24 that of the United States, taking into account dif-  
25 ferent conditions.

1       “(b) CONSULTATION AND NEGOTIATION.—The Sec-  
2   retary, acting through the Secretary of State, shall—

3               “(1) notify, as soon as possible, other nations

6       this section and this Act;

7               “(2) initiate discussions as soon as possible  
8       with all foreign governments which are engaged in,  
9       or which have persons or companies engaged in,

10           “(A) has provided documentary evidence of  
11       the adoption of a regulatory program governing  
12       the conservation of the protected living marine  
13       resource that is comparable to that of the  
14       United States, taking into account different  
15       conditions, and which, in the case of pelagic  
16       longline fishing, includes mandatory use of cir-  
17       cle hooks, careful handling and release equip-  
18       ment, and training and observer programs; and

19           “(B) has established a management plan  
20       containing requirements that will assist in gath-  
21       ering species-specific data to support inter-  
22       national stock assessments and conservation en-  
23       forcement efforts for protected living marine re-  
24       sources.

1           “(2) ALTERNATIVE PROCEDURE.—The Sec-  
2       retary shall establish a procedure for certification,  
3       on a shipment-by-shipment, shipper-by-shipper, or  
4       other basis of fish or fish products from a vessel of  
5       a harvesting nation not certified under paragraph  
6       (1) if the Secretary determines that such imports  
7       were harvested by practices that do not result in by-  
8       catch of a protected marine species, or were har-  
9       vested by practices that—

10           “(A) are comparable to those of the United  
11       States, taking into account different conditions,  
12       and which, in the case of pelagic longline fish-  
13       ing, includes mandatory use of circle hooks,  
14       careful handling and release equipment, and  
15       training and observer programs; and

16           “(B) include the gathering of species spe-  
17       cific data that can be used to support inter-

19       conservation efforts for protected living marine  
20       resources.

21           “(3) EFFECT OF CERTIFICATION.—The provi-  
22       sions of section 101(a) and section 101(b)(3) and

25       apply to sport fishing equipment or fish or fish prod-

1       ucts not caught by the vessels engaged in illegal, un-  
2       reported, or unregulated fishing) shall apply to any
