000
Kankakee Community College, Kankakee, Illinois, for Integrated Systems Technology Pilot program to train individuals to maintain high-tech industrial equipment found in manufacturing facilities	500,000
Kingston-Newburgh Enterprise Community, Newburgh, NY, to train at-risk youth and expand nurse mentoring program	400,000
Lehigh Valley Workforce Investment Board, Inc., for integrated regional training and employment curriculum for skilled workers to assist the manufacturing industry in the Lehigh Valley	100,000
Louisville Central Community Center, Inc., Louisville, Kentucky, for job readiness training and job placement program for adults who are underemployed	15,000
Maine Manufacturing Extension Partnership to provide training to the manufacturing workforce in the region	750,000
Martin Luther King, Jr., Business Empowerment Center, Worcester, MA, for job training for minority workers	100,000
Mat-Su School District Vocational training for youth in Mat-Su Valley	150,000
Maui Economic Development Board for the Rural Computer Utilization Training Program	300,000
MECA United Cerebral Palsy, Erie, PA, to establish a job training program for disabled persons	50,000
Michigan Technology Commercialization Cooperation, Dexter, Michigan, for the implementation of a program that facilitate the creation of new companies and jobs	500,000
Military Educational Training Enhancement Fund, Carville, Louisiana, for a job challenge program for at risk youth	300,000
Milwaukee Area Technical College to implement the new manufacturing skill standards and develop a companion assessment and certification system	250,000
Minot State University, Minot, North Dakota, for the Minot Job Corps Fellowship Training Program	400,000
Mississippi State University, for the Center for Advance Vehicular Systems to develop workforce training systems	950,000
Mott Community College, Flint, MI, for complementation of the Mott Workforce Development Institute for Manufacturing Simulation	830,000
Muhlenberg Resource Center, Muhlenberg College, Allentown, PA, for programs to overcome language barriers, improve workplace ethics and career development	100,000
National Student Partnerships, Washington, DC, for National Service Program training activities	400,000

Youth Opportunities in Retailing, Inc., to work in cooperation with schools and community organizations to teach sales and service skills to develop a future workforce.	200,000

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The conference agreement appropriates \$445,200,000 for Community Service Employment for Older Americans, instead of \$440,200,000 as proposed by H.R. 246 and the Senate.

PROGRAM ADMINISTRATION

The conference agreement appropriates \$175,652,000 for Program Administration, instead of \$172,061,000 as proposed by H.R. 246 and \$177,642,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

EMPLOYMENT STANDARDS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement appropriates \$383,607,000 for the Employment Standards Administration, Salaries and Expenses, instead of \$380,757,000 as proposed by H.R. 246 and \$385,457,000 as proposed by the Senate. The detailed table at the end of this joint

statement reflects the activity distribution agreed to by the conferees.

SPECIAL BENEFITS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$37,657,000 to be made available to the Secretary from the fair share entities to pay the costs of administration of the Federal Employees' Compensation Act instead of \$36,986,000 as proposed by H.R. 246. Within that total the conference agreement includes \$12,027,000 for medical bill review and periodic roll management as proposed by the Senate, instead of \$11,356,000 as proposed by H.R. 246.

BLACK LUNG DISABILITY TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$31,987,000 to be transferred to the Employment Standards Administration, \$22,952,000 to be transferred to Departmental Management Salaries and Expenses, and \$334,000 to be transferred to Departmental Management Office of the Inspector General as proposed by the Senate rather than \$34,151,000, \$24,033,000, and \$345,000, respectively, as proposed by H.R. 246.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$453,256,000 for the Occupational Safety and Health Administration instead of \$444,194,000 as proposed by H.R. 246 and \$462,314,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

Within the total, \$3,200,000 is to be used to extend funding for Institutional Competency training grants provided that the grantee has demonstrated satisfactory performance.

The conference agreement does not include the \$2,000,000 set-aside as proposed in the Senate bill pertaining to the re-issuance of an ergonomics standard.

The conferees understand that the Department has had a proposed reorganization of certain field offices in Maine under consideration for several months. However, the Department did not formally advise the Committees on Appropriations until February 10, 2003 regarding this proposal. The conferees do not consider this to be timely notification. Therefore, the conferees direct that the Department maintain the current organization of Maine field offices until the Congress has had sufficient time to review this proposal.

MINE SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$274,741,000 for the Mine Safety and Health Administration instead of \$254,323,000 as proposed by H.R. 246 and \$271,841,000 as proposed by the Senate.

The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

Within the total, the conference agreement includes \$2,000,000 to be available for mine rescue and recovery activities on a non-contingency basis as proposed by the Senate. The conference agreement also includes \$10,000,000 to be available until expended for digitizing mine maps and for developing technology related to such activities as proposed by the Senate.

The conferees agree with the Senate explanatory statement included in the Congressional Record of January 15, 2003 pertaining to the National Academy of Sciences report on coal waste impoundments, except that the due date for the required study is changed from March 15, 2003 to August 15, 2003.

The conferees have included \$3,000,000 for an award to the National Technology Transfer Center for a coal slurry impoundment pilot project in Southern West Virginia.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

The conference agreement includes \$495,454,000 for the Bureau of Labor Statistics rather than \$498,164,000 as provided by H.R. 246 and \$497,054,000 by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes language that changes the period of availability for Occupational Employment Statistics funding from a program year basis to a fiscal year basis as proposed by the Senate. Within the total for the Employment and Unemployment Statistics activity, \$5,000,000 is for the Mass Layoff Statistics program. Similar language was included in the Senate bill.

OFFICE OF DISABILITY EMPLOYMENT POLICY

SALARIES AND EXPENSES

The conference agreement includes \$47,465,000 for the Office of Disability Employment Policy instead of \$42,500,000 as proposed by H.R. 246 and \$47,015,000 as proposed by the Senate.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement includes \$390,379,000 for Departmental Management, Salaries and Expenses, instead of \$294,413,000 as proposed by H.R. 246 and \$396,623,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes \$33,893,000 for administration and management rather than \$32,670,000 as proposed by H.R. 246 and \$30,191,000 as proposed by the Senate. Funds provided above the budget request for this activity may be used for the Departmental management crosscut.

The conference agreement does not include the \$3,000,000 set-aside for the creation of an Office of Pension Participant Advocacy as proposed by the Senate.

The conference agreement includes \$148,015,000 for the Bureau of International Labor Affairs (ILAB), instead of \$54,574,000 as provided by H.R. 246. Within the total provided, \$82,000,000 is to assist developing countries with the elimination of child labor. Of this amount, \$45,000,000 is for the International Labor Organization's International Programme for the Elimination of Child Labor. In addition, \$37,000,000 is provided for bilateral assistance, made available through September 30, 2004, to improve access to basic education in international areas with a high rate of abusive and exploitative child labor. The conference agreement further includes \$20,000,000 for multilateral technical assistance and \$17,000,000 for bilateral technical assistance. These funds help developing countries implement core labor standards, strengthen the capacities of Ministries of Labor to enforce national labor laws, and protect internationally-recognized worker rights. The conference agreement includes \$5,000,000 for ILAB to build its own permanent capacity to monitor and report regularly and in-depth to the Congress on the extent to which foreign countries with trade and investment agreements with the United States respect internationally-recognized worker rights and effectively promote core labor standards. The conference agreement also includes \$10,000,000 for global workplace-based HIV/AIDS education and prevention programs and \$14,015,000 for Federal administration and other ILAB programs.

On June 18, 2002, the Department of Justice published final regulations regarding Executive Order 13166 pertaining to limited English proficiency. The conferees are concerned about the potential costs of implementation to the Department of Labor, State agencies, local workforce investment boards, and other grant recipients. Therefore, the Department should prepare a report by August 15, 2003 for the Committees on Appropriations which outlines implementation of the new policy guidance as interpreted by the Department including enforcement policies and costs to the Department and all affected entities, including State labor departments or agencies. In addition, the conferees request that the report also include what assistance the Department will offer to assist grant recipients in complying with the revised policy guidance.

VETERANS EMPLOYMENT AND TRAINING

The conference agreement appropriates \$214,212,000 for Veterans Employment and Training, instead of \$210,337,000 as proposed by H.R. 246 and \$218,087,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

GENERAL PROVISIONS

EXECUTIVE ORDER 13126

The conference agreement includes a provision proposed by the Senate that none of the funds appropriated in this Act shall be ob-

ligated or expended for the procurement of goods produced by forced or indentured child labor. H.R. 246 contained no similar provision.

DENALI COMMISSION

The conference agreement includes a provision proposed by the Senate that authorizes to be appropriated such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed. H.R. 246 contained no similar provision.

SOCIAL SECURITY DIVIDED RETIREMENT SYSTEM

The conference agreement does not include a provision proposed by the Senate to extend the Social Security divided retirement system authority to the State of Kentucky. H.R. 246 did not contain this provision.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The conference agreement includes \$6,497,630,000 for health resources and services, of which \$6,472,630,000 is provided as budget authority and \$25,000,000 is made available from the Public Health Service policy evaluation set-aside, instead of \$5,885,497,000 as proposed by H.R. 246 and \$6,280,681,000 as proposed by the Senate.

The conference agreement includes bill language identifying \$40,000,000 for the rural hospital flexibility grants program instead of the \$30,000,000 in H.R. 246 and \$45,000,000 in the Senate bill. Within the total provided, \$15,000,000 is for the Small Rural Hospital Improvement Grant program.

The conference agreement includes bill language identifying \$298,153,000 for the construction and renovation of health care and other facilities, including the purchase of equipment. The Senate and H.R. 246 contained no similar provision. These funds are to be used for the following projects:

A.O. Fox Memorial Hospital, Oneonta, New York	\$500,000
Access to Care Initiative, Luray, Virginia	400,000
Achievement Centers for Children, Cuyahoga County, Ohio	500,000
Adolescent Residential Center for Help (ARCH) in Anchorage, AK	1,500,000
Advocates for a Healthy Community, Missouri	150,000
Aging and Health Services Center	200,000
Alderson-Broaddus College in West Virginia	500,000

Main Line Health—Jefferson Health System, PA	500,000
Nazareth Hospital, Philadelphia, PA	250,000
Philadelphia College of Osteopathic Medicine, Philadelphia, PA	200,000

The conference agreement includes bill language to limit the amount available for Federal tort claims within community health centers funding to not more than \$40,000,000 instead of \$25,000,000 proposed by H.R. 246 and \$50,000,000 as proposed by the Senate.

The conference agreement includes bill language identifying \$275,138,000 for family planning instead of \$265,275,000 as proposed by H.R. 246 and \$285,000,000 as proposed by the Senate.

The conference agreement includes \$1,514,651,000 for community health centers instead of \$1,533,570,000 as proposed by the Senate and \$1,457,864,000 as proposed by H.R. 246. The conferees concur with language contained in the Senate explanatory statement that not less than \$9,000,000 be provided for Native Hawaiian health care activities.

The conferees have provided an increase above the request for community health centers in order to continue the initiative to add health center sites and expand services while also allowing increased grant support to existing centers for economic stabilization and to offset the rising cost of current services. While many health centers may be very efficient providers of services, they are not immune from the cost increases faced by all health care providers. Further, health centers are facing additional cost pressures as a result of the rising number of people without health insurance. For these reasons, the conferees expect HRSA to use a portion of the increased funding to increase basic support for existing health centers based on performance-related criteria, in addition to site and service expansion applications.

The conferees direct HRSA to provide a report to the House and Senate Committees on Appropriations no later than September 30, 2003 regarding the methodology used in distributing fiscal year 2003 health center appropriations and the methodology intended to be used in fiscal year 2004, including the actual and intended divi-

sion of funds among new or expanded sites, service expansions, and adjustments to help cover the increased cost of ongoing services, as well as the formula or other methodology used in allocating the portion intended to help cover increased costs.

The conference agreement includes \$46,249,000 for the national health service corps field placements instead of \$46,000,000 as proposed by H.R. 246 and \$46,498,000 as proposed by the Senate. The conferees support the Student Resident Experiences and Rotations in Community Health (SEARCH) program within the national health service corps and intend that HRSA continue this program in fiscal year 2003.

The conference agreement includes \$125,959,000 for national health service corps recruitment instead of \$109,000,000 as proposed by H.R. 246 and \$142,918,000 as proposed by the Senate. The conferees intend that \$3,000,000 of this amount be designated for the chiropractic program authorized under section 338L of the Public Health Service Act.

The conference agreement includes \$423,961,000 for health professions instead of \$392,582,000 as proposed by H.R. 246 and \$424,066,000 as proposed by the Senate.

The conferees intend that the graduate psychology education program be continued within the funds provided for allied health and other disciplines, and that a geropsychology graduate training program be established within allied health.

The conferees provide \$28,000,000 for geriatrics education. Within the total provided, \$16,800,000 is directed to geriatric education centers, \$6,500,000 is designated for geriatric training programs, and \$4,700,000 is directed to geriatric academic career awards.

The conferees agree with the Senate explanatory statement directing HRSA to fund training components of chiropractic demonstration grants.

Within the funding for health professions training, the conference agreement provides \$113,502,000 for nurse training programs instead of \$98,502,000 proposed by H.R. 246 and \$118,502,000 proposed by the Senate. The conferees have appropriated funding to establish programs authorized under the Nurse Reinvestment Act (P.L. 107-205), renamed existing line items to reflect these new authorities, and added new line items to fund these programs. The conferees have relabeled "Basic Nurse Education and Practice" the "Nurse Education, Practice, and Retention Grants" and relabeled the "Loan Repayment Program" the "Loan Repayment and Scholarship Program" to reflect the additional authorities provided under Sections 831 and 846, respectively, of the Public Health Service Act as modified by P.L. 107-205. In using the increase in funding provided above the fiscal year 2002 level, the conferees expect HRSA to give preference in funding to internship and residency programs (Sec. 831(a)(2)), career ladder programs (Sec. 831(c)(1)), and enhancing patient care delivery systems (Sec. 831(c)(2)) as required under Sec. 831(e) of the PHSA. The conferees have provided funding for scholarships (Sec. 846 (d)) for nursing students in exchange for service as a nurse for at least two years at a health care facility with a critical shortage of nurses. The conferees have also appropriated funding to establish the

Nurse Faculty Loan Program and Comprehensive Geriatric Education, Sections 846A and 855 of the PHSA. The Nurse Faculty Loan Program will help increase the number of faculty at schools of nursing. Comprehensive Geriatric Education will train and educate individuals in providing geriatric care for the elderly. The conferees intend that nurse loan repayment funding should be directed to high priority urban and rural areas with severe nursing shortages.

The conference agreement does not include funding within HRSA for the Healthy Communities initiative. H.R. 246 proposed \$10,000,000 for the program and the Senate proposed \$20,000,000. Additional funds have been provided to the Centers for Disease Control and Prevention for this purpose.

The conference agreement includes \$734,741,000 for the maternal and child health block grant instead of \$726,931,000 as proposed by H.R. 246 and \$741,531,000 as proposed by the Senate.

The conference agreement includes bill language designating \$115,900,000 of the funds provided for the block grant for special projects of regional and national significance (SPRANS). Neither H.R. 246 nor the Senate bill earmarked funds for this purpose. It is intended that \$4,000,000 of the SPRANS amount will be used to continue the sickle cell newborn screening program and its locally based outreach and counseling efforts. In addition, \$5,000,000 of the SPRANS amount will be used for oral health demonstration programs and activities in the States as described in the Senate explanatory statement, \$500,000 will be used for the city of Milwaukee Health Department for a pilot program providing health services to at-risk children in day care, and \$10,000 will be used for the Dane County Neighborhood Child Health Clinic in Madison, Wisconsin to provide child dental services.

The conference agreement includes bill language identifying \$55,000,000 for abstinence education instead of \$60,000,000 as proposed by H.R. 246 and \$40,000,000 as proposed by the Senate.

The conferees note that abstinence messages to a group of youth by a grantee should not be diluted by any instructor or materials from the same grantee. Adolescents should not be discouraged from seeking health information or services. HHS should not preclude entities who are teaching abstinence-only classes and who have a public health mandate from discussing other forms of sexual conduct or providing services, as long as this is conducted in a different setting from the abstinence-only course. In allocating grant funds, HRSA should give priority to those organizations that have a strong record of support of abstinence education as defined in sections (a) through (h) of Title 5, section 510(b)(2) of the Social Security Act.

The conference agreement includes \$98,989,000 for healthy start as proposed by the Senate instead of \$94,811,000 as proposed by H.R. 246.

The conferees recognize the life-saving success of the National Marrow Donor Program. In light of the new nuclear and chemical threats facing the country, the conferees encourage the National Marrow Donor Program to increase its public health preparedness efforts by developing and maintaining a national emergency response plan to ensure an adequate supply of needed marrow and

blood stem cells. The conferees also support the National Marrow Donor Program's efforts to expand the sources of blood stem cells through its work on a cord blood bank initiative. The conferees encourage the NMDP to focus on the following areas: (1) recruitment of donors, with an emphasis on minority donors; (2) enhancement of cord blood banks through increased recruitment efforts, research, and other cord blood bank support; and (3) expansion of the NMDP's role in research related to improving outcomes of patients who receive bone marrow transplants.

The conference agreement includes \$58,500,000 for rural health outreach grants instead of \$38,385,000 as proposed by H.R. 246 and \$51,472,000 as proposed by the Senate. The conference agreement includes the following amounts for the following projects and activities in fiscal year 2003:

Aberdeen Area Tribal Chairman's Health Board in Aberdeen, SD, to support the Northern Plains Healthy Start Project	\$750,000
Alaska Department of Health and Social Services Program to Reduce High Anemia rate in children in the Yukon Kuskokwim Delta and the Bristol Bay region	400,000
Alaska Family Practice Residency Program to support additional medical residents in Alaska to provide services for underserved populations	500,000
Bannock County Regional Medical Center, Pocatello, Idaho, to purchase Mammography Unit and provide mobile mammography screening to the rural areas of Southeast Idaho	400,000
Center for Acadiana Genetics and Hereditary Health Care for continue and expand the development of the center	550,000
College of Saint Mary for education, recruitment and retention of nurses in rural communities	250,000
Commun-I-Care in Columbia, SC to support a program that distributes prescription drugs to low income, uninsured South Carolinians	300,000
Community Health Works in Forsyth Georgia, to expand services and information technology systems	50,000
Cooperative Education Service Agency No. 11 in Turtle Lake, Wisconsin for a dental program	750,000
Delta Health Alliance in Mississippi for a multi-university partnership to address delta health problems	1,200,000
Eastern Maine Healthcare, Rural Maine Health Improvement Demonstration Program to address the inconsistencies in the current rural health care delivery system	250,000
Eastern Oregon University Rural Frontier Delivery Healthcare Education Program for innovative nurse training	250,000
Ellen Stephen Hospice in Kyle, South Dakota to provide healthcare services to people in rural areas of South Dakota	100,000
Full Circle Women's Health in Madison, Florida, for a project to improve pregnancy care	95,000
Georgia Southern University, Statesboro, Georgia, for rural healthcare delivery services and nurse training/education and distance learning for students and healthcare professionals	300,000
Good Samaritan Regional Medical Center, Pottsville, PA, to establish the Schuylkill County Rural Health Consortium	250,000
Grace Medical Clinic in Mayfield, Kentucky for wellness programs	100,000
Harrison Community Hospital, Cadiz, Ohio, for on-going delivery of healthcare to rural economically distressed women, children and men	125,000
Idaho Children's Health Initiative	500,000
Marquette University to provide dental care to underserved communities through mobile dental clinics	350,000
Marshall University for the West Virginia Children's Health Project	500,000
Menominee Indian Tribe of Wisconsin, Keshena, Wisconsin to provide critical prenatal care to pregnant women	80,000

Mercy Housing, Inc. in Denver, Colorado to provide health care in coordination with affordable housing for low income families, seniors, and individuals with disabilities	300,000
Millinocket Regional Hospital in Millinocket, Maine, for a project to provide health care for the uninsured and underinsured population of eastern Maine	900,000
New Mexico-Hawaii telehealth project in remote and rural areas—Telehealth Outreach for Unified Community Health (TOUCH)	1,000,000
Ohio University in Athens, Ohio, for its Appalachian Rural Health Institute	500,000
Oregon Center for Nursing for innovative nurse training	235,000
Our Lady of Bellefonte Hospital Foundation in Ashland, Kentucky for its community wellness mobile clinic	350,000
Phoenix Children's Health Project in Arizona to address the health needs of extremely vulnerable homeless and runaway youth in underserved rural and urban areas	350,000
Pittsburgh Mercy Health System, Pittsburgh, PA, for health outreach and education	200,000
Porcupine Clinic in Porcupine, SD to provide healthcare services to people in rural areas of South Dakota	250,000
Progressive Family Services Health Center in Canton, Mississippi	100,000
Sioux City Community Health Center, Iowa, to establish a mobile health clinic	300,000
Smith Township Volunteer Fire Department, Jacobsburg, Ohio, for all purpose emergency response vehicle and rescue trailer for use in providing emergency medical services in inaccessible rural areas	15,000
St. Luke's Free Clinic in Kentucky to improve health care access for underserved populations	200,000
The Children's Health Fund, New York, New York, to improve access to health care for many of Pennsylvania's underserved children	165,000
University of Alabama at Birmingham Oral Health Initiative	300,000
University of Alabama Capstone Nursing School to improve the quality of primary care in rural Alabama	150,000
University of Alaska Fairbanks Development of Research and Evaluation agenda for health care delivery	850,000
University of Alaska-Anchorage to recruit and retain Alaska Natives as nurses	500,000
University of North Carolina at Wilmington School of Nursing, for its Bolton, North Carolina, primary health care facility	400,000
University of North Dakota School of Medicine to support its rural health program in preventative medicine and behavioral sciences	1,100,000
University of Pennsylvania School of Dental Medicine, Philadelphia, PA, for its minority outreach oral health initiative	200,000
University of Southern Mississippi Center for Sustainable Health Outreach	500,000
University of Washington, School of Medicine, Seattle, Washington, for WWAMI Demonstration/Assistance Rural Training project	500,000
Wagner-Lake Andes Ambulance District in Wagner, SD, to provide emergency health services to people in rural areas of South Dakota	100,000
Waimanalo Community Health Center American Samoan outreach	200,000
Washington Health Foundation, Seattle, Washington, for a Rural Hospital Quality Network project	100,000
Weber State University in Utah to prepare nurses for providing care in rural settings	500,000
West Virginia University Center for Rural Emergency Medicine for the Injury Control Training and Demonstration Center	1,200,000
Western Kentucky University's Mobile Health Screening Program	400,000
U.S. and Developing Country Medical Centers Program for the linking of U.S. academic medical centers with developing country medical centers to facilitate mutual capacity building through the exchange of clinicians between the two institutions so that care providers in the developing world can learn, first hand, from those in the U.S. who are most experienced in AIDS care	200,000

The conferees continue to be concerned about the health care needs of those in the Mississippi River Delta region. The conferees provide \$6,800,000 for rural health outreach to continue the ongoing initiative in eight States. These grants provide funding and technical assistance to help underserved rural communities identify and better address their health care needs and to help small rural hospitals improve their financial and operational performance. The conferees further recommend that HRSA consult with the Delta Regional Authority and the Delta Health Alliance, given their ongoing relationships with communities in the Delta.

The conference agreement provides \$10,700,000 for rural health research instead of \$16,808,000 as proposed by the Senate and \$9,190,000 as proposed by H.R. 246.

The conferees include the following amounts for the following projects and activities in fiscal year 2003:

Mercer University Health Sciences Center in Macon, Georgia for a rural health care task force	\$50,000
University of North Dakota School of Medicine and Health Sciences in Grand Forks, North Dakota for its rural health program in preventative medicine and behavioral sciences	350,000
University of Pittsburgh Bradford Center for Rural Health, Bradford, Pennsylvania	300,000

The conference agreement includes \$27,062,000 for telehealth instead of \$4,000,000 as proposed by H.R. 246 and \$39,192,000 as proposed by the Senate.

The conferees include the following amounts for the following projects and activities in fiscal year 2003:

Advanced Technology Institute, North Charleston, South Carolina, Telehealth Deployment Center	\$416,000
Alaska Federal Health Care Access Network Telemedicine Project	100,000
Banner Health System Telemedicine Program for equipment and infrastructure for telemedicine program to help provide care to rural and underserved areas in Arizona, Colorado, and Alaska	250,000
Baycare Health Systems, Clearwater, Florida, for a Medical Information Systems Initiative	1,000,000
Beaufort-Jasper-Hampton Comprehensive Health Services for a telehealth program to investigate techniques to prevent prostate cancer	700,000
Burlington Community Health Care in Burlington, Vermont for new technology infrastructure to reduce medical errors	500,000
CareOregon, Oregon Community Health Information Network, for the implementation of Electronic Medical Record software for safety net and community clinics	75,000
Case Western Reserve University, Cleveland, Ohio, for a Netwellness program	750,000
Children's Hospital and Regional Medical Center, Seattle, for implementation of the Children's Health Access Regional Telemedicine Network	500,000
Cook Children's Medical Center in Fort Worth, Texas for a rural specialty health telemedicine initiative	500,000
Foundation for eHealth Initiative, Washington, DC, for demonstration on electronic medical data interchange and sharing to support improve regional healthcare delivery	4,000,000
Geisinger Health System, Harrisburg, PA, for the Rural PA Stroke Care Partnership	1,630,000
Idaho State University for expansion of the telehealth integrated care center	1,500,000
Iowa Telecare Consortium to develop a disease management demonstration project in Iowa	600,000
James Whitcomb Riley Hospital for Children Telemedicine Program, Indianapolis, Indiana	500,000

La Crosse Medical Health Science Consortium in Racine, Wisconsin to establish virtual health centers in eight counties	350,000
Lake Charles Memorial Hospital, Lake Charles, Louisiana, Community Hospital Telehealth Consortium	450,000
Massachusetts College of Pharmacy and Health Sciences for telehealth programs at its Worcester campus Health and Education Resource Center	450,000
Midwest Rural Telemedicine Consortium, Mason City, Iowa	700,000
Minot State University in West Minot, North Dakota for a project using telehealth technologies for hearing assessment and hearing loss rehabilitation	150,000
Montefiore Medical Center, Bronx, New York, and the Children's Hospital at Montefiore's Clinical Information System to complete a Clinical Information System	200,000
New York-Presbyterian Hospital in New York City for its Community Hospital of the 21st Century medical informatics technology demonstration project	500,000
North Dakota State University College of Pharmacy in Fargo, North Dakota to field test telepharmacy technology in several rural pharmacy locations	600,000
North Idaho Rural Telehealth Program	650,000
Northwest Area Center for Studies on Aging in Billings, Montana	750,000
Oklahoma State Department of Health, Oklahoma City, Oklahoma, for a Mississippi-Oklahoma Rural Telemedicine Initiative	500,000
Pennsylvania Homecare Association in conjunction with the Pennsylvania State University for telehomecare, PA	250,000
Primary Care Association of Hawaii Telehealth and Outreach	400,000
South Alabama Telemedicine Project to create enhanced connectivity between rural emergency departments and the University of South Alabama Medical Center	300,000
St. Elizabeth Hospital Community Foundation in Appleton, Wisconsin for telemedicine equipment to provide medical care to underserved patients in northeastern Wisconsin	100,000
St. Vincent Healthcare in Billings, Montana to expand the regional video telecommunications network for healthcare providers	700,000
Susquehanna Health System, Williamsport, PA for Electronic Medical Information and Physician Access	500,000
University at Buffalo and State University of New York, Buffalo, Erie County, New York, for Buffalo Center of Excellence in Bioinformatics	1,000,000
University of Colorado Health Sciences Center, Denver, Colorado, for American Telehealth Center to expand curricular content, in terms of healthcare workforce-related topics, personnel and equipment	666,000
University of South Alabama Office of Emerging Technologies in Mobile, Alabama for home based telehealth disease management tools and telemedicine applications	200,000
University of Texas Medical Branch in Galveston, Texas for its telehealth resource center	500,000
Visiting Nurse Association of Houston in Houston, Texas for study of clinical outcomes and health care costs among congestive heart failure patients who are monitored through home telemonitoring	125,000

The conference agreement provides \$8,500,000 for State offices of rural health instead of \$10,000,000 as proposed by the Senate and \$4,000,000 as proposed by H.R. 246.

The conference agreement includes \$27,500,000 for the Denali Commission instead of \$30,000,000 as proposed by the Senate. H.R. 246 contained no similar provision. The conferees reinforce language in the Senate explanatory statement indicating that the Denali Commission should allocate funds to a mix of service facilities.

The conference agreement includes \$19,500,000 for emergency medical services for children instead of \$18,000,000 as proposed by H.R. 246 and \$20,000,000 as proposed by the Senate.

The conference agreement includes \$22,500,000 for poison control instead of \$20,000,000 as proposed by H.R. 246 and \$24,000,000 as proposed by the Senate.

The conference agreement includes \$9,500,000 for traumatic brain injury instead of \$10,000,000 as proposed by H.R. 246 and \$9,000,000 as proposed by the Senate.

The conference agreement includes \$3,499,000 for trauma care instead of \$5,000,000 as proposed by the Senate. H.R. 246 contained no similar provision.

The conference agreement includes a total of \$2,031,005,000 for Ryan White programs, of which \$25,000,000 is provided through the evaluation set-aside, instead of \$1,930,204,000 as proposed by H.R. 246 and \$2,051,295,000 as proposed by the Senate. Included in this amount is \$622,741,000 for emergency assistance, \$1,060,285,000 for comprehensive care, \$199,672,000 for early intervention, \$74,032,000 for women, infants, children, and youth, \$13,493,000 for dental services, and \$35,782,000 for education and training centers.

The conference agreement includes bill language identifying \$719,000,000 for the Ryan White Title II State AIDS drug assistance programs instead of \$659,000,000 as proposed by H.R. 246 and \$739,000,000 as proposed by the Senate. The conference agreement also includes bill language making available \$25,000,000 under section 241 of the Public Health Service Act to carry out Ryan White Special Projects of National Significance as proposed by the Senate. H.R. 246 had no similar provision.

The conferees intend that at least 90 percent of total title IV funding be provided to grantees. With the exception of funds provided through the Minority HIV/AIDS Initiative, the conferees expect the funding increase to be used primarily to support maintenance of existing care services because of the rising costs of providing comprehensive care and the implementation of quality management programs. The conferees intend that HRSA use a significant portion of the remaining funds to expand comprehensive services for youth. The conferees are pleased by current efforts to facilitate ongoing communication with and among grantees about the administration of title IV programs and expect the agency to expand these efforts. The conferees request the agency to work with grantees to develop effective title IV-specific site visit methodologies.

Some 5 percent of the funds appropriated under this section may be used to provide peer-based technical assistance. Within this amount, sufficient funds are available to maintain and expand work being done to create a national consumer and provider education center on the use of various strategies in the care of children, youth, women and families infected with or affected by HIV and AIDS.

Within the total provided, \$131,200,000 is for Ryan White AIDS activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The conferees expect HRSA to follow the fiscal year 2002 House report regarding the disbursement of these funds.

Consistent with this overall direction, these funds are allocated as follows:

Emergency assistance—Within the total provided, \$43,800,000 is for competitive, supplemental grants to improve the HIV-related health outcomes for communities of color and reduce existing health disparities.

Comprehensive care programs—Within the total provided, \$7,000,000 is for State HIV care grants to support educational and outreach services to increase the number of eligible minorities who access HIV/AIDS treatment through AIDS Drug Assistance Programs (ADAP).

Early intervention program—Within the total provided, \$53,400,000 is for planning grants and Early Intervention Service (EIS) grants to health care providers with history of serving communities of color.

Pediatric demonstrations—Within the total provided, \$18,500,000 is to sustain and expand efforts to deliver comprehensive, culturally competent and linguistically appropriate research-based intervention and HIV care services to minority women, infants, and children.

Education and training centers—Within the total provided, \$8,500,000 is to increase the training capacity of centers to expand the number of community-based minority health care professionals with treatment expertise and knowledge about the most appropriate standards of HIV/AIDS-related treatments and medical care for HIV infected adults, adolescents and children.

The conference agreement provides \$292,000,000 for children's hospitals graduate medical education as proposed by H.R. 246 instead of \$285,000,000 as proposed by the Senate.

The conference agreement includes \$120,000,000 for the community access program as proposed by H.R. 246 instead of \$120,027,000 as proposed by the Senate. Within the total provided, \$105,000,000 is for grants to develop and expand integrated systems of care and address service gaps within such integrated systems. The conferees intend to permit these funds to be available both for new Healthy Communities Access Program grants under the new section 340 of the Public Health Service Act, as well as renewal (to the extent appropriate based on programmatic considerations) of grants initially made during fiscal years 2000 through 2002 under section 301 demonstration authority and guidance contained in previous appropriations conference reports. Within the total provided, the remaining \$15,000,000 is to continue the initiative to assist States to identify the characteristics of the uninsured within the State and develop approaches for providing all uninsured persons with health coverage. The conferees intend these funds to be available to provide additional grants to States that have previously received planning grants in order to assist such States in continuing their data gathering, analysis and planning processes, as well as to provide initial grants to additional States as appropriate.

The conference agreement includes \$156,562,000 for program management instead of \$149,294,000 as proposed by H.R. 246 and \$143,354,000 as proposed by the Senate. The conferees expect

HRSA to use no more than one percent of the funds allocated for projects for agency administrative expenses.

The conferees are concerned that planned efforts to restructure HRSA programs and grants management functions could have a negative effect on many HRSA grantees. The centralization of grant decision-making, coupled with the changing roles of staff in HRSA's field offices, could significantly diminish the institutional knowledge and expertise in community-based health care that is crucial to leading HRSA forward during this important period. Further, contemplated changes in the role of a project officer to reduce technical assistance functions in favor of increased focus on grantee performance reviews may serve to undermine the development and functioning of HRSA funded programs and is of great concern to the conferees. The conferees recommend that these changes not be undertaken until they can work with all stakeholders, including Congress, to show that they will not reduce the level and scope of assistance provided to grantees.

The conferees include the following amounts for the following projects and activities in fiscal year 2003:

Catholic Social Services, The Bridge, Wilkes Barre, PA, for abstinence education and related services	\$46,000
CentraCare Health Foundation for administration, St. Cloud, Minnesota, to increase the ability of educational institutions to produce nurses in a region with high demand	500,000
Chester County Health Department, Chester County Government Services Center, West Chester, for abstinence education and related services	41,000
City of Chester, Bureau of Health, SABER Project, Chester, PA, for abstinence education and related services	105,000
George Washington Carver Community Center, Project A.C.E., Norristown, PA, for abstinence education and related services	86,000
Heart Beat, New Bloomfield, PA, for abstinence education and related services	51,000
Keystone Central School District, Central Mountain Middle School East, Lock Haven, PA, for abstinence education and related services	79,000
Keystone Economic Development Corporation, Johnstown, PA, for abstinence education and related services	88,000
L.V.C.P.T.P., St Luke's Health Network, CHOICE program, Bethlehem, PA, for abstinence education and related services	92,000
Lackawanna Trail School District, Factoryville, PA, for abstinence education and related services	74,000
LaSalle University, Philadelphia PA, for abstinence education and related services	112,000
Mercy Hospital of Pittsburgh, Pittsburgh, PA, for abstinence education and related services	111,000
Neighborhood United Against Drugs, Philadelphia, PA, for abstinence education and related services	136,000
New Brighton School District, New Brighton, PA, for abstinence education and related services	23,000
Northeastern Ohio Universities College of Medicine, Rootstown, Ohio, for the Center for Leadership in Public Health and Community Medicine	1,250,000
Nueva Esperanza, Philadelphia, PA, for abstinence education and related services	72,000
Partners in Family and Community Development, Athens, PA, for abstinence education and related services	72,000
Potter County Human Services, Roulette, PA, for abstinence education and related services	50,000
Rape and Victim Assistance Center of Schuylkill County, Pottsville, PA, for abstinence education and related services	71,000

Real Commitment, Gettysburg, PA, for abstinence education and related services	82,000
School District of Lancaster, Project IMPACT, Lancaster, PA, for abstinence education and related services	101,000
School District of Philadelphia, Philadelphia, PA, for abstinence education and related services	102,000
Silver Ring Thing Program, Sewickley, Pennsylvania, for expansion of a program promoting abstinence	700,000
The Guidance Center, project RAPPORT, Smethport, PA, for abstinence education and related services	74,000
To Our Children's Future With Health, Inc., Philadelphia, PA, for abstinence education and related services	109,000
Tressler Lutheran Services, Harrisburg, PA, for abstinence education and related services	136,000
Tuscarora Intermediate Unit, Mcvetytown, PA, for abstinence education and related services	84,000
University of Akron, Ohio, for a nursing study	500,000
University of Florida, Gainesville, Florida, for Consortium to Promote Nursing Faculty	1,000,000
University of Louisville Research Foundation, Kentucky, to establish a Center for Cancer Nursing Education and Research	300,000
Urban Family Council, Philadelphia, PA, for abstinence education and related services	126,000
Venago County Area Vo-Tech, Oil City, PA, for abstinence education and related services	41,000
Washington Hospital Teen Outreach, Academy for Adolescent Health, Washington, PA, for abstinence education and related services	136,000
William Beaumont Hospital, Royal Oak, Michigan, for the Beaumont Nurse Anesthesia Education Rural Initiative	300,000
Women's Care Center of Erie County, Inc., Abstinence Advantage Program, Erie, PA, for abstinence education and related services	136,000
York County, Human Life Services, Inc. York, PA, for abstinence education and related services	50,000
Community Ministries of the Lutheran Home at Topton, Reading, PA, for abstinence education and related services	95,000
Clarke College in Dubuque, IA, for the planning of a community health center	50,000
Clinical Pharmacy Training Program at University of Hawaii at Hilo	700,000
Family Voices of Iowa in the ASK Resource Center, Des Moines, IA, to continue and expand the Family to Family Health Information Center	100,000
Iowa Dept of Public Health to continue the Center for Healthcare Workforce Shortages	1,000,000
National Healthy Start Association, Baltimore, Maryland, to gather and disseminate information on best practices under the Healthy Start program and provide technical assistance to Healthy Start grantees	350,000
Tulsa Coalition for Children's Health in Tulsa, Oklahoma for a study regarding delivery of pediatric health care in northeastern Oklahoma	125,000
Waianae Coast Community Health Center leadership training	50,000

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The conference agreement includes \$4,506,965,000 for disease control, research, and training at the Centers for Disease Control and Prevention (CDC), of which \$4,296,566,000 is provided as budget authority and \$210,399,000 is made available under Section 241 of the Public Health Service Act, instead of \$4,402,249,000 as provided by the Senate. H.R. 246 included \$4,335,839,000 for the CDC.

The conference agreement includes bill language to earmark \$268,000,000 for equipment, construction, and renovation of facilities instead of \$270,000,000 as proposed by the Senate. H.R. 246 included \$200,000,000. Within this total, \$250,000,000 is for continuation of CDC's building program for its Atlanta facilities and \$18,000,000 is to begin construction and purchase equipment for the replacement of CDC's infectious disease laboratory in Fort Collins, Colorado. The conferees continue to support the rapid implementation of CDC's Buildings and Facilities Master Plan and are pleased with the progress made to date.

The conferees expect the CDC to utilize a portion of the funds provided for buildings and facilities to continue and expand security improvements to ensure critical information reliability for response to critical events, as well as to conduct increasingly varied public health missions.

The conference agreement includes bill language to allow the Centers for Disease Control and Prevention (CDC) to enter into a single contract or related contracts for the full scope of development and construction of facilities as proposed by the Senate. H.R. 246 contained no similar provision. The conference agreement also includes bill language proposed by the Senate to allow funds appropriated to the CDC to be used to enter into a long-term ground lease for construction on non-Federal land, in order to replace their laboratory in the Fort Collins, Colorado area. H.R. 246 included no similar language.

The conference agreement includes bill language to earmark \$183,763,000 for international HIV/AIDS, the same as proposed by the Senate and H.R. 246. The conference agreement deletes bill language proposed by the Senate earmarking \$40,000,000 of the amount provided for international HIV/AIDS for the International Mother and Child HIV Prevention Initiative. The conferees are agreed, however, that \$40,000,000 of the amount provided for international HIV/AIDS is for this important initiative.

The conference agreement includes language in the bill designating that the following amounts shall be available under section 241 (Public Health Service Act evaluation set-aside) for the specified activities:

\$125,899,000—National Center for Health Statistics Surveys
 \$14,000,000—National Immunization Surveys
 \$28,600,000—Information Systems Standards Development and Architecture and Applications-based Research Used at Local Public Health Levels
 \$41,900,000—Research Tools and Approaches within the National Occupational Research Agenda

H.R. 246 had proposed that \$46,982,000 be derived from section 241 for National Center for Health Statistics surveys.

The conference agreement modifies the placement of bill language proposed by the Senate exempting from any personnel ceiling applicable to the Agency, Service, or the Department of Health and Human Services both civilians and Commissioned Officers detailed to States, municipalities or other organizations under authority of Section 214 of the Public Health Service Act for purposes related to homeland security during their period of detail or assign-

ment. The agreement places the bill language within the Public Health and Social Services Emergency Fund account.

The conference agreement includes a modification to the proviso carried in prior appropriations acts prohibiting the use of funds available to the CDC to advocate or promote gun control, as proposed in H.R. 246. The Senate bill included a similar proviso. The conferees acknowledge that the purpose of this proviso is to prohibit Federal funds from being used to lobby for or against the passage of specific Federal, State or local legislation intended to advocate or promote gun control. The conferees understand that the CDC's responsibility in this area is primarily data collection and the dissemination of information and expect research in this area to be objective and grants to be awarded through an impartial, scientific peer review process. The conferees instruct the CDC to provide a detailed report, within 90 days of enactment, on the steps the CDC has taken to ensure this restriction is being followed.

The conference agreement includes a modification to a proviso, proposed by the Senate, to raise the funding limit for grants made under section 1509 of the Public Health Service Act (WISEWOMAN screening demonstrations). The agreement increases the limitation to \$12,500,000, instead of \$15,000,000 as proposed by the Senate. H.R. 246 maintained the limit at \$10,000,000. The conferees are agreed that the increase in the limitation is intended to permit, but not mandate, an increase in the awards under this authority to \$12,500,000 in fiscal year 2003.

Birth Defects

The conference agreement includes \$98,681,000 for birth defects, developmental disabilities, disability and health instead of \$97,691,000 as proposed by the Senate. H.R. 246 included \$94,655,000 for these activities.

Within the total, the following amounts are provided for the specified activities above the fiscal year 2003 request:

- \$2,000,000—to expand State autism surveillance activities;
- \$2,000,000—to expand surveillance and epidemiological efforts of Duchenne and Becker muscular dystrophy;
- \$500,000—to activities related to Fetal Alcohol Syndrome;
- \$842,000—to expand the newborn infant screening program; and
- \$2,000,000—to support the establishment of a National Spina Bifida program.

In addition, \$3,800,000 is provided to continue and expand support for the Special Olympics Healthy Athletes Initiative begun last year.

The conferees encourage the CDC to continue its partnership with the Amputee Coalition of America (ACA) and its support of the Limb Loss Research and Statistics Program. The Committee is also supportive of the partnership that the ACA and CDC have forged with the uniformed services in an effort to ensure that members of our armed forces receive the highest quality of care in the event of an amputation.

CHRONIC DISEASE PREVENTION AND HEALTH PROMOTION

The conference agreement includes \$795,140,000 for chronic disease prevention and health promotion instead of \$745,600,000 as proposed by the Senate. H.R. 246 proposed \$773,928,000. Programs within this account are funded at the following levels:

Heart Disease and Stroke	\$ 43,244,000
Cancer Prevention and Control	290,645,000
Diabetes	63,756,000
Arthritis and Other Chronic Diseases	22,649,000
Tobacco	100,584,000
Nutrition/Physical Activity	34,372,000
Community Health Promotion	37,269,000
School Health	58,213,000
Safe Motherhood/Infant Health	54,315,000
Oral Health	11,787,000
Prevention Centers	27,006,000
National Campaign to Change Children's Health Behaviors	51,300,000

Within the amounts provided for Cancer Prevention and Control, no less than \$200,383,000 is for the Breast and Cervical Cancer Screening Program and \$1,000,000 is for the establishment of a national lupus patient registry. The conferees urge the CDC to work closely with the Lupus Foundation of America in the establishment of the registry.

Within the amounts available for Arthritis and Other Chronic Diseases, the agreement provides an increase over the request of \$850,000 for the expansion of State-based arthritis programs and collaborations with the relevant voluntary health organizations. In addition, an increase of \$1,000,000 over the request is provided to enhance epilepsy efforts, in partnership with a national non-profit organization that works on behalf of children and adults affected by seizures.

Within amounts provided for Community Health Promotion, \$6,903,000 is provided to support and expand the Behavioral Risk Factor Surveillance Systems, \$2,800,000 for continuing and expanding a model project that is testing and evaluating the efficacy of glaucoma screening using mobile units, \$1,900,000 is for a vision screening and education program as outlined in the Senate explanatory statement, and \$1,800,000 is for the Mind-Body Medical Institute in Boston, Massachusetts to continue and expand practice-based assessments, identification, and study of promising and heavily-used mind/body practices.

The conferees encourage CDC to expand its public and professional awareness activities with respect to pulmonary hypertension and to report to the Committees on Appropriations within six months on the progress made in advancing this important initiative.

The conferees understand that the Iron Disorders Institute provides important educational material to the public and the medical community and encourages the CDC to establish a partnership with the Institute.

Environmental Health

The conference agreement includes \$184,025,000 for environmental health instead of \$189,489,000 as proposed by the Senate. H.R. 246 included \$174,917,000 for environmental health activities.

Within the total provided: \$37,763,000 is for the environmental health laboratory; \$38,863,000 is for environmental health activities (including \$2,200,000 to continue the physician education and public awareness program for primary immune deficiency disease as implemented by the Jeffrey Modell Foundation); \$37,127,000 is for asthma; \$42,272,000 is for childhood lead poisoning; and \$28,000,000 is for the health-tracking network.

The conferees recognize the extraordinary services of CDC's Environmental Health Laboratory, and have provided funds to expand the assessment of exposure of the U.S. population to environmental chemicals, to expand assistance to States, and provide more effective laboratory response to toxic emergencies.

The conferees are concerned about the health status of the residents of rural communities. The conferees understand that the CDC currently is developing a rural health plan to address the variety of rural public health issues related to environmental exposures. The conferees urge the CDC to continue to work closely with the State of Iowa Public Health Department in developing this plan.

Epidemic Services

The conference agreement includes \$78,001,000 for epidemic services and response as proposed by the Senate. H.R. 246 included the same amount for epidemic services.

HIV/AIDS, STD and TB Prevention

The conference agreement includes \$1,194,150,000 for HIV/AIDS, STD and TB prevention instead of \$1,183,532,000 as proposed by the Senate. H.R. 246 included \$1,175,000,000 for these activities.

Included in this amount is \$887,961,000 for HIV/AIDS activities, of which \$183,763,000 is for global HIV/AIDS activities; \$169,675,000 for STD activities; and \$136,514,000 for TB activities. Within the funds provided for global HIV/AIDS, \$40,000,000 is for the International Mother and Child HIV Prevention Initiative.

Within the total for HIV/AIDS, \$104,000,000 is provided to continue CDC's support of activities that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders at not less than the fiscal year 2002 level. The conferees expect CDC to follow the report accompanying the Labor, HHS and Education and Related Agencies Appropriations Act, 2002 regarding the disbursement of these funds, including continuing support for the Directly Funded Minority Community Based Organization Program.

Immunization

The conference agreement includes a discretionary program level total of \$654,751,000 for immunization, instead of \$652,895,000 as proposed by the Senate. H.R. 246 included \$634,601,000 for immunization activities. Within the total, \$14,000,000 is for national immunization surveys to be derived from section 241 evaluation set-aside funds. In addition, the Vac-

cines for Children (VFC) program funded through the Medicaid program is expected to provide \$1,056,000,000 in vaccine purchases and distribution support in fiscal year 2003, for a total immunization program level of \$1,699,751,000.

Included in the amount provided is \$505,963,000 for the section 317 program, and \$148,788,000 for global immunization activities. Within the total available for global immunization, \$106,400,000 is for global polio eradication activities, and \$42,388,000 for the global measles program.

It has been brought to the conferees' attention that infrastructure costs of delivering vaccines to children in Alaska are substantially higher than in other areas of the country because of the many small, remote communities that must be served primarily by air. The conferees encourage CDC to increase section 317 grant support for infrastructure development and purchase of vaccines for the State of Alaska's universal immunization program.

Infectious Diseases

The conference agreement includes \$345,471,000 for infectious diseases instead of \$334,471,000 as proposed by the Senate. H.R. 246 included \$353,961,000 for infectious diseases.

Within the total provided, \$1,000,000 above the budget request is for a prevention program to control and reduce the incidence of hepatitis C. This funding is to continue to develop State-based programs and demonstrations to learn the most feasible approach to integrating hepatitis C and B screening, counseling, and referral programs into existing HIV and STD State programs.

Within the total provided, \$8,000,000 above the request is to augment CDC's resources for supporting States in developing and implementing effective surveillance, prevention, and control of West Nile virus and support research on the biology of the disease.

Within the total provided, \$2,000,000 above the request is to expand and improve surveillance, research, and prevention activities on prion disease. The conferees intend that a significant portion of the increase be used to expand support for the National Prion Disease Pathology Surveillance Center to establish a national autopsy network for prion disease surveillance.

The conferees are pleased that the CDC is restoring funds for Chronic Fatigue Syndrome research and that these funds are being used in substantive areas. The conferees encourage CDC to continue the establishment of a national registry.

Injury Control

The conference agreement includes \$149,385,000 for injury control, as proposed by the Senate. H.R. 246 provided \$148,464,000 for injury control.

Within the total provided, \$3,000,000 is provided to extend implementation of the National Violent Death Reporting System. In addition, sufficient funds are included to continue support for all existing Injury Control Research Centers. The conferees also intend that \$1,000,000 of the funds provided above the request augment funding for the Traumatic Brain Injury prevention program.

Occupational Safety and Health

The conference agreement provides a program level of \$274,899,000 for occupational safety and health, the same as proposed by the Senate. H.R. 246 included \$275,161,000 for occupational safety and health. Included within the available funds is \$41,900,000 to carry out research tools and approaches activities within the National Occupational Research Agenda (NORA) to be derived from section 241 evaluation set-aside funds.

Within the total provided, \$2,000,000 above the request is for the Education and Research Centers to expand research activities in support of implementation of NORA.

The conferees have provided sufficient funds for NIOSH to continue the farm health and safety initiative and to initiate an objective, science-based study on the exposure of industrial solvents on workers and whether those solvents have a long-term significant adverse neurological impact on the health of those workers.

The conferees support NIOSH's efforts in domestic terrorism preparedness, including work to protect emergency responders from biological and chemical terrorism exposures, as well as industrial accidents. The conferees urge NIOSH to fast-track its work to recognize the military affiliated laboratory expertise and certification and to certify military equipment for appropriate civilian use, particularly where any needed modifications are simple.

The conferees support continuation of the joint interagency initiative which involves the National Institute of Occupational Safety and Health, the Federal Aviation Administration, and the National Transportation Safety Board. The conferees encourage NIOSH to continue to implement the Board's recommendations to improve aviation safety in Alaska.

Public Health Improvement

The conference agreement includes a total program level of \$153,848,000 for public health improvement instead of \$115,672,000 as proposed by the Senate. H.R. 246 included \$114,581,000 for public health improvement. Included within the available funds is \$28,600,000 to carry out information systems standards development and architecture and applications-based research used at local public health levels to be derived from section 241 evaluation set-aside funds.

Funds requested within public health improvement for development and implementation of a nationwide environmental health-tracking network have been provided for within the CDC's environmental health activities program.

The conferees include the following amounts for the following projects and activities in fiscal year 2003:

Adelphi University in Garden City, New York for its Breast Cancer Hotline	\$100,000
Alaska Department of Health and Social Services Obesity Prevention and Control program	400,000
Alivio Medical Center in Chicago, Illinois for its diabetes programs	150,000
Ambulatory Electronic Medical Record System (AEMRS) in Edina, Minnesota to improve overall medical error reduction	100,000

American Association of Physicians of Indian Origin for a study of cardiovascular disease and diabetes among persons of Asian Indian descent with emphasis on risk factors and effective interventions	500,000
American Trauma Society, Upper Marlboro, Md., for a program to provide medical professionals with the skills and strategies to guide families of the trauma victim through the stages of care	100,000
American Vitiligo Research Foundation, for education and awareness programs for outreach	100,000
Asthma and Allergy Foundation of Alaska and the Alaska Lung Association to prevent lung diseases stemming from tobacco	500,000
Auditory-Verbal Mentoring Program, Birmingham, Alabama for auditory-verbal therapy	400,000
Bexar County Community Health Collaborative in San Antonio, Texas for its "Fit City/Fit Schools" program	150,000
Cal State Bakersfield Foundation, Bakersfield, California, for a Valley Fever vaccination project	750,000
Center for International Rehabilitation to implement and create Disability Rights Monitor	400,000
Children's Medical Center of Dallas, Texas for the Center for Infectious Diseases, Advanced Diagnostics, and Emerging Pathogens	500,000
Children's Medical Research Institute, Oklahoma City, Oklahoma, for a Type 2 diabetes research program	450,000
Citizens Against Toxic Exposure Health Clinic, Pensacola, Florida, to locate and assist individuals with health problems related to environmental toxins	300,000
City of Long Beach, California, for surveillance, laboratory, epidemiology and other services at its health department	355,000
Clear Corps, Pittsburgh, PA, to provide lead poisoning prevention services to families in the Pittsburgh area	75,000
Community Health Centers in Hawaii for a childhood rural asthma project	150,000
Community Services Planning Council, Sacramento, California, Shots for Tots KIDS immunization registry	283,000
Cooper Green Hospital Women's Cancer Screening and Prevention program, Birmingham, Alabama, to screen and detect cervical cancers among low income women	250,000
Delaware Health and Social Services, Division of Public Health, for the Delaware Electronic Reporting (DEERS)	500,000
Division of Health Sciences, East Tennessee State University, Johnson City, Tennessee, for the Appalachian Cancer demonstration project	200,000
Economic Opportunity Commission of San Luis Obispo County in San Luis Obispo, California for its senior health screening program	50,000
Elliot Health System, Manchester, New Hampshire	400,000
Epilepsy Foundation in Landover, Maryland for its "No Seizures, No Side Effects" campaign	350,000
Greater Cleveland SAFE KIDS Coalition's Reducing Child Pedestrian Injuries in Urban Areas Program to decrease the high rates of pedestrian injury for children	30,000
Greenburgh Central School District No. 7 in Greenburgh, New York for developing and implementing an action plan to improve physical fitness and nutrition and reduce obesity among middle school and high school students	303,000
Health and Human Services Department, City of Houston, Texas for its Online Infectious Disease/Bioterrorism Immediate Identification, Assessment and Alert demonstration project	375,000
Healthy Body Healthy Soul Jesse Trice Cancer Center Prevention Project to provide funding for cancer prevention, education and early detection initiatives	300,000
Hunter Health Clinic, Wichita, Kansas, for supplies	250,000
Huntsman Cancer Institute in Utah to develop a Genealogical Database in support of genetic disease research	500,000
Inova Regional Trauma Center, Falls Church, Virginia, for a community-based injury prevention center	300,000
Iowa Games to continue the Lighten Up Iowa program	100,000

Iowa Health Foundation for a pilot program on chronic disease management	500,000
Iowa State University, Center for Food Safety and Public Health, Ames, Iowa, for a public health research and education project	1,000,000
Jackson State University Institute of Epidemiology and Health Services Research to address urban and rural health problems in Mississippi	1,200,000
Jefferson Parish (Louisiana) Mosquito Control Board, Harvey, Louisiana, to combat infestation and spread of the West Nile virus	200,000
Kansas University Medical School and Family Community Medicine Program, Wichita, Kansas, for Diabetes management program	200,000
Kirkwood Community College in Cedar Rapids, Iowa for the National Mass Fatalities Institute	300,000
La Rabida Children's Hospital in Chicago, Illinois for diabetes programs for children and families	150,000
Lake Charles Memorial Hospital in Lake Charles, Louisiana for its Breast Health Center	550,000
Lawton & Rea Chiles Center for Healthy Mothers and Babies in Tampa, Florida, for training paraprofessionals in the health-care field	1,000,000
Marin County Department of Health and Human Services in San Rafael, California for research, analysis and health system improvements related to the incidence of breast cancer in the county	500,000
Medical Institute for Sexual Health	250,000
Michael E. DeBakey Institute for Comparative Cardiovascular Science and Biomedical Devices at Texas A&M University, College Station, Texas	800,000
Missouri Primary Care Association for chronic disease prevention and oral health outreach and education	150,000
National Bioinformatics Collaboration Center for early stage planning	50,000
Neighborhood Health Plan of Rhode Island in Providence, Rhode Island for a community-based asthma outreach and intervention program	250,000
Northern Arizona University to research and address critical security needs associated with biothreat agents and organisms	450,000
Nurses for Newborns Foundation in St. Louis, Missouri, for services to infants and children at risk for abuse or neglect	300,000
Onondaga County Health Department, Syracuse, New York, for Tuberculosis elimination project	125,000
Osteopathic Health System of Texas, Fort Worth, Texas, for study to determine the efficacy of Hyperbaric Oxygen for treatment of diseases	870,000
Partnership for Food Safety Education, Washington, D.C., to establish a national education clearinghouse	500,000
Rice University in Houston, Texas, for proteomics research	1,000,000
S.A.F.E., Inc., Wilkes-Barre, PA., (in affiliation with Geisinger's Center for Autism), to establish centers of excellence for the treatment of Autism	250,000
San Antonio Metropolitan Health District in San Antonio, Texas to expand a public health assessment of exposure to environmental contaminants at and near the former Kelly Air Force Base	350,000
San Luis Obispo County Public Health Agency in San Luis Obispo, California for diabetes prevention, screening and education	90,000
SIDS Resources, Inc. in Kirkwood, Missouri for an Urban Education Outreach Program and Infant Mortality Risk Reduction Program in rural Missouri	50,000
Sister to Sister—Everyone Has a Heart Foundation to increase women's awareness of heart disease, Washington, D.C.	400,000
Sixteenth Street Community Health Center in Milwaukee, Wisconsin for a demonstration program focusing on asthma treatment in the bilingual community	250,000
Southeastern Center for Emerging Biologic Threats	600,000
Southern Methodist University for research regarding pharmaceutical antibiotic resistance	300,000

Southwestern Medical Center, Dallas, Texas, National Multiple Sclerosis Training Center at the University of Texas	500,000
St. Joseph Health Services in North Providence, Rhode Island for the "Pawtucket Smiles" children's oral health initiative	350,000
St. Joseph's Mercy Care Services in Atlanta, Georgia for their breast and cervical cancer screening and treatment program	350,000
St. Louis University Consortium Against Biological Agents in St. Louis, Missouri to expand and integrate the University's educational efforts in the basic science of the transmission, prevention and treatment of infectious diseases and the training of pub	1,000,000
St. Tammany Parish Mosquito Control Board, Slidell, Louisiana, for project to prevent and control the spread of West Nile virus	200,000
Sustainable Resources Center in Minneapolis, Minnesota for the Community Lead Education and Reduction Program (CLEARCorps)	125,000
Texas Tech University, Health Sciences Center, Lubbock, Texas, for Diabetes Prevention and Control project	500,000
The National Organization on Fetal Alcohol Syndrome, Washington, D.C., for Fetal Alcohol Syndrome project	1,000,000
Thomas Jefferson University Hospital in Philadelphia, Pennsylvania for a center for bioterrorism and disaster preparedness training	1,650,000
Tried Stone Economic Development Corporation in Detroit, Michigan for preventive health programs at the Imani Social Re-nurturing and Health Center	150,000
University of Alabama at Birmingham, Birmingham, Alabama, for a Rural Diabetes Glaucoma Initiative	400,000
University of Arizona Health Center to develop the use of DNA microarrays to detect contamination of foods and/or dietary supplements	100,000
University of Arizona to study NikkomycinZ (NikZ) as a treatment for Valley Fever	100,000
University of Findlay, Findlay, Ohio, for Terrorism Preparedness Center	1,500,000
University of Florida, Seniors Institute for Transportation and Communications, Gainesville, Florida, for Older Driver Assessment and Rehabilitation project	1,000,000
University of Georgia, College of Pharmacy, Center for Leadership in Education and Applied Research in Mass Destruction Defense (CLEARMADD), Athens, Georgia, to train health professionals to respond to chemical and biological attacks.	450,000
University of Louisville's Center for the Deterrence of Bioterrorism and Biowarfare to educate public health officials to detect and respond to biological attacks, Kentucky	1,200,000
University of Michigan Health System in Ann Arbor, Michigan for its clinical simulation center for education and training of first responders and medical and public health personnel	450,000
University of Missouri School of Journalism and the Sinclair School of Nursing Cancer Communication Research Center for evaluation and development of protocols and programs	200,000
University of Montana Center for Environmental Health Sciences, Missoula, Montana, to support research on the impact of environmental factors in causing or exacerbating human diseases	750,000
University of Northern Iowa Youth Fitness and Obesity Institute to study the effectiveness of movement programs on the health of preschool children	700,000
University of Rhode Island Cancer Prevention Research Center, in Kingston, Rhode Island for cancer related research and tobacco program	100,000
University of South Alabama for the Alabama Birth Defects Monitoring and Prevention Center	500,000
University of South Alabama for the Diabetic Lower Extremity Amputation Prevention Program	500,000
University of Texas M.D. Anderson Cancer Center in Houston, Texas for a comprehensive cancer control program to address the needs of minority and medically underserved populations	500,000

University of Vermont to implement an obesity research and community intervention program to evaluate effective remedies	100,000
Vanderbilt University Department of Pediatrics in Nashville, Tennessee, for the Nurses for Newborns program	250,000
Wausau Health Foundation in Wausau, Wisconsin to develop and test innovative approaches to increase screening for colorectal cancer	200,000
West Virginia University for the Center for Healthy Communities to implement a program to reduce obesity	1,000,000
Western Psychiatric Institute and Clinic, UPMC, Pittsburgh, PA for weight management and obesity control	250,000
Woodhull Medical and Mental Health Center in Brooklyn, New York for a community-based asthma management program	375,000

NATIONAL INSTITUTES OF HEALTH

NATIONAL CANCER INSTITUTE

The conference agreement includes \$4,622,394,000 for the National Cancer Institute instead of \$4,642,394,000 as proposed by the Senate and \$4,299,493,000 as proposed by H.R. 246.

The conferees note with concern the Lung Cancer Progress Review Group’s August 2001 report, which concluded that the nation’s health care system is poorly organized to deal with lung cancer and that a pervasive sense of “therapeutic nihilism” dominates the public and scientific discussion of this disease. The conferees urge NCI to consider implementing the group’s recommendations, particularly regarding the creation of multi-institutional, multidisciplinary lung cancer consortia. The conferees request the NCI to submit a report on the group’s recommendations by June 30, 2003.

NATIONAL HEART, LUNG AND BLOOD INSTITUTE

The conference agreement includes \$2,812,011,000 for the National Heart, Lung and Blood Institute instead of \$2,820,011,000 as proposed by the Senate and \$2,698,391,000 as proposed by H.R. 246.

The conferees encourage NHLBI, in collaboration with the National Institute of Neurological Disorders and Stroke, to enhance its efforts to develop a diagnostic test for transmissible spongiform encephalopathies (TSE) that would be suitable for screening the blood supply. Currently, there is no suitable method for identifying TSE-infected blood or humans infected with TSEs. Human TSEs, for which there are no known treatments, include Creutzfeldt-Jakob disease and new variant Creutzfeldt-Jakob disease.

The conferees are aware of the impact of cystic fibrosis on children and adults and commend the voluntary associations that focus on combating this life-threatening genetic disease. The conferees urge the NIH to work with these organizations and outside researchers in supporting research related to the diagnosis and treatment of patients who are affected by this disease.

The conferees are interested in efforts to find a cure for Lymphangioleiomyomatosis (LAM), a progressive and often fatal lung disease of young women with no effective treatment. Accordingly, the conferees urge the NHLBI to explore opportunities for funding clinical treatment trials through both intramural and extramural means and to use all available mechanisms, as appropriate, including supporting state-of-the-science symposia and fa-

ilitating access to human tissues, to stimulate a broad range of clinical and basic LAM research.

NATIONAL INSTITUTE OF DENTAL AND CRANIOFACIAL RESEARCH

The conference agreement includes \$374,067,000 for the National Institute of Dental and Craniofacial Research as proposed by the Senate instead of \$360,528,000 as proposed by H.R. 246.

NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES

The conference agreement includes \$1,633,347,000 for the National Institute of Diabetes and Digestive and Kidney Diseases instead of \$1,637,347,000 as proposed by the Senate and \$1,532,394,000 as proposed by H.R. 246.

The conferees are concerned about the alarming growth in kidney disease and end stage renal disease and anticipated shortages of the professionals in nephrology that will be needed to handle these cases. NIDDK is encouraged to consider launching new training initiatives and workshops such as grant writing seminars to foster increased interest in this subspecialty.

NATIONAL INSTITUTE OF NEUROLOGICAL DISORDERS AND STROKE

The conference agreement includes \$1,466,005,000 for the National Institute of Neurological Disorders and Stroke as proposed by the Senate instead of \$1,372,256,000 as proposed by H.R. 246.

The conferees encourage NINDS, in collaboration with NIAID, to expand support for controlled clinical trials to better understand the effect of neutralizing antibodies on current therapies on multiple sclerosis, and to produce better clinical data on effective combination therapies using existing therapies that have been approved for MS and other conditions. The conferees further encourage NINDS to conduct a scientific workshop on the role of neutralizing antibodies in MS therapy and new approaches for treatment of MS with combination therapies of drugs approved for MS and other conditions.

NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES

The conference agreement includes \$3,730,973,000 for the National Institute of Allergy and Infectious Diseases instead of \$3,727,473,000 as proposed by the Senate and \$2,674,213,000 as proposed by H.R. 246.

The conference agreement includes bill language permitting the transfer of \$100,000,000 to International Assistance Programs, Global Fund to Fight HIV/AIDS, Malaria, and Tuberculosis as proposed by the Senate. H.R. 246 included a general provision permitting the Director of NIH to transfer this amount to the Global Fund from funds appropriated to NIH.

The conference agreement includes bill language allocating up to \$375,000,000 for extramural facilities construction grants for research on biological and other agents. The Senate had proposed \$150,000,000 for these grants. H.R. 246 had no similar provision. The conferees intend to provide NIAID with flexibility to determine

the appropriate share of the Institute's funds directed to bioterrorism research versus infrastructure.

NATIONAL INSTITUTE OF GENERAL MEDICAL SCIENCES

The conference agreement includes \$1,859,084,000 for the National Institute of General Medical Sciences instead of \$1,853,584,000 as proposed by the Senate and \$1,742,596,000 as proposed by H.R. 246.

NATIONAL INSTITUTE OF CHILD HEALTH AND HUMAN DEVELOPMENT

The conference agreement includes \$1,213,817,000 for the National Institute of Child Health and Human Development as proposed by the Senate instead of \$1,159,405,000 as proposed by H.R. 246.

The conferees recognize that the therapeutic potentials of adult and embryonic stem cells need to be studied in animal models. The conferees remain concerned about the absence of research dedicated to investigating stem cells in the most clinically relevant models. To maintain a position of scientific leadership in embryonic stem cell research, the conferees urge NICHD to support research using approved stem cell lines that investigate adult and embryonic stem cells in vitro and in nonhuman primates.

Congenital limb deficiency, vascular disease, childhood skeletal malignancy and trauma have resulted in over 1,500,000 persons in the U.S. experiencing limb loss. Technological advancements today offer considerable opportunity for persons with limb loss to effectively resume active, productive lives. Standards of care for persons with limb loss have not been developed, however, nor have clinical outcomes research been conducted to determine appropriate access to advanced technology prosthetic devices and the importance of related physical rehabilitation and therapy to improve performance among persons who utilize prosthetic devices. The conferees encourage the Institute to support a prosthetic outcomes research consensus conference, with an emphasis on consumer input, to develop a research protocol to comprehensively address these concerns.

NATIONAL EYE INSTITUTE

The conference agreement includes \$637,290,000 for the National Eye Institute instead of \$634,290,000 as proposed by the Senate and \$600,796,000 as proposed by H.R. 246.

Ocular albinism (OA) is a hereditary, blinding disease that causes terribly distorted vision in children. Victims, who are usually boys and receive the defective gene from their mothers, experience nystagmus, photophobia, lack of stereoscopic vision, strabismus, and other symptoms which deny these children normal vision. In recent years, great strides have been made in the search for improved diagnostic tools and treatments. Recently, the OAI gene, responsible for most cases of the disease, was identified, and a diagnostic screening test created to help women determine if they are at risk of passing the disease on to their children. As researchers move closer to understanding how this disease works, and developing potential treatments that could improve the vision of chil-

dren with the condition, the conferees direct NEI to be prepared to report on advances in research on ocular albinism.

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

The conference agreement includes \$618,258,000 for the National Institute of Environmental Health Sciences instead of \$617,258,000 as proposed by the Senate and \$589,701,000 as proposed by H.R. 246.

The conferees commend NIEHS for its recent efforts to bolster research initiatives on the environmental influences of breast cancer. The conferees recognize the serious lack of research on the relationship between the environment and breast cancer, and believe that it is important for the Institute to support such research. The conferees urge the Institute to establish a group of breast cancer and environmental research advisers to make recommendations to the Director with regard to the support of the breast cancer and environmental research, and to include in the group representatives from the breast cancer community who have had breast cancer. The conferees request an update at the fiscal year 2004 hearings on the progress in establishing an advisory group. The conferees encourage NIEHS to consider establishing centers to conduct multi-disciplinary and multi-institution research on environmental factors that may be related to breast cancer.

NATIONAL INSTITUTE ON AGING

The conference agreement includes \$1,000,099,000 for the National Institute on Aging as proposed by the Senate instead of \$939,608,000 as proposed by H.R. 246.

NATIONAL INSTITUTE OF ARTHRITIS AND MUSCULOSKELETAL AND SKIN DISEASES

The conference agreement includes \$489,324,000 for the National Institute of Arthritis and Musculoskeletal and Skin Diseases as proposed by the Senate instead of \$474,392,000 as proposed by H.R. 246.

Vitiligo is an environmental and genetic auto-immune disease of unknown origin which affects about three to six million Americans. Almost 50 percent develop the disease in childhood, with the median age of onset at four years of age. In its most severe forms, patients have milky white patches covering widespread areas of the body due to the loss of pigment in these areas. Especially for young children, the physical pain caused by severe burns from the harmful effects of sunlight and the emotional pain caused by people confusing vitiligo with an infectious disease diminishes the quality of a patient's life. There are no FDA-approved treatments for children. The conferees urge NIAMS to enhance research efforts through all available mechanisms, as appropriate, to identify the causes of this disease and develop pediatric treatment options for vitiligo.

NATIONAL INSTITUTE ON DEAFNESS AND OTHER COMMUNICATION
DISORDERS

The conference agreement includes \$372,805,000 for the National Institute on Deafness and Other Communication Disorders as proposed by the Senate instead of \$351,376,000 as proposed by H.R. 246.

NATIONAL INSTITUTE OF NURSING RESEARCH

The conference agreement includes \$131,438,000 for the National Institute of Nursing Research as proposed by the Senate instead of \$130,044,000 as proposed by H.R. 246.

NATIONAL INSTITUTE ON ALCOHOL ABUSE AND ALCOHOLISM

The conference agreement includes \$418,773,000 for the National Institute on Alcohol Abuse and Alcoholism as proposed by the Senate instead of \$401,933,000 as proposed by H.R. 246.

NATIONAL INSTITUTE ON DRUG ABUSE

The conference agreement includes \$968,013,000 for the National Institute on Drug Abuse as proposed by the Senate instead of \$912,489,000 as proposed by H.R. 246.

The conferees commend NIDA for its partnership with the Office of National Drug Control Policy, particularly the ongoing support NIDA provides to the sites established by the Counterdrug Technology Assessment Center (CTAC). The conferees encourage the continuation and expansion of NIDA funding for these research centers where CTAC has likewise committed resources.

NATIONAL INSTITUTE OF MENTAL HEALTH

The conference agreement includes \$1,349,788,000 for the National Institute of Mental Health instead of \$1,350,788,000 as proposed by the Senate and \$1,290,274,000 as proposed by H.R. 246.

The conferees are concerned that the September 11, 2001 terrorist attacks have taken a toll on mental health in America, and urge the Institute to conduct studies on the effects of such events and disasters so that best practices can be developed. Research should focus on survivors, emergency workers and the general public to understand the degree of mental trauma suffered and to understand how post traumatic stress affects these different populations.

NATIONAL HUMAN GENOME RESEARCH INSTITUTE

The conference agreement includes \$468,037,000 for the National Human Genome Research Institute as proposed by the Senate instead of \$431,985,000 as proposed by H.R. 246.

NATIONAL INSTITUTE OF BIOMEDICAL IMAGING AND BIOENGINEERING

The conference agreement includes \$280,100,000 for the National Institute of Biomedical Imaging and Bioengineering instead of \$283,100,000 as proposed by the Senate and \$140,973,000 as proposed by H.R. 246.

NATIONAL CENTER FOR RESEARCH RESOURCES

The conference agreement includes \$1,146,272,000 for the National Center for Research Resources instead of \$1,161,272,000 as proposed by the Senate and \$1,015,395,000 as proposed by H.R. 246.

The conference agreement includes bill language to earmark \$120,000,000 for extramural facilities construction grants instead of \$97,000,000 as proposed by H.R. 246 and \$125,000,000 as proposed by the Senate.

Within the total provided for NCRR, \$210,000,000 is for the Institutional Development Awards (IDeA) program and \$312,000,000 is for the General Clinical Research Centers. Of the IDeA grants funding, \$127,000,000 is designated for the Centers of Biomedical Research Excellence program and \$83,000,000 is designated for the Biomedical Research Infrastructure Networks program.

NATIONAL CENTER FOR COMPLEMENTARY AND ALTERNATIVE
MEDICINE

The conference agreement includes \$114,149,000 for the National Center for Complementary and Alternative Medicine as proposed by the Senate instead of \$105,212,000 as proposed by H.R. 246.

The conference agreement includes sufficient funds to increase support for the chiropractic research center.

NATIONAL CENTER ON MINORITY HEALTH AND HEALTH DISPARITIES

The conference agreement includes \$186,929,000 for the National Center on Minority Health and Health Disparities as proposed by the Senate instead of \$151,062,000 as proposed by H.R. 246.

JOHN E. FOGARTY INTERNATIONAL CENTER

The conference agreement includes \$63,880,000 for the John E. Fogarty International Center instead of \$60,880,000 as proposed by the Senate and \$57,064,000 as proposed by H.R. 246.

NATIONAL LIBRARY OF MEDICINE

The conference agreement includes \$310,299,000 for the National Library of Medicine, of which \$8,200,000 is made available through the evaluation set-aside, as proposed by the Senate instead of \$277,273,000 as proposed by H.R. 246. Bill language is included, as proposed by the Senate, to make available \$8,200,000 from amounts available under section 241 of the Public Health Service Act to carry out the National Information Center on Health Services Research and Health Care Technology. H.R. 246 did not contain a similar provision.

OFFICE OF THE DIRECTOR

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$267,974,000 for the Office of the Director instead of \$257,974,000 as proposed by the Senate and \$2,476,111,000 as proposed by H.R. 246.

The conference agreement provides \$20,000,000 for the Director's Discretionary Fund rather than \$10,000,000 as provided by H.R. 246 and the Senate in order that the Director of NIH may allocate resources to the Institutes and Centers to begin "roadmap" activities.

The conferees concur with the guidance in the Senate explanatory statement regarding limits for NIH reprogramming requests.

The conference agreement reflects the funding and grant transfers that will be made to the National Institute of Biomedical Imaging and Bioengineering from other institutes and centers.

The conferees concur with the Senate explanatory statement encouraging NIH to increase the research training stipend awards by ten percent.

The conferees are agreed that NIH should continue to allocate funds for biomedical research on the basis of scientific opportunity, taking into consideration the many other factors identified by NIH as being relevant to funding decisions, such as the infectious nature of a disease, the number of cases and deaths associated with a disease, the cost of disease treatment, and/or other costs associated with a disease. The conferees also expect NIH to consider carefully the language in appropriations explanatory statements and give it appropriate weight when determining funding allocations across disease areas. Regarding the cases in which appropriations explanatory statements reference funding levels for a specific disease, the conferees are agreed that these are intended only to express relative priority and are not funding earmarks.

The conferees do not agree to the budget request to use NIH funding to support Department of Defense free electron laser research and radiation exposure research.

The conferees have previously provided funding for the design of a new facility for the National Library of Medicine and understand that the design phase of this project is nearly complete. The conferees request the Director of NIH to provide a report by June 30, 2003 to the Committees on Appropriations with details of the new facility, timetables and costs, based on a construction plan consistent with recommendations from the NIH Facilities Planning Advisory Committee.

The conferees request that the NIH Interagency Autism Coordinating Committee (IACC) convene a panel of outstanding scientists to assess the field of autism research, and identify the roadblocks that may be hindering progress in understanding its causes and best treatment options. As a next step, the IACC should take the recommendations of these findings and develop a matrix of short-to-long range and low-to-high risk action items to address some of the roadblocks identified by the panel. This matrix would then be used to help guide further autism research planning at NIH, and as a tool for the entire autism community. It should include opportunities for voluntary and private funding organiza-

tions, and hopefully will lead to opportunities for collaboration with other government agencies and the autism community as well. The matrix should be a living document that can be revised and expanded as current goals are achieved and new goals are identified. Once the matrix has been developed, the IACC should provide a report to Congress on the state of autism research.

Pick's disease is a rare form of frontotemporal dementia that leads to a degeneration of social skills, language, reasoning abilities, and memory. Although the cause of this disease is unknown, researchers now appreciate the degree to which disorders such as Pick's disease are related to other frontotemporal dementias, and even more common forms of dementia such as Alzheimer's disease. Alterations of the tau protein, which is an important structural component of neurons, have been implicated in all of these disorders, and provide an important common target for further exploration. NIA and NINDS are encouraged to support research on frontotemporal dementias, including Pick's disease, as well as related tauopathies, that may reveal insights into the causes and possible treatments of these conditions.

Rett syndrome is a neurological disorder seen almost exclusively in females; it affects approximately one in ten thousand live births per year. The conferees are pleased to learn of the discovery of the MECP2 gene as the main cause of this disorder and encourage the Institutes to expand their research efforts to learn how this gene affects other genes and tissues during the development of the nervous system. The conferees also encourage research to develop animal models of the disorder and to study the daily problems that afflict children with Rett syndrome, including autonomic disorders, as well as research on interventions for improved literacy and communication. Because Rett syndrome is a multi-faceted disorder, the conferees encourage NICHD, NINDS, NIDCD, and NIGMS to work in collaboration to maximize the outcomes from investments made in Rett syndrome research.

The Department has conducted a comprehensive review of research on products containing the herb ephedra, and the conferees look forward to seeing this work in the near future. The conferees recommend that, following publication of this work and a thorough dialogue between the Department, industry and others, NIH initiate scientific studies necessary to resolve any remaining questions on the safety and benefits of these products.

The conferees request NIH to provide a report by June 30, 2003 summarizing, by grant and amount, actual fiscal year 2002 research funding on temporomandibular diseases and disorders, as well as an estimate of fiscal year 2003 expenditures.

BUILDINGS AND FACILITIES

The conference agreement includes \$632,800,000 for buildings and facilities instead of \$607,800,000 as proposed by the Senate and \$296,100,000 as proposed by H.R. 246.

The conference agreement includes language granting full scope authority for the contracting of construction of the first and second phases of the John E. Porter Neurosciences Building as proposed by the Senate. H.R. 246 did not have a similar provision.

The conference agreement includes \$105,000,000 for the NIH research building proposed in the budget request to be constructed on Department of Army land at Ft. Detrick, Maryland.

The conferees were saddened by the recent passing of Florence S. Mahoney, one of the nation's foremost advocates for health research and a pioneer in the development of the NIH. Beginning in the 1940s, Mahoney teamed up with another citizen activist, Mary Lasker, to seek a greater Federal investment in health sciences and biomedical research. They were extraordinarily effective. Mrs. Mahoney's crowning achievement was her almost singlehanded campaign to create the National Institute on Aging. That event, in 1974, opened the way to scientific advances aimed at extending the healthy years of life and maintaining functional independence for millions of older Americans. She embodied that ideal, living independently until her death at age 103. Mahoney was the last of a generation of giants—including Lasker, James Shannon, Senator Lister Hill and Representative John Fogarty—who built the modern NIH. The conferees strongly urge the NIH to honor her memory by designating one of two outdoor courtyards in the Mark O. Hatfield Clinical Research Center, now under construction, as the "Florence S. Mahoney Plaza (or Courtyard)." The conferees hope that such a space will include a stone marker, plaque or sculpture that would prominently pay tribute to Mahoney's enormous contributions to the NIH.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The conference agreement includes \$3,232,268,000 for substance abuse and mental health services, of which \$3,158,068,000 is provided through budget authority and \$74,200,000 is provided through the evaluation set-aside. H.R. 246 had proposed \$3,167,897,000 for SAMHSA and the Senate proposed \$3,203,917,000, of which \$74,200,000 was from the evaluation set-aside.

The conference agreement contains bill language providing \$955,000 for protection, maintenance and remediation of Federally-owned facilities at St. Elizabeths Hospital as proposed by the Senate. H.R. 246 had no similar provision.

The conference agreement includes bill language identifying \$21,461,000 for projects in the amounts specified in the statement of the managers on the conference report.

CENTER FOR MENTAL HEALTH SERVICES

The conference agreement includes \$246,042,000 for programs of regional and national significance instead of \$226,067,000 as proposed by H.R. 246 and the Senate.

Within the total provided, the conference agreement provides \$95,000,000 for counseling services for school-aged youth as proposed by the Senate. As proposed by the Senate, \$3,000,000 is provided to support the National Suicide Prevention Resource Center,

and continued support is provided for the Suicide Prevention Hotline program.

Within the total provided, \$30,000,000 is provided under section 582 of the Public Health Service Act to support grants to local mental health providers for the purposes of developing knowledge of best practices and providing mental health services to children and youth suffering from post-traumatic stress disorder as a result of having witnessed or experienced a traumatic event. These funds are provided through the SAMHSA appropriation rather than \$10,000,000 being provided through the Public Health and Social Services Emergency Fund as proposed by the Senate.

The conference agreement provides \$2,000,000 above the request to continue the current level of funding for the consumer and consumer-supported national technical assistance centers as proposed by the Senate. The conferees direct CMHS to support multi-year grants to five such national technical assistance centers.

The conference agreement provides \$5,000,000 to continue the elderly treatment and outreach program as proposed by the Senate.

As proposed by the Senate, the conference agreement provides \$5,000,000 for the jail diversion program and \$1,000,000 for new awards under the community action grant program.

The conferees include the following amounts for the following projects and activities in fiscal year 2003:

Access Community Health Network in Chicago, Illinois for an initiative to improve mental health services at their community health centers	\$350,000
Arab-American & Chaldean Council, Lathrup Village, Michigan, to develop a comprehensive and systems mental health initiative for the prevention and treatment of substance abuse among Arab-Americans	500,000
Bellfaire Jewish Children's Bureau, Shaker Heights, Ohio, for Social Advocates for Youth (SAY) program to provide early intervention and substance abuse services to high school students	605,000
Bert Nash Community Mental Health Center in Lawrence, Kansas to provide mental health services in schools and other settings to prevent juvenile crime and substance abuse among high-risk youth	150,000
Center for Mind Body Medicine, Washington, D.C., to train health and mental health professionals in treating war and terrorism related trauma in the U.S. and abroad	200,000
City of San Francisco to develop a Homeless Management Information System to track and address the needs of the homeless	150,000
Covenant House Pennsylvania to support programs at its Crisis Residence for runaway and homeless youth in Philadelphia	500,000
Emergency Shelter of the Fox Valley, Inc. in Appleton, Wisconsin to expand programs providing temporary shelter and mental health services to the homeless	30,000
Family Communications Inc. in Pittsburgh—for an antiviolence program entitled the National Preschool Anger Management Project	150,000
Family Communications Inc. to implement the National Preschool Anger Management Project in Iowa	250,000
Family Support Systems Unlimited in the Bronx, New York for mental health services	250,000
Hub Program in Billings, Montana to provide services to the low-income mentally ill	400,000
Interlink Counseling Services, Louisville, Kentucky, for drug prevention programs	30,000
Jewish Association for Residential Care, Farmington Hills, Michigan, to develop and expand mental health support and long-term case management	500,000

KidsPeace in Pennsylvania	100,000
Kidspeace, Graham Lake Campus, Maine	450,000
Lawrence Hall Youth Services (LHYS) in Chicago, Illinois for mental health and related support services	250,000
Life Quest Community Mental Health Center for treatment of co-occurring disorders in the population of Mat-Su Valley	400,000
Meeting Street Center in East Providence, Rhode Island for children's mental health and enhanced early intervention support services	400,000
Mentally Ill Offender Crime Reduction demonstration in Ventura, California	400,000
Montrose Counseling Center in Houston, Texas for mental health services	100,000
Operation Breakthrough at Saint Vincent's Family Service Center in Kansas City, Missouri for family mental health services	350,000
Pacific Clinics in Arcadia, California to support a school-based mental health demonstration program for Latina adolescents	500,000
San Francisco Department of Public Health in San Francisco, California for mental health and substance abuse services for homeless persons in supportive housing	750,000
Smith Haven Ministries in Coram, New York for mental health counseling services	500,000
Sowing the Seeds of Hope to provide mental health support for distressed farm families	100,000
State of Alaska Department of Health and Social Services Suicide Prevention Program to identify, intervene and treat individuals in Alaska at risk of suicide	250,000
Texas Medication Algorithm Project (T-MAP) in Tarrant County, Texas for further development, testing, and implementation of the computerization program	300,000
United Migrant Opportunities Services to provide comprehensive, bilingual, bicultural services to Latina women and families who are victims of domestic violence	60,000

The conference agreement includes \$440,000,000 for the mental health block grant instead of \$433,000,000 as proposed by the Senate and \$438,000,000 as proposed by H.R. 246.

The conference agreement includes \$98,694,000 for children's mental health grants rather than \$96,694,000 as proposed by the Senate and H.R. 246.

The conference agreement provides \$43,355,000 for grants to States for the homeless (PATH) rather than \$46,855,000 proposed by the Senate and \$39,855,000 proposed by H.R. 246.

The conference agreement includes \$34,000,000 for protection and advocacy instead of \$32,500,000 as proposed by H.R. 246 and \$35,500,000 as proposed by the Senate.

CENTER FOR SUBSTANCE ABUSE TREATMENT

The conference agreement includes \$319,354,000 for programs of regional and national significance instead of \$296,314,000 as proposed by H.R. 246 and \$310,000,000 as proposed by the Senate.

The conference agreement includes sufficient funding to support methamphetamine prevention and treatment demonstration projects in Iowa and other parts of the Midwest and South.

The conference agreement provides \$3,000,000 for the Residential Treatment Program for Pregnant and Postpartum Women.

The conferees include the following amounts for the following projects and activities in fiscal year 2003:

Alaska Christian College at Kenai for the support of residential substance abuse program for adolescents	\$200,000
--	-----------

Allegheny County, Department of Human Services, Pittsburgh, PA. for drug and alcohol treatment	100,000
Baltimore City Health Department, Baltimore, Maryland, to expand drug treatment services	450,000
City of Vallejo Fighting Back Partnership in Vallejo, California for a pilot program to identify and treat youth who are abusing alcohol or drugs	275,000
Community Services for Children, Lehigh County, PA. to remediate and reverse the impact of drug use by pregnant mothers on their newborn infants	100,000
Cook Inlet Council (Kenai) Council on Alcohol and Drug Abuse for treatment of women and children with substance abuse problems	400,000
Cook Inlet Tribal Council's Ernie Turner Center to continue outpatient and inpatient substance abuse treatment	500,000
Copper River Native Association's Hudson Lake Spirit Camp for a substance abuse spirit camp program	250,000
Fairbanks Memorial Hospital to provide treatment and services to chronic inebriates in Fairbanks	400,000
Fairbanks Native Association's Lifegivers Program residential treatment program for pregnant women and their children	500,000
Flowering Tree in Pine Ridge, SD for residential substance abuse treatment programs for young mothers and pregnant women on the Pine Ridge Indian Reservation	300,000
Gavin Foundation in South Boston, Massachusetts, for the Cushing House substance abuse treatment program for adolescent males	250,000
Lindy's Place in New Orleans, LA to integrate substance abuse treatment program into domestic violence programs	50,000
Southcentral Foundation's Pathways Home Residential Treatment center for adolescent substance abusers	2,000,000
Southeast Alaska Regional Health Consortium Deilee Hit residential substance abuse treatment program for pregnant women and their children	400,000
Tanana Chiefs Conference and Fairbanks Native Association to continue the Ch'eghutsen comprehensive mental health services program for children in Interior Alaska	800,000
Tundra Swan Inhalant Abuse Treatment Center in Bethel, Alaska for operational support	1,500,000
Vocational Instruction Project Community Services in The Bronx, New York for mental health and substance abuse services, including services for families	300,000

The conference agreement includes \$1,765,000,000 for the Substance Abuse Performance Partnership, of which \$1,702,800,000 is budget authority and \$62,200,000 is provided through the PHS evaluation funding tap. H.R. 246 had proposed \$1,745,000,000 and the Senate proposed \$1,785,000,000, of which \$62,200,000 was derived through the evaluation tap. The conference agreement includes bill language establishing a limitation of five percent of the performance partnership appropriation for funding of data collection activities as proposed by the Senate.

CENTER FOR SUBSTANCE ABUSE PREVENTION

The conference agreement includes \$198,401,000 for programs of regional and national significance instead of \$202,000,000 as proposed by H.R. 246 and \$183,379,000 as proposed by the Senate.

The conference agreement provides funds over the budget request for Starting Early, Starting Smart and Community-Initiated Prevention Intervention. \$5,000,000 is included to continue and expand the ecstasy program funded last year; \$10,000,000 is provided for FAS/FAE prevention and treatment programs; and no less than last year's level is provided for the National Clearinghouse for Alcohol and Drug Information.

The Starting Early, Starting Smart program has demonstrated proven results in improving family management, reducing drug and alcohol abuse, and improving child development and resilience.

The conferees include the following amounts for the following projects and activities in fiscal year 2003:

Children's Home of Easton Services Inc., Easton, PA for at-risk youth counseling	\$100,000
Community Health Centers in the Big Island of Hawaii for a youth anti-drug program	250,000
Fenway Community Health Center, Boston, Massachusetts, to provide comprehensive health care, mental health, and drug treatment services to low-income HIV and AIDS patients	150,000
Hands Across Cultures in Espanola, New Mexico, for the Black Tar Heroin Coalition	350,000
Institute for Research, Education, and Training in Addictions, Pittsburgh, PA for treatment approaches and health policy development	250,000
Iowa State University in Ames, Iowa for the Rock in Prevention program	300,000
Jefferson Parish, SE Louisiana Drug Prevention Education program for students drug testing assessment, counseling treatment, drug education, outreach services and program evaluation	500,000
Life Haven, Inc. in New Haven, Connecticut, for services to promote resilience for homeless and other at-risk children	350,000
Silver Spring Neighborhood Center for an alcohol, tobacco and drug prevention program for youths	11,000
South Boston Community Health Center in South Boston, Massachusetts for a substance abuse prevention initiative	200,000
Southeast Louisiana Drug Prevention and Education Program in Jefferson, LA for student drug testing, counseling, drug education, outreach and program evaluation	100,000
St. Francis House in Boston, MA to provide mental health and substance abuse programs to the homeless	125,000
Start SMART Foundation, Bethlehem, PA for the expansion of a pilot project to examine the distribution of a saliva alcohol test	225,000
Teen Court of Greater New Orleans to expand its Drug Prevention program	50,000
University of South Dakota to continue the work of the Consortium on Fetal Alcohol Syndrome regarding development and testing of a prevention model for women considered at-risk for abusing alcohol during their childbearing years	700,000
University of Vermont to disseminate a multimedia drug abuse prevention program to middle school students throughout the state	50,000

Within the total provided for SAMHSA, \$109,100,000 is for activities that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The conferees expect SAMHSA to follow the fiscal year 2002 House report regarding the disbursement of these funds.

Within the total funding for the Minority HIV/AIDS Initiative, \$8,000,000 is for the treatment of mental health disorders related to HIV disease, including dementia, clinical depression and chronic, progressive neurological disabilities that often accompany HIV disease.

Within the total funding for the Minority HIV/AIDS Initiative, \$61,000,000 is to enhance the quality of services and expand the service capacity of substance abuse treatment programs with a history of providing services to high risk communities of color that are severely impacted by substance abuse and HIV/AIDS.

Within the total funding for the Minority HIV/AIDS Initiative, \$40,100,000 is to provide grants for planning and services to organizations with a history of providing services to high risk communities of color to enhance the quality of services and to expand substance abuse prevention service capacity in communities of color disproportionately impacted by the HIV/AIDS epidemic.

PROGRAM MANAGEMENT

The conference agreement includes \$86,467,000 for program management, of which \$12,000,000 is provided through the evaluation set-aside. This is the same allocation as proposed by the Senate. H.R. 246 proposed \$91,467,000.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The conference agreement includes \$303,695,000 instead of \$298,745,000 as proposed by H.R. 246 and \$308,645,000 as proposed by the Senate. The agreement provides all these funds through the policy evaluation set-aside. H.R. 246 had provided \$296,145,000 through the evaluation set-aside. The Senate had provided these funds through budget authority. The conference agreement also provides \$5,000,000 for AHRQ bioterrorism activities through the Public Health and Social Services Emergency Fund.

The agreement provides \$55,000,000 for reducing medical errors as proposed by H.R. 246. The Senate provided \$60,000,000. The agreement provides \$53,300,000 for health insurance and expenditure surveys as proposed by the Senate instead of \$48,500,000 proposed in H.R. 246. The agreement provides \$2,700,000 for program management as proposed by the Senate instead of \$2,600,000 as proposed by H.R. 246.

The conference agreement does not permit the transfer of \$10,000,000 to the Department of Commerce for the Current Population Survey. This is consistent with H.R. 246 and the Senate bill.

CENTERS FOR MEDICARE AND MEDICAID SERVICES

PROGRAM MANAGEMENT

The conference agreement includes \$2,581,672,000 for program management instead of \$2,550,488,000 as proposed by H.R. 246 and \$2,559,664,000 as proposed by the Senate. An additional appropriation of \$720,000,000 has been provided for the Medicare Integrity Program through the Health Insurance Portability and Accountability Act of 1996 as proposed by the Senate rather than \$700,000,000 as proposed by H.R. 246. A citation for the Medicare, Medicaid and SCHIP Benefits Improvement and Protection Act proposed by H.R. 246 is not included in the conference agreement because more general authorities are cited.

RESEARCH, DEMONSTRATION, AND EVALUATION

The conference agreement includes \$74,194,000 for research, demonstration, and evaluation instead of \$68,400,000 as proposed by the Senate and \$33,510,000 as proposed by H.R. 246.

Within the total provided, \$40,000,000 is for Real Choice Systems Change Grants to States. The conferees continue to strongly support the Real Choice Systems Change grants and expect CMS to provide expanded technical assistance to the consumer task forces involved with the program by contracting with a consortium of consumer controlled organizations for people with disabilities. The conferees request the Secretary to report on the activities and accomplishments of the Community Living Exchange Cooperative by July 1, 2003.

The conferees are pleased with the currently ongoing Prescription Continuity of Care and Emergency Department Continuity of Care Projects and recommend their continuation. The conferees are pleased with the demonstration project being conducted at the Mind-Body Institute of Boston, Massachusetts, and recommend its continuation.

The agreement includes bill language for the following projects and activities for fiscal year 2003:

AIDS Healthcare Foundation in Los Angeles for a demonstration of residential and outpatient treatment facilities	\$1,500,000
Bucks County Health Improvement Project, Langhorne, Pennsylvania	500,000
Children's Hospice International demonstration program to provide a continuum of care for children with life-threatening conditions and their families	464,000
Children's Hospitals and Clinics of Minneapolis/St. Paul, in partnership with the National Hospice and Palliative Care Organization, for a demonstration project to provide pediatric palliative care education and consultation services	350,000
Community Catalyst Inc. in Boston, MA to expand a benefits management program to improve the delivery of healthcare benefits to low-income individuals	100,000
Cook County Illinois Bureau of Health Services, to improve the management of the vulnerable patients with poorly controlled diabetes	75,000
County of Sacramento, California for implementation of the SacAdvantage pilot program to increase availability of health insurance for uninsured workers and their dependents through premium subsidies and purchasing pools	700,000
Equip for Equality in Chicago, Illinois for a demonstration project to document the impact of an independent investigative unit to examine deaths and serious allegations of abuse and neglect of people with disabilities at facilities in Illinois	200,000
Hamot Medical Center, Erie, PA, for a demonstration project for the evaluation of advanced illness coordinated care for Medicare Beneficiaries	300,000
Hope House Day Care Center in Memphis, Tennessee for a demonstration project on improving the overall well-being of HIV positive children	100,000
Hospice of Metro Denver in Denver, Colorado to establish a clinical and training affiliation with the University of Colorado's Health Science Center and to develop cutting-edge palliative care practices	500,000
Illinois Primary Health Care Association, in Springfield, Illinois, to implement the Shared Integrated Management Information System	350,000
Jefferson Area Board for Aging, Charlottesville, Virginia, for continuation of the recruitment, retention, training, and support of nursing assistants	100,000
Johns Hopkins School of Medicine, Baltimore, MD., for an advanced respiratory Medicine project to study in-home, self-administered high frequency chest wall oscillation therapy	100,000

Medical Care for Children Partnership, Fairfax, Virginia, to provide outreach to increase access to medical and dental care for children	130,000
The Breast Cancer Fund in San Francisco, California for the "Lifelines" project to increase access to breast cancer treatment for medically underserved women (in collaboration with Shanti)	325,000

MEDICARE CONTRACTORS

The conference agreement includes \$1,677,584,000 for Medicare contractors instead of \$1,675,084,000 as proposed by H.R. 246 and \$1,680,084,000 as proposed by the Senate. Within the total provided, \$12,500,000 is to support grants for State Health Insurance Counseling and Assistance programs as proposed by the Senate. The conferees recommend that CMS eliminate the five percent cap on transferring funds between functions so that contractors may have greater flexibility to manage their resources to match programmatic needs.

FEDERAL ADMINISTRATION

The conference agreement includes \$575,497,000 for Federal administration rather than \$587,497,000 as proposed by H.R. 246 and \$556,783,000 as proposed by the Senate. The agreement provides \$13,000,000 for the Medicaid Healthy Start, Grow Smart campaign.

The conferees direct that the Centers for Medicare and Medicaid Services utilize data reflecting the current cost of liability insurance to determine current Medicare payment rates, including annual updates to the malpractice geographic practice cost index.

The conferees are concerned about the widespread failure of States to provide screening for lead poisoning to children served by Medicaid, as required by Federal law. The conferees expect CMS to provide national leadership to ensure Medicaid lead screening consistent with age and risk factors recommended by CDC. CMS is also encouraged to ensure Medicaid coverage of environmental investigations, including analysis of samples to identify lead hazards in the home of a poisoned child.

The conferees direct the Secretary of Health and Human Services to review the Medicare Geographic Classification Review Board's criteria for reclassification determinations with respect to making payments to hospitals. The conferees request the review to include a detailed analysis of disparities among hospitals' reimbursement rates for hospitals in metropolitan statistical areas that border on areas that have higher wage indices; the difficulty hospitals face in losing skilled medical personnel to neighboring areas with urban classifications and higher wage and salary structures; geographic and environmental impediments to traditional community routes; the base costs on which the wage index is applied; and the effect lower wage indices have on the quality of care. The conferees expect the Secretary to report to the Committees no later than May 30, 2003.

The conferees concur in the language in the Senate explanatory statement requesting the Secretary to conduct a comprehensive study of current literature and best practices to determine the cost-effectiveness of behavioral-based weight loss services. The con-

ferrees expect such a study to be completed within six months of enactment of the appropriations bill.

The conferees are agreed that the last paragraph under CMS Program Management, Federal administration, in the Senate explanatory statement, pertaining to a study of claims data, is deleted.

The conferees urge CMS to promulgate regulations establishing the same definition of "audiologist" for the Medicaid program as is currently used in the Medicare program. The conferees also note that both the Department of Veterans Affairs and the Office of Personnel Management allow participants in their respective health care programs direct access to audiologists, and recommend that CMS adopt a policy for Medicare consistent with these successful initiatives.

The conferees are concerned about the growing national shortage of nursing and allied health professionals. This concern is evidenced by the recent passage of the Nurse Reinvestment Act of 2002. Medicare has historically paid a share of the net costs of approved nursing and allied health education costs associated with a nursing and allied health education program operated by a hospital. The conferees are particularly concerned about nursing and allied health educational programs that cannot meet the regulations set forth at 42 C.F.R. §413.85(f) solely as a result of regional educational accrediting criteria. Given the shortage of nursing and allied health professionals, the conferees support the payment of costs on a reasonable cost basis for a hospital that has historically been the operator of nursing and allied health educational program(s) that qualified for Medicare payments under 42 C.F.R. §413.85, but, solely in order to meet educational standards, subsequently relinquishes some control over the program(s) to an educational institution, which: meets regional accrediting standards; is wholly owned by the provider; and is supported by the hospital, i.e., the hospital is incurring the costs of both the classroom and clinical training portions of the program. Moreover, a hospital could bear all the costs of the training but share curriculum control with the educational institution. It was not the intent of Congress in Section 6205 of Public Law 101-239 nor Section 4159(b) of Public Law 101-508 to preclude hospitals from receiving reasonable cost pass-through payments for nursing and allied health educational programs based solely on conflicting accreditation educational standards.

ADMINISTRATION FOR CHILDREN AND FAMILIES

REFUGEE AND ENTRANT ASSISTANCE

The conference agreement appropriates \$446,724,000 as proposed by H.R. 246 instead of \$442,724,000 as proposed by the Senate. Within this amount, \$151,121,000 is provided for Social Services, as proposed in H.R. 246. The Senate bill included \$147,121,000 for this purpose.

The conferees recognize the importance of continued educational support to schools with a significant proportion of refugee children, consistent with previous support to schools heavily impacted by large concentrations of refugees, and urge the Office of

Refugee Resettlement to support these efforts should funding become available in the Social Services or other accounts.

The agreement also includes \$19,000,000 for increased support to communities with large concentrations of refugees whose cultural differences make assimilation especially difficult justifying a more intense level and longer duration of Federal assistance.

CHILDREN AND FAMILIES SERVICES PROGRAMS

The conference agreement includes \$8,643,117,000 for children and families services programs instead of \$8,467,062,000 as proposed by H.R. 246 and \$8,648,884,000 as proposed by the Senate.

Runaway youth

The conference agreement includes \$90,567,000 for runaway youth instead of \$93,000,000 as proposed by the Senate and \$88,133,000 as proposed by H.R. 246. Within the funds provided, \$40,770,000 is available for the transitional living program (TLP). The conference agreement includes these additional resources to meet the needs of more young people in need of services.

Child abuse

The conference agreement includes \$34,066,000 for child abuse discretionary programs instead of \$26,351,000 as proposed by H.R. 246 and the Senate. Within the funds provided for child abuse prevention programs, the agreement includes the following items:

AGAPE of Central Alabama, Inc., Montgomery, Alabama, for their work with the children in need	\$70,000
Alameda County Social Service Agency, Alameda County, California, for Another Road to Safety Program to serve low to moderate risk families	440,000
Alaska Department of Health and Social Services, in consultation with the Alaska Native Health Board, the Municipality of Anchorage, Cook Inlet Tribal Council, University of Alaska, and the Anchorage Women's Commission to develop a comprehensive statewide plan on	600,000
Asian Pacific Women's Center, Inc., Los Angeles, CA., for Domestic Violence Transitional Housing program to protect at risk children	150,000
Boys and Girls Home of Nebraska Child Abuse Prevention Program to provide statewide child abuse prevention and counseling services to families	350,000
Catholic Community Services/Juneau Family Resource Center in Alaska to address child abuse prevention issues	250,000
Center for Women and Families, Inc., Louisville, Kentucky, for child abuse prevention programs	100,000
Child Welfare League of America, Inc., Washington, DC, for study on Monitoring Safety of Children in Foster Care	500,000
Childhelp USA, Fairfax, Virginia, to reduce the incidence and severity of child abuse and enhance the ability to investigate reports and meet the needs of victims of child abuse	250,000
Children's Village, Inc. in Pine Ridge, South Dakota to serve children of the Oglala Sioux Tribe who are abused and neglected and are removed from the care of their parents	140,000
Communities against Domestic Violence, Falls Church, VA, to prevent family violence in language-minority communities	240,000
Homeless Prenatal Program, San Francisco, CA, for services to at-risk children	400,000
Nexus Diversified Community Services of Manteno, Illinois, to enhance and expand its community-based residential center for sexually abused youth.	1,100,000

Mockingbird Society of Seattle, Washington to pilot a model program for maintaining and stabilizing children in the state foster care system	325,000
Ohel Children's Home and Family Services, Brooklyn, NY, for a child abuse prevention program	300,000
Parents Anonymous of Iowa to expand child abuse prevention services in Iowa	50,000
Parents for Meghan's Law in Stony Brook, New York for educational programs for victims of child abuse and their families	100,000
State of Alaska for emergency housing for victims of child abuse in Anchorage, Alaska	250,000
State of Alaska Healthy Families/Better Beginnings home visiting program for State of Alaska and regional Native non-profit organizations	2,000,000
Vanessa Behan Crisis Nursery, Spokane, Washington, to create a national demonstration project	100,000

Compassion capital fund

The conference agreement includes \$35,000,000 for the compassion capital fund, instead of \$30,000,000 as proposed by H.R. 246 and \$45,000,000 as proposed by the Senate.

Social services and income maintenance research

The conference agreement includes \$34,937,000 for social services and income maintenance research instead of \$6,000,000 as proposed by H.R. 246 and the Senate. \$6,000,000 of this total is provided through the Public Health Service evaluation funding tap as proposed by the Senate. The conferees note that efforts undertaken through the State information technology consortium have led to greatly improved systems communications and compliance in both the TANF and child support enforcement (CSE) programs. For TANF, the conferees have provided \$2,000,000 to permit the consortium to put in place a web-based technology that allows for communications and interface within States, across State borders, and between ACF and States. For CSE, the conferees have provided \$3,000,000 to launch the next phase of the consortium's efforts to remove barriers to child support collections and to improve the flow of information between agencies and the court system. The conferees also provide funding for the following:

Alaska Children's Services program to serve needs of at risk youth in Anchorage	\$250,000
Bethesda Children's Home	150,000
Clearbrook, Arlington Heights, Illinois	187,000
Concerned Citizens, Inc., Chicago, Illinois, for Mother's House	250,000
Fathers Day Rally Committee, Philadelphia, PA for the Rites of Passage program	150,000
Good Shepherd Alliance, Inc., Leesburg, Virginia, for Hand up to Self Sufficiency for the Homeless project	50,000
Gulf Coast Jewish Family Services, Inc., Clearwater, Florida for Battered Immigrant and Refugee Women's Project	500,000
National Energy Assistance Directors Association, Washington, DC, for studies regarding home energy assistance	200,000
San Jose Office on Child Care, San Jose, CA, for pilot program to increase access to child care resources	100,000
St. Elizabeth's Foundation in Baton Rouge, LA for an adoption awareness campaign	100,000
The Institute for Responsible Fatherhood and Family Revitalization, PA., for the Philadelphia non-custodial fatherhood program to reconnect fathers with their children	100,000
University of Alaska School of Social Work to evaluate effectiveness of Alaska's child welfare system	750,000

Henry Hosea House in Kentucky for support of programs that
 serve the homeless and needy 150,000

Developmental disabilities

For Developmental Disabilities, the conference agreement includes \$71,600,000 for State Councils instead of \$69,800,000 as proposed by H.R. 246 and \$72,200,000 as proposed by the Senate. The conference agreement includes \$36,500,000 for protection and advocacy services instead of \$35,000,000 as proposed by H.R. 246 and \$37,000,000 as proposed by the Senate. It also includes \$12,484,000 for special projects instead of \$11,734,000 as proposed by H.R. 246 and \$12,734,000 as proposed by the Senate. For university-affiliated programs, the agreement includes \$25,125,000 instead of \$24,000,000 as proposed by H.R. 246 and \$25,500,000 as proposed by the Senate.

Native American programs

The conference agreement includes \$45,754,000 for Native American Programs, instead of \$45,196,000 as proposed by H.R. 246 and \$45,912,000 as proposed by the Senate. Within the total the conferees provide funding for the following:

Blanket of Wellness program of Southeast Alaska Regional Health Corporation and Central Council of Tlingit-Haida Social Services to promote healthy development of Alaska Native children in Southeast Alaska \$200,000

Community services

The conference agreement includes \$649,987,000 for the community services block grant as proposed by the Senate instead of \$570,000,000 as proposed by H.R. 246. The conferees believe that the activities funded by the Community Services Block Grant program have made an important difference in the lives of many of our citizens living in some of the more economically depressed parts of our country. However, it has come to the attention of the conferees that one or more States may have accumulated sizeable unexpended balances of CSBG funds and have failed to reallocate all such funds to other eligible grantees, as authorized by the Community Services Block Grant Act. The conferees request that the Secretary of Health and Human Services provide to the Committees on Appropriations a report detailing the levels of unexpended balances of Community Services Block Grant funds in each State for the period of fiscal year 1995 through fiscal year 2002 and a plan ensuring that these funds are made available to grantees more expeditiously in the future. The Secretary is requested to provide this report by August 15, 2003.

The conference agreement also includes \$32,759,000 for economic development, instead of \$32,517,000 as proposed by H.R. 246 and \$33,000,000 as proposed by the Senate. The conferees also set aside \$5,500,000 within the community economic development program for the job creation demonstration authorized under the Family Support Act.

The conference agreement includes \$7,250,000 for Rural Community Facilities instead of \$7,000,000 as proposed by H.R. 246 and \$7,500,000 as proposed by the Senate.

The conference agreement includes \$7,329,000 for community food and nutrition, instead of \$6,657,000 as proposed by H.R. 246 and \$8,000,000 as proposed by the Senate.

Family violence prevention and services

The conference agreement includes \$15,500,000 for runaway youth prevention instead of \$14,999,000 as proposed by H.R. 246 and \$16,000,000 as proposed by the Senate.

The conference agreement includes \$2,579,000 for the domestic violence hotline instead of \$2,157,000 as proposed by H.R. 246 and \$3,000,000 as proposed by the Senate.

The conference agreement also includes \$127,230,000 for Battered Women's Shelters instead of \$124,459,000 as proposed by H.R. 246 and \$130,000,000 as proposed by the Senate.

Early learning opportunities

For the Early Learning Fund, the agreement includes \$34,000,000 instead of \$38,000,000 as proposed by the Senate. H.R. 246 did not include funding for this program.

Mentoring children of prisoners

The conference agreement includes \$10,000,000 for Mentoring Children of Prisoners instead of \$12,500,000 as proposed by the Senate. H.R. 246 did not include funding for this newly proposed program.

Independent living training vouchers

The conference agreement includes \$42,000,000 for Independent Living Training Vouchers instead of \$39,769,000 as proposed by H.R. 246 and \$60,000,000 as proposed by the Senate.

Program administration

The conference agreement includes \$172,997,000 for Program Direction instead of \$171,837,000 as proposed by H.R. 246 and \$171,747,000 as proposed by the Senate.

PROMOTING SAFE AND STABLE FAMILIES

The conference agreement includes \$100,000,000 for the discretionary grant program of Promoting Safe and Stable Families, instead of \$70,000,000 as proposed by H.R. 246 and \$200,000,000 as proposed by the Senate.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The conference agreement includes \$1,376,001,000 for aging services programs instead of \$1,355,844,000 as proposed by H.R. 246 and \$1,369,290,000 as proposed by the Senate.

The conference agreement includes \$358,000,000 for supportive centers, instead of \$357,000,000 as proposed by H.R. 246 and \$359,000,000 as proposed by the Senate.

The agreement also includes \$22,062,000 for preventive health services instead of \$21,562,000 as proposed by H.R. 246 and

\$22,562,000 as proposed by the Senate. The conferees intend that \$5,500,000 be made available to expand medication management, screening and education activities, including the use of new medication management devices, to prevent incorrect medication and adverse drug reactions among the elderly.

The conference agreement also includes \$18,681,000 for ombudsman/elder abuse prevention activities, instead of \$17,681,000 as proposed by H.R. 246 and \$19,681,000 as proposed by the Senate. The conferees intend that the \$1,000,000 increase over last year's level should be made available for the Long-Term Ombudsman Program. That will allow the program to hire additional staff, expand public information and education campaigns and upgrade technology.

The agreement also includes \$6,250,000 for Native American caregivers instead of \$6,000,000 as proposed by H.R. 246 and \$6,500,000 as proposed by the Senate.

The conference agreement includes \$387,108,000 for congregate meals; \$182,169,000 for home delivered meals; and \$149,000,000 for the nutrition services incentives program. The conference agreement amends the Older Americans Act and transfers the Nutrition Services Incentives Program from the U.S. Department of Agriculture to the Administration on Aging within the U.S. Department of Health and Human Services and maintains access to commodities within USDA.

The agreement includes \$40,521,000 for aging research, training and demonstrations instead of \$27,837,000 as proposed by H.R. 246 and the Senate. The conferees continue to support funding at no less than last year's level for national programs scheduled to be refunded in fiscal year 2003 that address a variety of issues, including elder abuse, Native American issues and legal services. The conferees also include the following amounts under aging research, training, and demonstrations:

Champions for Change, Flossmoor, IL, for a Senior Wellness Program	\$100,000
Champlain Senior Center in Burlington, VT, to support its seniors and technology initiative	75,000
Coalition of Wisconsin Aging Groups in Madison, Wisconsin, to provide assistance and education to the legal community and the public about elder financial abuse	100,000
Commission on Jewish Eldercare Services, Bloomfield Hills, Michigan, to reach out to additional seniors in Oakland County who require services in order to remain living independently	450,000
Comprehensive Housing Assistance, Inc., Baltimore, MD, for demonstration project on Naturally Occurring Retirement Communities to the Baltimore Jewish Naturally Occurring Retirement Community	524,000
Dale County, Alabama, Senior Citizens Center	40,000
Des Moines University in Des Moines, Iowa for a survey of geriatric health needs,	500,000
Generations of Hope, Rantoul, Illinois, to begin the process of replicating the Hope Meadows model nationally	500,000
Greater Miami Jewish Federation, Inc., for a Naturally Occurring Retirement Community project for seniors living independently ..	500,000
Hickman County Senior Center, Clinton, Kentucky, to provide educational services to seniors population	25,000

Iowa Department of Elder Affairs Seamless System to continue the integration of senior programs. In administering this award, the AoA and CMS should continue to provide the technical assistance and related support necessary to develop and implement program	1,000,000
Iowa State University, Ames, Iowa, for Universal Kitchen Design project	300,000
Jewish Family and Children's Service, Minneapolis, MN, for program for seniors in Naturally Occurring Retirement Community	1,200,000
Jewish Family Children's and Children's Service of Greater Philadelphia for Naturally Occurring Retirement Communities (NORCs)	250,000
Jewish Family Service of Los Angeles, CA, for project to assist seniors living independently	500,000
Jewish Federation of Greater Atlanta, Atlanta, Georgia	100,000
Jewish Federation of Greater Washington to establish a Naturally Occurring Retirement Communities (NORCs) demonstration project providing supportive services to seniors	850,000
Jewish Federation of Metropolitan Chicago, Chicago, IL, for services to elderly residents in Naturally Occurring Retirement Community	250,000
Jewish Federation of Nevada for a demonstration project to develop innovative models of community-based health and social service provision for older Americans	650,000
Maria-Madeline Project, Oak Park, MI, for the Experience Senior Power Program to help underprivileged seniors bridge the digital gap	120,000
Mecklenburg County, North Carolina, Nutrition 2000 program to help provide nutritional care for homebound frail senior citizens	700,000
Metropolitan Family Services, Chicago, IL, for the Seniors Raising Children program	225,000
National Center for Seniors' Housing Research, Upper Marlboro, MD, for research and development of smart-aging solutions	250,000
Northern Michigan University, Marquette, MI, for the Center for Gerontological Studies	200,000
Rebuilding Together with Christmas in April, Washington, DC, for Safe at Home	400,000
Southcare Home Services to establish a pilot program on home-based care for low-income elderly individuals	500,000
St. Louis Area Agency on Aging, St. Louis, MO, for the Senior Center Healthcare Coordinator Program	150,000
St. Luke Lutheran Community, North Canton, Ohio, Quality of Care demonstration to assist older adults with living and independent living in Canton and Stark County	250,000
St. Mark Professional Medical Center, Ltd., Harvey, IL, for Project New Start	100,000
The Carolinas Center for Hospice and End of Life Care, Cary, NC, for development of national data collection system	250,000
The Jewish Federation of Greater Albuquerque for the New Mexico NORC demonstration	225,000
United Jewish Federation of Greater Pittsburgh for the Jewish Association on Aging, Pittsburgh, PA, for Naturally Occurring Retirement Communities	250,000
University of Indianapolis, Indianapolis, IN, for Center for Aging and Community project to help seniors cope with chronic conditions of aging	200,000
University of South Florida, Tampa, FL, for the Florida Policy Exchange Center on Aging	400,000
Visiting Nurse Association Healthcare Partners of Ohio, Cleveland, Ohio, for Healthy Town program for Seniors	500,000
Westchester County Department of Senior Programs and Services, Mt. Vernon, NY, for development of automated call program for home-bound seniors	50,000

The conference agreement includes \$13,500,000 for the Alzheimer's Initiative instead of \$11,500,000 as proposed by H.R. 246 and \$14,000,000 as proposed by the Senate. The conferees intend

that \$1,000,000 of this funding be used to support an Alzheimer's family contact center for round-the-clock help to Alzheimer's families in crisis.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

The conference agreement includes \$367,215,000 for general departmental management instead of \$358,451,000 as proposed by H.R. 246 and \$374,386,000 as proposed by the Senate, along with \$5,851,000 from Medicare trust funds. In addition, the agreement provides \$21,552,000 in program evaluation funds as proposed by H.R. 246. The Senate did not provide for evaluation funds in this account.

The conferees have not approved the proposed consolidation of all public affairs and legislative affairs funds and functions in the Office of the Secretary. As a result, the conference agreement includes neither the \$27,793,000 requested to transfer staff from the operating divisions to the Office of the Secretary nor the proposed bill language to transfer funds from accounts of the National Institutes of Health and the Agency for Healthcare Research and Quality for the purpose of consolidating all of HHS legislative and public affairs activities within the Office of the Secretary.

The conferees include the amounts for the following projects and activities in fiscal year 2003 listed below.

ARCH National Resource Center on Respite and Crisis Services in Chapel Hill, North Carolina, to expand training, technical assistance, evaluation and networking expertise in respite care	\$100,000
Community Transportation Association of America for TA to human services transportation providers on ADA requirements ...	1,000,000
National Congress of State Games for the improvement and expansion of the Summer Senior Olympic games in Pennsylvania and other states	100,000
Palmer College on Chiropractic, Consortial Center for Chiropractic Research in Davenport, Iowa, and the Policy Institute for Integrative Medicine in Philadelphia, PA for a best practices initiative on lower back pain	100,000

The conferees direct that responses to specific information requests from the chairman and ranking member of the Subcommittees on Labor, Health and Human Services, and Education, and Related Agencies, on scientific research or any other matter, shall be transmitted to the Committees on Appropriations in a prompt, professional manner and within the time frame specified in the request. The conferees further direct that scientific information requested by the Committees on Appropriations and prepared by government researchers and scientists be transmitted to the Committees on Appropriations, uncensored and without delay.

Within the total provided, \$4,000,000 is for the United States-Mexico Border Health Commission as proposed by the Senate. H.R. 246 did not specify an amount for the Commission.

The agreement provides \$31,124,000 for the adolescent family life program as proposed by H.R. 246 and the Senate. The agreement includes bill language earmarking \$11,885,000 under the adolescent family life program for activities specified under section 2003(b)(2) of the Public Health Service Act, of which \$10,157,000

shall be for prevention grants under section 510(b)(2) of Title V of the Social Security Act, without application of the limitation of section 2010(c) of Title XX of the Public Health Service Act.

The agreement provides \$56,592,000 for minority health instead of \$46,329,000 as proposed by the Senate and \$43,057,000 as proposed by H.R. 246. Within the total provided for the Office of Minority Health, \$11,700,000 is to promote an effective culturally competent and linguistically appropriate public health response to the HIV/AIDS epidemic. Funds are to be allocated based on HIV/AIDS program priorities identified in the previous fiscal year as well as new priorities as funding permits.

The conferees instruct the Secretary to provide a report to the Appropriations Committees by October 15, 2003 detailing how each of the HHS agencies and offices receiving funding under the Minority HIV/AIDS Initiative have distributed this funding. This report shall include a list of the agencies/organizations receiving MHAH funded grants and sub grants, demonstrate how the participation of minority community-based organizations has been maximized, and the extent to which the funded agencies'/organizations' board, management and key staff are representative of the minority communities served, situated closest to the targeted problem, have a history of providing services to these communities, and have documented linkages to the targeted populations.

The conferees continue to recognize the importance of OMH's partnerships with minority health professions institutions. Specifically, the conferees encourage OMH to continue its successful cooperative agreement with Meharry Medical College aimed at meeting the challenges of academic opportunity for disadvantaged students and improving health care for underserved communities. In addition, the conferees strongly encourage OMH to give priority consideration to partnering with the Morehouse School of Medicine to plan for its continued strategic growth and development.

The conferees include the amounts for the following projects and activities in fiscal year 2003 listed below.

African Heritage, Inc. in Appleton, Wisconsin to improve the health status of African American residents through a community-based referral and counseling program	\$50,000
Dimock Community Health Center, Boston, Massachusetts, for the continuation and expansion of a minority diabetes management program.	150,000
Glaucoma Caucus Foundation	450,000
Jersey City Family Health Center in Jersey City, New Jersey for a demonstration project to improve chronic disease prevention	100,000
National Hispanic Medical Association in Washington, D.C. for a program of research, education, training and information dissemination focused on health issues and barriers to care facing Hispanic populations	400,000
Northern Virginia Hospice, Fairfax, Virginia, to provide bereavement services and increased outreach to children and adults in low-income and non-English speaking communities	800,000
Saint Thomas Hospital in Nashville, Tennessee to expand service in disadvantaged areas for rapidly growing health care needs	250,000
San Francisco Department of Public Health in San Francisco, California to enhance its system of HIV care and related services for persons of color and women	750,000
Sisters Network in Houston, Texas, for an educational and outreach program on breast cancer targeted to African-American women	150,000

South End Community Health Center, Boston, Massachusetts, to expand mobile health care services to low-income minority populations in Boston.	150,000
South Texas Community College in McAllen, Texas for the Milagros Center of Excellence in Migrant Health	500,000
Springfield Regional Outpatient Cancer Center for cancer screening program	200,000
Strelitz Diabetes Institute at Eastern Virginia Medical School in Norfolk, Virginia for research regarding prevalence of diabetes in minority populations, early detection and intervention mechanisms, and barriers to early diagnosis and care	150,000
The Maryland Center at Bowie State University in Bowie, Maryland, for a national program and resource center to address behavioral health and lifestyle education issues of African American and Latino seniors	150,000
University of Medicine and Dentistry of New Jersey in New Brunswick, New Jersey for its Institute for the Elimination of Health Disparities	430,000
University of South Carolina, Arnold School of Public Health in Columbia, South Carolina for development and implementation of an Institute for African American Faculty Development in Public Health	350,000
University of Texas Disease Management Center, San Antonio, Texas, for clinical research to evaluate systems of disease management with a diverse population	2,800,000
University of Texas Health Science Center at San Antonio for a Hispanic Nutrition Research and Education program	100,000
University of Texas Southwestern Medical Center (in cooperation with UT Dallas) for a program to recruit minority students into the field of sickle cell disease research (including outreach, mentoring, and/or scholarships and fellowships)	150,000
Wholistic Family Agape Ministries Institute in Alexandria, Virginia for HIV/AIDS prevention and education and teen pregnancy prevention services	138,000
Esther's Pantry, Portland, Oregon, for services and education for HIV positive Individuals	45,000

The agreement provides \$28,845,000 for the office of women's health instead of \$28,795,000 as proposed by the Senate and \$26,761,000 as proposed by H.R. 246. The conferees include the amount for the following project in fiscal year 2003 listed below.

Oregon Health Sciences University Center on Women's Health to improve women's healthcare	\$50,000
--	----------

The conferees provide \$50,000,000 for the minority HIV/AIDS Initiative, as proposed by both H.R. 246 and the Senate.

The conferees are concerned about the adequacy of the supply and production capacity for the anthrax vaccine currently available in the U.S. to protect civilian populations from the demonstrated threat of anthrax. The Secretary of the Department of Health and Human Services is encouraged to consult with other appropriate Federal and State agencies and non-governmental organizations representing workers with a higher risk of exposure to anthrax and provide an assessment of the immediate potential combined national biodefense and short-term preparedness need for anthrax vaccine. The assessment should encompass the need for: immunizing civilian laboratory workers, first responders and other at risk populations of exposure to anthrax; providing sufficient vaccine stockpiles for assuring public health preparedness to respond to anthrax attacks; and providing additional production capacity as a safeguard against an event which could result in a halt in current vaccine production. The Secretary is further requested to submit a

report to the House and Senate Appropriations Committees within 60 days after enactment of this bill, which includes the assessment of the combined potential need and options for assuring both a multiple-year vaccine supply and expansion of licensed vaccine production.

The conferees encourage the Secretary to establish a Federal Working Group on Lupus to be comprised of representatives from all relevant HHS agencies and other Federal departments having an interest in lupus. The Working Group should meet periodically for the purpose of exchanging information and coordinating Federal efforts regarding lupus research and education initiatives.

The conferees are concerned about the lack of mechanisms to insure and deliver psychosocial care to patients with cancer. Reports by the Institute of Medicine show that appropriate psychosocial care is an important contributor to quality of cancer care, but such care is not routinely available or consistently reimbursed. The conferees urge the Secretary, through relevant agencies such as NIMH, SAMHSA and AHRQ, to study the delivery of psychosocial services to cancer patients and report on the services available, who has access to them, who uses them, how they are reimbursed, and the effectiveness of specific interventions.

The conferees encourage the Secretary in conjunction with the CDC and the relevant NIH institutes to assess the benefits of a system providing nationwide access for physicians to a multi-media Internet site with webcast and media response capability. This type of system would allow the nation's primary care providers to receive Federal news and alerts.

The conferees request a report from the Department regarding its implementation of the revised guidance from the Department of Justice on limited English proficiency. This report should address the purpose and objectives of this policy, as well as any funding for services provided to implement the guidance, including publications, web site construction costs, and language line contracts.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$37,300,000 for the Office of Inspector General as proposed by H.R. 246 instead of \$39,747,000 as proposed by the Senate.

RETIREMENT PAY AND MEDICAL BENEFITS FOR COMMISSIONED OFFICERS

The conference agreement includes language proposed by the Senate directing that health care benefits of retired Commissioned Corps officers be paid from this account rather than the accounts from the Public Health Service to which they were assigned. H.R. 246 did not include a similar provision.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

The conference agreement includes \$2,246,680,000 for the Public Health and Social Services Emergency Fund (PHSSEF) to enhance Federal, State, and local preparedness to counter potential biological, disease, chemical, and radiological threats to civilian

populations, instead of \$2,255,980,000 as proposed by the Senate. H.R. 246 included \$2,507,184,000 for the PHSSEF.

The agreement also includes bill language included in H.R. 246 to allow the Secretary to transfer amounts specified in the account between categories subject to normal reprogramming procedures. The Senate bill contained no similar provision.

The conference agreement modifies the placement of bill language proposed by the Senate exempting from any personnel ceiling applicable to the Agency, Service, or the Department of Health and Human Services both civilians and Commissioned Officers detailed to States, municipalities or other organizations under authority of Section 214 of the Public Health Service Act for purposes related to homeland security during their period detail or assignment. The agreement places the bill language within this account, instead of within the account for the Centers for Disease Control and Prevention as proposed by the Senate.

Within the amount provided: \$1,543,440,000 is for the Centers for Disease Control and Prevention; \$546,000,000 is for the Health Resources and Services Administration; \$152,240,000 is for the Office of the Secretary; and \$5,000,000 is for the Agency for Healthcare Research and Quality.

The conferees note that funds requested within this account for the Substance Abuse and Mental Health Services Administration, Poison Control, and Emergency Medical Services for Children have been provided within the accounts of their respective agencies. This brings the comparable total for the Public Health and Social Services Emergency Fund to \$2,298,680,000.

Within the amounts available to the Centers for Disease Control and Prevention (CDC): \$940,000,000 is for State and Local Preparedness, \$143,700,000 is for Upgrading CDC Capacity; \$300,000,000 is for the National Pharmaceutical Stockpile; \$100,000,000 is for Smallpox Vaccine, \$20,000,000 is for security; \$18,040,000 is for the third year of a collaborative research program on anthrax vaccine; \$10,700,000 is for Planning for Preparedness Response; \$4,000,000 is for Deterrence; and \$2,000,000 is to continue to discover, develop, and transition anti-infective agents to combat emerging diseases. The conference agreement also includes an increase of \$5,000,000 for Public Health Preparedness Centers as proposed by the Senate.

The conferees understand that any countermeasures recommended by the Federal government pursuant to the Homeland Security Act (including, but not limited to vaccines) would be made available to civilians on a voluntary basis. Nothing in the Homeland Security Act would allow the Federal government to mandate the administration of a covered countermeasure to civilians.

The conferees concur with language in the Senate explanatory statement urging the Director to move expeditiously to analyze CDC's communication mechanisms and develop a comprehensive plan to ensure the fast, accurate, and accessible flow of information to the relevant health and public safety professionals and to the public. The conferees request that the Director report to the Committees on Appropriations within 6 months of enactment of this Act regarding the specific plan of action resulting from this review.

The conferees understand that the CDC plans to study both the health effects of anthrax exposure and of measures taken to treat or prevent anthrax infection. The conferees request the CDC report to the Committees within 90 days on its plan for these studies.

Within the funds available to the Health Resources and Services Administration (HRSA) is \$518,000,000 for Hospital Preparedness and \$28,000,000 to provide educational incentives for medical school curriculum. The conferees encourage HRSA to consider requiring that a statewide assessment of emergency medical services preparedness needs in the event of a public health emergency and a plan to address those needs be part of the State application for hospital preparedness funds.

The agreement includes \$2,000,000 within funds provided to the Office of Public Health and Science for activities related to the transformation and modernization of the Public Health Service Commissioned Corps.

The conferees encourage the Department of Health and Human Services to give priority to the study of plants as vehicles for the production of vaccines.

The conferees request the Department to submit a report to the Committees on Appropriations within 45 days of enactment of this Act detailing the amounts of fiscal year 2002 State and Local Preparedness funds that:

(a) Each State spent, or plans to spend, to directly benefit or improve local public health capacity; and

(b) The amount each State has directly granted to local public health agencies.

GENERAL PROVISIONS

SECRETARY'S RECEPTION EXPENSES

The conference agreement includes a provision increasing the limit on the Secretary's entertainment expenses to \$50,000 from \$37,000 as proposed by the Senate. H.R. 246 included a provision retaining this limit at \$37,000.

EVALUATION TAP

The conference agreement includes a provision to allow for a 2.1 percent evaluation tap pursuant to section 241 of the Public Health Service Act. This tap is to be applied to programs authorized under the Public Service Act. H.R. 246 and the Senate bill contained a provision to allow for a 1.25 percent evaluation tap. The Senate bill proposed allowing a tap of funds authorized under the Public Health Service Act and other acts. H.R. 246 proposed allowing a tap of funds on funds authorized under the PHS Act.

TRANSFER AUTHORITY

The conference agreement includes language permitting the Secretary of HHS to transfer up to one percent of discretionary funds between appropriations, with up to an additional 2 percent subject to approval of the Appropriations Committees. The traditional language is retained that permits the transfer of funds appropriated for HHS in this Act and any other acts as proposed by

H.R. 246. The Senate bill proposed the transfer of funds appropriated only under this Act.

REFUGEE STATUS OF CERTAIN PERSECUTED GROUPS

The conference agreement includes a provision proposed by the Senate to extend the refugee status for persecuted religious groups. H.R. 246 contained no similar provision.

GLOBAL HIV/AIDS TRANSFER FUND

The conference agreement does not include a general provision proposed by H.R. 246 to transfer \$100,000,000 from the National Institutes of Health as allocated by the Director of NIH to International Assistance Programs, "Global Fund to Fight HIV/AIDS, Malaria, and Tuberculosis". The conference agreement provides for this transfer within the National Institute of Allergy and Infectious Disease as proposed by the Senate.

CENTERS FOR DISEASE CONTROL AND PREVENTION INTERNATIONAL ACTIVITIES

The general provision included in both H.R. 246 and the Senate bill relating to authorities to carry out international health activities is amended to clarify the relationship between the Department of Health and Human Services and the Department of State in supporting employees and providing secure facilities overseas.

OLDER AMERICANS NUTRITION PROGRAMS

The conference agreement includes a provision proposed by the Senate to amend the Older Americans Act and transfer the Nutrition Services Incentives Program from its current location in the U.S. Department of Agriculture to the Administration on Aging within the U.S. Department of Health and Human Services. The language also maintains access to commodities within USDA. H.R. 246 contained no similar provision.

PARKINSON'S DISEASE RESEARCH CENTERS

The conference agreement includes language proposed by the Senate overriding the Public Health Service Act limit on the number of Parkinson's disease research centers that may be supported by the National Institutes of Health. H.R. 246 contained no similar provision.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM

The conference agreement includes a provision that transfers \$100,000,000 in LIHEAP emergency funds to the regular formula program. The Senate bill included a transfer of \$300,000,000 in LIHEAP emergency funds to the regular formula program. H.R. 246 contained no similar provision. Between passage of the Senate bill and conference, the Department of Health and Human Services released \$200,000,000 in LIHEAP emergency funds; this conference agreement includes a transfer of the full \$100,000,000 remaining in the emergency account to the regular formula program. It is the intent of the conferees that these funds, in addition to the \$1,700,000,000 in new budget authority provided in this Act, shall

be allocated under the regular state grant formula, providing a program level of \$1,800,000,000 for the fiscal year 2003.

NURSE REINVESTMENT ACT FUNDING

The conference agreement does not include a general provision proposed by the Senate providing an additional \$20,000,000 for activities authorized under the Nurse Reinvestment Act. The conference agreement instead incorporates this funding into the regular appropriation provided for the Health Resources and Services Administration. H.R. 246 contained no similar provision.

GRANTS FOR THE PURCHASE OF ULTRASOUND EQUIPMENT

The conference agreement does not include a general provision proposed by the Senate authorizing a new HHS grants program to purchase ultrasound equipment. H.R. 246 contained no similar provision.

HEAD START

The conference agreement includes a provision proposed by the Senate to exempt the Head Start program from the across-the-board reduction. H.R. 246 contained no similar provision.

TITLE III—DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$13,853,400,000 for Education for the Disadvantaged instead of \$12,936,900,000 as proposed by H.R. 246 and \$18,178,400,000 as proposed by the Senate. The agreement includes advance funding for this account of \$9,027,301,000 instead of \$6,883,301,000 as proposed by H.R. 246 and \$8,627,301,000 as proposed by the Senate.

Title I: Grants to LEAs

For Grants to Local Educational Agencies (LEAs) the agreement provides \$11,750,000,000 instead of \$10,850,000,000 as proposed by H.R. 246 and \$16,350,000,000 as proposed by the Senate. The conference agreement includes \$7,172,971,000 for basic grants and \$1,365,031,000 for concentration grants. The agreement also includes \$1,670,239,000 for targeted grants, and \$1,541,759,000 for education finance incentive grants. Concentration grants, targeted grants, and incentive grants are all provided on an advance-funded basis.

H.R. 246 proposed \$7,172,971,000 for basic grants, \$1,365,031,000 for concentration grants, \$1,518,499,000 for targeted grants and \$793,499,000 for education finance incentive grants. The Senate bill proposed \$7,172,971,000 for basic grants, \$1,365,031,000 for concentration grants, \$1,405,999,000 for targeted grants, and \$1,405,999,000 for education finance incentive grants.

Even Start and Literacy

The conference agreement includes \$250,000,000 for the Even Start program as proposed by H.R. 246 instead of \$200,000,000 as proposed by the Senate.

The conference agreement also includes \$12,500,000 for Literacy through School Libraries as proposed by H.R. 246 instead of \$15,000,000 as proposed by the Senate.

Migrant and Neglected & Delinquent Education

The conference agreement includes \$398,000,000 for the migrant education program instead of \$396,000,000 as proposed by H.R. 246 and \$400,000,000 as proposed by the Senate. The agreement also includes \$49,000,000 for neglected and delinquent youth instead of \$48,000,000 as proposed by H.R. 246 and \$50,000,000 as proposed by the Senate.

Comprehensive School Reform

The conference agreement includes \$235,000,000 for comprehensive school reform (CSR) authorized under part F of the No Child Left Behind Act as proposed by H.R. 246. The Senate bill did not include funds for this activity.

The conferees urge the Department to work vigorously with the States to ensure that States award CSR funds for those comprehensive school reform models that have the strongest evidence of positive effects on student achievement. In addition, the conferees encourage the Department to clarify in its guidance to States that middle and high schools, as well as elementary schools, are eligible to receive CSR grants.

The conferees are concerned about the Department's delay in the release of fiscal year 2002 funds—appropriated more than a year ago—that are reserved for quality initiatives under the comprehensive school reform program, as authorized under section 1608 of the Elementary and Secondary Education Act. The conferees strongly urge the Department to expeditiously make these funds available for these important quality initiatives. These activities will expand the availability of independent, credible, and timely information to schools, districts and other consumers on the effectiveness and quality of selected comprehensive school reforms. Further, these activities will enhance the ability of providers of CSR models to deliver services at a national scale (by providing innovative financial support to improve educational services, solid business planning, and other technical assistance). In addition, the conferees expect the Department to utilize the entire three percent set-aside authorized under section 1608 in fiscal year 2003, to continue funding these quality improvement activities, and to fund those organizations most suited to carry out these activities. The conferees expect to be consulted prior to the release of these funds for fiscal year 2003.

Dropout Prevention, Advanced Placement Fees and Migrant Programs

The conference agreement includes \$11,000,000 for dropout prevention programs, instead of \$13,000,000 as proposed by the Senate. H.R. 246 did not provide funding for this program.

The conference agreement also includes \$23,500,000 for advanced placement fees instead of \$22,000,000 as proposed by H.R. 246 and \$25,000,000 as proposed by the Senate. The conference agreement also includes \$23,500,000 for high school equivalency program instead of \$23,000,000 as proposed by H.R. 246 and \$24,000,000 as proposed by the Senate and \$15,500,000 for college assistance migrant program instead of \$15,000,000 as proposed by H.R. 246 and \$16,000,000 as proposed by the Senate.

IMPACT AID

The conference agreement includes \$1,196,000,000 for the Impact Aid programs instead of \$1,185,000,000 as proposed by H.R. 246 and \$1,176,500,000 as proposed by the Senate. Within this amount, \$1,032,000,000 is provided for basic support payments instead of \$1,022,000,000 as proposed by H.R. 246 and \$1,012,500,000 as proposed by the Senate; \$51,000,000 is provided for payments for children with disabilities instead of \$50,000,000 as proposed by H.R. 246 and \$52,000,000 as proposed by the Senate; \$45,000,000 is provided for construction as proposed by H.R. 246 instead of \$47,000,000 as proposed by the Senate; and \$60,000,000 is provided for payments for federal property as proposed by H.R. 246 instead of \$57,000,000 as proposed by the Senate.

SCHOOL IMPROVEMENT PROGRAMS

The conference agreement includes \$8,052,957,000 for School Improvement Programs instead of \$7,347,584,000 as proposed by H.R. 246 and \$7,788,329,000 as proposed by the Senate. The agreement provides \$6,287,957,000 in fiscal year 2003 and \$1,765,000,000 in fiscal year 2004 funding for this account.

Improving Teacher Quality

The conference agreement includes \$2,950,000,000 for State grants for improving teacher quality as proposed by H.R. 246 instead of \$2,850,000,000 as proposed by the Senate. Of this amount, \$1,150,000,000 is provided as a fiscal year 2004 advance as proposed by the Senate instead of \$1,650,000,000 as proposed by H.R. 246.

The conference agreement also includes \$12,500,000 for school leadership activities instead of \$10,000,000 as proposed by H.R. 246 and \$15,000,000 as proposed by the Senate. The agreement also includes \$15,000,000 for the early childhood educator professional development grants program, as proposed by the Senate. H.R. 246 did not include funding for this activity.

The conference agreement also includes \$101,000,000 for math and science partnerships, instead of \$100,000,000 as proposed by H.R. 246 and \$25,000,000 as proposed by the Senate. The conference agreement includes \$29,000,000 for the Troops-to-Teachers program instead of \$30,000,000 as proposed by H.R. 246 and \$20,000,000 as proposed by the Senate. The agreement also includes \$42,000,000 for Transition to Teaching instead of \$47,000,000 as proposed by H.R. 246 and \$35,000,000 as proposed by the Senate.

The agreement also includes \$23,000,000 for the Ready to Learn program instead of \$22,000,000 as proposed by H.R. 246 and \$24,000,000 as proposed by the Senate, and \$62,500,000 for teacher training in technology as proposed by the Senate, H.R. 246 did not include funding for this activity.

Safe and Drug Free Schools

The conference agreement includes \$628,213,000 for the Safe and Drug Free Schools and Communities Act instead of \$644,250,000 as proposed by both H.R. 246 and the Senate.

Included within this amount is \$472,017,000 for State grants as proposed by H.R. 246 instead of \$482,017,000 as proposed by the Senate.

The agreement also includes \$156,196,000 for national programs instead of \$172,233,000 as proposed by H.R. 246 and \$162,233,000 as proposed by the Senate.

The conferees include \$30,000,000 within the amount for national programs for initiatives to improve school safety and security, as proposed in the fiscal year 2003 request. These funds should focus on strengthening school emergency response and crisis management plans; training school personnel, students and parents in emergency response procedures; and coordinating with local law enforcement, public safety, health and mental health agencies—continuing an initiative begun by Congress in fiscal year 2002. The agreement also includes \$5,000,000 for Project SERV as proposed by the Senate instead of \$10,000,000 as proposed in H.R. 246.

Modifications made to the Safe and Drug Free Schools Program in section 4114(a)(1) of the No Child Left Behind Act may have created dramatic changes in funding for some LEAs. The conferees understand that no data have been compiled to show the nationwide breakdown of these funding changes at the LEA level. Therefore, the conferees request that the Department gather this information and report back to Congress no later than May 1, 2004 with its findings.

Credit Enhancement for Charter Schools

The conference agreement includes \$25,000,000 for credit enhancement for charter schools instead of \$50,000,000 as proposed by H.R. 246. The Senate bill did not include funding for this activity.

Public School Choice

The conference agreement includes \$26,000,000 to support voluntary public school choice programs instead of \$25,000,000 as proposed by H.R. 246 and \$27,584,000 as proposed by the Senate.

Education for Homeless Children and Youth

The conference agreement includes \$55,000,000 for Education for Homeless Children and Youth as proposed by H.R. 246 instead of \$54,000,000 as proposed by the Senate.

Education of Native Hawaiians

The conference agreement includes \$31,000,000 for the Education of Native Hawaiians instead of \$32,500,000 as proposed by the Senate and \$18,300,000 as proposed by H.R. 246. The agreement also includes language to allow funds under this program to be used for construction, renovation and modernization of any elementary school, secondary school, or structure related to an elementary school or secondary school run by the Department of Education of the State of Hawaii that serves a predominantly Native Hawaiian student body. Neither H.R. 246 nor the Senate bill contained this provision. The conferees urge the Department to provide \$500,000 for school construction/renovation and at least \$500,000 for early childhood education.

Alaska Native Educational Equity

The conference agreement includes \$31,000,000 for the Alaska Native Educational Equity program instead of \$32,500,000 as proposed by the Senate and \$14,200,000 as proposed by H.R. 246. The agreement also includes language to allow funds under this program to be used for construction. Neither H.R. 246 nor the Senate bill contained this provision.

Rural Education

The conference agreement includes \$168,750,000 for rural education programs, instead of \$162,500,000 as proposed by H.R. 246 and \$175,000,000 as proposed by the Senate.

Fund for the Improvement of Education (FIE)

The conference agreement includes \$814,660,000 for the Fund for the Improvement of Education.

Within the total for FIE, the conference agreement includes funding for the following activities in the following amounts:

Character Education	\$25,000,000
Reading is Fundamental	25,500,000
School Counseling	32,500,000
Javits Gifted and Talented Education	11,250,000
Star Schools	27,520,000
Ready to Teach	14,500,000
Foreign Language Assistance	16,250,000
Carol M. White Physical Education for Progress	60,000,000
Community Based Technology Centers	32,475,000
Exchanges with Historic Whaling and Trading Partners	7,000,000
Parental Assistance Information Centers	42,500,000
Women's Educational Equity	3,000,000

The conference agreement includes \$75,000,000 for comprehensive school reform grants to local educational agencies as proposed by H.R. 246. The Senate bill did not include funding for this activity. These funds shall support grants to States for continuing and new subgrants to local educational agencies for comprehensive school reform activities in both title 1 and non-title 1 eligible schools. The bill includes language specifying that these funds shall be allocated and expended in the same manner as in fiscal year 2002 and provides the funds on a forward funding basis.

The conference agreement also includes \$1,639,000 for continuation funding for the national clearinghouse on comprehensive school reform.

The conference agreement also includes \$162,000,000 for the smaller learning communities program, instead of \$142,000,000 as proposed by H.R. 246. The Senate did not include funding for this program. As in past years, the conference agreement provides the funds on a forward funded basis and specifies that these funds shall be used only for activities related to the redesign of large high schools enrolling 1,000 or more students.

The conferees are concerned that the Department did not consult with the Appropriations Committees on the fiscal year 2002 program guidance and application for the smaller learning communities program as requested in House Report 107-229. The conferees do not agree with the competitive preference for certain grant applicants proposed by the Department for the fiscal year 2002 competition and direct the Secretary to revise the grant application to remove this preference. The conferees believe that applicants for assistance under this program should be evaluated solely on the quality of their proposals to improve the learning environment for students within their current educational setting. The program guidance should also clarify that smaller learning community funds may be used to support the initial planning for, and operation of, new small schools as well as the redesign of existing schools into smaller learning units.

The conferees are also concerned about the Department's inability to hold timely grant competitions for this program in fiscal years 2001 and 2002. The fiscal year 2001 grant competition was delayed, and the 2002 grant competition is far behind schedule. Accordingly, the conferees direct the Department to publish the smaller learning communities program application for fiscal year 2002 grants not later than February 28, 2003. If the Department is unable to meet this deadline, the conferees request a letter report from the Department to the House and Senate Committees on Appropriations by that date, which explains why the Department is unable to meet this deadline, indicates when the Department will announce the fiscal year 2002 competition, and outlines the steps the Department will take to prevent delays in the fiscal year 2003 smaller learning communities grant competition.

The conferees have a strong interest in this program and are displeased that the Department has not only failed to consult with the Appropriations Committees, but also has not responded to requests for basic information about how program funds will be utilized. The conferees expect that the Department will consult fully with the Appropriations Committees prior to the release of the fiscal year 2003 program guidance for the smaller learning communities program. Further, the Department should develop a balanced plan for outreach, networking, and technical assistance activities during fiscal year 2003 to ensure that school districts are aware that small schools and smaller learning communities are effective, research-based strategies to improve academic achievement, attendance, and safety. The Department should be prepared to discuss these matters during hearings on its fiscal year 2004 budget request.

For Arts in Education, the conference agreement includes \$34,000,000 instead of \$36,000,000 as proposed by the Senate. H.R. 246 did not specify separate funding for this line item. The conferees provide that within this total, \$7,000,000 is for Very Special Arts, \$6,000,000 is for the John F. Kennedy Center for the Performing Arts, and \$1,500,000 is to be used to continue a youth violence prevention initiative. In addition, \$4,000,000 is for cultural partnerships, \$6,500,000 is for model professional development programs for music, drama, dance and visual arts educators and \$500,000 is for evaluation activities. The remaining \$8,500,000 is available to continue model arts programs. The conferees have made significant investments over the past couple of years in funding model arts programs, professional development activities and cultural partnerships for at risk youth. The conferees intend that the \$500,000 provided for evaluation shall be used to begin reviewing and evaluating competitive grants funded through this program. The conferees further intend that information about best practices and model programs identified during this review and evaluation process should be disseminated widely, in order to maximize the significant benefits of these targeted investments.

The conference agreement includes \$15,000,000 for teacher quality initiatives, as requested by the Administration. The conferees intend that these funds be awarded for initiatives such as the following: to identify research-based competencies that all new teachers should possess and to develop related, rigorous assessments; to infuse research-based reading instruction into pre-service teacher preparation programs; to provide technical assistance to alternative route programs to ensure quality; to determine the adequacy and effectiveness of mentoring and professional development to teachers entering the profession via alternative route programs and to identify the retention rates of those teachers; and to identify issues relating to teacher mobility. The conferees share the Administration's interest in initiatives to improve teacher quality and request that the Department provide the House and Senate Committees on Appropriations with a detailed summary of the types of projects proposed to be supported prior to any funds being awarded.

Within the total for FIE, the following amounts are also provided:

Academy of Natural Sciences, Philadelphia, PA, for the development and delivery of natural sciences educational programming for children and the general public	\$150,000
After the Bell Program in Soldotna, Alaska for after school programs involving community, parents and at-risk youth	100,000
Alaska Department of Education for its "Parents as Teachers" program	1,250,000
Alaska Department of Education for its "Qualified Teachers for Alaska" program	1,500,000
Alaska Department of Education with the Alaska SeaLife Center, the Kenai Challenger Learning Center, the Kenai River Center, in consultation with federal and state scientists, and federal resource management agencies, for a science and distance education	250,000
Alaska Department of Education's Remedial Summer Tutoring Program	700,000
Alaska Humanities Forum to develop Alaska State history texts and curriculum, including oral history, for use in Alaska schools.	400,000

Allegheny Conference on Community Development, Pittsburgh, PA, in collaboration with the War for Empire Consortium, for education programs and activities to commemorate the 250th anniversary of the French and Indian War	50,000
Allentown Civic Theater, PA, for education programs	200,000
Alliance Neighborhood Center, Alliance, Ohio, for program/curriculum for the Apple Seed Project	250,000
American Academy of Liberal Education, Washington, D.C., to develop projects and survey best practices in the study of American democracy and principals of free government at colleges and universities	100,000
American Cities Foundation, Philadelphia, PA, for mentoring, academic, enrichment, and counseling programs for at-risk students	250,000
American Film Institute Screen Education Center and Initiative for arts education curriculum development and teacher training	500,000
American Foundation for Negro Affairs (AFNA) National Education and Research Fund, Philadelphia, PA, to raise the achievement levels of minority students and increase minority access to higher education	650,000
American Red Cross, Southeastern Pennsylvania Chapter, Philadelphia, PA, for education programs	25,000
American Society of Educators, Philadelphia, PA, for instructional technologies, professional development seminars and to develop and distribute technological guides for educators	50,000
American Theater Arts for Youth Program, Philadelphia, Pennsylvania, to continue to provide workshop residencies	75,000
AMISTAD America, Inc., to expand educational programs and materials	800,000
An Achievable Dream, Newport News, Virginia, to expand its curriculum and college preparation program	500,000
Anchorage Museum of History and Art and Alaska Humanities Forum to develop curriculum on Alaskan culture and art for Alaska schools	250,000
Anderson School District in Anderson, Alaska, for a program to provide distance learning and related materials to small schools in rural Alaska meet the requirements of No Child Left Behind Act	100,000
Antigo School District, WI, for after school programs	300,000
Appomattox Regional Governor's School for the Arts and Technology, Petersburg, Virginia, for equipment and technology infrastructure	500,000
Arden Theatre, Co., Philadelphia PA, to expand the Arden for All program, to make the arts accessible to economically challenged schools, as well as performances interpreted in American Sign Language	25,000
Artspace Projects, Inc., Minneapolis, MN, to expand arts education programming for youth, including technology upgrades for distance learning	200,000
Ashland School District, WI, for after school programs	670,000
Association of Community Ministries, Louisville, Kentucky, for educational programs and community-based services	50,000
Audubon Nature Institute, Inc., New Orleans, Louisiana, after-school project	100,000
Baldwin Park Unified School District, Baldwin Park, CA, for the Baldwin Park Technology Achievement Academies	250,000
Benchmark School, PA, for reading instruction and other education programs	75,000
Berea Children's Home School-Age Skills Enhancement (SASE) Program, Berea, Ohio	162,000
Big Brothers/Big Sisters of Anchorage, Fairbanks, and Southeast Alaska, in partnership with Alaska Dept. of Education, the Boys and Girls Club and Cook Inlet Tribal Council to develop and implement a comprehensive mentoring program for at-risk children	400,000
Big Top Chautauqua, Washburn, WI, for educational programs	500,000
Birchwood School District, WI, for after school programs	240,000

Boricua College, Brooklyn, NY, for personnel, curricula, teacher trainees, and other expenses to expand technology training at local public school sites	100,000
Boston History Collaborative to expand history-based education programs in public schools	50,000

Phillips School District, WI, for after school programs	270,000
Pico Union Family Resource Center, Los Angeles, CA, to expand education programs for youth and adults	100,000
Pinellas County Florida School District, St. Petersburg, Florida, for technology for Title I schools	2,000,000
Pittsburgh Cultural Trust, Pittsburgh, PA, to assist educators with professional development programs that include workshops and live performances and to bring area students to the theater for curriculum-based programs	100,000
Pittsburgh Digital Greenhouse, Pittsburgh, PA, to develop high tech curriculum in the Allegheny County area through a collaborative effort with Penn State University, University of Pittsburgh, and Carnegie Mellon University	250,000
Pittsburgh Symphony for an education and outreach program	350,000
Pittsburgh Technology Council, Pittsburgh, Pennsylvania, for training and technology upgrades	300,000
Pittsburgh Voyager, PA for math and science education programs	250,000
Plymouth Christian Youth Center, Minneapolis, MN, to expand arts education, after school, technology training, and other education programs	300,000
Plymouth Community Renewal Center, Louisville, Kentucky, for after school programs	15,000
Pomona Unified School District, Pomona, CA, for a Teacher Literacy Training and Technology program	400,000
Port Chester-Rye Union Free School District, Port Chester, NY, for extended day and other expenses to implement the community schools model in up to three schools	600,000
Prince Music Theater, Philadelphia, PA, to develop a comprehensive in-school and after-school program to provide at-risk youth with education and training in the arts	50,000
Prince William County Public Schools, Manassas, Virginia, for Middle School Reading and Mathematics Remediation Program	300,000

Pro Sports Outreach	50,000
Project 2000, Washington, DC, to support the continuation of Project 2000, including after-school and weekend programs which provide academic support and educational mentoring services to inner city youth in low-income housing developments in Southeastern	125,000
Project GRAD-USA Inc., in Houston, Texas for continued support and expansion of the successful school reform program	20,000,000
Project H.O.M.E., Philadelphia, PA, for the planning and design of the Honickman Roberts Learning Center, to provide technology and computer education, youth academic enrichment, after-school programming, and adult instruction to disadvantaged residents ..	100,000
Project Intercept Inc., Brooklyn, NY, for mentoring programs, guidance counselors, and training for teachers, principals, and parents	200,000
Project Rainbow, Philadelphia, PA, to provide early childhood services and after-school programs as a means to address the root causes of homelessness	250,000
Public Affairs Research Council, Baton Rouge, Louisiana, for the Louisiana's District Accountability Program	100,000
Public School District 31, Staten Island, New York for library books for 4th and 5th graders	500,000
Public/Private Ventures, Philadelphia, PA, for the continued operation and expansion of the Youth Education for Tomorrow Center, as part of an after-school, literacy initiative	50,000
Range Association of Municipalities and Schools, Buhl, MN, for a technology-based teacher education program serving rural school districts in northeastern Minnesota	250,000
Ravenswood City School District, East Palo Alto, CA, for an e-learning pilot program at Belle Haven Elementary School in Menlo Park	250,000
Reach Out and Read	3,000,000
ReadNet Foundation, New York, NY, to fully implement web-based simulation educational program	100,000
Realworld Schools, Inc., Fresno, CA, for personnel, curricula, professional development, equipment and other expenses to establish the El Paso Realworld School	150,000
Recognizing Achievement-Rewarding Excellence (R.A.R.E.) Foundation, Troy, Michigan, to give teachers effective tools to motivate students in constructive career paths	300,000
Reuben Lindh Family Services, Minneapolis, MN, for its "Family Focus" preschool education program	600,000
Riverside County Office of Education, Riverside, California, to further implement and develop County Achievement Team model	500,000
Robbie Valentine STARS Club Education Program, Jeffersonville, Indiana, for sports-related mentoring program in Louisville, Kentucky	40,000
Rutgers University Law School to support a scholarship fund, public interest activities, and its work with the LEAP Academy Charter School, including the purchase of books and equipment	500,000
Rye Neck Union Free School District, Mamaroneck, NY, to implement a school-wide enrichment model program	20,000
Sacramento Housing and Redevelopment Agency, CA, in coordination with the Sacramento City Unified School District, for early childhood education, after school and parental support programs for students in the Franklin Villa community	400,000
Salt Lake City School District, Salt Lake City, Utah for an english as a second language project	200,000
San Bernadino County Superintendent of Schools, CA, to expand schools-to-careers initiatives, including the Virtual Hi-Tech High Program, the Virtual Career Library and teacher training activities	500,000
San Juan Unified School District, Carmichael, California for Focus on Literacy program	217,000
San Pasqual Academy, Escondido, California, for technology infrastructure	225,000

Santa Barbara Community Youth Performing Arts Center, Santa Barbara, CA, for salaries and expenses for the Santa Barbara Junior High Theatre	100,000
Santa Barbara High School District, Santa Barbara, CA, for the San Marcos High School Health Careers Academy	50,000
School District 24J, Salem, OR, for the West Salem High School technology program	100,000
School District of Bayfield, WI, for after school programs	295,000
School District of Beloit, WI, for telecommunications equipment and upgrades	150,000
School District of Flambeau, Tony, WI, for equipment and technology to create a national parks virtual reality education program	50,000
School District of Palm Beach County, FL, for a family literacy project including bilingual education, counseling services and distance education, and for curricula and professional development Science and Technology Museum of Georgia, Inc., Atlanta, Georgia, for SciTrekChallenger Learning Center project	700,000
ScienceSouth, Inc., Florence, South Carolina, for science education programs, science traveling exhibits, and outreach activities	50,000
Sedro-Woolley School District, Mt. Vernon, WA, in collaboration with the Pacific Northwest Trail Association, for the Service Knowledge Youth (SKY) Education Program	100,000
Selma Youth Development Center, Selma, AL, for an "at-risk" youth intervention and training program, including professional development, school-to-work training, and conflict resolution activities	300,000
Semos Unlimited, Inc., Santa Fe, NM, to develop bilingual education materials and programs	500,000
Sewickley Area YMCA, PA for education initiatives	125,000
Shiloh Community Renewal Center, Louisville, Kentucky, for after school programs	50,000
Sioux City Community School District in Sioux City, IA to continue and expand the implementation of testing software in Iowa	800,000
Society of St. Vincent de Paul, Detroit, Michigan, for after school program	250,000
Somerset Independent Schools, Somerset, Kentucky, for High School Technology Academy	80,000
South Cook Education Consortium, Hazel Crest, IL, for its "PowerUP" education technology enhancement initiative	175,000
South County Family Educational and Cultural Center, Grover Beach, CA, for the "Computers to Youth" program and to expand education programs for students	55,000
South Shore Drill Team and Performing Arts Ensemble, Chicago, IL, for after school educational services for at-risk students	50,000
Southeast Associated Ministries, Inc., Louisville, Kentucky, for after school programs	20,000
Southeastern Pennsylvania Consortium for Higher Education (SEPCHE), Philadelphia, PA, to develop "global curriculum" challenging students to develop their knowledge of foreign languages and culture	750,000
Southern Star Development Corporation, Louisville, Kentucky, for after school programs	20,000
Space Education Initiatives Inc., Green Bay, Wisconsin, for professional development programs and technology	500,000
Springfield Public School District #19, Springfield, OR, for the "Schools Plus Plus" initiative to expand after school, academic and family outreach initiatives	500,000
St. Boniface Neighborhood Outreach Program, Inc., Louisville, Kentucky, for after school programs	50,000
St. Charles Parish School Board, Louisiana, for technology enhancements	42,000
St. Louis Children's Museum, MO, for a collaborative project with the St. Louis Public Library to create interactive exhibits and educational programs	500,000
St. Stephens Family Life Center, Louisville, Kentucky, for after school programs	50,000

St. Tammany Parish School Board, Louisiana, for technology enhancements	55,000
Stark County Park District, Canton, Ohio, for "Electronic Education Gateway" project	500,000
State College YMCA, PA for education initiatives	150,000
State of Alaska for Right Start extended-day kindergarten program	1,100,000
State of Utah, Office of Education for a computerized assessment demonstration project	700,000
Stevens Point Area School District, WI, to implement smaller learning communities	1,500,000
Superior School District, WI, for after school programs	500,000
Tacoma Public Schools, Tacoma, WA, to implement an online learning pilot project	200,000
Tangipahoa Parish School Board, Louisiana, for technology enhancements	42,000
Teach for America, New York, New York	1,000,000
Teen Tyme Productions, Inc., Anchorage, Kentucky, for positive broadcasting programs for teens	10,000
Temple Community Development Corporation, Louisville, Kentucky, C.A.N. Program for after school programs	50,000
Tensas Reunion, Inc., Newellton, LA, for instructional, technology training, and after school programs at the Tensas Charter School	200,000
Texas A&M University, Corpus Christi, TX, for education and training services at its Early Childhood Development Center	350,000
Texas Tech University System, Lubbock, Texas, to expand opportunities in math and science education for K-14 rural school districts	500,000
The Cleveland Museum of Art, Cleveland, Ohio, for ARTS.21 program	500,000
The First Tee, St. Augustine, Florida, to train instructors about how to teach the core values	1,000,000
The Gibson Foundation, Santa Monica, CA, for music education programs	250,000
The Lighthouse—A United Methodist Community Center, Louisville, Kentucky, for after school programs	30,000
The Opera Company of Philadelphia, PA for educational programs	200,000
Thornton Township High School District 205, South Holland, IL, for professional development, technology, technical assistance and other expenses to implement high school reform activities	500,000
Tides Foundation, for McKelvey entrepreneurial college scholarships to rural, low income Pennsylvania high school graduates	300,000
Tiskelwah Community Center, Charleston, West Virginia, for at-risk youth and young adult program	100,000
Tiskelwah Community Center, Charleston, West Virginia, for the Bob Burdette after school program	150,000
Titusville Area Senior High School, Titusville, Pennsylvania, for technology infrastructure	150,000
Today Foundation, Dallas, Texas, for the development of an Internet-based learning program	100,000
Toledo Public Schools, OH, for educational services for at-risk students and their families as part of the Toledo education-housing partnership pilot program	225,000
Town of Cumberland School Department for the comprehensive Middle School Education initiative	150,000
Trinity Family Life Center, Louisville, Kentucky, for after school programs	30,000
Tuckahoe Union Free School District, Eastchester, NY, for an external audit of district programs and practices, and for after school services	33,000
U.S. Dream Academy, Inc., Columbia, MD, to improve and maintain Dream Academy Learning Centers and after school programs for at-risk children with a family history of incarceration	600,000
Union Parish Public School System, LA, to implement an online assessment and interactive instructional program	200,000
United Crescent Hill Ministries, Inc., Louisville, Kentucky, for after school programs	25,000

University of Alaska Center for Excellence in Schools to assist Alaska's low performing schools with meeting the requirements of new state educational standard	1,000,000
University of Alaska Museum in Fairbanks for educational programs related in support of the Summer Arts Festival	150,000
University of Alaska System for Early Education Development program for SEED (System for Early Education Development) program to expand early childhood services for children ages 0-6 and to train Early Head Start teachers with AAS degrees for positions	1,800,000
University of Iowa for the Iowa and Israel: Partners in Excellence program to enhance math and science opportunities to rural Iowa students	200,000
University of Maine, Coaching Education Initiative to support a research-based curriculum development and community awareness program	400,000
University of North Texas and Paul Quinn College for a math and science teacher academy	250,000
University of Northern Iowa, in collaboration with the Waterloo Community Schools for the expansion of an early childhood development center	1,500,000
University of Pennsylvania, Graduate School of Education, PA, to establish a teacher professional development center at the University of Pennsylvania-assisted neighborhood school	1,000,000
University of South Alabama, Mobile, Alabama for the Preparatory Music Program	50,000
University of South Florida, Tampa, FL, for the Tampa Bay Consortium for the Development of Educational Leaders and the Preparation and Recruitment of Teachers	100,000
University of Southern Mississippi, Frances A. Karnes Center for Gifted Studies, Hattiesburg, Mississippi, to expand gifted student summer programs	200,000
University of Texas at Tyler, TX, for math and science teacher training and curriculum development	350,000
University of West Florida, Pensacola, Florida, for Support for Teachers Enhancing Performance in Schools	500,000
Urban League of Metropolitan Denver, CO, to expand the "Urban Adventures" after school program to additional sites	350,000
Utica Zoological Society, Utica, New York, to update the educational facilities and Teacher Resource Center and update equipment	250,000
Vancouver Public Schools, Vancouver, WA, for personnel, technology, and other expenses to expand the Personalized Learning in a Connected Community Initiative	333,000
Venango County AVTS, Oil City, Pennsylvania, for technology infrastructure	100,000
Virginia Commonwealth University, Richmond, VA, for the Great Cities' Universities Urban Educator Corps Partnership Initiative	350,000
Virginia War Memorial Educational Foundation in Richmond, Virginia for program development associated with the Virginians' At War project	150,000
Voyager Expanded Learning, Dallas, Texas, to implement the Voyager Universal Literacy System demonstration in the Ohio public schools	575,000
Warwick After-School Program in Warwick, Rhode Island to establish a middle school after-school program	300,000
Washington Office of the Superintendent of Public Instruction, State of Washington, for development of a student data database	500,000
Washington Parish School Board, Louisiana, for technology enhancements	25,000
Wausau School District, WI, for foreign language, music and other education programs	650,000
Webster Groves School District, St. Louis, MO, for computers, and technology equipment and training	50,000
West Ed Eisenhower Regional Consortium for Science and Mathematics, San Francisco, California, for 24 Challenge and Jumping Levels Math	225,000

West Philadelphia YMCA, Philadelphia, PA, for educational and recreational programming to serve at-risk youth	250,000
West Valley City in Utah for program improvement and technology acquisition for an after school families program	250,000
Westchester Philharmonic, Hartsdale, NY, for music education programs	150,000
West Ed Eisenhower Regional Consortium for Science and Mathematics, Philadelphia, PA, for statewide expansion educational programs and curriculum	125,000
Western Governors University, Salt Lake City, Utah, for distance education programs	1,300,000
Westernaires in Golden, Colorado for outreach and educational programs for at risk youth	500,000
Westside High School, Bakersfield, California, for equipment	20,000
Wichita Public School District for staff development	250,000
Wisconsin Educational Partnerships, Inc., Chippewa Falls, WI, for a teacher professional development initiative	650,000
WQLN Educational Services, Erie, PA, to expand the F.A.M.I.L.I.E.S. Turn onto Literacy program which emphasizes entire family involvement in teaching a child to learn to read	75,000
YMCA of Anchorage for after-school enrichment programs for at-risk youth	250,000
YMCA of McKeesport, McKeesport, PA, to support the Teen LEAD	50,000
YMCA of Metropolitan Fort Worth, Texas, for Together Reaching Unity Concerning Everyone (TRUCE) project	440,000
YMCA Safe Place Services, Louisville, Kentucky, for after school programs	40,000
Yonkers Public Schools, Yonkers, NY, to implement smaller learning communities in up to four high schools	350,000
Youth Alive, Inc., Louisville, Kentucky, for after school programs	15,000
Youth Guidance of Chicago, IL, to implement the Comer School Development Program in additional schools	25,000
YouthPlaces, Pittsburgh, PA, to expand after-school programs for teenagers from high crime neighborhoods in the Sto-Rox, Wilkinsburg, Clairton and Duquesne communities	100,000
YWCA of Anchorage for after-school enrichment programs for at-risk school children and their mothers	250,000
YWCA of Anchorage Girls in Alaska for the Run and Girls on Track after school programs	50,000

The conference agreement also includes \$1,000,000 for “Foundations for Learning Grants” for the promotion of school readiness through early childhood emotional and social development, as authorized under the Fund for the Improvement of Education.

The conferees have included additional funds in this line item for the Secretary to support programs and projects that address national priorities in K–12 education.

The Secretary of Education is encouraged to examine the rapidly-growing use of hand-held computer technology and the one-to-one (computer-to-student) computing it offers in a school environment. Handheld computing is rapidly becoming more affordable, enhancing the cost effectiveness of this approach, especially when coupled with wireless technology.

Community service and alcohol abuse reduction programs

The conference agreement includes \$50,000,000 for grants for community service for expelled or suspended students and \$25,000,000 for grants to reduce alcohol abuse as proposed by the Senate. H.R. 246 did not propose separate funding for these programs.

Teaching of traditional American history

The conference agreement includes \$100,000,000 for the teaching of traditional American history, as proposed by the Senate instead of \$50,000,000 as proposed by H.R. 246.

Civic education

For Civic Education, the conference agreement includes \$29,000,000 instead of \$27,000,000 as proposed by H.R. 246 and \$30,000,000 as proposed by the Senate. Of the total, \$12,000,000 is for Cooperative Education Exchanges and \$17,000,000 is for We the People. The conferees support allocating \$1,500,000 of the total amount for a continuation of the violence prevention demonstration program. Further, the conferees intend that \$3,000,000 be allocated for a cooperative project among the Center for Civic Education, the Center on Congress at Indiana University, and the Trust for Representative Democracy at the National Conference on State Legislatures to implement a comprehensive program to improve public knowledge, understanding, and support of American democratic institutions.

National writing project

The conference agreement includes \$17,000,000 for the National Writing Project instead of \$14,000,000 as proposed by H.R. 246 and \$18,000,000 as proposed by the Senate.

ENGLISH LANGUAGE ACQUISITION

The conference agreement includes \$690,000,000 for English Language Acquisition programs as proposed by the Senate instead of \$665,000,000 as proposed by H.R. 246.

SPECIAL EDUCATION

The conference agreement includes \$10,095,639,000 for Special Education instead of \$9,187,804,000 as proposed by H.R. 246 and \$11,191,424,000 as proposed by the Senate. The agreement provides \$4,423,639,000 in fiscal year 2003 and \$5,672,000,000 in fiscal year 2004 funding for this account.

Included in these funds is \$8,928,533,000 for Grants to States part B instead of \$8,028,533,000 as proposed by H.R. 246 and \$10,028,533,000 as proposed by the Senate.

The conference agreement includes \$77,715,000 for research and innovation instead of \$70,000,000 as proposed by the Senate and \$78,380,000 as proposed by H.R. 246. Within the amounts provided for Special Education Research and Innovation, the conference agreement includes funding for the following:

Best Buddies International, Inc. in Miami, FL to enhance the lives of people with mental retardation by providing opportunities for one-to-one friendships and integrated employment	\$1,250,000
Best Buddies Pennsylvania, Philadelphia, PA, for the expansion of programming in Pennsylvania to enhance the lives of people with mental retardation by providing opportunities for one-to-one friendships and integrated employment	25,000
Center for Learning and Technology, Spurwink Institute to ensure that students with disabilities have access to high quality education and technology	600,000

George Mason University Krasnow Institute, Fairfax, Virginia, for conducting breakthrough research	300,000
Iowa Parent Training Information Center to continue a pilot on referral and legal advice	100,000
Loudoun Arc, Leesburg, Virginia, for Saturday Leisure program	90,000
Middle Tennessee State University, Murfreesboro, TN, for the Tennessee Center for the Study and Treatment of Dyslexia to improve instruction for students with dyslexia	100,000
National Industries for the Blind, Alexandria, VA, to establish the NIB National Technical Support and Training Center to develop a business leadership and management skills training program for individuals who are blind	250,000
Ohio Alliance of Community Center for the Deaf, Worthington, Ohio, for Ohio Deaf Assistive Services Model project	500,000
Ohio School for the Deaf, Columbus, Ohio, for Virtual Reality for the Deaf and Hard of Hearing project	1,350,000
Seton Hill College, Greensburg, PA, for the expansion and continuation of its integrated certification program in elementary/special education	200,000
St. Joseph's School for the Blind in New Jersey	700,000
University of Kentucky's Center for Instructional Technology and Learning to help special education teachers integrate technology in their curriculum	1,000,000
University of Northern Colorado National Center for Low Incidence Disabilities for development of new instructional techniques, technologies and materials	500,000
University of Southern Mississippi Center for Literacy and Assessment in Hattiesburg, Mississippi for support of the center's programs	750,000

The conference agreement also includes \$92,500,000 for personnel preparation instead of \$90,000,000 as proposed by H.R. 246 and \$95,000,000 as proposed by the Senate. The conferees are particularly concerned about the shortage of qualified special education teachers and higher education faculty. Therefore, the conferees have included an additional \$2,500,000 over the request to ensure an increase in funding for leadership personnel over the fiscal year 2002 level. These new funds are intended exclusively for training new personnel. Further, the conferees intend that any funds available over amounts needed for continuation grants be used to address the shortage of qualified personnel. The conferees request that the Department consult with the Appropriations Committees prior to the announcement of grant competitions for personnel preparation activities.

The conference agreement includes \$26,500,000 for parent information centers instead of \$26,000,000 as proposed by H.R. 246 and \$28,000,000 as proposed by the Senate.

The agreement also includes \$38,210,000 for technology and media services instead of \$37,710,000 as proposed by the Senate and \$32,710,000 as proposed by H.R. 246. The agreement includes \$10,000,000 for Recording for the Blind and Dyslexic.

The agreement also includes \$1,500,000 for Public Telecommunications Information and Training Dissemination as proposed by the Senate. H.R. 246 did not contain funds for this activity.

The conferees continue to recognize the importance of very small businesses in increasing the quality and cost effectiveness of the television-captioning program. As this program transitions into a mandated program as authorized by the Telecommunications Act,

the Department shall give full and fair consideration to the applications for very small businesses.

REHABILITATION SERVICES AND DISABILITY RESEARCH

The conference agreement includes \$2,956,382,000 for Rehabilitation Services and Disability Research instead of \$2,956,676,000 as proposed by H.R. 246 and \$2,959,838,000 as proposed by the Senate.

The conference agreement includes \$12,147,000 for client assistance state grants instead of \$12,397,000 as proposed by the Senate and \$11,897,000 as proposed by H.R. 246. The conference agreement includes \$1,000,000 to support programs designed to improve the quality of applied orthotic and prosthetic research and help meet the increasing demand for provider services. The conferees intend that these funds should be used to support an orthotics and prosthetic awareness campaign, consisting of an educational outreach initiative designed to recruit and retain professionals and a series of consensus conferences to develop and disseminate best practices in the field.

The agreement also includes \$39,629,000 for training as proposed by H.R. 246 instead of \$42,629,000 as proposed by the Senate. The agreement also includes \$21,032,000 for demonstration and training programs instead of \$17,492,000 as proposed by H.R. 246 and \$21,238,000 as proposed by the Senate. Within the amounts provided for vocational rehabilitation demonstration and training programs, the conference agreement includes funding for the following activities:

Abilities Fund in Centerville, IA to create a revolving loan fund for entrepreneurs with disabilities	\$500,000
Alaska Center for Independent Living Personal Assistance Services project to bring services to more remote rural communities	200,000
Allied Services Foundation, Clarks Summit, Pennsylvania, to increase rehabilitation and fitness programs for those recuperating from strokes, spinal cord injuries and other conditions	100,000
American Stroke Foundation, Overland Park, KS, for a stroke rehabilitation center	300,000
Apple Patch Community Inc., Crestwood, Kentucky, for vocational training for adults with mental retardation	20,000
Cerebral Palsy Research Foundation's Rehabilitation Research and Training Center at Wichita State University, Kansas to continue helping people with disabilities obtain self-sufficient employment	300,000
Challenge Alaska in Girdwood, Alaska for equipment acquisition and program support of the Adaptive Ski School	200,000
City of Carson, California, for rehabilitation and related services at the Joseph B. O'Neal, Jr. Stroke Center	145,000
Easter Seals of Southeastern Pennsylvania for program development in support of adults and children with disabilities	150,000
Enable America, Inc., Tampa, Florida, for civic/citizenship demonstration project for disabled adults	300,000
Lark Enterprises, Inc., New Castle, Pennsylvania, for Lark Enterprises Day Treatment Program for Persons with Autism	100,000
Louisiana Center for the Blind in Lincoln Parish, LA to provide education and rehabilitation for blind children and adults	50,000
Madonna Rehabilitation Center in Lincoln, Nebraska, to create a new standard of rehabilitation practice and program design for children and adults with disabilities	500,000
Northern Illinois University in DeKalb, Illinois to train teachers and rehabilitation specialists for blind persons	75,000
Vermont Department of Aging and Disabilities for the Vermont Jump on Board for Success Initiative	100,000

Wisconsin Coalition for Advocacy to establish a new office of protection and advocacy services for individuals with disabilities	100,000
The Arc of Northern Rhode Island, Woonsocket, RI, for vocational rehabilitation services for individuals with developmental disabilities	200,000
University of Wisconsin-Stout, Menomonie, WI, to establish The Excellence and Leadership Center at the Stout Vocational Rehabilitation Institute	200,000

The conference agreement includes \$17,000,000 for Protection and Advocacy of Individual Rights instead of \$15,200,000 as proposed by H.R. 246 and \$17,500,000 as proposed by the Senate.

The conference agreement includes \$70,000,000 for Independent Living Centers as proposed by H.R. 246 instead of \$69,500,000 as proposed by the Senate. The agreement also includes \$28,000,000 for services for older blind individuals as proposed by the Senate instead of \$30,000,000 as proposed by H.R. 246.

The conference agreement includes \$27,000,000 for assistive technology as proposed by the Senate instead of \$30,884,000 as proposed in H.R. 246. The agreement also includes language allowing States which have received assistive technology extension grants in the past and are scheduled to be phased out of the program to continue to receive an award in fiscal year 2003 at the fiscal year 2002 level. This language is provided to allow time for the authorizing committees of jurisdiction to review the program in the context of reauthorizing the Assistive Technology Act. The conferees are aware that this program was originally designed to be "seed money" to develop assistive technology activities at the State level. The authorizing statute specifies that the State grant portion of the program would sunset after ten years, giving States time to develop their own programs in this area. The conferees encourage States to increase their support for protection and advocacy activities in planning their distribution of resources in the area of assistive technology.

The conferees are pleased that the National Institute on Disability and Rehabilitation Research has recognized chronic fatigue syndrome (CFS) as an unmet area of research and is funding a CFS research study. The conferees encourage NIDRR to continue to pursue CFS-related research proposals through its investigator-initiated and other grants programs.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

NATIONAL TECHNICAL INSTITUTE FOR THE DEAF

The conference agreement includes \$54,050,000 for the National Technical Institute for the Deaf instead of \$53,500,000 as proposed by H.R. 246 and \$54,600,000 as proposed by the Senate. The agreement also includes language proposed by the Senate allowing NTID to use funds from the total for the endowment program at its discretion instead of language proposed by H.R. 246 specifying that not less than \$1,000,000 shall be for the endowment program and available until expended.

GALLAUDET UNIVERSITY

The conference agreement includes \$98,438,000 for Gallaudet University as proposed by the Senate instead of \$95,000,000 as proposed by H.R. 246. The agreement also includes language proposed by the Senate allowing Gallaudet to use funds from the total for the endowment program at its discretion instead of language proposed by H.R. 246 specifying that not less than \$1,000,000 shall be for the endowment program and available until expended.

VOCATIONAL AND ADULT EDUCATION

The conference agreement includes \$1,956,060,000 for Vocational and Adult Education instead of \$1,919,560,000 as proposed by H.R. 246 and \$1,938,060,000 as proposed by the Senate. The agreement provides \$1,165,060,000 in fiscal year 2003 and \$791,000,000 in fiscal year 2004 funding for this account.

The conference agreement includes \$1,200,000,000 for Vocational Education basic state grants as proposed by H.R. 246 instead of \$1,180,000,000 as proposed by the Senate.

The conferees continue to believe that technical institutes play an important role in developing a highly-skilled workforce, and that these institutes should have equal access to vocational and technical education funding. The conferees encourage the Department and the authorizing committees of jurisdiction to consider approaches to ensuring such equal access when developing their reauthorization proposals for the Carl D. Perkins Vocational and Applied Technology Education Act, which is due to be reauthorized this year.

The conference agreement includes \$108,000,000 for Tech Prep as proposed by the Senate, instead of \$110,000,000 as proposed by H.R. 246.

The conference agreement includes \$7,000,000 for Tribally Controlled Postsecondary Vocational Institutions as proposed by the Senate instead of \$6,500,000 as proposed by H.R. 246. The agreement also includes language proposed by the Senate notwithstanding any other provision of law or any regulation that the Secretary of Education shall not require the use of a restricted indirect cost rate for grants issued pursuant to the tribally controlled postsecondary vocational and technical institutions program. H.R. 246 did not contain this provision.

The agreement also includes \$9,500,000 to continue the occupational and employment information program instead of \$10,000,000 as proposed by the Senate. H.R. 246 did not include funding for this activity.

The conference agreement includes \$5,000,000 for the tech-prep education demonstration authorized under section 207 of the Perkins Act as proposed by the Senate. The agreement also includes \$23,500,000 for State Grants for Incarcerated Youth instead of \$25,000,000 as proposed by the Senate. H.R. 246 did not provide funding for these activities.

STUDENT FINANCIAL ASSISTANCE

The conference agreement includes \$13,450,500,000 for Student Financial Assistance instead of \$13,171,610,000 as proposed by H.R. 246 and \$13,151,500,000 as proposed by the Senate.

The agreement provides a program level of \$11,439,000,000 for Pell Grants instead of \$11,200,110,000 as proposed by H.R. 246 and \$11,180,000,000 as proposed by the Senate. The agreement also increases the maximum Pell Grant to \$4,050 for award year 2003–2004 instead of \$4,000 as proposed by H.R. 246 and \$4,100 as proposed by the Senate. Additional funds are included within the appropriation for the Pell Grant program to continue to pay down the shortfall that has been accumulating in the program over the past two fiscal years.

The conferees are aware that many postsecondary institutions are struggling to make the most efficient use possible of their facilities as they prepare for enrollments that will grow by more than two million students over the next decade. Under the Department of Education's current practice, however, students may receive only one Pell Grant in a calendar year, limiting low-income students' ability to enroll year round. In the House report accompanying the Fiscal Year 2002 Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, the Committee requested that the Department submit a report, not later than March 1, 2002, on the feasibility and cost of conducting a demonstration program under Section 487(A)(b) of the Higher Education Act to provide two Pell Grants in one calendar year to students at selected institutions of higher education. The conferees note that the Department has failed to provide this report and again request that the Department provide this report to the House and Senate Committees on Appropriations, the House Committee on Education and the Workforce, and the Senate Committee on Health, Education, Labor, and Pensions no later than May 1, 2003.

The conference agreement also includes \$765,000,000 for the Supplemental Educational Opportunity Grants program instead of \$725,000,000 as proposed by both H.R. 246 and the Senate.

The conferees continue to be concerned about issues within the consolidation loan program. The conferees are aware that some borrowers would like to see the current law changed to allow for consolidation with any lender or holder, regardless of how many lenders with whom the borrower has loans. The conferees are concerned that without change to the current law governing consolidation loans, some borrowers may not be permitted to consolidate their loans with any lender they choose. The leaders of the authorizing committees have expressed a desire to address this and other issues during the reauthorization of the Higher Education Act so as to address the Consolidation Loan Program as a whole. The conferees urge those committees to ensure borrowers have the best options available to them in order to manage their student loan obligations.

HIGHER EDUCATION

The conference agreement includes \$2,100,701,000 for Higher Education instead of \$1,903,553,000 as proposed by H.R. 246 and \$2,047,640,000 as proposed by the Senate.

Aid for institutional development

The conference agreement includes \$82,000,000 for strengthening institutions as proposed by the Senate instead of \$76,275,000 as proposed by H.R. 246. The agreement also includes \$93,000,000 for Hispanic Serving Institutions as proposed by the Senate instead of \$89,096,000 as proposed by H.R. 246.

The conference agreement includes \$215,415,000 for Strengthening Historically Black Colleges and Universities as proposed by the Senate instead of \$213,415,000 as proposed by H.R. 246.

The conference agreement includes \$53,764,000 for Historically Black Graduate Institutions as proposed by the Senate instead of \$50,764,000 as proposed by H.R. 246. The conference agreement also includes \$8,234,000 for Alaska and Native Hawaiian Institutions as proposed by the Senate instead of \$6,734,000 as proposed by H.R. 246.

The conference agreement includes \$23,000,000 for Strengthening Tribal Colleges as proposed by the Senate instead of \$18,130,000 as proposed by H.R. 246. The conferees agree that the funds provided shall be used to support continuation of existing basic grants and new planning or implementation grant awards. The remaining funds shall be available for grants for renovation and construction of facilities to help address urgently needed facilities repair and expansion.

Fund for the improvement of postsecondary education

The conference agreement includes \$172,737,000 for the Fund for the Improvement of Postsecondary Education instead of \$39,138,000 as proposed by H.R. 246 and \$126,926,000 as proposed by the Senate. Within the amounts provided for the Fund for the Improvement of Postsecondary Education, the conference agreement includes funding for the following:

AIB College of Business, Des Moines, IA, to recruit and train students in captioning and court reporting	\$500,000
Alabama A&M University in Normal, Alabama for equipment acquisition related to the research institute	550,000
Albany State University in Albany, Georgia, for teacher and nurse training in underserved professions	500,000
Albright College, Reading, PA, for the Albright Wireless Education and Training Center for training and information services	100,000
Alcorn State University in Lorman, Mississippi for the Midsouth Partnership for Rural Community Colleges in Mississippi for a pilot program to connect community colleges and 4-year university research	500,000
Alvin Community College, Alvin, Texas, to train real-time captioners to provide closed captioning to the deaf and hard-of-hearing	1,000,000
American Samoa Community College, Pago Pago, American Samoa, to establish a computer lab	500,000
Ashland University—Institute for Human Investment and Economic Growth, Ashland, Ohio, for Regional Economic Development training	250,000
Assumption College for technology infrastructure	100,000

AuCoin Institute for Ecological, Economic, and Civic Studies for curriculum development	150,000
Baldwin-Wallace College in Ohio for expansion of the SPROUT program	275,000
Ball State University, in Muncie, Indiana, for the expansion of programs administered by the Midwest Entrepreneurial Education Center	1,000,000
Baylor University, Waco, TX, for the GEAR UP Waco program, in partnership with the Waco Independent School District	500,000
Beresford Community Education in Beresford, SD to expand community education programs	150,000
Birmingham Southern College in Birmingham, Alabama for technology acquisition	100,000
Bloomsburg University, Bloomsburg, PA, in collaboration with the Columbia Alliance for Economic Growth, for technological infrastructure improvements for the Bloomsburg Regional Technology Center	100,000
Buena Vista University in Storm Lake, Iowa for upgrades and equipment for the science center	500,000
Butler Community College, El Dorado, Kansas, for a leadership studies program	250,000
C.O.E.I.T.T.—Center for Excellence in Information Technology and Telecommunications (OSU, OU, TU, & the IT community) for program development, including acquisition of technology	200,000
Cabrini College, Radnor, PA, for equipment for programming for the Center for Science, Education, and Technology for K–12 students	200,000
Caldwell College, Caldwell, New Jersey, for Center for Excellence in Teaching Initiative	950,000
California State University, Monterey Bay, CA, for a research center on the use of wireless technology in education and industry	425,000
California State University, Northridge, CA, for technology and other expenses to develop an entertainment engineering curriculum	400,000
Catawba Valley Community College, Hickory, North Carolina for operation costs of the Hickory Metropolitan Higher Education Center	250,000
Cayuga Community College, Auburn, New York, for technology upgrades	275,000
Centenary College, Hackettstown, New Jersey, for technology initiative	350,000
Center for Community Transformation, Chicago, IL, to support faculty, student fellowships, and ongoing secular educational activities in community leadership transformation	125,000
Central College, Pella, Iowa, for teacher training in technology and for distance education programs	800,000
Central Florida Community College, Ocala, Florida, for teacher training	500,000
Chamber Foundation, Columbus, Ohio, for the “College Access” and “Career Steps” programs	405,000
Chicago State University, Chicago, IL to expand Weekend College instructional programs	225,000
City College of San Francisco, San Francisco, CA, for the National Articulation and Transfer Network to facilitate the completion of postsecondary education by underrepresented African-American, Hispanic/Latino, and Native American students	250,000
Clatsop Community College, Clatsop County, Oregon for technology and equipment acquisition	50,000
Clemson University College for a program design to recruit minority males as teachers in public schools	700,000
Coffeyville Community College for computer network enhancement	250,000
College of Southern Idaho for development of distance learning services, including the acquisition of technology	300,000
Columbia College Chicago, IL, for a Center for the Study of Women in the Arts and Media	125,000

Columbia University, New York, for a joint project with the Hostos Community College of the City University of New York, to train minority students in foreign policy disciplines through distance learning	350,000
Community College of Beaver County, Monaca, PA, to acquire state-of-the-art technology to support educational programming ..	50,000
Concurrent Technologies Corporation, Largo, Florida, for Community College/Vocational Industry Cluster HUBS initiative	1,250,000
Cossatot Community College of the University of Arkansas, De Queen, AR, for early childhood education instructional staff and equipment	475,000
Cowley Community College, Wichita, Kansas, for the Southside Learning Center, for equipment	250,000
Cuesta College, San Luis Obispo, CA, for supplies and equipment for its nursing education program	35,000
Curry College in Massachusetts for technology and programs to assist learning disabled students	175,000
Cuyahoga Community College's Music and Education Technology Program, Cleveland, Ohio to support a program of music study integrated with technology	405,000
Cuyamaca College, Rancho San Diego, California, for expanded math and science education	700,000
Daemen College, Amherst, New York, after-school enrichment programs for people with developmental disabilities	1,300,000
Dakota State University in Madison, SD, for technology and equipment for a model distance learning center	900,000
Dakota Wesleyan University, Mitchell, SD, to acquire technology and equipment to serve the George McGovern Library	1,000,000
Darton College, Albany, GA, to expand minority and nontraditional student recruitment and academic support activities	900,000
Daytona Beach Community College, Florida, for instructional equipment and technology infrastructure for the Advanced Technology Center	250,000
Dean College, Franklin, MA, to improve curricula and upgrade mathematics, science and writing laboratories for students with disabilities	150,000
DeSales University, Center Valley, PA, for computer wiring for smart class rooms for training for area K-12 teachers and students	100,000
Dowling College, Oakdale, NY, for personnel, instructional materials, student scholarships, and other expenses for a Minority Teacher Development and Training Center	400,000
Drexel University, Philadelphia, PA, for the development and expansion of the Math Forum as a national, on-line math education center	250,000
Durham Technical Community College, Durham, NC, for personnel, student scholarships, and other expenses to improve the articulation of community college students into teacher preparation programs	50,000
D'Youville College in Buffalo, NY to increase enrollment and improve outreach in the nursing program	250,000
Eastern University, Philadelphia, PA for new bilingual health care studies program and purchase of equipment in support of program expansion	300,000
Eastern Washington University, Cheney, Washington, Technology Initiative for the New Economy	510,000
Eckerd College, St. Petersburg, Florida, for Alternative Teacher Certification Program	500,000
Eckerd College, St. Petersburg, Florida, for technology infrastructure	1,250,000
Edinboro University Education Center—Precision Manufacturing Institute	450,000
Edward Waters College, Jacksonville, FL, for library enhancements, technology, and telecommunications upgrades	500,000
Elgin Community College, Elgin, Illinois, for Integrated Systems Technology Program	250,000

Embry-Riddle Aeronautical University, Prescott, Arizona, for academic and technical literature	500,000
Emerson College in Boston for the Tuft Performance and Production Center Initiative	800,000
Emporia State University, Emporia, Kansas, for technology upgrade	400,000
Environmental Interpretive Facilities at the Juanita College Raystown, Huntingdon, Pennsylvania, for equipment	500,000
Evergreen State College in Olympia, Washington for research and curriculum costs of a program addressing the needs of tribal governments	150,000
Excelsior College, Albany, New York, for curriculum development	250,000
Fayetteville Technical Community College, Fayetteville, North Carolina, for the Adventure of the American Mind program	150,000
Federation of American Scientists, Washington, D.C., for Digital Opportunity Investment Trust	750,000
Federation of Independent Illinois Colleges and University for telecommunications equipment and for training programs necessary to link educational institutions to a high bandwidth network	100,000
Fisk University in Nashville, Tennessee for technology acquisition in support of a new information technology center and to improve student learning	300,000
Florida Campus Compact, Tallahassee, FL, to enhance service-learning on college campuses throughout Florida	500,000
Ft. Lewis College, Center for Southwest Studies in Colorado for the acquisition of equipment and technology and an educational program for Native American interns	1,600,000
Gateway Community College, New Haven, CT, to implement an associates degree nursing program	250,000
George Meany Center for Labor Studies—the National Labor College for curriculum development	750,000
Georgia College and State University, Milledgeville, Georgia, for the Paul Coverdell Institute and Archives	800,000
Glenville State College, Glenville, WV, for faculty, curricula, and equipment to establish a computer science and information technology program	175,000
Gonzaga University, Spokane, Washington, for furnishing, equipment and salaries for their natural resources and research program	510,000
Governors State University, University Park, IL, for equipment and training programs at the College of Education Family Development Center	150,000
Grambling University in Lincoln, Louisiana to increase the number, skills and competitiveness of minority faculty and students in biomedical research	150,000
Grand Valley State University, Allendale, Michigan, for Teacher Academy	500,000
Great Plains Center for Applied Latino/Latin American Studies at University of Nebraska at Omaha to stimulate the academic study of Latino and Latin American culture, history and economics	1,000,000
Harford County Public Schools, Bel Air, MD, for support of a math and science magnet school program at Aberdeen High School	500,000
Harrisburg Polytechnic Institute, Harrisburg, PA, for a K-16 curriculum, equipment, and technology upgrades	262,000
Hartwick College, Oneonta, New York, for equipment	750,000
Hickory Metropolitan Higher Education Center, Hickory, North Carolina for program development	125,000
Higher Education Learning Center in Des Moines, Iowa for curriculum development	100,000
Highline Community College, Des Moines, Washington, to establish a Marine Science and Technology Center	500,000
Hofstra University to equip smart classrooms for teacher education	50,000
Holy Family College, Philadelphia, PA, to develop on-line based teacher training programs for teacher certification and other teacher training	50,000

Huntingdon College for Training Teachers in Technology in Montgomery, Alabama	500,000
Huntington Junior College, WV, for personnel, curricula, student scholarships, and other expenses to recruit and train students in real-time captioning	900,000
Independence Community College, for early childhood education center to train teachers for tomorrow	250,000
Indian Hills College in Ottumwa, Iowa for technology upgrades and equipment at the Bioprocess Training Center	500,000
Indian River Community College, Ft. Pierce, St. Lucie, Florida, for Grow Our Own Teachers project	800,000
Indiana University, Bloomington, IN, for the Center on Congress civic education program	50,000
Iowa Central Community College, Fort Dodge, Iowa, for Iowa Communications Network Pilot Program	300,000
Iowa Student Aid Commission to continue a program of loan forgiveness for teachers	500,000
Jackson State University, Jackson, MS, to establish an e-center focused on electronic-based teaching and learning, research, and community outreach and services	550,000
James W. Norman Hall, University of Florida, Gainesville, Florida, for technology and infrastructure project	250,000
Jefferson College, Hillsboro, MO, for personnel, technology and other expenses to establish a Center for the Study of Local Issues	100,000
Johnson and Wales University in Providence, RI, to enhance its teacher preparation program	100,000
Johnson C. Smith University, Charlotte, NC, to establish a Campus and Community Center for Learning and Technology to address education needs in the region	150,000
Kean University, Union, New Jersey, for Global Studies and UN Internship Program	100,000
Kent State University, Kent, Ohio, for Institute for Computational Design	1,250,000
Kent State University's Liquid Crystal Institute in Ohio for educational programs	475,000
Kentucky Wesleyan College's Science Center for equipment and educational programs	500,000
Keystone Central School District in Pennsylvania, in collaboration with Lock Haven University, to continue a model alternative school	750,000
Keystone College, La Plume, Pennsylvania, to equip an Environmental Science Laboratory and Resource Center and a Center for Teaching, Learning and Technology	450,000
Lake Forest College, Illinois, to develop a new state-of-the-art library and learning center	25,000
Langston University, Langston, Oklahoma, to fund a scholarship endowment for students to be designated as the "Thurgood Marshall Endowed Scholarship"	225,000
Le Moyne College, Syracuse, New York, for upgrading equipment	125,000
Lehigh University, Bethlehem, PA, for the Center for Promoting Healthy Development for Individuals with Disabilities for research to develop strategies to improve the health of individuals with disabilities	100,000
Lehman College, Bronx, New York, for a distance learning initiative to connect pre-service teachers with experienced classroom teachers	200,000
Lewis and Clark Community College, Godfrey, IL, for activities related to the study of aquatic and terrestrial ecosystems at the Great Rivers Research and Education Center	900,000
Lincoln University, Lincoln University, PA, to purchase laboratory and computer equipment for state-of-the-art science laboratories, and to enhance its chemistry, physics, biology and computer science technology capabilities	100,000
Lorain County Community College, Elyria, OH, for telecommunications and technology upgrades, course development, and instructional support for the Learning Technology Center	250,000

Los Angeles Mission College, CA, for its Economic Self-Help Project to train small business owners	300,000
Los Angeles Valley College, Valley Glen, CA, for a career ladder nursing program in collaboration with Los Angeles Southwest College	250,000
Louisiana State University, Baton Rouge, Louisiana, for its Law Center, Medical and Biotechnology project to recruit and train laws/medicine specialists, develop health care programs, databases and training	200,000
Lourdes College, Sylvania, OH, for professional development, technology upgrades, equipment, and education outreach programs ...	225,000
Loyola University, Chicago, IL, for science laboratory equipment	500,000
Lyon College, Batesville, AR, for acquisition of lab equipment and communications system upgrades for its Center for Science and Mathematics	300,000
Manhattanville College, Purchase, NY, for the "Jump Start" alternative teacher certification program	500,000
Manor College, Jenkintown, PA, for a veterinary technician distance education program	100,000
Maricopa County Community College District, Phoenix, AZ, for the Hispanic Nursing Fellows Program to address the national nursing shortage	100,000
Maricopa County Community College District, Tempe, AZ, for personnel, student scholarships and other expenses to expand a national center to improve teacher recruitment, preparation and retention	400,000
Maricopa County Community College District, Tempe, AZ, for the Hispanic Nursing Fellows Program, including student scholarships	200,000
Maryland Association of Community Colleges to reinforce community colleges' ability to educate and train the Information Technology workforce throughout Maryland	950,000
Maxine Waters Employment Preparation Center, Los Angeles Unified School District, CA, to expand education and training programs	200,000
Mendocino-Lake Community College District, Ukiah, CA, to develop an associates degree program in nursing	200,000
Mercyhurst College, PA, for program support and equipment in support of the Institute of Public Health	200,000
Mesa State College, Grand Junction, Colorado, for Teacher Preparation Initiative	116,000
Mid-State Technical College, Wisconsin Rapids, WI, for instructional supplies, faculty and capital equipment to expand an urban forestry program	500,000
Military Heritage Foundation, Carlisle, PA, for the United States Army History Institute Military History Institute to provide joint research and teaching opportunities in military and social history	125,000
Minnesota State Colleges and Universities, St. Paul, Minnesota, for development of an e-monitoring environment	600,000
Minot State University, Minot, North Dakota, to continue providing disability services to remote rural communities	200,000
Mississippi State University for the Midsouth Partnership for Rural Community Colleges in Mississippi for a pilot program to connect community colleges and 4-year university research	500,000
Mississippi Valley State University, Itta Bena, MS, to establish a master of science degree program in bioinformatics	350,000
Mitchell Technical Institute in Mitchell, SD, for technology and equipment	110,000
Molloy College in New York for smart classrooms for the nursing department	50,000
Montana State University in Billings, Montana, for the development of a computer technology program	700,000
Montclair State University, NJ, for the Center for Teacher Preparation and Learning Technology to expand teacher training programs	300,000

Montgomery County Community College, Blue Bell, PA, for personnel, curricula, technology, and other expenses for an advanced technology center	375,000
Moravian College, Bethlehem, PA, for computer wiring for smart class rooms for training for area K-12 teachers and students	100,000
Mount Aloysius College, Cresson, PA, for the training of faculty in the use of technology-based curriculum	100,000
Mount Union College, Alliance, Ohio, for Master Teacher program	100,000
Mount Union College/Alliance City Schools, Alliance, Ohio, for Early Childhood Center	100,000
Mt. Vernon Nazarene College, Mt. Vernon, OH, equipment, technology upgrades of the Natural Sciences and Social Sciences facility	600,000
National Aviary Conservation Education Technology Integration in Pittsburgh	250,000
National University, La Jolla, California, for the Institute for Persons Who Are Hard of Hearing or Deaf	500,000
New College of California, San Francisco, CA, to establish degree programs in community studies, urban ecology and sustainability studies, and spirituality and politics through a new institute, and for student scholarships	400,000
New England Board of Higher Education, Boston, MA, for a study of minority student participation in science and technology disciplines	200,000
New Hampshire Community Technical College in New Hampshire for a distance learning initiative, including the acquisition of technology	500,000
New World Symphony, Miami Beach, FL, for distance education music programs	100,000
Nicholls State University, Thibodaux, Louisiana, for Advanced Technology Center or Intergenerational Center	400,000
Northeastern State University, Tahlequah, OK, for expenses to support faculty and students at the Center for Rural Development	250,000
Northern Essex Community College, Lawrence, Massachusetts, for the procurement and maintenance of educational equipment and technology infrastructure at NECC's technology training center.	200,000
Northern Illinois Center for Accelerator and Detector Development, DeKalb, Illinois	2,000,000
Northern Kentucky University, Highland Heights, KY, to expand technology certification and degree programs, distance learning and K-16 partnerships	150,000
Northern State University in Aberdeen, South Dakota, for technology and equipment at the Center for Statewide E-Learning	300,000
Northwestern College, Orange City, Iowa, for sound technology for Theatre Arts Center	200,000
Northwestern State University, Natchitoches, Louisiana, for Campus Technological Infrastructure Enhancement project	166,000
Northwest-Shoals Community College, Muscle Shoals, AL, for personnel, telecommunications, technology and security enhancements	400,000
Norwalk Community College, Norwalk, Connecticut, for equipment and personnel needed to launch the Community Security Institute	500,000
Oakland Community College, Bloomfield Hills, MI, to develop a curriculum for the Center for Combined Regional Emergency Services Training	250,000
Ohio Center for Advancement of Women in Public Service, Cleveland State University, Cleveland, Ohio, for developing training curricula, training program, operating costs to create the Legislative/Executive Training Institute	250,000
Ohio Wesleyan University, Delaware, Ohio, for implementing programs to encourage greater minority participation in the sciences for undergraduate and precollege populations	775,000
Oklahoma Regents of Higher Education, Oklahoma City, Oklahoma, to complete Ponca City's internet Hub project	1,500,000

Oklahoma State University, Okmulgee, OK, for its Commerce Development Center	125,000
Online Louisiana for equipment and IT	250,000
Palmer College of Chiropractic in Davenport, IA, for equipment and technology for the Learning Resource Center	500,000
Pasadena City College, Pasadena, CA, to develop a biotechnology training program	93,000
Peirce College, Philadelphia, PA, for technology enhancements, course development, faculty training and outreach activities to expand Peirce Online	200,000
Philadelphia University, Philadelphia, PA, to upgrade its campus-wide technology infrastructure to expand programmatic advances offered by the University's High Technology Education Center ...	600,000
Pittsburgh Tissue Engineering Initiative, Pittsburgh, PA, to expand its Teacher Education Program in order to introduce the concept of tissue engineering into the classroom	100,000
Polk Community College, Winter Haven, Florida, to establish a Corporate College to meet the locally identified education and training needs of the business community	500,000
Portland State University, Portland, OR, for instructional programs, distance learning and equipment for the Northwest Center for Engineering, Science, and Technology	1,000,000
Prince George's Community College, Largo, MD, for equipment, technology, and operating expenses for an extension center near Andrews Air Force Base	500,000
Providence College, RI, for equipment, technology and educational programs for its Center for the Arts	250,000
Rochester Institute of Technology, NY, for equipment for the Center for Biotechnology Education and Training	422,000
Saginaw Valley State University, University City, Michigan, for equipment, wiring and computer upgrade	500,000
Salt Lake Community College in Salt Lake City, Utah, to improve student learning through additional technology and equipment acquisition	500,000
Santa Clara University, CA, for telecommunications and technology equipment and upgrades	900,000
Santa Clarita Community College District, Santa Clarita, California, for equipment, personnel for the University Center	500,000
Science Education Technology initiative at University of Alabama to increase students success in biology, computer science, and physics	500,000
Seminole State College, Seminole, OK, for the Fast Track program at the School of Nursing for student support, scholarships and other services and assistance	50,000
Seminole State College, Seminole, Oklahoma, for the Technology Center for technology purchases	175,000
Seton Hall University, South Orange, NJ, for the Life Science and Technology Center	100,000
Shenandoah University, Winchester, Virginia, for the Computer Technology Enhancement program to retrain teachers	180,000
Slippery Rock University, Slippery Rock, PA, for Knowledge Pointe at Cranberry Woods, as part of an initiative to provide life-long educational services to Pittsburgh's regional industry and community residents	100,000
Slippery Rock University, Slippery Rock, Pennsylvania, for the North Hill Educational Alliance	100,000
Snead State Community College, Boaz, Alabama, for computers and technology enhancements	70,000
Sonoma State University, Rohnert Park, CA, for communications and laboratory equipment to establish a graduate program in computer and engineering sciences	300,000
South Carolina State Board for Technical and Comprehensive Education, Columbia, SC, for distance learning programs	500,000
South Dakota Board of Regents to upgrade the South Dakota Library Network	500,000
South Piedmont Community College, Polkton, North Carolina, for equipment	400,000

Southampton College, NY, for science equipment and technology upgrades at its Marine Science Center	253,000
Southeast Missouri State University, Cape Girardeau, Missouri, River Campus Initiative	1,200,000
Southern Illinois University, Carbondale, IL, for the Paul Simon Public Policy Institute	1,000,000
Southern New England School of Law, North Dartmouth, MA, to support faculty, staff, and student stipends for the establishment of an immigration clinic	125,000
Southern New Hampshire University in New Hampshire for a distance learning initiative, including the acquisition of technology	500,000
Southern Oregon University, Ashland, Oregon, to create and expand teacher training program and develop a new undergraduate theatre technology curriculum	500,000
Southern University in East Baton Rouge, Louisiana, for infrastructure upgrades such as internet and teleconferencing capabilities	150,000
Southern West Virginia Community and Technical College, Mt. Gay, WV, for personnel, curricula, equipment and technology to expand information technology programs	500,000
Spalding University Online, Louisville, Kentucky, for distance learning program for teacher professional development	50,000
Spoon River College, Canton, IL, for equipment for community technology centers in Canton and Macomb, Illinois	275,000
St. Petersburg College, St. Petersburg, Florida, for Project Eagle online learning program	4,500,000
St. John's University to develop curriculum and improve minority recruitment to the pharmacy program	100,000
St. Cloud State University, MN, for nursing education programs ...	250,000
St. Francis College, Brooklyn, New York, for technology initiative	500,000
St. Mary's College of Maryland, St. Mary's City, MD, for technology upgrades	250,000
Stark State College of Technology, Canton, Ohio, for technology infrastructure	711,000
Stark State College of Technology, Canton, Ohio, to train real-time captioners to provide closed captioning to the deaf and hard-of-hearing	200,000
State University of New York at Potsdam, St. Lawrence County, New York, for Music Educators for New York City for scholarship, program costs and operations, marketing and recruitment and personnel costs	550,000
State University of New York at Purchase, NY, for technical and career counseling, continuing education, curricula, technology, and to enhance services for students with disabilities	800,000
State University of New York Empire State College for Masters of Arts in Teaching Program	250,000
Stonehill College in Easton, Massachusetts, for technology infrastructure and curriculum development	300,000
Suffolk University, Boston, MA, for the John Joseph Moakley Archives and the John Joseph Moakley Institute on Public Policy and Political History	250,000
Temple University, Philadelphia, PA, to develop innovative models to address teacher recruitment, training and mentoring that will enhance student achievement and raise the capabilities of low-performing schools	200,000
Texas Southern University, College of Pharmacy and Health Sciences for the establishment of a health professions program ...	300,000
Texas Southern University, College of Pharmacy and Health Sciences, for their minority engineering program	100,000
Texas Southern University, Houston, TX, for personnel, equipment, student scholarships, and materials for the College of Science and Technology	250,000
Texas State University for teacher retention initiative	250,000
Texas Tech University Center for the Aging in Lubbock, Texas	250,000
The Franciscan University in Clinton, Iowa, for a technology-based undergraduate and graduate teacher training program	1,000,000

Thurgood Marshall Scholarship Fund, New York City, NY, for technology upgrades and capacity building activities at historically black colleges and universities	500,000
Tiffin University, Tiffin, Ohio, for Technology Enhanced Classroom project	500,000
Tri-College Red River Basin Institute in Fargo, North Dakota, for salaries and program costs related to the study of flood damage and natural resource management research	100,000
Trident Technical College, Charleston, South Carolina, to equip the information technology center, electro-mechanical skills laboratory, and the hospitality, tourism and culinary arts program	500,000
Troy State University, Montgomery, Alabama, to expand a virtual university, including technology acquisition, that provides a 24-hour, seven days a week program for military personnel	750,000
Truckee Meadows Community College High Tech Center and Curriculum Initiative in Reno, Nevada, for computer equipment and curriculum support of high tech initiatives and teacher certification programs	400,000
Trustee of Stevens Institute of Technology, Hoboken, New Jersey, for educational and innovative opportunities for undergraduates and graduates	476,000
Tulane University, New Orleans, LA, for technology, faculty fellowships, student internships and educational outreach programs at the AMISTAD Research Center	400,000
Tupelo Public Schools in Mississippi for the CREATE technology innovation challenge grant program	750,000
University of Akron, Ohio, for Exercise in Hard Choices program to help citizens and students understand the Federal budget process	500,000
University of Alabama, Tuscaloosa, Alabama, for acquisition of technology and to upgrade existing information technology infrastructure	200,000
University of Alaska for the INPSYCH Center, to train Alaska Natives as psychologists to practice in Alaskan villages	500,000
University of Alaska, Alaska Department of Education and Alaska State Library for the Alaska Digital Archives and Digital Library to digitize their information resources	400,000
University of Arizona for training and curriculum development at the Program in Integrative Medicine	500,000
University of Arizona, Tucson, AZ, for a national center to train faculty, teaching assistants, and administrators to improve higher education for students with disabilities	300,000
University of Arkansas at Little Rock, AR, for simulation equipment for the CyberCollege Virtual Reality Center	500,000
University of Arkansas, Fayetteville, Arkansas, for National Office for Rural Measurement and Evaluations Systems for technology designed to improve the instructional practices and learning possibilities of children from grades 3-8	500,000
University of California, Merced, CA, for acquisition of science equipment	250,000
University of California, Merced, CA, to establish the Sierra Nevada Research Institute, including student fellowships and internships, software, and equipment	250,000
University of Hartford, CT, for equipment for the Hartt School Performing Arts Education Center	400,000
University of Hawaii at Hilo for an applied rural science program	50,000
University of Idaho Advanced Computing and Modeling Laboratory to provide independent technical expertise and applied research	900,000
University of Illinois College of Medicine, Peoria, Illinois, for technology infrastructure	100,000
University of Louisville—Northern Kentucky University's, Urban University Partnership for Math and Science Teaching for teacher and faculty development programs	1,200,000
University of Maine, School of Applied Science, Engineering & Technology for purchase of equipment and technology	600,000

University of Maryland, College of Education, College Park, MD, for personnel, graduate student stipends, and other expenses for the Maryland Institute for Minority Achievement and Urban Education	500,000
University of Massachusetts-Boston to purchase research equipment and technology infrastructure	1,000,000
University of Memphis Benjamin L. Hooks Institute for Social Change in Memphis, Tennessee, which may include establishing an endowment for such center, for education and community outreach programs	1,000,000
University of Michigan, Ann Arbor, Michigan, for the Gerald R. Ford School of Public Policy	2,000,000
University of Mississippi, Oxford, Mississippi, for the National Archive of Youth Social and Attitudinal Data	450,000
University of Nevada, Las Vegas, to engage college-age women in civic life through voluntarism, careers and informed citizenship.	150,000
University of Nevada, Reno, to upgrade its information technology infrastructure	1,000,000
University of New England Performance Enhancement and Evaluation Center for training opportunities for medical students and practitioners	1,000,000
University of New Mexico, Albuquerque, New Mexico, for Mathematics and Science Teacher Academy for professional development	500,000
University of New Mexico, for a dental education program	200,000
University of North Carolina at Chapel Hill, NC, for personnel, student internships, research, and other expenses to expand technology education and applications through the KnowledgeWorks Institute	225,000
University of North Carolina at Pembroke, NC, for the Southeastern North Carolina Consortium for Teacher Certification, Recruitment, and Retention	100,000
University of Northern Iowa Center for Applied Gerontology for program development	325,000
University of Northern Iowa to expand the 2+2 teacher training program	100,000
University of Oklahoma Health Sciences Center, Oklahoma City, Oklahoma, to further develop its doctoral-level program in bioinformatics	175,000
University of Pacific, Stockton, California, for Eberhardt School of Business	400,000
University of Redlands, Redlands, California and California State University, San Bernardino, California, to enhance their current Arabic and Islamic studies programs	700,000
University of Redlands, Redlands, California, for technology enhancement	700,000
University of Rhode Island, Kingston, RI, for a Center for Sustainable Communities	100,000
University of San Francisco, CA, for education, service and research programs at the Center for Public Service and the Common Good	1,000,000
University of South Florida, Tampa, Florida, for a "Globalization Research Network"	1,500,000
University of Southern Colorado Technology for Teaching and Learning, to upgrade and acquire classroom technology in support of improved student learning	900,000
University of Southern Maine, Portland, Maine, for telecommunications and technology upgrades to support science, engineering and advanced technology programs	400,000
University of Texas at Austin, College of Natural Sciences, for faculty development	500,000
University of Texas at Tyler, TX, for distance learning and other programmatic activities, including student support, at the Colleges of Nursing and Health Sciences, and Business and Technology	350,000
University of Virginia, Charlottesville, VA, for Governmental Studies "Youth Leadership Initiative"	1,200,000

University of Wisconsin-Eau Claire, Eau Claire, WI, for acquisition of science laboratory equipment	425,000
University of Wisconsin-Rock County, Janesville, WI, for computers and technology upgrades, and science laboratory equipment	100,000
University of Wisconsin-Stevens Point, WI, for the Faculty Alliance for Creating and Expanding Teaching Strategies (FACETS) initiative	500,000
University of Wisconsin-Whitewater, Whitewater, Wisconsin, for technology and personnel	500,000
University of Wyoming for acquisition of technology and equipment	1,700,000
Upper Great Lakes Educational Technologies, Inc., Marquette, MI, for personnel, technology and support costs to design, coordinate and implement "Operation UP Link"	400,000
Urban College of Boston in Massachusetts to support higher education program serving low-income and minority students	1,000,000
Utah State University in Utah to improve educational services for all students through distance learning technologies	350,000
Valparaiso University, Valparaiso, IN, for equipment and technology upgrades at its Library and Information Resources Center	550,000
Washington & Lee University in Virginia for the Shepherd Poverty Program	500,000
Washington College, Chestertown, Maryland, Science and Technology Education Initiative	500,000
Washington State University Plateau Center for American Indian Studies for faculty, educational programming and training	100,000
Waubensee Community College, Sugar Grove, Illinois, for Integrated Systems Technology Program	250,000
West Chester University, West Chester, PA, for technological infrastructure improvements	150,000
West Kentucky Technical College, Paducah, Kentucky, to train court reporting students in captioning	475,000
West Liberty State College in West Virginia to equip its residence halls with internet access	1,700,000
West Los Angeles College, Culver City, CA, for equipment, curricula, faculty, and other expenses to develop an emergency health services training program	425,000
West Virginia High Technology Consortium Foundation, Fairmont, WV, in collaboration with Fairmont State College and DSD Laboratories of West Virginia, to improve computer security curricula and for an information assurance center	225,000
Western Governors University in Salt Lake City, UT, to provide training and certification for educators in Nevada through a joint program with Clark County School District	500,000
Western Governors University, Salt Lake City, Utah, for K-12 Teacher Education Initiative, for program development	500,000
Western Kentucky University's Center for Engineering and Biological Sciences for technology enhancements	1,200,000
Wheeling Jesuit University in West Virginia for the Math and Science Education Initiative	3,600,000
Widener University, Chester, Pennsylvania, for technology infrastructure	500,000
Wisconsin Association of Independent Colleges and Universities for a collaboration project to consolidate administrative operations and information technology	800,000
Wisconsin Indianhead Technical College, Rice Lake, WI, for equipment for a new technology center	300,000
World Learning, School for International Training, Brattleboro, VT, to enhance international studies programs at historically black colleges and universities, including study abroad programs for students and faculty	250,000
York College, York, Nebraska to modernize technological capabilities, including acquisition of technology and equipment	100,000
York College, York, Pennsylvania, for technology upgrades and computers and community programming	350,000
Youngstown State University, OH, for faculty, equipment, student support, and other related expenses to expand a materials engineering/science program	500,000

University of Massachusetts-Boston to purchase research equipment and technology infrastructure	1,000,000
---	-----------

International Education and Foreign Language Studies

Domestic Programs

The conference agreement includes \$93,850,000 for the domestic activities of the international education and foreign languages studies programs instead of \$85,200,000 as proposed by H.R. 246 and \$87,000,000 as proposed by the Senate. The conference agreement will sustain the investments made last year to train experts who have foreign language proficiency and cross-cultural skills in the targeted world areas of Central and South Asia, the Middle East, Russia, and the Independent States of the former Soviet Union, and provide new resources to build foreign language capacity and international expertise in these strategic world areas important to national security interests and other areas, including southeast Asia and Africa.

The conferees are aware that all national resource centers will compete for new awards in fiscal year 2003. The conference agreement includes sufficient funds to increase the average award for the existing number (118) of centers by at least nine percent. The conferees believe that restoring awards that have eroded over the years, thereby enabling each center to implement an effective, multifaceted program of advanced language training, research, technical assistance, and outreach, should be a priority over expanding the number of centers over current levels.

The conference agreement also includes sufficient funds for an additional 87 academic and 70 summer fellowships under the foreign language and area studies fellowships program over the request. These fellowships should be allocated across all world areas, with an emphasis on languages of strategic national importance.

The conference agreement includes sufficient funds for the language resource centers for new K-16 teacher training initiatives in the less commonly taught foreign languages critical to national security, including the development of a strategic plan for teacher training and resource development, a summit on teacher training, professional development through summer institutes for K-16 teachers of Arabic, Azeri, Persian/Dari, Pashto, Uzbek, Urdu and other languages of strategic importance, and assistance to K-16 teachers for the development of web-delivered instructional materials. The conference agreement includes sufficient funds to provide an increase for the centers for international business to address issues relating to homeland security and trade.

In conducting new competitions in all Title VI program areas in fiscal year 2003, the Department should continue to emphasize increased investments in areas of strategic national importance. The conference agreement continues language to allow up to one percent of funds to be used for program evaluation, national outreach, and information dissemination activities.

The conferees are disappointed that the Department has not fully addressed the staffing needs of the Title VI and Fulbright-Hays international education programs. The conferees note that the Department's full-time equivalent (FTE) staffing level will increase by 79 FTE in fiscal year 2003.

Overseas program

The conference agreement provides \$13,000,000 for the overseas programs in international education and foreign language studies authorized under section 102(b)(6) of the Mutual Educational and Cultural Exchange Act of 1961 as proposed by the Senate instead of \$11,800,000 as proposed by H.R. 246. Funding for these programs supports group projects abroad, faculty research abroad, special bilateral projects, and doctoral dissertation research abroad. The additional funding provided over the request should be used to expand research fellowships and group projects abroad in intermediate and advanced language training in newly strategic world areas, and enhance curriculum development and summer seminars abroad for K–12 teachers. The conference agreement continues language allowing section 102(b)(6) funds for individuals planning to apply their advanced language skills in the fields of government, the professions, or international development.

Institute for International Public Policy

The conference agreement includes \$1,650,000 for the Institute for International Public Policy instead of \$1,500,000 as proposed by both H.R. 246 and the Senate. This program provides a grant to the United Negro College Fund to operate the Institute through sub-grantees chosen among minority-serving institutions. The conferees encourage the Institute to continue a recent emphasis on helping students obtain foreign language competence and international expertise in areas important to national security.

Minority Science and Engineering Improvement

The conference agreement includes \$9,000,000 for minority science and engineering improvement instead of \$8,500,000 as proposed by H.R. 246 and \$9,500,000 as proposed by the Senate.

TRIO

The conference agreement includes \$832,500,000 for TRIO as proposed by the Senate instead of \$810,000,000 as proposed by H.R. 246.

The conferees are concerned that the regulatory definitions of “different campus” and “different population of participants” in the Student Support Services Program regulations (34 CFR Part 646.7(c)) are so narrowly crafted that the definitions undermine Congressional intent and prohibit many geographically separate institutions from applying for TRIO funding and, thus, prohibit the expansion of educational opportunities for more low-income and minority students.

The conferees direct the Department to review these regulatory definitions and make the appropriate changes so that more institutions of higher education, particularly those that have large numbers of low-income students enrolled at various campuses, will have the ability to apply for TRIO grants and serve more eligible students who need TRIO services.

GEAR UP

The conference agreement includes \$295,000,000 for GEAR UP as proposed by the Senate instead of \$285,000,000 as proposed by H.R. 246.

Teacher Quality Enhancement Grants

The conference agreement also includes \$90,000,000 for Teacher Quality Enhancement Grants as proposed by the Senate instead of \$100,000,000 as proposed by H.R. 246.

Child Care Access Means Parents in School

The conference agreement includes \$16,300,000 for the child care access program as proposed by the Senate instead of \$15,000,000 as proposed by H.R. 246.

Other higher education programs

The conference agreement includes \$7,000,000 for Demonstrations in Disability as proposed by the Senate. H.R. 246 did not include separate funding for this activity. The conference agreement includes \$2,250,000 for the Underground Railroad Educational and Cultural Program instead of \$2,500,000 as proposed by the Senate and \$2,000,000 as proposed by H.R. 246. The conference agreement also includes \$5,000,000 for Thurgood Marshall Scholarships as proposed by the Senate instead of \$4,000,000 as proposed by H.R. 246 and \$1,000,000 for Olympic Scholarships as proposed by H.R. 246. The Senate bill did not provide funding for this program.

HOWARD UNIVERSITY

The conference agreement includes \$240,000,000 for Howard University as proposed by H.R. 246 instead of \$239,974,000 as proposed by the Senate.

INSTITUTE OF EDUCATION SCIENCES

The conference agreement includes \$450,887,000 for the Institute of Education Sciences instead of \$397,887,000 as proposed by H.R. 246 and \$397,387,000 as proposed by the Senate.

The conferees provide \$140,000,000 for research as proposed by H.R. 246 instead of \$89,500,000 as proposed by the Senate. Within this total, the conference agreement includes \$19,635,000 in continuation funding for comprehensive school reform evaluation, research, model development and dissemination activities as requested by the Department.

The conferees strongly support the premise that developing, identifying and implementing scientifically based research is critical to the success of the No Child Left Behind Act and to the increased effectiveness generally of education programs and interventions. In particular, the conferees believe that a greater focus must be placed on the use of randomized controlled trials, longitudinal studies, and other research that meets the standards set by the National Research Council. The development of an enhanced research infrastructure will help build a base of research-proven interventions that can be used by educational institutions to help improve the educational outcomes of our nation's student popu-

lation. The conferees have provided an additional \$18,183,000 above last year to continue building the nation's educational research infrastructure. The conferees note that there is a lack of scientifically based education research, such as randomized research trials.

The conferees provide \$90,000,000 for statistics instead of \$95,000,000 as proposed by H.R. 246 and \$87,000,000 as proposed by the Senate.

The conference agreement also includes \$58,000,000 to continue multi-year grants and contracts for Comprehensive Regional Assistance Centers, Regional Math and Science Education Consortia, the Math and Science Clearinghouse, and Technology-based technical assistance as proposed by the Senate. H.R. 246 did not include funding for these activities.

The conferees are concerned with recent statistics that show that more than 20 million children experience reading failure. According to the National Center for Education Statistics, almost 40% of America's fourth graders suffer with reading difficulties. It has been brought to the attention of the conferees that the Haan Reading Institute has developed a national research project to measure the effectiveness of selected remedial reading programs and their ability to normalize reading skills for children in the late elementary and early secondary grades. The information derived from this research will be used by parents, teachers and policymakers to understand the different reading profiles of children and to determine which instructional methods work best for whom. The conferees encourage the Department to give consideration to this research project.

DEPARTMENTAL MANAGEMENT

The conference agreement includes \$412,545,000 for Departmental program administration instead of \$412,093,000 as proposed by the Senate and \$411,795,000 as proposed by H.R. 246.

The conferees are concerned about the delay applicants are experiencing in receiving awards under grant programs and therefore request that the Department provide a report within 60 days of enactment of this bill on the steps that it can take to reduce the delay in administering grant competitions.

The conferees have included \$750,000 to provide all Title IV institutions that are eligible for funding with a handbook providing detailed instruction on compliance with section 485(f) of the Higher Education Act of 1965, relating to campus crime statistics.

GENERAL PROVISIONS

READING FIRST SUPPLEMENT NOT SUPPLANT

The conference agreement includes an amendment to the Elementary and Secondary Education Act of 1965 to insert a supplement not supplant requirement in the Reading First program as proposed by the Senate. H.R. 246 contained no similar language.

NEW YORK CITY TITLE I DISTRIBUTION

The conference agreement does not include language relating to a new distribution of Title I funding within New York City as proposed by the Senate. H.R. 246 contained no similar language.

ALASKA NATIVE PROGRAMS

The conference agreement does not include an amendment to the No Child Left Behind Act of 2001 to allow construction funding for Alaska Native programs as proposed by the Senate. H.R. 246 contained no similar language.

HAWAIIAN EDUCATION PROGRAMS

The conference agreement does not include an amendment to the No Child Left Behind Act of 2001 to allow construction, renovation and modernization funding for any school run by the Department of Education of the State of Hawaii that serves a predominantly Native Hawaiian student body. H.R. 246 contained no similar provision.

FUNDING FOR INNOVATIVE PROGRAMS

The conference agreement does not include an additional \$5,000,000,000 to be distributed according to the formulas for the Innovative Education Block Grant program and to be used by States and school districts to carry out any activity authorized under the Elementary and Secondary Education Act, IDEA or the Higher Education Act as proposed by the Senate. H.R. 246 contained no similar provision.

IDEA FUNDING

The conference agreement does not include an additional \$1,500,000,000 for IDEA through additional advance appropriations as proposed by the Senate. H.R. 246 contained no similar provision.

SENSE OF THE SENATE ON AFTER-SCHOOL FUNDING

The conference agreement deletes without prejudice a Sense of the Senate that every effort should be made to fund the after-school programs at the level authorized in the No Child Left Behind Act as proposed by the Senate. H.R. 246 contained no similar provision.

TITLE IV—RELATED AGENCIES

ARMED FORCES RETIREMENT HOME

The conference agreement includes \$68,013,000 for the Armed Forces Retirement Home instead of \$67,340,000 as proposed by H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

The conferees have also agreed to include provisions relating to contracts for development and construction as proposed by the Senate. H.R. 246 contained no similar provisions.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

DOMESTIC VOLUNTEER SERVICE PROGRAMS, OPERATING EXPENSES

The conference agreement includes \$356,205,000 for the Domestic Volunteer Service programs instead of \$350,331,000 as proposed by H.R. 246 and \$351,063,000 as proposed by the Senate.

Volunteers in Service to America (VISTA)

The conference agreement includes \$94,287,000 for VISTA as proposed by the Senate instead of \$94,155,000 as proposed by H.R. 246.

Volunteers in Homeland Security

The conference agreement includes \$10,000,000 for Volunteers in Homeland Security as proposed by the Senate instead of \$5,000,000 as proposed by H.R. 246. Of this total, up to \$5,000,000 is available to support the Parent Drug Corps program.

National Senior Volunteer Corps

The conference agreement includes \$111,500,000 for the Foster Grandparent Program (FGP) as proposed by H.R. 246 instead of \$106,700,000 as proposed by the Senate.

One-third of the increases provided for the FGP, SCP, and RSVP programs shall be used to fund Programs of National Significance expansion grants to allow existing FGP, RSVP and SCP programs to expand the number of volunteers serving in areas of critical need as identified by Congress in the Domestic Volunteer Service Act.

Sufficient funding has been included to provide an increase for administrative costs realized by all current grantees in the FGP, SCP and RSVP programs. Funds remaining above these amounts should be used to begin new FGP, RSVP and SCP programs in geographic areas currently unserved. The conferees expect these projects to be awarded via a nationwide competition among potential community-based sponsors.

The Corporation for National and Community Service shall comply with the directive that use of funding increases in the Foster Grandparent Program, Retired and Senior Volunteer Program and VISTA not be restricted to America Reads activities. The conferees further direct that the Corporation shall not stipulate a minimum or maximum amount for PNS grant augmentations.

The conference agreement includes \$400,000 for senior demonstration activities as proposed by both the Senate. These funds are to be used solely to carry out evaluations and to provide recruitment, training, and technical assistance to local projects as described in the budget request. No new demonstration projects may be begun with these funds. None of the increases provided for FGP, SCP, or RSVP in fiscal year 2003 may be used for demonstration activities.

Funds appropriated for fiscal year 2003 may not be used to implement or support service collaboration agreements or any other changes in the administration and/or governance of national service programs prior to passage of a bill by the authorizing committees of jurisdiction specifying such changes.

Program Administration

The conference agreement includes \$34,571,000 for program administration instead of \$34,229,000 as proposed by both H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

CORPORATION FOR PUBLIC BROADCASTING

The conference agreement provides \$390,000,000 in funding for fiscal year 2005, instead of \$380,000,000 as proposed by H.R. 246 and \$395,000,000 as proposed by the Senate.

The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

The conferees strongly urge the CPB to allocate not less than \$100,000 to the 14 public radio stations around the nation that provide the sole source of radio news and information in their communities. The additional funds would permit these stations to extend their broadcast hours and improve service to their listeners.

The conference agreement also includes \$48,744,000 for equipment and facilities to enable public broadcasters to meet the statutory deadline for digital conversion as proposed by the Senate instead of \$25,000,000 as proposed by H.R. 246.

FEDERAL MEDIATION AND CONCILIATION SERVICE

SALARIES AND EXPENSES

The conference agreement includes \$41,425,000 for the Federal Mediation and Conciliation Service (FMCS) instead of \$40,718,000 as proposed by H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses. Included in the total appropriation is \$300,000 to be used for FMCS to continue their work to prevent youth violence by teaching students mediation and conflict resolution techniques.

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$7,178,000 for the Federal Mine Safety and Health Review Commission rather than \$7,127,000 as proposed by both H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

The conference agreement provides \$245,485,000 for the Institute of Museum and Library Services instead of \$210,000,000 as proposed by H.R. 246 and \$203,000,000 as proposed by the Senate.

The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses. Within the amount provided, \$10,000,000 is available until expended for Recruiting and Educating Librarians for the 21st Century Initiative. The conference agreement also specifies funding for the following:

Abington Art Center, Jenkintown, PA, for a work-study program for at-risk junior and high school students	\$25,000
Aleutian World War II Museum in Alaska for interactive media display	100,000
Allentown Art Museum, Allentown, PA, for educational programs for 25 school districts in 7 PA counties	75,000
Alley Pond Environmental Center, Douglaston, NY, for environmental education programs	25,000
American Village Project in Montevallo, Alabama	500,000
Army Aviation Heritage Foundation in Ozark, Alabama for educational programs	100,000
Arts Council of New Orleans	175,000
Asian Art Museum, San Francisco, CA, for exhibits and education programs	500,000
Berkshire Museum, Pittsfield, MA, for climate control systems to preserve collections	575,000
Bishops Museum in Honolulu, Hawaii	400,000
Boston Public Library Foundation, Boston, MA, for preservation and enhancement of the John Adams Presidential Library and for related educational programs	400,000
Bowers Museum, City of Santa Ana, CA, for education programs, publications and technology	250,000
Brooklyn Children's Museum, Brooklyn, NY, for equipment and technology, exhibits and education programs	500,000
Butler Area Public Library, PA for program enhancements	100,000
California State University, San Marcos, to upgrade electronic catalog and to provide computer stations for the library	275,000
Cape Cod Maritime Museum to develop exhibits and academic programs	175,000
Carnegie Library of Pittsburgh, PA, to purchase library materials and upgrade technology at the East Liberty Branch Library	200,000
Carnegie Library, Union Springs, Alabama for program development	250,000
Chicago State University Gwendolyn Brooks Center to expand its repository of the literary works of Gwendolyn Brown	75,000
Chickasaw Cultural Center in Chickasaw, Oklahoma	100,000
Children's Museum of Manhattan, New York, NY, to establish early childhood education programs and exhibits	100,000
Children's Museum of Stockton, Stockton, California, for a Delta Region Exhibit	100,000
City of Abilene, TX, for the collection and display of artifacts, and for exhibits at the Texas Forts Trail Museum	100,000

University of Idaho for digital archiving	400,000
University of Maine at Fort Kent to house the Acadian Archives which preserves, celebrates and disseminates information about the region's history	200,000
Vietnam Archive Center, Texas Tech University, Lubbock, Texas, for digitization	400,000
Virginia Living Museum for the expansion of its educational programs in its capital campaign project	150,000
Wayne Art Center, Wayne, PA, to develop programs in partnership with area K-12 schools for teacher training workshops and specialized workshops for students	50,000
Westchester Library System, Ardsley, NY, for its digital divide online services project	100,000
Whitney Museum of American Art to establish a touring exhibition program in Iowa	450,000
Whittier Public Library, City of Whittier, CA, to establish a children's homework center and family literacy center	300,000
Willet Memorial Library in Macon, Georgia for library enhancements	100,000
Witte Museum of San Antonio, TX, to develop the "American Originals" exhibit and educational programs	150,000
Zimmer Children's Museum of Jewish Community Centers of Greater Los Angeles, Los Angeles, CA, for the expansion of the YouThink program	100,000
Zoological Society of Philadelphia, PA, for educational programs for elementary and secondary students	100,000
St. Louis Children's Museum, MO	500,000

MEDICARE PAYMENT ADVISORY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$8,585,000 for the Medicare Payment Advisory Commission, instead of \$8,250,000 as proposed by H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

NATIONAL COMMISSION ON LIBRARIES AND INFORMATION SCIENCE

SALARIES AND EXPENSES

The conference agreement provides \$1,010,000 for the National Commission on Libraries and Information Science instead of \$1,000,000 as proposed by H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

NATIONAL COUNCIL ON DISABILITY

SALARIES AND EXPENSES

The conference agreement includes \$2,858,000 for the National Council on Disability, instead of \$2,830,000 as proposed by H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

NATIONAL LABOR RELATIONS BOARD

SALARIES AND EXPENSES

The conference agreement provides \$238,982,000 for the National Labor Relations Board instead of \$226,618,000 as proposed by H.R. 246 or \$238,223,000 as proposed by the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

NATIONAL MEDIATION BOARD

SALARIES AND EXPENSES

The conference agreement includes \$11,315,000 for the National Mediation Board, instead of \$11,203,000 as proposed by H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$9,673,000 for the Occupational Safety and Health Review Commission instead of \$9,577,000 as proposed by both H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

RAILROAD RETIREMENT BOARD LIMITATION ON ADMINISTRATION

The conference agreement includes \$100,000,000 for the Railroad Retirement Board Limitation on Administration Expenses, as proposed by H.R. 246 instead of \$97,720,000 as proposed by the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

Given that trust funds are collected from railroad workers for the specific purpose of maintaining and administering a retirement fund, the conferees believe that trust funds should not be used for the purpose of paying rent in excess of actual cost. Therefore, no funds have been included for that purpose.

RAILROAD RETIREMENT BOARD LIMITATION ON THE OFFICE OF
INSPECTOR GENERAL

The conference agreement includes a limitation on transfers from the railroad trust funds of \$6,363,000 for administrative expenses of the Office of Inspector General instead of \$6,300,000 as

proposed by H.R. 246 and the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

The conferees do not include language proposed by the Senate that allows the Office of the Inspector General to conduct audits, investigations, and reviews of the Medicare programs. H.R. 246 contained no similar provision.

SOCIAL SECURITY ADMINISTRATION SUPPLEMENTAL SECURITY
INCOME PROGRAM

The conference agreement includes \$24,025,392,000 for the Supplemental Security Income Program as proposed by the Senate instead of \$24,017,392,000 as proposed by H.R. 246. Within the funds provided, the conference agreement includes \$8,000,000 as proposed by the Senate for outreach efforts and assistance to homeless persons and other underserved populations.

UNITED STATES INSTITUTE OF PEACE
OPERATING EXPENSES

The conference agreement provides \$16,362,000 for the United States Institute of Peace instead of \$15,104,000 as proposed by H.R. 246 and \$16,200,000 as proposed by the Senate. The conferees have included sufficient funds to offset the effects of the across-the-board cut on salaries and expenses.

TITLE V—GENERAL PROVISIONS

TRANSFER PROHIBITION

The conference agreement includes a provision prohibiting the transfer of any funds to any department, agency or instrumentality of the U.S. Government except by a transfer made in this or any other appropriation act as proposed by H.R. 246. The Senate bill contained no similar provision.

UNITED STATES INSTITUTE OF PEACE

The conference agreement includes a provision proposed by the Senate pertaining to the date on or before which an independent public accountant must be certified or licensed to perform the annual audit of the United States Institute of Peace (USIP). The conference agreement does not include a provision proposed by the Senate that extends the authorization of the USIP for one additional year. H.R. 246 did not contain similar provisions.

ACROSS-THE-BOARD SALARIES AND EXPENSES REDUCTION

The conference agreement does not include a provision proposed by the Senate to reduce salaries and expenses of the Departments of Labor, Health and Human Services, and Education. The House bill contained no similar provision.

1177

CONFERENCE AGREEMENT

The following table displays the amounts agreed to for each program, project or activity with appropriate comparisons:

House bill, fiscal year 2003	+4,723,817
Senate bill, fiscal year 2003	-4,763,474

DIVISION H—LEGISLATIVE BRANCH APPROPRIATIONS, 2003

LEGISLATIVE BRANCH WIDE MATTERS

The conferees direct the legislative branch entities to establish a legislative branch chief administrative officers council that will meet regularly on administrative issues of concern to the legislative branch. Such a council is to be modeled after the Legislative Branch Financial Managers Council. Wherever a chief administrative officer does not exist in a legislative branch entity, a senior-level employee should be designated to serve in this capacity. Through this council, representatives will be able to define, review and discuss policies, security issues, mail issues, personnel practices, procedures and systems for such areas as human resources, information technology, and general management. This will facilitate consistency in systems development wherever appropriate, sharing of "lessons learned," and the elimination of duplicative efforts. The conferees direct the General Accounting Office to work with the agencies of the legislative branch to establish the council and the council and GAO must be prepared to report to the Committees on Appropriations of the Senate and the House during the annual budget hearing process beginning with fiscal year 2005.

The conferees recognize the provisions of H.R. 5121 and House Report 107-576 and any instructions and detail included in such report are to be adhered to, unless amended or restated herein.

Many items in both House and Senate Legislative Branch Appropriations bills are identical and are included in the conference agreement without change. The conferees have endorsed statements of policy contained in the House and Senate reports accompanying the appropriations bills, unless amended or restated herein. With respect to those items in the conference agreement that differ between House and Senate bills, the conferees have agreed to the following with the appropriate section numbers, punctuation, and other technical corrections:

TITLE I—LEGISLATIVE BRANCH APPROPRIATIONS

SENATE

Appropriates \$667,788,000 for Senate operations. Inasmuch as these items relate solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the House, at the request of the managers on the part of the Senate, have receded to the amendments of the Senate.

HOUSE OF REPRESENTATIVES

Appropriates \$956,086,000 for House operations. Inasmuch as these items relate solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the Senate, at the request of the managers on the part of the House, have receded to the amendments of the House.

The managers on the part of the House encourage the Chief Administrative Officer (CAO) to contract with an organization that is very familiar with the House, the operations and activities of House offices, and the personnel that work in these offices, to assess the professional development needs of the House workforce. The CAO should report the findings to the Committee on Appropriations and the Committee on House Administration.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

Appropriates \$3,658,000 for the Joint Economic Committee as proposed by the House and by the Senate.

JOINT COMMITTEE ON TAXATION

Appropriates \$7,643,000 for the Joint Committee on Taxation instead of \$7,323,000 as proposed by the House and the Senate.

OFFICE OF THE ATTENDING PHYSICIAN

Appropriates \$3,000,000 for the Office of the Attending Physician as proposed by the House and by the Senate, of which \$300,000 shall be available until expended. This amount includes \$1,414,000 for reimbursement to the Department of Navy for expenses incurred as proposed by the House and by the Senate.

CAPITOL GUIDE SERVICE AND SPECIAL SERVICES OFFICE

Appropriates \$3,035,000 for the Capitol Guide Service and Special Services Office as proposed by the House and by the Senate.

STATEMENT OF APPROPRIATIONS

Appropriates \$30,000 for Statement of Appropriations as proposed by the House and by the Senate.

CAPITOL POLICE

SALARIES

Appropriates \$175,675,000 for salaries of officers, members, and employees of the Capitol Police. The conferees direct the Chief of the Capitol Police make retroactive to the first full pay period in October 2002 any comparability adjustment in pay.

The conferees direct that not later than 120 days after enactment of this Act, the Capitol Police Board report to the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Rules and Administration of the Senate, and the Committee on House Administration on a proposed new pay structure, the budgetary impact of the proposed structure, and a detailed plan of how the proposed structure would be implemented which is consistent with the requirements of P.L. 105-55.

The FY 2001 Legislative Branch Appropriations Act, as amended (P.L. 106-346), required the General Accounting Office (GAO) to participate in the selection of a Chief Administrative Officer (CAO) for the United States Capitol Police (USCP) and monitor the implementation of management improvements in budgeting, financial management, information technology, and human resources. The law required GAO to provide quarterly reports to the Chief of the Capitol Police, Capitol Police Board, and congressional appropriations and oversight committees having jurisdiction over the Capitol Police through September 30, 2002 on USCP's implementation efforts. Much progress has been made by the CAO to improve overall administrative operations of the Capitol Police. However, there are still some significant concerns on the part of the conferees about the need for the USCP to update their strategic plan to reflect post-September 11, 2001 changes, and to implement an effective management strategy in the agency, particularly with respect to human resources. Therefore, the conferees direct the GAO to continue monitoring all CAO operations of the USCP, with special attention to the strategic planning process and human resources management. GAO is directed to provide to the Capitol Police and congressional committees noted above semi-annual reports on the CAO's continued implementation of management improvements in budgeting, financial management, information technology, developing and implementing an effective overall strategic planning process and human resource management strategy. The conferees direct that these reports continue through FY 2006.

In the wake of September 11, 2001, security concerns led to the posting of signs prohibiting bicyclists on the Capitol grounds. The Capitol grounds have been a link to Capitol Hill, the National Mall and downtown for years and bicycling is a form of transportation that helps alleviate traffic congestion, promotes physical activity, and does not contribute to air pollution. The conferees urge the Capitol Police and the Architect of the Capitol to work with the District Department of Transportation to create safe routes for bicyclists in and/or around the Capitol grounds in a manner that encourages bicycling without sacrificing security concerns. The upcoming year is a critical time for this planning to take place as the construction of the Capitol Visitors Center progresses and the City of Washington updates its Bike Master Plan. The Capitol Police

and the Architect of the Capitol should report to the Committees on Appropriations of the Senate and the House on a plan of action to coordinate with the District Department of Transportation on addressing this issue.

GENERAL EXPENSES

Appropriates \$28,100,000, of which \$1,400,000 shall remain available until expended for general expenses of the Capitol Police.

ADMINISTRATIVE PROVISIONS

The conferees have included an administrative provision allowing for the transfer of funds upon the approval of the Committees on Appropriations of the House and Senate. In addition, the conferees have included provisions that authorize the Capitol Police to: procure severable services; dispose of surplus or obsolete property; hire without regard to age; establish an educational assistance program; expand the current training program; centralize their disbursing authority; annualize premium pay limits; provide overtime compensation to Lieutenants and above; appoint special officers and establish specialty assignment pay. In addition, the conferees have included technical corrections to existing recruitment and relocation incentives, and for compensation of the Chief of Police, the Assistant Chief of Police, and the Chief Administrative Officer. Language is included which redefines the mission and the composition of the Capitol Police Board; provides for the merger of the Capitol Police with the Library of Congress Police; and, clarifies the authority of the Capitol Police to police the Botanic Garden. Language is also included which permits the Capitol Police to appoint employees at a rate of pay at or above step one of the pay grade in which the employee is appointed. In addition, language has been included which directs the regulations and approvals of various provisions be completed within sixty days of enactment of this Act. The conferees have also directed the development of a long-term strategic plan.

OFFICE OF COMPLIANCE

Appropriates \$2,059,000 for the Office of Compliance as proposed by the House and the Senate. Authority has been provided for the Executive Director of the Office of Compliance to dispose of surplus or obsolete property.

The Office of Compliance was established as an independent office within the Legislative Branch to implement and enforce the provisions of the Congressional Accountability Act of 1995. The principal functions of the Office include enforcing 11 civil rights, labor, and workplace laws within the Legislative Branch, which entails administering a procedure to resolve disputes and to provide remedies if violations are found; carrying out an education program for congressional Members, employing entities of the Legislative Branch, and employees with regard to the provision of the laws applied to the Legislative Branch; and compiling and publishing statistics on the use of Office by covered employees.

Federal standards of internal and management controls and prevailing best practices for governing call for periodically review-

ing an organization's structure, functions (i.e., mission and roles), and processes to (1) determine whether they are functioning well, and ensure that they reflect changes in circumstances and (2) ensure sound governance, oversight, and accountability. Since its creation, no comprehensive review of the Office of Compliance and its operations has been conducted. Thus, the conferees direct the General Accounting Office to assess the overall effectiveness and efficiency of the Office of Compliance in fulfilling its responsibilities and role in achieving the overall intent and purposes of the Congressional Accountability Act. The review should include examining the effectiveness and efficiency of the Office's administration and enforcement of the Act and the administrative and judicial dispute-resolution procedures for considering alleged violations of the laws; the operations of the Board of Directors; and the assistance and services provided by the Office to employing offices of the Legislative Branch in fulfilling their responsibilities under the Act. The GAO should make recommendations, as appropriate, to enhance the overall effectiveness and efficiency of the Office of Compliance to achieve the purposes of the Act. The GAO should report its findings to the Committees on Appropriations of the House and Senate by March 31, 2003.

CONGRESSIONAL BUDGET OFFICE

Appropriates \$32,101,000 for salaries and expenses of the Congressional Budget Office as proposed by the Senate instead of \$32,390,000 as proposed by the House.

ADMINISTRATIVE PROVISIONS

Language has been included authorizing employees of the CBO to engage in details or other temporary assignments to other government agencies for study and work experience. In addition, a provision has been included regarding the purchases and contracts made by the Congressional Budget Office.

ARCHITECT OF THE CAPITOL

GENERAL ADMINISTRATION

Appropriates \$59,343,000 for Architect of the Capitol, general administration. Of the amount appropriated \$450,000 shall remain available until September 30, 2007.

The conferees expect the Architect of the Capitol to continue to observe closely limitations on full-time equivalent (FTE) positions. It is noted, however, that funding was provided for various projects with no commensurate increase in the FTE ceiling. Accordingly, the conferees provide relief from the fiscal year 2003 FTE ceiling for delivery of those projects under the condition that the Committees on Appropriations of the House of Representatives and Senate be notified prior to the increase in the FTE ceiling.

The conferees have provided a new budget line item under various accounts for Design, Study and Condition Assessment of projects. The Architect of the Capitol is to notify the Committees on Appropriations of the House of Representatives and the Senate 21 days prior to moving forward with these projects.

The Architect of the Capitol is to report semi-annually to the Committees on Appropriations of the House of Representatives and the Senate on the expenditure of funds for attendance at meetings and conventions.

The conferees note the completion of the General Management Review (GMR) of the Architect of the Capitol (AOC) conducted by the General Accounting Office (GAO) and commend the Architect for his willingness to effect recommended changes in the AOC's management policies and practices. The conferees believe that the continued involvement of the GAO throughout the Architect's development and implementation of a plan that effects GMR recommendations will be of considerable value. Therefore, the conferees direct the GAO to monitor the Architect on the development and implementation of the required plan. In addition, the GAO is to monitor the establishment of various positions to implement the plan. The conferees also direct the GAO to evaluate implementation efforts as well as the results of management changes, including the timely accomplishment of the implementation plan milestones, and report the results of that evaluation semi-annually to the House and Senate Committees on Appropriations, and the Senate Committee on Rules and Administration. These reports should continue until all changes in the plan have been implemented.

Section 133 of the Legislative Branch Appropriations Act, 2002 (P.L. 107-68) generally prohibits the Architect of the Capitol from employing temporary workers for long periods without providing them eligibility for employee benefits. During the implementation of Section 133, questions arose concerning its application to temporary workers covered by collective bargaining agreements entered into by the Architect providing eligibility for private-sector employee benefits in lieu of federal benefits. The conferees direct the Architect to work with the General Accounting Office to determine the proper manner of completing the implementation of Section 133 and to consult with the Internal Revenue Service concerning the proper tax treatment of benefits and contributions. The Architect is directed to report to the House and Senate Appropriations Committees, and the Senate Committee on Rules and Administration on the results of his efforts by May 31, 2003.

With respect to the object class and projects, the conferees have agreed to the following:

Operating Budget	\$55,275,000
Capital Projects:	
Implementation of Safety Programs	450,000
Security Project Support for AOC	125,000
Financial Management System (FMS)	1,627,000
Implementation of AOCNET	500,000
Computer-Aided Facility Management (CAFM)	1,366,000
	<hr/>
Total, General Administration	\$59,343,000

CAPITOL BUILDING

Appropriates \$32,094,000 for maintenance, care and operation of the Capitol, by the Architect of the Capitol. Of the amount appropriated \$19,065,000 shall remain available until September 30, 2007.

With respect to object class and project, the conferees have agreed to the following:

Operating Budget	\$10,886,000
Capital Projects:	
ADA Requirements	75,000
Replacement of Minton Tile	200,000
Roofing Repair, around House and Senate Chambers	160,000
Elevator/Escalator Modernization Program	500,000
Door Refinishing/Restoration	289,000
Chandelier Restoration & Crystal Globe Replacement	319,000
Conservation of Wall Paintings	300,000
Replace High Voltage SWGR & Cables	2,000,000
Upgrade Air Conditioning, East Front Capitol	12,000,000
Computer, Telecom & Electrical Support	300,000
Design, Study and Condition Assessment	5,065,000
Total, Capitol Building	\$32,094,000

CAPITOL GROUNDS

Appropriates \$8,356,000 for the care and improvements of the grounds surrounding the Capitol, House and Senate office buildings, and the Capitol Power Plant, by the Architect of the Capitol. Of the amount appropriated \$1,780,000 shall remain available until September 30, 2007.

With respect to object class and projects, the conferees have agreed to the following:

Operating Budget	\$6,041,000
Capital Projects:	
Replace Truck	80,000
Wayfinding and ADA Compliant Signage	430,000
Maintenance of Outdoor Sculpture, Garfield & Peace	25,000
Power Requirements	1,200,000
Study, Design, and Condition Assessment	580,000
Total, Capitol Grounds	\$8,356,000

SENATE OFFICE BUILDINGS

Appropriates \$64,871,000 for the maintenance, care, and operation of the Senate office buildings to the Architect of the Capitol, of which \$21,600,000 shall remain available until September 30, 2007. Inasmuch as this item relates solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the House, at the request of the managers on the part of the Senate, have receded to the Senate.

With respect to object class and projects, the Senate conferees have agreed to the following:

Operating Budget	\$43,163,000
Capital Projects:	
Kitchen Exhaust and Kitchen Redesign, Webster Hall	108,000
Renovate Restrooms (ADA)	2,100,000
Bus Ducts and Switchgear Replacement	1,950,000
Repair Waterproofing under RSOB's South Steps	1,800,000
Modernize Elevators	3,060,000
Mechanical Renovations, DSOB	940,000
Minor Construction	10,000,000
Design, Study and Condition Assessment	1,750,000
Total, Senate Office Buildings	\$64,871,000

HOUSE OFFICE BUILDINGS

Appropriates \$60,960,000 for the maintenance, care, and operation of the House office buildings to the Architect of the Capitol, of which \$25,610,000 shall remain available until September 30, 2007. Inasmuch as this item relates solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the Senate, at the request of the managers on the part of the House, have receded to the House.

With respect to object class and projects, the House conferees have agreed to the following:

Operating Budget	\$32,650,000
Capital Projects:	
Egress Door Improvements	200,000
Sound Improvements, Committee Hearing Rooms	280,000
Elevator Modernization Program	1,460,000
Minor Construction	9,000,000
Upgrade Fire Alarm, E&W House Garages	880,000
Replace FP Low Voltage Switchgears, FHOB	750,000
Major Elevator Equipment Improvements, HOB	120,000
Design, Study and Condition Assessment	10,020,000
Wayfinding Signage	1,100,000
House Office Building Master Plan	1,000,000
Longworth Emergency Generator Project	3,500,000
	<hr/>
Total, House Office Buildings	\$60,960,000

CAPITOL POWER PLANT

In addition to the \$4,400,000 made available from receipts credited as reimbursements to this appropriation, appropriates \$102,286,000 to the Architect of the Capitol for maintenance, care and operation of the Capitol power plant. Of this amount, \$61,736,000 shall remain available until September 30, 2007.

With respect to object class and projects the conferees have agreed to the following:

Operating Budget	\$39,967,000
Capital Projects:	
Implement Emergency Shoring and Repairs to Tunnels	100,000
Repair South Capitol Street Steam Line	10,289,000
Repair Constitution Avenue Tunnel	8,500,000
West Refrigeration Plant Expansion	41,000,000
Install Dual Low Nox Burners, Boilers 6 & 7	400,000
Procure Emergency Generator	1,500,000
Update CAD Drawings	80,000
Study, Design and Condition Assessment	450,000
	<hr/>
Total, Capitol Power Plant	\$102,286,000

LIBRARY BUILDINGS AND GROUNDS

Appropriates \$37,521,000 for structural and mechanical care, Library buildings and grounds. Of this amount, \$18,014,000 shall remain available until September 30, 2007 and \$5,500,000 shall remain available until expended.

With respect to object class and projects the conferees have agreed to the following:

Operating Budget	\$11,754,000
Capitol Projects:	
Replace Partition Supports, JMMB	300,000

Additional Sprinklers, JMMB	1,383,000
Upgrade Emergency Generators, JAB & TJB	300,000
Repair Roof under East Parking Lot, TJB	2,180,000
Audio Visual Conservation Center	5,500,000
Modernize 4 Elevators	980,000
Design & Construction of Book Storage Module 2, Ft. Meade	9,566,000
HVAC NW Curtain, TJB	453,000
Study, Design & Conditions Assessment	2,905,000
Replace Compact Stack Safety, JMMB	300,000
Repair Life Safety Deficiencies	1,000,000
ADA Requirements, LB&G	100,000
Replace Sidewalks, TJB & JAB	100,000
Restore Decorative Painting, TJB & JAB	100,000
LOC Room & Partition Modifications	500,000
Preservations Environmental Monitoring	100,000
Total, Library Buildings and Grounds	\$37,521,000

CAPITOL POLICE BUILDINGS AND GROUNDS

Appropriates \$23,900,000 for the maintenance, care, and operations of Capitol Police Buildings and Grounds to the Architect of the Capitol, of which \$23,500,000 shall remain available until September 20, 2007.

The conferees direct the Architect of the Capitol to provide a fiscal year 2003 obligation plan, by April 30, 2003, to include personnel compensation and associated FTEs for Capitol Police Buildings and Grounds.

The conferees direct that the General Accounting Office, working with the United States Capitol Police and the Office of the Architect of the Capitol, prepare a report regarding the feasibility of transferring jurisdiction of the United States Capitol Police Buildings and Grounds to the Capitol Police, and that the study be provided to the Committees on Appropriations by May 15, 2003.

With respect to object class and projects the conferees have agreed to the following:

Operating Budget	\$ 400,000
Capital Projects:	
Design Offsite Delivery/Screening Center, USCP	2,000,000
Offsite Delivery/Screening Center, USCP	5,000,000
Design, Tactical Training, Cheltenham, MD	1,500,000
Other Facility Improvements	15,000,000
Total, Capitol Police Buildings and Grounds	\$23,900,000

BOTANIC GARDEN

Appropriates \$6,103,000 for salaries and expenses, Botanic Garden, of which \$120,000 shall remain available until September 30, 2007.

With respect to object class and projects the conferees have agreed to the following:

Operating Budget	\$4,646,000
Capital Projects:	
Fire Alarm System Upgrades, DC Village	25,000
Shade Curtain Replacement	22,000
CAFM Data Capture—USBG	50,000
Interpretative Illustrations—Conservatory Garden Court	225,000
West Gallery Fabric, Audio Tour and Banners	652,000
Vehicle Replacement	43,000
Book on History of Botanic Gardens	20,000
Partnerships	300,000

Study, Design and Condition Assessment	120,000
Total, Botanic Garden	<u>\$6,103,000</u>

ADMINISTRATIVE PROVISIONS

The conference agreement includes administrative provisions related to small purchase contracting authority; multi-year contract authority; establishment of a position of the Deputy Architect of the Capitol; delegation of authority by the Architect; compensation of the Assistant Architect of the Capitol; allocation of responsibility for Library buildings and grounds, and a technical correction.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

Provides \$358,474,000 for salaries and expenses, Library of Congress, and authorizes 2,841 full time equivalents.

With respect to program/project increases the conferees have agreed to the following:

Mandatory Pay and Benefits	\$10,747,000
Price Level Increases	2,163,000
Digital Futures	17,200,000
Central Financial Management System	4,250,000
Law Library GLIN Project	2,903,000
Culpeper Shelving	1,000,000
Collections Relocation	1,439,000
Arrearage Reduction	896,000
Mass Deacidification	895,000
Lewis and Clark Exhibition	989,000
Louisiana Purchase Bicentennial	500,000
Veterans History Project	476,000
Safety Services	308,000
Transfer of the Furniture and Furnishings Appropriation	6,554,000

COPYRIGHT OFFICE

SALARIES AND EXPENSES

Provides \$9,714,000, including \$29,512,000 made available from receipts, for salaries and expenses, Copyright Office. The level provided supports 530 full time equivalents.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

Appropriates \$86,952,000 for salaries and expenses, Congressional Research Service. The level provided supports 742 full time equivalents.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

Appropriates \$50,963,000 for salaries and expenses, books for the blind and physically handicapped. The level provided supports 128 full-time equivalents. The conference agreement provides a one-time appropriation of \$1 million dollars to defray telecommunications costs for the National Federation of the Blind "NEWSLINE," audio daily newspaper service. The conferees sup-

port continued use of this computerized telecommunications technology as part of the Library's conversion to digital media and direct the Librarian to seek cost advantages that may result from combining distribution of audio editions of magazines with newspapers using this technology.

ADMINISTRATIVE PROVISIONS

The conference agreement includes several routine administrative provisions and amendments related to Library programs.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$90,143,000 for Congressional Printing and Binding as proposed by the House and by the Senate.

OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$29,661,000 for salaries and expenses, Office of Superintendent of Documents as proposed by the House and the Senate.

GENERAL ACCOUNTING OFFICE

SALARIES AND EXPENSES

Appropriates \$451,134,000 for salaries and expenses, General Accounting Office.

PAYMENT TO THE OPEN WORLD LEADERSHIP CENTER

TRUST FUND

Appropriates \$13,000,000 to the Open World Leadership Center Trust Fund for financing activities of the Open World Leadership Center. The conferees want it clearly understood that the renaming of the trust fund in no way provides for the creation of a new trust fund within the Department of the Treasury.

ADMINISTRATIVE PROVISION

The conferees have included an administrative provision, which amends Section 313 of the Legislative Branch Appropriations Act, 2001 (P.L. 106-554) renaming the former "Center for Russian Leadership Development" to the "Open World Leadership Center." This name change reflects the expansion of the Center's program to eligible foreign states other than the Russian Federation. The conferees direct that prior to implementation of the FY 2003 program, an obligation plan be submitted to the Committees on Appropriations of the Senate and House reflecting the funding allocation and program objectives for existing and new program elements.

TITLE II—GENERAL PROVISIONS

In Title II, General Provisions, section numbers have been changed to conform to the conference agreement, provisions related to the John C. Stennis Center and the Congressional Award Act have been included, a provision related to electronic W-2's has been included, and a limitation regarding the transfer of funds has also been included. The conferees have also included, under Division P, language and funding regarding the U.S.-China Economic and Security Review Commission.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follows:

[In thousands of dollars]	
New budget (obligational) authority, fiscal year 2002	\$3,252,423
Budget estimates of new (obligational) authority, fiscal year 2003	3,405,108
House bill, fiscal year 2003	2,671,900
Senate bill, fiscal year 2003	3,359,830
Conference agreement, fiscal year 2003	3,358,350
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	+105,927
Budget estimates of new (obligational) authority, fiscal year 2003	-46,758
House bill, fiscal year 2003	+686,450
Senate bill, fiscal year 2003	-1,480

DIVISION I—TRANSPORTATION AND RELATED AGENCIES
APPROPRIATIONS, 2003

TITLE I

DEPARTMENT OF TRANSPORTATION

CONGRESSIONAL DIRECTIVES

The conferees agree that Executive Branch propensities cannot substitute for Congress' own statements concerning the best evidence of Congressional intentions; that is, the official reports of the Congress. The committee of conference approves report language included by the House (House Report 107-722) or the Senate (as delineated materials accompanying Senate Amendment No. 1 to H.J. Res. 2 and printed in the Congressional Record of January 15, 2003) that is not changed by the conference. The statement of the managers, while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

OFFICE OF THE SECRETARY

(SALARIES AND EXPENSES)

The conference agreement provides \$89,447,000 for the salaries and expenses of the office of the secretary instead of \$82,474,000 as proposed by the House and \$83,069,000 as proposed by the Senate. Bill language is included that specifies amounts by office, con-

sistent with actions in prior years, and limits transfers among each office to no more than 5 percent. The bill language specifies that any transfer greater than 5 percent shall be submitted for approval to the House and Senate Committees on Appropriations. The following table summarizes the fiscal year 2003 appropriation for each office:

Immediate office of the Secretary	\$2,211,000
Immediate office of the Deputy Secretary	809,000
Executive Secretariat	1,391,000
Under Secretary of Transportation for Policy	12,452,000
Office of the General Counsel	15,657,000
Office of the Assistant Secretary for budget and programs	8,375,000
Office of the Assistant Secretary for governmental affairs	2,453,000
Office of the Assistant Secretary for administration	29,071,000
Office of public affairs	1,926,000
Board of Contract Appeals	611,000
Office of small and disadvantaged business utilization	1,304,000
Office of the chief information officer	13,187,000

Within the amounts provided, the conferees have denied funding for FECA administrative increases (−\$22,000), the security survey for the new building (−\$165,000), and some of the new increases in the budget for information technology initiatives not related to security (−\$2,800,000).

The conferees direct the office of the secretary to submit its congressional justification materials in support of the individual offices of the offices of the secretary at the same level of detail provided in the congressional justifications presented in fiscal year 2003.

Bill language, as proposed by both the House and the Senate, allows the Department to spend up to \$60,000 for official reception and representation activities.

The conference agreement includes bill language that credits to this appropriation up to \$2,500,000 in funds received in user fees.

Administrative directions.—The conferees direct the department to submit its annual congressional justifications for each modal administration to the House and Senate Committees on Appropriations on the date on which the President's budget is delivered officially to Congress.

Office of Intelligence and Security.—The fiscal year 2003 budget did not request any funding for the Office of Intelligence and Security because it had been transferred to the Transportation Security Administration, which will be part of the new Department of Homeland Security. The Secretary may make arrangements to have one staff detailed to him from this new Department so that he remains informed on intelligence and security matters pertaining to transportation. There is sufficient funding within the salaries and expenses account to pay for this detailee.

Aviation claims.—The conference agreement includes a rescission of \$90,000,000 from funds enacted to compensate airlines for losses incurred in the aviation system disruption in the aftermath of the September 11, 2001 terrorist attacks. The conferees have been assured by the department that the rescinded funds are unnecessary to meet all of the outstanding or anticipated claims from air carriers. Such claims include applications that the department has not processed or that are involved in litigation. The conferees direct the Secretary to provide quarterly reports to the House and

Senate Committees on Appropriations listing all remaining air carrier claims and all unprocessed applications for claims and the amounts requested, the names of air carriers with outstanding claims, and the steps taken to resolve those outstanding claims; to provide an anticipated timeline for resolution of outstanding claims and applications; and to list the remaining uncommitted funds and balances still available to pay those outstanding claims and applications.

Report distribution.—The conferees direct the department to adopt written procedures for report distribution similar to the standards in place and followed before February 28, 2002. The House Appropriations Committee has seen serious violations of the report distribution policy in 2002. In addition, the conferees direct the department to refrain from attaching miscellaneous documents, including reports, to Congressional testimony without prior consultation.

Outstanding reports.—The conference agreement continues a long standing policy directing the Office of the Assistant Secretary for Budget and Programs to report quarterly on the status of all outstanding reports and reporting requirements including how delinquent congressionally mandated or requested reports are and an estimated date for delivery.

Tier matching based on fiscal capability.—At present, federal grant programs administered by the Federal Highway Administration, Federal Aviation Administration, and Federal Transit Administration require an identical match of all communities without regard to their financial circumstances. Some have asserted that this policy places a disproportionate burden on lower-income jurisdictions and prevents these jurisdictions from fully participating in the very programs necessary to improve conditions. The conferees take no position on this assertion. However, for the purpose of information gathering, the conferees separately request the FHWA, FAA, and FTA to each provide reports covering the programs within each administration to the House and Senate Committees on Appropriations by March 15, 2003 which address this contention. Should the agencies believe that contention has merit, they may as part of these reports, propose a tiered matching system for non-federal contributions based upon the fiscal capability of the grantee and which does not increase over the existing grant programs each program's cumulative financial burden on each administration.

Alternatively fueled vehicles.—The conferees urge the Department of Transportation to adhere to the Federal mandates in the 1992 Energy Policy Act (P.L. 102-486) by purchasing alternatively fueled vehicles when feasible. The department should set an example for other government agencies by purchasing flexible fuel vehicles in order to help lessen our reliance on foreign oil.

OFFICE OF CIVIL RIGHTS

The conference agreement provides \$8,700,000 for the office of civil rights as proposed by the Senate instead of \$8,500,000 as proposed by the House.

TRANSPORTATION PLANNING, RESEARCH, AND DEVELOPMENT

The conference agreement provides \$21,000,000 for transportation planning, research, and development as proposed by the Senate instead of \$11,157,000 as proposed by the House. Adjustments to the budget request shall be available for the following activities:

Texas Transportation Institute	+\$1,000,000
Bypass mail system computer software and hardware upgrades, AK	+500,000
Circumpolar infrastructure task force, Arctic Council and Northern Forum, AK	+500,000
Delaware Memorial Bridge collision avoidance project, DE	+1,000,000
DOT's privacy practices third party evaluation	+750,000
Northeast advanced vehicle consortium fuel cell, CT	+1,500,000
Office for Infrastructure Transportation and Logistics, AL	+1,000,000
Strategic freight transportation analysis, WA	+1,375,000
UAL fuel cell/hybrid electric research program, AL	+1,000,000
WestStart's vehicular flywheel project, WA	+1,375,000

WORKING CAPITAL FUND

The conference agreement includes a limitation of \$131,766,000 for working capital fund activities instead of a limitation of \$131,766,000 on the transportation administration service center (TASC) as proposed by the House and a limitation of \$131,779,000 on the TASC as proposed by the Senate. The Department of Transportation abolished TASC at the end of calendar year 2002. In its place, DOT re-established a working capital fund to provide necessary services (e.g., printing, security, parking, etc.) to all modal entities within the department.

Modal usage of the working capital fund.—The conferees direct the department, in its fiscal year 2004 Congressional justifications for each modal administration, to account for increases and decreases in working capital fund billings based on planned usage requested or anticipated by the modes.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The conference agreement provides an appropriation of \$900,000 for the minority business resource center program and limits the loans to \$18,367,000 as proposed by both the House and the Senate.

MINORITY BUSINESS OUTREACH

The conference agreement provides a total of \$3,000,000 for minority business outreach as proposed by the House and the Senate.

NEW HEADQUARTERS BUILDING

The conference agreement denies funding for the new DOT headquarters building as proposed by the Senate. The House recommended \$25,000,000 for tenant build outs related to the new building.

PAYMENTS TO AIR CARRIERS
(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement provides a total of \$113,000,000 for payments to air carriers. Of this total, \$52,100,000 is in direct appropriations; \$50,000,000 is to be derived from overflight user fees and, if necessary, unobligated balances from the Federal Aviation Administration; and \$10,900,000 is to be derived from carryover balances. The House proposed a total program level of \$113,000,000 for the payments to air carriers program, of which \$50,000,000 was from overflight fees or other funds available for the Federal Aviation Administration; \$50,000,000 was in direct appropriations; and \$13,000,000 was in carryover balances. The Senate proposed a total program level of \$128,000,000, of which \$50,000,000 was from overflight fees or other funds available for the Federal Aviation Administration; \$65,000,000 was in direct appropriations; and \$13,000,000 was from carryover balances.

TRANSPORTATION SECURITY ADMINISTRATION

The conference agreement recommends \$5,180,000,000 for the Transportation Security Administration instead of \$5,140,000,000 as proposed by the House and \$5,346,000,000 as proposed by the Senate. Funds are provided in four separate appropriations, similar to the approach proposed by the House, instead of a single lump-sum appropriation proposed by the Senate. The agreement specifies that \$144,000,000 of the total shall be derived by reimbursement from "Federal Aviation Administration, Facilities and equipment" instead of \$176,691,200 proposed by the House and \$55,000,000 proposed by the Senate. Funds are available until expended, as proposed by the House instead of one year as proposed by the Senate. The bill includes a provision, proposed by the Senate, allowing any excess fees collected during fiscal year 2003 to be treated as offsetting collections during fiscal year 2004.

Staffing cap.—The conferees agree to continue the limitation on total agency staffing, as proposed by the House. This prohibits funds to recruit or hire more than 45,000 full-time permanent staff. The same provision has been in effect since fiscal year 2002. The agency believed it was critical to temporarily surge staffing last year, in order to meet the passenger and baggage screening deadlines in the Aviation and Transportation Security Act. Now that these deadlines are past, the conferees believe TSA should focus on eliminating unnecessary positions, generally through attrition.

AVIATION SECURITY

The conference agreement includes \$4,516,300,000 for aviation security. Funds shall be distributed as follows:

	<i>Conference agreement</i>
Passenger screening	\$1,602,000,000
Passenger screeners	1,327,000,000
Credentialing and registered traveler programs	35,000,000
CAPPS II	35,000,000
Checkpoint equipment	30,000,000
Electronic surveillance	10,000,000
Checkpoint equipment maintenance	10,000,000

	<i>Conference agreement</i>
Third party screening contracts	30,000,000
Planning and deployment	35,000,000
Human resource services	60,000,000
Training	30,000,000
Baggage screening	1,415,900,000
Baggage screeners	900,000,000
Detection equipment maintenance	75,000,000
Checked baggage data system	1,400,000
EDS/ETD systems—procurement	174,500,000
EDS/ETD systems—airport modifications	265,000,000
Cargo screening improvements	20,000,000
Airport support and enforcement presence	1,478,400,000
Airport support	340,000,000
Law enforcement	175,000,000
Reimbursable agreements	250,000,000
Cockpit door reimbursement	100,000,000
Commercial pilot firearms training	8,000,000
K-9 units	10,000,000
Federal air marshals	545,000,000
FAA internal security and hazmat	50,400,000
Total	4,516,300,000

Third party screening contracts.—The conference agreement provides \$30,000,000 for third party screening contracts. Program savings are available due to the existence of contract recoveries, which the agency estimates will be available up to \$100,000,000 in fiscal year 2003. These two sources of funds will provide sufficient resources to meet estimated contract payments.

Recruiting, assessment, and human resource services contract.—The conferees encourage the Secretary of Transportation, in consultation with the Secretary of Homeland Security, to expeditiously review and, if compliant with Public Law 85-804 and other statutes, approve any application for liability protection for the services provided by the contractor awarded a contract by the Department of Transportation with an effective date of February 25, 2002 for recruiting, assessment and human resource services for federal employees of the Transportation Security Administration.

Credentialing and registered traveler programs.—The conference agreement includes \$35,000,000 for the credentialing and aviation registered traveler programs. The conferees support the position of the House that TSA should include various transportation worker identification card (TWIC) technologies in the East Coast and West Coast credentialing pilot projects to result in a fair evaluation of all technology candidates, including card, reader, and database technologies. The conferees support TSA's current plan to evaluate the potential for a central card production, personalization, and issuance center. The conferees strongly encourage TSA to consider the benefits of consolidating regional centers into a centralized location, and the benefits of using existing government card issuance centers for this activity. The conferees agree it is essential to include multiple biometrics on these cards, to verify the identity of the individual carrying them. The conferees further agree that one card technology with great capacity for storing biometric information is the optical lasercard, such as that used by the Immigration and Naturalization Service for permanent resident cards and by the Department of State for border crossing cards. The conferees agree that TSA should not develop new technologies

if existing ones, already developed by other federal agencies, are good enough. While approving funds for this program and deleting restrictive bill language proposed by the House, the conferees direct TSA not to obligate funds for the TWIC prototype phase until the House and Senate Committees on Appropriations are briefed on the results of the technical evaluation phase and agree that the program should move forward.

Letters of intent for installation of security systems.—The bill includes a provision authorizing TSA to sign letters of intent (LOIs) with airport authorities specifying long-term funding arrangements for the installation of explosive detection systems. This process is similar to the existing LOI process for airport capital improvement projects. While supportive of this concept, the conferees emphasize that the signing of such agreements do not obligate or commit the Federal Government to make future payments until approved by Congress in the annual budget process. In addition, the conferees want to ensure that the signing of LOIs do not upset the proper balance between funding for large, medium, and small airports. For this reason, the conferees direct TSA not to commit more than 50 percent of total available funding for modification of airports to LOIs. This will preserve funding for smaller airports. A similar restriction has been in place for many years for LOIs granted under FAA's Airport Improvement Program.

Use of state and local law enforcement officers.—The bill includes a provision allowing TSA to utilize the services of state and local officials as law enforcement officers at airports, including the authority to deputize such officials as federal law enforcement officers. The bill specifies that TSA shall reimburse state and local entities for all reasonable, allowable, and allocable costs for these services, and additional funding is provided in the bill to ensure appropriate payment. In addition, the bill provides that such officers may provide security services throughout the airport, and not solely at screening checkpoints, if such action is preferable for law enforcement purposes.

Fitness for duty requirements.—The conferees are concerned that the Under Secretary has yet to implement the fitness for duty requirements stipulated in the Aviation and Transportation Security Act. As such, the conferees concur in the initiative of the Senate in providing \$250,000 to enable the Under Secretary to make expedited use of currently available fitness-for-duty technology to assess saccadic velocity to determine the potential impairment of airport security screeners at Seattle-Tacoma International Airport.

South Terminal Expansion Project, Seattle-Tacoma, WA.—The Supplemental Appropriations Act for fiscal year 2002 included \$225,000,000 over and above the budget request for airport modifications to accommodate the installation of explosive detection systems. The statement of managers accompanying that bill instructed the Under Secretary to be attentive to the extraordinary needs of certain airports, such as the Seattle-Tacoma International Airport, that are facing extraordinary costs associated with redesigning airport terminal projects that are in mid-construction. While the conferees are pleased that the TSA and the relevant airport authorities have come to agreement on the total federal obligation associated with the reconfiguration of the South Terminal Expansion

Project (STEP), the conferees remain concerned that an agreement has not yet been reached on the timetable under which these funds will be provided. This bill provides an additional \$265,000,000 for airport modifications, bringing to just under \$500,000,000 the amount of money that has been provided for airport modifications over and above the levels sought by the Administration. The conferees urge TSA to work cooperatively with the Seattle-Tacoma International Airport to address their unique needs for security-related airport modifications. The conferees believe that, when combined with unobligated prior year funds, the funding in this bill gives TSA sufficient resources to address the long-term security requirements of airports such as Seattle-Tacoma International.

MARITIME AND LAND SECURITY

The conference agreement includes \$244,800,000 for maritime and land security. Funds shall be distributed as follows:

	<i>Conference agreement</i>
Port security grants	\$150,000,000
Staff	21,000,000
Information technology projects	4,800,000
Nuclear detection and monitoring	4,000,000
Trucking industry grants	25,000,000
Trucking industry grants	(20,000,000)
Hazardous materials permit program	(3,500,000)
Trucking security pilot program	(1,500,000)
Intercity bus security	10,000,000
Operation Safe Commerce	30,000,000
 Total	 244,800,000

Trucking industry grants.—Funding provided for trucking industry grants are to be distributed as follows: \$20,000,000 for activities in the budget amendment submitted in September 2002; \$3,500,000 for a hazardous materials safety permit program; and \$1,500,000 for a truck security pilot program.

Hazardous materials safety permit program.—The conferees include \$3,500,000 to implement the permit program required by law for those motor carriers transporting the most dangerous hazardous materials. Given that this permit program is especially critical now in light of truck security concerns, TSA should ensure that it is implemented within one year from the date of enactment of this Act. The conferees would not oppose the conduct of this program by FMCSA on a reimbursable basis.

Truck security pilot program.—The conferees understand that technology exists from a number of manufacturers that allows trucks to be remotely tracked and controlled. So that TSA and FMCSA may completely understand the performance characteristics of such systems, the conference agreement includes \$1,500,000 for a pilot program.

Nuclear detection and monitoring.—The agreement includes \$4,000,000 to continue evaluation and procurement of portable nuclear radiation search tools. A similar appropriation was made in Public Law 107–206. The conferees direct TSA to provide a status report on this activity to the House and Senate Committees on Appropriations not later than March 15, 2003.

Operation Safe Commerce.—The conferees direct that the \$30,000,000 provided in the bill for Operation Safe Commerce shall

be distributed under the same terms and conditions governing the funding provided for this program for fiscal year 2002.

RESEARCH AND DEVELOPMENT

The conference agreement includes \$110,200,000 for research and development. Funds shall be distributed as follows:

	<i>Conference agreement</i>
Laboratory space/research facility	\$5,000,000
Next generation EDS	75,000,000
Applied R&D	15,000,000
Staffing	5,200,000
Port security R&D	10,000,000
	<hr/>
Total	110,200,000

Security research.—The conferees do not agree with language proposed by the Senate specifying that research funds should be targeted toward detection of chemical, biological or similar threats. While the conferees agree that such research is a high priority for funding, the Under Secretary for Transportation Security has the flexibility to establish overall agency priorities in security research.

Port security research and development.—The conference agreement includes \$10,000,000 for port security research and development activities at national laboratories, private non-profit organizations, institutions of higher education, and other entities. The conferees direct that, should any of these funds be allocated to a Department of Energy laboratory, they shall be administered. This policy is consistent with section 309 of The Homeland Security Act of 2002.

ADMINISTRATION

The conference agreement includes \$308,700,000 for administration. Funds shall be distributed as follows:

	<i>Conference agreement</i>
Headquarters staff (inc. ACS)	\$106,000,000
Start-up and administrative support	10,000,000
Information technology core activities	179,251,000
Intelligence	13,449,000
	<hr/>
Total	308,700,000

COAST GUARD

OPERATING EXPENSES

The conference agreement includes \$4,322,122,000 for operating expenses of the Coast Guard, instead of \$4,305,456,000 as proposed by the House and \$4,318,456,000 as proposed by the Senate. Of the total amount provided, \$340,000,000 is for defense-related activities, as proposed by the Senate, instead of \$1,300,000,000 as proposed by the House.

The following table summarizes the House and Senate's proposed adjustments to the Coast Guard's budget request and the final conference agreement:

	House Bill	Senate Bill	Conference agreement
Budget estimate	\$4,153,456,000	\$4,153,456,000	\$4,153,456,000
Adjustments to the budget estimate:			
Homeland security liaison billets	- 4,094,000		- 4,094,000
Polar icebreaking reimbursement	- 3,149,000		- 2,500,000
FECA/UCX	- 933,000		- 933,000
Response boat-small	+10,000,000		+7,000,000
Small boat station/command center readiness	+10,000,000		+8,000,000
Maritime SAR/personnel safety:			
FDRs/CVRs	- 2,700,000		
SCBA	- 1,115,000		
VTIS Corpus Christi	- 3,600,000	- 3,600,000	
High interest vessel control follow-on:			
Personnel support costs	- 3,776,000		- 3,776,000
Maritime safety/security teams:			
WLB/WLM staffing	- 3,731,000		- 3,731,000
New marine safety/security teams	- 6,340,000		
Security readiness and planning:			
Attorneys/contract administrators	- 2,162,000		- 2,162,000
Incident command system:			
Public affairs specialists	- 1,400,000		- 1,400,000
Marine Fire and Safety Association		+312,000	+312,000
AMSEA		+350,000	+350,000
Maritime EO/IR sensors		+5,000,000	+4,000,000
Oil spill prevention, 13th District		+1,600,000	+1,600,000
Datum marker buoys		+1,000,000	+1,000,000
Unspecified reduction		- 4,662,000	
Denial of new user fee proposal	+165,000,000	+165,000,000	+165,000,000
Total recommended	4,305,456,000	4,318,456,000	4,322,122,000

Small boat station and command center readiness.—The bill includes language specifying that not less than \$15,686,000 of additional funding shall be used to address readiness problems at the nation's small boat stations and associated command centers. This is the second year of a multiyear effort to restore the readiness level of these critical facilities. The conferees direct the Coast Guard to submit a five year operating and capital plan to address the readiness problems, including elements which appropriately allocate billets to cover on-board and planned staffing levels. The conferees request the U.S. General Accounting Office to review and certify that the additional funding provided in this bill is being used to supplement, and not supplant, the level of effort in fiscal year 2002.

Limitation on flag officers.—The bill includes the limitation, proposed by the Senate, prohibiting the hire of more than 37 active duty flag officers during fiscal year 2003.

Pier safety study.—As proposed by the House, the conferees direct the Coast Guard, in consultation with the Army Corps of Engineers, to conduct a study of pier safety, to be submitted within six months of enactment of this Act.

Oil spill prevention, 13th District.—The conference agreement includes \$1,600,000 for additional oil spill prevention activities in the Coast Guard 13th District, as proposed by the Senate. The Coast Guard is expected to consult fully with the Captain of the Port, Puget Sound, in making determinations on the scope and use of these funds.

Great Lakes pilotage.—The conferees understand that the Coast Guard has before it a proposal to change the pilotage system on the Great Lakes. The conferees urge the Coast Guard to ensure that this proposal receives all due consideration, including public comment as appropriate and full review by the Great Lakes Pilotage Advisory Committee.

Polar icebreaking reimbursement.—The conferees agree to a reduction of \$2,500,000 assuming higher reimbursements for polar icebreaking activities, instead of \$3,149,000 as proposed by the House. The conferees agree that the entire reduction is to be taken from costs related to activities in the Antarctic region.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

The conference agreement includes \$742,100,000 for acquisition, construction, and improvements instead of \$725,000,000 as proposed by the House and \$752,000,000 as proposed by the Senate. The agreement includes certain restrictions on the Integrated Deepwater Systems program, as proposed by the House and Senate. Consistent with past years and the House and Senate bills, the conference agreement distributes funds by budget activity. Further, the bill includes a contingent rescission relating to submission of the Capital Investment Plan to the Congress, as proposed by the Senate.

A table showing the distribution of this appropriation by project, as included in the fiscal year 2003 budget estimate, House bill, Senate bill, and the conference agreement is as follows:

Program Name	Budget estimate	House bill	Senate bill	Conference agreement
Vessels	13,600,000	11,715,000	25,600,000	25,600,000
Survey and design—cutters and boats	400,000	400,000	400,000	400,000
Seagoing buoy tender (WLB) replacement	4,000,000	4,000,000	4,000,000	4,000,000
Polar class icebreaker reliability improvement program	2,200,000	2,200,000	2,200,000	2,200,000
41 foot utility boat replacement ..	4,000,000	4,000,000	4,000,000	4,000,000
Alex Haley conversion project	3,000,000	0	3,000,000	3,000,000
87-foot coastal patrol boat	0	0	12,000,000	12,000,000
Shipboard contained breathing apparatus (SCBA)	0	1,115,000	0	0
Aircraft	0	2,700,000	0	4,000,000
FDRs/CVRs	0	2,700,000	0	0
LTS-101 engine improvements	0	0	0	4,000,000
Other Equipment	117,700,000	114,200,000	132,700,000	121,300,000
Ports and waterways safety system (PAWSS)	5,000,000	8,600,000	5,000,000	4,000,000
National distress system modernization	90,000,000	90,000,000	90,000,000	90,000,000
Defense message system implementation	2,100,000	0	2,100,000	1,100,000
Global Maritime Distress and Safety System (GMDSS)	2,200,000	2,200,000	2,200,000	2,200,000
Thirteenth district microwave modernization project	3,000,000	3,000,000	3,000,000	3,000,000
Hawaii Rainbow communications system modernization	3,000,000	3,000,000	3,000,000	3,000,000
High frequency recapitalization and modernization	2,000,000	2,000,000	2,000,000	2,000,000
Prince William Sound WAN replacement, AK	1,000,000	1,000,000	1,000,000	1,000,000
Security surveillance and protection	0	0	15,000,000	10,000,000
Maritime domain awareness information management	9,400,000	4,400,000	9,400,000	5,000,000
Shore Facilities and Aids to Navigation	28,700,000	31,385,000	48,700,000	50,200,000
Survey and design—shore projects	2,500,000	5,500,000	2,500,000	4,000,000
Minor AC&I shore construction projects	4,900,000	4,900,000	4,900,000	4,900,000
Housing	7,000,000	7,000,000	7,000,000	7,000,000
Waterways ATON projects	4,900,000	4,900,000	4,900,000	4,900,000
Consolidate Kodiak aviation support—Kodiak, AK	4,000,000	4,000,000	4,000,000	4,000,000
Rebuild ISC Seattle Pier 36—Phase 1	0	0	16,000,000	16,000,000
Vessel pier facility—Cordova, AK	0	0	4,000,000	4,000,000
Construct new station—Manistee, MI	5,400,000	5,085,000	5,400,000	5,400,000
Personnel and Related Support	65,000,000	65,000,000	65,000,000	63,000,000
Direct personnel costs	64,500,000	64,500,000	64,500,000	62,500,000
Retirement accrual costs ¹	0	0	0	0
Core acquisition costs	500,000	500,000	500,000	500,000
Integrated Deepwater Systems	500,000,000	500,000,000	480,000,000	478,000,000
Aircraft	138,200,000	138,200,000	135,200,000	164,300,000
Surface ships	215,700,000	215,700,000	212,700,000	200,200,000
C4ISR	0	0	0	23,900,000
Logistics	71,600,000	16,600,000	66,600,000	19,900,000
Shore facilities	0	7,200,000	0	1,000,000
System engineering and integration	0	47,800,000	0	43,700,000
Other contracts	43,500,000	43,500,000	36,500,000
Government program management	31,000,000	31,000,000	29,000,000	28,000,000

Program Name	Budget estimate	House bill	Senate bill	Conference agreement
Total appropriation	725,000,000	725,000,000	752,000,000	742,100,000

¹ Excludes \$10,846,000 in proposed retirement accrual costs.

LTS-101 engine.—The conference agreement includes \$4,000,000 to enhance the reliability of the HH-65 LTS-101 engine through the incorporation of FADEC system technology. The conferees continue to support continued evaluation of the Ariel engine by the Coast Guard, and do not intend that these funds undermine support or progress in that effort.

Integrated deepwater systems.—The conference agreement includes \$478,000,000 for the integrated deepwater systems (IDS) program, to be distributed as follows:

Activity	Amount
Aircraft	\$164,300,000
Maritime patrol aircraft	(147,300,000)
VTOL unmanned air vehicle	(---)
Other contracts/legacy sustainment	(17,000,000)
Surface	200,200,000
National security cutter	(132,800,000)
110-123 patrol boat upgrade	(60,800,000)
Short range prosecutor	(2,800,000)
Other contracts/legacy sustainment	(3,800,000)
C4ISR	23,900,000
270 foot cutter C4ISR upgrade	(700,000)
210 foot cutter C4ISR upgrade	(1,400,000)
378 foot cutter C4ISR upgrade	(3,100,000)
Shore sites	(5,400,000)
Other contracts/legacy sustainment	(13,300,000)
Logistics	17,900,000
Integrated logistics support	(16,900,000)
Shore sites	(1,000,000)
Systems Engineering and Integration	43,700,000
Government Program Management	28,000,000
Total	478,000,000

Maritime patrol aircraft.—Although the Coast Guard's budget request for the IDS program assumed the acquisition of 2 maritime patrol aircraft in fiscal year 2003, recently the service announced a restructure of its funding plan which defers that acquisition. The conferees are surprised that, after a detailed planning phase lasting several years, the service's operational requirements and asset replacement plans could be so radically changed this early in the IDS contract. The conferees are not yet convinced that this change is in the best interest of the Coast Guard, and provide funding for these assets in line with the original budget request. Before the Coast Guard effectuates a change of this nature, the service is required to seek Congressional approval through the reprogramming process.

IDS reprogramming procedures.—The conferees agree with reprogramming guidelines as proposed by the House except that programs, projects, and activities with a baseline of \$5,000,000 or less may execute below threshold reprogrammings not to exceed 20 percent of the baseline amount. The baseline for all other PPAs shall be 10 percent. The distribution of funds table shown above shall

serve as the reprogramming baseline for this program in fiscal year 2003.

IDS compliance with the Buy American Act.—The bill includes a provision, as proposed by the House, clarifying that the IDS procurement program is subject to the terms and conditions of the Buy American Act. The conferees do not seek to amend that Act to apply content standards to individual components of vessels. By letter to the House Committee on Appropriations dated October 1, 2002, the Assistant Commandant for Acquisition stated that this language is considered by the service to be “a restatement of [the Coast Guard’s] obligations under existing law and not as an imposition of any additional legal requirements”.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

(RESCISSION)

The conference agreement includes a rescission of unobligated balances from “Acquisition, construction, and improvements” of \$17,000,000. The Secretary is directed to advise the House and Senate Committees on Appropriations on the distribution of this rescission prior to its implementation.

ENVIRONMENTAL COMPLIANCE AND RESTORATION

The conference agreement includes \$17,000,000 for environmental compliance and restoration, as proposed by both the House and Senate.

ALTERATION OF BRIDGES

The conference agreement includes \$17,200,000 for alteration of bridges deemed hazardous to marine navigation, instead of \$17,000,000 proposed by the House and \$14,000,000 proposed by the Senate. The conference agreement distributes these funds as follows:

<i>Bridge and location</i>	<i>Amount</i>
New Orleans, LA, Florida Ave RR/HW Bridge	\$3,500,000
Brunswick, GA, Sidney Lanier HW Bridge	2,500,000
Mobile, AL, 14 Mile Bridge	6,000,000
Charleston, SC, Limehouse Bridge	1,200,000
Morris, IL, EJ&E RR Bridge	1,000,000
Galveston Causeway, Galveston, TX	1,000,000
Chelsea Street Bridge, Boston, MA	2,000,000
Total	17,200,000

RETIRED PAY

The conference agreement includes \$889,000,000 for retired pay, as proposed by both the House and Senate.

RESERVE TRAINING

The conference agreement includes \$86,495,000 for reserve training.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The conference agreement includes \$22,000,000 for research, development, test, and evaluation as proposed by the Senate instead of \$21,000,000 as proposed by the House. The conferees agree that, within the funds provided, \$1,000,000 is for continued development, demonstration, and evaluation of engineered wood composites at Coast Guard facilities, including stations in Jonesport and Southwest Harbor, Maine, as proposed by the House, instead of \$3,000,000 as proposed by the Senate. Further, within the funds provided, \$1,000,000 is for a pilot project to test automatic search and rescue spectral imaging technology for Coast Guard C-130 aircraft, instead of \$2,500,000 proposed by the Senate. The conference agreement includes \$250,000 for a prototype observation system in the Lower Chesapeake Bay in Virginia, and \$250,000 for research at the Coast Guard Fire Safety Test Detachment in Alabama, as proposed by the Senate.

FEDERAL AVIATION ADMINISTRATION

OPERATIONS

The conference agreement includes \$7,069,019,000 for operations of the Federal Aviation Administration, instead of \$7,060,203,000 proposed by the House and \$7,047,203,000 proposed by the Senate. Of the total amount provided, \$3,799,278,000 (53.7 percent) is to be derived from the airport and airway trust fund, as proposed by the Senate. Funds are distributed in the bill by budget activity, as proposed by the Senate. The bill maintains a prohibition on funds for aeronautical charting and cartography activities conducted by, or coordinated through, the Working Capital Fund, as proposed by the House.

The following table compares the conference agreement to the levels proposed in the House and Senate bills by budget activity:

CONFERENCE AGREEMENT, FAA OPERATIONS, FY 2003

	House bill	Senate bill	Conference agreement
Air traffic services	\$6,038,090,000	\$6,038,090,000	\$6,038,090,000
Accrual proposal	- 340,553,000	- 340,553,000	- 340,553,000
Spring/summer 2003	- 3,250,000	- 1,750,000
Operational evolution plan	- 11,116,000	- 9,616,000
National airspace redesign	- 5,357,000	- 3,525,000
National park air tour management plans	- 4,100,000	- 4,100,000
Contract tower cost-sharing	6,000,000	6,000,000	6,000,000
MARC	2,000,000	2,000,000
Training	- 10,405,000	- 2,000,000

	House bill	Senate bill	Conference agree- ment
Total appropriation recommended	7,060,203,000	7,047,203,000	7,069,019,000

Administration of potential shortfall due to essential air service transfer.—The conferees agree that the FAA Administrator has the flexibility to propose the use of funds in either the “Operations” or “Facilities and equipment” appropriations to address any shortfalls in essential air service funding for which FAA resources are required under existing law. The Administrator is directed to advise the House and Senate Committees on Appropriations on the appropriations and programs from which these funds would be drawn.

Air traffic staffing budget.—The conferees agree that the report proposed by the House on allocation of the air traffic staffing shortfall is to be submitted to the House and Senate Committees on Appropriations no later than 30 days after enactment of this Act.

National Park air tour management plans.—In reducing this program by \$4,100,000, the conferees do not intend to slow down the review and approval of air tour management plans. The reduction reflects a substantial delay in this program due to schedule slippage in issuance of the final rule.

Drug/alcohol compliance testing.—In agreeing to the House’s proposed reduction to this activity, the conferees do not intend to diminish the agency’s level of effort in employee drug and alcohol testing. However, the agency has not yet demonstrated a link between identified problems in administration of this program and the need for additional resources. The conferees believe the identified problems can largely be addressed without additional resources at this time.

Contract tower program.—The conference agreement includes \$78,000,000 to fund the baseline contract tower program and \$6,000,000 for the contract tower cost-sharing program. Consistent with current law and existing lease arrangements, the conferees direct FAA to continue reimbursing airports for space the agency utilizes at all contract tower locations previously staffed by the agency, including existing, newly constructed, and future replacement towers. The conferees commend those airports that are moving forward with replacing outdated towers. The conferees do not believe smaller airports should be compelled to provide FAA free space in replacement contract towers.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement includes \$2,981,022,000 for “Facilities and equipment”, as proposed by both the House and Senate. Of the total amount available, \$404,655,240 is available for one year, and \$2,576,366,760 is available for three years. The bill deletes a provision proposed by the Senate that would have provided a contingent rescission relating to submission of the FY 2004 Cap-

ital Investment Plan. This provision is no longer necessary, as the report has been submitted to the Congress.

The following table provides a breakdown of the House and Senate bills and the conference agreement by program:

Facilities and Equipment, Fiscal Year 2003

Note: all figures in thousands (\$000)	Budget estimate	House bill	Senate bill	Conference
Category 1: Improve Aviation Safety	403,340.00	484,214.20	363,640.00	468,623.00
Terminal Business Unit	141,000.00	151,183.00	161,300.00	151,183.00
Aviation Weather Services Improve- ments	23,440.00	23,440.00	23,440.00	23,440.00
Low Level Windshear Alert System (LLWAS)—Upgrade	1,600.00	1,600.00	1,600.00	1,600.00
Aviation Safety Analysis System (ASAS) Integrated Flight Quality Assurance (IFQA)	21,700.00	15,000.00	21,700.00	15,000.00
Safety Performance Analysis Subsystem (SPAS)	500.00	500.00	500.00	500.00

Savannah, GA	919,190
Newburgh, NY	2,065,000
Richmond, VA	550,000
Vero Beach, FL	878,775
Everett, WA	925,000
Roanoke, VA	550,000
Merrimack, NH (BCT)	4,700,000
Phoenix, AZ	14,107,919
Manchester, NH	943,609
Wilkes Barre, PA	2,000,000
Topeka, KS	1,690,131
Billings, MT	2,120,000
Total	119,550,000

Precision runway monitors.—The conferees understand the City of Cleveland is seeking reimbursement of approximately \$500,000 for costs related to installation of a precision runway monitor in this location. The conferees encourage FAA to place a high priority on the city's request in its allocation of funding provided in this bill.

Transponder landing system.—The conference agreement for this program shall be distributed as follows:

<i>Location</i>	<i>Conference agreement</i>
Minden-Tahoe Airport, NV	\$2,000,000
Elko Airport, NV	2,000,000
Omak Airport, WA	2,000,000

<i>Location</i>	<i>Conference agreement</i>
Richland Airport, WA	2,000,000
Truckee Tahoe Airport, CA	2,000,000
Driggs Reed Memorial, ID	2,000,000
Sandpoint Airport, ID	2,000,000
LaGrande/Union County, OR	2,000,000
William H. Morse Airport, VT	2,000,000
Total	18,000,000

Safe flight 21.—The conference agreement includes \$18,600,000 for the Ohio River Valley Project, \$19,900,000 for Project Capstone, and \$1,500,000 for the development of ADS-B standards, as proposed by the House.

Advanced technology development and prototyping.—The conference agreement includes \$57,200,000 for advanced technology development and prototyping. The following table compares the conference agreement to the House and Senate bills by budget activity:

	House bill	Senate bill	Conference agreement
Runway incursion	\$6,700,000	\$6,700,000	\$6,700,000
Aviation system capacity improvement	4,000,000	6,300,000	5,150,000
Separation standards	2,200,000	2,200,000	2,200,000
Airspace management laboratory	4,600,000	4,600,000	4,600,000
GA/vertical flight technology	1,000,000	1,000,000	1,000,000
Operational concept validation	2,500,000	1,250,000
Software engineering	1,000,000	1,000,000	1,000,000
NAS requirements development	3,000,000
WAAS	3,100,000	3,100,000	3,100,000
LAAS	2,800,000	2,800,000	2,800,000
Domestic RVSM	4,200,000	2,200,000	4,200,000
Development system assurance	2,700,000	2,700,000
Safer skies	3,000,000	2,000,000
Alkali-silica reactivity study	1,000,000	1,000,000
ROWS—Gulfport-Biloxi Airport, MS	500,000	500,000
Airfield improvement program	2,000,000	2,000,000
Wind/weather research, Juneau, AK	5,500,000	5,500,000
Phased array radar technology	3,000,000	2,000,000
Airport research	7,500,000	7,500,000
Fogeye	2,000,000	2,000,000
Unspecified	-7,500,000
Total	43,100,000	41,600,000	57,200,000

En route automation.—The conferees agree that, within the funds provided for this program, \$15,000,000 is for the Initial Academy Training System. The Senate proposed \$16,900,000 for this project.

Automated surface observing system.—The conferees agree that, within the funds provided for this program, \$400,000 is for an automated weather sensor system at Driggs-Reed Memorial Airport, ID and \$130,000 is for an automated weather observing system with thunderstorm protection at Springfield Municipal Airport, OH.

Navigation and landing aids.—The conferees provide \$329,275,000 for navigation and landing aids.

The conference agreement includes \$1,500,000 for navigation aids and equipment at Nikolski Airport in Alaska. The conferees encourage FAA to assist the local community and airport officials

in determining the appropriate equipment to be installed. The following table compares the conference agreement to the House and Senate bills by budget activity:

	House bill	Senate bill	Conference agreement
Local area augmentation system	\$55,800,000	\$50,000,000
Wide area augmentation system	98,900,000	98,900,000	98,900,000
VOR/DME	2,200,000	2,200,000
ALSIP	17,575,000	29,755,000	33,375,000
ILS establishment	53,500,000	36,180,000	57,600,000
Runway visual range	13,000,000	13,000,000
DME sustain	2,100,000	2,100,000
NDB sustain	1,200,000	1,200,000
Visual nav aids (PAPI/REIL)	8,900,000	8,900,000
VASI replace with PAPI	6,300,000	6,300,000
IAPA	3,700,000	3,700,000
Navigation & landing aids—SLEP	3,000,000	3,000,000
Loran-C	25,000,000	21,000,000	25,000,000
Nationwide differential GPS	6,000,000	6,000,000
Transponder landing system (TLS)	12,000,000	18,000,000
Unspecified	103,900,000
Total	291,175,000	307,735,000	329,275,000

Approach lighting system improvement program.—The conference agreement for this program shall be distributed as follows:

Location	Item	Conference agreement
Items in budget estimate	Various	\$3,200,000
Jackson Airport, KY	Lighting	175,000
Somerset Airport, KY	Runway lighting	500,000
Bowman Field, KY	Airfield lighting	500,000
MALSR acquisition	MALSR acquisition	5,000,000
MALSR installation (backlog)	MALSR installation	5,000,000
PAPI acquisition	PAPI acquisition	2,000,000
ALSF-2 acquisition	ALSF-2 acquisition	2,000,000
Newark Intl, NJ	PAPI installation runway 22L	100,000
Auburn-Opelika, AL	MALSR	1,500,000
Reno-Stead, NV	MALSR	2,000,000
Baton Rouge, LA	MALSR	600,000
Cleveland Hopkins Intl, OH	MALSR runway 24L	400,000
North Little Rock, AR	MALSR	400,000
Alaska statewide rural airports, AK	10,000,000
Total	33,375,000

Acquisition of precision approach path indicator lighting systems.—The conferees emphasize that funding provided under the Approach Lighting System Improvement Program for nationwide acquisition of precision approach path indicator (PAPI) lighting systems shall be used specifically for the purchase of additional PAPI systems, to keep the production line operational for future procurements.

Medium approach lighting system replacement.—The conferees agree with Senate language recommending that FAA continue to procure the latest equipment that has been approved for use in the national airspace system.

Alaska statewide rural airport lighting.—The conferees designate this as an item of special Congressional interest. The

\$10,000,000 in this line may not be reprogrammed without prior Congressional approval.

En route communications and control facilities improvements.—The conferees agree that, within the funds provided for this program, \$250,000 shall be for a remote communications outlet at the Keokuk, IA Airport.

Instrument landing system establishment.—The conference agreement for this program shall be distributed as follows:

Location	Item	Conference agreement
Items in budget estimate	Various	\$23,500,000
National ILS replacement program	Various	6,650,000
Richard Arthur-Fayette Field, AR	Install ILS	500,000
Stuttgart Municipal, AR	Purchase and install ILS	2,000,000
Plymouth Municipal, MA	Install ILS on runway 06	600,000
Lambert St. Louis Intl, MO	Navigation aids	3,000,000
Cincinnati/N. Kentucky	Navigation aids for new runway	3,000,000
Pangborn Memorial, WA	Install ILS	2,000,000
Winder Barrow Airport, GA	Purchase and install ILS	3,000,000
LaGuardia International, NY	Purchase/install glideslope	800,000
Talladega Municipal, AL	Purchase/install ILS	1,500,000
Mena Intermountain Regional, AR	Install, Localizer/Gldslp; NDB; OM	750,000
Napa County Airport, CA	Install glideslope	800,000
Hawyard (Sawyer Cty), WI	Purchase/install ILS	2,000,000
Robert Gray AAF, TX	Purchase/install ILS	1,400,000
Olive Branch Airport, MS	500,000
Reno/Tahoe International, NV	1,200,000
Wasilla Airport, AK	800,000
Central Illinois Regional, IL	Upgrade ILS to cat II, runway 20	3,000,000
Somerset Airport, KY	DME and glideslope	600,000
Total recommended	57,600,000

Runway visual range.—Of funds provided above the budget estimate for runway visual range, \$5,000,000 is for the new generation RVR system and \$800,000 is for installation of a runway visual range visibility instrument at Westchester County Airport in New York, as proposed by the House.

Gallatin Field Airport, MT—The conferees are concerned about potential safety risks associated with the lack of radar coverage at Gallatin Field Airport in Bozeman, Montana, an airport whose enplanements and operations are growing. The conferees encourage the Administrator to expand the current multilateration surveillance evaluation to include airspace traffic activity at Gallatin Field and the surrounding areas. The conferees further encourage the Administrator to enter into a cost-sharing agreement with Gallatin Field to provide this evaluation.

Static transfer switches.—The conferees commend FAA for awarding a contract to procure static transfer switches for en route facilities. The static transfer switch enables air traffic control centers to switch to back-up power systems quickly enough to prevent computers from “crashing”, and replaces equipment that lacks this important capability. The conferees direct the FAA to utilize expeditiously the funding provided for these switches.

FACILITIES AND EQUIPMENT
(AIRPORT AND AIRWAY TRUST FUND)
(RESCISSION)

The conference agreement includes a rescission of unobligated balances from “Facilities and equipment” of \$20,000,000. The Secretary is directed to advise the House and Senate Committees on Appropriations on the distribution of this rescission prior to its implementation.

RESEARCH, ENGINEERING, AND DEVELOPMENT
(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement provides \$148,450,000 for research, engineering, and development instead of \$138,000,000 as proposed by the House and \$124,000,000 as proposed by the Senate. The following table compares the conference agreement to the budget estimate and the House and Senate bills by budget activity:

Program	Budget Estimate	House Bill	Senate Bill	Conference agreement
Improve Aviation Safety:				
Reduce commercial aviation fatalities:				
Fire research and safety	\$6,429,000	\$5,500,000	\$6,429,000	\$6,429,000
Propulsion and fuel systems	3,998,000	5,998,000	4,998,000	5,998,000
Advanced materials/structural				
Safety	1,374,000	1,374,000	1,374,000	1,374,000
Flight safety/atmospheric hazards	3,101,000	6,000,000	4,101,000	5,000,000
Aging aircraft	20,974,000	19,131,000	20,974,000	20,974,000
Aircraft catastrophic failure Prevention	1,920,000	1,920,000	1,920,000	1,920,000
Flightdeck safety/systems Integration	8,411,000	8,411,000	8,411,000	8,411,000
Reduce general aviation fatalities:				
Propulsion and fuel systems	1,713,000	1,713,000	1,713,000	1,713,000
Advanced materials/structural				
Safety	1,679,000	1,679,000	1,679,000	1,679,000
Flight safety/atmospheric hazards	1,329,000	1,329,000	1,329,000	1,329,000
Aging aircraft	5,243,000	10,243,000	5,243,000	9,243,000
Flightdeck safety/systems Integration	2,000,000	2,000,000	2,000,000	2,000,000
Aviation System Safety:				
Aviation safety risk analysis	6,926,000	5,784,000	6,926,000	6,926,000
ATC/AF human factors	10,317,000	8,098,000	10,317,000	8,035,000
Aeromedical research	6,603,000	6,603,000	6,603,000	6,603,000
Weather research	19,406,000	19,406,000	19,406,000	21,906,000
Improve Efficiency of the ATC System:				
Weather research efficiency	9,099,000	6,000,000	12,099,000	12,099,000
Reduce Environmental Impacts:				
Environment and energy	7,698,000	22,100,000	2,698,000	22,100,000
Improve Mission Efficiency:				
System planning and resource				
Management	1,459,000	1,000,000	1,459,000	1,000,000
Technical laboratory facilities	6,455,000	6,455,000	6,455,000	6,455,000
Strategic partnerships	610,000	0	610,000	0
Accountwide Adjustments:				
CSRS/FEHBP accruals	-2,744,000	-2,744,000	-2,744,000	-2,744,000
Total	\$124,000,000	\$138,000,000	\$124,000,000	\$148,450,000

Propulsion and fuel systems.—Of the funds provided for propulsion and fuel systems, \$1,000,000 is for the Specialty Metals Processing Consortium and \$1,000,000 is for research into aviation grade ethanol fuels.

Aging aircraft.—Of the funds provided for aging aircraft, \$4,000,000 is for flight safety research equipment at the National Institute for Aviation Research, instead of \$5,000,000 as proposed by the House.

Weather research safety.—Of the funds provided for weather research safety, \$4,000,000 is to continue research into wake turbulence using pulsed laser Doppler radar technology, instead of \$5,000,000 as proposed by the Senate.

Weather research efficiency.—Of the funds provided for weather research efficiency, \$4,000,000 is for wake turbulence research to expedite the development of new standards and procedures, instead of \$5,000,000 as proposed by the Senate.

Environment and energy.—Of the funds provided for environment and energy, \$850,000 is for a study of the effectiveness of current research in aircraft noise reduction technology, to be conducted by the Louisville Regional Airport Authority, as proposed by the House. In addition, \$15,000,000 is provided to speed up the introduction of lower noise aircraft technologies, as proposed by the House. Within the funding provided, FAA is directed to conduct, in concert with an affected airport, a further study of low frequency aircraft noise. The flaws identified with the previous low frequency noise impact study should be corrected with this follow-on study.

Resistance-based polymer sensing.—The conferees support the FAA's efforts to promote safety in all aspects of air transportation, and especially in such areas as leak detection, cargo monitoring, and discriminatory fire warning systems. The conferees are aware of ultra-lightweight, low-cost, low-power, accurate, and networkable sensing technology enabled by resistance-based polymer composites. The conferees encourage the FAA to review the potential of these new technologies for a variety of safety-related applications.

GRANTS-IN-AID FOR AIRPORTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement includes a liquidating cash appropriation of \$3,100,000,000, as proposed by the House and the Senate.

Obligation limitation.—The conferees agree to an obligation limitation of \$3,400,000,000 for the "Grants-in-aid for airports" program as proposed by the House and Senate. This is the amount mandated by Public Law 106-181.

Administration.—The conference agreement includes a limitation on administrative expenses of \$63,620,000 instead of \$62,820,000 as proposed by the House and \$81,049,000 as proposed by the Senate. The conferees agree that airport-related research shall continue to be funded under "Facilities and equipment, ad-

vanced technology development and prototyping". The conference agreement distributes funding as follows:

<i>Activity</i>	<i>Amount</i>
FY02 base amount	\$57,050,000
Mandatory adjustments	2,647,000
Discretionary adjustments:	
Advisory circular contract	1,350,000
Airport financial report. syst.	500,000
PFC program analysis	300,000
Environmental streamlining	1,773,000
Total	63,620,000

Small community air service development pilot program.—The bill includes \$20,000,000 under the obligation limitation to continue the small community air service development pilot program, as proposed by the Senate. The House proposed a similar amount for this program in a separate appropriation. This is consistent with actions taken in fiscal year 2002.

Westchester County Airport improvements, NY.—In the Transportation and Related Agencies Appropriations Act, 2002, \$5,000,000 was provided for the central de-icing facility at Westchester County Airport in New York. The conferees agree that this funding shall be reprioritized for all eligible aviation projects at Westchester County Airport.

High priority projects.—Of the funds covered by the obligation limitation in this bill, the conferees direct FAA to provide not less than the following funding levels, out of available resources, for the following projects in the corresponding amounts. The conferees agree that state apportionment funds may be construed as discretionary funds for the purposes of implementing this provision, consistent with the practice begun in fiscal year 2001. To the maximum extent possible, the administrator is directed to ensure that the airport sponsors for these projects first use available entitlement funds to finance these projects. The conferees further direct that the specific funding allocated below shall not diminish or prejudice the application of a specific airport or geographic region to receive other AIP discretionary grants or multiyear letters of intent.

AIP HIGH PRIORITY PROJECTS

Airport	Project Description	Conference
Akutan Airport	Runway Improvements and access road	\$4,000,000
Barter Island Dew Airport (Kaktovik)	Passenger Terminal	2,000,000
Juneau International Airport	Snow Removal and other improvements	3,000,000
Kodiak Airport	Various Improvements	2,000,000
Palmer Municipal Airport	Various Improvements	1,000,000
Petersburg Airport	Runway Apron & Various improvements	4,000,000
Blackwell Field Airport	Land Acquisition for Runway Extension	2,000,000
City of Hartselle (Roundtree Field)	Apron expansion	280,000
Fairhope Municipal	Runway replacement; convert runway to taxiway	1,500,000
Lawrence County Airport	Runway 13/31 rehabilitation	900,000
Madison County Executive Airport	Security fencing, drainage imps;; land acquis;; taxiway	1,500,000
Mobile Downtown (Brookley Field)	Runway Rehabilitation	2,000,000
Montgomery Regional (Dannelly Field)	Terminal Construction	2,500,000
Richard Arthur-Fayette Field	Improve and extend runway	1,000,000
Shelby County Airport	Land Acquisition, Runway & Taxiway	2,000,000
Centre-Piedmont-Cherokee Regional	Master Plan and land acquisition	2,000,000
Batesville Regional Airport	Install localizer, DME; runway lighting; relocate hangers	800,000
Northwest Arkansas Regional	Airport Expansion	2,500,000
Deer Valley Airport	Various improvements	800,000
Williams Gateway Airport	Construct north ramp taxiway	1,275,000
Fresno Yosemite International Airport	Runway rehabilitation; redesign; access control system	800,000
Imperial Valley Regional	Cargo airport feasibility study	400,000
Little River Airport Mendocino County	Land acquisition	175,000
Meadows Field Airport	Terminal master plan; runway extension	1,700,000
San Bernardino International	Runway repair and replacement	1,000,000
San Francisco International Airport	Various improvements	5,000,000
Southern California Logistics Airport	Engine run-up area	1,500,000
Stockton Metropolitan	Cargo apron on north side of runway 11L/29R	1,300,000
Georgetown Air Services Airport	Security Improvements	100,000
New Castle County Airport	Digital Video Recording System	150,000
Ft. Lauderdale-Hollywood International	Develop and design automated people mover	500,000
Inverness and Crystal River Airports	Security improvements	600,000
Miami International Airport	Apron replacement for parking; security enhancements	1,000,000
Orlando International Airport	Wildlife Attractants Project	4,000,000
Orlando Sanford Airport	Extension of runway 9R/27L	1,000,000
Bush Field Airport	New Terminal, Access & Parking	1,000,000

Cherokee County Airport	Runway extension and parallel taxiway	1,500,000
Glynco Jetport Terminal	Modernize facility for operations and security needs	2,000,000
Council Bluffs Airport	Land Acquisition, Runway	1,000,000
Eastern Iowa Airport	Rehabilitation of taxiways and general aviation apron	1,000,000
Fairfield Municipal Airport	Runway & Taxiway	500,000
Mason City Municipal	Reconstruct primary runway (17/35)	2,000,000
Ottumwa Industrial Airport	Partial parallel taxiway to runway end 31	1,000,000
Freeport Albertus Airport	Airport Improvement Projects	1,750,000
Greater Rockford Airport	Airport Improvement Projects	1,750,000
Quad City Airport/Moline	Airport Improvement Projects	750,000
Gary/Chicago Airport	Bituminous overlay for runway rehabilitation; apron expansion	1,100,000
Wichita Mid-Continent	Construct parallel runway and connecting taxiways	3,000,000
Barkley Regional Airport	Runway Extension, Various improvements	3,700,000
Blue Grass Field	Expansion of air carrier ramp	739,800
Bowman Field	Reconstruct taxiway and apron	1,500,000
Hawesville-Hancock County	Design/construct runway	1,000,000
Hazard Airport	Runway extension	2,000,000
Henderson City/County Airport	Taxiway relocation	850,000
Madison County Airport	Runway safety area improvement	450,000
Marion/Crittendon County Airport	Engineering for phase 1 development; excavation	800,000
Mt. Sterling-Montgomery Airport	Parallel taxiway	500,000
Princeton/Caldwell County Airport	Runway Extension	750,000
Rowan County Airport	Master plan, environmental, grade and drain	2,000,000
Somerset Airport	Runway extension and runway overlay	1,350,000
Tri-County Northern Regional Airport	Various improvements	350,000
Williamsburg/Whitley County Airport	Grade and pave for new airport	2,000,000
Armstrong International Airport	Airfield safety improvements; other improvements	1,000,000
Houma-Terrebone	Runway upgrades	2,000,000
Monroe Regional Airport	Terminal	725,000
Ryan Field Baton Rouge Airport	Various improvements, Language	1,000,000
Shreveport Regional Airport	Runway, Noise, Cargo	4,000,000
Slidell Municipal	Airport taxiway reconstruction	500,000
Cherry Capital Airport	Terminal Construction	2,000,000
Oakland International	Noise mitigation activities	2,000,000
Minneapolis St. Paul	Deicing pad for runway 12R	6,000,000
Joplin Airport	Environmental assessment and design—new terminal	810,000
Kennett Memorial Airport	New runway construction	2,000,000
Lewis County Airport	Hangar Projects	900,000
Springfield/Branson	Design for new midfield terminal	3,000,000
Washington Memorial Airport	Runway Project	150,000

AIP HIGH PRIORITY PROJECTS—Continued

Airport	Project Description	Conference
Gulfport-Biloxi Airport	Terminal Expansion & Security	4,250,000
Houston Municipal Airport	Various improvements	600,000
Bert Mooney Airport	Various improvements	750,000
Great Falls International Airport	Category III Upgrades	2,000,000
Helena Regional Airport	Facility Modernization	1,250,000
Missoula International Airport	Master Plan, Runway, Land	4,000,000
Andrews-Murphy Airport	Runway extension; taxiway and RSA; land acquisition 1,	200,000
Anson County	Various improvements	1,500,000
Concord Regional Airport	Runway Ext., Land Acquisition	2,000,000
Johnson County Airport	Wetland mitigation; construction of extended RSA	1,000,000
Macon County Airport	Runway extension EIS, design, and preliminary engineering	900,000
Monroe Municipal Lincoln County	Security fencing	300,000
Morgantown Lenoir Airport	Partial parallel taxiways; widen/overlay runway	1,000,000
Statesville Municipal Airport	Land acquisition; design/build runway extension; install ILS	1,000,000
Bismark Municipal Airport	Terminal Replacement	5,000,000
Central Nebraska Regional Airport	Taxiway & Runway	4,400,000
Newark International Airport	Engineering studies/EIS for installation of LDA w/glideslope	1,000,000
Dona Ana County Airport	Runway and Taxiway	1,000,000
Reno Stead Airport	Runway and Taxiway	2,000,000
Reno/Tahoe International Airport	Taxiway, Runway	2,000,000
Hancock International	Various equipment improvements	100,000
Niagara Falls International Airport	Rehabilitate apron; access improvements; hanger demolition	650,000
Plattsburgh International	Construct terminal; rehabilitate hangers	2,000,000
Akron-Canton Regional	Design and construction of terminal expansion	4,000,000
Cincinnati Municipal (Lunken Field)	Security fencing	150,000
Cleveland Hopkins	Install nav aids; noise mitigation; security upgrades; lighting	1,000,000
Port Columbus International	Various improvements	1,150,000
Rickenbacker International	Rehabilitation/expansion of air cargo aircraft parking	4,000,000
Toledo Express Airport	Construction of aircraft parking apron; security enhancements	2,000,000
Bartlesville Municipal Airport	Runway, Safety Area	1,500,000
Davis Field Airport	Rehabilitate runway 13-31	750,000
Connellsville Airport	Runway extension; acquisition; other improvements	2,000,000
Erie International	Runway Extension	2,000,000
Jimmy Stewart Airport	Construct new, longer runway	1,000,000
Lawrence County Airport	Various improvements	250,000
Lehigh Valley International Airport	Lighting	1,000,000

Philadelphia International Airport	Reconstruct terminal apron; extend RSA;; security; airfield	2,000,000
Fairfield County Airport	Runway Extension	375,000
Spartanburg Downtown	Construct RSA; extend runway	1,000,000
Chan Gurney Airport	Runway Lighting System	4,400,000
Highmore Municipal Airport	Runway	200,000
Chattanooga Airport	West airfield access road	2,310,200
McGhee Tyson Airport, Knoxville	Construct new taxiway, public access road, and service road	1,500,000
Nashville International Airport	Security Enhancement	2,000,000
Upper Cumberland Regional	Extend runway and parallel taxiway; land acquisition	500,000
Abilene Airport	Various improvements	2,000,000
Del Rio International	Land acquisition for runway extension	2,000,000
Denton Municipal Airport	Improvements	2,000,000
Draughon-Miller Regional Airport	Extend runway; improve parallel taxiway; lighting; elect. Vault	2,000,000
Fort Worth Alliance Airport	Extension of two runways	3,000,000
Gainesville Municipal Airport	Extend and mark runway 71-35; extend parallel taxiway	1,000,000
San Antonio International Airport	Various improvements	1,700,000
Valley International Airport	Land acquisition; reconstruct/relocate road	550,000
Ogden Hinckley Airport	Runway Extension	4,500,000
Blue Ridge Airport	Construction of facility for CAP	100,000
Charlottesville-Albermarle Airport	Various improvements	100,000
Franklin County Airport	Airport study	410,000
Manassas Airport	Various improvements	3,000,000
Washington Dulles International	Various improvements	1,000,000
Rutland State Airport	Public Taxiway	1,000,000
Bremerton Airport	Various improvements	300,000
Spokane International Airport	Taxiway	4,000,000
Central Wisconsin Airport	Reconstruct primary air carrier runway & parallel taxiway	8,000,000
LaCrosse Municipal Airport	Parallel Taxiway	2,000,000
Upshur County Airport	Runway extension; obstruction removal; apron const.	1,000,000
WV Airports	Various improvements	8,000,000
Cheyenne Airport	Runway Safety Area & Taxiway	5,000,000

SMALL COMMUNITY AIR SERVICE DEVELOPMENT

The conference agreement deletes the separate appropriation for this program proposed by the House. Instead, this program is funded under "Grants-in-aid for airports" at the level proposed by both the House and Senate.

FEDERAL HIGHWAY ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The conference agreement limits administrative expenses of the Federal Highway Administration (FHWA) to \$316,126,000, instead of \$370,042,000 as proposed by the House and \$317,732,000 as proposed by the Senate.

The conference agreement provides that certain sums be made available under section 104(a)(1)(A) of title 23, U.S.C. to carry out specified activities as follows: \$7,500,000 shall be available for child passenger protection education grants as authorized under section 2003(b) of Public Law 105-178, as amended; \$47,000,000 shall be available for border safety inspection facilities at the Southern border; \$59,967,000 shall be available for the Federal Motor Carrier Safety Administration's border enforcement activities; \$269,700,000 shall be available for surface transportation projects; and \$7,000,000 shall be available for environmental streamlining.

The conferees recommend the following adjustments to the budget request by program and activity:

Employee development (including FECA administrative costs)	-\$1,606,000
--	--------------

FHWA streamlining.—The conferees direct the Federal Highway Administration (FHWA) to provide the House and Senate Committees on Appropriations a report, not later than April 15, 2003, summarizing FHWA's streamlining efforts, as proposed by the House. The report should include specific examples of FHWA activities that help streamline the environmental process.

FEDERAL-AID HIGHWAYS

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement limits obligations for the federal-aid highways program to \$31,800,000,000 as proposed by the Senate, instead of \$27,653,143,000 as proposed by the House.

Performance based outcomes.—The conferees recognize the positive impact that performance based outcomes have on the road building industry by allowing contractors the freedom and flexibility to focus on quality long term performance and encourage the Department of Transportation to continue to explore their use.

Broughton Bridge improvements.—A total of \$1,850,000 was provided to make improvements to Broughton Bridge, Kansas, in Public Laws 106-346 and 107-87. The conferees direct that the balance shall be available to make improvements to the access road to the bridge, including pavement overlay and related shoulder work.

Middle East-West Highway.—Of the funds provided for Middle East-West Highway, Maine, not less than \$1,000,000 shall be used to study a potential East-West corridor in Maine and other ferry terminal facilities, as proposed by the Senate.

Large Project Management and Oversight.—As evidenced by the high profile difficulties that have plagued the Central Artery, Woodrow Wilson Bridge, and Springfield Interchange projects—including dramatic cost increases and significant schedule delays—the need for improvement of FHWA’s financial oversight and accountability on large projects cannot be overemphasized. Although the FHWA has made notable progress in converting these difficulties into constructive catalysts for change, the conferees remain concerned about project management. The Inspector General has noted that FHWA’s traditional engineering focus has inhibited the effective scrutiny of other major project drivers such as financing, cost controls, and schedule performance. To successfully refocus on the evaluation of each state’s processes for managing and overseeing projects, the FHWA will need to evaluate the range of disciplines and skills within its staff. Specifically, the conferees direct the FHWA to develop a strategy for achieving a more multidisciplinary approach towards its oversight activities, to include: identification of staff with private sector management skills, such as financing and cost estimation; streamlining and delegation of project-level approvals to facilitate greater emphasis upon oversight of higher-level management and financial issues; and implementation of a planned data collection system for trend analysis. The conferees further direct FHWA to deliver this strategy no later than May 15, 2003.

Ambassador Bridge.—The conferees continue language directing the FHWA to ensure that funds provided for the Ambassador Bridge/Gateway Project in Public Law 105–178 are used only for that project.

Rural Road Safety.—The conference agreement retains language pertaining to rural road safety, requiring GAO to review federal funding of rural road safety improvements and to determine whether some interstate design characteristics could improve rural road safety. The report is to be submitted one year from the date of enactment of this Act.

Interstate 49 South, Louisiana.—The conferees have been informed of the decision of FHWA to sign a record of decision on the alignment of Interstate 49 south of Interstate 10. House Report 107–722 clearly directs the agency to evaluate alternative routes to this project, including the Teche Ridge route. The conferees direct FHWA to conduct a study of the feasibility of a supplemental roadway to evacuate motorists in the event of a natural disaster, which shall include the Teche Ridge route and other routes or corridors. The conferees agree that the review shall not prevent progress or delay the completion of this project.

Costa Mesa, California, Susan Street Project.—Regarding the Costa Mesa, California, Susan Street Project, the Director and the District 12 Director of the California State Department of Transportation are directed to certify to the House and Senate Committees on Appropriations and the Secretary of the United States Department of Transportation within 90 days of enactment of this Act

that all State operational and safety requirements have been met with regard to the execution of the New Harbor Boulevard North Off-Ramp project along the Route 405 Distributor Road in Costa Mesa, California. The Director of the California State Department of Transportation, after making such certification, may then approve the access point of the proposed off-ramp from the Interstate System in accordance with applicable State law and procedures.

Pennsylvania Avenue.—The conferees have included \$6,100,000 for planning and design activities and for the initiation of construction of the improvement project at Pennsylvania Avenue in front of the White House. Of the funds provided, \$2,800,000 is to complete the planning and design for the project and \$3,300,000 is for conducting structural testing of streetscape components, initial surveying and utility relocation. In addition, \$5,000,000 is provided for transportation studies to address traffic problems in the immediate vicinity of the White House, including an engineering design to alleviate congestion resulting from street closures in that area. The project is to be managed by the FHWA in consultation with the National Capital Planning Commission.

The Federal Highway Administration shall submit a report to the House and Senate Committees on Appropriations and the Office of Management and Budget within 6 months of enactment of this Act on the Pennsylvania Avenue enhancements, as well as the study that examines the impacts of street closures and traffic restrictions in the vicinity of the White House.

LIMITATION ON TRANSPORTATION RESEARCH

The conferees provide a general limitation on transportation research of \$462,500,000, as proposed by both the House and the Senate.

SURFACE TRANSPORTATION RESEARCH

Within the funds provided for surface transportation research, the conference agreement includes \$103,000,000 for highway research and development for the following activities:

Environmental, planning, real estate	\$16,700,000
Research and technology program support	8,500,000
International research	400,000
Structures	13,500,000
Safety	12,200,000
Operations and asset management	16,000,000
Pavements research	15,500,000
Long term pavement project (LTPP)	10,000,000
Advanced research	750,000
Policy research	8,700,000
R&T strategic planning and performance measures	750,000
Total	\$103,000,000

Environmental, planning, and real estate.—The conference agreement provides \$16,700,000 for environmental, planning, and real estate research. Within the funds provided for this research activity, the FHWA is encouraged to provide \$800,000 for the completion of the dust and persistent particulate abatement demonstration study at Kotzebue, Alaska.

Research and technology.—The conference agreement provides \$8,500,000 for research and technology program support. Within the funds provided for this activity, the FHWA is encouraged to provide \$750,000 for the Center on Coastal Transportation Engineering Research at the University of South Alabama.

International research.—The conferees have provided \$400,000, the level authorized under TEA-21, for international research activities. Further, FHWA is directed by the conferees to consult the House and Senate Appropriations Committees before any international agreements are consummated that are likely to require financial support.

Structures.—The conference agreement provides \$13,500,000 for structures research. Within the funds provided for structures research, the conferees encourage the FHWA to provide: \$1,000,000 for the deployment of lithium technologies to prevent and mitigate alkali silica reactivity; \$1,000,000 for the New York City Bridge Corrosion Monitoring Project; \$250,000 for a demonstration project to evaluate battery powered cathodic protection to extend the life of concrete bridges located in extreme cold climates; and \$250,000 to support non-destructive structural evaluation technology at the New Mexico State University's Bridge Research Center. The conference agreement also directs the FHWA to continue its collaborative research effort with West Virginia University's Constructed Facilities Center on composite structure and related engineering research.

Safety.—The conference agreement provides \$12,200,000 for safety research. Within the funds provided for this activity, the conferees encourage FHWA to provide: \$600,000 to the University of Florida's Seniors Institute for Transportation and Communications; \$1,200,000 to the National Transportation Research Center, University of Tennessee for heavy vehicle research; and \$1,500,000 to conduct research into heavy vehicle safety and vulnerability assessments regarding security and safety in all modes of transportation at a not-for-profit, technology-oriented entity in the Pacific Northwest with demonstrated research capabilities to address issues of braking, vehicle electrification, and human factors.

Operations and asset management.—The conference agreement provides \$16,000,000 for operations and asset management. Within the funds provided for this activity, the conferees encourage FHWA to provide \$550,000 to South Carolina State University for the Southern Rural Transportation Center; \$400,000 to the Orangeburg County Rural Transit Demonstration project at South Carolina State University; and \$1,200,000 to analyze existing conditions and make recommendations that will enhance the freight mobility transportation system in Washington State.

The conference agreement does not provide funds for statistical analysis of the National Quality Initiative under any FHWA research program, as proposed by the House. Such analysis shall be performed by the Bureau of Transportation Statistics.

Pavements.—The conference agreement provides \$15,500,000 for pavements research. Within the funds provided for this activity, the conferees encourage FHWA to provide: \$1,000,000 to the Center for Portland Cement Concrete Pavement Technology at Iowa State University; \$500,000 to support the Institute for Aggregate

Research at Michigan Technological University; \$750,000 to continue evaluation of GSB-88 emulsified binder treatment application; \$1,000,000 for the National Center for Asphalt Technology (NCAT) at Auburn University, Alabama; and \$500,000 to continue research related to silica fume high performance concrete.

Policy.—The conference agreement provides \$8,700,000 for policy research. Within the funds provided for this activity, FHWA shall provide \$2,200,000 to the University of Kentucky's Academy for Community Transportation Innovation for transportation research on integrating public involvement technology and environmental issues.

Pavement Testing. FHWA is currently conducting research to study, select, build, and test up to twelve lanes of newly constructed asphalt pavement. The conferees are concerned that the current Superpave system does not effectively characterize the performance of modified asphalt binders. Therefore, the conferees direct FHWA to add unmodified binders to the Accelerated Load Frame ("ALF") tests that are currently being undertaken, specifically the Full-Scale Accelerated Performance Testing for Superpave and Structural Validation testing being performed at the Turner Fairbanks Highway Research Facility. Unmodified asphalt binders shall be tested to serve as a comparison to the modified asphalt binders. FHWA shall also measure emissions during application and report the findings as a part of this study.

INTELLIGENT TRANSPORTATION SYSTEMS

The conference agreement provides a limitation on Intelligent Transportation Systems of \$232,000,000, as proposed by the Senate. Of the total, \$110,000,000 is for intelligent transportation systems (ITS) research and development, as proposed by the Senate, for the following activities:

Research and development	\$50,701,000
Operational tests	10,782,000
Evaluations	6,739,000
Architecture and standards	18,686,000
Integrations	11,455,000
Program support	11,455,000
Total	110,000,000

Research.—The conference agreement provides \$50,701,000 for research and development. Within the funds provided for this activity, the conferees encourage FHWA to provide \$6,800,000 for commercial vehicle research.

Joint Program Office.—In the early 1990s, the Appropriations Committees expressed strong support for the formulation of a Joint Program Office (JPO) within the DOT to oversee the federal role in the National Intelligent Transportation system (ITS) effort. This office, which is located within the Federal Highway Administration, now provides overall program direction and budget coordination among the multiple DOT offices conducting ITS activities. The success of the federal investment in ITS has been due partly to the effective functioning of the JPO. For example, the JPO's close association with FHWA's research, headquarters staff, and regional offices has ensured a unified approach to providing training, implementing and testing standards, and adhering to a national systems

architecture. The conferees maintain that the JPO's positive working relationship with the FMCSA and FTA has facilitated progress in advancement of technologies and the deployment of activities.

The appropriation for ITS provided by the conferees is predicated on the continuation of the JPO conducting the functions identified previously. Maximum efficiencies are most likely to be obtained by retaining the current administrative structure of the JPO within the FHWA with a reporting function to the Deputy Secretary. If there is any change in the administrative structure or responsibilities of the JPO, the Secretary is directed to inform the House and Senate Committees on Appropriations and to justify in detail such changes.

Intelligent transportation systems deployment projects.—With in the funds available for intelligent transportation systems deployment, the conference agreement provides that not less than the following sums shall be available for intelligent transportation projects in these specified areas:

<i>Project Name</i>	<i>Conference Total</i>
Advance Traveler Information System & Smart Card System, Ohio	\$1,000,000
Advance Traffic Analysis Center, North Dakota State University	1,000,000
Alaska Statewide: Smart Emergency Medical Access System	1,000,000
Automated Vehicle Location (AVL) and Mobile Data Terminals—	
Palm Tran, Palm Beach, Florida	850,000
Baton Rouge, Louisiana	750,000
Bozeman Pass Wildlife Channelization Study, Montana	250,000
Capital District Transportation Authority, Customer Information	
ITS Project, New York	800,000
CCTA Burlington Multimodal Transit Center, Vermont	500,000
C-DOT ITS for I-70 Tunnels, Colorado	3,700,000
Center for Injury Sciences UAB Crash Notification, Alabama	3,000,000
Central Florida Regional Trans. Authority Orange/Seminole ITS	1,500,000
Chapel Hill Transit, North Carolina, real time passenger informa-	
tion system and vehicle location system	750,000
Chattanooga (CARTA) ITS, Tennessee	1,875,000
Cicero Avenue travel information system, Illinois	300,000
City of Austin, Texas ITS Deployment Program, Texas	500,000
City of Boston intelligent transportation system, Massachusetts ...	1,000,000
City of Inglewood, California intelligent transportation system de-	
ployment project	500,000
CVISN, New Mexico	525,000
DelDOT Integrated Transportation Management System, DelTrac,	
Statewide Transit Passenger Information System, Delaware	1,000,000
Elkhorn Boulevard Project, Sacramento, California	125,000
Emergency Vehicle Access Program, Antrim, Pennsylvania	60,000
Emergency Vehicle Optical Pre-Emption, Town of Islip, New York	595,000
Flint Mass Transportation Authority ITS program, Michigan	1,000,000
Fog Detection Improvements and Traffic Monitoring, Rural Moun-	
tain Region, North Carolina	200,000
Gettysburg Borough Signal Coordination and Upgrade-Signaliza-	
tion; Adams County, Pennsylvania	1,500,000
GMU ITS Research, Virginia	1,000,000
Great Lakes ITS program, Michigan	1,500,000
Harrison County Sheriff's Department ITS, Mississippi	750,000
HART Bus Tracking & Communication, Florida	4,000,000
Hoosier SAFE-T, Indiana	500,000
Houma, Louisiana	1,250,000
Huntsville, Alabama	1,500,000
I-80 Dynamic Message Signs Southern, Wyoming	3,000,000
I-90 Truck Wind Warning System, Columbia River, Washington	125,000
Idaho Commercial Vehicle Systems and Networks (CVISN)	750,000
Illinois Statewide	2,500,000
Intelligent transportation, Autonomous dial-a-ride transit (ADART)	
phase IV implementation, Corpus Christi, Texas	500,000

<i>Project Name</i>	<i>Conference Total</i>
Intermodal ITS center, Orleans Parish, Louisiana	500,000
Interstate 95/Interstate 40 travel information improvements, Johnston County, North Carolina	500,000
Iowa Statewide ITS, Iowa	1,400,000
Kansas City Scout Advanced Traffic Management System, Missouri	1,500,000
Kansas City, Kansas Smart Port	500,000
Kent Intracity Transit Project, Washington	1,500,000
Law Enforcement Communications for Security, Biometrics, Iowa ..	2,550,000
Lynnwood ITS, Washington	2,000,000
Macomb County ITS Integration, Michigan	250,000
Maine Statewide Rural Advanced Traveler Info. System	1,000,000
Maryland Statewide ITS	1,000,000
Metrolina Traffic Management Center Communication, North Carolina	2,000,000
MetroLink Los Angeles Union Station (LAUS) passenger information delivery system project, California	500,000
Minnesota Guidestar	9,100,000
Missouri Statewide Rural ITS	2,150,000
Montachusett Area Regional Transit (MART) advanced vehicle located system, Massachusetts	200,000
Monterey-Salinas Transit, intelligent transportation system, California	750,000
Nebraska statewide ITS	3,000,000
New Bedford ITS Port Information Center, Massachusetts	1,000,000
New York Metropolitan Area enhanced operations, New York	655,000
Northern Virginia ITS, Virginia	750,000
Oklahoma Statewide ITS	2,750,000
Pennsylvania Turnpike Commission, Pennsylvania	2,000,000
Program of Projects, Washington	5,000,000
Providence Transportation Information Center ITS, Rhode Island ..	1,500,000
Richmond Highway intelligent transportation system project, Virginia	400,000
Round Rock, Texas, Williamson County, Communications Integration	500,000
Rural Highway Information System, Kentucky	6,000,000
Sacramento Area Council of Governments, Sacramento region intelligent transportation system projects, California	1,000,000
Salem, New Hampshire ITS	900,000
San Diego Joint Transportation Operations Center, California	2,000,000
Santa Teresa Border Tech Center, New Mexico State University	1,000,000
Shreveport ITS, Louisiana	1,000,000
Sierra Madre Intermodal Transportation Center, California	1,500,000
South Carolina DOT Statewide ITS	1,500,000
South Com Regional Dispatch Trauma Center, Matteson, Olympia Fields, and Richton Park, Illinois	100,000
SR-68/Riverside Dr. ITS Espanola, New Mexico	500,000
State of Wisconsin, deployment of commercial vehicle information system and networks, level one capability	500,000
Statewide Transportation Operations Center, Kentucky	1,365,000
Surface Transportation Institute, University of North Dakota	1,000,000
Surveillance Camera and Transportation Management Center, Des Moines, Iowa	400,000
The Rapid, Grand Rapids, Michigan Public Transportation	1,000,000
Traffic Corridor Communications System—Lake County, Illinois	2,000,000
Tri-Cities Advanced Traffic Management System, Washington	500,000
Tucson ER-LINK ITS project, Arizona	625,000
UALR intelligent transportation system, Little Rock, Arkansas	250,000
Univ. of Nebraska Lincoln SMART Transportation	1,000,000
University of Kentucky Transportation Center	1,500,000
US-395 Columbia River Bridge Traffic Operations and Traveler Information System, Washington	250,000
Utah ITS Commuter Link Davis and Utah Counties	1,000,000
Vermont Statewide Rural Advanced Traveler System	1,500,000
Vermont Variable Message Signs	1,000,000
Washington, DC Metro ITS	2,000,000
Wisconsin State Patrol Mobile Data Communications Network Upgrade	2,000,000

Projects selected for funding shall contribute to the integration and interoperability of intelligent transportation systems, consistent with the criteria set forth in TEA21.

FERRY BOATS AND FERRY TERMINAL FACILITIES

Within the funds available for ferry boats and ferry terminal facilities, funds are to be available for the following projects and activities:

<i>Project Name</i>	<i>Conference Total</i>
Beacon and Newburgh cities ferry boat and ferry facilities, New York	900,000
Beale Street Landing/Docking Facility Memphis, Tennessee	500,000
Coffman Cove/Wrangell/Petersburg Ferries & Ferry Facility, Alaska	1,850,000
Curtis ferry boat replacement, Maine State Ferry System	250,000
Ferry Boat Replacement for Rockland and Vinalhaven, Maine	1,000,000
Ferry Service, Dutchess and Orange County, New York	750,000
Fire Island Ferry Terminal, Saltaire, New York	250,000
Fishers Island Ferry District, Connecticut	2,500,000
Friday Harbor Ferry Terminal Preservation, Washington	2,000,000
Golden Gate ferry berth facility, San Francisco Terminal, California	500,000
Jacksonville Ferry Stations (formerly St. Johns River Ferry Terminal), Florida	500,000
Middle Bass Ferry Dock, Phase II, Ohio	500,000
Plaquemines Parish ferry, Louisiana	500,000
Port of Galveston, intermodal improvement program, Texas	250,000
San Francisco Bay Area Water Transit Authority Ferry Purchase Project, California	2,500,000
Savannah Water Ferry, Georgia	500,000
Ship Island Terminal, Gulfport, Mississippi	500,000
Stamford High Speed Ferry, Connecticut	500,000
Toledo Hovercraft service development, Ohio	750,000
Vallejo Baylink Ferry Intermodal Center, California	1,000,000

NATIONAL CORRIDOR PLANNING AND DEVELOPMENT PROGRAM

Within the funds available for the national corridor planning and development program, funds are to be available for the following projects and activities:

<i>Project Name</i>	<i>Conference Total</i>
12 Mile Road, Orchard Lake Road to Middlebelt Road, Michigan	1,275,000
Alameda Corridor East, Los Angeles County, California	1,495,000
Appalachian North-South Corridor Planning Study, Maryland	500,000
Appalachian North-South Corridor Study on US Route 220, West Virginia	1,500,000
Arkansas-Tennessee River Crossing Projects	1,000,000
Barton River Port Industrial Park, US Highway 72, Colbert County, Alabama	1,500,000
Billings Bypass Development, Montana	3,000,000
Bomber Road, Fort Worth, Texas	1,500,000
Charlotte/Mecklenburg County N/S Transitway, North Carolina	2,000,000
Coalfields Expressway McDowell County, West Virginia	9,000,000
Continental-1 Hwy Corridor Cambria County, Pennsylvania	1,500,000
County Road 222 Bridge, Cullman County, Alabama	1,000,000
Cross Harbor Freight Movement Project Environmental Impact Statement, New York	2,000,000
Dempster Commercial Corridor Improvements, Village of Morton Grove, Illinois	450,000
Donna-Rio Bravo International Border Crossing, Texas	750,000
East-West Highway, Maine	1,500,000
Everett Development 41st Street Interchange, Washington	1,000,000
Fairmont Gateway Connector (1-79 Connector), West Virginia	2,000,000
Ft. Wainwright Alternative Access & Chena River Crossing, Alaska	1,500,000

<i>Project Name</i>	<i>Conference Total</i>
Gateway Corridor Initiative, Indiana	600,000
Granite Falls Alternate Route Project, Washington	750,000
Heartland Expressway (SD79), South Dakota	500,000
Highway 100 (Collins Road), Cedar Rapids, Iowa	1,000,000
Highway 15 Bridge Replacements, Jasper County, Bay Springs, Mississippi	1,500,000
Highway 231 Glover Carey Bridge and Owensboro intersection, Kentucky	800,000
Highway 412 Springdale Bypass, Springdale, Arkansas	2,278,000
Highway 55 Corridor Preservation, I-494 in Hennepin County to Annadale, Wright County, Minnesota	1,500,000
Highway 71 Texarkana South, Arkansas	600,000
Highway US 12 Phase II, between Burbank and Walla Walla, Washington	1,900,000
Hot Springs Bypass, Highway 270 to Highway 5/7, Arkansas	1,000,000
Hwy 412 Widening Paragould Hwy 141, Arkansas	5,500,000
Hwy-28 Expansion Vernon Parish, Louisiana	3,000,000
I-10/LA-1 Interchange Bypass West Baton Rouge Parish, Lou- isiana	500,000
I-15 Widening Project North Las Vegas, Nevada	1,000,000
I-35 expansion, Hill County, Texas	1,500,000
I-35/127th Street Overpass, Olathe, Kansas	2,000,000
I-39 (Stevens Point-Mosinee), Wisconsin	2,000,000
I-5 SR 542 Widening Sunset Drive Orleans to Britton Rd., Wash- ington	2,000,000
I-5 Trade Corridor, Oregon	3,500,000
I-65 and County Road 24 interchange, Limestone County, Alabama	1,500,000
I-66, Pike County, Kentucky	2,000,000
I-69 Connector from I-530 in Pine Bluff, Arkansas	700,000
I-69/Great River Bridge: Highway 65, Mississippi Highway 1, Mis- sissippi	4,000,000
I-74 Bridge Project, Iowa	3,000,000
I-75, Laurel County, Kentucky	2,000,000
I-80 Colfax Narrows Project, Placer County, California	249,500
I-85 Extension from Montgomery to I-20/59, Alabama	500,000
IH 35-FM 2484 Amity Road, Shankin Road Overpass, Bell County, Texas	2,000,000
Illinois Pioneer Parkway and Growth Cell Infrastructure Improve- ments, Peoria, Illinois	1,000,000
Illinois Route 29, Berry and Edinburg, Illinois	1,200,000
Intermodal Transportation for corridor from Atlanta to Chat- tanooga, Tennessee	1,500,000
Kenai Peninsula Borough Road Improvements, Alaska	1,000,000
KY61 Greensburg to Columbia, Kentucky	4,000,000
LA 1 Embankment Stabilization Improvements, Louisiana	3,000,000
LA-11 St. Tammany Parish, Louisiana	300,000
Lakeland In-Town Bypass, Florida	500,000
Lincoln Bypass, SR 65/Westwood Interchange Construction, Cali- fornia	2,000,000
Lincoln Highway 65 Widening (The Gap) Project, California... ..	2,000,000
Martel Road Underpass, Loudon County, Tennessee	1,400,000
Meridian Bridge Replacement, US 81 Missouri River, Yankton, South Dakota	500,000
Mill Plain Boulevard at I-205, Washington	3,000,000
Missisquoi Bay Bridge Reconstruction, Vermont	2,000,000
Monticello Street Overpass, Kentucky	7,750,000
New Corridor Land Acquisition; Westlake-North Olmstead/Crock- er-Stearns Connection, Ohio	400,000
New Route 905 Otay Mesa to I-5/I-85m, California	4,000,000
New York Avenue Between 11th Street and Nassau Road, Hun- tington Station, New York	500,000
North Country Trans. Study Plattsburgh/Watertown, New York	2,000,000
North Street Corridor, Fitchburg, Massachusetts	800,000
Northern Bypass Around Somerset, Kentucky	2,500,000
Old Highway 471, Rankin County, Mississippi	1,500,000
Polk County Highway 22 Project, Oregon	3,000,000
Port Connector Road, Pine Bluff/Jefferson County, Arkansas	600,000

<i>Project Name</i>	<i>Conference Total</i>
Railroad Avenue Extension, Berkeley County, South Carolina	1,000,000
Ranchero Road/Cajon Line Grade Separation, California	1,500,000
River Road from Beargrass Creek to Zorn Avenue, Kentucky	1,250,000
Route 1/9, 35 Interchange, New Jersey	850,000
Route 106 Mansfield, Massachusetts	500,000
Route 116 planning and design, Amherst, Massachusetts	800,000
Route 12, Auburn Veteran's Memorial Corridor, Auburn, Massachusetts	250,000
Route 2 Improvements in Erving, Orange, Massachusetts	4,400,000
Route 334/Derr Road, Ohio.....	1,600,000
Route 422 East, between New Castle and Rose Point, Pennsylvania	1,000,000
Route 67, St. Francois County, Missouri	500,000
Route 7 Bypass West of Leesburg (Loudon County/Town of Leesburg), Virginia	2,188,000
Route 72 Relocation, Bristol, Connecticut	1,500,000
Route 79 Relocation and Harbor Enhancement, Fall River, Massachusetts	500,000
Rt-403 Relocation East Greenwich/North Kingstown, Rhode Island.....	1,000,000
South Avis Industrial Access Road, Pennsylvania.....	600,000
Southern Bypass Around Somerset, Kentucky	1,500,000
Southern Mahoning County US 62/SR 14 Bypass, Ohio	1,000,000
SR 247 and SR 2008, Moosic Mountain Business Park, Lackawanna County, Pennsylvania	1,000,000
SR-130 Right of Way Williamson Guadalupe Travis and Caldwell, Texas	10,000,000
State Highway 158—US 87 to 4.75 miles west, Sterling County, Texas	850,000
Sterns Road Fox River Bridge Crossing, Illinois	7,000,000
STH 29 (Chippewa Falls I-94), between I-94 and CTH J, Wisconsin	2,000,000
Sunland Park Dr. Border Rd. Extension, New Mexico	4,000,000
Thomas Cole House Access, Catskill, New York	22,000
Trunk Highway 23 (TH 71 to CSAH 31), Minnesota	1,000,000
Tuscaloosa Eastern Bypass, Alabama	10,000,000
U.S. 24 Corridor Improvement Study and Implementation, Ohio	2,000,000
U.S. 319 Expansion, Florida.....	3,000,000
U.S. Route 35 Improvements (upgrade road to I-64/US Route 35), West Virginia	4,115,000
US 17/521 Improvements Georgetown, South Carolina	2,000,000
US 20 relocation and right of way, Webster, Iowa	2,500,000
US 22 Reconstruction, Export to Delmont, Pennsylvania	1,000,000
US 278 Cullman County, Alabama	500,000
US 280/US 27 Intersection Improvement, Chattahoochee County, Georgia	250,000
US 41 A, Hopkins County, Kentucky	660,000
US 60 Carter & Butler Counties, Missouri	10,000,000
US 87 Relief Route, Lamesa, Texas	850,000

Morgan, Menifee, Rowan County Regional Business Park Access Road, Kentucky	250,000
Multimodal Transportation Plan, Wisconsin	325,000
Multi-use Equestrian and Hiking Trail, Holmes County, Ohio	520,000
Museum Campus Trolleys Chicago, Illinois	500,000
Nashville Rolling Mill Hills, Tennessee	500,000
Newberg-Dundee Transportation Improvement Project, Oregon	775,000
Northside Drive Corridor Design Clinton, Mississippi	500,000
North-south connect between Glassboro High Street commercial corridor and Rowan University, New Jersey	588,000
Odessa Transportation Plan, Delaware	100,000
Ohio River Trail—Salem to Downtown Cincinnati, Ohio	150,000
Oklahoma Transportation Center Improvements	350,000
Old Route 66 Streetscape Phase I Moriarity, New Mexico	400,000

<i>Project Name</i>	<i>Conference Total</i>
Olympic Discovery Trail, Washington	1,000,000
Orange County Congestion Program, California	1,000,000
Owensboro Waterfront Development Project, Kentucky	750,000
Paintsville Lake Access Road, Kentucky	400,000
Pedestrian Bridge, 36th Avenue, Robbinsdale, Minnesota	750,000
Pennyrile Parkway Improvements, Kentucky	800,000
Pine Creek Bridge and Rail-Trail, Pennsylvania	200,000
Pine Mountain Industrial Park Access Road, Kentucky	1,500,000
Port of Anchorage Road Improvements, Alaska	600,000
Providence Road Trail Project Virginia Beach, Virginia	150,000
Revere, Massachusetts Wonderland Station	200,000
Route 50 traffic calming, Loudoun and Fauquier counties, Virginia	700,000
Route 79 Relocation and Harbor Enhancement, Fall River, Massachusetts	100,000
Ruffner Mountain Nature Center, Alabama	500,000
San Gabriel Valley Council of Governments/LA to Pasadena Metro Gold Line Construction Authority, California	2,900,000
San Luis Obispo City to Sea Bikepath, California	500,000
Selma Riverfront Project, Alabama	500,000
Shoreline Interurban Trail Construction Project, Washington	400,000
Simon Kenton Trail, Springfield to Urbana, Ohio	1,500,000
Somerset downtown revitalization, Kentucky	1,800,000
Somerset Pedestrian Overpass, Kentucky	1,200,000
South Bend Studebaker Corridor Industrial Park, Indiana	500,000
South Suburban Commuter Rail Service (Metra), Illinois	100,000
Southwick, North Central and Canalside Bike Trails, Massachusetts	1,000,000
Springfield Downtown Redevelopment Project, Vermont	1,000,000
SR202/I-70 Interchange improvement, Ohio	750,000
St. Petersburg, Florida, Bike/Pedestrian Master Plan	600,000
State of New Jersey Department of Motor Vehicle Services (NJ MVS)	1,000,000
Syracuse Lakefront Project, New York	1,400,000
Thea Foss Waterway Environmental Protection and Transportation Impact Study, Washington	500,000
Tiverton Stone Bridge abutment repairs and beautification, Rhode Island	100,000
Toulon Township, Illinois	200,000
Tower Bridge Pedestrian/Bikeway Improvements, California	900,000
Traffic calming devices and pedestrian streetscape improvements, Windemere, Florida	500,000
Traffic Calming Devices, Winter Park, Florida	500,000
Traffic Study on the New Smithsonian Air and Space Museum Annex at Washington Dulles Int'l Airport, Virginia	50,000
Trinity River Visions, Texas	500,000
Tulsa Trail System Broken Arrow, Oklahoma	1,250,000
Ulster County Visitor Center, New York	1,000,000
Union City NJ Traffic Signalization Project, New Jersey	1,000,000
US 441/State Road 7 Corridor Revitalization Plan, Florida	1,000,000
US-50 Reconstruction Dodge City, Kansas	500,000
VA Cemetary Road, Mobile, Alabama	1,000,000
Vanderbilt Children's Hospital, Tennessee	250,000
Village of Morton Grove, Illinois	1,000,000
Virginia Corridor Greenway Pilot Project Modesto, California	400,000
Wakulla County Florida US-319 Expansion	150,000
Watertown Community Trail Extension, South Dakota	100,000
Wichita Riverwalk on Arkansas River, Kansas	687,000
Yorktown Waterfront Revitalization & Streetscape, Virginia	500,000

Charles Town Gateway Revitalization Project, WV.—The conference agreement includes \$400,000 for the Charles Town Gateway Revitalization Project in West Virginia. Within the amounts provided, the conferees expect that up to \$200,000 shall be available for streetscape improvements on Washington Street with the remainder being available for the related gateway improvements.

BRIDGE DISCRETIONARY PROGRAM

Within the funds available for the bridge discretionary program, funds are to be available for the following projects and activities:

<i>Project Name</i>	<i>Conference Total</i>
12th Street Viaduct, Kansas City, Missouri	\$ 900,000
Batchellerville Bridge replacement, New York	3,000,000
Bull Slough Bridge Repair, Alabama	1,000,000
Canvas Bridge Nicholas County, West Virginia	4,500,000
Chattahoochee River Bridge, Roswell, Georgia	3,000,000
Chouteau Bridge, Kansas City, Missouri	1,000,000
City of El Paso, Texas, Ysleta Port of entry dedicated commuter lane	300,000
Covered Bridges including \$2M for Vermont	6,000,000
CR 528 Mantoloking Bridge, Brick Township, New Jersey	1,500,000
Gilmerton Bridge Replacement, Chesapeake, Virginia	2,000,000
Golden Gate Bridge Seismic Retrofit, San Francisco, California	4,250,000
Grand Lagoon Bridge Replacement, Florida	1,000,000
Highway 3364 bridge replacement at College Road, Bourbon County, Kentucky	200,000
Highway 82, Greenville Bridge, Arkansas	1,050,000
Historic Woodrow Wilson Bridge Flowood, Mississippi	750,000
Hood River/White Salmon Bridge and toll plaza resurfacing, Oregon	1,350,000
I-195 Washington Bridge, Rhode Island	4,500,000
I-30 replacement bridge, Dallas, Texas	1,750,000
I-40/Louisiana Interchange, New Mexico	750,000
Indian River Inlet Bridge Repair and Planning, Sussex County, Delaware	3,500,000
Interstate 74 Mississippi River Bridge between Moline, Illinois and Bettendorf, Iowa	1,000,000
Iowa/Nebraska Missouri River Bridge—#DPS-34-7 (114), near Plattsmouth, Nebraska	2,200,000
Leeville Bridge, Lafourche Parish, Louisiana	1,000,000
Lincoln County bridge renovation, Kentucky	1,000,000
Martin Luther King, Jr. Bridge rehabilitation, Ohio	3,750,000
Monroe Street Bridge rehabilitation, Spokane, Washington	3,000,000
Pearl Harbor Memorial Bridge Reconstruction, New Haven, Connecticut	3,000,000
Pearl River Bridge Connector I-55 to SR 475 Jackson, Mississippi	7,750,000
Red Cliff Arch Bridge (US 24), Minturn, Colorado	1,500,000
Route 72 Manahawkin Bay Bridges, New Jersey	1,500,000
Sauvie Island Bridge Replacement Project, Oregon	2,000,000
Snake River Crossing, Twin Falls, Idaho	1,500,000
Wacker Drive Reconstruction Chicago, Illinois	3,500,000

FEDERAL LANDS

Within the funds available for the federal lands program, funds are to be available for the following projects and activities:

<i>Project Name</i>	<i>Conference Total</i>
KS-115 and KS-911 Interchange, Kentucky	\$750,000
14th Street Bridge Corridor, Virginia	5,600,000
17-mile Road on Wind River Indian Reservation, Fremont County, Wyoming	650,000
206 Stokes State Park, New Jersey	740,000
Abraham Lincoln's birthplace, national historic site, Kentucky	780,000
Access roads to Beale Air Force Base, California	500,000
Arches National Park Main Entrance Relocation, Utah	837,500
BIA Route 1281 (Snake Road Realignment & Repair), Florida	500,000
Blackstone River Valley Bikeway, Rhode Island	3,000,000
Cattle Point Road (San Juan Island)—erosion remediation, Washington	350,000
Chilatchee Creek Park Access Road Improvements, Alabama	475,000

<i>Project Name</i>	<i>Conference Total</i>
City of Boston—Boston Harbor Islands National Park/Long Island Pier Planning and design, Massachusetts	250,000
CN3852 FHP 45–1(5), Sunspot Road, New Mexico	1,000,000
Cold Hill Road, Laurel County, Kentucky	1,600,000
Colonial Historic Park—Jamestown 400th Anniversary Transportation Improvements, Virginia	2,000,000
Construct Regional Tourism Center and Transportation Hub, Hyde Park, New York	1,500,000
Council Grove Lake Embankment Roadway, Kansas	1,125,000
CTG G Road and Bike Route, Taylor County, Wisconsin	2,000,000
Daniel Boone Parkway, Kentucky	1,000,000
Forest Highway 87 (FM 201), Sabine National Forest, Sabine County, Texas	750,000
Fort Drum Road Improvements, New York	500,000
Freemont County Project, Wyoming	1,100,000
Frog Level Road Improvement, Mississippi	4,640,000
Gateway Trail Grand Canyon National Park, Arizona	842,500
GBH Soloman National Cemetery Access, Saratoga, New York	40,000
Glacier National Park Going-to-the-Sun Road, Montana	3,000,000
Hawaii Statewide Improvements	4,000,000
Highway 26, Oregon	1,235,000
Highway 93 Expansion Project, Montana	1,000,000
Homochitto National Forest access road, Lincoln County, Mississippi	2,000,000
Hoonah Road (FM), Alaska	1,400,000
Hoover Dam Bypass, Arizona	6,500,000
Hwy 2 Highline EIS Project, Montana	500,000
I–215 Widening, Nevada	2,000,000
Iditarod Historic National Trail Project, Alaska	250,000
Kenai River Trail, Alaska	500,000
Lake Mead National Recreation Area gateway improvements, Nevada	400,000
Land Between the Lakes Roads, Trigg and Lyon counties, Kentucky	100,000
Lewis and Clark Gates of the Mountains Road Project, Montana	600,000
Louisiana Highway (LA 117), 4-lane expansion study, Louisiana	250,000
Lowell Canalway and Riverwalk Design, Massachusetts	500,000
Mammoth Cave Parkway (KY 101), Edmonson County, Kentucky	450,000
Marin Parklands/Muir Woods visitor access, California	1,000,000
Marysville Road, Montana	500,000
Needles Highway, CA/NV Improvements, California	2,000,000
Presidio Trust/Crissy Field transit access improvement, California	1,000,000
Preston North and South Project, Nebraska	600,000
Rocks Back Country Byway, Stage 2, Cassia County, Idaho	1,000,000
Shotgun Cove Road, Alaska	2,500,000
Southeast Alaska Seatrails	500,000
Spirit Lake Tribe Shared Use Path Fort Totten, North Dakota	520,000
SR–149 Resurfacing Rio Grande National Forest, Colorado	1,500,000
SR–164 Muckleshoots, Washington	420,000
Timucuan Preserve bike route, Florida	1,000,000
Traffic abatement study at highway 98 and entrance to Hurlbert Field, Florida	250,000
Tualatin River NWR Turn Lanes, Oregon	745,000
US 95 Widening Laughlin Cut-off to Railroad Pass, Nevada	8,000,000
USMC Heritage Center Access Improvements, Virginia	2,000,000
Western Maryland Low Impact Welcome Center at Byron Overlook, Maryland	400,000
Woonsocket Depot rehabilitation, Rhode Island	1,000,000
Yakama Signal Peak Road, Washington	4,150,000

The conferees direct that funds allocated to FHWA's public lands discretionary program be derived from that program and not from funds allocated to the National Park Service's regions. In addition, the conferees direct that these funds not come from funds allocated to the Fish and Wildlife Service's regions, as proposed by the House.

SCENIC BYWAYS

Within the funds available for the scenic byways program, funds are to be available for the following projects and activities:

Berkshire/Franklin Mohawk Trail Scenic Byway & Berkshire Jacobs Ladder Trail Scenic Byway, Massachusetts	\$1,000,000
Delsea Scenic Byway—Salem, Cumberland, Cape May Counties, New Jersey	149,000
High Street Revitalization, Lawrenceburg, Indiana	1,200,000
Intervale Scenic Vista Project, New Hampshire	500,000
Kentucky Scenic Byways	1,425,000
Mt. Greylock Reservoir Road Improvements, North Adams, Massachusetts	1,100,000
Multi-Colored Scenic Byways Signs for Idaho's Scenic, Historic, and Back County Byways	382,000
New York State Scenic Byways Project: Statewide	1,600,000
U.S. Route 40 and National Road, Garrett County, Maryland	233,600
Ventura Freeway Scenic Corridor Initiative, California	1,000,000
Washington DOT Scenic Byways Statewide Program	1,000,000

INTERSTATE MAINTENANCE DISCRETIONARY

Within the funds available for the interstate maintenance discretionary program, funds are to be available for the following projects and activities:

<i>Project Name</i>	<i>Conference Total</i>
Grandview Triangle, Kansas City, Missouri	\$1,000,000
I-10 Interchange at Grand Prairie Highway, Rayne, Louisiana	1,000,000
I-10 Riverside Avenue Interchange, California	1,800,000
I-12 at Essen Lane, Louisiana	250,000
I-15 Reconstruction 10800 South to 600 North, Utah	9,000,000
I-16 and Dean Forest Road Interchange, Georgia	250,000
I-16/I-95 Interchange Reconstruction Concept Study, Chatham County Georgia	250,000
I-182/SR-240 Interchange Reconstruction, Washington	3,000,000
I-195 Relocation Project, Rhode Island	3,000,000
I-235 Reconstruction, Polk County, Iowa	1,800,000
I-25 Broadway & Alameda Interchange Rebuilding, Colorado	4,500,000
I-26 Little Mountain Interchange improvements, South Carolina	500,000
I-29 Madison Street interchange, Sioux Falls, South Dakota	4,000,000
I-295 & Route 38 Missing Moves—Mount Laurel, New Jersey	250,000
I-295 Via Duct to I-76, New Jersey	1,000,000
I-30/I-35 Dallas Construction of Bridges for Trinity River, Texas	5,000,000
I-35/Turkey Creek Reconstruction Project, Kansas	3,000,000
I-40 and Paseo del Volcan Interchange and Access Road to Double Eagle II, Albuquerque, New Mexico	2,075,000
I-44 & US 65 Interchange, Missouri	2,000,000
I-44 Fenton Industrial Corridor—Fenton, Missouri	250,000
I-44 Interchanges at SH-51 and US-169, Tulsa, Oklahoma	750,000
I-49 North to the Arkansas Line (Access Improvements to I-220 @ US 71/LA1 & LA 172), Louisiana	1,000,000
I-55/US-49 Flyover Near Jackson, MS	5,000,000
I-64, Vanderburgh and Posey counties, Indiana	1,000,000
I-69/SR 304 (construction Odom Road to I-55), Mississippi	2,000,000
I-74 Reconstruction, Mississippi River Bridge Replacement, Scott County, Iowa	950,000
I-75 Exits 49 and 52, McMinn County, Tennessee	500,000
I-75 Improvements South West Florida	1,125,000
I-75, Rockcastle County, Kentucky	6,000,000
I-77/Shuffel Road interchange, Canton, Ohio	1,500,000
I-80 Truck Climbing Lane—Reno, Nevada	500,000
I-81—Exit 44 Interchange/PA 465 Improvements—Cumberland County, PA	250,000
I-81 Interchange, Syracuse, New York	1,500,000
I-84/Exit 17 at Routes 63 and 64, Middlebury/Waterbury, Connecticut	1,000,000

<i>Project Name</i>	<i>Conference Total</i>
I-84/I-87 Interchange, New York	1,500,000
I-84/Route 2 East Hartford, operational improvements, Connecticut (flyover access)	750,000
I-90 Joint Port of Entry Project, Wyoming	2,000,000
I-90 two-way transit operations, Washington	750,000
Interstate 40: Mississippi River Bridge Seismic Retrofit, Arkansas	900,000
Interstate 5, Rush Road to Maytown widening, Washington	1,000,000
Interstate 5, Salem, Oregon (Boone Road Bridge replacement)	800,000
Interstate Highway 30 in Texarkana from FM 989 (Kings Highway) in Bowie County, Texas, to the Arkansas state line (US71)	1,000,000
Interstate Highway 35 perpetual pavement testing section, LaSalle County, Texas	1,000,000
Interstate Highway 45 frontage road and ramp system improvements, Huntsville, Texas	1,000,000
Laval Road Interchange Upgrade at I-5, California	750,000
Louisville-Southern Indiana Ohio River Bridges Project, Kentucky	5,000,000
Marquette Interchange Reconstruction, Milwaukee, Wisconsin	4,500,000
New York State Thruway Authority, Westchester County, Bryam Bridge rehabilitation & pavement reconstruction, New York	1,000,000
Reconstruction of I-95/I-91/CT 34 Interchange, New Haven, Connecticut (Pearl Harbor Memorial Bridge—I-95 New Haven East Approach to Q-Bridge)	1,500,000
Rehabilitation of I-20, Erath, Palo, Pinto, and Parker counties, Texas	3,350,000
Right of way acquisition, Paterson, New Jersey interchange improvements	200,000
State Route 79/SR 3025 missing ramps, Jackson Township, Pennsylvania	500,000
SW First-NW Lake Road Project, Washington	3,000,000
US-12 Burbank to Walla Walla, Washington	2,500,000

BUREAU OF TRANSPORTATION STATISTICS

The conferees provide \$31,000,000 for the Bureau of Transportation Statistics. Under the FHWA appropriations, the accompanying bill provides \$31,000,000 for the Bureau of Transportation Statistics (BTS), the amount authorized in TEA-21. The conferees note that BTS has undergone significant increases in staffing since 1993, the year BTS was established. In fiscal year 1993, on-board positions totaled 5; in 2001, total staff stood at 101; and BTS estimates on-board staff to total 146 by the end of 2002. In fiscal year 2003, BTS requests a level of 157 full-time positions (FTP). The conferees are very concerned about these staff increases, particularly when the staffing level has exceeded the Administration's request to Congress. Therefore, the conference committee directs BTS to fill no more than 146 full-time positions, or if lower, the number of on-board positions upon enactment of this Act.

FEDERAL-AID HIGHWAYS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation of \$32,000,000,000 for the federal-aid highways program as proposed by the Senate.

APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM

The conference agreement provides \$188,000,000 for the Appalachian Development Highway System (ADHS) instead of

\$200,000,000 as proposed by the Senate and \$100,000,000 as proposed by the House. Within the amount provided, \$88,000,000 shall be allocated in accordance with the ADHS most recent cost-to-complete study and the remaining \$100,000,000 shall be allocated as follows: \$35,000,000 for Kentucky Corridors; \$5,000,000 for Tennessee Corridor S; \$8,000,000 for Tennessee Corridor K; \$2,000,000 for Corridor V, Mississippi; \$20,000,000 for West Virginia Corridors; and \$30,000,000 for Alabama Corridor X.

FEDERAL-AID HIGHWAYS

(RESCISSIONS)

The conference agreement includes a rescission of \$5,609,337 of funds in unobligated balances associated with completed projects contained in prior appropriations and authorizing Acts, as proposed by the House. In addition, \$250,000,000 of contract authority balances from the five core programs are rescinded. These resources can not be obligated by the states as they were apportioned at levels over and above annual statutory obligation limitations. The conferees direct FHWA not to rescind the authority on a proportional basis by program and instead to administer the rescission by allowing each state maximum flexibility among the five programs in making these adjustments.

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

MOTOR CARRIER SAFETY

LIMITATION ON ADMINISTRATIVE EXPENSES

(HIGHWAY TRUST FUND)

The conference agreement includes \$117,464,000 for administrative expenses of the Federal Motor Carrier Safety Administration under the FMCSA limitation on administrative expenses account, as proposed by the Senate. Of the funds provided, \$110,464,000 is for operating expenses and \$7,000,000 is for research and technology initiatives. The following adjustments are made to the budget request:

FECA administrative costs	– \$20,000
Hazardous materials safety and security	+500,000
Share the road safety	– 100,000
Safety is good business program	– 250,000
Research and technology information dissemination	– 150,000
Undistributed reduction	– 500,000

FECA administrative costs.—The conference agreement denies \$20,000 for FECA administrative costs, as proposed by the House.

Share the road program.—Statistics for 1999 show that 78 percent of all fatal truck crashes are collisions between large trucks and other vehicles. Data from 1998 indicate that approximately 81 percent of all large truck and other vehicle fatal crashes are the result of action initiated by passenger vehicle drivers. The conferees believe that the share the road program needs to be retargeted and broader than its main campaign that focused on warning non-commercial drivers to avoid truck blind spots. The conferees provide \$100,000 for FMCSA's share the road program and encourage

the agency to coordinate its share the road efforts with NHTSA, as proposed by the Senate. Further, the conferees direct the General Accounting Office to evaluate the effectiveness of the share the road program, make recommendations to strengthen the program, and submit the study to the House and Senate Committees on Appropriations by July 15, 2003, as proposed by the House.

Commercial drivers license program.—The conference agreement retains language recommending that more work needs to be done to address deficiencies in the CDL program. As proposed by the House, within the funds provided for the CDL program, FMCSA should continue working with the American Association of Motor Vehicle Administrators, the Commercial Vehicle Safety Alliance, lead MCSAP agencies and licensing agencies to improve all aspects of the CDL program. In addition, FMCSA should consider sponsoring another pilot project involving law enforcement and driver licensing agencies to explore new and innovative ways to ensure that drivers who have been convicted of a disqualifying offense do not operate during the period of suspension or revocation. Finally, FMCSA should continue to support the judicial and prosecutorial outreach effort.

Furthermore, as proposed by the Senate, the conferees encourage FMCSA to adopt a CDL-related standard that includes monitoring, consistent with OIG recommendations in the menu of oversight activities for state and third-party CDL examiners.

Untethered truck trailer tracking and security.—The conference agreement has provided \$2,000,000 to leverage existing technology and develop an untethered trailer tracking and control system that will provide real-time trailer identification, location, geofencing, unscheduled movement notification, door sensors, and alarms, as proposed by the House.

Solid waste shippers.—The conferees direct the FMCSA to work with the Commonwealth of Virginia's MCSAP agency to conduct 3 one-day concentrated roadside inspection strike forces on interstate waste haulers. The results shall be compiled in a letter submitted to the House and Senate Committees on Appropriations by September 31, 2003.

Crash causation study.—The conference agreement includes language proposed by the Senate urging FMCSA to make available the preliminary results of the crash causation study as soon as a representative data set is analyzed and to submit a letter to the House and Senate Committees on Appropriations by May 15, 2003, indicating the study's progress, the response to and status of the Transportation Research Board's recommendations, and a time schedule for the release of the initial results. In addition, the conferees direct NHTSA to request that the Centers for Disease Control's National Center for Injury Prevention and Control evaluate the adequacy of the crash causation research design. CDC's evaluation is to be provided to the House and Senate Committees on Appropriations.

Hazardous materials transportation.—The conference agreement includes an additional \$500,000 above the budget request for hazardous materials safety and security, as proposed by both the House and the Senate. The conferees urge FMCSA to enforce compliance with Federal hazardous materials regulations and to en-

courage states to use the motor carrier safety assistance program for hazardous materials safety and security research. In addition, the conferees recommend that FMCSA develop innovative strategies to minimize the risks of transporting hazardous materials.

“Safety is Good Business” Program.—The conferees have deleted funding for the Safety is Good Business program from the Motor Carrier Safety Account, as proposed by the Senate. The conferees believe that this funding should come from FMCSA’s high priority initiative program within the Motor Carrier Safety Assistance Program.

Younger driver pilot program.—The conference agreement includes language as proposed by the Senate directing the FMCSA administrator to conduct an analysis of the safety ramifications associated with the younger driver pilot program. The conferees include a provision, as proposed by the House, prohibiting the DOT from implementing a pilot program allowing commercial drivers 18 to 20 years of age to operate commercial motor vehicles in interstate commerce. This provision does not prohibit FMCSA from studying the younger driver pilot program; the prohibition only applies to the development or implementation of such a program.

Driver record improvements.—The conferees include language as proposed by the Senate regarding improvements to the issuance or renewal of a motor vehicle operator’s license. The conferees direct NHTSA and FMCSA to conduct an analysis of the costs associated with the development of the one driver, one record pointer system and the steps necessary for implementation, and to report its findings to the House and Senate Committees on Appropriations by August 1, 2003.

Driver research.—Within the funds provided for research and technology, the conference agreement provides \$700,000 for the Transportation Research Institute at the George Washington University Virginia campus, as proposed by the Senate. The conferees also provide \$250,000 to initiate a separate multidisciplinary driver research program, as proposed by the Senate.

NATIONAL MOTOR CARRIER SAFETY PROGRAM

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation of \$190,000,000 for the national motor carrier safety program as proposed by the House and the Senate.

(LIMITATION ON OBLIGATIONS)

The conference agreement includes a limitation on obligations of \$190,000,000 for motor carrier safety grants as proposed by the House and the Senate.

Truck driver training program.—Within the funds provided for FMCSA’s high priority initiative program, the conference agreement provides \$700,000 for the development of a concrete skid pad at Lewis-Clark State College North Lewiston Training Facility.

Highway watch program.—The Senate proposed funding \$1,000,000 for the continuation of the Highway Watch program. The conference agreement denies this funding.

Operation respond.—Also within funds provided for FMCSA's high priority initiative program, the conference agreement provides \$1,000,000 to design, build and demonstrate the benefits of a hazardous materials incident detection, management, and response system, including the expansion of the Operation Respond network. The conferees urge that these funds be used to establish a national first responders emergency services network and to accelerate deployment of Operation Respond software.

BORDER ENFORCEMENT PROGRAM

(HIGHWAY TRUST FUND)

The conference agreement provides a total of \$59,967,000 for the Border Enforcement program under the Federal Highway Administration's 104(a)(1)(A) administrative takedown, as proposed by the Senate. Within this amount, the conferees provide \$41,967,000 for Federal border enforcement staffing and operations and \$18,000,000 for state operations grants to the southern border states, as proposed by both the House and the Senate.

U.S. Southern border.—The conference agreement extends a provision from the fiscal year 2002 appropriations Act regarding the safety of cross-border trucking between the United States and Mexico. Further, the conferees direct the Secretary to report annually on the safety and security of the U.S. Southern border with regard to motor carrier transportation into the U.S. by Mexican-domiciled motor carriers.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATIONS AND RESEARCH

The conference agreement provides \$138,288,000 from the general fund for highway and traffic safety activities instead of \$131,433,000 as proposed by the House and \$141,000,000 as proposed by the Senate. A total of \$98,161,131 shall remain available until September 30, 2005 as proposed by the House and the Senate.

The agreement includes a provision carried since fiscal year 1996 that prohibits NHTSA from obligating or expending funds to plan, finalize, or implement any rulemakings that would add requirements pertaining to tire grading standards that are not related to safety performance. This provision was contained in both the House and Senate bills.

OPERATIONS AND RESEARCH
(LIQUIDATION OF CONTRACT AUTHORIZATION)
(LIMITATION ON OBLIGATIONS)
(HIGHWAY TRUST FUND)

The conference agreement provides \$72,000,000 from the highway trust fund to carry out provisions of 23 U.S.C. 403 as proposed by both the House and the Senate.

The following table summarizes the conference agreement for operations and research (general fund and highway trust fund combined) by budget activity:

Salaries and benefits	\$63,316,000
Travel	1,324,000
Operating expenses	22,834,000
Contract programs:	
Safety performance	10,393,000
Safety assurance	15,760,000
Highway safety programs	48,463,000
Research and analysis	60,691,000
General administration	657,000
Grant administration reimbursements	- 11,150,000

Total	\$212,288,000
-------------	---------------

FECA administrative costs.—The conference agreement deletes \$12,000 proposed in the budget for FECA administrative costs. This action is consistent across all modal administrations.

Workforce planning and development activities.—The conference agreement provides a total of \$300,000 for workforce planning and development activities as proposed by the Senate in its explanatory language delineated in the Congressional Record of January 15, 2003. This is a reduction of \$115,000 from the budget request.

Contracting procedures.—The conferees urge NHTSA to review its contracting procedures and take appropriate steps to eliminate unnecessary delays. Too often, contract recipients have had to wait for several months before Federal funds are granted after a contract is awarded.

National occupant protection program.—The conference agreement provides \$3,000,000 above the budget request to bolster the national occupant protection program. The additional funds shall be used to continue outreach activities to increase seat belt use by minority populations, teens, and rural populations.

Passenger vehicle tire traction.—The conferees encourage NHTSA to include standards for tire performance on wet road surfaces when the agency prepares its final rule on tire safety performance, as discussed in the Senate's explanatory statement. Absent such inclusion, NHTSA shall send a letter to the House and Senate Committees on Appropriations explaining why wet road tire performance standards were not included.

Ejection prevention measures.—NHTSA has identified both occupant ejection and upgraded roof crush resistance as "near term" regulatory priorities that the agency plans to undertake in 2003. Consistent with this proposal, the conferees support the adoption of measures to improve ejection prevention performance of motor

vehicles no later than December 31, 2004, and recognize that the agency may need to develop new test procedures.

Early warning reporting system.—The conferees direct NHTSA to submit a report to the House and Senate Committees on Appropriations detailing the methods the agency will adopt to ensure that all tires imported and sold in the United States comply with the early warning report system, as outlined in NHTSA's final regulations. This report should be issued by July 1, 2003.

Defects information system.—The Inspector General raised concerns about whether the new defects information system can be successfully implemented on time and within the estimated \$5,000,000 budget. Since the issuance of this report, NHTSA has concurred with the IG's concerns. The conferees direct NHTSA to provide a letter to the House and Senate Committees on Appropriations that details the current schedule and cost estimate for this system, explain any cost increases, and indicate how these new costs will be paid for.

Impaired driving.—The conference agreement provides \$4,000,000 above the budget request for the impaired driving program. Of this total: \$1,000,000 shall be used for judicial and prosecutorial initiatives; \$2,000,000 shall be used on the repeat offender tracking model; and \$1,000,000 shall be used on target population outreach efforts.

Within the funding provided for judicial and prosecutorial outreach, NHTSA, in conjunction with the Attorney General, should identify and report on the best strategies for reducing obstacles to obtaining impaired driving convictions and strategies to help prosecutors and judges apply sanctions in a consistent manner. The report should also emphasize strategies to reduce plea bargaining, diversion, or deferral programs, and other means used by offenders to avoid any permanent record. This report must be submitted to the House and Senate Committees on Appropriations by October 1, 2003.

NHTSA shall detail to the House and Senate Committees on Appropriations, in letter format, the concept behind the repeat offender tracking model, the total cost to develop the model, the anticipated yearly costs to enact the model, and the schedule to develop and enact this program. NHTSA should develop this model with input from the states and the highway safety community.

As part of the impaired driving program, the conferees suggest that NHTSA evaluate point of sales training as proposed by the House.

Alcohol ignition interlock devices.—The conferees have not provided any funding for research to advance the alcohol ignition interlock devices proposed by the Senate.

Drugs, driving and youth.—The conference agreement funds the drugs, driving and youth program at the 2003 budget request as proposed by the House.

Motorcycles.—A total of \$945,000 has been provided for motorcycle programs, an increase of \$300,000 above the budget request. This additional funding shall be used for strategies to enhance motorcycle rider's crash avoidance skills and improve conspicuity. In addition, as directed by the House, \$500,000 shall be used for demonstration projects related to motorcycle training.

Crash causation study.—The conferees have included \$2,000,000 to update a 23-year-old crash causation study, as proposed by the House.

Highway safety data and traffic records.—The conference agreement does not provide funding for NHTSA to continue working with the states to improve highway safety data and traffic records, similar to activities funded previously under the section 411 grant program. The conferees understand the agency has carryover funding available for these efforts from other grant programs, such as section 410.

Emergency medical services head injury research.—A total of \$2,189,000 has been provided for emergency medical services. Of this amount, \$750,000 shall be used to continue training emergency medical service personnel in delivering prehospital care to patients with traumatic brain injuries.

Biomechanics.—The conference agreement provides a total of \$14,950,000 for biomechanics research, \$1,000,000 more than the budget request, to continue research of the CIREN program. Also, within the funds provided, \$2,000,000 shall be used to continue research related to traumatic brain and spinal cord injuries at the Southern Consortium for Injury Biomechanics.

National Automotive Sampling System.—The conference agreement has provided \$795,000 above the budget request so that NHTSA can expand the National Automotive Sampling System database with a particular focus on child safety seat and tire-related data, as proposed by the Senate.

Built-in child booster systems.—The conference agreement does not include funding, proposed by the Senate, to study the effectiveness of built-in child booster systems with other systems. The built-in technology is not advanced enough to warrant a study at this time.

Heavy vehicle research.—Within the funds provided for heavy vehicle research, \$500,000 is for the National Transportation Research Center in Tennessee to continue to conduct broad-based laboratory-to-roadside research in heavy vehicle safety issues.

Pneumatic tire research.—The conference agreement includes \$375,000 in the pneumatic tire program for Mercer Engineering Research Center, as proposed in the Senate's explanatory statement of January 15, 2003.

NATIONAL DRIVER REGISTER

(HIGHWAY TRUST FUND)

The conference agreement provides \$2,000,000 for the National Driver Register as proposed by both the House and the Senate.

HIGHWAY TRAFFIC SAFETY GRANTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

The conference agreement provides \$225,000,000 to liquidate contract authorizations for highway traffic safety grants, as proposed by both the House and the Senate.

HIGHWAY TRAFFIC SAFETY GRANTS

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement limits obligations for highway traffic safety grants to \$225,000,000 as proposed by both the House and the Senate. The bill includes separate obligation limitations with the following funding allocations:

Highway safety programs	\$165,000,000
Occupant protection incentive grants	\$20,000,000
Alcohol incentive grants	\$40,000,000

A total of \$11,150,000 has been provided for administration of the grant programs as proposed by both the House and the Senate. Of this total, not more than \$8,150,000 of the funds made available for section 402; not more than \$1,000,000 of the funds made available for section 405; and not more than \$2,000,000 of the funds made available for section 410 shall be available to NHTSA for administering highway safety grants under chapter 4 of title 23. This language is necessary to ensure that each grant program does not contribute more than five percent of the total administrative costs.

The conference agreement retains bill language, proposed by both the House and Senate, that limits technical assistance to states from section 410 to \$500,000.

The conference agreement prohibits the use of funds for construction, rehabilitation or remodeling costs, or for office furnishings and fixtures for state, local, or private buildings or structures, as proposed by both the House and the Senate.

FEDERAL RAILROAD ADMINISTRATION

SAFETY AND OPERATIONS

The conference agreement provides \$117,363,000 for safety and operations as proposed by the House instead of \$118,264,000 as proposed by the Senate. Within this total, the conferees have funded four new positions. The conference agreement includes language that permits \$6,636,000 of the total funding to remain available until expended as proposed by both the House and the Senate.

FECA administrative costs.—The conference agreement deletes \$65,000 proposed in the budget for FECA administrative costs. This action is consistent across all modal administrations.

Study on grade crossings.—As directed by the Senate in its explanatory statement in the Congressional Record of January 15, 2003, the Secretary of Transportation shall submit with the fiscal year 2005 budget request an action plan outlining specific efforts to be pursued by FRA, FHWA, FMCSA, NHTSA, and the ITS Joint Program Office to improve safety at both public and private grade crossings.

Positive train control.—The conferees direct FRA to submit an updated economic analysis of the costs and benefits of positive train control and related systems that takes into account advances in technology and system savings to carriers and shippers as well as other cost savings related to prioritized deployment of these systems, as proposed by the Senate. This analysis must be submitted

as a letter report to the House and Senate Committees on Appropriations by October 1, 2003.

Safety assurance and compliance program (SACP).—By April 1, 2003, FRA must provide a status report on the utilization of the safety assurance and compliance program, which summarizes the SACP activities in fiscal year 2002 and the agency's audit plans for fiscal year 2003 as proposed by the Senate.

Railroad threat assessment.—The conferees are concerned over the targeting of railroad facilities, structures, terminals and operations posed by terrorist entities and urge the FRA to work with the new Department of Homeland Security and the Association of American Railroads to develop a comprehensive assessment of the threats and vulnerabilities nationwide, and identify ways to enhance passenger safety and infrastructure protection.

RAILROAD RESEARCH AND DEVELOPMENT

The conference agreement provides \$29,325,000 for railroad research and development as proposed by the Senate instead of \$27,325,000 as proposed by the House. None of this funding is to be offset from user fees.

Integrated railway remote information service.—The conference agreement does not provide any funding for the integrated railway remote information service proposed by the Senate. Last year funding was provided for this program; however, FRA was directed to evaluate this initiative before additional funding was provided. To date, no evaluation has been conducted.

Marshall University/University of Nebraska.—The conference agreement includes \$1,400,000 to support Marshall University and the University of Nebraska to conduct safety studies in any of the following areas: track and structures, human factors, equipment, train control, grade crossing and digital communications.

Transportation Technology Center.—The conference agreement provides a total of \$675,000 for site improvements at the Transportation Technology Center, as proposed by the House.

Freight congestion study.—The conferees direct FRA to work with the Chicago Transportation Coordination Office and communities in the Chicago region consistent with the Senate's explanatory statement of January 15, 2003. Reports must be submitted quarterly to the House and Senate Committees on Appropriations.

RAILROAD REHABILITATION AND IMPROVEMENT PROGRAM

The conference agreement includes a provision, proposed by both the House and the Senate, specifying that no new direct loans or loan guarantee commitments shall be made using federal funds for the payment of any credit premium amounts during fiscal year 2003. No federal appropriation is required since a non-federal infrastructure partner may contribute the subsidy amount required by the Credit Reform Act of 1990 in the form of a credit risk premium. Once received, statutorily established investigation charges are immediately available for appraisals and necessary determinations and findings.

The conference agreement includes a further provision mandating that no payment of principal or interest shall be collected

during fiscal year 2003 for the direct loan made to the National Railroad Passenger Corporation.

NEXT GENERATION HIGH-SPEED RAIL

The conference agreement provides \$30,450,000 for the next generation high-speed rail program as proposed by the House instead of \$30,000,000 as proposed by the Senate. The following table summarizes the conference agreement by budgetary activity:

Train control systems	\$6,500,000
Non-electric locomotives	9,300,000
ALPS	(1,800,000)
Prototype locomotive	(3,000,000)
Diesel multiple units compliance and demonstration	(4,000,000)
Grade crossings and innovative technologies:	3,250,000
N.C. sealed corridor	(500,000)
Illinois rail grade crossing safety program	(500,000)
State of Vermont hazard elimination	(250,000)
Mitigating hazards and low-cost technologies	(2,000,000)
Track and structures	1,000,000
Corridor planning activities	5,900,000
California corridor	(1,250,000)
Gulf Coast corridor	(800,000)
Southeast corridor	(500,000)
Florida corridor	(2,150,000)
Seattle to Everett corridor	(750,000)
Las Vegas to Los Angeles high-speed rail study	(200,000)
Northern New England corridor, VT	(250,000)
Magnetic levitation	4,500,000
Washington-Baltimore	(500,000)
Nevada-California	(1,500,000)
Greensburg-Pittsburgh	(2,000,000)
Southern California	(500,000)
Total	\$30,450,000

Diesel multiple units.—The conference agreement provides \$4,000,000 to validate the compliance of diesel multiple units with existing passenger car safety standards and to make a grant to a public body for the purpose of initiating a demonstration in daily revenue service of a compliant DMU during calendar years 2003 and 2004. Federal funding shall only be made available if funds are matched on a dollar-for-dollar basis from non-federal sources and shall only be used for activities related to establishing the compliance of the DMU design with passenger safety standards and for the acquisition of DMUs (through a conventional competitive procurement process) and service facilities necessary for revenue service demonstration. All other expenses, including the cost of passenger facilities and any net operating expenses are not eligible for funding under this appropriation.

State of California.—Funds made available for high-speed rail in California should supplement, not replace, state funding for this same program.

Rail-highway crossing hazard eliminations.—Under section 1103 of TEA21, an automatic set-aside of \$5,250,000 is made available each year for the elimination of rail-highway crossing hazards. A limited number of rail corridors are eligible for these funds. Of these set-aside funds, the following allocations are made:

High-speed rail corridor between Mobile, AL and New Orleans, LA	<i>Conference</i> \$1,800,000
---	----------------------------------

Pacific Northwest high-speed rail corridor	<i>Conference</i> 1,000,000
High-speed rail corridor between New York City and Albany, NY	850,000
High-speed rail corridor in South Carolina	500,000
High-speed rail corridor between Milwaukee and LaCrosse, WI	450,000
High-speed rail corridor between Staples Mill Station and Main Street Station in Richmond, VA	200,000
High-speed rail corridor between Minneapolis/St. Paul, MN and Chicago, IL (TEA21)	250,000
High-speed rail corridor between Chicago, IL and St. Louis, MO	200,000

ALASKA RAILROAD REHABILITATION

The conference agreement provides \$22,000,000 for the Alaska Railroad instead of \$25,000,000 as proposed by the Senate. The House bill contained no similar appropriation.

GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

The conference agreement provides \$1,050,000,000 for grants to the National Railroad Passenger Corporation (Amtrak) instead of \$762,476,000 as proposed by the House and \$1,200,000,000 as proposed by the Senate. Within these funds: \$522,000,000 shall be for operating expenses; \$295,000,000 shall be for capital expenses along the Northeast Corridor Mainline; and \$233,000,000 shall be for general capital improvements. Funding is provided to the Secretary of Transportation, who shall allocate these funds quarterly through the grant making process. Funding is available until September 30, 2003.

The Secretary of Transportation shall approve funding to cover operating losses on a long distance train of the National Railroad Passenger Corporation only after receiving and reviewing a grant request for each specific train route. Each request must be accompanied by detailed financial analysis and revenue projections justifying federal support. Language, proposed by the House, that limited operating expenses of long distance trains to \$150,000,000, has been deleted.

The Secretary of Transportation and Amtrak's Board of Directors shall ensure that sufficient funds are reserved to satisfy the Railroad's contractual obligations with commuter and intercity passenger rail service.

The conference agreement slightly modifies a number of reporting requirements proposed by the House. These requirements include directing Amtrak to transmit to the House and Senate Committees on Appropriations and the Secretary of Transportation capital and operating plans, which must be used as the base for expenditures in 2003. Funding may not be spent on projects not included on the business plan. Beginning on June 1, 2003, Amtrak shall submit supplemental reports regarding the changes to the business plan and a justification for such changes.

The conferees recognize that Amtrak has the authority to transfer capital funds for operating expenses, such as progressive overhauls, preventive maintenance, and maintenance of way activities. This permission was granted in 1999. However, the conferees expect that the Secretary of Transportation shall notify the House and Senate Committees on Appropriations of any such transfer of

capital funds to eligible operating expenses over and above those stipulated in the original business plan.

As proposed by the House, the Secretary is prohibited from obligating or expending any funds until Amtrak agrees to continue abiding by certain direct loan provisions as agreed to on June 28, 2002. Included in these provisions is a requirement for Amtrak to identify \$100,000,000 in cost savings options.

Accuracy of financial information.—The Secretary of Transportation must vouch for the accuracy of financial information that Amtrak provides to Congress. This must be in the form of a signed letter that would accompany the operating and capital plans. In doing so, the Secretary must certify in writing, that based on his knowledge, the financial statements and other financial information prepared by Amtrak for Congress fairly presents in all material respects the financial condition of the Corporation. Specific requirements are discussed in the House report.

Reprogramming guidelines.—As detailed in the House report, Amtrak must abide by the Department's reprogramming guidelines. However, the conferees are willing to provide Amtrak flexibility for increases and decreases in their operating and capital plans of under \$10,000,000 without submitting a reprogramming request.

Short distance trains.—Amtrak shall establish a more uniform methodology for cost sharing on short distance routes. To do so, Amtrak should analyze current state funding for operating expenses and capital improvements, review the contractual terms under which this funding is provided, and consult with states served by these routes to establish new cost sharing procedures and increase state support on these routes. Amtrak shall report to the House and Senate Committees on Appropriations on the status of these efforts by April 1, 2003.

Cost of long distance trains.—The conferees direct Amtrak to report on the measures it undertakes, beginning in fiscal year 2003, to reduce the financial burden of long distance trains on the federal treasury. This report should include specific estimates of cost savings to be achieved in 2003 and over a five-year period. This report is due to the House and Senate Committees on Appropriations no later than April 1, 2003.

FEDERAL TRANSIT ADMINISTRATION

ADMINISTRATIVE EXPENSES

The conference agreement provides \$73,000,000 for administrative expenses of the Federal Transit Administration as proposed by both the House and the Senate. Within the total, the conference agreement appropriates \$14,600,000 from the general fund.

The conference agreement includes a provision, contained in both bills, that would reimburse the Department of Transportation's Inspector General \$2,000,000 for costs associated with audits and investigations of transit-related issues. The conference agreement also includes a provision that limits the amount of funding available for the National transit database to \$2,600,000.

Full-time equivalent staff.—The conference agreement approves the budget request for 12 new staff; however, funding has

been reduced for these positions by \$549,000. The reduction reflects half-year funding for these new positions, which is consistent with hiring practices in other modes and by FTA last year.

FECA administrative costs.—The conference agreement deletes \$15,000 proposed in the budget for FECA administrative costs. This action is consistent across all modal administrations.

Project and financial management oversight activities.—The conferees direct that savings from funding new staff positions at a half-year level and the denial of FECA administrative costs should be used to increase funding for project and financial management oversight activities (+\$564,000). The conferees further direct that the FTA submit to the House and Senate Committees on Appropriations, the Inspector General and the General Accounting Office the quarterly FMO and PMO reports for each project with a full funding grant agreement.

Full funding grant agreements (FFGAs).—TEA21, as amended, requires that the FTA notify the House and Senate Committees on Appropriations as well as the House Committee on Transportation and Infrastructure and the Senate Committee on Banking 60 days before executing a full funding grant agreement. In its notification to the House and Senate Committees on Appropriations, the conferees direct the FTA to include therein the following: (a) a copy of the proposed full funding grant agreement; (b) the total and annual federal appropriations required for that project; (c) yearly and total federal appropriations that can be reasonably planned or anticipated for future FFGAs for each fiscal year through 2004; (d) a detailed analysis of annual commitments for current and anticipated FFGAs against the program authorization; and (e) a financial analysis of the project's cost and sponsor's ability to finance, which shall be conducted by an independent examiner and shall include an assessment of the capital cost estimate and the finance plan; the source and security of all public- and private-sector financial instruments, the project's operating plan which enumerates the project's future revenue and ridership forecasts, and planned contingencies and risks associated with the project.

The conferees also direct the FTA to inform the House and Senate Committees on Appropriations before approving scope changes in any full funding grant agreement. Correspondence relating to scope changes shall include any budget revisions or program changes that materially alter the project as originally stipulated in the full funding grant agreement, and shall include any proposed change in rail car procurements.

FORMULA GRANTS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides a total program level of \$3,839,000,000 for transit formula grants, as proposed by both the House and the Senate. Within this total, the conference agreement appropriates \$767,800,000 from the general fund. The general fund appropriation shall be available until expended.

The conference agreement provides that funding made available under the clean fuels formula grant program under this heading shall be transferred to and merged with funding provided for

the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities under "Federal Transit Administration, Capital investment grants".

Distribution of formula funding.—Within the total funding level, the conferees anticipate that formula grants will be distributed as follows:

Urbanized area formula (sec. 5307)	\$3,428,709,908
Elderly and individuals with disabilities (sec. 5310)	90,652,801
Nonurbanized area formula (sec. 5311)	239,404,605
Clean fuels programs (sec. 5308)	50,000,000
Alaska Railroad ¹	4,850,000
Over-the-road bus accessibility	6,950,000
Oversight	18,432,736

¹ Includes \$24,300 for oversight activities.

Within the funding provided for the over-the-road bus accessibility program: \$5,250,000 for intercity fixed route projects and the remainder is to be made available for other services, such as local fixed route service, commuter service and charter service.

Salaries and benefits.—No funds herein appropriated may be used by the New York Metropolitan Transit Authority, any affiliated agency or entity to pay either salary, benefits, or expenses to the elected or appointed officers of the Association of Commuter Rail Employees.

UNIVERSITY TRANSPORTATION RESEARCH

The conference agreement provides a total of \$6,000,000 for the university transportation research program as proposed by both the House and the Senate. Of this amount, \$1,200,000 is from the general fund and shall be available until expended.

TRANSIT PLANNING AND RESEARCH

The conference agreement provides a total of \$122,000,000 for transit planning and research, as proposed by both the House and the Senate. Within the total, the conference agreement appropriates \$24,200,000 from the general fund. The general fund appropriation shall be available until expended.

Within the funds appropriated for transit planning and research, \$5,250,000 is provided for rural transportation assistance; \$4,000,000 is provided for the National Transit Institute; \$8,250,000 is provided for the transit cooperative research program; \$60,385,600 is provided for metropolitan planning; \$12,614,400 is provided for state planning; and \$31,500,000 is provided for the national planning and research program.

National planning and research.—Within the funding provided for national planning and research, the Federal Transit Administration shall make available the following amounts for the programs and activities listed below:

Project Action (TEA-21)	\$3,000,000
Calstart/Weststart bus rapid transit	1,000,000
Clean mobility and transit enhancements	2,000,000
Electric Transit Vehicle Institute, TN	500,000
University of South Florida for urban transit research	250,000
Santa Barbara Electric Transit Institute, CA	425,000
Hennepin County community transportation, MN	1,000,000
Joblinks/Community Transportation Association	500,000

North Dakota transit center	400,000
PVTA electric bus project, MA	750,000
Auburn University campus transit system, AL	375,000
Center for Composites Manufacturing, AL	900,000
Detroit airport rail project, MI	200,000
Detroit area regional transportation authority studies, MI	350,000
National bio-terrorism civilian medical response center, PA	750,000
Rich Passage passenger ferry project, WA	800,000
Rockford-Belvidere transit feasibility study, IL	200,000
Transit usage, home interview survey study, UT	300,000
Washington state ferries wireless connection project, WA	800,000
WVU exhaust emissions testing, WV	1,000,000
Zinc-air zero emission bus, NV	750,000
National deployment of ITN America, ME	300,000

TRUST FUND SHARE OF EXPENSES

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

The conference agreement provides \$5,781,000,000 in liquidating cash for the trust fund share of transit expenses as proposed by both the House and the Senate.

CAPITAL INVESTMENT GRANTS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides a total program level of \$3,036,000,000 to remain available until expended for capital investment grants as proposed by the House and the Senate. Within the total, the conference agreement appropriates \$607,200,000 from the general fund as proposed by both the House and the Senate.

Within the total program level, \$1,214,400,000 is provided for fixed guideway modernization; \$607,200,000 is provided for the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities; and \$1,214,400,000 is provided for new fixed guideway systems.

In addition to the \$607,200,000 for buses, the conference agreement transfers \$50,000,000 from formula funds to capital investment grants for the replacement, rehabilitation, and purchase of buses and related equipment and for the construction of bus-related facilities, as proposed by the House. The Senate also proposed the transfer of \$50,000,000; however, the bill language was slightly different.

In the new fixed guideway program, the conference agreement supplements the \$1,214,400,000 provided in this Act by transferring \$45,000,000 from the job access and reverse commute grant program to the capital investment grant program. The Senate proposed a transfer of \$25,000,000 whereas the House had no similar bill language. In addition, the conference agreement transfers all in unobligated 1999 job access and reverse commute program funds to capital investment grants and makes this funding available for new fixed guideway systems.

Three year availability of section 5309 discretionary funds.—The conferees direct the FTA to reprogram funds from recoveries and previous appropriations that remain available after three years and are available for reallocation to only those new starts that

have full funding grant agreements in place on the date of enactment of this Act, and with respect to bus and bus facilities, only to those bus and bus facilities projects identified in the accompanying reports of the fiscal year 2003 Department of Transportation and Related Agencies Appropriations Act. The FTA shall notify the House and Senate Committees on Appropriations 15 days prior to any such proposed reallocation. The conferees, however, direct the FTA not to reallocate funds provided in the 1998, 1999, and 2000 Department of Transportation and Related Agencies Appropriations Acts for the following projects:

Washington County intermodal facilities, buses, and bus facilities, 2000

Foothills Transit, California buses and HEV vehicles, 2000

Chatham, Georgia area transit buses and transfer center, 2000

Fair Lakes league, Virginia, 2000

Dulles Corridor, Virginia park-and-ride express bus program, 2000

Fayette County, Pennsylvania intermodal parking facility, 2000

Swampscott, Massachusetts buses, 2000

Ithaca, New York intermodal transportation center, 2000

Wilkes Barre, Pennsylvania intermodal facility, 1998, 1999, 2000

Dulles, Virginia corridor project, 2000

Kenosha-Racine-Milwaukee, Wisconsin rail extension project, 2000

Roaring Fork Valley, Colorado project, 2000

Twin Cities, Minnesota, Transitways project, 2000

Altamont, California commuter rail project, 2000

Santa Fe/El Dorado, New Mexico rail link project

Albuquerque, New Mexico light rail project

Tuscaloosa, Alabama intermodal center

Northern New Mexico park and ride facilities

State of New Mexico buses and bus-related facilities

Birmingham, Alabama transit corridor project

Harrisburg, Pennsylvania Capital Area Transit/Corridor One commuter rail project

Charleston, South Carolina monobeam corridor project

King County, Washington park and ride expansion

Sequim, Washington-Clallam Transit multimodal center

Birmingham-Jefferson County, Alabama buses

Roaring Fork Transportation Authority, Colorado

Dothan Wiregrass, Alabama vehicles and transit facility

Jefferson/Montevallo, Alabama pedestrian walkway

Montgomery, Alabama Union Station intermodal center

Pritchard, Alabama bus transfer center

West Virginia statewide intermodal facility and buses

Port Mackenzie/Upper Cook Inlet intermodal facility

The conferees agree that when the Congress extends the availability of funds that remain unobligated after three years and would otherwise be available for reallocation at the discretion of the administrator, such funds are extended only for one additional year, absent further congressional direction.

Bus and bus facilities.—The conference agreement provides \$607,200,000, together with \$50,000,000 transferred from “Federal Transit Administration, formula grants” and merged with funding under this heading, for the replacement, rehabilitation and purchase of buses and related equipment and the construction of bus-related facilities. No funding in this Act is made available to carry out the clean fuels program. In addition, funds made available for bus and bus facilities are to be supplemented with \$4,567,156 from the following projects included in previous appropriations Acts:

Essex Junction, Vermont multimodal station	\$490,547
Towamencin Township, Pennsylvania intermodal center (1999)	1,488,750
Towamencin Township, Pennsylvania intermodal center (2000)	1,471,643
Folsom, California multimodal facility	992,500
Georgetown University fuel cell program	123,716

Funds provided for buses and bus facilities are distributed as follows:

<i>Project Name</i>	<i>Conference total</i>
Alabama:	
Alabama A&M University bus & bus facilities	\$500,000
Alabama State Docks Intermodal Facility	8,000,000
Alabama Statewide Replacement of Senior Center Vans	1,000,000

Bevill State Community College.—Funding provided to Bevill State Community College may also be made available to Jasper, Alabama.

Dulles Corridor park and ride.—Funds provided in fiscal year 2000 for the Dulles Corridor park and ride shall also be made available for the Reston East park and ride project in Virginia.

Fort Worth intermodal center park and ride.—Funding provided in fiscal year 2002 for the Fort Worth intermodal center park and ride facility shall be used to facilitate the finish out of the intermodal connections into downtown Fort Worth and to enhance the linkage of the TRE with the T's bus operation and park and ride elements occurring at two sites: the ITC (and geographically related areas like the 7th Street parking lot and Alarm Supply Building) and a larger facility at the Texas and Pacific Station.

State of Illinois.—Within the funding provided to the State of Illinois, \$1,000,000 shall be for the refurbishment of the Dan Ryan station.

Ithaca, New York.—Funds made available in fiscal year 2000 to the Ithaca intermodal transportation center shall also be made available for the Binghamton intermodal transportation center.

Kansas buses.—Funding provided for Wyandotte County buses and Kansas City joblinks in fiscal year 2001 shall be made available to the Unified Government of Wyandotte County/Kansas City.

Commonwealth of Kentucky.—The conference agreement provides \$7,500,000 for bus and bus facilities needs statewide. Of this funding, \$4,000,000 shall be provided to southern and eastern Kentucky. The remainder shall be allocated to: Bluegrass Community Action Services, City of Frankfort, Kentucky Foothills Development Council, Community Action Council of Fayette/Lexington, Lex-

ington Red Cross, East Kentucky Independent Service Organization, and Lexington Transit Authority.

State of Michigan.—Within the funding provided, the state should strongly consider requests from Alger County, Charlevoix County, Delta Area Transit Authority, Houghton, Ontonogon County, City of Sault Ste. Marie, and Schoolcraft County.

Mt. Sinai intermodal center.—Funding provided to the Mt. Sinai intermodal center in fiscal year 1992 shall also be made available to the Miami Beach intermodal facility in Florida.

Plaquemines Parish ferry.—Funds provided in fiscal year 2001 for Louisiana's Plaquemines Parish Ferry shall also be made available to the New Orleans Regional Planning Commission for vans, buses and related facility construction in Plaquemines, St. Bernard, St. John and St. Charles parishes.

State of Ohio.—Within the funds provided, the state should strongly consider requests from Kent, and the East Side transit center.

Sierra Madre Villa intermodal center.—Funding provided for the Sierra Madre Villa intermodal center in fiscal year 2002 shall also be made available to the Los Angeles County Metropolitan Transportation Authority (LACMTA) for bus and bus related facilities in the LACMTA's service area.

Swampscott buses.—Funding provided for the Swampscott buses in fiscal year 2000 may also be made available to Lynnfield, Massachusetts to replace buses.

Tompkins consolidated transit center, NY.—Funds made available in fiscal year 2002 for the Tompkins consolidated area transit center shall be made available for the City of Middletown buses and bus facilities (\$320,000) and City of Kingston buses (\$240,000), and the remainder shall be made available for Tompkins County bus and bus facilities.

Tompkins County intermodal facility.—Funds made available in fiscal year 2001 for the Tompkins County intermodal facility shall also be made available for the Ulster County, New York rural bus garage.

State of Washington.—Of the \$2,140,000 provided to the small bus system program of projects in the State of Washington: \$432,000 is for Grant Transit Authority, \$144,000 is for Grays Harbor Transportation, \$288,000 is for Island Transit, \$96,000 is for Pacific Transit, and \$1,180,000 is for Pullman Transit.

New fixed guideway systems.—In total, the conference agreement provides \$1,260,415,648 for new fixed guideway systems, of which \$1,214,400,000 is from new appropriations, \$45,000,000 is from funds transferred from the access to jobs and reverse commute grant program, and \$1,015,648 is from unobligated funds provided under Public Law 105-277 under the job access and reverse commute grant program.

Houston.—With regard to Full Funding Grant Agreement TX-03-0119 the Secretary shall remove "Steubner Airline Park and Ride" from the agreement and insert "Barker Cypress Park and Ride, Fuqua Park and Ride and Clear Lake Park and Ride."

Miami-Dade transit metromover stage I.—The conference agreement permits FTA to reprogram \$5,384,000 in new starts

funds, originally obligated for the Miami-Dade transit metromover stage I project, to the Metrorail Palmetto extension project.

The conference agreement provides for the following distribution of the recommended funding for new fixed guideway systems as follows:

<i>Project Name</i>	<i>Conference</i>

JOB ACCESS AND REVERSE COMMUTE GRANTS

The conference agreement includes a total program level of \$150,000,000 for the job access and reverse commute grants as proposed by both the House and the Senate. Within this total, \$30,000,000 is derived from the general fund. The conference agreement includes a provision that waives the cap for small urban and rural areas and provides that up to \$300,000 of the funds appropriated under this heading may be used for technical assistance, technical support, and performance reviews of the job access and reverse commute grants program.

Of the total funding provided to the job access and reverse commute grants program, \$45,000,000 has been transferred to the capital investment grants program instead of a transfer of \$25,000,000 as proposed by the Senate. The House bill proposed no similar transfer. In addition, bill language has been included that transfers the 1999 unobligated balances from this program to the capital investment grants program.

Southeast Missouri Council.—Funding provided for fiscal year 2002 for the Southeast Missouri Council shall also be made available to the Mid-American Regional Council in Kansas City, Missouri.

Funds appropriated for the job access and reverse commute grants program are to be distributed as follows:

<i>Project Name</i>	<i>Conference Total</i>
Alaska:	
Alaska Mobility Coalition	\$500,000

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

OPERATIONS AND MAINTENANCE

(HARBOR MAINTENANCE TRUST FUND)

The conference agreement appropriates \$14,086,000 for operations and maintenance of the Saint Lawrence Seaway Development Corporation.

Security.—The conferees applaud the initial security efforts of the corporation and encourage the corporation to continue the development of a high risk vessel assessment protocol with assistance from the U.S. Coast Guard and Transportation Security Administration.

FECA administrative costs.—The conferees have denied funding proposed in the budget for FECA administrative costs. This is consistent with actions taken DOT-wide.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION

RESEARCH AND SPECIAL PROGRAMS

The conference agreement appropriates \$40,980,000 for research and special programs instead of \$40,677,000 as proposed by the House and \$43,725,000 as proposed by the Senate. Within this total, \$3,250,000 is available until September 30, 2005, as proposed by the House, instead of \$3,342,000 as proposed by the Senate. The following adjustments are made to the budget estimate:

Reduce funding for prior year budget decisions	-\$265,000
Reduce funding for emergency transportation detailee	-107,000
Reduce funding for new program support decisions	-790,000
Reduce funding for new IT infrastructure	-2,239,000
Reduce funding for FECA administrative costs	-3,000

The conference agreement permits up to \$1,200,000 in fees be collected and deposited in the general fund of the Treasury as offsetting receipts. Also, the conference agreement includes language that permits funds received from states, counties, municipalities, other public authorities and private sources for expenses incurred for training, reports publication and dissemination, and travel expenses incurred in the performance of hazardous materials exemptions and approval functions. The House and Senate proposed both of these provisions.

Prior year funding decisions.—The budget included \$265,000 for reimbursement of salary and administrative funding that Congress did not provide in the fiscal year 2002 appropriations Act. The conference agreement deletes funding for this purpose, as proposed by the House.

New positions.—The budget requested a total of fourteen new positions for RSPA's information management program. The conference agreement has provided a total of two of these new positions, one security officer and one network administrator/computer analyst, as proposed by the House.

Emergency transportation detailee.—RSPA requested \$100,000 to pay for an existing detailee position from the Department of Defense to serve as a liaison officer in the office of emergency transportation. Because this position is filled by an employee of the Department of Defense, not RSPA, and detailees are customarily paid for by the sponsoring department, the conferees delete funding for this purpose, as proposed by the House. An additional \$7,000 is also denied for FECA-related costs.

Information technology infrastructure.—The conference agreement has reduced funding by \$2,239,000 from the request for computer infrastructure, for a total funding level of \$1,500,000, as proposed by the House. The conferees direct RSPA to focus its information technology investment funding on safety and security related mission critical areas, such as pipeline safety and hazardous materials areas, as well as on addressing the internal and external computer-related security threats identified by the March 2002 security posture assessment report.

The conference committee further directs that no additional funds shall be expended for consulting costs for RSPA's business modernization initiative until a new Strategic Information Technology Plan is submitted, as proposed by the Senate. Further, RSPA shall provide this new Strategic Information Technology Plan, of no more than fifteen pages, to the House and Senate Committees on Appropriations by May 15, 2003, also proposed by the Senate. The report should identify a detailed infrastructure spending plan, including an itemization of resources and the sequence in which RSPA addresses security and infrastructure needs.

Operation Respond.—The conferees agree to provide an additional \$1,500,000 to further accelerate the establishment of a national first responder emergency services network. Funds should be used for pilot programs at the Ports of Los Angeles and Long Beach, California, the Port of New York/New Jersey, the Port of Mobile, Alabama, and the Port of Valdez, Alaska, to provide chemical content verification and response information for containers entering and exiting ports. Within the funds provided, Operation Respond is also expected to address the unique security concerns of rural America by developing model first responder deployment programs in Eastern Kentucky.

FECA benefits.—The conference agreement has reduced funding by \$3,200 from the budget request for workers compensation administrative costs, as proposed by the House.

User fees.—The conferees disagree with the budget request to begin funding the hazardous materials safety program from user fees, as proposed by both the House and Senate, and deny this request.

PIPELINE SAFETY

(PIPELINE SAFETY FUND)

(OIL SPILL LIABILITY TRUST FUND)

The conference agreement provides a total of \$63,842,000 for the pipeline safety program, instead of \$58,697,000 as proposed by the House and \$63,857,000 as proposed by the Senate. Within this total, \$24,823,000 is available until September 30, 2005, as proposed by the Senate, instead of \$22,786,000 as proposed by the House.

Of this total, the conference agreement specifies that [\$7,472,000] shall be derived from the Oil Spill Liability Trust Fund and [\$56,370,000] from the Pipeline Safety Fund. The House bill allocated \$7,472,000 from the Oil Spill Liability Trust Fund and \$51,225,000 from the Pipeline Safety Trust Fund. The Senate bill provided \$7,472,000 from the Oil Spill Liability Trust Fund and \$56,385,000 from the Pipeline Safety Fund. The following adjustments are made to the budget estimate:

Reduce funding for FECA administrative costs	-15,000
--	---------

Research and development.—Within the funds provided, \$600,000 shall be used for airborne environmental laser mapping technology research and engineering to support improved leak detection, analysis, and response by federal, state, and industry pipeline safety officials.

FECA benefits.—The conference agreement has reduced funding by \$15,000 from the budget request for workers compensation administrative costs, as proposed by the House.

EMERGENCY PREPAREDNESS GRANTS

(EMERGENCY PREPAREDNESS FUND)

The conference agreement provides \$200,000 for emergency preparedness grants as proposed by both the House and the Senate. The conference agreement includes a limitation on obligations of \$14,300,000, consistent with both the House and Senate proposals.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The conference agreement includes \$57,421,000 for the office of inspector general, as proposed by the House and Senate.

SURFACE TRANSPORTATION BOARD

SALARIES AND EXPENSES

The conference agreement provides a funding level of \$19,450,000 for the Surface Transportation Board to fund salaries and expenses from a direct appropriation, as proposed by the House. The conference agreement includes language as proposed by both the House and the Senate that allows the Board to offset \$1,000,000 of its appropriation from fees collected during the fiscal year, for a total program level of \$18,450,000.

FECA administrative costs.—The conference agreement has reduced funding by \$9,100 from the budget request for workers compensation administrative costs, as proposed by the House.

Union Pacific/Southern Pacific merger.—On December 12, 1997, the Board granted a joint request of Union Pacific Railroad Company and the City of Wichita and Sedgwick County, KS (Wichita/Sedgwick) to toll the 18-month mitigation study pending in Finance Docket No. 32760. The decision indicated that at such time as the parties reach agreement or discontinue negotiations, the Board would take appropriate action.

By petition filed June 26, 1998, Wichita/Sedgwick and UP/SP indicated that they had entered into an agreement, and jointly petitioned the Board to impose the agreement as a condition of the Board's approval of the UP/SP merger. By decision dated July 8, 1998, the Board agreed and imposed the agreement as a condition to the UP/SP merger. The terms of the negotiated agreement remain in effect. If UP/SP or any of its divisions or subsidiaries materially changes or is unable to achieve the assumptions on which the Board based its final environmental mitigation measures, then the Board should reopen Finance Docket 32760 if requested by interested parties, and prescribe additional mitigation properly reflecting these changes if shown to be appropriate.

TITLE II—RELATED AGENCIES

ARCHITECTURAL AND TRANSPORTATION BARRIERS

COMPLIANCE BOARD

SALARIES AND EXPENSES

The conference agreement appropriates \$5,194,000 for salaries and expenses of the Architectural and Transportation Barriers Compliance Board as proposed by both the House and the Senate.

FECA administrative costs.—The conferees have denied funding proposed in the budget for FECA administrative costs. This is consistent with actions taken DOT-wide.

NATIONAL TRANSPORTATION SAFETY BOARD

SALARIES AND EXPENSES

The conference agreement appropriates \$72,450,000 for the salaries and expenses of the National Transportation Safety Board instead of \$71,270,000 as proposed by the House and \$72,500,000 as proposed by the Senate. This funding level is \$1,970,000 above the budget request and shall be used to annualize 25 new positions, pay for true overtime costs for investigators, and implement financial management control initiatives that were recommended by an audit firm. No funding has been provided for FECA administrative costs.

TITLE III

GENERAL PROVISIONS

Sec. 301 allows funds for aircraft; motor vehicles; liability insurance; uniforms; or allowances, as authorized by law as proposed by both the House and Senate.

Sec. 302 requires pay raises to be funded within appropriated levels in this Act or previous appropriations Acts as proposed by both the House and Senate.

Sec. 303 limits appropriations for services authorized by 5 U.S.C. 3109 to the rate for an Executive Level IV as proposed by both the House and Senate.

Sec. 304 prohibits funds in this Act for salaries and expenses of more than 106 political and Presidential appointees in the Department of Transportation, instead of 107 as proposed by the House and 105 as proposed by the Senate. Sec. 304 also includes a provision that prohibits political and Presidential personnel to be assigned on temporary detail outside the Department of Transportation or an independent agency funded in this Act as proposed by the House. The Senate proposed no similar provision.

Sec. 305 prohibits pay and other expenses for non-Federal parties in regulatory or adjudicatory proceedings funded in this Act as proposed by both the House and Senate.

Sec. 306 prohibits obligations beyond the current fiscal year and prohibits transfers of funds unless expressly so provided herein as proposed by both the House and Senate.

Sec. 307 limits consulting service expenditures of public record in procurement contracts as proposed by both the House and Senate.

Sec. 308 prohibits funds for the National Highway Safety Advisory Commission as proposed by both the House and Senate.

Sec. 309 exempts previously made transit obligations from limitations on obligations as proposed by both the House and Senate.

Sec. 310 modifies the distribution of the Federal-aid highway program proposed by the Senate. The House proposed no similar provision.

Sec. 311 prohibits recipients of funds made available in this Act to release personal information, including a social security number, medical or disability information, and photographs from a driver's license or motor vehicle record without express consent of the person to whom such information pertains; and prohibits the Secretary from withholding funds provided in this Act for any grantee if a state is in noncompliance with this provision as proposed by both the House and Senate.

Sec. 312 prohibits funds to establish a vessel traffic safety fairway less than five miles wide between Santa Barbara and San Francisco traffic separation schemes as proposed by both the House and Senate.

Sec. 313 allows airports to transfer to the Federal Aviation Administration instrument landing systems as proposed by both the House and Senate.

Sec. 314 allows funds for discretionary grants of the Federal Transit Administration for specific projects, except for fixed guideway modernization projects, not obligated by September 30, 2005, and other recoveries to be used for other projects under 49 U.S.C. 5309 as proposed by both the House and Senate.

Sec. 315 allows transit funds appropriated before October 1, 2002, that remain available for expenditure to be transferred as proposed by both the House and Senate.

Sec. 316 prohibits funds to compensate in excess of 350 technical staff years under the federally funded research and development center contract between the Federal Aviation Administration and the Center for Advanced Aviation Systems Development as proposed by the House. The Senate included no similar provision.

Sec. 317 provides funding of administrative expenses for the Federal Motor Carrier Safety Administration and the Federal Highway Administration.

Sec. 318 allows funds received by the Federal Highway Administration, Federal Transit Administration, and the Federal Railroad Administration from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training may be credited to each agency's respective accounts as proposed by both the House and Senate.

Sec. 319 allows funds made available for Alaska or Hawaii ferry boats or ferry terminal facilities to be used to construct new vessels and facilities or to improve existing vessels and facilities, and for repair facilities as proposed by the Senate. Sec. 319 also includes a provision proposed by the Senate that allows not more than \$3,000,000 of the funds made available for ferry boats to be used by the State of Hawaii to initiate and operate a passenger fer-

ryboat services demonstration project and waives U.S.C. 5302(a)(7). The House contained no similar provision.

Sec. 320 allows funds received by the Bureau of Transportation Statistics to be subject to the obligation limitation for Federal-aid highways and highway safety construction as proposed by both the House and Senate.

Sec. 321 exempts a general aviation airport with more than 300,000 annual operations from having to accept scheduled passenger service provided that the airport meets specific conditions, as proposed by the Senate. The House included no similar provision.

Sec. 322 prohibits the use of funds in this Act for activities designed to influence Congress or a state legislature on legislation or appropriations except through proper, official channels as proposed by both the House and Senate.

Sec. 323 permits funds from Public Law 106-69 and Public Law 106-346 for the Wilmington, Delaware, downtown corridor project to be available for Wilmington, Delaware, commuter rail improvements, as proposed by both the House and Senate. In addition, Section 323 permits funds from Public Law 106-346 for Missoula Ravalli Transportation Management Administration buses to be available for Missoula Ravalli Transportation Management Administration buses and bus facilities, as proposed by the Senate.

Sec. 324 requires compliance with the Buy American Act as proposed by the Senate. The House included no similar provision.

Sec. 325 transfers the operation and maintenance of the localizer instrument landing system at Walnut Ridge Regional Airport, Arkansas, to the Federal Aviation Administration, as proposed by the Senate. The House included no similar provision.

Sec. 326 transfers the operation and maintenance of the air traffic control tower at Williams Gateway Airport, Arizona, to the Federal Aviation Administration, as proposed by both the House and the Senate.

Sec. 327 is a provision regarding a highway in Alaska, as proposed by the Senate. The House included no similar provision.

Sec. 328 authorizes the Secretary of Transportation to allow issuers of any preferred stock to redeem or repurchase preferred stock sold to the Department of Transportation as proposed by both the House and Senate.

Sec. 329 prohibits funds in this Act unless the Secretary notifies the House and Senate Committees on Appropriations not less than three full business days before any discretionary grant award, letter of intent, or full funding grant agreement totaling \$1,000,000 or more is announced by the department or its modal administration, and \$500,000 for the Transportation Security Administration, as proposed by both the House and Senate.

Sec. 330 appropriates \$90,600,000 to the Secretary of Transportation to make grants for surface transportation projects as proposed by the Senate.

Sec. 331 prohibits funds for engineering work related to an additional runway at New Orleans International Airport, as proposed by the House. The Senate proposed no similar provision.

Sec. 332 prohibits funds for the design or construction of a light rail system in Houston, Texas, as proposed by the House. The Senate proposed no similar provision.

Sec. 333 rescinds \$90,000,000 of funds provided in section 101(a)(2) of Public Law 107-42, as proposed by the Senate. The House included no similar provision.

Sec. 334 requires a National Academy of Sciences study regarding the shipment of spent nuclear fuel from research nuclear reactors, as proposed by the Senate. The House included no similar provision.

Sec. 335 prohibits funds in this Act to be used to adopt guidelines or regulations requiring airport sponsors to provide the Transportation Security Administration or the Federal Aviation Administration "without cost" buildings, maintenance, or space for TSA or FAA services as proposed by both the House and Senate. The prohibition does not apply to negotiations between TSA or FAA and airport sponsors concerning "below market" rates for such services or to grant assurances that require airport sponsors to provide land without cost to the FAA for air traffic control facilities.

Sec. 336 designates the city of Norman, Oklahoma, to be considered part of the Oklahoma City Transportation Management Area for fiscal year 2003, as proposed by both the House and the Senate.

Sec. 337 allows the FAA to accept funds from an airport sponsor for specific staffing purposes to expedite the environmental review process, as proposed by the Senate. The House included no similar provision.

Sec. 338 allows grants for the construction of an air traffic control tower and the acquisition or installation of equipment to be used in the tower at Double Eagle II Airport, New Mexico, as proposed by the Senate. The House contained no similar provision.

Sec. 339 allows States to use funds provided under section 402 of title 23, U.S.C. to produce and place highway safety public service messages related to seat belt usage and impaired driving. The provision allocates: \$10,000,000 for innovative seat belt projects under Section 157, \$10,000,000 for use by the States to purchase advertising for national mobilizations under Section 163, and \$1,000,000 for evaluation of alcohol-impaired driving program messages under Section 163. The House and Senate bills contained similar provisions.

Sec. 340 modifies a provision from the fiscal year 2002 appropriations Act regarding the Coast Guard Yard at Curtis Bay, Maryland, and other Coast Guard specialized facilities, as proposed by the Senate. The House proposed no similar provision.

Sec. 341 prohibits funds for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification as proposed by both the House and the Senate.

Sec. 342 prohibits funds from being used to issue, implement, or enforce a regulation that diminishes or revokes an exemption authorized under section 345 of the National Highway System Designation Act of 1995, as proposed by the House. The Senate included no similar provision.

Sec. 343 rescinds unexpended balances of the Local Rail Freight Assistance program of \$690,287 and makes \$690,287 available to the State of Iowa for a rail rehabilitation project on the Iowa Northern Railway.

Sec. 344 appropriates funding and enables the Secretary of Transportation to make grants for surface transportation projects.

Sec. 345 amends section 1602 of TEA-21 (112 Stat. 272) to allow changes to projects in Louisiana, Pennsylvania, New York, Alabama and Texas; authorizes an eligibility change for Alaska under FTA's section 5309 program; transfers funds in California and Texas contained in P.L. 103-331; amends P.L. 97-468 relating to the Alaska Railroad; and modifies agreements in California relating to the financing of toll roads, as proposed by the House. The Senate included no similar provisions.

Sec. 346 prohibits the Federal Motor Carrier Safety Administration from developing or implementing a pilot program to allow commercial drivers 18 to 20 years old to operate the trucks and buses of motor carriers in interstate commerce, as proposed by the House. The Senate included no similar provision.

Sec. 347 amends the Intermodal Surface Transportation Efficiency Act of 1991 to extend the exemption from the federal axle weight restrictions to include over-the-road buses, as proposed by both the House and the Senate.

Sec. 348 extends a provision from the fiscal year 2002 appropriations Act regarding the safety of cross-border trucking between the United States and Mexico, including the annual report on the

safety and security of Mexico-domiciled motor carriers operating in the United States, as proposed by the House. The Senate included a similar provision.

Sec. 349 prohibits funds in this Act from being transferred without express authority, as proposed by the House. The Senate included no similar provision.

Sec. 350 requires Amtrak to submit an annual report to the appropriate Congressional Committees detailing their per passenger operating loss for each rail line, as proposed by the House. Amtrak's grant request shall include the following appendices: (1) per passenger operating loss by route; and (2) each route's net loss when comparing the route's revenues opposite its full operating costs, capital costs, and depreciation costs using Generally Accepted Accounting Principles (GAAP).

Sec. 351 modifies House language amending language in the Aviation and Transportation Security Act, to allow the use of State and local law enforcement officers to fulfill Federal responsibilities at airports. The Senate included no similar provision.

Sec. 352 modifies a House provision relating to stadium overflights. The Senate included no similar provision. The conferees note that, under the modified House provision, the Secretary may issue waivers to certain aircraft including blimps subject to the conditions specified in the provision.

Sec. 353 restricts procurement of Coast Guard ships unless they are in compliance with the Buy American Act, as proposed by the House. The Senate included no similar provision.

Sec. 354 amends section 13703 of title 49, United States Code, by allowing the Surface Transportation Board to approve applications from truck rate bureaus seeking to publish national rates, as proposed by the House. The Senate included no similar provision.

Sec. 355 restricts funds to apply or enforce a regulatory requirement for strengthening flight deck doors until further review by the Transportation Security Administration, as proposed by the House. The Senate included no similar provision.

Sec. 356 amends the non-Federal match requirements for the Alaska Railroad, as proposed by the Senate. The House included no similar provision.

Sec. 357 is a provision regarding the Hoover Dam Bypass Bridge, as proposed by the Senate. The House contained no similar provision.

Sec. 358 prohibits funds in the Act to any person or entity convicted of violating the Buy American Act, similar to that proposed by the Senate. The House contained no similar provision.

Sec. 359 retains a provision proposed by the Senate allowing discretionary bridge funding to be used for historic covered bridges. The House contained no similar provision.

Sec. 360 modifies a provision requiring quarterly reports on major Coast Guard acquisitions and the agency's mission hour emphasis, as proposed by the Senate. The House contained no similar provision.

Sec. 361 amends Section 1503 of P.L. 105-178 relating to Section 1101(a)(9) and Section 1221, similar to that proposed by the Senate. The House contained no similar provision.

Sec. 362 reduces the funds provided for the Working Capital Fund, similar to that proposed by the Senate. The House contained no similar provision.

Sec. 363 grants discretionary authority to the Secretary of Transportation to waive certain requirements included in a conveyance for an airport in Gadsden, AL, similar to that proposed by the Senate. The House contained no similar provision.

Sec. 364 rescinds funds for the Value Pricing Pilot Program.

Sec. 365 modifies 101 Stat. 194; 109 Stat. 607 and 105 Stat. 2038 to allow changes to projects in Port of Lake Charles, Louisiana, as proposed by both the House and the Senate.

Sec. 366 allows funds from the surface transportation grants to be available to the Secretary to make grants to the Kentucky Turnpike Authority to pay the debt on bonds issued by the Kentucky Turnpike Authority before January 1, 2003, for the Daniel Boone Parkway, Kentucky, and the Cumberland Parkway, Kentucky.

Sec. 367 authorizes the issuance of letters of intent for airport security improvements.

Sec. 368 amends section 342 in the Department of Transportation and Related Agencies Appropriations Act, 2002 to redesignate the "passenger only ferry to serve Kitsap County-Seattle" to "ferry/tunnel project in Bremerton, Washington" as proposed by the Senate. The House contained no similar provision.

Sec. 369 amends section 343 in the Department of Transportation and Related Agencies Appropriations Act, 2002 to redesignate the "Passenger only ferry to serve Kitsap and King Counties to Seattle" to "ferry/tunnel project in Bremerton, Washington" as proposed by the Senate. The House contained no similar provision.

Sec. 370 amends House language to make construction of contract towers an eligible expense of the Airport Improvement Program.

Sec. 371 appropriates \$3,500,000 to maintain operations at Midway Island airfield for not less than one year, as proposed by the Senate. The House included no similar provision.

Sec. 372 amends Section 145 (c) of P.L. 107-71, similar to that proposed by the Senate. The House contained no similar provision.

Sec. 373 amends Section 1602 of TEA-21 (112 Stat. 316) to allow changes to projects in Susquehanna Greenway, Maryland, as proposed by the Senate. The House included no similar provision.

Sec. 374 modifies section 1602 of TEA-21 (112 Stat. 305) to allow changes to projects in New York City, NY.

Sec. 375 modifies a project in Public Law 101-516 to allow changes to a project in Pennsylvania.

Sec. 376 modifies a project in Public Law 102-143 to allow changes to a project in Pennsylvania.

Sec. 377 transfers \$2,000,000 to the Federal Transit Administration's Formula Grant account for the Jersey City Pier redevelopment and terminal construction project.

The conference agreement deletes the House provision that ensures that emergency rail service is continued if Amtrak should cease operation. The Senate included no similar provision.

The conference agreement deletes the House provision regarding the purchase of explosive detection systems. The Senate included no similar provision.

The conference agreement deletes the House provision that encourages the Secretary of Transportation and the FAA to implement a plan between the State of Illinois and the City of Chicago for the purpose of modernizing O'Hare International Airport, continuing operation of Meigs Field, and utilizing existing airports to help relieve congestion. The Senate included no similar provision.

The conference agreement deletes the Senate provision that directs the Secretary of the Department of Transportation to approve the use of national highway system and surface transportation funds for construction of noise barriers in Georgia. The House included no similar provision.

The conference agreement deletes the House provision relating to Medicare eligible retiree health care funds, as it is contained elsewhere in the bill. The Senate included no similar provision.

The conference agreement deletes the House provision relating to a proposed rule on statewide and metropolitan transportation planning. The Senate included no similar provision.

The conference agreement deletes the House provision that amended the Air Transportation Safety and System Stabilization Act. The Senate included no similar provision.

The conference agreement deletes the Senate provision relating to a municipal dock in Escanaba, Michigan. The House included no similar provision.

The conference agreement deletes the Senate provision relating to rebates, refunds, incentive payments and fees received by the Department of Transportation. The House included no similar provision.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates and the House and Senate bills for 2003 follow:

[In the thousands of dollars]	
New budget (obligational) authority, fiscal year 2002	\$24,376,970
Budget estimates of new (obligational) authority, fiscal year 2003	21,345,680
House bill, fiscal year 2003	21,797,930
Senate bill, fiscal year 2003	22,576,162
Conference agreement, fiscal year 2003	22,159,095
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	-2,217,875
Budget estimates of new (obligational) authority, fiscal year 2003	+813,415
House bill, fiscal year 2003	+361,165
Senate bill, fiscal year 2003	-417,067

DIVISION J

TREASURY AND GENERAL GOVERNMENT APPROPRIATIONS, 2003

The conference agreement on the Treasury and General Government Appropriations Act, 2003, incorporates some of the language and allocations set forth in House Report 107-575 and some of the language and allocations set forth by the Senate explanatory statement as delineated in the Congressional Record of January 15, 2003, pages S765-S794. The language in House Report 107-575

and the Congressional Record of January 15, 2003, pages S765–S794, should be complied with unless specifically addressed in the accompanying statement of managers.

Throughout the accompanying explanatory statement, the managers refer to the Committee and the Committees on Appropriations. Unless otherwise noted, in both instances, the managers are referring to the House Subcommittee on Treasury, Postal Service, and General Government and the Senate Subcommittee on Treasury and General Government.

In a number of instances, House Report 107–575 and the explanatory statement in the Congressional Record of January 15, 2003, pages S765–S794, require agencies to report to the Committees by specific dates that have now passed. In those instances, and unless alternative dates are provided by the committee of conference, agencies are directed to provide these reports to the House and Senate Committees on Appropriations not later than 60 days after enactment of this Act.

REPROGRAMMING AND TRANSFER OF FUNDS GUIDELINES

The conference agreement includes the following reprogramming guidelines that shall be complied with by all agencies funded by the Treasury and General Government Appropriations Act, 2003:

1. Except under extraordinary and emergency situations, the Committees on Appropriations will not consider requests for a reprogramming or a transfer of funds, or use of unobligated balances, which are submitted after the close of the third quarter of the fiscal year, June 30;

2. Clearly stated and detailed documentation presenting justification for the reprogramming, transfer, or use of unobligated balances shall accompany each request;

3. For agencies, departments, or offices receiving appropriations in excess of \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$500,000 or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

4. For agencies, departments, or offices receiving appropriations less than \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$50,000, or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

5. For any action where the cumulative effect of below threshold reprogramming actions, or past reprogramming and/or transfer actions added to the request, would exceed the dollar threshold mentioned above, a reprogramming shall be submitted;

6. For any action that would result in a major change to the program or item that is different than that presented to and approved by either of the Committees, or the Congress, a reprogramming shall be submitted;

7. For any action where funds earmarked by either of the Committees for a specific activity are proposed to be used for a different activity, a reprogramming shall be submitted; and,

8. For any action where funds earmarked by either of the Committees for a specific activity are in excess of the project or activity requirement, and are proposed to be used for a different activity, a reprogramming shall be submitted.

Additionally, each request shall include a declaration that, as of the date of the request, none of the funds included in the request have been obligated, and none will be obligated, until the Committees on Appropriations have approved the request.

TITLE I—DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$189,201,000 instead of \$187,241,000 as proposed by the House and \$191,887,000 as proposed by the Senate. The conferees agree to non-recur \$2,854,000 of fiscal year 2002 costs, to transfer \$446,000 out of this account to the Financial Crimes Enforcement Network, and to a business strategy adjustment of \$599,000 as proposed by the House. The conferees agree to provide \$747,000 for overseas inflation costs as proposed by the Senate and \$1,213,000 for full funding of fiscal year 2003 operations. The conferees agree to include a provision as proposed by the Senate establishing minimum funding and personnel levels for the Office of Foreign Assets Control (\$21,206,000 and 120 full time equivalent positions), and agree to provide a minimum of \$8,500,000 for the Office of Enforcement. The conferees agree to a new general provision (Section 124) as proposed by the Senate regarding the Office of Foreign Assets Control that requires all travel license applications to be resolved within 90 calendar days and all travel license denials to include written notification.

CERTIFICATE-BASED INTERNET SECURITY

The conferees are aware of the need for security in permitting secure Internet communication for Customs, Secret Service, and other Treasury law enforcement agents to prevent cyber attacks and protect against identity theft in key information systems. The conferees therefore strongly support developing capability for certificate-based Internet security projects to provide standards-based e-mail encryption and digital signature capabilities; permit interoperability with the Federal Bridge and other government public key infrastructure systems and applications; demonstrate proven scalability; support multiple platforms; and include automated, secure key and certificate management. The conferees understand that the Department of the Treasury believes this is a vital priority. If funds become available in other Treasury accounts during fiscal year 2003, the conferees are likely to look favorably on a reprogramming request that would provide funding for this critical initiative.

COUNTERFEIT CURRENCY TECHNOLOGY

The conferees agree that anti-counterfeiting measures for currency are a critical component in the war on terrorism and in promoting homeland security. The conferees strongly concur with Senate guidance that directs the Department of the Treasury to test the utility of using new technologies to help identify the size of the universe of counterfeit currency and better understand the circulation patterns of currency and report back within 120 days of the enactment of this Act. The conferees also encourage the Treasury Department to consider, for future currency changes, the best available anti-counterfeiting technology and security devices for currency, including such features as optically variable devices, alternative substrates, distinctive fibers, high-technology inks, and new offset printing techniques.

DEPARTMENT-WIDE SYSTEMS AND CAPITAL INVESTMENTS PROGRAMS
(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$65,628,000 instead of \$68,828,000 as proposed by the House and the Senate. The reduction from the requested level is to be applied to the integrated Treasury (wireless) network. The conferees agree to include a provision as proposed by the Senate restricting the use of funds to supplement the Internal Revenue Service.

OFFICE OF INSPECTOR GENERAL
SALARIES AND EXPENSES

The conferees agree to provide \$35,736,000 instead of \$35,424,000 as proposed by the House and the Senate. The conferees agree to include a provision regarding reception and representation expenses as proposed by the Senate and to include \$312,000 for full funding of fiscal year 2003 operations.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION
SALARIES AND EXPENSES

The conferees agree to provide \$125,011,000 instead of \$123,962,000 as proposed by the House and the Senate. The conferees agree to include \$1,049,000 for full funding of fiscal year 2003 operations.

AIR TRANSPORTATION STABILIZATION PROGRAM

The conferees agree to provide \$6,041,000 as proposed by the House and the Senate.

TREASURY BUILDING AND ANNEX REPAIR AND RESTORATION

The conferees agree to provide \$28,932,000 instead of \$32,932,000 as proposed by the House and \$30,932,000 as proposed by the Senate.

EXPANDED ACCESS TO FINANCIAL SERVICES

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide, subject to authorization, \$2,000,000 as proposed by the Senate instead of \$4,000,000 as proposed by the House. The conferees also agree to include the other provisions as proposed by the Senate and not those proposed by the House. The conferees direct that none of these funds are to be used for projects that (1) provide real property, automated teller machines, or any other equipment for use by any financial institution, (2) incur costs in excess of \$100 for each participant who is expected to establish an account, or (3) does not provide at least \$0.50 in non-federal matching funds for each \$1.00 received from the Expanded Access to Financial Services account.

COUNTERTERRORISM FUND

The conferees agree to provide \$10,000,000 instead of \$33,000,000 as proposed by the House and \$20,000,000 as proposed by the Senate. The conferees note that this fund currently carries a balance in excess of \$40,000,000.

FINANCIAL CRIMES ENFORCEMENT NETWORK

SALARIES AND EXPENSES

The conferees agree to provide \$51,752,000 instead of \$51,444,000 as proposed by the House and \$50,517,000 as proposed by the Senate. This includes \$481,000 to cover non-pay inflation, \$308,000 to fully fund fiscal year 2003 operations, and \$446,000 to reflect the adjustment of Foreign Terrorist Asset Tracking Center support from the Office of Foreign Assets Control to the Financial Crimes Enforcement Network.

USA PATRIOT ACT IMPLEMENTATION

The Financial Crimes Enforcement Network (FinCEN) is tasked with implementing a number of critical mandates under the USA PATRIOT Act aimed at thwarting terrorists from financing their activities, and preventing criminals from laundering criminal profits. These include establishing the PATRIOT Act Communications System (PACS), providing expanded access for federal agencies to the Gateway system; and implementing information exchanges between government and financial institutions. Although the Administration did not request funding for these, the conferees direct the Department to provide \$2,500,000 from the super surplus of the Treasury Forfeiture Fund to FinCEN for these activities to cover fiscal year 2003 costs.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

The conferees agree to provide \$134,986,000 instead of \$152,951,000 as proposed by the House and \$126,660,000 as proposed by the Senate. This includes: \$595,000 for non-pay inflation; \$631,000 to fully fund fiscal year 2003 operations; \$5,500,000 to

fund increased training workload for homeland security; \$2,700,000 for the Cheltenham training center; \$1,000,000 for the National Center for State and Local Training and \$1,000,000 for the Rural Crime and Justice Center at Minot State University to expand on the current Small Town and Rural Law Enforcement training series in the Northern Plains States and related rural law enforcement research; \$500,000 to Minot State University to assess the effectiveness of the Federal Law Enforcement Training Center vehicle pursuit training program; and \$750,000 to work with the Southwest Texas State University ALERRT program.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED
EXPENSES

The conferees agree to provide \$36,000,000 instead of \$31,800,000 as proposed by the House and \$32,029,000 as proposed by the Senate. This includes: \$71,000 for non-pay inflation; \$5,000,000 for acquisition and modification of facilities for the Glynco campus to address increased homeland security training workload; \$3,400,000 to complete the vehicle training course at the Cheltenham campus; and \$4,200,000 for a new classroom building at the Artesia campus.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The conferees agree to provide \$107,576,000 as proposed by the Senate instead of \$110,594,000 as proposed by the House.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

The conferees agree to provide \$222,078,000 instead of \$220,664,000 as proposed by the House and the Senate. The conferees agree to include \$1,414,000 for the full funding of fiscal year 2003 operations.

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

SALARIES AND EXPENSES

The conferees agree to provide \$886,430,000 instead of \$888,430,000 as proposed by the Senate and \$891,034,000 as proposed by the House. This includes \$3,000,000 for an explosives enforcement initiative.

MANAGEMENT AND TECHNOLOGICAL ENHANCEMENTS

The conferees endorse the Senate explanatory language regarding management and technological enhancements at the Bureau of Alcohol, Tobacco and Firearms (ATF) National Licensing Center, Imports Branch, and National Firearms Act Branch. The conferees also note that \$2,500,000, which was provided in fiscal year 2002, will continue to be available for this ongoing effort.

UNITED STATES CUSTOMS SERVICE

SALARIES AND EXPENSES

The conferees agree to provide \$2,527,155,000, instead of \$2,496,865,000 as proposed by the House and \$2,501,488,000 as proposed by the Senate. This includes: \$18,377,000 for non-pay inflation; \$15,115,000 to fully fund fiscal year 2003 operations; \$150,000 for the Vermont World Trade Center, and \$750,000 for the Center for Agricultural Policy and Trade Studies. The conferees also include: \$3,000,000 for port and nonintrusive inspection technology research and development; \$1,250,000 for steel tariff enforcement; \$1,000,000 for a curriculum for canine detection of chemical and biological threats; \$12,000,000 for the container security initiative; \$1,000,000 for a bulk outbound currency initiative; \$1,400,000 to expand the intellectual property rights initiative; \$200,000 for a University of Texas border protection management program; and \$125,000 for a smart border technology program at the Texas Transportation Institute.

NORTHERN BORDER SECURITY

The conferees recognize that the process of strengthening the Northern Border is not complete and that further adjustments in personnel assignments and resource allocations will be necessary. There have been long-standing concerns about the condition and infrastructure needs of the ports of entry along the Northern Border. The conferees direct the Customs Service to work closely with GSA in the development of its construction plans and budgets, and to ensure that all current and prospective requirements, particularly those recently identified, will be met.

The conferees commend the actions of the United States Customs Service to strengthen America's border with Canada. The conferees support the full implementation of the 30-point "Smart Border Accord," and other ongoing initiatives in furtherance of securing the flow of people and goods, hardening our infrastructure, and in sharing mutual enforcement objectives with Canada. Implementation of programs such as pre-clearance of U.S.-bound traffic, "reverse inspections," hardening of remote ports, and expanded information sharing promises increased security and important trade benefits on the Northern Border. Additionally, the conferees encourage Customs to expand use of "smart" processing and inspection technologies such as the NEXUS program. This joint United States-Canadian pilot is a dedicated commuter lane system that allows Customs and the Immigration and Naturalization Service to rapidly identify and clear pre-registered frequent travelers. The conferees urge Customs to implement an expansion of the program expeditiously as an integral part of a layered security framework that both secures our mutual border and facilitates this unique trade relationship.

INTELLECTUAL PROPERTY RIGHTS INITIATIVE AND CUSTOMS
CYBERSMUGGLING CENTER

The conferees have included funding for the continued operation of the Intellectual Property Rights (IPR) Center, which re-

ceived \$5,000,000 in fiscal year 2002, as well as to annualize the costs of 13 additional full-time equivalent positions. The conferees also continue funding for the Customs Cybersmuggling Center (C3). The conferees have also included an additional \$1,400,000 to expand the IPR Center for domestic and international programs, staffing, as well as continued operation of the IPR Coordination Center. The conferees expect the Customs Service will enhance the operations of the C3 and the IPR Center to combat intellectual property rights violations, and support law enforcement training of host country officials by Customs overseas attachés. The conferees encourage the IPR Center to use a portion of its funds to establish a clearinghouse for intellectual property rights information gathered from other federal as well as State and local agencies.

STRENGTHENED ENFORCEMENT OF U.S. TRADE LAWS PERTAINING TO
STEEL

The conferees support Customs enforcement of U.S. trade laws, to include the President's steel 201 proclamation of March 5, 2002, and all antidumping and countervailing duty orders related to steel. The conferees also understand that Customs is responsible for enforcing and monitoring imports of wire rods and certain line pipe products previously covered by a 201 remedy decision. The conferees are aware that Customs personnel assigned to enforce antidumping and countervailing duty orders, including import specialists, inspectors and agents, have been increasingly burdened, and many have been reassigned to meet homeland security priorities. The conferees understand that Customs would require additional positions to fully enforce this set of trade laws, and that there are serious deficiencies in the level of training and specialized knowledge of Customs inspectors and import specialists who deal with steel tariff matters. The conferees therefore provide \$1,250,000 to permit Customs, working with the steel manufacturing and trading community, to identify and apply the resources and training required to carry out these responsibilities. Such efforts may include utilizing steel industry experts through a series of national training seminars, which could be made available to members of the trade and brokerage community who play a key role in classifying imported goods for Customs processing. The funding may also be used to assign more import specialists, inspectors, or agents to steel trade enforcement. The conferees recommend that new steel import specialists be assigned to ports with the greatest volume of steel imports. In addition, the conferees urge that the U.S. Customs Service enforce all steel-related laws and regulations, including the President's steel 201 Proclamation and all existing antidumping and countervailing duty orders, to the fullest extent of the law. The conferees therefore direct Customs to report not later than 60 days after enactment of this Act on steps it has taken to improve training for steel tariff implementation and to enhance enforcement efforts and manpower, including data on types and value of illegal imports seized and penalties imposed.

CONTAINER SECURITY INITIATIVE

The Customs Service announced its Container Security Initiative (CSI) on January 17, 2002, a critical effort to protect U.S. sea-

ports and maritime commerce. CSI will allow targeting and screening of potentially dangerous cargo prior to its arrival at U.S. ports. In March 2002 Customs began to implement CSI in three Canadian ports; to date, 21 foreign ports, including 18 of the world's top "mega-ports", have agreed to participate. The CSI will entail staffing at each site, as well as investments in non-intrusive inspection technology or networking technology. The conferees include \$12,000,000 to continue this effort in fiscal year 2003.

The conferees are aware that CSI will require a data system that permits the transfer of container images, other sensor data, and relevant manifest data from foreign seaports of origin to Customs offices at the U.S. port of destination and to the Customs container management center. The conferees would expect this network to be linked with the Treasury Secure Data Network and capable of processing and sharing similar domestic data as well. The conferees direct Customs to report to the Committees on Appropriations not later than 60 days after enactment of this Act on its plans for developing and implementing such a network.

NON-INTRUSIVE INSPECTION TECHNOLOGY

The Administration's request includes \$45,700,000 in new investments in non-intrusive inspection and other security technology, in addition to annualizing costs for investments made in fiscal year 2002 to close gaps in land and seaport security identified after September 11th. The conferees include an additional \$3,000,000 for these efforts, to be used for technology acquisition and support of related research and development, and to evaluate and prototype next-generation technology to screen and detect contraband, explosives, radioactive materials, and potential chemical and biological weapons, with a focus on applications at major ports of entry. The conferees strongly encourage the Customs Service to maintain its policy of seeking to apply the most advanced and cost-effective technology possible, and build into its planning a life-cycle approach to replacing and upgrading such capability to meet ever-increasing needs for greater performance.

In general, the conferees expect Customs to regularly review technologies that might have applications to Customs' inspection needs, and evaluate the value for Customs' mission that might be offered by technology, such as computed tomography (CT), which is being employed for airport security by the Transportation Security Administration (TSA); the Total Asset Visibility Network employed by the Defense Department; or neutron analysis technology. Customs should emphasize evaluating inspection technologies that do not require human evaluation and analysis, and work closely with the Departments of Defense and Energy agencies such as the Defense Threat Reduction Agency and the National Nuclear Security Administration on placement of systems to detect nuclear, biological and chemical threats. The conferees direct Customs to report not later than 120 days after enactment of this Act on its implementation of this program.

PEACE BRIDGE JOINT BORDER FACILITY

The conferees endorse the Senate explanatory language calling for the U.S. Customs Service, in consultation with the Immigration

and Naturalization Service and the Department of Homeland Security to report within 180 days of enactment of this Act detailing how a joint United States/Canadian border inspection facility could be established on the Canadian side of the Peace Bridge in Fort Erie, Ontario.

CHILD PORNOGRAPHY

The conferees direct the Customs Service to continue providing \$100,000 of available funds to promote public awareness for the child pornography tipline, including ongoing efforts to make children aware of the tipline, in fiscal year 2003. The conferees recommend that the Customs Service continue to coordinate this effort with the National Center for Missing and Exploited Children and the U.S. Postal Service to ensure that the publicity is diversified and effective.

FORCED CHILD LABOR

The conferees are pleased with the work of the Customs Service to enforce section 307 of the Tariff Act of 1930 as it relates to forced and indentured child labor. The conferees believe that continued focus on enforcement of the ban on importation of goods made by forced child labor is critical and that Customs needs to continue this effort through aggressive investigation and enforcement of the applicable laws. The conferees direct Customs to expend an additional \$4,000,000 on this important enforcement effort.

DAIRY PROTEIN BLENDS

The conferees are concerned with the impact of imported milk protein concentrates on domestic milk use, resulting in historically low milk prices paid to dairy producers. The Customs Service is encouraged to make their final decision on reclassification of dairy protein blends within 30 days of the enactment of this Act and report the results to the Committees on Appropriations.

HARBOR MAINTENANCE FEE COLLECTION

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$3,000,000 as proposed by the House and the Senate.

OPERATION, MAINTENANCE AND PROCUREMENT, AIR AND MARINE INTERDICTION PROGRAMS

The conferees agree to provide \$181,829,000 instead of \$190,000,000 as proposed by the House and \$177,829,000 as proposed by the Senate. This includes \$7,000,000 for the Customs National Aviation Center and \$4,000,000 to support other critical operational and maintenance needs and modernization requirements such as the Air and Marine Interdiction Coordination Center, development of tactical data link and display capability, enhanced electro-optical and infrared capability, and replacement of critical fixed wing and helicopter platforms.

AIR AND MARINE PROGRAM MODERNIZATION AND ORGANIZATION
REVIEW

The conferees are aware that Customs had been conducting a comprehensive review of the missions, operations, structure, and resources of the Air and Marine Interdiction Division (AMID). As Customs conducts this review, the conferees strongly urge it to take full account of the impact of its various and expanding missions in order to achieve an optimal level of readiness and operational effectiveness. Particular attention should be paid to organization, infrastructure, aircraft, vessels, equipment, staffing and funding.

The conferees also expect Customs to make the most effective use of existing resources to carry out its missions. Replacement or other modernization of Customs assets is expensive and must be carried out in the context of an orderly program to assess requirements for necessary platforms based on mission and operational needs, including operating and maintenance costs. The conferees expect Customs to carefully evaluate the impact of maintenance contracts on meeting mission needs, and how the form such contracts take affects such goals: to maximize operational availability and capability of aircraft and marine vessels; to rationalize time and logistics required for system maintenance and support; and to achieve cost effectiveness. The conferees direct the Customs Service to submit the findings of its review upon its completion, including those relating to maintenance and support, but in any event not later than 60 days after enactment of this Act.

In the course of preparing the report, the conferees request that Customs describe how its modernization plan will address (1) implementing airborne law enforcement surveillance and support capabilities along the Northern Border; (2) acquiring platforms for Northern Border Surveillance Aircraft; (3) replacing or modifying existing Citation aircraft; and (4) meeting its requirements for light enforcement and medium-lift helicopters. Customs will continue to implement the Western Hemisphere Drug Elimination Act (WHDEA) and the conferees include the \$35,764,000 requested by the Administration. The conferees provide an additional \$4,000,000 that may be used for system acquisition and support, and expect plans for use of this funding to be included in the modernization plan and detailed in the above mentioned report.

AUTOMATION MODERNIZATION

The conferees agree to provide \$435,332,000 as proposed by the Senate instead of \$439,332,000 as proposed by the House.

AUTOMATED COMMERCIAL ENVIRONMENT

The conferees believe that strong oversight of the Automated Commercial Environment (ACE) program is essential to ensure that Customs fulfills its expenditure and development plans. Periodic review of investment increments associated with capital planning and architecture development is consistent with best practices for information technology procurement. The conferees therefore direct that Customs provide quarterly reports to the Committees on Appropriations until ACE becomes functional.

The conferees also direct Customs to submit requests for release of funds, including a cost-benefit analysis, in a timely manner, but in no case less than 30 days before the anticipated need for the funds.

WEST COAST SECURED CORRIDOR INITIATIVE

The conferees are aware of efforts by the Washington State Office of Trade and Economic Development, the Washington State Department of Transportation, and the Cascadia Project of the Discovery Institute to establish a West Coast Secured Corridor Initiative. This initiative will establish a forum for coordinating the development and implementation of practices vital to the enhancement of homeland security and the secured mobility of goods and people along the West Coast, and that will ensure interoperability of Customs and other regulatory protocols for transport between Mexico, the United States, and Canada. The conferees strongly support collaborative efforts between Federal, State and local governments and non-profit organizations that can facilitate both security and the smooth flow of commerce along our borders. The Customs Service should evaluate the benefits of ensuring that development and deployment of ACE and the International Trade Data System (ITDS) takes into account the efforts of the Initiative to ensure homeland security and secured mobility of goods and people along the West Coast.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The conferees agree to provide \$34,900,000 for capital investments for circulating coinage and protective services as proposed by the House and the Senate.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

The conferees agree to provide \$190,068,000 instead of \$168,673,000 as proposed by the House and \$191,073,000 as proposed by the Senate. The conferees agree to a reduction of \$2,000,000 to the savings bond marketing program; the funds that remain for savings bond marketing are to provide for the orderly termination of this effort during fiscal year 2003 consistent with the plans of the Department of the Treasury. The conferees direct the Department to report to the Committees on Appropriations within 30 days of the enactment of this Act with details of how they will conduct this orderly termination of the savings bond marketing program. The conferees further agree to include a provision to assist with the termination of the savings bond marketing program; this provision extends the availability of \$4,000,000 for two years in order to cover certain costs such as severance requirements and workman compensation payments that will extend beyond fiscal year 2003. The conferees also agree to provide \$995,000 for the full funding of fiscal year 2003 operations not associated with the savings bond marketing program.

INTERNAL REVENUE SERVICE

The conferees recognize the fiscal challenges that face the Internal Revenue Service and direct that base operations be funded before embarking upon any new initiatives.

PROCESSING, ASSISTANCE, AND MANAGEMENT

The conferees agree to provide \$3,955,777,000 as proposed by the Senate instead of \$3,955,077,000 as proposed by the House. The conferees agree to include a provision that provides \$7,000,000 for low-income taxpayer clinic grants, as proposed by the Senate.

TAX LAW ENFORCEMENT

The conferees agree to provide \$3,729,072,000 as proposed by the House and the Senate. The conferees agree to include a provision modified from one proposed by the Senate that not less than \$60,000,000 shall be used to combat abusive tax shelters.

EARNED INCOME TAX CREDIT COMPLIANCE INITIATIVE

The conferees agree to provide \$146,000,000 as proposed by the House and the Senate.

INFORMATION SYSTEMS

The conferees agree to provide \$1,632,444,000 as proposed by the House and the Senate.

BUSINESS SYSTEMS MODERNIZATION

The conferees agree to provide \$366,000,000 instead of \$436,000,000 as proposed by the House and the Senate.

HEALTH INSURANCE TAX CREDIT ADMINISTRATION

The conferees agree to provide \$70,000,000 instead of no appropriation as proposed by the House and the Senate. This new account is to be used to implement the health insurance tax credit program included in the Trade Act of 2002 (Public Law 107-210).

ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

Section 101. The conferees agree to continue a provision that allows the transfer of 5 percent of any appropriation made available to the IRS to any other IRS appropriation subject to Congressional approval.

Section 102. The conferees agree to continue a provision that requires the IRS to maintain a training program in taxpayers' rights, dealing courteously with taxpayers, and cross-cultural relations.

Section 103. The conferees agree to continue a provision that requires the IRS to institute and enforce policies and practices that will safeguard the confidentiality of taxpayer information.

Section 104. The conferees agree to continue a provision with respect to the IRS 1-800 help line service.

UNITED STATES SECRET SERVICE

SALARIES AND EXPENSES

The conferees agree to provide \$1,029,150,000 instead of \$1,017,892,000 as proposed by the House and \$1,010,817,000 as proposed by the Senate. This includes \$6,824,000 for non-pay inflation, \$6,475,000 to fully fund fiscal year 2003 operations, and \$4,200,000 to fund annualization of the costs of the workload rebalancing and retention initiative. The conferees also provide \$1,633,000 for forensic support to the National Center for Missing and Exploited Children (NCMEC), and \$4,583,000 for grants to NCMEC, including \$300,000 for support of the Web-Wise Kids program.

ACQUISITION, CONSTRUCTION, IMPROVEMENT, AND RELATED
EXPENSES

The conferees agree to provide \$3,519,000 as proposed by the House and the Senate.

GENERAL PROVISIONS—DEPARTMENT OF THE TREASURY

Section 110. The conferees agree to continue a provision that requires the Secretary of the Treasury to comply with certain reprogramming guidelines when obligating or expending funds for law enforcement activities.

Section 111. The conferees agree to continue a provision that allows the Department of the Treasury to purchase uniforms, insurance, and motor vehicles without regard to the general purchase price limitation, and enter into contracts with the Department of State for health and medical services for Treasury employees in overseas locations.

Section 112. The conferees agree to continue a provision that requires the expenditure of funds so as not to diminish efforts under section 105 of the Federal Alcohol Administration Act.

Section 113. The conferees agree to continue a provision that authorizes transfers, up to 2 percent, between law enforcement appropriations under certain circumstances.

Section 114. The conferees agree to continue a provision that authorizes the transfer, up to 2 percent, between the Departmental Offices, Office of Inspector General, Treasury Inspector General for Tax Administration, Financial Management Service, and Bureau of Public Debt appropriations under certain circumstances.

Section 115. The conferees agree to continue a provision that authorizes transfer, up to 2 percent, between the Internal Revenue Service and the Treasury Inspector General for Tax Administration under certain circumstances.

Section 116. The conferees agree to continue a provision regarding the purchase of law enforcement vehicles.

Section 117. The conferees agree to continue a provision that prohibits the Department of the Treasury and the Bureau of Engraving and Printing from redesigning the \$1 Federal Reserve Note.

Section 118. The conferees agree to continue a provision that provides for transfer from and reimbursements to the Salaries and

Expenses appropriation of the Financial Management Service for the purposes of debt collection.

Section 119. The conferees agree to continue and modify a provision that extends the pilot project for designated critical occupations for one additional year.

Section 120. The conferees agree to continue a provision that requires the approval of the authorizing committees for the construction and operation of any museum by the U.S. Mint.

Section 121. The conferees agree to continue the provision limiting the use of funds for the production of Customs declarations that do not inquire whether the passenger had been in the proximity of livestock.

Section 122. The conferees agree to a new provision that directs the Federal Law Enforcement Training Center to establish an accrediting body to set standards for measuring and assessing the quality and effectiveness on Federal law enforcement training.

Section 123. The conferees agree to a new provision that extends the Treasury Franchise Fund through October 1, 2004.

Section 125. The conferees agree to a new provision that allows funds in the Stennis Fund to be invested in certain par-value securities.

Section 126. The conferees agree to a new provision that allows funds in the Madison Funds to be invested in certain par-value securities.

Section 127. The conferees agree to a new provision regarding Customs Service reverse inspections as proposed by the Senate, with technical modifications.

TITLE II—POSTAL SERVICE

PAYMENT TO THE POSTAL SERVICE FUND

The conferees agree to provide \$60,014,000, as proposed by the House and Senate. Of this amount \$31,014,000 is provided as an advance appropriation for free mail to the blind and overseas voters, as proposed by the House and Senate. The conferees include an additional \$29,000,000 for prior year reimbursement shortfalls.

POSTAL SERVICE MARKETING EFFORTS

The conferees are aware that the Postal Service has entered into a four-year \$25,000,000 contract to sponsor a cycling team to provide the Postal Service with marketing exposure. This expenditure comes at a time when the Postal Service is suffering from long-term declines in mail volume and net income, as well as the huge added costs of guarding against biological terrorist attacks through the U.S. mail system. The conferees are concerned that the Postal Service has incurred this \$25,000,000 obligation even though no proof has been offered that this sponsorship will result in increased revenues. The conferees urge the Postal Service to exercise far better judgment in making future investment decisions in favor of those efforts that can provide tangible results.

POSTAL SERVICE PRINTING

The conferees are aware that significant cost savings can be achieved by utilizing electronic commerce technology in the ordering and procurement of supporting goods and services, such as printing requirements. The conferees encourage the Postal Service to use e-commerce means in the purchasing of its printing, including testing the feasibility of procuring printing through e-commerce means after assessing the market and conducting a test or limited pilot project, if the test or project can include a guaranteed cost savings feature and acceptable return on investment (ROI). If this test or limited pilot yields a cost savings and acceptable ROI for the Postal Service, the conferees encourage the Postal Service to expand its use of e-commerce means in the procurement of its printing needs. The conferees request a report from the Postal Service on any such test or pilot project undertaken no later than six months after the date of enactment of this Act.

HOUSTON, TEXAS

The conferees are concerned by the quality of service at the Jensen Drive Postal Station in Houston, Texas. The conferees are specifically concerned with the adequacy of the facility at this postal station. The station currently has only eight available parking slots, of which one is for disabled customers and two are for senior citizens who represent a large portion of this station's customers, leaving only five available slots for all other customers. This lack of adequate parking creates traffic and safety problems. The conferees direct the Postal Service to evaluate the options for addressing the parking situation and other problems at Jensen Drive and report to the Committees on Appropriations on steps being taken to address the problem no later than 90 days after enactment of this Act.

BRONX, NEW YORK

The conferees are very concerned by the repeated reports of poor quality service to postal customers in the Bronx, including missing mail, wrongly delivered mail, and late delivery. The House Committee on Appropriations earlier directed the Postal Service to investigate the situation at the Morris Park post office and report its recommendations for corrective action to the Committee, and the Postal Service provided this report in January 2003. The conferees direct the Postal Service to expand its investigation to the Highbridge, Stadium, Morrisania, and Tremont stations, as well as the General Post Office, and report its findings and recommendations for corrective action and a plan of implementation to the Committees on Appropriations no later than 120 days following enactment of this Act.

TITLE III—EXECUTIVE OFFICE OF THE PRESIDENT AND
FUNDS APPROPRIATED TO THE PRESIDENT

COMPENSATION OF THE PRESIDENT AND THE WHITE HOUSE OFFICE

COMPENSATION OF THE PRESIDENT

The conferees agree to provide \$450,000 as proposed by the House and the Senate.

SALARIES AND EXPENSES

The conferees agree to provide \$50,715,000 as proposed by the House instead of \$59,735,000 as proposed by the Senate. The conferees agree to transfer \$9,020,000 to the Office of Administration in support of a pilot program to centralize the procurement of certain common goods and services.

WHITE HOUSE TOURS

The conferees are aware that, because of the tragic events of September 11, 2001, public visitation of the White House has been severely restricted. The conferees would like to see a resumption of public White House tours as soon as safely possible. In light of this goal, within 30 days of enactment of this Act, the White House Office should provide a report to the Committees that details the status of efforts underway to safely reopen public tours of the White House.

OFFICE OF HOMELAND SECURITY

SALARIES AND EXPENSES

The conferees agree to provide \$19,398,000 instead of \$24,061,000 as proposed by the House and \$24,844,000 as proposed by the Senate. The conferees agree to transfer \$783,000 to the Office of Administration in support of a pilot program to centralize the procurement of certain common goods and services. The conferees do not include \$4,663,000 in funds proposed for various costs associated with the operations of the Nebraska Avenue complex. The conferees are aware of an unobligated balance of \$3,745,200 in fiscal year 2002 supplemental appropriations for Nebraska Avenue; and the conferees also note that funds were transferred through the authority provided in Public Law 107-294 for various Nebraska Avenue operations. The conferees note that detailed justification materials related to the funds transferred under the authority of Public Law 107-294 have not yet been provided to the Committee. Given the availability of these other funding sources, the conferees defer consideration of the \$4,663,000 proposed for Nebraska Avenue operations.

EXECUTIVE OFFICE OF THE PRESIDENT MAIL PROCESSING

The conferees are concerned by ongoing difficulties associated with mail processing for the Executive Office of the President (EOP) complex. The conferees are further concerned by the absence of a business case analysis for mail processing efforts, including a precise definition of both user and system requirements. The con-

ferrees are aware of proposed plans to transfer \$9,000,000 of fiscal year 2003 funds from the Office of Homeland Security to the Department of Homeland Security for EOP mail processing. The conferees support this transfer of responsibilities and encourage the Office of Administration to move expeditiously toward this goal. The Office of Administration is directed to report back to the Committees on all efforts to transfer funds and responsibilities for this effort to the Department of Homeland Security no later than 60 days after enactment of this Act.

EXECUTIVE RESIDENCE AT THE WHITE HOUSE

OPERATING EXPENSES

The conferees agree to provide \$12,228,000 as proposed by the House and the Senate.

WHITE HOUSE REPAIR AND RESTORATION

The conferees agree to provide \$1,200,000 as proposed by the House and the Senate.

SPECIAL ASSISTANCE TO THE PRESIDENT AND THE OFFICIAL
RESIDENCE OF THE VICE PRESIDENT

SALARIES AND EXPENSES

The conferees agree to provide \$4,066,000 as proposed by the Senate instead of \$3,160,000 as proposed by the House.

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$324,000 as proposed by the House and the Senate.

COUNCIL OF ECONOMIC ADVISERS

SALARIES AND EXPENSES

The conferees agree to provide \$3,763,000 as proposed by the House instead of \$4,405,000 as proposed by the Senate. The conferees agree to transfer \$642,000 to the Office of Administration in support of a pilot program to centralize the procurement of certain common goods and services.

OFFICE OF POLICY DEVELOPMENT

SALARIES AND EXPENSES

The conferees agree to provide \$3,251,000 as proposed by the House instead of \$4,221,000 as proposed by the Senate. The conferees agree to transfer \$970,000 to the Office of Administration in support of a pilot program to centralize the procurement of certain common goods and services.

NATIONAL SECURITY COUNCIL

SALARIES AND EXPENSES

The conferees agree to provide \$7,821,000 instead of \$7,803,000 as proposed by the House and \$9,525,000 as proposed by the Senate. The conferees agree to transfer \$1,704,000 to the Office of Administration in support of a pilot program to centralize the procurement of certain common goods and services.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The conferees agree to provide \$91,505,000 instead of \$92,681,000 as proposed by the House and \$70,128,000 as proposed by the Senate. The conferees agree to transfer \$21,377,000 from the White House Office, the Office of Homeland Security, the Office of Management and Budget, the Office of Policy Development, the National Security Council, and the Council of Economic Advisers to the Office of Administration to establish a pilot project for centralized procurement and management of information technology, rent, printing and reproduction, supplies and materials and equipment. The conferees expect that the Office of Administration will achieve economies of scale using centralized procurement practices and directs the Office of Administration to identify these savings within 120 days of enactment of this Act. The conferees direct the Office of Administration to submit a description of this pilot project, including a description of the standards established for the procurement of each commodity included in this project, no later than 60 days after enactment of this Act.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The conferees agree to provide \$62,394,000 instead of \$61,492,000 as proposed by the House and \$70,752,000 as proposed by the Senate. The conferees agree to transfer \$8,258,000 to the Office of Administration in support of a pilot program to centralize the procurement of certain common goods and services. The conferees are aware that the Office of Management and Budget (OMB) has achieved savings in excess of \$100,000 through the use of the Government Printing Office to print the President's fiscal year 2004 budget. The conferees have reduced OMB's appropriation by this amount and direct OMB to apply this reduction to OMB-Wide Offices. The conferees further encourage OMB to apply this reduction to those functions and activities that have no direct impact on the formulation or execution of the President's fiscal priorities, such as the Communications Office.

CONTRACTING OUT QUOTAS

The conferees agree to a Senate provision prohibiting the use of funds to establish, apply, or enforce any numerical goal, target, or quota for contracting out unless the goal, target, or quota is based on considered research and sound analysis of past activities

and is consistent with the stated mission of the executive agency. Although the Senate provision was somewhat different than the provision adopted by the House, the conferees want to emphasize the strong opposition in both chambers to the establishment of arbitrary goals, targets, and quotas. If any goals, targets, or quotas are established following “considered research and sound analysis” under the terms of this provision, the conferees direct the Office of Management and Budget to provide a report to the Committees on Appropriations no later than 30 days following the announcement of those goals, targets, or quotas, specifically detailing the research and sound analysis that was used in reaching the decision.

ELECTRONIC GOVERNMENT (E-GOV) FUND

The conferees agree to include funds for the Electronic Government Fund within the General Services Administration, as proposed by the Senate.

ELECTION ADMINISTRATION REFORM AND RELATED EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conferees address this issue in a separate Division of this Act.

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$26,456,000 as proposed by the Senate instead of \$24,458,000 as proposed by the House. The conferees include \$1,000,000 for the National Alliance for Model State Drug Laws. The conferees have included a provision that withholds \$2,000,000 from obligation until the Director submits, and the Committees on Appropriations approve, a human capital strategy for the Office of National Drug Control Policy (ONDCP).

COUNTERDRUG TECHNOLOGY ASSESSMENT CENTER

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$48,000,000 instead of \$40,000,000 as proposed by the Senate and \$55,800,000 as proposed by the House. This includes \$22,000,000 for counternarcotics Technology Research and Development and \$26,000,000 for the Technology Transfer Program. The conferees have included continued funding for neuroimaging studies and genomic research into the relationship between genetic predisposition and environmental factors bearing upon drug addiction in the amount for counternarcotics Technology Research and Development.

FEDERAL DRUG CONTROL PROGRAMS
HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM
(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$226,350,000 as proposed by the Senate instead of \$246,350,000 as proposed by the House. The conferees provide that existing HIDTAs shall be funded at no less than the fiscal year 2002 levels prior to the obligation of the \$20,000,000 in additional funds provided for fiscal year 2002, unless the Director submits to the Committees on Appropriations, and the Committees approve, justification for changes in those levels based on clearly articulated priorities for the HIDTA program, as well as published ONDCP performance measures of effectiveness. The conferees also provide that no funds in excess of the fiscal year 2003 budget request shall be obligated without the prior approval of the Committees.

HIDTA PERFORMANCE MANAGEMENT

The conferees remain concerned by ONDCP's lack of progress in developing performance measures of effectiveness (PMEs) for the HIDTA program. The conferees believe that the ability to evaluate the effectiveness of individual HIDTAs, and to rationally match funding needs against budgets, depends on a reliable and consistent methodology for performance measurement and management. The conferees provide, under the Salaries and Expenses account, that \$5,000,000 shall not be obligated until the Director of ONDCP submits PMEs for the HIDTA program to the Committees. The conferees further direct ONDCP to provide a justification, based on PMEs, of the fiscal year 2004 budget request for each individual HIDTA, as well as an optimal spending allocation for each individual HIDTA based upon PMEs, to the Committees when PMEs for the HIDTA program are submitted.

SOUTHWEST BORDER HIDTA

The conferees are concerned by the repeated reports of the conflict within the Southwest Border HIDTA between the five regional partnerships and the central office. The Southwest Border HIDTA was created in 1990 and is unique among HIDTAs in that it is structured into five partnerships—Arizona, California Border Alliance Group, New Mexico, South Texas, and West Texas—plus an Executive Director's office based in El Paso, Texas. The conferees believe that this regional structure has worked effectively to cover a very large multi-State geographical area that is crucial to anti-drug law enforcement. At the same time, the conferees believe that the HIDTA program needs coordination and rationalization to ensure that scarce resources can be targeted to those areas demonstrating both the greatest need and the greatest programmatic impact. The conferees believe that these goals can be met without altering the basic structure of the Southwest Border HIDTA. The conferees agree to provide that no funds shall be used for the further or additional consolidation of the Southwest Border HIDTA, except for the operation of an office with a coordinating role, until

ONDCP provides a report on the Southwest Border HIDTA. The conferees direct ONDCP to investigate the situation in the Southwest Border HIDTA and provide this report to the Committees on Appropriations within 120 days of enactment of this Act. This report shall include ONDCP's recommendations for resolving conflicts related to management and budgeting within the Southwest Border HIDTA, and shall include written statements from each of the partnerships expressing that partnership's views of the situation.

SPECIAL FORFEITURE FUND

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$223,200,000 instead of \$240,800,000 as proposed by the House and \$172,700,000 as proposed by the Senate. This includes \$150,000,000 for the National Youth Anti-Drug Media Campaign, \$60,000,000 for the Drug-Free Communities Support Program, \$3,000,000 for the Counterdrug Intelligence Executive Secretariat, \$2,000,000 for Performance Measures Development, \$6,400,000 for the US Anti-Doping Agency, \$1,000,000 for the National Drug Court Institute, and \$800,000 for dues to the World Anti-Doping Agency. The conferees provide that \$2,000,000 of Drug-Free Communities funds shall be used to make a grant directly to the Community Anti-Drug Coalitions of America to establish and maintain the National Community Anti-Drug Coalition Institute as proposed by the Senate, instead of no provision as proposed by the House.

NATIONAL YOUTH ANTI-DRUG MEDIA CAMPAIGN

The conferees are deeply disturbed by the lack of evidence that the National Youth Anti-Drug Media Campaign has had any appreciable impact on youth drug use. With the funds provided for fiscal year 2003, expenditures on the Media Campaign will be over \$1,000,000,000 since the program's inception in fiscal year 1998. While the evaluation conducted under the auspices of the National Institute for Drug Abuse (NIDA) has shown that the Media Campaign has had a slight and sporadic impact on the attitudes of parents, it has had no significant impact on youth behavior. While the conferees are aware of surveys, such as Monitoring the Future, that show recent declines in youth drug use, the NIDA study was undertaken to measure the specific impact of the Media Campaign, not simply to gauge general trends. The conferees have not included a provision requiring ONDCP to spend a certain amount on media buys for the Media Campaign as proposed by the House. The conferees expect ONDCP to allocate not less than the amount provided in fiscal year 2002 to support the non-advertising public communication activities of the Media Campaign.

The Director has inaugurated certain changes in the direction of the Media Campaign, such as producing new ads demonstrating the link between drug use and terrorism and other criminal activity, as well as an intensive anti-marijuana campaign launched in fall of 2002 and a shift in the youth age group focus of the campaign. The conferees are hopeful that these and other changes will result in the achievement of the campaign's goal of reducing youth drug use. The conferees intend to rely on the scientifically rigorous

NIDA study to gauge the ultimate impact of the campaign. If the campaign continues to fail to demonstrate effectiveness, then the Committees will be compelled to reevaluate the use of taxpayer money to support the Media Campaign.

US ANTI-DOPING AGENCY

The conferees include \$6,400,000 for the US Anti-Doping Agency (USADA). Within this amount, the conferees include \$500,000 for the development of a school-based program for educating young athletes on the risks associated with dietary supplements. Not only are certain supplements banned from use by USADA, many supplements contain steroid precursors (which the body metabolizes into testosterone), such as androstenedione, androstendiol, and DHEA. Studies have shown that these steroid precursors are being used by young athletes as performance-enhancing drugs at an alarming rate, even as early as the grade school level. The conferees believe that an education program is therefore necessary to make our young athletes aware of the risks associated with certain dietary supplements.

UNANTICIPATED NEEDS

The conferees agree to provide \$1,000,000 as proposed by the House and Senate.

TITLE IV—INDEPENDENT AGENCIES

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

SALARIES AND EXPENSES

The conferees agree to provide \$4,658,000 instead of \$4,629,000 as proposed by the House and the Senate. This includes \$29,000 to fully fund fiscal year 2003 operations.

FEDERAL ELECTION COMMISSION

SALARIES AND EXPENSES

The conferees agree to include \$49,866,000 instead of \$49,426,000 as proposed by the House and \$45,244,000 as proposed by the Senate. This includes \$4,198,000 to implement the Bipartisan Campaign Reform Act and \$424,000 to fully fund fiscal year 2003 operations. The conferees do not include a \$16,000 general reduction, as proposed by the House.

FEDERAL LABOR RELATIONS AUTHORITY

SALARIES AND EXPENSES

The conferees agree to provide \$28,950,000 instead of \$28,677,000 as proposed by the House and the Senate. This includes \$273,000 to fully fund fiscal year 2003 operations.

GENERAL SERVICES ADMINISTRATION
REAL PROPERTY ACTIVITIES
FEDERAL BUILDINGS FUND
LIMITATIONS ON AVAILABILITY OF REVENUE
(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$7,006,033,000 in new obligational authority instead of \$6,961,930,000 as proposed by the House and \$7,006,518,000 as proposed by the Senate. The conferees directly appropriate \$375,711,000 into the Fund to cover a portion of the new obligational needs of the Fund.

CONSTRUCTION AND ACQUISITION

The conferees agree to provide \$717,488,000 instead of \$646,385,000 as proposed by the House and \$631,663,000 as proposed by the Senate. The conferees agree with the direction proposed by the Senate with respect to the Rosenn Federal Courthouse in Wilkes-Barre, PA. The conferees concur with the direction provided in House Report 107-575 on the new courthouse in Chattanooga, TN, and urge the General Services Administration (GSA) to keep this project on schedule (site acquisition and design for fiscal year 2005 and construction for fiscal year 2007).

SPRINGFIELD, MASSACHUSETTS COURTHOUSE

The conferees are aware that the General Services Administration has identified more than \$2,000,000 in additional security features that exceed the original criteria for the Springfield Courthouse in Massachusetts. The conferees expect GSA to fulfill these additional security requirements within the current budget estimates for the project or through a reprogramming request.

REPAIRS AND ALTERATIONS

The conferees agree to provide \$951,529,000 instead of \$978,529,000 as proposed by the House and \$997,839,000 as proposed by the Senate. Of the amount provided, \$358,340,000 is for basic repairs and alterations. The conferees elected not to include amounts for specific projects and programs in the bill; however, the conferees direct the General Services Administration to provide the Committees on Appropriations, within 60 days of enactment of this Act, a plan for expenditure of the funds which includes the specific projects and programs to be accomplished and the amounts proposed for each.

The conferees remain concerned about the plans for repairing and upgrading the Post Office and Federal Building in Pittsburgh, PA, and direct GSA to seriously consider requesting any additional needs there might be for this project through reprogramming. The conferees agree with the Senate direction within the construction activity rather than the House direction within this account concerning the needs of the Rosenn Federal Courthouse in Wilkes-Barre, PA.

EISENHOWER EXECUTIVE OFFICE BUILDING

The conferees are keenly aware of the deplorable condition of the Eisenhower Executive Office Building and the critical need to move forward on a major multi-year repair and alteration project for this property. The conferees remain severely disappointed with information provided by the Office of Management and Budget and GSA and very concerned with the lack of clear, consistent, and timely decision-making by this Administration on this project. The conferees believe that the current lack of progress on planning the entire modernization effort does a serious disservice to the Administration and the affected personnel and that it would be premature and inappropriate to fund incomplete design efforts in a piecemeal fashion.

INSTALLMENT ACQUISITION PAYMENTS

The conferees agree to provide \$178,960,000 as proposed by the House and the Senate.

RENTAL OF SPACE

The conferees agree to provide \$3,113,211,000 instead of \$3,153,211,000 as proposed by the House and the Senate.

NOAA OPERATIONS AND SCIENCE CENTER

The conferees are aware that GSA is currently reviewing expressions of interest for an assignable land option in the College Park/Greenbelt Area of Prince George's County, Maryland, for the NOAA Operations and Science Center. Further, the conferees are concerned that the lease prospectus for this project has not been submitted to Congress for approval. Therefore, the conferees expect the Administration to submit the lease prospectus to the House Committee on Transportation and Infrastructure and the Senate Committee on Environment and Public Works for approval no later than 30 days following the enactment of this Act.

BUILDING OPERATIONS

The conferees agree to provide \$1,965,160,000 as proposed by the Senate instead of \$1,925,160,000 as proposed by the House. The conferees anticipate that the House of Representatives will be a primary tenant of FOB 8. The conferees strongly encourage GSA to move forward with the ongoing discussions with representatives of the City of Canton, Ohio, involving the Frank T. Bow Federal Building with the goal of finding suitable housing for federal tenants in the Canton area, which includes the option of building a new federal building.

ANGEL ISLAND IMMIGRATION

The conferees direct GSA to submit a report to the Committees on Appropriations within 30 days after the date of enactment on the status of the Angel Island Immigration Station which outlines the role of the GSA, the National Park Service, the National Archives, and any other relevant Federal agency in the effort to prop-

erly maintain, preserve and restore the Station as a national landmark.

POLICY AND CITIZEN SERVICES

The conferees agree to provide \$66,304,000 instead of \$65,995,000 as proposed by the House and the Senate. The conferees agree to include \$309,000 for full funding for fiscal year 2003 operations.

OPERATING EXPENSES

The conferees agree to provide \$83,663,000 instead of \$77,904,000 as proposed by the House and \$94,640,000 as proposed by the Senate. The conferees agree to include two reductions, \$6,436,000 for Governor's Island and \$5,450,000 for the full non-recur of five fiscal year 2002 items, as proposed by the House. The conferees also agree to include the following increases: \$2,000,000 as a transfer to the New York State Historical Society for exhibits, education, collections, and research associated with the September 11, 2001 terrorist attacks; \$150,000 as a transfer to the Association of Central Oklahoma Governments for establishing alternative fuel facilities; \$1,500,000 for the virtual archive storage terminal; \$300,000 for the Upper Great Plains Native American Telehealth program; \$300,000 for the University of Colorado Health Science Center's Digital Telehealth project; \$1,750,000 for the government rural outreach initiative; \$125,000 as a transfer to the North Dakota State Historical Society for the veteran's oral history project; \$1,000,000 for financial transaction software; \$250,000 as a transfer to the Boston Public Library for the Adams collection; \$250,000 as a transfer to the State of Alaska to assist in preparation for its Statehood celebration; \$250,000 as a transfer to the State of Hawaii to assist in preparation for its Statehood celebration; and \$534,000 for full funding for fiscal year 2003 operations. The conferees also direct that, should the United States Consensus Council become authorized, GSA is to provide the council \$1,000,000 from within existing funds to initiate the effort.

OFFICE OF INSPECTOR GENERAL

The conferees agree to provide \$37,916,000 instead of \$37,617,000 as proposed by the House and the Senate. The conferees agree to include \$299,000 for the full funding of fiscal year 2003 operations.

ELECTRONIC GOVERNMENT FUND

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$5,000,000 as proposed by the Senate instead of no funds as proposed by the House; the House had included \$5,000,000 within the Executive Office of the President. The conferees note that proposals for using this funding are to meet capital planning guidelines and include adequate documentation to demonstrate a sound business case, attention to security and privacy, and a way to measure performance against planned results. The Office of Management and Budget is to con-

trol the allocation of the fund and direct its use for information systems projects that affect multiple agencies and offer the greatest improvements in access and services.

ALLOWANCES AND OFFICE STAFF FOR FORMER PRESIDENTS

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$3,339,000 as proposed by the House and the Senate.

ELECTION REFORM REIMBURSEMENTS

The conferees agree to provide \$15,000,000 to GSA for a program of payments to States that obtained optical scan or electronic voting equipment for the administration of Federal elections prior to the November 2000 election. These funds are in addition to election reform funding provided in a separate Division of this Act.

GENERAL PROVISIONS—GENERAL SERVICES ADMINISTRATION

Section 401. The conferees agree to continue a provision that provides that accounts available to GSA shall be credited with certain funds received from government corporations.

Section 402. The conferees agree to continue a provision that provides that funds available to GSA shall be available for the hire of passenger motor vehicles.

Section 403. The conferees agree to continue a provision that authorizes GSA to transfer funds within the Federal Buildings Fund to meet program requirements subject to approval by the Committees on Appropriations.

Section 404. The conferees agree to continue a provision that prohibits the use of funds to submit a fiscal year 2004 budget request for courthouse construction projects that do not meet design guide criteria, do not reflect the priorities of the Judicial Conference of the United States, and are not accompanied by a standardized courtroom utilization study.

Section 405. The conferees agree to continue a provision that provides that no funds may be used to increase the amount of occupiable square feet or provide cleaning services, security enhancements, or any other service usually provided to any agency which does not pay the requested rental rates.

Section 406. The conferees agree to continue a provision that provides that funds provided by the Information Technology Fund for pilot information technology projects may be repaid to the Fund.

Section 407. The conferees agree to continue a provision as proposed by the House that allows the General Services Administration to pay claims that are less than \$250,000 without Congressional approval.

Section 408. The conferees agree to a new provision as proposed by the Senate naming a Federal building and courthouse in Gulfport, Mississippi.

Section 409. The conferees agree to a new provision as proposed by the Senate naming a Federal courthouse in Central Islip, New York.

Section 410. The conferees agree to a new provision as proposed by the Senate naming a Federal building in Denver, Colorado.

Section 411. The conferees agree to include a new provision as proposed by the Senate to permit the General Services Administration to sell a parcel of land to Hanna City, Illinois, on an installment payment basis over a 5-year period.

Section 412. The conferees agree to include a new provision as proposed by the Senate naming a Federal courthouse in Little Rock, Arkansas.

Section 413. The conferees agree to include a new provision as proposed by the Senate that authorizes the General Services Administration to acquire a certain property and move a specific building in Salt Lake City, Utah.

Section 414. The conferees agree to include a new provision naming a Federal building and courthouse in Youngstown, Ohio.

Section 415. The conferees agree to include a new provision naming a Federal courthouse in Fort Worth, Texas.

MERIT SYSTEMS PROTECTION BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$32,027,000 instead of \$31,788,000 as proposed by the House and the Senate. This includes \$239,000 to fully fund fiscal year 2003 operations.

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY TRUST FUND

The conferees agree to provide \$1,996,000 as proposed by the House and the Senate.

ENVIRONMENTAL DISPUTE RESOLUTION FUND

The conferees agree to provide \$1,309,000 as proposed by the House and the Senate.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

OPERATING EXPENSES

The conferees agree to provide \$249,875,000 instead of \$249,731,000 as proposed by the House and the Senate. The conferees agree not to include funding for the Homeland Security records activities initiative. The conferees agree to provide \$144,000 for the full funding of fiscal year 2003 operations. The conferees agree to include two provisions as proposed by the House, the first regarding the electronic records archive and the second regarding the records of the Freedman's Bureau.

REPAIRS AND RESTORATION

The conferees agree to provide \$14,208,000 as proposed by the Senate instead of \$10,458,000 as proposed by the House. The conferees agree to include \$3,750,000 for site acquisition associated with a new regional facility in Anchorage, Alaska; this work is to be conducted by the National Archives in the best and most efficient manner possible.

NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION
GRANTS PROGRAM

The conferees agree to provide \$6,500,000 instead of \$7,000,000 as proposed by the House and the Senate. Several specific concerns voiced by the Senate in its guidance have been addressed in the GSA Operating Expenses account.

OFFICE OF GOVERNMENT ETHICS

SALARIES AND EXPENSES

The conferees agree to provide \$10,557,000 instead of \$10,486,000 as proposed by the House and the Senate. This includes \$71,000 to fully fund fiscal year 2003 operations.

OFFICE OF PERSONNEL MANAGEMENT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The conferees agree to provide \$129,486,000 instead of \$128,986,000 as proposed by the House and \$128,736,000 as proposed by the Senate.

TELECOMMUTING TRAINING PROGRAM

The conferees include \$500,000 to carry out a Telecommuting Training Program as proposed by the House. The purpose of the program is to educate executive branch managers about the benefits and logistics of telecommuting. The conferees note that while the proportion of telecommuters in the Federal government increased significantly from 1 percent in 1999 to 4.2 percent in 2001, telecommuting rates at some federal agencies remain very low and manager reluctance is the most frequently cited barrier to telecommuting. The conferees believe that, under this program, an effort should be made to encourage managers, through the performance planning and evaluation process, to assess and, where appropriate, create telecommuting plans for their offices and staff. The conferees direct the Office of Personnel Management (OPM) to target executive agencies where less than 2 percent of employees telecommute.

RETIREMENT READINESS

The conferees are aware that OPM has the mission to look out for the retirement welfare of Federal employees, primarily through retirement counseling and pre-retirement seminars to agency employees. OPM has communicated to the conferees that "improving the retirement readiness of Federal employees is part of our objec-

tive to help Federal agencies use effective merit-based human capital strategies to create a rewarding work environment that accomplishes the mission." OPM has also recognized, however, that it does not currently have the resources targeted to establish a methodology to examine the real rate of Americans' "retirement readiness" and to develop a retirement education model, which is crucial for their being able to accomplish that objective. To fill this need, OPM has recognized that the International Foundation for Retirement Education (InFRE) can provide OPM with the methodology and model that they require.

OPM and InFRE have proposed that InFRE will perform a preliminary research project on the "retirement readiness" of the American worker, the scope and deliverables of which are: (1) create a research team to include members from InFRE's top retirement professional and academic resources, together with representatives from OPM, Department of Labor, and the Department of Treasury; (2) develop research and methodology to identify and define a generally acceptable index of "retirement readiness" for the individual worker or plan participant; (3) develop initial methodology and strategies with which to test for "retirement readiness" among a cross section of employee (and employer) groups, segmented by geography, income, ethnicity, gender, etc.; (4) implement a pilot program consisting of a series of diverse field tests to establish the accuracy and efficiency of the developed methodology among a cross section of the workforce; (5) analyze the findings and make any necessary changes and enhancements to the models to be employed, performing additional pilot tests as required while simultaneously identifying existing best practices and/or workforce barriers; and (6) prepare a report to OPM, Department of Labor, and Department of Treasury that will present the research project's analysis, findings, conclusions, and recommendations, to include a working definition of the widely used but yet undefined term of "retirement readiness," and outline a validated methodology for more advanced research on "retirement readiness" in the future.

The conferees concur with OPM's concerns for providing better retirement counseling, especially in light of the fast approaching retirements of the "Baby Boomer" cohort. Within the amounts provided to OPM, the conferees include \$250,000 for OPM to award as a grant or contract to InFRE to conduct the research project described in this passage and directs that OPM provide the Committees on Appropriations with a report stating the research project's progress, results and OPM's actions in light of such.

BARNSTABLE COUNTY, MASSACHUSETTS

The conferees are aware that on October 1, 2002, the Federal Salary Council recommended that Barnstable County be included as part of the Boston-Worcester-Lawrence, MA-NH-ME-RI-CT Locality Pay Area (LPA). The conferees are also aware that the President's Pay Agent did not act on that recommendation. The conferees direct OPM to study the impact of this decision on recruitment and retention efforts of Federal agencies with offices in this Locality Pay Area and provide a detailed report to the Committees on Appropriations within 45 days after enactment of this Act. Addi-

tionally, the conferees direct OPM to consider the Connecticut River Valley for inclusion into the Hartford Locality Pay Area because of the difficulties some Federal agencies have documented in retaining and attracting Federal employees in the Connecticut River Valley.

OFFICIAL TIME

The conferees are aware that the Director of OPM has instructed departments and agencies to report on the numbers of hours of official time used by employees to perform representational activities and that this information was to have been submitted to OPM by October 31, 2002. The conferees direct OPM to provide a report on official time to the Committees on Appropriations no later than June 1, 2003.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The conferees agree to provide \$1,519,000 instead of \$1,498,000 as proposed by the House and the Senate. This includes \$21,000 to fully fund fiscal year 2003 operations.

OFFICE OF SPECIAL COUNSEL

SALARIES AND EXPENSES

The conferees agree to provide \$12,449,000 instead of \$12,432,000 as proposed by the House and \$12,434,000 as proposed by the Senate. This includes \$15,000 to fully fund fiscal year 2003 operations.

UNITED STATES TAX COURT

SALARIES AND EXPENSES

The conferees agree to provide \$37,305,000 as proposed by the House and the Senate.

WHITE HOUSE COMMISSION ON THE NATIONAL MOMENT OF REMEMBRANCE

The conferees agree to provide \$250,000 as proposed by the House and the Senate.

TITLE V—GENERAL PROVISIONS

THIS ACT

Section 501. The conferees agree to continue the provision limiting the expenditure of funds to the current year unless expressly provided in this Act.

Section 502. The conferees agree to continue the provision limiting the expenditure of funds for consulting services under certain conditions.

Section 503. The conferees agree to continue the provision prohibiting the use of funds to engage in activities that would prohibit the enforcement of section 307 of the 1930 Tariff Act.

Section 504. The conferees agree to continue the provision concerning employment rights of Federal employees who return to their civilian jobs after assignment with the Armed Forces.

Section 505. The conferees agree to continue the provision that requires compliance with the Buy American Act.

Section 506. The conferees agree to continue the provision regarding the purchase of American-made equipment and products.

Section 507. The conferees agree to continue the provision prohibiting contract eligibility where fraudulent intent has been proven in affixing "Made in America" labels.

Section 508. The conferees agree to continue the provision providing that fifty percent of unobligated balances may remain available for certain purposes.

Section 509. The conferees agree to continue the provision restricting the use of funds for the White House to request official background reports without the written consent of the individual who is the subject of the report.

Section 510. The conferees agree to continue the provision that cost accounting standards under the Federal Procurement Policy Act shall not apply to the Federal Employees Health Benefits Program.

Section 511. The conferees agree to continue a provision regarding non-foreign area cost of living adjustments.

Section 512. The conferees agree to continue a provision prohibiting the use of funds by any person or entity convicted of violating the Buy American Act.

Section 513. The conferees agree to include a new provision increasing the size of the endowment for future Presidential libraries, as proposed by the Senate.

Section 514. The conferees agree to include a new provision prohibiting the transfer of funds in this Act to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or a transfer authority provided in, this Act or any other Appropriations Act, as proposed by the House.

Section 515. The conferees agree to modify and continue the provision prohibiting the transfer of control over the Federal Law Enforcement Training Center.

Section 516. The conferees agree to continue the provision prohibiting the expenditure of funds for abortions under the FEHBP.

Section 517. The conferees agree to continue the provision that would authorize the expenditure of funds for abortions under the FEHBP if the life of the mother is in danger or the pregnancy is a result of an act of rape or incest.

Section 518. The conferees agree to include a new provision concerning procurement of goods made with forced or indentured child labor, as proposed by the Senate.

TITLE VI—GENERAL PROVISIONS

DEPARTMENTS, AGENCIES AND CORPORATIONS

Section 601. The conferees agree to continue the provision authorizing agencies to pay costs of travel to the United States for the immediate families of Federal employees assigned to foreign duty in the event of a death or a life threatening illness of the employee.

Section 602. The conferees agree to continue the provision requiring agencies to administer a policy designed to ensure that all of its workplaces are free from the illegal use of controlled substances.

Section 603. The conferees agree to continue the provision regarding price limitations on vehicles to be purchased by the Federal Government.

Section 604. The conferees agree to continue the provision allowing funds made available to agencies for travel to also be used for quarters allowances and cost-of-living allowances.

Section 605. The conferees agree to continue the provision prohibiting the Federal Government, with certain specified exceptions, from employing non-U.S. citizens whose posts of duty would be in the continental U.S.

Section 606. The conferees agree to continue the provision ensuring that agencies will have authority to pay GSA bills for space renovation and other services.

Section 607. The conferees agree to continue the provision allowing agencies to finance the costs of recycling and waste prevention programs with proceeds from the sale of materials recovered through such programs.

Section 608. The conferees agree to continue the provision providing that funds may be used by certain groups to pay rent and other service costs in the District of Columbia.

Section 609. The conferees agree to continue the provision prohibiting the use of funds to pay the salary of any nominee after the Senate voted not to approve the nomination.

Section 610. The conferees agree to continue the provision precluding the financing of groups by more than one Federal agency absent prior and specific statutory approval.

Section 611. The conferees agree to continue the provision authorizing the Postal Service to employ guards and give them the same special police powers as GSA guards.

Section 612. The conferees agree to continue the provision prohibiting the use of funds for enforcing regulations disapproved in accordance with the applicable law of the U.S.

Section 613. The conferees agree to continue the provision limiting the pay increases of certain prevailing rate employees.

Section 614. The conferees agree to continue the provision limiting the amount of funds that can be used for redecoration of offices under certain circumstances.

Section 615. The conferees agree to continue the provision prohibiting the expenditure of funds for the acquisition of additional law enforcement training facilities.

Section 616. The conferees agree to continue the provision to allow for interagency funding of national security and emergency telecommunications initiatives.

Section 617. The conferees agree to continue the provision requiring agencies to certify that a Schedule C appointment was not created solely or primarily to detail the employee to the White House.

Section 618. The conferees agree to continue the provision requiring agencies to administer a policy designed to ensure that all of its workplaces are free from discrimination and sexual harassment.

Section 619. The conferees agree to continue the provision prohibiting the importation of any goods manufactured by forced or indentured child labor.

Section 620. The conferees agree to continue the provision prohibiting the payment of the salary of any employee who prohibits, threatens or prevents another employee from communicating with Congress.

Section 621. The conferees agree to continue the provision prohibiting Federal training not directly related to the performance of official duties.

Section 622. The conferees agree to continue the provision prohibiting the expenditure of funds for implementation of agreements in nondisclosure policies unless certain provisions are included.

Section 623. The conferees agree to continue the provision prohibiting use of appropriated funds for publicity or propaganda designed to support or defeat legislation pending in Congress.

Section 624. The conferees agree to continue the provision prohibiting any Federal agency from disclosing an employee's home address to any labor organization, absent employee authorization or court order.

Section 625. The conferees agree to continue the provision prohibiting funds to be used to provide non-public information such as mailing or telephone lists to any person or organization outside the Federal Government without the approval of the Committees on Appropriations.

Section 626. The conferees agree to continue the provision prohibiting the use of funds for propaganda and publicity purposes not authorized by Congress.

Section 627. The conferees agree to continue the provision directing agency employees to use official time in an honest effort to perform official duties.

Section 628. The conferees agree to modify and continue the provision authorizing the use of funds to finance an appropriate share of the Joint Financial Management Improvement Program.

Section 629. The conferees agree to modify and continue the provision authorizing agencies to transfer funds to the Policy and Citizen Services account of GSA to finance an appropriate share of the Joint Financial Management Improvement Program and other purposes.

Section 630. The conferees agree to continue the provision authorizing breastfeeding at any location in a Federal building or on Federal property.

Section 631. The conferees agree to continue the provision that permits interagency funding of the National Science and Technology Council and provides for a report on the budget and resources of the National Science and Technology Council.

Section 632. The conferees agree to continue the provision requiring that any request for proposals, solicitation, grant application, form, notification, press release, or other publications involving the distribution of Federal funds shall indicate the agency providing the funds and the amount provided. This provision shall apply to direct payments, formula funds, and grants received by a State receiving Federal funds.

Section 633. The conferees agree to modify and continue the provision to extend the authorization for franchise fund pilots for one year, as proposed by the House and Senate.

Section 634. The conferees agree to continue the provision to prohibit the use of funds to monitor personal information relating to the use of Federal Internet sites.

Section 635. The conferees agree to continue the provision addressing contraceptive coverage in health plans participating in the FEHBP with exceptions.

Section 636. The conferees agree to continue the provision clarifying that the US Anti-Doping Agency is the official anti-doping agency for Olympic games.

Section 637. The conferees agree to include a new provision regarding the adjustment in rates of basic pay for Federal employees that takes effect in fiscal year 2003, as proposed by the House and Senate, with technical modifications. The conferees endorse the Federal Salary Council's recommendation for allocating locality pay in its October 17, 2002, Memorandum to the President's Pay Agent.

Section 638. The conferees agree to continue the provision directing the Inspector General of applicable departments and agencies to submit a report detailing policies or procedures they have in place to ensure compliance with the Rural Development Act of 1972.

Section 639. The conferees agree to include a new provision expressing the sense of the Congress regarding the United States Postal Service funding of Civil Service Retirement System benefits, as proposed by the Senate, with a modification.

Section 640. The conferees agree to include a new provision expressing the sense of the Congress regarding pay parity between uniformed employees and civilian employees, including wage grade civilian employees, as proposed by the Senate.

Section 641. The conferees agree to include a new provision directing the General Services Administration to accept all right, title, and interest in a certain piece of real property in Boca Raton, Florida, as proposed by the Senate, with modifications.

Section 642. The conferees agree to include a new provision changing the definition of average pay for certain Secret Service retirees for purposes of determining their annual retirement annuity, as proposed by the House, with technical modifications.

Section 643. The conferees agree to include a new provision creating a sunset clause for Section 902(b) of the Law Enforcement Pay Equity Act of 2000 (as enacted into law by Public Law 106-554), as proposed by the House, with technical modifications.

Section 644. The conferees agree to include a new provision prohibiting the use of funds to facilitate the release of certain law enforcement database information in response to requests made

under the Freedom of Information Act, as proposed by the House, with technical modifications.

Section 645. The conferees agree to include a new provision amending Section 9505(d) of title 5 to allow Internal Revenue Service Senior Executive Service employees to be eligible to receive the same bonus payments as other Federal Senior Executive Service employees, as proposed by the House.

Section 646. The conferees agree to include a new provision prohibiting the use of funds to implement or enforce regulations relating to the determination that real estate brokerage is an activity that is financial in nature or incidental to a financial activity, as proposed by the House.

Section 647. The conferees agree to include a new provision prohibiting the use of funds to establish, apply or enforce any numerical goal, target, or quota for contracting out, as proposed by the Senate.

Section 648. The conferees agree to include a technical correction regarding benefits for air traffic controllers.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follow:

New budget (obligational) authority, fiscal year 2002	\$33,817,112
Budget estimates of new (obligational) authority, fiscal year 2003	34,276,280
House bill, fiscal year 2003	34,821,460
Senate bill, fiscal year 2003	34,533,464
Conference agreement, fiscal year 2003	34,653,476
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	+836,364
Budget estimates of new (obligational) authority, fiscal year 2003	+377,196
House bill, fiscal year 2003	- 167,984
Senate bill, fiscal year 2003	+120,012

DIVISION K

VETERANS AFFAIRS, HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES APPROPRIATIONS

The language and allocations set forth in House Report 107-740 and the Senate explanatory statement as delineated in the *Congressional Record* of January 15, 2003, pages S356 through S410 should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Report language included by the House which is not changed by the report of the Senate or the conference and Senate report language which is not changed by the conference is approved by the committee of the conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

OPERATING PLAN AND REPROGRAMMING PROCEDURES

The conferees continue to have a particular interest in being informed of reprogrammings which, although they may not change either the total amount available in an account or any of the purposes for which the appropriation is legally available, represent a significant departure from budget plans presented to the Committees in an agency's budget justifications, the basis of this appropriations Act.

Consequently, the conferees direct the Departments, agencies, boards, commissions, corporations and offices funded at or in excess of \$100,000,000 in this bill, to consult with the Committee on Appropriations in both the House and Senate prior to each change from the approved budget levels in excess of \$500,000 between programs, activities, object classifications or elements unless otherwise provided for in the statement of the managers accompanying this Act. For agencies, boards, commissions, corporations and offices funded at less than \$100,000,000 in this bill, the reprogramming threshold shall be \$250,000 between programs, activities, object classifications or elements unless otherwise provided for in the statement of the managers accompanying this Act. Additionally, the conferees expect the Committees on Appropriations to be promptly notified of all reprogramming actions which involve less than the above-mentioned amounts. If such actions would have the effect of significantly changing an agency's funding requirements in future years, or if programs or projects specifically cited in the statement of the managers or accompanying reports of the House and Senate are affected by the reprogramming, the reprogramming must be approved by the Committees on Appropriations regardless of the amount proposed to be moved. Furthermore, the conferees direct that the Committees on Appropriations be consulted regarding reorganizations of offices, programs, and activities prior to the planned implementation of such reorganizations.

The conferees also direct that the Departments of Veterans Affairs and Housing and Urban Development, as well as the Corporation for National and Community Service, the Environmental Protection Agency, the Federal Emergency Management Agency, the National Aeronautics and Space Administration, the National Science Foundation, the Consumer Product Safety Commission, and the Chemical Safety and Hazard Investigation Board shall submit operating plans, signed by the respective secretary, administrator, or agency head, for review by the Committees on Appropriations of both the House and Senate within 60 days of the bill's enactment. Other agencies within this Act should continue to submit operating plans consistent with prior year policy, or as directed in this statement of the managers.

The conferees reiterate language proposed by the House regarding the Committees' longstanding position that while the Committees reserve the right to call upon all offices in the departments, agencies, boards, and commissions, access to the budget offices is essential.

TITLE I—DEPARTMENT OF VETERANS AFFAIRS

Of the amounts approved in the appropriations accounts in this title, the Department must limit transfers of funds between objectives to not more than \$500,000, except as specifically noted, without prior approval of the Committees. No changes may be made to any account or objective, except as approved by the Committees, if it is construed to be policy or change in policy. Any activity or program cited in the statement of the managers shall be construed as the position of the conferees and should not be subject to reductions or reprogramming without prior approval of the Committees. It is the intent of the conferees that all carryover funds in the various appropriations accounts are subject to the normal reprogramming requirements outlined above. The Department is expected to comply with all normal rules and regulations in carrying out these directives. Finally, the Department should continue to notify the Committees regarding reorganizations of offices, programs, or activities prior to the planned implementation of such reorganizations.

VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$28,949,000,000 for compensation and pensions as proposed by both the House and the Senate, of which not more than \$17,138,000 is to be transferred to general operating expenses and medical care.

READJUSTMENT BENEFITS

Appropriates \$2,264,808,000 for readjustment benefits as proposed by both the House and the Senate.

VETERANS INSURANCE AND INDEMNITIES

Appropriates \$27,530,000 for veterans insurance and indemnities as proposed by both the House and the Senate.

VETERANS HOUSING BENEFIT PROGRAM FUND PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates such sums as may be necessary for costs associated with direct and guaranteed loans from the veterans housing benefit program fund program account as proposed by both the House and the Senate, plus \$168,207,000 to be transferred to and merged with general operating expenses.

Deletes the reporting requirement regarding the continuation of the vendee loan program as proposed by the House.

EDUCATION LOAN FUND PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$1,000 for the costs of direct loans from the education loan fund program account as proposed by both the House

and the Senate, plus \$70,000 to be transferred to and merged with general operating expenses.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$55,000 for the costs of direct loans from the vocational rehabilitation loans program account as proposed by both the House and the Senate, plus \$289,000 to be transferred to and merged with general operating expenses.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$558,000 for administrative expenses of the native American housing loan program account to be transferred to and merged with general operating expenses as proposed by both the House and the Senate. Retains the loan limitation of \$5,000,000 for the program as proposed by the House.

GUARANTEED TRANSITIONAL HOUSING LOANS FOR HOMELESS
VETERANS

PROGRAM ACCOUNT

Provides up to \$750,000 of the funds available in medical care and general operating expenses to carry out the guaranteed transitional housing loans for homeless veterans program as proposed by both the House and the Senate. Retains the reporting requirement regarding the status of the grant program as proposed by the House with a new reporting date of June 2, 2003.

VETERANS HEALTH ADMINISTRATION

MEDICAL CARE

Appropriates \$23,889,304,000 for medical care as proposed by both the House and the Senate.

Deletes bill language proposed by the House and the Senate delaying the availability of funds for equipment and land and structures until August 1, 2002 remaining available until September 30, 2003.

Retains bill language making \$900,000,000 available until September 30, 2004 as proposed by the House and the Senate.

Retains bill language providing the Secretary with the authority to establish a true priority system for veterans seeking medical care as proposed by the Senate. The House did not include a similar provision.

Deletes bill language providing \$15,000,000 from medical care funds for CARES projects as proposed by the Senate. The House did not include a similar provision.

Deletes bill language allowing the Secretary to designate additional funds for CARES as proposed by the Senate. The House did not include a similar provision.

Amends the reporting requirement regarding the plan for reducing waiting lists as proposed by the Senate with a new reporting date consistent with submission of the Operating Plan.

The conferees are concerned with increasing instances of inaccurate physician time and attendance reports and expect the Secretary to provide strong oversight in this area.

Amends the reporting requirement regarding the status of the Fort Howard VAMC as proposed by the Senate with a new reporting date of March 31, 2003.

Retains the reporting requirement proposed by the Senate regarding submission of the final report of the White House Commission on Complementary and Alternative Medicine Policy.

Retains language proposed by the Senate regarding the need for an independent property appraisal of the Lakeside VAMC facility. The establishment of community based outpatient clinics in Wisconsin and Illinois, and the rehabilitation and expansion of the West Side VAMC campus would be greatly enhanced by a fair market disposition of Lakeside and the conferees urge the VA to move forward expeditiously with the VISN 12 CARES implementation.

The conferees are concerned that the VA is attempting to expand its activities in the name of homeland security. The Committees on Appropriations in both the House and the Senate are working to ensure programs and resources are available for the Department of Homeland Security (DHS) to fulfill its mission, for individual agencies to protect their own workforce and patrons, and still avoid redundancy in spending and effort. The funds provided to the VA are meant to deliver quality care and services to our Nation's veterans and their families and the conferees expect this to be VA's primary mission. Coordination and implementation of the Nation's homeland security is the responsibility of the DHS, and the conferees trust that DHS will inform the Committees if funds and directives are needed to involve VA in additional duties for security. To this end, the conferees direct that no more than \$110,000,000 shall be available in medical care or the medical care collections fund for security training and equipment.

MEDICAL CARE COLLECTIONS FUND

(INCLUDING TRANSFER OF FUNDS)

Retains bill language transferring receipts from the collections fund to medical care as proposed by both the House and the Senate.

The conferees remain concerned with VA's continued lackluster performance in the collection of third party receipts and direct the VA to decline performance awards for facility directors and collection teams which do not meet a 60-day billing time for third-party billing or cut the third-party billing time in half.

Retains report language regarding the billing demonstration at a level of not less than \$3,000,000 as proposed by the House. The conferees direct quarterly reports on the status of the billing demonstration project beginning on March 3, 2003.

MEDICAL AND PROSTHETIC RESEARCH

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$400,000,000 for medical and prosthetic research as proposed by the Senate instead of \$405,000,000 as proposed by

the House. Retains bill language transferring \$5,000,000 to medical care for research oversight activities as proposed by the House. The Senate did not include a similar provision.

The conferees direct the continued partnership with the National Technology Transfer Center at the current level of effort.

MEDICAL ADMINISTRATION AND MISCELLANEOUS OPERATING
EXPENSES

Appropriates \$74,716,000 for medical administration and miscellaneous operating expenses as proposed by the House instead of \$69,716,000 as proposed by the Senate. Provides \$3,000,000 of the funds for two-year obligation instead of \$3,861,000 as proposed by the Senate and one-year availability for all funds as proposed by the House.

DEPARTMENTAL ADMINISTRATION
GENERAL OPERATING EXPENSES

Appropriates \$1,254,000,000 for general operating expenses instead of \$1,251,418,000 as proposed by the House and \$1,256,418,000 as proposed by the Senate.

Provides \$66,000,000 to be available for two-year obligation instead of \$60,000,000 as proposed by the House and \$65,800,000 as proposed by the Senate.

Provides not less than \$992,100,000 for the Veterans Benefits Administration (VBA) as proposed by the House. The Senate specified \$992,000,000 in report language for VBA.

The conferees direct that the Offices of the Board of Contract Appeals and Board of Veterans Appeals, and the Offices of Assistant Secretaries for Management, Information Technology, Human Resources, and Policy and Planning be funded at not less than the budget request minus the proposed accrual benefit transfer. The conferees have not provided funds for a new Assistant Secretary of Operations, Security and Preparedness, and maintain that coordination of the Department's programs in this area can be accomplished by a director under the Office of the Secretary, and implementation of the Department's plan can be executed by the existing undersecretaries.

Retains language proposed by the House designating \$100,000 of the funds provided to VBA for a position description evaluation conducted by the Office of Personnel Management.

NATIONAL CEMETERY ADMINISTRATION

Appropriates \$133,149,000 for the National Cemetery Administration as proposed by both the House and the Senate. Provides \$6,000,000 of the funds are available for two-year obligation instead of \$6,912,000 as proposed by the Senate and one-year availability for all funds as proposed by the House.

The conferees direct VA to use the criteria and findings of the National Shrine Study when planning and budgeting for new and expanded cemetery projects.

OFFICE OF INSPECTOR GENERAL

Appropriates \$58,000,000 for the Office of Inspector General instead of \$61,000,000 as proposed by the House and \$55,000,000 as proposed by the Senate. The funds are available for two-year obligation as proposed by the Senate, instead of one-year availability as proposed by the House.

CONSTRUCTION, MAJOR PROJECTS

Appropriates \$99,777,000 for construction, major projects instead of \$193,740,000 as proposed by the House and \$144,790,000 as proposed by the Senate. Regrettably, under the stringent budget conditions the conferees have agreed not to provide funding for the four proposed seismic projects, but note the absence of final authorization as required by law or a completed CARES study for any of the proposed projects. The conferees are extremely concerned about the safety of VA employees and patients. The conferees strongly urge the Secretary to complete expeditiously the CARES reviews, consider safety improvements and seismic retrofit needs when evaluating capital assets under CARES, and factor safety concerns when establishing the priority list of construction projects under the CARES realignment. Further, the conferees urge the authorizing committees to act quickly, and without prejudice, when authorizing the CARES construction projects proposed by the Secretary and the CARES Commission.

The conferees remain concerned about the criteria used by the Department and the Capital Improvement Board in that the construction projects put forth in the budget requests do not necessarily reflect the true priorities or initiatives of the Department. The conferees direct the Department to establish a 5-year strategic plan for capital asset management, construction and improvement of all VA's infrastructure needs including, but not limited to, major construction, minor construction, research facilities, safety and seismic improvements, and improved access to veterans. The Department shall submit a description of the priority-setting criteria and an estimated cost by VISN by year with the plan by May 15, 2003. The conferees direct VA to submit for funding consideration only projects which are (1) CARES approved, (2) in the 5-year plan, (3) a top priority for the VISN, (4) preliminary design complete, and (5) authorized prior to completion of the annual appropriations Act. With the submission of the 5-year plan, the conferees delete the direction proposed by the House regarding full funding of any announced CARES decision.

Amends the reporting requirement regarding the evaluation criteria used to prioritize CARES improvement projects with a new reporting date of June 2, 2003.

CONSTRUCTION, MINOR PROJECTS

Appropriates \$226,000,000 for construction, minor projects instead of \$240,700,000 as proposed by the House and \$210,700,000 as proposed by the Senate. The conferees strongly urge the Department to give more consideration and a greater percentage of available funds for quality and safety improvements to research facilities.

Retains language proposed by the House directing projects to be consistent with CARES initiatives and national cemetery studies. The conferees direct reporting on all minor construction projects for fiscal year 2003 by network, region and office due with the Operating Plan.

Of funds provided over the budget request, the conferees direct \$2,000,000 for water utility improvements at the Bay Pines National Cemetery, as cited in the National Shrine Commitment nation-wide study.

The conferees encourage improving entrance accessibility at the Syracuse VAMC.

PARKING REVOLVING FUND

Allows for receipts from the parking revolving fund to be available for obligation as proposed by both the House and the Senate.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

Appropriates \$100,000,000 for grants for construction of state extended care facilities as proposed by both the House and the Senate.

GRANTS FOR CONSTRUCTION OF STATE VETERANS CEMETERIES

Appropriates \$32,000,000 for grants for construction of state veterans cemeteries as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

Retains twelve administrative provisions proposed by both the House and the Senate, eleven of which were included in the fiscal year 2002 bill.

Retains language proposed by the House and the Senate eliminating the health services improvement fund, depositing all receipts in the medical care collections fund, and permanently extending the Department's authority to collect prescription co-payments.

Retains language proposed by the House allowing the Department to reimburse from fiscal year 2003 salary and expenses accounts for services rendered to the Office of Resolution Management up to \$29,318,000 and the Office of Employment Discrimination Complaint Adjudication up to \$3,010,000. The Senate proposed a similar provision with technical differences.

Retains language proposed by the House limiting funds for medical treatment of non-service connected veterans to those who have provided accurate insurance and annual income information.

Deletes language proposed by the House delaying the implementation of the geographic means test for one year.

Deletes language proposed by the House prohibiting funds in the Act to be used to adjudicate claims arising from new concurrent receipt legislation. The conferees note that the Veterans Benefits Administration will be able to handle the claims caseload within the proposed funding level.

Retains language proposed by the House providing \$19,900,000 of VA's total information technology budget for enterprise architecture activities under the Office of the Chief Information Officer.

Amends language proposed by the House regarding implementation of Public Law 107-287 by prohibiting funds for implementation of section 2 and section 5.

Deletes language proposed by the House limiting funds in medical care and the medical care collections fund for security training and equipment to \$110,000,000. Directive report language is instead included under medical care.

Adds language exempting funds provided in medical care from the across-the-board rescission in Division N.

TITLE II—DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

The conferees restate the reprogramming requirements with respect to amounts approved for each appropriations account within this title. The Department must limit the reprogramming of funds between the programs, projects, and activities within each account to not more than \$500,000 without prior approval of the Committees on Appropriations. Unless otherwise identified in this statement of managers or committee reports, the most detailed allocation of funds presented in the budget justifications shall be considered to be approved, with any deviation from such approved allocation subject to the normal reprogramming requirements outlined above. Further, it is the intent of the conferees that all carry-over funds in the various accounts, including recaptures and deobligations, are subject to the normal reprogramming requirements outlined above. Further, no changes may be made to any program, project, or activity if it is construed to be policy or a change in policy, without prior approval of the Committees. Finally, the conferees expect to be notified regarding reorganizations of offices, programs or activities prior to the planned implementation of such reorganizations, as well as be notified, on a monthly basis, of all ongoing litigation, including any negotiations or discussions, planned or ongoing, regarding a consent decree between the Department and any other entity.

PUBLIC AND INDIAN HOUSING

HOUSING CERTIFICATE FUND

(INCLUDING TRANSFER AND RESCISSION OF FUNDS)

Appropriates \$17,223,566,000 instead of \$16,586,987,000 as proposed by the House and \$16,928,697,000 as proposed by the Senate. The conference agreement does not include language proposed by the Senate to fund a portion of the section 8 voucher program through an indefinite appropriation.

The conference agreement provides a total of \$12,335,932,000 for section 8 voucher renewal costs, instead of \$11,751,000,000 as proposed by the House, \$12,076,210,908 as proposed by the Senate, and \$12,526,402,608 requested in the budget submission. The amount included assumes a 94 percent lease-up rate of the total number of authorized vouchers, adjusted to reflect an estimated na-

tional average cost of \$6,372 per unit instead of the \$6,005 per unit cost assumed in the budget request and assumed by the House and the Senate. The conference agreement includes language, modified from language proposed by the House, to fund section 8 vouchers in a manner that more closely reflects the actual funding requirements of the section 8 voucher program. This approach adopted by the conferees is designed to avoid the appropriation of funds in excess of actual requirements that in previous years has resulted in recaptures of funds in excess of \$1,000,000,000 (and often substantially more) annually while still including sufficient flexibility to ensure that those PHAs that are able to increase their voucher usage are provided the necessary funds to assist additional families, up to their authorized level. The conferees strongly encourage PHAs that are currently below their authorized voucher level to continue to make efforts to increase the number of families assisted with section 8 vouchers.

Further, the conferees direct the Department to ensure that sufficient staffing and information technology resources are provided in fiscal year 2003 to ensure that the changes made to the section 8 program are fully implemented.

In lieu of any direction included in the House and Senate reports, the Department is directed to use the guidance set forth below in administering the programs under this account in fiscal year 2003.

The conference agreement includes language to allocate funds among the various activities as proposed by the House. Funds are allocated as follows:

Contract Renewals.—\$15,278,370,500 for renewals of expiring section 8 project-based assistance contracts, amendments to section 8 project-based contracts, renewals of expiring section 8 vouchers (including enhanced vouchers), and for renewals of contracts entered into pursuant to the Emergency Low-Income Housing Preservation Act, the Low-Income Housing Preservation and Resident Homeownership Act, and section 441 of the McKinney-Vento Homeless Assistance Act.

Language is included, modified from language proposed by the House, to renew expiring section 8 tenant-based annual contributions contracts for each public housing agency based on the total number of unit months reported under lease by the PHA on its most recent end-of-year financial statement adjusted by such additional timely and reliable information submitted by the PHA to reflect the actual number of unit months under lease at the time of contract renewal, and adjusted for local and regional inflation factors. Language is also included, modified from language proposed by the House, regarding the allocation of funds to PHAs participating in the Moving to Work demonstration. The conferees note that the amounts provided for fiscal year 2003 renewals have been increased to reflect the most recent estimate of a national average per-unit cost (PUC) of \$6,372, instead of the \$6,005 PUC assumed in the budget submission.

Language is included prohibiting funds made available for contract renewals from being provided to a PHA to fund a total number of units under lease in excess of such PHA's authorized level of units. However, the conferees encourage PHAs to use the flexi-

bilities provided in this Act to continue to increase the number of families assisted up to their authorized level.

Consistent with the manner in which section 8 project-based administrative costs are funded, the conference agreement includes funds for administrative expenses for the section 8 voucher program separately as proposed by the House, instead of including funds for this purpose within the amount provided for section 8 vouchers renewals as proposed by the Senate. Amounts provided for renewals are only to be used for rental subsidy costs.

Language is not included directing the Secretary to enter into contracts to renew 2,077,336 vouchers as proposed by the Senate. The House did not include a similar provision.

Central Reserve Fund.—\$391,922,000 for a central reserve fund to be allocated by the Secretary for amendments to section 8 annual contributions contracts. Language is included, modified from language proposed by the House, allowing the Secretary to use amounts made available in such fund to address significant increases in per unit costs for vouchers and for costs associated with increases in the number of vouchers under lease as compared to the number of vouchers under lease at the time of the PHA's contract renewal. The conference agreement requires that PHAs use a portion of their program reserves for these purposes prior to requesting funds from the central fund to replenish such reserves. A total of \$938,000,000 is available in fiscal year 2003 in program reserve accounts derived from amounts provided from other sources. The conferees note that each PHA is provided an 8 percent program reserve account at the beginning of each year, which is an additional one-month's worth of funding in addition to estimated actual requirements, to address any increased per unit costs and to allow a PHA to increase their voucher usage up to their authorized level. The conference agreement reflects the most current per unit cost data, and provides additional funds for vouchers over the amounts proposed by both the House and Senate to accommodate this known increased cost. Therefore, the conferees strongly encourage those PHAs that are below their total authorized voucher level to use amounts available in their program reserve accounts to make every effort to increase their voucher lease-up rate. To facilitate that effort, language is included requiring the Secretary to make the necessary amounts available from the central fund to any PHA that has obligated the amounts it has been provided for contract renewals and has expended fifty percent of the amounts available in its program reserve account. Once these requirements are met, the Secretary is required to replenish such reserves as necessary within thirty days of a request from such agency.

Modified language is included, similar to language proposed by the House, requiring the Secretary to submit quarterly reports to the Committees on Appropriations on the obligation of funds provided in this paragraph. Such report shall include, at a minimum, the following: the amounts made available from the central fund provided to replenish program reserves which are held by PHAs, delineated by PHA; the purpose for which the funds were provided; and the total balance remaining in the fund. The first such report is due no later than July 31, 2003.

Funds provided in the central fund are only to be used for rental subsidies. Funding for administrative expenses is provided separately under this account.

Language is included prohibiting funds made available in the central fund from being used to support a total number of units under lease in excess of a PHA's authorized level of units.

Language is not included to allow the central fund to be used to provide additional incremental vouchers to high performing public housing agencies as proposed by the House. The Senate did not include similar language.

Language is not included to allow the central fund to be used to reallocate vouchers among public housing agencies as proposed by the Senate. The House did not include similar language. In addition, the conference agreement does not include language requiring the reallocation of vouchers among public housing agencies as proposed by the Senate. The House did not include a similar provision.

Language is not included to provide an indefinite appropriation for the Section 8 voucher program to make additional funds from the Treasury available should amounts appropriated be insufficient. The House did not include a similar provision.

Tenant Protection.—\$234,016,500 for rental subsidies for tenant protection activities to replace project-based section 8 assistance with section 8 vouchers, for conversion of section 202 and section 23 projects to section 8 assistance, for the family reunification program, and for the witness protection program.

Funds included for tenant protection are only to be used for rental subsidies since funds for administrative expenses are provided separately under this account.

Family Self Sufficiency Coordinators.—\$48,000,000 for service coordinator staff in each public housing agency, instead of \$46,000,000 as proposed by the House. The Senate did not allocate a specific amount for this purpose.

Administrative Costs—Section 8 Voucher Program.—Not to exceed \$1,072,257,000 for PHA administrative costs and other expenses, of which \$69,547,000 is for associated administrative expenses related to new tenant protection vouchers and additional vouchers supported from the central fund. The House proposed a total of \$1,177,000,000 for this purpose, including \$50,000,000 for new vouchers. The Senate did not allocate a specific amount for this purpose.

Language is included determining the distribution of funds provided as authorized under section 8(q) of the United States Housing Act of 1937, as in effect immediately before the enactment of the Quality Housing and Work Responsibility Act of 1998 as proposed by the Senate. Language is not included limiting administrative fees and other expenses to no more than 10 percent of the rental subsidy paid and requiring administrative fee reserve balances to be used exclusively to support the section 8 program as proposed by the House. The conferees remain concerned that many PHAs have accumulated significant excess balances in reserve accounts from unspent section 8 administrative fees. Language is included prohibiting fiscal year 2003 fee payments from being made to any PHA unless such PHA reports to the Secretary on the

amounts remaining in their administrative fee reserve account as of January 31, 2003. Language is also included reducing fiscal year 2003 fee payments to any PHA by any such amounts remaining available in such PHA's administrative fee reserves which exceed 105 percent of the amount of fees paid to such agency in fiscal year 2002, but exempts those PHAs whose fiscal year 2003 payments will not exceed \$100,000. Language is also included requiring the Secretary to recapture any fiscal year 2003 funds provided to a PHA which are in excess of the amounts expended by such PHA for the section 8 voucher program and that are not otherwise needed to maintain an administrative fee reserve account balance of not to exceed five percent. Modified language is also included, similar to language proposed by the House, requiring the Secretary to provide a report to the Committees on Appropriations no later than July 1, 2003 on the administrative costs and other expenses associated with the section 8 voucher program. Such report shall include, but not be limited to, the following: the total amount of administrative fees paid compared to the actual amount of fees expended to administer the section 8 voucher program in fiscal year 2002; the total amount of administrative fee reserve funds used in fiscal year 2002 by PHAs to support non-section 8 voucher programs, and the purposes for which the funds were used; a comparison of the administrative fee structure used for the section 8 voucher program as compared to the project-based subsidy program; and recommendations for changes to the section 8 voucher program administrative fee structure to better align fees with actual costs. The conferees agree that the Committees on Appropriations will take the results of this study into consideration when making future funding decisions, including the appropriate level of administrative fee reserves. The Senate did not propose similar language.

Administrative Costs—Project-Based Section 8 Program.—\$196,000,000 for contractors to administer the project-based section 8 program, the same amount proposed by the House and Senate.

Working Capital Fund.—Not less than \$3,000,000 for transfer to the Working Capital Fund for the development of and modifications to information technology systems as proposed by both the House and the Senate.

Includes new language allowing the Secretary to transfer up to 15 percent of the funds provided for contract renewals, the central fund and administrative fees between such activities under certain circumstances and in accordance with certain procedures. Language is also included under Administrative Provisions in this title to provide the Secretary with flexibility in applying any across-the-board rescission mandated elsewhere in this Act to funds provided in this account. The conferees have included this flexibility to ensure that any such reduction does not result in a decrease in the number of families that are currently being assisted through the section 8 voucher program.

Includes language permanently requiring all PHAs to submit accounting data for funds provided under this account in this Act or any other Act by source of funds and purpose of such funds as proposed by the House. The Senate did not include similar language.

The conference agreement does not include \$36,000,000 for incremental vouchers for disabled families as proposed by the House. The Senate did not include similar language. However, modified language is included, similar to language proposed by the Senate, to ensure that PHAs continue to make available vouchers previously provided for non-elderly disabled families to other non-elderly disabled families upon turnover. The House did not include similar language. The conferees direct the Department to review the effectiveness of section 8 vouchers in meeting the housing needs of persons with disabilities and report back to the Committees on Appropriations on its findings no later than August 15, 2003.

Includes language rescinding \$1,600,000,000 from unobligated balances of funds appropriated in fiscal year 2002 and prior years, instead of \$1,300,000,000 as proposed by the House and \$1,400,000,000 as proposed by the Senate. Includes language allowing unobligated balances in programs governed by reallocation provisions to be used to meet this rescission as proposed by the Senate. The House did not include similar language. Modified language, similar to language proposed by both the House and the Senate, is included to cancel balances from certain terminated contracts.

Language is not included requiring that amounts made available for welfare-to-work vouchers remain available in subsequent fiscal years exclusively for such families upon voucher turnover or renewal as proposed by the Senate. The House did not include similar language.

The conferees direct the Department to submit quarterly reports on the project-based section 8 program to the Committees on Appropriations which identify the number of units and properties for which owners have elected to opt-out of the project-based section 8 program or pre-pay mortgages on federally-assisted properties, and the repair needs of units remaining in the project-based section 8 program.

PUBLIC HOUSING CAPITAL FUND

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$2,730,000,000 for the public housing capital fund instead of \$2,683,400,000 as proposed by the Senate and \$2,843,400,000 as proposed by the House.

Includes modified language, similar to language proposed by the House, designating \$447,000,000 to be allocated only to those PHAs which utilized their funds in compliance with the statutory timeliness requirements pursuant to the Quality Housing and Work Responsibility Act of 1998 (QHWRA). The additional funds are to enable those PHAs to address their backlog of maintenance needs in addition to their annual maintenance requirements. The Senate did not include similar language.

Does not include language proposed by the Senate restating the applicability of the QHWRA timeliness requirements to fiscal year 1999 funds. The House did not propose a similar provision. The conferees note that this language was made permanent in the fiscal year 2002 appropriations Act.

The conferees continue to be concerned that the Department has failed to issue regulations to implement the statutory timeliness requirements of QHWRA more than four years after enactment of the statute. Until such time as final regulations are implemented, the conferees have continued the interim measures included in the fiscal year 2002 Act as a mechanism to ensure that those PHAs which have demonstrated their ability to use capital funds in a timely manner receive additional funds for their backlog maintenance needs. The conference agreement includes language, similar to language proposed by the House, directing the Secretary to issue final regulations implementing the timeliness requirements of QHWRA no later than August 1, 2003.

Includes modified language, similar to language proposed by the House and Senate, reallocating recaptured funds to PHAs designated as high-performing agencies.

Includes \$51,000,000 for technical assistance, including up to \$11,000,000 for remediation services to certain troubled PHAs as proposed by the House, instead of \$54,000,000 for technical assistance, including up to \$13,000,000 for remediation services as proposed by the Senate.

Includes no less than \$18,600,000 for information technology systems and up to \$500,000 for section 23 projects as proposed by the House. The Senate did not include similar language.

Includes up to \$50,000,000 for emergency capital needs resulting from emergencies or natural disasters instead of up to \$75,000,000 as proposed by the House and Senate. The conferees recognize the importance of emergency funds but note that given the historic use of such funds, \$50,000,000 is ample to cover emergency activities for the remainder of fiscal year 2003.

The conference agreement does not include \$100,000,000 for a new loan financing program of public housing associated with authorization legislation included as an administrative provision in this title as proposed by the Senate. However, the conferees are interested in exploring additional mechanisms to leverage private sector financing for improvements in public housing. The conferees further understand that some PHAs have used existing statutory authorities to successfully pursue private financing for such purposes. The conferees direct that the Department provide a report to the Committees on Appropriations no later than August 7, 2003, on those PHAs that have entered into private financing partnerships for capital modernization needs, and the results of those partnerships.

The conferees reiterate the direction included in the House report regarding quarterly reports on the obligation and expenditure of capital funds.

PUBLIC HOUSING OPERATING FUND

Appropriates \$3,600,000,000 for the public housing operating fund as proposed by the House instead of \$3,530,000,000 as proposed by the Senate.

Language is not included making funds available for two years as proposed by the Senate. The House did not include a similar provision.

Modified language is included, similar to language proposed by the Senate, providing up to \$250,000,000 from amounts provided to make additional fiscal year 2002 operating subsidy payments to those fourth quarter PHAs that did not receive the same level of operating assistance provided to all other PHAs. The conferees are disappointed with HUD's failure to fund the fiscal year 2002 operating subsidy payments for PHAs within the level appropriated for such purpose in fiscal year 2002. The conferees believe that HUD's repeated practice of using a portion of the funds appropriated for current year operating subsidy payments to augment the amount of prior year operating subsidy payments above the level appropriated is, at a minimum, inappropriate, and question whether such practice is in violation of appropriations law. The conferees note that this inappropriate practice has resulted in operating subsidy payments being made to PHAs at a level in excess of the amounts provided for such purpose in the appropriations Act. Therefore, the conference agreement includes language, similar to language proposed by the Senate, prohibiting funds provided for operating subsidies in fiscal year 2004 and subsequent fiscal years from being used to supplement fiscal year 2003 operating subsidy payments. The conferees reiterate the direction included in the Senate report requiring HUD to fund fiscal year 2003 operating subsidy payments solely from fiscal year 2003 funds. Further, the conferees expect the Department to have in place the necessary systems to accurately account for expenditures of operating subsidy funds.

The conferees note that, in the fiscal year 2000 appropriations Act, the Committees on Appropriations commissioned the Harvard University Graduate School of Design to conduct a study on the costs incurred to operate well-run public housing that was to then be used to inform the development of a final rule for the operating subsidy formula. The conferees understand that the final draft cost study report has recently been released and includes a number of recommendations that would result in adjustments to the operating subsidy formula to make it reflect more accurately the costs of operating well-run public housing. The recommendations indicated that PHAs can make a number of reforms consistent with the management of Federally-subsidized private and non-profit multifamily housing that would result in management and cost efficiencies in public housing. The conferees expect PHAs to adopt such practices and efficiencies, as appropriate. The conferees expect the Department to use the results and recommendations of the study as it develops a final rule for the operating subsidy formula, as directed in the fiscal year 2000 appropriations Act. Further, the conferees direct the Department to report to the Committees on Appropriations, no later than May 15, 2003, on the timeline for publishing a final operating subsidy rule and the Department's plans for using the recommendations of the cost study in the development of the final rule.

The conferees direct the Department to report to the Committees no later than August 20, 2003, on the extent to which public housing agencies have used capital funds to subsidize operating expenses and the impact of such use on critical housing rehabilitation needs. Such report should include a review of individual PHAs.

REVITALIZATION OF SEVERELY DISTRESSED PUBLIC HOUSING (HOPE VI)

Appropriates \$574,000,000 for the revitalization of severely distressed public housing program (HOPE VI) as proposed by the House and the Senate.

NATIVE AMERICAN HOUSING BLOCK GRANTS

(INCLUDING TRANSFERS OF FUNDS)

Appropriates \$649,000,000 as proposed by the House instead of \$648,570,000 as proposed by the Senate. Of the total amount, \$4,000,000 is for inspections, training, and technical assistance instead of \$3,000,000 as proposed by the House and \$5,000,000 as proposed by the Senate.

Language is not included allowing the Secretary to provide technical and financial assistance for problems associated with mold as proposed by the Senate. The House did not include a similar provision. The conferees understand that such language is unnecessary since the current statutory authorities allow the Secretary to provide such assistance. The conferees direct the Secretary to continue to provide such assistance as authorized under the existing statute.

The conferees reiterate the direction included in the Senate report regarding the use of qualified Native-owned firms in the design and construction of Indian housing.

INDIAN HOUSING LOAN GUARANTEE FUND PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$5,300,000 for guaranteed loans for Native American housing on trust lands as proposed by the House instead of \$5,000,000 as proposed by the Senate.

Of the total amount, \$100,000 is for the Indian Land Title Report Commission as proposed by the House. The Senate did not propose similar language.

NATIVE HAWAIIAN HOUSING LOAN GUARANTEE FUND PROGRAM
ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$1,035,000 for guaranteed loans for Native Hawaiian housing as proposed by the House instead of \$1,000,000 as proposed by the Senate.

COMMUNITY PLANNING AND DEVELOPMENT

HOUSING OPPORTUNITIES FOR PERSONS WITH AIDS

Appropriates \$292,000,000 for housing opportunities for persons with AIDS (HOPWA) as proposed by both the House and the Senate.

In lieu of the language included in the Senate report, the Department is directed to renew all expiring HOPWA contracts for permanent supportive housing funded under the non-formula component of the HOPWA program to the extent that such projects

meet all other program requirements consistent with the language included in the conference agreement.

RURAL HOUSING AND ECONOMIC DEVELOPMENT

Appropriates \$25,000,000 for rural housing and economic development as proposed by both the House and Senate. Language is included requiring funds to be awarded by June 1, 2003 as proposed by the House instead of June 1, 2004 as proposed by the Senate.

EMPOWERMENT ZONES/ENTERPRISE COMMUNITIES

Appropriates \$30,000,000 for grants to the second round of empowerment zones as proposed by both the House and Senate. Language is included making funds available for obligation for three years as proposed by the House, instead of no-year authority as proposed by the Senate.

Language is not included making the expenditure of funds in future years contingent upon the enactment of tax legislation as proposed by the Senate. The House did not include similar language. The conferees continue to maintain that this program should be treated as a mandatory program consistent with the Round I empowerment zones, rather than as a discretionary program.

COMMUNITY DEVELOPMENT FUND

(INCLUDING TRANSFERS OF FUNDS)

Appropriates \$4,937,000,000 for various activities funded in this account, instead of \$5,000,000,000 as proposed by the House and the Senate. The conferees agree to the following:

\$4,367,930,000 for formula grants under the Community Development Block Grant program (CDBG), instead of \$4,577,000,000 as proposed by the House and \$4,580,200,000 as proposed by the Senate. The amount provided represents an increase of \$26,930,000 above the fiscal year 2002 level;

\$71,000,000 for grants to Indian tribes instead of \$70,000,000 as proposed by the House and \$72,500,000 as proposed by the Senate;

\$3,300,000 for the Housing Assistance Council as proposed by the House and the Senate;

\$2,400,000 for the National American Indian Housing Council instead of \$2,200,000 as proposed by the House and \$2,600,000 as proposed by the Senate;

\$49,100,000 for section 107 grants, instead of \$33,500,000 as proposed by the House and \$45,500,000 as proposed by the Senate. Within the amount provided for section 107 grants, the conference agreement provides the following earmarks:

\$7,000,000 for insular areas;

\$10,000,000 for historically black colleges and universities.

The conferees expect that up to \$2,000,000 of these funds will be used to provide technical assistance to ensure that the intended recipients can utilize more fully the funds provided;

\$3,000,000 for community development work study;

\$6,500,000 for Hispanic serving institutions;

\$7,000,000 for the Community Outreach Partnerships program;

\$3,000,000 for tribal colleges and universities;

\$3,000,000 for Alaska Native-Serving Institutions and Native Hawaiian-Serving Institutions; and

\$9,600,000 for assistance under the Hawaiian Homelands Homeownership Act of 2000. The House proposed \$9,600,000 for this activity as a separate set aside under this account;

\$5,000,000 for the National Housing Development Corporation for continuation of its program of acquisition, rehabilitation, and preservation of at-risk affordable housing, including \$2,000,000 for operating expenses as proposed by the House. The Senate did not propose funding for this program;

\$5,000,000 for the National Council of La Raza HOPE Fund, of which \$500,000 is for technical assistance and fund management and \$4,500,000 is for investments and financing as proposed by the House. The Senate did not propose funding for this program;

\$9,000,000 for Neighborhood House in St. Paul, Minnesota for construction of the Paul and Sheila Wellstone Center for Community Building, instead of \$5,000,000 as proposed by the Senate. The House did not propose funding for this program;

\$25,250,000 for grants to eligible grantees under section 11 of the Self Help Housing Opportunity Program, instead of \$28,500,000 as proposed by the House and \$22,000,000 as proposed by the Senate;

\$32,500,000 for capacity building, instead of \$29,500,000 as proposed by the House and \$35,500,000 as proposed by the Senate. Of this amount, \$28,250,000 shall be for LISC and the Enterprise Foundation, of which at least \$5,000,000 is for rural areas. Additionally, \$4,250,000 is for Habitat for Humanity International, instead of \$4,500,000 as proposed by the House and \$4,000,000 as proposed by the Senate;

\$60,000,000 for Youthbuild instead of \$65,000,000 as proposed by the House and the Senate;

\$261,000,000 for economic development initiatives instead of \$144,600,000 as proposed by the House and \$130,500,000 as proposed by the Senate. In lieu of the direction included in the House report, the conferees note that projects receiving funds must comply with the environmental review requirements set forth in section 305(c) of the Multifamily Housing Property Disposition Act of 1994 (42 U.S.C. 3547). The conferees will not entertain waivers of such requirements. In addition, funds provided for projects shall not be used for reimbursement of expenses incurred prior to the receipt of economic development initiative funding. Modified language is included, similar to language proposed by the House and Senate, targeting funds made available under this program. Because of tight budget constraints, the conferees reduced funding for these targeted grants by 10 percent from the amounts originally proposed in the House and Senate reports. Targeted grants shall be made as follows:

1. \$202,500 to continue the rehabilitation of the former Alaska Pulp Company mill site in Sitka, Alaska;

2. \$202,500 to the City of Craig, Alaska for construction of a Marine Industrial Park;

3. \$405,000 to the City of Petersburg, Alaska for construction of an aquatic center;
4. \$450,000 for the Mananuska-Susitna Borough for an agricultural processing facility in Wasilla, Alaska;
5. \$450,000 for Ketchikan, Alaska for the Tongass Coast Aquarium in Ketchikan, Alaska;
6. \$450,000 for the Southside Community Center in Fairbanks, Alaska for an addition;
7. \$450,000 for the Alaska-Siberian Research Center World War II Lend Lease memorial in Fairbanks, Alaska;
8. \$900,000 for Alaska Pacific University for the restoration of an historic property in Anchorage, Alaska;
9. \$900,000 for Petersburg, Alaska for waterfront improvements;
10. \$1,400,750 for the Rasmussen Foundation for housing redevelopment in Anchorage, Alaska;
11. \$22,500 to the Northwest Alabama Children's Advocacy Center in Florence, Alabama for facility renovations;
12. \$45,000 to the City of Athens, Alabama for construction of an Alabama Korean War Veterans Memorial;
13. \$45,000 to the City of Tuscumbia, Alabama for construction of facilities associated with the Helen Keller festival;
14. \$90,000 for construction of the Northeast Etowah County Community and Senior Center, Alabama;
15. \$90,000 to the Birmingham, Alabama Regional Planning Commission for an economic development planning study;
16. \$90,000 to the City of Decatur, Alabama for planning for a Technical Training Center;
17. \$90,000 to the Historic Huntsville Foundation in Huntsville, Alabama for sidewalks, curbs, street lighting, outdoor furniture and facade improvements in the Mill Village neighborhood;
18. \$90,000 to the Northwest Alabama Mental Health Center for facilities renovation;
19. \$90,000 for the City of Prattville, Alabama for the Boys and Girls Club of Prattville;
20. \$97,200 to the Randolph County Commission for facilities renovation for the restoration of the historic Randolph County Courthouse and Annexes in Wedowee, Alabama;
21. \$121,500 to the Clay County Commission for facilities renovations for the restoration of the historic Clay County Courthouse, Alabama;
22. \$135,000 to the City of Huntsville, Alabama for facilities construction for the Alabama Constitution Village Plaza;
23. \$135,000 to Collinsville, Alabama for construction or renovation of the Collinsville Public Library;
24. \$135,000 to the Russellville Hispanic Coalition of Alabama for building renovations;
25. \$180,000 for Lawson State Community College in Alabama for facilities construction for an information technology training and placement service center;
26. \$180,000 to Fayette County, Alabama for construction of the Fayette County Agribusiness Facility;

27. \$202,500 to Huntingdon College in Montgomery, Alabama for repairs and renovations to the Bellingrath Natural Sciences facility;
28. \$202,500 to Jefferson County, Alabama for renovation and expansion of the Leroy Brown Health Education Building;
29. \$202,500 to the National Peanut Festival Fairgrounds for construction of the National Peanut Festival Agriculture Arena in Dothan, Alabama;
30. \$225,000 to the Northwest Alabama Council of Local Governments in Muscle Shoals, Alabama for the construction of a joint economic development facility to be used by the Shoals Economic Development Authority and the Shoals Chamber of Commerce;
31. \$225,000 for the City of Talladega, Alabama for the restoration of the Historic Antique Talladega;
32. \$270,000 for Haleyville, Alabama for a downtown revitalization project;
33. \$675,000 to the National Children's Advocacy Center in Huntsville, Alabama for construction of a research and training campus;
34. \$710,000 for the Mobile Historic Development Commission in Mobile, Alabama for a Neighborhood Initiative Program;
35. \$1,507,000 to Spring Hill College in Mobile, Alabama for construction of a new library and Regional Resource Learning Center;
36. \$2,700,000 to Tuscaloosa, Alabama for the Tuscaloosa Downtown Revitalization Project;
37. \$180,000 to the City of Bradley, Arkansas for construction of a community center;
38. \$180,000 for the City of Dermott, Arkansas for the Dermott City Community Nursing Home expansion;
39. \$202,500 for construction of the North Arkansas College Conference and Workforce Center in Harrison, Arkansas;
40. \$270,000 for the Florence Crittenden Home in Little Rock, Arkansas for the expansion of services, education programs, and emergency shelter;
41. \$450,000 for the Arkansas YMCAs for program development;
42. \$900,000 for Arkansas State University at Mountain Home for construction of the Vada Sheid Community Center and to develop community outreach programs;
43. \$157,500 to the County of Santa Cruz, Arizona for restoration of a historic building;
44. \$180,000 to the Town of Guadalupe, Arizona for renovations to the Mercado shopping center;
45. \$202,500 to the Boys and Girls Club of Scottsdale for facility construction in Fountain Hills, Arizona;
46. \$364,500 to the National Law Center for Inter-American Free Trade in Tucson, Arizona for facilities construction;
47. \$405,000 to Arizona State University for facilities construction for the Center for Basic Research and Applied Research within the Barry M. Goldwater Center for Science and Engineering;
48. \$45,000 to Southeast-Rio Vista YMCA in Huntington Park, California for renovation of a building;

49. \$45,000 to Food Share, Inc. of Ventura County, California for development of a new warehouse facility;
50. \$76,500 to the Tri-Counties Easter Seals for construction of a child development center in Ventura County, California;
51. \$81,000 to the County of San Bernardino, California for facilities renovation, sidewalk and facade improvements of the Crestline Revitalization/Houston Creek project;
52. \$81,000 to the County of San Bernardino, California for facilities expansion for the Big Bear Zoo;
53. \$90,000 to Occidental College in Los Angeles, California for continued construction of a science center;
54. \$90,000 to the American Film Institute in Los Angeles, California for renovation of facilities;
55. \$90,000 to the Boys and Girls Club of National City, California for facilities repairs at the Wayne Sevier Memorial Gymnasium;
56. \$90,000 to the City of Carpinteria, California for facilities modernization and renovation of the Carpinteria Veteran's Memorial Building;
57. \$90,000 to the City of El Monte, California for construction of a teen and education center;
58. \$90,000 to the City of Fontana, California for restoration and renovation of recreational facilities;
59. \$90,000 to the City of Garden Grove, California for facilities construction at the West Haven Community Center;
60. \$90,000 to the City of La Puente, California for construction of a youth activity and learning center;
61. \$90,000 to the City of Lawndale, California for construction of a new senior center;

787. \$90,000 to the Virginia Science Center for construction of the Belmont Bay Science Center in Prince William County, Virginia;

788. \$90,000 to the Vienna Little League in Vienna, Virginia for facilities construction;

789. \$135,000 to the Lorton Arts Foundation in Lorton, Virginia for the renovation of buildings for a creative arts center;

790. \$157,500 to the Arlington Partnership for Affordable Housing (APAH) in Arlington, Virginia for facilities construction for a computer technology information center;

791. \$157,500 to New Hope Housing in Alexandria, Virginia for renovation of the Mondloch House and construction at the Kennedy Shelter;

792. \$162,000 to Eastern Shore Community College for construction of the Eastern Shore Workforce Training and Business Development Center in Melfa, Virginia;

793. \$180,000 for the Town of South Hill, Virginia for the restoration of the Colonial Theatre;

794. \$180,000 to the Arlington Housing Corporation in Arlington, Virginia for construction of a community center in the Woodbury Park development;

795. \$180,000 to the Institute of Advanced Learning and Research (IALR) in Danville, Virginia for installation and improvements to high technology systems;

796. \$180,000 to the Rich Valley Fair Association in Virginia for construction of a new facility to jointly serve as a community center and indoor space for the community fair;

797. \$180,000 to the Shenandoah Valley Discovery Museum, Inc. for facilities expansion and buildout;

798. \$180,000 to the Town of Edinburg, Virginia for the renovation and adaptive reuse of the Historic Edinburg Mill;

799. \$180,000 to Vanguard Services Unlimited of Arlington, Virginia for renovation and improvement of facilities;

800. \$202,500 to the City of Suffolk, Virginia for the renovation and restoration of the old Suffolk High School for use as a cultural center;

801. \$202,500 to the Lynchburg Academy of Music in Lynchburg, Virginia for facilities construction and renovation;

802. \$202,500 to the Tredegar National Civil War Center Foundation of Richmond, Virginia for facilities construction;

803. \$216,000 to the Virginia Living Museum in Newport News, Virginia for construction and renovation of facilities;

804. \$225,000 to Edgehill Recovery Retreat Center in Winchester, Virginia for facilities construction;

805. \$225,000 for Mary Baldwin College in Staunton, Virginia for ongoing construction of the Center for the Exceptionally Gifted;

806. \$450,000 to the St. Coletta School in Alexandria, Virginia for facilities construction;

807. \$675,000 to the Christopher Newport University Foundation of Newport News, Virginia for facilities construction and renovation;

808. \$1,350,000 for Newport News, Virginia for the development of the Newport News Fine Arts Center;

809. \$90,000 to the Department of Vermont Veterans of Foreign Wars for the construction of the Green Block Veterans Memorial in Brandon, Vermont and the Windsor, Vermont War Memorial;

810. \$90,000 to the Northeastern Vermont Development Corporation for construction of a community center in Orleans County;

811. \$90,000 for the Carving Studio in West Rutland, Vermont for building renovations;

812. \$90,000 to the Northeastern Vermont Development Association to support the Northeast Kingdom Enterprise Collaborative and the Northeast Kingdom REAP zone in promoting economic development throughout the region;

813. \$180,000 for the Park-McCullough House in North Bennington, Vermont for preservation of property;

814. \$225,000 to the Vermont Broadband Council to promote broadband accessibility throughout Vermont;

815. \$270,000 to the Vermont Housing and Conservation Board for rehabilitation and construction of affordable housing in the historic Tuttle Building in Rutland, Vermont;

816. \$270,000 to the City of Burlington for construction of the Intervale Food Enterprise Center in Burlington, Vermont;

817. \$270,000 for the Vermont Development Initiative to expand their services throughout Vermont;

818. \$270,000 for the Vermont Housing and Conservation Board in Stowe, Vermont for the creation of affordable housing;

819. \$270,000 for the Vermont Housing and Conservation Board in Newport, Vermont for the expansion of affordable senior housing;

820. \$315,000 to the Vermont Housing and Conservation Board for the development of affordable housing in Vergennes, Vermont;

821. \$360,000 for the City of Burlington, Vermont for neighborhood revitalization;

822. \$360,000 for the Lund Family Center in Burlington, Vermont for building renovations;

823. \$450,000 for the Vermont Institute of Science for the construction of a new public education and wildlife center;

824. \$810,000 to the Vermont Housing and Conservation Board for infrastructure improvements and other costs related to the development of affordable housing on Depot Street in Burlington, Vermont;

825. \$67,500 to the Aberdeen Museum of History in Aberdeen, Washington for facility renovations;

826. \$67,500 to the Boys and Girls Club of the Olympic Peninsula for restoration of their Mt. Angeles, Washington facility;

827. \$67,500 to the Jefferson County Historical Society in Jefferson County, Washington for building restoration;

828. \$67,500 to the Kitsap County Historical Society in Kitsap County, Washington for facility renovations;
829. \$90,000 to the City of Mount Vernon, Washington for renovations to the historic Lincoln Theater;
830. \$90,000 to the Lummi Indian Nation in Watcom County, Washington for the construction of the Semiahmah Memorial and Coast Salish Heritage Park;
831. \$90,000 to Bread and Rose in Olympia, Washington for renovations to a homeless shelter;
832. \$90,000 for the City of Forks, Washington for telecommunications initiatives;
833. \$90,000 for the Elks Club of Pierce and Thurston Counties in Tacoma, Washington for the Toys for Disabled Youth Project;
834. \$90,000 for the Washington State Rural Development Council for the Rural Community Assessment Project;
835. \$180,000 for the Rural and Farmworker Housing Trust in Washington for farmworker housing;
836. \$180,000 for the Squaxin Island tribe in Shelton, Washington for the Squaxin Island Museum, Library and Research Center;
837. \$180,000 for the Wenatchee Valley College Foundation in Wenatchee, Washington to complete construction of the Institute for Rural Innovation and Stewardship;
838. \$202,500 to the City of Buckley, Washington for construction of the Buckley Youth Center;
839. \$225,000 to the Port of Bremerton, Washington for facilities construction related to expansion of a marina;
840. \$225,000 to the Port of Grays Harbor, Washington for facilities construction and buildout for a boat yard;
841. \$225,000 for the Friends of Youth of Redmond, Washington for the Griffin Home renovation in Renton;
842. \$225,000 for Horizons, Inc. in Sunnyside, Washington for technology training centers;
843. \$225,000 for Transitions in Spokane, Washington to purchase a building for the Women's Drop-in Center;
844. \$225,000 for the Port of Chelan in Wenatchee, Washington to complete the construction of a community technology center;
845. \$225,000 for the Washington State Office of Community Development for a planning and development resource center;
846. \$387,000 for the SeattleArt Museum/Museum Development Authority, Washington for costs associated with brownfields cleanup;
847. \$405,000 to the Boys and Girls Club of Spokane County, Washington for renovation of facilities;
848. \$450,000 for the SWIFT Cyber Corporation in Washington for broadband access;
849. \$450,000 for the YWCA of Seattle, Washington for the YWCA Opportunity Place;
850. \$495,000 for Kent Youth and Family Services in Kent, Washington to build two new community centers including the Building Better Futures Family Center;
851. \$90,000 to the City of Stoughton, Wisconsin for sidewalk, street lighting and furniture, and building renovations;

852. \$90,000 to Brown County, Wisconsin for an economic development study for the Port of Green Bay;

853. \$90,000 for the Burleigh Street CDC in Milwaukee, Wisconsin for a community and enterprise center;

854. \$90,000 for the Genesis Foundation of Madison, Wisconsin for the South Madison Incubator;

855. \$112,500 to St. Norbert College of DePere, Wisconsin for construction of a library learning center;

856. \$135,000 to the City of Columbus, Wisconsin for sidewalk, street lighting and furniture, and building renovations;

857. \$135,000 to the Milwaukee Center for Independence in Milwaukee, Wisconsin for construction of a Children's Diagnostic Center;

858. \$135,000 for the City of Racine, Wisconsin for neighborhood redevelopment;

859. \$225,000 to the Metcalfe Park Residents Association in Milwaukee, Wisconsin for sidewalk, street lighting and furniture, and building renovations;

860. \$225,000 for the YWCA of Milwaukee, Wisconsin for the rehabilitation of two central city properties;

861. \$225,000 for City of Burlington, Wisconsin for development of the Bel-Mur site;

862. \$225,000 for the City of Beloit, Wisconsin for the renovation of abandoned Beloit Corporation land;

863. \$225,000 for the City of Eau Claire, Wisconsin for downtown revitalization;

864. \$360,000 for Madison, Wisconsin for the Novation Technology Campus;

865. \$450,000 for the City of Madison, Wisconsin for the development of affordable housing;

866. \$630,000 to the Wisconsin Indianhead Technical College in Rice Lake, Wisconsin for construction and expansion of facilities at its new technology center;

867. \$675,000 for the City of Milwaukee, Wisconsin for the Menomonee River Valley Redevelopment project;

868. \$90,000 to Marshall University's Appalachian Transportation Institute for a study of economic development opportunities in southern West Virginia to support the Southern Highlands Initiative;

869. \$90,000 to Marshall University's Appalachian Transportation Institute, West Virginia for economic development planning related to recent flooding;

870. \$121,500 for the Kanawha Institute for Social Research and Action for facilities renovation for a business incubator and community center in Kanawha County, West Virginia;

871. \$162,000 to the Upper Kanawha Valley Enterprise Community, West Virginia for facilities renovation for a business and community center;

872. \$450,000 to the Greenbrier Valley Economic Development Authority for facilities construction in cooperation with the 4-County Economic Development Authority located in Oak Hill, West Virginia focused on development along the Interstate 64 corridor;

873. \$720,000 to the Grant County Commission in West Virginia for construction of a community center;

874. \$900,000 for the City of Summersville, West Virginia for the expansion of the National Guard Readiness Center;

875. \$1,053,000 to the Mid-Atlantic Aerospace Complex, Inc. in Bridgeport, West Virginia for facilities construction;

876. \$1,125,000 to Concord College in Athens, West Virginia for facilities construction for an information technology training center;

877. \$1,170,000 to the West Virginia High Technology Consortium Foundation, Inc. in Marion County, West Virginia for facilities construction for a high-tech park;

878. \$1,575,000 to the Monongalia County Schools Foundation, Inc. in West Virginia for construction of recreational facilities;

879. \$1,682,000 to the Vandalia Heritage Foundation, West Virginia for development needs;

880. \$1,800,000 for Potomac State College in Keyser, West Virginia for renovation of a library;

881. \$2,700,000 for Glenville State College in Glenville, West Virginia for the construction of a new campus community education center;

882. \$2,700,000 for West Virginia Wesleyan College in Buckhannon, West Virginia for renovation/expansion of a science hall.

—\$42,120,000 for the Neighborhood Initiatives program instead of \$23,400,000 as proposed by the House and \$40,000,000 as proposed by the Senate. Modified language is included, similar to language proposed by the House and Senate, targeting funds made available under this program. Targeted grants shall be provided as follows:

1. \$900,000 for Anchorage, Alaska for an expansion of the Anchorage Museum;

2. \$250,000 for the City of Boaz, Alabama for facilities renovations and expansion;

3. \$250,000 for the Alabama Historic Commission for the Historic Fort Toulouse-Fort Jackson project;

4. \$1,260,000 to the Model City Community Revitalization District Trust in Miami, Florida for the Model City Homeownership project;

5. \$1,620,000 to the University of Idaho in Moscow, Idaho for construction of the Performance and Education Facility at the Lionel Hampton Center;

6. \$620,000 for the City of Indianapolis, Indiana for the Life Sciences Project;

7. \$225,000 to the New Zion Community Foundation Development for continued renovations and improvements for a community resource center in Louisville, Kentucky;

8. \$90,000 for The Neighborhood House in Louisville, Kentucky to furnish the community center;

9. \$135,000 for the Portland Avenue Community Trust in Louisville, Kentucky for a multi-purpose facility;

10. \$225,000 to the St. Stephen Family Life Center of Louisville, Kentucky for renovation of a facility for drug abuse counseling and transitional housing;

11. \$135,000 to the New Directions Housing Corporation in Louisville, Kentucky for renovation of the historic Reeser Court Apartments;

12. \$135,000 to the Shawnee Gardens Development Corporation of Louisville, Kentucky for the conversion of a building to serve as an independent living senior housing facility;

13. \$108,000 to the West Broadway Community Development Corporation in Louisville, Kentucky for development of a multi-purpose facility;

14. \$27,000 to the Coalition for the Homeless of Louisville/Jefferson County, Kentucky for a planning grant;

15. \$1,000,000 for East Baltimore Development Inc., in Baltimore, Maryland for redevelopment activities in East Baltimore;

16. \$1,000,000 to the Palestine Economic Development Corporation for the development of an Urban Assisted Living Center in Kansas City, Missouri;

17. \$2,490,000 for the Applied Urban Research Institute in Missouri for a community development initiative;

18. \$500,000 for the Seton House Transition Living Center in Missouri for Seton House operation and improvements;

19. \$500,000 to Kansas City, Missouri for Columbus Park Neighborhood Improvements;

20. \$500,000 for Thomas Jefferson Institute in Missouri for development of a Youth Education Farm;

21. \$500,000 for Logan College of Chiropractic for a mitigation compliance project consisting of retention and detention control areas in Chesterfield, Missouri;

22. \$1,000,000 for Kansas City, Missouri for streetscape improvements in the Kansas City downtown library district;

23. \$500,000 for Urban Strategies for the construction of an affordable mixed income housing property for disabled individuals in the Central West End area of the City of St. Louis, Missouri;

24. \$500,000 for the City of Chillicothe, Missouri for downtown revitalization;

25. \$500,000 for the City of Cape Girardeau, Missouri for downtown revitalization;

26. \$500,000 for the Boys and Girls Club in Glendale, Montana for new program starts;

27. \$4,500,000 to the City of Syracuse, New York for the Neighborhood Initiative Program;

28. \$1,530,000 to Children's Center in Brooklyn, New York for the construction of a facility to house educational and therapeutic programs for disabled children;

29. \$450,000 to The Ohio State University for its Neighborhoods Revitalization Initiative;

30. \$750,000 for the City of Cincinnati, Ohio for the development of the Ohio River Trail;

31. \$450,000 to the Mandel School of Applied Social Sciences' Center for Community Development at Case Western Reserve University for the Louis Stokes Fellow Program in Community Organization and Development;

32. \$1,170,000 to the Northwest Regional Planning Commission in Spooner, Wisconsin for a revolving loan fund to assist tornado-damaged areas in northwestern Wisconsin;

33. \$4,500,000 for the Institute for Scientific Research for construction related to a high-technology diversification initiative;

34. \$4,050,000 for the Vandalia Heritage Foundation, Inc. for community and neighborhood revitalization and economic diversification initiatives;

35. \$450,000 to the U.S. Soccer Foundation for the National Soccer Program Development Initiative;

36. \$800,000 for the National Housing Trust/Enterprise Preservation Corporation to preserve affordable apartments for low-income people;

37. \$4,400,000 for the Housing Partnership Network for a revolving loan fund for single-family home ownership development and loans to non-profit affordable housing organizations;

38. \$1,800,000 for the Girl Scouts of the U.S.A. for youth development initiatives in public housing;

39. \$1,800,000 for the Boys and Girls Clubs of America for the operating and start-up costs of clubs located in or near, and primarily serving residents of, public and Indian housing.

The conference agreement does not include bill language designating separate set-asides under this account for the Boys and Girls Clubs of America and the Girl Scouts of the USA as proposed by the Senate, and instead includes funding for these activities under the Neighborhood Initiatives program. The House did not propose funding for these activities.

Includes modified language making technical corrections to certain targeted economic development initiative grants funded under this heading in prior appropriations Acts, similar to language proposed by the House and the Senate.

Includes language transferring no less than \$3,400,000 to the Working Capital Fund for development of and modifications to information technology systems as proposed by the House and the Senate.

Includes language regarding the limitation on the use of certain funds for planning, management and administration proposed by the Senate instead of language proposed by the House.

The conferees reiterate the direction included in the House report regarding a report evaluating the inclusion of people with disabilities and their advocates in development of consolidated plans.

COMMUNITY DEVELOPMENT LOAN GUARANTEES PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$6,325,000 for costs associated with section 108 loan guarantees as proposed by the House instead of \$14,000,000 as proposed by the Senate. This amount, when combined with unobligated prior year credit subsidy appropriations and loan commitment authority, will provide a total of \$13,325,000 in credit subsidy appropriations to support a total loan commitment level of \$579,344,000.

BROWNFIELDS REDEVELOPMENT

Appropriates \$25,000,000 for brownfields redevelopment as proposed by both the House and the Senate.

The conference agreement retains language proposed by the House to make funds available pursuant to the current statutory authorities instead of language proposed by the Senate.

HOME INVESTMENT PARTNERSHIPS PROGRAM

(INCLUDING TRANSFER OF FUNDS)

Appropriates a total of \$2,000,000,000 for this account, instead of \$2,221,040,000 as proposed by the House and \$1,950,000,000 as proposed by the Senate.

The conference agreement includes \$1,925,000,000 for the HOME Investment Partnerships program, instead of \$2,021,040,000 as proposed by the House and \$1,950,000,000 as proposed by the Senate. Language is included designating \$40,000,000 for housing counseling as proposed by the Senate instead of \$25,000,000 as proposed by the House. In addition, of the total amount provided for the HOME program, \$18,000,000 is for technical assistance including \$6,000,000 for qualified non-profit intermediaries to provide technical assistance to Community Housing and Development Organizations (CHDOs), instead of \$20,000,000 for technical assistance including \$8,000,000 for technical assistance to CHDOs as proposed by the House. The Senate did not propose a specific amount for this activity.

In addition, the conference agreement includes \$75,000,000 to be allocated by the Secretary to participating jurisdictions to provide downpayment assistance to low-income families to help them achieve homeownership.

The conferees reiterate the direction included in the House report regarding the issuance of guidance regarding the eligibility of manufactured housing under the HOME program.

HOMELESS ASSISTANCE GRANTS

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$1,225,000,000 for homeless assistance grants, instead of \$1,250,000,000 as proposed by the House and \$1,215,025,000 as proposed by the Senate. Includes language requiring the renewal of all expiring shelter plus care grants as proposed by the House instead of bill language specifying a dollar amount for this purpose as proposed by the Senate. However, the conferees understand that the current estimate for shelter plus care renewals totals \$193,000,000. The conferees expect the Department to provide the full amount necessary to fund these renewals from within the amounts provided.

Language is included as proposed by the House designating \$11,000,000 for the national homeless data analysis project and \$6,600,000 for technical assistance. The Senate bill included language designating a total of \$17,600,000 for these activities but did not specify an amount for each purpose.

Language is not included designating \$1,500,000 under this account for the administrative needs of the Interagency Council on the Homeless as proposed by the House. The conference agreement includes \$1,500,000 as a separate account in title III of this Act for this purpose as proposed by the Senate.

Language is included designating \$10,000,000 for a two-year demonstration program to fund innovative and effective programs to address homelessness as proposed by the House. The conferees reiterate that funds provided for this demonstration are only to be used for the housing portion of such programs. Grantees shall derive supportive services funds from public or private sources other than homeless assistance grants funded under this account. The conferees request that the Department submit an annual report to the Committees on Appropriations on the projects funded under this demonstration and their outcomes, with the first such report due March 15, 2004. The Senate did not propose funding for this activity.

In lieu of the language in the Senate report, the conferees reiterate their support for the creation of additional units of permanent supportive housing and concern over the targeting of the shelter plus care program to chronically homeless people. The conferees are concerned that the Department is not taking the proper steps to determine the extent to which HUD's homeless assistance programs are meeting the needs of chronically homeless people. Therefore, HUD is directed to begin collecting data on the percentage and number of beds and supportive services programs that are serving people who are chronically disabled and/or chronically homeless.

The conferees reiterate the direction and reporting requirement included in the Senate report regarding the collection and analysis of data to assess the effectiveness of the homeless system, and direct that such report also include HUD's timeline for finalizing data requirements for the Homeless Management Information System.

In lieu of the direction included in the Senate report regarding the Iowa continuum of care application, the conferees understand that the Department has addressed the Iowa application to the extent that is legally permissible.

HOUSING PROGRAMS

HOUSING FOR SPECIAL POPULATIONS

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$1,033,801,000 for housing for special populations as proposed by the Senate instead of \$1,100,000,000 as proposed by the House.

Includes \$783,286,000 for section 202 housing for the elderly as proposed by the Senate instead of \$790,903,000 as proposed by the House. Of this amount, \$50,000,000 is for service coordinators and congregate services as proposed by the House instead of \$53,000,000 as proposed by the Senate; and up to \$25,000,000 is for conversion of eligible section 202 projects to assisted living instead of \$30,000,000 as proposed by the House and up to \$50,000,000 as proposed by the Senate.

Includes \$250,515,000 for section 811 housing for the disabled as proposed by the Senate instead of \$259,097,000 as proposed by the House.

The conference agreement does not include language proposed by the Senate to make section 202 and section 811 grant funds available for expenditure for twelve years, but includes modified language to make funds provided under this heading available for obligation for four years rather than three years as proposed by the House and Senate.

The conferees are concerned by the unduly long time it has taken in many cases to complete construction of elderly housing units funded through the section 202 program. While the conferees appreciate the complexities involved in housing construction, the conferees are concerned that many of these delays are attributable to a lack of site control and/or sufficient planning, design and development. Therefore, the conference agreement includes \$25,000,000 for a demonstration grant program to facilitate planning, design and development activities for section 202 projects instead of \$50,000,000 as proposed by the House. In lieu of the direction included in the House report regarding preference for future capital grant awards, the conferees direct HUD to review current procedures for making awards under the section 202 program to ensure that those entities which can demonstrate their ability to bring projects on-line within the existing timeframes required by HUD, including achieving site control, are given preference under the section 202 program.

The conference agreement includes language, modified from language proposed by the House, requiring the Secretary to submit a report to the Committees on Appropriations no later than July 15, 2003 which includes the following: (1) actions taken, or planned to be taken, by the Department to accelerate the completion of projects funded under the section 202 program; and (2) alternative plans to restructure or otherwise modify the current section 202 program which would result in the completion of units and expenditure of funds in a more timely fashion, including, but not limited to, the option to restructure this program in a manner which tracks other Federally funded construction programs whereby grants for planning and design, construction, and operations are provided for separately.

The conference agreement does not include language proposed by the Senate authorizing the Secretary to waive any provision of law or regulation governing the section 202 and section 811 programs. The House did not include similar language. Instead, the conference agreement includes modified language limiting the Secretary's waiver authority to only those provisions governing the terms and conditions for project rental assistance contracts and tenant-based voucher contracts to enable the Secretary to limit such initial contracts to no more than a five year term.

FLEXIBLE SUBSIDY FUND

(TRANSFER OF FUNDS)

Includes language regarding the transfer of excess rental charges to this fund as proposed by the House and the Senate.

RENTAL HOUSING ASSISTANCE

(RESCISSION)

Includes a rescission of up to \$100,000,000 from recaptured excess section 236 funds resulting from the pre-payment of such mortgages as proposed by the House, rather than directing the use of such excess funds to be used for a rehabilitation grant and loan program as proposed by the Senate.

MANUFACTURED HOUSING FEES TRUST FUND

Appropriates \$13,000,000 for authorized activities from fees collected in the fund as proposed by the House and Senate.

FEDERAL HOUSING ADMINISTRATION

MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

Establishes a \$165,000,000,000 limitation on single-family loan guarantees during fiscal year 2003 as proposed by the House instead of a limitation of \$160,000,000,000 as proposed by the Senate.

Establishes a \$100,000,000 limitation on direct loans to non-profits and governmental entities in connection with the sale of HUD-owned single-family properties, instead of a limitation of \$50,000,000 as proposed by the House and a limitation of \$250,000,000 as proposed by the Senate.

Appropriates \$347,829,000 for administrative expenses as proposed by both the House and Senate. Of this amount, \$343,807,000 is to be transferred to the salaries and expenses account and not to exceed \$4,022,000 is to be transferred to the Office of Inspector General as proposed by both the House and Senate.

Appropriates \$85,720,000 for administrative contract expenses and includes language allowing up to an additional \$16,000,000 to be made available for such expenses in certain circumstances as proposed by both the House and Senate.

Transfers no less than \$21,360,000 from administrative contract expenses under this account to the Working Capital Fund for the development of and modifications to information technology systems as proposed by both the House and Senate.

The conferees reiterate the direction included in the Senate report regarding submission of a report to the Committees on Appropriations on further actions which could be taken to protect homeowners and communities experiencing high rates of defaults and foreclosures on FHA-insured loans, and direct that such report be provided no later than June 2, 2003.

The conferees are aware of concerns regarding the effect the accelerated claims disposition demonstration will have in low-income, distressed neighborhoods, and urge the Department to take the particular needs of these communities into consideration when implementing this demonstration. In lieu of the language included in the Senate report regarding the accelerated claims disposition demonstration program, the conferees direct HUD to provide a report to the Committees on Appropriations no later than August 1,

2003, on savings to the FHA single-family insurance fund and, where possible, the impact of this demonstration on the numbers of foreclosures and re-performing loans within the demonstration, as well as the impact of this program on such communities if such properties are sold to investors or resold in a deteriorated condition.

GENERAL AND SPECIAL RISK PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

Establishes a \$23,000,000,000 limitation on multifamily and specialized loan guarantees during fiscal year 2003 as proposed by the House instead of a limitation of \$21,000,000,000 as proposed by the Senate.

Appropriates \$15,000,000 for subsidy costs to support certain multifamily and special purpose loan guarantee programs as proposed by the House and the Senate.

The conferees understand that once the final consolidated OIG audit on section 514 grantees is received, the Department will make a determination whether to lift the suspension, recapture funds spent inappropriately, or bar grantees from receiving funds for four years, based on the OIG assessment of the individual violations. The conferees ask the Department to report on the status of resolution of these findings by April 15, 2003.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

GUARANTEES OF MORTGAGE-BACKED SECURITIES LOAN GUARANTEE PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$10,343,000 for administrative expenses to be transferred to the salaries and expenses account as proposed by both the House and the Senate.

POLICY DEVELOPMENT AND RESEARCH

RESEARCH AND TECHNOLOGY

Appropriates \$47,000,000 for research and technology as proposed by both the House and Senate.

Includes \$7,500,000 for the Partnership for Advancing Technology in Housing (PATH) initiative, instead of \$7,000,000 as proposed by the House and \$8,750,000 as proposed by the Senate.

The conferees reiterate the direction included in the Senate report denying demonstration authority without prior congressional approval.

FAIR HOUSING AND EQUAL OPPORTUNITY

FAIR HOUSING ACTIVITIES

Appropriates \$45,899,000 for the Fair Housing Assistance Program (FHAP) and the Fair Housing Initiatives Program (FHIP) as proposed by both the House and the Senate.

OFFICE OF LEAD HAZARD CONTROL

LEAD HAZARD REDUCTION

Appropriates \$176,000,000 for lead hazard reduction instead of \$126,000,000 as proposed by the House and \$201,000,000 as proposed by the Senate.

The conferees agree to allocate funds as follows:

—\$10,000,000 for Operation LEAP;

—\$96,000,000 for the lead-based paint hazard control grant program to provide assistance to State and local governments and Native American tribes for lead-based paint abatement in private low-income housing;

—\$10,000,000 for technical assistance and support to State and local agencies and private property owners;

—\$10,000,000 for the Healthy Homes Initiative for competitive grants for research, standards development, and education and outreach activities to address lead-based paint poisoning and other housing-related diseases and hazards; and

—\$50,000,000 for an initiative to target lead abatement funds to areas with the highest lead paint abatement needs.

Includes new language making available \$50,000,000 on a competitive basis to those areas with the highest lead paint abatement needs as determined by the highest number of pre-1940 units, a disproportionately high number of documented cases of lead-poisoned children and an applicant's demonstrated capacity to implement successfully the proposed uses of the funds. Language is also included requiring that not less than 90 percent of the funds made available under this initiative to be used exclusively for abatement and interim control of lead-based paint hazards. Language is also included requiring recipients of funds awarded under this initiative to provide a matching contribution of not less than 25 percent of the total grant award. The conferees believe that communities with the highest lead paint risk to children must employ an aggressive approach to lead-based paint abatement, and direct that grants made under this new initiative be not less than \$2,000,000. The conferees intend that eligible recipients of these funds will be units of local government. In selecting recipients for funding under this initiative, the Department shall consider the capacity of the applicant to use the funds provided, including the success of the applicant in using previously provided Federal dollars for lead-based paint hazard reduction, as well as the applicant's strategies to mobilize public and private resources to address this problem. Grant recipients under this initiative are expected to use funds for abatement and hazard reduction in privately owned rental-housing units that serve low-income families with children under the age of six. Units treated with funds provided under this initiative must remain available for low-income residents for at least three years following treatment of the lead-based paint hazard. The conferees direct the Department to submit an annual report to the Committees on Appropriations on the effectiveness of this program with the first such report due March 1, 2004. Further, the conferees request that the Department review the need for demolition grants under this initiative and provide a report to the Committees on Appropriations by June 27, 2003. The conferees do not intend

for any action taken in this Act to prejudice ongoing or future litigation brought against lead pigment manufacturers. Additionally, no action taken in this Act is intended to mitigate the responsibility of housing owners to address the existence of lead-based paint hazards in a timely and expeditious manner.

The conferees are aware that the Department currently reserves approximately 80 percent of the current lead-based paint hazard control grant program funding for allocation to current grantees or previous grantees, with the remaining 20 percent provided for new grantees. The conferees request that the Department evaluate this policy to ensure that such allocation is appropriate to ensure that resources are made available to communities with the need as well as the capacity to use such grants. Further, the conferees urge the Department to consider the total amount of Federal and non-Federal resources available to address lead-based paint hazards when allocating funds provided for the current lead-based paint hazard control grant program. Further, the conferees expect the Department to award all funds provided for the current lead-based paint hazard grant program on a competitive basis and to report to the Committees on Appropriations by April 15, 2003 on how this requirement is being met.

MANAGEMENT AND ADMINISTRATION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$1,090,229,000 for salaries and expenses as proposed by the House instead of \$1,070,229,000 as proposed by the Senate. Of this amount, \$530,299,000 is provided as a direct appropriation under this account as proposed by the House instead of \$510,299,000 as proposed by the Senate.

The conference agreement includes language as proposed by the House directing the Department to allocate funds provided under this heading in the manner specified in the joint explanatory statement of the managers accompanying this Act unless the Committees on Appropriations are notified and approve of any changes in the operating plan or through a reprogramming. The conferees reiterate the direction included in the House report regarding such operating plan and reprogramming procedures. The following office and object classifications are to be used as the basis of any changes in funding distributions:

Office of Housing	\$294,224,000
Office of Public and Indian Housing	153,971,000
Office of Community Planning and Development	76,174,000
Office of Policy Development and Research	19,147,000
Office of Fair Housing and Equal Opportunity	59,973,000
Office of Healthy Homes and Lead Hazard Control	2,634,000
Government National Mortgage Association	7,233,000
Departmental Management	22,344,000
Center for Faith-Based and Community Initiatives	2,606,000
Office of the Chief Financial Officer	53,986,000
Office of the General Counsel	68,336,000
Office of Field Policy and Management	77,410,000
Office of Administration	241,761,000

Transfer to the Working Capital Fund	10,500,000
Total, Management and Administration	\$1,090,229,000

Consistent with modifications to the original budget submission, the object classification distribution, which shall also serve as the basis for the operating plan and reprogramming changes, is as follows:

- Personal Services—\$830,763,000
- Travel and Transportation of Persons—\$25,508,000
- Transportation of Things—\$700,000
- Rent, Communications and Utilities—\$124,572,000
- Printing and Reproduction—\$4,644,000
- Other Services—\$97,807,000
- Supplies and Materials—\$4,932,000
- Furniture and Equipment—\$1,180,000
- Indemnities—\$193,000

The preceding object classification distribution includes \$20,000,000 provided for funds control improvements within the Other Services object class. The Department is directed to submit a spending plan allocating these funds no later than April 15, 2003.

Allocations included in the conference agreement are consistent with the distributions included in the Department’s budget submission, excluding amounts assumed contingent upon enactment of legislative changes to legacy retirement costs, updated to include the effects of the reorganization implemented during fiscal year 2002 and additional resources provided for funds control improvements. However, the conferees understand recent hiring decisions have resulted in the Department exceeding its requested 9,100 full time equivalents (FTE) level by an estimated 268 FTEs. This increase contradicts the Department’s budget justification submission for the fiscal year. In addition, the Committees on Appropriations were not informed of this substantive change in staffing until the funding shortfall caused by this FTE level reached critical proportions. Further, the conferees understand that the Department’s hiring actions were in many cases inconsistent with the Department’s Resource Estimation and Allocation Process (REAP) resulting in some offices and functions remaining understaffed while other offices and functions are overstaffed. The conferees are disturbed by the Department’s failure to adhere to staffing levels set forth in the budget and to meet required notification requirements regarding such changes, as well as by the Department’s inability to manage the allocation of staff resources based upon workload requirements. Modified language is included, similar to language proposed by the House, requiring the Secretary to submit a staffing plan for the Department no later than March 15, 2003. In addition, the Department is directed to submit a reprogramming of funds no later than March 15, 2003 that reflects changes from the office and object classification distributions included in this conference agreement, as well as the actions the Department is taking to realign staffing resources to match workload requirements, including any additional staffing requirements resulting from changes made to the section 8 voucher program in this Act.

The Office of Inspector General (OIG) is also requested to review the Department’s hiring decisions to determine whether these decisions have been consistent with the Department’s staffing

needs, program requirements, and applicable personnel practices. The OIG is asked to report to the Committees on Appropriations on its findings no later than August 15, 2003.

Language is included designating \$20,000,000 to remain available for two years for funds control improvements as proposed by the House. The Senate bill did not include a similar provision. Language is also included, as proposed by the House, related to funds control improvements. The Senate did not include similar language. The conferees reiterate the concerns expressed in the House report regarding the severe chronic funds control problems at the Department, including the failure of the Department to make timely formal determinations of the violations of Anti-Deficiency Act (ADA) and other appropriations statutes. The conferees reiterate all direction included in the House report regarding this problem, including the direction included in the House report regarding the authority and the responsibility of the Office of the Chief Financial Officer (OCFO) with respect to compliance with appropriations laws, including the ADA. The conferees note that to assist the OCFO in fulfilling these responsibilities, the conference agreement includes language establishing a division of appropriations law within the OCFO and transferring no fewer than four experienced appropriations attorneys from the Legislative Division of the Office of Legislation and Regulations, Office of the General Counsel to the OCFO for such new division. The conferees direct that the Secretary ensure that all attorneys transferred pursuant to the conference agreement have significant experience and expertise in matters of appropriations law, and further direct the Secretary to report to the Committees on Appropriations within 15 days of enactment of this Act on the actions taken to comply with this requirement.

Language is included in the bill placing a limitation on the number of GS-14 and GS-15 positions at the Department as proposed by the House. The Senate did not include similar language.

The conferees reiterate the direction included in the Senate report regarding the limitation on non-career employees.

WORKING CAPITAL FUND

Appropriates \$276,300,000 for the Working Capital Fund as proposed by the House instead of \$276,737,000 as proposed by the Senate. In addition, the conference agreement includes an additional \$75,100,000 by transfer from various accounts to support program-specific information technology systems as proposed by the House and Senate.

Language is included prohibiting funds made available to the Department from being used to award a new contract for the HUD Information Technology Services project until after submission of a comprehensive five-year plan in accordance with the direction included in this joint statement of the managers. The Department is directed to submit a comprehensive five-year plan that meets all the requirements and direction included in the House report. The Senate did not include similar language.

OFFICE OF INSPECTOR GENERAL

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$97,499,000 for the Office of Inspector General instead of \$96,684,000 as proposed by the House and \$97,684,000 as proposed by the Senate. Of this amount, \$23,343,000 is provided by transfer from the various funds of the Federal Housing Administration as proposed by the House and the Senate.

In lieu of the direction included in the Senate report, at least \$5,000,000 is to be targeted to anti-predatory lending and anti-flipping activities.

CONSOLIDATED FEE FUND

(RESCISSION)

Includes a rescission of \$8,000,000 from the Fund as proposed by the Senate. The House proposed similar language but did not designate a specific dollar amount.

OFFICE OF FEDERAL HOUSING ENTERPRISE OVERSIGHT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$30,000,000 for the Office of Federal Housing Enterprise Oversight (OFHEO) to be derived from collections available in the Federal Housing Enterprise Oversight Fund as proposed by the House and the Senate.

The conferees agree that OFHEO must have the necessary staff in order to fully meet its regulatory mission. However, previous staffing plans submitted by OFHEO have often lacked the necessary level of detail required by the Committees on Appropriations to accurately assess the staffing and funding needs of the agency. The conferees expect OFHEO to provide a detailed report to the Committees on Appropriations no later than August 15, 2003, detailing its current staffing levels and corresponding responsibilities, as well as whether additional staff is required to fully meet its regulatory mission.

ADMINISTRATIVE PROVISIONS

Does not include language to amend section 683(2) of the Housing and Community Development Act of 1972 to authorize service coordinators in section 811 projects as proposed by the Senate. The House did not include similar language.

Does not include language to amend section 9 of the United States Housing Act of 1937 to authorize a new loan-financing program for public housing authorities as proposed by the Senate. The House did not include similar language.

Includes language permanently prohibiting assistance for housing units defined under section 9(n) of the United States Housing Act of 1937 as proposed by the Senate. The House did not include similar language.

Includes language setting forth the reprogramming requirements for funds provided to the Department as proposed by the House. The Senate proposed similar language.

Includes modified language, similar to language proposed by the House, requiring the Department to submit a spending plan for the use of technical assistance, training, and management improvement funds provided for in this Act to the Committees on Appropriations by March 15, 2003. The Senate did not include similar language.

Includes language repealing section 9(n)(1) of the United States Housing Act of 1937 and section 226 of the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999 as proposed by the Senate. The House did not include similar language.

Includes modified language, similar to language proposed by the Senate, requiring the Secretary to maintain section 8 assistance on certain properties occupied by elderly or disabled families. The House did not include similar language.

Does not include language to amend section 8(o) of the United States Housing Act of 1937 to authorize a welfare-to-work voucher program as proposed by the Senate. The House did not include similar language.

Includes language exempting the States of Alaska, Iowa, and Mississippi from the statutory requirement of having a resident on the board of a public housing authority and requires in lieu thereof the establishment of advisory boards which include public housing residents and section 8 recipients as proposed by the Senate. The House did not include a similar provision. While the conferees have again included this exemption, the conferees expect the States to take the appropriate actions necessary to address this issue, rather than continuing to rely on a waiver of this statutory requirement.

Does not include language requiring the Director of the Office of Management and Budget and the Secretary to identify five-year cost projections for contract rental renewals for various HUD programs as proposed by the Senate. The House did not include similar language. The conferees understand that the Department's fiscal year 2004 budget submission includes such information. The Department is expected to continue to provide such information in subsequent fiscal year budget submissions without the need for the conferees to continue this direction in future appropriations Acts.

Includes language to amend section 24 of the United States Housing Act of 1937 to extend the authorization of the HOPE VI program for two years as proposed by the Senate. The House did not include similar language.

Does not include language prohibiting permanently the Secretary from waiving section 8 income eligibility restrictions as proposed by the Senate. The House did not include similar language.

Includes modified language, similar to language proposed by the Senate, requiring the Secretary to provide quarterly reports to the Committees on Appropriations regarding all uncommitted, unobligated and excess funds in each departmental program and activity, and to provide additional updated information upon request. The House did not include similar language.

Does not include language amending 12 U.S.C. 1715z-11a to allow the FHA multifamily insurance fund to be used for grants and loans for rehabilitation of certain non-FHA-insured properties as proposed by the Senate. The House did not include similar language.

Includes modified language, similar to language proposed by the Senate, requiring the Secretary to submit an annual report to the Committees on Appropriations regarding the number of Federally-assisted units under lease and the per-unit costs of such units. The House did not include similar language. The conferees expect such report to include all units funded under the Housing Certificate Fund and should provide the most updated information practicable.

Includes language waiving certain first-time homebuyer requirements to allow the use of a HOPE III grant in the East Baltimore, Maryland community as proposed by the Senate. The House did not include similar language.

Does not include language waiving the statutory environmental review requirements for a community development block grant made to Benton County, Iowa as proposed by the Senate. The House did not include similar language.

Includes new language providing the Secretary flexibility in applying the across-the-board rescission to funds made available in the Housing Certificate Fund.

TITLE III

INDEPENDENT AGENCIES

AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

Appropriates \$35,246,000 for salaries and expenses as proposed by the House instead of \$30,400,000 as proposed by the Senate.

The conferees have provided an additional \$846,000 above the budget request to provide salaries and benefits for up to 20 additional full time equivalent personnel where manpower needs are evident throughout the ABMC system because of reductions in the work week mandated by a foreign government. In addition, \$4,000,000 has been provided for additional planning and construction costs associated with a new visitors center at the Normandy American Cemetery and Memorial near St. Laurent-sur-Mer, France. In this regard, the conferees agree that because the ABMC has begun initial planning of the project and may soon move to design and other pre-construction activities, a restriction on the use of funds for this project contained in the fiscal year 2002 appropriations legislation is withdrawn.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

SALARIES AND EXPENSES

Provides a total funding level of \$7,850,000 as proposed by the Senate instead of \$6,500,000 as proposed by the House. Of this

amount \$1,400,000 is derived from fiscal year 2002 unobligated balances. The conferees have provided \$500,000 of the amount appropriated in fiscal year 2003 to be available through fiscal year 2004 as proposed by the Senate instead of \$2,500,000 as proposed by the House. The conferees have included bill language again this fiscal year which limits the number of career Senior Executive Service positions to three.

The conferees reiterate the House position regarding reprogrammings for the Board and that the use of carryover funds is subject to these same requirements.

DEPARTMENT OF THE TREASURY

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND

PROGRAM ACCOUNT

Appropriates \$75,000,000 for the Community Development Financial Institutions Fund instead of \$80,000,000 as proposed by the House and \$73,000,000 as proposed by the Senate.

Includes \$5,000,000 for technical assistance designed to benefit Native American communities as proposed by the Senate instead of \$2,000,000 as proposed by the House.

Provides \$10,750,000 for administrative expenses as proposed by the Senate instead of \$11,050,000 as proposed by the House.

Provides for a limitation on the amount of direct loans of \$11,000,000 as proposed by both the House and Senate.

CONSUMER PRODUCT SAFETY COMMISSION

SALARIES AND EXPENSES

Appropriates \$57,000,000 for the Consumer Product Safety Commission, salaries and expenses, instead of \$57,117,000 as proposed by the House and \$56,767,000 as proposed by the Senate.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

NATIONAL AND COMMUNITY SERVICE PROGRAMS OPERATING EXPENSES

(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

Appropriates \$429,000,000 for national and community service programs operating expenses instead of \$405,842,000 as proposed by the Senate. The House provided authority for prior year funds to be used to terminate the Corporation and did not include any other provisions under this account.

Limits the fiscal year 2003 AmeriCorps enrollment to no more than 50,000 new members who incur obligations from the National Service Trust as proposed by the Senate. The conferees were dismayed to learn of the gross financial mismanagement of the Trust Fund and over-commitments made to various organizations without the financial resources to support those obligations, especially after years of providing funds for and directing the Corporation to strengthen grant management systems and financial controls. While the current leadership of the Corporation is to be com-

mended for bringing these issues to light, the conferees maintain that the Corporation needs time to resolve the financial weakness and oversight issues within the organization before the program can grow. To that end, the conferees have approached fiscal year 2003 funding for the Corporation with two guiding principles: (1) stabilization of the Corporation's programs and resources; and (2) maintenance of commitments to graduates of the Corporation's programs.

Limits administrative expenses to not more than \$32,500,000, of which not more than \$2,500 is for reception and representation expenses as proposed by the Senate. The conferees direct \$18,000,000 for program administration, \$12,000,000 for Governor-appointed State Commissions on National and Community Service, and \$2,500,000 for the Office of the Chief Financial Officer to enact financial reform in the Corporation.

Limits \$100,000,000, instead of \$15,000,000 as proposed by the Senate, to be transferred to the National Service Trust, of which up to \$5,000,000 shall be available for national service scholarships for high school students. The conferees did not provide funds for the Senior Service Initiative. The conferees amend the quarterly reporting requirement as proposed by the House and Senate regarding expenditures under the Trust to include an additional reporting requirement of enrollment data on the authorized and actual number of AmeriCorps members to be submitted by March 31, 2003. The conferees further direct the Corporation to ensure immediately that funds are available to pay the education awards earned by program graduates before any new members are enrolled in the Trust.

Limits \$275,000,000 for subtitle C grants under the National Service Trust of which not more than \$50,000,000 may be for national direct programs, and \$100,000,000 is transferred to the National Service Trust. Grants are to be made according to peer review panel recommendations. The Senate proposed limiting the subtitle C grants to \$240,492,000 of which not more than \$47,000,000 could be used for national service programs. This funding level provided will support 50,000 new volunteers enrolled in the Trust in fiscal year 2003. The conferees direct the continuation of two programs areas to be funded in fiscal year 2003 at a level proportionate to last year considering the funding provided in fiscal year 2003: (1) programs designed to help children read by third grade, and (2) programs which provide information technology skills to students and teachers in low-income communities.

Provides \$10,000,000 to the Points of Light Foundation, of which up to \$2,500,000 may be used for an endowment as proposed by the Senate.

Prohibits the use of funds for national service programs run by other agencies and directs the Corporation to reduce the Federal cost per participant as proposed by the Senate.

Limits funding for the National Civilian Community Corps to \$25,000,000 as proposed by the Senate. The conferees reduced the funding level from the budget request without prejudice.

Limits funding for subtitle B grants for school-based and community-based service learning programs to \$43,000,000 as proposed by the Senate.

Limits funding for subtitle H grants, innovation, demonstration and assistance activities, to \$35,500,000 instead of \$29,850,000 as proposed by the Senate. The conferees have provided \$500,000 for Martin Luther King Jr. Day grants, \$100,000 for the Fellowship program, \$8,000,000 for training and technical assistance, \$6,000,000 for education award grants, \$5,000,000 for Promise Fellows, and \$5,900,000 for disability programs. Further, the conferees have provided \$4,000,000 for grants to encourage the next generation of national service organizations as proposed by the Senate. The conferees have not provided the full funding request for recruitment activities since most of the fiscal year 2003 positions are filled, nor have the conferees provided funds for any innovation or demonstration program utilizing vouchers. The conferees do not recommend the request to transfer Education Awards and Promise Fellows programs from Innovation Activities to AmeriCorps Grants.

Provides \$6,000,000 for challenge grants under subtitle H as proposed by the Senate. The conferees amend the criteria for challenge grants by requiring a 2-to-1 private to Federal dollar matching requirement for grant recipients and limiting the grants to one year in duration.

Provides \$5,000,000 for America's Promise as proposed by the Senate. The conferees amend the reporting requirement proposed regarding funding and performance with a new reporting date of March 31, 2003.

Limits funding for audits and evaluations to \$3,000,000, instead of \$5,000,000 as proposed by the Senate. The conferees did not provide funding for the proposed research-based institute in partnership with a university or non-profit organization.

Rescinds \$48,000,000 from prior year unobligated balances identified within funds appropriated between fiscal year 1998 and fiscal year 2002 across all grant programs. None of the rescission is derived from the National Service Trust.

The conferees remind the Corporation of the reporting and reprogramming requirements set forth at the beginning of this division. Various reporting requirements listed in both the House report and the Senate record must be fulfilled with the submission of the fiscal year 2003 operating plan unless otherwise noted. Further, the conferees direct the Corporation to provide better, detailed information in the budget request regarding planned and ongoing activities, the costs of those activities, and the expected results.

The conferees reiterate the directive to the Corporation to establish performance measures for each grantee, require each grantee to submit a correction plan should the grantee not meet the agreed-upon measures, and reduce or terminate any award where, after due process, the grantee does not meet the performance plan.

OFFICE OF INSPECTOR GENERAL

Appropriates \$6,000,000 for Office of Inspector General instead of \$5,000,000 as proposed by the House and \$6,900,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS

Retains the administrative provisions proposed by the Senate regarding qualified student loans eligible for education awards and the availability of funds for the placement of volunteers with disabilities. The House included a similar provision regarding qualified student loans, but with technical differences.

U.S. COURT OF APPEALS FOR VETERANS CLAIMS

SALARIES AND EXPENSES

Appropriates \$14,326,000 for salaries and expenses as proposed by the House instead of \$14,612,000 as proposed by the Senate.

The conferees believe all federal employees should be safe in their work environments. The General Services Administration (GSA) is responsible for providing security for the Federal tenants of privately owned buildings. The conferees strongly urge the Court, together with the other tenants of the building, to work with GSA, in consultation with the Department of Homeland Security, on a security plan acceptable to all tenants, the community and the owner. The cost of the plan should be borne equally by all tenants.

The conferees remind the Court of its obligation to comply with the reprogramming requirements set forth at the beginning of this division and direct the Court to submit an operating plan to the Committees on Appropriations of both the House and Senate 60 days after enactment of this Act.

DEPARTMENT OF DEFENSE—CIVIL

CEMETERIAL EXPENSES, ARMY

SALARIES AND EXPENSES

Appropriates \$32,445,000 for salaries and expenses as proposed by the House instead of \$24,445,000 as proposed by the Senate. Additional funds are provided for repairs to the Memorial Amphitheater and accelerated development of section 90.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

Appropriates \$84,074,000 for the National Institute of Environmental Health Sciences as proposed by the House instead of \$76,074,000 as proposed by the Senate. Of the appropriated amount, \$48,936,000 is for research and \$27,138,000 is for worker training activities as proposed in the budget submission.

In addition, the conferees have provided \$8,000,000, split equally between research and worker training, for NIEHS activities related to the terrorist attacks of September 11, 2001 which had been appropriated in a Supplemental Appropriations Act but not requested by the Administration as a contingent emergency.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY
TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

Appropriates \$82,800,000 for toxic substances and environmental public health instead of \$88,688,000 as proposed by the House and \$81,000,000 as proposed by the Senate. Of the amount provided, \$1,800,000 is intended to reimburse ATSDR for direct and indirect costs of the Agency related to the events of September 11, 2001.

Bill language has again this year been included which permits the Administrator of the Agency for Toxic Substances and Disease Registry (ATSDR) to conduct other appropriate health studies and evaluations or activities in lieu of health assessments pursuant to section 104(i)(6) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA). The language further stipulates that in the conduct of such other health assessments, evaluations or activities, the ATSDR shall not be bound by the deadlines imposed in section 104(i)(6)(A) of CERCLA. Funds provided for fiscal year 2003 cannot be used by the ATSDR to conduct in excess of 40 toxicological profiles.

From within the funds provided, the conferees expect ATSDR to establish a fish consumption advisory pilot program in the State of Michigan, implement a multi-faceted health study of polychlorinated biphenyl exposure in Anniston, Alabama, and monitor and assess the long-term health status of children, adolescents, and young adults in Herculaneum, Missouri regarding their exposure to lead.

Finally, the conferees have again agreed to cap administrative costs charged by the CDC at 7.5 percent of the amount appropriated herein for the ATSDR.

ENVIRONMENTAL PROTECTION AGENCY
SCIENCE AND TECHNOLOGY

Appropriates \$720,261,000 for science and technology instead of \$714,578,000 as proposed by the House and \$707,203,000 as proposed by the Senate. The conferees have included language similar to that proposed by the House giving EPA the ability to contract for the temporary or intermittent services of students or recent graduates. The language, with technical differences, is similar to language adopted in Public Law 106-113 to provide such authority to the United States Geological Survey.

The conferees have agreed to the following increases above the budget request:

1. \$2,500,000 for EPSCoR;
2. \$4,000,000 for the Water Environmental Research Foundation;
3. \$5,000,000 for the American Water Works Association Research Foundation;
4. \$2,000,000 for the National Decentralized Water Resource Capacity Development Project, in coordination with EPA, for continued training and research and development program;
5. \$9,750,000 for the STAR Fellowship program;

6. \$1,000,000 for the American Water Works Association as a one-time grant to assist AWWA in its drinking water security training activities;

7. \$5,000,000 for small system arsenic removal research, for a total of \$11,800,000 in fiscal year 2003. The conferees strongly encourage EPA to utilize a significant portion of this funding to carry out demonstrations of implementation of low-cost treatment technology and directs the Agency to report to the Committees on Appropriations by August 15, 2003, on its plans to carry out such demonstrations;

8. \$900,000 for the University of South Alabama, Center for Estuarine Research;

9. \$450,000 for the city of San Bernardino, California/San Bernardino Valley Metropolitan Water District for the Lakes and Streams project;

10. \$675,000 to the University of California, Riverside for continued research of advanced vehicle design, advanced transportation systems, vehicle emissions, and atmospheric pollution at the CE-CERT facility;

11. \$450,000 to the Monterey County, California Water Resources Association for planning activities for the Salinas Valley Water Project;

12. \$1,800,000 for the International Center for Water Technology at California State University, Fresno;

13. \$900,000 for the Central California Air Quality Study conducted by the Central California Air Quality Coalition;

14. \$720,000 to Barry University for minority science training;

15. \$900,000 to the University of Miami in Florida for the Rosenstiel School of Marine and Atmospheric Science for continued research into coral reefs;

16. \$270,000 to Florida International University to utilize non-destructive techniques to characterize and develop contamination strategies;

17. \$225,000 for ongoing research and development of multi-purpose sensors for detecting and analyzing environmental contaminants at Boise State University, the University of Idaho and the University of Utah;

18. \$450,000 to the Illinois Waste Management and Research Center through the University of Illinois at Urbana/Champaign for implementation of a program to increase the adoption of innovative pollution prevention technologies by businesses;

19. \$180,000 for the Geothermal Heat Pump Consortium;

20. \$450,000 for the National Center for Manufacturing Sciences in Ann Arbor, Michigan for assisting EPA in meeting the Strategic Goals Program in the metal finishing sector;

21. \$450,000 for the Michigan Biotechnology Institute for development and demonstration of environmental cleanup technologies;

22. \$450,000 for the Great Lakes Hydrological Center of Excellence at Western Michigan University;

23. \$180,000 to Montana State University Bozeman to develop a Water Center Drinking Water Assistance Program for Small Systems;

24. \$225,000 to the Desert Research Institute for Clean Water Research of the Western Great Basin Rivers;
25. \$6,885,000 for the Environmental Systems Center of Excellence at Syracuse University for research and technology transfer in the fields of indoor environmental quality and urban ecosystems sustainability;
26. \$180,000 to the State University of New York, College of Environmental Sciences and Forestry for research and outreach at the Roosevelt Sustainability Center;
27. \$450,000 to the Syracuse Research Corporation in Syracuse, New York, a not-for-profit corporation, for the continuation of environmental research at its Probability Risk Assessment Center;
28. \$900,000 for the Integrated Petroleum Environmental Consortium;
29. \$450,000 for the University of South Carolina for a geologic study for uranium groundwater contamination;
30. \$1,800,000 for the Mickey Leland National Urban Air Toxics Research Center;
31. \$450,000 for the Texas Institute for Applied Environmental Research at Tarleton State University;
32. \$450,000 for the Texas Institute for Environmental Assessment and Management at the University of North Texas, Denton, Texas;
33. \$873,000 for the Canaan Valley Institute in close coordination with the Regional Vulnerability and Assessment (ReVA) initiative to develop research and educational tools using integrative technologies to predict future environmental risks and support informed, proactive decision-making to be undertaken in conjunction with the Highlands action program;
34. \$450,000 for the Dauphin Island Sea Lab, Dauphin Island, Alabama, for coastal ecosystem research;
35. \$630,000 for the Center for the Conservation of Biological Resources at Black Hills State University, South Dakota;
36. \$675,000 for Clean Air Counts of Northeastern Illinois to develop an innovative and cost effective method to reduce smog-causing emissions in the Chicago metropolitan region. The funding will provide support for an ongoing partnership involving EPA, the Metropolitan Mayors Caucus, Illinois EPA, and the Delta Institute;
37. \$720,000 for the Contra Costa Water District, California, for applied research studies related to the water quality and water treatment challenges facing Bay Delta water users;
38. \$720,000 for Lake Superior State University for education and research on aquatic biota and their associated habitats;
39. \$675,000 for the Louisiana Environmental Research Center at McNeese State University for research into wetland ecology and the environmental effects of oil spills;
40. \$270,000 for the Foundation for Advancements in Science and Education in Vermont for a pesticides recording project;
41. \$675,000 for the Southwest Clean Air Quality Agency's Columbia Gorge Air Quality Technical Foundation Study;
42. \$450,000 for the Center for the Study of Metals in the Environment;
43. \$1,080,000 for the Center for Air Toxic Metals at the Energy and Environmental Research Center;

44. \$90,000 for the University of Vermont's Proctor Maple Research Center to continue mercury deposition monitoring effects;
45. \$315,000 for acid rain research at the University of Vermont;
46. \$450,000 for the City of Glendale, California for research and development of technology for the removal of Chromium 6 from water;
47. \$450,000 for the Consortium for Plant Biotechnology Research;
48. \$900,000 for the National Environmental Respiratory Center at the Lovelace Respiratory Research Institute;
49. \$3,510,000 for the Mine Waste Technology Program at the National Environmental Waste Technology, Testing, and Evaluation Center;
50. \$1,350,000 for the Connecticut River Airshed-Watershed Consortium;
51. \$630,000 for the Mid-America Regional Council to apply urban agroforestry technologies to meet community green infrastructure needs;
52. \$900,000 for the Environmental Lung Center at the National Jewish Medical and Research Center; and
53. \$1,800,000 for air quality program for Fairbanks North Star Borough, Alaska.

The conference agreement provides \$8,000,000 for the National Environmental Technology Competition, a decrease of \$1,750,000 from the budget request. In this regard, the Agency is directed to report by August 1, 2003 on its efforts to develop a "one stop shop" office to coordinate similar programs which foster private and public sector development of new, cost-effective environmental technologies.

The conference agreement includes a general reduction to this account of \$16,100,000.

The conferees continue to support the partnership between the EPA and the National Technology Transfer Center and direct that the Agency continue the cooperative agreement at the fiscal year 2001 funding level. Additionally, the conferees have provided \$850,000 from within available funds for the Agency to contract with the National Academy of Sciences for an evaluation of the Coeur D'Alene Basin, Idaho Superfund site in a manner consistent with the reports of the House and Senate accompanying this Act.

From within amounts transferred to "Science and Technology" from "Hazardous Substance Superfund", the conferees direct that funding for the Gulf Coast Hazardous Substance Research Center continue at no less than the fiscal year 2002 level. Also from within these transferred amounts, the Agency is directed to provide no less than \$8,000,000 for continuation of the SITE program.

The conferees agree that the drinking water security report requested by the Senate shall be provided no later than June 30, 2003.

Finally, the conference agreement modifies a provision included in the Report accompanying the Senate bill requiring EPA to study the procedures used by the States in setting individual State emission standards. The conferees direct that the Agency, rather than conduct such a study with its own personnel, contract

with the National Academy of Sciences to conduct the review and submit a report to the Committees on Appropriations of its findings not later than February 15, 2004. The conferees have provided \$750,000 from within available funds in support of this contract.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

Appropriates \$2,111,604,000 for environmental programs and management instead of \$2,111,677,000 as proposed by the House and \$2,136,569,000 as proposed by the Senate. The conferees have included language as proposed by the House which requires the Administrator to certify grant amendment numbers C-340461-02 and C-340461-03.

The conferees have agreed to specific Agency program levels as follows:

1. \$22,651,000 for the Chesapeake Bay Program, an increase of \$2,000,000 above the budget request for small watershed grants;
2. \$16,000,000 for the Great Lakes National Program Office, an increase of \$872,000 above the request;
3. \$24,521,000 for the National Estuary Program, an increase of \$5,275,000 above the budget request;
4. \$5,000,000 for the Gulf of Mexico program, an increase of \$673,000 above the budget request;
5. \$2,500,000 for the Long Island Sound Program Office, an increase of \$2,023,000 above the budget request;
6. \$5,500,000 for Environmental Justice programs, an increase of \$1,421,000 above the budget request;
7. \$182,000,000 for the Compliance Assistance, Compliance Monitoring, and Civil Enforcement programs within the Office of Enforcement and Compliance Assurance, an increase of \$15,224,000 above the budget request;
8. \$2,500,000 for the Lake Champlain Basin Program, an increase of \$1,545,000 above the budget request;
9. \$1,000,000 for the Lake Pontchartrain Basin Restoration Program, an increase of \$1,000,000 above the budget request;
10. \$10,000,000 for Capacity Building, an increase of \$489,000 above the fiscal year 2002 funding level;
11. \$13,057,000 for Information Integration, an increase of \$7,273,000 above last year's level;
12. \$44,500,000 for Legal Services, an increase of \$2,716,000 above the fiscal 2002 level;
13. \$14,750,000 for the TRI/Right-to-Know program, an increase of \$549,000 above last year;
14. \$27,200,000 for the EPM account's portion of the Brownfields program, an increase of \$24,381,000 above the level provided in fiscal year 2002; and
15. \$33,000,000 for regulatory development, an increase of \$5,588,000 above the fiscal year 2002 funding level.

The conference agreement provides for a general reduction for the "Environmental Programs and Management" account of \$45,001,000. Further, the agreement provides for no reductions as proposed by the House for the Management Services and Stewardship and Planning and Resource Management activities, and provides for no increase in the Energy Star program as proposed by the Senate.

The conferees have agreed to the following increases to the budget request:

1. \$18,000,000 for rural water technical assistance activities and groundwater protection with distribution as follows: \$10,000,000 for the NRWA; \$4,000,000 for RCAP, to be divided equally between assistance for water programs and assistance for wastewater programs; \$1,000,000 for GWPC; \$2,000,000 for Small Flows Clearinghouse; and \$1,000,000 for the NETC;
2. \$1,000,000 for the National Biosolids Partnership Program;
3. \$2,000,000 for source water protection programs;
4. \$5,000,000 for a cost-shared grant program to school districts for necessary upgrades of their diesel bus fleets;
5. \$2,000,000 to the NRWA to assist small water systems to conduct vulnerability assessments as required in title IV of the Public Health Security and Bioterrorism Preparedness Response Act of 2002;
6. \$3,000,000 for EPA's National Computing Center to provide for the remote mirroring of all critical information and related systems to achieve a Continuity of Operations (COOP)/Disaster Recovery capability;
7. \$4,000,000 for grants to interested States to establish a long-term ambient monitoring and assessment framework at relevant geographic scales to support all water quality management objectives;
8. \$450,000 to the University of Arkansas to develop bio-engineering solutions to watershed management;
9. \$450,000 for the San Joaquin River Resource Management Coalition of California;
10. \$225,000 to establish a Santa Ana River Watershed Research and Training Program at the Water Resources Institute of California State University, San Bernardino;
11. \$225,000 for the San Bernardino Valley Municipal Water District for research and design (cost evaluation and environmental studies) of a mitigation project addressing the city's contaminated high groundwater table and dangers presented by liquefaction;
12. \$270,000 for the Sacramento River Toxic Pollutant Control Program and Sacramento River Watershed Program;
13. \$225,000 to Edward Waters College of Jacksonville, Florida for research education and training with regard to community environmental conditions;
14. \$1,350,000 for enhanced environmental education, research and training programs at Florida Gulf Coast University's Institute for Coastal and Watershed Studies;
15. \$270,000 to Miami-Dade County, Florida for lead screening, testing, outreach, and education in the Liberty City Neighborhood;
16. \$270,000 to Miami-Dade County, Florida to expand the existing environmental education program;
17. \$450,000 to the Georgia Environmental Training and Education Authority for a lagoon waste management demonstration project;
18. \$900,000 to the Columbus Water Works, Columbus, Georgia for an Advanced Biosolids Flow-Through Thermophilic Treatment Process demonstration project;

19. \$180,000 to Cerro Gordo County, Iowa for environmental planning related to the Ventura Marsh initiative and overall water quality assessment in connection with the Clear Lake, Iowa Restoration Project;
20. \$270,000 to the Friends of the Teton River, Inc. for the Upper Teton Watershed project;
21. \$675,000 to the Illinois Environmental Protection Agency for the Fox River Watershed Management Program;
22. \$450,000 to Purdue University in Indiana for the Contaminant Remediation Optimization Program (CROP);
23. \$180,000 for the Equus Beds Water Quality Protection program in Wichita, Kansas;
24. \$450,000 for the Boston Metropolitan Area Planning Council, in cooperation with the Massachusetts Technology Collaborative, for a Comprehensive Water Resources Strategy for the I-495 Corridor of Massachusetts;
25. \$270,000 to Caroline County, Maryland for the initial design and engineering of a regional plan for wastewater needs;
26. \$157,500 for the Hypoxia Education and Stewardship Project in Kansas City, Missouri;
27. \$225,000 for continuation of the Mecklenburg County, North Carolina Surface Water Improvement Management Initiative;
28. \$765,000 for continued activities of the North Carolina Central University research initiative;
29. \$225,000 for Wake County, North Carolina for planning, environmental analysis and design of a watershed management plan;
30. \$225,000 to Rowan University in Glassboro, New Jersey for the Environmental Community Revitalization and Research Initiative;
31. \$900,000 to continue the sediment decontamination technology demonstration in the New York-New Jersey Harbor;
32. \$450,000 to the Tompkins County, New York Soil and Water Conservation District for the Cayuga Lake Watershed Protection Project;
33. \$450,000 for the Alfred University Center for Environmental and Energy Research;
34. \$135,000 to the Town of North Salem, New York for the Peach Lake pollution study;
35. \$675,000 to Columbia University in New York City, New York for education, training and equipment related to ongoing biomedical research on environmentally induced cancers and immunological responses, at the Audubon Biomedical Science and Technology Park;
36. \$900,000 for the Water Systems Council Wellcare™ Program;
37. \$225,000 to the Rochester Institute of Technology (RIT) for the National Materials Recovery and Recycling Center of Excellence;
38. \$1,350,000 for continued work on water management plans for the Central New York watersheds in Onondaga and Cayuga counties;

39. \$675,000 to Cortland County, New York for continued work on the aquifer protection plan, of which \$150,000 is for continued implementation of the comprehensive water quality management program in the Upper Susquehanna Watershed;

40. \$90,000 for a Water Consortium Feasibility Study in Oklahoma with Washington County Water District #3, Rogers County Rural Water District #3, the City of Collinsville, and the City of Owasso;

41. \$450,000 to Rural Enterprises of Oklahoma, Inc., a non-profit organization, for demonstration projects which include research, education and training activities related to the development of environmentally beneficial vermicomposting processes;

42. \$450,000 for the City of Philadelphia, Pennsylvania's Department of Health in consultation with the Philadelphia Citizens for Children and Youth for lead screening, testing, outreach, and education throughout the City;

43. \$1,800,000 to the American Cities Foundation of Philadelphia, Pennsylvania in consultation with the Philadelphia Commercial Development Corporation for the Neighborhood Environmental Action Team (N.E.A.T.) Philadelphia program;

44. \$450,000 for the Texas Agricultural Experiment Station in Tarrant County, Texas for research of water supplies and development of an integrated watershed protection plan;

45. \$315,000 to the Brazos River Authority of College Station, Texas for the Brazos/Navasota Watershed Management Project;

46. \$180,000 to the Tri-State Water Council for the Clark Fork-Pend Oreille Tri-State Water Quality Study;

47. \$1,467,000 for on-going activities at the Canaan Valley Institute, including activities relating to community sustainability;

48. \$1,530,000 for the Canaan Valley Institute to continue to develop a regional sustainability support center and coordinated information system in the Mid-Atlantic Highlands;

49. \$810,000 to the Polymer Alliance Zone's MARCEE initiative;

50. \$270,000 to the West Virginia High Technology Consortium Foundation, Inc. (WVHTCF) for research to demonstrate the capture and utilization of CO₂ and CH₄ at the Meadowfill Landfill near Bridgeport, West Virginia;

51. \$405,000 to the Fayette County Commission of West Virginia for a wastewater treatment engineering study to address water quality concerns in the New River Gorge National River;

52. \$5,000,000 for America's Clean Water Foundation for implementation of on-farm environmental assessments for livestock operations;

53. \$225,000 for the Maryland Bureau of Mines for an acid mine drainage remediation project;

54. \$900,000 for projects demonstrating the benefits of Low Impact Development along the Anacostia Watershed in Prince Georges County, Maryland;

55. \$45,000 for the Northwest Straits Commission;

56. \$630,000 for the Northwest Indian Fisheries Commission with distribution as follows: \$144,000 to the Northwest Indian Fisheries Commission for coordination and \$486,000 to be divided among the 26 participating tribes to implement this tribal initia-

tive by integrating state, Federal, tribal and local governmental efforts to develop common water quality protection goals and reduce jurisdictional barriers;

57. \$180,000 for the Columbia Basin Groundwater Area Management Study;

58. \$450,000 for the Gateway Cities Council of Governments, California, pilot program to reduce diesel emissions;

59. \$225,000 for the Illinois Department of Agriculture's Council on Best Management Practices initiative to reduce nitrate contamination in drinking water;

60. \$225,000 for the CropLife Foundation North Carolina environmental stewardship project;

61. \$450,000 for the Center for Agricultural and Rural Development at Iowa State University for the Resource and Agricultural Policy Systems program;

62. \$450,000 for the Small Business Pollution Prevention Center at the University of Northern Iowa;

63. \$675,000 for the painting and coating assistance initiative through the University of Northern Iowa;

64. \$90,000 for the American Farmland Trust Center for Agriculture in the Environment for sustainable agriculture in Hawaii and the American Pacific;

65. \$450,000 for the Economic Development Alliance of Hawaii to promote biotechnology to reduce pesticide use in tropical and subtropical agricultural production;

66. \$225,000 for the County of Hawaii and the Hawaii Island Economic Development Board to establish and implement a community development model for renewable resource management by upgrading solid waste transfer stations into community recycling centers;

67. \$225,000 for a storm water research initiative at the University of Vermont;

68. \$180,000 for the Vermont small business compliance assistance project conducted by the Vermont Small Business Development Center;

69. \$144,000 for the Great Lakes Fish and Wildlife Commission Crandon Mine analysis;

70. \$450,000 for the Sand County Foundation in Wisconsin for an incentive program to promote the reduction of nitrogen discharge in the Upper Mississippi River Basin;

71. \$225,000 for Livingston Parish, Louisiana, for a water and wastewater infrastructure feasibility study;

72. \$225,000 for the Vermont Department of Agriculture to work with conservation districts and local communities to reduce non-point source run-off in the Potash Brook watershed;

73. \$225,000 for the Nevada Department of Environmental Protection to work with California water officials to address Lake Tahoe water quality issues;

74. \$225,000 for the University of Nevada, Reno to conduct water testing and related studies of the arsenic problem and its impact in Fallon, Nevada;

75. \$45,000 for the Tioga County Department of Economic Development and Planning, New York, for the Owego infrastructure master plan;

76. \$180,000 for design, engineering, and planning activities related to the pollution prevention of Wreck Pond and nearby beaches in Spring Lake, New Jersey;

77. \$135,000 for the New Jersey EnvironMentors project;

78. \$315,000 for planning and engineering studies for the Storm Lake, Iowa, cleanup project;

79. \$225,000 for the University of West Florida P.E.R.C.H. (Partnership for Environmental and Community Health) research project;

80. \$180,000 for the Northeast Waste Management Officials Association to continue solid waste, hazardous waste, cleanup, and pollution prevention programs;

81. \$180,000 for the Northeast States for Coordinated Air Use Management (NESCAUM);

82. \$2,250,000 for the National Alternative Fuels Training Consortium;

83. \$1,350,000 for the Ecological and Water Resources Assessment Project;

84. \$450,000 for the Valley Water Mill Watershed Education and Demonstration Center in Missouri;

85. \$180,000 for the Sutherlin, Oregon Water Control District's Watershed Assessment Project;

86. \$450,000 for the Kenai River Center in Kenai, Alaska;

87. \$1,800,000 for Region 10 environmental compliance activities in Alaska;

88. \$1,800,000 for the Coeur d'Alene Basin Commission to continue a pilot program for environmental response, natural resource restoration and related activities;

89. \$1,350,000 for ORSANCO for the Ohio River Pollution Reduction Program;

90. \$450,000 for the University of Southern Maine for environmental education activities;

91. \$1,350,000 for the University of Louisville for the Stream Restoration Institute;

92. \$2,250,000 for the Southwest Center for Environmental Research and Policy;

93. \$3,600,000 for the Small Public Water System Technology Centers at Western Kentucky University, the University of New Hampshire, the University of Alaska-Sitka, Pennsylvania State University, the University of Missouri-Columbia, Montana State University, the University of Illinois, and Mississippi State University;

94. \$900,000 to complete the full feasibility study/environmental impact statement for the Medford, Oregon, effluent reuse project; and

95. \$900,000 for the Alabama Department of Environmental Management for the Alabama Water and Wastewater Training Program.

The conference agreement provides \$9,160,000 from within available funds for the continuing operation of the Environmental Education programs. In this regard, the Agency is directed to proportionately distribute funds for the Environmental Education programs in a manner consistent with the provisions of the National Environmental Education Act.

The conferees have, within available funds, provided the fiscal year 2002 level for the eight Environmental Finance Centers. Also within available funds, the Agency is directed to provide \$350,000 for maintenance and updating of the Cumulative and Aggregate Risk Evaluation System software package; \$250,000 to continue development of BASINS models, GIS mapping, integration with other financial and planning tools, and incorporation of cost-effectiveness considerations into integrated priority ranking systems; and \$200,000 for setting standards and to increase public and government awareness of the benefits of ambient temperature glass technology.

The Agency's budget submission for fiscal year 2003 called for a significant reduction in work conducted through the Climate Protection/Transportation program. So that work conducted under this program can be phased in a more appropriate manner, the conferees direct EPA to provide no less than \$5,000,000 from within available funds for work of the FEV/Clean Automotive Technology program on advanced hydraulic hybrid vehicles, extremely clean diesel technologies, and advanced gasoline engine concepts.

The conferees expect EPA to establish and implement a Highlands Action Program (HAP) in partnership with Canaan Valley Institute (CVI) to take action on the problems identified in the follow-up Mid-Atlantic Highlands report that Congress directed the EPA to prepare in the fiscal year 2002 House and Conference Reports. The HAP should, among other things, use environmental indicators, strong science, and partnerships to identify the causes of those problems; develop solutions and management actions to resolve the identified problems; and develop a management plan that includes states, non-governmental organizations, local communities and the private sector. The Agency is expected to periodically assess the status of the HAP and report back to Congress on the findings and the successes of the program.

The Agency is directed to submit as part of the fiscal year 2003 Operations Plan a resource plan detailing the number of pesticide tolerance reassessments and re-registrations required under FQPA, the number and kind of such activities completed since 1996, the status of the remaining activities, including the projected number to be completed year-to-year under FQPA, and the level of resources needed to meet these requirements. Similarly, the Agency is expected to include in its fiscal year 2003 Operations Plan a report of its actions and accomplishments towards restoring personnel in its civil enforcement program, as well as a report of the Agency's plan towards aggressively filling and retaining FTE vacancies within OECA.

Last year, the Agency was asked by the House of Representatives' Chairman of the Appropriations Subcommittee on Veterans Affairs, Housing and Urban Development, and Independent Agencies to undertake an agreement with the National Academy of Sciences (NAS) to review the current draft Dioxin Reassessment. Among other things, the review was intended to address the toxicological questions associated with dioxin, including, the scientific evidence for the appropriate classification of dioxin as to its potential human carcinogenicity, the validity of the non-threshold linear dose-response model in light of epidemiological studies and the cor-

responding cancer slope factor calculated by the Agency through use of this model, the scientific evidence supporting the calculation and use of Toxicity Equivalent Factors, and the appropriateness of including "dioxin-like" chemicals in the risk assessment without individual empirical review of their effects.

Concerns raised by other federal agencies, outside scientists, and EPA's own Science Advisory Board as to the scientific underpinning of the Reassessment, as well as questions of consistency with other international assessments of dioxin and the positions on these taken by other federal agencies, in large part prompted this request. Because of the enormous policy implications of this Reassessment, the Agency in early Fall, 2002, asked for additional time to convene an Interagency Working Group (IWG) so as to review and address many of the toxicological questions that have been raised concerning the dioxin reassessment, including, but not limited to, the scientific evidence used to classify the carcinogenicity of dioxin to humans, the Agency's use of a linear dose-response model to estimate cancer risk levels, the scientific support for the use of the Toxic Equivalency Factors for dioxins, and the use of body burden as the appropriate dose metric.

While the conferees acknowledge the complexity of this issue, it is unclear as to how much progress has been made by the IWG. The conferees note that a year has passed since the Agency was first requested to pursue such a review by the Academy. In light of this fact and so that no further delay of this important issue occur, the conferees direct that unless the IWG has completed its review and issued a report within 60 days of enactment of the Act, the Agency is to contract with the Academy as quickly as possible thereafter so that the Academy may undertake a review of the Reassessment as originally requested. In issuing this direction, it is not the intention of the conferees to delay the work of the IWG. In addition, upon completion of the review by the NAS, the Agency is expected to move expeditiously to review the Academy's report, make any appropriate changes as necessary in the Reassessment, and issue a final document.

The conferees are aware that EPA is currently working with the Maritime Administration (MARAD) to develop an environmentally acceptable program which will aid MARAD in meeting its statutory mandate to dispose of obsolete vessels of the National Defense Reserve Fleet, and encourage EPA to continue its efforts to find solutions to dispose of these ships so as to eliminate to the greatest extent possible all potential environmental hazards.

OFFICE OF INSPECTOR GENERAL

Appropriates \$36,000,000 for the Office of Inspector General instead of \$35,325,000 as proposed by the House and \$37,325,000 as proposed by the Senate. In addition to amounts appropriated directly to the OIG, \$12,742,000 is also available by transfer from funds appropriated for Hazardous Substance Superfund.

The conferees strongly encourage the Inspector General to prepare and submit to the Committees on Appropriations of the House and the Senate at the earliest practical date an audit management plan and the personnel requirements which will best enhance the expertise and maximize the efficiencies of the Office.

BUILDINGS AND FACILITIES

Appropriates \$42,918,000 for buildings and facilities as proposed by the House and the Senate.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

Appropriates \$1,272,888,000 for hazardous substance superfund as proposed by the Senate instead of \$1,422,888,000 as proposed by the House. Bill language provides that \$636,444,000 of the appropriated amount is to be derived from the Superfund Trust Fund and a like amount is to be derived from General Revenues of the Treasury. Additional language provides for the transfer of \$12,742,000 to the Office of Inspector General, and for the transfer of \$86,168,000 to the Science and Technology account.

The conferees have agreed to the following fiscal year 2003 funding levels:

1. \$856,900,000 for Superfund response and cleanup activities.
2. \$143,600,000 for enforcement activities.
3. \$134,600,000 for management and support.
4. \$12,742,000 for transfer to the Office of Inspector General.
5. \$86,168,000 for research and development activities, to be transferred to the Science and Technology account.
6. \$38,826,000 for reimbursable interagency activities, including \$28,150,000 for the Department of Justice and \$10,676,000 for OSHA, FEMA, NOAA, the United States Coast Guard, and for the Department of the Interior.

The conferees remain concerned that a recent Memorandum of Understanding (MOU) entered into between the EPA and the Nuclear Regulatory Commission (NRC) does not fully address all jurisdictional concerns expressed in past years by the Congress. The Agency is therefore once again directed to negotiate and enter into an amended MOU which fully addresses these remaining issues. The Agency is further directed to report to the Committees on Appropriations by the 28th day of each month on the progress towards completing this direction.

Once again this year, the conferees support the national pilot worker training program which recruits and trains young persons who live near hazardous waste sites or in communities at risk of exposure to contaminated properties for work in the environmental field. The conferees direct EPA to continue funding this effort in cooperation and collaboration with the National Institute of Environmental Health Sciences.

The conferees are aware of the Agency's ongoing program to coordinate the clean-up of vermiculite from certain homes in the Libby, Montana area, and are concerned with reports of both excessive costs and schedule delays associated with the program. The Agency should be aware of the long-standing concerns of the Committees on Appropriations regarding the judicious use of Superfund dollars by the EPA, and the conferees caution the Agency to move forward with this program in a manner which appropriately meets the needs of assistance for individuals in Libby while remaining fiscally responsible and containing costs in light of competing national priorities within the Superfund program.

LEAKING UNDERGROUND STORAGE TANK PROGRAM

Appropriates \$72,313,000 for the leaking underground storage tank program as proposed by the House and the Senate.

OIL SPILL RESPONSE

Appropriates \$15,581,000 for oil spill response as proposed by the House and the Senate.

STATE AND TRIBAL ASSISTANCE GRANTS

Appropriates \$3,859,994,000 for state and tribal assistance grants instead of \$3,789,185,000 as proposed by the House and \$3,920,639,000 as proposed by the Senate. Bill language specifically provides \$1,350,000,000 for Clean Water State Revolving Fund (SRF) capitalization grants, of which up to \$75,000,000 is to be made available for use by States that choose to make loans, including interest-free loans, that increase non-point and non-structural, decentralized alternatives, thus expanding the choices available to communities in their fight for clean water. The conferees strongly encourage States that can do so to pursue innovative technologies in this regard, but emphasize that this program is voluntary and that States not participating in the program will nevertheless continue to receive their normal level of funding through the established SRF formulas.

Additional bill language provides \$850,000,000 for Safe Drinking Water SRF capitalization grants; \$50,000,000 for the United States-Mexico Border program; \$43,000,000 for grants to address drinking water and wastewater infrastructure needs in rural and native Alaska communities; \$3,000,000 for remediation of above ground leaking fuel tanks in Alaska pursuant to Public Law 106-554; \$8,225,000 for grants for construction of alternative decentralized wastewater facilities; \$90,500,000 for a new Brownfields grant program; \$1,150,382,000 for categorical grants to the states and tribes, including \$50,000,000 for Brownfields categorical grants and \$19,999,900 for the Environmental Information Exchange program; and \$314,887,000 for cost-shared grants for construction of water and wastewater treatment facilities and infrastructure and for groundwater protection infrastructure.

The conferees have included bill language which, for fiscal year 2003, authorizes the Administrator of the EPA to use funds appropriated pursuant to the Federal Water Pollution Control Act (FWPCA) to make grants to Indian tribes pursuant to section 319(h) and 518(e) of FWPCA. In addition, bill language has been adopted which, (1) will permit the states to include as principal amounts considered to be the cost of administering SRF loans to eligible borrowers, with certain limitations; (2) permits the Administrator to reserve up to 1½ percent of the funds appropriated for the SRF under title VI of the FWPCA for grants under section 518(c) of that Act; (3) for fiscal year 2003, authorizes the states to transfer funds between the Clean Water and Safe Drinking Water SRF programs; and (4) stipulates that no funds provided in the Act to address water infrastructure needs of colonias within the United States along the United States-Mexico border shall be made available to a county or municipal government unless that govern-

mental entity has established an enforceable ordinance or rule which prevents the development or construction of any additional colonia areas, or the development within an existing colonia of any new home, business, or other structure which lacks water, wastewater, or other necessary infrastructure.

The conferees have included bill language which makes technical corrections and changes to grants approved in previous fiscal years. Finally, as in previous years, the conferees have included bill language which stipulates that none of the funds provided in this or any previous years' Acts for the Safe Drinking Water SRF may be reserved by the Administrator for health effects studies on drinking water contaminants. The conferees have instead provided significant resources for such studies within EPA's Science and Technology account.

Of the funds provided for the United States-Mexico Border program, \$7,000,000 is for continuation of the El Paso, Texas desalination and water supply project, and \$2,000,000 is for the Brownsville, Texas water supply project.

The conference agreement provides \$8,225,000 for six specific grants under the National Decentralized Wastewater Demonstration program. The program, which has shown tremendous success in developing and transferring technologies which offer alternatives to centralized wastewater treatment facilities, also requires a cost-share whereby each grantee must provide 25% of the project's total cost. The six projects included for funding are located in Lowndes County, Alabama (\$575,000); Upper Patuxent River Watershed, Maryland (\$1,000,000); West Philadelphia and Rodale Institute Farm, Pennsylvania (\$1,700,000); Upper Rio Grande Valley Colonias, Texas (\$900,000); Chittenden County, Vermont Integrated Water Resource Project (\$3,050,000); and Mud River Watershed, Lincoln County, West Virginia (\$1,000,000). As in previous years, these projects were determined by non-governmental, independent analysis based upon their unique and diverse geology and geography, their ability to provide the greatest technological diversity using limited financial resources, and the commitment of each community or regional area to find and fund appropriate alternative technologies to resolve their wastewater treatment needs.

Within the State and Tribal Categorical Grant program, the conference agreement includes:

1. \$225,000,000 for air resource assistance grants under sections 103 and 105 of the Clean Air Act, of which \$10,000,000 is for the five State/Regional Haze planning organizations;
2. \$192,500,000 for section 106 water pollution control grants;
3. \$10,000,000 for the Beach Environmental Assessment and Coastal Health Act (BEACH) grant program;
4. \$240,000,000 for section 319 non-point source pollution grants;
5. \$19,999,900 for the information exchange network grant program; and
6. \$15,000,000 for the new targeted watershed grant program.

The conferees have not provided funding for the State Multimedia Enforcement Grant program or for maintenance of the Homestake Mine in Lead, South Dakota.

The conferees agree that \$314,887,000 is provided for cost-shared grants to communities or other governmental entities for construction of water and wastewater treatment facilities and infrastructure and for groundwater protection infrastructure. Each such grant shall be accompanied by a cost-share requirement whereby, regardless of the amount provided herein for each grant, 45 percent of a project's cost is to be the responsibility of the community or entity consistent with long-standing guidelines of the Agency. These guidelines also offer flexibility in the application of the cost-share requirement for those few circumstances when meeting the 45 percent requirement is not financially possible. The Agency is commended for its past efforts in working with communities and other entities to resolve problems in this regard, and it is expected that this high level of effort and flexibility will continue throughout fiscal year 2003.

The distribution of funds under this program is as follows:

1. \$1,620,000 for Palmer, Alaska for a water main;
2. \$450,000 for Wrangell, Alaska for sewer expansion;
3. \$900,000 for the Fairbanks City, Alaska sewer and storm drain connection;
4. \$450,000 for Kodiak, Alaska for water and sewer upgrades;
5. \$1,080,000 for the Anchorage Water and Wastewater Utility for the development of a water and sewer facility in Anchorage, Alaska;
6. \$900,000 for Wasilla, Alaska for water and sewer improvements;
7. \$180,000 to Attalla, Alabama for sewerage system improvements;
8. \$180,000 to Powell, Alabama for sewerage system improvements;
9. \$90,000 to Lawrence County, Alabama for the Bankhead Forest Water Project;
10. \$90,000 to the Town of Phil Campbell, Alabama for water system improvements;
11. \$900,000 to Fort Payne, Alabama for sewerage system improvements;
12. \$270,000 to Franklin County, Alabama for water infrastructure improvements;
13. \$180,000 to Douglas, Alabama for sewerage system improvements;
14. \$180,000 to Marion County, Alabama for water system improvements;
15. \$90,000 to the Fayette Water Board, Fayette, Alabama for water security system improvements;
16. \$135,000 to the Cullman County Commission, Alabama for the North Cullman County water systems upgrades;
17. \$225,000 to the City of Calera, Alabama for water and wastewater infrastructure improvements;
18. \$225,000 to the City of Alabaster, Alabama for water and wastewater infrastructure improvements;
19. \$1,080,000 to South Alabama Utilities of the town of Citronelle, Alabama for water infrastructure improvements in western Mobile County;

20. \$450,000 to the Southwest Alabama Regional Water Authority for water infrastructure improvements;
21. \$675,000 to the City of Huntsville, Alabama for water system improvements;
22. \$675,000 to the City of Moulton, Alabama for wastewater system improvements;
23. \$112,500 to the Town of Woodville, Alabama for wastewater system improvements;
24. \$180,000 to the Limestone County, Alabama Water and Sewer Authority for drinking water improvements;
25. \$180,000 to the West Morgan-East Lawrence Water Authority, Alabama for drinking water improvements;
26. \$247,500 to the Town of Littleville, Alabama for wastewater system improvements;
27. \$180,000 to the City of Athens, Alabama for wastewater system improvements;
28. \$315,000 to the City of Montgomery, Alabama for wastewater infrastructure improvements;
29. \$315,000 to the Coosa Valley Water Authority for water infrastructure improvements in St. Clair County, Alabama;
30. \$90,000 for the City of Fulton, Alabama for water system improvements;
31. \$585,000 for the City of Jackson, Alabama for water infrastructure;
32. \$675,000 for the Mobile County Water, Sewer and Fire Protection Authority, Alabama for water system improvements;
33. \$630,000 for the Cities of Daphne, Foley and Fairhope, Alabama for comprehensive water infrastructure assessment;
34. \$585,000 for Mobile Area Water and Sewer System and the City of Prichard, Alabama for a combined sewer outflow project;
35. \$90,000 for Mt. Vernon, Alabama for water system improvements;
36. \$90,000 for Summerdale, Alabama for water infrastructure;
37. \$225,000 for the City of Monroeville, Alabama for water system improvements;
38. \$450,000 for Sumiton, Alabama for the Sumiton Sanitary Sewer System;
39. \$450,000 for Berry, Alabama for the construction of a new sanitary wastewater lagoon system;
40. \$450,000 for a water supply project in Guin, Alabama;
41. \$405,000 for Talladega, Alabama for county water supply facilities upgrades and construction;
42. \$292,500 for the Town of Notasulga, Alabama for the Notasulga Wastewater System;
43. \$270,000 for Muscle Shoals, Alabama for a wastewater project;
44. \$180,000 for Eva, Alabama for a sewer system project;
45. \$585,000 for Autauga County, Alabama for a sewer infrastructure construction project;
46. \$450,000 for the Osage Basin Wastewater District, Arkansas for wastewater infrastructure improvements;
47. \$225,000 to the Town of Menifee, Arkansas for water and wastewater infrastructure improvements;

48. \$450,000 for the City of Fayetteville, Arkansas for regional wastewater system improvements;
49. \$225,000 for the Community Water System Public Water Authority of Arkansas in Lonoke and White Counties for the Green Ferry drinking water project;
50. \$1,350,000 for the City of Safford, Arizona for wastewater treatment plant construction;
51. \$450,000 to the City of Scottsdale, Arizona for the Scottsdale Arsenic Removal pilot project;
52. \$900,000 to Huachuca City, Arizona for its effluent recharge project;
53. \$225,000 to the City of Goodyear, Arizona for water infrastructure improvements;
54. \$450,000 to the Litchfield Park Service Company for construction of the Litchfield Park arsenic treatment facility in Arizona;
55. \$675,000 to the Mission Springs Water District in California for groundwater protection and water infrastructure improvements;
56. \$675,000 to the City of Murrieta, California for wastewater infrastructure improvements;
57. \$900,000 to the City of Newport Beach, California for the Big Canyon Reservoir Cover Project;
58. \$630,000 to the Irvine Ranch Water District of Irvine, California for improvement of the San Diego Creek Watershed Natural Treatment System;
59. \$630,000 to the City of Laguna Beach, California for wastewater infrastructure improvements;
60. \$1,710,000 to the Olivenhain Municipal Water District in Encinitas, California for water infrastructure improvements;
61. \$1,800,000 to the Placer Nevada Wastewater Authority for wastewater infrastructure improvements in Placer County, California;
62. \$1,350,000 for water infrastructure improvements for the Cities of Arcadia and Sierra Madre, California;
63. \$450,000 to the Metropolitan Water District of Southern California for the Desalination Research and Innovation Partnership;
64. \$540,000 to Ventura County, California for water and wastewater infrastructure improvements related to the completion and implementation of the Calleguas Creek Watershed Management Plan;
65. \$450,000 to the United Water Conservation District of Ventura County, California for the Oxnard Plain Groundwater Recharge project;
66. \$225,000 to the County of Ventura, California for wastewater infrastructure needs for El Rio;
67. \$315,000 to the City of El Segundo, California for sanitary sewer overflow infrastructure improvements;
68. \$450,000 to the City of Redding, California for water and wastewater infrastructure improvements for the Redding Stillwater Industrial Park;
69. \$450,000 for stormwater pollution mitigation improvements and infrastructure in Los Angeles County, California;

70. \$247,500 for the City of Oceanside, California for infrastructure improvements to the Mission San Luis Rey Waterline;
71. \$450,000 to the City of Brisbane, California for wastewater infrastructure improvements;
72. \$90,000 for the Mojave Water Agency for design and construction of a pipeline and facilities to supply supplemental water to the Mojave River Middle Basin Transition Zone;
73. \$270,000 for the continuation of water infrastructure improvements in Twentynine Palms, California;
74. \$225,000 for the Warren Valley Basin Recharge/Reuse project in Yucca Valley, California;
75. \$90,000 for the Lower Owens River Project in Inyo County, California;
76. \$90,000 for the continuation of water infrastructure improvements in the Yucaipa Valley Water District in Yucaipa, California;
77. \$90,000 for the development of a water master plan to serve the water infrastructure needs of the City of Hesperia, California;
78. \$90,000 for planning and design of a sewage treatment and water reclamation facility in Apple Valley, California;
79. \$45,000 for Basin Water to conduct a national demonstration project for Highly Efficient/Minimum Waste Ion Exchange Treatment of Potable Water Supplies in Southern California;
80. \$900,000 to the City of Sacramento, California for the Combined Sewer System Improvement and Rehabilitation project;
81. \$675,000 to the City of Compton, California for water infrastructure improvements;
82. \$225,000 to the City of Chino Hills, California for stormwater infrastructure improvements for the intersection of Eucalyptus and Peyton Drive;
83. \$225,000 to the City of Brea, California for wastewater and stormwater infrastructure improvements;
84. \$225,000 to the City of Norwalk, California for drinking water infrastructure construction and improvements for the Norwalk Reservoir Project;
85. \$900,000 to the City and County of San Francisco, California for water and wastewater infrastructure improvements for the Hunters Point Naval Shipyard;
86. \$450,000 to the City of Ripon, California for water infrastructure improvements to assist in the removal of arsenic from drinking water;
87. \$315,000 to Madera County, California Resource Management Agency for wastewater infrastructure improvements in Oakhurst, California;
88. \$900,000 to the City of Huntington Beach, California for stormwater and sanitary sewer infrastructure improvements;
89. \$225,000 to the City of Garden Grove, California for stormwater infrastructure improvements;
90. \$450,000 to the City of Glendale, California working in conjunction with the Utah State University in Logan, Utah, the University of Colorado in Boulder, and UCLA for a research study and pilot treatment plant focused on the removal of chromium 6 from drinking water;

91. \$315,000 to the City of Willits, California for wastewater infrastructure improvements and wetlands mitigation;
92. \$225,000 to Sonoma County, California for wastewater infrastructure improvements for the Canon Manor community;
93. \$225,000 to Marin County, California for wastewater infrastructure improvements for Tomales Bay;
94. \$225,000 to the City of Cudahy, California for wastewater and sewer infrastructure improvements;
95. \$225,000 to the City of Maywood, California for wastewater and sewer infrastructure improvements;
96. \$405,000 to the Tuolumne Utility District in California for the canal optimization study;
97. \$450,000 for the City of Whittier, California, for water and sewer infrastructure improvements;
98. \$450,000 for the City of Eureka, California, for the Martin Slough Interceptor project;
99. \$450,000 for Lake County, California, for the Clear Lake Basin 2000 project;
100. \$360,000 for Mountain Village, Colorado for water infrastructure investment;
101. \$270,000 for Mountain Village, Colorado for remediation of above-ground storage tanks;
102. \$450,000 for the Durango Water Treatment Facility in Durango, Colorado;
103. \$1,440,000 for Brownsville District Sewer Development, Colorado for water and wastewater investments;
104. \$900,000 to the City of New Britain, Connecticut for water infrastructure improvements;
105. \$450,000 to the City of Southington, Connecticut for water infrastructure improvements;
106. \$157,500 to the Town of Wolcott, Connecticut for water infrastructure improvements;
107. \$157,500 to the Town of New Fairfield, Connecticut for water infrastructure improvements;
108. \$675,000 to be shared equally between the towns of Vernon and Bolton, Connecticut to support the Vernon-Bolton Lake Sewer Project System;
109. \$900,000 to the District of Columbia Water and Sewer Authority to mitigate combined sewer overflows into the Anacostia and Potomac Rivers;
110. \$900,000 for the Town of Bridgeville, Delaware, for wastewater treatment plant improvements;
111. \$900,000 for the Town of Harrington, Delaware, for wastewater treatment plant improvements;
112. \$450,000 to the City of Tarpon Springs, Florida for wastewater infrastructure improvements;
113. \$450,000 to the City of Clearwater, Florida for wastewater and reclaimed water infrastructure improvements;
114. \$810,000 to the Taylor County, Florida Water and Sewer District for wastewater infrastructure improvements;
115. \$450,000 to Orange County, Florida for wastewater infrastructure improvements;
116. \$225,000 to the City of Jacksonville, Florida for wastewater infrastructure improvements;

117. \$315,000 to the City of Tampa, Florida for the South Tampa Area Reclaimed Project;

118. \$900,000 to the City of Sweetwater, Florida for wastewater and stormwater infrastructure improvements;

119. \$1,125,000 to the Solid Waste Authority of Palm Beach County, Florida for pre-construction engineering and design of the Tri-County Biosolids Pelletization Facility serving Palm Beach, Martin, and St. Lucie Counties;

120. \$135,000 to the City of South Miami, Florida for drinking water, wastewater, stormwater and sewer infrastructure improvements;

121. \$135,000 to the City of Opa-Locka, Florida for drinking water, wastewater, stormwater and sewer infrastructure improvements;

122. \$900,000 to the Volusia Water Alliance of Volusia County, Florida for the Regional Aquifer Management Project and water infrastructure improvements;

123. \$450,000 for the Sarasota County, Florida Phillippi Creek Septic System Replacement Project;

124. \$225,000 to the Escambia County, Florida Utility Authority for its Wastewater Treatment Public/Private Partnership project;

125. \$450,000 to DeSoto County, Florida for water and wastewater infrastructure improvements;

126. \$225,000 to the Sebring Airport Authority of Florida for water and wastewater infrastructure improvements for a light industrial/commercial business park;

127. \$450,000 to the City of Boca Raton, Florida for improvements for the Reverse Osmosis Water Treatment Facility;

128. \$450,000 for the City of West Palm Beach, Florida for its wetlands-based water project;

129. \$225,000 to the City of Lighthouse Point, Florida for stormwater system upgrades and repairs;

130. \$450,000 to the City of Umatilla, Florida for stormwater infrastructure improvements;

131. \$7,875,000 to the Southwest Florida Water Management District for continuation of the Tampa Bay Reservoir Project;

132. \$810,000 for Lake Seminole, Pinellas County, Florida for water and wastewater infrastructure improvements;

133. \$1,125,000 for Eastern Orange and Seminole Counties, Florida, for the Regional Reuse Project;

134. \$2,700,000 to the Metropolitan North Georgia Water Planning District, of which \$1,800,000 is for the City of Atlanta Nancy Creek project, for water and wastewater infrastructure improvements;

135. \$675,000 to the City of Roswell, Georgia for the Big Creek Watershed Demonstration Project;

136. \$405,000 to the Liberty County, Georgia Development Authority for water and wastewater infrastructure improvements for the Coastal MegaPark;

137. \$675,000 to Gwinnett County, Georgia for water and wastewater infrastructure improvements;

138. \$450,000 to continue the Ground Water Chlorination System Replacement and Upgrade Project on Guam;

139. \$495,000 for the State of Hawaii Health Department, for cesspool system replacement;
140. \$450,000 for the City and County of Honolulu, Hawaii, for wastewater treatment technologies;
141. \$450,000 to the City of Ottumwa, Iowa for comined sewer overflow system improvements;
142. \$900,000 to the City of Des Moines, Iowa for stormwater and wastewater infrastructure improvements;
143. \$450,000 for the City of West Liberty, Iowa, for wastewater treatment improvements;
144. \$2,250,000 for the City of Mason City, Iowa, for the Municipal Water System Radium Removal Project;
145. \$225,000 to the Bayview Water and Sewer District of Idaho for the Cape Horn Area Clean Water Compliance Project;
146. \$900,000 for the Coolin Sewer District in Idaho for a wastewater facility upgrade project;
147. \$225,000 for the City of Filer, Idaho for a new drinking water system;
148. \$675,000 for the City of Bancroft, Idaho for water system upgrades;
149. \$900,000 for the City of Burley, Idaho for improvements to the wastewater treatment system;
150. \$450,000 to DuPage County, Illinois for water infrastructure improvements;
151. \$450,000 to the Lake County Stormwater Management Commission of Lake County, Illinois for stormwater detention, infrastructure, modeling, design and management activities in the Upper Des Plaines River watershed;
152. \$450,000 to the Village of Johnsburg, Illinois for wastewater infrastructure improvements;
153. \$450,000 to the Village of Port Byron, Illinois for drinking water improvements;
154. \$180,000 to the City of Hamilton, Illinois for water infrastructure improvements;
155. \$180,000 to the Dallas Rural Water District, Illinois for water infrastructure improvements in Hancock County, Illinois;
156. \$630,000 to the Village of Montgomery, Illinois for removal of lead-based paint from water storage tanks;
157. \$234,000 to the Village of Somonauk, Illinois for construction of a water storage tower;
158. \$900,000 for the Metropolitan Water Reclamation District of Chicago, Illinois for wastewater infrastructure improvements;
159. \$450,000 to the Village of Granville, Illinois for water infrastructure improvements;
160. \$450,000 to the Village of Toulon, Illinois for wastewater infrastructure improvements;
161. \$225,000 to the Village of LaGrange, Illinois for water infrastructure improvements;
162. \$225,000 to the Village of Justice, Illinois for water infrastructure improvements for the Wesley Fields water system;
163. \$450,000 to the City of Galena, Illinois to expand and improve wastewater facilities;
164. \$225,000 to the City of Flora, Illinois for water infrastructure improvements for the Gateway Regional Water System;

165. \$360,000 to the City of Breese, Illinois for water infrastructure improvements;
166. \$22,500 to the Village of Patoka, Illinois for water infrastructure improvements;
167. \$90,000 to the City of Salem, Illinois for water and wastewater infrastructure improvements;
168. \$675,000 to the City of Wilmington, Illinois for wastewater infrastructure improvements;
169. \$450,000 for the Holland Regional Water System in Effingham, Illinois for a water treatment facility to improve regional drinking water;
170. \$450,000 for the City of Moline, Illinois for drinking water improvements;
171. \$450,000 for the City of Georgetown, Illinois for drinking water improvements;
172. \$675,000 to the City of Carmel, Indiana for water infrastructure improvements;
173. \$90,000 to Madison Township, Indiana for wastewater infrastructure improvements;
174. \$148,500 to the Town of Cicero, Indiana for its stormwater infrastructure improvements and pollution prevention project;
175. \$225,000 to the Twin Lakes Sewer District in White County, Indiana for wastewater infrastructure improvements;
176. \$315,000 to Tell City, Indiana for wastewater infrastructure improvements;
177. \$675,000 to the City of Hobart, Indiana for wastewater infrastructure improvements for the Green Acres subdivision;
178. \$450,000 for Vigo County, Indiana for the Sugar Creek Township Sanitary Sewer Project;
179. \$270,000 to the City of Ottawa, Kansas for water and wastewater infrastructure improvements;
180. \$450,000 to Augusta, Kansas for water infrastructure improvements;
181. \$450,000 for Latimer, Kansas for a pipeline project;
182. \$450,000 to the Franklin County Fiscal Court of Kentucky for the Choateville Sewer Project;
183. \$225,000 to the Spencer County, Kentucky Fiscal Court for water infrastructure improvements;
184. \$225,000 to the City of Shepherdsville, Kentucky for wastewater infrastructure improvements;
185. \$225,000 to the City of Carrollton/Carrollton Utilities of Kentucky for wastewater infrastructure improvements at the Carroll-Gallatin-Owen Regional Wastewater Treatment Plant;
186. \$450,000 to the Louisville/Jefferson County Redevelopment Authority for water infrastructure improvements for a technology park in Louisville, Kentucky;
187. \$544,500 to the City of Paintsville, Kentucky for wastewater infrastructure improvements;
188. \$360,000 to the City of Morehead, Kentucky for wastewater infrastructure improvements;
189. \$900,000 to the City of Corbin, Kentucky for wastewater infrastructure improvements;

190. \$360,000 to the City of Monticello, Kentucky for wastewater infrastructure improvements;
191. \$675,000 to the City of Prestonsburg, Kentucky for wastewater infrastructure improvements;
192. \$360,000 to the City of Beattyville, Kentucky for water infrastructure improvements;
193. \$900,000 for the City of Clay, Kentucky for wastewater infrastructure improvements;
194. \$180,000 to the Marshall County Sanitation District #2 for water and wastewater infrastructure improvements for the City of Draffenville, Kentucky;
195. \$180,000 for the City of Bardwell, Kentucky for wastewater infrastructure improvements;
196. \$180,000 for the City of Greenville, Kentucky for wastewater infrastructure improvements;
197. \$1,665,000 for wastewater infrastructure improvements at the Cynthiana Wastewater Treatment Plant, Kentucky;
198. \$585,000 for the City of Sebree, Kentucky for the City of Sebree Sewer project;
199. \$450,000 to the Military Department of Louisiana for wastewater infrastructure improvements for the Gillis W. Long Center;
200. \$900,000 for the Orleans Parish, Louisiana, sanitary sewer inflow infiltration project;
201. \$900,000 to the City of Shreveport, Louisiana for installation of backflow preventers within the water distribution system (\$450,000), and for water and wastewater infrastructure improvements associated with programs of the Red River Watershed Management Institute (\$450,000);
202. \$900,000 to St. John the Baptist Parish, Louisiana for water and wastewater infrastructure improvements;
203. \$180,000 to the City of New Iberia, Louisiana for joint water and wastewater infrastructure improvements with Iberia Parish;
204. \$180,000 to St. Martin Parish, Louisiana for water and wastewater infrastructure improvements;
205. \$225,000 to St. Charles Parish, Louisiana for water and wastewater infrastructure improvements;
206. \$225,000 to St. Bernard Parish, Louisiana for water and wastewater infrastructure improvements;
207. \$90,000 to St. James Parish, Louisiana for water and wastewater infrastructure improvements coordinated with the Town of Gramercy;
208. \$450,000 to the City of Hammond, Louisiana for wastewater infrastructure improvements related to the Lake Pontchartrain Basin project;
209. \$225,000 to the City of Slidell, Louisiana for wastewater infrastructure improvements related to the Lake Pontchartrain Basin project;
210. \$787,500 for East Baton Rouge Parish, Louisiana, for water and wastewater infrastructure improvements;
211. \$787,500 for the City of Lake Charles, Louisiana, for wastewater treatment plant improvements;

212. \$787,500 for Jefferson Parish, Louisiana, for sewer infrastructure improvements;
213. \$180,000 to the City of Brockton, Massachusetts for wastewater infrastructure improvements;
214. \$135,000 for combined sewer overflow mitigation in Lawrence, Massachusetts;
215. \$900,000 for Bristol County, Massachusetts, for sewer infrastructure improvements;
216. \$810,000 to the Pioneer Valley Planning Commission in West Springfield, Massachusetts, in consultation with the Metropolitan District Commission in Connecticut, for wastewater infrastructure and combined sewer overflow improvements on the Connecticut River in Connecticut and Massachusetts;
217. \$450,000 to the Town of Elkton, Maryland for biological nutrient removal upgrades;
218. \$450,000 to the Town of Federalsburg, Maryland for biological nutrient removal upgrades;
219. \$940,500 for water supply and distribution infrastructure improvements, sanitary sewer collection system modifications, and wastewater and stormwater infrastructure improvements in La Plata, Maryland;
220. \$1,125,000 to the City of Rockville, Maryland for its Stormwater Management Improvement Project;
221. \$450,000 to the Washington Suburban Sanitary Commission for water infrastructure improvements in Prince George's and Montgomery Counties, Maryland;
222. \$3,600,000 for the City of Baltimore, Maryland, for water and wastewater infrastructure improvements;
223. \$1,800,000 to the Town of Indian Head, Maryland for sewer and water improvements in Woodland Village;
224. \$450,000 for Vinalhaven, Maine for its sewer system;
225. \$450,000 for Saco, Maine for its sewer system;
226. \$450,000 for Augusta, Maine for its sewer system;
227. \$900,000 for Corinna, Maine for its sewer system;
228. \$270,000 to the City of Bad Axe, Michigan for water infrastructure improvements;
229. \$900,000 for continuation of the Rouge River National Wet Weather Demonstration Project, Michigan;
230. \$675,000 to the City of Grand Rapids, Michigan for combined sewer overflow infrastructure improvements;
231. \$450,000 to the Genesee County Drain Commission, Michigan for the North-East Relief Sewer and Kearsley Creek Inceptor project;
232. \$360,000 to the Detroit Water and Sewer Department, Michigan for water, wastewater and combined sewer overflow infrastructure improvements;
233. \$1,350,000 for the Evergreen-Farmington Sanitary Sewer Overflow demonstration project in Oakland County, Michigan;
234. \$900,000 to Oakland County, Michigan for water and wastewater infrastructure improvements within the George W. Kuhn Drainage District;
235. \$450,000 for the City of Flint, Michigan to upgrade the Pierson Road water main system;

236. \$900,000 for the City of Saginaw, Michigan, for sewer infrastructure improvements;
237. \$900,000 for the City of Port Huron, Michigan, for sewer infrastructure improvements;
238. \$900,000 for Eastern Calhoun County, Michigan, for regional wastewater treatment infrastructure improvements;
239. \$1,350,000 to the City of Springfield, Missouri for feasibility studies, design and construction of stormwater infrastructure improvements for the Upper James River;
240. \$315,000 to the City of St. Louis, Missouri for water infrastructure improvements for Forest Park;
241. \$1,800,000 to the Clean Water Committee of Jefferson County, Missouri for wastewater infrastructure improvements;
242. \$315,000 to Caldwell County, Missouri for water infrastructure improvements;
243. \$450,000 to the Clarence Cannon Wholesale Water Commission for water infrastructure improvements in Monroe County, Missouri;
244. \$450,000 to the City of Lake St. Louis, Missouri for wastewater infrastructure improvements and watershed protection projects in the Peruque Creek watershed and along the St. Charles County Hi-Tech corridor area;
245. \$1,530,000 to Kansas City, Missouri for the water component of the Beacon Hill Redevelopment Plan;
246. \$450,000 to Dudley, Missouri for the City Water Expansion Project;
247. \$1,000,000 for St. Joseph, Missouri for wastewater infrastructure improvements;
248. \$405,000 to Bolivar, Missouri for the Bolivar Industrial Park Sewer and Water System;
249. \$315,000 to Warrenton, Missouri for the Warrenton Industrial Park Lift Station;
250. \$225,000 to Warrensburg, Missouri for the water component of the Warrensburg Downtown Revitalization Project;
251. \$1,800,000 to Joplin, Missouri for the Crossroads Relief Sewer #2 and Sewer Extension Project;
252. \$1,350,000 to Monett, Missouri for the Monett Sewer Treatment Plant Upgrade;
253. \$610,200 to the City of Louisville, Mississippi for water treatment system upgrades;
254. \$64,800 to the City of Lake, Mississippi for water infrastructure improvements;
255. \$450,000 to the City of Newton, Mississippi for wastewater infrastructure improvements for an industrial park;
256. \$270,000 to the City of McComb, Mississippi for wastewater infrastructure improvements;
257. \$270,000 to the City of Gulfport, Mississippi for water infrastructure improvements;
258. \$495,000 to the City of Corinth, Mississippi for wastewater infrastructure improvements;
259. \$450,000 to the City of Tupelo, Mississippi for wastewater infrastructure improvements;
260. \$1,800,000 for Flowood, Mississippi for the Hogg Creek Interceptor System;

261. \$900,000 for Meridian, Mississippi for wastewater improvements;
262. \$900,000 for Jackson, Mississippi for water infrastructure improvements;
263. \$900,000 for Fayette, Mississippi for the Jefferson County water and sewer improvements project;
264. \$900,000 for the Upper and Lower River Road Water and Sewer District, Montana for wastewater infrastructure improvements;
265. \$1,350,000 for the City of Conrad, Montana for a wastewater and drinking water project;
266. \$1,350,000 for the City of Belgrade, Montana, for wastewater treatment;
267. \$1,350,000 for Missoula, Montana for the Mullan Road Corridor Sewer Project;
268. \$180,000 to the Town of Granite Falls, North Carolina for water infrastructure improvements;
269. \$270,000 to the Town of Bakersville, North Carolina for water infrastructure improvements;
270. \$90,000 to the Town of Drexel, North Carolina for water and wastewater infrastructure improvements;
271. \$180,000 to the Town of Spruce Pine, North Carolina for construction of the Cemetery Hill Water Storage Tank;
272. \$450,000 to the City of Henderson, North Carolina for the next phase of the rehabilitation and expansion of the water treatment facilities of the Kerr Lake Regional Water System;
273. \$900,000 to the City of Concord, North Carolina for the Tri-County Regional Water Project in Cabarrus, Rowan, and Stanly Counties, North Carolina;
274. \$225,000 to the County of Granville, North Carolina for water and wastewater infrastructure improvements;
275. \$675,000 to Richmond County, North Carolina for water and wastewater infrastructure improvements;
276. \$900,000 to the Neuse Regional Water and Sewer Authority in Lenoir County, North Carolina for water infrastructure improvements;
277. \$900,000 for Orange County, North Carolina for wastewater infrastructure needs;
278. \$360,000 to the Town of Cary, North Carolina for construction of a biosolids dryer facility;
279. \$450,000 to the Town of Highlands, North Carolina for water and wastewater infrastructure improvements;
280. \$450,000 to the Buncombe County, North Carolina Solid Waste Management Facility for water quality protection infrastructure improvements;
281. \$360,000 to the Town of Mooresville, North Carolina for water infrastructure improvements;
282. \$450,000 for the Town of Robbins, North Carolina, for water treatment plant improvements;
283. \$180,000 for water and sewer improvements in Morgantown, North Carolina;
284. \$135,000 for water and sewer improvements in Albermarle, North Carolina;

285. \$180,000 for water and sewer improvements in Gastonia, North Carolina;
286. \$225,000 for water and sewer improvements in Valdese, North Carolina;
287. \$1,800,000 for the City of Park River, North Dakota for the Park River Water System Improvements;
288. \$900,000 for the City of Grafton, North Dakota for the Grafton Water Treatment Plant Improvement;
289. \$540,000 for Wayne State College of Wayne, Nebraska for the Wayne Community Greywater project;
290. \$360,000 to Lincoln, Nebraska for the South Salt Creek Sanitary Sewer project;
291. \$450,000 to the City of Omaha, Nebraska for a combined sewer overflow project;
292. \$900,000 to the City of Nashua, New Hampshire for water and wastewater infrastructure improvements;
293. \$540,000 to the City of Portsmouth, New Hampshire for mitigation of combined sewer overflows;
294. \$450,000 to the City of Somersworth, New Hampshire for wastewater infrastructure improvements;
295. \$900,000 to the City of Manchester, New Hampshire for water and wastewater infrastructure improvements;
296. \$360,000 to the Town of Exeter, New Hampshire for planning and design of a new water treatment plant;
297. \$900,000 for the City of Berlin, New Hampshire to assist in construction of water delivery infrastructure;
298. \$391,500 to the Borough of New Providence, New Jersey for water and wastewater infrastructure improvements;
299. \$900,000 to the Township of Jefferson, New Jersey for wastewater infrastructure improvements to help protect water quality of Lake Hopatcong, New Jersey;
300. \$2,250,000 to the Passaic Valley Sewerage Commission in New Jersey for its combined sewage overflow reduction program and the Passaic River/Newark Bay Restoration program;
301. \$225,000 for the North Hudson Sewerage Authority in New Jersey for combined sewer overflow improvements;
302. \$450,000 for the Township of Vernon, New Jersey, for wastewater improvement;
303. \$1,350,000 for the Camden County Municipal Authority, New Jersey, for sewer infrastructure improvements;
304. \$900,000 to the City of Ruidoso, New Mexico for wastewater infrastructure improvements;
305. \$450,000 to the City of Los Lunas, New Mexico for wastewater infrastructure improvements;
306. \$450,000 to the City of Belen, New Mexico for wastewater infrastructure improvements;
307. \$180,000 to the Greater Chimayo Mutual Domestic Water Consumers Association in New Mexico for water infrastructure improvements;
308. \$180,000 to the City of Bloomfield, New Mexico for wastewater infrastructure improvements;
309. \$315,000 to the Town of Bernalillo, New Mexico for wastewater infrastructure improvements;

310. \$315,000 to the Village of Los Lunas, New Mexico for wastewater infrastructure improvements;

311. \$1,800,000 for South and North Valley of Albuquerque and Bernalillo County, New Mexico, for water and wastewater treatment;

312. \$450,000 for the City of Gallup, New Mexico, for wastewater treatment plant improvements and upgrades;

313. \$900,000 for the City of Espanola, New Mexico for water and wastewater treatment;

314. \$900,000 for Alamogordo, New Mexico for the Alamogordo Regional Desalination Project;

315. \$630,000 to the Virgin Valley Water District, Nevada for construction of arsenic treatment facilities for the cities of Mesquite and Bunkerville, Nevada;

316. \$796,500 for Washoe County, Nevada for the Spanish Valley Nitrate Remediation Pilot Program;

317. \$990,000 for the Carson Water Subconservancy District for final design and construction of a conveyance-tunnel system to transport water from Marlette Lake to the Hobart Drainage for treatment at Carson City, Nevada;

318. \$270,000 for the City of Las Vegas, Nevada, sewer replacement project;

319. \$900,000 to the City of Little Falls, New York for water infrastructure improvements;

320. \$225,000 for the Village of Floyd, New York Water Quality/Quantity Improvement Project;

321. \$225,000 to the Village of Whitney Point, New York for wastewater infrastructure improvements;

322. \$900,000 to the Village of Walden, New York for wastewater infrastructure improvements;

323. \$450,000 to the State of New York for the South Shore Estuary Reserve Council of Long Island, New York for stormwater infrastructure improvements;

324. \$675,000 to the Town of North Hempstead, New York for stormwater management infrastructure improvements within Manhasset Bay and Hempstead Harbor on the Long Island Sound;

325. \$900,000 to the City of Niagara Falls, New York for wastewater infrastructure improvements;

326. \$450,000 to the City of Rye, New York for water and wastewater infrastructure improvements;

327. \$450,000 for the Lake Neatahwanta Reclamation project in Oswego County, New York;

328. \$900,000 to the City of Oswego, New York for combined sewer overflow system improvements;

329. \$180,000 to the Village of Sloan, New York for wastewater infrastructure improvements;

330. \$450,000 to the Town of Hamburg, New York for sanitary sewer overflow improvements;

331. \$900,000 to the City of Buffalo, New York Water Division for water infrastructure improvements;

332. \$900,000 to the Monroe County, New York Water Authority for construction of a covered reservoir and security improvements;

333. \$900,000 to the Saratoga County Water Committee for water and wastewater infrastructure improvements;
334. \$10,800,000 for continued clean water improvements for Onondaga Lake, New York;
335. \$1,800,000 to the City of Syracuse, New York for water and wastewater infrastructure improvements;
336. \$5,400,000 for drinking water infrastructure needs in the New York City watershed;
337. \$3,600,000 for water quality infrastructure improvements for Long Island Sound, New York;
338. \$450,000 to the Cortland County Industrial Development Agency in New York for water and wastewater infrastructure improvements to the Cortland County Business Park;
339. \$675,000 for the County of Nassau, New York for water quality infrastructure improvements at Nassau County Park facilities;
340. \$450,000 for the City of Middletown, New York for the City of Middletown Filtration Plant;
341. \$450,000 to the City of Cincinnati, Ohio for water infrastructure improvements;
342. \$675,000 to the City of Van Wert, Ohio for the expansion of a drinking water reservoir;
343. \$337,500 to the City of Napoleon, Ohio for water infrastructure improvements;
344. \$720,000 for water infrastructure upgrades for Northern Perry County Water District, Ohio;
345. \$675,000 for water infrastructure upgrades for the Village of Crooksville, Ohio;
346. \$180,000 for the Village of Amanda, Ohio for water infrastructure improvements;
347. \$450,000 for the Village of Spring Valley, Ohio to upgrade its water treatment and distribution system;
348. \$360,000 for Greene County, Ohio for water and wastewater infrastructure improvements;
349. \$90,000 for the Pickaway County Sewer District for a regional sewer study in Pickaway County, Ohio;
350. \$675,000 to the Northeast Ohio Regional Sewer District for the Doan Brook Watershed Area in Ohio for continued development of a storm water abatement system in the Doan Brook Watershed Area of Ohio;
351. \$1,620,000 for the City of Toledo, Ohio for the development of facilities related to its Methane Biogases Capture and Reuse Initiative;
352. \$630,000 to the City of Port Clinton, Ohio for a wastewater infrastructure improvements and mitigation of combined sewer overflows;
353. \$450,000 to Perry County, Ohio for water infrastructure improvements;
354. \$900,000 to the City of Delphos, Ohio for the Tri-County Regional Water System Reservoir Project;
355. \$900,000 to the City of North Canton, Ohio for a water treatment project;
356. \$900,000 for the City of Massillon, Ohio for wastewater and stormwater infrastructure improvements;

357. \$180,000 for the Buckeye Water District Treatment Plant infrastructure improvements in Columbiana County, Ohio;
358. \$180,000 to the Village of Morristown, Ohio for wastewater infrastructure improvements;
359. \$225,000 to the Village of Hartford, Ohio for wastewater and sanitary sewer infrastructure improvements;
360. \$675,000 for the Village of Pomeroy, Ohio for the construction of an iron and manganese removal water treatment plant;
361. \$675,000 for the Village of Belmont, Ohio for the construction of a wastewater treatment plant and collection system;
362. \$900,000 for the City of Akron, Ohio for sewer infrastructure improvements;
363. \$675,000 for Morristown, Ohio for a sanitary sewer collection system;
364. \$225,000 to the City of Hulbert, Oklahoma for wastewater infrastructure improvements for the Hulbert Community Health Center;
365. \$450,000 to the City of Midwest City, Oklahoma for water infrastructure improvements;
366. \$450,000 to the City of Altus, Oklahoma for water infrastructure improvements;
367. \$1,350,000 for the City of Norman, Oklahoma for wastewater system improvements;
368. \$450,000 to the City of Portland, Oregon for its wet weather pollution control program;
369. \$450,000 to the City of Albany, Oregon for the Albany-Millersburg Joint Water project;
370. \$270,000 for Tillamook County, Oregon for wastewater infrastructure improvements including construction of an animal waste composting facility;
371. \$450,000 to La Pine, Oregon for wastewater infrastructure improvements;
372. \$270,000 to the City of North Plains, Oregon for water infrastructure improvements;
373. \$495,000 for the City of Hood River, Oregon, for drinking water infrastructure improvements;
374. \$225,000 for the Metropolitan Wastewater Management Commission, Eugene and Springfield, Oregon, drinking and wastewater improvements;
375. \$540,000 for the Gold Hill, Oregon for a water intake relocation project;
376. \$2,250,000 for the Three Rivers Wet Weather Demonstration program in Allegheny County, Pennsylvania;
377. \$486,000 for wastewater infrastructure improvements for the City of Hermitage, Pennsylvania (\$383,850) and the Borough of Sharpsville, Pennsylvania (\$102,150);
378. \$1,350,000 to Derry Township Municipal Authority in Dauphin County, Pennsylvania for wastewater infrastructure improvements;
379. \$450,000 for Pulaski Township, Pennsylvania for wastewater infrastructure improvements;
380. \$450,000 to the Wyoming Valley Sanitary Authority of Pennsylvania for combined sewer overflow infrastructure improvements;

381. \$387,000 to the Nanty Glo Water Authority of Cambria, Pennsylvania for water infrastructure improvements;
382. \$450,000 to the Derry Borough Water Authority in Westmoreland County, Pennsylvania for water infrastructure improvements;
383. \$270,000 to the Borough of Wellsboro, Pennsylvania for combined sewer overflow improvements;
384. \$450,000 to the City of Franklin, Pennsylvania for combined sewer overflow infrastructure improvements;
385. \$450,000 to the City of Lancaster, Pennsylvania for water and wastewater infrastructure improvements;
386. \$315,000 to the York City Sewer Authority in Pennsylvania for wastewater infrastructure improvements;
387. \$450,000 to Lycoming County, Pennsylvania for water and wastewater infrastructure improvements in the Boroughs of Hughesville and Muncy and at Halls Station;
388. \$450,000 to the Department of Susquehanna County Economic Development in Montrose, Pennsylvania for water infrastructure improvements;
389. \$315,000 to the Chestnut Ridge Area Joint Municipal Authority for wastewater infrastructure improvements for East St. Clair, West St. Clair, King and Napier Townships and in New Paris Borough, Pennsylvania;
390. \$900,000 to the Eastern Snyder County Regional Authority in Pennsylvania to upgrade its wastewater treatment plant, including replacing equipment, improving the treatment system, and installing new technology for nutrient removal, in order to improve the water quality of the Chesapeake Bay;
391. \$900,000 for Upper Allen Township, Cumberland County, Pennsylvania to increase sewer treatment capacity by repairing inflow and infiltration problems in older sections of the collection system, divert sewage to a treatment plant, and install new sanitary sewer collection system extensions to replace malfunctioning on-lot disposal systems;
392. \$450,000 to the Commonwealth of Puerto Rico Sewer and Water Authority for wastewater infrastructure improvements in the municipality of Arecibo;
393. \$450,000 to the City of Woonsocket, Rhode Island for water infrastructure improvements;
394. \$2,250,000 to the Narragansett Bay Commission, Rhode Island, in cooperation with other Bay communities, for wastewater and combined sewer overflow infrastructure improvements;
395. \$540,000 for the Pawtucket Water Supply Board in Rhode Island for the purchase of the City of Central Falls Water Distribution System;
396. \$450,000 for the Town of Coventry, Rhode Island, for drinking water infrastructure improvements;
397. \$450,000 to Berkeley County, South Carolina for extension of water lines to Cross Community Schools;
398. \$450,000 to the City of Myrtle Beach, South Carolina Downtown Redevelopment Corporation for stormwater infrastructure improvements for the Pavilion Area Master Plan;
399. \$450,000 to the City of Florence, South Carolina for continued construction of a regional surface water plant;

400. \$225,000 to the Town of Eastover, South Carolina for water infrastructure improvements;
401. \$171,000 to the Town of Jackson, South Carolina for removal of radium from the water supply;
402. \$198,000 to the City of Walhalla, South Carolina for water infrastructure improvements in Oconee County;
403. \$450,000 to Charlotte Mecklenburg Utilities for a phosphorous reduction program in North Carolina and South Carolina;
404. \$180,000 to Charleston County, South Carolina for wastewater infrastructure improvements;
405. \$900,000 for the Mount Pleasant Waterworks Commission, South Carolina, for the Snowden Community Wastewater Collection Project;
406. \$900,000 for the Commission of Public Works of the City of Charleston, South Carolina, for wastewater tunnel replacement;
407. \$900,000 for the City of Greenville, South Carolina, for water and sewer infrastructure related to the Greenline-Spartanburg Neighborhood Redevelopment Project;
408. \$450,000 to the City of Groton, South Dakota for water and wastewater infrastructure improvements;
409. \$450,000 to the City of Elk Point, South Dakota for wastewater infrastructure improvements;
410. \$675,000 for the City of Centerville, South Dakota, for drinking water infrastructure improvements;
411. \$900,000 for the Sisseton-Wahpeton Sioux Tribe in Agency Village, South Dakota, for the expansion of the Brown Marshall Day Water System;
412. \$450,000 for the City of Huron, South Dakota, for drinking water infrastructure improvements;
413. \$450,000 for Box Elder, South Dakota, for water and wastewater system improvements;
414. \$360,000 for the City of Deadwood, South Dakota, for a drinking water extension project;
415. \$315,000 for the Community of Dakota Dunes, South Dakota, for a drinking water infrastructure connection project;
416. \$1,350,000 for the City of Lead, South Dakota, for water and wastewater system improvements;
417. \$405,000 to the River Road Utility District for water infrastructure improvements in Cheatham County, Tennessee;
418. \$351,000 to the City of Cross Plains, Tennessee for wastewater infrastructure improvements;
419. \$1,350,000 to the Athens Utilities Board of Tennessee for wastewater infrastructure improvements at the Oostanaula Wastewater Treatment Plant;
420. \$450,000 to the City of Lawrenceburg, Tennessee for water and wastewater infrastructure improvements;
421. \$90,000 to the Watauga River Regional Water Authority in Carter County, Tennessee for water infrastructure improvements;
422. \$1,080,000 to Polk County, Tennessee for water infrastructure improvement for the Linsdale community;
423. \$1,350,000 for the City of Franklin, Tennessee for water quality improvements;

424. \$900,000 to the City of Eagle Pass, Texas for water and wastewater infrastructure improvements;
425. \$900,000 for West Fort Bend County, Texas for water infrastructure improvements;
426. \$450,000 to the City of Meridian, Texas for water and wastewater infrastructure improvements for the Meridian/Bosque Regional Water Supply and Treatment Project;
427. \$900,000 to the City of Dallas, Texas for water and wastewater infrastructure improvements;
428. \$270,000 to the City of Port Arthur, Texas for water infrastructure improvements in the Sabine area;
429. \$1,800,000 for San Antonio Water Systems, Texas for water and sewer improvements;
430. \$1,350,000 for Nacogdoches, Texas for the development of a water and sewer drainage system;
431. \$450,000 to Park City, Utah for water infrastructure improvements at the Park City Judge Tunnel Water Treatment Plant;
432. \$450,000 for Tooele City, Utah for water and wastewater infrastructure improvements;
433. \$225,000 to Sandy City, Utah for water and stormwater infrastructure improvements;
434. \$225,000 for the City of St. George, Utah for water and sewer line extensions;
435. \$225,000 for the City of South Salt Lake, Utah for water infrastructure improvements;
436. \$2,250,000 for Monticello, Utah for a primary water supply pipeline;
437. \$675,000 for Blanding, Utah for water infrastructure improvements;
438. \$900,000 to the Town of Dublin, Virginia for water infrastructure improvements;
439. \$315,000 to the Town of Orange, Virginia for construction of a raw water storage basin;
440. \$900,000 to Dale Service Corporation for water and wastewater infrastructure improvements in Dale City, Virginia;
441. \$855,000 to the Fairfax County Water Authority of Virginia for water system infrastructure and security enhancements;
442. \$472,500 to Chesterfield County, Virginia for drainage and wastewater infrastructure improvements;
443. \$360,000 for Nelson County, Virginia for water and wastewater system installation and improvements;
444. \$135,000 for Camp Virginia Jaycee in Blue Ridge, Virginia for a wastewater treatment project;
445. \$360,000 to Fluvanna County, Virginia for water and wastewater infrastructure improvements;
446. \$315,000 for St. Paul College in Lawrenceville, Virginia for water and wastewater infrastructure improvements;
447. \$360,000 for Pittsylvania County and the Town of Gretna, Virginia for water infrastructure improvements;
448. \$270,000 for Franklin County, Virginia for a drinking water infrastructure project;
449. \$270,000 for Buckingham County, Virginia for water and wastewater infrastructure improvements for Buckingham County and the Town of Dillwyn;

450. \$180,000 for Cumberland County, Virginia for water infrastructure improvements;
451. \$1,800,000 to the City of Richmond, Virginia (\$900,000) and to the City of Lynchburg, Virginia (\$900,000) for combined sewer overflow infrastructure improvements;
452. \$675,000 to the City of Alexandria, Virginia for the Sanitary and Stormwater Sewer Reconstruction and Extension project to mitigate overflows polluting Four Mile Run Creek;
453. \$315,000 to Accomack County, Virginia for wastewater infrastructure improvements;
454. \$180,000 to the City of Norfolk, Virginia for wastewater infrastructure improvements at the North Fox Hall and Sewell Garden pump stations;
455. \$180,000 to the City of Norfolk, Virginia for wastewater infrastructure improvements in Fairmont Park;
456. \$900,000 to Loudoun County, Virginia Department of Building and Development for groundwater monitoring infrastructure of the Water Resources Management Program;
457. \$450,000 to the Government of the Virgin Islands for water and wastewater infrastructure improvements;
458. \$1,530,000 for the Champlain Water District, Vermont, for Chittenden County stormwater infrastructure improvements;
459. \$1,350,000 for the Town of Warren, Vermont, for wastewater treatment facility upgrades;
460. \$1,170,000 for the Town of Richmond, Vermont, for wastewater treatment facility upgrades;
461. \$810,000 to the City of Shelton, Washington for water and wastewater infrastructure improvements;
462. \$99,000 to the Town of South Prairie, Washington for wastewater infrastructure improvements;
463. \$450,000 to Parker, Washington for water infrastructure improvements;
464. \$450,000 to the City of Roslyn, Washington for wastewater infrastructure improvements;
465. \$225,000 to the City of Blaine, Washington for completion of a feasibility study for the Northwest Whatcom County Wastewater Management Plan, Lummis Diversion, and for related updates of the City's general sewer plan;
466. \$693,000 for the Mason County Public Utility District, Washington to construct a wastewater and collection facility in Hoodspport, Washington;
467. \$225,000 for the Wahkiakum County Public Utility District, Washington for the Puget Island Drinking Water Project;
468. \$1,485,000 for the Town of Klickitat, Washington, to construct a new wastewater water treatment facility;
469. \$522,000 for the City of Richland, Washington, for wastewater infrastructure improvements;
470. \$337,500 for the Village of Curtiss, Wisconsin for the expansion of their wastewater treatment plant;
471. \$832,500 for the Town of Mercer, Wisconsin for the extension of their water infrastructure to the new business park;
472. \$1,080,000 for the City of Wisconsin Rapids, Wisconsin for the extension of sewer and water to the East Side Business Park and the Village of Biron;

473. \$1,800,000 for the City of Milwaukee, Wisconsin for the Central Metropolitan Interceptor Improvement Project;

474. \$900,000 for the City of Racine, Wisconsin for the Racine Advanced Water Treatment System;

475. \$270,000 for the Putnam County Commission of West Virginia for the Fishers Ridge water infrastructure project;

476. \$238,500 to the Midland Public Service District in Randolph County, West Virginia for the extension of waterlines for Haddix Road;

477. \$2,445,600 to the City of Weirton, West Virginia for water treatment plant upgrades;

478. \$2,250,000 to the City of Moundsville, West Virginia for construction of a water treatment facility;

479. \$1,845,000 to the City of Grafton, West Virginia for upgrades to the Berkeley Run Pump Station, Front Street sewer improvements, Fetterman's sewer improvements, Monroe Street sewer improvements, Ross Alley sewer improvements, East Knotts Area sewer improvements, Rochelle Road sewer improvements, Maple Street sewer improvements and Walnut Area sewer improvements;

480. \$1,939,500 to the City of Grafton, West Virginia for wastewater treatment plant upgrades;

481. \$455,400 to the City of Sistersville, West Virginia for water treatment plant upgrades;

482. \$504,000 to the City of Wellsburg, West Virginia for replacement of the 11th Street Wastewater Lift Station; and

483. \$571,500 to the Village of Beach Bottom, West Virginia for the extension of water lines, water plant construction and water line replacement.

ADMINISTRATIVE PROVISIONS

The conferees have again this year included an administrative provision giving the Administrator specific authority to, in the absence of an acceptable tribal program, award cooperative agreements to federally recognized Indian Tribes or Intertribal consortia so as to properly carry out EPA's environmental programs.

Also again this year and in order to continue providing sufficient and necessary resources for EPA's pesticide re-registration program, the conferees have included bill language which authorizes for one year the collection by EPA of \$21,500,000 in maintenance fees. This provision extends to September 30, 2003 the date upon which such authority for collections expires. Additionally, bill language has again been included which prohibits the use of funds to promulgate a final regulation to implement changes in the payment of pesticide tolerance processing fees as proposed at 64 Federal Register 31040, or any similar proposal; and prohibiting the collection of pesticide registration fees if a new maintenance fee has gone into effect.

Finally, the conference agreement includes bill language as proposed by the Senate requiring the Administrator of the Environmental Protection Agency to enter into a cooperative agreement with the National Academy of Sciences to evaluate the impact of the final rule relating to prevention of significant deterioration and

non-attainment of new source review (NSR) published in the Federal Register on December 31, 2002.

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Appropriates \$5,368,000 as proposed by the Senate instead of \$5,750,000 as proposed by the House.

The conferees direct that the progress report on the Administration's interagency global change research program, as included in the Senate report, be submitted to the Committees on Appropriations by May 30, 2003.

The conferees strongly encourage OSTP to address the following critical issues introduced by the Senate: (1) achieving a balanced and appropriately funded Federal research portfolio, particularly as it relates to the physical sciences and engineering disciplines; (2) developing the means to increase the number of U.S. students pursuing undergraduate and advanced degrees in science and engineering and fostering partnerships between federal agencies and universities to meet this goal; (3) addressing the infrastructure needs for an oceans research program; and (4) developing a long-term strategy for developing the nation's semi-conductor manufacturing capabilities.

COUNCIL ON ENVIRONMENTAL QUALITY
AND OFFICE OF ENVIRONMENTAL QUALITY

Appropriates \$3,031,000 for the Council on Environmental Quality and Office of Environmental Quality as proposed by the House and the Senate. The conferees have again this year included language proposed by the House and the Senate which authorizes the Council to operate with one member, that member acting as chairman of the Council.

FEDERAL DEPOSIT INSURANCE CORPORATION
OFFICE OF INSPECTOR GENERAL

Appropriates \$30,848,000 for the Office of Inspector General, the same amount as included in both the House and Senate bill. Funds for this account are derived from the Bank Insurance Fund, the Savings and Loan Insurance Fund, and the FSLIC Resolution Fund and are therefore not reflected in either the budget authority or budget outlay totals.

FEDERAL EMERGENCY MANAGEMENT AGENCY

The conferees are in agreement that FEMA is to implement the minority emergency preparedness demonstration program as structured in the fiscal year 2002 appropriations Act. The program is to be funded at not less than \$1,500,000. FEMA is directed to provide a report to the Congress, by April 15, 2003, on the implementation of this program.

DISASTER RELIEF

(INCLUDING TRANSFERS OF FUNDS)

Appropriates \$800,000,000 for disaster relief, instead of \$1,820,000,000 as proposed by the House and \$842,843,000 as proposed by the Senate. This level of funding is understood to be sufficient to address all anticipated needs when the current unallocated and unobligated balances available to FEMA are considered. The post-disaster hazard mitigation set-aside that is provided to states is reduced from 15 percent to 7.5 percent since the conferees have included a new National Pre-Disaster Mitigation Fund, as proposed in the budget request. The budget request had proposed elimination of this set-aside.

The conferees have included a provision, as proposed by the House, which directs FEMA to provide Public Assistance and Hazard Mitigation grants to the Texas Medical Center as if it were an eligible applicant under the Robert T. Stafford Disaster Relief and Emergency Assistance Acts as amended. The Texas Medical Center is expected to maintain at least the existing level of insurance coverage which was in place at the time of the 2001 floods. The Senate had not addressed this issue.

Retains language included by the both the House and Senate which provides for the transfer of funds to the consolidated grant management program and the Office of Inspector General.

The conferees have added a new proviso which reduces funding for a seismic mitigation project at California State University, San Bernardino, and directs FEMA to use the funding instead to mitigate fire danger due to bark beetle infestation in the area of San Bernardino National Forest.

The conferees urge FEMA to work with Santa Monica College to resolve any outstanding claims resulting from the Northridge earthquake.

NATIONAL PRE-DISASTER MITIGATION FUND

Appropriates \$150,000,000 for the National Pre-Disaster Mitigation Fund, instead of \$250,000,000 as proposed by the House and \$25,000,000 as proposed by the Senate.

The conferees are in agreement that FEMA is directed to provide grants of \$250,000 to each of the 50 states and five other recognized entities for planning pre-disaster mitigation projects. The conferees also direct FEMA to work with the State University System of Florida on comprehensive hurricane mitigation research. The conferees are in agreement that FEMA should continue the Disaster Resistant University program and direct FEMA to carry out the direction contained in House Report 107-740.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

The conferees agree to provide a limitation on administrative expenses of \$557,000 for the disaster assistance direct loan program account. The amount provided is the same as in both the House and the Senate bills.

SALARIES AND EXPENSES

Appropriates \$245,690,000 for salaries and expenses instead of \$250,690,000 as proposed by the House and \$239,690,000 as proposed by the Senate. The conferees are in agreement that the highest priority for FEMA should be to add at least 24 full time equivalents for its Financial and Acquisition Management Division and 27 for the United States Fire Administration.

FEMA is directed to provide \$1,750,000 to the Administrative and Resource Planning Directorate for its effort to archive key agency documents by digitization to optical disks, including related activities.

OFFICE OF INSPECTOR GENERAL

Appropriates \$14,000,000 for the Office of Inspector General, instead of \$11,549,000 as proposed by the House and \$17,754,000 as proposed by the Senate.

The conferees direct the FEMA Inspector General to review the Assistance to Firefighters Grants program to assess the extent to which FEMA is implementing the "maintenance of needs" requirements under this program. A report is due no later than August 15, 2003.

EMERGENCY MANAGEMENT PLANNING AND ASSISTANCE

Appropriates \$388,299,000 for emergency management planning and assistance instead of \$367,040,000 as proposed by the House and \$1,615,214,000 as proposed by the Senate. The conferees have not included in this account any funding for the Firefighters Assistance Grants program or the administration of the program in this account as proposed by the Senate. Instead, those funds are provided in a new account as proposed by the House.

In addition, the conferees have agreed to provide \$2,900,000 by transfer from the disaster relief account for the consolidated emergency management performance grant program.

The conferees have included in the bill a listing of funds for specific programs or activities, including \$20,000,000 for Community Emergency Response Teams and \$25,000,000 for emergency operations centers. The bill language specifies \$165,000,000 for emergency management performance grants (EMPG), an increase of \$49,000,000 to the budget request of \$116,000,000. The conferees have taken this action because EMPG is the backbone of the nation's emergency management system, builds state and local emergency management capability, is the foundation for first responder activities, and because this important activity has been severely underfunded for many years. Now more than ever, the planning activities carried out in this program are of utmost importance. The conferees believe FEMA should consider an allocation system for these funds that takes into consideration not only population, but also risk and vulnerability assessments.

Also included is \$25,000,000 for interoperable communications equipment. The conferees are concerned that despite clearly identified deficiencies, there is still no overall Federal plan for the acquisition of communications equipment. FEMA is directed to provide a comprehensive plan to the Committees on Appropriations of the

House and Senate for the acquisition of interoperable communications equipment by April 15, 2003.

The conferees have included \$60,000,000 for the 28 existing Urban Search and Rescue Teams (USAR). This is in addition to \$32,400,000 appropriated in the fiscal year 2002 Supplemental Appropriations Act. The conferees commend these USAR teams for their commitment as front-line first responders to both natural disasters and terrorist acts. Except for up to five percent of these funds which can be used to support FEMA's administrative costs, the conferees direct all these funds to be used to support the cost of operations, the cost of urban search and rescue equipment (including equipment necessary to operate in an environment contaminated or otherwise affected by a weapon of mass destruction) and the cost of all needed training, including training for responding to an environment contaminated or otherwise affected by a weapon of mass destruction.

The conferees are in agreement that FEMA is directed to continue its partnership with the National Technology Transfer Center at the fiscal year 2000 level to bring technology applications to the local, state, and Federal levels of the emergency management community for the purpose of responding to both natural disasters and terrorist attacks and reducing their impact.

FIREFIGHTER ASSISTANCE GRANTS

(INCLUDING TRANSFER OF FUNDS)

Appropriates \$750,000,000 for firefighter assistance grants instead of \$450,000,000 as proposed by the House. The Senate had proposed funding of \$900,000,000 for this activity as part of the Emergency Management Planning and Assistance account. The conferees have included language which provides for the transfer to salaries and expenses of up to five percent of the funding for purposes of administering the program, and has made the funding available for a two year period of obligation.

The conferees have agreed to establish this new appropriations account for firefighter assistance grants so that there will be no doubt as to the importance of this program and to protect this program from being lost in the morass of the Department of Homeland Security.

Emergency Medical Services (EMS) personnel provide critical services, and are often the first responders in an emergency. As one of the activities permitted under the Fire Act, the conferees encourage FEMA to allow appropriate EMS providers to be considered eligible recipients of fire grant funds.

RADIOLOGICAL AND EMERGENCY PREPAREDNESS

Provides for the receipt and expenditure of fees collected as authorized by Public Law 106-377. Both the House and the Senate included this provision in their respective bills.

CERRO GRANDE FIRE CLAIMS

Appropriates \$90,000,000 for Cerro Grande fire claims settlement instead of \$100,000,000 as proposed by the Senate. The House had not included funding for this program. The conferees

have included bill language which makes up to \$5,000,000 of the funds available for administrative purposes. The conferees direct all audit requirements to be complied with as identified in the Senate report. The conferees expect FEMA and the Cerro Grande Fire Claims Office to expedite all claims to bring this effort to closure.

EMERGENCY FOOD AND SHELTER PROGRAM

Appropriates \$153,000,000 for the emergency food and shelter program as proposed by both the House and the Senate.

FLOOD MAP MODERNIZATION FUND

Appropriates \$150,000,000 for the Flood Map Modernization Fund, instead of \$200,000,000 as proposed by the House and \$100,000,000 as proposed by the Senate.

The conferees agree that \$2,000,000 shall be made available to the New York Department of Environmental Conservation (DEC) for the New York Flood Plain Mapping program and encourage FEMA to integrate the New York DEC into the overall program. The conferees agree that \$250,000 shall be made available to the Canaan Valley Institute for development of flood plain maps. Finally, the conferees agree that \$2,000,000 is to be used for the Louisiana pilot project to provide two-foot contour interval mapping.

NATIONAL FLOOD INSURANCE FUND

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide up to \$32,393,000 for salaries and expenses, \$77,666,000 for flood mitigation activities, a limitation of \$55,000,000 for operating expenses, \$529,380,000 for agents' commissions and taxes, and \$40,000,000 for interest on Treasury borrowings. Finally, the conferees agree that up to \$20,000,000 may be transferred for expenses under section 1366 of the National Flood Insurance Act. All of the foregoing amounts were the same in both the House and Senate bills.

NATIONAL FLOOD MITIGATION FUND

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide for the transfer of up to \$20,000,000 from the National Flood Insurance Fund to the National Flood Mitigation Fund as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS

The conferees have included two administrative provisions which address issues related to funds appropriated in response to the terrorist incidents of September 11, 2001.

The conferees have included language as proposed by the House which gives FEMA authority to reimburse the City of New York and the State of New York for costs which are not otherwise eligible under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended. The conferees have deleted a proviso carried by the House which would have limited funds avail-

able for this purpose; however, the conferees do not support any additional new appropriations for these costs above amounts already appropriated. The conferees have added a proviso to the House language which directs FEMA to use \$90,000,000 of funds previously appropriated to support the long-term medical monitoring of the physical and mental health of emergency services personnel, rescue and recovery personnel, and volunteers exposed to environmental contaminants and psychological trauma in the wake of the terrorist attacks of September 11, 2001 at the World Trade Center in New York City, including \$25,000,000 for current and retired New York City firefighters. Activities undertaken are to include clinical examinations and evaluation, and should build upon existing activities for baseline and long-term medical monitoring undertaken with funding appropriated for this purpose in Public Law 107-117 and other funding provided by FEMA for the purpose of baseline medical monitoring of emergency services personnel and rescue and recovery personnel after the events of September 11, 2001, including current and retired New York City firefighters. In carrying out these activities, FEMA shall work with the Centers for Disease Control and Prevention, the National Institute of Occupational Safety and Health, affected labor organizations, and other relevant parties.

The Federal Emergency Management Agency (FEMA) is directed to provide, from the Disaster Relief Fund, for the response to the terrorist attacks of September 11, 2001, up to \$1,000,000,000 to establish a captive insurance company or other appropriate insurance mechanism. The insurance will provide the City of New York and its debris removal contractors with coverage for claims arising from debris removal performed after collapse of World Trade Center (WTC) buildings on September 11, 2001, including claims brought by City of New York employees. This liability insurance may not cover those claims arising from the terrorist-related aircraft crashes of September 11, 2001 (liability for which is governed and limited by Section 408 of the Air Transportation Safety and System Stabilization Act (49 U.S.C. §40101)), or any actions or events prior to or including the September 11, 2001 collapse of the WTC buildings. Further, this liability insurance may not cover payments claimed by the City of New York for workers compensation, or disability or retirement benefits. The contribution of the Federal government to this insurance mechanism shall not exceed \$1,000,000,000. Obligation of funds under this provision will be contingent on FEMA's prior review and approval of proposed insurance terms, conditions and scope of coverage. The State of New York will report not less than quarterly, beginning on June 30, 2003, to the Committees on Appropriations and FEMA regarding the expenditure of and investment earnings from the funds.

Also included is an administrative provision proposed by the House which specifies that a hospital meeting the standard for occupancy under regulation established by the California Office of Statewide Health Planning and Development shall also have satisfied FEMA's criteria for "immediate occupancy."

GENERAL SERVICES ADMINISTRATION

FEDERAL CITIZEN INFORMATION CENTER FUND

Appropriates \$11,541,000 as proposed by the House instead of \$12,541,000 as proposed by the Senate. The conferees continue to be supportive of the Federal Citizen Information Center (FCIC) mission to be a one-stop provider of Federal information to the public through print, media, telephone, and online. As FCIC responsibilities expand to better serve the public within a newly established GSA organization, the conferees emphasize that the funds appropriated from this account are available solely for FCIC staffing and activities to achieve its core mission as presented to and approved by the Committees on Appropriations of the House and Senate.

INTERAGENCY COUNCIL ON THE HOMELESS

OPERATING EXPENSES

Appropriates \$1,500,000 for operating expenses of the Interagency Council on the Homeless as proposed by the Senate, instead of no funds proposed by the House. The conferees have created this new funding account to better coordinate homeless programs pursuant to the McKinney-Vento Homeless Act. In this regard the conferees expect HUD to continue providing administrative support on a reimbursable basis to the Council.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Of the amounts approved by the conferees in this agreement, NASA must limit reprogramming of funds between programs and activities to not more than \$500,000 without prior notification to the Committees on Appropriations of the House and Senate. Any activity or program cited in this report shall be construed as the position of the conferees and should not be subject to reductions or reprogramming without prior approval. NASA shall provide out-year implications of all reprogrammings and operating plan changes should the Committees request the information.

The conferees are in agreement with the Senate direction for a report on the risks associated with illegal transfer or theft of sensitive technologies. The conferees are also in agreement with the House direction calling for a comprehensive review of all elements of the Integrated Financial Management Program with a goal of reducing the overall cost and require submission of the report no later than April 15, 2003.

The conferees have received the report of NASA's Research Maximization and Prioritization (ReMAP) task force, which focused on prioritizing scientific research to be conducted on the ISS through NASA's Office of Biological and Physical Research. The conferees agree on the need for a strategy of prioritized research objectives across multiple disciplines, and commend NASA for establishing the ReMAP activity.

However, the conferees have several areas of concern related to the ReMAP process. The conferees are aware that a number of the ReMAP task force members dissented with the conclusions in

the final report. Several task force members stated that the ReMAP process did not allow sufficient time or resources to do a proper job of prioritizing research programs. Concern was also expressed by some task force members about a lack of time to review the information reported as ReMAP conclusions. Finally, the conferees also note NASA's acknowledgement that the task force did not address ISS commercialization issues, nor did it consider the research needs of the Office of Earth Science or the Office of Space Science in its prioritization activity.

Therefore, the conferees direct NASA to report to Congress on its plans to establish a process by which prioritization of research conducted on the ISS occurs on a regular basis, rather than as a one-time effort. Furthermore, the conferees encourage that future ISS research prioritization activities address ISS commercialization programs, as well as the needs of the Offices of Space and Earth Science.

HUMAN SPACE FLIGHT

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$6,180,900,000 for human space flight instead of \$6,095,900,000 as proposed by the Senate and \$6,130,900,000 as proposed by the House. Additionally, the conferees have agreed to a limitation of \$35,000 for official reception and representation as proposed by the Senate instead of \$24,000 as proposed by the House.

The conferees have included an additional \$50,000,000 for expenses related to the investigation into the tragic loss of the space shuttle *Columbia* on February 1, 2003. This funding may also be used to correct identified deficiencies and to defray any other expenses which are a consequence of the accident. The conferees recognize that the cost of the investigation and any other implications of the accident may well exceed the amount provided and will entertain operating plan changes to accommodate necessary adjustments in the funding of the various components of this account.

SCIENCE, AERONAUTICS, AND TECHNOLOGY

(INCLUDING TRANSFER OF FUNDS)

The conferees agree to provide \$9,207,665,000 for human space flight instead of \$9,144,500,000 as proposed by the House and \$9,003,000,000 as proposed by the Senate. Additionally, the conferees have agreed to a limitation of \$35,000 for official reception and representation as proposed by the Senate instead of \$24,000 as proposed by the House.

SPACE SCIENCE

The conferees have agreed to provide an increase of \$109,960,000 to the budget request for space science programs.

The conferees agree to the following changes to the budget request:

1. An increase of \$95,000,000 for the Pluto-Kuiper Belt mission.

2. An increase of \$20,000,000 for the Jupiter Icy Moons Orbiter (JIMO) program.

3. An increase of \$1,800,000 for the propulsion testing facility at the University of Alabama, Huntsville.

4. An increase of \$450,000 for the Ultra-lightweight Electroformed Segmented Large Aperture Optics program at Alabama A&M University.

5. An increase of \$810,000 for the High Energy Photonics Instrumentation Lab at the University of Alabama, Huntsville.

6. An increase of \$3,000,000 for development of a lightweight carrier pallet to support the Hubble Space Telescope program.

7. An increase of \$19,000,000 to the Mars program to cover recent cost increases.

8. An increase of \$1,800,000 for the Center for Life in Extreme Environments at Montana State University.

9. An increase of \$2,250,000 for the Hubble Telescope Project at Marshall University, Bridgeport, West Virginia.

10. An increase of \$1,350,000 for the Space Science and Engineering Lab at Montana State University in Bozeman.

11. A decrease of \$16,500,000 available due to the cancellation of the Flight Projects building construction project at the Jet Propulsion Lab.

12. A decrease of \$10,000,000 to the Nuclear Electric Propulsion program.

13. A decrease of \$9,000,000 to the Nuclear Power program.

The conferees are concerned that the recent Small Explorer competition may have unfairly judged the Satellite Test of the Equivalence Principle (STEP) proposal as having too much technology risk when, in fact, as the conferees understand, it was through neglect on the part of NASA that the investigator team did not receive adequate funds as promised to retire this risk. The conferees direct NASA to conduct an impartial and thorough evaluation of the Small Explorer competition and any agreements made prior to the competition to ensure that the STEP proposal was treated in a fair and just manner.

The conferees commend NASA for the continued success of the Hubble Space Telescope and the extraordinary contributions it has made to the advancement of science. The recent success of the Hubble servicing mission has underscored the continued importance of the Hubble Space Telescope (HST). NASA's plan for HST has been to discontinue servicing missions after 2004 in order to create a funding wedge for the next generation space telescope (NGST), the science community's highest priority, and to return HST to earth in 2010. Due to the loss of *Columbia*, the conferees are aware that the current schedule for servicing HST has potentially been delayed and that the additional delay could possibly cause degradation of HST earlier than currently anticipated. The current situation may also require additional funding for HST. The conferees direct the program manager to maintain the current schedule for NGST development and not reduce NGST funds to cover HST shortfalls. The conferees direct NASA to carry out an in-depth study of an additional servicing mission (SM5) in the 2007 timeframe that would study operating HST until the Webb Telescope becomes operational. The study should address the costs of

an additional servicing mission and the potential scientific benefits. Further, the conferees direct NASA to study the means for disposing of Hubble following the deployment of the Webb Telescope in the 2010 timeframe. This study should examine the full range of options for disposal of the Hubble including relative costs and mission constraints.

BIOLOGICAL AND PHYSICAL RESEARCH

The conferees have agreed to provide an increase of \$26,505,000 to the budget request for biological and physical sciences programs.

The conferees agree to the following changes to the budget request:

1. An increase of \$3,600,000 for the Space Radiation program at Loma Linda University Hospital.

2. An increase of \$900,000 for Canisius College for multi-user scientific equipment in life sciences.

3. An increase of \$900,000 for the Institute for Proteomic and Nanobiotechnology at Northwestern University.

4. An increase of \$500,000 for the Center for Research and Training in gravitational biology at North Carolina State University.

5. An increase of \$4,500,000 for the National Center of Excellence in Infotonics in Buffalo, New York.

6. An increase of \$8,000,000 for procurement of animal and plant habitats for the international space station.

7. An increase of \$3,330,000 for Commercial Space Centers.

8. An increase of \$6,750,000 for the National Space Biomedical Research Institute.

9. An increase of \$900,000 for bone and muscle loss studies at the University of Connecticut Health Center.

10. An increase of \$2,250,000 for the Center for Space Sciences at Texas Tech University, Lubbock, Texas.

11. An increase of \$1,350,000 for interactive biological crystallization technology development.

12. An increase of \$1,350,000 for the Life Sciences Center at the University of Missouri-Columbia.

13. An increase of \$900,000 for the Biomedical Engineering Facility at Rutgers University, Piscataway, New Jersey.

14. An increase of \$225,000 for bone blood studies related to human space flight at the University of Vermont.

15. An increase of \$2,250,000 for the Life Sciences building at Brown University, Providence, Rhode Island.

16. A decrease of \$11,200,000 from the Generations program.

EARTH SCIENCE

The conferees have agreed to provide an increase of \$90,735,000 to the budget request for earth science programs.

The conferees agree to the following changes to the budget request:

1. An increase of \$1,800,000 for the Advanced Tropical Remote Sensing Center of the National Center for Tropical Remote Sensing

Applications and Resources at the Rosenstiel School of Marine and Atmospheric Science.

2. An increase of \$450,000 for continuation of emerging research that applies remote sensing technologies to forest management practices at the State University of New York, College of Environmental Sciences and Forestry.

3. An increase of \$2,250,000 for NASA's Regional Application Center for the Northeast.

4. An increase of \$15,500,000 for the Institute for Scientific Research for development and construction of research facilities.

5. An increase of \$1,575,000 for on-going activities at the Goddard Institute for Systems, Software, and Technology Research, including UAV and remote sensing technology research.

6. An increase of \$585,000 for the Center for Marine Remote Sensing at the University of New Hampshire.

7. An increase of \$900,000 for the Clustering and Advanced Visual Environments Initiative.

8. An increase of \$5,400,000 for data storage back-up and recovery managed services that supports the Goddard Space Flight Center (GSFC) programs, providing heterogeneous support to existing information systems and scalability to serve future requirements.

9. An increase of \$8,000,000 to be transferred to the Air Force Research Laboratory (PE 602204F Aerospace Sensors) to develop dual-use lightweight space radar technology.

10. An increase of \$1,350,000 for the United States portion of a joint U.S./Italian satellite development program to remotely observe forest fires.

11. An increase of \$1,800,000 for Little River Canyon field school.

12. An increase of \$24,750,000 for the EOSDIS Synergy Program, \$2,250,000 of which is for University of Washington, Pacific Northwest Regional Collaboratory to develop applications for earth science data.

13. An increase of \$15,400,000 for preformulation studies for solar irradiance, total column ozone, and ocean vector winds.

14. An increase of \$675,000 for landscape analysis, planning and monitoring at the Intermountain Region Digital Image Archive and Processing Center at Utah State University.

15. An increase of \$900,000 for an International Earth Observing System Natural Resource Training Center at the University of Montana.

16. An increase of \$1,800,000 for a joint weather and ocean research program at the University of Massachusetts and the University of Alaska.

17. An increase of \$1,350,000 for the Bio-MEMS Microtechnology Center at the University of Louisville.

18. An increase of \$1,800,000 for the Center for Rapid Environmental Assessment and Terrain Evaluation at the University of New Mexico.

19. An increase of \$1,350,000 for the Mid-Atlantic Geospatial Information Consortium at George Mason University.

20. An increase of \$450,000 for upgrades to the ADAS satellite tracking facility at Morehead State University.

21. An increase of \$2,700,000 for earth science education and remote sensing activities at the University of North Dakota Upper Midwest Aerospace Consortium, Grand Forks, North Dakota.

22. An increase of \$1,350,000 for expansion of the earth science hall at the Maryland Science Center, Baltimore, Maryland.

23. A decrease of \$3,400,000, available due to the cancellation of the Flight Projects building construction project at the Jet Propulsion Lab.

24. An increase of \$2,000,000 for the visitor's center at the Langley Flight Research Center, Langley, Virginia.

AERO-SPACE TECHNOLOGY

The conferees have agreed to provide an increase of \$76,120,000 to the budget request for aerospace programs.

The conferees agree to the following changes to the budget request:

1. An increase of \$16,000,000 for Intelligent Propulsion for Next Generation Aircraft to build on and leverage the Ultra Efficient Engine Technology and Quiet Aircraft Technology programs.

2. An increase of \$2,250,000 for the NASA-Illinois Technology Commercialization Center at DuPage County Research Park.

3. An increase of \$270,000 for the Rural Technology Transfer and Commercialization Center of Durant, Oklahoma.

4. An increase of \$1,800,000 for the Tulane Institute for Macromolecular Engineering and Science for research in polymers.

5. An increase of \$1,350,000 for the Glennan Microsystem Initiative.

6. An increase of \$450,000 to be used for continued development of an electric/diesel hybrid engine at Bowling Green University.

7. An increase of \$5,400,000 for the HITS multilateration sensor and surveillance server for Airport Surface Detection and Management System.

8. An increase of \$1,530,000 for the development of the Dynamic Runway Occupancy Measurement System.

9. An increase of \$4,500,000 for Project SOCRATES.

10. An increase of \$5,800,000 for continuation of the Space Alliance Technology Outreach Program, including \$2,500,000 for business incubators, in Florida and New York.

11. An increase of \$900,000 for the Advanced Interactive Discovery Environment engineering research program at Syracuse University.

12. An increase of \$4,500,000 for the National Center of Excellence in Infotonics in Rochester, New York.

13. An increase of \$1,350,000 for the Virtual Collaboration Center at the North Carolina GigaPop.

14. An increase of \$1,800,000 for the Garrett Morgan Commercialization Initiative in Ohio.

15. An increase of \$1,150,000 for on-going activities in support of NASA Dryden Flight Research Center's Intelligent Flight Control System (IFCS) research project.

16. An increase of \$1,125,000 for ongoing research at Marshall Space Flight Center in the area of advanced and breakthrough solutions for propulsion.

17. An increase of \$7,600,000 for hydrogen research being conducted by the Florida State University System.

18. An increase of \$4,500,000 to develop the JVIEW modeling and simulation for satellite coverage analysis, ground radars, and air traffic over the United States.

19. An increase of \$450,000 for aerospace projects being accomplished by the Montana Aerospace Development Authority.

20. An increase of \$720,000 for Middle Tennessee State University for the SATS Aerospace Flight Education Research Initiative.

21. An increase of \$2,700,000 for the Advanced Power Systems project.

22. An increase of \$4,500,000 for the DP-2 vectored thrust program.

23. An increase of \$1,800,000 for the Energy Momentum Wheel project at Goddard Space Flight Center.

24. An increase of \$3,600,000 for NASA's Independent Verification and Validation Facility.

25. An increase of \$900,000 for the COM Simulation architecture project.

26. An increase of \$1,800,000 for equipment for the Computer Forensics Technology Center at Utica College of Syracuse University.

27. An increase of \$6,300,000 for the Small Aircraft Transportation System. The conferees are concerned that NASA has not requested sufficient funding to enable the Small Aircraft Transportation System (SATS) program to demonstrate the practical application of the SATS program concept, which offers the promise of extending reliable point-to-point air service to smaller communities and has provided this increase. The additional funding is to be invested through the governance process of the National Consortium for Aviation Mobility (NCAM), exclusively for acceleration of regional service demonstrations that apply those SATS and related technologies ready for implementation, and for automotive technology transfer. The conferees expect NCAM to use these additional funds to accelerate the planning and conduct of SATS regional service demonstrations in states with strong state, community, and transportation service provider participation in the NCAM partnership. This funding for NCAM is in addition to the \$11,750,000 proposed by NASA for fiscal year 2003. Further, the conferees expect the SATS service demonstrations to provide the participating communities and their representative organizations with an opportunity to participate in SATS transportation service demonstrations, an analysis of economic impacts and related implications of improved air access to smaller communities, and an explanation of the technologies behind the concept.

28. An increase of \$450,000 for Advanced Space Propulsion Material Research and Technology Center at Alabama A&M University.

29. An increase of \$900,000 for high temperature nanotechnology research.

30. An increase of \$3,000,000 for the Chesapeake Information Based Aeronautics Consortium based in partnership at Morgan

State University, Baltimore, Maryland, Bowie State University and the University of Maryland, Eastern Shore.

31. An increase of \$2,700,000 for the Stennis Space Center for the development of a visitor's center.

32. An increase of \$2,700,000 for the North Alabama Science Center in Huntsville, Alabama for the acquisition, networking, and operation of additional immersive reality science laboratories on behalf of the Alabama Science Center Alliance to assure statewide science education program access by Alabama's K-12 students and teachers.

33. An increase of \$2,700,000 for the University of Alabama in Huntsville to augment the UAH Propulsion Test Facility.

34. An increase of \$675,000 for the National Institute for Aviation Research for Icing Aviation Safety Research in Kansas.

35. An increase of \$4,050,000 for propulsion test complex upgrades and other basic infrastructure upgrades at the Stennis Space Center.

36. An increase of \$1,800,000 for the National Technology Transfer Center at Wheeling Jesuit University.

37. An increase of \$3,600,000 for development of advanced metallic joining technologies for aerospace applications at the Michoud Space Center.

38. An increase of \$4,450,000 for information technology infrastructure improvements at NASA facilities.

39. An increase of \$3,150,000 for a Center of Excellence for Aerospace Propulsion Particulate Emissions Reduction at the University of Missouri-Rolla.

40. A decrease of \$40,000,000 to the Space Launch Initiative program. The conferees have taken this action without prejudice. The conferees note that the Congress received a budget amendment on November 7, 2002, which restructured the Space Launch Initiative with the goal of developing an Orbital Space Plane with ISS crew return capability by 2010. Fiscal year 2003 funding for the Orbital Space Plane was set at \$296,000,000 in the budget amendment. This funding level is not endorsed or denied by the conferees and is therefore subject to change by NASA as it formulates its operating plan for fiscal year 2003. The conferees look forward to working with NASA during the review of the fiscal year 2004 budget request to learn more precisely the elements that comprise the cost estimates NASA has provided in the budget amendment and other documents submitted to the Committees on Appropriations of the House and Senate.

The conferees note that neither House nor Senate bills and reports contained any direction on the rotorcraft technology program because there was no request for funding in the fiscal year 2003 budget submission. However, the conferees are aware of general NASA interest in the program and that the Army may be willing to be more engaged in this effort in the future. Therefore, while the conferees were not able to identify funding to continue the program, NASA is encouraged to look at funding options and present them to the Committees on Appropriations of the House and Senate in an operating plan letter if so desired.

ACADEMIC PROGRAMS

Within the Academic programs portion of this account, the conferees recommend an increase of \$59,845,000 to the budget request. The conferees have made the following adjustments to the budget request:

1. An increase of \$225,000 for Niagara University for science, engineering and math programs.
2. An increase of \$1,080,000 for the NASA Educator Resource Center at South East Missouri State University.
3. An increase of \$900,000 for the Carl Sagan Discovery Science Center at the Children's Hospital at Montefiore Medical Center to implement the educational programming for this science learning project.
4. An increase of \$2,250,000 for the JASON Foundation.
5. An increase of \$3,600,000 for continuation of programs at the American Museum of Natural History.
6. An increase of \$900,000 for academic and infrastructure needs at St. Thomas University in Miami, Florida.
7. An increase of \$900,000 for the Ohio View Consortium.
8. An increase of \$2,700,000 for the Alabama Math, Science, and Technology initiative.
9. An increase of \$2,250,000 to the Educational Advancement Alliance to support the Alliance's math, science, and technology enrichment program.
10. An increase of \$5,000,000 for the National Space Grant College and Fellowship program.
11. An increase of \$450,000 for Science, Engineering, Math and Aerospace Academy programs at Central Arizona College.
12. An increase of \$1,800,000 for the Center for Science and Math at the University of Redlands.
13. An increase of \$900,000 for the Chabot Space and Science Center for math and science education.
14. An increase of \$1,800,000 for the City College of New York to establish a community-based science and technology education facility.
15. An increase of \$450,000 for Science, Engineering, Math and Aerospace Academy programs at Livingston College.
16. An increase of \$495,000 for the Patriots Technology Training Center in Seat Pleasant, Maryland.
17. An increase of \$5,400,000 for the EPSCoR program for a total funding level of \$10,000,000, the same as fiscal year 2002.
18. An increase of \$720,000 for Science, Engineering, Math, and Aeronautics Academy in Miami, Florida.
19. An increase of \$900,000 for the Delaware Aerospace Education Foundation, Kent County, Delaware.
20. An increase of \$900,000 for the Monroe Science Center at Wesleyan College, Macon, Georgia.
21. An increase of \$900,000 for the Center of Excellence in Telecommunications and Space at Morehouse College, Atlanta, Georgia.
22. An increase of \$900,000 for the Henry Crown Space Center at the Museum of Science and Industry, Atlanta, Georgia.

23. An increase of \$2,250,000 for non-destructive evaluation studies at Iowa State University, Ames, Iowa.

24. An increase of \$675,000 for the Des Moines Science Center, Des Moines, Iowa.

25. An increase of \$675,000 for the California Science Center.

26. An increase of \$1,800,000 to the South Carolina Association of School Administrators, Columbia, South Carolina for the Blue Ribbon School Reform Project and Interactive Library.

27. An increase of \$1,800,000 for the School of Science and Mathematics at the College of Charleston, Charleston, South Carolina.

28. An increase of \$3,600,000 for the Mauna Kea Astronomy Education Center at the University of Hawaii, Hilo.

29. An increase of \$1,800,000 for the Wisconsin Initiative for Math, Science and Technology Education at the University of Wisconsin, Green Bay.

30. An increase of \$3,000,000 for an endowment for science and engineering education at the Mitchell Foundation, Portland, Maine.

31. An increase of \$675,000 for minority recruitment in science and engineering at the University of Arkansas, Little Rock.

32. An increase of \$900,000 for the Oregon Museum of Science and Industry.

33. An increase of \$450,000 for advance research in batteries and fuel cells at Virginia Commonwealth University.

34. An increase of \$1,800,000 for the construction of a Gulf of Maine Laboratory at the Gulf of Maine Aquarium Foundation.

35. An increase of \$900,000 for the University of North Carolina-Chapel Hill for the Destiny Mobile Science Laboratory.

36. An increase of \$450,000 for the development of a rooftop observatory for Widener University in Pennsylvania.

37. An increase of \$1,350,000 for infrastructure and research needs at the University of Missouri Center for Gender Physiology.

38. An increase of \$1,800,000 for the North Rockies Center for Space Privatization and Microgravity Research at the University of Montana-Missoula.

39. An increase of \$500,000 for science and information technology programs at West Liberty State College in West Virginia.

OFFICE OF INSPECTOR GENERAL

The conferees agree to appropriate \$25,600,000 for the Office of Inspector General instead of \$24,600,000 as proposed by the House and \$26,600,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS

The conferees agree to include three administrative provisions which have been included in prior appropriations Acts.

The House included an administrative provision that would have precluded expenditures for implementation of a non-governmental organization for International Space Station (ISS) research before December 31, 2003. The Senate was silent on this issue.

The conferees believe strongly that a sound management approach for ISS research is critical to ensuring that scientific benefit is maximized. The investment of scarce taxpayer funds in the development of the ISS has been too great to leave management of

ISS research to a “business as usual” approach. For this reason, legislative prohibitions against establishment of an NGO were included in the fiscal year 2001 and fiscal year 2002 appropriations Acts, as the Committees on Appropriations have awaited submission of a comprehensive plan by NASA.

The Congress has recently received the Report of NASA’s ISS Utilization Management Concept Development Study. The plan outlines 10 business models and, based on objective criteria, recommends an institute be adopted as the preferred management approach. Furthermore, the plan outlines a phased approach that would initially focus on leadership and advocacy functions and would defer a decision on the possible inclusion of engineering and integration functions.

The conferees endorse Phase 1 (inclusion of leadership and advocacy functions), which is similar to what has been so successfully demonstrated in the Hubble Space Telescope Institute (HSTI) model. The conferees wish to point out, however, that management of research for the ISS is much more complex than that of the HSTI, and acknowledge NASA’s recognition of this intricacy, demonstrated through its proposal of a phased approach.

In order to ensure the chances for successful implementation of this very complicated process, the conferees have included an administrative provision that limits any proposed contractual action to that of leadership and advocacy.

The conferees direct NASA to report on the status of NGO implementation as well as means of determining research priorities. The first report is due March 15, 2003.

The conferees have not included an administrative provision proposed by the Senate which would have prohibited the use of any funds for the purchase of items proposed for acquisition in RFP5-55151-GCE.

The conferees have included a new administrative provision which gives NASA authority to establish a working capital fund. The House had proposed establishment of this fund in title IV, general provisions.

NATIONAL CREDIT UNION ADMINISTRATION

CENTRAL LIQUIDITY FACILITY

The conferees have held the cap on the Central Liquidity Facility (CLF) lending activities from borrowed funds at \$1,500,000,000 as proposed by the House and Senate.

COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

The conferees have provided \$1,000,000 to the Community Development Revolving Loan Fund (CDRLF) as proposed by both the House and Senate. Within this amount, \$300,000 is provided to augment funds available for technical assistance grants for fiscal year 2003.

NATIONAL SCIENCE FOUNDATION
RESEARCH AND RELATED ACTIVITIES

Appropriates \$4,083,000,000 for research and related activities instead of \$4,150,000,000 as proposed by the House and \$4,081,650,000 as proposed by the Senate. The conferees have included bill language which provides up to \$320,000,000 for polar research and operations support and \$85,000,000 for a comprehensive research initiative on plant genomes for economically significant crops.

The conference agreement provides \$4,083,000,000 for ongoing and new research priorities of the Foundation, an increase of nearly \$500,000,000 above the fiscal year 2002 level. In allocating this increased funding to the directorates, NSF is expected to give a high priority to increasing research opportunities for investigator initiated research in the core scientific disciplines. In addition, NSF is urged to use the growth in its resources to make a marked and substantial increase in the average award, as well as increase the number of awards being made with a particular effort to include those individuals and institutions not well represented in the Nation's research enterprise. The specific funding level for each of NSF's research activities is as follows:

1. \$574,886,000 for Biological Sciences. Of this amount, \$85,000,000 has been provided for plant genome research on economically significant crops, including an initiative which pursues the sequencing of one or more economically important crops. The conferees expect that NSF will complete such sequencing of at least one of these crops by 2004. In addition, \$26,000,000, the budget request, is provided for Biocomplexity in the Environment research.

2. \$582,235,000 for Computer and Information Science and Engineering. Up to \$12,500,000 of the appropriated level may be used for operational support of the two terascale facilities. In addition, the conferees expect NSF to provide adequate resources for information technology research, including cyber security research for individual investigators and multi-disciplinary research centers, as well as for advanced broadband research as outlined in Senate Report 107-222.

3. \$534,057,000 for Engineering.

4. \$689,211,000 for Geosciences. The Foundation is expected to provide adequate funding to augment support for the national user facilities within this directorate as well as to move forward on the integrated ocean drilling program.

5. \$1,041,165,000 for Mathematical and Physical Sciences. Of this amount, \$179,617,000 is for Mathematics programs and not less than \$222,169,000 is for Physical Science programs. The conferees further agree that adequate resources be provided in support of the National High Magnetic Field Laboratory, the Cyclotron and Synchrotron Radiation Facilities, and other such important research facilities. The Foundation is directed to provide, by August 31, 2003, a report which documents what has been accomplished as a result of the growth in mathematics research funding.

For Astronomical Sciences within the MPS Directorate, \$4,000,000 is provided for the Telescope Systems Instrumentation Program (TSIP), \$6,000,000 is for the National Radio Astronomy

Observatory program, \$4,200,000 is for the National Optical Astronomy Observatories, and \$2,000,000 is for the National Optical Astronomy and Ionosphere Center. In addition, the conferees agree that NSF should provide adequate support for preparatory work for the Giant Segmented Mirror Telescope (GSMT).

6. \$192,309,000 for Social Behavioral and Economic Sciences. Of this amount, \$6,000,000 is for the Children's Research Initiative.

7. \$252,330,000 for U.S. Polar Research Programs. The conferees agree that OPP should report at the earliest practicable time on the necessary work and costs associated with the repair, upgrading, and replacement of NSF's research and support facilities in Antarctica. Upon completion of this report, funds available through this and other appropriations may be used for planning, design, pre-construction, and construction activities as identified in the report. In addition, the conferees agree that with the funds provided, OPP may execute necessary contractual arrangements in preparation for the Foundation's plan for mechanical traverse between McMurdo Station and Amundson-Scott South Pole Station.

8. \$69,003,000 for U.S. Antarctic Logistical Support Activities.

9. \$147,804,000 for Integrative Activities, including \$84,000,000 for Major Research Instrumentation (MRI) and \$5,000,000 for the Innovation Partnership Program (IPP). To the extent possible, NSF should utilize funds in excess of the budget request to support the merit-based instrumentation and infrastructure needs of developing, HBCU, and other minority-serving colleges and universities. With this regard to the IPP, NSF is directed to support competitive, merit-based partnerships, consisting of States, local and regional entities, industry, academic institutions, and other related organizations for innovation-focused local and regional technology development strategies.

Within amounts made available in this account, the conferees expect the NSF to provide up to \$750,000 in support of the National Academy of Sciences' work to develop a process for prioritizing projects funded through the Major Research Equipment and Facilities Construction account.

The conferees are aware that there has been confusion in recent years regarding the Smithsonian Institution's eligibility to compete for grants at the National Science Foundation. This problem was recently identified as a significant issue in the National Academy of Public Administration's review of Smithsonian science programs released in October 2002. The conferees are concerned that this confusion has persisted despite recent internal NSF policy directives clarifying that the Smithsonian is fully eligible to compete for National Science Foundation grants. The conferees strongly urge the Director of the National Science Foundation to make sure that Smithsonian grant applications are welcomed by all programs at the Foundation and given fair consideration with all other applications based on the merits of the proposals.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

Appropriates \$149,510,000 for major research equipment and facilities construction instead of \$159,510,000 as proposed by the House and \$59,280,000 as proposed by the Senate. Included within

the appropriated amount is \$9,720,000 for the Large Hadron Collider; \$13,560,000 for the George E. Brown, Jr. Network for Earthquake Engineering Simulation; \$25,530,000 to complete development of the High-Performance Instrumented Airborne Platform for Environmental Research (HIAPER); \$10,000,000 for support of the Terascale Computing System and the Distributed Terascale Facility; \$24,700,000 for continued research and development of the IceCube Neutrino Detector Observatory in Antarctica; \$30,000,000 for construction of the Atacama Large Millimeter Array (ALMA) aperture-synthesis radio telescope; \$6,000,000 for construction costs associated with expansion of new facilities at the Amundson-Scott South Pole Station; and \$30,000,000 for initial costs associated with the new Earthscope project.

The conferees have, without prejudice, not funded the National Ecological Observatory Network (NEON) project in fiscal year 2003.

The conferees direct the Foundation to include in its fiscal year 2003 Operating Plan a report detailing approved budgeted and actual expenditure information on each research facility and equipment funded through this account.

EDUCATION AND HUMAN RESOURCES

Appropriates \$909,080,000 for education and human resources instead of \$910,580,000 as proposed by the House and \$932,730,000 as proposed by the Senate. The conferees agree to the following funding levels within this account:

1. \$127,500,000 for the Math and Science Partnership program. The Foundation is strongly urged to provide regular, detailed information to the Committees on Appropriations regarding the planning and execution of this initiative.

2. \$40,250,000 for Educational System Reform.

3. \$90,000,000 for the Experimental Program to Stimulate Competitive Research (EPSCoR) program.

4. \$177,440,000 for Elementary, Secondary and Informal Education. Within this level of funding, \$61,000,000 has been provided for the Informal Science program, an increase of \$6,000,000 above the budget request.

5. \$160,600,000 for Undergraduate Education. Of the amount appropriated herein, \$43,160,000 has been provided for the Advanced Technological Education (ATE) program, \$22,000,000 is for the STEM Talent Expansion Program (STEP), and \$7,000,000 is for the Robert Noyce Scholarship Program. These funding levels represent increases above the budget submission of \$5,000,000, \$20,000,000 and \$3,000,000, respectively.

6. \$140,880,000 for Graduate Education. The conferees have provided an increase of \$12,500,000 above the budget request to increase graduate level stipends for the research and teaching fellowship programs and the trainee program administered by the Foundation through its Graduate Education program. The conferees support increasing the graduate stipend level to \$27,500 during fiscal year 2003 as the first of what is expected to be a two-year process to reach a stipend level of \$30,000.

7. \$105,210,000 for Human Resource Development. Within this funding level, \$31,530,000 is provided for the Louis Stokes Alli-

ances for Minority Participation (LSAMP) program, an increase of \$5,000,000 above the budget request. In addition, \$18,900,000, an increase of \$5,000,000 above the request, has been provided for the Historically Black Colleges and Universities Undergraduates Program (HBCU-UP).

The conference agreement additionally provides for an increase of \$5,000,000 for the HBCU Research University Science and Technology (THRUST) initiative within the Centers of Research Excellence in Science and Technology (CREST) program. While the conferees agree that eligibility for THRUST should not exclude CREST recipients, NSF is directed to first use fiscal year 2003 program funds to fully fund multi-year awards to recipients of THRUST awards in the program's first year.

8. \$67,200,000 for Research, Evaluation and Communication.

SALARIES AND EXPENSES

Appropriates \$190,352,000 for salaries and expenses instead of \$193,852,000 as proposed by the House and \$182,160,000 as proposed by the Senate. The conference agreement will permit the employment of an additional 25 full time equivalent personnel for a total workforce of 1175, and will provide an increase of \$15,000,000 above the fiscal year 2002 level for General Operating Expenses.

The conferees are strongly supportive of the National Science Foundation and committed to its mission of providing national leadership and federal financial support of research as the basis for scientific and social advancement for the nation and for the entire world. This commitment is reflected in the substantial increase provided in this Act for the NSF for fiscal year 2003.

As Congress, the executive branch and the American people begin to consider a multi-year build-up of financial support for the NSF, however, the conferees also believe that a review of the agency's organizational, programmatic and personnel structures is appropriate and can provide assurance to the public that the agency is positioned to maximize the opportunities which increased funding can create. The conferees have allocated \$1,000,000 within the Agency's "Salaries and Expenses" appropriation for a contract with the National Academy of Public Administration (NAPA) to conduct such a study. The conferees expect this contract to be awarded within 60 days of approval of this measure.

Without prejudicing the outcome of this NAPA review, the conferees are concerned about the following issues:

Organizational and program structure. Over the last decade the NSF has evolved into a very complex and multi-layered system of directorates, sub-directorates and programs each with its own leadership and budget. This organizational structure is then managed and evaluated against a system of goals which were established under the Government Performance and Results Act as well as a set of six cross-cutting priority areas which change from year to year. All programs are required to justify themselves according to how they serve both the goals and the priorities. Assets flow and personnel are evaluated based on such evaluations even though not every program clearly is designed to serve every goal and every priority. There is concern that this system, each aspect of which may have been created with the best of intentions, may have become

overly bureaucratic. Some observers have characterized this current structure as both Byzantine and balkanized. This reflects a concern that the system is broken up into large numbers of parts which may channel significant portions of research funding into narrow areas making it difficult for researchers to follow broader interdisciplinary projects or innovative research areas not yet reflected in NSF's view of scientific opportunity. Because recent NSF budget requests have heavily favored the agency's own priority areas at the expense of research in core disciplines, investigators often feel compelled to apply for support in certain areas because of a sense that proposals which do not fit into NSF's priorities are significantly disadvantaged. The conferees believe that a thoughtful review should ask whether the current NSF organization and management structure and its goal and priority systems should be simplified or changed.

The balance between field driven and NSF driven science priority setting. Second, but clearly related, the conferees believe that this review should consider whether the NSF's approach to its stewardship mission creates the proper balance between necessary and appropriate levels of agency leadership of NSF sponsored science and the need to ensure that this research remains principally investigator initiated work. A corollary question is whether the structure of NSF and management control of its priority setting methodologies have negatively influenced the balance between NSF initiatives and appropriate resource allocations for core science investments.

The underlying principle around which NSF was founded and which the conferees believe is still the pedestal upon which the success of America's taxpayer supported research rests is that both the choice of research priorities and the choice of individual projects should flow principally from practicing scientists in the field as expressed through organized systems of advice and through external peer review. The conferees believe that it is appropriate to review whether the balance of power in setting research priorities is the appropriate one or whether NSF has become too directive in managing its research portfolios.

Role of the National Science Board. The NSF is unique in entrusting both advisory and executive authority for the agency in an "independent" board appointed by the president. Recent Congressional action has highlighted, however, the concerns about the relationship between the Board and the agency and its Director and in particular the issue as to how independent the Board is able to operate given its dependence on the Agency for financial support and personnel. The conferees request that the organizational review of NSF here directed include an analysis of the extent to which the Board has fulfilled its original purpose and a review of the role and the structure of the Board in the future.

Personnel policies. The NSF has chosen over the years to rely significantly on contractual and on temporary personnel assigned to the agency under the IPA system to manage its science programs including its grant selection processes. Almost one-tenth of the over 1000 staff of the agency are university based researchers detailed to NSF under the Intergovernmental Personal Act (so-called IPA's) and over 200 are contractors. The assignment of non-

permanent personnel to management positions now includes the heads of its science directorates. The advantage of this system is a continuous flow of individuals from the field who are current in their science. The disadvantage, however, is a cadre of agency personnel, including some of its most senior staff, who have less experience and could have split loyalties between their federal roles and their past or future employment base. The conferees believe a thoughtful review of the agency's structure should include an evaluation of the use of temporary staff and term appointments, especially to the extent this involves the heads of the science directorates.

In laying out these particular concerns, the conferees do not mean this to be an exclusive list. The review by NAPA should be carried out by very senior and thoughtful persons who should feel free to analyze any other factors which the group believes are central to the question of determining what organizational, programmatic and personnel systems will facilitate the most effective partnership between the National Science Foundation and the scientific community for the benefit of the nation.

OFFICE OF THE NATIONAL SCIENCE BOARD

Appropriates \$3,500,000 for the National Science Board as proposed by the Senate. The House had included these NSB operational funds within the Salaries and Expenses account as has been the practice in past years. A representational allowance of \$9,000 has been provided for the Board.

Recently approved legislation authorized a separate funding stream for the Board, and the conferees have responded by creating this new appropriations account. The amount provided is expected to be sufficient for all costs associated with NSB personnel payroll and benefits as well as other appropriate expenses. The conferees acknowledge this action is intended to provide a measure of independence between the Board and the Foundation, but nevertheless expect NSF to continue to provide accounting, logistics, and other necessary measures in support of the Board and its mission. The conferees request that budget justification materials in support of the National Science Board's fiscal year 2004 funding requirements be submitted to the Committees on Appropriations within 30 days of enactment of this measure.

OFFICE OF INSPECTOR GENERAL

Appropriates \$9,250,000 for the Office of Inspector General instead of \$9,000,000 as proposed by the House and \$9,660,000 as proposed by the Senate.

NEIGHBORHOOD REINVESTMENT CORPORATION

PAYMENT TO THE NEIGHBORHOOD REINVESTMENT CORPORATION

The conferees agree to provide \$105,000,000 for the Neighborhood Reinvestment Corporation as proposed by the House instead of \$110,000,000 as proposed by the Senate.

Language is included in the bill which designates \$5,000,000 to support the Corporation's section 8 homeownership program, as proposed by the Senate. The House had proposed a set-aside for

this purpose of \$10,000,000. The conferees have further agreed to designate \$5,000,000 to support additional mixed-income affordable rental developments.

SELECTIVE SERVICE SYSTEM

SALARIES AND EXPENSES

Appropriates \$26,480,000 for salaries and expenses as proposed by both the House and the Senate.

TITLE IV—GENERAL PROVISIONS

The conference agreement includes the following dispositions of General Provisions:

Retains fifteen administrative provisions proposed by both the House and the Senate, all of which were included in the fiscal year 2002 Act.

Deletes language proposed by the Senate limiting travel expenses.

Deletes language proposed by the Senate requiring approval for the Department of Veterans Affairs to enter into leases of real property with an estimated cost of over \$300,000. The conferees included an identical provision in title I, as proposed by the House.

Retains language proposed by the House prohibiting transfers to any department, agency or instrumentality of the United States Government established after the date of enactment of this Act except as provided in a future appropriations Act.

Retains language proposed by the House amending the Stafford Act by reducing to 7.5 percent the set-aside for hazard mitigation grants.

Deletes language proposed by the House amending the Consumer Product Safety Act.

Deletes language in this title proposed by the House establishing a working capital fund for NASA and instead includes a similar provision under title III, NASA administrative provisions.

Modifies language proposed by the House granting NASA enhanced-use lease authority by adding new conditions.

Deletes language proposed by the House granting NASA authority to convey utility systems to a municipal, private, regional, district, or cooperative utility company or other qualified entity.

Deletes language proposed by the House extending buyout authority in NASA.

Retains language proposed by both the House and Senate reducing FEMA's State cost share requirements for construction of emergency operations centers from 50 percent to 25 percent.

Deletes language proposed by the Senate allowing the Department of Housing and Urban Development and the Selective Service System to purchase uniforms, passenger motor vehicles, and services as authorized by law. The conferees included identical language under the respective appropriating paragraphs for each agency as proposed by the House.

Retains language proposed by the Senate prohibiting the procurement of automobiles rated less than 22 miles per gallon.

Retains language proposed by the Senate amending the Federal Fire Prevention and Control Act of 1974 by recognizing Alaska Village Initiatives as an eligible grantee for assistance.

Retains language proposed by the Senate authorizing the Secretary of the Department of Homeland Security to acquire 178.5 acres in Clarke and Loudoun Counties, Virginia.

Deletes language proposed by the Senate directing a long-term health study of emergency service personnel. The conferees have instead included a similar provision as an administrative provision under FEMA.

Deletes language proposed by the Senate amending permanent law to expand eligibility for Federal housing assistance to certain groups of aliens. The conferees direct the Department to work with the Department of Justice to develop any necessary technical corrections to applicable housing statutes with respect to qualified aliens who are the victims of domestic violence and Cuban and Haitian immigrants to ensure that such statutes are consistent with the Personal Responsibility and Work Opportunity Act of 1996 and the Illegal Immigration Reform and Personal Responsibility Act of 1996.

A provision was included in the Senate bill under Division I, Transportation and Related Agencies, directing EPA to contract with the National Academy of Sciences. The conferees have included an identical provision as an administrative provision under EPA.

Includes new language amending title 31 of the United States Code regarding passenger carrier use by the NASA Administrator.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2003 recommended by the Committee of Conference, with comparisons to the fiscal year 2002 amount, the 2003 budget estimates, and the House and Senate bills for 2003 follow:

[In thousands of dollars]	
New budget (obligational) authority, fiscal year 2002	\$123,820,208
Budget estimates of new (obligational) authority, fiscal year 2003	124,979,700
House bill, fiscal year 2003	122,596,881
Senate bill, fiscal year 2003	121,925,545
Conference agreement, fiscal year 2003	121,927,337
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 2002	- 1,892,871
Budget estimates of new (obligational) authority, fiscal year 2003	- 3,052,363
House bill, fiscal year 2003	- 669,544
Senate bill, fiscal year 2003	+1,792

DIVISION L—HOMELAND SECURITY ACT OF 2002 AMENDMENTS

In implementing this agreement, the departments and agencies affected in this division shall comply with the language and instructions set forth in the Senate explanatory statement as delineated in the CONGRESSIONAL RECORD of January 15, 2003, page S838, that are not otherwise contradicted by the committee of conference.

The conference agreement includes section 101, as proposed by the Senate, that modifies section 308 and subsection 835(d) of the Homeland Security Act, respectively, by (1) expanding the discretion of the Homeland Security Secretary in his application of listed criteria, and authorizing him to consider additional criteria beyond those specified in the section when designating any of the nation's colleges or universities as a college- or university-based center for homeland security that shall conduct extramural research; and (2) limiting the authority of the Homeland Security Secretary to waive the prohibition on entering into contracts with corporate expatriates by restricting the waiver authority only to contracts for which the Secretary determines that the waiver is required in the interest of homeland security. The House bill contained no similar provision.

The conference agreement expands the discretion of the Secretary of the Department of Homeland Security in his application of the listed criteria when designating any of the nation's colleges or universities as a college- or university-based center for homeland security. Such a center is part of the Secretary's broad authority to conduct extramural research under grants, cooperative agreements and contracts. Designating a center or centers is just one way in which the Secretary's authority can be used.

The conference agreement includes section 102, as proposed by the Senate, which repeals sections 1714 through 1717 of the Homeland Security Act as if such sections never were effective and replaces these sections with alternative language regarding the application of the Public Health Service Act and a rule of construction with respect to prior law and to *Leroy v. Secretary of Health and Human Services*, Office of Special Master, No. 02-392V (October 11, 2002). No legal inference regarding existing law prior to or after the enactment and repeal of these sections shall be drawn by the courts from the enactment and subsequent repeal of these provisions. The repeal leaves unaffected pre-existing case law, such as *Leroy v. Secretary of Health and Human Services*. The conference agreement modifies a Sense of the Senate provision to a Sense of the Congress that the Senate Committee on Health, Education, Labor, and Pensions and the House Committee on Energy and Commerce should report legislation within six months to protect the public health and the nation's ability to produce existing vaccines and develop new vaccines. The House bill contained no similar provision.

The conference agreement includes section 103, as proposed by the Senate, which modifies sections 232(f), 234(b), 873(b), and 1511(e)(2) of the Homeland Security Act. These modifications would, respectively: ensure that transfers of funds, personnel, and assets within and from the Department of Justice are governed by the procedures established in section 605 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2002; permit the Coast Guard to use pre-existing authority to accept gifts and donations of services; and permit the Coast Guard to continue to receive funds from the aquatic resources trust fund of the highway trust fund for boating safety programs. The House bill contained no similar provision.

In addition, the conferees have agreed to include in section 103, as proposed by the Senate, a provision adding a new section 1714 to the Homeland Security Act that requires that any report or notification to, or consultation with, the Congress or any Congressional committee required by the Homeland Security Act, and addressing directly or indirectly the use of appropriated funds, also be submitted to or held with the Committees on Appropriations of the Senate and the House of Representatives. The House bill contained no similar provision.

The conference agreement replaces a provision (section 104) proposed by the Senate relating to certain waivers of contracts with corporate expatriates. The substitute provision makes changes to the Homeland Security Act of 2002 (Public Law 107-296) and the Inspector General Act of 1978 (Public Law 95-452) relating to the Inspector General of the Department of Homeland Security. The House bill contained no similar provision.

The conference agreement includes a provision (section 105) relating to the transfer of the Attorney General's authorities under the Immigration and Nationality Act to the Secretary of Homeland Security.

The conference agreement includes a savings provision (section 106), as proposed by the Senate, relating to pending or completed administrative actions, any proceeding, and pending civil actions with respect to the transfer mandated by the Homeland Security Act of the Bureau of Alcohol, Tobacco, and Firearms to the Department of Justice from the Department of the Treasury. The House bill contained no similar provision.

The conference agreement includes a provision (section 107), as proposed by the Senate, which repeals section 457 of the Homeland Security Act, including the amendment made by that section, relating to the costs and funding of certain immigration services. The conferees also modified this section to address court jurisdiction matters.

The conference agreement deletes a Sense of the Senate provision (section 107) that states that Senate conferees should insist that the Joint Conference adopt section 102 of the Senate amendment. The House bill contained no similar provision.

The conferees agree that several specific provisions of the Homeland Security Act directly or indirectly address the oversight and use of appropriated funds and that the Senate and House Committees on Appropriations will review such sections in depth.

DIVISION M—OTHER MATTERS

DEFENSE RELATED TECHNICAL CORRECTIONS

The conferees considered section 5 of H.J. Res. 2 as passed the House, and Division M of H.J. Res. 2 as amended by the Senate. The conference agreement includes an amended version of Division M, as described below.

The conferees recommended retaining and amending a number of general provisions, proposed by either the House or Senate, which make technical and other adjustments regarding funding and activities provided for in Public Laws 107-248 and 107-249 (the Defense Appropriations Act, 2003, and the Military Construc-

tion Appropriations Act, 2003, respectively). In addition, in section 109 of this division the conferees recommend new appropriations totaling \$10,000,000,000, pursuant to requests from the White House, for selected military and intelligence activities in support of the global war on terrorism.

Of this amount, \$3,900,000,000 is for classified programs in support of the global war on terrorism and other critical anti-terrorism initiatives. These programs are described in a classified annex accompanying this joint statement. The remaining \$6,100,000,000 is for reimbursement of personnel and operational costs incurred during the first quarter of the current fiscal year by the Department of Defense as a result of Operation Enduring Freedom; Operation Nobel Eagle; and related activities in the war on terrorism and homeland security operations. These funds are to be allocated as follows.

MILITARY PERSONNEL

The conference agreement includes \$1,617,000,000 for active duty pay and allowances costs incurred from October through December 2002. This includes incremental cost increases in hostile fire pay, family separation allowances, hardship duty pay, subsistence and additional readiness/stop-loss personnel. Also covered are pay and allowances for the first quarter costs associated with mobilized Reservists and National Guardsmen.

(In thousands of dollars)

	<i>Conference Amount</i>
Military Personnel, Army	\$771,200
Military Personnel, Navy	213,800
Military Personnel, Marine Corps	68,600
Military Personnel, Air Force	563,400

OPERATION AND MAINTENANCE

The conference agreement includes \$4,387,900,000 for operations costs incurred from October through December 2002. These include personnel support costs (temporary duty, clothing, personal equipment and supplies, medical support and services, and subsistence); operating tempo costs (including incremental ship steaming days and aircraft flying hours, materials and services supporting operations, fuel, and spare/repair parts); and costs associated with the transportation of personnel, equipment and material.

(In thousands of dollars)

	<i>Conference Amount</i>
Operation and Maintenance, Army	\$1,210,000
Operation and Maintenance, Navy	378,300
Operation and Maintenance, Marine Corps	202,100
Operation and Maintenance, Air Force	1,686,300
Operation and Maintenance, Defense-Wide	911,200
(U.S. Special Operations Command	531,100)
(Defense Logistics Agency	289,700)
(Defense Information Systems Agency	51,200)
(Defense Threat Reduction Agency	39,200)

DEFENSE HEALTH PROGRAM

The conference agreement includes \$95,100,000 for the Defense Health Program, for the costs of replacement personnel to perform essential duties of deployed personnel; transportation costs to points of embarkation; funding for temporary duty in order to sustain essential health care services at military treatment facilities and in the private sector; additional funds for health care to support mobilized Reservists and their families; the costs of immunizations for personnel being deployed, and force protection.

REPROGRAMMING THRESHOLDS

The conferees agree to amend the Senate's recommendation to raise the thresholds for internal reprogramming actions. The conferees agree to increase reprogramming thresholds as proposed by the Senate, for Procurement and Research, Development, Test and Evaluation appropriations accounts for the remainder of fiscal year 2003. Changes to reprogramming thresholds are effective upon enactment of the accompanying Act and apply to fiscal year 2003 Procurement and Research, Development, Test and Evaluation appropriations. The Department shall submit Prior Approval reprogramming requests, DD Form 1415-1, in those instances when reprogramming of funds exceed the following thresholds:

An increase or decrease of \$20,000,000 for program year 2003/2005 appropriations for a Procurement line item.

An increase or decrease of \$10,000,000 for program year 2003/2004 appropriations for a Research, Development, Test and Evaluation program element.

Each of the reprogramming thresholds described above reflects aggregate levels of reprogramming activity within Procurement line items, and Research, Development, Test and Evaluation program elements.

The reprogramming of funds below these thresholds shall not increase lines specifically reduced by congressional action or decrease congressional interest items.

No below threshold decrease may exceed twenty percent of appropriated levels for each procurement line, or program element, or the limitations above, whichever is greater.

Below threshold reprogramming may restore non-specific reductions to the original level of the budget request or the level determined in the account tables, whichever is less.

PROJECT ATHENA

The Statement of Managers accompanying the conference report on Public Law 107-248 provided an earmark in the Research, Development, Test and Evaluation, Navy appropriation of \$11,000,000 for development of the Project Athena coastal defense beta site from within the Marine Corps Communications line, PE 0206313M. The conferees agree that the line for the earmark is hereby changed to the Combating Terrorism Technology Support line, PE 0603122D8Z, in the Research, Development, Test and Evaluation, Defense-Wide appropriation. The conferees also agree that the amount of the earmark shall be decreased to \$6,000,000.

DOMED HOUSING

The Statement of Managers accompanying the conference report on Public Law 107-248 directed that \$2,000,000 be made available for the acquisition of domed housing in the Marshall Islands to support Department of Defense housing requirements. The conferees further direct that the procurement of additional domed housing units be limited to those U.S. construction companies that have previously built this type of housing in the Marshall Islands.

NATIONAL DEFENSE SEALIFT REPORT

The conferees direct the Secretary of the Navy and the Secretary of Transportation to jointly report to the Committees on Appropriations, within 90 days of enactment of this Act, on the feasibility of establishing a pilot project to accelerate the introduction of next-generation high-speed sealift ships. Such a project shall provide for the construction in a United States shipyard of two high-speed sealift ships (together with ancillary facilities and equipment) to be used in commercial service and to be available to support the Navy's global military sealift requirements. Project financing should be derived from loans guaranteed by the Secretary of Transportation supported by amounts appropriated in fiscal years 2002 and 2003 under the National Defense Sealift Fund (designated for construction of additional sealift capacity), amounts appropriated to support Title XI maritime loan guarantees, and sums provided by non-federal parties as appropriate. Such report shall include an analysis of the national security benefits of using sealift ships designed to carry at least 10,000 tons of cargo at 36 knots or higher in sea states of up to 16 feet to meet high priority military requirements compared to existing sealift capabilities. Such report shall also include a technology readiness assessment, a financial analysis, and any additional recommended legislation that may be required to accomplish this project.

GENERAL PROVISIONS—THIS DIVISION

The conferees agree to amend section 101, as proposed by the Senate, which allows funds to be used to settle the disputed taking of property adjacent to the Tooele Army Depot.

The conferees agree to retain section 102, as proposed by the Senate, which provides funds for disposal of obsolete vessels in the Maritime Administration National Defense Reserve Fleet, and requires the Department to report to the congressional defense committees by March 1, 2003.

The conferees agree to delete section 103, as proposed by the Senate. The conferees agree, however, to amend section 122 of P.L. 107-249 to create an exception to the general prohibition against using NATO Security Investment Program (NSIP) funds in the New Independent States of the former Soviet Union. This exception authorizes no more than \$1,000,000 to establish a communication system that connects various NATO headquarters and partnership for peace nations.

The conferees agree to retain section 104, as proposed by the Senate, which is a technical correction that moves funds from the

Military Construction, Air Force account to the Military Construction, Air Force Reserve account.

The conferees agree to modify section 105, as proposed by the Senate, to clarify that the Secretary of the Air Force is authorized to transfer funds to the United States Fish and Wildlife Service for the purpose of acquiring land at Nellis Air Force Base.

The conferees agree to amend section 106, as proposed by the Senate, which increases the expense/investment threshold from \$100,000 to \$250,000 for items purchased with operation and maintenance funds, and includes authorization and grant authority for projects expressly designated for the Office of Economic Adjustment in the Statement of Managers accompanying the conference report on Public Law 107-248.

The conferees agree to amend section 107, as proposed by the Senate, which includes transfers of \$104,000,000 in order to accelerate Patriot PAC-3 missile production. Among the sources specified in this general provision is "Weapons and Tracked Combat Vehicles, Army, 2003/2005", for \$5,000,000 from the M1A2 SEP program. This section transfers \$7,000,000 from "Other Procurement, Air Force, 2003/2005", from the following programs:

Thinpack Parachutes	-\$3,000,000
Replacement of Transport Aircraft Troop Seats	-3,000,000
Replacement of Tactical Aircrew Life Preservers with the Navy's LPU-36	-1,000,000

This section also transfers \$36,900,000 from "Research, Development, Test and Evaluation, Defense-Wide, 2003/2004". This amount includes \$13,900,000, as specified by the Senate, from the ground-based midcourse defense sea-based x-band radar (SBX), and \$23,000,000 from a Patriot PAC-3 enhancement program.

The conferees agree to amend section 108, as proposed by the Senate, which provides necessary legislative language for the timely execution of funds for certain Department of Defense Office of Economic Adjustment activities as provided in the Statement of Managers accompanying the conference report for Public Law 107-248.

The conferees agree to amend section 109, as proposed by the Senate, to provide \$10,000,000,000 to support the global war on terrorism and classified activities, as requested by the White House. The conferees direct that all funds provided pursuant to section 109 be only for those activities cited in this joint statement and in the classified annex thereto.

The conferees agree to amend section 110, as proposed by the Senate, to provide authorization for fiscal year 2003 appropriations for intelligence activities pursuant to Section 504 of the National Security Act of 1947.

The conferees agree to include, with slight technical modifications, section 111 of Division M of the Senate passed bill regarding the Department of Defense's Total Information Awareness (TIA) program. In two instances the provision has been modified. First, the conferees agree to allow the Administration 90 days after the bill is enacted to submit a report to Congress on the TIA program, instead of 60 days as proposed by the Senate. Second, the provision has been modified to clarify that, subject to the other terms and conditions of this section, the TIA program may be deployed at op-

erating bases in the United States to assist in the conduct of lawful U.S. foreign intelligence activities against non-United States citizens only. The conferees agree with the clear intent of the Senate provision that, in no case, should the TIA program be used by the Department of Defense to conduct intelligence activities on United States citizens, or transferred to any other Federal agency for the same purpose.

The conferees agree to amend section 112, as proposed by the House, which provides the Secretary of Defense additional transfer authority of \$500,000,000, only for unforeseen fuel cost requirements resulting from revised pricing and the global war on terrorism. Additionally, this provision is further amended to require prior notification of the Committees on Appropriations before any funds made available to the Department of Defense are used for the drawdown authority provided in Section 202 of the Afghanistan Freedom Support Act (Public Law 107–327).

The conferees are supportive of the overall objectives of the Afghanistan Freedom Support Act (AFSA). Nonetheless the conferees are extremely troubled that, in its first use of this authority, the Administration chose to use the U.S. military services' operations accounts as its funding source for the initial increment of AFSA drawdown—diverting \$165,000,000 originally requested and subsequently appropriated for U.S. Army, Navy, and Air Force unit training and flying hours. As noted by the Deputy Secretary of Defense in a February 10, 2003 letter to the Defense Appropriations Subcommittees of the House and Senate, “DoD cannot absorb these costs without affecting readiness.”

To implement this provision, the conferees therefore direct that the Department of Defense provide not less than 15 days prior written notification to the Committees on Appropriations prior to exercising any use of the section 202 drawdown authority which would use DoD funds. This notification should be provided no later than other required AFSA drawdown notifications to the Committees on Appropriations (e.g., Presidential determinations, or notifications from the Department of State, or others, as required under the AFSA or other laws). Each such notification shall include the proposed source of DoD funds by appropriations account and activity, as well as a description of the impact these funding transfers will have on the DoD programs so affected.

DIVISION N

TITLE I

ELECTION REFORM

The conferees agree to provide \$1,500,000,000 for election reform. This includes funds to establish an Election Assistance Commission and to carry out programs authorized by the Help America Vote Act of 2002. The conferees agree to provide \$650,000,000 to the General Services Administration (GSA) to carry out a program of payments to the States for improving the administration of elections and replacing punch card and lever voting machines with new voting technology. The conferees also agree to provide \$15,000,000

to the Department of Health and Human Services for programs to ensure disabled voter access.

TITLE III—WILDLAND FIRE EMERGENCY

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

WILDLAND FIRE MANAGEMENT

The conference agreement includes \$189,000,000 for wildland fire management as proposed by the Senate instead of an emergency supplemental appropriation for fiscal year 2002 of \$200,000,000 as proposed by the House. These funds are to repay amounts transferred from other accounts to fight fires in fiscal year 2002.

RELATED AGENCY

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

WILDLAND FIRE MANAGEMENT

The conference agreement includes \$636,000,000 for wildland fire management as proposed by the Senate instead of an emergency supplemental appropriation for fiscal year 2002 of \$500,000,000 as proposed by the House. These funds are to repay amounts transferred from other accounts to fight fires in fiscal year 2002.

The conference agreement also earmarks amounts to be repaid to individual Forest Service appropriations accounts as proposed by the Senate. The House had no similar provision.

DIVISION N—TITLE IV—TANF AND MEDICARE

The conference agreement includes section 401, which extends the Temporary Assistance for Needy Families in the manner authorized for fiscal year 2002 through June 30, 2003, instead of September 30, 2003 as proposed by the Senate. The House bill contained no similar provision.

The conference agreement includes a new section, section 402, in lieu of sections 402 through 404 as proposed by the Senate, which (1) temporarily increases payments to rural and “other urban” hospitals through September 30 to the large urban standardized amount; and (2) provides legal protection for the Administration should they make corrections to data errors in the physician payment formula for past fiscal years. The House bill contained no similar provision.

The conference agreement includes section 403, originally proposed by the Senate as section 405 in the Senate amendment, which extends the Federal payment for Medicare Part B through Medicaid for qualifying individuals (those between 120 and 135 percent of poverty) through September 30, 2003. The House bill contained no similar provision.

DIVISION N—TITLE V—FISHERIES DISASTERS

Section 501.—The conference agreement includes section 501, included in the Senate, providing \$100,000,000 for various fishery disasters. The House did not include a similar provision.

TITLE VI

OFFSETS

The conference agreement includes a 0.65 percent across-the-board rescission to discretionary budgetary resources provided in divisions A through K of this Act, as well as to any previously enacted fiscal year 2003 advance appropriation. This rescission does not apply to the Head Start program, the Veterans' Medical Care program, the Women, Infants, and Children nutrition program, or the space shuttle program. Specific exemptions for these programs are also included in the respective sections of this joint resolution.

TITLE VII

BONNEVILLE POWER ADMINISTRATION BORROWING AUTHORITY

The conference agreement provides \$700,000,000 of new borrowing authority to the Bonneville Power Administration as proposed by the Senate. The conferees direct the Bonneville Power Administration to submit a detailed budget justification, by project, for its total capital improvement program to the House and Senate Committees on Appropriations not later than March 30, 2003, and to submit thereafter as part of the annual budget request, for approval by the House and Senate Committees on Appropriations.

DIVISION O

PRICE-ANDERSON ACT AMENDMENTS

The conference agreement modifies bill language as proposed by the Senate to extend portions of the Price-Anderson Act through December 31, 2003.

DIVISION P—U.S.-CHINA ECONOMIC AND SECURITY
REVIEW COMMISSION

The conferees have included, under Division P, language and funding regarding the U.S.-China Economic and Security Review Commission.
