and the family of organ donors.

A BILL

To establish the Stephanie Tubbs Jones Gift of Life Medal
for organ donors and the family of organ donors.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE; FINDINGS.**

2 (a) **SHORT TITLE.**—This Act may be cited as the
3 “Stephanie Tubbs Jones Gift of Life Medal Act of 2008”.

4 (b) **FINDINGS.**—The Congress makes the following
5 findings:

6 (1) Congresswoman Stephanie Tubbs Jones was
7 dedicated to eliminating health disparities and pro-
8 tecting vulnerable populations.

9 (2) Through her service on the Committee on
10 Ways and Means, Subcommittee on Health, she was
11 a strong voice for those who were poor, elderly, ra-
12 cial and ethnic minorities, and disenfranchised.

13 (3) Congresswoman Stephanie Tubbs Jones’
14 concern for others was demonstrated by the decision
15 to donate her organs, so that as her life ended, the
16 lives of others continued.

17 (4) There are currently 99,625 candidates for
18 organ donation on the national transplant waiting
19 list. Every 16 minutes, a new name is added to such
20 list. Sixteen persons die each day waiting for a life
21 saving organ transplant.

22 (5) Minority populations account for nearly 50
23 percent of those on the national transplant waiting
24 list.

25 (6) Diseases that can lead to organ failure,
26 such as hypertension and diabetes, are found more

1 frequently in ethnic minority populations than in the
2 general population.

3 (7) While minorities donate organs in propor-
4 tion to their population, the rate of organ donations
5 fails to keep pace with the need for transplants in
6 the population. African-Americans, for example, rep-
7 resent about 13 percent of the population and 12
8 percent of organ donors, but comprise roughly 23
9 percent of individuals on national transplant waiting
10 list for kidney transplants.

11 (8) Transplantation success rates are higher
12 when organs are matched between people sharing
13 the same racial and ethnic background.

14 (9) Because of the disparities in the need for
15 organs, minorities are more likely to wait longer to
16 find a successful match and are more likely to be
17 sicker when an organ is found.

18 (10) An increase in minority organ donations
19 would decrease the waiting time and increase the
20 likelihood of successful transplantations for minori-
21 ties.

22 **SEC. 2. ELIGIBILITY REQUIREMENTS FOR STEPHANIE**
23 **TUBBS JONES GIFT OF LIFE MEDAL.**
