

with Sperry Gyroscope Company, where he directed development of fire control, guidance, communications, and command and control systems. He also held key technical, scientific and administrative positions with Federal Telecommunications Laboratories of ITT, Flight Research Company, and Newport News Shipyard and Drydock Company.

Before launching his engineering career, Mr. Zable was a professional football player for the Richmond Arrows and the New York Giants. He went on to receive numerous sports honors, including the 1962 SPORTS ILLUSTRATED Silver Anniversary All-American Team and induction into William and Mary's Hall of Fame in 1969. In 1971, he established the Walter J. Zable/San Diego Chapter of the National Football Foundation and College Hall of Fame (NFFCHF) to help preserve the genuine sportsmanship and integrity exhibited in high school and college football.

He credits the Boston school system for his success in business, because "if it weren't for athletics during the depression years, it would have been difficult to go to college," said Mr. Zable, who received a full football scholarship from the College of William and Mary. Today, he's still dedicated to helping other young student-athletes realize their dreams and reach their full academic and athletic potential through the NFFCHF local chapter, which is among more than 100 chapters in the country.

Recognized as Cubic's largest and most visible community relations project, the Walter J. Zable/San Diego Chapter has helped further the careers of the hundreds of honorees, including sports giants such as former San Diego Charger Junior Seau and Mark Malone, a sports broadcaster and former Pittsburgh Steelers quarterback. In 1987, the NCAA acknowledged his contribution to athletics by naming Walter Zable a winner of the Teddy Roosevelt Award, its most prestigious honor. Other winners of this award have included President George Bush, Dwight D. Eisenhower and Senator Leverett Saltonstall.

In addition to his work in helping young student-athletes, Walter Zable and his company give generously to charitable causes, most of them benefiting children. He has also set up a \$10 million endowment that will become effective for the College of William and Mary upon the deaths of Walter and his wife, Betty.

Walter Zable is a humble man who eschews the limelight and would rather see the focus be on his company and its hardworking employees. However, I think even he would be willing to make an exception for this special recognition for reaching his 90th birthday. I ask my colleagues to join me in congratulating Walter J. Zable on attaining this significant milestone and wish him many more years in the company of his loving wife and family.

H.R. 1279, THE GANG DETERRENCE AND COMMUNITY PROTECTION ACT

HON. BETTY McCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 17, 2005

Ms. McCOLLUM of Minnesota. Mr. Speaker, I rise to express my disappointment with H.R. 1279, the Gang Deterrence and Community Protection Act.

The Gang Deterrence and Community Protection Act will neither deter youth from entering gangs nor add protections to our community. This legislation increases the use of the death penalty, creates new mandatory minimum sentences, and subjects more juveniles to trial as adults. I believe strongly that criminals must be punished and that we need to do more to deter our youth from entering gangs. However, research shows that these measures do not have their intended effect of reducing crime, have been misapplied based on race, are not the assistance requested by law enforcement, and do not address the reasons given by youth for their participation in gangs. In fact, this bill does nothing to address the real problems facing our youth or the needs of local law enforcement working with youth on a daily basis.

This year, in order to make room for tax cuts for the wealthy, the President and House Republicans have chosen to cut the very programs that provide hope and opportunity for youth. In his Fiscal Year 2006 budget, the President proposed eliminating funding for Safe and Drug Free Schools and freezing funding for after school programs. He also proposed eliminating funding for TRIO programs, which offer the opportunity for disadvantaged students to access higher education and for many job training programs currently serving youth in our communities.

Republicans have also chosen to cut funding for local law enforcement by eliminating funding for the COPS program and Byrne grant dollars which are vital to ensuring our peace officers have the training and manpower they need to keep our communities safe. In addition, Republican Leadership has failed to keep promises to fund juvenile justice programs that promote prevention and early intervention.

Investments in our youth and in local law enforcement will reduce crime and improve the safety of our neighborhoods. Law enforcement needs adequate equipment, training, and personnel. In order to succeed, children need recreational opportunities, a quality education, and role models to provide a positive example. Families need to have safe housing, access to health care, and the opportunities for good-paying jobs. Our priority should be investing in families—not prisons. For these reasons, I opposed H.R. 1279.

FREEDOM FOR ALFREDO MANUEL PULIDO LÓPEZ

HON. LINCOLN DIAZ-BALART

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 17, 2005

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I rise today to speak about Alfredo Manuel Pulido López, a political prisoner in totalitarian Cuba.

Mr. Pulido López is a dentist, an independent journalist and a member of the Christian Liberation Movement. He believes in writing and speaking the truth about the nightmare that is the Castro regime. As a dentist, trained in protecting and nurturing human life, he could not tolerate the tyrant's incessant abuse of Cuban people. He understood the human condition and he knew that freedom is infinitely superior to the ills of tyranny and repression.

On March 18, 2003, as part of the dictator's condemnable crackdown on peaceful pro-democracy activists, Mr. Pulido López was arrested because of his belief in liberty over repression. In a sham trial, he was sentenced to 14 years in the inhuman, totalitarian gulag.

Mr. Pulido López' wife, Rebeca Rodríguez, described the abhorrent treatment of her husband in a phone call with Reporters Without Borders. She said:

My husband has 11 ailments, seven of them chronic. They include high blood pressure, liver problems, malnutrition and migraines aggravated by cervical osteoporosis. He has permanent bronchitis which affects his breathing and gastric problems that are the cause of rectal bleeding. I don't know all of the problems. The prison officials know. But my husband has not been hospitalized since August 2004. He is in a critical condition and that's the price paid by all those who have wanted to defend human rights in Cuba.

Reporters Without Borders also reports that Mr. Pulido López he has been placed in solitary confinement. According to the Department of State's Country Reports on Human Rights Practices for 2004, he has been "held in 'punishment cells,' which usually were located in the basement of a prison, with continuous semi dark conditions, no available water, and a hole for a toilet." This is in addition to the grotesque depravity of the gulag that also includes beatings, isolation, denial of medical treatment to detainees and other forms of condemnable abuse.

Mr. Pulido López is a brilliant example of the heroism of the Cuban people. No matter how horrifically brutal the consequences of a dignified struggle for liberty, the totalitarian dungeons are full of men and women of all backgrounds and ages who represent the best of the Cuban nation.

Mr. Speaker, we must speak out and act against this abominable disregard for human rights, human dignity, and human freedom just 90 miles from our shore. My Colleagues, we must demand the immediate and unconditional release of Alfredo Manuel Pulido López and every political prisoner in totalitarian Cuba.

PERSONAL EXPLANATION

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 17, 2005

Ms. LEE. Mr. Speaker, I was unavoidably detained on June 16, 2005 during rollcall vote No. 268. Had I been present, I would have voted "aye" on final passage of H.R. 2862, the FY06 Science, State, Justice, Commerce appropriations bill.

COMMENDING COAST GUARD AUXILIARY FLOTILLA 11-08 D1NR AT AIR STATION CAPE COD

HON. WILLIAM D. DELAHUNT

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 17, 2005

Mr. DELAHUNT. Mr. Speaker, I rise today to commend the members of the Coast Guard Auxiliary Flotilla 11-08 D1NR for their distinguished service at Air Station Cape Cod. As a

former member of the Coast Guard Reserve, and as Co-Chair of the Congressional Coast Guard Caucus, I know full well the vital role that Auxillarists carry out. They are an integral and valued part of the Coast Guard family.

I commend to my colleagues the following article from *The Navigator*, which showcases the dedicated efforts of Auxillarists like the men at Air Station Cape Cod.

[From the *Navigator*, Spring 2005]

VALUED SERVICE

CAPE COD.—Members of Auxiliary Flotilla 11-08 DiNR just surpassed the one year milestone in their volunteer service to Coast Guard Air Station Cape Cod.

A dedicated team of seven Auxilarists has been providing an extremely valuable service in the Aviation Engineering Department of Air Station Cape Cod since November 2003.

By performing administrative tasks, which require meticulous attention to detail and frequent repetition, they freed up over 300 work hours that would have otherwise been a burden on the over tasked active duty workforce.

Aircraft maintenance technicians, who also serve as flight crewmembers, are frequently task-saturated with flying duties related to search and rescue, law enforcement, and Homeland Security missions.

When they are not flying, the active duty workforce is fully employed with HU-25 and HH-60 maintenance responsibilities. The regular presence of trained volunteers to assume critically important administrative functions has had an extremely positive effect on aircraft and crew readiness postures.

Working together in cohesive teams, Auxiliary volunteers dedicate as much as 15 hours per week to administrative tasks related to aircraft maintenance.

One of the first and most successful projects this team took on was the monthly audit of the aircraft maintenance logbooks for the eight aircraft assigned to Air Station Cape Cod.

Working teams of two, these Auxillarists compared the computer printed configuration reports of all installed components to the detailed component history reports. Ensuring that the lists of installed components matched the component history reports was an arduous task requiring great attention to detail.

An accurately performed logbook audit required that each component be cross checked for the proper serial number and part number against two computer generated reports for all major airframe and engine installations. With over 240 such components per aircraft, this monthly review normally consumes eight to ten man hours per month.

Another vital maintenance support role that the Auxiliary recently performed was a comprehensive audit of the technical publications library.

Semi-annual audits of the technical publications library are required to ensure that vital technical publications are updated with the latest revisions. Not only did the dedicated Auxiliary team complete the audit, they also performed several page changes to aircraft technical manuals that are used by technicians on a regular basis.

The Auxiliary team drew from their diverse work experience to develop processes that increased the efficiency of each hour dedicated to administrative actions. In the classic case of working smarter to avoid the need to work harder, they created a photographic archive of all tools requiring calibration and cataloged them in an easy to use binder. This made tracking tool locations and calibration intervals much easier.

With aircraft tools and avionics test sets distributed among five different shops and

two separate hangars, the Auxiliary team had a daunting task ahead of them.

Fortunately, their previous work experience lent itself well to the arduous task and they made great progress. One of their first initiatives was to catalog each tool according to its location and function in a binder complete with digital photographs which they took themselves. This greatly eased the burden of sorting through the Precision Measurement Equipment Lab (PMEL) report which lists the items that were due for calibration.

By relieving active duty members of certain administrative functions, the Auxiliary team has significantly enhanced productivity and morale. Auxiliary members committed over 400 hours in direct support of aviation maintenance activities. Representing a significant departure from the traditional uses of Auxiliary members at air stations, the innovative management practices of this Auxiliary team made it possible for active duty members to be relieved of support roles and assigned to maintenance or flight related tasks.

This was only possible because the highly talented Auxiliary team gained the skill and ability to act autonomously within the scope of their responsibilities after receiving initial training and guidance from active duty members.

The Auxiliary members also represent a degree of continuity that, as a result of frequent job rotations within the enlisted workforce, has historically resulted in frequent learning curves. Realizing the impact of their commitment, technicians on the hangar deck accept the Auxiliary members as part of the team that makes Air Station Cape Cod one of the best units in the Coast Guard.

INTRODUCTION OF NATIVE AMERICAN SMALL BUSINESS DEVELOPMENT ACT

HON. TOM UDALL

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Friday, June 17, 2005

Mr. UDALL of New Mexico. Mr. Speaker, it gives me great pleasure to rise today to introduce legislation to provide assistance to Native American entrepreneurs throughout the country. This bill authorizes grants that Small Business Development Centers (SBDCs) can apply for to provide assistance with outreach, development, and enhancement on Indian lands of small business startups and expansions that are owned by Indian tribe members, Alaska Natives, or Native Hawaiians.

I introduced this legislation during the 107th and 108th Congresses and it passed the House overwhelmingly both times but it did not pass the Senate. I am pleased to reintroduce this legislation today and wish to thank Small Business Committee Chairman MANZULLO, Ranking Member VELÁZQUEZ, as well as Representatives OBERSTAR, CASE, GRIJALVA, ABERCROMBIE, McDERMOTT, REYES, HONDA, HASTINGS, PALLONE, YOUNG, TOWNS, MATHESON, HERSETH, CUBIN, MCCOLLUM, and MORAN for their support.

While economic data shows much uncertainty for our national economy, the effects from our struggling economy are desperate on our Native American lands. The unemployment rate is over 10 times the national average on Native American lands and Native Americans and Native Alaskans have almost

double the poverty rate than the national average.

There is, however, a bright spot. Small business creation has drastically increased on tribal lands, which has led to job growth in these areas. In fact, in recent decades, Native American business growth and gross receipts have dwarfed overall small business growth rates and total gross receipts. You can see why there is a reason to be optimistic. As we all know, small businesses are the fuel for the engine of economic growth. That is why it is so imperative that we take steps to help ensure that small business development reaches the places in this country where economic prosperity has yet to be realized.

My bill ensures that Native Americans, Native Alaskans and Native Hawaiians seeking to create, develop and expand small businesses, have full access to the counseling and technical assistance available through the SBA's SBDC program. The business development tools offered by the SBDCs can assist Native Americans with the information and opportunity to build sustainable businesses in their communities.

Additionally, this legislation requires a state receiving a small business development center program grant to request the advice of the governing bodies of Indian tribes, corporations organized pursuant to the Alaska Native Claims Settlement Act and other Alaska Native entities, and Native Hawaiian organizations, as appropriate, on how best to provide assistance to such members, Alaska Natives, and Native Hawaiians and where to locate satellite centers to provide—such assistance. This ensures assistance from the SBDC that is culturally sensitive and appropriate.

It is clear we can do more to aid Native American entrepreneurs. Not enough has been done to assist Native Americans in building their businesses, which in turn helps benefit their communities. I hope to change that with my proposal.

I look forward to passage of this bill, and to the day it is signed into law.

ON THE PASSING OF MS. BRENDA PILLORS, CHIEF OF STAFF TO REP. EDOLPHUS TOWNS

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 17, 2005

Ms. LEE. Mr. Speaker, I wish to send my deepest condolences and prayers to the family, friends and colleagues of my good friend Brenda Pillors, especially to her partner Mr. Marwan Burgan and my good friend and colleague Congressman ED TOWNS from New York.

I first met Brenda at the very beginning of her congressional career over 25 years ago when I was a congressional staffer to my predecessor Representative Ronald V. Dellums and she was a Congressional Black Caucus fellow. Her legacy of service to this institution, the CBC, and the 10th Congressional District of New York is one of the most memorable careers during a truly historic era. Serving as legislative assistant and eventually as legislative director, Brenda was instrumental
