

Upon his separation from Active Duty, Dick served in the Army Reserves and was recalled to Active Duty in November, 1950, serving at Ft. Jackson, SC, and deploying to Japan and Korea with the 187th Airborne Regimental Combat Team. He retired as a Lt. Colonel from the U.S. Army Reserve in 1963.

Upon retirement from the Army, he settled back in Bay Minette serving on the School Board, as President of the Bay Minette Chamber of Commerce, and as an active participant in the United Fund, the American Red Cross and the American Cancer Society. In 1950, he was elected State Commander of the V.F.W.

He was appointed to the Alabama Battleship Commission in 1963, a position he held for the remainder of his life. He was also a member of the Bay Minette City Council, was Probate Judge in Baldwin County, and was one of two Alabama members on the Gulf Marine Fisheries Commission.

It was not until my time in the Alabama Legislature that I was really able to get to know Dick Owen. He was extremely committed to his positions in both the State House and State Senate, and his constituents were well served by his dedication to them and his devotion to the issues. He was elected to the House in 1965 and served two terms before being elected to the Senate in 1970 where he also served two terms.

In the Senate, he was Chairman of the Finance and Taxation Committee and Chairman of the Conservation Committee. He also served as a member of the Commerce, Transportation and Common Carriers Committee; the Insurance Committee; the Constitution and Elections Committee; the Agriculture Committee; and the Local Legislation No. 1 Committee. He also held positions on the Interim Insurance Study Committee and was Chairman of the Fishing Reef Committee.

During his career, Dick focused his energy on a number of issues. Whether it was agriculture, education, conservation or prison reform, he recognized the importance of these issues to his constituency and the entire State of Alabama.

As a member of the Senate Agriculture Committee, he supported development, growth and protection of Alabama's agriculture and forestry industry. He led the fight to keep farm truck prices low, and he favored expansion of the Farmer's Market Authority. In addition, he sponsored a number of bills relating to conservation, forestry, agriculture and law enforcement. Among these were the \$43 million State Parks Program and the Anti-water Pollution Act.

As a Representative and Senator, Dick Owen was a strong advocate for educational opportunities for all people, and he recognized the need to make improvements to the education system in Alabama. Before his election to the Alabama legislature, he was proud to help bring Faulkner State Community College to Bay Minette.

He sponsored many bills in both houses to conserve our natural resources and ensure continued growth of renewable resources. He received the "Governor's Conservation Legislator of the Year" award in 1971 from the Alabama Wildlife Federation.

Dick was also active in prison reform work and was recognized by law enforcement and prison officials for legislation he authored regarding this issue.

Year after year, he was a champion for his constituents.

Well after Dick left politics and public life, he continued to serve his community and State well. He owned Builders Hardware and Supply and was active in the Bay Minette Rotary Club. He was a devoted alumnus of the University of Alabama, contributing his time and energy to the growth of the Alumni Association. He was also a Mason, Shriner and active in the Baptist Church.

A devoted family man, he is survived by his beloved wife, the former Annie Ruth Heidelberg of Mobile; his son L.D. Owen III of Bay Minette; his brother James R. Owen of Bay Minette; and his sister, Nell Owen Davis of Gulf Breeze, Florida. He also has three grandchildren and two great-grandchildren.

I cannot say enough about the impact this man had on so many lives. As a war hero, a legislator, a community advocate, a husband and a father, Dick Owen spent his life making Alabama and this country a better place. He will be greatly missed by all who knew him.●

RETIREMENT OF DR. ROBERT H. BARTLETT

● Mr. LEVIN. Mr. President, I would like to take this opportunity to recognize Dr. Robert H. Bartlett, an accomplished surgeon, professor and inventor, who recently retired from seeing patients at the University of Michigan Medical Center. Dr. Bartlett, who earned his bachelor's degree from Albion College and graduated cum laude from the University of Michigan Medical School, was honored by his peers during a ceremony on June 23, 2005.

Dr. Bartlett is admired across Michigan for his dedicated service to his patients and his contributions to the advancement of medicine. His excellence in the practice of medicine has been demonstrated throughout his exemplary career, which spans more than 40 years. In particular, his work in developing a heart-lung bypass technique called extracorporeal membrane oxygenation, or ECMO, has saved the lives of over 30,000 infants, children, and adults.

Dr. Bartlett began his work on ECMO in 1965 while an assistant resident at Boston's Brigham and Children's Hospital. After his residency, Dr. Bartlett received a series of surgical teaching and research fellowships at Harvard to continue his research. In 1970 Dr. Bartlett became an assistant professor of

surgery at the University of California in Irvine, while also practicing medicine at the Orange County Medical Center. Five years later the first successful use of ECMO in an infant would take place at the Orange County Medical Center. Over the next 5 years, Dr. Bartlett would use this technique successfully 25 times.

In 1980, Dr. Bartlett returned to the University of Michigan Medical Center to continue to conduct research and treat patients until his retirement earlier this year. It was there that ECMO transitioned from being an experimental procedure to becoming standard practice at more than 90 medical facilities worldwide. In addition to this work, Dr. Bartlett continued to treat patients and served as chief of critical care medicine at the University of Michigan. Dr. Bartlett plans to continue his groundbreaking medical research.

Dr. Bartlett has published numerous articles, monographs, chapters, and books throughout his illustrious career. In 2003, he was awarded the prestigious Jacobson Innovation Award from the American College of Surgeons. He was also elected to the Institute of Medicine and was the recipient of the Medal of Special Recognition from the National Academy of Surgery of France. Dr. Bartlett has served as president of both the American Society for Artificial Internal Organs and the International Society for Artificial Organs. Dr. Bartlett has been married for more than 30 years to his college sweetheart, Wanda, with whom he has 3 children and 4 grandchildren.

I know my colleagues join me in congratulating Dr. Bartlett on his success and achievements in the field of medicine. I am pleased to offer my best wishes on his retirement from seeing patients and his continued efforts to advance medical research.●

TRIBUTE TO THE HON. CHARLES R. "RANDY" BUTLER, JR.

● Mr. SESSIONS. Mr. President, I will to make some remarks today about a very valuable public servant, Judge Charles R. "Randy" Butler, Jr., U.S. District Judge for the Southern District of Alabama.

Judge Butler was born in New York. He earned a B.A. degree from Washington and Lee University in 1962, and a law degree from the University of Alabama School of Law in 1966. He served as an assistant public defender for Mobile County, Alabama, from 1969 to 1971; as district attorney for Mobile County from 1971 to 1975; and, he was engaged in the private practice of law in Mobile from 1975 until October 15, 1988, when he was appointed by President Ronald Reagan as a U.S. District Judge for the Southern District of Alabama. He served as chief judge from July 9, 1994 to February 20, 2003, and served on the Judicial Conference, the principal policy-making body for the Federal court system, from 1999 through 2003.
