## IN THE HOUSE OF REPRESENTATIVES

## RESOLUTION

Recognizing the importance of connecting foster youth to the workforce through internship programs, and encouraging employers to increase employment of former foster youth.

- Whereas, on any given day, there are more than 500,000 youth in foster care in the United States;
- Whereas an estimated 26,000 of these youth are discharged from the foster care system or "age out" with little to no resources to start their own lives;
- Whereas the people of the United States have a sincere appreciation for the circumstances that place children in foster care;

- Whereas foster youth possess unique qualities and skills that make them ideal candidates for employment, but compared to youth nationally and youth from low-income families, they are less likely to be employed or employed regularly;
- Whereas, when afforded comprehensive support, this resilient population excels in the job market;
- Whereas, within 18 months after leaving foster care, 25 percent of foster youth become homeless and comprise more than a quarter of the United States homeless population;
- Whereas, without positive intervention, youth who age out of foster care often have bouts of homelessness, criminal activity, and incarceration;
- Whereas addressing job readiness early in the transition to adulthood is critical to shaping the future trajectories of these youth; and
- Whereas youth who begin connecting to the workforce prior to discharge from foster care maintain the highest probability of employment: Now, therefore, be it
