

110TH CONGRESS
1ST SESSION

H. R. 2913

To amend the administrative requirements for conservation programs administered by the Department of Agriculture to ensure a greater emphasis on increasing habitat for native and managed pollinators and establishing cropping systems, integrated pest management regimes, and other practices to protect native and managed pollinators, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

JUNE 28, 2007

Mr. BLUMENAUER (for himself, Mr. HASTINGS of Florida, and Mr. KUHL of New York) introduced the following bill; which was referred to the Committee on Agriculture

A BILL

To amend the administrative requirements for conservation programs administered by the Department of Agriculture to ensure a greater emphasis on increasing habitat for native and managed pollinators and establishing cropping systems, integrated pest management regimes, and other practices to protect native and managed pollinators, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Pollinator Habitat
3 Protection Act of 2007”.

4 **SEC. 2. GIVING POLLINATOR HABITAT AND PROTECTION A**
5 **PRIORITY IN CONSERVATION PROGRAMS.**

6 (a) **ADDITIONAL ADMINISTRATIVE REQUIREMENT**
7 **FOR CONSERVATION PROGRAMS.**—Section 1244 of the
8 Food Security Act of 1985 (16 U.S.C. 3844) is amended
9 by adding at the end the following new subsection:

10 “(c) **NATIVE AND MANAGED POLLINATORS.**—In car-
11 rying out any conservation program administered by the
12 Secretary, except the farmland protection program, the
13 Secretary shall establish a priority and provide incentives
14 for—

15 “(1) increasing habitat for native and managed
16 pollinators, especially native habitat; and

17 “(2) establishing cropping systems, integrated
18 pest management regimes, and other practices to
19 protect native and managed pollinators.”.

20 (b) **DESIGNATION OF POLLINATOR PROTECTION AS**
21 **NATIONAL PRIORITY RESOURCE CONCERN.**—Since in-
22 creasing awareness about the importance of pollinator pro-
23 tection to agricultural producers and ecosystem health is
24 a necessary step in facilitating pollinator stewardship, pro-
25 tection, and habitat conservation, it is the sense of Con-
26 gress that the Secretary of Agriculture should designate

1 pollinator protection as a “national priority resource con-
2 cern” for conservation programs administered by the De-
3 partment of Agriculture.

4 (c) AWARENESS AND USE OF POLLINATOR-FRIEND-
5 LY NATIVE PLANTS.—Since one of the obstacles for pro-
6 tecting and strengthening pollinator habitat is a chronic
7 shortage of native plants, including seed and nursery stock
8 for native plants, it is the sense of Congress that—

9 (1) the Secretary of Agriculture should continue
10 efforts to make nurseries and land managers aware
11 of pollinator-friendly native plants; and

12 (2) Plant Materials Centers of the Department
13 of Agriculture should emphasize pollinator-beneficial
14 native plantings for native and managed pollinator
15 habitat.
