“(iii) requires continued performance of the function by civilian employees unless the competitive sourcing official concerned determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the

cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of \$10,000,000 or 10 percent of the most efficient organization’s personnel-related costs for performance of that activity or function by Federal employees.

“(B) Any function that is performed by civilian employees of the Department of Defense and is proposed to be reengineered, reorganized, modernized, upgraded, expanded, or changed in order to become more efficient shall not be considered a new requirement for the purpose of the competition requirements in subparagraph (A) or the requirements for public-private competition in Office of Management and Budget Circular A-76.

(a) GUIDELINES.—

(1) IN GENERAL.—The Secretary of Defense shall prescribe guidelines and procedures for ensuring that consideration is given to using Federal Government employees on a regular basis for work that is performed under Department of Defense contracts and could be performed by Federal Government employees.

(2) CRITERIA.—The guidelines and procedures prescribed under paragraph (1) shall provide for special consideration to be given to contracts that—

(A) have been performed by Federal Government employees at any time on or after October 1, 1980;

(B) are associated with the performance of inherently governmental functions;

(C) were not awarded on a competitive basis; or

(D) have been determined by a contracting officer to be poorly performed due to excessive costs or inferior quality.

(b) NEW REQUIREMENTS.—

(1) LIMITATION ON REQUIRING PUBLIC-PRIVATE COMPETITION.—No public-private competition may be required under Office of Management and Budget Circular A-76 or any other provision of law or regulation before the performance of a new requirement by Federal Government employees commences, the performance by Federal Government employees of work pursuant to subsection (a) commences, or the scope of an existing activity performed by Federal Government employees is expanded. Office of Management and Budget Circular A-76 shall be revised to ensure that the heads of all Federal agencies give fair consideration to the performance of new requirements by Federal Government employees.

(2) CONSIDERATION OF FEDERAL GOVERNMENT EMPLOYEES.—The Secretary of Defense shall, to the maximum extent practicable, ensure that Federal Government employees are fairly considered for the performance of new requirements, with special consideration given to new requirements that include functions that—

(A) are similar to functions that have been performed by Federal Government employees at any time on or after October 1, 1980; or

(B) are associated with the performance of inherently governmental functions.

(c) USE OF FLEXIBLE HIRING AUTHORITY.—The Secretary shall include the use of the flexible hiring authority available through the National Security Personnel System in order to facilitate performance by Federal Government employees of new requirements and work that is performed under Department of Defense contracts.

**SA 2535.** Mr. WARNER (for Mr. INHOFE) proposed an amendment to the bill S. 1042, to authorize appropriations for fiscal year 2006 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

At the appropriate place, insert the following:

**SEC. 809. THE UNITED STATES-CHINA ECONOMIC AND SECURITY REVIEW COMMISSION.**

(a) FINDINGS.—Congress finds the following:

(1) The 2004 Report to Congress of the United States-China Economic and Security Review Commission states that—

(A) China’s State-Owned Enterprises (SOEs) lack adequate disclosure standards, which creates the potential for United States investors to unwittingly contribute to enterprises that are involved in activities harmful to United States security interests;

(B) United States influence and vital long-term interests in Asia are being challenged

by China's robust regional economic engagement and diplomacy;

(C) the assistance of China and North Korea to global ballistic missile proliferation is extensive and ongoing;

(D) China's transfers of technology and components for weapons of mass destruction (WMD) and their delivery systems to countries of concern, including countries that support acts of international terrorism, has helped create a new tier of countries with the capability to produce WMD and ballistic missiles;

(E) the removal of the European Union arms embargo against China that is currently under consideration in the European Union would accelerate weapons modernization and dramatically enhance Chinese military capabilities;

(F) China is developing a leading-edge military with the objective of intimidating Taiwan and deterring United States involvement in the Strait, and China's qualitative and quantitative military advancements have already resulted in a dramatic shift in the cross-Strait military balance toward China; and

(G) China's growing energy needs are driving China into bilateral arrangements that undermine multilateral efforts to stabilize oil supplies and prices, and in some cases may involve dangerous weapons transfers.

(2) On March 14, 2005, the National People's Congress approved a law that would authorize the use of force if Taiwan formally declares independence.

(b) SENSE OF CONGRESS.—

(1) PLAN.—It is the sense of Congress that the President should take immediate steps to establish a coherent and comprehensive plan to address the emergence of China economically, diplomatically, and militarily, to promote mutually beneficial trade relations with China, and to encourage China's adherence to international norms in the areas of trade, international security, and human rights.

(2) CONTENTS.—The plan should contain the following:

(A) Actions to address China's policy of undervaluing its currency, including—

(i) encouraging China to continue to upwardly revalue the Chinese yuan against the United States dollar;

(ii) allowing the yuan to float against a trade-weighted basket of currencies; and

(iii) concurrently encouraging United States trading partners with similar interests to join in these efforts.

(B) Actions to make better use of the World Trade Organization (WTO) dispute settlement mechanism and applicable United States trade laws to redress China's trade practices, including exchange rate manipulation, denial of trading and distribution rights, insufficient intellectual property rights protection, objectionable labor standards, subsidization of exports, and forced technology transfers as a condition of doing business. The United States Trade Representative should consult with our trading partners regarding any trade dispute with China.

(C) Actions to encourage United States diplomatic efforts to identify and pursue initiatives to revitalize United States engagement in East Asia. The initiatives should have a regional focus and complement bilateral efforts. The Asia-Pacific Economic Cooperation forum (APEC) offers a ready mechanism for pursuit of such initiatives.

(D) Actions by the administration to work with China to prevent proliferation of prohibited technologies and to secure China's agreement to renew efforts to curtail North Korea's commercial export of ballistic missiles.

(E) Actions by the Secretaries of State and Energy to consult with the International Energy Agency with the objective of upgrading the current loose experience-sharing arrangement whereby China engages in some limited exchanges with the organization, to a more structured arrangement.

(F) Actions by the administration to develop a coordinated, comprehensive national policy and strategy designed to maintain United States scientific and technological leadership and competitiveness, in light of the rise of China and the challenges of globalization.

(G) Actions to review laws and regulations governing the Committee on Foreign Investment in the United States (CFIUS), including exploring whether the definition of national security should include the potential impact on national economic security as a criterion to be reviewed, and whether the chairmanship of CFIUS should be transferred from the Secretary of the Treasury to a more appropriate executive branch agency.

(H) Actions by the President and the Secretaries of State and Defense to press strongly their European Union counterparts to maintain the EU arms embargo on China.

(I) Actions by the administration to discourage foreign defense contractors from selling sensitive military use technology or weapons systems to China. The administration should provide a comprehensive annual report to the appropriate committees of Congress on the nature and scope of foreign military sales to China, particularly sales by Russia and Israel.

At the end of subtitle D of title XXVIII, add the following:

**SEC. 2887. SENSE OF CONGRESS ON LIMITATION ON TRANSFER OF UNITS FROM CLOSED AND REALIGNED MILITARY INSTALLATIONS PENDING READINESS OF RECEIVING LOCATIONS.**

(a) FINDINGS.—

(1) The Commission on Review of Overseas Military Facility Structure of the United States, also known as the Overseas Basing Commission, transmitted a report to the President and Congress on August 15, 2005, that discussed considerations for the return to the United States of up to 70,000 service personnel and 100,000 family members and civilian employees from overseas garrisons.

(2) The 2005 Base Closure and Realignment Commission released a report on September 8, 2005, to the President that assessed the closure and realignment decisions of the Department of Defense, which would affect 26,830 military personnel positions.

(3) Both of these reports expressed concerns that massive movements of units, service personnel, and families may disrupt unit operational effectiveness and the quality of life for family members if not carried out with adequate planning and resources.

(4) The 2005 Base Closure and Realignment Commission, in its decision to close Fort Monmouth, included a provision requiring the Secretary of Defense to provide a report that “movement of organizations, functions, or activities from Fort Monmouth to Aberdeen Proving Ground will be accomplished without disruption of their support to the Global War on Terrorism or other critical contingency operations, and that safeguards exist to ensure that necessary redundant capabilities are put in place to mitigate potential degradation of such support, and to ensure maximum retention of critical workforce”.

(5) The Overseas Basing Commission found that “base closings at home along with the return of yet additional masses of service members and dependents from overseas will have major impact on local communities and the quality of life that can be expected. Movements abroad from established bases into new locations, or into locations already in use that will be put under pressure by increases in populations, will impact on living conditions.”

(6) The Overseas Basing Commission notes that the four most critical elements of quality of life as they relate to restructuring of the global defense posture are housing, military child education, healthcare, and service member and family services.

(7) The Overseas Basing Commission recommended that “planners must take a ‘last day-first day’ approach to the movement of units and families from one location to another”, meaning that they must maintain the support infrastructure for personnel until the last day they are in place and must have the support infrastructure in place on the first day troops arrive in the new location.

(8) The Overseas Basing Commission further recommended that it is “imperative that the ‘last day-first day’ approach should be taken whether the movement is abroad from one locale to another, from overseas to the United States, or from one base in CONUS [the continental United States] to yet another as a result of base realignment and closures”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Defense should not transfer any unit from a military installation closed or realigned due to the relocation of forces under the Integrated Global Presence and Basing Strategy or the 2005 round of defense base closure and realignment until adequate facilities and infrastructure necessary to support the unit’s mission and quality of life requirements for military families are ready for use at the receiving location.

**SA 2555.** Mr. WARNER (for Mr. HAGEL) proposed an amendment to the bill S. 1042, to authorize appropriations for fiscal year 2006 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:
