

other criminal or civil statute or regulation governing the standards of conduct for Federal employees.

“(3) TORT LIABILITY OF VOLUNTEERS.—A person who provides voluntary and uncompensated service under subsection (a), while assigned to duty, shall be deemed a volunteer of a nonprofit organization or governmental entity for purposes of the Volunteer Protection Act of 1997 (42 U.S.C. 14501 et seq.). Subsection (d) of section 4 of such Act (42 U.S.C. 14503(d)) shall not apply for purposes of any claim against such volunteer.”.

SEC. 12. PRESERVATION OF EXISTING AUTHORITY.

The authority provided by this Act, and by the Federal Trade Commission Act (15 U.S.C. 41 et seq.) and the Right to Financial Privacy Act (12 U.S.C. 3401 et seq.), as such Acts are amended by this Act, is in addition to, and not in lieu of, any other authority vested in the Federal Trade Commission or any other officer of the United States.

SEC. 13. REPORT.

Not later than 3 years after the date of enactment of this Act, the Federal Trade Commission shall transmit to Congress a report describing its use of and experience with the authority granted by this Act, along with any recommendations for additional legislation. The report shall include—

- (1) the number of cross-border complaints received by the Commission;
- (2) identification of the foreign agencies to which the Commission has provided non-public investigative information under this Act;
- (3) the number of times the Commission has used compulsory process on behalf of foreign law enforcement agencies pursuant to section 6 of the Federal Trade Commission Act (15 U.S.C. 46), as amended by section 4 of this Act;
- (4) a list of international agreements and memoranda of understanding executed by the Commission that relate to this Act;
- (5) the number of times the Commission has sought delay of notice pursuant to section 21A of the Federal Trade Commission Act, as added by section 7 of this Act, and the number of times a court has granted a delay;
- (6) a description of the types of information private entities have provided voluntarily pursuant to section 21B of the Federal Trade Commission Act, as added by section 8 of this Act;
- (7) a description of the results of cooperation with foreign law enforcement agencies under section 21 of the Federal Trade Commission Act (15 U.S.C. 57-2) as amended by section 6 of this Act;
- (8) an analysis of whether the lack of an exemption from the disclosure requirements of section 552 of title 5, United States Code, with regard to information or material voluntarily provided relevant to possible unfair or deceptive acts or practices, has hindered the Commission in investigating or engaging in enforcement proceedings against such practices; and
- (9) a description of Commission litigation brought in foreign courts.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 224—TO EXPRESS THE SENSE OF THE SENATE SUPPORTING THE ESTABLISHMENT OF SEPTEMBER AS CAMPUS FIRE SAFETY MONTH, AND FOR OTHER PURPOSES

Mr. DEWINE (for himself and Mr. BIDEN) submitted the following resolution;

which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 224

Whereas recent student housing fires in Ohio, Pennsylvania, Tennessee, and Maryland have tragically cut short the lives of some of the youth of our Nation;

Whereas since January 2000, at least 75 people, including students, parents, and children have died in student housing fires;

Whereas over three-fourths of these deaths have occurred in off-campus occupancies;

Whereas a majority of the students across the Nation live in off-campus occupancies;

Whereas a number of fatal fires have occurred in buildings where the fire safety systems have been compromised or disabled by the occupants;

Whereas it is recognized that automatic fire alarm systems provide the necessary early warning to occupants and the fire department of a fire so that appropriate action can be taken;

Whereas it is recognized that automatic fire sprinkler systems are a highly effective method of controlling or extinguishing a fire in its early stages, protecting the lives of the building's occupants;

Whereas many students are living in off-campus occupancies, Greek housing, and residence halls that are not adequately protected with automatic fire sprinkler systems and automatic fire alarm systems;

Whereas it is recognized that fire safety education is an effective method of reducing the occurrence of fires and reducing the resulting loss of life and property damage;

Whereas students are not routinely receiving effective fire safety education throughout their entire college career;

Whereas it is vital to educate the future generation of our Nation about the importance of fire safety behavior so that these behaviors can help to ensure their safety during their college years and beyond; and

Whereas by developing a generation of fire-safe adults, future loss of life from fires can be significantly reduced: Now, therefore, be it

Resolved, That the Senate—

(1) supports the establishment of September as Campus Fire Safety Month;

(2) encourages administrators and municipalities across the country to provide educational programs to all students during September and throughout the school year; and

(3) encourages administrators and municipalities to evaluate the level of fire safety being provided in both on- and off-campus student housing and take the necessary steps to ensure fire-safe living environments through fire safety education, installation of fire suppression and detection systems and the development and enforcement of applicable codes relating to fire safety.

SENATE RESOLUTION 225—DESIGNATING THE MONTH OF NOVEMBER 2005 AS THE “MONTH OF GLOBAL HEALTH”

Mrs. MURRAY (for herself, Mr. SMITH, Mrs. CLINTON, Mr. CORZINE, Ms. CANTWELL, Mr. DAYTON, Ms. LANDRIEU, and Mr. DURBIN) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 225

Whereas child survival is a key element of global health and is of utmost importance to the United States and all countries of the world;

Whereas child survival must be addressed on a global scale;

Whereas increasing child survival rates is critical to population growth in countries around the world;

Whereas child survival depends on access to key nutrients that can avert millions of unnecessary deaths in third world countries from preventable diseases;

Whereas 5 simple interventions, if delivered to children before the age of 5, may significantly increase their chances of survival;

Whereas these 5 interventions—vaccines, antibiotics, Vitamin A and micronutrients, oral rehydration therapy, and insecticide-treated bednets—can be provided to third world countries at minimal cost;

Whereas 10,000,000 children die each year from preventable diseases in third world countries and 6,000,000 of those deaths could be prevented by the use of these interventions: Now, therefore, be it

Resolved, That the Senate—

(1) designates the month of November 2005 as the “Month of Global Health”;

(2) reaffirms its commitment to ensuring that children around the world receive the interventions necessary for survival as an integral component of efforts to improve global health; and

(3) encourages the people of the United States to observe the “Month of Global Health” with appropriate participation in key activities, programs, and fundraising in support of worldwide child survival.

Mrs. MURRAY. Mr. President, I want to take time to comment on the resolution I am introducing today which designates the month of November 2005 as the “Month of Global Health.”

Today we live in a global community where all nations both benefit from those countries that prosper, and suffer with those that do not. The Month of Global Health is a great opportunity to increase awareness of the pressing global health crisis that threatens our own public health and that of all nations around the world.

I believe this resolution is important and draws attention to the needs of a growing population of children in the developing world that are living without proper health care and the essential nutrients they need to survive. The resolution also highlights the necessary steps that must be taken to increase child survival rates in developing countries.

Child survival is one of the key elements to addressing global health. As a nation, there is much more we can do to assist developing nations in their effort to increase child survival rates. We must work on a global scale to avert the millions of unnecessary deaths among children caused each year from preventable diseases.

This resolution reaffirms our commitment to the children of the world and sends a message that child survival is a fundamental component in our efforts to improve global health.

Mr. SMITH. Mr. President, today I am pleased to join my colleague Senator MURRAY in introducing an important resolution that will recognize November as the “Global Health Month.”

Every year, 10 million children die from preventable diseases in Third World countries. As many as 6 million of these deaths can be prevented by

vaccines, antibiotics, hydration adequate nutrition, and other simple, low-cost interventions.

As a long-time champion of helping the most vulnerable populations both here and abroad, I believe it is important to bring this issue to the attention of the American public. We can and must do more to ensure children around the world receive the interventions necessary for survival.

I hope my colleagues will join me in support of this resolution.

SENATE RESOLUTION 226—CALLING FOR FREE AND FAIR PARLIAMENTARY ELECTIONS IN THE REPUBLIC OF AZERBAIJAN

Mr. BIDEN (for himself, Mr. MCCAIN, and Mr. HAGEL) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 226

Whereas the Republic of Azerbaijan is scheduled to hold elections for its parliament, the Milli Majlis, in November 2005;

Whereas Azerbaijan has enjoyed a strong relationship with the United States since its independence from the former Soviet Union in 1991;

Whereas international observers monitoring Azerbaijan's October 2003 presidential election found that the pre-election, election day, and post-election environments fell short of international standards;

Whereas the International Election Observation Mission (IEOM) in Baku, Azerbaijan, deployed by the Organization for Security and Cooperation in Europe (OSCE) and the Council of Europe, found that there were numerous instances of violence by both members of the opposition and government forces;

Whereas the international election observers also found inequality and irregularities in campaign and election conditions, including intimidation against opposition supporters, restrictions on political rallies by opposition candidates, and voting fraud;

Whereas Azerbaijan freely accepted a series of commitments on democracy, human rights, and the rule of law when that country joined the Organization for Security and Cooperation in Europe as a participating State in 1992;

Whereas, following the 2003 presidential election, the Council of Europe adopted Resolution 1358 (2004) demanding that the Government of Azerbaijan immediately implement a series of steps that included the release of political prisoners, investigation of election fraud, and the creation of public service television to allow all political parties to better communicate with the people of Azerbaijan;

Whereas, since the 2003 presidential election, the Government of Azerbaijan has taken some positive steps by releasing some political prisoners and working toward the establishment of public service television;

Whereas a genuinely free and fair election requires that citizens be guaranteed the right and opportunity to exercise their civil and political rights, free from intimidation, undue influence, threats of political retribution, or other forms of coercion by national or local authorities or others;

Whereas a genuinely free and fair election requires government and public authorities to ensure that candidates and political parties enjoy equal treatment before the law and that government resources are not em-

ployed to the advantage of individual candidates or political parties; and

Whereas the establishment of a transparent, free and fair election process for the 2005 parliamentary elections is an important step in Azerbaijan's progress toward full integration into the democratic community of nations: Now, therefore, be it

Resolved, That the Senate—

(1) calls on the Government of the Republic of Azerbaijan to hold orderly, peaceful, and free and fair parliamentary elections in November 2005 in order to ensure the long-term growth and stability of the country;

(2) calls upon the Government of Azerbaijan to guarantee the full participation of opposition parties in the upcoming elections, including members of opposition parties arrested in the months leading up to the November 2005 parliamentary elections;

(3) calls upon the opposition parties to fully and peacefully participate in the November 2005 parliamentary elections, and calls upon the Government of Azerbaijan to create the conditions for the participation on equal grounds of all viable candidates;

(4) believes it is critical that the November 2005 parliamentary elections be viewed by the people of Azerbaijan as free and fair, and that all sides refrain from violence during the campaign, on election day, and following the election;

(5) supports recommendations made by the Council of Europe on amendments to the Unified Election Code of Azerbaijan, specifically to ensure equitable representation of opposition and pro-government forces in all election commissions;

(6) urges the international community and domestic nongovernmental organizations to provide a sufficient number of election observers to ensure credible monitoring and reporting of the November 2005 parliamentary elections;

(7) recognizes the need for the establishment of an independent media and assurances by the Government of Azerbaijan that freedom of the press will be guaranteed; and

(8) calls upon the Government of Azerbaijan to guarantee freedom of speech and freedom of assembly.

SENATE RESOLUTION 227—PLEDGING CONTINUED SUPPORT FOR INTERNATIONAL HUNGER RELIEF EFFORTS AND EXPRESSING THE SENSE OF THE SENATE THAT THE UNITED STATES GOVERNMENT SHOULD USE RESOURCES AND DIPLOMATIC LEVERAGE TO SECURE FOOD AID FOR COUNTRIES THAT ARE IN NEED OF FURTHER ASSISTANCE TO PREVENT ACUTE AND CHRONIC HUNGER

Mr. DEWINE (for himself, Mr. KOHL, Mr. COCHRAN, Mr. LEAHY, Mr. CHAMBLISS, Mr. HARKIN, Mr. BROWBACK, Mr. DURBIN, Mrs. DOLE, Mrs. LINCOLN, Mr. SMITH, Mr. CORZINE, Mr. COLEMAN, Mr. DORGAN, Mr. HATCH, Mr. OBAMA, Ms. COLLINS, Ms. CANTWELL, Mr. SANTORUM, Ms. STABENOW, Mr. CHAFEE, Mr. LIEBERMAN, Mr. MARTINEZ, Mr. DAYTON, Mr. ROBERTS, Mr. INOUE, Mr. MCCAIN, Mr. NELSON of Florida, Ms. SNOWE, Mr. LUGAR, Mr. NELSON of Nebraska, Mr. SARBANES, Ms. MIKULSKI, Mr. LEVIN, and Mr. REED) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 227

Whereas although there is enough food to feed all of the people in the world, as of summer 2005, 852,000,000 people are in need of food aid;

Whereas almost 200,000,000 children under the age of 5 are malnourished and underweight and 1 child dies every 5 seconds from hunger and related ailments;

Whereas the United Nations World Food Programme estimates that more than 5,000,000 metric tons of food is needed to prevent widespread hunger, 80 percent of which will be used for emergency programs to provide aid for people threatened by famine in 2005;

Whereas, as of summer 2005, the United States contributed approximately 1/2 of the total food aid received by the United Nations World Food Programme in 2005;

Whereas, as of summer 2005, 1 person out of every 3 people in Africa is malnourished as a result of drought, conflict, the human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS), locust infestations, and economic dislocation, and countries in Africa will lack at least 1,500,000 metric tons of the food necessary to provide sufficient nutrition to the people in these countries if the level of donations does not increase;

Whereas the World Food Programme, as of summer 2005, had barely 1/2 of the contributions needed to provide food aid to the 26,000,000 victims of food shortage in Africa;

Whereas more than 14,000,000 people in the Horn of Africa are experiencing or are vulnerable to experiencing a severe food shortage;

Whereas approximately 3/4 of the population of Eritrea needs food aid and nearly 1/2 of the women and children in the country are malnourished;

Whereas, as of summer 2005, 8,300,000 people in Ethiopia are in need of food aid and other assistance as a result of poor harvests, degraded land, small land holdings, high population growth, loss of crops, and loss of livestock and other assets;

Whereas the United Nations World Food Programme food aid programs in Ethiopia have received less than 1/2 of the funding necessary to continue these operations;

Whereas the United Nations World Food Programme had received, as of summer 2005, less than 10 percent of the funding necessary to provide aid to the 3,500,000 people in Sudan who will need food in 2005, particularly during the height of the annual hunger season that lasts from August to October, due to political instability and weather conditions that ruined harvests in the country;

Whereas a lack of funds will require the United Nations World Food Programme to reduce the amount of aid given to 2,000,000 people in Burundi, including to 210,000 malnourished children and nursing mothers who face a food shortage as a result of drought and instability;

Whereas a lack of funds is expected to drastically constrain food aid programs worldwide and the critical efforts of private voluntary organizations of the United States that play a central role in implementing such programs;

Whereas a lack of funds forced the United Nations World Food Programme to begin reducing the amount of aid given to an estimated 6,000,000 people in West Africa who are experiencing a famine caused by displacement, drought, and locusts;

Whereas humanitarian agencies report rising rates of malnutrition among children under 5 years of age in Mauritania, Mali, and Niger, which can lead to developmental difficulties and growth stunting;

Whereas nearly 4,000,000 people in Niger, including 800,000 children, will face a food
