## RESOLUTION

Recognizing the importance of connecting foster youth to the workforce through internship programs, and encouraging employers to increase employment of former foster youth.

Whereas, on any given day, there are more than 500,000 youth in foster care in the United States;

Whereas an estimated 26,000 of these youth are discharged from the foster care system or “age out” with little to no resources to start their own lives;

Whereas the people of the United States have a sincere appreciation for the circumstances that place children in foster care;

Whereas foster youth possess unique qualities and skills that make them ideal candidates for employment, but compared to youth nationally and youth from low-income families, they are less likely to be employed or employed regularly;

Whereas, when afforded comprehensive support, this resilient population excels in the job market;

Whereas, within 18 months after leaving foster care, 25 percent of foster youth become homeless and comprise more than a quarter of the United States homeless population;

Whereas, without positive intervention, youth who age out of foster care often have bouts of homelessness, criminal activity, and incarceration;

Whereas addressing job readiness early in the transition to adulthood is critical to shaping the future trajectories of these youth; and

Whereas youth who begin connecting to the workforce prior to discharge from foster care maintain the highest probability of employment: Now, therefore, be it
