

simply by not smoking, exercising regularly, and eating a nutritionally-balanced diet because smoking, high blood pressure, obesity, and sedentary lifestyles are major risk factors for heart disease in us all, particularly women.

As former Chairman of the Energy and Commerce Health Subcommittee, I am pleased to have been able to help double funding for the National Institutes of Health and support the work done by its National Heart, Lung, and Blood Institute, which currently is sponsoring a public awareness campaign on women and heart disease called "The Heart Truth." This initiative is designed to spread the word that heart disease is not just a man's disease, motivate women to take their heart health seriously and encourage them to lower their risk for cardiovascular disease.

Mr. Speaker, I believe that we should help raise public awareness about women's heart health issues and support policies which promote the early diagnosis and proper treatment of women with cardiovascular disease. I hope that our colleagues join me in bringing attention to the importance of women's heart health. Our mothers, wives, sisters, and daughters depend on it.

EXPRESSING THE SENSE OF CONGRESS REGARDING THE TWO-YEAR ANNIVERSARY OF THE HUMAN RIGHTS CRACKDOWN IN CUBA

**HON. SAM FARR**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 27, 2005*

Mr. FARR. Mr. Speaker, I have long been staunch supporter of human rights throughout the world. Consistent with my strong record opposing human rights abuses around the world, I deplore the draconian actions President Castro has taken to curb the civil rights

of Cubans. Unfortunately, it is impossible to have a legitimate debate on human rights abuses in Cuba because of the extreme politicalization of U.S.-Cuba policy that the Bush Administration has championed.

If we are truly serious about instilling a democratic influence and respect for the rule of law, U.S. policy should permit unrestricted travel to the island that is only 90 miles from our shores. Cuban Americans should be able to freely visit their loved ones, tourism should be allowed to flourish, cultural and educational exchanges should be encouraged, and agricultural trade should be unrestricted, thereby creating new markets for U.S. farmers and growers. Unfortunately, the current policy towards Cuba is not only counterproductive to American economic interests, but actually helps prop up President Castro by continuing to isolate Cubans from the rest of the world.

The House of Representatives should be pressing far greater political and economic freedoms for Cubans that would truly improve their human rights instead of meaningless resolutions that reinforce a flawed strategy.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for

printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, April 28, 2005 may be found in the Daily Digest of today's RECORD.
