

# Congressional Record

Proceedings and debates of the  $109^{th}$  congress, first session United States of America

Vol. 151

WASHINGTON, THURSDAY, FEBRUARY 10, 2005

No. 14

# House of Representatives

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. Fossella).

#### DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

> WASHINGTON, DC, February 10, 2005.

I hereby appoint the Honorable VITO FOSSELLA to act as Speaker pro tempore on

J. DENNIS HASTERT, Speaker of the House of Representatives.

#### PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer: Lord, guide the minds and hearts of the Members of the House of Representatives today as they sort out and prioritize the massive work before the 109th Congress. Strengthen their determination as they commit themselves to the difficult task of meetings and committee work. May mutual respect and civility prevail in all their discus-

In every issue to be addressed or any problem to be resolved, let Members turn to You in prayer so to draw from Your holy inspiration and true creative thinking.

By Your constant guidance further their work until it is brought to completion. Then the American people will rejoice because their hopes for equal justice under the law are realized, and the security and prosperity of this Nation are really fashioned by Your hand now and forever. Amen.

#### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from New Jersey (Mr. PALLONE) come forward and lead the House in the Pledge of Allegiance.

Mr. PALLONE led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 5 1-minute speeches on either side.

#### IRAQ ELECTION

(Mr. FOLEY asked and was given permission to address the House for 1 minute and to revise and extend his re-

Mr. FOLEY. Mr. Speaker, last week the people of Iraq risked life and limb to vote. They showed the world that freedom and self determination were things worth fighting and dying for.

The people of Iraq have spoken and in doing so, have undermined the terrorists who claim to be the true representatives of the Iraqi people.

No one expects the transition to representative government to be easy. After winning independence from Britain, it took our Founding Fathers years to draft and adopt a constitution that brought together the widely different factions that comprised the original 13 colonies.

There is one thing that is beyond dispute. The overwhelming majority of Iraqis want to live in a free and tolerant society. They have no use for the discarded Saddam and his henchmen.

As this editorial cartoon shows, a seed of democracy has been planted in the very heart of the Middle East. As Iraq continues to defeat the terrorists and build a flourishing society, the other oppressed peoples of this troubled region will demand and seize the same freedom for themselves. The mullahs of Iran should take note and realize that their people will throw them out sooner or later.

Again, I wish to congratulate the people of Iraq on their successful elec-

#### VETERANS HEALTH CARE BUDGET

(Mr. STRICKLAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STRICKLAND, Mr. Speaker, the President has sent his budget dealing a blow to veterans health care, and I would like to share with you what the veterans' organizations across the country think about it.

Paralyzed American Veterans say the release of the 2006 budget request by the administration demonstrates a callous disregard for the services of America's veterans.

The VFW says the President has delivered a disappointing funding request for the Department of Veterans Affairs. This budget will cause veterans' health care to be delayed.

The DAV, the Disabled American Veterans, says the administration has proposed one of the most tight-fisted. miserly budgets for veterans' programs in recent memory. As a result, VA facilities across the country are cutting staff and limiting services even as the number of veterans seeking care is on the rise.

The American Legion says veterans' health care is an ongoing expense of war. You do not thank veterans for serving their country and then tell them, Oh, by the way, you had better

☐ This symbol represents the time of day during the House proceedings, e.g., ☐ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

not get wounded or you will have to pay extra for your health care.

Shame on this terrible veterans budget.

#### SOUND ECONOMIC POLICY

(Mr. KNOLLENBERG asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KNOLLENBERG. Mr. Speaker, sound economic policy cannot be made in a vacuum. Today I am introducing a resolution to help take steel policy out of that vacuum.

My resolution calls on the Commerce Department and the International Trade Commission, the ITC, to simply consider domestic steel consumers when they decide whether to continue duties on imported steel.

Although Commerce and the ITC have the authority to consider steel consumers in sunset reviews, they traditionally have not done so, and frankly, that is simply wrong.

Steel consumers are hurting, and unnecessary distortion in the steel market is the reason why.

As decisions are made about the import duties on steel products, does it not make sense to consider the impact on steel consumers?

Some steel duties are still necessary, but some are not. The deck should not be stacked in favor of keeping unnecessary duties.

Let us look at the full impact. It is a matter of fundamental fairness.

#### THE PRESIDENT'S BUDGET

(Ms. KILPATRICK of Michigan asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. KILPATRICK of Michigan. Mr. Speaker, this week the President delivered a \$2.5 trillion budget to Congress and the American people. What was missing was nearly a trillion dollars for his plan for Social Security.

What was missing was the \$1.8 billion, the cost of making the tax cuts permanent and retiring tax cuts.

What was missing was the cost of the war in Iraq. He has already spent \$280 billion. He has asked for \$80 billion more, none of it in the budget.

What was in the budget was \$60 billion cut for Medicaid. Over 40 million people, children and poor people, a \$60 billion cut.

What was missing was a \$2 billion cut that was in the budget for community development block grants, monies to cities and towns to build their infrastructure, to help in their housing and other local community programs.

What was in the budget was a cut to Upward Bound, TRIO and other education programs, cuts to our fire-fighters, at the same time asking for permanent tax cuts. We have got to do better and I hope we will.

#### THE BULGARIAN MIRACLE

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, I rise today in appreciation of the strong partnership between the United States and Bulgaria.

For over 100 years the United States has enjoyed diplomatic relations with Bulgaria. With its new era of democracy, our two countries now stand together in the war on terrorism and our friendship is stronger than ever.

Bulgaria is a new democracy which recognizes the importance of furthering freedom throughout the world. By sending over 400 troops to rebuild Iraq and train security forces, the country is playing an important role in helping the Iraqi people. Also, with a contingent in Afghanistan, Bulgaria is protecting the modern world by containing terrorists at the source.

Bulgaria is also a country of great accomplishment. Last year I was honored to meet Prime Minister Simeon Saxe-Coburg Gotha and to attend the White House ceremony honoring Bulgaria's admission into NATO. Under his leadership, the Bulgarian economy is being transformed and EU admission is planned in 2 years.

During my visits to Bulgaria, I have seen firsthand the Bulgarian miracle, the establishment of a dynamic democracy and the restoration of economic freedom.

As the co-chair of the Congressional Bulgaria Caucus with the gentlewoman from California (Mrs. TAUSCHER), it is also my privilege to work with Ambassador Elena Poptodorova.

In conclusion, may God bless our troops and we will never forget September 11.

# NO TO PRICE INDEXING AND PRIVATIZATION

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Social Security benefits have steadily increased over the years because they have long been calculated by indexing them to wage increases which on the average go up 3.6 percent a year, so Social Security benefits increase with rising wages.

The administration wants to change all of that. They want to index Social Security benefits according to price increases, not wages. As a result, millions of future retirees will see their future Social Security benefits reduced as much as 40 percent because prices do not increase as fast as wages.

Let me give an example. If you began work in 1959, retired in 2003 at age 65, under wage indexing where benefits rise with rising wages, you get \$1,158 a month. Under price indexing, your benefits would be frozen. You would get only \$701 a month. So there would be a

40 percent cut in benefits with price indexing and a person would lose over \$100,000 in retirement benefits over a lifetime.

Why the switch to price indexing? Because privatization is going to create an additional shortfall. The administration is going to have to borrow money to set up private accounts, and the shortfall is going to be for 45 years. They are going to have to borrow up to \$15 trillion. They are going to try to get the money off the backs of America's retirees. It is wrong. No to privatization and no to price indexing.

#### CLOSING CRITICAL LOOPHOLES

(Mr. REICHERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks)

Mr. REICHERT. Mr. Speaker, on September 11 terrorists struck the heart of the American people. By infiltrating our country and living among us, these enemies were able to plot and execute an attack on thousands of innocent Americans. It is imperative they do not have that opportunity again.

Driver's licenses are the primary identification document in the United States, yet 11 States, including my home State, Washington, do not require applicants to provide proof they are in the country legally to obtain IDs. The 9/11 Commission report states: "For terrorists, travel documents are as important as weapons."

These gaps in the system are critical loopholes. With a driver's license, the wrong person can then go on to purchase a firearm, rent a car, and board a plane.

Mr. Speaker, as a former law enforcement officer of over 33 years, I can speak firsthand to the danger of firearms in the wrong hands. We do not need to make it easier for the terrorists to get weapons. I urge my colleagues to vote for the REAL ID Act today and take another stop to a more secure Nation.

#### WHERE IS REPUBLICAN OUTRAGE?

(Mr. GEORGE MILLER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEORGE MILLER of California. Mr. Speaker, yesterday we and the American public found out that the Bush administration once again has not been telling us the truth about the cost of the Medicare prescription drug benefit. It now appears it is going to cost over a trillion dollars. When they debated it on the floor of Congress, they said it was going to cost \$300 billion, and at the same time, of course, the administration and the Republican leadership kept the people from coming forward with the real information that they thought it was going to cost \$600 billion.

Now it is over a trillion dollars. Where is the Republican outrage?

Where is the Republican commitment to balance budgets and fiscal responsibility? No, they have instead chosen to lower their voices.

I wonder if it has anything to do with the fact that those Members with independent voices in the Republican Caucus lost their positions. Those who had independent voices on the Committee on Standards of Official Conduct and the Committee on Veterans' Affairs lost their chairmanship and their positions. The gentleman from New Jersey (Mr. SMITH) who spoke out independently on behalf of America's veterans lost his chairmanship and even his position on that committee.

Mr. Speaker, I wonder what has happened to those independent voices for the good of this Nation and the Republican Party.

# HONORING SPECIALIST LYLE RYMER, II

(Mr. BOOZMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOOZMAN. Mr. Speaker, I rise today to honor one of America's bravest, Specialist Lyle Rymer, II, who was a lifelong resident of the Fort Smith, Oklahoma, area. Lyle was recently killed in Iraq while honorably serving his country.

A member of Arkansas Army National Guard's 239th Engineering Company, Lyle was killed by an enemy sniper on January 28 while guarding members of his unit who were erecting barricades in preparation for the Iraqi elections. Lyle was a true hero who was on the ground, helping a new democracy prepare for their first free elections in over 50 years.

It seems that universally the members of Lyle's unit have the utmost respect for him. In news reports, they described him as a go-getter, someone who always strived to achieve more than was asked of him.

Mr. Speaker, Specialist Lyle Rymer, II, at the age of 24, made the ultimate sacrifice for his country. He is a true American hero. I ask my colleagues to keep Lyle's family and friends in their thoughts and prayers during these difficult times.

# SOCIAL SECURITY TRANSITION COSTS

(Mr. PALLONE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PALLONE. Mr. Speaker, President Bush says the transition cost for his Social Security plan will cost about \$700 billion in the first year, but can Members believe him? Let us look at the President's record on estimating costs for his programs. Two years ago he promised his Medicare prescription drug bill would cost from 300 to 400 billion over 10 years. This week the President was forced to admit that it now

will cost more than \$1.2 trillion. That is four times what he said when he was lobbying my colleagues to vote for the Medicare prescription drug bill a couple of years ago.

Now the President wants the American people to believe his Social Security privatization plan will only cost \$700 billion in the first year, but other estimates have it at nearly \$2 trillion in the first year to transition to his privatization plan.

#### $\sqcap$ 1015

The President, Mr. Speaker, in my opinion, has proven time and time again that he simply cannot estimate the cost of his programs; and we simply cannot afford to buy into his risky Social Security privatization bill. It is going to cost a lot more. It is going to cut benefits, and it is a risky privatization plan.

PROVIDING FOR FURTHER CONSIDERATION OF H.R. 418, REAL ID ACT OF 2005

Mr. SESSIONS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 75 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

#### H. Res. 75

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for further consideration of the bill (H.R. 418) to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, and to ensure expeditious construction of the San Diego border fence. No further general debate shall be in order. The bill shall be considered for amendment under the fiveminute rule. The amendment printed in part A of the report of the Committee on Rules accompanying this resolution shall be considered as adopted in the House and in the Committee of the Whole. The bill, as amended, shall be considered as the original bill for the purpose of further amendment and shall be considered as read. No further amendment to the bill, as amended, shall be in order except those printed in part B of the report of the Committee on Rules. Each further amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such further amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill, as amended, to the House with such further amendments as may have been adopted. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore (Mr. FOSSELLA). The gentleman from Texas (Mr. SESSIONS) is recognized for 1 hour.

Mr. SESSIONS. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. HASTINGS), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

The rule under consideration completes the work begun by the general debate rule passed yesterday by the House. It provides for further consideration of the rule under a structured rule and provides that no further general debate shall be in order.

This rule provides that the amendment printed in part A of the Committee on Rules report accompanying the resolution shall be considered as adopted in the House and in the Committee of the Whole and that the bill, as amended, shall be considered as the original bill for the purpose of further amendment and shall be considered as read.

It makes in order only those amendments printed in part B of the report and provides that these amendments may be offered only in the order printed in the report and only by a Member designated in the report. These amendments shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole.

Finally, this rule waives all points of order against the amendments printed in part B of the report and provides for one motion to recommit with or without instructions.

Mr. Speaker, this rule will complete the work begun yesterday on H.R. 418, the REAL ID Act of 2005. As a number of our colleagues have already made it very clear during the debate yesterday of an hour and 40 minutes, this legislation will continue the efforts of our President, George W. Bush, the 9/11 Commission, and of Congress to ensure that America never suffers another terrorist attack like the tragedy of September 11, 2001.

H.R. 418, authored by the gentleman from Wisconsin (Chairman SENSENBRENNER) will improve security by focusing on four main areas: Number one, implementing much-needed driver's license reform, closing asylum loopholes, defending our borders, and strengthening our deportation laws.

Implementing the driver's license reforms included in H.R. 418 will provide for greater security for the American people. Because of lax standards and loopholes in the various current State issuance processes, terrorists have been allowed to obtain driver's licenses, often multiple driver's licenses from different States, and abuse these false identities for illegal and harmful purposes. The September 11 hijackers had

within their possession at least 15 valid driver's licenses and numerous Stateissued identification cards listing a wide variety of addresses.

These terrorists were then able to exploit many of the benefits conferred upon them by possession of these cards, such as enabling the bearer to acquire other corroborating identification documents, transfer funds to a United States bank account, obtain access to Federal buildings, purchase a firearm, rent a car, or board a plane, just to name a few.

By establishing minimum document and issuance standards for the Federal acceptance of driver's licenses, requiring applicants to prove that they are in the country legally, and requiring identity documents to expire simultaneously with the expiration of lawful entry status, this legislation will ensure that individuals harboring malicious intent or who have illegally entered or who are unlawfully present in the United States cannot have access to these valuable and sensitive documents.

Closing the asylum loopholes identified by H.R. 418 will provide greater security for the American people because, as the 9/11 Commission report "a number of terrorists . . . noted, abused the asylum system." strengthening judges' abilities to determine whether asylum seekers are truthful and credible, we will be able to prevent terrorists from gaming the system by applying for asylum as a means to avoid deportation after all other recourses for remaining in the United States have been denied to them. This will prevent abuses of the system like in the case of the "Blind Sheik" Abdul Rahman, who was able to stay in the United States and force an immigration judge to hold a hearing on his asylum claim only weeks before his followers bombed the World Trade Center in 1993.

Defending our physical border, as provided for in the REAL ID bill, will also provide greater security for the American people. We know from the 9/11 Commission that the hijackers had 25 contacts with consular officers and 43 contacts with immigration and customs authorities. As a result, the 9/11 Commission and Congress are recommending to take a number of appropriate actions that would make it more difficult for terrorists to enter the United States through the visa or other legal immigration process, and this bill will go even further towards attaining that goal. But closing down only the legal means by which they will try to infiltrate this country is not enough.

Because increased vigilance has made entering the country through normal, regular channels more difficult, we must also increasingly prepare for the certainty that terrorists will use illegal, clandestine methods to enter our country and do us harm, and we must take steps now to close the gaps in our border security where we feel we are most vulnerable.

Finally, strengthening our deportation laws as provided for by H.R. 418 will provide greater security for the American people. Currently, although it seems unbelievable, not all terrorist-related grounds for keeping an alien out of the United States are also grounds for deportation. This means that terrorists and their closest advocates can be denied entry to the United States for their actions in support of terrorism, but if they are able to make it to our shores, we cannot deport them legally under those same actions.

The REAL ID Act will bring some common-sense balance to this troubled oversight and make the law consistent by providing that all terrorist-related offenses that make aliens inadmissible would also be grounds for their deportation. It would also provide that any alien contributing funds to a terrorist organization could also be deportable.

This rule makes in order five amendments from Members from both sides of the aisle, including one that I have submitted to ensure that aliens and terrorists who are in the United States and ordered deported are actually deported so that they can no longer pose a threat to the security of American citizens.

By supporting this rule, the House can complete its consideration of these five important amendments and the underlying legislation.

I urge all of my colleagues to support this fair and balanced rule.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume, and I thank the gentleman from Texas (Mr. Sessions) for yielding me the customary time.

Mr. Speaker, my colleagues on the other side, for the balance of these arguments today and during yesterday, said very frequently, and it was repeated again by the gentleman from Texas, that the horrible people that were on the airplanes that did the dastardly deed here in America on September 11 had, collectively, 63 driver's licenses. That is, without any kind of misunderstanding between the two sides, they had these driver's licenses, and there is no question about it.

But one of the things that goes ignored is the fact that in the days before 9/11, including that day, airport review of driver's licenses did not occur, and, therefore, it is a total irrelevancy. They were in this country, some on expired visas, some with visas that had been approved, and probably one or two with fraudulent visas. What in the world did driver's licenses have to do with it?

Mr. Speaker, I rise today to oppose this rule and H.R. 418. And once again we see debate limited on this legislation for no reason. The bill is the only item on our legislative schedule today, yet debate on this bill has been limited to less than 2 hours. In fact, the number of proposed amendments has been sharply limited as well. Only a fourth

of the amendments submitted to the Committee on Rules will be allowed on the floor today, and what possible reason can the majority give for limiting debate in this matter? Surely, given the drastic nature of the changes to our asylum laws contained in H.R. 418, it is in the best interests of the country to hold an open debate on this legislation.

Mr. Speaker, last Wednesday, the chairman of the Committee on Rules sent out an announcement notifying Members, as is his responsibility, that all their proposed amendments to this bill were due in the Committee on Rules by noon on Tuesday, February 8. All Members who submitted their amendments, Republicans and Democrats, followed this rule; all Members, that is, except the gentleman from Wisconsin (Chairman Sensenberenner).

Later Tuesday afternoon, after the deadline had passed, the gentleman from Wisconsin (Chairman Sensenbrenner) submitted an extensive 18-page amendment that made significant changes to the bill's already controversial asylum sections. Members had never seen this language before, and of course, no subcommittee or committee had a chance to review it or mark it up.

In the short time we have had to review this new language, it appears to be more controversial than the bill's original provisions. It appears to make it easier for an immigration judge to reject on asylum seeker based on subjective and cultural factors that are notoriously unreliable indicators of credibility. It also allows a person to be denied asylum based on any inconsistencies or falsehoods in their testimony, whether or not these inconsistencies are relevant to the person's claim.

#### □ 1030

I continue to harp on the fact that it does not protect children who are here and in need of asylum consideration. It does not protect women who are in forced slavery and prostitution and are raped. It does not protect them at all with reference to any asylum claims. And it places in the hands of one judge the judging of their credibility.

The other thing ignored is the difficulty that the criteria set forth in H.R. 418 present to asylum seekers, legitimate asylum seekers, to collect inregarding their formation birth records. In the district that I represent, more than a quarter of the work done in the district offices involves immigration, and one of the things that we find it difficult to accomplish is to have the people in a timely manner who are seeking status and naturalization in this country collect their birth records and records of a variety of things in their communities that simply are not there and are unavailable, and therefore their claims are delayed repeatedly.

Mr. Speaker, this is a bad amendment, and Members should have more

time to study it. What is worse is that Members today will not even have the opportunity to vote up or down on it. This rule makes it a part of H.R. 418. It is called "self-executing." It sounds like a cute way of circumventing the democratic process to me.

Stifling free speech is downright un-American. One cannot fail to see the irony here. Right this minute our troops are in harm's way to further democracy in a far-off country, while democracy here in the halls of Congress is being shoved out the door. When the opportunity for a free debate is squelched, America loses, democracy loses. There is nothing to be gained by limiting ideas; and that is what we have here today, the limiting of the ideas of the majority. They should not and it is wrong for them to shut the American people out.

Mr. Speaker, H.R. 418 also allows the Secretary of Homeland Security to waive all laws necessary for the construction of the San Diego border wall. None of us are of a mind to believe that the completion of the 3-mile gap in that wall should not be undertaken. But giving the Secretary the power to override all Federal laws that interfere with this project sets a horrible precedent. These laws exist for a reason, be it to ensure the safety of the environment or to safeguard important cultural artifacts.

Mr. Speaker, how many more laws will we override in the name of homeland security? None of us would argue that we should not do everything to protect the homeland, but rightly we should not argue to ignore the laws that also protect us in this homeland.

The data collection envisioned by H.R. 418 troubles me a lot. In this age of diminished personal privacy, this bill throws around terms such as "mandatory facial image capture," and "electronic storage of identity source documents," without fully explaining, and it is not explained; and I ask anybody to explain it on the majority side, certainly for the American public, explaining fully how all this captured data will be used and by whom.

I represent a district that, like America, is comprised of immigrants. Many of the people of the 23rd Congressional District of Florida came to America as asylum seekers themselves. They came from places where notorious persecution and violation of human rights occurred, like Haiti and Cuba; and they have worked hard, as many immigrants in this country who sought asylum, to create a new life for themselves and their families. Whether they came 5 years ago or 50 years ago, they know others like them will continue to come to our shores fleeing persecution and desperation, seeking hope, protection and the promise of a better future.

We have a moral responsibility to help them make it. It has not been lessened any more after 9/11 than it was before. The immigrants who founded this country had that moral responsibility, and throughout our history we

have waxed and waned with reference to that moral responsibility.

Last night, I watched the so-called "fair and balanced" Fox programming, and on that programming it happened that the gentleman from Wisconsin (Chairman SENSENBRENNER) was one of the guests. He made a sterling presentation. He did not falter in any of his principles with reference to this matter, and he went forward in a dignified manner to answer the questions asked.

He did say, I believe, and he has not said that this measure is something that he does not think will help secure the homeland, as my colleague from Texas has just said. But let me quote the gentleman from Wisconsin (Chairman SENSENBRENNER) from last night. He said, "The key to protecting our homeland is enforcing the immigration laws." Let me repeat the quote: "The key to protecting our homeland is enforcing the immigration laws."

Now, the gentleman from Wisconsin (Chairman Sensenbrenner) knows that President Bush has proposed a budget that, rather than fulfilling what we said would protect our homeland by having 2,000 border patrol persons and an added number, 800, INS, or BICE, their new name, to their rolls so that we could enforce the immigration laws, what do we get in the proposed budget? Two hundred border patrol guards and 143 personnel for the Immigration and Naturalization Service.

What I am saying is let us put our emphasis where it ought to be, and let us not divert ourselves in this manner, and certainly let us not continue to shut all of those organizations, from the Governors Association all the way back across the board that are opposed to this law, let us not shut them out from having an opportunity to present themselves at a hearing.

Let us not shut out the people here in the House of Representatives, some 41 who are newly here who have no idea what we did with reference to this matter last year and have not had time in order to be able to review it, sufficient to be able to make arguments on behalf of their constituencies in a satisfactory manner. Let us not shut out the American public by continuing to not allow for open debate.

Mr. Speaker, I oppose this rule and H.R. 418. I urge my colleagues to vote "no" on the rule and this ill-conceived legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SESSIONS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I do understand that not everybody is in agreement about what we are doing today, but for the Members that are paying attention, the 9/11 Terrorist Travel Report of the National Commission on Terrorist Attacks Upon the United States, known as the 9/11 Commission, said on page 43, and I would like to quote this: "September 11: As the hijackers boarded four flights, American Airlines Flights 11 and 77, and United Airlines Flights

93 and 175, at least six hijackers used U.S. identification documents obtained and acquired in the previous months, three of which were fraudulently obtained in Northern Virginia."

Mr. Speaker, we would have to really not respect this 9/11 Commission if we were not going to follow up on the work that they did. That is why we are here today. We are here for the best reason, for the security of this great Nation and the wonderful people who care and entrust upon the United States Congress the ability to make sure we do all that we can to avoid attacks in the future.

Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. PAUL).

(Mr. PAUL asked and was given permission to revise and extend his remarks.)

Mr. PAUL. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, I rise in support of the rule. I rise also in support of the Sessions amendment. But I also would like to take this time to make a few comments about why I will be voting against the bill.

With the utmost sincerity and a deep conviction, I am quite confident that this bill, if you vote for it, you will be voting for a national ID card. I know some will argue against that and they say this is voluntary, but it really cannot be voluntary. If a State opts out, nobody is going to accept their driver's license. So this is not voluntary.

As a matter of fact, even the House Republican Conference, which sent a statement around with some points about this bill, said "the Federal Government should set standards for the issuance of birth certificates and sources of identification such as driver's licenses."

This is nationalization of all identification. It will be the confirmation of the notion that we will be carrying our papers.

As a matter of fact, I think it might be worse than just carrying our papers and showing our papers, because in this bill there are no limitations as to the information that may be placed on this identification card. There are minimum standards, but no maximum limitations.

The Secretary of the Department of Homeland Security can add anything it wants. So if they would like to put on our driver's license that you belong to a pro-gun group, it may well become mandatory, because there may be an administration some day that might like to have that information.

But there is no limitation as far as biometrics and there is no limitation as far as radio frequency identification. That technology is already available and being used on our passports. This means that you do not have to show your papers. All you have to do is walk by somebody that has a radio frequency ability to read your passport or read your driver's license. There is no limitation as to what they can put on these documents.

This bill also allows the definition of "terrorism" to be re-defined. There are no limitations.

In many ways I understand how well intentioned this is, but to me it is sort of like the gun issue. Conservatives always know that you do not register guns, that is just terrible, because the criminals will not register their guns. But what are we doing with this bill? We are registering all the American people, and your goal is to register the criminals and the thugs and the terrorists.

Well, why does a terrorist need a driver's license? They can just steal a car or steal an airplane or steal a bus or whatever they want to do. So you are registering all the American people because you are looking for a terrorist, and all the terrorist is going to do is avoid the law. But we all, the American people, will have to obey the law. If we do not, we go to prison.

So I rise in strong objection to this bill. I hope there will be a few that will oppose H.R. 418.

Mr. HASTINGS of Florida. Mr. Speaker, I am pleased to yield 3 minutes to my good friend, the gentleman from Texas (Mr. DOGGETT).

Mr. DOGGETT. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, the REAL ID Act is a real travesty. It has little to do with homeland security, and it represents just the latest in a string of anti-immigrant proposals so unfortunately popular with certain of our Republican colleagues.

Instead of putting the safety of our families first, these are the same folks that would have turned our emergency room doctors into border patrol agents; who would have cut the funding to cities that did not conduct immigration raids; and who would interfere with the people with whom our private banking institutions could serve and encourage instead an underground, black market financial system.

This same anti-immigrant fervor continues to fuel this bad bill. The REAL ID Act is designed to make our roads real unsafe. Undocumented workers will be on our roads. That is why the Austin Police Department believes that Texans would be safer if the law allowed all drivers to obtain licenses.

#### □ 1045

As Assistant Police Chief Rudy Landeros testified, "In allowing the community the opportunity to obtain driver's licenses, they will have to pass a driver's test, and that will make them not only informed drivers, but safer drivers."

The Texas legislature, in a bill by former Representative Miguel Wise, wisely recognized that requiring all drivers to obtain licenses would make Texas families safer. Had it not been for the veto by Texas's myopic governor, this common-sense call for public safety would be the law in the President's home state.

Legal immigrants could also be denied a license. Paula Waddle, an immi-

gration attorney in the Rio Grande Valley, explained that her clients are having delays of as much as 15 months in getting their legal permanent residency papers because of confusion at the Department of Homeland Security. If these legal immigrants do not have sufficient paperwork to prove their legal status, they will be caught up in this same web of anti-immigrant fervor and denied the opportunity to obtain insurance and drive

Ironically, consideration of this bill coincides with the release this week by the U.S. Commission on International Religious Freedom. This proposal would worsen the plight of those whose conditions were the subject of investigation by that commission: asylumseekers who already face deplorable conditions, who are often treated like common criminals and thrown into jail with common criminals, and who are subject to strip searches as well as solitary confinement. But since current law already bars those who presnet a secruity risk from getting asylum, the additional restrictions in this bill would not make us safer.

We must not sacrifice our democracy in a misguided attempt to save it. This bill strikes the wrong balance. Antiimmigrant hysteria cannot be permitted to drive an agenda that makes us less safe, less healthy, and erodes our civil liberties while failing to address real terrorist threats.

The REAL ID bill ought to be really rejected fast by this Congress.

Mr. SESSIONS. Mr. Speaker, I yield such time as he may consume to the gentleman from San Dimas, California (Mr. DREIER).

(Mr. DREIER asked and was given permission to revise and extend his remarks.)

Mr. DREIER. Mr. Speaker, I rise in strong support of this rule.

Contrary to what my very good friend from Fort Lauderdale has said, this is a very fair and balanced rule. If we look at the amendments that were submitted to the Committee on Rules and those that we have made in order, it is fascinating.

We made half of the amendments in order that were proposed by the Democrats, those were the priorities established, and 33 percent of the amendments made in order that were submitted by the Republicans. We have really turned ourselves inside out to try and accommodate the wide array of issues that were put forward before the Committee on Rules.

Yesterday, we had three committees of jurisdiction share an hour and 40 minutes of general debate, and we are going to have an opportunity for free-flowing debate on a wide range of issues today. And I am anxiously looking forward to that.

I would like to say that one of the priorities is the passage of the Sessions amendment, which is very, very fair and, I believe, an appropriate way to deal with one of the important challenges we face.

Mr. FRANK of Massachusetts. Mr. Speaker, will the gentleman yield?

Mr. DREIER. I yield to the gentleman from Massachusetts.

Mr. FRANK of Massachusetts. Mr. Speaker, does the gentleman really believe that 20 minutes of debate, 10 on each side, on these complicated issues, is free and flowing debate? We got out early yesterday; we are here today. Why only 10 minutes of debate on each side on these complicated issues?

Mr. DREIER. Mr. Speaker, reclaiming my time, I would say to my friend that clearly we are debating this right now, during consideration of the rule. We have had Special Orders held on this issue. We had a very lengthy hearing in the Committee on Rules which was available for all of the Members; we had that streamed online. So I think that these issues are pretty darned transparent.

We are trying to deal with border security. It is a very important part of the number one priority that we have, and that is our national security. I think in light of that, we are going to have an opportunity to consider these measures, and I want to say that I think we have some amendments that are very, very important that do need to be addressed.

We did make in order the amendment by the gentleman from California (Mr. FARR), my colleague, which calls for steps that would prevent the completion of the 3.5 mile gap in the 14-mile fence that goes along the border from the Pacific Ocean to the Otai Mesa in San Diego.

I have to say that it is amazing, Mr. Speaker, to observe that it took a shorter period of time to win the Second World War than it has to complete this fence. It is a fence wherein actually the provision for it was signed into law by President Clinton back in 1997, and that was done with strong bipartisan support.

I worked with my colleagues, the gentleman from California (Mr. Hunter), and our colleague Mr. Ose in the last Congress, who was very involved in this; and I just 10 weeks ago flew with T.J. Bonner, the president of the National Border Patrol Council, over this gap in the fence. It is very clear that people have taken advantage of it.

Now, the argument that is going to be used on the fence issue, and we will be bringing that up in just a little while, has to do with the environment. There are people who say that we need to keep all of these environmental constraints in place which have prevented completion of the fence.

Mr. Speaker, what has happened is, we have seen the California Coastal Commission file a case to prevent completion of it because of something known as the Bell's Verio bird. This bird has chosen to nest on part of the fence, and for that reason, they cannot complete the fence, and it has allowed people to come in.

Now, what has happened is, people have illegally fled across the border.

We have seen that border in what is known as the Tijuana Estuary devastated environmentally. There is all kinds of trash in there, and the environmental vote, Mr. Speaker, is to vote against the Farr amendment in favor of completion of the fence. If we were to complete the fence, we would be able to improve the environmental standard at the border.

Now, this issue is one of the important parts of it, but there is one other issue that I want to mention before I yield back the balance of my time.

I introduced legislation, H.R. 100, to deal with something known as the Saint Cyr decision, that is included in the manager's amendment; and what that does, basically, the provision that we have in the manager's amendment will finally get to the point where the appellate courts are the courts of jurisdiction, and we will not see consistent appeals. Not many people are aware of the fact that, actually, people who are here illegally have an additional appellate step over American citizens. In the manager's amendment, we will be able to rectify that very, very important issue that does need to be addressed.

This is a fair and balanced rule. It will allow us to deal with border security, a very important part of our national security; and I hope this great day will see us, at the end, pass this very important legislation.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume before I yield to the gentleman from Massachusetts, which I will do gladly.

I would say to the chairman that I respect very much, and I am speaking to the gentleman from California (Chairman Dreier), I respect very much what my good friend from California has said with reference to the rule, the amendments that are allowed. But I was in that same process as the chairman was in the Committee on Rules. Three-quarters of the amendments that were submitted on time pursuant to the chairman's correct direction to the body are not a part of the debate here.

The Sensenbrenner amendment, which is rather lengthy, came late to the committee. It is not being voted on up or down for the reason that it was made a self-executing part of the rule.

Now, the gentleman can call that fair and balanced, but let me just say to the chairman that there is a new section 105, and many of the Members are hearing this for the first time. It eliminates Federal court review in many conventions against torture cases, and it eliminates the power of the Federal appeals court judges to stay the removal of asylum seekers.

I do not think any irony is lost on the chairman about the Ninth Circuit's ruling.

Mr. DREIER. Mr. Speaker, will the gentleman yield?

Mr. HASTINGS of Florida. I yield to the gentleman from California.

Mr. DREIER. Mr. Speaker, let me say, there was a lot of discussion as to

whether or not we were going to make the Nadler amendment in order, as my friend knows. I know that that addresses the issue of asylum. We are going to have an opportunity for debate on that and an up-or-down vote on that issue.

We clearly had to deal with a wide range of questions as we fashioned this rule. I will tell the gentleman that I am very proud of the fact that we were able to incorporate many of the ideas that my colleagues on the other side of the aisle offered. I will tell the gentleman there were 10 amendments submitted by members of the minority, and six of those 10 amendments were, in fact, withdrawn. We made in order two of the four amendments that remained at the committee level.

We had on our side 10 amendments that were submitted, and we have only made three of our amendments in order of the original 10 that were submitted. That is why I am arguing that we have, in fact, really gone the extra mile to ensure that the rights of the minority are respected

I appreciate the gentleman yielding.

Mr. HASTINGS of Florida. Mr. Speaker, reclaiming my time, before the chairman leaves, just one further word in that regard. I take, from the many times when the chairman was in the minority, his statement to heart; and that is that if a rule is not open, it is closed.

Mr. DREIER. Mr. Speaker, if the gentleman will yield, did I actually say that?

Mr. HASTINGS of Florida. Yes, the gentleman from California (Mr. DREIER) said that a lot. He said that a lot.

Mr. Speaker, I am privileged to yield 4½ minutes to the gentleman from Massachusetts (Mr. Frank), my good friend.

Mr. FRANK of Massachusetts. Mr. Speaker, hearing the chairman of the Committee on Rules describe this restricted rule as fair and balanced reinforces the fact that when people on the right in America politically tell you something is fair and balanced, you had better ask for another deck of cards.

The rule not only limits the amendments; and it makes sense, the chairman's defense makes sense if you start from the perspective that no amendments ought to be allowed. And then when you let in two out of 10, or two out of six, somehow you have been generous

Ought not the assumption be in favor of openness, especially since the House has not been doing very much? Then the chairman said, Well, we do not have to have long debate on these things; after all, we had a hearing in the Committee on Rules, and it was streamed on line. Anyone who thinks that a hearing in the Committee on Rules that is streamed on line is a substitute for open and free debate in the United States House of Representatives, or anyone who says that, ought to remember, I would give just one

piece of advice. No matter how pressed one feels in a debate, try to avoid saying something that no one is going to believe. It really does not help your cause.

No one thinks that an online hearing in the Committee on Rules with a handful of Members in a room that has 30 seats substitutes for free and open debate in the House of Representatives, and particularly when you only give 10 minutes on a particular amendment.

I want to talk about the amendment on asylum. We heard a lot of discussion last year in the election from people complaining that religion had been driven from the public square. Well, guess who is ignoring religion this year? The majority.

The provisions on asylum have evoked overwhelming opposition from the various religious communities in America. I noted yesterday that the Commission on Interreligious Freedom set up by this Congress to protect religious freedom in the world put out earlier this week a report saying that our asylum procedures are too restrictive. And what is the response of the majority? To make what the Commission on Interreligious Freedom says is a bad situation much worse.

I noted yesterday, in Leviticus it says, and I have looked at various translations, various renderings, and in every one it sometimes says "stranger," it sometimes says "alien." It is clear it means people we would describe as immigrants. It says, Treat them as you would treat the native born.

Now, I do not purport to be a religious scholar. I do not purport to be an expert in religious interpretation, but I am puzzled. Can we turn Leviticus on and off that way? I mean, often I have heard Leviticus quoted as justification for measures that are critical of homosexuals. Do you not have to take it as a package? I mean, if you are going to use Leviticus to disadvantage homosexuals, do you not have to use it to be nice to immigrants? Is it not true that what is Leviticus for the goose is Leviticus for the gander?

Again, I acknowledge I am not a theological expert, so I will turn to some who are. I got a copy yesterday from the Interfaith Statement. "The REAL ID act," it says, "threatens the ability of victims of persecution to find safe haven in the United States," signed by a variety of Jewish and Catholic and Protestant groups, the Jesuit Religious Service, the Episcopal Migration Ministries, the Church World Service, the Jubilee Campaign, the Lutheran Immigration and Refugee Service.

Mr. Speaker, because I do not think that religion ought to be driven from the public square on an issue on which there is such an overwhelming religious consensus, I will offer a statement condemning this bill and its asylum provisions be inserted here.

REAL ID ACT THREATENS ABILITY OF VICTIMS OF PERSECUTION TO FIND SAFE HAVEN IN THE UNITED STATES

As representatives of various faith traditions, we are deeply concerned that the REAL ID Act, legislation proposed by Representative Jim Sensenbrenner (R-WI), would make asylum a more remote possibility for hundreds of persons who need protection. We understand that safeguarding our national security is an urgent issue, and we support measures that honor that concern. We also subscribe to core beliefs which require that we provide safety to victims of persecution, particularly those who have no recourse to the projection that democratic societies traditionally provide. Restricting access to asylum beyond current practice and does not serve the cause of national security and, moreover, erodes a sacred and legal responsibility to give safety to those whose only protection comes from asylum.

Each of our traditions has witnessed the suffering of persons whose beliefs often place them in jeopardy and possibly in mortal danger. As American-based faith communities, we have cherished the ability of asylum seekers to find safety in communities around our nation. We are, therefore, saddened by a further erosion of our asylum system under the pretext of national security. We urge Members of Congress to reject the notion that all asylees are prospective terrorists and that the current system needs to be

made more restrictive.

The belief that we must receive persons who have been rejected and persecuted because of their ideas and religious practices is anchored in both our histories and sacred texts. We have contributed over the years to supporting and enriching practices which embrace hospitality as not only a religious but an American value. We also appreciate the need to prevent terrorism from violating both our freedom and safety. We believe that hospitality to the stranger—particularly one who has been persecuted—and security are compatible national goals. We, therefore, reject legislation that subverts hospitality in the name of security.

The current asylum system includes rigorous safeguards against terrorists abusing the asylum system. The changes proposed by the REAL ID Act raise a false issue in further victimizing legitimate asylum seekers. Requiring unreasonable levels of evidence to prove an asylum claim, placing a greater burden on asylum seekers to convince reviewers of the key motivation of their accusers, and allowing subjective considerations guide the review process all send a chilling message to those who desperately seek the safety and protection which they have a right to expect of our great nation.

We have all seen how fear can pervert justice. We believe that the religious traditions which we embrace calls us to oppose a narrowing of the door to asylum by some of the world's most at-risk persons. We are committed to resisting a fear driven agenda which violates our faith-based principles.

Mr. Speaker, the asylum provisions make it much harder for people to get asylum. We will have 20 minutes to debate this issue. It would take me half of that time to read the full list of

Last week, we were visited, those of us on the Democratic side, by a representative of the Catholic bishops. who asked us specifically to oppose this bill and particularly to condemn the asylum provisions. I do not think there has been any showing that asylumees have been terrorists.

But, in any case, I do want to stress, those of you who have said we have insufficiently paid attention to religious values, Mr. Speaker, I urge them not to turn their back on the religious community now and not to give the religious communities, a broad range of them, 10 minutes in which we can make the case that this bill violates biblical injunctions about aliens and undercuts our mission to be a haven for the religiously persecuted.

#### $\square$ 1100

Mr. SESSIONS. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. Sensenbrenner), the chairman of the Committee on the Judici-

Mr. SENSENBRENNER. Mr. Speaker, I rise in support of this rule for consideration of amendments to H.R. 418, the REAL ID Act.

The manager's amendment, which will self-execute upon adoption of this resolution, makes technical changes to the bill as well as making a number of substantive improvements. One such modification will be to remove the annual cap on the number of aliens granted asylum who can become permanent residents each year. The current cap of 10,000 has resulted in a multi-year backlog that has caused unnecessary hardship to aliens already found to have been fleeing persecution. Hardly an anti-refugee provision.

The manager's amendment also extends the bill's provisions regarding the credibility determinations of immigration judges in asylum proceedings to apply to other requests for relief from removal before immigration judges.

Lastly, it includes the text of H.R. 100, introduced by the gentleman from California (Mr. Dreier), to limit criminal aliens to one bite of the apple in contesting their removal orders. I strongly support all these changes and believe they improve the underlying legislation.

Regrettably, at the request of the Committee on Government Reform, the manager's amendment also removes two provisions that I believe address important issues with regard to temporary licenses. One provision clarified the need to clearly mark temporary

driver's licenses that States remain authorized to issue people who cannot meet the identity standards as set by this bill.

The other provision provided the Secretary of DHS with the ability to intervene, but only in the interest of national security, to reduce the incredible diversity in form and appearance of driver's licenses issued by the States. Today there are over 350 valid driver's license designs issued by the 50 States. And we all know it is very difficult for security officials at airports to tell the real ID cards from the counterfeit ones.

I understand why the chairman of the Committee on Government Reform believes these two provisions should not be included at this time; however, it is my hope that as this legislation continues to move through the legislative process, we may revisit these two provisions. Both are widely supported and improve the overall bill.

I urge my colleagues to support the rule and the underlying bill.

Mr. HASTINGS of Florida. Speaker, how much time remains?

The SPEAKER pro tempore (Mr. Fossella). The gentleman from Florida (Mr. HASTINGS) has 61/2 minutes remaining. The gentleman from Texas (Mr. Sessions) has 11 minutes remaining.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. NADLER).

Mr. NADLER. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, the distinguished chairman talks about section 102 of the bill, which gives the Secretary of Homeland Security the ability to waive all laws that might get in the way of building the fence: and he talks about environmental laws, and he talks about endangered species. Well, that is all well and good, but the radicalism and the irresponsibility of the majority is shown by how this is drafted.

This does not refer to environmental laws. This does not refer to endangered species. This says the Secretary of Homeland Security shall have the authority to waive all laws in his sole discretion that he determines necessary.

The Secretary of Homeland Security can tell the contractors, if anybody gets in your way, shoot them. Shoot them. The laws against men are waived. Laws against anything are waived. It makes him a total dictator. Then to make sure that the Secretary can be a total dictator in contravention of the Constitution, in contravention of all our laws, it then says, no court shall have jurisdiction to hear any clause or claim arising from any decision the Secretary takes or to order any compensatory declarative injunctive, equitable or any other relief for damages alleged to have been suffered.

So someone can be shot because the Secretary says shoot anybody that gets in the way by accident or deliberately and the courts cannot review whether

the Secretary had the authority, whether this is constitutional.

Last year we had certain court-stripping legislation before us to say that the court shall have no jurisdiction to hear a claim against the constitutionality of the Defense of Marriage Act.

One other thing, I got up on this floor and I said, this is going to become boiler plate language in bills, and here it is. It did not even mention it. Boiler plate language.

"No court shall review any action the Secretary may take."

I thought the Republican Party stood for limited government. This says the Secretary is absolute dictator, as absolute as Stalin. What kind of language is this?

Regardless of the merits of this bill, regardless of the merits of this provision in general, this is disgraceful.

Mr. SESSIONS. Mr. Speaker, I yield 3 minutes to the gentleman from Arizona (Mr. HAYWORTH).

(Mr. HAYWORTH asked and was given permission to revise and extend his remarks.)

Mr. HAYWORTH. Mr. Speaker, I thank my friend from Texas for yielding me time.

Mr. Speaker, I rise in favor of the rule, and I rise in favor of the Sessions amendment. The amendment makes certain that before an alien is released from DHS detention on his own recognizance pending an upcoming hearing, the immigration judge first certify that the alien is not a flight risk and, more importantly, that he does not pose a security risk to the United States.

Mr. Speaker, I appreciate the different views that we hear in the well of this House. I understand full well Dr. Franklin's admonition about the challenge confronting those who seek security and yet also wish to preserve liberty.

Mr. Speaker, one of the reasons we are here on the floor visiting this issue today is, as the distinguished chairman of the Committee on Rules pointed out, while our founders believed that all men were created equal, now we have the arcanities and absurdities of certain judicial procedures that allow illegal aliens to enjoy more legal privacy in some cases than do American citizens. We need redress.

I listened with great interest to my friends who came to the floor recently discovering States rights with reference to this legislation, and I believe that to be a hopeful sign. I listened with great interest to other friends who came to offer scriptural and spiritual entreaties in this debate, and I welcome that as well. But, Mr. Speaker, here is the fundamental question we confront. In the wake of 9/11, in the wake of clear and demonstrable evidence that there are those who come to this Nation with the intent of harming and killing Americans, who are bent on the destruction of our Nation and our system of government, at long last this body should take the steps necessary to preserve our security and our liberty. Border security is national security.

There has been lament expressed from the other side that we are moving too quickly. Indeed, Mr. Speaker, I came to this well in a previous Congress lamenting the fact that at the behest of the other body we remove these important provisions from a piece of legislation passed at the end of the last session of Congress.

Incrementalism in wartime is unacceptable. There is a clear and present danger. We must respond.

Pass the rule. Pass the Sessions amendment. Pass the underlying legislation. Let us preserve and protect our Union and our way of life.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. BERMAN).

Mr. BERMAN. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, section 101, the asylum provisions, are flawed. Existing law exempts and prohibits terrorists or threats to national security or those who the government can prove through secret evidence are threats to national security from getting asylum. That is existing law. This self-executing rule, which allows amendments which have never been considered by any committee or heard through hearing or markup, do several dangerous things.

Section 101 encourages asylum officers and immigration judges to deny an asylum claim simply because the applicant was able to recall or recount information later in the process that she did not mention when she was initially encountered by immigration officers. The amendment included in the rule would expand that to include consistency on matters that are entirely relevant to the basis of the claim for asylum.

It would mean that a woman who has been subjected to gang rape by government armed forces in her country who is too afraid or ashamed to tell the fact to the armed male immigration officer she first encounters at the airport in the United States could, if she tells the story later on in the process, be denied asylum simply because she was too afraid or too ashamed to tell the story to the first person she encountered.

Now, under the amendment, this woman could be denied asylum because she cannot recall facts that are irrelevant to establishing her need from protection, her high school graduation date, for example.

In a system where we rely on translations and statements taken from people in crisis, this is a very change in the law

It is a fundamental challenge to the whole concept of the immigration judge considering all things coming into the record. The one thing I know is if section 101 becomes law, people with a well-founded fear of persecution, as a result of these changes, will be denied asylum, there will be no effort

whatsoever to enhance our efforts to protect this country against terrorism, but we will have struck a fundamental blow against a tradition which I think is very important to maintain in this country and that is that we are a haven for refugees from persecution for political, ethnic, religious, gender reasons.

I urge a "no" vote on the rule and a "no" vote on the bill.

Even more troubling is a fact discussed in a report released this week by the U.S. Commission on International Religious Freedom. Often Immigration Judges determine that an applicant is not credible because their statement at the airport was inconsistent with later statements because later statements included more detail. The problem with that logic is that when an asylum applicant is interviewed in inspections, the interview stops at the moment that the person establishes a fear of persecution. They are not invited to provide more detail until a later credible fear interview. In other words, the applicant isn't the reason the details are not included. This bill would codify this preposterous failure of the Immigration Judges' logic in these cases.

Section 101 also would encourage asylum officers and immigration judges to deny an asylum claim because of perceived problems with an applicant's demeanor. This would mean that a woman subjected to persecution by the Taliban who has been taught that she should not make eye contact with a man could be denied asylum simply because she did not make eye contact with the male immigration officer interviewing her.

Furthermore, it is quite common for torture survivors suffering from post-traumatic stress to exhibit characteristics in their demeanor such as lack of eye contact, the inability to recall simple details that to an untrained person may appear to be symptoms of lying. For example, Fauyiza Kassindja, a young Togolese woman who fled female genital mutilation (FGM), would have been denied asylum under this standard with little chance of getting that determination reversed on appeal. Under current law, the Board of Immigration Appeals rightly reversed the Immigration Judge's credibility finding in her case, and that decision has helped protect other women fleeing FGM.

Section 101 would encourage asylum officers and immigration judges to deny an asylum claim when the applicant cannot provide corroborating evidence of their claims if the officer, in his unreviewable discretion, believes that the applicant should be able to provide such evidence.

This disproportionately harms applicants who are detained and/or lack counsel. Relatedly, H.R. 418 would constrain judicial review of a denial of asylum based on an applicant's failure to provide corroborating evidence.

Section 101 would require some asylum applicants to prove not only that they are refugees, but also prove their persecutors' central Reason.

The additional burden on asylum applicants created by this provision is impermissible under the international law, including the U.N. Convention on Refugees to which the United States is a signatory. To meet the standard set forth in the Convention, it is sufficient to show persecution is motivated in part by one of the prohibited grounds. Asking a refugee or asylum applicant to parse his persecutor's motivations so finely as to distill the "central Reason" or "central reason" is asking asylum

seekers to read the minds of their persecutors. This additional burden will lead ineluctably to denials of legitimate asylum claims, sending helpless applicants back to face more persecution and potentially death.

The proponents of section 101 assert that we must enact this section in order to prevent terrorists from gaining asylum. My friends who are the authors of this provision are in error, however, in this assertion.

I have been informed by my staff that while several persons with terrorist connections have applied for asylum over the years, the Department of Homeland Security has not found a single terrorist has ever been granted asylum in the United States. This is because, first, current law appropriately makes terrorists ineligible for asylum, and second, the standard for granting asylum is already so high that applicants are subjected to intense scrutiny before a decision on their claims is made.

While the United States has not, as far as the Department of Homeland Security knows, ever granted asylum to a terrorist, there was, indeed, a problem more than a decade ago whereby persons could apply for asylum and then be paroled into the United States while their claims were pending. That is no longer possible today. A person who applies for asylum today is held in detention until an investigation is made on the credibility of their claim and on whether they pose a security risk to the United States.

In conclusion, Mr. Speaker, the consequences for asylum seekers to enactment of section 101 could be catastrophic. The new standards could make it far more difficult for legitimate asylum seekers to prove their claims. After all, would an asylum officer in 1938 have found Jews' claims of being thrown into the death camps and ovens of Nazi Germany credible? Would the victims of the Nazi death camps have been able to present corroboration of the specific facts asserting their claims? If a Bosnian woman who has faced rape at the hands of government agents as a systematic form of persecution is ashamed or afraid to relate her rapes in her initial interviews, should that be an automatic ground to find her not credible?

It is unclear what really motivated the drafters of H.R. 418 to put section 101 into this measure. Two things are clear, however: the provision has absolutely nothing to do with terrorism, and it was not recommended by the 9/11 Commission. Let me repeat that, because yesterday a Member of the majority claimed this bill was simply enacting recommendations of the Commission. The chairman and vice chairman of the 9/11 Commission have clearly and specifically rejected that these asylum provisions are supported by their recommendations.

We should consider changes to our asylum laws in a sober and reflective manner after hearings, subcommittee consideration, and full committee consideration. Neither section 101 of H.R. 418 nor any of the other provisions of this bill had a single hearing or markup.

I urge my colleagues to stand against this rule and if the rule is not defeated, I implore you to support the amendment that will be offered later today to strike Section 101 in its entirety.

Mr. SESSIONS. Mr. Speaker, I yield 2 minutes to the gentleman from Florida (Mr. STEARNS).

(Mr. STEARNS asked and was given permission to revise and extend his remarks.)

Mr. STEARNS. Mr. Speaker, I thank my distinguished colleague for yielding me time.

Mr. Speaker, I rise today in favor of the rule and in support of the underlying bill, the REAL ID Act.

This is probably one of the most important bills that we will have to vote on in the 109th Congress. The bill obviously will strengthen our borders, improve the rule of law, and protect our national security. It builds upon the recommendations of the 9/11 Commission. These are things they have talked about and had recommended, and it begins to respond to the pleas of the many families who lost loved ones on that terrible day.

It implements much needed driver's license reform. Now, driver's licenses have become the primary ID in the United States. It enables individuals to go get other identity documents, to transfer funds to U.S. bank accounts, obtain access to Federal buildings and other vulnerable facilities, purchase a firearm, rent a car, board a plane, et cetera. So lax standards and loopholes in the current issue process allow terrorists to obtain driver's licenses, often multiple licenses from different States, and abuse the license for identification purposes. The REAL ID Act corrects this.

Identification documents are the last opportunity to ensure that the people are who they say they are and to check whether they are terrorists.

The REAL ID Act would require applicants to provide proof that they are in this country legally. Currently, 11 States do not have such a requirement, meaning the majority of States have already recognized the need for tighter requirements and standards, but unnecessary and dangerous gaps still exist in this system. So that is why we need this. I urge my colleagues to support the rule and the bill.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, the gentleman from Texas (Mr. Sessions) has cited the 9/11 Commission. After 9/11, shortly thereafter, I wrote to President Bush and introduced legislation that would set the precursor to what ultimately became the Department of Homeland Security of this House of Representatives.

During that period of time, I did not have the courtesy of a response from the White House, and the White House opposed setting up inside the administration a Cabinet-level homeland security official. Ultimately, they came around. Tim Roemer, a former colleague of ours who did serve on the 9/11 Commission, and myself and others filed the original legislation leading to the development of the 9/11 independent commission.

#### □ 1115

And my colleague has cited that commission frequently, but I defy him

on the subject of border security, page 186, to tell me anywhere where it says anything about driver's licenses.

They talk about creating an interagency center to target illegal entry and human traffickers; imposing tighter controls on student visas; taking legal action to prevent terrorists from coming into the United States and to remove those already here; further increasing the number of immigration agents to FBI joint terrorism task forces; activating a special court to enable the use of classified evidence. And I could go on and on and on in the Clark working group and the 9/11 report, and not one word, not one word regarding any driver's licenses.

People that are going to do harm in this Nation are not going to do anything other than everything that is fraudulent. But what we need to know is that there are a variety of people who are significantly opposed to this legislation. The AFLCIO, the American Jewish Committee, the Asian American Legal Defense and Education Fund, Catholic Charities USA, the Hebrew Immigrant Aid Society, Irish American Unity conference, Gun Owners of America, the American Conservative Union, the Republican Liberty Caucus, the National Association of Latino Elected Officials, the National Conference of State Legislatures, the Council of La Raza, the Federation of Filipino American Association, the Service Employees Union; and there is a list that goes up to 121 organizations that have been shut out because there were no hearings and no opportunity for them to have been heard, other than through the limited debate.

We should stop this business of closing our opportunities and open up the rules. I oppose this rule.

Mr. SESSIONS. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa (Mr. KING).

Mr. KING of Iowa. I thank the gentleman for yielding me this time.

Mr. Speaker, I want to address a number of numbers here. This is a little bit about numbers, and one of them is that 121 organizations that we heard about, as if they were the ones that should obstruct the safety of 282 million Americans whose lives are at risk.

Another number, 19 terrorist hijackers, 19. Nineteen of them with 63, another number, 63 valid driver's licenses in their possession. Any one of those driver's licenses got them anything they needed to do in America, full rights of citizenship for that matter, and get on board any airplane.

And another number, 3,000 dead Americans. And what have we done to close the door? Anything?

Have we even said "no" to the 121 organizations that say, Leave the door wide open, keep us at risk because somehow or another there is some kind of tone here that we object to?

We think something is in your heart. We need to close this door.

And what have we done? We have made it harder for terrorists to get on

Ros-Lehtinen

Rovce

airplanes with razor blades. We spent millions of dollars on metal detectors and millions of dollars expanding TSA and putting Federal employees in place, and we put millions of people in long lines waiting to get through.

So it is a little harder for them; they have to stand in line with the rest of us. Stand in line with the rest of us where I stand, where I see a 75-year-old lady going through a spread-eagle search while the young Middle Eastern male waltzes through with a smirk on his face, and we cannot close that door.

This bill does some of that, not all of that, but it will be the first thing that will keep the 19-type terrorist hijackers off our airplanes, keep them out of our airplanes, out of our automobiles and provide a measure of safety and security for the American people.

It is not enough, but it is the barest of common sense, and it must move through this Congress, and it must move through this Congress right now, today.

Mr. SESSIONS. Mr. Speaker, I would like to advise the gentleman from Florida (Mr. HASTINGS) that at this time I do not have additional speakers.

The SPEAKER pro tempore (Mr. Fossella). The gentleman from Florida's time has expired. The gentleman from Texas (Mr. Sessions) has 4 minutes remaining.

Mr. SESSIONS. Mr. Speaker, I yield myself the balance of my time.

This rule makes in order five amendments for Members of both sides of the aisle, including one that I have submitted to ensure that aliens and terrorists are not in the United States illegally, and if they are, we are going to deport them.

I think that this is a good bill, a good rule; and I support H.R. 418. We need to implement much-needed driver's license reform. We need to close asylum loopholes. We need to defend our borders, and we are going to strengthen our deportation laws. And I encourage all of my colleagues to support the underlying legislation in this rule.

Mr. GINGREY. Mr. Speaker, I wanted to come to the floor today to speak in favor of reforming our system for asylum and against the move to strike the necessary reforms incorporated in H.R. 418. It has been suggested throughout out this debate yesterday and today that because there is no specific recommendation made by the 9–11 commission to reform our asylum system that we in Congress should do nothing to fix it.

That in my opinion is insane. My colleagues and friends on the other side of the isle suggest we stick our heads in the sand and ignore one of the tools used by terrorists to gain access to and remain in our country.

Make no mistake, the 9-11 commission report does specifically state that our asylum system was and is used by terrorists to carry out their schemes to kill Americans.

Let me quote from the report and its accompanying statements:

The report states, speaking of the first Trade Center bombing, ". . .Ramazi Yousef, who had also entered with fraudulent documents but claimed political asylum and was

admitted. It quickly became clear that Yousef had been a central player in the attack. He had fled to Pakistan immediately after the bombing and would remain at large for nearly two years."

Later in the report it talks about the outdated immigration benefits system, ". . .when Doris Meissner became INS Commissioner in 1993, she found . . . the asylum and other benefits systems did not effectively deter fraudulent applicants.

Finally, "Terrorists in the 1990s, as well as the September 11 hijackers, needed to find a way to stay in or embed themselves in the United States if their operational plans were to come to fruition." "this could be accomplished

. . . by applying for asylum after entering. In many cases, the act of filing for an immigration benefit (such as claiming asylum) sufficed to permit the alien to remain in the country until the petition was adjudicated. Terrorists were free to conduct surveillance, coordinate operations, obtain and receive funding, go to school and learn English, make contacts in the United States, acquire necessary materials, and execute an attack."

So, if I am to understand my friends on the other side, we are to ignore the problem of asylum abuse and do nothing.

Mr. SESSIONS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. HASTINGS of Florida. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 228, nays 198, not voting 7, as follows:

#### NOT VOTING-7

Carter Hinchey Stupak Eshoo Hinojosa Feeney Radanovich

#### □ 1146

Messrs. BLUMENAUER, KAN-JORSKI, OBEY, RANGEL, and TIERNEY changed their vote from "yea" to "nay."

Mr. TANCREDO changed his vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

NOTICE OF INTENTION TO OFFER MODIFICATION TO NADLER AMENDMENT TO REAL ID ACT OF 2005

(Mr. NADLER asked and was given permission to address the House for 1 minute.)

Mr. NADLER. Mr. Speaker, I would like to take this time to explain a unanimous consent request I am about to make.

Mr. Speaker, I regret I must request unanimous consent to amend my amendment, which I am going to offer later, but the process the majority has chosen to use is, to say the least, unfair. The rule makes in order virtually a new bill, which we did not get to see until after the deadline for submitting amendments to the Committee on Rules.

There was no opportunity to draft our amendments to reflect the bill that we are now considering. My amendment would strike section 101 from the bill as amended by the manager's amendment. But the manager's amendment adds a provision to which we do not object, namely, raising the cap on asylum adjustments. This unanimous consent request would change my amendment so as not to change this good provision added at the last minute by the chairman. If we had seen the manager's amendment before the Committee on Rules deadline, this request would not be necessary.

#### □ 1145

If the majority is sincere in wanting a fair process, there should be no reason to object to this unanimous consent request. This unanimous consent request would not have been necessary if we had seen the manager's amendment before the rules deadline.

REQUEST FOR MODIFICATION TO AMENDMENT NO. 4 TO REAL ID ACT OF 2005

Mr. NADLER. Mr. Speaker, I ask unanimous consent that during further consideration of H.R. 418 pursuant to House Resolution 75, it may be in order to consider amendment No. 4 in House Report 109–4 in the modified form I have placed at the desk.

The SPEAKER pro tempore (Mr. Fossella). The Clerk will report the amendment.

The Clerk read as follows:

AMENDMENT TO H.R. 418 OFFERED BY MR. NADLER OF NEW YORK

Strike section 101 of the bill (and redesignate the succeeding sections of title I accordingly).

Insert, Section 101:

- (a) REMOVAL OF CAPS.—Section 209 of the Immigration and Nationality Act (8 U.S.C. 1159) is amended—
- (1) in subsection (a)(1)—
- (A) by striking "Service" and inserting "Department of Homeland Security"; and

(B) by striking "Attorney General" each place such term appears and inserting "Secretary of Homeland Security or the Attorney General":

(2) in subsection (b)—

(A) by striking "Not more" and all that follows through "asylum who—" inserting "The Secretary of Homeland Security or the Attorney general, in the Secretary's or the Attorney General, in the Secretary's or the Attorney General's discretion and under such regulations as the Secretary or the Attorney General may prescribe, may adjust to the status of an alien lawfully admitted for permanent residence the status of any alien granted asylum who—"; and

(B) in the matter following paragraph (5), by striking "Attorney General" and inserting "Secretary of Homeland Security or the Attorney General": and

(3) in subsection (c), by striking "Attorney General" and inserting "Secretary of Homeland Security or the Attorney General."

Mr. NADLER (during the reading). Mr. Speaker, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

The SPEAKER pro tempore. Is there objection to the original request of the gentleman from New York?

Mr. SENSENBRENNER. Mr. Speaker. I object.

The SPEAKER pro tempore. Objection is heard.

#### REAL ID ACT OF 2005

The SPEAKER pro tempore. Pursuant to House Resolution 75 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 418.

#### □ 1146

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 418) to establish and rapidly implement

regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, and to ensure expeditious construction of the San Diego border fence, with Mr. UPTON (the Acting Chairman) in the chair.

The Clerk read the title of the bill.

The Acting CHAIRMAN. When the Committee of the Whole rose on Wednesday, February 9, 2005, all time for general debate pursuant to House Resolution 71 had expired. Pursuant to House Resolution 75, no further general debate shall be in order.

Pursuant to House Resolution 75, the amendment printed in part A of House Report 109-4 is adopted and the bill, as amended, shall be considered as the original bill for the purpose of further amendment and shall be considered read.

The text of H.R. 418, as amended, is as follows:

#### H.R. 418

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "REAL ID Act of 2005".

# TITLE I—AMENDMENTS TO FEDERAL LAWS TO PROTECT AGAINST TERRORIST ENTRY

## SECTION 101. PREVENTING TERRORISTS FROM OBTAINING RELIEF FROM REMOVAL.

- (a) CONDITIONS FOR GRANTING ASYLUM.— Section 208(b)(1) of the Immigration and Nationality Act (8 U.S.C. 1158(b)(1)) is amended
- (1) by striking "The Attorney General" the first place such term appears and inserting the following:
- "(A) ELIGIBILITY.—The Secretary of Homeland Security or the Attorney General";
- (2) by striking "the Attorney General" the second and third places such term appears and inserting "the Secretary of Homeland Security or the Attorney General"; and
  - (3) by adding at the end the following:
  - "(B) BURDEN OF PROOF.—

"(i) IN GENERAL.—The burden of proof is on the applicant to establish that the applicant is a refugee, within the meaning of section 101(a)(42)(A). To establish that the applicant is a refugee within the meaning of such section, the applicant must establish that race, religion, nationality, membership in a particular social group, or political opinion was or will be a central reason for persecuting the applicant.

"(ii) SUSTAINING BURDEN.—The testimony of the applicant may be sufficient to sustain the applicant's burden without corroboration, but only if the applicant satisfies the trier of fact that the applicant's testimony is credible, is persuasive, and refers to specific facts sufficient to demonstrate that the applicant is a refugee. In determining whether the applicant has met the applicant's burden, the trier of fact may weigh the credible testimony along with other evidence of record. Where the trier of fact determines, in the trier of fact's discretion, that the applicant should provide evidence which corroborates otherwise credible testimony, such evidence must be provided unless the applicant does not have the evidence and cannot reasonably obtain the evidence without departing the United States. The inability to obtain corroborating evidence does not excuse

the applicant from meeting the applicant's burden of proof.

CREDIBILITY DETERMINATION.—The "(iii) trier of fact should consider all relevant factors and may, in the trier of fact's discretion, base the trier of fact's credibility determination on any such factor, including the demeanor, candor, or responsiveness of the applicant or witness, the inherent plausibility of the applicant's or witness's account, the consistency between the applicant's or witness's written and oral statements (whenever made and whether or not made under oath), the internal consistency of each such statement, the consistency of such statements with other evidence of record (including the reports of the Department of State on country conditions), and any inaccuracies or falsehoods in such statements, without regard to whether an inconsistency, inaccuracy, or falsehood goes to the heart of the applicant's claim. There is no presumption of credibility.

(b) WITHHOLDING OF REMOVAL.—Section 241(b)(3) of the Immigration and Nationality Act (8 U.S.C. 1231(b)(3)) is amended by adding at the end the following:

"(C) SUSTAINING BURDEN OF PROOF; CREDIBILITY DETERMINATIONS.—In determining whether an alien has demonstrated that the alien's life or freedom would be threatened for a reason described in subparagraph (A), the trier of fact shall determine whether the alien has sustained the alien's burden of proof, and shall make credibility determinations, in the manner described in clauses (ii) and (iii) of section 208(b)(1)(B)."

(c) OTHER REQUESTS FOR RELIEF FROM RE-MOVAL.—Section 240(c) of the Immigration and Nationality Act (8 U.S.C. 1230(c)) is amended—

- (1) by redesignating paragraphs (4), (5), and (6) as paragraphs (5), (6), and (7), respectively; and
- (2) by inserting after paragraph (3) the following:
- "(4) APPLICATIONS FOR RELIEF FROM RE-MOVAL.—
- "(A) IN GENERAL.—An alien applying for relief or protection from removal has the burden of proof to establish that the alien—
- "(i) satisfies the applicable eligibility requirements; and
- "(ii) with respect to any form of relief that is granted in the exercise of discretion, that the alien merits a favorable exercise of discretion.

(B) SUSTAINING BURDEN.—The applicant must comply with the applicable requirements to submit information or documentation in support of the applicant's application for relief or protection as provided by law or by regulation or in the instructions for the application form. In evaluating the testimony of the applicant or other witness in support of the application, the immigration judge will determine whether or not the testimony is credible, is persuasive, and refers to specific facts sufficient to demonstrate that the applicant has satisfied the applicant's burden of proof. In determining whether the applicant has met such burden. the immigration judge shall weigh the credible testimony along with other evidence of record. Where the immigration judge determines in the judge's discretion that the applicant should provide evidence which corroborates otherwise credible testimony, such evidence must be provided unless the applicant demonstrates that the applicant does not have the evidence and cannot reasonably obtain the evidence without departing from the United States. The inability to obtain corroborating evidence does not excuse the applicant from meeting the burden of proof.

"(C) CREDIBILITY DETERMINATION.—The immigration judge should consider all relevant factors and may, in the judge's discretion,

base the judge's credibility determination on any such factor, including the demeanor, candor, or responsiveness of the applicant or witness, the inherent plausibility of the applicant's or witness's account, the consistency between the applicant's or witness's written and oral statements (whenever made and whether or not made under oath), the internal consistency of each such statement, the consistency of such statements with other evidence of record (including the reports of the Department of State on country conditions), and any inaccuracies or falsehoods in such statements, without regard to whether an inconsistency, inaccuracy, or falsehood goes to the heart of the applicant's claim. There is no presumption of credibility.

(d) STANDARD OF REVIEW FOR ORDERS OF REMOVAL.—Section 242(b)(4) of the Immigration and Nationality Act (8 U.S.C. 1252(b)(4)) is amended by adding at the end, after subparagraph (D), the following: "No court shall reverse a determination made by a trier of fact with respect to the availability of corroborating evidence, as described in section 208(b)(1)(B), 240(c)(4)(B), or 241(b)(3)(C), unless the court finds that a reasonable trier of fact is compelled to conclude that such corroborating evidence is unavailable."

(e) CLARIFICATION OF DISCRETION.—Section 242(a)(2)(B) of the Immigration and Nationality Act (8 U.S.C. 1252(a)(2)(B)) is amended—

(1) by inserting "or the Secretary of Homeland Security" after "Attorney General" each place such term appears: and

(2) in the matter preceding clause (i), by inserting "and regardless of whether the judgment, decision, or action is made in removal proceedings," after "other provision of law.".

(f) Removal of Caps.—Section 209 of the Immigration and Nationality Act (8 U.S.C. 1159) is amended—

(1) in subsection (a)(1)—

(A) by striking "Service" and inserting "Department of Homeland Security"; and

(B) by striking "Attorney General" each place such term appears and inserting "Secretary of Homeland Security or the Attorney General":

(2) in subsection (b)—

(A) by striking "Not more" and all that follows through "asylum who—" and inserting "The Secretary of Homeland Security or the Attorney General, in the Secretary's or the Attorney General's discretion and under such regulations as the Secretary or the Attorney General may prescribe, may adjust to the status of an alien lawfully admitted for permanent residence the status of any alien granted asylum who—"; and

(B) in the matter following paragraph (5), by striking "Attorney General" and inserting "Secretary of Homeland Security or the Attorney General"; and

(3) in subsection (c), by striking "Attorney General" and inserting "Secretary of Homeland Security or the Attorney General".

(g) Effective Dates.—

(1) The amendments made by paragraphs (1) and (2) of subsection (a) shall take effect as if enacted on March 1, 2003.

(2) The amendments made by subsections (a)(3), (b), and (c) shall take effect on the date of the enactment of this Act and shall apply to applications for asylum, withholding, or other removal made on or after such date.

- (3) The amendment made by subsection (d) shall take effect on the date of the enactment of this Act and shall apply to all cases in which the final administrative removal order is or was issued before, on, or after such date.
- (4) The amendments made by subsection (e) shall take effect on the date of the enactment of this Act and shall apply to all cases

pending before any court on or after such date.

- (5) The amendments made by subsection (f) shall take effect on the date of the enactment of this Act.
- (h) REPEAL.—Section 5403 of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458) is repealed.

#### SEC. 102. WAIVER OF LAWS NECESSARY FOR IM-PROVEMENT OF BARRIERS AT BOR-DERS.

Section 102(c) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1103 note) is amended to read as follows:

"(c) Waiver .-

"(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary of Homeland Security shall have the authority to waive, and shall waive, all laws such Secretary, in such Secretary's sole discretion, determines necessary to ensure expeditious construction of the barriers and roads under this section.

"(2) NO JUDICIAL REVIEW.—Notwithstanding any other provision of law (statutory or non-statutory), no court, administrative agency, or other entity shall have jurisdiction—

"(A) to hear any cause or claim arising from any action undertaken, or any decision made, by the Secretary of Homeland Security pursuant to paragraph (1); or

"(B) to order compensatory, declaratory, injunctive, equitable, or any other relief for damage alleged to arise from any such action or decision."

# SEC. 103. INADMISSIBILITY DUE TO TERRORIST AND TERRORIST-RELATED ACTIVITIES.

- (a) IN GENERAL.—So much of section 212(a)(3)(B)(i) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)(i)) as precedes the final sentence is amended to read as follows:
  - "(i) IN GENERAL.—Any alien who—
  - "(I) has engaged in a terrorist activity;

"(II) a consular officer, the Attorney General, or the Secretary of Homeland Security knows, or has reasonable ground to believe, is engaged in or is likely to engage after entry in any terrorist activity (as defined in clause (iv)):

"(III) has, under circumstances indicating an intention to cause death or serious bodily harm, incited terrorist activity;

"(IV) is a representative (as defined in clause (v)) of—

"(aa) a terrorist organization (as defined in clause (vi)); or

"(bb) a political, social, or other group that endorses or espouses terrorist activity;

"(V) is a member of a terrorist organization described in subclause (I) or (II) of clause (vi):

"(VI) is a member of a terrorist organization described in clause (vi)(III), unless the alien can demonstrate by clear and convincing evidence that the alien did not know, and should not reasonably have known, that the organization was a terrorist organization;

"(VII) endorses or espouses terrorist activity or persuades others to endorse or espouse terrorist activity or support a terrorist organization;

"(VIII) has received military-type training (as defined in section 2339D(c)(1) of title 18, United States Code) from or on behalf of any organization that, at the time the training was received, was a terrorist organization (as defined in clause (vi)); or

"(IX) is the spouse or child of an alien who is inadmissible under this subparagraph, if the activity causing the alien to be found inadmissible occurred within the last 5 years, is inadmissible."

- (b) ENGAGE IN TERRORIST ACTIVITY DEFINED.—Section 212(a)(3)(B)(iv) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)(iv)) is amended to read as follows:
- "(iv) Engage in terrorist activity de-FINED.—As used in this Act, the term 'engage in terrorist activity' means, in an individual capacity or as a member of an organization—
- "(I) to commit or to incite to commit, under circumstances indicating an intention to cause death or serious bodily injury, a terrorist activity;
- "(II) to prepare or plan a terrorist activity; "(III) to gather information on potential targets for terrorist activity:
- "(IV) to solicit funds or other things of value for—
  - "(aa) a terrorist activity;
- "(bb) a terrorist organization described in clause (vi)(I) or (vi)(II); or
- "(cc) a terrorist organization described in clause (vi)(III), unless the solicitor can demonstrate by clear and convincing evidence that he did not know, and should not reasonably have known, that the organization was a terrorist organization;
  - "(V) to solicit any individual-
- "(aa) to engage in conduct otherwise described in this subsection;
- "(bb) for membership in a terrorist organization described in clause (vi)(I) or (vi)(II); or
- "(cc) for membership in a terrorist organization or to any member of such an organization, described in clause (vi) or to any member of such an organization," (III), unless the solicitor can demonstrate by clear and convincing evidence that he did not know, and should not reasonably have known, that the organization was a terrorist organization; or
- "(VI) to commit an act that the actor knows, or reasonably should know, affords material support, including a safe house, transportation, communications, funds, transfer of funds or other material financial benefit, false documentation or identification, weapons (including chemical, biological, or radiological weapons), explosives, or training—
- "(aa) for the commission of a terrorist activity;
- "(bb) to any individual who the actor knows, or reasonably should know, has committed or plans to commit a terrorist activ-
- "(cc) to a terrorist organization described in subclause (I) or (II) of clause (vi); or
- "(dd) to a terrorist organization described in clause (vi)(III), or to any member of such an organization, unless the actor can demonstrate by clear and convincing evidence that the actor did not know, and should not reasonably have known, that the organization was a terrorist organization. This clause shall not apply to any material support the alien afforded to an organization or individual that has committed terrorist activity, if the Secretary of State, after consultation with the Attorney General and the Secretary of Homeland Security, or the Attorney General, after consultation with the Secretary of State and the Secretary of Homeland Security, concludes in his sole unreviewable disrection, that this clause should not apply.
- (c) Terrorist Organization Defined.— Section 212(a)(3)(B)(vi) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)(vi)) is amended to read as fol-
- "(vi) Terrorist organization defined.—As used in this section, the term 'terrorist organization' means an organization—
- "(I) designated under section 219;
- "(II) otherwise designated, upon publication in the Federal Register, by the Secretary of State in consultation with or upon the request of the Attorney General or the

- Secretary of Homeland Security, as a terrorist organization, after finding that the organization engages in the activities described in subclauses (I) through (VI) of clause (iv); or
- "(III) that is a group of two or more individuals, whether organized or not, which engages in, or has a subgroup which engages in, the activities described in subclauses (I) through (VI) of clause (iv)."
- (d) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act, and these amendments, and section 212(a)(3)(B) of the Immigration and Nationality Act (8 U.S.C. 1182(a)(3)(B)), as amended by this section, shall apply to—
- (1) removal proceedings instituted before, on, or after the date of the enactment of this Act; and
- (2) acts and conditions constituting a ground for inadmissibility, excludability, deportation, or removal occurring or existing before, on, or after such date.

#### SEC. 104. REMOVAL OF TERRORISTS.

- (a) IN GENERAL.—
- (1) IN GENERAL.—Section 237(a)(4)(B) of the Immigration and Nationality Act (8 U.S.C. 1227(a)(4)(B)) is amended to read as follows:
- ''(B) Terrorist activities.—Any alien who is described in subparagraph (B) or (F) of section 212(a)(3) is deportable.''.
- (2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall take effect on the date of the enactment of this Act, and the amendment, and section 237(a)(4)(B) of the Immigration and Nationality Act (8 U.S.C. 1227(a)(4)(B)), as amended by such paragraph, shall apply to—
- (A) removal proceedings instituted before, on, or after the date of the enactment of this Act; and
- (B) acts and conditions constituting a ground for inadmissibility, excludability, deportation, or removal occurring or existing before, on, or after such date.

### SEC. 105. JUDICIAL REVIEW OF ORDERS OF REMOVAL.

- (a) In General.—Section 242 of the Immigration and Nationality Act (8 U.S.C. 1252) is amended—
  - (1) in subsection (a)—
  - (A) in paragraph (2)—
- (i) in subparagraph (A), by inserting "(statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title" after "Notwithstanding any other provision of law";
- (ii) in each of subparagraphs (B) and (C), by inserting "(statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, and except as provided in subparagraph (D)" after "Notwithstanding any other provision of law"; and
- (iii) by adding at the end the following:
- "(D) JUDICIAL REVIEW OF CERTAIN LEGAL CLAIMS.—Nothing in subparagraph (B) or (C), or in any other provision of this Act which limits or eliminates judicial review, shall be construed as precluding review of constitutional claims or pure questions of law raised upon a petition for review filed with an appropriate court of appeals in accordance with this section.": and
- (B) by adding at the end the following:
- "(4) CLAIMS UNDER THE UNITED NATIONS CON-VENTION.—Notwithstanding any other provision of law (statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, a petition for review filed with an appropriate court of appeals in accordance with this section shall be the sole and exclusive means for

judicial review of any cause or claim under the United Nations Convention Against Torture and Other Forms of Cruel, Inhuman, or Degrading Treatment or Punishment, except as provided in subsection (e).

"(5) EXCLUSIVE MEANS OF REVIEW.—Notwithstanding any other provision of law (statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, a petition for review filed with an appropriate court of appeals in accordance with this section shall be the sole and exclusive means for judicial review of an order of removal entered or issued under any provision of this Act, except as provided in subsection (e). For purposes of this Act, in every provision that limits or eliminates judicial review or jurisdiction to review, the terms 'judicial review' and 'jurisdiction to review' include habeas corpus review pursuant to section 2241 of title 28, United States Code, or any other habeas corpus provision, sections 1361 and 1651 of such title, and review pursuant to any other provision of law (statutory or nonstatutory).

(2) in subsection (b)-

(A) in paragraph (3)(B), by inserting "pursuant to subsection (f)" after "unless"; and

- (B) in paragraph (9), by adding at the end the following: "Except as otherwise provided in this section, no court shall have jurisdiction, by habeas corpus under section 2241 of title 28, United States Code, or any other habeas corpus provision, by section 1361 or 1651 of such title, or by any other provision of law (statutory or nonstatutory), to review such an order or such questions of law or fact.";
- (3) in subsection (g), by inserting "(statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title" after "notwithstanding any other provision of law".
- (b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect upon the date of the enactment of this Act and shall apply to cases in which the final administrative order of removal, deportation, or exclusion was issued before, on, or after the date of the enactment of this Act.
- (c) TRANSFER OF CASES.—If an alien's case, brought under section 2241 of title 28. United States Code, and challenging a final administrative order of removal, deportation, or exclusion, is pending in a district court on the date of the enactment of this Act, then the district court shall transfer the case (or the part of the case that challenges the order of removal, deportation, or exclusion) to the court of appeals for the circuit in which a netition for review could have been properly filed under section 242(b)(2) of the Immigration and Nationality Act (8 U.S.C. 1252), as amended by this section, or under section 309(c)(4)(D) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1101 note). The court of appeals shall treat the transferred case as if it had been filed pursuant to a petition for review under such section 242, except that subsection (b)(1) of such section shall not apply.
- (d) TRANSÍTIONAL RULE CASES.—A petition for review filed under former section 106(a) of the Immigration and Nationality Act (as in effect before its repeal by section 306(b) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1252 note)) shall be treated as if it had been filed as a petition for review under section 242 of the Immigration and Nationality Act (8 U.S.C. 1252), as amended by this section. Notwithstanding any other provision of law (statutory or nonstatutory), including section 2241 of title 28, United States Code, or any other habeas corpus provision, and sections 1361 and 1651 of such title, such petition

for review shall be the sole and exclusive means for judicial review of an order of deportation or exclusion.

# TITLE II—IMPROVED SECURITY FOR DRIVERS' LICENSES AND PERSONAL IDENTIFICATION CARDS

#### SEC. 201. DEFINITIONS.

- In this title, the following definitions apply:
- (1) DRIVER'S LICENSE.—The term "driver's license" means a motor vehicle operator's license, as defined in section 30301 of title 49, United States Code.
- (2) IDENTIFICATION CARD.—The term "identification card" means a personal identification card, as defined in section 1028(d) of title 18, United States Code, issued by a State.

  (3) SECRETARY.—The term "Secretary"
- (3) SECRETARY.—The term "Secretary' means the Secretary of Homeland Security.
- (4) STATE.—The term "State" means a State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

# SEC. 202. MINIMUM DOCUMENT REQUIREMENTS AND ISSUANCE STANDARDS FOR FEDERAL RECOGNITION.

- (a) MINIMUM STANDARDS FOR FEDERAL USE.—
- (1) IN GENERAL.—Beginning 3 years after the date of the enactment of this Act, a Federal agency may not accept, for any official purpose, a driver's license or identification card issued by a State to any person unless the State is meeting the requirements of this section.
- (2) STATE CERTIFICATIONS.—The Secretary shall determine whether a State is meeting the requirements of this section based on certifications made by the State to the Secretary of Transportation. Such certifications shall be made at such times and in such manner as the Secretary of Transportation, in consultation with the Secretary of Homeland Security, may prescribe by regulation.
- (b) MINIMUM DOCUMENT REQUIREMENTS.—To meet the requirements of this section, a State shall include, at a minimum, the following information and features on each driver's license and identification card issued to a person by the State:
  - (1) The person's full legal name.
  - (2) The person's date of birth.
- (3) The person's gender.
- (4) The person's driver's license or identification card number.
- (5) A digital photograph of the person.
- (6) The person's address of principle residence.
  - (7) The person's signature.
- (8) Physical security features designed to prevent tampering, counterfeiting, or duplication of the document for fraudulent purposes.
- (9) A common machine-readable technology, with defined minimum data elements.
  - (c) MINIMUM ISSUANCE STANDARDS.—
- (1) IN GENERAL.—To meet the requirements of this section, a State shall require, at a minimum, presentation and verification of the following information before issuing a driver's license or identification card to a person:
- (A) A photo identity document, except that a non-photo identity document is acceptable if it includes both the person's full legal name and date of birth.
- (B) Documentation showing the person's date of birth.
- (C) Proof of the person's social security account number or verification that the person is not eligible for a social security account number.
- (D) Documentation showing the person's name and address of principal residence.

- (2) SPECIAL REQUIREMENTS.-
- (A) IN GENERAL.—To meet the requirements of this section, a State shall comply with the minimum standards of this paragraph.
- (B) EVIDENCE OF LAWFUL STATUS.—A State shall require, before issuing a driver's license or identification card to a person, valid documentary evidence that the person—
- (i) is a citizen of the United States:
- (ii) is an alien lawfully admitted for permanent or temporary residence in the United States:
- (iii) has conditional permanent resident status in the United States;
- (iv) has an approved application for asylum in the United States or has entered into the United States in refugee status;
- (v) has a valid, unexpired nonimmigrant visa or nonimmigrant visa status for entry into the United States;
- (vi) has a pending application for asylum in the United States;
- (vii) has a pending or approved application for temporary protected status in the United States:
- (viii) has approved deferred action status; or
- (ix) has a pending application for adjustment of status to that of an alien lawfully admitted for permanent residence in the United States or conditional permanent resident status in the United States.
- (C) Temporary drivers' licenses and identification cards.—
- (i) IN GENERAL.—If a person presents evidence under any of clauses (v) through (ix) of subparagraph (B), the State may only issue a temporary driver's license or temporary identification card to the person.
- (ii) EXPIRATION DATE.—A temporary driver's license or temporary identification card issued pursuant to this subparagraph shall be valid only during the period of time of the applicant's authorized stay in the United States or, if there is no definite end to the period of authorized stay, a period of one year.
- (iii) DISPLAY OF EXPIRATION DATE.—A temporary driver's license or temporary identification card issued pursuant to this subparagraph shall clearly indicate that it is temporary and shall state the date on which it expires.
- (iv) RENEWAL.—A temporary driver's license or temporary identification card issued pursuant to this subparagraph may be renewed only upon presentation of valid documentary evidence that the status by which the applicant qualified for the temporary driver's license or temporary identification card has been extended by the Secretary of Homeland Security.
- (3) VERIFICATION OF DOCUMENTS.—To meet the requirements of this section, a State shall implement the following procedures:
- (A) Before issuing a driver's license or identification card to a person, the State shall verify, with the issuing agency, the issuance, validity, and completeness of each document required to be presented by the person under paragraph (1) or (2).
- (B) The State shall not accept any foreign document, other than an official passport, to satisfy a requirement of paragraph (1) or (2).
- (C) Not later than September 11, 2005, the State shall enter into a memorandum of understanding with the Secretary of Homeland Security to routinely utilize the automated system known as Systematic Alien Verification for Entitlements, as provided for by section 404 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (110 Stat. 3009-664), to verify the legal presence status of a person, other than a United States citizen, applying for a driver's license or identification card.

- (d) OTHER REQUIREMENTS.—To meet the requirements of this section, a State shall adopt the following practices in the issuance of drivers' licenses and identification cards:
- (1) Employ technology to capture digital images of identity source documents so that the images can be retained in electronic storage in a transferable format.
- (2) Retain paper copies of source documents for a minimum of 7 years or images of source documents presented for a minimum of 10 years.
- (3) Subject each person applying for a driver's license or identification card to mandatory facial image capture.
- (4) Establish an effective procedure to confirm or verify a renewing applicant's information.
- (5) Confirm with the Social Security Administration a social security account number presented by a person using the full social security account number. In the event that a social security account number is already registered to or associated with another person to which any State has issued a driver's license or identification card, the State shall resolve the discrepancy and take appropriate action.
- (6) Refuse to issue a driver's license or identification card to a person holding a driver's license issued by another State without confirmation that the person is terminating or has terminated the driver's license.
- (7) Ensure the physical security of locations where drivers' licenses and identification cards are produced and the security of document materials and papers from which drivers' licenses and identification cards are produced.
- (8) Subject all persons authorized to manufacture or produce drivers' licenses and identification cards to appropriate security clearance requirements.
- (9) Establish fraudulent document recognition training programs for appropriate employees engaged in the issuance of drivers' licenses and identification cards.
- (10) Limit the period of validity of all driver's licenses and identification cards that are not temporary to a period that does not exceed 8 years.

#### SEC. 203. LINKING OF DATABASES.

- (a) IN GENERAL.—To be eligible to receive any grant or other type of financial assistance made available under this title, a State shall participate in the interstate compact regarding sharing of driver license data, known as the "Driver License Agreement", in order to provide electronic access by a State to information contained in the motor vehicle databases of all other States.
- (b) REQUIREMENTS FOR INFORMATION.—A State motor vehicle database shall contain, at a minimum, the following information:
- (1) All data fields printed on drivers' licenses and identification cards issued by the State.
- (2) Motor vehicle drivers' histories, including motor vehicle violations, suspensions, and points on licenses.

# SEC. 204. TRAFFICKING IN AUTHENTICATION FEATURES FOR USE IN FALSE IDENTIFICATION DOCUMENTS.

Section 1028(a)(8) of title 18, United States Code, is amended by striking "false authentication features" and inserting "false or actual authentication features".

#### SEC. 205. GRANTS TO STATES.

- (a) IN GENERAL.—The Secretary may make grants to a State to assist the State in conforming to the minimum standards set forth in this title.
- (b) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to the Secretary for each of the fiscal years 2005 through 2009 such sums as may be necessary to carry out this title.

#### SEC. 206. AUTHORITY.

- (a) PARTICIPATION OF SECRETARY OF TRANS-PORTATION AND STATES.—All authority to issue regulations, set standards, and issue grants under this title shall be carried out by the Secretary, in consultation with the Secretary of Transportation and the States.
- (b) COMPLIANCE WITH STANDARDS.—All authority to certify compliance with standards under this title shall be carried out by the Secretary of Transportation, in consultation with the Secretary of Homeland Security and the States.
- (c) EXTENSIONS OF DEADLINES.—The Secretary may grant to a State an extension of time to meet the requirements of section 202(a)(1) if the State provides adequate justification for noncompliance.

#### SEC. 207. REPEAL.

Section 7212 of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458) is repealed.

### SEC. 208. LIMITATION ON STATUTORY CONSTRUCTION.

Nothing in this title shall be construed to affect the authorities or responsibilities of the Secretary of Transportation or the States under chapter 303 of title 49, United States Code.

The Acting CHAIRMAN. No further amendment to the bill, as amended, shall be in order except those printed in part B of the report. Each amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered read, debatable for the time specified in the report, equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question.

It is now in order to consider amendment No. 1 printed in part B of House Report 109-4.

AMENDMENT NO. 1 OFFERED BY MR. SESSIONS Mr. SESSIONS. Mr. Chairman, I offer

an amendment.
The Acting CHAIRMAN. The Clerk

will designate the amendment.

The text of the amendment is as follows:

lows:
Part B Amendment No. 1 offered by Mr.

SESSIONS:
At the end of title I, add the following:

#### SEC. 105. DELIVERY BONDS.

- (a) DEFINITIONS.—For purposes of this section:
- (1) DELIVERY BOND.—The term "delivery bond" means a written suretyship undertaking for the surrender of an individual against whom the Department of Homeland Security has issued an order to show cause or a notice to appear, the performance of which is guaranteed by an acceptable surety on Federal bonds.
- (2) PRINCIPAL.—The term "principal" means an individual who is the subject of a bond
- (3) SURETYSHIP UNDERTAKING.—The term "suretyship undertaking" means a written agreement, executed by a bonding agent on behalf of a surety, which binds all parties to its certain terms and conditions and which provides obligations for the principal and the surety while under the bond and penalties for forfeiture to ensure the obligations of the principal and the surety under the agreement.
- (4) BONDING AGENT.—The term "bonding agent" means any individual properly licensed, approved, and appointed by power of attorney to execute or countersign surety

- bonds in connection with any matter governed by the Immigration and Nationality Act as amended (8 U.S.C. 1101, et seq.), and who receives a premium for executing or countersigning such surety bonds.
- (5) SURETY.—The term "surety" means an entity, as defined by, and that is in compliance with, sections 9304 through 9308 of title 31, United States Code, that agrees—
- (A) to guarantee the performance, where appropriate, of the principal under a bond;
- ppropriate, of the principal under a bond;
  (B) to perform the bond as required; and
- (C) to pay the face amount of the bond as a penalty for failure to perform.
- (b) VALIDITY, AGENT NOT CO-OBLIGOR, EXPIRATION, RENEWAL, AND CANCELLATION OF
- (1) VALIDITY.—Delivery bond undertakings are valid if such bonds—
- (A) state the full, correct, and proper name of the alien principal;
- (B) state the amount of the bond;
- (C) are guaranteed by a surety and countersigned by an agent who is properly appointed:
- (D) bond documents are properly executed; and
- (E) relevant bond documents are properly filed with the Secretary of Homeland Security.
- (2) Bonding agent not co-obligor, party. OR GUARANTOR IN INDIVIDUAL CAPACITY, AND NO REFUSAL IF ACCEPTABLE SURETY.—Section 9304(b) of title 31, United States Code, is amended by adding at the end the following: "Notwithstanding any other provision of law, no bonding agent of a corporate surety shall be required to execute bonds as a co-obligor, party, or guarantor in an individual capacity on bonds provided by the corporate surety, nor shall a corporate surety bond be refused if the corporate surety appears on the current Treasury Department Circular 570 as a company holding a certificate of authority as an acceptable surety on Federal bonds and attached to the bond is a currently valid instrument showing the authority of the bonding agent of the surety company to execute the bond.'
- (3) EXPIRATION.—A delivery bond undertaking shall expire at the earliest of—
  - (A) 1 year from the date of issue;
- (B) at the cancellation of the bond or surrender of the principal; or
- (C) immediately upon nonpayment of the renewal premium.
- (4) RENEWAL.—Delivery bonds may be renewed annually, with payment of proper premium to the surety, if there has been no breach of conditions, default, claim, or forfeiture of the bond. Notwithstanding any renewal, when the alien is surrendered to the Secretary of Homeland Security for removal, the Secretary shall cause the bond to be canceled
- (5) CANCELLATION.—Delivery bonds shall be canceled and the surety exonerated—
- (A) for nonrenewal after the alien has been surrendered to the Department of Homeland Security for removal;
- (B) if the surety or bonding agent provides reasonable evidence that there was misrepresentation or fraud in the application for the bond;
- (C) upon the death or incarceration of the principal, or the inability of the surety to produce the principal for medical reasons;
- (D) if the principal is detained by any law enforcement agency of any State, county, city, or any politial subdivision thereof;
- (E) if it can be established that the alien departed the United States of America for any reason without permission of the Secretary of Homeland Security, the surety, or the bonding agent;
- (F) if the foreign state of which the principal is a national is designated pursuant to

- section 244 of the Act (8 U.S.C. 1254a) after the bond is posted; or
- (G) if the principal is surrendered to the Department of Homeland Security, removal by the surety or the bonding agent.
- (6) SURRENDER OF PRINCIPAL; FORFEITURE OF BOND PREMIUM.—
- (A) SURRENDER.—At any time, before a breach of any of the bond conditions, if in the opinion of the surety or bonding agent, the principal becomes a flight risk, the principal may be surrendered to the Department of Homeland Security for removal.
- (B) FORFEITURE OF BOND PREMIUM.—A principal may be surrendered without the return of any bond premium if the principal—
- (i) changes address without notifying the surety, the bonding agent, and the Secretary of Homeland Security in writing prior to such change:
- (ii) hides or is concealed from a surety, a bonding agent, or the Secretary;
- (iii) fails to report to the Secretary as required at least annually; or
- (iv) violates the contract with the bonding agent or surety, commits any act that may lead to a breach of the bond, or otherwise violates any other obligation or condition of the bond established by the Secretary.
- (7) CERTIFIED COPY OF BOND AND ARREST WARRANT TO ACCOMPANY SURRENDER.—
- (A) IN GENERAL.—A bonding agent or surety desiring to surrender the principal—
- (i) shall have the right to petition the Secretary of Homeland Security or any Federal court, without having to pay any fees or court costs, for an arrest warrant for the arrest of the principal;
- (ii) shall forthwith be provided 2 certified copies each of the arrest warrant and the bond undertaking, without having to pay any fees or courts costs; and
- (iii) shall have the right to pursue, apprehend, detain, and surrender the principal, together with certified copies of the arrest warrant and the bond undertaking, to any Department of Homeland Security detention official or Department detention facility or any detention facility authorized to hold Federal detainees.
- (B) EFFECTS OF DELIVERY.—Upon surrender of a principal under subparagraph (A)(iii)—
- (i) the official to whom the principal is surrendered shall detain the principal in custody and issue a written certificate of surrender; and
- (ii) the Secretary of Homeland Security shall immediately exonerate the surety from any further liability on the bond.
- (8) FORM OF BOND.—Delivery bonds shall in all cases state the following and be secured by a corporate surety that is certified as an acceptable surety on Federal bonds and whose name appears on the current Treasury Department Circular 570:
- "(A) Breach of bond; procedure, forfeiture, notice.—
- "(i) If a principal violates any conditions of the delivery bond, or the principal is or becomes subject to a final administrative order of deportation or removal, the Secretary of Homeland Security shall—
- "(I) immediately issue a warrant for the principal's arrest and enter that arrest warrant into the National Crime Information Center (NCIC) computerized information database;
- "(II) order the bonding agent and surety to take the principal into custody and surrender the principal to any one of 10 designated Department of Homeland Security 'turn-in' centers located nationwide in the areas of greatest need, at any time of day during 15 months after mailing the arrest warrant and the order to the bonding agent and the surety as required by subclause (III), and immediately enter that order into the

National Crime Information Center (NCIC) computerized information database; and

"(III) mail 2 certified copies each of the arrest warrant issued pursuant to subclause (I) and 2 certified copies each of the order issued pursuant to subclause (II) to only the bonding agent and surety via certified mail return receipt to their last known addresses.

"(ii) Bonding agents and sureties shall immediately notify the Secretary of Homeland Security of their changes of address and/or telephone numbers.

"(iii) The Secretary of Homeland Security shall establish, disseminate to bonding agents and sureties, and maintain on a current basis a secure nationwide toll-free list of telephone numbers of Department of Homeland Security officials, including the names of such officials, that bonding agents, sureties, and their employees may immediately contact at any time to discuss and resolve any issue regarding any principal or bond, to be known as 'Points of Contact'.

'(iv) A bonding agent or surety shall have full and complete access, free of charge, to any and all information, electronic or otherwise, in the care, custody, and control of the United States Government or any State or local government or any subsidiary or police agency thereof regarding the principal that may be helpful in complying with section 105 of the REAL ID Act of 2005 that the Secretary of Homeland Security, by regulations subject to approval by Congress, determines may be helpful in locating or surrendering the principal. Beyond the principal, a bonding agent or surety shall not be required to disclose any information, including but not limited to the arrest warrant and order, received from any governmental source, any person, firm, corporation, or other entity.

"(v) If the principal is later arrested, detained, or otherwise located outside the United States and the outlying possessions of the United States (as defined in section 101(a) of the Immigration and Nationality Act), the Secretary of Homeland Security shall—

"(I) immediately order that the surety is completely exonerated, and the bond canceled; and

"(II) if the Secretary of Homeland Security has issued an order under clause (1), the surety may request, by written, properly filed motion, reinstatement of the bond. This subclause may not be construed to prevent the Secretary of Homeland Security from revoking or resetting a bond at a higher amount. "(vi) The bonding agent or surety must—

"(I) during the 15 months after the date the arrest warrant and order were mailed pursuant to clause (i)(III) surrender the principal

one time; or

"(II)(aa) provide reasonable evidence that producing the principal was prevented—

"(aaa) by the principal's illness or death; "(bbb) because the principal is detained in

"(bbb) because the principal is detained in custody in any city, State, country, or any political subdivision thereof;

"(ccc) because the principal has left the United States or its outlying possessions (as defined in section 101(a) of the Immigration and Nationality Act (8 U.S.C. 1101(a)); or

 $\lq\lq(ddd)$  because required notice was not given to the bonding agent or surety; and

"(bb) establish by affidavit that the inability to produce the principal was not with the consent or connivance of the bonding agent or surety.

"(vii) If compliance occurs more than 15 months but no more than 18 months after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 25 percent of the face amount of the bond shall be assessed as a penalty against the surety.

"(viii) If compliance occurs more than 18 months but no more than 21 months after

the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 50 percent of the face amount of the bond shall be assessed as a penalty against the surety.

"(ix) If compliance occurs more than 21 months but no more than 24 months after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 75 percent of the face amount of the bond shall be assessed as a penalty against the surety.

"(x) If compliance occurs 24 months or more after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III), an amount equal to 100 percent of the face amount of the bond shall be assessed as a penalty against the surety.

"(xi) If any surety surrenders any principal to the Secretary of Homeland Security at any time and place after the period for compliance has passed, the Secretary of Homeland Security shall cause to be issued to that surety an amount equal to 50 percent of the face amount of the bond: Provided, however, That if that surety owes any penalties on bonds to the United States, the amount that surety would otherwise receive shall be offset by and applied as a credit against the amount of penalties on bonds it owes the United States, and then that surety shall receive the remainder of the amount to which it is entitled under this subparagraph, if any.

"(xii) All penalties assessed against a surety on a bond, if any, shall be paid by the surety no more than 27 months after the mailing of the arrest warrant and order to the bonding agent and the surety required under clause (i)(III).

"(B) The Secretary of Homeland Security may waive penalties or extend the period for payment or both, if—

"(i) a written request is filed with the Secretary of Homeland Security; and

"(ii) the bonding agent or surety provides an affidavit that diligent efforts were made to effect compliance of the principal.

"(C) COMPLIANCE; EXONERATION; LIMITATION OF LIABILITY.—

"(i) COMPLIANCE.—A bonding agent or surety shall have the absolute right to locate, apprehend, arrest, detain, and surrender any principal, wherever he or she may be found, who violates any of the terms and conditions of his or her bond.

"(ii) Exoneration.—Upon satisfying any of the requirements of the bond, the surety shall be completely exonerated.

"(iii) LIMITATION OF LIABILITY.—Notwithstanding any other provision of law, the total liability on any surety undertaking shall not exceed the face amount of the bond."

(c) EFFECTIVE DATE.—The provisions of this section shall take effect on the date of the enactment of this Act and shall apply to bonds and surety undertakings executed before, on, or after the date of the enactment of this Act.

### SEC. 106. RELEASE OF ALIENS IN REMOVAL PROCEEDINGS.

(a) IN GENERAL.—Section 236(a)(2) of the Immigration and Nationality Act (8 U.S.C. 1226(a)(2)) is amended to read as follows:

"(2) subject to such reasonable regulations as the Secretary of Homeland Security may prescribe, shall permit agents, servants, and employees of corporate sureties to visit in person with individuals detained by the Secretary of and, subject to section 241(a)(8), may release the alien on a delivery bond of at least \$10,000, with security approved by the Secretary, and containing conditions and procedures prescribed by section 105 of the REAL ID Act of 2005 and by the Secretary but the Secretary shall not release the alien on or to his own recognizance unless an

order of an immigration judge expressly finds and states in a signed order to release the alien to his own recognizance that the alien is not a flight risk and is not a threat to the United States'.

(b) Repeal.—Section 286(r) of the Immigration and Nationality Act (8 U.S.C. 1356(r)) is repealed.

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of the enactment of this Act.

### SEC. 107. DETENTION OF ALIENS DELIVERED BY BONDSMEN.

(a) IN GENERAL.—Section 241(a) of the Immigration and Nationality Act (8 U.S.C. 1231(a)) is amended by adding at the end the following:

"(8) EFFECT OF PRODUCTION OF ALIEN BY BONDSMAN.—Notwithstanding any other provision of law, the Secretary of Homeland Security shall take into custody any alien subject to a final order of removal, and cancel any bond previously posted for the alien, if the alien is produced within the prescribed time limit by the obligor on the bond whether or not the Department of Homeland Security accepts custody of the alien. The obligor on the bond shall be deemed to have substantially performed all conditions imposed by the terms of the bond, and shall be released from liability on the bond, if the alien is produced within such time limit."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the date of the enactment of this Act and shall apply to all immigration bonds posted before, on, or after such date.

The Acting CHAIRMAN. Pursuant to House Resolution 75, the gentleman from Texas (Mr. Sessions) and the gentlewoman from Texas (Ms. Jackson-Lee) each will control 10 minutes.

The Chair recognizes the gentleman from Texas (Mr. Sessions).

Mr. SESSIONS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, in August 2004, the bipartisan chairman of the 9/11 Commission testified at the Select Committee on Homeland Security that border security combined with the routine and effective enforcement of immigration laws must be a top priority for Congress and the administration if our country can expect to secure the homeland and prevent another tragedy like what happened on 9/11 from happening again here in America.

The 9/11 Commission report states on page 384 that "looking back, we can also see that the routine operations of our immigration laws, that is, aspects of the laws not specifically aimed at protecting against terrorism inevitably shaped al Qaeda's planning and opportunities."

There is no more basic homeland security function of our legal system than deporting aliens who have been afforded due process and who have subsequently been ordered deported by a Federal judge. Sadly, according to our government's best statistics, only 13 percent of the aliens arrested entering the country illegally and ordered deported are actually removed.

As a result, people entering the country illegally with criminal or terrorist intent have quickly learned that, if arrested, they can be quickly released on their own word, and that they can be

confident in the knowledge that they do not have to show up for their hearing, knowing they will likely never be deported

My amendment seeks to remedy this threat to our safety by clarifying the use of delivery bonds by the Department of Homeland Security. This concept is nothing new. The authority to leverage delivery bonds to compel attendance at Federal deportation proceedings already exists in Federal law. The Department simply needs guidance from Congress on how to best use its existing bond authority to reach the goal of 100 percent repatriation of all aliens ordered deported, and that is exactly what my amendment will provide.

Quite simply, the amendment makes certain before an alien is released from Department of Homeland Security detention pending an upcoming hearing, the Federal judge must first certify that the alien is not a flight risk, and more important, that he does not pose a security risk to the United States.

By improving this routine and fundamental operation of our laws, my amendment will limit terrorists' planning and opportunities to attack Americans here at home, and to begin fulfilling what the 9/11 Commission identified last summer as a top priority for Congress. I ask that all Members of this House support my amendment and build upon the strong deportation reform initiatives already included in H.R. 418.

Mr. Chairman, I reserve the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, let me first of all say and repeat what I have said many times, that immigration does not equate to terrorism. Also I have said just recently, this morning, that the immigration reform question is a bipartisan question. I also took note of the fact that if one were to take polling numbers, there obviously is an overwhelming impression that what we are addressing today is an immigration bill.

Certainly the Sessions amendment deals more with immigration than it does with straight issues of terrorism, because there is no divide amongst the American people regarding securing the homeland.

My concern with this legislation is procedural, but it is also a question of fairness. This is a serious departure from the normal trends that we have now expressed by the body of this Congress and that is the establishment of the Department of Homeland Security. This in fact takes homeland security responsibilities and actually outsources them. The reason this is so challenging is that the Committee on Homeland Security, the gentleman from California (Chairman Cox) and the gentleman from Mississippi (Mr. THOMPSON), the ranking member, have not had a chance to review this amendment.

This amendment has had no hearings, and here we are talking about giving extraordinary powers to bondsmen. This means if you are an immigrant undocumented in removal proceedings working with a lawyer, working with family members, you are then dispatching bondspersons with no direct immigration training to round you up and immediately bring you to a point of deportation where you are in the middle of a legal process.

If that is considered to be, one, a recommendation of the 9/11 Commission, I would severely and strongly disagree. Yes, individuals who are in line to be deported is an issue. We need more detention beds and more security at our borders, but we do not need to outsource to bondspersons, however financially opportunistic it may be, and as a former judge and someone who deals with these issues in my private practice before coming to Congress, I realize bondspersons have their role, but not to contract out to deal with this issue.

I know the gentleman from Texas (Mr. Sessions) has good intentions, but may I give a historical perspective, and that is of the 1850 Fugitive Slave Act. The truly frightening part of this legislation is it smacks of that kind of effort. The Fugitive Slave Act gave broad, virtually unfettered power to agents or slave owners to seize slaves in the free States and return or send them to slavery in the slave States, obviously with little regard for their legal status in free States with no due process and opportunity to defend themselves. That was 1850.

If we randomly give the opportunity to bondsmen who have no understanding of immigration laws, we can be assured that in a discriminatory fashion they will be rounding up people who look different and speak different languages, and we will be impacted in a very negative way.

I close by saying all of us in our congressional districts hear the hardship cases of immigrants who are seeking legal status who have been in line for long times who have had terrible things happen to them because of the complexity of the immigration system. That speaks for comprehensive immigration reform, but those are the very victims, those sad cases, that are going to be impacted by this amendment.

I rise in opposition to the amendment that my colleague Congressman SESSIONS has offered. This amendment would empower bail bondsman to enforce immigration laws by summarily rounding up and deporting people. It would outsource an important government immigration enforcement responsibility to the bail bonds industry, eliminating the few procedural due process rights immigrants have when challenging deportation. This would be a dramatic change in how we arrest and detain people in removal proceedings. Many people rounded up in this manner would turn out not to be deportable after all. They may be U.S. citizens; they may not be removable under the grounds charged; or they may be eligible for some form of relief. Yet this policy would treat them all as criminals.

I am particularly disturbed by the fact that these dramatic policy changes have never been reviewed or examined by a Congressional committee. There were no hearings. No debate occurred. No scrutiny at all. In fact, the language of this amendment was only recently made available.

Without Committee scrutiny, we would be giving bonding agents vast, unfettered authority to pursue, apprehend, detain and surrender immigrants—even when the bond is not breached. This is a certain recipe for misconduct, mistakes and the trampling of civil, due process and human rights.

Without Committee scrutiny, we would be allowing bonding agents to decide when people are flight risks and to round them up and hand them over to DHS for deportation.

Without Committee scrutiny we would be permitting bonds to be forfeited and people deported for not notifying DHS of changes of address prior to a move—even though DHS regulations give immigrants 10 days after a move to notify the agency of the change.

Without Committee scrutiny, we would be allowing bonding agents to have open access to all information held by the U.S. Government or any State or local government that may be helpful in locating or surrendering the person who is the subject of the bond.

Without Committee scrutiny, we would be compelling the disclosure of sensitive or confidential information to a bonding agent, such as: medical history; criminal investigation notes, location of witnesses, and information on victims of domestic violence.

I urge you to vote against this amendment. Mr. Chairman, I reserve the balance of my time.

Mr. SESSIONS. Mr. Chairman, I yield 3 minutes to the gentleman from Texas (Mr. SMITH), a former subcommittee chairman for the Committee on the Judiciary.

Mr. SMITH of Texas. Mr. Chairman, I strongly support the Sessions amendment. This amendment helps ensure that deportable aliens are actually removed from the United States. Incredibly, only 13 percent of the illegal aliens arrested and ordered deported are actually removed from the country. Illegal aliens trying to sneak across the borders realize that, even if they get caught, they likely will never be required to leave. Of course, this only encourages illegal immigration.

The Sessions amendment helps correct this problem by giving the Department of Homeland Security guidance on the use of delivery bonds. Delivery bonds are already authorized under current law. This is nothing new. They require aliens to post a cash deposit and provide a written commitment they will appear in court. If the alien who posts bond violates any conditions of the bond, the bonding agent can take the alien into custody and surrender him to the Department of Homeland Security.

The Sessions amendment improves the use of delivery bonds by setting up 10 turn-in centers around the country to help bonding agents turn over deportable aliens to the Department of Homeland Security. It also sets up a system to encourage bonding agents to

keep looking for deportable aliens and turn them into DHS when they are found.

Illegal aliens, who comprise over 20 percent of all Federal prisoners today, are a serious problem in the United States and pose, obviously, a homeland security threat. We need to make sure that aliens who are deported by a court of law are in fact removed from the country. The Sessions amendment helps make sure that happens.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield 3 minutes to the gentleman from Mississippi (Mr. THOMPSON), the newly appointed ranking member of the Committee on Homeland Security.

Mr. THOMPSON of Mississippi. Mr. Chairman, a better amendment title for this amendment would be The Bounty Hunter Act of 2005.

The amendment gives bail bondsmen authority to round up illegal immigrants and to have them deported without any sort of hearing or due process rights. This amendment would not make our homeland any safer or keep terrorists out. Instead, it would endanger civil rights and create fear in the immigrant community. We should not outsource the Department of Homeland Security's job to a bunch of bounty hunters.

As already has been said, the Fugitive Slave Act of 1850 has very similar language to this amendment. And for those Members who have not suffered from the ills of slavery and what people went through, I want to share and encourage you to look at this amendment very clearly before it comes to a vote.

#### □ 1200

Let us give the Department of Homeland Security the 2,000 employees that we authorized for border security, not 2,000 bounty hunters. This is not a reality program. People will not be watching it on TV. We are turning over the Department of Homeland Security's enforcement responsibility to bounty hunters, people who have no training whatsoever, who absolutely can and possibly will infringe on civil rights of the people of this country.

Mr. Chairman, I encourage absolute opposition to this amendment.

Mr. SESSIONS. Mr. Chairman, I yield 2 minutes to the gentlewoman from Florida (Ms. GINNY BROWN-WAITE).

Ms. GINNY BROWN-WAITE of Florida. Mr. Chairman, I rise today in very strong support of the bill, H.R. 418, and also the very fine amendment of the gentleman from Texas (Mr. Sessions).

I spoke on the floor last December in opposition to the conference report on the intelligence bill because it lacked the provisions that we are actually debating here today. I commend the leadership of, certainly, the gentleman from Wisconsin (Chairman SENSENBRENNER) and the gentleman from Texas (Mr. SESSIONS), for bringing this amendment to our attention and adding it to the bill. I am very pleased

that they made good on their promise that we would be here today providing for the provisions that the gentleman from Wisconsin (Mr. Sensenbrenner) had.

No issue is more important to this Congress than securing our borders and protecting our homeland, and I guarantee it is very important to our constituents.

When I was in the Florida senate, I headed up the Homeland Security Committee shortly after 9/11, and many of the provisions that are in this bill we actually included when we took on the driver's license issue, making the driver's licenses only last as long as the person was legally in the country. I applaud the gentleman from Wisconsin (Chairman Sensenbrenner) and the House leadership for making good on their promise and enacting the recommendations made by the 9/11 Commission.

I urge my colleagues to vote for the bill and certainly for the amendment of the gentleman from Texas (Mr. SESSIONS), which just quite honestly makes common sense in that Members' constituents back home will very easily understand and say, Why was this not done a long time ago?

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield myself such time as I may consume.

Let me make a point that I think should be very clear. This legislation will not just impact those who are undocumented. This legislation will impact those immigrants who have legal status. In the process of reviewing or revising that status, they too become part of the large webbed fishnet of hauling people in by people who are inexperienced in this area.

So I would offer to my colleagues that this is random, it is reckless, and it needs a bipartisan look and oversight committee assessment.

Mr. Chairman, I reserve the balance of my time.

Mr. SESSIONS. Mr. Chairman, I yield myself such time as I may consume

This amendment that I have comes as a result of my paying attention to not only the 9/11 Commission, but also my service to the Select Committee on Homeland Security in the prior Congress. It was very obvious to members of the committee, as we heard testimony, including from the Immigration and Naturalization Service's Inspector General report from the Department of Justice where they recognized the deficiencies that they had, where a person who had gone through an entire process in front of a Federal judge was ordered removed and yet only 13 percent of those were removed from the coun-

We have a problem. We have a problem that was enumerated in the 9/11 Commission report. We are utilizing the techniques that are not only available in the law, but also that many courts utilize today, Federal courts as well as city and State courts across the

United States. We need to make sure that people who have gone through a hearing have been given the opportunity to make sure that they can present their case, but then have been ordered deported do so.

The United States and, I think, Members of this Congress need to make sure that the things which we do, we give the tools to implement those necessary ways to enforce the laws of the United States to be done; for those who have been ordered to be deported and have not done so, we are giving them a better tool kit. That is why the Sessions amendment is being offered.

I support this, and I hope the members will vote "aye" on the amendment.

Mr. Chairman, I yield back the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield myself such time as I may consume.

First of all, let me also refer my colleagues to the 9/11 Commission report. What it said is that there were certain systems that needed improving or were broken. They suggested no such solution that the gentleman from Texas (Mr. Sessions) has offered.

We need to strengthen the Department of Homeland Security to be able to do its job, but more importantly, we need to be able to build those detention beds, thousands, if we will, to be able to have those that might be dangerous placed in detention locations.

This amendment does not solve that problem at all. The arresting and gathering up of those who might be deported, clearly with no place to go, makes a bigger and worse problem than we might have.

I would ask my colleagues to consider this not well directed and ask them to vote "no."

Mr. Chairman, I yield  $2\frac{1}{2}$  minutes to the gentleman from Michigan (Mr. CONYERS).

Mr. CONYERS. Mr. Chairman, I thank the manager on the Democratic side for yielding me this time.

Mr. Chairman, this amendment was brought to our attention yesterday evening, and at first blush, this is a shocking correlative point to be made and a comparison to the Fugitive Slave Act of 1850, in which agents were given the broad powers to return freed slaves in free States and return them back to slavery.

What we are doing here with bail bondsmen is giving them the ability to enforce immigration laws by summarily rounding up and deporting people and also gaining access to incredible private and secret material in data files

And I just wanted to briefly ask the gentleman from Texas (Mr. SESSIONS) what inspired him to add this to a bill that we already had a considerable number of problems about and have never had any hearings on a provision such as this.

Mr. SESSIONS. Mr. Chairman, will the gentleman yield?

Mr. CONYERS. I yield to the gentleman from Texas.

Mr. SESSIONS. Mr. Chairman, I thank the gentleman for asking.

The impetus behind this is, these are aliens who have been ordered deported by a Federal judge as a result of a hearing, who do not show up. They have had their day in court. The process is through. They have been ordered deported, and only 13 percent actually are deported.

Mr. CONYERS. Mr. Chairman, I need my friend to know that they are in the process of having the claim heard. It has not been terminated or it is not all over. But we are arguing the substance.

What I was trying to figure out is, what inspired the gentleman at this late point in the proceedings, since we had hearings last year, we had no hearings this year, and we just found out about this yesterday.

The Acting CHAIRMAN (Mr. UPTON). All time has expired.

The question is on the amendment offered by the gentleman from Texas (Mr. Sessions).

The amendment was agreed to.

The Acting CHAIRMAN. It is now in order to consider amendment No. 2 printed in part B of House Report 109–4

AMENDMENT NO. 2 OFFERED BY MR. CASTLE

Mr. CASTLE. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B Amendment No. 2 offered by Mr.

CASTLE:
In section 204 of the bill, before "Section" insert "(a) CRIMINAL PENALTY.—".

At the end of section 204 of the bill, insert the following:

the following:
(b) Use of False Driver's License at Air-

(1) In general.—The Secretary shall enter, into the appropriate aviation security screening database, appropriate information regarding any person convicted of using a false driver's license at an airport (as such term is defined in section 40102 of title 49,

United States Code).

(2) FALSE DEFINED.—In this subsection, the term "false" has the same meaning such term has under section 1028(d) of title 18, United States Code.

The Acting CHAIRMAN. Pursuant to House Resolution 75, the gentleman from Delaware (Mr. CASTLE) and the gentlewoman from Texas (Ms. JACKSON-LEE) each will control 10 minutes.

The Chair recognizes the gentleman from Delaware (Mr. CASTLE).

Mr. CASTLE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise to offer a simple amendment to the very thorough legislation before us today. The gentleman from Wisconsin's (Chairman Sensenbrenner) dedication to fixing gaps in our security is commendable, and I am proud to join him in strengthening Federal identity requirements, protecting those who need political asylum, and improving our border security.

The 9/11 Commission identified gates for boarding airplanes is the last opportunity for our screeners to use sources of identification to ensure that people are who they say they are, and frankly, obviously, to check whether they are terrorists. To improve this process, Congress tasked the Department of Homeland Security with the goal of developing and building upon the aviation watch lists that our screeners commonly rely upon today.

My amendment is intended to enhance the information contained in Homeland Security's aviation security screening databases and to ensure that our security is not compromised through the use of falsified driver's licenses

Specifically, the amendment would require Homeland Security to enter into the appropriate database any person convicted of using a false driver's license in attempting to board an airplane. Currently, aviation screeners at the Transportation Security Administration immediately detain individuals suspected of presenting false driver's licenses and then turn them over to the custody of either the Department of Justice or local authorities. The criminal justice system is then responsible for determining whether the suspect is guilty or innocent.

Under the present system, if convicted, this person is sentenced to federally mandated punishment, but the Department of Homeland Security is not required to put their name on a watch list.

My amendment would go a step further in protecting our Nation by also requiring the Department to enter a violator into one of its national aviation screening databases. Improving the quantity and quality of information contained in these passenger-screening databases is essential to enhancing our ability to identify potential threats and prevent terrorists from gaining access to our airliners.

When a person is convicted of trying to deceive security to get on an airplane, there is serious cause for alarm. My amendment would ensure that those convicted of using a false driver's license in attempting to board an airplane would be red-flagged for airport screeners.

The amendment does not impact persons who use false driver's licenses for other purposes. It allows the criminal justice system to run its course, and it is focused solely on the last line of defense before terrorists board an airplane. It is a simple, cost-effective way to enhance the Department of Homeland Security's ability to track potential high-risk passengers.

Again, I appreciate the opportunity to offer a small but important step in improving our security databases. My amendment would ensure that those convicted of using a false driver's license in attempting to board an airplane are red-flagged for airport screeners.

The people screening passengers at the gates do their best to make sure terrorists are not getting on these planes. Congress should do everything in our power to make their job easier.

Mr. Chairman, I reserve the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield myself such time as I may consume.

(Ms. JACKSON-LEE of Texas asked and was given permission to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Chairman, clearly this amendment has good intentions, and I think it is important to note that the amendment would require the Secretary of Homeland Security to enter into an aviation security database the name and other information about people who have been convicted of using a false driver's license for the purpose of boarding an airplane. The objective of this amendment is to enhance our ability to track and detect potential security threats, and as I indicated, I support the objective. I think it is a good idea to require the Secretary of the Department of Homeland Security to have information in his database about people who have been convicted of using a false driver's license.

But as they all say, the devil is in the details. Again, the same predicament or affliction that impacted the amendment of the gentleman from Texas (Mr. Sessions) impacts this. Where is the hearing? Where is the oversight? Where is the impact that will occur? Do these also include individuals who mistakenly have such a driver's license, if that may be the case, and where is the basis for it?

I was just looking at a letter from Commissioner Hamilton, who talked about controversial provisions that everyone suggests came out of the 9/11 Commission, and what he said very carefully was that these are, in fact, recommendations. As the intelligence bill did in the last session with enormous vetting, hearings, oversight, conference committees at the later stage, it almost became a hearing, none of these amendments have been given the kind of vetting that one would know that these are valuable and that the details have been worked out as to how we utilize the database or who gets into the database if, by chance, the utilization was a mistake even though they violated the law.

#### □ 1215

So you create this enormous database that has those who potentially would do us harm, but others, unfortunately, that got themselves into the criminal justice system. We hope, however, that this amendment will send notice to those who might try to use any false document in trying to get on an airplane for the potential damage it may do.

Mr. Chairman, I rise in opposition to the amendment that my colleague Congressman CASTLE has offered. This amendment would require the Secretary of Homeland Security to enter into an aviation security database the

name and other information about people who have been convicted of using a false driver's license for the purpose of boarding an airplane.

The objective of this amendment is to enhance our ability to track and detect potential security threats. I support this objective, and I think it is a good idea to require the Secretary of Homeland Security to have information in his data bases about people who have been convicted of using a false driver's license. As they say, however, "the devil is in the details." I would like a hearing and a markup on this amendment before deciding whether it should be enacted. I urge you to vote against the Castle amendment.

Mr. Chairman, I reserve the balance of mv time.

Mr. CASTLE. Mr. Chairman, I yield myself 1 minute, because I think the gentlewoman from Texas has made some very valid points that need to be discussed.

One thing that is important and what we have done here is to understand that there has to be a conviction in this situation by a court of law before it can be entered into a database of the Transportation Security Administration. That is very important. It gives all the protection of what could happen there. We thought a lot about that because it was a matter of some concern. So a mere allegation or something that proves not to be true would never be entered into the database. I wanted to make that point.

Mr. Chairman, I yield 1 minute to the gentleman from Connecticut (Mr. SHAYS).

Mr. SHAYS. Mr. Chairman, I thank the gentleman for yielding me time.

Mr. Chairman, the Castle amendment is a sensible amendment to the base bill, and I thank the gentleman from Delaware for offering it. People who present a false driver's license to the Transportation Security Administration are turned over to the proper authorities, but for some reason that is beyond me we do not add these people to our flight watch list. It blows me away that we do not already utilize this commonsense practice.

Improving the information contained in passenger screening databases will enhance our ability to identify potential terrorists from gaining access to airlines. We have taken some important steps to improve our security at airports, but we need to do more.

This amendment enhances our last line of defense by tracking potential high-risk passengers without interfering with the rights of everyday travelers. It just makes so much good sense, and I hope that we adopt it quickly.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I appreciate the clarification offered by the gentleman from Delaware (Mr. CASTLE). I would inquire of the author of the amendment, one question: In your research, did we determine that DHS, new as it is, is not doing that? That is the first question.

On the second, let me have the gentleman restate it again. Because one of the concerns I have on the Select Committee on Homeland Security and watching, for example, TSA formulate itself and work to train certainly very professional employees, but the training does not necessarily lend itself to maybe the keenness of eye to see that false document. We obviously have to improve.

I was concerned as to whether or not it is the spotting of someone, saying you have a false driver's license, or can you restate that it is actually going through a judicial system with a conviction, determining that is what you ultimately did?

Mr. CASTLE. Mr. Chairman, will the gentlewoman yield?

Ms. JACKSON-LEE of Texas. I yield to the gentleman from Delaware.

Mr. CASTLE. Mr. Chairman, I thank the gentlewoman for her good questions and for yielding.

We are not sure at this point whether they include that information or not at TSA, because simply they have databases and we do not know necessarily what is in their databases, and I do not blame them at all. They are not prone to reveal all of that. It is our judgment they should be doing this. We hope that they would be doing it. We do not know if they are for sure or not. I cannot confirm or deny that, because we simply do not know the answer to that particular question.

I would imagine, and I am putting myself in their position and I am not an expert on this, but if you are there and are in the security forces there, you are obviously trained in document recognition to some great degree. Some are better probably than others at this.

Obviously, if one has a database, it is obviously much more of a clear signal that this person needs to be looked at because they tried to do this before. That is the reason we feel it should be added into the database as it goes on.

I do not think this is going to change actually the way they look at licenses presently in the first instance or even in second instance. It is just a trigger mark as other things might be in terms of potential risks.

Ms. JACKSON-LEE of Texas. Mr. Chairman, reclaiming my time, let me pointedly ask the gentleman, you speak specifically to a judicial conviction going through, as opposed to being tapped and saying, you are carrying a false driver's license.

Mr. CASTLE. Yes.

Ms. JACKSON-LEE of Texas. The gentleman is talking about actually trial and conviction?

Mr. CASTLE. If the gentlewoman will yield further, it speaks very specifically to trial and conviction.

Ms. JACKSON-LEE of Texas. Mr. Chairman, reclaiming my time and I would simply say the comment on this is that I appreciate the distinguished gentleman from Delaware being open with his response.

One of the concerns I have is that we do not know whether DHS is doing this or what TSA is doing and hearings would have been appropriate. This is a valid issue, let us not doubt that; and, of course, I would hope that we would want a database to be secured.

I do have to raise red flags on making sure it is not random, making sure there is a conviction, and in knowing what happens with DHS. I would have wanted to have hearings, but I thank the gentleman for his answers.

Mr. CONYERS. Mr. Chairman, will the gentlewoman yield?

Ms. JACKSON-LEE of Texas. I yield to the gentleman from Michigan.

Mr. CONYERS. Mr. Chairman, I just wanted to ask the author of the amendment, would he have objected to having hearings on his amendment?

Mr. CASTLE. Mr. Chairman, if the gentlewoman would yield further, no, I would not have objected to having hearings. It is relatively simple. I do not mean to suggest it needs panels of hearings, but I never object to having a hearing.

Mr. Chairman, I believe the gentlewoman from Texas (Ms. JACKSON-LEE) has the right to close?

The Acting CHAIRMAN (Mr. UPTON). The gentlewoman from Texas (Ms. JACKSON-LEE) has the right to close.

Mr. CASTLE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I really do not have anything new to add to this, except that I think it is very important that this be done. We tried to make it as simple as possible with all the judicial support behind it which would make it clearly fair to everybody who might be involved in this.

My sense is that if I were running TSA, which I am not and do not want to, but if I were doing so, this is certainly something that I would want to do; and I would hope that by passing this legislation we will make sure it happens now and into the future.

Part of my motivation for this, by the way, and some other amendments I introduced which were not allowed on this, is I am still convinced that a lot of 9/11, if not the entire procedure, could have been avoided if we had better security measures in place on some of these things.

So I think this is a very important area. While everything else in the 9/11 report is of huge importance, I have always felt that this particular area of making sure who is in this country and who is boarding planes or other transportation systems is vitally important. So I would hope we would be able to join together and pass an amendment like this and hopefully later the legislation.

Mr. Chairman, I yield back the balance of my time.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, let me just close by raising these points. It looks like we are moving quite quickly. It is the question of having the answers. This has good intentions, but the answers of what DHS is doing, the training of TSA, what kind of standards are used in different airports. Some TSA person might say it is a mistake, go back. Others might make it in essence a Federal crime and that person is prosecuted. So some you get in the database, others you do not. It is just a question of concern as to how this will work

Again, it is a good idea. Before I yield back my time, I would simply say that I would suggest that this amendment be addressed again in our hearings, to be able to detail out what would ultimately happen.

Mr. POE. Mr. Chairman, I rise in support of the amendment by my colleague from Delaware. This amendment takes a common sense approach in saying that those who want to board our Nation's airplanes must show documentation showing their full legal identity. The REAL ID Act, which I strongly support, reguires that these driver's licenses must meet tough federal standards, chief among them are the requirements that applicants must demonstrate their legal presence. As a member of the Aviation Subcommittee and as a Member from the great state of Texas, I strongly feel we need to put just as much of an emphasis on protecting the skies as we do our land borders. This amendment would simply require the Homeland Security Department to better track those attempting to conceal their identities before boarding airplanes and allow those officials greater authority to screen these passengers and detect threats before they may occur. I urge my colleagues to support this amendment and the underlying bill.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I yield back my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Delaware (Mr. CASTLE).

The amendment was agreed to.

The Acting CHAIRMAN. It is now in order to consider amendment No. 3 printed in part B of House Report 109–4

AMENDMENT NO. 3 OFFERED BY MR. KOLBE

Mr. KOLBE. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B Amendment No. 3 offered by Mr. KOLBE:

At the end of the bill, insert the following new title:

# TITLE III—BORDER INFRASTRUCTURE AND TECHNOLOGY INTEGRATION

## SEC. 301. VULNERABILITY AND THREAT ASSESSMENT.

(a) STUDY.—The Under Secretary of Homeland Security for Border and Transportation Security, in consultation with the Under Secretary of Homeland Security for Science and Technology and the Under Secretary of Homeland Security for Information Analysis and Infrastructure Protection, shall study the technology, equipment, and personnel needed to address security vulnerabilities within the United States for each field office of the Bureau of Customs and Border Protection that has responsibility for any portion

of the United States borders with Canada and Mexico. The Under Secretary shall conduct follow-up studies at least once every 5

(b) REPORT TO CONGRESS.—The Under Secretary shall submit a report to Congress on the Under Secretary's findings and conclusions from each study conducted under subsection (a) together with legislative recommendations, as appropriate, for addressing any security vulnerabilities found by the study

study.

(c) AUTHORIZATION OF APPROPRIATIONS.—
There are authorized to be appropriated to the Department of Homeland Security Directorate of Border and Transportation Security such sums as may be necessary for fiscal years 2006 through 2011 to carry out any such recommendations from the first study conducted under subsection (a).

# SEC. 302. USE OF GROUND SURVEILLANCE TECHNOLOGIES FOR BORDER SECURITY.

- (a) PILOT PROGRAM.—Not later than 180 days after the date of the enactment of this Act, the Under Secretary of Homeland Security for Science and Technology, in consultation with the Under Secretary of Homeland Security for Border and Transportation Security, the Under Secretary of Homeland Security for Information Analysis and Infrastructure Protection, and the Secretary of Defense, shall develop a pilot program to utilize, or increase the utilization of, ground surveillance technologies to enhance the border security of the United States. In developing the program, the Under Secretary shall—
- (1) consider various current and proposed ground surveillance technologies that could be utilized to enhance the border security of the United States;
- (2) assess the threats to the border security of the United States that could be addressed by the utilization of such technologies; and
- (3) assess the feasibility and advisability of utilizing such technologies to address such threats, including an assessment of the technologies considered best suited to address such threats.
  - (b) Additional Requirements.—
- (1) IN GENERAL.—The pilot program shall include the utilization of a variety of ground surveillance technologies in a variety of topographies and areas (including both populated and unpopulated areas) on both the northern and southern borders of the United States in order to evaluate, for a range of circumstances—
- (A) the significance of previous experiences with such technologies in homeland security or critical infrastructure protection for the utilization of such technologies for border security:
- (B) the cost, utility, and effectiveness of such technologies for border security; and
- (C) liability, safety, and privacy concerns relating to the utilization of such technologies for border security.
- (2) TECHNOLOGIES.—The ground surveillance technologies utilized in the pilot program shall include the following:
  - (A) Video camera technology.
  - (B) Sensor technology.
  - (C) Motion detection technology.

(c) IMPLEMENTATION.—The Under Secretary of Homeland Security for Border and Transportation Security shall implement the pilot program developed under this section.

(d) REPORT.—Not later than 1 year after implementing the pilot program under subsection (a), the Under Secretary shall submit a report on the program to the Senate Committee on Commerce, Science, and Transportation, the House of Representatives Committee on Science, the House of Representatives Committee On Homeland Security, and the House of Representatives Committee on the Judiciary. The Under Secretary shall in-

clude in the report a description of the program together with such recommendations as the Under Secretary finds appropriate, including recommendations for terminating the program, making the program permanent, or enhancing the program.

# SEC. 303. ENHANCEMENT OF COMMUNICATIONS INTEGRATION AND INFORMATION SHARING ON BORDER SECURITY.

- (a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Homeland Security, acting through the Under Secretary of Homeland Security for Border and Transportation Security, in consultation with the Under Secretary of Homeland Security for Science and Technology, the Under Secretary of Homeland Security for Information Analysis and Infrastructure Protection, the Assistant Secretary of Commerce for Communications and Information, and other appropriate Federal, State, local, and tribal agencies, shall develop and implement a plan—
- (1) to improve the communications systems of the departments and agencies of the Federal Government in order to facilitate the integration of communications among the departments and agencies of the Federal Government and State, local government agencies, and Indian tribal agencies on matters relating to border security; and
- (2) to enhance information sharing among the departments and agencies of the Federal Government, State and local government agencies, and Indian tribal agencies on such matters
- (b) REPORT.—Not later than 1 year after implementing the plan under subsection (a), the Secretary shall submit a copy of the plan and a report on the plan, including any recommendations the Secretary finds appropriate, to the Senate Committee on Commerce, Science, and Transportation, the House of Representatives Committee on Homeland Security, and the House of Representatives Committee on the Judiciary

The Acting CHAIRMAN. Pursuant to House Resolution 75, the gentleman from Arizona (Mr. KOLBE) and a Member opposed each will control 10 minutes.

The Chair recognizes the gentleman from Arizona (Mr. KOLBE).

Mr. KOLBE. Mr. Chairman, I yield myself of such time as I may consume.

Mr. Chairman, I thank the chairman of the full committee for indulging me with this amendment. This amendment was legislation which was introduced by several of us that represent border districts last year as a freestanding bill. It is now incorporated here in this bill, or parts of it at least are incorporated in this bill.

I think it is entirely consistent with the goals of H.R. 418, because a key component of securing our borders is increasing technology and communication along the border regions. H.R. 418 is a bill about securing our homeland, and this amendment is a perfect complement to the vision of this very important legislation offered by the gentleman from Wisconsin.

Arizona has become a doormat for illegal immigrants. They pour across our porous border every day. In fact, there are more apprehensions of illegal immigrants in Arizona than the entire rest of the border combined. Many portions of the Arizona border are large

and unpopulated desolate desert areas. They are hard to patrol and difficult to monitor. In these areas and all along the border it is essential to advance ground technologies in order to officially understand and stop those who come through this back door to our Nation.

My amendment to H.R. 418 requires the Department of Homeland Security, working through the field offices of the Bureau of Customs and Border Protection, to get the technology, the equipment and the personnel needed to address security of our borders. Furthermore, the amendment requires that the Department of Homeland Security carry out ground surveillance programs that will improve border security.

While the National Intelligence Reform Act of 2004 designed a plan to enhance ground surveillance on the northern border, a similar program was not designed for the southern border. Improvements to ground technologies are absolutely essential in the large expanses of desert and unpopulated lands along the southern border.

Finally, this amendment requires the Department of Homeland Security to improve communications and information sharing with Federal, State and Tribal government agencies. The various agencies with jurisdiction over the southern border must be able to communicate.

This is particularly a problem in Arizona, because more than half of the entire border is covered by Tribal organizations, Tribal units, sovereign Tribal nations who are not generally covered by most of the Federal legislation we have on telecommunication sharing.

Having customs agents unable to communicate with border patrol agents or with the policemen from the Tohono O'Odham Nation around the same port of entry is really quite ridiculous. This portion of the amendment addresses problems with the use of incompatible communications technologies and requires that the Department of Homeland Security rectify this situation.

The amendment builds on the sentiment, it builds on the intention of H.R. 418, and through its enhancement of homeland security helps to ensure the safety and defense of our Nation. I think it will be a step, perhaps a small step, but one of the very important steps along our southern border to helping improve the technology and our ability to secure that southern border.

Mr. Chairman, I reserve the balance of my time.

The Acting CHAIRMAN. Is there a Member that is opposed to the amendment seeking time in opposition to the amendment?

Mrs. DAVIS of California. Mr. Chairman, although I support the amendment, I ask unanimous consent to claim the time in opposition.

The Acting CHAIRMAN. Without objection, the gentlewoman from California (Mrs. DAVIS) will control the 10 minutes in opposition.

There was no objection.

Mrs. DAVIS of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of the Kolbe amendment. I am very glad to see my friend and colleague finding a good and realistic way to get 21st-century technology to complement the way we police and protect our borders.

Like many other Democrats, I have long supported monitoring our borders 24 hours a day, 7 days a week. I feel strongly that any plan for border security should include a comprehensive technology assessment, an analysis of high-altitude monitoring technologies for use with land-based systems and, importantly, full funding of the plan.

Even with the border fence, like we have in San Diego, technology is still needed to assist with monitoring and the effective placement of human resources. There are many companies in the private sector which offer all kinds of ways to enhance our ability to secure the border. Congress has passed laws increasing personnel and technology. So what we need most now is an evaluation of what it will take to secure our borders. An assessment of technology equipment and personnel would be extremely helpful to all of us in making future decisions about additional increases.

As we know, sensors and cameras are being used in many locations, including San Diego. But the Kolbe amendment represents a thoughtful approach: let us not just deploy equipment; let us ensure that the equipment works to address the gaps at our land borders.

#### □ 1230

Simply deploying equipment is not the answer. The solution must match the need. A ground surveillance program, in partnership with the remote aerial surveillance program, would go a long way towards achieving real border security.

Unfortunately, technologies have been employed on an ad hoc basis in the past and are not part of an overall technology deployment plan. The Kolbe amendment gives us realistic hope for an overall plan for smarter border security.

Technology and information-sharing is critical if our frontline personnel are to effectively secure our Nation's borders.

Importantly, I remind my colleagues that these surveillance systems still require Border Patrol agents to apprehend illegal border crossers and contraband. Border Patrol agents repeatedly tell me that they are inadequately staffed to do their job. Funding the 9/11 bill to authorize levels is a critical component of securing America's borders. If the President will not do it, Mr. Chairman, let us make sure that Congress does.

Mr. Chairman, I reserve the balance of my time.

Mr. KOLBE. Mr. Chairman, I reserve the balance of my time.

Mrs. DAVIS of California. Mr. Chairman, I yield 2 minutes to the gentleman from Texas (Mr. ORTIZ).

(Mr. ORTIZ asked and was given permission to revise and extend his remarks.)

Mr. ORTIZ. Mr. Chairman, let me thank the gentleman from Arizona (Mr. Kolbe), my good friend, for introducing this amendment, but I would like to touch on another area that is also very, very important.

Let me say that the Border Patrol need all the help that they can get. We have another serious problem that I hope that we can touch on, and that is what is known as the OTMs, or Other Than Mexicans.

My district includes a portion of the McAllen Border Patrol sector. Last year, in the fiscal year, almost 17,000 OTMs came across through that Border Patrol sector, representing at least anywhere from 76 to 80 countries coming across into the United States. This worries me about the security of this country.

As I talk to the Border Patrol officials, they know one thing, that we do not have sufficient detention facilities. So what happens to them? They come across. They do not have to be picked up by the Border Patrol. They surrender themselves to the Border Patrol and say, I am from Colombia, I am from Egypt, I am from any other country; and they know that they do not have sufficient facilities.

So what happens? They go and process these individuals, and they come in clusters from Mexico. When they come across, it takes 10, 12, 15 Border Patrol people to come and bring them to the facilities to process them. It takes  $2\frac{1}{2}$  hours to do that. When this happens, in the meantime, the border is completely open, because those Border Patrol people were removed to process these individuals.

What happens next? After the 2½ hours, they go and take them to the bus station, and they give them a little piece of paper that says, you are supposed to appear on the 15th of whatever month, 60 to 90 days from now. One of these guys just finished paying \$900 to be brought across. Do my colleagues think he is going to come in?

This is another issue that we need to study about.

Mr. KOLBE. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. Mr. Chairman, I thank my colleague for yielding me this time. And I appreciate his bringing this amendment to the floor, and I support it.

It is absolutely critical that we secure our borders. Those of us who live in Arizona know that our borders are simply not secure. Arizona has become a doormat for illegal aliens. There are thousands and thousands that are apprehended every week and thousands more who are not apprehended. They slip through. The cost to Arizona is considerable.

Now, I happen to believe, along with my colleague, that we need comprehensive immigration reform that has to be part of our long-term plan. But in the interim, we certainly need to do some things, and this amendment goes a long way toward doing them. We need vulnerability and threat assessments. DHS needs to see what kind of technology, what kind of personnel and equipment is going to be needed.

All of us have viewed over the past couple of years the new technologies in land surveillance, surface surveillance, and they are promising. They are things that can be done that are not being done. We need a good assessment and recommendations made for us to follow through on.

We have aerial work that is being done; not enough, more surveillance is needed there. Also, this amendment calls for increased communications, better communications between those on the ground and those of us here as policymakers and those who implement the policy. We simply need better information to be able to have recommendations that we can follow up on.

We have, obviously, limited resources at our disposal. We need to make sure that they are employed in the best way possible, and this amendment will go a long way toward ensuring that.

Again, I commend the gentleman from Arizona for bringing this forward, and the chairman for insisting that this bill be brought forward.

Mrs. DAVIS of California. Mr. Chairman, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Chairman, I rise in support of the Kolbe amendment. I also thank my colleague, the distinguished gentlewoman from California, for yielding me this time and, as well, my colleague and friend, the gentleman from Texas (Mr. ORTIZ). Let me express my appreciation for his leadership, because we have spent a good amount of time together at the southern border.

I have also spent a good deal of time at the northern border, both sides of the coast.

Clearly, this legislation is needed with respect to improved and increased technology, but I would also argue that the Secure Our Border Act, that was offered by the Select Committee on Homeland Security Democrats in the last Congress, really speaks to the broader question. And, frankly, I wish this amendment had gone a step further; that is that what we do not have are the necessary Border Patrol agents and their training equal to the enormous responsibility that comes with people coming across the border and, as well, adding that to the technology that is part of this particular amendment. And then, of course, detention beds.

The gentleman from Texas (Mr. ORTIZ) is absolutely right. The southern border now lends itself to the doorway of terrorism because of this con-

cept of OTMs, and the idea that they are given just a piece of paper, as he said, that says, Show up, and no one is required to show up; or when I say, Required, there is no pressure, no enforcement, of their showing up.

So technology is certainly what we need, and I hope, as we move forward in the Select Committee on Homeland Security, we will, if you will, author bills that will give those resources to the northern and southern border.

But we need to understand what the gentleman is saying. This is a crisis as it relates to OTMs, particularly dealing with the potential of using that border for terrorists to come across. Technology is one thing, but human participation is another; not what has been offered by the President's budget of 200 Border Patrol agents, but the 2,000 that really will help us secure the borders as necessary. This amendment will go a long way.

I rise in support of the Kolbe amendment. The Kolbe amendment is one of the few ideas that have been proposed on the floor of the House during debate on HR 418 that would help secure our borders.

We must secure our land borders and putting 21st century technology to work for us is the heart of the solution. Homeland Security Democrats support monitoring our borders 24 hours a day—7 days a week.

While the Kolbe amendment falls short of asking for an interagency border security strategy, as Democrats did in the SECURE Border Act, it does get at the key issues of assessing technology and staffing. Now that Congress has passed laws increasing personnel and technology, what we need most is an evaluation of what it will take to secure out borders.

Additionally, while sensors and cameras are currently being used, simple deployment isn't always the answer. The solution must address the problem and take into consideration the terrain. A ground surveillance program in partnership with the remote aerial surveillance program which was mandated as part of the 9/11 bill will go a long way towards achieving real border security. One missing area element in this amendment seems to be a link between the air and ground surveillance programs. I hope that that's addressed. We cannot afford to build systems in isolation.

Lastly, while this amendment does add to the debate on border security, these surveillance systems still require border patrol agents to apprehend illegal border crossers and contraband. When Homeland Security Committee staff visited the southern border last year during a six month investigation, they found and heard Border Patrol agents tell them that they are inadequately staffed to monitor the expansive southern border.

One border patrol support staffer explained that staffing shortages meant that he was responsible for simultaneously viewing 26 cameras for illegal crossings and notifying agents when he saw any crossings. This same employee was also responsible for notifying agents about buried sensor activations numbering from 100–150 an hour, and running computer checks on all detainees. It is clear that despite the fact that we have increased border patrol numbers, Border Patrol still lacks critical support staff.

Funding Border Security is a critical component of securing America's borders. If the

President won't do it—let's make sure that Congress does.

Mr. KOLBE. Mr. Chairman, I yield back the balance of my time.

Mrs. DAVIS of California. Mr. Chairman, I yield myself such time as I may consume.

I do want to close, if there are no further speakers, and acknowledge that we have important work to be done here. We have highly professional personnel at the border, and they are doing their job, but we need to provide more of them. We need to fund the border security proposals that we have been putting forward for some time. We need to be sure that we fund those.

But the other piece of that, and I am delighted that the gentleman from Arizona (Mr. Kolbe) has brought that forward, is to be certain that the most sophisticated applications of that technology are used on the border.

I speak to many companies in San Diego. I know that they have a great interest in this. They have been a part of some of these solutions in the past. Let us employ them; let us be sure that we are doing this in a comprehensive fashion.

So I want to thank the gentleman from Arizona (Mr. Kolbe). We must move forward in this area. We can do a far better job on the border than we have done before.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN (Mr. SIMP-SON). The question is on the amendment offered by the gentleman from Arizona (Mr. KOLBE).

The amendment was agreed to.

The Acting CHAIRMAN. It is now in order to consider amendment No. 4 printed in Part B of House report 109–4.

AMENDMENT NO. 4 OFFERED BY MR. NADLER

Mr. NADLER. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B Amendment No. 4 offered by Mr. NADLER:

Strike section 101 of the bill (and redesignate the succeeding sections of title I accordingly).

The Acting CHAIRMAN. Pursuant to House Resolution 75, the gentleman from New York (Mr. NADLER) and a Member opposed each will control 10 minutes.

Mr. SENSENBRENNER. Mr. Chairman, I claim the time in opposition.

The Acting CHAIRMAN. The Chair recognizes the gentleman from New York (Mr. NADLER).

Mr. NADLER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I offer this amendment to strike section 101 of the bill relating to asylum seekers. Under the excuse of protecting national security, the asylum provisions in this bill make it much more difficult for legitimate victims to be granted asylum. The logic seems to be, if you keep out every

asylum seeker, including legitimate victims, then the system cannot be abused.

Proponents of this section make inaccurate, dramatic claims about terrorists who abuse the asylum system to get into the country, but the cases they cite are mostly pre-1996 when the law was changed. Since that 1996 change, asylum seekers are jailed, put in custody until a finding of reasonable fear of persecution is made, so they cannot pose a threat while they are in custody.

Because current law already places the burden of proof on the asylum applicant and places the applicant in custody until he or she meets the initial burden of proof, a terrorist who wishes to enter the United States would most likely attempt to do so by a tourist visa or on fraudulent papers. They are not going to claim political asylum and then be put in jail until they can show a credible fear of persecution.

But this bill seeks to raise the bar when people finally do get into court. If we pass this bill in its current form, mothers, fathers, children with legitimate asylum claims will be sent back to their persecutors with no benefit to national security.

Current law provides that an asylum seeker must prove a reasonable fear of persecution by reason of race, color, creed, national origin, sex, or political opposition. The new provision in this bill would require proof that one of these factors, race, color, creed, political opposition, is the "central reason" for the legitimate fear.

This is an almost insurmountable burden of proof since the persecutors rarely stop to explain their motives while they are committing torture, rape, and murder. The judge would be forced to look into the minds of the persecutor and decide what weight to give to a particular motive in cases of mixed motives, which they are, in order to prove, the burden of proof, that this is the central reason. Not one of the major reasons, a central reason. This is an impossible burden of proof with no purpose other than to deny the asylum claim.

This section would deny a victim asylum based on an immaterial inconsistency or inaccuracy in a prior statement. So an applicant who, at the airport, perhaps without a decent understanding of English ormistranslation, forgets or misspeaks the date of her high school graduation, or the date of her wedding or her grandchildren's births, even though the dates might not be significant in her culture, unlike in ours, would later be denied safe haven from persecution, even though they have nothing to do with the legitimacy or lack of legitimacy of her claim for asylum under the law. This would be a ridiculously harsh outcome for an absurdly innocent mistake.

There are other things that this section does. We did not have time to review it properly. It did not go before

the committee. The provisions that were considered by the House last year was only a 2-page provision. This became a 10-page provision 2 days ago. No one has had a chance to properly look through it, but we do know that it does a lot of other very harsh things.

Mr. Chairman, asylum law is supposed to be about protecting individuals from serious abuses of human rights. It is not supposed to be about seizing on any possible basis to deny a claim or to return people to harm's

This section is not about protecting our borders; it is about xenophobia and sending victims back to their torturers. It is, Mr. Chairman, in the larger sense, un-American.

I urge my colleagues to stand with me in voting for the Nadler-Meek-Jackson-Lee amendment to strike these provisions and keep our law humane and American.

Mr. Chairman, I reserve the balance of mv time.

#### □ 1245

Mr. SENSENBRENNER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in opposition to the amendment, and I wish those that were arguing against the amendment read it and see what it says; and then I think they will be convinced that this is a commonsense change.

First of all, let me say that the asylum law was designed to provide safe haven to those who are fleeing persecution in their homeland. It is not to be used as a crutch for economic migrants who are coming to the United States because the grass is greener on our side of the border.

Now, the bill as it is currently before us takes away the cap of 10,000 approved asylum applicants who are admitted to permanent residency every year. The Nadler amendment strikes that. The bill as it is before us states that the applicant for asylum has the burden of proof to prove that he or she is eligible to receive asylum in our country. The Nadler amendment strikes it. But every petitioner, whether it is a plaintiff in a lawsuit or someone who is applying for Social Security disability benefits, has got the burden of proof to show that they are entitled to the relief that they are seeking.

This bill makes it clear that asylum applicants have to make the same burden of proof as others, and the Nadler amendment strikes that.

The other thing that the Nadler amendment strikes is a detailed explanation of how the immigration judge is to determine the credibility of the applicant and the witnesses that the applicant and the government put before the judge. Every trier of fact in court makes the determination based on the credibility of witnesses. Criminal juries can send someone to their death or to prison for life based on their determination of the credibility of the witnesses, and immigration judges should do so also.

The gentleman from New York (Mr. Nadler) says that 100 percent of the people who show up at the airport claiming asylum are detained. That is not right. Ninety percent of those people are released. Only 10 percent are detained past the airport. The gentleman from New York (Mr. Nadler) says that all of the statements or the instances that we raise were pre-1996 law change cases. I will give you two that were after that.

Nuradin Abdi who was a Somali national stood accused of providing material support to al Qaeda. The government alleged that Abdi admitted al Qaeda member Iyman Faris and others initiated a plot to blow up a Columbus, Ohio, area shopping small. Mr. Abdi was granted asylum in 1999. Later after traveling to a terrorist camp in Ethiopia, he was arrested when he reentered the United States, and his asylum status was revoked. It was revoked, as the U.S. Attorney's Office puts it, because with the exception of some minor biographical data, every aspect of the asylum application he submitted was false.

Now, giving a judge an opportunity to deny a claim based upon a determination that the applicant is lying is in my bill and the gentleman from New York (Mr. NADLER) tries to strike that.

Again, in 1999 an Egyptian national who had been granted asylum, despite the fact that the INS had provided classified evidence that the alien was a known member of a foreign terrorist organization designated by the Secretary of State, and according to the committee-hearing witness, the INS submitted a report from a New York City detective showing the alien's participation in a meeting with the infamous Sheik Omar Abdel Rahman, dedicated to planning acts of terrorism in which the pros and cons of hijacking an airplane were discussed. He got asylum too.

Now, while it is true that many terrorists are statutorily barred from receiving asylum, members of terrorist organizations are explicitly allowed to receive asylum. Further, despite any statutory bar to the contrary, asylum regulations and the courts have made it practically impossible for the government to ferret out terrorists who apply.

There are a number of reasons for this, including the fact that government attorneys are barred from asking foreign governments about any evidence they may possess about the veracity of asylum claims. Thus, the only evidence available to the government to support an asylum applicant is the lack of credibility to the applicant. However, the ninth circuit is preventing immigration judges from denying asylum claims when it is clear that the alien is lying. Furthermore, the ninth circuit has held that an alien can receive asylum on the very basis that the alien's government believes he is a terrorist, even if we agree.

This bill brings back sanity to the asylum laws by overturning these

rogue precedents from the ninth circuit. And if any jury in the country can convict a defendant based on its determinations of credibility, certainly an immigration judge should be able to do the same thing.

Vote down this amendment, and let us put some common sense into our asylum laws as well as giving hope and shelter to people who can legitimately claim and receive asylum.

Mr. Chairman, I reserve the balance of mv time.

Mr. NADLER. Mr. Chairman, I yield for the purposes of making a unanimous consent request to the gentleman from Michigan (Mr. CONYERS).

(Mr. CONYERS asked and was given permission to revise and extend his remarks.)

Mr. CONYERS. Mr. Chairman, I want to thank the gentleman from Florida (Mr. Meek) for his work on this. It is credibly important.

This is perhaps the most objectionable part of the bill.

I rise in support of the Nadler/Meeks/Jackson-Lee Amendment to strike section 101 of H.R. 418 which imposes evidentiary requirements on asylum-seekers fleeing persecution and all immigrants who seek withholding of removal from deportation.

Without a doubt, if this section passes into law, genuine bona fide refugees who have fled horrible persecution that qualifies them for protection from our government will be returned to face more terror, torture and death at the hands of their persecutors.

Chairmen SENSENBRENNER is using the public's fear of terrorism to radically change asylum law for all asylees, not just those with some connection to terrorism.

Section 101 will not make us one bit safer from terrorist attack. Since we tightened some loopholes in asylum law in 1996, terrorists have not been "abusing our asylum system" as the proponents of this bill allege. Terrorists are already barred from receiving the benefit of asylum protection in the United States.

Those who support placing these new insurmountable hurdles on asylum-seekers have used examples of known terrorists to allegedly show that the asylum system makes us vulnerable to terrorist attack. But none of the people they talk about were granted asylum.

Ramzi Yousef and Sheik Omar Abdel Rahman, who were both involved in the first World Trade Center bombing in 1993, were never granted asylum. They filed applications for asylum that had not been adjudicated at the time of the bombing.

Mir Aimal Kansi, who killed two CIA employees in 1993, was never granted asylum. He had an asylum application pending at the time of the attack.

Gazi Ibrahim Abu Mezer, known as "the Brooklyn bomber" for his involvement in a planned attack on the New York City subway in 1997, was never granted asylum. He applied for asylum but withdrew his application before it was reviewed.

Ahmad Ajaj, who was involved in the first World Trade Center bombing, was never granted asylum His initial application for asylum was abandoned when he left the country, and his second application was denied.

Abdel Hakim Tizegha, who was involved in the planned Millennium attack in 1999, was never granted asylum. His application was denied in 1997 and his appeal was denied in 1999.

Hesham Mohamed Ali Hedayet, who killed two people at the El Al counter at Los Angeles International Airport in 2002, was never granted asylum. His application was denied in 1995.

Shahawar Matin Siraj, who has been accused of plotting to bomb the Harold Square subway station in New York City in August 2004, was never granted asylum. He asserts that he entered the United States legally as a teen, and he later filed an application for asylum that was suspended upon his arrest.

Immigrants cannot apply for asylum unless they are already in the United States. So it is not the fault of the asylum system that these terrorists, and terrorist suspects, entered the United States and section 101 of H.R. 418 would not have prevented their entry. In addition, filing an application for asylum should not be equated with actually receiving asylum protection and the right to remain in the United States that it grants. Many asylum applications are rejected, just as many tourist visas to enter the United States are rejected.

For people applying for asylum in 2005, under current law, extensive security checks are now done through the FBI, CIA, Homeland Security and State Department databases. Now, expedited removal rules mandate detention for people arriving without proper documents, and grant DHS authority to detain asylum-seekers throughout the adjudication of their application. Expedited processing of asylum claims now exists, and applicants are denied work authorizations that may have been a magnet for false applications before asylum reform. People who are already in the United States, who become terrorists while they are here, must be identified by intelligence and law enforcement. If they are, asylum or any other immigration benefit will be revoked under current law.

For that vast majority of asylum applicants who have no nexus to terrorism, other than being victims of it, section 101 will create high, new legal standards of evidence, and will severely limit judicial review of their cases.

First, the bill requires that refugees prove that one of the five grounds for asylum protection—race, nationality, membership in a social group, political opinion, or religion—is the "central reason" why they were persecuted. With little access to the documents and witnesses they left behind when fleeing their country, they must prove what was in the mind of their persecutor during the persecution. This would require an asylum-seeker from Darfur, Sudan to prove that the janjaweed attacked them and ran them off their land because they were black, and not because the militia wanted to steal the immigrant's cows, for example.

Second, the bill requires asylum-seekers to show evidence corroborating their testimony, and it would bar judicial review of decisions regarding that evidence. Yet many refugees are unable to flee with the people or paperwork that could back up their stories under evidentiary standards.

Third, the bill allows judges to deny applications if they find inconsistencies between the applicant's testimony and any statement they have made to a U.S. official, or inconsistencies in witness and documentary evidence that is provided. In addition, it allows denials on the basis of subjective assessments of an

applicant's demeanor, a factor that is frequently misinterpreted by U.S. judges due to cultural differences. Thus, a person could be denied asylum due to an immaterial inconsistency in the evidence they present.

Finally, the bill strips courts from the power to review immigration judge's discretionary judgments in asylum and removal cases.

Unfortunately, this bill takes a significant step in turning our country away from its proud history as a nation of refuge for those fleeing persecution.

For these reasons, I urge my colleagues to support the Nadler/Meeks/Jackson-Lee amendment to strike section 101 of this bill.

Mr. NADLER. Mr. Chairman, I yield 1½ minutes to the distinguished gentleman from Florida (Mr. MEEK).

(Mr. MEEK of Florida asked and was given permission to revise and extend his remarks.)

Mr. MEEK of Florida. Mr. Chairman, it is very hard for me to respond to what the chairman just shared with us because basically if we do not pass this amendment of striking this 101 section, we might as well just take all the language in 101 and say, if you are being persecuted or if you are being raped as a woman or you are being abused as a child, do not come to America because that is basically what this amendment is saying.

They were raising the bar beyond the capabilities of the individuals that are fleeing persecution. They are running for their lives literally, and many of these individuals are incarcerated. And where are the commercials? Where are the media reports of how lax our asylum laws are here in the United States? Because they are not. Where are the law enforcement agencies? Why are they not knocking down the doors in the halls of Congress saying, we really have to tighten up those asylum laws because they are too weak now? Where are they?

We are following the people who have focused on this the most, the 9/11 Commission, and what they are asking for is for us to review and make sure we have good asylum laws in place. We are not saying it is bad. We are not saying it is good. I commend my colleagues who are looking at this, but moving in haste and having this manager's amendment before the Congress and no one has seen it. All of the agencies, all of the religious organizations that are helping these individuals that we are trying to deal with now are saving that they support the Nadler/Meek/Jackson-Lee amendment.

I urge the Members to please support the amendment.

Mr. Chairman, I want to thank you for your comments and also the gentleman from New York (Mr. NADLER) for his leadership.

Mr. SENSENBRENNER. Mr. Chairman, I yield 2½ minutes to the gentleman from Indiana (Mr. Hostettler), the chairman of the Subcommittee on Immigration, Border Security, and Claims of the Committee on the Judiciary.

(Mr. HOSTETTLER asked and was given permission to revise and extend his remarks.)

Mr. HOSTETTLER. Mr. Chairman, I rise in opposition to this amendment.

The asylum provisions in H.R. 418 are vitally important to protect our constituents from child molesters, rapists, murderers, and other criminals, as well as terrorists seeking asylum in our country.

I believe that we must keep the asylum open and honest for those who have a good-faith claim to asylum. However, we must also protect our constituents from aliens who seek to abuse our asylum processes and do harm to our citizens. For instance, because he was free after applying for asylum, Mir Aimal Kansi was able to murder two CIA employees at CIA headquarters. Ramzi Yousef took advantage of the freedom he gained by applying for asylum to mastermind the first World Trade Center attack which killed six and injured 1,000 in the amendment author's district.

The asylum provisions in H.R. 418 do not prevent aliens from seeking asylum. Those who truly have been persecuted for religious or political grounds will be allowed to present their cases just as they are able to now. These provisions merely overturn Ninth Circuit Court decisions saying that immigration judges cannot use inconsistencies in an alien's statement to determine if he or she is being untruthful

The bill also says that an asylum applicant may be asked to corroborate his claim with evidence, if such evidence can be obtained without leaving the United States. One of the goals of this bill is to ensure that our asylum system is consistent with our judicial system. If a judge or criminal jury can sentence a criminal defendant to life in prison or even execution because they did not believe the defendant's story, certainly an immigration judge can deny an asylum claim to an alien for the same basis.

When an American goes to court to settle a dispute, he bears the burden of proof to prove his claim. Requiring the asylum claimant to bear the burden of proof is consistent, both with our justice system and with international law.

Permitting the judge to require an asylum claimant to produce corroborating evidence he has or can obtain without leaving the United States is just common sense. If a claimant says, for example, that he fled his country because he received a threatening letter from a government official, the judge would be remiss if he failed to ask to see the letter or at least inquire about what happened to the letter.

The asylum protections in the REAL ID Act are vitally important to ensuring the honesty of the asylum system, as well as the security of our Nation and its citizens.

I urge my colleagues to support the underlying bill, H.R. 418, and oppose this amendment.

Mr. NADLER. Mr. Chairman, I yield 1½ minutes to the distinguished gentlewoman from Texas (Ms. Jackson-Lee), a cosponsor of the amendment.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I thank the distinguished gentleman from New York (Mr. NADLER). I thank him for protecting so many of our constitutional rights.

Mr. Chairman, let me say that the asylum laws, as I was reminded by my good and dear colleague from Florida, started in World War II when we were reminded of the ugly scene of turning away the St. Louis, the 1,000 Jews who were fleeing persecution.

Let me just suggest that we do have an opportunity to review this issue and make it right, but I can tell you that Commissioner Kean and Commissioner Hamilton indicated that in advocating that these are recommendations of the 9/11 Commission; these are not recommendations of the 9/11 Commission. There is no proof or facts that terrorists have been able to pull one over on us in large numbers.

It is very important to let the Comptroller General's study go forward that evaluates the extent to which weaknesses in the United States' asylum system have been or could be exploited by terrorists. We need to understand this.

I do not expect that the report will show that that is happening. It is extremely important that we realize that the 9/11 hijackers entered and remained in the United States as nonimmigrant visitors. They were not individuals who sought asylum.

Let me correct my good friends about the 1993 bombing. These individuals sought asylum, but they were denied asylum. There is not a crisis here; but what is a crisis is when you turn people away from our shores who have come here downtrodden, who are seeking asylum because of religious persecution, because of mutilation of women, because of enormous child abuse or potentially child soldiers, and you turn them away because they do not look like you and because, in fact, they cannot make their case.

I would ask my colleagues to consider opposing this amendment.

I rise in support of the amendment that I have offered with my colleagues Representatives NADLER and MEEK. It would strike section 101 of H.R. 418, the REAL ID Act, which is entitled, "Preventing Terrorists From Obtaining Relief From Removal." Notwithstanding that title, the provisions in section 101 codify evidentiary standards for asylum proceedings. The supporters of section 101 believe that terrorists are gaming our asylum system to enter and remain in the United States.

It is not clear that terrorists actually are gaming our asylum system. Section 5403 of the Intelligence Reform and Terrorism Prevention Act requires the Comptroller General to conduct a study to evaluate the extent to which weaknesses in the United States asylum system have been or could be exploited by terrorists. We need to wait until this study is completed before we rewrite our asylum laws. We cannot correct weaknesses that have not been identified yet.

I do not expect that report to show that terrorists are gaming our asylum system. The 9/ 11 hijackers entered and remained in the

United States as nonimmigrant visitors. Visitors' visas are easy to get. It only requires a 2-minute interview with an American Consulate Officer to get a visitor's visa. The applicant just has to establish that he will return to his country at the end of the authorized period of stav. Moreover, it would be naive to think that terrorist organizations do not have ready access to fraudulent entry documents. In contrast, it is difficult and time consuming to enter the United States as an asylum applicant. The terrorist choosing this method would have to present himself at a border and then prove in expedited removal proceedings that he has a credible fear of persecution on account of race, religion, nationality, membership in a particular social group, or political opinion. The section 101 provisions would not come into play during expedited removal proceedings in any event. They would not apply until the alien is before an immigration judge at an asylum hearing, and by then he has already entered the country.

The approach taken by the REAL ID Act is to raise the bar on the burden of proof for everyone who applies for asylum, which would result in a denial of relief to bona fide asylum seekers without any assurance that the changes would discourage terrorists from seeking asylum. In fact, terrorist organizations are in a much better position to fabricate evidence of persecution than the typical bona fide asylum applicant who has fled his country in fear for his life without any thought of meeting evidentiary standards at an asylum hearing.

For instance, in addition to showing that the alleged persecution would be "on account of one of the enumerated grounds, the applicant would have to establish that the persecution was or will be "a central reason for persecuting the applicant." In effect, the asylum applicant would have to establish what was in the mind of the persecutor.

Section 101 has a subsection entitled. "Credibility Determinations." It states that the trier of fact should consider all relevant factors. This is fine, unnecessary but fine. Then it provides that the trier of fact has the discretion of basing a credibility determination on any relevant factor, and it specifies relevant factors that can be the sole basis for a credibility determination. Near the end it mentions inconsistencies and inaccuracies or falsehoods in statements, "without regard to whether an inconsistency, inaccuracy, or falsehood goes to the heart of the applicant's claim." In other words, it permits an immigration judge to make an adverse credibility finding in asylum proceedings on the basis of an inconsistency, inaccuracy, or falsehood that has no relevance to the asylum applicant's persecution claim. What has this got to do with preventing terrorists from obtaining relief from removal?

I urge you to vote for this amendment to strike section 101.

Mr. SENSENBRENNER. Mr. Chairman, I have the right to close and will close after the gentleman yields his time.

Mr. NADLER. Mr. Chairman, how much time remains?

The Acting CHAIRMAN (Mr. SIMPSON). The gentleman from New York (Mr. NADLER) has 3 minutes remaining. The gentleman from Wisconsin (Mr. SENSENBRENNER) has 1½ minutes remaining.

Mr. NADLER. Mr. Chairman, I yield 2½ minutes to the distinguished gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I rise in strong support of the Nadler amendment and ask Members, especially on my side of the aisle, to join us in striking section 101.

Section 101 purports to reform asylum—but it does not. Under the pretext that it mitigates terrorists' access to the United States, the provision actually does a grave injustice and disservice to the persecuted, such as religious believers, and all others who have a well-founded fear of persecution and who seek asylum in our country.

Section 101 imposes onerous new requirements on the persecuted, including those who have been traumatized by rape, torture, trafficking, and religious hate and persecution, to prove the persecutor's motive. Read the language. You have got to prove that persecution was a central reason you left and why you are seeking asylum.

I would remind my colleagues that I have been in Congress 25 years. Dictatorships and authoritarian regimes never persecute. It is always some other pretext, whether it be the People's Republic of China, Vietnam, Cuba. When it was Romania many years back, there was always a false reason. Slander against the Soviet state was used over and over again, never because you were Jewish or Christian or because you were an evangelical or some other reason. They always have a pretext.

I can guarantee if this is enacted into law that real asylum seekers will be denied, and then the piling on just begins to start.

How many Members have met persecuted people, traumatized people who are coming to our borders? They get their stories wrong. According to this language, if they have any inconsistency, even if it is not germane to the issue at hand, if they get a date wrong, how many Members have forgotten their wife's birthday, date or year? We all make mistakes. Get one of those things wrong and the trier of facts can exclude you based on that single situation.

#### □ 1300

This is an ugly provision. I say with respect to my friend and colleague from Wisconsin, I am against terrorism. 9/11 hurt people in my district. They were hurt big time.

This is an ugly provision, Mr. Speaker. It has not had, in my view, the kind of hearing needed in terms of the consequences that it will impose upon true asylum seekers. I hope Members will vote against this.

I have authored 3 Torture Victims Relief laws to help torture victims. I meet with a lot of torture victims. They forget; they have been traumatized. You forget something pursuant to these new requirements and you are a goner. You are being deported back to that country of origin where you have been persecuted.

Please vote against Section 101. Vote for the Nadler amendment.

Mr. NADLER. Mr. Chairman, I grant myself the remainder of the time.

The Acting CHAIRMAN (Mr. SIMP-son). The gentleman has 30 seconds remaining.

Mr. NADLER. Mr. Chairman, the gentleman from New Jersey and other speakers have made excellent points, but I want to make one different point.

This amendment, rather this section which we are trying to eliminate, is not focused on terrorism. It does not focus on terrorists. All it does is put up additional bars to all asylum seekers, legitimate victims or otherwise. It has nothing to do with terrorism, does not claim to focus on terrorism. Does not do anything to distinguish between a terrorist and a legitimate victim of persecution or anybody else.

It simply sets the bar for all claimants at an unrealistically high level and ought to be defeated, and the amendment therefore ought to be passed for that reason.

I yield back.

Mr. SENSENBRENNER. Mr. Chairman, I yield myself the balance of the time.

Mr. Chairman, contrary to what my distinguished friend from New Jersey says, there are no onerous new requirements to meet the standard for asylum. Page 2 of the managers amendment incorporated in the bill says the applicant has to establish that he is a refugee within the meaning of this section. The applicant must establish that race, religion, nationality, membership in a particular cultural group or political opinion was or will be a central reason for persecuting the applicant.

Now, that means that all of the Jewish people who were turned away on the St. Louis prior to the Second World War would have qualified because they were being persecuted in Nazi Germany because of their religion.

People who have been engaged in what was used to be called anti-Soviet activities in the former Soviet Union, that was a political opinion, they would have been eligible for asylum.

And the comments that the gentleman from New Jersey makes about torture are simply not true. This bill does not impact the obligations of the United States under the convention to prevent torture by prohibiting the deportation of people to countries that torture them.

Now, simply what is stated is that the burden of proof is on the applicant, just like it ought to be, like it is on our constituents who apply for Social Security disability. And it sets up standards for determining the credibility of the witness. If the witness comes and says, Gee, I made a mistake because I forgot the birth date and admits to that mistake, that certainly is exonerating evidence.

Vote down the amendment. All of these arguments are a red herring.

Mr. PICKERING. Mr. Chairman, during the debate of the REAL ID Act of 2005, of which I am a co-sponsor, I was unavoidably detained and unfortunately missed the opportunity to vote on the amendment offered by Representative JERROLD NADLER. If I would have been present, I would have voted a resounding "no" against this amendment. The Nadler amendment would have stricken the provision in the REAL ID Act that tightens and improves our asylum system, which has been abused by terrorists with deadly consequences. The REAL ID Act will protect the American people by allowing immigration judges to determine witness credibility in asylum cases and ensuring that all terrorism-related grounds for inadmissibility are also grounds for deportation. In summary, as a co-sponsor of this bill, I believe that all of the provisions in the REAL ID Act are essential in protecting our citizens from future terrorist plots and I would have voted "no" on the Nadler Amendment.

Mr. SMITH of Texas. Mr. Chairman, I strongly oppose the Nadler amendment, which would strip the asylum reforms from the "REAL ID Act."

The asylum provisions in the REAL ID Act are essential. The 9/11 Commission specifically noted that "a number of terrorists . . . abused the asylum system."

Just last year, a Pakistani national who had applied for asylum was caught while planning to blow up a subway station during the Republican Convention in New York City.

Under a 9th Circuit decision, a judge can determine that an asylum applicant is lying and still be required to grant the applicant admission.

The DOJ Inspector General reported that it was common for asylum applicants to make claims that they were falsely accused of being terrorists. In this situation, even if the judge believes that the applicant is lying and is a terrorist, the judge may still be required to approve the application.

The REAL ID Act reverses this 9th Circuit decision and makes it harder for terrorists to exploit our asylum system. It allows immigration judges—like judges in most other courts—to determine whether the asylum seeker is telling the truth.

Judges in ordinary criminal courts of law are routinely allowed to determine whether they believe a defendant is lying. Yet, under current law, immigration judges cannot make this common sense determination.

The REAL ID Act is essential in stopping asylum abuse. This amendment would strike the asylum reform provisions and make it easier for suspected terrorists to receive asylum

Mr. SENSENBRENNER. Mr. Chairman, and I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from New York (Mr. NADLER).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. NADLER. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by

the gentleman from New York will be postponed.

The Acting CHAIRMAN. It is now in order to consider amendment Number 5 printed in part B the House report 109–4.

AMENDMENT NO. 5 OFFERED BY MR. FARR Mr. FARR. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B, Amendment No. 5 printed in House Report 109–4 offered by Mr. FARR.

Strike section 102 of the bill.

The Acting CHAIRMAN. Pursuant to House Resolution 75, the gentleman from California (Mr. FARR) and the gentleman from Wisconsin (Mr. SENSENBRENNER) each will control 10 minutes.

The Chair recognizes the gentleman from California (Mr. FARR).

(Mr. FARR asked and was given permission to revise and extend his remarks.)

Mr. FARR. Mr. Chairman, I yield myself such time as I may consume.

This amendment is simple and straightforward. It strikes Section 102, which is entitled the "Waiver of Laws Necessary for the Improvement of Barriers and Borders" from the bill. I think the provision is trying to fix a process that is not broken.

I offer this amendment to strike Section 102, not to stop construction of the remaining 3 miles of the border fence, but to preserve the rule of law that this country was founded on.

I want my colleagues to listen. I want to make this very clear. The breadth of this provision is unprecedented. The border fence in San Diego is under construction right now. Of the 14 miles authorized to be constructed, more than 9 miles of triple fence have been completed. Only two sections have not been finished. In order to finish the fence, the Customs and Border Patrol has proposed to fill a canyon known as Smugglers Gulch with over 2 million cubic yards of dirt. The triple fence would then be extended across the filled gulch.

In February 2004, the Coastal Commission of California determined that the Customs and Border Patrol had not demonstrated, among other things, that the project was consistent to "maximize" to the extent practicable with the policies of the California Coastal Management program, the State program approved under the Federal Coastal Zone Management Act.

The Coastal Zone Management Act requires Federal agency activity within and outside the coastal zone that affects any land use, water or other natural resources in the coastal zone to be carried out in a manner that is consistent, to the maximum extent practicable, with the policies of an approved State management program.

However, as stringent as these requirements are, if a Federal court finds a Federal activity to be inconsistent

with an improved State program, the Secretary determines that the compliance is unlikely to be achieved through mediation, the President may exempt from compliance the activity if the President determines that the activity is in the paramount interest of the United States.

All the authority needed to build the barrier fence already exists in law. We can use laws and process that we have to get this fence built. There is no need for a blanket waiver to get any barrier constructed.

On October 26 of 2004 the Coastal Commission staff met with the Customs and Border Patrol/Homeland Security. In that meeting the Customs and Border Patrol explained why they did not believe additional comments. other than those that had already been agreed upon, were necessary to bring the project into compliance with the applicable coastal policies. Customs and Border Patrol maintained that it still wanted to continue to work with the Coastal Commission on measures they had agreed to, and the Coastal Commission indicated their continued willingness to work with them, despite the overall disagreement with some of the project components such as the Smugglers Gulch fill.

Coastal Commission informed Customs that in order to complete the Federal consistency review process, they would have to write a letter outlining their position. However, the Coastal Commission has not received any letter.

So why are we trying to fix something that is working through the established process of law? I ask because the reach of this amendment is actually the border fence in San Diego.

The proposed section 102 gives an unprecedented waiver and power to the Secretary of Homeland Security, not only for the border fence in San Diego but for any, any area. If enacted, the new 102 section would provide the Secretary of Homeland Security not only with the authority to waive all laws he determines necessary to ensure the expeditious construction of barriers and roads, but the requirement that the Secretary do so.

As I mentioned, there is no evidence that such an extraordinary rejection of the rule of law is necessary in the first instance.

Current law allows the DHS Secretary to waive the National Environmental Policy Act and the Endangered Species Act at the barrier, and this same provision was allowed to the Attorney General prior to the creation of the Department of Homeland Security.

This provision has never, to date, been used in San Diego nor am I aware at any other time the authority has been used on the barrier fence. So the remedies are there; they are in the law.

We forget in this debate that Mexico is the number one trading partner of California. It is the busiest border in the world for the legitimate transfer of people and commerce, and it is in the

city and County of San Diego, and neither of those jurisdictions has asked for this draconian waiver. Neither has the State of California.

Why would the Government of the United States of America, at a time when we are advocating the support and enforcement of law, why would the government now want to forbid the use of our own law to finish the fence? Not even the importance of securing the border can justify placing a government official above the law.

As I mentioned, my colleagues ought to be wary of what is proposed here. It grants authority to waive all laws not-withstanding any other provision of the law. This section also says, not-withstanding any other provision of the law, no court shall have jurisdiction to hear a claim, to order any relief.

How can we celebrate elections in Iraq and the honor of law when we in Congress are now asking that we waive all laws?

Mr. Chairman, I rise today in strong opposition to H.R. 418 and I urge my colleagues to do the same.

This bill is a misguided attempt to implement immigration reform under the guise of Homeland Security. This bill turns its back on a core principle that distinguishes America from other nations; that of being a safe haven for the tired, poor, and weak. The three specific policies that the bill addresses—the border fence, asylum provisions and driver's licenses standards-should have been vetted through the Committee process. Instead, this legislation has been rushed through the process-without hearings, without debate, and with very little input from the minority side of the aisle. This bill is being debated simply for politics instead of going through a legitimate legislative process, a fact that should be of concern to every Member. Republican and Democrat alike.

Today I will offer an amendment. My amendment is simple and straight forward. It strikes section 102 from the "REAL ID Act of 2005". The proposed provision is trying to flx a process that isn't broken. Section 102 gives an unprecedented waiver and power to the Secretary of Homeland Security. If passed, the Secretary has the sole discretion to wave all laws in order to expedite the construction of barriers and roads. There is no evidence that such an extraordinary rejection of the rule of law is necessary in the first instance. Current law already allows the DHS Secretary to waive the National Environmental Policy Act and the Endangered Species Act for the fence construction, the same exemption authorization that was allowed the Attorney General prior to creation of DHS. I look forward to the debate on my amendment.

As I stated before, H.R. 418 is not a good bill and even more troubling is that we had no hearings or committee debate on it. We need frank and productive dialogue about the state of our immigration system and this bill does nothing to open up the discussion that this country needs to have. I do not support illegal immigration, but I do support the people who have come to our country and played by the rules in order to obtain their citizenship status. Not only do we have a responsibility and a proud history of protecting those who seek

asylum in our country, which this bill is trying to thwart, we have a responsibility to legal immigrants who are contributing to our society to reduce the lengthy backlog to citizenship. Just earlier this week in meeting with some Bureau of Citizenship and Immigration Services employees, I was not surprised to learn that workers who were hired to help eliminate the backlog four years ago have been asked to stay on for another year. I do not often hear of temporary employees that are necessary for five years. I also learned that one of the reasons for the bureaucracy that legal immigrants experience is due to the antiquated state of technology the Bureau uses. As you can see, these are legitimate concerns about our immigration system that H.R. 418 does not address because it is a bill that has been brought up for political reasons, not legitimate policy reasons. The Republican Leadership of this Congress would do well to heed the President's comments to begin a dialogue on how to improve our immigration processes, and strengthen our national security, unlike the current legislation brought before us today.

The effects of the REAL ID Act are not only bad for domestic politics, they are destructive for the peace process in the Middle East. The Act states: "An alien who is an officer, official, representative, or spokesman of the Palestine Liberation Organization is considered, for purposes of this Act, to be engaged in a terrorist activity." In the first place, the United States already has a formal, congressionally approved mechanism for designating foreign terrorist organizations and imposing sanctions on them. The PLO is not on the U.S. list of Foreign Terrorist Organizations. This sneaky, backdoor attempt to override the responsibility of the State Department and the will of Congress is an incredibly stupid way to execute U.S. diplomacy.

Second, we are now on the cusp of a historic moment in the Middle East peace process. The administration has promised that they will be actively engaged in the Middle East peace process. I find it hard to believe that they can be "actively" engaged in the peace process if the President will not be able to invite newly elected President Mahmoud Abbas to his Texas ranch, Camp David or any other location within the United States. President Abbas appears to be making considerable efforts in brokering peace, and the United States should be supporting his efforts. The effects of this provision will be a diplomatic nightmare and damage the United States's ability to be a fair broker in the peace process. This provision is an embarrassment to United States diplomacy—it is highly counterproductive to peace negotiations.

Furthermore, I have concerns with the national driver's license standards in this bill. Current law already addresses this issue, but the regulations have been implemented since this bill was passed only 10 weeks ago. National driver's license standards in this bill create an unfunded mandate for States. Under this bill, at least 10 States would be forced to make significant changes to their systems, despite the fact that security standards can be attained without the interference this bill creates. State control of the licensing and identification process is crucial to maintaining public safety, bolstering security, reducing fraud, keeping costs of car insurance down and protecting privacy and Federal standards for such documents should be limited to those enumerated in the intelligence Reform Act of 2004.

Additionally, the proponents of this bill do not want you to know that H.R. 418 would not have prevented 9/11 hijackers from obtaining a driver's license or ID. The breach of our security was a result of the hijackers having been issued legal visas to come to the United States, which many of them used to apply for driver's licenses and identification cards. Does H.R. 418 seek to address the root of the problem here? No, obviously not. Again, this bill is political posturing under the guise of national security.

Instead of debating H.R. 418, the House of Representatives should be focused on ensuring the successful enactment of the Intelligence Reform and Terrorism Prevention Act of 2004 and working on comprehensively reforming our immigration system so that immigration is legal, safe, orderly, and reflective of the needs of American families, businesses, and national security.

Leadership should be ashamed to have brought a bill like this that will affect our environment, our citizens, and people from all around the world to the Floor in such a manner. I can not support the process nor the actual policy this bill proposes and I urge my colleagues vote no on H.R. 418.

Mr. CONYERS. Mr. Chairman, will the gentleman yield?

Mr. FARR. I yield to the gentleman from Michigan.

Mr. CONYERS. Mr. Chairman, what I would like to find out, if the gentleman knows, has this ever occurred in the history of Federal legislation before that for a given instance all laws, local, State, national, will be waived all at one time for one specific purpose?

Mr. FARR. Mr. Chairman, it has never been done before, waiving all labor laws, all contract laws, all small business laws, all laws relating to sacred places. It is a broad sweep, just a total repeal of all of those laws or a waiver of all those laws.

Mr. CONYERS. I thank the gentleman.

Mr. FARR. Mr. Chairman, how much time do I have remaining?

The Acting CHAIRMAN. The gentleman from California (Mr. FARR) has 4 minutes remaining.

Mr. FARR. Mr. Chairman, I reserve the balance of my time.

Mr. SENSENBRENNER. Mr. Chairman, I yield myself such time as I may consume

Mr. Chairman, I rise in opposition to this amendment which continues to have endless litigation against plugging the hole in the fence south of San Diego. We were able to win World War II quicker than we were able to complete this fence. I think that shows why this amendment is a bad one.

I want to tell the membership the short story that illustrates why the fence has to be completed.

In early January, I sent two of my staff personally to inspect this area. On the day they visited the Imperial Beach Station at the Border Patrol, they asked to see a demonstration of the AFIS fingerprint system used to identify criminal aliens among those caught across the border. A man picked

at random from a holding area of highrisk detainees, who had been apprehended the night before, was selected for fingerprint check.

Within 15 minutes the system returned a rap sheet that was 17 pages long. Crimes he committed across three different States included abusing his spouse, raping his daughter and multiple counts of theft. This man was apprehended not far from Smuggler's Gulch and came through the area where the fence is not complete. The Border Patrol says he is typical of the one in three aliens they apprehend coming through the 3-mile unfenced area along the beach.

This person is a criminal, and membership of the California delegation complained about the cost of California incarcerating criminal aliens. We can cut down that cost and incarcerate fewer criminal aliens by plugging the hole in this fence and keeping them south of the border.

Mr. Chairman, I reserve the balance of my time.

Mr. FARR. Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from California (Ms. HARMAN).

(Ms. HARMAN asked and was given permission to revise and extend her remarks.)

Ms. HARMAN. Mr. Chairman, many on this side of the aisle also support strong border protection. I certainly do, and I support the fence. This is not an argument, however, about whether to build a fence. It is about what process should be used, and this process is dead wrong

Rather than reaching out to the governor of California, a leader in the party on the other side of the aisle, to reach compromise on this issue, the author of this bill has crafted language that will usurp all of Governor Schwarzenneger's power regarding the border fence. To take the radical steps of eliminating all State and local powers, let alone Federal, and rolling back all judicial review is the height of irresponsible legislating.

Mr. Chairman, this bill sets the dangerous precedent of policing a single Federal official, elected by no one, above all laws, and shields him from accountability, and the reach is beyond the San Diego border. According to the language in this legislation, it is all areas along and in the vicinity of our international borders with both Mexico and Canada.

This is the wrong way to do it. We need to do the right thing.

Mr. Chairman, I support this amend-

Mr. SENSENBRENNER. Mr. Chairman, I yield 3 minutes to the gentleman from California (Mr. HUNTER), the Chairman of the Committee on Armed Services and one of the biggest supporters of Governor Schwarzenegger.

Mr. HUNTER. Mr. Chairman, I thank the gentleman for yielding me the time

We started this fence about 20 years ago. We started it by building the first steel fence across that 14-mile segment between the coastal hills of San Diego County and the Pacific Ocean. We did that because drug trucks were running that border at the rate of about 300 per month.

#### □ 1315

We had about 10 people being murdered each year, along with numerous robberies and rapes, to such a high degree that the best-selling book, "Lines and Shadows" by Joseph Wambaugh, was written depicting this "no man's land," where nobody wanted to be after dark. So we built that first line, which was the steel fence right on the border.

We then built the second fence, that is, the second tier of the so-called triple fence, after we passed a law signed by President Bill Clinton in 1996. And it was President Clinton who signed the bill waiving the Endangered Species Act and waiving NEPA because he thought it was so important that we have security at this, the most porous smugglers' corridor in the United States of America.

Now, I can just tell you, as a guy who has worked on this thing from the start, my staff went out and found those 79,000 steel landing mats to build this fence. If the extremists had discovered this fence before we got the first 12 miles built, that would not be built. We stopped those 300 drug trucks a month, stopped them dead. We eliminated the 10 murders a year, mostly of undocumented workers. We eliminated the hundreds of rapes of the people who were coming through there because we built that fence.

If the extremists had had their way, they would have gone to a sympathetic Federal court, tied us up in lawsuits and we would not have had the fence.

The Secretary of the Navy has written us a letter saying that completion of this project will enhance the security of our naval installations by reducing the potential threat environment created by an unsecured border. A few miles north of this gap in the fence is the biggest naval installation on the West Coast. Through this gap have come and been apprehended people from nations that sponsor terrorists, nations like North Korea, nations like Syria.

This is a security issue. And for people to say this is an environmental issue, this is the state of play right now, all these trails you see have been hammered into that ecosystem by the smugglers. None of my colleagues have been out there trying to stop them. They have hammered these trails by the hundreds into the ecosystem, hammered it into the marshlands and the estuary lands.

Good biologists say it will take hundreds of years for these areas to be restored, not by actions of the Border Patrol or by our security apparatus, but by the smugglers who come across this particular gap in the fence.

We need to secure this gap. The Secretary of the Navy recognizes that,

President Clinton recognized that and gave an unprecedented waiver. We need to complete the border fence.

Mr. FARR. Mr. Chairman, how much time do we have remaining?

The Acting CHAIRMAN (Mr. SIMP-SON). The gentleman from California (Mr. FARR) has 3 minutes remaining and the gentleman from Wisconsin (Mr. SENSENBRENNER) has 5 minutes remaining.

Mr. FARR. Mr. Chairman, I yield myself such time as I may consume to respond, first, to the gentleman from California (Mr. HUNTER).

He is right, there is in existing law the authorization to waive those issues. It has never been used. It has never been used. This waives all laws, labor laws, every kind of law. This is a draconian approach to try to get the job done.

Mr. Chairman, I yield 30 seconds to the gentleman from Michigan (Mr. KIL-DEE).

Mr. KILDEE. Mr. Chairman, I rise in favor of the Farr amendment. This bill gives the Secretary unprecedented authority to waive all laws to finish the construction of the security barrier. This bill denies due process to anyone challenging the Secretary's decision by prohibiting judicial review of the Secretary's waivers.

These provisions would undermine the Federal trust responsibility to Indian nations by allowing waivers of Federal requirements of providing tribal notification that are specifically designed to protect Native American burial grounds, religious shrines, and cultural and historical sites.

I urge my colleagues to support the Farr amendment.

Mr. SENSENBRENNER. Mr. Chairman, I yield 2 minutes to the gentleman from California (Mr. Cunningham), another big supporter of Governor Schwarzenegger.

Mr. CUNNINGHAM. Mr. Chairman, the gentleman from California (Mr. Hunter) talked about, in 1990, when he came to me while I was still in the military asking me about landing mats to put up for the border. He and I have actually been down there welding to get that up.

Why? Why would we do that?

Take this floor, if this was a farmer's field and you had a single strand of wire that was lying on the ground, that is what separated the United States and Mexico. We had truckloads of drugs coming across in a 100-mile sector that we could not stop. In 1 year, there were a number of rapes and a number of murders by the coyotes and people on the U.S. side of people trying to get across. When my colleague arranged to put up that fence, it stopped all of it.

Now, there are all kinds of ways in which you can stop something here in this body. We can have hearings and say we are going to do this or that, but with the fence area, these 7 miles, another way is to waive the environmental things.

The gentleman from California (Mr. Hunter) also showed that President Clinton did this. If we do not do this, my colleagues, we will not get it done.

And it will help security. Documents that we have captured from al Qaeda show that they consider the border vulnerable, with cells in Mexico itself. And so it is not just sealing off the border for security, but it is other things too.

In San Diego, in California, we have about 800,000 illegals in K-through-12 education. Use half of that, use 400,000. That is \$2 billion a year out of California. That does not account for the \$1.5 million a day for the school lunch. Now, I cannot stop those kids. I have been in those schools. There is no way I would take that lunch away from those critters. But we need to secure our border to stop the flow coming in.

If we know, with the bill of the gentleman from Wisconsin (Mr. SENSENBRENNER), who is there legally, it is much easier to tell who is there illegally. So I ask my colleagues to give this support because we really need to complete this.

Mr. FARR. Mr. Chairman, how much time do I have remaining?

The Acting CHAIRMAN. The gentleman from California (Mr. FARR) has 2½ minutes remaining and the gentleman from Wisconsin (Mr. SENSENBRENNER) has 3 minutes remaining.

Mr. FARR. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. Mr. Chairman, I yield to nobody my concern that this bill has regarding the environment, but that is not the point. We have already had our colleague, the gentleman from California (Mr. Duncan), talk about how we passed specific legislation signed by President Clinton that suspended the Endangered Species Act. What we are talking about here is far beyond this. It is talking about suspending all laws, health, safety, immigration, payment for private property. All laws, not the environment.

My colleagues would be creating not a couple of miles of exception to finish a fence, but you would be creating a zone 7,514 miles long under the terms of this bill, 5,500 in Canada, almost 2,000 with the border of Mexico, where all laws are suspended in the vicinity of the barrier. My colleagues have no idea how much land they are exempting from compensation.

Mr. Chairman, there are only 11,751 people who have been privileged to serve in this Chamber. I do not think any of them have ever been asked to vote on anything more irresponsible. It is a terrible precedent, unnecessary, and I urge its defeat.

Mr. SENSENBRENNER. Mr. Chairman, I yield 2 minutes to the gentleman from California (Mr. DREIER), a close adviser of Governor Schwarzenegger and the chairman of the Committee on Rules.

Mr. DREIER. Mr. Chairman, I thank my friend for yielding me this time, and let me just say what it is that got us here. I have listened to the arguments propounded by my colleagues on the other side of the aisle.

We are here because, as the chairman of the Judiciary said, it has taken longer to complete this fence than it did to win the Second World War. The problem that we have is, there needs to be recognition that the environmentally sound vote is to complete this fence

The gentleman from California (Mr. Hunter) held up a poster. If you look at where the fence has been completed, it is pristine, it is clean, it looks great, and it is securing our borders. If you look at that  $3\frac{1}{2}$ -mile gap, you see all kinds of trash and devastation and you, of course, exacerbate the pressure with the flow of people coming into this country illegally, creating a wide range of problems.

We came this close, when we had strong support, 257 Members of this body in the last Congress who voted for the Ose amendment that should have been included in the 9/11 Committee's recommendation in the conference agreement that we had. The other body prevented us when we were working in the conference to bring it back here. We had indications from Democrats and Republicans alike that if we brought this measure up we could have strong support of it.

It is imperative, it is imperative that we complete this fence. Smugglers Gulch is an area which is, I believe, posing a very serious threat to our stability in this country and in California. So I urge my colleagues to oppose the Farr amendment and cast the environmentally sound vote, which is a "no" vote

Mr. FARR. Mr. Chairman, I yield 30 seconds to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. Mr. Chairman, no person in our country should be given unfettered authority, unfettered discretion to waive any or all laws, for whatever the purpose.

Take this situation. In order to expedite construction of this fence, the Department of Homeland Security could select a contractor without competitive bidding, use undocumented workers, violate child labor laws, pay the workers less than the minimum wage, exempt contractors from Federal and State withholding; workers could be forced to put in 18-hour-days without overtime pay, in unsafe conditions, and be transported in trucks used for hazardous cargo; and allow the Secretary discretion to have these workers construct fences and roads through private property.

That is wrong. You can build a fence, but you do not have to violate all those laws.

Mr. FARR. Mr. Chairman, I yield myself the balance of my time.

We have heard a lot of talk here today, and I submit that this is not the answer, to emasculate all the laws. I would bet that if the gentleman from

California (Mr. Hunter), the gentleman from California (Mr. Cunningham), myself and any other interested party sat down, one meeting with all the interested parties, we could resolve this. But that is not the way they want to proceed.

This was not a recommendation of the 9/11 Commission. This is essentially emasculating all laws to get an environmental project completed. And emasculating all laws is not the way to do it.

This amendment is a good amendment because it does not allow my colleagues to emasculate all laws. What it allows us to do is to let this process work. And with the pressure that has been brought here today, we can get that fence built. The opposition on this side is not against the fence, it is against emasculating all the laws of the land in order to get there. So I ask for an "aye" vote.

Mr. Chairman, I submit for the RECORD a memorandum of the Congressional Research Service, dated February 7, 2005, regarding the REAL ID Act.

CONGRESSIONAL RESEARCH SERVICE,

February 7, 2005.

#### MEMORANDUM

To: House Committee on Homeland Security, Attention: Sue Ramanathan; and House Committee on the Judiciary, Attention: Kristin Wells.

From: Stephen R. Viña and Todd Tatelman, Legislative Attorneys, American Law Division.

Subject: Legal Analysis of Sec. 102 of H.R. 418, Waiver of Laws Necessary for Improvement of Barriers at Borders.

Pursuant to your request on February 3, this memorandum analyzes section 102 of H.R. 418, the REAL ID Act. Section 102, captioned "Waiver of Laws Necessary for Improvement of Barriers at Borders," provides the Secretary of Homeland Security with authority to waive all laws he deems necessary for the expeditious construction of the barriers authorized to be constructed by §102 of the Illegal Immigration Reform and Immigration Responsibility Act of 1996 (IIRIRA) (P.L. 104-208, Div. C, codified at 8 U.S.C. §1103 note) and removes judicial review from such waiver decisions. Specifically, this memorandum discusses the extent to which Congress has passed laws that provide waivers comparable to \$102 of H.R. 418 and outlines some of the legal issues that could potentially arise if \$102 is passed in its current form. In view of the short time frame for response, the following analysis is necessarily brief and we refer you to CRS Report RS 22026, Border Security: Fences Along the U.S. International Border for background information on §102 of IIRIRA and the border

#### H.R. 418, § 102

Section 102 of H.R. 418 would amend §102(c) of IIRIRA to read as follows:

(c) WAIVER.—

(1) IN GENERAL.—Notwithstanding any other provision of law, the Secretary of Homeland Security shall have the authority to waive, and shall waive, all laws such Secretary, in such Secretary's sole discretion, determines necessary to ensure expeditious construction of the barriers and roads under this section.

(2) No JUDICIAL REVIEW.—Notwithstanding any other provision of law (statutory or non-statutory), no court shall have jurisdiction—

(A) to hear any cause or claim arising from any action undertaken, or any decision made, by the Secretary of Homeland Security pursuant to paragraph (1); or

(B) to order compensatory, declaratory, injunctive, equitable, or any other relief for damage alleged to arise from any such action or decision.

#### Waiver provisions

If enacted, the new §102 would provide the Secretary of Homeland Security with not only the authority to waive all laws he determines necessary to ensure the expeditious construction of the barriers and roads under § 102 of IIRIRA, but the requirement that the Secretary do so. This provision could provide the Secretary with broader waiver authority than what is currently in \$102(c) of HRIRA This authority would apparently include laws other than the Endangered Species Act and the National Environmental Policy Act. but may not include a waiver of protections established in the Constitution. All laws waived, however, must be determined by the Secretary to be necessary to ensure expeditious construction of the barriers and roads. The waiver authority provided by this amendment would also seem to apply to all the barriers that may be constructed under the authority of §102 of IIRIRA (i.e., barriers constructed in the vicinity of the border and the barrier that is to be constructed near the San Diego area).

Congress commonly waives preexisting laws, though the process necessary to complete the waiver and the number of laws waived vary considerably from provision to provision. Even more common is the use of the phrase, "notwithstanding any other provision of law." While the use of a broad "notwithstanding any other provision of law" infrequently governs interpretation, such directives seem facially preclusive, and some courts have determined that "notwithstanding" language may serve to explicitly preempt the application of other laws. Other courts, however, have held that such provisions are generally not dispositive in determining the preemptive effect of a statute.

After a review of federal law, primarily through electronic database searches and consultations with various CRS experts, we were unable to locate a waiver provision identical to that of §102 of H.R. 418—i.e., a provision that contains "notwithstanding language," provides a secretary of an executive agency the authority to waive all laws such secretary determines necessary, and directs the secretary to waive such laws. Much more common, it appears, are waiver provisions that (1) exempt an action from other requirements contained in the Act that authorizes the action, (2) specifically delineate the laws to be waived, or (3) waive a grouping of similar laws. The most analogous provisions that we located appear to be, at least on their face, the following:

43 U.S.C. §1652(c): Allows the Secretary of the Interior and other Federal officers and agencies the authority to waive any procedural requirements of law or regulation which they deem desirable for authorizations that are necessary for or related to the construction, operation, and maintenance of the Trans-Alaska oil pipeline system (e.g., rights-of-way, permits, and leases).

25 U.S.C. §3406: Allows the Secretaries of the Interior, Labor, Health and Human Services, and Education, notwithstanding any other law, to waive any statutory requirement, regulation, policy, or procedure promulgated by their agency that is identified by a tribal government as necessary to implement a submitted tribal plan under the Indian Employment, Training and Related Services Demonstration Act of 1992, as amended.

20 U.S.C. §7426: Provides almost identical waiver language to that of 25 U.S.C. §3406, but for plans submitted by tribal governments for the integration of education and related services provided to Indian students.

There are many other provisions that arguably grant broad waiver authority similar to that of §102, but contain qualifications or reporting requirements that seem to limit their breadth. For example, 43 U.S.C. §2008 allows the President to waive provisions of federal law he deems necessary in the national interest to facilitate the construction or operation of crude oil transportation systems, but such waivers must be submitted to Congress, and Congress must pass a joint resolution before the President can act on the waivers. As mentioned above and as the examples we have set forth arguably demonstrate, the breadth of waiver authority granted by §102 of H.R. 418 does not appear to be common in the federal law searched.

#### Judicial review provisions

By including the language "no court," §102(c)(2) of H.R. 418 appears to preclude judicial review of a Secretary's decision to waive provisions of law by both federal and state courts. The preclusion of judicial review in state court and of state claims appears buttressed by the fact that §102(c) is explicitly intended to preclude judicial review of nonstatutory laws—a term which would seem to imply the inclusion of state constitutional and common law claims. It is generally accepted that Article III of the United States Constitution grants Congress the authority to regulate the jurisdiction, procedures, and remedies available in federal courts. However, what remains uncertain is whether Congress's authority, pursuant to Article III, extends to the jurisdiction, procedures, and remedies of state courts. In addition, it remains uncertain to what extent Congress has Article III authority to prevent courts, state or federal, from addressing and remedying issues arising under the United States Constitution.

With respect to Congress's ability to control the jurisdiction of state courts, the Supreme Court has ruled that subject to a congressional provision to the contrary, state courts have concurrent jurisdiction over all the classes of cases and controversies enumerated in Article III, except for suits between States, suits in which either the United States or a foreign state is a party. and those considered within the traditional jurisdiction of admiralty law. Thus, it appears possible to argue that Congress has a plenary power to allocate jurisdiction between the state and federal courts. In other words, if, for example, Congress can make jurisdiction over an area of law exclusively federal, thereby depriving state courts of any ability to hear the claim, it appears that Congress may also be able to remove a cause of action from state courts without concurrently granting jurisdiction to the federal

State courts, however, are often considered to be independent and autonomous from the federal court system. This independent status has led some scholars to argue that because the Constitution appears to reserve to the states the authority to control the jurisdiction of their own courts, Congress's "only means of allocating jurisdiction is through control of the federal court's jurisdiction.' The argument that state courts are autonomous can be derived, in part, from the Supreme Court's doctrine with respect to its ability to review decisions from state courts. While the Court has the authority to review a decision of a state's highest court, it has repeatedly held that it will not do so if the decision rests upon adequate and independent state grounds. This rule is arguably

designed to protect a state's interest in developing and applying its own laws. Thus, it would appear that an argument can be made that Congress does not possess the authority to regulate the jurisdiction of state courts directly. It may be the case, however, that Congress's ability to control the jurisdiction of the federal courts indirectly effects and alters the jurisdiction of the state courts, which would appear to preserve their autonomous status.

Turning to Congress's ability to remove jurisdiction with respect to claims arising under the Constitution, it appears that Supreme Court precedent requires that at least some forum be provided for the redress of constitutional rights. While it appears that the Supreme Court has not directly addressed whether there needs to be a judicial forum to vindicate all constitutional rights. it appears that the Court has taken to noting constitutional reservations about legislative denials for jurisdiction for judicial review of constitutional issues, as well as construction of statutes that purport to limit the Court's jurisdiction. At least one justice, however, has indicated that there have been particular cases, such as political question cases, where all constitutional review is in effect precluded.

Nevertheless, the Court has generally found a requirement that effective judicial remedies be present. For example, in cases involving particular rights, such as the availability of effective remedies for Fifth Amendment takings, the Court has held that 'the compensation remedy is required by the Constitution." In addition, lower federal courts appear to have held that, in most cases, some forum must be provided for the vindication of constitutional rights. Cases such as these would seem to provide a basis for the Court to find that parties seeking to vindicate other particular rights must have a judicial forum for such challenges; therefore, the Court may construe the provisions of H.R. 418 in a manner that preserves this

Mr. SENSENBRENNER. Mr. Chairman, I yield the balance of my time to the gentleman from California (Mr. ROYCE).

Mr. ROYCE. Mr. Chairman, as chairman of the Subcommittee on International Terrorism and Nonproliferation, I have to ask, Who should be in charge of counterterrorism policy? Should it be the California Coastal Commission or should it be the Department of Homeland Security? That is the crux of this argument.

Now, environmental groups have successfully fought the completion of this fence over the years, claiming that it would have a serious impact on everything from the San Diego fairy shrimp to the San Diego button celery, all that in this 3.5 mile strip of desert along the border.

Does anyone think we can secure the border and save the button celery by putting up a fence to stop people from trampling on it? Yes, we can. Can we protect ourselves from al Qaeda operatives who have joined forces with alien smuggling rings like MS 13 in order to enter the United States through our porous southern border by stopping them from squishing the fairy shrimp as they slip through the gap in the fence? Yes, we can. It is a win-win.

In the interest of national security, we need to defeat this amendment.

Mrs. DAVIS of California. Mr. Chairman, I want to thank my colleague from Monterey for so clearly laying out the reasons that waiving all laws is a travesty of American governing principles.

I will focus on the issue driving this extreme language—completing the 3½ miles of border fencing, including the ocean section in my district.

A member stated that tens of thousands of illegal immigrants enter there and are chased all over the sensitive wetlands destroying them anyway. His facts were true 10 years ago. They are not today.

In 1993, the Border Patrol apprehended 165,000 people in this section. In 2003, the number had dropped 94 percent—to 10,000.

How many illegal entrants get past the Border Patrol today? They tell us 1,000 a year—three people per day. And that is with a fence you or I could easily walk around or through. What should we do?

Finish building a secondary fence with the proposed level of environmental destruction.

Compromise has occurred, and plans exist for alternative road alignment. Appoint a task force to meet and reach consensus by a deadline.

One issue remains—a one-half mile wide river bed called Smuggler's Gulch—leading to internationally recognized wetlands restored at the cost of tens of millions of dollars.

The proposal lops off two adjacent mesas to dump 2 million tons of dirt into the gap to a height of 165 feet!—as high as two of the new giant airbuses stacked on top of one another!

It would cost \$40 million just to move the dirt—money better spent purchasing high grade technology and funding the President's proposed increase of Border Patrol agents.

I urge you to support the Farr amendment. Mr. BOEHLERT. Mr. Chairman, today I rise to express my concern over a provision in H.R. 418, the REAL ID Act of 2005. Section 102 of this Act states that the Secretary of Homeland Security shall have the authority to waive, and shall waive, all laws necessary to ensure expeditious construction of barriers and roads in the vicinity of the U.S. border in areas of high illegal entry. The provision also bars judicial review of any claim arising from the construction of barriers and roads at borders.

I understand that this provision is intended to apply primarily to the fence along the border near San Diego. The construction of that fence is critical to our national security and has been delayed for far too long and I think it is imperative that it be constructed as soon as possible.

However, I believe the provision currently contained in this bill is far too sweeping. It should not be necessary to waive all laws and judicial review relating to the construction of roads and barriers along the border in order to complete the fence near San Diego.

I hope that as the bill moves forward we can find a solution that will lead to the swift construction of this fence without sweeping away important laws.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from California (Mr. FARR).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. FARR. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from California (Mr. FARR) will be postponed.

SEQUENTIAL VOTES POSTPONED IN COMMITTEE OF THE WHOLE

The Acting CHAIRMAN, Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments on which further proceedings were postponed, in the following order: Amendment No. 4 printed in part B, offered by the gentleman from New York (Mr. NADLER) and amendment No. 5 printed in part B, offered by the gentleman from California (Mr. FARR).

The Chair will reduce to 5 minutes the time for any electronic vote after the first vote in this series.

AMENDMENT NO. 4 OFFERED BY MR. NADLER

The Acting CHAIRMAN. The pending business is the demand for a recorded vote on amendment No. 4 printed in part B of House Report 109-4, offered by the gentleman New York (Mr. NADLER), which further proceedings were postponed and on which the noes prevailed by voice vote.

Clerk will redesignate The amendment.

The Clerk redesignated the amendment.

#### RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 185, noes 236, not voting 12, as follows:

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN (Mr. SIMP-SON) (during the vote). Members are advised that 2 minutes remain in this

#### □ 1355

Mrs. BLACKBURN, Mrs. JOHNSON of Connecticut, and Messrs. REY-SODREL, NOLDS. NEUGEBAUER. TOM DAVIS of Virginia, FORD, BACH-US, TANNER, MURPHY, and BRADY of Texas changed their vote from "aye" to "no."

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated against:

Mr. BASS. Mr. Chairman, on rollcall No. 28 I was unavoidably detained. Had I been present, I would have voted "no."

AMENDMENT NO. 5 OFFERED BY MR. FARR

The Acting CHAIRMAN. The pending business is the demand for a recorded vote on amendment No. 5 printed in Part B of House Report 109-4 offered by the gentleman from California (Mr. FARR) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate amendment.

The Clerk redesignated the amendment.

#### RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The Acting CHAIRMAN. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 179, noes 243, not voting 11, as follows:

#### NOT VOTING-11

Carter Hinchey Sanchez, Loretta Eshoo Hinojosa Stupak Feeney Honda. Weiner Green, Gene Oxlev

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN (during the vote). Members are advised that 2 minutes remain in this vote.

MURTHA and Mr.SHAYS changed their vote from "no" to "aye. So the amendment was rejected.

The result of the vote was announced as above recorded.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I recognize the importance of having standardized drivers' licenses and identification cards. This should be done on a bipartisan basis, however. The REAL ID Act was not bipartisan, and it was moved too quickly through the legislative process. It was passed without any Committee hearings or markups.

Mr. UDALL of Colorado. Mr. Chairman, I cannot in good conscience vote for the REAL ID Act, H.R. 418 because, despite the intention of the bill's sponsors to strengthen our borders, it has the opposite effect, by making homeland security and an effective war against terrorism more difficult with unnecessary provisions aimed at legitimate asylum seekers. Moreover, I am guided in my judgment about this bill by the opposition of the National Governors Association and the National Council of State Legislatures.

This bill tightens asylum laws in a way that inhibits, rather than enhances our national security. Currently individuals who participate in terrorist activity are not allowed to gain asylum status in this country. Terrorists have not been able to use the current asylum system to gain entry into the country, thus the tightening of these laws only makes gaining asylum status more difficult for those legitimately seeking asylum. Provisions such as requiring applicants to prove the "central reason" for their persecution or allowing judges to require applicants to produce corroborating evidence are unnecessary.

While national security must be our top priority, immigration policy should not create unnecessary requirements for legitimate asylum seekers who are arguably our best allies in the fight against international terrorism. The asylum provisions of this bill will not enhance our security or our standing in the world.

I also have concerns that the bill allows and directs the Secretary of Homeland Security to waive all laws which he or she deems necessary to complete the construction of barriers along any and all U.S. borders. Some have argued that this provision is needed to ensure the construction of a fence along three and a half miles of the U.S.-Mexico border near San Diego. However, the language of the bill is not limited to the construction of a fence in this location. Instead, it instructs the Secretary to waive all laws for all U.S. borders; this includes the U.S.-Mexico border, the U.S.-Canada border, and maybe even the border between Alaska and Russia. The bill also removes any judicial review of the waiving of these laws.

This would give far too much unchecked authority to the Secretary of Homeland Security and does not provide the protection of judicial review of this authority.

There are two amendments, one offered by my colleagues Mr. Nadler and Mr. Meeks, and the other offered by Mr. Farr, which would strike portions of the bill that do not address our national security regarding the asylum system and our borders. However, in light of their failure, I am left no option but to vote against this bill.

I find the driver's license standards established in this bill to be unnecessary as well, as they already exist in current law. Last fall's Intelligence bill, which I supported, included a provision which already implements the 9/11 Commission Report's recommendations to create national minimum standards for driver's licenses. This provision allowed for States to participate with the Department of Transportation and the Department of Homeland Security in a rulemaking process.

H.R. 418 repeals these provisions and replaces them with standards established without State input. The issuance of driver's licenses has always been within State jurisdiction. Even with the measures passed in the Intelligence bill, States will largely be organizing and conducting the implementation of these standards. Their participation in establishing and implementing driver's license standards is essential for these provisions to be successful. This bill simply ignores State involvement altogether in these standards.

Though the bill does provide grants for the costs of implementing these standards, with the current fiscal climate, many States fear they will be left with the burden of paying a portion of these costs. Most States are faced with the same fiscal crisis that the Federal Government is currently experiencing. Creating an unfunded mandate for States is unfair, especially when they are excluded from the rulemaking process.

There are portions in this bill which I believe are beneficial to our national security. For instance, I am pleased the amendment offered by Mr. SESSIONS passed by a voice vote, as it will strengthen our ability to ensure the deportation of individuals who are illegally present in the United States.

Unfortunately, the egregious measures in the bill far outweigh the beneficial provisions. Thus, I must vote against this bill and hope that the Senate will remove the portions of this bill which are unnecessary and attack the balance of power in our country.

Mr. ISSA. Mr. Chairman, I rise today in strong support of H.R. 418, the REAL ID Act of 2005. This bill includes provisions that are essential to preventing terrorists and other criminals from obtaining fraudulent identification and provides security at our borders.

Last year, Congress passed legislation based on the recommendations of the 9/11 Commission but failed to address vital national security and homeland security issues. This Legislation addresses theses issues and further secures our Nation in a post 9/11 world.

H.R. 418 requires States to implement new minimum regulations for State drivers' license and identification document security standards that must be met within 3 years. It also establishes a process to enable States to use an existing Department of Transportation communication system to confirm that drivers' licenses presented are genuine and validly issued to the person who is carrying them. The 19 terrorists who attacked America on 9/11 had obtained over 63 valid forms of identification between them to breach our homeland security. Improving document security is necessary to counter threats from foreign terrorism.

This legislation also takes important steps regarding asylum reform. It prevents terrorists and scam artists from abusing our asylum system and gives immigration judges the tools they need to undercut asylum fraud before it happens.

Most importantly, H.R. 418 is critical to the continued construction of the Southwest border fence in San Diego. Despite efforts by the Federal Government and the border patrol, California's Coastal Commission has objected to and stopped the final phase of fence construction. Completion of the fence will reduce the number of illegal crossings, and will allow the Border Patrol to re-deploy manpower and resources to other problem areas in San Diego. Completion of the 3-mile gap in the fence, known as "Smugglers Gulch," would be a strong step toward securing our border.

Mr. Chairman, I made a promise to my constituents to continue to fight for security enhancements to curb illegal immigration and secure our borders. This legislation is essential to national security and I urge my colleagues to vote in support of H.R. 418.

Mr. BLUMENAUER. Mr. Chairman, today's bill would not be nearly as flawed or controversial if it had the benefit of going through the committee process. Unfortunately, we are faced with costly legislation that overturns States rights and does little to address the problems of our immigration system or to protect Americans from another terrorist attack.

Instead, this bill places enormous regulatory and financial burdens on State governments and makes Department of Motor Vehicles (DMV) employees de facto immigration officers. This policy promises to be ineffective as there are approximately 70 different kinds of immigration related documents issued by the Federal Government. This bill will not deter illegal immigration; it will probably mean illegal immigrants will drive without licenses.

In addition, in order to complete three miles of a border fence near San Diego. Section 102 of this bill suspends all laws, from public health and labor to the environment and property compensation. In fact, all barriers and roads along 7,514 miles of U.S. borders would be exempt from all laws. One person in the Department of Homeland Security would be above the law without any judicial appeal or remedy. This is unprecedented. Some of the environmental laws waived would include the Noise Control Act, the Clean Water Act, the Farmland Protection Policy Act, and the Bald Eagle Act. In addition to being bad public policy, this exemption is unnecessary, as most of these laws have security exemptions already written into them.

This legislation will not make us safer or reduce illegal immigration. In the end, it is hard to imagine a more dangerous precedent.

Ms. ROYBAL-ALLARD. Mr. Chairman, I rise in opposition to H.R. 418 the REAL ID Act, be-

cause, contrary to its sponsors' claims, this bill will not improve our country's security. Instead, it will weaken law enforcement's ability to do its job, and make driving on our roads more dangerous. In addition, this bill eliminates critical provisions in the Intelligence Reform and Terrorism Prevention Act passed by Congress in 2004. Finally, the REAL ID Act makes it much more difficult for immigrants who are fleeing persecution to gain refuge in the United States.

Mr. Chairman, while there are many good reasons to oppose this bill, as I previously outlined, I will focus on the driver's license provision and the asylum provision.

Barring undocumented immigrants from accessing driver's licenses is a dangerous proposal. Withholding driver's licenses from these individuals will not fix our broken immigration system. It will only make us less safe by having unlicensed and uninsured drivers on our roads. The American Automobile Association (AAA) Foundation for Traffic Safety report entitled, "Unlicensed to Kill," found that unlicensed drivers are almost five times more likely to be in fatal car accidents than are validly licensed drivers. Clearly, our goal should be to have more, not fewer, licensed drivers.

Denying licenses to undocumented immigrants will also hurt our national security by depriving law enforcement officials of critical information on millions of adults who are in the United States. Licensed individuals are registered, photographed and in some states fingerprinted. This information is then entered into a database accessible to local and state law enforcement, FBI personnel and immigration officers, helping law enforcement to separate otherwise law abiding individuals from terrorist or criminals. In fact, because many of the 9/11 hijackers did have a driver's license, the records kept by state departments of motor vehicles were invaluable after 9/11 in tracking where the terrorist had been and with whom they had associated. This information was used to prosecute many individuals who would not have been discovered otherwise. Passage of the REAL ID Act will mean that law enforcement will be less able to find people who may be security threats, and will have less information with which to prevent and solve crimes.

Mr. Chairman, there is no doubt that we must be proactive in the defense of our nation by identifying weaknesses in our security systems and making appropriate changes that will protect us from a terrorist attack. For this reason, Congress and the President charged the 9/11 Commission to study our intelligence failures and make recommendations that would improve our systems. Those recommendations were, enacted into law with the passage of the Intelligence Reform and Terrorism Prevention Act of 2004 just three months ago. The intelligence reform bill required states to establish stringent standards for the issuance of driver's licenses and identification cards. Among the new standards are requirements that licenses contain digital photographs, employ machine readable technology and contain security features to prevent tampering, counterfeiting or duplication. Currently, effective and workable federal standards that will strengthen driver's license security are in the process of being implemented. The REAL ID Act will dismantle the safeguards Congress just enacted. Congress and the President should instead be focused on implementing the provisions of the Intelligence Reform and Terrorism Prevention Act such as, adding 10,000 new border patrol agents, 40,000 new detention beds, and 4,000 immigration and customs investigators.

Furthermore, the asylum provisions in the REAL ID Act do nothing to enhance our nation's security. Instead, the REAL ID Act serves only to deny people who are fleeing religious persecution, torture and other horrors the ability to escape into safety. Given the fact that an asylum seeker is immediately held in detention before his claim is processed, a terrorist would not risk claiming asylum to enter our country.

Mr. Chairman, REAL ID Act is a real bad idea for America. This bill will make our roads more dangerous, inhibit the work of law enforcement, and undermine the homeland security measures enacted in the Intelligence Reform and Terrorism Prevention Act of 2004. I urge my colleagues to oppose this bill and instead focus on implementing the counter-terrorism provisions enacted into law just a few months ago.

Mr. GRAVES. Mr. Chairman, I come to the floor today to speak in support of the REAL ID Act. It is clear that in order to secure our country from terrorists we need to reform the requirements and standards for driver's licenses. A valid driver's license is like a hall pass that allows terrorists to easily roam throughout the United States.

Indeed 19 terrorists did just that with dozens of legal driver's licenses and identification cards. The hijackers used these IDs to rent cars and apartments, open bank accounts, take flying lessons, and otherwise blend into American society while they planned their attacks. Those terrorists murdered 3,000 Americans and yet this gap still remains open.

In every State, the driver's license (and its counterpart, the State ID card) is the primary document used to establish identity and proof of legal residence. Making driver's licenses accessible to illegal aliens gives them the means to pass themselves off as legal residents of the United States. Additionally, the REAL ID Act does not create a national ID card.

In addition to establishing standards for the issuance of licenses, H.R. 418 includes provisions to prevent terrorists from gaming our asylum system. Court decisions in recent years have so distorted the asylum process that terrorists are now able to claim asylum specifically because they are terrorists. This legislation represents a critical first step toward gaining control over our borders and protecting American lives. These are commonsense measures that should be implemented immediately.

Terrorism may have no borders, but we can certainly make it more difficult for terrorists to cross ours. Having a uniform policy that relies on common sense will do more to keep America open and free than having a policy that relies on hope.

Mr. ETHERIDGE. Mr. Chairman, I rise today in opposition to H.R. 418.

Although I support the goals of this legislation, H.R. 418 unfortunately contains too many misguided provisions. Last year, I voted to pass the 9/11 Commission's bipartisan recommendations to reform identification standards and beef up security on our nation's border. This legislation would repeal that new law before it has a chance to work. Had the provisions of H.R. 418 been in place prior to September 11, 2001, they would not have stopped

a single one of the 19 terrorists, H.R. 418 would force virtually every adult in the United States to go to the DMV to get a new driver's license, and with 14,000 local jurisdictions in this country currently issuing identification, it would be impossible to impose a single standard within in the three-year limit in the bill. I will also vote to remove provisions in the bill allowing the DHS Secretary to waive laws currently on the books. Finally, many of my constituents have expressed concerns to me that H.R. 418 would create a national ID system that would lead to intrusive government action like a gun registry and gun control on targeted groups. For these reasons, I will vote "no" on H.R. 418.

Mrs. CUBIN. Mr. Chairman, on September 11th, the terrorists didn't just use box cutters and airplanes to attack America, they used our own laws against us to help them murder thousands of people. H.R. 418, the REAL ID Act, will fix these loopholes in current law and also take steps to close gaping holes in our land borders, which are the first line of defense against terrorist infiltration, not just for the border states, but also for my home state of Wyoming and the rest of the nation.

We all know how the 9/11 terrorists manipulated our asylum laws to stay in our country, and utilized lax drivers' license standards to help them carry out their plans. We know that human traffickers continue to take advantage of the gaps in our borders, helping terrorist and criminal aliens gain entry into our country. Yet some still question the need to turn this invaluable knowledge into meaningful action.

As an original cosponsor of the REAL ID Act, I ask my colleagues to look beyond the false rhetoric that has clouded this debate and realize what is really at stake—the safety and security of our nation. I refuse to gamble with the lives of American citizens, rolling the dice on flawed policies that have already failed to protect us against terrorism.

Today we have the opportunity—and more importantly, the responsibility—to pass this legislation and make the terrorist handbook obsolete.

Mr. STARK. Mr. Chairman, I'm starting to wonder if the Republican Majority was listening to the President when he called for the United States to act as a beacon of freedom for the world. For our first substantive legislation of the year, they would make it nearly impossible for victims of torture and religious persecution to seek refuge in the U.S. and they would get us ever closer to establishing a national ID.

We all accept that sometimes freedom must be sacrificed for security, but the 9/11 Commission itself said that these big brother, antiimmigrant provisions do nothing to enhance national security.

This bill makes changes to the asylum process and state drivers licenses, presumably to address the widely-reported anecdote that the first World Trade Center bombers abused the asylum system and had a total of 63 drivers licenses. However, you have to question the motives of the supporters of this bill when the asylum system was already strengthened ten years ago and the 63 drivers licenses are simply an urban legend. The 9/11 Commission found that the hijackers actually had 13, and this bill would not have prevented any of them from being issued.

So without making the country safer, we're going to deny refugees and victims of torture,

rape, and other atrocities safe haven in this supposed beacon of freedom. I guess the asylum system, which is the most rigorous immigration process in this country, resulting in 30,000 denials last year, is not good enough for the immigrant-bashers. If this bill were to become law, an asylum applicant would have to provide documentary evidence of persecution. I hope that residents of the Darfur region of Sudan remember to grab their personal files as their villages are being burned, because under this law, the presumption of credibility would go to the torturers and rapists.

The bill would also retroactively make legal donations, even donations made decades ago, grounds for deportation of green-card holders who have lived here for decades if the organization to which a donation was made was later added to a government terrorist list.

The last section of the bill then goes after American citizens. The sponsors know that nobody would support a national ID, so they're just going to turn your drivers license into one without telling you. It'll look the same, but if this bill became law, all states would have to share all drivers license information in a national database, including identifying information, drivers' histories, and motor vehicle violations.

On behalf of the oppressed people of this world who actually believed President Bush when he said the U.S. would stand with them, and on behalf of Americans who don't confuse secret databases with security, I will vote No on this bill.

Mr. SHUSTER. Mr. Chairman, I rise today in support of the underlying legislation, known as the "REAL ID Act" H.R. 418. There is no greater responsibility placed upon myself and my colleagues than providing for a safe and secure homeland for America's citizens. We must and can do better to secure our borders, this legislation takes necessary and reasonable steps toward that goal.

I strongly support this legislation because it will close current loopholes in our laws that terrorists have been taking advantage of to gain entry and have free reign within our borders. Every measure within the REAL ID Act is present because it closes a loophole a terrorist has used previously. For example, the September 11th the hijackers had within their possession at least 15 valid drivers licenses and numerous state issued identity cards with a large variety of addresses allowing them to get on U.S. airliners. This legislation includes a number of common sense measures aiming to establish minimum document and issuance standards for federal acceptance of drivers' licenses and state-issued personal identification cards and would require applicants to provide proof they are in the country legally. Additionally, this measure would require identity documents to expire at the same time as the expiration of lawful entry status which will prevent individuals who have illegally entered or are unlawfully present in the United States from having valid identification documents.

The REAL ID Act will also strengthen and clarify our process for granting immigrants asylum within our borders. While America has always been and always will be a safe harbor for those being persecuted by tyrannical governments we must be vigilant to ensure those individuals are not taking advantage of America's generosity and good will. Our first responsibility is to protect the American people and we cannot put on blinders to expect that

everyone who seeks asylum does so in good faith. This legislation closes one of the most egregious loopholes that currently exists—the REAL ID Act would prevent liberal judges from granting asylum to aliens on the basis that their governments believe they are terrorists. It is only reasonable that our laws do not force our country to provide safe harbor to those individuals that are being sought out by their governments due to their terrorist ties.

I have given just a few examples of why this legislation is so important to further our ability to strengthen our border security and increase our ability to remove illegal aliens from our country. There are numerous other provisions within this bill that work toward those goals as well. I strongly encourage my colleagues to join me today in voting in support of this important border security legislation because it will help better defend our homeland.

Mr. DINGELL. Mr. Chairman, I rise in strong opposition to H.R. 418, the REAL ID Act. Not only has the House failed to consider the sweeping changes in this bill through the thoughtful and deliberative committee process, we have failed our duty to the American people to ensure that this bill will not have unintended consequences.

You may ask, "Dingell, what unintended consequences? Doesn't this bill just keep the bad guys from harming us again?"

Well, my friends, read the fine print.

Look at Section 102 of the bill. That section allows the Secretary of Homeland Security to waive ANY and ALL federal, state, or local law that the Secretary determines should be waived to ensure the construction of physical barriers and roads to deter illegal border crossings.

It would also allow waiver of laws to knock down existing structures or other obstacles.

It would give power to the Secretary of Homeland Security to waive any public health law such as the Safe Drinking Water Act, the Clean Water Act, as well as transportation safety, hazardous materials transportation and road construction standards.

In addition, it would grant DHS unchecked authority to abrogate criminal law, child labor laws, laws that protect workers, civil rights laws, ethics laws for clean contracting and procurement policy.

It goes even further. No procedures for using this authority are established, and judicial review by federal or state courts is expressly prohibited. It even appears there would be NO judicial review concerning the taking of private property.

The breadth of this provision is unprecedented and must not stand.

Now let's look at Section 101. This section requires that in certain asylum claims, applicants must prove that their race, religion, nationality, membership in a particular social group, or political opinion "was or will be a central reason" for their persecution.

In effect, this will bar many legitimate refugees who have fled brutal human rights abuses, including torture, rape, and other horrific violence, from receiving asylum.

This section creates new burdens on those seeking asylum, including a corroborating evidence test, empowering an immigration officer or immigration judge to deny asylum to a refugee because he believes, in his discretion, that the refugee should have somehow been able to obtain a particular document when fleeing her country.

Mr. Chairman, I understand that we must protect our borders, but we must still allow those decent freedom loving people fleeing their countries to be able to continue to seek asylum.

Í would also note that Sec. 103 specifically identifies officers, officials, representatives or spokesmen of the Palestinian Liberation Organization as terrorists, thus not able to enter the United States. Mr. Speaker, this would mean that Palestinian Authority President Mahmoud Abbas would be barred from the United States. Given the great progress we have seen in the Middle East in the past week and that the Bush Administration is in the process of setting up meetings with Dr. Abbas in Washington, it hardly seems wise to pass a bill barring the newly elected President of the Palestinian Authority from the country.

Finally, I note that I have concerns about this bill and its unintended consequences on the Second Amendment rights of gun owning Americans like myself.

Section 203 calls for the linking of databases and creates a floor for the requirements of what can be included in the database. However, this legislation fails to create a ceiling What could stop a State from requiring databases to contain information about gun licenses issued and gun ownership records?

Mr. Chairman, I urge my colleagues to oppose this broad overreaching legislation. Let's have hearings. Let's have real deliberation and debate. I will vote against this legislation.

Mr. HOLT. Mr. Chairman, I rise in opposition to H.R. 418, the REAL ID Act. This legislation was crafted under the guise of protecting our borders and improving homeland security. However, it would make it more difficult for victims of persecution to obtain asylum impose expensive mandates on the States, and authorize the Secretary of Homeland Security to waive any and all laws to construct barriers at our international borders—none of which will make this country any safer from terrorists. This legislation would also effectively undo the important immigration and security reforms passed by the 108th Congress, putting us at greater risk for future attacks.

The 9/11 Commission's immigration-related recommendations focused on targeting terrorist travel through reliable identification systems and effective, integrated information sharing. Instead, this legislation seeks to change immigration laws broadly and in ways unrelated to essential intelligence reform.

This legislation would expand the authority for expedited alien removal without further hearing or review, impose stringent restrictions on asylum seekers hoping to be given an interview with an asylum officer, and require unreasonable standards of proof for aliens seeking asylum. None of the 9/11 hijackers sought or were granted asylum; rather, they were granted legal visas to enter the United States using fraudulent documents overseas. Furthermore, current law explicitly bars terrorists or members of terrorist organizations from gaining asylum, and asylum-seekers already undergo thorough background checks through the FBI, CIA, Department of Homeland Security, and Department of State databases. The onerous restrictions offered by H.R. 418 would keep highly-vulnerable victims of heinous crimes from escaping their persecutors, and they do not address the real vulnerabilities in our immigration system

A report released this week by the United States Commission on International Religious

Freedom underscores the dangerous impact these so-called reforms would have on our asylum process. According to the commission, the current expedited removal process in the U.S. places victims of persecution at great risk for further trauma, while the severity of conditions and deprivation imposed on asylum seekers was "shocking." Rather than address this serious situation in the ways recommended by the commission, today this Congress would force even more innocent asylum seekers into expedited removal or send them back to their persecutors without an opportunity to appeal their case to an immigration judge.

H.R. 418 would also impose statutory requirements for State-issued driver's licenses and repeal the important identification security measures enacted by the bipartisan Intelligence Reform and Terrorism Prevention Act. Rather than permit local, State, and Federal officials to work together to create minimum security standards for driver's licenses and identification cards as authorized by Congress last year, H.R. 418 would mandate statutory standards for States and require them to share personal information on all licensed drivers in a massive national database.

H.R. 418 would dismantle the carefully crafted immigration and security reforms enacted by Congress last year in the Intelligence Reform bill. That law will toughen our border security by adding 10,000 new border patrol agents over the next 5 years, strengthening visa application requirements, and adding 4,000 new immigration and customs investigators. It fortifies identification security while allowing the State officials charged with making those changes to be a part of the process.

Mr. Chairman, this law implemented key 9/11 Commission recommendations without jeopardizing our legal immigration system or the ability of legitimate asylum seekers to escape persecution. Our country was founded on the principle of immigration, and we must not close our doors to those who lawfully seek to share in the freedom and democracy that Americans have always held dear. The Congress must do everything in its power to protect our citizens and our borders. H.R. 418, however, does not achieve those important goals, and I urge my colleagues to oppose this legislation.

Mr. MEEHAN. Mr. Chairman, I rise to oppose H.R. 418, the REAL ID Act. This bill is an expansion of the Patriot Act intended to punish immigrants without making America any safer.

Any time a bill is brought to the floor with no hearings, no committee markup, and few opportunities for amendments, it indicates that its sponsors are trying to protect it from scrutiny.

That's certainly the case here. Indeed a close look at this bill shows that its true purpose is not to make America safer, but to advance an agenda of ending America's tradition of welcoming and protecting the rights of immigrants.

This bill is about much more than driver's licenses. It upends the process of granting asylum to individuals and families who have suffered torture or persecution in other countries. It expands the PATRIOT Act to allow more deportations for people with no connection to terrorism.

No one doubts the need to review standards for issuing driver's licenses. That is why Congress worked on a bipartisan basis to implement the recommendations of the 9/11 Commission.

The recently enacted 9/11 bill established minimum Federal standards to ensure the integrity of drivers' licenses issuance and verification. The regulations are in the process of being developed, with the input of the state agencies that issue driver's licenses. Enacting a new bill that prescribes eligibility for driver's licenses would delay and disrupt the implementation of the 9/11 bill's standards even before they have been put in place.

The strongest reason to approach this issue thoughtfully is that the process of applying for driver's licenses brings new people into government databases, which can be cross-referenced with FBI and terrorist watch lists. The only reason we had any information about the 9/11 hijackers, their whereabouts, and their connections to others, is because we could track information from driver's license databases. Shutting off this flow of information is not a smart or effective way to combat terrorism.

This bill is only the latest example of how this Congress has ignored regular order to rush a partisan bill to the floor with little deliberation or debate. I oppose this process and this bill

Mr. BILIRAKIS. Mr. Chairman, I rise today in strong support of H.R. 418, the REAL ID Act. As a member of the Congressional Immigration Reform Caucus, I join with my colleagues to raise attention to the serious flaws in our immigration system which leave our Nation exposed to potential threats.

The 9/11 Commission made several recommendations which were not enacted as part of the National Intelligence Reform Act of 2004 (Public Law 108–458), including provisions to strengthen identification document standards and to secure our borders. The commission specifically recommended that the Federal government should set standards for the issuance of birth certificates and sources of identification such as driver's licenses. In addition, the commission recommended the Department of Homeland Security's, DHS, completion of a biometric entry-exit screening system and the improvement of U.S. border security standards for travel and border crossing.

I was disappointed that the conference committee on the intelligence reform bill opted to remove the immigration-related provisions approved by the House during its consideration of H.R. 10 last fall. I commend House leadership for honoring the commitment made to Chairman SENSENBRENNER to allow the consideration of the bill we have before us today.

We have a real opportunity to adopt meaningful reforms to improve our immigration system. H.R. 418 establishes strict proof of identity for all applicants for State-issued driver's licenses and identification documents. This bill serves to protect the integrity of our immigration laws by requiring States, in effect, to confirm lawful immigration status or disclose the lack of confirming identification on the face of cards issued.

H.R. 418 also makes aliens deportable for terrorism-related offenses to the same extent that they would be inadmissible for the same grounds. If nothing else, our immigration system must prevent potential terrorists from entering the United States. We would not be exercising our responsibility to protect national security if we were to allow our immigration

system to be exploited by those malevolent individuals who seek to destroy Americans and our way of life.

Mr. Chairman, there are many flaws in our immigration system which need to be fixed. H.R. 418 does not address them all, but it does represent a good step forward in discouraging lawbreaking by those who would choose to exploit our welcoming nature. As a cosponsor of the REAL ID Act, I urge my colleagues to improve our Nation's security and strengthen our immigration laws by voting for H.R. 418.

Mr. GOODLATTE, Mr. Chairman, I rise today in support of h.r. 418, the REAL ID Act. I supported the Intelligence Reform and Ter-

rorism Prevention Act last December. That legislation helped to streamline the intelligence community and tightened some asylum rules that allowed potential terrorists to remain in our country. That was a good bill, but it did not go far enough. So I am pleased that the House is debating H.R. 418-A bill that I believe will continue to strengthen our borders, further improve identification standards, and

close even more asylum loopholes.

We know that Mohamed Atta and his gang of terrorists exploited weak identification rules, and, as stated in the 9/11 Commission Report. "All but one of the 9/11 hijackers acquired some form of identification document, some by fraud." H.R. 418 will require that Federal agencies only accept licenses and Stateissued ID cards when States have determined that the holder is lawfully present in the country. The bill will also require that temporary visitors to our country receive only temporary identification, and that this identification expire when the terms of the visit expire. Mr. Chairman, this only makes sense.

I am also pleased that this bill further reforms our asylum system, a system that has unfortunately been ripe for corruption for years. We are also addressing the San Diego border fence issue and will ensure the expeditious completion of the border fence. Further. the bill makes aliens deportable for terrorismrelated offenses. Incredibly, current law provided that not all terrorism-related grounds for keeping an alien out of the country are also grounds for deportion. This bill closes that

loophole.

The simple fact is that we need to secure our borders. Today's bill is another step toward this effort and I believe it will make our country safer. I urge my colleagues to support the REAL ID Act.

Mr. BACA. Mr. Chairman, I rise in strong opposition of this bill.

It does nothing to make America safer. It is simply anti-immigrant legislation placed under the mask of homeland security.

The bill will prevent States from giving licenses to undocumented immigrants. It will not prevent terrorists from obtaining identification forms. All of the 9/11 hijackers were in this country legally.

In fact, allowing immigrants to have licenses actually improves homeland security by allowing our government to track who is in our borders.

This bill will also raise insurmountable hurdles for refugees seeking asylum and will deport victims of persecution into the hands of their persecutors.

Proponents of this provision claim that we need to tighten asylum laws, yet, they cannot pinpoint a single terrorist given asylum in the United States.

This bill will also require the completion of a fence on the Mexican border, waiving environmental laws in California. This fence is a complete waste of money and resources. People will go over it, under it and around it to enter our country.

Our immigration system is a broken system that needs to be fixed. We need reform that provides hardworking people of good character with a real path towards citizenship.

But this bill is simply a Band-Aid on the problem that will not provide lasting reform.

Mr. RYUN of Kansas. Mr. Chairman, on September 11, we were attacked by terrorists who took advantage of weaknesses in our border security. After infiltrating our country, the terrorists were able to conceal their real identities, and thereby plot their attacks without fear of being apprehended. If we, as a Congress, want to seriously address the problem of terrorism, then we must address the issue of border security.

For this reason, I rise to express my support for the REAL ID Act. This bill contains urgent border security reforms that were not addressed in the Intelligence Reform Bill that President Bush signed into law in December.

Foremost in this bill are provisions that would prevent terrorists from obtaining a United States driver's license. Without a license, potential terrorists will have a much harder time opening a bank account, traveling, and conducting other business necessary to plot an attack.

I think we all understand that preserving freedom is not an easy process. Freedom is a difficult journey filled with enemies who will try to destroy it if they are left unchecked. For this reason, I strongly urge my colleagues to vote for the REAL ID Act.

Mr. PAUL. Mr. Chairman, I rise in strong opposition to H.R. 418, the REAL ID Act. This bill purports to make us safer from terrorists who may sneak into the United States, and from other illegal immigrants. While I agree that these issues are of vital importance, this bill will do very little to make us more secure. It will not address our real vulnerabilities. It will, however, make us much less free. In reality, this bill is a Trojan horse. It pretends to offer desperately needed border control in order to stampede Americans into sacrificing what is uniquely American: our constitutionally protected liberty.

What is wrong with this bill?

The REAL ID Act establishes a national ID card by mandating that States include certain minimum identification standards on driver's licenses. It contains no limits on the government's power to impose additional standards. Indeed, it gives authority to the Secretary of Homeland Security to unilaterally add requirements as he sees fit.

Supporters claim it is not a national ID because it is voluntary. However, any State that opts out will automatically make non-persons out of its citizens. The citizens of that State will be unable to have any dealings with the Federal Government because their ID will not be accepted. They will not be able to fly or to take a train. In essence, in the eves of the Federal Government they will cease to exist. It is absurd to call this voluntary.

Republican Party talking points on this bill, which claim that this is not a national ID card, nevertheless endorse the idea that "the Federal Government should set standards for the issuance of birth certificates and sources of

identification such as driver's licenses." So they admit that they want a national ID but at the same time pretend that this is not a national ID.

This bill establishes a massive, centrally coordinated database of highly personal information about American citizens: at a minimum their name, date of birth, place of residence, Social Security number, and physical and possibly other characteristics. What is even more disturbing is that, by mandating that states participate in the Drivers License Agreement, this bill creates a massive database of sensitive information on American citizens that will be shared with Canada and Mexico.

This bill could have a chilling effect on the exercise of our constitutionally guaranteed rights. It re-defines "terrorism" in broad new terms that could well include members of firearms rights and anti-abortion groups, or other such groups as determined by whoever is in power at the time. There are no prohibitions against including such information in the database as information about a person's exercise of first amendment rights or about a person's appearance on a registry of firearms owners.

This legislation gives authority to the Secretary of Homeland Security to expand required information on driver's licenses, potentially including such biometric information as retina scans, fingerprints, DNA information, and even radio frequency identification, RFID, radio tracking technology. Including such technology as RFID would mean that the Federal Government, as well as the governments of Canada and Mexico, would know where Americans are at all time of the day and night.

There are no limits on what happens to the database of sensitive information on Americans once it leaves the United States for Canada and Mexico-or perhaps other countries. Who is to stop a corrupt foreign government official from selling or giving this information to human traffickers or even terrorists? Will this uncertainty make us feel safer?

What will all of this mean for us? When this new program is implemented, every time we are required to show our driver's license we will, in fact, be showing a national identification card. We will be handing over a card that includes our personal and likely biometric information, information which is connected to a national and international database.

H.R. 418 does nothing to solve the growing threat to national security posed by people who are already in the U.S. illegally. Instead, H.R. 418 states what we already know: that certain people here illegally are "deportable." But it does nothing to mandate deportation.

Although Congress funded an additional 2,000 border guards last year, the administration has announced that it will only ask for an additional 210 guards. Why are we not pursuing these avenues as a way of safeguarding our country? Why are we punishing Americans by taking away their freedoms instead of making life more difficult for those who would enter our country illegally?

H.R. 418 does what legislation restricting firearm ownership does. It punishes law abiding citizens. Criminals will ignore it. H.R. 418 offers us a false sense of greater security at the cost of taking a gigantic step toward making America a police state.

I urge my colleagues to vote "no" on the REAL ID Act of 2005.

Mr. GUTIERREZ. Mr. Chairman, I rise today in strong opposition to H.R. 418. The proponents of this dangerous and divisive bill have mischaracterized and misrepresented it as a measure that focuses on national security. This could not be further from the truth.

I would urge my colleagues today to listen beyond the harsh rhetoric and to closely examine this legislation. Because further study will reveal that H.R. 418 is really nothing more than a bill designed to bash immigrants and punish refugees.

H.R. 418 ignores our Nation's proud history of protecting those fleeing brutal human rights abuses, torture and persecution. It would force our country to turn its back on women, children, and victims of religious persecution. The bill would create insurmountable hurdles for legitimate asylum-seekers and slam the door shut on refugees who have fled brutal human rights abuses. That is not America.

H.R. 418 also ignores the reality that there are an estimated 10 million or more undocumented immigrants living in our country. This bill would do nothing to prevent undocumented migration to the United States. If anything, this bill will only further compound the flaws in our Nation's immigrations laws. And it would make the job of protecting our homeland even more challenging.

H.R. 418 will make the vital job of law enforcement to arrest criminals and root out potential terrorists almost impossible. In short, immigration enforcement will continue to expend their valuable, but limited, resources and energy in pursuing hardworking busboys and nannies, instead of bad actors who mean us real harm. Immigration officers represent our frontline forces in protecting our homeland. Let's not make their jobs even more demanding. Let's give them the policies, the resources and the tools they need to succeed.

Mr. Chairman, imagine your neighbors, the families who live across the street, the men and women who join us at church—all of the hard working people who share the roads with us. Now imagine these hundreds of thousands, perhaps millions of people, driving without a license, without car insurance or registration. Such a policy will wreak havoc on our streets and highways. It also will do nothing to address our broken immigration system. It will just force hard working people further into the shadows and create an increased demand for the black market of fake identity documents.

I agree that Congress must examine how to improve enforcement of immigration law, but we first must create laws that are enforceable and in step with reality.

Let me close by saying this. I am not alone in my strong opposition to this misguided and mean-spirited legislation. Also opposing the bill are the National Governor's Association, the National Council of State Legislatures, many other national, State and local organizations, security and immigration policy experts, immigration attorneys, more than 100 religious organizations, Hispanic and Asian organizations, the U.N. Commissioner for Refugees, the AFL—CIO, the Service Employees International Union and other labor unions. The list goes on and on, and I consider myself very good company.

Mr. Chairman, I strongly urge my colleagues to oppose this bill. The only thing "real" about the REAL ID Act is that it is real bad for America

Mr. HONDA. Mr. Chairman, I rise today to strongly oppose H.R. 418, the REAL ID Act. This bill merely recycles the anti-immigrant

and refugee provisions that did not make it into the Intelligence Reform and Terrorism Prevention Act of 2004 passed and signed into law late last year. H.R. 418 does not improve our national security.

H.R. 418 would repeal some of the bipartisan provisions that were set forth in the Intelligence Reform Act, including increasing the number of new border patrol agents, strengthening visa application requirements, and allowing security experts at Department of Homeland Security to establish strict new minimum standards for driver's licenses.

I am particularly concerned with section 101, which would have the effect of preventing legitimate asylum seekers from obtaining relief in the United States. The REAL ID Act would require asylum applicants to prove that their persecutors' "central motive" for harming or wishing to harm them was race, religion, nationality, membership in a particular social group, or political opinion. Applicants may be denied based on any inconsistencies or inaccuracies in their stories.

We must remember those who flee brutal human rights abuses, however, often escape from situations that do not allow them to gather any of the documentation necessary to present "corroborating evidence." An escapee from the Darfur region cannot go back and "track" evidence of their persecution without facing threatening life situation.

Moreover, the REAL ID Act would implement a national standard for driver's licenses, requiring all States to overhaul their procedures and to meet Federal standards within 3 years. Setting a national standard for driver's licenses infringes on States' rights and sends another unfunded mandate to the States.

The border and fence security provision in this bill will neither deter nor detect the many non-citizens who continue to enter the U.S., while granting the Secretary of Department of Homeland Security power to waive any law upon determining that a waiver is "necessary for the expeditious construction" of the border barriers. Under this waiver, the DHS would be free to construct anywhere along our borders without legal limitation, liability, or oversight.

Furthermore, this provision will allow DHS to destroy endangered habits and species, as well as archaeological sites containing 7,000-year-old Native American artifacts when constructing the additional fencing.

H.R. 418 does not address the greater problems of our current broken immigration system. In order to fix our immigration problems, we need a comprehensive immigration reform.

The Acting CHAIRMAN (Mr. SIMP-SON). There being no further amendments, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. BASS) having assumed the chair, Mr. SIMPSON, Acting Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 418) to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, and to ensure expeditious construction of the San Diego border fence, pursuant to House Resolution 75, he reported the bill, as amended pursuant to that rule, back to the House with further sundry amendments adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment? If not, the Chair will put them en gros.

The amendments were agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. REYES

Mr. REYES. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. REYES. I am, Mr. Speaker, in its present form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Reyes of Texas moves to recommit the bill H.R. 418 to the Committee on the Judiciary with instructions to report the same back to the House forthwith with the following amendment:

At the end of section 203, add the following:

(c) RESTRICTIONS ON INFORMATION CONTAINED IN DATABASE.—A State motor vehicle database may not include any information about a person's exercise of rights guaranteed under the first, second, or 14th amendment to the Constitution of the United States

Mr. SENSENBRENNER (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER pro tempore. The gentleman from Texas (REYES) is recognized for 5 minutes.

Mr. REYES. Mr. Speaker, this motion to recommit provides for restrictions on the information contained in the national database. This bill as it stands requires that the database shall contain at a minimum all information contained on the driver's licenses as well as driving history. This would create no limit as to what other information may eventually be incorporated in the database. This motion would simply protect the privacy rights of Americans from a national ID database in this bill.

In particular, this amendment guarantees that the database cannot become a centralized storage place for sensitive personal information on nearly every American about whether they own guns, what guns they own and whether they have purchased any guns. This could be the national gun registry that we have all feared for years.

This motion to recommit would also bar information on the exercise of first amendment and fourteenth amendment rights from being included in the driver's license database. We should not have a government database of political activities of law-abiding citizens.

As Bob Barr, our former colleague, said in the Washington Times last year in opposition to nearly identical provisions, "You know something is askew when we second amendment conservatives keep finding common cause with the American Civil Liberties Union."

Groups strongly opposed include the Gun Owners of America, the ACLU, the Republican Liberty Caucus, the League of United Latin Americans Citizens, the American Conservative Union, and the Privacy Rights Clearinghouse.

Our constituents have set aside partisan concerns in recognition of the dangerous consequences, unintended consequences, of passing this misguided legislation. This bill would establish a National Interstate Computer Database to track the personal information of every single American, laying the foundation, I believe, for a national ID system.

Moreover, H.R. 418 places privacy limitations on the use of centralized data. It does not even prohibit the Federal Government from sharing personal information with other people, companies, and foreign governments.

This system, I believe, is ripe for abuse, Mr. Speaker. By forcing State governments to maintain and share files on almost every adult in the Nation, this bill will truly usher in the era of Big Brother. The database could be used to track Americans' movements, store information on political activities, and even store information on gun ownership.

Mr. Speaker, I hope that the rest of my colleagues are not fooled by H.R. 418. This is nothing less than a bureaucratic back door to a national ID system.

Mr. Speaker, I yield back the balance of my time.

Mr. SENSENBRENNER. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Wisconsin is recognized for 5 minutes.

Mr. SENSENBRENNER. Mr. Speaker, this bill does not require the States to do anything or not do anything. It has been very clear from the beginning of the debate on this legislation. What the bill does is it says that a driver's license has to meet certain standards if it is to be acceptable for Federal ID purposes, such as getting on an airplane.

What the motion to recommit does is force the States to do something, or not do something; and that goes directly against the notion of federalism that is contained in this bill and which was drafted by the Committee on Government Reform.

The first vote that we had yesterday on this legislation was on whether we should waive the law relative to unfunded mandates. The vote on that was 228 "aye" to 191 "no." The author of this motion to recommit, as well as the 190 who joined him in saying that we should not waive the unfunded mandate law, is now asking the States to have another unfunded mandate.

I would urge all of the 191 who voted "no" on the Jackson-Lee objection to consideration of the rule to bring this up to join me in voting "no" on this motion to recommit, together with the 228 who voted the right way yesterday.

Vote "no" on the motion to recommit; vote "aye" on passage.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

#### RECORDED VOTE

 $\operatorname{Mr.}$  REYES. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of final passage.

The vote was taken by electronic device, and there were—ayes 195, noes 229, not voting 9, as follows:

# ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. BASS) (during the vote). Members are advised that there are 2 minutes remaining in this vote.

□ 1441

Mrs. DAVIS of California changed her vote from "yea" to "nay."

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. FERGUSON. Mr. Speaker, I missed the vote on final passage of H.R. 418. Had I been able, I would have cast a vote in the affirmative as I am a strong proponent of the legislation and the goals it sets to achieve in reforming immigration policy in our country.

# PERSONAL EXPLANATION

Mr. HINOJOSA. Mr. Speaker, I regret that I had to return to my district last evening and today. Had I been present, I would have voted "no" on rollcall 27 and 31. I would have voted "yes" on rollcall 24, 25, 26, 28, 29, and 30.

Mr. CARTER. Mr. Speaker, on February 10, 2005, during rollcall votes 28, 29, 30 and 31, I had to return to my Congressional district on an urgent matter and was unavoidably detained. If I had been present, I would have voted "no" on rollcall votes 28, 29, 30 and "yea" on rollcall vote 31, final passage.

Mr. HONDA. Mr. Speaker, on rollcall votes Nos. 28, 29, 30 and 31, I was unavoidably detained. Had I been present, I would have voted: "yea" on rollcall vote No. 28, the Nadler/Meek Amendment, which would strike section 101 of the bill which imposes new burdens on persons seeking asylum: "yea" on rollcall No. 29, the Farr Amendment, which would strike section 102 of the bill regarding waivers to expedite construction of physical barriers and roads along the border; "yea" on rollcall No. 30, the motion to recommit; and "no" on rollcall No. 31, final passage of H.R. 418—REAL ID Act of 2005.

# LEGISLATIVE PROGRAM

(Mr. HOYER asked and was given permission to address the House for 1 minute.)

Mr. HOYER. Mr. Speaker, I yield to my friend, the majority leader, the gentleman from Texas (Mr. DELAY), for the purposes of informing us of the schedule.

Mr. DELAY. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, the House will convene on Tuesday at 2 p.m. for legislative business. We will consider several measures under suspension of the rules. The final list of those bills will be sent to Members' offices at the end of the week and any votes called for on these will be rolled to 6:30 p.m.

On Wednesday and Thursday the House will convene at 10 a.m. We will likely consider additional legislation under suspension of the rules, as well as H.R. 310, the Broadcast Decency Enforcement Act. In addition, we are working on the continuity of government legislation. It is anticipated to be similar to H.R. 2844, the Continuity in Representation Act passed by the House last year. We hope to move quickly and bring that legislation to the floor next week.

Finally, assuming the other body passes S. 5, the Class Action Fairness Act of 2005, in a form identical to what the Senate Committee on the Judiciary passed last week, we expect to consider that legislation next week as well.

Mr. HOYER. I thank the gentleman for that information. With respect to the class action, the gentleman indicated, as I understand it, that that bill has passed the Committee on the Judiciary?

Mr. DELAY. What I was talking about is, as the gentleman knows, the Senate is debating that bill as we speak. If indeed that bill comes out as it passed by the Senate Committee on the Judiciary with no amendments, then we could very well pick up that bill and just consider it here without going through committee.

Mr. HOYER. Mr. Leader, I know in the past the gentleman has been very reluctant to simply take the Senate's work product, and I am somewhat shocked that the gentleman apparently suggests that process now. I do not know whether that is going to be a precedent for the future. But may I ask the gentleman, is it his contemplation that it would come directly to the floor and not go to committee for consideration?

Mr. DELAY. It is a new Congress and a new Senate, and the work that they are doing over there, at least the beginning of the work that they are doing over there, is pretty impressive, particularly the work they have done on this very important bill.

We have gone through regular order on this side of the House in many different steps on this class action issue; and if the Senate does what I think it is going to do, yes, we would bring it straight to the floor and consider it without committee action.

Mr. HOYER. As the leader knows, we have been for that process from time to time when there seemed to be agreement between the two Houses. Obviously, however, Mr. Leader, as the gentleman knows, what that does is it precludes Democrats from participating in committee consideration, offering amendments in committee to the subject legislation.

My question to the gentleman is, in the event that that is done, would the gentleman bring that to the floor with an open rule that would allow amendments to be offered as Members see fit so that we could have some full consideration of that piece of legislation on the floor of the House of Representatives?

Mr. DELAY. I thank the gentleman for yielding. As the gentleman knows, the Committee on Rules will take that up under consideration and perhaps the gentleman should contact the gentleman from California (Mr. DREIER) on that question as it relates to this bill. I am not advised as to what the Committee on Rules will do.

Mr. HOYER. Reclaiming my time, the reason, Mr. Leader, I asked that question because of the very high re-

spect I have for the gentleman's influence with that committee; and I thought, therefore, the gentleman might have some inkling as to what might be done. I say that somewhat jokingly, but I really do believe that if we are going to take the bill that the Senate sends over, bring it directly to the floor without committee consideration, that not only in a sense of fairness but in a sense of getting the input of the 125 to 130 million people that this side of the aisle represents, that we give us the opportunity to offer such amendments as we think to be appropriate with respect to that legisla-

Mr. Leader, with respect to the continuity of Congress, this has been an issue we tried to deal with in the past. It is a very important issue with which we should deal. I know at times I have talked to the gentleman and the Speaker and particularly to my friend, the majority whip, with reference to having a bipartisan proposal so that both parties, on an issue of great magnitude to this institution in terms of continuity and how do we form a majority to take action, has this been to the gentleman's knowledge, and I do not have that knowledge. I have not talked to anybody on the Committee on Rules or any other committee out of which this might have come. Does the gentleman know whether or not we have bipartisan agreement with respect to the legislation the gentleman intends to put on the floor next week?

Mr. DELAY. I thank the gentleman for yielding. There are ongoing discussions about this bill with the minority and particularly with the minority leader's office. We are continuing those discussions.

I remind the gentleman that this bill got 306 votes last year. I think that is pretty bipartisan.

#### □ 1445

So as we work through this, we will continue to discuss and work with the minority to make it even more bipartisan than it is.

Mr. HOYER. I appreciate that.

And reclaiming my time, Mr. Leader, I understand what you are saying in terms of the number of folks who voted for it. There were a very substantial number who voted for it.

This is not a partisan issue. It should not be a partisan issue. This is a practical judgment as to how constitutionally and appropriately within the framework of our democracy and representation that we frame or have legislation framed so that does reflect the interests of our democracy as well as the interest of ensuring continuity.

From that perspective of not just having a number of votes for it, but having the leadership on both sides, I do not mean necessarily the gentle-woman from California (Ms. Pelosi) and myself, but the committee leadership on both sides, whether it is the Committee on Rules, Committee on the Judiciary or any other committee that

might consider it somewhat in agreement.

Mr. DELAY. Will the gentleman yield?

Mr. HOYER. I yield to my friend.

Mr. DELAY. I hope the gentleman is not raising a standard that is even higher than given to the Constitution, in that when two-thirds of this House has voted for a measure, in order for it to be bipartisan, we have to go even higher than two-thirds of the House.

We are continuing to work with the minority leader. We understand her concerns and your concerns. But when you have well over two-thirds of the House voting for a bill, it gets more and more difficult to write a bill that requires unanimity.

Mr. HOYER. Reclaiming my time, no one is suggesting unanimity. I understand that. We are suggesting, though, that we work together on this issue. And the mere fact that we have the ability to get a large number of votes for a bill is critically important. Your observation is correct in terms of numbers necessary to pass the constitutional amendment or to pass other legislation by two-thirds. It is obviously

important.

But it is equally important, it seems to me, and might facilitate passage of this through the entire Congress, not just through the House of Representatives, to have input from the leadership of both parties to try to come to grips with what I perceive not to be a partisan issue, but a difficult issue on which constitutional scholars have differed as to how we can do this, on which Members of this House on both sides of the aisle have differed.

But we do not need to pursue it. I understand the gentleman's point. But I would hope that we could have significant discussions about this and hopefully come to agreement of the minds.

Mr. Leader, we are not going to have a scheduling colloquy next week because it will be the Presidents' Day recess. But can you indicate what we may have on the floor the week that we return from the Presidents' Day recess?

Mr. DELAY. Frankly, I do not know. We will just have to get back to you on that

Mr. HOYER. Mr. Leader, thank you for that.

I understand we may receive the President's tsunami supplemental appropriations next week. Do you anticipate we may also receive the Iraq-Afghanistan supplemental request as well?

Mr. DELAY. If the gentleman would yield.

Mr. HOYER. Yield to my friend.

Mr. DELAY. I appreciate the gentleman yielding. The White House has indicated to us that they will submit, as the gentleman said, the supplemental request on the tsunami next week. But we also expect the supplemental requests on the war on terror, and I would expect the House to consider some supplemental sometime in the month of March.

Mr. HOYER. Thank you for that. And you answered my second question. The energy bill you had brought up in our previous colloquy, can you tell us where that might stand at this point this time?

Mr. DELAY. If the gentleman would yield.

Mr. HOYER. Yield to my friend.

Mr. DELAY. The energy bill, we are continuing to work on that bill, just working on putting it together in order to introduce it. It is not ready, and I do not know, frankly, when it will be ready to even introduce, much less think about committee action and when the House might consider it.

Mr. HOYER. It would be fair to assume, then, that certainly it is not going to be in the next 2 or 3 weeks?

Yield to my friend.

Mr. DELAY. If the gentleman would yield, I think that is fair to assume.

Mr. HOYER. I thank the gentleman.

ADJOURNMENT TO MONDAY, FEB-RUARY 14, 2005 AND HOUR OF MEETING ON TUESDAY, FEB-RUARY 15, 2005

Mr. DELAY. Mr. Speaker, I ask unanimous consent that when the House adjourns today it adjourn to meet at noon at Monday next; and further, when the House adjourns on that day it adjourn to meet at 12:30 p.m. on Tuesday, February 15, 2005 for morning hour debate.

The SPEAKER pro tempore (Mr. Bass). Is there objection to the request of the gentleman from Texas?

There was no objection.

# DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. DELAY. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

ANNOUNCEMENT OF AMENDMENT PROCESS FOR CONSIDERATION OF H.R. 310, BROADCAST DECENCY ENFORCEMENT ACT 2005

(Mr. BISHOP of Utah asked and was given permission to address the House for 1 minute.)

Mr. BISHOP of Utah. Mr. Speaker, I take this time for the purpose of making an announcement

The Committee on Rules may meet the week of February 14 to grant a rule which could limit the amendment process for floor consideration of H.R. 310, the Broadcast Decency Enforcement Act of 2005. Any Member wishing to offer an amendment should submit 55 copies of the amendment and one copy of a brief explanation of the amendment to the Committee on Rules in room H-312 of the Capitol by 12 noon on Tuesday, February 15, 2005.

Members should draft their amendments to the bill as reported by the Committee on Energy and Commerce on February 9, 2005, which is expected to be filed on Monday, February 14. Members are also advised that the text should be available for their review on the Web site of the Committee on Energy and Commerce and the Committee on Rules by Friday, February 11, 2005. Members should use the Office of Legislative Counsel to ensure that their amendments are drafted in the most appropriate form and should check with the Office of the Parliamentarian to be certain that their amendments comply with the rules of the House.

#### SOCIAL SECURITY SYSTEM

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON-Lee of Texas. Mr. Speaker, we have heard the President over the last 3 or 4 days present to the American people the idea of the crisis nature of revising, reforming, or altering completely the Social Security system. I go home and look forward to holding one of the first town hall meetings with my constituents to really lay out how we can work in a bipartisan manner and save Social Security.

It is important for the American people to realize that \$1.5 trillion will be needed to take away from Social Security to establish what one would call "private accounts," private accounts that could be seperate and apart from Social Security. Many Americans do not realize it is not just a retirement benefit, it is a survivor benefit. It helps children of those who are deceased.

More importantly, we forged a bipartisan response to Social Security in 1983 with Tip O'Neill and Ronald Reagan that caused this to be solvent for at least 60 years.

This proposal will not only undermine, but it will destroy Social Security as we know it. Does it need reforming and fixing? Absolutely, and we can do that with a number of suggestions, but the plan that has now been proposed by the administration is one that will undermine and eliminate Social Security.

### SPECIAL ORDERS

The SPEAKER pro tempore (Mr. BOUSTANY). Under the Speaker's announced policy of January 4, 2005, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

WHY WE NEED THE OMNIBUS NON-PROLIFERATION AND ANTI-NU-CLEAR TERRORISM ACT OF 2005

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from California (Mr. Schiff) is recognized for 5 minutes.

Mr. SCHIFF. Mr. Speaker, this morning the North Korean Government acknowledged publicly for the first time that it has nuclear weapons. In a statement issued by the North Korean Foreign Ministry, Pyongyang also said that it will boycott the six-party talks designed to end its nuclear program.

North Korea's surprising declaration has again reminded us of the most pressing national security challenge that we face: the proliferation of nuclear weapons and the possibility that a terrorist group will acquire a nuclear bomb and use it against the United States.

Earlier this week, my colleague, the gentleman from Connecticut (Mr. Shays) and I introduced the Omnibus Nuclear Nonproliferation and Anti-Nuclear Terrorism Act of 2005 to better enable the United States to prevent what Graham Allison of Harvard University has termed "the ultimate preventable catastrophe." I am pleased that we were joined as original cosponsors by 11 of our colleagues.

Over the past several months, the gentleman from Connecticut (Mr. SHAYS) and I have consulted with a range of experts to produce a set of policies that we believe will be effective and which can be implemented quickly. Our bill will do the following:

It creates an Office of Nonproliferation Programs in the White House to centralize budgetary and policy authority. Since nonproliferation programs are spread across the U.S. Government, it makes sense to have one office overseeing all of it, signing off on budgets and developing a coordinated strategy.

The bill enhances the Cooperative Threat Reduction, CTR, program by streamlining and accelerating Nunn-Lugar implementation and granting more flexibility to the President and the Secretary of Defense to undertake nonproliferation projects outside the former Soviet Union. Our bill does this by removing conditions on Nunn-Lugar assistance that in the past have forced the suspension of time-sensitive efforts.

In 2002, President Bush was unable for the first time to certify that Russia had met all of its program-wide conditions, resulting in a halt to all CTR funding until he was able to obtain and use authority to waive the certification requirement in early 2003.

The conditions have also provided CTR opponents within Russia with an excuse to blame the United States for delays caused by a lack of access and transparency on the part of Moscow.

We also ask for the President, in our bill, to catalog impediments to renegotiation of the CTR umbrella agreement and other bilateral programs with Russia. The hope is that by identifying them all, the Congress and the administration can better solve them quickly.

The bill asks the President to address the issue of unresolved liability protections for U.S. firms doing nonproliferation work in Russia.

This bill will enhance the Global Threat Reduction Initiative, announced by former Secretary Abraham last May, to accelerate the global clean-out of the most vulnerable stockpiles of nuclear material. At its current pace, it will take more than a decade to clean up the most vulnerable nuclear sites around the globe.

The bill also urges the President to expand the Proliferation Security Initiative beyond its current members and to engage the U.N. Security Council to provide the specific legal authority to interdict WMD material. It also provides funding for training and exercise with our PSI partners, especially the new members.

At present there are no international standards regarding the securing of nuclear weapons. The Schiff-Shays bill urges the President to develop a set of internationally recognized standards and to work with other nations and the IAEA to get such standards adopted and implemented.

Russia's tactical nuclear arsenal is considered the most likely place from which a nuclear weapon would be stolen and sold or given to terrorists. The gentleman from Connecticut (Mr. Shays) and I authorize U.S. assistance to Russia to conduct an inventory of tactical and nonsecured weapons. Our bill also requires the DOD to support a report on past U.S. efforts to help Russia account for and secure its tactical and nonsecured nukes and to recommend ways to improve such efforts.

We also deal with the problem of scientists in the former Soviet Union and work to prevent them from selling their services to North Korea, Iran and al Qaeda.

We also encourage the President to deal with the problem of the NPT's loophole that allows nations like Iran to pursue nuclear weapons through the guise of a nuclear energy program. Our bill asks the President to submit a report outlining strategies to better control fuel cycle technologies and possible ways to close the loophole in Article IV without undermining the overall integrity of the treaty.

These are common-sense approaches to combating the nuclear threat. The gentleman from Connecticut (Mr. Shays) and I are committed to working together on a bipartisan basis to do whatever we can to reduce the danger of a nuclear attack on the United States, and we hope that all of our colleagues will join us in that effort.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

(Mr. BURTON of Indiana addressed the House. His remarks will appear hereafter in the Extensions of Remarks.) EXPLORATION OF NEW TECHNOLOGIES TO DECREASE HEALTH CARE COSTS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. Murphy) is recognized for 5 minutes.

Mr. MURPHY. Mr. Speaker, we need to explore new technologies that will decrease health care costs and improve patient safety. Electronic medical records, also known as EMRs, are a technological solution to an antiquated paper system.

Often, patient records are scattered between multiple hospitals and doctors' offices, resulting in the likelihood that important medical records could be lost and that valuable data is unavailable to the physician when he needs it. Time is wasted trying to obtain paper medical records, especially in cases of emergency care, and patients sometimes provide incomplete medical histories which often omit or distort important data.

Tens of thousands of lives and hundreds of billions of dollars are lost every year due to medical error, and EMRs would go a long way to reducing these costs. The electronic medical record centralizes all records on a patient and can instantly communicate this information to any health care provider in a secure and confidential manner.

EMRs also have a number of other advantages. They eliminate the need for duplicate tests. They reduce the search time for medical histories and limit instances of lost files, patient recall or unaccessible files. They can instantly search for symptoms, findings, treatments, diagnoses and health care providers involved with patient care. They can reduce the need for additional staff and the expansive storage space needed to maintain paper files.

When complications occur, medical records of an electronic type can allow providers to retrace the exact steps through the process to see if a different approach was needed. They can prompt providers to pursue certain avenues of treatment based upon their diagnosis, and they can automatically generate bills and reimbursements that reduce hilling errors

Some concerns regarding electronic medical records have been raised about the cost. However, the key to implementing an electronic medical record is not to have the Federal Government pick up the whole tab.

Health information technology companies, hospitals and medical practices must share information to improve the process and recommend standards for the industry. Let me give my colleagues an example of how this is done.

This process can be expensive to implement at this stage, and the University of Pittsburgh Medical Center accomplished their EMR system via private investments that will total some \$500 million. By implementing electronic medical records, the University of Pittsburgh Medical Center has al-

ready decreased the need for repeat laboratory, radiology or other invasive and expensive tests because the data and X-rays are easily shared by authorized users.

#### □ 1500

UPMC is ranked number one in the United States and health care industry, and number five among all industries in the use of information technology, according to Information Week 500

We need positive examples from the business community to make the case for health information technology today and tomorrow. Examples of successful electronic medical records such as these provide the leadership necessary to ensure that health information technology becomes a reality.

The President has already shown his commitment to health information technology by committing \$125 million to the Office of the National Health Information Technology Coordinator. Now we need to work with private industry to continue to make the case for successful implementation of health information technologies.

Mr. Speaker, if Congress accomplishes one thing this year to improve health care, we should work to develop incentives for hospitals and providers to successfully implement a secure and interoperable electronic health record. This will save money; it will save lives.

As the cochairman of the 21st Century Health Care Caucus, which I cochair with the gentleman from Rhode Island (Mr. Kennedy), we will continue to work on a bipartisan basis to fully implement electronic medical record systems and to reach this important goal of using this as a mechanism to improve health care in America.

The SPEAKER pro tempore (Mr. BOUSTANY). Under a previous order of the House, the gentleman from Ohio (Mr. Brown) is recognized for 5 minutes.

(Mr. BROWN of Ohio addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

# SMART SECURITY AND \$80 BILLION IRAQ SUPPLEMENTAL

The SPEAKER pro tempore. Under a previous order of the House, the gentle-woman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. Mr. Speaker, President Bush has recently indicated that he will ask Congress to approve another supplemental appropriations bill to fund the ongoing military operations in Iraq. The number is rumored to be somewhere in the \$80 billion range; \$80 billion.

If this request for emergency funds is anything like the last three passed in the Congress, we can expect two things: one, the President will once again refuse to explain precisely where this money will be spent; and, two,

congressional Republicans will meekly accede to the President's demands without asking for even the slightest degree of accountability from the White House in return.

We in Congress must do more than just rubber stamp the President's every last wish. We hold the power of the purse; and, accordingly, we must exercise our constitutional authority to hold the executive branch accountable. Up to now, the Congress has failed to hold the Bush administration accountable for the many mishaps and mistakes in Iraq; and, as a result, the Members of Congress, all 535 of us, are responsible for the nearly 1.500 American troops who have been needlessly killed in Iraq, not to mention the 11,000 Americans who have been forever wounded and the untold thousands of Iraqi civilians who have died in this war.

Before appropriating a single dollar for the Iraq war, more than we have already appropriated, Congress must demand that President Bush and Secretary Rumsfeld tell Congress exactly what they plan to do to address the growing crisis in Iraq. Demanding accountability from the Bush administration crosses over political lines because it is about more than just politics. It is about taking care of our men and women who are serving in Iraq, and it is about advancing policies that will secure America for the future.

Together, with 27 of my House colleagues, I have introduced House Concurrent Resolution 35, an Iraq withdrawal plan, that has four components. President Bush needs to address, at the very least, each of these important components before Congress provides him any further funds for Iraq.

First, the President needs to begin the process of bringing our troops home. How can we possibly ask these brave men and women, who have self-lessly answered the call of duty for their country, to continue to die for an unjust, unfair, and poorly planned military failure halfway across the world? These are the troops the administration assured us would be embraced as liberators, but who continue to be the focal point of anti-American extremism, leaving them like sitting ducks.

In fact, I believe the insurgency in Iraq is fueled primarily by our military presence. Ceasing the military operations will not be sufficient to defeat the insurgency, no way, but staying will continue to intensify it, and that is for certain.

Second, President Bush needs to develop and implement a plan for Iraq's civil and economic infrastructure. The U.S. has a moral responsibility to clean up the mess we made in Iraq, but that responsibility needs to be fulfilled not by our military but by humanitarian groups and companies that will help rebuild Iraq's infrastructure; and all future investments must be made with the needs of Iraqis being paramount, not the United States Government contractors and other war profiteers.

Third, the President must convene an emergency meeting of Iraq's leadership, Iraq's neighbors, and the United Nations to create an international peacekeeping force in Iraq and to replace U.S. military forces with Iraqi police and national guard forces to ensure Iraq's security. With Iraq's security problems the most serious cause for concern in the country at the moment, an international peacekeeping force in place of the U.S. military would better serve Iraq's needs.

An international peacekeeping force, supported by Iraq's neighbors and the United Nations, would provide real legitimacy to a conflict that has flown in the face of international law from the very beginning.

Finally, the President must take all steps to provide the Iraqi people the opportunity to control their internal affairs. The Iraqi people cannot truly control their own affairs until the U.S. military has ceded back authority to the Iraqi people. That is why it is essential for Iraq's police and national guard forces to manage Iraq's security, not the American military.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

(Mr. JONES of North Carolina addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

SECURING OUR BORDERS & TIGHT-ENING NOOSE ON PERPETRA-TORS OF SENSELESS VIOLENCE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE. Mr. Speaker, just last October, FBI agents, in cooperation with Baytown, Texas, and LaPorte, Texas, police, both law enforcement departments in my district, shattered a major document forgery operation being run out of a trailer house just across the street from the massive Exxon Mobile Refinery in Baytown, Texas. The result: six men were arrested and charged with numerous Federal counts of conspiracy and producing false documents, including Texas driver's licenses, resident alien cards, and industrial safety training cards used for employment in the strategic petrochemical industry.

The REAL ID Act that our Chamber passed today was a sensible first step toward desperately needed immigration reform in the United States. Still, however, in order to truly construct a watertight system, we cannot, when legislating here in Congress, just hitch our wagon to the newest pony when we have a solid team of stallions sitting around with nothing to do. Before discussion of any new proposals or their benefits, we must first ensure the laws currently on the books are being en-

forced. We must expect people from other nations to respect our borders.

Not only is it essential that we enforce existing laws; we must also reduce the incentives we offer foreigners to come to our country illegally. CNN reported a short time after the forgery bust I just mentioned that precious American dollars are being hijacked on unreimbursed medical care and education for illegal aliens who, in the darkness of the night, manage to come across our borders

Have Texas and other border States merely become free HMOs for illegals, with Americans, many of whom do not even have their own medical care, paying the cost?

Similarly, in the Washington Times, they had an article dealing with the invasion of illegal immigrants and the exorbitant cost to taxpayers in the health care and prison areas. It was reported that one in every four uninsured people in the United States is illegal. Moreover, its study revealed that in 2000 alone States like Texas, which are on the Mexican border, have losses in almost \$190 million in unreimbursed costs for treating illegals, with an additional \$113 million in ambulance fees and follow-up medical services.

Mr. Speaker, why, as unintentionally as it may be, are we rewarding brazen lawlessness? During my tenure on the bench as a felony court judge in Houston, Texas, I can recall that approximately 15 to 20 percent of the criminals I sentenced in my court for the most serious felony crimes were illegal immigrants. And while these individuals were doing time in the penitentiary, Texans, Americans no less, were once again paying the price for their incarceration.

Americans pay for the illegal immigration. Americans always pay. As that noted scholar Pogo once said: "We have found the enemy, and it is us." I believe, though, as we continue to heed vital lessons from the tragedy of the September 11 attacks on our soil, that we are making progress in securing our borders from unlawful immigration, while tightening the noose of the perpetrators of senseless violence and terror who harm our citizens.

I commend the gentleman from Wisconsin (Mr. Sensenbrenner), chairman of the House Committee on the Judiciary; the gentleman from California (Mr. Cox), chairman of the House Homeland Security Committee; and the gentleman from Virginia (Mr. Tom Davis), chairman of the Committee on Government Reform, for their leadership towards these collective goals.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon (Mr. DEFAZIO) is recognized for 5 minutes.

(Mr. DEFAZIO addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

## REMARKS ON RECENT STATEMENT BY IRISH REPUBLICAN ARMY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey (Mr. Pallone) is recognized for 5 minutes.

Mr. PALLONE. Mr. Speaker, I rise this afternoon to once again call upon the British Government to get the Northern Ireland peace process back on track and implement the recommendations of the Patten Commission in reforming the police service. The recent statement by the Irish Republican Army that they are taking their proposals to fully and finally decommission their weapons off the table is a direct result of the culture of hypocrisy and humiliation that plagues the Unionist parties and the British Government.

It troubles me that we have arrived at this point after the significant strides that had been made by Sinn Fein and the republican movement in the north in persuading the IRA to pursue a peaceful end to their struggle for a free and united Ireland.

Mr. Speaker, the fact that the Chief Constable of the PSNI, Hugh Orde, along with Prime Minister Tony Blair and Taoiseach Bertie Ahearn, have publicly accused the IRA of masterminding the recent bank robbery in Belfast without showing one piece of evidence is anathema to the core principle of due process that we hold so dear here in the United States.

These statements made to the press by the Chief Constable, and repeated by the Prime Minister and Taoiseach, are politically motivated and have no place in the criminal justice system. Sinn Fein and the IRA have said they will not tolerate criminality within the republican movement, and this policy of criminalization by the British Government brings us back to the days of Margaret Thatcher and the hunger strikes.

The public humiliation that the Reverend Ian Paisley and his Democratic Unionist Party so desperately seek of the Catholic community of Northern Ireland and the IRA should not be carried out by the likes of Mr. Blair and Mr. Ahearn while they maintain that they are committed to fulfilling the spirit and promise of the Good Friday Accords.

Central to the peace process in the north is the reform of a police service that for far too long has served as a tool of the Unionist majority and has sought time and again to punish, discriminate, and publicly humiliate the Catholic minority.

# □ 1515

The Catholics in Northern Ireland will never see the PSNI as their own police service if it is continually being used as a tool of unionism to disenfranchise their community.

Mr. Speaker, I call upon Prime Minister Tony Blair and Taoiseach Bertie Ahearn to stop their public posturing and press ahead with a return to the Good Friday Agreement and, most importantly, the implementation of Patten. Sinn Fein has stated unequivocally that they are committed to the peace process and are opposed to any return to violence. It is essential that we get back to devolved authority for the people of Northern Ireland, both Catholic and Protestant alike.

# PUBLICATION OF THE RULES OF THE COMMITTEE ON SCIENCE, 109TH CONGRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York (Mr. BOEHLERT) is recognized for 5 minutes.

Mr. BOEHLERT. Mr. Speaker, in accordance with Clause 2 of Rule XI of the Rules of the House, I submit the Rules Governing Procedure for the Committee on Science for printing in the CONGRESSIONAL RECORD. On February 10, 2005, the Committee adopted these rules by a voice vote, with a quorum present.

Rules Governing Procedure of The Committee on Science

RULE 1. GENERAL PROVISIONS

#### General Statement

(a) The Rules of the House of Representatives, as applicable, shall govern the Committee and its Subcommittees, except that a motion to recess from day to day and a motion to dispense with the first reading (in full) of a bill or resolution, if printed copies are available, are non-debatable privileged motions in the Committee and its Subcommittees and shall be decided without debate. The rules of the Committee, as applicable, shall be the rules of its Subcommittees. The rules of germaneness shall be enforced by the Chairman. [XI 1(a)]

#### Membership

(b) A majority of the majority Members of the Committee shall determine an appropriate ratio of majority to minority Members of each Subcommittee and shall authorize the Chairman to negotiate that ratio with the minority party; Provided, however, that party representation on each Subcommittee (including any ex-officio Members) shall be no less favorable to the majority party than the ratio for the Full Committee. Provided, further, that recommendations of conferees to the Speaker shall provide a ratio of majority party Members to minority party Members which shall be no less favorable to the majority party than the ratio for the Full Committee.

# Power to Sit and Act; Subpoena Power

(c) (1) Notwithstanding subparagraph (2), a subpoena may be authorized and issued by the Committee in the conduct of any investigation or series of investigations or activities to require the attendance and testimony of such witnesses and the production of such books, records, correspondence, memoranda, papers and documents as deemed necessary, only when authorized by a majority of the members voting, a majority of the Committee being present. Authorized subpoenas shall be signed only by the Chairman, or by any member designated by the Chairman. [XI 2 (m)]

(2) The Chairman of the Full Committee, with the concurrence the Ranking Minority Member of the Full Committee, may authorize and issue such subpoenas as described in paragraph (1), during any period in which the House has adjourned for a period longer than 3 days. [XI 2 (m) (3) (A) (i) ]

(3) A subpoena duces tecum may specify terms of return other than at a meeting or a hearing of the Committee.

Sensitive or Confidential Information Received Pursuant to Subpoena

(d) Unless otherwise determined by the Committee or Subcommittee, certain information received by the Committee or Subcommittee pursuant to a subpoena not made part of the record at an open hearing shall be deemed to have been received in Executive Session when the Chairman of the Full Committee, in his judgment and after consultation with the Ranking Minority Member, deems that in view of all the circumstances, such as the sensitivity of the information or the confidential nature of the information, such action is appropriate.

#### National Security Information

(e) All national security information bearing a classification of secret or higher which has been received by the Committee or a Subcommittee shall be deemed to have been received in Executive Session and shall be given appropriate safekeeping. The Chairman of the full Committee may establish such regulations and procedures as in his judgment are necessary to safeguard classified information under the control of the Committee. Such procedures shall, however. ensure access to this information by any Member of the Committee, or any other Member of the House of Representatives who has requested the opportunity to review such material.

# Over sight

(f) Not later than February 15 of the first session of a Congress, the Committee shall meet in open session, with a quorum present, to adopt its oversight plans for that Congress for submission to the Committee on House Oversight and the Committee on Government Reform and Oversight, in accordance with the provisions of clause 2(d) of Rule X of the House of Representatives.

(g) The Chairman of the Full Committee, or of any Subcommittee, shall not undertake any investigation in the name of the Committee without formal approval by the Chairman of the Full Committee after consultation with the Ranking Minority Member of the Full Committee.

#### Order of Business

(h) The order of business and procedure of the Committee and the subjects of inquiries or investigations will be decided by the Chairman, subject always to an appeal to the Committee.

# Suspended Proceedings

(i) During the consideration of any measure or matter, the Chairman of the Full Committee, or of any Subcommittee, or any Member acting as such, shall suspend further proceedings after a question has been put to the Committee at any time when there is a vote by electronic device occurring in the House of Representatives.

#### Other Procedures

(j) The Chairman of the Full Committee, after consultation with the Ranking Minority Member, may establish such other procedures and take such actions as may be necessary to carry out the foregoing rules or to facilitate the effective operation of the Committee.

# Use of Hearing Rooms

(k) In consultation with the Ranking Minority Member, the Chairman of the Full Committee shall establish guidelines for use of Committee hearing rooms.

RULE 2. COMMITTEE MEETINGS [AND PROCEDURES]

# $Quorum \ [XI\ 2(h)]$

(a)(1) One-third of the Members of the Committee shall constitute a quorum for all purposes except as provided in paragraphs (2) and (3) of this Rule.

- (2) A majority of the Members of the Committee shall constitute a quorum in order to: (A) report or table any legislation, measure, or matter; (B) close Committee meetings or hearings pursuant to Rules 2(c) and 2(d); and, (C) authorize the issuance of subpoenas pursuant to Rule 1(c).
- (3) Two Members of the Committee shall constitute a quorum for taking testimony and receiving evidence, which, unless waived by the Chairman of the Full Committee after consultation with the Ranking Minority Member of the Full Committee, shall include at least one Member from each of the majority and minority parties.

Time and Place

(b)(1) Unless dispensed with by the Chairman, the meetings of the Committee shall be held on the 2nd and 4th Wednesday of each month the House is in session at 10:00 a.m. and at such other times and in such places as the Chairman may designate. [XI2 (b)]

(2) The Chairman of the Committee may convene as necessary additional meetings of the Committee for the consideration of any bill or resolution pending before the Committee or for the conduct of other Committee business subject to such rules as the Committee may adopt. The Committee shall meet for such purpose under that call of the Chairman. [XIZ (c)]

(3) The Chairman shall make public announcement of the date, time, place and subject matter of any of its hearings, and to the extent practicable, a list of witnesses at least one week before the commencement of the hearing. If the Chairman, with the concurrence of the Ranking Minority Member, determines there is good cause to begin the hearing sooner, or if the Committee so determines by majority vote, a quorum being present for the transaction of business, the Chairman shall make the announcement at the earliest possible date. Any announcement made under this Rule shall be promptly published in the Daily Digest, and promptly made available by electronic form including the Committee website. [XI 2(g) (3)]

Open Meetings [XI 2(g)]

(c) Each meeting for the transaction of business, including the markup of legislation, of the Committee shall be open to the public, including to radio, television, and still photography coverage, except when the Committee, in open session and with a majority present, determines by record vote that all or part of the remainder of the meeting on that day shall be in executive session because disclosure of matters to be considered would endanger national security, would compromise sensitive law enforcement information, would tend to defame, degrade or incriminate any person or otherwise would violate any law or rule of the House. Persons other than Members of the Committee and such non-Committee Members, Delegates, Resident Commissioner, congressional staff, or departmental representatives as the Committee may authorize, may not be present at a business or markup session that is held in executive session. This Rule does not apply to open Committee hearings which are provided for by Rule 2(d).

(d)(1) Each hearing conducted by the Committee shall be open to the public including radio, television, and still photography coverage except when the Committee, in open session and with a majority present, determines by record vote that all or part of the remainder of that hearing on that day shall be closed to the public because disclosure of testimony, evidence, or other matters to be considered would endanger national security, would compromise sensitive law enforcement information, or would violate a law or rule of the House of Representatives. Notwithstanding the requirements of the preceding

sentence, and Rule 2(q) a majority of those present, there being in attendance the requisite number required under the rules of the Committee to be present for the purpose of taking testimony:

(A) may vote to close the hearing for the sole purpose of discussing whether testimony or evidence to be received would endanger the national security, would compromise sensitive law enforcement information or would violate Rule XI 2(k)(5) of the Rules of the House of Representatives; or

(B) may vote to close the hearing, as provided in Rule XI 2(k)(5) of the Rules of the House of Representatives. No Member, Delegate, or Resident Commissioner may be excluded from non-participatory attendance at any hearing of any Committee or Subcommittee, unless the House of Representatives shall by majority vote authorize a particular Committee or Subcommittee, for purposes of a particular series of hearings on a particular article of legislation or on a particular subject of investigation, to close its hearings to Members. Delegate and the Resident Commissioner by the same procedures designated in this Rule for closing hearings to the public: Provided, however, that the Committee or Subcommittee may by the same procedure vote to close one subsequent day of the hearing.

Audio and Visual Coverage [XI, clause 4]

- (e)(A) Whenever a hearing or meeting conducted by the Committee is open to the public, these proceedings shall be open to coverage by television, radio, and still photography, except as provided in Rule XI 4(f)(2) of the House of Representatives. The Chairman shall not be able to limit the number of television, or still cameras to fewer than two representatives from each medium (except for legitimate space or safety considerations in which case pool coverage shall be authorized).
- (B)(1) Radio and television tapes, television film, and internet recordings of any Committee hearings or meetings that are open to the public may not be used, or made available for use, as partisan political campaign material to promote or oppose the candidacy of any person for elective public office.
- (2) It is, further, the intent of this rule that the general conduct of each meeting or hearing covered under authority of this rule by audio or visual means, and the personal behavior of the Committee Members and staff, other government officials and personnel, witnesses, television, radio, and press media personnel, and the general public at the meeting or hearing, shall be in strict conformity with and observance of the acceptable standards of dignity, propriety, courtesy, and decorum traditionally observed by the House in its operations, and may not be such as to:
- (i) distort the objects and purposes of the meeting or hearing or the activities of Committee Members in connection with that meeting or hearing or in connection with the general work of the Committee or of the House; or
- (ii) cast discredit or dishonor on the House, the Committee, or a Member, Delegate, or Resident Commissioner or bring the House, the Committee, or a Member, Delegate, or Resident Commissioner into disrepute.
- (3) The coverage of Committee meetings and hearings by audio and visual means shall be permitted and conducted only in strict conformity with the purposes, provisions, and requirements of this rule.
- (f) The following shall apply to coverage of Committee meetings or hearings by audio or visual means:
- (1) If audio or visual coverage of the hearing or meeting is to be presented to the pub-

lic as live coverage, that coverage shall be conducted and presented without commercial sponsorship.

(2) The allocation among the television media of the positions or the number of television cameras permitted by a Committee or Subcommittee Chairman in a hearing or meeting room shall be in accordance with fair and equitable procedures devised by the Executive Committee of the Radio and Television Correspondents' Galleries.

(3) Television cameras shall be placed so as not to obstruct in any way the space between a witness giving evidence or testimony and any member of the Committee or the visibility of that witness and that member to

each other.

(4) Television cameras shall operate from fixed positions but may not be placed in positions that obstruct unnecessarily the coverage of the hearing or meeting by the other media

- (5) Equipment necessary for coverage by the television and radio media may not be installed in, or removed from, the hearing or meeting room while the Committee is in session
- (6)(A) Except as provided in subdivision (B), floodlights, spotlights, strobelights, and flashguns may not be used in providing any method of coverage of the hearing or meeting.
- (B) The television media may install additional lighting in a hearing or meeting room, without cost to the Government, in order to raise the ambient lighting level in a hearing or meeting room to the lowest level necessary to provide adequate television coverage of a hearing or meeting at the current state of the art of television coverage.
- (7) In the allocation of the number of still photographers permitted by a Committee or Subcommittee Chairman in a hearing or meeting room, preference shall be given to photographers from Associated Press Photos and United Press International News pictures. If requests are made by more of the media than will be permitted by a Committee or Subcommittee Chairman for coverage of a hearing or meeting by still photography, that coverage shall be permitted on the basis of a fair and equitable pool arrangement devised by the Standing Committee of Press Photographers.

(8) Photographers may not position themselves between the witness table and the members of the Committee at any time during the course of a hearing or meeting.

- (9) Photographers may not place themselves in positions that obstruct unnecessarily the coverage of the hearing by the other media
- (10) Personnel providing coverage by the television and radio media shall be currently accredited to the Radio and Television Correspondents' Galleries.
- (11) Personnel providing coverage by still photography shall be currently accredited to the Press Photographers' Gallery.
- (12) Personnel providing coverage by the television and radio media and by still photography shall conduct themselves and their coverage activities in an orderly and unobtrusive manner.

Special Meetings

(g) Rule XI 2(c) of the Rules of the House of Representatives is hereby incorporated by reference (Special Meetings).

Vice Chairman to Preside in Absence of Chairman

(h) Meetings and hearings of the Committee shall be called to order and presided over by the Chairman or, in the Chairman's absence, by a member designated by the Chairman as the Vice Chairman of the committee, or by the ranking majority member of the Committee present as Acting Chairman. [XI 2 (d)]

Opening Statements; 5-Minute Rule

(i) Insofar as is practicable, the Chairman, after consultation with the Ranking Minority Member, shall limit the total time of opening statements by Members to no more than 10 minutes, the time to be divided equally between the Chairman and Ranking Minority Member. The time any one Member may address the Committee on any bill, motion or other matter under consideration by the Committee or the time allowed for the questioning of a witness at hearings before the Committee will be limited to five minutes, and then only when the Member has been recognized by the Chairman, except that this time limit may be waived by the Chairman or acting. [XI 2 (j)]

(j) Notwithstanding Rule 2(i), upon a motion the Chairman, in consultation with the Ranking Minority Member, may designate an equal number of members from each party to question a witness for a period not to exceed one hour in the aggregate or, upon a motion, may designate staff from each party to question a witness for equal specific periods that do not exceed one hour in the aggregate. [XI 2(j)]

#### Proxies

(k) No Member may authorize a vote by proxy with respect to any measure or matter before the Committee. [XI 2(f)]

#### Witnesses

- (1) (1) Insofar as is practicable, each witness who is to appear before the Committee shall file no later than twenty-four (24) hours in advance of his or her appearance, a written statement of the proposed testimony and curriculum vitae. Each witness shall limit his or her presentation to a 5-minute summary, provided that additional time may be granted by the Chairman when appropriate. [XI 2 (g) (4)]
- (2) To the greatest extent practicable, each witness appearing in a nongovernmental capacity shall include with the written statement of proposed testimony a disclosure of the amount and source (by agency and program) of any Federal grant (or subgrant thereof) or contract (or subcontract thereof) which is relevant to the subject of his or her testimony and was received during the current fiscal year or either of the 2 preceding fiscal years by the witness or by an entity represented by the witness. [XI 2 (g) (4)]
- (m) Whenever any hearing is conducted by the Committee on any measure or matter, the minority Members of the Committee shall be entitled, upon request to the Chairman by a majority of them before the completion of the hearing, to call witnesses selected by the minority to testify with respect to the measure or matter during at least one day of hearing thereon. [XI 2 (j) (1)] Hearing Procedures
- (n) Rule XI 2(k) of the Rules of the House of Representatives is hereby incorporated by reference.

# Bill and Subject Matter Consideration

- (o) Bills and other substantive matters may be taken when called by the Chairman of the Committee or by a majority vote of a quorum of the Committee, except those matters which are the subject of special-call meetings outlined in Rule 2 (g). [XI 2 (c)]
- (p) No private bill will be reported by the Committee if there are two or more dissenting votes. Private bills so rejected by the Committee will not be reconsidered during the same Congress unless new evidence sufficient to justify a new hearing has been presented to the Committee.

## Consideration of Measure or Matter

(q)(1) It shall not be in order for the Committee to consider any new or original meas-

- ure or matter unless written notice of the date, place and subject matter of consideration and to the maximum extent practicable, a written copy of the measure or matter to be considered, and to the maximum extent practicable the original text for purposes of markup of the measure to be considered have been available to each Member of the Committee for at least 48 hours in advance of consideration, excluding Saturdays, Sundays and legal holidays. To the maximum extent practicable, amendments to the measure or matter to be considered, shall be submitted in writing to the Clerk of the Committee at least 24 hours prior to the consideration of the measure or matter. [XIII 4(a)]
- (2) Notwithstanding paragraph (1) of this rule, consideration of any legislative measure or matter by the Committee shall be in order by vote of two-thirds of the Members present, provided that a majority of the Committee is present.

#### Requests for Written Motions

(r) Any legislative or non-procedural motion made at a regular or special meeting of the Committee and which is entertained by the Chairman shall be presented in writing upon the demand of any Member present and a copy made available to each Member present.

# Requests for Record Votes at Full Committee

(s) A record vote of the Members may be had at the request of three or more Members or, in the apparent absence of a quorum, by any one Member.

# Report Language on Use of Federal Resources

(t) No legislative report filed by the Committee on any measure or matter reported by the Committee shall contain language which has the effect of specifying the use of federal resources more explicitly (inclusively or exclusively) than that specified in the measure or matter as ordered reported, unless such language has been approved by the Committee during a meeting or otherwise in writing by a majority of the Members.

#### Committee Records

- (u)(1) The Committee shall keep a complete record of all Committee action which shall include a record of the votes on any question on which a record vote is demanded. The result of each record vote shall be made available by the Committee for inspection by the public at reasonable times in the offices of the Committee. Information so available for public inspection shall include a description of the amendment, motion, order, or other proposition and the name of each Member voting for and each Member voting against such amendment, motion, order, or proposition, and the names of those Members present but not voting.
- (2) The records of the Committee at the National Archives and Records Administration shall be made available for public use in accordance with Rule VII of the Rules of the House of Representatives. The Chairman shall notify the Ranking Minority Member of any decision, pursuant to clause 3(b) (3) or clause 4(b) of the Rule, to withhold a record otherwise available, and the matter shall be presented to the Committee for a determination on the written request of any Member of the Committee. [XI 2 (e) (3)]
- (3) To the maximum extent feasible, the Committee shall make its publications available in electronic form, including the Committee website. [XI 2 (e) (4)]
- (4)(A) Except as provided for in subdivision (B), all Committee hearings, records, data, charts, and files shall be kept separate and distinct from the congressional office records of the member serving as its Chairman. Such records shall be the property of the House, and each Member, Delegate, and

the Resident Commissioner, shall have access thereto.

(B) A Member, Delegate, or Resident Commissioner, other than members of the Committee on Standards of Official Conduct, may not have access to the records of the Committee respecting the conduct of a Member, Delegate, Resident Commissioner, officer, or employee of the House without the specific prior permission of the Committee. Publication of Committee Hearings and Markuns

(v) The transcripts of those hearings conducted by the Committee which are decided to be printed shall be published in verbatim form, with the material requested for the record inserted at that place requested, or at the end of the record, as appropriate. Individuals, including Members of Congress, whose comments are to be published as part of a Committee document shall be given the opportunity to verify the accuracy of the transcription in advance of publication. Any requests by those Members, staff or witnesses to correct any errors other than errors in transcription, or disputed errors in transcription, shall be appended to the record, and the appropriate place where the change is requested will be footnoted. Prior to approval by the Chairman of hearings conducted jointly with another congressional Committee, a memorandum of understanding shall be prepared which incorporates an agreement for the publication of the verbatim transcript. Transcripts of markups shall be recorded and published in the same manner as hearings before the Committee and shall be included as part of the legislative report unless waived by the Chairman.

# RULE 3. SUBCOMMITTEES

#### Structure and Jurisdiction

(a) The Committee shall have the following standing Subcommittees with the jurisdiction indicated.

#### (1) Subcommittee on Energy

Legislative jurisdiction and general and special oversight and investigative authority on all matters relating to energy research, development, and demonstration projects therefor, and commercial application of energy technology including: Department of Energy research, development, and demonstration programs; Department of Energy laboratories: Department of Energy science activities; energy supply activities; nuclear, solar and renewable energy, and other advanced energy technologies; uranium supply and enrichment, and Department of Energy waste management and environment, safety, and health activities as appropriate; fossil energy research and development; clean coal technology; energy conservation research and development; energy aspects of climate change; pipeline research, development, and demonstration projects: energy standards; and energy conservation including building performance, alternate fuels for and improved efficiency of vehicles, distributed power systems, and industrial process improvements.

# (2) Subcommittee on Environment, Technology, and Standards

Legislative jurisdiction and general and special oversight and investigative authority on all matters relating to competitiveness, technology, and environmental research, development, and demonstration including: technical standards and standardization of measurement; the Technology Administration of the Department of Commerce; the National Institute of Standards and Technology; the National Technical Information Service; competitiveness, including small business competitiveness; tax, antitrust, regulatory and other legal and governmental

policies as they relate to technological development and commercialization; technology transfer including civilian use of defense technologies; patent and intellectual property policy; international technology trade; research, development, and demonstration activities of the Department of Transportation; surface and water transportation research, development, and demonstration programs; Environmental Protection Agency research and development programs; biotechnology policy; National Oceanic and Atmospheric Administration, including all activities related to weather, weather services, climate, and the atmosphere, and marine fisheries, and oceanic research: risk assessment activities: scientific issues related to environmental policy, including climate change: Small Business Innovation Research and Technology Transfer: and voting technologies and standards.

#### (3) Subcommittee on Research

Legislative jurisdiction and general and special oversight and investigative authority on all matters relating to science policy including: Office of Science and Technology Policy: all scientific research, and scientific and engineering resources (including human resources), math, science and engineering education: intergovernmental mechanisms for research, development, and demonstration and cross-cutting programs; international scientific cooperation: National Science Foundation; university research policy, including infrastructure and overhead; university research partnerships, including those with industry; science scholarships; issues relating to computers, communications, and information technology; earthquake and fire research programs including those related to wildfire proliferation research and prevention; research and development relating to health, biomedical, and nutritional programs; to the extent appropriate, agricultural, geological, biological and life sciences research; and materials research, development, and demonstration and policy.

(4) Subcommittee on Space and Aeronautics Legislative jurisdiction and general and special oversight and investigative authority on all matters relating to astronautical and aeronautical research and development including: national space policy, including access to space; sub-orbital access and applications; National Aeronautics and Space Administration and its contractor and government-operated laboratories; space commercialization including the commercial space activities relating to the Department of Transportation and the Department of Commerce; exploration and use of outer space; international space cooperation; National Space Council; space applications, space communications and related matters; earth remote sensing policy; civil aviation research, development, and demonstration; and research, development, and demonstration programs of the Federal Aviation Administration; and space law.

#### Referral of Legislation

(b) The Chairman shall refer all legislation and other matters referred to the Committee to the Subcommittee or Subcommittees of appropriate jurisdiction within two weeks unless, the Chairman deems consideration is to be by the Full Committee. Subcommittee Chairmen may make requests for referral of specific matters to their Subcommittee within the two week period if they believe Subcommittee jurisdictions so warrant.

# Ex-Officio Members

(c) The Chairman and Ranking Minority Member shall serve as ex-officio Members of all Subcommittees and shall have the right to vote and be counted as part of the quorum and ratios on all matters before the Subcommittee.

Procedures

- (d) No Subcommittee shall meet for markup or approval when any other Subcommittee of the Committee or the Full Committee is meeting to consider any measure or matter for markup or approval.
- (e) Each Subcommittee is authorized to meet, hold hearings, receive evidence, and report to the Committee on all matters referred to it. For matters within its jurisdiction, each Subcommittee is authorized to conduct legislative, investigative, forecasting, and general oversight hearings; to conduct inquiries into the future; and to undertake budget impact studies. Subcommittee Chairmen shall set meeting dates after consultation with the Chairman and other Subcommittee Chairmen with a view toward avoiding simultaneous scheduling of Committee and Subcommittee meetings or hearings wherever possible.
- (f) Any Member of the Committee may have the privilege of sitting with any Subcommittee during its hearings or deliberations and may participate in such hearings or deliberations, but no such Member who is not a Member of the Subcommittee shall vote on any matter before such Subcommittee, except as provided in Rule 3(c).
- (g) During any Subcommittee proceeding for markup or approval, a record vote may be had at the request of one or more Members of that Subcommittee.

#### RULE 4. REPORTS

Substance of Legislative Reports

- (a) The report of the Committee on a measure which has been approved by the Committee shall include the following, to be provided by the Committee:
- (1) the oversight findings and recommendations required pursuant to Rule X 2(b)(1) of the Rules of the House of Representatives, separately set out and identified [XIII. 3(c)]:
- (2) the statement required by section 308(a) of the Congressional Budget Act of 1974, separately set out and identified, if the measure provides new budget authority or new or increased tax expenditures as specified in [XIII, 3(c)(2)];
- (3) with respect to reports on a bill or joint resolution of a public character, a "Constitutional Authority Statement" citing the specific powers granted to Congress by the Constitution pursuant to which the bill or joint resolution is
- (4) with respect to each record vote on a motion to report any measure or matter of a public character, and on any amendment offered to the measure or matter, the total number of votes cast for and against, and the names of those Members voting for and against, shall be included in the Committee report on the measure or matter:
- (5) the estimate and comparison prepared by the Committee under Rule XIII, clause 3(d)(2) of the Rules of the House of Representatives, unless the estimate and comparison prepared by the Director of the Congressional Budget Office prepared under subparagraph 2 of this Rule has been timely submitted prior to the filing of the report and included in the report [XIII, 3(d)(3)(D)];
- (6) in the case of a bill or joint resolution which repeals or amends any statute or part thereof, the text of the statute or part thereof which is proposed to be repealed, and a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended [Rule XIII, clause 3]:
- (7) a transcript of the markup of the measure or matter unless waived under Rule 2(v).
  (8) a statement of general performance
- (8) a statement of general performance goals and objectives, including outcome-re-

- lated goals and objectives, for which the measure authorizes funding. [XIII, 3(c)]
- (b) The report of the Committee on a measure which has been approved by the Committee shall further include the following, to be provided by sources other than the Committee:
- (1) the estimate and comparison prepared by the Director of the Congressional Budget Office required under section 403 of the Congressional Budget Act of 1974, separately set out and identified, whenever the Director (if timely, and submitted prior to the filing of the report) has submitted such estimate and comparison of the Committee [XIII, clauses 2-41).
- (2) if the Committee has not received prior to the filing of the report the material required under paragraph (1) of this Rule, then it shall include a statement to that effect in the report on the measure.

Minority and Additional Views [XI 2(1)]

- (c) If, at the time of approval of any measure or matter by the Committee, any Member of the Committee gives notice of intention to file supplemental, minority, or additional views, that Member shall be entitled to not less than two subsequent calendar days after the day of such notice (excluding Saturdays, Sundays, and legal holidays) in which to file such views, in writing and signed by that Member, with the clerk of the Committee. All such views so filed by one or more Members of the Committee shall be included within, and shall be a part of, the report filed by the Committee with respect to that measure or matter. The report of the Committee upon that measure or matter shall be printed in a single volume which shall include all supplemental, minority, or additional views, which have been submitted by the time of the filing of the report, and shall bear upon its cover a recital that any such supplemental, minority, or additional views (and any material submitted under Rule 4(b) (1)) are included as part of the report. However, this rule does not preclude (1) the immediate filing or printing of a Committee report unless timely requested for the opportunity to file supplemental, minority, or additional views has been made as provided by this Rule or (2) the filing by the Committee of any supplemental report upon any measure or matter which may be required for the correction of any technical error in a previous report made by that Committee upon that measure or matter.
- (d) The Chairman of the Committee or Subcommittee, as appropriate, shall advise Members of the day and hour when the time for submitting views relative to any given report elapses. No supplemental, minority, or additional views shall be accepted for inclusion in the report if submitted after the announced time has elapsed unless the Chairman of the Committee or committee, as appropriate, decides to extend the time for submission of views the 2 subsequent calendar days after the day of notice, in which case he shall communicate such fact to Members, including the revised day and hour for submissions to be received, without delay.

# Consideration of Subcommittee Reports

(e) Reports and recommendations of a Subcommittee shall not be considered by the Full Committee until after the intervention of 48 hours, excluding Saturdays, Sundays and legal holidays, from the time the report is submitted and made available to full Committee membership and printed hearings thereon shall be made available, if feasible, to the Members, except that this rule may be waived at the discretion of the Chairman after consultation with the Ranking Minority Member.

Timing and Filing of Committee Reports [XIII]

(f) It shall be the duty of the Chairman to report or cause to be reported promptly to the House any measure approved by the Committee and to take or cause to be taken the necessary steps to bring the matter to a vote. To the maximum extent practicable, the written report of the Committee on such measures shall be made available to the Committee membership for review at least 24 hours in advance of filing.

(g) The report of the Committee on a measure which has been approved by the Committee shall be filed within 7 calendar days (exclusive of days on which the House is not in session) after the day on which there has been filed with the clerk of the Committee a written request, signed by the majority of the Members of the Committee, for the reporting of that measure. Upon the filing of any such request, the clerk of the Committee shall transmit immediately to the Chairman of the Committee notice of the filing of that request.

- (h) (1) Any document published by the Committee as a House Report, other than a report of the Committee on a measure which has been approved by the Committee, shall be approved by the Committee at a meeting. and Members shall have the same opportunity to submit views as provided for in Rule 4(c).
- (2) Subject to paragraphs (3) and (4), the Chairman may approve the publication of any document as a Committee print which in his discretion he determines to be useful for the information of the Committee.
- (3) Any document to be published as a Committee print which purports to express the views, findings, conclusions, or recommendations of the Committee or any of its Subcommittees must be approved by the Full Committee or its Subcommittees, as applicable, in a meeting or otherwise in writing by a majority of the Members, and such Members shall have the right to submit supplemental, minority, or additional views for inclusion in the print within at least 48 hours after such approval.
- (4) Any document to be published as a Committee print other than a document described in paragraph (3) of this Rule: (A) shall include on its cover the following statement: "This document has been printed for informational purposes only and does not represent either findings or recommendations adopted by this Committee;" and (B) shall not be published following the sine die adjournment of a Congress, unless approved by the Chairman of the Full Committee after consultation with the Ranking Minority Member of the Full Committee.
- (i) A report of an investigation or study conducted jointly by this Committee and one or more other Committee(s) may be filed jointly, provided that each of the Committees complies independently with all requirements for approval and filing of the report.
- (i) After an adjournment of the last regular session of a Congress sine die, an investigative or oversight report approved by the Committee may be filed with the Clerk at any time, provided that if a member gives notice at the time of approval of intention to file supplemental, minority, or additional views, that member shall be entitled to not less than 7 calendar days in which to submit such views for inclusion with the report.
- (k) After an adjournment sine die of the last regular session of a Congress, the Chairman may file the Committee's Activity Report for that Congress under clause 1(d) (1) of Rule XI of the Rules of the House with the Clerk of the House at any time and without the approval of the Committee, provided that a copy of the report has been available to each member of the Committee for at

least 7 calendar days and that the report includes any supplemental, minority, or additional views submitted by a member of the Committee. [XI 1(d), XI 1(d) (4)]

Oversight Reports

(1) A proposed investigative or oversight report shall be considered as read if it has been available to the members of the Committee for at least 24 hours (excluding Saturdays, Sundays, or legal holidays except when the House is in session on such day). [XI 1 (b)

LEGISLATIVE AND OVERSIGHT JURISDIC-TION OF THE COMMITTEE ON SCIENCE

- 'Rule X. Organization of Committees.
- "Committees and their legislative jurisdictions
- "1. There shall be in the House the following standing Committees, each of which shall have the jurisdiction and related functions assigned to it by this clause and clauses 2, 3, and 4. All bills, resolutions, and other matters relating to subjects within the jurisdiction of the standing Committees listed in this clause shall be referred to those Committees, in accordance with clause 2 of rule XII, as follows:

"(n) Committee on Science.

- "(1) All energy research, development, and demonstration, and projects therefor, and all federally owned or operated nonmilitary energy laboratories.
- "(2) Astronautical research and development, including resources, personnel, equipment, and facilities.
- "(3) Civil aviation research and development
- (4) Environmental research and development

'(5) Marine research.

- "(6) Commercial application of energy technology.
- "(7) National Institute of Standards and Technology, standardization of weights and measures and the metric system.
- "(8) National Aeronautics and Space Administration.

"(9) National Space Council.

- "(10) National Science Foundation. "(11) National Weather Service.
- "(12) Outer space, including exploration and control thereof.

"(13) Science Scholarships.

- "(14) Scientific research, development, and demonstration, and projects therefor. "SPECIAL OVERSIGHT FUNCTIONS
- "3. (j) The Committee on Science shall review and study on a continuing basis laws, programs, and Government activities relating to nonmilitary research and develop-

#### APPOINTMENT OF MEMBERS TO STATES UNITED GROUP OF NORTH ATLANTIC ASSEMBLY

The SPEAKER pro tempore. Pursuant to 22 U.S.C. 1928a, and the order of the House of January 4, 2005, the Chair announces the Speaker's appointment of the following Members of the House to the United States Group of the North Atlantic Assembly:

Mr. HEFLEY of Colorado, Chairman;

Mr. BURTON of Indiana, Vice Chair-

Mr. REGULA of Ohio;

Mr. GILLMOR of Ohio:

Mr. EHLERS of Michigan:

Mr. BILIRAKIS of Florida;

Mr. SHIMKUS of Illinois; and Mr. REYNOLDS of New York.

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from Arkansas (Mr. Ross) is recognized for 5 minutes.

(Mr. ROSS addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Vermont (Mr. SANDERS) is recognized for 5 minutes.

(Mr. SANDERS addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Maryland (Mr. CUMMINGS) is recognized for 5 minutes.

(Mr. CUMMINGS addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

#### THE SITUATION IN IRAQ

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Texas (Ms. Jackson-Lee) is recognized for 5 minutes.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise today to voice my concern over our Nation's involvement in the war in Irag. I would have hoped that the recent Iraq elections would quell my concern, but the fact is that I had grave concerns before we engaged in this war, I have had grave concerns during the unfolding of this war and today I still have serious concerns over this administration's ability to provide a positive outcome in Iraq. This President must be held accountable to this Congress and more importantly to the people of the United States. He must provide a success strategy and a vision for what comes next in Iraq and how and when our brave troops will be able to come home. We owe this public statement to the more than 1,400 troops that have died and those tragically that may lose their lives in the future.

The President indicated during his State of the Union that one of our responsibilities to future generations is to "leave them an America that is safe from danger, and protected peace." However, absent an articulated success for exit plan by our troops, the very existence of that future generation is in jeopardy. This war has certainly created more terrorists than it has eliminated. In addition, our troops are now returning home in worse condition than before they left. Too many of our men and women have suffered life changing injuries in Iraq and now must come home to live the rest of their lives. Troops are being asked to stay in Iraq longer than they had ever committed for and all of this takes a toll on their families. In the end this war will not be the legacy of this administration or of this Congress, but instead will be the legacy of our young troops who will have to face the rest of their lives based on the consequences of this war. Their bloodshed demands a reasonable success and exit plan.

My distinguished colleague, Ms. WOOLSEY, has introduced legislation that calls on the President to develop and implement a plan to bring our troops home and provide the Iraqis the opportunity to control their own stable nation. The administration will surely respond that they are committed to a free Iraq and the

truth is that we all are committed to that ideal, but this administration seems incapable of providing clarity on its plans in this war.

From the very beginning we have been left in the dark as to what this administration was planning in regards to Iraq. Our troops and their families have been the ones to suffer and the fact is that the Iraqis have yet to see a free and stable nation. Yes, the recent elections were positive outcome, but they are far far from resolving the predicament in Iraq. I support my colleague's legislation and I urge all Members of this body to support it. How can we possibly be against legislation that calls upon the President to notify Congress and the American people about the future plans for the war in Iraq.

In formulating a success and exit plan, we must take additional steps to improve Irag's economic and political stability. We must change our military focus from combat operations to training the Iraqi army. Moreover, we must intensify our reconstruction efforts with projects that give the Iraqi people real, tangible hope for their future.

The fact remains that American troops have remained in Iraq for 2 years, and the death toll continues to rise; therefore, we must proceed with caution. The positive momentum that has come from a successful election must be used as an opportunity to stop the bloodshed and the expenditure of tax dollars on this effort. I hope that the administration will use the positive momentum of this achievement as an opportunity to devise an success and exit plan for our troops as outlined by Representative WOOLSEY's legislation.

# LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. GENE GREEN of Texas (at the request of Ms. Pelosi) for today after 1:45 p.m. on account of business in the district.

# SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to: (The following Members (at the re-

quest of Ms. Woolsey) to revise and extend their remarks and include extraneous material:)

Mr. Schiff for 5 minutes, today.

Mr. Brown of Ohio, for 5 minutes,

Ms. Woolsey, for 5 minutes, today. Mr. DEFAZIO, for 5 minutes, today.

Mr. Pallone, for 5 minutes, today.

Mr. Ross, for 5 minutes, today.

Mr. Sanders, for 5 minutes, today.

Mr. Cummings, for 5 minutes, today. Ms. Jackson-Lee of Texas, for 5 min-

utes, today.

(The following Members (at the request of Mr. Poe) to revise and extend their remarks and include extraneous material:)

Mr. Murphy, for 5 minutes, today.

Mr. Boehlert, for 5 minutes, today.

Mr. Poe, for 5 minutes, today.

# ADJOURNMENT

Mr. PALLONE. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 3 o'clock and 17 minutes p.m.), under its previous order, the House adjourned until Monday, February 14, 2005, at noon.

#### OATH OF OFFICE MEMBERS, RESI-DENT COMMISSIONERS, DELEGATES

The oath of office required by the sixth article of the Constitution of the United States, and as provided by section 2 of the act of May 13, 1884 (23 Stat. 22), to be administered to Members, Resident Commissioner, and Delegates of the House of Representatives, the text of which is carried in 5 U.S.C.

'I, AB, do solemnly swear (or affirm) that I will support and defend the Constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God.'

has been subscribed to in person and filed in duplicate with the Clerk of the House of Representatives by the following Members of the 109th Congress, pursuant to the provisions of 2 U.S.C.

# EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

739. A letter from the Acting Assistant Secretary for Legislative Affairs, Department of State, transmitting a report pursuant to the Cooperative Threat Reduction Act of 1993 and the FREEDOM Support Act, pursuant to Public Law 103–160, section 1203(d) of Title XII Public Law 102–511, section 502; to the Committee on International Relations.

740. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 15-770, "Technical Amendments Act of 2005," pursuant to D.C. Code section 1–233(c)(1); to the Committee on Government Reform

741. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 15-757, "First Amendment Rights and Police Standards Act of 2004," pursuant to D.C. Code section 1–233(c)(1); to the Committee on Government Reform.

742. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 15-742, "Public School Enrollment Integrity Clarification and Board of Education Honoraria Amendment Act of 2004," pursuant to D.C. Code section 1–233(c)(1); to the Committee on Government Reform.

743. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 15-745, "School Safety and Security Contracting Procedures Act of 2004," pursuant to D.C. Code section 1–233(c)(1); to the Committee on Government Reform.

744. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. ACT 15-743, "Notice Requirement for Publicly Funded Building Projects Amendment Act of 2004," pursuant to D.C. Code section 1-233(c)(1); to the Committee on Government Reform.

745. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Mooney Airplane Company, Inc., Model M20M Airplanes [Docket No. FAA-2004-19618; Directorate Identifier 2004-CE-39-AD; Amendment 39-13872; AD 2004-23-17] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure

746. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Rolls-Royce Deutschland Ltd. & Co KG (formerly Rolls-Royce plc), Models Spey 555-15, 555-15H, 555-15N, and 555-15P Turbojet Engines [Docket No. 2003-NE-51-AD; Amendment 39-13881; AD 2004-24-05] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

747. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A300 B2, A300 B4, A300 B4-600, and A300 B4-600R Series Airplanes; and Model A300 C4-605R Variant F and A300 F4-605R Airplanes [Docket No. FAA-2004-18593; Directorate Identifier 2004-NM-21-AD; Amendment 39-13875; AD 2004-23-20] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

748. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 767-200, -300, and -300F Series Airplanes [Docket No. 2002-NM-263-AD; Amendment 39-13800; AD 2004-19-06] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

749. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; McDonnell Douglas Model DC-9-81 (MD-81), DC-9-82 (MD-82), DC-9-83 (MD-83) and DC-9-87 (MD-87) Airplanes; Model MD-88 Airplanes [Docket No. 2000-NM-171-AD; Amendment 39-13876; AD 2004-23-21] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure

750. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airmorthiness Directives; Raytheon Aircraft Company, Model 390, Premier 1 Airplanes [Docket No. FAA-2004-19119; Directorate Identifier 2004-CE-26-AD; Amendment 39-13903; AD 2004-25-15] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

751. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A319, A320, and A321 Series Airplanes [Docket No. FAA-2004-18809; Directorate Identifier 2004-NM-91-AD; Amendment 39-13873; AD 2004-23-18] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

752. A letter from the Program Analyst, FAA, Department of Transportation, trans-

mitting the Department's final rule—Airworthiness Directives; McDonnell Douglas Model DC-9-14 and DC-9-15 Airplanes; and Model DC-9-20, DC-9-30, DC-9-40, and DC-9-50 Series Airplanes [Docket No. FAA-2004-18994; Directorate Identifier 2003-NM-210-AD; Amendment 39-13866; AD 2004-23-11] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

753. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Empresa Brasileira de Aeronautica S.A. (EMBRAER) Model EMB-135 and -145 Series Airplanes [Docket No. 2002-NM-351-AD; Amendment 39-13874; AD 2004-23-19] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

754. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; McCauley Propeller Systems Five-Blade Propeller Assemblies [Docket No. FAA-2004-19242; Directorate Identifer 2004-NE-21-AD; Amendment 39-13871; AD 2004-23-16] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

755. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airmorthiness Directives; Ostmecklenburgische Flugzeugbau GmbH Model OMF-100-160 Airplanes [Docket No. 2003-CE-67-AD; Amendment 39-13878; AD 2004-24-02] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

756. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Rolls-Royce Corporation (formerly Allison Engine Company, Allison Gas Turbine Division, and Detroit Diesel Allison) (RRC) Models 250-C30R/3, -C30R/3M, -C47B, and -C47M Turboshaft Engines [Docket No. 2003-NE-23-AD; Amendment 39-13880; AD 2004-24-04] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

757. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; McDonnell Douglas Model MD-11 and MD-11F Airplanes [Docket No. FAA-2004-18572; Directorate Identifier 2003-NM-72-AD; Amendment 39-13848; AD 2004-22-20] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

758. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 737-600, -700, -700, -800, and -900 Series Airplanes [Docket No. FAA-2004-18562; Directorate Identifier 2003-NM-147-AD; Amendment 39-13883; AD 2004-21-07] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

759. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Short Brothers Model SD3-60, SD3-SHERPA, and SD3-60 SHERPA Series Airplanes [Docket No. FAA-2004-18661; Directorate Identifier 2003-NM-273-AD; Amendment 39-13901; AD 2004-25-13] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

760. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 767-200, -300, and -300F Series Airplanes [Docket No. 2002-NM-263-AD; Amendment 39-13800; AD 2004-19-06] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

761. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A310 Series Airplanes [Docket No. 2001-NM-201-AD; Amendment 39-13706; AD 2004-13-24] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

762. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Gulfstream Model GV and GV-SP Series Airplanes [Docket NO. FAA-2004-19492; Directorate Identifier 2004-NM-200-AD; Amendment 39-13844; AD 2004-22-16] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infra-

763. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A300 B2 and B4 Series Airplanes; and Model A300 B4-600, B4-600R, and F4-600R Series Airlpanes, and Model C4-605R Variant F Airplanes (Collectively Called A300-600) [Docket No. FAA-2004-18602; Directorate Identifier 2003-NM-160-AD; Amendment 39-13816; AD 2004-20-11] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

764. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Empresa Brasileira de Aeronautica S.A. (EMBRAER) Model ERJ 170 Series Airplanes [Docket No. FAA-2004-19972; Directorate Identifier 2004-NM-273-AD; Amendment 39-13924; AD 2004-26-12] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

765. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airmorthiness Directives; Empresa Brasileira de Aeronautica S.A. (EMBRAER) Model EMB-135 and EMB-145 Series Airplanes [Docket No. 2003-NM-85-AD; Amendment 39-13818; AD 2004-20-13] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

766. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; McDonnell Douglas Model DC-9-14, DC-9-15, and DC-9-15F Airplanes; DC-9-20, DC-9-30, DC-9-40, DC-9-50 Series Airplanes; DC-9-81 (MD-81), DC-9-82 (MD-82), DC-9-83 (MD-83), and DC-9-87 (MD-87) Airplanes; and Model MD-88 Airplanes [Docket No. 2002-NM-333-AD; Amendment 39-13902; AD 2004-25-14] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

767. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 747-200B, -200C, -200F, -300, -400, -400D, and -400F Series Airplanes; and Model 747SP Series Airplanes [Docket No. 2002-NM-286-AD; Amendment 39-13821; AD 2004-20-16] (RIN: 2120-AA64) received January 31, 2005, pursu-

ant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

768. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; LETECKE ZA VODY Model L 23 SUPER-BLANIK Sailplanes [Docket No. FAA-2004-18034; Directorate Identifier 2004-CE-18-AD; Amendment 39-13905; AD 2004-25-17] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

769. A letter from the Program Analyst,

769. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Fokker Model F.28 Mark 0070 and 0100 Series Airplanes [Docket No. 2002-NM-223-AD; Amendment 39-13699; AD 2004-13-17] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

770. A letter from the Program Analyst. FAA, Department of Transportation, transmitting the Department's final rule -Airworthiness Directives; Kelly Aerospace Power Systems Part Number (P/N) 14D11, A14D11, B14D11, C14D11, 23D04, A23D04, B23D04, C23D04, or P23D04 Fuel Regulator Shutoff Valves (formerly owned ElectroSystems, JanAero Devices, Janitrol, C&D, FL Aerospace, and Midland-Ross Corporation) [Dockent No. FAA-2004-19693; Directorate Identifier 2004-CE-40-AD; Amendment 39-13904; AD 2004-25-16] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

771. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Pratt & Whitney Canada PT6A-60A and PT6A-65B Turboprop Engines [Docket No. 2003-NE-09-AD; Amendment 39-13906; AD 2004-25-18] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

772. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Gulfstream Aerospace LP Model Astra SPX, and 1125 Westwind Astra Series Airplanes; and Model Gulfstream 100 Airplanes [Docket No. 2003-NM-204-AD; Amendment 39-13700; AD 2004-13-18] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

773. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Pilatus Aircraft Ltd. Model PC-7 Airplanes [Docket No. FAA-2004-18579; Directorate Identifier 2004-CE-19-AD; Amendment 39-13892; AD 2004-23-01] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

774. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; CFM International, S.A. CFM56-2-C, -3 Series, and -5 Series Turbofan Engines [Docket No. 2002-NE-26-AD; Amendment 39-13643; AD 2004-10-13] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

775. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Raytheon Aircraft Company Beech Models 45 (YT-34), A45 (T-34A, B-45), and D45 (T-34B) Airplanes [Docket No. FAA-2004-19896; Directorate Identifier

2004-CE-44-AD; Amendment 39-13913; AD 2004-25-51] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

776. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Pratt & Whitney Canada PW206B, PW206C, PW206E, PW207D, and PW207E Turboshaft Engines [Docket No. FAA-2004-18585; Directorate Identifier 2004-NE-28-AD; Amendment 39-13731; AD 2004-14-22] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

777. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Eagle Aircraft (Malaysia) Sdn. Bhd. Model Eagle 150B Airplanes [Docket No. FAA-2004-19222; Directorate Identifier 2004-CE-29-AD; Amendment 39-13912; AD 2004-26-01] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

778. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A300 B2 and B4 Series Airplanes; Model A300 B4-600, A300-B4-600R, A300 F4-600R Series Airplanes, and A300 C4-605R Variant F Airplanes (Collectively Called A300-600); and Model A310 Series Airplanes [Docket No. 2003-NM-13-AD; Amendment 39-13817; AD 2004-20-12] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

779. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airmorthiness Directives; Glasflugel--Ing. E. Hanle Model GLASFLUGEL Kestrel Sailplanes [Docket No. 2003-CE-60-AD; Amendment 39-13591; AD 2004-09-02] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

780. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 707 and 720 Series Airplanes [Docket No. 2003-NM-06-AD; Amendment 39-13852; AD 2004-22-24] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

781. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Bell Helicopter Textron Canada Model 206A, B, L, L-1, L-3, and L-4 Helicopters [Docket No. 2004-SW-12-AD; Amendment 39-13884; AD 2004-24-08] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

782. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A330, A340-200, and A340-300 Series Airplanes [Docket No. 2002-NM-246-AD; Amendment 39-13854; AD 2004-22-26] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

783. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 737-600, -700, -700C, -800, and -900 Series Airplanes [Docket No. 2003-NM-106-AD; Amendment 39-13855; AD 2004-22-27] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C.

801(a)(1)(A); to the Committee on Transportation and Infrastructure.
784. A letter from the Program Analyst,

784. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Rolls-Royce Corporation (Formerly Allison Engine Company, Allison Gas Turbine Division, and Detroit Diesel Allison) (RRC) 250-B and 250-C Series Turboshaft and Turboprop Engines [Docket No. 2004-NE-10-AD; Amendment 39-13885; AD 2004-24-09 (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

785. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Boeing Model 767-200, -300, -300F Series Airplanes [Docket No. 2000-NM-409-AD; Amendment 39-13853; AD 2004-22-25] (RIN: 2120-AA64) received Janaury 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

786. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Cessna Aircraft Company 120, 140, 140A, 150, F150, 170, 172, F172, FR172, P172D, 175, 177, 180, 182, 185, A185E, 190, 195, 206, P206, U206, TP206, TU206, 207, T207, 210, T210, 336, 337, and T337 Series Airplanes [Docket No. 2003-CE-40-AD; Amendment 39-13795; AD 2004-19-01] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

787. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airmorthiness Directives; Hamilton Sundstrand Power Systems T--62T Series Auxiliary Power Units (APUs) [Docket No. 2003-NE-61-AD; Amendment 39-13879 AD 2004-24-03] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

788. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Bombardier Inc. Model (Otter) DHC-3 Airplanes [Docket No. FAA-2004-18606; Directorate Identifier 2004-CE-17-AD; Amendment 39-13877; AD 2004-24-01] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

789. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Rolls-Royce plc RB211 Trent 700 Series Turbofan Engines [Docket No. FAA-2004-19559; DIrectorate Identifier 2004-NE-03-AD; Amendment 39-13858; AD 2004-23-03] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

790. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A300 B4 Series Airplanes and Model A300 B4-600, A300 B4-600R, and A300 F4-600R (Collectively Called A300-600) Series Airplanes [Docket No. 2002-NM-211-AD; Amendment 39-13819; AD 2004-20-14] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

791. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Eurocopter Deutschland GmbH Model EC135 P1, P2, T1, and T2 Helicopters [Docket No. 2003-SW-39-AD;

Amendment 39-13839; AD 2004-22-11] (RIN: 2120-AA64) received Janaury 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

792. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Great Lakes Aircraft Company, LLC, Models 2T-1A-1 and 2T-1A-2 Airplanes [Docket No. FAA-2004-18744; Directorate Identifier 2004-CE-24-AD; Amendment 39-13910; AD 2004-25-22] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

793. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Bombardier, Inc. Model DHC-3 Airplanes [Docket No. 2003-CE-48-AD; Amendment 39-13886; AD 2004-24-10] (RIN: 2120-AA64) received Janaury 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

794. A letter from the Program Analyst, FAA, Department of Transportation, transmitting the Department's final rule—Airworthiness Directives; Airbus Model A330, A340-200, and A340-300 Series Airplanes [Docket No. 2003-NM-277-AD; Amendment 39-13668; AD 2004-23-13] (RIN: 2120-AA64) received January 31, 2005, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

# PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. NORWOOD (for himself, Mr. BOEHNER, Mr. SAM JOHNSON of Texas, Mr. McKEON, Mr. EHLERS, Mrs. BIGGERT, Mr. KELLER, Mr. WILSON of South Carolina, Mr. KLINE, Mr. PAUL, and Mr. NEUGEBAUER):

H.R. 739. A bill to amend the Occupational Safety and Health Act of 1970 to provide for adjudicative flexibility with regard to the filing of a notice of contest by an employer following the issuance of a citation or proposed assessment of a penalty by the Occupational Safety and Health Administration; to the Committee on Education and the Workforce.

# Congressional Record

Proceedings and debates of the  $109^{th}$  congress, first session

Vol. 151

WASHINGTON, THURSDAY, FEBRUARY 10, 2005

No. 14

# Senate

The Senate met at 9:30 a.m. and was called to order by the President pro tempore.

The Chaplain, Dr. Barry C. Black, offered the following prayer.

Let us pray:

We praise You, O God, for all of Your comings among us. You have excellent things to teach us, for Your wisdom is more valuable than rubies. Your power established the heavens and drew the horizon on the oceans.

Strengthen and encourage our Senators, giving them a sense of Your abiding presence. May they honor Your name in their thoughts, words, and actions. Give them compassion for the poor and helpless, and use them to rescue the perishing.

Bless our great land and make it a beacon of hope for our world. Give us the graciousness to serve one another in all humility, following Your example of sacrifice. Fill us with Your hope that we may celebrate now that glorious day when You will reign forever as Lord of all. Amen.

# PLEDGE OF ALLEGIANCE

The PRESIDENT pro tempore led the pledge of allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

# RESERVATION OF LEADER TIME

The PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

# MORNING BUSINESS

The PRESIDENT pro tempore. Under the previous order, there will be a period for the transaction of morning business for up to 2 hours, the first 30 minutes under the control of the majority leader or his designee, the second 30 minutes under the control of the Democratic leader or his designee, the third 30 minutes under the control of the Senator from Arizona, Mr. McCain, and the final 30 minutes under the control of the Democratic leader or his designee.

# RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The acting majority leader is recognized.

#### SCHEDULE

Mr. McCONNELL. Mr. President, this morning there will be a 2-hour period for morning business. Following that time, the Senate will resume consideration of S. 5, the Class Action Fairness bill. As the majority leader noted last night, we made substantial progress on the bill yesterday. Senator Feingold's amendment on remand limit is pending. It is our desire to have that vote around 12:30 or so today.

We will also need to dispose of the Durbin amendment on mass actions. I know that discussions continue with respect to that Durbin amendment.

We are not aware of any other amendments to be offered, and therefore it is hoped and expected that we can proceed to final passage of the class action bill at a reasonable hour this afternoon.

Finally, I would say that the two leaders are close to an agreement on the consideration of the Chertoff nomination for next week. We will lock in that unanimous consent at the first opportunity.

Mr. President, I suggest the absence of a quorum.

The PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. THUNE. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDENT pro tempore. Without objection, it is so ordered. The Senator from South Dakota is recognized.

# SOCIAL SECURITY

Mr. THUNE. Mr. President. I rise today for the first time as a Senator from the State of South Dakota. First and foremost, I thank the people of South Dakota for putting their trust in me, for sending me to fight for their values and to represent them here in Washington, DC.

I had the distinct pleasure of serving the State of South Dakota for three terms in the House of Representatives, and now I am looking forward to continuing my service to South Dakota and to our Nation here in the Senate. I decided to run for the Senate because I believe we can make better progress on an agenda that strengthens our Nation and increases the prosperity of every American. We have a lot of work to do, and we should not let partisanship or political gamesmanship get in the way of this agenda.

The Senate is known for its deliberative qualities, most commonly manifested through the right to free debate. This quality is part of the fiber of the Senate, part of the character that makes it one of the most august institutions in the world.

Some of the greatest debates in our Nation's history have taken place in this very Chamber, from the 19th century debates on slavery and the Republic to the 20th century debates on civil rights and Social Security. While there is time to debate, we all came here to solve problems, not pass them on to our children. I think I speak for many Members when I say that the only thing that sustains me when I am away from my children is the knowledge that we are improving their lives through our work. That is why I firmly

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

hope that Congress can work together to do more than simply debate our problems, but work together to solve them.

There are some goals that we can all agree on: a national energy policy that increases the use of renewable fuels. more affordable and accessible health care, and meaningful tort reform. We are, in fact, on the eve of passing class action reform that will restore fairness to the judicial system in this country. Our tort system is broken and, without the necessary reforms, beginning with class action lawsuits, we deny our Nation not only fair and efficient access to justice, but we allow this problem to pull our economy downward. Excessive and often unnecessary litigation expenses cost us in terms of lost jobs. lost growth, and lost revenues every day that it goes unabated. We have a full agenda ahead of us. The American people have put their trust in us to make this Nation even greater than it is today, and we cannot let them down.

Part of the task before us, and the reason I rise today, is the need to fix Social Security. Social Security as the system exists today is in danger. While the system has provided 70 years' worth of benefits to our Nation's retirees, the system as we know it today will no longer be able to keep that promise for the next generation.

I understand the intergenerational aspect of this discussion. My father turned 85 in December. My mom will be 84 in May. My father has served his country as a combat pilot in World War II. He has shot down enemy warplanes for his country. He and my mother rely—depend upon Social Security. We need to keep faith in our promise to them.

But I also have teenage daughters. I understand, if we do nothing to improve this system, that our children and grandchildren will not see the Social Security benefits they are counting on receiving. Today's seniors, like my mom and dad back in Murdo, SD, and those nearing retirement age, can be assured that their benefits are safe and sound. The same cannot be said for my two daughters and the rest of their generation.

The explanation of why this is happening is not that difficult to understand. In 1950, there were 16 workers for every retiree. Today, there are only three workers for every retiree. Soon there will be only two workers for every one retiree. Our Nation is aging and, as more and more Americans leave the workforce for retirement, there are fewer and fewer workers paying into the system. The current system is unsustainable given the changing demographics of this country.

Some may ask, When will we start to see the effects from these changes? The Social Security trustees have told us that beginning in 2018, Social Security will begin paying out more in benefits than it is taking in. This means that we will need to start raising taxes, cutting spending, or reducing benefits in

just 13 years to cover the promises that have been made to our retirees. In 2042 the system will no longer be able to pay full benefits without major restructuring.

Some will say those dates sound like they are a long ways off, but as the Vice President recently put it, some might be inclined to "kick the can further down the road," leaving the problem for another President and another Congress to fix. Thirteen years is not that far away. Believe me, if you have children you know how quickly those first 12 years can go by, and all of a sudden you have a teenager. It happened to me twice with my two daughters. So the problems with Social Security are not going away, and the longer we wait, the more expensive the solution will be and the more painful to the American taxpayer.

The Social Security trustees have told us that if we wait to solve this problem, we are facing a \$10.4 trillion shortfall. Experts agree that if we work on solving the problem today, that cost will be closer to \$1 trillion—\$1 trillion today, \$10 trillion later.

My teenage daughters—and I daresay most Americans—can understand the dimensions of that problem. It is our duty to fix this problem now.

Possible solutions are numerous. Many include personal retirement accounts which would create a nest egg for younger generations. These voluntary accounts would allow younger workers to save some of their payroll taxes in a personal account for their retirement. In fact, they would most likely be fashioned like the Thrift Savings Plan that is available to Federal employees. With personal retirement accounts, our children and grandchildren will be able to get more out of the Social Security system when they retire. In addition, they will have something to pass on to their children.

No matter how the solution is fashioned, current retirees and those nearing retirement do not have to worry about their benefits. They have put their time in, and their benefits will be there for them, no matter what happens.

I have laid out the stakes here today, and it is clear that they could not be much higher. I call on members of both parties to be open to the ideas that are put on the table. Refrain from playing on the fears that often surround this issue. And for those of you who worry about political danger in discussing this issue, know that I am standing here today before you as a Senator who has been on the receiving end of many of those accusations and attacks-the key words being, I am still standing here as a Senator today. I believe we can do more than send and receive political attacks on this issue. We can work together to find a strong bipartisan solution.

As those of us here in Washington begin to debate the issue of Social Security reform, I ask that we think not about our next election but in fact about the next generation—our children and our grandchildren. The same goes for seniors. I ask that they fight the temptation to be concerned about their next Social Security check, because it is going to be there, no matter what. Instead, I ask that they also think about our children and our grandchildren. Their future is what this debate is all about. I for one intend to fight to make it a better future. I hope my colleagues in this Chamber will join me.

I yield the floor.

The PRESIDENT pro tempore. The Senator from Kentucky.

Mr. McConnell. Mr. President, I congratulate the new Senator from South Dakota on his initial speech in the Senate. I say to him that he could not have picked a more important topic than saving Social Security for our children. I had the pleasure to be here and listen to his speech. I have had an opportunity to get to know the Senator from South Dakota over the last few years.

I want to say again on behalf of all of our colleagues, welcome to the Senate, and congratulations on an outstanding speech.

Mr. THUNE. I thank the distinguished whip for his kind remarks.

The PRESIDENT pro tempore. The Senator from Utah.

# SOCIAL SECURITY

Mr. BENNETT. Mr. President, this morning's paper has in it once again, as we often get here in Washington, a poll. It seems everything we do is focused on polls and what the people think. This poll is on the question of whether there is a crisis in Social Security. Frankly, the numbers are confusing, because it depends on the definition. If the question is whether there is a problem, there is a majority who say there is a problem; there is a smaller percentage that say there is a crisis, and so on. It gets very confusing.

I would like to speak today in answer to the fundamental question posed by the poll, and do what I can to shed some light on the question of what condition Social Security is in.

I am not a newcomer to this. We have held hearings in the Joint Economic Committee, while I have been chairman, examining this question. We have a body of institutional knowledge that we have put together now over the past year and a half. I want to pose and I hope answer three fundamental questions here today that can be the basis for the debate on Social Security.

Those questions are: No. 1, is there a problem? No. 2, if so, how big is it? No. 3, when will it hit?

With those three questions in mind, let us go forward. Individuals come to me and ask these questions through the lens of their individual situation. Is there a problem with Social Security? They are really asking, Is there a problem for me in Social Security? The answer to that question is a question: When were you born?

Stop and think for a minute of your own birth date, and then address the question, Is Social Security going to be a problem for me? If you were born in the 1930s, as I was, or if you were born in the 1940s, as my wife was, or if you were born in the 1950s, as my nieces and nephews were, the answer is no, there is not a problem for you with respect to Social Security. Your benefits will be paid. They will be paid at the full level the law requires. You do not have a problem with Social Security.

If you were born in the 1960s, as my children were, the question of whether you have a problem depends on how long you will live. If you were born in the 1960s and you live into your eighties, chances are in the last few years of your life the Social Security benefits are going to be cut quite dramatically. If you manage to die before you get to age 80, then you won't have

If you were born in the 1970s, it is almost certain you will have a problem. And if you were born in the 1980s, it is guaranteed that the Social Security benefits will have to be cut before you reach retirement age

For these young pages sitting here, it is very clear that if we don't start to do something now, you will be penalized for your youth. The Social Security benefits will be seriously curtailed for

Let us review some history to put some flesh on the bones as to whether there is a problem. Think of Social Security in these terms: It is a little like a lottery. A lottery works this way: A lot of people pay in, and only some people get paid out. So it produces winners and losers. With Social Security, a lot of people pay in, and not all of them get money out.

Here are the statistics which demonstrate what has been happening to this lottery. In the 1940s, 54 percent of the workers who paid into the system lived long enough to be winners. This is the ideal political situation, because the losers were dead. They were not in a position to protest that they had paid in and had gotten nothing out. Fiftyfour percent in 1940 of the men—and in 1940 our workforce and retiree population was almost entirely male—got money out of the lottery and the other 46 percent who had paid in got nothing, but they weren't complaining because they were dead.

But then the women started to join the workforce, and now women make up as high a percentage of the workforce as men, and the age kept going up. Today, 72 percent of the men who paid into the lottery are eligible for benefits, and 83 percent of the women who paid into the lottery are eligible for benefits. Whereas it was 54 percent who were winners in 1940, it is now 80 percent who are winners, and the number keeps going up.

There is another factor. This shows how many people get into the winner side who are going to be drawing money from Social Security. How long

did they stay there? In 1940, once a man got to retirement age, he would stay there on the average for 12 years. Women—there were fewer of them who were in the program—lived for 14.7 years. But the numbers kept going up. Today, a man will be in the program for 15 years, and a woman for nearly 20. The average time people draw out their Social Security benefits has gone up from 12 to 18—a 50-percent increase.

You have many more people who get into the program by virtue of living beyond the age of 65, and then once they are in the program they stay longer.

What is the obvious result of this kind of change in demographics? Let us see what has happened to the pool of people paying in.

In 1945, there were 42 people paying in for every one person drawing out. That is true because the program was still new enough that there were not enough people old enough to take advantage of it. That came down dramatically, as you would expect it would, as more and more retirees came on. In the 1950s, 5 years later, the number was down to 17. Now it is down to 3, and the projections are that it will go down to 2. You cannot have that kind of a lottery where only two people are paying in for every person who is drawing out, while the people who are drawing out are growing as a percentage of the whole program.

How do we deal with this? How have we dealt with this historically over this period? This is how we have dealt with it. Take the 50-year period from 1945 to 1995, and this is the list of tax rates that have been applied to Social Security. For 50 years of time, we have run into one of these demographic problems. We have solved it by raising the tax rate.

I would like to demonstrate what Franklin Roosevelt and Congress in 1936 promised the American people on this issue of tax rates. This is the photograph of the brochure that was distributed to every recipient of Social Security in 1936. "Security In Your Old Age, Social Security Board, Washington, DC."

Here is the quote from that pamphlet that was distributed to every Social Security beneficiary. "Beginning in 1949, twelve years from now, you and your employer will each pay 3 cents on each dollar you earn up to \$3,000 a year. That is the most you will ever pay."

If ever there was a promise the Government made that the Government broke, that is the promise.

Let us go back to the previous chart that shows the history.

This is the 3 percent that was promised in the 1930s; this is the 12.4 percent we are paying 50 years later. That is a 300-percent increase in tax rate. That is not 300 percent in dollars. That is a 300 percent increase in the rate to keep up with the demographic situation we have seen.

I asked three questions: Is there a problem? How big is it? When will it

I have cited the history. Now it is time to get prospective and talk about what is coming.

All of the demographic statistics I have quoted are shown here on this chart. It starts in 1950, and here is where we are now. This is the percentage of Americans who are 65 or older. It has been going up. Yet, it leveled off starting around 1990, and stayed stable; even went down a little. But starting in 2008, something is going to happen. I stress the 2008, because a lot of the accountants have ignored that year, and said. No. the crisis is in 2018, or 2042, or 2042 isn't right, it's 2052.

Here are the demographic realities of what we are facing. Starting in 2008, this line is going to start up dramatically and steeply, and over the period of the next 30 years the percentage of Americans who are 65 and older will double.

When will it hit? It will start to hit in 2008. That is not a long way off. That is within the term for which I was just elected—the 6-year term that the people of Utah gave to me—that this problem is going to start to hit us. We have to deal with it or 30 years from now we are going to end up with a population twice the percentage of the level it is now and no solution

Let's look at what the Social Security Administration says this will do. This is the chart of current benefits, current law. Here is the revenue line; here is the cost line. How do we fill in the hole of the cost line that is much higher than the revenue line? This hole by itself is \$1.5 trillion. Where is that \$1.5 trillion going to come from to pay the benefits? It will have to come from either increased tax revenues or increased borrowing to the public. Or it will have to come from some kind of increased rate of return on the money coming in down here. Those are the only three ways to deal with it.

We should understand, once again, the pressure will start in 2008. It will be gradual but it will build. And over the next 30 years, it will overwhelm us if we do not either raise the taxes, cut the benefits, or increase the rate of return.

The proposals of what to do about this range across a wide spectrum of ideas. The President has focused on an idea that he thinks will raise the rate of return on the income coming in. Others have focused on taxes. That is, indeed, how we have handled this for the last 50 years. We have always raised taxes. Some have said we have to begin to adjust the benefits. All of these proposals should be on the table. All of these proposals should be discussed in perfectly good faith. I am willing to discuss anything.

As I said at the outset, we have a history now in the committee that I have chaired of examining these issues. We believe we understand the realities of the past and the challenges and opportunities of the future. We are willing to discuss with anyone any of these proposals and responsibilities.

Remember, there is a problem. It is at the very least a \$1.5 trillion problem. It is going to start to hit us in 2008. Surely we in this Chamber can in good faith recognize these facts and deal with them in a spirit of cooperation, reach out to the White House and try to find a solution so these pages will not, in fact, be penalized for their youth and find themselves in a situation where they do not get the benefits their grandparents and others received. They will be paying into the system. They will not get the benefits the others have received unless we lock arms, cooperate, and produce a solution.

My focus today has been to review the history of where the problem has been and review the prospective demographic realities we face. At some future time I will outline some of the solutions my committee has discovered might very well work as we try to find a way to deal with this very real problem.

I yield the floor.

The PRESIDING OFFICER (Ms. Mur-KOWSKI). The next 30 minutes is under the control of the Democratic leader or his designee.

The Senator from Illinois.

# SOCIAL SECURITY

Mr. DURBIN. Madam President, first I salute my colleague from Utah. I agree completely with his conclusion—completely. We need to get together on a bipartisan basis and talk about the future of Social Security. That should be the starting point.

Unfortunately, it is not the starting point. The starting point is a proposal by the administration that we create this privatization of Social Security. That is not a good starting point. We should be able to come together and agree on some facts. The facts are fairly obvious. They have been certified by the General Accounting Office and the Congressional Budget Office. They differ a little bit from what was just said.

I was in Congress in 1983. We looked at Social Security and said we have a serious, immediate crisis: If we do not do something, and do it now, we will find ourselves in a position where we will not be able to meet our promises to all the retirees who paid into Social Security their entire working lives.

President Ronald Reagan, a Republican President, reached across the aisle to the Speaker of the House of Representatives, Tip O'Neill, a leading Democrat, and said: Can't we find a bipartisan way to deal with the most popular and important social program in America? Tip O'Neill said: We have to

They created a commission with Alan Greenspan as the Chairman. They brought real bipartisanship to the Commission. They did not try to load it one way or the other which, unfortunately, has happened many times when it comes to Social Security. This Commission came up with a list of suggestions to Congress. They said: If you do

these things, Social Security will have a long life. The baby boomers whom we know will retire after the turn of this century, we will be able to take care of them

Some of the things they proposed were controversial: One, increase the retirement age to the age of 67 over a period of years; there were suggestions of taxing Social Security benefits for higher income retirees; there were cuts in benefits; there were increases in payroll taxes. It was a long list, but each of the proposals in and of itself was not that extreme or radical. When it was all said and done, on a bipartisan basis, Congress enacted that law, changed Social Security.

Let me tell you what we bought for the political courage of President Ronald Reagan and Speaker Tip O'Neill in 1983. What we bought was, literally, 59 years of solvency for Social Security. We came together and solved the problem

There are people ever since who have been carping about and criticizing the 1983 bipartisan approach, but I am glad I voted for it. I am glad because I can stand and face those retiring and say we faced the problem and we solved the problem.

Frankly, that is what we have to acknowledge today. The future problems are, in fact, long-term future problems for Social Security. What we know now is obvious and has been certified and found to be true; that is, untouched, unchanged, without a single amendment to the Social Security law, no changes whatsoever, Social Security will make every payment to every retiree, with a cost-of-living adjustment, every month, every year, until 2042according to the Congressional Budget Office, 2052. So for 37 years, Social Security is intact, solid, performing, and solvent. Some say it is beyond that. Some say at the end of 47 years we will reach a point where we will not be able to meet every obligation.

Think of that. There is not a single program in our Federal Government today that we can say with any degree of certainty will be here 3 years from now. We can say with certainty, under the current law, Social Security will be there 37 years from now making every single promised payment.

single promised payment.
What happens after 37 years? It is true, we will have taken the surplus in Social Security and spent it down. And then we look at the receipts coming in and the interest earned and some estimate we can only pay 70 to 80 percent of our Social Security obligation. Now that is a challenge. How do we make up the difference? How do we make up the difference of the 20 to 30 percent that needs to be made up in Social Security? It is a problem that could be 40 years away. Today, if we sat down and made bipartisan, commonsense suggestions for changes in Social Security, much as we did in 1983, we can come up with a reasonable solution. Instead, what has the administration proposed? The President has come forward and said: We have to change Social Security as you know it. The program that has served America for almost 70 years, this program, we should change dramatically.

So we asked the President, What do you have in mind? He says people should be able to take part of the money they are currently putting into payroll taxes and put it into private or personal accounts. That is appealing to some people because they think they would rather invest it in a mutual fund because they think they can make more money than the Social Security Administration can make. Other people say, well, what if you invest it in the mutual fund and it does not make as much money as in Social Security? Isn't there a risk involved?

There certainly is.

And then there are equally important questions. If you are going to take this money out of Social Security that was supposed to go toward paying current retirees, who will make up the difference? The President does not answer the question. The budget of the President does not answer the question. And in comes a memo from the White House which projects one of their solutions to Social Security is to change the way benefits are calculated. Currently, the formula is based on a wage index. It is based on the increase in wages. The White House memo says we ought to base it on the prices index, the increases in the cost of living. It does not sound like much, but it is a substantial change.

As we play out this White House suggestion, what we find is alarming. What the White House memo proposed would lead to a 40-percent decrease in Social Security benefits. So we step back and say, wait a minute. If we do nothing in the year 2042 we can see a 20- to 30-percent decrease in our payments in Social Security. But if we buy into the President's approach we know we will see a 40-percent decrease. How can that be a good solution? The President's plan does not make Social Security any stronger. The President's plan makes Social Security even weaker.

Then there is the kicker, the one thing that the administration does not want to talk about. This administration says their budget is focused on taming the budget deficit. I have to tell the President quite honestly, if you do not include in your budget the cost of the Iraq war, and you do not include in your budget the cost of privatizing Social Security, it is not complete, it is not an honest budget. We know in a period of the first 10 years we could have anywhere from \$750 billion to \$2 trillion added to our national debt. So you say to the President, How are you going do make up that difference, that you will take the money out of Social Security for private accounts and create that additional national debt? How are you going to pay for that?

Well, we will add it to the debt of America. For all the young people, the pages that have been referred to in the Senate who are now becoming the object of many of our speeches, I don't think we are doing any favors by creating private accounts and saying, incidentally, here is a \$2 trillion debt, a little mortgage for you to consider. Do not forget about your student loans and getting married and buying that first car and buying that home; here is a little debt from Uncle Sam that is part of the President's proposal.

When I listen to the President's privatization approach, I have to say there are several aspects that trouble me. First, this is not a crisis. We are not going to be in dire emergency circumstances in 2008. According to the Congressional Budget Office, almost 50 years from now Social Security is solvent. Social Security is making every single payment. Yes, we have a challenge beyond that. Secondly, the President's plan does not make Social Security stronger, it makes it weaker. And third, if this is such an obvious answer, why won't the President include this in his budget? You cannot take a plan seriously if the President does not put it in his budget.

I will yield to the Senator from Utah for a question.

Mr. BENNETT. Madam President, the Senator from Illinois began by saying that the facts were different than those I had outlined. I would ask him to tell me where my facts are wrong. He referred to the GAO and the CBO, all of which are fully aware of the facts I quoted, and all of which, to my understanding, endorsed the facts I quoted. So I would like to know where factually I was in error.

Mr. DURBIN. I thank the Senator from Utah. I am afraid I did not hear his exact words, but he referred to the year 2008 as being a critical year.

Mr. BENNETT. That is correct.

Mr. DURBIN. As I understand it, we are currently collecting more from our workers across America for Social Security than we currently need to pay out to retirees. This has been the case since the mid-1980s because we saw this big tsunami of the baby boom generation coming at Social Security. This year, we may be collecting as much as twice the amount we need to pay the Social Security retirees, building up this surplus.

So to suggest we have this terrible situation today where we cannot meet the obligations of Social Security, or that we are going to have it in 2008, or that we are going to have it in 2018 is wrong. By all of the Government agencies mentioned by the Senator from Utah, we are going to make every single payment in Social Security for 37 years, maybe 47 years. There is no crisis because we prepared for this. It is as if we understood in a family situation that we are not going to earn enough money in the outyears to make a go of it, so we save money and take it from our savings account for those lean years. That is what we are doing for Social Security.

To suggest this is a crisis we did not anticipate, I was here when we did anticipate it. President Reagan and Tip O'Neill, in anticipation of it, came up with a good, bipartisan approach.

I yield to the Senator from Utah for another question.

Mr. BENNETT. Madam President, is the Senator from Illinois aware of the fact that the Comptroller General of the United States, who runs GAO, has used the 2008 figure because the 2008 date is the date the baby boomers start to retire? Is the Senator from Illinois aware of the fact that I did not say there is a looming crisis that hits us in 2008, that what I said was the pressure on the Social Security system will begin in 2008 and will build from that date to the point that ultimately \$1.5 trillion will have to be raised to fill in the hole in the trust fund, once we cross the line where the amount coming in does not meet the amount going out, and that the 2008 figure is the beginning of the crisis? By no means did I imply or state that 2008 was indeed a crisis point.

Mr. DURBIN. Madam President, reclaiming my time, let me concede to the Senator from Utah, if I misstated his position, I apologize. I do want to make it clear, though, that I sincerely disagree with your conclusion. To suggest we are facing a crisis in 2008 is to suggest we did not anticipate what will happen in 2008, and that is plain wrong.

In 1983, we anticipated the baby boomer generation, larger numbers of retirees, and we did something about it because we made changes in the law. Because we are prepared for the baby boomers, we will not be in crisis in 2008. We will have the money to pay every single baby boomer every penny promised.

That is the point many on the other side of the aisle want to overlook. They want to overlook what we did in 1983. Instead, they should look to that as a model for what we should do in 2005.

If we want to do something for Social Security, let's do it on a bipartisan basis.

Mrs. MURRAY. Madam President, will the Senator from Illinois yield for a question?

Mr. DURBIN. Madam President, before I yield, I would ask the Presiding Officer, how much time is remaining in morning business on our side?

The PRESIDING OFFICER. There is 15 minutes 45 seconds remaining.

Mr. DURBIN. Madam President, I will make a statement that will take about 7 or 8 minutes on Medicare prescription drugs. Then I will yield the remainder of the time to the Senator from Washington.

Mrs. MURRAY. Madam President, that would be great. Can I ask the Senator to yield for one question on Social Security?

Mr. DURBIN. I am happy to yield to the Senator for one question.

Mrs. MURRAY. Madam President, I listened carefully to the discussion of the Senator from Illinois on Social Se-

curity, and I am curious, because I heard the President say if you are 55 or older you are fine, you will be OK under his new plan. He is targeting it to everybody else. But as I listened to the Senator talk about the fact that money would be taken out of the payroll tax, and we also would be increasing the debt by substantial amounts, do you think someone who is 55 today is going to be OK under this plan 10 years from now when they retire and money has been taken out of the payroll tax?

Mr. DURBIN. Madam President, in response to the question of the Senator from Washington, I obviously cannot answer that because no one knows what this privatization plan would do exactly. It certainly is not healthy for the Social Security system to see payroll taxes that had been anticipated and dedicated to paying retirees being removed and put into private investments with the risk attached to them. So I do not think there is any certainty for any retiree if the President cannot come up with more details on what he plans to do. I. for one, think the President's plan weakens Social Security and does not strengthen it.

(The remarks of Mr. Durbin and Mrs. Murray pertaining to the introduction of S. 341 are printed in today's Record under "Statements on Introduced Bills and Joint Resolutions.")

The PRESIDING OFFICER. The Senator from Washington.

# BUDGET IMPACT ON VETERANS

Mrs. MURRAY. Madam President, one week ago we walked across the Capitol to hear President Bush outline his priorities for the Nation when he issued his State of the Union Address. On that night, President Bush told all of us and the Nation that the document reflecting his priorities, his fiscal year 2006 budget, "... substantially reduces or eliminates more the than 150 government programs that are not getting results, or duplicate current efforts, or do not fulfill essential priorities."

Less than a week after delivering that address, the President unveiled his budget that defines exactly what he sees as those nonessential priorities. What are they? Students; our ports and our borders; accessible health care; nuclear waste cleanup.

In addition, his budget has not one dollar—that is right, not one single dollar—for the two top priorities the President talked about that night. His two top priorities: Social Security transition, and making the tax cuts permanent. Both of those items are completely ignored in his budget. This is a camouflage budget that we have been presented, and it is meant to hide the truth from American families.

What the President should know is that families in my home State of Washington and across the country are concerned about the security of their jobs, the security of their communities, access to affordable health care, and quality education.

Unfortunately, rather than inspiring confidence, I believe the President's budget leaves too many Americans questioning the future. On issue after issue, this budget falls short of what our communities need today to move forward and to feel secure.

What I would like to focus on is this budget's impact on one group that we absolutely must take care of, and that is our Nation's veterans. We have no greater obligation as elected officials than to take care of those who have taken care of us. Unfortunately, I fear this administration is failing in this most important responsibility. After asking thousands of soldiers to serve us overseas, this administration is not overseas, this administration is not making their health care and their well-being a priority when they cease being soldiers and become veterans.

Access to first-class care should be a reality for all veterans, especially while our Nation is at war. The President's budget may have a few small steps in the right direction, but, sadly, he does not go far enough to meet the needs of all veterans. If this budget and its misguided proposals were enacted, it would devastate veterans' health care. Payroll and inflation increases for doctors, for nurses, for medications cost more than \$1 billion. But the President has proposed to give the VA only half what it needs. To make up for the shortfall, the budget forces more than 2 million so-called middle-income veterans to pay more than double for their needed medications and to pay a \$250 enrollment fee. That is not what we promised veterans when we asked them to serve us overseas.

In addition, the President's budget actually continues to ban some veterans from coming to the VA for care. So far under this flawed policy, 192,260 veterans have been turned away across the country, including more than 3,000 in my home State. This sends the wrong message to our troops overseas. They need to know we are there for them when they return home.

Sadly, this budget also destroys the relationship between the VA and our States. After the Civil War, the VA has supported the cost of veterans who reside in our State VA nursing homes. But this budget now calls on States to cover the entire cost of care for many veterans in these cost-effective nursing homes.

To make this budget add up, the President calls for \$590 million in unspecified efficiencies. Thousands of nurses and other providers will be cut, thousands of nursing home beds will be shuttered, and more than 1 million veterans will no longer be able to afford to come to the VA for care.

You don't have to take my word for this. Listen to the head of the VFW who addressed this issue in Commerce Daily a few days ago. John Furgess, who heads the Veterans of Foreign Wars, said the administration's proposed \$880 million increase in veterans health care only amounts to an increase of about \$100 million because the budget proposes that veterans shoulder a \$250 enrollment fee and an increased copay on prescription drugs in addition to nursing home cuts. Furgess said:

Part of the federal government's deficit will be balanced on the backs of military veterans, because it's clear that the proper funding of veterans' health care and other programs is not an administration priority.

There is more. Before the budget was even sent to Congress, I read this in the New York Times:

Richard B. Fuller, legislative director of the Paralyzed Veterans of America, said: "The proposed increase in health spending is not sufficient at a time when the number of patients is increasing and there has been a huge increase in health care costs. It will not cover the need. The enrollment fee is a health care tax, designed to raise revenue and to discourage people from enrolling."

Mr. Fuller added that the budget would force veterans, hospitals, and clinics to limit services. He said:

We are already seeing an increase in waiting lists, even for some Iraq veterans.

The story went on to say that there are already some hospitals with waiting lists for Iraqi veterans:

In Michigan, for example, thousands of veterans are on waiting lists for medical services, and some reservists returning from Iraq say they have been unable to obtain the care they were promised. A veterans clinic in Pontiac, Mich., put a limit on new enrollment. Cutbacks at a veterans hospital in Altoona, Pa., are forcing some veterans to seek treatment elsewhere.

And yesterday, in an editorial titled "Penalizing Veterans," the Boston Globe said:

It is a sign of how desperate the Bush administration is to protect tax cuts for the wealthy while also trying to reduce runaway deficits that it would call for veterans to pay more for their health benefits. Congress should reject this proposal out of hand and put enough money into veterans' health care to end the inexcusable waiting lists at many veterans' facilities.

I ask unanimous consent to print the editorial in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

It is a sign of how desperate the Bush administration is to protect tax cuts for the wealthy while also trying to reduce runaway deficits that it would call for veterans to pay more for their health benefits. Congress should reject this proposal out of hand and put enough money into veterans' health care to end the inexcusable waiting lists at many veterans' facilities.

Under the Bush proposal, veterans would have to pay an enrollment fee of \$250 for VA care. Their copay for prescription drugs would rise from \$7 to \$15 for a monthly prescription. The administration lamely defends these charges by noting that they are for "higher-income" veterans without service-connected disabilities. According to Joe March of the American Legion, the administration defines "higher income" as \$25,000 or more, which hardly qualifies as the Boca Raton set. A VA spokesman said the income

level is based on local conditions. He could not provide a national average.

The goal of the administration, which has made similar proposals in the past, is to save close to a half-billion dollars by coaxing more than 200,000 veterans to seek care in other venues. But increasing numbers of older Americans have been turning to VA clinics and hospitals because they have lost their employment-based insurance and discovered that Medicare will not start covering prescription drug costs until 2006. Many of these veterans do not have affordable alternatives. According to Representative Stephen Lynch of South Boston, veterans in his district often have to wait eight months to see a doctor.

Treatment of veterans without service-related disabilities is considered "discretionary" spending by the Department of Veterans Affairs. Veterans" advocates think this care should not be discretionary but mandatory, like Medicare. In spite of the growing number of veterans from recent wars, the increasingly severe health needs of older veterans, and overall increases in health costs, the administration is asking for just a 2.7 percent increase for "discretionary" health care. Veterans groups favor an increase of 25 percent.

That is not realistic, but it is a reflection of the frustration the advocates feel knowing that inadequate spending for veterans' health is undermining the unwritten promise of lifetime care that many veterans believe was made to them when they took the oath.

was made to them when they took the oath. "Veterans' health care is an ongoing expense of war," the American Legion's national commander, Thomas Cadmus, said yesterday. It is particularly wrong-headed for the administration to squeeze veterans when some of the armed services have had trouble filling their ranks. Congress should tell the Bush administration that veterans, who enlisted to help their nation, should not be enlisted anew, involuntarily, and burdened with the job of balancing the budget.

Mrs. MURRAY. As my colleagues can see, I am not alone in my concern for this budget's tremendous impact on our veterans. Unfortunately, the widespread outrage at this budget is not limited to its impact on veterans. I could speak for much time on this floor about my concern about the other priorities our country faces—health care, education, and nuclear waste cleanup.

As a member of the Budget Committee, I raised some of these concerns yesterday with the Director of the Office of Management and Budget. I was pretty disappointed with OMB Director Bolten's responses to our questions on energy policy, on veterans, and on a number of other issues that came before the Budget Committee. This morning, Secretary Snow is addressing the committee. I will leave the floor now to attend that hearing. I hope we get better responses from him.

But for now, let me just say that it seems to me that President Bush believes that in his budget veterans are a nonessential priority. That is an insult. It is an insult to them, to their service, and their sacrifice. I know I, along with many of my colleagues, will not stand for this assault on our veterans. They deserve better.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. McCAIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. McCain and Mr. Lieberman pertaining to the introduction of S. 342 are located in today's Record under "Statements on Introduced Bills and Joint Resolutions.")

Mr. McCAIN. I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. ENSIGN). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

# CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

# CLASS ACTION FAIRNESS ACT OF 2005

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of S. 5, which the clerk will report.

The legislative clerk read as follows: A bill (S. 5) to amend the procedures that apply to the consideration of interstate class actions to assure fairer outcomes for class members and defendants, and for other purposes.

# Pending:

Durbin (Modified) Amendment No. 3, to preserve State court procedures for handling mass actions.

Feingold Amendment No. 12, to establish time limits for action by Federal district courts on motions to remand cases that have been removed to Federal court.

Mr. SPECTER. Mr. President, I thank Senators on both sides of the aisle for their cooperation in moving this class action bill. We reported it out of committee a week ago today and started the opening debate on it on Monday afternoon and then proceeded in a very timely fashion. The prospects are good that we will conclude action on the bill today. A unanimous consent agreement is currently in the process of being worked out, and we will know in the next few minutes precisely what will happen.

We are going to proceed in a few minutes to the amendment offered by the Senator from Wisconsin, Mr. Feingold, which would impose some time limits on the courts which, as I said at the committee hearing last week, I think is a good idea. I advised Senator Feingold that I would feel constrained to oppose it on this bill because of the procedural status, where the House of Representatives has been reported to accept the Senate bill provided it comes over as what we call a clean bill, without amendments.

But as I said to Senator FEINGOLD, and will repeat for the record, I had

heard many complaints about delays in our Federal judicial system. I believe that is an appropriate subject for inquiry by the Judiciary Committee on a broader range than the issue specifically proposed by Senator FEINGOLD. It is in the same family.

I want to be emphatic. We are not impinging in any way on the independence of the Federal judiciary, their discretionary judgments. But when it comes to time limits, how long they have these matters under advisement, I think that is an appropriate matter for congressional inquiry. It bears on how many judges we need and what ought to be done with our judicial system generally. So that will be a subject taken up by the Judiciary Committee at a later date.

I think the Senate bill—this may be a little parochial pride—is more in keeping with an equitable handling of class action bills than is the House bill. For example, the House bill would be retroactive and apply to matters now pending in the State courts, which would be extraordinarily disruptive of many State court proceedings. I think it is fair and accurate to say that the House bill is more restrictive than the Senate bill and our Senate bill, I think, is a better measure to achieve the targeted objective of having class actions decided in the Federal court with balance for plaintiffs and for defendants as well.

So we are moving, I think, by this afternoon, to have a bill which will be ready for concurrence by the House, and signature by the President, and that I think will be a sign that we are moving forward on the legislative calendar.

The Senator from Louisiana is going to seek recognition in a few minutes. I thank my distinguished colleague, Senator HATCH, the former chairman, who has agreed to come over and manage the bill during my absence. We are, at the moment, having hearings on the bankruptcy bill which we hope to have in executive session next Thursday, to move ahead on our fast moving, ambitious judiciary calendar.

I now yield to my distinguished colleague from Louisiana.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. VITTER. Mr. President, I rise in strong support of S. 5, the Class Action Fairness Act of 2005. In doing so, I wish to recognize and thank them for their leadership, so many Senators who have moved the bill thus far, certainly including the chairman of the Judiciary Committee who just spoke, also the Senator from Iowa, the chief sponsor of the bill, and also the Senator from Utah, the former chairman of the Judiciary Committee.

I am also an original cosponsor of this bill, because it would protect consumers from some of the most egregious abuses in our judicial system.

Let me begin by saying that class actions are an important part of our justice system. They serve an important

purpose when properly defined. No one would dispute they are a valuable feature of the legal system. This bill doesn't do away with them.

As stated so eloquently by the bill's chief sponsor, my colleague from Iowa, S. 5 is really court reform more than tort reform. What does it reform? What is the problem?

The reason we need to pass this bill is that there are loopholes in the class action system, and it allows bad actors to game the system. As a result, in recent years class actions have been subject to abuses that actually work to the detriment of individual consumers, plaintiffs in such cases. That is exactly who the law is supposed to help.

Additionally, this gaming of the system clearly works to the detriment of business and our economy, and the need for job creation in forging a strong economy.

Such abuses happen mainly in State and local courts in cases that really ought to be heard in Federal court.

We currently have a system, therefore, which some trial lawyers seeking to game the system in an effort to maximize their fees seek out some small jurisdiction to pursue nationwide cookie-cutter cases, and they act against major players in a targeted industry. Often, these suits have very little, if anything, to do with the place in which they are brought. Rather, lawyers select the venues for strategic reasons, or for political reasons, a practice known as forum shopping.

These trial lawyers seek out jurisdictions in which the judge will not hesitate to approve settlements in which the lawyers walk away with huge fees and the plaintiff class members often get next to nothing. The judges in these jurisdictions will decide the claims of other State citizens under their unique State law. They will use litigation models that deny due process rights to consumers and defendants.

Often the decisions coming out of these hand-picked and carefully selected venues are huge windfalls for trial lawyers and big law firms and a punch line for consumers and the people the lawyers claim to represent. There is now in our country a full blown effort aimed at mining for jackpots in sympathetic courts known as "magnet courts" for the favorable way they treat these cases.

Let us look at a few examples of exactly what I am talking about. Perhaps the best example nationwide, in terms of preferred venues for trial lawvers, is Madison County, IL, where class action filings between 1998 and 2000 increased nearly 2,000 percent. There is actually an example of a South Carolina law firm filing a purported class action on behalf of three named plaintiffs. None of them lived in Madison County, IL, but the lawsuit was filed in that jurisdiction against 31 defendants throughout the United States. None of those defendants were located in Madison County. These lawyers based the alleged jurisdiction on the mere allegation that some as yet unknown class

member might happen to live in Madison County.

I have a law degree. That is stunning to me. You can imagine how astounding and silly and ridiculous that seems to the American people, small business owners, and consumers around the country. So Madison County is a great example of one of these magnet jurisdictions. Once their reputation as a magnet jurisdiction is established, they attract major nationwide lawsuits that deal with interstate commerce—exactly the types of lawsuits that should be decided in the Federal court.

As noted in one study:

Virtually every sector of the United States economy is on trial in Madison County, Palm Beach County, FL, and Jefferson County, TX—long distance carriers, gasoline purchasers, insurance companies, computer manufacturers and pharmaceutical developers.

Let us review some of the outrageous decisions that this gaming of a broken system produces.

The Bank of Boston case, where class action members actually lost money when their accounts were debited to pay their lawyers \$8.5 million; the Blockbuster settlement, where the class action members received coupons off their next rentals while their lawyers were paid \$9.25 million; and, the Cheerios case where the plaintiffs got coupons for cereal, while the lawyers reaped \$1.75 million—coupons that, quite frankly, they could have gotten in the Sunday local newspaper.

Sad to say, this is hitting home in my home State of Louisiana as well, because one of the jurisdictions that is appearing more and more on the list of these magnet jurisdictions is in Louisiana, Orleans Parish, the city of New Orleans

I have mentioned how this gaming of the system is a huge disservice so many times to the consumers that were allegedly harmed. They get coupons or next to nothing. In one case, they had to pay even after the award. It is also a huge cost to business and a huge drain on the American economy.

Small businesses are already spending, on average, \$150,000 annually on legal fees. The tort system costs U.S. small business \$88 billion per year. This is all money that could be used to hire new employees or to improve benefits. I have long been concerned that Louisiana is increasingly becoming a part of this trend.

I mentioned a minute ago Orleans Parish, which is clearly showing up more and more on the list of these magnet jurisdictions. This is bad for our Louisiana efforts at job creation. It is a serious negative for companies looking to locate in our State.

I will quote from an amicus brief filed at the Louisiana Supreme Court in the case of Sutton Steel and Supply, Inc., Kate Davis, and Mestayer and Mestayer, APLC v. Bellsouth Mobility, Inc. In that brief, they said:

In a recent poll of more than 1,400 in-house general counsel and other senior litigators at

public corporations ... Louisiana was ranked 46th for its treatment of class actions, out of the 48 States that permit class action suits in their courts.

The study they cited is the Chamber of Commerce study done in March 2004, and the amicus brief continues:

Importantly, 80 percent of the respondents—these are businesses now, job creators—indicated that they perceive fairness of the litigation environment in a State "could affect important business decisions at their company, such as where to locate or do business" and with good reason.

Of course, many small businesses are dragged down by what are known as Yellow Page lawsuits. In these cases, hundreds of defendants are named in a lawsuit, and it is their responsibility to prove they are not culpable. In many cases, plaintiffs named defendants using vendor lists, or even lists literally from the Yellow Pages of certain types of businesses, be they auto supply stores, drugstores, what have you, in a particular jurisdiction.

Imagine what this means to your State's job creation efforts when national attention is brought to your local jurisdiction because it is a new magnet jurisdiction—a new Madison County, IL. The only jobs that you will be creating are legal positions for the flyby lawsuit filed by out-of-Staters hoping for a payoff from your local industries and companies.

I have identified the problem, gaming a broken system. We have identified the real and negative results of that problem, hurting the actual consumers who are supposed to be helped, and costing business and job creation in your State, including my home State of Louisiana, enormous amounts, including in terms of jobs not created or lost jobs.

Why is S. 5 the solution?

I believe S. 5 is a careful, reasonable, and moderate response to the problem with our class action system. We have a bipartisan compromise that has been in the making for 6 years: 6 years of negotiation, careful study, and careful compromise. It deserves our support.

The House of Representatives has already passed similar class action reform legislation more than once. I have personally supported and worked for that, and voted for that when I served in the House.

S. 5 provides for Federal district court jurisdiction for interstate class action, specifically those in which the aggregate amount in controversy exceeds \$5 million and any member of a plaintiff class is a citizen of a different State from any defendant. Under the bill, certain class actions with more than 100 plaintiffs also would be treated as class actions and subject to Federal jurisdiction.

The bill provides exceptions for cases in which Federal jurisdiction is not warranted. Under the so-called home State exception and the local controversy exception, class action cases will remain in State courts if there is significant connection to a local issue or event or a significant number of plaintiffs are from a single State.

The bill includes consumer protections so the real little guy, the plaintiff, the consumer who is wronged, is truly made whole. The bill's consumer bill of rights would require, among other things, that judges review all coupon settlements and limit attorney's fees paid in such settlements to the value actually received by class members. It would also require judges to carefully scrutinize net law settlements in which the class action members end up losing money in a class action settlement, and would prohibit settlements in which parochial judges allow some class action members to have a larger recovery because they simply live closer to the courthouse.

I am pleased there is bipartisan, bicameral support for a carefully crafted, well-thought-out measure. S. 5 is long overdue.

It is also important to say what we are not doing. This bill is not an attempt to eliminate class action lawsuits. Time and again, it has been said by parties on all sides that class actions have a proper place in the legal system. This bill is a modest effort to swing the pendulum back toward common sense, making the system work as it was intended.

This bill will not move all class actions to Federal court, only the ones most appropriately settled there. This bill will not overload Federal courts with class actions. They are prepared to deal with these cases far better than State courts, many of whom are overburdened now. We are also not delaying justice for plaintiffs. Federal courts have as good or better records of dealing with class actions in a timely manner.

In closing, our class action system is rife with abuses. It is gamed. It is broken. We need to fix it. First, we need to fix it for the consumers who are hurt by alleged abuses which are the subject of this class action litigation. Plaintiffs leave feeling cheated because they receive a token settlement in many cases for their efforts while lawyers reap all of the financial benefits.

Second, the system is broken and we need to fix it so we do not hurt legitimate business, legitimate job-creation efforts in Louisiana and elsewhere. Right now, businesses, fearing the mere threat of legal action, settle cases—a form of judicial blackmail. The whole economy is dragged down and fewer jobs are created as a result.

Third, our system of federalism is undermined today because one State's legal system, rather than the legal system of the Federal branch of the courts, is making decisions that affect many or even all other States. So the system is not working for anyone but the lawyers and law firms gaming that system.

A lot of good, hard work has been put into S. 5. I compliment again the prime sponsor, Senator GRASSLEY, as well as the Judiciary Committee, led by the Senator from Pennsylvania. I compliment all of their leadership and

their respective staff members for their efforts. I am proud to be a cosponsor of S. 5. I urge my colleagues to support and vote for the Class Action Fairness Act.

I yield the floor.

The PRESIDING OFFICER. The Senator from Utah.

Mr. HATCH. Mr. President, today is going to be an important day for the American public because the Senate will adopt legislation that takes a significant step forward in improving our Nation's civil justice system. I commend my colleagues on both sides of the aisle for coming together on this very important bipartisan bill. Our work in this body bodes well for the Senate's ability to tackle important issues in the 109th Congress.

Let me now take a couple of minutes to address the pending amendment, Senator Feingold's amendment, that would add a provision to S. 5 requiring Federal courts to consider remand motions in class actions within a specified period. This amendment is based on the questionable premise that Federal courts move too slowly and consumer claims will stall while plaintiffs are waiting for courts to rule on jurisdictional issues.

In fact, in many cases, Federal courts move more quickly than the State courts. Resolving remand motions is always their first course of business, and we are moving these cases to Federal courts.

The amendment also fails to recognize the important considerations a judge must make as part of a remand decision. Like other amendments that have been offered, this proposal would result in a less workable bill, not a better one. This amendment should be rejected.

The fact is, the Federal courts do not drag their feet in dealing with remand motions. Federal courts always consider jurisdictional issues first, as they must, before allowing discovery or other substantive motions. The Supreme Court has repeatedly held that jurisdiction is a threshold matter that must be decided prior to other substantive issues in a case. Courts take up jurisdiction as the first course of business already. The amendment is, therefore, unnecessary.

I also want to correct the misunderstanding that Federal courts drag their feet in dealing with class actions generally. This is not the case. In fact. Federal courts generally move more quickly than State courts when it comes to class actions. A recent 2004 study by the Federal Judicial Center found that State courts are far more likely than Federal courts to let class actions linger without ruling on class certification. Moreover, the median time for final disposition of a civil claim filed in Federal court throughout this country is 9.3 months; the median time to trial in a civil matter in State court is 22.5 months. Let me repeat that: 9.3 months in Federal courts versus 22.5 months in State courts for civil claims to be disposed. The dates showing the Federal courts act more than twice as fast as State courts come from the nonpartisan Administrative Office of the United States Courts. There is simply no evidence that States proceed more quickly. Thus, the alleged problem that this amendment would fix is nonexistent. It does not exist.

Take, for example, the case cited by Senator Feingold yesterday, Lizana v. DuPont. It did take a year to rule on the motion to remand, but it is my understanding that the court's docket reveals at the time the court was considering the motion, there were numerous briefings and motions on both sides and numerous hearings to determine whether to remand. The court was hardly sitting on its hands. If anything, this case shows that the courts may require more than 180 days to make a correct decision. They were moving, and moving ahead, and moving ahead with dispatch. But it was a complicated case and it took a little longer. It may very well take more than 180 days, and in some cases, it certainly will.

Another case cited in support of the amendment was Gipson v. Sprint. But when you look at the facts, the facts do not show much support for the amendment at all. Again, it is my understanding the docket reveals that the court was very busy on the case before the ruling on the motion to remand was even handed down. In fact, one of the motions the court was contending with was a motion for continuance filed by, you guessed it, plaintiffs' counsel. This means it was the plaintiffs who wanted the court to delay its ruling. How can anyone complain about the time it takes for a district court not to rule on a remand motion when there are scores of docket entries in a single year and the plaintiffs themselves were seeking delays?

Some opposed to this amendment suggested that defendants will use removal as a delay tactic, but Federal law already penalizes defendants who engage in such tactics. The Federal law governing removal gives judges discretion to make a defendant pay the plaintiff's attorney's fees if remand is granted. In addition, rule 11 of the Federal Rules of Civil Procedure gives Federal judges the authority to levy sanctions for frivolous filings. Thus, the law already addresses concerns about improvident removals.

The bottom line is that this amendment will make it unnecessarily difficult for judges to issue fair rulings in these more complicated cases. And class actions generally are more complicated cases. By forcing judges to decide remand motions by a certain date, as the Feingold amendment would do, that amendment fails to recognize that in some cases the jurisdictional issues will be complex, requiring discovery, substantial briefing, and hearings before the judge.

At times, courts consider several remand motions jointly in order to conserve judicial resources, such as in multidistrict litigation, or MDL, as it is called, and this may, in a limited

number of complex cases, result in a slightly longer time period for resolution as well. Forcing judges to rush these issues in all cases regardless of their complexity could result in a denial of due process in these cases where the judge cannot fully comprehend and resolve the issue, or issues, in the time allotted by the Feingold amendment.

The reality is that most remand motions will be decided in less time than the amendment requires, but in some cases they will require more time. We should not create rules of law that force judges to decide issues without full and fair consideration. And that is exactly what the Feingold amendment would do.

Finally, there is a reason the time limits make sense for remand appeals and not for initial rulings on remand motions. In contrast to district courts. which often must develop a factual record to address remand issues, an appeals court that is asked to review a remand order will be provided with a full record from which to reach a decision. Often, the appeals court's decision will be based simply on a reading of the law, and it will, thus, be less than the time-consuming district court's decision.

Even a 180-day time limit may be too stringent in some circumstances. Extending it to district court judges will make it more difficult for them, in some cases, to do their jobs in a fair and efficient fashion.

So I hope our colleagues will vote down the Feingold amendment. Frankly, it is another poison pill amendment that would probably scuttle this bill for another year. We have already been on this bill for 6 solid years. We have a consensus in this body to pass it. We know if we pass it in the form that it is in, the House will take it. We know it will become law because the President will sign it into law. Frankly, I hope this amendment will be voted down for all of those reasons.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant bill clerk proceeded to call the roll.

Mr. HATCH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. GRAHAM). Without objection, it is so ordered.

Mr. HATCH. Mr. President, I would like to talk more generally about the Class Action Fairness Act because it responds to a serious abuse of the class action system that is on the rise; namely, the filing of copycat or duplicative lawsuits in State courts.

Over the past several years, we have seen a rise in the number of class action lawsuits filed in a few State courts known for tilting the playing field in favor of the plaintiffs' bar; in other words, dishonestly, basically, getting the courts to not do justice. These courts, referred to as "magnet courts" for their attractive qualities to enterprising plaintiffs' lawyers, certify class

actions with little regard to defendants' due process rights. They award substantial attorneys' fees as part of class settlements, and they approve coupon settlements to the class members that are sometimes worth little more than the paper on which they are printed.

It has not taken the plaintiffs' lawyers long to figure out which courts are good for their bank accounts. There was an 82-percent increase in the number of class actions filed in Jefferson County, TX, between the years of 1998 and 2000. During the same time span, Palm Beach County, FL, saw a 35-percent increase. The most dramatic increase, however, has occurred in Madison County, IL. Madison County has seen an astonishing 5,000-percent increase in the number of class action filings since 1998.

Let me just refer to this bar chart. It shows that the number of class actions filed in State courts has skyrocketed under current law: Palm Beach County, 35 percent in just 2 years or 3 years; Jefferson County, 82 percent in the same 2 or 3 years; and Madison County, over 5,000 percent. And then this chart shows the overall increase in State courts: 1,315-percent growth.

Now, in their effort to gain a financial windfall in class action cases, some aggressive plaintiffs' lawyers file copycat class action lawsuits. This tactic helps explain the dramatic increase in filings in these magnet courts. Here is how the copycat class action strategy works: Competing groups of plaintiffs' lawyers, and sometimes even the same lawyers, file nearly identical class action lawsuits asserting similar claims on behalf of essentially the same class in State courts around the country. Some lawyers file duplicative actions in an effort to take a potentially lucrative role in an action. Other times, these duplicative actions are the product of forum shopping by the original lawvers who file similar actions in different State courts around the country, perhaps with the sole purpose of finding a friendly judge willing to certify the class.

Because these duplicative actions are filed in State courts of different jurisdictions, there is no way to consolidate or coordinate these cases. As a result of the separate, redundant litigation of copycat lawsuits, our already overburdened State courts can become clogged with complicated class actions that potentially affect the rights and recoveries of class members throughout the entire country.

There is not a single magnet State court in this country that has not encountered the copycat phenomenon. For example, it is my understanding that in Shields v. Allstate County Mutual Insurance Company, filed in Jefferson County, TX, in the year 2000, three named plaintiffs sought certification of a nationwide class comprised of members who were insured by three insurance companies. At the very same time this action was brought in Jeffer-

son County, no fewer than nine similar actions, representing a similarly situated class and alleging the identical claims, were pending in Madison County, IL, against the same insurance companies.

Another example of copycat lawsuits is Flanagan v. Bridgestone/Firestone, filed in Palm Beach County, FL. Now, this lawsuit was but one of the approximately 100 identical class actions filed in State courts throughout the country in the wake of the Ford/Firestone tire recall in the year 2000

One of the most obvious problems with copycat lawsuits is that they place new burdens on an already stressed State court system. Class actions are large, complex lawsuits with potential ramifications in jurisdictions across the country. Our State courts are courts of general jurisdiction that deal with issues ranging from domestic disputes to routine traffic offenses. They are simply not the best entity to handle the growing number of these complex lawsuits being filed across the country where multiple parties and multiple issues are involved.

S. 5 will mitigate the growing burden on our State courts by providing a means through which truly national class actions will be resolved in the most appropriate forum; that is, the Federal courts.

Over the past several months. I have heard some opponents of this bill argue that the Class Action Fairness Act will somehow result in a delay or even a denial of justice to consumers. They have argued that State courts resolve claims more quickly, and that removing these actions will result in the overburdening of our Federal courts. I have vet to see or hear a single shred of persuasive evidence to support these claims. In fact, according to the data, a strong case in the opposite direction can be made. According to two separate examinations of the State and Federal court systems conducted by the Court Statistics Project and Administrative Office of the U.S. Courts, the average State court judge is assigned nearly three times—nearly three times—as many cases as a Federal court judge. The increase of State court class actions further compounds this burden and interferes with the ability of the State court judges to provide justice to their citizens.

In fact, the Illinois Supreme Court has repeatedly criticized its own Madison County, IL, State court for its horrible backlog. The backlog is the result of the local court's willingness to take on cases that have nothing to do with Madison County, the county in which they sit. In fact, one Madison County State court judge expressed his willingness to take on cases that have little or no connection to Madison County, or even Illinois, for that matter, when he stated:

I am going to expand the concept that all courts in the United States are for all citizens of the United States. . . .

The fact is, when cases are accepted that have nothing to do with the State

in which they are filed, it is difficult to see how justice is served. When the cases are forced to remain in State court because some plaintiff's lawyers have exploited the system by engineering the composition of the class and the defendants, both the class members and the defendants can easily be deprived of justice. In some cases, it appears that the interests disproportionately served are those of the class counsel who stand to receive millions in attorney's fees upon the swift approval of a proposed settlement while their clients receive next to nothing.

Despite claims to the contrary, S. 5 will not flood or remove all class actions to Federal court. Instead the bill acts to decrease the number currently falling in State court dockets. Most of the cases that would be removed to the Federal courts under the bill are precisely the type of cases that should be heard by such courts in the first place; namely, large national class actions affecting citizens in and around the country, including the very copycat lawsuits I have discussed today.

Class actions generally have three things in common. No. 1, they involve the most people. No. 2, they involve the most money. And No. 3, they involve the most interstate commerce issues. Taken as a whole, the national implications of class actions are far greater than many of the cases filed and heard by the Federal courts today. With this in mind, one is left to wonder how anyone could argue that these actions are not deserving of the attention of our Federal courts.

As Chief Justice Marshall noted:

However true the fact may be, that the tribunals of the States will administer justice as impartially as to those of the nation, to parties of every description, it is not less true that the Constitution itself either entertains apprehensions on this subject, or views with such indulgence the possible fears and apprehensions of suitors, that it has established national tribunals for the decision of controversies between aliens and citizens, or between citizens of different States.

When the Framers of the Constitution created the Federal courts in article 3 of the Constitution, they gave them jurisdiction over cases involving large interstate disputes, cases such as class actions. Contrary to the claims of opponents of this bill, article 3 does not require complete diversity amongst parties to a claim.

The Class Action Fairness Act will also help protect the interests of consumer class members from copycat lawsuits. When duplicative lawsuits are pending in different States, a settlement or judgment in any one case has the potential to make every other pending case moot. This winner-takesall scenario acts as an incentive for plaintiffs' lawyers with multiple class actions to seek a quick settlement in the case, even if the settlement does no more than make the lawyers involved rich. The bona fide claims of the plaintiffs to the other class actions are wiped out by the settlement. That is not fair, but that is what is happening.

Sometimes they file multiple suits so they can force a settlement with a simple settlement demand. And what company wouldn't pay the defense costs to get out of this type of abusive jurisdiction of the various courts throughout the country.

What this means is that while one injured consumer in one court of the country recovers for their injuries, an identically injured consumer in another part of the country may get nothing. The quick settlement of a copycat lawsuit may essentially steal the ability for similarly situated plaintiffs to fully or fairly recover for their injuries, especially if the forumshopped court is going to pull this kind of stuff and favor certain attorneys over others and certain clients over others rather than do what is just under the law.

Under S. 5, many of these copycat lawsuits would be removed to Federal court and consolidated to ensure that all similarly situated plaintiffs received the same recovery under any settlement. Unlike State courts, Federal courts are equipped with a mechanism for consolidating similar claims. In the Federal court system, a judge may consolidate multiple identical lawsuits found in various jurisdictions into one proceeding before a single Federal court known as the multidistrict litigation panel or MDL. The MDL panel has proven to be a valuable tool for preventing abuse, judicial waste, and disparate outcomes in Federal courts.

Under this system, much of the time-consuming pretrial activity in the law-suit is heard by a single court. This serves to help protect against the plaintiffs' lawyer from making a separate deal for some plaintiffs that is not in the best interests of all class members. And by the way, for those who argue that consumers are being hurt by this bill, guess how many consumers are hurt by a collusion between plaintiffs' counsel and a particular corporation to settle in one State that wipes out everybody else throughout the country.

That happens. It happens because we have not solved these problems. This bill goes a long way toward solving some of these problems.

S. 5 solves this very problem by ensuring that a plaintiff's claim is not extinguished by the settlement of the duplicative action in another part of the country. This bill protects consumers in areas where they are not protected under current law.

Before I close, I want to stress that

Before I close, I want to stress that this bill does not change substantive law. The Class Action Fairness Act does not make it any harder or easier to file or win a lawsuit unless, of course, winning is unjustly based upon an uneven playing field. In other words, courts who homer the cases because they want to help certain attorneys who have supported them for their election to those State court positions.

This bill is one that is long overdue. As Chief Justice Rehnquist stated:

We can no longer afford the luxury of State and Federal courts that work at cross-purposes or irrationally duplicate one another.

This bill is a procedural bill that applies common sense to streamline the court system. The underlying substantive law is the same for class actions whether they are in Federal or in State court. This bill is a balanced, modest approach to solving some of the most abusive problems in our current civil justice system. Members on both sides of the aisle have worked long and hard to formulate a bipartisan bill, and we are succeeding in this bipartisan effort on behalf of the American people.

I steadfastly support the Class Action Fairness Act and urge my colleagues to do so as well, because it is the right thing to do. It is the right thing to do for the legal profession and for the plaintiffs who deserve compensation.

I have been in some pretty tough cases in my day, but I have never seen a case I could not win if the case was the right thing to bring. I would not bring it if it were not the right thing to bring. I loved being in Federal court, time I could get there. I also loved being in State court. I never wanted a judge to lean my way or the other way. I wanted the judge to be down the middle, and if that is the case, I thought I stood a good chance of winning the case.

We are talking about unfair advantage here in these magnet courts, these forum-shopped areas. Madison County has become the "poster child" for magnet courts. It deserves its reputation.

This is an important bill. This is a bill that makes sense. This bill does not deprive anybody of rights. This is a bill that will resolve a lot of these conflicts and problems, and it is a bill that I think will help all within the legal community to live within certain legal and moral constraints.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HATCH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HATCH. Mr. President, I ask unanimous consent that at 12:30, the Senate resume debate on the Feingold amendment, and that the time be equally divided in the usual form; provided that at 12:40, 10 minutes later, the Senate proceed to a vote in relation to the Feingold amendment, with no intervening action or debate and no amendments in order to the amendment prior to the vote. I further ask consent that following that vote, debate be equally divided between the two leaders or their designees until the hour of 3 p.m.; provided further that the time between 2:20 and 2:40 be equal-

ly divided between Senator Specter and Senator LEAHY; and that at 2:40, the final 20 minutes be reserved, with the Democratic leader in control of 10 minutes, to be followed by the majority leader for the final 10 minutes; provided further that at 3 o'clock, the Senate proceed to a vote in relation to the Durbin amendment, with no amendment in order to the amendment prior to the vote. I further ask unanimous consent that following that vote the bill be read the third time and the Senate proceed to a vote on passage of the bill, with no intervening action or debate. Finally, I ask that no other amendments be in order other than the two above-mentioned amendments.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. HATCH. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. GRAHAM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. HATCH). Without objection, it is so ordered.

Mr. GRAHAM. Mr. President, in light of the unanimous consent agreement that will bring this bill to closure, there is something I needed to get on the record. I appreciate getting a few minutes. I intend to vote for the bill. Everything the Senator said about the bill is very much true. The Senator from Utah has been working as chairman for years. The legal abuse that the Senator described is real. This bill really brings it to an end.

I found Federal court to be a fair place to try cases. The Senator is also right about the scope of class action lawsuits. They involve many people from different places throughout the country. We have a good balance in the bill of when you can be removed. Every class action is not going to go to Federal court. If the formula is right, and if it has enough national impact, Federal court will be the place to go because of the abuses described.

Those of us who practiced law for a living before we got here understand that the legal system can be reformed. I admire what the Senator from Utah and Senators Specter and Grassley have done to bring about reform. But we find ourselves in a unique political dynamic with this bill. Our friends in the House say they want it like we have it. We all agree there are amendments that could make the bill better that we would vote for, but the political moment will not allow that to happen. I regret not offering in committee the amendment I am going to speak about. I learned from my mistakes there.

One of the things we have done by federalizing certain class action lawsuits is we have taken the abuse out of the system, and we have gone to Federal court to have a more fair way of doing business when the formula is right and when there is a national impact to stop home cooking.

The reason the diversity clause exists to begin with is that when you have two people from different States, you want to pick a neutral sight. You do not want to do home cooking. Really, the whole goal of this bill is to get it in a neutral site where people can have their fair day in court. I certainly appreciate that.

But there is another component to class actions that is missing in this bill. Class actions, by their very nature, as Senator HATCH described, involve a lot of people from different places and usually a lot is at stake. Sometimes it is money. Sometimes it is a business practice that does not have a lot of economic effect on one person, but when you add up the economic effect, it is bad for the country. People are cheating. People are nickel and diming folks, getting rich at the expense of the elderly or the infirm, by taking a few dollars here, and it adds up to be a very bad situation for the country. Those type cases lend themselves to class action.

There is another group of cases that could lend themselves to class action, too. That is when products are not designed right. They are consumer cases where consumers throughout the country are affected by the particular behavior in question.

Most States have a procedure, when such cases exist affecting the public at large, where the judge is able to determine what is fair in terms of sealing documents relating to settlements. I had an amendment that was modeled after a South Carolina statute-and over 20 States have a similar statutethat says in cases where the public's interest is present, where there is a consumer case that affects the health or well-being of the community at large, settlements can be sealed, documents can be made secret to protect business interests, but only if the judge determines that the public interest is also being met.

The amendment I proposed would have received well over 50 votes in this body, and I think Senator HATCH would have been friendly to it. But I understand the effect it would have on the bill.

The current chairman, Senator SPECTER, and I will have a colloquy for the record. This is the point of my seeking recognition.

This bill will leave the Senate and go to the House in a way to solve abuse, but I think it is lacking in consumer protections. The reason I am speaking today is this colloquy for the record with Senator SPECTER recognizes the value of this amendment and a commitment on his part and the committee's part to allow this amendment to move forward at another date, another time, in another place.

The reason I am agreeing to that is enough of my colleagues who are sympathetic to the amendment do not want to vote for anything that would derail the bill. I very much appreciate that because that is the way politics is, and there is nothing wrong with that as long as we do not lose sight of the goal. And the goal is to have a balance, to take care of abuses, but at the same time protect the public needs to be protected.

What I am trying to say is I will not put my colleagues in a bad spot of having to vote down an amendment with which they agree because I do not have 50 votes. I am mature enough to know when you can win and when you cannot. Sometimes it is OK to lose. Losing is not bad as long as you feel good about what you are doing.

I do not want to offer the amendment, have colleagues vote against it, and create problems unnecessarily, but I do want my colleagues to know-and this colloquy will express this-that this bill needs to be amended and this problem needs to be addressed. We need to have a provision that is married up with the bill that is about to leave the Senate and go to the House that will allow a judge, upon motion of the parties, to determine in a situation where there is a request to keep the settlement secret and seal the documents from public review, to have a judge to determine what documents should be sealed in secret and what documents should be released to the public, balancing the needs of business and the right of the public to know what they should know about their health and their safety.

There were class action cases with the sunshine statute, about which I am talking, in effect. Without that statute, deadly lighters, exploding tires, defective drugs, toxic chemicals, and faulty automobile designs would not have been known if it were not for a procedure for the judge to release certain documents because the request was: We will give you money, but you cannot tell anybody about the underlying problem.

Sometimes that is very much unfair. I have case after case of sunshine statutes allowing the judge to determine what was in the public interest, to inform the public of deadly events, and peoples lives were saved and their health was protected.

The PRESIDING OFFICER. The Sen-

The PRESIDING OFFICER. The Senator's time has expired.

Mr. GRAHAM. Ī ask unanimous consent for 2 more minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PROTECTIVE ORDERS

Mr. GRAHAM. Mr. President, I appreciate Chairman Specter taking the time to join me in discussing a concern I have regarding S. 5, the class action bill. I am still prepared to seek a vote on my amendment, but based on my conversations with a number of senators this week, including Chairman Specter, and in a desire to see this bill pass as soon as possible, I have decided not to offer my amendment.

I agreed to support this bill some time ago because I believe we are long overdue for reform in the class action area. Over the last few years, I have worked to support this bill in both the Judiciary Committee and on the senate floor.

While I have fully supported this reform, I have also noticed some areas where the bill could be improved. I had hoped to offer an amendment on the floor regarding protective orders during discovery. I am confident that the amendment that I had hoped to introduce with Senator PRIOR of Arkansas would have made a significant improvement in the area of class action discovery.

Our amendment is very simple. It is based on the local rule in South Carolina Federal Courts for obtaining protective orders for documents. All it says is, if you want a protective order, you must make a motion at the beginning of trial, explain why it is necessary for the court to seal your documents, and provide public notice of the motion and a description of the documents that's it.

At least 20 states have taken action to limit secrecy agreements. This type of scrutiny should be extended throughout the nation, especially where we are removing parties from the protections afforded them by their States.

And let me be clear. This is not an onerous burden to place on those seeking protective orders. It is not that far a departure from the current discovery rules. We could have gone a lot further; with higher standards, a presumption against sealing, and other controversial discovery reforms. However, we are not seeking to tilt the playing field to one side or the other, just make sure some reasonable, well-thought out ground rules are applied to everyone.

My amendment creates a presumption of openness—it would require the parties in class action lawsuits to justify their requests for secrecy, followed by a medical review of the information they want the court to keep under seal.

They would have to identify the documents or information they want sealed—and most importantly the reasons why it's necessary to keep them secret.

They also would have to explain why a protective order approach is necessary and justify the request based on controlling case law.

The public would be notified of the information that was being put under seal—and a descriptive non-confidential index of the secret documents would be provided.

In the end, however, it is still up to the judge's discretion, albeit with a slightly higher standard than currently exist under the Federal rules of civil procedure.

I am doing this because I am convinced Federal Judges will come down on the side of consumer protection where it's in the public interest and come down on the side of secrecy where merited. In short, while the burden here is on any party that wants to keep

something secret, it is not an onerous task, nor impossible.

Valid trade secrets and proprietary information—sensitive—information that goes to the heart of a company being able to compete in the market place should and will be protected. There must be safeguards for businesses—they have a right to protect valid trade secrets—patents and other proprietary information. But this isn't something that can just go on automatic pilot—there has to be some judicial review and I am confident the procedures protect all the parties in a class action lawsuit.

So again, we have merely tried to find a way to balance the legitimate interests of companies, who we want to remain strong competitors in the marketplace, with the public's interest in disclosing potentially harmful products or practices.

Our amendment strikes the right balance because it raises the bar only slightly for companies to justify why they need to impose secrecy, using our courts to do so, but does not force them to open up their companies to every passerby simply because they are defending a lawsuit.

Now there are critics who warn that an amendment like this is going to create a number of problems in the judicial system, making discovery more difficult and deterring settlements.

I do not agree. Take a look at Florida, which has one of the most stringent sunshine laws. I don't think anyone can tell you Florida is a magnet for class actions. In fact, the most recent studies in the 20 States that have sunshine laws show that limiting court secrecy has not led to more litigation or curtailed the number of case that are settled.

In fact I do not believe there is any evidence that supports the proposition that more cases will go to trial and fewer settlements will be reached if some procedural safeguards are put in place.

Also, you have to remember that our amendment only applied to court-ordered secrecy. Parties would still have been free to privately agree upon secrecy between them.

In closing Mr. President, I must say I have been a bit taken aback by all the turmoil this amendment has caused. I am pretty sure we can all agree that ours was a fairly benign procedural amendment, one that serves both the public and those before our courts.

Toward that end, I very much appreciate the understanding I and Senator PRYOR have been able to reach with Chairman SPECTER regarding the substance of our amendment. The chairman has graciously agreed to assist us with this amendment in the Judiciary Committee. I thank the chairman and look forward to working with him to address this issue in the near future.

Mr. SPECTER. I appreciate Senator GRAHAM's willingness to help us move forward on this bill. He and I have agreed that, due to the procedural pos-

ture of this particular bill, we should address the substance of his amendment in committee in the future.

Mr. GRAHAM. I thank my chairman for his future assistance.

Mr. President, I say to my colleagues that they will have done a good thing by passing this bill. They will do a very good thing if we can take up this amendment at another time to make this bill more balanced because the abuses as described by Senator HATCH are real. My colleagues have worked a long time to bring about this date. They should be proud of it.

There is a way to make this bill better, and if we do not address this problem, I predict something is going to happen out there without a sunshine amendment. There is going to be a class action case involving consumer interests, and if there is no procedure for the judge to balance the public interests against business interests, we are going to shield the public from something they should know. There is no reason we cannot do both: Stop the legal abuse and help consumers. It is my pledge and my promise to work with everybody in this body to make that happen.

I yield the floor and thank the Senate for its indulgence.

The PRESIDING OFFICER. The Senator from Iowa. Without objection, the Senator is recognized on the minority time.

#### AMENDMENT NO. 12

Mr. GRASSLEY. Mr. President, I rise in opposition to Senator FEINGOLD's amendment which would add a provision to the bill requiring the Federal courts to consider remand motions in class actions within a set timetable. This amendment needs to be rejected because it is unnecessary.

There is not any evidence that the Federal courts are particularly slow in dealing with class actions, or specifically that they are slow relative to remand motions. In fact, there is evidence that the Federal courts move more quickly than State courts in considering these motions because they always consider jurisdictional issues first. Senator FEINGOLD cites three examples of delay to support his amendment, but I do not think that is enough to start placing strict time limits on court procedure. I think that Senator FEINGOLD is in search of a problem that does not really exist.

Also, the amendment could make it hard for judges to issue fair rulings in complicated class action cases because judges would be forced to make rushed decisions. This deadline may be too stringent and inflexible to deal with complex cases, where sometimes several remand motions are considered jointly in order to conserve judicial resources. These motions may require hearings, and the timeframe provided in Senator FEINGOLD's amendment may not be enough time for a court to schedule a hearing and consider all the evidence

I also understand that Federal judges who have learned of this possible time limitation on deciding these kinds of motions are concerned that it would place an unreasonable restriction on their ability to fairly decide cases. The Judicial Conference sent a letter opposing a previous iteration of Senator FEINGOLD's amendment that was more stringent that the current language. However, this amendment still puts significant time constraints on Federal judges that could prove to be too stringent.

So there just is not any evidence that there is a problem with remand motions in class action cases that requires this time limitation that Senator FEINGOLD is proposing. This is just an attempt to weaken the bill. So I urge my colleagues to reject this amendment.

The PRESIDING OFFICER (Mr. Graham of South Carolina). The Senator from Wisconsin.

Mr. FEINGOLD. Mr. President, I ask unanimous consent that I have restored the full 5 minutes I was originally given.

The PRESIDING OFFICER. The Senator has 3 seconds remaining.

Mr. FEINGOLD. I ask unanimous consent to have the 5 minutes restored. I would appreciate that, because the chairman who is handling this bill on the floor asked me to stay in committee and finish the bankruptcy hearing. I feel justified in asking for my time to be restored.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FEINGOLD. Mr. President, everyone understands that this bill will allow many more class actions to be removed from State to Federal court, but as the supporters have been proclaiming all week long, there are still class actions that belong in State court, even under this bill. Unfortunately, that may not stop defendants from removing cases that should still be in State court.

When a notice of removal is filed, the case is removed to Federal court. There is no proceeding in the State court to make sure the removal is proper. It is up to the Federal court to decide that question, but only if the plaintiffs file a motion to remand to return the case back to the State court.

The amendment I have offered is designed simply to make sure that this process of removal and remand does not become a tool for delaying cases that actually belong in State court. It requires a district court to take a look at a motion to remand within 60 days of filing and then do one of two things: Decide it, which I hope will be possible in almost all cases, or issue an order stating why a decision is not yet possible. If the court issues that order, it must then reach a decision within 180 days of filing. The parties can agree on an extension of any length.

I want to make this clear because I heard Senator GRASSLEY responding to my original argument when I came on the floor. The amendment before us actually gives the court a great deal of flexibility. It will also assure that a

motion to remand does not languish for months, or even years, before a court reviews it and says, oops, this case really should be back in State court.

As I noted last night, we have many examples of remand motions sitting unresolved for a year and then the case goes back to State court.

As the Senator from Iowa pointed out, the Judicial Conference did oppose my amendment in committee that had a strict limit of 60 days, but what I have done to try to accommodate this concern, which I believe moves in their direction, is tripled that limit in the pending amendment. I think that is eminently reasonable, as the Senator from Delaware, a strong supporter of this bill, acknowledged last night on this floor.

The bill itself provides that appeals of remand motions must be decided within 60 days. So why would there be any substantive argument against having a similar limitation at the district court level?

I heard the Senator from Utah suggesting that somehow my amendment denies due process, but I suggest that 180 days is enough time to handle any remand motion. That is time for discovery and for an evidentiary hearing. The problem is that without a deadline, the motion can sit there for a year or longer without any action.

What I am hearing from some of my colleagues who support the bill and recognize that what I am trying to do is reasonable is that they cannot upset the delicate agreement that has been reached with the House. On this one, I cannot accept that. It makes no sense to me that Senators would give up their independent judgment because of a fear of the leadership of the other body. Does anyone think, after everything this bill has been through, that the House leadership is going to refuse to pass this bill if my very reasonable amendment, simply making sure that motions to remand are decided on time, is included? Are they going to further delay this bill for this? I do not think so.

This amendment does not blow the bill up. It is not a poison pill. Everyone I have talked to says this amendment basically makes sense. So I implore my colleagues to exercise their own good judgment, accept this amendment, and persuade their colleagues on the House side and the business community, which several of my colleagues have told me privately, that this amendment makes sense.

It does not harm the bill. In fact, it makes the bill better because it means all the cases we agree on should remain in State court will actually proceed in State court without delay.

I thank the Chair for according me this additional time. I yield the floor, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to amendment No. 12.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. McCONNELL. The following Senators were necessarily absent: The Senator from New Hampshire (Mr. Sununu) and the Senator from Indiana (Mr. Lugar).

The PRESIDING OFFICER (Mr. MARTINEZ). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 37, nays 61, as follows:

### [Rollcall Vote No. 8 Leg.]

#### YEAS-37

## NOT VOTING-2

Lugar Sununu

The amendment (No. 12) was rejected. Mr. GRASSLEY. I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. Under the previous order, the time until 2:20 p.m. is equally divided between the leaders or their designees. Who yields time?

The Senator from Delaware.

Mr. CARPER. Mr. President, in an hour or two or three, we will have the opportunity to vote final passage on class action reform legislation.

The goals of this legislation are fourfold: One is to make sure when people— I say "little" people—are harmed by companies, big or small companies, that the little people have the opportunity to band together and be made whole and compensated for harm. The second goal is to make sure the companies know that if they shortchange their customers or others in our country, there will be a price to pay if they get caught. The third goal is to make sure when companies are called on the carpet and are involved in class action litigation, they are in a court, in a courthouse, with a judge, where the companies have a fair shake and the deck is not stacked against them. Finally, our goal is to make sure that, in shifting some class action litigation of a national scope with hundreds of or thousands of plaintiffs across the Nation, multimillions of dollars involved and defendants scattered across the country in different States than the plaintiffs, to make sure we move some class action litigation to Federal courts, we do not overburden the already busy Federal judiciary.

I take a moment or two today to go through and cite examples—not all of them; this is not an exhaustive list—but some of the examples we have sought to make sure in many instances that the majority of class action litigation remains in State court where it belongs.

Let me cite a couple of examples where this bill has been modified over the years to enable a majority of class action litigation cases to stay in State courts. For example, these are cases where the litigation will remain in State courts: No. 1, cases against State and State officials will remain in state court. Smaller cases will remain in State court. Cases where there are fewer than 100 plaintiffs or in which less than \$5 million is at stake, those cases are not eligible for removal from State to Federal court. Cases in which two-thirds or more of the plaintiffs are from the same State as the defendant will remain in State court. Cases in which between one-third and twothirds of the plaintiffs are from the same State as the defendant may well remain in State court. It is left to the discretion of the Federal judge to decide whether it is Federal or State based on the criteria laid out in the

Similarly, cases involving a local incident or controversy, where the people involved are local, where at least one of the significant defendants involved in the litigation is within the same State, in those instances as well, the cases can and probably should remain in State courts.

That is a handful of the examples where we make sure a lot of the class action litigation remains in State courts where it belongs.

If you go back, the first bill introduced on class action litigation goes back about 7 years, I think, to 1997. That initial bill, along with a number of bills that were introduced in subsequent Congresses, was opposed by the Federal bench. There is an arm of the Federal judiciary called the Judicial Conference of the United States. They have a couple different committees, and from time to time they are asked, and they respond with their opinion, about whether certain legislation is needed, is appropriate, as it pertains to them and the work they are doing.

The initial legislation proposed, I think, in 1997, 1998, was opposed by the Federal judiciary through their Judicial Conference of the United States. In the next Congress, again, the Federal

judiciary opposed that legislation. As the legislation has evolved, we have gone back to ask the Federal judiciary: What do you think? We know you were opposed to original versions of this bill in the late 1990s. How about this latest revision? They continued to oppose subsequent versions of the class action reform until the last Congress.

The Federal judiciary has the same concerns a lot of us have, the wholesale shifting of class action cases from the State courts to the Federal courts. Federal judges are busy, and they do not want to see an avalanche of litigation coming to them. With the adoption of a number of provisions in this legislation that comes to us today, the Judicial Conference wrote to the Senate in 2003 that, particularly given the changes Senator Feinstein proposed, their concerns about the wholesale shifting of State class action litigation to the Federal courts, for the most part, had been met and been satisfied.

They are not taking a position, saying the Senate should vote for this legislation. That is not what they are about. But the concerns they had expressed earlier, year after year after year, have been addressed.

Mr. President, I ask unanimous consent to have printed in the RECORD a letter from the Judicial Conference of the United States, dated April 25, 2003.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

JUDICIAL CONFERENCE OF THE UNITED STATES, Washington, DC, April 25, 2003.

Hon. PATRICK J. LEAHY,

Ranking Member, Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR SENATOR LEAHY: Thank you for your letters of April 9, 2003, and April 11, 2003. In those letters, you requested that the Judicial Conference provide the Senate Judiciary Committee with legislative language implementing the Judicial Conference's March 2003 recommendations on class-action litigation and the views of the Conference on S. 274, the "Class Action Fairness Act of 2003," as reported by the Senate Judiciary Committee on April 11, 2003.

As you know, at its March 18, 2003, session, the Judicial Conference adopted the following resolution:

That the Judicial Conference recognize that the use of minimal diversity of citizenship may be appropriate to the maintenance of significant multi-state class action litigation in the federal courts, while continuing to oppose class action legislation that contains jurisdictional provisions that are similar to those in the bills introduced in the 106th and 107th Congresses. If Congress determines that certain class actions should be brought within the original and removal jurisdiction of the federal courts on the basis of minimal diversity of citizenship and an aggregation of claims, Congress should be encouraged to include sufficient limitations and threshold requirements so that the federal courts are not unduly burdened and states' jurisdiction over in-state class actions is left undisturbed, such as by employing provisions to raise the jurisdictional threshold and to fashion exceptions to such jurisdiction that would preserve a role for the state courts in the handling of in-state class actions. Such exceptions for in-state class actions may appropriately include such factors as whether substantially all members of the class are citizens of a single state, the relationship of the defendants to the forum state, or whether the claims arise from death, personal injury, or physical property damage within the state. Further, the Conference should continue to explore additional approaches to the consolidation and coordination of overlapping or duplicative class actions that do not unduly intrude or state courts or burden federal courts.

S. 274, as reported by the Senate Judiciary Committee, generally provides for federal jurisdiction of a class action based on minimal diversity of citizenship if the matter in controversy exceeds the sum of \$5 million, exclusive of interest and costs. (S. 274 as introduced established a \$2 million minimum amount in controversy.) The bill also now permits a federal district court, in the interests of justice, to decline to exercise jurisdiction over a class action in which greater than one-third but less than two-thirds of the members of all proposed plaintiff classes in the aggregate and the primary defendants are citizens of the state in which the action was originally filed. The court would be required to consider five specified factors when exercising this discretion. (This discretionary provision was not included in the bill as introduced.)
In addition, S. 274 as reported provides

that the federal district courts shall not have original jurisdiction over any class action in which: (A) two-thirds or more of the members of all proposed plaintiff classes in the aggregate and the primary defendants are citizens of the state in which the action was originally filed: (B) the primary defendants are states, state officials, or other governmental entities against whom the district court may be foreclosed from ordering relief: or (C) the number of members of all proposed plaintiff classes in the aggregate is less than one hundred. As introduced, the second and third exceptions were the same, but the first one originally precluded federal jurisdiction where "the substantial majority of the members of the proposed plaintiff class and the primary defendants are citizens of the State in which the action was originally filed" and "the claims asserted therein will be governed primarily by the laws of that state. The replacement language in essence substitutes a numerical ratio for "substantial majority" and eliminates the choice-of-law requirement.

We are grateful that Congress is working to resolve the serious problems generated by overlapping and competing class actions. The Judicial Conference "recognizes that the use of minimal diversity of citizenship may be appropriate to the maintenance of significant multi-state class action litigation in the federal courts." At the same time, the Judicial Conference does not support the removal of all state law class actions into federal court. Appropriate legislation should "include sufficient limitations and threshold requirements so that federal courts are not unduly burdened and states' jurisdiction over in-state class actions is left undisturbed." Finding the right balance between these objectives and articulating that balance in legislative language implicate important policy choices.

Any minimal-diversity bill will result in certain cases being litigated in federal court that would not previously have been subject to federal jurisdiction. The effects of this transfer should be assessed in determining the appropriateness of various limitations on the availability of minimal diversity jurisdiction.

Certain kinds of cases would seem to be inherently "state-court" cases—cases in which a particular state's interest in the litigation is so substantial that federal court jurisdic-

tion ought not be available. At the same time, significant multi-state class actions would seem to be appropriate candidates for removal to federal court.

The Judicial Conference's resolution deliberately avoided specific legislative language. out of deference to Congress's judgment and the political process. These issues implicate fundamental interests and relationships that are political in nature and are peculiarly within Congress's province. Notwithstanding this general view, we can, however, confirm that the Conference has no objection to proposals: (1) to increase the threshold jurisdictional amount in controversy for federal minimal diversity jurisdiction; (2) to increase the number of all proposed plaintiff class members required for maintenance of a federal minimal-diversity class action; and (3) to confer upon the assigned district judge the discretion to decline to exercise jurisdiction over a minimal-diversity federal class action if whatever criteria imposed by the statute are satisfied. Finally, the Conference continues to encourage Congress to ensure that any legislation that is crafted does not "unduly intrude on state courts or burden federal courts.

We thank you for your efforts in this most complex area of jurisdiction and public policy.

Sincerely,

LEONIDAS RALPH MERCHAM,
Secretary.

Mr. CARPER. We are going to vote on final passage in an hour or two. I think Senator DURBIN is going to come to the floor. He may ask for a vote on his amendment. I am not sure he will. He cares deeply, passionately about these issues and has sought to try to make sure that we end up not making bad, unwise public policy decisions. My guess is, he is not going to come to the floor and urge us to vote for the bill or say he is going to vote for it. I know he has serious misgivings about this legislation. But he has worked constructively, as have people on our side and the Republican side, to get us to this point in time.

Senator REID of Nevada is our new leader on the Democratic side. He is not on the floor, but I express to him and my colleagues, if he is listening, my heartfelt thanks for working with the Republican leadership and those on our side who support this legislation, to enable us to have this opportunity to debate it fairly and openly, allowing people who like it, people who do not like it, those who wanted to offer amendments, those who did not want to offer amendments, to have a chance for the regular order to take place, to debate the issues and vote, and then to move on

I do not know if this legislation, the way we have taken it up and debated it, can serve as a template or example to use in addressing other difficult issues—energy policy, asbestos litigation, a variety of other issues—but it might. Because in this case, Democratic and Republican leaders have worked together, have urged us, the rank and file in the Senate, to work together.

Each of the folks in the private sector—people who have an interest in this bill, not only the business side, but the plaintiffs' lawyers side, and other

interested parties, labor, and so forth, consumer groups—I think everybody has acted in good faith to get us to this point in time.

Whether you like the bill, I urge my Democratic colleagues, if you are on the edge and not sure which way to go—you may have voted for all these amendments, and you are not sure how to vote on final passage of the bill—I urge you to vote for this bill.

I do not know if it is possible to have a big margin. I would love to have 70 votes, 75 votes for this bill. I hope we can do that.

Let me close, if I can, by saying, whether you are for the bill or against it, for the amendments or against them, I hope there is one thing we can all agree upon. I will bring to mind the words of one of our colleagues, a legendary trial lawyer from Illinois, who has gone on to be elected and serves with us in the Senate. I will close my comments with his admonition. That admonition is the old Latin phrase: semper ubi sub ubi. Whether you like the bill, I think we can all agree on that admonition today.

With that having been said, I yield back my time and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARPER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARPER. Mr. President, I ask unanimous consent that again we go into a quorum call, but that the time be equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARPER. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SESSIONS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. ALEXANDER). Without objection, it is so ordered.

Mr. SESSIONS. Mr. President, this week's debate is the culmination of more than 6 years of work in the Senate on a very important piece of legislation, reform that is needed in the U.S. legal system—class action reform.

I practiced law for most of my adult life and have litigated in a number of different forums. I believe in our legal system. It is critical for America's economic vitality and our liberty to have a good legal system. There is no doubt in my mind that the strength of this American democracy, the power of our economy, and our ability to maintain freedom and progress are directly dependent on our commitment to the rule of law and a superb legal system, and we can make it better.

To keep our system strong, we in this Congress have to meet our responsibility to pass laws that improve litigation in America. Our court system must produce effective results that further our national policy, correct wrongs, punish wrongdoers, and generate compensation for those who suffer losses in a fair and objective way. We, therefore, as a Congress must periodically review what is happening in our courts and make adjustments if they are needed. That is what we are here for.

This class action fairness bill, S. 5, seeks to make the adjustments we currently need, in my opinion. It will guarantee that the plaintiffs in a class action, the people who have been actually harmed and have a right to be compensated, are the actual beneficiaries of the class action and not just their attorneys and not sometimes the defendants who benefit by being able to get rid of a bunch of potential litigation by settleing the case and paying less to the plaintiffs than the case is really worth.

The Class Action Fairness Act will not move "all class actions" to Federal Court or "shut the doors to the courthouse" as some have claimed—rather it will provide fairness for the class action parties by allowing a class action to be removed from a State court where it has been filed to a Federal court when the aggregate amount in question exceeds \$5 million and the home State plaintiffs make up two-thirds or less of the plaintiff class.

The Act contains a bill of rights for class action plaintiffs to ensure that coupon settlements or net loss awards receive special scrutiny. We have had some real problems with those. The stories are painful to recite by those of us who believe in a good legal system.

Furthermore, the Class Action Fairness Act will provide notice to public officials of proposed settlements—I was an attorney general, and I know that notice is given to the proper official in a State so that public officials can react if the settlement appears to be unfair to some or all of the class members.

The Class Action Fairness Act has been through the proper charnels in the Senate. The Act has been through the Judiciary Committee not just once but twice. The bill originally passed out of the Judiciary Committee by a 12 to 7 vote over a year ago in June of 2003. It was a bipartisan vote. Since then, it has gone through two substantive negotiations, each bringing on more Senators to support the bill. Just last week, we again passed a bill out of the Judiciary Committee, this time with an even stronger vote of 13 to 5. Today, we expect that more than 70 Senators will support it. The bill is a responsible, restrained bill that will curb class action abuses and further productive class action litigation.

The concept of class actions is a good one. Class actions can be extraordinarily effective tools in helping us deal with legal problems confronting America. Sometimes error or negligence is committed by more than one defendant which harms multiple litigants. In such cases, the number of cases filed can quickly become unmanageable if separate individual lawsuits are required by each person who suffered the harm. One hundred thousand individual lawsuits would not be appropriate when one case could settle the issue for all involved.

Anyone looking closely at our legal system today knows that we have a number of problems to address. One of the main problems is how much the system costs the average American. Americans pay these costs primarily through increased insurance premiums. They also pay it in increased costs for our indicious.

our judiciary.
The 2004 Tillinghast study on the cost of U.S. tort systems found that the U.S. tort system—a tort is a lawsuit or an act that has wronged or injured someone—cost \$246 billion in 2003. That is \$845 per person. That is a significant number. It is worthy of repeating. The tort system cost \$246 billion at an average cost per American citizen of \$845. That is an average of \$70 a month out of somebody's livelihood. Now, \$246 billion is equivalent to 2 percent of GDP, gross domestic product. That is a stunning number. By 2006, the study estimates that the U.S. tort system will cost over \$1,000 per person.

Most Americans would be surprised to know that the 2003 version of the Tillinghast study found that the U.S. tort system returned less than 50 cents on the dollar to the people it is designed to help—the plaintiffs—and only 22 cents on the dollar to compensate for actual economic loss. Who, then, would appear to be making the money out of our current tort system? An earlier Tillinghast study reported that the income of litigation attorneys, trial lawyers, in 2001 was \$39 billion. That same year Microsoft made only \$26 billion, and Coca-Cola, \$17 billion.

As a Washington Post editorial has noted: No portion of the American civil justice system is more of a mess than the world of class action.

There are a number of problems with the class action system currently making up the mess The Washington Post referred to.

The number of class actions pending in State courts, many of them nation-wide, increased 1,042 percent from 1988 to 1998, while the number pending in Federal courts increased only 338 percent during that same period.

State courts are being overwhelmed by class actions. A number of State courts lack the necessary resources to supervise the class or the proposed settlements affected. Many State judges do not have even one law clerk, and most of the class actions involve citizens from a number of different States, requiring the application of multiple State laws. Some times a state court dockets becomes jammed while the judge researches out-of-State law to get up to speed.

Some say it is a burden on the Federal courts, but Federal judges have on their docket a fraction of the cases of most State court judges in America. Some cases are complex, but that is the nature of Federal court cases for the most part. They have at least two law clerks. The occupant of the chair, Senator ALEXANDER, clerked for Federal judges. District court judges all have at least two clerks, and appellate Federal judges have three or more. Some of them have their clerical support become on staff lawyers and then they really end up with three clerks. At any rate, they have a greater ability to give the time and attention to a major interstate class action involving over \$5 million and maybe thousands of plaintiffs than an average circuit judge in a State court system in America. I do not think that can be disputed.

The class action settlement process is problematic because many of the class members have no part in shaping the settlement agreement. In fact, many of the members of the class have no knowledge they have even been involved in a lawsuit or one has been filed on their behalf, leading to an abuse of the settlement process. In this scenario, plaintiffs' attorneys can find themselves in a position where their lovalty is not to these class members. It creates an unhealthy situation. For example, a plaintiffs' lawyer does not know the 1.000 or 10.000 members of his class. He is talking regularly with the defendant's company, and they say: Let us settle this case.

The plaintiffs' lawyer says: We would like to settle this case

They say: What will it take? He says: The plaintiffs want \$50 million to settle it.

They say: Well, that is too much. Look, why do we not give you \$10,000 in coupons for all of your victims and we will give you \$10 million or \$20 million in legal fees?

Now, most lawyers handle themselves well, but that plaintiffs lawyer now finds themselves in an ethical dilemma. His oath as a lawyer says that he or she should defend the interests of the client, get the most money for their client, but the defendant is dangling out a personally large fee in exchange for a settlement to end the litigation. We have had that happen, frankly, and we have seen that too often. Too often, the attorneys are the ones who received the big fees, and the named plaintiffs, the victims, have gotten very little. It is appropriate, then, that we in this Congress examine this difficulty in our legal system and tighten it up so we have less of that

Many class actions appear to be filed solely for the purpose of forcing a settlement, not the protection of an interest of a class, and that has been referred to in debate frequently as "judicial blackmail." Rather than losing a public relations battle, going through court for several years, the defendants often feel they have to settle these cases even if they are frivolous so they do not risk the cost of litigation and the embarrassment and difficulty of explaining some complex transaction.

There are several other problems. One is forum shopping, and another is settlements detrimental for class members.

Forum shopping occurs when the attorney sets out to try to find the best place to file the class action lawsuit. You could have a case involving an attorney from New York with California plaintiffs filing a class action lawsuit in Mobile, AL. Where can national class action lawsuits be filed today? Amazingly, the answer is in almost any venue, any court, county, circuit court in America. A plaintiff can search this country all over and select the single most favorable venue in America for filing their lawsuit—that is, if it is a broad-based class action that covers victims in every state and county in America, and some of them do. Some may just cover a region or half the counties in America or involve 10 percent of the States. At any rate, they are able to search within that area for the most favorable venue.

I believe that is not healthy. A report issued this year by the American Tort Reform Association about the abuse of this choice named the various counties around the country as "judicial hellholes." The study pointed to the large number of frivolous class actions found in counties it named, citing judicial cultures that ignore basic due process and legal protections and efforts by the county's judges to intimidate proponents of tort reform.

By bringing their suits in one of these areas, plaintiffs' attorneys can defeat diversity by naming a single defendant and a single plaintiff who have citizenship in the same State, thus preventing a Federal court from hearing the case and allowing a State court in a single county to bind people all over the country under that one State or county's laws.

Let me read what the Constitution says about diversity:

The judicial Power of the United States shall extend to all Cases, in law and equity, arising under this Constitution, the Laws of the United States . . . to Controversies which the United States shall be a party;— Controversies between two or more States. between a State and a Citizen of another State:—between Citizens of different States.

Our Founding Fathers thought about this issue, and they concluded that, if a person from Alabama wanted to sue a person from Illinois, the person in Illinois might not be comfortable being sued in an Alabama state court. They might think that might not be a favorable forum. There might be "home cooking" for the Alabama citizen there. So they said those cases ought to be in Federal court.

As history developed, pretty early in our process it was concluded that diversity required complete diversity; that is, if one plaintiff and one of a host of potential defendants was a local

defendant, then that could be kept in State court.

I am not disputing that. All I am saying is I believe the Founding Fathers would have believed that a lawsuit that is predominantly intrastate in nature, involving the real defendant, should be in Federal court.

So what happens is if you sue a drug company and you want to keep it in State court, you sue the lady in small town Mississippi who sells the prescription at her store—she is a local defendant, whereas the person who is going to be paying the judgment is out of State. If the drug company had been sued directly, it would have been in Federal court, but by suing one local State defendant along with the big-money deeppocket in New York, that is not the case.

The PRESIDING OFFICER. The time controlled by the majority has expired.

Mr. SESSIONS. Mr. President, I thank the Chair. I will conclude by saying there are a lot of reasons we ought to support this bill. It has been thought out very carefully. A lot of work has gone into it over a number of years. We are in a position to pass good legislation at this time.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, I would like to spend a few minutes to discuss my amendment No. 3, which is pending at this time, and then ask that it be withdrawn. This is the amendment I had offered on Tuesday to clarify the scope of the "mass action" provision in Section 4(a) of the bill.

As I had explained earlier this week, this provision requires that mass actions be treated the same as class actions under this bill, and therefore taken out of State courts and removed to Federal courts. But it was still unclear to me-and to many of the injured people who will be affected by this bill—what precisely the drafters had in mind in coming up with this "mass action" language in the bill.

When I last took the floor, I had raised some questions about the differences between "mass actions" and "mass torts." and whether mass torts would be ,I affected by the language in S. 5. I heard from proponents of this bill that these are two very different types of cases, and that the bill is designed to affect only mass actions and not mass torts.

In fact, Senator Lott of Mississippi the other day explained on the floor that:

Mass torts and mass actions are not the same. The phrase "mass torts" refers to a situation in which many persons are injured by the same underlying cause, such as a single explosion, a series of event, or exposure to a particular product. In contrast, the phrase "mass action" refers to a specific type of lawsuit in which a large number of plaintiffs seek to have all their claims adjudicated in one combined trial. Mass actions are basically disguised class actions.

I am glad that the proponents of this bill agree with me that there is a very

significant difference between these two types of cases. Mass torts are large scale personal injury cases that result from accidents, environmental disasters, or dangerous drugs that are widely sold.

Cases like Vioxx that I described earlier, and cases arising from asbestos exposure, are examples of mass torts. These personal injury claims are usually based on State laws, and almost every State has well established rules of procedure to allow their State courts to customize the needs of their litigants in these complex cases.

Senator Lott also explained on the floor that:

There are a few States, like my State—I think, and West Virginia is another one and there may be some others—which do not provide a class action device. In those States, plaintiffs' lawyers often bring together hundreds, sometimes thousands of plaintiffs, to try their claims jointly without having to meet the class action requirements. And often the claims of the multiple plaintiffs have little to do with each other.

So, it seems to me that the authors of this bill are trying to include only these so-called mass actions and not mass torts.

And I understand from the statements made by Senator LOTT, the U.S. Chamber of Commerce, and many other proponents of the bill, that these so-called mass actions are currently filed only in Mississippi and West Virginia. In other words, this provision of S. 5 will have no impact on mass torts cases filed in the other 48 States.

That is good news because I would hate to see this bill—which already turns the idea of federalism on its head—preempt any more State rules and procedures than it already does with the diversity provisions.

I agree with the proponents that the scope of this language is limited.

It is my understanding from conversations with my colleagues who support this bill that a mass action, as used in this section of the bill, is simply a procedural device designed to aggregate for trial numerous claims. If that is the case, I believe my amendment would not be necessary.

I had offered my amendment as a good faith effort to keep mass tort cases from being impacted negatively by this provision. But if the language affects only a narrow set of procedural devices in a limited number of States, then I believe that is consistent with what I had attempted to achieve with my amendment.

Accordingly, I ask unanimous consent that my amendment, Amendment No. 3, be withdrawn.

The PRESIDING OFFICER. Is there objection to the request of the Senator to withdraw the amendment? Without objection, it is so ordered.

Mr. DURBIN. Mr. President, I would also like to talk about the bill generally.

Why are we even debating a question about whether a lawsuit can be filed in a State court or a Federal court? If you can file a lawsuit, you are supposed to have your day in court. But it is not that simple.

The reason why the business lobbies have spent millions of dollars in Washington pushing for this bill, the reason why this bill is the highest priority of the Bush administration and the Republican leadership in Congress, is because of one simple fact: Class action cases removed from State courts to Federal courts are less likely to go forward to be tried, they are less likely to reach a verdict where someone wins or loses, and if there is a decision on behalf of the plaintiffs, they are less likely to pay a reasonable amount of money in Federal court than in State court.

What I say to you is not idle speculation: it is based on Federal court decisions. That is why the business community has worked so long and so hard to remove the rights of consumers and citizens to sue in their own State courts. Rather, they want them removed to Federal courts where they have a better chance to win. The businesses know they can win more class action cases in Federal courts than they could ever win in State courts. That is what this whole debate is about. So you hear all of this talk about whether class action suits are filed here, whether they are filed there-frankly, many of these discussions overlook what these class action lawsuits are all about.

I had my staff compile some information on some of these lawsuits because people tell me: I don't understand what is a class action. I can understand if I am in an automobile accident, I get hurt, and I sue the person who ran into me. Is this what we are talking about? That probably wouldn't be a class action.

Let me give you some examples of real class action lawsuits. These cases will be more difficult to file and more difficult to be successful because the business interests are going to pass this bill.

U.S. postal workers given Cipro after the anthrax attacks in 2001 found out there were many damages that came from the drug, and the postal workers came together as a group to sue the company that made Cipro. This is a class action lawsuit.

Then we had a group of people in Rhode Island who were harmed because they were exposed to lead in paint. They sued, as a class, the manufacturers of lead paint that caused the damage to them physically. But because the manufacturers are not based in Rhode Island, this class action might be removed to a Federal court under this bill.

Then there was a court in Illinois in a class action lawsuit in one of the counties the proponents of this bill like to rail about. It was against Ford Motor Company because they were selling Ford Crown Victoria vehicles to police departments alleging they were better cars for police use. It turned out they had a defective fuel tank that

made them dangerous for policemen. So, all of the police departments that bought these cars sued Ford Motor Company as a class because of a defective product. But because Ford Motors is based in Michigan, the Illinois police officers might have to litigate this case in a Federal court.

Here is another one against Foodmaker, which ran Jack-in-the-Box restaurants. It turned out thousands of their patrons were subjected to food contamination and serious illness. The patrons sued as a class. Why? Because any individual might say: I took my child to Jack-in-the-Box, my child became sick and went to the hospital, and was there for two days. The medical bills came to \$1,500. But I can't file a lawsuit against the restaurant for \$1.500.

Then, the parent finds out that the same thing happened to hundreds of other kids, so all the parents come together and say: Jack-in-the-Box, you should have done a better job. And this class of plaintiffs went forward in a State court. But they would have less of a chance for success under this bill. That is what it is about.

A suit was brought by mothers and fathers when they discovered that Beech-Nut was selling apple juice for infants that turned out to be nothing but sugar water.

What is the damage to an individual infant, or a single family? How do you measure it? If a company sold millions of bottles of this defective product, shouldn't that company be held accountable?

That is what this debate is all about. It is about accountability for those who cause harm to the public. The businesses that are responsible for environmental contamination, for producing dangerous products that cause injuries, for manufacturing items that shouldn't be sold, or for overcharging customers, should be held liable.

But these business interests come to Congress for help, and they are going to win today. As a result of this victory, fewer consumers and fewer families are going to have a chance to succeed in court.

The Government closes down the agencies to protect you, Congress will not pass the laws to protect you, and now this Senate will pass a law to close the courthouse doors in your States when you want to come together as a group and ask for justice. This is the highest priority of the Bush administration: closing that courthouse door, making sure these families and these individuals don't have a fighting chance.

I think there are a lot of other priorities we should consider, such as the cost of health care in America. We will not even talk about that issue on the Senate floor, let alone discuss bipartisan options for addressing that pressing problem.

This so-called Class Action Fairness Act may pass today, but the ultimate losers are going to be families across America who are hoping that Congress will at least consider their best interests in the very first piece of legislation that we consider.

I yield the floor.

Mr. LEVIN. Mr. President, I will vote against the Class Action Fairness Act of 2005 because, although this bill is an improvement over previous versions, it still has significant deficiencies that would have been corrected by a number of common sense amendments that were not adopted.

For example, forty seven attorneys general, including the attorney general of Michigan, expressed concern that this legislation could limit their powers to investigate and bring actions in their State courts against defendants who have caused harm to their citizens. The attorneys general supported an amendment offered by Senator PRYOR that would have exempted all actions brought by State Attorneys General from the provisions of S. 5 stating, "It is important to all of our constituents, but especially to the poor, elderly and disabled, that the provisions of the act not be misconstrued and that we maintain the enforcement authority needed to protect them from illegal practices.' Prvor amendment was defeated.

Federal courts generally do not certify class actions if laws of many states are involved. However, this legislation would force nationwide class actions into Federal courts where they would likely be dismissed for involving too many state laws. This would deprive the plaintiffs from the opportunity to have their case heard. An amendment sponsored by Senator Feinstein, a cosponsor of this legislation, and Senator BINGAMAN would have fixed this problem by prohibiting the district court from denying class certification in whole or in part on the ground that the law of more than one State will be applied. However, that amendment failed.

Senator FEINGOLD offered an amendment that would have set a time limit for a district court to assume jurisdiction or rule on a remand motion to State court. The amendment, which failed, would have provided protection for plaintiffs against attempts to remove cases to Federal court merely to delay the outcome.

We do need class action reform, however this bill fails to adequately protect the rights of our citizens and therefore I cannot support it.

Mr. SCHUMER. Mr. President, I rise today to express my support for S. 5, the Class Action Fairness Act, and to explain why I supported the amendment proposed by my friend from California, Senator Feinstein, for herself and on behalf of my friend from New Mexico, Senator BINGAMAN.

I support the class action legislation before us today. Certain lawsuits have become a concern to many Americans. Many lawsuits have been filed in local State courts that have no connection to the plaintiff, the defendant, or the conduct at issue. This allows forum

shopping, which undercuts the basic fairness of our justice system.

Having said that, I am not one of those who think access to the courts should be unduly blocked. Our citizens' use of the courts has led to many reforms in the protection of civil rights and the environment, and has held corporate malefactors accountable for improper conduct that has cost victims billions of dollars. Often for those without power, a lawsuit is the only avenue for redress. We need lawsuits, but the rules governing them should be fair.

As we have heard yesterday and today, courts in some places have become magnets for all kinds of lawsuits. Some of these lawsuits are meritorious; some are not. In either scenario, if the case affects the Nation as a whole, it should be heard in Federal court. Judges in small counties should not make law for all of America. Although those judges might make good law, there is a real risk that parochial concerns would dominate in that type of decision. That is not to say that there are not judges in the Federal courts who do not have extreme views on both sides of the issues, much as we try not to confirm judges who fall out of the mainstream.

Consequently, we need to rein in forum shopping. When consumers allege that a product sold nationwide to consumers in all 50 States is defective, a Federal court should decide that case.

It is for these reasons that I joined with my colleagues, the Senator from Connecticut, Mr. Dodd, and the Senator from Louisiana, Ms. Landrieu, to help craft the compromise that led to the bill before us.

The spirit of the compromise we reached would not create a new mechanism to dismiss class actions, but instead would remove the large and national class actions to the Federal courts.

But when Senators Dodd, Landrieu, Carper, Kohl, and I, all of whom have worked so long and hard on this bill, met with the majority leader and others 2 years ago, we made perfectly clear the right of the minority to offer amendments. That right remains an essential part of my participation in the compromIse.

Although we worked hard to improve the bill, we wanted to make sure that our colleagues had the opportunity to offer amendments because no bill is perfect.

One area where the bill could be improved stems from a real concern that many of the consumer class actions removed to Federal court might not be certified on the grounds that there would be too many non-common issues due to differences among State laws that would apply to different members of the national class. To date, at least 26 Federal district courts have refused to certify class actions on those grounds.

Some of us believed that not certifying could have resulted in a problem

because it would effectively mean the weakening, if not the disappearance, of the class members' ability to get remedies, particularly with the changes made to current law by this bill. Not certifying could also create a practical problem for lawyers, who have the opportunity to try their class action before one court, and post-decertification might have to re-plead and try several class actions in several courts, thereby destroying the sought-after efficiency of class actions and creating the risk that the results would not be uniform.

This was not the desired outcome of our compromise: We intended to send national class actions to Federal court, not to their graves.

The amendment that my friend from California, Senator FEINSTEIN, and my friend from New Mexico, Senator BINGAMAN, introduced would not only have improved the bill, but would have also furthered the spirit of the compromise by clarifying our intention that the bill remove, but preserve class actions, even when Federal judges face choice of law issues.

Importantly, this amendment would not have aided forum-shopping plaintiffs' lawyers. Instead, it would have clarified options for a Federal judge facing a choice of law question. That clarification would have helped to grind to a halt the class action merrygo-round between the State and Federal courts. I hope that Federal judges view this bill, even without the amendment, as a vehicle that was intended to bring national class actions to the Nation's courts and not as a vehicle to balk at certification. The use of subclasses to protect people's rights under their State laws is now in the hands of Federal judges. They have the tools to protect those rights. This bill was not intended to destroy them.

That view will protect an important instrument of deterrence against future wrongdoing and an important adjunct to regulators in the enforcement of laws protecting our citizens.

Mr. ENZI. Mr. President, today I rise in support of S. 5, the Class Action Fairness Act of 2005. The class action system in our country is broken. Over the past decade, class action lawsuits have grown by over 1,000 percent nationwide. This extraordinary increase has created a system that produces hasty claims that are often unjust. Lawsuits that have plaintiffs and defendants from multiple States are tried in small State courts with known biases. This leads to irrationally large verdicts that make little sense legally or practically.

The U.S. Constitution gives jurisdiction to the Federal Government when cases involve citizens of differing states. It makes sense, that, in a case involving plaintiffs from Wyoming and Alabama and defendants from New York and Idaho, that no party be given the inevitable "home-court" advantage that comes when a case is tried in your backyard. Regrettably, for years, Congress has required all plaintiffs to be

diverse from all defendants. In large class action lawsuits, with plaintiffs or defendants from states throughout the Nation, it is increasingly difficult for this requirement of complete diversity to be met.

In the system we have created, we see lawyers seeking out victims instead of victims seeking out lawyers. We see lawsuits being adjudicated in a select few courts with proven track records for delivering large verdicts instead of lawsuits being tried in courts with the most appropriate jurisdiction.

S. 5 is a step in the right direction. It eliminates the lottery-like aspect of civil liability that individuals now face by moving interstate cases to the federal level. If passed, S. 5 makes it so that class action cases involving citizens from Wyoming, Utah, Kansas and Texas will not be adjudicated at a courthouse in Madison County. Illinois. In the same vein, it ensures that cases involving folks from Illinois, Arkansas, and Mississippi are not decided in a State court in Wyoming. These are interstate cases and should decided without a home state bias that can exist in some State courts.

When the Founding Fathers drafted the Constitution and its provisions regarding the filing of interstate cases. they could never have imagined that our court system would be used someday to engage almost every sector of the U.S. economy in just three counties. That statistic should be a wake up call that something is dreadfully wrong and that the system is not working as the designers intended. By placing cases in Federal court, we avoid the forum shopping that has become so commonplace over the past few decades. S. 5 gives the defendants in a lawsuit a chance to have their day in an impartial court.

While State courts undoubtedly have their place, and in many instances operate more effectively than Federal courts, a select few have become notorious for delivering outrageous verdicts. Consequently, many of our most costly class action lawsuits end up in these courts. This should not be the case.

S. 5 will not only benefit the defendants, it will also make the system more fair for the plaintiffs. Weak oversight of class action lawsuits has created a system that returns less than 50 cents on the dollar to plaintiffs in a case. Compensation, when compared to actual economic loss, is approximately 22 cents per dollar. Settlement notifications are often times so confusing that plaintiffs do not understand what they are receiving. Plaintiffs are signing off on agreements they do not even understand, with even less understanding about how to challenge the settlement. They are getting a raw

I am pleased that the Class Action Fairness Act addresses this problem by including a "Consumer Class Action Bill of Rights." The "Bill of Rights" includes a provision requiring the Federal court to hold a hearing and find that a settlement is fair before it can be approved. It includes provisions that make more fair what have become known as "coupon settlements," in which the attorneys receive real money and the victims receive the equivalent of a Sunday newspaper clipping.

S. 5 works to reign in the only people who covertly benefit from the way the class action system works today, a select group of defense attorneys who seem more interested in profits than process. These lawyers are more concerned with reaching a settlement than helping their victims. They push for quick class certification, and once they have crossed that hurdle, they push for a quick settlement by threatening the defendants with large monetary verdicts that have come about in past cases.

In the face of these ridiculous verdicts, defendants settle quickly. They know the stars are lined up against them if the case goes all the way to trial and often times, by agreeing to coupon settlements, the defendants pay only a fraction of the stated damages. The Class Action Fairness Act takes steps to change this practice. It takes steps to ensure that when a settlement is reached, the lawyers and the defendants do not come out ahead when the victims come out behind.

Is S. 5 perfect? Absolutely not. It does not require that individuals opt-in to class action lawsuits. It does not require sanctions be brought against attorneys who file frivolous lawsuits over and over again. There are a number of provisions that I believe should be included in the bill that did not make the cut.

But S. 5 is the true example of a bipartisan compromise. S. 5 takes into account the wants of the various parties. It took a lot of give and take to get to this point, and now, we have a bill that does some good. We have a bill that takes a first step toward reforming our court system to make it more fair for both the plaintiffs and the defendants.

I look forward to voting in favor of the Class Action Fairness Act later today, and I will encourage all my colleagues to do the same.

Mr. KOHL. Mr. President, I rise today on the final day of debate on the class action reform bill to say a final word in support of the legislation. We have worked for many years on this bill through numerous hearings, committee markups and repeated floor consideration. We can proudly say that we are about to succeed in passing modest, yet important changes to the class action process. Consumers and businesses across the country will benefit and not a single case with merit will go unheard.

Today is the culmination of many years of our bipartisan efforts on this issue as we have attempted to make the class action system fairer for both consumers and businesses alike. Our success once again demonstrates that

the Congress works best when we work together. I am most proud that we were able to construct a bipartisan core of supporters to pass this bill.

While this bill does not solve all of the problems in the system, consumers will never again need to worry about being injured and receiving worthless coupons as damages. Businesses will never again need to fear being sued in a small county court where the rules are stacked against them. Most importantly, under our bill every claim with merit will still go forward and the court house doors will always be open.

It is a well-known saying that success has many fathers, so many will deserve thanks for their work leading to the passage of this bill today. I would like to mention a few people specifically who have been indispensable to the passage of this legislation. Senator GRASSLEY and I have worked on this bill for 7 years now. He has been a good partner and leader. He deserves tremendous credit for his willingness to accept bipartisan compromises in an effort to get this bill done.

Senators CARPER and HATCH also deserve praise for the tremendous energy that they have brought to this bill over the past two Congresses. Without them, class action reform certainly would not have made it to the verge of passage today.

In addition, Senators Dodd, Feinstein, Schumer and Landrieu contributed significantly in this process by making important changes to the bill. They were successful in identifying ways to ensure that primarily State cases stayed in state court and only truly national cases could be removed to the Federal courts. This has been our goal all along. With their assistance we have accomplished it.

I would be remiss if I did not thank the many very fine staffers whose work often goes unheralded. This bill addresses a very technical and difficult area of the law, so their contribution to this bill was truly indispensable. All of the following were essential to the final passage of this bill: Rita Lari with Senator GRASSLEY; Jonathon Jones. Sheila Murphy and John Kilvington with Senator CARPER; David Hantman with Senator Feinstein: Jeff Berman with Senator SCHUMER; Shawn Maher with Senator DODD; and Harold Kim with Senator HATCH.

Finally, Paul Bock and Jeff Miller, my chief of staff and chief counsel respectively, deserve significant credit for the passage of this bill. They have worked tirelessly on this legislation for several years and have provided wise counsel during the long and difficult negotiations on this legislation. With their assistance, we succeeded in crafting a moderate bill that will help business and consumers alike. For that, we should all be proud.

Mr. ALLEN. Mr. President, I rise today in support of the Class Action Fairness Act.

This legislation we are considering today is crucial to ensuring that there is fairness in our courtrooms, that claimants receive the judicial consideration they deserve, and that the American economy and small businesses are able to stay competitive.

This class action reform legislation is primarily designed to allow defendants to move a class action lawsuit from State court to Federal court when there is diversity or citizens from different States involved in the litigation. This concept is as old as our Republic. No one will be denied access to the courts. It is simply allowing most litigants to find the most appropriate court to decide the case. In significant cases with diversity, the Federal courts are the proper choice.

We have heard about cases where lawyers shop around to find courts in particular counties that have a proven track record of being sympathetic to class action lawsuits with absurdly large judgments. When justice arbitrarily hinges on what county in which a case is tried, that is not fair.

A recent study found that 89 percent of Americans believe the legal system is in need of reform. The statistics are indeed alarming: Over the past decade, the number of class action lawsuits has increased by over 1,000 percent nationwide. And the cost of the U.S. tort system has increased one hundred fold over the last 50 years. Lloyd's of London estimates that the tort system cost \$205 billion in 2001, or \$721 per U.S. citizen. Most importantly, Lloyd's estimates this number to rise to \$298 billion by this year. At current levels, U.S. tort costs are equivalent to a five percent tax on wages.

The implications of an abused tort system on the American economy are of legitimate concern. While there is no doubt that many class action lawsuits are legitimate, the inadequacies of the system have resulted in frequent abuses. And the increased cost to businesses has an enormous impact—tying the hands of businesses and restricting their ability to expand, provide additional jobs, or contribute to the economy. Even the threat of class action lawsuits forces businesses to spend millions of dollars. Defendants face the risk of a single judgment in the tens of millions or even billions of dollars, simply because a State court judge has rushed to certify a class without proper review. The risk of a single, bankrupting award often forces defendants to settle the case with sizable payments even when the defendant has meritorious defenses.

Believe it or not, some opponents of the Class Action Fairness Act are still urging that the current class action system works well and that class action reform is unnecessary. Apparently, they do not think it is a problem when consumers take home 50-cent coupons to compensate them for their injuries, while their lawyers pocket millions in cash. Take for example a case against Blockbuster, Inc., where customers alleged they were charged excessive late fees for video rentals.

These customers received \$1 coupons while their attorneys received over \$9 million. Or when one State court prevents citizens from litigating their claims under the law of their home State. Or when attorneys file the same lawsuit in dozens of State courts across the country and file the same lawsuit in a race to see which judge will certify the fastest and broadest class.

In fact, numerous studies have documented class action abuses taking place in a small number of "magnet" State courts, and by now, it is beyond legitimate debate that our class action system is in shambles. As the Washington Post editorial page has noted, "[n]o portion of the American civil justice system is more of a mess than the world of class action."

A RAND Institute for Civil Justice, ICJ, Study on U.S. class actions released at the end of 1999 empirically confirms what has long been widely believed—State court consumer class actions primarily benefit lawyers, not the consumers on whose behalf the actions ostensibly are brought. Case studies in the ICJ piece confirm that in State court consumer class actions that is, cases not involving personal injury claims—the fees received by attorneys are typically larger than the total amount of monetary benefits paid to all of the class members combined. In short, the lawyers are the primary beneficiaries. The ICJ Study contains no data indicating that this problem exists in Federal court class actions.

If we do not pass this vital legislation, the class action process will remain a system ripe for exploitation, and the harm to the fundamental fairness of the civil justice system will continue to grow. Excessive and frivolous class action lawsuits stifle innovation, discourage risk-taking, and harm the entrepreneurship that drives our Nation's economic growth and job creation.

This commonsense, bipartisan legislation will help alleviate the dramatic effects that have resulted from an abuse of the class action system. This legislation ensures that legitimate class action cases are given full consideration and that prevailing plaintiffs receive the compensation they deserve. Americans deserve to have a judicial system that is effective and efficient, and, most importantly, fair—this legislation goes a long way toward accomplishing these objectives. I urge my colleagues to support this legislation. In the 108th Congress, this legislation came up one vote short. We now have four more Senators on our side of the aisle, so I am confident in its success in the 109th Congress. This is a success that people in States desire, and it will be a promise kept.

Mrs. CLINTON. Mr. President, I oppose this legislation called the Class Action Fairness Act of 2005, because I do not believe it is fair to litigants who have legitimate claims that are most appropriately addressed by our state courts.

Yes, there are some problems in the use of class actions, and in some cases there are excessive fees or inappropriate coupon settlements. I am pleased that after many years of seeking to move class action "reform" legislation, the bill proponents finally agreed to include language that addresses some of the abuses concerning "coupon" settlements, in which plaintiffs who have proven their case in court receive in turn coupons for products or services that have little value. This language has long been advocated by the distinguished ranking member of the Senate Judiciary Committee, Senator LEAHY, and it is a good provision because in contrast to most of the bill, it is narrowly crafted to address an actual problem that the legal system and litigants confront.

But the vast majority of the provisions in this legislation are not narrowly crafted to address discrete problems. Instead, this legislation is an extremely blunt instrument that I believe will result in justice delayed and justice denied for many Americans.

There have been many claims about "iudicial hellholes" and "magnet jurisdictions" but the evidence shows that these claims are, at best, overstated, and are certainly not so widespread so as to justify passage of this legislation that turns 200 years of federalism on its head. Indeed, a recent report by Public Citizen found that there were, at most, two jurisdictions-Madison County and St. Clair County, IL-of the 3,141 court systems in the United States for which bill proponents have provided limited data that they are "magnet jurisdictions." As to Madison County in particular, the facts also do not support the rhetoric. In 2002, only 3 of 77 class actions were actually certified to proceed to trial, and in 2003. only 2 of 106 class actions filed were certified.

Moreover, the Public Citizen report notes that, in recent years, at least 11 states have made major changes to the class action process used in their States to aid in the administering of justice, and in fact Illinois is in the process of doing the same.

The legislation purports to help Americans but I believe it will hurt them. The legislation itself states its purpose is to: "(1) assure fair and prompt recoveries for class members with legitimate claims; (2) restore the intent of the framers of the United States Constitution by providing for Federal court consideration of interstate cases of national importance under diversity jurisdiction; and (3) benefit society by encouraging innovation and lowering consumer prices."

As to assuring "fair and prompt re-

As to assuring "fair and prompt recoveries," hundreds of consumer rights, labor, civil rights, senior, and environmental organizations, esteemed legal experts, and many State Attorneys General believe, as I do, that this legislation will do just the opposite.

There is also no reasonable basis for the assertion that this legislation "will

restore the intent of the framers" with respect to the role of our federal courts. As Arthur Miller, the distinguished Harvard Law School professor, author, and expert in the fields of civil procedure, complex litigation, and class actions noted with respect to similar legislation considered last year: it is a "radical departure from one of the most basic, longstanding principles of federalism [and] is a particular affront to state judges when we consider the unquestioned vitality and competence of state courts to which we have historically and frequently entrusted the enforcement of state-created rights and remedies.'

As a Senator representing the great State of New York, I have worked closely with many businesses in my state to help them with their efforts to grow and create jobs, and I am a firm believer in encouraging innovation and lowering consumer prices. But even if we assume there is a strong connection between this legislation and those goals, there are many more appropriate means to achieve those ends without doing the harm to the administration of justice that I believe this legislation will impose.

In addition to being unfair to the American people, I do not believe this legislation is fair to our State or Federal judiciaries. This bill will effectively preclude state courts in many instances from employing their expertise and experience in class action cases based on state law that they have historically considered. I believe that state courts should determine matters of state law whenever possible. It is not fair to our Federal judiciary, which simply does not have the resources or experience to handle a mass influx of class action cases to our federal courts.

Indeed, the Judicial Conference of the United States has expressed its opposition to similar legislation introduced in prior Congresses because it "would add substantially to the workload of the federal courts and [is] inconsistent with principles of federalism." Similarly, the Board of Directors of the Conference of Chief Justices representing the Chief Justices of our state courts has said that legislation of this kind is simply unwarranted "absent hard evidence of the inability of the state judicial systems to hear and decide fairly class actions brought in state courts." That evidence simply does not exist.

As the National Conference of State Legislatures, NCSL, has noted in its strong opposition to this legislation, the legislation "sends a disturbing message to the American people that state court systems are somehow inferior or untrustworthy." The NCSL went on to say that the effect of the legislation "on state legislatures is that state laws in the areas of consumer protection and antitrust, which were passed to protect the citizens of a particular state against fraudulent or illegal activities, will almost never be heard in state courts. Ironically, state

courts, whose sole purpose is to interpret state laws, will be bypassed and the federal judiciary will be asked to render judgment in those cases."

Although bill proponents have sometimes suggested the contrary, make no mistake: if enacted, this legislation will not only result in the majority of class action lawsuits being transferred from our state to Federal courts, but it will also serve to terminate some class action lawsuits that seek to provide justice to everyday Americans.

Proponents of this legislation refer to an alleged abuse by lawyers in bringing class actions and assert that too many cases are instituted that are without merit. As I have already noted, I believe some proponents of this legislation have mischaracterized the extent of the problems concerning class actions. But, even if these assertions were true, the proponents have failed to justify the rejection of the very reasonable amendments offered by my colleagues that sought to address major concerns with the legislation without undermining its spirit or intent.

One such amendment was offered by my colleague Senator PRYOR of Arkansas, a former Arkansas State Attornev General. It would have clarified the role that State Attorneys General would continue to play in State class action cases. That amendment had the express written support of 47 of the 50 State Attorneys General in our Nation. As the highest law enforcement officers in their respective States, I cannot imagine that anyone in this body would believe that such public servants would bring "frivolous lawsuits" or would seek to abuse the class action process. And yet, that amendment failed, primarily along party lines.

The remaining amendments met a similar fate, including one offered by Senators BINGAMAN and FEINSTEIN. There is no general Federal consumer protection statute, which is why consumer fraud, deceptive sales practices, and defective product cases are almost always commenced in state courts.

Yet, the legislation before us would effectively move many of these cases to Federal courts, courts that are already overburdened and have neither the experience nor the expertise to handle these cases. If such cases are forced into Federal courts through consolidation of many state court cases, a Federal court hearing such a case must then decide which state laws should be applied. Because these kinds of circumstances have presented enormous challenges to our Federal courts, many Federal judges have simply, and understandably, denied certification of nationwide consumer fraud cases. Yet, the bill language would preclude the consideration of many of these cases in state courts, creating what many have described as the bill's "Catch-22." At that point, such cases would literally be in justice "limbo" because a federal court would have dismissed the case but under the provisions of the legislation, the case could not withstand a defendant's challenge to maintain the case in a State court.

The amendment offered by Senator FEINSTEIN, an original cosponsor of the underlying legislation, and Senator BINGAMAN, would have provided a process to handle such cases to increase the likelihood that such cases would be certified by a Federal court and the appropriate State laws would be applied. This was a more than reasonable effort to address a significant concern with this legislation without undermining the legislation's intent to transfer many class actions to Federal courts. But, once again, a majority of the Members of this body chose to reject it.

The Leadership Conference on Civil Rights has stated, and no one has refuted, that "there is no evidence that lawsuits brought by workers seeking justice in state courts on issues ranging from overtime pay to working off the clock are abusing the system. To the contrary, failure to exempt such lawsuits in this legislation is an abusive act against every hard-working American seeking fair pay and a better life." Yet, the amendment offered by Senator Kennedy that would have carved out such cases from this legislation was rejected as well.

In short, this bill currently stands now in the same shape as when it was introduced. Though valiant efforts were made to improve it, none were successful. Eliot Spitzer, the distinguished New York State Attorney General, and a number of other State Attorneys General, expressed their overall concern with the bill, including the fact that the legislation still "unduly limits the right of individuals to seek redress for corporate wrongdoing in their state courts." I could not agree more.

In speaking in opposition to this legislation on the Senate floor earlier this week, Senator Leahy, the Ranking Member of the Senate Judiciary Committee, reminded all of my colleagues that sometimes individual claims are so small that even though a harm was done for which a plaintiff should receive relief, it is not worth it for him or her to spend significant financial resources to obtain that relief through the judicial process. Unfortunately, as he said, "[s]ometimes that is what cheaters count on, and it is how they get away with their schemes. [Yet,] cheating thousands of people is still cheating. Class actions allow the little guys to band together, allow them to afford a competent lawyer, and allow them to redress wrongdoing." With the expected passage of this legislation today, I believe the "little guy" loses, and I believe that is neither fair nor just. That is why I cannot support this legislation.

I appreciate the concerns raised by businesses in New York and around the country about the cost of litigation. I too believe that litigation costs have increased significantly. Any legislation that seeks to address discrete problems with class action litigation should address this and other concerns without

unnecessarily and negatively affecting the ability of Americans to seek and obtain justice through our courts. A proper balance must be struck. The socalled Class Action Fairness Act simply does not strike that balance.

Mrs. DOLE. Mr. President, I rise today in support of the Class Action Fairness Act of 2005, legislation that is greatly needed to restore public confidence in our Nation's judicial system and protect jobs in my own State and throughout the country.

Frivolous litigation has helped drive the total cost of our tort system to more than \$230 billion a year. Tort costs in America are now far higher than those of any other major industrialized nation, and in our global economy, this has become a tremendous disadvantage for American manufacturers and entrepreneurs, who have long sought reform. But this affects not just certain businesses; this affects our overall economy and all Ameri-

The Class Action Fairness Act will provide that some class action suits be litigated in the Federal courts rather than allowing venue shopping for a sympathetic State court. The measure will also ensure that cases of national importance are not overlooked. Most importantly, this legislation will ensure that class members with legitimate claims are fairly compensated.

Class action suits are an important part of our legal system. They originated to make our courts more efficient by joining together parties with a common claim. However, growing abuses by opportunistic plaintiffs' attornevs—coupled with the skvrocketing costs of runaway litigation and excessive awards-have had a dramatic impact on America's interstate commerce.

Over the past decade, the number of class action lawsuits has grown by over 1,000 percent nationwide. And the jury awards are sharply increasing over time as well. In 1999, the top 10 awards totaled \$9 billion; by 2002, that number had jumped to \$32.7 billion.

Businesses, like those in my home State of North Carolina, are losing out because the rules in place today allow lawyers to "shop" for the "friendliest" court to hear their case. And it is not just large companies being sacked with enormous payouts in class action lawsuits. Small businesses are bearing the majority of tort liability costs. According to a study conducted for the U.S. Chamber of Commerce, small businesses bear 68 percent of tort liability costs but take in just 25 percent of business revenue.

We all know that small businesses are the job creators and the engines of our economy. They create 70 percent of all new jobs in America. Yet the rules in place today allow for a judicial system that is truly hurting them and causing them to spend money-on average \$150,000 a year—on litigation expenses rather than on business development and equipment and expansion—

the very things that can lead to more iobs.

Our goal in reforming class action lawsuits is to provide justice to the truly injured parties, not to deny victims their day in court and their just compensation. Lawsuit costs have risen substantially over the past several decades, and a significant part of these costs is going towards paying exorbitant lawyers' fees and transaction costs. And some injured plaintiffs are suffering because of weak State court oversight of class action cases. In fact, under the current U.S. tort system, less than 50 cents on the dollar finds its way to claimants, and only 22 cents compensate for actual economic loss.

And sometimes class members don't receive cash at all. For example, in a settlement with Crayola, approved by a State court in Illinois, crayon purchasers in North Carolina and around the country received 75-cent coupons for the purchase of more crayons; their lawyers, however, received \$600,000 in cash.

And in the Cheerios class action settlement, also approved by State court in Illinois, consumers in North Carolina and around the country received coupons for buying a single box of cereal, while lawyers got \$1.75 million.

I hardly think it's in the best interest of the class member to actually have to purchase more of a product to receive any benefit. And it isn't fair that class members are losing out while their attorneys are cashing in.

This legislation establishes a "Consumer Class Action Bill of Rights" that will ensure that class actions do not harm the intended beneficiaries—people who were actually harmed by the actions of a defendant. And it does nothing to prevent class members from having their cases heard—it just establishes that some of these cases may be heard in Federal courts.

It is time we do what is right and repair this broken system—for claimants in class action cases, for our Nation's economy, businesses large and small, and for all Americans.

Mr. VOINOVICH. Mr. President, I rise today to speak on behalf of the Class Action Fairness Act, a bill to stop unfair and abusive class action lawsuits that ignore the best interests of injured plaintiffs. This legislation is sorely needed to help people understand their rights in class action lawsuits and protect them from unfair settlements

It is also needed to reform the class action process, which has been so manipulated in recent years that U.S. companies are being driven into bankruptcy to escape the rising tide of frivolous lawsuits and has resulted in the loss of thousands of jobs, especially in the manufacturing sector.

Unfortunately, not enough Americans realize that we are in a global marketplace and businesses now have choices as to where they manufacture their products. Many of our businesses are leaving our country because of the litigation tornado that is destroying their competitiveness. The Senate must start taking into consideration the impact of its decisions on this Nation's competitive position in the global marketplace.

I believe that for the system to work, we must strike a delicate balance between the rights of aggrieved parties to bring lawsuits and the rights of society to be protected against frivolous lawsuits and outrageous judgments that are disproportionate to compensating the injured and made at the expense of society as a whole. This is what the Class Action Fairness Act, does, and I am proud to cosponsor it.

Since my days as Governor of Ohio, I have been very concerned with what I call the "litigation tornado" that has been sweeping through the economy of Ohio, as well as the Nation.

Ohio's civil justice system is in a state of crisis. Ohio doctors are leaving the State and too many have stopped delivering babies because they can't afford the liability insurance.

From 2001-02, Ohio physicians faced medical liability insurance increases ranging from 28 to 60 percent. Ohio ranked among the top five States for premium increases in 2002. General surgeons pay as much as \$74,554, and OB-GYNs pay as much as \$152,496. Comparatively, Indiana general surgeons pay between \$14,000-\$30,000; and OB-GYNs pay between \$20,000-\$40,000.

Further, Ohio businesses are going bankrupt as a result of runaway asbestos litigation. And today, one of my fellow Ohioans can be a plaintiff in a class action lawsuit that she doesn't know about and taking place in a State she has never even visited.

In 1996, as Governor of Ohio, I was proud to sign H.B. 350, strong tort reform legislation that became law in Ohio for a while. It might have helped today's liability crisis, but it never got a chance.

In 1999, the Supreme Court of Ohio. in a politically motivated 4-3 decision, struck down Ohio's civil justice reform law, even though the only plaintiff in the case was the Ohio Academy of Trial Lawvers—the personal injury bar's trade group.

Their reason for challenging the law? They claimed their association would lose members and lose money due to the civil justice reform laws we enacted.

The bias of the case was so great that one of the dissenters. Justice Stratton. had this to say:

This case should have never been accepted for review on the merits. The majority's acceptance of this case means that we have created a whole new arena of jurisdiction advisory opinions on the constitutionality of a statute challenged by a special interest

From this, it is obvious to me that the way we currently administer class actions is not working.

While we were frustrated at the State level, I'm proud to have continued my fight for a fair, strong civil justice system in the United States Senate.

To this end, a few years ago I worked with the American Tort Reform Association to produce a study entitled "Lawsuit Abuse and Ohio" that captured the impact of this rampant litigation on Ohio's economy, with the goal of educating the public on this issue and sparking change.

Can you imagine what this study found? In 2002 in Ohio, the litigation crisis costs every Ohioan \$636 per year, and every Ohio family of four \$2,544 per year. These are alarming numbers. And this study was released on August 8, 2002—imagine how high these numbers have risen in 2½ years.

In tough economic times, families can not afford to pay over \$2,500 to cover other people's litigation costs. Something needs to be done, and passage of this bill will help!

Mr. President, this legislation is intended to amend the federal judicial code to streamline and curb abuse of class action lawsuits, a procedural device through which people with identical claims are permitted to merge them and be heard at one time in court.

In particular, this legislation contains safeguards that provide for judicial scrutiny of the terms of class action settlements in order to eliminate unfair and discriminatory distribution of awards for damages and prevent class members from suffering a net loss as a result of a court victory.

This bill would establish a concept of diversity jurisdiction that would allow the largest interstate class actions into Federal court, while preserving exclusive State court control over smaller, primarily intrastate disputes. As sevnewspaper editorial major boards—ranging from the Post to the Wall Street Journal—have recognized, enactment of such legislation would go a long way toward curbing unfairness in certain state court class actions and restoring faith in the fairness and integrity of the judicial process.

This bill is designed to improve the handling of massive U.S. class action lawsuits while preserving the rights of citizens to bring such actions.

Class action lawsuits have spiraled out of control, with the threat of large, overreaching verdicts holding corporations hostage for years and years.

In total, America's civil justice system had a direct cost to tax payers in 2002 of \$233.4 billion, or 2.23 percent of GDP. That is \$809 per citizen and equivalent to a 5 percent wage tax. That's a 13.3 percent jump from the year before—a year when we experienced a 14.4 percent increase which was the largest percentage increase since 1986.

Now, some of my colleagues have argued that this bill sends most state class actions into Federal court and deprives state courts of the power to adjudicate cases involving their own laws. They argue that the bill therefore infringes upon States' sovereignty.

However, in one empirical study done by two attorneys from O'Melveny & Myers, their data indicated that this bill would not sweep all class actions into Federal court. Rather, the bill is a targeted solution that could result in moving to Federal court a substantial percentage of the nationwide or multi-State class actions filed in class action "mill" jurisdictions (like Madison County, IL), while allowing State courts everywhere to litigate truly local class actions (the kinds of class actions typically filed in State courts that do not endeavor to become "magnet" courts for class actions with little or no relationship to the forum).

There is just no evidence for the assertion that this bill deprives State courts of their power to hear cases involving their own laws. In fact, it is the present system that infringes upon state sovereignty rights by promoting a "false federalism" whereby some state courts are able to impose their decisions on citizens of other States regardless of their own laws.

Another argument against this bill is that it will unduly expand Federal diversity jurisdiction at a time when courts are overcrowded. However, State courts have experienced a much more dramatic increase in class action filings and have not proven to be any more efficient in processing complex cases

In addition, Federal courts have greater resources to handle the most complex, interstate class action litigation, and are insulated from the local prejudice problems so prevalent under current rules.

Mr. President, I emphasize to my colleagues that this isn't a bill to end all class action lawsuits. It's a bill to identify those lawsuits with merit and to ensure that the plaintiffs in legitimate lawsuits are treated fairly throughout the litigation process.

It's a bill to protect class members from settlements that give their lawyers millions, while they only see pennies. It's a bill to rectify the fact that over the past decade, State court class action filings increased over 1,000 percent. It's a bill to fix a broken judicial system.

I am a strong supporter of this bill, and I urge my colleagues to do the same.

Mr. JEFFORDS. Mr. President, I am pleased to support S. 5, the Class Action Fairness Act of 2005.

I believe there are problems with our current class action system that should be addressed through Congressional action. These problems include:

Cases and controversies that are national in scope and are currently being decided in State courts;

Decisions or settlements that are determined in one State's court system, are being applied nationwide, and conflict with laws in other States; and

Plaintiffs receiving little compensation, or in the most extreme example, actually owing money from the settlement of a class action lawsuit.

Class action lawsuits serve a useful purpose in our judicial system. Class actions allow individuals to merge a number of similar claims into one lawsuit, which can be an efficient use of judicial resources. Class action lawsuits enable individuals with small claims the ability to seek justice.

The legislation we are considering today will fairly determine whether a class action should be considered in a State court or a Federal court. Thus, the legislation will help ensure that issues that are national in scope are heard in federal court, while issues that are local in nature are heard in State courts.

The Class Action Fairness Act also provides some common sense reforms and oversight of the class action settlement process. These changes will help ensure that individuals who should be compensated receive fair compensation for their injuries, rather than worthless coupons, or actually owing money.

I cannot, and would not, support legislation that denies individuals their ability to pursue compensation in the legal system for damages they have suffered. The legislation before this body is a bipartisan compromise worked out over many years. It does not deny individuals their right to pursue justice through the legal system. Because I believe the Class Action Fairness Act of 2005 fairly addresses the problems in our class action system, I will support its passage today.

Mr. REED. Mr. President, I rise to speak about S. 5, the Class Action Fairness Act.

First and foremost, I want to commend both the Republican and Democratic Leaders for all the work they did to bring this bill before the Senate. In particular, I am pleased that the consent agreement allowed all relevant amendments to be offered and debated.

I believe many of these amendments would have improved the underlying legislation without threatening its reforms. In particular, I think we should have adopted the Feinstein-Bingaman amendment, which would have given federal judges clear guidance about how to apply state consumer laws in multi-state class action lawsuits. This would have permitted more multi-state consumer class actions to be certified in federal court and resolved on their merits.

After S. 5 is enacted into law, I believe we should rapidly revisit this issue and make sure that consumers are actually getting their day in court and not having their class action cases thrown out because Federal courts are deeming them too complex or unmanageable to certify.

That being said, I think this legislation benefited greatly from the negotiations entered into by Senators Dodd, Landrieu and Schumer with the bill's major sponsors, Senators Grassley, Kohl, Hatch and Carper. Although S. 5 is not the bill I would have written, I do think it will address some of the well-documented problems created by overlapping class actions in State and Federal courts.

In particular, the Dodd-Landrieu-Schumer language included in S. 5 addressed some of my biggest concerns about moving class actions to Federal court. Many class actions involve only State law issues, are brought by plaintiffs from the same geographical area and have a defendant who is based within that same community. Moving these cases to Federal court is inappropriate, especially if they do not involve issues of national importance. In many cases, it is our State judges who are in the best position to make determinations about State law. The Dodd-Landrieu-Schumer compromise created a new exception for keeping cases like this in State court. Under the bill, if two-thirds of the plaintiffs are from a given State, the injury happened in that State and at least one significant defendant is from that same State. then the class action can remain in State court. As a result, I believe S. 5 ensures that "nationwide" class actions are separated from those that should continue to be heard in State courts.

I also believe that any attempt to stop forum shopping by plaintiffs should minimize forum shopping by defendants. The Dodd-Landrieu-Schumer compromise in S. 5 addressed this issue by making it clear that there is a firm 30-day deadline for the removal of nationwide class actions to Federal court once the plaintiffs have filed papers that create conditions for removal.

I also am pleased that the Dodd-Landrieu-Schumer compromise dealt with one of the most serious abuses in class action cases, certain types of collusive coupon settlements. S. 5 clarified that if a settlement provides coupons as a remedy, attorneys' fees will only be paid in proportion to the redemption of the coupons. A provision like this does not prohibit coupon settlements, but practically speaking, attorneys will not agree to such settlements unless the coupons are actually valuable. S. 5 also requires that a judge may not approve a coupon settlement until a hearing is conducted to determine if the settlement terms are fair, reasonable, and adequate for class members.

Finally, I believed that is important to preserve the ability of the Advisory Committee on the Federal Rules, the U.S. Judicial Conference, and the Supreme Court to amend the class action rules or procedures to the extent necessary to accomplish their purposes more effectively or to cure any unanticipated problems. S. 5 also included a provision saying that the Federal courts could make such changes as appropriate.

As a result of all of these improvements, I believe S. 5 is legislation that addresses serious problems in our nation's class action system and will make the system fairer for both plaintiffs and defendants.

The PRESIDING OFFICER. Twenty minutes is to be equally divided between the chairman and ranking member of the Judiciary Committee.

The Senator from Vermont.

Mr. LEAHY. Mr. President, I commend the distinguished senior Senator from Illinois. He is absolutely right. You have the corporate interests, and this administration is closing courthouse doors—one of the few places where people can go that are not aligned with either the Republican or the Democratic Party; a place where they don't need any political clout; a place where somebody can't say they are going to contribute heavily to a political party so their interests will be heard, or something like that. There is one place they could go-whether they are a mechanic, a bus driver, a person raising a family, somebody who had been damaged by a product sold when the manufacturer knew of the flawthe one place they could go would be the courthouse. They are not the rich, powerful, or well-connected. They could win. Or at least seek justice. We are going to close that door, too.

Over the few days that the Senate has been considering this bill, there have been a few modest amendments that might actually keep the door open a tiny crack for the people who need it. There have been serious concerns raised by the National Conference of State Legislatures of our 50 States, the National Association of State Attorneys General, prominent legal scholars, consumers, environmental groups, and civil rights organizations. They asked us to at least consider a few improvements but the courthouse door was slammed shut. The Senate's door was slammed shut.

For anybody watching this debate, they have figured out that by now the fix was in, despite these legitimate concerns.

After 31 years here I am disappointed that the Senate is now taking its marching orders for major legislation from corporate special interests and the White House.

We could have actually acted as an independent body and made some changes in this bill. Instead, we are saying—the 100 of us—to all 50 of the State legislatures that we know better than they do, that they are irrelevant, that we could close them off.

It is going to make it harder for American citizens to protect themselves against violation of State civil rights, consumer, health, environmental protection laws, to take these cases to State court.

Aside from being convenient, plaintiffs actually know where the local state courthouse is. These courthouses have experience with the legal and factual issues within their States. We are simply going to sweep these cases into Federal court, after we have already swept so much criminal jurisdiction there, and you can't get a civil case heard anyway. We are erecting barriers to lawsuits, and we are placing new burdens on plaintiffs. They will languish.

The bill contains language that would reduce the delay that parties can

experience when a case is removed to Federal court by setting a limit for appeals of remand orders. But we don't say anything about how long the court can sit on the remand motion. They could sit on it for 10 years if they want to before they do a thing. Plaintiffs can die, witnesses can move away, memories could grow dim, and nothing happens.

Senator FEINGOLD offered a modest amendment to set a reasonable time for action on remand motions. The solution received praise from one of the sponsors of this legislation, but the corporate masters and the White House said no. So it was rejected by the Senate.

The biggest concern raised by legal scholars and agreed to by several Senate sponsors of the bill would address the recent trend in Federal courts not to certify class actions if multiple state laws are involved.

The way this is set up in the bill—a lot of the business groups are behind this—one could easily get a case dismissed by a Federal court.

Senator Feinstein and Senator Bingaman worked together to alleviate what was a legal Catch-22. The Federal court says if a case has complicated State laws in it, it can't hear it. But you can't bring it in State court either. The Federal court says the State laws are complicated and it should have been heard in the State court. But under this bill, it goes to the Federal court so, of course, the corporate interests win. We tried to change that.

Cynics might even speculate that is what the business groups behind this purported "procedural" change are really seeking, the dismissal of meritorious cases on procedural grounds by the federal courts. Naturally, the orders came down from the corporate masters and the White House: Don't do it. We love the way this is going to allow us to keep things out of court. There it goes

Anyone who reads this bill will notice that despite its title, it affects more than just class actions. Individual actions, consolidated by state courts for efficiency purposes, are not class actions. Despite the fact that a similar provision was unanimously struck from the bill during the last Congress, mass actions reappeared in this bill this Congress. Federalizing these individual cases will no doubt delay, and possibly deny, justice for victims suffering real injuries. Senator DURBIN's amendment sought to clarify the bill's effect on these cases. I'm glad the debate this week served to clarify the narrow scope of this provision.

It is interesting because a similar provision to was unanimously struck from the bill during the last Congress—unanimously but that wasn't good enough for the corporate masters. It was slipped back into the bill this Congress.

Class action legislation had been criticized by nearly all of the State attorneys general in this country, Republicans and Democrats alike. The distinguished former attorney general, Senator PRYOR of Arkansas, had a concern that S. 5 would limit their official powers to investigate and bring actions in State courts against defendants. He wanted to put in minor clarifications to show they could do that. Although these attorneys general contacted their Senators—Republicans and Democrats alike—they were tossed out.

Senator Kennedy's amendment to exempt civil rights, and wage and hour cases in the bill, was a sensible solution. Prominent civil rights organizations and labor advocates requested that the bill be modified to acknowledge the fact that many of our states have their own protective civil rights and employment laws. I was proud to cosponsor it and regret that with the fix being in, this amendment was rejected by the Senate. But the fix was in, and that is out.

What we have done here? I will give you an example of one class action suit that would have been impacted under this legislation—Brown v. Board of Education, finally ending segregation in our schools, a blight on the American conscience. And how did Brown v. Board of Education get to the Supreme Court? Not from the three Federal courts in that class action suit; not the three Federal courts that said "separate but equal" is the law of the land. It had been good enough for all of us. Send those African-American children to one school. Send the White kids to a much better school-because that is what it was. The view was that is good enough for us, always been that way.

Only one State court in the State of Delaware said: That might be what the U.S. Supreme Court said, but they are wrong. They are wrong. We don't believe in Plessy v. Ferguson. We don't believe in the separate but equal. We say sending Black children to one school and White kids to the other is not equal. We are making second-class citizens of these African Americans.

And because a State court heard and ruled on that class action, it went up to the U.S. Supreme Court, and the U.S. Supreme Court unanimously came down with Brown v. Board of Education.

We pray there is not some class of people in this country being damaged the way African-American children were being damaged at that time because if they go into the courts in the wake of this legislation, the fix is in, this Senate has closed the court doors to them, this White House has closed the court doors to them, these corporate interests have closed the court doors to them. It is a shame. It is wrong. It is one heck of a message to send to this country.

It is disappointing to me that the Senate has refused to listen to wise counsel of our state legislatures, our state law enforcement officers, our state judges and even the views expressed by our federal judiciary since they are the institutions that we are affecting by enacting this legislation.

I predict this legislation will be manipulated by well-paid corporate defense lawyers to create complex, expensive and lengthy litigation over the criteria and factors in the bill and whether they apply to a particular case. Unfortunately, one of the great boons of this legislation, to the extent it does not simply deter class actions brought by consumers, is that it will make them more costly, burdensome and complicated.

The so-called Class Action Fairness Act falls short of the expectation set by its title. It will leave many injured parties who have valid claims with no avenue for relief, and that is anything but fair to the ordinary Americans who look to us to represent them in the United States Senate.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SPECTER. Mr. President, I thank my colleagues for moving this bill through to final conclusion where we are now scheduled to vote on final passage at 3 o'clock this afternoon.

We took this bill up in the Judiciary Committee a week ago today. Although there was some conjecture we could not pass the bill out of committee, in the morning we did so. We started the floor debate Monday afternoon. I led off in my capacity as chairman of the Judiciary Committee. We had a number of amendments and we have worked the will of the Senate. A number of amendments have been withdrawn, a number of amendments have been defeated.

The Senator from Wisconsin, Senator FEINGOLD, offered an amendment which would have imposed time limitations on the courts on their handling of class action cases. I told him I thought it was a good idea, but I was constrained to vote against it because we have an understanding-implicit or explicit, I am not quite sure which because I was not party to it—with the House of Representatives that if we sent them a socalled clean bill without amendments. they would accept the Senate version. I told Senator FEINGOLD as to his issue, I have had a number of complaints about delays in the administration of the courts. That is something the Judiciary Committee will take up.

I make it plain we will not deal with judicial independence or the court's discretionary functions, but when it comes to delays, that is a matter of congressional oversight on our fundamental responsibility to decide how many judges there will be at all levels. That is an issue we will take up.

The Senator from South Carolina, Senator LINDSEY GRAHAM, had proposed an amendment on disclosure, on transparency, sunshine. There again, that is a good idea. We have worked through a colloquy. I have not seen the final form, but I was discussing it with Senator GRAHAM again this morning and the staffs are working that out. I anticipate we will have that finished.

The Senator from Illinois, Senator Durbin, had a proposed amendment on mass actions. We had worked through to see if we could formulate a colloquy. That has not reached fruition. Senator Durbin has decided to withdraw. That is a complex matter which we took up in committee 2 years ago. We made some modifications in the bill, but it is very important as this bill moves forward to become law that it be dealt with as a procedural change, that there not be substantive changes in the rights of the parties.

We have sought to move into the Federal courts in order to avoid forum shopping on judges or courts where there is some indication of a prejudicial predisposition. It is my hope as this class action bill is interpreted that it will not effect substantive rights.

There is a tender issue on selection of State law where there are a number of States involved. There is a lot of commonality in our law injected through the uniform commercial code and interjected through the restatement of varieties of substantive matters such as torts, where class actions can be certified, so it is my hope this bill, this act, will not be interpreted to curtail a substantive right.

There is a great deal of wisdom in the Senate on this bipartisan bill which has received considerable support on the Democratic side of the aisle as well as very strong support on the Republican side of the aisle to move through without a conference where we might have had a bill which was a great deal more restrictive of plaintiffs' rights, where we might have had a bill where the House provision calls for retroactive application. That would upset a great many existing lawsuits. All factors considered, we have come to a wise conclusion.

Mr CORNYN. Mr. President, I have spoken previously on this floor about my concerns that this legislation does not go far enough to address the scandal of litigation abuse that plagues our civil justice system. I stand by those concerns today. We can and should do more to reduce the burden of frivolous, expensive litigation. Our Nation's economic competitiveness in the 21st century depends on it.

We should consider additional measures that better level the playing field, that produce a good flow of information and transparency, and that provide a clear relationship between plaintiffs and their attorneys.

But while this modest legislation could do more, I believe that S. 5 is an important first step to reform—a step in the right direction.

By providing for removal of a greater number of class action lawsuits from State court to Federal court and by requiring that judges carefully review all coupon settlements and limit attorneys' fees paid to these settlements to the value actually received by class members, it sets the groundwork for a much needed reform.

In the spirit of bipartisan cooperation that drove this bill forward, I set aside my concerns for now and am proud to co-sponsor.

I thank my friend from Iowa, Senator GRASSLEY, for his leadership and persistence on this issue. For five consecutive Congresses, dating back to 1997, Senator GRASSLEY has taken up the mantel of class action reform and he deserves a great deal of credit for it.

Finally, I want to thank Chairman Specter and Senator Hatch for their continued stewardship. Without them, this bill would not be where it is today.

Mr. SPECTER. Mr. President, I have a few minutes remaining on my 10 minutes. I notice the distinguished Democratic leader is here, but I said I would vield to the Senator from Connecticut. Senator DODD. He has a very unique spot in my evaluation of Senators because he was elected in the class of 1980. He reminds me there were 18 of us elected, and the Democrats, through their tenacity and wisdom, have maintained 50 percent of their class and the Republicans, on the other hand, have only retained 12½ percent. Of course, we started with 16 to 2, so let the record show that the Republicans from the class of 1980 still outnumber the Democrats 2 to 1.

I vield to Senator Dodd.

Mr. DODD. Mr. President, I thank my colleague from Pennsylvania. One of the great pleasures over the past 24 years has been to serve with ARLEN SPECTER in this body.

We are nearing the end of consideration of this bill.

I would like to spend just a few minutes to offer some thoughts on it.

First, a brief word about the process by which this bill has been considered by the Senate. I don't think it is an overstatement to say that—aside from the details of the legislation itself—the most important factor in its expected passage is the unanimous consent agreement that was put into place at the onset of the Senate's deliberations on the bill.

In that respect, the two leaders—Senator FRIST and Senator REID—are to be greatly commended. Either one could have refused to enter into such an agreement—which would have made the prospects for passage of this legislation far less certain.

As I said yesterday, a determined minority of even one Senator can impede or block consideration of legislation in this body. Either Leader, by declining to enter into a consent agreement, could have paved the way for others to employ dilatory, delaying, and distracting tactics.

However, both Senators REID and FRIST agreed that only relevant

amendments to the bill would be in order. No doubt, that agreement displeased some members in both caucuses. However, it helped ensure that the debate we have had on this bill has been substantive, orderly, and deliberate. And it minimized the risk that this bill would be derailed by contentious issues wholly unrelated to the substance of the bill itself.

So the cooperation shown by the two leaders on this legislation cannot be overemphasized. Senator REID is to be particularly commended in this regard, given that a majority of the members of his caucus do not appear to support the bill.

The consent agreement that he entered into with the majority leader demonstrates his commitment to working in as cooperative a manner as possible for the good of the Senate.

Allow me to spend a few moments talking about the substance of this legislation. We have heard a lot of characterizations over the past few days to describe the bill and the problems it seeks to correct. I am among those who believe that our class action system is in need of reform. There are clear abuses and shortcomings that have not served the interests of the parties or the interests of justice. And this bill takes a number of significant steps to remedy those abuses and shortcomings.

To those who say that this legislation will have dire consequences on the quality of justice in our Nation, I must respectfully disagree. And I do so for a number of reasons.

First, it is important to view this legislation in a larger perspective. According to one estimate, .92 percent of all cases filed in Federal courts over the past three decades have been class actions. This point deserves special emphasis: from 1972 to 2002, less than one percent of all cases filed in the Federal courts of our Nation have been class actions.

Not all states compile similar data, so there are no comparable statistics for class actions as a percentage of all cases filed in State courts. However, there is every reason to believe that the percentage of class actions filed in state courts is at least as minuscule as the percentage filed in state courts. My point is simply this: that this legislation will affect only a very small percentage of all cases filed in our courts—less than 1 percent.

Some would argue that if even one just case in America were denied by this bill, that would be an unit result, and merit the defeat of this bill. I am not unsympathetic to that argument. Indeed, I agree wholeheartedly with it. Our system of justice is premised on the belief that equal justice under law is the right of each and every citizen.

Even one just cause unjustly denied offends our Nation's commitment to justice and fair play. Any legislation that would deny to even one citizen the right to equal justice deserves opposition, at least in this Senator's opinion.

But this bill does not deny such a right. It does not even come close. It

will not close the courthouse door on a single citizen.

Moreover—unlike other legislation that has been considered by this body—it will not cap damages in a single case.

It will not cap attorney's fees for a single class action lawyer.

It will not extinguish or alter in any way a single pending class action.

Nor does it impose more rigorous pleading requirements or evidentiary standards of proof in a single class action.

In short, no citizen will in any way lose his or her right to go to court and seek the redress of grievances.

My colleagues might ask: if this bill will not do any of these things, then what will it do?

First and foremost, it will put an end to the kind of abusive forum-shopping that has grown in frequency and notoriety over the past few years. Opponents of this bill claim that, by

Opponents of this bill claim that, by in any way altering the procedural rules governing class actions, substantive rights will be denied.

However, this argument is trumped by a little document called the U.S. Constitution.

Article III of that document extends Federal jurisdiction to suits between "citizens of different States." The purpose of extending this "diversity jurisdiction" to citizens is to prevent the citizens of one State from being discriminated against by the courts of another State.

However, over the years, this purpose has been increasingly thwarted by clever pleading practices of enterprising class action attorneys.

By adding a plaintiff or a defendant to a lawsuit solely based on their citizenship, they have been able to defeat efforts to move cases to Federal court—even cases involving multiple parties from multiple States. Likewise, by alleging an amount in controversy that does not trigger the \$75,000 threshold, they have thwarted Federal jurisdiction—even in cases alleging millions if not billions of dollars in damages.

In short, current pleading practice by the class action plaintiffs bar has very effectively denied Federal jurisdiction over cases that are predominantly interstate in nature. These are precisely the kinds of cases the Framers thought deserve to be heard in Federal courts.

All that this legislation does in this respect is bring pleading practice more into line with constitutional requirements. Cases that are primarily intrarather than interstate in nature may continue to be heard in State courts.

But those that are clearly interstate in nature will now be more likely to be heard in Federal court, where they belong.

The notion that cases will be "dismissed" as a result of this and other changes created by this legislation is, in my view, patently absurd. No provision of this legislation requires a single case to be dismissed. Plaintiffs' attorneys may end up spending more time in

Federal court than State court. They may not be able to pick a class of plaintiffs that is as large as they can now, or that encompasses as many States. They may end up bringing cases in two or more courts that they might have preferred to bring in a single court. But they will not find their cases dismissed.

As my friend and colleague from Utah, Senator HATCH, said earlier, good lawyers will find a way to do well under this bill. Good lawyers will do well in Federal courts, as they have done well in State courts. In that sense, then, this bill is exceedingly modest.

We write our laws on paper. We do not etch them in stone. I am confident that the bill we have written here is a good one. I believe that, if and when it becomes law, it will withstand the test of time. Likewise, I am confident that if in the future any shortcomings emerge, we will have the good sense to fix them.

By way of analogy, I remind our colleagues of another reform bill that was considered several years ago. The Senator from New Mexico, Senator DOMENICI, and I wrote a bill to address frivolous securities lawsuits directed primarily at high-tech companies. The bill was on the floor of the Senate for about 2 weeks, if I recall correctly. A number of amendments were offered. It ultimately became law, despite a Presidential yeto.

There were those who predicted dire consequences as a result of that bill's enactment. We were told that securities lawsuits would dry up, that harmed investors would have no recourse.

Well, here we are, about 9 years after enactment of that law, and there has been no appreciable drop-off in investor lawsuits and recoveries. In fact, some of the most vehement opponents of that law in the trial bar continue to be some of the most successful under the law.

In sum, we have written a good bill here. It deserves to become law. I hope that it will. I want to acknowledge those of our colleagues who are most responsible for bringing us to this point: Senators Frist and Reid, as I have already mentioned; as well as Senators Grassley, Kohl, Hatch, Feinstein, Carper, and others. I also want to acknowledge the hard work of their staff, who in some cases have worked on this legislation for a number of years.

So, to briefly reiterate, I thank my leader, Senator REID, and the majority leader, as well. We would not be in the position we are in, I have said on several occasions over the last 3 or 4 days, had the Democratic leader—particularly because the minority always has unique rights in this Senate to delay or stop legislation moving at all.

Even though my colleague from Nevada has strong reservations, which I am sure he will express shortly, about the substance of this bill, as a result of

his willingness to let a product move forward, we are here today about to adopt a piece of legislation. When I hear some of the comments being made about whether Democrats are willing to work on issues, even ones they disagree with, that is belied by the fact that the minority leader made it possible for us to be here to deal with all relevant, germane amendments on this bill. I thank the Senator from Nevada for his efforts in allowing that to go forward.

There has been a lot of talk over the last several days. Classically, with a matter like this the opponents and proponents have a tendency to engage in, if I may say with all due respect, a little bit of hyperbole. But it's important to stick to the facts. And one important fact that should shape how we view this legislation is that less than 1 percent of all cases filed in the Federal courts since 1972 have been class action cases. I searched very tirelessly to find out the percentages in State courts. I could not come up with an exact number. I am told by those knowledgeable the number of class actions filed in State courts as a percentage of all State actions is not substantially different than the Federal courts, and is likely to be even smaller given the large number of State cases filed generally. What is beyond dispute is that a very small percentage of the cases filed in our court systems are class actions.

Obviously, if anyone is denied access to the courts in this country because of things we do here, then, obviously, justice is denied to someone who cannot make that case.

We have not done that. This system of class action is in need of reform.

This is about money. Unfortunately, it is not about the money that legitimate plaintiffs get; it is about the money that is either saved by a defendant or made by the plaintiffs' bar. That is what this is about, and forum shopping around the country, finding the venue that gets you the best possible result for your particular point of view—not exactly what the Founders had in mind when they drafted the diversity provisions of article III of the Federal Constitution. If you want to change the Constitution and say that no longer should diversity apply, then you may try to do that. If that is what opponents of this legislation believe, then they can try to amend the Constitution to in effect keep all these cases in State courts. But since the founding of this Republic, the diversity clause of article III of the Constitution has been very clear.

Mr. REID. Mr. President, I ask unanimous consent that the Senator from Connecticut be allowed 5 more minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Mr. President, I thank my colleague. I will go quickly.

The point is, this is about court reform more than tort reform. About fifteen months ago, as many of my col-

leagues recall, we worked out this bill. We struck an agreement, a good one. Unfortunately, the majority here, last year, decided not to bring this bill up. I believe they made a mistake in doing that. We could have wrapped this bill up in January of 2004 but did not do it. This agreement has been ready for the Senate's consideration for over a year. We have had good debate on some of these amendments, and we have drafted a pretty good bill. It is not written in marble; it is not written in granite; it is written on paper. And we think it is going to provide equal access to the courts. It is going to provide a fairness to plaintiffs and defendants, to see that they get a just decision regarding the matters that are brought before the courts.

So to my colleagues who are strong opponents of all of this, believe me, this bill is a simple matter of court reform. It will help ensure that victims of wrongdoing get fair compensation and relief, rather than a raw deal that lines the pockets of those who either allegedly represent them or those who are on the defendant side who want to avoid some of the payments they would otherwise have to make.

There are no caps in this bill. It does not impose any rigorous procedural requirements or evidentiary requirements of proof at all. In short, no citizen will in any way lose his or her right to go to court to seek redress for their grievances.

You get anecdotal stories, hearing of one case or another. This bill is about court reform, getting a system right. It is long overdue. It does not mean that every tort reform measure that comes before us ought to be supported, but on this one, those of us who worked on this believe we have done a good job. We were asked to make four improvements in this bill. We made 12 of them over a year ago.

I thank the Senator from Delaware, Mr. CARPER, Senator FEINSTEIN, Senator SCHUMER, Senator LANDRIEU, and other Members on the Democratic side who have worked on this issue to make this possible.

Again, my thanks—and it should be noted—to the distinguished Senator from Nevada, Mr. REID, and Senator FRIST, who struck a procedural agreement so the Senate could consider this bill.

The PRESIDING OFFICER. The Democratic leader.

Mr. REID. Mr. President, yesterday on the Senate floor I expressed serious concerns about this legislation that is pending before the Senate. I explained at that time that this legislation, in my opinion, is one of the most unfair, anti-consumer pieces of legislation to come before the Senate in a long time. It slams the courthouse doors on a wide range of injury plaintiffs, it turns federalism upside down by preventing State courts from hearing State law claims, and it limits corporate accountability at a time of rampant corporate scandals. Instead of turning up

the heat on corporate fraud, this bill lets corporate wrongdoers off the hook.

At the beginning of the debate yesterday, I said this is a bad piece of legislation, but there are going to be some amendments offered, amendments that will improve this bad legislation. They would have made significant improvements. But my hope of these amendments passing was very short lived. It did not happen. Over the last 2 days, the Senate has turned away each and every effort to make this bill less offensive. Every single amendment—each a message of fairness—was debated and turned down. That is a shame. Proponents of this bill explained their opposition to the common sense amendments by describing the current bill as a "delicate compromise." I have heard that so many times. I spoke to Congressman Sensenbrenner, the chairman of the Judiciary Committee in the House, who is supposedly the gatekeeper on this legislation. He said: We are going to accept legislation that is in keeping with what you did last time. Well, when he said, What you did last time, he was talking about the bill that came out of the Senate Judiciary committee and was here on the floor. These changes would not have dramatically altered that.

If you went downtown to see what K Street wanted with these amendments, of course they were against all of them because, in my opinion, this legislation slams the door on most everyone who wants to bring a case and use class action as the tool for coming to court.

The debate yesterday was characterized by two significant misunderstandings about the bill. First, proponents claimed that under this bill. class action lawsuits could stay in State courts as long as two-thirds of the plaintiffs are from a single State. Well, in fact, the bill reverses longstanding Federal court diversity rules by saying that no matter how many plaintiffs are from a single State, the case can still be removed to Federal court if the defendant corporation is incorporated in a different State. Keep in mind, of the Fortune 500 companies, 58 percent of them are incorporated in Delaware, so the majority of class action lawsuits would be removable just on that figure alone.

For example, in the State of Nevada, at the famous Yucca Mountain, the contractors were in such a rush, the Department of Energy was in such a rush to drill a hole in this mountain, they had a huge auger. The size of this auger was halfway to the top of the second story of this Chamber. It was a huge machine. It dug a hole almost as big as this Chamber—a big tool going right through that mountain. They knew they were coming to a formation there and that the toxic mineral dust from drilling the formation would cause people to get really sick with silicosis. They knew that, but they were in such a rush that they would not even wet down this big tool to prevent the dust. They drilled dry, so to speak, and this toxic dust flew all over and the workers inhaled it. And today, as we speak, people are dying as a result of that.

Well, there has been a request for the case to be considered a class action—under the old law in existence before this passes—that would allow all those workers to join together in a class action and have it certified. Even though well over two-thirds of the plaintiffs are residents of Nevada, the harm was caused in Nevada, and the defendants were obviously doing business in Nevada, a defendant incorporated in a State other than Nevada could remove the case from Nevada State court. That is how this bill works. It is just unfair.

The second mischaracterization of this legislation is that supporters make it sound as though all we are talking about is venue: These cases will simply move from State court to Federal court and proceed just the same. That is simply not true. Under Supreme Court precedents that this bill does nothing to change, Federal judges routinely dismiss class action lawsuits based on State law. Those cases that are not dismissed go to the back of a very long line in the overburdened Federal court system.

One of the foremost experts on class actions is a man who is also an expert in antitrust law. He is a professor at Harvard Law School. His name is Arthur Miller. Here is what he said:

Federal courts have consistently denied class certification in multi-state lawsuits based on consumer as well as other state laws... not a single Federal Circuit Court has granted class certification for such a lawsuit, and six Circuit Courts have expressly denied certification.

The rejection of the Feinstein-Bingaman amendment shows this bill's true colors. And I admire greatly Senator FEINSTEIN for having the courage to do the right thing and say: I have been one of the original pushers of this legislation, but what we are trying to do is unfair, and the Bingaman amendment should be adopted. She joined with him for the Feinstein-Bingaman amendment.

So, if the sponsors merely wanted federal court review of lawsuits with national implications, they would not object to an amendment making clear that federal judges may not dismiss these cases.

But without that change, the truth is plain to see: This bill is designed to bury class action lawsuits, to cut off the one means by which individual Americans ripped off by fraudulent or deceptive practices can band together to demand justice from corporate America.

What does this change mean in the real world? It means, for example, that cases like the one brought by Shaneen Wahl will not be able to go forward. Shaneen is a 55 year old woman, and she was diagnosed with breast cancer. Her health insurance company raised the rates on her insurance premiums from \$194 a month to \$1,800 a month—

a little jump in price. She found out that her insurance company was improperly doing this for tens of thousands of other chronically ill patients. She got a lawyer, they banded together in a class action lawsuit, and they prevailed in state court. Under this legislation, the case would be dismissed.

Another breast cancer survivor also a Florida woman, is 40-year-old Susan Friedman. Susan's insurance company removed her case to federal court, where it was dismissed. She is an unlucky example of what will happen to more people under this legislation. This is the fate of many other class action lawsuits under the bill the Senate will soon pass.

Unfortunately, insurance companies are ripping people off all the time, and this legislation will give the biggest, best businesses in the world, the insurance companies, more money.

In the real world, this legislation means that when a phone company systematically bills customers for services they had cancelled or a plumbing company routinely overcharges customers by \$10, those practices will not be brought to light. The dollar amounts would be too small. Why should the plumbing company get an extra \$10 from everyone? I guess what this legislation means is if you cheat a lot, you can take them to court, but if you cheat just a little bit, lots and lots of times, have at it, because no one can do anything about it. This is the "cheat a little bit" legislation.

This legislation is not good. It will help the tobacco industry avoid accountability. It virtually guarantees that tobacco-related cases will end up in federal court where they won't be able to proceed. I had a person, Fritz Hahn, who lived on my property in Nevada to keep an eye on things. He was there for many years. He started smoking when he was a teenager. He is now dead as a result of tobacco. He smoked too much. He got throat cancer. He died a slow, terrible death. But for class action lawyers, tobacco companies would have a free rein, and they would be able to kill a lot more people like Fritz Hahn.

That is what class action is all about, joining together and going after those companies who do bad things to people. However, this legislation will make it so much more difficult. That is why numerous consumer groups, including the Campaign for Tobacco-Free Kids, the Leadership Conference on Civil Rights, the Consumers Union, the AFL-CIO, Public Citizen, and many others have urged the Senate to reject the bill.

I ask unanimous consent to print in the RECORD scores and scores of companies that support my statement against this legislation.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL ORGANIZATIONS OPPOSED TO FED-ERAL CLASS ACTION LEGISLATION AS OF MAY 21 2004

AARP, ADA Watch/National Coalition for Disability Rights, AFL-CIO, Alliance for Healthy Homes, Alliance for Justice, Alliance for Retired Americans, American Association of People with Disabilities, American Association of University Women, American Cancer Society, American Heart Association, American Federation of Government Employees. American Federation of State. County and Municipal Employees, American Lung Association, American-Arab Anti-Discrimination Committee, Americans for Democratic Action, Bazelon Center for Mental Health Law, Brady Campaign to Prevent Gun Violence, United with the Million Mom March, and Campaign for Tobacco Free Kids.

Center for Disability and Health, Center for Justice and Democracy, Center for Responsible Lending, Center for Women Policy Studies, Civil Justice, Inc., Clean Water Action, Coalition to Stop Gun Violence, Commission on Social Action of Reform Judaism, Communication Workers of America, Consumer Federation of America, Consumers for Auto Reliability and Safety, Disability Rights Education and Defense Fund, Earthjustice, Education Law Center, Environmental Working Group, Epilepsy Foundation, Families USA, Federally Employed Women, Friends of the Earth, and Gray Panthers.

Greenpeace, Homeowners Against Deficient Dwellings, Jewish Labor Committee, Lawyers' Committee for Civil Rights Under Law, Leadership Conference on Civil Rights, Mexican American Legal Defense and Educational Fund, Mineral Policy Center, NAACP Legal Defense and Education Fund, National Alliance of Postal and Federal Employees, National Asian Pacific Legal Consortium, National Association for the Advancement of Colored People, National Association for Equal Opportunity in Higher Ed, National Association of Consumer Advocates, National Association of Consumer Agency Administrators, National Association of the Deaf, National Association of Protection and Advocacy Systems, National Bar Association, National Campaign for Hearing Health, National Center on Poverty Law, and National Coalition on Black Civic Participation.

GOVERNMENT ORGANIZATIONS OPPOSED TO CLASS-ACTION LEGISLATION

Conference of Chief Justices (State Supreme Court Justices), Judicial Conference

of the United States (Federal Judges Association), Attorney General of California, Bill Lockyer, Attorney General of Illinois, Lisa Madigan, Attorney General of Maryland, J. Joseph Curran, Jr., and Attorney General of Minnesota, Mike Hatch.

Attorney General of Missouri, Jeremiah W.

Attorney General of Missouri, Jeremiah W. Nixon, Attorney General of Montana, Mike McGrath, Attorney General of New Mexico, Patricia A. Madrid, Attorney General of New York, Eliot Spitzer, Attorney General of Oklahoma, W.A. Drew Edmondson, Attorney General of Vermont, William H. Sorrell, and Attorney General of West Virginia, Darrell Vivian McGraw, Jr.

Mr. REID. Organizations are against it. State court judges, Federal judges, many state Attorneys General, and the National Conference of State Legislators are against it. Officials in our home States are telling us not to do this. The only groups that want us to pass this bill are those representing defendants in these lawsuits. Sure, they want to be relieved of the burden of accountability. We shouldn't let them. This is not just a battle between big business and lawyers. It is more. It is certainly more anti-lawyer than I would like to think. But that is what we hear coming from the White House.

At a meeting in Las Vegas, the President said: The most hurtful thing in the American economy today is lawyers. I don't believe that, as indicated by the instances I gave about tobacco. Sure there are bad lawyers who bring meritless cases, and there should be something we do to crack down on them. But this bill is not about punishing bad lawyers. More fundamentally this bill is about limiting access to civil courts and hurting consumers.

One of the grievances that inspired our Founding Fathers to revolt against King George was they couldn't bring their grievances to a body.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. REID. What time is that? I will use leader time.

The PRESIDING OFFICER. The Senator had 10 minutes.

Mr. REID. I thank the Chair.

As I was saying, one of the grievances that inspired our Founding Fathers to revolt against King George was limited access to the civil courts. That was based on the rights secured in the year 1215, when King John signed the Magna Carta. King John couldn't sign his name, so he put an X. From that day forward, one of the things that was brought over the ocean and is now in our common law, when the Founding Fathers developed our country, is that you bring to court your grievances. They had a jury that could sit down and talk about what was good and bad about your case. Access to the courts is a basic right in our democracy, and after today it will be a diminished right.

These rights are being denigrated, taken away from us with this legislation. It is too bad. A basic right that has been in existence since we have been a country, they are chipping away

I am going to vote against this illconsidered bill. I recognize it is going to pass. I think that is too bad. I can say this without any question: Downtown beat us. There is no question about that.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. FRIST. Mr. President, in a few minutes we will be voting on the Class Action Fairness Act. We have before us truly a bipartisan bill that was introduced with 32 cosponsors, 24 Republicans and 8 Democrats. It was voted out of the Judiciary Committee on a strong bipartisan vote. Every vote on every amendment that has been offered has been bipartisan, if we look at the vote tallies. I do anticipate that in a few minutes our vote on final passage will be strongly bipartisan as well.

There are a few misconceptions about the bill that I would like to definitively dispel in these final moments. This bill does not close the courthouse doors to injured or aggrieved plaintiffs. It does not. This is court reform. It is designed to rein in lawsuit abuses, and it does just that. The plaintiff may end up in Federal court, ves. rather than State court, but no citizen will lose his or her right to bring a case—no citizen. In fact, the Class Action Fairness Act will protect plaintiffs in large interstate class action cases. No longer will predatory lawyers be able to negotiate deals that leave their clients with coupons while they take home millions. Plaintiffs will now be covered by a consumer bill of rights for the first time, a consumer bill of rights that will require lawyer's fees for coupon settlements to be based either on the value of the coupons that are actually redeemed or on the hours actually billed.

Take the case such as the one in my home State of Tennessee involving a Memphis car dealer. It was discovered that a dealership was instructing its employees to cheat car purchasers by as much as \$2,000. Numerous residents were affected so a class action suit was filed. The suit was eventually settled, and the plaintiffs received a coupon for \$1,200, but that coupon could only be used if they went back to the same dealer who had cheated them in the first place and bought another car. Meanwhile, the trial attorneys who settled the suit received \$1.3 million in legal fees. A number of customers were understandably upset that in order to receive any financial benefit, they would have to take that coupon and go back to the very same dealer, while at the same time the lawyers were able to take their money and put it right into their pockets. The legislation before us today will put a stop to such unfair practices.

Second, the class action bill will help end the phenomenon that we all recognize known as forum shopping. Aggressive trial lawyers have found that a few counties are lawsuit friendly, and in these select State courts, judges are quick to certify a class action and juries are known to grant extravagant damage awards. Meanwhile, this same defendant can face copycat cases all

across the country, each jury granting a different result. These counties may have little or no geographic relationship to either the plaintiff or to the defendant, but the trial lawyers know that simply the threat of suing in these particular counties can lead to huge, extravagant cash settlements. One study estimates that virtually every sector of the U.S. economy is on trial in only three State courts.

The Class Action Fairness Act moves those large nationwide cases that genuinely impact interstate commerce to the Federal courts where they belong. The Class Action Fairness Act is a good bill. It is a fair bill. It is a significant first step in putting an end to the lawsuit abuses that undermine our legal system.

I commend my colleagues for their hard work. I thank, in particular, Senator Grassley, the bill's lead sponsor, who has been working on this issue for a decade; Senator Specter, for leading the bill expeditiously through the Judiciary Committee and on to the floor; Senator HATCH, who has been a tireless advocate for legal reform and class action reform and has helped to manage this bill on the floor; Senator CORNYN, who has been tireless in his presence and participation on this class action bill over the last several days; the bill's Democratic supporters, especially Senator KOHL, Senator DODD, Senator CAR-PER, Senator BEN NELSON; all have worked and reached across the aisle despite great pressure from the bill's opponents, and for that I thank them.

Finally, I thank the Democratic leader, HARRY REID, for working on a process. We just heard him speaking on the floor against the bill. In spite of that personal feeling toward this bill, he has worked in a real leadership manner—working with us to deal with the bill in a timely and expeditious manner on the floor.

The American people expect and deserve a government that works and leaders who work together. I think they have seen it play out very well on this bill. They did elect us to govern toward meaningful solutions. The bill, I believe, demonstrates we are accomplishing just that. We are meeting the challenge and we are moving America forward. I look forward to quick passage of the bill in the House and being able to send it to the President's desk.

Mr. President, we will vote very shortly. So that Members can plan on their schedules, this upcoming vote on final passage of the class action fairness bill will be the last vote of the evening.

Following this vote, we will have a few Members making statements. We will remain in session for a short period today. The Senate will not be in session tomorrow and we will reconvene on Monday.

On Monday, the plans are to begin debate on the nomination of Michael Chertoff to be Secretary of Homeland Security. At closing today, we will reach an agreement that will provide

for debate on the Chertoff nomination during Monday's session, with a vote to occur on that nomination on Tuesday.

Therefore, I am prepared to announce we will not have any votes on Monday. I will have more to say about the precise timing of the debate and vote later today when we wrap up our business. Once again, I thank all Members for their cooperation and assistance throughout the debate on the class action bill. I believe we are ready for final passage.

Mr. President, I ask for the yeas and nays on the bill.

The PRESIDING OFFICER (Mr. COLEMAN). Is there a sufficient second? There is a sufficient second.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. McCONNELL. The following Senators were necessarily absent: the Senator from Pennsylvania (Mr. SANTORUM) and the Senator from New Hampshire (Mr. SUNUNU).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 72, navs 26, as follows:

### NOT VOTING-2

Santorum Sununu

The bill (S. 5) was passed, as follows: S. 5

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

## SECTION 1. SHORT TITLE; REFERENCE; TABLE OF CONTENTS.

- (a) SHORT TITLE.—This Act may be cited as the "Class Action Fairness Act of 2005".
- (b) REFERENCE.—Whenever in this Act reference is made to an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 28, United States Code
- (c) TABLE OF CONTENTS.—The table of contents for this Act is as follows:
- Sec. 1. Short title; reference; table of contents.
- Sec. 2. Findings and purposes.
- Sec. 3. Consumer class action bill of rights and improved procedures for interstate class actions.
- Sec. 4. Federal district court jurisdiction for interstate class actions.
- Sec. 5. Removal of interstate class actions to Federal district court.
- Sec. 6. Report on class action settlements.
- Sec. 7. Enactment of Judicial Conference recommendations.
- Sec. 8. Rulemaking authority of Supreme Court and Judicial Conference.

## Sec. 9. Effective date.

## SEC. 2. FINDINGS AND PURPOSES.

- (a) FINDINGS.—Congress finds the following:
- (1) Class action lawsuits are an important and valuable part of the legal system when they permit the fair and efficient resolution of legitimate claims of numerous parties by allowing the claims to be aggregated into a single action against a defendant that has allegedly caused harm.
- (2) Over the past decade, there have been abuses of the class action device that have—
- (A) harmed class members with legitimate claims and defendants that have acted responsibly;
- (B) adversely affected interstate commerce; and
- (C) undermined public respect for our judicial system.
- (3) Class members often receive little or no benefit from class actions, and are sometimes harmed, such as where—
- (A) counsel are awarded large fees, while leaving class members with coupons or other awards of little or no value;
- (B) unjustified awards are made to certain plaintiffs at the expense of other class members; and
- (C) confusing notices are published that prevent class members from being able to fully understand and effectively exercise their rights.
- (4) Abuses in class actions undermine the national judicial system, the free flow of interstate commerce, and the concept of diversity jurisdiction as intended by the framers of the United States Constitution, in that State and local courts are—
- (A) keeping cases of national importance out of Federal court;
- (B) sometimes acting in ways that demonstrate bias against out-of-State defendants; and
- (C) making judgments that impose their view of the law on other States and bind the rights of the residents of those States.
- (b) PURPOSES.—The purposes of this Act are to—  $\,$
- (1) assure fair and prompt recoveries for class members with legitimate claims;
- (2) restore the intent of the framers of the United States Constitution by providing for Federal court consideration of interstate cases of national importance under diversity jurisdiction; and
- (3) benefit society by encouraging innovation and lowering consumer prices.

#### SEC. 3. CONSUMER CLASS ACTION BILL OF RIGHTS AND IMPROVED PROCE-DURES FOR INTERSTATE CLASS AC-TIONS.

(a) IN GENERAL.—Part V is amended by inserting after chapter 113 the following:

### "CHAPTER 114—CLASS ACTIONS

"Sec.

"1711. Definitions.

"1712. Coupon settlements.

"1713. Protection against loss by class mem-

"1714. Protection against discrimination based on geographic location.

"1715. Notifications to appropriate Federal and State officials.

#### "§ 1711. Definitions

"In this chapter:

"(1) CLASS.—The term 'class' means all of the class members in a class action.

"(2) CLASS ACTION.—The term 'class action' means any civil action filed in a district court of the United States under rule 23 of the Federal Rules of Civil Procedure or any civil action that is removed to a district court of the United States that was originally filed under a State statute or rule of judicial procedure authorizing an action to be brought by 1 or more representatives as a class action.

"(3) CLASS COUNSEL.—The term 'class counsel' means the persons who serve as the attorneys for the class members in a proposed or certified class action.

"(4) CLASS MEMBERS.—The term 'class members' means the persons (named or unnamed) who fall within the definition of the proposed or certified class in a class action.

"(5) PLAINTIFF CLASS ACTION.—The term 'plaintiff class action' means a class action in which class members are plaintiffs.

"(6) PROPOSED SETTLEMENT.—The term 'proposed settlement' means an agreement regarding a class action that is subject to court approval and that, if approved, would be binding on some or all class members.

### "§ 1712. Coupon settlements

"(a) CONTINGENT FEES IN COUPON SETTLE-MENTS.—If a proposed settlement in a class action provides for a recovery of coupons to a class member, the portion of any attorney's fee award to class counsel that is attributable to the award of the coupons shall be based on the value to class members of the coupons that are redeemed.

"(b) OTHER ATTORNEY'S FEE AWARDS IN COUPON SETTLEMENTS.—

"(1) IN GENERAL.—If a proposed settlement in a class action provides for a recovery of coupons to class members, and a portion of the recovery of the coupons is not used to determine the attorney's fee to be paid to class counsel, any attorney's fee award shall be based upon the amount of time class counsel reasonably expended working on the action.

"(2) COURT APPROVAL.—Any attorney's fee under this subsection shall be subject to approval by the court and shall include an appropriate attorney's fee, if any, for obtaining equitable relief, including an injunction, if applicable. Nothing in this subsection shall be construed to prohibit application of a lodestar with a multiplier method of determining attorney's fees.

"(c) ATTORNEY'S FEE AWARDS CALCULATED ON A MIXED BASIS IN COUPON SETTLEMENTS.—
If a proposed settlement in a class action provides for an award of coupons to class members and also provides for equitable relief. including injunctive relief.—

"(1) that portion of the attorney's fee to be paid to class counsel that is based upon a portion of the recovery of the coupons shall be calculated in accordance with subsection (a); and

"(2) that portion of the attorney's fee to be paid to class counsel that is not based upon

a portion of the recovery of the coupons shall be calculated in accordance with subsection (b).

"(d) SETTLEMENT VALUATION EXPERTISE.— In a class action involving the awarding of coupons, the court may, in its discretion upon the motion of a party, receive expert testimony from a witness qualified to provide information on the actual value to the class members of the coupons that are redeemed

"(e) JUDICIAL SCRUTINY OF COUPON SETTLE-MENTS.—In a proposed settlement under which class members would be awarded coupons, the court may approve the proposed settlement only after a hearing to determine whether, and making a written finding that, the settlement is fair, reasonable, and adequate for class members. The court, in its discretion, may also require that a proposed settlement agreement provide for the distribution of a portion of the value of unclaimed coupons to 1 or more charitable or governmental organizations, as agreed to by the parties. The distribution and redemption of any proceeds under this subsection shall not be used to calculate attorneys' fees under this section.

## "§ 1713. Protection against loss by class members

"The court may approve a proposed settlement under which any class member is obligated to pay sums to class counsel that would result in a net loss to the class member only if the court makes a written finding that nonmonetary benefits to the class member substantially outweigh the monetary loss.

#### "§ 1714. Protection against discrimination based on geographic location

"The court may not approve a proposed settlement that provides for the payment of greater sums to some class members than to others solely on the basis that the class members to whom the greater sums are to be paid are located in closer geographic proximity to the court.

## "§ 1715. Notifications to appropriate Federal and State officials

"(a) Definitions.—

"(1) APPROPRIATE FEDERAL OFFICIAL.—In this section, the term 'appropriate Federal official' means—

``(A) the Attorney General of the United States; or

"(B) in any case in which the defendant is a Federal depository institution, a State depository institution, a depository institution holding company, a foreign bank, or a nondepository institution subsidiary of the foregoing (as such terms are defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)), the person who has the primary Federal regulatory or supervisory responsibility with respect to the defendant, if some or all of the matters alleged in the class action are subject to regulation or supervision by that person.

"(2) APPROPRIATE STATE OFFICIAL.—In this section, the term 'appropriate State official' means the person in the State who has the primary regulatory or supervisory responsibility with respect to the defendant, or who licenses or otherwise authorizes the defendant to conduct business in the State, if some or all of the matters alleged in the class action are subject to regulation by that person, or licensing authority, or the matters alleged in the class action are not subject to regulation or supervision by that person, then the appropriate State official shall be the State attorney general.

"(b) IN GENERAL.—Not later than 10 days after a proposed settlement of a class action is filed in court, each defendant that is par-

ticipating in the proposed settlement shall serve upon the appropriate State official of each State in which a class member resides and the appropriate Federal official, a notice of the proposed settlement consisting of—

"(1) a copy of the complaint and any materials filed with the complaint and any amended complaints (except such materials shall not be required to be served if such materials are made electronically available through the Internet and such service includes notice of how to electronically access such material);

"(2) notice of any scheduled judicial hearing in the class action:

``(3) any proposed or final notification to class members of—

"(A)(i) the members' rights to request exclusion from the class action; or

"(ii) if no right to request exclusion exists, a statement that no such right exists; and

"(B) a proposed settlement of a class action;

"(4) any proposed or final class action settlement;

"(5) any settlement or other agreement contemporaneously made between class counsel and counsel for the defendants;

"(6) any final judgment or notice of dismissal;

"(7)(A) if feasible, the names of class members who reside in each State and the estimated proportionate share of the claims of such members to the entire settlement to that State's appropriate State official; or

"(B) if the provision of information under subparagraph (A) is not feasible, a reasonable estimate of the number of class members residing in each State and the estimated proportionate share of the claims of such members to the entire settlement; and

"(8) any written judicial opinion relating to the materials described under subparagraphs (3) through (6).

"(c) DEPOSITORY INSTITUTIONS NOTIFICA-

"(1) FEDERAL AND OTHER DEPOSITORY INSTITUTIONS.—In any case in which the defendant is a Federal depository institution, a depository institution holding company, a foreign bank, or a non-depository institution subsidiary of the foregoing, the notice requirements of this section are satisfied by serving the notice required under subsection (b) upon the person who has the primary Federal regulatory or supervisory responsibility with respect to the defendant, if some or all of the matters alleged in the class action are subject to regulation or supervision by that person.

"(2) STATE DEPOSITORY INSTITUTIONS.—In any case in which the defendant is a State depository institution (as that term is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)), the notice requirements of this section are satisfied by serving the notice required under subsection (b) upon the State bank supervisor (as that term is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)) of the State in which the defendant is incorporated or chartered, if some or all of the matters alleged in the class action are subject to regulation or supervision by that person, and upon the appropriate Federal official.

"'(d) FINAL APPROVAL.—An order giving final approval of a proposed settlement may not be issued earlier than 90 days after the later of the dates on which the appropriate Federal official and the appropriate State official are served with the notice required under subsection (b).

"(e) NONCOMPLIANCE IF NOTICE NOT PRO-VIDED.—

"(1) IN GENERAL.—A class member may refuse to comply with and may choose not to be bound by a settlement agreement or consent decree in a class action if the class

member demonstrates that the notice required under subsection (b) has not been provided

- "(2) LIMITATION.—A class member may not refuse to comply with or to be bound by a settlement agreement or consent decree under paragraph (1) if the notice required under subsection (b) was directed to the appropriate Federal official and to either the State attorney general or the person that has primary regulatory, supervisory, or licensing authority over the defendant.
- "(3) APPLICATION OF RIGHTS.—The rights created by this subsection shall apply only to class members or any person acting on a class member's behalf, and shall not be construed to limit any other rights affecting a class member's participation in the settlement.
- "(f) RULE OF CONSTRUCTION.—Nothing in this section shall be construed to expand the authority of, or impose any obligations, duties, or responsibilities upon, Federal or State officials."
- (b) TECHNICAL AND CONFORMING AMEND-MENT.—The table of chapters for part V is amended by inserting after the item relating to chapter 113 the following:

#### 

- (a) APPLICATION OF FEDERAL DIVERSITY JURISDICTION.—Section 1332 is amended—
- (1) by redesignating subsection (d) as subsection (e); and
- (2) by inserting after subsection (c) the following:
- "(d)(1) In this subsection—
- "(A) the term 'class' means all of the class members in a class action;
- "(B) the term 'class action' means any civil action filed under rule 23 of the Federal Rules of Civil Procedure or similar State statute or rule of judicial procedure authorizing an action to be brought by 1 or more representative persons as a class action;
- "(C) the term 'class certification order' means an order issued by a court approving the treatment of some or all aspects of a civil action as a class action; and
- "(D) the term 'class members' means the persons (named or unnamed) who fall within the definition of the proposed or certified class in a class action.
- "(2) The district courts shall have original jurisdiction of any civil action in which the matter in controversy exceeds the sum or value of \$5,000,000, exclusive of interest and costs, and is a class action in which—
- "(A) any member of a class of plaintiffs is a citizen of a State different from any defendant;
- "(B) any member of a class of plaintiffs is a foreign state or a citizen or subject of a foreign state and any defendant is a citizen of a State; or
- "(C) any member of a class of plaintiffs is a citizen of a State and any defendant is a foreign state or a citizen or subject of a foreign state.
- "(3) A district court may, in the interests of justice and looking at the totality of the circumstances, decline to exercise jurisdiction under paragraph (2) over a class action in which greater than one-third but less than two-thirds of the members of all proposed plaintiff classes in the aggregate and the primary defendants are citizens of the State in which the action was originally filed based on consideration of—
- "(A) whether the claims asserted involve matters of national or interstate interest;
- "(B) whether the claims asserted will be governed by laws of the State in which the action was originally filed or by the laws of other States;

- "(C) whether the class action has been pleaded in a manner that seeks to avoid Federal jurisdiction;
- "(D) whether the action was brought in a forum with a distinct nexus with the class members, the alleged harm, or the defendants:
- "(E) whether the number of citizens of the State in which the action was originally filed in all proposed plaintiff classes in the aggregate is substantially larger than the number of citizens from any other State, and the citizenship of the other members of the proposed class is dispersed among a substantial number of States; and
- "(F) whether, during the 3-year period preceding the filing of that class action, 1 or more other class actions asserting the same or similar claims on behalf of the same or other persons have been filed.
- "(4) A district court shall decline to exercise jurisdiction under paragraph (2)—
- "(A)(i) over a class action in which—
- "(I) greater than two-thirds of the members of all proposed plaintiff classes in the aggregate are citizens of the State in which the action was originally filed;
- "(II) at least 1 defendant is a defendant—
  "(aa) from whom significant relief is sought by members of the plaintiff class:
- "(bb) whose alleged conduct forms a significant basis for the claims asserted by the
- proposed plaintiff class; and "(cc) who is a citizen of the State in which
- the action was originally filed; and "(III) principal injuries resulting from the alleged conduct or any related conduct of

alleged conduct or any related conduct of each defendant were incurred in the State in which the action was originally filed; and

- "(ii) during the 3-year period preceding the filing of that class action, no other class action has been filed asserting the same or similar factual allegations against any of the defendants on behalf of the same or other persons; or
- "(B) two-thirds or more of the members of all proposed plaintiff classes in the aggregate, and the primary defendants, are citizens of the State in which the action was originally filed.
- "(5) Paragraphs (2) through (4) shall not apply to any class action in which—
- "(A) the primary defendants are States, State officials, or other governmental entities against whom the district court may be foreclosed from ordering relief; or
- "(B) the number of members of all proposed plaintiff classes in the aggregate is less than 100.
- "(6) In any class action, the claims of the individual class members shall be aggregated to determine whether the matter in controversy exceeds the sum or value of \$5.000.000, exclusive of interest and costs.
- "(7) Citizenship of the members of the proposed plaintiff classes shall be determined for purposes of paragraphs (2) through (6) as of the date of filing of the complaint or amended complaint, or, if the case stated by the initial pleading is not subject to Federal jurisdiction, as of the date of service by plaintiffs of an amended pleading, motion, or other paper, indicating the existence of Federal jurisdiction.
- "(8) This subsection shall apply to any class action before or after the entry of a class certification order by the court with respect to that action.
- "(9) Paragraph (2) shall not apply to any class action that solely involves a claim—
- "(A) concerning a covered security as defined under 16(f)(3) of the Securities Act of 1933 (15 U.S.C. 78p(f)(3)) and section 28(f)(5)(E) of the Securities Exchange Act of 1934 (15 U.S.C. 78bb(f)(6)(E));
- "(B) that relates to the internal affairs or governance of a corporation or other form of business enterprise and that arises under or

by virtue of the laws of the State in which such corporation or business enterprise is incorporated or organized; or

"(C) that relates to the rights, duties (including fiduciary duties), and obligations relating to or created by or pursuant to any security (as defined under section 2(a)(1) of the Securities Act of 1933 (15 U.S.C. 77b(a)(1)) and the regulations issued thereunder).

"(10) For purposes of this subsection and section 1453, an unincorporated association shall be deemed to be a citizen of the State where it has its principal place of business and the State under whose laws it is organized.

"(11)(A) For purposes of this subsection and section 1453, a mass action shall be deemed to be a class action removable under paragraphs (2) through (10) if it otherwise meets the provisions of those paragraphs.

"(B)(i) As used in subparagraph (A), the term 'mass action' means any civil action (except a civil action within the scope of section 1711(2)) in which monetary relief claims of 100 or more persons are proposed to be tried jointly on the ground that the plaintiffs' claims involve common questions of law or fact, except that jurisdiction shall exist only over those plaintiffs whose claims in a mass action satisfy the jurisdictional amount requirements under subsection (a).

"(ii) As used in subparagraph (A), the term mass action' shall not include any civil action in which—

"(I) all of the claims in the action arise from an event or occurrence in the State in which the action was filed, and that allegedly resulted in injuries in that State or in States contiguous to that State;

"(II) the claims are joined upon motion of a defendant;

"(III) all of the claims in the action are asserted on behalf of the general public (and not on behalf of individual claimants or members of a purported class) pursuant to a State statute specifically authorizing such action; or

"(IV) the claims have been consolidated or coordinated solely for pretrial proceedings.

- "(C)(i) Any action(s) removed to Federal court pursuant to this subsection shall not thereafter be transferred to any other court pursuant to section 1407, or the rules promulgated thereunder, unless a majority of the plaintiffs in the action request transfer pursuant to section 1407.
  - "(ii) This subparagraph will not apply—
- $\lq\lq(I)$  to cases certified pursuant to rule 23 of the Federal Rules of Civil Procedure; or
- "(II) if plaintiffs propose that the action proceed as a class action pursuant to rule 23 of the Federal Rules of Civil Procedure.
- "(D) The limitations periods on any claims asserted in a mass action that is removed to Federal court pursuant to this subsection shall be deemed tolled during the period that the action is pending in Federal court.".
  - (b) Conforming Amendments.—
- (1) Section 1335(a)(1) is amended by inserting "subsection (a) or (d) of" before "section 1332".
- (2) Section 1603(b)(3) is amended by striking "(d)" and inserting "(e)".

# SEC. 5. REMOVAL OF INTERSTATE CLASS ACTIONS TO FEDERAL DISTRICT COURT.

(a) In General.—Chapter 89 is amended by adding after section 1452 the following:

### "§ 1453. Removal of class actions

- "(a) DEFINITIONS.—In this section, the terms 'class', 'class action', 'class certification order', and 'class member' shall have the meanings given such terms under section 1332(d)(1).
- "(b) IN GENERAL.—A class action may be removed to a district court of the United States in accordance with section 1446 (except that the 1-year limitation under section

1446(b) shall not apply), without regard to whether any defendant is a citizen of the State in which the action is brought, except that such action may be removed by any defendant without the consent of all defendants.

"(c) REVIEW OF REMAND ORDERS.—

"(1) IN GENERAL.—Section 1447 shall apply to any removal of a case under this section, except that notwithstanding section 1447(d), a court of appeals may accept an appeal from an order of a district court granting or denying a motion to remand a class action to the State court from which it was removed if application is made to the court of appeals not less than 7 days after entry of the order.

"(2) TIME PERIOD FOR JUDGMENT.—If the court of appeals accepts an appeal under paragraph (1), the court shall complete all action on such appeal, including rendering judgment, not later than 60 days after the date on which such appeal was filed, unless an extension is granted under paragraph (3).

"(3) EXTENSION OF TIME PERIOD.—The court of appeals may grant an extension of the 60-day period described in paragraph (2) if—

"(A) all parties to the proceeding agree to such extension, for any period of time; or

"(B) such extension is for good cause shown and in the interests of justice, for a period not to exceed 10 days.

"(4) DENIAL OF APPEAL.—If a final judgment on the appeal under paragraph (1) is not issued before the end of the period described in paragraph (2), including any extension under paragraph (3), the appeal shall be denied

"(d) EXCEPTION.—This section shall not apply to any class action that solely involves—

"(1) a claim concerning a covered security as defined under section 16(f)(3) of the Securities Act of 1933 (15 U.S.C. 78p(f)(3)) and section 28(f)(5)(E) of the Securities Exchange Act of 1934 (15 U.S.C. 78bb(f)(5)(E));

"(2) a claim that relates to the internal affairs or governance of a corporation or other form of business enterprise and arises under or by virtue of the laws of the State in which such corporation or business enterprise is incorporated or organized; or

"(3) a claim that relates to the rights, duties (including fiduciary duties), and obligations relating to or created by or pursuant to any security (as defined under section 2(a)(1) of the Securities Act of 1933 (15 U.S.C. 77b(a)(1)) and the regulations issued thereunder)."

(b) TECHNICAL AND CONFORMING AMEND-MENTS.—The table of sections for chapter 89 is amended by adding after the item relating to section 1452 the following:

"1453. Removal of class actions."

#### SEC. 6. REPORT ON CLASS ACTION SETTLE-MENTS.

(a) IN GENERAL.—Not later than 12 months after the date of enactment of this Act, the Judicial Conference of the United States, with the assistance of the Director of the Federal Judicial Center and the Director of the Administrative Office of the United States Courts, shall prepare and transmit to the Committees on the Judiciary of the Senate and the House of Representatives a report on class action settlements.

(b) CONTENT.—The report under subsection (a) shall contain—

(1) recommendations on the best practices that courts can use to ensure that proposed class action settlements are fair to the class members that the settlements are supposed to benefit:

(2) recommendations on the best practices that courts can use to ensure that—  $\,$ 

(A) the fees and expenses awarded to counsel in connection with a class action settlement appropriately reflect the extent to

which counsel succeeded in obtaining full redress for the injuries alleged and the time, expense, and risk that counsel devoted to the litigation; and

(B) the class members on whose behalf the settlement is proposed are the primary beneficiaries of the settlement; and

(3) the actions that the Judicial Conference of the United States has taken and intends to take toward having the Federal judiciary implement any or all of the recommendations contained in the report.

(c) AUTHORITY OF FEDERAL COURTS.—Nothing in this section shall be construed to alter the authority of the Federal courts to supervise attorneys' fees.

## SEC. 7. ENACTMENT OF JUDICIAL CONFERENCE RECOMMENDATIONS.

Notwithstanding any other provision of law, the amendments to rule 23 of the Federal Rules of Civil Procedure, which are set forth in the order entered by the Supreme Court of the United States on March 27, 2003, shall take effect on the date of enactment of this Act or on December 1, 2003 (as specified in that order), whichever occurs first.

## SEC. 8. RULEMAKING AUTHORITY OF SUPREME COURT AND JUDICIAL CONFERENCE.

Nothing in this Act shall restrict in any way the authority of the Judicial Conference and the Supreme Court to propose and prescribe general rules of practice and procedure under chapter 131 of title 28, United States Code.

#### SEC. 9. EFFECTIVE DATE.

The amendments made by this Act shall apply to any civil action commenced on or after the date of enactment of this Act.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. LOTT. Mr. President, I move to reconsider the vote and I move to lay that motion on the table

The motion to lay on the table was agreed to.

## MORNING BUSINESS

Mr. LOTT. Mr. President, I ask unanimous consent there now be a period of morning business with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Oregon.

## $\begin{array}{c} \text{MEDICARE PRESCRIPTION DRUG} \\ \text{BENEFIT} \end{array}$

Mr. WYDEN. Mr. President, the staggering cost estimates for the Medicare prescription drug benefit, coupled with the small number of seniors who have signed up so far, has threatened the very survival of this program. I do not want to see that happen, having voted for this program. I want to see the Senate take the steps to ensure that it works; that it delivers medicine to our seniors in a cost-effective way, and ensures that it reaches the hopes and expectations that millions of older people and their families have for this program

The fact is, the Medicare prescription drug program now faces two very serious problems. The first is the skyrocketing cost. These are the costs we have been debating throughout the week, that have been far greater than anyone could have predicted.

A second problem may also herald very big concerns. To date, a small number of older people have signed up for the first part of the drug benefit, the drug card. So what you have is a pretty combustible mix. The combination of escalating costs and a skimpy number of older people signing up thus far raises the very real problem that a huge amount of Government money will be spent on a very small number of people. That is a prescription for a program that cannot survive.

I do not want to see that happen. As someone who voted for this program and worked with colleagues on both sides of the aisle to make this program work to meet the urgent needs of the Nation's older people, I think the Senate ought to be taking corrective action and take corrective action now, in order to deal with what I think are looming problems.

As I said, we learned a bit about the escalating costs of the program. But when you couple that with low levels of participation by older people, that is particularly troublesome. I think it is fair to say, if the drug card debacle—the first part of the program and the small number of older people signing up for the drug card continues into the full benefit phase of the program, what you have is a situation where I believe people are going to say this program cannot be justified at a time of scarce Government resources.

To turn for a moment to the drug card part of the program that I don't think has been discussed much lately, the choices are eye-glazing. There are more than 70 cards available; 39 you can get in any part of the country, the other 30-plus you can get only in some States. The Inspector General of the Department of Health and Human Services reported in an informal survey that the program information was confusing and inadequate.

What makes it amazing is that a lot of folks who were looking at it are people who were relatives of HHS employees. So you have a situation where even folks connected with those who would know a fair amount about this program are having difficulty sorting through it.

I have come to the floor today to try to sound a wake-up call, to say those of us who voted for the program, like myself, and those who opposed it, we ought to be working together on a bipartisan basis now to correct it. The first part of that effort should be to put in place sensible cost containment like we see in the private sector. It is incomprehensible to me that this program is not using the kind of cost containment strategies that you see in Minnesota and Oregon and all across the country.

The Medicare Program is pretty much like a fellow standing in the Price Club who buys one roll of toilet paper at a time. They are not shopping in a smart way. They are not using their purchasing power. I and Senator SNOWE have sought to correct that and

to take steps to use sensible cost containment strategies and ensure that the costs of this program are held down.

Second. I think we need to take steps to make sure that some of the mistakes of the past are avoided. CMS, the agency charged with dealing with this program, needs people with expertise to answer the questions of seniors and family members. There needs to be better information, on the net and elsewhere, that is not incomprehensible gobbledygook. Seniors are going to need information about real savings for each plan. Pie-in-the-sky projections, which is what they have gotten thus far, are not going to cut it. That is what we saw this week with respect to these cost estimates. Suffice it to say. the U.S. Congress is not satisfied.

I believe without effective cost containment and without good administration of the program, particularly as it moves into this next stage, we are going to see the bills continue to run up and we are going to see the participation of seniors continue to run down. That is a prescription for a Government program that cannot survive. I do not want to see that.

I stuck my neck out in order to get that legislation passed. I believe it can survive. Congress needs to hustle, now, to mend it, to mend it with sensible bipartisan cost containment along the lines of what is used in the private sector; mend it with changes in the way the program is administered so it goes into the second phase without some of the problems we saw connected with the drug card. I just hope, as a result of what the Congress has learned this week, that there has been a real wakeup call as to how urgent it is that Congress take these corrective steps and that Congress move quickly. I believe this program now, because of the huge new cost estimates and the problems with getting folks signed up, could well be headed for life support.

I don't want to see that. I think it would be a tragedy. I want the program that I voted for to work. That means it has to be supplemented with good cost containment and improvements in the way it is administered. I intend to work with my colleagues, particularly on the other side of the aisle—Senator SNOWE and Senator McCAIN, who joined me in this legislation—to deal with the cost containment features, plus many colleagues on this side of the aisle who have bills of their own.

I yield the floor.

The PRESIDING OFFICER. The Senator from Florida.

Mr. NELSON of Florida. Mr. President, my comments will come, appropriately, after the distinguished Senator from Oregon, about this program that was enacted a couple of years ago, the so-called providing prescription drugs for senior citizens. There are a number of Senators here who were promised, in order to get their votes, that this program would not cost more than \$400 billion over a 10-year period.

Of course, we know now that the result of the most recent studies is that it is not \$400 billion, it is \$720 billion. How many more cost estimates will go up and up?

There is one thing we can do to this legislation, legislation that this Senator didn't vote for because I thought it was quite flawed—not only the true costs, which we were not given, but the fact that we are not allowing the principle of private enterprise to function. There is a provision in the bill that specifically prohibits the Federal Government, through Medicare, from negotiating bulk rate purchases, thus bringing the cost of the prescription drugs down.

All of our colleagues embrace the private marketplace. Free market competition is where you can get the most efficient products at the least cost.

Why wasn't that same principle of free market competition allowed to work here in the purchase of prescription drugs for Medicare recipients? It is certainly not new to the Federal Government. We have done this for almost 20 years in the Veterans' Administration—for the VA contracts for the purchase of prescription drugs in bulk and, therefore, the cost of the drugs to the Veterans' Administration is considerably less than retail price.

If it is good for the Department of Veterans Affairs, why isn't it good for the rest of the Federal Government and for Medicare to do it? But we were not allowed to because the law specifically says we are going to violate the principle of free market enterprise, and you can't negotiate the price of the prescription drugs down. It seems to me that not only violates the principle, it violates good common sense.

Now what do we do? The news has come out. No, the bill isn't going to cost what was promised, \$400 billion over 10 years; it is going to cost a minimum of \$720 billion over 10 years. We had better be minding our Ps and Qs or else we are going to continue to bankrupt this country by using faulty mathematics.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I ask unanimous consent to speak in morning business for as much time as I consume.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. DORGAN pertaining to the introduction of S. 355 are printed in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

## $\begin{array}{c} {\bf PHARMACEUTICAL} \ \ {\bf MARKET} \\ {\bf ACCESS} \end{array}$

Mr. DORGAN. Mr. President, yesterday I and 28 of my Senate colleagues introduced legislation allowing the reimportation of FDA-approved prescription drugs from Canada and other countries. We have introduced legisla-

tion of this type before, but we have been blocked from consideration in the Senate. We do not intend to be blocked this year. We intend to get the Senate on record. We believe there are sufficient votes in the Senate to pass a bill dealing with the reimportation of prescription drugs. We very much hope we can get a bill to the President and have that legislation signed.

The 29 Senators who have reached agreement on this represent a broad bipartisan consensus in the Senate. That bipartisan group includes Senator Snowe, Senator Grassley, Senator Kennedy, Senator McCain, Senator Lott, Senator Stabenow, and many others—a broad group of Republicans and Democrats joining together to try to put downward pressure on prescription drug prices.

Let me show two pill bottles in the Senate. These bottles held the drug called Lipitor, one of the most popular cholesterol-lowering drugs in America. Obviously, the Lipitor tablets that went into these two bottles are made by the same company. In each bottle, it is the same FDA-approved tablet, made by the same company in the same plant and put in the same pill bottle. The only difference is price. This bottle was sent to a Canadian pharmacy that paid \$1.01 per tablet; this one was sent to the United States pharmacy that paid \$1.81 per tablet.

Why are the Americans charged nearly double for the same pill, put in the same bottle, made by the same company? Because the company can and does call the shots. We do have price controls on prescription drugs in this country: it is the pharmaceutical industry that is controlling prices, and they have decided that the U.S. consumers should pay the highest prices in the world for prescription medicines.

Many of us believe that should not be the case. Miracle drugs offer no miracles to those who cannot afford them. We have so many senior citizens living on fixed incomes in this country who need prescription drugs. Senior citizens are 12 percent of this country's population. Yet they consume over one-third of all the prescription drugs in our country. That is why this issue is so important.

The reimportation legislation we have introduced is again a broad bipartisan agreement between Republicans and Democrats, one we intend to push to a vote. We believe it is finally time that we have a vote in the House and the Senate and get a bill to the President. We understand the President has not supported this. We understand the Food and Drug Administration has been very strong and assertive in saying there are safety issues with this legislation.

That, of course, is patently absurd. We have had testimony before the U.S. Congress that in Europe, for 20 years, they have done reimportation. In Europe, they call it "parallel trading," where if you are from France and want to buy a prescription drug from Germany, that is just fine. If you are from

Italy and want to buy a prescription drug from Spain, that is just fine. Parallel trading in pharmaceuticals has occurred for 20 years, and there has been no safety issue.

We had a pharmaceutical company executive named Dr. Peter Rost, the vice president of marketing for a major drug company, who said:

The biggest argument against reimportation is safety. What everyone has conveniently forgotten to tell you is that in Europe, reimportation of drugs has been in place for 20 years.

This is an executive from the drug industry itself.

He said something else that is important:

During my time responsible for a region in northern Europe, I never once—not once heard the drug industry, regulatory agencies, the government, or anyone else saying that this practice was unsafe.

He is talking about the practice of importing drugs between countries. He goes on to say:

And personally, I think it is outright derogatory to claim that the Americans would not be able to handle reimportation of drugs, when the rest of the educated world can do this.

This is a big issue. This is not a small issue. The price of prescription drugs is on the march upward. Too many Americans cannot afford their medication. It is unfair to have the American people charged the highest prices in the world. We are talking only about importing FDA-approved drugs made in FDA-approved plants, in many cases put in identical bottles, shipped to two different locations. One location is to an American who will pay the highest price, and the other location is to other major countries around the world whose citizens are charged much lower prices.

We think that is unfair. We intend to try to put downward pressure on drug prices in this country by using trade. Let the American people benefit from this kind of trade.

Finally, if people wonder whether the price difference is just with respect to Lipitor, it is not. The unfair price discrepancy is significant for Prevacid, Zocor, Nexium, Zoloft—the list is very substantial.

For instance, Nexium is advertised a great deal on television. In the United States the price for 90 doses is \$409. The price in Canada is \$239. Or Zocor. A well-known football coach on television tells us how important Zocor is. As an American, he pays \$383 for 90 doses; a Canadian pays 46 percent less. That describes the problem we are trying to correct.

## SOCIAL SECURITY

I will mention one additional item today. That is the aggressive debate that is occurring and will continue to occur on the subject of Social Security. There is an array of issues that face this country—some big, some small, some of consequence, some not—and we

tend, from time to time, to treat the serious too lightly and sometimes the light too seriously. But this issue of Social Security is a big issue.

I was reading something the other day about this from a Knight-Ridder column:

The promises of Social Security retirement is a hoax. Taxes paid by workers are wasted by the government rather than prudently invested, and the so-called reserve fund is no reserve at all because it contains nothing but government IOU's.

Was that President Bush speaking? No, no. That was the Republican presidential candidate, Alf Landon, in 1936. In 1936 that was the message by people who never liked Social Security—those who never liked Social Security and fought against it when it was created never really quit.

In 1983, the Cato Institute published a paper that served as the manifesto for turning over some of Social Security to the private sector. It recommended the following: Consistent criticism of Social Security to undermine confidence in it. That was part of the strategy. Consistently criticize Social Security to undermine confidence Build a coalition of supporters for private accounts, including banks and other financial institutions that would benefit from private accounts.

They have done pretty well. This manifesto going back to Alf Landon, going to the Cato Institute in 1983—constantly criticize Social Security, undermine it, build a coalition of supporters, banks, and others who would benefit from it. They have done pretty well because they now have an administration that says Social Security is in crisis.

It is not, of course. Social Security is a program that has lifted tens of millions of senior citizens out of poverty over many decades.

People are living longer and better lives, so we will have to make some adjustments. It does not require major surgery.

We will have to make some adjustments in Social Security if we do not get the kind of economic growth we had in the last 75 years. If we do get the kind of growth we had in the economy in the last 75 years, Social Security is fine for the next 75 years with no adjustments needed. But if we get only 1.9 percent economic growth, as the Social Security actuaries predict, we will have to make some adjustments—but not major adjustments and not major surgery.

The President and others are using terms such as "broke," "bankrupt," "flat busted," in order to demonstrate that something has to be done with Social Security. Yet he is offering nothing that would address the solvency of Social Security. Nothing. He is proposing, instead, the creation of private accounts using a portion of the Social Security money. Unfortunately, this would increase the problem in Social Security.

We need to have and will have a very aggressive debate about this issue. My feeling is that we ought to do two

things: One, we ought to preserve and protect Social Security. It is a program that has worked, and it continues to work well. It is the bedrock social insurance that the elderly rely upon when they reach retirement age. When they reach this point at which they are no longer working and have diminished income, Social Security is what they can depend on to keep them out of poverty.

Some say: Let's decide to put some of that money in the stock market. Well, I am all for private accounts, but not in the Social Security system. We have 401(k)s, IRAs, pension programs, and Keogh programs. We have done a lot to incentivize private accounts. We now provide about \$140 billion per year in tax incentives to encourage the use of these retirement accounts.

We ought to continue providing these incentives, and even increase them, but not in Social Security. Social Security is not an investment account; it is an insurance account. It has always been an insurance account.

A leading spokesperson on the far right said the following a couple of weeks ago: Social Security is the soft underbelly of the welfare state. Well, if you believe that, then I understand why you do not want Social Security, why you do not like Social Security, why you would like to take it apart. I understand that. I respect that view, even if it is dreadfully wrong. We need to respect different viewpoints. There is no reason for all of us to think the same thing all the time.

Someone once said: When everyone is thinking the same thing, no one is thinking very much. So I understand and respect people with different viewpoints. If you never liked Social Security, if you believe it is part of the welfare state as opposed to an enormously successful social insurance program that has worked for 70 years to lift the elderly out of poverty, if you really believe it is unworthy and you want to take it apart, I understand that. But I do not agree. I believe we need to fight as hard as we can to oppose those who would dismantle Social Security.

It is safe to say that none of the people I have ever heard speak against Social Security will ever need it. None of them will ever need it. Almost all of them speak from a position of financial solvency. In most cases, they have the gift of a very solid financial background. Well, good for them.

But maybe they should understand there are a lot of folks in this country who reach those declining income years and do not have very much. They worked hard and led good lives, but they end up with not very much.

Their aspiration was not to make as much money as they could; it was to serve their community. But they did not end up with very much. The same is true with a lot of people. They live a good life, do good things, help other people, but they do not end up with a lot.

A friend of mine died about 2 months ago. He was an older man. He was close

to 90 years old. He had a great life. He was a wonderful man.

After his funeral, his wife sent me a note. She said, very simply: Oscar always helped his neighbors, and he always looked out for those who were not so well off. That is all she said.

I thought, what a wonderful thing to say about someone's life. He always helped his neighbors and always looked out for those who were not so well off. What a great life. He did not make a lot of money, he did not die with a huge estate, but he had a great life.

So does Social Security—the social insurance program that he and others know will be there when they reach retirement—enrich their lives, make their lives better, allow them to depend on something that will be there? You bet it does. It is important.

I find it interesting that the chant and the mantra in this town, from the White House, yes, and from some of our colleagues, is that the most important thing for us to do is to eliminate the tax on inherited wealth. They say you have to eliminate what they call the death tax. But there is no death tax. That is just something a pollster came up with.

My colleague Phil Gramm from Texas was on the floor once, and I explained to him, were he to die, his wife would own his entire estate, with no tax. So he must be exempt. The fact is, there is no death tax. When one spouse dies, the other spouse has a 100-percent exemption, and they own all those assets.

There is, however, a tax not on death but on inherited wealth, in certain circumstances. So what we have is a proposal to eliminate the tax on inherited wealth, which would largely benefit the folks who have accumulated the most wealth in this country.

We have about half of the world's billionaires living in the United States, and good for us, and good for them. Most of that money accumulated by billionaires is a result of appreciation in stocks, and has never been subjected to a tax.

Our colleagues have created this wonderful little description of the estate tax or the tax on inherited wealth. They have now described it as a death tax. And they are on the floor of the Senate saying that when Donald Trump, for example, passes on and moves to another life, his estate should not be taxed. I would not normally use a name, but Donald Trump is a wonderful and very successful businessman. He likes to have people use his name, so I am sure he will not mind if I use his name.

I think the fight to repeal the tax on inherited wealth is an interesting one. At the very same time, the administration says: We think we are desperately short of money to help pay for the basic Social Security benefits for the low-income elderly who have reached retirement age.

Oh, we have plenty of energy to repeal the tax on inherited wealth for the

richest Americans, but we do not have the will to make sure that Social Security will be there when you retire. I believe it is a matter of values, a matter of choice, and a matter of priorities.

Some will say: Well, if all you are doing is supporting Social Security, you are just old-fashioned. There are some timeless truths in life. It seems to me that standing up for something that has so dramatically improved life in this country is a timeless truth. And it's one that I would like to be a part of.

Before Social Security was enacted, one-half of the elderly in America were poor. They were living in poverty. Today that figure is less than 10 percent. This program is often the only support for those who reach retirement age.

I cannot tell you how many times I have been to meetings when someone has come up to me, at the end of a meeting in North Dakota, very often in a small town—very often a woman living alone—who talks about how important that Social Security check is. They tell me that it determines whether they can buy groceries or pay the rent and have the opportunity to continue to live alone. It is so important and has been such a benefit for so many lives.

Now, I am for change when change advances our interests and lifts our country. I am for private accounts if they are outside of Social Security. I encourage people to provide more for their retirement security by investing more in IRAs and 401(k)s. But I am not for anyone who wants to take apart the basic Social Security program.

One of my colleagues calls this an "evidence-free zone" here in Washington, DC, that despite the evidence, people use whatever rhetoric they want to use. Well the evidence is pretty clear. The President says that if you could take a part of Social Security, invest it in private accounts, you will have this wonderful nirvana with dramatic returns in private accounts, and you will all end up with a lot of money.

The problem is this: The President believes the Social Security system is in crisis because the actuaries in the Social Security program predict that rather than the 3.4-percent economic growth we have had for the past 75 years, we will only have 1.9-percent economic growth in the next 75 years. If you have 1.9-percent economic growth for 75 years, you are not going to get the kind of corporate profits that lift the stock market and provides returns in private accounts.

You cannot have it both ways. Either you have an economy that is robust and growing, in which case you do not have a Social Security funding issue, or you have 1.9-percent economic growth, dramatically below what we have previously experienced, and you cannot possibly get an adequate return in private accounts. You cannot have it both ways. Yet the administration and others continue to argue both sides of that issue.

This is a big issue and important issue. There is plenty of room for disagreement. I believe passionately and strongly in this issue. I believe the Social Security program is not, as those on the far right would say, the soft underbelly of the welfare state. I don't believe that at all.

This is something that has allowed all Americans to contribute from their paychecks something called FICA. The "I" stands for insurance, because this is an insurance program. I believe this has worked well for over 7 decades. And it can and will work well for 10 and 20 decades from now if we have the will and the nerve and the strength to stand up for the foundation of this nation's retirement security system.

We will have aggressive debates in the coming days and weeks. I come from a state that has a lot at stake in this Social Security debate. We have a higher percentage of people aged 85 years and older than any other state. I have previously mentioned my uncle who has been running foot races, has 43 gold medals, running in the Senior Olympics all over the country, who discovered when he was 72 that he could run faster than anybody his age. His experience illustrates the fact that people are living longer, and good for them.

Part of what has enriched their lives is being able to retire knowing that Social Security will be there for them. It is the guarantee and the promise this country has kept and will continue to keep in the future.

I yield the floor.

The PRESIDING OFFICER (Mr. CHAFEE). The Senator from Delaware.

## BIPARTISANSHIP

Mr. CARPER. Mr. President, I have just returned to the Senate Chamber from a press conference that took place one floor above us in the press gallery. There Democratic and Republican Senators, some of our staff, and a number of reporters discussed the passage of the class action reform bill by a 72-to-26 margin a few moments ago. That was a strong bipartisan vote. I was hoping that we might get 70, maybe even 75 votes, and we ended up right in that neighborhood.

A lot of people deserve credit for the success of the vote: Democratic and Republican Senators who crafted the legislation, debated it in committee, and who improved it over the last 7 years since the first bill was introduced. The key to getting the legislation passed—and it is a fair compromise—was figuring out how to set aside our partisanship, saying that we are not interested in gridlock, and for us to reach across the aisle. Democrats and Republicans and Republicans and Democrats, to figure out how we can reconcile our differences and resolve what has been a very divisive issue for the past 7 years and even before that.

I said at the press conference—I say here today—my thanks to our leader. I

thanked Senator FRIST, the Republican leader. I express my thanks to Senator HARRY REID for his willingness to allow this vote to go forward. The class action bill was not legislation that he endorsed, but he was willing to allow the debate to begin and for those who had amendments to the bill to offer the amendments, that we would have plenty of time to debate them and to decide the amendments, and then without any kind of delaying tactics the Senate would go to final passage and take up the bill. I thank him for the very constructive and positive role he played in allowing this legislation to be passed

The House of Representatives has agreed to accept without change the bill we have passed. The President has agreed to sign that legislation.

I was saddened last night to be reading through my mail and to come across a 29-page document that I believe has been distributed by the Republican National Committee. There is a picture of Senator HARRY REID on the cover, along with our former leader, Senator Tom Daschle. The caption under the picture says: "Who is Harry Reid?" And below that we read: "Sen. Minority Leader determined to obstruct President Bush's agenda." For the next 28, 29 pages, this document is an attempt to identify HARRY REID or to try to define who he is and where he is from, his values. I think it is 29 pages of something more akin to venom.

If we are interested in building on the bipartisanship that characterized this week's debate and today's vote on class action reform, those goals are not enhanced or strengthened by this kind of tactic.

I say to my Republican friends—and I don't believe this came from anybody in this Chamber, but it is from someone our Republicans know and work with, people who work for the President or indirectly—if you want Democrats to work with you and find common ground on issues such as class action or energy or asbestos or other difficult issues, bankruptcy, this is not the way to do it. If you want to make sure that we have obstructionism, that we have a lack of bipartisanship, if you want to ensure that the climate of the last several years where we got so little done returns, this is the way to do

Whoever is responsible for this, let me just say: Shame on you. Republicans can do better than this. And to the extent that Democrats are responsible for this kind of behavior on our side, shame on us.

I came here 4 years ago from Delaware, which is a little State, such as the State of the Presiding Officer. In our State we have a history of Democrats and Republicans working across the aisle, trying to find common ground and, more often than not, succeeding. This sort of thing would not be tolerated in my State by either Democrats or Republicans. This is not

the way we do business. One of the reasons Delaware is so successful is because of that bipartisan tradition that is part of our fiber.

I hope that we won't see this kind of attack on our leader, and I certainly hope we don't see it on the Republican leader. The Republicans are better than this. So are the Democrats.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CRAIG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. CRAIG pertaining to the introduction of S. 359 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions")

## LOCAL LAW ENFORCEMENT ENHANCEMENT ACT OF 2005

Mr. SMITH. Mr. President, I rise today to speak about the need for hate crimes legislation. Each Congress, Senator Kennedy and I introduce hate crimes legislation that would add new categories to current hate crimes law, sending a signal that violence of any kind is unacceptable in our society. Likewise, each Congress I have come to the floor to highlight a separate hate crime that has occurred in our country.

On July 17, 2004, Donald Brockman, Darren Gay, Shawn Regan and an unidentified 16-year-old boy accompanied another man home after leaving a bar in Austin, TX. After arriving, the four men allegedly punched and kicked the victim as well as forced him to violate himself because they believed he was gay. The four attackers described themselves as Aryan Nazis and later bragged about "beating up a gay man."

I believe that the Government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act is a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

## FAREWELL TO JOE F. COLVIN

Mr. DOMENICI. Mr. President, I would like to recognize the significant achievements of Joe F. Colvin, who is retiring as president and chief executive officer of the Nuclear Energy Institute, and acknowledge his many noteworthy contributions in building a strong future for nuclear energy, America's largest emission-free electricity source.

As chairman of the Senate Energy and Natural Resources Committee, it has been my distinct pleasure to work closely with Mr. Colvin and his organization. I can personally attest to his leadership in guiding the nuclear energy industry through a period of extraordinary renaissance.

Mr. Colvin has provided more than 40 years of service to our Nation, first as a submarine office in the U.S. Navy and later in the commercial nuclear energy industry.

When he took the helm at NEI in 1996, conventional thinking was that the industry was stagnant and nuclear power had no future in America's energy mix. He rejected that view and tirelessly worked to advance nuclear energy's true capabilities—its proven safety, its contribution to our environment and its affordability.

After more than 20 years of debate, Congress passed legislation in 2002 designating Yucca Mountain as the site of Nation's used fuel repository giving our Nation clear direction for our used fuel management program.

Today, America's nuclear plants are now recognized as the significant assets they are, and the nuclear energy industry is more competitive than ever. In addition, several companies are testing an improved licensing process for new nuclear power plants.

Although Mr. Colvin is quick to acknowledge the accomplishments of others, his own work on behalf of the nuclear energy industry has paid enormous dividends. Through frequent testimony before congressional committees, conversations with senior Government officials and countless others, he has educated many about the value of nuclear energy and the promise it holds.

Hence, it is with mixed emotions that I wish Mr. Colvin, a great University of New Mexico Lobo, all the best in his retirement from the Nuclear Energy Institute. He has earned a well-deserved respite.

PHARMACEUTICAL MARKET ACCESS AND FAIR TRADE ACT OF 2005

Mr. JOHNSON. Mr. President, I rise today to discuss the introduction of an important piece of legislation that will greatly aid Americans, both young and old, with their health care costs. I, along with a bipartisan group of Senators, have introduced the Pharmaceutical Market Access and Fair Trade Act of 2005. This legislation would provide much needed assistance for millions of Americans who are struggling to pay for their prescription drugs.

American consumers are currently charged 55 percent more, on average, for the same brand-name medicines sold in other major developed countries for a fraction of the price. The Pharmaceutical Market Access and Fair Trade Act of 2005 would allow American consumers to benefit from international price competition for prescription medicines through the reimportation of FDA-approved prescription drugs. This legislation allows U.S.-licensed pharmacies and drug wholesalers to

import medications from Canada, Europe, Australia, New Zealand, and Japan and pass along the savings to their American customers. This approach would allow Americans to benefit from lower prices on their prescription drugs while still enabling them to use their local pharmacy. The bill also allows individual consumers to import prescription drugs for their own personal use

One of the leading arguments against reimportation has been concerns over safety of the prescription drugs that are sold abroad. My colleagues and I have addressed this issue by providing strict safety measures in this legislation which are intended to guarantee that only safe, effective FDA-approved prescription drugs are imported. Such provisions would require pharmacies and drug wholesalers to register with the FDA and be subject to frequent, random inspections. It would allow only the importation of FDA-approved medicines with a "chain of custody" that can be traced all the way back to FDA-inspected manufacturing an plant. It would provide for the use of the anticounterfeiting technology to identify safe, legal imported medicines, as well as give the FDA resources and authority it needs to ensure the safety of imported drugs and to stop those that are unsafe.

It is very important that the bill this Congress takes up and passes will not only become law but also ensure that reimportation is actually allowed to occur. This bill ensures that by including features to prevent a drug company from blocking importation by making subtle changes to a drug, such as changing the color or the place of manufacture, so that it is no longer FDA approved.

It is about time that the Senate takes up this legislation and passes it. It has broad bipartisan support and has been subjected to intense discussion, review, and debate. We are now faced with health care costs nationwide that are spiraling out of control, and we need to take action to address this issue. Allowing the safe reimportation of prescription drugs is a step in the right direction. The majority of the American people support reimportation, and I hope the leadership of this body will listen to them and finally provide the relief our citizens need.

## COMMISSION ON MEDICAID AND THE MEDICALLY UNDERSERVED

Mr. CHAFFEE. Mr. President, I am pleased to join Senator Gordon Smith and others in the introduction of a bipartisan proposal that calls for the creation of a Commission on Medicaid and the Medically Underserved. This legislation recognizes the importance of assessing what aspects of the Medicaid program are working, which need reform, and how to improve service delivery and quality in the most cost effective manner possible. In this tight budget climate this bill highlights the need for a comprehensive assessment of the Medicaid program. The future of

Medicaid cannot be determined by cost alone.

This Medicaid commission would be charged with numerous duties, including reviewing and making recommendations on long-term goals of the program, populations served, financial sustainability, interaction with Medicare and the uninsured, and the quality of care provided. Medicaid is a critically important program that helps meet the health care needs of a diverse population. Namely it serves as a source of traditional insurance for poor children and some of their parents, it pays for an acute and long term care services for the elderly and disabled, wraps around coverage or assistance for low-income seniors and the disabled on Medicare, and serves as the primary source of funding for safety net providers serving Medicaid patients and the uninsured.

In recognition of the diverse population Medicaid serves, the Medicaid commission would be comprised of 23 members representing all the stakeholders in the Medicaid program. The commission has 1 year to hold public hearings, conduct evaluations and deliberations, and issue its report recommendations to the President, Congress and the public.

Like many of our Nation's governors, I agree that the Medicaid program needs a careful assessment with an eye toward reform that will make the program financially sustainable. At the same time, I recognize the importance of not fundamentally altering the structure of program without the deliberation necessary to preserve aspects of the program that are working. I urge my colleagues to join me in supporting Senator SMITH's legislation to help bring Medicaid into the 21st century with reforms driven by efficacy, and not simply the cost of the program.

## ADDITIONAL STATEMENTS

HONORING THE ACCOMPLISH-MENTS OF WEST KENTUCKY COMMUNITY AND TECHNICAL COLLEGE

• Mr. BUNNING. Mr. President, I pay tribute and congratulate West Kentucky Community and Technical College, WKCTC, as one of the finalists for the prestigious Bellwether Award presented by the Community College Futures Assembly. Their recent recognition has given Kentucky reason to be proud.

As one of eight national finalists, WKCTC is recognized for its Realtime Captioning Technology program. This program, which was originally funded by a \$475,000 Congressional award, creates a distance-learning format designed to greater prepare individuals for the workplace, while also providing broadcast captioning for the hearing-impaired. With over 28 million deaf and hearing-impaired Americans nationwide, I am sure that you will join me in recognizing the importance of providing such a service.

The Bellweather award was established in 1995 as integral part of the Community College Futures Assembly. This assembly primarily focuses on cutting-edge, trend setting programs, which often run the risk of being replaced at larger colleges.

I hope that you will join me today in both recognizing and congratulating West Kentucky Community Technical College in their recent achievement. They serve as an example to the rest of the Commonwealth of Kentucky. I wish them continued success in their program.

TRIBUTE TO ALISON NICHOLS, BRITTANY SALTIEL AND SARA SIEGAL

• Mr. OBAMA. Mr. President, I speak today to recognize three gifted students from the State of Illinois: Alison Nichols, Brittany Saltiel, and Sara Siegal, all students at Stevenson High School in Lincolnshire, IL.

These three students created a National History Day project on the Mississippi Burning legal case. Alison, Brittany, and Sara's efforts to examine the circumstances of this case have led to not only a reopening of the case but also the overdue indictment of Edgar Ray Killen for the murder of three young civil rights activists: James Chaney, Andrew Goodman, and Michael Schwerner.

As a former civil rights attorney and constitutional law lecturer, I know firsthand the importance of ensuring that justice and the principles of our Constitution are always upheld. I am proud to represent Alison, Brittany, and Sara in the Senate as they serve as a reminder of why all of us have committed our lives to public service.

These students have demonstrated their tremendous potential in scholar-ship and leadership in public affairs. They serve as shining examples for our Nation's young people of how a small group of committed individuals can truly change a community, nation, and the world. Alison, Brittany, and Sara deserve not only our congratulations; they deserve our gratitude for making this country stronger.

### GRADING THE STATES ON GUN SAFETY

• Mr. LEVIN. Mr. President, last month the Brady Campaign to Prevent Gun Violence, in partnership with the Million Mom March and a number of State gun safety groups, released its 8th Annual Report Card on State Gun Laws Protecting Children. I applaud the efforts of these organizations to keep the pressure on State and local legislators to enact sensible gun safety legislation, and I encourage my colleagues to review this report.

The Brady Campaign report assigns individual States a grade of A through F on seven types of laws that protect children from gun violence. "Extra credit" and "demerits" were also assigned for other State gun safety laws.

The Brady Campaign includes in its analysis such questions as: Is it illegal for a child to possess a gun without supervision? Is it illegal to sell a gun to a child? Are gun owners held responsible for leaving loaded guns easily accessible to children? Are guns required to have child-safety locks, loadedindicators chamber and other childproof designs? Do cities and counties have authority to enact local gun safety laws? Are background checks required at gun shows? And, is it legal to carry concealed handguns in public?

Children around the country continue to be at great risk from gun violence. This year, the Brady Campaign awarded only six States an A rating in their report. Unfortunately, 31 States received grades of D or F. Only one State improved its grade from last year, while two others took actions that will make communities less safe from the threat of gun violence. However, I was encouraged that the number of "extra credit Sensible Safety Stars" for protecting children from gun violence more than doubled to 21, and that the number of "Time-Out Chair demerits" assigned for weakening State gun laws was cut from ten to six.

While some States have taken positive steps on the issue of gun safety in the last year, more than half are still receiving failing grades from the Brady Campaign. By passing legislation that reduces child firearm deaths, Congress can help to improve the grades of these States. I urge my colleagues to take up and pass common sense gun safety legislation that will close the gun show loophole, reauthorize the 1994 assault weapons ban, and improve child gun access prevention laws.

## MESSAGE FROM THE PRESIDENT

A message from the President of the United States was communicated to the Senate by Ms. Evans, one of his secretaries.

## EXECUTIVE MESSAGE REFERRED

As in executive session the Presiding Officer laid before the Senate a message from the President of the United States submitting a nomination which was referred to the Committee on Foreign Relations.

(The nomination received today is printed at the end of the Senate proceedings.)

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-664. A communication from the Deputy Secretary of State, Department of State, transmitting, a report regarding management and security accomplishments of the U.S. Mission in Iraq; to the Committee on Foreign Relations.

EC-665. A communication from the Executive Secretary and Chief of Staff, Agency for

International Development, transmitting pursuant to law, the report of a vacancy in the position of Assistant Administrator, Bureau Management, received on February 7, 2005; to the Committee on Foreign Relations.

EC-666. A communication from the Assistant Secretary, Legislative Affairs, Department of State, transmitting, pursuant to law, a report on the Agency's Competitive Sourcing Activities for Fiscal Year 2004, received January 25, 2005; to the Committee on Foreign Relations.

EC-667. A communication from Chief, Aviation Civil Rights Compliance Branch, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Reports by Carriers on Incidents Involving Animals During Air Transport" (RIN2105–AD48) received on February 2, 2005; to the Committee on Commerce, Science, and Transportation.

EC-668. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Bombardier Rotax GmbH Type 912F, 912S, and 914F Series Reciprocating Engines" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-669. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 767-300 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-670. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 757-200, 200 PF, and 200CB Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-671. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Garmin International Inc. GTX 33, GTX 33D, GTX 33D and GTX 330D Mode S Transponders" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-672. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Gulfstream Aerospace LP Model Gulfstream 100 Airplanes; and Model Astra SPX and 1125 Westwind Astra Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation

EC-673. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: The New Piper Aircraft, Inc. Models PA 23 235, PA 23 250, and PA E23-250 Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-674. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: EXTRA Flugzeugbau GbH Model EA 300 and EA 300/S Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-675. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Airbus Model A310 Series Airplanes; and Model A300-B4-600, B4-600R, and F4-600R Series Airplanes, and Model C4 605R Variant F Airplanes" (RIN2120-A64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-676. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Correction Boeing Model 767–200, -300, and -300F Series Airplanes" (RIN2120–AA64) received on February 8, 2005; to the Committee on Commerce Science and Transportation

EC-677. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Raytheon Aircraft Company Beech 100, 200, and 300 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-678. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: The Lancair Company Models LC40-550FG and LC42-550FG Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-679. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Bell Helicopter Textron Canada Model 222, 222B, 222U, 230, and 430 Helicopters" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-680. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 767–200, 300, and 300F Series Airplanes" (RIN2120–AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-681. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Bombardier Model Cl 215 6B11 and CL 215 6B11 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-682. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Pratt and Whitney Jt8D-200 Series Turbofan Engines; Correction" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-683. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: McDonnell Douglas Model MD 10 10F, MD 10 30F, MD 11F, DC 10 10F, and DC 10 30F Airplanes "(RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-684. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule

entitled "Airworthiness Directives: Airbus Model A320 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation

EC-685. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Rolls Royce Corporation 250-B and 250-C Series Turboprop and Turboshaft Engines" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-686. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 767-300 and 767-300F Series Airplanes Equipped with GE or Pratt and Whitney Engines" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-687. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Empresa Brasileira de Aeronautica Model EMB 135 and EMB 145 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-688. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Raytheon Aircraft Company Beech 200 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-689. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 757-200 and 200 PF Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-690. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Airbus Model A320 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-691. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Lockheed Model 1329 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-692. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 747-100, 100B, 100B SUD, 200B, 200C, 200F, and 300 Series Airplanes; and Model 747SP and 747SR Series Airplanes; Equipped with Pratt and Whitney JT9D-3 and -7 Series Engines or GE CF6-50 Series Engines with (RIN2120-Modified JT9D-7 Inboard Struts" AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-693. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, trans-

mitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Airbus Model A319 and A320 200 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-694. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Pratt and Whitney JT8D 200 series Turbofan Engines" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-695. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Correction: Empresa Brasileira de Aeronautica SA Model EMB 135 and 145 Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-696. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Rolls Royce plc RB211 Trent 875, 877, 884, 884B, 892, 892B, and 895 Series Turbofan Engines" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-697. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Correction; Boeing Model 757–200, 200PF, 200CB, and 300 Series Airplanes" (RIN2120–AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-698. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Correction; Saab Model SAAB SF340A and SAAB 340B Series Airplanes" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-699. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Rolls Royce Deutschland TAY 611-8, TAY 620-15, TAY 650-15, and TAY 651-54 Series Turbofan Engines" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-700. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Correction; Rolls Royce Deutschland TAY 611-8, TAY 620-15, TAY 650-15 and TAY 651-54 Series Turbofan Engines" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-701. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Modification of Class E Airspace; Sedalia, MO; Confirmation of Effective Date" (RIN2120-AA64) received on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

EC-702. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Modification of Class E Airspace; Correction, Sedalia, MO" (RIN2120-AA64) re-

ceived on February 8, 2005; to the Committee on Commerce, Science, and Transportation.

#### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. ENZI, from the Committee on Health, Education, Labor, and Pensions, with an amendment in the nature of a substitute:

S. 288. A bill to extend Federal funding for operation of State high risk health insurance pools.

S. 306. A bill to prohibit discrimination on the basis of genetic information with respect to health insurance and employment.

## EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. ENZI for the Committee on Health, Education, Labor, and Pensions.

\*A. Wilson Greene, of Virginia, to be a Member of the National Museum and Library Services Board for a term expiring December 6, 2009.

\*Katina P. Strauch, of South Carolina, to be a Member of the National Museum and Library Services Board for a term expiring December 6, 2009.

\*Edward L. Flippen, of Virginia, to be Inspector General, Corporation for National and Community Services.

\*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

## INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. DURBIN (for himself, Mr. BUNNING, Mr. OBAMA, Mr. BAYH, and Mr. LUGAR):

S. 341. A bill to provide for the redesign of the reverse of the Lincoln 1-cent coin in 2009 in commemoration of the 200th anniversary of the birth of President Abraham Lincoln; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. McCAIN (for himself, Mr. LIEBERMAN, Ms. SNOWE, Mrs. FEINSTEIN, Mr. CHAFEE, Mr. DURBIN, Mr. LAUTENBERG, Mrs. MURRAY, Mr. NELSON of Florida, Mr. CORZINE, Ms. CANTWELL, Mr. KERRY, and Mr. DAYTON):

S. 342. A bill to provide for a program of scientific research on abrupt climate change, to accelerate the reduction of greenhouse gas emissions in the United States by establishing a market-driven system of greenhouse gas tradeable allowances, to limit greenhouse gas emissions in the United States and reduce dependence upon foreign oil, and ensure benefits to consumers from the trading in such allowances; to the Committee on Environment and Public Works.

By Mr. WYDEN (for himself and Mr. SMITH):

S. 343. A bill to provide for qualified withdrawals from the Capital Construction Fund for fishermen leaving the industry and for the rollover of Capital Construction Funds to individual retirement plans, and for other purposes; to the Committee on Finance.

By Mr. DEWINE:

S. 344. A bill to link recidivist penalties for certain drug crimes; to the Committee on the Judiciary.

By Mr. DURBIN:

S. 345. A bill to amend title XVIII of the Social Security Act to deliver a meaningful benefit and lower prescription drug prices under the medicare program; to the Committee on Finance.

By Ms. STABENOW:

S. 346. A bill to amend the Solid Waste Disposal Act to prohibit the importation of Canadian municipal solid waste without State consent; to the Committee on Environment and Public Works.

By Mr. NELSON of Florida (for himself, Mr. LUGAR, and Mr. ROCKE-

- S. 347. A bill to amend titles XVIII and XIX of the Social Security Act and title III of the Public Health Service Act to improve access to information about individuals' health care operations and legal rights for care near the end of life, to promote advance care planning and decisionmaking so that individuals' wishes are known should they become unable to speak for themselves, to engage health care providers in disseminating information about and assisting in the preparation of advance directives, which include living wills and durable powers of attorney for health care, and for other purposes; to the Committee on Finance.
  - By Mr. SANTORUM (for himself and Ms. Mikulski):
- S. 348. A bill to designate Poland as a program country under the visa waiver program established under section 217 of the Immigration and Nationality Act, and for other purposes; to the Committee on the Judiciary.

By Mr. DOMENICI:

- S. 349. A bill to provide for the appointment of additional judges for the district of New Mexico; to the Committee on the Judiciary.
  - By Mr. LUGAR (for himself, Mrs. BOXER, Mr. CHAFEE, Mr. FEINGOLD, Mr. COLEMAN, and Mr. SMITH):
- S. 350. A bill to amend the Foreign Assistance Act of 1961 to provide assistance for orphans and other vulnerable children in developing countries, and for other purposes; to the Committee on Foreign Relations.
  - By Mr. KENNEDY (for himself, Mr. Kerry, Mr. Akaka, Mrs. Boxer, Mrs. Clinton, Mr. Corzine, Mr. Dodd, Mr. Feingold, Mr. Inouye, Mr. Lautenberg, Mr. Levin, Mr. Lieberman, Ms. Mikulski, Mr. Sarbanes, and Mr. Reed):
- S. 351. A bill to amend title XVIII of the Social Security Act to provide for patient protection by limiting the number of mandatory overtime hours a nurse may be required to work in certain providers of services to which payments are made under the Medicare Program; to the Committee on Finance.

By Ms. MIKULSKI (for herself, Mr. Gregg, Mr. Leahy, Mr. Warner, Mr. Chafee, Mr. Thomas, Mr. Levin, Mr. Salazar, Mr. Allen, Mr. Kennedy, Mr. Jeffords, Ms. Collins, Mr. Sarbanes, Ms. Snowe, Mr. Dorgan, Mr. Reed, Mr. Dayton, and Mr. Kerry):

- S. 352. A bill to revise certain requirements for H-2B employers and require submission of information regarding H-2B non-immigrants, and for other purposes; to the Committee on the Judiciary.
  - By Mr. CONRAD (for himself and Mr. DORGAN):
- S. 353. A bill to amend the Water Resources Development Act of 1999 to direct the Secretary of the Army to provide assistance to

design and construct a project to provide a continued safe and reliable municipal water supply system for Devils Lake, North Dakota; to the Committee on Environment and Public Works.

By Mr. ENSIGN (for himself, Mr. GREGG, Mr. THOMAS, Mr. INHOFE, and Mr. KYL):

S. 354. A bill to improve patient access to health care services and provide improved medical care by reducing the excessive burden the liability system places on the health care delivery system; to the Committee on Health, Education, Labor, and Pensions.

By Mr. DORGAN (for himself and Mrs. CLINTON):

S. 355. A bill to require Congress to impose limits on United States foreign debt; to the Committee on Foreign Relations.

By Mr. BROWNBACK (for himself and Mr. ROBERTS):

S. 356. A bill to direct the Secretary of the Army to convey to the Geary County Fire Department certain land in the State of Kansas; to the Committee on Armed Services.

By Mr. BINGAMAN (for himself, Mrs. HUTCHISON, Mr. NELSON of Florida, Mrs. CLINTON, and Mr. MARTINEZ):

S. 357. A bill to expand and enhance postbaccalaureate opportunities at Hispanic-serving institutions, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. DURBIN (for himself, Mr. SPECTER, Mr. BYRD, Mr. ROCKEFELLER, Mr. COCHRAN, Ms. MIKULSKI, Mr. BAYH, and Mr. SARBANES):

S. 358. A bill to maintain and expand the steel import licensing and monitoring program: to the Committee on Finance.

By Mr. CRAIG (for himself, Mr. KEN-NEDY, Mr. HAGEL, Mr. SPECTER, Mr. LAUTENBERG, Mr. VOINOVICH, SCHUMER, Mr. LUGAR, Mr. DURBIN, COLEMAN, Mr. KERRY, McCain, Mr. Dodd, Mr. Cochran, Mr. Ms. CANTWELL, Domenici, Mr.DEWINE, Mr. LIEBERMAN, Mr. BURNS, Mrs. Boxer, Mr. Roberts, LEAHY, Mr. HATCH, Mr. AKAKA, Mr. LOTT, Mr. NELSON of Nebraska, Mr. BROWNBACK, Mr. LEVIN, Mr. STEVENS, Mr. Wyden, Mr. Martinez, Mr. SALAZAR, Mr. CHAFEE, and Mrs. MUR-RAY):

S. 359. A bill to provide for the adjustment of status of certain foreign agricultural workers, to amend the Immigration and Nationality Act to reform the H-2A worker program under that Act, to provide a stable, legal agricultural workforce, to extend basic legal protections and better working conditions to more workers, and for other purposes; to the Committee on the Judiciary.

By Ms. SNOWE (for herself and Mr. KERRY):

S. 360. A bill to amend the Coastal Zone Management Act; to the Committee on Commerce, Science, and Transportation.

By Ms. SNOWE (for herself, Mr. Kerry, Mr. Stevens, Mr. Inouye, and Ms. Collins):

S. 361. A bill to develop and maintain an integrated system of ocean and coastal observations for the Nation's coasts, oceans and Great Lakes, improve warnings of tsunamis and other natural hazards, enhance homeland security, support maritime operations, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. INOUYE (for himself, Mr. Stevens, Ms. Cantwell, Ms. Snowe, Mr. Kerry, and Mr. Lautenberg):

S. 362. A bill to establish a program within the National Oceanic and Atmospheric Administration and the United States Coast Guard to help identify, determine sources of, assess, reduce, and prevent marine debris and its adverse impacts on the marine environment and navigation safety, in coordination with non-Federal entities, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. INOUYE (for himself, Mr. STE-VENS, Mr. AKAKA, and Mr. LAUTEN-BERG):

S. 363. A bill to amend the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 to establish vessel ballast water management requirements, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. INOUYE (for himself, Mr. STE-VENS, Mr. LOTT, Ms. CANTWELL, Ms. SNOWE, Mr. KERRY, and Mr. LAUTEN-BERG):

S. 364. A bill to establish a program within the National Oceanic Atmospheric Administration to integrate Federal coastal and ocean mapping activities; to the Committee on Commerce, Science, and Transportation.

By Mr. COLEMAN (for himself and Mr. DAYTON):

S. 365. A bill to amend the Torture Victims Relief Act of 1998 to authorize appropriations to provide assistance for domestic and foreign centers and programs for the treatment of victims of torture, and for other purposes; to the Committee on Foreign Relations.

By Mr. GREGG (for himself and Mr. ENSIGN):

S. 366. A bill to improve women's access to health care services and provide improved medical care by reducing the excessive burden the liability system places on the delivery of obstetrical and gynecological services; to the Committee on the Judiciary.

By Mr. GREGG (for himself and Mr. ENSIGN):

S. 367. A bill to improve women's access to health care services, and the access of all individuals to emergency and trauma care services, by reducing the excessive burden the liability system places on the delivery of such services; to the Committee on the Judiciary.

By Mr. LAUTENBERG (for himself, Mr. KENNEDY, and Mrs. MURRAY):

S. 368. A bill to provide assistance to reduce teen pregnancy, HIV/AIDS, and other sexually transmitted diseases and to support healthy adolescent development; to the Committee on Health, Education, Labor, and Pensions.

By Mr. VITTER:

S.J. Res. 3. A joint resolution proposing an amendment to the Constitution of the United States relative to limiting the number of terms that a Member of Congress may serve; to the Committee on the Judiciary.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BAYH:

S. Res. 47. A resolution expressing the sense of the Senate commending civilian employers of members of the reserve components of the Armed Forces for their support of members who are called to active duty and for their support of the members' families: to the Committee on Armed Services.

By Mr. LUGAR:

S. Res. 48. A resolution expressing the sense of the Senate regarding trafficking in persons; to the Committee on Foreign Relations

#### ADDITIONAL COSPONSORS

S. 5

At the request of Mr. Specter, the name of the Senator from Texas (Mr. Cornyn) was added as a cosponsor of S. 5, a bill to amend the procedures that apply to consideration of interstate class actions to assure fairer outcomes for class members and defendants, and for other purposes.

S. 8

At the request of Mr. ENSIGN, the name of the Senator from Mississippi (Mr. LOTT) was added as a cosponsor of S. 8, a bill to amend title 18, United States Code, to prohibit taking minors across State lines in circumvention of laws requiring the involvement of parents in abortion decisions.

S. 37

At the request of Mrs. FEINSTEIN, the names of the Senator from Alaska (Ms. Murkowski), the Senator from Connecticut (Mr. Lieberman), the Senator from Washington (Mrs. Murray), the Senator from Colorado (Mr. Salazar) and the Senator from Kentucky (Mr. Bunning) were added as cosponsors of S. 37, a bill to extend the special postage stamp for breast cancer research for 2 years.

S. 39

At the request of Mr. Stevens, the names of the Senator from Massachusetts (Mr. Kerry) and the Senator from New Jersey (Mr. Lautenberg) were added as cosponsors of S. 39, a bill to establish a coordinated national ocean exploration program within the National Oceanic and Atmospheric Administration.

S. 119

At the request of Mrs. Feinstein, the name of the Senator from Pennsylvania (Mr. Specter) was added as a cosponsor of S. 119, a bill to provide for the protection of unaccompanied alien children, and for other purposes.

S. 183

At the request of Mr. GRASSLEY, the names of the Senator from Utah (Mr. HATCH), the Senator from Montana (Mr. BAUCUS), the Senator from Pennsylvania (Mr. SANTORUM), the Senator from West Virginia (Mr. ROCKEFELLER). the Senator from Oregon (Mr. SMITH), the Senator from North Dakota (Mr. CONRAD), the Senator from Missouri (Mr. TALENT), the Senator from Vermont (Mr. Jeffords), the Senator from Utah (Mr. Bennett), the Senator from New Mexico (Mr. BINGAMAN), the Senator from New Mexico (Mr. Domen-ICI), the Senator from Massachusetts (Mr. KERRY), the Senator from Indiana (Mr. LUGAR), the Senator from Arkansas (Mrs. LINCOLN), the Senator from Missouri (Mr. BOND), the Senator from New York (Mr. SCHUMER), the Senator from Ohio (Mr. DEWINE), the Senator from Nevada (Mr. REID), the Senator from Maine (Ms. Collins), the Senator from Washington (Mrs. MURRAY), the Senator from South Carolina (Mr. GRAHAM), the Senator from South Dakota (Mr. Johnson), the Senator from

Nebraska (Mr. HAGEL), the Senator from Michigan (Ms. STABENOW), the from Senator New Jersey (Mr. CORZINE), the Senator from Connecticut (Mr. DODD), the Senator from Iowa (Mr. HARKIN), the Senator from Maryland (Ms. MIKULSKI), the Senator from Rhode Island (Mr. REED), the Senator from Hawaii (Mr. AKAKA), the Senator from Delaware (Mr. BIDEN), the Senator from Washington (Ms. CANT-WELL), the Senator from Minnesota (Mr. DAYTON), the Senator from Illinois (Mr. DURBIN), the Senator from California (Mrs. Feinstein), the Senator from Hawaii (Mr. INOUYE), the Senator from Wisconsin (Mr. Kohl), the Senator from Louisiana (Ms. LANDRIEU), the Senator from New Jersey (Mr. LAU-TENBERG), the Senator from Vermont (Mr. LEAHY), the Senator from Michigan (Mr. LEVIN), the Senator from New York (Mrs. CLINTON), the Senator from North Dakota (Mr. DORGAN), the Senator from Maryland (Mr. SARBANES), the Senator from Indiana (Mr. BAYH), the Senator from Connecticut (Mr. LIEBERMAN) and the Senator from Arkansas (Mr. PRYOR) were added as cosponsors of S. 183, a bill to amend title XIX of the Social Security Act to provide families of disabled children with the opportunity to purchase coverage under the medicaid program for such children, and for other purposes.

S. 239

At the request of Mr. Wyden, the name of the Senator from Florida (Mr. Nelson) was added as a cosponsor of S. 239, a bill to reduce the costs of prescription drugs for medicare beneficiaries, and for other purposes.

S. 266

At the request of Mr. Lautenberg, the name of the Senator from California (Mrs. Boxer) was added as a cosponsor of S. 266, a bill to stop taxpayer funded Government propaganda.

S. 267

At the request of Mr. CRAIG, the name of the Senator from Idaho (Mr. CRAPO) was added as a cosponsor of S. 267, a bill to reauthorize the Secure Rural Schools and Community Self-Determination Act of 2000, and for other purposes.

S. 320

At the request of Mr. Allard, the name of the Senator from Colorado (Mr. Salazar) was added as a cosponsor of S. 320, a bill to require the Secretary of the Army to carry out a pilot project on compatible use buffers on real property bordering Fort Carson, Colorado, and for other purposes.

S. 336

At the request of Mr. SARBANES, the name of the Senator from Delaware (Mr. BIDEN) was added as a cosponsor of S. 336, a bill to direct the Secretary of the Interior to carry out a study of the feasibility of designating the Captain John Smith Chesapeake National Historic Watertrail as a national historic trail.

S. RES. 44

At the request of Mr. ALEXANDER, the names of the Senator from New York

(Mrs. Clinton), the Senator from Oklahoma (Mr. Coburn), the Senator from Mississippi (Mr. Cochran), the Senator from New Mexico (Mr. Domenici), the Senator from South Carolina (Mr. Graham), the Senator from South Dakota (Mr. Johnson), the Senator from Louisiana (Ms. Landrieu), the Senator from Michigan (Mr. Levin), the Senator from Arkansas (Mr. Pryor) and the Senator from Pennsylvania (Mr. Santorum) were added as cosponsors of S. Res. 44, a resolution celebrating Black History Month.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. GRAHAM (for himself, Mrs. Clinton, Mr. DeWine, Mr. LEAHY, Mr. Allen, Ms. Cant-Well, and Mr. Reid):

S. 337. A bill to amend title 10, United States Code, to revise the age and service requirements for eligibility to receive retired pay for non-regular service, to expand certain authorities to provide health care benefits for Reserves and their families, and for other purposes; to the Committee on Armed Services.

Mr. REID. Mr. President, we have long recognized that our country has an obligation to take care of the brave men and women who wear the uniform of the United States—and their families.

Sixty years ago we passed the GI Bill of Rights for the 16 million veterans who served in World War II. By providing new opportunities in housing and education, we helped them return to civilian life.

Our military forces have changed dramatically since then—but the benefits we offer to military families haven't kept pace with the changes.

Today our military relies on volunteers, and our security depends on recruiting and retaining good troops—including members of the National Guard and Reserves.

The Guard and Reserves serve at the command of State governors, but members are also available to be called to active duty by the President. And over the last 10 years, the role of the National Guard and Reserves in our military has steadily increased.

Today, reports indicate that almost half of the forces deployed in support of Operation Enduring Freedom and Operation Iraqi Freedom come from the National Guard and the Reserves.

These Guardsmen and Reservists are not only providing much-needed "boots on the ground." They bring specific skills that our regular active military cannot duplicate.

For example, in my home state of Nevada, half of the pilots in the Nevada Air National Guard are civilian pilots.

A majority of the Nevada National Guard military police, who are in the 72nd MP Company that just returned from Iraq, work as law enforcement officers in Las Vegas.

And the Nevada Army Guard's 126th Medical Company an air ambulance unit, which flew more than 174 traumatic medical evacuations in Afghanistan, is made up entirely of men and women who work as civilian paramedics.

So the National Guard and Reserves are strengthened by the fact that members hold civilian jobs as pilots, police officers and paramedics.

The Guard and Reserves also provide the primary service—or the only service—in several crucial areas of national security, including: port security; airport security; civil support teams; and reconnaissance and Drug Air Interdiction.

Since we rely more than ever on members of our National Guard and Reserves, we need to modernize the benefits that are available to them—especially in the areas of retirement and health care.

Let's start with health care.

It's true that service in the Guard and Reserve is a part time obligation—but it is unlike any other part-time job that a person might hold.

When the Guard and Reserves call, members must put their duty above their regular jobs and even their families. That means taking time off from their regular jobs . . . and forgoing many family activities because they are busy fulfilling their Guard or reserve duties.

And it means being ready for deployment at any time.

In short, we expect members to make the Guard and Reserves a top priority in their lives.

In return for that commitment . . . for the sacrifices they make at their regular jobs . . . we owe them the peace of mind of knowing that their families will receive quality medical care.

We need to offer medical care that leverages the existing military health care system. That is why TRICARE should be an option for all members of the National Guard and Reserves.

The lack of health care benefits for Guard and Reserve members is a serious problem. Currently, about 40 percent of the enlisted members don't have any health care coverage.

This affects troop readiness. In recent mobilizations, 10 to 15 percent of the Guard and Reserve members could not be deployed due to health-related issues.

It also affects the state of mind of those who are training for dangerous deployments. A Reservist in training on the weekend shouldn't be worried about whether his or her sick child will be able to see a doctor.

Providing better health care benefits to members of the Guard and Reserve is not only the right thing to do—it's a matter of national security.

We just also upgrade the retirement benefits available to those who choose to serve for long periods of time.

A person who serves in the Guard or Reserve for 20 years is subject to being called up to active duty numerous times, disrupting his or her civilian career and retirement planning.

We must take this into account, and improve the retirement benefits for Guard and Reserve members.

The current reserve retirement system is 50 years old, and it doesn't reflect the extent to which our nation now depends on the National Guard and Reserves.

This outdated system doesn't allow members to receive retired pay or retiree health benefits until they are 60 years old. We must update the system so those who serve can receive benefits at age 55, if they meet all the other requirements.

This change would recognize the importance of the Guard and Reserves in today's military . . . and it would recognize the sacrifices that members make in their civilian careers in order to serve their country.

Once again, this is not only the right thing to do—it will make our country stronger and safer by encouraging and rewarding service in the National Guard and Reserves.

By Mr. DURBIN (for himself, Mr. Bunning, Mr. Obama, Mr. Bayh, and Mr. Lugar):

S. 341. A bill to provide for the redesign of the reverse of the Lincoln 1-cent coin in 2009 in commemoration of the 200th anniversary of the birth of President Abraham Lincoln; to the Committee on Banking, Housing, and Urban Affairs.

Mr. DURBIN. Mr. President, today I am introducing a bill to honor Abraham Lincoln in 2009, the bicentennial of his birth, by issuing a series of 1-cent coins with designs on the reverse that are emblematic of the 4 major periods of his life, in Kentucky, Indiana, Illinois, and Washington, D.C. The bill would also provide for a longer-term redesign of the reverse of 1-cent coins so that after 2009 they will bear an image emblematic of Lincoln's preservation of the United States as a single and united country.

Abraham Lincoln was one of our greatest leaders, demonstrating enormous courage and strength of character during the Civil War, perhaps the greatest crisis in our Nation's history. Lincoln was born in Kentucky, grew to adulthood in Indiana, achieved fame in Illinois, and led the Nation in Washington, DC. He rose to the Presidency through a combination of honesty, integrity, intelligence, and commitment to the United States.

Adhering to the belief that all men are created equal, Lincoln led the effort to free all slaves in the United States. Despite the great passions aroused by the Civil War, Lincoln had a generous heart and acted with malice toward none and with charity for all. Lincoln made the ultimate sacrifice for the country he loved, dying from an assassin's bullet on April 15, 1865. All Americans could benefit from studying the life of Abraham Lincoln.

The "Lincoln cent" was introduced in 1909 on the 100th anniversary of Lincoln's birth, making the front design by sculptor Victor David Brenner the most enduring image on the Nation's coinage. President Theodore Roosevelt was so impressed by Brenner's talent that he was chosen to design the likeness of Lincoln for the coin, adapting a design from a plaque Brenner had prepared earlier. In the nearly 100 years of production of the "Lincoln cent," there have been only two designs on the reverse: the original, featuring two wheat-heads, and the current representation of the Lincoln Memorial in Washington, DC.

On the occasion of the bicentennial of Lincoln's birth and the 100th anniversary of the production of the Lincoln cent, we should recognize his great achievement in ensuring that the United States remained one Nation, united and inseparable.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S 341

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Abraham Lincoln Bicentennial 1-Cent Coin Redesign Act".

### SEC. 2. FINDINGS.

The Congress finds as follows:

- (1) Abraham Lincoln, the 16th President, was one of the Nation's greatest leaders, demonstrating true courage during the Civil War, one of the greatest crises in the Nation's history.
- (2) Born of humble roots in Hardin County, Kentucky, on February 12, 1809, Abraham Lincoln rose to the Presidency through a combination of honesty, integrity, intelligence, and commitment to the United States.
- (3) With the belief that all men are created equal, Abraham Lincoln led the effort to free all slaves in the United States.
- (4) Abraham Lincoln had a generous heart, with malice toward none and with charity for all.
- (5) Abraham Lincoln gave the ultimate sacrifice for the country he loved, dying from an assassin's bullet on April 15, 1865.
- (6) All Americans could benefit from studying the life of Abraham Lincoln, for Lincoln's life is a model for accomplishing the "American dream" through honesty, integrity, loyalty, and a lifetime of education.
- (7) The year 2009 will be the bicentennial anniversary of the birth of Abraham Lincoln.
- (8) Abraham Lincoln was born in Kentucky, grew to adulthood in Indiana, achieved fame in Illinois, and led the nation in Washington, D.C.
- (9) The so-called "Lincoln cent" was introduced in 1909 on the 100th anniversary of Lincoln's birth, making the obverse design the most enduring on the nation's coinage.
- (10) President Theodore Roosevelt was so impressed by the talent of Victor David

Brenner that the sculptor was chosen to design the likeness of President Lincoln for the coin, adapting a design from a plaque Brenner had prepared earlier.

- (11) In the nearly 100 years of production of the "Lincoln cent", there have been only 2 designs on the reverse: the original, featuring 2 wheat-heads in memorial style enclosing mottoes, and the current representation of the Lincoln Memorial in Washington, D.C.
- (12) On the occasion of the bicentennial of President Lincoln's birth and the 100th anniversary of the production of the Lincoln cent, it is entirely fitting to issue a series of 1-cent coins with designs on the reverse that are emblematic of the 4 major periods of President Lincoln's life.

## SEC. 3. REDESIGN OF LINCOLN CENT FOR 2009.

- (a) IN GENERAL.—During the year 2009, the Secretary of the Treasury shall issue 1-cent coins in accordance with the following design specifications:
- (1) OBVERSE.—The obverse of the 1-cent coin shall continue to bear the Victor David Brenner likeness of President Abraham Lincoln.
- (2) REVERSE.—The reverse of the coins shall bear 4 different designs each representing a different aspect of the life of Abraham Lincoln, such as—
- (A) his birth and early childhood in Kentucky;
- (B) his formative years in Indiana;
- (C) his professional life in Illinois; and (D) his presidency, in Washington, D.C.
- (b) ISSUANCE OF REDESIGNED LINCOLN CENTS IN 2009.—
- (1) ORDER.—The 1-cent coins to which this section applies shall be issued with 1 of the 4 designs referred to in subsection (a)(2) beginning at the start of each calendar quarter
- (2) NUMBER.—The Secretary shall prescribe, on the basis of such factors as the Secretary determines to be appropriate, the number of 1-cent coins that shall be issued with each of the designs selected for each calendar quarter of 2009.
- (c) DESIGN SELECTION.—The designs for the coins specified in this section shall be chosen by the Secretary—
- (1) after consultation with the Abraham Lincoln Bicentennial Commission and the Commission of Fine Arts; and
- (2) after review by the Citizens Coinage Advisory Committee.

#### SEC. 4. REDESIGN OF REVERSE OF 1-CENT COINS AFTER 2009.

The design on the reverse of the 1-cent coins issued after December 31, 2009, shall bear an image emblematic of President Lincoln's preservation of the United States of America as a single and united country.

# SEC. 5. NUMISMATIC PENNIES WITH THE SAME METALLIC CONTENT AS THE 1909 PENNY.

The Secretary of the Treasury shall issue 1-cent coins in 2009 with the exact metallic content as the 1-cent coin contained in 1909 in such number as the Secretary determines to be appropriate for numismatic purposes. SEC. 6. SENSE OF THE CONGRESS.

It is the sense of the Congress that the original Victor David Brenner design for the 1-cent coin was a dramatic departure from previous American coinage that should be re-

produced, using the original form and relief of the likeness of Abraham Lincoln, on the 1cent coins issued in 2009.

By Mr. McCAIN (for himself, Mr. Lieberman, Ms. Snowe, Mrs. Feinstein, Mr. Chafee, Mr. Durbin, Mr. Lautenberg, Mrs. Murray, Mr. Nelson of Florida, Mr. Corzine, Ms. Cant-

WELL, Mr. KERRY, and Mr. DAY-TON):

S. 342. A bill to provide for a program of scientific research on abrupt climate change, to accelerate the reduction of greenhouse gas emissions in the United States by establishing a market-driven system of greenhouse gas tradeable allowances, to limit greenhouse gas emissions in the United States and reduce dependence upon foreign oil, and ensure benefits to consumers from the trading in such allowances; to the Committee on Environment and Public Works.

Mr. McCAIN. Mr. President, I am pleased today to be joined with Senator LIEBERMAN in introducing the Climate Stewardship Act of 2005. This bill is nearly identical to a proposal we offered during the 108th Congress. It is designed to begin a meaningful and shared effort among the emission-producing sectors of our country to address the world's greatest environmental challenge—climate change.

The National Academy of Sciences reported:

Greenhouse gases are accumulating in the Earth's atmosphere as a result of human activities, causing surface air temperatures and subsurface ocean temperatures to rise. Temperatures are, in fact, rising. The changes observed over the last several decades are likely mostly due to human activities.

Again, "temperatures are, in fact, rising." Those are the words of the National Academy of Sciences, a body created by the Congress in 1863 to provide advice to the Federal Government on scientific and technical matters. These comments were written after much thoughtful deliberation and should not be taken lightly. The Academy has a 140-year history and a strong reputation of service to the people of this great country.

In October 2003, in response to the alarming changes in the climate that are being reported worldwide, we were joined by a number of other Senators in the first offering of our proposal for addressing climate change for Senate consideration. We had a hard-fought debate and found ourselves eight votes short of achieving a majority in passage. Today, we resume what we finally can consider a worthy and necessary cause.

I state at the outset that this issue is not going away. This issue is one of transcendent importance outside the boundaries of the United States of America. If you travel to Europe today and visit with our European friends, you will find that climate change/ Kyoto treaty are major sources of dissatisfaction on that side of the Atlantic with the United States of America and its policies. But far more important than that, the overwhelming body of scientific evidence shows that climate change is real, that it is happening as we speak. The Arctic and Antarctic are the "miner's canary" of climate change, and profound and terrible things are happening at the poles, not to mention other parts of the world.

Democracies usually respond to crises when they are faced with them and, at least in the case of this Nation, we address problems and crises that confront us and we move on. We are not very good at long-term planning and long-term addressing of issues that face us in the future. The divisions concerning the issue of Social Security are clearly an example of what I just said.

If we do not move on this issue, our children and grandchildren are going to pay an incredibly heavy price because this crisis is upon us, only we do not see its visible aspects in all of its enormity.

Prime Minister Tony Blair, assuming the stewardship of the G-8, has made it his highest priority. He has very aptly pointed out: Suppose that all of the scientific opinion is wrong; suppose that the ice that is breaking up in the Antarctic in huge chunks is just something which is temporary; suppose that the glaciers receding in the Arctic at a higher rate than at any time in history is something that is a one-time deal; suppose that the melting of the permafrost in Alaska and the Inuit villages collapsing into the ocean is a one-time thing; suppose these increases in violent climate occurrences are all something that are just temporary aberrations; suppose that happens to be true and we have acted. Then the world and the Nation will be better off because we would have developed technologies which are cleaner. We would have taken actions to reduce what everybody agrees is harmful, and that is excess greenhouse gases. And the Nation and the world would be better off.

But suppose the scientists are right. Suppose that the National Academy of Sciences report that says. "Greenhouse gases are accumulating in the Earth's atmosphere as a result of human activities. Temperatures are, in fact, rising. The changes observed over the last several decades are likely mostly due to human activities[ . . . ]" is right; suppose that Dr. Robert Corell, chair of the Arctic Climate Impact Assessment, assessing the economic impacts and consequences of the changing Arctic, and the Arctic Council, composed of the senior officials from the eight Arctic countries that reached the conclusion that the Arctic climate is changing rapidly; that over the past 50 years, temperatures across Alaska, Canada, and much of Russia have increased 3 to 5 degrees Fahrenheit, with winter temperatures in these areas increasing by up to 7 degrees Fahrenheit; that in the past 30 years, the Arctic has lost an area of annual average sea ice larger than all of Arizona and Texas combined, with even stronger declines observed in summer sea ice; that mountain glaciers have also receded dramatically, and the snow cover season

has been shrinking; that greenhouse gas concentration continues to rise; and even larger changes in climate are projected for the next 100 years; suppose they are right.

The observed warming is already having significant impacts on Arctic people and ecosystems. Much larger projected climate changes will result in even greater impacts on the people in the Arctic and beyond. Increasing coastal erosion threatens many Alaskan villages. Warming is also affecting the oil industry. The number of days in which oil exploration and extraction activities on the tundra are allowed under Alaska Department of Natural Resources standards has been halved over the past 30 years.

The projected changes in Arctic climate will also have global implications. Amplified global warming, rising sea levels, and potential alterations in ocean circulation patterns that can have large-scale climatic effects are among the global concerns. Melting Arctic snow and ice cause additional absorption of solar energy by the darker land surface, amplifying the warming trend at the global scale.

Recently, the Australians have predicted that the Great Barrier Reef will be dead by 2050. What is the impact of coral reefs around the world being bleached and dying on the food chain?

Dr. William Fraser, president of Polar Oceans Research Group, testified that mountain ranges flanking the southeastern boundary of the glacier, not visible 30 years ago, are emerging into full view. The amount of ice-free land along the entire southwest coast of Anver Island has been redefined by glacier retreat. Populations of the ice-avoiding Chinstrap and Gentoo penguins have increased by 55 to 90 percent.

The coral reefs are the most biologically diverse ecosystem of the ocean, as we all know. Almost 1,000 coral species currently exist. With the majority of human populations living in coastal regions, many people depend on living coral reef for food and protection from storm surges.

Dr. Lara Hansen stated:

While the Great Barrier Reef is widely considered to be one of the best managed reef systems in the world, local conservation actions will not be sufficient to protect coral reefs from the effects of climate change. To date, studies indicate that the best chance for successful conservation in the face of climate change is to limit the temperature increase. . . .

ADM James Watkins, who was chairman of the U.S. Commission on Ocean Policy, testified that climate change impacts every topic in the report from the health and safety of humans, the health of environment and fisheries to the distribution of marine organisms, including pathogens. Admiral Watkins, former Chief of Naval Operations and former Secretary of Energy, not a renowned environmentalist, went on to say climate change is a serious problem, and it could affect all of the recommendations from the report.

There will be people who will come to this floor and say that climate change is a myth; it is not serious. They will find a scientist, they will find some study group, some of them funded by people with special interests here, but I hope that we will pay attention to Prime Minister Tony Blair, who has made climate change one of the two issues he hopes to address during his presidency of the G–8. This issue I believe is very well understood by a majority of scientists in America.

I have a couple of pictures I will show. I see my colleague from Connecticut is in the Chamber.

Recently, Dr. Rajendra Pachauri, the chairman of the U.N.'s Intergovernmental Panel on Climate Change, stated that he personally believes that the world has "already reached the level of dangerous concentrations of carbon dioxide in the atmosphere."

He went on to say:

Climate change is for real. We have just a small window of opportunity, and it is closing rapidly. There is not a moment to lose.

The International Climate Change Task Force, chaired by Senator SNOWE and the Right Honorable Stephen Byers, Member of Parliament of the United Kingdom, stated in 1 of its 10 recommendations concerning climate change that "all developed countries introduce mandatory cap-and-trade systems for carbon emissions and construct them to allow for future integration into a single global market." That is already being done in Europe as we speak, which is the substance of Senator Lieberman's and my legislation.

States are acting. Nine States in the East have signed on as full participants in this initiative to elevate climate mitigation strategies from voluntary initiatives to a regulatory program. The State of California has approved a new State regulation aimed at decreasing carbon dioxide emissions from vehicles. The States are way ahead of us. I believe one of the reasons for that is because special interests are less active in the States.

This is a chart that shows that the CO2 data has gone up from, as we can see, 1860 to 2001.

This is a picture of the Arctic sea ice loss. The red outline is 1979. This was the Arctic sea ice, which is outlined in red. We can see the size of the Arctic sea ice today. I made a visit with some of my colleagues to the Arctic. We took a ship and stopped at where this glacier was 5 years ago, traveling a number of miles and saw where that glacier is today.

I want to emphasize again, the Arctic and the Antarctic are the miner's canary of global warming because of the thinness of the atmosphere there.

This chart is sea level changes in areas of Florida that would be inundated with a sea level rise.

I usually have—it is probably not here—I usually have a picture of Mount Kilimanjaro, which is known to many of us.

This is a chart of coral bleaching which is taking place as we speak.

If I can add a little parochialism, if I can show a picture of Lake Powell in Arizona, it has been drying up since 1999, draining Lake Powell to well below its high watermark. It is at an alltime low in its seventh year. The lake has shrunk to 10 percent of its capacity.

The signs of climate change are all around us. We need to act. We need to develop technologies and make it economically attractive for industry to find it in their interest to develop technology which will reduce and bring into check the greenhouse gas emissions in the world.

We need to do a lot of things, but a cap and trade, which would put an end to the increase of greenhouse gases and a gradual reduction, is an integral part.

Finally, I would like to return to my other argument in closing.

Suppose the Senator from Connecticut and I are deluded, that all of this scientific evidence, all these opinions, people such as Admiral Watkins in the oceans report, the National Academy of Sciences, the literally hundreds of people in the scientific community with whom Senator Lieberman and I have met and talked are wrong.

Here is the picture of Kilimanjaro in 1912, 1970, and 2000.

Suppose we are deluded, that we are tree-hugging environmentalists who have taken leave of our senses and are sounding a false alarm to the world, and we go ahead and put in a cap and trade, we encourage technologies to be developed and funded, some by the Federal Government in the form of pure research, and we do put a cap on the greenhouse gases, we negotiate an alternate Kyoto Treaty with our friends throughout the world-140 nations are signatories to the Kyoto Treaty-and we join on the provision India and China have to be included and other provisions which we have every right to demand, and we start moving forward on this issue and we are wrong, that the year after next, everything is fine in the world? Then we will have made probably a significant contribution to the betterment of the world and the Earth by reducing greenhouse gases, by developing cleaner technologies, by doing good things, and then Senator Lieberman and I will come to the floor and apologize for sounding this alarm.

But suppose, Mr. President, that we are right. Suppose the National Academy of Sciences is right. Suppose the eight-nation research council that is deeply alarmed at these effects in both the Arctic and Antarctic is wrong; suppose Admiral Watkins is wrong; suppose the Australian Government is wrong when it says the Great Barrier Reef is going to be dead by 2050, and we have done nothing? We have done relatively nothing besides gather additional data and make reports. That is what the U.S. national policy is today: gather information and make reports. I

would argue that is a pretty heavy burden to lay on future generations of Americans.

I welcome the participation, friendship, and commitment of my friend from Connecticut.

Mr. President, I ask unanimous consent to print in the RECORD an article entitled "Arid Arizona Points to Global Warming as Culprit," and a response to Senator INHOFE's floor statement on January 4, 2005.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Feb. 6, 2005] ARID ARIZONA POINTS TO GLOBAL WARMING AS CULPRIT

### (By Juliet Eilperin)

TUCSON.—Reese Woodling remembers the mornings when he would walk the grounds of his ranch and come back with his clothes soaked with dew, moisture that fostered enough grass to feed 500 cows and their calves.

But by 1993, he says, the dew was disappearing around Cascabel—his 2,700-acre ranch in the Malpai borderlands straddling New Mexico and Arizona—and shrubs were taking over the grassland. Five years later Woodling had sold off half his cows, and by 2004 he abandoned the ranch.

Reese Woodling, in white, used to own a 2,700-acre ranch, but lack of rain reduced the grassland—his main source of cattle feed.

"How do you respond when the grass is dying? You hope to hell it starts to rain next year," he says.

When the rain stopped coming in the 1990s, he and other Southwest ranchers began to suspect there was a larger weather pattern afoot. "People started talking about how we've got some major problems out here," he said in an interview. "Do I believe in global warming? Absolutely."

Dramatic weather changes in the West—whether it is Arizona's decade-long drought or this winter's torrential rains in Southern California—have pushed some former skeptics to reevaluate their views on climate change. A number of scientists, and some Westerners, are now convinced that global warming is the best explanation for the higher temperatures, rapid precipitation shifts, and accelerated blooming and breeding patterns that are changing the Southwest, one of the nation's most vulnerable ecosystems.

In the face of shrinking water reservoirs, massive forest fires and temperature-related disease outbreaks, several said they now believe that warming is transforming their daily lives. Although it has rained some during the past three months, the state is still struggling with a persistent drought that has hurt its economy, costing cattle-related industries \$2.8 billion in 2002.

"Everyone's from Missouri: When they see it, they believe it," said Gregg Garfin, who has assessed the Southwest's climate for the federal government since 1998. "When we used to talk about climate, eyes would glaze over.... Then the drought came. The phone started ringing off the hook."

Jonathan Overpeck, who directs the university- and government-funded Institute for the Study of Planet Earth at the University of Arizona, said current drought and weather disruptions signal what is to come over the next century. Twenty-five years ago, he said, scientists produced computer models of the drought that Arizona is now experiencing.

"It's going to get warmer, we're going to have more people, and we're going to have more droughts more frequently and in harsher terms," Overpeck said. "We should be at the forefront of demanding action on global warming because we're at the forefront of the impacts of global warming. . . In the West we're seeing what's happening now."

There are dissenters who say it is impossible to attribute the recent drought and higher temperatures to global warming. Sherwood Idso, president of the Tempe, Ariz.-based Center for the Study of Carbon Dioxide and Global Change, said he does not believe the state's drought "has anything to do with CO<sub>2</sub> or global warming," because the region experienced more-severe droughts between 1600 and 1800. Idso, who also said he did not believe there is a link between human-generated carbon dioxide emissions and climate change, declined to say who funds his center.

The stakes are enormous for Arizona, which is growing six times faster than the national average and must meet mounting demands for water and space with scarce resources. Gov. Janet Napolitano (D) is urging Arizonans to embrace "a culture of conservation" with water, but some conservationists and scientists wonder whether that will be enough.

Dale Turner of the Nature Conservancy tracks changes in the state's mountaintop "sky islands"—a region east and south of Tucson that hosts a bevy of rare plants and animals. Human activities over the past century have degraded local habitats, Turner said, and now climate change threatens to push these populations "over the edge."

The Mount Graham red squirrel, on the federal endangered species list since 1987, has been at the center of a long-running fight between environmentalists and development-minded Arizonans. Forest fires and rising temperatures have worsened the animals' plight as they depend on Douglas firs at the top of a 10,720-foot mountain for food and nest-building materials. The population has dipped from about 562 animals in spring 1999 to 264 last fall.

"They are so on the downhill slide," said Thetis Gamberg, a U.S. Fish and Wildlife biologist who has an image of the endangered squirrel on her business card. Atop Mount Graham, the squirrels' predicament is readily visible. Mixed conifers are replacing Douglas firs at higher altitudes, and recent fires have destroyed other parts of the forest, depriving the animals of the cones they need.

Environmentalists such as Turner worry about the disappearance of the Mount Graham squirrel, the long-tailed, mouselike vole and native wet meadows known as cienegas, but many lawmakers and state officials are more focused on the practical question of water supply.

Reese Woodling, in white, used to own a 2,700-acre ranch, but lack of rain reduced the grassland—his main source of cattle feed.

Arizona gets its water from groundwater and rivers such as the massive Colorado, a 1,450-mile waterway that supplies water to seven states: Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming.

The recent drought and changing weather patterns have shrunk the western snowpack and drained the region's two biggest reservoirs, lakes Mead and Powell, to half their capacity. More precipitation is falling as rain instead of snow, and it is coming earlier in the year, which leads to rapid runoff that disappears quickly.

Scientists at Scripps Institution of Oceanography predict that by 2090 global warming will reduce the Sierra Nevada snowpack, which accounts for half of California's water reserves, by 30 percent to 90 percent. "It makes water management more challenging," said Kathy Jacobs, who spent two decades managing state water resources before joining the University of Arizona's Water Resources Research Center. "You can either reduce demand or increase supply."

Water managers have just begun to consider climate change in their long-term planning. Forest managers have also started asking for climate briefings, now that scientists have documented that short, wet periods followed by drought lead to the kind of giant forest fires that have been devastating the West.

This month, scientists at the National Center for Atmospheric Research in Boulder, Colo., published a study showing that worldwide, regions suffering from serious drought more than doubled in area from the early 1970s to the early 2000s, with much of the change attributed to global warming. A separate recent report in the journal Science concluded that higher temperatures could cause serious long-term drought over western North America.

C. Mark Eakin, a paleoclimatologist at the National Oceanic and Atmospheric Administration who co-wrote the study in Science, said historical climate records suggest the current drought could just be the beginning.

"When you've got an increased tendency toward drought in a region that's already stressed, then you're just looking for trouble," Eakin said. "Weather is like rolling the dice, and climate change is like loading the dice."

Still, Arizona politicians remain divided on how to address global warming. Sen. John McCain (R-Ariz.) has led the national fight to impose mandatory limits on industrial carbon dioxide emissions that are linked to warming, though his bill remains stalled.

"We'll win on this issue because the evidence continues to accumulate," McCain said in an interview. "The question is how much damage will be done until we do prevail."

But other Arizona Republicans are resistant. State Sen. Robert Blendu, who opposed a bill last year to establish a climate change study committee, said he wants to make sure politicians "avoid the public knee-jerk reaction before we get sound science."

That mind-set frustrates ranchers such as Woodling, who is raising 10 grass-fed cows on a leased pasture. At age 69, he will never be able to rebuild his herd, he said, but he believes politicians have an obligation to help restore the environment.

"Man has been a great cause of this, and man needs to address it," he said.

USCAN REBUTTAL TO KEY POINTS IN SENATOR INHOFE'S FLOOR STATEMENT, JANUARY 4, 2005

The following individuals contributed to this response: U.S. Delegation at COP10, Debbie Reed, National Environmental Trust; EU Targets: Jeff Fiedler, Natural Resources Defense Council; Scientific Consensus: Brenda Ekwurzel, Julie Anderson Union of Concerned Scientists; and Costs: Ansje Miller, Environmental Justice and Climate Change Initiative.

### U.S. DELEGATION AT COP10

Senator Inhofe's characterization of Under Secretary Paula Dobriansky's rebuff at attempts to "drag the U.S. into discussions concerning post-Kyoto climate change commitments" at the recent UNFCCC conference in Buenos Aires is only partially accurate. Ms. Dobriansky did, indeed make clear the fact that the Bush administration believes that post-2012 talks are "premature." Some countries, including the E.U., were indeed hopeful that the U.S., the world's largest emitter of greenhouse gas pollution, would join post-2012 discussions, having previously

withdrawn from the Kyoto Protocol, and having proclaimed domestic action to reduce GHG emissions, despite the fact that U.S. emissions continue to increase unabated. Senator Inhofe's material omission from this statement, however, is illustrative of his and the Bush administration's true goals: to prevent the rest of the world from making progress on reducing global GHG emissions. What Senator Inhofe failed to mention in his diatribe was that the Bush administration in Buenos Aires not only demurred from participating in these discussions, but also acted to prevent the rest of the world's countries from beginning those discussions even in the absence of U.S. participation. Without objections from the United States, the post-2012 discussions could have begun, and would have allowed some ideas and suggestions for the post-2012 period to be presented to the next meeting of the UNECCC in November. 2005. But Under Secretary Dobriansky and the Bush administration objected and threw up every possible obstacle to allowing other countries to have those discussions, with or without the U.S. The result is that one multiple-day meeting, with a narrowly defined agenda to discuss post-2012 strategies was agreed to-but the exact nature of the discussions, and the ability of the meeting's participants to report to the UNFCCC in November 2005 was a matter of disagreement even as the agreement was made. It is highly likely that the meeting itself will be contentious, for these reasons. But the real question is why the U.S. insists on blocking the rest of the world from moving on, even if it chooses not to? Senator Inhofe would better serve his constituents and his colleagues to accurately and completely report the Administration's actions at the meeting.

Similarly, the Senator reported that there was discussion but no resolution at the meeting on how to address emissions from developing countries. He claimed that developing countries, "most notably China, remained adamant in Buenos Aires in opposing any mandatory greenhouse gas reductions, now or in the future." Again, his material omission is significant. The United States remained adamant in Buenos Aires in opposing any mandatory greenhouse gas reductions, now or in the future. And the United States urged China and India to do the same. The Bush administration's duplicity-claiming that they will not act until China and India do, and then visibly and vocally urging China and India not to act-is unconscionable, as is Senator Inhofe's. And the Senator perhaps should acknowledge the fact that. since the Senate passed the Byrd-Hagel resolution in 1997, it has passed three additional resolutions on climate change—all of which clearly state that climate change is happening and that the United States should take a credible, leadership role in combating global warming—including by re-engaging in the international climate change negotiations. Paula Dobriansky, when asked whether the Bush administration knew of these resolutions, and if so, whether they intended to comply, said "yes," they were fully aware of resolutions, but "no", they had no intention of complying. If that is the case, so be it-but let's be honest and open about it, Senator Inhofe.

## EU TARGETS

In contrast to Senator Inhofe's contention that "most EU member states will not meet their Kyoto targets and have no real intentions of doing so," a recent analysis by the European Environment Agency (EEA) concluded that the EU is in fact on track to meet its Kyoto targets. This analysis examined existing and planned policies, as well as the use of the Kyoto emissions trading measures.

Looking only at policies that were being implemented at the time of the analysis, EEA projected that the EU would indeed fall short of its targets (with emissions 1% below 1990 instead of 8%). However, looking at planned policies, the EU is on track to exceed its -8% target. Domestic EU policies alone are projected to achieve a 7.7% reduction. The small remaining gap is covered by international emission reduction projects for which funds have already been budgeted.

The effect of "planned policies" cannot be dismissed as wishful thinking. Included in the list of "planned policies" is the EU Emissions Trading Scheme, a mandatory cap-and-trade policy for large stationary sources, which started operation this year. Many other EU-wide policies have been adopted by the EU Council and Parliament, and are now being incorporated into law by EU member states. These policies include measures to promote renewable electricity production, increase building efficiency, and restructure energy taxes. A complete list of future policies that are in advanced stages is available in EEA 2004, at page 21.

The EEA projections cited above exclude two additional means of meeting the targets. First, activities in the forest and agriculture sectors are projected to contribute an additional 0.7% emission reduction. Second, the EU can make up any shortfall in existing and planned policies by using the Kyoto Protocol's International Emissions Trading system, ironically an element of the protocol designed by the US. Under this system EU countries will be able to purchase emissions allowances from other Kyoto countries. This includes Russia, which by most projections will have significant excess allowances. Therefore, although it is environmentally preferable for the EU to meet its Kyoto targets solely through domestic policies, it is almost inconceivable that the EU would not be able to achieve compliance through the purchase of Russian allowances.

## HOCKEY STICK

Senator Inhofe made the following statements regarding research that reconstructs northern hemisphere temperature over the past millennium. "The conclusion inferred from the hockey stick is that industrialization, which spawned widespread use of fossil fuels, is causing the planet to warm. I spent considerable time examining this work in my 2003 speech. Because Mann effectively erased the well-known phenomena of the Medieval Warming Period—when, by the way, it was warmer than it is today—and the Little Ice Age, I didn't find it very credible. I find it even less credible now." Senator Inhofe went on to state. "In other words, in obliterating the Medieval Warming Period and the Little Ice Age, Mann's hockey stick just doesn't pass muster."

Recent warming trends are confirmed by many independent and reinforcing . indicators. Direct temperature measurements from the past 140 years, combined with past temperature measurements inferred from tree rings, ice cores, and annual sediment layers, show that average northern hemisphere temperatures in the late 20th century are higher than they have been in the last 1,000 years. More recent publications push the temperature reconstruction back to 1,800 years. Indeed, the last 10 years (1995-2004), excluding 1996, are the warmest in the instrumental record from 1861 to the present. This unprecedented recent warming trend is one of many pieces of evidence that ties global warming to human-caused emissions of heat-trapping gases from land-use change and fossil fuel burning.

Heat-trapping gases such as carbon dioxide  $(CO_2)$  absorb energy emitted from the earth's surface and radiate it back downward to

warm the lower atmosphere and the surface. The general correlation between temperature and atmospheric CO2 concentration is apparent in ice core records at many locations at the poles and in the temperate and tropical regions throughout the world. The Antarctic ice core records vividly illustrate that current atmospheric carbon dioxide levels are unmatched during the past 420,000 years. Furthermore, CO2 concentration has risen a dramatic 30 percent in the last 150 years. When scientists compare the timing of the recent rise in atmospheric carbon dioxide concentrations with the magnitude of other factors that influence climate—solar variation, volcanic eruptions, and pollutant emissions such as sulfur dioxide-the link between recent warming and human activities is unmistakable.

(2) Debate over the "hockey stick" temperature reconstruction is largely irrelevant to our current policy choices. The shape of the sharp rise in northern hemisphere average temperature, at the end of the last millennium, led to the common practice of referring to the plot as the "hockey stick" figure. Projections of future climate changes, however, are based on the well-known physics linking increasing heat-trapping gas concentrations to conditions at the earth's surface, and these projections do not depend on details of the earth's temperature hundreds of years ago. Thus, debate over the "hockey stick" temperature reconstruction is largely irrelevant to our current policy choices. Nevertheless, because the scientific debate on this issue has been misinterpreted, most recently in Senator Inhofe's January 4, 2005 speech, it is worth clarifying a few points.

The hockey stick analysis is one of many independent reinforcing indicators of the recent warming. For example, glacier melting is increasing, sea level is rising, and many species' ranges are shifting.

The hockey stick reconstruction represents the average temperature across the entire northern hemisphere—an average of many measurements taken from locations north of the equator. This averaging is important because local temperatures can vary considerably for many climatological reasons, and so a hemispheric average gives a truer picture of a warming climate. Therefore, looking at regional data in isolation, such as temperatures from the "Medieval Warm Period" in the North Atlantic area, and to therefore claim that the hockey stick temperature reconstruction is invalid, is inaccurate.

## Additional Remarks

In criticizing the "hockey stick" temperature record, Senator Inhofe charges that the Mann analysis has been criticized in the pages of Geophysical Research Letters (GRL), a respected, peer-reviewed journal, as "just bad science." This quote does actually appear in GRL in a commentary by Chapman et al. (2004), but Inhofe's citation is quite misleading.

The criticism leveled by Chapman et al did not apply to the "hockey stick"-that is, the 1000-year temperature reconstruction by Mann and others. Rather, the Chapman et al. criticism was leveled at a totally different, much more narrow and technical modeling study by Mann and Schmidt in 2003 about borehole reconstructions.

### ARCTIC

Senator Inhofe asserted, using the words of Dr. George Taylor from Oregon, that the Arctic Climate Impact Assessment "appears to be guilty of selective use of data. Many of the trends described in the document begin in the 1960s or 1970s. . . . Yet data are readily available for the 1930s and early 1940s, when temperatures were comparable to (and probably higher than) those observed today."

(1) Temperature trends and sea ice trends shown in the Arctic report are century long trends, from 1900-2000. Therefore, Senator Inhofe's attack on the scientific integrity of the Arctic impact assessment is inappropriate.

(2) Arctic researchers concluded that the recent warming, in contrast to the earlier warming during the 1930s and 1940s, is in response to human activities. No one disputes that Arctic temperatures were almost as high in the 1930s and 1940s as they are now, least of all the scientists involved in the Arctic Climate Impact Assessment. The conclusion that the Arctic is now experiencing a stronger, longer, and more widespread warming trend is based on a robust combination of temperature measurements, sea ice retreat, glacial melting, and increasing permafrost temperatures. For example, the century-long sea ice record clearly shows a strong retreat in sea ice extent in recent decades, whereas no such trend is evident during the earlier warm period.

Scientists have employed observations and models to analyze these two pronounced twentieth-century warming events, both amplified in the Arctic, and found that the earlier warming was due to natural internal climate-system variability and was not as widespread as today's, whereas the recent warming is in response to human activities.

Furthermore, earlier periods of warming either this century or in past centuries do not preclude a human influence on the current warming trend. By way of analogy, just because wildfires are often caused by lightning does not mean that they cannot also be caused by a careless camper. The same can be said for carbon dioxide—just because it has natural sources does not mean that humans do not also contribute to atmospheric carbon dioxide levels and thereby contribute to the resulting warming.

### SEA LEVEL RISE

Sea level talking points

Senator Inhofe stated: "But in a study published this year in Global and Planetary Change, Dr. Nils-Axel Mörner of Sweden found that sea level rise hysteria is overblown. In his study, which relied not only on observational records, but also on satellites, he concluded: 'There is a total absence of any recent 'acceleration in sea level rise' as often claimed by IPCC and related groups.' Yet we still hear of a future world overwhelmed by floods due to global warming. Such claims are completely out of touch with science. As Sweden's Mörner puts it, 'there is no fear of massive future flooding as claimed in most global warming scenarios.'"

 Research and observation has solidly established that sea level is rising. Our longest historical records come from tide gauge measurements taken along the world's coastlines. These measurements indicate that the globally averaged coastal sea level rose at a rate of about 3.5 inches over 50 years (or 0.7 inch per decade since 1950). Since 1993, satellites have continuously measured sea level over the entire ocean, not just along the shoreline as do tide gauges. Satellite measurements can monitor global sea level with a greater accuracy, and they record a higher global sea-level rise rate of about 1 inch per decade. Given the short record of these satellite measurements, scientists cannot yet conclude if the last decade was unusually high or if it represents an acceleration of sea level rise.

(2) Global sea-level rise is primarily the result of expansion of seawater as it warms plus meltwater from land-based ice sheets and land-based mountain glaciers. Many factors contribute to sea level rise, and scientific efforts continue to refine our understanding of the relative contribution of each

to the observed sea-level rise. As the climate warms, we expect to see two different effects in the ocean. First, sea level rises as the ocean temperature increases. Just as a gas expands when it is heated, water also expands as its temperature rises. Second, the amount of water entering the ocean increases as land-based ice sheets and glaciers melt. Increased meltwater adds more freshwater to the ocean and increases sea level, just like adding water to a bathtub. This influx of freshwater also lowers the oceans' salinity. Recent research suggests that all continental sources added the equivalent of about 2.7 inches of fresh water over 50 years to the ocean.

(3) Rising sea levels increase the impacts from coastal hazards. Because of the steadily rising seas we can expect increased damage to coastal communities around the world. Sea-level rise increases coastal erosion, further inundates coastal wetlands, increases the salinity in estuaries and pushes saltwater further landward in coastal rivers. contaminates coastal freshwater aguifers with saltwater, and increases the risks from flooding. Coastal storms of the same intensity as in the past will create greater damage in the future simply because the baseline sea level is higher. Low-lying coastlands such as Louisiana, Florida, Bangladesh, and the Maldives will be impacted most acutely.

### COSTS

Senator Inhofe claimed that Kyoto-like policies harm Americans, especially the poor and minorities. This statement is a false scare tactic directed at our most vulnerable communities. The well-documented truth is that not taking action to slow global warning harms Americans, especially the poor and minorities.

Global warming is already hurting Americans, especially the poor, its Indigenous Peoples, and people of color, and is projected to get worse if we don't act now.

People of color communities—already burdened with poor air quality and twice as likely to be uninsured as whites will become even more vulnerable to climate change related respiratory ailments, heat-related illness and death, and illness from insect-carried diseases.

Scientists have determined that the ice in Alaska and the Arctic region is melting so rapidly that much of it could be gone by the end of the century. The results could be catastrophic for polar-region Indigenous peoples and animals, while low-lying lands as far away as Florida could be inundated by rising sea levels.

"We found that scientific observations and those of Indigenous people over many generations are meshing... Sea ice is retreating, glaciers are reducing in size, permafrost is thawing, all [these indicators] provide strong evidence that it has been warming rapidly in the Arctic in recent decades."—Susan Joy Hassol, global warming analyst and author of the Arctic Climate Impact Assessment (ACIA) synthesis report Impacts of a Warming Arctic.

Flooding and erosion affects 184 out of 213, or 86 percent, of Alaska Native Villages to some extent. While many of the problems are long-standing, various studies indicate that coastal villages are becoming more susceptible to flooding and erosion caused in part by rising temperatures. Four villages—Kivalina, Koyukuk, Newtok, and Shismaref—are in imminent danger and are planning to relocate. Costs for relocation could be high—from \$100-\$400 million per village.

"Everything is under threat. Our homes are threatened by storms and melting permafrost, our livelihoods are threatened by changes to the plants and animals we harvest. Even our lives are threatened, as traditional travel routes become dangerous."—Alaska Chickaloon Village Chief Gary Harrison of the Arctic Athabaskan Council

A recent study in Los Angeles found that if we don't act now to slow global warming, L.A. residents will face significant heat-related mortality increases. Under a high emissions scenario, heat-related mortality rates could increase sixteen-fold for Blacks, fourteen-fold for Asians, twelve-fold for Hispanics, and eight-fold for Whites, by 2090.

Climate change will likely raise food and energy prices, which already represent a large proportion of a low-income family's budget. Integrated Assessment models indicate that the annual cost of gradual climate change with no adaptation may be as high as 1.0 to 1.5 percent of GDP (roughly \$80 to \$120 billion per year). People of color and the poor may be disproportionately impacted by these changes, due to the higher fraction of incomes spent on food and energy.

"We are long past the point where global warming is considered a myth. We are seeing its effects all around us—especially in my hometown of New Orleans, Louisiana, which is expected to experience an increased incidence of flooding that could potentially destabilize its economy and endangers its populace. We must be realistic about longterm solutions to global warming."—Rep. William Jefferson, (D-LA)

"African Americans and other vulnerable populations live disproportionately in areas that are exposed to toxic waste, air pollution and other environmental hazards. Now we learn, through this report, that global warming will expose these communities to further environmental hazards that will continue to have a devastating impact on their health and economic conditions. We must involve all of the various stakeholders and continue to use forward-thinking, comprehensive principals when developing transportation, energy and environmental policies because of their enormous effect on vulnerable populations."—Rep. James E. Clyburn, (D-TX)

Taking action to slow global warming protects low-income, people of color, and Indigenous communities, and is good for all Americans by boosting job growth, saving money for consumers, and strengthening national security.

Studies have found that the benefits of reducing carbon emissions, such as lower air pollution, new jobs, and reduced oil imports, would prove helpful to all Americans. The best policies for the health of people of color and the poor involve a substantial decrease in emissions of carbon dioxide and associated pollutants, and encourage international cooperation in mitigating climate change.

Policies to reduce global warming can boost job growth, save money for consumers, and strengthen national security (Hoerner and Barrett). How America benefits:

1.4 million additional new jobs created;

Average household saving on energy bills of \$1,275 per year; and

Reduced dependence on foreign oil, strengthening national and economic security for all Americans.

"It is a travesty that we live in a country where African Americans expend more of their income on energy costs yet are the most negatively impacted by energy byproducts such as carbon emissions. In the current scenario, African Americans are paying a premium for poor health resulting from air pollution and climate change. We must mobilize and energize our policymakers to enact legislation that will mitigate the unjust effects of global warming."—Rev. Jesse L. Jackson, Sr., Rainbow Push Coalition

Mr. McCAIN. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I am honored to rise with my friend and colleague from Arizona, Senator McCain, to introduce the Climate Stewardship Act. It is an urgent matter. I was thinking of one clause that I could remove from Senator McCain's comments. He said: Suppose Senator LIEBERMAN and I are deluded.

It struck me that probably many times in the battles that we have fought together or individually, people have thought we were deluded. If I was going to be deluded, I would rather be deluded in the company of John McCain than anybody else I can think of. But let me say this: We are not deluded in our battle to get the U.S. Government to assume a leadership role in stopping this planet of ours from warming, with disastrous consequences for the way we and certainly our children and grandchildren will be forced to live if we do not do something.

When Senator McCain and I first started to work with people in the field, the scientists, the businesspeople, the environmentalists, we had a pretty clear picture of what was coming, but very often we had to rely on scientific models and assume their accuracy in terms of the worst consequences. That is over.

As Senator McCAIN's charts and pictures show, we can see with our eyes the effects of global warming already. The planet is warming. The polar ice caps are melting. One can see that with their own eyes. The sea level is rising in coastal areas already, and in other areas the water is diminishing, declining, as in the great State of my cosponsor, Arizona, and the State of the distinguished occupant of the Chair, Nevada. Forest fires are increasing. The evidence is clear that the problem is here, and that is why we have to do something about it.

Doing nothing is no longer an option. We have reached a point where the intractable must yield to the inevitable. The evidence that climate change is real and dangerous keeps pouring in and piling up. What this legislation is all about is pushing, cajoling, and convincing the politics to catch up with the science.

I will give real market-based evidence to back up what Senator McCain and I are saying about how compelling the science is. The leading insurance companies in the world—we are not talking about environmentalists—are now predicting that climate-driven disasters will cost global financial centers an additional \$150 billion a year within the next 10 years. That is \$150 billion of additional costs for the world as a result of climate-driven disasters.

Just a couple of weeks ago, at an international conference, the head of the United Nations Intergovernmental Panel on Climate Change, Dr. R. K. Pachauri, said that we are already at "a dangerous point" when it comes to global warming, and "immediate and

very deep cuts in greenhouse gases are needed if humanity is to survive." Let me repeat those last words: "If humanity is to survive."

It should be noted that Dr. Pachauri is no wild-eyed environmental radical. In fact, the administration lobbied heavily for Dr. Pachauri's appointment to the IPCC leadership because it considered him a more cautious and pragmatic scientist than the other leading candidate.

To call global warming simply an environmental challenge is almost to diminish it or demean it with a kind of simplicity that puts it alongside a host of other environmental challenges that we face. Global warming is both a moral and an economic security challenge, as well as an environmental challenge.

I start with what I mean by calling it a moral challenge. Greenhouse gases stay in the atmosphere for about 100 years, so failure to take the prudent actions that our bill calls for—market-based, moderate, with caps—will force children still unborn to take far more drastic action to save their world as they know it and want to live in it. There is just no excuse for this.

We know it is real. I cited the melting glaciers, the coastal communities damage, the increased rate of forest fires. Previously, on this floor I have talked about the fact that a robin appeared in the north of Alaska and Canada among the Inuits native tribe, and they had no word in their 10,000-year-old civilization and vocabulary for robin.

Robins now linger longer into the winter in Connecticut, my State. Why? Because it is getting warmer.

Polar bears may soon be listed as an endangered species. Let me put it another way. We know that a petition will be filed soon to ask that polar bears be listed as an endangered species. Why? Because global warming is removing their habitat. It is wreaking havoc in the arctic climates where they live and grow. So to spoil the Earth for generations to come when we knew what we were doing and could have stopped it would be a moral failing of enormous and, I might add, Biblical proportions.

This time, it would be mankind that condemned itself, if I may put it again this way, to no longer living in the garden

The challenge of solving global warming also presents our Nation with untold opportunities to reshape our world and assert our moral, economic, and environmental leadership. There is always opportunity in change. The world will transition to a world with limited greenhouse gas emissions, and the United States needs a program like the one we offer today to seize the new markets, as well as the environmental challenge.

In particular, Senator McCain and I are seeking now to develop additional provisions to this legislation that will provide American innovators and

businesspeople with the technological incentives they need to make our bill work for them.

Looking at the recommendations of the International Climate Change Task Force, the National Commission on Energy Policy, and the Pew Center Workshop on Technologies and Policies for a Low Carbon Future, there are a number of consensus provisions that could help the U.S. transition to these technologies of the future.

These technologies are here. A recent paper in Science magazine showed that the scientific, technological, and industrial know-how already exists to limit carbon dioxide emissions substantially in the next 50 years. So we do not have to invent them. We just need the incentives and the motivation for industry, innovators, and individuals to deploy this knowledge and start us on the path toward a healthier, more sustainable future.

That is what the Climate Stewardship Act that Senator McCAIN and I are introducing today will do. It will provide the incentives. It will create a cap and let the market do the rest of the work, a real opportunity for change.

I am very pleased that one study being released today by the NRDC applying a method of evaluating which is advocated by the Energy Information Administration of our own Government says the Climate Stewardship Act will add 800,000 jobs to our economy by the year 2025. So it will not cost jobs, it will add them.

Over the last few years, we have seen our colleagues grappling with the challenge of global warming. So many of them seem to be of the same mind, feeling that something needs to be done but still unsure what should be done and how. Senator McCain and I want our legislation to work for them so they can come forward and join us in this effort. This is an opportunity to invest in our future to face this challenge, an opportunity to enhance our energy security, and therefore our national security, by placing a price on greenhouse gas emissions, which is what our legislation will do.

Our Nation's best energy options will become more cost competitive with foreign oil. It will make economic sense for dramatic growth in clean coal, alternative energy, and energy efficiency. It will be an opportunity for economic development in rural communities. By placing a price on carbon, it will create new value for range lands, farms, and forests by compensating landowners for the carbon they can store. It is an opportunity to innovate clean energy technologies for a growing global market. By placing this price that the cap and market will do on greenhouse gases, we will push demand for clean technologies, promoting innovation through both public and private enterprise and making that innovation profitable. It is an opportunity for our country to control the development of our own carbon market that will inevitably become part of a

global market someday soon. It is an opportunity, as Senator McCAIN said, to improve our relations with our allies and the rest of the world and gain a stronger voice and ability to bring in developing nations.

Without a price for carbon, these opportunities disappear. Our bill provides that price for carbon and other greenhouse gas emissions. We know it is not the entire answer. A lot of people think it is too moderate and holds greenhouse gas emissions at today's levels.

By the end of the decade, it is less demanding than the Kyoto Protocol, which goes into effect as a result of Russia's ratification next week, but it is a cap that major utilities have told us they could meet. It may not be strong enough to reduce U.S. emissions as much as some would like, but it will be strong enough to start turning America around in the direction of dealing with global warming, reasserting our world environmental leadership, and moving our economy in the right direction. We cannot afford to be as shortsighted as we have been up until now. We cannot afford anymore to allow the special interests, who will also resist change because change is unnerving and sometimes more costly, to prevail

We have to assert the public interest of ourselves and all those who will follow us on this Earth and in this great country to do something about global warming while we still can, before its consequences are disastrous. This is an enormous political challenge.

I go back to where I began. When we started, we had just models, so we were trying to portray what might happen over the horizon and ask our colleagues to join us in doing something now. It is not easy to do that because the crisis always seems further away than the immediacy of the changes a solution requires, but now we can see it. Shame on us if we do not do something about it.

I begin this battle today with Senator McCAIN and other cosponsors with not only a sense of commitment but a sense of encouragement and optimism that people ultimately are too reasonable and responsible to ignore the facts and do nothing about this looming disaster for humankind

Senator McCain and I begin this battle again, and we are not going to stop until it is won.

I ask unanimous consent that several articles on climate be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Brookings Institution, Jan. 28, 2005.]

MICHAEL CRICHTON AND GLOBAL WARMING (By David B. Sandalow)

How do people learn about global warming? That—more than the merits of any scientific argument—is the most interesting question posed by Michael Crichton's State of Fear.

The plot of Crichton's 14th novel is notable mainly for its nuttiness—an MIT professor

fights a well-funded network of eco-terrorists trying to kill thousands by creating spectacular "natural" disasters. But Crichton uses his book as a vehicle for making two substantive arguments. In light of Crichton's high profile and ability to command media attention, these arguments deserve scrutiny.

First, Crichton argues, the scientific evidence for global warming is weak. Crichton rejects many of the conclusions reached by the National Academy of Sciences and Intergovernmental Panel Change—for example, he does not believe that global temperature increases in recent decades are most likely the result of human activities. In challenging the scientific consensus, Crichton rehashes points familiar to those who follow such issues. These points are unpersuasive, as explained below

plained below.
Second, Crichton argues that concern about global warming is best understood as a fad. In particular, he argues that many people concerned about global warming follow a herd mentality, failing critically to examine the data. Crichton is especially harsh in his portrayal of other members of the Hollywood elite, though his critique extends more broadly to the news media, intelligentsia and general public. This argument is more interesting and provocative, though ultimately unpersuasive as well.

### 1. Climate Science

Crichton makes several attempts to cast doubt on scientific evidence regarding global warming. First, he highlights the "urban heat island effect." Crichton explains that cities are often warmer than the surrounding countryside and implies that observed temperature increases during the past century are the result of urban growth, not rising greenhouse gas concentrations.

This issue has been examined extensively in the peer-reviewed scientific literature and dismissed by the vast majority of earth scientists as an inadequate explanation of observed temperature rise. Ocean temperatures have climbed steadily during the past century, for example—yet this data is not affected by "urban heat islands." Most land glaciers around the world are melting, far away from urban centers. The Intergovernmental Panel on Climate Change, using only peer-reviewed data, concluded that urban heat islands caused "at most" 0.05°C of the increase in global average temperatures during the period 1900-1990-roughtly one-tenth of the increase during this period. In contrast, as one source reports, "there are no known scientific peer-reviewed papers" to support the view that "the heat island effect accounts for much or nearly all warming recorded by land-based thermometers.

Second, Crichton argues that global temperatures declines from 1940-1970 disprove, or at least cast doubt on, scientific conclusions with respect to global warming. Since concentrations of greenhouse gases were rising during this period, says Crichton, the fact that global temperatures were falling calls into question the link between greenhouse gas concentrations and temperatures.

Crichton is correct that average temperatures declined, at least in the Northern Hemisphere, from 1940–1970. Temperature is the result of many factors, including the warming effects of greenhouse gases, the cooling effects of volcanic eruptions, changes in solar radiation and more. (Think of a game of tug-of-war, in which the number of players on each team changes frequently.) The fall in Northern Hempishere temperatures from 1940–1970 reflects the relative weight of cooling factors during that period, not the absence of a warming effect from man-made greenhouse gases.

Should we at least be encouraged, recalling the decades from 1940-1970 in the hope that cooling factors will outweigh greenhouse warming in the decades ahead? Hardly. Greenhouse gas concentrations are now well outside levels previously experienced in human history and climbing sharply. Unless we change course, the relatively minor warming caused by man-made greenhouse gases in the last century will be dwarfed by much greater warming from such gases in the next century. There is no basis for believing that cooling factors such as those that dominated the temperature record from 1940–1970 will be sufficient to counteract greenhouse warming in the decades ahead.

Third, Crichton offers graph after graph showing temperature declines during the past century in places such as Puenta Arenas (Chile), Greenville (South Carolina), Ann Arbor (Michigan), Syracuse (New York) and Navacerrada (Spain). But global warming is an increase in global average temperatures. Nothing about specific local temperature declines is inconsistent with the conclusion that the planet as a whole has warmed during the past century, or that it will warm more in the next century if greenhouse gas concentrations continue to climb.

Crichton makes other arguments but a point-by-point rebuttal is beyond the scope of this paper. (A thoughtful rebuttal of that kind can be found at www.realclimate.org.) Climate change science is a complex topic, not easily reduced to short summaries. But a useful contrast with Crichton's science-argument-within-an-action-novel is the sober prose of the U.S. National Academy of Sciences. The opening paragraph of a 2001 National Academy report responding to a request from the Bush White House read:

"Greenhouse gases are accumulating in Earth's atmosphere as a result of human activities, causing surface air temperatures and subsurface ocean temperatures to rise. Temperatures are, in fact, rising. The changes observed over the last several decades are likely mostly due to human activities, but we cannot rule out that some significant part of these changes is also a reflection of natural variability. Human-induced warming and associated sea level rises are expected to continue through the 21st century. Secondary effects are suggested by computer model simulations and basic physical reasoning. These include increases in rainfall rates and increased susceptibility of semi-arid regions to drought. The impacts of these changes will be critically dependent on the magnitude of the warming and the rate with which it occurs."

Climate Change Science: An Analysis of Some Key Questions, National Academies Press (2001).

Time will tell whether this report or Crichton's novel will have a greater impact on public understanding of global warming.

## 2. Climate Fad

This raises the second, more interesting argument in Crichton's novel. Crichton argues that concern about global warming has become a fad embraced by media elites, entertainment moguls, the scientific establishment and general public. In Crichton's view, many assertions are accepted as fact without critical analysis by the vast majority of those who have views on this issue.

On the last point, fair enough. There are indeed fewer people who have sorted through the minutiae of climate change science than have opinions on the topic. In this regard, global warming is like Social Security reform, health care finance, the military budget and many other complex public policy issues. As Nelson Polsby and Aaron Wildavsky once wrote, "Most people don't think about most issues most of the time." When forming opinions on such matters, we all apply certain predispositions or instincts

and rely on others whose judgment or expertise we trust.

Of course this observation applies as well to the economics of climate change. The perception is widespread in many circles that reducing greenhouse gas emissions will be ruinously expensive. How many of those who hold this view have subjected their opinions to critical analysis? Crichton never musters outrage on this topic.

Crichton's complaints are particularly striking in light of the highly successful efforts to provide policymakers and the public with analytically rigorous, non-political advice on climate science. Since 1988, the Intergovernmental Panel on Climate Change has convened thousands of scientists, economists, engineers and other experts to review and distill the peer-reviewed literature on the science on global warming. The IPCC has produced three reports and is now at work on the fourth. In addition, the National Academy of Sciences has provided advice to the U.S. government on this topic, including the report cited above.

Crichton's view that the American media provides a steady drumbeat of scary news on global warming is especially hard to fathom. Solid data are scarce, but one 1996 analysis found that the rock star Madonna was mentioned roughly 80 times more often than global warming in the Lexis-Nexis database. Certainly one could watch the evening news for weeks on end without ever seeing a global warming story.

Furthermore, the print media's "on the one hand, on the other hand" convention tilts many global warming stories strongly toward Crichton's point of view. As Crichton would concede, the vast majority of the world's scientists believe that global warming is happening as a result of human activities and that the consequences of rising greenhouse gas emissions could be very serious. Still, many news stories on global warming include not just this mainstream view but also the "contrarian" views of a very small minority of climate change skeptics, giving roughly equal weight to each. As a result, public perceptions of the controversy surrounding these issues may be greatly exaggerated.

Crichton's most serious charge is that "open and frank discussion of the data, and of the issues, is being suppressed" in the scientific community. As "proof," he offers the assertion that many critics of global warming are retired professors no longer seeking grants. Whether there is any basis for these assertions is unclear, but if so Crichton should back up his claims with more than mere assertions in the appendix to an action novel.

Indeed Crichton should hold himself to a higher standard with regard to all the arguments in his book. He is plainly a very bright guy and, famously, a Harvard Medical School graduate. A millionaire many times over, he doesn't need to be seeking grants. If he has something serious to say on the science of climate change, he should say so in a work of nonfiction and submit his work for peer review. The result could be instructive—for him and us all.

# ARCTIC TEMPERATURE CHANGE—OVER THE PAST 100 YEARS

This note has been prepared in response to questions and comments that have arisen since the publication of the Arctic Climate Impact Assessment overview document—"Impacts of a Warming Arctic". It is intended to provide clarity regarding some aspects relative to the material from Chapter 2 Arctic Climate—Past and Present that will appear in full with the publication of the ACIA scientific report in 2005 and has now been posted on the ACIA website.

There are several possible definitions of the Arctic depending on, for example, tree line, continuous permafrost, and other factors. It was decided for purposes of this analysis that the latitude 60° N would be defined as the southern boundary. Although somewhat arbitrary, this is no more arbitrary than choosing 62° N, 67° N or any other latitude. Since the marine data in the Arctic are very limited in geographical and temporal coverage, it was decided, for consistency, to only use data from land stations. The Global Historical Climatology Network (GHCN) database (updated from Peterson and Vose, 1997) and the Climatic Research Unit (CRU) database (Jones and Moberg, 2003) were selected for this analysis.

The analysis showed that the annual landsurface air temperature variations in the Arctic (north of 60° N) from 1900 to 2002 using the GHCN and the CRU datasets led to virtually identical time series, and both documented a statistically significant warming trend of 0.09 C/decade during that period. In view of the high correlation between the GHCN and CRU datasets, it was decided to focus the presentation in Chapter 2 on analyses of the GHCN dataset.

It needs to be stressed that the spatial coverage of the region north of 60° N is quite varied. During the period (1900-1945), there were few observing stations in the Alaska/ Canadian Arctic/West Greenland sector and more in the North Atlantic (East Greenland/ Iceland/Scandinavia) and Russian sectors. The coverage for periods since 1945 is more uniform. Based on the analyses of the GHCN and CRU datasets, the annual land-surface air temperature from 60-90° N, smoothed with a 21-point binomial filter giving near decadal averages, was warmer in the most recent decade (1990s) than it was in the 1930-1940s period. It should be noted that other analyses (e.g., Przybylak 2000; Polyakov et al. 2002; and Lugina et al. 2004) give comparable estimates of Arctic warming for these two decades that, however, lay wit/hin the error margins of possible accuracy of the zonal mean estimates (Vinnikov et al. 1990; Vinnikov et al., 1987). The major source of this uncertainty is the data deficiency in the North American sector prior to 1950s in all databases

Least-squares linear trends in annual anomalies of Arctic (60° to 90° N) land-surface air temperature from the GHCN (updated from Peterson and Vose, 1997) and CRU (Jones and Moberg, 2003) datasets for the period 1966–2003 both gave warming rates of 0.38 (°C/decade). This is consistent with the analysis of Polyakov et al. (2002) and confirmed with satellite observations over the whole Arctic, for the past 2 decades (Comiso, 2003).

Chapter 3 of the ACIA report, entitled "The Changing Arctic: Indigenous Perspectives" documents the traditional knowledge of Arctic residents and indicates that substantial changes have already occurred in the Arctic and supports the evidence that the most recent decade is different from those of earlier in the 20th century.

The modeling studies of Johannessen et al. (2004) showed the importance of anthropogenic forcing over the past half century for modeling the arctic climate. "It is suggested strongly that whereas the earlier warming was natural internal climate-system variability, the recent SAT (surface air temperature) changes are a response to anthropogenic forcing".

In the context of this report, the authors agreed on the following terminology. A conclusion termed as "very probable" is to be interpreted that the authors were 90–99% confident in the conclusion. The term "probable" conveys a 66–90% confidence.

The conclusions of Chapter 2 were that: "Based on the analysis of the climate of the

20th century, it is very probable that the Arctic has warmed over the past century, although the warming has not been uniform. Land stations north of 60° N indicate that the average surface temperature increased by approximately 0.09 °C/decade during the past century, which is greater than the 0.06 °C/decade increase averaged over the Northern Hemisphere. It is not possible to be certain of the variation in mean landstation temperature over the first half of the 20th century because of a scarcity of observations across the Arctic before about 1950. However, it is probable that the past decade was warmer than any other in the period of the instrumental record."

Polar amplification refers to the relative rates of warming in the Arctic versus other latitude bands. The conclusions of Chapter 2 were that: "Evidence of polar amplification depends on the timescale of examination. Over the past 100 years, it is possible that there has been polar amplification, however, over the past 50 years it is probable that polar amplification has occurred."

#### DISTORT REFORM

A REVIEW OF THE DISTORTED SCIENCE IN MICHAEL CRICHTON'S STATE OF FEAR

(By Gavin Schmidt)

Michael Crichton's new novel State of Fear is about global-warming hysteria ginned up by a self-important NGO on behalf of evil eco-terrorists . . . or by evil eco-terrorists on behalf of a self-important NGO. It's not quite clear. Regardless, the message of the book is that global warming is a non-problem. A lesson for our times? Sadly, no.

In between car chases, shoot-outs, cannibalistic rites, and other assorted derring-doo-doo, the novel addresses scientific issues, but is selective (and occasionally mistaken) about the basic science involved. Some of the issues Crichton raises are real and already well-appreciated, while others are red herrings used to confuse rather than enlighten.

The fictional champion of Crichton's climate skepticism is John Kenner, an MIT academic-turned-undercover operative who runs intellectual rings around two other characters—the actor (a rather dim-witted chap) and the lawyer (a duped innocent), neither of whom know much about science.

So, for the benefit of actors and lawyers everywhere, I will try to help out.

### FORCINGS MAJEURE

Early in State of Fear, a skeptical character points out that while carbon dioxide was rising between 1940 and 1970, the globe was cooling. What, then, makes us so certain rising  $\mathrm{CO}_2$  is behind recent warming?

Good question. Northern-hemisphere mean temperatures do appear to have fallen over that 30-year period, despite a rise in CO<sub>2</sub>, which if all else had been equal should have led to warming. But were all things equal? Actually, no.

In the real world, climate is affected both by internal variability (natural internal processes within the climate system) and forcings (external forces, either natural or human-induced, acting on the climate system). Some forcings—sulfate and nitrate aerosols, land-use changes, solar irradiance, and volcanic aerosols, for instance—can cause cooling.

Matching up what really happened with what we might have expected to happen requires taking into consideration all the forcings, as best as we can. Even then, any discrepancy might be due to internal variability (related principally to the ocean on multi-decadal time scales). Our current "best guess" is that the global mean changes in temperature, including the 1940–1970 cooling, are quite closely related to the forcings. Regional patterns of change appear to be linked more closely to internal variability, particularly during the 1930s.

No model that does not include a sharp rise in greenhouse gases (GHGs), principally CO<sub>2</sub>, is able to match up with recent warming. Thus the conclusion that GHGs are driving warming.

The book also shows, through the selective use of weather-station data, a number of single-station records with long-term cooling trends. In particular, characters visit Punta Arenas, at the tip of South America, where the station record posted on the wall shows a long-term cooling trend (though slight warming since the 1970s). "There's your global warming," one of Crichton's good guys declares dismissively.

Well, not exactly. Global warming is defined by the global mean surface temperature. No one has or would claim that the whole globe is warming uniformly. Had the characters visited the nearby station of Santa Cruz Aeropuerto, the poster on the wall would have shown a positive trend.

Would that have been proof of global warning? No. Only by amalgamating all available records can we have an idea what the regional, hemispheric, or global means are doing. That's way they call it global warming.

### TALL, DARK, AND HANSEN

Even more troubling is some misleading commentary regarding climate-science pioneer (and my boss) James Hansen's testimony to Congress in 1988. "Dr. Hansen overestimated [global warming] by 300 percent," says our hero Kenner.

Hansen's testimony did indeed spread awareness of global warming, but not because he exaggerated the problem by 300 percent. In a paper published soon after that testimony, Hansen and colleagues presented three model simulations, each following a different scenario for the growth in CO<sub>2</sub> and other trace gases and forcings. Scenario A had exponentially increasing CO<sub>2</sub>, scenario B had a more modest business-as-usual assumption, and scenario C had no further increase in CO<sub>2</sub> after the year 2000. Both B and C assumed a large volcanic eruption in 1995.

Rightly, the authors did not assume they knew what path CO<sub>2</sub> emissions would take, and presented a spectrum of possibilities. The scenario that turned out to be closest to the real path of forcings growth was scenario B, with the difference that Mt. Pinatubo erupted in 1991, not 1995. The temperature change for the '90s predicted under this scenario was very close to the actual 0.11 degree-Celsius change observed.

So, given a good estimate of the forcings, the model did a reasonable job. In fact, in his congressional testimony Hansen only showed results from scenario B, and stated clearly that it was the most probable scenario.

The claim of a "300 percent" error comes from noted climate skeptic Patrick Michaels, who in testimony before Congress in 1998 deleted scenarios B and C from the chart he used in order to give the impression that the models were unreliable. Thus a significant success for climate modeling was presented as a complete failure—a willful distortion that Crichton adopts uncritically. The well-known and exhaustively studied

The well-known and exhaustively studied "urban heat island effect"—the tendency for cities to be warmer than the surrounding countryside due to the built-up surroundings and intensive energy use—is also raised several times in the book. Most recently, a study by David Parker published last year in the journal Nature found no residual effect in the surface temperature record once corrections were made for this undisputed phenomenon. Though Crichton makes much of it, there's no there there.

### AUTHORIAL INATTENTION

At the end of the book, Crichton offers a somber author's note. In it, he reiterates the main points of his thesis: that there are some who push claims beyond what is scientifically supported in order to drum up support (and I have some sympathy with this), and that because we don't know everything, we actually know nothing (here, I beg to differ).

He gives us his back-of-a-napkin estimate for the global warming that will occur over the next century—an increase of approximately 0.8 degrees Celsius—and claims that his guess is as good as any model's. He suggests that most of the warming will be due to land-use changes—extremely unlikely, as globally speaking, land-use change has a cooling effect. As his faulty assumptions painfully demonstrate, simulations based on physics are better than just guessing.

Finally, in an appendix, Crichton uses a rather curious train of logic to compare global warming to the 19th century eugenics movement. Eugenics, he notes, was studied

in prestigious universities and supported by charitable foundations. Today, global warming is studied in prestigious universities and supported by charitable foundations. Aha!

Presumably Crichton doesn't actually believe that foundation-supported academic research is ipso facto misguided, even evil, but that is certainly the impression left by this peculiar linkage.

In summary, I am disappointed, not least because while researching his book, Crichton visited our lab at the NASA Goddard Institute and discussed some of these issues with me and a few of my colleagues. I suppose we didn't do a very good job of explaining matters. Judging from his bibliography, the rather dry prose of reports by the Intergovernmental Panel on Climate Change did not stir his senses quite like some of the racier contrarian texts. Unsurprisingly, perhaps, Crichton picked fiction over fact.

Scientifically curious readers can find a more detailed version of this review on RealClimate.org.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. McCAIN. I ask unanimous consent that the following Senators be added as cosponsors: Senators Feinstein, Snowe, Durbin, Chafee, Lautenberg, Murray, Nelson, Corzine, Dayton, Cantwell, and Kerry.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCAIN. Mr. President, I thank my friend, Senator LIEBERMAN, again, and I would like to quote again from Prime Minister Blair, who announced that action on global warming will be his first priority as Chair of the G-8. He has taken a leadership role, choosing to take action and not to hide behind the uncertainties that the science community will soon resolve.

The Prime Minister made it clear in a recent speech at the World Economic Forum in Davos as to his intentions when he said:

 $\dots$  if America wants the rest of the world to be part of the agenda it has set, it must be part of their agenda too.  $\dots$ 

It is past time for our country to show leadership in addressing the world's greatest environmental challenge, climate change.

# By Mr. WYDEN (for himself and Mr. SMITH):

S. 343. A bill to provide for qualified withdrawals from the Capital Construction Fund for fishermen leaving the industry and for the rollover of Capital Construction Funds to individual retirement plans, and for other purposes; to the Committee on Finance.

Mr. WYDEN. Mr. President, I am pleased today to introduce the Capital Construction Fund Qualified Withdrawal Act of 2005. My friend and colleague, Senator SMITH, joins me in introducing this important bill.

In January of 2000, a fishery disaster was declared by the Secretary of Commerce for the West Coast groundfish fishery. Due to major declines in fish population, the Pacific Fisheries Management Council decreased groundfish catch quotas by 90 percent. Today, the groundfish fishery in Oregon and adjoining States in the Pacific Northwest

continues to face daunting challenges as a result of this disaster. Fishery income has dropped 55 percent and over a thousand fishers face bankruptcy. This legislation helps by reforming the Capital Construction Fund in a way that will ease the transition by groundfishers and other fishers in economic peril away from fishing.

The Capital Construction Fund, CCF, Merchant Marine Act of 1936, amended 1969, 46 U.S.C. 1177, has been a way for fishers to accumulate funds, free from taxes, solely for the purpose of buying or refitting fishing vessels. It was conceived at a time when the Federal Government wanted to help capitalize and expand American fishing fleets. The program was a success: it led to a larger U.S. fishing fleet. However, fish populations declined and the U.S. commercial fishing fleet is now over-capitalized. The CCF's restrictions have not kept up with the times, and now it exacerbates some problems facing U.S.

Now is the time to help those fishers who wish to do so to leave the fleet.

In Oregon, the amounts in CCF accounts range from \$10,000 to over \$200,000. This legislation changes current law to allow fishers to remove money from their CCF for purposes other than buying new vessels or upgrading current vessels, without losing up to 70 percent of their CCF funds in taxes and penalties. This legislation changes the CCF so fishers who want to opt out of fishing are not penalized for doing so.

This bill takes a significant step towards making the commercial fishing industry sustainable by amending the CCF to allow non-fishing uses of investments. This bill amends the Merchant Marine Act of 1936 and the Internal Revenue Code to allow funds currently in the CCF to be rolled over into an IRA or other type of retirement account, or to be used for the payment of an industry fee authorized by the fishery capacity reduction program, without adverse tax consequences to the account holders. This bill will also encourage innovation and conservation by allowing fishers to use funds deposited in a CCF to develop or purchase new gear that reduces bycatch.

I look forward to working with my colleagues to pass this legislation.

## By Mr. DURBIN:

S. 345. A bill to amend title XVIII of the Social Security Act to deliver a meaningful benefit and lower prescription drug prices under the medicare program; to the Committee on Finance.

Mr. DURBIN. Mr. President, I would speak for a moment, if I could, on an issue which is near and dear to not just seniors but their families.

Last night, CMS Administrator Mark McClellan acknowledged the cumulative cost of the Medicare prescription drug program between 2006 and 2015 will reach \$1.2 trillion. Although Mr. McClellan said the number would be reduced to \$724 billion after seniors pay their premiums and the Federal Government is reimbursed by States for coverage of their Medicaid populations, it is still much higher than originally thought. As recently as September, Mr. McClellan said this program would only cost \$534 billion.

Remember this program? This was President Bush's Medicare prescription drug program.

Now, we all understand that Medicare did not cover prescription drugs. Seniors need that coverage because drugs are so expensive, and drugs are essential for them to maintain their health and stay independent and strong for a long period of time. But when we got into this debate on the floor of the Senate about creating this program, the pharmaceutical companies lined the hallways around the Senate with men in expensive three-piece suits and Gucci loafers and said: Whatever you do, don't touch the profits of the pharmaceutical companies.

Too many Senators on both sides of the aisle decided that the profits of the pharmaceutical companies were more important than the cost of the drugs for seniors. So, in the bill we included a provision that prohibits Medicare from negotiating with the pharmaceutical companies to get lower prices for drugs for seniors.

What does it mean? It means every single year the cost of prescription drugs under this Medicare program will inflate like the cost of prescription drugs for people across the United States.

Take a look at the drug price comparisons, just for the years 2005 and 2016, on some common drugs listed on this chart—what we anticipate, using the Bush Administration's calculations for the rate of increase for prescription drugs, will happen to their costs.

Look at Norvasc. It will go from \$170 to \$525 in 2016; Plavix, \$230 to \$710; Prevacid, \$120 to \$374; and Zocor, \$124 to \$383.

So in this period of time, if you want to know why the prescription drug program's costs are going through the roof, it is because the cost of the drugs is going through the roof. Unless and until Medicare can negotiate the price of these drugs, and keep them reasonable for seniors, there is no way in the world this program is going to be costeffective. It is interesting to me that when this estimate of cost came out, Senator Judd Gregg of New Hampshire, the Republican chairman of the Budget Committee, said \$400 billion was the original cost of this program. and we have to cut the benefits back to hit that cost, instead of saying, why don't we find a way to reduce the pharmaceutical company profits so we can keep the drugs seniors across America are buying at reasonable prices.

Drug prices are going to continue to rise. The price of 26 drugs most commonly used by seniors increased 21.6 percent, on average, over the last 3 years, and they will continue to increase in the future.

I have gone through some basic drugs on this chart, but I want to tell my friends who are following this debate, this is no surprise. Those of us who voted against the bill said exactly this would happen: If you do not contain the cost of drugs, you cannot afford this program. It will explode in the outyears, and future Members of Congress and Presidents will decide to cut back on the benefits under the program rather than face the reality of what we did in passing this legislation.

Medicare actuaries estimate the prescription drug benefit premium will increase from \$35 a month under the President's plan in 2006 to \$68 a month in 2015. Deductibles will increase. I think we are at a point where we have to acknowledge the obvious.

Let me say a word about pharmaceutical companies. We want the pharmaceutical industry to be strong and profitable because in their profits is the money for research for new drugs. That is essential for America's health and the world's health. But what we find now is that pharmaceutical companies in America are spending more money on advertising than they are on research. You cannot turn on the television without finding another ad for another drug. Why? Because they want the consuming public to walk into their doctor's office and say: Doctor, I beg you, give me the little purple pill. And doctors do. It is an expensive pill. It may not be the necessary and required pill, but doctors do it. And if you sell more of those little purple pills, the pharmaceutical companies do quite well.

Take a look at the profitability of the Fortune 500 drug companies versus the profits of all Fortune 500 companies in the year 2002. When you take a look at the drug companies on these red bars, and the other companies on the yellow bars, you can see exactly the difference. Profits as revenues: 17 percent for drug companies, 3.1 percent for other companies. Profits as a percentage of equity: 27.6 percent for pharmaceutical companies, 10.2 percent for the rest of the Fortune 500 companies.

They are extremely profitable companies. We want them to make profits, but not at the expense of seniors who cannot afford to pay.

Mr. President, I want to give my colleague an opportunity to speak here. I would say the most important thing I can tell you today is there is an answer. I am reintroducing a bill today that I believe will go a long way to reducing the cost of prescription drugs. The Medicare Prescription Drugs Savings and Choice Act instructs the Secretary of HHS to offer a nationwide Medicare-delivered prescription drug benefit in addition to the current PDP and PPO plans available in the 10 regions. It instructs the Secretary of HHS to set a uniform national premium of \$35 for the first year, and it instructs the Secretary of HHS to negotiate group purchasing agreements on behalf of Medicare beneficiaries.

This is the way to lower the costs of drugs. I am honored that my proposal, the legislation which I am introducing, has been endorsed by the AFL-CIO, AFSCME, the Alliance for Retired Americans, the American Federation of Teachers, the American Public Health Association, the American Nurses Association, Campaign for America's Future, Center for Medicare Advocacy, Consumers Union, Families USA, and a host of other groups. It is an indication to me that they know, for their membership and seniors and Americans in general, this legislation is going to be an important step forward.

I invite my colleagues to join me in sponsoring this legislation so we can bring the cost of drugs within the reach of senior citizens and keep a prescription drug program that is affordable.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I commend my colleague for his leadership on this issue. As I travel around my State, as he does his, too, the No. 1 issue I hear about from people is the cost of health care today.

We had an opportunity when we passed the Medicare prescription drug bill to deal with that issue. We did not. He has introduced legislation today that will focus on that incredibly important issue for our country. I thank him for his leadership.

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 345

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicare Prescription Drug Savings and Choice Act of 2005".

### SEC. 2. ESTABLISHMENT OF MEDICARE OPER-ATED PRESCRIPTION DRUG PLAN OPTION.

(a) IN GENERAL.—Subpart 2 of part D of the Social Security Act is amended by inserting after section 1860D-11 the following new section:

# "MEDICARE OPERATED PRESCRIPTION DRUG PLAN OPTION

"Sec. 1860D-11A. (a) IN GENERAL.—Notwithstanding any other provision of this part, for each year (beginning with 2006), in addition to any plans offered under section 1860D-11, the Secretary shall offer one or more medicare operated prescription drug plans (as defined in subsection (c)) with a service area that consists of the entire United States and shall enter into negotiations with pharmaceutical manufacturers to reduce the purchase cost of covered part D drugs for eligible part D individuals in accordance with subsection (b).

"(b) NEGOTIATIONS.—Notwithstanding section 1860D-11(i), for purposes of offering a medicare operated prescription drug plan under this section, the Secretary shall negotiate with pharmaceutical manufacturers with respect to the purchase price of covered part D drugs and shall encourage the use of more affordable therapeutic equivalents to

the extent such practices do not override medical necessity as determined by the prescribing physician. To the extent practicable and consistent with the previous sentence, the Secretary shall implement strategies similar to those used by other Federal purchasers of prescription drugs, and other strategies, to reduce the purchase cost of covered part D drugs.

"(c) Medicare Operated Prescription Drug Plan Defined.—For purposes of this part, the term 'medicare operated prescription drug plan' means a prescription drug plan that offers qualified prescription drug coverage and access to negotiated prices described in section 1860D-2(a)(1)(A). Such a plan may offer supplemental prescription drug coverage in the same manner as other qualified prescription drug coverage offered by other prescription drug plans.

"(d) Monthly Beneficiary Premium.—

"(1) QUALIFIED PRESCRIPTION DRUG COVERAGE.—The monthly beneficiary premium for qualified prescription drug coverage and access to negotiated prices described in section 1860D–2(a)(1)(A) to be charged under a medicare operated prescription drug plan shall be uniform nationally. Such premium for months in 2006 shall be \$35 and for months in succeeding years shall be based on the average monthly per capita actuarial cost of offering the medicare operated prescription drug plan for the year involved, including administrative expenses.

"(2) SUPPLEMENTAL PRESCRIPTION DRUG COVERAGE.—Insofar as a medicare operated prescription drug plan offers supplemental prescription drug coverage, the Secretary may adjust the amount of the premium charged under paragraph (1).

"(3) REQUIREMENT FOR AT LEAST ONE PLAN WITH A \$35 PREMIUM IN 2006.—The Secretary shall ensure that at least one medicare operated prescription drug plan offered in 2006 has a monthly premium of \$35.".

(b) Conforming Amendments.—

(1) Section 1860D-3(a) of the Social Security Act (42 U.S.C. 1395w-103(a)) is amended by adding at the end the following new paragraph:

"(4) AVAILABILITY OF THE MEDICARE OPERATED PRESCRIPTION DRUG PLAN.—

"(A) IN GENERAL.—A medicare operated prescription drug plan (as defined in section 1860D-11A(c)) shall be offered nationally in accordance with section 1860D-11A.

"(B) RELATIONSHIP TO OTHER PLANS.—

"(i) IN GENERAL.—Subject to clause (ii), a medicare operated prescription drug plan shall be offered in addition to any qualifying plan or fallback prescription drug plan offered in a PDP region and shall not be considered to be such a plan for purposes of meeting the requirements of this subsection.

"(ii) DESIGNATION AS A FALLBACK PLAN.—Notwithstanding any other provision of this part, the Secretary may designate the medicare operated prescription drug plan as the fallback prescription drug plan for any fallback service area (as defined in section 1860D-11(g)(3)) determined to be appropriate by the Secretary."

(2) Section 1860D-13(c)(3) of such Act (42 U.S.C. 1395w-113(c)(3)) is amended—

(A) in the heading, by inserting "and medicare operated prescription drug plans" after "Fallback plans"; and

(B) by inserting "or a medicare operated prescription drug plan" after "a fallback prescription drug plan".

(3) Section 1860D-16(b)(1) of such Act (42 U.S.C. 1395w-116(b)(1)) is amended—

(A) in subparagraph (C), by striking "and" after the semicolon at the end;

(B) in subparagraph (D), by striking the period at the end and inserting "; and"; and

(C) by adding at the end the following new subparagraph:

"(E) payments for expenses incurred with respect to the operation of medicare operated prescription drug plans under section 1860D-11A.".

(4) Section 1860D-41(a) of such Act (42 U.S.C. 141(a)) is amended by adding at the end the following new paragraph:

''(19) Medicare operated prescription drug plan' has the meaning given such term in section 1860D-11A(c).''.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect as if included in the enactment of section 101 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108–173; 117 Stat. 2071).

### By Ms. STABENOW:

S. 346. A bill to amend the Solid Waste Disposal Act to prohibit the importation of Canadian municipal solid waste without State consent; to the Committee on Environment and Public Works.

Ms. STABENOW. Mr. President, I rise today to reintroduce the Canadian Waste Import Ban Act of 2005, to address the rapidly growing problem of Canadian waste shipments to Michigan. Michigan has been known for its beautiful waters, lush forests, and now unfortunately as a top importer of international trash.

My colleagues may be surprised to learn that the biggest source of waste to Michigan is not from another State, but from our neighbor to the north. Canada. The rapid increase in waste shipments is stunning. In 2003, 180 trash trucks crossed the Ambassador and Blue Water bridges into Michigan. Today, that number has more than doubled to 415 trucks per day. You can see these trucks lined up for miles waiting to cross into Michigan, polluting the air and creating traffic congestions. The city of Toronto alone sends over 1 million tons of trash annually to Michigan.

This waste dramatically decreases Michigan's own landfill capacity, and has an incredible negative impact on Michigan's environment and the public health of its citizens. The waste also poses a tremendous homeland security threat, as trucks loaded with garbage are harder for Customs agents to inspect than traditional cargo.

I fought and was successful in the installation of radiation equipment at these crossings. As a result of this equipment, the Blue Water Bridge port director reports that three to four Canadian trash trucks per week are being turned back at the border for containing dangerous radioactive materials such as medical waste. But we need the trash shipments to stop completely.

Michigan already has protections contained in an international agreement between the United States and Canada, but are being ignored. Under the Agreement Concerning the Transboundary Movement of Hazardous Waste, which was entered into in 1986, shipments of waste across the Canadian-U.S. border require government-to-government notification. The

Environmental Protection Agency, EPA, as the designate authority for the United States would receive the notification and then would have 30 days to consent or object to the shipment. Not only have these notification provisions not been enforced, but the EPA has indicated that they would not object to the municipal waste shipments.

Michigan citizens have spoken loud and clear on this issue. More than 165,000 people signed my on-line petition urging the EPA to use their power to stop the Canadian trash shipments. Residents from all 83 Michigan counties have signed the petition—an unprecedented response. I've presented these signatures to both former EPA Administrator Mike Leavitt and Homeland Security Secretary Tom Ridge. But despite these efforts, EPA has not stopped these trash shipments.

That is why I'm reintroducing my bill today. The Canadian Waste Import Ban of 2005 would stop the Canadian trash shipments by placing an immediate Federal ban on the importation of Canadian municipal solid waste. Any State that wishes to receive Canadian trash can opt out of the ban by giving notice to the EPA. The ban will be in place until the EPA enforces the notice and consent provision contained in the binational agreement.

This legislation would also give Michigan residents the protection they deserve from these shipments. In enforcing the agreement, the EPA would have to obtain the consent of the receiving State before consenting to a Canadian municipal solid waste shipment. So if the State of Michigan says no, the EPA must object to the trash shipment.

The EPA would also have to consider the impact of the shipment on homeland security, environment, and public health. These waste shipments should no longer be accepted without an examination of how it will affect the health and safety of Michigan families.

Michigan residents deserve the protections provided by this international agreement and should be provided the ability to stop these dangerous and unhealthy trash shipments. I urge my colleagues to support the Canadian Waste Import Ban of 2005.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 346

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Canadian Waste Import Ban Act of 2005".

## SEC. 2. CANADIAN MUNICIPAL SOLID WASTE.

(a) IN GENERAL.—Subtitle D of the Solid Waste Disposal Act (42 U.S.C. 6941 et seq.) is amended by adding at the end the following: "SEC. 4011. CANADIAN MUNICIPAL SOLID WASTE.

"(a) DEFINITIONS.—In this section:

"(1) AGREEMENT.—The term 'Agreement' means—

- "(A) the Agreement Concerning the Transboundary Movement of Hazardous Waste between the United States and Canada, signed at Ottawa on October 28, 1986 (TIAS 11099) and amended on November 25, 1992; and
- "(B) any regulations promulgated to implement and enforce that Agreement.
- "(2) CANADIAN MUNICIPAL SOLID WASTE.— The term 'Canadian municipal solid waste' means municipal solid waste that is generated in Canada.
  - "(3) MUNICIPAL SOLID WASTE.—
- "(A) IN GENERAL.—The term 'municipal solid waste' means—
  - "(i) material discarded for disposal by-
- "(I) households (including single and multifamily residences); and
- "(II) public lodgings such as hotels and motels; and
- "(ii) material discarded for disposal that was generated by commercial, institutional, and industrial sources, to the extent that the material—
- "(I)(aa) is essentially the same as material described in clause (i); or
- "(bb) is collected and disposed of with material described in clause (i) as part of a normal municipal solid waste collection service; and
- "(II) is not subject to regulation under subtitle C
- ``(B) INCLUSIONS.—The term 'municipal solid waste' includes—
  - "(i) appliances;
  - "(ii) clothing;
  - "(iii) consumer product packaging;
- "(iv) cosmetics;
- "(v) debris resulting from construction, remodeling, repair, or demolition of a structure;
- "(vi) disposable diapers;
- "(vii) food containers made of glass or metal:
  - "(viii) food waste;
  - "(ix) household hazardous waste;
- "(x) office supplies;
- "(xi) paper; and
- "(xii) yard waste.
- ``(C) Exclusions.—The term 'municipal solid waste' does not include—
- ''(i) solid waste identified or listed as a hazardous waste under section 3001, except for household hazardous waste;
- "(ii) solid waste, including contaminated soil and debris, resulting from—
- "(I) a response action taken under section 104 or 106 of the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9604, 9606);
- "(II) a response action taken under a State law with authorities comparable to the authorities contained in either of those sections; or
- ``(III) a corrective action taken under this Act;
- "(iii) recyclable material—
- "(I) that has been separated, at the source of the material, from waste destined for disposal; or
- "(II) that has been managed separately from waste destined for disposal, including scrap rubber to be used as a fuel source;
- "(iv) a material or product returned from a dispenser or distributor to the manufacturer or an agent of the manufacturer for credit, evaluation, and possible potential reuse;
- "(v) solid waste that is-
- $\mbox{\ensuremath{^{\prime\prime}}}(I)$  generated by an industrial facility; and
- "(II) transported for the purpose of treatment, storage, or disposal to a facility (which facility is in compliance with applicable State and local land use and zoning laws and regulations) or facility unit—
- "(aa) that is owned or operated by the generator of the waste;

- "(bb) that is located on property owned by the generator of the waste or a company with which the generator is affiliated; or
- "(cc) the capacity of which is contractually dedicated exclusively to a specific generator;
- "(vi) medical waste that is segregated from or not mixed with solid waste;
- "(vii) sewage sludge or residuals from a sewage treatment plant;
- "(viii) combustion ash generated by a resource recovery facility or municipal incinerator; or
- "(ix) waste from a manufacturing or processing (including pollution control) operation that is not essentially the same as waste normally generated by households.
- ''(b) Ban on Canadian Municipal Solid Waste.—
- "(1) IN GENERAL.—Except as provided in paragraph (2), until the date on which the Administrator promulgates regulations to implement and enforce the Agreement (including notice and consent provisions of the Agreement), no person may import into any State, and no solid waste management facility may accept, Canadian municipal solid waste for the purpose of disposal or incineration of the Canadian municipal solid waste.
- "(2) ELECTION BY GOVERNOR.—The Governor of a State may elect to opt out of the ban under paragraph (1), and consent to the importation and acceptance by the State of Canadian municipal solid waste before the date specified in that paragraph, if the Governor submits to the Administrator a notice of that election by the Governor.
  - "(c) AUTHORITY OF ADMINISTRATOR.—
- "(1) IN GENERAL.—Beginning immediately after the date of enactment of this section, the Administrator shall—
- "(A) perform the functions of the Designated Authority of the United States described in the Agreement with respect to the importation and exportation of municipal solid waste under the Agreement; and
- "(B) implement and enforce the Agreement (including notice and consent provisions of the Agreement).
- "(2) CONSENT TO IMPORTATION.—In considering whether to consent to the importation of Canadian municipal solid waste under article 3(c) of the Agreement, the Administrator shall—
- "(A) obtain the consent of each State into which the Canadian municipal solid waste is to be imported; and
- "(B) consider the impact of the importation on homeland security, public health, and the environment.".
- (b) CONFORMING AMENDMENT.—The table of contents of the Solid Waste Disposal Act (42 U.S.C. prec. 6901) is amended by adding after the item relating to section 4010 the following:
- "Sec. 4011. Canadian municipal solid waste".
  - By Mr. NELSON of Florida (for himself, Mr. LUGAR, and Mr. ROCKEFELLER):
- S. 347. A bill to amend titles XVIII and XIX of the Social Security Act and title III of the Public Health Service Act to improve access to information about individuals' health care operations and legal rights for care near the end of life, to promote advance care planning and decisionmaking so that individuals' wishes are known should they become unable to speak for themselves, to engage health care providers in disseminating information about and assisting in the preparation of advance directives, which include living wills and durable powers of attorney for health care, and for other

purposes; to the Committee on Finance.

Mr. NELSON of Florida. Mr. President, I am pleased to be joined by my colleagues and cosponsors Senators JAY ROCKEFELLER and RICHARD LUGAR as we introduce the Advance Directives Improvement and Education Act of 2005. Senators Rockefeller and Col-LINS, along with Senator WYDEN, sponsored legislation with similar goals in the past and have provided invaluable support and counsel in drafting the bill we introduce today.

The Advance Directives Improvement and Education Act of 2005 has a simple purpose: to encourage all adults in America, especially those 65 and older, to think about, talk about and write down their wishes for medical care near the end of life should they become unable to make decisions for themselves. Advance directives, which include a living will stating the individual's preferences for care, and a power of attorney for health care, are critical documents that each of us should have. The goal is clear, but reaching it requires that we educate the public about the importance of advance directives, offer opportunities for discussion of the issues, and reinforce the requirement that health care providers honor patients' wishes. This bill is designed to do just that.

Americans are afraid of death. We don't like to think about it, talk about it, or plan for it. And yet, we will all face it. Not only our own deaths, but our parents, siblings, friends, and sometimes, tragically, children. Today, most Americans face death unprepared. Family members frequently end up making critical medical decisions for incapacitated patients, yet they, too, are unprepared. Only 15-20 percent of adults have advance directives. Among this group, many have not discussed the contents of these important documents with their families or even the person named as the health care proxy.

It is time to bring this discussion into the mainstream. Too much is at stake to continue to deny our mortality. You all know about the tragic situation going on in Florida with Terri Schiavo. Here is a young woman in a persistent vegetative state who is the subject of a debate about her treatment between her husband and her parents, a debate that has been a court case and a legislative quagmire. Why? Because she didn't write down what type of care she would want in the event an accident, illness or other medical condition caused her to be in an incapacitated state. She is young and didn't think about death or dying. If she had an advance directive that made her wishes clear and named a health care proxy to make decisions for her should she be unable to do so for herself, the treatment debate might continue, but there would be no question as to who could decide. The Supreme Court has clearly affirmed that competent adults have the right to refuse unwanted medical treatment, Wash-

ington v. Glucksburg and Vacco v. Quill, 1997, but it also stressed that advance directives are a means of safeguarding that right should adults become incapable of deciding for themselves.

Fortunately, situations like Schiavo's are rare. Of the 2.5 million people who die each year 83 percent are Medicare beneficiaries. In fact, 27 percent of Medicare expenditures cover care in the last year of life. Remember, everyone who enrolls in Medicare will die on Medicare. The Advance Directives Improvement and Education Act encourages all Medicare beneficiaries to prepare advance directives by providing a free physician office visit for the purpose of discussing end-of-life care choices and other issues around medical decision-making in a time of incapacitation. Physicians will be reimbursed for spending time with their patients to help them understand situations in which an advance directive would be useful, medical options, the Medicare hospice benefit and other concerns. The conversation will also enable physicians to learn about their patients' wishes, fears, religious beliefs, and life experiences that might influence their medical care wishes. These are important aspects of a physician-patient relationship that are too often unaddressed.

Another part of our bill will provide funds for the Department of Health and Human Services to conduct a public education campaign to raise awareness of the importance of planning for care near the end of life. This campaign would explain what advance directives are, where they are available, what questions need to be asked and answered, and what to do with the executed documents. HHS, directly or through grants, would also establish an information clearinghouse where consumers could receive state-specific information and consumer-friendly documents and publications.

State-specific information is needed because in addition to the federal Patients Self Determination Act passed in 1990, most states also have enacted advance directive laws. Because the state laws differ, some states may be reluctant to honor advance directives that were executed in another state. The bill we introduce today contains language that would make all advance directives "portable," that is, useful from one state to another. As long as the documents were lawfully executed in the state of origin, they must be accepted and honored in the state in which they are presented, unless to do so would violate state law.

All of the provisions in the Advance Directives Improvement and Education Act of 2005 are there for one reason: to increase the number of people in the United States who have advance directives, who have discussed their wishes with their physicians and families, and who have given copies of the directives to their loved ones, health care providers, and legal representatives.

This new Medicare benefit and education campaign will also lead to a reduction in litigation costs. By encouraging advance directives, cases like Ms. Schiavo's would be less frequent; therefore the long and costly litigation surrounding these unfortunate situations would be reduced.

Senators Rockefeller, Lugar and I all believe that as our Medicare population grows and life expectancy lengthens, improving care near the end of life must be a priority. Helping people complete these critical documents is an essential part of making the final journey as meaningful and peaceful as possible. In addition, there are growing numbers of health care providers, nonprofit organizations and consumer advocates who recognize the need for change. New palliative care programs, pain protocols and hospice services are being instituted in facilities around the country.

This body is a legislative institution not a medical one—with the exceptions of the distinguished Majority Leader and Senator COBURN, of course. We cannot legislate good medical care or compassion. What we can do, what I hope we will do, is to enact this bill so that the American public can participate in improving end-of-life care—first, by filling out their own advance directives and talking to their families about them; and by raising their voices to demand that our health care systems honor their wishes and improve the way they care for people who are near the end of life. If we can do that, we will have done a great deal.

I ask unanimous consent that the text of the bill be printed in the RECORD

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE: TABLE OF CONTENTS.

- (a) SHORT TITLE —This Act may be cited as the "Advance Directives Improvement and Education Act of 2005".
- (b) Table of Contents.—The table of contents of this Act is as follows:
- Sec. 1. Short title; table of contents.
- Sec. 2. Findings and purposes. Sec. 3. Medicare coverage of end-of-life planning consultations.
- Sec. 4. Improvement of policies related to the use and portability of advance directives.
- Sec. 5. Increasing awareness of the importance of end-of-life planning.
- Sec. 6. GAO studies and reports on end-oflife planning issues.

### SEC. 2. FINDINGS AND PURPOSES.

- (a) FINDINGS.—Congress makes the following findings:
- (1) Every year 2,500,000 people die in the United States. Eighty percent of those people die in institutions such as hospitals, nursing homes, and other facilities. Chronic illnesses, such as cancer and heart disease, account for 2 out of every 3 deaths.
- (2) In January 2004, a study published in the Journal of the American Medical Association concluded that many people dying in institutions have unmet medical, psychological, and spiritual needs. Moreover, family members of decedents who received care

- at home with hospice services were more likely to report a favorable dying experience.
- (3) In 1997, the Supreme Court of the United States, in its decisions in Washington v. Glucksberg and Vacco v. Quill, reaffirmed the constitutional right of competent adults to refuse unwanted medical treatment. In those cases, the Court stressed the use of advance directives as a means of safeguarding that right should those adults become incapable of deciding for themselves.
- (4) A study published in 2002 estimated that the overall prevalence of advance directives is between 15 and 20 percent of the general population, despite the passage of the Patient Self-Determination Act in 1990, which requires that health care providers tell patients about advance directives.
- (5) Competent adults should complete advance care plans stipulating their health care decisions in the event that they become unable to speak for themselves. Through the execution of advance directives, including living wills and durable powers of attorney for health care according to the laws of the State in which they reside, individuals can protect their right to express their wishes and have them respected.
- (b) PURPOSES.—The purposes of this Act are to improve access to information about individuals' health care options and legal rights for care near the end of life, to promote advance care planning and decisionmaking so that individuals' wishes are known should they become unable to speak for themselves, to engage health care providers in disseminating information about and assisting in the preparation of advance directives, which include living wills and durable powers of attorney for health care, and for other purposes.

### SEC. 3. MEDICARE COVERAGE OF END-OF-LIFE PLANNING CONSULTATIONS.

- (a) COVERAGE.—Section 1861(s)(2) of the Social Security Act (42 U.S.C. 1395x(s)(2)), as amended by section 642(a) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173; 117 Stat. 2322), is amended
- (1) in subparagraph (Y), by striking "and" at the end:
- (2) in subparagraph (Z), by inserting "and" at the end; and
- (3) by adding at the end the following new subparagraph:
- (AA) end-of-life planning consultations (as defined in subsection (bbb)):
- (b) SERVICES DESCRIBED.—Section 1861 of the Social Security Act (42 U.S.C. 1395x), as amended by section 706(b) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173; 117 Stat. 2339), is amended by adding at the end the following new subsection:
  - "End-Of-Life Planning Consultation
- "(bbb) The term 'end-of-life planning consultation' means physicians' services-
- '(1) consisting of a consultation between the physician and an individual regarding-
- '(A) the importance of preparing advance directives in case an injury or illness causes the individual to be unable to make health care decisions;
- "(B) the situations in which an advance directive is likely to be relied upon;
- "(C) the reasons that the development of a comprehensive end-of-life plan is beneficial and the reasons that such a plan should be updated periodically as the health of the individual changes:
- "(D) the identification of resources that an individual may use to determine the requirements of the State in which such individual resides so that the treatment wishes of that individual will be carried out if the individual is unable to communicate those wishes, including requirements regarding the des-

ignation of a surrogate decision maker (health care proxy); and

- "(E) whether or not the physician is willing to follow the individual's wishes as expressed in an advance directive; and
- "(2) that are furnished to an individual on an annual basis or immediately following any major change in an individual's health condition that would warrant such a consultation (whichever comes first).
- (c) WAIVER OF DEDUCTIBLE AND COINSUR-ANCE.
- (1) DEDUCTIBLE.—The first sentence of section 1833(b) of the Social Security Act (42 U.S.C. 1395 l(b)) is amended-
- (A) by striking "and" before "(6)"; and
- (B) by inserting before the period at the end the following: ", and (7) such deductible shall not apply with respect to an end-of-life planning consultation (as defined in section 1861(bbb))"
- (2) Coinsurance.—Section 1833(a)(1) of the Social Security Act (42 U.S.C. 1395 l(a)(1)) is amended-
- (A) in clause (N), by inserting "(or 100 percent in the case of an end-of-life planning consultation, as defined in section 1861(bbb))" after "80 percent"; and
- (B) in clause (O), by inserting "(or 100 percent in the case of an end-of-life planning consultation, as defined section in 1861(bbb))" after "80 percent"
- (d) PAYMENT FOR PHYSICIANS' SERVICES. Section 1848(j)(3) of the Social Security Act (42 U.S.C. 1395w-4(j)(3)), as amended by section 611(c) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173; 117 Stat. 2304), is amended by inserting "(2)(AA), "(2)(W),
- FREQUENCY LIMITATION.—Section 1862(a)(1) of the Social Security Act (42 U.S.C. 1395y(a)(1)), as amended by section 613(c) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Public Law 108-173; 117 Stat. 2306), is amended-
- (1) by striking "and" at the end of subparagraph (L);
- (2) by striking the semicolon at the end of subparagraph (M) and inserting ", and"; and
- (3) by adding at the end the following new subparagraph:
- "(N) in the case of end-of-life planning consultations (as defined in section 1861(bbb)), which are performed more frequently than is covered under paragraph (2) of such section;"
- EFFECTIVE DATE.—The amendments made by this section shall apply to services furnished on or after January 1, 2006.

### SEC. 4. IMPROVEMENT OF POLICIES RELATED TO THE USE AND PORTABILITY OF AD-VANCE DIRECTIVES.

- (a) MEDICARE.—Section 1866(f) of the Social Security Act (42 U.S.C. 1395cc(f)) is amend-
- (1) in paragraph (1)—
- (A) in subparagraph (B), by inserting "and if presented by the individual (or on behalf of the individual), to include the content of such advance directive in a prominent part of such record" before the semicolon at the end;
- (B) in subparagraph (D), by striking "and" after the semicolon at the end;
- (C) in subparagraph (E), by striking the period at the end and inserting "; and"; and
- (D) by inserting after subparagraph (E) the following new subparagraph:
- "(F) to provide each individual with the opportunity to discuss issues relating to the information provided to that individual pursuant to subparagraph (A) with an appropriately trained professional."
- (2) in paragraph (3), by striking "a writand inserting "an"; and
- (3) by adding at the end the following new paragraph:

"(5)(A) In addition to the requirements of paragraph (1), a provider of services, Medicare Advantage organization, or prepaid or eligible organization (as the case may be) shall give effect to an advance directive executed outside the State in which such directive is presented, even one that does not appear to meet the formalities of execution, form, or language required by the State in which it is presented to the same extent as such provider or organization would give effect to an advance directive that meets such requirements, except that a provider or organization may decline to honor such a directive if the provider or organization can reasonably demonstrate that it is not an authentic expression of the individual's wishes concerning his or her health care. Nothing in this paragraph shall be construed to authorize the administration of medical treatment otherwise prohibited by the laws of the State in which the directive is presented.

(B) The provisions of this paragraph shall preempt any State law to the extent such law is inconsistent with such provisions. The provisions of this paragraph shall not preempt any State law that provides for greater portability, more deference to a patient's wishes, or more latitude in determining a pa-

tient's wishes.".

- (b) MEDICAID.—Section 1902(w) of the Social Security Act (42 U.S.C. 1396a(w)) is amended-
  - (1) in paragraph (1)—
  - (A) in subparagraph (B)-
- (i) by striking "in the individual's medical ' and inserting "in a prominent part record? of the individual's current medical record"; and
- (ii) by inserting "and if presented by the individual (or on behalf of the individual), to include the content of such advance directive in a prominent part of such record" before the semicolon at the end:
- (B) in subparagraph (D), by striking "and" after the semicolon at the end:
- (C) in subparagraph (E), by striking the period at the end and inserting "; and"; and
- (D) by inserting after subparagraph (E) the following new subparagraph:
- "(F) to provide each individual with the opportunity to discuss issues relating to the information provided to that individual pursuant to subparagraph (A) with an appropriately trained professional.";
- (2) in paragraph (4), by striking "a written" and inserting "an"; and
- (3) by adding at the end the following paragraph:
- (6)(A) In addition to the requirements of paragraph (1), a provider or organization (as the case may be) shall give effect to an advance directive executed outside the State in which such directive is presented, even one that does not appear to meet the formalities of execution, form, or language required by the State in which it is presented to the same extent as such provider or organization would give effect to an advance directive that meets such requirements, except that a provider or organization may decline to honor such a directive if the provider or organization can reasonably demonstrate that it is not an authentic expression of the individual's wishes concerning his or her health care. Nothing in this paragraph shall be construed to authorize the administration of medical treatment otherwise prohibited by the laws of the State in which the directive is presented.
- (B) The provisions of this paragraph shall preempt any State law to the extent such law is inconsistent with such provisions. The provisions of this paragraph shall not preempt any State law that provides for greater portability, more deference to a patient's wishes, or more latitude in determining a patient's wishes.".

- (c) Effective Dates.-
- (1) IN GENERAL.—Subject to paragraph (2), the amendments made by subsections (a) and (b) shall apply to provider agreements and contracts entered into, renewed, or extended under title XVIII of the Social Security Act (42 U.S.C. 1395 et seq.), and to State plans under title XIX of such Act (42 U.S.C. 1396 et seq.), on or after such date as the Secretary of Health and Human Services specifies, but in no case may such date be later than 1 year after the date of enactment of this Act.
- (2) EXTENSION OF EFFECTIVE DATE FOR STATE LAW AMENDMENT.—In the case of a State plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements imposed by the amendments made by subsection (b), the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of enactment of this Act. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of the session is considered to be a separate regular session of the State legislature.

### SEC. 5. INCREASING AWARENESS OF THE IMPOR-TANCE OF END-OF-LIFE PLANNING.

Title III of the Public Health Service Act (42 U.S.C. 241 et seq.) is amended by adding at the end the following new part:

#### R-PROGRAMS TO INCREASE "PART AWARENESS OF ADVANCE DIRECTIVE PLANNING ISSUES

# "SEC. 399Z-1. ADVANCE DIRECTIVE EDUCATION CAMPAIGNS AND INFORMATION CLEARINGHOUSES.

- "(a) ADVANCE DIRECTIVE EDUCATION CAM-PAIGN.—The Secretary shall, directly or through grants awarded under subsection (c), conduct a national public education campaign—
- "(1) to raise public awareness of the importance of planning for care near the end of
- "(2) to improve the public's understanding of the various situations in which individuals may find themselves if they become unable to express their health care wishes;
- "(3) to explain the need for readily available legal documents that express an individual's wishes, through advance directives (including living wills, comfort care orders, and durable powers of attorney for health care);
- "(4) to educate the public about the avail-
- ability of hospice care and palliative care.
  "(b) INFORMATION CLEARINGHOUSE.—The Secretary, directly or through grants awarded under subsection (c), shall provide for the establishment of a national, toll-free, information clearinghouse as well as clearinghouses that the public may access to find out about State-specific information regarding advance directive and end-of-life decisions.
  - "(c) Grants.-
- "(1) IN GENERAL.—The Secretary shall use at least 60 percent of the funds appropriated under subsection (d) for the purpose of awarding grants to public or nonprofit private entities (including States or political subdivisions of a State), or a consortium of any of such entities, for the purpose of conducting education campaigns under subsection (a) and establishing information clearinghouses under subsection (b).
- (2) PERIOD.—Any grant awarded under paragraph (1) shall be for a period of 3 years. "(d) AUTHORIZATION OF APPROPRIATIONS.— There are authorized to be appropriated to

carry out this section \$25,000,000.".

### SEC. 6. GAO STUDIES AND REPORTS ON END-OF-LIFE PLANNING ISSUES.

- (a) STUDY AND REPORT ON COMPLIANCE WITH ADVANCE DIRECTIVES AND OTHER ADVANCE PLANNING DOCUMENTS.—
- (1) STUDY.—The Comptroller General of the United States shall conduct a study on the effectiveness of advance directives in making patients' wishes known and honored by health care providers.
- (2) REPORT.—Not later than the date that is 18 months after the date of enactment of this Act, the Comptroller General of the United States shall submit to Congress a report on the study conducted under paragraph (1) together with recommendations for such legislation and administrative action as the Comptroller General of the United States determines to be appropriate.
- (b) STUDY AND REPORT ON ESTABLISHMENT NATIONAL ADVANCE DIRECTIVE REG-ISTRY.-
- (1) STUDY.—The Comptroller General of the United States shall conduct a study on the implementation of the amendments made by section 3 (relating to medicare coverage of end-of-life planning consultations)
- (2) REPORT.—Not later than 2 years after the date of enactment of this Act, the Comptroller General of the United States shall submit to Congress a report on the study conducted under paragraph (1) together with recommendations for such legislation and administrative action as the Comptroller General of the United States determines to be appropriate.
- (c) STUDY AND REPORT ON ESTABLISHMENT OF NATIONAL ADVANCE DIRECTIVE REG-
- (1) STUDY.—The Comptroller General of the United States shall conduct a study on the feasibility of a national registry for advance directives, taking into consideration the constraints created by the privacy provisions enacted as a result of the Health Insurance Portability and Accountability Act.
- (2) REPORT -Not later than 18 months after the date of enactment of this Act, the Comptroller General of the United States shall submit to Congress a report on the study conducted under paragraph (1) together with recommendations for such legislation and administrative action as the Comptroller General of the United States determines to be appropriate.

### By Mr. SANTORUM (for himself and Ms. MIKULSKI):

S. 348. A bill to designate Poland as a program country under the visa waiver program established under section 217 of the Immigration and Nationality Act, and for other purposes; to the Committee on the Judiciary.

Mr. SANTORUM. Mr. President, I rise today to introduce, along with Senator MIKULSKI, a bill that would designate Poland as a program country under the Visa Waiver Program under section 217 of the Immigration Nationality Act.

As we celebrate an historic period with the first Iraqi elections in over fifty years, it is important to appreciate the sacrifices our allies have made to make such an event possible. America must continue to solidify the bond with its allies by assisting their governments and citizens when possible. This legislation brings us closer to a country that has been by our side through a time of war and continues to be a partner in the global freedom.

Since the founding of the United States, Poland has proven its steadfast

dedication to the causes of freedom and friendship with the United States. This has been exemplified by the brave actions of Polish patriots such as Casimir Pulaski and Tadeusz Kosciuszco during the American Revolution. Polish history provides pioneering examples of democracy and religious tolerance, and this is reflected in their constitution that states, "Freedom of faith and religion shall be ensured to everyone.

Poland's revolt from the Soviet Union's communist stranglehold is a more recent example of their dedication to freedom. They are a prime example of Ronald Reagan's vision to end the Cold War. Last year, when I met Lech Walesa, the tenacious leader of Poland's Solidarity movement and former President of Poland, I was reminded of the profound struggle the country endured to bring democracy to their people.

And their commitment to preserving freedom and global security continues today. On March 12, 1999, Poland became a member of the North Atlantic Treaty Organization. This was followed by admission into the European Union on May 1, 2004. Poland was a staunch ally to the United States in Operation Iraqi Freedom and has committed 2.300 troops to help with the ongoing peace efforts in Iraq.

In addition to Poland's efforts as a global ally, its people have contributed greatly within our borders. Nearly nine million people of Polish ancestry live in the United States. Polish immigrants have played an integral role in the success of industry and agriculture in Pennsylvania and throughout the United States.

Currently, the United States administers the Visa Waiver Program to citizens of twenty-seven countries. The program allows citizens from Visa Waiver Program countries to visit the United States as tourists, and Poland has earned the right to participate. I believe Poland deserves to be the twenty-eighth country to participate in the program. The 100,000 Polish citizens who visit the United States annually must currently pay a \$100 fee to apply for a visa. Many of these applicants are visiting family, often for wedding celebrations or funerals. In an expression of good faith, in 1991 the Polish government unilaterally repealed the visa requirement for U.S. citizens traveling to Poland for less than 90 days.

I am aware of past concerns about Polish visa refusal rates, but a closer look shows that refusal rates can be an inaccurate measure because they are based on decisions made by a very short interview process rather than the actual behavior of non-immigrants. Often, refusal rates do not reflect the propensity of nationals from that country to overstay their visas. More importantly, Poland's refusal rate does not reflect a high propensity for terrorism. The State Department has given no indication that the potential for terrorism in Poland significantly exceeds that of the 27 countries currently participating in the Visa Waiver

Program. Please be assured that I am sensitive to arguments that have concerns about our national security at the core. However, our past history with Polish citizens visiting the United States does not favor this argument.

For all Polish citizens and Polish Americans, I ask through this legislation that Poland be deemed a designated program country for the purposes of the Visa Waiver Program. I ask my colleagues for their support.

Ms. MIKULSKI. Mr. President, I rise today to continue the fight to right a wrong in America's visa program. I believe it's time for America to extend the Visa Waiver program to Poland. I'm pleased to have formed a bipartisan partnership with Senator Santorum to reintroduce our bill to get it done.

Last fall, Senator SANTORUM and I met with a hero of the Cold War, Lech Walesa. When he jumped over the wall of the Gdansk shipyard, he took Poland and the whole world with him. He told us that the visa issue is a question of honor for Poland. That day, we introduced a bill to once again stand in solidarity with the father of Solidarity by extending the Visa Waiver program to Poland.

This morning, I had the honor of hosting Poland's Foreign Minister, Professor Adam Rotfeld. We reaffirmed and cemented the close ties between the Polish and American peoples. Senator Santorum and I heard loud and clear that the visa waiver program remains a high priority for Poland.

My friends, Poland is not some Communist holdover or third-world country begging for a handout. The Cold War is over. Poland is a free and democratic nation. Poland is a NATO ally and a member of the European Union. But America's visa policy still treats Poland as a second-class citizen. That is just wrong.

Poland is a reliable ally, not just by treaty but in deeds. Warsaw hosted an international Conference on Combating Terrorism less than two months after the September 11 attacks. Poland continues to modernize its Armed Forces of they can operate with the Armed Forces of the U.S. and other NATO allies, buying American F-16s and Shadow UAVs and humvees.

More importantly, Polish troops have stood side by side with America's Armed Forces. Polish ships participated in Desert Shield and Desert Storm during the 1990–91 Gulf War. Poland sent troops to Bosnia as part of UNPROFOR and IFOR. Poland sent troops as part of the international coalition in Afghanistan.

Polish troops fought alongside American and British and Australian troops from day one of the Iraq war. They are there because they want to be reliable allies. Because they are ready to stand with us even when the mission is risky and unpopular. Today, Poland still commands multinational forces in the South Central region of Iraq. Nearly 2,500 Polish troops are still on the ground in Iraq, sharing the burden and the risk and the casualties.

So why are Singapore and San Marino among the 27 countries in the Visa Waiver program, but Poland is not?

President Kwasniewski raised this issue with President Bush last year and again this week. The President has said this is a matter for Congress. It's time for us to act.

The bill Senator Santorum and I are introducing today will add Poland to the list of designated countries in the Visa Waiver program. That will allow Polish citizens to travel to the U.S. for tourism or business for up to sixty days without needing to stand in line to get a visa. That means it will be easier for Poles to visit family and friends or do business in America. Shouldn't we make it easier for the Pulaskis and Kosciuszkos and Marie Curies of today to visit our country?

We know that our borders will be no less secure because of these Polish visitors to our country. But we know that our alliance will be more secure because of this legislation.

I urge our colleagues to join us in support of this important bill.

## By Mr. DOMENICI:

S. 349. A bill to provide for the appointment of additional judges for the district of New Mexico; to the Committee on the Judiciary.

Mr. DOMENICI. Mr. President, I introduce legislation that continues my efforts to address a significant problem in the state of New Mexico, a problem that the Judicial Conference of the United States has previously described as a "crisis." According to the latest survey by the Judicial Conference, the weighted caseload for the District of New Mexico is now the fourth highest in the Nation. This is in spite of the fact that in 2002 Congress approved a temporary judgeship for New Mexico which the President has filled.

Based on this heavy workload, the Judicial Conference recently recommended 2 additional permanent judgeships, as well as an additional temporary judgeship for New Mexico; Only 2 districts in California, one in Florida, and one in New York were recommended to get more judgeships than New Mexico. The legislation I have introduced today reflects this recommendation.

In the 12-month period ending on June 30, 2002, the number of criminal filings per judgeship increased from 222 to 320. This is compared to the national average of 81. You don't have to be a mathematical genius to figure out that this is just short of four times the national average. During this same time period, the number of weighted filings increased from 673 per judgeship to 739. The national average is 504 and the Judicial Conference has set the benchmark at 430 weighted cases per judgeship. The District of New Mexico is clearly in need of relief from this crisis

The Sixth Amendment of the Constitution guarantees the right to a

speedy trial in all criminal cases. The United States Supreme Court has called this guarantee "one of the most basic rights preserved by our Constitution," 386 U.S. 213. We must ensure that our States have the proper judicial resources to guarantee the basic right promised to Americans more than 200 years ago. The bill that I am introducing provides such necessary resources to New Mexico.

Without additional judges, this problem will only continue to grow as the country focuses more intently on the security of our borders. I hope that my colleagues will act quickly to authorize these necessary additional judgeships for New Mexico.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S 349

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

# SECTION 1. ADDITIONAL JUDGES FOR THE DISTRICT OF NEW MEXICO.

- (a) PERMANENT DISTRICT JUDGESHIPS.—
- (1) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate, 2 additional district judges for the district of New Mexico.
- (2) TECHNICAL AND CONFORMING AMEND-MENT.—The table under section 133(a) of title 28, United States Code, is amended by striking the item relating to New Mexico and inserting the following:
- - (b) TEMPORARY JUDGESHIP.—
- (1) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate, 1 additional district judge for the district of New Mexico.
- (2) VACANCY NOT FILLED.—The first vacancy in the office of district judge in the district of New Mexico occurring 10 years or more after the confirmation date of the judge named to fill the temporary district judge-ship created by this subsection, shall not be filled

By Mr. LUGAR (for himself, Mrs. BOXER, Mr. CHAFEE, Mr. FEINGOLD, Mr. COLEMAN, and Mr. SMITH):

S. 350. A bill to amend the Foreign Assistance Act of 1961 to provide assistance for orphans and other vulnerable children in developing countries, and for other purposes; to the Committee on Foreign Relations.

Mr. LUGAR. Mr. President, I rise to introduce the Assistance for Orphans and Other Vulnerable Children in Developing Countries Act of 2005.

On October 7, 2004, I introduced S. 2939, a bill to improve our ability to provide assistance to orphans and vulnerable children in developing countries. Because of the gravity and urgency of the growing AIDS orphans crisis, I am reintroducing my bill.

The unprecedented AIDS orphan crisis in sub-Saharan Africa has profound

implications for political stability, development, and human welfare that extend far beyond the region. Sub-Saharan African nations stand to lose generations of educated and trained professionals who can contribute meaningfully to their countries' development. Orphaned children, many of whom are homeless, are more likely to resort to prostitution and other criminal behavior to survive. Most frighteningly, these uneducated, poorly socialized, and stigmatized young adults are extremely vulnerable to being recruited into criminal gangs, rebel groups, or extremist organizations that offer shelter and food and act as "surrogate" families. It is imperative that the international community respond to this crisis.

An estimated 110 million orphans live in sub-Saharan Africa, Asia, Latin America, and the Caribbean. The HIV/AIDS pandemic is rapidly expanding the orphan population. Currently an estimated 14 million children have been orphaned by AIDS, most of whom live in sub-Saharan Africa. This number is projected to soar to more than 25 million by 2010. The pandemic is orphaning generations of African children and is compromising the overall development prospects of their countries.

Most orphans in the developing world live in extremely disadvantaged circumstances. Poor communities in the developing world struggle to meet the basic food, clothing, health care, and educational needs of orphans. Experts recommend supporting community-based organizations to assist these children. Such an approach enables the children to remain connected to their communities, traditions, rituals, and extended families.

My bill seeks to improve assistance to orphans and other vulnerable children in developing countries. It would require the United States Government to develop a comprehensive strategy for providing such assistance and would authorize the President to support community-based organizations that provide basic care for orphans and vulnerable children.

Orphans are less likely to be in school, and more likely to be working full time. Yet only education can help children acquire the knowledge and develop the skills they need to build a better future.

For many children, the primary barrier to an education is the expense of school fees, uniforms, supplies, and other costs. My bill aims to improve enrollment and access to primary school education by supporting programs that reduce the negative impact of school fees and other expenses. It also would reaffirm our commitment to international school lunch programs. Studies have shown that school food programs provide an incentive for children to stay in school. School meals provide basic nutrition to children who otherwise do not have access to reliable food.

Many children who lose one or both parents often face difficulty in asserting their inheritance rights. Even when the inheritance rights of women and children are spelled out in law, such rights are difficult to claim and are seldom enforced. In many countries it is difficult or impossible for a widoweven if she has small children—to claim property after the death of her husband. This often leaves the most vulnerable children impoverished and homeless. My bill seeks to support programs that protect the inheritance rights of orphans and widows with children.

The AIDS orphan crisis in sub-Saharan Africa has implications for political stability, development, and human welfare that extend far beyond the region, affecting governments and people worldwide. Every 14 seconds another child is orphaned by AIDS. Turning the tide on this crisis will require a coordinated, comprehensive, and swift response. I am hopeful that Senators will join me in backing this legislation.

Mrs. BOXER. Mr. President, I am pleased to join my chairman of the Senate Foreign Relations I Committee, Senator LUGAR, in reintroducing the Assistance for Orphans and Other Vulnerable Children in Developing Countries Act. Today, we are reintroducing a bill that we worked on together in the 108th Congress—a bill that will help those most vulnerable to the HIV/AIDS pandemic throughout the world.

An estimated 14 million children have lost either one or both parents to HIV/AIDS. By the year 2010, It is estimated that this number will grow to 25 million. The pandemic has created an orphans crisis, especially in sub-Sahara Africa where this crisis is most severe.

The struggle of those orphaned by this pandemic is heartbreaking. These children face the trauma of watching their parents die. They are forced at a very young age to care for their younger siblings while suffering from deep poverty, hunger, and sicknesses.

A girl from Uganda who lost her parents to HIV/AIDS at age 11 told the BBC:

When my mother died we suffered so much. There was no food, and there was no one to look after us. We didn't even have money to buy soap and salt. We wanted to run away to our other grandparents, but we didn't have transport to go there. I tried to be positive, but it was difficult. I missed my mother because I loved her so much.

Picture this story repeated 14 million times throughout the world. We cannot stand by and allow this suffering to continue.

The Lugar-Boxer legislation that is being introduced today is designed to help these orphans and other vulnerable children who have been affected by the HIV/AIDS pandemic.

First, our bill would authorize the President to provide assistance to orphans and other vulnerable children in developing countries. Specific authorization is provided in the areas of basic care, HIV/AIDS treatment, school food

programs, protection of inheritance rights, and education and employment training assistance.

Second, this legislation calls on the President to use U.S. foreign assistance to support programs that eliminate school fees. Throughout the world, many orphans are prevented from attending school because they cannot afford to pay school fees or are forced to financially support their families or care for sick relatives.

And, third, our bill would require the President to develop and submit to Congress a strategy for coordinating, implementing, and monitoring assistance programs for orphans and vulnerable children.

This strategy must include measurable performance indicators to ensure that our policies are effective in helping orphans and vulnerable children.

Once again, Mr. President, I thank Chairman LUGAR for working with me on this bipartisan legislation. I also thank Congresswoman LEE for her leadership on this issue in the House of Representatives.

I hope my colleagues will join us in supporting this important bill.

By Mr. KENNEDY (for himself, Mr. Kerry, Mr. Akaka, Mrs. Boxer, Mrs. Clinton, Mr. Corzine, Mr. Dodd, Mr. Feingold, Mr. Inouye, Mr. Lautenberg, Mr. Levin, Mr. Lieberman, Ms. Mikulski, Mr. Sarbanes, and Mr. Reed):

S. 351. A bill to amend title XVIII of the Social Security Act to provide for patient protection by limiting the number of mandatory overtime hours a nurse may be required to work in certain providers of services to which payments are made under the Medicare Program; to the Committee on Finance.

Mr. KENNEDY. Mr. President, it is a privilege to join my colleagues, Senators Kerry, CLINTON, SARBANES, CORZINE, MIKULSKI, DODD, LEVIN, REED, LIEBERMAN, FEINGOLD, INOUYE, and AKAKA in introducing the Safe Nursing and Patient Care Act.

Current Federal safety standards limit work hours for pilots, flight attendants, truck drivers, railroad engineers and other professionals, in order to protect the public safety. However, no similar limitation currently exists for the nation's nurses, who care for so many of our most vulnerable citizens.

The Safe Nursing and Patient Care Act will limit mandatory overtime for nurses in order to protect patient safety and improve working conditions for nurses. Across the country, the widespread practice of mandatory overtime means that over-worked nurses are often providing care in unacceptable circumstances. A recent study from the University of Pennsylvania School of Nursing found that nurses who work shifts of twelve and a half hours or more are three times more likely to commit an error than nurses who work a standard shift of eight and a half

hours or less. Restrictions for mandatory overtime will help ensure that nurses are able to provide the highest quality of care to their patients.

Some hospitals have already taken action to deal with this serious problem. Over the last few years in Massachusetts, Brockton Hospital and St. Vincent Hospital agreed to limit mandatory overtime as part of negotiations following successful strikes by nurses. These limits will protect patients and improve working conditions for the nurses, and will help in the recruitment and retention of nurses in the future.

Job dissatisfaction and harsh overtime hours are major factors in the current shortage of nurses. Nationally, the shortfall is expected to rise to 20 percent in coming years. A major goal of the Safe Nursing and Patient Care Act is to improve the quality of life for nurses, so that more persons will enter the nursing profession and remain in it

Improving conditions for nurses is an essential part of our ongoing effort to reduce medical errors, improve patient outcomes, and encourage more Americans to become and remain nurses. The Safe Nursing and Patient Care Act is a significant step that Congress can take to support better quality care for all Americans, and improve working conditions for our nation's nurses, and I urge my colleagues to support it.

By Ms. MIKULSKI (for herself, Mr. Gregg, Mr. Leahy, Mr. Warner, Mr. Chafee, Mr. Thomas, Mr. Levin, Mr. Salazar, Mr. Allen, Mr. Kennedy, Mr. Jeffords, Ms. Collins, Mr. Sarbanes, Ms. Snowe, Mr. Dorgan, Mr. Reed, Mr. Dayton, and Mr. Kerry):

S. 352. A bill to revise certain requirements for H-2B employers and require submission of information regarding H-2B non-immigrants, and for other purposes; to the Committee on the Judiciary.

Ms. MIKULSKI. Mr. President, today I rise to introduce legislation that is desperately needed by small and seasonal businesses all over the Nation. These businesses are in crisis. They need seasonal workers before the summer so that they can survive. For many years they have relied on the H2B Visa program to meet these needs, but this year they can't get the temporary labor they need because they have been shut out of the H-2B visa program. That program lets them hire temporary foreign workers when no American workers are available.

So today, I join with my colleague Senator GREGG to introduce legislation that provides a quick fix to the H-2B problem. The "Save our Small and Seasonal Businesses Act" will help these employers by doing three things—temporarily exempting good actor workers from the H-2B cap, protecting against fraud in the H-2B program and providing a fair and balanced allocation

system for H–2B visas. I urge my colleagues to work with us to pass this legislation quickly to save these businesses and the thousands of American jobs they provide.

Many in this body know about the H–2B crisis. All this week we have been talking about the litigation crisis—but a real crisis to thousands of small and seasonal businesses is the worker shortage they face as they approach the summer season. These small businesses count on the H–2B Visa Program to keep their businesses afloat. And this year, because the cap of 66,000 was reached so early in the year, many of these businesses will be unable to get the seasonal workers that they need to survive.

Hitting the cap so early has had a great impact on Maryland. We have a lot of summer seasonal businesses in Maryland, on the Eastern Shore, in Ocean City or working the Chesapeake Bay. Many of our businesses use the program year after year. They hire all the American workers they can find, but they need additional help to meet seasonal demands. Because the cap was reached so early this year, for the second year in a row, summer employers face a disadvantage. They can't use the program, so they can't meet their seasonal needs and many will be forced to limit services, lay-off permanent U.S. workers or, worse vet, close their doors.

These are family businesses and small businesses in small communities in Maryland. If the business suffers the whole community suffers. For seafood companies like J.M. Clayton, what they do is more than a business, it's a way of life. Started over a century ago and run by the great grandsons of the founder, J.M. Clayton works the waters of the Chesapeake Bay, supplying crabs, crabmeat and other seafood, including Maryland's famous oysters, to restaurants, markets, and wholesalers allover the Nation. It is the oldest working crab processing plant in the world and by employing 65 H-2B workers the company can retain over 30 fulltime American workers.

But its not just seafood companies that have a long history on the Eastern Shore. It's companies like S.E.W. Friel Cannery, which began its business over 100 years ago when there were 300 canneries on the Eastern Shore. But now those others are gone and Friel's is the last corn cannery left. Ten years ago, when the cannery could not find local workers, it turned to the new H-2B Visa Program. It has used the program every year since, and many workers are repeat users who come each year and then go home after the season. What's important is that having this help each year has not only allowed the company to maintain its American workforce, but it has paved the way for local workers to return to the cannery. They now employ 75 full time and 190 seasonal workers, along with 70 farmers and additional suppliers.

Now these employers can't just turn to the H-2B program whenever they

want seasonal workers. First, employers must try to vigorously recruit U.S. workers. They must demonstrate to the Department of Labor that there are no U.S. workers available. Only after that are they allowed to fill seasonal vacancies with H-2B visa workers. The workers that they bring in often participate in the H-2B program year after year. They often work for the same companies. But they cannot and do not stay in the U.S. They return to their home countries, to their families and their U.S. employer must go through the whole visa process again the following year to get them back. That means an employer must prove again to the Department of Labor that they cannot get U.S. workers.

This legislative fix keeps that visa process in place. It's a short-term legislative fix to solve the immediate H-2B visa shortage. It does not take the place of comprehensive immigration reform.

This legislation is a temporary two year fix. And it does four things:

One, it exempts returning seasonal workers from the cap. These are workers who have already successfully participated in the H-2B Visa Program. They received a visa in one of the past three years and have returned home to their families after their seasonal employment with a U.S. company.

Everyone must still play by the rules. Employers must go through the whole visa process, prove they need the seasonal help and only after that are returning employees exempt from the cap. Employees must be those who have left the U.S. and are requesting a new H-2B visa to come back for another season. This new system rewards those who have played by the rules, worked hard and successfully participated in the program. And the bill gives a helping hand to businesses by allowing them to retain workers who they have already trained to do their seasonal jobs.

Next, this bill creates new anti-fraud provisions. To make sure that everyone is playing by the rules and that no one is misusing the program. And it gives government some teeth to prevent fraud and enforce our nation's immigration laws. A \$150 anti-fraud fee ensures that government agencies processing the H-2B visas will get added resources to detect and prevent fraud. New sanction provisions for those who misrepresent facts on a petition further strengthens DHS's enforcement power. This section also sends a strong message to employers—don't play games with U.S. jobs. Our bill reserves the highest penalties for employer actions which harm U.S. workers.

And, this bill creates a fair allocation of visas. Now, summer employers lose out because winter employers get all the visas. This bill makes the system fair for all employers. We reserve half of the visas for the winter and half for the summer. Allocating visas ensures that, until a long-term solution is reached, all employers will have an

equal chance of getting the workers that they need.

Finally, the bill adds some simple reporting requirements. So that DHS gives Congress the information it needs to make informed decisions about the H-2B visa program in the future.

This is a quick and simple fix. It lasts just 2 years—the rest of this year and next. And it does not get in the way of comprehensive immigration reform.

I worked with my colleagues to get a bill with strong bipartisan support, a bill that would work.

This bill is realistic. It provides a temporary solution because immediate action is needed to help these small and seasonal businesses stay in business. Yes, we need to help them now. Their seasons start soon. And if they don't get seasonal workers this year, there may not be any businesses around next year to help.

Every Member of the Senate who has heard from their constituents—whether they are seafood processors, landscapers, resorts, timber companies, fisheries, pool companies or carnivals—knows the urgency in their voices, knows the immediacy of the problem and knows that the Congress must act now to save these businesses. I urge my colleagues to join this effort, support the Save our Small and Seasonal Businesses Act, and push this Congress to fix the problem today.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 352

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Save Our Small and Seasonal Businesses Act of 2005". SEC. 2. NUMERICAL LIMITATIONS ON H-2B WORKERS.

- (a) IN GENERAL.—Section 214(g) of the Immigration and Nationality Act (8 U.S.C. 1184(g)) is amended by adding at the end the following:
- "(9) An alien counted toward the numerical limitations of paragraph (1)(B) during any one of the 3 fiscal years prior to the submission of a petition for a nonimmigrant worker described in section 101(a)(15)(H)(ii)(b) may not be counted toward such limitation for the fiscal year in which the petition is approved.".
  - (b) Effective Date.—
- (1) IN GENERAL.—The amendment in subsection (a) shall take effect as if enacted on October 1, 2004, and shall expire on October 1, 2006.
- (2) IMPLEMENTATION.—Not later than the date of enactment of this Act, the Secretary of Homeland Security shall begin accepting and processing petitions filed on behalf of aliens described in section 101(a)(15)(H)(ii)(b), in a manner consistent with this Act and the amendments made by this Act.

# SEC. 3. FRAUD PREVENTION AND DETECTION FEE.

(a) IMPOSITION OF FEE.—Section 214(c) of the Immigration and Nationality Act (8 U.S.C. 1184(c)), as amended by section 426(a) of division J of the Consolidated Appropria tions Act, 2005 (Public Law 108-447), is amended by adding at the end the following:

"(13)(A) In addition to any other fees authorized by law, the Secretary of Homeland

Security shall impose a fraud prevention and detection fee on an employer filing a petition under paragraph (1) for nonimmigrant workers described in section 101(a)(15)(H)(ii)(b).

"(B) The amount of the fee imposed under subparagraph (A) shall be \$150.".

(b) Use of Fees.—

- (1) FRAUD PREVENTION AND DETECTION ACCOUNT.—Subsection (v) of section 286 of the Immigration and Nationality Act (8 U.S.C. 1356), as added by section 426(b) of division J of the Consolidated Appropriations Act, 2005 (Public Law 108-447), is amended—
- (A) in paragraphs (1), (2)(A), (2)(B), (2)(C), and (2)(D) by striking "H1–B and L" each place it appears;
- (B) in paragraph (1), as amended by subparagraph (A), by striking "section 214(c)(12)" and inserting "paragraph (12) or (13) of section 214(c)";
- (C) in paragraphs (2)(A)(i) and (2)(B), as amended by subparagraph (A), by striking "(H)(i)" each place it appears and inserting "(H)(i), (H)(ii), "; and
- (D) in paragraph (2)(D), as amended by subparagraph (A), by inserting before the period at the end "or for programs and activities to prevent and detect fraud with respect to petitions under paragraph (1) or (2)(A) of section 214(c) to grant an alien nonimmigrant status described in section 101(a)(15)(H)(ii)".
- (2) Conforming amendment.—The heading of such subsection 286 is amended by striking "H1-B and L".
- (c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on October 1, 2005.

### SEC. 4. SANCTIONS.

(a) IN GENERAL.—Section 214(c) of the Immigration and Nationality Act (8 U.S.C. 1184(c)), as amended by section 3, is further amended by adding at the end the following:

"(14)(A) If the Secretary of Homeland Security finds, after notice and an opportunity for a hearing, a substantial failure to meet any of the conditions of the petition to admit or otherwise provide status to a non-immigrant worker under section 101(a)(15)(H)(ii)(b) or a willful misrepresentation of a material fact in such petition—

"(i) the Secretary of Homeland Security may, in addition to any other remedy authorized by law, impose such administrative remedies (including civil monetary penalties in an amount not to exceed \$10,000 per violation) as the Secretary of Homeland Security determines to be appropriate; and

"(ii) the Secretary of Homeland Security may deny petitions filed with respect to that employer under section 204 or paragraph (1) of this subsection during a period of at least 1 year but not more than 5 years for aliens to be employed by the employer.

"(B) The Secretary of Homeland Security may delegate to the Secretary of Labor, with the agreement of the Secretary of Labor, any of the authority given to the Secretary of Homeland Security under subparagraph (A)(i).

- "(C) In determining the level of penalties to be assessed under subparagraph (A), the highest penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers
- "(D) In this paragraph, the term 'substantial failure' means the willful failure to comply with the requirements of this section that constitutes a significant deviation from the terms and conditions of a petition.".
- (b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 2005.

# SEC. 5. ALLOCATION OF H-2B VISAS DURING A FISCAL YEAR.

Section 214(g) of the Immigration and Nationality Act (8 U.S.C. 1184(g)), as amended

by section 2, is further amended by adding at the end the following new paragraph:

"(10) The numerical limitations of paragraph (1)(B) shall be allocated for a fiscal year so that the total number of aliens who enter the United States pursuant to a visa or other provision of nonimmigrant status under section 101(a)(15)(H)(ii)(b) during the first 6 months of such fiscal year is not more than 33,000."

# SEC. 6. SUBMISSION TO CONGRESS OF INFORMATION REGARDING H-2B NON-IMMIGRANTS.

Section 416 of the American Competitiveness and Workforce Improvement Act of 1998 (title IV of division C of Public Law 105–277; 8 U.S.C. 1184 note) is amended—

- (1) by striking "Attorney General" each place that term appears and inserting "Secretary of Homeland Security"; and
- (2) by adding at the end the following new subsection:
  - "(d) PROVISION OF INFORMATION.—
- "(1) QUARTERLY NOTIFICATION.—Beginning not later than March 1, 2006, the Secretary of Homeland Security shall notify, on a quarterly basis, the Committee on the Judiciary of the Senate and the Committee on the Judiciary of House of Representatives of the number of aliens who during the preceding 1-year period—
- ''(A) were issued visas or otherwise provided nonimmigrant status under section 101(a)(15)(H)(ii)(b) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(ii)(b); or
- "(B) had such a visa or such status expire or be revoked or otherwise terminated.
- "(2) ANNUAL SUBMISSION.—Beginning in fiscal year 2007, the Secretary of Homeland Security shall submit, on an annual basis, to the Committees on the Judiciary of the House of Representatives and the Senate—
- "(A) information on the countries of origin of, occupations of, and compensation paid to aliens who were issued visas or otherwise provided nonimmigrant status under section 101(a)(15)(H)(ii)(b) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(ii)(b)) during the previous fiscal year;
- "(B) the number of aliens who had such a visa or such status expire or be revoked or otherwise terminated during each month of such fiscal year; and
- "(C) the number of aliens who were provided nonimmigrant status under such section during both such fiscal year and the preceding fiscal year.
- "(3) INFORMATION MAINTAINED BY STATE.—If the Secretary of Homeland Security determines that information maintained by the Secretary of State is required to make a submission described in paragraph (1) or (2), the Secretary of State shall provide such information to the Secretary of Homeland Security upon request."

Mr. WARNER. Mr. President, I rise today in support of S. 352, the Save Our Small and Seasonal Businesses Act. This legislation, which I'm proud to cosponsor, would provide emergency relief to thousands of small and seasonal businesses across the country, many of which are significant employers in the Commonwealth of Virginia.

I am pleased to be joined in this effort by my colleague from Virginia, Senator George Allen. I particularly would like to thank Senator Barbara Mikulski and Senator Judd Gregg, the sponsors of this bipartisan bill, for their leadership in this area.

Our legislation is simple. It makes common-sense reforms to our H-2B visa program that will allow our small and seasonal companies an opportunity to remain open for business. Without these modifications, these employers will continue to struggle in their efforts to find the necessary employees to keep their businesses running.

The H-2B visa program is designed to allow nonagricultural businesses to supplement their workforce with non-immigrant workers when American workers cannot be found. The cap is set at 66,000 per fiscal year, which begins on October 1 of each year. Employers can only apply for a visa 120 days before the work is needed.

For each of the last two years, this statutory cap was reached soon after the fiscal year began. In 2004, the cap was reached on March 20. As a result, many businesses, mostly summer employers, were unable to obtain the temporary workers they needed because the cap was filled prior to the day they could even apply for the visas.

Consequently, these businesses sustained significant economic losses.

This year the H-2B visa cap was reached on January 3, 2005. Now, even more businesses, especially in the seafood industry which has a long history in Virginia and the Chesapeake Bay, are susceptible to significant losses.

The hardships in these and other businesses are very real. Many in the seafood industry in Virginia have come to my office, looked me straight in the eye, and told me that their businesses aren't going to make it another year if something isn't done. Only through passage of this legislation can this detrimental cycle be interrupted and these business can be saved.

There are three main criticisms of this program which I am certain some will raise: these H-2B workers are taking jobs away from Americans; automation of these jobs makes H-2B workers unnecessary; and finally, these workers come into the U.S. under the guise of returning home after they've finished, but they never do. In my view, these criticisms of the H-2B program simply do not reflect the reality.

Believe me, I am a strong supporter of efforts to help those Americans who want to work get the skills they need to be successful in the workforce. But these H-2B workers are not taking jobs from Americans, they are filling in the gaps left vacant by Americans that don't want them. The jobs we are talking about here are seasonal, labor intensive, and require a certain amount of skill, mainly in the areas of oyster and crab harvesting, seafood processing, landscaping, reforestation, and seasonal resorts and other hospitality services

Furthermore, most of these jobs cannot be automated. What kind of machine will you use to fully landscape a yard, to arrange and plant flowers? Some in the seafood industry already tried to automate parts of crab harvesting, but it was a complete failure.

The machines failed to remove most of the bits of crab shells from the meat, and the consumers flat out rejected it.

As for the criticism that these temporary workers won't leave, a long review of the management of this program reveals otherwise. The employers have successfully ensured that the workers return to their home country. If they don't, employers aren't able to participate in the program next year, and neither are the workers. Most consulates in their home countries require the workers to present themselves personally to prove that they have returned home.

The future success of the H-2B visa program rests on the ability of businesses to participate in it, but right now, many will be denied access to the program for the second year in a row. The bill introduced today helps fix this problem by focusing on three main objectives to help make the H-2B program more effective and more fair.

First, the bill will reward good workers and employers by exempting from the cap H-2B workers who have participated in the program successfully in one of the past three years. These are companies and employees that have faithfully abided by the law, and they have a successful track record of working together.

Second, the bill will make sure that the government agencies processing the H-2B visas have the resources they need to detect and prevent fraud. Starting on October 1, 2005, employers participating in the program will pay an additional fee that will be placed in a Fraud Prevention and Detection account. The Departments of State, Homeland Security, and Labor can use these funds to educate and train their employees to prevent and detect fraudulent visas.

Finally, the bill implements a visa allocation system that is fair for all employers. Half of the 66,000 visas will be reserved for employers needing workers in the winter and the other half will be reserved for companies needing workers for the summer. This provision allows both winter employers and summer employers an equal chance to obtain the workers they desperately need.

These seasonal businesses just can't find enough American workers to meet their business needs. And ultimately, that is why this program is so important. Without Americans to fill these jobs, these businesses need to be able to participate in the H–2B program. The current system isn't treating small and seasonal businesses fairly and must be reformed if we want these employers to stay in business.

In closing, I strongly support this legislation, and I hope my colleagues in the Senate will join with me to help these small and seasonal businesses by passing this legislation as quickly as possible

Mr. JEFFORDS. Mr. President, I am proud to be a strong supporter and original cosponsor of the Save Our Small and Seasonal Businesses Act, which is being introduced today. This legislation will ensure that the seasonal businesses in our country have the workers they need to support our economy and enable the economy to flourish.

I would first like to thank Senators MIKULSKI and GREGG for bringing such a large, bipartisan group of Senators together to create this legislative solution. Last year, the United States Citizenship and Immigration Services announced in March that they had received enough petitions to meet the cap on H-2B visas. As a result, they stopped accepting petitions for these temporary work visas halfway through the Federal fiscal year. This announcement was a shock to many businesses around the country that depend on foreign workers to fill their temporary and seasonal positions.

Tourism is the largest sector of Vermont's economy and as a result, many Vermont businesses hire seasonal staff during their winter, summer or fall foliage seasons. Last year, I heard from many Vermont businesses that they were unable to employ foreign workers for their summer and fall seasons because the cap had been reached. Not only was this unexpected, but many of the employees were people who had been returning to the same employer year after year. These employers lost essential staff and, in many cases, well trained, experienced staff.

Many employers told me it is extremely difficult to find Americans to fill these seasonal positions, especially in areas of Vermont where the unemployment rate is less than 2 percent. One Vermont resort only survived Vermont's fall foliage season because of the dedication of their permanent employees. Instead of 35 housekeeping staff, they made do with 8. Staff was asked to work 12 to 14 hours per day, 6 or 7 days per week. At this particular resort, the vice president, general manager, administrative and technology managers, and marketing manager all cleaned rooms. While they are proud of the work of their staff, they believe their business and their personnel will suffer if they are not able to employ seasonal foreign workers again this year. They foresee a devastating effect on the family business they have owned and operated for the past 40 years if they are not able to bring in foreign workers soon.

I have also heard from Vermont businesses that had to lay off or not hire American workers because they could not find enough employees to fill their crews. Without the workers to complete projects, they could not hire or maintain their year-round staff. They also could not bid on projects and many had to scale back their operations. In these instances, the lack of seasonal workers had a direct effect on our economy and the employment of American workers.

As many may know, I believe strongly that American workers must be

given the opportunity to fill jobs and strengthen our nation's workforce. However, the companies I have referred to today, and all of the others that have contacted me, did their utmost to find Americans for the positions available. Efforts to find workers included: working closely with the State of Vermont's Employment and Training office; increasing wages and benefits; and implementing aggressive year-round recruiting.

While many Vermont businesses were able to survive last year, thanks to that old Yankee ingenuity, I am not optimistic about this year. The cap on H-2B visas was reached in early January, barely a quarter of the way through the fiscal year. It is imperative we immediately address this problem in order to prevent further harm to this Nation's small businesses and the economy.

Ms. COLLINS. Mr. President, the recent shortage of H-2B nonimmigrant visas for emporary or seasonal non-agricultural foreign workers is a matter of great concern to many small businesses in my home state of Maine, particularly those in the hospitality sector that rely on these seasonal workers to supplement their local employees during the height of the tourism season.

On January 4, a mere three months into fiscal year 2005, the U.S. Citizenship and Immigration Services, CIS, announced that it would immediately stop accepting applications for H-2B visas because the annual statutory cap of 66,000 visas had been met. In other words, many employers who require temporary workers in the spring, summer, or fall will be unable to hire such workers because all 66,000 H-2B visas already will have been issued within the first few months of the fiscal year. Once again, Maine's employers will be left out in the cold, disadvantaged by the simple fact of their later tourism season.

Without these visas, employers will be unable to hire enough workers to keep their businesses running at normal levels. Last year, unable to locate enough American workers willing and able to take these jobs, and without temporary foreign workers to fill the gap, many business owners were forced to initiate stop-gap measures that were neither ideal nor sustainable in the long term. Many of these businesses fear that, this year, they will have to decrease their hours of operation during what is their busiest time of year. This would translate into lost jobs for American workers, lost income for American businesses, and lost tax revenue from those businesses. These losses will be significant, and they can be avoided

Today, I am pleased to join Senators MIKULSKI and GREGG, along with several other of my distinguished colleagues, in introducing the Save Our Small and Seasonal Businesses Act of 2005. Similar to legislation that I cosponsored last year, as well as legisla-

tion that I have introduced in the current Congress, this bill would exclude from the cap returning workers who were counted against the cap within the past 3 years. This legislation also seeks to address the inequities in the current system by limiting the number of H-2B visas that can be issued in the first 6 months of the fiscal year to no more than 33,000 visas, or one half of the total number of visas available under the cap. By allocating visas equally between each half of the year, employers across the country, operating both in the winter and summer seasons, will have a fair and equal Opportunity to hire these much-needed workers.

In addition, this legislation includes important new anti-fraud provisions that will strengthen our ability to detect, prevent, and deter, fraud by those who would seek to abuse the H-2B program. These include sanctions for employers who are found to have misrepresented II If facts on an H-2B petition, and the creation of a Fraud Prevention and Detection Fee of \$150 for each H-2B petition. Similar to antifraud fees charged in other visa categories, funds raised from this fee will be placed in an account with the U.S. Treasury and made available to the agencies involved in processing H-2B visas—CIS, the Department of Labor, and the Department of State-to educate and train employees to recognize and protect against fraud in the visa applicant process.

I believe that this anti-fraud fee serves a worthy goal, and that the government agencies should have the resources they need to ensure the integrity of the H-2B visa application process. However, I am concerned about the impact that a fee of this size, in addition to the filing fees that employers already pay, may have on many smaller businesses. I intend to examine this issue further in order to ensure that smaller businesses are not unfairly impacted by this provision.

We must act quickly on this legislation, or we will be too late to help thousands of American businesses that need our help now. We cannot be content to say: "It's too late for this year; maybe next year." It is true that comprehensive, long-term solutions may be necessary, but we have immediate needs as well. This problem demands immediate solutions.

In my home state of Maine, the economic impact of this visa shortage will be harmful and widespread. When people think of Maine, what often comes to mind is its rugged coastline, picturesque towns and villages, and its abundant lakes and forests. Not surprisingly, tourism is the state's largest industry. Temporary and seasonal workers play an important role in this very important industry.

Unfortunately, there are not enough American workers willing and able to fill the thousands of jobs necessary to provide the level of service that Maine's visitors have come to expect.

Over the years, seasonal workers have filled this gap, becoming an integral part of Maine's tourism and hospitality industry. In Fiscal Year 2003, the last time Maine's employers were able to fully utilize the H-2B program, Maine employed more than 3,000 seasonal workers. The majority of these individuals worked in the State's resorts, inns, hotels, and restaurants. Many are people who have returned to the same employer summer after summer.

Let me emphasize that employers are not permitted to hire these foreign workers unless they can prove that they have tried, and failed, to locate available and qualified American workers through advertising and other means. As a safeguard, current regulations require the U.S. Department of Labor to certify that such efforts have occurred before CIS will process the visa applications. In Maine, as in other States, our state Department of Labor takes the lead in ensuring that employers have taken sufficient steps to try to find local workers to fill the positions. Unless and until more H-2B visas are made available, many seasonal jobs will remain unfilled and American businesses will suffer.

A similar situation faces Maine's forest products industry, which contributes approximately \$5.6 billion annually to Maine's economy. In 2003, more than 600 temporary workers—mostly from Canada-were employed as forestry workers in Maine. Many work in remote areas of the state where there are not enough Americans able to take these jobs. By some estimates, these foreign workers account for as much as 30-40 percent of the wood fiber that supplies paper and saw mills throughout Maine and the Northeast. This number represents roughly 4.8 million tons of wood annually. With an already significant shortage in the wood supply, the loss of these temporary workers poses a serious threat to the industry and to Maine's economy. With fewer workers available to bring wood out of the forest and into mills, supplies will dwindle, prices will continue to rise, and mills may be forced to curtail production, or even temporarily discontinue operations. If this happens, it is American workers that may lose their jobs.

The effects of the H-2B visa shortage are not limited to the tourism and forest products industries, however. It will also be felt by fisheries and lobstermen, junior league hockey and minor league baseball teams. It win affect small businesses and large, visitors and locals, young and old, from Maine to Maryland, to Wyoming and Alaska.

Mr. President, the shortage of nonimmigrant temporary or seasonal worker visas is a problem that must be addressed, and soon. I believe that this legislation offers a workable shortterm solution, and I urge us to move forward. We must resist the tendency to let this problem, and the people who are affected by it, become entangled in the larger debate about our Nation's immigration policies. This is not about the number of immigrants we should allow to come to the United States each year, or what to do with those who violate our immigration laws. It is about temporary workers who, for the most part, respect our laws, go home at the end of their authorized stay, and in many cases, return again next year to provide services that benefit our Nation's economy. It is about American businesses that rely on these workers to take jobs that many Americans do not want. It is about the economic impact that will be felt across the Nation if these businesses are unable to hire temporary workers. We need to solve this problem now, before it is too late and our economy is harmed and jobs lost.

Mr. SARBANES, Mr. President, I rise in support of the Save Our Small and Seasonal Businesses Act being introduced by Senator Mikulski today. This legislation offers a measured approach to provide needed relief to the many small businesses that have been struggling to find enough employees to operate during seasonal spikes in workload. Small businesses that are seasonal often need a large number of employees for a short portion of the year, but cannot afford to retain the same number of people as full-time, year-round employees. They instead must rely on temporary workers to fill the gap in their high season. In my home State of Maryland, for example, our seafood processors are busy in the summer and early fall, but have very little work in the winter. To accommodate this changing need, they hire college students and local residents as extra workers in the summer. But even with those workers they often find themselves short-staffed. So they turn to temporary employees who are willing to leave their home countries for a few months to come to the U.S. and work.

Specifically, the bill being introduced today will allow anyone who has had an H-2B visa for one of the last 3 years to return this summer or next if an employer petitions for them to do so. Importantly, employers still must demonstrate that they have tried and failed to find available, qualified U.S. citizens to fill these jobs before they file an H-2B visa application. In addition, the bill would ensure that our summer employers are not disadvantaged by allowing no more than half of the 66,000 visas to be allocated in the first half of the year. Finally, the bill imposes antifraud fees on employers who willfully misrepresent any statement on their H-2B petition and requires the Department of Homeland Security to file reports on the demographics of those utilizing the H-2B program

Any changes to our immigration laws must balance the interests of U.S. citizens and our economy while providing a fair, legal framework for those seeking to come to our Nation from other countries. For example, our current immigration laws already contain sev-

eral general reasons an alien seeking admission into the United States may be denied entry: security and terrorist concerns, health-related grounds, criminal history, public charge, i.e., indigence, seeking to work without proper labor certification, illegal entry and/or immigration law violations, lack of proper documents, ineligibility for citizenship, and previous removal. Ensuring the safety of our country requires preserving these categories.

This legislation would leave this existing framework intact. It simply provides a fair and equitable means of distributing a very scarce number of visas so that all employers who require extra assistance during one season of the year may obtain that assistance. We must resist the temptation to let the H-2B situation and the small businesses affected by it become entangled in the larger debate over immigration reform. Workers who use H-2B visas come to the U.S. for a temporary period of time and are required to leave when that time period has run. These workers respect our laws, work hard, provide services that benefit our economy, and then return to their families at the end of the season. For their sake and that of the small, seasonal businesses that rely on them, we need to resolve this H-2B crisis soon.

Without this fix, our seafood processors cannot operate at full capacity. That becomes a problem for the rest of the seafood industry, including our watermen, who will be forced to curtail their fishing because of an insufficient number of locations to process their catches. In the end, the people who suffer are not the seafood processors or temporary workers but the watermen who cannot feed their families. This bill provides the assistance necessary to keep our watermen, seafood processors, and a number of other industries such as landscapers, pool operators, and summer camps working at full capacity this summer. I urge my colleagues to support its passage.

By Mr. CONRAD (for himself and Mr. DORGAN):

S. 353. A bill to amend the Water Resources Development Act of 1999 to direct the Secretary of the Army to provide assistance to design and construct a project to provide a continued safe and reliable municipal water supply system for Devils Lake, to the Committee on Environment and Public Works.

Mr. CONRAD. Mr. President, I rise today to introduce legislation to authorize the U.S. Army Corps of Engineers to construct a new municipal water supply system for the city of Devils Lake, ND. This project is very important to the reliability of the water supply for the residents of Devils Lake and is needed to mitigate long-term consequences from the rising flood waters of Devils Lake.

As many of my colleagues know, the Devils Lake region has been plagued by a flooding disaster since 1993. During that time, Devils Lake, a closed basin lake, has risen 25 feet, consuming land, destroying homes, and impacting vital infrastructure. As a result of this disaster, the city of Devils Lake faces a significant risk of losing its water supply. Currently, six miles or approximately one-third of the city's 40-year-old water transmission line is covered by the rising waters of Devils Lake. The submerged section of the water line includes numerous gate valves, air relief valves, and blow-off discharges.

All of the water for the city's residents and businesses must flow through this single transmission line. It is also the only link between the water source and the city's water distribution system. Since the transmission line is operated under relatively low pressures and is under considerable depths of water, a minor leak could cause significant problems. If a failure in the line were to occur, it would be almost impossible to identify the leak and make necessary repairs, and the city would be left without a water supply.

The city is in the process of accessing a new water source due both to the threat of a transmission line failure and the fact that its current water source exceeds the new arsenic standard that will take affect in 2006. The city has worked closely with the North Dakota State Water Commission in identifying a new water source that will not be affected by the rising flood waters and will provide the city with adequate water to meet its current and future needs.

The bill I am introducing today will authorize the Corps to construct a new water supply system for the city. I believe the Federal Government has a responsibility to assist communities mitigate the adverse consequences resulting from this ongoing flooding disaster. In my view, the Corps should be responsible for addressing the unintended consequences of this flood and mitigate its long-term consequences. This bill will help the Federal Government live up to its responsibility and ensure that the residents of Devils Lake have a safe and reliable water supply. I urge my colleagues to review this legislation quickly so we can pass it this year.

By Mr. DORGAN (for himself and Mrs. CLINTON):

S. 355. A bill to require Congress to impose limits on United States foreign debt, to the Committee on Foreign Relations.

Mr. DORGAN. Mr. President, there are many issues we confront these days that are significant and serious. I wanted to bring one to the attention of the Chamber as I introduce legislation.

I send a bill to the desk and ask for its appropriate referral on behalf of myself and Senator CLINTON.

The PRESIDING OFFICER. The bill will be received and appropriately referred

Mr. DORGAN. Mr. President, this legislation deals with trade. Let me describe what was announced this morning by the administration.

Last year's trade deficit was \$618 billion. You can see from this chart what has happened in the last 8 or 9 years. Our trade deficit has gone in the red by a dramatic amount, ending up at \$618 billion for 2004.

What does that mean? That means we purchased from other countries \$618 billion worth of goods more than we sold to other countries. In other words, every single day, 7 days a week, \$1.8 billion leaves this country and goes into foreign hands to pay for goods that we purchased from abroad.

As a result, foreign entities have \$2.5 trillion worth of claims against our assets, our property, our stocks, and our assets. We are, with our trade policies, selling America.

With China alone, we have a \$161 billion trade deficit. This is unbelievably out of balance. We purchase China's trinkets, trousers, shirts, and shoes. Now they're making plans to ship Chinese automobiles to this country.

By the way, as I told my colleagues before, in the last trade agreement with China we agreed they could charge a tariff on imported U.S. cars which is 10 times higher than the tariff we can charge on Chinese cars sold in the United States.

Who did that? I don't know; some trade negotiator.

It is the same old story with cars from China, cars from Korea, wheat to China, beef to Japan. It is the same old story.

I mentioned to my colleagues many times what Will Rogers said in the 1930s: "The United States of America has never lost a war and never won a conference." He said we can't send negotiators to Costa Rica and come back with our shirts on. He surely must have been thinking about the people who had been negotiating trade agreements that resulted in these kinds of deficits.

Now our trade deficit on a yearly basis is over 5 percent of our gross domestic product. Who holds this debt? Japan holds \$715 billion of asset claims against our country, and China, \$191 billion.

Does anybody think this is healthy for our country? This kind of trade deficit and combined trade debt is going to injure America's future economic growth and continue to accelerate the movement of U.S. jobs overseas. That is what is behind all of these numbers.

American corporations in recent decades have discovered that you can move technology and capital at the speed of light. And they have discovered there are a billion people in other parts of the world who are willing to work for 30 cents an hour. When you can ship technology and capital to someone overseas willing to work for 30 cents an hour, you begin to hollow out the manufacturing sector in this country.

The news this morning of the largest trade deficit in the history of this

country is sober news. This town will sleep through it once again. The White House will sleep through it, and so will the Congress. It doesn't matter much to most people.

We have a debt limit in this country that says once the government borrows a certain amount, we have to have a debate, and vote on it. Otherwise, you can't go any further.

But there is no trade debt limit. Whatever the trade debt is, it is. Katy bar the door, no matter how high it is. There is no requirement to do anything about it.

The legislation I introduced, along with my colleague Senator CLINTON, will establish a trade debt limit and a trade deficit limit. When the trade deficit exceeds 5 percent of our gross domestic product, then it requires certain things. It is an alarm clock that requires the administration's trade review group to have an emergency meeting, and within 45 days the administration and the trade ambassador have to submit to Congress a plan to reduce the trade deficit.

Somebody someplace, someday, some way has to decide the current situation can't continue. This is all about jobs and future economic opportunity. This is real, and it is immediate. And we have to do something about it.

That is why we have introduced this legislation. This country has been in a deep sleep about an abiding trade problem in which we link with other countries in bilateral agreements. In almost every case these are not mutually beneficial. Instead, the agreements are beneficial to them and detrimental to us. Yet, we have people on street corners chanting "free trade."

I think trade is fine, I think fair trade is important, and I think expanding trade is valuable. But I believe free trade, if it means a trade agreement which undercuts this country's ability to compete, free trade which pulls the rug out from under our workers, and establishes conditions under which we cannot compete, is wrong for this country.

I will not go through again the list of issues of potato flakes going to Korea, beef to Japan, wheat to China. I could go through dozens of them. I will not do that again today. My point is that at some point somebody has to have the backbone and the will and the nerve to stand up for this country's economic interests. That has not been done for a long while. It needs to be done now because this trade deficit has reached crisis proportions.

One final chart: Some said that last month the trade deficit was actually a little better than the month before. This is a town of warped reality on a lot of issues. Let me describe what has happened to our trade deficit month by month since 1998. It does not take a sharp eye to see what is happening.

This trade deficit is growing. It is dangerous. It is harmful to the long-term economic interests of this country. We have to do something about it.

By Mr. BINGAMAN (for himself, Mrs. Hutchison, Mr. Nelson of Florida, Mrs. Clinton, and Mr. Martinez):

S. 357. A bill to expand and enhance post baccalaureate opportunities at Hispanic-serving institutions, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. BINGAMAN, Mr. President, I rise today to introduce the next generation of Hispanic Serving Institutions legislation. This legislation is critical if we, as a Nation, are going to continue to compete in a global economy. Education is the key to building a strong and dynamic economy, and therefore, it is our obligation to ensure quality educational opportunities for all Americans. That is why I am introducing, along with my colleague Senator HUTCHISON, the Next Generation Hispanic Serving Institutions Act of 2005. This legislation is supported by the Hispanic Education Coalition, an ad hoc coalition of national organizations dedicated to improving educational opportunities for more than 40 million Hispanics living in the United States. including groups like National Council of La Raza, HACU, and MALDEF. Senators BILL NELSON and CLINTON have joined in this effort as cosponsors.

According to Census Bureau data, Hispanic population in the United States grew by 25.7 million between 1970 and 2000 and continues to grow at a very brisk pace. The most recent census data puts the Hispanic population at over 40 million, representing approximately 14 percent of the U.S. population and making it the Nation's largest minority group. Estimates project that the Hispanic population will grow by 25 million between 2000 and 2020. By the year 2050, 1 in 4 Americans will be of Hispanic origin.

Currently, Hispanics make up about 13 percent of the U.S. labor force. While the overall labor force is projected to slow down over the next decades as an increasing number of workers reach retirement age, the Hispanic labor force is expected to continue growing at a fast pace. It will expand by nearly 10 million workers between now and 2020, through a combination of immigration and native-born youth reaching working age.

Our Nation's economic and social success rests, in large part, on the level of skills and knowledge attained by our Hispanic population.

I was one of the authors and lead supporters of the original Hispanic Serving Institutions proposal when it was enacted as part of the Higher Education Act in 1992 in order to increase educational opportunities for Hispanic students. Since then, Hispanic-Serving Institutions, HSIs, have made significant strides in increasing the number of Hispanic students enrolling in and graduating from college. Although Hispanic-serving institutions account for only 5 percent of all institutions of higher education in the United States,

HSIs enroll over half, 51 percent, of all Hispanics pursuing higher education degrees in the 50 States, the District of Columbia and Puerto Rico.

While Hispanic high school graduates go on to college at higher rates than they did even ten years ago, Hispanics still lag behind their non-Hispanic peers in postsecondary school enrollment. In 2000, only 21.7 percent of all Hispanics ages 18 through 24 were enrolled in postsecondary degree-granting institutions in the United States.

We must take HSIs to the next level. While the percentage of Hispanics attending college has increased significantly over the past few years, Hispanic students are disproportionately enrolled in 2-year colleges, and are much less likely to finish college than their non-Hispanic peers. In 2001, only slightly more than 1 in 10 Hispanics ages 25 years and over had received a bachelor's degree or higher.

According to the Department of Education, in 2000, Hispanics only earned 6 percent of all bachelor's degrees awarded, 4 percent of all master's degrees, and only 3 percent of all doctorates. But the pace of bachelor's degrees or higher earned by Hispanics is accelerating rapidly, according to the Department of Education. Therefore, we must keep pace. We must increase the capacity of our institutions of higher education to serve the increasing number of Hispanic students.

The Next Generation HSI bill does just that. Simply, this legislation will improve educational opportunities for Hispanic students by establishing a competitive grant program to expand post-baccalaureate degree opportunities at HSIs, and by eliminating unnecessary and burdensome administrative requirements HSIs must contend with.

Current law only provides support for 2-year and 4-year Hispanic Serving Institutions. This legislation will support graduate fellowships and support services for graduate students, facilities improvement, faculty development, technology and distance education, and collaborative arrangements with other institutions. This legislation will build capacity and establish a long overdue graduate program for HSIs.

In addition, current law places a number of unnecessary, burdensome administrative and regulatory barriers at the gates of our HSIs. If our goal is to increase educational opportunities for all students, and particularly Hispanic students, then we must eliminate bureaucratic barriers that impede access.

Accordingly, this legislation removes a 2-year period in which HSIs must wait before becoming eligible to apply for another grant under title V of the Higher Education Act. This 2-year wait out period obstructs the efforts of many HSIs to implement continuing programs and conduct long range planning. As a result, many HSIs cannot maintain continuity in educational programming. We should be creating opportunities to improve the quality of

education, and eliminating this waitout period is a step in the right direction

In addition, this bill eliminates another onerous requirement on HSIs that other minority-serving institutions are not required to follow. Currently, in order to be eligible as an HSI, the institution must serve "needy students"—meaning at least 50 percent of the degree students are receiving Federal need-based assistance or the institution's percentage of Pell Grant recipients exceeds the median percentage for similar institutions receiving Pell Grants. Also, to be eligible, 25 percent of the full time, undergraduate population must be Hispanic. However, unlike other grant programs in the Higher Education Act, HSIs must also show that 50 percent of the Hispanic population is low income.

This last requirement is particularly burdensome, as it is duplicative and unfair, and, in many cases, prevents HSIs from providing vital educational services to Hispanic students. This provision requires the institutions to collect information and data that is not readily available or easily acquirable. It requires the schools to come up with data beyond what is required for financial aid purposes. Further, there is no other requirement in Federal law for institutions to collect this type of data. As a result, many institutions with large Hispanic student populations must divert critical resources and staff to acquire this information, or they simply do not qualify as an HSI.

To ensure that the institution continues to serve low-income students, the Next Generation HSI Act maintains the requirement that the institution serve needy students, but eliminates the additional requirement that the school demonstrate that 50 percent of its Hispanic students are low-income. The elimination of this requirement will ease the administrative burdens placed on our schools, and further our goals of increasing access and improving quality.

Finally, this bill facilitates the transition of Hispanic students from 2-year colleges to 4-year colleges. As I noted earlier, Hispanics are disproportionately enrolled in 2-year colleges as compared to their non-Hispanic peers. To encourage and support these students' continued education, this legislation adds as an authorized activity programs that assist a student's transfer from a 2-year institution to a 4-year institution.

Hispanic students now account for nearly 17 percent of the total kindergarten through grade 12 student population. Estimates project that this student population will grow from 11 million in 2005 to 16 million in 2020. We must provide our institutions of higher education with the resources and flexibility they need to build capacity and serve the increasing Hispanic student population. We must be ready for the next generation of students to meet

the demands of a competitive workforce and to fully participate in the global economy. I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S 357

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Next Generation Hispanic Serving Institutions Act".

# TITLE I—GRADUATE OPPORTUNITIES AT HISPANIC-SERVING INSTITUTIONS

# SEC. 101. POSTBACCALAUREATE OPPORTUNITIES FOR HISPANIC AMERICANS.

- (a) ESTABLISHMENT OF PROGRAM.—Title V of the Higher Education Act of 1965 (20 U.S.C. 1101 et seq.) is amended—
  - (1) by redesignating part B as part C;
- (2) by redesignating sections 511 through 518 as sections 521 through 528, respectively; and
- (3) by inserting after section 505 the following:

### "PART B—PROMOTING POSTBACCALAU-REATE OPPORTUNITIES FOR HISPANIC AMERICANS

### "SEC. 511. FINDINGS AND PURPOSES.

- "(a) FINDINGS.—Congress finds the following:
- "(1) According to the United States Census, by the year 2050, 1 in 4 Americans will be of Hispanic origin.
- "(2) Despite the dramatic increase in the Hispanic population in the United States, the National Center for Education Statistics reported that in 1999, Hispanics accounted for only 4 percent of the master's degrees, 3 percent of the doctor's degrees, and 5 percent of first-professional degrees awarded in the United States.
- "(3) Although Hispanics constitute 10 percent of the college enrollment in the United States, they comprise only 3 percent of instructional faculty in college and universities.
- "(4) The future capacity for research and advanced study in the United States will require increasing the number of Hispanics pursuing postbaccalaureate studies.
- "(5) Hispanic-serving institutions are leading the Nation in increasing the number of Hispanics attaining graduate and professional degrees.
- "(6) Among Hispanics who received master's degrees in 1999–2000, 25 percent earned them at Hispanic-serving institutions.
- "(7) Between 1991 and 2000, the number of Hispanic students earning master's degrees at Hispanic-serving institutions grew 136 percent, the number receiving doctor's degrees grew by 85 percent, and the number earning first-professional degrees grew by 47 percent.
- "(8) It is in the national interest to expand the capacity of Hispanic-serving institutions to offer graduate and professional degree programs.
- "(9) Research is a key element in graduate education and undergraduate preparation, particularly in science and technology, and Congress desires to strengthen the role of research at Hispanic-serving institutions. University research, whether performed directly or through a university's nonprofit research institute or foundation, is considered an integral part of the institution and mission of the university.
- ''(b) PURPOSES.—The purposes of this part are—
- "(1) to expand postbaccalaureate educational opportunities for, and improve the

academic attainment of, Hispanic students; and

"(2) to expand and enhance the postbaccalaureate academic offerings of high quality that are educating the majority of Hispanic college students and helping large numbers of Hispanic students and low-income individuals complete postsecondary degrees.

### "SEC. 512. PROGRAM AUTHORITY AND ELIGI-BILITY.

"(a) Program Authorized.—Subject to the availability of funds appropriated to carry out this part, the Secretary shall award competitive grants to eligible institutions.

"(b) ELIGIBILITY.—For the purposes of this part, an 'eligible institution' means an institution of higher education that—

"(1) is a Hispanic-serving institution (as defined under section 502); and

"(2) offers a postbaccalaureate certificate or degree granting program.

### "SEC. 513. AUTHORIZED ACTIVITIES.

"Grants awarded under this part shall be used for 1 or more of the following activities:

"(1) Purchase, rental, or lease of scientific or laboratory equipment for educational purposes, including instructional and research purposes.

"(2) Construction, maintenance, renovation, and improvement in classroom, library, laboratory, and other instructional facilities, including purchase or rental of telecommunications technology equipment or services.

"(3) Purchase of library books, periodicals, technical and other scientific journals, microfilm, microfiche, and other educational materials, including telecommunications program materials.

"(4) Support for needy postbaccalaureate students including outreach, academic support services, mentoring, scholarships, fellowships, and other financial assistance to permit the enrollment of such students in postbaccalaureate certificate and degree granting programs.

"(5) Support of faculty exchanges, faculty development, faculty research, curriculum development, and academic instruction.

"(6) Creating or improving facilities for Internet or other distance learning academic instruction capabilities, including purchase or rental of telecommunications technology equipment or services.

"(7) Collaboration with other institutions of higher education to expand postbaccalaureate certificate and degree offerings.

 $\lq\lq(8)$  Other activities proposed in the application submitted pursuant to section 514 that—

"(A) contribute to carrying out the purposes of this part; and

"(B) are approved by the Secretary as part of the review and acceptance of such application.

### "SEC. 514. APPLICATION AND DURATION.

"(a) APPLICATION.—Any eligible institution may apply for a grant under this part by submitting an application to the Secretary at such time and in such manner as determined by the Secretary. Such application shall demonstrate how the grant funds will be used to improve postbaccalaureate education opportunities for Hispanic and low-income students and will lead to such students' greater financial independence.

"(b) DURATION.—Grants under this part shall be awarded for a period not to exceed 5 years.

"(c) LIMITATION.—The Secretary may not award more than 1 grant under this part in any fiscal year to any Hispanic-serving institution.".

(b) COOPERATIVE ARRANGEMENTS.—Section 524(a) of the Higher Education Act of 1965 (as

redesignated by subsection (a)(2)) is amended by inserting "and section 513" after "section 503".

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 528(a) of the Higher Education Act of 1965 (as redesignated by subsection (a)(2)) is amended to read as follows:

"(a) AUTHORIZATIONS.—

"(1) PART A.—There are authorized to be appropriated to carry out part A of this title \$175,000,000 for fiscal year 2006 and such sums as may be necessary for each of the 4 succeeding fiscal years.

"(2) PART B.—There are authorized to be appropriated to carry out part B of this title \$125,000,000 for fiscal year 2006 and such sums as may be necessary for each of the 4 succeeding fiscal years."

(d) CONFORMING AMENDMENTS.—Title V of the Higher Education Act of 1965 (20 U.S.C. 1101 et seq.) is amended—

(1) in section 502-

(A) in subsection (a)(2)(A)(ii), by striking "section 512(b)" and inserting "section 522(b)"; and

(B) in subsection (b)(2), by striking "section 512(a)" and inserting "section 522(a)";

(2) in section 521(c)(6) (as redesignated by subsection (a)(2)), by striking "section 516" and inserting "section 526"; and

(3) in section 526 (as redesignated by subsection (a)(2)), by striking "section 518" and inserting "section 528".

# TITLE II—REDUCING REGULATORY BARRIERS FOR HISPANIC-SERVING INSTITUTIONS

### SEC. 201. DEFINITIONS.

Section 502(a) of the Higher Education Act of 1965 (20 U.S.C. 1101a(a)) is amended—

(1) in paragraph (5)—

(A) in subparagraph (A), by inserting "and" after the semicolon;

(B) in subparagraph (B), by striking "; and" and inserting a period; and

(C) by striking subparagraph (C); and

 $(2) \ by \ striking \ paragraph \ (7).$ 

# SEC. 202. AUTHORIZED ACTIVITIES. Section 503(b)(7) of the Higher Education

Section 503(b)(7) of the Higher Education Act of 1965 (20 U.S.C. 1101b(b)(7)) is amended to read as follows:

"(7) Articulation agreements and student support programs designed to facilitate the transfer from 2-year to 4-year institutions.". SEC. 203. ELIMINATION OF WAIT-OUT PERIOD.

Section 504(a) of the Higher Education Act of 1965 (20 U.S.C. 1101c(a)) is amended to read as follows:

"(a) AWARD PERIOD.—The Secretary may award a grant to a Hispanic-serving institution under this title for 5 years.".

### SEC. 204. APPLICATION PRIORITY.

Section 521(d) of the Higher Education Act of 1965 (as redesignated by section 101(a)(2)) is amended by striking "(from funds other than funds provided under this title)".

Mrs. HUTCHISON. Mr. President, I rise today to introduce a bill that will amend the Higher Education Act of 1965 to revise provisions for Hispanic-serving institutions, HSIs, under Title V, Developing Institutions. The changes will expand opportunities in postgraduate education, an essential part of our economy that enables our workforce to maintain the knowledge that keeps our nation at the forefront of science and technology.

The bill will establish a program of competitive grants for HSIs that offer post-baccalaureate certifications or degrees. Grants will support graduate fellowships, services for students, facilities improvement and faculty development, among other things. It author-

izes \$125 million in grants for fiscal year 2006, and will reduce red tape by eliminating the requirement that an HSI certify half of its students are low-income, thus making it easier for students to transfer from two to four year colleges.

According to the 2000 Census, Hispanics represent the nation's largest minority population. Unfortunately, too few graduate from high school or college, despite being the fastest-growing ethnicity in that age group. We need more resources to support Hispanic educational opportunities. Hispanic-Serving Institutions are currently educating 51 percent of the 457,000 Hispanic higher education students in the United States. Although HSIs account for 5 percent of all institutions of higher education, almost one-half of the 1.5 million Hispanic students currently in college programs attend them.

Between 1991 and 2000, the number of Hispanics earning master's degrees grew 136 percent and the number of doctor's degrees grew 85 percent. Our Nation's economic strength and prosperity will depend on the knowledge, skills, and leadership of a population that already makes up one of three new workers joining the U.S. labor force today.

As a member of the Senate Appropriations Committee, I have been committed to increasing federal support of HSIs. Since 1995, Title V funding has increased from \$12 million to \$95 million in fiscal year 2005. I believe this is an important investment to ensure our nation's youngest and largest ethnic population has access to the educational opportunities needed to excel.

Because I believe the success of Hispanic students will play a critical role in determining this country's future, I am proud to offer this bill that will improve options for graduate and postgraduate study, and I urge my colleagues to support it. Mr. President, I ask unanimous consent that a copy of the bill be printed in the RECORD.

By Mr. DURBIN (for himself, Mr. SPECTER, Mr. BYRD, Mr. ROCKE-FELLER, Mr. COCHRAN, Ms. MI-KULSKI, Mr. BAYH, and Mr. SAR-BANES):

S. 358. A bill to maintain and expand the steel import licensing and monitoring program; to the Committee on Finance

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 358

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

# SECTION 1. MAINTENANCE AND EXPANSION OF STEEL IMPORT LICENSING AND MONITORING PROGRAM.

(a) MAINTENANCE OF PROGRAM.—The steel import licensing and monitoring program established by the Secretary of the Treasury

and the Secretary of Commerce pursuant to the Memorandum signed by the President on March 5, 2002 (67 Fed. Reg. 10593 through 10597) (pursuant to the authority of the President under section 203(g) of the Trade Act of 1974), shall, notwithstanding any other action taken by the President under section 203 of the Trade Act of 1974 concerning the steel products described in the Memorandum, remain in effect and be established by the Secretary of Commerce as a permanent program.

(b) EXPANSION OF PROGRAM.—

- (1) IN GENERAL.—In carrying out the program in accordance with subsection (a), the Secretary of the Treasury and the Secretary of Commerce shall expand the program to include all iron and steel, and all articles of iron or steel, described in paragraph (2). The import and licensing data made available to the public as part of this program shall be released based upon classifications at the tenth digit level of the Harmonized Tariff Schedule of the United States.
- (2) IRON AND STEEL DESCRIBED.—The iron and steel, and articles of iron or steel, referred to in subparagraph (A) are the iron and steel, and articles of iron or steel, contained in the following headings and subheadings of the Harmonized Tariff Schedule of the United States:
- (A) Each of the headings 7206 through 7229 (relating to mill products).
- (B) Each of the headings 7301 through 7307 (relating to rails, structurals, pipe and tubes, and fittings and flanges).
- (C) Heading 7308 (relating to fabricated structurals).
- (D) Subheading 7310.10.00 (relating to barrels and drums).
- (E) Heading 7312 (relating to strand and rope).
- (F) Heading 7313.00.00 (relating to barbed and fence wire).
- (G) Headings 7314, 7315, and 7317.00 (relating to fabricated wire).
- (H) Heading 7318 (relating to industrial fasteners)
  - (I) Heading 7326 (relating to fence posts).
- (c) ADDITIONAL AUTHORITY.—The Secretary of the Treasury and the Secretary of Commerce are hereby authorized and directed to take such actions as are necessary—
- (1) to maintain the program described in subsection (a) in accordance with such subsection; and
- (2) to expand, as necessary and appropriate, such program in accordance with subsection (b).

By Mr. CRAIG (for himself, Mr. KENNEDY, Mr. HAGEL, Mr. SPEC-TER, Mr. LAUTENBERG, Mr. VOINOVICH, Mr. SCHUMER, Mr. LUGAR, Mr. DURBIN, Mr. COLE-MAN, Mr. KERRY, Mr. McCAIN, Mr. DODD, Mr. COCHRAN, Mr. DOMENICI, Ms. CANTWELL, Mr. DEWINE, Mr. LIEBERMAN, Mr. BURNS, Mrs. BOXER, Mr. ROB-ERTS, Mr. LEAHY, Mr. HATCH, Mr. Akaka, Mr. Lott, Mr. Nel-SON of Nebraska. Mr. BROWNBACK, Mr. LEVIN, Mr. STEVENS, Mr. WYDEN, Mr. MAR-Mr.SALAZAR, Mr. CHAFEE, and Mrs. MURRAY):

S. 359. A bill to provide for the adjustment of status of certain foreign agricultural workers, to amend the Immigration and Nationality Act to reform the H-2A worker program under that Act, to provide a stable, legal agricultural workforce, to extend basic legal protections and better working

conditions to more workers, and for other purposes; to the Committee on the Judiciary.

Mr. CRAIG. Mr. President, I have introduced what I believe to be a very important piece of legislation that the Senate will consider this year, dealing with an issue that is certainly on the minds of many Americans and No. 1 on the minds of some Americans. It is on the question of immigration reform and dealing with it in an appropriate fashion, to create a transparency in the process, and to begin to end and identify the 8 million to 12 million undocumented foreign nationals currently in our country.

Over the last 5 years, I have worked in a bipartisan way with many of my colleagues, and literally hundreds of organizations around the country, in focusing on a specific area of immigration, and that is the H-2A area, or those who work in agricultural employment.

What we have discovered over the course of time is a broken system, which in large part now allows the possibility of well over a million foreign nationals working illegally in this country, but working in an economy where they are desperately needed to bring the food products from our fields, to process those products and put them on the shelves of the American consuming public. As a result of that great concern, I, working with my colleague Senator TED KENNEDY in the Senate, with Congressman HOWARD BERMAN and Congressman CHRIS CANNON over in the House for some time, have produced legislation that brings all sides of this very diverse and oftentimes very contentious issue together, to therefore be able to offer tonight a piece of legislation that has at this moment nearly 40 Members of the Senate, Democrats and Republicans, supporting it; whereas last year, identical legislation had over 63 Senators, and we believe we will have that same support again this year.

Americans, after 9/11, cried out to the Congress and to our Government, saying: What is wrong? Why were people allowed to come to our country who then turned on us to kill our citizens? Why did we let that happen?

Well, we learned that the immigration policies of our country were largely broken and that the Congress, over years and years, had turned its back on the issue, either not funding immigration appropriately or not enforcing the laws already on the books regarding immigration.

As a result of that, it is now estimated that there are between 8 million to 12 million foreign nationals living in this country, the vast majority of them working and living in law-abiding, peaceful ways, but working here to better themselves and their families for their own human well-being. We did find out there were a few who were here to do evil things to Americans.

In the legislation I bring to the floor tonight, in legislation we call the Agricultural Job Opportunity Benefit and Security Act, I focus rather narrowly on what is believed to be about 1.6 million of the total number, to recognize that clearly the vast majority of them are here for peaceful purposes, to better themselves and their families, and, in the meantime, cause American agriculture to work as effectively and efficiently as it does.

Oftentimes, these men and women do work that American citizens do not want to do or will not do—toiling in the hot fields of American agriculture day in and day out, dirty, tough work, but seeing it as an opportunity for themselves and an opportunity for their children to have a better life.

In so failing to recognize that need, we have oftentimes caused them to live in the back alleys and the shadows of America in an illegal status, but we still rely heavily on them for the services they provide.

Americans need and expect a stable, predictable, legal workforce in American agriculture, and consumers in our country deserve a safe, stable, domestic food supply. Willing American workers deserve a system that puts them first in line for the jobs that are available with a fair market wage, and our legislation does that. All workers deserve decent treatment and protection of basic rights under the law, and our legislation does that. American citizens and taxpayers deserve secure borders, a safe homeland, and a government that works, and our legislation helps accomplish those three very important goals.

Yet we are threatened on all fronts because of a growing shortage now of legal workers in American agriculture. Last year, in 2 of the 12 months, we were net importers of agricultural food products. For the first time in the history of our country that happened. I grew up being told—and most of us did—that because of our great American agriculture always being able to feed us, we were a secure, safe nation, and our food supply was such that we would never be dependent upon foreign interests to feed the American consumer.

Last year it happened 2 out of 12 months that we grew dependent. This year, USDA tells us that we will break even at about 50–50. There will be no surplus agriculture trade. We will be importing as much as we are exporting, and that will be a historic first for our Nation.

What it tells me, as someone who grew up in American agriculture, is that agriculture as an economy is becoming increasingly fragile. It no longer has the strength or the dynamics it once had. It grows increasingly dependent on the high cost of inputs—energy, equipment, other supplies necessary to produce the bounty of the American farm field. But one of those key inputs is labor—labor that is stable, labor that you know will be there, and, most importantly, labor that can get the job done at the right time,

when the crop in the field is ripe and ready to harvest.

That labor pool is largely undocumented today. It is estimated that anywhere from 72 to 75 percent of those who work in American agriculture today are undocumented foreign nationals; in other words, illegal. And yet they toil in the fields, they pick our food, they help prepare it through the processing plants to get it to the consumer's shelf.

If in our effort to protect our borders and to create a law enforcement community that can apprehend a person who has entered this country illegally, if all of that happens and we do not create a system that stabilizes and provides a legal foreign national workforce, we could literally collapse American agriculture.

We are working at trying to protect our borders. We have invested heavily in it for the last good number of years. We just passed an intelligence reform bill in the latter part of the last session of the 108th Congress dealing closely with our borders. Members on the House side are ready to introduce new forms of legislation to tighten up and allow the driver's license to become a more secure legal documentation—an American citizen versus one who would not be.

I support nearly all of those things because they are the right thing to do for America to reclaim herself and to control her borders. But at the same time, there is a legitimate and responsible need to recognize the importance—the critical importance—of foreign nationals in our workforce helping to provide for our economy.

In the late nineties, we were near 100-percent employment in our country. Anyone who wanted to work could work and was working. Those who were not probably either did not want to or could not. Yet during that time, we were still employing an estimated 8 million foreign nationals in our country. That is not a negative, that is the character of a great country. That is the character of a great economy and a strong economy.

It is also that diversity that has produced the great American way, the idea of the American dream, the phenomenal hybrid vigor of a diverse character that is this country and has always been. And American agriculture has been a part of that. Those who toil in American agriculture have been a big part of that.

What we do today by this legislation is reach out and attempt to recognize those who are here in an undocumented way and cause them to come forward to be recognized, to have a background check done, to make sure they are not law violators or felons who are here for some other purpose. If they have been here and worked a period of 100 days since January 1, 2005, we will provide for them a temporary green card and then allow them to work and earn the right for permanent work status in our country.

To me, that seems fair and responsible. All of the parties involved in American agriculture today from the workforce to the producer themselves. they, too, agree that is a fair and responsible fashion. It is not giving anything away. It is attempting to correct a problem. It is doing the background checks. It is making sure we have a legal and legitimate workforce so that as we plug all of these holes and change the character of a broken immigration law, we do so without collapsing the very economy that feeds our country. recognizing that they became too dependent as agricultural producers on a workforce that was not legal.

So we do not just wipe the workforce away. We attempt to identify it, shape it, and cause it to be legal and do so in a responsible fashion. That is clearly what our legislation does. That is why 63 Senators supported it last year, and well over 100 in the House were cosponsors of it. We are working hard at this very moment to pass this legislation, to get it to the President's desk, and recognize that it may be a template, it may be a pilot for others to look at for a more comprehensive approach toward immigration reform.

There is no question in my mind that our immigration laws are broken, and I am not going to stand here tonight and suggest I have the wisdom to fix it all. But I and others and hundreds of organizations and interest groups from around this country have spent the last 5 years trying to solve this problem.

When we started, many of us were 180 degrees apart. Slowly but surely we came together out of need, the clear recognition of the necessity of providing a legal, recognizable, and stable workforce for American agriculture.

I do not think any citizen in our country would sleep well if they knew that a majority of our foodstuffs were imported, if they knew that we were dependent upon foreign nations and their producers for our food supply.

I think they would grow frustrated over the risk that would be at hand there, the stability, the availability, the safety issue. Many have suggested that if we are going to have a terrorist attack again some day, one of the approaches terrorists might use would be to attack our food supply.

If we control our workforce, if we produce it here, the possibility of that happening is considerably lessened. That goes right back to the old historic belief that a nation that can feed itself and its people is a nation that is inherently stable, and without question the produce of the American farm has allowed us to be that generation after generation, war after war.

We are now at a very fine point and balance in our Nation's history where this year we will zero out that old historic belief of stability. We will be importing as much as we are exporting. So American agriculture deserves our attention

The people who labor there deserve our attention and respect. They deserve to be treated fairly as we would expect all people in our country to be, to have proper conditions and proper wages and to be recognized for the quality of work they do, instead of simply shoving them into the shadows in the back streets of America and denying they are there but knowing that we need them. That is an interesting contradiction in the current immigration laws in our country and America knows it and has reacted accordingly.

It is why our President says immigration reform is critical and necessary and has proposed ways to accomplish it. It is why it is in the top list of issues and concerns that most Americans hold about what Government ought to be doing to create a safer, stronger America, from controlling our borders to an effective law enforcement system, to assuring that we know those who are within our borders and why they are here and what their intent is. That is all part of the agricultural jobs bill we introduce tonight, the Agricultural Job Opportunity Benefit and Security Act of 2005.

I am proud that 40 Senators, nearly 50–50 in partisan split, have already endorsed this legislation. We will strive for that number of 60-plus again. In doing so, I will ask my colleagues to help us bring this bill to the floor very early in this session, to debate it, to pass it out, to work with our House colleagues and to put it on the President's desk. I believe it is a positive and necessary start in marching down the road toward comprehensive immigration reform.

To do anything less than we are proposing is once again to do the very thing we have done for well over a decade, and that is to turn our back on the problem and the issue, to know it is there but to deny it exists, and then to have a broken system produce the crisis that occurred on 9/11.

We are a better country than that, and this Senate is a more responsible legislative body than that.

So tonight I bring to my colleagues what I think is a major first step in immigration reform necessary and important to protecting our borders, to making sure we are secure at home, to stabilizing a food supply, to assuring that American agriculture has a predictable, stable workforce, and to say to all at hand that those who come here to toil, in the benefit of the American economy, will be treated in a fair, just, and responsible way.

I yield the floor.

By Ms. SNOWE (for herself and Mr. KERRY):

S. 360. A bill to amend the Coastal Zone Management Act; to the Committee on Commerce, Science, and Transportation.

Ms. SNOWE. Mr. President, I rise today to introduce the Coastal Zone Enhancement Reauthorization Act of 2005. I am pleased to have worked with my cosponsor, Senator KERRY, in developing this bill, which will enable our

Nation to improve the way we manage our valuable, yet vulnerable, coastal resources.

More than three decades ago, Congress enacted the Coastal Zone Management Act of 1972, or CZMA, in response to concerns over growing threats to our Nation's coastal environments and resources. While this act has been instrumental in facilitating better coastal planning and management, the September 2004 Final Report of the U.S. Commission on Ocean Policy reminded us that the pressures facing our coastal regions have greatly increased since the CZMA was enacted.

America's coastal zone comprises only 17 percent of the contiguous U.S. land area, yet nearly 53 percent of all Americans live in these coastal areas. Attracted by economic opportunity as well as beaches and other recreational amenities, more than 3,600 people are moving to this area each year. This relatively small portion of our country supports approximately 361 sea ports, including most of our largest cities. At the same time, it provides critical habitat for a variety of plants and animals, ranging from rare microscopic organisms to commercially valuable fish stocks.

The CZMA established a unique State-Federal framework for facilitating sound coastal planning, and any amendments to this act must uphold and strengthen this arrangement. Under the authorities in the CZMA. coastal States can elect to participate in a voluntary Federal Coastal Zone Management Program. The 34 participating States and territories create individualized coastal zone management plans, taking their State's specific needs and problems into account, and then receive Federal matching funds to help implement their plans. This systems respects states' rights while empowering them to better identify and meet their environmental, social, and economic goals for their coastal areas. As a result of this program's success, more than 99.9 percent of the United States 95.376 shoreline miles are managed under this system.

Even though our coastal States and territories have benefitted from this vital CZMA program, our coastal areas continue to face increasing demands to expand working waterfronts as well as increasing rates of nonpoint source water pollution. These persistent threats have outpaced the ability of many States to keep up with coastal zone conservation. Although the States are currently taking action to address this problem under existing authorities, the Coastal Zone Enhancement Reauthorization of 2005 would encourage them to take additional voluntary steps to combat these problems through the Coastal Community Program.

The coastal community initiative would provide participating States with the funding and flexibility necessary to deal with a broad array of specific nonpoint source pollution problems.

The State of Maine, like many coastal States, is working to reduce nonpoint source pollution programs, and its efforts have led to the reopening of hundreds of acres of shellfish beds and the restoration of fish nursery areas. Even with these successes, Maine needs to do more and is looking forward to this new opportunity.

The Coastal Community Program authorized in this bill would also aide States in developing and implementing creative, community-based initiatives to deal with problems other than nonpoint source pollution. It would increase Federal and State support of local grassroots programs that target coastal environmental issues, such as the impact of development and sprawl on coastal resources and activities.

The bill I offer today would reauthorize the CZMA and make a number of improvements to strengthen our Nation's coastal management system. The Coastal Zone Enhancement Reauthorization of 2005 significantly increases the authorization levels for the Coastal Zone Management Program, enabling States to better achieve their coastal management goals. The bill authorizes \$137.5 million for fiscal year 2006 and increases the authorization levels up to \$160,000,000 for fiscal year 2010. This increase in funding would enable the States' coastal programs to achieve their full potential.

Within these authorized funding levels, this bill would increase authorization for the National Estuarine Research Reserve System to \$18 million in fiscal year 2006 with an additional \$1 million increase each year through fiscal year 2010. This system is a network of reserves around the country that support coastal science, research, education and conservation, and they are operated as a cooperative Federal-State partnership. Additional authorizations, including funds to support construction at designated reserve sites, will help strengthen this nationwide program which has not received increased funding commensurate with the addition of new reserves.

In this bill, we have tried to rectify a very serious problem facing the Coastal Zone Management Program. The funding for this program is based on administrative grants, under section 306 of the CZMA, in which the amount of funding for each State is determined by a formula that takes into account both the length of the coastline and population of each State. However, since 1992, the Appropriations Committee has imposed a million a \$2 million cap per State on administrative grants in an attempt to treat all participating States equally.

Even while overall program funding has increased in recent years, this arbitrary cap has remained in place, and by fiscal year 2000, 13 States had reached it. These 13 States account for 83 percent of our Nation's coastline and 76 percent of our coastal population. Despite appropriators' desire for equal treatment, it is simply not equitable to

have the 13 States with the largest coastlines and populations stuck at a \$2 million cap, despite overall program funding increases. While smaller States have enjoyed additional programmatic success due to an influx of funding, progress in some of the larger States—with some of the most pressing coastal management problems—has stagnated.

This bill contains new language that would direct the Secretary of Commerce to ensure equitable increases or decreases in annual administrative grant funding for each State. It further 2 requires that States should not experience a decrease in base program funds in any year when the overall appropriations increase. I must thank my former colleague, Senator Hollings, for his many years of effort and cooperation in helping us develop this new grant funding allocation language. His leadership and commitment to all ocean and coastal conservation matters continues to guide our efforts today.

The State-Federal Coastal Zone Management Program has a long record of helping States achieve their coastal area management goals, and having clean, safe, and productive coastlines ultimately serves the best interest of our Nation. This program enjoys widespread support among coastal States, as demonstrated by the many Commerce Committee members who have worked with me to strengthen this program over the past several years.

I am pleased to introduce this legislation to provide our coastal States with the funding and management frameworks necessary to meet the ever-increasing conservation and development challenges facing our coastal communities, and I urge my colleagues to support it.

Mr. President, I ask unanimous consent that the Coastal Zone Enhancement Reauthorization of 2005 be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 360

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

### SECTION 1. SHORT TITLE.

This Act may be cited as the "Coastal Zone Enhancement Reauthorization Act of 2005".

# SEC. 2. AMENDMENT OF COASTAL ZONE MANAGEMENT ACT.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.).

### SEC. 3. FINDINGS.

Section 302 (16 U.S.C. 1451) is amended—

- (1) by redesignating paragraphs (a) through (m) as paragraphs (1) through (13);
- (2) by inserting "ports," in paragraph (3) (as so redesignated) after "fossil fuels,";
- (3) by inserting "including coastal waters and wetlands," in paragraph (4) (as so redesignated) after "zone,";
- (4) by striking "therein," in paragraph (4) (as so redesignated) and inserting "dependent on that habitat,";

- (5) by striking "well-being" in paragraph (5) (as so redesignated) and inserting "quality of life";
- (6) by striking paragraph (11) (as so redesignated) and inserting the following:
- "(11) Land and water uses in the coastal zone and coastal watersheds may significantly affect the quality of coastal waters and habitats, and efforts to control coastal water pollution from activities in these areas must be improved."; and
- (7) by adding at the end thereof the following:
- "(14) There is a need to enhance cooperation and coordination among states and local communities, to encourage local community-based solutions that address the impacts and pressures on coastal resources and on public facilities and public service caused by continued coastal demands, and to increase state and local capacity to identify public infrastructure and open space needs and develop and implement plans which provide for sustainable growth, resource protection and community revitalization."

### SEC. 4. POLICY.

Section 303 (16 U.S.C. 1452) is amended—

- (1) by striking "the states" in paragraph(2) and inserting "state and local governments";
- (2) by striking "waters," each place it appears in paragraph (2)(C) and inserting "waters and habitats,";
- (3) by striking "agencies and state and wildlife agencies; and" in paragraph (2)(J) and inserting "and wildlife management; and":
- (4) by inserting "other countries," after "agencies," in paragraph (5);
- (5) by striking "and" at the end of paragraph (5);
- (6) by striking "zone." in paragraph (6) and inserting "zone;"; and
- (7) by adding at the end thereof the following:
- "(7) to create and use a National Estuarine Research Reserve System as a Federal, state, and community partnership to support and enhance coastal management and stewardship; and
- "(8) to encourage the development, application, and transfer of innovative coastal and estuarine environmental technologies and techniques for the long-term conservation of coastal ecosystems."

### SEC. 5. CHANGES IN DEFINITIONS.

Section 304 (16 U.S.C. 1453) is amended—

- (1) by striking "and the Trust Territories of the Pacific Islands," in paragraph (4);
- (2) by striking paragraph (8) and inserting the following:
- "(8) The term 'estuarine reserve' means a coastal protected area which may include any part or all of an estuary and any island, transitional area, and upland in, adjoining, or adjacent to the estuary, and which constitutes to the extent feasible a natural unit, established to provide long-term opportunities for conducting scientific studies and educational and training programs that improve the understanding, stewardship, and management of estuaries."; and
- (3) by adding at the end thereof the following:
- "(19) The term 'coastal nonpoint pollution control strategies and measures' means strategies and measures included as part of the coastal nonpoint pollution control program under section 6217 of the Coastal Zone Act Reauthorization Amendments of 1990 (16 U.S.C. 1455b).
- "(20) The term 'qualified local entity' means—
  - "(A) any local government;
- "(B) any areawide agency referred to in section 204(a)(1) of the Demonstration Cities and Metropolitan Development Act of 1966 (42 U.S.C. 3334 (a)(1));

- "(C) any regional agency;
- "(D) any interstate agency;
- "(E) any nonprofit organization; or
- "(F) any reserve established under section 315.".

# SEC. 6. REAUTHORIZATION OF MANAGEMENT PROGRAM DEVELOPMENT GRANTS.

Section 305 (16 U.S.C. 1454) is amended to read as follows:

### "SEC. 305. MANAGEMENT PROGRAM DEVELOP-MENT GRANTS.

- "(a) STATES WITHOUT PROGRAMS —In fiscal vears 2006 and 2007, the Secretary may make a grant annually to any coastal state without an approved program if the coastal state demonstrates to the satisfaction of the Secretary that the grant will be used to develop a management program consistent with the requirements set forth in section 306. The amount of any such grant shall not exceed \$200,000 in any fiscal year, and shall require State matching funds according to a 4-to-1 Federal-to-State contributions. of After an initial grant is made to a coastal state under this subsection, no subsequent grant may be made to that coastal state under this subsection unless the Secretary finds that the coastal state is satisfactorily developing its management program. No coastal state is eligible to receive more than 4 grants under this subsection.
- "(b) SUBMITTAL OF PROGRAM FOR AP-PROVAL.—A coastal state that has completed the development of its management program shall submit the program to the Secretary for review and approval under section 306.". SEC. 7. ADMINISTRATIVE GRANTS.
- (a) PURPOSES.—Section 306(a) (16 U.S.C. 1455(a)) is amended by inserting "including developing and implementing coastal nonpoint pollution control program components," after "program,".
- (b) EQUITABLE ALLOCATION OF FUNDING.—Section 306(c) (16 U.S.C. 1455(c)) is amended by adding at the end thereof "In promoting equity, the Secretary shall consider the overall change in grant funding under this section from the preceding fiscal year and minimize the relative increases or decreases among all the eligible States. The Secretary shall ensure that each eligible State receives increased funding under this section in any fiscal year for which the total amount appropriated to carry out this section is greater than the total amount appropriated to carry out this section for the preceding fiscal year.

  (c) ACQUISITION CRITERIA.—Section
- (c) ACQUISITION CRITERIA.—Section 306(d)(10)(B) (16 U.S.C. 1455(d)(10)(B)) is amended by striking "less than fee simple" and inserting "other".

# SEC. 8. COASTAL RESOURCE IMPROVEMENT PROGRAM.

- Section 306A (16 U.S.C. 1455a) is amended— (1) by inserting "or other important coastal habitats" in subsection (b)(1)(A) after "306(d)(9)":
- (2) by inserting "or historic" in subsection (b)(2) after "urban";
- (3) by adding at the end of subsection (b) the following:
- "(5) The coordination and implementation of approved coastal nonpoint pollution control plans.
- "(6) The preservation, restoration, enhancement or creation of coastal habitats.";
- (4) by striking "and" after the semicolon in subsection (c)(2)(D);
- (5) by striking "section." in subsection (c)(2)(E) and inserting "section;";
- (6) by adding at the end of subsection (c)(2) the following:
- "(F) work, resources, or technical support necessary to preserve, restore, enhance, or create coastal habitats; and
- $\mbox{``(G)}$  the coordination and implementation of approved coastal nonpoint pollution control plans."; and

- (7) by striking subsections (d), (e), and (f) and inserting after subsection (c) the following:
- "(d) SOURCE OF FEDERAL GRANTS; STATE MATCHING CONTRIBUTIONS.—
- "(1) IN GENERAL.—If a coastal state chooses to fund a project under this section, then—
- "(A) it shall submit to the Secretary a combined application for grants under this section and section 306;
- "(B) it shall match the combined amount of such grants in the ratio required by section 306(a) for grants under that section; and
- "(C) the Federal funding for the project shall be a portion of that state's annual allocation under section 306(a).
- "(2) USE OF FUNDS.—Grants provided under this section may be used to pay a coastal state's share of costs required under any other Federal program that is consistent with the purposes of this section.
- "(e) ALLOCATION OF GRANTS TO QUALIFIED LOCAL ENTITY.—With the approval of the Secretary, the eligible coastal state may allocate to a qualified local entity a portion of any grant made under this section for the purpose of carrying out this section; except that such an allocation shall not relieve that state of the responsibility for ensuring that any funds so allocated are applied in furtherance of the state's approved management program.
- "(f) ASSISTANCE.—The Secretary shall assist eligible coastal states in identifying and obtaining from other Federal agencies technical and financial assistance in achieving the objectives set forth in subsection (b).".

### SEC. 9. COASTAL ZONE MANAGEMENT FUND.

- (a) Treatment of Loan Repayments.—Section 308(a)(2) (16 U.S.C. 1456a(a)(2)) is amended to read as follows:
- ``(2) Loan repayments made under this subsection—
- "(A) shall be retained by the Secretary and deposited into the Coastal Zone Management Fund established under subsection (b); and
- "(B) subject to amounts provided in Appropriations Acts, shall be available to the Secretary for purposes of this title and transferred to the Operations, Research, and Facilities account of the National Oceanic and Atmospheric Administration to offset the costs of implementing this title."
- (b) USE OF AMOUNTS IN FUND.—Section 308(b) (16 U.S.C. 1456a(b)) is amended by striking paragraphs (2) and (3) and inserting the following:
- "(2) Subject to Appropriation Acts, amounts in the Fund shall be available to the Secretary to carry out the provisions of this Act.".

### SEC. 10. COASTAL ZONE ENHANCEMENT GRANTS.

Section 309 (16 U.S.C. 1456b) is amended—

- (1) by striking subsection (a)(1) and inserting the following:
- "(1) Protection, restoration, enhancement, or creation of coastal habitats, including wetlands, coral reefs, marshes, and barrier islands.";
- (2) by inserting "and removal" after "entry" in subsection (a)(4);
- (3) by striking "on various individual uses or activities on resources, such as coastal wetlands and fishery resources." in subsection (a)(5) and inserting "of various individual uses or activities on coastal waters, habitats, and resources, including sources of polluted runoff.":
- (4) by adding at the end of subsection (a) the following:
- "(10) Development and enhancement of coastal nonpoint pollution control program components, including the satisfaction of conditions placed on such programs as part of the Secretary's approval of the programs.

- "(11) Significant emerging coastal issues as identified by coastal states, in consultation with the Secretary and qualified local entities.":
- (5) by striking "proposals, taking into account the criteria established by the Secretary under subsection (d)." in subsection (c) and inserting "proposals.";
- (6) by striking subsection (d) and redesignating subsection (e) as subsection (d);
- (7) by striking "section, up to a maximum of \$10,000,000 annually" in subsection (f) and inserting "section."; and
- (8) by redesignating subsections (f) and (g) as subsections (e) and (f), respectively.

### SEC. 11. COASTAL COMMUNITY PROGRAM.

The Act is amended by inserting after section 309 the following:

### "SEC. 309A. COASTAL COMMUNITY PROGRAM.

- "(a) COASTAL COMMUNITY GRANTS.—The Secretary may make grants to any coastal state that is eligible under subsection (b)—
- "(1) to assist coastal communities in assessing and managing growth, public infrastructure, and open space needs in order to provide for sustainable growth, resource protection and community revitalization;
- "(2) to provide management-oriented research and technical assistance in developing and implementing community-based growth management and resource protection strategies in qualified local entities;
- "(3) to fund demonstration projects which have high potential for improving coastal zone management at the local level;
- "(4) to assist in the adoption of plans, strategies, policies, or procedures to support local community-based environmentally-protective solutions to the impacts and pressures on coastal uses and resources caused by development and sprawl that will—
- "(A) revitalize previously developed areas;
- "(B) undertake conservation activities and projects in undeveloped and environmentally sensitive areas;
- $\mbox{``(C)}$  emphasize water-dependent uses; and
- "(D) protect coastal waters and habitats; and
- "(5) to assist coastal communities to coordinate and implement approved coastal nonpoint pollution control strategies and measures that reduce the causes and impacts of polluted runoff on coastal waters and habitats."
- "(b) ELIGIBILITY.—To be eligible for a grant under this section for a fiscal year, a coastal state shall—
- "(1) have a management program approved under section 306; and
- "(2) in the judgment of the Secretary, be making satisfactory progress in activities designed to result in significant improvement in achieving the coastal management objectives specified in section 303(2)(A) through (K).
- "(c) Allocations; Source of Federal Grants; State Matching Contributions.—
- "(1) ALLOCATION.—Grants under this section shall be allocated to coastal states as provided in section 306(c).
- "(2) APPLICATION; MATCHING.—If a coastal state chooses to fund a project under this section, then—
- "(A) it shall submit to the Secretary a combined application for grants under this section and section 306; and
- "(B) it shall match the amount of the grant under this section on the basis of a total contribution of section 306, 306A, and this section so that, in aggregate, the match is 1:1.
- ''(d) Allocation of Grants to Qualified Local Entity.—
- "(1) IN GENERAL.—With the approval of the Secretary, the eligible coastal state may allocate to a qualified local entity amounts received by the state under this section.

- "(2) ASSURANCES.—A coastal state shall ensure that amounts allocated by the state under paragraph (1) are used by the qualified local entity in furtherance of the state's approved management program, specifically furtherance of the coastal management objectives specified in section 303(2).
- "(e) ASSISTANCE.—The Secretary shall assist eligible coastal states and qualified local entities in identifying and obtaining from other Federal agencies technical and financial assistance in achieving the objectives set forth in subsection (a).".

### SEC. 12. TECHNICAL ASSISTANCE.

Section 310(b) (16 U.S.C. 1456c(b)) is amended by adding at the end thereof the following:

"(4) The Secretary may conduct a program to develop and apply innovative coastal and estuarine environmental technology and methodology through a cooperative program. The Secretary may make extramural grants in carrying out the purpose of this subsection."

### SEC. 13. PERFORMANCE REVIEW.

Section 312(a) (16 U.S.C. 1458(a)) is amended by inserting "coordinated with National Estuarine Research Reserves in the state" after "303(2)(A) through (K),".

### SEC. 14. WALTER B. JONES AWARDS.

- Section 314 (16 U.S.C. 1460) is amended— (1) by striking "shall, using sums in the Coastal Zone Management Fund established under section 308" in subsection (a) and inserting "may, using sums available under
- this Act";
  (2) by striking "field." in subsection (a) and inserting the following: "field of coastal zone management. These awards, to be known as the 'Walter B. Jones Awards' may
- "(1) cash awards in an amount not to exceed \$5,000 each:
- "(2) research grants: and

include-

- ((3) public ceremonies to acknowledge such awards.";
- (3) by striking "shall elect annually—" in subsection (b) and inserting "may select annually if funds are available under subsection (a)—": and
- (4) by striking subsection (e).

# SEC. 15. NATIONAL ESTUARINE RESEARCH RESERVE SYSTEM.

- (a) Section 315(a) (16 U.S.C. 1461(a)) is amended by striking "consists of—" and inserting "is a network of areas protected by Federal, state, and community partnerships which promotes informed management of the Nation's estuarine and coastal areas through interconnected programs in resource stewardship, education and training, and scientific understanding consisting of—"."
- (b) Section 315(b)(2)(C) (16 U.S.C. 1461(b)(2)(C)) is amended by striking "public education and interpretation; and"; and inserting "education, interpretation, training, and demonstration projects; and".
- (c) Section 315( $\hat{c}$ ) (16 U.S.C. 1461(c)) is amended—
- (1) by striking "Research" in the subsection caption and inserting "Research, Education, and Resource Stewardship";
- (2) by striking "conduct of research" and inserting "conduct of research, education, and resource stewardship";
- (3) by striking "coordinated research" in paragraph (1)) and inserting "coordinated research, education, and resource stewardship":
- (4) by striking "research" before "principles" in paragraph (2);
- (5) by striking "research programs" in paragraph (2) and inserting "research, education, and resource stewardship programs";
- (6) by striking "research" before "met odologies" in paragraph (3);
- (7) by striking "data," in paragraph (3) and inserting "information,";

- (8) by striking "research" before "results" in paragraph (3);
- (9) by striking "research purposes;" in paragraph (3) and inserting "research, education, and resource stewardship purposes;";
- (10) by striking "research efforts" in paragraph (4) and inserting "research, education, and resource stewardship efforts";
- (11) by striking "research" in paragraph (5) and inserting "research, education, and resource stewardship"; and
- (12) by striking "research" in the last sentence.
- (d) Section 315(d) (16 U.S.C. 1461(d)) is amended—
- (1) by striking "ESTUARINE RESEARCH.—" in the subsection caption and inserting "ESTUARINE RESEARCH, EDUCATION, AND RESOURCE STEWARDSHIP.—";
- (2) by striking "research purposes" and inserting "research, education, and resource stewardship purposes":
- (3) by striking paragraph (1) and inserting the following:
- "(1) giving reasonable priority to research, education, and stewardship activities that use the System in conducting or supporting activities relating to estuaries; and";
- (4) by striking "research." in paragraph (2) and inserting "research, education, and resource stewardship activities."; and
- (5) by adding at the end thereof the following:
- "(3) establishing partnerships with other Federal and state estuarine management programs to coordinate and collaborate on estuarine research."
- (e) Section 315(e) (16 U.S.C. 1461(e)) is amended—
- (1) by striking "reserve," in paragraph (1)(A)(i) and inserting "reserve; and";
- (2) by striking "and constructing appropriate reserve facilities, or" in paragraph (1)(A)(ii) and inserting "including resource stewardship activities and constructing reserve facilities; and";
- (3) by striking paragraph (1)(A)(iii);
- (4) by striking paragraph (1)(B) and inserting the following:
- "(B) to any coastal state or public or private person for purposes of—
- "(i) supporting research and monitoring associated with a national estuarine reserve that are consistent with the research guidelines developed under subsection (c); or
- "(ii) conducting educational, interpretive, or training activities for a national estuarine reserve that are consistent with the education guidelines developed under subsection (c).";
- (5) by striking "therein or \$5,000,000, whichever amount is less." in paragraph (3)(A) and inserting "therein. Non-Federal costs associated with the purchase of any lands and waters, or interests therein, which are incorporated into the boundaries of a reserve up to 5 years after the costs are incurred, may be used to match the Federal share.";
- (6) by striking "and (iii)" in paragraph (3)(B);
- (7) by striking "paragraph (1)(A)(iii)" in paragraph (3)(B) and inserting "paragraph (1)(B)":
- (8) by striking "entire System." in paragraph (3)(B) and inserting "System as a whole."; and
- (9) by adding at the end thereof the following:
  - "(4) The Secretary may-
- "(A) enter into cooperative agreements, financial agreements, grants, contracts, or other agreements with any nonprofit organization, authorizing the organization to solicit donations to carry out the purposes and policies of this section, other than general administration of reserves or the System and which are consistent with the purposes and policies of this section; and

"(B) accept donations of funds and services for use in carrying out the purposes and policies of this section, other than general administration of reserves or the System and which are consistent with the purposes and policies of this section.

Donations accepted under this section shall be considered as a gift or bequest to or for the use of the United States for the purpose of carrying out this section.".

(f) Section 315(f)(1) (16 U.S.C. 1461(f)(1)) is amended by inserting "coordination with other state programs established under sections 306 and 309A," after "including".

### SEC. 16. COASTAL ZONE MANAGEMENT REPORTS.

Section 316 (16 U.S.C. 1462) is amended-

- (1) by striking "to the President for transmittal" in subsection (a);
- (2) by striking "zone and an evaluation of the effectiveness of financial assistance under section 308 in dealing with such consequences;" and inserting "zone;" in the provision designated as (10) in subsection (a);
- (3) by inserting "education," after the "studies," in the provision designated as (12) in subsection (a);
  (4) by striking "Secretary" in the first sen-
- (4) by striking "Secretary" in the first sentence of subsection (c)(1) and inserting "Secretary, in consultation with coastal states, and with the participation of affected Federal agencies.":
- (5) by striking the second sentence of subsection (c)(1) and inserting the following: "The Secretary, in conducting such a review, shall coordinate with, and obtain the views of, appropriate Federal agencies.";
- (6) by striking "shall promptly" in subsection (c)(2) and inserting "shall, within 4 years after the date of enactment of the Coastal Zone Enhancement Reauthorization Act of 2005,"; and
- (7) by adding at the end of subsection (c)(2) the following: "If sufficient funds and resources are not available to conduct such a review, the Secretary shall so notify the Congress.".

### SEC. 17. AUTHORIZATION OF APPROPRIATIONS.

Section 318 (16 U.S.C. 1464) is amended—

- (1) by striking paragraphs (1) and (2) of subsection (a) and inserting the following: "(1) for grants under sections 306, 306A, and
- "(A) \$90.500.000 for fiscal year 2006:
- "(B) \$94,000,000 for fiscal year 2007;
- $^{\prime\prime}(C)$  \$98,000,000 for fiscal year 2008;
- "(D) \$102,000,000 for fiscal year 2009; and
- (E) \$106,000,000 for fiscal year 2010.
- "(2) for grants under section 309A—"(A) \$29,000,000 for fiscal year 2006:
- "(A) \$29,000,000 for fiscal year 2006; "(B) \$30.000,000 for fiscal year 2007;
- (G) \$30,000,000 for fiscal year 2007; (C) \$31,000,000 for fiscal year 2008;
- (C) \$31,000,000 for fiscal year 2009; and
- "(E) \$32,000,000 for fiscal year 2009; and "(E) \$32,000,000 for fiscal year 2010.
- of which \$10,000,000 or 35 percent, whichever

of which \$10,000,000, or 35 percent, whichever is less, shall be for purposes set forth in section 309A(a)(5);

- "(3) for grants under section 315—
- "(A) \$18,000,000 for fiscal year 2006;
- "(B) \$19,000,000 for fiscal year 2007; "(C) \$20,000,000 for fiscal year 2008;
- "(D) \$21,000,000 for fiscal year 2009; and
- "(E) \$22,000,000 for fiscal year 2010.
- "(4) for grants to fund construction projects at estuarine reserves designated under section 315, \$15,000,000 for each of fiscal years 2006, 2007, 2008, 2009, and 2010; and
- "(5) for costs associated with administering this title, \$7,000,000 for fiscal year 2006 and such sums as are necessary for fiscal years 2007–2010.";
- (2) by striking "306 or 309." in subsection (b) and inserting "306.";
- (3) by striking "during the fiscal year, or during the second fiscal year after the fiscal year, for which" in subsection (c) and inserting "within 3 years from when";

- (4) by striking "under the section for such reverted amount was originally made available." in subsection (c) and inserting "to states under this Act."; and
- (5) by adding at the end thereof the following:
- "(d) PURCHASE OF OTHERWISE UNAVAILABLE FEDERAL PRODUCTS AND SERVICES.—Federal funds allocated under this title may be used by grantees to purchase Federal products and services not otherwise available.
- "(e) RESTRICTION ON USE OF AMOUNTS FOR PROGRAM, ADMINISTRATIVE, OR OVERHEAD COSTS.—Except for funds appropriated under subsection (a)(5), amounts appropriated under this section shall be available only for grants to states and shall not be available for other program, administrative, or overhead costs of the National Oceanic and Atmospheric Administration or the Department of Commerce."

### SEC. 18. SENSE OF CONGRESS.

It is the sense of Congress that the Undersecretary for Oceans and Atmosphere should re-evaluate the calculation of shoreline mileage used in the distribution of funding under the Coastal Zone Management Program to ensure equitable treatment of all regions of the coastal zone, including the Southeastern States and the Great Lakes States.

By Ms. SNOWE (for herself, Mr. KERRY, Mr. STEVENS, Mr. INOUYE, and Ms. COLLINS):

S. 361. A bill to develop and maintain an integrated system of ocean and coastal observations for the Nation's coasts, oceans and Great Lakes, improve warnings of tsunamis and other natural hazards, enhance homeland security, support maritime operations, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Ms. SNOWE. Mr. President, I rise today to introduce the Ocean and Coastal Observation Systems Act of 2005, a bill that would forever change our understanding of the marine environment.

As our Nation saw with the devastating Indian Ocean tsunami only weeks ago, the oceans are alive and ever-changing. While our Nation's coast escaped the direct reach of this recent tragedy, it reminds us that those who live near or along our Nation's 95,000-plus miles of shoreline need to be able to monitor a range of ocean conditions and quickly assess threats, ocean-based including tsunamis, hurricanes, harmful algal blooms, and pollution. The purpose of this bill is to fulfil these needs for ocean and coastal observation and warning systems surrounding United States.

This bi-partisan, science-based bill would authorize the National Oceanic and Atmospheric Administration, or NOAA, to establish and maintain an integrated network of ocean observing and communication systems around our Nation's coastlines. This system would collect instantaneous data and information on ocean conditions—such as temperature, wave height, wind speed, currents, dissolved oxygen, salinity, contaminants, and other variables—that are essential to marine science and resource management as

well as maritime transportation, safety, and commerce.

As Chair of the Fisheries and Coast Guard Subcommittee of the Commerce, Science, and Transportation Committee, and as a representative of a state with more than 5,000 miles of shoreline, I want to ensure that the citizens of Maine, and all coastal states, have the tools they need to monitor and assess what is happening off their shores. The State of Maine has a strong and proud history rooted in our connection to the sea, as do other coastal states, and our coastal communities are highly dependent on the fisheries resources, coastal habitats, tourist destinations, safe harbors, and other essential services connected to the sea. The people of this country's livelihoods are directly linked to how well we understand and adapt to changing ocean conditions.

Our ability to understand ocean dynamics took a great leap forward in 2001, when marine scientists and educators launched an innovative partnership known as the Gulf of Maine Ocean Observing System, or GoMOOS, to start gathering a range of ocean data on a large regional scale. This prototype system, which started with ten observation buoys, has transformed how we observe and track ocean conditions over time. The GoMOOS system takes ocean and surface condition measurements on an hourly basis through a network of linked buoys, and these real-time measurements can be monitored and accessed by the public via the GoMOOS Web site. The unprecedented geographical range and frequency of measurements revolutionized our knowledge about the Gulf of Maine, and GoMOOS continues to provide a tremendous public service for New England.

Of course, the need to access this type of ocean information is not limited to the Gulf of Maine. Similar observing systems are planned or developed in other coastal regions, many in conjunction with NOAA, universities, and State agencies. Data from these independent regional systems, however, are often incompatible with data from other regions, making it difficult to compile, manage, process, and communicate data across networks. As a result, there is a possibility that these systems would be unable to link their data and develop a comprehensive picture of coastal and ocean conditions around the Nation.

The Ocean and Coastal Observation Systems Act of 2005 seeks to rectify this situation by integrating ocean and coastal observation efforts in cooperation with NOAA. This Act would encourage further development of the regional systems, enable their data to be linked through a national network, provide information that anyone could access, and facilitate timely public warnings of hazardous ocean conditions. It would authorize the National Ocean Research Leadership Council to have general oversight for research and

development of this national undertaking. This Council would establish an interagency program office that would plan and coordinate operational activities and budgets, and NOAA would be the lead Federal agency charged with ensuring that this national network of regional observation associations, such as GoMOOS and others under development, effectively integrates and utilizes ocean data for the benefit of the American public.

As the U.S. Ocean Commission made clear in its final report issued in September 2004, ocean and coastal observations are a cornerstone of sound marine science, management, and commerce, and the potential uses of this system are nearly unlimited. For example, fisheries scientists and managers can use ocean data to better predict ocean productivity and use this information to facilitate ecosystem management. Fishermen, sailors, shippers. Coast Guard search-and-rescue units, and other seafarers can better monitor sea conditions to more safely navigate rough seas. Ocean scientists and regulators can better predict and respond to marine pollution, harmful algal bloom outbreaks, or other hazardous conditions and issue prompt alerts to potentially vulnerable communities. Clearly, anyone who uses and depends upon the ocean stands to benefit from this integrated system.

I am very proud to introduce this bill, and I would like to thank my cosponsors, Senators Kerry, Stevens, and INOUYE, for contributing to this legislation and supporting this national initiative. Of course, our current and expanding ocean observation and communication system would not be possible without the work of dedicated professionals in the ocean and coastal science, management, and research communities—they have taken the initiative to develop the grassroots regional observation systems as well as contribute to this legislation. Thanks to their ongoing efforts, ocean observations will continue to provide a tremendous service to the American ocean-dependent public.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 361

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Ocean and Coastal Observation System Act of 2005". SEC. 2. FINDINGS AND PURPOSES.

- (a) FINDINGS.—Congress finds the following:
- (1) Ocean and coastal observations provide vital information for protecting human lives and property from marine hazards, enhancing national and homeland security, predicting weather and global climate change, improving ocean health and providing for the protection, sustainable use, and enjoyment of the resources of the Nation's coasts, oceans, and Great Lakes.

- (2) The continuing and potentially devastating threat posed by tsunamis, hurricanes, storm surges, and other marine hazards requires immediate implementation of strengthened observation and communications systems to provide timely detection, assessment, and warnings to the millions of people living in coastal regions of the United States and throughout the world.
- (3) The 95,000-mile coastline of the United States, including the Great Lakes, is vital to the Nation's prosperity, contributing over \$117\$ billion to the national economy in 2000, supporting jobs for more than 200 million Americans, handling \$700 billion in waterborne commerce, and supporting commercial and sport fisheries valued at more than \$50 billion annually.
- (4) Safeguarding homeland security, conducting search and rescue operations, responding to natural and man-made coastal hazards such as oil spills and harmful algal blooms, and managing fisheries and other coastal activities require improved monitoring of the Nation's waters and coastline, including the ability to track vessels and to provide rapid response teams with real-time environmental conditions necessary for their work
- (5) While knowledge of the ocean and coastal environment and processes is far from complete, advances in sensing technologies and scientific understanding have made possible long-term and continuous observation from shore, from space, and in situ of ocean and coastal characteristics and conditions.
- (6) Many elements of a ocean and coastal observing system are in place, but require national investment, consolidation, completion, and integration at Federal, regional, State, and local levels.
- (7) The Commission on Ocean Policy recommends a national commitment to a sustained and integrated ocean and coastal observing system and to coordinated research programs in order to assist the Nation and the world in understanding the oceans and the global climate system, enhancing homeland security, improving weather and climate forecasts, strengthening management of ocean and coastal resources, improving the safety and efficiency of maritime operations, and mitigating marine hazards.
- (8) In 2003, the United States led more than 50 nations in affirming the vital importance of timely, quality, long-term global observations as a basis for sound decision-making, recognizing the contribution of observation systems to meet national, regional, and global needs, and calling for strengthened cooperation and coordination in establishing a Global Earth Observation System of Systems, of which an integrated ocean and coastal observing system is an essential part.
- (b) PURPOSES.—The purposes of this Act are to provide for—  $\,$
- (1) the development and maintenance of an integrated ocean and coastal observing system that provides the data and information to ensure national security and public safety, support economic development, sustain and restore healthy marine ecosystems and the resources they support, enable advances in scientific understanding of the oceans, and strengthen science education and communication:
- (2) implementation of research and development and education programs to improve understanding of the oceans and Great Lakes and achieve the full national benefits of an integrated ocean and coastal observing system:
- (3) implementation of a data and information management system required by all components of an integrated ocean and

coastal observing system and related research to develop early warning systems; and

(4) establishment of a system of regional ocean and coastal observing systems to address local needs for ocean information.

### SEC. 3. DEFINITIONS.

In this Act:

- (1) COUNCIL.—The term "Council" means the National Ocean Research Leadership Council established under section 7902(a) of title 10, United States Code.
- (2) OBSERVING SYSTEM.—The term "observing system" means the integrated coastal, ocean and Great Lakes observing system to be established by the Committee under section 4(a).
- (3) NATIONAL OCEANOGRAPHIC PARTNERSHIP PROGRAM.—The term "National Oceanographic Partnership Program" means the program established under section 7901 of title 10. United States Code.
- (4) INTERAGENCY PROGRAM OFFICE.—The term "interagency program office" means the office established under section 4(d).

### SEC. 4. INTEGRATED OCEAN AND COASTAL OB-SERVING SYSTEM.

- (a) ESTABLISHMENT.—The President, acting through the Council, shall establish and maintain an integrated system of ocean and coastal observations, data communication and management, analysis, modeling, research, and education designed to provide data and information for the timely detection and prediction of changes occurring in the ocean and coastal environment that impact the Nation's social, economic, and ecological systems. The observing system shall provide for long-term, continuous and quality-controlled observations of the coasts, oceans, and Great Lakes for the following purposes:
- (1) Improving the health of the Nation's coasts, oceans, and Great Lakes.
- (2) Protecting human lives and livelihoods from hazards such as tsunamis, hurricanes, coastal erosion, and fluctuating Great Lakes water levels.
- (3) Supporting national defense and homeland security efforts.
- (4) Understanding the effects of human activities and natural variability on the state of the coasts and oceans and the Nation's socioeconomic well-being.
- (5) Measuring, explaining, and predicting environmental changes.
- (6) Providing for the sustainable use, protection, and enjoyment of ocean and coastal resources.
- (7) Providing a scientific basis for implementation and refinement of ecosystem-based management.
- (8) Educating the public about the role and importance of the oceans and Great Lakes in daily life.
- (9) Tracking and understanding climate change and the ocean and Great Lakes' roles in it.
- (10) Supplying critical information to marine-related businesses such as marine transportation, aquaculture, fisheries, and offshore energy production.
- (11) Supporting research and development to ensure continuous improvement to ocean and coastal observation measurements and to enhance understanding of the Nation's ocean and coastal resources.
- (b) SYSTEM ELEMENTS.—In order to fulfill the purposes of this Act, the observing system shall consist of the following program elements:
- (1) A national program to fulfill national observation priorities, including the Nation's ocean contribution to the Global Earth Observation System of Systems and the Global Ocean Observing System.

- (2) A network of regional associations to manage the regional ocean and coastal observing and information programs that collect, measure, and disseminate data and information products to meet regional needs.
- (3) A data management and communication system for the timely integration and dissemination of data and information products from the national and regional systems.

(4) A research and development program conducted under the guidance of the Council.

- (5) An outreach, education, and training program that augments existing programs, such as the National Sea Grant College Program and the Centers for Ocean Sciences Education Excellence program, to ensure the use of the data and information for improving public education and awareness of the Nation's oceans and building the technical expertise required to operate and improve the observing system.
- (c) COUNCIL FUNCTIONS.—In carrying out responsibilities under this section, the Council shall—
- (1) serve as the oversight body for the design and implementation of all aspects of the observing system;
- (2) adopt plans, budgets, and standards that are developed and maintained by the interagency program office in consultation with the regional associations;
- (3) coordinate the observing system with other earth observing activities including the Global Ocean Observing System and the Global Earth Observing System of Systems:
- (4) coordinate and administer programs of research and development and education to support improvements to and the operation of an integrated ocean and coastal observing system and to advance the understanding of the oceans:
- (5) establish pilot projects to develop technology and methods for advancing the development of the observing system;
- (6) support the development of institutional mechanisms to further the goals of the program and provide for the capitalization of the required infrastructure;
- (7) provide, as appropriate, support for and representation on United States delegations to international meetings on ocean and coastal observing programs, including those under the jurisdiction of the International Joint Commission involving Canadian waters: and
- (8) in consultation with the Secretary of State, coordinate relevant Federal activities with those of other nations.
- (d) INTERAGENCY PROGRAM OFFICE.—The Council shall establish an interagency program office to be known as "OceanUS". The interagency program office shall be responsible for program planning and coordination of the observing system. The interagency program office shall—
- (1) prepare annual and long-term plans for consideration by the Council for the design and implementation of the observing system that promote collaboration among Federal agencies and regional associations in developing the global and national observing systems, including identification and refinement of a core set of variables to be measured by all systems;
- (2) coordinate the development of agency priorities and budgets for implementation of the observing system, including budgets for the regional associations;
- (3) establish and refine standards and protocols for data management and communications, including quality standards, in consultation with participating Federal agencies and regional associations;
- (4) develop a process for the certification of the regional associations and their periodic review and recertification; and

- (5) establish an external technical committee to provide biennial review of the observing system.
- (e) LEAD FEDERAL AGENCY.—The National Oceanic and Atmospheric Administration shall be the lead Federal agency for implementation and operation of the observing system. Based on the plans prepared by the interagency program office and adopted by the Council, the Administrator of the National Oceanic and Atmospheric Administration shall—
- (1) coordinate implementation, operation and improvement of the observing system:
- (2) establish efficient and effective administrative procedures for allocation of funds among Federal agencies and regional associations in a timely manner and according to the budget adopted by the Council;
- (3) implement and maintain appropriate elements of the observing system;
- (4) provide for the migration of scientific and technological advances from research and development to operational deployment;
- (5) integrate and extend existing programs and pilot projects into the operational observation system; and
- (6) certify regional associations that meet the requirements of subsection (f).
- (f) REGIONAL ASSOCIATIONS OF OCEAN AND COASTAL OBSERVING SYSTEMS.—The Administrator of the National Oceanic and Atmospheric Administration may certify one or more regional associations to be responsible for the development and operation of regional ocean and coastal observing systems to meet the information needs of user groups in the region while adhering to national standards. To be certifiable by the Administrator, a regional association shall—
- (1) demonstrate an organizational structure capable of supporting and integrating all aspects of ocean and coastal observing and information programs within a region;
- (2) operate under a strategic operations and business plan that details the operation and support of regional ocean and coastal observing systems pursuant to the standards established by the Council:
- (3) provide information products for multiple users in the region;
- (4) work with governmental entities and programs at all levels within the region to provide timely warnings and outreach and education to protect the public; and
- (5) meet certification standards developed by the interagency program office in conjunction with the regional associations and approved by the Council.
- (g) CIVIL LIABILITY.—For purposes of section 1346(b)(1) and chapter 171 of title 28, United States Code, the Suits in Admiralty Act (46 U.S.C. App. 741 et seq.), and the Public Vessels Act (46 U.S.C. App. 781 et seq.), any regional ocean and coastal observing system that is a designated part of a regional association certified under this section shall, in carrying out the purposes of this Act, be deemed to be part of the National Oceanic and Atmospheric Administration, and any employee of such system, while acting within the scope of his or her employment in carrying out such purposes, shall be deemed to be an employee of the Government.

# SEC. 5. RESEARCH AND DEVELOPMENT AND EDUCATION.

The Council shall establish programs for research and development and education for the ocean and coastal observing system, including projects under the National Oceanographic Partnership Program, consisting of the following:

(1) Basic research to advance knowledge of ocean and coastal systems and ensure continued improvement of operational products, including related infrastructure and observing technology.

- (2) Focused research projects to improve understanding of the relationship between the coasts and oceans and human activities.
- (3) Large scale computing resources and research to advance modeling of ocean and coastal processes.
- (4) A coordinated effort to build public education and awareness of the ocean and coastal environment and functions that integrates ongoing activities such as the National Sea Grant College Program and the Centers for Ocean Sciences Education Excellence.

### SEC. 6. INTERAGENCY FINANCING.

The departments and agencies represented on the Council are authorized to participate in interagency financing and share, transfer, receive, obligate, and expend funds appropriated to any member of the Council for the purposes of carrying out any administrative or programmatic project or activity under this Act or under the National Oceanographic Partnership Program, including support for the interagency program office, a common infrastructure, and system integration for a ocean and coastal observing system. Funds may be transferred among such departments and agencies through an appropriate instrument that specifies the goods, services, or space being acquired from another Council member and the costs of the same.

### SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the National Oceanic and Atmospheric Administration for the implementation of an integrated ocean and coastal observing system under section 4, and the research and development program under section 5, including financial assistance to the interagency program office, the regional associations for the implementation of regional ocean and coastal observing systems, and the departments and agencies represented on the Council. such sums as may be necessary for each of fiscal years 2006 through 2010. At least 50 percent of the sums appropriated for the implementation of the integrated ocean and coastal observing system under section 4 shall be allocated to the regional associations certified under section 4(f) for implementation of regional ocean and coastal observing systems. Sums appropriated pursuant to this section shall remain available until expended.

### SEC. 8. REPORTING REQUIREMENT.

Not later than March 31, 2010, the President, acting through the Council, shall transmit to Congress a report on the programs established under sections 4 and 5. The report shall include a description of activities carried out under the programs, an evaluation of the effectiveness of the programs, and recommendations concerning reauthorization of the programs and funding levels for the programs in succeeding fiscal years.

By Mr. INOUYE (for himself, Mr. STEVENS, Ms. CANTWELL, Ms. SNOWE, Mr. KERRY, and Mr. LAUTENBERG):

S. 362. A bill to establish a program within the National Oceanic and Atmospheric Administration and the United States Coast Guard to help identify, determine sources of, assess, reduce, and prevent marine debris and its adverse impacts on the marine environment and navigation safety, in coordination with non-Federal entities, and for other purposes; to the Committee on Commerce, Science, and Transportation.

RESEARCH AND REDUCTION ACT

Mr. INOUYE. Mr. President, today I am introducing the Marine Debris Research and Reduction Act. From the shore, our oceans seem vast and limitless, but I fear that we often overlook the impacts our actions have on the sea and its resources. The Act that I am introducing today with my friends and colleagues, Senators Stevens, CANTWELL, SNOWE, KERRY, and LAUTEN-BERG, focuses on one particular impact that goes unnoticed by many: marine debris. I am proud to say that the Senate unanimously passed this bill in the 108th Congress, and we look for swift action on this legislation again this year.

In a high-tech era of radiation, carcinogenic chemicals, and human-induced climate change, the problem of the trash produced by ocean-going vessels or litter swept out to sea must seem old-fashioned by comparison. Sea garbage would seem to be a simple issue that surely cannot rise to the priority level of the stresses our 21st century civilization places on the natural environment.

Regrettably, that perception wrong. While marine debris includes conventional "trash," it also includes a vast array of additional materials. It is discarded or lost fishing gear. It is cargo washed overboard. It is abandoned equipment from our commercial fleets. Nor does the "low-tech" nature of solid refuse diminish its deadly impact on the creatures of the sea. Whether an animal dies from a immune system weakened by toxic chemicals, or drowns entangled in a discarded fishing net, the result is the same—and in many cases, preventable.

Global warming, disease, and toxic contamination of our seas has already stressed these fragile ecosystems. These threats have been described in last year's Final Report of the U.S. Commission on Ocean Policy, which also dedicated an entire chapter to the threats posed by marine debris. The bill we introduce today adopts the measures recommended by the Commission to help remove man-made marine debris from the list of ocean threats. It also follows the recommendations of the International Marine Debris Conference held in my home State of Hawaii in 2000.

The bill establishes a Marine Debris Prevention and Removal Program within the National Oceanic and Atmospheric Administration, NOAA, directs the U.S. Coast Guard to improve enforcement of laws designed to prevent ship-based pollution from plastics and other garbage, reinvigorates an interagency committee on marine debris, and improves our research and information on marine debris sources, threats, and prevention.

In Hawaii, we are able to see the impacts of marine debris more clearly than most because of the convergence caused by the North Pacific Tropical High. Atmospheric forces cause ocean surface currents to converge on Ha-

waii, bringing with them the vast amount of debris floating throughout the Pacific. Since 1996, a total of 484 tons of debris have been removed from coral reefs in the Northwestern Hawaiian Islands, which is also home to many endangered marine species. But the job is not done, because more arrives daily. In 2004 alone, the program removed over 125 tons of debris.

I am pleased that the coordinated approach taken to address the threats posed by marine debris in the Northwestern Hawaiian Islands has provided a model for the nation. NOAA's Pacific Islands Region Fisheries Science Center is leading this interagency partnership, which also includes the U.S. Fish and Wildlife Service, Hawaii's business and university communities, and conservation groups. Not only have we removed debris that poses harm to endangered species, but with the help of donated services, we have recycled the abandoned nets into energy to power residential homes.

We have learned that our best path to success lies in partnering with one another to share resources, and it is my hope that others may adapt our project to their own shores through the partnership and funding opportunities set forth in this bill. This is why the bill strengthens and reestablishes an Interagency Committee on Marine Debris to coordinate marine debris prevention and removal efforts among federal agencies state governments, universities, and nongovernmental organizations.

We must also bear in mind that no matter how zealously we reform our practices, the ultimate solution lies in international cooperation. The oceans connect the coastal nations of the world, and we must work together to reduce this increasing threat to our seas and shores. The Marine Debris Research and Reduction Act will provide he United States with the tools to develop effective marine debris prevention and removal programs on a worldwide basis, including reporting and information requirements that will assist in the creation of an international marine debris database.

Mr. President, I hope you will join me in supporting enactment of the Marine Debris Research and Reduction Act. This bill will provide the United States with the programs and resources necessary to protect our most valuable resources, our oceans. I ask unanimous consent that the full text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 362

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Marine Debris Research Prevention and Reduction Act".

### SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress makes the following findings:

- (1) The oceans, which comprise nearly three quarters of the Earth's surface, are an important source of food and provide a wealth of other natural products that are important to the economy of the United States and the world.
- (2) Ocean and coastal areas are regions of remarkably high biological productivity, are of considerable importance for a variety of recreational and commercial activities, and provide a vital means of transportation.
- (3) Ocean and coastal resources are limited and susceptible to change as a direct and indirect result of human activities, and such changes can impact the ability of the ocean to provide the benefits upon which the Nation depends.
- (4) Marine debris, including plastics, derelict fishing gear, and a wide variety of other objects, has a harmful and persistent effect on marine flora and fauna and can have adverse impacts on human health.
- (5) Marine debris is also a hazard to navigation, putting mariners and rescuers, their vessels, and consequently the marine environment at risk, and can cause economic loss due to entanglement of vessel systems.
- (6) Modern plastic materials persist for decades in the marine environment and therefore pose the greatest potential for long-term damage to the marine environment.
- (7) Insufficient knowledge and data on the source, movement, and effects of plastics and other marine debris in marine ecosystems has hampered efforts to develop effective approaches for addressing marine debris.
- (8) Lack of resources, inadequate attention to this issue, and poor coordination at the Federal level has undermined the development and implementation of a Federal program to address marine debris, both domestically and internationally.
- (b) PURPOSES.—The purposes of this Act are—
- (1) to establish programs within the National Oceanic and Atmospheric Administration and the United States Coast Guard to help identify, determine sources of, assess, reduce, and prevent marine debris and its adverse impacts on the marine environment and navigation safety, in coordination with other Federal and non-Federal entities;
- (2) to re-establish the Inter-agency Marine Debris Coordinating Committee to ensure a coordinated government response across Federal agencies:
- (3) to develop a Federal information clearinghouse to enable researchers to study the sources, scale and impact of marine debris more efficiently; and
- (4) to take appropriate action in the international community to prevent marine debris and reduce concentrations of existing debris on a global scale.

# SEC. 3. NOAA MARINE DEBRIS PREVENTION AND REMOVAL PROGRAM.

- (a) ESTABLISHMENT OF PROGRAM.—There is established, within the National Oceanic and Atmospheric Administration, a Marine Debris Prevention and Removal Program to reduce and prevent the occurrence and adverse impacts of marine debris on the marine environment and navigation safety.

  (b) PROGRAM COMPONENTS.—Through the
- (b) PROGRAM COMPONENTS.—Through the Marine Debris Prevention and Removal Program, the Administrator shall carry out the following activities:
- (1) MAPPING, IDENTIFICATION, IMPACT ASSESSMENT, REMOVAL, AND PREVENTION.—The Administrator shall, in consultation with relevant Federal agencies, undertake marine debris mapping, identification, impact assessment, prevention, and removal efforts, with a focus on marine debris posing a threat to living marine resources (particularly endangered or protected species) and navigation safety, including—

- (A) the establishment of a process, building on existing information sources maintained by Federal agencies such as the Environmental Protection Agency and the Coast Guard, for cataloguing and maintaining an inventory of marine debris and its impacts found in the United States navigable waters and the United States exclusive economic zone, including location, material, size, age, and origin, and impacts on habitat, living marine resources, human health, and navigation safety;
- (B) measures to identify the origin, location, and projected movement of marine debris within the United States navigable waters, the United States exclusive economic zone, and the high seas, including the use of oceanographic, atmospheric, satellite, and remote sensing data; and
- (C) development and implementation of strategies, methods, priorities, and a plan for preventing and removing marine debris from United States navigable waters and within the United States exclusive economic zone, including development of local or regional protocols for removal of derelict fishing gear.
- (2) REDUCING AND PREVENTING LOSS OF GEAR.—The Administrator shall improve efforts and actively seek to prevent and reduce fishing gear losses, as well as to reduce adverse impacts of such gear on living marine resources and navigation safety, including—
- (A) research and development of alternatives to gear posing threats to the marine environment, and methods for marking gear used in specific fisheries to enhance the tracking, recovery, and identification of lost and discarded gear: and
- (B) development of voluntary or mandatory measures to reduce the loss and discard of fishing gear, and to aid its recovery, such as incentive programs, reporting loss and recovery of gear, observer programs, toll-free reporting hotlines, computer-based notification forms, and providing adequate and free disposal recepticals at ports.
- (3) OUTREACH.—The Administrator shall undertake outreach and education of the public and other stakeholders, such as the fishing industry, fishing gear manufacturers, and other marine-dependent industries, on sources of marine debris, threats associated with marine debris and approaches to identify, determine sources of, assess, reduce, and prevent marine debris and its adverse impacts on the marine environment and navigational safety. Including outreach and education activities through public-private initiatives. The Administrator shall coordinate outreach and education activities under this paragraph with any outreach programs conducted under section 2204 of the Marine Plastic Pollution Research and Control Act of 1987 (33 U.S.C. 1915).
  - (c) Grants.-
- (1) IN GENERAL.—The Administrator shall provide financial assistance, in the form of grants, through the Marine Debris Prevention and Removal Program for projects to accomplish the purposes of this Act.
  - (2) 50 percent matching requirement.—
- (A) IN GENERAL.—Except as provided in subparagraph (B), Federal funds for any project under this section may not exceed 50 percent of the total cost of such project. For purposes of this subparagraph, the non-Federal share of project costs may be provided by in-kind contributions and other noncash support.
- (B) WAIVER.—The Administrator may waive all or part of the matching requirement under subparagraph (A) if the Administrator determines that no reasonable means are available through which applicants can meet the matching requirement and the probable benefit of such project outweighs

- the public interest in such matching requirement.
- (3) Amounts paid and services rendered under consent.—
- (A) Consent decrees and orders.—The non-Federal share of the cost of a project carried out under this Act may include money paid pursuant to, or the value of any in-kind service performed under, an administrative order on consent or judicial consent decree that will remove or prevent marine debris.
- (B) OTHER DECREES AND ORDERS.—The non-Federal share of the cost of a project carried out under this Act may not include any money paid pursuant to, or the value of any in-kind service performed under, any other administrative order or court order.
- (4) ELIGIBILITY.—Any natural resource management authority of a State, Federal or other government authority whose activities directly or indirectly affect research or regulation of marine debris, and any educational or nongovernmental institutions with demonstrated expertise in a field related to marine debris, are eligible to submit to the Administrator a marine debris proposal under the grant program.
- (5) Grant criteria and guidelines.—Within 180 days after the date of enactment of this Act, the Administrator shall promulgate necessary guidelines for implementation of the grant program, including development of criteria and priorities for grants. Such priorities may include proposals that would reduce new sources of marine debris and provide additional benefits to the public, such as recycling of marine debris or use of biodegradable materials. In developing those guidelines, the Administrator shall consult with—
- (A) the Interagency Marine Debris Committee;
- (B) regional fishery management councils established under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.);
- (C) State, regional, and local governmental entities with marine debris experience;
- (D) marine-dependent industries; and
- (E) non-governmental organizations involved in marine debris research, prevention, or removal activities.
- (6) PROJECT REVIEW AND APPROVAL.—The Administrator shall review each marine debris project proposal to determine if it meets the grant criteria and supports the goals of the Act. Not later than 120 days after receiving a project proposal under this section, the Administrator shall—
- (A) provide for external merit-based peer review of the proposal;
- (B) after considering any written comments and recommendations based on the review, approve or disapprove the proposal; and
- (C) provide written notification of that approval or disapproval to the person who submitted the proposal.
- (7) PROJECT REPORTING.—Each grantee under this section shall provide periodic reports as required by the Administrator. Each report shall include all information required by the Administrator for evaluating the progress and success in meeting its stated goals, and impact on the marine debris problem.

## SEC. 4. COAST GUARD PROGRAM.

The Commandant of the Coast Guard shall, in cooperation with the Administrator, undertake measures to reduce violations of MARPOL Annex V and the Act to Prevent Pollution from Ships (33 U.S.C. 1901 et seq.) with respect to the discard of plastics and other garbage from vessels. The measures shall include—

(1) the development of a strategy to improve monitoring and enforcement of current

laws, as well as recommendations for statutory or regulatory changes to improve compliance and for the development of any appropriate amendments to MARPOL;

- (2) regulations to address implementation gaps with respect to the requirement of MARPOL Annex V and section 6 of the Act to Prevent Pollution from Ships (33 U.S.C. 1905) that all United States ports and terminals maintain receptacles for disposing of plastics and other garbage, which may include measures to ensure that a sufficient quantity of such facilities exist at all such ports and terminals, requirements for logging the waste received, and for Coast Guard comparison of vessel and port log books to determine compliance;
- (3) regulations to close record keeping gaps, which may include requiring fishing vessels under 400 gross tons entering United States ports to maintain records subject to Coast Guard inspection on the disposal of plastics and other garbage, that, at a minimum, include the time, date, type of garbage, quantity, and location of discharge by latitude and longitude or, if discharged on land, the name of the port where such material is offloaded for disposal;
- (4) regulations to improve ship-board waste management, which may include expanding to smaller vessels existing requirements to maintain ship-board receptacles and maintain a ship-board waste management plan, taking into account potential economic impacts and technical feasibility;
- (5) the development, through outreach to commercial vessel operators and recreational boaters, of a voluntary reporting program, along with the establishment of a central reporting location, for incidents of damage to vessels caused by marine debris, as well as observed violations of existing laws and regulations relating to disposal of plastics and other marine debris; and
- (6) a voluntary program encouraging United States flag vessels to inform the Coast Guard of any ports in other countries that lack adequate port reception facilities for garbage.

## SEC. 5. INTERAGENCY COORDINATION.

- (a) INTERAGENCY MARINE DEBRIS MITTEE ESTABLISHED.—There is established an Interagency Committee on Marine Debris to coordinate a comprehensive program of marine debris research and activities among Federal agencies, in cooperation and coordination with non-governmental organizations, industry, universities, and research institutions, State governments, Indian tribes, and other nations, as appropriate, and to foster cost-effective mechanisms to identify. determine sources of, assess, reduce, and prevent marine debris, and its adverse inpact on the marine environment and navigational safety, including the joint funding of research and mitigation and prevention strate-
- (b) MEMBERSHIP.—The Committee shall include a senior official from—
- (1) the National Oceanic and Atmospheric Administration, who shall serve as the chairperson of the Committee;
  - (2) the United States Coast Guard;
  - (3) the Environmental Protection Agency;
  - (4) the United States Navy;
- (5) the Maritime Administration of the Department of Transportation;
- (6) the National Aeronautics and Space Administration;
  - (7) the U.S. Fish and Wildlife Service;
  - (8) the Department of State;
- (9) the Marine Mammal Commission; and
- (10) such other Federal agencies that have an interest in ocean issues or water pollution prevention and control as the Administrator determines appropriate.
- (c) MEETINGS.—The Committee shall meet at least twice a year to provide a public,

interagency forum to ensure the coordination of national and international research, monitoring, education, and regulatory actions addressing the persistent marine debris problem.

- (d) DEFINITION.—The Committee shall develop and promulgate through regulation a definition of the term "marine debris".
- (e) Reporting.-
- (1) Interagency report on marine debris IMPACTS AND STRATEGIES.—Not later than 12 months after the date of the enactment of this Act, the Committee, through the chairperson, and in cooperation with the coastal States, Indian tribes, local governments, and non-governmental organizations, shall complete and submit to the Congress a report identifying the source of marine debris, examining the ecological and economic impact of marine debris, alternatives for reducing, mitigating, preventing, and controlling the harmful affects of marine debris, the social and economic costs and benefits of such alternatives, and recommendations regarding both domestic and international marine debris issues.
- (2) CONTENTS.—The report submitted under paragraph (1) shall provide recommendations on—
- (A) establishing priority areas for action to address leading problems relating to marine debris;
- (B) developing an effective strategy and approaches to preventing, reducing, removing, and disposing of marine debris, including through private-public partnerships;
- (C) providing appropriate infrastructure for effective implementation and enforcement of measures to prevent and remove marine debris, especially the discard and loss of fishing gear:
- (D) establishing effective and coordinated education and outreach activities; and
- (E) ensuring Federal cooperation with, and assistance to, the coastal States (as defined in section 304(4) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453(4))), Indian tribes, and local governments in the identification, determination of sources, prevention, reduction, management, mitigation, and control of marine debris and its adverse impacts.
- (3) ANNUAL PROGRESS REPORTS.—Not later than 2 years after the date of the enactment of this Act, and every year thereafter, the Committee, through the chairperson, shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives a report that evaluates United States and international progress in meeting the purposes of this Act. The report shall include—
- (A) the status of implementation of the recommendations of the Committee and analysis of their effectiveness;
- (B) a summary of the marine debris inventory to be maintained by the National Oceanic and Atmospheric Administration;
- (C) a review of the National Oceanic and Atmospheric Administration program authorized by section 3 of this Act, including projects funded and accomplishments relating to reduction and prevention of marine debris:
- (D) a review of United States Coast Guard programs and accomplishments relating to marine debris removal, including enforcement and compliance with MARPOL requirements; and
- (E) estimated Federal and non-Federal funding provided for marine debris and recommendations for priority funding needs.
- ommendations for priority funding needs.
  (f) MONITORING.—The Administrator, in cooperation with the Administrator of the Environmental Protection Ageony, shall utilize the marine debris data derived under this Act and title V of the Marine Protection, Re-

- search, and Sanctuaries Act of 1972 (33 U.S.C. 2801 et seq.) to assist—  $\,$
- (1) the Committee in ensuring coordination of research, monitoring, education, and regulatory actions; and
- (2) the United States Coast Guard in assessing the effectiveness of this Act and the Act to Prevent Pollution from Ships (33 U.S.C. 1901 et seq.) in ensuring compliance under section 2201 of the Marine Plastic Pollution Research and Control Act of 1987 (33 U.S.C. 1913)
- (g) CONFORMING AMENDMENT.—Section 2203 of the Marine Plastic Pollution Research and Control Act of 1987 (33 U.S.C. 1914) is repealed.

### SEC. 6. INTERNATIONAL COOPERATION.

The Interagency Marine Debris Committee shall develop a strategy and pursue in the International Maritime Organization and other appropriate international and regional forums, international action to reduce the incidence of marine debris, including—

- (1) the inclusion of effective and enforceable marine debris prevention and removal measures in international and regional agreements, including fisheries agreements and maritime agreements:
- (2) measures to strengthen and to improve compliance with MARPOL Annex V;
- (3) national reporting and information requirements that will assist in improving information collection, identification and monitoring of marine debris:
- (4) the establishment of an international database, consistent with the information clearinghouse established under section 7, that will provide current information on location, source, prevention, and removal of marine debris:
- (5) the establishment of public-private partnerships and funding sources for pilot programs that will assist in implementation and compliance with marine debris requirements in international agreements and guidelines;
- (6) the identification of possible amendments to and provisions in the International Maritime Organization Guidelines for the Implementation of Annex V of MARPOL for potential inclusion in Annex V; and
- (7) when appropriate assist the responsible Federal agency in bilateral negotiations to effectively enforce marine debris prevention.

# SEC. 7. FEDERAL INFORMATION CLEARING-HOUSE.

The Administrator, in coordination with the Committee, shall maintain a Federal information clearinghouse on marine debris that will be available to researchers and other interested parties to improve source identification, data sharing, and monitoring efforts through collaborative research and open sharing of data. The clearinghouse shall include—

- (1) standardized protocols to map locations of commercial fishing and aquaculture activities using Geographic Information System techniques:
- (2) a world-wide database which describes fishing gear and equipment, and fishing practices, including information on gear types and specifications;
- (3) guidance on the identification of types of fishing gear fragments and their sources developed in consultation with persons of relevant expertise; and
- (4) the data on mapping and identification of marine debris to be developed pursuant to section 3(b)(1) of this Act.

## SEC. 8. DEFINITIONS.

In this Act:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the National Oceanic and Atmospheric Administration

- (2) COMMITTEE.—The term "Committee" means the Interagency Marine Debris Committee established by section 5 of this Act.
- (3) UNITED STATES EXCLUSIVE ECONOMIC ZONE.—The term "United States exclusive economic zone" means the zone established by Presidential Proclamation Numbered 5030, dated March 10, 1983, including the ocean waters of the areas referred to as "eastern special areas" in Article 3(1) of the Agreement between the United States of America and the Union of Soviet Socialist Republics on the Maritime Boundary, signed June 1, 1990.
- (4) MARPOL; ANNEX V; CONVENTION.—The terms "MARPOL", "Annex 5", and "Convention" have the meaning given those terms in paragraphs (3) and (4) of section 2(a) of the Act to Prevent Pollution from Ships (33 U.S.C. 1901(a)).

### SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated for each fiscal year 2006 through 2010—

- (1) to the Administrator for the purpose of carrying out sections 3 and 7 of this Act, \$10,000,000, of which no more than 10 percent may be for administrative costs; and
- (2) to the Secretary of the Department in which the Coast Guard is operating, for the use of the Commandant of the Coast Guard in carrying out sections 4 and 6 of this Act, \$5,000,000, of which no more than 10 percent may be used for administrative costs.

By Mr. INOUYE (for himself, Mr. STEVENS, Mr. AKAKA, and Mr. LAUTENBERG):

S. 363. A bill to amend the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 to establish vessel ballast water management requirements, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. INOUYE. Mr. President. I rise today to introduce the Ballast Water Management Act of 2005. I am joined by my friend and colleague, Senator TED STEVENS. For some time we have recognized the impacts of land-based invasive species. In Hawaii, the impacts of such alien species on native species have been among the most significant in the country.

While not as visible, invasive species pose an equally great threat. One of the major ways that aquatic invasives make their way around the globe is through the ballast water used by vessels

Modern maritime commerce depends on ships stabilized by the uptake and discharge of huge volumes of ocean water for ballast. Regrettably, ships do not transport such water alone—but also the plants and animals, as well as human diseases such as cholera, that it contains. An estimated 10,000 aquatic organisms travel around the globe each day in the ballast water of cargo vessels. Over 2 billion gallons of ballast water are discharged into waters of the United States each year.

From the zebra mussel fouling the facilities and shores of the Great Lakes, to the noxious algae that choke the coral reefs of Hawaii, aquatic invasive species pose a serious threat to delicate marine ecosystems and human health. The economic costs are also staggering—the direct and indirect costs of

aquatic invasive species to the economy of the United States amount to billions of dollars each year.

We must find an effective solution to this problem, while at the same time ensuring that our maritime industry can continue to operate in a cost-effective manner. We will need to rely on the steady collaborative efforts of industry, science, government, and coastal communities as we move forward.

The bill I introduce today lays the foundation for such progress. It establishes standards for ballast water treatment that will be effective but on a schedule that our maritime fleet can realistically achieve. It recognizes safety as a paramount concern, and allows flexibility in ballast exchange practices to safeguard vessels and their passengers and crew. Looking to the future, my bill will also encourage the development and adoption of new ballast water treatment technologies, as well as innovative technologies to address other vessel sources of invasives such as hull fouling, through a grant program.

The bill closely tracks and is consistent with an agreement recently negotiated in the International Maritime Organization. It would phase-in ballast water treatment requirements on the same schedule as that adopted by the IMO agreement, and require ballast water exchange to be used until treatment systems are in place. Importantly, the international agreement includes a provision assuring that parties can adopt more stringent measures than those included in the agreement. This provision was sought by the United States and is important to assure the sovereignty of nations in addressing their needs while striving for international cooperation. In light of this provision, the bill includes a standard for treatment that is more effective than that adopted by the international community to ensure that the impacts in the United States are adequately prevented.

Finally, the bill would require a report on other vessel pathways of invasive species, including hull fouling, and the development of standards to reduce the introduction of invasive species through such pathways. This issue is particularly important for Hawaii.

I hope that my colleagues will join me in supporting this bill. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 363

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

# SECTION 1. SHORT TITLE.

This Act may be cited as the "Ballast Water Management Act of 2005".

## SEC. 2. FINDINGS.

The Congress finds the following:

(1) The introduction of aquatic invasive species into the Nation's waters is one of the most urgent issues facing the marine environment in the United States.

- (2) The direct and indirect costs of aquatic invasive species to the economy of the United States amount to billions of dollars per year.
- (3) Invasive species are thought to have been involved in 70 percent of the last century's extinctions of native aquatic species.
- (4) Invasive aquatic species are a significant problem in all regions of the United States, including Hawaii, Alaska, San Francisco Bay, the Great Lakes, the Southeast, and the Chesapeake Bay.
- (5) Ballast water from ships is one of the largest pathways for the introduction and spread of aquatic invasive species.
- (6) It has been estimated that some 10,000 non-indigenous aquatic organisms travel around the globe each day in the ballast water of cargo ships.
- (7) Over 2 billion gallons of ballast water are discharged in United States waters each year. Ballast water may be the source of the largest volume of foreign organisms released on a daily basis into American ecosystems.
- (8) Ballast water has been found to transport not only invasive plants and animals but human diseases as well, such as cholera.
- (9) Invasive species may also be introduced by other vessel conduits, including the hulls of ships.
- (10) Invasive aquatic species may originate in other countries, or from distinct regions in the United States.
- (11) An average of 72 percent of all fish species introduced in the Southeast have become established, many of which are native to the United States but transplanted outside their native ranges.
- (12) The introduction of non-indigenous species has been closely correlated with the disappearance of indigenous species in Hawaii and other islands.
- (13) Despite the efforts of more than 20 State, Federal, and private agencies, unwanted alien pests are entering Hawaii at an alarming rate—about 2 million times more rapid than the natural rate.
- (14) Current Federal programs are insufficient to effectively address this growing problem.
- (15) Preventing aquatic invasive species from being introduced is the most cost-effective approach for addressing this issue, because once established, they are costly and sometimes impossible to control.

## SEC. 3. BALLAST WATER MANAGEMENT.

(a) IN GENERAL.—Section 1101 of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4711) is amended to read as follows:

## "SEC. 1101. BALLAST WATER MANAGEMENT.

- "(a) VESSELS TO WHICH SECTION APPLIES.—
  "(1) IN GENERAL.—This section applies to a
  vessel that is designed or constructed to
  carry ballast water; and
- "(A) is a vessel of the United States (as defined in section 2101(46) of title 46, United States Code); or
  - "(B) is a foreign vessel that—
- "(i) is en route to a United States port; or "(ii) has departed from a United States port and is within the exclusive economic
- "(2) EXCEPTIONS.—Notwithstanding paragraph (1), this section does not apply to—
- "(A) permanent ballast water in a sealed tank on a vessel that is not subject to discharge;
  - "(B) a vessel of the Armed Forces; or
- "(C) a vessel, or category of vessels, exempted by the Secretary under paragraph (4).
- "(3) STANDARDS FOR VESSELS OF THE ARMED FORCES.—With respect to a vessel of the Armed Forces that is designed or constructed to carry ballast water, the Secretary of Defense, after consultation with

the Administrator of the Environmental Protection Agency and the Secretary, shall promulgate ballast water and sediment management standards for such vessels that, so far as is reasonable and practicable, achieve environmental results that are comparable to those achieved by the requirements of this section in waters subject to the jurisdiction of the United States. In promulgating those standards, the Secretary of Defense may take into account the standards promulgated for such vessels under section 312 of the Clean Water Act (33 U.S.C. 1322) to the extent that compliance with those standards would meet the requirements of this Act.

- "(4) VESSEL EXEMPTIONS BY SECRETARY.— The Secretary may exempt a vessel, or category of vessels, from the application of this section if the Secretary determines, after consultation with the Administrator of the Environmental Protection Agency and the Administrator of the National Oceanic and Atmospheric Administration, that ballast water discharge from the vessel or category of vessels will not have an adverse impact (as defined in section 1003(1) of this Act), based on factors including the origin and destination of the voyages undertaken by such vessel or category of vessels.
- "(5) COAST GUARD ASSESSMENT AND RE-PORT.—Within 180 days after the date of enactment of the Ballast Water Management Act of 2005, the Commandant of the Coast Guard shall transmit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Transportation and Infrastructure containing—
- "(A) an assessment of the magnitude of ballast water operations from vessels designed or constructed to carry ballast water that are not described in paragraph (1) that are transiting waters subject to the jurisdiction of the United States; and
- "(B) recommendations, including legislative recommendations if appropriate, of options for addressing such ballast water operations.
- "(b) UPTAKE AND DISCHARGE OF BALLAST WATER AND SEDIMENT.—
- "(1) PROHIBITION.—The operator of a vessel to which this section applies may not conduct the uptake or discharge of ballast water and sediment except as provided in this section.
- "(2) EXCEPTIONS.—Paragraph (1) does not apply to the uptake or discharge of ballast water and sediment in the following circumstances:
- "(A) The uptake or discharge is solely for the purpose of—
- "(i) ensuring the safety of vessel in an emergency situation; or
  - "(ii) saving a life at sea.
- "(B) The uptake or discharge is accidental and the result of damage to the vessel or its equipment and—
- "(i) all reasonable precautions to prevent or minimize ballast water and sediment discharge have been taken before and after the damage occurs, the discovery of the damage, and the discharge; and
- "(ii) the owner or officer in charge of the vessel did not willfully or recklessly cause the damage.
- "(C) The uptake or discharge is solely for the purpose of avoiding or minimizing the discharge of pollution from the vessel.
- "(D) The uptake and subsequent discharge on the high seas of the same ballast water and sediment.
- "(E) The uptake or discharge of ballast water and sediment occurs at the same location where the whole of the ballast water and sediment that is discharged was taken up and there is no mixing with unmanaged ballast water and sediment from another area.

- "(3) SPECIAL RULE FOR THE GREAT LAKES. Paragraph (2) does not apply to a vessel subject to the regulations under subsection (e)(2) until the vessel is required to conduct ballast water treatment in accordance with subsection (f) of this section.
- "(c) Vessel Ballast Water Management PLAN.-
- "(1) IN GENERAL.—A vessel to which this section applies shall conduct all its ballast water management operations in accordance with a ballast water management plan t.ha.t.
- "(A) meets the requirements prescribed by the Secretary by regulation; and
- "(B) is approved by the Secretary
- "(2) APPROVAL CRITERIA.—The Secretary may not approve a ballast water management plan unless the Secretary determines that the plan-
- "(A) describes in detail safety procedures for the vessel and crew associated with ballast water management;
- "(B) describes in detail the actions to be taken to implement the ballast water management requirements established under this
- "(C) describes in detail procedures for disposal of sediment at sea and on shore;
- "(D) designates the officer on board the vessel in charge of ensuring that the plan is properly implemented;
- '(E) contains the reporting requirements for vessels established under this section; and
- "(F) meets all other requirements prescribed by the Secretary.
- "(3) COPY OF PLAN ON BOARD VESSEL.—The owner or operator of a vessel to which this section applies shall maintain a copy of the vessel's ballast water management plan on board at all times.
- "(d) VESSEL BALLAST WATER RECORD Воок.-
- "(1) IN GENERAL.—The owner or operator of a vessel to which this section applies shall maintain a ballast water record book on board the vessel in which-
- "(A) each operation involving ballast water is fully recorded without delay, in accordance with regulations promulgated by the Secretary; and
- (B) each such operation is described in detail, including the location and circumstances of, and the reason for, the operation.
- AVAILABILITY.—The ballast water "(2) record book-
- (A) shall be kept readily available for examination by the Secretary at all reasonable times: and
- '(B) notwithstanding paragraph (1), may be kept on the towing vessel in the case of an unmanned vessel under tow.
- (3) RETENTION PERIOD —The ballast water record book shall be retained—
- (A) on board the vessel for a period of 2 years after the date on which the last entry in the book is made; and
- "(B) under the control of the vessel's owner for an additional period of 3 years.
- "(4) REGULATIONS.—In the regulations prescribed under this section, the Secretary shall require, at a minimum, that-
- "(A) each entry in the ballast water record book be signed and dated by the officer in charge of the ballast water operation recorded; and
- "(B) each completed page in the ballast water record book be signed and dated by the master of the vessel.
- "(5) ALTERNATIVE MEANS OF KEEPING.—The Secretary may provide by regulation for alternative methods of recordkeeping, including electronic recordkeeping, to comply with the requirements of this subsection.

- "(e) BALLAST WATER EXCHANGE REQUIRE-MENTS.
- "(1) IN GENERAL.—Until a vessel conducts ballast water treatment in accordance with the requirements of subsection (f) of this section, the operator of a vessel to which this section applies may not conduct the uptake or discharge of ballast water unless the operator conducts ballast water exchange, in accordance with regulations prescribed by the Secretary, in a manner that results in an efficiency of at least 95 percent volumetric exchange of the ballast water for each ballast water tank.
- "(2) SPECIAL RULE FOR VESSELS IN THE GREAT LAKES.
- "(A) IN GENERAL.—Notwithstanding any other provision of this subsection, under regulations prescribed by the Secretary to prevent the introduction and spread of aquatic nuisance species into the Great Lakes through the ballast water of vessels, operators of vessels equipped with ballast water tanks that enter a United States port on the Great Lakes after operating on the waters beyond the exclusive economic zone shall-
- '(i) carry out exchange of ballast water on the waters beyond the exclusive economic zone prior to entry into any port within the Great Lakes: or
- "(ii) carry out an exchange of ballast water in other waters where the exchange does not pose a threat of infestation or spread of aquatic nuisance species in the Great Lakes and other waters of the United States, as recommended by the Task Force under section 1102(a)(1).
- "(B) Additional matters covered by the REGULATIONS.—The regulations shall—
- "(i) not affect or supersede any requirements or prohibitions pertaining to the discharge of ballast water into waters of the United States under the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);
- '(ii) provide for sampling procedures to monitor compliance with the requirements of the regulations:
- "(iii) prohibit the operation of a vessel in the Great Lakes if the master of the vessel has not certified to the Secretary or the Secretary's designee by not later than the departure of that vessel from the first lock in the St. Lawrence Seaway that the vessel has complied with the requirements of the regulations:
- '(iv) protect the safety of-
- "(I) each vessel; and
- "(II) the crew and passengers of each ves-
- (v) take into consideration different operating conditions; and
- '(vi) be based on the best scientific information available.
- "(C) HUDSON RIVER PORT.—The regulations under this paragraph also apply to vessels that enter a United States port on the Hudson River north of the George Washington Bridge.
- "(D) EDUCATION AND TECHNICAL ASSISTANCE PROGRAMS.—The Secretary may carry out education and technical assistance programs and other measures to promote compliance with the regulations issued under this para-
- (3) EXCHANGE AREAS.—
- "(A) IN GENERAL.—Except as provided in subparagraphs (B), (C), and (D), the operator of a vessel to which this section applies shall conduct ballast water exchange in accordance with regulations prescribed by the Secretary-
- "(i) at least 200 nautical miles from the nearest land; and
  - "(ii) in water at least 200 meters in depth.
- "(B) MINIMUM DISTANCE AND DEPTH.-
- "(i) IN GENERAL.—Except as provided in subparagraph (C), if the operator of a vessel is unable to conduct ballast water exchange

- in accordance with subparagraph (A), the ballast water exchange shall be conducted in water that is
  - "(I) as far as possible from land;
- "(II) at least 50 nautical miles from land;
- "(III) in water of at least 200 meters in depth.
- (ii) LIMITATION.—The operator of a vessel may not conduct ballast water exchange in accordance with clause (i) in any area with respect to which the Secretary has determined, after consultation with the Administrators of the Environmental Protection Agency and the National Oceanic and Atmospheric Administration, that ballast water exchange in the area will have an adverse impact, notwithstanding the fact that the area meets the distance and depth criteria of clause (i).
  - "(C) EXCHANGE IN DESIGNATED AREA.-
- "(i) IN GENERAL.—If the operator of a vessel is unable to conduct ballast water exchange in accordance with subparagraph (B), the operator of the vessel may conduct ballast water exchange in an area that does not meet the distance and depth criteria of subparagraph (B) in such areas as may be designated by the Administrator of the National Oceanic and Atmospheric Administration, determined in consultation with the Secretary and the Administrator of the Environmental Protection Agency, for that purpose.
- "(ii) CHARTING.—The Administrator of the National Oceanic and Atmospheric Administration, in consultation with the Secretary, shall designate such areas on nautical charts.
- "(iii) LIMITATION.—The Administrator may not designate an area under clause (i) if a ballast water exchange in that area could have an adverse impact, as determined by the Secretary in consultation with the Administrator of the Environmental Protection Agency.
- "(D) SAFETY OR STABILITY EXCEPTION.
- "(i) IN GENERAL.—Subparagraphs (A), (B), and (C) do not apply to the discharge or uptake of ballast water if the master of a vessel determines that compliance with subparagraph (A), (B), or (C), whichever applies, would threaten the safety or stability of the vessel, its crew, or its passengers because of adverse weather, ship design or stress, equipment failure, or any other relevant condition.
- "(ii) NOTIFICATION REQUIRED.—Whenever the master of a vessel conducts a ballast water discharge or uptake under the exception described in clause (i), the master of the vessel shall notify the Secretary as soon as practicable thereafter but no later than 24 hours after the ballast water discharge or uptake commenced.
- (iii) LIMITATION ON VOLUME—The volume of any ballast water taken up or discharged under the exception described in clause (i) may not exceed the volume necessary to ensure the safe operation of the vessel.
- "(iv) REVIEW OF CIRCUMSTANCES.—If the master of a vessel conducts a ballast water discharge or uptake under the exception described in clause (i) on more than 2 out of 6 sequential voyages, the Secretary shall review the circumstances to determine whether those ballast water discharges or uptakes met the requirements of this subparagraph. The review under this clause shall be in addition to any other enforcement activity by the Secretary.
- "(E) INABILITY TO COMPLY WITH EXCHANGE AREA REQUIREMENTS .-
- "(i) DEVIATION OR DELAY OF VOYAGE.—In determining the ability of the operator of a vessel to conduct ballast water exchange in accordance with the requirements of subparagraph (A) or (B), a vessel is not required

to deviate from its intended voyage or unduly delay its voyage to comply with those requirements.

"(ii) PARTIAL COMPLIANCE.—An operator of a vessel that is unable to comply fully with the requirements of subparagraph (A) or (B), shall conduct ballast water exchange to the maximum extent feasible in compliance with those subparagraphs.

"(F) SPECIAL RULE FOR THE GREAT LAKES. This paragraph does not apply to vessels subject to the regulations under paragraph (2).

'(f) BALLAST WATER TREATMENT REQUIRE-MENTS.-

"(1) In general.—Subject to the implementation schedule in paragraph (3), before discharging ballast water in waters subject to the jurisdiction of the United States a vessel to which this section applies shall conduct ballast water treatment so that the ballast water discharged will contain-

'(A) less than 0.1 living organisms per cubic meter that are 50 or more micrometers in minimum dimension:

(B) less than 0.1 living organisms per milliliter that are less than 50 micrometers in minimum dimension and more than 10 micrometers in minimum dimension:

(C) concentrations of indicator microbes that are less than-

'(i) 1 colony-forming unit of Toxicogenic vibrio cholera (O1 and O139) per 100 milliliters, or less than 1 colony-forming unit of that microbe per gram of wet weight of zoological samples;

'(ii) 126 colony-forming units of escherichi coli per 100 milliliters; and

'(iii) 33 colony-forming units of intestinal enterococci per 100 milliliters; and

'(D) concentrations of such indicator microbes as may be specified in regulations promulgated by the Secretary that are less than the amount specified in those regulations.

"(2) RECEPTION FACILITY EXCEPTION.—Paragraph (1) does not apply to a vessel that discharges ballast water into a reception facility that meets standards prescribed by the Secretary, in consultation with the Administrator of the Environmental Protection Agency, for the reception of ballast water that provide for the reception of ballast water and its disposal or treatment in a way that does not impair or damage the environment, human health, property, or resources. The Secretary may not prescribe such standards that are less stringent than any otherwise applicable Federal, State, or local law requirements.

IMPLEMENTATION SCHEDULE.—Para-'(3) graph (1) applies to vessels in accordance with the following schedule:

(A) FIRST PHASE —Beginning January 1. 2009. for vessels constructed on or after that date with a ballast water capacity of less than 5,000 cubic meters.

'(B) SECOND PHASE.—Beginning January 1, 2012, for vessels constructed on or after that date with a ballast water capacity of 5,000 cubic meters or more.

"(C) THIRD PHASE.—Beginning January 1, 2014, for vessels constructed before January 1, 2009, with a ballast water capacity of 1,500 cubic meters or more but not more than 5,000 cubic meters.

"(D) FOURTH PHASE.—Beginning January 1, 2016, for vessels constructed-

"(i) before January 1, 2009, with a ballast water capacity of less than 1,500 cubic meters or 5,000 cubic meters or more; or

"(ii) on or after January 1, 2009, and before January 1, 2012, with a ballast water capacity of 5,000 cubic meters or more.

(4) REVIEW OF STANDARDS.-

"(A) IN GENERAL.—In December, 2012, and in every third year thereafter, the Secretary shall review the treatment standards established in paragraph (1) of this subsection to

determine, in consultation with the Administrator of the National Oceanic and Atmos-Administration and the Administrator of the Environmental Protection Agency, if the standards should be revised to reduce the amount of organisms or microbes allowed to be discharged using the best available technology economically available. The Secretary shall revise such standards as necessary by regulation.

"(B) APPLICATION OF ADJUSTED STAND-ARDS.—In the regulations, the Secretary shall provide for the prospective application of the adjusted standards prescribed under this paragraph to vessels constructed after the date on which the adjusted standards apply and for an orderly phase-in of the adjusted standards to existing vessels.

(5) Delay of application for vessel par-TICIPATING IN PROMISING TECHNOLOGY EVALUA-TIONS -

"(A) IN GENERAL.—If a vessel participates in a program approved by the Secretary to test and evaluate promising ballast water treatment technologies with the potential to result in treatment technologies achieving a standard that is the same as or more stringent than the standard that applies under paragraph (1) before the first date on which paragraph (1) applies to that vessel, the Secretary may postpone the date on which paragraph (1) would otherwise apply to that vessel for not more than 5 years.

"(B) VESSEL DIVERSITY.—The Secretary—

"(i) shall seek to ensure that a wide variety of vessel types and voyages are included in the program; but

"(ii) may not grant a delay under this paragraph to more than 1 percent of the vessels to which subparagraph (A), (B), (C), or (D) of paragraph (3) applies.

"(C) TERMINATION OF POSTPONEMENT.—The Secretary may terminate the 5-year postponement period if participation of the vessel in the program is terminated without the consent of the Secretary.

(6) Feasibility review.

"(A) IN GENERAL.—Not less than 2 years before the date on which paragraph (1) applies to vessels under each subparagraph of paragraph (3), the Secretary shall complete a review to determine whether appropriate technologies are available to achieve the standards set forth in paragraph (1) for the vessels to which they apply under the schedule set forth in paragraph (3).

(B) DELAY IN SCHEDULED APPLICATION.—If the Secretary determines, on the basis of the review conducted under subparagraph (A), that compliance with the standards set forth in paragraph (1) in accordance with the schedule set forth in any subparagraph of paragraph (3) is not feasible, the Secretary

"(i) extend the date on which that subparagraph first applies to vessels for a period of not more than 36 months; and

"(ii) recommend action to ensure that compliance with the extended date schedule for that subparagraph is achieved.

"(7) TREATMENT SYSTEM APPROVAL RE-QUIRED.—The operator of a vessel may not use a ballast water treatment system to comply with the requirements of this subsection unless the system is approved by the Secretary. The Secretary shall promulgate regulations establishing a process for such approval.

"(g) WARNINGS CONCERNING WATER UPTAKE.-

"(1) IN GENERAL.—The Secretary shall notify mariners of any area in waters subject to the jurisdiction of the United states in which vessels should not uptake ballast water due to known conditions.

"(2) CONTENTS.—The notice shall include-

"(A) the coordinates of the area; and

"(B) if possible, the location of alternative areas for the uptake of ballast water.

"(h) SEDIMENT MANAGEMENT.-

"(1) IN GENERAL.—The operator of a vessel to which this section applies may not remove or dispose of sediment from spaces designed to carry ballast water except in accordance with this subsection and the ballast water management plan required under subsection (c).

"(2) Design requirements.—

"(A) NEW VESSELS.—No person may remove and dispose of such sediment from a vessel to which this section applies in waters subject to the jurisdiction of the United States that is constructed on or after January 1, 2009, unless the vessel is designed and constructed in a manner that-

(i) minimizes the uptake and entrapment of sediment;

(ii) facilitates removal of sediment: and

"(iii) provides for safe access for sediment removal and sampling.

"(B) EXISTING VESSELS—The operator of a vessel to which this section applies that was constructed before January 1, 2009, may not remove and dispose of such sediment in waters subject to the jurisdiction of the United States unless

"(i) the vessel has been modified, to the extent practicable and in accordance with regulations promulgated by the Secretary, to achieve the objectives described in clauses (i), (ii), and (iii) of subparagraph (A); or

"(ii) the removal and disposal of the sediment is conducted in such a manner as to achieve those objectives to the greatest extent practicable and in accordance with those regulations.

"(C) REGULATIONS.—The Secretary shall promulgate regulations establishing design and construction standards to achieve the objectives of subparagraph (A) and providing guidance for modifications and practices under subparagraph (B). The Secretary shall incorporate the standards and guidance in the regulations governing the ballast water management plan.

"(3) SEDIMENT RECEPTION FACILITIES.-

"(A) STANDARDS.—The Administrator of the Environmental Protection Agency in consultation with the Secretary, shall promulgate regulations governing facilities for the reception of vessel sediment from spaces designed to carry ballast water that provide for the disposal of such sediment in a way that does not impair or damage the environment, human health, or property or resources of the disposal area. The Administrator may not prescribe standards under this subparagraph that are less stringent than any otherwise applicable Federal. State, or local law requirements.

"(B) DESIGNATION.—The Secretary shall designate facilities for the reception of vessel sediment that meet the requirements of the regulations promulgated under subparagraph (A) at ports and terminals where ballast tanks are cleaned or repaired.

"(i) EXAMINATIONS AND CERTIFICATIONS —

"(1) Initial examination.

"(A) IN GENERAL.—The Secretary shall examine vessels to which this section applies to determine whether-

"(i) there is a ballast water management plan for the vessel; and

"(ii) the equipment used for ballast water and sediment management in accordance with the requirements of this section and the regulations promulgated hereunder is installed and functioning properly.

vessels.—For structed on or after January 1, 2009, the Secretary shall conduct the examination required by subparagraph (A) before the vessel is placed in service.

- "(C) EXISTING VESSELS.—For vessels constructed before January 1, 2009, the Secretary shall—
- "(i) conduct the examination required by subparagraph (A) before the date on which subsection (f)(1) applies to the vessel according to the schedule in subsection (f)(3); and

"(ii) inspect the vessel's ballast water record book required by subsection (d).

- "(2) SUBSEQUENT EXAMINATIONS.—The Secretary shall examine vessels no less frequently than once each year to ensure vessel compliance with the requirements of this section.
- "(3) INSPECTION AUTHORITY.—In order to carry out the provisions of this section, the Secretary may take ballast water samples at any time on any vessel to which this section applies to ensure its compliance with this Act.
- "(4) REQUIRED CERTIFICATE.-
- "(A) IN GENERAL.—If, on the basis of an initial examination under paragraph (1) the Secretary finds that a vessel complies with the requirements of this section and the regulations promulgated hereunder, the Secretary shall issue a certificate under this paragraph as evidence of such compliance. The certificate shall be valid for a period of not more than 5 years, as specified by the Secretary. The certificate or a true copy shall be maintained on board the vessel.
- "(B) FOREIGN CERTIFICATES.—The Secretary may treat a certificate issued by a foreign government as a certificate issued under subparagraph (A) if the Secretary determines that the standards used by the standards used by the Secretary under subparagraph (A).
- "(5) NOTIFICATION OF VIOLATIONS.—If the Secretary finds, on the basis of an examination under paragraph (1) or (2), sampling under paragraph (3), or any other information, that a vessel is being operated in violation of the requirements of this section and the regulations promulgated hereunder, the Secretary shall—
  - "(A) notify—
- ``(i) the master of the vessel; and
- "(ii) the captain of the port at the vessel's next port of call; and
- "(B) take such other action as may be appropriate.
- "(j) DETENTION OF VESSELS.—
- "(1) IN GENERAL.—The Secretary, by notice to the owner, charterer, managing operator, agent, master, or other individual in charge of a vessel, may detain that vessel if the Secretary has reasonable cause to believe that—
- "(A) the vessel is a vessel to which this section applies;
- "(B) the vessel does not comply with the requirements of this section or of the regulations issued hereunder or is being operated in violation of such requirements; and
- ``(C) the vessel is about to leave a place in the United States.
- "(2) CLEARANCE.—
- "(A) IN GENERAL.—A vessel detained under paragraph (1) may obtain clearance under section 4197 of the Revised Statutes (46 U.S.C. App. 91) only if the violation for which it was detained has been corrected.
- "(B) WITHDRAWAL.—If the Secretary finds that a vessel detained under paragraph (1) has received a clearance under section 4197 of the Revised Statutes (46 U.S.C. App. 91) before it was detained under paragraph (1), the Secretary shall request the Secretary of the Treasury to withdraw the clearance. Upon request of the Secretary, the Secretary of the Treasury shall withhold or revoke the clearance.
  - "(k) Sanctions.-
- "(1) CIVIL PENALTIES.—Any person who violates a regulation promulgated under this section shall be liable for a civil penalty in

- an amount not to exceed \$25,000. Each day of a continuing violation constitutes a separate violation. A vessel operated in violation of the regulations is liable in rem for any civil penalty assessed under this subsection for that violation.
- "(2) CRIMINAL PENALTIES.—Any person who knowingly violates the regulations promulgated under this section is guilty of a class C felony.
- "(3) REVOCATION OF CLEARANCE.—Except as provided in subsection (j)(2), upon request of the Secretary, the Secretary of the Treasury shall withhold or revoke the clearance of a vessel required by section 4197 of the Revised Statutes (46 U.S.C. App. 91), if the owner or operator of that vessel is in violation of the regulations issued under this section.
- "(4) EXCEPTION TO SANCTIONS.—This subsection does not apply to a failure to exchange ballast water if—
- "(A) the master of a vessel, acting in good faith, decides that the exchange of ballast water will threaten the safety or stability of the vessel, its crew, or its passengers; and

"(B) the recordkeeping and reporting requirements of the Act are complied with.

- "(1) CONSULTATION WITH CANADA, MEXICO, AND OTHER FOREIGN GOVERNMENTS.—In developing the guidelines issued and regulations promulgated under this section, the Secretary is encouraged to consult with the Government of Canada, the Government of Mexico, and any other government of a foreign country that the Secretary, in consultation with the Task Force, determines to be necessary to develop and implement an effective international program for preventing the unintentional introduction and spread of nonindigenous species.
- '(m) INTERNATIONAL COOPERATION—The Secretary, in cooperation with the International Maritime Organization of the national United Nations and the Commission on Environmental Cooperation established pursuant to the North American Free Trade Agreement, is encouraged to enter into negotiations with the governments of foreign countries to develop and implement an effective international program for preventing the unintentional introduction and spread of nonindigenous species. The Secretary is particularly encouraged to seek bilateral or multilateral agreements with Canada, Mexico, and other nations in the Wider Caribbean (as defined in the Convention for the Protection and Development of the Marine Environment of the Wider Caribbean (Cartagena Convention) under this section.
- "(n) NON-DISCRIMINATION.—The Secretary shall ensure that vessels registered outside of the United States do not receive more favorable treatment than vessels registered in the United States when the Secretary performs studies, reviews compliance, determines effectiveness, establishes requirements, or performs any other responsibilities under this Act.
- "(0) SUPPORT FOR FEDERAL BALLAST WATER DEMONSTRATION PROJECT.—In addition to amounts otherwise available to the Maritime Administration, the National Oceanographic and Atmospheric Administration. and the United States Fish and Wildlife Service for the Federal Ballast Water Demonstration Project, the Secretary shall provide support for the conduct and expansion of the project, including grants for research and development of innovative technologies for the management, treatment, and disposal of ballast water and sediment, for ballast water exchange, and for other vessel vectors of invasive aquatic species such as hull fouling. There are authorized to be appropriated to the Secretary \$25,000,000 for each fiscal year to carry out this subsection.
- "(p) CONSULTATION WITH TASK FORCE.—The Secretary shall consult with the Task Force in carrying out this section.

- "(q) PREEMPTION.—Notwithstanding any other provision of law, the provisions of subsections (e) and (f) (other than subsection (f)(2)) supersede any provision of State or local law determined by the Secretary to be inconsistent with the requirements of that subsection or to conflict with the requirements of that subsection.
- "(r) REGULATIONS.—The Secretary may issue such regulations as may be necessary to carry out this section and the terms defined in section 1003 that are used in this section.".
- (b) DEFINITIONS.—Section 1003 of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4702) is amend-
  - (1) by redesignating-
- (A) paragraphs (1), (2), and (3) as paragraphs (2), (3), and (4), respectively;
- (B) paragraphs (4), (5), (6), (7), and (8) as paragraphs (8), (9), (10), (11), and (12), respectively:
- (C) paragraphs (9) and (10) as paragraphs (14) and (15) respectively;
- (D) paragraphs (11) and (12) as paragraphs (17) and (18), respectively;
- (E) paragraphs (13), (14), and (15) as paragraphs (20), (21), and (22), respectively;
  - (F) paragraph (16) as paragraph (26); and
- (G) paragraph (17) as paragraph (23) and inserting it after paragraph (22), as redesignated:
- (2) by inserting before paragraph (2), as redesignated, the following:
- "(1) 'adverse impact' means the direct or indirect result or consequence of an event or process that—
- "(A) creates a hazard to the environment, human health, property, or a natural resource:
- "(B) impairs biological diversity; or
- "(C) interferes with the legitimate use of waters subject to the jurisdiction of the United States:":
- (3) by striking paragraph (4), as redesignated, and inserting the following:
  - "(4) 'ballast water'—
- "(A) means water taken on board a vessel to control trim, list, draught, stability, or stresses of the vessel, including matter suspended in such water; but
- "(B) does not include potable or technical water that does not contain harmful aquatic organisms or pathenogens that is taken on board a vessel and used for a purpose described in subparagraph (A) if such potable or technical water is discharged in compliance with section 312 of the Clean Water Act (33 U.S.C. 1322):"
- (4) by inserting after paragraph (4) the following:
- "(5) 'ballast water capacity' means the total volumetric capacity of any tanks, spaces, or compartments on a vessel that is used for carrying, loading, or discharging ballast water, including any multi-use tank, space, or compartment designed to allow carriage of ballast water:
- "(6) 'ballast water management' means mechanical, physical, chemical, and biological processes used, either singularly or in combination, to remove, render harmless, or avoid the uptake or discharge of harmful aquatic organisms and pathogens within ballast water and sediment;
- "(7) 'constructed' means a state of construction of a vessel at which—
  - "(A) the keel is laid;
- "(B) construction identifiable with the specific vessel begins;
- "(C) assembly of the vessel has begun comprising at least 50 tons or 1 percent of the estimated mass of all structural material of the vessel, whichever is less; or
- "(D) the vessel undergoes a major conversion;";

(5) by inserting after paragraph (12), as redesignated, the following:

"(13) 'harmful aquatic organisms and pathogens' means aquatic organisms or pathogens that have been determined by the Secretary, after consultation with the Administrator of the National Oceanographic and Atmospheric Administration and the Administrator of the Environmental Protection Agency, to cause an adverse impact if introduced into the waters subject to the jurisdiction of the United States;";

(6) by inserting after paragraph (15), as redesignated, the following:

"(16) "major conversion" means a conversion of a vessel, that—

"(A) changes its ballast water carrying capacity by at least 15 percent;

"(B) changes the vessel class;

"(C) is projected to prolong the vessel's life by at least 10 years (as determined by the Secretary); or

"(D) results in modifications to the vessel's ballast water system, except—

"(i) component replacement-in-kind; or

``(ii) conversion of a vessel to meet the requirements of section 1101(e);";

(7) by inserting after paragraph (18), as redesignated, the following:

"(19) 'sediment' means matter that has settled out of ballast water within a vessel;";

(8) by inserting after paragraph (23), as redesignated, the following:

"(24) 'United States port' means a port, river, harbor, or offshore terminal under the jurisdiction of the United States, including ports located in Puerto Rico, Guam, the Northern Marianas, and the United States Virgin Islands:

"(25) 'vessel of the Armed Forces' means—"(A) any vessel owned or operated by the Department of Defense, other than a time or voyage chartered vessel; and

"(B) any vessel owned or operated by the Department of Homeland Security that is designated by the Secretary of the department in which the Coast Guard is operating as a vessel equivalent to a vessel described in subparagraph (A):": and

(9) by inserting after paragraph (26), as redesignated, the following:

"(27) 'waters subject to the jurisdiction of the United States' means navigable waters and the territorial sea of the United States, the exclusive economic zone, and the Great Lakes."

(c) GREAT LAKES REGULATIONS.—Until vessels described in section 1101(e)(2) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4711(e)(2)), as amended by this Act, are required to conduct ballast water treatment in accordance with the requirements of section 1101(f) of that Act (16 U.S.C. 1101(f)), as amended by this Act, the regulations promulgated by the Secretary of Transportation under section 1101 of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4711), as such regulations were in effect on the day before the date of enactment of this Act, shall remain in full force and effect for, and shall continue to apply to, such vessels.

#### SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

Section 1301(a) of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4741(a)) is amended—

(1) by striking "and" after the semicolon in paragraph (4)(B);

(2) by striking "1102(f)." in paragraph (5)(B) and inserting "1102(f); and"; and

(3) by adding at the end the following:

 $\lq\lq(6)$  \$10,000,000 for each of fiscal years 2006 through 2010 to the Secretary to carry out section 1101. $\lq\lq$ 

#### SEC. 5. COAST GUARD REPORT ON OTHER VES-SEL-RELATED VECTORS OF INVASIVE SPECIES.

(a) IN GENERAL.—Within 90 days after the date of enactment of this Act, the Commandant of the Coast Guard shall transmit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Transportation and Infrastructure on vessel-related vectors of harmful aquatic organisms and pathogens other than ballast water and sediment, including vessel hulls and equipment, and from vessels equipped with ballast tanks that carry no ballast water on board.

(b) BEST PRACTICES.—As soon as practicable, the Coast Guard shall develop best practices standards and procedures designed to reduce the introduction of invasive species into and within the United States from vessels and establish a timeframe for implementation of those standards and procedures by vessels, in addition to the mandatory requirements set forth in section 1101 for ballast water. Such standards and procedures should include designation of geographical locations for uptake and discharge of untreated ballast water, as well as standards and procedures for other vessel vectors of invasive aquatic species. The Commandant shall transmit a report to the Committees describing the standards and procedures developed and the implementation timeframe, together with any recommendations, including legislative recommendations if appropriate, the Commandant deems appropriate. The Secretary of the department in which the Coast Guard is operating may promulgate regulations to incorporate and enforce standards and procedures developed under this subsection.

By Mr. INOUYE (for himself, Mr. STEVENS, Mr. LOTT, Ms. CANTWELL, Ms. SNOWE, Mr. KERRY, and Mr. LAUTENBERG):

S. 364. A bill to establish a program within the National Oceanic Atmospheric Administration to integrate Federal coastal and ocean mapping activities; to the Committee on Commerce, Science, and Transportation.

Mr. INOUYE. Mr. President, today I am introducing the Ocean and Coastal Mapping Integration Act, and I am pleased to be joined by my Commerce Committee Chairman, Senator STE-VENS, and fellow Committee members Senators LOTT, CANTWELL, SNOWE, KERRY, and LAUTENBERG, who are all original cosponsors of the bill. I am pleased to report that the Senate passed this bill unanimously in the 108th Congress, and we look forward to moving this legislation quickly this year, particularly because of its importance to coastal planning for natural hazards such as tsunami.

The jurisdiction of the United States extends 200 miles beyond its coastline and includes the U.S. Territorial Sea and Exclusive Economic Zone, or "EEZ." Regrettably, nearly 90 percent of this expanse remains unmapped by modern technologies, meaning that we have almost no information about a swath of ocean as large as the terra firma of the entire United States.

There was a time in the history of our Nation when our best efforts to map the seas meant lowering weights tied to piano wire over the side of a vessel, and measuring how deep they went. These efforts led to the development of rudimentary nautical charts designed to help mariners navigate safely. The rapidly increasing uses of our coastal and ocean waters, however, call for development of a new generation of ecosystem-oriented mapping and assessment products and services.

The technologies of today create richly layered mapping products that expand far beyond just charting for safe navigation. Now, by combining such information as mineral surveys of the U.S. Geological Service, habitat characterizations of the National Oceanic Atmospheric Administration NOAA, and watershed assessments of the Environmental Protection Agency into a single product, map users are able to consider the impacts of their actions on multiple facets of the marine environment.

Last year, the U.S. Commission on Ocean Policy issued a report highlighting the urgent need to modernize, improve, expand, and integrate federal mapping efforts to improve navigation, safety and resource management decisionmaking. By employing integrated mapping approaches, urban and residential growth can be directed away from areas of high risk from oceanbased threats such as tsunami and tidal surge. The risks of maritime activities can be minimized by identifying hazards that could impact on sensitive ecosystems, and devising appropriate mitigation plans. Living marine resource managers can also gauge where and how best to focus their efforts to restore essential marine habitats.

The bill we are introducing today will lay the foundation for producing the ocean maps of the 21st century. It mandates coordination among the many federal agencies with mapping missions with NOAA as the lead in developing national mapping priorities and strategies. The bill would also establish national hydrographic centers to manage comprehensively the mapping data produced by the federal government, encourage innovation in technologies, and authorize the funding necessary to implement this comprehensive effort.

Perhaps the most important lesson that comprehensive, integrated mapping can afford is an awareness of a web of human marine communities as rich and varied as the ocean itself. From awareness grows understanding, respect, and cooperation.

I hope that my colleagues will join me in supporting this measure that will, in turn, support the development of healthy coastal communities across the nation. I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 364

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Ocean and Coastal Mapping Integration Act".

### SEC. 2. INTEGRATED OCEAN AND COASTAL MAPPING PROGRAM.

- (a) IN GENERAL.—The Administrator of the National Oceanic and Atmospheric Administration shall establish a program to develop. in coordination with the Interagency Committee on Ocean and Coastal Mapping, a coordinated and comprehensive Federal ocean and coastal mapping plan for the Great Lakes and Coastal State waters, the territorial sea, the exclusive economic zone, and the continental shelf of the United States that enhances ecosystem approaches in decision-making for conservation and management of marine resources and habitats, establishes research priorities, supports the siting of research and other platforms, and advances ocean and coastal science.
- (b) PROGRAM PARAMETERS.—In developing such a program, the Administrator shall work with the Committee to—
- (1) identify all Federal and Federally-funded programs conducting shoreline delineation and ocean or coastal mapping, noting geographic coverage, frequency, spatial coverage, resolution, and subject matter focus of the data and location of data archives;
- (2) promote cost-effective, cooperative mapping efforts among all Federal agencies conducting ocean and coastal mapping agencies by increasing data sharing, developing data acquisition and metadata standards, and facilitating the interoperability of in situ data collection systems, data processing, archiving, and distribution of data products:
- (3) facilitate the adaptation of existing technologies as well as foster expertise in new ocean and coastal mapping technologies, including through research, development, and training conducted in cooperation with the private sector, academia, and other non-Federal entities:
- (4) develop standards and protocols for testing innovative experimental mapping technologies and transferring new technologies between the Federal government and the private sector or academia;
- (5) centrally archive, manage, and distribute data sets as well as provide mapping products and services to the general public in service of statutory requirements;
- (6) develop specific data presentation standards for use by Federal, State, and other entities that document locations of Federally permitted activities, living and nonliving resources, marine ecosystems, sensitive habitats, submerged cultural resources, undersea cables, offshore aquaculture projects, and any areas designated for the purposes of environmental protection or conservation and management of living marine resources; and
- (7) identify the procedures to be used for coordinating Federal data with State and local government programs.

### SEC. 3. INTERAGENCY COMMITTEE ON OCEAN AND COASTAL MAPPING.

- (a) ESTABLISHMENT.—There is hereby established an Interagency Committee on Ocean and Coastal Mapping.
- (b) MEMBERSHIP.—The Committee shall be comprised of senior representatives from Federal agencies with ocean and coastal mapping and surveying responsibilities. The representatives shall be high-ranking officials of their respective agencies or departments and, whenever possible, the head of the portion of the agency or department that is most relevant to the purposes of this Act. Membership shall include senior representatives from the National Oceanic and Atmospheric Administration, the Chief of Naval Operations, the United States Geological

- Survey, Minerals Management Service, National Science Foundation, National Geospatial-Intelligence Agency, United States Army Corps of Engineers, United States Coast Guard, Environmental Protection Agency, Federal Emergency Management Agency and National Aeronautics and Space Administration, and other appropriate Federal agencies involved in ocean and coastal mapping.
- (c) CHAIRMAN.—The Committee shall be chaired by the representative from the National Oceanic and Atmospheric Administration. The chairman may create subcommittees chaired by any member agency of the committee. Working groups may be formed by the full Committee to address issues of short duration.
- (d) MEETINGS.—The Committee shall meet on a quarterly basis, but subcommittee or working group meetings shall meet on an asneeded basis.
- (e) COORDINATION.—The committee should coordinate activities, when appropriate, with—  $\,$
- (1) other Federal efforts, including the Digital Coast, Geospatial One-Stop, and the Federal Geographic Data Committee;
- (2) international mapping activities; and
- (3) States and user groups through workshops and other appropriate mechanisms.

#### SEC. 4. NOAA INTEGRATED MAPPING INITIATIVE.

- (a) IN GENERAL.—Not later than 6 months after the date of enactment of this Act, the Administrator, in consultation with the Committee, shall develop and submit to the Congress a plan for an integrated ocean and coastal mapping initiative within the National Oceanic and Atmospheric Administration.
- (b) PLAN REQUIREMENTS.—The plan shall—
  (1) identify and describe all ocean and coastal mapping programs within the agency, including those that conduct mapping or related activities in the course of existing missions, such as hydrographic surveys, ocean exploration projects, living marine resource conservation and management programs, coastal zone management projects, and ocean and coastal science projects,
- (2) establish priority mapping programs and establish and periodically update priorities for geographic areas in surveying and mapping, as well as minimum data acquisition and metadata standards for those programs;
- (3) encourage the development of innovative ocean and coastal mapping technologies and applications through research and development through cooperative or other agreements at joint centers of excellence and with the private sector:
- (4) document available and developing technologies, best practices in data processing and distribution, and leveraging opportunities with other Federal agencies, nongovernmental organizations, and the private sector;
- (5) identify training, technology, and other resource requirements for enabling the National Oceanic and Atmospheric Administration's programs, ships, and aircraft to support a coordinated ocean and coastal mapping program;
- (6) identify a centralized mechanism or office for coordinating data collection, processing, archiving, and dissemination activities of all such mapping programs within the National Oceanic and Atmospheric Administration, including—
- (A) designating primary data processing centers to maximize efficiency in information technology investment, develop consistency in data processing, and meet Federal mandates for data accessibility; and
- (B) designating a repository that is responsible for archiving and managing the dis-

tribution of all ocean and coastal mapping data to simplify the provision of services to benefit Federal and State programs; and

- (6) set forth a timetable for implementation and completion of the plan, including a schedule for periodic Congressional progress reports, and recommendations for integrating approaches developed under the initiative into the interagency program.
- (c) NOAA JOINT OCEAN AND COASTAL MAPPING CENTERS.—The Administrator is authorized to maintain and operate up to 3 joint ocean and coastal mapping centers, including a joint hydrographic center, which shall be co-located with an institution of higher education. The centers shall serve as hydrographic centers of excellence and are authorized to conduct activities necessary to carry out the purposes of this Act. including—
- (1) research and development of innovative ocean and coastal mapping technologies, equipment, and data products;
- (2) mapping of the United States outer continental shelf;
- (3) data processing for non-traditional data and uses;
- (4) advancing the use of remote sensing technologies, for related issues, including mapping and assessment of essential fish habitat and of coral resources, ocean observations and ocean exploration; and
- (5) providing graduate education in ocean and coastal mapping sciences for National Oceanic and Atmospheric Administration Commissioned Officer Corps, personnel of other agencies with ocean and coastal mapping programs, and civilian personnel.

#### SEC. 5. INTERAGENCY PROGRAM REPORTING.

No later than 18 months after the date of enactment of this Act, and bi-annually thereafter, the Chairman of the Committee shall transmit to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Resources a report detailing progress made in implementing the provisions of this Act, including—

- (1) an inventory of ocean and coastal mapping data, noting the metadata, within the territorial seas and the exclusive economic zone and throughout the continental shelf of the United States, noting the age and source of the survey and the spatial resolution (metadata) of the data;
- (2) identification of priority areas in need of survey coverage using present technologies;
- (3) a resource plan that identifies when priority areas in need of modern ocean and coastal mapping surveys can be accomplished;
- (4) the status of efforts to produce integrated digital maps of ocean and coastal areas:
- (5) a description of any products resulting from coordinated mapping efforts under this Act that improve public understanding of the coasts, oceans, or regulatory decisionmaking:
- (6) documentation of minimum and desired standards for data acquisition and integrated metadata;
- (7) a statement of the status of Federal efforts to leverage mapping technologies, coordinate mapping activities, share expertise, and exchange data;
- (8) a statement of resource requirements for organizations to meet the goals of the program, including technology needs for data acquisition, processing and distribution systems:
- (9) a statement of the status of efforts to declassify data gathered by the Navy, the National Geospatial-Intelligence Agency and other agencies to the extent possible without jeopardizing national security, and make it available to partner agencies and the public;

(10) a resource plan for a digital coast integrated mapping pilot project for the northern Gulf of Mexico that will—

(A) cover the area from the authorized coastal counties through the territorial sea;

- (B) identify how such a pilot project will leverage public and private mapping data and resources, such as the United States Geological Survey National Map, to result in an operational coastal change assessment program for the subregion; and
- (11) the status of efforts to coordinate Federal programs with State and local government programs and leverage those programs. SEC. 6. AUTHORIZATION OF APPROPRIATIONS.
- (a) IN GENERAL.—In addition to the amounts authorized by section 306 of the Hydrographic Services Improvement Act of 1998 (33 U.S.C. 892d), there are authorized to be appropriated to the Administrator to carry out this  ${\rm Act}$ 
  - (1) \$20,000,000 for fiscal year 2006;
  - (2) \$26,000,000 for fiscal year 2007;
  - (3) \$32,000,000 for fiscal year 2008;
  - (4) \$38,000,000 for fiscal year 2009; and
- $(5)\ \$45,000,000$  for each of fiscal years 2010 through 2013.
- (b) JOINT OCEAN AND COASTAL MAPPING CENTERS.—Of the amounts appropriated pursuant to subsection (a), the following amounts shall be used to carry out section 4(c) of this Act:
  - (1) \$10,000,000 for fiscal year 2006.
  - (2) \$11,000,000 for fiscal year 2007.
  - (3) \$12,000,000 for fiscal year 2008.
  - (4) \$13,000,000 for fiscal year 2009.
- (5) \$15,000,000 for each of fiscal years 2010 through 2013.
- (c) INTERAGENCY COMMITTEE.—Notwith-standing any other provision of law, from amounts authorized to be appropriated for fiscal years 2006 through 2013 to the Department of Defense, the Department of the Interior, the Department of Homeland Security, the Environmental Protection Agency, and the National Aeronautics and Space Administration, the head of each such department or agency may make available not more than \$10,000,000 per fiscal year to carry out interagency activities under section 3 of this Act.

#### SEC. 7. DEFINITIONS.

In this Act:

- (1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the National Oceanic and Atmospheric Administration.
- (2) COASTAL STATE.—The term "coastal state" has the meaning given that term by section 304(4) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453(4).
- (3) COMMITTEE.—The term "Committee" means the Interagency Ocean Mapping Committee established by section 3.
- (4) EXCLUSIVE ECONOMIC ZONE.—The term "exclusive economic zone" means the exclusive economic zone of the United States established by Presidential Proclamation No. 5030, of March 10, 1983.
- (5) OCEAN AND COASTAL MAPPING.—The term "ocean and coastal mapping" means the acquisition, processing, and management of physical, biological, geological, chemical, and archaeological characteristics and boundaries of ocean and coastal areas, resources, and sea beds through the use of acoustics, satellites, aerial photogrammetry, light and imaging, direct sampling, and other mapping technologies.
- (6) TERRITORIAL SEA.—The term "territorial sea" means the belt of sea measured from the baseline of the United States determined in accordance with international law, as set forth in Presidential Proclamation Number 5928, dated December 27, 1988.

By Mr. COLEMAN (for himself and Mr. DAYTON):

S. 365. A bill to amend the Torture Victims Relief Act of 1998 to authorize appropriations to provide assistance for domestic and foreign centers and programs for the treatment of victims of torture, and for other purposes; to the Committee on Foreign Relations.

Mr. COLEMAN. Mr. President, torture is a fundamental violation of human rights. It is an act that aims not only to destroy the body but to destroy a person's spirit, leaving a psychologically crippled victim as a warning to others in their community.

Approximately 500,000 survivors of torture have found refuge in the United States, with many more around the world. The survivors of this terrible experience require treatment to recover from the effects of torture and to rebuild their shattered lives.

Fortunately, we have the ability to provide such treatment. There are 30 torture treatment centers in the United States located in 16 states, all helping former victims to recover from the trauma they experienced. We in Minnesota are tremendously proud of the work of Minnesota's Center for Victims of Torture, a world leader in administering this kind of treatment.

The Torture Victims Relief Reauthorization Act will authorize \$92 million in funding for both domestic and foreign treatment centers for victims of torture. \$50 million of the funding goes directly to domestic programs. The remaining funds assist foreign treatment centers through the U.S. Agency for International Development and the U.N. Voluntary Fund for Victims of Torture.

This reauthorization comes at a critical time. With the liberation of the people of Iraq and Afghanistan and other events around the world, even more survivors of torture around the world are seeking treatment. I look forward to the prompt consideration of this legislation and urge my colleagues to support this and other effort to assist victims of torture.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

#### S 365

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Torture Victims Relief Reauthorization Act of 2005".

# SEC. 2. AUTHORIZATION OF APPROPRIATIONS FOR DOMESTIC TREATMENT CENTERS FOR VICTIMS OF TORTURE.

Section 5(b)(1) of the Torture Victims Relief Act of 1998 (22 U.S.C. 2152 note) is amended—

- (1) by striking "and 2005" and inserting ", 2005, 2006, and 2007";
- (2) by striking "2004 and" and inserting "2004." and
- (3) by striking the period at the end and inserting ", \$25,000,000 for the fiscal year 2006, and \$25,000,000 for the fiscal year 2007.".

## SEC. 3. AUTHORIZATION OF APPROPRIATIONS FOR FOREIGN TREATMENT CENTERS FOR VICTIMS OF TORTURE.

Section 4(b)(1) of the Torture Victims Relief Act of 1998 (22 U.S.C. 2152 note) is amended...

- (1) by striking "and 2005" and inserting ", 2005, 2006, and 2007"; (2) by striking "2004 and" and inserting
- (2) by striking "2004 and" and inserting "2004,"; and
- (3) by striking the period at the end and inserting ", \$12,000,000 for the fiscal year 2006, and \$13,000,000 for the fiscal year 2007.".

# SEC. 4. AUTHORIZATION OF APPROPRIATIONS FOR THE UNITED STATES CONTRIBUTION TO THE UNITED NATIONS VOLUNTARY FUND FOR VICTIMS OF TORTURE.

Of the amounts authorized to be appropriated for fiscal years 2006 and 2007 pursuant to chapter 3 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2221 et seq.), there are authorized to be appropriated to the President for a voluntary contribution to the United Nations Voluntary Fund for Victims of Torture \$8,000,000 for fiscal year 2006 and \$9,000,000 for fiscal year 2007.

# By Mr. LAUTENBERG (for himself, Mr. Kennedy, and Mrs. Murray):

S. 368. A bill to provide assistance to reduce teen pregnancy, HIV/AIDS, and other sexually transmitted diseases and to support healthy adolescent development; to the Committee on Health, Education, Labor, and Pensions.

Mr. LAUTENBERG. Mr. President, I rise to introduce the Responsible Education About Life or "REAL" Act along with my cosponsors Senators KENNEDY, and Mrs. MURRAY.

The REAL Act aims to reduce adolescent pregnancy, HIV rates, and other sexually transmitted diseases, by providing federal funds for comprehensive sex education in schools. Comprehensive sex education is medically accurate, age appropriate, education that includes information about both contraception and abstinence. It is an approach that doesn't hide important information from our kids.

For years, taxpayer dollars have been flooded into unproven "abstinence-only" programs—while no federal program is dedicated to comprehensive sex education. Under the Bush Administration, federal support for "abstinence-only" education has expanded rapidly.

The proof is in the numbers. In fiscal year 2004 the federal government spent \$138 million dollars on "abstinence only" programs. In fiscal year 2005 the federal government increased funding for these programs by \$30 million dollars. This year President Bush is asking for \$206 million dollars for "abstinence only" education—a 50 percent increase over the 2004 funding level. Would you like to know how much money has the government devoted to comprehensive sex education programs over this same time? Zero dollars.

Much of the taxpayer funds going to "abstinence-only" programs are essentially being wasted. Teens need information, not censorship. "Abstinence-only" education only tells young people half the story, and they need the full picture. These programs are not getting the job done.

After years of "abstinence only" programs, the United States still has the—highest rates of teen pregnancy in the industrialized world. The American public knows what works. Parents do not want sexual education programs limited to abstinence in schools. Even the Heritage Foundation had to admit this when their own poll showed that "75 percent of parents want teens to be taught about both abstinence and contraception." Other polls show numbers as high as 93 percent in support of high school programs that include information about contraception.

The REAL Act also has the support of the National Education Association (NEA), the American Academy of Pediatrics (AAP), the American Nurses Association (ANA), the Child Welfare League of America and more than 130 other medical and professional organizations. It is a fact that teenagers who receive sex education that includes discussion of contraception are more likely to delay sexual activity than those who receive abstinence-only education. Comprehensive sex education simply works better.

The stakes are high: of the 19 million cases of sexually transmitted diseases every year in the United States, almost half of them strike young people between the ages of 15 and 24. And each year in the United States, about 20,000 young people are newly infected with HIV.

These aren't just numbers. These are our sons and daughters whose health and well-being are jeopardized when ideology comes before sound public policy. That is why we are introducing this legislation today. It's time for a more balanced approach; it's time to protect out kids, and it's time to get REAL. Our bill authorizes \$206 million per year in federal funds to states for comprehensive sexual education programs.

The REAL Act is step in a more effective direction. It brings sex education up-to-date in a way that will reflect the serious issues and real life situations millions of young people find themselves in every year. Young people have a right to accurate and complete information that could protect their health and even save their lives. I urge my colleagues to support the REAL Act and make it possible to give young people the tools to make safe and responsible decisions. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 368

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Responsible Education About Life Act".

#### SEC. 2. FINDINGS.

The Congress finds as follows:

(1) The American Medical Association ("AMA"), the American Nurses Association

- ("ANA"), the American Academy of Pediatrics ("AAP"), the American College of Obstetricians and Gynecologists ("ACOG"), the American Public Health Association ("APHA"), and the Society of Adolescent Medicine ("SAM"), support responsible sexuality education that includes information about both abstinence and contraception.
- (2) Recent scientific reports by the Institute of Medicine, the American Medical Association and the Office on National AIDS Policy stress the need for sexuality education that includes messages about abstinence and provides young people with information about contraception for the prevention of teen pregnancy, HIV/AIDS and other sexually transmitted diseases ("STDs").
- (3) Research shows that teenagers who receive sexuality education that includes discussion of contraception are more likely than those who receive abstinence-only messages to delay sexual activity and to use contraceptives when they do become sexually active
- (4) Comprehensive sexuality education programs respect the diversity of values and beliefs represented in the community and will complement and augment the sexuality education children receive from their families.
- (5) The median age of puberty is 13 years and the average age of marriage is over 26 years old. American teens need access to full, complete, and medically and factually accurate information regarding sexuality, including contraception, STD/HIV prevention, and abstinence.
- (6) Although teen pregnancy rates are decreasing, there are still between 750,000 and 850,000 teen pregnancies each year. Between 75 and 90 percent of teen pregnancies among 15- to 19-year olds are unintended.
- (7) Studies estimate that 50 to 75 percent of the reduction in adolescent pregnancy rates is attributable to improved contraceptive use; the remainder to increased abstinence.
- (8) More than eight out of ten Americans believe that young people should have information about abstinence and protecting themselves from unplanned pregnancies and sexually transmitted diseases.
- (9) United States teens and young adults acquire an estimated 4,000,000 sexually transmitted infections each year. By age 25, at least 1 of every 2 sexually active people will have contracted a sexually transmitted disease.
- (10) More than 2 young people in the United States are infected with HIV every hour of every day. African American and Hispanic youth have been disproportionately affected by the HIV/AIDS epidemic. Although about 15 percent of the adolescent population (ages 13 to 19) in the United States is African American, nearly 60 percent of AIDS cases through 2002 among 13- to 19-year olds were among African Americans. Hispanics comprise nearly 16 percent of the adolescent population (ages 13 to 19) in the United States and 22 percent of reported adolescent AIDS cases through June 2002.

# SEC. 3. ASSISTANCE TO REDUCE TEEN PREGNANCY, HIV/AIDS, AND OTHER SEXUALLY TRANSMITTED DISEASES AND TO SUPPORT HEALTHY ADOLESCENT DEVELOPMENT.

- (a) IN GENERAL.—Each eligible State shall be entitled to receive from the Secretary of Health and Human Services, for each of the fiscal years 2006 through 2010, a grant to conduct programs of family life education, including education on both abstinence and contraception for the prevention of teenage pregnancy and sexually transmitted diseases, including HIV/AIDS.
- (b) REQUIREMENTS FOR FAMILY LIFE PROGRAMS.—For purposes of this Act, a program of family life education is a program that—

- (1) is age-appropriate and medically accurate:
  - (2) does not teach or promote religion;
- (3) teaches that abstinence is the only sure way to avoid pregnancy or sexually transmitted diseases;
- (4) stresses the value of abstinence while not ignoring those young people who have had or are having sexual intercourse;
- (5) provides information about the health benefits and side effects of all contraceptives and barrier methods as a means to prevent pregnancy;
- (6) provides information about the health benefits and side effects of all contraceptives and barrier methods as a means to reduce the risk of contracting sexually transmitted diseases, including HIV/AIDS;
- (7) encourages family communication about sexuality between parent and child:
- (8) teaches young people the skills to make responsible decisions about sexuality, including how to avoid unwanted verbal, physical, and sexual advances and how not to make unwanted verbal, physical, and sexual advances; and
- (9) teaches young people how alcohol and drug use can affect responsible decision-making.
- (c) ADDITIONAL ACTIVITIES.—In carrying out a program of family life education, a State may expend a grant under subsection (a) to carry out educational and motivational activities that help young people—
- (1) gain knowledge about the physical, emotional, biological, and hormonal changes of adolescence and subsequent stages of human maturation;
- (2) develop the knowledge and skills necessary to ensure and protect their sexual and reproductive health from unintended pregnancy and sexually transmitted disease, including HIV/AIDS throughout their lifespan;
- (3) gain knowledge about the specific involvement of and male responsibility in sexual decisionmaking;
- (4) develop healthy attitudes and values about adolescent growth and development, body image, gender roles, racial and ethnic diversity, sexual orientation, and other subjects:
- (5) develop and practice healthy life skills including goal-setting, decisionmaking, negotiation, communication, and stress management;
- (6) promote self-esteem and positive interpersonal skills focusing on relationship dynamics, including, but not limited to, friendships, dating, romantic involvement, marriage and family interactions; and
- (7) prepare for the adult world by focusing on educational and career success, including developing skills for employment preparation, job seeking, independent living, financial self-sufficiency, and workplace productivity.

#### SEC. 4. SENSE OF CONGRESS.

It is the sense of Congress that while States are not required to provide matching funds, they are encouraged to do so.

#### SEC. 5. EVALUATION OF PROGRAMS.

- (a) IN GENERAL.—For the purpose of evaluating the effectiveness of programs of family life education carried out with a grant under section 3, evaluations of such program shall be carried out in accordance with subsections (b) and (c).
  - (b) NATIONAL EVALUATION.—
- (1) IN GENERAL.—The Secretary shall provide for a national evaluation of a representative sample of programs of family life education carried out with grants under section 3. A condition for the receipt of such a grant is that the State involved agree to cooperate with the evaluation. The purposes of the national evaluation shall be the determination of—

- (A) the effectiveness of such programs in helping to delay the initiation of sexual intercourse and other high-risk behaviors;
- (B) the effectiveness of such programs in preventing adolescent pregnancy;
- (C) the effectiveness of such programs in preventing sexually transmitted disease, including HIV/AIDS;
- (D) the effectiveness of such programs in increasing contraceptive knowledge and contraceptive behaviors when sexual intercourse occurs; and
- (E) a list of best practices based upon essential programmatic components of evaluated programs that have led to success in subparagraphs (A) through (D).
- (2) REPORT.—A report providing the results of the national evaluation under paragraph (1) shall be submitted to the Congress not later than March 31, 2009, with an interim report provided on a yearly basis at the end of each fiscal year.
  - (c) Individual State Evaluations.-
- (1) IN GENERAL.—A condition for the receipt of a grant under section 3 is that the State involved agree to provide for the evaluation of the programs of family education carried out with the grant in accordance with the following:
- (A) The evaluation will be conducted by an external, independent entity.
- (B) The purposes of the evaluation will be the determination of—
- (i) the effectiveness of such programs in helping to delay the initiation of sexual intercourse and other high-risk behaviors;
- (ii) the effectiveness of such programs in preventing adolescent pregnancy;
- (iii) the effectiveness of such programs in preventing sexually transmitted disease, including HIV/AIDS; and
- (iv) the effectiveness of such programs in increasing contraceptive knowledge and contraceptive behaviors when sexual intercourse occurs.
- (2) USE OF GRANT.—A condition for the receipt of a grant under section 3 is that the State involved agree that not more than 10 percent of the grant will be expended for the evaluation under paragraph (1).

#### SEC. 6. DEFINITIONS.

For purposes of this Act:

- (1) The term "eligible State" means a State that submits to the Secretary an application for a grant under section 3 that is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this Act.
- (2) The term "HIV/AIDS" means the human immunodeficiency virus, and includes acquired immune deficiency syndrome.
- (3) The term "medically accurate", with respect to information, means information that is supported by research, recognized as accurate and objective by leading medical, psychological, psychiatric, and public health organizations and agencies, and where relevant, published in peer review journals.
- (4) The term "Secretary" means the Secretary of Health and Human Services.

#### SEC. 7. APPROPRIATIONS.

- (a) IN GENERAL.—For the purpose of carrying out this Act, there is authorized to be appropriated \$206,000,000 for each of fiscal years 2006 through 2010.
- (1) not more than 7 percent may be used for the administrative expenses of the Secretary in carrying out this Act for that fiscal year; and
- (2) not more than 10 percent may be used for the national evaluation under section 5(b).

#### SUBMITTED RESOLUTIONS

SENATE RESOLUTION 47—EXPRESSING THE SENSE OF THE
SENATE COMMENDING CIVILIAN
EMPLOYERS OF MEMBERS OF
THE RESERVE COMPONENTS OF
THE ARMED FORCES FOR THEIR
SUPPORT OF MEMBERS WHO
ARE CALLED TO ACTIVE DUTY
AND FOR THEIR SUPPORT OF
THE MEMBERS' FAMILIES

Mr. BAYH submitted the following resolution; which was referred to the Committee on Armed Services:

#### S. RES. 47

Whereas, over 450,000 members of the reserve components of the Armed Force have been called to active duty between September 11, 2001, and February of 2005, and have had to leave their families and employers to serve and protect their country;

Whereas, the reservists called to active duty provide critical support of United States military operations abroad by serving as engineers, medics, military police, and civil affairs specialists, and in other military specialities;

Whereas, more than half of all reservists are married, and about half of them have children or other dependents;

Whereas, extended active-duty service in the performance of critical national security missions abroad has required reservists to make significant sacrifices, in time spent away from their family and, in some cases, loss of income;

Whereas, the business community in the United States has played a crucial role in supporting our reservists by providing significant financial assistance for reservists ordinarily in their workforce who experience a reduction in income due to extended active-duty service;

Whereas, this financial support by civilian employers makes it possible, in many cases, for the families of reservists to meet daily expenses associated with raising children and attaining the American dream;

Whereas the business community continues to provide this critical assistance so that the Nation's reservists may serve their country without worrying about the financial condition of their family; and

Whereas the following Indiana employers, among others, provide assistance to their employees when, as reservists, they are called to active duty, and the employers deserve public recognition for their role in supporting our troops: Eli Lilly and Company, Cummins, Inc., Guidant Corporation, Alcoa, Inc., ConAgra Foods, Inc., CSX Corporation, Daimler Chrysler, Delphi Technologies, Inc., The Dow Chemical Company, FedEx Corporation, General Dynamics Corporation, Raytheon Company, General Electric Company, American International Group, Inc., Bristol-Myers Squibb Company, Pfizer, Inc., United Parcel Service of America, Inc., Smiths Group plc, Honeywell International, Inc., and Am General, LLC: Now, therefore,

Resolved, That it is the sense of the Senate that—

(1) the members of the reserve components of the Armed Forces and the businesses that ordinarily employ them are a cornerstone of the United States' successful prosecution of the war on terror, and the Federal Government should take steps to assist businesses that are providing this critical support to the citizen-soldiers among their employees who are away in the military service of the United States;

- (2) the business community deserves the Nation's gratitude for the role it continues to perform in supporting the members of the reserve components of the Armed Forces, their families, and this Nation; and
- (3) the appropriate officials of the Federal Government should carefully review the adverse effects of mobilizations and demobilizations of the reserve components on the community of employers within the United States.

SENATE RESOLUTION 48—EX-PRESSING THE SENSE OF THE SENATE REGARDING TRAF-FICKING IN PERSONS

Mr. LUGAR submitted the following resolution; which was referred to the Committee on Foreign Relations:

#### S. RES. 48

Whereas an estimated 600,000 to 800,000 people are trafficked annually;

Whereas approximately 70 percent of trafficked persons are female and 50 percent are children:

Whereas approximately 250,000 people are trafficked in, out, and through the South East Asia region each year:

Whereas the tsunami that struck South East Asia, South Asia, and East Africa on December 26, 2004, killed more than 160,000 people, affected 5,000,000 people, and left an estimated 35,000 children orphaned;

Whereas these orphaned children are particularly vulnerable to being trafficked for sexual exploitation, forced labor, or to be child soldiers:

Whereas governments of countries affected by the earthquake and tsunami in the Indian Ocean have taken measures to prevent the trafficking of children and other vulnerable persons:

Whereas President Susilo Bambang Yudhyono of Indonesia has ordered that immigration and police officers not allow children from Aceh to be removed from the country:

Whereas Prime Minister Abdullah Badawi of Malaysia undertook measures to prevent child trafficking by directing immigration enforcement officials at entry points in Malaysia to be on the alert for child trafficking and by imposing a temporary ban on the adoption of foreign children;

Whereas, in India, the State Government of Tamil Nadu opened shelters to protect orphaned or separated children and pledged that it would provide orphans of the tsunami support and education:

Whereas the Royal Thai Government has placed all tsunami orphans in that country in the protective custody of extended family members and has awarded boarding school scholarships to children affected by the tsunami:

Whereas, in Sri Lanka, the National Child Protection Authority (NCPA), UNICEF, and nongovernmental organizations have mobilized teams to identify and register all children who have been separated from their immediate families;

Whereas the United Nations Convention Against Transnational Organized Crime (hereafter in this resolution referred to as the "Organized Crime Convention") and the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, a protocol to the Organized Crime Convention (hereafter in this resolution referred to as the "Trafficking Protocol"), require countries to enact laws to criminalize trafficking in persons, punish traffickers, and assist victims;

Whereas the United States, on December 13, 2000, signed, but has not yet ratified, the

Organized Crime Convention and the Trafficking Protocol;

Whereas ratification by the United States of the Organized Crime Convention and the Trafficking Protocol would enhance the ability of the United States Government to render and receive assistance on a global basis in the common struggle to prevent, investigate, and prosecute trafficking in persons; and

Whereas, like the United States, most countries affected by the tsunami disaster have signed, but not yet ratified, the Organized Crime Convention and the Trafficking Protocol: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) combating trafficking in persons should continue to be a priority of United States foreign policy:

(2) the United States should ratify the United Nations Convention Against Transnational Organized Crime and the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children:

(3) the President should commend the efforts of the governments of those countries affected by the December 26, 2004, tsunami to protect their children from the dangers of trafficking; and

(4) the President should urge all countries to ratify the United Nations Convention Against Transnational Organized Crime and the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, particularly those countries that have been most affected by the tsunami and in which children face the resulting increased risk of being abducted and trafficked.

Mr. LUGAR. Mr. President, I rise to submit a resolution expressing the Sense of the Senate regarding the trafficking in children following the Asian tsunami.

The recent tsunami in the Indian Ocean region was a natural disaster unlike anything in recent human history. It is estimated that the tsunami claimed the lives of more than 160,000 people throughout the region and displaced more than 1 million.

This disaster has taken an incredible toll on children. The United Nations Children Fund, UNICEF, estimates that children comprise more than one-third of all deaths. Tens of thousands of children have lost family members and friends and are coping with unspeakable trauma. Nearly 35,000 children have been orphaned, and many more have been separated from their families. These children are in need of food, water, and shelter. They face the imminent threats of hunger, disease, and diarrhea.

In addition to these dangers, these children are also vulnerable to being trafficked for sexual exploitation, forced labor, or to be child soldiers. According to the Office to Monitor and Combat Trafficking in Persons at the Department of State, an estimated 600,000 to 800,000 people are trafficked every year, some 50 percent of whom are children. In South East Asia alone, nearly 250,000 people are trafficked in, out, and through the region. Without their families, the children orphaned by the tsunami lack protection from predators who would profit from their tragedy.

My resolution acknowledges this uniquely vulnerable group and urges the United States and other countries to ratify the Protocol to Prevent. Suppress and Punish Trafficking in Persons, Especially Women and Children and the underlying U.N. Convention Transnational Organized Against Crime. The Protocol requires countries to enact laws to criminalize trafficking in persons, punish traffickers and assist victims. In addition, the Protocol would enhance our ability to give and receive assistance on a global basis in the common struggle to prevent, investigate and prosecute trafficking.

On December 13, 2000, the United signed these international States agreements. Last June, the Senate Committee on Foreign Relations held a hearing on these very important law enforcement treaties. At the earliest opportunity, I intend to schedule a vote on the Convention Against Transnational Organized Crime and the Protocol to Prevent, Suppress and Punish Trafficking in Persons at a business meeting of the Committee. By ratifying the Trafficking Protocol, and urging other countries to do the same, we would send a strong message to the world that this modern-day form of slavery must be stopped and that the United States is committed to ensuring that perpetrators are punished and that victims are helped.

### AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. HATCH. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on February 10, 2005, at 9:30 a.m., in open session to receive testimony on the defense authorization request for fiscal year 2006 and the future years defense program.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. HATCH. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on February 10, 2005, at 10:00 a.m., to conduct a hearing on "The Role of the Government-Sponsored Enterprises in the Mortgage Market."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. HATCH. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Thursday, February 10, 2005, at 9:30 a.m., to hold a hearing on the Tsunami.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. HATCH. Mr. President, I ask unanimous consent that the Com-

mittee on the Judiciary be authorized to meet to conduct a hearing on Thursday, February 10, 2005 at 10:15 a.m. on "Bankruptcy Reform." The hearing will take place in the Dirksen Senate Office Building Room 226.

Witness List

Mr. Kenneth Beine, President & CEO, Shoreline Credit Union, Two Rivers, WI; Mr. Malcom Bennett, President, International Realty & Investments, Inc., Los Angeles, CA; Mr. Dave McCall, Director, District 1, United Steel Workers of America, AFL-CIO, Columbus, OH; Mr. R. Michael Stewart Menzies, Sr., President & CEO, East Bank and Trust Company, Easton, MD; Mr. Philip Strauss, Retired Attorney, Family Support Bureau in the Office. District Attorney Office in San Francisco, on behalf of the National Child Support Enforcement Association, San Francisco, CA; Ms. Maria Vullo, Partner, Paul, Weiss, Rifkind, Wharton & Garrison LLP, New York, NY; Prof. Elizabeth Warren, Leo Gottlieb Professor of Law, Harvard Law School, Cambridge, MA; and Prof. Todd J. Zywicki, Visiting Professor of Law, Georgetown University Law Center, Washington, DC.

SUBCOMMITTEE ON OVERSIGHT OF GOVERNMENT MANAGEMENT, THE FEDERAL WORKFORCE, AND THE DISTRICT OF COLUMBIA

Mr. HATCH. Mr. President, I ask unanimous consent that the Subcommittee on Oversight of Government Management, the Federal Workforce, and the District of Columbia be authorized to meet on Thursday, February 10, 2005 at 10:00 a.m. for a hearing entitled, "Unlocking the Potential within Homeland Security; the New Human Resources System."

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. HATCH. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on February 10, 2005 at 2:30 p.m. to hold a closed meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PRIVILEGE OF THE FLOOR

Mr. LIEBERMAN. Mr. President, I ask unanimous consent that privilege of the floor be granted to Joe Helble and Lydia Olander, both science fellows in my office, during consideration of the Climate Stewardship Act of 2005.

The PRESIDING OFFICER. Without objection, it is so ordered.

## NATIONAL SCHOOL COUNSELING WEEK

Mr. FRIST. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. Res. 37, and that the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 37) designating the week of February 7 through February 11, 2005, as "National School Counseling Week".

There being no objection, the Senate proceeded to consider the resolution.

Mr. FRIST. I ask unanimous consent that the resolution and preamble be agreed to en bloc, the motion to reconsider be laid on the table, that any statement relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 37) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 37

Whereas the American School Counselor Association has declared the week of February 7 through February 11, 2005, as "National School Counseling Week";

Whereas the Senate has recognized the importance of school counseling through the inclusion of elementary and secondary school counseling programs in the reauthorization of the Elementary and Secondary Education Act of 1965;

Whereas school counselors have long advocated that the education system of the United States must leave no child behind and must provide opportunities for every student:

Whereas personal and social growth results in increased academic achievement:

Whereas school counselors help develop well-rounded students by guiding them through their academic, personal, social, and career development:

Whereas school counselors were instrumental in helping students, teachers, and parents deal with the trauma of terrorism inflicted on the United States on September 11, 2001, and the aftermath of that trauma:

Whereas students face myriad challenges every day, including peer pressure, depression, and school violence;

Whereas school counselors are usually the only professionals in a school building that are trained in both education and mental health:

Whereas the roles and responsibilities of school counselors are often misunderstood, and the school counselor position is often among the first to be eliminated in order to meet budgetary constraints;

Whereas the national average ratio of students to school counselors of 485-to-1 is more than double the 250-to-1 ratio recommended by the American School Counselor Association, the American Medical Association, the American Psychological Association, and other organizations; and

Whereas the celebration of "National School Counseling Week" would increase awareness of the important and necessary role school counselors play in the lives of students in the United States: Now, therefore, be it

## Résolved, SECTION 1. DESIGNATION OF NATIONAL SCHOOL COUNSELING WEEK.

(a) SENSE OF THE SENATE.—It is the sense of the Senate that the President should designate the week of February 7 through February 11, 2005, as "National School Counseling Week".

(b) PROCLAMATION.—The Senate requests the President to issue a proclamation—

(1) designating the week of February 7 through February 11, 2005, as "National School Counseling Week"; and

(2) calling on the people of the United States and interested groups to observe the week with appropriate ceremonies and activities that promote awareness of the role school counselors perform in the school and the community at large to prepare students for fulfilling lives as contributing members of society.

#### APPOINTMENTS

The PRESIDING OFFICER. The Chair, on behalf of the President pro tempore, and upon the recommendation of the majority leader, pursuant to Public Law 96-388, as amended by Public Law 97-84, and Public Law 106-292, appoints the following Senators to the United States Holocaust Memorial Council for the 109th Congress: The Senator from Utah, Mr. HATCH; the Senator from Maine, Ms. COLLINS; the Senator from Minnesota, Mr. COLEMAN.

The Chair, on behalf of the President pro tempore, pursuant to Public Law 106–398, as amended by Public Law 108–7, in accordance with the qualifications specified under section 1238(b)(3)(E) of Public Law 106–398, and upon the recommendation of the majority leader, in consultation with the chairmen of the Senate Committee on Armed Services and the Senate Committee on Finance, appoints the following individual to the United States-China Economic Security Review Commission: Mr. Thomas Donnelly of Maryland for a term expiring December 31, 2006.

#### EXECUTIVE SESSION

#### EXECUTIVE CALENDAR

Mr. FRIST. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nomination on the calendar: Calendar No. 9, Allen Weinstein, to be Archivist of the United States. I further ask unanimous consent that the nomination be confirmed, the motion to reconsider be laid on the table, the President be immediately notified of the Senate's action, and the Senate then resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

NATIONAL ARCHIVES AND RECORDS  ${\rm ADMINISTRATION}$ 

Allen Weinstein, of Maryland, to be Archivist of the United States.  $\,$ 

#### LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

#### UNANIMOUS CONSENT AGREE-MENT—EXECUTIVE CALENDAR

Mr. FRIST. Mr. President, I ask unanimous consent that on Monday, February 14, at 12 noon, the Senate proceed to executive session to con-

sider the nomination of Michael Chertoff to be Secretary of Homeland Security; that the nomination be debated for up to 6 hours equally divided on Monday; that the Senate resume debate on the nomination on Tuesday; February 15, at 2:15 p.m., with the time prior to 4 p.m. to be equally divided and that the Senate vote on the nomination at 4 p.m. on Tuesday; that the President be immediately notified of the Senate's action; and the Senate then return to legislative session; further, that all time be equally divided between the two leaders or their designees.

Mr. DURBIN. Mr. President, on our side, on Monday I designate Senator Levin to control 2 hours, Senator Dodd to control 20 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ORDERS FOR MONDAY, FEBRUARY 14, 2005

Mr. FRIST. I ask unanimous consent that when the Senate completes its business today, it adjourn until 12 noon on Monday, February 14. I further ask that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved, and the Senate then proceed to executive session for the consideration of the nomination of Michael Chertoff to be Secretary of Homeland Security, as provided under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PROGRAM

Mr. FRIST. On Monday at noon the Senate will begin consideration of the Chertoff nomination for Secretary of Homeland Security. Under the agreement, we will debate the nomination throughout the afternoon on Monday, with the vote on confirmation at 4 p.m. during Tuesday's session. Therefore, as I announced earlier, there will be no rollcall votes on Monday.

For the remainder of next week we will consider any legislative or executive business available for action.

Mr. President, I do thank our colleagues, once again, for the participation and the efficiency with which we had the Senate consider the Class Action Fairness Act which was finally voted upon now several hours ago. People worked together very well, and I think it does bode well for bills that come to the floor in this manner in the future.

## ADJOURNMENT UNTIL MONDAY, FEBRUARY 14, 2005

Mr. FRIST. If there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 4:57 p.m., adjourned until Monday, February 14, 2005, at 12 noon.

#### NOMINATIONS

Executive nomination received by the Senate February 10, 2005:

DEPARTMENT OF STATE

ROBERT B. ZOELLICK, OF VIRGINIA, TO BE DEPUTY SECRETARY OF STATE, VICE RICHARD LEE ARMITAGE, RESIGNED.

#### CONFIRMATION

Executive nomination confirmed by the Senate Thursday, February 10, 2005:

NATIONAL ARCHIVES AND RECORDS  ${\tt ADMINISTRATION}$ 

ALLEN WEINSTEIN, OF MARYLAND, TO BE ARCHIVIST OF THE UNITED STATES.

OF THE UNITED STATES.
THE ABOVE NOMINATION WAS APPROVED SUBJECT TO THE NOMINEE'S COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

### EXTENSIONS OF REMARKS

ADDRESS OF PROFESSOR ELIE WIESEL AT THE SPECIAL SESSION OF THE UNITED NATIONS GENERAL ASSEMBLY COMMEMORATING THE 60TH ANNIVERSARY OF THE LIBERATION OF NAZI DEATH CAMPS

#### HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. LANTOS. Mr. Speaker, on January 24 of this year, the United Nations General Assembly commemorated the 60th anniversary of the liberation of Nazi death camps. January 27, 1945, was the date on which Russian troops liberated Auschwitz, the most notorious of the death camps, and the symbol of the Holocaust, in which over 6 million Jews and hundreds of thousands of other nationalities were brutally murdered during World War II.

Most of those individuals who spoke on this solemn and somber occasion were high government officials representing the United Nations or its member countries, but one of the most important and thoughtful speeches was given by Elie Wiesel, who like me is an American citizen by choice. He was welcomed to this incredibly generous nation as the American people reached out to those who were the victims of Nazi brutality, and our country has been enriched many times over by his talents and genius.

Probably more than any other individual, my friend Elie Wiesel has given more serious thought and scholarly attention to how in the twentieth century a civilized nation such as Germany could execute in a brutal and mechanically efficient fashion over six million human beings. He has not only probed why, but he has also focused on the question of why and how we must prevent such violence and evil again.

Mr. Speaker, Elie Wiesel has contributed a great deal to our nation as a professor and scholar, and as a man of action as the Founding Chair of the United States Holocaust Memorial Council. The U.S. Holocaust Museum just a few blocks from this Capitol Building is an enduring testament to his vision, his understanding, and his commitment.

I ask, Mr. Speaker, that the outstanding address of Professor Elie Wiesel be placed in the CONGRESSIONAL RECORD, and I urge my colleagues to read his thoughtful remarks.

Address of Professor Elie Wiesel

Mr. President of the General Assembly, Mr. Secretary General my friend, excellencies: The man who stands before you this morning feels deeply privileged. A teacher and a writer, he speaks and writes as a witness to a crime committed in the heart of European Christendom and civilization by a brutal dictatorial regime—a crime of unprecedented cruelty in which all segments of government participated.

When speaking about that era of darkness, the witness encounters difficulties. His words become obstacles rather than vehicles;

he writes not with words but against words. For there are no words to describe what the victims felt when death was the norm and life a miracle. Still whether you know it or not. his memory is a part of yours.

I speak to you as a son of an ancient people, the only people of Antiquity to have survived Antiquity, the Jewish people which, throughout much of its history, has endured exile and oppression yet has never given up hope of redemption.

As a young adolescent, he saw what no human being should have to see: the triumph of political fascism and ideological hatred for those who are different. He saw multitudes of human beings humiliated, isolated, tormented tortured and murdered. They were overwhelmingly Jews but there were others. And those who committed these crimes were not vulgar underworld thugs but men with high government, academic, industrial and medical positions in Germany. In recent years, that nation has become a true democracy. But the question remains open: In those dark years, what motivated so many brilliant and committed public servants to invent such horrors? By its scope and magnitude, by its sheer weight of numbers. by the impact of so much humiliation and pain, in spite of being the most documented tragedy in the annals of history, Auschwitz still defies language and understanding.

Let me evoke those times: Babies used as target practice by SS men . . . adolescents condemned never to grow old . . . parents watching their children thrown into burning pits . . . immense solitude engulfing an entire people . . . infinite despair haunting our days and our dreams even sixty years later.

When did what we so poorly call the Holocaust begin? In 1938, during Kristallnacht? In 1939 perhaps, when a German ship, the St. Louis, with more than a thousand German Jewish refugees aboard, was turned back from America's shores? Or was it when the first massacres occurred at Babi Yar?

We still ask: what was Auschwitz? An end or a beginning, an apocalyptic consequence of centuries-old bigotry and hatred, or was it the final convulsion of demonic forces in human nature?

A creation parallel to god's—a world with its own antinomian United Nations of people of different nationalities, traditions, cultures. socio-economic spheres, speaking many languages, clinging to a variety of faiths and memories. They were grown ups or young but inside that world there were no children and no grandparents; they had already perished. As have said many time: not all victims were Jewish, but all Jews were victims. For the first time in recorded history to be born became a crime. Their birth became their death sentence. Correction: Jewish children were condemned to die even before they were born. What the enemy sought to attain was to put an end to Jewish history; what he wanted was a new world implacably, irrevocably devoid of Jews. Hence Treblinka. Belzec, Auschwitz. Ponar. Chelmno and Sobibor: dark factories of death erected for the Final Solution. Killers came there to kill and victims to die.

That was Auschwitz, an executer's ideal of a kingdom of absolute evil and malediction with its princes and beggars, philosophers and theologians, politicians and artists, a place where to lose a piece of bread meant losing life, and a smile from a friend, another day of promise.

At the time, the witness tried to understand; he still does not. How was such calculated evil, such bottomless and pointless cruelty possible? Had Creation gone mad? Had God covered His face? A religious person cannot conceive of Auschwitz either with or without God. But what about man? How could intelligent, educated or simple law abiding citizens fire machine guns at hundreds of children and their parents, and in the evening enjoy a cadence by Schiller, a partita by Bach?

Turning point or watershed, that tremendous catastrophe which has traumatized History has forever changed man's perception of responsibility towards other human beings. The sad, terrible fact is that had the Western nations intervened when Hitler occupied Czechoslovakia and Austria; had America accepted more refugees from Europe; had Britain allowed more Jews to return to their ancestral land; had the Allies bombed the railways leading to Birkenau, our tragedy might have been avoided, its scope surely diminished.

This shameful indifference we must remember, just as we must remember to thank the few heroic individuals who, like Raoul Wallenberg, risked their lives to save Jews. We shall also always remember the Armies that liberated Europe and the soldiers that liberated the death-camps, the Americans in Buchenwald, the Russians in Auschwitz and the British in Belsen. But for many victims they all came too late. That we must also remember

When the American Third Army liberated Buchenwald, there was no joy in our heart: only pain. We did not sing, we did not celebrate. We had just enough strength to recite the Kiddish.

And now, sixty years later, you who represent the entire world community, listen to the words of the witness. Like Jeremiah and Job, we could have cried and cursed the days dominated by injustice and violence. We could have chosen vengeance. We did not. We could have chosen hate. We did not. Hatred is degrading and vengeance demeaning. They are diseases. Their history is dominated by death.

The Jewish witness speaks of his people's suffering as a warning. He sounds the alarm so as to prevent these things being done. He knows for the dead it is too late. But it is not too late for today's children, ours and yours. It is for their sake alone that we bear witness. It is for their sake that we are dutybound to denounce anti-Semitism, racism and religious or ethnic hatred. Those who today preach and practice the cult of death, those who use suicide terrorism, the scourge of this new century, must be tried and condemned for crimes against humanity. Suffering confers no privileges; it is what one does with suffering that matters. Yes, the past is in the present, but the future is still in our hands.

Those who survived Auschwitz advocate hope, not despair; generosity, not rancor or bitterness; gratitude, not violence. We must be enraged, we must reject indifference as an option. Indifference always helps the aggressor, never his victims. And what is memory if not a noble and necessary response to and against indifference?

But . . . will the world ever learn?

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor. Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor. HONORING THE SERVICE OF ELAINE T. VALENTE

#### HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. UDALL of Colorado. Mr. Speaker, I rise today to acknowledge and honor a good friend and a hard-working public servant, Ms. Elaine Valente. Elaine is retiring as a Commissioner for Adams County, Colorado after 16 years of dedicated service.

Commissioner Valente was born and raised in Adams County Colorado. She and her husband Larry own the successful Valente's Deli, are proud parents of two accomplished children, and are passionate community activists.

Elaine's interest in her community began long before assuming her role as County Commissioner. She severed on the Adams County Planning Commission, the city of Westminster Urban Renewal Authority, the Westminster Planning Commission, the Citizen's Evaluation for Retention of Judges, and the School District 50 Superintendent's Parent Advisory Committee.

Her deep passion to give something back to her community and to help improve Colorado is what motivated her to run for County Commissioner in 1988. Elaine was victorious in that election and quickly became an outspoken advocate for Adams County's communities. As Chairman of the Board of County Commissioners she took and interest in many issues affecting her constituency, helping pave the way for future economic development, transportation improvements, air traffic investments and reform of county services. When I was elected to Congress in 1998 I knew that one of my first objectives was to learn as much as I could from Elaine, not only about one of Colorado's fastest growing communities, but also about effective public service.

Elaine is the kind of person who speaks her mind with a blend of honest bluntness and old-school graciousness. As a daughter of Italian-Americans she also established a reputation for leadership on behalf of ethnic minorities.

Mr. Speaker, I ask my colleagues to join me in honoring Ms. Elaine Valente and in wishing her success in all her future endeavors. It has been a true privilege to work with such a remarkable woman.

TRIBUTE TO THE CITY OF WARRENSBURG. MO

#### HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. SKELTON. Mr. Speaker, let me take this opportunity to congratulate and pay tribute to the city of Warrensburg, Missouri, which will celebrate its 150th birthday this year.

Warrensburg, Missouri, was incorporated as a town in 1855, after being settled by local farmers and a blacksmith named Martin Warren. Mr. Warren had a blacksmith shop which served as an informal gathering place for the local farmers. Mr. Warren's shop was named the county seat of the newly created County of Johnson. The township was named Warren's Burg, in honor of the blacksmith.

Warrensburg citizens have many reasons to be proud of their city. One of these reasons is the city's excellent school system. With an enrollment of 3,200 students, the district is accredited with Distinction in Performance by the Missouri State Board of Education. Also, the city is home to Central Missouri State University, which has provided fine post secondary education for more than 130 years.

Warrensburg also is home to many prominent businesses and organizations. EnerSys, GE Transportation Systems, Swisher Mower, Sigma Tau Gamma Fraternity world head-quarters and Carlyle Van Lines have all thrived in the city, and there are countless other businesses—small and large—that contribute to the economic well being of Warrensburg.

Mr. Speaker, I wish to extend my congratulations to the citizens of Warrensburg, Missouri, for this outstanding accomplishment. I know all the Members of Congress will join me in paying tribute to a great American city.

CONDEMNING THE COMMENTS OF LIEUTENANT GENERAL JAMES MATTIS

#### HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. STARK. Mr. Speaker, last week, United States Marine Corps LTG James Mattis made public comments that were unbecoming of a military officer. As quoted in numerous newspaper articles and media broadcasts, Lieutenant General Mattis told a San Diego, California audience of 200 civilians that "It's fun to shoot some people." Referencing combatants in Afghanistan he added, "You know, guys like that ain't got no manhood left anyway. So it's a hell of a lot of fun to shoot them."

Lieutenant General Mattis has no doubt served his country with courage and distinction as an officer in the U.S. Marine Corps. It is, nonetheless, inexcusable that, as a high-ranking officer of the U.S. military, he would make these callous and insensitive remarks that denigrate the value of human life.

Furthermore, comments of this nature reinforce negative perceptions of U.S. military actions abroad and have the potential to incite greater animosity toward our troops. The price to be paid for this irresponsible conduct cannot be exaggerated given the vital role support from the Iraqi people and the international community is to the success of ongoing operations in Iraq.

ations in Iraq.

The U.S. Marine Corps Commandant has said that he has counseled Lieutenant General Mattis with regard to his comments. However, it is incumbent on our military's leadership to ensure that this behavior is not repeated on the part of Lieutenant General Mattis or any other military officer in the future.

It is critically important that a clear and resounding message is sent that this type of conduct will not be tolerated in the United States military. It is wholly inconsistent with the values we hold dear as Americans.

Mr. Speaker, it is hard enough in this day and age to protect my 9-year-old-son—or any child—from graphic violence rife in popular video games, which demean the value of human life and portray killing as just a game—

an act without moral consequence. I suppose they make war look like fun, but tell that to the over 10,000 Americans who've been critically wounded or the families of the nearly 1,500 Americans who gave their lives in Iraq.

Now, we have a general from the field saying how fun it is to shoot people. I think that's wrong, its despicable, it's an unconscionable message to be telling our children.

It is time to put a stop to this unnecessary, obscene war in Iraq and the obscenities of generals like James Mattis, both of which demean and denigrate the moral fabric of our country.

HONORING CATHOLIC SCHOOLS

SPEECH OF

#### HON. JOE BACA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES  $Tuesday,\ February\ 1,\ 2005$ 

Mr. BACA. Mr. Speaker, today, I am pleased that Congress has recognized the important role that Catholic schools play in our community by bringing House Resolution 23 before the House floor.

As a proud Catholic, I know the impact that faith-based education can have in our society and have witnessed it first hand in my district. Schools such as the St. Thomas Aquinas High School in San Bernardino, California, are highly regarded for their academic and athletic excellence, as well as the life-changing opportunities they provide to their students.

Under the leadership of Bishop Gerald Barnes, the San Bernardino Diocese school system has invested in the future of our children by providing them the educational tools to succeed

Catholic schools in our Nation's education have been paramount in teaching the values that we as parents seek to instill in our children.

They are sources of goodwill and arbiters of moral values, providing strong foundations for young people. Their curriculums are often full of programs in character development and community service.

Catholic school graduates exhibit a wide variety of qualities that will not only help them in their careers but also in their family and community lives.

It gives me no greater pleasure than to support this resolution today honoring the contributions of Catholic schools and I commend Congressman KENNEDY for his sponsorship.

I also ask and pray for the quick recovery of Pope John Paul II, so that he may continue to lead the Catholic Church and help oversee the Catholic school system and their good works.

GOALS AND IDEALS OF NATIONAL BLACK HIV/AIDS AWARENESS DAY

SPEECH OF

#### HON. STEVE ISRAEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES
Wednesday, February 9, 2005

Mr. ISRAEL. Mr. Speaker, I rise today in strong support of H. Con. Res. 30, a resolution that recognizes and supports the goals and ideals of National Black HIV/AIDS Awareness Day.

HIV/AIDS impacts the African-American community worse than any other ethnic group in the United States. The Centers for Disease Control and Prevention (CDC) report that African-Americans account for 50 percent of all new HIV infections, which is an incredible number considering only 12 percent of the American population is African-American. The CDC further reported that 69 percent of all children born to infected mothers were African-American. A study conducted by the Kaiser Family Foundation showed that African-Americans accounted for 56 percent of deaths due to HIV in 2002.

Public awareness about HIV/AIDS is vital. National Black HIV/AIDS Awareness Day will help educate the African-American community about the disease, including prevention and treatment. The first annual National Black HIV/AIDS Awareness Day was held on February. 23, 2001. The slogan for the day was "Get Educated, Get Involved and Get Tested." February 7 of each year is now recognized as National Black HIV/AIDS Awareness Day.

I was proud to cosponsor this important resolution that encourages State and local governments, including their public health departments, to publicize the day in African-American Communities and to promote testing. The resolution encourages media organizations to carry messages in support of National Black HIV/AIDS Awareness Day. Most importantly, it encourages enactment of effective HIV prevention programs.

HIV/AIDS is a formidable threat to our African-American communities. However, we can work together to ensure that the public is aware of the ways to prevent transmission of this disease and how individuals can protect themselves. But we can't do this without funding. The Minority AIDS Initiative needs to be fully funded. The Ryan White Comprehensive AIDS Resources Emergency (CARE) Act is authorized through FY2005, so this year we need to ensure that no programs are under funded or dropped altogether.

Mr. Speaker, this resolution will result in increased public awareness. As advocates work together to protect the African-American community, we in Congress need to ensure the Federal Government is doing our job to fund the programs that will halt the spread of HIV/AIDS.

TRIBUTE TO THOMAS ZIPF OF ST. LOUIS, MO

#### HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES  $Thursday,\ February\ 10,\ 2005$ 

Mr. CARNAHAN. Mr. Speaker, my remarks today are to pay tribute to the life of a valued public servant, Mr. Thomas Zipf, of St. Louis, MO.

Mr. Zipf was a valued employee of the City of St. Louis Police Department where he served over 30 years and rose to the rank of Captain. Mr. Zipf was known throughout the force as being dedicated to his job and being driven by his desire to help and protect others.

His love of life and passion for his community live on through his wife, Mary Ann Zipf, and his two children, Kate, and Tom, Jr. His dedication to his job continues with his son, who is also an officer with the City of St. Louis Police Department.

Mr. Speaker, the outpouring of support by family, friends, and the community made it evident to all what an extraordinary person and public servant Mr. Zipf was. His wife and two children are a great testament to his life and vision. My prayers are with his family, friends, and community today, as we honor his life.

 $\begin{array}{c} \text{HONORING ALVIN F. POUSSAINT,} \\ \text{M.D.} \end{array}$ 

#### HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Ms. LEE. Mr. Speaker, Mr. Frank of Massachusetts, Mr. McGovern, Mr. Capuano, Mr. Delahunt, and I rise today to honor the extraordinary achievements and contributions of Dr. Alvin F. Poussaint of Boston, Massachusetts. Dr. Poussaint has devoted his professional life to the eradication of racism in American society, and is one of the foremost experts in the world today on the topics of race relations, prejudice and diversity, and is also a world-renowned child psychologist.

Dr. Poussaint, who was born in East Harlem, New York, on May 15, 1934, completed his undergraduate studies at Columbia University before receiving his M.D. from Cornell in 1960. He went on to do postgraduate work at the UCLA Neuropsychiatric Institute, where he served as Chief Resident in Psychiatry in 1964–65.

Inspired by the burgeoning Civil Rights movement in the South, Dr. Poussaint chose to take a job as the Southern Field Director of the Medical Committee for Human Rights in Jackson, Mississippi, a position he held from 1965–67. In that role, he courageously worked to provide medical care to civil rights workers and fought for the desegregation of health facilities throughout the South.

Dr. Poussaint was influential in the founding of Operation PUSH (People United to Save Humanity) and served as the Chairman of its Board of Directors. Operation PUSH, which has since merged with the National Rainbow Coalition to form the Rainbow/PUSH Coalition, has been a significant force in the struggle for racial equality in America, registering hundreds of thousands of voters across the country, assisting in the election of hundreds of local, state and national leaders and lobbying for increased representation of minorities in many industries.

As one of the nation's preeminent psychiatrists and experts on race relations, Dr. Poussaint has authored the books Why Blacks Kill Blacks (1972), Raising Black Children (1992, with Dr. J.P. Comer) and Lay My Burden Down (2000, with Amy Alexander). His most recognizable work includes contributing articles to Ebony magazine, and acting as a consultant for several television projects, including The Cosby Show.

On Saturday, February 12, 2004, Dr. Poussaint will be honored in Boston, Massachusetts for his wide-ranging contributions to the fields of civil rights, mental health, social justice and the needs of children. I would like to take this opportunity to extend my own heartfelt thanks and congratulations to him for his many years of tireless work for the enrichment of our society. The dedication, intelligence and compassion he brings to his work

have helped him to touch countless lives, and we salute him for his invaluable contributions. Dr. Poussaint's work has been a credit to our country and, indeed, the entire world.

SENSE OF THE CONGRESS RESO-LUTION THAT THE UNITED STATES SHOULD NOT RATIFY THE LAW OF THE SEA TREATY

#### HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. PAUL. Mr. Speaker, I rise to introduce a Resolution expressing the Sense of the Congress that the United States should not ratify the Law of the Sea Treaty ("LOST").

The Law of the Sea Treaty was conceived in the early 1970s by the "New International Economic Order," a United Nations political movement designed to transfer wealth and technology from the industrial nations to communist and undeveloped nations. President Ronald Reagan recognized the threat this treaty would pose to America's sovereignty and economic interests and rightly rejected the Treaty in 1982.

Treaty proponents acted again in the 1990s, offering a separate "Agreement" that purported to amend the Treaty. This "corrected treaty" was also deemed unacceptable by the Senate Foreign Relations Committee in 1994. Now we are once again facing a terribly flawed treaty that will hand over more of our sovereignty to a corrupt United Nations—just at a time when the extent of the United Nations' corruption is becoming more evident through the oil for food scandal in Iraq.

What is specifically wrong with the Law of the Sea Treaty?

The Law of the Sea Treaty will deem the oceans of the Earth as the "Common Heritage of Mankind." The Treaty dictates that oceanic resources should be shared among all mankind. The effect of this will be U.N. control over the world's seabeds—a full 70 percent of the earth's surface.

The Law of the Sea Treaty will also create, for the first time in history, an international body with the authority to collect taxes from American citizens. It is truly a U.N. global tax. This will come about as a fee on private enterprise and nation states from seabed mining, offshore oil platforms, and other raw material recovery activities. These fees will first be paid by the governments of the signatory states, which will then have the burden of collecting the monies back from the private enterprises engaged in seabed mining activities.

This treaty will create a Law of the Sea Tribunal, which will claim—and already has claimed—jurisdiction over the onshore as well as within the territorial sea or economic zones of coastal nations. This U.N. Tribunal could very well rule in a manner contrary to U.S. military, counterterrorism, and commercial interests.

Mr. Speaker, the Law of the Sea Treaty is a perfect example of "taxation without representation" that our Founding Fathers rebelled against. We should under no circumstances surrender one bit of American sovereignty or treasure to the United Nations or any other global body. I hope my colleagues will join me by co-sponsoring this

Sense of the Congress legislation and defeating this destructive treaty.

HONORING 30 YEARS OF DISTINGUISHED SERVICE

#### HON. LINCOLN DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. DAVIS of Tennessee. Mr. Speaker, after 30 years of dedicated and distinguished federal service, Betty Loy will be retiring from the Centers for Disease Control and Prevention. During that time she supported six CDC Directors and seven Deputy Directors.

Beginning her career in the federal government with the Atomic Energy Commission in Oak Ridge, Tennessee, Loy later came to CDC's Office of Director as a part-time employee. Following the resignation of Director Dr. Bill Foege (1977–1983), Loy was asked to work in the Director's office till a new Director was designated and staff were selected. Having enjoyed her part-time position in the Director's office Betty applied for the full-time position, and was subsequently selected.

In June 2002, after nearly two decades of service as the Special Assistant to the Director, Betty left to become a Management and Program Analyst working as the liaison with partner organizations and visitors.

It is safe to say Loy has been the voice and face of CDC to a who's who of public health leaders, Atlanta community leaders, Congressional dignitaries, distinguished visitors and even TV and movie stars. She is virtually a walking, talking history book of CDC.

Betty has said of her job, "I've been privileged to work for some of the best people ever." Well, Betty, the same could be said about you. Former CDC Director, James Mason, MPH, MD, said the feeling is mutual, "Betty Loy, rightfully referred to as 'CDC's Ultimate Ambassador' will leave a lonely gap at CDC. Her skills, competence, in-depth, knowledge, perspective and warm pleasant personality made her a valuable partner to me and a series of other CDC Directors and Deputies."

In retirement, Betty plans to travel, spend time with friends, family, her children and grandchildren, and work on family genealogy. We wish Betty all the best in her future endeavors and thank her for years of service to our Nation.

 $\begin{array}{c} \text{HONORING THE SERVICE OF TED} \\ \text{STRICKLAND} \end{array}$ 

#### HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. UDALL of Colorado. Mr. Speaker, I rise today to acknowledge and honor Mr. Ted Strickland, outgoing Commissioner for Adams County, Colorado.

In the last 5 years I have appreciated working with the Board of Adams County Commissioners, and I have found Commissioner Strickland to be a good source of wisdom and experience. I certainly wish him well on his retirement.

Commissioner Strickland was born and raised in Austin, Texas. After serving in the military he came to Colorado. Ted began a successful career in the oil and gas industry, becoming Vice President of Petroleum Information.

Feeling drawn toward public service, Ted ran for election to the Colorado House of Representatives. He served 2 years in the House before being elected to the Colorado State Senate, where he served as Senate President and later as a candidate for Governor in 1986.

Ted's obvious passion for public service led him to run for Adams County Commissioner in 1996. Once on the Commission he continued his hard work for those he represented. He served on the E–470 Public Highway Authority Board, the Front Range Airport Authority Board, the Adams County Economic Development Board, the Adams County Water Quality Association, and on the Denver Regional Council of Governments. With such a wide scope of reach, Commissioner Strickland has left an important legacy in Colorado.

Mr. Speaker, I ask my colleagues to join me in honoring Mr. Ted Strickland and in wishing him well on his retirement from local government

TRIBUTE TO LEGION POST COMMANDER, KEN WOLTERS

#### HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. SKELTON. Mr. Speaker, one doesn't have to look very far from home to find an excellent example of patriotism. Ken Wolters, of Jefferson City, Missouri, is the commander of American Legion Post 5. In late January, he left home for up to 18 months of active duty in Iraq with the Missouri National Guard's 1035th Maintenance Company.

Wolters has been a National Guardsman for 39 years and a Legion member for 34 years. A sergeant first class, Wolters is an automotive technician with the unit. He also has worked full-time as an armament inspector at the Missouri National Guard headquarters, and has been activated for state power outages and the Missouri River flood in 1993, but this is his first federal duty. The unknowns don't bother Wolters because years of training and a reliable unit give him confidence, he said.

As Ken Wolters begins his active duty in Iraq, he will continue to serve our country with great distinction. Mr. Speaker, I know the Members of the House will join me in thanking Ken for his dedicated service and in wishing him all the best in the days ahead.

THE SAFE NURSING AND PATIENT CARE ACT

#### HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. STARK. Mr. Speaker, I rise to introduce the Safe Nursing and Patient Act with Rep. STEVEN LATOURETTE (R-OH). Assuring quality medical care and addressing our nursing shortage should not divide us on partisan

lines. That's why I'm especially pleased to be working across the aisle with my friend from Ohio, Mr. LATOURETTE, in this important endeavor. Senator KENNEDY is introducing the companion legislation in the Senate.

There are some 500,000 trained nurses in this country who are not working in their profession. Of course, their reasons for leaving nursing are many. But nurses consistently cite their concerns about the quality of care they feel that are able to provide in many health care settings today. Nurses are also greatly concerned about being forced to work mandatory overtime

Listen to these words of a nurse in the state of Washington:

I have been a nurse for six years and most of the time I have worked in the hospital environment. It is difficult to tell you how terrible it is to "work scared" all the time. A mistake that I might make could easily cost someone their life and ruin mine. Every night at work we routinely "face the clock." All of us do without lunch and breaks and work overtime, often without pay, to ensure continuity of care for our patients. Yet, we are constantly asked to do more. It has become the norm for us to have patient assignments two and a half times greater than the staffing guidelines established by the hospital itself. I cannot continue to participate in this unsafe and irresponsible practice. So I am leaving, not because I don't love being a nurse, but because hospitals are not safe places: not for patients and not for nurses.

While stories like this are telling, we also have a growing body of research to back up the anecdotes. Premier among these studies is a comprehensive report issued by the Institute of Medicine in November 2003 entitled. "Keeping Patients Safe, Transforming the Work Environment of Nurses." Highlighting their concern with regard to this issue, the IOM headline for their release of the report "Substantial Changes Required in was. Nurses' Work Environment to Protect Patients from Health Care Errors." Within the report, they concluded that "limiting the number of hours worked per day and consecutive days of work by nursing staff, as is done in other safety-sensitive industries, is a fundamental safety precaution." The report went on to specifically recommend that "working more than 12 hours in any 24-hour period and more than 60 hours in any 7-day period be prevented except in case of an emergency, such as a natural disaster."

Another study published in the July/August 2004 Health Affairs Journal, "The Working Hours of Hospital Staff Nurses and Patient Safety," found that nurses who worked shifts of twelve and a half hours or more were three times more likely to commit an error than nurses who worked eight and a half hours (a standard shift) or less. The study also found that working overtime increased the odds of making at least one error, regardless of how long the shift was originally scheduled. Finally, this article illustrates how nurses are being forced to work more and more overtime. The majority of nurses surveyed reported working overtime ten or more times in a twenty-eight day period and one-sixth reported working sixteen or more consecutive hours at least once during the period. Nurses reported being mandated to work overtime on 360 shifts and on another 143 shifts they described being "coerced" into working voluntary overtime.

As these studies show, the widespread practice of requiring nurses to work extended

shifts and forgo days off causes nurses to frequently provide care in a state of fatigue, contributing to medical errors and other consequences that compromise patient safety. In addition to endangering patients, studies also point to overtime issues as a prime contributing factor to our nation's nursing shortage. For example, a 2001 report by the General Accounting Office, Nursing Workforce: Emerging Nurse Shortages Due to Multiple Factors, concluded:

[T]he current high levels of job dissatisfaction among nurses may also play a crucial role in determining the extent of current and future nurse shortages. Efforts undertaken to improve the workplace environment may both reduce the likelihood of nurses leaving the field and encourage more young people to enter the nursing profession . . .

We have the voices of nurses and the research evidence to prove that the practice of requiring nurses to work beyond the point they believe is safe is jeopardizing the quality of care patients receive. It is also contributing to the growing nurse shortage. Current projections are that the nurse workforce in 2020 will have fallen 20 percent below the level necessary to meet demand.

We have existing federal government standards that limit the hours that pilots, flight attendants, truck drivers, railroad engineers and other professions can safely work before consumer safety is endangered. However, no similar limitation currently exists for our nation's nurses who are caring for us at often the most vulnerable times in our lives.

The Safe Nursing and Patient Care Act would change that. It would set strict, new federal limits on the ability of health facilities to require mandatory overtime from nurses. Nurses would be allowed to continue to volunteer for overtime if and when they feel they can continue to provide safe, quality care. But, forced mandatory overtime would only be allowed when an official state of emergency was declared by federal, state or local government. These limits would be part of Medicare's provider agreements. They would not apply to nursing homes since alternative staffing and quality measures are already moving forward for those facilities.

To assure compliance, the bill provides HHS with the authority to investigate complaints from nurses about violations. It also grants HHS the power to issue civil monetary penalties of up to \$10,000 for violations of the act and to increase those fines for patterns of violations.

Providers would be required to post notices explaining these new rights and to post nurse schedules in prominent workplace locations. Nurses would also obtain anti-discrimination protections against employers who continued to force work hours for nurses beyond what a nurse believes is safe for quality care. Providers found to have violated the law would be posted on Medicare's website.

Often the states are ahead of the federal government when it comes to pinpointing problems that need to be addressed. It is worth noting that many states are considering such laws to strictly limit the use of mandatory nurse overtime. Several states—including California, Connecticut, Maine, Maryland, Minnesota, New Jersey, Oregon, Washington and West Virginia—have already passed laws or regulations limiting the practice.

This bill is an important first step, but it isn't the complete solution. I believe that standards

must be developed to define timeframes for safe nursing care within the wide variety of health settings (whether such overtime is mandatory or voluntary). That is why the legislation also requires the Agency on Healthcare Research and Quality to report back to Congress with recommendations for developing overall standards to protect patient safety in nursing care. Once we have better data in that regard, I will support broader limitations on all types of overtime. But, we must not wait to act until that data can be developed. The data collection will take years and the crisis of mandatory overtime is upon us now.

I know that our nations hospital trade associations will claim that my solution misses the mark because it is precisely the lack of nurses in the profession today that is necessitating their need to require mandatory overtime. Let me respond directly. Mandatory overtime is dangerous for patients plain and simple. It is also a driving force for nurses leaving the profession. These twin realities make mandatory overtime a dangerous short-term gamble at best. We should join together to end the practice

Mandatory overtime is a very real problem facing the nursing profession and that is why our bill is endorsed by the American Nurses Association, the AFL-CIO, AFSCME, AFT, SEIU, AFGE, UAW, UAN, and UFCW—organizations that speak for America's nearly 3 million nurses.

Again, our bill is not the sole solution. I supported the Nurse Reinvestment Act, which was passed by Congress and signed into law in August 2002. That legislation authorizes new federal investment and initiatives to increase the number of people pursuing a nursing education. Such efforts will help in the future, but it will be years before that law's impact is felt in our medical system. And, it will take even longer if the President and Republicans in Congress continue to withhold the funding necessary for the act to be fully implemented.

We need to help now. We must take steps to improve the nursing profession immediately so that today's nurses will remain in the field to care for those of us who need such care before new nurses can be trained. We also need today's nurses to be there as mentors for the nurses of tomorrow.

Mandatory nurse overtime is a very real quality of care issue for our health system and I look forward to working with my colleagues enact the Safe Nursing and Patient Care Act. It will start us down the right path toward protecting patients and encouraging people to remain in—and enter—the nursing profession.

HONORING THE LIFE AND ACCOMPLISHMENTS OF THE LATE OSSIE DAVIS

SPEECH OF

#### HON. JOE BACA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Wednesday, February 9, 2005

Mr. BACA. Mr. Speaker, I rise today to pay my respects to a great civil rights pioneer; a man who provided vital social and political commentary on our nation at a time when it was unwelcome to do so. Above all Ossie Davis was an activist for social equality. He believed vigorously in the tenets on which our nation was founded: freedom, justice, and that all men are indeed created equal.

Ossie Davis passed away last year at the age of 87. With his passing our nation lost not only a leader of the civil rights movement but also one of the preeminent playwrights, authors and actors of the African American community.

Over his 50 years in the entertainment business, Ossie Davis wrote various plays, television shoves and movies, shedding necessary light on the challenges facing the African American community and race relations in the United States.

He was a champion for the disenfranchised, providing a voice for those who could not speak out and inspiration for those seeking a better life. Ossie's theatrical achievements and unabashed commentary on the civil rights movement led to him receiving the Silver Circle Award from the Academy of the Television Arts and Sciences in 1994, the National Medal of Arts in 1995, and the Lifetime Achievement Award from the Screen Actor's Guild in 2000. He was also honored by the Kennedy Center in 2004.

Through his proactive participation in the entertainment industry, Ossie Davis exhibited a deep resolve to highlighting the struggle for equality in the African American community and, in so doing, changed the direction of our nation.

I commend Congressman CONYERS on awarding Ossie Davis this well-deserved medal. His contributions to the African American community and our entire nation should not go overlooked.

HONORING THE RETIREMENT OF SUFFOLK COUNTY COMMIS-SIONER OF FIRE, RESCUE AND EMERGENCY SERVICES ON JANU-ARY 8, 2005

#### HON. STEVE ISRAEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. ISRAEL. Mr. Speaker. I rise today to honor Suffolk County Commissioner of Fire, Rescue and Emergency Services David H. Fischler. Suffolk County has been the beneficiary of Commissioner Fischler's remarkable skill, his dedication to public service and his tremendous leadership all displayed over a distinguished 28-year career devoted to the people of Suffolk County. On January 8, 2005, Commissioner Fischler retired completing a final ten-year tenure as Commissioner. His service will not soon be forgotten; his shoes will not soon be filled; but his legacy of excellence and service will forever last within the Suffolk Fire, Rescue and Emergency Services community.

Commissioner Fischler began his fire service career as a volunteer firefighter with the St. James (NY) Fire Department, where he later served as an Assistant Chief and Chiefof-Department for 8 years. While still serving the St. James Fire Department in a volunteer capacity, Commissioner Fischler began his leadership in the Suffolk County, a county with 1.4 million residents and approximately 12,500 providers in 136 fire and EMS agencies. Commissioner Fischler first served as the county's

Emergency Manager before he began his tenure as Commissioner.

Commissioner Fischler has commanded major incidents, including hurricanes and coastal storms that destroyed 104 homes in 48 hours, the 1995 Wildfires, the 1996 TWA incident, and the county's response in 2001 to the World Trade Center in support of our neighbors in New York City. His skill as a leader, manager and emergency services expert invariably saved lives, property and hard-ship for the people of our community in each of these instances. Most importantly, he ensured professional, timely, organized response in the event of each challenging disaster.

Commissioner Fischler is also a vice-president of the NYS Emergency Management Association, a member of the International Association of Fire Chiefs Terrorism/Homeland Security Committee and has spoken extensively throughout the country. Furthermore, the Commissioner is an attorney and is heavily involved in community activities.

During Commissioner Fischler's distinguished tenure, Suffolk County became the first county in New York State to develop and implement a Hurricane/Coastal Storm Plan and Special Needs Sheltering Program. Additionally, it is believed that Suffolk County became the first municipality in the nation to develop a Mental Health Special Needs Sheltering Program. Finally, Commissioner Fischler's leadership prompted Suffolk County to be the first county in New York State and the greater northeast to be designated "Storm Ready" by the National Weather Service.

Commissioner Fischler has served Suffolk County with the highest degree of professionalism and excellence. I wish to extend a sincere thank you to Commissioner Fischler for his many years of remarkable public service to the people of Suffolk County, for the legacy of excellence he leaves behind for our fire, rescue and emergency services and for his highly capable, selfless and steady leadership during our most trying and dangerous times over the past ten years.

TRIBUTE TO NORMAN B. CHAMP, JR. OF ST. LOUIS, MO

#### HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. CARNAHAN. Mr. Speaker, my remarks today are to pay tribute to the life of Mr. Norman B. Champ, Jr., of St. Louis, MO, husband of Judith Smith Champ.

Mr. Champ's remarkable life took him through ventures in politics, business, farming, and the arts. He spent twenty years as the democratic committeeman for Clayton Township and was a member of the St. Louis County Board of Jail Visitors. His business acumen led him through careers in dairy farming and a trucking equipment company.

He had an undeniable impact on the arts community. He was on the Committee for the Preservation of the White House, was a member of the Missouri Arts Council, and was one of the longest serving members of the National Council of the Arts.

Mr. Speaker, the outpouring of support by family, friends, and the community made it evident to all what an extraordinary person Mr.

Champ was. His wife, children, and grandchildren are a great testament to who he was as a person. My prayers are with his family, friends, and community today, as we honor his life.

HONORING THE 2004 AFRICAN AMERICAN ETHNIC SPORTS HALL OF FAME INDUCTEES

#### HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Ms. LEE. Mr. Speaker, I rise today to honor the inductions of twelve former black Olympians into the African American Ethnic Sports Hall of Fame on July 8, 2004 in Sacramento, California. The honorees were notable not only for their tremendous athletic achievements, but also for the profound social significance these achievements carried.

The Athens Games in 2004 marked the 100th anniversary of the first African American participation in the Olympics, when George Poage earned bronze medals in the 200- and 400-meter hurdles, and Joseph Stadler won a silver medal in the standing high jump in St. Louis in 1904. In the past 100 years, African Americans have produced numerous outstanding Olympic performances, and the July inductees to the African American Ethnic Sports Hall of Fame are responsible for some of the finest.

Of the Hall of Fame's twelve honorees. eleven were track and field athletes, and one was a coach. Alice Coachman-Davis, who was not allowed to participate in organized athletic activities while growing up in the South, became the first African American woman to win a gold medal when she placed first in the high jump at the London Games in 1948. Harrison Dillard won an astounding 82 consecutive 110-meter hurdles races, a record which still stands. Wilbur Ross coached two of the most successful Olympic athletes of all time, Carl Lewis and Michael Johnson. And Tommie Smith and John Carlos, who finished first and third, respectively, in the 200 meters at the 1968 Games in Mexico City, took a courageous stand for social justice in one of the most powerful moments in the history of the Olympics. Other Hall of Fame inductees included Milt Campbell, Herb Douglas, Lee Evans. Edith McGuire-Duvall. Dr. Reginald Pearman, Wyomia Tyus and John Woodruff, all of whom were outstanding track and field athletes.

These inductees' achievements are clearly remarkable in the pure athletic sense, but when placed in their social context, they are even more meaningful. Athletics has played an important role in the broader Civil Rights movement, and the Olympic Arena has provided not only an opportunity for African Americans to prove that they could compete with the rest of the world, but has also served as a forum for making important social and political statements. Today, it is of vital importance that we continue to recognize and pay tribute to these achievements, and that we continue to draw inspiration from them in furthering our own work for equality, justice and peace. On behalf of the Ninth Congressional District, I salute both the African American Ethnic Sports Hall of Fame and its July 2004 inductees for their invaluable contributions to athletics, the United States, and the entire world.

INTRODUCTION OF THE SANITY OF LIFE ACT AND THE TAXPAYER FREEDOM OF CONSCIENCE ACT

#### HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES  $Thursday,\ February\ 10,\ 2005$ 

Mr. PAUL. Mr. Speaker, I rise today to introduce two bills relating to abortion. These bills stop the federal government from promoting abortion. My bills accomplish this goal by prohibiting federal funds from being used for population control or "family planning" through exercising Congress's constitutional power to restrict federal court's jurisdiction by restoring each state's authority to protect unborn life.

Abortion on demand is no doubt the most serious sociopolitical problem of our age. The lack of respect for life that permits abortion significantly contributes to our violent culture and our careless attitude toward liberty. Whether a civilized society treats human life with dignity or contempt determines the outcome of that civilization. Reaffirming the importance of the sanctity of life is crucial for the continuation of a civilized society. There is already strong evidence that we are on the slippery slope toward euthanasia and non-consensual human experimentation. Although the real problem lies within people' hearts and minds, the legal problems of protecting life stem from the ill-advised Roe v. Wade ruling, where the court usurped the state's authority over abortion.

One of the bills I am introducing today, the Sanctity of Life Act of 2005, reverses some of the damage done by Roe  $\nu$ . Wade. The Sanctity of Life Act provides that the federal courts of the United States, up to and including the Supreme Court, do not have jurisdiction to hear abortion-related cases. Congress must use the authority granted to it in Article 3, Section 1 of the Constitution to rein in rogue federal judges from interfering with a state's ability to protect unborn life.

In addition to restricting federal court jurisdiction over abortion, Congress must stop the unconstitutional practice of forcing Americans to subsidize abortion providers. It is not enough to say that "family planning" groups may not use federal funds to perform or promote abortion. After all, since money is fungible, federal funding of any activities of these organizations forces taxpayers to underwrite the organizations abortion activities. This is why I am also introducing the Taxpayer Freedom of Conscience Act. The Taxpayer Freedom of Conscience Act prohibits any federal official from expending any federal funds for any population control or population planning program or any family planning activity. To paraphrase Thomas Jefferson, it is "sinful and tyrannical" to force the American taxpayers to subsidize programs and practices they find morally abhorrent.

Mr. Speaker, it is my hope that my colleagues will join me in support of these two bills. By following the Constitution and using the power granted to the Congress by the Constitution, we can restore respect for freedom of conscience and the sanctity of human life.

CELEBRATING 50 YEARS OF FRIENDSHIP AND LOVE IN MAR-RIAGE

#### HON. LINCOLN DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. DAVIS of Tennessee. Mr. Speaker, Sam and Betty Kennedy of Columbia started their life together on November 6, 1954, at the Methodist Church, in the small Tennessee community of Culleoka. They reached the 50 year milestone on November 6, 2004, and friends at Greenway Farms, their home for more than 40 years, a few weeks later.

Sam, the fifth of eight children, grew up the son of a dentist and farmer, Dr. Henry Grady and Annie Porter Delk Kennedy, farm wife and teacher. An attorney and newspaper publisher, Sam has served as general sessions judge, district attorney and county executive of Maury County.

Raised the daughter of Columbia Daily Herald Editor and Publisher John and Elizabeth Read Ridley Finney, Betty attended Agnes Scott College and Emory University's School of Journalism. According to family lore, Sam and Betty met on a street in Columbia in 1953 when Betty was soliciting newspaper advertising. During the following months their courtship continued and they fell in love.

After the passing of Betty's father John Finney, Sam left his law career and with Betty led the Daily Herald, as publisher until 1983 when the paper was sold. Today, they own and operate the Lawrence County Advocate, the Waverly News Democrat, the News Leader, and the Buffalo River Review.

Over their 50 year marriage, Sam and Betty have been blessed with two children and five grandchildren.

Sam Kennedy, Jr. is an assistant U.S. Attorney and is married to Mary Susan Betty Kennedy, a business professor at Columbia State Community College. Their son, Sam Kennedy III is a junior at the University of North Carolina, Chapel Hill. Their daughter, Berry, is a freshman at Yale.

Elizabeth Kennedy Blackstone is the editor of the Parsons News Leader. She is married to Billy Blackstone, a partner with the law firm of Stokes, Bartholomew, Evans and Petree. The Blackstones have three children—Emory, Jack, and Eliza. We all should take a moment and applaud their accomplishment and their commitment to one another.

RECOGNITION OF OPEN STUDIO'S 10TH ANNIVERSARY

#### HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday. February 10, 2005

Mr. UDALL of Colorado. Mr. Speaker, I rise today to congratulate Open Studios on celebrating their 10th Anniversary of providing exemplary educational and cultural programming for artists and art lovers in the Boulder community. Open Studios is one of Colorado's outstanding arts organizations, offering opportunities to gain a broader understanding and appreciation of the visual arts.

Founded by Gary Zeff in 1994, Open Studios' first event was held in Boulder, Colorado during October of 1995. Every fall since then, Open Studios has invited the public to create self-guided tours of approximately 135 studios featuring painters, sculptors, woodworkers, furniture makers, weavers, photographers, papermakers, jewelers, potters and other fine visual artists. These tours allow the public to meet the artists one-on-one in their studios and watch them work.

Participating artists include an educational component in their studio setting. Many frequently engage the visitors by demonstrating their artistic skills and technique. Visitors are encouraged to ask questions about particular aspects of their work and their artistic process. At some studios, materials are available for adults and children to try their hand at creating art. Open Studios enhances the public tours with a unique Guidebook containing all the participating artists, an easy-to-read tour map, and an Art Resource Directory.

Prior to the public tours, a preview exhibit is held locally along with an artists' reception. The general public is joined at this free event by arts designers, art consultants, dealers, gallery owners, private collectors, and other artists. Open Studios has established an excellent reputation in the community. In the 10-year history, attendance has increased from about 20,000 studio visits to over 70,000. Its programs are implemented by an exceptional, dedicated staff with the sound stewardship of an innovative Board of Directors.

Open Studios has a mission of education. That mission has been expanded over the years to include not just educational opportunities in the studios during the two week event, but also community activities especially for children. Six years ago, Open Studios coordinated with the Director of Special Education of the Boulder Valley School District to provide art supplies and instruction to Halcyon School. With the success of the program at Halcyon, the educational program has been expanded to include six more Boulder Valley schools. There is no charge to the schools, and Open Studios pays artists for their time with a grant from the Boulder Arts Commission.

Throughout the decade, Open Studios has worked to bring art to the community in a myriad of different ways. Open Studios has assisted my office with the annual United States Congressional High School Art Competition for the past four years. In 2000, Open Studios brought William Ivey, the Chairman of the National Endowment for the Arts, to speak to Colorado communities and artists about the direction of the national art movement. In 2001, Open Studios arranged an opportunity for citizens to create cards to thank the members of the New York City Police and Fire Departments for their work and their sacrifices on 9/ 11. And this past year, Open Studios engaged the Boulder community in painting America's largest paint-by-number, a 1000-square foot painting displayed on a building in downtown Boulder.

The arts enhance the quality of every aspect of our lives. Open Studios has become a vital part of the community and has added to the quality of life of the citizens of Colorado. I ask my colleagues to join me in congratulating Open Studios for its accomplishments and its commitment to providing an unsurpassed cultural program to Coloradans. I wish its staff and Board continued creativity and success in the future.

TRIBUTE TO BRIGADIER GENERAL GEORGE DENNIS SHULL

#### HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. SKELTON. Mr. Speaker, it has come to my attention that Brigadier General Dennis Shull will be relinquishing the post of Adjutant General of Missouri.

Brig. Gen. Shull began his military career more than 32 years ago as an enlisted military policeman. He was commissioned as a second lieutenant of artillery in 1975 by the Missouri National Guard Officer Candidate School. He held multiple battery, battalion, brigade, and state level staff positions and has held command leadership positions of increasing responsibility from squad leader to the commander of 135th Field Artillery Brigade. Also, he was the Chief of Staff of the Missouri Army National Guard from February 1999 to September 2001.

As the Adjutant General of Missouri, Brig. Gen. Shull was responsible to the Governor for the command and control of almost 11,000 Missouri Army and Air National Guard personnel. In addition, he was responsible to the Governor for the State Emergency Management Agency and the Civil Air Patrol.

Throughout his career, Brig. Gen. Shull has received many awards and honors, which include the Meritorious Service Medal, the Army Commendation Medal with three Oak Leaf Clusters, the National Defense Service Medal, the Humanitarian Service Medal, the Army Service Ribbon, and many more.

Brig. Gen. Shull will continue to serve our Nation; he has volunteered for a one year tour of active duty in Afghanistan.

Mr. Speaker, I know that my colleagues in the House will join me in wishing Brigadier General Dennis Shull all the best in the days to come. We thank him for his continued service to our Nation.

#### INTRODUCTION OF RESOLUTION

#### HON. JOE KNOLLENBERG

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES  $Thursday,\ February\ 10,\ 2005$ 

Mr. KNOLLENBERG, Mr. Speaker, a strong domestic manufacturing base is vital to our country's national defense and economic security. Because of massive global competition, and costs that manufacturers cannot directly control, manufacturing in the United States is under great stress. In order to improve the economic environment in America for manufacturers, we have to address the issues that make our companies less globally competitive. These issues include lawsuit abuse, rising health care costs, energy policy, tax reform, and fighting against criminal counterfeiters. But in order to provide an environment where our manufacturers can effectively compete in the global market, we must address the distortions in the U.S. market for steel. Today I am introducing a resolution that seeks to address unnecessary distortion.

There are currently 188 antidumping and countervailing duty (AD/CVD) orders in place on various types of steel, which is well over

half of all AD/CVD orders in existence. Many of them have been in place since the early 1990s. Some still serve a purpose, others do not. The ones that don't are distorting the U.S. market for steel and unnecessarily damaging steel consuming companies in the form of decreased availability, reduced quality, delayed deliveries, and higher prices. In fact, U.S. companies suffer from artificially high steel prices, higher than anywhere else in the world. making them globally less competitive. For example, the January 2005 price of hot-rolled steel in the United States was \$695/ton, on the world spot market \$575/ton, and in China \$510/ton. Five auto parts companies have recently filed for Chapter 11 bankruptcy, citing artificially high prices for steel as a significant reason.

The Department of Commerce (DoC) and International Trade Commission (ITC) are required by law to conduct 5-year "sunset reviews" of anti-dumping and countervailing duty (AD/CVD) orders to determine whether to terminate, suspend, or continue the duties bevond the 5 years they have already been in place. In particular, on March 2, 2005 the ITC will conduct a sunset review hearing on hotrolled steel products from Brazil, Japan, and Russia (Invs. 701-TA-384 and 731-TA-806-808 (Review)). And on April 26, 2005 the ITC will conduct a sunset review hearing on stainless steel sheet and strip from France, Germany, Italy, Japan, Korea, Mexico, Taiwan, and the United Kingdom (Invs. 701-TA-380-382 and 731-TA-797-804 (Review)). Today I am introducing a resolution that urges the DoC and ITC to consider, and report on, the impact of the AD/CVD orders on domestic steel-consuming companies and the overall economy when conducting sunset reviews of duties on steel products.

The DoC and ITC have the discretion to take into account the impact of these duties on steel consumers, and they should. But traditionally they have not. If this continues, economic decisions will be made without seeing the full effects of those decisions. This is not wise, and it's not fair. Furthermore, the damage unnecessary duties do to steel consumers causes the customer base for domestic steel producers to shrink, ultimately harming the steel industry. Sound economic policy cannot be made in a vacuum. When economic policy decisions are made, the full effects of those decisions should be taken into consideration.

I support both a strong domestic steel industry and a strong domestic manufacturing base because they are vital to our national defense and economic security. Removing some specific duties will not harm domestic steel producers, who are doing quite well. In fact, domestic steel producers noted record earnings in 2004 (including increases as high as 45 percent over 2003) and analysts predict a strong 2005 for the industry. If the AD/CVD duties for specific types of steel were removed, market conditions would become less distorted and steel producers may see some extremely high prices they charge now drop to just very high. This will not cause material injury to steel producers, and in fact could provide some much-needed relief for their customer base.

This resolution does nothing to change trade law. It simply calls for sound policy and fundamental fairness. The DoC and ITC already have the authority to look at the full picture during sunset reviews of duties on steel

products. This resolution simply calls on them to do just that. I urge my colleagues to join me in supporting this resolution.

IN HONOR OF MISS ASHLEIGH BRIANNA OLIVER

#### HON. MICHAEL R. TURNER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. TURNER. Mr. Speaker, I wish to acknowledge the outstanding achievements of a student from Ohio's Third Congressional District. Miss Ashleigh Brianna Oliver recently received the Bronze Medallion Award, an academic honor presented by Walter E. Stebbins High School. Miss Oliver was also recently inducted into the Society for Academic Excellence

Outside the classroom, Miss Oliver has been a Junior member of the General Daniel "Chappie" James American Legion Auxiliary, Unit 776 since she was 7 years old. She is currently serving as the Junior President, as she has done for 4 years.

Miss Oliver's high level of academic achievement and strong community involvement is worthy of recognition. She is a fine example of a young person contributing to society as an exemplary citizen. I urge my colleagues to join me in acknowledging Miss Oliver's success.

ADDRESS OF ISRAEL'S DEPUTY PRIME MINISTER AND MINISTER OF FOREIGN AFFAIRS, SILVAN SHALOM, AT THE SPECIAL SESSION OF THE UNITED NATIONS GENERAL ASSEMBLY COMMEMORATING THE 60TH ANNIVERSARY OF THE LIBERATION OF NAZI DEATH CAMPS

#### HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. LANTOS. Mr. Speaker, on January 24 of this year, the United Nations General Assembly commemorated the 60th anniversary of the liberation of Nazi death camps. January 27, 1945, was the date on which Russian troops liberated Auschwitz, the most notorious of the death camps, and the symbol of the Holocaust, in which over 6 million Jews and hundreds of thousands of other nationalities were brutally murdered during World War II.

The United Nations commemoration, which was held three days before the anniversary, began with a moment of silence for the victims. Among the major speakers at the General Assembly special session was the distinguished Deputy Prime Minister and Minister of Foreign Affairs of the State of Israel, Silvan Shalom.

Israel, like the United Nations, was born from the ashes of the Holocaust. Hundreds of thousands of Jews who fled Europe as the Nazi grip was tightening around Europe and hundreds of thousands more who survived the Nazi terror immigrated to Israel. The State of Israel became their refuge, and they became citizens of a state dedicated to remembering

and never to allow a repetition of the Holocaust.

Deputy Prime Minister and Foreign Minister Shalom previously served as Finance Minister and Science Minister in the Israeli government. He has been a member of the Knesset since 1992. Born in Tunisia, his family brought him to Israel when he was only a year old.

Minister Shalom's address at the United Nations General Assembly session draws upon three millennia of Israeli history and tradition. From the dry bones of the horror of the Holocaust a living Israel has emerged, an Israel that is absolutely and irrevocably committed that such a tragedy shall not happen ever again.

Mr. Speaker, I ask that the outstanding address of the Foreign Minister of Israel be placed in the Congressional Record. I urge my colleagues to give thoughtful attention to his statement.

Address of Israel's Deputy Prime Minister and Minister of Foreign Affairs Silvan Shalom

Mr. Secretary-General, Mr. President, Fellow Foreign Ministers, Survivors of the Holocaust, Distinguished Delegates, Ladies and Gentlemen:

Sixty years ago, allied soldiers arrived at the gates of the Auschwitz concentration camp. Nothing could prepare them for what they would witness there, and at other camps they liberated—the stench of the bodies, the piles of clothes, of teeth, of children's shoes. But in the accounts of the liberators, more than the smell, more even than the piles of bodies, the story of the horror was told in the faces of the survivors.

The account of Harold Herbst, an American liberator in Buchenwald, is typical of many, and I quote: "As I walked through the barracks I heard a voice, and I turned around, and I saw a living skeleton talk to me. He said, 'thank God you've come.' And that was a funny feeling. Did you ever talk to a skeleton that talked back? And that's what I was doing. And later on I saw mounds of these living skeletons that the Germans left behind them."

Thousands of years ago the prophet Ezekiel had a similar vision. In one of the most famous passages of the Bible, the prophet describes how he came to a valley full of bones. The bones, says Ezekiel, are the House of Israel. And the bones are dry, and their hope is lost. Faced with this scene, he asks the questions: shall these bones live? Shall these bones live?

Ezekiel asked the question that every liberator of the camps asked himself: Can any hope or humanity emerge from such horror? Shall these bones live?

Here with me today, are those who have given life to dry bones, both survivors and liberators. Men like Dov Shilanksy who fought in the ghetto and later became speaker of Israel's parliament, the Knesset; like Yossi Peled, who after being evacuated from the terrors of the Nazis, eventually became a Major-General in the Israeli Defense Forces, to protect his people form the horrors of another calamity; and like David Grinstein, who survived the labor camps, and now heads an organization for restitution for the forced laborers under Nazi rule; and women like Gila Almagor—today the first lady of Israeli stage and screen-who has translated her experiences as the daughter of a Holocaust survivor, into art that has touched millions.

When we see what the survivors have managed to create, and build, and contribute to humanity—families, careers, literature, music, even countries—we can only marvel at their strength and courage.

At the same time, when we see what the survivors have given to humankind, we can only begin to appreciate, what might have been given to the world by the millions who did not survive. We mourn their loss, to this day. Every fiber of our people, feels their lack. Every family knows pain, including my own—my wife's grandparents and seven of their eight children, were taken and killed.

Mr. President, Israel and the Jewish people owe a debt to the liberators of the death camps, and so does all of humankind. In the face of unspeakable evil, these liberators, from many nations represented here today, showed the human capacity for good. In the face of overwhelming indifference to the suffering of others, they showed compassion. And in the face of cowardice, they shoed bravery and resolve.

We recognize, too, the courage and humanity of Righteous Among the Nations, we refused to look away. People such as Raoul Wallenberg, who saved thousands of Jewish lives, and whose niece, Nane is here with us today. These heroes helped our dry bones live again. Mr. President, the dry bones have lived again not only in the lives of the survivors, but also in two entities established on the ashes of the Holocaust: the United Nations and the modern State of Israel.

The tragedy of the Holocaust was a major impetus in the reestablishment of the Jewish people's home, in its ancient land. As Israel declared in its Declaration of Independence:

The Holocaust, which engulfed millions of Jews in Europe, proved anew the urgency of the reestablishment of the Jewish state. A state which would solve the problem of Jewish homelessness, by opening the gates to all Jews, and lifting the Jewish people to equality in the family of nations.

And indeed, since its establishment, Israel has provided a haven Jews facing persecution anywhere in the world. At the same time, it has built a society, based on the values of democracy and freedom for all its citizens, where Jewish; life and culture and literature and religion and learning—all those things which the Nazis sought to destroy—can flourish and thrive.

The fact that so many survivors came and played their part in the building of the State of Israel, was itself a remarkable fulfillment of Ezekiel's prophecy. As the prophet said: "Thus says the Lord: Behold, O my people, I will take you from the graves. I will put my spirit in you, and you shall live in your own land, in the land of Israel."

Mr. President, if Israel represents one heroic attempt, to find a positive response to the atrocities of the Second World War, the United Nations represents another. The very first clauses of the UN Charter bear witness to the understanding of the founders, that this new international organization must serve as the world's answer to evil, that it comes, and I quote: "to save succeeding generations from the scourge of war," to "reaffirm faith in fundamental human rights" and "the dignity and worth of the human person."

By convening here today in this historic special session, we honor the victims, we pay respect to the survivors, and we pay tribute to the liberators. We convene here today for those who remember, for those who have forgotten, and for those who do not know. But we also convene to remember that the Charter of this United Nations, like Israel's Declaration of Independence, is written in the blood of the victims of the Holocaust. Unbelievable as it seems, there are those who would delete form history, six million murders

Could anything be worse than to systematically destroy a people, to take the proud Jewish citizens of Vienna, Frankfurt and Vilna and even Tunisia and Libya, to burn their holy books, to steal their dignity, their hair, their teeth; to turn them into numbers,

to soap, to the ashes of Treblinka and Dachau? The answer is yes, there is something worse; to do all this and then deny it. To do all this and then take form the victims—and their children and grandchildren—the legitimacy of their grief.

To deny the Holocaust is not only to desecrate the victims and abuse the survivors. It is also to deprive the world of its lessons—lessons which are as crucial toady, as they were 60 years ago.

These lessons are crucial today for three urgent reasons.

First, because today, once again, the plague of anti-Semitism is raising its head. Who could have imagined, that less than 60 years after Auschwitz and Bergen-Belsen, the Jewish people and Israel would be targets of anti-Semitic attacks, even in the countries that witnessed the Nazi atrocities. Yet this is exactly what is happening. The Holocaust teaches us that while Jews may be the first to suffer from anti-Semitism's destructive hate. They have rarely been the last.

The lessons of the Holocaust are crucial today for a second reason: because today once again we are witnessing, against Jews and other minorities, that same process of delegitimazation and dehumanization, that paved the way to destruction. Let us not forget. The brutal extermination of a people began, not with guns or tanks, but with words, systematically portraying the Jew—the other—as less than legitimate, less than human. Let us not forget this, when we find current newspapers and schoolbooks borrowing caricatures and themes from the Nazi paper Der Sturmer, to portray Jews and Israelis.

And finally these lessons are crucial today, because once again, we are witnessing a violent assault on the fundamental principle of the sanctity of human life. Perhaps the greatest single idea that the Bible has given to humanity, is the simple truth that every man, woman and child, is created in the divine image, and so, is of infinite value. For the Nazis, the value of a man was finite, even pitiful. How much work could he do? How much hair did she have? How many gold teeth? For the Nazis, the destruction of one human being, or of a hundred, a thousand, six million, was of no consequence. It was just a means to an evil end.

Today again, we are pitted against the forces of evil, those for whom human life—whether the civilians they target, or their own youth who they use as weapons—are of no value, nothing but a means to their goals. Our sages teach us that he who takes a single life, it is as if he has taken an entire world." No human life is less than a world. No ideology, no political agenda, can justify or excuse the deliberate taking of an innocent life.

Mr. President, for six million Jews, the State of Israel came too late. For them, and for countless others, the United Nations also came too late. But it is not too late, to renew our commitment, to the purposes for which the United Nations was founded. And it is not too late, to work for an international community that will reflect these values fully; that will be uncompromising in combating intolerance against people of all faiths and ethnicities; that will reject moral equivalence; that will call evil by its name.

We will never know whether, if the United Nations had existed then, the Holocaust could have been prevented. But this Special Session today confirms the need for the United Nations, as well as each individual member state, to rededicate to ensuring that it will never happen again. In the context, I wish to commend the Secretary General for his moral voice and leadership in bringing this Special Session to fruition, and my col-

league foreign ministers, for their presence here today.

As the number of survivors shrinks all the time, we are on the brink of that moment, when the terrible event will change—from memory, to history. Let all of us gathered here pledge, never to forget the victims, never to abandon the survivors, and never to allow such an event to be repeated.

As the Foreign Minister of Israel, the sovereign state of the Jewish people, I stand before you, to swear, in the name of the victims, the survivors, and all the Jewish people: Never again.

INTRODUCTION OF POVERTY STATS LEGISLATION

#### HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

 $Thursday,\ February\ 10,\ 2005$ 

Mrs. MALONEY. Mr. Speaker, today, I, along with Representative WILLIAM LACY CLAY (D-MO), introduce legislation that requires the annual poverty estimate and the National Assessment of Educational Progress to be subject to certain guidelines on the release of the information to the public. I am deeply concerned at what appears to be the politicization of data by the Bush Administration on important issues ranging from worker safety to the dangers of lead paint to emergency contraceptives. Because data regarding poverty and educational progress are essential to lawmakers at all levels of government to implement policies addressing these issues, it is critical that this information is disseminated in an open and timely process.

Two years ago, the Census Bureau decided to break with tradition by releasing its annual poverty estimates on a Friday in Suitland, Maryland, rather than during the middle of the week at the National Press Club in Washington, D.C. Because that report was expected to announce the loss of millions of jobs, the questionable circumstances regarding the release of those statistics led myself and Representative Clay to seek an investigation by the General Accounting Office (GAO) as to why the Census Bureau made its decision. We should not be playing politics with science, which is why I believe this legislation is so important.

## HONORING THE TUSKEGEE AIRMEN

SPEECH OF

#### HON. RANDY "DUKE" CUNNINGHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Wednesday, February 9, 2005

Mr. CUNNINGHAM. Mr. Speaker, I want to join my colleagues in support of H. Con. Res. 26, which recognizes the significant contributions of the Tuskegee Airmen to our national security and honors their service to a grateful Nation.

As an aviator myself, I have had the honor each year to join some of the Nation's most distinguished military aviators at an event known as "The Gathering of the Eagles." At those events, I have met many of the Tuskegee Airmen, and can personally attest to

their character. These men are outstanding military heroes who gave so much to this Nation and set such an outstanding example for future generations of aviators. Several of them are in the pictures produced there each year hanging in my office.

These African American men, determined to do their part to serve their Nation during World War II, enlisted to serve their Nation at a time when segregation limited opportunities. But they were given a chance to excel in the military. During World War II, they completed 15,500 missions, destroyed over 260 enemy aircraft, sank one enemy destroyer, and demolished numerous enemy installations. They destroyed more than 100 German aircraft while building an unprecedented record of flying with more than 200 bomber escort missions—all without the loss of a bomber. That is a huge feat.

Every bit as important, they set an example for millions of Americans of every color, encouraging others to pursue careers in air and space technology. It is time this Nation give this distinguished group of aviators the credit and honor they deserve. I urge my colleagues to support this resolution recognizing these fine men and their achievements.

EXPRESSING SENSE OF CONGRESS THAT DEPARTMENT OF DEFENSE CONTINUE TO EXERCISE ITS AUTHORITY SUPPORTING ACTIVITIES OF BOY SCOUTS OF AMERICA

SPEECH OF

#### HON. J. GRESHAM BARRETT

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 9, 2005

Mr. BARRETT of South Carolina. Mr. Speaker, I rise today in support of the Boy Scouts of America and their right to congregate in facilities such as military bases. It has been a long tradition within the organization that the Scouts work hand in hand with local communities which includes cooperation with agencies such as the Armed Forces. The Boy Scouts of America have been promoting courage, self-reliance, and family virtues throughout this country for almost a century.

The Boy Scouts have always held a special place in my heart because in 1951, my father started Boy Scout Troup 108—the first Boy Scout organization in Westminster, SC. As a matter of fact, one of the first service projects of this troop was to raise the American Flag over the Westminster Post Office. We see Boy Scout troops perform similar patriotic acts throughout the country yet they are denied the right to come together on our military bases. That just doesn't make sense.

I ask my colleagues to join me today in showing support for an organization that has done countless good deeds in each of our communities and pass H. Con. Res. 6. CELEBRATING THE LIFE OF MRS. DELOIS JACKSON WILKINSON

#### HON. JIM COOPER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. COOPER. Mr. Speaker, as we observe Black History month, I rise today to celebrate the remarkable life of Mrs. DeLois Jackson Wilkinson of Nashville, Tennessee. Mrs. Wilkinson was a physical therapist, school board member and local community activist. Often referred to as "Miss Civil Rights," she was among the many brave leaders who participated in the civil rights movement to make this country a better place not only for black Americans, but for all citizens. When she passed away on Saturday, January 29, 2004 at the age of 80, our country lost a dedicated advocate and a dear friend.

Mrs. Wilkinson's energy, passion, and perseverance endeared her to all. Born in Fayette County, Tennessee in 1924, Mrs. Wilkinson was one of eight children. She attended Lemoyne College in Memphis and graduated from Northwestern University in Evanston, Illinois. She moved to Nashville, Tennessee, where she became a physical therapist at Meharry Medical College. She and her husband, Fred Wilkinson, had five children whom they raised during the tumultuous civil rights era and whom they struggled to protect from the harsh realities of life in the South.

Frustrated by the inequalities of segregation, Mrs. Wilkinson worked hard to ensure that she, her children and other black Americans would some day experience the joys of true freedom. She often told a story about going to a downtown department store in Nashville with her young son and passing a restaurant with a play area set up for children. Her son desperately wanted to go in, but to shield him from the harsh truth that he was not allowed, she simply told him that they were in too much of a rush. Mrs. Wilkinson recalled years later that she hated having to lie to her son. Fueled by her desire for equal rights, she helped organize sit-in demonstrations at downtown Nashville lunch counters, and in 1963 and 1983, she participated in the historic civil rights marches on Washington, DC.

As a member of the Board of Education in Nashville, Mrs. Wilkinson advocated for quality education for all children. When asked to serve as a board member, she said that the question of "why Johnny can't read needs to be answered." Because "Johnny does not teach himself," she stressed the responsibility of the school board, administration and teachers to ensure that "Johnny" and others had access to a proper education.

A tireless advocate, Mrs. Wilkinson devoted a lifetime to improving the lives of others. As we celebrate Black History Month, who better to recognize than Mrs. Wilkinson—an extraordinary Nashvillian who provided energy and a sense of purpose to her community, compassion and hope to the poor and sick, and promise for a better future to the repressed.

On behalf of the fifth district of Tennessee, I send my deepest condolences to Mrs. Wilkinson's family and loved ones. May we all take to heart the philosophy she lived by—that "every person should contribute positively during their lifetime to the betterment and spiritual life on earth."

TRIBUTE TO JERRY LEONE ON HER RETIREMENT FROM THE PUBLIC POWER COUNCIL

#### HON. PETER A. DeFAZIO

OF OREGON

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. DEFAZIO. Mr. Speaker, I'm sure it comes as no surprise to my colleagues that I have a special appreciation for those that are unafraid to speak their mind, expose absurd policies for what they are, and bluntly and forcefully announce when the emperor has no clothes.

It is with mixed feelings, therefore, that I speak to my colleagues today on the upcoming retirement of Jerry Leone from the helm of the Public Power Council—the regional organization representing the interests of the customers of the Bonneville Power Administration.

Jerry is one of those rare individuals willing to provide unvarnished opinions. But she has more than the ability to distill complex issues into clear and unvarnished analysis and critique. Jerry provides clear insights, bold ideas and an uncanny ability to herd the often disparate interests within public power.

Jerry has been at the helm of PPC for more than a decade, guiding the region's public power systems through numerous challenges, including treatment of the region's aluminum plants, skyrocketing electricity rates, the West Coast energy crisis, formation of a Regional Transmission Organization, ESA listings and a review of the future of Bonneville. Public power, the region and the Northwest delegation are fortunate to have had the benefit of Jerry's insights and efforts throughout this effort.

Jerry is not merely a public power icon. She's a lawyer, a wannabe lineman, a retired member of the Coast Guard Reserves, an accordion player, and a journalistic wit.

I wish her the best in her retirement and thank her for her advocacy and tenacity expressed through numerous wry comments, witty insights and cogent observations.

VETERANS SELF-EMPLOYMENT ACT OF 2005

#### HON. RICHARD H. BAKER

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. BAKER. Mr. Speaker, I rise today to introduce the "Veterans Self-Employment Act," legislation to establish a five-year pilot program that allows our Nation's servicemembers, veterans, national guardsman, reservists, and qualified others to use part of their VA educational assistance programs to defray legitimate training costs associated with obtaining a business franchise.

Mr. Speaker, franchising is an enormous component of the United States economy. According to a study conducted by International Franchise Association Educational Foundation, nearly 760,000 franchised businesses generate jobs for more than 18 million Americans annually, comprising nearly 14 percent of the Nation's private-sector employment and accounting for \$1.53 trillion in economic output. Over 75 industries utilize the franchise model

for distribution of products and services, ranging from familiar restaurants and hotels to home movers, tax preparers, personnel providers and so on. Clearly, franchising is a critical engine of America's economic growth.

When an individual acquires a franchise, the individual must first undergo various types of training, depending on the specific franchise he or she wishes to acquire. Training can include education on specialized knowledge of goods, services, policies and practices of the individual franchise system. Training may also include customer service, daily operational management, business computer systems, inventory control, costing and pricing as well as regulatory obligations.

At the same time, Mr. Speaker, American military members, whether as active duty servicemembers or veterans, possess a wealth of experience and abilities. Their training in the armed forces has provided them with high-end skill sets that employers are looking for in the future workforce. Yet outside of what has been provided during their tenure with the military, statistics show that many of our young military men and women have had no formal education or training beyond their high school years.

Mr. Speaker, the "Veterans Self-Employment Act" will allow more veterans to take advantage of the opportunities in franchising by allowing servicemembers, veterans, national guardsman, reservists, and eligible dependent spouses or children to apply a portion of his or her educational benefit to defray the portion of a franchise purchase cost attributable to training. Specifically, in a one-time lump sum payment, beneficiaries will be able to use the lesser of 1/3 of the remaining Montgomery GI Benefit entitlement or 1/2 the franchise fee.

In addition, the bill provides the Secretary of Veterans Affairs proper authority to oversee and avoid any possible abuse of this program; submit to the Secretary a detailed description of the training program; two year operating rule for franchise businesses; and provide individual progress reports regarding successful completion of individual training, among other things.

Mr. Speaker, I urge my colleagues to support our Nation's veterans and thus urge floor consideration for the "Veterans Self-Employment Act."

INTRODUCTION OF THE "INTERNET SPYWARE (I-SPY) PREVENTION ACT"

#### HON. BOB GOODLATTE

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. GOODLATTE. Mr. Speaker, I rise today to introduce the "Internet Spyware (I-SPY) Prevention Act."

This bipartisan legislation, which I introduced with my colleagues ZOE LOFGREN of California and LAMAR SMITH of Texas, will impose tough criminal penalties on the most egregious purveyors of spyware, without imposing a broad regulatory regime on legitimate online businesses. I believe that this targeted approach is the best way to combat spyware.

Spyware is a growing and serious problem. The Federal Trade Commission has testified that "spyware appears to be a new and rap-

idly growing practice that poses a risk of serious harm to consumers." Spyware is software that provides a tool for criminals to crack into computers to conduct nefarious activities, such as altering a user's security settings, collecting personal information to steal a user's identity, or to commit other crimes.

The I-SPY Prevention Act would impose criminal penalties on the most egregious behaviors associated with spyware. Specifically, this legislation would impose up to a 5 year prison sentence on anyone who uses software to intentionally break into a computer and uses that software in furtherance of another federal crime. In addition, it would impose up to a 2 year prison sentence on anyone who uses spyware to intentionally break into a computer and either alter the computer's security settings, or obtain personal information with the intent to defraud or injure a person or with the intent to damage a computer. By imposing stiff penalties on these bad actors, this legislation will help deter the use of spyware, and will thus help protect consumers from these aggressive attacks.

Enforcement is crucial in combating spyware. The I-SPY Prevention Act authorizes \$10 million for fiscal years 2006 through 2009, to be devoted to prosecutions, and expresses the sense of Congress that the Department of Justice should vigorously enforce the laws against spyware violations, as well as against online phishing scams in which criminals send fake e-mail messages to consumers on behalf of famous companies and request account information that is later used to conduct criminal activities.

I believe that four overarching principles should guide the development of any spyware legislation. First, we must punish the bad actors, while protecting legitimate online companies. Second, we must not over-regulate, but rather encourage innovative new services and the growth of the Internet. Third, we must not stifle the free market. Fourth, we must target the behavior, not the technology.

By imposing criminal penalties on those that use spyware to commit federal crimes and other dangerous activities, the I-SPY Prevention Act will protect consumers by punishing the bad actors, without imposing liability on those that act legitimately online.

The targeted approach of the I-SPY Prevention Act also avoids excessive regulation and its repercussions, including the increased likelihood that an overly regulatory approach would have unintended consequences that could discourage the creation of new and exciting technologies and services on the Internet. By encouraging innovation, the I-SPY Prevention Act will help ensure that consumers have access to cutting-edge products and services at lower prices.

In addition, the approach of the I-SPY Prevention Act does not interfere with the free market principle that a business should be free to react to consumer demand by providing consumers with easy access to the Internet's wealth of information and convenience. Increasingly, consumers want a seamless interaction with the Internet, and we must be careful to not interfere with businesses' abilities to respond to this consumer demand with innovative services. The I-SPY Prevention Act will help ensure that consumers, not the federal government, define what their interaction with the Internet looks like.

Finally, by going after the criminal behavior associated with the use of spyware, the I-SPY

Prevention Act recognizes that not all software is spyware and that the crime does not lie in the technology itself, but rather in actually using the technology for nefarious purposes. People commit crimes, not software.

The I-SPY Prevention Act is a targeted approach that protects consumers by imposing stiff penalties on the truly bad actors, while protecting the ability of legitimate companies to develop new and exciting products and services online for consumers.

I urge each of my colleagues to support this important legislation.

TONY HALL FEDERAL BUILDING AND UNITED STATES COURT-HOUSE

SPEECH OF

#### HON. ROB PORTMAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 8, 2005

Mr. PORTMAN. Mr. Speaker, I rise today to honor my friend, fellow Ohioan, and former colleague, Ambassador Tony Hall, upon overwhelming House passage of legislation to designate the building located at 200 West Second Street in Dayton, Ohio as the "Tony Hall Federal Building and Courthouse."

Currently United States Ambassador to the United Nations Agencies for Food and Agriculture, Mr. Hall is well known to those of us from Ohio and in the House. But for those who are not familiar with his distinguished career, permit me to relate just a few of his many accomplishments.

Prior to serving as Ambassador, Mr. Hall represented the people of the Third Congressional District of Ohio for nearly 24 years. During his service in Congress, he was a founding member and Chairman of the House Select Committee on Hunger and Chairman of the Democratic Caucus on Hunger. Ambassador Hall also founded and served as a steering committee member for the Congressional Friends of Human Rights Monitors.

In Congress, Ambassador Hall wrote significant legislation supporting food aid, child survival, basic education, primary health care, microenterprise and development assistance programs for the world's poorest nations. He has made over one hundred trips to poverty stricken and war torn nations in his efforts to observe first hand the important work of these programs.

His tireless advocacy for hunger relief and humanitarian programs around the world resulted in his being nominated for the Nobel Peace Prize three times. He has also received the UNICEF 1995 Children's Legislative Advocate Award; the U.S. AID Presidential End Hunger Award; the 1993 Oxfam America Partners Award; and the NCAA Silver Anniversary Award.

A graduate of Denison University, Ambassador Hall was a Peace Corps volunteer in Thailand. He and his wife, Janet, have two children

The naming of the federal building and courthouse in Dayton is a fitting tribute to Ambassador Hall's work for the people of Ohio and around the world. I join my colleagues in congratulating him on receiving this important honor.

FREEDOM FOR ARNALDO RAMOS LAUZERIQUE

#### HON. LINCOLN DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I rise today to speak about Arnaldo Ramos Lauzerique, a political prisoner in totalitarian Cuba.

Mr. Ramos Lauzerique is a member of the Cuban Institute of Independent Economists and the Assembly to Promote Civil Society. He believes that Cuba should be and will be free from the nightmare that is the Castro regime. He believes that the Cuban people are entitled to human rights, democracy, and freedom from tyranny. Because he believes in freedom and because he actively and peacefully advocates for liberty, Mr. Ramos Lauzerique has been targeted by. the despotic regime.

In March 2003, as part of the tyrant's heinous island wide crackdown on peaceful, prodemocracy activists, Mr. Ramos Lauzerique was arrested by the regime. In a sham trial, he was sentenced to 18 years in the totalitarian gulag.

Mr. Ramos Lauzerique is over 60 years old and languishing in the revolting, hellish gulag. However, being confined in these inhuman conditions has not stopped him from continuing to demand justice for the people of Cuba and his fellow political prisoners. Amnesty International reports that Mr. Ramos Lauzerique has participated in at least two hunger strikes while imprisoned in Castro's dungeon. He has undertaken these strikes to bring attention to the repulsive squalor of the gulag, the lack of medical attention, and the barbaric punishment cells; all in defiance of the machinery of repression that has unjustly confined him in these repugnant conditions.

Mr. Speaker, it remains categorically unacceptable that men and women who demand freedom from tyranny are locked in the dungeons of tyrannical monsters. Here, under the dome that represents modern democracy, we must continue to demand the liberation of all who suffer in the darkness of totalitarianism. As we continue to exercise our democratic rights, let us never forget those who are struggling to liberate their own nations. My Colleagues, we must demand the immediate release of Arnaldo Ramos Lauzerique and every prisoner of conscience locked in Castro's totalitarian gulag.

INTRODUCTION OF H.R. 750, THE SOCIAL SECURITY GUARANTEE PLUS ACT OF 2005

#### HON. E. CLAY SHAW, JR.

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. SHAW. Mr. Speaker, whether we live in prosperous or uncertain times, American families need economic security—the kind of economic security that Social Security provides. For 70 years, Social Security has protected workers and their families from falling into poverty if a breadwinner retires, suffers disability, or dies. Social Security has endured, unlike many other government programs, because its architects designed it to be owned by workers and to treat all workers fairly.

Social Security has evolved over the decades, strengthening its protections and finances along the way. However, our nation's demographics and economics are fundamentally changing, and Social Security's ability to continue meeting its promises is threatened.

The Social Security Guarantee Plus Plan I am introducing today will enable Social Security to continue fulfilling its vital role in the lives of all Americans.

First, the Guarantee Plus Plan keeps intact the Social Security safety net. Promised benefits, including cost of living increases, are guaranteed for people receiving benefits today, tomorrow and for all future generations.

Second, the plan treats all workers fairly. Workers have paid into the system, it's their money, and we must protect and enhance their investment. It's not fair to workers to raise their payroll taxes or lower their benefits. Nor is it fair for the government to tell workers to work longer. That's why my plan does not raise taxes, does not lower benefits, and does not change the retirement age.

Third, Social Security payroll taxes belong to the workers who paid them. My plan gives workers a real ownership stake in Social Security by allowing them to choose to receive a tax cut to invest directly in prudent, individually-selected, market investments. For the first time, a nation of savers, not the government, will own and control the assets backing Social Security. Should an individual die before becoming eligible, the balance of their money will be passed along to their heirs.

Fourth, under my plan, Social Security can be counted on for the next 75 years, and beyond. Real assets guarantee current and future benefits, establishing a sound and sustainable financial footing. No longer will there be a need to periodically increase taxes or lower benefits to keep the program working.

Beyond keeping these promises to all Americans, we must also do more to improve Social Security for the women of our nation. Because of their longer life expectancies and lower earnings, women are more likely to suffer poverty in old age. Social Security is a vital safety net for these women. In addition, because benefits are based on earnings, women are disadvantaged when they choose to stay home to raise their children. The Guarantee Plus Plan protects our daughters, our mothers, our aunts and our grandmothers, not only by securing the future of Social Security and guaranteeing full benefits, but also by enhancing benefits for widows, divorced spouses, and working mothers. These benefits become available immediately in my bill.

Here's how the Social Security Guarantee Plus Plan works. The plan guarantees full, promised, current law benefits for all workers, whether you are 6 or 65. Just as companies must back your pension plan with real assets, the Guarantee Plus Plan saves Social Security by setting aside real assets, not IOUs, to prefund benefits. These assets are saved in each worker's own account, thereby providing workers the opportunity to create real wealth for themselves and their families.

Workers who choose to participate will receive a refundable credit of up to 4% of their earnings to establish their own Social Security Guarantee Account. Workers, not the government, would select where to invest their Guarantee Account funds. The assets in these accounts would grow tax-free. No withdrawals would be permitted until a worker starts receiving benefits to ensure that the money is preserved for retirement.

At retirement or when the worker becomes disabled, a portion of the Guarantee Account is paid directly to the worker and the rest is used to help pay full, guaranteed Social Security benefits. But that's not all.

In addition to the much needed improvements in benefits for women I mentioned, my plan eliminates the retirement earnings penalty for all workers age 62 and older and reduces the so-called Government Pension Offset affecting spouse and survivor benefits to certain government workers. Other plans may cost less, because they cut benefits or raise taxes. If our goal is to pay full promised benefits, boost women's benefits, and return Social Security to financial independence, the Guarantee Plus Plan is the lowest-cost proposal to date. The Guarantee Plus Plan does all this and pays for itself over the seventy five-year actuarial period, and that's confirmed by the Social Security Administration's Office of the Actuary in the 108th Congress. Even under the most conservative estimates, the Guarantee Plus Plan allows the new Social Security system to generate surplus cash in the latter part of the century, actually adding black ink to the government's bottom line.

My plan uses general revenues to fund the accounts. Even assuming borrowing for a transitional period, my plan pays back every borrowed dollar plus interest within the seventy five-year evaluation period. My plan also requires that Social Security surpluses created by the plan be dedicated to reducing publiclyheld debt. Not only would we pay off the mortgage on Social Security, we would leave workers with substantial account balances and the federal government with excess cash.

The Guarantee Plus Plan also meets or exceeds all of the President's principles for reform—pays promised benefits to retirees, near-retirees, and all workers; no tax increases; no government investing; fully preserves disability and survivor benefits; offers individually controlled, voluntary personal retirement accounts that will augment Social Security. In addition, my plan is consistent with the first option to establish personal accounts recommended by the President's Commission to Strengthen Social Security.

President Bush has made the strengthening of Social Security now and for generations to come a top priority. Americans are showing their willingness to explore new ideas to strengthen this vital program, since the old ways must be improved upon for future generations. Now is the time for a straight-forward, honest and realistic discussion about the future of Social Security. The longer we wait to address the coming crisis, the more difficult and expensive the job will be down the line.

From the time of Social Security's enactment until today, the history of the program's evolution has demonstrated that while everybody has his or her own ideas on how to strengthen the program, progress toward that goal is only achieved through bipartisan cooperation. It's long past time for us to lay all our best thoughts on the table and work together to build on our success to make a stronger Social Security system that is an asset to all and not a liability to our children and grandchildren.

HONORING HENRIETTA SMITH AND NINA KLEIN

#### HON. RALPH M. HALL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. HALL. Mr. Speaker, I rise today to celebrate the lives and the upcoming birthdays on February 14 of two outstanding Texas women, Henrietta C. Smith of Greenville, Texas, in the Fourth Congressional District, and her twin sister, Nina Lee Klein of Garland. Henrietta and Nina will celebrate their 85th birthdays with a family reunion in Austin, and I join their children, grandchildren, and many friends in recognition of this joyous occasion.

Henrietta and Nina have been excellent role models for their families and for young people who have known them. Henrietta obtained bachelor's and master's degrees from Texas

A&M University at Commerce and also attended Miss Hickey's Secretarial School in St. Louis, MO. A resident of Greenville for 54 years, she retired as a vocational counselor from Greenville High School in 1988. Prior to that, she was a guidance counselor at Greenville Junior High School and a sixth grade teacher at Bowie Elementary School. She remains active in the community, as an elder at Grace Presbyterian Church, past president and annual book sale volunteer for the American Association of University Women, and past president of the Greenville Area Retired Teachers and School Employees Association.

Nina also has been active in her church as well as various women's groups and is a lifelong homemaker. Although legally blind throughout her life, Nina graduated from Maryville University in St. Louis with a degree in sociology—a significant accomplishment—and has been a productive and active member of her community.

Henrietta was married to the late Wilson Smith, who died in 1968. They have three children—Charlotte Wright of Davidsonville, MD, Marsha Smith of Pahrump, NV, and Edward Smith of Fairfield, TX, as well as four grand-children. Nina lost her husband, Walter Klein, in 1995. Their daughter, Barbara Klein, lives in Garland.

Although these sisters live 50 miles apart, they still see each other several times each month. As they celebrate their 85th birthday on Valentine's Day, February 14, with their family, I want to take this opportunity in the House of Representatives to extend my best wishes to Henrietta C. Smith and Nina Lee Klein for a wonderful celebration and recognize their many contributions to their families and their communities.

BILL TO ASSURE ADEQUATE FUNDING FOR BORDER SECU-RITY AGENTS

#### HON. C.A. DUTCH RUPPERSBERGER

OF MARYLAND IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. RUPPERSBERGER. Mr. Speaker, I rise today to introduce a simple, straightforward bill to ensure that as the architects of the Intelligence Reform and Terrorism Prevention Act of 2004, we keep our promises regarding border security to the American people, the 9/11 Families who fought so tirelessly for passage of that legislation, and the members of the 9/11 Commission.

By architects, I am referring to Members of the House and Senate—both Democrat and Republican—who fought for Intel Reform and voted overwhelmingly to see that bill become law. I am also referring to the President, who signed that legislation into law on December 17, 2004.

Border security is not some esoteric term of art created by a bunch of lawyers writing complicated pieces of legislation that laymen will never understand. Border security means exactly what it says: secure our borders to prevent those who should not enter America from entering America. We wrote a good piece of legislation that prescribed additional funding for what we all agreed was needed—additional border security agents to implement our border security plan. We can write all the laws we want, but without boots on the ground in the place where we need them the most we cannot win the battle. This is as true in border security as it is in war.

I commend my colleagues on both sides of the aisle for passing Intel Reform last Congress. It was a tiresome fight well worth the result. It was not perfect, but the legislation signed into law by President Bush took a great leap forward to protect our American families and communities.

That bill included a provision to add 2,000 border security agents every year for five years beginning in 2006. In order for that to happen, the President would need to budget for 2,000 additional agents in the budget he submitted this week to Congress and Congress would need to appropriate that money to the Department of Homeland Security. Only two months after signing Intel Reform into law, this Administration has budgeted for only 10 percent of the border security agents we agreed were necessary.

I am introducing this bill to ensure that this legislative body keeps its word to the American people to provide 100 percent of the border security protection we decreed to be necessary. I urge House and Senate leadership to bring this bill to the floor immediately to rectify this discrepancy. I urge my colleagues to join me in funding this important priority and putting the boots on the ground where we said we need them to ensure our borders are secure.

CONGRATULATING NANCY TIPPINS ON THE OCCASION OF HER RETIREMENT

#### HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. BONNER. Mr. Speaker, I rise today to pay tribute to a dear friend and colleague who recently retired from Capitol Hill after three decades of exemplary service.

Nancy Tippins, a native of Auburn, Alabama, and graduate of Auburn University, first came to Washington, DC, in 1975 and accepted a position as legislative assistant on the staff of my predecessor, Representative Jack Edwards. Following Jack's retirement in 1984, Nancy was hired by my immediate predecessor, Representative Sonny Callahan, as his legislative director.

During her tenure with Sonny, Nancy became an invaluable member of the legislative team, a role made even more important in 1994 with Sonny's appointment as chairman of the House Appropriations Committee's Subcommittee on Foreign Operations, Export Financing, and Related Programs. She quickly developed a thorough and extensive knowledge of subcommittee operations and the appropriations process, and during Sonny's chairmanship became an integral part of the team drafting each year's Foreign Operations appropriations bill.

Nancy's hard work and dedication to her colleagues and to the people of south Alabama won her wide admiration from Members and staff alike, and she developed a strong and well-deserved reputation for being a team player and a reliable source for assistance and information.

It would be difficult to adequately describe the tremendous gifts and skill Nancy brought to our office in Washington. Admired by members and staff on both sides of the aisle, she brought great levels of knowledge to the job and displayed tremendous dedication to the residents of Alabama's First Congressional District. As my legislative director for the past two years, I found my new job as a member of this chamber made much easier as a result of the breadth of knowledge Nancy possessed. Having worked side-by-side with her for twenty years, it was not hard for me to develop a deep and genuine respect for Nancy and for her long string of professional successes. It is due in large part to Nancy Tippins that my first term continued what has become a time-honored tradition of dedicated public service for the people for south Alabama.

Mr. Speaker, while the retirement of Nancy Tippins marks a tremendous loss for my office and for her many friends in Washington, DC, it also marks the beginning of an exciting new chapter in Nancy's life. I ask my colleagues to join with me in saluting her for thirty years of exemplary public service to this body and to the people of Alabama. We extend to her our very best wishes and our heartfelt thanks for everything she has brought to this great city; my hope is for only the best of good health, happiness, and prosperity in the years ahead.

COMMENDING PALESTINIAN PEO-PLE FOR HOLDING FREE AND FAIR PRESIDENTIAL ELECTION

SPEECH OF

#### HON. ROY BLUNT

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES Wednesday, February 2, 2005

Mr. BLUNT. Mr. Speaker, free democratic elections in the Middle East are vital to our security and to the security of our democratic alies. Later today we will take up a resolution on the remarkable exercise in democracy in Iraq last Sunday. In fact January was a strong month for democracy in the region. On January 9, the Palestinian people went to the polls to select a new president. This election, in which Mahmoud Abbas was elected president of the Palestinian Authority, occurred in the wake of an ongoing violent intifada against lavacuum of credible leadership willing to confront terrorists in the West Bank and Gaza.

In December I traveled to Jerusalem and Ramallah to discuss preparations for the Palestinian presidential election. I found those Palestinian leaders I met to be eager to demonstrate to the world that their presidential election would be free and fair. And today we congratulate the Palestinian people for conducting a presidential election that has been widely regarded as both free and fair.

During the voting, Israel's efforts to balance the security of its people with easing the ability of Palestinians to vote in the West Bank and Gaza were vital to the success of the Palestinian election and Israel should be commended for its efforts.

The presidential election on January 9 represented a real opportunity for the Palestinian people to make a statement about their own future by rejecting violent and extremist leaders in favor of those who favor a moderate approach to lasting peace with Israel.

Today we commend President Mahmoud Abbas for his victory in the Palestinian presidential election. For many years the Palestinians have been without a leader committed to good faith negotiations toward peace with Israel. It is my sincere hope that the leadership of Mahmoud Abbas may finally change that.

The news today that the Israeli and Palestinian senior leaderships will hold a summit in Egypt is encouraging. We should all encourage this effort and hope that trust can be built among the region's leaders. However, as we have learned the hard way during this conflict, peace will not be achieved through words spoken at a table. A lasting peace will require paitence, strong leadership, and above all a realistic approach to the underlying issues. Few of these qualities existed in the previous leader of the Palestinian Authority. It is not clear that they exist in Mahmoud Abbas, but we are hopeful.

While Mahmoud Abbas once renounced the use of terrorism during his premiership in

2003, his message to Israel and to the international community during his election campaign was mixed. Now that he has taken office, results are to be expected in the form of a clear policy that terrorism and terrorist incitement in any form will not be tolerated within those territories under the control of the Palestinian Authority. I am hopeful, but only to the point of realistic expectation, that Mahmoud Abbas will take advantage of this opportunity and that a lasting peace will emerge.

THE SENIOR NUTRITION ACT

#### HON. LORETTA SANCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Ms. LORETTA SANCHEZ of California. I rise today to introduce the Senior Nutrition Act, a bill I also introduced last year as H.R. 1021.

The intent of the Senior Nutrition Act is very simply to help more seniors get the food they need by changing eligibility standards for the Commodity Supplemental Food Program, CSFP. Among other things, this will help offset the increasing cost of prescription drugs for many seniors.

The mission of the CSFP is to improve the health of both women with children and seniors by supplementing their diets with nutritious USDA commodity foods. More than 400,000 people participate in the CSFP each month, but it is important to note that the majority of these participants—more than 75 percent—are elderly and that number is on the rise.

The average senior citizen pays around \$1,000 per year on prescription drugs. Many seniors who rely solely on Medicare for their health care cannot afford to buy prescription drugs, and are forced to either stretch their prescriptions, or to choose between purchasing medication or food.

The Senior Nutrition Act will provide for the following:

- 1. In those areas in which the CSFP operates, categorical eligibility is granted for seniors who participate or is eligible to participate in the Food Stamp Program. No further verification of income would be necessary in such cases: and
- 2. The same income standard that is currently used to determine eligibility for women, infants, and children in the CSFP—185 percent of the Poverty Income Guidelines—would be applied to senior applicants as well. The current income eligibility standard for seniors has been capped by regulation at 130 percent.

Despite the addition of a Medicare prescription drug plan, many of our seniors still need help. We have an obligation to protect our most vulnerable citizens from having to make the awful choice of eating or taking their prescriptions. The Senior Nutrition Act will help protect the health and well being of our senior citizens.

PERSONAL EXPLANATION

#### HON. THOMAS H. ALLEN

OF MAINE

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. ALLEN. Mr. Speaker, on rollcall No. 17, I was unavoidably detained.

Had I been present, I would have voted "yea."

IN HONOR OF THE AUDUBON CENTER AT ERNEST E. DEBS PARK, LOS ANGELES, CA

#### HON. XAVIER BECERRA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. BECERRA. Mr. Speaker, it is with utmost pleasure and privilege that I rise today to recognize and pay tribute to the National Audubon Society on the occasion of its centennial year. Founded in 1905 to protect birds from adorning ladies hats, the Audubon Society has come a long way and has grown into a nationally-recognized environmental organization. Audubon's current mission is not only to conserve endangered bird species, but also to preserve their natural habitats and ecosystems. Through a network of bird sanctuaries and community-based nature centers across the nation, Audubon is cultivating a spirit of environmental preservation in our communities.

The recent inauguration of the Audubon Center at Ernest E. Debs Park in the City of Los Angeles, and within my congressional district, is a unique example of how Audubon effectively connects people to nature. The Audubon Center is in the heart of one of the densest urban areas of Los Angeles, with 25,000 people per square mile, nearly four times the city average. Despite this challenge, Audubon has constructed a first-class facility focused on sustainable features such as renewable energy sources, water conservation, recycled building materials, and native landscaping. In the fall of 2003, the Audubon Center at Debs Park was awarded the Leadership in Energy and Environmental Design Platinum Rating by the U.S. Green Building Council, recognizing it as the most environmentally friendly building in the United States, and the second greenest building in the world. This notable achievement, however, is not the only reason the Audubon Center is special to Los Angeles. Even more substantial is that the Audubon Center at Debs Park is a safe haven for 282 acres of wilderness, 200 species of birds and animals, and for the tens of thousands of young children and families of Los Angeles.

True to its vision of educating the public on conservation issues, the Audubon Society worked for over 10 years to establish a center that would bring nature to the City of Los Angeles. Thanks to the collaboration of public and private funding, Angelenos can today appreciate a unique nature experience in their own backyard at the Audubon Center at Debs Park. Working families, who often do not have the time or the means for nature trips, now have the option of utilizing the educational and family programs offered by the Center. The site is prime ground for exploring and observing nature through its 282 acres of native walnut-oak woodland, grassland, and coastal sage scrub. The 5,023 square foot facility on site, which houses the children's programming and the administrative offices, also offers a unique opportunity to learn about conservation through its sustainable features. The building is supported by a 100 percent solar electrical system completely independent of the electrical power grid serving the Los Angeles area. Recycled materials, including melted down handguns and scrap metal, were used in the facility's construction wherever possible. Sustainable building materials were also used for the interior: furniture and cabinets were made from organic wheat board and organic sunflower board, both rapidly renewable materials and alternatives to wood.

By remaining faithful to its founding mission, the National Audubon Society has accomplished another historic milestone as it celebrates its first century of existence. The Audubon Society has achieved an innovative and unique form of recreation, conservation, and education through the Audubon Center at Debs Park by maximizing nature, technology, and community support. Audubon plans to build similar centers nationwide to continue fostering the spirit of preservation that has inspired the over 12,000 visitors that have walked through the gates of the Audubon Center at Debs Park since its opening.

Mr. Speaker, as advocates, supporters, and friends begin centennial festivities nationwide, it is with great admiration and pride that I ask my colleagues to join me today in saluting the National Audubon Society for its visionary mission of engaging millions of people of all ages and inspiring them to celebrate and protect birds, nature, and life. At 100 years young, the National Audubon Society has much vigor and many ideas to share with all of us. We look forward to the next many years of fruitful endeavors with this great American Institution.

TRIBUTE TO REVEREND CHARLIE DOOLEY OF ST. LOUIS, MO

#### HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. CARNAHAN. Mr. Speaker, my remarks today are to pay tribute to the life of the Reverend Mr. Charlie Dooley, of St. Louis, MO, husband of Lonnie Merl Dooley. Rev. Dooley's life was defined by dedication to his work, his church, and his family. Rev. Dooley worked for McDonnell Douglas Co. for thirty years without missing a single day of work. His devotion to his job was matched by his devotion to his church. He served as pastor of the Revelation Missionary Baptist Church from 1966 until his retirement in 2004.

Mr. Speaker, the outpouring of support by family, friends, and the community made it evident to all what an extraordinary person Rev. Dooley was. His wife, children, fourteen grandchildren, and four great-grandchildren are a great testament to who he was as a person. My prayers are with his family, friends, and community today, as we honor his life.

INTRODUCTION OF THE REVOLUTIONARY WAR AND WAR OF 1812 BATTLEFIELD PROTECTION ACT AND THE REVOLUTIONARY WAR AND WAR OF 1812 BATTLEFIELDS COMMEMORATIVE COIN ACT

#### HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. HOLT. Mr. Speaker, I am pleased today to introduce two new bipartisan bills to provide more federal support for the preservation and protection of the endangered Revolutionary War and War of 1812 battlefields and related historic sites in New Jersey and many other states. I am especially pleased that U.S. Representatives JO ANN DAVIS, MAURICE HINCHEY, JOHN MCHUGH, ED MARKEY, JOHN SWEENEY, and MARK SOUDER have joined me as original cosponsors of this much-needed legislation.

In 1996, the Congress enacted the American Battlefield Protection Act, which established the American Battlefield Protection Program (ABPP) within the U.S. National Park Service (NPS). At the same time, the Congress directed the U.S. Park Service to conduct a comprehensive study of endangered Revolutionary War and War of 1812 sites for

submission to the Congress, to the U.S. Secretary of the Interior, and to the Office of Management and Budget. The U.S. Park Service study is to be completed in the coming spring and opened for at least a 90-day public comment period.

In my home state of New Jersey, many sites have already been surveyed and ranked highly for preservation. Preliminary surveys indicate that five New Jersey sites are in the most jeopardy (the Trenton, Princeton, and Monmouth Battlefields plus Fort Lee and the Second Springfield Battlefield) and three of those lie in the heart of the 12th Congressional District which I am privileged to represent.

Current federal law authorizes and appropriates monies from the Land and Water Conservation Fund (LWCF) for the preservation and protection of Civil War battlefields and related sites. One of my bills—The Revolutionary War and War of 1812 Battlefield Protection Act-would do the same for the hallowed battlefields of the Revolutionary War (e.g. Trenton, Princeton, Monmouth) and the War of 1812 and related historical sites that are also in danger of being lost forever. The enactment of this bill would allow National Park Service officials to collaborate with state and local governments, non-profit organizations, and concerned individuals to preserve protect endangered Revolutionary War and War of 1812 historical sites on the priority lists of the forthcoming Park Service study and to provide up to 50 percent of the costs, for example, of purchasing battlefield land threatened by sprawl.

My second bill-The Revolutionary War and War of 1812 Battlefields Commemorative Coin Act—would provide a non-federal fiinding mechanism to provide even more funding for the preservation and protection of endangered Revolutionary War and War of 1812 battlefields and related historical sites. It would authorize the minting of \$3.5 million in gold, silver, and clad commemorative coins to be sold to the public at surcharges of \$3-\$35, thus generating as much as \$23.5 million in seed money. Upon collection of these proceeds, the U.S. Treasury Secretary would transfer them to the non-partisan, non-profit Revolutionary War and War of 1812 Battlefields Foundation to be used exclusively for these expressed preservation and protection purposes. It would cost U.S. taxpayers nothing. The greatest beneficiaries of these two bills would be future generations of Americans who will be able to relive more of the history of the Revolutionary War era and the War of 1812, the early development of our Nation, and the critically important roles played by the people of New Jersey and the other original thirteen colonies and the Northwest Territory.

## HONORING THE LIFE OF REPRESENTATIVE CAROL BEGGS

#### HON. JERRY MORAN

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. MORAN of Kansas. Mr. Speaker, Carol Beggs was many things to many people. He was a friend, a husband, a father, a soldier, and a lawmaker. In all of these, and throughout all his life, Carol lived to serve others. As a young man in the Navy during World War II, then as a lieutenant colonel in the Army Reserves, Carol served his country. As a commissioner, then mayor, in Salina, Kansas, he served his city. And finally, in his ten years in the Kansas House, Carol served his state.

However, Carol Beggs was so much more than his titles. He was a man of thoughtfulness and action. He knew what he believed in,

and he stood by his convictions. Though he faced tough decisions and took hard stances, Carol never lost his sense of humor. Even when disagreeing with fellow lawmakers, he knew how to lighten difficult moments and bring smiles to colleagues' faces.

His quick wit kept people smiling and laughing, and so did his harmonica. In the halls of statehouse, staff and members alike fondly recall Carol's rendition of "Danny Boy" floating through the halls.

There's nothing quite like "Danny Boy" being played on a harmonica, and Carol doing the playing made it even more special. I'm sure all who knew him think of him when they hear that song, more so now that he has passed.

Carol Beggs passed away Wednesday night, January 19, after a long battle with pneumonia. He was 77 years old. His wife, Betty, says he went peacefully, in his sleep.

Carol and Betty had been married for 54 years and had two sons, Dan and David. Up until it closed in 2000, the whole family helped run Beggs Yamaha Cycleland, a motorcycle shop Carol opened in 1949.

I feel blessed to have known and to have served in the state legislature with Carol Beggs. He was a member of the Greatest Generation, and like so many of that generation, self was secondary to others. Entrepreneur, veteran, statesman, and loving family man. Carol leaves behind a legacy of courage, honor, and service—and his life serves as an example to all of us.

## SUPPORTING NATIONAL MENTORING MONTH

SPEECH OF

#### HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 8, 2005

Mr. SCHIFF. Mr. Speaker, I rise today in support of H. Res. 46, a resolution recognizing National Mentoring Month.

Across this country, millions of needy children wait patiently for mentors who will spend time with them, guide them and open the doors of opportunity for them.

Last week I rose on this Floor to speak of a resolution I introduced with my colleague—Congressman ToM OSBORNE from Nebraska—recognizing Big Brothers Big Sisters, our nation's most prominent mentoring organization. I spoke of my experiences as a Big Brother and the rewards that it has brought to me. Almost two decades after accepting the responsibility of being a Big Brother to another, I can tell you that it continues to be one of the most meaningful experiences of my life.

Eighteen years ago, I walked into the Big Brothers of Greater Los Angeles and I was matched with a young man, then 7 years old, named David. We started out going to the beach, the movies, roller skating and going to the park, or reading or talking with each other. He would criticize my taste in music, and I would tolerate his. We would spend time just catching up on each other's lives; and we became in a very short space of time, true brothers to each other. Now for almost two decades we have shared in each other's successes and failures and trials and tribulations. We have become family.

I cannot speak from the point of view of a mentee, but I can speak from the point of view of a mentor about how it has enriched my life. I encourage all Americans to pursue mentoring opportunities in their communities. Few things you will ever do will mean so much to another and to yourself.

David would have done well under any circumstance; but there are many, many young people who really need the benefit of a mentor, need the benefit of someone in their lives to help them gain direction, gain a sense of self-worth and a sense of purpose.

REMEMBERING AND HONORING MR. ORREN BEATY, JR.

#### HON. ED PASTOR

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. PASTOR. Mr. Speaker, I rise today in honor and remembrance of a dear friend, Orren Beaty, Jr., devoted husband, father, grandfather, public servant, and United States Veteran. Mr. Beaty passed away in Las Cruces, New Mexico on January 19, 2005 at the age of 85.

A native of Clayton, New Mexico, Mr. Beaty graduated from New Mexico State University in 1940, specializing in history and government. Soon after, he served our nation in World War II as a radar navigator instructor for the B–29 bomber, and later served in the Air Force during the Korean War.

After his service, Mr. Beaty began his political and journalism career as the Managing Editor of the Sun News in Las Cruces and as a reporter, political writer, and columnist for the Arizona Republic. In 1955, he moved to Washington, D.C. to work as an administrative assistant for then-Representative Stewart Udall (D-Arizona). Six years later, when Mr. Udall was appointed Secretary of the Interior, Mr. Beaty served as his principal aide. His steadfast work ethic, unfaltering integrity, and dedication to public service were duly recognized, and Mr. Beaty was awarded the Interior Department's Distinguished Service Award.

In 1967, President Lyndon B. Johnson appointed Mr. Beaty as the Federal Co-chairman of the Four Corners Regional Commission within the Department of Commerce, where he collaborated with the governors of the four Southwestern states to promote economic development. In 1969, Mr. Beaty continued to serve in a succession of journalism, political, and lobbying positions including working on the Democratic presidential campaigns of Senator Edmund S. Muskie of Maine and Senator George S. McGovern of South Dakota. Mr. Beaty also served as the Associate Editor for Congressional Quarterly and as the Director of Congressional Liaison for Amtrak.

In the mid-1970's, Mr. Beaty became the President and Executive Director of the National Association of Railroad Passengers in Washington, and from 1976 until his retirement in 1988, he served as the Assistant General Manager of Western Fuels Association Inc., a coal supplier to rural cooperatives and municipal utilities. Throughout his career, Mr. Beaty garnered the respect and admiration of those fortunate to have worked with him.

Mr. Speaker, please join me in honoring the strong sense of service to others that defined Mr. Beaty's life. His passing marks a great loss for his family and friends, and also for his community. I extend my deepest condolences to his beloved wife of 60 years, Mary Turner Beaty; to his three children, Dr. Orren Beaty III, Laura Beaty, and Susana Michael; and to his five grandchildren, extended family, and dear friends. Mr. Beaty lived his life with compassion, energy, and an unwavering commitment to the public good. He will be greatly missed by his family and many friends, and his legacy will forever live on in the memories and hearts of those who knew and loved him well.

CHINA'S ANTI-SECESSION LAW

#### HON. SHERROD BROWN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES Thursday, February 10, 2005

Mr. BROWN of Ohio. Mr. Speaker, the People's Republic of China is planning to enact an anti-secession law this March. This law will give China jurisdiction over Taiwan. It will give Chinese leaders the right to use force against Taiwan if China suspects secessionist activities in Taiwan. Predictably, Taiwan reacted to this proposed law with alarm. If Chinese leaders pass this law or persist in this effort, Taiwan will consider an anti-annexation law of its own as a proper response to China.

This battle of laws is unfortunate since cross-strait relations have been improving recently. On January 15 of this year, China and Taiwan agreed to have direct charter flights during the Chinese New Year holidays. Both sides also agreed to continue to work toward restoring direct trade, transport and postal ties—the "three links." Moreover, the economies of China and Taiwan have grown increasingly interdependent. Taiwanese businesses have invested \$100 billion in China. As many as one million Taiwanese now live and work on the mainland.

The latest controversy over China's proposed anti-secession law highlights once again the political division between China and Taiwan. China is seeking to unilaterally change the status quo in the Taiwan Strait and force its own style of government on the 23 million people of Taiwan. China has ignored Taiwan's contributions to China's strong economy and Taiwan President Chen Shuibian's gestures of goodwill.

China's latest move to enact the anti-secession law will not only destroy the goodwill between the peoples of Taiwan and China, it is also unnecessarily provocative and will escalate tension in the Taiwan Strait. The Taiwanese should not be expected to sit by and allow authoritarian Chinese government to mandate the annexation of democratic Taiwan. No freedom-loving people should be expected to do so.

By unilaterally changing the status quo in the Taiwan Strait, China is also challenging America's will to stand behind the Taiwan Relations Act, which says unequivocally that it is the policy of the United States "to resist any resort to force or other forms of coercion that would jeopardize the security, or the social or economic system, of the people of Taiwan."

The Taiwan Relations Act also affirms one of the objectives of the United States as "the preservation and enhancement of the human rights of all the people in Taiwan."

Mr. Speaker, it is my view that China's proposed anti-secession law is provocative and dangerous. It poses a grave threat to democracy, peace, and stability in the region.

HONORING THE LIFE AND ACCOMPLISHMENTS OF THE LATE OSSIE DAVIS

SPEECH OF

#### HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 9, 2005

Mr. ENGEL. Mr. Speaker, I rise today to recognize and celebrate the life of the great Ossie Davis. It a fitting time to pay tribute to this exemplary African American as February is African-American History month. Ossie Davis was a constituent and someone whose counsel I came to value over the past many years. Sadly, he has just passed away.

Just last December I saw Ossie Davis when he was being honored at the Kennedy Center in Washington for his life and career. I made a point of going that night so that I too could honor him. It was a fitting tribute to a man I first saw perform on Broadway when I was a child. Years later, I was thrilled to meet him and be his Representative in Congress.

Ossie Davis made significant contributions to our culture through his talented work in film and his noble involvement in civil rights issues and efforts to promote the cause of African Americans in the entertainment industry. A resident of Mt. Vernon and New Rochelle in New York, he wrote, acted, directed, and produced for the theatre and Hollywood, and was a central figure among black performers of the last five decades.

In 1963, Davis participated in the landmark civil rights demonstration, the March on Washington. Two years later, he delivered a memorable eulogy for his slain friend, civil rights leader Malcolm X. Davis also left behind a vast body of work in film. He starred in such movies as The Joe Louis Story, Slaves, Let's Do It Again, Grumpy Old Men and Dr. Dolittle, as well as Spike Lee's School Daze, Do the Right Thing, and Jungle Fever. As a director, he is probably best remembered for 1970's gritty Cotton Comes to Harlem, a precursor to the blaxploitation films of the decade, and 1973's Gordon's War.

I am also pleased to be a cosponsor of a resolution that honors the great life and work of the great Ossie Davis. Through his talents and dedication, Ossie Davis, like many other African Americans, has left his mark as a positive leader in his community and significant contributor to our culture.

As we reflect on the contributions of innumerable African-Americans during this month, I want to commend his work and his life to my colleagues. I have lost a valued constituent and America has lost a great leader and entertainer.

INTRODUCTION OF H. CON. RES. 53, EXPRESSING THE SENSE OF CONGRESS REGARDING THE ISSUANCE OF THE 500,000TH DE-SIGN PATENT

#### HON. JOHN CONYERS, JR.

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 10, 2005

Mr. CONYERS. Mr. Speaker, it is my pleasure to announce that on December 12, 2004, the United States Patent and Trademark Office issued the 500,000th design patent to DaimlerChrysler Corporation for the design of the Chrysler Crossfire.

As the Ranking Member of the Judiciary Committee, I am well aware of the importance of intellectual property protection to our economy. Intellectual property rewards and encourages innovation and advancement; without it, we would not have the high-tech, biotech, and everyday inventions that we have come to rely upon in everyday life.

I also am proud of this patent because I happen to represent Detroit, the automobile capital of the world. It is no secret that Detroit boasts the finest auto workers in the world, and it should be no surprise that it is the design of an American car that received the award.

It is for these reasons that I, along with Judiciary Committee leaders on intellectual property and several members of Michigan's congressional delegation, are introducing a resolution recognizing this occasion. The resolution expresses the sense of Congress that the Patent and Trademark Office has contributed significantly to the Nation's economy and that DaimlerChrysler and its employees should be commended for their achievement.

I look forward to working with my colleagues to secure the passage of this legislation.

# Daily Digest

#### **HIGHLIGHTS**

Senate passed S. 5, Class Action Fairness Act.

## Senate

#### Chamber Action

Routine Proceedings, pages \$1219-\$1310

Measures Introduced: Twenty-eight bills and three resolutions were introduced, as follows: S. 341–368, S. J. Res. 3, and S. Res. 47–48. Pages \$1259-60

Beine, Shoreline Credit Union, Two Rivers, Wisconsin, on behalf of the Credit Union National Association; Maria T. Vullo, Paul, Weiss, Rifkind, Wharton and Garrison, LLP, New York, New York; Malcolm Bennett, International Realty and Investments, Inc., Los Angeles, California, on behalf of National Multi Housing Council and National Apartment Association; Phillip L. Strauss, National Child Support Enforcement Association, San Francisco, California; David McCall, United Steelworkers of America, AFL—CIO, Columbus, Ohio; R. Michael Stewart

Menzies, Sr., Easton Bank and Trust Company, Easton, Maryland, on behalf of the Independent Community Bankers of America; Elizabeth Warren, Harvard Law School, Cambridge, Massachusetts; and Todd J. Zywicki, Georgetown University Law Center, Washington, D.C.

#### INTELLIGENCE

Select Committee on Intelligence: Committee held closed hearings on intelligence matters, receiving testimony from officials of the intelligence community.

Committee recessed subject to call.

# House of Representatives

### Chamber Action

Measures Introduced: 50 public bills, H.R. 739–788; 1 private bill, H.R. 789; and 7 resolutions, H. Con. Res. 53–56, and H. Res. 84–86, were introduced.

Additional Cosponsors:

Page H584

Reports Filed: No reports were filed today.

Speaker: Read a letter from the Speaker wherein he appointed Representative Fossella to act as Speaker pro tempore for today.

Page H525

REAL ID Act of 2005: The House passed H.R. 418, to establish and rapidly implement regulations for State driver's license and identification document security standards, to prevent terrorists from abusing the asylum laws of the United States, to unify terrorism-related grounds for inadmissibility and removal, and to ensure expeditious construction of the San Diego border fence, by a yea-and-nay vote of 261 yeas to 161 nays, Roll No. 31. The measure was also considered yesterday, February 9. Pages H527-66

According to the provisions of H. Res. 75, the manager's amendment (printed in part A of H. Rept. 109–4) was adopted and considered as the original bill for the purpose of amendment.

Page H527

Rejected the Reyes motion to recommit the bill to the Committee on the Judiciary with instructions to report the bill back to the House forthwith with an amendment, by a recorded vote of 195 ayes to 229 noes, Roll No. 30.

Pages H564-66

Agreed to:

Sessions amendment (No. 1 printed in part B of H. Rept. 109–4) that promotes the goal of 100 percent repatriation of all aliens ordered deported by clarifying obligations under the Department of Homeland Security's existing delivery bond authority;

Pages H540–44

Castle amendment (No. 2 printed in part B of H. Rept. 109–4) that requires the Secretary of Homeland Security to enter into the appropriate aviation security screening database the appropriate back-

ground information of any person convicted of using a false drivers' license for the purpose of boarding an airplane; and

Pages H544-46

Kolbe amendment (No. 3 printed in part B of H. Rept. 109–4) that adds a Title III to the bill regarding Vulnerability and Threat Assessment, Ground Surveillance Pilot Program, Enhancement of Border Communications Integration and Information Sharing, and adds the Judiciary Committee to the reporting requirements and removes references to the "Select" Committee on Homeland Security.

Pages H546-48

Rejected:

Nadler amendment (No. 4 printed in H. Rept. 109–4), that sought to strike section 101 of the bill regarding preventing terrorists from obtaining asylum (by a recorded vote of 185 ayes to 236 noes, Roll No. 28) (Earlier, objection was heard on the unanimous consent request to modify the amendment);

Pages H548–53, H558

Farr amendment (No. 5 printed in H. Rept. 109–4) that sought to strike section 102 regarding the waiver of laws necessary for improvements of barriers at borders (by a recorded vote of 179 ayes to 243 noes, Roll No. 29).

Pages H553, H558–59

H. Res. 75, the rule providing for further consideration of the bill was agreed to by a yea-and-nay vote of 228 yeas to 198 nays, Roll No. 27.

Pages H535-36

Meeting Hour: Agreed that when the House adjourn today, it adjourn to meet at noon on Monday, February 14; and further that when it adjourn on that day, it adjourn to meet at 12:30 p.m. on Tuesday, February 15 for morning hour debate. Page H568

Calendar Wednesday: Agreed to dispense with the Calendar Wednesday business of Wednesday, February 16.

Page H568

United States Group of the North Atlantic Assembly appointment: The Chair announced the Speaker's appointment of the following Members to

the United States Group of the North Atlantic Assembly: Representative Hefley, Chairman; Representative Burton, Vice Chairman; and Representatives Regula, Gillmor, Ehlers, Bilirakis, Shimkus, and Reynolds.

Page H575

# Congressional Record (USPS 087-390). The Periodicals postage is paid at Washington, D.C. The public proceedings of each House of Congress as reported by the Official Report through

of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United

States Code, and published for each day that one or both Houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed one time. Public access to the Congressional Record is available online through GPO Access, a service of the Government Printing Office, free of charge to the user. The online database is updated each day the Congressional Record is published. The database includes both text and graphics from the beginning of the 103d Congress, 2d session (January 1994) forward. It is available through GPO Access at www.gpo.gov/gpoaccess. Customers can also access this information with WAIS client software, via telnet at swais.access.gpo.gov, or dial-in using communications software and a modem at 202-512-1661. Questions or comments regarding this database or GPO Access can be directed to the GPO Access User Support Team at: E-Mail: gpoaccess@gpo.gov; Phone 1-888-293-6498 (toll-free), 202-512-1530 (D.C. area); Fax: 202-512-1262. The Team's hours of availability are Monday through Friday, 7:00 a.m. to 5:30 p.m., Eastern Standard Time, except Federal holidays. ¶The Congressional Record paper and 24x microfiche edition will be furnished by mail to subscribers, free of postage, at the following prices: paper edition, \$252.00 for six months, \$503.00 per year, or purchased as follows: less than 200 pages, \$10.50; between 200 and 400 pages, \$21.00; greater than 400 pages, \$31.50, payable in advance; microfiche edition, \$146.00 per year, or purchased for \$3.00 per issue payable in advance. The semimonthly Congressional Record Index may be purchased for the same per issue prices. To place an order for any of these products, visit the U.S. Government Online Bookstore at: bookstore.gpo.gov. Mail orders to: Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954, or phone orders to 866-512-1800 (toll free), 202-512-1800 (D.C. area), or fax to 202-512-2250. Remit check or money order, made payable to the Superintendent of Documents, or use VISA, MasterCard, Discover, American Express, or GPO Deposit Account. \( \) Following each session of Congress, the daily Congressional Record is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. With the exception of copyrighted articles, there are no restrictions on the republication of material from the Congressional Record.

POSTMASTER: Send address changes to the Superintendent of Documents, Congressional Record, U.S. Government Printing Office, Washington, D.C. 20402, along with the entire mailing label from the last issue received.
