We were assured by USDA a timely response and subsequently we are offering this legislation to expedite their focus on this important issue. We hope our congressional support assists the Secretary in making his decision.

I urge my colleagues to cosponsor and support this legislation, which would allow the growers of the Ugly

By Mrs. HUTCHISON:

S. 533. A bill to amend the Internal Revenue Code of 1986 to clarify that a NADBank guarantee is not considered a Federal guarantee for purposes of determining the tax-exempt status of bonds; to the Committee on Finance.

Mrs. HUTCHISON. Mr. President, today I am pleased to introduce a bill to improve the effectiveness of the North American Development Bank (NADBank), which supports water and other important environmental projects along the border region. My bill enhances the capabilities of the NADBank by clarifying IRS rules in order to expand the ways it can help our communities.

The NADBank was created with a mandate to improve the quality of life along the border by financing environmental related projects, such as wastewater treatment. The tools it was given have been limited, and as a result has restricted its effectiveness. To address this issue, the NADBank has evolved over the years with a wider array of products to offer. Legislation I sponsored in the Senate during the last Congress and which became law, for example, allows the NADBank to offer a new combination of grants and loans.

We can do more to reform the NADBank and increase its effectiveness. One tool the NADBank can offer is loan guarantees, which communities could use for debt they issue. The guarantee would increase the credit rating of the debt and result in lower interest rates the issuer would need to offer, thereby making a project more affordable. Under current law, however, the NADBank's guarantee is considered a Federal subsidy. A general principle of Federal tax law is that one cannot receive more than one Federal subsidy. Since communities will always prefer to receive the benefit of a tax-exempt municipal status for their bonds, they never take advantage of the NADBank's loan guarantee. Due to this situation, the NADBank has never used its ability to guarantee a bond.

It does not make sense to consider a guarantee from the NADBank, which is an international institution, as a United States federal government guarantee. Not only does it not make sense, it also inhibits the NADBank's ability to help border communities. My bill addresses this issue by clarifying the tax code to ensure a NADBank guarantee is not considered a federal subsidy. The NADBank guarantees will be treated like those from the Federal Housing Administration, the Veterans' Administration, and the Federal National Mortgage Association and other government-sponsored entities. This will give our border communities an important new tool to use as they address their infrastructure and environmental needs.

It is to everyone's benefit to develop ways to improve the quality of life for our citizens. This is particularly important along our southern border, which faces numerous challenges. I hope my colleagues will support this bill and continue our efforts to make the NADBank as effective as possible.
