

anniversary of his humanitarian work in Tibet. Since 1995, Dr. Lieberman, an ophthalmologist and clinical professor at University of California at San Francisco, has traveled back and forth from Tibet as the founder of the non-profit, non-governmental organization called Tibet Vision Project.

Dr. Lieberman was truly inspired after meeting His Holiness the Dalai Lama in 1990 and discussing the high occurrence of preventable blindness plaguing the people of Tibet. Due to the high altitudes of Tibet and the harmful UV radiation that permeates the "roof of the world," cataracts progressively erode the sight of many Tibetans.

Tibet Vision Project's primary goals are twofold. First, the Project seeks to provide state-of-the-art eye treatment to a population suffering from cataract blindness. Second, Tibet Vision Project aims to assist Tibetans in developing their own medical resources to eliminate cataract blindness throughout Tibet by the year 2020.

Mr. Speaker, Dr. Lieberman spends almost two months in Tibet each year, traveling by Land Cruisers to remote and underserved rural areas, an eye camp comprised of 6–8 Tibetan nurses and technicians, and an entire mobile hospital unit complete with microscopes, lens implants, sutures and medicines, provides free eye care to everyone who visits. During the first three out of five days of eye camp, 250 to 400 patients—who travel by yak or on foot—are evaluated. Eyeglasses are disbursed as appropriate and children receive corrective lenses. As many as 150 patients are provided free, sight-restoring lens implant surgery—all performed by Tibetan surgical teams.

Along with the 2000 people whose vision has been restored by the Tibet Vision Project, 20 Tibetan surgeons provide great hope to the people of Tibet. Dr. Lieberman and his colleague Dr. Melvyn Bert work with an extension of the Tibet Vision Project at the School for Blind Children in Lhasa, Tibet, supervising medical and referral needs to ensure the well-being of the children.

In conjunction with the Swiss Red Cross, Tibet Red Cross and Tilganga Eye Centre of Kathmandu, Nepal, Dr. Lieberman gains greater access to remote underserved populations in Tibet, meanwhile creating infrastructure for long term solutions to eye problems in Tibet.

Mr. Speaker, in the next ten years, Tibet Vision Project aspires to help Tibetans become completely self-sufficient in eye care, providing competent and compassionate care to their own people. Dr. Lieberman and his crew are developing pilot projects for primary eye care such as accessibility to reading glasses, treating simple eye infections, and referring cataract cases to larger towns for surgery.

Originally from Baltimore, Maryland, Dr. Lieberman was trained at Johns Hopkins University before coming to the West Coast. While in the United States, he divides his time treating glaucoma in his offices in San Francisco, San Mateo and Santa Cruz. He is currently considering spending more time in Tibet, expanding his visits from two to four a year.

Despite the struggle to work with a budget of \$50,000 a year and the obstacles of setting up remote eye camps, on rough terrain with poor roads, and dealing with the Chinese medical system, Lieberman and his teams continue their much needed work. Dr.

Lieberman's visits to Tibet are nothing of miraculous. I admire his incredible, indefatigable work and his leadership in organizing so many others to help him on this quest. I am delighted that Tibet Vision Project has been so successful in its tireless work to help the people of Tibet.

I would like to recognize Dr. Lieberman with some words from His Holiness the Dalai Lama, which summarizes the recognized need and gratitude for Dr. Lieberman, his colleagues, and his trainees' efforts.

"In Tibetan Buddhist culture numerous positive references equate clear sight with wisdom and knowledge and obstructions to it with ignorance and negativity. The quest for the clear-sightedness of wisdom is priced on par with developing the kind heart of compassion. But these largely concern cultivating the mind.

By voluntarily training Tibetan doctors and nurses in modern eye care he and his colleagues have contributed to restoring the sight of thousands of the rural poor in Tibet. What a great act of kindness!"

Mr. Speaker, it is my belief that Dr. Lieberman's generosity stems from his faith and practice of Judaism and Buddhism. In the spirit of gratitude and continued support for his humanitarian work, I ask my colleagues to join me in congratulating Dr. Marc Lieberman in the tenth year of Tibet Vision Project.

DOMINICAN REPUBLIC-CENTRAL AMERICA-UNITED STATES FREE TRADE AGREEMENT IMPLEMENTATION ACT

SPEECH OF

HON. LINCOLN DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 27, 2005

Mr. DAVIS of Tennessee. Mr. Speaker, I am a Conservative Democrat representing a rural area of Tennessee, and I rise today in opposition to the Dominican Republic-Central America Free Trade Agreement.

Mr. Speaker, I will support any trade agreement that results in American job growth and allows our manufacturers and farmers to export their products to new, fair, and competitive markets in other countries. In fact, I have supported previous trade agreements with Chile, Singapore, Australia, and Morocco. But my constituents and I are fearful of this particular agreement.

Our fear is that the only export we will see in this country because of CAFTA is American jobs. This fear is based on our real life experience with a similar agreement that sounds much like this one. That agreement, of course, was NAFTA. My congressional district has been devastated by the loss of jobs since NAFTA's passage.

You know, I've been told a lot of different things by a lot of different folks about why I should support this agreement. One argument was that supporting CAFTA is the Christian thing to do. Well, I am a devout Christian, and I for one do not think exploiting cheap labor for corporate profits is particularly Christian. So, I have a message for corporate America: the real Christian thing for you to do is provide wages to your new Central American employees that are equivalent to wages of the employees in my district who will lose their jobs

as a result of this Central American Free Trade Agreement.

I strongly urge all my colleagues who truly care about the American working man and woman to reject this trade agreement, and let's work on creating new jobs in this country instead of outsourcing the ones we currently have.

INTRODUCTION OF THE NORTH MAUI COASTAL PRESERVATION ACT OF 2005

HON. ED CASE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 28, 2005

Mr. CASE. Mr. Speaker, I rise today to introduce the proposed North Maui Coastal Preservation Act of 2005, a bill directing the National Park Service to assess the feasibility of designating certain coastal lands on the north shore of the Island of Maui between the towns of Pa'ia and Sprecklesville as a unit of the National Park Service. This area is fully worthy of designation as a National Seashore, National Historic Park, or National Recreation Area.

Since assuming office as the representative for Hawaii's Second Congressional District, I have heard loud and clear from the people of Maui, in person during countless times on the island and through petitions and postcards from some 2,000 constituents, about their deep concern for preserving this beautiful, historically significant and resources-rich coastline. Although the 128 acres identified in the bill are currently zoned as open space or parkland, they lie directly in the path of development in Maui's hot real estate market.

The desire of the people of Maui is to have the natural, scenic, and cultural resources of this unique area preserved and protected from development, and ultimately designated as the Patsy Takemoto Mink North Shore Heritage Park. As many of my colleagues know, my predecessor in this body, the late Congresswoman Patsy T. Mink, was born and grew up in Hamakua Poko, a small village near Pa'ia on just this coastline. If the Park Service finds that the area merits inclusion in the National Park System, I will introduce legislation authorizing establishment of a park and directing that it be named after Congresswoman Mink.

I want to take this opportunity to acknowledge the contribution of the Maui Sierra Club and especially of Lance Holter, a dedicated community activist, for inspiring the introduction of this bill. I can tell by the hundreds of cards I continue to receive from Maui residents in support of establishing such a park that there are many more people who have dedicated enormous energy and time in the hopes of preserving our precious natural and cultural heritage for future generations.

I urge my colleagues to join me in supporting this bill, and invite you to come to the Island of Maui to visit this special area. I know that if you do so, you will be convinced as I am of the vital importance of protecting these lands.
