25 *needs.*

1 (3) *Critical high-cost transportation infrastruc-*
2 *ture facilities often include multiple levels of govern-*
3 *ment, agencies, modes of transportation, and trans-*
4 *portation goals and planning processes that are not*
5 *easily addressed or funded within existing surface*
6 *transportation program categories.*

7 (4) *Projects of national and regional significance*
8 *have national and regional benefits, including im-*
9 *proving economic productivity by facilitating inter-*
10 *national trade, relieving congestion, and improving*
11 *transportation safety by facilitating passenger and*
12 *freight movement.*

13 (5) *The benefits of such projects described in*
14 *paragraph (4) accrue to local areas, States, and the*

16 *the national transportation system.*

17 (6) *A program dedicated to constructing projects*
18 *of national and regional significance is necessary to*
19 *improve the safe, secure, and efficient movement of*

4 fits, including creating jobs, expanding
5 business opportunities, and impacting the
6 gross domestic product;

7 (ii) to reduce congestion, including im-
8 pacts in the State, region, and Nation;

9 (iii) to improve transportation safety,
10 including reducing transportation acci-

23 *that the Secretary determines to be reason-*
24 *able to cover unanticipated cost increases;*
25 *and*

1 (ii) each proposed non-Federal source
2 of capital and operating financing is stable,
3 reliable, and available within the proposed
4 project timetable.

5 (B) *CONSIDERATIONS.*—In assessing the

19 the cost of the project.

20 (6) *REGULATIONS.*—Not later than 120 days
21 after the date of enactment of this Act, the Secretary
22 shall issue regulations on the manner in which the

24 “(C) supported by an acceptable degree of

2 transportation supportive existing land use
3 policies and future patterns and the cost of
4 suburban sprawl;

23 **SEC. 5103. FINDINGS.**

24 *Congress finds the following:*

1 (1) *Research and development are critical to de-*
2 *veloping and maintaining a transportation system*
3 *that meets the goals of safety, mobility, economic vi-*
4 *talidity, efficiency, equity, and environmental protec-*
5 *tion.*

6 (2) *Federally sponsored surface transportation*
7 *research and development has produced many suc-*
8 *cesses. The development of rumble strips has increased*
9 *safety; research on materials has increased the life-*
10 *span of pavements, saving money and reducing the*
11 *disruption caused by construction; and Geographic*
12 *Information Systems have improved the management*
13 *and efficiency of transit fleets.*

14 (3) *Despite these important successes, the Federal*
15 *surface transportation research and development in-*
16 *vestment represents less than one percent of overall*
17 *government spending on surface transportation.*

18 (4) *While Congress increased funding for overall*
19 *transportation programs by about 40 percent in the*
20 *Transportation Equity Act for the 21st Century,*
21 *funding for transportation research and development*
22 *remained relatively flat.*

23 (5) *The Federal investment in research and de-*
24 *velopment should be balanced between short-term ap-*
25 *plied and long-term fundamental research and devel-*

8 and approximately 1,200,000 movements of hazardous
9 materials occur each day, according to Department of
10 Transportation estimates;

11 (2) the movement of hazardous materials in com-
12 merce is necessary to maintain economic vitality and
13 meet consumer demands and must be conducted in a
14 safe and efficient manner;

16 to, hazardous materials in transportation may result
17 in a release of such materials and pose a serious
18 threat to public health and safety;

20 and regulations that vary from Federal laws and reg-
21 ulations pertaining to the transportation of hazardous
22 materials, thereby creating the potential for unreason-
23 able hazards in other jurisdictions and confounding
24 shippers and carriers that attempt to comply with
25 multiple regulatory requirements;

1 (5) because of the potential risks to life, property,
2 and the environment posed by unintentional releases
3 of hazardous materials, consistency in laws and regu-
4 lations governing the transportation of hazardous ma-
5 terials is necessary and desirable;

6 (6) in order to achieve greater uniformity and to
7 promote the public health, welfare, and safety at all
8 levels, Federal standards for regulating the transpor-
9 tation of hazardous materials in intrastate, interstate,
10 and foreign commerce are necessary and desirable;
11 and

12 (7) in order to provide reasonable, adequate, and
13 cost-effective protection from the risks posed by the
14 transportation of hazardous materials, a network of
15 well-trained State and local emergency response per-
16 sonnel and hazmat employees is essential.

17 (b) *PURPOSE.*—The text of section 5101 is amended
18 to read as follows: “The purpose of this chapter is to protect
19 against the risks to life, property, and the environment that
20 are inherent in the transportation of hazardous material
