RESOLUTION

Designating the week of October 23, 2005, through October 29, 2005, as “National Childhood Lead Poisoning Prevention Week”.

Whereas lead poisoning is a leading environmental health hazard to children in the United States;

Whereas according to the Centers for Disease Control and Prevention, 310,000 preschool children in the United States have harmful levels of lead in their blood;

Whereas lead poisoning may cause serious, long-term harm to children, including reduced intelligence and attention span, behavior problems, learning disabilities, and impaired growth;

Whereas children from low-income families are significantly more likely to be poisoned by lead than are children from high-income families;

Whereas children may be poisoned by lead in water, soil, or consumable products;

Whereas children most often are poisoned in their homes through exposure to lead particles when lead-based paint deteriorates or is disturbed during home renovation and repainting; and

Whereas lead poisoning crosses all barriers of race, income, and geography: Now, therefore, be it
