Managers on the Part of the Senate.
The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to bill (H.R. 2744), making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2006 and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

CONGRESSIONAL DIRECTIVES

The statement of the managers remains silent on provisions that were in both the House and Senate bills that remain unchanged by this conference agreement, except as noted in this statement of the managers.

The conferees agree that executive branch wishes cannot substitute for Congress’ own statements as to the best evidence of congressional intentions—that is, the official reports of the Congress. The conferees further point out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: “Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law.”

The House and Senate report language that is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

Office of the Secretary

The conference agreement provides $5,127,000 for the Office of the Secretary as proposed by the House and the Senate.

The conference agreement provides the fiscal year 2005 funding level for cross-cutting trade negotiations and biotechnology resources in the following accounts: Office of the Secretary; Animal and Plant Health Inspection Service; Grain Inspection, Packers and Stockyards Administration; and the Foreign Agricultural Service.
The conferees appreciate receiving the detailed information provided in the Explanatory Notes prepared by the Department and rely heavily on this information when considering budget proposals. These materials have traditionally been prepared for the sole use of the Committees on Appropriations in a format consistent with the organization and operation of the programs and the structure of the Appropriations Act. At the direction of the Office of Management and Budget, the Department has changed the format and content of these materials to focus on broader goals and objectives rather than the major program structure followed in the Act, and in the actual conduct of the programs. The new organization and content does not present budget information in a format useful to the deliberations of the Committees. For fiscal year 2007 and future years, the Department is directed to present Explanatory Notes in a format consistent with the presentation used for the fiscal year 2002 Budget. Any deviations from that format are to be approved in advance by the Committees.

The conferees direct the Secretary to advise the Committees on Appropriations in writing of the status of all reports requested of the Department by the committees, at the time of submission of the fiscal year 2007 budget and quarterly thereafter.

The conferees are concerned by protocols employed by various food aid agencies related to measuring the quality of food products offered for international humanitarian assistance. The Secretary is encouraged to work with appropriate organizations to determine what actions may be proper to improve the nutritional integrity of food aid commodities and the consistency of testing methods. The Secretary is further encouraged, if appropriate, to work with groups experienced in food aid quality and tracking systems to carry out authorities provided in section 3013 of Public Law 107–171. The Committees on Appropriations expect a report on this subject no later than March 1, 2006.

The conferees are aware of the various USDA agencies that were affected by Hurricanes Katrina, Rita, and other storm events in recent months. As a result of the dislocation of many individuals employed by these agencies, the conferees expect the Department to initiate all safe harbor means available to ensure safe and adequate relief and recovery for these employees until full restoration of agency facilities is complete and agency personnel are able to return to their homes. The conferees expect the Secretary to provide a report to the Committees on Appropriations of the House and Senate on actions taken in this regard by March 1, 2006.

The conferees take note of the heightened awareness and concern surrounding the potential for an avian flu pandemic. The Secretary is directed to instruct all agencies with jurisdiction over possible introduction of foreign animal disease into this country to take all necessary steps, including increased surveillance and ensuring they have all the necessary authorities to provide the greatest level of safeguard against the introduction of highly pathogenic avian flu into the United States. The Secretary is further directed to report to the Committees on Appropriations of the House and Senate on this subject by March 1, 2006.

The conferees remain committed to provide funding for federal, state university, and other arenas of research and development ac-
tivities to support U.S. agriculture. Given current budget constraints, this conference agreement provides the highest levels of funding possible for various research programs under the jurisdiction of this Act. In addition, the conferees urge the Secretary, and others in the Executive Branch, to increase public sector investment in this important area.

The conference agreement does not include language proposed by the Senate which would have conditioned imports of beef from Japan until that country takes steps toward opening its market to U.S. beef products. Nonetheless, the conferees strongly urge the Secretary to continue ongoing negotiations with the Japanese government to open this important market. The conferees are encouraged by recent movement in these negotiations, but clearly reserve the right to impose restrictions similar to those suggested by the Senate if there is not a swift resolution to this issue.

The conferees direct the Secretary to submit to the Committees on Appropriations of the House and Senate, as a supplement to the President’s fiscal year 2007 budget request, a report on measures identified to address bark beetle infestations. This report should include information regarding resources identified in the fiscal year 2007 budget request, including assistance under the authorities of the Healthy Forests Restoration Act of 2003, relating to bark beetles. It is expected that the Secretary of Agriculture shall coordinate these activities with the Secretary of the Interior.

The conferees remain aware of public attention to animal health issues, especially those that have implications for food safety and other aspects of human public health issues. Following the discovery of a BSE-infected cow in Washington State in December of 2003, the Secretary of Agriculture imposed a ban on the entry of non-ambulatory beef cattle into the food supply. The conferees note the continuing strong interest among the American consuming public regarding this policy and direct the Secretary to notify and closely confer with the Committees on Appropriations of the House and Senate, and appropriate authorizing committees, before the Department takes any actions that would weaken this safeguard. In addition, the conferees encourage the Secretary to initiate an Advanced Notice of Proposed Rulemaking on this subject. Finally, the conferees urge the Secretary to continue efforts for enhanced surveillance of animal health through sampling tissues and other materials retrieved from rendering facilities or places where non-ambulatory animals are otherwise disposed.

The conferees recognize the importance of public and private contributions to relieve world hunger. Human suffering related to food shortages resulting from famine, natural disaster, civil unrest, and similar circumstances is one of the greatest tragedies of current times. Further, world hunger complicates international relations where civil unrest leads to national destabilization and sympathies toward terrorist organizations. The conferees are aware of the organization which annually awards the World Food Prize for outstanding work in the field of humanitarian food assistance, and encourages the Secretary to work with this organization in any form appropriate to support its activities and to further its goal of relieving world hunger. The Secretary is directed to report to the
Committees by March 1, 2006, on ways in which the Department can participate in support of this organization.

The conferees are aware that the Department intends to release an interim report on a feasibility study on converting sugar into ethanol by December 15, 2005. The conferees encourage the Department to release the interim report to Congress by December 15, 2005 and a final report not later that July 1, 2006.

The conferees are aware that the State of Texas has recently entered into a contract to privatize certain operations of the Food Stamp program. It is the conferees' understanding that USDA has worked with the State in order to ensure that this contract will not result in a higher food stamp error rate or reduced access to the program. Therefore, the conferees direct the Secretary to provide quarterly reports, beginning 30 days after enactment of this Act, on the status of this contract, including the effects it is having on program access, error rates, and spending on administrative expenses.

Since fiscal year 2000, Congress has appropriated over $500,000,000 for the modernization and integration of information systems in USDA's county field offices. The conferees have fully supported this effort, but will expect to see reduced or level funding...
levels for this account in future budget submissions as a result of anticipated efficiencies and economies of scale.

The conferees encourage the Secretary to continue these expansions and to give close consideration for the continuity of National Finance Center (NFC) operations in Louisiana.

The conferees commend the employees of the NFC in suburban New Orleans for their outstanding work in continuing the payrolls and cross-servicing operations of more than 130 government agencies during the devastation of Hurricane Katrina. The conferees note that several hundred NFC employees have been relocated to other work sites because of hurricane damage and direct the Secretary to report to the Committees on Appropriations by January 31, 2006 on the continuity of operations of the NFC and the reestablishment of payroll and cross-servicing operations and functions in New Orleans and plans for back-up facilities.

Unless otherwise directed, the agency shall implement appropriations by programs, projects, and activities as specified by the Appropriations Committees. Unspecified reductions necessary to carry out the provisions of this Act are to be implemented in accordance with the definitions contained in the “Program, Project, and Activity” section of this Act.

The conference agreement does not provide funding, within the National Research Initiative, for the competitive grants program as authorized under section 406 of the Agricultural Research, Extension, and Education Reform Act of 1998 as proposed by the House.

The conference agreement provides $1,000,000 for Applied Agricultural and Environmental Research of which $150,000 shall be for California State--Poly, and the remaining funds shall be equally divided among California State--Fresno, California State--San Luis Obispo, California State--Pomona, and California State--Chico.

The conference agreement provides $350,000 to continue physical assessments of the Rio Grande/Rio Bravo watershed to evaluate the hydrological feasibility of water management improvements.

The conference agreement provides $300,000 for air quality research of which $150,000 each shall be for the University of California at Davis and Fresno State University to supplement existing research initiatives for bovine emissions and manure lagoon emissions.

The conference agreement does not include language proposed by the House regarding Polymer-based University Research.

The conference agreement provides $1,612,000 for the Food and Agriculture Policy Research Institute. Of that amount, the conferees provide an increase of $75,000 above the fiscal year 2005 level for the Center for Agricultural and Trade Policies for the Northern Plains Region at North Dakota State University.

The conference agreement provides $736,000 for grain sorghum research of which $210,000 is for Texas Tech, $149,000 is for Texas A&M, and $377,000 is for Kansas State.

The conference agreement includes $2,000,000 for grants to youth organizations instead of $2,646,000 as proposed by the Senate.

The conferees note that the Extension Indian Reservation Program supports extension agents on large American Indian reservations to address the unique needs and problems of American Indian tribal nations. The funds provided are managed by the 1862 land-grant university in the state in which the reservation is located,
providing access to the university’s knowledge base and structure to deliver needed information and programs. The conferees recognize the need for additional Indian extension agents, and urge the Department to work with tribal nations to develop a benchmark for appropriate staffing levels.

OFFICE OF THE UNDER SECRETARY FOR MARKETING AND REGULATORY PROGRAMS

The conference agreement provides $724,000 for the Office of the Under Secretary for Marketing and Regulatory Programs as proposed by the House and the Senate.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

The conference agreement provides specific amounts for each program administered by APHIS, and directs appropriations for a number of projects and activities within the programs. Unless otherwise directed, APHIS shall implement appropriations by program, projects, and activities as specified by the Committees on Appropriations. The conferees expect APHIS to provide the specified amount for each program or activity, and expect that there will not be any redirection of funds without prior notification to and approval by the Committees on Appropriations, in accordance with the reprogramming procedures specified in this Act.

The conference agreement does not assume Animal Welfare Act user fees of $10,858,000, as proposed in the President’s budget request. Such fees are not authorized.

For fiscal year 2006, the conferees provide $27,524,000 for the AQI appropriated account, which includes an increase of $52,000 over the fiscal year 2005 funding level for interline activities in Hawaii. The conference agreement includes $2,514,000 for the National Germplasm and Biotechnology Laboratory to operate its biosecurity level 3 greenhouse, and support detection of high-risk plant pathogens to protect the agriculture sector.

The conferees include $59,976,000 for fruit fly exclusion and detection. Of that amount, $2,758,000 is for fruit fly control in Texas, as requested.

The conferees are aware of the development of a strategic plan to address the threat of multiple fruit fly species to U.S. agriculture. WhileAPHISdoes participate in sterile fly production relating to the Mediterranean Fruit Fly, there are three other fruit fly species in Hawaii which pose serious threats to agricultural production in that and other states. The conferees are aware of an ex-
isting agency facility located on the island of Oahu which has been used to produce sterile fruit flies, and the Secretary is directed to take no action toward the dismantling or demolition of that facility since it may play a role in developing a multi-species fruit fly strategy for U.S. tropical and subtropical agriculture. The Secretary is also directed to work with representatives of the Hawaii agriculture sector in developing such a strategy and for possible inclusion of the existing APHIS facility in that regard.

The conferees provide $12,493,000 for import-export inspection, including $1,000,000 for a cooperative agreement with the California County Pest Detection Augmentation Program.

The conference agreement includes $147,449,000 for Animal Health Monitoring and Surveillance. Within that amount, the conference agreement provides $33,340,000 for the National Animal Identification System (NAIS), as requested. The conference agreement also includes an increase of $2,500,000 for the Comprehensive Surveillance System.

The conference agreement provides the full amount requested, $17,184,000, for surveillance and other activities related to Bovine Spongiform Encephalopathy (BSE).

The conference agreement includes: $600,000 for the Farm Animal Identification and Records (FAIR) program; funding of the New Mexico Rapid Syndrome Validation Program at $547,000 to support early detection of pathogens in animals and prevent their spread; $375,000 for Iowa State’s work regarding risk assessments of genetically modified agricultural products; $325,000 to address bio-safety issues relating to antibiotic-resistant strains of bacteria in Vermont; $50,000 for animal tracking in Washington; and $50,000 for the Population Management Center, a collaboration between the Lincoln Park Zoo and the Davee Center for Epidemiology in Chicago, Illinois.

The conference agreement includes $3,571,000 for cooperative agreements with states, $1,900,000 for cooperative agreements as part of the National Animal Health Laboratory Network, and $8,930,000 for FMD/FAD surveillance.

The conference agreement includes $13,686,000 for emergency management systems, which includes a total of $4,307,000 for emergency coordinators and a total of $3,000,000 for the vaccine bank.

The conference agreement includes $27,316,000 for pest detection, including $200,000 for a remote sensing, hyperspectral imaging and light detection and ranging project; an increase of $100,000 for a cooperative agreement with California; and an increase of $1,546,000 for surveys through the Cooperative Agricultural Pest Surveys system.

The conference agreement provides a total of $3,519,000 for the Select Agents program. The funding for this program was transferred from the Import/Export and Pest Detection line items, as proposed in the President’s budget request.

The conferees provide an increase of $50,000 above the fiscal year 2005 level for the Greater Yellowstone Interagency Brucellosis Committee and an increase of $50,000 for Montana.

For chronic wasting disease, the conferees provide $18,710,000. The program provides funding to states in which the disease has
been found, including West Virginia. The conferees direct that of the total, $1,750,000 is for Wisconsin; $246,000 for Utah; $247,000 for the Conservation Medicine Center of Chicago; $50,000 for Colorado; and $150,000 for Alaska to monitor chronic wasting disease.

The conferees direct the Secretary to publish in the Federal Register proposed regulations relating to the control of chronic wasting disease. The Secretary is further directed to provide notice to the Committees on Appropriations of the House and Senate if this directive has not been achieved within 90 days of enactment and such notice shall include a description of actions taken and a timetable for publication in the Federal Register.

The conference agreement includes $100,217,000 for plant pests. The conferees provide $36,629,000 for citrus canker eradication; $24,250,000 for Pierce’s Disease/Glassy-winged sharpshooter; $10,000,000 for Emerald Ash borer; $1,500,000 for Karnal Bunt; and $3,076,000 for Sudden Oak Death. The conferees provide $500,000 for hydrilla eradication around Lake Gaston in Virginia and North Carolina. Funding for olive fruit fly is continued at the fiscal year 2005 level.

The conference agreement includes $20,000,000 for Asian longhorned beetle activities. The conferees direct that no less than the fiscal year 2005 level be provided for activities in Chicago, Illinois. The conferees also direct that sufficient resources be allocated for activities in New York.

The conferees note their continued concern regarding the devastation caused by citrus canker. The conference agreement includes $36,629,000 for eradication and control activities. Additional funds have recently been made available by the Administration. In September 2005, the Secretary announced that USDA had provided $53,750,000 in emergency funding for eradication and control, and in October 2005, he announced $200,000,000 in disaster relief funding to compensate commercial growers for losses. Although the conferees understand that these funds do not cover total needs, particularly since the hurricanes that hit Florida in 2004 contributed to the spread of disease, the investment to date has been substantial. In total, over $740,000,000 in federal funding has been provided to address needs related to citrus canker. The conferees will continue to monitor the situation, and encourage the Administration to continue its support of the industry.

The conferees expect the Secretary of Agriculture to continue to utilize his authority to transfer funds from the Commodity Credit Corporation (CCC) to assist states with the arrest and eradication of animal and plant pests and diseases that threaten American agriculture.

The conference agreement provides $13,189,000 for Johne’s Disease. Of that amount, no less than the fiscal year 2005 level shall be available for activities in Wisconsin.

The conferees note that a total of $28,337,000 is available for activities related to the prevention, control, and eradication of avian influenza, including $12,000,000 in carryover funds for indemnities. A program increase of $3,000,000 for detection, control, and eradication activities is provided in the conference agreement.
The conferees provide $1,920,000 for the noxious weeds account. This amount includes $50,000 for weed management in Nevada.

The conference agreement includes the amount requested, $2,216,000, for surveillance and control of the plum pox virus. In addition, approximately $600,000 is available for the program from carryover funds. The conferees understand that the virus has not moved beyond the borders of Pennsylvania, but are concerned about recent positive findings in the state. The conferees expect that if the incidence of plum pox virus increases, APHIS will use its authorities for emergency funding to support surveillance and removal and destruction of infected trees.

The conferees are aware of an outbreak of bovine tuberculosis in New Mexico and, in response, that an MOU has been executed between USDA and that state. The conferees urge the Secretary to use authorities and resources of the Department to provide testing, monitoring, surveillance, and other services, as needed, toward the control and eradication of this disease.

The conferees direct that, other than funding for the specific items noted in this statement, the funds provided in the Wildlife Services Operations line item are available for general operations needs.

The conferees do not concur with the President’s request to reduce funding in the Wildlife Services account to allow cooperators to assume a larger share of the costs associated with these activities.

The conferees provide $1,200,000 for wolf predation management, of which $1,050,000 is for Wisconsin, Minnesota, and Michigan, and $150,000 is for New Mexico and Arizona.

The conference agreement continues funding for the following projects: $300,000 for beaver management in North Carolina; $250,000 for crop and aquaculture losses in Southeast Missouri; $625,000 for game bird predation work with the University of Georgia; $150,000 for predation wildlife services in western and southside Virginia; $135,000 for blackbird control in Louisiana; $1,337,000 for predator control programs in Montana, Idaho, and Wyoming; $1,000,000 for wildlife services in Texas; $225,000 for beaver management and damage in Wisconsin; $50,000 for control of feral hogs in Missouri; $1,000,000 for cormorant control in New York; $200,000 for cormorant control in Michigan; $150,000 for cormorant control in the Lake Champlain basin; $750,000 for wildlife service operations with the South Dakota Department of Game, Fish, and Parks; $539,000 for the management of beavers in Mississippi; $380,000 to continue control measures for minimizing blackbird damage to sunflowers in North Dakota and South Dakota; $172,000 for Kansas blackbird control; $342,000 for the Jack Berryman Institute, Utah; $247,000 for Kentucky State operations; $321,000 for Delta states operations; $196,000 for goose control in New York; and $250,000 for the New Hampshire State operations. The conference agreement does not include $100,000 increases for state operations in Alaska, Tennessee or Pennsylvania, as proposed by the Senate.

The conference agreement includes $10,700,000 for wildlife control in Western states.
The conference agreement provides $404,000 for activities in Hawaii and Guam. The conferees expect these funds to be used to enhance activities for control of pest species. In addition, the conference agreement provides $950,000 for brown tree snake control.

The conference agreement includes $23,580,000 for a cooperative oral rabies vaccination program, an increase of $2,000,000 over the fiscal year 2005 level. The conferees encourage APHIS to make use of existing funds to appropriately address rabies in Broward County, Florida.

Within the amount provided for wildlife surveillance, the conference agreement provides an increase of $100,000 for remote diagnostics and wildlife disease surveillance activities with North Dakota State University and Dickinson State University.

The conferees provide an increase of $1,900,000 for the National Animal Health Laboratory Network, as requested. Within the total, $375,000 is included for an agriculture biosecurity center in Kansas.

Within that amount, the conferees provide $419,000 in funding for the National Wildlife Research Station in Kingsville, Texas, to address emerging infectious disease issues associated with wildlife populations; an increase of $175,000 for the Jack Berryman Institute, Mississippi; and an increase of $118,000 for the Utah Predator Research Station.

The conferees support the microchipping of pets for identification under a system of open microchip technology in which all scanners can read all chips. The conferees direct APHIS to develop the appropriate regulations that allow for universal reading ability and best serve the interests of pet owners. The conferees also direct APHIS to take into consideration the effect such regulation may have on the current practice of microchipping pets in this country, and to report to the Committees on Appropriations within 90 days of the date of enactment of this Act on progress toward that end.

The conferees are aware of the scientific achievements that have been made possible through the use of laboratory animals. However, the conferees also strongly support strict enforcement of the Animal Welfare Act, including regulatory oversight of the trade by Class B animal dealers. The Secretary is directed to report to the Appropriations Committees of the House and Senate by March 1, 2006, on enforcement actions taken in the regulation of Class B animal dealers. Such report should also include information regarding the frequency of inspection of Class B dealers, the allocation of resources for that purpose, and other actions of the Department.

**BUILDINGS AND FACILITIES**

The conference agreement provides $4,996,000 for Animal and Plant Health Inspection Service Buildings and Facilities as proposed by the House and the Senate.

The conference agreement includes $1,000,000 for the Farmers’ Market Promotion Program, to make grants to eligible entities for the purposes of establishing, expanding, and promoting farmers’ markets. The conferees direct that no entity shall receive more than $75,000 in funding from the program, and request a report on the grants made, including the entity, purpose, and location, and administrative costs of the program within 180 days of enactment.

LIMITATION ON ADMINISTRATIVE EXPENSES

The conference agreement provides $65,667,000 as proposed by both the House and Senate.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

The conference agreement provides $16,055,000 for Funds for Strengthening Markets, Income, and Supply as proposed by the House and the Senate.

In addition, the conferees provide not less than $20,000,000 for the first phase of development of the Web-based Supply Chain Management (WBSCM) system, which will benefit the programs of the Agricultural Marketing Service, the Farm Service Agency, and the Food and Nutrition Service, as well as enhancing food distribution to schools and other feeding outlets. The conferees note that administrative expenses to support commodity purchases are expressly allowed in the authorizing legislation, and Section 32 funds, accordingly, should be used to fund the development of the WBSCM system.

PAYMENTS TO STATES AND POSSESSIONS

The conference agreement provides $3,847,000 for Payments to States and Possessions as proposed by the Senate instead of $1,347,000 as proposed by the House. The conference agreement includes bill language and funding for a specialty markets grant as proposed by the Senate.
GRAIN INSPECTION, PACKERS AND STOCKYARDS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides $38,443,000 for the Grain Inspection, Packers and Stockyards Administration as proposed by the Senate instead of $38,400,000 as proposed by the House.

The conference agreement fully funds the requested increase for pay costs and the development of an information disaster recovery program, and provides an increase of $225,000 for other high priority budgeted increases. The conference agreement does not include $24,701,000 in grain standardization and Packers and Stockyards licensing fees, as proposed in the President's budget. These fees are not currently authorized in law.

The conferees remain very interested in the study on marketing arrangements that GIPSA has undertaken with $4,500,000 provided in fiscal year 2003 for that purpose. Although the study was delayed, the conferees have been informed that it is scheduled for completion in mid-2006 and that the total cost is not affected. The conferees direct GIPSA to provide quarterly updates and report the study findings to the Committees on Appropriations by June 30, 2006.

The conference agreement does not assume Food Safety Inspection user fees of $139,000,000, as proposed in the President's budget request. Such fees are not authorized.

The conferees include bill language, as proposed by the Senate, regarding full-time equivalent positions for inspections and enforcement of laws and regulations related to the Humane Methods of Slaughter Act.

The conference agreement provides $4,000,000 for FSIS to continue the incorporation of the Humane Activities Tracking (HAT) system into the Field Automation and Information Management (FAIM) system at slaughter plants throughout the country. This system will assist in connecting the HAT data into FSIS' broader

The conferees direct that of the funds available to the Administrator of the Farm Service Agency, $24,000,000 shall be for the National Agricultural Imagery Program (NAIP). This amount is in addition to any provided by cooperating funds from any other federal, state, or local government funding for NAIP.

The conferees note that USDA has set aside the FSA Tomorrow plan and expect USDA to exercise a cautious approach toward any county or local office closures.

The conferees are aware of the successful partnership between FSA and the National Tribal Development Authority in providing credit outreach to American Indian producers, which offers tribal members an equal opportunity to participate in farm loan programs. The National FSA American Indian Credit Outreach initiative reaches tribal members across the country, and has dem-
onstrated continued success in increasing participation and reducing defaults since its inception in 2001. Recent funding concerns have created some uncertainty for the future of this program. The conferees encourage FSA to continue its partnership with NTDA for its credit outreach initiatives.

STATE MEDIATION GRANTS

The conference agreement provides $4,250,000 for State Mediation Grants, as proposed by the House and Senate.

GRASSROOTS SOURCE WATER PROTECTION PROGRAM

The conference agreement provides $3,750,000 for the Grassroots Source Water Protection Program instead of no funding as proposed by the House and $4,250,000 as proposed by the Senate. The conference agreement provides for a transfer of $304,591,000 to salaries and expenses instead of $297,127,000 as proposed by the House and $309,137,000 as proposed by the Senate. Of this amount, $4,194,000 shall be used for increased salary costs, $7,483,000 shall be used for the highest priority operating expenses, and no less than $1,500,000 shall be used to hire and train additional farm loan officers and managers.

The conference agreement provides no new budget authority for the emergency loan program. Currently, this loan program has over $152,000,000 available for eligible producers. Based on historical loan activity, this amount should meet all needs for emergency loans in this fiscal year.
RISK MANAGEMENT AGENCY

The conference agreement provides $77,048,000 for the Risk Management Agency instead of $77,806,000 as proposed by the House and $73,448,000 as proposed by the Senate.

The conference agreement provides $3,600,000 in discretionary funds for data mining and data warehousing activities to address the program compliance and integrity functions of the federal crop insurance program. The conferees will only provide one-time funding for these activities within discretionary funds, and recommend the Agency seek mandatory funds as previously authorized under the Federal Crop Insurance Act (7 U.S.C. §§1501–1524) as proposed by the House.

Within the total funding for the Risk Management Agency, the conference agreement provides an increase of $1,000,000 for the Agency’s Emerging Information Technology Architecture initiative, instead of $1,463,000 as proposed by the House.

The conferees urge the Risk Management Agency to initiate a pilot program that would evaluate the effectiveness of lamb price insurance for sheep producers of all size operations and geography as proposed by the House, and a second that would conduct an actuarial study, in conjunction with North Dakota State University, addressing an optional insurance program in North Dakota, South Dakota, and Minnesota on wheat, barley, soybeans, and corn as proposed by the Senate.

The conferees are aware of aerial platform multi-spectral digital imaging and its potential application in facilitating the accurate measurement of crop insurance claims. The conferees encourage the Secretary to consider the development of a pilot program with the University of Minnesota to advance the application of this technology to the claims process.

FEDERAL CROP INSURANCE CORPORATION FUND

The conference agreement provides an appropriation of such sums as may be necessary for the Federal Crop Insurance Corporation Fund (estimated to be $3,159,379,000 in the President’s fiscal year 2006 Budget Request), as proposed by the House and Senate.

COMMODITY CREDIT CORPORATION FUND

REIMBURSEMENT FOR NET REALIZED LOSSES

The conference agreement provides an appropriation of such sums as may be necessary for Reimbursement for Net Realized Losses of the Commodity Credit Corporation (estimated to be $25,690,000,000 in the President’s fiscal year 2006 Budget Request), as proposed by the House and Senate.

OFFICE OF THE UNDER SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

The conference agreement provides $744,000 for the Office of the Under Secretary for Natural Resources and Environment as proposed by the House and the Senate.

The conferees note that the Natural Resources Conservation Service underwent a reorganization in early 2004. In discussions about the reorganization with the Committees on Appropriations, the Department agreed to revisit the reorganization in two to three years to determine its effectiveness and address any concerns of the Committees. The conferees direct the Department to consult with the Committees prior to conducting an analysis of the reorganization, and describing how it has met the needs of the Service, Congress, and stakeholders.

NATURAL RESOURCES CONSERVATION SERVICE

The conference agreement includes $839,519,000 for Conservation Operations, instead of $773,640,000 as proposed by the House and $819,561,000 as proposed by the Senate.

The conference agreement provides $27,500,000 for the Grazing Lands Conservation Initiative, $10,650,000 for snow surveys, $10,547,000 for Plant Materials Centers, and $88,149,000 for the Soil Surveys Program. The budget authority provided for the Plant Materials Centers does not include funds for completion of the Alaska Plant Materials Center, as proposed by the Senate.

The conference agreement requires funds appropriated for Conservation Operations be available until May 31, 2007. The conferees direct the Secretary to report to the Committees no later than July 1, 2006, on any projects or activities for which funds have been specifically provided by this Act that have not been obligated by that date. Such a report shall include the reasons for which the obligations have not been made and a timetable indicating when those obligations shall occur.

Funding for fiscal year 2005 projects is not continued in fiscal year 2006 unless specifically mentioned in this statement of the managers. The following funds are directed to be used in cooperative agreements continued with the same cooperator entities as in the fiscal year 2005 agreements, except as noted: Cooperative agreement between the Alabama Department of Conservation and Natural Resources and the Alabama Wildlife Federation for conservation education (AL)—$446,000; Cooperative agreement with the Alabama Association of Conservation Districts (AL)—$100,000; Obtain/evaluate materials for cold region seeds of plants in conjunction w/Alaska Division of Agriculture (AK)—$300,000; Native Plant Materials (commercialization) (AK)—$300,000; NRI pilot development (AK)—$500,000; Cooperative agreement w/Soil and Water Conservation Districts (AK)—$1,488,000; National Water Management Center (AR)—$2,750,000; Study to determine logistics of transportation/coordination of excess nutrients (AR)—$225,000; Small Farm Wetlands Management Center w/University of Arkan-

The conferees direct that the funding included in this account for the Community Nutrient Management Facilities project and the Georgia Soil and Water Conservation Commission Cooperative Agreement be provided to the Commission through the state NRCS office in a timely manner and in total, not in part, so that vital water projects in Georgia are not delayed. Of the funds provided for the Community Nutrient Management Facilities, $100,000 is for a contract with the Georgia Rural Water Association to continue the Lagoon Waste Management Demonstration program at agricultural and municipal sludge disposal facilities.

The conference agreement provides $6,000,000 for the continued implementation of pilot projects for innovative technology systems resulting in a 75 percent reduction in nutrients of waste stream discharged by animal feeding operations to be managed by Farm Pilot Project Coordination, Inc. The Secretary is directed to release these funds after submitting a report to the Committees on Appropriations that a satisfactory cooperative agreement between the NRCS and Farm Pilot Project Coordination, Inc. has been consummated.

The conference agreement provides $27,500,000 for the Grazing Lands Conservation Initiative. This is $4,188,000 more than the fiscal year 2005 level. The conferees expect the additional funds will be used to enhance efforts to manage and prevent the spread of invasive species. The conferees encourage the agency to make western range lands a priority when allocating funding.

The conferees support the NRCS proposal to use Conservation Innovation Grants to support the goals of the Wildlife Habitat Management Institute.

WATERSHED SURVEYS AND PLANNING

The conference agreement provides $6,083,000 for Watershed Surveys and Planning instead of $7,026,000 as proposed by the House and $5,141,000 as proposed by the Senate.

The conferees direct that the Chief of the Natural Resources Conservation Service evaluate and rank efforts currently underway in order to fund and complete the most promising projects, based upon merit, and notify the Committees on Appropriations of the House and Senate on the selected watershed projects. In addition, the agency is directed not to initiate any new planning starts for projects not otherwise specifically provided for by this Act.

WATERSHED AND FLOOD PREVENTION OPERATIONS

The conference agreement provides $75,000,000 for Watershed and Flood Prevention Operations instead of $60,000,000 as proposed by the House and the Senate.

The conferees include bill language which limits the amount spent on technical assistance to not more than $30,000,000.
WATERSHED REHABILITATION PROGRAM

The conference agreement provides $31,561,000 for the Watershed Rehabilitation Program instead of $47,000,000 as proposed by the House and $27,313,000 as proposed by the Senate.

The conferees direct that funding under this program be provided for rehabilitation of structures determined to be of high priority need in order to protect property and ensure public safety.

RESOURCE CONSERVATION AND DEVELOPMENT

The conference agreement provides $51,300,000 for Resource Conservation and Development instead of $51,360,000 as proposed by the House and $51,228,000 as proposed by the Senate.

The conferees include bill language as proposed by the House that directs the Secretary to enter into an agreement with a national association related to the Resource Conservation and Development program, and directs that such an agreement must maintain the same matching, contribution requirements and funding set forth in previous agreements.

The conferees also include bill language that limits funding for national headquarters activities as proposed by the House.

The conference agreement restores this account, rather than accepting the budget proposal to defund the 189 Resource Conservation and Development (RC&D) Councils that have been in existence for twenty years or more. The conferees would expect any such budget proposal to be based on the effectiveness and performance of the Councils rather than on Council age. The conferees direct that NRCS work with the Councils to develop appropriate measures of effectiveness for both conservation and economic development.

TITLE III—RURAL DEVELOPMENT PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR RURAL DEVELOPMENT

The conference agreement provides $635,000 for the Office of the Under Secretary for Rural Development as proposed by the Senate instead of $627,000 as proposed by the House.

The conferees direct the Under Secretary to give consideration to the following projects or organizations requesting financial and/or technical assistance, and grants and/or loans made available under the Rural Development mission area: Farm Counseling Project of Rural Services of Indiana (IN), to start a co-op; Northeast Texas (TX) Community College/Hanson-Sewell Center, to build a community outreach center; Navajo Tribal Utility Authority-Crownpoint Chapter (NM); a water and waste water system for Franklin County (ID); a water and waste water system for Franklin City (ID); a water and waste water system for Dayton City (ID); a water and waste system for Preston City (ID); a water and waste system for Weston City (ID); Tuscarora Township (MI), Indian River wastewater system; Hartselle (AL), water works environmental education; Orangeburg County (SC), Felderville Church Road water project; Decatur County (IA), Decatur County Development Corporation; Franklin Furnace (OH), sewer and road improvements; Assumption Parish (LA), water and waste water infra-
structure; a water and waste system for Lodi (CA); Northeast Organic Farming Association of Vermont (VT), farmers market; Scottsville Streetscape Project (VA); and the Chautauqua County (KS) Rural Water District No. 4.

The conferees expect the Under Secretary to approve these projects only when such applications are judged to be meritorious when subject to established review procedures.

The conferees are aware that the Department has previously provided funding for the National Rural Development Partnership (NRDP). The NRDP, and its associated State Rural Development Councils, facilitate interagency coordination and provide programmatic guidance for rural development at several levels. The State Rural Development Councils are uniquely positioned to support the work of the National Rural Development Coordinating Committee (NRDCC), which recently began operations. The conferees expect funds to be provided for the NRDP and State Rural Development Councils at a level comparable to fiscal year 2004. The Department is strongly encouraged to utilize funds outside of the Rural Development mission area and to solicit the participation of federal departments and agencies, nongovernmental organizations serving rural stakeholders, and State Rural Development Councils in support of the work of the NRDCC.

RURAL COMMUNITY ADVANCEMENT PROGRAM

The conference agreement provides $701,941,000 for the Rural Community Advancement Program (RCAP) instead of $657,389,000 as proposed by the House and $705,106,000 as proposed by the Senate.

**RURAL DEVELOPMENT SALARIES AND EXPENSES**

The conference agreement provides $164,625,000 for Rural Development Salaries and Expenses instead of $152,623,000 as proposed by the House and $164,773,000 as proposed by the Senate. The conference agreement provides an increase of $11,147,000 within the Rural Development Salaries and Expenses account to complete the consolidation of St. Louis Rural Development activities at the Goodfellow facility. Rural Development reported to the Committees on Appropriations on July 18, 2005, that this amount is based on revised numbers resulting from discussions between the General Services Administration and Rural Development to accomplish the move. The conferees request the Department to pro-
vide the Committees on Appropriations a report on the status of the consolidation within 60 days after enactment of this Act and quarterly thereafter.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

The conference agreement provides a total subsidy of $242,108,000 for activities under the Rural Housing Insurance Fund Program Account instead of $233,391,000 as proposed by the House and $228,983,000 as proposed by the Senate.

The conference agreement provides for an estimated loan program level of $5,078,380,000 instead of $5,079,349,000 as proposed by the House and $4,927,581,000 as proposed by the Senate.

The conference agreement provides for a transfer of $454,809,000 to salaries and expenses instead of $455,242,000 as proposed by the House and $465,886,000 as proposed by the Senate.

The conference agreement includes a provision authorizing housing funds initially allocated to Alaska to be available until September 30, 2007.

The conference agreement includes bill language making the section 515 rental housing program available for repair, rehabilitation, and new construction.

The conference agreement provides $9,000,000 to carry out a demonstration program for projects financed under the section 515 program. The conferees intend that the Department assist section 515 owners in revitalizing and preserving the section 515 portfolio through financial options provided in this demonstration and consistent with recommendations provided in the Comprehensive Property Assessment report released by the Department in 2004. The conferees expect that owners assisted under this demonstration program shall be required to maintain the housing assisted under this demonstration as affordable, as determined by the Secretary, for the remaining term of the original loan or the term of a restructured loan, whichever is longer.

The conference agreement provides $1,000,000 for the Secretary to acquire the necessary automation and technical support needed to restructure section 515 mortgages. The conferees encourage the Secretary to contract with third parties with expertise in multifamily housing finance, mortgage restructuring, development, market analysis, management, finance, taxation and other requirements as determined by the Secretary.

RENTAL ASSISTANCE PROGRAM

The conference agreement provides $653,102,000 for the Rental Assistance Program as proposed by the Senate instead of $650,026,000 as proposed by the House. Of this amount, the conference agreement includes up to $8,000,000 for debt forgiveness and payments to enhance preservation efforts and not to exceed $50,000 per project for advances to nonprofit organizations or public agencies to cover direct costs incurred in purchasing projects.

The conference agreement provides additional funding above the budget request for debt forgiveness. The conference agreement also includes a provision that will deobligate the cost of rental assistance in section 515 projects that are subject to prepayment and reallocate these funds through a separate funding stream for the cost of the vouchers and debt forgiveness consistent with the requirements of this Act. These funds are in addition to funds otherwise provided for such activities in this Act.

RURAL HOUSING VOUCHER PROGRAM

The conference agreement provides $16,000,000 for the Rural Housing Voucher Program as proposed by the Senate. The House did not provide funding for this program.

The conference agreement provides adequate funding for vouchers as a safety net to prevent the displacement of low-income rural tenants that currently reside in section 515 projects that are subject to prepayment or foreclosure of their existing loans. The conference agreement does not alter prepayment restrictions or intend for vouchers to be used in a property that would not be eligible or able to prepay without the use of such voucher.

MUTUAL AND SELF-HELP HOUSING GRANTS

The conference agreement provides $34,000,000 for Mutual and Self-Help Housing Grants as proposed by the House and Senate.
RURAL HOUSING ASSISTANCE GRANTS

The conference agreement provides $43,976,000 for Rural Housing Assistance Grants as proposed by the Senate instead of $41,000,000 as proposed by the House. The conferees provide $2,976,000 for the preservation of the section 515 multi-family housing portfolio.

FARM LABOR PROGRAM ACCOUNT

The conference agreement provides $31,168,000 for the Farm Labor Program Account instead of $32,728,000 as proposed by the House and $29,607,000 as proposed by the Senate.

The conference agreement provides for an estimated loan program level of $38,502,000, $17,168,000 for loan subsidies, and $14,000,000 for grants.

RURAL BUSINESS-COOPERATIVE SERVICE

RURAL DEVELOPMENT LOAN FUND PROGRAM ACCOUNT

The conference agreement provides an estimated loan program level of $34,212,000 with a subsidy of $14,718,000 for the Rural Development Loan Fund as proposed by the House and Senate.

The conference agreement provides for a transfer of $4,793,000 to the Rural Development salaries and expense account instead of $4,719,000 as proposed by the House and $6,656,000 as proposed by the Senate.

The conference agreement includes $3,449,000 for Mississippi Delta Region counties, of which up to $1,500,000 is for the Delta Regional Authority.

RURAL ECONOMIC DEVELOPMENT LOANS PROGRAM ACCOUNT

The conference agreement provides an estimated loan program level of $25,003,000 with a subsidy of $4,993,000 for the Rural Economic Development Loans Program Account as proposed by the House and Senate.

RURAL COOPERATIVE DEVELOPMENT GRANTS

The conference agreement provides $1,488,000 for cooperatives or associations of cooperatives to assist minority producers.

The conference agreement provides $500,000 for a cooperative research agreement with a qualified academic institution to conduct research on the national economic impact of all types of cooperatives.

RURAL EMPOWERMENT ZONES AND ENTERPRISE COMMUNITIES GRANTS

The conference agreement provides $11,200,000 for Rural Empowerment Zones and Enterprise Communities Grants instead of $10,000,000 as proposed by the House and $12,400,000 as proposed by the Senate.
The conferees are concerned that rural empowerment zones, particularly zones selected because of outmigration, are having a difficult time successfully competing for USDA Rural Development program funds. This difficulty is occurring because many Rural Development programs fail to consider outmigration as a factor when awarding grants. Additional funding from competitive grant programs, which supplements funding Congress has set-aside for empowerment zones over the last several years, is essential for the advancement of economic development in these communities. The conferees strongly encourage the Department to consider outmigration when awarding competitive grants.

The conferees further recognize that third round rural empowerment zones have not received funding at the same level as first and second round rural empowerment zones. The conferees believe that the competitive grant process is one way to address this disparity. The Department is strongly encouraged to give priority consideration to applications for Rural Development competitive grants from third round rural empowerment zones.

RENEWABLE ENERGY PROGRAM

The conference agreement provides $23,000,000 for the Renewable Energy Program as proposed by the House and the Senate.

RURAL UTILITIES SERVICE

RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT

The conference agreement provides a total subsidy of $6,372,000 for activities under the Rural Electrification and Telecommunications Loans Program Account as proposed by the House and Senate. The conference agreement provides for an estimated loan program level of $6,094,000,000 instead of $4,994,000,000 as proposed by the House and $6,095,000,000 as proposed by the Senate.

The conference agreement provides for a transfer of $38,784,000 to the Rural Development salaries and expenses account instead of $38,907,000 as proposed by the House and $39,933,000 as proposed by the Senate.

TITLE IV—DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

The conference agreement provides $599,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services, as proposed by the House and the Senate.

The conferees encourage the Agency to conduct a feasibility study, in consultation with WIC State agencies, to explore a common cost effective strategy to implement the cash value voucher for fruits and vegetables that may be adopted in response to recommendations outlined in the Institute of Medicine report on the food packages provided by the Special Supplemental Nutrition Program for Women, Infants and Children (WIC).
The conference agreement provides $12,660,829,000 for Child Nutrition Programs, instead of $12,412,027,000 as proposed by the House and $12,422,027,000 as proposed by the Senate. Included in the total is an appropriated amount of $7,473,208,000 and a transfer from section 32 of $5,187,621,000.

The conferees are aware that USDA, through its Team Nutrition program, recently updated its dietary guidelines and published My Pyramid and My Pyramid for Kids, which are updates to the former food guide pyramids. The conferees are also aware that FNS is currently working to publicize these nutrition standards. The conferees encourage FNS to use all available resources to ensure that funding for Team Nutrition remains at a level which will allow it to effectively provide this important nutrition information to both adults and children.

The conference agreement provides the following for Child Nutrition programs:

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The conference agreement provides $5,257,000,000 for the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) as proposed by both the House and Senate.

The conference agreement includes $15,000,000 for continuation of the breastfeeding peer counselor program. In addition, the conference agreement provides $20,000,000 for investments in management information systems, if the Secretary determines that those funds are not needed to maintain caseload and will not require use of the contingency fund.

The conference agreement does not include language regarding adjunct eligibility restrictions.

The conference agreement includes such sums as are necessary to restore the contingency reserve to $125,000,000, to be allocated as the Secretary deems necessary, as proposed by the Senate.

FOOD STAMP PROGRAM

The conference agreement provides $40,711,395,000 for the Food Stamp Program, as proposed by the House and the Senate.
Included in this amount is a reserve of $3,000,000,000, to remain available until September 30, 2007.

The conference agreement includes $36,049,026,000 for program expenses, $1,522,369,000 for grants to Puerto Rico and Samoa, and $140,000,000 for commodity purchase for The Emergency Food Assistance Program.

The conference agreement includes a provision allowing for purchase of bison meat, in an amount not less than $3,000,000, for the Food Distribution Program on Indian Reservations (FDPIR).

The conference agreement includes statutory language to exclude special pay for military personnel deployed to designated combat areas when determining food stamp eligibility.

COMMODITY ASSISTANCE PROGRAM

The conference agreement provides $179,366,000 for the Commodity Assistance Program instead of $178,797,000 as proposed by the House and $179,935,000 as proposed by the Senate.

The conference agreement provides $108,285,000 for the Commodity Supplemental Food Program. According to the USDA’s latest estimates, approximately $6,020,000 in commodity inventory is expected to be available to CSFP in fiscal year 2006, making the total available for the program approximately $114,305,000. The conferees strongly encourage USDA to make every effort to maintain the fiscal year 2005 caseload by making full use of CSFP inventory and carryover from preceding years, and to access all available resources from bonus commodity holdings and CCC stocks.

The conferees provide $50,000,000 for administration—processing, storage, transport, and distribution—of The Emergency Food Assistance Program (TEFAP). The conference agreement includes a provision that provides the Secretary authority to transfer up to an additional $10,000,000 from TEFAP commodities for this purpose.

The conference agreement includes $20,000,000 for the Farmers’ Market Nutrition Program.

The conferees note that $15,000,000 in funding is available for the Seniors Farmers’ Market Nutrition Program in fiscal year 2006 through the Farm Security and Rural Investment Act of 2002.

NUTRITION PROGRAMS ADMINISTRATION

The conference agreement provides $140,761,000 for Nutrition Programs Administration as proposed by the House and the Senate. The conference agreement does not include language regarding limitations on the amount specified for certain administrative activities.

The conferees direct the Department to promptly publish interim final regulations regarding WIC vendor cost containment, as described in the legislative history of the Child Nutrition and WIC Reauthorization Act. The conferees also expect the Department to work with the WIC State agencies to implement the interim final regulations regarding vendor cost containment in accordance with the provisions set forth in section 17(h)(11)(G) of the Child Nutrition Act of 1966. In the event the WIC State agencies should fail to implement the interim final regulations before the enactment of this Act, the conferees have provided an extension of the morato-
rrium on authorization of new ‘WIC-only’ stores until implementation of the regulations by the WIC State agencies. This moratorium is not intended to restrict the transfer or relocation of existing ‘WIC-only’ stores.

TITLE V—FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE

SALARIES AND EXPENSES

The conference agreement provides $147,901,000 for the Foreign Agricultural Service, Salaries and Expenses instead of $148,224,000 as proposed by the House and $147,868,000 as proposed by the Senate.

The conference agreement includes the following increases: $1,788,000 for pay costs; $1,200,000 for ICASS; $4,000,000 to offset the increased costs in overseas wages and currency rates, of which $2,000,000 shall remain available until expended; $300,000 for increased FAS presence in Baghdad; $2,743,000 for the capital surcharge being levied by the State Department; and $200,000 for technical assistance for the promotion of specialty crop exports.

The conference agreement provides $951,000 for administering Title I Food for Progress grant programs.

PUBLIC LAW 480 TITLE I AND TITLE II PROGRAM AND GRANT ACCOUNTS

The conference agreement provides $65,040,000 for Title I loan subsidies for a loan level of $74,032,000 as proposed by the House and the Senate.

The conference agreement includes bill language providing that the Secretary of Agriculture may implement a commodity monetization program under existing provisions of the Food for Progress Act of 1985 to provide no less than $5,000,000 in local-currency funding support for rural electrification overseas as proposed by the Senate.

The conference agreement provides $11,940,000 for Ocean Freight Differential as proposed by the House and the Senate.

The conference agreement provides $1,150,000,000 for international food assistance through PL 480 title II grants.

The conferees take the responsibilities of meeting humanitarian needs very seriously, and given current budget constraints, this conference agreement provides the highest levels of funding possible for various international food assistance programs. Under this conference agreement, title II grants under PL 480, one of the primary international food assistance programs, are funded at a level $265,000,000 higher than the President's request. The conferees encourage the Executive Branch to restore, through future budget requests, funding levels for international food assistance under the jurisdiction of the appropriations subcommittees of the House and Senate which fund USDA programs, more closely in line with historic levels. The conferees further admonish the Executive Branch to refrain from proposals which place at risk a carefully balanced coalition of interests which have served the interests of international food assistance programs well for more than fifty years.

The conference agreement also makes mammography user fees and export certification user fees available to the agency. The conference agreement includes bill language related to the White Oak consolidation, as proposed by the House, and does not contain a provision relating to Congressional testimony, as proposed by the House.

Within the total funding for the Food and Drug Administration, the following increases above the fiscal year 2005 level are provided: $10,000,000 for activities related to food safety and food defense; $7,827,000 for medical device review; $10,000,000 for drug safety activities; $884,000 for activities related to direct-to-consumer advertising; $750,000 to support research with the Critical Path Institute; $200,000 for agricultural product testing at the Physical Science Laboratory at New Mexico State University; $300,000 for the National Center for Natural Products Research; $4,128,000 for relocation expenses related to the move to the consolidated White Oak campus; and $4,100,000 in rent paid to GSA. The conference agreement assumes reductions of $1,554,000 in administrative efficiencies and $5,116,000 in IT reductions, as proposed in the request.

The conference agreement provides $14,696,000 for Orphan Product grants, not less than $4,000,000 for the Office of Women’s Health, and not less than $56,228,000 for the generic drug program.

The conference agreement provides the $5,000,000 increase for the Office of Drug Safety as requested in the budget. In addition, the conference agreement provides an increase of $5,000,000 for drug safety activities within CDER. The conferees intend that these increases be used for FDA’s highest priority drug safety needs that were not funded in fiscal year 2005, such as hiring of additional scientists or the acquisition of databases to which FDA does not now have access to help track adverse drug events. The conferees direct FDA to provide a report to the Committees on Appropriations within 30 days of enactment, setting forth its proposed use of these funds in detail, including an object class breakout for the $10,000,000 increase.

The conference agreement provides no less than $29,556,000 for Bovine Spongiform Encephalopathy (BSE), as requested. The conferees understand that this funding will support agency-wide BSE activities including conducting yearly inspections of all renderers and feed mills processing products containing prohibited materials, extending BSE inspections into targeted segments of industries subject to the BSE Feed regulation, validating test methods for the detection of bovine-derived proteins in animal feed, and continuing to conduct research on Transmissible Spongiform Encephalopathies in FDA’s product centers.

Within the food safety and defense increase, the conference agreement provides increases of $5,074,000 for food defense re-
search, $3,926,000 for the Food Emergency Response Network, $500,000 for food defense bio-surveillance, and $500,000 to improve and increase import surveillance of food.

The conferees have serious concerns regarding seafood safety issues posed by banned antibiotic contamination in farm-raised shrimp imports. In addition, the conferees are concerned that the FDA inspects less than 2 percent of shrimp being imported into the United States. The conferees recommend that the FDA, in cooperation with any state testing programs, continue testing of farm-raised shrimp imports for chloramphenicol and other related harmful antibiotics.

The conference agreement includes total funding of $5,360,000 for the CFSAN Adverse Events Reporting System, of which approximately $1,500,000 is for dietary supplements. This is $860,000 more than the amount in the budget request.

The conference agreement fully funds the amount designated for influenza in the budget request. The conferees encourage the Administration to develop a comprehensive response plan for dealing with potential human-to-human transmission of avian influenza, including the availability of vaccine and treatment. The conferees direct the agency to provide regular updates to the Committees on its involvement in influenza preparedness activities. Further, the conferees expect the Administration to provide a supplemental request should the need for additional influenza funding arise.

The conferees support the work of the National Antimicrobial Resistance Monitoring System (NARMS) and its collaborative relationship between FDA, USDA, and the Centers for Disease Control. The conferees expect the coordination of activities among these three areas of government to result in the most unbiased presentation of timely, accurate data in the best interest of public health, and encourage FDA to equally divide research funding among the three branches of the program. Further, the conferees direct that FDA perform a review of all components of the NARMS program to analyze the program’s scientific soundness and relevance to public health, the criteria utilized to evaluate the program, the transparency of the program, opportunities for public input, and report the result to the Committees.

The conference agreement provides an increase of $300,000 to enhance the collaboration between FDA and the National Center for Natural Products Research and allow increased participation by FDA staff in the research on botanicals and dietary supplements being conducted at the National Center for Natural Products Research in Oxford, MS.

The conference agreement includes no more than $13,026,357 for the Unified Financial Management System (UFMS). Of this amount, $9,720,374 is for development and implementation, and $3,305,953 is for operations and maintenance of UFMS. The conferees note that FDA has spent in excess of the amount expressly appropriated for UFMS in previous fiscal years, and direct FDA to provide quarterly reports on spending for this system to ensure this does not continue.
The conference agreement does not include funding for a foods research center or a pilot program for compounded drug monographs or directed inspection funding, as proposed by the Senate.

The conferees are aware of concerns about the regulation of imports of ethnic foods in the Los Angeles district. Concerns include the issues of communication to importers about shipments being held by FDA, the amount of time that shipments are held, and proper declaration of products. The conferees understand that in 2004 FDA's Los Angeles District implemented new operating procedures and held a public meeting on these issues. Since two years have elapsed, the conferees suggest that FDA now review the performance of the program and solicit input from the import community.

The conferees note that FDA may use available funds to support review and action on new drug applications and supplements seeking approval for replacement or alternative abuse-resistant formulations of currently-available drug products that include an active ingredient that is a listed chemical under the Controlled Substances Act. Further, it is the understanding of the conferees that these applications may be considered under the expedited, priority review process at FDA.

The conferees are aware that the FDA issued a monograph for sunscreen products in 2002, and the monograph was stayed shortly thereafter so that FDA could address the issue of measuring protection against UVA rays, which cause skin cancer. Since that time, no further official action has been taken by the FDA, although skin cancer rates continue to rise, especially among young persons and women. The conferees believe that a comprehensive monograph would be useful to consumers. Therefore, the conferees direct FDA to issue a comprehensive final monograph for over-the-counter sunscreen products, including UVA and UVB labeling requirements, within six months of enactment of this Act.

The conferees do not include language in the House bill that withheld five percent of the funds provided to FDA's central offices pending a public hearing with the agency head on the fiscal year 2006 budget, because this requirement was satisfied by former Commissioner Crawford's testimony before the House subcommittee in July. However, the conferees expect the head of the agency to testify before the House and Senate subcommittees on the fiscal year 2007 budget during the regular course of budget hearings.

The conferees appreciate the detailed information provided in the budget justification prepared by the Food and Drug Administration and rely heavily on this information when considering budget proposals. These materials have traditionally been prepared for the sole use of the Committees on Appropriations in a format consistent with the structure of the Appropriations Act. The account organization in the fiscal year 2006 budget request does not present information in a format that is useful to the Committees. Therefore, the conferees do not approve the proposed restructuring of FDA's budget for the field activities, rent activities, and other activities accounts. The conferees direct the Agency to submit the fiscal year 2007 budget request in a format that follows the same ac-
count structure as the fiscal year 2005 budget request unless otherwise approved by the Committees.

The conferees direct the Department of Health and Human Services (HHS) to include all anticipated consolidations that impact FDA in the FDA budget request submitted to Congress. Further, the conferees direct that none of the funds made available to FDA in this Act be used for any assessments, fee, or charges by HHS unless such assessments, fees, or charges are identified in the FDA budget justification and expressly provided by Congress, or approved by Congress in the official reprogramming process as required in the General Provisions of this Act. The conferees further direct HHS to include in the fiscal year 2007 budget submission all sources of funding projected to be received by FDA from all other federal agencies in fiscal years 2006 and 2007, by agency, with a brief description of the reason for which the funds are to be provided to FDA.

In its fiscal year 2006 budget, FDA requested $146,213,000 for “research, development and evaluation” (RD&E) activities. This amounts to about 10 percent of the agency’s discretionary request. FDA provided only general descriptions of its planned RD&E activities within the context of its strategic plan, without specifying the dollars requested, and provided only total proposed expenditures for each “research theme.” The conferees direct FDA to provide the same level of budget justification for its research activities in the fiscal year 2007 budget as it does other activities, including a justification of both base spending and any proposed increases by activity within center or office.

The conference agreement provides $750,000 to support collaborative research with the C-Path Institute and the University of Utah on cardiovascular biomarkers predictive of safety and clinical outcomes. The conferees understand the research would involve identifying candidate genes and proteins in University of Utah databases, designing and conducting genomic and proteomic biomarker validation experiments by the C-Path Institute, the University of Utah, FDA and manufacturers, determining which biomarkers identify heart failure patients who are most likely to respond favorably to drug therapy and those at highest risk of adverse events.

The conferees remain concerned about the legal and regulatory issues relating to approval of drugs as both prescription and over the counter products, and urge FDA to expedite rulemaking on this topic.

**BUILDINGS AND FACILITIES**

The conference agreement provides $8,000,000 for the Food and Drug Administration Buildings and Facilities instead of $5,000,000 as proposed by the House and $7,000,000 as proposed by the Senate. Of the total, $4,000,000 is for the repair and improvement of existing buildings and facilities, and $4,000,000 is to complete the final phase of the Arkansas Regional Laboratory.
INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

The conference agreement provides $98,386,000 for the Commodity Futures Trading Commission as proposed by the House and the Senate. This is an increase of $4,814,000 over the fiscal year 2005 level.

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The conference agreement includes a limitation of $44,250,000 on administrative expenses of the Farm Credit Administration (FCA), as proposed by the House and the Senate.

The conference agreement does not include language allowing some expenses associated with terminations to exceed the limitation, as proposed by the Senate.
