

through July 4, 2006. This effort was lead by Jeff Miller, Frank Schell, David Reeves, David Adams, Senator Tom Apodaca, Mike Murdock, Henry Johnson, George Erwin, Meridith Elliott, Marybeth Burns, Kim McKibbin and Sarah Smith. Within 6 months, residents young and old rallied to raise more than \$100,000 for the trip. I would like to commend these individuals for their hard work in making this awe-inspiring idea into reality. Also, I want to commend Mr. Frank Schell and the "guardians," a group of over 50 volunteers, who flew up from North Carolina to assist with the operation of the event.

From the celebrated departure at the Asheville Regional Airport, to the water-arched greeting at Reagan National Airport, to the wreath ceremony at the Tomb of the Unknowns, the World War II veterans of Henderson County received a day of honor that was long deserved. It is apparent that the people in Henderson County truly love the Nation, and they honor the heroes who have protected it.

Again, it was truly an honor to take part in HonorAir 2006 and I and the rest of the United States Congress hope to see more events like this around the Nation.

CELEBRATING KPMG LLP'S
VOLUNTEERISM IN PHILADELPHIA

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2006

Mr. BRADY of Pennsylvania. Mr. Speaker, I rise today to recognize the spirit of volunteerism embodied by a company in Philadelphia which celebrates its 100th anniversary in our city, KPMG LLP.

KPMG's partners and employees serve as officers, directors and volunteers for many of Philadelphia's philanthropic and charitable organizations. Earlier this year, KPMG sponsored the "City Hall in Bloom" spring planting. As part of the event, more than 200 KPMG volunteers joined students from the Bach-Martin Elementary School in clearing, cleaning and preparing beds for more than 8,500 flowers, plants, and trees in the largest volunteer clean-up ever mounted at City Hall. Other examples of KPMG's volunteerism are many. Employees helped paint the interior of Bach-Martin school and created a new mural for the entrance. The firm also has assisted the "Help Philadelphia" women's shelter with a number of events over the years. And last year, KPMG helped welcome refugees from Hurricane Katrina, assisting in their relocation, while this year a group of KPMG professionals traveled to the Gulf region to help rebuild homes with Habitat for Humanity.

In 1906, Marwick, Mitchell & Co. opened its doors on Chestnut Street. Marwick, Mitchell & Co. was then a small accounting firm with less than a handful of partners. In the these last 100 years, Philadelphia has added greatly to its history as the birthplace of the American republic to its renown as one of the Nation's leading ports, centers of commerce, and home to many Fortune 500 companies. Marwick, Mitchell & Co. grew with Philadelphia and is known today as KPMG.

Throughout its history, KPMG has been and is an outstanding citizen of Philadelphia.

KPMG is today one of the oldest and largest professional services firms in the city, employing more than 850 professionals headquartered on Market Street and providing a variety of audit, tax and advisory services to the public and private sectors.

Mr. Speaker, I am proud to pay tribute to KPMG and its people for 100 years of service to Philadelphia, for its contributions to the growth and health of the city's commerce, and for its many efforts benefiting our community's quality of life.

GREAT LAKES FISH AND WILDLIFE RESTORATION ACT OF 2006

SPEECH OF

HON. TED STRICKLAND

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 27, 2006

Mr. STRICKLAND. Madam Speaker, I would like to take this opportunity to express my strong support for S. 2430, the Great Lakes Fish and Wildlife Restoration Act of 2006 (GLFWRA), which passed the House yesterday. This important legislation makes available critical federal dollars allowing state and tribal management agencies to take significant strides to address the challenges threatening Great Lakes fish and wildlife resources and habitats. This bipartisan bill passed the Senate by unanimous consent and I am hopeful will be signed by the President soon. I believe the reauthorization of the GLFWRA will go a long way to help protect the environmental and economic health of one of our nation's most unique and splendid natural treasures: the Great Lakes.

In both size and ecological diversity, there is no other freshwater system which matches that of the Great Lakes Basin. The Great Lakes are simply magical. They offer outstanding recreational and tourism opportunities. The Great Lakes are a source of drinking water for millions of residents and provide a safe and efficient mode of transportation in the region. Obviously, the Great Lakes also provide habitat for our fisheries and wildlife. Ohioans know what Lake Erie means for the state's economy. Lake Erie alone produces more fish for human consumption each year than the other four lakes combined. And, Lake Erie supports a \$1 billion a year sport-fishing industry and one of the largest freshwater commercial fisheries in the world. There is no question that restoration and protection of one of our nation's most unique and precious resources, the Great Lakes, warrants the level of federal commitment reauthorized under S. 2430.

I am pleased that S. 2430 is consistent with the Great Lakes Regional Collaboration's (GLRC) Strategy to Restore and Protect the Great Lakes. The GLRC is a tremendous effort to coordinate the pathway forward for the restoration, protection, and sustainable use of our Great Lakes. I am pleased that passage of the Great Lakes Fish and Wildlife Restoration Act will advance the GLRC goals which were developed through extensive collaboration of federal, state, tribal, and local partners.

The challenges facing the Great Lakes will not be solved overnight, but the GLRC process has designed a unifying strategy forward, and I strongly support S. 2430 as one part of

that strategy to restore and protect our invaluable Great Lakes.

BULGARIAN MIRACLE CONTINUES

HON. JOE WILSON

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2006

Mr. WILSON of South Carolina. Mr. Speaker, yesterday was a joyous day for the people of Bulgaria. The European Commission recommended Bulgaria be admitted into the European Union in January 2007.

In less than 16 years, Bulgaria has successfully transitioned from a Communist totalitarian regime into a free market democracy.

Just 3 years ago, I was honored to be at the White House with former Prime Minister Simeon Saxe-Coburg Gotha as Bulgaria was admitted into NATO. Bulgaria has proven to be a true ally in the Global War on Terrorism, and Bulgarian troops have served bravely in Iraq and Afghanistan. There are currently plans for three U.S. bases to be located within Bulgaria.

Bulgaria has one of the fastest growing European economies, and membership in the EU will accelerate its pace. Economically and militarily, Bulgaria is secure.

Congratulations to President Georgi Parvanov, Prime Minister Sergey Stanishev, Ambassador to Washington Elena Poptodorova, and my longtime friend Ambassador to Athens Stefan Stoyanov.

I am grateful to serve with Congresswoman ELLEN TAUSCHER as Co-Chair of the Bulgarian Caucus, promoting the growing partnership between Bulgaria and America.

In conclusion, God bless our troops, and we will never forget September 11th.

TRIBUTE TO AUTISM SPEAKS

HON. J.D. HAYWORTH

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2006

Mr. HAYWORTH. Mr. Speaker, the incidence of autism is rapidly growing. By some estimates, one out of every 166 children born today will be diagnosed with autism. And science has not yet been able to determine a cause or treatment for autism. Efforts to treat children with autism have resulted in children being subject to chelation, hyperbaric chambers, massive allergy therapies, and restrictions in diet, to name a few. So many treatments, yet few have real scientific proof behind them and none has proven effective. With such a great number of children affected by autism, we need to find the cause and also a cure! To assist in these efforts, the people of Arizona are raising awareness through such events as the Lake Pleasant Bar-b-que Cook-off. The people of Lake Pleasant, Arizona will host Autism Speaks, a national organization that raises awareness about autism and is actively searching for the causes of and a cure for autism. Events like these are crucial to raising awareness about the prevalence of and lack of information on autism. I applaud organizations like Autism Speaks for raising awareness of autism and the need for more scientifically-based information.
