

The yeas and nays were ordered.

Mr. FRIST. The next vote is on the highway conference reported bill, the last of the evening, the 11th rollcall of the day and the last vote before the August break. I thank all of our colleagues for their patience and efforts. We have been very busy, very productive the last several weeks. We can all, in a bipartisan way, be proud of what we have accomplished.

We will return for business on Tuesday, September 6th, with a vote that day sometime around 5:30. That is Tuesday, September 6th. I wish everyone a safe break.

The PRESIDING OFFICER. The yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. MCCONNELL. The following Senators were necessarily absent: the Senator from Kansas (Mr. ROBERTS), the Senator from Oregon (Mr. SMITH), and the Senator from New Hampshire (Mr. SUNUNU).

Further, if present and voting, the Senator from Oregon (Mr. SMITH) and the Senator from Kansas (Mr. ROBERTS) would have voted "yea."

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER) and the Senator from California (Mrs. FEINSTEIN) are necessarily absent.

I further announce that, if present and voting, the Senator from California (Mrs. BOXER) and the Senator from California (Mrs. FEINSTEIN) would each vote "aye."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

EXTENSION OF ADMINISTRATIVE EXPENSES FOR THE HIGHWAY BILL

Mr. DOMENICI. Madam President, on behalf of the leader, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3512, which was received from the House.

The PRESIDING OFFICER. The clerk will state the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3512) to provide an extension of administrative expenses for highway, highway safety, motor carrier safety, transit, and other programs funded out of the Highway Trust Fund pending enactment of a law reauthorizing the Transportation Equity Act for the 21st Century.

There being no objection, the Senate proceeded to consider the bill.

Mr. DOMENICI. Madam President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3512) was read the third time and passed.

Mr. DOMENICI. Mr. President, are we in morning business?

The PRESIDING OFFICER (Mr. ALLARD). No, we are not.

Mr. DOMENICI. I ask unanimous consent that I be permitted to speak for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator is recognized for 5 minutes.

Mr. ALEXANDER. Will the Senator yield for a question?

Mr. DOMENICI. Yes.

Mr. ALEXANDER. Would it be possible to get 3 or 4 minutes following the Senator's remarks before the discussion begins?

Mr. DOMENICI. I think it is a matter of whether the Senate confers.

Mr. President, I ask unanimous consent that following my 5 minutes, the junior Senator from Tennessee be given 4 minutes to speak.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from New Mexico is recognized.

SENATE ACCOMPLISHMENTS

Mr. DOMENICI. Madam President, I rise today before we leave on this recess to tell the Senate and those interested in how we do the people's business, what a successful 6 months we have had in the Senate. I have been here a long time. I believe this first 6 months has been like a great marathon runner. We started off slow and crossed the finish line a winner.

About 4 hours ago, we passed the first comprehensive Energy bill in about 14 years. We have been trying for 6 years, and now it is done. The Senate did that in a bipartisan way, and we worked with the House and got a great policy for our Nation.

A few moments ago, we passed a comprehensive Transportation bill for all of our States and our people, and regardless of what is said about it, in meticulous detail it is a terrific jobs package and infrastructure building bill for America.

In addition, I submit that we have also accomplished some things we never were able to do: we enacted a bankruptcy reform act. I know people wonder why that is important, but we will not talk about why. Let's just say credit is the lifeblood of our Nation. If something is wrong with the credit system, you have to fix it. We have been waiting around to fix the bankruptcy law, which is an integral part of the credit system, for at least 5 years. We passed the bill about three times in the Senate and, yes, in this particular 6 months, we did that. We sent it to the House and it is a law.

The budget resolution, I did them for years—let's be honest, for 31 years. This new Senator produced, under our leader's leadership, the fifth fastest budget resolution, and he got it in on time.

The emergency supplemental was as big as many appropriations bills, gigantic—for Iraq, the tsunami, and we provided real help for the borders of our country. Five-hundred new Border Patrol people were in that bill, along with other things.

We included, since then, in an Interior appropriations bill, which also passed, veterans funding of \$1.5 billion.

Let me go on with the list. After the emergency supplemental, we did six judges who had been filibustered for months upon months.

We did CAFTA. That is the last of a long list of American free-trade agreements. This one, for a change, went our way. It was taking off tariffs that were imposed mostly on us, instead of the other way around.

Now, 5 of the 12 appropriations bills have passed. All of the appropriations bills have been reported out of committee, except one. I didn't check the history, but I think that is close to a record.

We confirmed the Secretaries of State, Justice and Homeland Security. We confirmed the Director of National Intelligence. That is the equivalent of another Cabinet seat.

We also passed the Legislative Branch appropriations bill. We did, a while ago, a very important piece of legislation, gun liability reform. People wonder what that has to do with—as we say out in the country—the price of eggs. I will tell you, it is important legislation, too. It conformed liability, as far as the liability of those who manufacture, which is growing out of proportion to our regular negligence laws, and put that under some kind of reasonable control as far as the liability of manufacturers, those who build firearms. If these gun manufacturers went out of business, we would have had to get guns produced overseas, and that would not have been good.
