(a) DEFINITION OF AVERAGE MANUFACTURER
PRICE.—

(1) IN GENERAL.—Section 1927(k)(1) (42

“(I) sales exempt from inclusion in the determination of best price under subsection (c)(1)(C)(i);

“(II) such other sales as the Secretary identifies as sales to an entity that are merely nominal in amount under subsection (c)(1)(C)(ii)(III);

and

“(III) bona fide service fees (as defined in subparagraph (E)) that are paid by a manufacturer to an entity, that represent fair market value for a bona fide service, and that are not passed on in whole or in part to a client or customer of an entity.

“(ii) **SALE PRICE NET OF DISCOUNTS.**—By including the following:

“(I) Cash discounts and volume discounts.
“(II) Free goods that are contingent upon any purchase requirement or agreement.

“(V) Any other price concessions, which may be based on recommendations of the Inspector General of the Department of Health and Human Services, that would result in a reduction of the cost to the purchaser, but only if the Secretary provides notice of the Secretary’s intent to include such price concessions in accordance with section 553 of title 5, United States Code.

“(C) Weighted Average Manufacturer Price.—The term ‘weighted average manufacturer price’ means, with respect to a
rebate period and multiple source drug, the volume-weighted average of the average manufacturer prices reported under subsection (b)(3)(A)(i)(I) for all drug products described in paragraph (7)(A)(i) that are therapeutically equivalent and bioequivalent forms of the drug, determined by—

“(i) computing the sum of the products (for each National Drug Code assigned to such drug products) of—

“(I) the average manufacturer price; and

“(II) the total number of units reported sold under subsection (b)(3)(A)(i)(I); and

“(ii) dividing the sum determined under clause (i) by the sum of the total number of units under clause (i)(II) for all National Drug Codes assigned to such drug products.

“(D) LIMITATION ON SALES AT A NOMINAL PRICE.—

“(i) IN GENERAL.—For purposes of clauses (i)(II) and (ii)(III) of subparagraph (B), only sales by a manufacturer of

“(II) An intermediate care facility for the mentally retarded.

“(III) A State-owned or operated nursing facility.

“(cc) The patient population served by the facility.
“(dd) The number of other facilities eligible to purchase at nominal prices in the same service area.

“(ii) NONAPPLICATION.—Clause (i) shall not apply with respect to sales by a manufacturer at a nominal price of covered outpatient drugs that are single source drugs, innovator multiple source drugs, or authorized generic drugs pursuant to a master agreement under section 8126 of title 38, United States Code.

“(E) BONA FIDE SERVICE FEES.—For purposes of subparagraph (B)(i)(III), the term ‘bona fide service fees’ means expenses that are for an itemized service actually performed by an entity on behalf of a manufacturer that would have generally been paid for by the manufacturer at the same rate had these services been performed by another entity.”.

(2) CONFORMING AMENDMENTS.—Section 1927(b)(3)(A)(i) (42 U.S.C. 1396r–8(b)(3)(A)(i)), as amended by section 6003(a), is amended—

(B) EXCEPTION.—Subparagraph (D) of section 1927(k)(1) of the Social Security Act (42 U.S.C. 1396r–8(k)(1)) (as added by paragraph (1)) shall not apply with respect to a contract in effect on the date of enactment of this
Act pursuant to which pharmaceutical products are or may be available at nominal prices until the expiration date of such contract, or October 1, 2006, whichever is earlier, and shall apply to sales made, and rebate periods beginning, on or after that date.

(4) EXCLUSION OF DISCOUNTS PROVIDED TO MAIL ORDER AND NURSING FACILITY PHARMACIES FROM THE DETERMINATION OF AVERAGE MANUFACTURER PRICE.—

(ii) in clause (xii), by striking the period at the end and inserting “; and”;

(iii) by adding at the end the following:

“(xiii) such contract provides that payment for covered outpatient drugs dispensed to individuals eligible for medical assistance who are enrolled with the entity shall be subject to the same rebate agreement entered into under section 1927 as the State is subject to and that the State shall have the option of collecting rebates for the dispensing of such drugs by the entity directly from manufacturers or allowing the entity to collect such rebates from manufacturers in exchange for a reduction in the prepaid payments made to the entity for the enrollment of such individuals.”.

(B) CONFORMING AMENDMENT.—Section 1927(j)(1) (42 U.S.C. 1396r–8(j)(91)) is
amended by inserting “other than for purposes
of collection of rebates for the dispensing of

a contract under section 1903(m) that meets
the requirements of paragraph (2)(A)(xiii) of

(C) EFFECTIVE DATE.—The amendments
made by this paragraph take effect on the date
of enactment of this Act and apply to rebate
agreements entered into or renewed under sec-
tion 1927 of the Social Security Act (42 U.S.C.
1396r–8) on or after such date.

(b) UPPER PAYMENT LIMIT FOR INGREDIENT COST
OF COVERED OUTPATIENT DRUGS.—

(1) IN GENERAL.—Section 1927(e) (42 U.S.C.
1396r–8(e)) is amended to read as follows:
“(e) PHARMACY REIMBURSEMENT LIMITS.—

“(1) UPPER PAYMENT LIMIT FOR INGREDIENT
COST OF COVERED OUTPATIENT DRUGS.—No Fed-
eral financial participation shall be available for pay-
ment for the ingredient cost of a covered outpatient
drug that exceeds the upper payment limit for that
drug established under paragraph (2).”

“(2) UPPER PAYMENT LIMIT.—
“(A) IN GENERAL.—Except as provided in
subparagraphs (B) and (C), the upper payment
limit established under this paragraph for the
ingredient cost of a—

“(i) single source drug, is 105 percent
of the average manufacturer price for that
drug; and

“(ii) multiple source drug, is 115 per-
cent of the weighted average manufacturer
price for that drug.

“(B) EXCEPTION FOR INITIAL SALES PERI-
ODS.—

“(i) IN GENERAL.—In the case of a
covered outpatient drug during an initial
sales period (not to exceed 2 calendar
quarters) in which data on sales for the
drug is not sufficiently available from the
manufacturer to compute the average man-
ufacturer price or the weighted average
manufacturer price, the Secretary shall es-
establish the upper payment limit for the in-
gredient cost of such drug to apply only
during such period based on the following:

“(I) In the case of a single
source drug, such upper payment
limit shall be the wholesale acquisition
cost for the drug.

“(II) In the case of a first non-
innovator multiple source drug, such
upper payment limit shall be the aver-
age manufacturer price for the single
source drug that is rated as therapeu-
tically equivalent and bioequivalent
to such drug, minus 10 percent.

“(III) In the case of a subse-
quent noninnovator multiple source
drug—

“(aa) if the Secretary has
sufficient data to determine the
weighted average manufacturer
price for the drug, such upper
payment limit shall be the
weighted average manufacturer
price determined for the thera-
peutically equivalent and bio-
equivalent form of the drug; and

“(bb) if the Secretary does
not have sufficient data to deter-
mine the weighted average manu-
facturer price for the drug, such
upper payment limit shall be the average manufacturer price for the single source drug that is rated as therapeutically equivalent and bioequivalent to the drug, minus 10 percent.

“(ii) Definition of wholesale acquisition cost.—For purposes of clause (i), the term ‘wholesale acquisition cost’ means, with respect to a drug or biological, the manufacturer’s list price for the drug or biological to wholesalers or direct purchasers in the United States, not including prompt pay or other discounts, rebates, or reductions in price, for the most recent month for which the information is available, as reported in wholesale price guides or other publications of drug or biological pricing data.

“(C) Exception for certain innovator multiple source drugs.—In the case of an innovator multiple source drug that a prescribing health care provider determines is necessary for treatment of a condition and that a noninnovator multiple source drug would not be
as effective for the individual or would have ad-
verse effects for the individual or both, and for
which the provider obtains prior authorization
in accordance with a program described in sub-
section (d)(5), the upper payment limit for the
innovator multiple source drug shall be 105
percent of the average manufacturer price for
such drug.

“(D) Updates; availability of data.—

“(i) Frequency of determination.—The Secretary shall update the
upper payment limits applicable under this
paragraph on a quarterly basis, taking into
account the most recent data collected for
purposes of determining such limits and
the Food and Drug Administration’s most
recent publication of ‘Approved Drug
Products with Therapeutic Equivalence
Evaluations’.

“(ii) Collection of data.—

“(I) In general.—Beginning on
January 1, 2006, the Secretary shall
collect data with respect to the aver-
age manufacturer prices and volume
of sales of covered outpatient drugs
(or, in the case of covered outpatient drugs that are first marketed after such date, beginning with the first quarter during which the drugs are first marketed).

“(II) DATA REPORTED FOR PURPOSES OF DETERMINING WEIGHTED AVERAGE MANUFACTURER PRICE.—Insofar as there is a lag in the reporting of the information on rebates and chargebacks so that adequate data are not available on a timely basis to update the weighted average manufacturer price for a multiple source drug, the manufacturer of such drug shall apply a methodology based on a 12-month rolling average for the manufacturer to estimate costs attributable to rebates and chargebacks for such drug. For years after 2006, the Secretary shall establish a uniform methodology to estimate and apply such costs.

“(iii) AVAILABILITY OF DATA TO STATES.—Notwithstanding subsection
(b)(3)(D), beginning with the first quarter of fiscal year 2006 for which data is available, and for each fiscal year quarter thereafter, the Secretary shall make available to States the most recently reported average manufacturer prices for single source drugs and weighted average manufacturer prices for multiple source drugs.

“(E) Authority to enter contracts.—The Secretary may enter into contracts with appropriate entities to determine average manufacturer prices, volume, and other data necessary to calculate the upper payment limit for a covered outpatient drug established under this subsection and to calculate that payment limit.

“(3) State use of price data.—

“(A) Distribution of data.—The Secretary shall devise and implement a means for electronic distribution of the most recently calculated weighted average manufacturer price and the average manufacturer price for all covered outpatient drugs to each State agency designated under section 1902(a)(5) with responsibility for the administration or supervision of
the administration of the State plan under this title.

“(B) Authority to establish payment rates based on data.—A State may use the price data received in accordance with subparagraph (A) in establishing payment rates for the ingredient costs and dispensing fees for covered outpatient drugs dispensed to individuals eligible for medical assistance under this title.

“(4) Reasonable dispensing fees required.—

“(A) In general.—A State which provides medical assistance for covered outpatient drugs shall pay a dispensing fee for each covered outpatient drug for which Federal financial participation is available in accordance with this section in accordance with the following:

“(i) The dispensing fee for a noninnovator multiple source drug shall be greater than the dispensing fee for an innovator multiple source drug that is rated as therapeutically equivalent and bioequivalent to such drug.

“(ii) In establishing such dispensing fees, the State takes into consideration
such requirements as the Secretary shall, by regulation, establish, and which shall include consideration of the following:

“(I) Any reasonable costs associated with a pharmacist’s time in checking for information about an individual’s coverage or performing quality assurance activities.

“(II) Costs associated with—

“(aa) the measurement or mixing of a covered outpatient drug;

“(bb) filling the container for the drug;

“(cc) physically providing the completed prescription to an individual enrolled in the program under this title;

“(dd) delivery;

“(ee) special packaging;

“(ff) overhead related to maintaining the facility and equipment necessary to operate the pharmacy, including the sala-
ries of pharmacists and other pharmacy workers;

“(gg) geographic factors that impact operational costs;

“(hh) patient counseling; and

“(ii) the dispensing of drugs requiring specialty pharmacy care management services (as determined by the Secretary in accordance with subparagraph (B)).

“(B) Determination of Drugs Requiring Specialty Pharmacy Care Management Services.—

“(i) In general.—Not later than 15 months after the date of enactment of the Deficit Reduction Omnibus Reconciliation Act of 2005, the Secretary shall establish a list of covered outpatient drugs which require specialty pharmacy care management services that includes only those drugs for which the Secretary determines that access by individuals eligible for medical assistance under this title would be seriously im-
paired without the provision of specialty pharmacy care management services.

“(ii) Specialty pharmacy care management services defined.—For purposes of this paragraph, the term ‘specialty pharmacy care management services’ means services provided in connection with the dispensing or administration of a covered outpatient drug which the Secretary determines requires—

“(I) significant caregiver and provider contact and education regarding the relevant disease state, prevention, treatment, drug indications, benefits, risks, complications, use, pharmacy counseling, and explanation of existing provider guidelines;

“(II) patient compliance services, including coordination of provider visits with drug delivery, compliance with a drug dosing regimen, mailing or telephone call reminders, compiling compliance data, and assisting providers in developing compliance programs; or
“(III) tracking services, including developing referral processes with providers, screening referrals, and tracking patient weight for dosing requirements.

“(iii) QUARTERLY UPDATES.—The Secretary shall update the list of covered outpatient drugs requiring specialty pharmacy management services on a quarterly basis.

“(5) RULES APPLICABLE TO CRITICAL ACCESS RETAIL PHARMACIES.—

“(A) REIMBURSEMENT LIMITS.—Notwithstanding paragraph (2)(A), in the case of a critical access retail pharmacy (as defined in subparagraph (C)), the upper payment limit—

“(i) for the ingredient cost of a single source drug, is the lesser of—

“(I) 108 percent of the average manufacturer price for the drug; or

“(II) the wholesale acquisition cost for the drug; and

“(ii) for the ingredient cost of a multiple source drug, is the lesser of—
“(II) 140 percent of the weighted average manufacturer price for the drug; or

“(II) the wholesale acquisition cost for the drug.

“(B) Application of other provisions.—The preceding provisions of this subsection shall apply with respect to reimbursement to a critical access retail pharmacy in the same manner as such provisions apply to reimbursement to other retail pharmacies except that, in establishing the dispensing fee for a critical access pharmacy the Secretary, in addition to the factors required under paragraph (4), shall include consideration of the costs associated with operating a critical access retail pharmacy.

“(C) Critical access retail pharmacy defined.—For purposes of subparagraph (A), the term ‘critical access retail pharmacy’ means an retail pharmacy that is not within a 20-mile radius of another retail pharmacy.”.

(2) Increase in basic rebate for single source drugs and innovator multiple source drugs.—Section 1927(c)(1)(B)(i)(VI) (42 U.S.C.

SEC. 6039A. SENSE OF THE SENATE.

(a) FINDINGS.—The Senate makes the following findings:

(1) On October 26, 2005, the Committee on Ways and Means of the United States House of Representatives approved a budget reconciliation package that would significantly reduce the Federal Government’s funding used to pay for the child support program established under part D of title IV of the Social Security Act (42 U.S.C. 651 et seq.) and would restrict the ability of States to use Federal child support incentive payments for child support program expenditures that are eligible for Federal matching payments.

(2) The child support program enforces the responsibility of non-custodial parents to support their children. The program is jointly funded by Federal, State and local governments.

(3) The Office of Management and Budget gave the child support program a 90 percent rating under the Program Assessment Rating Tool (PART), making it the highest performing social services program.

(4) The President’s 2006 budget cites the child support program as “one of the highest rated block/formula grants of all reviewed programs govern-
ment-wide. This high rating is due to its strong mission, effective management, and demonstration of measurable progress toward meeting annual and long term performance measures.”

5  (5) In 2004, the child support program spent $5,300,000,000 to collect $21,900,000,000 in support payments. Public investment in the child support program provides more than a four-fold return, collecting $4.38 in child support for every Federal and State dollar that the program spends.

6  (6) In 2004, 17,300,000 children, or 60 percent of all children living apart from a parent, received child support services through the program. The percentage is higher for poor children—84 percent of poor children living apart from their parent receive child support services through the program. Families assisted by the child support program generally have low or moderate incomes.

7  (7) Children who receive child support from their parents do better in school than those that do not receive support payments. Older children with child support payments are more likely to finish high school and attend college.

8  (8) The child support program directly decreases the costs of other public assistance programs
by increasing family self-sufficiency. The more effective the child support program in a State, the higher the savings in public assistance costs.

(9) Child support helps lift more than 1,000,000 Americans out of poverty each year.

(10) Families that are former recipients of assistance under the temporary assistance for needy families program (TANF) have seen the greatest increase in child support payments. Collections for these families increased 94 percent between 1999 and 2004, even though the number of former TANF families did not increase during this period.

(11) Families that receive child support are more likely to find and hold jobs, and less likely to be poor than comparable families without child support.

(12) The child support program saved costs in the TANF, Medicaid, Food Stamps, Supplemental Security Income, and subsidized housing programs.

(13) The Congressional Budget Office estimates that the funding cuts proposed by the Committee on Ways and Means of the House of Representatives would reduce child support collections by nearly $7,900,000,000 in the next 5 years and $24,100,000,000 in the next 10 years.
(14) That National Governor’s Association has stated that such cuts are unduly burdensome and will force States to reevaluate several services that make the child support program so effective.

(15) The Federal Government has a moral responsibility to ensure that parents who do not live with their children meet their financial support obligations for those children.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the Senate will not accept any reduction in funding for the child support program established under part D of title IV of the Social Security Act (42 U.S.C. 651 et seq.), or any restrictions on the ability of States to use Federal child support incentive payments for child support program expenditures that are eligible for Federal matching payments, during this Congress.

(1) in subsection (a), by striking “subsection (g)” and inserting “subsections (g) and (h)”; and

(1) the current or expected performance and service quality of intercity passenger train operations, including cost recovery, on-time performance
and minutes of delay, ridership, on-board services, stations, facilities, equipment, and other services;

(2) connectivity of a route with other routes;

(3) the transportation needs of communities and populations that are not well served by other forms of public transportation;

(4) Amtrak's and other major intercity passenger rail service providers in other countries' methodologies for determining intercity passenger rail routes and services; and

(5) the views of the States and other interested parties.

(b) SUBMITTAL TO CONGRESS.—The auditor or consultant shall submit recommendations developed under subsection (a) to Amtrak, the House of Representatives Committee on Transportation and Infrastructure, and the Senate Committee on Commerce, Science, and Transportation.

(e) Pioneer Route.—Within 2 years after the date of enactment of this Act, Amtrak shall conduct a 1-time evaluation of the Pioneer Route formerly operated by Amtrak to determine, using methodologies adopted under subsection (c), whether a level of passenger demand exists that would warrant consideration of reinstating the entire Pioneer Route service or segments of that service.

SEC. 208. METRICS AND STANDARDS.

(a) In General.—Within 180 days after the date of enactment of this Act, the Administrator of the Federal Railroad Administration and Amtrak shall jointly, in consultation with the Surface Transportation Board, rail carriers over whose rail lines Amtrak trains operate, States, Amtrak employees, and groups representing Amtrak passengers, as appropriate, develop new or improve existing metrics and minimum standards for measuring the per-
formance and service quality of intercity passenger train operations, including cost recovery, on-time performance and minutes of delay, ridership, on-board services, stations, facilities, equipment, and other services. Such metrics, at a minimum, shall include the percentage of avoidable and fully allocated operating costs covered by passenger revenues on each route, ridership per train mile operated, measures of on-time performance and delays incurred by intercity passenger trains on the rail lines of each rail carrier and, for long distance routes, measures of connectivity with other routes in all regions currently receiving Amtrak service and the transportation needs of communities and populations that are not well-served by other forms of public transportation. Amtrak shall provide reasonable access to the Federal Railroad Administration in order to enable the Administration to carry out its duty under this section.

(b) QUARTERLY REPORTS.—The Administrator of the Federal Railroad Administration shall collect the necessary data and publish a quarterly report on the performance and service quality of intercity passenger train operations, including cost recovery, ridership, on-time performance and minutes of delay, causes of delay, on-board services, stations, facilities, equipment, and other services.

“(f) Passenger Train Performance and Other Standards.—

“(1) Investigation of Substandard Performance.—If the on-time performance of any intercity passenger train averages less than 80 percent for any 2 consecutive calendar quarters, or the service quality of intercity passenger train operations for which minimum standards are established under section 208 of the Passenger Rail Investment and Improvement Act of 2005 fails to meet those standards for 2 consecutive calendar quarters, the Surface...
Transportation Board shall investigate whether, and to what extent, delays or failure to achieve minimum standards are due to causes that could reasonably be addressed by a rail carrier over the tracks of which the intercity passenger train operates or reasonably addressed by the intercity passenger rail operator. In carrying out such an investigation, the Board shall obtain information from all parties involved and make recommendations regarding reasonable measures to improve the service, quality, and on-time performance of the train.

“(2) Problems caused by host rail carrier.—If the Board determines that delays or failures to achieve minimum standards investigated under paragraph (1) are attributable to a rail carrier’s failure to provide preference to Amtrak over freight transportation under subsection (c), then the Board shall enforce its recommendations for relief under this section.

“(3) Penalties.—

“(A) In general.—The Board shall publish a schedule of penalties which will—

“(A) fairly reflect the extent to which Amtrak suffers financial loss as a result of host
rail carrier delays or failure to achieve minimum standards; and

“(B) will adequately deter future actions which may reasonably be expected to be likely to result in delays to Amtrak.

“(B) ASSESSMENT.—The Board may assess these penalties upon a host rail carrier.

“(C) USE.—The Board shall make any amounts received as penalties under this paragraph available to Amtrak or a State contracting with Amtrak, as applicable, for capital or operating expenditures on such routes.”.

“(2) An applicant shall provide sufficient infor-
mation upon which the Secretary can make the find-
ings required by this subsection.

“(3) If an applicant has not selected the pro-
posed operator of its service competitively, the appli-
cant shall provide written justification to the Secretary showing why the proposed operator is the best, taking into account price and other factors, and that use of the proposed operator will not unnecessarily increase the cost of the project.

“(c) PROJECT SELECTION CRITERIA.—The Secretary, in selecting the recipients of financial assistance to be provided under subsection (a), shall—

“(1) require that each proposed project meet all safety and security requirements that are applicable to the project under law;

“(2) give preference to projects with high levels of estimated ridership, increased on-time performance, reduced trip time, additional service frequency to meet anticipated or existing demand, or other significant service enhancements as measured against minimum standards developed under section 208 of the Passenger Rail Investment and Improvement Act of 2005;

“(3) encourage intermodal connectivity through projects that provide direct connections between train stations, airports, bus terminals, subway stations, ferry ports, and other modes of transportation;
“(4) ensure that each project is compatible with, and is operated in conformance with—

“(A) plans developed pursuant to the requirements of section 135 of title 23, United States Code; and

“(B) the national rail plan (if it is available); and

“(5) favor the following kinds of projects:

“(A) Projects that are expected to have a significant favorable impact on air or highway traffic congestion, capacity, or safety.

“(B) Projects that also improve freight or commuter rail operations.

“(C) Projects that have significant environmental benefits.

“(D) Projects that are—

“(i) at a stage of preparation that all pre-commencement compliance with environmental protection requirements has already been completed; and

“(ii) ready to be commenced.

“(E) Projects with positive economic and employment impacts.

“(F) Projects that encourage the use of positive train control technologies.
“(G) Projects that have commitments of
funding from non-Federal Government sources
in a total amount that exceeds the minimum
amount of the non-Federal contribution re-
quired for the project.

“(H) Projects that involve donated prop-
erty interests or services.

“(I) Projects that are identified by the
Surface Transportation Board as necessary to
improve the on time performance and reliability
of intercity passenger rail under section
24308(f).

“(d) AMTRAK ELIGIBILITY.—To receive a grant
under this section, the National Railroad Passenger Cor-
poration may enter into a cooperative agreement with 1
or more States to carry out 1 or more projects on a State
rail plan’s ranked list of rail capital projects developed
under section 22504(a)(5) of this title.

“(e) LETTERS OF INTENT, FULL FUNDING GRANT
AGREEMENTS, AND EARLY SYSTEMS WORK AGREE-
MENTS.—

“(1)(A) The Secretary may issue a letter of in-
tent to an applicant announcing an intention to obli-
gate, for a major capital project under this section,
an amount from future available budget authority
specified in law that is not more than the amount stipulated as the financial participation of the Secretary in the project.

“(B) At least 30 days before issuing a letter under subparagraph (A) of this paragraph or entering into a full funding grant agreement, the Secretary shall notify in writing the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate and the House and Senate Committees on Appropriations of the proposed letter or agreement. The Secretary shall include with the notification a copy of the proposed letter or agreement as well as the evaluations and ratings for the project.

“(C) An obligation or administrative commitment may be made only when amounts are appropriated.

“(2)(A) The Secretary may make a full funding grant agreement with an applicant. The agreement shall—

“(i) establish the terms of participation by the United States Government in a project under this section;
“(ii) establish the maximum amount of Government financial assistance for the project;

“(iii) cover the period of time for completing the project, including a period extending beyond the period of an authorization; and

“(iv) make timely and efficient management of the project easier according to the law of the United States.

“(B) An agreement under this paragraph obligates an amount of available budget authority specified in law and may include a commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law. The agreement shall state that the contingent commitment is not an obligation of the Government and is subject to the availability of appropriations made by Federal law and to Federal laws in force on or enacted after the date of the contingent commitment. Interest and other financing costs of efficiently carrying out a part of the project within a reasonable
time are a cost of carrying out the project under a full funding grant agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

“(3)(A) The Secretary may make an early systems work agreement with an applicant if a record of decision under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) has been issued on the project and the Secretary finds there is reason to believe—

“(i) a full funding grant agreement for the project will be made; and

“(ii) the terms of the work agreement will promote ultimate completion of the project more rapidly and at less cost.

“(B) A work agreement under this paragraph obligates an amount of available budget authority specified in law and shall provide for reimbursement of preliminary costs of carrying out the project, including land acquisition, time-
ly procurement of system elements for which specifications are decided, and other activities the Secretary decides are appropriate to make efficient, long-term project management easier.

A work agreement shall cover the period of time the Secretary considers appropriate. The period may extend beyond the period of current authorization. Interest and other financing costs of efficiently carrying out the work agreement within a reasonable time are a cost of carrying out the agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms. If an applicant does not carry out the project for reasons within the control of the applicant, the applicant shall repay all Government payments made under the work agreement plus reasonable interest and penalty charges the Secretary establishes in the agreement.
“(4) The total estimated amount of future obligations of the Government and contingent commitments to incur obligations covered by all outstanding letters of intent, full funding grant agreements, and early systems work agreements may be not more than the amount authorized under section 101(c) of Passenger Rail Investment and Improvement Act of 2005, less an amount the Secretary reasonably estimates is necessary for grants under this section not covered by a letter. The total amount covered by new letters and contingent commitments included in full funding grant agreements and early systems work agreements may be not more than a limitation specified in law.

“(f) FEDERAL SHARE OF NET PROJECT COST.—

“(1)(A) Based on engineering studies, studies of economic feasibility, and information on the expected use of equipment or facilities, the Secretary shall estimate the net project cost.

“(B) A grant for the project shall not exceed 80 percent of the project net capital cost.

“(C) The Secretary shall give priority in allocating future obligations and contingent commitments to incur obligations to grant re-
quests seeking a lower Federal share of the project net capital cost.

“(2) Up to an additional 20 percent of the required non-Federal funds may be funded from amounts appropriated to or made available to a department or agency of the Federal Government that are eligible to be expended for transportation.

“(3) 50 percent of the average amounts expended by a State or group of States (including the District of Columbia) for capital projects to benefit intercity passenger rail service in fiscal years 2003, 2004, and 2005 shall be credited towards the matching requirements for grants awarded under this section. The Secretary may require such information as necessary to verify such expenditures.

“(4) 50 percent of the average amounts expended by a State or group of States (including the District of Columbia) in a fiscal year beginning in 2006 for capital projects to benefit intercity passenger rail service or for the operating costs of such service above the average of expenditures made for such service in fiscal years 2003, 2004, and 2005 shall be credited towards the matching requirements for grants awarded under this section. The Secretary
may require such information as necessary to verify such expenditures.

“(g) Undertaking Projects in Advance.—

“(1) The Secretary may pay the Federal share of the net capital project cost to an applicant that carries out any part of a project described in this section according to all applicable procedures and requirements if—

“(A) the applicant applies for the payment;

“(B) the Secretary approves the payment;

and

“(C) before carrying out the part of the project, the Secretary approves the plans and specifications for the part in the same way as other projects under this section.

“(2) The cost of carrying out part of a project includes the amount of interest earned and payable on bonds issued by the applicant to the extent proceeds of the bonds are expended in carrying out the part. However, the amount of interest under this paragraph may not be more than the most favorable interest terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a manner satisfactory to the Secretary, that the ap-
applicant has shown reasonable diligence in seeking the
most favorable financial terms.

“(3) The Secretary shall consider changes in
capital project cost indices when determining the es-
timated cost under paragraph (2) of this subsection.

“(h) 2-Year Availability.—Funds appropriated
under this section shall remain available until expended.
If any amount provided as a grant under this section is
not obligated or expended for the purposes described in
subsection (a) within 2 years after the date on which the
State received the grant, such sums shall be returned to
the Secretary for other intercity passenger rail develop-
ment projects under this section at the discretion of the
Secretary.

“(i) Public-Private Partnerships.—

“(j) Special Transportation Circumstances.—In carrying out this section, the Secretary shall allocate an appropriate portion of the amounts available under this section to provide grants to States—

“(1) in which there is no intercity passenger rail service for the purpose of funding freight rail capital projects that are on a State rail plan developed under chapter 225 of this title that provide public benefits (as defined in chapter 225) as determined by the Secretary; or

“(2) in which the rail transportation system is not physically connected to rail systems in the conti-
ternal United States or may not otherwise qualify for a grant under this section due to the unique characteristics of the geography of that State or other relevant considerations, for the purpose of funding transportation-related capital projects.

“(k) SMALL CAPITAL PROJECTS.—The Secretary shall make available $10,000,000 annually from the amounts authorized under section 101(c) of the Passenger Rail Investment and Improvement Act of 2005 beginning in fiscal year 2007 for grants for capital projects eligible under this section not exceeding $2,000,000, including costs eligible under section 206(c) of that Act. The Secretary may waive requirements of this section, including state rail plan requirements, as appropriate.
